04. Gratuities. When a gratuity is paid in addition to the price of a meal, no sales tax applies to the gratuity. A gratuity can be paid voluntarily by the customer or be required by the seller. A gratuity is also commonly known as a tip. (7-1-21)

a. If a gratuity does not meet all of the following requirements, the gratuity will be taxable: (7-1-21)

i. It is paid to the service provider of the meal as additional income to the base wages of the service provider; (7-1-21)

ii. It is separately stated on the receipt or be voluntarily paid by the customer; and (7-1-21)

iii. It is not used to avoid sales tax on the actual price of the meal. (7-1-21)

b. For the purposes of Subsection 043.04 of this rule, the following definitions apply: (7-1-21)

i. Meal. Food or drink prepared for or provided to a customer. (7-1-21)
ii. Service provider. An individual directly involved in preparing or providing a meal to a customer. This includes, but is not limited to, the server, the busser, the cook and the bartender. This does not include individuals who manage or own the company if they are not directly involved in preparing and providing a meal.

05. Service Charges. Amounts designated as service charges, added to the price of meals or drinks, are a part of the selling price of the meals or drinks and accordingly, are included in the taxable sales price, even if the service charges are made in lieu of tips and paid over by the retailer to his employees.

044. TRADE-INS, TRADE-DOWNS AND BARTER (RULE 044).
Sections 63-3612, 63-3613, 63-3621, Idaho Code

01. Trade-Ins. A trade-in is the amount allowed by a retailer on merchandise accepted as payment for other merchandise. Merchandise is tangible personal property which is, or becomes, part of an inventory held for resale.

02. Trade-In Allowance. When a retailer sells merchandise from his resale inventory and lets the customer trade in other goods which the retailer places in his resale inventory, the taxable sales price of the merchandise may be reduced by the amount allowed as trade-in. To qualify for the trade-in allowance, the property traded in meets all of the following criteria:
   a. The property is consideration delivered by the buyer to the seller;
   b. The sales documents, executed not later than the time of sale, identify both the property being purchased and the property being traded in; and
   c. The delivery of the trade-in and the purchase are components of a single transaction.
   d. Example: A customer buys a car from a dealer for four thousand dollars ($4,000). A trade-in of one thousand five hundred dollars ($1,500) is allowed for the customer’s used car. Tax is charged on two thousand five hundred dollars ($2,500).

03. Trade-Downs. A trade-down is a transaction in which a vendor accepts a trade-in from the customer that equals or exceeds the value of the merchandise sold to the customer. The taxable sales price is reduced to zero (0) and no sales tax is due on the transaction.

04. Disallowed Trade-In Allowances.
   a. Private Party Transactions. A trade-in allowance is not allowed on transactions between individuals because the trade-in property does not become a part of an inventory held for resale.
       i. Example: Two (2) individuals exchange cars of equal value. No money, property, service, or consideration other than the cars are exchanged. Both parties pay tax on the fair market value of the vehicle received in the barter.
       ii. Example: Two (2) individuals, neither of whom are car dealers, exchange cars of different values. Tom’s vehicle, which is worth ten thousand dollars ($10,000), is transferred to Bill. Bill’s car, which is worth eight thousand dollars ($8,000), is transferred to Tom. Bill pays Tom two thousand dollars ($2,000). The trade-in allowance is not applicable because neither car is merchandise. Tom pays use tax on eight thousand dollars ($8,000); Bill pays use tax on ten thousand dollars ($10,000).

   b. Manufactured Homes, New Park Model Recreational Vehicles, and Modular Buildings. Trade-in allowances are not allowed on the sale of manufactured homes, new park model recreational vehicles, and modular buildings. See IDAPA 35.01.02.048 of these rules.

05. Insurance Settlements. An insurance settlement does not qualify as a trade-in. Example: Tom is involved in a car accident. His insurance company determines the damage exceeds the value of the car and settles...
with Tom on that basis. If Tom buys another car, he pays sales tax on the entire sales price of the replacement car.

06. Core Charges. Parts for cars, trucks, and other types of equipment are often sold with an added core charge. When the used core is returned, the core charge is refunded. This is essentially a trade-in of a used part for a new part. Since the seller cannot be certain that the customer will return a reusable core, such core charges are taxable. The tax on the core charge will be refunded by the seller at the time credit for the core charge is allowed.

07. Trade-In for Rental/Lease Property. When tangible personal property is traded in as part payment for the rental or lease of other tangible personal property, sales tax applies to all payments made after the value of the trade-in property has been depleted and the lessor begins charging for the lease or rental. The methods of applying the trade-in value to the lease are:

a. The trade-in value may be subtracted from the value of the leased or rented property, thereby reducing the monthly payments and the sales tax due on those payments.

b. The trade-in value may be subtracted from the initial lease payments, with no sales tax due on those payments until it is used up.

c. A combination of the two methods, above.

d. Example, a lessor leases a car for thirty-six (36) months at two hundred fifty dollars ($250) per month. The value on which the lease payments are based is ten thousand dollars ($10,000). The customer trades in a car worth two thousand dollars ($2,000).

i. Alternative 1: The customer and lessor agree to reduce the value on which the lease is based by two thousand dollars ($2,000) and reduce the payments to only two hundred dollars ($200) per month for thirty-six (36) months. Sales tax is due on each two hundred dollar ($200) payment.

ii. Alternative 2: The customer and lessor agree to apply the two thousand dollar ($2,000) trade-in allowance against the two hundred fifty dollar ($250) per month payments for the first eight (8) months of the lease. Sales tax is not due until the trade-in value is used up and the lessee is required to begin making monthly payments.

iii. Alternative 3: The customer and lessor agree to combine the methods and apply one thousand dollars ($1,000) against the value on which the lease is based and use the remaining one thousand dollars ($1,000) against the monthly payments, reducing the sales tax liability accordingly.

08. Rental/Lease Property Traded-In. When a person disposes of tangible personal property that is leased and assigns his right to purchase the leased property to the retailer, no trade-in allowance is given for the amount of the residual buyout paid by the retailer. However, if the residual buyout amount which the lessee would pay to purchase the property is less than the amount that would be allowed by the retailer as a trade-in if the lessee had actually owned the vehicle, then the taxable sales price may be reduced by the difference between the total trade-in amount and residual buyout.

a. Example: A person is the lessee of an automobile. Near the end of the lease term, the lessee enters into an agreement to purchase a new vehicle from an automobile dealer. The residual buyout amount for the leased vehicle is ten thousand dollars ($10,000). The retailer would allow nine thousand dollars ($9,000) as a trade-in amount if the lessee owned the vehicle. Since the amount the automobile dealer is willing to allow as a trade-in is not greater than the residual buyout amount, there is no reduction in the taxable sales price.

b. Example: A lessee trades in his leased automobile for a new vehicle. The residual amount is ten thousand dollars ($10,000). The automobile dealer allows twelve thousand dollars ($12,000) as a trade-in. In this case, the sales price of the new vehicle is reduced by the difference between the residual amount and the total trade-in, or two thousand dollars ($2,000).
045. RESCINDED SALE, REFUNDS OF PURCHASE PRICE (RULE 045).
Sections 28-2-608, 63-3612, 63-3613, Idaho Code

01. A Rescinded Sale. A transaction in which the seller and buyer place each other in the same positions they were in prior to entering into any taxable transaction; and a transaction which meets the rules of the Uniform Commercial Code for revoking acceptance in whole or in part. See Section 28-2-608, Idaho Code.

02. Refund of Remitted Sales Tax. Where a seller has collected and remitted tax on the sale and has refunded it to the buyer on rescission, the Commission will refund or credit the seller accordingly. The burden of proving a rescission is on the person claiming the refund or credit on a rescinded sale. See Rule 117 of these rules.

03. Amount Refunded Reduced. If the seller reduces the amount refunded to the buyer on returned merchandise to recover depreciation, buyer usage or other costs, the amount of the reduction is considered a charge by the seller to the buyer for use of the tangible personal property and is taxable in the same manner as a rental. The amount of sales tax refunded to the buyer must be reduced accordingly.

04. Restocking Charge. If a seller places a restocking charge on returned merchandise, the charge is not taxable. A restocking charge is a fee charged by a seller to cover his time and expense in returning goods to resale inventory when the buyer has not used the goods in a way that decreases their value.

05. Required to Buy Other Property. If the customer, in order to retain the refund, is required to buy other property at a higher price, there is no refund and the amount credited on the subsequent purchase is treated as a trade-in. The seller must charge the customer sales tax on the difference between the amount credited and the sales price of the other property.

06. Documentation. In order to obtain refund credit, the seller must keep adequate documents to support his claim for refund or adjustment.

046. COATINGS ON TANGIBLE PERSONAL PROPERTY (RULE 046).
Sections 63-3612, 63-3613, Idaho Code

01. Coatings Generally. A coating is a substance covering the surface of tangible personal property usually intended to improve the durability or aesthetic appeal of the tangible personal property to which it is applied. There are a variety of coatings including paint, powder coating, chrome plating, spray-on bedliners, and anodized coatings. Effective July 1, 2014, this rule applies to all types of coatings and it is intended that such coatings receive the same tax treatment. This rule does not apply to coatings applied directly to real property such as paint applied to the walls of a building.

02. Coatings are Tangible Personal Property. The materials applied to tangible personal property to produce a coating are tangible personal property both before and after the application process. Therefore, unless an exemption applies, the sale of a coating is a taxable sale.

03. Material Charges. Unless an exemption applies, the materials portion of a sale of a coating is taxable. If the seller is unable to measure the exact amount of material used, a reasonable method of estimation is acceptable.

04. Nontaxable Labor Charges. In any of the following circumstances, the labor to apply a coating will be nontaxable labor:

a. A previous coating is removed and replaced with a new coating, regardless of any differences in quality between the two (2) coatings.

b. A coating is applied to used tangible personal property on top of an already existing coating.
c. Example 1: A vendor applies a spray-on bedliner to an individual’s truck bed. The truck bed surface is already coated with automotive paint. The materials charge is taxable, but the labor is not taxable. (7-1-21)

05. Taxable Labor Charges. In any of the following circumstances, the labor to apply a coating will be taxable labor:

a. A coating is applied to new tangible personal property, regardless of whether the tangible personal property already has a coating except those exempted in Section 63-3622OO, Idaho Code. (7-1-21)

b. A coating is applied to new or used tangible personal property that has never been previously coated. (7-1-21)

06. Separate Statement. For circumstances under which the labor portion of the transaction is exempt, both materials and labor are to be separately stated on the customer’s billing statement. If there is no separate statement of materials and labor, the entire transaction is taxable. (7-1-21)

07. Used Tangible Personal Property. For purposes of this rule, tangible personal property is used if the tangible personal property has been previously put to the use for which it was intended. If a contractor hires someone to apply a coating to tangible personal property that the contractor intends to incorporate into real property, the tangible personal property has not been put to the use for which it was intended and is considered new tangible personal property.

a. Example 1: A contractor hires someone to apply a coating to metal ducting. The contractor intends to incorporate the metal ducts into a ventilation system in a building. Since the ducting has not yet been put to the use for which it was intended, it is not used tangible personal property and all labor and material charges will be taxable. (7-1-21)

b. Example 2: A person buys a piece of furniture for use in the home. The person uses the drawers for a year before hiring someone to apply a stain to the drawers. At that point, the drawers are used tangible personal property. If the drawers had a previous coating of any kind, the labor to apply the stain will be nontaxable. If the drawers had no previous coating, the labor to apply the stain will be taxable. (7-1-21)

c. Example 3: A company buys equipment from a supplier. Before the equipment is ever put to the use for which it was intended, the company takes the equipment to be coated by a different supplier. Since the equipment has not yet been put to the use for which it was intended, it is new tangible personal property. Regardless of whether the equipment already has a coating, both the materials and labor to apply the new coating are taxable. (7-1-21)

08. Tangible Personal Property Held for Resale. For new or used tangible personal property held by a seller as part of its inventory, any labor costs incurred to apply a coating to the tangible personal property and charged to the end consumer are taxable services agreed to be rendered as part of the sale of the tangible personal property. The labor charges are exempt only if the sale of the tangible personal property is exempt or if the labor is exempted by Section 63-3622OO, Idaho Code. However, if the seller pays a third party to apply a coating to tangible personal property in its inventory, the seller may claim a resale exemption on the transaction.

a. Example 1: A dealership has a used truck in its inventory. A customer will purchase the truck on the condition that the dealership will apply a spray-on bedliner. The dealership hires another company to apply the spray-on bedliner and pays three hundred dollars ($300) for the job (split evenly between materials and labor). The dealership fills out a resale exemption certificate for the spray-on bedliner company. No tax should be charged on this transaction. The dealership then charges its customer five hundred dollars ($500) (split evenly between materials and labor) and separately states these charges from the sales price of the truck. The materials charge is a taxable sale of tangible personal property. The labor charge is a taxable service agreed to be rendered as part of the sale of the truck. The dealership charges tax on the entire five hundred dollars ($500). (7-1-21)

09. Exemptions. Like any sale of tangible personal property, if the customer provides a valid exemption certificate to the seller claiming an exemption that applies to the transaction, the seller has no obligation to collect sales tax on the transaction. The seller maintains a copy of the exemption certificate on file. See Rule 128 of
these rules for additional information. (7-1-21)T

047. OUTFITTERS, GUIDES, AND LIKE OPERATIONS (RULE 047).
Sections 63-3612, 63-3613, Idaho Code

01. In General. Fees charged for services performed by outfitters, guides, dude ranches, hunting and fishing lodges, or camps are charges for the use of, or privilege of using, tangible personal property or other facilities for recreation. Fees charged by outfitters and like operations for providing outdoor recreational services are taxable. (7-1-21)T

a. An outfitter is any person who holds himself out to the public for hire to conduct outdoor recreational activities, including: hunting animals or birds; float or power boating of rivers, lakes, and streams; fishing; hiking; skiing; hazardous desert or mountain excursions; and other recreational activities. (7-1-21)T

b. A guide is a person employed by an outfitter to furnish personal services for the conduct of outdoor recreational activities. (7-1-21)T

02. Services Performed in More Than One State. When an outfitter’s service to a client takes place in more than one (1) state, and the customer receives an invoice from the outfitter that separately displays the Idaho portion of the charges from those of the other states, only the Idaho portion is subject to Idaho sales tax. (7-1-21)T

a. When an outfitter’s service to a client takes place in more than one (1) state and the outfitter fails to separately state the Idaho portion of the charges from those of other states, sales tax must be charged on the total amount. (7-1-21)T

03. Government Use Fee. Land and water use fees imposed on outfitters, such as the three percent (3%) fee paid to the U.S. Forest Service, are not taxable when separately stated on the customer’s invoice. (7-1-21)T

04. Prepaid Travel Expense. When an outfitter’s invoice separately states prepaid travel expenses such as lodging, and the outfitter has paid sales tax, when applicable, to vendors providing the travel services, the outfitter will not be required to tax that portion of his bill to the customer. Example: An outfitter’s bill to a client for a seven (7) day hunt and prepaid travel expenses should read:

<table>
<thead>
<tr>
<th>SEVEN-DAY HUNT</th>
<th>FEE</th>
<th>IDAHO SALES TAX</th>
</tr>
</thead>
<tbody>
<tr>
<td>Airline Ticket (New York/Boise)</td>
<td>$500</td>
<td>$0.00 (none)</td>
</tr>
<tr>
<td>1 Night Lodging, Motel X Boise (Outfitter has paid tax to Motel X)</td>
<td>$50</td>
<td>$0.00 (none)</td>
</tr>
<tr>
<td>7 Day Hunt</td>
<td>$1,500</td>
<td>$75.00 (on 100%)</td>
</tr>
</tbody>
</table>

(7-1-21)T

05. Lodging. If an outfitter provides overnight lodging for a client at a facility operated by the outfitter, charges for the lodging are taxable and hotel/motel taxes as provided by IDAPA 35.01.06, “Hotel/Motel Room and Campground Sales Tax Administrative Rules,” Rule 011. (7-1-21)T

06. Equipment Rental. When an outfitter rents equipment such as ground sheets, sleeping bags, rain gear, boots and dry bags, to his client for use during the recreational activity, sales tax must be charged on the equipment rental. (7-1-21)T

07. Game Processing, Packing, and Taxidermy. When an outfitter bills a client for game processing, packing, or taxidermy services, sales tax must be charged on the entire fee to the client. The outfitter will provide the vendor of the services with a properly completed resale certificate. (7-1-21)T

08. Prepurchased Hunting and Fishing Licenses. When an outfitter purchases a hunting or fishing license for a client and separately states the fee on the billing to the client, no sales tax applies to the license fee. (7-1-21)T
09.   Travel Agency Services.  

   a. When outfitter services are purchased by a client through a travel agency and the outfitter bills the travel agency for the fee, the amount billed to the travel agency is taxable. In this case, the agency is acting as an agent for the client and the additional fee charged by the agency to the client is not taxable.  

   b. When outfitter services are arranged for a client by a travel agency but the outfitter bills the client, the amount billed to the client is taxable. In this case, the agency is acting as the agent of the outfitter and the fee paid to the travel agency by the outfitter cannot be deducted from the measure of the taxable sale. Even if the outfitter separately states the travel agency fee on his billing to the client, he is required to charge tax on the total amount.  

   c. When an outfitter, Outfitter X, books a client and hires a second outfitter, Outfitter Y, to provide the services to the client, Outfitter X is required to charge the client sales tax on the full fee. Outfitter Y can obtain a resale certificate from Outfitter X otherwise, Outfitter Y has a requirement to charge sales tax on the services provided to Outfitter X.  

   a. Outfitters must pay tax when purchasing equipment and supplies for use in their business. Examples include boats, rafts, oars, motors, horses, tack, llamas, transportation equipment, camp gear, cooking gear, animal feed, brochures, and promotional give-away items.  

   b. When an outfitter maintains an inventory of gear, such as ground sheets, sleeping bags, boots, rain gear, and dry bags, which is exclusively held for rental to clients, the outfitter may purchase the gear without tax in the manner previously described. The outfitter may purchase gear without paying tax only if the gear is rented to clients as a separate line item on the invoice to the client and sales tax is charged to the client. If gear is provided to clients as a part of the outfitter package fee, the outfitter must pay tax when purchasing the gear.  

   c. When an outfitter arranges travel accommodations for his client and pays the vendors of lodging, and restaurant or catered meals, he must pay sales tax, as well as other applicable hotel/motel taxes, to the vendors. When an outfitter purchases food that he will prepare and furnish to clients, no sales tax applies if the outfitter provides a resale certificate. The outfitter must then collect a tax from his client on the sale of the furnished food. Alternatively, an outfitter may buy food and pay tax on the purchase. Under this alternative, the outfitter will include the cost of the food in his nontaxable charges to his client.  

   d. When an outfitter purchases the services of a taxidermist or meat processor on behalf of his client, he should not pay tax to the vendor by providing the vendor with a properly completed resale certificate. The outfitter must charge tax to his client on this fee.  

11.   Federal Preemption. The National Maritime Transportation Security Act of 2002, enacted November 25, 2002, prohibits the states from imposing tax on any vessel or other water craft, or its passengers or crew if the vessel or water craft is operating on any navigable waters. The Tax Commission interprets this statute to mean that states are prohibited from taxing sales of rafting and jet boating trips if they occur on navigable waters. See 33 U.S.C. Section 5. If Congress repeals the preemption sales of rafting trips will become taxable on the effective date of the repeal. This interpretation is subject to judicial review and could change, depending on rulings from state or federal courts.  

048.   MANUFACTURED HOMES (MOBILE HOMES) AND MODULAR BUILDINGS (RULE 048).  

Sections 39-4105, 39-4301, 63-3605J, 63-3606, 63-3612, 63-3613, 63-3621, Idaho Code  

01.   New Manufactured Home. When a manufactured home is sold at retail for the first time, it is taxable on fifty-five percent (55%) of the purchase price. The purchase price of a new manufactured home includes all component parts and any setup or transportation fees charged by the dealer. No trade-in allowance is permitted.
02. Modular Building. When a modular building is sold at retail, it is taxed on fifty-five percent (55%) of the purchase price including all component parts. No trade-in allowance is permitted. (7-1-21)T

03. Used Manufactured Home. Only the sale of a new manufactured home is taxable. After the first sale at retail of a manufactured home, any subsequent retail sale of the unit is a sale of a used manufactured home. The sale of a used manufactured home is exempt from tax, whether or not the original sale was taxable and without regard to whether the sale is made for use within or without Idaho or whether sold by a dealer. A dealer who sells both new and used manufactured homes is to maintain adequate records to establish which sales are taxable and which are exempt for sales tax audit purposes. (7-1-21)T

04. Sale of Office Trailer. An office trailer is a structure which is built on a permanent chassis, is transportable in one (1) or more sections and is designed for use as an office. An office trailer does not qualify as a manufactured home, because it is not designed for use as a dwelling, nor does it qualify as a modular building, because it is not designed to be affixed to real property. When an office trailer is sold at retail, it is taxed on one hundred percent (100%) of the purchase price, including all furniture, fixtures, and appliances, whether the office trailer is new or used. (7-1-21)T

05. Component Parts. Component parts include items incorporated by the manufacturer which remain unchanged at the time of the original retail sale, such as sinks, cabinetry, closet doors, central heating and cooling, garbage disposals, water heaters, and carpeting. Refrigerators, ranges, draperies, and wood burning stoves placed in the unit by the manufacturer are also component parts. (7-1-21)T

06. Noncomponent Parts. All fixtures, furniture, furnishings, appliances, and attachments not incorporated as a component part of a new modular building or manufactured home are taxable separately and distinctly from the sales price of the modular building or manufactured home. Such items are to be separately stated on the sales invoice and tax will be assessed on the separately stated items on their full retail value. (7-1-21)T

07. Repairs. Repairs to or renovations of used modular buildings or manufactured homes are repairs to real property, irrespective of whether the unit is affixed to real property or whether the unit is held for resale. Materials used to repair or renovate a used modular building or manufactured home are taxable at the time of purchase or use tax at the time of use. (7-1-21)T

049. WARRANTIES AND SERVICE AGREEMENTS (RULE 049).
Sections 63-3612, 63-3613, Idaho Code

01. Warranties and Service Agreements. Warranties or service agreements may be furnished by the manufacturer or seller upon the sale, lease, or rental of tangible personal property by any of the following means:

a. Including the price of the warranty or service agreement as part of the sales, lease, or rental price of the tangible personal property. (7-1-21)T

b. Separately stating the price of the warranty or service agreement, but requiring the purchase of the warranty or service agreement as a condition of the sale, lease, or rental of tangible personal property. (7-1-21)T

c. Allowing the buyer the option of purchasing a separately stated warranty or service agreement. (7-1-21)T

02. Separate Optional Contract. Service agreements may also be offered as a separate optional contract on tangible personal property not owned or sold by the seller of the service agreement. (7-1-21)T

03. Services Agreed to be Rendered. Services agreed to be rendered as a condition of a warranty or service agreement may be performed by the seller of the warranty or service agreement or by any dealer or repair facility that the seller may appoint to perform the repair or service. (7-1-21)T

04. Non-Optional Warranty or Service Agreement. If the warranty or service agreement is required as a condition of the sale, lease, or rental of tangible personal property, the gross sales price is taxable whether or not
the charge for the warranty or service agreement is separately stated from the sales price of the tangible personal property.

a. When parts are replaced by the seller of the warranty or service agreement, no tax is imposed on the purchase of the parts by the seller. The parts replaced are considered to have been taxed at the time the warranty or service agreement was sold.

b. When a third-party dealer or repair facility performs the repair, the seller of the warranty or service agreement may provide the repairer with a resale certificate. See Rule 128 of these rules.

05. Optional Warranty or Service Agreement. If the warranty or service agreement is optional to the buyer, no sales tax is charged on the sale of the warranty or service agreement. A taxable transaction occurs when the seller of the warranty or service agreement performs the repair.

a. If the seller of the warranty or service agreement performs the repair and purchases parts for the repair or uses parts from his inventory, he will pay sales or use tax upon the parts when they are applied by him.

b. When a third-party dealer or repair facility performs the repair and bills the seller of the warranty or service agreement, the third-party dealer or repair facility will separately state and charge sales tax on the parts to the seller of the warranty or service agreement.

c. The seller of the warranty or service agreement will pay sales or use tax on parts for the repairs, even if the buyer qualifies for any exemption under the Idaho Sales and Use Tax Act or rules.

06. Parts in Addition to Warranty Fee. Regardless of any of the above, if the seller of the warranty or service agreement fee, sales tax is charged to the buyer on the sales price of the parts.

07. Replacement Parts and Maintenance Supplies. As used in this rule, a warranty or service agreement applies to replacement parts and maintenance supplies that become a part of the tangible personal property that is being serviced. The sale of other tangible personal property, such as paper for a copy machine, must be separately stated from any warranty or service agreement fee and sales tax charged to the buyer.

08. Cross-Reference.

a. See Section 037.03 of these rules. Sales of Aircraft Repair Parts to Nonresidents.

050. VETERINARIANS AND VETERINARY SUPPLIES (RULE 050).

Sections 63-3612, 63-3613, 63-3622, 63-3622D, Idaho Code

01. In General. Fees charged by a veterinarian for professional services are not taxable. Tangible personal property used or consumed by a veterinarian or sold by a veterinarian is taxable in accordance with the provisions of this rule.

02. Drugs and Other Supplies. Drugs and other supplies used by a veterinarian while treating animal patients are tangible personal property consumed by the veterinarian in the course of providing services. If the veterinarian has not paid sales tax on his purchase of the drugs or supplies, a use tax is owed by the veterinarian.

03. Services Provided to Exempt Customers. The veterinarian’s use of drugs is taxable even though he may be providing services to a cattle rancher, dairyman or other producer because the drugs are consumed by the veterinarian and not by the producer. Since the production exemption is available only to persons engaged in a production business, the veterinarian does not benefit from the exemption.

04. Retail Sales of Drugs and Supplies. The sale of drugs and veterinary supplies is a retail sale and veterinarians making such sales collect and remit sales tax on those sales. However, the sale of drugs and veterinary supplies to a person operating a stock, dairy, poultry, fish, fur, or other ranch for gain or profit is exempt if
documented by an exemption certificate as provided in Rule 128 of these rules.

05. Equipment and Supplies. Tangible personal property purchased or acquired by the veterinarian for the operation of his business including professional instruments and supplies, and office furnishings and equipment are taxable.

051. DISCOUNTS, COUPONS, REBATES, AND GIFT CERTIFICATES (RULE 051).

Sections 63-3612, 63-3613, Idaho Code

01. Adjustments That Apply After Tax Calculation. Tax must be charged before deducting the following:

a. Cash discounts. A cash discount is a discount offered by a retailer to a buyer as an inducement for prompt payment. Sales tax must be computed on the full amount of the purchase price before the cash discount is subtracted. When an invoice or other billing document states that a discount will be allowed if payment is made before a certain date, then the discount is presumed to be a cash discount. Discounts allowed on payments received after the stated date are presumed to be cash discounts unless proven to the contrary by clear and convincing evidence.

b. Manufacturer’s rebates. A manufacturer’s rebate means a cash payment made by a manufacturer to a consumer who has purchased or is purchasing the manufacturer’s product from the retailer. Except as provided by Subsection 051.02 of this rule, sales tax is computed on the full amount of the purchase price without regard to the manufacturer’s rebate. Any rebate received by the buyer from the manufacturer, distributor, or any person other than the retailer will not reduce the retail sales price taxable. Rebates paid by a retailer to the consumer will also be included in the taxable price if the retailer has been reimbursed by a third party, such as the manufacturer.

c. Manufacturer’s discount. A manufacturer’s discount is a price reduction offered by a manufacturer to a consumer for purchasing their product from a retailer who is then reimbursed that amount by that manufacturer. Sales tax is computed on the full amount of the purchase price before subtracting the coupon amount. This includes coupons issued by a manufacturer allowing the buyer to buy one item and get a second item free if the retailer will be reimbursed by the manufacturer.

d. Food Stamps and WIC. Purchases of food with coupons issued under the Federal Food Stamp Program or food checks issued by the Federal Special Supplemental Food Program for Women, Infants, and Children (WIC), are exempt from sales or use tax. When a buyer uses manufacturer’s discount coupons along with food stamps or WIC checks to purchase food items that qualify under these programs, the discount value of the coupon is taxable. For example, a food stamp recipient purchases fifteen dollars ($15) worth of eligible food, surrenders manufacturer’s discount coupons valued at two dollars ($2), and pays with thirteen dollars ($13) in food stamps. Sales tax is due on the two dollar ($2) discounted amount. The buyer may not use food stamps or WIC checks to pay sales tax due.

02. Adjustments That Apply Before Tax Calculation. Tax is charged after the deduction of the following:

a. Trade discounts. A trade discount is a reduction from the posted or listed price offered by a retailer which is not an inducement for prompt payment and which, when applied to the posted or listed price, establishes the true selling price to be paid by the buyer.

b. Retailer’s rebates. A retailer’s rebate is an amount of money or property paid by a retailer to a buyer which is conditioned upon the recipient making a purchase from the retailer. However, if a retailer is reimbursed by a manufacturer or other third party, the transaction is not a retailer's rebate and the rebate amount is included in the taxable sales price. This would be the case when a buyer sends the rebate claim to the retailer, the retailer sends the rebate amount to the buyer and the manufacturer reimburses the retailer.

c. Retailer discount coupons. Retailer discount coupons are issued by a retailer which entitle the holder to purchase the issuing retailer’s products at less than the posted or listed retail price.
d. Manufacturer’s motor vehicle rebates. Effective July 1, 1990, a manufacturer’s rebate offered to a buyer of a motor vehicle may be deducted from the purchase price of the vehicle before computing the tax if the rebate is used to reduce the retail sales price of the vehicle, or is used as a down payment on the purchase. The dealer’s customer invoice shows the manufacturer rebate as a deduction to, or down payment on, the purchase price of the vehicle. Only manufacturer rebates offered on motor vehicles qualify for the exclusion from tax. Manufacturer rebates offered on trailers, off-highway equipment, and other property will be treated as discussed in Subsection 051.01.b. of this rule.

03. Coupon Books. (7-1-21)T
   a. The sale of a coupon book that contains coupons offering discounts is deemed to be the sale of an intangible and is therefore not taxable. (7-1-21)T
   b. When the buyer of a coupon book redeems one (1) of the coupons, the discount allowed by the coupon is not included in the taxable sales price if the retailer is not reimbursed by a manufacturer or other third party. (7-1-21)T

04. Donated Goods. The donor is the consumer of donated goods and must pay sales or use tax on the purchase price of the goods. (7-1-21)T

05. Gift Certificates. A gift certificate purchased from a vendor entitles a recipient to tangible personal property or services when presented to the vendor. The purchase of a gift certificate is not a taxable transaction. When the gift certificate is presented for redemption a sale is consummated. If the sale is a transfer of tangible personal property, the vendor collects sales tax at the time of sale. Tax applies to the purchase price of the tangible personal property, irrespective of any cash refunded on any difference between the face value of the gift certificate and the purchase price. If the sale is for services not taxable under the Sales Tax Act, the vendor will not collect sales tax. (7-1-21)T

06. Buy One Get One Free Discounts. If a retailer offers a “buy one get one free” discount in which the buyer purchases an item and receives another item of the same kind at no additional charge, the taxable sales price is the actual price paid after the discount is taken. Use tax is not applicable to the item sold at no charge; however, if a manufacturer’s discount allows the buyer to receive a free item for which the retailer will be reimbursed by the manufacturer the taxable sales price is the full amount before the discount is calculated. (7-1-21)T

07. Complimentary Gift with Purchase of an Item. (7-1-21)T
   a. If a retailer offers a complimentary item to a customer at the time of, and in connection with, the sale of tangible personal property, the gift is considered a part of the sale. The item given away is deemed to be purchased for resale by the retailer; however, if the sale is of an item exempt from tax and the sale of the gift item would have been taxable, the retailer is responsible for use tax on the gift. This subsection applies only to sales of tangible personal property.
      i. Example: A retailer advertises that every buyer of a refrigerator will receive a bike at no additional charge. Since both the bike and the refrigerator were purchased for resale, the retailer would not owe tax when it purchases either. When it sells the bike together with the refrigerator, the taxable amount is the sales price of the refrigerator. (7-1-21)T
      ii. Example: A retailer offers to give a free coffee mug to anyone who purchases fifteen (15) gallons of gas. Since the sale of the gasoline is exempt pursuant to Section 63-3622C, Idaho Code, the retailer would not charge any tax to the buyer. The retailer must pay use tax on its purchase price of the coffee mug. (7-1-21)T
   b. If a retailer offers to give away a promotional item to anyone with no purchase required, then the retailer did not purchase the promotional item for resale. The retailer pays sales or use tax on its purchase price of the promotional items given away.
   c. This rule applies only to items given away by sellers of tangible personal property. See Rule 028 of these rules for items given away by hotels and motels. See Rule 041 of these rules for items given away by...
052. SALE OF TANGIBLE PERSONAL PROPERTY RELATING TO FUNERAL SERVICES (RULE 052).
Sections 54-1103, 63-3609, 63-3612, 63-3613, 63-3622, 63-3622U, Idaho Code

01. In General. The sale of tangible personal property relating to funeral services by a licensed funeral establishment is exempt from tax.

02. Sales by Licensed Funeral Directors. The exemption applies only when, at the time of sale, the seller is a person holding a valid funeral director’s license issued pursuant to the authority of Title 54, Chapter 11, Idaho Code. A sale made by any seller not so licensed is not exempt under this provision. For example, a casket sold by a licensed funeral director as part of a funeral service is exempt. The funeral director’s purchase of the casket is a purchase for resale and, therefore, excluded from the tax. The purchase of a memorial marker is not an integral part of the funeral service. Accordingly, it is not included within the exemption for tangible personal property related to a funeral service. The purchase of a memorial marker, therefore, is a taxable transaction regardless of whether it is sold by a licensed funeral director or by another. Sales of tombstones and grave markers, which are embedded in the sod or set on foundations, are taxable. The retail selling price includes the charge for cutting, shaping, polishing and lettering.

03. Purchases by Licensed Funeral Directors. The exemption does not include the sales to and purchases by funeral directors of equipment and supplies used and consumed by funeral directors in the course of providing funeral services. The funeral director’s purchase of equipment and supplies used for embalming and preparing bodies for burial and all other tangible personal property used or consumed by the funeral director in the course of his business operations to which title does not pass from the funeral director is taxable.

04. Caskets, Vaults, and Burial Receptacles. Caskets, vaults and burial receptacles are exempt when sold by a licensed funeral director as a part of funeral services, even though they may be improvements to real property. The funeral director is not a person engaged in improving real property within the meaning of Section 63-3609(a), Idaho Code; and, therefore, his purchase of these items is not taxable. However, the construction of a building for use as a mausoleum is an improvement to real property and the sale or use of the materials for the construction of the mausoleum creates a taxable incident and is taxed in the same manner as other persons improving real property. See Rule 012 of these rules.

05. Use Tax. When licensed funeral directors purchase equipment and supplies from suppliers who do not collect and remit Idaho sales tax, the funeral directors will be required to report and remit use tax on their taxable purchases.

06. Documenting Purchases for Resale. Funeral directors purchasing tangible personal property for resale will be required to document the purchase for resale by providing their seller with a resale certificate. See Rule 128 of these rules. The purchase by the funeral director of such items as caskets and special clothing is a purchase for resale, even though the sale of the same property by the funeral director is exempt.

07. Seller's Permit Required. A funeral director is to apply for and maintain a valid seller’s permit. The seller’s permit number and sales tax returns are used to report use tax on those items which are subject to use tax. The funeral director should also report sales tax on the isolated retail sales of tangible personal property which may be made but which are not related to the providing of any funeral service.

053. FEES CHARGED FOR FAX SERVICES (RULE 053).
Sections 63-3612, 63-3616, Idaho Code

01. Sending a Fax. A fee charged for sending a fax is not taxable.

02. Receiving a Fax. A fee charged by a print shop, hotel, or other retailer to a person receiving and printing a fax is a fee charged for a photocopy and is a taxable sale of tangible personal property.

054. PERSONS ENGAGED IN PRINTING (RULE 054).
Sections 63-3612, 63-3613, 63-3616, 63-3621, 63-3622, Idaho Code

01. Private Printing Plants. Persons operating private printing plants in conjunction with their principal business pay sales or use tax on the purchase of equipment and supplies used to produce display signs, advertising brochures, and other materials for their own consumption. (7-1-21)

02. Printing upon Special Order. Persons primarily engaged in the printing of tangible personal property upon special order for a consideration may purchase equipment and supplies directly used to produce such property exempt from sales or use tax. (7-1-21)

a. The sale of typography, art work, photoengraving, electros, mats, stereotypes, hand or machine composition, lithographic plates or negatives, electrotypes, etc., to a person primarily engaged in the printing of tangible personal property for a consideration, and to be used directly by such person is deemed essentially sales of service or exempt materials and not taxable. (7-1-21)

b. When purchasing goods exempt from tax, the printer provides the seller with a properly completed exemption certificate. See Rule 128 of these rules. (7-1-21)

03. Sales by Persons Engaged in Printing. Fees charged to ultimate consumers for printing of tangible personal property upon special order are taxable. (7-1-21)

a. Printing of tangible personal property includes imprinting and all processes or operations connected with the preparation of paper or paper-like substances, the reproduction thereon of characters or designs and the alteration or modification of such substances by finishing and binding. (7-1-21)

b. Upon such final sales, charges for materials, labor and production of fabrication or typography, author’s alterations, art work, photoengravings, electros, mats, stereotypes, hand or machine composition, lithographic plates or negatives, electrotypes, etc., and binding and finishing services are included in the taxable sales price whether the various charges are separately stated or not. (7-1-21)

c. The following charges, if separately stated, are not included in the taxable sale price: (7-1-21)

i. Charges for postage as part of the printed item; or (7-1-21)

ii. Charges for addressing, stamping, sealing, inserting or wrapping in connection of a direct mail advertising in which items of tangible personal property and service are supplied. (7-1-21)

04. Advertising Inserts. As used in this rule, advertising inserts means printed advertising distributed concurrently with, but printed separately from, a newspaper, magazine, or other publication. (7-1-21)

a. The sale of advertising inserts by a printer or other supplier to an advertiser for use by the advertiser in the promotion of its business or products, and not for resale by the advertiser, is a taxable sale of tangible personal property. If, for any reason, the seller of the advertising inserts fails to collect sales tax on the sale of the advertising inserts to the advertiser, the advertiser is subject to use tax on its use of advertising inserts in Idaho. (7-1-21)

b. When an advertiser contracts for the distribution of advertising inserts to locations within this state, a taxable use by the advertiser occurs. The contracted distribution constitutes an exercise of right or power over the advertising inserts by the advertiser. The person performing the distribution services may be a publisher, printer, distributor of a newspaper, magazines, or other publication, or any other person performing distribution services. (7-1-21)

c. A contract between an advertiser and a publisher of a newspaper, magazine, or other publication, whereby the publisher sells advertising space in its publication is not a taxable sale. (7-1-21)

05. Labels and Other Printed Matter Sold to Manufacturers. Sales of labels or name plates, and the printing thereon, to manufacturers, producers, or wholesale merchants where the purpose of the buyer is to affix the label or name plate to his own product, or the container thereof will not be taxable. (7-1-21)
a. Sale of package inserts, individual folding boxes and set up boxes, and the printing thereon to manufacturers, or producers, to accompany their own manufactured products, and to pass to the ultimate consumer upon final sales of the manufactured product contained or described therein, are presumed to be made for the purpose of resale. 

b. Sale of direction sheets, instruction books, or manuals to a manufacturer, producer, wholesale or retail merchant, to be supplied with his product at no separate charge, are not taxable. If a separate charge is made for such sheets, books, manuals, or pamphlets, the manufacturer, etc., is required to collect and remit sales tax.

055. PERSONS ENGAGED IN ADVERTISING (RULE 055).
Sections 63-3612, 63-3613, 63-3621, 63-3622, Idaho Code

01. In General. Advertising agencies, television stations, radio stations, graphic artists, and other persons engaged in advertising may be engaged in either the rendering of professional services or the sale of tangible personal property or both. When such persons are engaged in the sale of tangible personal property, they are retailers and are required to collect and remit sales tax on the property sold. When such persons are engaged in the rendering of professional services, no sales tax applies to the service. Whether the sale is a sale of professional services or of tangible personal property is determined by the object of the transaction, i.e., the object sought by the buyer the service per se or the tangible personal property produced by the service. Determining whether the sale is a sale of professional services or of tangible personal property is a question of fact determined in view of all the facts and circumstances of each transaction.

02. Advertising Agency as Agent of Client or as Non-Agent. An agent is one who represents another, called the principal, in dealings with third persons. Advertising agencies may act as agents on behalf of their clients in dealing with third persons or they may act on their own behalf. To the extent advertising agencies act as agents of their clients in acquiring tangible personal property, they are neither buyers of the property with respect to the supplier nor sellers of the property with respect to their principals. To the extent advertising agencies act on their own behalf in acquiring tangible personal property they are buyers of the property with respect to the supplier. Generally, they are sellers of any of the property so acquired which they deliver to, or cause to be delivered to, their clients or to third parties for the benefit of their client. They are also sellers of any of the property which they retain but title to which they transfer to their client.

a. Items acquired from outside sources. All acquisitions by advertising agencies of tangible personal property are purchases by the agencies on their own behalf for resale or use unless the agency clearly establishes with respect to any acquisition that is acting as agent for its client.

b. To establish that an acquisition was made as agent for its client the agency is required to:

i. Clearly disclose to the supplier the name of the client for whom the agency is acting as agent;

ii. Obtain, prior to the acquisition, and retain written evidence of agent status with the client;

iii. Clearly state on the billing to its client that it is acting as agent for its client and that tax has been paid to the supplier or use tax has been accrued by the agency on behalf of the client.

c. The agency fee billed to the client, whether or not separately stated, is not taxable. The agency, in its records, is required to retain evidence of the payment of the tax. The agency may make no use of the property for its own account, such as charging the item to the account of more than one client. An advertising agency purchasing tangible personal property as an agent on behalf of its client may not issue a resale certificate, as provided by Rule 128 of these rules, to the supplier. It will be presumed that an advertising agency who issues a resale certificate to its supplier is purchasing the tangible personal property on its own behalf for resale and is not acting as an agent for its client.

03. Items Prepared by Agency. Advertising agencies are sellers of all items of tangible personal
property produced, printed, or fabricated by their own employees. Advertising agencies are not agents of their clients with respect to the acquisition of materials incorporated into items of tangible personal property prepared by their employees.

04. **Media Advertising and Advertisements.** Media advertising is the use of mass media as a means by which to reach a wide audience, viewers, listeners, or readers, with an advertisement to promote a product, service, issue, or personality. Mass media is defined as radio, television, cable television, newspapers, periodicals, trade journals, or other such media which is capable of reaching a mass audience with an identical message. The object sought by the buyer purchasing media advertising is the intangible professional service of the seller. The sale of media advertising is a sale of professional service and is a nontaxable transaction. The transfer of tangible personal property is inconsequential to the services rendered.

a. Radio and television advertisement. Sales tax does not apply to the amount charged to produce or create advertisements which are to be broadcast by a radio or television station. It makes no difference whether the producer or creator sends the advertisement directly to the broadcast facility or to the advertiser, who in turn distributes the commercial to a broadcast facility.

b. Radio and television dubs. Charges for dubs which are produced from a master copy of a radio or television commercial or broadcast are not taxable so long as they are for distribution to other broadcasting facilities. Sales tax will apply to the sale of radio or television commercial or broadcast dubs which are not for distribution to a broadcast facility and are sold to a customer for another use. The measure of the tax will be the total price charged for the copies.

c. Magazine, newspaper, and periodical advertisements. Sales tax does not apply to the amount charged to a customer to produce camera ready artwork, veloxs, and other forms of artwork which are to be reproduced in and distributed as part of a mass media publication. Examples of such media publications are magazines, newspapers, trade journals, and periodicals.

d. Print media advertisement copies. Sales tax will apply to charges for reprints of a print media advertisement sold to a customer. The measure of the tax will be the price charged for the reprints.

05. **Sales of Non-Media Advertising.** Non-media advertising is any form of advertising which does not use the mass media in reaching the targeted audience. Examples of such advertising are posters, brochures, pamphlets, handbills, displays, business forms, stationery, business cards, key chains, cups and glasses, pens, pencils, t-shirts, and other similar items. The object sought by the buyer is the tangible personal property. If the advertising agency is the agent of its client, the sale is between the supplier of the tangible personal property and the client and is taxable based on the price charged by the supplier to the client. If the advertising agency is NOT the agent of its client, then the purchase from the supplier is for resale. The sale from the agency to its client is a retail sale and is subject to tax based upon the entire amount charged to the customer by the advertising agency, including separately stated fees for:

a. Artwork produced by the advertising agency, including all materials, design fees, and labor to develop and produce the artwork, lettering, and designs used in the finished non-media advertising.

b. Artwork, lettering, and designs purchased from a graphic artist.

c. Photographs, negatives, and other similar items whether purchased from a commercial photographer or produced in-house by the advertising agency.

d. Professional modeling fees.

e. Printing charges, whether printed by the advertising agency or a commercial printer, including any markup or service charge.

f. All other charges to the customer for services agreed to be rendered by the advertising agency as part of the sale of non-media advertising.
06. Sale of Custom Made Audio-Visual Films and Audio Recordings. A custom made audio-visual film or audio recording is a film or recording whose intended purpose is not for media advertising. Examples of custom audio recordings include those to be used with a slide show presentation, designed to be played alone for information purposes or in-store advertising, or other similar purposes. Examples of custom films are safety films, training films, filmed newsletters, in-store audio-visual advertising, and other audio-visual films not sold for media advertising.

a. The object of the buyer is to obtain the tangible personal property. The fact that the charge for the tangible personal property, the film or recording, is principally derived from labor or creativity of the maker of the property does not transform the sale of the tangible personal property into a sale of services.

b. If the advertising agency is the agent of its client, the sale is between the supplier of the tangible personal property and the client and is taxable based on the price charged by the supplier to the client. If the advertising agency is not the agent of its client, then the purchase from the supplier is for resale. The sale from the agency to its client is a retail sale and is taxable based upon all charges for copy writing, directing, producing, photographing, acting, vocal artists, recording, editing, mixing, and other similar charges to produce a finished film or audio recording.

07. Sales of Design Services. Determining whether design fees are taxable will depend on the object of the transaction. A fee charged to a customer for creation and design of a logo, product or business trademark, letterhead, or similar item which does not involve the transfer of tangible personal property beyond that which is required to convey the design to the customer, is a sale of services and is not taxable. When design fees are services agreed to be rendered as a part of the sale of tangible personal property, sales tax will apply to the design fee.

a. Example 1: A graphic artist is commissioned to design a business logo for a client. The artist completes the design and delivers it to the client. The transaction is a service transaction. The transfer of the tangible personal property is inconsequential to the services rendered. No sales tax is due on the transaction.

b. NOTE: Subsections 055.07.b. through 055.07.d. of this rule assume no agent relationship. Example 2: An advertising agency is commissioned by a client to design a trademark for its business and provide stationery with the trademark printed on it. On the charges billed to the client, the design fee is separately stated from the charges for printing the stationery and the paper stock. The advertising agency charges sales tax on the entire amount charged. The object of the transaction is to obtain tangible personal property, the stationery. The services agreed to be rendered, the design, are inconsequential to the transaction.

c. Example 3: An advertising agency is commissioned by a client to design a logo for its business and provide stationery printed with the logo. The advertising agency commissions a graphic artist to design the logo. The sale of the design by the graphic artist to the advertising agency is a sale of services and is not taxable. The object sought by the advertising agency is the services of the graphic artist. The advertising agency then prints the stationery and bills the client. As the object sought by the client is tangible personal property, the stationery, the advertising agency charges the client sales tax on the entire fee billed, including the design fee.

d. Example 4: An agency is commissioned to design, produce, and provide one thousand (1,000) copies of a corporation’s annual report. As the object sought by the client is the tangible personal property, annual reports, the entire fee to the client is taxable.

e. NOTE: This subsection assumes an agent relationship. Example 5: An advertising agency is commissioned to design an annual report. As agent for its client, the agency orders one thousand (1,000) copies from a printer. The charge for the design is a nontaxable service. The charge for the printed reports is taxable.

08. Purchases by Radio and Television Broadcasters. Section 63-3622S, Idaho Code, provides an exemption from tax for purchases of tangible personal property directly used and consumed in the production and broadcasting of radio and television programs by businesses primarily devoted to such production and broadcasting.

a. When broadcasters purchase tangible personal property to be directly used and consumed in the
production of television or radio advertising, no sales tax applies if they give their vendors a properly executed exemption certificate. See Rule 128 of these rules.

b. When a radio or television broadcaster produces custom films or audio recordings that will not be broadcast, the exemption provided by Section 63-3622S, Idaho Code, does not apply. Purchases of tangible personal property will be taxed as provided by Subsection 055.06.b. of this rule.

09. Purchases by Advertising Agencies, Graphic Artists, and Similar Operations. Persons engaged in advertising and graphic artists may provide both nontaxable services and taxable sales of tangible personal property.

a. When providing nontaxable services, including producing media advertising and providing design services which do not involve the sale of tangible personal property, the agency/artist pays tax on purchases of: Art supplies, such as poster board, paper products, inks, letters, and paints; amount charged by others to produce veloxs, negatives, lithographic plates, electrotype, and other such items; photographic work; prerecorded music and sounds; and props, costumes, and backdrops.

b. When engaged in the retail sale of tangible personal property, such as the sale of non-media advertising items, custom films, custom audio recordings, or printed goods, the producer/agency/artist, when purchasing tangible personal property to be incorporated into the product for resale, may provide vendors with a properly executed resale certificate. See Rule 128 of these rules. Items considered to be directly incorporated into the product for resale include purchases of: Art supplies such as poster board, paper products, inks, letters, and paints; amounts charged by others to produce veloxs, negatives, lithographic plates, electrotype, and other such items; photographic works; prerecorded sounds and music; and printing charges.

c. Purchases from photographers. The sale of photographic prints, photostats, negatives, film, and other articles of tangible personal property are taxable sales. See Rule 056 of these rules. Photographs, film, negatives, photostats, and other tangible personal property purchased by an advertising agency which are to be incorporated into media advertising are taxable. The total selling price on which sales tax will be charged is the amount charged by the photographer for shooting, developing, processing, and printing the photograph, film, negative, etc. Separately stated charges for travel expenses incurred by the photographer while under contract to an advertising agency for such items as travel, food, and lodging which are reimbursed by the advertising agency are not taxable. Photographs, film, negatives, photostats, and other tangible personal property purchased for resale, see, Subsection 055.09.b. of this rule.

d. Rental of recording or production studios and equipment. Sales tax will apply to the rental of a recording studio, audio-visual production studio, recording equipment, and audio-visual production equipment, when the owner of the equipment does not furnish the personnel to operate the equipment and relinquishes total operational control of the equipment. A taxable rental also occurs if the studio personnel merely render incidental services such as maintenance and repair. No sales tax will apply to the rental of a recording studio, audio-visual production studio, recording equipment, and audio-visual production equipment when the personnel to operate the equipment is furnished with the rental of the equipment.

e. Accounting. Persons engaged in the rendering of advertising or graphic artist services may elect to follow any consistent procedure in purchasing art supplies and other tangible personal property from their vendors which are to be incorporated into services or tangible personal property sold to their customers. The artist/agency may wish to purchase all art and graphics supplies without tax from their vendors by issuing a resale certificate. In this case the artist/agency will keep a record of all supplies withdrawn from inventory for use in non-taxable advertising services and pay use tax on these supplies. If the bulk or majority of the artist/agency's work is nontaxable media advertising or design services, the artist/agency may wish to pay tax on all of their purchases, keep a record of all retail sales, and regularly take a credit against the sales and use tax due for tax originally paid upon purchases. If the artist/agency engages in major jobs, they may want to use separate accounting procedures and make purchases of supplies for inventory without tax by issuing a resale certificate. Purchases for a specific job would be made with or without tax dependent upon the taxable nature of the sale to the client. In all cases, art and graphic supplies are those items which are directly incorporated into the artwork or advertisement, such as paint, ink, colored pencils and markers, lettering, poster board, and other such consumable items. Items on which tax is required to be paid include rulers, triangles, t-squares, paint brushes, razor or artist knife blades, any other artist tool, office supplies and
equipment, props, sets, wardrobes, costumes, and other equipment.

10. Cross-References.

a. Newspapers and periodicals. See Rules 033 and 079 of these rules.

b. Signs. See Rule 036 of these rules.

c. Persons engaged in printing. See Rule 054 of these rules.

d. Motion picture films. See Rule 087 of these rules.

e. Resale certificates—purchases for resale. See Rule 128 of these rules.

056. PHOTOGRAPHERS AND PHOTOFINISHERS (RULE 056).
Sections 63-3616, 63-3622, 63-3622D, Idaho Code

01. Sales of Photographs.

a. Printed photographs are tangible personal property. Sales of printed photographs are taxable.

b. Digital photographs are tangible personal property when sold and delivered to the buyer on storage media. Sales of digital photographs are taxable when sold and delivered to the buyer on storage media.

c. Digital photographs are not tangible personal property when delivered electronically. Sales of digital photographs are not taxable when sold and delivered to the buyer electronically.

02. Sales by Photographers and Photofinishers.

a. When photographers or photofinishers sell films, frames, cameras, printed photographs, digital photographs delivered on storage media, photostats, blueprints, etc., they are making a sale of a completed article of tangible personal property and they are required to collect the tax on the total sales price unless an exemption applies.

b. When photographers or photofinishers render service, such as retouching, tinting, or coloring of print photographs belonging to others, they are performing taxable processing services and are to collect the tax from their customers unless an exemption applies. When similar services are performed on a digital photograph, the service is only taxable if the final product is delivered on storage media.

c. Photographers may charge a sitting fee which may be separately stated from any charges for the photographs. When charged along with a sale of printed photographs or digital photographs delivered on storage media, sitting fees are charges for producing or fabricating tangible personal property and are taxable. See Rule 029 of these rules.

03. Sales to Photographers and Photofinishers.

a. Photographers and photofinishers may qualify for the production exemption if they are primarily in the business of selling print photographs or digital photographs delivered on storage media. Photographers and photofinishers primarily in the business of selling digital photographs that are delivered electronically cannot qualify for the production exemption.

b. The production process begins when the image is captured. Therefore, photographers pay sales or use tax on purchases of props, backdrops and other items used prior to the start of production of the photograph. Equipment and supplies including cameras, lights, lenses, film, paper, fix, developer, and enlargers used to produce photographs are used during the production process and are exempt if the photographer otherwise qualifies for the production exemption in Section 63-3622D, Idaho Code.
c. Photofinishers may purchase equipment and supplies exempt from sales or use tax as long as the equipment and supplies are directly used to produce photographs which they will sell and they otherwise qualify for the production exemption provided by Section 63-3622D, Idaho Code.

04. Definitions. For purposes of this rule, the following terms have the following definition: (7-1-21)

  a. Storage media. Storage media include, but are not limited to, optical media discs such as CDs or DVDs, hard drives, diskettes, magnetic tape data storage, solid state drives, flash drives, and other semiconductor memory chips used for nonvolatile storage of information readable by a computer. (7-1-21)

057. DRY CLEANERS, LAUNDRIES, LAUNDROMATS, AND LINEN SUPPLIERS (RULE 057).
Sections 63-3612, 63-3622, 63-3622X, Idaho Code

01. Dry Cleaners and Laundries. Dry cleaners perform a service and are not required to collect tax from their customers. Dry cleaners pay sales or use tax on purchases of cleaning supplies, hangers, plastic bags and other supplies used in the performance of this service. The purchases of dry-to-dry transfer systems by dry cleaners are exempt from sales and use tax. This exemption applies only to the purchase of entire systems and does not apply to purchases of repair parts for such systems. (7-1-21)

02. Linen Suppliers.

  a. Linen supply firms or laundries which furnish such items as sheets, pillowslips, towels, uniforms, diapers, etc., collect and remit sales tax based on the rental charge. The sales tax will also apply to the rental of shop towels, floor mats for building entrances, dust mops, room deodorizers and any other tangible personal property rented or leased for building maintenance or service. The entire price charged for such rentals is taxable unless a reasonable charge for cleaning is separately stated. If the allocation between rental and cleaning fees is unreasonable, the Commission may deem the entire fee, or any portion thereof, to be taxable. (7-1-21)

  b. Items acquired by these firms which are purchased for resale, rental or lease in the ordinary course of business, may be purchased exempt from sales tax if a properly executed resale certificate is provided to the seller, in accordance with Rule 128 of these rules. (7-1-21)

03. Laundromats.

  a. Receipts from coin-operated washers and dryers are not taxable. Sales of cleaning supplies such as soap or bleach through coin operated vending machines, are taxable as provided by Rule 058 of these rules. (7-1-21)

  b. Persons engaged in the laundromat business must pay sales or use tax when purchasing washers, dryers, and other tangible personal property for the operation of their business. (7-1-21)

058. SALES THROUGH VENDING MACHINES (RULE 058).
Sections 63-3612, 63-3622, 63-3622L, 63-3622X, Idaho Code

01. In General. The sale of tangible personal property through a vending machine is a taxable transaction. The term vending machine means any mechanical device which, without the assistance of a human cashier, dispenses tangible personal property to a buyer who deposits cash in the device. Video games and other coin operated amusement devices are not vending machines. Fees paid for the use of coin operated amusement devices are not subject to sales tax pursuant to Section 63-3623B, Idaho Code. See Rule 109 of these rules. (7-1-21)

02. Amount Taxable. Pursuant to Section 63-3613, Idaho Code, sales of items through a vending machine for amounts from twelve cents ($0.12) through one dollar ($1) are taxable at one hundred seventeen percent (117%) of the vendor’s acquisition cost of the items. Items sold for more than one dollar ($1) are taxable on the retail sales price. Sales of items for a price of eleven cents ($0.11) or less are exempt from tax pursuant to Section 63-3622L, Idaho Code. (7-1-21)
03. Requirement to Obtain a Seller's Permit. Vendors who sell tangible personal property through a vending machine are to obtain a seller’s permit. Only one seller’s permit is required; however, each vending machine operated by the vendor is to conspicuously display the vendor’s name, address, and seller’s permit number. When multiple vending machines are placed in a single location, the owner’s name, address, and seller’s permit number need be displayed only once.

04. Calculation of Tax. The following examples show how vending machine operators calculate the amount of sales tax due:

a. Example 1: Corporation A’s business activity consists only of sales through vending machines in various locations in the state of Idaho. All of the items sold in the vending machines are sold for a unit price of twelve cents ($0.12) or more but none are sold for a price greater than one dollar ($1). During the month of July, Corporation A’s total sales from the vending machine sales were ten thousand dollars ($10,000). Corporation A purchased the items sold during that one (1) month period for eight thousand dollars ($8,000). The company made no nontaxable or exempt sales. Corporation A should file a sales and use tax return for the month of July, computing and reporting its taxable sales as follows. Numbers correspond to line numbers on the return.

<table>
<thead>
<tr>
<th>Line</th>
<th>Total sales</th>
<th>$9,360</th>
</tr>
</thead>
<tbody>
<tr>
<td>Line 2</td>
<td>Less nontaxable sales</td>
<td>$0</td>
</tr>
<tr>
<td>Line 3</td>
<td>Net taxable sales</td>
<td>$9,360</td>
</tr>
</tbody>
</table>

Line 1 computed as follows:

8,000 x 117% = $9,360

b. Example 2: During the month of July, Corporation B had total Idaho sales in the amount of ten thousand dollars ($10,000). In addition to sales through vending machines, the corporation made over-the-counter sales, all of which were taxable, in the amount of two thousand dollars ($2,000). The remaining eight thousand dollars ($8,000) constituted sales through vending machines, of which one thousand dollars ($1,000) was for items with a unit retail price of over one dollar ($1). The other seven thousand dollars ($7,000) were sales of items through vending machines with a unit retail price of fifty cents ($0.50) each. The items sold during the month for fifty cents ($0.50) each were purchased by Corporation B for five thousand dollars ($5,000).

The amount to report as taxable sales is:

\[
\text{Taxable Sales} = 2,000 \text{ (over the counter items)} + 5,850 \text{ (5,000 of purchases of items selling for } 0.50 \times 117\%) + (1,000 \div (1 + \text{tax rate expressed as a decimal}) \text{ (items sold through vending machines for more than one dollar ($1)).}\\
\text{Assuming a 6\% tax rate this amount would be } 1,000 \text{ divided by 1.06 or } 943.40.
\]

Note that if a vendor sells some items for more than one dollar ($1) the sales tax is included in the total sales. This amount is divided by one (1) plus the current tax rate expressed as a decimal, to determine the sales before sales tax.

05. Cross-References.

a. Amusement devices, see Rule 109 of these rules.

b. Money operated dispensing equipment, see Rule 095 of these rules.

c. Sales of newspapers through vending machines, see Rule 033 of these rules.

059. SALES BY FLORISTS (RULE 059).
Sections 63-3612, 63-3613, Idaho Code
01. **Sales.** Florists are retailers engaged in the business of selling tangible personal property and are to collect and remit sales tax from the buyer. (7-1-21)T
   
   a. Charges for creating, processing, fabricating, or setting up floral or plant arrangements are taxable, even if separately stated. (7-1-21)T
   
   b. Separately stated delivery charges, relating only to the transportation of the product after the sale, are not taxable. (7-1-21)T

02. **Rentals.** The lease of rental of potted plants, palms, artificial wreaths and flowers, or other tangible personal property is taxable. (7-1-21)T

03. **Sales.** Sales tax is required to be collected on orders taken by an Idaho florist or nursery that will be fulfilled by another florist or nursery, the delivery will take place. The florist or nursery fulfilling this order is not required collect sales tax. (7-1-21)T
   
   a. Telephone, wire, and handling charges in connection with these sales are part of the taxable sales price. (7-1-21)T

04. **Street Vendors.** The above applies to individuals and street vendors as well as florists who maintain a regular place of business. (7-1-21)T

060. **FEDERAL EXCISE TAXES AND RETAILERS TAXES (RULE 060).**
Sections 63-3612, 63-3613, 63-3621, Idaho Code

01. **General Rule.** The taxable sales price includes any amount required to be paid by a retailer or his customer as a federal importer’s or manufacturer’s excise tax. (7-1-21)T
   
   a. Example. Federal taxes on: tobacco products, distilled spirits, beer, cheese, mixed flour, processed and renovated butter. (7-1-21)T
   
   b. Example. Any federal tax payable to the wholesaler, importer, manufacturer or other producers, such as taxes on gasoline, automobiles, tires, sporting goods, or other tangible personal property when sold by the wholesaler, importer, manufacturer, or other producer. (7-1-21)T

02. **Excluded Federal Taxes.** Federal taxes imposed directly on retail sales, such as those imposed by Section 4051, Internal Revenue Code, are excluded from the taxable sales price. (7-1-21)T

061. **TRANSPORTATION, FREIGHT, AND HANDLING CHARGES (RULE 061).**
Sections 63-3612, 63-3613, Idaho Code

01. **In General.** Whether or not transportation and handling charges are separately stated, the sales price includes any charges made for delivery of goods to the seller. Charges for transportation and handling of goods to the consumer are not included as a part of the sales price regardless of when title passes. (7-1-21)T

02. **Charges Not Separately Stated.** Regardless of other provisions of this rule, transportation and handling charges which are not separately stated are included in the taxable sales price. (7-1-21)T

03. **Example 1: Charges for Delivery to the Seller.** A customer orders goods from a retailer. The goods are shipped to a catalog store where the customer picks them up. A charge to the customer for delivery to the store is a charge for delivery to the seller and is included in the taxable sales price. (7-1-21)T

04. **Example 2: Freight-In Taxable.** A seller of construction equipment orders a part for a customer. The parts are delivered to the seller by the wholesaler. A charge on the invoice for freight-in to the seller is taxable. The charges for freight-in are part of the taxable sales price. The charges for freight-out are not taxable. (7-1-21)T

05. **Example 3: Delivery by Retailer.** A consumer orders building materials from a retailer. The
retailer delivers the goods to the buyer by means of the retailer’s delivery van. The retailer separately states the charge for transportation and handling of the building materials. Since the charge is for delivery to the consumer, it is not subject to sales tax. (7-1-21)T

06. **Example 4: Use of Transportation Charges as a Means of Avoiding Sales Tax.** Seller offers to give away merchandise worth approximately twenty dollars ($20) if the buyer pays shipping of nineteen dollars and ninety-five cents ($19.95). The entire price of nineteen dollars and ninety-five cents ($19.95) is taxable. (7-1-21)T

07. **Demurrage.** Demurrage charges are not taxable if right, power, and control of the ship, freight car, or truck remains with the transportation company. Demurrage is defined as a charge by a transportation company to its customer for detaining a ship, freight car, or truck beyond the time allowed for loading or unloading. (7-1-21)T

062. **REPAIRS SALE OF PARTS AND MATERIAL (RULE 062).**
Section 63-3612, 63-3613, 63-3622, Idaho Code

01. **In General.** Repairs normally require both material and labor. Persons engaged in the business of repairing, renovating or altering tangible personal property owned by others are required to collect sales tax upon the parts or material required in the repair or renovation of the property. (7-1-21)T

02. **Separate Statement of Parts or Materials.** The sales price of parts or materials need to be separately stated and sales tax is charged on these parts or materials. Separately stated repair labor is not taxable. If parts and materials are not separately stated from the repair labor, the total amount for parts and repair labor is taxable. (7-1-21)T

03. **Repairs Covered by Insurance Benefits.** Repairs, the costs of which are covered by insurance benefits, are treated the same as otherwise described in this rule. Sales tax is to be collected on the parts and materials. Separately stated repair labor is not taxable. (7-1-21)T

04. **Incidental Material.** In some instances, because of the small amount of materials used in a repair job, the value of the material may be insignificant to the entire repair cost. For example, incidental amounts of material are sometimes used in repairs made to tires, clothing, watches, and shoes. If materials such as buttons, thread, watch parts, tire valve cores and stems are incidental to the repair they will be taxed when purchased by the repairman. Other examples of materials which are incidental to repairs are touch-up paint and soldering materials used in car repairs. Materials are incidental if they have a value which is insignificant and for which a reasonable retail sales price cannot be readily determined. (7-1-21)T

05. **Shop Supplies.** Dealer/repair shops should not charge sales tax on shop supplies that are consumed during the repair, such as spray bottles, buffer pads, towels, masking tape, solvents, sandpaper, and other items that have no specific identifiable value billed to the customer and which do not become a part of the item being repaired. These supplies are taxable when purchased by the dealer/repair shop and should not be included as part of the taxable amount billed to the customer. (7-1-21)T

06. **Repairs Versus Fabrications.** Repairs and renovations to tangible personal property must not be confused with fabrications of tangible personal property. Fabricated tangible personal property is subject to sales tax on the entire price whether the parts and materials are separately stated or not. See Rules 011 and 029 of these rules. (7-1-21)T

07. **Parts for Resale.** When a repair shop buys parts that will be resold to its customers or an auto dealer buys parts to install in a car which is being reconditioned for sale, they should not pay tax to the supplier if they provide the documents required by Rule 128 of these rules. (7-1-21)T

063. **BAD DEBTS AND REPOSSESSIONS (RULE 063).**
Sections 63-3612, 63-3613, 63-3619, 63-3626, Idaho Code

01. **In General.** Sales tax is collected on an accrual basis. The tax is owed to the state at the time of sale, regardless of when the payment is made by the customer. (7-1-21)T
02. **Rules for Unsecured Credit Sales.** The following rules apply to unsecured credit sales: (7-1-21)T

a. When a seller cannot collect accounts receivable arising from an unsecured credit sale of tangible personal property subject to sales tax, he can make an adjustment on his sales tax return or apply for a refund of taxes according to this rule. (7-1-21)T

b. The adjustment or refund may be claimed on the sales tax return for the month in which the bad debt adjustment is made on the books and records of the taxpayer. The tax for which the credit or refund is sought is included in the amount financed and charged off as a bad debt for income tax purposes. (7-1-21)T

c. A written claim for the refund may also be filed with the Commission within three (3) years from the time the tax was paid to the Commission. The Commission will review all such refund claims. See Rule 117 of these rules, Refund Claims. (7-1-21)T

03. **Rules for Secured Credit Sales.** The following rules apply to secured credit sales: (7-1-21)T

a. If the collateral is not repossessed, the seller may treat a bad debt the same as an unsecured credit sale. (7-1-21)T

b. If the collateral is repossessed and not seasonably resold at a public or private sale, its retention is considered to satisfy the debt and no bad debt adjustment is allowed. (7-1-21)T

c. If the collateral is repossessed and seasonably resold at public or private sale, then the seller is entitled to a bad debt adjustment. However, before calculating the amount of tax that may be credited or refunded, the taxpayer must reduce the amount claimed as worthless by the amount realized from the sale of the collateral. (7-1-21)T

d. If merchandise is repossessed and is subsequently resold at retail, sales tax is computed on the sales price and collected and remitted the same as on other retail sales. (7-1-21)T

04. **Application to Taxpayers.** The following rules apply to taxpayers who remit sales tax on an accrual basis but report income tax on a cash basis or are not required to file income tax returns. (7-1-21)T

a. Retailers are required to remit sales tax on an accrual basis, even though their accounting records and income tax returns may be prepared on the cash basis of accounting. (7-1-21)T

b. For taxpayers who keep their records and file income tax returns on a cash basis, a worthless account cannot be written off as a bad debt because it has not been recognized as income in the taxpayer’s books. These retailers may still claim a bad debt for sales tax purposes. The claim should be made at the same time and in the same way discussed in Subsections 063.02 and 063.03 of this rule, even though the bad debt does not appear on the retailer’s income tax return. (7-1-21)T

c. For taxpayers who are not required to file income tax returns, the claim should be made the same way discussed in Subsections 063.02 and 063.03 of this rule. (7-1-21)T

d. As these claims cannot be verified against the income tax returns of these taxpayers, sufficient evidence must be attached to the sales tax return to prove that the account has become worthless, that the tax was remitted by the retailer, and that the retailer did not receive payment of the tax from the buyer. (7-1-21)T

05. **Amount of Credit Allowed.** The amount of credit that can be claimed is the amount of sales tax that is uncollectible. If both nontaxable and taxable items are financed, credit may be taken only for that portion of the bad debt which represents unpaid sales tax. (7-1-21)T

a. Example: Assume the tax rate is six percent (6%). A retailer sells a thirty thousand dollar ($30,000) forklift for thirty-one thousand eight hundred dollars ($31,800) including sales tax. The buyer pays a five thousand dollar ($5,000) down payment and finances the balance. The buyer later defaults and the retailer repossesses the forklift and sells it at a public auction for six thousand dollars ($6,000). At the time of repossession the buyer owes
seventeen thousand five hundred forty-five dollars ($17,545) including the financed sales tax. After the sale the amount that the retailer writes off is eleven thousand five hundred forty-five dollars ($11,545). The sales tax bad debt write off is six hundred fifty-three dollars ($653).

<table>

(7-1-21)

b. Example: A car dealer makes a taxable sale of an automobile for fourteen thousand nine hundred dollars ($14,900) along with an extended warranty for five hundred dollars ($500), a documentation fee of one hundred dollars ($100), a title fee of eight dollars ($8) and credit insurance for one hundred dollars ($100). The customer pays one thousand dollars ($1,000) cash and trades in a car worth ten thousand dollars ($10,000) which is pledged as security for an earlier outstanding loan of six thousand dollars ($6,000). The customer, therefore, has to borrow enough to pay off the old loan on the trade-in. The customer defaults on the new ten thousand nine hundred eight dollar ($10,908) loan after paying five hundred dollars ($500) towards the principal. The customer damages the automobile in an accident leaving the collateral worthless. The car dealer may take an adjustment for only that portion of the bad debt representing the taxable percentage of the total sales price of the car. Only five thousand dollars ($5,000) of the total fifteen thousand nine hundred eight dollar ($15,908) cost was taxable.

06.  **Bad Debt Collected at a Later Date.** If a bad debt account is collected later, the retailer must pay tax on the amount collected.

07.  **To Claim Credit for a Bad Debt.** Credit for bad debts for sales tax purposes may be claimed by the retailer that made the original sale and paid the sales tax to the state. Financial institutions or other third parties who are the assignees of the retailer may claim a bad debt for sales tax on property for which they provided financing, if the amount financed includes the sales tax remitted on the sale of the property. The person claiming the credit must be the person who ultimately bears the loss if the buyer of the property defaults on the obligation to repay.

08.  **Cross-Reference.** Rescinded Sale. See Rule 045 of these rules.

064. (RESERVED)

065.  **TIRES BALANCING, STUDDING, AND SIPING (RULE 065).**
Sections 63-36112, 63-3613, 63-3619, Idaho Code

01.  **Services Subject to Sales Tax.** Sales tax applies to the amount charged for services agreed to be performed in conjunction with the sale of a tire. Examples of such taxable services are balancing, studding, siping, or similar charges. Sales tax will apply to the total amount charged for the tire, the services, and the materials used to perform the services.

02.  **Services Not Subject to Sales Tax.**

   a.  Sales tax does not apply to the amount charged for balancing, studding, or siping a tire owned by the customer.

   b.  Sales tax does not apply to a separately stated fee to mount or install a tire whether sold new or owned by the customer.

   c.  The person performing the nontaxable service pays use tax on the value of the materials used in performing the service.

03.  **Materials Used in Performing a Service.** Studs, wheel weights, valve stems, cores, patches, and similar items are materials that may be used to perform both a taxable and nontaxable service. The seller may elect to use any consistent method in determining the value and the amount of materials used in performing taxable and nontaxable services.

   a.  The allocation of materials may be determined using a percentage basis. Example: The seller determined through some reasonable basis that sixty percent (60%) of the studs purchased for resale are used in tires that are purchased from him. The remaining forty percent (40%) are used in tires owned by customers and brought in

---

| Amount of down payment used to pay sales tax: | $(300 / 5,908) = 5.08\%$ |
| Amount of sales tax financed: | $300 - 50.80 = 249.20$ |
| Percentage of loan representing sales tax: | $249.20 / 10,908 = 2.28\%$ |
| Sales tax paid by payments to principal: | $500 \times 0.228 = 114.00$ |
| Amount of bad debt write-off: | $249.20 - 114.00 = 237.80$ |
for studding. Use tax will apply to the forty percent (40%) used in studding customer owned tires. As sales tax applies to the entire fee charged for studding a tire sold to a customer, the remaining sixty percent (60%) of the studs will not be subject to use tax, but are included in the amount subject to sales tax imposed on the buyer. (7-1-21)T

b. The allocation may be determined based on the value of the material used in performing both taxable and nontaxable services. (7-1-21)T
c. The allocation may be determined using any other method that will allow a reasonable allocation of materials used in both a taxable and nontaxable service. (7-1-21)T

04. Cross-Reference. Repairs. See Rule 062 of these rules. (7-1-21)T

066. CONTRACTOR’S USE OF TANGIBLE PERSONAL PROPERTY (RULE 066).
Sections 63-3609(a), 63-3620, 63-3621, Idaho Code

01. Use. The term use includes the exercise of any right or power over tangible personal property in the performance of a contract, regardless of whether title to the tangible personal property is vested in the contractor or the tangible personal property is leased. (7-1-21)T

02. Contractors Use of Tangible Personal Property. If title to the tangible personal property is vested in an entity not entitled to the production exemption, use tax will apply to the contractor. For contractors improving real property, see Rule 012 of these rules. (7-1-21)T

03. Exception. The Sales Tax Act provides only one (1) exception. If title to the tangible personal property is vested in a person entitled to the production exemption (see Rule 079 of these rules), the contractor’s use of the property will also be exempt. (7-1-21)T

067. REAL PROPERTY (RULE 067).
Sections 63-3609, 63-3612, 63-3616, Idaho Code

01. Real Property. For the purpose of these rules, the term real property means land and improvements or fixtures to the land. (7-1-21)T

02. Improvements or Fixtures. Improvements or fixtures to real property include:

a. Property which is physically attached to the land or other improvements affixed to the land in such a manner that it may not be removed without materially damaging the real property or is of such a nature that it would normally be expected to be sold together with the land. (7-1-21)T

b. Property which increases the market value of the land or increases the ability of the possessor of the land to use it more productively. (7-1-21)T
c. Property which increases the market value or productivity on a relatively permanent basis. (7-1-21)T

03. Three Factor Test. A three (3) factor test may be applied to determine whether an article has become a fixture to real property. The three (3) tests to be applied are:

a. Annexation to the realty, either actual or constructive. (7-1-21)T

b. Adoption or application to the use or purpose to which that part of the realty to which it is connected is suitable. (7-1-21)T
c. Intention to make the article a permanent addition to the realty. (7-1-21)T

04. Example 1: The original builder or owner of an apartment building installs draperies. The draperies meet the three (3) factor test of a fixture to realty. First, they are constructively annexed to the realty when attached to
the drapery rod. Although the draperies are not affixed to the realty, they comprise a necessary, integral, or working part of the object to which they are attached. Second, they appropriately adapt to the purpose of the realty to which they are connected. Window coverings are necessary in order to maintain occupancy of the apartment. The third and controlling factor in this example is the intention with which the installation was made. The intention is determined from the surrounding circumstances at the time of installation. It is not the undisclosed purpose of the annexor, but rather the intention implied and manifested by his act. The builders intended that the drapes would remain as long as they served their purpose.

**05. Example 2:** The three (3) factor test would not be met in Subsection 067.03 of this rule, if the drapes were installed by a tenant of an apartment leased for a term with no agreement as to ownership. The tenant would be expected to remove or sell the drapes to an incoming tenant, and his intention would be the controlling factor. The draperies would not be considered as fixtures to the real property. (7-1-21)

**06. Personal Property Incidental to the Sale of Real Property.** This rule does not affect the provisions of Section 63-3609(b), Idaho Code. (7-1-21)

**07. Store Fixtures.** Store fixtures are items that are affixed to a building and used by retailers in the conduct of their business. The term “store fixtures” includes display cases, trophy cases, clothing racks, shelving, modular displays, kiosks, wall cases, register stands, and check-out counters. If store fixtures only benefit the particular business occupying a building, they are not adapted to the use of the real estate and are therefore personal property. A store fixture will only be deemed to be a real property improvement if:

- a. It is affixed to the real estate and its removal would cause significant structural damage to the building itself; or
- b. It is affixed to the real estate and is of benefit to the land or building regardless of the particular business conducted on the premises. (7-1-21)

**08. Fiber Optic and Communication Cable.** Fiber optic and communication cable installed in a building is presumed to be a real property improvement. (7-1-21)

**0068. COLLECTION OF TAX (RULE 068).**
Section 63-3619, Idaho Code

**01. In General.** Idaho Sales Tax is an excise tax which is imposed upon each sale at retail. The tax is computed at the time of each sale and the tax on the total sales for the reporting period, usually monthly, will be reported and paid on or before the due date as established by Rule 105 of these rules. (7-1-21)

**02. Sales Tax to Be Collected by Retailer.** Sales tax is to be collected by the retailer from the customer. The tax will be computed on and collected for all credit, installment, conditional or similar sales when made or, in the case of rentals, when the rental is charged. (7-1-21)

**03. Computation of Tax.** The retailer will compute the tax upon the total sale to a buyer at a given time and not upon each individual item purchased. (7-1-21)

**04. Tax Rate.** For the purpose of these rules, the terms “tax rate” or “rate” means the current tax rate as defined in Sections 63-3619 and 63-3621, Idaho Code. References to the tax rate in these rules may not reflect the current rate in effect. (7-1-21)

**05. Bracket System for Six Percent Tax Rate.** Beginning October 1, 2006, the sales tax rate is six percent (6%). The following schedule is to be used in determining the amount of tax to be collected by a retailer at the time of sale.

- a. Multiply six cents ($0.06) for every whole dollar included in the sale, and (7-1-21)
- b. Add for each additional fractional dollar amount of sale the corresponding tax below:
However, sales to a total amount of eleven cents ($0.11) or less are exempt from tax. (7-1-21)T

06. Tax to Be Separately Displayed. The amount of tax collected by the retailer is to be displayed separately from the list price, marked price, the price advertised in the premises or other price on the sales slip or other proof of sale. The retailer may retain any amount collected under the bracket system which is in excess of the amount of tax for which he is liable to the state during the period as compensation for the work of collecting that tax. (7-1-21)T

07. Reimbursement of Tax From the Buyer to the Seller. If the seller does not collect the sales tax at the time of the sale and it is later determined that sales tax should have been collected, the seller can then collect the sales tax from the buyer if the delinquent tax has been paid by the seller. The legal incidence of the tax is intended to fall upon the buyer, Section 63-3619, Idaho Code. (7-1-21)T

a. Example: The Commission determines that certain nontaxed sales by a seller are subject to sales tax and that the seller did not collect the tax and did not have documentation supporting exemption from the sales tax. The Commission issued a Notice of Deficiency Determination to the seller imposing the tax and interest. The assessment then paid by the seller entitles the seller to reimbursement from the buyer. (7-1-21)T

b. The seller is also entitled to collect reimbursement from the buyer of the interest paid on the taxes assessed. (7-1-21)T

c. The seller is not entitled to reimbursement from the buyer for penalties imposed as part of the assessment against the seller. (7-1-21)T

d. The receivable established by the seller seeking reimbursement from the buyer is not subject to expiration of the statute of limitations provided in Section 63-3633, Idaho Code. (7-1-21)T

069. INTERSTATE COMMERCE (RULE 069).
Sections 63-3612, 63-3613, 63-3621, Idaho Code

When tangible personal property is located within the state of Idaho at the time of sale and is delivered within the state of Idaho, such sale is taxable irrespective of where the parties to the contract of sale are located and where the contract was made or accepted or the funds paid. Example: A Washington-based interstate trucking firm hires an Idaho repair facility to install parts on a disabled truck. The trucking firm takes delivery of the repaired vehicle in Idaho. The sale of the parts is subject to Idaho sales tax. (7-1-21)T

070. PERMITS (RULE 070).
Section 63-3620, Idaho Code

01. Requirements for Obtaining Permits. All retailers, wholesalers and other persons required to
collect sales tax must obtain a permit from the Commission before engaging in business. No fee is required for the initial sales tax permit. (7-1-21)

a. Every wholesaler, retailer or other person required to collect sales tax must apply for a permit on the form prescribed by the Commission. Application forms may be obtained by contacting any Commission office. The application for a permit must list each place of business operated by the same person, firm or corporation. The permit must be posted in a conspicuous place at each location for which it is issued. A separate permit number must be obtained for each business name. (7-1-21)

b. Example 1: Corporation A operates the businesses named B, C, and D. Three (3) permit numbers are required, regardless of how many locations operate using the business names B, C, and D. (7-1-21)

c. Example 2: Corporation E operates three locations, using the business name F. Only one permit number is needed, since all locations have the same business name. (7-1-21)

02. Out-of-State Seller. An out-of-state seller desiring to conduct business as a seller within Idaho needs a seller’s permit. This requirement also applies to any salesmen user’s agents who solicit orders for nonresident sellers. (7-1-21)

03. Sales in Leased Premises. When any established business leases a portion of its shelves, counters or floor space to other persons selling tangible personal property to consumers, the sales from such leased department may be included in the tax return of the lessor. When the lessee conducts the leased department in the same manner as a separate business and keeps separate business records, the lessee must apply for a sales tax permit. (7-1-21)

04. Cancellation of Sales Tax Permits. It is the responsibility of a permit holder to notify the Commission in writing immediately upon any change in ownership of the permitted business or upon complete or partial termination of the permit holder’s business. Complete or partial termination of a permit holder’s business includes the lease of part or all of the business or business location to another party who will be responsible for remitting the sales tax. This notice must include the following information. (7-1-21)

a. This notice must include the date of closure, date of sale or date of lease. If the permit holder does not continue to operate a business under that permit number, the notice must state that the permit should be canceled. The permit holder must return the permit or send a written statement that the permit has been destroyed. If the permit holder has sold or leased his business, the notice must state the last day of operation and the name of the new owner or lessee. (7-1-21)

b. If this information is not furnished to the Commission and the new owner or lessee continues operation of the business on the previous owner’s or operator’s permit, without filing for and obtaining a new permit, the original permit holder may be held responsible for all tax liability incurred during the period that the new owner or lessee operated a business under the previous owner’s permit. (7-1-21)

05. Suspension of Sales Tax Permits. The permit holder must notify the Commission in writing of the anticipated discontinuation of a business due to seasonal operation or for any other reason. This notice must contain the date of closure and anticipated date of reopening. Upon receipt of this information, returns will be suspended during the period of closure. (7-1-21)

06. Requirements of Holding a Seller’s Permit. A seller’s permit may be held only by persons actively engaged in making retail sales subject to Idaho sales tax. Any person holding a permit who fails to meet this requirement must surrender the permit to the Commission for cancellation. If a permit is held by a person who has reported no sales for a period of twelve (12) consecutive months, the Commission may revoke the permit and require the holder to return the permit to the Commission or provide a sworn statement that the permit has been destroyed by the holder. (7-1-21)

07. Seller’s Permit and Sales Tax Permit. The terms seller’s permit and sales tax permit may be used interchangeably. Both refer to the permit issued to a person desiring to engage in business in Idaho as a retailer. (7-1-21)
08. **Temporary Seller’s Permits.** The Commission may issue temporary seller’s permits valid for the period of time shown on the face of the permit. No temporary seller’s permit will be issued for a period of time greater than ninety (90) days. (7-1-21)T

071. (RESERVED)

072. **APPLICATION AND PAYMENT OF USE TAX (RULE 072).**

Sections 63-3615, 63-3621, 63-3622, Idaho Code

01. **Imposition of Use Tax.** Use tax is imposed upon the privilege of using, storing, or otherwise consuming tangible personal property within Idaho. The tax is imposed on the value of the tangible personal property. A recent sales price is presumptive evidence of the value. In the absence of a recent sales price, the value of the property subject to tax will be the fair market value at the time of first use in Idaho. Special rules apply to transient equipment which is present in Idaho ninety (90) days or less in any consecutive twelve (12) months. See Section 63-3622A, Idaho Code. (7-1-21)T

02. **Use.** Use is the exercise of right or power over tangible personal property incident to either ownership of the property or the performance of a contract. The term “use” does not include use of tangible personal property incident to the performance of a contract if the owner of the tangible personal property is a business primarily engaged in producing tangible personal property for resale and the property is exempt under Section 63-3622D, Idaho Code. See Rules 012, 077, and 079 of these rules. (7-1-21)T

03. **Storage.** Storage is any keeping or retention of tangible personal property in this state, except as inventory for the purpose of sale in the regular course of business or for subsequent use solely outside Idaho. (7-1-21)T

04. **Specifically Excluded from the Definition of Both Use and Storage Are:**

a. Retention or use of property for subsequent transportation outside the state; or (7-1-21)T

b. Processing, fabricating, repairing, or manufacturing property for subsequent transportation and use or resale solely outside the state. (7-1-21)T

05. **Receipt Showing Sales Tax Paid.** If the property is purchased from an Idaho retailer and Idaho sales tax is charged by and remitted to the retailer, then no use tax will apply to the property. A purchase order issued by the buyer advising the retailer to charge or include the Idaho sales tax is not sufficient evidence that the tax has been paid. The retailer’s receipt provided to the buyer that displays separate statement of the tax relieves the buyer of the use tax requirements. (7-1-21)T

06. **Out-of-State Purchases.** If the property is purchased outside the state or from a retailer not subject to the Commission’s jurisdiction and is subsequently used, stored, or otherwise consumed in this state, then a use tax will apply. The buyer reports and remits the use tax directly to the state by filing a use tax return on the forms prescribed by the Commission. (7-1-21)T

07. **Taxes Paid to Another State.** The taxpayer may offset from the use taxes payable to Idaho any amount of general sales or use taxes paid to another state on the purchase or use of the same property if paid by the same taxpayer. A credit may not be claimed for taxes erroneously paid to another state if no taxable sale or use under the laws of that state occurred. In determining whether a tax is due in the state where paid, the Commission will be bound by the laws, rules, and administrative rulings of the state to which tax is paid. (7-1-21)T

a. If the amount of tax levied by the state to which it is paid is less than the amount of the Idaho tax due, then the balance must be paid as Idaho tax. (7-1-21)T

b. If the amount of tax levied by the state to which it is paid is equal to or greater than the Idaho tax, then there will be no taxes due to Idaho in regard to the same transaction or subsequent use of the property. (7-1-21)T

c. If the taxes paid to the other state are greater than the Idaho tax, the amount of offset available is
limited to the amount of Idaho tax due on the same transaction or use of the property.  

08. **Use Undeterminable at Time of Purchase.** In some cases a buyer may be unable to determine at the time of purchase whether or not property purchased by him will be used for a taxable or nontaxable purpose. For example, a buyer engaged in both a retailing and contracting business may not know whether an item will be sold at retail or withdrawn from inventory and used in the course of performing a contract to improve real property. In these circumstances the buyer may purchase the goods without paying tax if he presents the documentation required by Rule 128 of these rules. The buyer will maintain adequate accounting control to insure that use tax is properly accrued on all taxable property.  

09. **Removal from This State.** If property is held in this state solely for the purpose of subsequent transport and use outside Idaho or is to be processed, fabricated, attached to, or incorporated into property that is to be transported outside and used or sold outside the state, a use tax will not apply.  

10. **Tangible Personal Property Removed From Inventory.** A retailer or wholesaler may purchase tangible personal property for resale without paying sales tax. The tangible personal property then becomes part of inventory. The retailer or wholesaler may use inventory in displaying or demonstrating the inventory for purposes of selling the inventory in the normal course of business. If the retailer or wholesaler uses inventory for any purpose besides display or demonstration in the normal course of selling that inventory, the retailer or wholesaler owes use tax. If inventory is consumed during such display or demonstration, the retailer or wholesaler owes use tax. The retailer or wholesaler calculates the use tax on the value of the tangible personal property. Use tax does not apply to any use or consumption of tangible personal property where such use is specifically exempted from use tax by Idaho Code.  

a. Inventory held for resale becomes subject to use tax at the time the retailer or wholesaler removes the tangible personal property from inventory. If a retailer or wholesaler removes tangible personal property from inventory and then performs additional manufacturing or processing labor, the retailer or wholesaler should calculate use tax on the acquisition cost before the additional labor. However, if a retailer or wholesaler removes tangible personal property after performing additional manufacturing or processing labor, the retailer or wholesaler calculates use tax on the total inventoried cost including the additional labor.  

b. Special rules apply to retailers giving away prepared food and beverage to their employees. See Rule 041 of these rules for more information.  

c. Example 1. A sawmill withdraws lumber from its resale inventory and uses it to construct a building. The lumber was not identified for this use until it was taken from inventory held for resale. Use tax is due on the manufactured value of the lumber taken from inventory.  

d. Example 2. A sawmill cuts specific trees from its own land. The sawmill then cuts these trees to specific dimensions and uses the beams and lumber to construct a building. The trees and lumber are identified for use in constructing the building from the time the trees are cut. Use tax is due on the stumpage value of the trees.  

e. Example 3. A retailer buys shirts without paying tax for resale inventory. The shirts cost the retailer ten dollars ($10) each. The retailer withdraws ten (10) of the shirts from inventory and donates them to a sports team they are sponsoring. The retailer owes use tax on one hundred dollars ($100).  

073. **TANGIBLE PERSONAL PROPERTY BROUGHT OR SHIPPED TO IDAHO (RULE 073).** Sections 63-3615, 63-3621, 63-3621A, Idaho Code  

01. **Equipment Brought into Idaho.** Equipment or other tangible personal property brought or shipped to Idaho by residents or nonresidents is presumed to be for storage, use, or other consumption in this state. Generally, tangible personal property is subject to use tax on its fair market value when it is first used in Idaho. Special rules apply to transient equipment present in Idaho for ninety (90) days or less in any consecutive twelve (12) month period. See Section 63-3621A, Idaho Code, and Subsection 073.03 of this rule. For property a contractor fabricates to install into Idaho real property, see Rule 012 of these rules.
02. **Substantive Use.** Any substantive use of the property in Idaho is sufficient to subject the property to use tax. Use is defined in Section 63-3615, Idaho Code, and Rule 072 of these rules. The use tax does not apply to the use of items purchased before July 1, 1965, or the use of items excluded from tax by Idaho Code. (7-1-21)

03. **Transient Equipment.** Transient equipment means equipment that is: owned by the user, which is a business based in another state; a depreciable asset for income tax purposes and treated as such on the owner’s income tax returns; brought to Idaho and kept here for ninety (90) days or less in any consecutive twelve (12) months; and either was not taxed in another state or, if tax was paid to another state, the amount paid was less than the amount of Idaho use tax due. (7-1-21)

   a. A nonresident business that brings transient equipment to Idaho may elect to pay use tax on either the fair market value of the equipment at the time it enters Idaho, or the fair market rental value of transient equipment for the time it is kept in Idaho. Fair market rental value is the amount it would cost to rent or lease similar equipment from an unrelated equipment rental company. (7-1-21)

   b. Businesses that elect to pay use tax on the rental value of transient equipment may do so without the approval of the Commission as long as the use tax due on the first month’s rental is paid in a timely manner. If the owner fails to pay the tax timely, he will need written approval from the Commission to use this option. (7-1-21)

   c. Equipment which remains in Idaho for more than ninety (90) days in any consecutive twelve (12) months is no longer transient. This equipment becomes subject to Idaho use tax on its fair market value at that time. No credit may be taken for use tax paid on fair market rentals against the use tax due at the time equipment ceases to qualify as transient. (7-1-21)

   d. Example: A Wyoming contractor brings transient equipment, with a fair market value of one hundred thousand dollars ($100,000), to Idaho for use on a ninety (90) day project. The fair market rental value of the equipment for the ninety (90) days totals fifteen thousand dollars ($15,000). Idaho use tax on the fair market rental value, assuming a rate of six percent (6%), totals nine hundred dollars ($900). The contractor paid three thousand five hundred dollars ($3,500) of sales tax to the state of Wyoming when he bought the equipment new. The contractor is not required to pay tax to Idaho since the tax paid to Wyoming exceeds the amount of Idaho use tax due. (7-1-21)

   e. Example: The same contractor in the previous example returns to Idaho within the same twelve (12) months with the same equipment, now with a fair market value of ninety-five thousand dollars ($95,000). As the equipment has now exceeded the ninety (90) day rule for transient equipment, it is subject to Idaho’s six percent (6%) use tax on its present value of ninety-five thousand dollars ($95,000) x six percent (6%) = five thousand seven hundred dollars ($5,700). Credit of two thousand six hundred dollars ($2,600) is allowed for sales tax paid to Wyoming, three thousand five hundred dollars ($3,500) less the nine hundred dollar ($900) credit already used on rentals. The contractor owes three thousand one hundred dollars ($3,100) of use tax to Idaho. (7-1-21)

04. **Licensed Motor Vehicles.** A motor vehicle licensed in a nonresident’s home state and brought to Idaho to use for ninety (90) days or less in any consecutive twelve (12) months is not subject to Idaho use tax. Once the vehicle is used here more than ninety (90) days during any consecutive twelve (12) months, use tax applies to the fair market value of the vehicle at that time unless tax was paid to another state in an amount equal to, or greater than, the tax owed to Idaho. Special rules apply to new residents, nonresident college students, and temporarily assigned military personnel in Idaho. See Rule 107 of these rules. (7-1-21)

074. **DONATIONS TO POLITICAL SUBDIVISIONS AND CERTAIN NONPROFIT ORGANIZATIONS OF TANGIBLE PERSONAL PROPERTY USED FOR IMPROVEMENTS TO REAL PROPERTY (RULE 074).**

Sections 63-3609, 63-3612, 63-3613, 63-3621, 63-3622O, Idaho Code

01. **Donated Property.** Effective July 1, 1991, there is an exemption from the use tax for the donation of tangible personal property which is incorporated into real property, when donated to the state of Idaho, political subdivisions of this state, or a nonprofit organization as defined in Section 63-3622O, Idaho Code. The exemption applies whether the tangible personal property is incorporated into real property by the donee, a contractor or subcontractor or any other person. (7-1-21)
02. **Purchase of Donated Items.** This exemption does not apply to sales tax which is applicable to the purchase of tangible personal property which will be donated to the state of Idaho, its political subdivisions, or qualified nonprofit organizations, for incorporation into real property. (7-1-21)

03. **Property Not Incorporated into Real Property.** This exemption does not apply to the sales or use tax applicable to tangible personal property donated to the state of Idaho, its political subdivisions, or qualified nonprofit organizations when the property donated will not be incorporated into real property. (7-1-21)

   a. Example 1: A concrete company removes from inventory and donates twenty (20) yards of redi-mix concrete to a nonprofit Idaho college for the footings of a storage building. Another contractor who is donating labor for erection of the building places the redi-mix concrete. Neither the redi-mix concrete company nor the contractor owe use tax. (7-1-21)

   b. Example 2: The same concrete company donates twenty (20) yards of redi-mix concrete to a nonprofit organization which is not listed in Section 63-3622O, Idaho Code. The concrete company owes use tax on the cost of the materials removed from inventory for the donation. (7-1-21)

   c. Example 3: A contractor buys materials from a local lumber yard which they donate to the nonprofit Idaho college to be used in building a storage building. This contractor pays sales tax on the material because the law provides exemption only from use tax. (7-1-21)

   d. Example 4: A local automobile dealer takes three vehicles from inventory and donates them to the athletic department of an Idaho university. The exemption does not apply. The automobile dealer owes use tax on his cost of the vehicles because the vehicles will not become improvements to real property. (7-1-21)

075. -- 076. (RESERVED)

077. **EXEMPTION FOR RESEARCH AND DEVELOPMENT AT INL (RULE 077).** Section 63-3622BB, Idaho Code

   01. **Exclusive Financing Exemption Under Section 63-3622BB(1), Idaho Code.** The purchase of certain tangible personal property used in connection with certain activities at the Idaho National Laboratory (INL) is exempt from sales and use tax. To qualify for this exemption, the property needs to be tangible personal property primarily or directly used or consumed in research, development, experimental and testing activities, exclusively financed by the United States Government. (7-1-21)

   a. Qualifying Activity. Research, development, experimental, and testing activity means any activity of an original investigation, for the advancement of scientific knowledge in a field of laboratory science, engineering or technology and does not have an actual commercial application. (7-1-21)

   b. Real Property. The exemption does not apply to real property or to tangible personal property which will become improvements or fixtures to real property. See Rules 012 and 067 of these rules. (7-1-21)

   c. Incidental Use of Property. This exemption does not extend to the incidental use of any tangible personal property which fails to meet the test of primary or direct use or consumption. (7-1-21)

      i. Areas of support which are considered incidental include: communications equipment; office equipment and supplies; janitorial equipment and supplies; training equipment and supplies; dosimetry or radiation monitoring equipment which lacks the capability of giving an immediate indication and would not result in an immediate evacuation of personnel or shutdown of equipment; subscriptions or technical manuals which provide technology not primarily used or directly connected to the research activity; and hot and cold laundry operations. (7-1-21)

      ii. Materials of common support which are considered incidental include: clothing for weather protection or of a reusable nature; hand tools which are not subject to contamination at the time of initial use; protective coverings which are protection from other than radiation or are of a reusable nature; and all safety equipment and supplies which do not protect from direct radiation exposure. (7-1-21)
d. Property Directly Used or Consumed. Tangible personal property primarily or directly used or consumed in a research and development activity to perform quality assurance on research equipment is tax exempt. Items of a general support nature, such as coveralls, are taxable. (7-1-21)T

e. Parts for Equipment. The use of tangible personal property which becomes a component part of research equipment being calibrated within a calibration lab is tax exempt; whereas, the use of parts and equipment in calibrating or for the repair of other maintenance equipment is taxable. (7-1-21)T

f. Radioactive Waste. The initial containment or storage of radioactive waste is an exempt use. Any further processing or transporting of such waste not relating to a research and development activity is a taxable use. (7-1-21)T

g. Motor Vehicles. The purchase of any motor vehicle licensed or required to be licensed by the laws of this state is taxable. (7-1-21)T

h. Agreements with Contractors. The Commission may enter into agreements with contractors engaged in research at the INL prescribing methods by which the contractor or contractors may accrue use tax based on the accounting procedures required by the U.S. Department of Energy. (7-1-21)T

02. Percentage of Tangible Personal Property Exemption Under Section 63-3622BB(2), Idaho Code. If a facility is used by the United States or one (1) of its management and operating contractors for research and development activities at the INL and also is used by a person or persons in addition to the United States or one (1) of its management and operating contractors, there is exempted from the taxes imposed by this chapter a percentage of each sale or use of tangible personal property used or consumed at or for the benefit of the facility in the amount that the research and development activities of the United States or its management and operating contractors bear to the total use of the facility by all persons. The Commission will calculate, review, and verify the allocation provided for in this section. (7-1-21)T

01. Exemptions. (7-1-21)T

a. Motor fuels, including gasoline, diesel and gaseous fuels, upon which the taxes are imposed by Title 63, Chapter 24, Idaho Code, are exempt from sales and use taxes. IDAPA 35.01.05, “Idaho Motor Fuels Tax Administrative Rules,” explains in detail which petroleum and gaseous products are taxable as motor fuel. Also exempt are purchases upon which motor fuels taxes have been paid. If such purchases are later included in credits or refunds for motor fuels taxes paid and not subject to taxes imposed by Title 63, Chapter 24, Idaho Code, and no other exemption applies, sales and use taxes will be applicable. (7-1-21)T

b. Fuel may be exempt under Section 63-3622(D), Idaho Code. (7-1-21)T

c. Fuel used as heating fuel may be exempt if it qualifies under the exemption for space heating materials. See Rule 088 of this rule. (7-1-21)T

d. The sale or use of fuel for subsequent use outside this state and fuel brought into this state in the fuel tanks of vehicles in interstate commerce may be exempt. Carriers engaging in interstate commerce are required to maintain sufficient verifiable statistical data to substantiate any exemption claimed for fuel purchased in Idaho for use outside this state. In the case of a substantial change in the mode of operation of the carrier or other circumstances that would cause the statistical data to be invalid, the carrier is required to review and adjust the exemption claimed accordingly. (7-1-21)T

02. Exclusion from Exemption. Purchase or use of any fuels may be subject to sales and use taxes if no other exemption applies. Examples include, without limitation: (7-1-21)T

a. Fuel used by a road contractor in the operation of construction equipment or operation of stationary
engines to generate electricity, unless all of the electricity generated is used primarily and directly in the processing, manufacturing or fabricating of tangible personal property to be sold at retail. (7-1-21)T

b. Fuel used by private contractors in off-road vehicles in the performance of contracts with any governmental instrumentality. (7-1-21)T

079. PRODUCTION EXEMPTION (RULE 079).
Sections 63-3622, 63-3622D, 63-3622HH, Idaho Code.

01. In General. Section 63-3622D, Idaho Code, known as the production exemption, provides an exemption from sales and use taxes for certain tangible personal property used in production activities. The production activities include:

a. A manufacturing, processing, or fabrication operation primarily devoted to producing tangible personal property that it will sell and is intended to be ultimately sold at retail. (7-1-21)T

b. The following types of businesses may also qualify for the exemption, even though they perform services and do not actually sell tangible personal property:

i. The business of custom farming or operating a farm or ranch for profit. (7-1-21)T

ii. The business of contract mining or operating a mine for profit. (7-1-21)T

iii. Businesses devoted to processing tangible personal property for use as fuel for the production of energy. (7-1-21)T

02. Qualifying Businesses. The production exemption applies only to a business or a separately operated segment of a business that primarily produces tangible personal property which is intended for ultimate sale at retail.

a. For the purposes of this rule, a separately operated segment of a business is a segment of a business for which separate records are maintained and which is operated by an employee or employees whose primary employment responsibility is to operate the business segment. (7-1-21)T

b. The production exemption does not include the performance of contracts to improve real property, such as road or building construction, or to service-related businesses not devoted to the production of tangible personal property for ultimate sale at retail. (7-1-21)T

c. To qualify for the production exemption, a business sells the products it produces or processes. The only exceptions are businesses primarily devoted to processing fuel to be used for the production of energy; custom farming; and contract mining. (7-1-21)T

03. Exempt Purchases. As applied to manufacturing, processing, mining, or fabrication operations, sales and purchases of the following tangible personal property are exempt, except as limited by other subsections of this rule:

a. Raw materials that become an ingredient or component part of the product which is produced. (7-1-21)T

b. Equipment and supplies used or consumed primarily and directly in the production process and which are necessary or essential to perform the operation. To qualify, the production use is the primary use of the equipment and supplies and they will be used directly in the production process. (7-1-21)T

c. Chemicals and catalysts consumed in the production process which are used directly in the process but which do not become an ingredient or component part of the property produced. (7-1-21)T

d. Repair parts, lubricants, hydraulic oil, and coolants, which become a component part of production
equipment. (7-1-21)T

e. Fuel, such as diesel, gasoline, and propane used in equipment while performing production exempt activities. (7-1-21)T

f. Chemicals and equipment used in clean-in-place systems in the food processing and food manufacturing industries. (7-1-21)T

g. Safety equipment and supplies required by a state or federal agency when used directly in a production area. (7-1-21)T

h. Equipment such as cranes, manlifts, and scissorlifts used primarily to install production equipment. (7-1-21)T

i. Equipment used primarily to fabricate production equipment. (7-1-21)T

j. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (7-1-21)T

04. Production Process Beginning and End. The production process begins when raw materials used in the process are first handled by the operator at the processing plant or site. The production process ends when the product is placed in storage, however temporary, ready for shipment or when it reaches the final form in which it will be sold at retail, whichever occurs last. See Rule 083 of these rules regarding farming. (7-1-21)T

05. Taxable Purchases. The production exemption does not include any of the following: (7-1-21)T

a. Motor vehicles required to be licensed by Idaho law. A motor vehicle required to be licensed, but not actually licensed, is taxable. A motor vehicle not required to be licensed is exempt under the production exemption only if it meets the tests in Subsection 079.03 of this rule. (7-1-21)T

b. Repair parts for any equipment which does not qualify for the production exemption. (7-1-21)T

c. Office equipment and supplies. (7-1-21)T

d. Safety equipment and supplies used somewhere other than a production area, such as an office, or which are not required by a state or federal agency even if used in a production area. (7-1-21)T

e. Equipment and supplies used in selling and distribution activities. (7-1-21)T

f. Janitorial equipment and supplies, other than disinfectants used in the dairy industry to clean pipes, vats, and udders, and clean-in-place equipment and chemicals used in food processing or food manufacturing. (7-1-21)T

g. Maintenance and repair equipment and supplies which do not become component parts of production equipment, such as welders, welding gases, shop equipment, etc. (7-1-21)T

h. Transportation equipment and supplies. (7-1-21)T

i. Aircraft of any type and supplies. (7-1-21)T

j. Paint, plastic coatings, and similar products used to protect and maintain equipment, whether applied to production equipment or other equipment. (7-1-21)T

k. Other incidental items not directly used in production. (7-1-21)T

l. Fuel used in equipment while performing activities that do not qualify for the production exemption. (7-1-21)T
m. Recreation-related vehicles as described in 63-3622HH, Idaho Code, regardless of use. (7-1-21)

n. Parts to repair recreation-related vehicles. (7-1-21)

o. Equipment used primarily to construct, improve, alter or repair real property. (7-1-21)

06. **Real Property.** The production exemption applies only to tangible personal property. It does not apply to real property or to tangible personal property purchased with the intention of becoming improvements or fixtures to real property. The production exemption does not apply to equipment and materials primarily used to improve real property. (7-1-21)

07. **Change in Primary Use of Property.** If tangible personal property is purchased for a use which qualifies for the production exemption but later is used primarily for another purpose, it becomes taxable at its fair market value when it ceases to qualify for the exemption. For instance, a loader may be used primarily in a mining operation when purchased. If the primary use of the loader is later changed from mining to road building, it becomes taxable at its fair market value when it ceases to be used for mining. If tax is paid on tangible personal property because no exemption applies at the time of purchase, and the property later becomes eligible for the production exemption, no refund is due the owner. (7-1-21)

08. **Transportation Activities.** Equipment and supplies used in transportation activities do not qualify for the production exemption.

a. Transportation includes the movement of tangible personal property over private or public roads or highways, canals, rivers, rail lines, through pipelines or slurry lines, or on private or public aircraft. (7-1-21)

b. Transportation includes movements of tangible personal property from one separate location which is a continuous manufacturing, processing, mining, fabricating or farming activity to another separate location which is a continuous exempt activity or process. (7-1-21)

c. Transportation includes movement of raw materials, except farm produce, from a point of initial extraction or severance or importation to a point where processing, manufacturing, refining or fabrication begins. See Rule 083 of these rules regarding farming. (7-1-21)

09. **Exemption Certificate.** To claim the production exemption the customer must complete an exemption certificate for the seller’s records. See Rule 128 of these rules. (7-1-21)

10. **Special Rules.** Special rules apply to irrigation equipment, contractors, loggers, and farmers who act as retailers. Refer to the specific rules relating to those subjects. (7-1-21)

080. **LUMBER MANUFACTURING (RULE 080).**

Sections 63-3622, 63-3622D, 63-3622HH, Idaho Code

This rule is intended to illustrate the application of the production exemption to the lumber manufacturing industry. The provisions of this rule are based upon the usual methods of doing business used in the industry generally. Factual differences in the manner in which a specific taxpayer may conduct its business may result in determinations different from those stated in this rule. In cases not covered by this rule, the general principles stated in Rule 079 of these rules will control. Some equipment may be used for more than one purpose. Determinations of taxability will be based upon the equipment’s primary use. This rule is limited in application to the manufacturing of rough and finished lumber and does not encompass the manufacturing of plywood, particleboard, veneer, or paper products. (7-1-21)

01. **Nontaxable Activities.** Generally considered as nontaxable activities are the following:

a. Log receiving including log loaders, cranes, and front end loaders. (7-1-21)

b. Log deck/log pond including log loading equipment and boats moving logs from the storage area to the debarker; sprinkler equipment when used for prevention of product deterioration; and devices used to detect metal in logs. (7-1-21)
c. Debarking equipment used to strip bark from logs including conveyor equipment for moving debarked logs further into the mill or for conveying bark when bark is used as boiler fuel or when conveying bark to a further processing stage. (7-1-21)T

d. Chipper, used to produce chips including chip storage bins and pneumatic conveyors. (7-1-21)T

e. Mill deck, as used for grading and cutting to length. (7-1-21)T

f. Headrig/shotgun, as used for sawing logs. (7-1-21)T

g. Edger, as used for edging rough lumber. (7-1-21)T

h. Trimmer, as used for trimming to length. (7-1-21)T

i. Resaw, as used for producing the proper thickness. (7-1-21)T

j. Green chain, as used to determine according to size and species the amount of time required in the dry kiln. (7-1-21)T

k. Dry kiln, as used to reduce moisture content. This exemption encompasses fire brick, steam pipe and fans inside the kiln but does not include improvements to real property. (7-1-21)T

l. Unstackers. (7-1-21)T

m. Planers, as used for finishing, grading and grade stamping of specialty products. (7-1-21)T

n. Boiler when used for the generation of steam used to operate production equipment. (7-1-21)T

o. Powerhouse when used to generate power used to operate production equipment. (7-1-21)T

p. Waste collection, as used for the collection of waste products for use as fuel for the boiler, generally referred to as hog fuel. (7-1-21)T

q. Lumber wrap and steel strapping used for packaging material. (7-1-21)T

r. Pollution control equipment when required by a state or federal agency. (7-1-21)T

s. Equipment used primarily to install exempt equipment. (7-1-21)T

t. Equipment used primarily to fabricate exempt equipment. (7-1-21)T

u. Safety equipment and supplies required by a state or federal agency and used in a production area. (7-1-21)T

v. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (7-1-21)T

02. Taxable Activities. Generally considered as taxable activities are the following: (7-1-21)T

a. Saw filing activities using saw filing equipment and saw filing supplies. (7-1-21)T

b. Shipping, including loading equipment and strapping, seals, and binders used in shipping activities to secure lumber on railroad cars, trucks, etc. (7-1-21)T

c. Cleanup. (7-1-21)T
d. Equipment used to repair or maintain production equipment. (7-1-21)T

e. Equipment used primarily to construct, improve, alter or repair real property. (7-1-21)T

f. Safety equipment and supplies used in an area where no manufacturing occurs such as an office, or which are not required by a state or federal agency even if used in a production area. (7-1-21)T

g. Other items specifically identified as taxable in Rule 079 of these rules. (7-1-21)T

03. Exemption Certificate. Persons engaged in lumber manufacturing who wish to purchase goods that qualify for this exemption without paying sales tax complete an exemption certificate. See Rule 128 of these rules. (7-1-21)T

081. UNDERGROUND MINING (RULE 081). Sections 63-3605B, 63-3622, 63-3622D, 63-3622HH, Idaho Code

This rule is meant to show how the production exemption applies to the underground mining industry. This rule is based on the usual methods of doing business. Differences in the way a specific taxpayer conducts his business can result in determinations different from those in this rule. In cases not covered by this rule, the general principles in Rule 079 of these rules apply. Determinations of taxability are based on the primary use of equipment. (7-1-21)T

01. Nontaxable Purchases. The following are generally considered nontaxable: (7-1-21)T

a. Development of known ore deposits, including diamond drilling and other activities to develop levels, laterals, crosscuts, drifts, stopes, raises and shafts. (7-1-21)T

b. Support materials, including, timber, concrete, rock bolts, shotcrete, matting, and equipment used to install them. (7-1-21)T

c. Drilling of blast holes to facilitate the extraction of ore including pneumatic rock drills and compressors used to supply compressed air to operate pneumatic rock drills. (7-1-21)T

d. Blasting to facilitate the extraction of ore using explosives, caps, fuses, etc. (7-1-21)T

e. Slushing/mucking to convey broken ore and waste to passes and chutes using scrapers, slushers, muckers, hoists and loaders, and backhoes used to recover both ore and waste. (7-1-21)T

f. Hauling, horizontal transportation, to transport ore, waste, men or materials from chutes into cars and the movement of the cars to shaft stations using skips, hoists, hoist cable, shafts, shaft timbers, shaft stations, shaft pockets, shaft guides, concrete, etc. (7-1-21)T

g. Haulage, vertical transportation, to hoist ore, waste, men or materials in skips, using skips, hoists, hoist cable, shafts, shaft timbers, shaft stations, shaft pockets, shaft guides, concrete, etc. (7-1-21)T

h. Transportation to the surface to load the ore, waste, men or materials into main haulage cars for transportation using locomotives, haulage cars, track and track spikes, fuel batteries used to power locomotives, and conveyors and conveyor belts. (7-1-21)T

i. Backfilling to pump tailings back underground as hydraulic sand fill to backfill mined-out areas using, pumps, sumps, pipe, and concrete. (7-1-21)T

j. Personal equipment including hard hats, miners' lights, belts, and batteries. (7-1-21)T

k. Sampling/assaying for quality control purposes. (7-1-21)T

l. Safety equipment and supplies required by a state or federal agency when used directly in a mining area. (7-1-21)T
m. Equipment used primarily to install production equipment. (7-1-21)T
n. Equipment used primarily to fabricate production equipment. (7-1-21)T
o. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (7-1-21)T

02. Taxable Purchases. The following are generally considered taxable:

a. Diamond drilling activities used for exploration. (7-1-21)T
b. Air ventilation and conditioning if an improvement to real property including fans, motors, vent ducts; coolers; and air doors. (7-1-21)T
c. Water lines and pumps used to remove water from the mine if improvements to real property. (7-1-21)T
d. Safety equipment and supplies used somewhere other than a mining area, such as an office, or not required by a state or federal agency even if used in a mining area. (7-1-21)T
e. Maintenance and cleanup using backhoes, except when the primary use is to recover ore or waste; equipment used to repair or maintain mining equipment; battery maintenance equipment including battery chargers, and shop supplies and other materials or supplies which do not become a component part of production exempt equipment. (7-1-21)T
f. Sampling/assaying for purposes other than quality control. (7-1-21)T
g. Other items specifically identified as taxable in Rule 079 of these rules. (7-1-21)T

03. Exemption Certificate. To claim this exemption underground miners will complete an exemption certificate for the seller’s records. See Rule 128 of these rules. (7-1-21)T

082. ABOVEGROUND, OPEN PIT, MINING (RULE 082).
Sections 47-701, 47-701A, 63-3605H, 63-3622, 63-3622D, 63-3622X, Idaho Code

This rule is meant to show how the production exemption applies to the aboveground, open pit, mining industry. This rule is based on the usual methods of doing business in the industry. Differences in the way a specific taxpayer conducts his business can result in determinations different than those stated in this rule. In cases not covered by this rule, the general principles stated in Rule 079 of these rules apply. Determinations of taxability are made based on primary use of the equipment. This rule applies only to aboveground mining activities commonly referred to as open pit mining. Mining does not include soil extraction. (7-1-21)T

01. Exempt Purchases. The following are generally considered nontaxable:

a. Drilling and blasting, to loosen overburden for removal or, to define limits of existing ore bodies using track drills, rotary drills, and compressors to operate them, drill rods, drill bits, explosives, caps, fuses, etc., for this purpose. (7-1-21)T
b. Ore and overburden extraction and removal using front end loaders, track loaders, power shovels, backhoes, scoop loaders, and similar equipment used to extract and load ore or strip and load overburden. (7-1-21)T
c. Hauling of ore and overburden to stockpiles, loading sites, or disposal sites on the mine site using scrapers, carryalls, and off-highway trucks and trailers. (7-1-21)T
d. Ore sorting, grading, sizing, and crushing operations, including unloading from transport devices using bulldozers, front end loaders, crushers, conveyors, and similar equipment. (7-1-21)T
e. Pollution control equipment required by a state or federal agency. See Section 63-3622X, Idaho Code. (7-1-21)T

f. Safety equipment and supplies required by a state or federal agency when directly used in a mining area. (7-1-21)T

g. Equipment used primarily to fabricate or install production equipment. (7-1-21)T

h. Equipment such as cranes, manlifts, and scissorlifts, used primarily to install production equipment. (7-1-21)T

i. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (7-1-21)T

02. Taxable Purchases. The following are generally considered taxable: (7-1-21)T

a. Exploration, where the primary purpose is to discover new ore bodies using equipment, including rotary drills, drill rigs, blasting equipment, seismic equipment, cats, bulldozers, and other materials and supplies, primarily used for such activities. (7-1-21)T

b. Real property improvements, construction, and maintenance activities, including materials and equipment used primarily for constructing or maintaining buildings, fences, railroads, concrete pads and footings, and roads. Equipment, including cranes, concrete equipment, and post hole diggers primarily used for such purposes. Materials and supplies, including lumber, steel, roofing, trusses, fence posts, gates, and wire; and concrete, rebar, and remesh. (7-1-21)T

c. Maintenance and cleanup activities, including those where the primary purpose is to maintain equipment and facilities or cleanup grounds and roads, except where cleanup activities are done primarily to recover ore. Shop or other equipment used primarily to repair, clean, or maintain production equipment, including welders, lathes, shop tools, hoists, cranes, mechanics’ trucks, oiling trucks and trailers, steam cleaners, and testing equipment. Shop and other materials and supplies which will not become a component part of production equipment. (7-1-21)T

d. Land reclamation activities, including activities where mined ore pits or panels are filled in, shaped, and reseeded, including seed or seedlings, fertilizers, soil conditioners, soil, and bulldozers, scrapers, and seed drills primarily used for this purpose; however, equipment primarily used for ore and overburden extraction and loading is exempt, even though this equipment is also used in land reclamation. (7-1-21)T

e. Transportation of personnel and materials, including transportation to and from worksites or about the mine in general using buses, people movers, trailers, trucks, or similar equipment. (7-1-21)T

f. Equipment and supplies used in transportation activities where ore or overburden is moved between geographically separated mine sites, processing plants or disposal sites, if 1) a substantial break in the production activities occurs, and 2) the activity does not sort, grade, size, crush, or in some other way further process the ore. Transportation activities include loading, transporting, unloading, and stockpiling. A substantial break in the production activities occurs when the product is transported between geographically separated production sites by means of public roads, waterways, airways, railways, or any other public means. The production facility to which the product is transported is a separate processing facility, and the equipment and supplies used to transport the product is taxable. Examples of taxable equipment include: trucks and trailers, whether licensed or unlicensed; railroad equipment; barges and other watercraft; pipelines; conveyors; front end loaders; and bulldozers. If the means of transport to processing plants, smelters, etc., does not constitute a substantial break in the process, such as a slurry line directly from the mine to the plant, then the loading and unloading activities are not taxable. (7-1-21)T

g. Personnel support activities, including facilities, equipment, and supplies for eating, sleeping, and recreation. Examples include eating trailers, utensils and food, clothing provided to employees at no charge, and pool tables, beds, and linen. (7-1-21)T
h. Other items specifically identified as taxable in Rule 079 of these rules.

03. Exemption Certificate. To claim the production exemption, above ground miners will complete an exemption certificate for the seller’s records. See Rule 128 of these rules.

083. FARMING AND RANCHING (RULE 083).
Sections 63-3603, 63-3622, 63-3622D, 63-3622HH, Idaho Code
This rule is intended to illustrate the application of the production exemption to the farming and ranching industry. The provisions of this rule are based on the usual methods of doing business in the industry. Specific factual differences in the manner in which a specific taxpayer may conduct his business can result in determinations different from those stated in this rule. Cases not covered by this rule are controlled by the general principles stated in Rule 079 of these rules. Some equipment may be used for more than one purpose. Determinations of taxability will be based upon the equipment’s primary use.

01. In General. Farming includes custom farming and the operation of a farm or ranch, and includes stock, dairy, poultry, fish, fur, fruit and truck farms, ranches, ranges, and orchards operated with the intention of making a gain or profit. Farming does not include operation of ranches or stables where the sole purpose is showing or racing horses, or the breeding of show or race horses.

02. Property Primarily and Directly Used. As applied to the business of farming, the exemption applies to all tangible personal property which is primarily and directly used to conduct the farming business, and which is necessary or essential to the operation, except those categories of property listed in other sections of this rule.

03. Directly Used. The term “directly used or consumed in or during” farming operation means the performance of a function reasonably necessary to the operation of the total farming business, including the planting, growing, harvesting, storage and removal from storage of crops and other agricultural products, and movement of crops and produce from the place of harvest to the place of initial storage.

04. Transportation Activities. Equipment used to move farm produce to initial storage is exempt, even though it may be mounted on a vehicle which is required to be licensed and is taxable. Equipment qualifies for this exemption if:

a. It is readily removable from the vehicle on which it is mounted;

b. It is separately stated on the vendor’s invoice; and

c. It is sold to a qualified farming operation and is supported by a valid exemption claim form.

05. Disinfectants Used in the Dairy Industry. Disinfectants used in the dairy industry to clean cow udders or to clean pipes, vats, or other milking equipment are exempt.

06. Safety Supplies. Safety supplies required by a state or federal agency and directly used in a farming operation are exempt from sales or use tax.

07. Plants. Plants, such as orchard trees and grape vines, are exempt.

08. Quality Control. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards.

09. The Farming Exemption Does Not Include:

a. Property purchased to meet the personal needs of a farmer, his family, or employees. Examples of items that are excluded from the exemption include, but are not limited to, hand soap, toothpaste, shampoo, blankets, sheets, pillowcases, towels, washcloths, irrigation boots, coveralls, gloves, other clothing, and grocery items.
b. Food and supplies purchased for barnyard and household pets, such as cat and dog food, are taxable. Even though a dog may occasionally be used for herding livestock or a cat may control mice in the barn, the supplies purchased for their care and maintenance do not qualify for the production exemption. Only when a dog’s SOLE purpose is the herding or protection of a rancher’s livestock may the food and supplies for the dog be purchased tax exempt under the production exemption.

(7-1-21)T

c. Livestock trailers which may be attached to motor vehicles used to transport horses, cattle, sheep, or other farm animals on public roads are transportation equipment and are taxable.

(7-1-21)T

d. Motor vehicles required to be licensed are taxable even when used exclusively in a farming operation. Motor vehicles purchased, but not licensed, by a farmer for use exclusively in an off-road production activity, such as a feed truck, are not taxable.

(7-1-21)T

e. Other items specifically identified as taxable in Rule 079 of these rules.

(7-1-21)T

10. Exemption Certificate. Farmers or ranchers who wish to purchase goods that qualify for this exemption without paying sales tax need to complete an exemption certificate. See Rule 128 of these rules.

(7-1-21)T

084. CONTAINERS RETURNABLE/NONRETURNABLE (RULE 084).

Sections 63-3622, 63-3622E, Idaho Code

01. Container. A container encloses or will enclose tangible personal property which is sold at wholesale or retail. A container may be comprised of one (1) or more components. Items used as shipping supplies which do not enclose the product are not considered to be containers. Example: Cartons of canned goods are placed on a pallet. Shrink wrap is used to bind the cartons to the pallet. A shipping address label is affixed to the shrink wrap. The container includes the cans in which the goods are enclosed; the cartons in which the canned goods are placed; and the shrink wrap and pallet which enclose the cartons. The address label is not part of the container.

(7-1-21)T

02. Containers Exempt from Tax. The following containers are exempt from sales or use tax:

(7-1-21)T

a. Nonreturnable containers purchased by a retailer or wholesaler who places the contents in the container and sells the contents with the container at retail or wholesale, including cans, barrels, boxes, cartons, grocery sacks, disposable soft drink cups and lids, and other to-go fast food containers.

(7-1-21)T

b. Returnable containers when the container, along with the contents, is sold at retail if the fee for the container is separately stated, including returnable beer kegs, returnable barrels, and returnable pallets.

(7-1-21)T

c. Returnable containers when sold back to retailers or manufacturers for refilling.

(7-1-21)T

d. Returnable or nonreturnable containers when sold with contents that are exempted from the tax, regardless of whether or not the container is separately billed, including containers for prescription drugs, and oxygen or acetylene cylinders, when the use of the gases qualifies for the production exemption.

(7-1-21)T

03. Taxable Containers. Containers subject to sales and use tax include containers used by persons who are providing a service rather than selling a product, such as plastic clothing bags purchased by dry cleaners.

(7-1-21)T

04. Supplies. Shipping, selling, or distribution supplies are not considered to be containers and are taxable when purchased by the shipper, seller, or distributor, such as:

(7-1-21)T

a. Shipping pallets and lumber stickers when not banded or shrink wrapped to the product to be sold, thereby not becoming a part of the container.

(7-1-21)T

b. Banding or binders used to secure goods to transportation equipment.
c. Price stickers and address labels affixed to containers that do not provide any product information such as weight, quantity, nutritional value, or other necessary product description. See Rule 042 of these rules. (7-1-21)

d. Example: Plywood is wrapped with lumber wrap. The bundles are rested on pallets for shipping. In this example the lumber wrap is the only container. As the bundles are not enclosed onto the pallet, the pallet is not a container and is instead a taxable shipping supply subject to the tax. (7-1-21)

085. SALES TO AND PURCHASES BY NONPROFIT ORGANIZATIONS (RULE 085).
Sections 63-3622 and 63-3622O, Idaho Code

01. In General. The Sales Tax Act does not provide any general exemption for, charitable or nonprofit organizations, corporations, associations or other entities. Specific statutory provisions provide exemptions for some charitable organizations. Unless an exemption is clearly granted to a specific organization or to specific sales or purchases by a specific organization or a class of organization, no exemption applies. Special rules apply to religious organizations. See Rule 086 of these rules. (7-1-21)

02. Educational Institutions. Sales to and purchases made by non-profit educational institutions, as defined in Section 63-3622O, Idaho Code, are exempt from Idaho sales or use taxes. (7-1-21)

03. Health Related Entities. Sales to and purchases made by the specific health related entities listed in Section 63-3622O, Idaho Code, are exempt from Idaho sales or use taxes. Health related organizations not named are not entitled to any exemption from sales and use taxes as a health related entity. (7-1-21)

04. Hospitals. In addition to the health related entities listed in Section 63-3622O, Idaho Code, hospitals which are nonprofit institutions licensed for the care of ill persons are exempt. To qualify for the exemption the hospital needs to be a facility defined in Section 39-1301(a), Idaho Code, and licensed as provided in Chapter 13, Title 39, Idaho Code, or an equivalent law in another state. Hospitals operated for profit do not qualify for this exemption, nor do nursing homes, clinics, doctors’ offices, or similar facilities unless the organization qualifies for an exemption under Section 63-3622O, Idaho Code. (7-1-21)

05. Idaho Foodbank Warehouse, Inc. The Idaho Foodbank Warehouse, Inc. is a nonprofit corporation which gathers food and food products at one (1) central location for distribution to food banks throughout Idaho. All sales to, donations to, and purchases by the Idaho Foodbank Warehouse, Inc., are exempt from sales and use taxes. (7-1-21)

a. Example 1: The XYC Corporation buys food from a grocer to donate to the Idaho Foodbank Warehouse, Inc. The XYC Corporation pays sales tax on the purchase since they are not purchasing the food for resale and no other exemption applies. (7-1-21)

b. Example 2: The Idaho Food Bank Warehouse, Inc. buys office supplies. No tax is due on the purchase. (7-1-21)

06. Food Banks and Soup Kitchens. Food banks or soup kitchens are nonprofit organizations, other than the Idaho Foodbank Warehouse, Inc., which, as one of their regular activities, furnish food to others without charge. Sales to, donations to, and purchases of food or tangible personal property used by food banks and soup kitchens other than the Idaho Foodbank Warehouse, Inc. to grow, store, prepare, or serve food are exempt from sales and use taxes. However, there is no exemption from the sales tax if goods are purchased with the intent and purpose of donation to a qualified organization. This exemption does not extend to the sale, purchase, or use of licensed motor vehicles by food banks or soup kitchens. (7-1-21)

a. Example 1: A grocer removes food from their inventory of goods held for resale to donate to a food bank or soup kitchen. The grocer is exempt from the use tax on their cost of the inventory donated. (7-1-21)

b. Example 2: The XYZ Corporation buys food from a grocer to donate to a food bank. The XYZ Corporation is not purchasing the food items for resale, and no other exemption from sales tax applies. Sales tax is paid on the purchase. (7-1-21)
c. Example 3: A food bank buys a licensed motor vehicle. The purchase is subject to sales tax because the motor vehicle is not used to grow, prepare, or serve food. (7-1-21)

07. **Red Cross.** See Rule 094 of these rules. (7-1-21)

08. **Nonsale Clothiers.** Nonprofit organizations, one of whose primary functions is to provide clothing to the needy without charge, may purchase the clothing without paying tax. Only clothing qualifies for the exemption. Other purchases by the organization are taxable. Clothing may also be removed from a resale inventory and donated to these organizations exempt from use tax. However, there is no exemption from the sales tax if goods are purchased with the intent and purpose of donation to a qualified organization. (7-1-21)

a. Example 1: A department store removes clothing from resale merchandise to donate to a nonprofit, nonsale clothier. The store is exempt from the use tax on the cost of the inventory donated. (7-1-21)

b. Example 2: A nonprofit, nonsale clothier buys clothing and bed sheets from a department store to give to the needy. No tax is due on the clothing, but the store charges the organization sales tax on the bed sheets. (7-1-21)

09. **Exemption Certificate.** The organizations listed in this rule may make purchases without paying sales tax to the vendor by completing an exemption certificate. See Rule 128 of these rules. (7-1-21)

10. **Literature.** The sale, purchase, use, or other consumption of literature, pamphlets, periodicals, tracts, books, tapes, audio CDs, and other literature which is produced in a machine readable format that are both published and sold by an entity qualified under Section 501(c)(3) of the Internal Revenue Code are exempt from the tax if no part of the net earnings benefits any individual or shareholder. (7-1-21)

11. **Sales by Nonprofit Organizations.** An exemption from sales tax on sales to one of the foregoing entities does not constitute an exemption from the requirements to collect and remit tax when the entity makes taxable sales to buyers not exempt from tax. When an exempt organization qualifies as a retailer the organization is to register with the Commission, obtain a seller’s permit, and collect and remit sales taxes on sales as defined in Section 63-3612, Idaho Code, in the same manner and in accordance with the same statutes and rules which govern all other retailers in the state. There are two (2) exceptions to this rule. (7-1-21)

a. Sales of places to sleep by the Idaho Ronald McDonald house are exempt from sales taxes. (7-1-21)

b. Sales of admissions by an entity qualified under Section 501(c)(3) of the Internal Revenue Code, or by an organization conducting an exempt function defined in Section 527 of the Internal Revenue Code when:

i. The event is not predominately recreational or commercial; and (7-1-21)

ii. Any entertainment value included in the admission charge is minimal when compared to the charge for admission; and (7-1-21)

iii. Such entity has paid a sales or use tax on taxable purchases or tangible personal property or services consumed during the event. (7-1-21)

12. **Senior Citizen Centers.** Sales to certain senior citizen centers are exempt from sales tax. The definition of “senior citizen center” in Section 63-3622O, Idaho Code, is the same as the definition of a “multipurpose senior center” as defined in the Older Americans Act, Title 42, Section 3002, United States Code. To qualify for the exemption the center needs to have been granted exempt status pursuant to Section 501(c) (3) of the Internal Revenue Code. Long-term care facilities do not qualify for this exemption. (7-1-21)

13. **Free Dental Clinics.** Sales to and purchases by organizations providing free dental care to children are exempt from sales and use tax. For the purposes of this exemption “children” means persons under the age of
eighteen (18). To qualify for the exemption property or services need to be:

a. Purchased by an organization whose primary purpose is providing free dental care to children; and

b. Primarily used by an organization whose primary purpose is providing free dental care to children.

086. SALES AND PURCHASES BY RELIGIOUS ORGANIZATIONS (RULE 086).
Sections 63-3612, 63-3622, 63-3622J, 63-3622KK, Idaho Code

01. In General. The Sales Tax Act does not provide a general exemption from sales or use tax for religious organizations. Other than the exemptions discussed in this rule, sales and purchases by religious organizations are taxable.

02. Meals Sold by a Church to Members Only. An exemption is provided by Section 63-3622J, Idaho Code, for the sale of meals by a church to its members at a church function. For the exemption to apply, the meals have to be sold to members only.

a. If the meal is open to members only, the church can buy the food without paying tax by providing the vendor with a properly completed exemption certificate or, if the church holds an Idaho seller’s permit number, it may provide the vendor with a properly completed resale certificate. See Rule 128 of these rules.

b. If the meal is open to persons other than members of the church, this exemption does not apply. See Subsection 086.03 of this rule.

c. Food purchased to prepare meals which are not sold by the church, such as meals for resident pastors or for nuns living in a convent or associated with a hospital, is taxable.

03. Incidental Sales by Religious Corporations or Societies. Incidental sales by religious organizations are exempt from sales taxes by Section 63-3622KK, Idaho Code. The exemption applies to sales of tangible personal property and other sales defined as subject to sales tax by the Idaho Code, including taxes imposed on providing hotel/motel and campground accommodations. For the exemption to apply, the following conditions need to be met:

a. If selling tangible personal property, the goods sold either have been taxed when purchased by the organization or received as a gift.

b. The proceeds from the sales made by the organization are used exclusively in the programs of the organization which may include any combination of religious worship, education, and recreation.

c. The sale may not be made to the general public in the open market in regular business competition.

d. Example 1: A church has a used clothing store. The items sold are not exempt from the sales tax because the store makes sales to the general public in regular competition with similar enterprises.

e. Example 2: A church holds an annual pancake breakfast in its basement. The meal is advertised and open to the public. If the church pays tax on the breakfast ingredients, it is not required to collect sales tax on the sale of the meals. Although the meal is open to the general public, the church is not in regular competition with other food-serving enterprises.

f. Example 3: A school owned by a religious corporation sells school supplies and meals only to its students. If the school pays tax when it purchases these items, it is not required to collect sales tax on the sales to its students. If, however, the school has a bookstore or cafeteria which is open to the general public, it does collect sales tax.
Example 4: A school owned by a religious corporation sells admissions to its students to attend athletic events through the sale of activity cards, and also sells admissions to the general public. The school will collect sales tax on all admission sales. The sale is open to the general public and is in regular competition with other recreational events to which admissions are charged. (7-1-21)

04. Sales of Literature by a Nonprofit Corporation. Literature which is both published and sold by qualifying nonprofit corporations is exempt from sales tax. Refer to Rule 085 of these rules. (7-1-21)

087. LEASE OR RENTAL OF MOTION PICTURE TELEVISION FILM (RULE 087).
Sections 63-3612, 63-3613, 63-3622, Idaho Code
The sales tax or use tax is not applicable to rentals or leases of motion picture film to theaters or other exhibiting enterprises where admission to the showing of films is taxable. In the case of radio and television stations, the purchase of films, tapes or records is exempt. (7-1-21)

088. SALE OR PURCHASE OF MATTER USED TO PRODUCE HEAT BY BURNING (RULE 088).
Sections 63-3612, 63-3613, 63-3622, 63-3622G, Idaho Code

01. Scope. Matter used to produce heat by burning includes natural gas, liquefied propane, coal, wood, oil, petroleum, and their by-products. (7-1-21)

02. Limitation. The phrase used to produce heat by burning means the act of incineration of materials defined in Subsection 088.01 of this rule in a furnace or similar device for the purpose of raising or maintaining the temperature in an enclosed space, dwelling, or building including a building under construction, and includes heating water and cooking. Heating fuel delivered in bulk to a dwelling or building for this purpose and properly identified as such by the vendor in his books and records, on the delivery ticket, and invoice to the customer relieves the vendor of the responsibility to obtain a sales tax exemption certificate, from the buyer. (7-1-21)

03. Liquefied Propane. Sales of liquefied propane in units of fifteen (15) gallons or less, identified in the vendor’s records as cylinder sales, will be considered to be used to produce heat by burning as defined in Subsection 088.02 of this rule. These sales will not require that a sales tax exemption certificate be obtained from the buyer, and is exempt from the tax regardless of the use to which the buyer places the liquefied propane. (7-1-21)

04. Documentation of Other Exempt Sales. All other sales of natural gas, liquefied propane, coal, wood, oil, petroleum, and its by-products are taxable, unless specifically exempted or excluded elsewhere in the Sales Tax Act. Such exempted or excluded sales are documented in the following manner: (7-1-21)

a. If purchased for resale, the vendor obtains a properly executed resale certificate. See Rule 128 of these rules. (7-1-21)

b. If purchased to produce heat by burning as defined in Subsection 088.02 of this rule and not bulk delivered to the customer by the vendor, the vendor either obtains a properly executed exemption certificate from the buyer, or requires the buyer to complete a stamped or imprinted statement on the face of the sales invoice containing the following language:

I certify that the gas I have purchased will be used in a furnace or similar device for the purpose of water heating, cooking, or raising or maintaining the temperature in an enclosed space, dwelling, or building.

This tax exemption statement qualifies if this statement is signed by the buyer and the name and address of the buyer is shown on the invoice.

Any person who signs this certificate with the intention of evading payment of tax is guilty of a misdemeanor.

BUYER’S SIGNATURE

The signature of the buyer on this statement be in addition to any other signature required on the invoice. (7-1-21)
c. If the buyer claims an exemption from the tax for reasons other than heat by burning, a properly executed exemption certificate will need to be obtained. See Rule 128 of these rules.

089. BOY SCOUT, GIRL SCOUT AND 4-H GROUP SALES AND PURCHASES (RULE 089). Sections 63-3612, 63-3613, 63-3622, 63-3622GK, Idaho Code

01. Sales by Scout and 4-H Groups. In general, when a Scout or 4-H group makes retail sales to their members or to the public, they are a retailer and need to obtain an Idaho seller’s permit number.

a. Sales to Members. Tangible personal property sold to members is subject to sales tax, including badges, insignia, uniforms, and magazines. Camp fees are subject to sales tax. Dues charged to members are not taxable.

b. Sales by Members. Sales of tangible personal property by members, such as cookies, food, and magazines are taxable. The club is responsible for the collection and remittance of the tax.

c. Sales of Animals. Sales of animals in conjunction with a fair or at the Western Idaho Spring Lamb Sale by 4-H or FFA club members are not taxable.

02. Purchases by Scout and 4-H Groups.

a. When a fee is charged to members to attend a camp, the food for the camp may be purchased by the club without paying tax. The club provides the retailers of the food a properly completed resale certificate. See Rule 128 of these rules.

b. Other tangible personal property purchased for resale to members of the club or to the public may be purchased without tax as in Subsection 089.02.a. of this rule.

c. Materials and supplies purchased by the club for its own use are taxable. The club pays tax to the vendor.

090. GAS, WATER, ELECTRICITY DELIVERED TO CUSTOMERS (RULE 090). Section 63-3622F, Idaho Code

01. In General. Gas, water and electricity delivered to customers includes those products of public or private utility service or user’s cooperative or similar organizations when sold to customers for the customer’s use.

02. Telephone Service. Electricity includes the dial tone for telephone utility service.

091. SALES TO INDIANS (RULE 091).

01. Sales to Indians. Indians make sales tax free purchases if these purchases are made within the boundaries of an Indian Reservation. The retailer will retain documentation supporting the fact that a buyer is an enrolled member of an Indian tribe. Presentation of an identification card issued by one (1) of the Indian tribes will be acceptable for this purpose.

02. Records. The retailer will maintain records in support of these exempt sales. Any of the following methods are accepted by the Commission:

a. Recording of the buyer’s name and number from the buyer’s tribal identification card on the sales slip.

b. Recording the name and number from the buyer’s tribal identification card on the cash register tape beside the record of the purchase.
c. Completion of an exemption certificate recording the number from the buyer’s tribal identification card.

03. Sales of Motor Vehicles to Indians. See Rule 107 of these rules.

092. OUT-OF-STATE SALES (RULE 092).
Sections 63-3612, 63-3613, 63-3622Q, Idaho Code

01. Out-of-State Sales. Section 63-3622Q, Idaho Code, does not distinguish between purchases made by Idaho residents and nonresidents. The purchase of tangible personal property for delivery by the seller outside the state through either a common carrier, U.S. mails or seller’s delivery service is not subject to Idaho sales tax.

02. Records. The seller will maintain records to support the exemption claimed in this fashion. Shipping data in the form of bills of lading, postal receipts or invoices setting forth the out-of-state destination with adequate supporting documentation will be accepted as evidence of the exemption.

093. SALES AND USE TAX LIABILITY OF FEDERAL AND STATE CREDIT UNIONS, NATIONAL AND STATE BANKS, AND FEDERAL AND STATE SAVINGS AND LOAN ASSOCIATIONS (RULE 093).
Sections 26-2138, 26-2186, 63-3612, 63-3613, Idaho Code

01. Purchases by Credit Unions. Purchases by Federal Credit Unions are exempt from sales and use tax under the provisions of 12 U.S.C. 1768. Purchases by state-chartered credit unions are exempted from sales and use tax by Section 26-2138, Idaho Code, and purchases by Idaho corporate credit unions are exempted from sales and use tax by Section 26-2186, Idaho Code.

02. Purchases by Banks and Savings and Loan Associations. Purchases by national and state banks, as well as federal and state savings and loan associations, are subject to sales and use tax.

03. Sales by Credit Unions, Banks, Savings and Loan Associations. When acting as a retailer, all retail sales made by credit unions, banks, and savings and loan associations are subject to sales tax.

094. EXEMPTIONS ON PURCHASES BY POLITICAL SUBDIVISIONS, SALES BY THE STATE OF IDAHO, ITS DEPARTMENTS, INSTITUTIONS, AND ALL OTHER POLITICAL SUBDIVISIONS (RULE 094).
Sections 63-3609, 63-3612, 63-3613, 63-3622, 63-3622O, Idaho Code

01. In General. This rule governs application of the sales and use tax to governmental instrumentalities. As used herein, the term governmental instrumentalities means the state of Idaho, its agencies, departments or institutions and all political subdivisions of the state of Idaho; but does not include other states, their agencies, departments, or institutions and political subdivisions.

02. Extent of Exemptions. The state and all its agencies, departments and institutions are exempt from the sales and use tax. This exemption does not extend to corporations, the stock of which is owned in whole or in part by the state, nor does it extend to private agencies to which the state contributes funds. The exemption only applies in the case of purchases made directly by the state, its agencies, departments, and institutions.

03. Political Subdivisions. Political subdivisions of this state are also exempt from payment of the sales and use tax. A political subdivision is a governmental organization which embraces a certain territory organized for public advantage and not in the interest of private individuals or classes to which has been delegated certain functions of state government. In addition to this, a political subdivision has the power to levy taxes. Included within the definition of political subdivisions would be all counties, municipalities, townships, towns and villages, public school districts, cemetery maintenance districts, fire protection districts, local improvement districts and irrigation districts. Canal companies and ditch companies do not come within the scope of this exemption.

04. Purchases by Contractors. Contractors are consumers under Idaho tax law. Purchases made by contractors are taxable even though they are to be applied to use on a state or political subdivision construction project.
05. **Sales by Political Subdivisions.** Sales by the state, its departments or institutions, counties, cities, school districts or any political subdivision are subject to sales tax which is to be collected by the political subdivision. If taxable sales are made, a permit is required. This permit is to be obtained by each sales outlet or by the office at which regular and current sales records are maintained. Examples of taxable sales are all sales of tangible personal property, admission charges, fees to use recreational facilities, recreational program fees, copies of documents for which a fee is not set by Idaho Code and garbage service when receptacles or dumpsters are provided by the service and part of the fee represents rental of the receptacle.

a. Taxable sales. Taxable sales of tangible personal property will include sales of: code books; books sold by library, book fairs, etc.; maps; crime prevention signs; calendars; cafeteria sales to employees or the public; office supplies or any sale to employees; concession stands; trees, shrubs, or bedding plants; items sold to prisoners, such as cigarettes, candy, pop, etc., through vending machines (tax is to be computed on one hundred seventeen percent (117%) of acquisition cost if the machine is operated by the political subdivision); chemicals for noxious weeds; unclaimed property; chemicals for pest control; surplus property-assets; gravel, culverts, or pipe; uniforms to employees; equipment rentals with no operator; grave markers; lease of pasture land to a ranch; and nonresident or resident library cards. See Rule 058 of these rules.

b. Admission charges. Taxable admission charges will include those fees for using golf courses and swimming pools, for attending athletic events, concerts, fireworks displays, and fund raising events.

c. Use of facilities for recreation. Taxable use of facilities for a recreational purpose will include receipts from the use of park structures, picnic tables, fair grounds, rodeo grounds, gymnasiums, ball parks, snowmobile areas and campground areas. Exception: If an individual or organization rents or leases one of these facilities and charges admission to each person using the facility, tax will not be required on its rental or lease of the facility. However, the individual or organization will be required to register and apply for a seller’s permit number, under which the tax on the admission will be reported and paid. See Rule 030 of these rules.

d. Recreation program fees. Fees to participate in recreational programs are taxable. Some examples of these programs are city recreational programs in softball, baseball, basketball and football. If instruction is included in such activities as tennis, golf or swimming, the tax will not be due on the separately stated instructional portion of the total fee. If not separately stated, the entire fee is taxable.

e. Garbage service. Garbage service is taxable on that portion of the total charge which is the rental of the receptacle such as a dumpster. If the statement for service includes the rental of the dumpster or other receptacle but the rental charge is not separately stated, the entire cost of the service is taxable.

f. The examples cited above are not inclusive.

06. **Federal Government.** Sales to and purchases by the federal government and its instrumentalities are not subject to Idaho sales or use taxes except as provided by federal laws or regulations. Federal law also prevents the state of Idaho from imposing sales tax on any sales by the federal government or its instrumentalities. For purposes of Idaho sales and use tax, the American Red Cross is an instrumentality of the federal government.

07. **Other States.** Sales to and purchases by states OTHER than Idaho and their political subdivisions are taxable if delivery occurs in this state.

095. **MONEY-OPERATED DISPENSING EQUIPMENT (RULE 095).**

Sections 63-3612, 63-3613, 63-3622, 63-3622II, Idaho Code

01. **Money-Operated Dispensing Equipment.** The sale, purchase, lease, or rental of money-operated dispensing equipment is exempt from tax if the equipment is only used to dispense a tangible product, amusement, or service on which a retail sales tax is imposed by the state of Idaho.

a. Money-operated dispensing equipment includes equipment operated by a debit or credit card.
02. Parts, Kits, or Supplies. This exemption does not apply to parts, kits, or supplies used to repair, refurbish, or upgrade the dispensing equipment. Refer to Section 63-3622II, Idaho Code. (7-1-21)

096. IRRIGATION EQUIPMENT AND SUPPLIES (RULE 096).
Section 63-3622W, Idaho Code

01. Agricultural Irrigation. The Sales Tax Act exempts all irrigation equipment and supplies which are used directly for agricultural irrigation. To qualify for the exemption, the irrigation equipment or supplies need to be used directly and primarily for agricultural irrigation purposes. If the use of the equipment or supplies is only incidental or only indirectly related to the agricultural irrigation process, the exemption will not apply. Examples include:
   a. An off-highway motorbike or all-terrain vehicle, ATV, used to transport men or equipment is indirectly related to the irrigation process. (7-1-21)
   b. Irrigation boots worn to protect the irrigator are incidental to the process and are taxable. (7-1-21)

02. Nonagricultural Irrigation Equipment or Supplies. Irrigation equipment or supplies used for any purpose other than agriculture are not exempt. For example, irrigation pipelines or sprinkler systems used on a golf course are taxable. (7-1-21)

03. Real Property Improvements. The exemption applies regardless of whether the equipment becomes a part of real estate. It is not necessary to distinguish between pipeline which retains its identity as tangible personal property and pipeline which may become incorporated into real property such as buried mainline pipe. (7-1-21)

04. Title to Equipment. The exemption applies regardless of whether the equipment is installed by a farmer, a contractor, or a subcontractor. The incidence of tax will not turn upon the determination of whether title to the irrigation equipment passed at the time of sale or subsequent to installation. (7-1-21)

05. Exemption Certificate. A buyer’s right to the exemption is documented by the use of an exemption certificate in the manner prescribed by Rule 128 of these rules. (7-1-21)

097. YARD SALES (RULE 097).
Sections 63-3622, 63-3622K, Idaho Code

01. In General. Tangible personal property may be sold tax exempt at a home yard sale if the yard sale meets the qualifications specified in this rule. A home yard sale is characterized by the following: (7-1-21)
   a. The sale is of short duration lasting no more than a few days. (7-1-21)
   b. The seller is not in the business of regularly selling the same or similar property as that which is offered for sale at the yard sale. (7-1-21)
   c. The items offered for sale at the yard sale are not items which are specifically purchased for the purpose of reselling them. (7-1-21)
   d. The items offered for sale are owned by the seller, no consignment sales may be made. (7-1-21)
   e. The sale is conducted on the residential premises of the seller. (7-1-21)

02. Exempt Yard Sales. An individual seller may only conduct two (2) exempt yard sales in the course of one (1) calendar year. Two (2) or more sellers may join together to conduct a single yard sale which will be considered to be a sale conducted by both such sellers. A home yard sale will include sales referred to as garage sales, moving sales, and other similar such sales if the prerequisites of this rule are otherwise met. (7-1-21)
098. FOREIGN DIPLOMATS (RULE 098).
Sections 63-3610, 63-3622, 63-3622O, Idaho Code

01. In General. The United States Government grants immunity from state taxes to diplomats from certain foreign countries. The diplomat is issued a federal tax exemption card by the U.S. Department of State. The cards are nontransferable and bear a photograph of the holder, a federal tax exemption number, and specific instructions as to the extent of the exemption granted to the diplomat. (7-1-21)T

02. Federal Tax Exemption Cards. Federal tax exemption cards list all restrictions on tax exemptions on the face of the card, including whether or not the card privileges extend to both official and personal purchases. (7-1-21)T

03. Documentation. A retailer documents exempt sales to a foreign diplomat by:

a. Retaining a copy of the front and back of the federal tax exemption card to support the exempt sale; or (7-1-21)T

b. Recording for their permanent record the name of the bearer, the mission represented, the federal tax exemption number displayed on the card, the date of expiration, and the nature of the exemption granted to the diplomat. (7-1-21)T

099. OCCASIONAL SALES (RULE 099).
Sections 63-3610, 63-3620, 63-3622K, 63-3622HH, Idaho Code

01. Occasional Seller. Sales of tangible personal property by an occasional seller are exempt from sales and use tax. In order to qualify as an occasional sale, the seller cannot make more than two (2) sales of tangible personal property in a twelve (12) month period, nor hold himself out as engaged in the business of selling tangible personal property. (7-1-21)T

a. If the sale does not qualify as an occasional sale, the seller is a retailer and will collect and remit sales tax in the same manner as any other seller. See Section 63-3610, Idaho Code. (7-1-21)T

b. Proof of occasional sale. An occasional seller of tangible personal property will provide a written statement to the buyer if requested. An occasional seller of a transport trailer or office trailer may use Form ST-108TR to document his occasional sale claim. For occasional sales of other tangible personal property, the buyer obtains a written statement that has the seller’s name, address, date, and signature from the seller verifying that the seller is not a retailer and has made no more than one (1) other sale of tangible personal property within the last twelve (12) months. The buyer will retain the occasional sale statement provided by the seller as evidence that the purchase of the tangible personal property is not subject to use tax. (7-1-21)T

c. Sales arranged by a third party are taxable. If any sales agent, licensed or unlicensed, participates in the sale of tangible personal property, the sale is taxable. See Rule 020 of these rules. (7-1-21)T

02. Change in the Form of Doing Business. A change in the form of doing business qualifies for an occasional sale exemption when the ultimate ownership of the property is substantially unchanged. Example: The incorporation of a partnership qualifies for an occasional sale exemption when substantially all of the property owned by the partnership is transferred to the corporation, and the stockholders of the corporation own substantially the same proportion of the corporation’s stock as they owned in the partnership interest as partners. (7-1-21)T

03. Bulk Sale -- Sale of an On-Going Business. The sale of substantially all of the operating assets of a business or of a separate division, branch, or identifiable segment of a business qualifies for the occasional sale exemption if:

a. The buyer continues the same type of business operation; and (7-1-21)T

b. Prior to the sale the income and expenses attributable to the separate division, branch, or identifiable segment can be determined from the accounting records and books. (7-1-21)T
04. Sale of a Motor Vehicle Between Family Members. Sales of motor vehicles between family members related within the second degree of consanguinity, blood relationship, qualify for the occasional sale exemption but only if the seller paid a sales or use tax when the motor vehicle was acquired.

a. Example 1: A brother sells his automobile to his sister. The brother purchased the car from an Idaho dealer and paid Idaho sales tax on the original purchase. No tax applies to the sale of the vehicle to the sister.

b. Example 2: A mother sells her automobile to her son for five thousand dollars ($5,000). The mother is an Oregon resident and did not pay a sales or use tax when she purchased the automobile. The son, who is a resident of Idaho, pays Idaho use tax on the five thousand dollar ($5,000) purchase price of the automobile.

05. Transfers Between Related Parties. The transfer of capital assets between related parties qualifies for an occasional sale exemption, but only if the person transferring the asset has paid a sales or use tax when the asset was acquired. Exempt transfers between related parties include: capital assets transferred in and out of businesses by owners, partners, shareholders stockholders, when the transfer is made only in exchange for equity in the business, and capital assets transferred between a parent corporation and its subsidiary, if the parent owns at least eighty percent (80%) of the subsidiary, and transfers between subsidiary corporations with a common parent, if the parent owns at least eighty percent (80%) of both, and if the transfers are made only in exchange for stock or securities.

a. Example: Two (2) individuals form a partnership. Each contributes a car in exchange for a percentage of ownership in the business. If each partner paid sales tax when he purchased his vehicle, no sales tax applies to the transfer of the vehicle into the partnership.

b. Example: Three (3) individuals are equal partners in a construction business. They dissolve the partnership, and each person takes one-third (1/3) of the capital assets as his share of the equity in the business. If tax was paid on the assets when they were purchased by the partnership, sales tax does not apply to the transfer of the assets from the partnership to the co-owners.

c. Example: A corporation-owned car is given to a shareholder as a bonus for special accomplishments. There is no change in the recipient’s shareholdings. The shareholder pays tax on the bonus based on the value of the car, regardless of whether the corporation paid tax when the car was purchased. The exemption does not apply because the transfer of the car did not change the shareholder’s equity.

06. Sales and Rentals to Related Parties. The sale of a capital asset to a related party qualifies for the occasional sale exemption, but only if the seller has paid sales or use tax when the asset was acquired or if the seller acquired the asset from a related party who paid sales tax on acquisition of the asset. Rentals and leases of capital assets between related parties will also qualify for the occasional sale exemption, but only if the initial related party paid sales tax upon acquisition of the asset. If the initial buyer does not pay sales or use tax upon the purchase of a capital asset and then leases the asset to a related party, the lessor will collect and remit sales tax on the lease payments. The lease payments will also represent a reasonable rental value for the asset. Exempt transactions between related parties include sales, rentals, and leases of capital assets other than aircraft, boats and vessels, snowmobiles, off-highway motorbikes, and recreational vehicles, as defined by Section, 63-3622HH, Idaho Code, such as the following:

a. Sales to family members, but only if all parties to the sale are related within the second degree of consanguinity, relationship by blood, or affinity, relationship by marriage, i.e., spouses, children, parents, brothers, sisters, or grandparents. Example: A father and son are the stockholders of Corporation A. This corporation sells a business asset to Proprietorship B, which is owned by the son’s grandfather. This sale is exempt as long as Corporation A paid sales tax when the asset was acquired.
b. Sales in which the new owners are identical to the prior owners. Example: Corporation B owns one hundred percent (100%) of Corporation A. If the initial buyer paid tax when it acquired an asset, it may sell the asset to the other without tax. Example: John Doe owns one hundred percent (100%) of a corporation. He buys a truck and pays sales tax. He later sells the truck to his corporation. No tax applies to the sale of the truck to the corporation. Example: A and B each own fifty percent (50%) of a partnership. The partnership buys a capital asset and pays sales tax to the vendor. The partnership immediately leases the asset to Corporation C. A owns ten percent (10%) of Corporation C and B owns ninety percent (90%) of Corporation C. Since the percentages of ownership of the partnership and the corporation are not identical, the lease transaction does not qualify for the occasional sale exemption. The partnership seeks a refund of the sales tax paid on acquisition of the asset and collects and remits sales tax on the lease payments.

07. **Motor Vehicles.** Sales of licensed motor vehicles are not considered occasional sales and are taxable, except under the provisions of Subsections 099.02 through 099.06 of this rule. If a motor vehicle transfer qualifies for an exemption under Subsections 099.02 through 099.06 of this rule, the buyer completes an appropriate exemption claim form prior to applying for an Idaho motor vehicle title. See Rule 107 of these rules regarding sales of licensed motor vehicles that do not qualify as occasional sales and the appropriate exemption claim form.

08. **Sales of Business Assets.** Also excluded from the category of occasional sales, other than as provided by Subsection 099.06 of this rule, are sales of assets or other items of tangible personal property used in an activity requiring a seller’s permit. Even though the item sold is not of the type normally sold by the seller in his regular course of business, the sale is taxable. Example: A construction equipment dealership sells its office computer. Even though the seller does not normally sell computers, it collects sales tax on the sale of the computer as the computer is used in a business requiring a seller’s permit.

09. **Taxable Sales of Aircraft, Boats, and Recreation Related Vehicles.** The occasional sale exemptions defined in Subsections 099.01 and 099.06 of this rule do not apply to the sale or purchase of the following:

a. Snowmobiles, including those required to be numbered as provided by Section 67-7102, Idaho Code.

b. Off-highway motorbikes and dual purpose motorcycles. A dual purpose motorcycle is designed for use off developed roadways and highways, but is also equipped to be legally operated on public roadways and highways.

c. All-terrain vehicles, ATVs, but not including tractors. A tractor is a motorized vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other farm implements.

d. Portable truck campers designed for temporary living quarters, but not including pickup shells or canopies that do not have a floor.

e. Camping, travel, fifth-wheel travel-type trailers and park model recreational vehicles designed to provide temporary living quarters.

f. Motor homes.

g. Buses and van-type vehicles when converted to recreational use as temporary living quarters and providing at least four (4) of the following facilities: cooking; refrigeration or icebox; self-contained toilet; heating or air conditioning; a portable water supply system including a faucet and sink; and separate one hundred ten to one hundred twenty-five (110-125) volt electrical power supply or LP gas supply.

h. Aircraft, meaning any device which is designed or used for navigation of or flight in the air, except a parachute or other device designed for such navigation but used primarily as safety equipment. See Rule 037 of these rules regarding other exemption provided for aircraft.

i. Boats or vessels, meaning every description of watercraft used or capable of being used as a means
of transportation on water. Example: A nonretailer sells a boat and boat trailer to an Idaho resident. The sale of the boat does not qualify for the occasional sale exemption and is taxable. The sale of the boat trailer may qualify for the occasional sale exemption if the sales price of the boat trailer is separately stated on the bill of sale and an occasional sale affidavit is provided by the seller. (7-1-21)T

10. Exempt Sales of Aircraft, Boats, and Recreation-Related Vehicles. Sales of aircraft, boats, or recreation-related vehicles under the provisions of Subsections 099.02 or 099.03 of this rule are exempted from the tax. Transfers of aircraft, boats, or recreation-related vehicles under the provision of Subsection 099.05 of this rule are exempted from the tax. The provisions of Subsection 099.04 of this rule apply to the sale of motorized, on-highway recreation-related vehicles. (7-1-21)T

11. Exclusion from the Occasional Sale Exemption. Section 63-3622K, Idaho Code, excludes from the occasional sale exemption the use of tangible personal property used to improve real property when such property is obtained, directly or indirectly, from a person in the business of making like or similar improvements to real property. This exclusion applies only to building materials and fixtures that will be incorporated into real property. Sales of construction equipment such as loaders, backhoes, and excavators may still be included within the definition of “occasional sale” if the seller meets all the other requirements of the exemption. (7-1-21)T

a. Example. A contractor enters into a contract to fabricate and install a wrought iron gate. The contractor fabricates the gate but prior to installation the building owner decides to install the gate himself and buys it from the contractor. The building owner’s purchase does not qualify for the occasional sale exemption. (7-1-21)T

b. Example. A contractor has a backhoe that he uses in his contracting business. He sells the backhoe to another contractor. If the seller is not a retailer, as defined by statute, the sale can still qualify as an exempt occasional sale. (7-1-21)T

100. PRESCRIPTIONS (RULE 100).

Sections 63-3612, 63-3613, 63-3622, 63-3622N, Idaho Code

01. In General. Sales tax does not apply to sales of drugs, oxygen, orthopedic appliances, orthodontic appliances, dental prostheses including crowns, bridges, inlays, overlays, prosthetic devices, durable medical equipment, eyeglasses, contact lenses, and certain other medical equipment and supplies specifically named in Section 63-3622N, Idaho Code, when: (7-1-21)T

a. Purchased by a practitioner to be administered or distributed to his patients if such practitioner is licensed by the state under Title 54, Idaho Code, to administer or distribute such items, or when; (7-1-21)T

b. Purchased by or on behalf of an individual under a prescription or work order issued by a practitioner who is licensed by the state to practice one of the following professions: physician, physician assistant, surgeon, podiatrist, chiropractor, dentist, optometrist, psychologist, ophthalmologist, nurse practitioner, denturist, orthodontist, audiologist, or hearing aid dealer or fitter. Items purchased under the prescription or work order of a person who is not a health care practitioner specifically named in Section 63-3622N(b), Idaho Code, will not qualify for the exemption. (7-1-21)T

c. Example: A physician issues a prescription for a wheelchair to a nursing home patient. The nursing home delivers the prescription to a wheelchair retailer and purchases the wheelchair on behalf of the patient. No tax applies. (7-1-21)T

d. Example: A nursing home purchases wheelchairs for general use in its facility. Since the wheelchairs are not purchased under prescription for a specific patient, sales tax applies. (7-1-21)T

02. Orthopedic Appliances. The term orthopedic appliance includes those braces and other external supports prescribed by a practitioner for the purpose of correction or relief of defects, diseases, or injuries to bones or joints. (7-1-21)T

03. Documenting Exempt Sales. The seller keeps the written prescription or work order on file to document the exemption. Sales made without a prescription or work order are taxable. The seller needs to be able to
identify sales which are exempt under prescription from sales which are taxable. (7-1-21)T

a. Refills of prescriptions on file with a seller are exempt from tax. (7-1-21)T

b. Some drugs may be lawfully sold without a prescription. When sold over the counter without a prescription, the drugs are subject to sales tax. When sold under a prescription, the drugs are exempt from tax. (7-1-21)T

04. Purchases by Practitioners. A practitioner, who is licensed under Title 54, Idaho Code, to administer or distribute a medical product listed in Section 63-3622N, Idaho Code, may purchase the item exempt from tax by issuing his supplier an exemption certificate required by Rule 128 of these rules. Only the medical items named in Section 63-3622N, Idaho Code, which the practitioner is licensed to administer or distribute qualify for this exemption. (7-1-21)T

05. Purchases by Nursing Homes and For Profit Hospitals. The Sales Tax Act does not provide a general exemption from tax for purchases made by nursing homes and similar facilities or by hospitals operated for profit, and as a result, they pay tax on all purchases, unless those items are exempted by Section 63-3622N, Idaho Code. An exemption certificate is completed and provided to the vendor of the exempted items. See Rule 128 of these rules. (7-1-21)T

06. Sale of Eyeglasses, Contact Lenses, and Related Products. The sale of non-prescription eyeglasses, non-prescription contact lenses and related products, such as carrying cases, non-prescription sunglasses, and cleaning solutions is taxable. (7-1-21)T

a. The sale of eyeglasses and their frames, lenses, nose pieces, hinges, and related eyeglass component parts required as part of a finished pair of eyeglasses sold under a prescription is exempt from sales tax on and after July 1, 2015. (7-1-21)T

b. The sale of prescription contact lenses on and after July 1, 2016, is exempt from sales tax. (7-1-21)T

07. Dental and Orthodontic Appliances. The sale or purchase of dentures, partial plates, dental bridgework, orthodontic appliances, and related parts for such items by a dentist, denturist, orthodontist or other practitioner is not a taxable sale. (7-1-21)T

101. MOTOR VEHICLES AND TRAILERS USED IN INTERSTATE COMMERCE (RULE 101).
Sections 49-123, 63-3612, 63-3613, 63-3622, 63-3622R, Idaho Code

01. In General. An exemption is provided from the sales and use tax for the sale or lease of motor vehicles and trailers to commercial or private carriers to be substantially used in interstate commerce. This exemption is commonly called the IRP Exemption. Commercial or private carriers are in the business of transporting persons or commodities owned by the carrier or another. Farm vehicles or noncommercial vehicles as defined by Section 49-123, Idaho Code, do not meet the requirements of the IRP exemption. (7-1-21)T

02. Motor Vehicles. To qualify for the exemption, a buyer will: (7-1-21)T

a. Immediately register the vehicle with a maximum gross weight of over twenty-six thousand (26,000) pounds; (7-1-21)T

b. Register the vehicle under the International Registration Plan (IRP); and (7-1-21)T

c. Operate the vehicle in a fleet of one (1) or more vehicles registered under the International Registration Plan (IRP) or a similar proportional registration system with a minimum of ten percent (10%) of the fleet miles operated outside the state of Idaho. (7-1-21)T

03. Trailers. An exemption is provided from the sales or use tax for trailers when the buyer will: (7-1-21)T
a. Immediately place the trailer in a fleet of vehicles registered under the International Registration Plan (IRP); and

b. The trailer will be part of a fleet of vehicles with a minimum of ten percent (10%) of the fleet miles operated outside the state of Idaho under the International Registration Plan (IRP).

04. Title or Base Plate. The exemption applies whether the motor vehicles and trailers are titled or base plated in Idaho or another state or nation.

05. Documentation. Buyers claiming this exemption provide the seller or lessor with a properly completed Exemption Certificate. When a vehicle qualifying for this exemption is purchased from a retailer who is not registered to collect Idaho sales tax, the buyer and provides a properly completed exemption certificate to the county assessor or Department of Transportation when titling or registering the vehicle in Idaho. See Rule 128 of these rules.

06. Repair Parts and Supplies. The exemption does not apply to parts, supplies, or other tangible personal property purchased by persons engaged in interstate commerce. Purchases of glider kits as defined by Section 49-123, Idaho Code, will qualify if they are assembled into glider kit vehicles that will be immediately registered under the International Registration Plan (IRP).

07. Failure To Meet Interstate Mileage Requirement. The use of a fleet of trucks and trailers, purchased exempt under the IRP exemption provided by Section 63-3622R, Idaho Code, will become taxable as of June 30 of any year in which the fleet’s out-of-state mileage is less than ten percent (10%) of the total fleet mileage during the previous four (4) quarters.

102. LOGGING (RULE 102).
Section 63-3605C, 63-3622HH, 63-3622JJ, Idaho Code

01. In General. The Sales Tax Act provides an exemption from sales and use taxes for certain tangible personal property used in logging activities. The provisions of this rule are based on the usual methods of doing business in this industry. Specific factual differences in the way a specific taxpayer may conduct his business can result in determinations different from those stated in this rule. Since some equipment may be used for more than one purpose, determinations of taxability will be made based upon the primary use of the equipment.

02. Real Property. The logging exemption applies only to tangible personal property. It does not apply to real property or to tangible personal property purchased for the purpose of becoming an improvement or fixture to real property. See Rules 010 and 067 of these rules for a definition of real property.

03. Property Used in Logging Operations. The logging exemption applies to tangible personal property primarily used in a logging activity without regard to the primary business activity of the person performing the logging. For example, a contractor building a road for the Forest Service may claim the logging exemption when purchasing equipment and supplies primarily used to remove the timber from the right-of-way if the timber is resold, even though logging is not the contractor’s primary activity.

04. Logging Process Begins and Ends. The logging process begins when forest trees are first handled by the logger at the site where such an operation occurs. The logging process ends when the product is placed on transportation vehicles at the loading site, ready for shipment.

05. Equipment and Supplies. Equipment and supplies used or consumed primarily and directly in the logging process and which are necessary or essential to perform the operation. To qualify, the logging use must be the primary use of the equipment and supplies. Examples include:

a. Chain saws and tree harvesters.

b. Skidders, tower-skidders, skidding cables, or chokers.
c. Log loaders and log jammers which are not licensed motor equipment. (7-1-21)

d. Repair parts, lubricants, hydraulic oil, and coolants which become a component part of logging equipment. (7-1-21)

e. Fuel, such as diesel, gasoline, and propane consumed by equipment while performing exempt logging activities. (7-1-21)

06. Directly Used. Directly used, as applied to logging, means the performance of any of the following functions when such functions occur between the point at which the logging operation begins and the point at which the operation ends, as defined in Subsection 102.04 of this rule: (7-1-21)

a. The performance of a function in the logging process that effects a physical change in the property being logged so as to render the property more marketable. (7-1-21)

b. The performance of a function which occurs simultaneously with and which is an integral part of and necessary to a function which effects a physical change in the property being logged rendering it more marketable. (7-1-21)

c. The performance of a function which is an integral and necessary step in a continuous series of functions which effect a physical change in the property being logged rendering it more marketable. (7-1-21)

d. The performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (7-1-21)

07. Not Included in Logging Exemption. Generally, the logging exemption does not include the following activities and equipment: (7-1-21)

a. Road construction equipment and supplies such as tractors, road graders, rollers, water trucks, whether licensed or unlicensed, explosives, gravel, fill material, dust suppression products, culverts, and bridge material. (7-1-21)

b. Slash disposal or brush piling and clearing equipment and supplies, such as brush clearing machines, brush rakes, and tractors, except when part of the operation of a tree farm. (7-1-21)

c. Reforestation equipment and supplies, except when part of the operation of a tree farm. (7-1-21)

d. Safety equipment and supplies, including hard hats and earplugs. (7-1-21)

e. Transportation equipment and supplies including vehicles to transport logs from the loading site to the mill, whether the vehicles are licensed or unlicensed, and cable and tie-downs used to fasten logs to the vehicle. (7-1-21)

f. Machinery, equipment, materials, repair parts, and supplies used in a manner that is incidental to logging such as: office equipment and supplies; selling and distribution equipment and supplies; janitorial equipment and supplies; maintenance equipment and supplies which do not become component parts of logging equipment, such as welders, welding gas, and shop equipment; and paint, plastic coatings, and all other similar products used to protect and maintain equipment, whether applied to logging equipment or other equipment. (7-1-21)

g. Recreation-related vehicles, as defined in Section 63-3622HH, Idaho Code, regardless of use, such as All Terrain Vehicles (ATV), snowmobiles, and off-highway motorbikes. (7-1-21)

h. Aircraft or motor vehicles licensed or required to be licensed by the laws of this state, regardless of the use to which such motor vehicles or aircraft are put. A motor vehicle not required to be licensed is exempt under the logging exemption only if it meets the tests established elsewhere in this rule. (7-1-21)

i. Harvesting timber for firewood. (7-1-21)
08. **Election to Pay Sales Tax.** The owner of a log loader, log jammer, or similar fixed load motor equipment used in logging, not normally licensed for use on public roads, may elect to license and pay sales tax on the motor equipment rather than placing it on the personal property tax rolls, if the motor equipment may be legally operated on a public road as a commercial vehicle.

   a. Motor equipment licensed at the time of purchase. Sales tax applies to the total purchase price of the motor equipment.

   b. Motor equipment licensed after the date of purchase. Use tax applies to the fair market value of motor equipment on which no sales or use tax has been paid and which was not licensed at the time of purchase, if acquired within the last seven (7) years. See Section 63-3633, Idaho Code. Fair market value may be determined from the personal property tax records of the county assessor.

103. **(RESERVED)**

104. **RAILROAD ROLLING STOCK, PARTS, MATERIALS AND EQUIPMENT (RULE 104).**

   Sections 63-3622, 63-3622CC, 63-3622DD, Idaho Code

   01. **In General.** Sections 63-3622CC and 63-3622DD, Idaho Code, provide exemptions from sales or use tax for rebuilt or remanufactured railroad rolling stock which was previously used in interstate commerce more than three (3) consecutive months, and for parts, materials, and equipment primarily used to rebuild or remanufacture such railroad rolling stock.

   02. **Definitions.** As used in this rule, the following terms have the following meanings.

   a. **Railroad rolling stock.** Flanged-wheel locomotives, railroad cars, maintenance of way equipment and other flanged-wheel vehicles designed and manufactured specifically for use on railroad tracks and railroad systems, including component parts thereof.

   b. **Remanufacture/rebuild.** To reconstruct, remake, reassemble or reprocess railroad rolling stock to materially extend the life of the equipment. This process requires extended removal of the railroad rolling stock from the transportation stream.

   c. **Equipment.** All equipment, other than railroad rolling stock, which is used in the actual remanufacturing/rebuilding process.

   d. **Parts.** Tangible personal property which becomes part of the remanufactured/rebuilt railroad rolling stock or which becomes part of the equipment described in Subsection 104.02.c. above.

   e. **Materials.** Tangible personal property which is used or consumed in the actual process of remanufacturing/rebuilding railroad rolling stock.

   f. **Used in interstate commerce.** Railroad rolling stock is used in interstate commerce when it performs a function which is necessary to the operation of a business which transports goods or people between two (2) or more states.

   g. **Repair.** To mend or restore to good usable condition railroad rolling stock which has not been damaged to an extent requiring extended removal from the transportation stream.

   h. **Maintenance.** Routine, periodic activities, such as lubrication and filter and oil changes, which are necessary to the continued use and operation of railroad rolling stock.

   i. **Primary or primarily.** Used more than fifty percent (50%) of the time to remanufacture/rebuild railroad rolling stock.

03. **Generally, Included Within the Exemption:**
a. Equipment necessary to, and primarily used in the process of, remanufacturing/rebuilding railroad rolling stock.

b. Tangible personal property which become part of the remanufacture/rebuilt railroad rolling stock or which becomes part of the equipment identified in Subsection 104.03.a., above.

c. Tangible personal property which is consumed or primarily used in the remanufacturing/rebuilding process.

d. Fuel used in testing remanufactured/rebuilt engines which are railroad rolling stock, and fuel used in equipment which is necessary to, and primarily used in, the remanufacturing/rebuilding process.

04. Generally, Excluded from This Exemption:

a. Motor vehicles and trailers which are licensed or required to be licensed even though they may have flanged-wheel attachments which enable travel on railroad tracks.

b. Tangible personal property which is used in such a way that it becomes a fixture to, or an improvement to, real property.

c. Tangible personal property, equipment, parts, materials, used or consumed in an activity which is primarily repair or maintenance of railroad rolling stock.

d. Fuel used in activities other than those stated in Subsection 104.03.d. of this rule and which is not exempt under other provisions of the Sales Tax Act.

e. Tangible personal property used in related activities which are not primarily remanufacturing/rebuilding activities, including: office equipment and supplies; safety equipment and supplies; equipment, other than railroad rolling stock, which is primarily used to construct, improve, alter or repair real property; and chemicals, solvents, and other cleaning agents used primarily for maintenance of the remanufacturing/rebuilding processing area.

105. TIME AND IMPOSITION OF TAX, RETURNS, PAYMENTS AND PARTIAL PAYMENTS (RULE 105).
Section 63-3046, 63-3619, 63-3621, 63-3623, 63-3634, Idaho Code

01. Time and Imposition of Tax.

a. Sales Tax. Sales tax is imposed, computed and collected at the time of sale, without regard to the provisions of any contract relating to the time or method of payment. In the case of installment sales, sales on account, or other credit sales, the seller reports as a taxable sale the entire sales price for the month in which the sale is made. No part of the sales tax may be deferred until the time the retailer collects payment from the buyer. A sale occurs when title to property passes through delivery to the customer or absolute and unconditional appropriation to a contract. Lease or rental payments are taxable during the month or other period for which the property is leased or rented.

b. Use Tax. Use tax is determined at the time of the use, storage or other consumption of tangible personal property in Idaho. The tax is reported and payable in accordance with the provisions of this rule. Persons making purchases subject to use tax should apply for a use tax permit number from the Commission. Application forms may be obtained by contacting any Commission office.

c. Taxable Sales Create State Revenue. The sales or use tax collected by a retailer from a customer at the time of purchase becomes state money at that time. The collected amounts may not be put to any use other than that allowed by Chapter 36, Title 63, Idaho Code, and these rules.

02. Returns.
a. Monthly Filing Generally Required. All retailers and persons subject to use tax are required to remit the tax to the state on a monthly basis unless a different reporting period is prescribed by the Commission. The remittance will include all sales and use tax due from the first through the last day of the preceding calendar month. (7-1-21)

b. Request to File Quarterly or Semiannually. Retailers or persons who owe seven hundred-fifty dollars ($750) or less per quarter and have established a satisfactory record of timely filing and payment of the tax may request permission to file quarterly or semiannually instead of monthly. (7-1-21)

c. Request to File Annually. Retailers or persons who have seasonal activities, such as Christmas tree sales or repeating fair booths, may request permission to file annually. Approval of the request is at the discretion of the Commission and is limited to taxpayers who have established a satisfactory record of timely filing and payment of the tax. (7-1-21)

d. Variable Filing. If the Commission finds it necessary or convenient for the administration of the Sales Tax Act, it may assign an account to a taxpayer with a variable filing requirement. In such a case the taxpayer would not be required to file returns at regular intervals. The Commission may also create one-time filing only accounts for taxpayers who are making a single payment of sales or use tax. (7-1-21)

e. Change in Filing Frequency. If the Commission finds it necessary or convenient for the efficient administration of the Sales Tax Act, it may require taxpayers reporting taxable sales of less than twelve thousand dollars ($12,000) per year to file annually. (7-1-21)

f. Final Report. Whenever a taxpayer who is required to file returns under the Sales Tax Act or these rules stops doing business, the taxpayer marks cancel on the last return the taxpayer files. This return ends the taxable year for sales or use tax purposes and constitutes the taxpayer’s final report of sales or use tax activities or liabilities. The taxpayer encloses their seller’s permit with his request for cancellation or send a written statement that the permit has been destroyed. If the taxpayer continues business activity after filing a final report he may be subject to liabilities or penalties for failing to comply with the Idaho Sales Tax Act and these rules. (7-1-21)

03. Valid Return. A tax return or other document required to be filed in accordance with Section 63-3623, Idaho Code, and these rules meets the conditions prescribed below. Returns that fail to meet these requirements are invalid. They may be rejected and returned to the taxpayer to be redone in accordance with these requirements and refilled. A taxpayer who does not file a valid return is considered to have filed no return. A taxpayer’s failure to properly file in a timely manner may result in penalties imposed by Section 63-3634, Idaho Code, and related rules. Perfect accuracy is not required of a valid return, although each of the following conditions is required: (7-1-21)

a. It is submitted on the proper form, as prescribed by the Commission and is complete. (7-1-21)

b. If required, copies of all pertinent supporting documentation are attached. (7-1-21)

c. The tax liability is calculated and has sufficient supporting information, if required, to demonstrate how the result was reached; A return that does not provide sufficient information to compute a tax liability does not constitute a valid return. (7-1-21)

d. All sales and use tax returns or other documents filed by the taxpayer need to include the relevant sales or use tax permit number. (7-1-21)

e. The submission shows an honest and genuine effort to satisfy the requirements of the law. (7-1-21)

04. Use of Estimates Extension of Time Returns. (7-1-21)

a. The Commission may, for good cause, grant authority for a taxpayer to file for an extension of time by filing an estimated return. When filing the Extension of Time estimated return, the taxpayer attaches a written request which sets forth the reason for estimating. The Commission will review each request to determine if there is
good cause for filing an Extension of Time estimated return. If the Commission determines that the request should be denied, the taxpayer will be notified in writing and a penalty, as provided by Section 63-3046, Idaho Code, will apply to any delinquent tax due when the original return is filed. (7-1-21)T

b. If the return for any period is filed on an estimated basis, the estimated return is to be filed timely and reconciled to actual figures by filing an original return within one (1) month of the due date. Any additional tax due as a result of reconciliation is to be remitted when the original return is filed and must include interest on any unpaid balance due from the due date of the return. (7-1-21)T

c. The estimated tax remitted is to be at least ninety percent (90%) of the total sales and use tax due for the period or one hundred percent (100%) of the total sales and use tax due for the same month of the prior year. If the estimated tax paid is less than these requirements, a five percent (5%) penalty may be applied to the remaining tax due, as provided by Section 63-3046(a), Idaho Code. (7-1-21)T

d. Taxpayers wishing to file an Extension of Time estimated return obtain the required forms from the Commission. (7-1-21)T

05. Forms Required. The original return will be completed with the amount of total sales, nontaxable sales, taxable sales, items subject to use tax, and tax due inserted in the blanks. Payment will accompany the return. A complete sales and use tax return will be filed by each retailer or person subject to use tax. This return will be on a form prepared and mailed to the taxpayer by the Commission. If the original is lost or destroyed, a substitute form will be supplied upon request. (7-1-21)T

a. Retailers Report Own Use and Nontaxed Transactions. All retailers report any sales or purchases on which no sales or use tax was collected or paid. Goods sold or produced and consumed by the retailer, items withdrawn from stock for personal use or employee use, stock removed and used for gift or promotional purposes, or any combination of such uses are taxable. (7-1-21)T

b. Reporting Adjustments. Any adjustments for additional tax due or credits claimed should be made on the next return due after the adjustments are discovered. These adjustments are to be shown on the line designated for adjustments on the return form and must be accompanied by an explanation and any documents that support the claimed adjustment. (7-1-21)T

06. Payment of Tax. (7-1-21)T

a. Payment to Accompany Return. The return filed in accordance with this rule is to be accompanied by a remittance of the total amount due as shown on the return. Checks or other negotiable instruments should be made payable to the Commission. (7-1-21)T

b. Payment of One Hundred Thousand Dollars ($100,000) or Greater. All taxes due to the state are to be paid by electronic funds transfer whenever the amount due is one hundred thousand dollars ($100,000) or greater, in accordance with rules promulgated by the Idaho State Board of Examiners, which is incorporated by reference to these rules. (7-1-21)T

c. Remittance of Collections Required--Bracket Exception. Retailers are required to remit all taxes collected from buyers, except any difference that may result from use of the bracket system described in Rule 068 of these rules. Any taxes erroneously collected in excess of those properly due should be refunded to the buyer by the retailer. If the retailer either cannot or does not make the refund during the period for which the return is due, then the retailer reports the erroneously collected taxes on the return and pay them to the Commission. If the erroneously collected taxes are subsequently refunded to the buyer from whom they were collected, the retailer may claim a credit or refund of sales taxes in accordance with Rule 117 of these rules. Under no circumstances may a retailer retain any amount collected as sales or use tax which is greater than the retained amount authorized under the bracket system by Rule 068 of these rules. (7-1-21)T

07. Filing Dates--General Rule. The filing date for all sales or use tax returns is the twentieth day of the calendar month immediately following the last day of the reporting period, unless otherwise allowed by these rules. This is the filing due date for all regular monthly, quarterly, semiannual, and annual accounts. If the twentieth is a Saturday, Sunday, or legal holiday, the return is due on the next following day which is not a Saturday, Sunday or
106. VEHICLE SALES, RENTALS, AND LEASES (RULE 106).
Sections 63-3610, 63-3612, 63-3613, 63-3619, 63-3621, 63-3622K, 63-3622R, Idaho Code

01. In General. The sale, lease, rental, or purchase of a vehicle is subject to sales and use tax. Retailers, lessors, and dealers are required to collect the tax. (7-1-21)T

02. Vehicles Purchased from Idaho Dealers. When a dealer of new or used vehicles sells any motor vehicle for delivery in Idaho, the dealer collects sales or use tax at the rate in effect on the date the vehicle is delivered to the buyer, unless an exemption applies. A title application form which is completed by the dealer and displays Idaho sales tax collected is evidence that the buyer paid sales tax to the dealer. (7-1-21)T

03. Vehicles Purchased from Out-of-State Dealers. Any trade-in allowance is to be shown on the original bill of sale, voucher, or other receipt from the out-of-state dealer. If sales tax was correctly paid to a dealer in another state, a credit is allowed against sales or use tax payable to Idaho. See Rule 107 of these rules. (7-1-21)T

04. Vehicles Purchased from Private Parties. (7-1-21)T

a. Bill of Sale. The buyer presents a bill of sale or receipt as proof of the gross sales price. Canceled checks will not be accepted in lieu of a bill of sale. (7-1-21)T

b. No Bill of Sale. In the absence of a bill of sale or documentation supporting the value of the vehicle, tax is collected on the value established as the “average trade-in price” in the most recent NADA Official Used Car Guide for the same make, model, options, year, mileage, and condition. (7-1-21)T

c. Trade In. A trade-in allowance is not allowed on a private party sale. See Rule 044 of these rules. The county assessor will collect tax on the gross sales price. (7-1-21)T

d. Barter/Exchange. A barter or exchange of vehicles or other property is taxed on the value of the vehicles or other property involved in the exchange. In the absence of documentation supporting the value of the vehicle(s), tax is due on the value established as the “average trade-in price” in the most recent NADA Official Used Car Guide for the same make, model, options, year, mileage, and condition. (7-1-21)T

05. Vehicles Purchased from Retailers. (7-1-21)T

a. A retailer required to have an Idaho seller’s permit collects sales tax when selling a vehicle, even though they are not licensed as a vehicle dealer. The retailer gives the buyer the title to the motor vehicle, properly completing title transfer information on the title, including the retailer’s seller’s permit number as proof that Idaho sales tax was collected. The retailer will also give the buyer a bill of sale stating: the date of sale; the name and address of the seller; the complete vehicle description including the vehicle identification number (VIN), that agrees with the VIN on the title; the person to whom the vehicle was sold; the amount for which the vehicle was sold; and the amount of sales tax charged. (7-1-21)T

b. A retailer is not relieved of the responsibility for collecting the tax unless he can provide satisfactory evidence to the Commission that the buyer paid tax to the county assessor. If a retailer fails to collect the tax from the buyer, the county assessor will collect the tax. (7-1-21)T

06. Vehicles Rented or Leased. (7-1-21)T

a. A lease-purchase and lease with option to purchase have separate definitions and tax applications. See Rule 024 of these rules. A lease-purchase is taxable on the full purchase price at the time the vehicle is delivered to the lessee. A true lease and a lease with an option to purchase are subject to sales tax on each lease payment and on the buy-out or residual value when a lessee exercises his option to buy. The information in Section 106 deals with rentals, true leases, and leases with an option to buy. (7-1-21)T

b. The lessor of a vehicle is a retailer and will collect sales tax from the lessee on any rental or lease
payment on the date it is required to be made, at the tax rate in effect on that date. The lessor also collects tax on any lessee’s exercise of an option to buy based on the full purchase price or residual, at the tax rate in effect on the date title is transferred to the lessee. (7-1-21)

c. The lessor may not rely on the county assessor to collect sales or use tax if the purchase option is exercised. (7-1-21)

d. The lessor collects and remits sales tax on each lease payment received from the renter or lessee. The sales tax is applicable whether the vehicle is leased or rented on an hourly, daily, weekly, monthly, mileage, or any other basis. (7-1-21)

e. If the lessor is responsible for maintaining the vehicle and this is stated in the lease or rental agreement, tax does not apply to his purchase of necessary repair parts. (7-1-21)

f. Out-of-state lessors are to obtain a seller’s permit and comply with this rule. If the county assessor cannot verify that the lessor is properly registered to collect the tax, title and registration will be denied. (7-1-21)

g. When a vehicle is traded in as part payment for the rental or lease of another vehicle, a deduction is allowed before computing the sales tax. The methods of applying the trade-in value to the lease are found in Rule 044 of these rules. (7-1-21)

08. Cross-References.

a. See Rule 024 of these rules. Rentals or leases of tangible personal property. (7-1-21)
b. See Rule 044 of these rules. Trade-ins, trade-downs, and barter. (7-1-21)
c. See Rule 099 of these rules. Occasional sales. (7-1-21)
d. See Rule 091 of these rules. Sales to American Indians. (7-1-21)
e. See Rule 101 of these rules. Motor vehicles and trailers used in interstate commerce. (7-1-21)
f. See Rule 107 of these rules. Vehicles and Vessels - Gifts, Military, Nonresident, New Resident, Tax Paid to Another State, Sales to Family Members, Sales to American Indians, and Other Exemptions (Rule 107). (7-1-21)

g. See Rule 108 of these rules. Motor vehicles manufacturer’s, rental company’s and dealer’s purchase or use of motor vehicles. (7-1-21)
h. See Rule 128 of these rules. Certificates For Resale And Other Exemption Claims. (7-1-21)

107. VEHICLES AND VESSELS -- GIFTS, MILITARY PERSONNEL, NONRESIDENT, NEW RESIDENT, TAX PAID TO ANOTHER STATE, SALES TO FAMILY MEMBERS, SALES TO AMERICAN INDIANS, AND OTHER EXEMPTIONS (RULE 107). Sections 49-117, 49-121, 49-122, 63-3606B, 63-3621, 63-3622K, 63-3622R, 67-7101, Idaho Code

01. In General. This rule discusses specific topics relating to vehicles including gifts, military personnel, and exemptions. Refer to Rule 106 of these rules for general information on purchases, sales, rentals, and leases of vehicles. (7-1-21)

02. Gifts of Vehicles. When the following facts clearly establish that a vehicle is being transferred as a gift from the titleholder to another, the vehicle can be transferred tax exempt if:

a. No money, services, or other consideration is exchanged between the donor and recipient at any time. (7-1-21)
b. The recipient assumes no indebtedness. (7-1-21)
c. The relationship of the donor and recipient indicates a basis for a gift. (7-1-21)

d. The donor and recipient complete and sign a Form ST-133GT, Use Tax Exemption Certificate -- Gift Transfer Affidavit and submit it to the county assessor along with the title to the vehicle being transferred. If the donor is unable to sign the affidavit, the recipient can submit either:

i. A letter stating the vehicle is a gift, and signed by the donor, may be accepted by the county assessor and attached to the affidavit; or

ii. The title may be marked as a gift and signed by the donor. (7-1-21)

03. Purchases Brought into Idaho by Nonresidents.

a. A nonresident does not owe use tax on the use of a motor vehicle which is purchased outside of Idaho and titled or registered under the laws of another state or nation, is not used in Idaho more than ninety (90) days in any consecutive twelve (12) months pursuant to Section 63-3621(k), Idaho Code, and is not required to be registered or licensed under Idaho law. For purposes of this Subsection (107.03.a.), a motor vehicle is considered to have been used in Idaho for a day when it is present in this state for more than sixteen (16) hours during any twenty-four (24) hour period. This exemption applies only to nonresidents. A limited liability company (LLC) or other legal entity formed by an Idaho resident under the laws of another state primarily for the purpose of purchasing and owning one (1) or more vehicles or vessels is not a nonresident. The use of a vehicle owned by such an entity will be subject to use tax upon its first use in Idaho. (7-1-21)

b. For the purposes of this rule, a corporation, partnership, limited liability company, or other organization will be considered a nonresident if it is not formed under the laws of the state of Idaho, is not required to be registered to do business with the Idaho Secretary of State, does not have significant contacts with this state and does not have consistent operations in this state. (7-1-21)

c. A nonresident college student does not owe use tax on any use of a motor vehicle while enrolled as a full-time student in a college or university located in Idaho and accredited by the Idaho State Board of Education if the motor vehicle meets the following requirements:

i. It is registered under the laws of the student’s state of residence; and

ii. It is owned by the student or a family member of the student. (7-1-21)

04. New Residents. A new resident of Idaho does not owe tax on the use of household goods, personal effects, vehicles, vessels, and aircraft if they are personally owned and acquired while residing in another state and used primarily outside Idaho. If an owner obtained a registration or title from another state or nation of residence more than three (3) months before moving to Idaho, this is proof that it was purchased primarily for use outside Idaho. New residents entering Idaho with a vehicle titled or registered in a state that does not impose a general sales and use tax will be required to complete and sign Form ST-102, Use Tax Exemption Certificate - New Resident, and submit it to the county assessor when applying for a title transfer or registration certificate.

a. If the vehicle, vessel, or aircraft was acquired less than three (3) months before the buyer moved to Idaho, it is presumed that it was acquired for use in this state. (7-1-21)

b. A personally owned vehicle, vessel, or aircraft is one that is owned by, and titled or registered to, an individual or individuals. (7-1-21)

05. Military Personnel.

a. Active duty military personnel and their spouses do not owe use tax on the use of household goods, personal effects, vehicles, vessels, and aircraft if they are personally owned and acquired prior to receipt of orders to transfer to Idaho or three (3) months prior to moving to Idaho, whichever time period is shorter. If a vehicle owner obtained a registration or title from another state or nation of residence prior to receipt of orders to transfer to Idaho or
three (3) months prior to moving to Idaho, whichever time period is shorter, this is proof that the vehicle was primarily for use outside Idaho. 

b. Military personnel receive no special exemption from the Idaho sales and use tax regarding vehicles or other tangible personal property purchased while temporarily assigned in this state. A military person whose home of record is Idaho is considered to be a resident of this state. 

06. Tax Paid to Another State. When a general retail sales tax has been properly imposed by another state or political subdivision of a state of the United States in an amount equal to or greater than the amount due Idaho, no Idaho tax is due. The credit for state and local taxes paid in another state will be applied first to the state sales tax due and the remainder, if any, will be applied to any local taxes due.

a. If the amount paid to the other state is less, Idaho tax is due to the extent of the difference, unless some other exemption applies. The owner is to provide evidence that the tax was paid to the other state. A registration certificate or title issued by another taxing state is sufficient evidence that tax was imposed at the other state’s tax rate. 

b. Example: A resident of another state buys a vehicle in that state for ten thousand dollars ($10,000) two (2) months before moving to Idaho. He presents his title from the other state to the county assessor. Since he acquired the vehicle only two (2) months before entering Idaho, no exemption applies. The tax paid to the other state was three hundred dollars ($300) when the vehicle was purchased. Credit for this amount is allowed against the six hundred dollars ($600) tax due Idaho. The county assessor will collect three hundred dollars ($300) tax. 

c. Example: A resident of another state purchased a vehicle two (2) months before moving to Idaho. The applicant paid four percent (4%) state sales tax, one and six tenths percent (1.6%) city sales tax, and one and six tenths percent (1.6%) county sales tax. The total general sales tax paid was seven and two tenths percent (7.2%). Since the Idaho tax rate is lower, no tax is due Idaho because the amount of tax paid to the other state exceeds the amount owed Idaho. 

d. Example: A resident of Alaska buys a vehicle immediately prior to moving to Idaho. The buyer paid a three percent (3%) city sales tax in Alaska. When the buyer moves to Idaho, credit will be given for the local tax paid against the Idaho state use tax due. 

e. A registration certificate or title issued by another taxing state is proof that tax was paid to the other taxing state. This does not apply to states that do not have a tax, such as Montana and Oregon, or when a state has exempted the vehicle from tax. 

f. Example: A church buys and titles a vehicle in Utah. The Utah sales tax law exempts the purchase of the vehicle from sales tax. The church later titles the vehicle in Idaho. Sales tax is due on the fair market value of the vehicle when it is titled in Idaho. 

g. Taxes paid to another country cannot be used to offset the taxes owed to Idaho. 

07. Sales to Family Members. The tax does not apply to sales of motor vehicles between members of a family related within the second degree of consanguinity. The second degree of consanguinity means only the following blood or formally adopted relatives of the person making the sale: parents, children, grandparents, grandchildren, brothers, and sisters. Relatives of the second degree of consanguinity do not include persons who are related only by marriage. However, when the motor vehicle sold is community property, and it is sold to a person who is related within the second degree of consanguinity to either spouse, the sale is exempt from tax.

a. Form ST-133, Sales Tax Exemption Certificate -- Family or American Indian Sales. A Form ST-133 is used to document this exemption. The seller and buyer complete and sign Form ST-133 and submit it to the Idaho Transportation Department or county assessor along with the title to the motor vehicle being transferred. If the seller is unable to sign the affidavit a letter from the seller stating the sale was made to a qualified family member may be accepted by the county assessor and attached to the affidavit. 

b. This exemption does not apply if the seller did not pay tax when he acquired the motor vehicle.
08. **Sales to American Indians.** An enrolled American Indian tribal member may buy a vehicle exempt from tax if the sale and delivery of the vehicle is made within the boundaries of the Indian reservation.

   a. Form ST-133, Sales Tax Exemption Certificate -- Family or American Indian Sales. A Form ST-133 is used to document this exemption. The seller and the buyer complete and sign Form ST-133 and provide the name of the tribe, the Tribal Identification Number, and the name of the reservation upon which the delivery occurred. The affidavit is then given to the county assessor along with the title to the vehicle being transferred. See Rule 091 of these rules.

09. **Bulk Sale Transfers.** A transfer or sale of a vehicle as part of a bulk sale of assets or property, as defined by Rule 099 of these rules, is exempt from tax. The buyer will complete and sign Form ST-133CATS, Sales Tax Exemption Certificate -- Capital Asset Transfer Affidavit to present to the county assessor when applying for transfer of title. The buyer attaches a copy of the sales agreement showing the sale qualifies for the exemption on the Form ST-133CATS.

10. **Sales to Nonresidents.**

   a. Sales of motor vehicles, trailers, vessels, all-terrain vehicles (ATVs), utility type vehicles (UTVs), specialty off-highway vehicles (SOHVs), off-highway motorcycles, and snowmobiles to nonresidents for use out of this state, even though delivery is made within this state are exempt from tax when:

      i. The motor vehicles, vessels, ATVs, UTVs, SOHVs, trailers, off-highway motorcycles, and snowmobiles will be taken from the point of delivery in this state directly to a point outside this state; and

      ii. The motor vehicles, vessels, ATVs, UTVs, SOHVs, trailers, off-highway motorcycles, and snowmobiles will be registered immediately under the laws of another state or country and will be titled in that state or country, if required to do so by that state or country and will not be used in Idaho more than ninety (90) days in any twelve-month period.

   b. To claim the exemption, each buyer provides the seller with a completed and signed Form ST-104NR, Sales Tax Exemption Certificate -- Nonresident Vehicle/Vessel. The seller keeps a copy for their records and send a copy of the completed form to the Commission.

   c. This exemption does not apply to sales of truck campers or to the sales of canoes, kayaks, paddleboards, inflatable boats, or similar watercraft regardless of length when sold without a motor.

   d. For purposes of Subsection 107.10 of this rule, ATV, UTV, and SOHV have the same meaning given to them in Section 67-7101, Idaho Code.

   e. For purposes of Subsection 107.10 of this rule, a vessel means any boat intended to carry one (1) or more persons upon the water which is either:

      i. Sold together with a motor; or

      ii. Eleven (11) feet in length or more, not including canoes, kayaks, paddleboards, inflatable boats, or similar watercraft unless such canoe, kayak, paddleboard, inflatable boat, or similar watercraft is sold together with attached motor.

   f. For the purposes of Subsection 107.10 of this rule a trailer needs to meet the definition of a park
model recreational vehicle, a trailer or utility trailer found in Sections 49-117, 49-121, and 49-122 Idaho Code, which is a vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle. The term “trailer” includes the specific types of trailers or park model recreational vehicles defined in Sections 49-117, and 49-121(6), Idaho Code. (7-1-21)T

g. To qualify for this exemption the buyer needs to be a nonresident of Idaho. An Idaho resident may form an LLC or other legal entity under the laws of another state. If such an LLC or other entity is formed primarily for the purpose of owning one (1) or more vehicles or vessels it is not a nonresident. The purchase or use of a vehicle or vessel in Idaho by such an entity is taxable. (7-1-21)T

11. Motor Vehicles and Trailers Used in Interstate Commerce. The sale of motor vehicles with a maximum gross registered weight of over twenty-six thousand (26,000) pounds and trailers are exempt from sales or use tax when they are purchased to become part of a fleet of motor vehicles registered under the International Registration Plan, or similar proportional or pro rata registration system, and they will be used in interstate commerce with at least ten percent (10%) of the fleet miles operated outside this state. The buyer will complete and sign the Form ST-104IC, Sales Tax Exemption Certificate -- Interstate Commerce Vehicles and provide it to the seller. See Rule 101 of these rules. (7-1-21)T

12. Related Party Transfers and Sales. Certain transfers and sales of vehicles between businesses defined as related parties are exempt from tax. Refer to Rule 099 of these rules. The new owner will complete and sign the Form ST-133CATS, Sales Tax Exemption Certificate -- Capital Asset Transfer Affidavit Form and submit the completed form to the county assessor when applying for title transfer. (7-1-21)T

108. VEHICLE MANUFACTURER’S, RENTAL COMPANY’S, AND DEALER’S PURCHASE OR USE OF VEHICLES (RULE 108).

Sections 63-3612, 63-3613, 63-3622, 63-3623, Idaho Code

01. Buying for Resale. Licensed vehicle dealers, vehicle rental companies, and manufacturers of vehicles may purchase vehicles tax exempt when the vehicles are held for resale or rental and are used for no purpose other than retention, demonstration, or display while holding the vehicles for sale or rental in the regular course of business. Purchases of parts that will be installed on vehicles held in a resale inventory are exempt from sales tax. (7-1-21)T

02. Titling a Vehicle. Under the Sales Tax Act, no vehicle may be titled without documentation establishing that any sales or use taxes which may be due have been paid. However, certain vehicles may be titled by dealers and rental companies with no tax applying. (7-1-21)T

a. Rental companies may title and register vehicles held in their rental inventory in their company name with no tax applying. (7-1-21)T

b. Idaho dealers may title vehicles held for resale in their dealer name to ensure clear title to the vehicle. However, the vehicle cannot be registered in the dealer’s name. If the dealer applies for registration, tax applies. (7-1-21)T

03. Dealer Plates. Any vehicle upon which a dealer’s plate may be lawfully displayed, as provided by Sections 49-1627 and 49-1628, Idaho Code, is, for purposes of the Sales Tax Act, inventory held for sale and not taxable. If any use of a vehicle displaying a dealer plate requires that the dealer provide the user with a compensation form for federal income tax purposes, the amount so reported is subject to use tax. The use tax will be paid by the dealer in the month immediately following the issuance of the compensation form. The unauthorized use or display of a dealer’s plate on the vehicle which is otherwise required to be titled or licensed under the laws of the state of Idaho subjects the dealer to a use tax liability. (7-1-21)T

04. Service Vehicles. Vehicles, such as work or service vehicles, which are not held in stock for sale or rental are taxable at the time of their purchase. The use tax will be reported and paid on the sales tax return relating to the period during which the vehicle was purchased. In titling the vehicle, the vehicle dealer may report his seller’s permit number to the county assessor or Department of Transportation as evidence that sales or use tax has been paid. (7-1-21)T
05. Inventory Withdrawals by Dealers. Dealers may withdraw vehicles from inventory and put them to a use for which a dealer’s plate is not authorized, creating a requirement for the vehicles to be titled and licensed. Vehicles required to be titled and licensed are taxable. The taxpayer may choose one (1) of two (2) methods for reporting the tax:

   a. At the time the vehicle is withdrawn from resale inventory, the taxpayer may report and pay use tax on his acquisition cost.

   b. During each month or part of a month during which a vehicle is held for purposes other than resale, the taxpayer may report and pay use tax on a reasonable monthly rental value. A reasonable monthly rental value is an amount equal to rentals charged for vehicles of like or similar make and model when such vehicles are leased or rented by the taxpayer or by other persons in the community in the business of leasing or renting such vehicles.

06. Inventory Withdrawals by Rental Companies. Rental companies that withdraw vehicles from their rental inventory and put them to a use subject to use tax may elect either method of reporting tax discussed in Subsection 108.05 of this rule.

07. Applicability of Rule 108. The provisions of this rule apply only to vehicle dealers or manufacturers licensed as such by the Department of Transportation, and to companies engaged in the business of renting vehicles without operators.

109. AMUSEMENT DEVICES (RULE 109).

Section 63-3623B, Idaho Code

01. Amusement Devices. “Amusement device” means coin, currency, debit card, credit card, prepaid arcade card, or token operated machines and devices used for amusement or entertainment. This definition includes, but is not limited to, game machines; pool tables; jukeboxes; electronic games; video or cinematic viewing devices; crane, rotary, and pusher machines; and similar devices. It does not include vending machines that are used to sell tangible personal property or other machines or games described in Subsection 109.03 of this rule.

02. Requirement to Obtain Permit. The owner or operator of amusement devices obtain a seller’s permit if the owner or operator makes retail sales other than the use of amusement devices. If the owner or operator does not make such other retail sales, the owner or operator need not obtain a seller’s permit, but will obtain an amusement device permit for each amusement device in service.

   a. Owners and operators of amusement devices pay a permit fee for every amusement device in operation. Section 63-3623B(e), Idaho Code, states that the fee may be increased proportionately to any increase in the tax rate. The formula to calculate the permit fee is seven hundred dollars ($700) x tax rate. For example, at a tax rate of five percent (5%) the amount of the permit fee is seven hundred dollars ($700) x five percent (5%) = thirty-five dollars ($35). If the tax rate is six percent (6%), the permit fee will be forty-two dollars ($42). If any change in the tax rate becomes effective on July 1 of a given year, the charge for the permit fee will change proportionately on that date also. If a change in the tax rate occurs on a day other than July 1, the permit fee will be changed on the next July 1 following the change in the tax rate.

   b. Upon receiving the appropriate payment, the Commission will issue to the owner or operator of one (1) or more amusement devices, a permit for each amusement device in service. The owner or operator affixes a separate permit on each amusement device in service. The permit will be affixed to the machine in such a manner that it is easily visible. Permits are transferable from one person to another after written notice of the transfer is received and acknowledged by the Commission. Permits may be transferred from an amusement device that is no longer in service to another amusement device owned or operated by the same person. An amusement device permit is not valid unless the name and business address of the owner or operator is typed or printed in black ink on the face of the permit.

   c. Video amusement devices may have more than one (1) monitor and be designed to be operated independently by more than one (1) person. In such cases a separate permit is required for each monitor.
d. Amusement device permits are renewed annually. Annual permits are valid from July 1 through June 30 and are renewed on or before July 1 by the owner or operator of the amusement devices. Amusement devices acquired after July 1 or placed in service before the next July 1 will require the appropriate fee for a full-year permit.

(7-1-21)T

e. If an amusement device permit is lost, stolen, or destroyed, an amusement device permit for the current year will still need to be affixed to every operating amusement device. This may require the purchase of a new permit. The Commission will not issue free replacement amusement device permits regardless of the reason for the loss of the permit.

03. Other Amusement Machines or Games. Charges for the use of machines or games which do not meet the definition in Subsection 109.01 are taxable at the prevailing rate times one hundred percent (100%) of the gross proceeds received for the use of the device. This applies regardless of the method the owner or operator uses to determine the charge, such as by the hour or by the game. The owner or operator of such amusement machines or games will obtain a seller’s permit if the owner or operator charges for the use of such machines.

(7-1-21)T

04. Cross-Reference. See Rule 095 of these rules regarding purchases of Money-Operated Dispensing Equipment.

(7-1-21)T

110. RETURNS FILED BY COUNTY ASSESSORS AND FINANCIAL INSTITUTIONS (RULE 110).
Sections 63-3623 and 63-3638(9), Idaho Code

01. Filing Returns. Upon collection of sales tax on applications for certificate of title to a motor vehicle, trailer, or other titled property, or initial application for registration processed by the county assessor, the assessor will, no less than monthly, complete and submit to the Commission, Form ST-852, Idaho Sales Tax Return-County Assessors. The assessor may, at his discretion, submit the form more frequently. But at no time will the amount of tax collected during any month be submitted later than the twentieth day of the month following the month in which the tax was collected.

(7-1-21)T

02. Reimbursement. The assessor and the Idaho Transportation Department will be reimbursed at the rate of one dollar ($1) for each application for certificate of title or initial registration of a motor vehicle, trailer, or other titled property; each Form ST-108, Transport Trailer, Office Trailer, and Untitled Boat Certificate; and each Form ST-108TR, Occasional Sale Exemption Claim -- Office Trailer and Transport Trailer, processed by the assessor except those upon which any sales or use tax due has been previously collected by a retailer or paid by the buyer.

(7-1-21)T

03. Financial Institutions. Financial institutions collecting tax on sales of tangible personal property that they are financing, whether sold by the financial institution or another person, are to possess an Idaho seller’s permit and file returns to remit the tax as prescribed in Rule 105, of these rules. If the tax collected is not from a sale made by the financial institution, it can be reported as an adjustment on the return. Failure to remit the tax on a timely basis will result in the addition of penalties and interest as provided by Sections 63-3632 and 63-3634, Idaho Code.

(7-1-21)T

04. Cross Reference.

a. Permits. See Rule 070 of these rules.

(7-1-21)T

b. Time and Imposition of Tax. Returns, Payments and Partial Payments. See Rule 105 of these rules.

(7-1-21)T

111. RECORDS REQUIRED AND AUDITING OF RECORDS (RULE 111).

01. In General. Every retailer doing business in this state and every buyer storing, using, or otherwise consuming in this state tangible personal property will keep complete and adequate records as may be necessary for the Commission to determine the amount of sales and use tax for which that person is liable under Title 63, Chapter 36, Idaho Code.
a. Unless the Commission authorizes an alternative method of record keeping in writing, these
records will show gross receipts from sales or rental payments from leases of tangible personal property, including
any services that are a part of the sale or lease, made in this state, irrespective of whether the retailer or buyer regards
the receipts to be taxable or nontaxable; all deductions allowed by law and claimed in filing the return; and the total
purchase price of all tangible personal property purchased for sale or consumption or lease in this state. (7-1-21)T

b. These records include the normal books of account ordinarily maintained by the average prudent
businessman engaged in such business, together with all bills, receipts, invoices, cash register tapes, or other
documents of original entry supporting the entries in the books of account, together with all schedules or working
papers used in connection with the preparation of tax returns. (7-1-21)T

c. For taxpayers that maintain the required records in both a machine-sensible and a hard-copy
format, that taxpayer will make the records available to the Commission in machine-sensible record format upon the
Commission's request. Machine-sensible records are to be maintained in the original format for the same time periods
as required of hard-copy records outlines in Subsection 111.04 of this rule. “Machine-sensible record” is a collection
of related information in an electronic format. This does not include hard-copy records that are created or recorded on
paper or stored in or by an imaging system such as microfilm, microfiche or storage-only imaging systems. (7-1-21)T

02. Alternative Storage Media. Records, including general books of account, such as cash books,
journals, voucher registers, ledgers, and like documents may be microfilmed, microfiched, or retained by a storage-
only imaging system and the original hard-copy documents may be discarded when all other conditions of this rule
are met. A storage-only imaging system involves computer hardware, software, and other reproduction equipment
that provides for the storage, retention, and retrieval of records and documents which were originally created on
paper. It does not allow for any manipulation or processing of the documents. These records are to be authentic,
accessible, readable, and meet the following requirements:

a. Appropriate facilities are to be provided for preservation of the storage media for the periods
required and open to examination and the taxpayers will provide transcriptions of any information on microfilm,
microfiche, or imaged data which may be required for verification of tax liability. (7-1-21)T

b. All microfilmed, microfiched, and imaged data are to be indexed, cross-referenced, and labeled to
show beginning and ending numbers and to show beginning and ending alphabetical listing of documents included,
and systematically filed to permit ready access. (7-1-21)T

c. The taxpayer will make available upon request of the Commission facilities and equipment in good
working order at the examination site for reading, locating, and reproducing any record concerning sales or use tax
liability maintained on microfilm, microfiche, or other storage-only imaging system. (7-1-21)T

d. The taxpayer will set forth in writing the procedures governing the establishment of its microfilm,
microfiche, or other storage-only imaging system and the individuals who are responsible for maintaining and
operating the system with appropriate authorization from the Board of Directors, general partners, or owner,
whichever is applicable. (7-1-21)T

e. The microfilm, microfiche, or other storage-only imaging system is to be complete and used
consistently in the regularly conducted activity of the business. (7-1-21)T

f. The taxpayer will establish procedures with appropriate documentation so that the original
document can be followed through the conversion system. (7-1-21)T

g. The taxpayer is responsible for the effective identification, processing, storage, and preservation
of microfilm, microfiche, or other storage-only imaging system making it readily available for as long as the contents
may become material in the administration of any state tax law. (7-1-21)T

h. The taxpayer is to keep a record identifying by whom the microfilm, microfiche, or other storage-
only image system was produced. (7-1-21)T
i. When displayed or reproduced on paper, the material is to exhibit a high degree of legibility and readability. For this purpose, legibility is defined as the quality of a letter or numeral that enables the observer to identify it positively and quickly to the exclusion of all other letters or numerals. Readability is defined as the quality of a group of letters or numerals being recognizable as words or complete numbers.

j. All production of microfilm or microfiche and processing duplication, quality control, storage, identification, and inspection thereof are to meet acceptable industry standards.

03. Records Prepared by Automated Data Processing Systems, ADP. An ADP tax accounting system may be used to provide the records required for the verification of tax liability. Although ADP systems will vary from one taxpayer to another, all such systems are to include a method of producing legible and readable records which will provide the necessary information for verifying such tax liability. The following requirements apply to any taxpayer who maintains any such records on an ADP system:

a. Recorded or reconstructible data. ADP records will provide an opportunity to trace any transaction back to the original source or forward to a final total. If detailed printouts are not made of transactions at the time they are processed, the systems are to have the ability to reconstruct these transactions.

b. General and subsidiary books of account. A general ledger, with source references, is to be written out to coincide with financial reports for tax reporting periods. In cases where subsidiary ledgers are used to support the general ledger accounts, the subsidiary ledgers will also be written out periodically.

c. Supporting documents and audit trail. The audit trail is to be designed so that the details underlying the summary accounting data may be identified and made available to the Commission upon request. The system is to be so designed that supporting documents, such as sales invoices, purchase invoices, credit memoranda, and like documents are readily available.

d. Program documentation. A description of the ADP portion of the accounting system are to be made available. The statements and illustrations as to the scope of operations be sufficiently detailed to indicate: The application being performed; the procedures employed in each application, which, for example, might be supported by flowcharts, block diagrams, or other satisfactory descriptions of the input or output procedures; the controls used to insure accurate and reliable processing; and important changes, together with their effective dates, are to be noted in order to preserve an accurate chronological record.

e. Data storage media. Adequate record retention facilities are to be available for storing tapes and printouts, as well as all supporting documents as may be required by law or this rule.

04. Record Retention. All records pertaining to the transactions involving sales or use tax liability are to be preserved for a period of not less than four (4) years. If an assessment has been made and an appeal to the Commission or any court is pending, the books and records relating to the period under appeal by such proposed assessment must be preserved until final disposition of the appeal.

05. Examination of Records. All of the foregoing records are to be made available for examination on request of the Commission or its authorized representatives.

06. Failure of the Taxpayer to Maintain or Disclose Complete and Adequate Records. Upon failure by the taxpayer, without reasonable cause, to substantially comply with the requirements of this rule, the Commission will:

a. Impose any penalty as may be authorized by law.

b. Subpoena attendance of the taxpayer and any other witness when the Commission deems it necessary or expedient for examination and compel the taxpayer and witness to produce any documents within the scope of its inquiry relating in any manner to the sales and use tax.

c. Enter such other order as may be necessary to obtain compliance with this rule in the future by any
taxpayer found not to be in substantial compliance with the requirements of this rule. (7-1-21)T

112. **DIRECT PAY AUTHORITY (RULE 112).**
Sections 63-3624, 63-3629, 63-3631, Idaho Code

01. **In General.** A Direct Pay Authority is granted to certain taxpayers where it is to the mutual convenience of the Commission, the taxpayer, and the taxpayer’s vendors to have the sales and use tax liability upon the taxpayer’s purchases determined by the taxpayer and reported directly to the state in the form of a use tax. This authorization allows vendors to sell all items of tangible personal property to the taxpayer without charging any sales tax. The only effect of this arrangement is to shift the reporting responsibility to the taxpayer holding the authorization. (7-1-21)T

02. **Taxable Purchases.** If the particular transaction would have been taxable without the authorization, then the taxpayer holding the authorization pays sales tax to the state even if the use of the item is not subject to use tax. For example, if the taxpayer holding the authorization buys goods from a retailer holding an Idaho seller’s permit, then the taxpayer pays sales tax on the transaction even if the goods are intended for use solely outside the state. (7-1-21)T

03. **Documentation.** To purchase tangible personal property without paying sales tax to the vendor, the taxpayer holding an authorization provides a copy of that authorization to each vendor. (7-1-21)T

04. **Holder’s Responsibilities.** The authorization is granted only to those taxpayers who have demonstrated, to the Commission’s satisfaction, the accounting and technical capability to comply with the Sales Tax Act. Direct pay authority holders make all purchases of tangible personal property tax exempt and all taxes due as required by the Idaho Sales Tax Act will be remitted directly to the Commission by the direct pay authority holder. Vendors will be allowed to sell all items of tangible personal property to the direct pay authority holder without charging sales tax provided they obtain and keep on file a copy of the letter granting the direct pay authority. (7-1-21)T

05. **Revocation.** The Commission may revoke an authorization if it determines that the taxpayer is not complying with this rule or if the taxpayer is allowing contractors or other third parties to make exempt purchases under its authority. Notice of revocation will be given in the manner provided for deficiencies in taxes in Section 63-3629, Idaho Code, and is subject to review as provided in Section 63-3631, Idaho Code. Should the Commission revoke a taxpayer’s direct pay authority it will be the taxpayer’s responsibility to notify his vendors of the revocation. (7-1-21)T

06. **Tax Imposed by Hotel/Motel Room Sales Tax.** The authorization can’t be used for taxes imposed on lodging accommodations. State sales tax, Travel and Convention tax, and Auditorium or Community Center District tax, when applicable, is charged by and paid to the retailer by the direct pay permittee. (7-1-21)T

07. **Valid Only on Purchases of Tangible Personal Property.** The authorization is valid only on purchases of tangible personal property. The taxpayer can’t use the authorization when engaging contractors involved in improving real property. Special rules apply to contractors. Refer to Rules 012 through 015, and 066 of these rules. (7-1-21)T

08. **Expiration.** Direct Pay Authority is granted for a period of five (5) years. If the authorization is not renewed at the end of the expiration period, the authorization will expire automatically. (7-1-21)T

113. **RECREATIONAL VEHICLE REGISTRATION (RULE 113).**

01. **Snowmobile, Motorbike, or ATV.** A new owner of a new or used snowmobile, motorbike, or ATV will obtain a title for the recreational vehicle according to the Idaho Transportation Department instructions. The buyer will present evidence that sales tax was paid to the seller of the recreational vehicle, or pay any tax due to the county assessor, Idaho Transportation Department, or Commission before a title will be issued. (7-1-21)T

02. **Boat.** A boat owner registers his boat each year with the Department of Parks and Recreation through authorized agents appointed by that department. (7-1-21)T
a. When registering the boat for the first time or transferring the registration to a new owner, the owner will complete Form ST-109, Recreational Vehicle Registration Sales Tax Affidavit, except as provided in Subsection 113.02.c. of this rule. (7-1-21)

b. Each month the Department of Parks and Recreation will forward to the Commission the copies of Form ST-109 submitted by its agents. (7-1-21)

c. When registering a boat with a county assessor acting as an authorized agent of the Department of Parks and Recreation, the requirements of this rule do not apply. The assessor will collect and remit to the Tax Commission any sales or use tax due. See Rule 099 of these rules. (7-1-21)

114. SALES UNDER THE SNAP AND WIC PROGRAMS, RECORDS REQUIRED FOR PAYMENTS WITH ELECTRONIC BENEFIT TRANSFER CARDS AND WIC TENDER (RULE 114).

Sections 63-3622EE, 63-3622FF, Idaho Code.

01. In General. Sales of food purchased under the Federal Supplemental Nutrition Assistance Program (SNAP) or the Federal Special Supplemental Food Program for Women, Infants, and Children (WIC) are exempt from the Idaho sales tax. Sales of food under these programs are exempt whether the buyer uses electronic benefit transfer (EBT) cards, WIC tender, or any other exchange medium authorized for these programs by federal law. (7-1-21)

02. Records Required. Retailers who accept EBT cards or WIC tender as payment are to maintain accurate records of those sales. Adequate records include sales reports or tender-type reports with collections from each type. (7-1-21)

115. RECORDS REQUIRED, NONTAXED SALES BY RETAIL FOOD STORES (RULE 115).

Section 63-3624(s), Idaho Code

01. Petition for Reduced Record Keeping. Retail food stores may petition the Commission to be relieved from the responsibility of retaining copies of detailed invoices for nontaxed sales. (7-1-21)

02. Form Required. A retail food store may apply for reduced record keeping requirements by submitting a completed Form ST-110, Petition for Sales Tax Records Reduction by a Retail Food Store, to the Commission. (7-1-21)

03. Authority. If authority for reduced record keeping is granted by the Commission, a retailer is not required to keep detailed sales invoices if he obtains a properly completed resale or exemption certificate from the customer and thereafter a properly completed Form ST-111, Sales Tax Exemption Claim Form-Grocer for each exempt sale. The completed Form ST-111 includes the following information: The name of the customer; the total purchase price of the exempt items; the date of the sale; whether the nontaxed merchandise sold consisted of food, nonfood items or both; and the signature of the person making the exempt purchase. (7-1-21)

04. Standard Industry Code. For the purposes of this rule, retail food stores means those retail stores described in major group fifty-four (54) of the Standard Industrial Classification Manual, SIC, of 1987 and whose sales of food for home preparation and consumption account for more than fifty percent (50%) of the store’s total sales. Stores in major group fifty-four (54) consist of grocery stores; meat and fish markets; fruit and vegetable markets; candy, nut, and confectionery stores; dairy product stores; retail bakeries; and egg and poultry dealers. (7-1-21)

05. Review of Petitions. The Commission will review all petitions for reduced record keeping requirements. The Commission may examine the books and records of the petitioner to ensure that the petitioner is primarily engaged in the business of selling food for home preparation and consumption. The Commission will give written notice of its determination to the petitioner within sixty (60) days after receiving the petition. (7-1-21)

116. BONDING (RULE 116).

Section 63-3625, Idaho Code
01. **Posting Security.** The Commission may require a retailer to post security to insure collection and remittance of sales and use taxes for cause including:

a. A retailer failing to file sales tax returns.

b. A retailer failing to remit in full taxes due upon any sales tax return.

c. A retailer with a consistent history of delinquency either in the filing of returns or payment of tax.

d. The submission of a check for the payment of taxes which is subsequently dishonored.

e. The filing of a fraudulent return or any return which fails to report all taxable transactions for the period for which the return relates.

f. A retailer evidencing serious financial instability which, in the opinion of the Commission, creates reasonable doubt as to the ability of the retailer to pay over sales and use taxes collected by it.

02. **Amount of Security.** The amount of security will be fixed by the Commission but will not exceed an amount equal to three (3) times the anticipated monthly sales tax liability or ten thousand dollars ($10,000), whichever is less, except in the case of retailers who are habitually delinquent in their submission of returns and/or taxes in which case the amount of security will not be greater than five (5) times the estimated average monthly liability or ten thousand dollars ($10,000), whichever is less.

03. **Written Demand.** Written demand for security will be sent to the retailer by the Commission by certified mail or by personal service upon the retailer. Failure of the retailer to post the demanded security can be grounds for revocation of the retailer’s seller’s permit following proper notice and hearing.

04. **Forms of Security.** The Commission will accept as security the following:

a. Surety bond. A surety bond issued by a bonding company with the power of an attorney affixed thereto which grants the issuing agent the power to obligate the company for this type of liability.

b. Cash bond. Preferably in the form of cashier’s check.

c. Pledged savings accounts. This type of security may be furnished, providing the savings account is opened with a bank or savings and loan association and an assignment of the account is executed by the taxpayer or authorized individual and accepted by the bank or savings and loan association. The savings account may be in the business name or individual’s name, if a sole proprietorship; jointly in the names of the partners of a partnership; or in the name of a corporation with the assignment properly executed by the officer or officers with the delegated authority to sign documents for the corporation.

05. **Release of Security.** Security which has been previously posted may be released by the Commission upon receipt of written request from the retailer if, after careful review of the circumstances, the Commission determines that security is no longer required. A request may be made one (1) year after posting the security. Security will also be released upon the retailer’s termination of its retail activities. In either case, if the Commission deems necessary, an audit may be conducted prior to the release of any security.

**REFUND CLAIMS (RULE 117).**
Sections 63-3612, 63-3613, 63-3619, 63-3626, 63-3629(c), 63-3631, 63-3045, 63-3045B, 63-3049, 63-4408, Idaho Code

01. **In General.** Application for refund of sales or use taxes paid in excess of those properly imposed by the Sales Tax Act, is to be in accordance with the provisions of this rule.

02. **Payment of Sales Tax by a Buyer to a Vendor.** When a buyer has paid sales tax to a vendor, and
later determines that the sales tax was paid in error, the buyer needs to request the refund from the vendor to whom the excess tax was paid. If the buyer can provide evidence that the vendor has refused to refund the tax, he may then file a claim for refund directly with the Commission.

03. **Payment of Sales or Use Tax Directly to the State.** When a person holding a seller’s permit or use tax account number has paid tax to the state, and later determines that the sales or use tax was paid in error, he may file a claim for refund directly with the Commission.

04. **Bad Debts.** Claims for refunds arising from bad debts are to be filed with the Tax Commission in the manner prescribed by this Rule 117 and Rule 063 of these rules.

05. **Mathematical Errors.** When the filer of sales or use tax returns determines that a mathematical error has been made on a previously filed return resulting in overpayment of the proper amount of sales or use taxes, he may file a claim for refund directly with the Tax Commission.

06. **Refund Claims.** A refund claim, however, is to be in writing and include the following information:

   a. Full name, address, and phone number of the claimant;
   
   b. Claimant’s seller’s permit number or use tax account number if claimant has such a number;
   
   c. The amount of the refund claimed;
   
   d. A detailed statement of the reason the claimant believes refund is due;
   
   e. An itemized description of the specific goods or services to which the tax relates;
   
   f. The date on which the claimed excess taxes were paid;
   
   g. If the claimant is the retailer, a statement under oath that the amount of tax plus interest has been or will be refunded to the buyer; and
   
   h. If the claim is for bad debt, detailed individual account information for each customer and each item purchased for which a refund is claimed.

   i. A refund claim must be filed within three (3) years from the time the payment was made to the Commission. If a refund claim does not include the required information listed in Subsections 117.06.a. through h., as applicable, then the claim does not satisfy the requirement to file a written claim to stop the period of limitations provided in Section 63-3626(b)(1), Idaho Code, from running. A refund claim that does not include the required information will be denied and processed as set out in Subsection 117.11 of this rule.

07. **Outstanding Liabilities.** No claim for refund will be approved or issued unless the claimant first satisfies outstanding liabilities for taxes administered by the Commission.

08. **Payment Under Protest.** It is not necessary for a taxpayer to pay taxes under protest in order to subsequently be able to claim a refund of such taxes.

09. **Statute of Limitations.** A claim for refund will not be allowed if it is filed more than three (3) years from the time the payment of the tax was made. The time the payment was made is the date upon which the sales or use tax return relating to the payment was filed with the Commission.

10. **Taxes Paid in Response to a Notice of Deficiency Determination.** A claim for refund may not be filed relating to any sales or use taxes which have been asserted by a notice of deficiency determination. A taxpayer contending that taxes have been erroneously or illegally collected by the Commission in conformance with a notice of deficiency determination can seek a refund by using the appeal procedures outlined in IDAPA 35.02.01.320 through...
11. **Denial of a Refund Claim.** All claims for refund or credit will be reviewed by the Commission’s staff. If the staff concludes that all or part of the claim should not be allowed, notice of denial of the claim will be given to the claimant by first class mail or by other commercial delivery service providing proof of delivery, whichever is the most cost efficient. The notice will include a statement of the reasons for the denial. The notice of denial will be the equivalent of a notice of deficiency determination. If the taxpayer wishes to seek a redetermination of the denial notice, they can file a petition for redetermination in the manner prescribed in IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules.” A petition for redetermination must be filed no later than sixty-three (63) days from the date upon which the notice of denial is mailed to or served on the claimant.

12. **Interest on Refunds.** See Rule 122 of these rules.

13. **Cross Reference.** See Rule 003 of these rules, Administrative Appeals.

118. **RESPONSIBILITY FOR PAYMENT OF SALES TAXES DUE FROM CORPORATIONS, LIMITED LIABILITY COMPANIES AND PARTNERSHIPS (RULE 118).**

**Sections 63-3045, 63-3049, 63-3065, 63-3074, 63-3634, Idaho Code**

**01. Corporate Officers Duty to Pay Sales Tax.** Individuals including corporate officers and employees with the duty to cause a corporation or a limited liability company to file a sales tax return or to pay sales tax when due, or any partnership member or employee with such duty, will become liable for payment of the tax, penalty and interest due from the corporation or partnership if they fail to carry out their duty. Any such responsible individual has the defenses, remedies and recourse provided in Sections 63-3045, 63-3049, 63-3065 and 63-3074, Idaho Code, and will be afforded notice and opportunity to be heard on the question of such liability.

**02. Penalty for Failure to Collect.** Any individual required to collect, account for and pay over any tax who willfully fails to carry out or execute his duty will be required to pay, in addition to the tax, penalty and interest, an additional amount equal to the total amount of tax involved. This penalty is in addition to all other penalties provided in Section 63-3634, Idaho Code.

119. **SUCCESSOR’S LIABILITY (RULE 119).**

**Section 63-3628, Idaho Code**

**01. Making Inquiries.** Section 63-3628, Idaho Code, provides that when a vendor sells out his business or stock of goods, the buyer is to make inquiry of the Commission and withhold from the purchase price any amount of tax that may be due until such time as the vendor, seller, produces a receipt stating that no tax is due. If the buyer fails to withhold from the purchase price the tax due, he becomes personally liable for the tax.

**02. Written Inquiry Required.** The buyer is to make written inquiry to the Boise Office of the State Tax Commission setting forth the following:

- **a.** The name, location, and seller’s permit number of the business they are purchasing.
- **b.** A statement that they are purchasing the business or stock of goods.
- **c.** An inquiry as to any sales or use tax liability of the business they are purchasing.

**03. Copy of Earnest Money.** The buyer is to attach to the written inquiry a copy of any earnest money or similar agreement already entered into with the prospective seller. If no earnest money agreement has been entered into, then the seller must provide written authorization to the State Tax Commission to release the information to the prospective buyer.

**04. Written Statement from State Tax Commission.** The Commission, after receiving the written inquiry from the buyer as to the amount due, will issue a written statement to the buyer setting forth the amount of tax due by the seller, if any. The Commission will advise the prospective buyer only of any amount of sales or use tax that
may be due to the Commission under the Sales Tax Act. The release of any other information is not authorized. In the case that the prospective buyer requests to see the prospective seller’s sales or use tax filing record in order to determine if the business is profitable, the prospective seller is to provide a Power of Attorney appointing the prospective buyer as attorney in fact to receive confidential information regarding sales or use tax filings on behalf of the prospective seller. (7-1-21)T

05. Application for Seller's Permit Number. Upon final sale, the buyer files an application Form IBR-1 for a new seller’s permit number with the Commission. The seller must forward his seller’s permit to the Commission for cancellation. (7-1-21)T

120. JEOPARDY DETERMINATION (RULE 120).
Section 63-3630, Idaho Code

If collection of any part of a tax required to be paid to the state of if any determination or redetermination will be jeopardized by delay, the Commission will make a determination of the tax or amount required to be collected noting the need for expeditious procedure and the amount of required security upon the assessment. The amount determined to be due the state is immediately payable and, if not paid immediately after service of notice of the deficiency, may be entered as a final assessment and collected by judgment processes or through use of any collection procedure available to the Commission’s office. If, within thirty (30) days, the taxpayer files for redetermination and deposits with his petition for redetermination such security as the Commission may, in this specific case, deem necessary to ensure compliance with this act, collection of the deficiency assessment will be delayed pending redetermination. Hearings and other procedure will then proceed in accordance with the rules pertaining thereto. (7-1-21)T

121. (RESERVED)

122. INTEREST ON DEFICIENCIES, REFUNDS AND ESTIMATED RETURNS (RULE 122).
Sections 28-22-104, 63-3045, 63-3630, Idaho Code

01. Interest Rate. The rate of interest on deficiencies or refunds of tax is determined annually as provided in Section 63-3045, Idaho Code, and IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 310. All interest on sales or use tax deficiencies is simple interest. Interest applies only to tax and not to penalties. (7-1-21)T

02. Interest Accruing During a Period Subject to Audit. Interest on deficiencies accrues from the due date of the return to which the deficiency relates. On refunds, the interest accrues from the due date of the return or date of payment, whichever is later. However, when a refund is claimed or a deficiency is asserted for a period of time which includes several reporting periods, in lieu of calculating interest for each reporting period, interest may be averaged over the interest rate period if no substantial distortion results from the averaging technique. When averaging interest, sales or purchases of extraordinary amounts outside the usual course of business which would substantially distort the result should be excluded from the averaging calculation and interest calculated separately on such transactions. Average interest, accruing during an interest rate period, may be calculated according to the following formula:

\[ \frac{(N \times R) - R}{2} \]

\[ N = \text{Number of reporting periods in interest rate period.} \]
\[ R = \text{Interest rate per reporting period, e.g., one percent (1%) for monthly filers, three percent (3%) for quarterly filers, at a 12% annual interest rate, etc.} \]

(7-1-21)T

03. Alternate Formulas. Alternatively, interest may be calculated according to such other formula as the taxpayer and the Commission’s sales tax audit staff may agree to apply. (7-1-21)T

04. Estimated Returns. Interest on estimated returns accrues at an annual rate as provided in Section 63-3045, Idaho Code, and IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 310. (7-1-21)T

05. Failure to Register. Taxpayers who failed to have a tax number in a period where a deficiency
exists will be, for interest computation purposes, considered to be monthly filers. (7-1-21)

06. **Judgments.** Nothing in this rule is intended to effect interest rates on judgments pursuant to Section 28-22-104(2), Idaho Code. (7-1-21)

123. **ADDITIONS AND PENALTIES (RULE 123).**

Sections 63-3046, 63-3075, 63-3076, 63-3077, Idaho Code

All additions and penalties provided by Sections 63-3046, 63-3075, 63-3076 and 63-3077, Idaho Code, are incorporated in the Sales Tax Act. (7-1-21)

01. **Substantial Underpayment.** For purposes of enforcing the substantial underpayment penalty provided by Section 63-3046(d), Idaho Code, the term taxable year, is for purposes of the Sales Tax Act, the twelve (12) month calendar period for which an annual reconciliation is required. The return, for purposes of such taxable year, are the returns required to be filed under Rule 105 of these rules. The taxpayer’s entire calendar year or fiscal tax year is any fraction of a twelve (12) month period occurring prior to filing a final report. (7-1-21)

02. **Repeated or Intentional Invalid Exemption Claims.** A buyer who repeatedly or intentionally claims exemption from tax on purchases that are not exempt and has not reported and paid use tax on the purchases, owes the tax plus the interest prescribed in Rule 122 of these rules and may also be assessed a penalty of five percent (5%) of the purchase price of the goods or services, or two hundred dollars ($200), whichever is greater. (7-1-21)

124. **COLLECTION AND ENFORCEMENT (RULE 124).**

Sections 63-3633, 63-3635, Idaho Code

Incorporation of Rules. The rules promulgated by the Commission entitled “Idaho Tax Commission Administration and Enforcement Rules” apply to the administration and enforcement of the Idaho Sales Tax Act. (7-1-21)

125. **DISTRIBUTION OF SALES TAX REVENUES (RULE 125).**

Section 63-3638, Idaho Code

Refer to IDAPA 35.01.03, “Property Tax Administrative Rules,” Rule 995 for information on distribution of sales tax revenues to cities, counties and other special purpose taxing districts. (7-1-21)

126. **SALES TAX COLLECTED BY THE STATE LIQUOR DISPENSARY (RULE 126).**

01. **Liquor Subject to Sales Tax.** All sales of liquor which includes alcohol, spirits, beer, and wine as defined in Sections 23-105(g), 23-1303(a), and 23-1001(a), Idaho Code, unless specifically exempt, are taxable. (7-1-21)

02. **Sales for Resale.** In the case of sales to persons licensed under the provisions of Title 23, Chapter 9, Idaho Code, only those purchases for resale by an establishment licensed to sell liquor will be exempt from the tax. If the licensee buys liquor for any purpose other than for resale, the licensee is subject to the use tax. (7-1-21)

03. **Reporting.** The superintendent of the State Liquor Dispensary will forward monthly to the Commission a report of all sales tax collected for the preceding month. All sales tax collected by the superintendent of the State Liquor Dispensary and by contract private liquor stores, when the product is supplied by the State Liquor Dispensary, will be credited directly to the liquor account, and not become a part of the sales tax account. (7-1-21)

127. **FREE DISTRIBUTION NEWSPAPERS (RULE 127).**

Sections 63-3622, 63-3622T, Idaho Code

01. **Newspaper Format.** The term “newspaper format” means a publication bearing a title, issued regularly at stated intervals of at least twelve (12) times a year, and formed of printed paper sheets without binding. Catalogs, advertising fliers, travel brochures, employee newsletters, theater programs, telephone directories, restaurant guides, posters, and similar publications are not publications in newspaper format. (7-1-21)

02. **Purchase or Use of Tangible Personal Property.** The purchase or use of tangible personal property used to produce newspapers distributed to the public free of charge is exempt from sales or use taxes if the requirements of Section 63-3622T, Idaho Code are met. (7-1-21)
03. **Qualifying for Exemption.** To qualify for the exemption at least ten percent (10%) of the total newspaper, computed on an average annual column inch basis, need to be devoted to the publication of non-income producing informative material. Advertisements promoting the free distribution newspaper itself do not qualify as non-income producing informative material. Neither do logos, column headings, mastheads, borders, etc. (7-1-21)

128. **CERTIFICATES FOR RESALE AND OTHER EXEMPTION CLAIMS (RULE 128).**
Sections 63-3612, 63-3622, Idaho Code

01. **In General.** This rule applies to proper documentation for exempt purchases of tangible personal property for resale and all other exemption claims for taxable transactions enumerated in Section 63-3612, Idaho Code. All forms approved by this rule may be reproduced. (7-1-21)

02. **Burden of Proof.** All sales made within Idaho are presumed to be taxable unless the seller obtains from the buyer a properly executed resale or exemption certificate. If the seller does not have an exemption certificate on file it will have the burden of proving that a sale is not taxable. The seller may overcome the presumption by establishing the facts giving rise to the exemption. If the seller obtains a valid certificate from the buyer, the seller need not collect sales or use taxes unless the sale of the tangible personal property or the transaction in question is taxable to the buyer as a matter of law in the particular instance claimed on the certificate. (7-1-21)

03. **Description and Proper Execution of Approved Forms.** In order to be valid, all forms are to be legible and include a date, the buyer’s name, signature, and address. If the buyer has a federally issued Employer Identification Number (EIN), the buyer will include that EIN on the form. If the buyer does not have an EIN, the buyer will provide the buyer's driver's license number and the state of issue. The seller’s name and address are to be completed on the form when requested. The buyer will comply with any additional requirements provided in these rules. (7-1-21)

04. **Form ST-101, Sales Tax Resale or Exemption Certificate -- Buying for Resale.** To claim a resale exemption, Form ST-101, or a Uniform Sales and Use Tax Certificate -- Multi-jurisdiction, is completed. The resale certificates approved by this rule may only be taken from a buyer described in Subsection 128.04.b. The reason for the claimed exemption is included on the form as well as the primary nature of business and the type of products sold, leased or rented by the buyer. An Idaho registered retailer includes its Idaho seller’s permit number. A buyer need not identify every type of product it sells but indicates the general character of the property it sells, rents or leases. (7-1-21)

a. Information on the resale certificate. The resale certificate bears the name and address of the buyer, the name and address of the seller, is signed and dated by the buyer or his agent, indicates the Idaho seller’s permit number issued to the buyer, or that the buyer is an out-of-state retailer, and indicates the general character of the tangible personal property sold by the buyer in the regular course of business. By executing the resale certificate, the buyer is certifying that the specific property is being purchased for resale. (7-1-21)

b. **Qualified Buyers.** The resale exemption may be claimed by the following buyers when buying goods for resale:

   i. A retailer or wholesaler doing business in Idaho who holds a current and valid Idaho seller’s permit number. (7-1-21)

   ii. A wholesaler who makes no retail sales and who is not required to hold an Idaho seller’s permit number. (7-1-21)

   iii. An out-of-state retailer who makes not more than two (2) sales in Idaho in any twelve (12) month period and is not required to hold an Idaho seller’s permit number. (7-1-21)

   c. **Seller's Responsibility.** A seller is not liable for the collection of sales tax on items sold to a customer from whom the seller has obtained a properly executed Sales Tax Resale and Exemption Certificate, Form ST-101, if the customer intends to resell the items in the regular course of business. The seller has no duty or obligation to collect sales or use taxes in regard to any sales transaction so documented unless the sale fits into the narrow classification of sales that can be considered to be taxable as a matter of law in the particular instance claimed.
on the resale certificate. If the particular item being purchased for resale does not commonly match the description of the general character of the tangible personal property as identified on the resale certificate, then it is presumed that the sale is taxable as a matter of law; however, if the seller questions the buyer and the buyer provides a new certificate specifically identifying the property in question as being purchased for resale, then the seller can accept the certificate and is relieved of any further responsibility. (7-1-21)

d. Example. A grocery store that in addition to groceries sells miscellaneous items such as cosmetics, magazines, and school supplies. The store would provide its Idaho seller’s permit number and describe the primary nature of its business as selling groceries. It could buy cosmetics, magazines, and school supplies for resale and it does not need to list those items on the resale certificate. It only needs to indicate the general character of the property it sells as groceries. (7-1-21)

e. Example. A lawn and garden store occasionally sells barbecue grills as promotional items. Even though it describes lawn and garden items as the types of products it sells, it can buy the grills for resale. (7-1-21)

f. Example. A grocery store describes the primary nature of its business as selling groceries. It then buys an automobile for resale. The grocery store should provide the automobile seller a resale certificate for this transaction and identify its primary nature of its business as grocery and indicate it is specifically buying the automobile for resale. (7-1-21)

g. Example: A restaurant operator completes a Form ST-101 for his supplier. He indicates the general character of the products he sells as food and beverages. The restaurant operator buys sugar and flour from the supplier. The supplier is not liable for the collection of the sales tax as the character of the goods is that which the restaurant operator will resell in the regular course of business. The resale claim made by the restaurant operator is available as a matter of law. (7-1-21)

h. Example: The same restaurant operator later buys dish towels and dish washing soap. The supplier collects the tax. The general character of the goods are not those sold by a restaurant in the normal course of business. The exemption claimed by the restaurant is not available as a matter of law. However, if the restaurant operator identifies cleaning supplies as one of the types of items it resells, either on the original certificate or on a new certificate, then the supplier need not collect the tax. (7-1-21)

i. Example: An appliance store buys appliances and some furniture for resale from a supplier. The appliance store has a resale certificate on file with the supplier. The supplier also sells warehouse equipment as part of its business. The appliance store buys a forklift from the supplier. The supplier should charge tax. However, if the furniture store provides a new certificate indicating it will sell the forklift, the supplier has no duty or obligation to collect the tax. Without the new certificate, an objectively reasonable person would not assume a furniture store sells forklifts. Additionally, the furniture store is only buying one (1) forklift and this fact indicates to the supplier that it is not buying the forklift for resale. (7-1-21)

05. Form ST-101, Sales Tax Resale and Exemption Certificate -- Claiming Exemptions. A Form ST-101 is completed to claim the sales tax exemptions for the following categories. The buyer identifies the exempt category and specific area within the category for the exemption being claimed. If claiming to be production exempt, the taxpayer identifies the type of business and list the product produced. When claiming a contractor exemption, the invoice, purchase order or job number will be identified along with the city and state of the job location, project owner name, and the reason the project is exempt. (7-1-21)

a. Form ST-101 Exemption Categories; (7-1-21)

i. Production Exemptions; (7-1-21)

ii. Exempt Buyers; (7-1-21)

iii. Contractor Exemptions; and (7-1-21)

iv. Other Exempt Goods and Buyers (7-1-21)

b. Information on the exemption certificate. An exemption certificate shows the buyer’s name and
address, business name and address, and be signed and dated by the buyer. The buyer also provides on the certificate
the specific exemption being claimed and, if the production exemption is being claimed, a list of the products the
buyer produces. If the buyer is claiming the contractor exemption, the buyer identifies the invoice, purchase order, or
job number to which the claim applies, the city and state where the job is located, and the name of the project owner.
If the buyer is claiming an exemption as an American Indian, then the buyer provides a valid Tribal I.D. number. By
signing the exemption certificate, the buyer is certifying that the purchase qualifies for an exemption from tax.

(7-1-21)T

c.  Seller's Responsibility. A seller is not liable for the collection of sales tax on items sold to a
customer from whom a properly executed Form ST-101, has been received if the nature of the exemption claimed is
available to the buyer as a matter of law or the nature of the goods purchased qualify for the particular exemption
claimed on the certificate.

(7-1-21)T

d.  Buyer's Responsibility. A buyer has the responsibility to properly complete a certificate and ensure
that tax is charged on all taxable purchases. If the buyer properly provides a certificate and normally makes exempt
purchases, he nevertheless ensures that tax is paid when a taxable purchase is made. If the seller does not charge
the tax on a taxable purchase the buyer either notifies the seller to correct the billing and then pays the sales tax to the
seller, or accrues and remits use tax on the transaction. If the buyer intentionally or repeatedly makes purchases,
claiming they are exempt, when in fact they are not exempt, and the buyer fails to remit use tax, a penalty can be
imposed in addition to the use tax. The penalty amount that may be asserted against the buyer is five percent (5%) of
the sales price or two hundred dollars ($200), whichever is greater. The penalty will be asserted by the Commission as
imposed in addition to the use tax. The penalty amount that may be asserted against the buyer is five percent (5%) of
the purchase price of the loader against the garden supply store. This penalty is in addition to the use tax that
is capitalized on the books of the garden supply store. The Commission could impose a penalty equal to five percent
(5%) of the sales price or two hundred dollars ($200), whichever is greater. The penalty will be asserted by the Commission
as a Notice of Deficiency but the buyer may have the penalty abated when he can establish that there were reasonable
grounds for believing that the purchase was properly exempt from tax. In addition, if the buyer gives a resale or
exemption certificate with the intention of evading payment of the tax, the buyer may be charged with a criminal
misdemeanor and could be punished by a fine not exceeding one thousand dollars ($1,000) or imprisonment for not
more than one (1) year, or by both a fine and imprisonment.

(7-1-21)T

e.  Example: A garden supply store sells, among other things, soil and wood chips in large quantities.
It buys a loader to use in its business to load items into customers' trucks. When buying the loader, the garden supply
store gives a resal e certificate to the seller indicating it intends to resell the loader. However, upon purchase the loader
is capitalized on the books of the garden supply store. The Commission could impose a penalty equal to five percent
(5%) of the purchase price of the loader against the garden supply store. This penalty is in addition to the use tax that
is due. The individual who executed the certificate, or authorized the execution, on behalf of the garden supply store,
if done with intent to evade payment of the tax, could be criminally charged with a misdemeanor.

(7-1-21)T

f.  Example: A restaurant buys food for resale from a supplier. It can properly give a resale certificate
to the supplier. Since it buys food on a continuing basis the supplier keeps a certificate on file. If the restaurant buys
cleaning supplies for its own consumption, the supplier should charge sales tax. If it fails to charge tax, the restaurant
should notify the supplier to correct the billing and collect the sales tax. If the restaurant fails to pay sales or use tax
on more than one purchase, then, under Section 63-3624, Idaho Code, the Commission can assert a use tax and a
penalty against the restaurant. (7-1-21)

g. Example: A farmer completes an ST-101 claiming a production exemption on the purchase of
toothpaste and a case of motor oil. The retailer collects the sales tax on the sale of the toothpaste, but is not liable for
the collection of the sales tax on the sale of the motor oil. The retailer cannot rely on the exemption certificate when
selling the toothpaste because, as a matter of law, the sale of personal hygiene products is excluded from the
production exemption. But the retailer can rely on the exemption certificate when selling goods, such as the motor oil,
which the farmer could put to either a nontaxable use (e.g., oil for a tractor), or a taxable use (e.g., oil for a licensed
pickup truck). (7-1-21)

06. Tax Exemption Statements. In lieu of Form ST-101, retailers, when selling property that the buyer
claims is entitled to the exemptions listed below, may stamp or imprint on the face of their sales invoices, or buyers
may stamp or imprint on the face of their purchase orders a statement containing the language prescribed in this rule.
(7-1-21)
a. A tax exemption statement is to be signed by the buyer and the name, address, and nature of
business of the buyer is shown on the invoice. The signature on the statement is in addition to any other signature
required on the invoice. If no Form ST-101 is on file with the vendor, then each exempt sale is to be documented as
described in this subsection. Any person who signs this certification with the intention of evading payment of tax is
guilty of a misdemeanor. (7-1-21)
b. Production or Logging Exemption. A tax exemption statement can be used when selling property
that the buyer claims is entitled to the production exemption or the logging exemption. The statement can be made by
either:

i. Having the seller stamp or imprint the following statement on the face of their sales invoices; or

ii. Having the seller stamp or imprint the following statement on the face of their purchase orders, a
certificate containing the following language:

I certify that the property which I have here purchased will be used by me directly and primarily in the
process of producing tangible personal property by mining, logging, manufacturing, processing, fabricating, or
farming, or as a repair part for equipment used primarily as described above.

NATURE OF BUSINESS

BUYER’S SIGNATURE

(7-1-21)
c. Matter Used to Produce Heat by Burning. A tax exemption statement can be used when selling
materials that the buyer claims will be used to produce heat by burning as defined in Rule 088 of these rules and for
which no bulk delivery will be made. The statement can be made by either:

i. Having the seller stamp or imprint the following statement on the face of their sales invoices; or

ii. Having the buyer stamp or imprint on the face of their purchase order, a statement that contains the
following language:

I certify that the matter I have purchased will be used in a furnace or similar device for the purpose of water
heating, cooking, or raising or maintaining the temperature in an enclosed space, dwelling, or building.

BUYER’S SIGNATURE
07. **Form ST-102, Use Tax Exemption Certificate -- New Resident.** To claim exemption for vehicles, vessels, and aircraft that were personally owned and acquired while residing in another state and used primarily outside Idaho, new residents and nonresident military individuals need to complete Form ST-102.

08. **Form ST-104G, Sales Tax Exemption Claim for Cash Purchases by Governmental Agencies.** Form ST-104G may be completed only by federal or, Idaho state, and local government agencies making cash purchases and is to be furnished to the vendor at the time of sale. Each transaction requires a newly executed form signed by the agency’s purchasing agent and the employee/buyer. Blank forms will be furnished to government agencies by the Commission upon request. The form cannot be used for lodging and meals bought by a traveling government employee nor for any other reasons enumerated on the form.

09. **Form ST-104HM, Sales Tax Exemption Certificate -- Lodging Accommodations.** Form ST-104HM is used to claim exemption for lodging accommodations paid for using a credit card company who will directly bill to and be paid by federal or, Idaho state, and local government agencies or other qualifying organizations granted exemption under Section 63-3622O, Idaho Code. This form should not be used for credit card payments that are paid by the employee who is later reimbursed by the employer. Each lodging transaction requires a newly executed form signed by the employee/buyer.

10. **Form ST-104IC, Sales Tax Exemption Certificate -- Interstate Commerce Vehicles.** Form ST-104IC is to be completed by a buyer claiming an exemption from tax under Section 63-3622R, Idaho Code, when purchasing a qualifying motor vehicle, trailer, or glider kit.

11. **Form ST-104NR, Sales Tax Exemption Certificate -- Vehicle/Vessel.** Form ST-104NR is completed by each buyer claiming an exemption from tax under Section 63-3622R, Idaho Code, when a nonresident buyer is purchasing a qualifying vehicle, vessel, or trailer.

12. **Form ST-108TR, Occasional Sale Exemption Claim -- Office Trailer and Transport Trailer.** Form ST-108TR is completed by any person claiming the occasional sale exemption on the purchase of a transport trailer or an office trailer. The seller completes the seller’s statement section in order for the buyer to claim the occasional sale exemption.

13. **Form ST-111, Sales Tax Exemption Claim Form -- Grocer.** Retailers of food products who have been granted record reduction authority by the Commission may accept the Form ST-111 from a buyer if the retailer has a properly executed Form ST-101 on file from the buyer. Form ST-111 includes the buyer’s Idaho seller’s permit number (if applicable), the signature of the individual claiming the exemption, and the total purchase price and general nature of the nontaxable products sold.

14. **Form ST-133, Sales Tax Exemption Certificate -- Family or American Indian Sales.**
   a. **Family Sale.** Form ST-133 is completed when claiming an exemption from tax when selling a motor vehicle to a relative under the exemption provided by Section 63-3622K, Idaho Code.
   b. **American Indian Sales.** Form ST-133 is completed when claiming an exemption from tax when selling a vehicle, vessel, or RV to a member of an American Indian tribe within the boundaries of an American Indian reservation.

15. **Form ST-133CATS, Sales Tax Exemption Certificate -- Capital Asset Transfer Affidavit.** Form ST-133CATS is required under the provisions of Section 63-3622K, Idaho Code, when claiming an exemption from tax on the sale of certain vehicles included in the bulk sale of a business’ assets when the new owner will continue to operate the business in a like manner; for qualifying transfers of certain capital assets through sale, lease or rental; and, for the transfer of vehicles to and from a business or between qualifying businesses when there is no change other than owners‘ equity.

16. **Form ST-133GT, Use Tax Exemption Certificate -- Gift Transfer Affidavit.** Form ST-133GT is completed to claim an exemption from tax when a vehicle, vessel, camper, trailer, or recreational vehicle is being
transferred or received as a gift. (7-1-21)T

17. **The Diplomatic Tax Exemption Program.** This United States government program grants immunity from state taxes to diplomats from certain foreign countries. A federal tax exemption card issued by the U.S. Department of State bears a photograph of the holder, a federal tax exemption number, and specific instructions as to the extent of the exemption granted to the diplomat. Additional information is provided in Rule 098 of these rules. (7-1-21)T

18. **Timely Acceptance of Certificates.** A seller may accept a certificate from a buyer prior to the time of sale, at the time of sale, or at any reasonable time after the sale to establish the exemption claim, with the exception of Forms ST-104HM and ST-104G which is to be provided at the time of sale. The sale is presumed to be taxable if no approved certificate is obtained from the buyer in the manner provided or permitted by this rule. (7-1-21)T

   a. Certificates obtained by a seller at a time subsequent to, but not within a reasonable time after, the time of sale will be considered by the Commission in conjunction with all other evidence available to determine whether or not the seller has established that a sales tax transaction is exempt from tax. (7-1-21)T

   b. Example: A retailer sells goods to a customer without charging the sales tax but does not obtain an ST-101 from the customer. Instead, the customer writes his Idaho seller’s permit number on the invoice when he signs for the goods. The retailer is later audited by the Commission and fails in an attempt to obtain a certificate from his customer. The retailer argues that the Idaho seller’s permit number written on the invoice is evidence that the customer purchased the goods for resale. However the number by itself does not establish that the customer bought the goods for resale. The retailer is liable for the tax on the sale. (7-1-21)T

   c. Example: A retailer sells a truck load of hay to a customer, does not charge sales tax on the transaction, and fails to obtain an ST-101. The retailer is later audited by the Commission and is unable to obtain an ST-101 from the customer. The retailer argues that hay is a farm supply and this alone should establish that the sale is exempt. However, the customer may be in a business which does not qualify for the farming production exemption, such as racing or showing horses. Or, the customer may be using the hay for a nonbusiness purpose, such as raising animals for his own consumption. The retailer is liable for the tax on the sale. (7-1-21)T

   d. When a Notice of Deficiency Determination has been issued to a seller by the Commission and the seller petitions for redetermination as provided by IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules,” he may submit certificates obtained from his customers as evidence of exemption claims, but only if the certificates are presented to the Commission within ninety (90) days of the date of the Notice of Deficiency Determination. (7-1-21)T

129. **USE OF A RECREATIONAL FACILITY, INSTRUCTIONAL FEES, AND PARI-MUTUEL BETTING (RULE 129).**

   01. **Use of a Recreational Facility.** Charges or fees to procure the use of a facility, facilities, or building for the purpose of recreation or physical conditioning are taxable. (7-1-21)T

   02. **Dues.** Dues paid to fraternal organizations such as the Elks, Eagles, Masonic Order, or similar organizations are not normally paid primarily for the use of facilities for recreation; in such cases, recreational use of facilities will be incidental. However, any separate, identifiable fees charged by such fraternal organizations, in excess of ordinary membership dues and fees, specifically for the use of recreational or physical conditioning facilities will be taxable including, but not limited to, bowling fees, green fees, swimming fees, court fees, or equipment usage fees. (7-1-21)T

   03. **Instructional Fees.** Separately stated instruction fees, such as for jazzercise, aerobics, dance, and swimming are not taxable. (7-1-21)T

   04. **Pari-Mutuel Betting.** Pari-mutuel betting is not taxable. (7-1-21)T

   05. **Use of Tangible Personal Property.** Charges imposed on persons using swimming pools, skating rinks, golf courses and bowling alleys, etc., often combine the privilege of entering the place with the right to use
tangible personal property. When a uniform price is imposed upon all persons without regard to the intention of the individual to use tangible personal property or the other facilities included, the total charge will be presumed a charge for the use of a recreational facility and taxable. (7-1-21)T

130. PROMOTER SPONSORED EVENTS (RULE 130).
Sections 63-3620, 63-3620C, Idaho Code

01. Promoter's Responsibility. Promoters of promoter sponsored events, as defined in Section 63-3620C, Idaho Code, are to obtain a completed copy of the sales tax declaration section of Form ST-124, Idaho Sales Tax Declaration, from each participant at an event. The promoter obtains pre-numbered Forms ST-124 from the Commission. The promoter is to forward a copy of the completed Form ST-124 to the Commission within ten (10) days following the beginning of the event. The promoter may also maintain a copy in its file. The Commission may request from the promoter a master list of participants to be submitted in addition to the completed Forms ST-124. (7-1-21)T

02. Use of the Form ST-124. The promoter will provide each participant with the Form ST-124. Upon completing the sales tax declaration section of the form, the participant returns it to the promoter. In this section, the participant states that the participant either has a valid seller's permit, will use Form ST-124 as a temporary seller's permit for the event, or will not make any taxable sales at that event. If a participant uses Form ST-124 as a temporary seller's permit, the promoter will be considered the issuer of that permit as an agent of the Commission. The Form ST-124’s sales tax declaration includes the following:

a. The name of the promoter sponsoring the event, the name of the event, the event location, and the dates of the event. (7-1-21)T

b. The name, address, and phone number of participant in the event. (7-1-21)T

c. Either:

i. The participant's valid seller's permit number; or (7-1-21)T

ii. A statement from the participant that the Form ST-124 will be used as a temporary seller’s permit for the event; or (7-1-21)T

iii. A statement from the participant that no taxable retail sales will be made at this event. (7-1-21)T

d. Other information the Commission may deem necessary. (7-1-21)T

03. Participant's Failure to Provide a Form ST-124 to the Promoter. For every participant that does not provide the completed sales tax declaration portion of Form ST-124 to the promoter, the promoter is to provide to the Commission a list of those participants within ten (10) days following the beginning of the event. For each participant listed, the promoter will include the following: the business name, address, phone number, and names of all individuals who own and operate the business. (7-1-21)T

04. Temporary Seller's Permit Issued by Promoter. Before a promoter may claim the income tax credit provided for by Section 63-3620C, Idaho Code, the promoter will forward a completed Form ST-124 to the Commission for each Form ST-124 used as a temporary seller's permit. (7-1-21)T

05. Promoter's Sales Tax Liability. The promoter will not be held responsible for collecting sales tax on sales made by participants other than sales made by the promoter himself. (7-1-21)T

131. -- 132. (RESERVED)

133. RADIO AND TELEVISION BROADCAST EQUIPMENT (RULE 133).
Sections 25-1722, 63-3612, 63-3613, 63-3622, Idaho Code
Sales and purchases of equipment primarily and directly used in the production and broadcasting of radio and television programs are exempt pursuant to Section 63-3622S, Idaho Code. To qualify for the exemption, a business
is required to be primarily devoted to both producing and broadcasting either radio or television programs. Businesses that provide television or radio programs only to paid subscribers are not broadcasters and cannot claim this exemption.

134. SALES OF LIVESTOCK (RULE 134).

01. Exempt Sales of Livestock. Certain sales and purchases of livestock are exempt from sales and use tax. To qualify for the exemption, the livestock are to be sold at a livestock market chartered by the Idaho Department of Agriculture, or an organization expressly exempted from chartering requirements by Section 25-1722, Idaho Code. Those groups expressly exempted from chartering requirements are:

a. Any place or operation where future farmers or 4-H groups, or private fairs conduct sales of livestock.

b. Any place or operation conducted for a dispersal sale of the livestock of a farmer, dairyman, livestock breeder, or feeder who is discontinuing said business and no other livestock is sold or offered for sale.

c. Any place or operation where a breeder or an association of breeders of livestock assemble and offer for sale and sell under their own management any livestock when such breeders assume all responsibility of such sale and the title of livestock sold. This applies to all purebred livestock association sales.

d. All sales of livestock by any generally recognized statewide association or associations composed of persons engaged in the production in Idaho of cattle, calves, sheep, mules, horses, swine, or goats.

e. Sales of livestock by any nonprofit cooperative association, corporation sole or religious, fraternal or benevolent corporation, provided such association or corporation complies with regulations of the director in connection with such sale and such sales are not held in the regular course of business of such corporation or association.

f. Any Idaho auction market operated by an Idaho licensed auctioneer selling not more than twenty (20) animals a week or more than eighty (80) animals a month, provided such an auction market is bonded under the provisions of the Federal Packers and Stockyards Act, of 1921, as amended.

02. Sales of Other Animals Excluded. This exemption is limited to sales of cattle, calves, sheep, mules, horses, swine, or goats. Sales of other animals do not qualify for the exemption regardless of who the seller is and where the sale takes place.

135. SNOWGROOMING AND SNOWMAKING EQUIPMENT (RULE 135).
Sections 63-3612, 63-3613, 63-3622, 63-3622Y, 63-3641, Idaho Code

01. Exemption for Snow Equipment. Section 63-3622Y, Idaho Code, exempts the sale, storage, use or other consumption of tangible personal property that will become a component of an aerial passenger tramway and snowgrooming and snowmaking equipment purchased and used by the owner or operator of a downhill ski area. This exemption also extends to sales and purchases of component parts used to build or repair snowgrooming and snowmaking equipment.

02. Consumable Supplies Not Exempt. This exemption only applies to sales and purchases of equipment that will become a component part of snowmaking or snowgrooming equipment. It does not apply to sales and purchases of fuel, fluids, or other consumable supplies.

136. REBATES PAID TO CERTAIN REAL ESTATE DEVELOPERS (RULE 136).

01. Rebate of Sales Tax. Section 63-3641, Idaho Code, provides for a rebate of sales taxes to be paid to real estate developers who build a qualifying retail complex at a cost of four million dollars ($4,000,000) or more and who expend more than six million dollars ($6,000,000) for the installation of a highway interchange or for improvements on a highway. For the purposes of this rule, the term “qualifying shopping center” is a qualifying retail
complex as specified by Section 63-3641, Idaho Code.

02. **Qualifying Shopping Center Location.** Qualified retailers located in a qualifying shopping center apply for a separate sellers’ permit and report sales separately for that location. For instance, if a retailer has multiple stores in Idaho it files a separate return for any store located in a qualifying shopping center. A retailer who ceases operation in a qualifying shopping center notifies the Commission and cancels the sellers’ permit for that location. (7-1-21)

03. **Confidential Information.** Information about an individual store’s sales or aggregate sales for stores located in a qualifying shopping center is confidential and may not be released to the public. (7-1-21)

04. **Developer Responsibilities.** The developer of a qualifying shopping center provides the names and taxpayer identification numbers of the stores located in the shopping center to the Commission. The developer also notifies the Commission whenever a new retailer begins operation or when a retailer ceases operations in a qualifying shopping center. (7-1-21)

05. **Certifying Expenditures Prior to Rebate Payment.** No rebate will be paid unless the Idaho Department of Transportation or an appropriate political subdivision of the state of Idaho has certified as to the amounts expended and that the expenditures were made for the purpose of constructing approved transportation improvements. (7-1-21)

06. **Disposition of Revenue from a Qualifying Shopping Center.** The Commission will deposit sixty percent (60%) of the sales and use tax reported by qualifying retailers in the demonstration pilot project fund after a developer has:

   a. Identified the location and boundaries of the retail complex;
   
   b. Identified the qualified retailers making retail sales within the complex; and
   
   c. Verified that it has met the expenditure requirements of Subsection 136.01 of this rule. (7-1-21)

137. **IMPOSITION OF THE PREPAID WIRELESS E911 FEE (RULE 137).** Sections 31-4801 - 31-4821, Idaho Code

A prepaid wireless E911 fee is imposed on the sale of prepaid wireless telecommunications service at two and one-half percent (2.5%) of the sales price. The prepaid wireless E911 fee is not imposed on a sale of any device, such as a cell phone, that utilizes the prepaid wireless telecommunications service. However, the sale of the device will be subject to the fee if all the following apply:

01. **Separately State the Cost.** The seller does not separately state the cost of the prepaid wireless telecommunications service from the rest of the transaction, (7-1-21)

02. **Service Sold Exceeds.** The amount of the prepaid wireless telecommunications service sold exceeds ten (10) minutes or five dollars ($5.00), and (7-1-21)

03. **Portion of the Sale.** The seller cannot show from its records the portion of the sale that should properly be applied to the sale of the prepaid wireless telecommunications service. (7-1-21)

138. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 000).
In accordance with Section 63-105 and 63-105A, Idaho Code, the Tax Commission has promulgated rules implementing the provisions of the Idaho Statutes relating to the property tax laws and related statutes, Chapters 1 through 17 and Chapters 28, 30, 35, 36, and 45, Title 63, Idaho Code. Rules relating to taxation of newly constructed improvements are authorized by Section 63-105A, Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.03, “Property Tax Administrative Rules.” (7-1-21)

002. ADMINISTRATIVE APPEALS (RULE 002).
This chapter does not allow administrative relief of certain provisions outlined herein. These rules relate to proceedings pursuant to Sections 63-407 and 63-707, Idaho Code. (7-1-21)

003. INCORPORATION BY REFERENCE (RULE 003).
Unless provided otherwise, any reference in these rules to any document identified in Rule 003 of these rules will constitute the full incorporation into these rules of that document for the purposes of the reference, including any notes and appendices therein. The term “documents” includes codes, standards, or rules adopted by an agency of the state or of the United States or by any nationally recognized organization or association. (7-1-21)

01. Availability of Reference Material. Copies of the documents incorporated by reference into these rules can be electronically accessed as noted in Subsection 003.02 of this rule. (7-1-21)

02. Documents Incorporated by Reference. The following documents are incorporated by reference into these rules: (7-1-21)

e. “Second-Growth Yield, Stand, and Volume Table for the Western White Pine Type” published by the Government Printing Office for the U. S. Department of Agriculture in 1932, Technical Bulletin No. 323. (7-1-21)

004. -- 019. (RESERVED)

020. VALUE OF RECREATIONAL VEHICLES FOR ANNUAL REGISTRATION AND TAXATION OF UNREGISTERED RECREATIONAL VEHICLES (RULE 020).
Section 49-446, Idaho Code

01. Value of Recreational Vehicle For Registration Fees. For the types of recreational vehicles shown in the “Depreciation Schedule for RVs,” beginning with registration fees for calendar year 2004, the County assessors will administer and collect the recreational vehicle (RV) registration fee based on the market value calculated from the following depreciation schedule. For all other types of recreational vehicles, the assessor will use
any available standard industry indices of retail value to determine the market value. If no such indices are available, the assessor will determine market value from sale price or by using appraisal procedures as defined in Rule 217 of these rules.

</table>

To use this depreciation schedule, multiply the sales price or the market value of the RV adjusted by the percentage, if applicable from Subsection 020.02 or 020.03 below, by the appropriate “Percent Good” based on the “Age” and type of RV. Decide the “Age” based on the year of purchase as follows: purchased in the current year equals “Age” zero (0), purchased in the previous year equals “Age” one (1), etc. For example, in year 2004, the “Age” for an RV purchased in 2004 is zero (0), the “Age” for an RV purchased in 2003 is one (1), the “Age” for an RV purchased in 2002 is two (2), the “Age” for an RV purchased in 2001 is three (3), etc. For any RV still in use and purchased fifteen (15) or more years ago, calculate the minimum market value using the lowest depreciation rate for the correct RV type.

**02. Value of Motor Home or Van Conversion For Registration Fees.** The value of any motor home or van conversion used to calculate the registration fee will exclude any chassis value. Beginning with the registration fees for calendar year 2004, the county assessor will use the following schedule of valuation factors to calculate the value of the motor home or van conversion excluding the chassis value.

<table>
<thead>
<tr>
<th>Motor Home/Van Type</th>
<th>Valuation Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mini Motor Home (MMH)</td>
<td>50%</td>
</tr>
<tr>
<td>Motor Home (MH)</td>
<td>60%</td>
</tr>
</tbody>
</table>

(7-1-21)T
Multiply the motor home or van conversion’s total value by the appropriate factor to calculate the value excluding the chassis value. (7-1-21)T

03. Value of Vehicles Designed For Combined RV and Non-RV Uses For Registration Fees. For vehicles designed to have part of the vehicle for RV use and other parts of the vehicle for non-RV uses like transporting horses or other cargo, the value of the RV to be used to calculate the registration fee on or after January 1, 2015 is fifty percent (50%) of the sales price. (7-1-21)T

04. Assessment Notice Mailed or Assessment Canceled. If after August 31, the required annual registration fee has not been paid, a taxpayer’s valuation assessment notice will be mailed to the owner of the recreational vehicle. If the registration fee is paid before the fourth Monday of November, the assessor will cancel the assessment. (7-1-21)T

021. -- 113. (RESERVED)

114. POWERS AND DUTIES - PROPERTY TAX - VALUE INFORMATION (RULE 114). Sections 63-105A and 63-509, Idaho Code. To provide needed value information under Subsection 63-105A(2), Idaho Code, each county assessor will, to the extent practicable, report to the Tax Commission in the same manner and at the same time as the abstract under Section 63-509, Idaho Code, the total market value and exempted value of all property (land and improvements) used for residential purposes and granted the homeowner’s exemption under Section 63-602G, Idaho Code, for the current year’s assessment roll. Additionally, each county assessor will, to the extent practicable, report to the Tax Commission the number of properties and the aggregate total market value of the properties granted the homeowner’s exemption in each group starting with the group of properties valued at less than or equal to twenty-five thousand dollars ($25,000) and including each subsequent group with value increases of twenty-five thousand dollars ($25,000) and ending with the group of properties exceeding the value of more than four hundred fifty thousand dollars ($450,000). (7-1-21)T

01. Requirement to Submit Abstracts. The county auditor must submit to the Tax Commission abstracts for the county, the cities or the portion of each city located in the county, the Boise School District, and any taxing district or unit of government with a restriction providing that such district does not levy property taxes on all otherwise taxable property as described in Rule 808 of these rules. (7-1-21)T

02. Values by Secondary Category. For each of the abstracts required in Subsection 115.01 of this rule, to provide needed value information under Subsection 63-105A(2), Idaho Code, each assessor will report to the county auditor the market value and exempted value of all property by secondary categories, described in Rules 510, 511, and 512 of these rules, in the same manner as the abstracts required for each county under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

03. Additional Abstracts to Accompany County Abstracts. Each county auditor will include city and any required additional abstracts described in Subsection 115.01 of this rule, when submitting to the Tax Commission the abstracts required under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

04. Cross Reference. For the descriptions of secondary categories and clarification of responsibilities relating to listing and reporting values by secondary categories, see Rules 509, 510, 511, and 512 of these rules. For a description of levy criteria requiring submittal of additional abstracts, see Rule 808 of these rules. (7-1-21)T

116. -- 119. (RESERVED)
120. INVESTIGATION OF WRITTEN COMPLAINTS (RULE 120).
Section 63-105A, Idaho Code

01. Definitions. (7-1-21)T
   a. Complaint. Complaint means a signed, written statement submitted to the Tax Commission requesting that this agency investigate any actions by county officials relating to property tax assessment or administration, provided such actions are not related to personnel matter or matters relating to the expenditure of funds. (7-1-21)T
   b. Complainant. Complainant means any individual making a complaint. (7-1-21)T
   c. Investigation. Investigation means observation and close examination of a county official’s application of property tax assessment or administration law and Tax Commission rules. The investigation may require field inspections of property, analysis of public records or the interviewing of witnesses. The investigation will be limited to specific issues identified in the complaint. (7-1-21)T
   d. County official. The term county official means the elected or appointed official whose actions are the subject of the complaint. (7-1-21)T

02. Investigation Procedure. The following procedures apply to an investigation of a complaint. (7-1-21)T
   a. Examination of complaint. The complaint will be examined by the Tax Commission to decide if a formal investigation will be conducted. (7-1-21)T
   b. Notification. Within thirty (30) days of receipt of complaint, the Tax Commission will notify the complainant of the decision regarding initiation of an investigation. If an investigation is initiated, the affected county official(s) will also be notified within this time frame. (7-1-21)T
   c. Delivery of investigation order. Within thirty (30) days of a decision to conduct an investigation, the Tax Commission will deliver to the affected county official(s) a copy of the investigation order naming the investigators and outlining what is to be investigated. (7-1-21)T
   d. Preliminary report. A preliminary report will be prepared by the investigator and legal counsel. The report will include findings and recommendations, and may include information from the official(s). (7-1-21)T
   e. Presentation of preliminary report. The preliminary report will be presented to the complainant and the official(s). The Tax Commission investigators will be present when the report is discussed with the affected county official(s) and the complainant. (7-1-21)T
   f. Comment period. The complainant and the county official(s) will be given a specified time to review and comment on the preliminary report, particularly to correct any errors of fact. (7-1-21)T
   g. Final report. At the end of the review by the complainant and the public official a final report will be prepared by the investigator and legal counsel and submitted to any affected county official(s) with any changes from the preliminary report highlighted. (7-1-21)T

03. County Officials’ Response to Final Report. After the final report is completed, the county official(s) will outline how the investigator’s recommendations will be implemented and provide a written explanation of why any recommendation has been rejected. (7-1-21)T

04. Conclusion of Investigation. The investigator’s final report and the county officials’ written response to the report will conclude the investigation. The conclusion of the investigation does not preclude the Tax Commission from enforcing additional powers and duties as prescribed by law or the complainant and county official(s) from exercising his or her right to appeal property valuations before a County Board of Equalization, the
State Board of Tax Appeals or in District Court. (7-1-21)T

05. Special Rules for Investigation of Complaints About Property Tax Budgets or Levies. When complaints are made about property tax budgets or levies of taxing districts, the results of any investigation will also be reported to the appropriate taxing district, the county prosecuting attorney, and affected county officials. The Tax Commission’s investigatory authority is limited to determining whether a levy rate or property tax budget increase exceeds any statutory maximum, or whether a levy is unauthorized. Any such investigation must be conducted in accordance with the time constraints found in Section 63-809, Idaho Code. (7-1-21)T

121. -- 124. (RESERVED)

125. PROGRAM OF EDUCATION (RULE 125). Section 63-105A(17), Idaho Code

01. Administration. The program of education is the responsibility of the Tax Commission (Commission). The program of education will be administered by the Tax Commission’s education director (education director). (7-1-21)T

02. Appraisal School and Other Courses. An appraisal school will be held at least once each year. The school will offer courses for training the Tax Commission’s employees, county commissioners, and assessment personnel. The Idaho Association of County Assessors Education Committee and the education director will approve the curriculum for the annual appraisal school. Other courses may be developed and offered as approved by the education director. (7-1-21)T

03. Record Keeping and Reporting of Attendance, Grades, and Credit Hours. The education director will maintain student attendance records, records of education hours earned, status of certification, and grades. (7-1-21)T

a. The education director and course instructors will monitor attendance and hours of education to be awarded to each student attending the Tax Commission administered classes. A certificate of completion showing the number of education hours to be awarded will be issued by the education director for the Tax Commission administered classes. In order to receive credit for classes not administered by the Tax Commission, the student will provide a certificate of completion showing the number of education hours completed, a course description, and the dates attended. (7-1-21)T

b. The education director will maintain records to show the number of education hours completed during the current year and the previous two (2) years. By June and November of each year, the education director will send a certification status report to each county assessor or applicable supervisor. This report will list each certified property tax appraiser who is known to be employed by or under contract with said assessor and show the number of hours of education completed during the previous year and current calendar year. (7-1-21)T

c. If a test is given for Tax Commission developed courses, the education director will notify the appropriate county assessor or applicable supervisor of the grade achieved on the test. (7-1-21)T

04. Examination Committee -- Establishment and Procedures. The examination committee will be composed of three (3) assessors, one (1) member of the Idaho Association of Assessment Personnel, and the education director. The education director will appoint the members of the committee. The committee will operate by majority rule. (7-1-21)T

a. Terms. The term of the education director will be continuous. The other members will serve four (4) year terms. The education director will maintain records of dates of appointments. (7-1-21)T

b. If any member fails to serve the full-appointed term, the education director will appoint another member for the remainder of the term. The appointee will be from the same group as the member not completing the term. (7-1-21)T

c. The education director will chair the committee. (7-1-21)T
d. An applicant may appeal any rulings, matters involving examination structure, grading, or grievances with the committee to a review board. No board member may be an assessor of the applicant’s county or a member of the examination committee. The review board will consist of the following four (4) persons: (7-1-21)

i. The president of the Idaho Association of County Assessors; (7-1-21)

ii. A person appointed by the president of the Idaho Association of County Assessors; (7-1-21)

iii. A person appointed by the examination committee; and (7-1-21)

iv. A person appointed by the education director. (7-1-21)

e. The committee will decide which courses meet the requirements for obtaining and maintaining certification and the hours of appraisal education awarded for each course. (7-1-21)

05. Cross Reference. See Rule 126 of these rules for the description of the certified property tax appraiser program and Rule 128 of these rules for the cadastral certification program. (7-1-21)

126. PROPERTY TAX APPRAISER CERTIFICATION PROGRAM (RULE 126).
Section 63-105A, Idaho Code

01. Application for Certification. The Commission (Commission) will prescribe and make available the application for state certification form to each county assessor. (7-1-21)

a. After the applicant has completed the requirements of Subsection 126.02 of this rule, the applicant’s supervisor will submit the completed application form to the education director. The application will list the following: (7-1-21)

i. The name and address of the applicant, (7-1-21)

ii. The applicant’s employer, and (7-1-21)

iii. The courses completed. (7-1-21)

b. The application must be signed and dated by the applicant and by the applicant’s supervisor certifying the completion of the minimum experience requirement. (7-1-21)

c. The education director will make available information regarding the certification process and the application form to students attending the courses referenced in Subsection 126.02 of this rule. (7-1-21)

02. Certification Requirements. An applicant for certification must pass at least two (2) appraisal courses: Tax Commission Course No. 1 or the International Association of Assessing Officers’ (IAAO) Course 101; and IAAO Course No. 102 or IAAO Course 201 or IAAO Course 300 or equivalent courses, and must have a minimum of twelve (12) months experience appraising for tax assessment purposes in Idaho or equivalent property tax appraisal experience approved by the examination committee. These requirements must be completed in the five (5) year period immediately preceding application except when the applicant proves equivalent education and experience. (7-1-21)

a. Upon request to the education director, an applicant may take one (1) required course and challenge the second required course by passing a test. The education director will set the time and place for the test. (7-1-21)

b. Equivalent courses may be approved by the education director and the examination committee. (7-1-21)

c. With the exceptions of the county assessor, the members of the county board of equalization, and the Commissioners, all persons making decisions regarding final values for assessment purposes will be certified
property tax appraisers. (7-1-21)T

03. Maintaining Property Tax Appraisal Certification. (7-1-21)T

a. To maintain certification each appraiser must complete thirty-two (32) hours of continuing education within two (2) years of the certification date. Thereafter, by January 1 of each year, each appraiser will have completed thirty-two (32) hours of continuing education during the previous two (2) years. (7-1-21)T

b. When any certified property tax appraiser fails to meet the continuing education requirements, the examination committee will place this person on six (6) month probation. When any certified property tax appraiser fails to meet the continuing education requirements within this probationary period, the person will forfeit certification or may, on a one (1) time only basis, submit a written petition to the examination committee for a six (6) month extension of probation. This person must submit this petition at least thirty (30) days prior to the expiration date of the first probationary period. (7-1-21)T

c. For recertification, an applicant must apply to the examination committee within five (5) years of the date certification was canceled. An applicant for recertification must satisfactorily complete a written examination approved by the committee. The committee will decide the time and place of the examination. If more than five (5) years have lapsed since certification was canceled, the committee will not grant recertification. After the five (5) year period, an applicant must apply for certification under the same conditions as required for initial certification and a new certification number will be issued. (7-1-21)T

04. Cross Reference. See Section 63-201. (1)(a), Idaho Code for the requirement that only assessors or certified property tax appraisers place value on any assessment roll. See Rule 125 of these rules for the description of the examination committee. (7-1-21)T

127. (RESERVED)

01. Application for Certification. The Tax Commission (Commission) will prescribe and make available the application for state certification form to each county assessor. (7-1-21)T

a. After any applicant has completed the requirements provided in Subsection 128.02 of this rule, the applicant’s supervisor will submit the completed application form to the education director. The application will list the following: (7-1-21)T

i. The name and address of the applicant, (7-1-21)T

ii. The applicant’s employer, and (7-1-21)T

iii. The courses completed. (7-1-21)T

b. The application must be signed and dated by the applicant and by the applicant’s supervisor certifying the completion of the minimum experience requirement. (7-1-21)T

c. The education director will make available information regarding the certification process and the application form to students attending the courses mentioned in Subsection 128.02. (7-1-21)T

02. Certification Requirements. An applicant for certification must have passed the Tax Commission’s Basic Mapping Course and the International Association of Assessing Officers’ (IAAO) Course 600 or IAAO Course 601 or both IAAO Courses 650 and 651, or equivalent courses, and must have a minimum of twelve (12) months experience working as a cadastral specialist in Idaho or equivalent cadastral experience approved by the examination committee. These requirements must be completed in the five (5) year period immediately preceding application except when the applicant proves equivalent education and experience. (7-1-21)T
a. Upon request to the education director, an applicant may take one (1) required course and challenge the second required course by passing a test. The education director will set the time and place for the test. 

b. Equivalent courses may be approved by the education director and by the examination committee.

03. Maintaining Cadastral Specialist Certification.

a. To maintain certification, each cadastral specialist must complete thirty-two (32) hours of continuing education within two (2) years of the certification date. Thereafter, by January 1 of each year, each cadastral specialist will have completed thirty-two (32) hours of continuing education during the previous two (2) years.

b. When any certified cadastral specialist fails to meet the continuing education requirements, the education committee will place this person on six (6) month probation. When any certified cadastral specialist fails to meet the continuing education requirements within this probationary period, the person will forfeit certification or may, on a one (1) time only basis, submit a written petition to the examination committee for a six (6) month extension of probation. This person must submit this petition at least thirty (30) days prior to the expiration date of the first probationary period.

c. For recertification, an applicant must apply to the examination committee within five (5) years of the date certification was canceled. An applicant, for recertification, must satisfactorily complete a written examination approved by the committee. The committee will decide the time and place of the examination. If more than five (5) years have lapsed since certification was canceled, the committee will not grant recertification. After the five (5) year period, an applicant must apply for certification under the same conditions as required for initial certification and a new certification number will be issued.

04. Cross Reference. See Rule 125 of these rules for the description of the examination committee.

129. (RESERVED)

130. DESCRIPTION OF PRIMARY CATEGORIES USED TO TEST FOR EQUALIZATION (RULE 130).
Sections 63-109 and 63-315, Idaho Code. The State Tax Commission establishes the primary categories listed herein for the purpose of testing values in each county and each school district for equalization by the Tax Commission under Section 63-109, Idaho Code.

01. Definitions. The following definitions apply for the purposes of testing for equalization under Section 63-109, Idaho Code, notification under Sections 63-301 and 63-308, Idaho Code, and reporting under Section 63-509, Idaho Code.

a. Primary Category. Primary category means the six (6) categories established and described in Subsections 130.02 through 130.07 of this rule, except for the use of secondary categories described in Subsection 130.07 of this rule and Paragraphs 131.02.b. and 131.05.b. of Rule 131, and used by the Tax Commission to test for equalization under Section 63-109, Idaho Code.

b. Secondary Category. Secondary category means the categories established and described in Rules 510, 511, and 512 of these rules and used by county assessors to list property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and report values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules.

02. Vacant Residential Land Category. Vacant residential land is all vacant land used for residential purposes. The assessor listed this land in secondary categories 12, 15, 18, or 20, as described in Rule 510 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules.
03. **Improved Residential Property Category.** Improved residential property is all improvements used for residential purposes and the land upon which these improvements are located. The assessor listed this property in secondary categories 10 and 31, 46, or 48, 12 and 34, 46, or 48, 15 and 37, 46, or 48, 18 and 40, 20 and 41, 46, or 48, 26, 46, 48, or 50 together with secondary category 47 as appropriate for inclusion when valuing this property, as described in Rules 510 and 511 of these rules, for the purposes of listing property on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

04. **Vacant Commercial or Industrial Land Category.** Vacant commercial or industrial land is all vacant land used for commercial or industrial purposes. The assessor listed this property in secondary categories 11, 13, 14, 16, 17, 21, or 22, as described in Rule 510 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

05. **Improved Commercial or Industrial Property Category.** Improved commercial or industrial property is all improvements used for commercial or industrial purposes and the land upon which these improvements are located. The assessor listed this property in secondary categories 11 and 33, 13 and 35, 14 and 36, 16 and 38, 17 and 39, 21 and 42, 22 and 43, 27, or 51, as described in Rules 510 and 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

06. **Manufactured Homes on Leased Land Category.** Manufactured homes on leased land are all manufactured homes on leased land that the assessor listed in secondary categories 49 or 65 together with secondary category 47 as appropriate for inclusion when valuing this property, as described in Rule 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)T

07. **Agricultural Land Category.** Agricultural land is all land that the assessor listed in secondary categories 1 through 5 as described in Rule 510 of these rules. For agricultural land, secondary, rather than primary, category values are to be tested if significant in any county as defined in Rule 131 of these rules. (7-1-21)T

08. **Conversion Table: Secondary Categories to Primary Categories.**

<table>

(7-1-21)T

09. **Cross Reference.** For clarification of responsibilities relating to listing values on the valuation assessment notices or reporting values on the abstracts, see Rules 114, 115, 509, 510, 511, and 512 of these rules. For descriptions of secondary categories used to list land values on the valuation assessment notices and report land
values on the abstracts, see Rule 510 of these rules, used to list improvement values on the valuation assessment notices and report improvement values on the abstracts, see Rule 511 of these rules, and used to list values for all property other than land or improvements on the valuation assessment notices and report these values on the abstracts, see Rule 512 of these rules.

131. USE OF RATIO STUDY OR OTHER METHOD TO TEST FOR EQUALIZATION IN COUNTIES (RULE 131).
Section 63-109, Idaho Code

01. Equalization Ratio Study - Primary Categories Other than Agricultural Land. Each year the State Tax Commission will conduct a ratio study to assist in the equalization of assessments of property within and among the primary categories, other than agricultural land, established in Rule 130 of these rules. The ratio study will be conducted in accordance with the “Standard on Ratio Studies” and the “Standard on Verification and Adjustment of Sales” both referenced in Rule 006 of these rules. The annual ratio study will test assessments as of January 1 of each year. Except when sales or appraisals must be added or deleted to improve representativeness, sales used will be those occurring within each county between October 1 of the year preceding the year for which assessments are to be tested and September 30 of the year for which assessments are to be tested. Each sale price is to be adjusted for time and compared to market value for assessment purposes for the year for which assessments are to be tested, to compute ratios to be analyzed. The Tax Commission may use sales from extended time periods and may add appraisals when data is lacking. Equalization ratio studies must consist of at least five (5) sales and/or appraisals. The Tax Commission may delete sales when necessary to improve representativeness. Sales should be considered as potentially valid if a financial institution is the seller, provided that:

a. Such sales comprise more than twenty percent (20%) of the sales in any primary category or other category tested for equalization;

b. Such sales are validated to account for changes in property characteristics; and

c. Any properties that have been vandalized are excluded.

d. The study will be completed in February following the end of the period studied. Timing and notification of county officials is described in the “Timing and Notification Table” as provided in Subsection 131.03 of this rule. For non-agricultural categories, the appropriate ratio study statistical measure of level is the median. For agricultural land categories, level of assessment is to be determined as described in Paragraph 131.02.b. of this rule.

02. Equalization Study – Agricultural Land. Each year the Tax Commission will conduct a study to assist in the equalization of assessments of agricultural land. Any such study will analyze agricultural land values throughout each significant secondary agricultural land category using valuation methods found in Section 63-602K, Idaho Code and Rule 617 of these rules.

a. Notice of results and compliance will be provided to county officials according to the timing shown in Subsection 131.03 of this rule.

b. Agricultural land secondary categories considered significant, as defined in Paragraph 131.02.c. of this rule, in any county will be subject to preliminary and follow-up studies of assessment level. Both studies will be based on valuation methodology described in Rule 617 of these rules, the results of which are considered the taxable value for the agricultural land. The preliminary study will be in comparison to prior year’s assessed values. The follow-up studies will test current year’s assessed values and will only be required when preliminary studies indicate level of assessment less than ninety percent (90%) or greater than one hundred ten percent (110%) of market value for assessment purposes. Assessed values for any agricultural land secondary category with an indicated level determined to be within this range and those categories not considered significant in a county will be considered in compliance. Note: For the purpose of this analysis, “level” means the ratio of the median per acre assessed value and the median per acre value for the secondary category determined by the Tax Commission using the valuation methodology found in Rule 617 of these rules.

c. A secondary agricultural land category will be considered significant provided the category
includes at least 10% of the acreage and at least 5% of the value of the primary agricultural land category. (7-1-21)

d. Agricultural land categories may also be subject to follow-up studies if the Tax Commission has received information indicating that county boards of equalization have changed values in such a way as to produce likely non-compliance. Notice for such follow-up studies will comport, to the extent possible, with the procedures found in Subsection 131.06 of this rule. The time table for completing preliminary and follow-up studies and providing notice is shown in the “Timing and Notification Table” found in Subsection 131.03 of this rule. (7-1-21)

03. Timing and Notification Table.

04. Tested for Equalization. Except as provided in Subsection 131.05 of this rule, categories, other than agricultural land to be tested for equalization purposes are the primary categories, described in Subsections 130.02 through 130.06 of these rules, provided adequate samples can be obtained. Agricultural land is to be tested as provided in Subsection 131.02 of this rule. (7-1-21)

05. Follow-Up Ratio Study. When indicated, based on criteria in Paragraph 131.05.a. and 131.05.b. of this rule, a follow-up ratio study will be conducted to test the assessments for January 1 of the year following the year tested by the preliminary agricultural study or annual ratio study and if a ratio study is to be done, it will be based on property sales occurring during the calendar year immediately preceding that date. A follow-up ratio study will be indicated whenever:

a. The annual ratio study, provided in Subsections 131.01 and 131.02 of this rule, discloses that assessments in any primary category as described in Subsections 130.02 through 130.06 of these rules are out of compliance with the equalization standards of this rule; or (7-1-21)

b. The Tax Commission is informed after the county board of equalization adjourns and before the state board of equalization adjourns of the implementation of assessment changes likely to result in a finding that a category found in compliance with equalization standards following the agricultural land study or annual ratio study...
would be found out of compliance with these standards for the current year’s assessments. The follow-up agricultural land study or ratio study authorized under this option will be conducted for the primary category likely to be out of compliance with equalization standards and for any secondary categories comprising the primary category, provided adequate samples can be obtained.

06. Notice of Follow-Up Ratio Study. The Tax Commission will notify the county assessor of the reason for and results of the follow-up ratio study. If the follow-up ratio study is conducted as provided in Paragraph 131.05.b. or 131.02.d. of this rule, the notice will be sent to the county commissioners or board of equalization and county assessor and will describe the assessment changes that resulted in the need for the follow-up ratio study. The notice will indicate whether any adjustments will be considered by the Tax Commission at its next equalization meeting in August based on either the annual, or any follow-up ratio study, and the reason for the proposed adjustments. (7-1-21)T

07. Use of Ratio Study Results. The results of the annual ratio study or any follow-up ratio study will be one (1) source of information upon which the Tax Commission may rely when testing assessments for equalization purposes under Section 63-109, Idaho Code. When the results of any ratio study on any primary, or, if applicable under the provisions of Subsection 131.02 or Paragraph 131.05.b. of this rule, secondary category, described in Subsections 130.02 through 130.09 of these rules, show, with reasonable statistical certainty as defined in Subsection 131.11 of this rule, that the appropriate measure of level of the category studied is less than ninety percent (90%) or greater than one hundred ten percent (110%), the assessment of property within that category may be considered not equalized. When this occurs, the Tax Commission may, at its annual meeting commencing on the second Monday in August, order the county auditor to adjust the value of all property in the category or any portion of the category included in the analysis conducted in an amount the Tax Commission finds necessary to accomplish equalization of assessments of property. Within any primary category, except as provided in Subsections 131.02 or 131.08 of this rule, adjustment will not be considered for any secondary category, described in Rule 510, 511, or 512 of these rules, that does not have at least one (1) observation in the ratio study conducted for that primary category. (7-1-21)T

08. Exception from Requirement for at Least One (1) Observation for Use of Secondary Category in Adjusted Value Determination. Properties identified as secondary categories 10 and 31 rarely sell separately from farms and therefore do not appear in any ratio study. However, the level of assessment typically is similar to that of other rural residential property, including property in secondary categories 12, 15, 34, and 37. For any ratio study where there is an adjustment to be made to the assessed values in the residential designation, such adjustment will be applied to any assessed value in secondary category 10, provided there is at least one observation (sale) of property identified in either secondary category 12 or 15. Such adjustment will also be applied to any assessed value in secondary category 31, provided there is at least one (1) observation (sale) of property identified in either secondary category 34 or 37. (7-1-21)T

09. Use of Alternate Ratio Study. When the follow-up ratio study required by Subsection 131.05 of this rule does not measure the true assessment level, the Tax Commission may consider adjustment based on the most recent annually conducted ratio study or other information relevant to equalization. If the Tax Commission has reason to question the representativeness of the sample used in an annual or follow-up ratio study conducted on any primary category, the Tax Commission may delay implementation of any order to adjust property values until two (2) successive years’ ratio studies fail to produce an appropriate measure of level between ninety percent (90%) and one hundred ten percent (110%). (7-1-21)T

10. Submission of Additional Information. Any party may petition the Tax Commission to consider any information or studies relevant to equalization. The petition will include a description of the information to be presented and the petitioner’s conclusions drawn from the information. (7-1-21)T

11. Reasonable Statistical Certainty. For the purposes of Rule 131 and equalization pursuant to Section 63-109, Idaho Code, “reasonable statistical certainty” that any primary category is not equalized will mean that the appropriate measure of level determined by the ratio study for any category tested for equalization must be provably less than ninety percent (90%) or greater than one hundred ten percent (110%) of market value for assessment purposes. Such a determination will occur if:

a. The appropriate measure of level for the category(ies) being tested is less than ninety percent (90%) or greater than one hundred ten percent (110%) and a ninety percent (90%) two-tailed confidence interval around the
appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%); or (7-1-21)T

b. The appropriate measure of level for the category(ies) being tested has been less than ninety percent (90%) or greater than one hundred ten percent (110%) as determined by the most recent previous two (2) ratio studies on the category(ies) and an eighty percent (80%) two-tailed confidence interval around the appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%). No ratio study completed prior to August 31, 2007 will be considered as one of the most recent previous two (2) ratio studies. (7-1-21)T

12. Cross References. The primary categories are described in Subsections 130.02 through 130.07 of these rules, and the secondary categories are described in Rules 510, 511, and 512 of these rules. (7-1-21)T

132. -- 204. (RESERVED)

205. PERSONAL AND REAL PROPERTY -- DEFINITIONS AND GUIDELINES (RULE 205).
Sections 39-4105, 39-4301, 63-201, 63-302, 63-309, 63-602KK, 63-1703, 63-2801, Idaho Code

01. Real Property. Real property is defined in Section 63-201, Idaho Code. Real property consists of land and improvements. (7-1-21)T

a. Land. Land is real property as well as all rights and privileges thereto belonging or any way appertaining to the land. (7-1-21)T

b. Law and Courts. Real property also consists of all other property which the law defines, or the courts may interpret, declare, and hold to be real property under the letter, spirit, intent, and meaning of the law. (7-1-21)T

c. Improvements. Improvements are buildings, structures, fences, and similar properties that are built upon land. Improvements are real property regardless of whether or not such improvements are owned separately from the ownership of the land upon or to which the same may be erected, affixed, or attached. (7-1-21)T

02. Personal Property. Personal property is defined in Section 63-201, Idaho Code, as everything that is the subject of ownership that is not real property. (7-1-21)T

03. Fixtures. Fixtures are defined in Section 63-201, Idaho Code, as articles that were once moveable personal property items but have become real property as determined by the application of the three factor test. (7-1-21)T

a. The three factor test consists of annexation, adaptation and intent as explained below. (7-1-21)T

i. Annexation. Although once moveable chattels, articles become accessory to and a part of improvements to real property by having been physically or constructively incorporated therein or annexed or affixed thereto in such a manner that removing them would cause material injury or damage to the real property; and (7-1-21)T

ii. Adaptation. The use or purpose of an item is integral to the use of the real property to which it is affixed; and (7-1-21)T

iii. Intent. Items should be considered personal property unless a person would reasonably be considered to intend to make the articles, during their useful life, permanent additions to the real property. The intent depends on an objective standard and what a reasonable person would consider permanent and not the subjective intention of the owner of the property. (7-1-21)T

b. If an item of property satisfies all three factors of the three factor test, the item becomes a fixture and therefore real property. (7-1-21)T

04. Operating Property. Operating Property is defined in Section 63-201, Idaho Code. For any purpose for which the distinction between personal property and real property is relevant or necessary for operating
property, operating property will be characterized as personal or real based upon the criteria stated in this guideline and the rules of the Tax Commission.

206. -- 216. (RESERVED)

217. RULES PERTAINING TO MARKET VALUE DUTY OF COUNTY ASSESSORS (RULE 217).
Section 63-208 Idaho Code

01. Market Value Definition. Market value is the most probable amount of United States dollars or equivalent for which a property would exchange hands between a knowledgeable and willing seller, under no compulsion to sell, and an informed, capable buyer, under no compulsion to buy, with a reasonable time allowed to consummate the sale, substantiated by a reasonable down or full cash payment.

   a. The assessor will value the full market value of the entire fee simple interest of property for taxation. Statutory exemptions will be subtracted.

   b. Personal property will be valued at retail level.

02. Appraisal Approaches. Three (3) approaches to value will be considered on all property. The three (3) approaches to market value are:

   a. The sales comparison approach;

   b. The cost approach; and

   c. The income approach.

03. Appraisal Procedures. Market value for assessment purposes will be determined through procedures, methods, and techniques recommended by nationally recognized appraisal and valuation associations, institutes, and societies and according to guidelines and publications approved by the Tax Commission. The appraisal procedures, methods, and techniques using the income approach to determine the market value for assessment purposes of income producing properties must use market rent, not contract rent.

218. ASSESSOR’S PLAT BOOK (RULE 218).
Sections 50-1304, 63-209, 63-210, 63-212, 63-219, 63-307, Idaho Code

01. Plat Maps. The assessor will prepare plat maps for all land.

   a. Plat map format. Plat maps may be drafted and maintained either in ink, on drafting film, or in a digital format. When such maps are on drafting film, thirty (30) inch by thirty-six (36) inch, 0.003 inch drafting film (minimum thickness) should be used. Smaller plat map sizes are permitted as long as they clearly depict parcel boundaries and dimensions.

   b. Maintenance of plat maps. Plat maps of townships, sections, aliquot parts, subdivisions, and parcel boundaries completed after July 1, 2013 will be updated and maintained in accordance with the “Manual of Surveying Instructions” referenced in Rule 003 of these rules.

   c. Maintenance of parcel numbers and all other desired information. Parcel numbers, and all other desired information, will be maintained in a digital format or drafted with ink. Annotative information will be added as necessary and, if plotted by computer be of appropriate font style and size to be easily readable. The minimum letter height will be one point two five (1.25) millimeters.

02. Section Outlines. Section outlines will be mapped according to:

   a. Technical descriptions of Bureau of Land Management, formerly the General Land Office (GLO), surveys, (Section 31-2709, Idaho Code);
b. Descriptions on recorded surveys (Sections 55-1901 through 55-1911, Idaho Code); (7-1-21)T

c. Recorded corner perpetuation records (Sections 55-1603 through 55-1612, Idaho Code); (7-1-21)T

d. Recorded subdivision plats and assessor’s plats (Sections 50-1301 through 50-1330, 63-209, and 63-210(2) Idaho Code); (7-1-21)T

e. Deeds or contracts with metes and bounds descriptions (Section 31-2709, Idaho Code); (7-1-21)T

f. Highway, railroad, and other engineering quality route surveys; (7-1-21)T

g. Relevant court decisions; and (7-1-21)T

h. Unrecorded data from registered land surveyors (Section 31-2709, Idaho Code). (7-1-21)T

03. Subdivision of Sections. Subdivision of sections will be mapped in accordance with Sections 31-2709 and 63-209, Idaho Code. (7-1-21)T

04. Map Scales. Non-Computer and computer generated maps will be scaled. (7-1-21)T

a. Non-computer generated maps. Non-computer generated maps will be:

i. One (1) township at one (1) inch = fourteen thousand four hundred (14,400) inches (1,200 feet), 1:14,400; (7-1-21)T

ii. Four (4) sections at one (1) inch = four thousand eight hundred (4,800) inches (400 feet), 1:4,800; one (1) section at one (1) inch = twenty four hundred (2400) inches (200 feet), 1:2,400; (7-1-21)T

iii. One (1) quarter section at one (1) inch = twelve hundred (1,200) inches (100 feet), 1:1,200. (7-1-21)T

b. Mapping done from aerial photographs. Mapping done from aerial photographs will have the scale recalculated and shown on the map. (7-1-21)T

c. Plat maps of subdivision, townsite, and metes and bounds parcels. Subdivision, townsite, and metes and bounds parcels will be mapped to include the basis of bearing with monuments and their coordinates relative to the “Idaho Coordinate System” as described by Sections 31-2709, 50-1301, 50-1303, and 50-1304, Idaho Code. (7-1-21)T

d. Drafting of plat titles, subdivision names, and parcel dimensions. Plat titles, subdivision names, and parcel dimensions will be drafted with ink, or generated by computer at an appropriate scale. The minimum letter height will be one point two five (1.25) millimeters. (7-1-21)T

05. Property Ownership Records. Ownership will be shown on the property ownership records. (7-1-21)T

a. Ownership notations. Ownership notations include the reputed owner of the property or note that the owner is unknown, or list other persons with interests of record. Ownership may be ascertained from numerous recorded sources as described in Sections 63-212 and 63-307, Idaho Code. (7-1-21)T

b. Insertion of additional names. Purchasers, agents, guardians, executors, administrators, heirs, and claimants may have their names inserted with the recorded owner’s name as explained in Sections 63-212 and 63-307, Idaho Code. (7-1-21)T

01. Definitions. The following definitions apply to this rule.
   a. Parent parcel. A parcel of land in its original state prior to being segregated. The parcel may be described by a metes and bounds description, lot and block, aliquot part, or government lot.
   b. Child parcel. A parcel of land which has been segregated from the parent parcel. At the time a parent parcel is segregated into one or more parts, the parcels being segregated from the parent parcel will be known as child parcels. The child parcel may be described by a metes and bounds description, a portion of a lot and block, a portion of an aliquot part, or a portion of a government lot.

02. Parcel Number Functions. The uniform parcel numbering system will be used for mapping and record keeping. Each parcel will be assigned a parcel number that will appear on the plat map and on a companion sheet. This assigned parcel number may also be the tax number.

03. Parcel Number Cancellation or Retention Upon Property Transfers. As long as the property boundary does not change, the new owner's name will be assigned to the same parcel number on the companion sheet. A parcel number that exists at the time a property is divided or added to may be canceled and a new number(s) assigned. If the parent parcel number is not canceled, it will be assigned to the child parcel complying with the directions in this rule relating to assigning parcel numbers based on geographic location.

04. Property Split by County Line, Section Line, or Tax Code Area Boundary. Properties contiguous under common ownership but split by county line or tax code area boundary will require separate parcel numbers. Properties contiguous under common ownership but split by section line(s) and entirely located within the same county and tax code area will not require separate parcel numbers and the lowest section number will be included in the parcel number as explained in Paragraph 219.05.c. of this rule.

05. Rural Land Not Subdivided. Assign parcel numbers to rural land that is not subdivided as follows:
   a. Positions 1, 2, and 3 will be the township descriptor minus the “T.”
   b. Positions 4, 5, and 6 will be the range descriptor minus the “R.”
   c. Positions 7 and 8 will be the section number. For properties contiguous under common ownership and split by section line(s) so that the parcel is located in multiple sections, the lowest section number will be used. If the section number is less than ten (10), the section number is in position 8, preceded by a zero (“0”) in position 7.
   d. Positions 9, 10, 11, and 12 will be the quarter section numbers. To assign the quarter section number, begin numbering in the northeast quarter (NE1/4) of the northeast quarter (NE1/4) and proceed counterclockwise. Starting in the NE1/4 of the section the numbers used range from zero to two thousand three hundred ninety nine (0000 to 2399). Continuing counterclockwise, beginning in the NE1/4 of the northwest quarter (NW1/4), the numbers continue from two thousand four hundred to four thousand seven hundred ninety nine (2400 to 4799), thence, starting in the NE1/4 of the southwest quarter (SW1/4), assign numbers from four thousand eight hundred to seven thousand one hundred ninety nine (4800 to 7199), and beginning in the NE1/4 of the southeast quarter (SE1/4), assign quarter section numbers from seven thousand two hundred to nine thousand nine hundred ninety nine (7200 to 9999). The following quarter section breakdown key shows the sequence for assigning quarter section numbers for land not subdivided.

06. Urban Land not Subdivided. Assign parcel numbers to urban land that is not subdivided as follows:
   a. Position 1 will be the city letter. Each city will have a unique letter.
   b. Positions 2, 3, 4, 5, and 6 will each be the number zero (“0”).
   c. Positions 7 and 8 will be the section number. Number these positions as directed in Paragraph
219.05.c. of this rule.

d. Positions 9, 10, 11, and 12 will be the quarter section number. Number these positions as directed in Paragraph 219.05.d. of this rule.

e. When a metes and bounds parcel inside city limits is being numbered, positions 9, 10, 11, and 12 locate the parcel to the nearest quarter section.

f. If a government lot is within a section, or an extended government lot is an extension of a section, the quarter section numbering will be assigned as rural land not subdivided. For a government lot within a quarter section, the assigned number will be a number within the sequence of numbers for the quarter section. For an extended section, the assigned number will be within the sequence from the extended quarter section.

g. The following parcel number example denotes a parcel in the NE1/4 of section 29 in the city identified by the letter “A”: A00000292163.

07. Subdivided Rural Land. Assign parcel numbers to subdivided rural land as follows:

a. Position 1 will be the number zero (“0”).

b. Positions 2, 3, 4, and 5 will be the subdivision number. The subdivision number will not contain alphabetic characters. Each subdivision, whether the original townsite or new subdivision, will be assigned a four (4) digit number.

c. Positions 6, 7, and 8 will be the block number.

d. Positions 9, 10, and 11 will be the lot number designated on the subdivision plat or an assigned number if characters on the subdivision plat are not acceptable as a parcel number.

e. Position 12 will be the number zero (“0”) if the lot is as originally platted. If a lot has been split once or combined once, then this becomes the letter “A.” If split a second time, the letter becomes a “B,” etceteras. These splits or combinations will be listed on the companion sheet.

f. The following parcel number example denotes a subdivided parcel not in any city, identified by the number zero (“0”), subdivision number 62, block number 200, and lot number 29: 000622000290.

08. Subdivided Urban Land. Assign parcel numbers to subdivided urban land as follows:

a. Position 1 will be the city letter. Each city will have a unique letter.

b. Positions 2, 3, 4, and 5 will be the subdivision number. The subdivision number will not contain alphabetic characters. Each subdivision, whether the original townsite or new subdivision, will be assigned a four (4) digit number.

c. Positions 6, 7, and 8 will be the block number.

d. Positions 9, 10, and 11 will be the lot number designated on the subdivision plat. An assigned subdivision plat number may be used if numbers comply with the parcel numbering system.

e. Position 12 will be the number zero (“0”) if the lot is as originally platted. If a lot has been split once or combined once, then this becomes the letter “A.” If split a second time, the letter becomes a “B,” etceteras. These splits or combinations will be listed on the companion sheet.

f. When one (1) whole lot and part of another adjoining lot are under common ownership, one (1) parcel number may be assigned. That parcel number will be written using the whole lot's number and position 12 will be a letter.
Patented Mines and Patented Mining Claims. Assign parcel numbers to patented mines and mining claims as follows:

a. The number nine ("9") will be in positions 1 and 2.

b. Positions 3 through 8 will denote the township and range, as in the land not subdivided format.

c. Positions 9 through 12 will be a county assigned sequential account number for individual mines.

d. The following parcel number example denotes a parcel that is a patented mine in township 10 North, Range 36 East, with county assigned number 58: 9910N36E0058.

Condominiums. Assign parcel numbers to condominiums as follows:

a. Condominiums in a city will have a letter in position 1 of the parcel number. The letter will be unique for each city. For condominiums not in any city, position 1 is the number zero ("0").

b. Positions 2, 3, 4, and 5 will be the condominium number and will be four numbers. To differentiate between condominiums and subdivisions, numbers 0001 through 8999 are to be used for subdivisions, and numbers 9000 through 9999 for condominiums. Fill positions preceding the number with zeros to occupy all four (4) positions ("0000").

c. Positions 6, 7, and 8 will be the block or building number. Position 6 may be a "C" to differentiate between a typical block or building number and a condominium common area.

d. Positions 9, 10, and 11 will be the lot or unit number designated on the condominium plat or an assigned number. An assigned condominium plat number may be used if numbers comply with the parcel numbering system.

e. Position 12 will be the number zero ("0") if the parcel has not been modified since originally platted. If it has been split once or combined once, then this character becomes an "A." If split a second time, the character becomes a "B," etceteras. These splits or combinations will be listed on the companion sheet.

f. The following parcel number example denotes a parcel that is in the city identified by the letter "A," with condominium number 9062, block or building number 007, lot or unit number 029, and has not been modified since originally platted: A90620070290.
review of financial statements on behalf of the owner or investor.

d. Compliance Fee. “Compliance Fee” is the fees and costs, if any, that may be charged by the Idaho Housing Financing Association (IHFA), or its agent, for review and inspection of the owner’s records, or the physical inspection of the project, as are required by the Regulatory Agreement or federal law.

e. Existing Section 42 Project. An “Existing Section 42 Project” is a Section 42 low-income project for which Housing Tax Credits were entirely distributed before January 1, 2009.

f. Federal Project Based Assistance. “Federal Project Based Assistance” means:

i. Rental assistance of any kind provided by the Department of Housing and Urban Development or other agencies of the United States federal government which allow for rental assistance payments to the owner on behalf of the project and not on behalf of any individual tenant; or

ii. Apartment projects that have federal financing at below market terms at the time when the financing was put in place, which financing is transferable without change in terms and conditions to subsequent transferees; or

iii. Apartment projects that receive financing from the federal Hope VI programs administered under 42 USC section 1437v.

g. Financial Statements. “Financial Statements” are profit and loss statements, or equivalent reports, that include a detailed schedule showing income and expense line items, the project’s rent roll showing the rent charged for each unit, and a copy of the IHFA’s Annual Occupancy Report that is submitted annually by each project’s owner or agent to the IHFA.

h. General Partner Fee. “General Partner Fee” is the portion of cash flow that is paid to the general partner to compensate the general partner for managing the partnership’s operating assets and coordinating the preparation of the required IHFA’s, federal, state, and local tax and other required filings and financial reports.

i. Housing Tax Credits. The “Housing Tax Credits” are the final total federal income tax credits as shown on the first year’s form 8609 and allocated by the IHFA to the project either in an original allocation or a new allocation and reported to the Tax Commission by the IHFA.

j. Tax Credit Regulatory Agreement. The “Tax Credit Regulatory Agreement” means the original agreement, or the extended agreement, between the section 42 project owner and the IHFA.

02. Appraisal Approaches. The cost approach, the sales comparison approach, and the income approach will be considered when appraising section 42 properties. The individual values produced by each approach will be correlated into a single property value.

a. The Cost Approach. The cost approach will be adjusted for any economic obsolescence caused by rent restrictions imposed by the Tax Credit Regulatory Agreement.

b. The Sales Comparison Approach. When available, sales of section 42 low-income properties that are similar and comparable will be used. When non-section 42 comparable sales are used in this approach, the sales must be adjusted for the appropriate property attributes.

c. The Income Approach. The application of the income approach will include the following procedures and provisions:

i. Market rents of section 42 properties and normalized expenses of section 42 properties must be used to determine net income unless the taxpayer fails to provide the Financial Statements in accordance with Subsection 220.03 of this rule. If the Financial Statements are not provided, the assessor may use market rents of non-section 42 properties and normalized expenses of non-section 42 properties to determine net income. If Financial
Statements are not provided, the Amount of Housing Tax Credits will not be added to the capitalized net income.

ii. The Amount of Housing Tax Credits will not be used in the appraisal of Existing Section 42 Projects.

iii. The Amount of Housing Tax Credits will, for the duration of the Tax Credit Regulatory Agreement, be included in the appraisal of section 42 properties that have received or will receive an allocation of Housing Tax Credits after January 1, 2009.

iv. The Amount of Housing Tax Credits, when applicable to the appraisal, will not be included in the net income capitalized to value but will be added to the capitalized net income.

v. The Tax Commission’s determination of capitalization rates derived from sales will not preclude the use by the assessor of other methods for determining the capitalization rate, provided however, such other methods are consistent with Section 63-205A, Idaho Code, and this rule.

03. Financial Statements to be Provided by the Owners. The owners of section 42 properties will, by April 1 of each year, provide to the Tax Commission the prior year’s Financial Statements. Failure to provide the Financial Statements by April 1 will result in the appraisal of the section 42 property as if it were an unrestricted rent, non-section 42 property. The Tax Commission will forward to the assessor all Financial Statements received from the owners of section 42 properties and the information received from the IHFA by April 15. The assessor will use the Financial Statements to develop normalized income and expense information to be used in the appraisal of section 42 properties.

04. Tax Commission to Provide Information on Section 42 Property Sales. The Tax Commission will gather information from sale transactions of section 42 properties and will compute the capitalization rate for each sale. The Tax Commission will, for sales acquired during the immediate prior year, send capitalization rates and all information used to determine these rates to each county assessor by April 15. If information from three (3) or more comparable sale transactions of section 42 properties is sent to the assessors, the assessors will consider these sales’ capitalization rates in their determination of the capitalization rate to be used in appraising the particular section 42 property or group of section 42 properties.

05. Cross Reference. For an explanation of why income tax credits should be allowed in section 42 assessments, see Brandon Bay, Ltd. Partnership v. Payette County, 142 Idaho 681, 132 P.3d 438 (2006).
e. Disincorporate. Disincorporate or any derivatives of the word as used in Section 63-3638, Idaho Code, means completing all legal requirements to end the existence of a city. (7-1-21)T

f. Dissolve. Dissolve or any derivatives of the word as used in Section 63-3638, Idaho Code, means completing all legal requirements to end the existence of a taxing district or RAA. (7-1-21)T

g. Legal Description. Legal description means a narrative that describes by metes and bounds a definite boundary of an area of land that can be mapped on a tax code area map and shall include:

i. Section, township, range and meridian. (7-1-21)T

ii. An initial point, being a government surveyed corner, such as a section corner, quarter corner or mineral survey corner. (7-1-21)T

iii. A true point of beginning, defined by bearings and distances from the initial point, that begins a new city, taxing district, RAA or any alteration thereto. (7-1-21)T

iv. Bearings and distances that continuously define the boundary of any area with a closure accuracy of at least one (1) part in five thousand (5,000). Variations from this closure requirement may be approved by the State Tax Commission if the description is sufficiently certain and accurate to ensure that the property is assigned to the proper tax code area. Such variations may include:

(1) Boundaries which follow mountain ranges, rivers, highways, lakes, canals and other physical features that are clearly delineated on published U.S. Geological Survey quadrangle maps at scale 1:24,000; or (7-1-21)T

(2) References to cardinal directions, government survey distances, and section or aliquot part corners; (7-1-21)T

or

(3) References to recorded subdivision or town site plats, with copies of such plats; or (7-1-21)T

(4) Legislatively established boundaries as defined by reference to Idaho Code sections. (7-1-21)T

v. The legal description to annex to or deannex from an existing city, taxing district, or RAA shall plainly and clearly define the boundary lines of the deannexed or annexed area and include a reference to existing boundaries where contiguous. (7-1-21)T

h. Map Prepared in a Draftsman-like Manner. Map prepared in a draftsman-like manner means an original graphic representation or precise copy matching the accompanying legal description and drafted to scale using standard mechanical drawing instruments or a computer. The map shall include:

i. Section, township, range, and meridian identifications. (7-1-21)T

ii. North arrow, bar scale, and title block. (7-1-21)T

iii. District name and ordinance number or order date. (7-1-21)T

iv. Bearing and distance annotation between boundary points or a legend or table identifying the bearing and distance between each set of boundary points. (7-1-21)T

v. Clearly defined boundary lines of the newly formed city, taxing district, or RAA or of the alteration to an existing one together with reference to the existing boundary where contiguous. (7-1-21)T

vi. Variations from the requirements of Paragraph 225.01h. of this rule for what must be included on the map may be approved by the State Tax Commission if the map is sufficiently certain and accurate to ensure that the property is assigned to the proper tax code area. (7-1-21)T
i. Countywide taxing district. A countywide taxing district is a taxing district having the same boundaries as one (1) or more counties. (7-1-21)T

02. Documentation to Be Filed for Newly Created or Altered Cities, Taxing Districts, or RAAs.

The following documentation shall be filed with the county assessor, county recorder, and the State Tax Commission no later than thirty (30) days following the effective date of any action creating or altering a city, taxing district, or RAA boundary, but no later than January 10 of the following year when any action creating or altering said boundary occurs after December 10. (7-1-21)T

a. A legal description which plainly and clearly defines the boundary of a newly formed city, taxing district, or RAA or the boundary of an alteration to an existing one. (7-1-21)T

b. A copy of a map prepared in a draftsman-like manner or a record of survey as defined by Chapter 19, Title 55, Idaho Code, which matches the legal description. (7-1-21)T
c. A copy of the ordinance or order effecting the formation or alteration. (7-1-21)T
d. For fire districts annexing territory within an existing fire district and/or city, a copy of the written approval from that existing fire district and/or city. (7-1-21)T
e. In cases where newly created taxing district boundaries are countywide a copy of the ordinance or order effecting the formation which clearly states that the newly formed district is to be countywide shall fulfill the requirements of documents to be filed in Paragraphs 225.02.a. through 225.02.c. of this rule. (7-1-21)T

03. Documentation to Be Filed for Disincorporated Cities or Dissolved Taxing Districts, or RAAs. (7-1-21)T

a. No later than thirty (30) days following the effective date of the final action disincorporating a city or dissolving a taxing district or RAA, but no later than January 10 of the following year when the final action occurs after December 10, for the distributions of revenue as provided for in Sections 50-2908, 63-1202, 63-3029B and 63-3638, Idaho Code, the disincorporating or dissolving entity shall file a copy of the ordinance or order causing the disincorporation or dissolution with the county assessor, county recorder and the State Tax Commission. (7-1-21)T

b. Upon receipt of the ordinance or order from a disincorporating city or dissolving taxing district, or RAA, the State Tax Commission shall prepare and send a list of the affected tax code area number(s) to the city, taxing district, or urban renewal agency and to the appropriate assessor(s) and recorder(s) within thirty (30) days except for any ordinance or order received after January 1 when the list shall be sent by the fourth Friday of January. (7-1-21)T
c. After fourteen (14) days from the date of the mailing of the list of the affected tax code area(s), the State Tax Commission shall process the disincorporation or dissolution unless it receives a response from the disincorporating city, or dissolving taxing district, appropriate urban renewal agency, appropriate recorder(s) or appropriate assessor(s) that an error exists in the identification of the tax code area(s). (7-1-21)T
d. For RAAs formed prior to July 1, 2011, within thirty (30) days of the earlier of one (1) year prior to any dissolution date found in the formation ordinance or the date as of which an RAA has been in existence for twenty-three (23) years, the State Tax Commission will notify the urban renewal agency of the date by which the RAA will be considered dissolved. Such notice shall include a statement indicating that the RAA may remain in existence if necessary to pay off existing bonded indebtedness, provided that, within thirty (30) days of receipt of this notice, the urban renewal agency notifies the State Tax Commission of such bonded indebtedness. Failure to provide notice of the dissolution date by the State Tax Commission to the urban renewal agency does not negate the statutory requirement for the urban renewal agency to dissolve. (7-1-21)T
e. For RAAs formed beginning July 1, 2011, the notification procedures in Paragraph 225.03.d. of this rule shall be initiated within thirty (30) days of the earlier of one (1) year prior to any dissolution date found in the formation ordinance or the date as of which an RAA has been in existence for twenty (20) years. (7-1-21)T
04. **Digital Map Information.** Digital map information in a format usable by the State Tax Commission may be submitted in addition to or as a substitute for any cloth, film, or paper copy maps. Such information shall be accompanied by metadata that clearly defines map projection, datum and attributes. (7-1-21)

05. **Deadline for Completion.** December 31 of the current year shall be the deadline for completing any action that creates, alters, or dissolves any taxing district or RAA or creates, alters or disincorporates any city requiring a revision of the State Tax Commission’s tax code area maps for the following year, unless the law provides otherwise. (7-1-21)

06. **Approval of Property Tax Levy or Revenue Allocation.** For the purpose of levying property taxes or receiving revenue allocations no newly formed or altered city, taxing district, or RAA shall be considered formed or altered by the State Tax Commission if it:

   a. Fails to provide the correct documentation plainly and clearly designating the boundaries of a newly formed city, taxing district, or RAA or of an alteration to an existing one; or
   
   b. Fails to provide the correct documentation in sufficient time for the State Tax Commission to comply with Rule 404 of these rules; or
   
   c. Has boundaries which overlap with like cities, taxing districts or RAAs.
   
   d. Has had one (1) previous annexation on or after July 1, 2011 and is requesting to annex additional area. In this case, the annexation request will be denied, and the area of the RAA established prior to the new annexation will be considered to comprise the entire RAA. (7-1-21)

07. **Notification.** Notification required pursuant to Section 63-215, Idaho Code, will be sent to affected taxing districts, urban renewal agencies, and to any auditor(s) and assessor(s) of the involved county(ies). (7-1-21)

08. **One Uniform System.** The State Tax Commission will prepare one (1) uniform system of tax code area numbers and maps which shall be used by each county for property tax purposes. (7-1-21)

09. **Tax Code Areas.** The State Tax Commission shall create a separate, unique number for each tax code area. If any area annexed to an existing RAA includes a taxing district with any fund levying prior to January 1, 2008, and continuing to levy but which is not to be used to generate funds to be distributed to an urban renewal agency, the boundaries of the area added to the existing RAA shall constitute a separate tax code area. Only the State Tax Commission shall initiate or change a tax code area number. (7-1-21)

10. **Furnished By The State Tax Commission.** (7-1-21)

   a. Annually, the State Tax Commission will post the following documents on the Commission’s website:

   i. Updated tax code area maps:
   
   ii. Updated taxing district maps;
   
   iii. Updated urban renewal revenue allocation area maps; and
   
   iv. Documentation of changes related to the above maps.

   b. This information is available to all parties. Upon specific request, the State Tax Commission will furnish without charge, one (1) hardcopy set of the above documents to each appropriate assessor, recorder, treasurer, and entity with operating property assessed by the State Tax Commission. There shall be a charge for all other hardcopy maps. (7-1-21)

226. -- 229. **(RESERVED)**
230. EXTENSIONS OF STATUTORY DEADLINES FOR DISASTER RELIEF (RULE 230).
Section 63-220, Idaho Code

01. Application by County Officials. A county official who, because of any extension of time authorized by Section 63-220, Idaho Code, is unable to comply with a statutory deadline imposed in Title 63, Idaho Code, may apply to the Tax Commission for a reasonable delay, not to exceed sixty (60) days, of any such act. (7-1-21)

02. Contents of Application. The application will be submitted prior to the statutory deadline in regard to which the approval of delay is sought and will include:

   a. A description of the nature of the relief granted, or expected to be granted, to taxpayers pursuant to Section 63-220(1), Idaho Code, by the Board of County Commissioners; and (7-1-21)

   b. Identification of any statutory deadline in regard to which the delay is sought; and (7-1-21)

   c. The date by which the official making the application expects to accomplish the action in regard to which the delay is sought; and (7-1-21)

   d. A request that the Tax Commission approve the delay sought. (7-1-21)

03. Procedure. Within five (5) working days of receipt of the request the Tax Commission will respond in writing to the official requesting the delay. The Tax Commission will approve any request for extension that complies with Subsections 230.01 and 230.02 of this rule. (7-1-21)

231. -- 303. (RESERVED)

304. MANUFACTURED HOME DESIGNATED AS REAL PROPERTY (RULE 304).
Sections 63-304, 63-305, Idaho Code

01. Statement of Intent to Declare (SID). To declare a manufactured home real property, the homeowner will complete a “Statement of Intent to Declare,” SID form, as prescribed by the Tax Commission. (7-1-21)

   a. All information and signatures requested on the form will be provided prior to recordation. (7-1-21)

   b. The homeowner will record the completed form. (7-1-21)

   c. The homeowner will provide the assessor a copy of the recorded SID form and the title or Manufacturer’s Statement of Origin (MSO). If proof of ownership is being provided through the MSO, the buyer’s purchase agreement will be accepted by the assessor pending receipt of the MSO. For the purpose of this rule, the Manufacturer’s Statement of Origin and Manufacturer’s Certificate of Origin are synonymous. (7-1-21)

   d. For new manufactured homes, the assessor will verify that sales or use tax has been collected or will collect such tax. Any sales or use tax collected by the assessor will be remitted to the Tax Commission. (7-1-21)

   e. The assessor will forward a copy of the SID form and the title or MSO to the Idaho Transportation Department. The Idaho Transportation Department will cancel the title. (7-1-21)

02. Reversal of Declaration of Manufactured Home as Real Property. To provide for the reversal of the declaration of the manufactured home as real property, the homeowner will complete the “Reversal of Declaration of Manufactured Home as Real Property” form as prescribed by the Tax Commission. The homeowner will submit this completed form to the assessor within the required time period. (7-1-21)
a. The homeowner will also submit to the assessor a title report with the appropriate signatures of consent attached and will make application for a title to the manufactured home. (7-1-21)

b. The assessor will transmit to the Idaho Transportation Department a copy of the completed reversal form, title report with appropriate signatures of consent, and the application for title to the manufactured home. (7-1-21)

03. **Definition of Permanently Affixed.** In the year any manufactured home is to be declared to be real property, permanently affixed means complying with the Idaho Manufactured Home Installation Standard as adopted by IDAPA 07.03.12, “Rules Governing Manufactured Home Installations,” Section 004. (7-1-21)

04. **Status of Manufactured Housing Previously Declared Real.** All manufactured housing upon which a “non-revocable option to declare the mobile home as real property” or SID was correctly completed and properly recorded and filed will be treated as real property until such time as a reversal (as provided for in Section 63-305, Idaho Code, and this rule) is correctly completed and properly recorded and filed. This status as real property is based on all criteria existing when said manufactured housing was originally declared real property. This property must be treated as real property and considered “permanently affixed” without any need to be retrofitted to comply with subsequent changes to the requirements for “permanently affixed,” including changes to the Idaho Manufactured Home Installation Standard as adopted by IDAPA 07.03.12, “Rules Governing Manufactured Home Installations,” Section 004, that occur after the manufactured home was originally declared real property. (7-1-21)

305. -- 311. (RESERVED)

312. **PARTIAL YEAR ASSESSMENT OF REAL AND PERSONAL PROPERTY (RULE 312).** Sections 63-311, 63-602Y, Idaho Code

01. **Quarterly Assessment.** For each partial year assessment of any non-transient personal property, the assessment will comply with the quarterly schedules provided in Sections 63-311 and 63-602Y, Idaho Code. (7-1-21)

02. **Change of Status.** The real or personal property that has a change of status as described in Section 63-602Y, Idaho Code, includes exempt governmental property. Such property of the United States, this state and its instrumentalities, including counties, cities, urban renewal agencies, school districts, and other taxing districts, that is transferred to a non-exempt owner or otherwise ceases to qualify for a property tax exemption is to be assessed as described in Section 63-602Y, Idaho Code. (7-1-21)

03. **Cross Reference.** The partial year assessment of any non-transient personal property will comply with the Idaho Supreme Court decision in Xerox Corporation v. Ada County Assessor, 101 Idaho 138, 609 P.2d 1129 (1980). When assessing all non-transient personal property, each assessor should be aware of the following quotation from this decision: “Where the county undertakes to update its initial (personal property) declarations during the course of the tax year, it cannot increase a taxpayer’s tax burden to reflect the taxpayer’s acquisition of non-exempt property without decreasing that tax burden to reflect the fact that property reported by the taxpayer in an earlier declaration was no longer subject to the county’s ad valorem tax.” (Clarification added.) (7-1-21)

04. **Effective Date.** In the interest of addressing all property transfers made from the public sector to private ownership within the same year (2019) in a consistent manner, as per the proration schedule in Section 63-602Y, Idaho Code, the effective date for “Rule 312” is to be January 1, 2019. (7-1-21)

313. **ASSESSMENT OF TRANSIENT PERSONAL PROPERTY (RULE 313).** Sections 63-213, 63-313, 63-602KK, Idaho Code

01. **Definitions.** The following definitions apply for the assessment of transient personal property. (7-1-21)

a. Home County. Home county is identified in Section 63-313, Idaho Code, as the county selected by the owner of any transient personal property as that county where that transient personal property is usually kept. That county selected by the owner will be a county in the state of Idaho. (7-1-21)
b. Periods of Thirty (30) Days or More. Periods of thirty (30) days or more mean increments of no less than thirty (30) consecutive, uninterrupted days, during which any transient personal property is located in any one (1) county. For any period of less than thirty (30) days, the property owner will report the transient personal property as being in the home county.

(7-1-21)

c. Prorated Assessment. Prorated assessment means the ratio of the number of days, exceeding twenty-nine (29), to three hundred sixty-five (365) days multiplied by the total market value of the transient personal property. For additional clarification, refer to the following examples.

(7-1-21)

i. If located in a second Idaho county (not the home county) for twenty-nine (29) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for the total market value in the home county.

(7-1-21)

ii. If located in a second Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for fifty-nine/three hundred sixty-five (59/365) of the total market value in the second county and for three hundred six/three hundred sixty-five (306/365) of the total market value in the home county.

(7-1-21)

iii. If located in a second Idaho county (not the home county) for thirty-one (31) consecutive, uninterrupted days, in a third Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days, and in the home county for the remainder of the year, the transient personal property should be assessed for thirty-one/three hundred sixty-five (31/365) of the total market value in the second county, fifty-nine/three hundred sixty-five (59/365) of the total market value in the third county, and two hundred seventy-five/three hundred sixty-five (275/365) of the total market value in the home county.

(7-1-21)

iv. If located in a second Idaho county (not the home county) for twenty-nine (29) consecutive, uninterrupted days and later in that same county for twenty-nine (29) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for the total market value in the home county.

(7-1-21)

v. If located in a second Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days, outside the state of Idaho for any thirty-five (35) days and taxed in the other state, and in the home county for the remainder of the year, the transient personal property should be assessed for fifty-nine/three hundred sixty-five (59/365) of the value in the second county and for two hundred seventy-one/three hundred sixty-five (271/365) of the total market value in the home county. However, if the property in this example that was outside the state of Idaho for thirty-five (35) days was not taxed in the other state, then the time should be counted in the home county, and the property therefore should be assessed for three hundred six/three hundred sixty-five (306/365) of the total market value in the home county.

(7-1-21)

d. Transient Personal Property. Transient personal property is defined in Section 63-201, Idaho Code.

(7-1-21)

02. OVERASSESSMENT PROHIBITED. Section 63-213, Idaho Code, prohibits the assessment of any property in any one (1) county for the same period of time that property has been assessed in another county. The sum of the assessments of transient personal property in the home county and each other county where the property has been located will not exceed the market value of the property.

(7-1-21)

03. NON-TAXABLE TRANSIENT PERSONAL PROPERTY.

a. Transient Personal Property in Transit. Under Subsection 63-313(4), Idaho Code, any transient personal property only in transit through the home county or any other county and not remaining in any county for the purpose of use is not subject to property taxation.

(7-1-21)

b. Sold Transient Personal Property on Which Taxes Have Been Paid. Under Subsection 63-313(4), Idaho Code, any transient personal property, which was sold by the owner in the home county and upon which the full current year’s property taxes were paid, is not subject to property taxation for the current year in any other county.
regardless of whether that property is to be used in or only in transit through any other county. (7-1-21)T

c. Qualified Investment Exemption. For information and directions relating to the qualified investment exemption, see Rule 988 of these rules. (7-1-21)T

04. Exempt Transient Personal Property. (7-1-21)T

a. Section 63-602KK, Idaho Code, when applicable provides for exemption of each eligible taxpayer’s personal property to the extent of one hundred thousand dollars ($100,000) within each county. The limit on the exemption will apply to the sum of the taxpayer’s non-transient personal property and transient personal property. Prior to applying the exemption, transient personal property will be allocated among the counties based on the prorated value as provided in Subsection 63-313(2), Idaho Code. (7-1-21)T

b. In cases where the taxpayer has transient personal property located in multiple places within the county, the taxpayer may elect the location of the property to which the exemption will apply. Should the taxpayer not make an election as to where to apply the exemption, the county will have discretion regarding the property to which the exemption will apply. (7-1-21)T

314. COUNTY VALUATION PROGRAM TO BE CARRIED ON BY ASSESSOR (RULE 314). Sections 63-314, 63-316, Idaho Code

01. Definitions. (7-1-21)T

a. Continuing Program of Valuation. “Continuing program of valuation” means the program by which each assessor completes the assessment of all taxable properties each year. (7-1-21)T

b. Field Inspection. The “field inspection” will include an observation of the physical attributes of all structures which significantly contribute to the property value, the visible land amenities, and a notation of any other factors which may influence the market value of any improvements. (7-1-21)T

c. Index. “Index” refers to any annual adjustment or trending factor applied to existing assessed values to reflect current market value. Ratio studies or other market analyses can be used to develop indexes based on property type, location, size, age or other characteristics. (7-1-21)T

d. Prediction of Market Value. As used in Section 63-314, Idaho Code, “prediction of market value” means an estimate of market value. (7-1-21)T

e. Category to be Assessed at Current Market Value. The level of assessment of each category will be considered to be current market value unless there is reasonable statistical certainty that the category is not equalized pursuant to Section 63-109, Idaho Code, and Rule 131. (7-1-21)T

02. Plan for Continuing Program of Valuation. The plan for continuing program of valuation will include: (7-1-21)T

a. General Contents. A parcel count by category, the number of parcels to be appraised each year, maps that show each of the market areas, an analysis of staff requirements, a budget analysis that provides adequate funding for labor costs, capital and supply costs, travel and education costs and the method of program evaluation. (7-1-21)T

b. Market Data Bank. A market data bank including collection, verification and analysis of sales, income and expense data, building cost information, and application of this information to estimate market value. To mail assessment notices by the first Monday in June as required by Section 63-308, Idaho Code, assessors should include income and expense data submitted by property owners by the first Monday in April. Income and expense data for low-income housing properties receiving tax credits under Section 42 of the Internal Revenue Code includes actual rents, the monetary benefit of income tax credits, and expenses. (7-1-21)T

c. Maps. Maps prepared in accordance with Section 63-209, Idaho Code, which identify
characteristics of each geographic area. (7-1-21)

d. Property Record. A property record for each parcel, complete with the assigned secondary category and property characteristics necessary for an estimate of the current market value. Such characteristics may include data elements as described in the International Association of Assessing Officers (IAAO) Standard on Mass Appraisal of Real Property and the IAAO Standard on Digital Cadastral Maps and Parcel Identifiers. Common elements identified in these standards include:

i. Date of most current physical review. (7-1-21)

ii. Significant improvements, buildings and structures. (7-1-21)

iii. Photographs of significant improvements. (7-1-21)

iv. Sketches and/or blue prints of significant improvements. (7-1-21)

v. Location data, such as market area, neighborhood, site amenities and external nuisances. (7-1-21)

vi. Year built, effective age and/or condition of significant improvements. (7-1-21)

vii. Land size or diagram of all taxable parcels within the county. (7-1-21)

e. Date plan is submitted. The plan must be submitted to the Tax Commission on or before the first Monday of February in 2017, and every fifth year thereafter. (7-1-21)

f. Request for extension. As provided in Section 63-314, Idaho Code, a county may request an extension to the current five (5) year county valuation plan.

i. Amended Plan. Any request for an extension must include an amended plan incorporating an inventory of the parcels to be appraised during the period of the approved extension. This inventory will constitute the schedule of required appraisals for the initial year or years of the subsequent five (5) year valuation program. Parcels appraised during the extension will be considered appraised during both the current and subsequent five (5) year plan valuation program periods, maintaining the same five (5) year cycle for all counties. (7-1-21)

ii. Approval of the Extension and Amended Plan. A county will be notified of the Tax Commission's decision regarding the granting of an extension as provided in Section 63-314, Idaho Code, within thirty (30) days of receipt of the written request for the extension when accompanied by an amended plan. (7-1-21)

iii. Approval of the Amended Plan. The Tax Commission's approval of any extension will specify timing and nature of progress reports. (7-1-21)

iv. Voiding of the Extension. The Tax Commission can void an extension unilaterally. (7-1-21)

03. Field Inspections. The methods of observation of the physical attributes of property as described in the International Association of Assessing Officers (IAAO) “Standard on Mass Appraisal of Real Property” referenced in Rule 003 of these rules should be followed to the extent that resources are available. This includes the use of aerial photographs and other digital imaging technology tools, which may be used to supplement, but not replace physical inspections. (7-1-21)

04. Testing for Current Market Value. Assessed values will be tested annually by the Tax Commission as described in Section 63-109, Idaho Code, and Rule 131 of these rules to determine whether the level of assessment reflects “current market value.” (7-1-21)

315. USE OF RATIO STUDY TO EQUALIZE BOISE SCHOOL DISTRICT (RULE 315). Sections 63-315, 33-802(6), Idaho Code

01. Procedures for Boise School District Ratio Studies. The ratio study conducted by the Tax
Commission to comply with the requirements of Section 63-315, Idaho Code, will be conducted in accordance with the “Standard on Ratio Studies” referenced in Rule 003 of these rules. The following specific procedures will be used.

(a) Information on property sales, which meet the requirements of arm’s length and market value sales, will be obtained and assembled into samples representing various primary categories, described in Subsections 130.02 through 130.06 of these rules, and secondary categories, described in Rules 510, 511, and 512 of these rules, within designations defined in Subsection 315.02 of this rule in the Boise School District. Except when sales or appraisals must be added or deleted to improve representativeness, sales used will be those occurring within the Boise School District between October 1 of the year preceding the year for which adjusted market value is to be computed and September 30 of the year for which adjusted market value is to be computed. Each sale price is to be adjusted for time and compared to market value for assessment purposes for the year for which adjusted market value is to be computed, to compute ratios to be analyzed. The Tax Commission may use sales from extended time periods and may add appraisals when data is lacking. The Tax Commission may delete sales when necessary to improve representativeness.

(b) A ratio will be determined for each sale by dividing the market value for assessment purposes of the property by the adjusted sale price or appraised value.

(c) A statistical analysis is to be conducted for the sales and any appraisals in each property designation described in Subsection 315.02 of this rule in the Boise School District and appropriate measures of central tendency, uniformity, reliability, and normality computed.

(d) With the exception of any property designations with extended time frames or added appraisals, if fewer than five (5) sales and appraisals are available, no adjustment to the taxable value of the designation will be made.

(e) If there are five (5) or more sales and appraisals and it is determined with reasonable statistical certainty that the property designation is not already at market value for assessment purposes, an adjusted market value will be computed for the Boise School District by dividing the taxable value for the year for which adjusted market value is to be determined by the appropriate ratio derived from the ratio study. The appropriate ratio to be used will be the weighted mean ratio calculated from the sample for each designation, unless it can be clearly demonstrated that this statistic has been distorted by non-representative ratios. In this case the median may be substituted.

(f) Within the Boise School District, adjusted market value or taxable value for each primary and each applicable secondary category of real, personal and operating property will be summed to produce the total adjusted market value for the Boise School District. The Boise School District taxable value will then be divided by this adjusted market value to produce the overall ratio of assessment in the Boise School District. Statewide totals are to be calculated by compiling county totals.

(g) Urban renewal increment values will not be included in the taxable value or the adjusted market value for the Boise School District. Upon receipt of an urban renewal agency's resolution recommending the adoption of an ordinance for termination of a revenue allocation area by December 31 of a given year, the increment value in the immediate prior year will be included in the taxable value and the adjusted market value for the Boise School District. If the resolution is received prior to the first Monday in April, the actual value for the immediate prior year will be adjusted by adding the increment value. If any ratio study-based adjustments are warranted, as provided in this rule, they applies to the actual value including the increment value. If the resolution is received on or after the first Monday in April, but by September 1, a corrected certification of actual and adjusted values will be provided as soon as practical.

(h) “Reasonable statistical certainty,” that the property designation in question is not at market value for assessment purposes, is required. Such certainty is tested using ninety percent (90%) confidence intervals about the weighted mean or median ratios. If the appropriate confidence interval includes ninety-five percent (95%) or one hundred five percent (105%), there is not “reasonable statistical certainty” that the property designation is not at market value for assessment purposes.
i. Primary and secondary categories subject to adjustment following the procedure outlined in this rule and ratio study designations from which measures of central tendency used for adjustments will be derived are:

<table>
<thead>
<tr>
<th>Secondary Categories</th>
<th>Primary Categories</th>
<th>Ratio Study Designations</th>
</tr>
</thead>
<tbody>

<td>Improved Commercial or Industrial Property</td>
<td>Commercial</td>
</tr>
</tbody>
</table>

For all secondary categories, described in Rule 510, 511, or 512 of these rules but not contained in the list in Paragraph 315.01.i. of this rule, adjusted market value will equal taxable value.

k. “Appraisal” or “appraised value” refers to any Tax Commission provided independently conducted property appraisal.

02. Use of Property Designations. In computing the ratio for the Boise School District, the Tax Commission will designate property as residential or commercial and will assign appropriate primary categories, described in Subsections 130.02 through 130.06 of these rules, and secondary categories, described in Rules 510, 511, and 512 of these rules, to these designations as shown in Paragraph 315.01.i. of this rule. For the Boise School District, adjusted market value will be computed by dividing the appropriate ratio ascertained for each of these designations into the sum of the taxable values for each primary and secondary category assigned to a designation. Except as provided in Subsection 315.06 of this rule, for the taxable value in any secondary category to be included in said sum, at least one (1) observation (sale or appraisal) from that secondary category must be present in the ratio study. If the ratio for any given designation in the Boise School District indicates that the market value for assessment purposes cannot be determined with reasonable statistical certainty to differ from statutorily required market value, the taxable value shown on the Boise School District abstract(s) required pursuant to Subsection 315.04 of this rule for each of the secondary categories included in that designation will be the adjusted market value for said designation for said school district.

03. Assessor to Identify Boise School Districts. Each county assessor will identify for the Tax Commission which sales submitted for the ratio study are located within the Boise School District.

04. Abstracts of Value for the Boise School District. Each applicable county auditor will provide to the Tax Commission abstracts of the taxable value of all property within the portion of the Boise School District in that county. These abstracts will be submitted in the same manner and at the same time as provided for county abstracts of value.

05. Urban Renewal Increment and Exemption to be Subtracted. The taxable value of each primary or secondary category within the Boise School District will not include the value that exceeds the value on the base assessment roll in any urban renewal district pursuant to Chapter 29, Title 50, Idaho Code, and will not include the value of any property exempt from property tax.

06. Exception from Requirement for at Least One Observation for Use of Secondary Category in Adjusted Value Determination. Properties identified as secondary categories 10 and 31 rarely sell separately from farms and therefore do not appear in any ratio study. However, the level of assessment typically is similar to that of other rural residential property, including property in secondary categories 12, 15, 34, and 37. For any ratio study
where there is an adjustment to be made to the assessed values in the residential designation, such adjustment applies to any assessed value in secondary category 10, provided there is at least one (1) observation (sale) of property identified in either secondary category 12 or 15. Such adjustment will also be applied to any assessed value in secondary category 31, provided there is at least one (1) observation (sale) of property identified in either secondary category 34 or 37.

07. Certification of Values. The values required to be certified to the county clerk by the first Monday in April each year under Section 63-315, Idaho Code, will be published on the Tax Commission’s web site or provided in an alternate format on request by the first Monday in April each year to satisfy this required certification.

08. Cross References. The primary categories are described in Subsections 130.02 through 130.06 of these Rules, and the secondary categories are described in Rules 510, 511, and 512 of these rules. The requirement to add increment value following dissolution of an urban renewal revenue allocation area is found in Section 33-802(6), Idaho Code.

316. COMPLIANCE OF CONTINUING VALUATION PROGRAM (RULE 316). Sections 63-314, 63-316, Idaho Code

01. Definitions. (7-1-21)

a. Continuing Appraisal. “Continuing appraisal” means the program by which each assessor completes the assessment of all taxable properties each year. This term includes any appraising or indexing done to accomplish the continuing program of valuation as defined in Rule 314 of these rules.

b. Monitor. “Monitor” means collecting data and compiling statistical reports that show the number and percentage of parcels physically inspected at scheduled intervals within each year of each five (5) year appraisal cycle. The term “monitor” also includes an examination of and summary report of compliance with the most recently completed ratio study under Section 63-109, Idaho Code, and Rule 131 of these rules showing the status of appraisal and indexing to achieve market value.

c. Progress Reports. “Progress reports” mean any informational or statistical report compiled and distributed by the Tax Commission regarding the physical appraisal progress of a county.

d. Appraisal Cycle. “Appraisal cycle” means consecutive five (5) year periods beginning with appraisals completed for the 1998 property roll, as established by the requirement in Section 63-314, Idaho Code.

e. Remediation Plan. “Remediation plan” means, a written statement of the actions that will be taken by the county not in compliance with the requirements of Section 63-314, Idaho Code, to bring the continuing program of valuation into compliance with said Section.

02. Monitoring Procedure. The Tax Commission will monitor compliance with the continuing program of valuation in each county no less than annually. The Tax Commission will monitor the completion of the appraisal of not less than fifteen percent (15%) of all parcels by the end of the first year of the appraisal cycle, not less than thirty-five percent (35%) by the end of the second year, not less than fifty-five percent (55%) by the end of the third year, not less than seventy-five percent (75%) by the end of the fourth year, and not less than one hundred percent (100%) by the end of the fifth year in order that all parcels are appraised not less than every five (5) years. As a result of the monitoring process, the Tax Commission will prepare and distribute progress reports to each county assessor at the end of each monitoring period. Each monitoring period will be conducted in the following manner:

a. The Tax Commission will compile a progress report each July. The Tax Commission will use this progress report in each county to determine compliance with Section 63-314, Idaho Code. This report will consist of an analysis of the county's progress within the current appraisal cycle as well as a summary report of the most recently completed ratio study showing the status of appraisal and indexing to achieve market value. The Tax Commission will notify each county assessor on or before August 15 each year of the current status of the continuing
program of valuation progress and any necessary corrective action. The Tax Commission will notify the board of county commissioners that this report has been provided to the county assessor.

b. Upon receipt of a written request from the county assessor, the Tax Commission will complete and distribute a six (6) month progress report in January. This January report will show the total parcels in the county, the number of parcels that need to be physically inspected for the current year's assessment, a summary report of the most recently completed ratio study, and the number of parcels upon which physical inspections were completed during the preceding six (6) months. The Tax Commission will distribute any January progress report only to inform the county assessor of the status of the continuing program of valuation and will not use the data gathered for this report to determine compliance with Section 63-314, Idaho Code. The Tax Commission will notify the board of county commissioners that this report has been provided to the county assessor.

03. Remediation Plans. If the results of any July report show that a county has not achieved the adequate appraisal of the required percent of the parcels, as stated in Subsection 316.02 of this rule, the assessor and board of county commissioners will be required to submit to the Tax Commission, a remediation plan that demonstrates how compliance will be achieved. The remediation plan will be submitted to the Tax Commission on or before September 15. The Tax Commission will determine whether the plan is acceptable on or before October 1. Once a remediation plan has been approved, the continuing valuation program of the county will be considered in compliance so long as the county meets the terms of the remediation plan. The Tax Commission will monitor progress toward successful completion of any remediation plan at intervals scheduled with the county assessor.

04. Tax Commission To Ensure Corrective Action.

a. During the first four (4) years of any appraisal cycle, if any July progress report shows that a county assessor has not achieved the adequate appraisal of the required percent of parcels, as stated in Subsection 316.02 and implementation of the subsequent remediation plan does not achieve the required percent or the next July progress report shows the number of completed appraisals continues to be less than the required percent, the Tax Commission will begin proceedings to ensure corrective action is taken up to and including taking exclusive and complete control of the continuing program of valuation as provided for in Section 63-316, Idaho Code.

b. If, at the end of any appraisal cycle a county has not achieved adequate appraisal of all parcels, the Tax Commission may begin proceedings to ensure corrective action is taken, up to and including taking exclusive and complete control of the continuing program of valuation as provided for in Section 63-316, Idaho Code. If, at the end of an appraisal cycle, a county has not met the requirements of Section 63-314, Idaho Code, and no extension has been granted pursuant to the provisions of Section 63-316(6), Idaho Code, the county plan for the next appraisal cycle submitted to the Tax Commission must include provision for field inspection of those parcels not field inspected by the end of the expired appraisal cycle and an additional field inspection of the same parcels for the current plan for the continuing program of valuation.

05. Compliance Procedure Examples.

a. Example 1: The following chart outlines what will occur if a county assessor fails to complete the appraisal of the required number of parcels for 2003 and subsequently fails to complete the appraisal of the required number of parcels for 2004.

<table>
<thead>
<tr>
<th>January 2003 (If requested.)</th>

Non-compliance - Enforcement of Section 63-316, Idaho Code (Tax Commission may start proceedings to take exclusive and complete control of the program.)

317. OCCUPANCY TAX ON NEWLY CONSTRUCTED IMPROVEMENTS ON REAL PROPERTY (RULE 317).
Section 63-317, Idaho Code

01. Property Subject to Occupancy Tax. Excluding additions to existing improvements, the occupancy tax shall apply to improvements upon real property, whether under the same or different ownership. The occupancy tax shall also apply to new manufactured housing, as defined in Section 63-317, Idaho Code, excluding additions to existing manufactured housing.

02. Prorated Market Value. The market value for occupancy tax purposes shall be the full market value on January 1 and shall be prorated at least monthly from the occupancy date to the end of the year.
03. Notice of Appraisal. When notifying each owner of the appraisal, the county assessor shall include at a minimum the full market value before any exemptions and before any prorating of the value, the length of time subject to the occupancy tax, and the prorated value.

04. Examples for Calculation of Value Less Homestead Exemption (HO). The following examples show the procedure for the calculation of the taxable value subject to the occupancy tax less the homestead exemption (HO):

   a. Example for prorated market value exceeding maximum amount of the homestead exemption for improvements subject to the occupancy tax beginning July 1, 2016.

<table>
<thead>
<tr>
<th>Full Market Value of Home</th>
<th>- $300,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prorated Market Value for 11 Month Occupancy</td>
<td>- $300,000 x 11/12 = $275,000</td>
</tr>
<tr>
<td>Taxable Value</td>
<td>- $275,000 - $100,000 (HO) = $175,000</td>
</tr>
</tbody>
</table>

   b. Example for prorated market value resulting in less than the maximum amount of the homestead exemption.

<table>
<thead>
<tr>
<th>Full Market Value of Home</th>
<th>- $120,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prorated Market Value for 3 Month Occupancy</td>
<td>- $120,000 x 3/12 = $30,000</td>
</tr>
<tr>
<td>Taxable Value</td>
<td>- $30,000 - $15,000 (HO) = $15,000</td>
</tr>
</tbody>
</table>

05. Market Value. The market value for occupancy tax purposes shall be entered on an occupancy tax valuation roll. Occupancy tax valuation shall not be included in the assessed value of any taxing district, but occupancy tax must be declared in the certified budget.

06. Allocation to Urban Renewal Agencies. Occupancy tax revenue shall be distributed to urban renewal agencies in the same manner as property taxes, except as provided in Paragraphs 317.06.a. and 06.b. of this rule.

   a. The portion of the occupancy tax raised for funds specified in Section 50-2908, Idaho Code, and Rule 804 of these rules must be distributed to the taxing districts levying property taxes for those funds and, therefore, must not be distributed to the urban renewal agency.

   b. For parcels within a newly formed revenue allocation area or within an area newly annexed to an existing revenue allocation area, occupancy tax for the tax year during which the formation or annexation took effect is not distributed to the urban renewal agency.

07. Property Qualifying for the Homestead Exemption on Occupancy Value. When property is subject to occupancy tax, only the improvements shall be eligible for the homestead exemption found in Section 63-602G, Idaho Code.

318. -- 403. (RESERVED)

404. OPERATOR’S STATEMENT -- CONTENTS (RULE 404).
Sections 63-401, 63-404, Idaho Code

01. Operator’s Statement. In the operator’s statement, the number of miles of railroad track, electrical
and telephone wire, pipeline, etc., must be reported to the hundredth mile in decimal form (0.00) in each taxing
district or taxing authority and must be reported by the uniform tax code area method. (7-1-21)

02. Tax Code Area Maps. By March 1 of each year, the Tax Commission will furnish to all entities
having operating property within the state of Idaho, except private railcar fleets, a list of all changes in tax code area
boundary lines. In case the Tax Commission receives corrections to any tax code area boundaries, these changes must
be furnished by March 15. Every day that the tax code area map deadline is extended beyond March 1 allows for an
automatic extension in the filing requirement, equal to the delay, for the portion of the operator’s statement that
includes taxing district or taxing authority specific information that is to be reported by tax code area as required in
Section 404.01 of this rule. All other information, excluding the mileage as required in Sections 404.01 and 404.03 of
this rule will still be required by April 30 as required in Section 404.06 of this rule. The reporting entity will review
the list of changes to identify any tax code areas, within which any of the entity’s operating property is located. The
reporting entity will report, under Subsection 404.01 of this rule based on these identified tax code areas. The Tax
Commission will provide the tax code area maps to the reporting entity as provided for in Rule 225 of these rules.

03. Reporting of Mileage. The following procedures apply for reporting mileage. (7-1-21)

a. Railroad Track Mileage. The railroad track mileage will be reported by the name of the main line
and branch lines with the track mileage for the main line and branch lines reported as Main Track Miles. Track miles
consisting of passing track, yard switching, spurs, sidings, etc., will be reported as Secondary Track Miles. (7-1-21)

b. Electric Power Line Mileage. The electric power companies will report electric power line mileage
by transmission and distribution lines. The transmission lines are the lines at a primary source of supply to change the
voltage or frequency of electricity for the purpose of its more efficient or convenient transmission; lines between a
generating or receiving point and the entrance to a distribution center or wholesale point; and lines whose primary
purpose is to augment, integrate, or tie together the sources of power supply. The distribution lines are the lines
between the primary source of supply and of delivery to customers, which are not includable in transmission lines.
Cooperative electrical associations may include lines designed to accommodate thirty-four thousand five hundred
(34,500) volts or more as transmission or distribution lines. Transmission or distribution lines will be reported
by single linear wire mile. (7-1-21)

c. Telephone Wire Mileage. All telephone wire mileage will be reported on a single linear wire mile
basis, and include any ground wires. (7-1-21)

d. Natural Gas Pipeline and Gathering Line and Water Distribution Pipeline Mileage. Beginning
January 1, 2013, all natural gas and water distribution companies will report pipeline and gathering line miles on a
three (3) inch comparison basis. For example, a company with five (5) miles of six (6) inch pipe will report ten (10)
pipeline miles: five (5) times six (6) divided by three (3) equals ten (10) miles. (7-1-21)

e. Transmission Pipeline Mileage. All transmission pipeline companies will report pipeline miles on a
one-inch (1”) comparison basis. (7-1-21)

04. Situs Property. Situs property includes microwave stations and radio relay towers. This property
also includes facilities, used for and in conjunction with thermal generation of electricity, constructed after January 1,
2004, and located in or within five (5) miles of an incorporated city. The investment in this property will be reported
in the tax code area(s), within which it is located. (7-1-21)

05. Record of Property Ownership. The following procedures apply for maintaining records of
operating property ownership. (7-1-21)

a. STC Form R. A record of each property owned, leased, or otherwise operated by each railroad,
private railcar fleet or public utility will be maintained by the Tax Commission, the appropriate railroad, private
railcar fleet or public utility, and the appropriate county assessor’s office. Each record will be maintained on a form
identified as STC Form R. The Tax Commission will send a copy of each STC Form R to the appropriate company
and the appropriate county assessor’s office. (7-1-21)
b. Identification of Operating Property and Non-operating Property. On the STC Form R, the Tax Commission will identify which property is operating property and which property is non-operating property. (7-1-21)

c. Filing of Property Ownership by Railroad Companies. Each railroad company will file the original railroad right-of-way maps with the Tax Commission. Each railroad will file an STC Form R, only, for property that is acquired, leased, or transferred between operating and non-operating status, or sold during the prior year. (7-1-21)

06. Filing Date for Operator’s Statement. By April 30 each year, each railroad, private railcar fleet, and or public utility operating in Idaho will file information pertinent to the entity’s ownership and operation with the Tax Commission. This information must be reliable for preparing an estimate of market value. For each entity submitting a written request for an extension on or before April 30, the Tax Commission may grant an extension of the filing date until May 31. An automatic extension beyond April 30 may be granted as set out in Subsection 404.02 of this rule. Such automatic extension will apply only to the taxing district, taxing authority, and tax code area specific information contained in the operator’s statement. (7-1-21)

07. Cross Reference. For information relating to the exemption of certain intangible personal property, see Section 63-602L, Idaho Code, and Rule 615 of these rules. For valuation, allocation, and apportionment information, see Section 63-405, Idaho Code, and Rule 405 of these rules. (7-1-21)

405. ASSESSMENT OF OPERATING PROPERTY (RULE 405).
Section 63-405, Idaho Code

01. The Unit Method. The unit method of valuation is preferred for valuing a railroad or public utility when the individual assets function collectively, are operated under one ownership and one management, are interdependent, and the property would be expected to trade in the marketplace as a unit. Under the unit method, the value of the tangible and intangible property is equal to the value of the going concern. The market value of the unit will be referred to as the system value. For interstate property, allocation factors will be used to determine what part of the system value is in Idaho. (7-1-21)

02. Identify the Unit. The unit includes all property used or useful to the operation of the system, property owned, used or leased by the business and the leased fee and leasehold interests. Assess all title and interest in unit property will be assessed to the owner, lessee or operating company. (7-1-21)

03. Appraisal Approaches. The three (3) approaches to value may be considered for all property. (7-1-21)

04. Appraisal Procedures. Market value will be determined through procedures, methods, and techniques accepted by nationally recognized appraisal and valuation organizations. For operating property, the direct capitalization techniques or derivatives thereof will not be used in estimating value. (7-1-21)

05. The Cost Approach. For operating property, the appraiser may consider replacement, reproduction, original or historical cost. (7-1-21)

a. Contributions in aid of construction. Contributions in aid of construction are valued at zero in the cost approach. (7-1-21)

b. Construction work in progress. Construction work in progress may be considered in the cost approach. (7-1-21)

c. Obsolescence. The appraiser will attempt to measure obsolescence, if any exists. If obsolescence is found to exist, it may be considered in the cost approach. (7-1-21)

06. The Income Approach. For operating property, the income approach is based on the premise that value can be represented by the present worth of future benefits derived from the ownership, use or operation of the unit. The appraiser will consider yield capitalization in processing the income approach. (7-1-21)
07. **The Market Approach.** In the market approach for operating property, the appraiser will consider the sales comparison approach or the stock and debt approach.

08. **Reconciliation.** Reconciliation, also called correlation, is an opinion regarding the weight that should be placed on each approach. The appropriate weight to be given each indicator is based on the appraiser’s opinion of the inherent strengths and weaknesses of each approach and the data utilized. The appraisal report will disclose the weight given to the indicators.

09. **Allocation.** Use readily available data from existing records to calculate the factors that are multiplied by the correlated system value to allocate that value to Idaho.

10. **Situs Property Apportionment.** For situs property, as described in Subsection 404.04 of these rules, apportionment is based on physical location meaning the taxable value will not be apportioned based on mileage but only to the tax code area(s) within which said property is situs or physically located.

11. **Cross Reference.** For reporting information, see Section 63-404, Idaho Code, and Rule 404 of these rules. For information relating to the exemption of certain intangible personal property, see Section 63-602L, Idaho Code, and Rule 615 of these rules.

### 406. RULES PERTAINING TO MARKET VALUE OF OPERATING PROPERTY OF RATE REGULATED ELECTRIC UTILITY COMPANIES (RULE 406).

Section 63-105(2), Section 63-205(1), Idaho Code

01. **Valuation of Operating Property of Rate Regulated Electric Utility Companies.** The market value for assessment purposes of operating property of rate regulated electric utility companies will be determined by the Tax Commission using statute, these rules as referenced in Rule 001 of these rules, any other applicable law, and the following:

   a. Depending on the weighting placed on the income approach, as described in Subsection 406.01.d. of this rule, no more than twenty percent (20%) weight will be placed on the cost indicator when utilizing the Historic Cost Less Depreciation (HCLD) method in the system value correlation.

   b. In the income approach, income to be capitalized will be normalized, utilizing the Gross Domestic Product Implicit Price Deflator found in Table 1.1.9 from the United States Department of Commerce, Bureau of Economic Analysis, by using an average of at least the previous four (4) years’ net operating incomes and by adjusting each year’s net operating income for unusual non-recurring items.

   c. In the income approach, a market discount rate will be determined to which a flotation cost component of twenty hundredths of one percent (0.20%) will be added.

   d. A weighting between eighty percent (80%) and one hundred percent (100%) will be placed on the income approach in the system value correlation.

   e. Within the market approach, as prescribed in Rule 405 of these rules, a sales comparison approach may be used if reliable data is available and appropriate comparison adjustments can be made. No weight will be placed on a stock and debt approach in the system value correlation.

   f. For rate regulated electric utility companies, the weightings prescribed in this rule will supersede any weightings in the system correlation prescribed in Subsection 405.08 of this rule.

02. **Accounting For Obsolescence.** Subsection 406.01.a. of this rule will be construed to mean that the use of no more than twenty percent (20%) weight placed on the cost indicator, when utilizing HCLD method to calculate the cost approach, accounts for any and all forms of depreciation, including any and all forms of obsolescence, and the appraiser will not consider any further obsolescence as provided for in Subsection 405.05 of these rules.
407. **HEARING TO REVIEW OPERATING PROPERTY APPRAISALS (RULE 407).**

Section 63-407, Idaho Code

**01. Procedure Governed.** This rule will govern all practice and procedure before the Tax Commission sitting as a Board of Equalization in hearings under Section 63-407, Idaho Code. Hearings are not contested cases under the Idaho Administrative Procedures Act. Hearings are open meetings under the Idaho open meetings law and all written materials are subject to Idaho public records law. The taxpayer may request that the board of equalization go into executive session to discuss confidential materials. (7-1-21)

**02. Liberal Construction.** These rules will be liberally construed to secure just, speedy and economical determination of all issues presented to the Tax Commission. For good cause the Tax Commission may permit deviation from these rules and the taxpayer may request a stipulated finding that would result in an appealable decision in lieu of a hearing before the state board of equalization. (7-1-21)

**03. Communication.** All notices and petitions required to be filed with the Tax Commission must be in writing. Each notice must identify the filing party, be signed by the filing party, be dated and give the filing party’s mailing address and telephone number. The provisions of Section 63-217, Idaho Code, apply to the filing of documents with the Tax Commission. (7-1-21)

**04. Service by Tax Commission.** All notices and orders required to be served by the Tax Commission may be served by mail. Service will be complete when a true copy of the document, properly addressed and stamped, is deposited in the United States mail. (7-1-21)

**05. Notice to County Assessors.** When the calendar of hearings under Section 63-407, Idaho Code, is final, the Tax Commission will send a copy of this calendar to the assessor of each county. (7-1-21)

**06. Parties.** The following are parties to a hearing of the Tax Commission meeting as Board of Equalization.

a. **Petitioner.** A person petitioning for a hearing will be called the petitioner. (7-1-21)

b. **Staff.** The Tax Commission staff may appear as a party at the hearing and may be represented by one (1) or more Deputy Attorneys General assigned to the Tax Commission. (7-1-21)

c. **Legal advisor to the Tax Commission.** When sitting as a Board of Equalization, the Tax Commission may obtain legal advice from a Deputy Attorney General who is not representing the Tax Commission staff. (7-1-21)

**07. Appearances and Practice.** The following apply for appearances and practice in a hearing.

a. **Rights of parties.** At any hearing, both parties may appear, introduce evidence, ask questions through the presiding officer, make arguments, and generally participate in the conduct of the proceeding. (7-1-21)

b. **Taking of appearances.** The presiding officer conducting the hearing will require appearances to be stated and will see that both parties present are identified on the record. (7-1-21)

c. **Representation of taxpayers.** An individual may represent himself or herself or be represented by an attorney. A partnership may be represented by a partner, authorized employee or by an attorney. A corporation may be represented by an officer, authorized employee or by an attorney. (7-1-21)

**08. Pre-Hearing Conferences.** (7-1-21)

a. The Tax Commission may, upon notice to both parties, hold a pre-hearing conference for the following purposes:

i. Formulating or simplifying the issues; (7-1-21)
ii. Obtaining admissions of fact and of documents which will avoid unnecessary proof; (7-1-21)T

iii. Arranging for the exchange of proposed exhibits or prepared expert testimony; (7-1-21)T

iv. Limiting the number of witnesses; (7-1-21)T

v. Setting the hearing procedure, and including allocation of an amount of time for the hearing; and (7-1-21)T

vi. Reviewing other matters to expedite the orderly conduct and disposition of the proceedings. (7-1-21)T

vii. Allowing any continuance. (7-1-21)T

b. Action taken. Any action taken at the conference and any agreement made by the parties concerned may be recorded and the Tax Commission may issue a pre-hearing order which will control the course of subsequent proceedings unless modified. (7-1-21)T

c. Compromise and offers to compromise. Evidence of an offer or agreement to compromise the dispute and the conduct and statements made in compromise negotiations are not admissible at the hearing. (7-1-21)T

09. Hearings. The following apply to the hearings. (7-1-21)T

a. Request for hearing. A request for a hearing will be in writing and filed with the Tax Commission on or before August 1 of the current year. The request will state the factual and legal basis on which the request is based. (7-1-21)T

b. Notice of hearing. The Tax Commission will notify both parties and all counties of the place, date and time of the hearing. (7-1-21)T

c. Submission of documents and other evidence. The taxpayer’s operating statement, applicable yield studies, the staff’s appraisal and the taxpayer’s notice of appeal and request for hearing are deemed a part of the record of the hearing. Other written appraisals, exhibits, statements, arguments and other documents for the Commissioners to consider will be submitted by both parties at least three (3) days in advance of the hearing. Additional information may be presented by either party at the time of their oral presentations, but such additional information should be limited to subject matter and evidence provided at least three days prior to the hearing. Parties will submit ten (10) copies. (7-1-21)T

d. Presiding officer. The Chairman of the Tax Commission will appoint an individual who is not a member of the Tax Commission’s staff to conduct the hearing. In the absence of a conflict of interest or other good cause, this person will normally be the Commissioner overseeing the centrally assessed property section of the Tax Commission or the designee thereof. A Commissioner will not vote on any matters where he has oversight. (7-1-21)T

e. The proceeding. In a non-adversarial proceeding witnesses will present evidence and arguments directly to the Commissioners. The presentation may include written materials including a transcript of the witnesses’ oral statements. Copies of written materials (including copies of visual presentations) will be provided each Commissioner, the Tax Commission’s secretary and the Staff. At the conclusion of a witness’ testimony, Commissioners may pose questions. The party with the burden of proof on the matter to be considered will present first and may make a closing presentation. This closing presentation should be limited to the subject matter and evidence presented during the proceeding. (7-1-21)T

f. Testimony under oath. All testimony to questions of fact to be considered by the Tax Commission in hearings, except matters noticed officially or entered by stipulation, will be under oath. Before testimony is presented each person will swear, or affirm, that the testimony he is about to give will be the truth. Attorneys may
present oral and written legal argument on behalf of clients as part of the presentation by the party they represent.

(7-1-21)T

g. Rules of evidence. No informality in any proceeding or in the manner of taking testimony will invalidate any order or decision made by the Tax Commission. Unless otherwise provided in these rules the Idaho Rules of Evidence will be generally followed but may be modified at the discretion of the Tax Commission to aid in ascertaining the facts. When objection is made to the admissibility of evidence, the evidence may be received subject to later ruling by the Tax Commission. The Tax Commission, at its discretion either with or without objection may limit or exclude inadmissible, incompetent, cumulative or irrelevant evidence. Parties objecting to the introduction of evidence will briefly state the grounds of objection at the time such evidence is offered.

(7-1-21)T

h. Recessing hearing for conference. In any proceeding the presiding officer may, in his discretion, call both parties together for a conference prior to the taking of testimony, or may recess the hearing for a conference. The presiding officer will state on the record the results of the conference.

(7-1-21)T

i. Transcript. An official electronically recorded transcript of the hearing may be taken at the discretion of the Tax Commission when requested by a party. A petitioner desiring the taking of stenographic notes by a qualified court reporter may notify the Tax Commission in writing and will arrange for the hiring of a reporter and bear the expense of the reporter’s fees. If the reporter’s transcript is deemed by the Commission or presiding officer as the official transcript of the hearing, the petitioner will furnish the Commission a transcript free of charge.

(7-1-21)T

j. Transcript copies. A request for a copy of a transcript of proceedings at any hearing must be in writing or on the record. Upon completion of the transcript, the Tax Commission will notify the person requesting a copy of the fee for producing the transcript. Upon receipt of the fee, the Tax Commission will send a copy of the transcript.

(7-1-21)T

408. RE-EXAMINATION OF VALUE -- COMPLAINT BY ASSESSOR (RULE 408).
Section 63-408, Idaho Code

01. Request for Reexamination of Value. Section 63-408, Idaho Code, entitles the assessor (complainant) of any county in which the value of operating property is apportioned, to request that the Tax Commission reexamine the valuation.

(7-1-21)T

02. Information to be Provided by the Tax Commission. After preliminary values are established and sent to the respective taxpayers, the Tax Commission will send to each County Assessor a statement of the value allocated to Idaho for each centrally assessed taxpayer, together with the previous year’s Idaho value for that taxpayer.

(7-1-21)T

03. Complaint. On or before July 15, a complainant may file a complaint under Section 63-408, Idaho Code. A complaint by an assessor to the Tax Commission to examine the valuation and allocation of value of operating property must be in writing and contain clear and concise questions regarding the valuation and allocation in question. The Tax Commission will send a copy of the complaint promptly to the taxpayer.

(7-1-21)T

04. Meeting to Examine Valuation and Allocation. Upon receipt of a complaint under Section 63-408, Idaho Code, the staff of the Tax Commission will schedule a meeting between the staff appraiser(s) who performed the valuation and allocation and the complainant. Notice of this meeting will be sent to the taxpayer in question. At this meeting, the staff appraiser(s) will answer the complainant’s questions to the best of his knowledge. The taxpayer or representative may participate in this meeting.

(7-1-21)T

409. -- 410. (RESERVED)

411. PRIVATE CAR REPORTING BY RAILROAD COMPANIES (RULE 411).
Section 63-411, Idaho Code. The president or other officer of each railroad company whose railroad tracks run through, in or into Idaho shall, by April 15 of each year file a report with the State Tax Commission that includes the following:
01. **Name of Reporting Railroad Company.** Report the name of the railroad company making the report. (7-1-21)

02. **Name of Private Railcar Fleet.** Report the name of each private railcar fleet, defined under Sections 63-201(14) and 63-411, Idaho Code, having traveled on the reporting railroad company’s track. (7-1-21)

03. **Private Railcar Fleet's Address.** Report the business address of each reported private railcar fleet. (7-1-21)

04. **Car Type.** Report the type of cars by identifying symbol. (7-1-21)

05. **Marks.** Report the car marks. (7-1-21)

06. **Miles Traveled.** Report the total number of miles traveled on the reporting railroad’s track, including main line, branches, sidings, spurs, and warehouse or industrial track in Idaho during the year ending December 31 of the preceding year. (7-1-21)

412. (RESERVED)

413. **SPECIAL PROVISIONS FOR PRIVATE RAILCAR FLEETS (RULE 413).**

Section 63-411, Idaho Code

01. **Definitions.** The following terms are defined for the valuation, allocation and apportionment of private railcar fleets. (7-1-21)
   
   a. **Idaho Miles.** The Idaho miles are the total number of miles traveled in Idaho by all cars in the private railcar fleet during the calendar year immediately preceding the current tax year. (7-1-21)
   
   b. **Idaho Taxable Value.** The Idaho taxable value is that portion of the system value that reflects the value of that part of the private railcar fleet located in Idaho during all or part of a tax year. (7-1-21)
   
   c. **System Miles.** The system miles are the total number of miles, both in and out of Idaho, traveled by all cars in the private railcar fleet during the calendar year immediately preceding the current tax year. (7-1-21)
   
   d. **System Value.** The system value is the value of the entire private railcar fleet regardless of the location of its various components. (7-1-21)

02. **Railcar Valuation, Allocation and Apportionment.** For tax years beginning on or after 1998, the Tax Commission will appraise the system value of each private railcar fleet and allocate a portion of the system value to Idaho to obtain the Idaho taxable value as set forth below. The Idaho taxable value will be apportioned to the appropriate counties in Idaho pursuant to section 63-411, Idaho Code. (7-1-21)

03. **Allocation.** System value is allocated using the “miles to miles” method of allocation. (7-1-21)

04. **“Miles to Miles” Method of Allocation.** The Tax Commission will divide Idaho miles by system miles and multiply the quotient by five-tenths (0.5). The product of this calculation will be multiplied by the system value to determine Idaho taxable value. (7-1-21)

414. (RESERVED)

415. **APPORTIONMENT OF RAILCAR FLEET’S ASSESSED VALUES WITHIN THE STATE (RULE 415).**

Section 63-411, Idaho Code

01. **Private Railcar Fleet Apportionment.** Railroad track miles will be used for the apportionment of each private railcar fleet’s assessed value when the value within Idaho equals five hundred thousand dollars ($500,000) or more. The Idaho value of each private railcar fleet will be multiplied by a ratio of this private railcar
fleet’s mileage for each railroad to this private railcar fleet’s total mileage in Idaho and divided by the in service main track mileage of that particular railroad, to obtain a rate per mile. This rate per mile is multiplied by the in service main track mileage in each county and tax code area to calculate the apportioned value. For the purpose of apportioning value by miles traveled, main track includes branch lines, as well as main lines, but does not include industrial spurs, sidings or passing tracks.

02. Determination of Average Tax Rate -- Private Railcar Fleets Under Five Hundred Thousand Dollars Assessed Value. For private railcar fleets having an assessed value of less than five hundred thousand dollars ($500,000), the average tax rate is computed each year by dividing the current taxes for all private railcar fleets with assessed value of five hundred thousand dollars ($500,000) or more by the current Idaho value of all such fleets. By November 15 of each year, each county treasurer must provide the Tax Commission with the amount of taxes due from all private railcar fleets in the county.

416. (RESERVED)

417. PENALTY FOR FAILURE TO MAKE STATEMENT (RULE 417). If a private railcar fleet fails or refuses to file the operator’s statement as provided by Section 63-404, Idaho Code, by April 30 of each year, the Tax Commission will add a penalty. The penalty is fifty percent (50%) of the assessed value, determined by the Tax Commission, as provided by Section 63-411, Idaho Code. When an emergency exists, the company may petition the Tax Commission for an extension of time for filing, not to exceed thirty (30) days. For such petition to be valid it must be submitted in writing to the Tax Commission by April 30 of each year.

418. -- 508. (RESERVED)

01. Definitions. The following definitions apply for the purposes of testing for equalization under Section 63-109, Idaho Code, notification under Sections 63-301 and 63-308, Idaho Code, and reporting under Section 63-509, Idaho Code.

a. Increment Value. Increment value means, as defined in Section 50-2903, Idaho Code, the total value calculated by summing the differences between the current equalized value of each taxable property in the revenue allocation area and that property’s current base value on the base assessment roll, provided such difference is positive.

b. Primary Category. Primary category means the categories established and described by Subsections 130.02 through 130.06 of these rules and used by the Tax Commission to test for equalization under Section 63-109, Idaho Code.

c. Secondary Category. Secondary category means the categories established and described by Rules 510, 511, and 512 of these rules and used by county assessors to list property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and report values to the Tax Commission under Section 63-509, Idaho Code, and this Rule. Secondary categories may also be tested for equalization purposes, provided they meet the criteria in Subsection 131.05 of these rules.

d. Abstract. A document summarizing taxable (net taxable value) and market value for assessment purposes (full market value) by secondary category of property. Abstracts are prepared for the county, cities, the Boise School District, and any taxing district or unit of government which does not levy property tax against all otherwise taxable property. Abstracts are to be prepared for the property roll and the combined missed and subsequent property rolls.

02. Additional Information to be Included. In addition to the taxable value and the market value for assessment purposes of property on the property rolls, the abstract must report the value of exemptions required to be reported under Section 63-509, Idaho Code, any increment value and the value of any exemption provided under Sections 63-602W(4), 63-602GG, 63-602HH, 63-602II, 63-602NN, 63-4502, 63-606A, and 63-3029B, Idaho Code. Increment value and exemption value thus reported will be subtracted from the market value for assessment purposes.
shown for each secondary category of property on each abstract. (7-1-21)

03. Verification of Abstracts. For the purposes of this rule and meeting the requirements of Section 63-509, Idaho Code, the abstract of the property rolls prepared by the county auditor will be considered duly verified provided that the auditor signs a document indicating:

a. That the required summary information is based on the most current available information received from the assessor following the conclusion of the county board of equalization, and;

b. That the assessor certifies to the auditor that all changes, corrections, additions, and exemptions entered onto the rolls as a result of county board of equalization action have been duly entered. (7-1-21)

04. Nature of Verification Document. The abstract verification document will include the signatures of the county assessor and auditor or duly appointed representatives. The substance of the verbiage in the document will be equivalent to that found in the following sample:

(Name of county auditor), being first duly sworn, deposes and says that he/she is the duly qualified and acting auditor in and for the county of (Name), State of Idaho, and that the above and foregoing is a full, true and correct abstract of the valuation of all property entered on the property roll (or subsequent and missed property rolls) for the year (Year), as certified by the assessor to the auditor and equalized by the Board of County Commissioners of said county in session as a board of equalization. (7-1-21)

05. Submittal of Corrections to Erroneous Abstracts or Related Documents. When completing the procedures set forth in Section 63-810, Idaho Code, boards of county commissioners should submit the corrections to the taxable values submitted on the abstracts or related documents under provisions of Section 63-509, Idaho Code, and this rule, no later than when they submit the corrected levies under Section 63-810, Idaho Code. (7-1-21)

06. Cross Reference. See Rule 115 of these rules for requirements to submit city, Boise School District, and special district or unit of government abstracts. For the descriptions of the categories used to test for equalization, see Subsections 130.02 through 130.06 of these rules. For descriptions of secondary categories used to list and report land values, see Rule 510 of these rules, used to list and report the value of improvements, see Rule 511 of these rules, or used to list and report all property values other than that for land or improvements, see Rule 512 of these rules. For information relating to notification of corrections to erroneous levies, see Sections 63-809 and 63-810, Idaho Code, and Rule 809 of these rules. (7-1-21)

510. SECONDARY CATEGORIES FOR LAND - LISTING AND REPORTING (RULE 510).
Section 63-509, Idaho Code. County assessors will use the secondary categories described in the following subsections, indicated by numbers, to list land values on the valuation assessment notices under Sections 63-301 and 63-308, Idaho Code. County assessors will use these secondary categories described in the following subsections, indicated by numbers, and the secondary categories described in the following paragraphs, indicated by letters, to report land values to the Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. For all of the above listed functions, assign all appropriate secondary land categories to parcels of property put to multiple uses. (7-1-21)

01. Secondary Category 1 - Irrigated Agricultural Land. Irrigated land and only such irrigated land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This irrigated land must be capable of and normally producing harvestable crops and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (7-1-21)

02. Secondary Category 2 - Irrigated Grazing Land. Irrigated land and only such irrigated land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat”
or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This irrigated land must be used for grazing and not normally capable of producing harvestable crops and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city.

03. Secondary Category 3 - Non-Irrigated Agricultural Land. Land and only such land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This non-irrigated land must be capable of and normally producing harvestable crops without man-made irrigation and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city.

04. Secondary Category 4 - Meadow Land. Land and only such land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This meadow land must be capable of lush production of grass and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city.

05. Secondary Category 5 - Dry Grazing Land. Land and only such land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This land must be capable of supporting grasses and not normally capable of supporting crops on regular rotation and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city.

06. Secondary Category 6 - Productivity Forestland. All land and only such land designated by the owner for assessment, appraisal, and taxation under Section 63-1703(a), Idaho Code, for the current year's assessment roll. This land must be assessed as forest land under the productivity option and may be located inside or outside the boundaries of an incorporated city. Also included is all land assessed under Section 63-1704, Idaho Code.

07. Secondary Category 7 - Bare Forestland. All land and only such land designated by the owner for assessment, appraisal, and taxation under Section 63-1703(b), Idaho Code, for the current year's assessment roll. This land must be assessed as bare land with the yield tax option and may be located inside or outside the boundaries of an incorporated city.

08. Secondary Category 8. Not presently used.

09. Secondary Category 9 - Patented Mineral Land. All land used solely for mines and mining claims and only the part of such land not used for other than mining purposes for the current year's assessment roll. This land may be located inside or outside the boundaries of an incorporated city. See Section 63-2801, Idaho Code.

10. Secondary Category 10 - Homsite Land. Rural non-subdivided land being utilized for homesites with secondary categories 1 through 9. Note: This land is always land with improvements located on it since land with no improvements should be in one (1) or more of categories 1 through 9.

11. Secondary Category 11 - Recreational Land. Rural land used in conjunction with recreation but not individual homesites.

a. Secondary Category 11 - Vacant Recreational Land. Vacant rural land used for recreational purposes but not individual homesites or in a properly recorded subdivision.
b. Secondary Category 11 - Improved Recreational Land. Rural land with improvements, including exempt improvements, used for recreational purposes on that land but not individual homesites or in a properly recorded subdivision. (7-1-21)

   a. Secondary Category 12 - Vacant Rural Residential Tracts. Vacant rural land used for residential purposes but not in a properly recorded subdivision. (7-1-21)
   b. Secondary Category 12 - Improved Rural Residential Tracts. Rural land with improvements, including exempt improvements, used for residential purposes on that land but not in a properly recorded subdivision. (7-1-21)

   a. Secondary Category 13 - Vacant Rural Commercial Tracts. Vacant rural land used for commercial purposes but not in a properly recorded subdivision. (7-1-21)
   b. Secondary Category 13 - Improved Rural Commercial Tracts. Rural land with improvements, including exempt improvements, used for commercial purposes on that land but not in a properly recorded subdivision. (7-1-21)

   a. Secondary Category 14 - Vacant Rural Industrial Tracts. Vacant rural land used for industrial purposes but not in a properly recorded subdivision. (7-1-21)
   b. Secondary Category 14 - Improved Rural Industrial Tracts. Rural land with improvements, including exempt improvements, used for industrial purposes on that land but not in a properly recorded subdivision. (7-1-21)

   a. Secondary Category 15 - Vacant Rural Residential Subdivisions. Vacant rural land used for residential purposes and in a properly recorded subdivision. (7-1-21)
   b. Secondary Category 15 - Improved Rural Residential Subdivisions. Rural land with improvements, including exempt improvements, used for residential purposes on that land and in a properly recorded subdivision. Also use this category for rural homesites within subdivisions when the remaining acreage qualifies as actively devoted to agriculture under Section 63-604, Idaho Code, or has been designated forestland under Chapter 17, Title 63, Idaho Code. (7-1-21)

   a. Secondary Category 16 - Vacant Rural Commercial Subdivisions. Vacant rural land used for commercial purposes and in a properly recorded subdivision. (7-1-21)
   b. Secondary Category 16 - Improved Rural Commercial Subdivisions. Rural land with improvements, including exempt improvements, used for commercial purposes on that land and in a properly recorded subdivision. (7-1-21)
17. **Secondary Category 17 - Rural Industrial Subdivisions.** Rural industrial land in a properly recorded subdivision.
   a. Secondary Category 17 - Vacant Rural Industrial Subdivisions. Vacant rural land used for industrial purposes and in a properly recorded subdivision.
   b. Secondary Category 17 - Improved Rural Industrial Subdivisions. Rural land with improvements, including exempt improvements, used for industrial purposes on that land and in a properly recorded subdivision.

18. **Secondary Category 18 - Other Land.** Land not compatible with other secondary categories.
   a. Secondary Category 18 - Vacant Other Land. Vacant land not compatible with other secondary categories.
   b. Secondary Category 18 - Improved Other Land. Land with improvements, including exempt improvements, on that land but not compatible with other secondary categories.

19. **Secondary Category 19 - Waste.** Public Rights-of-Way includes roads, ditches, and canals. Use this secondary category to account for total acres of land ownership. Only list acres, not value, in this secondary category on the abstract.

20. **Secondary Category 20 - Residential Lots or Acreages.** Land used for residential purposes and inside city limits.
   b. Secondary Category 20 - Improved Residential Lots Or Acreages. Land with improvements, including exempt improvements, used for residential purposes on that land and inside city limits. Also use this category for urban homesites when the remaining acreage qualifies as actively devoted to agriculture under Section 63-604, Idaho Code, or has been designated forestland under Chapter 17, Title 63, Idaho Code.

21. **Secondary Category 21 - Commercial Lots or Acreages.** Land used for commercial purposes and inside city limits.
   b. Secondary Category 21 - Improved Commercial Lots Or Acreages. Land with improvements, including exempt improvements, used for commercial purposes on that land and inside city limits.

22. **Secondary Category 22 - Industrial Lots or Acreages.** Land used for industrial purposes and inside city limits.
   b. Secondary Category 22 - Improved Industrial Lots Or Acreages. Land with improvements, including exempt improvements, used for industrial purposes on that land and inside city limits.

23. **Secondary Category 25 - Common Area Vacant Land.** Common area vacant land not included in individual property assessments.

24. **Secondary Category 45 - Utility System Vacant Land.** Vacant land used for locally assessed utility systems not under the jurisdiction of the Tax Commission for appraisal.
25. **Secondary Category 57 - Equities In Vacant Land Purchased From the State.** For identification purposes under Section 63-211, Idaho Code, vacant land purchased from the state under contract. (7-1-21)

26. **Secondary Category 81 - Exempt Land.** Category 81 is for county use to keep an inventory, including acreage, of exempt land. (7-1-21)

27. **Cross Reference.** For descriptions of secondary categories used to list values for improvements, see Rule 511 of these rules, or used to list property values other than that for land or improvements, see Rule 512 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (7-1-21)

### SECTION 511. SECONDARY CATEGORIES FOR IMPROVEMENTS - LISTING AND REPORTING (RULE 511).

Section 63-509, Idaho Code. County assessors will use the following secondary categories to list improved property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and to report improved property values to the Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. For all of the above listed functions, assign all appropriate secondary improvement categories to parcels of property put to multiple uses. (7-1-21)

01. **Secondary Category 25 - Common Area Land and Improvements.** Common area land and improvements on that land not included in individual property assessments. (7-1-21)

02. **Secondary Category 26 - Residential Condominiums.** Land and improvements included in individual assessments of condominiums or townhouses and used for residential purposes. (7-1-21)

03. **Secondary Category 27 - Commercial or Industrial Condominiums.** Land and improvements included in individual assessments of condominiums and used for commercial or industrial purposes. (7-1-21)

04. **Secondary Category 30 - Improvements.** Improvements, other than residential, located on secondary category 20. (7-1-21)

05. **Secondary Category 31 - Improvements.** Improvements used for residential purposes and located on secondary category 10. (7-1-21)

06. **Secondary Category 32 - Improvements.** Improvements, other than residential, located on secondary categories 1 through 12 and 15. (7-1-21)

07. **Secondary Category 33 - Improvements.** Improvements used in conjunction with recreation but not associated with homesites and located on secondary category 11. (7-1-21)

08. **Secondary Category 34 - Improvements.** Improvements used for residential purposes and located on secondary category 12. (7-1-21)

09. **Secondary Category 35 - Improvements.** Improvements used for commercial purposes and located on secondary category 13. (7-1-21)

10. **Secondary Category 36 - Improvements.** Improvements used for industrial purposes and located on secondary category 14. (7-1-21)

11. **Secondary Category 37 - Improvements.** Improvements used for residential purposes and located on secondary category 15. (7-1-21)

12. **Secondary Category 38 - Improvements.** Improvements used for commercial purposes and located on secondary category 16. (7-1-21)

13. **Secondary Category 39 - Improvements.** Improvements used for industrial purposes and located on secondary category 17. (7-1-21)
14. **Secondary Category 40 - Improvements.** Improvements located on secondary category 18. (7-1-21)T

15. **Secondary Category 41 - Improvements.** Improvements used for residential purposes and located on secondary category 20. (7-1-21)T

16. **Secondary Category 42 - Improvements.** Improvements used for commercial purposes and located on secondary category 21. (7-1-21)T

17. **Secondary Category 43 - Improvements.** Improvements used for industrial purposes and located on secondary category 22. (7-1-21)T

18. **Secondary Category 44.** Not presently used. (7-1-21)T

19. **Secondary Category 45 - Utility System Land and Improvements.** Locally assessed land and improvements used as utility systems and not under the jurisdiction of the Tax Commission for appraisal. (7-1-21)T

20. **Secondary Category 46 - Manufactured Housing.** Structures transportable in one (1) or more sections, built on a permanent chassis, for use with or without permanent foundation located on land under the same ownership as the manufactured home but assessed separate from the land. Include any manufactured home located on land under the same ownership as the manufactured home on which a statement of intent to declare as real property has been filed but becomes effective the following year. (7-1-21)T

21. **Secondary Category 47 - Improvements to Manufactured Housing.** Additions not typically moved with manufactured housing. (7-1-21)T

22. **Secondary Category 48 - Manufactured Housing.** Manufactured housing permanently affixed to land under the same ownership as the manufactured home and on which a statement of intent to declare as real property has been filed and has become effective. (7-1-21)T

23. **Secondary Category 49 - Manufactured Housing.** Manufactured housing permanently affixed to leased land and on which a statement of intent to declare as real property has been filed and has become effective. (7-1-21)T

24. **Secondary Category 50 - Residential Improvements on Leased Land.** Improvements used for residential purposes and located on leased land, including railroad rights-of-way under separate ownership, exempt land, or any other land under different ownership than the improvements. (7-1-21)T

25. **Secondary Category 51 - Commercial or Industrial Improvements on Leased Land.** Improvements used for commercial or industrial purposes and located on leased land, including railroad rights-of-way under separate ownership, exempt land, or any other land under different ownership than the improvements. (7-1-21)T

26. **Secondary Category 57 - Equities in Land With Improvements Purchased From the State.** Land with the improvements on that land that are purchased from the state under contract. (7-1-21)T

27. **Secondary Category 60.** Not presently used. (7-1-21)T

28. **Secondary Category 61.** Not presently used. (7-1-21)T

29. **Secondary Category 62.** Not presently used. (7-1-21)T

30. **Secondary Category 65 - Manufactured Housing.** Manufactured housing not designated real property and located on exempt, rented or leased land under separate ownership. Include any manufactured home located on exempt, rented or leased land on which a statement of intent to declare as real property has been filed but becomes effective the following year. (7-1-21)T
31. **Secondary Category 69 - Recreational Vehicles.** Unlicensed recreational vehicles. (7-1-21)

32. **Secondary Category 81 - Exempt Improvements.** Category 81 is for county use to keep an inventory of exempt improvements. (7-1-21)

33. **Cross Reference.** For descriptions of secondary categories used to list land values, see Rule 510 of these rules, or used to list property values other than that for land or improvements, see Rule 512 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (7-1-21)

512. **SECONDARY CATEGORIES, OTHER THAN LAND OR IMPROVEMENTS - LISTING AND REPORTING (RULE 512).**

Section 63-509, Idaho Code

County assessors will use the following secondary categories to list property values, other than that for land or improvements, on assessment notices under Sections 63-301 and 63-308, Idaho Code, and will use these secondary categories to report values for property, other than land or improvements, to the Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. (7-1-21)

01. **Secondary Category 45 - Utility System Personal Property.** Personal property that is part of locally assessed utility systems not under the jurisdiction of the Tax Commission for appraisal. (7-1-21)

02. **Secondary Category 55 - Boats or Aircraft.** Unlicensed watercraft or unregistered aircraft. (7-1-21)

03. **Secondary Category 56 - Construction Machinery, Tools, and Equipment.** Unlicensed equipment such as cranes, tractors, scrapers, and rock crushers, used in the building trade or road construction. (7-1-21)

04. **Secondary Category 57 - Equities in Personal Property Purchased From the State.** Personal property purchased from the state under contract. (7-1-21)

05. **Secondary Category 59 - Furniture, Libraries, Art, and Coin Collections.** Trade articles used commercially for convenience, decoration, service, storage, including store counters, display racks, typewriters, office machines, surgical and scientific instruments, paintings, books, coin collections, and all such items held for rent or lease. (7-1-21)

06. **Secondary Category 63 - Logging Machinery, Tools, and Equipment.** Unlicensed logging machinery, shop tools, and equipment not assessed as real property. (7-1-21)

07. **Secondary Category 64 - Mining Machinery, Tools, and Equipment.** Unlicensed mining machinery, shop tools, and equipment not assessed as real property. (7-1-21)

08. **Secondary Category 66 - Net Profits of Mines.** That amount of money or its equivalent received from the sale or trade of minerals or metals extracted from the Earth after deduction of allowable expenses. See Section 63-2802, Idaho Code, and Rule 982 of these rules. (7-1-21)

09. **Secondary Category 67 - Operating Property.** Property assessed and apportioned by the Tax Commission. (7-1-21)

10. **Secondary Category 68 - Other Miscellaneous Machinery, Tools, and Equipment.** Unlicensed machinery, tools, and equipment not used in construction, logging, mining, or not used exclusively in agriculture. (7-1-21)

11. **Secondary Category 70 - Reservations and Easements.** Reservations, including mineral rights reserved, divide ownership of property rights. Easements convey use but not ownership. (7-1-21)
12. Secondary Category 71 - Signs and Signboards. Signs and signboards, their bases and supports. (7-1-21)T

13. Secondary Category 72 - Tanks, Cylinders, Vessels. Containers. (7-1-21)T

14. Secondary Category 81 - Exempt Property, Other Than Land or Improvements. Category 81 is for county use to keep an inventory of exempt property other than land or improvements. (7-1-21)T

15. Cross Reference. For descriptions of secondary categories used to list land values on the valuation assessment notice or report land values on the abstracts, see Rule 510 of these rules or used to list values for improvements on the valuation assessment notice or report improvement values on the abstracts, see Rule 511 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (7-1-21)T

513. -- 599. (RESERVED)

600. PROPERTY EXEMPT FROM TAXATION (RULE 600).

Section 63-602, Idaho Code

01. Burden of Proof. The burden of proof of entitlement to the exemption is on the person claiming exemption for the property. (7-1-21)T

02. Notice of Decision.

a. For property subject to local assessment with exemptions requiring annual application as specified in the statute providing the exemption or in Section 63-602(3), Idaho Code, the taxpayer must be notified of the decision of the county commissioners to grant or deny the exemption by May 15 unless a different date is prescribed in the law providing the exemption. (7-1-21)T

b. For property subject to assessment by the Commission, application for any exemption will be included with the operator’s statement to be submitted as provided in Section 404, of these rules. (7-1-21)T

03. Confidentiality. Information disclosed as part of an application for an exemption is confidential to the extent provided by in Section 74-107, Idaho Code, or elsewhere in law. Information disclosed to the county commissioners as part of the application process for an exemption will be deemed submitted to the assessor and entitled to any confidentiality that would have been conferred had such information been disclosed initially to the assessor. (7-1-21)T

601. -- 602. (RESERVED)

603. PROPERTY EXEMPT FROM TAXATION – RELIGIOUS CORPORATIONS OR SOCIETIES (RULE 603).

Section 63-602B, Idaho Code

01. Valuing the Taxable Part of Qualifying Property. Under Section 63-602B(2), Idaho Code, a county will determine the value of the part of the property used or leased for business or commercial purposes by considering the particular facts of each case, examining the amount of time, during the calendar year, the property is used for business or commercial purposes, the percentage of the property used for business or commercial purposes, or a combination thereof. The county may require reporting by the religious corporation or society of any use of the property for business or commercial usage in such form, and by such date, as the county establishes. (7-1-21)T

02. Comparable Valuation Methodology to Partially Exempt Property Under Section 63-602C, Idaho Code. To value the taxable part of any otherwise qualifying property exempt under Section 63-602B, Idaho Code, each county should use comparable methods to those being used to value the taxable part of qualifying exempt property under Section 63-602C, Idaho Code. (7-1-21)T
604. (RESERVED)

605. PROPERTY EXEMPT FROM TAXATION - PROPERTY USED FOR SCHOOL OR EDUCATIONAL PURPOSES (RULE 605).
Section 63-602E, Idaho Code

01. Eligibility of Leased Property. Leased property used exclusively for non-profit school or educational purposes, including charter school purposes, will be eligible for the exemption provided in Section 63-602E, Idaho Code, provided the following criteria are met:

   a. Leased real property must be exclusively used for the educational purposes identified in Subsection 605.01 of this rule. Such leased real property may be part of a multi-use property, in which case only the portions of the property used for the educational purposes will be eligible for the exemption.

   b. Leased personal property must be exclusively used for the educational purposes identified in Subsection 605.01 of this rule. To be considered exclusively used in this manner, such personal property must:

      i. Be used exclusively at a non-profit school or charter school facility; or

      ii. Have its use constrained or restricted in such a way as to effectively eliminate the possibility of use for other than educational purposes.

02. Application for Exemption for Leased Personal Property. Only the owner of leased personal property can apply for this exemption. Proof of compliance with the requirements of Paragraph 605.01.b. of this rule is required and may be provided by the lessee.

606. -- 607. (RESERVED)

608. PROPERTY EXEMPT FROM TAXATION - HOMESTEAD - CONTINUED ELIGIBILITY AFTER DEATH OF CLAIMANT (RULE 608).
Section 63-602G, Idaho Code

01. Ownership Interest. For the homestead previously qualifying for the exemption provided in Section 63-602G, Idaho Code, to continue to qualify in the year following the death of the qualifying claimant, the homestead must continue to be part of the claimant’s estate, without change in record owner. If the ownership interest upon which the exemption had been granted was a life estate, the continuation provided in Section 63-602G(8), Idaho Code, does not apply.

02. Occupancy. The continuation of this exemption will not be affected by occupancy status of the property during the year following the claimant’s death. For example, the property may be vacant or rented during that period and may be used for something other than residential purposes.

609. PROPERTY EXEMPT FROM TAXATION -- HOMESTEAD (RULE 609).
Sections 63-602G, 63-701, 63-703, and 63-3077, Idaho Code

01. Homestead Exemption. The Homestead Exemption granted in 63-602G, Idaho Code will also be known as the homeowner's exemption.

02. Maximum Amount of Homestead Exemption. The homestead exemption is limited to the lesser of fifty percent (50%) of assessed value or one hundred thousand dollars ($100,000).

03. Partial Ownership. Any partial ownership will be considered ownership for determining qualification for the homeowner's exemption; however, the amount of the exemption will be decided on the reduced proportion of the value commensurate with the proportion of partial ownership. The proportional reduction will not apply to the ownership interests of a partner of a limited partnership, a member of a limited liability company or a shareholder of a corporation when that person has no less than five percent (5%) ownership interest in the entity.
unless any ownership interest is shared by any entity other than the limited partnership, limited liability company or
corporation. For tenants in common with two (2) improvements located on one (1) parcel of land, determine the
applicable value for the homeowner’s exemption using the procedure shown in Example 1 of Paragraph 609.03.a., of
this rule unless the owner-occupant provides documented evidence of a different ownership interest in the
improvement. See Examples 2, 3, and 4 in Paragraphs 609.03.b., 609.03.c., and 609.03.d. of this rule for additional
partial ownership guidance. To calculate property tax reduction benefits when partial ownership exists, see Paragraph
700.05.b. of these rules. (7-1-21)

Example 1. John Smith and Bob Anderson own a property as tenants in common with two (2)
residential improvements located on the property. Each residential improvement is owner occupied by one (1) of the
tenants in common. The homeowner’s exemption is calculated as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$42,000</td>
<td></td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$82,000</td>
<td>Occupied by Mr. Smith</td>
</tr>
<tr>
<td>Prorated Ownership Interest</td>
<td>$62,000</td>
<td>Mr. Smith’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$31,000</td>
<td>For Mr. Smith as owner occupant</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$67,000</td>
<td>Occupied by Mr. Anderson</td>
</tr>
<tr>
<td>Prorated Ownership Interest</td>
<td>$54,500</td>
<td>Mr. Anderson’s interest</td>
</tr>
</tbody>
</table>
| Homeowner’s Exemption     | $27,250   | For Mr. Anderson as owner occupant| (7-1-21)

Example 2. John Smith and Bob Anderson own a parcel of land as tenants in common with two (2)
residential improvements located on the parcel. Mr. Smith has documented evidence of one hundred percent (100%)
interest in one (1) residential improvement and Mr. Anderson has documented evidence of one hundred percent
(100%) interest in the remaining residential improvement. Each residential improvement is owner occupied. The
homeowner’s exemption is calculated as follows:

<table>
<thead>
<tr>
<th>Item Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$42,000</td>
<td>Split 50% to each owner</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$82,000</td>
<td>Owned and occupied by Mr. Smith</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$51,500</td>
<td>For Mr. Smith</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$67,000</td>
<td>Owned and occupied by Mr. Anderson</td>
</tr>
</tbody>
</table>
| Homeowner’s Exemption         | $44,000   | For Mr. Anderson               | (7-1-21)

Example 3. Tom Johnson and Marie Johnson, husband and wife, and June Smith jointly own a
property and occupy one (1) residential improvement located on the property. The following example shows how to
calculate each homeowner’s exemption.

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$95,000</td>
<td></td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$215,000</td>
<td></td>
</tr>
</tbody>
</table>
Example 4. John and Susan Doe, husband and wife, and Mike Person jointly own a property, and Mr. and Mrs. Doe occupy the one (1) residential improvement located on the property. The following example shows how to calculate each homeowner’s exemption.

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land and Improvement</td>
<td>$310,000</td>
<td></td>
</tr>
<tr>
<td>Prorated ownership interest (land and improvement)</td>
<td>($310,000 X 50%)</td>
<td>$155,000 Mr. &amp; Mrs. Johnson’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption Maximum for 2010</td>
<td>($100,000 X 50%)</td>
<td>$50,000 Mr. &amp; Mrs. Johnson’s Homeowner’s Exemption</td>
</tr>
<tr>
<td>Prorated ownership interest (land and improvement)</td>
<td>($310,000 X 50%)</td>
<td>$155,000 Ms. Smith’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption Maximum for 2017</td>
<td>($100,000 X 50%)</td>
<td>$50,000 Ms. Smith’s Homeowner’s Exemption</td>
</tr>
</tbody>
</table>

Part Year Ownership. For qualifying taxpayers who claimed the homeowner's exemption on an eligible property, the homestead that qualified on January 1 of the current tax year will continue to receive the exemption, provided however, the assessor may remove that property's exemption if, by April 15 of the tax year, the taxpayer owns a different homestead and requests that the exemption be transferred to the second homestead.

Determination of Residency. The Commission may release pertinent information from any Idaho income tax return to the county assessor and the county Board of Equalization for the sole purpose of providing one (1) indicator of eligibility for the homeowner's exemption. According to Section 63-3077(4), Idaho Code, this information is confidential and is not subject to public disclosure.

Notification of Erroneous Claims. When it is determined that an exemption granted under this Section to a taxpayer who has also received property tax relief under Chapter 7, Idaho Code, should not have been granted, the county assessor will notify the Commission of the determination.
610. PROPERTY EXEMPT FROM TAXATION -- RESIDENTIAL IMPROVEMENTS -- SPECIAL SITUATIONS (RULE 610).
Sections 63-602G, 63-701(2), Idaho Code

01. **Scope.** This rule addresses issues relating to the homeowner’s exemption as it applies to certain unusual factual situations. It states general principles applicable to unusual cases and provides some illustrative examples. The rule cannot address every conceivable situation that may arise, but the principles established may apply to the resolution of situations not addressed in the rule. (7-1-21)T

02. **Definitions.** The following definitions apply to this rule: (7-1-21)T

   a. Dual Residency Couples. As used in this rule, “dual residency couple” means a husband and wife, each of whom has established a different dwelling place as his or her primary dwelling place as defined in Section 63-602G, Idaho Code, and Subsection 609.03 of these rules. (7-1-21)T

   b. Multidwelling or Multipurpose Building. “Multidwelling or Multipurpose Building” means a building which is the primary dwelling place of the owner and which has a portion used for any purpose other than the primary dwelling place of the owner. (7-1-21)T

   c. Related Land. “Related Land” means land, not to exceed one (1) acre, that is reasonably necessary for the use of the dwelling as a home. (7-1-21)T

03. **Dual Residency Couples -- General Principles.** (7-1-21)T

   a. Whether a particular residential improvement is an individual’s primary dwelling place is a question of fact for each individual. Each spouse of a dual residency couple can maintain a separate primary dwelling place for purposes of the homeowner’s exemption. The test to be applied is the general test set out in Subsection 609.03 of these rules. (7-1-21)T

   b. If a residential improvement is community property, either the husband or wife may exercise full management or control over it, except that neither the husband nor the wife can sell or encumber the property without the written consent of the other. Thus, either the husband or the wife can file an application for the homeowner’s exemption regarding community property on his or her own authority. The signature of the other spouse is not required on the application. See Section 32-912, Idaho Code. (7-1-21)T

   c. Neither spouse is a partial owner of community property. (This principle is an exception to laws generally governing community property interests. It applies only for matters relating to the homeowner’s exemption or the circuit breaker property tax relief program. See Section 63-701(7) Idaho Code.) Thus, there is no authority to reduce the value of the improvement proportionally to reflect one (1) spouse's ownership in community property before determining the amount of the homeowner's exemption. For purposes of the homeowner’s exemption, a community property interest is treated the same as a full ownership interest. (7-1-21)T

   d. An owner may apply only once for the homeowner’s exemption. See Section 63-602G(c), Idaho Code. Thus, an application by one (1) spouse regarding a residential improvement that is community property, precludes the other spouse from making a second application on any other residential improvement whether held by the other spouse as community or separate property except as provided in Subsection 610.07. (7-1-21)T

04. **Example -- Both Residences are Community Property.** (7-1-21)T

   a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement, each of which is owned by the couple as community property. Each applies for the homeowner’s exemption for the residence in which he or she resides. (7-1-21)T

   b. The first application is valid. Any subsequent application, though filed by the other spouse, is not valid because the couple can not make more than one (1) application. The homeowner’s exemption applies to the full value of the first residential improvement to qualify without any proportional reduction. The other residential improvement does not qualify. (7-1-21)T
05. Example -- One Residence Is Community Property, the Other Is Separate Property.

a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement. One (1) is owned by the spouse who resides in it as his or her separate property, the other is owned by the couple as community property. Each applies for the homeowner’s exemption for the residence in which he or she resides.

b. The first application is valid. Any subsequent application, though filed by the other spouse, is not valid. If the first application relates to the community property, it is an application on behalf of both members of the community. Thus, the other spouse can not file a second application relating to his or her separate property. If the first application relates to the separate property, then the subsequent application relating to the community property is a second application by the spouse owning the separate property and is not valid. The homeowner’s exemption applies to the full value of the first residential improvement to qualify without any proportional reduction. The other residential improvement does not qualify.

06. Example -- Both Residences are Separate Property.

a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement, each of which is owned by the spouse residing in it as his or her separate property. Each applies for the homeowner’s exemption for the residence in which he or she resides.

b. Both residential improvements qualify for the full homeowner’s exemption. Neither application is a second application by the same owner. Each spouse is a sole owner of the residential improvement, so the proportional reduction provisions for partial ownership do not apply.

07. Apportionment of Homeowner's Exemption by Dual Residency Couples. Both spouses of a dual residency couple may elect to equally apportion the homeowner’s exemption between the two (2) residential improvements if each files a written election with the county assessor of the county in which each property is located. When the election is made each residential improvement will be entitled to one-half (1/2) of the exemption applicable to that property alone. The total exempted value of both properties will not exceed the amount of exemption available to the individual residential improvement with the greatest market value if no election were made.

08. Multiple Ownership Including Community Interests as Partial Owners. A community property interest in a residential improvement is a partial ownership when combined with the ownership of another individual who is not a member of the marital community. For example, if a deed conveys title to real property to a husband and wife and to an adult child of theirs, the husband and wife hold a community property interest in the improvement and the child is a tenant-in-common provided ownership interests are not specified in the deed. The parents collectively hold a one-half (1/2) partial interest and the child holds a one-half (1/2) partial interest in the property. Ownership interests specified in the deed supersede this guidance. Qualification of the property for the homeowner’s exemption is as follows:

a. If the residential improvement is the primary dwelling of the husband and wife but not the child, the homeowner's exemption applies to one-half (1/2) of the value of the improvement.

b. If the residential improvement is the primary dwelling of the child, but not of the husband or wife, the homeowner's exemption applies to one-half (1/2) of the value of the improvement.

c. If the residential improvement is the primary dwelling of the husband, wife and child, the homeowner's exemption applies to the full value of the improvement.

d. If the residential improvement is the primary dwelling of one (1) spouse but of neither the other spouse nor the child, the homeowner's exemption applies to one-half (1/2) of the value of the improvement unless the residential improvement of the other spouse has previously qualified for the homeowner’s exemption under the dual residency couple rules set out in Subsections 610.02 through 610.07. The one-half (1/2) qualification results from the statutory provision that a community property interest is not considered a partial interest of either spouse. See Paragraph 610.03.c. of this rule.
e. If the residential improvement is the primary dwelling of one (1) spouse and the child, the homeowner’s exemption applies to the full value of the improvement unless the residential improvement of the other spouse has previously qualified for the homeowner’s exemption under the dual residency couple rules set out in Subsections 610.02 through 610.07. (7-1-21)

09. Determining the Qualifying Portion of a Multidwelling or Multipurpose Building and the Related Land. The portion of a Multidwelling or Multipurpose Building and Related Land used for the primary dwelling place of the owner qualifies for the homeowner’s exemption. When determining the value of the qualifying portion, the assessor will include the Related Land value. (7-1-21)

611. VALUE OF RESIDENTIAL PROPERTY IN CERTAIN ZONED AREAS (RULE 611). Sections 63-602H, Idaho Code

01. Residential Property. Residential property that may qualify for the special valuation exemption provided in Section 63-602H, Idaho Code, may include land and residential improvements. Such property may be owner or non-owner occupied, but must have been in continuous residential use from the time zoning was changed to other than residential. If use of any portion of the property changes to other than residential, the property loses this exemption. (7-1-21)

02. Qualifying Residential Improvements. Qualifying residential improvements are those improvements categorized by the assessor as residential and not consisting of more than four (4) residential units within any qualifying structure. (7-1-21)

01. Motor Vehicle Defined. Motor vehicle means any vehicle as defined in Section 49-123(2), Idaho Code, and any recreational vehicle as defined in Section 49-119(6), Idaho Code, and any personal property permanently affixed to any of those vehicles. (7-1-21)

02. Exempt Motor Vehicles. Except as provided in Subsection 612.03 of this rule, any motor vehicle, as defined in Subsection 612.01 of this rule, registered for any part of the previous year under Chapter 4, Title 49, Idaho Code, is exempt from property taxation under Sections 49-401 and 63-602J, Idaho Code. (7-1-21)

03. Taxable Vehicles. The following registered or permitted vehicles are taxable and not eligible for the exemption under Sections 49-401 and 63-602J, Idaho Code. (7-1-21)

   a. Any vehicle issued a permit in lieu of registration under Section 49-432, Idaho Code. (7-1-21)
   b. Any manufactured home registered under Section 49-422, Idaho Code. (7-1-21)

04. Exempt Permanently Affixed Personal Property. Except as provided in Subsection 612.05 of this rule, any personal property permanently affixed to any motor vehicle registered as described in Subsection 612.02 of this rule is part of that vehicle. Hence, that permanently affixed personal property is exempt from property taxation under Section 63-602J, Idaho Code. (7-1-21)

05. Taxable Personal Property. The following personal property, not otherwise exempt under Chapter 6, Title 63, Idaho Code, is taxable and not eligible for the exemption under Section 63-602J, Idaho Code. (7-1-21)

   a. Any personal property on, but not permanently affixed to, any motor vehicle registered as described in Subsection 612.02 of this rule. (7-1-21)
   b. Any personal property on or affixed, permanently or otherwise, to any vehicle issued a permit in lieu of registration under Section 49-432, Idaho Code. (7-1-21)
06. Recreational Vehicles. The owner of a recreational vehicle, as defined in Section 49-119(6), Idaho Code, must pay a recreational vehicle annual license fee as authorized by Section 49-445, Idaho Code, and as computed in accordance with Rule 020 of these rules in order to be exempt under Section 63-602J, Idaho Code.

a. Recreational vehicles that qualify for licensing and registration and have paid the required registration fee by August 31 each year are eligible for the exemption provided in Section 63-602J, Idaho Code. The owners of recreational vehicles that do not qualify or have not paid the fee must be sent a valuation assessment notice for the recreational vehicle after the August 31 deadline. The assessment of the recreational vehicle is subject to cancellation as provided in Rule 020, provided any applicable registration fee is paid before the fourth Monday of November.

b. The provisions of Paragraph 612.06.a. of this rule apply to a park model recreational vehicle unless it is determined by the assessor to:

i. Be permanently attached to a foundation; or

ii. Have an attached building addition; or

iii. Have been substantially modified and no longer meet the definition of a park model recreational vehicle.

07. Taxable Real Property Associated with Vehicles. Associated property, other than the vehicle itself, is taxable unless another exemption applies. Examples include the land on which the vehicle is located, fences, buildings, and appurtenances. Such property may be eligible for the exemption provided in Section 63-602G, Idaho Code, regardless of whether the vehicle is exempt as provided in Section 63-602J, Idaho Code.

613.-- 614. (RESERVED)

615. PROPERTY EXEMPT FROM TAXATION - CERTAIN INTANGIBLE PERSONAL PROPERTY (RULE 615).
Section 63-602L, Idaho Code

01. Definitions. The following definitions apply to the exemption for certain intangible personal property.

a. Contracts and contract rights. Contracts and contract rights are enforceable agreements, which establish mutual rights and responsibilities, and rights created under such agreements. Contracts and contract rights do not include tax credits received by low-income housing properties under Section 42 of the Internal Revenue Code.

b. Copyrights. Copyrights are rights granted to the author or originator of literary or artistic productions, by which he or she is invested with the sole and exclusive privilege of making, publishing or selling copies for a specified time.

c. Custom computer programs. Custom computer programs means those programs defined in Section 63-3616, Idaho Code.

d. Customer lists. Customer lists are proprietary lists containing information about a business enterprise’s customers.

e. Franchises. Franchises are special privileges.

f. Goodwill. Goodwill is the expectation of continued public patronage of a business. Goodwill is the
ability of a business to generate income in excess of a normal rate due to such things as superior managerial skills, superior market position, favorable community and customer reputation and high employee morale.

 g. Licenses. Licenses are permissions to do acts, which are not allowed without such permissions.

 h. Method A. Method A is the method by which the value of exempt intangible personal property is excluded from the value of operating property by subtracting the market value of exempt intangible personal property from the market value of the operating property at the system level.

 i. Method B. Method B is the method by which the value of exempt intangible personal property is excluded from the value of operating property by subtracting the market value of exempt intangible personal property from the market value of the operating property at the state level.

 j. Method C. Method C is the method by which the value of exempt intangible personal property is excluded from the value of operating property by using valuation models which value only the non-exempt assets.

 k. Patents. Patents are grants from the government conveying and securing the exclusive right to make, use and sell inventions.

 l. Rights-of-way which are possessory only and not accompanied by title. Rights-of-way, which are possessory only and not accompanied by title, are easements by which grantees acquire only the rights to pass over or to access for installation or maintenance, without acquiring exclusive use of the rights-of-way.

 m. Trademarks. Trademarks are marks of authenticity, through which products of particular manufacturers or vendible commodities of particular merchants may be distinguished from those of others.

 n. Trade secrets. Trade secrets are formulas, patterns, compilations, programs, devices, methods, techniques or processes, deriving independent economic values from not being generally known by other persons who can obtain economic values from disclosure or use. Trade secrets are the subjects of efforts that are reasonable to maintain secrecy.

 02. Tangible Property Value Not Affected by Intangible Personal Property Value. The values of the exempt intangible personal properties will not affect the values of any tangible properties or the value of the attributes of any tangible properties, regardless of the role of the intangible personal properties in the use of the tangible properties. The exempt values will not include any values attributable to availability of a skilled work force, condition of surrounding property, geographic features, location, rights-of-way, accompanied by title, view, zoning, and attributes or characteristics of real properties.

 03. Operating Property Election, Reporting and Methods. The following apply to operating property for the identification of valuation methods to be used by the Commission, election of Method A, Method B or Method C by the property owners, reporting by owners and valuation using Method C.

 a. Identification of valuation methods. When the Commission mails the blank Operators’ Statements to the property owners, the Commission will identify proposed changes in valuation methods compared to those relied on in the prior year.

 b. Election default. In the event of default of the taxpayer to make an election, the Commission will use the method proposed in the notice accompanying the Operator’s Statement.

 c. Election of exclusion method. When submitting the Operator’s Statement, the owner has the right to elect the method for exclusion of the values of the exempt intangible personal properties from the operating property value.

 d. Amending Election. An owner may amend the elected method if written notice is received at least seven (7) business days prior to a hearing under Rule 407 of these rules.
e. Reporting. The Commission will consider the value and supporting data provided by the owners. If no supporting intangibles valuation information is provided by the owners, known exempt intangible personal property will be subtracted or will not be impounded in the value.

f. Valuation using Method C. When the owner elects Method C, the Commission will give primary consideration to the cost less depreciation model, without regulatory adjustment, in valuing tangible personal property and non-exempt intangible personal property. Only if this model fails to produce market value of the tangible personal property and nonexempt intangible personal property, will the Commission consider other appropriate valuation models.

04. Personal Property Reporting for Locally Assessed Property. The exemption for custom software, contracts and contract rights will be claimed by scheduling such property on the owner’s personal property declaration form.

616. (RESERVED)

617. AGRICULTURAL LAND VALUATION DEFINITIONS AND GUIDELINES.

Section 63-602K, Idaho Code

01. Definitions.

a. Actual Use Value of Agricultural Land. The actual use value of agricultural land will be the landlord’s share of net income per acre, capitalized by the annual rate required by Section 63-602K, Idaho Code, plus a component for the local tax rate. The Actual Use Value will be considered market value for assessment purposes.

b. Economic Rent. Economic rent is the average gross income per acre received by a landlord from either a cash rent or crop share rental agreement. Only the rent solely attributable to the agricultural land is included in economic rent.

c. Net Income (Rent). Net income is determined by deducting the landlord’s share of all typical current expenses from economic rent per acre.

d. Agricultural Area. An identifiable geographical area of similar agricultural land.

02. Determination of Average Crop Rental Rates.

a. Determine the average per acre gross income from individual crop cash rents, whole farm cash rents, or crop share typical to the Agricultural Area over the immediate past five (5) growing seasons as reported by local farmers.

b. If data from local farmers is insufficient, data typical to the Agricultural Area from third party providers, such as the United States Department of Agriculture (USDA), University of Idaho Crop Enterprise Budgets, or similar sources, may be used.

c. The choice to use cash rent or crop share analysis in determining the taxable value of agricultural land should be predicated on the quantity and quality of data available when developing a supportable value conclusion.

03. Determination of Farm Credit Services Capitalization Rate.

a. The State Tax Commission will gather the interest rate data from the Spokane office of the Farm Credit Services and average the rate over the immediate past five (5) years and distribute the rate annually to...
assessors by the second Monday in September.

b. The local tax rate component is the rate most applicable to the Agricultural Area.

c. The local tax rate will be added to the Farm Credit Services capitalization rate to develop the overall capitalization rate.

04. Calculation of Net Income from a Cash Rent Analysis. Net Income from cash rent for land secondary categories 1 and 3 is calculated in the following manner:

a. Crops Grown. Determine the crops typically grown in the area.

b. Economic Rent. Determine the average per acre gross income from individual crop rents or whole farm cash rents typical to the Agricultural Area over the immediate past five (5) years.

c. Landlord’s Expenses. Determine the landlord’s share of all typical expenses paid in the immediately preceding growing season.

d. Landlord’s Net Income. Subtract the landlord’s share of all typical expenses from the average gross income per acre for the immediately preceding year to determine net income.

05. Calculation of Net Income from a Crop Share Analysis. Net income from crop share rent for secondary land categories 1 and 3 is calculated in the following manner:

b. Average Crop Production. Determine the most recent five (5) year average production for typical crops grown in the Agricultural Area.

c. Average Commodity Prices. The Tax Commission will publish five (5) year average crop prices by surveying publicly available data from various sources, including the annual crop summary published by the USDA National Agricultural Statistics Service (NASS). Average crop prices determined in this manner by the Tax Commission should be considered guidelines when determining net income, subject to modification based on local market data.

d. Gross Income. Multiply average crop production per acre by the average commodity price to determine gross income per acre.

e. Landlord’s Share of Gross Income. Determine the landlord’s share of gross income per acre from a crop rotation typical to the Agricultural Area.

f. Landlord’s Expenses. Determine the landlord’s share of all typical expenses paid in the immediately preceding growing season.

g. Net Income. Subtract the landlord’s share of all typical expenses from the landlord’s share of gross income to determine net income.

06. Calculation of Grazing and Meadow Land Net Income. Net income from grazing and meadow rent for land secondary categories 2, 4, and 5 is calculated in the following manner:

a. Animal Unit Month (AUM) Defined. An AUM consists of the amount feed for a one thousand (1,000) pound cow-calf pair or other animal equivalent for one month.

b. Determine the gross yearly income of an AUM by multiplying the five (5) year average of locally reported rent per AUM or third-party provider equivalent by the average number of months of the grazing season.
c. Divide the total acres grazed by the total number of cow-calf pairs, or other animal equivalent, to determine the number of acres making up an AUM. (7-1-21)T

d. Divide the income per AUM by the number of acres per AUM to determine a gross annual income per acre. (7-1-21)T

e. Subtract landlord’s typical expenses from the immediately preceding year to determine net income per acre. (7-1-21)T

07. Calculation of Value Estimate per Acre to be used for Categories 1-5. Divide the Net Operating Income by the overall capitalization rate to calculate a value estimate per acre. (7-1-21)T

08. Cross Reference. For eligibility criteria, see Rule 645; for compliance standards, see Rule 131. (7-1-21)T

618. COMPUTATION OF THE IDAHO IRRIGATION EXEMPTION (RULE 618).
Section 63-602N, Idaho Code

01. Production and Delivery Ratio. This ratio is computed by comparing the Idaho investment in production and delivery property to the investment for all Idaho unitary property. The resulting ratio will be known as the production and delivery ratio. (7-1-21)T

02. Idaho Production and Delivery Value. This is computed by multiplying the allocated Idaho unitary value, before any exemptions, by the production and delivery ratio. (7-1-21)T

03. Irrigation Use Ratio. This ratio is computed by comparing Idaho irrigation revenue to the total Idaho revenue from unitary operations. The resulting ratio will be known as the irrigation use ratio. (7-1-21)T

04. Idaho Irrigation Exemption. This is computed by multiplying the Idaho production and delivery value by the irrigation use ratio. (7-1-21)T

619. PROPERTY EXEMPT FROM TAXATION — FACILITIES FOR WATER OR AIR POLLUTION CONTROL (RULE 619).
Section 63-602P, Idaho Code

01. Exempt Property. Only those portions of installations, facilities, machinery, or equipment which are devoted exclusively to elimination, control, or prevention of water or air pollution are exempt. The owner of the property will annually apply for exemption. (7-1-21)T

02. Calculation of Partial Exemption. The exemption will not include the percentage of the value for any portion of the facility which is used for the production of marketable by-products. The exempted value is the difference between the market value of the pollution control facilities and the present value of the net income from the sale of by-products. Net income will be determined by subtracting the expenses of sale, raw materials required to produce by-products, and transportation to F.O.B. point from gross sales of recovered by-product. (7-1-21)T

03. Ineligibility. Landfills, toxic waste dumps, or storage facilities deriving revenue from processing or storing pollution or pollution by-products generated by other persons or businesses are ineligible for this exemption. (7-1-21)T

04. Filing Procedure. Application for exemption will be made in the following manner: (7-1-21)T

a. The property owner may obtain the application form issued by the Commission from the county assessor or the Commission. (7-1-21)T

b. The property owner completes the application to report an itemized listing of all installations, facilities, machines or equipment qualifying for exemption. Each component part of the system must be identified by a brief description (e.g., Dust Collector), the date of original acquisition, dollar amount of the original cost, and the
percentage of the component devoted exclusively to pollution control. The application must be signed by the owner or duly authorized agent. Lack of required information will be grounds for denial. (7-1-21)T

c. The completed application must be filed with the county commissioners by April 15 for locally assessed property or with the Commission by April 30 for centrally assessed property. (7-1-21)T

05. Inspection. The county or Commission representative may inspect the property or audit the owner’s records to identify components for which the exemption has been applied. Those components listed on the application must be identifiable as capital assets of the property. (7-1-21)T

06. Exemption Reported on Abstracts. For locally assessed property, exempt value will be reported on the property abstracts. (7-1-21)T

07. Exemption for Portion of Water Corporation Property. A portion of water corporation property may be exempt from taxation. (7-1-21)T

a. On or before April 30, each year, the Commission will receive a notice from the Idaho Public Utilities Commission listing the value of the investment percentage of the total plant of each water company that is devoted exclusively to the elimination, control, or prevention of water pollution or air pollution. (7-1-21)T

b. In estimating the market value of the company for assessment purposes, the Commission will take into consideration the investment as certified by the Public Utilities Commission that such equipment bears to the total invested plant of the company. (7-1-21)T

c. The Commission will notify the water company of the estimated market value, gross assessed value, and the amount of exemption allowed under Section 63-602P, Idaho Code, on or before July 15. (7-1-21)T

d. Any person or party wishing to contest the percentage of exemption reported to the Commission by the Public Utilities Commission may submit a written request for a public hearing to the Commission by August 1 of the current tax year. The request for a hearing will state the petitioner’s grounds for contesting the percentage reported by the Public Utilities Commission. On or before the second Monday of August the Commission will notify the petitioner of the hearing time and place. (7-1-21)T

620. EXEMPTION FOR NEVER OCCUPIED RESIDENTIAL IMPROVEMENTS (RULE 620).

Section 63-602W, Idaho Code

01. Qualifying Residential Improvements. Improvements to any land parcel that are residential and have never been occupied for residential purposes may qualify for the exemption pursuant to Section 63-602W, Idaho Code. This rule is effective January 1, 1998. Such qualifying improvements can include the following: (7-1-21)T

a. Single family residences, residential townhouses, and residential condominiums; and (7-1-21)T

b. Attached or unattached ancillary structures which are not intended for commercial use and are constructed contemporaneously with the improvements identified in Paragraph 620.01.a. Such structures may include sheds, fences, swimming pools, garages, and other similar improvements, subject to the limitations of Subsection 620.02. (7-1-21)T

02. Non-Qualifying Improvements. Never previously occupied residential improvements listed in the following Subsections do not qualify for this exemption. (7-1-21)T

a. Location. Ancillary structures (see Paragraph 620.01.b.) that are not located on the parcel on which the improvement is located, identified in Subsection 620.01.a. of this rule, will not qualify for the exemption provided pursuant to Section 63-602W, Idaho Code. (7-1-21)T

b. Remodeled improvements. Remodeling of previously occupied residential improvements does not qualify for the exemption. (7-1-21)T
Improvements included in land value. Improvements included in land value, such as septic tanks, wells, improvements designed to provide utility services or access, and other similar improvements will not qualify for the exemption.

621. -- 624. (RESERVED)

625. HOMEOWNERS EXEMPTION ON OCCUPANCY TAX ROLL (RULE 625).
Sections 63-317, 63-602G, Idaho Code

01. Eligibility for Multiple Exemptions. Obtaining the exemption in Section 63-602G, Idaho Code, will not preclude a property owner from eligibility for the exemption granted by Section 63-317, Idaho Code. More than one (1) property may be eligible for this exemption provided that ownership and occupancy of the properties occurs at different times during the year and application is made on the owner's primary residence.

02. Separate Applications. The application for this exemption may substitute for the application required by Section 63-602G, Idaho Code.

626. PROPERTY EXEMPT FROM TAXATION -- CERTAIN PERSONAL PROPERTY (RULE 626).
Sections 63-105(A), 63-201, 63-302, 63-308, 63-313, 63-602Y, 63-602KK, Idaho Code

01. Locally Assessed Property - Application Required.

a. The taxpayer must file one (1) or more of the lists of taxable personal property as required by Section 63-302, Section 63-313, or Section 63-602Y, Idaho Code if the total market value of the property to be listed is greater than one hundred thousand dollars ($100,000). The filing of said list(s) will constitute the filing of an application for exemption. For purposes of reporting personal property, the value is to be based on market value, not book value.

b. Taxpayers establishing initial eligibility for the exemption provided in Section 63-602KK(2), Idaho Code, may in lieu of a list, file only an application attesting to ownership of otherwise taxable personal property having a cost of one hundred thousand dollars ($100,000) or less. In providing such cost, newly acquired personal property items acquired at a price of three thousand dollars ($3,000) or less, that are exempt pursuant to Section 63-602KK(1), Idaho Code, will not be included. The application must be filed no later than April 15th of the first year for which the exemption is claimed.

02. Locally Assessed Property - Taxpayers’ Election of Property Location.

a. Multiple Locations Within A County. In cases where the taxpayer has personal property located in multiple places within the county, the taxpayer may elect the location of the property to which the exemption will apply by filing the “Idaho Personal Property Exemption Location Application Form” available from the Commission (Commission) for this purpose. To make the election for property required to otherwise be listed as provided in Section 63-302, Idaho Code, the form must be filed with the county assessor by April 15. For taxpayers with personal property required to be listed as provided in Sections 63-602Y and 63-313, Idaho Code, any application specifying the location of the property to which the exemption provided for in Section 63-602KK(2) will apply, must be filed by the dates specified for filing the lists required by these Sections. Should the taxpayer not make an election as to where to apply the exemption, the county will have discretion regarding the property to which the exemption will apply. However, to the extent possible and assuming the assessor is not aware of any changes in eligibility, the exemption will be first applied to the same property to which it applied in the immediate prior year.

b. Multiple locations in different counties. The one hundred thousand dollar ($100,000) limit on the exemption applies to a taxpayer’s otherwise taxable personal property within any county. If the taxpayer owns qualifying personal property in more than one county, the limit is one hundred thousand dollars ($100,000) in market value per county.
with the operator’s statement filed pursuant to Rule 404 of these rules. The filing of such a list will constitute the filing of an application for this exemption. Except as provided in Subsections 626.03.b. and 03.c. of this rule, for such personal property to be considered for the exemption, the operator’s statement must include:

i. A description of the personal property located in Idaho.
ii. Cost and depreciated cost of the personal property located in Idaho.

For private railcar fleets subject to assessment by the Commission, the Idaho taxable value will be reduced by subtracting the lesser of the Idaho taxable value before the exemption or the product of one hundred thousand dollars ($100,000) times the number of counties in Idaho in which the fleet operates. Provided that the remaining taxable value is five hundred thousand dollars ($500,000) or more, this value is to be apportioned to each taxing district and urban renewal revenue allocation area in accordance with procedures described in Rule 415 of these rules.

c. After subtraction of the personal property exemption calculated as provided in Subsection 626.03.b. of this rule, for private railcar fleets subject to assessment by the Commission, and having an Idaho taxable market value of less than five hundred thousand dollars ($500,000), neither the final amount of the exemption nor the taxable value of the fleet will be subject to apportionment, and the remaining taxable value will be taxed as provided in Rule 415 of these rules.

d. When operating property companies have locally assessed property, any exemption pursuant to Section 63-602KK(2), Idaho Code must be applied to the locally assessed property first. In this case, the county assessor must notify the Commission of the value of the exemption granted. If such exemption is entered on the property roll, such notification must be made by the third Monday in July. The Commission will then reduce the amount of the exemption otherwise to be granted to the centrally assessed operating property of the company by the exemption value reported by the assessor. The Commission will notify the company of the reduction in exemption by the fourth Monday in July. This reduction will be made before determining the company's Idaho taxable value. No additional exemption pursuant to Section 63-602KK(2), Idaho Code, will be granted for any locally assessed property of operating property companies.

04. Valuation Assessment Notice. The valuation assessment notice required by Section 63-308, Idaho Code, must show the taxable market value before granting the exemption provided in Section 63-602KK(2), Idaho Code, the exempt market value pursuant to the exemption provided in Section 63-602KK(2), Idaho Code, and the net taxable market value of the personal property. After the year of initial eligibility, if the net taxable market value is zero, no valuation assessment notice is required.

05. Correction of Personal Property Tax Replacement Amounts. If subsequent to finalization of the amount of replacement money to be paid to any county, an amount paid on behalf of any taxpayer is disapproved by the county, the county will so notify the Commission, which will adjust the payment to the county. The county may begin proceedings to recover any remaining excessive amounts paid on behalf of any taxpayer, pursuant to the recovery procedures found in Section 63-602KK(7), Idaho Code.

06. Limitation on Eligibility for the Exemption.

a. Except for taxpayers claiming and receiving the exemption provided for in Section 63-4502, Idaho Code, taxpayers receiving the personal property exemption provided in Section 63-602KK, Idaho Code, may be eligible for, and are not precluded from, other applicable exemptions.

b. Personal property exempt in accordance with statutes other than Section 63-602KK, Idaho Code, will not be included in determining when the one hundred thousand dollar ($100,000) limit provided in Section 63-602KK(2) is reached.

c. Taxpayers with requirements to annually apply for, or list personal property for, which other statutorily provided personal property exemptions are sought, must continue to comply with the requirements of these statutes.
d. Improvements, as defined or described in Sections 63-201 and 63-309, Idaho Code, will not be eligible for the exemption provided in Section 63-602KK. Improvements will be deemed to include mobile and manufactured homes and float homes, regardless of whether such property is considered personal property. Leasehold real properties and other leasehold improvements that are structures or buildings will be considered improvements, and therefore ineligible for the exemption. Structures, such as cell towers, are improvements and therefore are not personal property eligible for the exemption. (7-1-21)

07. Special Rules for the Exemption Provided in Section 63-602KK(1), Idaho Code. (7-1-21)
   a. Newly acquired items of personal property, exempt as provided in Section 63-602KK(1), are not to be reported on any list otherwise required pursuant to Sections 63-302, 63-602Y, and 63-313, Idaho Code. (7-1-21)
   b. The exemption provided in Section 63-602KK(1), Idaho Code, is in addition to the one hundred thousand dollar ($100,000) per taxpayer, per county exemption provided in Section 63-602KK(2), Idaho Code. (7-1-21)
   c. No application for the exemption provided in Section 63-602KK(1), Idaho Code, is necessary. (7-1-21)
   d. The requirement in Section 63-602KK(6) requiring the assessor to provide the application by no later than March 1, applies only to taxpayers who have an obligation to file any application. (7-1-21)

08. Limitation on Replacement Money. (7-1-21)
   a. In addition to replacement money reductions due to corrections as provided in Subsection 626.06 of this rule, there may be changes and reductions as follow:
      i. If a taxing district dissolves, the state will make no payment of the amount previously certified for that district, and when an urban renewal district revenue allocation area dissolves and is no longer receiving any allocation of property tax revenues, the state will discontinue payment of amounts previously certified for that revenue allocation area, beginning with the next scheduled distribution. (7-1-21)
      ii. If taxing districts or revenue allocation areas within urban renewal districts are consolidated, the amounts of replacement money attributed to each original district or revenue allocation area will be summed and, in the future, distributed to the consolidated taxing or urban renewal district. (7-1-21)
      iii. No urban renewal district will receive replacement money based on exempt personal property within any revenue allocation area (RAA) established on or after January 1, 2013, or within any area added to an existing RAA on or after January 1, 2013. (7-1-21)
      iv. Any payment made to the Idaho Department of Education, as provided in Subsection 626.09 of this rule will be discontinued if the state authorized plant facilities levy is not certified in any year. Certification in subsequent years will not cause any resumption of this payment. (7-1-21)
   b. There will be no adjustment to replacement money if personal property not receiving the exemption found in Section 63-602KK(2), Idaho Code, receives this exemption in the future. (7-1-21)

09. Special Provision For Replacement Money For State Authorized Plant Facilities Levy. The amount of replacement money calculated based on any 2013 state authorized plant facilities levy will be remitted directly to the Idaho Department of Education for deposit to the Public School Cooperative Fund. (7-1-21)

10. Special Provision For Exempt Personal Property Within Urban Renewal Revenue Allocation Areas (RAAs). When personal property subject to the exemption in Section 63-602KK(2), Idaho Code, is within an RAA, any adjustment will first be to the increment value, and there will be no adjustment to the base value of the RAA unless the remaining taxable market value of the parcel is less than the most current base value of the parcel. In that case, the base value will be reduced. The amount to be subtracted is to be determined on a parcel by parcel basis in accordance with procedures found in Rule 804 of these rules. (7-1-21)
11. No Reporting of Exempt Value. Beginning in 2014, taxing district values submitted to the Commission as required in Section 63-510, Idaho Code, will not include or indicate the otherwise taxable value exempt pursuant to Section 63-602KK(2), Idaho Code.

12. Cross Reference. For information on transient personal property, see Rule 313 of these rules. For information on the definition of personal property see Rule 205 of these rules. For information on the definition of a taxpayer, see Rule 627 of these rules. For the purpose of this rule, “taxpayer” means the claimant of the exemption pursuant to section 63-602KK(2), Idaho Code, and must be a person, as that term is defined in Section 63-201, Idaho Code.

627. PROPERTY EXEMPT FROM TAXATION -- CERTAIN PERSONAL PROPERTY – OWNERSHIP CLARIFICATION (RULE 627).

Section 63-602KK(2), Idaho Code

01. Idaho Code Section 63-602KK(2) Provides Persons With One Exemption in Each Idaho County in Which They Meet the Ownership Rules. Although persons are limited to receiving one (1) exemption per county, a person owning more than one (1) business within one (1) county may be entitled to more than one (1) exemption within the county.

02. Illustration of Common Enterprise and IRC Section 267 Restriction. For purposes of the Idaho Code Section 63-602KK(2) exemption, a person includes two (2) or more individuals or organizations using the property in a common enterprise, and the individuals or organizations are within a relationship described in Section 267 of the Internal Revenue Code. This is illustrated in the following chart:

![Diagram](image)

a. First, an analysis must be made to determine if a common enterprise exists. If entities or individuals are organized to manage a common scheme of business, they would be in a common enterprise.

i. Horizontal Commonality is demonstrated by the following chart:
ii. Vertical Commonality is demonstrated by the following chart:

Here, a business operation is split so that each step in a process is designated to a different LLC. All the steps rely on the one below in order to produce the final product, or process.

b. Second, an analysis would be made to determine whether the ownership between the entities is within the relationships identified in Section 267 of the Internal Revenue Code. If such a relationship is found to exist, and the businesses are in a common enterprise, then the entities or individuals would be considered one (1) person for purposes of this exemption.
c. Ownership alone does not determine whether entities are considered one (1) person for purposes of this exemption. Two (2) businesses can have identical ownership, and each receive the exemption, providing they do not operate as a common enterprise. In addition, entities in a common enterprise can receive separate exemptions, providing that their ownership does not consist of a relationship identified in Section 267 of the Internal Revenue Code.

d. The following examples are given to illustrate eligibility situations related to common enterprise and related ownerships:

i. Example 1. This is an example of a common enterprise, that is entitled to two (2) exemptions because the owners are not related in a manner as described in Section 267 of the Internal Revenue Code.

So long as Bob and John are not related in a manner identified in IRC 267, two (2) exemptions exist. One (1) for Factory Labor, LLC. The other for all of Bob’s businesses, because they are in a common enterprise and are all owned by him.

ii. Example 2. This is an example of the same owner with multiple businesses not all united in a common enterprise. Bob’s car businesses are common enterprises, and therefore entitled to only one (1) exemption for all the car businesses. Bob’s used furniture business is not involved with Bob’s car businesses, so Bob is entitled to an additional exemption related to his used car business.
iii. Example 3. This is an example of multiple businesses being entitled to only one (1) exemption because a common enterprise exists and all the businesses are constructively owned in a manner identified in IRC 267.

iv. Example 4. This is an example showing how owners of common enterprises may intersect.

Here, one (1) exemption exists for all of the entities because they are in a common enterprise, due to their vertical commonality, and are all constructively owned by Bob, pursuant to IRC 267.
e. In cases of partial ownership as noted in example four wherein Bob owns ten percent (10%) and Dump Trucks, LLC owns ninety percent (90%) only the majority owner is eligible to receive this exemption.

03. Cross Reference. For information on applying for the exemption provided in Section 63-602KK(2), Idaho Code, see Rule 626 of these rules.

628. PARTIAL EXEMPTION FOR REMEDIATED LAND (RULE 628).

01. Definitions. For the purpose of implementing the partial exemption for remediated land the following terms are defined.

a. Application for Partial Exemption. The “application for partial exemption” is the form, provided by the Commission, available from the Commission or the county assessor and used to apply for the exemption provided by Section 63-602BB, Idaho Code.

b. Certificate of Completion. The “certificate of completion” is the document issued by the Department of Environmental Quality after the successful completion of a voluntary remediation work plan pursuant to Section 39-7207(1), Idaho Code. The person receiving the “certificate of completion” will record a copy of the “certificate of completion” with the deed for the “site” on which the remediation took place pursuant to Section 39-7207(2), Idaho Code.

c. Covenant Not to Sue. The “covenant not to sue” is the document issued by the Department of Environmental Quality pursuant to Section 39-7207(4), Idaho Code, upon request from a person receiving the “certificate of completion.”
d. Qualifying Owner. The “qualifying owner” is the entity identified as the owner on the deed to the property at the time the “certificate of completion” is issued by the Department of Environmental Quality. (7-1-21)

e. Remediated Land. The “remediated land” is the “site” on which the remediation, as defined in Section 39-7203(7), Idaho Code, has been completed. (7-1-21)

f. Remediated Land Value. The “remediated land value” is the market value for assessment purposes of the land on January 1 of the year following the issuance of the “certification of completion” (after remediation) less the market value for assessment purposes of the land on January 1 prior to the issuance of the “certification of completion” (before remediation). (7-1-21)

g. Site. As defined in Section 39-7203(8), Idaho Code, a “site” is a parcel of real estate for which an application has been submitted under Section 39-7204, Idaho Code. The “site” will be that parcel identified on the application as described in IDAPA 58.01.18, “Idaho Land Remediation Rules,” Subsection 020.02.c., including the assessor’s parcel numbers(s) and on the voluntary remediation work plan as described in IDAPA 58.01.18, Section 022. (7-1-21)

02. Procedures to Qualify for the Exemption. The “qualifying owner,” or agent thereof, must complete the following procedures for the “site” to qualify for the exemption. (7-1-21)

a. Obtain and complete the “application for partial exemption.” (7-1-21)

b. Submit the “application for partial exemption” and copies of the “certificate of completion” and the “covenant not to sue” to the county assessor of the county in which the “site” is located. If the legal description of the “site” and a map identifying the location and size of facilities and relevant features is included in the information supporting the voluntary remediation work plan, pursuant to IDAPA 58.01.18, “Idaho Land Remediation Rules,” Subsection 022.03.a.i., a copy of this information will be included with the “application for partial exemption.” (7-1-21)

c. File the “application for partial exemption” with the county assessor on or before March 15 of the year for which the exemption is claimed. The “application for partial exemption” must be filed only once, during the first year of seven (7) year exemption period. (7-1-21)

03. Calculation of the Exemption. The exemption is fifty percent (50%) of the “remediated land value.” This exempt value is constant throughout the term of the exemption. The amount of the exemption will never exceed the current market value of the land. (7-1-21)

04. Exempt Value Subject to Taxation. For any property eligible for the exemption provided by Section 63-602BB, Idaho Code, the exempt value will immediately be subject to taxation when any of the following events occur: (7-1-21)

a. If the “covenant not to sue” is rescinded during any year the exemption is in effect, the exempt value will immediately be subject to taxation for the entire year. Pursuant to IDAPA 58.01.18, Subsection 025.02, the Department of Environmental Quality will notify the assessor of the county in which the “site” is located that the “covenant not to sue” is rescinded. (7-1-21)

b. If the “site” is transferred to a new owner during any year in which the exemption is in effect, the exempt value will immediately be subject to taxation for the entire year. (7-1-21)

c. The seven (7) year exemption period expires. (7-1-21)

05. Sites Previously Granted the Exemption are Ineligible. No “site” will be granted the exemption provided in this section if said “site” had been previously granted this exemption regardless of whether the entire seven (7) years of the exemption had been used. (7-1-21)
629. PROPERTY EXEMPT FROM TAXATION -- QUALIFIED EQUIPMENT UTILIZING POST CONSUMER OR POST INDUSTRIAL WASTE (RULE 629).
Section 63-602CC, Idaho Code

01. Qualified Personal Property. Only that qualified personal property, located in Idaho, which utilizes postconsumer waste or post industrial waste in the production of a “product,” will be exempt from taxation as personal property. The owner of the equipment will, annually, petition the assessor for exemption.

02. Application. The exemption will be allowed only if the owner files the form prescribed by the Tax Commission, which reports for the previous calendar year, the actual time each piece of qualified equipment is in use in the production of qualified “product” and non-qualified “product.”

03. Exempt Petition’s Definitions. Petition for exemption will be filed in the following manner:

a. Forms. Declaration forms for the reporting of personal property qualifying for exemption may be obtained from the county assessor or Tax Commission.

b. Declaration - qualified equipment. The declaration will contain an itemized listing of all machinery or equipment qualifying for exemption. Each component part of the system must be identified by a brief description, the date of purchase and original cost, and the percentage of production time the component is devoted exclusively to the production of “product.” The petition must be signed by the owner or duly authorized agent. Lack of required information will be grounds for denial.

c. Declaration - non-qualifying equipment. The declaration will contain an itemized listing of all non-qualifying machinery or equipment used in the production of “product.” This declaration will list all non-qualifying taxable personal property as described in Section 63-302, Idaho Code.

d. Timing. The completed declarations must be filed with the county assessor by March 15th of each year.

e. Inspection. The county or Tax Commission representative may inspect the property or the owner’s records to identify components petitioned for exemption. Those components listed on the declaration must be identifiable as qualifying personal property assets of the claimant.

630. TAX EXEMPTION FOR NEW CAPITAL INVESTMENTS (RULE 630).
Section 63-4502, Idaho Code

a. Prior to receiving the benefit of the tax exemption, the taxpayer will notify the county in which the project site is located that the taxpayer expects to meet the criteria of the New Capital Investments Tax exemption. Notification will be accomplished by submitting a written declaration or notification with the board of county commissioners containing the following information:

i. The name and address of the taxpayer;

ii. A description of the new capital investment project;

iii. The assessor’s parcel number(s) identifying the location of the project site;

iv. The date that the qualifying period began;

v. A statement that the taxpayer will make a qualified new capital investment of at least one billion dollars ($1,000,000,000) within the qualifying period, which will be specified.

b. The notification required hereunder may be submitted by the taxpayer to the board of county
commissioners at any time after the qualifying period begins. However, if the notification is submitted after April 15 in a given year, a taxpayer may receive the benefit of the exemption only for tax years following the year in which the notification is filed. Submittal of the notification required hereunder will constitute application for the exemption in compliance with Section 63-602, Idaho Code. Until the taxpayer meets all the requirements for the New Capital Investments Tax exemption, for each year after the first year in which the exemption is granted, the notice must identify the name and address of the taxpayer and the location of the project site, but does not need to provide additional information as required in Paragraph 630.01.a. of this rule.

02. Notification of New Capital Investment – Centrally Assessed Operating Property. For taxpayers applying for the exemption for operating property subject to assessment by the Tax Commission, the taxpayer will provide notice to the Tax Commission no later than April 30 of the first year the exemption is sought, as part of the operator’s statement required pursuant to Section 63-404, Idaho Code, and Rule 404 of these rules, that the taxpayer expects to meet the criteria of the New Capital Investments Tax exemption.

a. To be eligible for the exemption, information to be provided on the operator’s statement must include:

i. A description of the new capital investment project;

ii. The location of the project site, including county and tax code area(s);

iii. The date that the qualifying period began;

iv. A statement that the taxpayer will make a qualified new capital investment of at least one billion dollars ($1,000,000,000) within the qualifying period, which will be specified.

b. The notification required hereunder may be submitted by the taxpayer to the Tax Commission at any time after the qualifying period begins. However, if the notification is submitted after April 30 in a given year, a taxpayer may receive the benefit of the exemption only for tax years following the year in which the notification is filed. Submittal of the operator’s statement including notification information required hereunder will constitute application for the exemption in compliance with Section 63-602, Idaho Code. Until the taxpayer meets all the requirements for the New Capital Investments Tax exemption, for each year after the first year in which the exemption is granted, the notice must identify the location of the project site, but does not need to provide additional information as required in Paragraph 630.02.a. of this rule.

03. Notification of New Capital Investment – Taxpayers Applying on Behalf of both Locally and Centrally Assessed Property. A taxpayer may apply for this exemption on behalf of both locally and centrally assessed property located in the same county.

a. The taxpayer must comply with notice requirements in Subsection 630.01 of this rule for locally assessed property and for centrally assessed property the April 30 filing deadline found in Paragraph 630.02.b. of this rule will apply.

b. Once the taxpayer notifies the Tax Commission as provided in Subsection 630.02 of this rule, the Tax Commission will notify the county commissioners and county assessor by the second Monday in May of the taxpayer’s new capital investment project property to be locally assessed and of the taxpayer’s filing an application for the exemption. By the later of the fourth Monday in July or the conclusion of the county board of equalization, as provided in Section 63-501, Idaho Code, the county clerk must provide to the Tax Commission a statement of the equalized assessed value of the taxpayer’s locally assessed property.

c. The exemption will be granted by the Tax Commission, which will notify the county commissioners and taxpayer by the first Monday in September of the amount of the exemption and the remaining taxable value of the centrally assessed operating property of the taxpayer. This remaining value is to be calculated so that the sum of the centrally and locally assessed property of the taxpayer in the county in which the exemption is being granted does not exceed four hundred million dollars ($400,000,000).

d. The exemption will apply to the combined total value of the locally and centrally assessed property
04. Property of the Taxpayer. Property of a taxpayer includes all real, personal, or operating property that is owned by or leased to the taxpayer under an agreement that makes the taxpayer responsible for the payment of any property taxes on the property.

05. New Construction. Property taxable under Section 63-4502, Idaho Code and that qualifies for listing on the new construction roll as described by Section 63-301(A)3, Idaho Code, should be listed on the new construction roll.

06. Failure to Make the Qualifying New Capital Investment. If the taxpayer fails to make the qualifying new capital investment during the qualifying period, the property will lose the exemption granted by this section at the conclusion of the qualifying period.

b. In the event that, at any time during the qualifying period, the taxpayer no longer intends to fulfill the qualified new capital investment requirements, the taxpayer must notify the county commissioners who will notify the county assessor. Upon receipt of such notification, the property previously granted the exemption will become taxable for the remainder of the year in which the notification is provided, pursuant to Section 63-602Y, Idaho Code. Failure of the taxpayer to provide such notice does not prevent the county assessor from discovering the taxpayer’s intent through alternate procedures and then notifying the county commissioners that the requirements for the exemption are no longer met. In such an instance, the taxpayer must be notified and may appeal loss of the exemption to the county board of equalization as provided in Section 63-501A, Idaho Code.

c. In the event that, at any time during the qualifying period, the taxpayer no longer intends to fulfill the qualified new capital investment requirements, the taxpayer must notify the county commissioners who will notify the county assessor. Upon receipt of such notification, the property previously granted the exemption will become taxable. If the notification is received before the Tax Commission has completed the assessment of the operating property for a given year, the exemption will not be granted for that year. If the notification is received after the assessment is completed, the exemption will be rescinded beginning the following tax year. If the taxpayer owns centrally and locally assessed property, the Tax Commission will also notify the county commissioners and assessor of the rescinding of the exemption.

07. Continuation of Tax Exemption Following the End of the Qualifying Period – Locally Assessed Property. At any time during the qualifying period, but not later than ninety (90) days after the conclusion of the qualifying period, the taxpayer must provide notice to the county commissioners with sufficient evidence to prove that the required qualifying new capital investment has been made.

b. Once the taxpayer has successfully met all the requirements pursuant to Section 63-4502, Idaho Code, and provided notice to the county commissioners pursuant to Paragraph 630.07.a. of this rule, the county commissioners will notify the county assessor and taxpayer of the taxpayer’s continuing qualification for the exemption for all years thereafter. The county assessor will retain this notice.

c. After the year in which the taxpayer has been notified of continuing qualification as provided in Paragraph 630.07.b. of this rule, the taxpayer must continue to notify the county annually to identify the property to be exempted pursuant to Subsection 630.07. Failure to make such notification will not invalidate the exemption; the county assessor must then apply the exemption against the assessed value of the taxpayer’s highest value parcel within the county.

08. Continuation of Tax Exemption Following the End of the Qualifying Period – Centrally Assessed Operating Property.
a. At any time during the qualifying period after the requirements for this exemption have been met, but not later than ninety (90) days after the conclusion of the qualifying period, the taxpayer must provide notice to the Tax Commission with sufficient evidence to prove that the required qualifying new capital investment has been made. (7-1-21)T

b. Once the taxpayer has successfully met all the requirements pursuant to Section 63-4502, Idaho Code, and provided notice to the Tax Commission pursuant to Paragraph 630.08.a. of this rule, the Tax Commission will notify the taxpayer that the exemption will continue to be granted in perpetuity, and will notify the taxpayer annually prior to the due date for the operator’s statement that they must identify the property qualifying for the exemption in these statements. Failure to provide either notification will not invalidate the exemption: the Tax Commission must then apply the exemption against the assessed value of the taxpayer’s operating property within the county. Centrally assessed taxable property otherwise permitted to be included on the new construction roll will be reported to the county assessor for inclusion on the next available new construction roll. (7-1-21)T

09. Cross Reference. For an explanation of the treatment of new construction relating to Sections 63-802 and 63-301A, Idaho Code, see Rule 802 of these rules. (7-1-21)T

631. TAX EXEMPTION FOR INVESTMENT IN NEW OR EXISTING PLANT AND BUILDING FACILITIES UPON COUNTY COMMISSIONERS’ APPROVAL (RULE 631).

Section 63-602NN, Idaho Code

01. The Investment in Plant. In order to qualify for this exemption a taxpayer must invest at least the minimum required investment as established by county ordinance in new or existing plant or building facilities excluding the investment in land. (7-1-21)T

a. Ordinance to establish the minimum required investment. The county commissioners must pass an ordinance to establish any minimum required investment amount of not less than five hundred thousand dollars ($500,000). Once passed, any minimum so established will remain in place until superseded by another ordinance. (7-1-21)T

b. Frequency of ordinances to establish minimum required investment. Any ordinance establishing a minimum required investment must remain in effect during the tax year in which it is first in effect. After that tax year, the county commissioners may provide a different required investment amount by passing a new ordinance. However, any agreement entered into under minimum investment criteria established by prior ordinance will be effective for the duration of the exemption time period granted. (7-1-21)T

02. The Exemption. The board of county commissioners may agree to exempt all or a portion of the value of non-retail commercial and industrial real property improvements and associated personal property that would otherwise be in excess of the base value for property designated as the defined project for a period of up to five (5) years. Real property improvements owned or leased, and personal property owned, by the taxpayer applying for the exemption may be granted the exemption. Land is not eligible to be included in this exemption. (7-1-21)T

a. Base value. The base value is the taxable value, as found on the property roll, subsequent property roll, or missed property roll, of the property associated with the plant investment for the tax year immediately preceding the first year in which the exemption is to be granted. This includes the taxable value of existing buildings and personal property but not the taxable value of land. (7-1-21)T

b. Site improvements. Site improvements, which may add value to land, but are not otherwise categorized as improvements for property tax purposes, are not eligible for this exemption. (7-1-21)T

c. Mixed use properties. Non-retail portions of any mixed use building or structure otherwise used for commercial or industrial purposes may qualify. (7-1-21)T

d. Application. Except as provided in Paragraph 631.02.f. with respect to occupancy tax, the taxpayer must make application by April 15 of the first year for which the exemption is sought. Such application must be made with the county commissioners who have complete discretion to accept or deny the application. (7-1-21)T
e. Agreement for exemption. The agreement granting the exemption will be considered a contract arrangement between the county and the taxpayer for the exemption time period as granted by the county commissioners, not to exceed five (5) years. The amount of exemption as provided by the agreement may be any amount related to taxable value added due to the investment, to the extent the property’s total taxable value before considering the exemption exceeds the base value and the increase in value is not associated with or due to an increase in land value. (7-1-21)T

f. Occupancy tax. As provided in Section 63-602Z, Idaho Code, the exemption may apply to property subject to occupancy tax. Granting of the exemption from occupancy tax will not reduce the period during which the property tax exemption provided in Section 63-602NN, Idaho Code, may be granted. The April 15 application deadline is not applicable to exemption from occupancy tax, which may be granted any time during the year. (7-1-21)T

03. Examples. The exemption applies only to plant or building facilities in which the required investment is to be made during the project period and that are located at the project site. The exemption may be applied to any value increases if these increases are directly attributable to the investment. See the following clarifying examples, all of which are based on the assumptions that the county has established five hundred thousand dollars ($500,000) as the required minimum amount of investment and the county enters into an agreement with the taxpayers for the period shown in the examples. (7-1-21)T

a. A company chooses your community to tear down an existing facility and build a new manufacturing facility. Prior to the project, the base value is four million dollars ($4,000,000) which is comprised of the market value of the land three million dollars ($3,000,000) and the market value of the existing facility at one million dollars ($1,000,000), thus, the base value is one million dollars ($1,000,000). After construction, the land and facility have a taxable value of thirteen million dollars ($13,000,000), three million ($3,000,000) of which is the land value. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be nine million dollars ($9,000,000). (7-1-21)T

b. An existing company chooses to expand and build a new processing line. Prior to the project, the base value of the existing building and land is twelve million dollars ($12,000,000). After the expansion project is complete, the new processing line increased the value of the building and land to sixteen million dollars ($16,000,000), with all of the increase in value attributed to the building. Providing all conditions of the agreement have been met and the commissioners previously agreed to a full exemption, the exempt amount will be four million dollars ($4,000,000). No portion of the original taxable value of twelve million dollars ($12,000,000) can be granted this exemption. (7-1-21)T

c. A company purchases an existing building and land which are valued at eight million dollars ($8,000,000). The company will purchase new equipment in the amount of three million dollars ($3,000,000). After the investment is made, the existing land, building and equipment are now valued at twelve million dollars ($12,000,000). The additional one million dollars ($1,000,000) in building value is attributed to the contributory value of the investment. The investment did not add value to the land. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be four million dollars ($4,000,000). No portion of the original taxable value of eight million dollars ($8,000,000) can be granted this exemption. (7-1-21)T

d. A company buys a building with a prior year’s value of one million dollars ($1,000,000). The company makes application to the county commissioners requesting a full exemption for the next five (5) years for any increases in value that are directly related to its plan to invest in the facility. An agreement is reached whereby the taxpayer will be granted a limited exemption for the increase in market value up to two million dollars ($2,000,000) for three years. In the first year, the company invests two million dollars ($2,000,000) in the facility and the market value of the building increases to two million five hundred thousand dollars ($2,500,000) (not all of the investment contributes to market value). Providing all conditions of the agreement have been met, the first year exempt amount will be one million five hundred thousand dollars ($1,500,000). In year two (2), the company invests an additional eight hundred thousand dollars ($800,000) and the value of the building increases to three million three hundred thousand dollars ($3,300,000). The exemption in year two (2) will be two million dollars ($2,000,000). This is the difference between the original base value of one million dollars ($1,000,000) and the current value in year two (2), but is limited by the agreed-upon two million dollar ($2,000,000) maximum. In year three (3), the company makes
additional investments and the building value increases to four million dollars ($4,000,000). The exemption in year three (3) is limited to two million dollars ($2,000,000) as provided in the original agreement. Beginning in year four (4), there will be no exemption allowed under the original agreement. (7-1-21)T

04. Cross Reference. See Rule 802 of these rules for instructions relating to the valuation of new construction. (7-1-21)T

632. PROPERTY EXEMPT FROM TAXATION - OIL OR GAS RELATED WELLS (RULE 632).
Section 63-60200, Idaho Code

01. Definitions of Oil or Gas Well. (7-1-21)T
   a. Wells drilled for the production of oil, gas or hydrocarbon condensate may include the well, casing, and other structures permanently affixed inside the well, and the land inside the perimeter of the well. (7-1-21)T
   b. The well will include the part where the gas producing stratum has been successfully cased off from any oil. (7-1-21)T

02. Ineligible Land and Equipment. (7-1-21)T
   a. Wellheads and gathering lines or any line extending above ground level will not qualify. Equipment used for the extraction, storage, or transportation of oil, gas, or hydrocarbon condensate will not qualify. (7-1-21)T
   b. Land, other than that used for the well as defined in Subsection 632.01 of these rules, will not qualify. If the presence of the well increases the market value of nearby land, the assessed value of such land will reflect the increase, unless the land qualifies independently for any other property tax exemption. (7-1-21)T

633. -- 644. (RESERVED)

645. LAND ACTIVELY DEVOTED TO AGRICULTURE DEFINED (RULE 645).
Section 63-604, Idaho Code

01. Definitions. The following definitions apply for the implementation of the exemption for the speculative value portion of agricultural land. (7-1-21)T
   a. Homesite. The “homesite” is that portion of land, contiguous with but not qualifying as land actively devoted to agriculture, and the associated site improvements used for residential and farm homesite purposes. (7-1-21)T
   b. Associated Site Improvements. The “associated site improvements” include developed access, grading, sanitary facilities, water systems and utilities. (7-1-21)T
   c. Nursery Stock. Nursery stock is defined in Section 22-2302, Idaho Code. (7-1-21)T
   d. Land Used to Produce Nursery Stock. “Land used to produce nursery stock” means land used by an agricultural enterprise to promote or support the promotion of nursery stock growth or propagation, not land devoted primarily to selling nursery stock or related products. This term also includes land under any container used to grow or propagate nursery stock. This term does not include land used for parking lots or for buildings sites used primarily to sell nursery stock or related items or any areas not primarily used for the nurturing, growth or propagation of nursery stock. (7-1-21)T
   e. Speculative Value Exemption. The “speculative value exemption” is the exemption allowed on land actively devoted to agriculture. (7-1-21)T

02. Homesite Assessment. Effective January 1, 1999, each homesite and residential and other improvements, located on the homesite, will be assessed at market value each year. (7-1-21)T
a. Accepted Assessment Procedures. Market value will be determined through procedures, methods, and techniques recommended by nationally recognized appraisal and valuation associations, institutes, and societies and according to guidelines and publications approved by the Tax Commission. Acceptable techniques include those that are either time tested in Idaho, mathematically correlated to market sales, endorsed by assessment organizations, or widely accepted by assessors in Idaho and other states. (7-1-21)T

b. Appropriate Market and Comparable Selection. The appropriate market is the market most similar to the homesite and improvements located on the homesite. In applying the sales comparison approach, the appraiser should select comparables having actual or potential residential use. (7-1-21)T

c. Homesite Independent of Remaining Land. The value and classification of the homesite will be independent of the classification and valuation of the remaining land. (7-1-21)T

03. Valuing Land, Excluding the Homesite. The assessor will value land, excluding the homesite, on the following basis:

a. Land Used for Personal Use or Pleasure. Any land, regardless of size, utilized for the grazing of animals kept primarily for personal use or pleasure and not a portion of a for profit enterprise, will be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule and will not qualify for the speculative value exemption. (7-1-21)T

b. Land in a Subdivision. Land in a subdivision with restrictions prohibiting agricultural use will be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule and will not qualify for the speculative value exemption. Land meeting the use qualifications identified in Section 63-604, Idaho Code, and in a subdivision without restrictions prohibiting agricultural use will be valued as land actively devoted to agriculture using the same procedures as used for valuing land actively devoted to agriculture and not located in a subdivision. (7-1-21)T

c. Land, Five (5) Contiguous Acres or Less. Land of five (5) contiguous acres or less will be presumed non-agricultural, will be valued at market value using appraisal procedures identified in Paragraph 645.02.a of this rule, and will not qualify for the speculative value exemption. If the owner produces evidence that each contiguous holding of land under the same ownership has been devoted to agricultural use for the last three (3) growing seasons and it agriculturally produced for sale or home consumption fifteen percent (15%) or more of the owner’s or lessee’s annual gross income or it produced gross revenue in the immediate preceding year of one thousand dollars ($1,000) or more, the land actively devoted to agriculture, will qualify for the speculative value exemption. For holdings of five (5) contiguous acres or less gross income is measured by production of crops, nursery stock, grazing, or gross income from sale of livestock. Income will be estimated from crop prices at harvest or nursery stock prices at time of sale. The use of the land and the income received in the prior year must be certified with the assessor by April 15, each year. (7-1-21)T

d. Land, More Than Five (5) Contiguous Acres. Land of more than five (5) contiguous acres under one (1) ownership, producing agricultural field crops, nursery stock, or grazing, or in a cropland retirement or rotation program, as part of a for profit enterprise, will qualify for the speculative value exemption. Land not annually meeting any of these requirements fails to qualify as land actively devoted to agriculture and will be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule. (7-1-21)T

04. Cross Reference. For definitions and general principles relating to the taxable value of land actively devoted to agriculture, see Rule 613 of these rules. For agricultural land taxable value calculation examples, see Rule 614 of these rules. For information relating to Christmas tree farms, other annual forest products, and yield tax, see Rule 968 of these rules. (7-1-21)T

646. -- 699. (RESERVED)

700. DEFINITIONS FOR PROPERTY TAX REDUCTION BENEFIT (RULE 700).

Section 63-701, Idaho Code

01. Blind. A person for whom there exists the medically documented opinion that the person is
functionally blind as defined in Section 67-5402(2), Idaho Code.

02. **Burden of Proof.** See Rule 600 of these rules.

03. **Claimant’s Income.** All income defined in Section 63-701(5), Idaho Code, that is received by either spouse is included in household income even if one spouse lives in a medical care facility or otherwise lives outside the home except as provided in Rule 709 of these rules. For the purposes of excluding from claimant’s income any return of principal paid by the recipient of an annuity, follow these guidelines.

   a. An annuity means a contract sold by an insurance company to the claimant or claimant’s spouse and designed to provide payments to the holder at specified equally spaced intervals or as a lump sum payment with the following conditions:

      i. The annuity must not be part of any pension plan available to an employee;

      ii. No tax preference is given to the money spent to purchase the annuity (purchase payments must not reduce the buyer’s taxable income);

      iii. The buyer of the annuity must have purchased the annuity voluntary and not as a condition of employment or participation in an employer provided pension system; and

      iv. Earnings from investments in the annuity must be tax-deferred prior to withdrawal.

   b. Annuities do not include KEOGH plans, Individual Retirement Accounts (IRAs), employer provided pensions, and similar financial instruments. Life insurance premiums will not be treated as the principal of an annuity.

   c. The recipient of the annuity payment(s), the claimant or claimant’s spouse, has the burden of proving the income is the principal paid by the recipient. Such proof includes copies of the holder’s annuity contract and any other documentation clearly indicating the conditions listed in Subparagraphs 700.03.a.i. through 700.03.a.iv. of this Rule are met. IRS form 1099 does not provide sufficient proof.

04. **Fatherless/Motherless Child.** Fatherless/Motherless child for purposes of Section 63-701(1), Idaho Code, means a child judicially determined to be abandoned, as defined by Sections 16-1602 or 16-2005, Idaho Code, by the child’s male/female parent or a child whose male/female parent has had his parental rights terminated pursuant to court order or is deceased.

05. **Proportional Reduction of Value.** Proportional reduction of value pursuant to Section 63-701(7), Idaho Code, is required for partial ownership of otherwise eligible property.

   a. There is no reduction of value for community property with no other interests except as provided in Rules 610.07 and 709.04 of these rules. Additionally, there is no reduction in value for the ownership interests of a partner of a limited partnership, a member of a limited liability company or a shareholder of a corporation when that person has no less than a five percent (5%) interest in the entity unless any interests are shared by any entity other than the limited partnership, limited liability company or corporation.

   b. In other cases, benefits are to be calculated by applying the claimant's property tax reduction benefit to the eligible net taxable value of the claimant's share of the property. This value is determined by multiplying the market value of the land and of the improvement times the claimant's percent of ownership and subtracting the claimant's homeowner's exemption.

      i. Example 1. The claimant is the sole occupant of the property but only owns fifty percent (50%) of the property. In this example, the claimant’s property tax reduction benefit applies to the tax on his/her net taxable market value of $50,000.

| Land Market Value | $50,000 |
ii. Example 2. Tom Johnson and Marie Johnson, husband and wife, and property tax reduction claimant June Smith jointly own a property and occupy one (1) residential improvement located on the property. Calculate both homeowners’ exemptions, and apply Ms. Smith’s property tax reduction benefit to the tax on the net taxable value of her interest in the property.

06. **Physician.** Physician means a licensed physician, as defined in Section 54-1803(3), Idaho Code.

07. **Widow/Widower.** A widow/widower is a person who has not remarried after the death of their spouse or whose subsequent marriage has been annulled.

08. **Cross Reference.** See Chapter 79, Title 67, Idaho Code, for requirements relating to lawful presence in the United States. See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Subsection 702.02.c. for information concerning authorization to release applicant information to a state or federal elected official.
701. (RESERVED)

702. VETERAN’S BENEFIT – CONTINUED ELIGIBILITY AFTER DEATH OF CLAIMANT (RULE 702).
Sections 63-701, 63-705A, Idaho Code

  01. Surviving Spouse. The veteran’s benefit applies to the qualifying homestead, as defined in Section 63-701(2), Idaho Code, of the veteran and surviving spouse. The surviving spouse may not transfer the benefit to a different homestead. (7-1-21)T

  02. Application By Surviving Spouse. The surviving spouse may file an application on behalf of the deceased spouse if the deceased spouse qualified or would have qualified as a claimant on January 1 or before April 15 of the year in which the claim is filed. (7-1-21)T

703. -- 708. (RESERVED)

709. PROPERTY TAX REDUCTION BENEFIT PROGRAM – SPECIAL SITUATIONS (RULE 709).
Section 63-701, Idaho Code

  01. Scope. This rule addresses issues relating to the property tax reduction benefit program as it applies to certain unusual factual situations. It states general principles applicable to unusual cases and provides some illustrative examples. The rule cannot address every conceivable situation that may arise, but the principles established may apply to the resolution of situations not addressed in the rule. The following examples apply to qualified property tax reduction claimants. (7-1-21)T

  02. General Principles. Benefits under the property tax reduction program are only available to owners of property that have first qualified for the homeowner’s exemption under Section 63-602G, Idaho Code. See Rule 610 of these rules. (7-1-21)T

  03. Dual Residency Couples. The definition of “dual residency couple” in Rule 610.02 of these rules applies to this rule. (7-1-21)T

    a. Example -- Both residences are community property. Property tax reduction is available in regard only to the residential improvement qualifying for the homeowner’s exemption. See Rule 610.04 of these rules. (7-1-21)T

    b. Example -- One (1) residence is community property, the other is separate property. Property tax reduction is available in regard only to the residential improvement qualifying for the homeowner’s exemption. See Rule 610.05 of these rules. (7-1-21)T

    c. Example -- Both residences are separate property. Property tax reduction is available in regard to both residential improvements. See Rule 610.06 of these rules. (7-1-21)T

    d. Household income. In the three (3) examples in Subsection 709.03, the household income upon which qualification is determined is the total of one-half (1/2) the community income plus any separate income of the spouse residing in the residence. (7-1-21)T

  04. Apportionment of Property Tax Reduction Benefits by Dual Residency Couples. If a dual residency couple makes the election provided in Subsection 610.07 of these rules and the applicable county assessor provided the Tax Commission with a copy of the election required under that rule, each spouse will be entitled to one-half (1/2) of the amount of any property tax reduction available to that spouse alone. The household income of the spouse will be one-half (1/2) of the community income plus any separate income of the spouse residing in the residence. The total property tax reduction benefit will not exceed the amount of benefit available to the individual spouse with the least household income if no election were made. (7-1-21)T

  05. Multiple Ownerships Including Community Interests as Partial Owners. Example: A deed
conveys title to real property to a husband and wife and to an adult child of theirs. The husband and wife hold a community property interest in the improvement and the child is a tenant-in-common provided ownership interests are not specified in the deed. The parents collectively hold a one-half (1/2) partial interest and the child holds a one-half (1/2) partial interest in the property. Ownership interests specific in the deed supersede this guidance. For clarification of the calculation of the net taxable value, see Rule 700.05.b. of these rules. Qualification for the property tax reduction is as follows:

a. If the residential improvement is the primary dwelling of the husband and wife but not of the child, the claimant qualifies for full benefits applied on one-half (1/2) of the value of the property less the homeowner’s exemption. Household income is the total of the community and separate income of the spouses. (7-1-21)T

b. If the residential improvement is the primary dwelling of the qualifying child, but neither the husband or wife, the claimant qualifies for full benefits applied on one-half (1/2) of the value of the property less the homeowner's exemption. Household income is the total of the child’s income. (7-1-21)T

c. If the residential improvement is the primary dwelling of the husband, wife and a qualifying child, the claimant qualifies for the full benefits applied on full value of the property less the homeowner's exemption. Household income is the total of the community and separate income of the spouses and the income of the child. (7-1-21)T

d. If the residential improvement is the primary dwelling of one (1) spouse but of neither the other spouse nor the child, the claimant qualifies for full benefits applied on one-half (1/2) of the value of the property less the homeowner’s exemption unless the residential improvement of the other spouse has qualified for the homeowner’s exemption. Household income is the total income of both spouses. (7-1-21)T

e. If the residential improvement is the primary dwelling of one (1) spouse and a qualifying child, the claimant qualifies for the full benefits applied on the full value of the property less the homeowner's exemption unless the residential improvement of the other spouse has previously qualified for the homeowner’s exemption. Household income is the total income of both spouses plus the income of the child. (7-1-21)T

710. -- 716. (RESERVED)

717. PROCEDURE AFTER CLAIM APPROVAL (RULE 717).
Sections 63-115, 63-317, 63-707, Idaho Code

01. Formatting Requirements. The property tax reduction roll and supplemental occupancy tax reduction roll will be formatted as required by Section 63-707, Idaho Code. (7-1-21)T

02. Preliminary Property Tax Reduction Roll. Except as provided in Subsections 717.06 and 717.07 of this rule, the roll, certified by the assessor to the county auditor and the State Tax Commission by June 1st of each year, will be termed the preliminary property tax reduction roll. The preliminary property tax reduction and occupancy tax reduction roll will list property tax reduction and occupancy tax reduction claimants in alphabetical order unless the Tax Commission grants permission for claimants to be listed in an alternate order. Each original claim form will be submitted to the Tax Commission in the same order as shown on the preliminary property tax reduction roll. (7-1-21)T

03. Final Property Tax Reduction Roll. Except as provided in Subsections 717.06 and 717.08 of this rule, the completed property tax reduction roll, certified by each county clerk to the Tax Commission by the fourth (4th) Monday in October, will be termed the final property tax reduction roll. The final property tax reduction roll will list property tax reduction claimants and occupancy tax reduction claimants who applied by September 1, in the same order as shown on the preliminary property tax reduction roll. Erroneous claims which are partially or fully disapproved by the Tax Commission will be shown on the final property tax reduction roll after the county clerk has made all adjustments or corrections listed on the notice sent to the county auditor pursuant to Section 63-707(6), Idaho Code, termed county change letter. (7-1-21)T

04. Certification of Electronic Property Tax Reduction Roll by County Assessor. The county assessor will certify the property tax reduction roll to the county auditor and send a copy to the Tax Commission by
June 1st of each year. In addition, each county assessor will send a copy of all claims listed on the roll to the Tax Commission. Claims are to be sent in a password protected electronic data file formatted as directed or approved by the Tax Commission. This password protected electronic file will contain the following information:

a. Claimant’s Social Security Number;

b. Claimant’s Date of Birth;

c. Claimant’s Last Name;

d. Claimant’s First Name;

e. Claimant’s Spouse’s Social Security Number;

f. Claimant’s Spouse’s Date of Birth;

g. Claimant’s Spouse’s Last Name;

h. Claimant’s Spouse’s First Name;

i. Claimant’s Telephone Number;

j. Claimant’s Address;

k. Claimant’s City;

l. List the state’s postal abbreviation;

m. Claimant’s Zip Code;

n. Claimant’s Parcel Number(s). List the parcel number for the property on which the claimant is receiving the homeowner’s exemption. When more than one (1) parcel owned by the claimant is eligible, list all eligible parcel numbers;

o. Current Year;

p. Claimant’s County Number;

q. Income Data;

r. Identify New Applicants. Identify claimants did not receive this benefit in the previous year;

s. Maximum Benefit;

t. Qualifying Eligibility Status. Identify all of the following status criteria that the claimant meets;

i. Sixty-five (65) years old or older;

ii. Blind;

iii. Disability granted by the Social Security Administration, Railroad Retirement Board, or federal civil service;

iv. Orphan, under eighteen (18) years of age;
v. Prisoner of war or hostage, certified by Veteran’s Affairs; (7-1-21)T

vi. Non-service connected disability or service connected disability at ten percent (10%) to thirty percent (30%), certified by Veteran’s Affairs; (7-1-21)T

vii. Service connected disability at forty percent (40%) or more, certified by Veteran’s Affairs; (7-1-21)T

viii. Widow or widower, include date of spouse’s death; (7-1-21)T

ix. Whether the claimant is lawfully present in the United States; (7-1-21)T

x. 100% Service connected disabled veteran, certified by Veterans Affairs; and (7-1-21)T

u. Occupancy tax reduction claimants (7-1-21)T

05. Certification of Completed Property Tax Reduction Roll by County Auditor. Except as provided in Section 63-317, Idaho Code, and Subsections 717.06, 717.07, and 717.08 of this rule, no later than the fourth (4th) Monday in October, each county auditor will certify the final property tax reduction roll to the Tax Commission. The roll will contain the preliminary roll information plus the additional occupancy tax reduction claims submitted between June 1 and September 1 as provided in Subsection 717.06 of this rule, and the following information formatted as directed or approved by the Tax Commission. (7-1-21)T

a. Current Year’s Levy. List the current year’s levy for the tax code area where each claimant’s property is located. (7-1-21)T

b. Current Year’s Taxable Value. List the current year’s taxable value for each claimant’s qualifying property. (7-1-21)T

c. Claimed Property Tax Reduction or Occupancy Tax Reduction Amount. For each claimant, list the amount of property tax or occupancy tax reduction claimed based on the current year’s levy and the current year’s eligible taxable value. (7-1-21)T

06. Occupancy Tax Reduction Claims. Claims submitted to the county assessor between January 1 and May 15 will be listed on the preliminary property tax reduction roll and submitted to the Tax Commission by June 1. Claims submitted to the county assessor between June 1 and September 1 will be submitted to the Tax Commission by the third Monday in September. These claims will be added to the final property tax reduction roll by the county change letter pursuant to Subsection 717.03 of this rule. Claims submitted to the county assessor after September 1 until the fourth Monday in January of the following year will be listed and submitted as follows in Subsections 717.07 and 717.08 of this rule. (7-1-21)T

07. Preliminary Supplemental Occupancy Tax Reduction Roll. This roll will be certified by the assessor to the county auditor and the Tax Commission by the first Monday in March of the following tax year. Claims submitted to the county assessor after September 1 will be listed on the preliminary supplemental occupancy tax reduction roll in the manner outlined in Subsection 717.02 of this rule. Occupancy tax reduction claims will be subject to the procedures outlined in Section 63-707, Idaho Code. (7-1-21)T

08. Final Supplemental Occupancy Tax Reduction Roll. By the first Monday in April in the following year, the Tax Commission will notify the county auditor of all adjustments or corrections. By the fourth Monday in April of that year, the county auditor will certify the final supplemental occupancy tax reduction roll which will list occupancy claimants in the same order as shown on the preliminary supplemental occupancy tax reduction roll after the county auditor makes corrections. Claims included on the final supplemental occupancy tax reduction roll are to be formatted as outlined in Subsection 717.05 of this rule. (7-1-21)T

718. -- 799. (RESERVED)

800. BUDGET CERTIFICATION RELATING TO OPERATING PROPERTY ANNEXATION VALUE (RULE 800).
Section 63-802, Idaho Code

01. “Appropriate County Auditor” Defined. The “appropriate county auditor” is the county auditor of each county within which any taxing district with an annexation is located. (7-1-21)T

02. Annexation Values for Operating Properties. Pursuant to Section 63-802, Idaho Code, the Tax Commission will certify the current year’s taxable values of operating properties within annexations made during the previous calendar year. This certification will be a list summarizing the values of said operating properties for each applicable taxing district or unit. The Tax Commission will send this list to the appropriate county auditor on or before the third Monday in July. The Tax Commission will calculate these values based on the best available information. (7-1-21)T

03. Corrected Annexation Values for Operating Properties. If any annexation values reported pursuant to Subsection 800.02 require correction, the Tax Commission will report such corrections on or before the first Monday of September. The Tax Commission will send these values to the appropriate county auditor. (7-1-21)T

04. County Auditor to Notify Taxing Districts or Units. As soon as possible, but not later than fourteen (14) days after receipt of the list pursuant to Subsection 800.02 or the corrected values pursuant to Subsection 800.03, the appropriate county auditor will send these values to the affected taxing districts or units. (7-1-21)T

01. Limits on Plant Facilities Funds. For any school or library district with a plant facilities fund created pursuant to Section 33-804, Idaho Code, the amount of property tax to be budgeted for said fund in any year cannot exceed four tenths of one percent (0.4%) multiplied by the market value for assessment purposes of the taxing district as of December 31 of the year prior to the first year in which a plant facilities fund levy is made. This limitation will not apply to any state-authorized plant facilities levy, established under Section 33-909, Idaho Code, or to any cooperative service agency school plant facility levy established under Section 33-317A, Idaho Code. (7-1-21)T

02. No Additional Plant Facilities Fund Permitted. Any school or library district with an existing plant facilities fund is not allowed to levy for an additional plant facilities fund in any tax year until the period of the existing plant facilities fund has expired. This limitation will not apply to any state-authorized plant facilities levy, established under Section 33-909, Idaho Code or the cooperative service agency school plant facility levy established under Section 33-317A, Idaho Code. (7-1-21)T

03. Plant Facilities Fund Extensions or Increases. Except for increases related to cooperative service agency school plant facility levies, any school or library district may hold an election to increase the amount to be levied pursuant to the requirements of Section 33-804, Idaho Code. For the purpose of such increase, the “total levy for school or library plant facilities and bonded indebtedness” will be computed as follows. (7-1-21)T

a. For the first year in which the increased or extended plant facilities fund levy is to be made, sum of the amount to be levied for the plant facilities fund and for any bond fund in existence prior to the new plant facilities fund. (7-1-21)T

b. Divide the sum computed in Subsection 801.03.a. by the district’s actual market value for assessment purposes as of December 31 of the year immediately preceding the year in which the increased or extended plant facilities fund is to be levied. (7-1-21)T

c. The value used for this calculation will include any portion of increment value in any Revenue Allocation Area in the district, provided that property tax revenue resulting from the levy of the plant facilities fund against such increment value is allocated to the school district and not to any urban renewal agency. For example, an existing plant facilities fund levy raises one hundred thousand dollars ($100,000) per year. The district wishes to increase this by fifty thousand dollars ($50,000) per year. The “total levy” would be computed excluding the
increment value for the one hundred thousand dollars ($100,000) portion, but including the increment value for the fifty thousand dollars ($50,000) new portion of the amount to be levied. (7-1-21)

d. Any plant facilities fund levy that is extended, pursuant to Section 33-804, Idaho Code, will be considered passed after December 31, 2007 for the purposes of section 50-2908, Idaho Code; and increment value will be included in the calculation of the “total levy” and the actual levy. (7-1-21)

04. Cooperative Service Agency School (COSA) Plant Facility Fund Increases. Any school district may hold an election to increase the amount to be levied pursuant to the requirements of Section 33-317A. For the purpose of determining whether the increase has been approved by the electors, the “total levy for school plant facilities” will be computed as follows. (7-1-21)

a. The first year’s dollar amount of the proposed COSA plant facility levy will be divided by the school district’s actual market value for assessment purposes, including any increment value in any Revenue Allocation Area in the district, as of December 31 of the year immediately preceding the first year in which the COSA plant facility levy is to be made. (7-1-21)

b. The dollar amount most recently certified by the school district for an existing plant facilities fund levy will be divided by the district’s actual market value for assessment purposes as of December 31 of the year immediately preceding the first year in which the COSA plant facility levy is to be made. The value used for this calculation will include any portion of increment value in any Revenue Allocation Area in the district, provided that property tax revenue resulting from the levy of the plant facilities fund against such increment value is allocated to the school district and not to any urban renewal agency. (7-1-21)

c. The quotients computed in Paragraphs 801.04.a. and 801.04.b. will be summed. (7-1-21)

05. Maximum Amount of Increased Plant Facilities Fund. Except as provided in Subsection 801.04, when any district increases its plant facilities fund amount to be levied, the maximum amount will not in any year exceed four tenths of a percent (0.4%) multiplied by the actual market value for assessment purposes as of December 31 of the year immediately preceding the first year the increased fund is to be levied. This limitation will not apply to Cooperative Service Agency school plant facility levies, which, in any year, will not exceed four tenths of a percent (0.4%) multiplied by the actual market value for assessment purposes as of December 31 of the immediate prior year. (7-1-21)

06. Special Reporting Requirements for State-Authorized Plant Facilities Levy. When the state Department of Education certifies a state-authorized plant facilities levy to any county under Section 33-909, Idaho Code, the county clerk will forward a copy of such certification to the Tax Commission as an attachment to the L-2 Form described in Rule 803 of these rules and submitted for the affected school district. (7-1-21)

07. Special Reporting for COSA and Increased Plant Facilities Levies. Any COSA plant facilities levy will be reported on a separate line on the L-2 Form defined in Rule 803 of these rules. In addition, the increased amount of a plant facilities levy originally approved on or before December 31, 2007 will be reported on a separate line on the L-2 Form. (7-1-21)

802. BUDGET CERTIFICATION RELATING TO NEW CONSTRUCTION AND ANNEXATION (RULE 802).
Sections 63-802, 63-301A, 63-602W, 63-602NN, Idaho Code

01. Definitions. (7-1-21)

a. “Change of Land Use Classification.” “Change of land use classification” means any change in land use resulting in a secondary category change and in a change in taxable land value to be reflected on the current property roll. (7-1-21)

b. “Incremental Value as of December 31, 2006.” “Incremental value as of December 31, 2006” means the total of the increment values on the property roll, subsequent property roll, missed property roll, and operating property roll for the 2006 tax year. (7-1-21)
c. “Non-residential Structure.” “Non-residential structure” means any structure listed by the assessor in any secondary category not described as residential, manufactured homes, or improvements to manufactured homes in Rule 511 of these rules. (7-1-21)

02. New Construction Roll Listing. “Listing” means a summary report of the net taxable value of property listed on the new construction roll. This listing will include the taxable value of qualifying new construction throughout each taxing district or unit, but will not include otherwise qualifying new construction, the value of which will be included in the increment value of any revenue allocation area (RAA) within any urban renewal district encompassed by the taxing district or unit. In addition, new construction related to change of land use classification, but required by section 50-2903(4) to be added to the base assessment roll, cannot be added to any new construction roll. This report is to summarize the value reported on the new construction roll by taxing district or unit. Taxing districts and units will be listed in the same order that is used for the certification of value required pursuant to Section 63-510(1), Idaho Code. (7-1-21)

a. Qualifying new construction which is valued by the Tax Commission will be reported to the county assessor for each applicable taxing district by October 1 and will be listed by the assessor on the immediate next new construction roll. (7-1-21)

b. Previously allowable new construction that has never been included. When a taxing district proves new construction described by Section 63-301A(3), Idaho Code, occurred during any one of the immediately preceding five (5) years and has never been included on a new construction roll, the county assessor must list that property on the immediate next new construction roll at the value proven by the taxing district. Any such additional new construction must also be separately listed for each taxing district or unit. The taxing district has the burden of proving the new construction was omitted from a new construction roll and the value that would have been listed for that property had it been listed on the appropriate new construction roll. No taxing district will ever be granted any increase in budget authority greater than the amount that would have resulted had the property been listed on the appropriate new construction roll. Regardless of the year that the new construction should have been listed on the appropriate new construction roll, additional budget authority resulting from new construction previously omitted from a new construction roll and listed on the current year’s new construction roll will be permitted only if the taxing district is in compliance with the budget hearing notification requirements of Section 63-802A, Idaho Code, for the current year. (7-1-21)

c. Reporting the amount of taxable market value to be deducted. For each taxing district or unit, the new construction roll listing will separately identify the total amount of taxable market value to be deducted as required in Section 63-301A(1)(f), Idaho Code, and Paragraph 802.02.e. of this rule. In addition to other requirements, the amount of value deducted will never exceed the amount originally added to a new construction roll. (7-1-21)

d. Determining the amount of taxable market value to be deducted – appeals. The amount of taxable market value to be deducted under Section 63-301A(1)(f)(i), Idaho Code, will be determined by the highest authority to which the assessment is ultimately appealed. Accordingly, adjustments should not be made until there has been a final decision on any appeal. In addition, the deduction for lower values resulting from appeals will be made only for property that was placed on a new construction roll within the immediately preceding five (5) years. (7-1-21)

e. Determining the amount of taxable market value to be deducted – provisional exemptions. Provided the addition occurred within the immediate preceding five (5) years but not earlier than 2016, the amount of taxable market value added to any new construction roll for property subsequently granted a provisional exemption under Section 63-1305C, Idaho Code, will be deducted from the taxable market value otherwise included on the immediate next new construction roll prepared following the granting of the provisional exemption. (7-1-21)

03. Special Provisions for Value Increases and Decreases. Special provisions for value increases and decreases related to change of land use classification as defined in Paragraph 802.01.a. of this rule or increases in land value resulting from loss of the exemption provided in Section 63-602W(4), Idaho Code. (7-1-21)

a. Value increases. Certain related land value increases are to be included on the new construction roll. (7-1-21)
i. Except as provided in Subparagraph 802.03.a.iii., increases in land value will be reported on the new construction roll in the year in which the new category appears on the current property roll. 

ii. Except as provided in Subparagraph 802.03.a.iii., the increase in taxable land value to be reported will be computed by subtracting the taxable land value, had the land remained in its previous use category, from the taxable land value in the current use category.

iii. Subject to the limitations found in Paragraph 802.06.a. of this rule, increases in land value resulting from loss of the exemption provided in Section 63-602W(4), Idaho Code, will be reported on the new construction roll in the year the exemption is lost, provided this occurs no later than June 30 of that year. If the exemption is lost after June 30 of a given year, the resulting increase in land value will be reported on the new construction roll in the immediate following year.

b. Value decreases. Certain related land value decreases are to be included on the new construction roll and subtracted from total new construction value for any taxing district. The amount of decrease in any one year will never exceed the amount of value originally added to the new construction roll for the same property.

i. Value decreases are to be reported only for land for which taxable market value was reduced as a result of change of land use classification or granting of the exemption for site improvements provided in Section 63-602W(4), Idaho Code, during any one (1) of the immediately preceding five (5) years and for which an increase in value due to addition of site improvements or change of land use classification during the same five-year period had been added to a new construction roll. For the site improvement exemption provided in Section 63-602W(4), Idaho Code, the five-year period will commence with the year following the year the exemption is first granted. For example, if a parcel first received the exemption in 2012, any site improvement related addition to a new construction roll for 2008 or more recently must be subtracted from the 2013 new construction roll, unless the exemption is lost by June 30, 2013, in which case there is no subtraction and no addition to the new construction roll for the loss of this exemption.

ii. If the current land category is the same as the category prior to the change that resulted in an addition to the new construction roll, the amount to be subtracted will equal the amount originally added. For example, a dry grazing land parcel that would have had a value of ten thousand dollars ($10,000) became commercial land and was assessed at fifty thousand dollars ($50,000). The forty thousand dollar ($40,000) difference was reported on the new construction roll in year one (1). In year two (2), the parcel is reclassified as dry grazing land and is to be assessed at fifteen thousand dollars ($15,000). The forty thousand dollar ($40,000) difference that was added to the year one (1) new construction roll must be deducted from the value shown on the new construction roll in year two (2).

iii. If the current land category is different than the category prior to the change that resulted in an addition to the new construction roll, the amount to be subtracted will be the lesser of the amount originally added or the amount that would have been added had the first change in land use been from the current land category. For example, a dry grazing land parcel that would have had a value of ten thousand dollars ($10,000) became commercial land and was assessed at fifty thousand dollars ($50,000). The forty thousand dollar ($40,000) difference was reported on the new construction roll in year one (1). In year two (2), the parcel is reclassified as irrigated agricultural land and would have had a value in year one (1) of twenty thousand dollars ($20,000). The amount to be subtracted from the value shown on the new construction roll in year two (2) is thirty thousand dollars ($30,000).

iv. Provided the criteria in Subparagraph 802.03.b.i. are met, value decreases resulting from previously included land value becoming exempt are to be reported and subtracted.

v. Except as provided in Subparagraph 802.03.b.vi., only land value decreases that meet the criteria listed in Subparagraphs 802.03.b.i. or 802.03.b.iv. of this rule and include and result from a change in land secondary category can be considered.

vi. Provided the criteria in Subparagraph 802.03.b.i. are met, land value decreases resulting from the exemption provided in Section 63-602W(4), Idaho Code, are to be subtracted from the new construction roll in the year immediately following the most recent year in which the exemption has been granted. To comply with the
budget adjustments required by Section 63-802, Idaho Code, which limits taxing district budgets based on the highest amount of property tax revenue requested during the previous three (3) years, such subtraction will be required for up to three (3) years, provided the property continues to receive the exemption. (7-1-21)

04. Manufactured Housing. “Installation” of new or used manufactured housing means capturing the net taxable market value of the improvement(s) that did not previously exist within the county. (7-1-21)

05. Partial New Construction Values. Except as provided in Subsection 802.06 of this rule, the net taxable market value attributable directly to new construction will be reported on the new construction roll in the tax year it is placed on the current assessment roll. Except as provided in Subsection 802.06 of this rule, any increase in a non-residential parcel’s taxable value, due to new construction, will be computed by subtracting the previous year’s or years’ partial taxable value(s) from the current taxable value. If any of this difference is attributable to inflation, such value, except as provided in Subsection 802.06 of this rule, will not be included on the new construction roll. (7-1-21)

06. Change in Status. (7-1-21)

a. A previously exempt improvement which becomes taxable will not be included on the new construction roll, unless the loss of the exemption occurs during the year in which the improvement was constructed or unless the improvement has lost the exemption provided in Section 63-602W(3) or (4), Section 63-602E(3), or Section 63-602NN, Idaho Code. For any such property, the amount that may be included on the new construction roll will be the value of the portion of the property subject to the exemption at the time the exemption was first granted. For otherwise qualifying property that loses the exemption provided in Section 63-602NN, Idaho Code, but that has had its value added to the base assessment roll in a revenue allocation area as provided in Rule 804 of these rules, the value so added may be added to the new construction roll. Examples of special cases for the exemption provided in Section 63-602W(4), Idaho Code, follow: (7-1-21)

i. If the exemption is lost by June 30 of the year in which the exempt amount was to be subtracted from the new construction roll, then there will be no subtraction, nor will the formerly exempt amount be added, to the new construction roll, unless it had been previously subtracted from a new construction roll. For example, the property first became exempt in 2012, but lost the exemption by June 30, 2013. The 2013 new construction roll was not adjusted downward, so any previous inclusion of the exempt value would not be added in the future. Had the property lost the exemption later in 2013, there would have been a subtraction from the 2013 new construction roll and a subsequent addition to the 2014 new construction roll. (7-1-21)

ii. If the exemption was granted to property for which no value had been added to any new construction roll, the value of the property (site improvements) at the time the exemption was first granted may be added to the new construction roll following loss of the exemption. (7-1-21)

b. Except as provided in Paragraph 802.06.d. of this rule, upon receipt by the Tax Commission of a resolution recommending adoption of an ordinance for termination of an RAA under Section 50-2903(5), Idaho Code, any not previously included positive difference of the most current increment value minus the “incremental value as of December 31, 2006,” or the entire current increment value, if there was no such value as of December 31, 2006, will be added to the appropriate year’s new construction roll. Upon the effective date of any de-annexation of a portion of an RAA, the immediate prior year’s increment value associated with the parcels in the de-annexed area is to be included in the appropriate year’s new construction roll as described in Paragraph 802.06.d. of this rule, provided such value has not been previously included on any new construction roll. When this information is received after the fourth Monday in July, this positive net increment value will be added to the following year’s new construction roll. (7-1-21)

c. Upon receipt by the Tax Commission of an attestation indicating that an urban renewal plan has been modified in such a way as to result in resetting the base value in an RAA, as provided in Section 50-2903A, Idaho Code, increases in base value due to the addition of previously determined increment value may be added to the new construction roll as described in Section 63-301A(3)(j), Idaho Code, provided such value has not previously been included on any new construction roll. In such a case, at termination of the RAA, only new additional increment value following the reset of the base value will be included on the new construction roll. (7-1-21)
d. When a portion of an RAA is de-annexed, the following steps must be used to determine the amount to be added to the current year’s new construction roll and the amount to be subtracted from the “incremental value as of December 31, 2006.”

i. Step 1. For the parcels in the de-annexed area, determine the December 31, 2006, increment value.

ii. Step 2. Subtract the increment value determined in Step 1 from the immediate prior year’s increment value for the parcels in the de-annexed area.

iii. Step 3. Add any positive difference calculated in Step 2 to the current year’s new construction roll value.

iv. Step 4. Adjust the “incremental value as of December 31, 2006” for the RAA by subtracting the increment value determined in Step 1.

v. The following table shows the amount to be added to the current year’s new construction roll and the amount to be subtracted from the “incremental value as of December 31, 2006” applicable to the adjusted remaining RAA. The table assumes an area is de-annexed from an original RAA effective December 31, 2016.

<table>
<thead>
<tr>
<th>Steps (as designated in Paragraph 802.06.d.)</th>
<th>Area</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>December 31, 2006, increment value of the original RAA</td>
<td>$10,000,000</td>
<td></td>
</tr>
<tr>
<td>Step 1</td>
<td>December 31, 2006, increment value of the de-annexed area</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>December 31, 2015, increment value of the de-annexed area</td>
<td>$3,000,000</td>
<td></td>
</tr>
<tr>
<td>Steps 2 and 3</td>
<td>Amount related to the de-annexed area to be added to the 2017 new construction roll</td>
<td>$2,000,000</td>
</tr>
<tr>
<td>Step 4</td>
<td>Adjustment amount to be deducted from the original RAA’s “incremental value as of December 31, 2006”</td>
<td>&lt;$1,000,000&gt;</td>
</tr>
<tr>
<td></td>
<td>Adjusted “incremental value as of December 31, 2006” for the remaining RAA (base for future new construction roll additions upon dissolution of all or part of remaining RAA)</td>
<td>$9,000,000</td>
</tr>
</tbody>
</table>

vi. If the de-annexation in the example in sub-paragraph v. had taken effect prior to the fourth Monday of July 2016, the 2015 increment value for the affected parcels would have been added to the 2016 new construction roll after subtracting the 2006 increment value.

vii. The value of operating property increment value to be included on the new construction roll when a de-annexation occurs is computed as shown in the following example:

| Sum the previous year’s increment values of the locally assessed parcels in the area to be de-annexed | $15,000,000 |
| Divide this sum by the previous year’s increment value of all locally assessed parcels in the RAA | $15,000,000 ÷ $130,000,000=.1154 |
| Multiply by 100 to determine the percentage applicable to the locally assessed parcels located within the area to be de-annexed | .1154 x 100 = 11.54% |
For taxing districts formed after December 31, 2006, or annexing or being annexed into a revenue allocation area after that date, the amount of increment value to be added to the new construction roll will equal any positive difference between the increment value at the time of formation of the taxing district or annexation by or into the revenue allocation area and the increment value at the time of dissolution of the revenue allocation area or the increment value within the area deannexed from the revenue allocation area.

For any taxing district annexing property in a given year, the new construction roll for the following year will not include value that has been included in the annexation value. When an annexation includes any part of a revenue allocation area, only taxable value that is part of the current base value of the taxing district is to be included in the annexation value reported for that taxing district for the year following the year of the annexation.

On or before the fourth Monday in July, each county auditor must report the net taxable values on the new construction roll and of locally assessed property within annexed areas for each appropriate taxing district or unit to that taxing district or unit. Annexation value contributed by centrally assessed operating property will be provided to each county auditor by the first Monday in September.

Determine the difference between the operating property increment value in the whole RAA for the year preceding the de-annexation from the 2006 increment value of all operating in the whole RAA:

\[ \$2,000,000 - \$500,000 = \$1,500,000 \]

Multiply the locally assessed percentage by the increase in the operating property increment value:

\[ 11.54\% \times \$1,500,000 = \$173,100 \]

The value of operating property increment to be included on the new construction roll when a de-annexation occurs:

\[ \$173,100 \]
limitations of Section 63-802, Idaho Code.  

**e.** “Recovered/Recaptured Property Tax and Refund List.” Recovered/recaptured property tax and refund list means the report sent by the county auditor to the appropriate taxing district(s) by the first Monday in August and to the Tax Commission with the L-2 Forms, listing the amount of revenue distributed, or refunds charged, to each appropriate taxing district during the twelve (12) month period ending June 30 each year under the following sections:

1. Section 63-602G(5), Idaho Code;  
2. Section 63-3029B(4), Idaho Code;  
3. Section 63-602KK(7), Idaho Code, for personal property exempted after 2013 for which no replacement money was paid;  
4. Section 63-3502B(2), Idaho Code, for distributions of gross earnings tax on solar farms;  
5. Section 50-2903A(3), Idaho Code, for distributions of urban renewal allocations in excess of the amount necessary to pay indebtedness, when required;  
6. Section 50-2913(3)(c), Idaho Code, for distributions of urban renewal allocations in excess of the amount received during the immediate prior tax year, when required;  
7. Section 63-1305C(3), Idaho Code, for revoked provisional property tax exemptions; and  
8. Section 63-1305C(6), Idaho Code, for refunds related to provisional property tax exemptions.

**f.** “Taxing District/Unit.” Taxing district/unit means any governmental entity with authority to levy property taxes as defined in Section 63-201, Idaho Code, and those governmental entities without authority to levy property taxes but on whose behalf such taxes are levied by an authorized entity such as the county or city.

**g.** “New Taxing District.” For property tax budget and levy purposes, new taxing district means any taxing district for which no property tax revenue has previously been levied. See the Idaho Supreme Court case of Idaho County Property Owners Association, Inc. v. Syringa General Hospital District, 119 Idaho 309, 805 P.2d 1233 (1991).

**02. Budget Certification.** The required budget certification will be made to each board of county commissioners representing each county in which the district is located by submitting the completed and signed L-2 Form prescribed by the Tax Commission. Unless otherwise provided for in Idaho Code, budget requests for the property tax funded portions of the budget will not exceed the amount published in the notice of budget hearing if a budget hearing notice is required in Idaho Code for the district. The levy approved by the Tax Commission will not exceed the levy computed using the amount shown in the notice of budget hearing.

**03. Budget Certification Requested Documents.** Using the completed L-2 Form, each board of county commissioners will submit to the Tax Commission a budget request for each taxing district in the county that certifies a budget request to finance the property tax funded portion of its annual budget. The board of county commissioners will only submit documentation specifically requested by the Tax Commission.
b. Forgone increase reservation. Any resolution to reserve the right to accrue an annual increase in the
forgone amount must state the amount of such forgone increase being reserved and must be submitted to the board of
county commissioners representing each county in which the district is located along with the L-2 Form. The board of
county commissioners must attach a copy of the resolution to be submitted to the Tax Commission along with the L-
2 Form. Such submittal will constitute submittal to the Tax Commission. (7-1-21)

04. L-2 Form Contents. Each taxing district or unit completing an L-2 Form will include the
following information on or with this form.

a. “Department or Fund.” Identify the department or fund for which the taxing district is requesting a
budget for the current tax year. (7-1-21)

b. “Total Approved Budget.” List the dollar amount of the total budget for each department or fund
identified. The amounts must include all money that a taxing district has a potential to spend at the time the budget is
set, regardless of whether funds are to be raised from property tax. (7-1-21)

c. “Cash Forward Balance.” List any money retained, but intended to fund the approved budget being
certified on the L-2 form. (7-1-21)

d. “Other Revenue not Shown in Column 5.” List the revenue included in the total approved budget to
be derived from sources other than property tax or money brought forward from a prior year. For example, sales tax
revenue is included. (7-1-21)

e. “Property Tax Replacement.” Report the following amounts received for the twelve (12) month
period ending June 30 of the current tax year:

i. The amount of money received annually under Section 63-3638(11), Idaho Code, as replacement
revenue for the agricultural equipment exemption under Section 63-602EE, Idaho Code; (7-1-21)

ii. The amount of money received as recovery of property tax exemption under Section 63-602G(5),
Idaho Code, and listed on the “Recovered/recaptured property tax and refund list”; (7-1-21)

iii. The amount of money received as recapture of the property tax benefit under Section 63-3029B(4),
Idaho Code, and listed on the “Recovered/recaptured property tax and refund list”; (7-1-21)

iv. The amount of money received under Section 63-3638(13), for the personal property exemption
under 63-602KK(2), Idaho Code; (7-1-21)

v. The amount of money received under Section 63-602KK(7), Idaho Code, for personal property
exempted after 2013, for which no replacement money was paid, and listed on the “Recovered/recaptured property
tax and refund list”; (7-1-21)

vi. The amount of money received as a result of distributions of the gross earning tax on solar farms, as
provided in Section 63-3502B(2), Idaho Code., and listed on the “Recovered/recaptured property tax and refund list”; (7-1-21)

vii. The amount of money received as a result of distributions of urban renewal allocations in excess of
the amount necessary to pay indebtedness, as provided in Section 50-2903A(3), Idaho Code, and listed on the
“Recovered/recaptured property tax and refund list”; (7-1-21)

viii. The amount of money received as a result of distributions of urban renewal allocations in excess of
the amount received by the urban renewal agency in the immediate prior year, as provided in Section 50-2913(3)(c),
Idaho Code and listed on the “Recovered/recaptured property tax and refund list”; and (7-1-21)

ix. The amount of money received as a result of distributions of recovered property tax for revoked
provisional property tax exemptions pursuant to Section 63-1305C(3), Idaho Code. (7-1-21)
f. “Balance to be Levied.” Report the amount of money included in the total approved budget to be derived from property tax. (7-1-21)T

g. Other Information. Provide the following additional information. (7-1-21)T

i. The name of the taxing district or unit; (7-1-21)T

ii. The date of voter approval (if required by statute) and effective period for any new or increased fund which is exempt from the budget limitations in Section 63-802, Idaho Code; (7-1-21)T

iii. The signature, date signed, printed name, address, and phone number of an authorized representative of the taxing district; and (7-1-21)T

iv. For a hospital district which has held a public hearing, a signature certifying such action. (7-1-21)T

v. For any taxing district including previously forgone increases in their budget or reserving any forgone increase, an attestation to having held the required public hearing on the resolution to include or reserve the forgone amount. (7-1-21)T

h. Attached Information. Other information submitted to the county auditor with the L-2 Form. (7-1-21)T

i. For all taxing districts, L-2 worksheet. (7-1-21)T

ii. For newly formed recreation or auditorium districts, a copy of the petition forming the district showing any levy restrictions imposed by that petition. (7-1-21)T

iii. For any new ballot measures (bonds, overrides, permanent overrides, supplemental maintenance and operations funds, cooperative service agency funds, and plant facility funds), notice of election and election results, and the expiration date of any voter approved levies. (7-1-21)T

iv. Voter approved fund tracker. (7-1-21)T

v. For fire districts, a copy of any new agreements with utility companies providing for payment of property taxes by that utility company to that fire district. (7-1-21)T

vi. For any city with city funded library operations and services at the time of consolidation with any library district, each such city must submit a certification to the board of county commissioners and the board of the library district reporting the dedicated portion of that city’s property tax funded library fund budget and separately reporting any portion of its property tax funded general fund budget used to fund library operations or services at the time of the election for consolidation with the library district. (7-1-21)T

vii. For any library district consolidating with any city that had any portion of its property tax funded budget(s) dedicated to library operations or services at the time of the election for consolidation, each such library district must submit to the board of county commissioners a copy of the certification from that city reporting the information provided for in Subparagraph 803.04.h.vi. of this rule. (7-1-21)T

viii. For any taxing district including previously forgone increases in their budget or reserving any forgone increase, a copy of the resolution describing the amount of the forgone increase being reserved, or the amount included and specific purpose for which it is being included. (7-1-21)T

05. Special Provisions for Fire Districts Levying Against Operating Property. To prevent double counting of public utility property values, for any year following the first year in which any fire district increases its budget using the provision of Section 63-802(2), Idaho Code, such fire district will not be permitted further increases under this provision unless the following conditions are met: (7-1-21)T

a. The fire district and public utility have entered into a new agreement of consent to provide fire
protection to the public utility; and

b. Said new agreement succeeds the original agreement; and

(7-1-21)T

c. In the first year in which levies are certified following the new agreement, the difference between the current year's taxable value of the consenting public utility and public utility value used in previous budget calculations made pursuant to this section is used in place of the current year's taxable value of the consenting public utility.

(7-1-21)T

06. Special Provisions for Property Tax Replacement and Refunds Pursuant to Section 63-1305C(6), Idaho Code. Property tax replacement monies must be reported on the L-2 Form and separately identified on accompanying worksheets. Except as provided in Paragraph 803.06.f. of this rule, for all taxing districts, these monies must be subtracted from or, in the case of refunds, not included in, the “balance to be levied”. The reduced balance will be used to compute levies. The maximum amount permitted pursuant to Section 63-802(1), Idaho Code, will be based on the sum of these property tax replacement monies including recoveries received pursuant to Section 63-1305C(3), Idaho Code, but excluding monies received pursuant to Section 63-3502B(2), Idaho Code, and the amount actually levied. Each taxing district’s proportionate share of refunds pursuant to Section 63-1305C(6), Idaho Code, as reported in Paragraph 803.01.e. of this rule, must be subtracted from the maximum amount permitted pursuant to Section 63-802(1), Idaho Code.

(7-1-21)T

a. The Tax Commission will, by the fourth Monday of July, notify each county clerk if the amount of property tax replacement money, pursuant to Sections 63-3638(11) and (13), Idaho Code, to be paid to a taxing district changes from the amount paid in the preceding year. By the first Monday of May, the Tax Commission will further notify each school district and each county clerk of any changes in the amount of property tax replacement money to be received by that school district pursuant to Sections 63-3638(11) and (13), Idaho Code.

(7-1-21)T

b. By no later than the first Monday of August of each year, each county clerk will notify each appropriate taxing district or unit of the total amount of property tax replacement monies, and the type of replacement money, as described in Paragraph 803.04.e. of this rule. For charter school districts subject to the provisions of Paragraph 803.06.f. of this rule, the amount to be subtracted will be reported.

(7-1-21)T

c. Except as provided in Paragraph 803.06.d. of this rule, the subtraction required in Subsection 803.06 of this rule may be from any fund(s) subject to the limitations of Section 63-802, Idaho Code. For school districts these subtractions must be first from funds subject to the limitations of Section 63-802, Idaho Code, then from other property tax funded budgets.

(7-1-21)T

d. For taxing districts receiving distributions of the gross earning tax on solar farms described in Section 63-3502B(2), Idaho Code, the amount of any such distribution received during the 12 (twelve) months ending June 30 of the current tax year will be subtracted from the maximum amount of property tax revenue permitted pursuant to Section 63-802, Idaho Code. In addition to the amounts reported as described in Paragraph 803.06.b. of this rule, the county clerk will, by the first Monday in August, notify each taxing unit of the total amount of the gross earnings tax on solar farms billed for the current tax year.

(7-1-21)T

e. Levy limits will be tested against the amount actually levied.

(7-1-21)T

f. For charter school districts with a levy in 2013 for maintenance and operations, as provided in Section 33-802(6), Idaho Code, a portion of the property tax replacement money received for property subject to the exemption in Section 63-602KK, Idaho Code, is not required to be subtracted in determining the “balance to be levied.” Said portion will be the amount calculated by applying the 2013 levy rate for the maintenance and operations levy amount, as authorized in the district’s charter, to the 2013 exempt value of personal property used to compute replacement money provided to the school district.

(7-1-21)T

g. For recovered personal property exemptions, as provided in Section 63-602KK(7), Idaho Code, for personal property exempted in 2013 for which replacement money was paid, recovered amounts will be distributed to the Tax Commission. Once received, the amount of future payments to the affected taxing districts will be reduced by the amount received.

(7-1-21)T
07. Special Provisions for Library Districts Consolidating with Any City’s Existing Library Operations or Services. For any library district consolidating with any city’s existing library operations or services, the amount of the dedicated property tax funded general fund and library fund budgets certified by the city under Subparagraph 803.04.h.vi., of this rule will be added to that library district’s property tax funded budget in effect at the time of the election for consolidation. This total will be used as this district’s property tax funded budget for the most recent year of the three (3) years preceding the current tax year for the purpose of deciding the property tax funded budget that may be increased as provided by Section 63-802, Idaho Code. (7-1-21)T

08. Special Provisions for Cities with Existing Library Operations or Services Consolidating with Any Library District. For any city with existing library operations or services at the time of consolidation with any library district, the amount of the dedicated property tax funded library fund budget included in the certification by the city under Subparagraph 803.04.h.vi., of this rule will be subtracted from that city’s total property tax funded budget in effect at the time of the election for the consolidation. This difference will be used as this city’s property tax funded budget for the most recent year of the three (3) years preceding the current tax year for the purpose of deciding the property tax funded budget that may be increased as provided by Section 63-802, Idaho Code. (7-1-21)T

09. Special Provisions for Calculating Total Levy Rate for Taxing Districts or Units with Multiple Funds. Whenever the “Calculated Levy Rate” column of the L-2 Form indicates that a levy rate has been calculated for more than one (1) fund for any taxing district or unit, the “Column Total” entry must be the sum of the levy rates calculated for each fund. Prior to this summation, the levy rates to be summed must be rounded or truncated at the ninth decimal place. No additional rounding is permitted for the column total. (7-1-21)T

10. Special Provisions for School Districts’ Tort Funds - Hypothetical New Construction Levy. To calculate the new construction portion of the allowed annual increase in a school district’s tort fund under Section 63-802(1), Idaho Code, calculate a Hypothetical New Construction Levy. To calculate this hypothetical levy, sum the amount of the school district’s tort fund levied for the prior year, the agricultural equipment replacement revenue, and the personal property replacement revenue, then divide this sum by the school district’s taxable value used to determine the tort fund’s levy for the prior year. For the current year, the allowed tort fund increase for new construction is this Hypothetical New Construction Levy times the current year’s new construction roll value for the school district. (7-1-21)T

11. Special Provisions for Interim Abatement Districts. When an interim abatement district transitions into a formally defined abatement district under Section 39-2812, Idaho Code, the formally defined abatement district will not be considered a new taxing district as defined in Paragraph 803.01.g of this rule for the purposes of Section 63-802, Idaho Code. For the formally defined abatement district, the annual budget subject to the limitations of Section 63-802, Idaho Code, will be the amount of property tax revenue approved for the interim abatement district. (7-1-21)T

12. Special Provisions for Consolidating Cemetery Districts. When two (2) or more cemetery districts consolidate, the first year in which the consolidated cemetery district levies property tax, the maximum budget subject to the limitations of Section 63-802, Idaho Code, will be computed as follows: (7-1-21)T

   a. Determine the highest levy rate of any of the former cemetery districts now consolidating, based on the sum of the immediate prior year’s levies subject to the limitations of Section 63-802, Idaho Code. (7-1-21)T

   b. Multiply this levy rate by the current taxable value of property within the area of the former cemetery districts other than the district with the highest rate. (7-1-21)T

   c. Multiply this levy rate by the current taxable value of new construction, as reported on the new construction roll, within the area of the former cemetery district with the highest levy rate. (7-1-21)T

   d. Add: (7-1-21)T

      i. The amounts computed in Paragraphs 803.12.b. and 803.12.c., of this rule; (7-1-21)T

      ii. Three percent (3%) of the highest amount of property taxes certified by the former cemetery district determined in Paragraph 803.12.a. of this rule, to have had the highest levy rate, for its annual budget, as defined in
Section 63-802(1)(a), Idaho Code; and

iii. Any forgone amounts of the former cemetery districts now consolidating.

13. Special Provisions for Highway Districts in Urban Renewal Revenue Allocation Areas. For highway districts located wholly or partially within urban renewal revenue allocation areas (RAAs) formed July 1, 2020, or later or RAAs which annex property within a highway district, any agreement for an allocation of revenue to the urban renewal agency, as provided in Section 50-2908, Idaho Code, is to be submitted to the tax commission and the county clerk by September 1 of tax year to be in effect for that year’s revenue allocation.

804. TAX LEVY - CERTIFICATION - URBAN RENEWAL DISTRICTS (RULE 804).

01. Definitions.

a. “Urban renewal district.” An urban renewal district, as referred to in Section 63-215, Idaho Code, shall mean an urban renewal area formed pursuant to an urban renewal plan adopted in accordance with Section 50-2008, Idaho Code. Urban renewal districts are not taxing districts.

b. “Revenue allocation area (RAA).” A revenue allocation area (RAA) as referred to in Section 50-2908, Idaho Code, shall be the area defined in Section 50-2903, Idaho Code, in which base and increment values are to be determined. A new urban renewal plan is required when an urban renewal agency establishes a new RAA. Revenue allocation areas (RAAs) are not taxing districts.

c. “Current base value.” Current base value does not include value found on the occupancy roll. Current base value includes the previous year’s non-prorated value of current taxable property subject to assessment under Sections 63-602Y and 63-313, Idaho Code during the year the initial base value was established.

d. “Initial base value.” The initial base value for each parcel is the sum of the taxable value of each category of property in the parcel for the year the RAA is established. In the case of annexation to an RAA, initial base value of each annexed parcel shall be the value of that parcel as of January 1 of the year in which the annexation takes place. The initial base value includes any prorated value added for property subject to Sections 63-602Y and 63-313, Idaho Code.

e. “Increment value.” The increment value is the difference between the current equalized value of each parcel of taxable property in the RAA and that parcel’s current base value, provided such difference is a positive value. Newly constructed improvements with value listed on the occupancy roll within a newly formed RAA or within an area newly annexed to an existing RAA will be added as increment value in the year following the year of formation or annexation.

f. “Revenue allocation financing provision.” A revenue allocation area (RAA) shall be considered to be a revenue allocation financing provision.

02. Establishing and Adjusting Base and Increment Values.

a. Establishing initial base value. If a parcel’s legal description has changed prior to computing initial base year value, the value that best reflects the prior year’s taxable value of the parcel’s current legal description must be determined and will constitute the initial base year value for such parcel. The initial base value includes the taxable value, as of the effective date of the ordinance adopting the urban renewal plan, of all otherwise taxable property, as defined in Section 50-2903, Idaho Code. Initial base value does not include value found on the occupancy roll.

b. Adjustments to base value - general value changes. Adjustments to base values will be calculated on a parcel by parcel basis, each parcel being a unit and the total value of the unit being used in the calculation of any
adjustment. Base values are to be adjusted downward when the current taxable value of any parcel in the RAA is less than the most recent base value for such parcel. In the case of parcels containing some categories of property which increase in value and some which decrease, the base value for the parcel will only decrease provided the sum of the changes in category values results in a decrease in total parcel value. Any adjustments shall be made by category and may result in increases or decreases to base values for given categories of property for any parcel. Adjustments to base values for any real, personal, or operating property shall establish new base values from which future adjustments may be made. In the following examples the parcel’s initial base value is one hundred thousand dollars ($100,000), including Category 21 value of twenty thousand dollars ($20,000) and Category 42 value of eighty thousand dollars ($80,000).

i. Case 1: Offsetting decreases and increases in value. One (1) year later the parcel has a one thousand dollar ($1,000) decrease in value in Category 21 and a one thousand dollar ($1,000) increase in Category 42 value. There is no change in the base value for the parcel.

ii. Case 2: Partially offsetting decreases and increases in value. One (1) year later the parcel has a three thousand dollars ($3,000) decrease in value in Category 21 and a one thousand dollars ($1,000) increase in Category 42 value. The base value decreases two thousand dollars ($2,000) to ninety-eight thousand dollars ($98,000).

iii. Case 3: Future increase in value following decreases. One (1) year after the parcel in Case 2 has a base value reduced to ninety-eight thousand dollars ($98,000), the value of the parcel increases by five thousand dollars ($5,000) which is the net of category changes. The base value remains at ninety-eight thousand dollars ($98,000).

c. Adjustments to base value - splits and combinations. Before other adjustments can be made, the most recent base value must be adjusted to reflect changes in each parcel’s legal description. This adjustment shall be calculated as described in the following subsections.

i. When a parcel has been split, the most recent base year value is transferred to the new parcels, making sure that the new total equals the most recent base year value. Proportions used to determine the amount of base value assigned to each of the new parcels shall be based on the value of the new parcels had they existed in the year preceding the year for which the value of the new parcels is first established.

ii. When a parcel has been combined with another parcel, the most recent base year values are added together.

iii. When a parcel has been split and combined with another parcel in the same year, the value of the split shall be calculated as set forth in Subparagraph 804.02.c.i and then the value of the combination will be calculated as set forth in Subparagraph 804.02.c.ii.

d. Adjustments to base values when exempt parcels become taxable. Base values shall be adjusted as described in the following subsections.

i. Fully exempt parcels at time of RAA establishment. When a parcel that was exempt at the time the RAA was established becomes taxable, the base value is to be adjusted upwards to reflect the estimated value of the formerly exempt parcel as it existed at the time the RAA was established.

ii. Partially exempt parcels losing the speculative value exemption. When a partially exempt parcel with a speculative value exemption that applies to farmland within the RAA becomes fully taxable, the base value of the RAA shall be adjusted upwards by the difference between the taxable value of the parcel for the year in which the exemption is lost and the taxable value of the parcel included in the base value of the RAA. For example, assume a parcel of farmland within an RAA had a taxable value of five hundred dollars ($500) in the year the RAA base value was established. Assume also that this parcel had a speculative value exemption of two thousand dollars ($2,000) at that time. Two (2) years later the parcel is reclassified as industrial land, loses the speculative value exemption, and has a current taxable value of fifty thousand dollars ($50,000). The base value within the RAA would be adjusted upwards by forty-nine thousand five hundred dollars ($49,500), the difference between fifty thousand dollars ($50,000) and five hundred ($500). The preceding example applies only in cases of loss of the speculative value exemption.
exemption that applies to land actively devoted to agriculture and does not apply to timberland. Site improvements, such as roads and utilities, that become taxable after the loss of the speculative value exemption are not to be added to the base value. For example, if, in addition to the fifty thousand dollars ($50,000) current taxable value of the undeveloped land, site improvements valued at twenty-five thousand dollars ($25,000) are added, the amount reflected in the base value remains fifty thousand dollars ($50,000), and the additional twenty-five thousand dollars ($25,000) is added to the increment value. In addition, this example applies only to land that loses the speculative value exemption as a result of changes occurring in 2010 or later and first affecting taxable values in 2011 or later.

Parcels that lost speculative value exemptions prior to 2010 had base value adjustments as described in Subparagraph 804.02.d.iii. of this rule.

iii. Partially exempt parcels other than those losing the speculative value exemption. Except as provided in Subparagraph 804.02.d.vi. of this rule, when a partially exempt parcel, other than one subject to the speculative value exemption that applies to farmland, within the RAA becomes fully taxable, the base value of the RAA shall be adjusted upwards by the difference between the value that would have been assessed had the parcel been fully taxable in the year the RAA was established and the taxable value of the parcel included in the base value of the RAA. For example, assume a residential parcel within an RAA had a market value of one hundred thousand dollars ($100,000), a homeowner’s exemption of fifty thousand dollars ($50,000), and a taxable value of fifty thousand dollars ($50,000) in the year the RAA base value was established. After five (5) years, this parcel is no longer used for owner-occupied residential purposes and loses its partial exemption. At that time the parcel has a taxable value of one hundred eighty thousand dollars ($180,000). The base value within the RAA would be adjusted upwards by fifty thousand dollars ($50,000) to one hundred thousand dollars ($100,000) to reflect the loss of the homeowner’s exemption, but not any other value increases.

iv. Partially exempt properties for which the amount of the partial exemption changes. For partially exempt properties that do not lose an exemption, but for which the amount of the exemption changes, there shall be no adjustment to the base value, unless the current taxable value is less than the most recent base value for the property. For example, assume a home has a market value of two hundred thousand dollars ($200,000) and a homeowner’s exemption of one hundred thousand dollars ($100,000), leaving a taxable value of one hundred thousand dollars ($100,000), all of which is base value. The following year the homeowner’s exemption limit changes to ninety thousand dollars ($90,000), so the property's taxable value increases to one hundred ten thousand dollars ($110,000). The base value remains at one hundred thousand dollars ($100,000). Alternatively, assume the property in the preceding example increases in market value to two hundred twenty thousand dollars ($220,000) and the homeowner's exemption drops to ninety thousand dollars ($90,000) because of the change in the maximum amount of this exemption. The base value remains at one hundred thousand dollars ($100,000). Finally, assume the property decreases in value to one hundred eighty-eight thousand dollars ($188,000) at the same time the homeowner's exemption limit changes to ninety thousand dollars ($90,000). The property now has a taxable value of ninety-eight thousand dollars ($98,000), requiring an adjustment in the base value to match this amount, since it is lower than the original base value of one hundred thousand dollars ($100,000).

v. Change of exempt status. Except as provided in Subparagraph 804.02.d.vi. of this rule, when a parcel that is taxable and included in the base value at the time the RAA is established subsequently becomes exempt, the base value is reduced by the most current value of the parcel included in the base value. If this parcel subsequently becomes taxable, the base value is to be adjusted upward by the same amount that was originally subtracted. For example, assume a land parcel had a base value of twenty thousand dollars ($20,000). One (1) year later the parcel has a value of nineteen thousand dollars ($19,000), so the base value is reduced to nineteen thousand dollars ($19,000). Three (3) years later, an improvement valued at one hundred thousand dollars ($100,000) was added. The land at this later date had a value of thirty thousand dollars ($30,000). Both land and improvements were purchased by an exempt entity. The base would be reduced by nineteen thousand dollars ($19,000). Five (5) years later, the land and improvement becomes taxable. The base value is to be adjusted upwards by nineteen thousand dollars ($19,000).

vi. Special case for exemption provided in Section 63-602NN, Idaho Code. Upon loss of the exemption, any newly taxable value in excess of the taxable value of the property in the year immediately preceding the first year of the exemption is to be added to the increment value provided the property was within an RAA when the exemption was granted and remains within the RAA at the time the exemption expires. If the parcel was annexed to an RAA during the period of the exemption, the value that would have been added to the base value at the time of annexation had the property not received the exemption would be added to the base at the time the exemption expires.
while any remaining taxable value would be added to the increment. If the exemption has been granted in part, the adjustments provided in this subparagraph shall only apply to the portion of the property granted the exemption.

(7-1-21)T  

**e.** Adjustments to base values when property is removed. Base values are to be adjusted downward for real, personal, and operating property removed from the RAA. Property shall be considered removed only under the conditions described in the following subsections.

(7-1-21)T  

i. For real property, all of the improvement is physically removed from the RAA, provided that there is no replacement of said improvement during the year the original improvement was removed. If said improvement is replaced during the year of removal, the reduction in base value will be calculated by subtracting the value of the new improvement from the current base value of the original improvement, provided that such reduction is not less than zero (0).

(7-1-21)T  

ii. For personal property, all of the personal property associated with one (1) parcel is physically removed from the RAA or any of the personal property associated with a parcel becomes exempt. In the case of exemption applying to personal property, the downward adjustment will first be applied to the increment value and then, if the remaining taxable value of the parcel is less than the most current base value, to the base value. Assume, for example that a parcel consists entirely of personal property with a base value of twenty thousand dollars ($20,000) and an increment value of ninety thousand dollars ($90,000). The next year the property receives a one hundred thousand ($100,000) personal property exemption. The increment value is reduced to zero and the base value is reduced to ten thousand dollars ($10,000).

(7-1-21)T  

iii. For operating property, any of the property under a given ownership is removed from the RAA.

(7-1-21)T  

**f.** Adjustments to base value for annexation. When property is annexed into an RAA, the base value in the RAA shall be adjusted upwards to reflect the value of the annexed property as of January 1 of the year in which the annexation takes effect. As an example, assume that parcels with current taxable value of one million dollars ($1,000,000) are annexed into an RAA with an existing base value of two million dollars ($2,000,000). The base value of the RAA is adjusted upwards to three million dollars ($3,000,000).

(7-1-21)T  

**g.** Adjustments to increment values. In addition to the adjustment illustrated in Subparagraph 804.02.e.ii. of this rule, decreases in total parcel value below the initial base value decrease the base value for the parcel. This leads to greater increment value if the parcel increases in value in future years. For example, if a parcel with a initial base value of one hundred thousand dollars ($100,000) decreases in value to ninety-five thousand dollars ($95,000), an increment value of three thousand dollars ($3,000) is generated. If the same parcel increases in value to one hundred two thousand dollars ($102,000) after the decrease to ninety-five thousand dollars ($95,000), the increment value would be seven thousand dollars ($7,000).

(7-1-21)T  

**h.** Apportioning operating property values. For operating property, the original base value shall be apportioned to the RAA on the same basis as is used to apportion operating property to taxing districts and units. The operating property base value shall be adjusted as required under Section 50-2903, Idaho Code.

(7-1-21)T  

**03. Levy Computation for Taxing Districts Encompassing RAAs Within Urban Renewal Districts.** Beginning in 2008, levies shall be computed in one (1) of two (2) ways as follows:

(7-1-21)T  

**a.** For taxing district or taxing unit funds other than those meeting the criteria listed in Subsection 804.05 of this rule, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the taxing district or unit, including the value of each parcel on the current base assessment roll (base value), but excluding the increment value. For example, if the taxable value of property within a taxing district or unit is one hundred million dollars ($100,000,000) but fifteen million dollars ($15,000,000) of that value is increment value, the levy of the taxing district must be computed by dividing the property tax portion of the district’s or unit’s budget by eighty-five million dollars ($85,000,000).

(7-1-21)T
b. For taxing district or taxing unit funds meeting the criteria listed in Subsections 804.05 and 804.07 of this rule, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the taxing district or unit, including the increment value. Given the values in the example in Paragraph 804.03.a. of this rule, the levy would be computed by dividing the property tax portion of the fund by one hundred million dollars ($100,000,000).

04. Modification of an Urban Renewal Plan. Except when inapplicable as described in Paragraphs 804.04.a, b, or c, of this rule, when an authorized municipality passes an ordinance modifying an urban renewal plan containing a revenue allocation financing provision, for the tax year immediately following the year in which the modification occurs, the base value of property in the RAA shall be reset by being adjusted to reflect the current taxable value of the property. All modifications to boundaries of RAAs must comply with the provisions of Rule 225 of these rules.

a. Modification by consolidation of RAAs. If such modification involves combination or consolidation of two (2) or more RAAs, the base value shall be determined by adding together independently determined current base values for each of the areas to be combined or consolidated. The current taxable value of property in an area not previously included in any RAA shall be added to determine the total current base value for the consolidated RAA.

b. Modification by annexation.

i. If an RAA is modified by annexation, the current taxable value of property in the area annexed shall be added to the most current base value determined for the RAA prior to the annexation.

ii. For levies described in Paragraphs 804.05.b., c., or d. of this rule approved prior to December 31, 2007, and included within the boundaries of a revenue allocation area by a change in the boundaries of either the revenue allocation area or the area subject to the levy by the taxing district or unit fund after December 31, 2007, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the taxing district or unit, including the increment value. The example below shows the value to be used for setting levies for various funds within an urban renewal district “A” that annexes area “B” within a school district. Area (B) was annexed after December 31, 2007. Therefore, the Area (B) increment was added back to the base for all funds shown except the tort fund. The Area (A) increment value was added back to the base for the bond and override funds which were certified or passed after December 31, 2007.

(7-1-21)T
iii. An annexation permitted pursuant to section 50-2033, Idaho Code, to an RAA in existence prior to July 1, 2016 shall not change the status of the urban renewal agency or the RAA and its related plan regarding inapplicability of the base reset or attestation provisions found in section 50-2903A, Idaho Code.

(7-1-21)

c. Other modifications – attestation requirements. Modification resulting in adjustment of base value to reflect the current taxable value of the property within the RAA shall not be deemed to have occurred when the urban renewal agency attests to having made no modifications to a plan or is not required to attest to plan modifications. Certain urban renewal agencies are required to attest annually to having made or not made plan modifications. These include:

i. Urban renewal agencies that establish new RAAs on or after July 1, 2016, provided however that such agencies are only required to attest to having made or not made modifications with regard to any new RAA.

(7-1-21)

ii. Urban renewal agencies that enact new plans including an RAA on or after July 1, 2016. (7-1-21)

d. Modifications when there is outstanding indebtedness. When any urban renewal agency attests to having had a plan modification that is not an exception identified in Paragraphs 804.04.a. or b. or c. of this rule or fails to provide the required attestation, the base value will be determined without regard to the modification, provided that the agency certifies to the State Tax Commission by June 30 of the tax year that there is outstanding indebtedness as defined in Section 50-2903A(2), Idaho Code. In this case, the allocation of revenue to the urban renewal agency shall be limited to the amount certified as necessary to pay the indebtedness. Any additional revenue shall be distributed to each taxing district or unit in the same manner as property taxes. Such revenue shall be treated as property tax revenue for the purpose of the limitations in Section 63-802, Idaho Code. The county clerk will notify the Tax Commission of the amount so distributed for each year beginning July 1 of the prior year and ending June 30 of the current tax year.

(7-1-21)

e. Failure to submit attestation regarding plan modification. For any urban renewal agency subject to the requirements of Section 50-2903A, Idaho Code, attestation of plan modification or attestation that there has been no plan modification is required to be made to the State Tax Commission by the first Monday of June each year. Except as provided in Paragraph 804.04.d. of this rule, if such agency fails to provide the required attestation, the State Tax Commission will proceed to reset the base value or limit allocation of property tax to the urban renewal agency as otherwise required in Section 50-2903A, Idaho Code. Provided there is no new plan, an urban renewal agency with a plan including one or more revenue allocation financing provisions (RAAs) in existence prior to July 1, 2016 shall only be required to provide this attestation or be subject to base resetting or other limitations for failure to submit this attestation with respect to new RAAs formed on or after July 1, 2016. If such an agency develops a new plan, on or after July 1, 2016, or provides for a new RAA under an existing plan, the agency shall be subject to the attestation requirements and other provisions of Section 50-2903A, Idaho Code, with respect to any RAAs formed.
July 1, 2016 or later. (7-1-21)T

f. Notice of actions related to base reset or revenue allocation limitations. (7-1-21)T

i. The Tax Commission will notify any urban renewal agency within thirty (30) days of the time the Tax Commission receives an attestation that an urban renewal plan has been modified, or by July 30 in any year in which an attestation is required but none is received, of the Tax Commission’s intent to initiate the process to reset the base value in the following tax year. Said notice will be provided to affected county commissioners and city officials. (7-1-21)T

ii. In the case of base reset due to failure to attest to a modification or to having made no modification in an urban renewal plan, despite being required to provide this attestation, the agency and county and city officials will be so notified and will be given an opportunity to provide the necessary attestation. This further notice will provide that, if the Tax Commission has not received the attestation by December 31 of the tax year, the base will be reset in the immediate following year. (7-1-21)T

iii. In the case of a revenue allocation limitation pursuant to Section 50-2913, Idaho Code, notice will be provided to the agency, county, and city officials including the county assessor and county clerk, within thirty (30) days of the due date of the plan or plan update. (7-1-21)T

iv. In the case of a revenue allocation limitation due to a plan modification but outstanding indebtedness, notice will be provided to the agency and county and city officials, including the county assessor and county clerk, within thirty (30) days of receipt by the Tax Commission of the certification of the amount needed to repay the indebtedness. (7-1-21)T

v. Once decisions about base reset or revenue allocation limitations are final, additional notice will be sent to the agency and county and city officials, including the county assessor and county clerk, within thirty (30) days of any such final decision. Said notice will include an identification of the year in which the reset or revenue allocation limitation will take effect and the amount of any revenue allocation limitation. (7-1-21)T

05. Criteria for Determining Whether Levies for Funds Are to Be Computed Using Base Value or Market Value for Assessment Purposes. Beginning in 2008, levies to be certified for taxing district or unit funds meeting the following criteria or used for any of the following purposes will be computed as described in Paragraph 804.03.b. of this rule. (7-1-21)T

a. Refunds or credits pursuant to Section 63-1305, Idaho Code, and any school district judgment pursuant to Section 33-802(1), Idaho Code, provided the refunds, credits, or judgments were pursuant to actions taken no earlier than January 1, 2008; (7-1-21)T

b. Voter approved overrides of the limits provided in Section 63-802, Idaho Code, provided such overrides are for a period not to exceed two (2) years and were passed after December 31, 2007, or earlier as provided in the criteria found in Paragraph 804.05.e.; (7-1-21)T

c. Voter approved bonds and plant facilities reserve funds passed after December 31, 2007, or earlier as provided in the criteria found in Paragraph 804.05.e.; (7-1-21)T

d. Voter approved school or charter school district temporary supplemental maintenance and operation levies passed after December 31, 2007; or (7-1-21)T

e. Levies described in Paragraphs 804.05.b., c., or d. approved prior to December 31, 2007, and included within the boundaries of a revenue allocation area by a change in the boundaries of either the revenue allocation area or the area subject to the levy by the taxing district or unit fund after December 31, 2007; (7-1-21)T

f. Levies authorized by Section 33-317A, Idaho Code, known as the cooperative service agency school plant facility levy. (7-1-21)T

g. Levies authorized by Section 33-909, Idaho Code, known as the state-authorized plant facility levy.
Levies authorized by Section 33-805, Idaho Code, known as school emergency fund levy.

06. Setting Levies When There is a De-annexation From an RAA. In any de-annexation from an RAA, levies will be set using the base value and, as indicated in Subsection 804.05 of this rule, the appropriate amount of increment value associated with the parcels and operating property remaining in the RAA after the de-annexation, provided that the de-annexation is in effect no later than September 1 of the current tax year and provided further that the de-annexation is approved by the Tax Commission in accordance with Section 225 of these rules.

07. Setting Levies When There is a Refinancing of Bonded Indebtedness. Refinancing of bonded indebtedness in existence as of December 31, 2007 does not create new bonded indebtedness for any taxing district with respect to the levy setting criteria in Subsection 804.05 of this rule.

08. Cross Reference. The county auditor shall certify the full market value by taxing district as specified in Rule 995 of these rules. See also Rule 802 of these rules for calculation of new construction given de-annexation from an RAA and see Rule 805 of these rules for penalties for failure to submit plans.

805. PENALTY FOR FAILURE TO COMPLY WITH REPORTING REQUIREMENTS (RULE 805). Sections 63-802A, 50-2913, 67-450E, Idaho Code

01. Property Tax Limitation Penalties for Non-compliance. Penalties applies to any taxing district that fails, by April 30 of each year, to provide each appropriate county clerk with written notification of the budget hearing information required pursuant to Section 63-802A, Idaho Code, or, beginning in 2015, that is found by September 1 to be out of compliance with the requirements of section 67-450E, Idaho Code. There will be no increase in the portion of the budget subject to the limitations of Section 63-802, Idaho Code. This restriction will apply to otherwise available budget increases from the three percent (3%) growth factor, new construction or change of land use classification, and annexation. There will also be no increase resulting from adding previously accrued foregone increase amounts to the budget and the total accrued foregone amount will not change for a non-complying district.

02. Exceptions. Voter approved budget increases permitted pursuant to Section 63-802(4), Idaho Code, will be allowed.

03. County Clerks to Submit Lists. By the fourth Monday of May, each county clerk will submit to the Tax Commission a list of taxing districts out of compliance with the requirements of Section 63-802A, Idaho Code, along with other documents required pursuant to Rule 803 of these rules and Section 63-808, Idaho Code.

04. Notification by Tax Commission. By September 3 each year, the Tax Commission will provide each county clerk a list of all taxing districts in the county that are subject to the penalties in Section 63-802A, Idaho Code. The Tax Commission will also notify each county clerk when a previously non-complying taxing district is found to be in compliance with the requirements of Section 67-450E, Idaho Code. Such notification will be done by September 3 of the year in which the compliance status is re-established.

05. Additional Penalties. For taxing districts that fail to comply with the requirements of Section 67-450E, Idaho Code, additional penalties affect the distribution of sales tax money for which the district may be eligible. See Rule 995 of these rules.

06. Applicability to Urban Renewal Agencies. Urban renewal agencies failing to annually submit to the Tax Commission plans as required pursuant to Section 50-2913, Idaho Code, will be subject to penalties found in that Section.

a. Urban renewal agencies having once submitted such plans, and having made no modification or amendment to such plans, may, by December 1 each year, attest to the currency of the previously submitted plan in
lieu of re-submitting that plan. (7-1-21)T

b. Providing the Tax Commission with, and updating links to, plans on urban renewal agency websites will constitute compliance with submittal requirements. (7-1-21)T

806. ELECTION TO CREATE A NEW TAXING DISTRICT -- CLERK'S MAILED NOTICE (RULE 806).
Section 63-802C, Idaho Code. The sponsors of a new taxing district, including interim abatement districts, will submit an estimate of the first year’s property tax budget to the county clerk sixty (60) days prior to the election. When the estimate of the first year’s budget is received, the county clerk will estimate the levy rate based on the most recent actual or estimated taxable value information available. If the sponsors fail to provide the budget information, the county clerk will, for taxing districts with funds subject to maximum levy rates, estimate the amount of property taxes to be raised in the proposed district by multiplying the maximum levy rate permitted by law times the most current available estimate of taxable value. Pertaining to the estimate of the first year’s levy only, the estimated levy rate, computed based on the information supplied by the sponsors, or the maximum levy rate permitted by law if the information has not been supplied, will be used to compute the estimated taxes per one hundred thousand dollars ($100,000) of net taxable value. The maximum levy rate means the sum of every maximum statutory levy rate for any fund subject to such rates for the taxing district type. (7-1-21)T

807. LEVY BY NEW TAXING UNITS - DUTIES OF AUDITOR (RULE 807).
Section 63-807, Idaho Code

01. Levy by Newly Formed or Organized Taxing Districts. Regardless of whether other formation or organization requirements have been met, newly formed or organized taxing districts that fail to meet the requirements of Rule 225 of these rules, will not be authorized to levy property taxes. (7-1-21)T

02. Levy by Taxing Districts Altering Boundaries. Regardless of whether other boundary alteration requirements have been met, taxing districts that alter their boundaries and fail to meet the requirements of Rule 225 of these rules, will not be authorized to levy property taxes within any area added to the district. If area is withdrawn from any district that fails to meet the requirements of Rule 225 of these rules, any levy by the district applies to taxable property within the withdrawn area. (7-1-21)T

03. Levy Considered Not Authorized. If a taxing district fails to meet the requirements of Subsection 807.01 or 807.02 of this rule, the district’s levy or its levy within an altered area will be considered not authorized, pursuant to Section 63-809, Idaho Code. (7-1-21)T

808. ADDITIONAL DOCUMENTATION BY TAXING DISTRICTS NOT LEVYING AGAINST ALL TAXABLE PROPERTY (RULE 808).

01. Tax Levy Rate Calculations and Documentation of Categories to be Taxed. For any taxing district which does not levy property taxes against all taxable property within the district, the tax levy is to be calculated by dividing the taxing district’s property tax budget by the taxable value of property against which the levy is to be applied. If the taxing district elects the property categories to be taxed, documentation of such election must be either:

a. If initiated by the taxing district and not currently available to each county clerk, submitted by the taxing district to each county clerk, who will then submit the documentation to the Tax Commission by the first Monday in August in the first year in which the election takes place or in 2012, and in any year in which the categories elected to be taxed change; or (7-1-21)T

b. If elected by an action of the Board of County Commissioners, submitted by the county clerk to the Tax Commission by the first Monday in August in the first year in which the election takes place or in 2012, and in any year in which the categories elected to be taxed change. (7-1-21)T

02. Fire Districts. Fire districts may levy against property of public utilities provided there is an agreement between the fire district and the public utility to do so. In addition, fire districts may exempt all or a
portion of unimproved real property and taxable personal property. (7-1-21)

a. Public Utility Agreements. Written agreements with public utilities permitting property taxes to be levied for fire protection of all or a portion of the property of the public utility, pursuant to Section 31-1425(1), Idaho Code, must be submitted as documentation required in Subsection 808.01 of this rule. Such agreements need only be submitted once, provided there is no change and such agreements are on file with the county clerk and Tax Commission in 2012. (7-1-21)

b. Exemption of all or a portion of unimproved real property and taxable personal property. Exemption of all or a portion of unimproved real property and taxable personal property must be documented in the fire district’s formation ballot or other documents creating the fire district or by an ordinance enacted pursuant to Section 31-1425(2), Idaho Code, by the Board of County Commissioners, of each county in which the fire district is located. If the county does not have the necessary documentation, it must be submitted by the fire district by the third Monday in July, 2012 or, for fire districts created during or after 2012, by the third Monday in July of the first year in which the fire district intends to levy property taxes. If such documentation is not available, the fire district will be presumed to be levying against all otherwise taxable real and personal property. (7-1-21)

03. Flood Control, Levee, Watershed Improvement, Community Infrastructure Districts, and Herd Districts. Property tax may only be levied against real property. No special documentation is required. (7-1-21)

04. Ambulance Districts. Exemption of all or a portion of unimproved real property and taxable personal property must be documented by an ordinance enacted pursuant to Section 31-3908A, Idaho Code, by the county commissioners of the county in which the ambulance district is located. If such documentation is not available, the ambulance district will be presumed to be levying against all otherwise taxable real and personal property. (7-1-21)

05. Abstracts Showing Value of Property Against Which Levy is to be Applied. For taxing districts not levying property tax against all otherwise taxable property, abstracts must be submitted as required in Rule 115 of these rules. (7-1-21)

809. CORRECTION OF ERRONEOUS LEVY (RULE 809). Sections 63-809, 63-810, Idaho Code

01. Errors Discovered by the Fourth Monday in October. When the Tax Commission receives by the fourth Monday in October from a board of county commissioners notice of corrections for unintentional clerical, mathematical, or electronic errors under Section 63-810, Idaho Code, the Tax Commission will make the corrections to any approved levies by the fourth Monday in October. (7-1-21)

02. Errors Discovered After the Fourth Monday in October. When the Tax Commission receives after the fourth Monday in October and prior to the following February 15 notices of corrections for any unintentional errors, as referenced in Subsection 809.01 of this rule, the Tax Commission will make the corrections and approve the appropriate corrected levies within one (1) week. (7-1-21)

03. Cross Reference. For information on reporting of corrections for unintentional clerical, mathematical, or electronic errors, see Sections 63-809 and 63-810, Idaho Code, and Rule 509 of these rules. (7-1-21)

810. (RESERVED)

811. COMPUTATION OF PROPERTY TAXES (RULE 811). Section 63-811, Idaho Code

01. Duty of the County Auditor. Upon distribution of the approved final levy rates for the current year from the Tax Commission by the fourth Monday in October, the county auditor will deliver the final levy rates and the total tax charge for each taxing district or unit that is levying for the current year within the county to the county treasurer by the first Monday in November for the property roll and operating property roll, by the first
Monday in December for the subsequent property roll, and by the first Monday in March of the following year for the missed property roll. (7-1-21)

02. Duty of the County Treasurer. Upon receipt of the final levy rates and total tax charge for each taxing district or unit, the county treasurer will compute the individual tax charge for each taxable property in the county and prepare and mail the property tax bill for each taxable property according to Section 63-902, Idaho Code, and Rule 902 of these rules. (7-1-21)

812. -- 901. (RESERVED)

902. PROPERTY TAX NOTICE AND RECEIPTS - DUTY OF TAX COLLECTOR (RULE 902). Sections 63-704 and 63-902, Idaho Code. The tax notice required to be mailed to taxpayers under Section 63-902, Idaho Code, must include taxpayers whose property taxes are to be paid in full as a result of the property tax reduction approved under Section 63-704, Idaho Code. For these taxpayers, the tax notice will show the amount to be paid on behalf of the taxpayer and zero taxes owed. (7-1-21)

903. -- 935. (RESERVED)

936. CANCELLATION OF TAXES BY BOARD OF COUNTY COMMISSIONERS (RULE 936). Section 63-1302, Idaho Code authorizes boards of county commissioners to cancel property taxes that for any lawful reason should not be collected. The board may cancel taxes for double payment of taxes or the double or erroneous assessment of any property for the same year or other errors. Additionally, when the canceled taxes have been paid, the board may refund the taxes. The authority to cancel taxes under Section 63-1302, Idaho Code, extends neither to hardship situations nor to cancellation of tax resulting from unequal or excessive valuation by the assessor. Mere unequal or excessive valuation by the assessor does not make the assessment illegal, nor constitute any lawful reason that the taxes should not be collected. A taxpayer who believes the value placed on his property is excessive must file his appeal with the county board of equalization within the time prescribed by law. A taxpayer seeking relief due to hardship must apply pursuant to Section 63-602AA, Idaho Code. (7-1-21)

937. -- 938. (RESERVED)

939. COURT OR BOARD OF TAX APPEALS ORDERED REFUNDS OR CREDITS - LEVY RESTRICTIONS (RULE 939). Section 63-1305, Idaho Code. Section 63-1305, Idaho Code, allows taxing districts to certify and levy a judgment levy for an amount equal to property tax refunds or credits ordered by a court or the board of tax appeals and to include such amount with amounts certified and levied under Sections 63-802 through 63-807, Idaho Code. For each affected taxing district, the decision to certify and levy such amounts is permissive. For any taxing district to use this provision, amounts to be levied must be certified within the two years immediately following the order becoming final. Any amount, not certified and levied within that two-year period, is lost. In the second year following the order, the amount remaining will be lost for any taxing district for which such amount is less than $100. (7-1-21)

940. -- 959. (RESERVED)

960. DEFINITIONS (RULE 960). Section 63-1701, Idaho Code

01. Present Use. Present use means that the land contains trees of a marketable species which are being actively managed to produce a forest crop for eventual harvest and which may be accepted by a commercial mill. (7-1-21)

02. Silviculture. Silviculture includes the following activities: site preparation, planting, vegetation control, precommercial thinning, commercial thinning, fertilization, mechanical or chemical pest and disease control, pruning, inventorying, cruising, or regeneration surveys, fencing established to protect seedlings, and genetic tree improvement. (7-1-21)

03. Custodial Expenses. Custodial expenses are some of the expenses incurred in the management of forestlands. (7-1-21)
a. Included Expenses. Custodial expenses include the following expenses, except as provided in Paragraph 960.03.b of this rule:

   i. Reforestation expenses are the cost of seeds, seedlings, and planting for the establishment of a forest to the specifications of the Idaho Forest Practices Act (Title 38, Chapter 13, Idaho Code);
   
   ii. Road maintenance expenses are those costs necessary to prevent major deterioration or maintain the integrity of forest roads including culvert maintenance, public access control, and erosion prevention, but not including the cost of original construction, opening the road for silviculture, driveway maintenance, or recreation access;
   
   iii. Managing public use expenses are limited to the costs of installing and maintaining gates and signage;
   
   iv. Forest inventory expenses are the costs of collection and analysis of forest inventory data;
   
   v. Forest management planning expenses are the costs associated with a geographic information system (GIS) or similar information database and those activities integral to the planning process;
   
   vi. Facility operations and maintenance expenses are those costs of maintaining and operating facilities necessary for forestland management;
   
   vii. Environmental analysis and documentation expenses are analysis and documentation costs associated with federal and state environmental requirements;
   
   viii. Appeals and litigation expenses are those costs associated with litigating items associated with federal and state environmental requirements;
   
   ix. Land survey expenses are those costs associated with surveying forestland;
   
   x. Forest fire suppression expenses are the portion of those costs associated with the suppression of wildfires on forestlands borne by the forestland owner, that exceed the annual fire protection fee under Section 38-111, Idaho Code;
   
   xi. Other management expenses are unspecified costs agreed to by the committee on forestland taxation methodologies (CFTM) and determined to be annualized custodial expenses by the forest management cost study conducted pursuant to Section 63-1705, Idaho Code.

b. Excluded Expenses. Custodial expenses exclude the following:

   i. Fertilization;
   
   ii. Precommercial thinning;
   
   iii. Tree improvement;
   
   iv. Genetic improvement;
   
   v. Site preparation;
   
   vi. Harvesting;
   
   vii. Road building;
   
   viii. Timber harvest layout and silvicultural layout;
ix. Slash management; 

x. Brush control; 

xi. Litigation pertaining to Subparagraphs 960.03.b.i. through 960.03.b.xi., of this rule.

04. Forestland Management Plan. Forestland management plan means a written management plan reviewed by a professional consulting forester, Idaho Department of Lands private forestry specialist, professional industry forester, or federal government forester, to include eventual harvest of the forest crop. Professional forester is defined as an individual holding at least a Bachelor of Science degree in forestry from an accredited four (4) year institution. The forestland management plan will include as a minimum:

a. Date of the plan preparation; 

b. Name, address, and phone number of the land owner, and person preparing and/or reviewing the plan; 

c. The legal description of the property; 

d. A map of the property of not less than 1:24,000 scale; 

e. A general description of the forest stand(s) including species and age classes; 

f. A general description of the potential insect, disease, and fire hazards that may be present and the management systems which will be used to control them; 

g. The forest management plans of the landowner over the next twenty (20) years.

05. Bare Forestland. Bare forestland will qualify as forestland only if, within five (5) years after harvest or initial assessment, they are planted or regenerated naturally to minimum stocking levels as specified by the Idaho Forest Practices Act. (Title 38, Chapter 13, Idaho Code).

06. County Weighted Average Forestland Levy Rate. The county weighted average forestland levy rate is calculated by summing the products of the levy rate times the number of forested acres for each forested tax code area in each county and dividing this sum by the total number of forested acres in all forested tax code areas in each county.

07. Weighted Average Forestland Levy Rate. The weighted average forestland levy rate is the weighted average forestland levy rate defined in Subsection 960.06 of this rule multiplied by the total number of designated forestland acres in each county. The sum of the product of this calculation for each county in a forest value zone is then divided by the total number of designated forestland acres in the forest value zone.

08. Guiding Discount Rate. The guiding discount rate will be determined in accordance with procedures found in the User’s Guide and derived from ten (10) year treasury constant maturity rates as reported by the federal reserve system, the producer price index (PPI) published by the U.S. bureau of labor statistics, and a risk premium.

09. Real Price Appreciation of Stumpage. A real price appreciation (RPA) of stumpage in Idaho will be determined in accordance with procedures found in the User’s Guide and will be benchmarked to the PPI for softwood logs and bolts as reported by the U.S. bureau of labor statistics, less inflation as reported in the PPI.

10. Joint Ownership. Joint ownership as used in Subsections 963.01 and 966.01 of these rules includes ownership of a single parcel of forestland by two (2) or more legal entities irrespective of their proportionate ownership interests in the parcel, but will not include the community property interests of a spouse.
961. HOMESITE ASSESSMENT AND FORESTLANDS OF LESS THAN FIVE ACRES AND CONTIGUOUS PARCELS (RULE 961).
Sections 63-1702, 63-1703, Idaho Code

01. Definitions. The following definitions apply to the valuation of residential parcels that are contiguous to lands classified as forestlands.

a. Homesite. The “homesite” is that portion of land, contiguous with but not qualifying as forestlands, and the associated site improvements used for residential purposes.

b. Associated Site Improvements. The “associated site improvements” include developed access, grading, sanitary facilities, water systems, and utilities.

02. Homesite Assessment. Each homesite and residential and other improvements, located on the homesite, will be assessed at market value each year.

a. Accepted Assessment Procedures. Market value will be determined through procedures, methods, and techniques recommended by nationally recognized appraisal and valuation associations, institutes, and societies and according to guidelines and publications approved by the Tax Commission. Acceptable techniques include those that are either time tested in Idaho, mathematically correlated to market sales, endorsed by assessment organizations, or widely accepted by assessors in Idaho and other states.

b. Appropriate Market and Comparable Selection. The appropriate market is the market most similar to the homesite and improvements located on the homesite. In applying the sales comparison approach, the appraiser should select comparables having actual or potential residential use.

c. The value and classification of the homesite will be independent of the classification and valuation of the remaining land.

03. Forestlands of Less Than Five Acres and Contiguous Parcels. A parcel of forestland that is less than five (5) acres is not eligible for valuation and taxation as forestland unless the land is contiguous with one (1) or more other parcels of forestland under the same ownership and the contiguous parcels together constitute five (5) acres or more of forestland as defined in Section 63-1701, Idaho Code. The five (5) acre minimum requirement must exclude any homesite. In the following examples each parcel of land is forestland as defined in Section 63-1701, Idaho Code, unless otherwise stated in the example.

a. Example 1. A landowner owns a fifteen (15) acre parcel which contains four (4) acres of forestland, nine (9) acres of irrigated row crop, and two (2) acres of homesite. The four (4) acres of forestland is not eligible for valuation and taxation as forestland.

b. Example 2. A landowner owns five hundred and six (506) acres consisting of one (1) five hundred (500) acre parcel of forestland and six (6) one (1) acre parcels of forestland, that are not contiguous either to one another or to the five hundred (500) acre parcel. The five hundred (500) acre parcel is eligible for valuation and taxation as forestland. The six (6) one (1) acre parcels, are not eligible for valuation and taxation as forestland.

c. Example 3. A landowner owns five hundred and six (506) acres consisting of one (1) five hundred (500) acre parcel of forestland and six (6) one (1) acre parcels of forestland that are contiguous to the five hundred (500) acre parcel but may or may not be contiguous to one another. The entire five hundred and six (506) acres are eligible for valuation and taxation as forestland.

d. Example 4. A landowner owns six (6) non-contiguous one (1) acre parcels of forestland. The six (6) one (1) acre parcels are not eligible for valuation and taxation as forestland.

e. Example 5. A landowner owns six (6) contiguous one (1) acre parcels of forestland. The six (6) one (1) acre parcels are eligible for valuation and taxation as forestland.
962. TAXATION OF DESIGNATED FORESTLANDS (RULE 962).

Section 63-1705, Idaho Code

01. Forestland Valuation Process. The process used to determine the forestland value under the productivity option will be as specified in the User’s Guide referenced in Section 63-1701, Idaho Code. (7-1-21)

02. Forest Valuation Zones. The state will be divided into four (4) forest valuation zones:

a. ZONE 1 - Boundary, Bonner, Kootenai counties. (7-1-21)

b. ZONE 2 - Benewah, Shoshone, Latah, Clearwater, Nez Perce, Lewis, Idaho counties. (7-1-21)

c. ZONE 3 - Adams, Valley, Washington, Payette, Gem, Boise, Canyon, Ada, Elmore, Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka counties. (7-1-21)

d. ZONE 4 - The remaining nineteen (19) counties. (7-1-21)

03. Classification of Forestlands. In all forest valuation zones, there will be three (3) separate productivity classes of forestland: poor, medium, and good. These broad classes are related in the following manner by definition to the “Meyer Tables” published in “Yield of Even-Aged Stands of Ponderosa Pine” and “Haig Tables” published in “Second-Growth Yield, Stand, and Volume Table for the Western White Pine Type” as both documents are referenced in Rule 003 of these rules. These classes apply to forestland which may or may not be stocked with commercial or young growth timber. (7-1-21)

a. Poor productivity class is defined as forestland having a mean annual increment, MAI, of one hundred twenty-five (125) board feet per acre per year, based on a seventy-three (73) year rotation. This productivity class includes western white pine site index 35-45 and Ponderosa pine site index 45-80. One hundred twenty-five (125) board feet per acre MAI will be used in the valuation process. (7-1-21)

b. Medium productivity class is defined as forestland having a mean annual increment, MAI, of two hundred twenty-five (225) board feet per acre per year, based on an sixty-eight (68) year rotation. This productivity class includes western white pine site index 46-60 and Ponderosa pine site index 81-110. Two hundred twenty-five (225) board feet per acre MAI will be used in the valuation process. (7-1-21)

c. Good productivity class is defined as forestland having a mean annual increment, MAI, of three hundred fifty (350) board feet per acre per year, based on an sixty-three (63) year rotation. This productivity class includes western white pine site index 61 and above and Ponderosa pine site index 111 and above. Three hundred fifty (350) board feet per acre MAI will be used in the valuation process. (7-1-21)

d. For forest valuation zones 1 and 2, forestland will be stratified into areas of similar productive potential using the habitat typing methodology described in “Forest Habitat Types of Northern Idaho: A Second Approximation,” referenced in Rule 003 of these rules. Within these stratified areas, site index trees will be selected and measured that will identify the site index to be used to place the land in one (1) of the three (3) productivity classes listed above. (7-1-21)

e. For forest valuation zones 3 and 4, the criteria for stratification will be generally the same as that used in zones 1 and 2 based on the habitat typing methodology described in “Forest Habitat Types of Central Idaho,” as referenced in Rule 003 of these rules, with the following adjustments made in growth rates for lower moisture levels;

i. For poor productivity class, one hundred twenty-five (125) board feet per acre MAI will be used in the valuation process; (7-1-21)

ii. For medium productivity class, two hundred thirteen (213) board feet per acre MAI will be used in the valuation process; and (7-1-21)

iii. For good productivity class, three hundred twenty (320) board feet per acre MAI will be used in the
04. **Deficient Areas.** Lakes, solid rock bluffs, talus slopes, and continuously flooded swampy areas, larger than five contiguous acres in size which can be identified through remote sensing will be valued at forty percent (40%) of the poor bare land value as defined in Section 63-1706, Idaho Code. These areas are defined as being incapable of growing trees.

05. **Reclassification of Forestlands.** Except as provided in Subsection 962.06 of this rule, no parcel’s productivity classification can be changed from the classification as of January 1, 2016, until requirements for landowner notification, inspector qualifications, and document retention have been met.

a. Landowner notification. Notice of intent to change classification must be provided in writing to the landowner of record or their designee within two (2) weeks of any determination by the county assessor of intent to change classification. Such notice must be provided no later than the first Monday in November for the change to be in effect during the following year. Notice may be delivered in person or by U.S. mail, or, if agreed to by the assessor and the landowner, by electronic mail. Notice of intent to change classification includes:

i. A statement of intent to change the classification;

ii. A statement of the present classification and the intended new classification;

iii. A statement that the intent notice is not an assessment notice and that the assessment notice will be sent by the first Monday in June in the following year;

iv. A statement that both the taxable value stated on the assessment notice and the classification may be appealed to the county board of equalization as provided in Section 63-501A, Idaho Code; and

v. Contact information indicating assessor’s office staff who may be contacted and how to do so.

b. Inspector qualifications. The inspector is the person assigned by the county assessor to review property characteristics and complete a timberland classification form provided by the Tax Commission. The inspector must be proficient in each of the following:

i. Navigating forest locations;

ii. Skilled mapping techniques;

iii. Establishment of plot locations;

iv. Plant and tree identification; and

v. Site tree identification and measurements.

c. Inspector proficiency. Inspector proficiency must be established by a minimum of twelve (12) months of experience doing fieldwork, including reviewing the characteristics of timberland and:

i. Passing a Tax Commission sponsored class on timberland appraisal and inspection; or

ii. Passing equivalent courses from an accredited college or university; or

iii. Obtaining a degree in forestry or a related field from an accredited institution.

d. Documentation and retention. Documentation related to timberland productivity classification will be retained for no less than ten (10) years following classification determination. Documentation will include, but is not limited to:
i. Timberland characteristics, on a form provided by the Tax Commission, with sufficient detail to verify the classification, including the calculation of productivity class as set forth in Subsection 962.03 of this rule;

ii. The location of any field plots and any site trees using map or Global Positioning System (GPS) coordinates;

iii. A map illustrating property boundaries, habitat type based stratifications as provided in Subsection 962.03 of these rules, and plot locations used in the determination of productivity class;

iv. Any imagery used to assess the parcel prior to field review;

06. Alternate Method to Establish Productivity Classification. Provided the county assessor and forestland owner agree and the data is deemed by the county to be acceptable and accurate, the data used to establish any parcel’s productivity classification may be provided by the forestland owner. In this case, inspector qualifications and proficiency provisions of this rule will not apply.

a. Data to be considered confidential. When productivity data is provided to the county by the forestland owner, it will be deemed confidential financial information and not subject to public disclosure, as provided in Rule 004 of these rules.

b. Inspector certification not required. When the alternate method described in this section is to be used, the county will not be required to have a certified inspector to review property characteristics.

c. Acceptable classification. To be considered acceptable, the classification of the timberland so established must result in market value for assessment purposes as defined in Section 63-1705(3), Idaho Code.

963. CERTAIN FORESTLANDS TO BE DESIGNATED FOR TAXATION BY OWNER -- LIMITATIONS (RULE 963).
Section 63-1705, 63-1706, Idaho Code

01. Designation of Forest Parcels. A forest landowner may choose to have the total acreage of forestland parcels owned within the state designated under the provisions of either Section 63-1705 or 63-1706, Idaho Code. The forest landowner cannot have parcels in both designations. If the new owner owns no forestland in the state designated under Section 63-1705 or 63-1706, Idaho Code, he may choose the option of forest taxation he desires. Designation will be made on or before December 31st, of the year preceding assessment and will be effective for the following year. Where forest property is held in joint ownership, all co-owners must mutually agree on a property designation under Section 63-1703(a) and (b), Idaho Code. Each co-owner must make a timely designation. Where co-owners are unable to agree on a mutual designation or fail to make a designation, the forestland will be subject to appraisal and assessment as provided in Section 63-1702, Idaho Code.

02. Change in Use. Failure to notify the assessor of the change in use when lands have been designated will cause forfeiture of the designation as to the changed acres, and the property will be appraised, assessed and taxed, as provided in Section 63-1702, Idaho Code, from the date of latest designation or renewal.

03. Certain Lands With No Deferred Taxes. There are no deferred taxes on lands designated under Section 63-1705, Idaho Code.

964. YIELD TAX ON APPLICABLE FOREST PRODUCTS (RULE 964).

01. Calculation. The calculation described below will be used to update the bare forestland value for tax assessment purposes on an annual basis:

\[ BLV_z = (0.5 \cdot [(T_z - T_n)/T_n] + 1) \cdot (BLV_y) \]

**STEP 1:** Subtract Tn from Tz
02. **Stumpage Value.** The stumpage value will be the same as that used in the productivity valuation process by zone.

03. **Bare Forestland Value.** After review of the productivity valuation process by March 1 each year, the Tax Commission will review and adjust, as appropriate, the bare forestland values for the current year.

04. **Landowner’s Report.** By June 1, of each year the county treasurer will make a written report to include the forest landowner’s name, legal description of forest property owned, and yield taxes paid for the current assessment year. This report will be submitted to the county auditor and a record will be maintained for ten (10) years and not disposed of until the eleventh year.

965. (RESERVED)

966. **RECAPTURE OF DEFERRED TAXES ON LANDS DESIGNATED UNDER SECTION 63-1706, IDAHO CODE (RULE 966).**

Section 63-1703, Idaho Code

01. **Ownership Interest/Deferred Taxes.** Where forestland is held in joint ownership, a transfer of ownership for purposes of recapturing deferred taxes will occur when any one (1) of the legal entities holding an ownership interest in the subject property will convey, transfer, or otherwise dispose of their ownership interest or portion thereof. Any such transfer of ownership will subject the entire parcel to recapture of deferred taxes, unless the new owner timely redesignates their ownership interest under Section 63-1706, Idaho Code.

02. **Deferred Tax Responsibility.** Deferred taxes will be the responsibility of the selling landowner. Deferred taxes will constitute a lien on the land.

03. **Change in Use/Deferred Taxes.** For forestland designated under Section 63-1706, Idaho Code, but subject to recapture of deferred taxes as provided in Section 63-1703, Idaho Code, because of a change in use with no change in ownership, recapture of deferred taxes will be calculated in the following manner:

a. The difference between the current bare land value for the correct class of land in the forest value zone in which the parcel lies and the current market value for assessment purposes of the property during the current year;

b. Multiplied by the current levy for the tax code area or areas in which the parcel lies;

c. Multiplied by the number of years, including the entire current year, the lands have been subject to designation under Section 63-1706, Idaho Code, not to exceed ten (10) years. Additionally, a credit will be allowed for any yield tax paid up to the amount of the deferred taxes.

04. **Transfer of Ownership/Deferred Taxes.** For forestland designated under Section 63-1706, Idaho Code
Code, but subject to recapture of deferred taxes as provided in Section 63-1703, Idaho Code, because of a change in ownership or a removal of the designation, recapture of deferred taxes will be calculated in the following manner:

\[(7-1-21)T\]

a. The difference between the current bare land value for the correct class of land in the forest value zone in which the parcel lies and the current productivity value for the correct class of land in the forest value zone in which the parcel lies, for the current year;  
[\(7-1-21\)T]

b. Multiplied by the current levy for the tax code area or areas in which the parcel lies;  
[\(7-1-21\)T]

c. Multiplied by the number of years, including the entire current year, which the lands have been subject to designation under Section 63-1706, Idaho Code, not to exceed ten (10) years. Additionally, a credit will be allowed for any yield tax paid up to the amount of the deferred taxes.  
[\(7-1-21\)T]

05. **Investment Lands.** Investment lands are defined as those in secondary categories 1, 2, 3, 4, 5, and 9, as defined in Rule 510 of these rules.

967. -- 981. (RESERVED)

982. **REPORTING NET PROFITS OF MINES (RULE 982).**
Sections 63-2801, 63-2802, 63-2803, Idaho Code

01. **Amount to be Reported.** The amount of money received from the sale of minerals or mined metals during the calendar year immediately preceding the current tax year will be reported by the owner of the mine or mining claim. If there is no sale, but minerals or mined metals are shipped to a smelter or other facility, an amount of money equivalent to that which would have been received from sale of the shipped minerals or mined metals will be reported. Moneys received from rents, commissaries, discounts on purchases, and investments are not to be included. A separate annual net profit statement will be filed by the owner of mines or mining claims, for each mine or mining claim located in any county in Idaho. The statement filed with any county assessor will not include amounts received pursuant to mines or mining claims located outside the county. The owner will complete the statement on forms prescribed by the Tax Commission.  
[\(7-1-21\)T]

02. **Additional Allowable Deductions.** In addition to deductions specified in Section 63-2802, Idaho Code, the following expenditures can be subtracted from the amount of money or equivalent to be reported.

\[(7-1-21)T\]

a. Expenses for Social Security, worker’s compensation, insurance provided by the employer for the benefit of employees at the mine, fire and water protection, first aid and safety devices, mine rescue materials, experimental work reasonably connected with reduction of the ores.  
[\(7-1-21\)T]

b. Expenses for improvements made during the year immediately preceding the current tax year.  
[\(7-1-21\)T]

c. Expenses for reclamation or remediation not previously deducted, including payments into a sinking fund mandated by law for reclaiming or remediating the mining site.  
[\(7-1-21\)T]

03. **Non-deductible Items.** In addition to expenditures specified as non-deductible pursuant to Section 63-2802, Idaho Code, the following expenditures can not be subtracted from the amount of money to be reported.

\[(7-1-21)T\]

a. Federal, state and local taxes and license fees.  
[\(7-1-21\)T]

b. Depreciation, depletion, royalties, and donations.  
[\(7-1-21\)T]

c. Insurance except as listed in Subsection 982.02.a.  
[\(7-1-21\)T]

d. Construction repair, and operation of dwellings, community buildings and recreational facilities.
e. Miscellaneous administrative and other expenses not related to labor, machinery or supplies needed for mining, reducing ores, construction of mills and reduction works, transporting ore and extracting metals and minerals from ore.

983. -- 987. (RESERVED)

988. QUALIFIED PROPERTY FOR EXEMPTION (RUL"E 988).
Sections 63-302, 63-313, 63-404, 63-3029B, Idaho Code

01. Definitions. The following definitions apply for the purposes of the property tax exemption under Section 63-3029B, Idaho Code, and do not decide investment tax credit eligibility for Idaho income tax purposes.

a. Year in which the investment is placed in service. “Year in which the investment is placed in service” means the calendar year the property was put to use or placed in a condition or state of readiness and availability for a specifically assigned function in the production of income.

b. Operator’s Statement. The “operator’s statement” is the annual statement listing all property subject to assessment by the Tax Commission and prepared under Section 63-404, Idaho Code.

c. Personal Property Declaration. A “personal property declaration” is any form required for reporting personal property or transient personal property to the county assessor under Sections 63-302 or 63-313, Idaho Code, respectively.

d. Qualified Investment. “Qualified investment” means property that would have otherwise been taxable for property tax purposes and is eligible or qualified under Section 63-3029B, Idaho Code, provided that property is reported on the personal property declaration or operator’s statement and is designated as exempt from property tax for two (2) years on Form 49E.

e. Qualified Investment Exemption. The “qualified investment exemption” (QIE) referred to in this rule is the property tax exemption under Section 63-3029B, Idaho Code.

f. Assessor. The “assessor” is the representative of the county assessor’s office or the Tax Commission who is responsible for the administration of the QIE.

02. Designation of Property for Which Exemption Is Elected. The owner will designate the property on which the QIE is elected. The owner will make this designation on Form 49E and attach it to a timely filed personal property declaration or, for operating property, the timely filed operator’s statement. The description of the property on Form 49E must be adequate to identify the property to be granted the exemption. In addition to all other steps required to complete the personal property declaration or operator’s statement, the owner must provide on the personal property declaration or operator’s statement the date the item elected for the QIE was placed in service.

03. Election for Investments Not Otherwise Required to Be Listed on the Personal Property Declaration. For investments, like single purpose agricultural or horticultural structures, that are not otherwise required to be listed on the personal property declaration, the owner must list that property to elect the QIE. As with any property designated for the QIE, the owner must attach Form 49E to the personal property declaration.

04. Continuation of Listing. For all property designated for QIE, even though that property is exempt for two (2) years, the owner must list that property on the personal property declaration or operator’s statement in the initial year for which the QIE is claimed and the following four (4) consecutive years, unless that property has been sold, otherwise disposed of, or ceases to qualify pursuant to Section 63-3029B, Idaho Code.

05. Period of QIE. The QIE will be granted for the two (2) calendar years immediately after the end of the calendar year in which the property acquired as a qualified investment was first placed in service in Idaho.
06. Election Specificity. The QIE election provided by Section 63-3029B, Idaho Code, will be specific to each qualified item listed on the personal property declaration or operator’s statement. An item that is a qualified investment, but for which there is no QIE election during the year after the “year in which the investment is placed in service” in Idaho, is not eligible for the QIE.

07. Notification by Assessor.

a. Upon Receipt of Form 49E or a Listing. Upon receiving Form 49E or any listing provided to comply with Subsection 988.08 or 988.12 of this rule, the assessor will review the application and determine if the taxpayer qualifies for the property tax exemption under Section 63-3029B, Idaho Code. If the assessor determines that the property tax exemption should be granted, the assessor will notify the taxpayer and, if applicable, send a copy of this form or listing to the Tax Commission.

b. Upon Discovery of Changes. Upon discovering that property granted the QIE was sold, otherwise disposed of, or ceased to qualify under Section 63-3029B, Idaho Code, within the five (5) year period beginning with the date the property was placed in service, the assessor will notify the Tax Commission and the taxpayer immediately. The assessor will also provide this notification upon discovery that the owner first claiming the QIE failed to list the item on any personal property declaration or failed to file a personal property declaration in any year during this five (5) year period. This notice will include:

i. Owner. Name of the owner receiving the QIE.

ii. Property description. A description of the property that received the QIE.

iii. New or used. State whether the individual item was purchased new or used.

iv. Date placed in service. The date the owner reported the item was first placed in service in Idaho.

v. First year value of QIE. For each item, the amount of exempt value in the first year the QIE was elected and an identification of the year.

vi. Second year value of QIE. For each item, the amount of exempt value in the second year after the QIE was elected.

vii. Tax code area number. For each item, the number of the tax code area within which that item was located.

c. Denial of the QIE. Upon review of the taxpayer’s application, if the assessor determines that the property tax exemption should not be granted for all or part of the market value of any item or items, then the assessor will deny the exemption for those items. The assessor will notify the taxpayer electing the QIE and will identify the basis for the denial. The assessor’s notification cancels the election with respect to those items. Upon receiving this notification, the taxpayer is then free to pursue the income tax credit under Section 63-3029B, Idaho Code, for those items denied the QIE by the assessor.

08. Moved Personal Property. In order to provide unmistakable identification of the property, certain taxpayers must send written notification by the date provided in Section 63-302, 63-313, or 63-404, Idaho Code, when moving property that previously received the QIE. This notification:

a. Is required of taxpayers moving locally assessed property between counties in Idaho during the five (5) year period beginning the date that property was placed in service;

i. The taxpayers send this notification to the assessor in the county that granted the QIE and the assessor in any Idaho county to which the property has been moved.

ii. The taxpayers must include a listing which describes the property exactly as it was described on the
original Form 49E or cross references the property originally listed on Form 49E.

b. Is not required of taxpayers when the property is Tax Commission assessed non-regulated operating property.

09. Notification Regarding Transient Personal Property. For transient personal property elected for the QIE, the definition of home county in Section 63-313, Idaho Code, and Rule 313 of these rules, applies. When a home county receives information of an election for QIE and a notice that the exempt property was used in another county in Idaho, the home county must forward information identifying that property to the other county(ies) in accordance with procedures in Section 63-313, Idaho Code. Also, the home county assessor will send a copy of this notice to the Tax Commission.

10. Partial-Year Assessments. Property assessed based on a value prorated for a portion of the year in which the property is first placed in service may still be eligible for the QIE in the subsequent two (2) calendar years, provided the QIE is elected.

11. Limitation on Amount of Exemption.

a. New Property. The QIE will be for the full market value for assessment purposes for new property that is a qualifying investment.

b. Used Property. The QIE for used property placed in service during a taxable year for income tax purposes will be limited. For each taxpayer, the QIE will be the lesser of the QIE cost or the current year’s market value in accordance with the following procedure:

i. QIE cost will be determined for each item of used property upon which the QIE is claimed. QIE cost is the lesser of an item’s cost or one hundred fifty thousand dollars ($150,000); provided, however, that the QIE cost for all elected used property will not exceed one hundred fifty thousand dollars ($150,000) in a taxable year (See Example B in Subparagraph 988.11.c.ii., of this rule). In the event the cost of one (1) or more items of used property exceeds one hundred fifty thousand dollars ($150,000), QIE cost will reflect the reduction necessary to stay within the one hundred fifty thousand dollar ($150,000) limit (See IDAPA 35.01.01, “Income Tax Administrative Rules,” Rule 719 for information on the selection of items of used property).

ii. For each item purchased used, the QIE will be limited to the lesser of the QIE cost or the current year’s market value (See Example B in Subparagraph 988.11.c.ii., of this rule).

c. Examples. In the following examples, all of the property is owned by the same taxpayer and is a qualified investment.

i. Example A. In Example A, 2004 is the first year during which the qualified investment receives the QIE. The taxpayer may decide which of the used items placed in service in 2003 is considered first for the exemption. In this example, computer 1 has been given the exemption first. Since the limitation is based on cost, the remaining used property exemption cannot exceed one hundred thirty thousand dollars ($130,000) and the QIE cost is determined accordingly. The conveyer belt is a new investment, first eligible for the QIE in 2005. In 2006, the assembly line, computer 1, and computer 2 would be fully taxable at the market value as of January 1, 2006.

d. Used Property Placed in Service by Fiscal Year Taxpayer. If a taxpayer had a fiscal year beginning July 1, 2004, and placed one hundred fifty thousand dollars ($150,000) of qualifying used property in service on May 15, 2004, and an additional one hundred fifty thousand dollars ($150,000) of qualifying used property in service on August 1, 2004, the taxpayer would qualify for an exemption of up to three hundred thousand dollars ($300,000) on this used property in 2005 and 2006. The exempt value in the second year of the exemption could not exceed the lesser of three hundred thousand dollars ($300,000) or the (depreciated) market value of this used property.

12. Multi-County Taxpayers.

a. Except taxpayers electing QIE for property that is Tax Commission assessed operating property, any taxpayers electing the QIE for properties purchased new must indicate on Form 49E the county where each property is located or must complete a separate Form 49E and attach it to the personal property declaration submitted to each county.

b. Except taxpayers electing QIE for property that is Tax Commission assessed operating property, any taxpayers electing the QIE for properties purchased used must attach any Form 49E listing property purchased used to the personal property declaration sent to each county. A Form 49E listing only property purchased used may be provided to comply with this requirement.

c. Any taxpayers electing QIE for property that is Tax Commission assessed non-regulated operating property and purchased new or used must indicate on Form 49E each county where each property is located and attach it to the operator’s statement.

d. If multiple Form 49Es are submitted to one (1) or more assessors, a copy of each Form 49E must be attached to the correct year’s income tax return.

a. For non-regulated operating property, the market value of the QIE is calculated by multiplying the depreciated original cost of the property times the ratio of the correlated value determined under Subsection 405.08 of these rules to the cost approach value determined under Subsection 405.02 of these rules.
b. The following special provisions apply for the reduction in market value of non-regulated operating property resulting from QIE being elected.

i. Reduction in Idaho value. For non-regulated operating property except situs property, the reduction in market value will be made by subtracting the market value of the QIE from the allocated Idaho value before apportionment to any taxing district or unit.

ii. Reduction in market value of situs property owned by non-regulated operating property companies. For situs property owned by non-regulated operating property companies, the reduction in market value will be made by subtracting the market value of the specific investment in the specific location.

14. Cross Reference. For more information relating to procedures and requirements for QIE, refer to Section 63-3029B, Idaho Code, and IDAPA 35.01.01, “Income Tax Administrative Rules,” Rule 719. For information relating to recapture of QIE, refer to Rule 989 of these rules.

989. QUALIFIED INVESTMENT EXEMPTION (QIE) RECAPTURE (RULE 989).
Section 63-3029B, Idaho Code

01. In General. If a taxpayer has elected the property tax exemption (also known as the QIE) allowed by Section 63-3029B, Idaho Code, for property sold or otherwise disposed of prior to being held five (5) full years, or property that ceases to qualify or failed to originally qualify pursuant to Section 63-3029B, Idaho Code, the property tax benefit will be subject to recapture.

02. Notification by Taxpayer That Property Ceases to Qualify. If an item on which a taxpayer claimed the QIE ceases to qualify during the recapture period or was incorrectly claimed by the taxpayer as qualified investment, the taxpayer will provide notification of the amount owing and will remit said amount to the Tax Commission by the due date of that taxpayer's income tax return, irrespective of any income tax extensions of the income tax payment, for the income taxable year in which such event occurs. Notification will be accomplished by filing Tax Commission Form 49ER. For each item of property, for each year in which the QIE was granted, the taxpayer will include with such notification the following:

a. A description of the item that ceases to qualify,

b. The county where the item was located,

c. The date the item was placed in service,

d. The date the item was no longer qualified for the QIE,

e. The amount of value exempted from property tax each year, and

f. The amount of the property tax benefit recapture.

03. Notification in Case of Failure by Taxpayer to File Form 49ER. If any taxpayer who is required to file Form 49ER fails to do so by the date specified in Subsection 989.02 of this rule, the Tax Commission will issue a Notice of Deficiency in the manner provided in Section 63-3045, Idaho Code, to the taxpayer who claimed the QIE. The notice will show the calculation of the recaptured property tax benefit.

04. Protest of Recapture. If a taxpayer does not agree with the Notice of Deficiency issued to assert the recapture, the taxpayer may file a protest with the Tax Commission to request a redetermination of the deficiency. The protest will meet the requirements as provided in Section 63-3045, Idaho Code, and IDAPA 35.02.01, “Tax Commission Administrative and Enforcement Rules,” Rule 320.

05. Property Tax Benefit Subject to Recapture. For any item determined to be subject to the recapture of the property tax benefit under Section 63-3029B(4)(d), Idaho Code, the taxpayer will multiply the exempt value of the property by the applicable average property tax levy determined by the Tax Commission under
Subsection 989.06 or 989.07 of this rule. The result of this calculation will be multiplied by the recapture percentage found in the following table.

<table>

</tbody>
</table>

The taxpayer will report this calculation on Form 49ER and will submit this form and remit the amount calculated to the Tax Commission no later than the date indicated in Section 989.02 of this rule. (7-1-21)T

06. County Average Property Tax Levy -- Locally Assessed Property Located in One (1) County or Non-apportioned Centrally Assessed Property. For locally assessed property located in one (1) county or non-apportioned centrally assessed property, the Tax Commission will compute and report the county average property tax levy according to the following procedure. (7-1-21)T

a. Property Tax Budget Summation - General. Except as provided in Paragraph 989.06.b. of this rule, for each year, sum the property tax portion of the annual budget of each taxing district wholly located within the county for which the average levy is to be calculated. This is the approved amount found on the taxing district’s L-2 Form in the column entitled “Balance to be levied” as described in Rule 803 of these rules. To this amount, add the prorated portion of the approved “Balance to be levied” for any taxing district located partially within the county for which the average levy is to be calculated. The prorated portion is determined by multiplying the levy for the taxing district by the taxable value (as defined in Section 63-803(4), Idaho Code) of the portion of the taxing district within the county for which the average levy is to be calculated. (7-1-21)T

b. Property Tax Budget Summation - Special Rules for Counties with Urban Renewal Revenue Allocation Areas. This provision is applicable when taxing districts in the county have funds with levies calculated including all or part of an urban renewal revenue allocation area increment value pursuant to Sections 50-2908(1)(a) through (e), Idaho Code. (7-1-21)T

i. For any such fund, the prorated portion is determined by multiplying the levy of the fund by the taxable value within the county, including the increment value, used to determine the levy for that fund. (7-1-21)T

ii. For any such fund for which the entire increment value is added to the taxable value before computing the levy, the sum of the property tax portion of the annual budgets and prorated portions of such budgets must be determined. (7-1-21)T

iii. For any such fund for which part of the increment value is added to the taxable value before computing the levy, the sum of the property tax portion of the annual budgets and prorated portions of such budgets must be determined. (7-1-21)T

iv. Provided that some taxing district funds within the county are subject to the levy calculation procedures identified in Subparagraphs 989.06.b.ii. and/or iii. of this rule, for all funds other than those identified in this rule, the sum of the property tax portion of the annual budgets and prorated portions of such budgets must be determined. (7-1-21)T

c. Average Property Tax Levy. (7-1-21)T
i. For counties without urban renewal revenue allocation areas, the average property tax levy will be computed by dividing the total of the property tax budgets computed in Paragraph 989.06.a. of this rule, by the taxable value (as defined in Section 63-803(4), Idaho Code) of the county for which the average levy is to be calculated. 

ii. For counties with urban renewal revenue allocation areas and funds with levies calculated including all or part of urban renewal revenue allocation area increment value pursuant to Sections 50-2908(1)(a) through (e), Idaho Code, the average property tax levy will be computed by summing the quotients determined by dividing the sums determined in Subparagraphs 989.06.b.ii., iii., and iv., by the taxable value of the county including the entire increment value, part of the increment value, or none of the increment value, depending on whether all, part, or none of the increment value has been used to determine the levy. 

d. Notice to Each County Auditor. The Tax Commission will notify each county auditor of the county’s current year’s average property tax levy no later than the first Monday in December each year. 

07. Statewide Average Property Tax Levy -- Locally Assessed Property Located in More Than One County or Apportioned Centrally Assessed Property. For locally assessed property located in more than one (1) county or apportioned centrally assessed property, the Tax Commission will determine the average urban property tax levy of the state and will notify each county auditor of said average no later than the first Monday in December each year. 

08. Noticing Remittance for the Recapture of the Property Tax Benefit. When the Tax Commission remits to a county the property tax benefit recaptured under Section 63-3029B(4)(f), Idaho Code, it will include with this remittance a notice identifying the following: 

a. Owner. Name of the owner receiving the QIE; 

b. Property Description. A description of the property that received the QIE; 

c. First Year Value of QIE. The amount of exempt value in the first year the QIE was elected and an identification of the year; 

d. Second Year Value of QIE. The amount of exempt value in the second year after the QIE was elected; 

e. Tax Code Area Number. The number of the tax code area within which that item was located; and 

f. Amount Remitted. The amount of money remitted for any item. 

09. No Allocation of Remittances to Urban Renewal Agencies. Remittances received by a county for property tax benefits recaptured under Section 63-3029B(4)(f), Idaho Code, will not be subject to allocation to urban renewal agencies. 

10. Penalty and Interest. Penalty and interest will be determined as provided in Sections 63-3045 and 63-3046, Idaho Code. Penalty and interest will be computed from the due date found in Subsection 989.02 of this rule. 

11. Cross Reference. For more information relating to QIE, refer to Section 63-3029B, Idaho Code, and Rule 988 of these rules. 

990. -- 994. (RESERVED) 

995. CERTIFICATION OF SALES TAX DISTRIBUTION (RULE 995). 

Section 63-3638, Idaho Code 

01. Most Current Census. Population will be from the most current population census or estimate of
incorporated city populations available from “Table 4, Annual Estimates of the Resident Population for Incorporated Places in Idaho” and estimate of county populations from “Table 1, Annual Estimates of the Resident Population for Counties of Idaho” available from the Bureau of the Census during the quarter of the year for which any distribution of sales tax money is to be made. If the Tax Commission is notified that the Bureau of the Census has revised any city or county population estimates, the revised estimates will be used for the distribution of sales tax money. (7-1-21)

02. Market Value for Assessment Purposes. Market value for assessment purposes means the market value certified to the Tax Commission pursuant to Section 63-510, Idaho Code, and will include homeowner’s exemptions and the value of personal property exempt pursuant to Section 63-602KK(2), Idaho Code, as determined for tax year 2013, and the amount of real and personal property value which exceeds the assessed value shown on the base assessment roll for a revenue allocation area as defined in Section 50-2903(15), Idaho Code, for the calendar year immediately preceding the current fiscal year. (7-1-21)

03. Current Fiscal Year. For the purposes of this section, current fiscal year means the current fiscal year of the state of Idaho. For distribution purposes, the current fiscal year will begin with the distribution made in October, following collection of sales taxes in July, August, and September. (7-1-21)

04. Incorporated City. Incorporated city will, for the current fiscal year, have a duly elected mayor and city council. (7-1-21)

05. Valuation Estimates. Valuation estimates for distribution of revenue sharing monies will be updated at least annually. Updated estimates will be used beginning with the October distribution. (7-1-21)

06. Determination Date and Eligibility.

a. General eligibility. Except as provided in Paragraph 995.06.b. of this rule, the eligibility of each city for revenue sharing monies pursuant to Section 63-3638(10)(a), Idaho Code, will be determined as of July 1 of the current year. Cities formed after January 1, 2001, will also be entitled to a share of the money pursuant to the provisions of Section 63-3638(10)(c), Idaho Code. (7-1-21)

b. Ineligibility as a result of non-compliance. Otherwise eligible taxing districts that are found to be out of compliance with the requirements of Section 67-450B, Idaho Code, or Section 67-450E, Idaho Code, will be ineligible for distributions provided under Section 63-3638(10), Idaho Code, commencing with the next scheduled quarterly distribution following the Tax Commission’s receipt of notification of non-compliance and continuing until the distribution following the Tax Commission’s receipt of notification of compliance. At that time the Tax Commission will add to the current quarterly distribution any amount previously withheld under these provisions. (7-1-21)

07. Quarterly Certification. Except if shares are required to be withheld pursuant to Sections 67-450B and 67-450E, Idaho Code, the Tax Commission will certify quarterly to each county clerk the base and excess shares of the distributions required pursuant to Section 63-3638(10)(c) and 63-3638(10)(d), Idaho Code, and the distributions to cities and counties required pursuant to Section 63-3638(10)(a) and 63-3638(10)(b), Idaho Code. Each county clerk will calculate and certify the distribution of these monies to the eligible taxing districts based on the directives of the Tax Commission.

a. City and County Base Shares. For cities and counties, the initial base share will be the amount of money to which they were entitled for the fourth calendar quarter of 1999, based on the provisions of Section 63-3638(e), Idaho Code, as such section existed prior to July 1, 2000. In addition, the initial base share will be adjusted proportionally to reflect increases that become available or decreases that occur, unless increases exceed five percent (5%) of the initial base share. (7-1-21)

b. Special Purpose Taxing District Base Shares. For special purpose taxing districts the initial base share will be the amount of money to which they were entitled for the fourth calendar quarter of 1999, based on the provisions of Section 63-3638(e), Idaho Code, as such section existed prior to July 1, 2000. Special purpose taxing district initial base shares will be proportionally reduced to reflect decreases in the amount of sales tax available to be distributed. (7-1-21)
c. Excess Shares. Excess shares will be any amounts above the base share that any city, county or special purpose taxing district is entitled to receive pursuant to Section 63-3638(10)(c) or 63-3638(10)(d), Idaho Code. These amounts will not be subject to redistribution provisions of Section 40-801, Idaho Code.  

(7-1-21)T

d. Shares Pursuant to Section 63-3638(10)(a) or 63-3638(10)(b), Idaho Code. Shares to be distributed pursuant to Section 63-3638(10)(a) or 63-3638(10)(b), Idaho Code, will be termed “revenue sharing.” Such shares will be subject to quarterly distribution and for this purpose, the one million three hundred twenty thousand dollars ($1,320,000) distribution pursuant to Section 63-3638(10)(b)(i), Idaho Code, will be considered an annual amount and will be divided into four (4) equal shares.  

(7-1-21)T

e. Amounts authorized to be paid to counties for redistribution to taxing districts will be withheld if necessary to comply with the requirements of Sections 67-450B and 67-450E, Idaho Code. The Tax Commission will identify the district for which amounts are being withheld and the amount being withheld. The county should notify the district accordingly and notify them that they will receive the withheld funds following a determination by the legislative services office that they are in compliance with the provisions of these statutes. Withheld funds will be distributed by the Tax Commission no later than the next quarterly sales tax distribution due date following receipt by the Tax Commission of a determination by the Legislative Services Office that a previously non-compliant taxing district is in compliance.  

(7-1-21)T

f. Amounts authorized to be paid to an urban renewal agency pursuant to Section 63-3638(13), Idaho Code, will be withheld if the agency has not complied with the reporting requirements of Section 50-2913, Idaho Code. The Tax Commission will notify the urban renewal agency of the amount being withheld and notify the urban renewal agency that the withheld funds will be distributed by the Tax Commission no later than the next quarterly sales tax distribution due date after the urban renewal agency has complied with the reporting requirements of Section 50-2913, Idaho Code.  

(7-1-21)T

08. Notification of Value. The county auditor will notify the Tax Commission of the value of each taxing district and unit as specified in Section 63-510, Idaho Code.  

(7-1-21)T

09. Corrections.  

(7-1-21)T

a. When distributions have been made erroneously, corrections will be made to the following quarterly distribution(s) so as to provide the quickest practicable restitution to affected taxing districts. Corrections will be made to reconcile erroneous distributions made for the current fiscal year. Errors made in distributions for the last quarter of the current fiscal year will be corrected as soon as practicable in distributions made for the following fiscal year.  

(7-1-21)T

b. The Tax Commission will notify affected county clerks when the Tax Commission becomes aware of an error in the distribution of the base or excess shares.  

(7-1-21)T

c. The Tax Commission will notify affected cities or county clerks when the Tax Commission becomes aware of an error in the distribution of city or county revenue sharing monies.  

(7-1-21)T

996. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 000).
In accordance with sections 63-105(2), 63-2427, 40-312 and 41-4909, Idaho Code, the State Tax Commission (Commission) has promulgated rules implementing the Idaho Fuels Tax Act, provisions of the Motor Vehicle Registration Act, and the Transfer Fee provisions of the Idaho Clean Water Trust Fund Act.

001. TITLE AND SCOPE (RULE 001).

01. Title. These rules are titled IDAPA 35.01.05, “Idaho Motor Fuels Tax Administrative Rules.”

02. Scope. These rules are construed to reach the full jurisdictional extent of the state of Idaho’s authority for:

a. Motor Fuels Tax. The imposition of a motor fuel tax on each gallon of motor fuel received and on the use of or other consumption of motor fuel in this state. This also includes the administration of the International Fuel Tax Agreement (IFTA).

b. Transfer Fee. The imposition of a transfer fee upon each gallon of petroleum or petroleum products received and subject to the transfer fee as authorized by Chapter 49, Title 41, Idaho Code.

c. Registration Records. The imposition of records requirements for Idaho International Registration Plan (IRP) and Full Fee registration audits authorized by Chapter 4, Title 49, Idaho Code.

002. ADMINISTRATIVE APPEALS (RULE 002).
Sections 63-2434, 63-2442A, 63-2470, 41-4909, 49-439, and 63-3045 through 63-3049, Idaho Code. This chapter allows administrative relief as provided under Sections 63-2434, 63-2442A, 63-2470, 41-4909, 49-439, and 63-3045 through 63-3049, Idaho Code and pursuant to Rules adopted by the Commission found in the Commission’s administration and enforcement rules relating to income taxation, IDAPA 35.02.01.

003. INCORPORATION BY REFERENCE (RULE 003).
Sections 63-2434, 63-2442A, 41-4909, 49-439, Idaho Code

01. Income Tax Administration and Enforcement Rules. These rules incorporate the sections of IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.”

02. IFTA. These rules incorporate the IFTA governing documents: the IFTA Articles of Agreement (revised January 1, 2017), the IFTA Procedures Manual (revised January 1, 2017), and the IFTA Audit Manual (revised January 1, 2017). IFTA is an international agreement between jurisdictions to encourage use of the highway system by uniformly administering fuels use tax laws. The IFTA governing documents are equally binding on all IFTA member jurisdictions and licensees. Motor fuels users licensed or required to be licensed to operate under an Idaho IFTA license must comply with all applicable rules contained in these rules. These documents can be found on the IFTA website at http://www.iftach.org.

03. IRP. These rules incorporate the IRP governing documents: The IRP Plan (revised July 1, 2016) and IRP Audit Procedures Manual (revised January 1, 2016). IRP is an international registration reciprocity agreement. The documents are included to aid the Commission in complying with IRP registration application audits authorized in Chapter 4, Title 49, Idaho Code. These documents can be found on the IRP website at http://www.irponline.org.

004. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Section 63-2401, Idaho Code
The definitions provided by statute, including the definitions in Section 63-2401, Idaho Code, apply to these rules. Additionally, the following definitions apply.

01. Commercial Motor Boat. A commercial motor boat, as defined in Section 63-2401, Idaho Code, includes a motor boat used in a business that rents boats to others who use the boats for pleasure.

02. Indian-Owned Retail Outlet. An Indian-owned retail outlet is:
a. Located within the boundaries of a federally recognized Indian reservation; and (7-1-21)

b. Owned and operated by: (7-1-21)

i. The Coeur d’Alene, Kootenai, Nez Perce, Shoshone/Bannock, or Shoshone/Paiute tribe; or (7-1-21)

ii. An enterprise owned by one (1) of the tribes listed above; or (7-1-21)

iii. An enrolled member of one (1) of the listed tribes on whose reservation the retail outlet is located. (7-1-21)

03. Pay, Paid, Payable or Payment. When used in reference to any amount of tax, penalty, interest, fee or other amount of money due to the Commission, the words pay, paid, payable, or payment mean an irrevocable tender to the Commission of lawful money of the United States. Lawful money of the United States means currency or coin of the United States at face value and negotiable checks that are payable in lawful money except any check not honored by the bank upon which it is drawn will not constitute payment. Additionally, the Commission has the authority to refuse to accept any check drawn upon the account of a taxpayer who has previously tendered any check that was dishonored by the bank upon which it was drawn. All amounts due the state must be paid by electronic funds transfer whenever the total amount of tax due plus any related fee, interest, penalty or other additional amount is one hundred thousand dollars ($100,000) or more, according to rules promulgated by the Idaho State Board of Examiners. (7-1-21)

011. -- 109. (RESERVED)

110. CALCULATION OF MOTOR FUELS TAX ON GASEOUS SPECIAL FUELS (RULE 110). Section 63-2424, Idaho Code

01. Gaseous Special Fuel. A gaseous special fuel is a special fuel that is a gas at sixty (60) degrees Fahrenheit and fourteen and seven-tenths (14.7) pounds per square inch absolute. (7-1-21)

02. Selling Gaseous Special Fuel. A gaseous special fuel may be sold at volumes or weights other than those listed in this section. Distributors and consumers paying tax or claiming refunds must use the volumes and weights required by the Commission when reporting. (7-1-21)

03. Computing Gaseous Special Fuel Tax Equivalents. Computation is made by multiplying the percentage of gasoline gallon energy equivalent times the current gasoline tax rate for each type of gaseous special fuel.

<table>
<thead>

111. -- 129. (RESERVED)

130. DISTRIBUTOR'S FUEL TAX REPORTS (RULE 130).
Sections 63-2406, 63-2407, 63-2408, 41-4909, Idaho Code

01. Monthly Reports. Every licensed distributor will file with the Commission a monthly tax report, in gross gallons, with supporting detailed schedules on forms and in a manner prescribed by the Commission. The distributor must keep detailed inventory records. With respect to the quantity of motor fuels and other petroleum products received during the month, the distributor will include a listing of each person from inside and outside Idaho supplying motor fuels and petroleum products to the distributor during the month and the number of gallons supplied by each supplier, on a load-by-load basis. Such reports must contain a declaration by the person filing the report that the statements contained therein are true and are made under penalties of perjury. The report will include such information as the Commission may require.

02. Exemption from Licensing and Monthly Reporting. See Rule 135 for exemptions from obtaining a motor fuels distributor license and filing monthly reports.

03. Machine Tabulated Data. Machine tabulated data is accepted in lieu of detailed schedules on Commission provided forms but only if the data is in the same format as shown on the required schedules. Before any other format may be used, the distributor must make a written request to the Commission with a copy of the format and must be granted written authorization to use that format.

04. Timely Reporting. Any motor fuel and other petroleum product shipments that are:

a. Reported on a timely supplemental report is subject to interest but are not subject to penalty.

b. Not reported on a timely monthly or supplemental report is subject to interest and may be subject to penalty.

05. Motor Fuels Receipts. All gasoline, natural gasoline, gasoline blend stocks, ethanol, ethanol blended fuels, aircraft engine fuel, biodiesel, biodiesel blends, and undyed diesel fuel or other special fuels received by a distributor are subject to the fuels tax and transfer fee. All receipts of dyed diesel fuel and other petroleum products that are not subject to the special fuels tax are subject to the transfer fee. The special fuels tax is not imposed on gaseous fuels when the fuels are received. Refer to Rule 132 of these rules for the taxation and reporting of gaseous fuels used in motor vehicles.

06. Motor Fuels and Other Petroleum Products Presumed to be Distributed. Unless the contrary is established, it is presumed that all motor fuels and other petroleum products imported into this state by a distributor, which are no longer in the possession of that distributor, have been distributed. If the licensed distributor has returned to the refinery or pipeline terminal motor fuels and other petroleum products on which the tax and transfer fee has been paid or has had an accidental loss, the licensed distributor has the burden of showing the petroleum products were returned to the refinery or pipeline terminal or documenting the accidental loss. No refund of the transfer fee is allowed for accidental losses of motor fuels or other petroleum products.

07. Exported Fuel. Motor fuels or other petroleum products claimed as exported from Idaho must be supported by records. Records must include the following:

a. Tax reports or other evidence that will verify that the exported product was reported to and any tax due was paid to the jurisdiction into which the product was claimed to have been exported or evidence that the purchaser is a licensed distributor in the jurisdiction to which the exported product is destined; and

b. Common carrier shipping documents, bills of lading, manifests, and cost billings; or

c. Invoices, manifests, bills of lading or other documentation, signed by the receiving party to acknowledge receipt of the product; or
Accounts payable or receivable information for verifying payments to common carriers or payment by out-of-state parties to verify receipt of exported product. (7-1-21)T

In addition to the above, for a licensed distributor who maintains operations in Idaho, as well as other jurisdictions, evidence such as product inventory and transfer records must be retained to prove the transfer of product out of Idaho. (7-1-21)T

**131. REQUIREMENT TO FILE MOTOR FUELS DISTRIBUTOR REPORTS ELECTRONICALLY (RULE 131).**

Section 63-2406, Idaho Code

**01. Electronic Filing Requirement.** A motor fuels distributor who reports twenty-five (25) or more receipts or disbursements of motor fuels on its monthly distributor report is required to file the distributor report electronically. (7-1-21)T

**02. Not Reporting Electronically as Required.** A motor fuels distributor who is required to file its distributor report electronically but does not file the report electronically is treated as if the distributor did not file the monthly report. (7-1-21)T

**03. Waiver from Requirement to File Report Electronically.** A motor fuels distributor can request a waiver from the requirement to file motor fuel distributor reports electronically. The distributor making the request for waiver must show that the cost to comply with this rule is unreasonable. The Commission will review each request for waiver and issue a determination. (7-1-21)T

**132. LICENSED GASEOUS SPECIAL FUELS DISTRIBUTOR'S REPORTS (RULE 132).**

Section 63-2424, Idaho Code

**01. Monthly Reports.** Every licensed gaseous special fuels distributor (distributor) will file with the Commission a monthly tax report, using equivalents from Rule 110 of these rules, with supporting detailed schedules on forms and in a manner prescribed by the Commission. Such reports must contain a declaration by the person filing the report that the statements contained therein are true and are made under penalties of perjury. The report includes such information as the Commission may require. (7-1-21)T

**02. Report Due and Payment Required.** The report is due on or before the last day of the month following the month to which the report relates together with the payment of any tax, penalty or interest due. See Rule 010 of these rules relating to method of payment and requirement for payments of one hundred thousand dollars ($100,000) or more. (7-1-21)T

**03. Not Paying Tax.** Any distributor required to pay the tax imposed by Section 63-2424, Idaho Code, who does not pay such tax is liable to the Commission for the amount of tax not paid plus any applicable penalty or interest. The Commission may collect such amounts in the manner provided in Section 63-2434, Idaho Code. (7-1-21)T

**04. Receipt of Gaseous Fuels.** The motor fuels tax is not imposed on gaseous special fuels when the fuels are received, as defined in Section 63-2403, Idaho Code. Propane and natural gas are presumed to be tax-exempt fuels unless delivered into the main supply tank of a licensed, or required to be licensed, motor vehicle. (7-1-21)T

**05. Documentation of Exempt Sales of Gaseous Special Fuels Delivered into Motor Vehicles.** Gaseous special fuels delivered into the fuel supply tank of a licensed, or required to be licensed, motor vehicle are taxable except for:

- Government. Gaseous special fuels used by vehicles owned or leased, and operated by the federal government, or by an instrumentality of the state of Idaho, including all of its political subdivisions, are exempt from the motor fuels tax on gaseous special fuels. In this case, the distributor must record the name of the governmental entity, the license or identification number of the vehicle, and the type of vehicle on the sales document. (7-1-21)T
b. Manned and Unmanned Stations. A manned station must have a representative at the point of sale to visually inspect the vehicle in order to make exempt sales of gaseous special fuels. Exempt sales of gaseous special fuels from an unmanned station are allowed when each sale is recorded by other visual means. When a distributor cannot meet the previous two requirements, it must request approval from the Commission before making exempt sales of gaseous special fuels. (7-1-21)

133. -- 134. (RESERVED)

135. QUALIFIED CONSUMERS (RULE 135).
Section 63-2427A, Idaho Code

01. Point of Taxation and Receipt Defined. The state of Idaho imposes an excise tax on all motor fuel, except dyed diesel, and the transfer fee on all petroleum and petroleum products received in Idaho. See Rule 510 of these rules for the definition of petroleum and petroleum products. Motor fuel imported into Idaho is received at the time the fuel arrives in Idaho by the person who is the owner of the motor fuel when the fuel arrives in Idaho. Motor fuel produced in Idaho is received when it is placed into any tank or other container from which sales or deliveries not involving transportation are made. Motor fuels are also received by a qualified consumer who produces motor fuels when the motor fuels are placed into storage tanks. For example: fifty-five (55) gallon barrels, above ground tanks, still tanks, underground tanks, tank wagons, old delivery trucks, old tanker trucks, slip tanks in pickups, and any other storage tank used to store the motor fuel. The excise tax and transfer fee due on the motor fuel received in Idaho during a month are normally reported on a monthly Idaho Motor Fuels Distributor Report. (7-1-21)

02. Alternative to Monthly Reporting for Qualified Consumers. As an alternative to obtaining an Idaho motor fuel distributor license and filing monthly reports, a qualified consumer may file an annual report to remit the motor fuel tax and transfer fee due to the state of Idaho or to receive a refund of excess tax or transfer fee paid.

a. A qualified consumer is not required to pay the transfer fee on the biodiesel he produces. (7-1-21)

03. Qualifications. To be a qualified consumer under this rule, a person must:

a. Use the produced biodiesel or imported motor fuel only in its own aircraft, motor vehicles, or equipment; and (7-1-21)

b. Import into Idaho one-hundred thousand (100,000) gallons or less of motor fuel in a calendar year; or (7-1-21)

c. Produce in Idaho five thousand (5,000) gallons or less of biodiesel in a calendar year. (7-1-21)

04. Documentation of Export. To claim an export of motor fuel or other petroleum products a qualified consumer must have tax reports or other evidence that will verify that the exported fuel was reported to and any tax due was paid to the jurisdiction into which the fuel was claimed to have been exported. (7-1-21)

05. Limitations.

a. A qualified consumer may not claim an export from Idaho for fuel in the supply tank of a motor vehicle or aircraft. (7-1-21)

b. A licensed Idaho fuel distributor may not file this report. (7-1-21)

136. (RESERVED)

137. INSTATE PIPELINE TERMINAL, PRODUCTION TERMINAL, AND STORAGE REPORTS (RULE 137).
Section 63-2437, Idaho Code

01. Monthly Reports. Every instate pipeline terminal operator and production terminal operator will
file with the Commission a monthly tax report, in gross gallons, with supporting detailed schedules on forms and in a manner prescribed by the Commission. The pipeline terminal operator and production terminal operator must keep detailed inventory records. The pipeline terminal operator and production terminal operator will report the quantity of motor fuels and other petroleum products received during the month including a listing of each person from inside or outside Idaho supplying motor fuels and other petroleum products to the pipeline terminal or production terminal. Such reports must contain a declaration by the person filing the report that the statements contained therein are true and are made under penalties of perjury. The report will include such information as the Commission may require.

02. Machine Tabulated Data. Machine tabulated data is accepted in lieu of detailed schedules on Commission provided forms but only if the data is in the same format as shown on the required schedules. Before any other format may be used, the terminal operator must make a written request to the Commission with a copy of the format and must be granted written authorization to use that format.

138. -- 140. (RESERVED)

141. FUEL DISTRIBUTOR CREDIT AND REFUND CLAIMS (RULE 141).
Sections 63-2410, 63-2423, Idaho Code

01. Fuel Distributor Credit and Refund Claims. Fuel credit and refund claims must be made on a distributor’s fuel tax report unless authorized otherwise by this chapter. A licensed distributor can claim credits or refunds by filing original or amended returns. Any distributor may use the Line Flush Allowance. All claims must establish both of the following:

a. The basis for the credit or refund claim, and
b. The amount of the credit or refund.

02. Line Flush Allowance. Undyed, tax-paid diesel is contaminated with red dye when a distributor delivers dyed diesel then flushes the line with undyed diesel. The contaminated undyed diesel will be put into the delivery truck’s dyed diesel fuel tank and sold as untaxed, dyed diesel. A distributor will claim a fuel tax refund using the Form 75, Idaho Fuel Use Report, and Line Flush Allowance worksheet.

03. Methods to Determine the Line Flush Allowance. The distributor can claim a refund based on the actual gallons used to flush the line or a standard allowance. Check the box on the worksheet to indicate the method used to calculate nontaxable gallons. Use the following procedure for method chosen:

a. Standard allowance. Multiply by five (5) gallons by the number of flushes using logs prepared by the delivery truck driver including the truck number, date, and number of flushes; or
b. Actual gallons. The actual gallons used to flush the lines. Delivery tickets or totalizer log readings for each flush including the truck number, date, and gallons used to flush the line.

142. -- 149. (RESERVED)

150. FUEL SALE DOCUMENTATION REQUIRED (RULE 150).
Section 63-2429, Idaho Code

01. Retail Sales Invoices for Delivered, Bulk Plant, and Station Sales. Any distributor who sells motor fuels and other petroleum products in this state must issue an original invoice to the purchaser; provided, however, that when sales are accounted for on a monthly basis the invoices may be issued to the purchaser at the time of billing. All sales invoices (including a credit card receipt used as a sales invoice) for motor fuels and other petroleum products sold at retail stations, bulk plants, or delivered to the customer’s location must contain the following:

a. A preprinted identification number, except when invoices are automatically assigned a unique identification number by a computer or similar machine when issued;
b. Name and address of the distributor;  
(7-1-21)T

c. Name of the purchaser;  
(7-1-21)T

d. Date of sale or delivery;  
(7-1-21)T

e. Type of fuel;  
(7-1-21)T

f. Gallons invoiced - reported as required in Section 130 of these rules;  
(7-1-21)T

g. Price per gallon and total amount charged. When taxable motor fuels products are sold, at least one (1) of the following must be used to establish that the Idaho state fuel tax has been charged:  
(7-1-21)T

i. The amount of Idaho state fuels tax;  
(7-1-21)T

ii. The rate of Idaho state fuels tax; or  
(7-1-21)T

iii. A statement that the Idaho state fuels tax is included in the price.  
(7-1-21)T

h. Delivered sales invoices must also contain the purchaser’s address along with the Origin and Destination of the motor fuels and other petroleum products.  
(7-1-21)T

i. The sales invoice will contain double-faced carbons on the original of the first copy, unless invoices are automatically prepared by a computer or similar machine when issued.  
(7-1-21)T

02. **Correcting Sales Invoice Errors.** When an original invoice is issued containing incorrect information, it may be canceled by a credit invoice and cross-referenced to all copies of the invoice covering the transaction being corrected. If a second sales invoice is issued, it will show the date and serial number of the original invoice and that the second invoice is in replacement or correction.  
(7-1-21)T

03. **Disallowing Tax-Paid Credit.** Not including all the above documentation will result in an invalid sales invoice for a tax-paid fuel claim by the distributor’s customer.  
(7-1-21)T

04. **Documentation Requirements for Dyed Diesel Fuel.** The state of Idaho is following the Internal Revenue Service requirements for sales of dyed diesel fuel. The Internal Revenue Code requires that a notice stating “Dyed Diesel Fuel, Nontaxable Use Only, Penalty for Taxable Use” must be:  
(7-1-21)T

a. Provided by the terminal operator to any person who receives dyed diesel fuel at a terminal rack of that operator; and  
(7-1-21)T

b. Provided by any seller of dyed diesel fuel to the buyer if the fuel is located outside the bulk transfer/terminal system and is not sold from a posted retail pump; and  
(7-1-21)T

c. Posted by a seller on any retail pump where the dyed diesel fuel is sold for use by the buyer.  
(7-1-21)T

d. The documentation notice found in this rule must be provided at the time of removal or sale and must appear on shipping papers, bills of lading, and sales invoices accompanying the sale or removal of the fuel. Any person who does not provide or post the required notice is presumed to know that the fuel is used for a taxable use and is subject to penalties imposed by the Internal Revenue Service.  
(7-1-21)T

151. -- 169. (RESERVED)

170. INFORMATION ON DYED & UNDYED DIESEL FUEL (RULE 170).  
Section 63-2425, Idaho Code
01. **Undyed Diesel Fuel Used for Heating Purposes.** The consumer must apply directly to the Commission for a refund of the special fuels taxes included in the purchase price of undyed diesel used for heating a dwelling or building. The distributor may assist the consumer claiming a refund of the special fuels tax from the Commission by:

- Properly documenting information on the sales invoice; and
- Providing the customer with a Form 75.

02. **Red-Dyed Diesel.** It is illegal to use red-dyed diesel in the main supply tank of a licensed, or required to be licensed, motor vehicle in this state unless the type of user is listed below. Penalties for illegal use of red-dyed diesel in a motor vehicle are found in Section 63-2460, Idaho Code. The Internal Revenue Code does allow certain types of users to purchase tax-exempt red-dyed diesel for use in their vehicles. Red-dyed diesel may be used:

- By state and local governments (political subdivisions of the state) for their exclusive use;
- In the engine of a train;
- In a school bus, owned or leased and operated by a political subdivision of the State of Idaho, while the bus is engaged in the transportation of students and school employees;
- In a vehicle (such as a ground servicing vehicle for aircraft) owned by an aircraft museum;
- In a highway vehicle that is not registered (and is not required to be registered) for highway use under the laws of any state or foreign country and is used in the operator’s trade or business or for the production of income;
- In a highway vehicle owned by the United States that is not used on a highway;
- Exclusively by a nonprofit educational organization as defined in Internal Revenue Code Section 4221 (d)(5).

171. **MOTOR FUELS EXEMPTION FROM SALES TAX (RULE 171).**
Sections 63-2431, 63-3622C, Idaho Code
Any sale of motor fuels by any fuel distributor that is subject to motor fuels tax is exempt from Idaho sales tax under Chapter 36, Title 63, Idaho Code. If such purchases are later included in credits or refunds for motor fuels tax paid and not subject to taxes imposed by Title 63, Chapter 24, Idaho Code, and no other exemption applies, sales and use taxes is applicable. If dyed fuel products are sold without the motor fuels tax, the sale is subject to the Idaho sales tax unless exempted under the Idaho Sales Tax Act and Rules. Sales of dyed fuel that do not include the motor fuels tax are exempt from Idaho sales tax only if the seller has taken from the purchaser a sales tax exemption certificate in the manner required by IDAPA 35.01.02, “Idaho Sales and Use Tax Administrative Rules,” Rule 128. However, if the dyed fuel product delivered into a bulk storage tank is used exclusively for home heating purposes, a sales tax exemption certificate is not required.

172. -- 184. (RESERVED)

185. **AUTHORITY TO GIVE THE CONSENT TO JURISDICTION OF IDAHO COURTS (RULE 185).**
Section 63-2427A, Idaho Code

01. **Authorized Signature on Application.** All Idaho Fuel Distributor License Applications must be signed by an individual with the authority to give the consent to jurisdiction of Idaho courts on behalf of the applicant.

02. **Authority to Waive Sovereign Immunity.** If the applicant is a state, local or tribal governmental
entity, the application must be accompanied by a separate authorization by the governing authority of the entity waiving sovereign immunity that the entity may otherwise assert against any action to enforce Idaho motor fuels tax laws in state court and setting forth the authority of the individual who signs the application to bind the applicant.

(7-1-21)T

03. Irrevocable Submission and Waiver of Sovereign Immunity. The application constitutes an irrevocable submission to the jurisdiction of Idaho state courts, and the waiver of any sovereign immunity that may otherwise be asserted, as to all disputes related to the enforcement of Title 63, Chapter 24 of the Idaho Code.

(7-1-21)T

186. -- 229. (RESERVED)

230. MOTOR FUELS SUBJECT TO USE TAX -- REPORTING (RULE 230).
Section 63-2421, Idaho Code
Any person using tax-exempt motor fuels in a licensed motor vehicle, not subject to Rule 400 of these rules, upon highways in Idaho, will annually report to the Commission the amount of motor fuels tax due.

(7-1-21)T

01. Reporting. A person who wishes to pay their fuel taxes due more frequently may file on forms prescribed by the Commission for any time period that is not less than one (1) month, but not more than one (1) year. The report may be made together with the claimant’s Idaho income tax return, if it is required. The amount of fuels tax due on motor fuels may be offset against any refund due from other motor fuels taxes or income taxes.

(7-1-21)T

02. Lack of Records to Compute Fuel Consumption Rate. When a motor fuels consumer does not keep sufficiently detailed records to determine motor fuels consumed by its motor vehicles, the consumption rates found in Subsection 290.05 of these rules are presumed to be correct.

(7-1-21)T

03. Fuel Records. If the motor fuels consumer does not keep sufficiently detailed records to determine taxable gallons, all tax-exempt motor fuels purchased is subject to the fuels tax unless the number of gallons placed into the supply tank of the licensed or required to be licensed motor vehicle can be determined.

(7-1-21)T

231. -- 249. (RESERVED)

250. REFUND CLAIMS -- REPORTING (RULE 250).
Sections 63-2410, 63-2423, Idaho Code

01. Requirements of a Valid Refund Claim. Before the Commission can credit or refund motor fuels taxes, the taxpayer making the claim must establish both of the following:

a. The basis for the credit or refund claim, and

b. The amount of the credit or refund.

(7-1-21)T

02. Refund May Be Claimed Only by Final Consumer. Refunds of motor fuels taxes may be claimed on forms prescribed by the Commission by the person who purchased and used the motor fuels upon which the tax has been paid and for which a refund may be claimed. In the case of all partnerships and any corporations filing Idaho Form 41S, relating to S Corporations, any refund of motor fuels taxes paid by the partnership or S Corporation must be claimed by the partnership or corporation. The refund may not be applied to the individual returns filed by partners or shareholders.

(7-1-21)T

03. Refund Applied to Taxes Due. Any refund due to a consumer is applied first to any liability due under any law administered by the Commission, including any liability under IFTA, which is due and unpaid at the time the claim is filed. In addition, no refund will be paid if the claimant has not filed any tax return required to be filed with the Commission. Any balance of the refund exceeding taxes due will be paid as a refund to the entity filing the return.

(7-1-21)T

251. -- 269. (RESERVED)
270. REFUND CLAIMS – GENERAL AND BULK DOCUMENTATION (RULE 270).
Sections 63-2410, 63-2421, 63-2423, Idaho Code

01. Refunds to Consumers. Tax-paid fuel used in a nontaxable manner according to Sections 63-2410 and 63-2423, Idaho Code, qualifies for a fuel tax refund. Refund claims and required worksheets must be made on forms provided or approved by the Commission.

02. Records Retention Requirements. All claimants must keep records for the greater of either:

a. Three (3) years from the due date, including extensions, of the income tax return;

b. The time during which the taxpayer’s income tax return is subject to adjustment by either the Commission or voluntary action by the taxpayer if the refund claim is filed with the taxpayer’s Idaho income tax return;

c. Four (4) years, if an IFTA licensee.

03. Records Required – Generally. A claimant must have fuel purchase records and records showing fuel was placed into the supply tank of vehicles or equipment using the fuel in a nontaxable manner. Fuel purchase records must contain the information required by Rule 150 of these rules. Fuel purchase records must be reissued if altered or corrected.

04. Records Required – Retail Fuel Purchases. When claiming a refund of tax for fuel purchased from a retail outlet, a receipt is required. The vehicles or piece of equipment using the fuel must be recorded on the receipt. If claiming refunds for fuel used in more than one vehicle or piece of equipment, make sure all the vehicles and equipment are identified on each receipt. When placing fuel into containers for use in vehicles, pieces of equipment, or commercial motorboats, identify into which the fuel is placed on the receipt. No other records are required if the fuel from the container isn’t used in licensed or required to be licensed motor vehicles.

05. Records Required – Bulk Fuel Purchases. When claiming a fuel tax refund on fuel delivered in bulk, the claimant must provide the following documentation:

a. Seller Invoices.

b. Withdrawal Logs.

i. Complete withdrawal logs must give the date, the vehicle or piece of equipment, and the amount of fuel withdrawn.

ii. Withdrawal logs aren’t required for claimants with two (2) or more bulk storage tanks at the same location with Idaho tax-paid fuel of the same type for taxable and nontaxable uses. Claimants must identify each storage tank for taxable or nontaxable use. The seller must mark the invoices at the time of delivery and identify the storage tanks into which the fuel was delivered.

c. Bulk Fuel Inventory Reconciliations. Reconciliations must include beginning inventory, purchases, withdrawals, calculated ending inventory, and actual ending inventory determined by a physical reading.

06. Alternate Method for Bulk Tanks – Authorized Percentage. A claimant can request an authorized percentage if using Idaho tax-paid fuel from one (1) bulk tank in both a taxable and nontaxable manner. IFTA licensees and owners of multiple bulk storage tanks containing tax-paid and tax-exempt fuels of the same type at the same location can’t use an authorized percentage. The claimant must submit a completed authorized percentage request form before using any percentage to claim a refund. The request must itemize all taxable and nontaxable uses by vehicle and piece of equipment based on previous experience or anticipated use. Records to support an authorized percentage must be kept and presented upon request. Equipment lists must be provided and supported by:

a. Equipment purchase records;
b. Sales or rental receipts; and

c. Depreciation schedules.

07. **Untaxed Motor Fuel.** Untaxed motor fuel cannot be used in licensed or required to be licensed motor vehicles unless authorized in the Fuels Tax Act or these rules. Under the audit and enforcement provisions of Sections 63-2410 and 63-2434, Idaho Code, all fuel tax refund claims are subject to audit by the Commission and no part of these rules may be construed to imply that an audit may not be performed. Tax-paid motor fuel is not exempt from taxes imposed by the Idaho Sales Tax Act when the motor fuel tax is refunded.

08. **Indian-Owned Retail Outlet.** Motor fuels purchased after December 1, 2007, from an Indian-owned retail outlet do not include the Idaho motor fuels tax and do not qualify as an Idaho tax-paid purchase, unless otherwise provided in an agreement between the state and appropriate tribe under the authority of Sections 63-2444 or 67-4002, Idaho Code. See definition of Indian-owned retail outlet in Rule 010 of these rules.

271. -- 289. (RESERVED)

290. **MOTOR VEHICLES REFUND CLAIMS – NONTAXABLE MILES (RULE 290).** Section 63-2423, Idaho Code

01. **Refunds to Consumers – Nontaxable Miles.** Tax-paid special fuels used as described in Section 63-2423, Idaho Code, qualifies for a fuels tax refund. Refund claims and required worksheets must be made on forms provided or approved by the Commission. The records retention and fuel record requirements in Subsections 270.02 through 270.05 of these rules also apply to this section.

02. **Nontaxable Miles Defined.** Nontaxable miles are miles driven on roads:

a. Not open to the public; or

b. Not maintained by a governmental entity; or

c. Located on private property maintained by the property owner; or

d. Under construction and not open to the public; or

e. Constructed and maintained by the United States Forest Service, the United States Bureau of Land Management, the Idaho Department of Lands, or forest protective associations with which the state of Idaho has contracted or become a member pursuant to Chapter 1, Title 38, Idaho Code. Miles traveled on these roads are nontaxable when the contractor or subcontractor is required to pay the cost of maintaining these roads by contract or permit.

03. **Records Required – Mileage Records.** Mileage records are required to claim a refund of tax when using special fuels on nontaxable roads. Claimants operating under the authority of the IFTA or IRP are required to follow the recordkeeping requirements of IFTA and IRP in addition to the requirements of this section. Idaho Full Fee registrants must follow the requirements of Rule 422 of these rules and this section.

04. **Records Required – Actual Nontaxable Miles.** Nontaxable miles must be documented for each trip using odometer, hubometer, or GPS readings.

05. **Alternate Methods.** A claimant may use an alternate method to determine nontaxable miles or use a presumed MPG to determine fuel use unless they are an IFTA licensee or IRP registrant in any participating jurisdiction. Claimants may estimate using one of the methods below.

a. Estimating Nontaxable Miles. Nontaxable miles may be estimated by using maps, contracts, or a Commission approved trip analysis. Upon request, the claimant must provide the documents supporting the estimation. Maps other than the Official Idaho Highway map miles are estimates.
b. Estimating Nontaxable Gallons. Nontaxable gallons may be estimated using presumed MPGs. Upon request, the claimant must provide the tax-paid fuel purchase records supporting the total gallons claimed.

   i. Presumed MPGs by Weight. The following are presumed MPGs by gross vehicle weight (GVW) or registered GVW:

<table>
<thead>
<tr>
<th>Gross Vehicle Weight</th>
<th>MPG</th>
</tr>
</thead>
<tbody>
<tr>
<td>Over 40,000 GVW</td>
<td>4.0</td>
</tr>
<tr>
<td>Over 26,000 GVW to 40,000 GVW</td>
<td>5.5</td>
</tr>
<tr>
<td>Over 12,000 GVW to 26,000 GVW</td>
<td>7.0</td>
</tr>
<tr>
<td>12,000 GVW or less</td>
<td>10.0</td>
</tr>
</tbody>
</table>

ii. Presumed MPGs by Operation. The following are presumed MPGs for vehicles over 40,000 GVW or registered GVW used in certain industries:

<table>
<thead>
<tr>
<th>Industry</th>
<th>MPG</th>
</tr>
</thead>
<tbody>
<tr>
<td>Logging</td>
<td>4.3</td>
</tr>
<tr>
<td>Agricultural</td>
<td>4.5</td>
</tr>
<tr>
<td>Sand, gravel &amp; rock hauling</td>
<td>4.0</td>
</tr>
<tr>
<td>Construction</td>
<td>4.4</td>
</tr>
</tbody>
</table>
b. Allowances based on percentages:

<table>
<thead>
<tr>
<th>Allowance Type</th>
<th>Percentage Per Gallon</th>
<th>x</th>
<th>Gallons Consumed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concrete mixing</td>
<td>30%</td>
<td>x</td>
<td>Gallons consumed</td>
</tr>
<tr>
<td>Garbage trucks</td>
<td>25%</td>
<td>x</td>
<td>Gallons consumed</td>
</tr>
</tbody>
</table>

05. Nonstandard Allowances. A claimant must request a nonstandard allowance from the Commission if they want to use an allowance different from those listed in this section. A claimant must request approval of the proposed allowance in writing with a copy of the supporting calculations used to compute the proposed allowance. The Commission may request additional information or documentation as needed in order to make a determination on the request.

293. -- 299. (RESERVED)

300. ADMINISTRATION, RULES AND DELEGATION OF AUTHORITY (RULE 300).

301. EXEMPTION FROM REQUIREMENT FOR BONDS.

a. If all or any part of the unencumbered property offered to show financial solvency is real property, the petition must include both a title report from an independent title company reporting on the state of the title of the
real property as of a time not more than fifteen (15) days before the filing of the petition and a copy of the most recent valuation notice issued by the county assessor for ad valorem property tax purposes. (7-1-21)T

b. If all or any part of the unencumbered property is licensed motor vehicles, the petition must include copies of the titles of the vehicles and evidence of the value of the vehicles from a source independent from the distributor. (7-1-21)T
c. If all or any part of the unencumbered property is personal property other than motor vehicles, the petition must include a description of the property, evidence of ownership of the property, an independent appraisal of the property, and evidence that the property is unencumbered. Copies of all documents relating to all of the distributor’s current and long-term liabilities, including contingent liabilities, lawsuits or potential lawsuits to which the distributor is or may become a party, are required to establish that no security interests or other encumbrances exist. (7-1-21)T
d. The petitioner must arrange, at the petitioner’s expense, for an established, independent commercial credit rating company to submit directly to the Commission a current and complete credit report about the licensed distributor; or, the distributor must include with the petition its most recent financial statements, including a current income statement, balance sheet, and statement of cash flows. If the petitioner is a publicly held company, the financial statements must be accompanied by an opinion issued by an independent certified public accountant and a responsible company officer must also certify that the financial statements provided present fairly the financial position of the company. If the petitioner is a privately held company, the financial statements must be reviewed by a certified public accountant or licensed public accountant and a responsible company officer must also certify that the financial statements provided present fairly the financial position of the company. (7-1-21)T
e. The Commission may require the distributor to supplement its petition with such further information as the Commission, in its discretion, finds necessary to determine financial responsibility. If incomplete or substitute submissions are received by the Commission, the information submitted is reviewed on a case-by-case basis to determine whether an exemption from the bonding requirement is granted. (7-1-21)T

02. Conditions for Termination of Exemption. If granted, the exemption from the bonding requirement will terminate:

a. One (1) year after the date on which it was granted. (7-1-21)T
b. Ninety (90) days after the occurrence of any delinquency in motor fuels tax unless the delinquency has been paid within that time period. (7-1-21)T
c. Upon the occurrence of any encumbrance of any of the property upon which the finding of financial responsibility was based. (7-1-21)T
d. Upon the occurrence of any change in the business activity of the distributor that would cause the amount of bond required to be increased to an amount greater than the value of the distributor’s unencumbered assets. (7-1-21)T
e. Upon the occurrence of any event prejudicing the distributor’s solvency or financial responsibility. (7-1-21)T

03. Bond Requirement upon Termination of Exemption. Immediately upon any termination of the exemption from the requirement for a bond the distributor must supply the required bond according to Section 63-2428, Idaho Code. (7-1-21)T

04. Pending Application Does Not Excuse the Bond Requirement. Having an application pending for exemption from the requirement for a bond does not excuse the bond. If a bond exemption is due to expire, the distributor must submit a new petition applying for a continuation of the exemption no later than ninety (90) days before the day the exemption is due to expire to prevent a lapse in the exemption. The petition must meet all of the requirements of this rule. (7-1-21)T
05. **Conditions for Renewal of Bond Exemption.** The following must be submitted to renew a bond exemption:

a. A written request for renewal of waiver;

b. The information required in Subsections 310.01.a. through 310.01.e. of this rule.

311. **IFTA LICENSE BOND (RULE 311).**

Sections 63-2442A, 63-2470, Idaho Code

01. **General.** The Commission (Commission) may require an IFTA licensee to post a bond following the requirements of the IFTA Agreement in order to maintain his license. A bond may be required when he files returns or remits taxes, separately or in combination, after the due date at least three times within a three year period. When a bond is required, the licensee must post the bond within thirty (30) days from the date of the request. When no bond is posted within the thirty (30) days, the license is automatically revoked and it must be surrendered to the Commission. An assessment may be made for any unreported tax liability based on actual records or an estimate.

02. **Reinstating Revoked Licenses.** An applicant may be required to post a bond when he has previously had his IFTA license revoked or is related to a person who has previously had his IFTA license revoked. An applicant is related to a person who has previously had his IFTA license revoked when:

a. The applicant is owned at least twenty-five percent (25%) by a person or persons who has previously had his IFTA license revoked.

b. The applicant is operated or controlled by a person or persons who has previously had his IFTA license revoked. Operation and control includes, but is not limited to, an officer or director or other person authorized by the applicant to engage in the business or commercial activity of the applicant.

03. **Amount and Type of Bond.** The amount of the bond is one thousand dollars ($1,000) or twice the estimated tax liability for the licensee's quarterly tax reporting period, whichever is greater, without regard to actual or anticipated tax-paid credits. Any type of bond allowed by the IFTA Agreement or these rules may be secured. The bond amount is reviewed annually, but may be reviewed at any time, thereafter. The licensee's returns and records may be reviewed to determine if the bond amount is raised, lowered, or remain unchanged.

04. **Bond Waiver Request.** The licensee may request a waiver of bond requirement within thirty (30) days from the approval of the license renewal request. The licensee must be a quarterly filer. The licensee must have submitted the quarterly returns and paid the tax due by the due date for one calendar year. An annual filer may not request a bond waiver.

05. **Denial of Bond Waiver Request and Appeal of Denial.** The Commission may deny a bond waiver request when it determines that waiving the bond requirement puts the financial interests of IFTA jurisdictions in jeopardy. The licensee must follow the appeal procedure in Section 63-2470, Idaho Code, to appeal the denial of a bond waiver request.

312. -- 319. (RESERVED)

320. **RECORDS RETENTION REQUIREMENTS (RULE 320).**

Section 63-2429, Idaho Code

01. **Records Required.** Any person importing, manufacturing, refining, dealing in, transporting, storing or selling any motor fuels in this state will keep such records, receipts and invoices as will show all purchases, sales, receipts, or deliveries of motor fuels in this state. Such records is maintained for at least three (3) years.

02. **Motor Fuels Subject to Use Tax.** Any person who has purchased tax-exempt motor fuel and subsequently uses the fuel in a taxable manner, must maintain enough records to establish the tax due.
03. **Original Invoice Retention.** The original invoices required by Rule 270 of these rules, relating to refunds of motor fuels tax paid on certain fuel used off-road, must be retained for the greater of either three (3) years or the time during which the taxpayer’s Idaho income tax return is subject to adjustment by either the Commission or by voluntary action of the taxpayer. (7-1-21)

321. -- 399. (RESERVED)

400. **IFTA LICENSING AND SPECIAL FUELS PERMITTING (RULE 400).**
Sections 49-432, 63-2401, 63-2438 through 63-2440, 63-2442A, Idaho Code

01. **In General.** It is unlawful for any person to operate a motor vehicle over twenty-six thousand (26,000) pounds maximum registered gross weight or a motor vehicle with three (3) or more axles regardless of weight, that uses special fuels as defined in Section 63-2401, Idaho Code, on the highways of this state without having obtained one (1) of the following: (7-1-21)
   a. A registration to operate the motor vehicle solely within this state under Section 49-434, Idaho Code. (7-1-21)
   b. A temporary fuel tax permit from the Idaho Transportation Department. (7-1-21)
   c. An IFTA license. (7-1-21)

02. **Federal or In-State Governmental Vehicles.** Motor vehicles owned or leased and operated by the federal government or the state of Idaho or their instrumentalities or political subdivisions are exempt from these requirements. (7-1-21)

03. **Out-of-State Governmental Vehicles.** Motor vehicles owned or operated by another state of the United States or any agency or subdivision thereof are exempt from permitting and reporting under this rule if the state in which they are owned grants a reciprocal privilege to Idaho and its agencies and subdivisions. (7-1-21)

04. **Temporary Fuel Tax Permits.** Any person who operates a motor vehicle over twenty-six thousand (26,000) pounds maximum registered gross weight or a motor vehicle with three (3) or more axles regardless of weight, that uses special fuels on the highways of this state and is not registered solely for operation in this state under Section 49-434, Idaho Code, or IFTA licensed, must secure a temporary fuel tax permit from the Idaho Transportation Department in the manner provided and required by that department. (7-1-21)

05. **Not Obtaining an IFTA License, or Temporary Fuel Tax Permit.** Operation of a motor vehicle over twenty-six thousand (26,000) pounds maximum registered gross weight or a motor vehicle with three (3) or more axles regardless of weight, that uses special fuels on the highways of this state without a registration to operate the motor vehicle solely within this state under Section 49-434, Idaho Code, an IFTA license, or an Idaho temporary fuel tax permit is hereby deemed to be an act tending to prejudice the collection of the special fuels tax and an act that renders wholly or partially ineffective the procedures for collection of that tax. Accordingly, any deputy of the Commission, including those designated as deputies in Section 300 of these rules, may issue a jeopardy assessment under the authority of Section 63-2434, Idaho Code. Such deputy is authorized to institute immediate collection procedures, including issuance of a tax warrant and distraint of the motor vehicle required to display, but not displaying, either an IFTA license or a temporary fuel tax permit. (7-1-21)

401. -- 419. (RESERVED)

420. **DOCUMENTATION FOR IFTA LICENSEE REPORTING (RULE 420).**
Sections 63-2439, Idaho Code

01. **Records Required for Idaho IFTA Licensee.** Records are required to verify the accuracy of any tax report or worksheet filed with the Commission. The taxpayer displaying, or required to display, an IFTA decal or a temporary permit must retain originals of all invoices or other documents relating to purchases of special fuels and all records relating to the mileage of the motor vehicles. (7-1-21)
02. **Fuel Records.** In order for the IFTA licensee to obtain credit for tax-paid purchases, a receipt or invoice, a credit card receipt, or microfilm/microfiche of the receipt or invoice must be retained showing evidence of such purchases and tax having been paid. An acceptable receipt or invoice for tax-paid purchases taken as credit must include, but is not limited to, the following:

a. The date of each receipt of fuel;  

b. The name and address of the person from whom purchased or received;  

c. The number of gallons received;  

d. The type of fuel;  

e. The specific vehicle into which the fuel was placed; and  

f. Detailed records of all withdrawals from bulk storage tanks, including the date of withdrawal, the number of gallons withdrawn, the fuel type, the unit number, the equipment type, and inventory records.

03. **Mileage Records.** All IFTA licensees must maintain detailed mileage records, such as trip logs or trip sheets, on an individual-vehicle basis. Such records must contain, but not be limited to:

a. Total trip miles, including vicinity miles;  

b. Miles traveled for taxable and nontaxable use;  

c. Mileage totaled by jurisdiction in which the IFTA vehicle operated;  

d. Starting and ending dates of trips;  

e. Trip origin and destination;  

f. Hubometer or odometer readings from the beginning and ending of each trip;  

g. Complete routes of travel, that includes interim stops such as pick-up and delivery locations; and  

h. Vehicle license number or unit number.

04. **Additional Records Requirements.** Other records may be requested, such as:

a. Bills of lading or manifest documents;  

b. Vehicle dispatch ledgers;  

c. Accounts payable and receivable;  

d. Lease agreements;  

e. Driver pay records;  

f. Driver logs;  

g. Fuel use trip permits; and  

h. Other documents used in preparing fuel tax reports.
05. **Summaries.** Individual trips must be accumulated into monthly summaries in total and by jurisdiction. These summaries must be used as the basis for the miles submitted on the IFTA quarterly or annual reports. (7-1-21)

06. **Computer Support.** Computer summaries must be supported by trip sheets or logs verifying mileage traveled. (7-1-21)

07. **Mileage Information.** Information recorded on trip sheets must be legible and reflect actual miles traveled. Mileage records must include all movement of the vehicle including loaded, empty, and tractor-only (bobtail) miles. (7-1-21)

08. **Records Retention.** IFTA licensees must retain records at least four (4) years. (7-1-21)

09. **Mileage Disputes.** Whenever a mileage dispute arises between the taxpayer and the Commission, the official mileage map distributed by the appropriate authority in each jurisdiction is used to resolve the point-to-point mileage differences. (7-1-21)

421. **DOCUMENTATION FOR IDAHO REGISTRANTS (RULE 421).**
Section 49-439, Idaho Code

Records Required For Idaho IRP. Registrants must keep records to verify the accuracy of any Idaho IRP application submitted to the Idaho Transportation Department. Registrants must keep the records required by Rule 420 of these rules for all IRP registered vehicles. Also, registrants must keep individual vehicle records by registered fleet for each application reporting period of July 1st through June 30th. (7-1-21)

422. **DOCUMENTATION FOR IDAHO FULL FEE REGISTRANTS (RULE 422).**
Section 49-439, Idaho Code

01. **Records Required For Idaho Full Fee Registrations.** Registrants must keep records to verify the accuracy of any Idaho Full Fee registration application submitted to the Idaho Transportation Department. No records are required for full fee vehicles registered at less than sixty-two thousand (62,000) lbs. gvw or those registered at the maximum tier, of over fifty thousand (50,000) miles per reporting period. Registrants must keep records by individual vehicle for each reporting period of July 1st through June 30th. Examples of records include, but are not limited to:

   a. **Distance Measuring Devices.** Odometer, hubometer, GPS or perpetual life-to-date readings. Records must include the date the reading was recorded and the reading. When changing devices, the change must be properly documented. (7-1-21)

   b. **Daily Trip Logs.** Logs include the date of travel, origin and destination of the trip, and number of miles traveled. Logs may be supported by load tickets, billing invoices, or other original source documents that can verify miles traveled. (7-1-21)

   c. **Number of Trip/Round Trip Miles.** When making numerous short trips from the same origin to the same destination, records include the origin, destination, and round-trip miles. Computations must be supported by scale tickets, load tickets, a route map, or a Commission approved trip analysis. (7-1-21)

   d. **Fuel Purchases.** Retail fuel purchases are fuel invoices with the date, location, quantity, and type of fuel purchased. Bulk fuel records must be sufficient to prove the accuracy of the fuel use. Fuel purchase records must show the usage per unit. The records must document how the average miles-per-gallon (MPG) was calculated. (7-1-21)

02. **Credit for Off-Road Miles and Documentation Required.** Credit for off-road miles may be given for roads not maintained by a government entity or roads built or maintained by the registrant pursuant to a contract, according to Section 290 of these rules. These include roads on private property, roads under construction but not open to the public, and may include designated Forest Service roads. Off-road miles must be documented by using odometer readings, maps, contracts, GPS readings, or a Commission approved trip analysis. (7-1-21)
03. **IFTA Licensees with Full Fee Registration.** An IFTA licensee with full fee registration must maintain records required by IFTA. (7-1-21)

423. -- 499. (RESERVED)

500. **IDAHO CLEAN WATER TRUST FUND TRANSFER FEE (RULE 500).**
Section 41-4909, Idaho Code
The Transfer Fee. The fee imposed by Section 41-4909, Idaho Code, is the Idaho Clean Water Trust Fund is called the Transfer Fee. (7-1-21)

501. **TRANSFER FEE REINSTATED (RULE 501).**
Section 41-4909, Idaho Code
The Transfer Fee was suspended as of October 1, 1999. The Transfer Fee was reinstated on September 1, 2007. (7-1-21)

502. -- 509. (RESERVED)

510. **APPLICATION AND REPORTING OF THE TRANSFER FEE (RULE 510).**
Section 41-4909, Idaho Code

01. **Application.** (7-1-21)

a. The Transfer Fee applies to the first receipt of any petroleum or petroleum product within this state. The amount of the fee is one cent ($0.01) for each gallon of petroleum or petroleum product received. The fee is paid by the distributor who receives any petroleum or petroleum product not excluded from the fee, unless the fee has previously been paid on the same petroleum or petroleum product. Only licensed Idaho fuel distributors may receive refunds or credits of the transfer fee. The refunds or credits must be claimed on the distributor report required in Section 63-2406, Idaho Code, according to Rule 180. (7-1-21)

b. The legal incidence of the fee is on the first distributor which receives any petroleum or petroleum product. This distributor is required to report and pay the transfer fee to the Commission. The fee is not required to be separately stated on any invoice, receipt, or other billing document. A choice to state separately the fee does not change its legal incidence or its nature. (7-1-21)

02. **Receipt of Petroleum Products.** Receipt of petroleum or petroleum products is determined according to Section 63-2403, Idaho Code. Receipt is determined by the movement of petroleum or petroleum products from permanent storage facility (terminal) or crossing the border of this state. Storage of petroleum or petroleum products is incidental to the movement of the petroleum or petroleum products. (7-1-21)

03. **Exemption to Application of the Transfer Fee.** The Transfer Fee does not apply to petroleum or petroleum products that are:

a. Returned to the refinery or pipeline terminal. (7-1-21)

b. Exported from this state. No fuel is considered exported, unless the distributor can prove the export by documentation required by Rule 130 of these rules. (7-1-21)

c. Received by a railroad or railroad corporation or any employee of them. Petroleum or petroleum products sold by a licensed distributor to a railroad or railroad corporation or any employee of them is subject to the Transfer Fee unless the petroleum or petroleum products are “received” by the railroad or railroad corporation as defined in Section 63-2403, Idaho Code. The exclusion for railroad employees applies only when the activity relating to the fuel is part of their employment with the railroad or railroad corporation. (7-1-21)

d. Received in retail containers of fifty-five (55) gallons or less or petroleum products to be packaged or repackaged into retail containers of fifty-five (55) gallons or less, if such containers are intended to be transferred to the ultimate consumer of the petroleum or petroleum products. (7-1-21)
04. Casualty Loss and Two Percent (2%) Allowance Not Deductible. All petroleum and petroleum products received in this state that are not within an exemption or exclusion listed in this rule are subject to the fee, without further deductions or discounts despite the product’s use. Deductions allowed to motor fuel distributors in Section 63-2407, Idaho Code, for casualty loss and the two percent (2%) allowance are not deductions applicable to the Transfer Fee. (7-1-21)

05. Petroleum and Petroleum Products. The products subject to the Transfer Fee are crude oil or any fraction of it that is liquid at a temperature of sixty (60) degrees Fahrenheit and a pressure of fourteen and seven tenths (14 7/10) psi. These products are all products refined from crude oil including but not limited to motor gasoline, alcohol blended fuels, such as E-10 and E-85, including the alcohol content of blended fuel, diesel fuel (#1 - #6), biodiesel blended fuels, such as B-20, including the biodiesel content of the blended fuel, heating oil, aviation fuel, naphtha, naphtha-type jet fuel, kerosene-type jet fuel (JP#1 - #8), motor oil, brake fluid, tractor fuel, distillate fuel oil, stove fuel, unfinished oils, turpentine substitutes, lamp fuel, diesel oils (#1 - #6), engine oils, railroad oils, kerosene, commercial solvents, lubricating oils, fuel oil, boiler fuel, refinery fuel, industrial fuel, bunker fuel, residual fuel oil, road oils, and transmission fluids. Ethanol (E00), natural gasoline, and biodiesel (B00) are also defined as petroleum and petroleum products that are subject to the Transfer Fee. (7-1-21)

06. Exclusion of Petroleum and Petroleum Products on Which the Fee Has Previously Been Paid. Used oil as defined by 40 CFR Part 279 (July 1, 2000) is presumed to be comprised of petroleum or petroleum products on which the transfer fee has previously been paid when generated in Idaho. The distributor will not report used oil generated in Idaho on the distributor report nor pay or receive a credit of the transfer fee on used oil generated in Idaho. When used oil is not generated in Idaho it is presumed to be subject to the transfer fee. The distributor must report and pay the transfer fee unless an exemption or exclusion applies. (7-1-21)

07. Motor Fuel Distributor License and Limited Distributor License. Any person holding a motor fuel distributor license issued by the Commission under Chapter 24, Title 63, Idaho Code, is also licensed for the Transfer Fee. No additional license is required. Any person who receives any petroleum or petroleum product in this state, but who is not a licensed distributor nor required to obtain a motor fuel distributor license applies to the Commission for a limited distributor license. The limited distributor license is only for reporting the Transfer Fee. (7-1-21)

08. Reporting Requirements. (7-1-21)

a. A motor fuel distributor will report and pay the Transfer Fee with the distributor’s report required by Section 63-2406, Idaho Code. For fuel subject to the taxes imposed by Sections 63-2402 and 63-2408, Idaho Code, the Transfer Fee is included in the report in which the distributor is required to report the tax on the same fuel. (7-1-21)

b. Persons holding a limited distributor license will file a monthly report with the Commission on forms prescribed by the Commission on or before the last day of the month following the month to which the report relates. (7-1-21)

c. The Transfer Fee must be reported according to Rule 130 of these rules. (7-1-21)

09. Payment. (7-1-21)

a. Payment of the fee is due on the due date of the report. For method of payment, including required use of electronic funds transfer, see Rule 010 of these rules. (7-1-21)

b. Any partial payment or collection of amounts shown due or required to be shown due on a distributor’s report, plus any additional amount of penalty or interest due, is allocated between the motor fuels tax and the Transfer Fee in the same proportion that the liability for the tax and the fee bear to the total liability. (7-1-21)
35.01.06 – HOTEL/MOTEL ROOM AND CAMPGROUND
SALES TAX ADMINISTRATIVE RULES

000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105, 67-4718, and 67-4917B, Idaho Code, the Commission has promulgated rules implementing the provisions of the Idaho Code relating to hotel/motel room charges. These rules do not apply to sales taxes imposed by resort cities, unless such taxes are administered by the Commission. (7-1-21)

001. TITLE AND SCOPE (RULE 001).

01. Title. These rules will be titled IDAPA 35.01.06, “Hotel/Motel Room and Campground Sales Tax Administrative Rules.” (7-1-21)

02. Scope. These rules are construed to reach the full jurisdictional extent of the state of Idaho’s authority for accommodations. The imposition of a tax for providing a place to sleep or occupy. (7-1-21)

002. ADMINISTRATIVE APPEALS (RULE 002).

01. Administrative Relief. This chapter allows administrative relief as provided in Sections 63-3626, 63-3631, 63-3633, 63-3634, and 63-3049, Idaho Code. (7-1-21)

02. Cross Reference.
   a. See IDAPA 35.01.02.121, “Idaho Sales and Use Tax Administrative Rules.” (7-1-21)
   b. See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.” (7-1-21)

003. LODGING OPERATORS AND SHORT-TERM RENTAL MARKETPLACES (RULE 003).
Sections, 63-1801 through 63-1804, 63-3612, 63-4711, 67-4718, 67-4917B, Idaho Code

01. In General. These rules apply to the Short-term Rental and Vacation Rental Act, Section 63-1801 through 63-1804, Idaho Code. (7-1-21)

02. Applicable Taxes. Any state or local government taxes imposed according to Section 63-1804, Idaho Code, will be collected, reported, paid, and administered according to these rules or as further explained by the Commission’s rules in IDAPA 35.01.02, “Idaho Sales and Use Tax Administrative Rules.” (7-1-21)

03. Registration. Registration with the Commission will be in the same manner and in the same form as is required for obtaining a seller’s permit for state sales tax. However, a short-term rental marketplace that has not facilitated a lodging transaction in Idaho has forty-five (45) days from the completion of their first lodging transaction in Idaho to register to collect room sales tax. (7-1-21)

004. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).

01. Campground. Campground means a person, partnership, trustee, receiver, or other association, regularly engaged in the business of renting, for a consideration, or which holds itself out as being in the business of renting, for a consideration, any area, space or place for camping, parking campers, travel trailers, motor homes or tents when such areas, spaces or places are to be rented for the purpose of providing an individual or individuals a place to sleep. (7-1-21)

02. Hotel or Motel. The words hotel or motel means any person, partnership, corporation, trustee, receiver, or other association, regularly engaged in the business of furnishing rooms for use or occupancy, whether personal or commercial, in return for a consideration or which holds itself out as being regularly engaged in such business. (7-1-21)
   a. Providing rooms for consideration includes rooms rented for personal occupancy and rooms rented for meeting, convention, or other commercial purposes. (7-1-21)
   b. The following rentals are taxable, unless exempted under the provisions of Rule 016 of these rules. (7-1-21)
i. Condominiums or townhouses

ii. Rooms that a public or private educational institution rents

iii. Rooms that hospitals, nursing homes, or similar institutions rent to nonpatients.

011. ACCOMMODATIONS TAX (RULE 011).

01. In General. These rules apply to:

a. Room Sales Tax. The room sales tax includes Travel and Convention Tax and Auditorium or Community Center District Tax when those taxes are administered by the Tax Commission. In these rules, they are referred to collectively as the room sales tax:

i. Travel and Convention Tax. The tax imposed by Section 67-4718, Idaho Code, is a gross receipts type sales tax on the receipts derived from providing a place to sleep to an individual by operators of hotels, motels, and campgrounds as defined in these rules.

ii. Auditorium or Community Center District Tax. The tax imposed by Section 67-4917B, Idaho Code, is a retail sales tax levied upon the user or occupant of a hotel/motel room collected by the hotel or motel from the occupant or user and remitted to the Commission.

b. Sales Tax for Accommodations. These rules explain the application of the state sales tax on accommodations. See also IDAPA 35.01.02.028, “Idaho Sales and Use Tax Administrative Rules.”

012. DISTRICT BOUNDARIES (RULE 012).
Maps showing the district boundaries for each of the auditorium or community center districts administered by the Commission can be found on our website and are available upon request.

013. REGISTRATION (RULE 013).
Registration with the Commission will be in the same manner and in the same form as is required for obtaining a seller’s permit for state sales tax.

014. ROOM OR CAMPGROUND CHARGE DEFINED (RULE 014).

01. Room or Campground Charge Definition. As used in these rules, the charge for providing rooms or campground spaces is to the total paid, whether in money or otherwise, for the rental of the room or space. This includes amounts charged for temporary use of tangible personal property used in conjunction with the room such as a charge for an extra bed. In the case of campgrounds any charges for water, electrical or sewer hookups are part of the charge for the use of the space and are included in the amount subject to tax.

02. Not Included. Separately stated charges that are not part of the rental of the room or campground space. Examples include separately stated charges for telephone, food, beverage or laundry charges.

015. SEPARATE STATEMENT OF TAX (RULE 015).

01. Amount of Tax Charged. The total tax charged for lodging accommodations needs to be separately stated from all other charges on the customers receipt and can appear on the receipt as either:

a. Separate Statement. A separate line item for each of the applicable taxes.

b. Combined Statement. A single line item that includes all applicable taxes.

02. Fractional Parts of One Cent. If the amount of tax computed in accordance with this rule is a fractional part of one cent ($0.01), the amount will be rounded to the nearest full cent.
016. EXEMPTIONS (RULE 016).

01. Exemptions. Except as otherwise provided in this rule, all charges for room occupancy which are exempt from Idaho sales tax are also exempt from the room sales tax. (7-1-21)T

02. Exempt Entities. Rooms or campground spaces furnished to governmental entities, educational institutions, or hospitals are exempt from the taxes if and only if the charge for the room or campground space occupancy is billed directly to and paid directly by the governmental entity, educational institution, or hospital. (7-1-21)T

a. “Governmental entity” includes the federal government and any of its instrumentalities, the state of Idaho and any of its agencies or any city, county or taxing district of the state of Idaho. Governmental entity does not include states other than Idaho or their political subdivisions. (7-1-21)T

b. “Educational institution” means any nonprofit colleges, universities, primary, and secondary schools in which systematic instruction in the usual branches of learning is given. The exemption does not include educational institutions that operate for profit or schools primarily teaching special accomplishments, such as business or cosmetology. (7-1-21)T

c. “Hospital” means a nonprofit institution licensed as a hospital by any state. This exemption does not include hospitals that operate for profit, nursing homes, or similar institutions. (7-1-21)T

d. “Billed directly to” means a contractual agreement between the facility operator and the governmental entity, educational institution, or hospital whereby the charge for the room or campground space is directed to and is the responsibility of the governmental agency or institution. “Billed directly to” also includes credit card charges billed to an account opened by an exempt agency, educational institution, or hospital. (7-1-21)T

e. “Paid directly by” means a remittance tendered directly by the governmental entity, educational institution, or hospital to the facility operator. It does not include a payment by the governmental entity or institution to an employee or agent for reimbursement of expenses incurred during business travel. However, “paid directly by” does include payments made by an exempt entity to a financial institution for credit card charges made on a charge account in the name of the exempt entity with a credit card issued to the entity itself and not to any individual or employee. (7-1-21)T

f. Credit cards issued to employees of governmental agencies are NOT considered to be billed directly to and paid directly by the governmental entity when the employee is responsible for making payment to the credit card company. (7-1-21)T

03. Continuous Occupancy Exemptions. All hotel/motel room sales and campground space rentals are presumed to be short term unless evidence can be provided documenting continuous occupancy. Continuous occupancy means maintaining residency under the terms of a lease or similar agreement for a continuous period of time by the same individual or individuals. The continuous occupancy exemption does not apply when a room or campground space is furnished to a business enterprise that rotates numerous employees as occupants of the room or space with no one (1) employee remaining continuously for the minimum number of days required to meet the continuous stay requirements. (7-1-21)T

a. Hotels and Motels. The room charges are exempt from the following taxes when continuous residency is maintained in a hotel or motel by the same individual or individuals for a period that exceeds thirty (30) days:

i. Sales and Use Tax; (7-1-21)T

ii. Travel and Convention Tax; and (7-1-21)T

iii. Auditorium or Community Center District Tax if the hotel or motel is located within the boundaries
b. Campgrounds. The rental of a campground space is exempt from the following taxes when continuous residency is maintained by the same individual or individuals in a campground space for a period that exceeds thirty (30) days:
   i. Sales and Use Tax;
   ii. Travel and Convention Tax; and
   iii. Auditorium or Community Center District Tax does not apply to campground spaces. See Subsection 016.05 of this rule.
   (7-1-21)

c. This can be documented by a lease or other documentation that shows the period the occupancy is maintained. A guest registration card verifiable by a billing document is acceptable documentation. See Rule 017 of these rules for documentation requirements. (7-1-21)

04. Rooms Rented for Purposes Other Than Sleeping. Travel and Convention tax applies only to rooms rented to an individual as a place to sleep. The tax does not apply to rooms rented for other purposes, such as for meetings. However, both the state sales tax and the Auditorium or Community Center District tax apply to rooms rented by a hotel or motel for purposes other than sleeping. Rooms supplied with beds are presumed to be rented for the purpose of sleeping unless the contrary is established by the operator. Rooms, other than dormitory rooms, rented by an educational institution for purposes other than sleeping, are not taxable as a sale of lodging; however, it is possible that renting such a room may be taxable as a fee for the privilege of using a facility for a recreational purpose. (7-1-21)

05. Campgrounds Exempted. The Auditorium District or Community Center tax does not apply to campground spaces. Sales of spaces in campgrounds owned or operated by the state of Idaho, its agencies or political subdivisions are subject to the state sales tax but not the travel and convention tax. (7-1-21)

06. Foreign Diplomats. The United States Government grants immunity from state taxes to diplomats from certain foreign countries. The diplomat is issued a federal tax exemption card by the U.S. Department of State. The card bears a photograph of the holder, a federal tax exemption number, and specific instructions as to the extent of the exemption granted to the diplomat. Vendors document an exempt charge to a foreign diplomat by:
   a. Retaining a photocopy of the front and back of the federal tax exemption card; or
   (7-1-21)
   b. Recording for their permanent record the name of the bearer, the mission represented, the federal tax exemption number displayed on the card, the date of expiration, and the nature of the exemption granted to the diplomat. (7-1-21)

07. Direct Pay Authority. A taxpayer granted direct pay authority as provided by IDAPA 35.01.02, “Idaho Sales and Use Tax Administrative Rules,” Rule 112 may not use this authority for hotel/motel room or campground space charges. State sales tax, Travel and Convention tax, and, when applicable, Auditorium or Community Center District tax is charged by the hotel, motel, or campground and paid to the hotel, motel, or campground by the direct pay authority permittee. (7-1-21)

017. RECORDS REQUIRED (RULE 017).
Sections 63-3622, 63-3624, 67-4711, 67-4718, 67-4917C, Idaho Code
Any person that provides accommodations subject to the accommodations tax will maintain the records required in IDAPA 35.01.02.111, and the records and exemption certificates required in IDAPA 35.01.06.016 necessary to document exemptions from the accommodations tax. These records are to be maintained for a period of four (4) years and are subject to audit by the Commission or, Auditorium and Community Center Districts organized under chapter 49, title 67, Idaho Code. (7-1-21)

018. RETURNS (RULE 018).
01. **Filing Returns.** Each hotel, motel, campground, lodging operator, and short-term rental marketplace providing taxable accommodations files with the Commission on forms prescribed by the Commission returns showing the amount of tax required to be paid to the Commission and such other information as the Commission requires. The return, together with the remittance shown to be due thereon, is to be received by the Commission or postmarked on or before the twentieth (20th) day of the month following the period to which the return relates. All taxable sales made to the user or occupant are to be reported on the return for the period during which such use or occupancy occurred without regard to whether the charge was a cash or credit transaction. (7-1-21)T

019. **DEFICIENCIES, COLLECTIONS, AND ENFORCEMENT (RULE 019).**
Sections 63-3629, 63-3634, Idaho Code

01. **Remittance of Taxes.** In the event that taxes required to be collected and remitted by a hotel, motel, campground, lodging operator, and short-term rental marketplace are not remitted to the Commission together with a return in a timely manner or in the event that the Commission finds any deficiency in the amount of tax reported to or remitted to the Commission, the Commission will issue a Notice of Deficiency Determination pursuant to the provisions of Section 63-3629, Idaho Code. A hotel, motel, campground, lodging operator, and short-term rental marketplace to which such a Notice of Deficiency Determination has been issued may file a written protest requesting a redetermination of the deficiency pursuant to the provisions of IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules.” (7-1-21)T

02. **Penalties.** In the event that any deficiency in reporting or remitting taxes by a hotel, motel, campground, lodging operator, and short-term rental marketplace is due to negligence, failure to comply with this Commission’s rules, or fraud, or in the event that any hotel, motel, campground, lodging operator, and short-term rental marketplace required to file a return with the Commission fails to do so, the penalties provided in the Idaho Income Tax Act as applicable to the Idaho Sales Tax Act applies to the room sales tax. See IDAPA 35.01.01, “Income Tax Administrative Rules,” Rule 410. (7-1-21)T

03. **Cross Reference.** See Rule 003 of these rules, Administrative Appeals. (7-1-21)T

020. **DISTRIBUTION (RULE 020).**
Sections 67-4710 through 67-4718, 67-4917C, Idaho Code

01. **Travel and Convention Tax.** Amounts collected by the Commission for the state Travel and Convention tax will be paid distributed according to Section 67-4718, Idaho Code. (7-1-21)T

02. **Auditorium or Community Center District Tax.** The amounts collected by the Commission for any Auditorium or Community Center District will be distributed by the Commission to the Auditorium or Community Center District according to Section 67-4917C, Idaho Code. Funds to be distributed according to Section 67-4917C(2)(c), Idaho Code will be distributed no later than one month following receipt by the Commission of the revenues from such district. (7-1-21)T

021. **SALES TAX RULES APPLY UNLESS OTHERWISE PROVIDED (RULE 021).**
The rules promulgated by the Commission relating to the enforcement and collection of the Idaho sales tax applies to the room sales tax unless the provisions of Sections 67-4710 through 67-4719, Idaho Code, inclusive or Sections 67-4917A, 67-4917B or 67-4917C, Idaho Code, or these rules are expressly contrary to the Sales Tax Rules. (7-1-21)T

022. -- 999. (RESERVED)
35.01.07 – KILOWATT HOUR TAX ADMINISTRATIVE RULES

000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105 and 63-2701, Idaho Code, the Tax Commission has promulgated rules implementing the provisions of the Idaho Kilowatt Hour Tax Act. The rules relating to the administration and enforcement of kilowatt hour taxes, as well as other taxes, are promulgated as IDAPA 35.02.01. (7-1-21)T

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.07.000, et seq., Idaho State Tax Commission Rules IDAPA 35.01.07, “Kilowatt Hour Tax Administrative Rules.” They are construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose a tax on producers of electricity from hydroelectric generation. (7-1-21)T

002. ADMINISTRATIVE APPEALS (RULE 002).
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code. (7-1-21)T

003. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).

01. Idaho Customer. Idaho customer means a customer who has a point of delivery for the transfer of power and energy that is located in Idaho. This includes wholesale power transactions with customers or wheeling agents that have a delivery point located in Idaho. (7-1-21)T

02. Point of Delivery. Point of delivery means the point at which a change in ownership of electrical facilities occurs between the filing party and the wholesale customers or wheeling agents for the transfer of power and energy. (7-1-21)T

03. These Rules. The term these rules refers to IDAPA 35.01.07, relating to Idaho kilowatt hour tax. (7-1-21)T

04. Wheeling Agent. Wheeling agent means an entity that receives kilowatt hours from a source or sources of supply and makes power or energy available at another point on its system for a delivering entity or a third party. (7-1-21)T

011. -- 019. (RESERVED)

020. ELECTRICAL PRODUCERS SUBJECT TO TAX (RULE 020).
Section 63-2701, Idaho Code

01. In General. Title 63, Chapter 27, Idaho Code, and these rules apply to all producers of electricity who generate electricity from hydroelectric sources in Idaho, except as provided in Subsection 020.02. Producers of electricity from hydroelectric generation who sell all the power they produce for sale to another producer, for example, cogeneration, are required to file returns and remit the kilowatt hour tax. (7-1-21)T

02. Municipal Corporations. The tax does not apply to power generated by facilities owned and operated by a municipal corporation organized pursuant to the laws of Idaho. Municipal corporations are not required to file kilowatt hour tax returns or to pay tax. As used in these rules, the term municipal corporation does not include a producer, as defined in Section 63-2701, Idaho Code, who produces electricity pursuant to a contract with a governmental entity. (7-1-21)T

021. -- 029. (RESERVED)

030. KILOWATT HOUR TAX RETURNS (RULE 030).
Section 63-2701, Idaho Code

01. Required Statement. The statement required by Section 63-2701, Idaho Code, and by these rules shall be made on the kilowatt hour tax return, Form 48, 48C, or 48CM, provided by the Tax Commission. All information requested on the return must be provided and the return must be signed. (7-1-21)T

02. Monthly Returns. All producers whose previous year’s annual tax liability was greater than fifteen thousand dollars ($15,000) must file a monthly return with the Tax Commission no later than the last day of the month following the month to which the return relates. (7-1-21)T
03. Quarterly Returns. Producers whose previous year’s annual tax liability was equal to or less than fifteen thousand dollars ($15,000) may, at the discretion of the Tax Commission, be allowed to file a quarterly return with the Tax Commission no later than the last day of the month following the end of the calendar quarter to which the return relates. When a filing cycle is changed, the change will take effect on January 1 of the following year.

04. Previous Year’s Annual Tax Liability. If the previous year’s annual tax liability is not available, the estimated current year’s liability may be used.

031. -- 039. (RESERVED)

040. COMPUTATION OF KILOWATT HOURS SUBJECT TO TAX AND CALCULATION OF TAX (RULE 040).

Section 63-2704, Idaho Code

01. Kilowatt Hours Subject to Tax Before Exemptions. To compute kilowatt hours subject to tax before exemptions, the taxpayer shall begin with gross hydroelectric generation in Idaho. The number of kilowatt hours generated shall be measured at the point of production. From kilowatt hours generated, deduct the amounts in Subsections 040.01.a. and 040.01.b.:

a. Kilowatt hours used by the facility and kilowatt hours lost by the transformer during the hydroelectric generating period. These net kilowatt hours are known as the Idaho hydroelectric generated kilowatt hours to system.

b. Idaho hydroelectric kilowatt hours consumed or lost in transmission and distribution services, including substations, during the generating period. To determine the transmission and distribution losses, the Idaho hydroelectric generated kilowatt hours to system shall be adjusted as follows:

i. Divide the total of the kilowatt hours bartered, sold, or exchanged out by the total of the kilowatt hours the taxpayer generated, purchased, or exchanged in; and

ii. Multiply the percentage derived by Subsection 040.01.b.i., by the Idaho hydroelectric generated kilowatt hours to system.

02. Kilowatt Hours Subject to Tax. Kilowatt hours subject to tax is computed by subtracting the exemption amount as computed in Rule 045.02 of these rules from the kilowatt hours calculated in Subsection 040.01.

03. Calculation of Kilowatt Hour Tax. The kilowatt hours subject to tax are multiplied by one-half mill ($0.0005) to calculate the total tax due for that period.

041. -- 044. (RESERVED)

045. EXEMPTIONS (RULE 045).

Section 63-2705, Idaho Code

01. In General. An exemption shall be allowed from the kilowatt hours calculated in Subsection 040.01 of these rules for that portion of kilowatt hours used by the taxpayer or sold to Idaho customers for use in:

a. Manufacturing, mining, milling, smelting, refining, and processing; or

b. Pumping water for irrigation or pumping water for drainage on or from lands in Idaho.

02. Computing the Exemption. The amount of the exemption shall be determined by multiplying the exempt sales in Subsection 045.01, by the percentage of Idaho customer sales from Idaho hydroelectric generation.
This percentage is derived by dividing the Idaho hydroelectric kilowatt hours as computed in Subsection 040.01 of these rules by the total kilowatt hours sold to Idaho customers.

03. Wheeled Energy.

a. If the taxpayer is a wheeling agent for another entity, the wheeled energy may not be included in the calculation of the exemptions.

b. Example. Assume that Company A sells kilowatt hours to Company B and delivers this energy to Company C for wheeling and delivery to Company B at an Idaho delivery point. Company C, as a wheeling agent, would not include these kilowatt hours in the denominator of the percentage to be applied to the exempt sales. Company A would include these kilowatt hours in the denominator of the percentage to be applied to the exempt sales if the transfer between Companies A and C was at a delivery point in Idaho.

046. -- 049. (RESERVED)

050. PAYMENT OF TAX (RULE 050).
Section 63-2702, Idaho Code. The full amount of tax shall be due and payable on the due date of the return and shall accompany the return when it is filed. Delinquent taxes shall be subject to interest at the rate applicable to delinquent taxes as provided in Rule 310 of the Administration and Enforcement Rules.

051. -- 059. (RESERVED)

060. NOTICE OF DEFICIENCY -- ENFORCEMENT (RULE 060).
If the Tax Commission or its authorized agents or employees finds that a taxpayer has failed to file the returns required by these rules or to pay any kilowatt hour tax due, the Tax Commission shall issue a notice in substantially the same form as required for a notice of deficiency determination pursuant to Section 63-3045, Idaho Code, and related rules. The taxpayer may protest the notice of deficiency within the time and in the manner provided by Section 63-3045, Idaho Code, and related rules. If the taxpayer fails to file a protest or the Tax Commission rules against the protest, in whole or in part, and the tax is not paid, the Tax Commission shall direct its legal representative to commence the action authorized in Section 63-2708, Idaho Code.

061. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 000).
In accordance with Section 63-105, Idaho Code, the Tax Commission has promulgated rules implementing the provisions of the Idaho Mine License Tax Act. The rules relating to the administration and enforcement of mine license taxes, as well as other taxes, are promulgated as IDAPA 35.02.01. (7-1-21)

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.08.000, et seq., Idaho State Tax Commission Rules, IDAPA 35.01.08, “Mine License Tax Administrative Rules.” They are construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose a license tax. (7-1-21)

002. ADMINISTRATIVE APPEALS (RULE 002).
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Section 47-1205, Idaho Code

01. These Rules. The term these rules refers to IDAPA 35.01.08, relating to Idaho mine license tax. (7-1-21)

02. Valuable Mineral. The term “valuable mineral,” for purposes of the Idaho Mine License Tax, is defined to include not only gold, silver, copper, lead, zinc, coal, phosphate and limestone, but also any other substance not gaseous or liquid in its natural state, which makes real property more valuable by reason of its presence thereon or thereunder and upon which depletion is allowable pursuant to Section 613 of the Internal Revenue Code. This includes, but is not limited to, calcium carbonates, garnet, granite, pumice, quartzite, scoria, shale, slate, and stone (including dimension and ornamental stone). However, sand and gravel are not included in this definition. (7-1-21)

011. -- 014. (RESERVED)

015. REFERENCE TO INCOME TAX RULES (RULE 015).
Section 47-1205, Idaho Code. All income tax rules promulgated by the Tax Commission that relate to sections of the Idaho Code incorporated by reference in the Mine License Tax Act apply to the mine license tax. (7-1-21)

016. -- 019. (RESERVED)

020. ADVANCE ROYALTIES (RULE 020).
Section 47-1201, Idaho Code. Payments received from mining properties in Idaho from which no minerals or ores were extracted, sold, or used during the taxable year shall not be subject to the mine license tax. Provided, however, the tax arising from payments of advance royalties shall be deferred until the year during which the ore to which the advance royalty relates is actually extracted. (7-1-21)

021. -- 029. (RESERVED)

030. NET VALUE OF ORE TO BE USED AS MEASURE OF TAX -- HOW DETERMINED (RULE 030).
Section 47-1202, Idaho Code

01. Election. The taxpayer may elect to use one (1) of the methods prescribed in Section 47-1202, Idaho Code, for the measurement of the mine license tax. This election must be made in writing and attached to the first mine license tax return filed. If no timely written election is made, the taxpayer shall be presumed to have elected to compute the mine license tax in accordance with the method described in Section 47-1202(a), Idaho Code. Once an election is made, the taxpayer may not change the method of computing his tax unless he receives written permission from the Tax Commission prior to the due date of the return. (7-1-21)

a. This election is not available to taxpayers whose only taxable mining activity is receiving royalties. Such taxpayers must determine their mine license tax liability by use of the method described in Section 47-1202(a), Idaho Code. (7-1-21)

b. Taxpayers whose mining activity includes both the receiving of royalties and the extracting of ores...
must separately determine that portion of their mine license tax liability arising from the royalty received by using the method described in Section 47-1202(a), Idaho Code. However, the taxpayer may elect to determine that portion of their mine license tax liability arising from their extraction of ores by use of either method for which a proper election has been made. The separate determination may not be netted together or offset against each other.

02. Method Under Section 47-1202(a). For each taxpayer using the method described in Section 47-1202(a), Idaho Code, the net value of ores mined shall be the amount of taxable income from the property as defined by Section 613, Internal Revenue Code, and Treasury Regulation 1.613-5 less the deduction for depletion expense on the property that was allowed in the taxpayer’s federal income tax return. For taxpayers receiving royalties, gross royalties shall be reduced by the deduction for depletion expense on the royalty that was allowed in the taxpayer’s federal income tax return.

03. Method Under Section 47-1202(b). For each taxpayer using the method described in Section 47-1202(b), Idaho Code, the net value of ores mined shall be the result of the computations in Subsections 030.03.a. through 030.03.c.

a. Gross value of the ores shall be equal to that determined by the U.S. Department of Interior during the same taxable year for purposes of identifying the amount of mineral royalties to be paid for the privilege of mining public lands. This value shall apply regardless of whether the ore is extracted from public, tribal, or private land. If the taxpayer is mining properties for which a royalty must be paid, the taxpayer must attach to the mine license tax return a copy of the value determination made by the U.S. Department of the Interior.

b. From the gross value determined in Subsection 030.03.a., the taxpayer shall deduct direct mining costs attributable to the Idaho production of the ores and Idaho transportation costs to the point at which they are valued by the U.S. Department of the Interior.

c. From the amount in Subsection 030.03.b., the taxpayer shall also deduct a portion of the depletion expense attributable to the property that was allowed as a deduction in the taxpayer’s federal income tax return for the same taxable year. The deductible portion shall be determined by multiplying the depletion expense allowed on the federal income tax return by the ratio of the gross value of ores for mine license tax purposes to the gross value of ores for federal percentage depletion purposes. For purposes of this computation, all references to gross value and depletion expense shall be limited to those arising from mining conducted in Idaho.

030. -- 034. (RESERVED)

035. MINE LICENSE TAX RATE (RULE 035).
Section 47-1201, Idaho Code.

01. Tax Rate Prior to July 1, 2001. The mine license tax shall be two percent (2%) of the net value of the royalties received or the ores mined or extracted prior to July 1, 2001.

02. Tax Rate After June 30, 2001. The mine license tax shall be one percent (1%) of the net value of the royalties received or the ores mined or extracted after June 30, 2001.

03. Application of Tax Rate Change. If a taxpayer’s taxable year includes days before and after July 1, 2001, the taxpayer shall separately compute the net value of royalties received and the ores mined or extracted as if the taxable year were two (2) separate tax periods. For the period prior to July 1, 2001, the mine license tax rate of two percent (2%) shall apply. For the period after June 30, 2001, the mine license tax rate of one percent (1%) shall apply. The two (2) tax amounts shall then be added together to arrive at the total mine license tax for that taxable year.

036. -- 039. (RESERVED)

040. MINE LICENSE TAX RETURNS (RULE 040).
Section 47-1203, Idaho Code. In addition to the requirements of a valid return provided in Rule 150 of the Tax Commission Administration and Enforcement Rules, a mine license tax return shall include a schedule listing the name, address, and employer identification number or social security number, of each recipient of royalties paid by
the taxpayer filing the return. The royalties shall be separately stated for each mining operation. Each mine license tax
return shall also include a copy of the depletion expense computation applicable to Idaho mining properties that was
included in the taxpayer’s federal income tax return. (7-1-21)

041. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105, 23-1051, and 23-1323, Idaho Code, the Commission (Commission) has promulgated rules implementing the provisions of the Idaho Beer Act and the Idaho County Option Kitchen and Table Wine Act (The Acts).

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.09, “Idaho Beer and Wine Taxes Administrative Rules” are to be construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose a tax on:

a. All barrels or fractional amounts of beer sold or disposed of by a wholesaler and also used or consumed in Idaho.

b. All gallons of wine sold or disposed of by a distributor and also used or consumed in Idaho.

002. ADMINISTRATIVE APPEALS (RULE 002).
These rules only apply to the imposition and collection of beer and wine taxes. This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code, and related rules.

003. INCORPORATION BY REFERENCE (RULE 003).

01. Tax Commission Administration and Enforcement Rules. These rules incorporate the sections of IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.”

02. Declaratory Rulings. Declaratory Rulings may be made by the Commission under the provisions of Section 67-5255, Idaho Code, and Tax Commission Administration and Enforcement Rule 110.

004. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Sections 23-1001, 23-1303, Idaho Code
Definitions provided by statute, including the definitions in Sections 23-1001 and 23-1303, Idaho Code, apply to these rules. The following definitions apply for the purpose of these rules.

01. Disposition. A disposition is any decrease of beer or wine from inventory due to any sale, transfer, loss, breakage, spoilage or any other cause or means.

02. Taxpayer. A taxpayer is a person liable to report and pay the beer tax or wine tax according to the Acts and these rules.

03. Wine Direct Shipper. A wine direct shipper is a winery that has been issued wine direct shipper a permit by the Idaho State Police to ship wine directly to residents of Idaho.

011. BEER AND WINE SALES SUBJECT TO TAX (RULE 011).

01. In General. Sections 23-1008 and 23-1319, Idaho Code, imposes an excise tax on beer sales by beer wholesalers and wine sales by wine distributors for use or consumption in Idaho.

a. Every disposition of beer by a wholesaler or wine by a distributor to a retail or consumer constitutes a sale for resale or use. Beer wholesalers or wine distributors are liable for the payment of taxes on the sales. Any person making sales or dispositions of beer or wine, whether licensed or not, is liable for the taxes.

b. Wine direct shippers are liable for payment of wine tax imposed by Chapter 13, Title 23, Idaho Code, as well as the sales and use taxes imposed by Chapter 36, Title 63, Idaho Code, on all shipments of wine to Idaho.

c. Any brewer, brewery, producer, or manufacturer of beer within Idaho will be considered a beer

Section 000
Page 4765
dealer within the meaning of the definitions provided in Section 23-2001(d), Idaho Code. However, to ensure payment of tax on beer, any entity holding a brewery license will be considered a wholesaler to the extent of any disposition from the brewery for the purpose of resale or consumption in, by, or through any retail facilities including, tasting rooms on or near the brewery’s premises.

d. Any vintner, winery, producer, or manufacturer of wine within Idaho will be considered a wine importer within the meaning of the definitions provided in Section 23-1303(1)(e), Idaho Code. However, to ensure payment of tax on wine, any entity holding a winery license will be considered a distributor to the extent of any disposition from the winery for the purpose of resale or consumption in, by, or through any retail facilities including, tasting rooms on or near the winery’s premises.

e. Ales, strong beer, new beer, or any other alcoholic beverages containing more than four percent (4%) alcohol by weight are taxed at the wine tax rate.

f. Premixed cocktails with an alcoholic content of fourteen percent (14%) or less by volume are taxed at the wine tax rate.

g. Illegal Sales or Dispositions. In addition to the remedies of Sections 23-1055 and 23-1309, Idaho Code, the Commission may assess taxes against persons making illegal sales of beer or wine who otherwise would be liable for payment of taxes.

02. Supplementing Inventory. If a brewery or winery supplements inventory, adequate records are required to support any tax paid. The Commission will presume no tax is paid on beer or wine in the inventory of a brewery or winery without evidence of the payment of tax. Wineries are not supplementing their inventory when purchasing wine or grape juice from other wineries to blend and produce wine.

03. All Sales Presumed Taxable. Every sale or disposition from inventory is presumed to be a taxable sale, unless the sale or disposition is exempt from tax by the Acts or these rules.

012. EXEMPTIONS (RULE 012).

01. Burden of Proof. The burden of proving any exemption, deduction, credit, or refund allowed by the Acts and these rules is upon the person claiming it.

02. Wholesale Exports. Every resale of beer or wine by a beer wholesaler, brewery, wine distributor, or winery for the purpose of and resulting in an export of beer or wine from this state for resale outside this state is exempt from beer or wine tax.

03. Sales By Wine Direct Shippers Outside This State. When an Idaho wine direct shipper is licensed as a wine direct shipper in another state, they are licensed to sell wine to residents of the other state. Sales of wine by the Idaho wine direct shipper, using another state’s wine direct shipper license, to a resident of that state and delivered to a location in that state are exempt from Idaho wine tax.

04. Sales to Purchasers on Military Reservations. Sales to authorized purchasers on military reservations for the purpose of and resulting in sales or consumption on the reservation are exempt from beer or wine tax.

05. Sales to Idaho State Liquor Dispensary. Sales of beer or wine to the Idaho State Liquor Dispensary are exempt from beer or wine tax.

06. Dispositions From One Distributor or Wholesaler to Another. Any disposition of beer or wine by transfer or sale or any other means from one (1) distributor or wholesaler to another is exempt from beer or wine tax.

013. BREAKAGE OR SPOILAGE (RULE 013).
Sections 23-1051, 23-1319, Idaho Code
01. **Percentage Method.** When a beer or wine container is damaged, contents spoiled, or is otherwise unfit for sale, the beer wholesaler or wine distributor may claim a percentage deduction of their total inventory purchases during the reporting period when the breakage or spoilage occurred. The taxpayer may claim a deduction without prior written approval when adequate records are maintained to verify actual breakage or spoilage. The maximum percentage deductions are one-half of one percent (0.50%) for beer and three-quarters of one percent (0.75%) for wine. *(7-1-21)*

   a. The Commission may revoke the use of the percentage method for any taxpayer at any time. The Commission will notify the taxpayer in writing that future destructions of breakage or spoilage will require written approval from the Commission. *(7-1-21)*

   b. Any taxpayer who has received written notice revoking the percentage method must file the destruction request form required by the Commission. *(7-1-21)*

02. **Reporting Destruction or Spoilage.** Taxpayers will report the destruction or spoilage in the manner and form required by the Commission when claiming breakage or spoilage exceeding the maximum percentages allowed or the Commission revokes the percentage method. *(7-1-21)*

03. **Deduction for Breakage or Spoilage.** A deduction may be claimed by the taxpayer for breakage or spoilage when reporting beer or wine tax due. *(7-1-21)*

014. **FINANCIAL SECURITY (RULE 014).**

Sections 23-1049, 23-1320, Idaho Code

01. **Financial Security for Payment of Tax.** Any person required to pay tax under the Acts must have security on file with the Commission unless excused or waived by the Commission. The security is to be payable to the Commission in the form and amount acceptable to the Commission. The security is conditioned upon payment of all taxes imposed on beer or wine by this state for which the person is liable, including any penalty and interest. *(7-1-21)*

02. **Types of Security.** A person required to provide security must use the forms of security allowed by Tax Commission Administration and Enforcement Rule 600. *(7-1-21)*

03. **Security for a New Taxpayer.** When a new taxpayer applies for a tax account the security required is one thousand dollars ($1,000) unless one of the following conditions applies:

   a. If a beer or wine tax reporting history is available from a previous ownership, the security required may be based on the most recent twelve (12) month filing history of the prior ownership. *(7-1-21)*

   b. If an out-of-state wine direct shipper is applying for an initial account, they may request a bond waiver. *(7-1-21)*

   c. If the taxpayer can establish a lesser amount should apply based on the average monthly amount payable according to Section 23-1049, Idaho Code. *(7-1-21)*

04. **Petition to Waive Security Requirement.** The taxpayer must petition the Commission for waiver of the security requirement.

   a. The Commission may release a taxpayer from the security requirement if the taxpayer has filed all required tax returns including supplemental schedules and paid the tax due on time for the preceding twenty-four (24) months. *(7-1-21)*

   b. When the taxpayer petitions the Commission, the taxpayer’s account will be examined within sixty (60) days, if necessary. The Commission will notify the taxpayer of its decision within ninety (90) days from the date the taxpayer’s petition was received. The notification will include the Commission’s decision and reasons for the decision. *(7-1-21)*
c. If at any time after the release of a security requirement the taxpayer is late filing returns or paying tax, the Commission may immediately revoke the waiver and demand the taxpayer post security. (7-1-21)

d. If a petition for release of security is denied or a demand for posting of security is made, the Commission will notify the taxpayer by certified mail. The notice will include the reasons for the Commission’s decision. The taxpayer has thirty (30) days from the date of the notice to request, in writing, a redetermination of the Commission’s decision. (7-1-21)

e. Not posting security upon demand is a violation of these rules and may be immediately reported to the Director of the Idaho State Police, along with a request to suspend or revoke the taxpayer’s license or permit. (7-1-21)

015. BEER OR WINE TAX ACCOUNTS (RULE 015).
Sections 23-1051, 23-1323, Idaho Code

01. Tax Accounts. Before engaging in business, taxpayers need to have a beer tax or wine tax account from the Commission to report and pay tax. As evidence of the tax account, a tax permit is issued. The terms tax account and tax permit are used interchangeably in this section. No fee is required for a tax account. (7-1-21)

02. Tax Accounts Are Non-transferable. Where there is a change of ownership, it is the responsibility of the tax account holder to cancel the tax account by giving written notice to the Commission. (7-1-21)

a. Notice requirements include the date of closure or last date of operation, date of sale or lease, and the name of the new owner or lessee. (7-1-21)

b. If the new owner or lessee uses the previous owner’s tax account, the registered tax holder may be responsible for all tax, penalty, and interest incurred during that time period. (7-1-21)

03. Tax Account Cancellation. The Commission may cancel an inactive tax account. A tax account is considered inactive when returns are filed with no reportable beer or wine activity for twelve (12) consecutive months. The Commission will provide notice of cancellation to the last known address of the tax account holder. (7-1-21)

016. BEER OR WINE TAX RETURNS (RULE 016).

01. Reporting Periods. Returns are due on or before the 15th day of the month following the end of the reporting period, or the next business day when the due date is a Saturday, Sunday, or legal holiday. All returns must be filed monthly unless the Commission approves an alternate reporting period. (7-1-21)

a. Request to File Quarterly or Semiannually. Taxpayers owing six hundred dollars ($600) or less per quarter with a timely filing and payment history may request a quarterly or semiannual reporting period. (7-1-21)

b. Request to File Annually. Wine direct shippers, taxpayers with seasonal activities, and other taxpayers with minimal activity may request an annual reporting period. (7-1-21)

c. Final Return. A taxpayer will mark cancel on the last return filed. Tax, penalty, and interest will apply if the taxpayer continues business activity after filing a final, return and canceling the tax account. (7-1-21)

02. Prescribed Forms. All sales or other dispositions of beer or wine in Idaho must be reported on forms provided or approved by the Commission. (7-1-21)

03. Inventory Reporting. Taxpayers are to report all additions to and sales or dispositions out of inventory, whether taxable or tax exempt, using inventory reporting methods and forms provided or approved by the Commission. (7-1-21)
04. Requirements of a Valid Return. A valid return includes the tax return, all supplemental
schedules, and worksheets with information to compute the tax liability. The return must meet the requirements of
these rules and the information must be legible. (7-1-21)

017. (RESERVED)

018. PENALTY AND INTEREST (RULE 018).
If a taxpayer files returns or pays taxes late, penalty and interest apply. Penalty is authorized by Section 63-3046,
Idaho Code. Interest is authorized by Section 63-3045, Idaho Code. (7-1-21)

019. RECORDS REQUIRED (RULE 019).
Sections, 23-1006, 23-1051, 23-1314, 23-1323, Idaho Code

01. In General. Every person liable for the payment of taxes on beer or wine must keep and preserve
the following records: (7-1-21)

a. A daily record of all cash and credit sales including invoices, receipts, journals, and other related
   records. (7-1-21)

b. A record of the amount of all merchandise purchased, including all bills of lading, invoices, sales
   receipts, bank statements, canceled checks, and copies of purchase orders arranged in numerical and chronological
   order. (7-1-21)

c. Supporting documents for all deductions and exemptions allowed by law or claimed on a tax return. (7-1-21)

d. True and complete physical counts of the beer and wine inventory taken at the end of each reporting
   period. (7-1-21)

e. True and complete records of breakage and spoilage claimed as a deduction from inventory. (7-1-21)

f. Any records used to complete a return, including but not limited to those listed above, are to be kept
   in numerical and chronological order so they can be balanced with the corresponding return. (7-1-21)

02. Record Retention. These records are to be kept for a minimum of four (4) years If a taxpayer
appeals an assessment, all records are to be kept until final disposition of the appeal. (7-1-21)

03. Location and Condition of Records. All records and files are to be kept clean, legible, and free
from deterioration on the premises of the business. (7-1-21)

020. -- 999. (RESERVED)
35.01.10 – IDAHO CIGARETTE AND TOBACCO PRODUCTS TAXES ADMINISTRATIVE RULES

000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105, 63-2501, and 63-2553, Idaho Code, the State Tax Commission (Commission) has promulgated rules implementing the provisions of the Idaho Cigarette and Tobacco Products Taxes Acts.

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.10, “Idaho Cigarette and Tobacco Products Taxes Administrative Rules.” These rules are construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose a tax on all cigarettes and tobacco products sold, used, consumed, handled or distributed within this state.

002. ADMINISTRATIVE APPEALS (RULE 002).
Sections 63-2516, 63-2563, Idaho Code
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code, and related rules.

003. INCORPORATION BY REFERENCE (RULE 003).
Sections 63-2516, 63-2563, Idaho Code
These rules incorporate the sections of IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.”

004. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Sections 63-2502, 63-2528, 63-2551, Idaho Code
Definitions provided by statute, including the definitions in Sections 63-2502, 632528, and 63-2551, Idaho Code, apply to these rules. Additionally, the following definitions apply for the purposes of these rules.

01. Distributor. The term distributor, as defined by Section 63-2551, Idaho Code, includes persons who receive tobacco within this state for purposes of blending and/or repackaging.

02. Manufacturer. The term manufacturer means a person who manufactures and sells cigarettes. The term manufacturer, as defined by Section 63-2551, Idaho Code, does not include persons who receive tobacco within this state for purposes of blending and/or repackaging.

03. Person. The term “person” includes any individual, firm, partnership, LLC, venture, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, trustee, syndicate, cooperative, assignee, or any other group or combination acting as a unit.

011. DISTRIBUTION OF FREE OR BELOW COST TOBACCO PRODUCTS (RULE 011).

01. Distribution of Free or Below Cost Tobacco Products. The distribution of tobacco products for free or below the cost of such products to the sellers or distributors of the products is prohibited by Section 39-5707, Idaho Code. If a free package is given away in a sales promotion that requires the purchaser to buy a specified number of packages, such as buy two (2) get one (1) free, all the packages must bear an Idaho tax stamp.

012. PERMITS (RULE 012).
Section 63-2503, Idaho Code
Every wholesaler of cigarettes is required to obtain a cigarette wholesaler’s permit from the Commission and post a bond as required by Rule 017 of these rules before engaging in business. The wholesaler must apply for the permit on the form prescribed by the Commission, accompanied by a fee of fifty dollars ($50). Application forms may be obtained by contacting the Commission. The permit holder will at all times conspicuously display the permit at his place of business.

01. Permit Is Non-Assignable. A cigarette wholesaler’s permit is non-assignable. Upon any change of ownership, it is the responsibility of the permit holder to immediately give written notification to the Commission.

a. The notice will set forth the date of closure, date of sale, or date of lease of the business. If a sale or lease, the notice must state the last day of operation and the name of the new owner or lessee. The permit holder must return the permit or send a written statement that the permit has been destroyed.
b. If this information is not furnished to the Commission and the new owner or lessee continues operation of the business on the previous owner’s cigarette wholesaler’s permit without filing for and obtaining a new permit, the original permit holder may be held responsible for all tax liability incurred during the period that the new owner or lessee operated the business under the previous owner’s permit. (7-1-21)

02. Seller's Permit. Every retailer of cigarettes must obtain an Idaho seller’s permit from the Commission before engaging in business as required by Section 63-3620, Idaho Code. When a wholesaler sells stamped cigarettes to a retailer of cigarettes, he must obtain from the retailer a Sales Tax Resale or Exemption Certificate, Form ST-101. (7-1-21)

013. SHIPMENTS IN INTERSTATE COMMERCE (RULE 013).
Section 63-2505, Idaho Code
Sales of cigarettes in the course of interstate commerce for purposes of Section 63-2505, Idaho Code, include only those sales where title is transferred outside the state of Idaho, or on U.S. military reservations, or on Indian reservations. (7-1-21)

01. Types of Conveyances. Shipments of cigarettes to U.S. military reservations or Indian reservations must be made by conveyance used in the normal operation of the wholesaler’s business, or by common carrier hired by the wholesaler. (7-1-21)

a. In the case of shipment by common carrier, a copy of the bill of lading must be kept on file at the wholesaler’s place of business for three (3) years. (7-1-21)

b. In the case of shipments by the wholesaler’s conveyance, an itemized receipt must be obtained by the wholesaler bearing the signature of the receiver’s representative and the wholesaler’s employee making such delivery. Receipts must be serially numbered. (7-1-21)

02. Records of Unstamped Deliveries. In addition, all deliveries made outside the state and all deliveries made to U.S. military reservations or Indian reservations, and which are delivered without state tax stamps of another state must be listed in a chronological log by delivery date and customer. The log must contain the following information: delivery date, number of cigarettes delivered, and an itemized receipt number, as described in Subsection 013.01.b. of this rule. (7-1-21)

014. SHIPMENTS DELIVERED ON INDIAN RESERVATIONS (RULE 014).

01. Shipments Without Idaho Stamps. Cigarette wholesalers may deliver cigarettes which do not have Idaho stamps affixed to Idaho Indian reservations when:

a. The purchaser is an enrolled member of an Idaho Indian tribe. (7-1-21)

b. The purchaser is a business enterprise wholly owned and operated by an enrolled member or members of an Idaho Indian tribe. (7-1-21)

c. The purchaser is a business enterprise wholly owned and operated by an Idaho Indian tribe. (7-1-21)

02. Reservation Means Lands Which Are:

a. Indian lands federally declared to be reservations because they are reserved for Indian tribes by treaty between Indian tribes and any territorial governments, state government, or the United States Government; established by acts of the United States Congress; or established by formal decision of the Executive Branch of the United States. (7-1-21)

b. Held by an Idaho Indian tribe not holding lands which meet the definition of Subsection 014.02.a., above, and are tribal lands held in trust by the United States for the use and benefit of such tribe. (7-1-21)

03. Sales of Cigarettes to Non-Indians Within Reservation Boundaries. Sales of cigarettes by
wholesalers to non-Indian enterprises or persons located within the boundaries of an Idaho Indian reservation must have Idaho cigarette stamps affixed.

04. Non-Indian Retailers. Non-Indian retailers located within the boundaries of an Idaho Indian reservation may not sell cigarettes upon which Idaho cigarette stamps have not been affixed.

015. STAMPS-SOURCE, AMOUNT, AND LIMITATIONS (RULE 015).
Sections 63-2510, 63-2510A, Idaho Code

01. Obtaining Stamps. Cigarette stamps may only be obtained from the Boise office of the Commission.

02. Unused Stamp Inventory. Wholesalers may not hold an inventory of unused Idaho cigarette stamps, the face value of which exceeds the amount of their bond. Where no bond is required, wholesalers may not hold an inventory of unused Idaho cigarette stamps, the face value of which exceeds two (2) times the wholesaler’s average monthly tax liability.

03. Filing and Paying Timely. Failure to file a cigarette tax return or pay the tax on a timely basis will result in no additional stamps being issued by the Commission to a wholesaler until clear and convincing evidence is received by the Commission that the return has been filed or the tax has been paid.

04. Physical Security. Wholesalers are responsible for the face value of all stamps received from the Commission. Wholesalers must provide physical security for the stamps in their possession.

016. WHOLESALER'S CREDIT CLAIMS FOR UNMARKETABLE STAMPS (RULE 016).

01. Destroyed Stamps. On and after July 1, 1989, stamps destroyed by the manufacturer as a result of the return of stale or otherwise unmarketable cigarettes may be redeemed by the wholesaler for credit against future tax due if:

a. The manufacturer provides an affidavit to the Commission indicating that said stamped cigarettes were received from an Idaho licensed wholesaler and detailing the number and package type received.

b. The wholesaler provides to the Commission a returned goods receipt obtained from the manufacturer’s representative verifying the number of packages, the package type, and the date the cigarettes were returned and a bill of lading traceable to the returned goods receipt. The credit must be claimed on the wholesaler’s cigarette tax return and all required documentation must be attached.

02. Stale and Unmarketable Cigarettes. When stamps are to be destroyed by a wholesaler as a result of stale or otherwise unmarketable cigarettes that cannot be returned to the manufacturer, a credit will be allowed against future tax only if:

a. The wholesaler notifies the Commission in writing at least ten (10) working days prior to destruction. The notice must include a complete description of the number of packages, the package type, and the time and manner the cigarettes and stamps will be destroyed.

b. The Commission reserves the right to observe the destruction of all cigarette stamps and further reserves the right to delay the destruction until such time as a mutual appointment can be arranged for witnessing such destruction.

03. Unused, Unfit or Damaged Stamps. Stamps that are unused, unfit, or damaged may be returned to the Commission by the wholesaler for credit.

04. Manufacturers Removed From Directory. It is unlawful for a wholesaler to affix stamps to a package of cigarettes manufactured by a manufacturer or belonging to a brand family not included in the directory of certified manufacturers and brands published by the Idaho Attorney General. See Section 39-8403, Idaho Code. It is possible for a wholesaler to affix stamps to cigarettes manufactured by a manufacturer that is later removed from the directory.
The cigarettes would then become unmarketable. In such a case a wholesaler may apply for a credit by following the procedures described in Subsection 016.02 of this rule. No credit will be allowed if the cigarettes are purchased after the manufacturer or brand family has been removed from the directory.

05. Credits and Refund. All credits and refunds of cigarette tax will be reduced by the amount of the compensation provided for by Section 63-2509, Idaho Code.

017. SECURITY FOR TAX REQUIRED (RULE 017).

Sections 63-2510A, Idaho Code

01. Security for Payment of Taxes. Every wholesaler liable for payment of cigarette taxes provided by Chapter 25, Title 63, Idaho Code, will always have in effect and on file with the Commission security for payment of the excise tax. The security will be in the form and amount acceptable to the Commission, will be payable to the Commission, and will be conditioned upon remittance of taxes imposed on cigarettes by this state for which such wholesaler will be liable, including any penalty and interest.

a. The amount of the security will be the greater of two (2) times the amount of the tax due on an average monthly cigarette tax return, using the previous twelve (12) month period as a base or the value of stamps in the wholesaler’s inventory including the value of stamps ordered but not yet received.

b. If a wholesaler wishes to hold an inventory of unused Idaho cigarette stamps in excess of the limitations set by Rule 015 of these rules, the wholesaler must increase the amount of the security on file with the Commission accordingly, or pay a deposit to the Commission for future taxes due which exceed the limitations.

c. Example: A wholesaler has an average monthly tax liability of two thousand dollars ($2,000). The wholesaler is required by the Commission to post a security in the amount of four thousand dollars ($4,000). The wholesaler wishes to hold an unused Idaho cigarette stamp inventory of ten thousand eight hundred dollars ($10,800). The wholesaler must increase the amount of the security on file with the Commission by six thousand eight hundred dollars ($6,800), or pay a deposit of six thousand eight hundred dollars ($6,800) to be applied to future tax due to the Commission.

02. Reviewing Security on File. The Commission will review the amount of security on file periodically, but no less than annually, and may increase or decrease the amount of the required security in accordance with the increase or decrease of the wholesaler’s average monthly tax liability.

03. New Wholesaler Application. When a new wholesaler applies for a cigarette wholesaler’s permit, as provided by Section 63-2503, Idaho Code, the security required will be determined as follows:

a. If a cigarette tax reporting history is available from a previous ownership of the business, the new wholesaler will furnish security based on the most recent twelve (12) month history of the prior ownership.

b. If there is no cigarette tax reporting history available from a previous ownership of the business, the new wholesaler will furnish security in the amount of an estimated two (2) month tax liability of the new business, or the value of stamps in the wholesaler’s inventory including the value of stamps ordered but not yet received, whichever is greater. The estimate will be prepared by the new wholesaler and will be subject to review and approval by the Commission.

04. Types of Security. A person required to provide security must use the forms of security allowed by Tax Commission Administration and Enforcement Rule 600.

05. Taxpayer Petition for Release from Security Requirements. A security will be required in all instances unless the Commission, upon petition by the taxpayer, determines that a security is not required.

a. The following conditions must be met before the Commission will release a taxpayer from the posting of a security: The taxpayer has filed all cigarette tax returns including supplemental schedules on a timely basis for a period of not less than twelve (12) months, and the taxpayer has paid all cigarette tax due on a timely basis.
for a period of not less than twelve (12) months.

b. Upon written petition from the taxpayer, the Commission will review the filing record of the taxpayer and, if determined necessary, examine his books and records within sixty (60) days. The Commission will advise the taxpayer of its determination no later than ninety (90) days from the date of receipt of the taxpayer’s petition.

c. If a petition for release of security is denied, notice will be mailed to the taxpayer by certified mail. The notice will include the reasons for the Commission’s determination. If the taxpayer wishes to seek a redetermination of the decision, he must file a petition for redetermination in the manner set forth in Section 63-3045, Idaho Code. The petition for redetermination must be filed no later than thirty (30) days from the date on which the notice of determination is mailed to or served upon the claimant.

06. **Failure to File Timely After Release from Security.** If a taxpayer has been released from security requirements and fails to file a cigarette tax return or fails to pay the cigarette tax due by the due date specified in Chapter 25, Title 63, Idaho Code, the Commission may immediately make demand for the tax return or payment, and demand that a security be posted.

a. The demand will be in writing and will be personally served on the taxpayer or mailed to him by certified mail.

b. If the taxpayer wishes to petition for redetermination of the demand, he must do so in writing within ten (10) days of the date upon which the demand is mailed to or served on him.

c. Failure to file a petition for redetermination will cause the demand to become final and a jeopardy assessment will be issued. Immediate collection actions will be taken which may include seizing all Idaho cigarette stamps held by the taxpayer, filing liens of record, seizing all cigarettes held in the inventory of the taxpayer, revoking the taxpayer’s cigarette permit, or notifying the manufacturers of the cigarettes held in the taxpayer’s inventory of all actions taken.

018. **CIGARETTE TAX RETURN (RULE 018).**

Section 63-2510, Idaho Code

01. **Cigarette Tax Return.** All cigarette wholesalers required to affix Idaho stamps to cigarettes, or who make sales to U.S. military or Indians on reservations, or who have a stamping warehouse or business located within this state and sell cigarettes in interstate commerce are required to file an Idaho cigarette tax return. (7-1-21)

02. **Filing Returns.** The return will be in a form prescribed by the Commission and will be filed on a monthly basis. (7-1-21)

03. **Due Date.** The return will be filed by the wholesaler on or before the twentieth day of the month immediately following the month to which the return applies. If the twentieth day falls on a Saturday, Sunday, or legal holiday, the return will be due on the next following day which is not a Saturday, Sunday, or legal holiday. The return must account for and tax must be paid on all cigarette stamps affixed during the month to which the return applies. (7-1-21)

04. **Requirements of a Valid Return.** A tax return or other documents required to be filed in accordance with Section 63-2510, Idaho Code, and this rule must meet the conditions prescribed below. Those which fail to meet these requirements are invalid. They may be rejected and returned to the taxpayer to be redone in accordance with these requirements and refilled. A taxpayer who does not file a valid return will be considered to have filed no return. A taxpayer’s failure to properly file in a timely manner may cause certain penalties to be imposed by Sections 63-3030A, 63-3046, and 63-3075, Idaho Code, and rules thereunder.

a. All cigarette tax return forms must be completed and copies of all pertinent supporting schedules or computations must be attached. The results of supporting computations must be carried forward to applicable lines on the cigarette tax return form. (7-1-21)
b. All cigarette tax returns or other documents filed by the taxpayer must include his cigarette wholesaler’s permit number and Federal Taxpayer Identification Number in the space provided. (7-1-21)

c. A cigarette return that does not provide sufficient information to compute a tax liability does not constitute a valid cigarette tax return. (7-1-21)

d. Perfect accuracy is not a requirement of a valid return, even though each of the following conditions is required: it must be on the proper form, as prescribed by the Commission; it must contain a computation of the tax liability and sufficient supporting information to demonstrate how that result was reached; and it must show an honest and genuine effort to satisfy the requirement of the law. (7-1-21)

05. Failure to File a Return. Any wholesaler required to file a return who fails to file such return will be in violation of this regulation and will be required to appear before the Commission to show cause as to why his permit should not be revoked. See Section 63-2503, Idaho Code. (7-1-21)

06. Implementation of Tobacco Master Settlement Agreement. Chapter 78, Title 39, Idaho Code, enacted as part of the settlement agreement with several cigarette manufacturers requires nonparticipating manufacturers to place certain funds in escrow accounts. The Commission is required to ascertain the amount of state excise tax paid on cigarettes manufactured by manufacturers that are not participating in the Master Settlement Agreement. Therefore, as part of the cigarette tax return, cigarette wholesalers must report separately the number of Idaho cigarette stamps affixed to products manufactured by manufacturers that are not participating in the Master Settlement Agreement. (7-1-21)

07. Wholesale Sales of Stamped Cigarettes. Every wholesaler who imports unstamped cigarettes into this state must file a return, however, a cigarette wholesaler who buys only stamped cigarettes for resale is not required to file a return. (7-1-21)

019. TOBACCO MANUFACTURERS AND DISTRIBUTORS (RULE 019).

01. Shipments to Retailers/Distributors. In the case where a person who is not a registered Idaho tobacco dealer ships tobacco products to a person who is both a retailer, as defined in Section 63-2551(5), Idaho Code, and a distributor, as defined in Section 63-2551(3)(b), Idaho Code, and Rule 010 of these rules, the shipper will be considered a manufacturer for purposes of all shipments of products intended for blending and/or repackaging and the receiver will be primarily liable for the tax. In the case where shipments are made to a person who is both a retailer and a distributor and products are prepackaged for retail sale, the shipper will be considered a distributor, Section 63-2551(3)(c), Idaho Code, and held primarily liable for the tax. (7-1-21)

02. Nontaxed Tobacco Purchases from Outside the State. Any person purchasing tobacco products from without this state and making any type of sale, as defined in Section 63-2551(6), Idaho Code, will be deemed to be the distributor and held liable for the unpaid tax on said tobacco products not otherwise taxed. (7-1-21)

03. Determining Wholesale Sales Price. Any time a distributor makes a purchase of tobacco products from a manufacturer or any person upon which the tax has not been paid, and the documents pertaining to that purchase do not clearly indicate the wholesale sales price, as defined by Section 63-2551(7), Idaho Code, wholesale sales price will be determined to be the purchase price of that product, or the wholesale sales price of that same or a like product in the course of normal commerce whichever is greater. It is the responsibility of the distributor to provide the accuracy of the wholesale sales price of any product it may be held liable for. (7-1-21)

a. Separately Stated Nontaxable Charges. Separately stated nontaxable charges for shipping, handling, transportation, and delivery may not be used to avoid tax on the wholesale sales price of tobacco products. If the allocation of the wholesale sales price is unreasonable, the Idaho Commission may adjust it. (7-1-21)

b. An out-of-state distributor with nexus in the state of Idaho must use the same method in determining “wholesale sales price” as other distributors that distribute tobacco products in Idaho. If an out-of-state distributor without nexus in Idaho applies for and receives a tobacco tax permit voluntarily, that distributor must also use the same method in determining “wholesale sales price” as other distributors that distribute tobacco products in Idaho. (7-1-21)
i. Example 1. An out-of-state tobacco manufacturer manufactures tobacco and acts as its own distributor. The manufacturer distributes its products to Idaho distributors, retailers, and end users. In this case, the manufacturer is acting as both manufacturer and distributor. The wholesale sales price will be the price at which it sells to the Idaho distributor, retailer or end user.

ii. Example 2: An out-of-state importer (Company X) purchases tobacco products. Company X sells its product to its sister company (Company Y) which then acts as the distributor. The dollar amount for which Company X sells its product to Company Y is not disclosed. Company Y then ships the product into Idaho to Idaho distributors and retailers. In this case, the purchase price from the manufacturer to Company X is unknown. Additionally, there are no records provided to show the sales price between Company X and Company Y. There are records showing the price between Company Y and the Idaho distributors and retailers. Under this subsection, where the wholesale sales price is unknown, the wholesale sales price will be the greater of the purchase price of that product or the wholesale sales price of that same or a like product in the course of normal commerce. The “purchase price of the product” is the price the Idaho distributor or retailer actually paid Company Y to purchase the product. The wholesale sales price of the same or similar product in the normal course of commerce could be interpreted as the price a manufacturer would sell the same or similar product to a distributor.

iii. Example 3: An out-of-state distributor buys tobacco products from a manufacturer that is not a related party as defined in IRC Section 267. The distributor ships its products to Idaho distributors and retailers. If the wholesale sales price (the price paid by the distributor to the manufacturer for the product) is known, then that is the wholesale sales price. If the distributor does not know the wholesale sales price paid to the manufacturer, then this subsection requires the wholesale sales price to be the price paid by the Idaho distributors and retailers for the product OR the wholesale sales price of the same or similar products, whichever is greater.

020. TOBACCO TAX RETURN (RULE 020).

01. Tobacco Tax Return. All tobacco distributors who make wholesale purchases are required to file a tobacco products tax return.

02. Timing of Filing Return. The return will be in a form prescribed by the Commission and will be filed on a monthly basis.

03. Due Date of Return. The return will be filed by the distributor on or before the twentieth (20th) day of the month immediately following the month to which the return applies. If the twentieth (20th) day falls on a Saturday, Sunday, or legal holiday, the return will be due on the next following day which is not a Saturday, Sunday, or a legal holiday.

04. Requirements of a Valid Return. A tax return or other document required to be filed in accordance with Section 63-2552, Idaho Code, and these rules must meet the conditions prescribed below. Those which fail to meet these requirements are invalid. They may be rejected and returned to the taxpayer to be redone in accordance with these requirements and refilled. A taxpayer who does not file a valid return will be considered to have filed no return. A taxpayer’s failure to properly file in a timely manner may cause certain penalties to be imposed by Section 63-3046 and 63-3075, Idaho Code, and related rules.

a. The tobacco products tax return form must be completed and copies of all pertinent supporting documentation must be attached. The results of supporting documentation must be carried forward to applicable lines on the tobacco products return form.

b. All tobacco products tax returns or other documents filed by the taxpayer must include his tobacco products tax permit number and Federal Taxpayer Identification Number in the space provided.

c. A tobacco products tax return that does not provide sufficient information to compute a tax liability does not constitute a valid return.

d. Perfect accuracy is not a requirement of a valid return, even though each of the following conditions is required it must be on the proper form, as prescribed by the Commission; it must contain a computation.
of the tax liability and sufficient supporting information to demonstrate how that result was reached; and it must show an honest and genuine effort to satisfy the requirement of the law. (7-1-21)T

021. SALES TO OTHER IDAHO DISTRIBUTORS (RULE 021).

01. Sales for Eventual Resale. When a registered Idaho tobacco products distributor sells tobacco products other than cigarettes to other tobacco products distributors located within this state the duty to pay the tax is on the distributor who first causes the tobacco products to be shipped to Idaho. (7-1-21)T

02. First Receiver. The first receiver, the tobacco products distributor who first causes the tobacco products to be shipped to Idaho will report the tax on his tobacco products tax return for the month in which the sales occur. The sales invoice to the second receiver must clearly indicate that the first receiver has paid the tax. (7-1-21)T

03. Subsequent Receiver. Any subsequent receiver will not be required to pay the tax as long as he maintains records showing that the first receiver has paid the tax. (7-1-21)T

022. EXEMPTIONS (RULE 022).

01. Credit for Taxes Paid. Tobacco distributors may claim a credit for taxes paid on tobacco products other than cigarettes that are:

a. Sold and delivered to retailers or distributors at locations outside the state of Idaho; (7-1-21)T

b. Sold and delivered to the United States Government on U.S. Military reservations located within Idaho; (7-1-21)T

c. Sold and delivered to a purchaser within the boundaries of an Idaho Indian reservation when the purchaser is an enrolled member of an Idaho Indian tribe; a business enterprise wholly owned and operated by an enrolled member or members of an Idaho Indian tribe; or a business enterprise wholly owned and operated by an Idaho Indian tribe. (7-1-21)T

02. Documentation. Distributors must maintain adequate records to show the validity of credits claimed under this subsection, including delivery records and invoices. If the distributor is selling to an enrolled member of an Indian tribe he should keep a copy of the purchaser’s tribal identification card in his files. If he is selling to a tribally owned entity, he should keep a certificate of tribal ownership or some other form of clear and convincing evidence that the purchaser is a business wholly owned and operated by an Idaho Indian tribe. (7-1-21)T

03. Indian Reservations. Indian reservation means lands which are:

a. Indian lands federally declared to be reservations because they are reserved for Indian tribes by treaty between Indian tribes and any territorial governments, state government, or the United States Government; established by acts of the United States Congress; established by formal decision of the Executive Branch of the United States; or (7-1-21)T

b. Held by an Idaho Indian tribe not holding lands which meet the definition of Subsection 022.03.a., above, and are tribal lands held in trust by the United States for the use and benefit of such tribe. (7-1-21)T

04. Non-Indian Enterprises. Tobacco distributors may not claim a credit for taxes paid on tobacco products sold to non-Indian enterprises or persons located within the boundaries of an Idaho Indian reservation. (7-1-21)T

05. Non-Indian Retailers. Non-Indian retailers located within the boundaries of an Idaho Indian reservation may not sell tobacco products upon which tobacco products tax has not been paid. (7-1-21)T

023. CREDIT FOR RETURNED TOBACCO PRODUCTS (RULE 023).

01. Credit Allowed. When tobacco products have been returned to the manufacturer, credit will be
allowed against future tax only if:

a. The distributor has an itemized credit memorandum or credit invoice from the manufacturer; and

b. The distributor has a bill of lading or manufacturer’s credit receipt which can be traced to the credit memorandum and which verifies the amount shipped to the manufacturer.

02. Notice of Returned Tobacco Products. The Commission reserves the right to require the distributor to notify the Commission in writing at least five (5) working days prior to shipment of any tobacco products returned to the manufacturer. If required, the notice must include a complete description of the item returned, the quantity to be returned, and the wholesale sales price of the item, and the date items will be shipped.

03. Verifying Shipments. The Commission reserves the right to verify the shipment of all tobacco products returned to the manufacturer and further reserves the right to delay the shipment until such time as a mutual appointment can be arranged for verifying such shipment.

024. CREDIT FOR DESTRUCTION OF TOBACCO PRODUCTS (RULE 024).

01. Destroyed Tobacco. When tobacco products are to be destroyed by a distributor, credit will be allowed against future tax only if:

a. The distributor notifies the Commission in writing at least ten (10) working days prior to destruction. The notice must include a complete description of the items to be destroyed, the quantity of each item, the wholesale sales price of each item and the time and manner the items will be destroyed; and

b. The distributor has a verifiable credit memorandum from the manufacturer.

02. Observing Destruction. The Commission reserves the right to observe the destruction of all tobacco products and further reserves the right to delay the destruction until such time as a mutual appointment can be arranged for witnessing such destruction.

025. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 000).
Section 63-3039, Idaho Code.

02. Related Taxes. This chapter contains rules relating to provisions of the Idaho Income Tax Act, Title 63, Chapter 30, Idaho Code, that are incorporated by reference into statutes relating to other taxes. These include:

a. Sales and Use Taxes, Title 63, Chapter 36, Idaho Code;

b. Motor Fuels Taxes, Title 63, Chapter 24, Idaho Code;

c. Petroleum Transfer Fee, Title 41, Chapter 49, Idaho Code;

d. Estate Taxes, Title 14, Chapter 4, Idaho Code;

e. Cigarette and Tobacco Products Taxes, Title 63, Chapter 25, Idaho Code;

f. Beer Taxes, Title 23, Chapter 10, Idaho Code;

g. Wine Taxes, Title 23, Chapter 13, Idaho Code;

h. Illegal Drug Taxes, Title 63, Chapter 42, Idaho Code;

i. Mine License Taxes, Title 47, Chapter 12, Idaho Code;

j. Kilowatt Hour Taxes, Title 63, Chapter 27, Idaho Code;

k. The Uniform Unclaimed Property Act, Title 14, Chapter 5, Idaho Code; and

l. Oil and Gas Taxes, Title 47, Chapter 3, Idaho Code.

001. TITLE AND SCOPE (RULE 001).
Section 63-3039, Idaho Code.

01. Title. These rules are titled IDAPA 35.02.01.000, et seq., Idaho State Tax Commission Rules IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.”

02. Effective Date. To the extent allowed by statute, rules in this chapter are applied on their effective date to all taxable years open for determining tax liability.

03. Closed Years or Issues. Taxable years closed by the statute of limitations remain closed and are not reopened by the promulgation, repeal or amendment of any rule. Issues resolved by the expiration of appeal time, a notice of deficiency determination, or a final decision of the Tax Commission will not be reopened by the promulgation, repeal, or amendment of any rule.

04. Transactions Before an Effective Date. A rule will not be applied to transactions occurring before its effective date in a case where, in the opinion of the Tax Commission, to do so would create an obvious injustice.

002. ADMINISTRATIVE APPEALS (RULE 002).
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code.

003. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Section 63-3003, Idaho Code.
01. Date of Filing or Payment. (7-1-21)

   a. When returns or other documents or payments are delivered to the Tax Commission by United States mail, the date of filing or payment means the date shown by the post office cancellation mark. If a cancellation mark is omitted, illegible or erroneous, the document will be deemed filed on the date the taxpayer establishes by competent evidence that the material was deposited with the United States Postal Service. A postage meter cancellation shall not be deemed a post office cancellation mark. Refer to Section 63-217, Idaho Code. (7-1-21)

   b. When returns or other documents or payments are delivered to the Tax Commission by a private delivery service designated as qualifying under Section 7502, Internal Revenue Code, the date of filing or payment means the date treated as the postmark date for purposes of Section 7502, Internal Revenue Code, as provided by the special rules in Notice 97-26, 1997-1 C.B. 413 and subsequent Notices. (7-1-21)

   c. Materials not mailed with the United States Postal Service or a private delivery service designated as qualifying under Section 7502, Internal Revenue Code, are filed when physically received by the Tax Commission. (7-1-21)

   d. Returns or other documents or payments transmitted electronically are deemed received or paid on the date provided in Section 63-115, Idaho Code. (7-1-21)

02. Pay, Paid, Payable or Payment. When used in reference to an amount of tax, penalty, interest, fee or other amount of money due to the Tax Commission, the words pay, paid, payable, or payment mean an irrevocable tender to the Tax Commission of lawful money of the United States. (7-1-21)

   a. As used herein, lawful money of the United States means; (7-1-21)

      i. Currency or coin of the United States at face value; and (7-1-21)

      ii. Negotiable checks drawn on a United States bank or other financial institution that are payable in full in money of the United States. (7-1-21)

   b. The words pay, paid, payable, or payment do not include: (7-1-21)

      i. Submission to the Tax Commission of a check or draft that is subsequently dishonored by the institution on which it is drawn. (7-1-21)

      ii. Submission to the Tax Commission of a check or draft drawn on a foreign bank or other financial institution in regard to which any processing fees may be incurred by the state of Idaho. (7-1-21)

03. Return or Tax Return. Return and tax return mean a form or other document that an individual, corporation or other legal entity reports information, including information necessary to calculate taxes due to the Tax Commission or another governmental agency that requires a return be filed. See Rule 150 of these rules for the requirements of a valid tax return. (7-1-21)

011. -- 109. (RESERVED)

   01. Findings Pursuant to Section 67-5206, Idaho Code. (7-1-21)

      a. The Tax Commission finds that the Attorney General’s Administrative Rules on declaratory rulings found at IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Sections 400 through 402 do not adequately address the needs of taxpayers seeking a declaratory ruling on applications of the tax law. The
Attorney General’s Administrative Rules do not:

i. Protect taxpayer confidentiality; (7-1-21)

ii. Define the taxpayer’s right to rely on the ruling; or (7-1-21)

iii. Identify the circumstances justifying the denial or withdrawal of a ruling. (7-1-21)

b. Accordingly, this rule will govern declaratory rulings issued by the Tax Commission. (7-1-21)

02. Filing a Petition.

a. Any person, group, or other association may file a written petition with the Tax Commission asking for an interpretation or determination as to the applicability of a statute, rule, or order issued by the Tax Commission to the party filing the petition. To obtain the determination the petitioner’s tax liability must be directly affected by the determination or the petitioner must demonstrate a direct financial interest in the determination sought. (7-1-21)

b. A petition must be submitted to the Tax Commission in writing and contain an express statement that it is intended to be a petition for a declaratory ruling pursuant to this rule or the Administrative Procedure Act. (7-1-21)

03. Tax Commission’s Response to Petition. After receiving a petition, the Tax Commission shall:

a. Issue a written declaratory ruling; (7-1-21)

b. Require the petitioner to submit additional facts, evidence, or information as the Tax Commission deems necessary to make a declaratory ruling; or (7-1-21)

c. Decline to make a declaratory ruling. The Tax Commission shall decline to make a declaratory ruling in the following circumstances:

i. The identity of the taxpayer is not disclosed; (7-1-21)

ii. The request fails to include sufficient facts, evidence, or other information on which a declaratory ruling may be based; (7-1-21)

iii. The issue on which a declaratory ruling is sought is the subject of pending litigation or administrative appeal; (7-1-21)

iv. The petitioner is not a person directly affected by a resolution of the issue presented; or (7-1-21)

v. It appears there are other good or compelling reasons why a declaratory ruling should not be made. (7-1-21)

04. Factual Circumstances. A declaratory ruling applies only to the factual circumstances as submitted by the petitioner and applies only to the petitioner seeking the declaratory ruling. The declaratory ruling may not be relied on by a person not named as a petitioner. The declaratory ruling is void if the facts changed significantly, all relevant facts were not disclosed at the time of the petition, or the facts were not accurately represented to the Tax Commission. If the statutory provisions or administrative rules affecting the declaratory ruling are amended by the legislature or the Tax Commission, the declaratory ruling is void as of the date of the amendment to the statute or rule. (7-1-21)

05. Withdrawal of Ruling. If after issuing a declaratory ruling the Tax Commission believes the declaratory ruling is erroneous, it may withdraw the declaratory ruling by giving written notice to the petitioner at his last known address. If the petitioner has relied on the declaratory ruling in good faith, the Tax Commission may not assess any tax liability accruing between the dates the declaratory ruling was issued and its withdrawal. (7-1-21)
06. **Confidentiality.** Declaratory rulings by the Tax Commission are information subject to the confidentiality requirements of Sections 63-3076 and 63-3077, Idaho Code and Rule 700 of these rules. Factual, financial, or other information relating to a taxpayer is not public record and may not be disclosed to any person except as provided by Sections 63-3076 and 63-3077, Idaho Code, or as authorized by the taxpayer. (7-1-21)

07. **Appeals.** Sections 67-5270 through 67-5279, Idaho Code, govern the judicial review of declaratory rulings. (7-1-21)

111. -- 129. (RESERVED)

130. **ELECTRONIC TRANSFER OF FUNDS (RULE 130).**
Section 67-2026, Idaho Code. (7-1-21)

01. **In General.** All taxes, interest, penalties, fees, and other amounts due the state of Idaho shall be paid by electronic funds transfer when the amount is one hundred thousand dollars ($100,000) or greater, in accordance with Sections 67-2026 and 67-2026A, Idaho Code. See Subsection 130.02 for the exception for individuals who pay amounts related to individual income taxes. (7-1-21)

02. **Individuals Paying Amounts Pursuant to Section 63-3024, Idaho Code.** An individual taxpayer is not required to pay his individual income taxes, fees or amounts payable pursuant to Section 63-3024, Idaho Code, by electronic funds transfer. If an individual elects to pay such amounts by electronic funds transfer, he must comply with the requirements of Section 67-2026, Idaho Code. (7-1-21)

131. **UNACCEPTABLE PAYMENTS (RULE 131).**
Section 63-3034, Idaho Code. (7-1-21)

01. **Checks and Drafts Previously Dishonored.** Nothing herein shall limit the authority of the Tax Commission to refuse to accept a check drawn on the account of a taxpayer who has previously tendered a check dishonored by the institution on which it was drawn. (7-1-21)

02. **Checks and Drafts From Foreign Institutions.** The Tax Commission may reject a check or draft drawn on a foreign bank or other foreign financial institution. (7-1-21)

03. **Checks and Drafts That Result in Processing Fees.** The Tax Commission may reject a check or draft that, if accepted, may result in the state of Idaho incurring a processing fee. (7-1-21)

132. -- 139. (RESERVED)

140. **APPLICATION OF PARTIAL PAYMENT (RULE 140).**
Sections 63-4001, 63-4007, Idaho Code. (7-1-21)

01. **In General.** If bad check charges, penalties, or interest accrue as a result of any deficiency in tax, partial payments shall apply in the following order: to bad check charges, interest, tax, and penalty. (7-1-21)

02. **Taxpayers With Multiple Tax Obligations.** If a taxpayer owes multiple tax obligations, the taxpayer may direct how the Tax Commission will apply payments not made with a tax return. Such directions shall apply to tax types or tax years. (7-1-21)

03. **Examples.** (7-1-21)

a. A taxpayer has an income tax liability and a sales tax liability for a previous year. The taxpayer directs the Tax Commission to apply a partial payment to his income tax liability. The Tax Commission will apply the payment first to any bad check charge related to the income tax liability, then to interest, next to the income tax, and finally to any penalty for that year as provided in Subsection 140.01. The Tax Commission will apply any remaining payment to the sales tax liability in the same order. (7-1-21)
b. A taxpayer has an income tax liability for three (3) previous tax years. The taxpayer directs the Tax Commission to apply a partial payment to his income tax liability for the earliest year. The Tax Commission will apply the payment to the income tax liability in the earliest year by first applying the payment to any bad check charge related to that year, then to interest, next to the income tax, and finally to any penalty for that year as provided in Subsection 140.01. (7-1-21)T

141. -- 149. (RESERVED)

150. REQUIREMENTS OF A VALID TAX RETURN (RULE 150).
Section 63-3076(5), Idaho Code

01. In General. All tax returns filed with the Tax Commission shall be complete and copies of all pertinent schedules or computations shall be attached. (7-1-21)T

02. Supporting Computations and Schedules. The results of supporting computations shall be carried forward to applicable lines on the tax forms. A statement referencing an attached schedule is not acceptable if the taxpayer does not enter the necessary information from the attachments on the tax form. For purposes of this subsection, a return shall be deemed valid if the Tax Commission does not reject the return by mailing it back to the taxpayer. (7-1-21)T

03. Information to Compute Tax. A return that does not provide sufficient financial information to compute a tax liability is not a valid tax return. (7-1-21)T

04. Accuracy and Required Information. A return need not be totally accurate to be a valid return. However, for the return to be valid it must:

a. Be identified as a return; (7-1-21)T

b. Be filed using the proper form prescribed by the Tax Commission; (7-1-21)T

c. Include the taxpayer’s social security number, federal employer identification number, or Internal Revenue Service processing number; (7-1-21)T

d. Include the taxpayer’s name and address; (7-1-21)T

e. Include the taxpayer’s Idaho permit or license number, if applicable; (7-1-21)T

f. Identify the reporting or tax period; (7-1-21)T

g. Contain a computation of the tax liability and sufficient supporting information to show how the taxpayer reached that result; and (7-1-21)T

h. Reflect the taxpayer’s honest and genuine effort to satisfy the requirements of the law. For purposes of determining if these requirements are met, documents that contain the following are clearly insufficient: (7-1-21)T

i. Broad unspecified constitutional claims; (7-1-21)T

ii. Unsupported statements that claim no Idaho activity or income exists; and (7-1-21)T

iii. Language that demonstrates a protest against the tax law or its administration. (7-1-21)T

05. Signing of Returns.

a. Paper Returns. The taxpayer or an authorized officer or representative shall manually sign the tax return. Both spouses shall sign a joint return. If a taxpayer is deceased or cannot sign his name, a duly authorized person, such as a surviving spouse, executor, administrator or person holding power of attorney may sign the return, indicating his status or relationship. If a taxpayer signs with an X, a witness shall attest his mark. The signature of the
taxpayer constitutes a written declaration of the return’s accuracy. (7-1-21)

b. Electronically Filed Returns. The name of the taxpayer, the name of the taxpayer’s authorized agent, the taxpayer’s identification number, or personal identification number, shall constitute a signature when transmitted as part of an electronically filed return by the taxpayer or at the taxpayer’s direction. The tax preparer shall keep a copy of the tax return on file for the applicable statute of limitations as required by Section 48-603B, Idaho Code. (7-1-21)

06. Reproduced and Substitute Forms. Any reproduced or substitute form or schedule must meet the requirements of the Tax Commission’s original form. (7-1-21)

a. Specific instructions for substitute forms are available on request from the Tax Commission. The use of substitute forms requires prior approval of the Tax Commission. The Tax Commission may reject nonapproved forms. (7-1-21)

b. Reproduced forms and photocopies of official Tax Commission forms are acceptable if the weight and size of the paper are comparable to that used in the official forms. These forms and schedules must be sufficiently legible so they may be reproduced. (7-1-21)

151. -- 152. (RESERVED)

153. TAX PREPARERS – ALTERNATIVE METHODS OF SIGNING INCOME TAX RETURNS (RULE 153).
A tax preparer, as defined in Section 48-603B, Idaho Code, may sign an Idaho income tax return in a manner allowed by Internal Revenue Service Notice 2004-54. This includes signing the return by means of a rubber stamp, mechanical device, or computer software program. The requirements for using the alternative methods under Internal Revenue Service Notice 2004-54 must be followed for Idaho income tax purposes if this method of signing a return is used for the Idaho return. Use of the alternative signature for the tax preparer does not alter the requirement for the taxpayer or authorized officer or representative to sign the return as provided in Rule 150 of these rules or to follow the requirements of Section 48-603B, Idaho Code. Section 63-3002, Idaho Code (IRS Notice 2004-54) (7-1-21)

154. (RESERVED)

155. TAX RETURNS AND OTHER DOCUMENTS FILED ELECTRONICALLY (RULE 155).
Sections 63-115, 63-3039, 74-107, Idaho Code. (7-1-21)

01. Tax Returns Filed Electronically. Pursuant to Section 63-115, Idaho Code, a taxpayer may file a tax return with the Tax Commission electronically only when the Tax Commission has established and implemented procedures permitting electronic filing of a specific tax return. A return may only be filed electronically by using the procedures and formats established by the Tax Commission for the particular return. (7-1-21)

02. Signatures. See Rule 150 of these rules. (7-1-21)

03. Acknowledgment of Data Transmissions. Persons filing returns by electronic data stream may be sent an acknowledgment of receipt of a successfully transmitted return. An acknowledgment means only that the Tax Commission received the return. An acknowledgment is not a finding by the Tax Commission about the correctness of the return. If any transmission is received in an unintelligible, unreadable, or corrupted form and the Tax Commission cannot identify the taxpayer, no acknowledgment will be sent. (7-1-21)

04. Methods Allowed for Filing Motor Fuels Tax Returns Electronically. The following methods are acceptable methods for filing motor fuels tax returns electronically. (7-1-21)

a. Secured methods. Encrypted e-mail secured through public or private key encrypting. (7-1-21)

b. Unsecured methods. Non-encrypted e-mail. (7-1-21)

05. Risks of Disclosure. By filing a return electronically, the taxpayer agrees to the risks of disclosure.
in submitting information electronically. A taxpayer or third party may not hold the Tax Commission responsible for any loss, liability, damage, whether direct, indirect or consequential, personal injury, or expenses of any nature whatsoever that may be suffered by the taxpayer or any third party as a result of or which may be attributable, directly or indirectly, from transmitting the taxpayer’s information to the Tax Commission.

156. -- 199. (RESERVED)

200. EXAMINATION OF RECORDS: DEFINITIONS (RULE 200).
Sections 63-3042 and 63-3043, Idaho Code. For purposes of Rules 200 through 204, the following definitions apply:

01. **Books and Papers.** Books and papers means and include any kind of written, printed, typed, or recorded matter of any kind or nature, however produced or reproduced including, but not limited to: all mechanical, electronic, sound or video recordings or their transcripts; microfilm and microfiche records; papers; service orders; repair orders; agreements; contracts; notes; memoranda; correspondence; letters; telegrams; statements; books; reports; studies; minutes; records; accounting books; maps; plans; drawings; diagrams; photographs; analyses or studies; and all drafts prepared in connection with such items. “Books and papers” also include electronic files and computer stored data.

02. **Database Management System.** Database Management System means a software system that controls, relates, retrieves, and provides accessibility to data stored in a database.

03. **Electronic Data Interchange or EDI Technology.** Electronic data interchange or EDI technology means the computer-to-computer exchange of business transactions in a standardized structured electronic format.

04. **Hard Copy.** Hard copy means any documents, records, reports or other data printed on paper.

05. **Machine-Sensible Record.** Machine-sensible record means a collection of related information in an electronic format. Machine-sensible records do not include hard-copy records that are created or recorded on paper or stored in or by an imaging system such as microfilm, microfiche, or storage-only imaging systems.

06. **Photocopy (Photocopied).** Photocopy (photocopied) means a copy or reproduction of an original document including books and papers; to make a photographic reproduction of any document, printed, pictorial, or other medium of information or recordkeeping.

07. **Records.** Records, as used in this rule, has the same meaning as “books and papers.”

08. **Storage-Only Imaging System.** Storage-only imaging system means a system of computer hardware and software that provides for the storage, retention and retrieval of documents originally created on paper. It does not include any system, or part of a system, that manipulates or processes any information or data contained on the document in any manner other than to reproduce the document in hard copy or as an optical image.

201. EXAMINATION OF RECORDS: RECORDKEEPING AND PRODUCTION REQUIREMENTS (RULE 201).
Sections 63-3042, 63-3043, Idaho Code.

01. **In General.**

a. A taxpayer shall maintain all records that are necessary to a determination of the correct tax liability. Required records must be made available on request by the Tax Commission or its authorized representatives. The time and place for production shall be reasonable and shall occur during regular business hours. When books and papers are requested they will be relevant and reasonable documentation for the issues under examination. The request for information is relevant if it is germane to or applicable to an audit issue.

b. Books and papers must be provided either as a photocopy, an electronic reproduction, or be made...
available for photocopying, scanning or other electronic reproduction at a specified time and place for the purposes of administering and verifying compliance with the tax laws. Photocopying is a benefit to both the Tax Commission and the taxpayer as the photocopy provides objective evidence supporting a tax position and allows for expediting the audit.

(7-1-21)T
c. All books and papers that are acquired during an audit or examination are confidential. (7-1-21)T
d. If the requirement to produce records creates a hardship for a taxpayer, the auditor or agent will work with the taxpayer to come to a reasonable solution for both parties. (7-1-21)T
e. If a taxpayer retains records in both machine-sensible and hard-copy formats, the taxpayer shall make the records available to the Tax Commission in machine-sensible format upon request of the Tax Commission. (7-1-21)T
f. Nothing in this rule shall be construed to prohibit a taxpayer from demonstrating tax compliance with traditional hard-copy documents or reproductions thereof, in whole or in part, whether or not such taxpayer also has retained or has the capability to retain records on electronic or other storage media. However, this subsection shall not relieve the taxpayer of the obligation to comply with Paragraph 201.01.e. of this rule. (7-1-21)T

02. Machine-Sensible Records. (7-1-21)T

a. General Requirements. (7-1-21)T
i. Machine-sensible records used to establish tax compliance shall contain sufficient transaction-level detail information so that the details underlying the machine-sensible records can be identified and made available to the Tax Commission upon request. A taxpayer has discretion to discard duplicated records and redundant information provided its responsibilities under this rule are met. (7-1-21)T

ii. At the time of an examination, the retained records must be capable of being retrieved and converted to a standard record format. (7-1-21)T

iii. Taxpayers are not required to construct machine-sensible records other than those created in the ordinary course of business. A taxpayer who does not create the electronic equivalent of a traditional paper document in the ordinary course of business is not required to construct such a record for tax purposes. (7-1-21)T

b. Electronic Data Interchange Requirements. (7-1-21)T
i. Where a taxpayer uses electronic data interchange (EDI) processes and technology, the level of record detail, in combination with other records related to the transactions, must be equivalent to that contained in an acceptable paper record. For example, the retained records should contain such information as vendor name, invoice date, product description, quantity purchased, price, amount of tax, indication of tax status, shipping detail, etc. Codes may be used to identify some or all of the data elements, provided that the taxpayer provides a method which allows the Tax Commission to interpret the coded information. (7-1-21)T

ii. The taxpayer may capture the information necessary to satisfy Subparagraph 201.02.b.i. of this rule at any level within the accounting system and need not retain the original EDI transaction records provided the audit trail, authenticity, and integrity of the retained records can be established. For example, a taxpayer using electronic data interchange technology receives electronic invoices from its suppliers. The taxpayer decides to retain the invoice data from completed and verified EDI transactions in its accounts payable system rather than to retain the EDI transactions themselves. Since neither the EDI transaction nor the accounts payable system captures information from the invoice pertaining to product description and vendor name (i.e., they contain only codes for that information), the taxpayer also retains other records, such as its vendor master file and product code description lists and makes them available to the Tax Commission. In this example, the taxpayer need not retain its EDI transaction for tax purposes. (7-1-21)T

c. Electronic Data Processing Systems Requirements. The requirements for an electronic data processing accounting system should be similar to that of a manual accounting system, in that an adequately designed
accounting system should incorporate methods and records that will satisfy the requirements of this rule. (7-1-21)T
d. Business Process Information. (7-1-21)T
  i. Upon the request of the Tax Commission, the taxpayer shall provide a description of the business process that created the retained records. Such description shall include the relationship between the records and the tax documents prepared by the taxpayer and the measures employed to ensure the integrity of the records. (7-1-21)T
  ii. The taxpayer shall be capable of demonstrating:
      (1) The functions being performed as they relate to the flow of data through the system; (7-1-21)T
      (2) The internal controls used to ensure accurate and reliable processing; and (7-1-21)T
      (3) The internal controls used to prevent unauthorized addition, alteration, or deletion of retained records. (7-1-21)T
  iii. The following specific documentation is required for machine-sensible records retained pursuant to this rule:
      (1) Record formats or layouts; (7-1-21)T
      (2) Field definitions (including the meaning of all codes used to represent information); (7-1-21)T
      (3) File descriptions (e.g., data set name); and (7-1-21)T
      (4) Detailed charts of accounts and account descriptions. (7-1-21)T

03. Cost Reimbursement to a Third-Party. If the Tax Commission summons a third-party to produce records, the Tax Commission may reimburse the third-party at a rate not to exceed seventy-five cents ($0.75) per copy. The Tax Commission may require the originals to be produced pursuant to the summons. (7-1-21)T

04. Failure to Comply. In addition to other enforcement provisions provided by statute, failure to produce records supporting amounts or information shown on a return may result in appropriate adjustments by the Tax Commission, including either or both of the following:

  a. The disallowance of claimed deductions, credits, or exemptions to which the requested information relates; (7-1-21)T
  b. The presumption that the information not provided is prejudicial to the taxpayer’s position in regard to the issue or issues to which the requested information relates. (7-1-21)T

202. EXAMINATION OF RECORDS: ACCESS TO MACHINE-SENSIBLE RECORDS (RULE 202).
Sections 63-3042, 63-3043, Idaho Code. (7-1-21)T

01. In General. The manner in which the Tax Commission is provided access to machine-sensible records as required by Rule 201 may be satisfied through a variety of means that shall take into account a taxpayer’s facts and circumstances through consultation with the taxpayer. (7-1-21)T

02. Access Alternatives. Such access will be provided in one (1) or more of the following manners:

  a. The taxpayer may arrange to provide the Tax Commission with the hardware, software and personnel resources to access the machine-sensible records. (7-1-21)T
  b. The taxpayer may arrange for a third party to provide the hardware, software and personnel resources necessary to access the machine-sensible records. (7-1-21)T
c. The taxpayer may convert the machine-sensible records to a standard record format specified by the Tax Commission, including copies of files, on a magnetic medium that is agreed to by the Tax Commission.

(7-1-21)T

d. The taxpayer and the Tax Commission may agree on other means of providing access to the machine-sensible records.

(7-1-21)T

203. EXAMINATION OF RECORDS: RECORDS MAINTENANCE (RULE 203).
Sections 63-3042, 63-3043, Idaho Code.

01. Requirements.

a. The Tax Commission recommends, but does not require, that taxpayers refer to the National Archives and Record Administration’s (NARA) standards for guidance on the maintenance and storage of electronic records, such as the labeling of records, the location and security of the storage environment, the creation of back-up copies, and the use of periodic testing to confirm the continued integrity of the records. [The NARA standards may be found at 36 Code of Federal Regulations, Part 1234, July 1, 1995, edition.]  

(7-1-21)T

b. The taxpayer’s computer hardware or software shall accommodate the extraction and conversion of retained machine-sensible records.

(7-1-21)T

02. Taxpayer Responsibility and Discretionary Authority.

a. In conjunction with meeting the requirements of Rule 201, a taxpayer may create files solely for the use of the Tax Commission. For example, if a database management system is used, it is consistent with this rule for the taxpayer to create and retain a file that contains the transaction-level detail from the database management system and meets the requirements of Rule 201. The taxpayer should document the process that created the separate file to show the relationship between that file and the original records.

(7-1-21)T

b. A taxpayer may contract with a third party to provide custodial or management services of the records. Such a contract shall not relieve the taxpayer of its responsibilities under this rule.

(7-1-21)T

03. Effect on Hard-Copy Recordkeeping Requirements.

a. Except as otherwise provided in this section, the provisions of these rules do not relieve taxpayers of the responsibility to retain hard-copy records that are created or received in the ordinary course of business as required by existing law and rules. Hard-copy records may be retained on a recordkeeping medium as provided in Rule 204 of these rules.

(7-1-21)T

b. If hard-copy records are not produced or received in the ordinary course of transacting business (e.g., when the taxpayer uses electronic data interchange technology), such hard-copy records need not be created.

(7-1-21)T

c. Hard-copy records generated at the time of a transaction using a credit or debit card must be retained unless all the details necessary to determine correct tax liability relating to the transaction are subsequently received and retained by the taxpayer in accordance with this rule. Such details include those listed in Paragraph 201.02.b.

(7-1-21)T

d. Computer printouts that are created for validation, control, or other temporary purposes need not be retained.

(7-1-21)T

e. Nothing in this section shall prevent the Tax Commission from requesting hard-copy printouts in lieu of retained machine-sensible records at the time of examination.

(7-1-21)T

204. EXAMINATION OF RECORDS: ALTERNATIVE STORAGE MEDIA (RULE 204).
Sections 63-3042, 63-3043, Idaho Code.

(7-1-21)T
01. **In General.** For purposes of storage and retention, taxpayers may convert hard-copy documents received or produced in the normal course of business and required to be retained under this rule to microfilm, microfiche or other storage-only imaging systems and may discard the original hard-copy documents, provided the conditions of this section are met. Documents that may be stored on these media include, but are not limited to, general books of account, journals, voucher registers, general and subsidiary ledgers, and supporting records of details, such as sales invoices, purchase invoices, exemption certificates, and credit memoranda. (7-1-21)

02. **Requirements of Storage-Only Imaging Systems.** Microfilm, microfiche and other storage-only imaging systems shall meet the following requirements:

a. Documentation establishing the procedures for converting the hard-copy documents to microfilm, microfiche or other storage-only imaging system must be maintained and made available on request. Such documentation shall, at a minimum, contain a sufficient description to allow an original document to be followed through the conversion system as well as internal procedures established for inspection and quality assurance. (7-1-21)

b. Procedures must be established for the effective identification, processing, storage, and preservation of the stored documents and for making them available. (7-1-21)

c. Upon request by the Tax Commission, a taxpayer must provide facilities and equipment for reading, locating, and reproducing any documents maintained on microfilm, microfiche or other storage-only imaging system. (7-1-21)

d. When displayed on such equipment or reproduced on paper, the documents must exhibit a high degree of legibility and readability. For this purpose, legibility is defined as the quality of a letter or numeral that enables the observer to identify it positively and quickly to the exclusion of all other letters or numerals. Readability is defined as the quality of a group of letters or numerals being recognizable as words or complete numbers. (7-1-21)

e. All data stored on microfilm, microfiche or other storage-only imaging systems must be maintained and arranged in a manner that permits the location of any particular record. (7-1-21)

f. There is no substantial evidence that the microfilm, microfiche or other storage-only imaging system lacks authenticity or integrity. (7-1-21)

205. **ACTION TO COLLECT UNPAID TAX OR DEFICIENCY (RULE 205).**
Section 63-3050, Idaho Code. (7-1-21)

01. **In General.** A debtor-creditor relationship exists between the taxpayer and the state of Idaho with regard to taxes imposed by the state of Idaho. The only exception is if a trust relationship is imposed. (7-1-21)

02. **Authority for Collection.** Sections 63-3050, 63-3063, and 63-3064, Idaho Code, authorize the Tax Commission to pursue any legal action for the payment of taxes owing. This authority is in addition to the specific collection authority granted by Sections 63-3051 through 63-3061, Idaho Code. (7-1-21)

206. -- 209. (RESERVED)

210. **PROPERTY SUBJECT TO LIEN (RULE 210).**
Section 63-3051, Idaho Code. (7-1-21)

01. **Statutory Lien.** A statutory lien is created when demand for payment of any assessed deficiency in tax, interest, penalties, or other charges is made and the taxpayer fails to pay the assessment. The lien extends to all real and personal property, or rights therein, owned or acquired by the taxpayer from the date the lien is created until the time it expires. The lien is deemed to be created on the date demand for payment is made. The lien is not effective as to third-parties until a notice of lien is filed. (7-1-21)
02. **Duration of Lien.** A notice of lien remains in effect for five (5) years from the date the lien notice is first filed in the Secretary of State's office. The lien may be extended by filing an amendment to continue the tax lien with the office of the Secretary of State within that period. The lien, as extended, is valid and applies against only the real property of the taxpayer. 

215. **RELEASE OR SUBORDINATION OF TAX LIEN (RULE 215).**
Section 63-3055, Idaho Code.

01. **Request for Release of Lien.** A request for a release of all or a portion of the property subject to a state tax lien, must be in writing and addressed to the Tax Commission. The request must include:
   
a. The lien number and date;

b. The reasons for the request; and

c. Supporting documentation.

02. **Erroneous Lien.** If a lien is filed in error, the lien shall be released as soon as possible. The statement “This release is based on a finding that the lien herein released was filed in error” shall be shown on the release filed.

220. **LEY OR DISTRAINT WARRANT (RULE 220).**
Section 63-3059, Idaho Code.

01. **In General.** Levy and distraint is the summary method of collecting taxes when the assessment and lien remain unsatisfied. The Idaho Income Tax Act provides that if the taxpayer fails to pay assessed taxes or deficiencies, the tax may be collected by levy on all property or property rights belonging to the taxpayer.

02. **Serving of Levy.** A levy or notice of levy may be served on a person in possession of or obligated with respect to property rights of the taxpayer. Property identified as belonging to the taxpayer may be levied on. The authority to execute a levy or warrant is vested in a member of the Tax Commission, a deputy commissioner, a sheriff, constable, or a deputy of the Tax Commission.

03. **Surrender of Property.** A person in possession of property or property rights on which a levy has been made shall surrender the property to the process server on demand. If the holder fails to surrender the property, he may be personally liable to the Tax Commission for the amount or value of the property so held and retained.

225. **PROCEEDINGS ON LEVY OR DISTRAINT (RULE 225).**
Section 63-3060, Idaho Code.

01. **In General.** The proceedings on levy or distraint have the same force and effect as a writ of execution issued by a court on final judgment except that the right to claim exemption from execution is limited by Section 63-3058, Idaho Code. The sale or liquidation of property seized will proceed in the manner provided by the general statutes of the state of Idaho relating to execution on judgment. See Title 11, Idaho Code.

02. **Sale of Property.** All costs of execution and sale are the responsibility of the taxpayer and will be collected as part of the obligation owing the state. Any moneys obtained on the sale of the taxpayer’s property will be applied in the following order: to costs incurred, interest, tax, and penalty. Any moneys received in excess of the total obligation will be paid to the taxpayer unless, prior to disbursement, other creditors file a claim on the state. See Section 11-202, Idaho Code.
226. -- 229. (RESERVED)

230. **JEOPARDY ASSESSMENTS (RULE 230).**
Section 63-3065, Idaho Code.

01. **Termination of Tax Periods.** The Tax Commission may terminate the tax period of a taxpayer at any time when payment of a tax is in jeopardy. This termination causes the tax for the terminated period, and any unpaid tax for the preceding tax period, to be immediately due and payable.

   a. No particular form of notice of the jeopardy assessment is required. Notice may be served on the taxpayer or his authorized agent, or mailed to his last known address.

   b. Notwithstanding any action by the Tax Commission pursuant to Section 63-3065, Idaho Code, and this rule, a taxpayer shall file a tax return at the end of his regular accounting period. Any tax collected as a result of termination pursuant to this statute is applied against the tax due at the end of the current tax period.

02. **Appeals Procedure.** If the taxpayer does not agree with the jeopardy assessment, the taxpayer may file a petition for redetermination. The petition must be in writing and filed within sixty-three (63) days after notice of the jeopardy assessment. The taxpayer must either pay the assessment in full or file with the Tax Commission a bond in the manner set forth in Section 600 of these rules. The bond must be conditioned on the payment of any tax, penalty, and interest that may be found due.

03. **Property Under Distraint.** Property under distraint that has not been sold or otherwise disposed of may be returned to the taxpayer on payment of the assessment in full, plus the costs of the distraint. Property may also be returned if the taxpayer files with the Tax Commission a bond in the amount of the assessment, executed by a surety licensed and authorized to do business in Idaho and conditioned on payment of the full amount of the assessment plus the interest and costs. Either action shall begin within the time prescribed by Section 63-3065(b), Idaho Code, or an extension ordered by the Tax Commission.

04. **Request for Return of Seized Property.** A taxpayer may file a written petition for the return of property seized to satisfy a jeopardy assessment. The petition must be filed prior to the Tax Commission or a sheriff posting or publishing a notice of sale or other disposition of property, or within fifteen (15) days from the date of seizure, whichever time is greater. The Tax Commission may grant the petition based on facts disclosed or found that indicate the taxpayer will pay the assessment within a reasonable time.

231. -- 299. (RESERVED)

300. **ASSESSMENT OF TAX (RULE 300).**
Sections 63-3045, 63-3045A, Idaho Code.

01. **In General.** When a tax return is filed, tax and interest are assessed on the date the return showing tax owing is received, even if the return is corrected by the Tax Commission for mathematical errors. If the taxpayer does not compute a tax on an otherwise properly filed return, any tax calculated by the Tax Commission to be owed is assessed the date payment was due.

02. **Deficiency of Tax.** If the Tax Commission determines a deficiency of tax, the additional tax is assessed when the deficiency determination becomes final. A deficiency determination becomes final when the taxpayer fails to timely petition for redetermination of the deficiency or to timely appeal the decision of the Tax Commission. If the taxpayer timely appeals the decision of the Tax Commission, the deficiency determination becomes final when the decision of the Board of Tax Appeals, or the judgment of the court, becomes final and can no longer be appealed.

03. **The Record of Assessment.** The record of assessment shall be the Notice and Demand for payment of taxes that also functions as the required notice for the distraint and sale of a taxpayer’s personal property pursuant to Section 63-3057, Idaho Code. For a jeopardy assessment as provided for in Sections 63-3065, 63-3630, and 63-4208, Idaho Code, the Notice of Jeopardy Assessment is the record of assessment. In cases where the tax is
self-assessed and no Notice and Demand is issued, the record of assessment shall be the Tax Commission’s processing record of the filing of the self-assessed return. (7-1-21)T

04. Admission to Understatement of Tax. A taxpayer may admit to an understatement of tax at any time. An admission is not considered a compromise of tax, and does not affect the statutory period of limitations for an audit or additional assessment or for a claim for refund filed by the taxpayer. (7-1-21)T

310. INTEREST RATES (RULE 310).
Sections 63-3045, 63-3073, Idaho Code

01. In General. The annual rate of interest applicable to delinquent taxes accruing or unpaid during all or any part of a calendar year is determined in accordance with Section 63-3045, Idaho Code. The rates starting with the rate applicable at July 1, 1981, and the Internal Revenue Service Revenue Rulings, if applicable for the calculation of the rate, are listed in Subsection 310.02 of this rule. These interest rates also apply to the allowance of a credit or refund of tax erroneously or illegally assessed or collected as provided in Section 63-3073, Idaho Code. (7-1-21)T

02. Idaho Interest Rates and Applicable Revenue Rulings.

(7-1-21)T

311. -- 319. (RESERVED)

320. NOTICE OF DEFICIENCY: FILING A PROTEST (RULE 320).
Section 63-3045, Idaho Code

01. In General. If a taxpayer does not agree with a deficiency determination, the taxpayer may file a protest with the Tax Commission to request a redetermination of the deficiency. The protest must be in writing and filed within sixty-three (63) days from the date the Notice of Deficiency is mailed. (7-1-21)T

02. Perfected Protest. The protest must contain the information in Paragraphs 320.02.a. through 320.02.d. of this rule to be perfected. A protest meets the requirements of Paragraphs 320.02.c. and 320.02.d. of this rule if the allegations of fact or contentions of law, viewed in the light most favorable to the taxpayer, raise factual or legal issues that, if correct, would entitle the taxpayer to relief. (7-1-21)T

a. Name, address and pertinent identification number; (7-1-21)T
b. The period to which the deficiency relates; (7-1-21)T
c. The specific item or items in the Notice of Deficiency to which the taxpayer objects; and (7-1-21)T
d. The factual or legal basis for the objections made. (7-1-21)T
03. Receipt of Protest. Once a protest is received by the Tax Commission, the sixty-three (63) day period ends.

04. Unperfected Protest.
   a. A protest is unperfected if it does not include all the items required by this rule. If the Tax Commission determines the protest is unperfected, the Tax Commission shall notify the taxpayer of the items needed to perfect the protest. The taxpayer has twenty-eight (28) days from the date the notice is mailed to provide the information.

   b. Example. A Notice of Deficiency is mailed to a taxpayer on August 31. He has sixty-three (63) days from August 31 to protest his deficiency determination. The Tax Commission receives his protest on September 10. The sixty-three (63) day period stops on September 10. The Tax Commission determines the protest is not perfected and mails notification to the taxpayer on September 15. The taxpayer has twenty-eight (28) days or through October 13 to perfect the protest. After October 13, he may no longer perfect his protest or submit a new protest even though the original sixty-three (63) day period would have run through November 2.

05. Failure to Timely Perfect a Protest. Failure to perfect a protest within twenty-eight (28) days is treated the same as if no protest had been filed, pursuant to Section 63-3045(6), Idaho Code.

321. -- 324. (RESERVED)

325. NOTICE OF DEFICIENCY: PROTEST PROCEDURES (RULE 325).
Sections 63-3045, 63-3045B, Idaho Code

01. In General. Once a perfected protest has been filed with the Tax Commission, the taxpayer may:
   a. Request a hearing;
   b. Submit additional documents; or
   c. Request a final decision from the Tax Commission.

02. Hearings. A Commissioner or other person designated by the Tax Commission shall conduct a hearing in the form of an informal conference. If the taxpayer chooses to be represented by another person, a valid power of attorney form must be provided to the Tax Commission. The taxpayer has the right to be accompanied by another person, however, the Tax Commission may limit the number of people accompanying the taxpayer. If a protestant fails to comply with a summons or subpoena or fails to appear for the informal conference, the Tax Commission may issue a decision without further hearing.

03. Submission of Additional Documents. A taxpayer may submit additional statements, documents, or other materials he desires to have the Tax Commission consider before deciding the protest. If the one hundred eighty (180) day period for issuing a final decision has begun, the Tax Commission may require that a taxpayer execute an extension of the one hundred eighty (180) day period before the additional information or documentation will be considered. The one hundred eighty (180) day period is provided by Section 63-3045B, Idaho Code.

04. Request for a Final Decision. A request for a final decision must be in a letter addressed to the employee or agent of the Tax Commission from whom the acknowledgment of the protest was received or to the individual subsequently assigned to resolve the protest. The request must be the sole subject of the letter and must clearly identify the taxpayer and the Notice of Deficiency.

05. Simultaneous Request for a Final Decision and a Hearing. If the taxpayer makes a simultaneous request for both a final decision and a hearing, the Tax Commission shall treat this as a request for a hearing. The one hundred eighty (180) day period begins when the hearing concludes.
06. **Issues.** Redetermination of any tax or refund due is not limited to the specific issue or issues protested for the taxable year, unless limited by Section 63-3068(f), Idaho Code. (7-1-21)

07. **Amended Return After Audit.** An amended return will be accepted for a taxable year for which a protest is pending only in the following circumstances: (7-1-21)
   a. The taxpayer demonstrates that the changes on the amended return are unrelated to issues examined in the audit; (7-1-21)
   b. The changes are the result of federal audit adjustments; or (7-1-21)
   c. The amended return is submitted as part of the procedure for resolving the protest. (7-1-21)

08. **Failure to Schedule a Hearing.** The Tax Commission may issue a decision after forty-two (42) days from the date the notification of right to request a hearing is mailed to the taxpayer; if (7-1-21)
   a. The taxpayer does not request a hearing; (7-1-21)
   b. The taxpayer requests a hearing but does not schedule a date for the hearing; or (7-1-21)
   c. A hearing is scheduled but later cancelled by the taxpayer and the taxpayer does not reschedule. (7-1-21)

326. **COMMUNICATIONS BETWEEN THE APPEALS UNIT AND THE ORIGINATING DIVISION AND OTHERS DURING THE REDETERMINATION: DEFINITIONS (RULE 326).**
   Section 63-3045, Idaho Code
   For purposes of Rules 327 and 328, the following definitions apply: (7-1-21)
   01. **Appeals Unit.** Appeals unit means the unit created within the State Tax Commission with the responsibility for performing the independent administrative redetermination provided for in Section 63-3045, Idaho Code. (7-1-21)
   02. **Appeals Officer.** Appeals officer means the staff of the appeals unit performing the redetermination. (7-1-21)
   03. **Originating Division.** Originating division means the division within the State Tax Commission that issued the notice of deficiency determination or other determination under dispute. (7-1-21)
   04. **Petitioner.** Petitioner means the taxpayer or the taxpayer’s authorized representative. (7-1-21)
   05. **Unable to Participate.** Unable to participate means the petitioner had expressed intent to participate in the discussion with the originating division but did not participate and did not provide adequate notice to the appeals officer to reschedule the discussion. (7-1-21)

327. **COMMUNICATIONS BETWEEN THE APPEALS UNIT AND THE ORIGINATING DIVISION AND OTHERS DURING THE REDETERMINATION: RESTRICTIONS, EXCEPTIONS, AND PERMITTED COMMUNICATIONS (RULE 327).**
   Section 63-3045, Idaho Code
   01. **In General.** Section 63-3045, Idaho Code, does not adopt the formal ex parte restrictions on communications that would apply in a judicial proceeding or under Section 67-5253, Idaho Code. However, the State Tax Commission will apply the following procedures as part of its redetermination process. The provisions contained within this rule do not create substantive rights affecting the taxpayer’s tax liability, or the State Tax Commission’s ability to determine, assess, or collect the tax liability (including statutory interest and any penalties, if applicable). (7-1-21)
   02. **Restrictions on Certain Communications.** An appeals officer may engage in discussions relating
to the petitioner’s petition with employees of the originating division, including the strengths and weaknesses of the
issues, new issues, and the parties’ positions, only after having provided the petitioner the opportunity to participate in
the discussions. (7-1-21)T

03. **Exceptions.** The limitation on communications contained within Subsection 327.02 of this rule
does not apply to communications with or by:

   a. A Commissioner of the State Tax Commission; (7-1-21)T
   b. An employee of a State Tax Commission outside of the originating division; (7-1-21)T
   c. An employee of the Idaho office of Attorney General; (7-1-21)T
   d. An employee of another state agency that the State Tax Commission has entered into an exchange
      agreement with; (7-1-21)T
   e. An employee of the Internal Revenue Service; or (7-1-21)T
   f. An employee of the Multi State Tax Commission. (7-1-21)T

04. **Permitted Communications.** Communications with the originating division that do not require an
appeals officer to first provide the petitioner with an opportunity to participate in the communication include:

   a. Any matters that are ministerial, administrative, or procedural including routine account inquiries,
      transcript requests, and other similar inquiries because they do not involve more than a limited amount of dialogue or
      interaction between appeals and the originating division. (7-1-21)T
   b. Communications in which the petitioner is given an opportunity to participate and is unresponsive,
      declines, or is unable to participate in a discussion between an appeals officer and the originating division. (7-1-21)T
   c. Assisting an appeals officer in locating or indexing documents within the originating division’s
      audit file that were relied upon by the originating division when it issued its notice of deficiency determination.
      (7-1-21)T
   d. Requesting verification of calculations that an appeals officer may utilize as part of a settlement or
decision. (7-1-21)T
   e. Obtaining a response from the originating division when the petitioner provides new information or
makes new legal arguments during the redetermination. The originating division’s response must be in writing and a
copy of the written response provided to the petitioner. (7-1-21)T
   f. Requesting confirmation of calculations that the petitioner has provided during the redetermination
process. (7-1-21)T
   g. Requesting verification that information provided by the petitioner during the redetermination is
the same or different from what was previously submitted to the originating division. (7-1-21)T
   h. A settlement meeting conducted in accordance with Rule 501 of these rules. (7-1-21)T

328. **OPPORTUNITY TO PARTICIPATE: NOTICE TO PETITIONER (RULE 328).**
Section 63-3045, Idaho Code

01. **Notification and Participation.** If an appeals officer believes a discussion with staff from the
originating division is warranted to review matters restricted by Subsection 327.02 of these rules, an appeals officer
shall provide petitioner reasonable notice of the time and date of any discussion. Such notice may be provided to the
petitioner by telephone, mail or electronic form and pursuant to Section 63-4003, Idaho Code. An appeals officer
shall make a reasonable effort to accommodate the petitioner’s schedule but will not unduly delay the discussion. The petitioner may participate by telephone or in-person at the State Tax Commission office in Boise, Idaho, and any discussion will be held during normal business hours. (7-1-21)

02. Additional Petitioner Participation Information. Any discussion held under this rule that includes petitioner participation is not an informal hearing under Rule 325 of these rules and does not start the one hundred and eighty (180) day period for issuing a final decision. (7-1-21)

329. -- 399. (RESERVED)

400. PENALTIES: GENERAL RULES (RULE 400).
Sections 63-3033, 63-3046, Idaho Code

01. Penalty Presumed Appropriate. If a taxpayer becomes liable to pay the Internal Revenue Service a penalty similar to one provided in Section 63-3046, Idaho Code, it shall be presumed the penalty is appropriate as part of the related state tax deficiency. (7-1-21)

02. Computation of Tax Due Amounts for Extension of Time Criteria. For purposes of computing whether the taxpayer has met the extension of time criteria provided in Section 63-3033, Idaho Code, the terms, total tax due on the income tax return when it is filed, total tax due on the income tax return for the prior year, and total tax due under the provisions of this chapter shall mean amounts computed as follows: (7-1-21)

a. Include the income tax, the permanent building fund tax, tax from recapture of Idaho income tax credits, and any income tax credits. (7-1-21)

b. Exclude items reported on the income tax return that are not included in Title 63, Chapter 30, Idaho Code, such as sales or use tax due, fuels tax due, and special fuels or gasoline tax refunds. Payments for the amounts included in Subsection 400.02.a. are also excluded for purposes of this calculation. (7-1-21)

03. Computation of Tax Due Amounts for Failure to File, Failure to Pay, Delinquent Filing, Substantial Understatement, and Extension Penalties. For purposes of computing the failure to file, failure to pay, substantial understatement, or delinquent filing penalties, provided by Section 63-3046, Idaho Code, and the penalty for failing to meet the extension criteria, provided by Section 63-3033, Idaho Code, the terms tax shown thereon to be due, tax due on such return, and the amount on which the extension penalty is applied shall mean amounts computed as follows: (7-1-21)

a. Include the income tax, the permanent building fund tax, tax from recapture of Idaho income tax credits, income tax credits, and any payments for these taxes for that year. (7-1-21)

b. Exclude items reported on the income tax return that are not included in Title 63, Chapter 30, Idaho Code, such as sales or use tax due, fuels tax due, and special fuels or gasoline tax refunds. (7-1-21)

04. Net Operating Loss and Capital Loss Carrybacks. If the tax due for the taxable year is reduced after the application of a net operating loss carryback or a capital loss carryback, the penalty shall be computed on the tax due prior to the application of the carryback. (7-1-21)

05. Minimum Penalty. A ten dollar ($10) minimum penalty applies to each penalty imposed by Subsection (a), (b), (c)(1), (d) or (e) of Section 63-3046 and by Section 63-3033, Idaho Code. For example, if a taxpayer fails to file only one (1) withholding tax statement, which generally results in a penalty of two dollars ($2) pursuant to Section 63-3046(e)(1), Idaho Code, a penalty of ten dollars ($10) will be applied. (7-1-21)

06. Dishonored Checks. The charge provided by Section 63-3046(h), Idaho Code, for each dishonored check or instrument is: (7-1-21)

a. Ten dollars ($10) if dishonored prior to July 1, 2001. (7-1-21)

b. Twenty dollars ($20) if dishonored on or after July 1, 2001. (7-1-21)
410. NEGLIGENCE PENALTIES (RULE 410).

Section 63-3046(a), Idaho Code.

01. Negligence Defined. Negligence is the breach of a duty or obligation, recognized by law, that requires conformance to a certain standard of conduct.

02. Imposition of Penalty. A five percent (5%) negligence penalty shall be imposed if the deficiency results from either negligence by the taxpayer or from disregard by the taxpayer or his agent of state or federal tax laws, rules of the Tax Commission, or Treasury Regulations. Examples of situations that justify the penalty include the following:

a. Taxpayer continues to make errors in reporting income, sales or assets, or claims erroneous deductions, exemptions, or credits even though these mistakes have been called to his attention in previous audit reports.

b. Taxpayer fails to maintain proper records and files returns containing unsubstantiated claims or substantial errors.

c. Taxpayer makes unsubstantiated or exaggerated claims of deductions or exemptions.

d. Taxpayer fails to offer any explanation for understating taxes.

e. Unreported taxable income is a material amount as compared with the reported income.

f. Taxpayer exhibits a careless disregard of his tax obligations.

g. For sales or use tax deficiencies, failure to keep valid files of resale and exemption certificates.

h. Failure to make the required estimated payment when requesting an extension of time for filing a return.

i. Taxpayer fails to provide the Tax Commission with a copy of a final federal determination within sixty (60) days of the date of the determination. See Rule 890 of the Income Tax Administrative Rules.

j. Taxpayer fails to file an Idaho amended return within sixty (60) days after filing a federal amended return.

k. Taxpayer fails to respond to requests to produce records substantiating items shown on the return.

l. Taxpayer fails to make available the fifty-one (51) state apportionment factor detail when requested.

03. Negligence Penalty for Sales and Use Tax Deficiencies. For sales tax purposes, pertinent computations relating to substantial errors in Subsection 410.02.b. or material amount in Subsection 410.02.e., might include the following:

a. The ratio of untaxed sales that should have been taxed to total taxable sales;

b. The ratio of untaxed sales that should have been taxed to total sales;
04. Waiver of Negligence Penalty.
   a. The Tax Commission may waive the penalty if the taxpayer can show reasonable cause for the failure that resulted in the deficiency. (7-1-21)T
   b. The Tax Commission shall consider all factors when determining whether to waive a negligence penalty. One (1) factor is the taxpayer’s record for filing and paying state taxes. A good record for filing and paying tax on returns filed annually is not by itself a sufficient reason to waive the penalty. (7-1-21)T
05. Circumstances Precluding Waiver of Penalty. The following circumstances do not constitute sufficient cause to waive the penalty: (7-1-21)T
   a. An invalid or unapproved request for an extension of time to file or to do acts required by Idaho tax laws; (7-1-21)T
   b. An unsettled dispute between the Tax Commission and the taxpayer concerning a tax liability; or (7-1-21)T
   c. Inability to pay the tax. (7-1-21)T

420. FRAUD PENALTIES (RULE 420).
    Section 63-3046(b), Idaho Code. (7-1-21)T
    01. In General. In determining fraud penalties, the Tax Commission shall review all facts and circumstances surrounding preparation of a taxpayer’s return including all of the following: (7-1-21)T
        a. Public and private statements regarding income or sales of the taxpayer; (7-1-21)T
        b. Business and financial practices of the taxpayer; (7-1-21)T
        c. Taxpayer’s knowledge of principles of finance, accounting, law, or taxation; (7-1-21)T
        d. Objective and subjective evidence showing or tending to show intent to evade payment of taxes. (7-1-21)T
    02. Interaction Between Fraud and Negligence Penalties. Assessment of the fraud penalty precludes assessment of the negligence penalty on the deficiency. (7-1-21)T

421. -- 429. (RESERVED)
meet the extension criteria provided in Section 63-3033, Idaho Code.

c. A penalty of five percent (5%) of the tax due per month, may be imposed on a taxpayer who files a
delinquent return or who fails to file a return as provided in Section 63-3046, Idaho Code. (7-1-21)T
d. If a taxpayer files a return but does not pay the tax due, a penalty of one-half percent (0.5%) of the
tax due per month may be imposed. (7-1-21)T
e. The penalties computed in this subsection may not exceed twenty-five percent (25%) of the tax
due. (7-1-21)T
f. For purposes of computing the penalties in Subsection 430.01, tax due includes subsequent
adjustments. (7-1-21)T

02. Calculations of Penalty When a Taxpayer Satisfies the Extension of Time Criteria. (7-1-21)T

a. A taxpayer is entitled to an automatic extension of time for filing the Idaho income tax return if, by
the due date, the taxpayer satisfies either of the following extension criteria provided in Section 63-3033, Idaho Code:

i. Paying eighty percent (80%) of the total tax due on his income tax return when it is filed; or

ii. Paying the total tax due on the income tax return for the prior year if one was filed. (7-1-21)T

b. If the payment computed in Subsection 430.02.a. is fifty dollars ($50) or less, a payment is not
required to qualify for the extension. (7-1-21)T
c. If the taxpayer satisfies the extension criteria, files the return on or before the extended due date,
and pays the tax with the return or before filing the return, no penalties apply. (7-1-21)T
d. If the taxpayer satisfies the extension criteria and files the return on or before the extended due date,
but pays the tax after filing the return, a penalty of one-half percent (0.5%) of the tax due per month shall apply from
the date the return is filed to the date the tax is paid. For returns filed in 2006, if the return is filed before July 1, 2006,
but the tax due is not paid by that date, the late payment penalty shall apply from July 1, 2006 to the date the tax is
paid. (7-1-21)T
e. If the taxpayer satisfies the extension criteria but fails to file the return and pay the tax due on or
before the extended due date, a penalty of five percent (5%) of the tax due per month shall apply from the return's
extended due date to the earlier of the date the return is filed or the date the tax is paid. If the tax is paid after the
return is filed, a penalty of one-half percent (0.5%) of the tax due per month shall apply from the date the return is
filed until the date the tax is paid. (7-1-21)T

03. Calculations of Penalty When a Taxpayer Fails to Satisfy the Extension of Time Criteria. If a
taxpayer fails to satisfy the extension criteria, the following penalties may apply: (7-1-21)T

a. If the return is filed by the due date, but the tax is paid after the due date, a penalty of one-half
percent (0.5%) of the tax due per month shall apply from the return's due date to the date the tax is paid. (7-1-21)T

b. If the return is filed and the tax is paid on or before the extended due date, a penalty of two percent
(2%) of the tax due per month shall apply from the return's due date to the earlier of the date the return is filed or the
date the tax is paid. If the tax is paid after the return is filed, a penalty of one-half percent (0.5%) of the tax due per
month shall apply from the date the return is filed to the date the tax is paid. (7-1-21)T
c. If the return is filed after the extended due date but the tax is paid on or before the extended due
date, a penalty of two percent (2%) of the tax due per month shall apply from the return's due date to the date the tax
is paid. (7-1-21)T
d. If the return is filed after the extended due date and the tax is paid after the extended due date, a penalty of five percent (5%) of the tax due per month shall apply from the due date of the return to the earlier of the date the return is filed or the date the tax is paid. If the tax is paid after the return is filed, a penalty of one-half percent (0.5%) of the tax due per month shall apply from the date the tax is paid to the earlier of the date the return is filed or the date the tax is paid. (7-1-21)T

04. Other Penalties. Imposing a penalty for failure to meet the extension criteria, failure to file a return timely, or failure to pay the tax due timely does not preclude the imposition of another penalty pursuant to Section 63-3046, Idaho Code. (7-1-21)T

05. Insufficient Postage. The proper amount of prepaid postage is required on returns mailed to the Tax Commission. If a tax return is returned to the sender due to insufficient postage, it may result in the return becoming delinquent and subject to the delinquency penalty specified by Section 63-3046(c), Idaho Code. (7-1-21)T

06. Month Defined. If the due date falls on the last day of a calendar month, each succeeding calendar month, or fraction of it, during which the failure to file continues constitutes a month. If the due date is not the last day of the calendar month, the period that ends with the same date of the next month constitutes a month. If the succeeding month has no corresponding date, the last day of the month is substituted. Any fraction of a month from the date ending the preceding monthly period to the date of payment constitutes a full month. (7-1-21)T

431. -- 499. (RESERVED)

500. SETTLEMENTS (RULE 500).
Sections 63-3047, 63-3048, Idaho Code. (7-1-21)T

01. Grounds for Settlement. The Tax Commission may settle any taxes, penalties, or interest of a case if one (1) or more of the following circumstances exist: (7-1-21)T

a. Disputed liability, (7-1-21)T
   i. A disputed liability exists where there is a reasonable disagreement as to the existence or amount of the correct tax liability under the law. A disputed liability does not exist where the liability has been established by a final court judgment concerning the existence of the liability. (7-1-21)T
   ii. An offer to settle a disputed liability generally will be considered acceptable if it reasonably reflects the likelihood the Commission could expect to collect through litigation. This analysis includes consideration of the hazards and costs of litigation that would be involved if the liability were litigated. The evaluation of the hazards and costs of litigation is not an exact science and is within the discretion of the Commission. (7-1-21)T

b. Doubt as to collectibility; (7-1-21)T
   i. Doubt as to collectibility exists in any case where the taxpayer's assets and income may not satisfy the full amount of the liability. (7-1-21)T
   ii. An offer to settle based on doubt as to collectibility generally will be considered acceptable if it is unlikely that the tax, penalty, and interest can be collected in full and the offer reasonably reflects the amount the Commission could collect through other means, including administrative and judicial collection remedies. This amount is the reasonable collection potential of a case. In determining the reasonable collection potential of a case, the Commission will take into account the taxpayer's reasonable basic living expenses. In some cases, the Commission may accept an offer of less than the total reasonable collection potential of a case if there are special circumstances. (7-1-21)T

c. Economic hardship of the taxpayer. (7-1-21)T
   i. The Commission may settle where it determines that, although collection in full could be achieved, collection of the full amount would cause the taxpayer economic hardship. Economic hardship is defined as the inability to pay reasonable basic living expenses. (7-1-21)T
ii. An offer to settle based on economic hardship generally will be considered acceptable when, even though the tax, penalty, and interest could be collected in full, the amount offered reflects the amount the Commission can collect without causing the taxpayer economic hardship. The determination to accept a particular amount will be based on the taxpayer's individual facts and circumstances. (7-1-21)T

d. Promotion of effective tax administration.

i. The Commission may settle to promote effective tax administration where compelling public policy or equity considerations identified by the taxpayer provide a sufficient basis for settling the liability that is equitable under the particular facts and circumstances of the case. Settlements pursuant to this paragraph will be justified only where, due to exceptional circumstances, collection of the full liability may undermine public confidence that the tax laws are being administered in a fair and equitable manner. The taxpayer will be expected to demonstrate circumstances that justify settlement even though a similarly situated taxpayer may have paid his liability in full. (7-1-21)T

ii. The State Tax Commission may decline a settlement for reasons promoting effective tax administration if the settlement of the liability would undermine compliance by taxpayers with the tax laws. (7-1-21)T

02. Agreement Final. A settlement agreement relates to the issues agreed to for the tax periods in question. The agreement is final and conclusive and neither the Tax Commission nor the taxpayer will be permitted to open the case again except in the case of changes to the federal return or a showing of fraud or malfeasance or misrepresentation of a material fact or as provided in the agreement. Recalculation of carryback or carryover items may not be construed as opening the case and will not affect the tax liability of a closed period or closed issue. (7-1-21)T

03. Form of Settlement. The taxpayer must submit an offer to settle in writing. An offer may not be considered accepted until the taxpayer is notified in writing. Acceptance may be made only by a Tax Commissioner or an authorized delegate. If the offer is rejected, the Tax Commission will promptly notify the taxpayer. (7-1-21)T

04. Withdrawal of Offer. A taxpayer may withdraw his offer to settle at any time prior to its acceptance by the Tax Commission. (7-1-21)T

501. PROCEDURES ON SETTLEMENTS OVER FIFTY THOUSAND DOLLARS (RULE 501).

Section 63-3048, Idaho Code. (7-1-21)T

01. Signatures for Settlement. For settlement agreements where the amount in issue equals or exceeds fifty thousand dollars ($50,000), the signature of two (2) commissioners is required on the settlement agreement to make it binding and complete. One of the commissioners signing must be delegated the responsibility for oversight of the tax type subject to the settlement. (7-1-21)T

02. Amount in Issue. The amount in issue is defined as the Notice of Deficiency amount, plus or minus any adjustments previously communicated in writing to the taxpayer, minus the proposed settlement amount. (7-1-21)T

a. Example 1. The audit staff issues a Notice of Deficiency to the taxpayer for one hundred fifty thousand dollars ($150,000). The taxpayer then submits documentation for additional examination by the Commission or its staff. As a result of the examination, the amount claimed due is reduced to one hundred twenty thousand dollars ($120,000), and the taxpayer is notified in writing. The taxpayer then submits an offer to settle for eighty thousand dollars ($80,000). The amount in issue is forty thousand dollars ($40,000). (7-1-21)T

b. Example 2. Same facts as in Paragraph 501.02.a., except the taxpayer makes the offer to settle before the Commission communicates the reduction in the amount claimed due based on the additional documentation. In this case, the amount in issue is seventy thousand dollars ($70,000) (NOD amount of $150,000 - settlement offer of $80,000 = $70,000), because the Commission has not communicated the allowance of the deduction to the taxpayer, and the taxpayer is not aware of the adjustment at the time he made the offer. (7-1-21)T
c. Example 3. The taxpayer files a refund claim of one hundred thousand dollars ($100,000). The audit staff reviews the claim and determines the taxpayer is entitled to a refund of twenty thousand dollars ($20,000). The taxpayer protests the denial of the remaining eighty thousand dollars ($80,000). The taxpayer makes an offer to settle by proposing a refund of seventy-five thousand dollars ($75,000). The amount in issue is fifty-five thousand dollars ($55,000), which is the difference between the refund allowed and the proposed settlement amount. The calculation is as follows:

<table>
<thead>
<tr>
<th>Audit staff NOD amount</th>
<th>($20,000)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less settlement offer</td>
<td>- ($75,000)</td>
</tr>
<tr>
<td>Amount in issue</td>
<td>($55,000)</td>
</tr>
</tbody>
</table>

(7-1-21)T

d. Example 4. The taxpayer files a refund claim of one hundred thousand dollars ($100,000). The audit staff reviews the claim and determines the taxpayer is not entitled to a refund and instead owes fifty thousand dollars ($50,000). The audit staff issues a Notice of Deficiency for fifty thousand dollars ($50,000) and a denial of the refund claim. The taxpayer submits additional documentation for examination by the Commission or its staff. After review, the amount claimed due is reduced to thirty thousand dollars ($30,000), and this is communicated to the taxpayer in writing. The taxpayer then offers to settle by proposing a refund of forty thousand dollars ($40,000). The amount in issue is seventy thousand dollars ($70,000). The calculation is as follows:

<table>
<thead>
<tr>
<th>Audit staff NOD amount</th>
<th>$50,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less adjustment submitted to taxpayer</td>
<td>- ($20,000)</td>
</tr>
<tr>
<td>Amount claimed due</td>
<td>$30,000</td>
</tr>
<tr>
<td>Less settlement offer</td>
<td>- ($40,000)</td>
</tr>
<tr>
<td>Amount in issue</td>
<td>$70,000</td>
</tr>
</tbody>
</table>

(7-1-21)T
e. For purposes of the amount in issue, interest will be updated to the date of the offer. (7-1-21)T

03. Final Review. When considering a proposed settlement, and the amount in issue equals or exceeds fifty thousand dollars ($50,000), the Commission will hold a final review before deciding to finalize the settlement. The meeting on the final review will be attended by at least two (2) commissioners, the tax appeals manager or designee, a deputy attorney general, and a representative from the division in which the Notice of Deficiency originated. The representative will be either the division administrator or the bureau chief. One of the commissioners must be the commissioner delegated oversight responsibility for the tax at issue, and the other commissioner signing the settlement agreement must attend the final review. The purpose of the final review is to evaluate the merits of the proposed settlement.

04. Written Summary. The deputy attorney general or tax policy designee at the final review will prepare a written summary of the proposed settlement. The summary will include recommendations of the audit staff as well as recommendations of the preparer. The summary will be provided to those attending the review. This summary does not preclude the Commission from seeking a separate analysis from other agents of the Commission. A copy of the summary, along with a copy of the related settlement agreement, will be maintained in separate files of the Commission. Such files may not be disclosed or inspected under the public records law.

05. Final Review When the Offer to Settle is Based on Inability to Pay. If the taxpayer’s offer is based on inability to pay, a representative of the Collection Division will be provided a copy of the Written Summary and given an opportunity to participate in the final review. The representative attending the final review on behalf of the Collection Division will be the division administrator or the designee.

06. Annual Summary. The Commission will submit an annual report to the governor and legislature by March 1 of each year summarizing all settlement agreements entered into during the previous calendar year in which the amount in issue equals or exceeds fifty thousand dollars ($50,000). The annual summary will be based on
the written summary for all applicable cases. The annual summary will not contain any confidential taxpayer information but will include a brief general description of each settlement. The annual summary will be a public record subject to disclosure and inspection. (7-1-21)

Applicable Settlements. This rule applies to those matters when a protest has been timely filed pursuant to Section 63-3045, Idaho Code, and before the tax has been assessed, and to cases in which a decision of the Tax Commission has been appealed to the Board of Tax Appeals or to a court. However, this rule will not apply to settlements where the amount in issue is less than fifty thousand dollars ($50,000). (7-1-21)

502. -- 599. (RESERVED)

JUDICIAL REVIEW: REQUIRED SECURITY (RULE 600).
Section 63-3049(b), Idaho Code. (7-1-21)

Acceptable Security. For purposes of obtaining judicial review, the taxpayer must submit one (1) of the following securities:

a. Cash in the form of a cashier’s check, money order, or other certified funds that are payable to the Tax Commission. (7-1-21)

b. A bond executed by a surety company licensed and authorized to do business in Idaho, conditioned on the payment of any tax, penalty, and interest that may be found due by the court. (7-1-21)

c. Bearer bonds or other similar obligations of the United States having a market value not less than twenty percent (20%) of the amount asserted. (7-1-21)

d. Automatically renewable time certificates of deposit, not exceeding the federally insured amount, issued by a bank doing business in Idaho and insured by the Federal Deposit Insurance Corporation. They must be made in the name of the depositor, payable to the Tax Commission, and contain a provision that interest earned shall be payable to the depositor. (7-1-21)

e. Investment certificates or share accounts, not exceeding the federally insured amount, issued by a savings and loan association doing business in Idaho and insured by the Federal Savings and Loan Insurance Corporation. Evidence of the insured account, either certificate or passbook, must be delivered to the Tax Commission, along with a properly executed assignment form whereby the funds on deposit are assigned and made payable to the Tax Commission. (7-1-21)

f. Irrevocable letters of credit not exceeding the federally insured amount, issued by a bank doing business in Idaho and insured by the Federal Deposit Insurance Corporation, made to the benefit of the Tax Commission. The terms of the letter of credit must permit the Tax Commission to make demand directly against the issuer of the letter of credit for not less than twenty percent (20%) of the amount asserted, on which the taxpayer’s rights to appeal have expired, and for which the letter of credit was submitted to secure. (7-1-21)

Other Security. Other security may be accepted by the Tax Commission to secure a taxpayer’s right of appeal if the Tax Commission has previously agreed in writing to accept the other security in lieu of a cash payment. (7-1-21)

Amount Asserted. For purposes of this rule, amount asserted is defined in Section 63-3049, Idaho Code. (7-1-21)

RESERVED

DISCLOSURE OF INFORMATION: SCOPE (RULE 700).
Sections 63-3076, 63-3077, Idaho Code. (7-1-21)

In General. Rules 700 through 709 of these rules provide guidelines for disclosure of information gained by the Tax Commission in administering and enforcing tax laws when the information is confidential pursuant
to Sections 63-3076 and 63-3077, Idaho Code.

02. **Information That Is Not Return Information.** The following are examples of information not considered return information for purposes of Rules 700 through 709 of these rules:

a. Decisions published pursuant to Section 63-3045B, Idaho Code;

b. Data in a form that cannot be associated with or otherwise identify, directly or indirectly, a particular taxpayer.

03. **Auditing Standards.** Standards used when selecting returns for examination and data used when determining these standards may not be disclosed.

701. **(RESERVED)**

702. **DISCLOSURE OF INFORMATION: THIRD PARTIES (RULE 702).** Sections 63-3076 and 63-3077, Idaho Code.

01. **In General.** The Tax Commission may not disclose returns or return information about a taxpayer to any person other than that taxpayer or an authorized representative of the taxpayer except as provided by statute or rule.

02. **Written Authorization to Disclose Information.**

a. The Tax Commission may disclose a taxpayer’s returns or return information to a person designated in writing by that taxpayer.

b. The written authorization must contain:

i. The taxpayer’s name, address and social security number, employer identification number, or other identifying number that relates to the returns or return information to be disclosed;

ii. The name and address of the person to whom disclosure is authorized;

iii. Language indicating the taxpayer’s consent to disclosure of information;

iv. The tax period or periods for which disclosure may be made; and

v. The signature of the taxpayer, or if the taxpayer is a corporation or other business organization or an entity other than an individual, the signature of an authorized employee or officer of the taxpayer.

03. **Audits or Investigations.** Tax Commission employees and authorized agents may make inquiries of any person or any employee of a person to collect or ascertain any tax liability, to determine the correctness of a return or return information, or for any other purpose relating to the Tax Commission’s duties of administering or enforcing Idaho tax laws. Disclosures necessary to these inquiries are authorized.

04. **Testimony in Judicial or Administrative Proceedings.** If a Tax Commissioner, Tax Commission employee or agent is required to appear in court in an action where the Commission, employee or agent is not a party or where taxation is not in issue, by subpoena or otherwise, he may appear but shall refuse to testify without written authorization from the taxpayer, and may object to his appearance on the basis of this rule and Section 63-3076, Idaho Code. Information requested in a subpoena issued by a United States Grand Jury shall be provided.
703. DISCLOSURE OF INFORMATION: GENERAL PUBLIC (RULE 703).
Sections 63-3076, 63-3077, Idaho Code.

01. Public Information. The Tax Commission may disclose information about a taxpayer that is public information. This includes information introduced as evidence in any court, before the Board of Tax Appeals, through the filing of liens, or through publication other than by the Tax Commission.

02. Correction of Information. The Tax Commission, after notifying the taxpayer, may disclose information necessary to correct misleading statements or misrepresentations publicized by the taxpayer or his agents or employees regarding his liability to the state of Idaho, his conduct in relation to the Tax Commission, or proceedings, audits or investigations of the taxpayer by the Tax Commission.

03. Written Decisions of the Tax Commission. Written decisions of the Tax Commission shall be available to the public as required by Section 63-3045B, Idaho Code. Before publishing a decision, the taxpayer shall first have the opportunity to review the decision and request in writing that specific information be deleted. If the Tax Commission does not receive a written request from the taxpayer for deletions within ninety-one (91) days following the date of the final decision, it will be presumed that the taxpayer does not object to publication of any information in the decision.

704. DISCLOSURE OF INFORMATION: GOVERNMENT AGENCIES AND OFFICIALS (RULE 704).

01. Legislature. The Tax Commission will disclose returns or return information to the Idaho Legislature on the written request of the chair of any committee of either branch of the Idaho Legislature on behalf of the committee. When authorized by statute, the Tax Commission will disclose information to the Legislative Council, the Joint Legislative Oversight Committee, or to the Joint Finance and Appropriations Committee.

02. Government Agencies or Officials. The Tax Commission will disclose information necessary to comply with provisions of the Idaho Code requiring reports or information to be provided to government agencies or officials. This includes the disclosure of tax returns and return information for use in enforcing child support obligations pursuant to Section 56-231, Idaho Code.

03. Exchange of Information. Information may be exchanged between the Tax Commission and:

a. The Internal Revenue Service, as allowed by Sections 63-3077(1)(a) and 63-3077D, Idaho Code;

b. Other states, if reciprocal provisions for information exchanges are granted under Section 63-3077(1)(b), Idaho Code;

c. County assessors, limited to:

i. Information relating to the taxpayer’s residence or domicile and his claim of the homeowner’s property tax exemption as provided in Sections 63-3077(4) and 63-602G, Idaho Code; and

ii. Information related to the property tax exemption claimed in lieu of the Idaho investment tax credit, as allowed by Section 63-3029B, Idaho Code.

d. Department of Labor, as allowed by Section 63-3077A, Idaho Code;

e. Industrial Commission, as limited by Section 63-3077B, Idaho Code;

f. Multistate Tax Commission, as allowed by Section 63-3077(1)(b), Idaho Code;

g. Idaho Transportation Department, relating to:
705. DISCLOSURE OF INFORMATION -- IDENTITY THEFT (RULE 705).
Section 63-3077F, Idaho Code.

01. In General. The Tax Commission may disclose to a victim of identity theft the name and address of an individual using the victim’s social security number or other tax identification number. If the victim of identity theft is a minor, the Tax Commission may disclose the information to the parent or legal guardian. If the victim is deceased, the Tax Commission may disclose the information to the surviving spouse or executor of the estate.

02. Written Authorization to Disclose Information.

a. The Tax Commission may disclose the name and address to the victim upon receipt of a valid
written information request.

b. The written request must contain:

i. The victim’s name, address, and social security number or other tax identification number;

ii. The tax year affected;

iii. The signature of the victim or legal representative;

iv. Copies of the victim’s driver’s license and social security card or passport, if applicable.

v. If the victim is a minor, a copy of the birth certificate along with the driver’s license or passport of the parent or legal guardian.

vi. If the victim is deceased, a copy of the legal document authorizing the executor of the estate along with the executor’s driver’s license or passport.

800. DEFINITIONS FOR PURPOSES OF THE TAXPAYERS’ BILL OF RIGHTS (RULE 800).

01. Collection and Enforcement. For purposes of the taxpayers’ bill of rights, the terms collection and enforcement include only post-assessment processes.

02. Publication. For purposes of the taxpayers’ bill of rights, publication means communicating to the general public. Publication does not include internal communication or communication with other governmental agencies as provided for by statute.

03. Written Notification of Representation. A taxpayer’s written notification that he will be represented by another person must include the information required for a valid power of attorney. If the notification is not valid, the revenue officer shall communicate with the taxpayer. The revenue officer should exercise reasonable care in determining whether a power of attorney exists.

810. ACQUISITION OF LOCATION INFORMATION (RULE 810).

Section 63-4002, Idaho Code. A revenue officer may contact a person again if it is reasonable to believe that the person may have acquired new location information since the prior contact.

820. COMMUNICATION IN CONNECTION WITH TAX COLLECTION (RULE 820).

Section 63-4003, Idaho Code. A revenue officer may contact a taxpayer before 8 a.m. or after 9 p.m. if it is reasonable to believe that these times are more convenient for the taxpayer.
EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 42-603, 42-1734D, 42-1762, and 42-1805(8), Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 37, rules of the Idaho Department of Water Resources (IDWR) and Idaho Water Resource Board (IWRB):

**IDAPA 37**
- 37.02.01, Comprehensive State Water Plan Rules;
- 37.02.04, Shoshone-Bannock Tribal Water Supply Bank Rules;
- 37.03.11, Rules for Conjunctive Management of Surface and Ground Water Resources; and
- 37.03.12, Idaho Department of Water Resources Water Distribution Rules – Water District 34.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the adoption of temporary rules, contact Mathew Weaver, Deputy Director at (208) 287-4800.

DATED this 1st day of July, 2021.

Gary Spackman, Director
Idaho Department of Water Resources
322 E. Front Street
PO Box 83720
Boise, ID 83720
Phone: (208) 287-4800
000. LEGAL AUTHORITY (RULE 0).
The Board promulgates these rules pursuant to authority provided by Sections 42-1734D and 67-5203, Idaho Code. (7-1-21)T

001. SCOPE (RULE 1).
The purpose of these rules is to establish the procedures used by the Idaho Water Resource Board for designating a waterway as an interim protected river, adopting a comprehensive plan for a waterway, and providing adequate notice of any petitions filed or actions contemplated pursuant to the State Comprehensive Water Plan Act, 1988 Sess. Laws, ch. 370, p. 1090, codified as Sections 42-1730--1731 and 42-1734A--1734I, Idaho Code. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).

01. Alteration. Any activity using mechanized equipment that moves or overturns gravel or earth. (7-1-21)T

02. Board. The Idaho Water Resource Board. (7-1-21)T

03. Comprehensive State Water Plan. The plan adopted by the Board pursuant to Section 42-1734A, Idaho Code, or a component of such plan developed for a particular water resource, waterway or waterways and approved by the Legislature. (7-1-21)T

04. Director. The director of the Idaho Department of Water Resources. (7-1-21)T

05. Dredge or Placer Mining. Any dredge or other placer mining operation to recover minerals with the use of a dredge boat or sluice washing plant whether fed by bucket line as a part of such dredge or by a separate dragline or any other method including, but not limited to, suction dredges that are capable of moving more than two (2) cubic yards per hour of earth material. (7-1-21)T

06. Hydropower Project. Any development that uses a flow of water as a source of electrical or mechanical power, or that regulates the flow of water for the purpose of generating electrical or mechanical power. A hydropower project development includes all powerhouses, dams, water conduits, transmission lines, water impoundments, roads, and other appurtenant works and structures. (7-1-21)T

07. Interim Protected River. A waterway designated pursuant to Section 42-1734D or 42-1734H, Idaho Code, as protected for up to two (2) years while a component of the comprehensive state water plan is prepared for that waterway. (7-1-21)T

08. Natural River. A waterway that possesses outstanding fish and wildlife, recreation, geologic or aesthetic values, is free of substantial existing man-made impoundments, dams or other structures, and has riparian areas that are largely undeveloped, although accessible in places by trails and roads. (7-1-21)T

09. Publicize. To notify the public through press releases to the media, published notice in local, regional or statewide publications, and other procedures, as may be appropriate to inform and notify the local and general public of an impending action or decision. (7-1-21)T

10. Protected River. A waterway protected in the comprehensive state water plan by designation as either a natural river or a recreational river. (7-1-21)T

11. Recreational River. A waterway that possesses outstanding fish and wildlife, recreation, geologic or aesthetic values, and might include some man-made development within the waterway or within the riparian area of the waterway. (7-1-21)T

12. Riparian Area. That area within one hundred (100) feet of the mean highwater mark of a waterway. (7-1-21)T

13. State Agency. Any board, commission, department or executive agency of the state of Idaho. (7-1-21)T

14. Stream Bed. A natural water course of perceptible extent with definite bed and banks that confines
and conducts the water of a waterway that lies below and between the ordinary high water mark on either side of that waterway.

15. Waterway. A river, stream, creek, lake or spring, or a portion thereof, and does not include any tributary thereof.

011. - 014. (RESERVED)

015. INTERIM PROTECTED RIVERS (RULE 15).

01. Legislative Directive. Pursuant to the legislative directive of Section 42-1734H, Idaho Code, the Board by resolution at a regularly scheduled meeting on July 1, 1988, designated the following waterways as interim protected rivers:

a. Priest River, from the Canadian Border to the confluence of Priest Lake;

b. South Fork of the Boise River, from Anderson Ranch Dam to Neal Bridge;

c. Snake River, from Section 5, Township 11 South, Range 20 East, B.M. to King Hill;

d. The following waterways within the Payette River Basin:
   i. North Fork of the Payette River, from Cabarton Bridge to Banks;
   ii. South Fork of the Payette River, from the Sawtooth Wilderness Boundary to Banks;
   iii. Main Payette River, from Banks to Black Canyon Dam; and

e. Henry’s Fork of the Snake River from its point of origin at Henry’s Lake to the point of its confluence with the backwaters of Ashton Reservoir.

02. Designation. Prior to the adoption of a comprehensive plan for a waterway the board may designate a waterway as an interim protected river.

03. Board Initiative. The board may consider a waterway for designation as an interim protected river upon its own initiative.

04. Petitions. The board will accept petitions requesting the board to designate a waterway as an interim protected river only from a state agency. The acceptability of a petition requiring clarification or corrections shall be determined by the director.

05. Form. Petitions shall be in writing, signed by the agency head, and shall describe the waterway, or portion thereof, requested to be designated as an interim protected river.

06. Filing. Petitions shall be filed with the director. No petition will be considered by the board at a board meeting unless filed with the director at least thirty (30) days prior to such board meeting.

07. Notice of Consideration. The petitioning agency will be notified at least ten (10) days prior to the meeting of the time, place, and agenda for the board meeting at which the petition will first be considered.

08. Board Agenda. The board agenda will include time for representatives of the petitioning agency to describe the affected waterway and the agency’s reasons for seeking interim protection for that waterway.

09. Public Notice. The board will publicize the proposed interim designation of the waterway.

10. Public Input. The board will hold either a public information meeting or a hearing, as the board
deems appropriate, to obtain public input on the merits of a proposed interim protected river designation. The board is not limited to one (1) meeting or hearing, and may elect to hold more than one (1) of each, or any combination thereof, as the board deems appropriate. (7-1-21)

11. **Board Determination.** At a board meeting not more than six (6) months after a petition for interim protected river designation has been filed with the director, the board shall determine whether the nominated waterway merits designation as an interim protected river. The results of the board decision, including identification of any prohibited activities under Rule 25, shall be publicized. (7-1-21)

a. **Basis of Determination.** Designation of a waterway as an interim protected river shall be based upon a determination by the board that:

i. It is probable that the waterway would be designated a protected river in the comprehensive state water plan; and

ii. Interim protected river status is necessary to protect the values that would support such waterway’s designation as a protected river in a comprehensive state water plan. (7-1-21)

b. **Staff and Funding Considerations.** Since the designation of a waterway as an interim protected river is limited to a term of two (2) years, unless extended by law, the board shall consider in its determination process the availability of staff and funding to complete a comprehensive plan for the designated waterway during the two (2) years following designation. (7-1-21)

c. **Repeat Filing of Denied Petitions.** If the board determines not to afford interim protection to a nominated waterway, the board shall not subsequently entertain petitions seeking interim designation for that same waterway for a period of one (1) year from the date of board action. (7-1-21)

d. **Lack of Review.** There shall be no review of any board decision rejecting or accepting a nomination for an interim protected waterway. (7-1-21)

12. **Relation to Comprehensive Water Plan.** If a waterway is designated as an interim protected river, then the board shall, pursuant to Subsection 6 of Section 42-1734D, Idaho Code, proceed to prepare a comprehensive state water plan for the waterway. The board shall in preparing the state comprehensive water plan for the waterway consider, after review of all relevant factors contained in Section 42-1734A, Idaho Code, whether the designation should continue or whether modification of the designation is warranted. (7-1-21)

13. **Duration of Interim Protected Status.** The designation of a waterway as an interim protected river shall remain in effect, pursuant to Subsection 4 of Section 42-1734D, Idaho Code, until the earliest of:

a. The adoption of a comprehensive state water plan for the waterway designated as an interim protected river; (7-1-21)

b. Two (2) years following the designation of an interim protected river unless extended by law. (7-1-21)

c. The revocation of a waterway’s interim protected river status by law. (7-1-21)

14. **Subsequent Designations.** If the designation of a waterway as an interim protected river is either revoked by law, or terminated as provided in Section 42-1734D, Idaho Code, then the waterway shall not be eligible for designation as an interim protected river for a period of two (2) years following the revocation or termination of its interim protected river status. (7-1-21)

016. -- 024. (RESERVED)

025. **PROHIBITED ACTIVITIES ON INTERIM PROTECTED RIVERS (RULE 25).**
01. **Board Identification.** Upon designating a waterway for interim protected river status, the board shall indicate which of the following activities listed in Subsection 5 of Section 42-1734A, Idaho Code, shall be prohibited:

   a. Construction or expansion of dams or impoundments; (7-1-21)
   b. Construction of hydropower projects; (7-1-21)
   c. Construction of water diversion works; (7-1-21)
   d. Dredge or placer mining; (7-1-21)
   e. Alterations of the stream bed; and (7-1-21)
   f. Mineral or sand and gravel extraction within the stream bed. (7-1-21)

02. **Petitions to Exempt Specific Action or Projects.** Any person who is the owner, operator, or authorized official of an organization proposing to undertake or construct a prohibited activity or project may petition the board seeking a determination that the particular proposed action or project will not significantly impair the values supporting a waterway’s designation as an interim protected river.

   a. Form. Petitions shall be in writing, signed by the owner, operator, or designated official of the petitioner, and describe the proposed action or project and its location. (7-1-21)
   b. Filing. Petitions shall be filed with the director. No petition will be considered by the board at a board meeting unless filed with the director at least thirty (30) days prior to such board meeting. (7-1-21)

03. **Notice of Consideration.** Petitioning parties will be notified at least ten (10) days prior to the meeting of the time, place, and agenda for the board meeting at which their petition will first be considered. (7-1-21)

04. **Board Agenda.** The board agenda will include time for the petitioner or his representative to describe the affected waterway or stream reach and to explain how the particular proposed action or project would not significantly impair the values supporting a waterway’s designation as an interim protected river. (7-1-21)

05. **Public Notice.** The board will publicize the fact that the board is considering exempting the particular proposed action or project from one or more of the activities prohibited by the designation of the waterway as an interim protected river. (7-1-21)

06. **Public Input.** The board will hold a public hearing, and may hold one (1) or more information meetings in the affected area if the board deems this to be appropriate, to obtain public input on the merits of a proposed exemption. The public hearing may be scheduled in conjunction with the board meeting provided for in Rule Subsection 025.07. (7-1-21)

07. **Board Determination.** At a board meeting not more than four (4) months after a petition for exemption from the prohibitions of interim protected river status has been received by the director, the board shall determine whether the proposed action or project would impair those values being protected by interim designation. In unusual circumstances, the board may extend the four (4) month period allowed for board action. (7-1-21)

   a. Basis of Determination. In determining whether a particular proposed action or project will significantly impair the values supporting a waterway’s designation as an interim protected river, the board may consider any relevant information including environmental impact statements, technical studies and any other relevant comments or recommendations prepared for use before other state or federal agencies. The burden shall be on the petitioner to show that the proposed action will not impair those values supporting a waterway’s designation as an interim protected river. (7-1-21)
   b. Approved Exemptions -- Conditions. If the board determines the proposed action or project will not
significantly impair the values supporting the waterway’s designation as an interim protected river, then the proposed action or project shall be allowed to proceed, except that the board, after consultation with relevant state agencies, may impose appropriate conditions on such action or project, and shall advise any affected regulatory agency of such conditions. (7-1-21)

c. Emergency Waiver. The board delegates to the director the authority to determine if immediate action is required because of a potential for loss of life, damage to structures, or damage to public utilities or thoroughfares. In such cases alterations of a stream bed shall be allowed even though otherwise prohibited by board action. Such alterations shall meet all other applicable state law. (7-1-21)

08. Judicial Review. Pursuant to Subsection 5 of Section 42-1734D, Idaho Code, an aggrieved party may seek judicial review of the board’s decision in accordance with Sections 67-5215 and 67-5216, Idaho Code. (7-1-21)

026. -- 029. (RESERVED)

030. COMPREHENSIVE STATE WATER PLAN (RULE 30).

01. Planning Authority. Pursuant to the provisions of Sections 42-1734A and 42-1734B, Idaho Code, the board shall, subject to legislative approval, progressively formulate, adopt and implement a comprehensive state water plan for conservation, development, management and optimum use of all unappropriated water resources and waterways of the state in the public interest. As part of the comprehensive state water plan, the board may designate selected waterways as protected rivers. The comprehensive state water plan shall contain a description of existing and planned uses, and the impact of such uses at the local, state, and regional level for those resources and uses identified in Subsection 3 of Section 42-1734A, Idaho Code. The plan shall quantify, insofar as possible, the unappropriated waters of the planning area, and shall plan the allocation of such waters among the various competing uses. (7-1-21)

a. Coordination. The comprehensive state water plan shall be based upon studies and public hearings in affected areas. In addition, the board will encourage the cooperation, participation and assistance of the state departments of Lands, Parks and Recreation, Fish and Game, Health and Welfare, and Transportation, as well as federal agencies, local units of government, and affected Indian tribes. (7-1-21)

b. Local Advisory Group. The board will seek the involvement of volunteers from the geographic area to be affected by a portion of the comprehensive water plan. These volunteers shall constitute a local advisory group that shall inform the board of local concerns. (7-1-21)

02. Public Hearings. Prior to developing a comprehensive plan for any waterway, river basin, drainage area, river reach, ground water aquifer or other geographic area, the board will hold at least one information meeting in the affected area at which all interested parties will be given the opportunity to advise the board on the scope of the proposed planning effort. Prior to adopting a comprehensive plan for any area the board will hold at least one (1) hearing in the affected area at which all interested parties will be given the opportunity to appear or to present written testimony in response to published proposals for adoption of a comprehensive plan. (7-1-21)

a. Public Notice. The board will publicize both information meetings and hearings that impact on the development or adoption of a comprehensive plan for any area. (7-1-21)

b. Written Comments. A minimum of sixty (60) days shall be allowed by the board between the announcing of a proposal for the adoption of a comprehensive state water plan or any component thereof and the close of the comment period for such proposed action. (7-1-21)

03. Legislative Review. Upon adoption of a comprehensive state water plan or any component thereof, the board shall present such plan for review to the Idaho legislature at the next regular legislative session following adoption. (7-1-21)

031. -- 034. (RESERVED)
AMENDING THE COMPREHENSIVE STATE WATER PLAN (RULE 35).

01. Petitions. The board will accept written petitions seeking amendment of the comprehensive state water plan only from a state agency. (7-1-21)

02. Form. Petitions shall be in writing, signed by the agency head, and shall describe those portions of the comprehensive water plan to be amended and the reasons for the proposed amendments. (7-1-21)

03. Filing. Petitions shall be filed with the director. No petition shall be considered by the board at a board meeting unless filed with the director at least thirty (30) days prior to such board meeting. (7-1-21)

04. Notice of Consideration. The petitioning state agency will be notified at least ten (10) days prior to the meeting of the time, place, and agenda for the board meeting at which the agency’s petition will first be considered. (7-1-21)

05. Board Agenda. The board agenda will include time for representatives of the petitioning agency to explain why amending the comprehensive state water plan is considered necessary. (7-1-21)

06. Board Determination. At a board meeting not more than six (6) months after a petition to amend the comprehensive state water plan has been filed with the director, the board shall either commence action to amend the comprehensive plan or set forth its reason for denying the request in writing. (7-1-21)

07. Amending Procedure. If the board chooses to amend the comprehensive state water plan, the board shall do so in the same manner as provided for adoption of the original plan. (7-1-21)

08. Amendment by Board Initiative. Nothing in these rules shall prevent the board from reviewing and reevaluating portions of the plan upon its own initiative, and amending the plan in the same manner as provided for adoption of the original plan. (7-1-21)

09. Requests to Amend. The board will entertain requests from individuals to amend a component of the comprehensive state water plan. (7-1-21)

10. Board Evaluation. The board shall determine whether to consider a proposed amendment based on those factors contained in Section 42-1734A(3), Idaho Code, and their charge to plan for the conservation, development, management and optimum use of all unappropriated water resources and waterways of the state in the public interest. (7-1-21)

11. Legislative Review. The board shall submit the comprehensive state water plan and any component thereof for a particular waterway, or any modification of the plan, to the legislature for review and possible amendment by law at the next regular legislative session following adoption by the board. (7-1-21)

036. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules have been adopted pursuant to Sections 42-1761 to 42-1765, Idaho Code, Idaho Water Resources Board Water Supply Bank Rule 40 and The 1990 Fort Hall Indian Water Rights Agreement (Agreement) to assure orderly operation of the Shoshone-Bannock Tribal Water Supply Bank.

001. TITLE AND SCOPE (RULE 1).

01. Purpose. The purpose of establishing this Shoshone-Bannock Water Supply Bank is to allow for rental for any beneficial use all or any part of the water accruing to the federal contract storage rights in the American Falls Reservoir and the Palisades Reservoir as described in Article 7.3.1 of the Agreement not used on Indian lands or otherwise required to fulfill the exchange established by Article 8 of the Michaud Contract.

02. Intent. These rules are not intended to prohibit the Tribes from renting the storage contract water from Palisades and American Fall Reservoirs for any beneficial use within the exterior boundaries of the Reservation.

03. Agreement. The Idaho Water Resources Board or its successors, pursuant to Section 7.3.6 of the Agreement, agrees not to take any action that will interfere with the nature, scope, spirit and purposes of the Shoshone-Bannock Water Supply Bank.

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
In addition to the definitions set forth below, the definitions in “The 1990 Fort Hall Indian Water Rights Agreement” are incorporated to the extent they are applicable.

01. Acre Foot. The amount of water necessary to cover one (1) acre of land to a depth of one (1) foot and is equivalent to forty-three thousand five hundred sixty (43,560) cubic feet or three hundred twenty-five thousand eight hundred fifty-one (325,851) gallons of water.

03. Annual. The period starting on the day following the first Monday in March of each year and ending on the first Monday of March of the succeeding year.

05. Beneficial Use. Any use of water for DCMI, irrigation, hydropower generation, recreation, stock watering, fish propagation and instream flow uses as well as any other uses that provide a benefit to the user of the water.

06. Bureau. The United States Department of Interior Bureau of Reclamation.

07. Chairperson. The person selected by the Tribal Rental Pool Committee to be the head of the Committee.

08. Committee. The Tribal Rental Pool Committee.

10. IDWR. The Idaho Department of Water Resources an executive agency of the state of Idaho created by Section 42-1701, Idaho Code, or any successor agency.

11. IWRB. The Idaho Water Resource Board an agency constituted in accordance with Idaho Const. art. XV, Section 7, or any successor agency.

12. Rent. A temporary legal conveyance by the Tribes of the right to use storage water pursuant to Section 42-1761, Idaho Code, for a fixed period of time during which ownership of the federal contract storage right is retained for the benefit of the Tribes.
13. **Rental Pool.** The Tribal stored water assigned to the Bank. (7-1-21)T
14. **Renter.** The person renting water from the rental pool. (7-1-21)T
15. **Reservation.** The Fort Hall Indian Reservation. (7-1-21)T
16. **Reservation Watermaster.** The Tribal Water Engineer or any successor designated by the Tribes to administer the Tribal water rights under the Tribal Water Code. (7-1-21)T
17. **Snake River Watermaster.** The watermaster of Water District 01 or any successor. (7-1-21)T
18. **Tribal Stored Water.** The storage water accruing to the federal contract storage space identified in Article 7.3.1 of the Agreement. (7-1-21)T
19. **Tribal Water Engineer.** The Tribal officer or any successor designated to administer the Tribal Water Code. (7-1-21)T
20. **Tribes.** The Shoshone-Bannock Tribes. (7-1-21)T

011. -- 024. (RESERVED)

025. **GENERAL (RULE 25).**

01. **Priority of Use.** Before stored water is assigned to the rental pool, Tribal stored water shall be maintained and made available for Tribal uses as determined by the Council and to meet the commitment of the Tribes under Article 8 of the Michaud Contract. The water is to be rented for beneficial use and may be rented outside the Reservation subject to the provisions of Rule 45 of these Water Supply Bank Rules. (7-1-21)T

02. **Bank Operation.** The operation of the Bank shall be consistent with the Agreement. The Bank shall be for the exclusive purpose of rental of Tribal stored water. (7-1-21)T

03. **Authority of Bank.** The Shoshone-Bannock Water Supply Bank is created pursuant to the provisions of the following Sections 42-1761, 42-1762, 42-1763, 42-1764, and 42-1765, Idaho Code. (7-1-21)T

04. **Incorporation of Articles.** These rules incorporate by reference the provisions set forth in Article 7.3.5, 7.3.10 and 7.3.11 of the Agreement. (7-1-21)T

05. **Consistency.** The operation of the Bank shall be consistent with provisions of the Tribes’ spaceholder contracts with the United States. (7-1-21)T

06. **Storage Water.** Tribal stored water rented from the pool shall be deemed storage water of the renter. (7-1-21)T

07. **Evaporation Losses.** Evaporation losses associated with any Tribal stored water assigned to the Bank shall be charged to storage space from which the water is released. (7-1-21)T

026. -- 029. (RESERVED)

030. **MANAGEMENT (RULE 30).**

01. **Bank Operation.** The Bank shall be operated by the Tribal Rental Pool Committee in conformity with these rules and the Agreement. (7-1-21)T

02. **Committee Composition.** The Tribal Rental Pool Committee shall be composed of the following members: the Bureau Snake River Area Manager, the Snake River Watermaster, the Tribal Reservation Watermaster and three (3) individuals designated by the Council. The composition of this Committee shall only be changed as provided in the Agreement. (7-1-21)T
03. **Chairperson Selection.** The Committee shall select its own Chairperson from the Committee as determined by a majority vote of the Committee. Each term of the Chairperson of the Committee shall not exceed four (4) years; however, nothing precludes the same person from being re-elected as Chairperson by the members for more than one (1) term. (7-1-21)

04. **Committee Responsibilities.** The Tribal Rental Pool Committee shall have the following responsibilities:

a. The Committee shall ensure that the Bank is operated in compliance with these rules and the Agreement and shall establish such other polices for the operation of the Bank as are consistent with these rules and the Agreement. (7-1-21)

b. The Committee shall advise the Fort Hall Business Council on water banking activities upon request. (7-1-21)

05. **Chairperson Duties.** The Chairperson shall be responsible for such duties as are delegated by the Committee. (7-1-21)

031. -- 034. (RESERVED)

035. **ASSIGNMENTS OF TRIBAL STORED WATER TO THE BANK (RULE 35).**

01. **Assignments of Stored Water.** Assignments of Tribal stored water to the Bank should identify the reservoir from which the assignment is being made. If no reservoir is identified, the Tribal stored water shall be deemed to come first from the Palisades Reservoir and secondly from American Falls Reservoir. (7-1-21)

02. **Assignment Forms.** Assignments of Tribal stored water to the Bank shall be in writing on forms provided by the Committee and shall bear the date received by the Chairperson. Copies of all assignments shall be provided to all the Committee members and a copy shall be provided to the Council. (7-1-21)

03. **Term of Assignment.** Assignments of Tribal stored water may be made for any period of time. (7-1-21)

04. **Control of Assigned Water.** All Tribal stored water assigned to the Bank by the Council shall be under the control of the Committee for the duration of the term of the assignment to be rented in accordance with these rules and the terms of the assignment. (7-1-21)

05. **Space Assignment.** Whenever Tribal stored water is made available for rental, it shall be deemed that it is the intention of the Tribes to assign sufficient space to yield the amount of water designated. (7-1-21)

06. **Return of Unrented Water.** Any Tribal stored water assigned to the rental pool that is not rented shall be returned to the credit of the Tribes. (7-1-21)

036. -- 039. (RESERVED)

040. **RENTAL OF WATER FROM THE RENTAL POOL (RULE 40).**

01. **Rental Priorities.** Tribal stored water assigned to the Bank shall be made available for rental in accordance with the priorities established by the Committee, provided that the Fort Hall Indian Irrigation Project water users shall have a right of first refusal to rent any tribal stored water assigned to the rental pool. Notice shall be given in accordance with procedures established by agreement of the Tribes and the Fort Hall Indian Irrigation Project water users. (7-1-21)

02. **Rental Application.** A request to rent water shall be in writing on a form provided by the Committee. A copy of the request shall be provided to each member of the Committee and forwarded to the Council. (7-1-21)
03. **Content of Agreements.** All rental agreements shall contain the following information:

a. Name and address of the renter, (7-1-21)

b. Amount of tribal stored water obligated, (7-1-21)

c. The beneficial use, (7-1-21)

d. The rental price, (7-1-21)

e. The legal description of the point of diversion and place of use, (7-1-21)

f. The duration of the rental agreement, (7-1-21)

g. The understanding of responsibilities and exposures if reservoir space does not fill at some time during the term of the rental agreement. (7-1-21)

h. The understanding that transportation losses occurring between the reservoir and the place of use shall be deducted from water delivered under the rental agreement. (7-1-21)

041. -- 044. (RESERVED)

045. **GEOGRAPHIC SCOPE OF RENTING (RULE 45).**

01. **Palisades Storage.** Tribal stored water from the Palisades Reservoir may be rented for use within the Snake River Basin above Milner Dam. (7-1-21)

02. **American Falls Storage.** Tribal stored water from the American Falls Reservoir may be rented for use within the Snake River Basin within the state of Idaho. (7-1-21)

046. -- 049. (RESERVED)

050. **RENTAL PAYMENTS (RULE 50).**

01. **Rental Price.** The price for rental Tribal stored water from the bank shall be set by the Council. (7-1-21)

02. **Management of Rental Income.** Rental payments shall be made directly to the Council. The Council shall be responsible for the management of the rental income. The Council shall give written notice to the Committee that payment was properly received and that water may be released under the rental agreement. If payments are made over time, and payment is not received by the Council, the Council shall promptly notify the Committee to hold back on release of the water until payment is properly received. (7-1-21)

051. -- 054. (RESERVED)

055. **TERM OF RENTALS (RULE 55).**
The Committee may rent tribal stored water for a period of up to five (5) years. Any request to rent water for a period in excess of five (5) years shall be subject to negotiations between the Tribes and the IWRB. (7-1-21)

056. -- 059. (RESERVED)

060. **LIABILITY (RULE 60).**
Nothing in these rules shall be construed as modifying or altering any provisions of the Agreement, including but not limited to Article 7.3.12. (7-1-21)

061. -- 999. (RESERVED)
37.03.11 – RULES FOR CONJUNCTIVE MANAGEMENT OF SURFACE AND GROUND WATER RESOURCES

000. LEGAL AUTHORITY (RULE 0).
These rules are promulgated pursuant to Chapter 52, Title 67, Idaho Code, the Idaho Administrative Procedure Act, and Section 42-603, Idaho Code, which provides that the Director of the Department of Water Resources is authorized to adopt rules and regulations for the distribution of water from the streams, rivers, lakes, ground water and other natural water sources as necessary to carry out the laws in accordance with the priorities of the rights of the users thereof. These rules are also issued pursuant to Section 42-1805(8), Idaho Code, which provides the Director with authority to promulgate rules implementing or effectuating the powers and duties of the department. (7-1-21)

001. SCOPE (RULE 1).
The rules prescribe procedures for responding to a delivery call made by the holder of a senior-priority surface or ground water right against the holder of a junior-priority ground water right in an area having a common ground water supply. It is intended that these rules be incorporated into general rules governing water distribution in Idaho when such rules are adopted subsequently. (7-1-21)

002. OTHER AUTHORITIES REMAIN APPLICABLE (RULE 2).
Nothing in these rules limits the Director’s authority to take alternative or additional actions relating to the management of water resources as provided by Idaho law. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
For the purposes of these rules, the following terms will be used as defined below. (7-1-21)

01. Area Having a Common Ground Water Supply. A ground water source within which the diversion and use of ground water or changes in ground water recharge affect the flow of water in a surface water source or within which the diversion and use of water by a holder of a ground water right affects the ground water supply available to the holders of other ground water rights. (Section 42-237a.g., Idaho Code) (7-1-21)

02. Artificial Ground Water Recharge. A deliberate and purposeful activity or project that is performed in accordance with Section 42-234(2), Idaho Code, and that diverts, distributes, injects, injects, stores or spreads water to areas from which such water will enter into and recharge a ground water source in an area having a common ground water supply. (7-1-21)

03. Conjunctive Management. Legal and hydrologic integration of administration of the diversion and use of water under water rights from surface and ground water sources, including areas having a common ground water supply. (7-1-21)

04. Delivery Call. A request from the holder of a water right for administration of water rights under the prior appropriation doctrine. (7-1-21)

05. Department. The Department of Water Resources created by Section 42-1701, Idaho Code. (7-1-21)

06. Director. The Director of the Department of Water Resources appointed as provided by Section 42-1801, Idaho Code, or an employee, hearing officer or other appointee of the Department who has been delegated to act for the Director as provided by Section 42-1701, Idaho Code. (7-1-21)

07. Full Economic Development of Underground Water Resources. The diversion and use of water from a ground water source for beneficial uses in the public interest at a rate that does not exceed the reasonably anticipated average rate of future natural recharge, in a manner that does not result in material injury to senior-priority surface or ground water rights, and that furthers the principle of reasonable use of surface and ground water as set forth in Rule 42. (7-1-21)

08. Futile Call. A delivery call made by the holder of a senior-priority surface or ground water right that, for physical and hydrologic reasons, cannot be satisfied within a reasonable time of the call by immediately curtailing diversions under junior-priority ground water rights or that would result in waste of the water resource. (7-1-21)

09. Ground Water Management Area. Any ground water basin or designated part thereof as designated by the Director pursuant to Section 42-233(b), Idaho Code. (7-1-21)
10. **Ground Water.** Water under the surface of the ground whatever may be the geological structure in which it is standing or moving as provided in Section 42-230(a), Idaho Code. (7-1-21)

11. **Holder of a Water Right.** The legal or beneficial owner or user pursuant to lease or contract of a right to divert or to protect in place surface or ground water of the state for a beneficial use or purpose. (7-1-21)

12. **Idaho Law.** The constitution, statutes, administrative rules and case law of Idaho. (7-1-21)

13. **Junior-Priority.** A water right priority date later in time than the priority date of other water rights being considered. (7-1-21)

14. **Material Injury.** Hindrance to or impact upon the exercise of a water right caused by the use of water by another person as determined in accordance with Idaho Law, as set forth in Rule 42. (7-1-21)

15. **Mitigation Plan.** A document submitted by the holder(s) of a junior-priority ground water right and approved by the Director as provided in Rule 043 that identifies actions and measures to prevent, or compensate holders of senior-priority water rights for, material injury caused by the diversion and use of water by the holders of junior-priority ground water rights within an area having a common ground water supply. (7-1-21)

16. **Person.** Any individual, partnership, corporation, association, governmental subdivision or agency, or public or private organization or entity of any character. (7-1-21)

17. **Petitioner.** Person who asks the Department to initiate a contested case or to otherwise take action that will result in the issuance of an order or rule. (7-1-21)

18. **Reasonable Ground Water Pumping Level.** A level established by the Director pursuant to Sections 42-226, and 42-237a.g., Idaho Code, either generally for an area or aquifer or for individual water rights on a case-by-case basis, for the purpose of protecting the holders of senior-priority ground water rights against unreasonable lowering of ground water levels caused by diversion and use of surface or ground water by the holders of junior-priority surface or ground water rights under Idaho law. (7-1-21)

19. **Reasonably Anticipated Average Rate of Future Natural Recharge.** The estimated average annual volume of water recharged to an area having a common ground water supply from precipitation, underflow from tributary sources, and stream losses and also water incidentally recharged to an area having a common ground water supply as a result of the diversion and use of water for irrigation and other purposes. The estimate will be based on available data regarding conditions of diversion and use of water existing at the time the estimate is made and may vary as these conditions and available information change. (7-1-21)

20. **Respondent.** Persons against whom complaints or petitions are filed or about whom investigations are initiated. (7-1-21)

21. **Senior-Priority.** A water right priority date earlier in time than the priority dates of other water rights being considered. (7-1-21)

22. **Surface Water.** Rivers, streams, lakes and springs when flowing in their natural channels as provided in Sections 42-101 and 42-103, Idaho Code. (7-1-21)

23. **Water District.** An instrumentality of the state of Idaho created by the Director as provided in Section 42-604, Idaho Code, for the purpose of performing the essential governmental function of distribution of water among appropriators under Idaho law. (7-1-21)

24. **Watermaster.** A person elected and appointed as provided in Section 42-605, and Section 42-801, Idaho Code, to distribute water within a water district. (7-1-21)

25. **Water Right.** The legal right to divert and use or to protect in place the public waters of the state of Idaho where such right is evidenced by a decree, a permit or license issued by the Department, a beneficial or
constitutional use right or a right based on federal law. (7-1-21)T

011. -- 019. (RESERVED)

020. GENERAL STATEMENTS OF PURPOSE AND POLICIES FOR CONJUNCTIVE MANAGEMENT OF SURFACE AND GROUND WATER RESOURCES (RULE 20).

01. Distribution of Water Among the Holders of Senior and Junior-Priority Rights. These rules apply to all situations in the state where the diversion and use of water under junior-priority ground water rights either individually or collectively causes material injury to uses of water under senior-priority water rights. The rules govern the distribution of water from ground water sources and areas having a common ground water supply. (7-1-21)T

02. Prior Appropriation Doctrine. These rules acknowledge all elements of the prior appropriation doctrine as established by Idaho law. (7-1-21)T

03. Reasonable Use of Surface and Ground Water. These rules integrate the administration and use of surface and ground water in a manner consistent with the traditional policy of reasonable use of both surface and ground water. The policy of reasonable use includes the concepts of priority in time and superiority in right being subject to conditions of reasonable use as the legislature may by law prescribe as provided in Article XV, Section 5, Idaho Constitution, optimum development of water resources in the public interest prescribed in Article XV, Section 7, Idaho Constitution, and full economic development as defined by Idaho law. An appropriator is not entitled to command the entirety of large volumes of water in a surface or ground water source to support his appropriation contrary to the public policy of reasonable use of water as described in this rule. (7-1-21)T

04. Delivery Calls. These rules provide the basis and procedure for responding to delivery calls made by the holder of a senior-priority surface or ground water right against the holder of a junior-priority ground water right. The principle of the futile call applies to the distribution of water under these rules. Although a call may be denied under the futile call doctrine, these rules may require mitigation or staged or phased curtailment of a junior-priority use if diversion and use of water by the holder of the junior-priority water right causes material injury, even though not immediately measurable, to the holder of a senior-priority surface or ground water right in instances where the hydrologic connection may be remote, the resource is large and no direct immediate relief would be achieved if the junior-priority water use was discontinued. (7-1-21)T

05. Exercise of Water Rights. These rules provide the basis for determining the reasonableness of the diversion and use of water by both the holder of a senior-priority water right who requests priority delivery and the holder of a junior-priority water right against whom the call is made. (7-1-21)T

06. Areas Having a Common Ground Water Supply. These rules provide the basis for the designation of areas of the state that have a common ground water supply and the procedures that will be followed in incorporating the water rights within such areas into existing water districts or creating new districts as provided in Section 42-237a.g., and Section 42-604, Idaho Code, or designating such areas as ground water management areas as provided in Section 42-233(b), Idaho Code. (7-1-21)T

07. Sequence of Actions for Responding to Delivery Calls. Rule 30 provides procedures for responding to delivery calls within areas having a common ground water supply that have not been incorporated into an existing or new water district or designated a ground water management area. Rule 40 provides procedures for responding to delivery calls within water districts where areas having a common ground water supply have been incorporated into the district or a new district has been created. Rule 41 provides procedures for responding to delivery calls within areas that have been designated as ground water management areas. Rule 50 designates specific known areas having a common ground water supply within the state. (7-1-21)T

08. Reasonably Anticipated Average Rate of Future Natural Recharge. These rules provide for administration of the use of ground water resources to achieve the goal that withdrawals of ground water not exceed the reasonably anticipated average rate of future natural recharge. (Section 42-237a.g., Idaho Code) (7-1-21)T

09. Saving of Defenses. Nothing in these rules affects or in any way limit any person’s entitlement to assert any defense or claim based upon fact or law in any contested case or other proceeding. (7-1-21)T
10. **Wells as Alternate or Changed Points of Diversion for Water Rights from a Surface Water Source.** Nothing in these rules prohibits any holder of a water right from a surface water source from seeking, pursuant to Idaho law, to change the point of diversion of the water to an inter-connected area having a common ground water supply. (7-1-21)

11. **Domestic and Stock Watering Ground Water Rights Exempt.** A delivery call shall not be effective against any ground water right used for domestic purposes regardless of priority date where such domestic use is within the limits of the definition set forth in Section 42-111, Idaho Code, nor against any ground water right used for stock watering where such stock watering use is within the limits of the definition set forth in Section 42-1401A(11), Idaho Code; provided, however, this exemption shall not prohibit the holder of a water right for domestic or stock watering uses from making a delivery call, including a delivery call against the holders of other domestic or stock watering rights, where the holder of such right is suffering material injury. (7-1-21)

021. -- 029. **(RESERVED)**

**030. RESPONSES TO CALLS FOR WATER DELIVERY IN AN UNORGANIZED WATER DISTRICT OR WITH NO GROUND WATER REGULATION (RULE 30).**

Responses to calls for water delivery made by the holders of senior-priority surface or ground water rights against the holders of junior-priority ground water rights within areas of the state not in organized water districts or within water districts where ground water regulation has not been included in the functions of such districts or within areas that have not been designated ground water management areas shall be as follows: (7-1-21)

**01. Delivery Call (Petition).** When a delivery call is made by the holder of a surface or ground water right (petitioner) alleging that by reason of diversion of water by the holders of one (1) or more junior-priority ground water rights (respondents) the petitioner is suffering material injury, the petitioner shall file with the Director a petition in writing containing, at least, the following in addition to the information required by IDAPA 37.01.01, “Rules of Procedure of the Department of Water Resources,” Rule 230:

    a. A description of the water rights of the petitioner including a listing of the decree, license, permit, claim or other documentation of such right, the water diversion and delivery system being used by petitioner and the beneficial use being made of the water. (7-1-21)

    b. The names, addresses and description of the water rights of the ground water users (respondents) who are alleged to be causing material injury to the rights of the petitioner in so far as such information is known by the petitioner or can be reasonably determined by a search of public records. (7-1-21)

    c. All information, measurements, data or study results available to the petitioner to support the claim of material injury. (7-1-21)

    d. A description of the area having a common ground water supply within which petitioner desires junior-priority ground water diversion and use to be regulated. (7-1-21)

**02. Contested Case.** The Department will consider the matter as a petition for contested case under the Department’s Rules of Procedure, IDAPA 37.01.01. The petitioner shall serve the petition upon all known respondents as required by IDAPA 37.01.01, “Rules of Procedure of the Department of Water Resources,” Rule 203. In addition to such direct service by petitioner, the Department will give such general notice by publication or news release as will advise ground water users within the petitioned area of the matter. (7-1-21)

**03. Informal Resolution.** The Department may initially consider the contested case for informal resolution under the provisions of Section 67-5241, Idaho Code, if doing so will expedite the case without prejudicing the interests of any party. (7-1-21)

**04. Petition for Modification of an Existing Water District.** In the event the petition proposes regulation of ground water rights conjunctively with surface water rights in an organized water district, and the water rights have been adjudicated, the Department may consider such to be a petition for modification of the organized water district and notice of proposed modification of the water district shall be provided by the Director pursuant to
Section 42-604, Idaho Code. The Department will proceed to consider the matter addressed by the petition under the Department’s Rules of Procedure.

05. **Petition for Creation of a New Water District.** In the event the petition proposes regulation of ground water rights from a ground water source or conjunctively with surface water rights within an area having a common ground water supply which is not in an existing water district, and the water rights have been adjudicated, the Department may consider such to be a petition for creation of a new water district and notice of proposed creation of a water district shall be provided by the Director pursuant to Section 42-604, Idaho Code. The Department will proceed to consider the matter under the Department’s Rules of Procedure.

06. **Petition for Designation of a Ground Water Management Area.** In the event the petition proposes regulation of ground water rights from an area having a common ground water supply within which the water rights have not been adjudicated, the Department may consider such to be a petition for designation of a ground water management area pursuant to Section 42-233(b), Idaho Code. The Department will proceed to consider the matter under the Department’s Rules of Procedure.

07. **Order.** Following consideration of the contested case under the Department’s Rules of Procedure, the Director may, by order, take any or all of the following actions:

   a. Deny the petition in whole or in part;

   b. Grant the petition in whole or in part or upon conditions;

   c. Determine an area having a common ground water supply which affects the flow of water in a surface water source in an organized water district;

   d. Incorporate an area having a common ground water supply into an organized water district following the procedures of Section 42-604, Idaho Code, provided that the ground water rights that would be incorporated into the water district have been adjudicated relative to the rights already encompassed within the district;

   e. Create a new water district following the procedures of Section 42-604, Idaho Code, provided that the water rights to be included in the new water district have been adjudicated;

   f. Determine the need for an adjudication of the priorities and permissible rates and volumes of diversion and consumptive use under the surface and ground water rights of the petitioner and respondents and initiate such adjudication pursuant to Section 42-1406, Idaho Code;

   g. By summary order as provided in Section 42-237 a.g., Idaho Code, prohibit or limit the withdrawal of water from any well during any period it is determined that water to fill any water right is not there available without causing ground water levels to be drawn below the reasonable ground water pumping level, or would affect the present or future use of any prior surface or ground water right or result in the withdrawing of the ground water supply at a rate beyond the reasonably anticipated average rate of future natural recharge. The Director will take into consideration the existence of any approved mitigation plan before issuing any order prohibiting or limiting withdrawal of water from any well; or

   h. Designate a ground water management area under the provisions of Section 42-233(b), Idaho Code, if it appears that administration of the diversion and use of water from an area having a common ground water supply is required because the ground water supply is insufficient to meet the demands of water rights or the diversion and use of water is at a rate beyond the reasonably anticipated average rate of future natural recharge and modification of an existing water district or creation of a new water district cannot be readily accomplished due to the need to first obtain an adjudication of the water rights.

08. **Orders for Interim Administration.** For the purposes of Rule Subsections 030.07.d. and 030.07.e., an outstanding order for interim administration of water rights issued by the court pursuant to Section 42-1417, Idaho Code, in a general adjudication proceeding shall be considered as an adjudication of the water rights involved.

---

Section 030  Page 4823
09. **Administration Pursuant to Rule 40.** Upon a finding of an area of common ground water supply and upon the incorporation of such area into an organized water district, or the creation of a new water district, the use of water shall be administered in accordance with the priorities of the various water rights as provided in Rule 40. (7-1-21)

10. **Administration Pursuant to Rule 41.** Upon the designation of a ground water management area, the diversion and use of water within such area shall be administered in accordance with the priorities of the various water rights as provided in Rule 41. (7-1-21)

**031. DETERMINING AREAS HAVING A COMMON GROUND WATER SUPPLY (RULE 31).**

01. **Director to Consider Information.** The Director will consider all available data and information that describes the relationship between ground water and surface water in making a finding of an area of common ground water supply. (7-1-21)

02. **Kinds of Information.** The information considered may include, but is not limited to, any or all of the following: (7-1-21)

   a. Water level measurements, studies, reports, computer simulations, pumping tests, hydrographs of stream flow and ground water levels and other such data; and (7-1-21)

   b. The testimony and opinion of expert witnesses at a hearing on a petition for expansion of a water district or organization of a new water district or designation of a ground water management area. (7-1-21)

03. **Criteria for Findings.** A ground water source will be determined to be an area having a common ground water supply if: (7-1-21)

   a. The ground water source supplies water to or receives water from a surface water source; or (7-1-21)

   b. Diversion and use of water from the ground water source will cause water to move from the surface water source to the ground water source. (7-1-21)

   c. Diversion and use of water from the ground water source has an impact upon the ground water supply available to other persons who divert and use water from the same ground water source. (7-1-21)

04. **Reasonably Anticipated Average Rate of Future Natural Recharge.** The Director will estimate the reasonably anticipated average rate of future natural recharge for an area having a common ground water supply. Such estimates will be made and updated periodically as new data and information are available and conditions of diversion and use change. (7-1-21)

05. **Findings.** The findings of the Director will be included in the Order issued pursuant to Rule Subsection 030.07. (7-1-21)

032. -- 039. (RESERVED)

**040. RESPONSES TO CALLS FOR WATER DELIVERY IN AN ORGANIZED WATER DISTRICT (RULE 40).**

Responses to calls for water delivery made by the holders of senior-priority surface or ground water rights against the holders of junior-priority ground water rights from areas having a common ground water supply in an organized water district shall be as follows: (7-1-21)

01. **Responding to a Delivery Call.** When a delivery call is made by the holder of a senior-priority water right (petitioner) alleging that by reason of diversion of water by the holders of one (1) or more junior-priority ground water rights (respondents) from an area having a common ground water supply in an organized water district the petitioner is suffering material injury, and upon a finding by the Director as provided in Rule 42 that material
injury is occurring, the Director, through the watermaster, shall:

(7-1-21)T

a. Regulate the diversion and use of water in accordance with the priorities of rights of the various
surface or ground water users whose rights are included within the district, provided, that regulation of junior-priority
ground water diversion and use where the material injury is delayed or long range may, by order of the Director, be
phased-in over not more than a five-year (5) period to lessen the economic impact of immediate and complete
curtailment; or

(7-1-21)T

b. Allow out-of-priority diversion of water by junior-priority ground water users pursuant to a
mitigation plan that has been approved by the Director.

02. Regulation of Uses of Water by Watermaster. The Director, through the watermaster, shall
regulate use of water within the water district pursuant to Idaho law and the priorities of water rights as provided in
Section 42-604, Idaho Code, and under the following procedures:

(7-1-21)T

a. The watermaster shall determine the quantity of surface water of any stream included within the
water district which is available for diversion and shall shut the headgates of the holders of junior-priority surface
water rights as necessary to assure that water is being diverted and used in accordance with the priorities of the
respective water rights from the surface water source.

(7-1-21)T

b. The watermaster shall regulate the diversion and use of ground water in accordance with the rights
thereto, approved mitigation plans and orders issued by the Director.

(7-1-21)T

c. Where a call is made by the holder of a senior-priority water right against the holder of a junior-
priority ground water right in the water district the watermaster shall first determine whether a mitigation plan has
been approved by the Director whereby diversion of ground water may be allowed to continue out of priority order. If
the holder of a junior-priority ground water right is a participant in such approved mitigation plan, and is operating in
conformance therewith, the watermaster shall allow the ground water use to continue out of priority.

(7-1-21)T

d. The watermaster shall maintain records of the diversions of water by surface and ground water
users within the water district and records of water provided and other compensation supplied under the approved
mitigation plan which shall be compiled into the annual report which is required by Section 42-606, Idaho Code.

(7-1-21)T

e. Under the direction of the Department, watermasters of separate water districts shall cooperate and
reciprocate in assisting each other in assuring that diversion and use of water under water rights is administered in a
manner to assure protection of senior-priority water rights provided the relative priorities of the water rights within
the separate water districts have been adjudicated.

(7-1-21)T

03. Reasonable Exercise of Rights. In determining whether diversion and use of water under rights
will be regulated under Rule Subsection 040.01.a. or 040.01.b., the Director shall consider whether the petitioner
making the delivery call is suffering material injury to a senior-priority water right and is diverting and using water
efficiently and without waste, and in a manner consistent with the goal of reasonable use of surface and ground
waters as described in Rule 42. The Director will also consider whether the respondent junior-priority water right
holder is using water efficiently and without waste.

(7-1-21)T

04. Actions of the Watermaster Under a Mitigation Plan. Where a mitigation plan has been
approved as provided in Rule 42, the watermaster may permit the diversion and use of ground water to continue out
of priority order within the water district provided the holder of the junior-priority ground water right operates in
accordance with such approved mitigation plan.

(7-1-21)T

05. Curtailment of Use Where Diversions Not in Accord With Mitigation Plan or Mitigation Plan
Is Not Effective. Where a mitigation plan has been approved and the junior-priority ground water user fails to operate
in accordance with such approved plan or the plan fails to mitigate the material injury resulting from diversion and
use of water by holders of junior-priority water rights, the watermaster will notify the Director who will immediately
issue cease and desist orders and direct the watermaster to terminate the out-of-priority use of ground water rights
otherwise benefiting from such plan or take such other actions as provided in the mitigation plan to ensure protection
06. **Collection of Assessments Within Water District.** Where a mitigation plan has been approved, the watermaster of the water district shall include the costs of administration of the plan within the proposed annual operation budget of the district; and, upon approval by the water users at the annual water district meeting, the water district shall provide for the collection of assessment of ground water users as provided by the plan, collect the assessments and expend funds for the operation of the plan; and the watermaster shall maintain records of the volumes of water or other compensation made available by the plan and the disposition of such water or other compensation.

041. **ADMINISTRATION OF DIVERSION AND USE OF WATER WITHIN A GROUND WATER MANAGEMENT AREA (RULE 41).**

01. **Responding to a Delivery Call.** When a delivery call is made by the holder of a senior-priority ground water right against holders of junior-priority ground water rights in a designated ground water management area alleging that the ground water supply is insufficient to meet the demands of water rights within all or portions of the ground water management area and requesting the Director to order water right holders, on a time priority basis, to cease or reduce withdrawal of water, the Director shall proceed as follows:

   a. The petitioner shall be required to submit all information available to petitioner on which the claim is based that the water supply is insufficient.

   b. The Director will conduct a fact-finding hearing on the petition at which the petitioner and respondents may present evidence on the water supply, and the diversion and use of water from the ground water management area.

02. **Order.** Following the hearing, the Director may take any or all of the following actions:

   a. Deny the petition in whole or in part;

   b. Grant the petition in whole or in part or upon conditions;

   c. Find that the water supply of the ground water management area is insufficient to meet the demands of water rights within all or portions of the ground water management area and order water right holders on a time priority basis to cease or reduce withdrawal of water, provided that the Director shall consider the expected benefits of an approved mitigation plan in making such finding.

   d. Require the installation of measuring devices and the reporting of water diversions pursuant to Section 42-701, Idaho Code.

03. **Date and Effect of Order.** Any order to cease or reduce withdrawal of water will be issued prior to September 1 and shall be effective for the growing season during the year following the date the order is given and until such order is revoked or modified by further order of the Director.

04. **Preparation of Water Right Priority Schedule.** For the purposes of the Order provided in Rule Subsections 041.02 and 041.03, the Director will utilize all available water right records, claims, permits, licenses and decrees to prepare a water right priority schedule.

042. **DETERMINING MATERIAL INJURY AND REASONABLENESS OF WATER DIVERSIONS (RULE 42).**

01. **Factors.** Factors the Director may consider in determining whether the holders of water rights are suffering material injury and using water efficiently and without waste include, but are not limited to, the following:

   a. The amount of water available in the source from which the water right is diverted.

   b. The effort or expense of the holder of the water right to divert water from the source.
c. Whether the exercise of junior-priority ground water rights individually or collectively affects the quantity and timing of when water is available to, and the cost of exercising, a senior-priority surface or ground water right. This may include the seasonal as well as the multi-year and cumulative impacts of all ground water withdrawals from the area having a common ground water supply.

(7-1-21)T

d. If for irrigation, the rate of diversion compared to the acreage of land served, the annual volume of water diverted, the system diversion and conveyance efficiency, and the method of irrigation water application.

(7-1-21)T

e. The amount of water being diverted and used compared to the water rights.

(7-1-21)T

f. The existence of water measuring and recording devices.

(7-1-21)T

g. The extent to which the requirements of the holder of a senior-priority water right could be met with the user’s existing facilities and water supplies by employing reasonable diversion and conveyance efficiency and conservation practices; provided, however, the holder of a surface water storage right shall be entitled to maintain a reasonable amount of carry-over storage to assure water supplies for future dry years. In determining a reasonable amount of carry-over storage water, the Director shall consider the average annual rate of fill of storage reservoirs and the average annual carry-over for prior comparable water conditions and the projected water supply for the system.

(7-1-21)T

h. The extent to which the requirements of the senior-priority surface water right could be met using alternate reasonable means of diversion or alternate points of diversion, including the construction of wells or the use of existing wells to divert and use water from the area having a common ground water supply under the petitioner’s surface water right priority.

(7-1-21)T

02. Delivery Call for Curtailment of Pumping. The holder of a senior-priority surface or ground water right will be prevented from making a delivery call for curtailment of pumping of any well used by the holder of a junior-priority ground water right where use of water under the junior-priority right is covered by an approved and effectively operating mitigation plan.

(7-1-21)T

043. MITIGATION PLANS (RULE 43).

01. Submission of Mitigation Plans. A proposed mitigation plan shall be submitted to the Director in writing and contain the following information:

(7-1-21)T

a. The name and mailing address of the person or persons submitting the plan.

(7-1-21)T

b. Identification of the water rights for which benefit the mitigation plan is proposed.

(7-1-21)T
c. A description of the plan setting forth the water supplies proposed to be used for mitigation and any circumstances or limitations on the availability of such supplies.

(7-1-21)T
d. Such information as will allow the Director to evaluate the factors set forth in Rule Subsection 043.03.

(7-1-21)T

02. Notice and Hearing. Upon receipt of a proposed mitigation plan the Director will provide notice, hold a hearing as determined necessary, and consider the plan under the procedural provisions of Section 42-222, Idaho Code, in the same manner as applications to transfer water rights.

(7-1-21)T

03. Factors to Be Considered. Factors that may be considered by the Director in determining whether a proposed mitigation plan will prevent injury to senior rights include, but are not limited to, the following:

(7-1-21)T

a. Whether delivery, storage and use of water pursuant to the mitigation plan is in compliance with Idaho law.
b. Whether the mitigation plan will provide replacement water, at the time and place required by the senior-priority water right, sufficient to offset the depletive effect of ground water withdrawal on the water available in the surface or ground water source at such time and place as necessary to satisfy the rights of diversion from the surface or ground water source. Consideration will be given to the history and seasonal availability of water for diversion so as not to require replacement water at times when the surface right historically has not received a full supply, such as during annual low-flow periods and extended drought periods. (7-1-21)

c. Whether the mitigation plan provides replacement water supplies or other appropriate compensation to the senior-priority water right when needed during a time of shortage even if the effect of pumping is spread over many years and will continue for years after pumping is curtailed. A mitigation plan may allow for multi-season accounting of ground water withdrawals and provide for replacement water to take advantage of variability in seasonal water supply. The mitigation plan must include contingency provisions to assure protection of the senior-priority right in the event the mitigation water source becomes unavailable. (7-1-21)

d. Whether the mitigation plan proposes artificial recharge of an area of common ground water supply as a means of protecting ground water pumping levels, compensating senior-priority water rights, or providing aquifer storage for exchange or other purposes related to the mitigation plan. (7-1-21)

e. Where a mitigation plan is based upon computer simulations and calculations, whether such plan uses generally accepted and appropriate engineering and hydrogeologic formulae for calculating the depletive effect of the ground water withdrawal. (7-1-21)

f. Whether the mitigation plan uses generally accepted and appropriate values for aquifer characteristics such as transmissivity, specific yield, and other relevant factors. (7-1-21)

g. Whether the mitigation plan reasonably calculates the consumptive use component of ground water diversion and use. (7-1-21)

h. The reliability of the source of replacement water over the term in which it is proposed to be used under the mitigation plan. (7-1-21)

i. Whether the mitigation plan proposes enlargement of the rate of diversion, seasonal quantity or time of diversion under any water right being proposed for use in the mitigation plan. (7-1-21)

j. Whether the mitigation plan is consistent with the conservation of water resources, the public interest or injures other water rights, or would result in the diversion and use of ground water at a rate beyond the reasonably anticipated average rate of future natural recharge. (7-1-21)

k. Whether the mitigation plan provides for monitoring and adjustment as necessary to protect senior-priority water rights from material injury. (7-1-21)

l. Whether the plan provides for mitigation of the effects of pumping of existing wells and the effects of pumping of any new wells which may be proposed to take water from the areas of common ground water supply. (7-1-21)

m. Whether the mitigation plan provides for future participation on an equitable basis by ground water pumpers who divert water under junior-priority rights but who do not initially participate in such mitigation plan. (7-1-21)

n. A mitigation plan may propose division of the area of common ground water supply into zones or segments for the purpose of consideration of local impacts, timing of depletions, and replacement supplies. (7-1-21)

o. Whether the petitioners and respondents have entered into an agreement on an acceptable mitigation plan even though such plan may not otherwise be fully in compliance with these provisions. (7-1-21)

044. -- 049. (RESERVED)
050. AREAS DETERMINED TO HAVE A COMMON GROUND WATER SUPPLY (RULE 50).

01. Eastern Snake Plain Aquifer. The area of coverage of this rule is the aquifer underlying the Eastern Snake River Plain as the aquifer is defined in the report, Hydrology and Digital Simulation of the Regional Aquifer System, Eastern Snake River Plain, Idaho, USGS Professional Paper 1408-F, 1992 excluding areas south of the Snake River and west of the line separating Sections 34 and 35, Township 10 South, Range 20 East, Boise Meridian.
   a. The Eastern Snake Plain Aquifer supplies water to and receives water from the Snake River. (7-1-21)
   b. The Eastern Snake Plain Aquifer is found to be an area having a common ground water supply. (7-1-21)
   c. The reasonably anticipated average rate of future natural recharge of the Eastern Snake Plain Aquifer will be estimated in any order issued pursuant to Rule 30. (7-1-21)
   d. The Eastern Snake Plain Aquifer area of common ground water supply will be created as a new water district or incorporated into an existing or expanded water district as provided in Section 42-604, Idaho Code, when the rights to the diversion and use of water from the aquifer have been adjudicated, or will be designated a ground water management area. (7-1-21)

051. -- 999. (RESERVED)
37.03.12 – IDAHO DEPARTMENT OF WATER RESOURCES WATER DISTRIBUTION RULES – WATER DISTRICT 34

000. LEGAL AUTHORITY (RULE 0).
The Idaho Department of Water Resources (IDWR) is authorized under Section 42-603, Idaho Code, to adopt rules for the distribution of water from the streams, rivers, lakes, ground water and other natural water sources. (7-1-21)

001. SCOPE (RULE 1).
This rule governs the distribution of surface and ground water within Water District 34, the Big Lost River Basin, by the duly appointed watermaster pursuant to the provisions of Chapter 6, Title 42, Idaho Code, and applicable court decrees. This chapter does not limit the authority of the Director of the Idaho Department of Water Resources in exercising the duties and responsibilities in other provisions of Idaho law. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
For the purposes of these rules, the following terms will be used as defined below. (7-1-21)

01. 2-B Gage. The U.S. Geological Survey gaging station located below Mackay Dam in the SW1/4SW1/4NE1/4, Section 18, Township 7 North, Range 24 East, B.M. (7-1-21)

02. Acre-Foot (AF). The unit commonly used to measure a volume of water which is equal to the amount of water to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand five hundred sixty (43,560) cubic feet or three hundred twenty-five thousand eight hundred fifty-one (325,851) gallons. (7-1-21)

03. Acre-Foot Per Year (AFY). Acre foot per calendar year. (7-1-21)

04. Arco Gage. The U.S. Geological Survey gaging station located near the town of Arco in the SW1/4SE1/4SW1/4, Section 17, Township 3 North, Range 27 East, B.M. (7-1-21)

05. Cubic Foot Per Second (CFS). The unit used to express a rate of flow of water equal to fifty (50) miner’s inches or about four hundred forty-eight and eight tenths (448.8) gallons per minute. (7-1-21)

06. Delivery Call. A request from the holder of a water right for administration of water rights under the prior appropriation doctrine. (7-1-21)

07. Director. The Director of the Idaho Department of Water Resources (IDWR) or the director’s duly authorized designee. (7-1-21)

08. Eastside Canal. The Eastside Canal diverts from the east side of the Big Lost River in the NW1/4SE1/4SE1/4, Section 4, Township 5 North, Range 26 East, B.M. and extends southerly to the point it discharges back into the Big Lost River in the NW1/4NW1/4NW1/4, Section 26, Township 4 North, Range 26 East, B.M. (7-1-21)

09. Holder of a Water Right. The legal owner or user pursuant to lease or contract of a right to divert or to protect in place surface or ground water of the state for a beneficial use or purpose. (7-1-21)

10. Howell Gage. The U.S. Geological Survey gaging station located above Mackay Reservoir in the SE1/4NE1/4NW1/4, Section 30, Township 8 North, Range 21 East, B.M. (7-1-21)

11. Rotation Credit. Water impounded in Mackay Reservoir pursuant to a water right whose source of water is the Big Lost River and which does not include storage as a purpose of use. The impoundment of water as rotation credit is described in Rule Subsection 040.02. (7-1-21)

12. Small Domestic and Stock Water Uses. Water uses meeting the definition of Section 42-111 or Section 42-1401A(12), Idaho Code. (7-1-21)

13. Storage Water. Water impounded in a storage facility, including Mackay Reservoir, pursuant to a water right which includes storage as a purpose of use. (7-1-21)

14. Watermaster. The duly elected and appointed state watermaster of Water District 34 who is authorized to perform duties pursuant to Chapters 6 and 8, Title 42, Idaho Code, and the decree, or order for interim administration, of water rights for Basin 34. (7-1-21)
025. RIVER REACHES (RULE 25).

01. Divisions of the Big Lost River. For the purposes of quantifying river gains, losses, and calculating and accounting for natural flow, the Big Lost River is divided into the reaches identified below. Reference to a specific river reach will be by the name of the downstream station or terminus point. (7-1-21)

   a. Above Howell Gage. (7-1-21)

   b. Howell Gage to Chilly Bridge located in the NW1/4NE1/4NW1/4, Section 5, Township 8 North, Range 22 East, B.M. (7-1-21)

   c. Chilly Bridge to the 2-B Gage. (7-1-21)

   d. 2-B Gage to Leslie Gage located in the NW1/4SW1/4SE1/4, Section 10, Township 6 North, Range 25 East, B.M. (7-1-21)

   e. Leslie Gage to Moore diversion located in the NW1/4SE1/4SE1/4, Section 4, Township 5 North, Range 26 East, B.M. (7-1-21)

   f. Moore diversion to Arco diversion located in the NW1/4NW1/4NW1/4, Section 26, Township 4 North, Range 26 East, B.M. (7-1-21)

   g. Below Arco diversion to the Arco Gage. (7-1-21)

02. River Reach Computations. For each reach of the river the natural flow will be computed as the natural flow entering the reach plus gains entering the reach minus losses from the reach. The natural flow thus calculated will be allocated as described in Rule 40. (7-1-21)

03. Gage Station or Other Flow Measuring Facility. A gage station or other flow measuring facility, as approved by the director, is located at the Howell Gage, Chilly Bridge, 2-B Gage, Leslie Gage, Moore diversion, Arco diversion and Arco Gage. The Howell, 2-B and Arco gages shall be maintained as part of the USGS Cooperative Program, or equivalent measurement program, and operated continuously. Water District 34 shall continue to contribute to the maintenance and operation of these gage sites in the same proportion as is currently contributed. All other gages shall be operated when water diversions, other than solely storage in Mackay Reservoir, are being made from the river. The cost of installation, operation and maintenance of these other measuring facilities is the responsibility of Water District 34. (7-1-21)

026. -- 029. (RESERVED)

030. NATURAL FLOWS (RULE 30).
Natural flow shall be delivered through the natural river channel to the point of diversion of record except as provided in these rules. (7-1-21)

01. Eastside Canal. The watermaster, with the approval of the director and after consultation with the Big Lost River Irrigation District, may elect to deliver the natural flow of the river through the Eastside Canal when the following conditions are met: (7-1-21)

   a. The full flow of the river, including impounded water, to be delivered downstream of the Moore diversion is not greater than the capacity of the Eastside Canal. (7-1-21)

   b. More natural flow water can be delivered to calls for natural flow than could be delivered by using the natural river channel. (7-1-21)

   c. No water right is injured. (7-1-21)
d. Measuring devices of a type acceptable to the director are installed and maintained where the flow leaves the river channel and where it returns to the river channel. (7-1-21)

e. When used for the delivery of natural flow to the Arco diversion, the Eastside Canal is considered to be the river channel for water delivery accounting purposes and the watermaster shall protect the natural flow for delivery to prior water rights. Water rights diverting water from the river channel downstream from the point the Eastside Canal returns to the river channel shall be measured at their point of diversion from the river downstream from the Eastside Canal return. (7-1-21)

f. Conveyance losses in the Eastside Canal, when considered to be the river channel, shall be proportioned between the river flow, the diversions from the Eastside and pumps that inject ground water into the Eastside Canal. The proportioning will be based upon the ratio of total Eastside diversions and injected ground water to the total inflow to the canal. (7-1-21)

02. Alternate Point of Diversion. The watermaster may elect, with the approval of the director, to deliver natural flow water rights to the alternate point of diversion described in Rule Subsection 030.02.a. below when conditions in Rule Subsections 030.02.b. through 030.02.f. below are met: (7-1-21)

a. This rule may be used to deliver water rights through the Munsey diversion located in the NW1/4NW1/4NW1/4, Section 26, Township 4 North, Range 26 East, B.M. as an alternate point of diversion for water rights with a recorded point of diversion at the McLaughlin diversion located in the NE1/4NW1/4SE1/4, Section 12, Township 3 North, Range 26 East, B.M. (7-1-21)

b. The additional delivery losses through the natural channel to the recorded point of diversion for a water right prevents delivery of natural flow to one (1) or more other water rights then calling for water. (7-1-21)

c. The user receives the same amount of water at the field headgate from the natural flow water right that would be delivered to the field headgate had the natural flow right been delivered at the recorded point of diversion. (7-1-21)

d. Delivery of the water right at the alternate point of diversion is limited to the period of time the water right could have been delivered to the recorded point of diversion based upon the natural flow available at any time delivery is called for and the loss of the river channel at the time the alternate point of diversion began to be used for the delivery of this water right. (7-1-21)

e. No water right is injured by the use of the alternate point of diversion. (7-1-21)

f. The owner of the diversion works at the alternate point of diversion and the ditch(es) used to deliver the water to the field headgate from the alternate point of diversion concurs in the use of those facilities. (7-1-21)

031. -- 034. (RESERVED)

035. MEASURING DEVICES AND CONTROL WORKS (RULE 35).

01. Installation and Maintenance of Measuring Devices and Control Works. In addition to measuring devices or control works specifically described in the listing of the water right, each water user, except small domestic and stock water users from ground water, shall, at the water user’s expense, install and maintain measuring devices and control works of a type acceptable to the director, at all points of diversion and any other points, as determined necessary by the director for the proper administration of the use of water. The director may prohibit or prevent the diversion of water by a water user who refuses or fails to comply with this rule in accordance with the provisions of Chapter 7, Title 42, Idaho Code. (7-1-21)

02. Access to Diversion Works. Water users shall provide the water district staff continual access to all diversion works, measuring devices and control structures, except ground water diversions for small domestic and stock water uses. (7-1-21)
03. **Diversions Which May Be Exempt.** Diversions below the Chilly Bridge and above the Mackay Reservoir that divert water from the Big Lost River, whose place of use is within the flood plain of the Big Lost River as determined by the director, may be exempt from the requirement for measuring devices and control works with the approval of the director. Flow rates through exempt diversions will be estimated by the watermaster for accounting purposes by assuming the recorded flow rate of the water right is being diverted.

036. -- 039. (RESERVED)

040. **Allocation of Natural Flow (Rule 40).**

01. **Administration of Surface Water Rights.** Water not diverted or rotated for credit is available for the next in time water right. Natural flow rights are delivered to the point of diversion with no conveyance loss assessment. A natural flow water right delivered through a lateral or canal of a water conveyance entity shall be assessed the conveyance loss for the canal through which the water right is delivered.

a. All water deliveries must be called for by the water user at least forty-eight (48) hours in advance of the actual water delivery. Water which can be delivered by the watermaster in less than forty-eight (48) hours may be used by the water user.

b. The water user must notify the watermaster of the water users intent to use water as required by Rule Subsection 040.05.

02. **Rotation Credit.** Water rights that do not include storage as a purpose of use may not be stored. Water rights whose source is Big Lost River with their point of diversion below the Mackay Dam may, however, be rotated for credit when such practice improves the efficiency of water use as contemplated by the Big Lost River Irrigation District’s plan of operation subject to the following conditions:

a. Rotation for credit must be approved by the director as provided by these rules.

b. Rotation for credit must be pursuant to the Big Lost River Irrigation District’s approved plan of operation.

c. Any water credited under such a rotation, if not used in the same irrigation season in which it is credited, shall become storage water of the Big Lost River Irrigation District at the end of the irrigation season.

d. Rotation for credit cannot occur prior to the need for irrigation water on the land, as determined pursuant to these rules, in any year.

i. Natural flow must be available at the river headgate point of diversion for the water right requesting rotation credit.

ii. The water user must have operable delivery and use facilities and an actual need for the water on the land in the year rotation is sought.

iii. If natural flow can not be delivered to a point of diversion at the beginning of the irrigation season and the watermaster determines rotation credit is needed to make possible the delivery of water rights being called for, and there is room in Mackay Reservoir for rotation credit, the watermaster may rotate natural flow rights, which would not otherwise be deliverable to their point of diversion, for credit of up to a combined total of three thousand five hundred (3,500) AF to be released from the reservoir under the control of the watermaster to make natural flow rights deliverable to their point of diversion. The watermaster may use storage water to assist the delivery of natural flow water rights at the beginning of the irrigation season when requested to do so by the storage holder.

e. Water rotated for credit may only be used on the land to which the water right being rotated is appurtenant (water rotated for credit may not be marketed) except under the provisions of Section 42-222A, Idaho Code.
f. If the reservoir fills after rotation has begun in any year, (or would have filled except for flood operations) and the natural flow is sufficient to allow diversion of water by 1905 or junior water rights while the reservoir is full, all rotation credits accrued at that time are lost and all water in Mackay Reservoir at that time becomes storage water of the Big Lost River Irrigation District for reallocation. For purposes of this rule Mackay Reservoir will be considered full when the elevation of the water in the reservoir reaches or exceeds a four (4) day average of six thousand sixty-six and twelve one hundredths (6,066.12) feet MSL (spillway crest). Rotation for credit stops at the time Mackay Reservoir fills, and while it remains full, but if the natural flow does not increase sufficiently to allow 1905 or junior water rights to divert after the reservoir fills the rotation credit in the reservoir shall remain the credit of the water user(s) who accrued the rotation credit. (7-1-21)T

g. Water rights being rotated must be identified to the watermaster as being rotated into Mackay Reservoir. Water rights identified as such will have the Mackay Reservoir as the temporary point of diversion during the time rotation is occurring. (7-1-21)T

h. The rate of diversion for a water right being rotated for credit combined with other water rights for the same place of use being diverted at the same time cannot exceed the combined diversion limit specified in the listing of water rights. This rule does not limit the rate at which rotation credit, once impounded, can be used. (7-1-21)T

03. Assessment of Evaporation and Conveyance Losses to Impounded Water. (7-1-21)T
a. Evaporation losses from Mackay Reservoir shall be estimated daily by the watermaster by applying correlated evapotranspiration data and shall be assessed to all impounded water. (7-1-21)T

b. Conveyance losses in the natural channel shall be proportioned by the watermaster between natural flow and impounded water. The proportioning shall be done on a river reach basis. Impounded water flowing through a river reach that does not have a conveyance loss will not be assessed a loss for that reach. Impounded water flowing through any river reach that does have a conveyance loss will be assessed the proportionate share of the loss for each losing reach through which the impounded water flows. (7-1-21)T

i. An exception is made for impounded water delivered through the Beck and Evan diversion located in the SW1/4SE1/4SW1/4, Section 11, Township 6 North, Range 25 East, B.M. Conveyance loss for this impounded water will be assessed the conveyance loss of the Leslie reach, if any, and the additional conveyance loss to the Beck and Evan diversion but not the conveyance loss of the entire Moore reach. (7-1-21)T

04. Initiation and Duration of Surface Water Allocation for Irrigation. Any time after May 1 an irrigation water user can make a delivery call on the natural flow if the water user can make beneficial use of the water for irrigation. If sufficient natural flow exists to deliver the called for water right in a useable amount to the water users place of use, the watermaster shall deliver the right. In addition, the director may allow the diversion of rights or portions of rights for irrigation use from the Big Lost River as early as April 20 and as late as October 31, and from surface water tributaries to the Big Lost River either before or after the period of use for irrigation described in the water right where:

a. The water so diverted is applied to a beneficial use resulting in an immediate benefit to growing plants or is necessary to allow performance of an agricultural practice generally accepted in the community, as determined by the director. (7-1-21)T

b. All surface water rights, regardless of priority, unless subordinated to the water right or class of rights being called for, (now existing or developed subsequent to these rules), existing at the time of diversion that are within their period of use can be satisfied. (7-1-21)T

c. The diversion and use of the water does not conflict with the public interest as determined by the director. (7-1-21)T

05. Notice to Initiate Delivery. Water users must initiate delivery of their water right(s) by notifying the watermaster that they are ready to put water to beneficial use. (7-1-21)T
06. **Diversion of Additional Flows.** The director may allow the diversion of surface water in addition to the quantity of surface water described in a water right for irrigation use to be diverted for irrigation of the described place of use where:

a. The waters so diverted are applied to a beneficial use, as determined by the director. (7-1-21)

b. All surface water rights, regardless of priority, unless subordinated to the water right or class of water rights being called for, (now existing or developed subsequent to these rules), existing at the time of diversion that are within their period of use can be satisfied. (7-1-21)

c. The diversion and use of the water does not conflict with the public interest as determined by the director. (7-1-21)

d. Additional flows diverted pursuant to Rule 040.06 are natural flows and will not be assessed as impounded water. (7-1-21)

07. **Mackay Dam Minimum By-Pass.** Mackay Dam and Reservoir shall be operated to maintain a minimum flow of fifty (50) CFS at the 2-B gage. (7-1-21)

08. **Canal or Lateral Delivery.** In the event a water user feels inappropriate delivery of natural flow water is occurring on any lateral or canal, the water user can request the watermaster to investigate. In the event the watermaster determines that delivery of natural flow water rights within a lateral or canal is being improperly conducted he shall:

a. Notify the ditch rider and the water delivery entity of the results of his investigation and coordinate efforts to make proper delivery of the natural flow. (7-1-21)

b. If the situation has not been sufficiently resolved within twenty-four (24) hours the watermaster will notify the director who may take all actions authorized by law to remedy the situation. (7-1-21)

055. **WATER USAGE (RULE 55).**

01. **Incidental Stock Water.** When stock water is not specifically included for a water right that includes irrigation, a portion of the quantity described for irrigation use may be diverted and used, from the same point of diversion and at the same place of use as the irrigation use, for purposes of maintaining a reasonable water supply for stock watering use during the period of use for irrigation described in the water right. (7-1-21)

02. **Winter (Non-Irrigation Season) Stock Water.** During the non-irrigation season, from October 16 through April 30 except as modified by Rule 040.04, the storage of water in Mackay Reservoir is superior to all rights from the Big Lost River with points of diversion downstream from Mackay Dam, subject to minimum release. (7-1-21)

a. Winter stock water can be called for and delivered pursuant to the list of water rights if it does not interfere with storage in Mackay Reservoir. (7-1-21)

b. A right holder calling for delivery of stock water must have access to a diversion point and delivery system to convey the right to the place of use recorded in the list of water rights. If the headgate and delivery system are controlled by an entity other than the water user, the watermaster will only deliver the water with the concurrence of the owner of the headgate and delivery system and then only when such delivery does not constitute unreasonable waste as determined by the director. (7-1-21)

056. -- 059. (RESERVED)

060. **ACCOUNTING FOR WATER DELIVERY (RULE 60).** Water diversions shall be accounted for continuously, throughout the year by the watermaster. (7-1-21)

061. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 37-0000-2000F is effective July 1, 2021.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 37, rules of the Idaho Department of Water Resources (IDWR) and Idaho Water Resource Board (IWRB):

**IDAPA 37**
- 37.01.01, Rules of Procedure of the Idaho Department of Water Resources;
- 37.02.03, Water Supply Bank Rules;
- 37.03.01, Adjudication Rules;
- 37.03.02, Beneficial Use Examination Rules;
- 37.03.03, Rules and Minimum Standards for the Construction and Use of Injection Wells;
- 37.03.04, Drilling for Geothermal Resources Rules;
- 37.03.05, Mine Tailings Impoundment Structures Rules;
- 37.03.06, Safety of Dams Rules;
- 37.03.07, Stream Channel Alteration Rules;
- 37.03.08, Water Appropriation Rules;
- 37.03.09, Well Construction Standards and Rules; and
- 37.03.10, Well Driller Licensing Rules.

Rescision of previous temporary rule aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho Water Resource Board and the Department of Water Resource find these rules are necessary for the continued efficient and consistent execution of contested case proceedings, implementing the water supply bank program, adjudicating water rights, issuing water rights (permits, licenses, transfers, etc.), implementing the underground injection well program, protecting geothermal resources, protecting ground water resources, ensuring regulated dams and mine tailing and water impoundment structures do not pose a health or safety risk to the public, ensuring stream channel alteration activities do not impair the resources or pose a health or safety risk to the public, and issuing well driller licenses.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:
The fees or charges, authorized in Title 42, Idaho Code, as further specified below, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

IDAPA 37.01.01 establishes the rules of procedure governing contested case proceedings before IDWR and the IWRB. It also addresses filing fees associated with such proceedings. This chapter was adopted under the legal authority of Sections 42-1701A(1), 42-1734(19), 42-1805(8), 67-2356 and 67-5206(5), Idaho Code.

IDAPA 37.02.03 governs IWRB’s operation and management of the water supply bank authorized by statute. The purpose of the water supply bank is to encourage the highest beneficial use of water; provide a source of adequate water supplies to benefit new and supplemental water users; and provide a source of funding for improving water user facilities and efficiencies. It also establishes lease and rental fees that are used to carry out the program which are credited to IWRB’s revolving development and water management accounts. This chapter was adopted under the legal authority of Section 42-1762, Idaho Code.

IDAPA 37.03.01 implements the filing of notices of claims to water rights claimed under state law and the collection of fees for filing notices of claims to water rights acquired under state law in general adjudications. Idaho is currently in the midst of the North Idaho Adjudication (NIA) and IDWR has recently commenced the Palouse Basin Adjudication and anticipates commencing the final phase of the NIA—the Clark Fork-Pend Oreille River Basin adjudication—sometime after 2020. The Rule is integral to the processing of these general adjudications. This chapter was adopted under the legal authority of Sections 42-1414, and 42-1805(8), Idaho Code.

IDAPA 37.03.02 governs the examination requirements necessary to consider and determine the extent of application of water to beneficial use accomplished under a water right permit. The Rule also establishes that field examinations can be conducted by certified water right examiners appointed by the Director. Finally, the Rule governs licensing examination fees which are used to offset costs incurred by IDWR in reviewing and determining the extent of beneficial use. This chapter was adopted under the legal authority of Section 42-1805(8), Idaho Code.

IDAPA 37.03.03 governs injection wells in Idaho. The Rule requires all injection wells to be permitted and constructed in accordance with the Well Construction Standards Rules (IDAPA 37.03.09), which protect ground water resources from quality impairment. It is also necessary to maintain this Rule in order for the IWRB to maintain compliance with federal law, under which authority Idaho regulates the permitting, construction, and operation of certain injection wells within the state. Finally, the Rule governs inventory and permit fees which are used to partially fund the operation of the Underground Injection Control program in Idaho. This chapter was adopted under the legal authority of Sections 42-3913, 42-3914, and 42-3915, Idaho Code.

IDAPA 37.03.04 governs the regulation of geothermal resource exploration and development and ensure that such activities occur in the public interest. The Rule allows Idaho’s geothermal policy, “to maximize the benefits to the entire state which may be derived from the utilization of our geothermal resources, while minimizing the detriments and costs of all kinds which could result from their utilization” is met. The Rule also requires fees for geothermal exploratory wells, production wells, injection wells, and amendments to permits, as set forth in Idaho Code Sections 42-4003 and 4011.

IDAPA 37.03.05 establishes acceptable construction standards and governs IDWR’s design and technical review of mine tailing and water impoundment structures. The Rule also supports the collection of a fee to review plans, drawings, and specifications pertaining to any mine tailings impoundment structure.

IDAPA 37.03.06 establishes acceptable standards for construction of dams and establishes guidelines for safety evaluation of new or existing dams. The Rule applies to all new dams, to existing dams to be enlarged, altered or repaired, and maintenance of certain existing dams, as specifically provided in the Rule. This chapter also establishes the collection of a fee to review plans, drawings, and specifications pertaining to the construction, enlargement, alteration, or repair of small high-risk, intermediate, or large dams. This chapter was adopted pursuant to Section 42-1714, Idaho Code.
IDAPA 37.03.07 governs the permitting of stream channel alterations that are of a common type, which do not propose alterations which will be a hazard to the stream channel and its environment. This chapter also establishes the collection of stream channel alteration statutory filing fees as authorized in Idaho Code Section 42-3803.

IDAPA 37.03.08 governs appropriations from all sources of unappropriated public water in the state of Idaho under the authority of Chapter 2, Title 42, Idaho Code. Sources of public water include rivers, streams, springs, lakes and groundwater. The rules are also applicable to the reallocation of hydropower water rights (i.e. Swan Falls Trust Water) held in trust by the state of Idaho. The Rule also implements the application, re-advertisement, and mailing fees set forth in Idaho Code Sections 42-221F and 42-203(A)3.

IDAPA 37.03.09 governs IDWR’s statutory responsibility for the statewide administration of the rules governing well construction. These rules establish minimum standards for the construction of all new wells and the modification and decommissioning (abandonment) of existing wells. The intent of the Rule is to protect ground water resources of the state against waste and contamination. The Rule also implements the drilling permit fees set forth in Idaho Code Section 42-235.

IDAPA 37.03.10 establishes the requirements and procedures for obtaining and renewing authorization to drill wells in the state of Idaho. The rules also establish the requirements and procedures for obtaining authorization to operate drilling equipment under the supervision of a licensed driller. The licensing rules are applicable to all individuals and companies drilling or contracting to drill wells. The rules also implement the application licensing fees set forth in Idaho Code Section 42-238.

In summary, the fee categories described in the attached rules include: (1) administrative appeals filing fees; (2) water supply bank lease and rental fees; (3) adjudication application fees; (4) water right licensing examination fees; (5) injection well inventory and permit fees; (6) geothermal well permit fees; (7) design review fees for mine tailings impoundment structure and select dams; (8) stream channel alteration statutory filing fees; (9) water right application, re-advertisement, and mailing fees; (10) well drilling permit fees; and (11) application licensing fees for well drillers.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the adoption of temporary rules and rescission of temporary rules, contact Mathew Weaver, Deputy Director at (208) 287-4800.

DATED this 1st day of July, 2021.

Gary Spackman, Director
Idaho Department of Water Resources
322 E. Front Street

000. LEGAL AUTHORITY (RULE 0).
This chapter is adopted under the legal authority of Sections 42-1701A(1), 42-1734(19), 42-1805(8), and 67-5206(5), Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 1).
01. Title. The title of this chapter is “Rules of Procedure of the Idaho Department of Water Resources.” (7-1-21)
02. Scope. This chapter contains the rules of procedure that govern contested case proceedings before the Department of Water Resources and the Water Resource Board of the state of Idaho. (7-1-21)

002. -- 004. (RESERVED)

005. DEFINITIONS (RULE 5).
As used in this chapter: (7-1-21)
01. Administrative Code. The Idaho administrative code established in Chapter 52, Title 67, Idaho Code. (7-1-21)
02. Agency. The Department of Water Resources or the Water Resource Board acting within their respective authority to make rules or to determine contested cases. (7-1-21)
03. Agency Action. Agency action means:
   a. The whole or part of a rule or order;
   b. The failure to issue a rule or order; or
   c. An agency’s performance of, or failure to perform, any duty placed on it by law. (7-1-21)
04. Agency Head. An individual or body of individuals in whom the ultimate legal authority of the agency is vested by any provision of law. (7-1-21)
05. Board. The Idaho Water Resource Board. (7-1-21)
06. Bulletin. The Idaho administrative bulletin established in Chapter 52, Title 67, Idaho Code. (7-1-21)
07. Contested Case. A proceeding which results in the issuance of an order. (7-1-21)
08. Coordinator. The Administrative Rules Coordinator Prescribed in Section 67-5202, Idaho Code. (7-1-21)
09. Department. The Idaho Department of Water Resources. (7-1-21)
10. Director. The agency head of the Idaho Department of Water Resources. (7-1-21)
11. Document. Any proclamation, executive order, notice, rule or statement of policy of an agency. (7-1-21)
12. License. The whole or part of any agency permit, certificate, approval, registration, charter, or similar form of authorization required by law, but does not include a license required solely for revenue purposes.
13. **Official Text.** The text of a document issued, prescribed, or promulgated by an agency in accordance with this chapter, and is the only legally enforceable text of such document.

14. **Order.** An agency action of particular applicability that determines the legal rights, duties, privileges, immunities, or other legal interests of one (1) or more specific persons.

15. **Party.** Each person or agency named or admitted as a party, or properly seeking and entitled as of right to be admitted as a party.

16. **Person.** Any individual, partnership, corporation, association, governmental subdivision or agency, or public or private organization or entity of any character.

17. **Provision of Law.** The whole or a part of the state or federal constitution, or of any state or federal:
   a. Statute; or
   b. Rule or decision of the court.

18. **Publish.** To bring before the public by publication in the bulletin or administrative code, or as otherwise specifically provided by law.

19. **Rule.** The whole or a part of an agency statement of general applicability that has been promulgated in compliance with the provisions of Chapter 52, Title 67, Idaho Code, and that implements, interprets, or prescribes:
   a. Law or policy, or
   b. The procedure or practice requirements of an agency. The term includes the amendment, repeal, or suspension of an existing rule, but does not include:
      i. Statements concerning only the internal management or internal personnel policies of an agency and not affecting private rights of the public or procedures available to the public;
      ii. Declaratory rulings issued pursuant to Section 67-5232, Idaho Code;
      iii. Intra-agency memoranda; or
      iv. Any written statements given by an agency which pertain to an interpretation of a rule or to the documentation of compliance with a rule.

20. **Rulemaking.** The process for formulation, adoption, amendment or repeal of a rule.
all other parties. No copies in addition to the original document need be filed with the agency unless requested by the agency.

009. -- 049. (RESERVED)

050. PROCEEDINGS GOVERNED (RULE 50).
Rules 100 through 799 govern procedure before the Department and the Board in contested cases, unless otherwise provided by rule, notice or order of the agency. The Department and the Board through the promulgation of these rules decline in whole to adopt the contested case portion of the “Idaho Rules of Administrative Procedure of the Attorney General,” cited as IDAPA 04.11.01.100 through 04.11.01.799. Rulemaking before the Department and the Board shall be governed by Rules 800 through 860 of the “Idaho Rules of Administrative Procedure of the Attorney General,” cited as IDAPA 04.11.01.800 through 04.11.01.860.

051. REFERENCE TO AGENCY (RULE 51).
Reference to the agency in these rules includes the agency director, the board, hearing officer appointed by the agency or the board, or presiding officer, as context requires. Reference to the agency head means the agency director or the board, as context requires, or such other officer designated by the agency head or the board to review recommended or preliminary orders.

052. LIBERAL CONSTRUCTION (RULE 52).
The rules in this chapter will be liberally construed to secure just, speedy and economical determination of all issues presented to the agency. Unless prohibited by statute, the agency may permit deviation from these rules when it finds that compliance with them is impracticable, unnecessary or not in the public interest. Unless required by statute, or otherwise provided by these rules, the Idaho Rules of Civil Procedure and the Idaho Rules of Evidence do not apply to contested case proceedings conducted before the agency.

053. COMMUNICATIONS WITH AGENCY (RULE 53).
All written communications and documents that are intended to be part of an official record for a decision in a contested case must be filed with the officer designated by the agency. Unless otherwise provided by statute, rule, order or notice, documents are considered filed when received by the officer designated to receive them, not when mailed, or otherwise transmitted.

054. IDENTIFICATION OF COMMUNICATIONS (RULE 54).
Parties’ communications addressing or pertaining to a given proceeding should be written under that proceeding’s case caption and case number, if applicable. General communications by other persons should refer to case captions, case numbers, permit or license numbers, or the like, if this information is known.

055. SERVICE BY AGENCY (RULE 55).
Unless otherwise provided by statute or these rules, the officer designated by the agency to serve rules, notices, complaints, and orders issued by the agency may serve these documents by regular mail or by certified mail, return receipt requested, to a party’s last known mailing address or by personal service. Unless otherwise provided by statute, these rules, order or notice, service of orders and notices is complete when a copy, properly addressed and stamped, is deposited in the United States mail, or the Statehouse mail if the party is a state employee or state agency. The officer designated by the agency to serve documents in a proceeding must serve all orders and notices in a proceeding on the representatives of each party designated pursuant to these rules for that proceeding and upon other persons designated by these rules or by the agency.

056. COMPUTATION OF TIME (RULE 56).
Whenever statute, these or other rules, order, or notice requires an act to be done within a certain number of days of a given day, the given day is not included in the count, but the last day of the period so computed is included in the count. If the day the act must be done is Saturday, Sunday or a legal holiday, the act may be done on the first day following that is not Saturday, Sunday or a legal holiday.

057. ADDITIONAL TIME AFTER SERVICE BY MAIL (RULE 57).
Whenever a party has the right or is required to do some act or take some proceedings within a prescribed period after the service of a notice or other paper upon the party and the notice or paper is served upon the party by mail, three (3) days shall be added to the prescribed period. This rule, however, shall not extend the time for filing a protest, a
petition for reconsideration of a preliminary, recommended or final order before the agency, the time for filing exceptions with the agency head to a preliminary or recommended order, or the time for filing an appeal with the district court from a final decision of the agency. (7-1-21)

058. FEES AND REMITTANCES (RULE 58).
If submitted by mail, fees and remittances to the agency may be paid by money order, bank draft or check payable to agency. Remittances in currency or coin, submitted by mail, are strongly discouraged and are wholly at the risk of the remitter, and the agency assumes no responsibility for their loss. The agency may, upon the completion of necessary arrangements by the agency, accept the payment of fees and remittances by credit card. Filings required to be accompanied by a fee are not complete until the fee is paid. (7-1-21)

059. -- 099. (RESERVED)

100. INFORMAL PROCEEDINGS DEFINED (RULE 100).
Informal proceedings are proceedings in contested cases authorized by statute, rule or order of the agency to be conducted using informal procedures, i.e., procedures without a record to be preserved for later agency or judicial review, without the necessity of representation according to Rule 230, without formal designation of parties, without the necessity of hearing examiners or other presiding officers, or without other formal procedures required by these rules for formal proceedings. Unless prohibited by statute, an agency may provide that informal proceedings may precede formal proceedings in the consideration of a rulemaking or a contested case. (7-1-21)

101. INFORMAL PROCEDURE (RULE 101).
Statute authorizes and these rules encourage the use informal proceedings to settle or determine contested cases. Unless prohibited by statute, the agency may provide for the use of informal procedure at any stage of a contested case. Informal procedure may include individual contacts, consistent with Rule 417, by or with the agency staff asking for information, advice or assistance from the agency staff, or proposing informal resolution of formal disputes under the law administered by the agency. Informal procedures may be conducted in writing, by telephone or television, or in person. (7-1-21)

102. FURTHER PROCEEDINGS (RULE 102).
If statute provides that informal procedures shall be followed with no opportunity for further formal administrative review, then no opportunity for later formal administrative proceedings must be offered following informal proceedings. Otherwise, except as provided in Rule 103, any person participating in an informal proceeding must be given an opportunity for a later formal administrative proceeding before the agency, at which time the parties may fully develop the record before the agency. (7-1-21)

103. INFORMAL PROCEEDINGS DO NOT EXHAUST ADMINISTRATIVE REMEDIES (RULE 103).
Unless all parties agree to the contrary in writing, informal proceedings do not substitute for formal proceedings and do not exhaust administrative remedies, and informal proceedings are conducted without prejudice to the right of the parties to present the matter formally to the agency. Settlement offers made in the course of informal proceedings are confidential and shall not be included in the agency record of a subsequent formal proceeding. (7-1-21)

104. FORMAL PROCEEDINGS (RULE 104).
Formal proceedings, which are governed by rules of procedure other than Rules 100 through 103, must be initiated by a document (generally a notice, order or complaint if initiated by the agency) or another pleading listed in Rules 210 through 280 if initiated by another person. Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280. Formal proceedings can be initiated by the same document that initiates informal proceedings. (7-1-21)

105. -- 149. (RESERVED)

150. PARTIES TO CONTESTED CASES LISTED (RULE 150).
Parties to contested cases before the agency are called applicants or claimants or appellants, petitioners, complainants, respondents, protestants, or intervenors. On reconsideration or appeal within the agency parties are called by their original titles listed in the previous sentence. (7-1-21)
151. **APPLICANTS/CLAIMANTS/APPELLANTS (RULE 151).**
Persons who seek any right, license, award or authority from the agency are called “applicants” or “claimants” or “appellants.” (7-1-21)T

152. **PETITIONERS (RULE 152).**
Persons not applicants who seek to modify, amend or stay existing orders or rules of the agency, to clarify their rights or obligations under law administered by the agency, to ask the agency to initiate a contested case (other than an application or complaint), or to otherwise take action that will result in the issuance of an order or rule, are called “petitioners.” (7-1-21)T

153. **COMPLAINANTS (RULE 153).**
Persons who charge other person(s) with any act or omission are called “complainants.” In any proceeding in which the agency itself charges a person with an act or omission, the agency is called “complainant.” (7-1-21)T

154. **RESPONDENTS (RULE 154).**
Persons against whom complaints are filed or about whom investigations are initiated are called “respondents.” (7-1-21)T

155. **PROTESTANTS (RULE 155).**
Persons who oppose an application or claim or appeal and who have a statutory right to contest the right, license, award or authority sought by an applicant or claimant or appellant are called “protestants.” (7-1-21)T

156. **INTERVENORS (RULE 156).**
Persons, not applicants or claimants or appellants, complainants, respondents, or protestants to a proceeding, who are permitted to participate as parties pursuant to Rules 350 through 354 are called “intervenors.” (7-1-21)T

157. **RIGHTS OF PARTIES AND OF AGENCY STAFF (RULE 157).**
Subject to Rules 558, 560, and 600, all parties and agency staff may appear at hearing or argument, introduce evidence, examine witnesses, make and argue motions, state positions, and otherwise fully participate in hearings or arguments. (7-1-21)T

158. **PERSONS NOT PARTIES -- INTERESTED PERSONS (RULE 158).**
Persons other than the persons named in Rules 151 through 156 are not parties for the purpose of any statute or rule addressing rights or obligations of parties to a contested case. Persons not parties who have an interest in a proceeding are called “interested persons.” Interested persons may participate in a proceeding as “public witnesses” in accordance with Rule 355. (7-1-21)T

159. -- 199. (RESERVED)

200. **INITIAL PLEADING BY PARTY -- LISTING OF REPRESENTATIVES (RULE 200).**
The initial pleading of each party at the formal stage of a contested case (be it an application or claim or appeal, petition, complaint, protest, motion, or answer) must name the party’s representative(s) for service and state the representative’s(s’) address(es) for purposes of receipt of all official documents. No more than two (2) representatives for service of documents may be listed in an initial pleading. Service of documents on the named representative(s) is valid service upon the party for all purposes in that proceeding. If no person is explicitly named as the party’s representative, the person signing the pleading will be considered the party’s representative. If an initial pleading is signed by more than one (1) person without identifying the representative(s) for service of documents, the presiding officer may select the person(s) upon whom documents are to be served. If two (2) or more parties or persons file identical or substantially like initial pleadings, the presiding officer may limit the number of parties or persons required to be served with official documents in order to expedite the proceeding and reasonably manage the burden of service upon the parties and the agency. (7-1-21)T

201. **TAKING OF APPEARANCES -- PARTICIPATION BY AGENCY STAFF (RULE 201).**
The presiding officer at a formal hearing or prehearing conference will take appearances to identify the representatives of all parties or other persons. In all proceedings in which the agency staff will participate, or any report or recommendation of the agency staff (other than a recommended order or preliminary order prepared by a
hearing officer) will be considered or used in reaching a decision, at the timely request of any party the agency staff must appear at any hearing and be made available for cross-examination and otherwise participate in the hearing, at the discretion of the presiding officer, in the same manner as a party.

202. REPRESENTATION OF PARTIES AT HEARING (RULE 202).

01. Appearances and Representation. To the extent authorized or required by law, appearances and representation of parties or other persons at formal hearing or prehearing conference must be as follows:

a. Natural Person. A natural person may represent himself or herself or be represented by a duly authorized employee, attorney, or family member, or by a next friend if the person lacks full legal capacity to act for himself or herself.

b. A partnership may be represented by a partner, duly authorized employee, or attorney.

c. A corporation may be represented by an officer, duly authorized employee, or attorney.

d. A municipal corporation, local government agency, unincorporated association or nonprofit organization may be represented by an officer, duly authorized employee, or attorney.

e. A state, federal or tribal governmental entity or agency may be represented by an officer, duly authorized employee, or attorney.

02. Representatives. The representatives of parties at hearing, and no other persons or parties appearing before the agency, are entitled to examine witnesses and make or argue motions.

203. SERVICE ON REPRESENTATIVES OF PARTIES AND OTHER PERSONS (RULE 203).

From the time a party files its initial pleading in a contested case, that party must serve and all other parties must serve all future documents intended to be part of the agency record upon all other parties’ representatives designated pursuant to Rule 200, unless otherwise directed by order or notice or by the presiding officer on the record. The presiding officer may order parties to serve past documents filed in the case upon those representatives. The presiding officer may order parties to serve past or future documents filed in the case upon persons not parties to the proceedings before the agency.

204. WITHDRAWAL OF PARTIES (RULE 204).

Any party may withdraw from a proceeding in writing or at hearing.

205. SUBSTITUTION OF REPRESENTATIVE -- WITHDRAWAL OF REPRESENTATIVE (RULE 205).

A party’s representative may be changed and a new representative may be substituted by notice to the agency and to all other parties so long as the proceedings are not unreasonably delayed. The presiding officer at hearing may permit substitution of representatives at hearing in the presiding officer’s discretion. Persons representing a party who wish to withdraw their representation of a party in a proceeding before the agency must immediately file in writing a notice of withdrawal of representation and serve that notice on the party represented and all other parties.

206. CONDUCT REQUIRED (RULE 206).

Representatives of parties and parties appearing in a proceeding must conduct themselves in an ethical and courteous manner. Smoking is not permitted at hearings.

207. -- 209. (RESERVED)

210. PLEADINGS LISTED -- MISCELLANEOUS (RULE 210).

Pleadings in contested cases are called applications or claims or appeals, petitions, complaints, protests, motions, answers, and consent agreements. Affidavits or declarations under penalty of perjury may be filed in support of any pleading. A party’s initial pleading in any proceeding must comply with Rule 200, but the presiding officer may allow documents filed during informal stages of the proceeding to be considered a party’s initial pleading without the requirement of resubmission to comply with this rule. All pleadings filed during the formal stage of a proceeding
must be filed in accordance with Rules 300 through 303. A party may adopt or join any other party’s pleading. Two (2) or more separately stated grounds, claims or answers concerning the same subject matter may be included in one (1) pleading.

211. -- 219. (RESERVED)

220. APPLICATIONS/CLAIMS/APPEALS -- DEFINED -- FORM AND CONTENTS (RULE 220). All pleadings requesting a right, license, award or authority from the agency are called “applications” or “claims” or “appeals.” All pleadings must be submitted on Department approved forms if available. Applications or claims or appeals not submitted on Department approved forms should:

01. Facts. Fully state the facts upon which they are based.

02. Refer to Provisions. Refer to the particular provisions of statute, rule, order, or other controlling law upon which they are based.

03. Other. State the right, license, award, or authority sought.

221. -- 229. (RESERVED)

230. PETITIONS -- DEFINED -- FORM AND CONTENTS (RULE 230).

01. Pleadings Defined. All pleadings requesting the following are called “petitions:”

a. Modification, amendment or stay of existing orders or rules;

b. Clarification, declaration or construction of the law administered by the agency or of a party’s rights or obligations under law administered by the agency;

c. The initiation of a contested case not an application, claim or complaint or otherwise taking action that will lead to the issuance of an order or a rule;

d. Rehearing; or

e. Intervention.

02. Petitions. Petitions should:

a. Fully state the facts upon which they are based;

b. Refer to the particular provisions of statute, rule, order or other controlling law upon which they are based;

c. State the relief desired; and

d. State the name of the person petitioned against (the respondent), if any.

231. -- 239. (RESERVED)

240. COMPLAINTS -- DEFINED -- FORM AND CONTENTS (RULE 240).

01. Complaints - Defined. All pleadings charging other person(s) with acts or omissions under law administered by the agency are called “complaints.”

02. Form and Contents. Complaints must:

a. Be in writing;
b. Fully state the acts or things done or omitted to be done by the persons complained against by reciting the facts constituting the acts or omissions and the dates when they occurred; (7-1-21)

c. Refer to statutes, rules, orders or other controlling law involved; (7-1-21)
d. State the relief desired; (7-1-21)
e. State the name of the person complained against (the respondent). (7-1-21)

241. -- 249. (RESERVED)

250. PROTESTS -- DEFINED -- FORM AND CONTENTS (RULE 250).

01. Protests - Defined. All pleadings opposing an application or claim or appeal as a matter of right are called “protests.” (7-1-21)

02. Form and Contents. Protests should:

a. Fully state the facts upon which they are based, including the protestant’s claim of right to oppose the application or claim; (7-1-21)

b. Refer to the particular provisions of statute, rule, order or other controlling law upon which they are based; and (7-1-21)

c. State any proposed limitation (or the denial) of any right, license, award or authority sought in the application. (7-1-21)

251. -- 259. (RESERVED)

260. MOTIONS -- DEFINED -- FORM AND CONTENTS -- TIME FOR FILING (RULE 260).

01. Motions - Defined. All other pleadings requesting the agency to take any other action in a contested case, except consent agreements or pleadings specifically answering other pleadings, are called “motions.” (7-1-21)

02. Form and Contents. Motions should:

a. Fully state the facts upon which they are based; (7-1-21)

b. Refer to the particular provision of statute, rule, order, notice, or other controlling law upon which they are based; and (7-1-21)

c. State the relief sought. (7-1-21)

03. Other. If the moving party desires oral argument or hearing on the motion, it must state so in the motion. Any motion to dismiss, strike or limit an application or claim or appeal, complaint, petition, or protest must be filed before the answer is due or be included in the answer, if the movant is obligated to file an answer. If a motion is directed to an answer, it must be filed within fourteen (14) days after service of the answer. Other motions may be filed at any time upon compliance with Rule 565. (7-1-21)

261. -- 269. (RESERVED)

270. ANSWERS -- DEFINED -- FORM AND CONTENTS -- TIME FOR FILING (RULE 270).

All pleadings responding to the allegations or requests of applications or claims or appeals, complaints, petitions, or motions are called “answers.” (7-1-21)
01. **Answers to Pleadings Other than Motions.** Answers to applications, claims, appeals, complaints, or petitions when required to be filed by provision of statute, rule, or order must be filed and served on all parties of record within twenty-one (21) days after service of the pleading being answered, unless order or notice modifies the time within which answer may be made, or a motion to dismiss is made within twenty-one (21) days. When an answer is not timely filed under this rule, the presiding officer may issue a notice of default against the respondent pursuant to Rule 700. Answers to applications or claims, complaints, or petitions, must admit or deny each material allegation of the applications or claims, complaint, or petition. Any material allegation not specifically admitted shall be considered to be denied. Matters alleged by cross-complaint or affirmative defense must be separately stated and numbered. This rule does not prevent a party from filing a responsive pleading in instances not required under these rules.

02. **Answers to Motions.** Answers to motions may be filed by persons or parties who are the object of a motion or by parties opposing a motion within fourteen (14) days of the filing of the motion. The time to file an answer to a motion may be enlarged or shortened by the presiding officer upon a showing of good cause by a party. The presiding officer may act upon a prehearing motion under Rule 565.

271. -- 279. (RESERVED)

280. **CONSENT AGREEMENTS -- DEFINED -- FORM AND CONTENTS (RULE 280).** Agreements between the agency or agency staff and another person(s) in which one (1) or more person(s) agree to engage in certain conduct mandated by statute, rule, order, case decision, or other provision of law, or to refrain from engaging in certain conduct prohibited by statute, rule, order, case decision, or other provision of law, are called “consent agreements.” Consent agreements are intended to require compliance with existing law.

01. **Requirements.** Consent agreements must:
   a. Recite the parties to the agreement; and
   b. Fully state the conduct proscribed or prescribed by the consent agreement.

02. **Additional.** In addition, consent agreements may:
   a. Recite the consequences of failure to abide by the consent agreement;
   b. Provide for payment of civil or administrative penalties authorized by law;
   c. Provide for loss of rights, licenses, awards or authority;
   d. Provide for other consequences as agreed to by the parties; and
   e. Provide that the parties waive all further procedural rights (including hearing, consultation with counsel, etc.) with regard to enforcement of the consent agreement.

281. -- 299. (RESERVED)

300. **FILING DOCUMENTS WITH THE AGENCY -- NUMBER OF COPIES -- FACSIMILE TRANSMISSION (FAX) (RULE 300).** An original and necessary copies (if any are required by the agency) of all documents intended to be part of an agency record must be filed with the officer designated by the agency to receive filing in the case. Pleadings and other documents not exceeding ten (10) pages in length requiring urgent or immediate action may be filed by facsimile transmission (FAX). Whenever any document is filed by FAX, the original must be mailed by United States mail or physically delivered to the agency the next working day. A document required to be accompanied by a filing fee shall not be filed with the agency until the fee is received. There shall be no limit as to the number of pages of a facsimile copy which was not transmitted directly to the agency by the facsimile machine process.

301. **FORM OF PLEADINGS (RULE 301).**
01. Pleadings. All pleadings, except those on agency forms, submitted by a party and intended to be part of an agency record should:

a. Be submitted on white eight and one-half inch (8 1/2") by eleven inch (11") paper copied on one (1) side only; (7-1-21)

b. State the case caption, case number, if applicable, and title of the document; (7-1-21)

c. Include on the upper left corner of the first page the name(s), mailing and street address(es), and telephone and FAX number(s) of the person(s) filing the document or the person(s) to whom questions about the document can be directed; and (7-1-21)

d. Have at least one inch (1") left and top margins. (7-1-21)

02. Form. Documents complying with this rule will be in the following form:

Name of Representative
Mailing Address of Representative
Street Address of Representative (if different)
Telephone Number of Representative
FAX Number of Representative (if there is one)
Attorney/Representative for (Name of Party)
BEFORE THE AGENCY
(Title of Proceeding) ) CASE NO.
) )
) ) (TITLE OF DOCUMENT)
) )

302. SERVICE ON PARTIES AND OTHER PERSONS (RULE 302).
All documents intended to be part of the agency record for decision must be served upon the representatives of each party of record concurrently with filing the original with the officer designated by the agency to receive filings in the case. (7-1-21)

303. PROOF OF SERVICE (RULE 303).
Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate:

I HEREBY CERTIFY (swear or affirm) that I have this day of, served the foregoing (name(s) of document(s) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).
(Signature) (7-1-21)

304. DEFECTIVE, INSUFFICIENT OR LATE PLEADINGS (RULE 304).
Defective, insufficient or late pleadings may be returned or dismissed. (7-1-21)

305. AMENDMENTS TO PLEADINGS -- WITHDRAWAL OF PLEADINGS (RULE 305).
The presiding officer may allow any pleading to be amended or corrected or any omission to be supplied. Pleadings will be liberally construed, and defects that do not affect substantial rights of the parties will be disregarded. A party desiring to withdraw a pleading must file a notice of withdrawal of the pleading and serve all parties with a copy. Unless otherwise ordered by the presiding officer, the notice is effective fourteen (14) days after filing. (7-1-21)

306. -- 349. (RESERVED)

350. ORDER GRANTING INTERVENTION NECESSARY (RULE 350).
Persons not applicants or claimants or appellants, petitioners, complainants, protestants, or respondents to a
proceeding who claim a direct and substantial interest in the proceeding may petition for an order from the presiding officer granting intervention to become a party, if a formal hearing is required by statute to be held in the proceeding.

351. FORM AND CONTENTS OF PETITIONS TO INTERVENE (RULE 351).
Petitions to intervene must comply with Rules 200, 300, and 301. The petition must set forth the name and address of the potential intervenor and must state the direct and substantial interest of the potential intervenor in the proceeding. If affirmative relief is sought, the petition must state the relief sought and the basis for granting it.

352. TIMELY FILING OF PETITIONS TO INTERVENE (RULE 352).
Petitions to intervene must be filed at least fourteen (14) days before the date set for formal hearing, or by the date of the prehearing conference, whichever is earlier, unless a different time is provided by order or notice. Petitions not timely filed must state a substantial reason for delay. The presiding officer may deny or conditionally grant petitions to intervene that are not timely filed for failure to state good cause for untimely filing, to prevent disruption, prejudice to existing parties or undue broadening of the issues, or for other reasons. Intervenors who do not file timely petitions are bound by orders and notices earlier entered as a condition of granting the untimely petition.

353. GRANTING PETITIONS TO INTERVENE (RULE 353).
If a timely-filed petition to intervene shows direct and substantial interest in any part of the subject matter of a proceeding and does not unduly broaden the issues, the presiding officer will grant intervention, subject to reasonable conditions, unless the applicant’s interest is adequately represented by existing parties. If it appears that an intervenor has no direct or substantial interest in the proceeding, the presiding officer may dismiss the intervenor from the proceeding.

354. ORDERS GRANTING INTERVENTION -- OPPOSITION (RULE 354).
No order granting a petition to intervene will be acted upon sooner than seven (7) days after its filing, except in a hearing in which any party may be heard or except where no objection to the intervention is made. Any party opposing a petition to intervene by motion must file the motion within seven (7) days after receipt of the petition to intervene and serve the motion upon all parties of record and upon the person petitioning to intervene.

355. PUBLIC WITNESSES (RULE 355).
Persons not parties and not called by a party who testify at hearing are called “public witnesses.” Public witnesses do not have parties’ rights to examine witnesses or otherwise participate in the proceedings as parties. Public witnesses’ written or oral statements and exhibits are subject to examination and objection by parties. Subject to Rules 557 and 559, public witnesses have a right to introduce evidence at hearing by their written or oral statements and exhibits introduced at hearing, except that public witnesses offering expert opinions at hearing or detailed analysis or detailed exhibits must comply with Rule 528 with regard to filing and service of testimony and exhibits to the same extent as expert witnesses of parties. A person intending to present public witness testimony shall provide five (5) days notice prior to the hearing. The notice shall include the name and address of the witness and the general nature or subject matter of the testimony to be given. If the notice is not given, the public testimony will be allowed only at the discretion of the presiding officer upon a finding of good cause.

356. -- 399. (RESERVED)

400. FORM AND CONTENTS OF PETITION FOR DECLARATORY RULINGS (RULE 400).
Any person petitioning for a declaratory ruling on the applicability of a statute, rule or order administered by the agency must substantially comply with this rule.

01. Form. The petition shall:

a. Identify the petitioner and state the petitioner’s interest in the matter;

b. State the declaratory ruling that the petitioner seeks; and

c. Indicate the statute, order, rule, or other controlling law, and the factual allegations upon which the petitioner relies to support the petition.
02. **Legal Assertions.** Legal assertions in the petition may be accompanied by citations of cases and/or statutory provisions.

401. **NOTICE OF PETITION FOR DECLARATORY RULING (RULE 401).**
Notice of petition for declaratory ruling may be issued in a manner designed to call its attention to persons likely to be interested in the subject matter of the petition.

402. **PETITIONS FOR DECLARATORY RULINGS TO BE DECIDED BY ORDER (RULE 402).**

01. **Final Agency Action.** The agency’s decision on a petition for declaratory ruling on the applicability of any statute, rule or order administered by the agency is a final agency action decided by order.

02. **Content.** The order issuing the declaratory ruling shall contain or must be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

   a. This is a final agency action issuing a declaratory ruling.

   b. Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this declaratory ruling may appeal to district court by filing a petition in the District Court in the county in which:

      i. A hearing was held;

      ii. The declaratory ruling was issued;

      iii. The party appealing resides; or

      iv. The real property or personal property that was the subject of the declaratory ruling is located.

   c. This appeal must be filed within twenty-eight (28) days of the service date of this declaratory ruling. See Section 67-5273, Idaho Code.

403. -- 409. **(RESERVED)**

410. **APPOINTMENT OF HEARING OFFICERS (RULE 410).**
A hearing officer is a person other than the agency head appointed to hear contested cases on behalf of the agency. Unless otherwise provided by statute or rule, hearing officers may be employees of the agency or independent contractors. Hearing officers may be (but need not be) attorneys. Hearing officers who are not attorneys should ordinarily be persons with technical expertise or experience in issues before the agency. The appointment of a hearing officer is a public record available for inspection, examination and copying.

411. **HEARING OFFICERS CONTRASTED WITH AGENCY HEAD (RULE 411).**
Agency heads are not hearing officers, even if they are presiding at contested cases. The term “hearing officer” as used in these rules refers only to officers subordinate to the agency head.

412. **DISQUALIFICATION OF OFFICERS HEARING CONTESTED CASES (RULE 412).**
Pursuant to Section 67-5252, Idaho Code hearing officers are subject to disqualification for bias, prejudice, interest, substantial prior involvement in the case other than as a presiding officer, status as an employee of the agency, lack of professional knowledge in the subject matter of the contested case, or any other reason provided by law or for any cause for which a judge is or may be disqualified. Any party may promptly petition for the disqualification of a hearing officer after receiving notice that the officer will preside at a contested case or upon discovering facts establishing grounds for disqualification, whichever is later. Any party may assert a blanket disqualification for cause of all employees of the agency hearing the contested case, other than the agency head, without awaiting the designation by a presiding officer. A hearing officer whose disqualification is requested shall determine in writing whether to grant the petition for disqualification, stating facts and reasons for the hearing officer’s determination. Disqualification of agency heads, if allowed, will be pursuant to Sections 74-404 and 67-5252(4), Idaho Code.
413. SCOPE OF AUTHORITY OF HEARING OFFICERS (RULE 413).

The scope of hearing officers’ authority may be restricted in the appointment by the agency.

01. Scope of Authority. Unless the agency otherwise provides hearing, officers have the standard scope of authority, which is:

a. Authority to schedule cases assigned to the hearing officer, including authority to issue notices of default, of prehearing conference and of hearing, or to provide for the use of informal procedure, as appropriate;

b. Authority to schedule and compel discovery, when discovery is authorized before the agency, and to require advance filing of expert testimony, when authorized before the agency;

c. Authority to preside at and conduct hearings, accept evidence into the record, rule upon objections to evidence, rule on dispositive motions upon completion of the applicant’s or petitioner’s case in chief, and otherwise oversee the orderly presentations of the parties at hearing; and

d. Authority to issue a written decision of the hearing officer, including a narrative of the proceedings before the hearing officer and findings of fact, conclusions of law, and recommended or preliminary orders by the hearing officer, following the submission of evidence through stipulation of the parties, affidavits, exhibits, or hearing testimony.

02. Limitation. The hearing officer’s scope of authority may be limited from the standard scope, either in general, or for a specific proceeding. For example, the hearing officer’s authority could be limited to scope in Rule Subsection 413.01.c. (giving the officer authority only to conduct hearing), with the agency retaining all other authority. Hearing officers can be given authority with regard to the agency’s rules as provided in Rule 416.

414. PRESIDING OFFICER(S) (RULE 414).

One (1) or more members of the agency board, the agency director, or duly appointed hearing officers may preside at hearing as authorized by statute or rule. When more than one (1) officer sits at hearing, they may all jointly be presiding officers or may designate one (1) of them to be the presiding officer.

415. CHALLENGES TO STATUTES (RULE 415).

A hearing officer in a contested case has no authority to declare a statute unconstitutional. However, when a court of competent jurisdiction whose decisions are binding precedent in the state of Idaho has declared a statute unconstitutional, or when a federal authority has preempted a state statute or rule, and the hearing officer finds that the same state statute or rule or a substantively identical state statute or rule that would otherwise apply has been challenged in the proceeding before the hearing officer, then the hearing officer shall apply the precedent of the court or the preemptive action of the federal authority to the proceeding before the hearing officer and decide the proceeding before the hearing officer in accordance with the precedent of the court or the preemptive action of the federal authority.

416. REVIEW OF RULES (RULE 416).

When an order is issued by the agency head in a contested case, the order may consider and decide whether a rule of that agency is within the agency’s substantive rulemaking authority or whether the rule has been promulgated according to proper procedure. The agency head may delegate to a hearing officer the authority to recommend a decision on issues of whether a rule is within the agency’s substantive rulemaking authority or whether the rule has been promulgated according to proper procedure or may retain all such authority itself.

417. EX PARTE COMMUNICATIONS (RULE 417).

Unless required for the disposition of a matter specifically authorized by statute to be done ex parte, a presiding officer serving in a contested case shall not communicate, directly or indirectly, regarding any substantive issue in the contested case with any party, except upon notice and opportunity for all parties to participate in the communication. The presiding officer may communicate ex parte with a party concerning procedural matters (e.g., scheduling). Ex
parte communications from members of the general public not associated with any party are not required to be reported by this rule. A party to a contested agency proceeding shall not communicate directly or indirectly with the presiding officer or the agency head regarding any substantive issue in the contested case. When a presiding officer or the agency head becomes aware of an ex parte communication regarding any substantive issue from a party or representative of a party during a contested case, the presiding officer or agency head shall place a copy or written summary of the communication in the file for the case and order the party providing the communication to serve a copy of the communication or written summary upon all parties of record. Repeated violations of this rule shall be cause for the presiding officer to dismiss an action or to dismiss a party from an action. Written communications from a party showing service upon all other parties are not ex parte communications.

418. -- 499. (RESERVED)

500. ALTERNATIVE RESOLUTION OF CONTESTED CASES (RULE 500).
The Idaho Legislature encourages informal means of alternative dispute resolution (ADR). For contested cases, the means of ADR include, but are not limited to, settlement negotiations, mediation, fact finding, mini-trials, and arbitration, or any combination of them. These alternatives can frequently lead to more creative, efficient and sensible outcomes than may be attained under formal contested case procedures. An agency may use ADR for the resolution of issues in controversy in a contested case if the agency finds that such a proceeding is appropriate. An agency may, for example, find that using ADR is not appropriate if it determines that an authoritative resolution of the matter is needed for precedential value, that formal resolution of the matter is of special importance to avoid variation in individual decisions, that the matter significantly affects persons who are not parties to the proceeding, or that a formal proceeding is in the public interest.

501. NEUTRALS (RULE 501).
When ADR is used for all or a portion of a contested case, the agency may provide a neutral to assist the parties in resolving their disputed issues. The neutral may be an employee of the agency or of another state agency or any other individual who is acceptable to the parties to the proceeding. A neutral shall have no official, financial, or personal conflict of interest with respect to the issues in controversy, unless such interest is disclosed in writing to all parties and all parties agree that the neutral may serve.

502. CONFIDENTIALITY (RULE 502).
Communications in an ADR proceeding shall not be disclosed by the neutral or by any party to the proceeding unless all parties to the proceeding consent in writing, the communication has already been made public, or is required by court order, statute or agency rule to be made public.

503. -- 509. (RESERVED)

510. PURPOSES OF PREHEARING CONFERENCES (RULE 510).
The presiding officer, or an authorized employee of the agency, may by order or notice issued to all parties convene a prehearing conference in a contested case for the purposes of formulating or simplifying the issues, obtaining concessions of fact or identification of documents to avoid unnecessary proof, scheduling discovery (when discovery is allowed), arranging for the exchange of proposed exhibits or prepared testimony, limiting witnesses, discussing settlement offers or making settlement offers, scheduling hearings, establishing procedure at hearings, and addressing other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

511. NOTICE OF PREHEARING CONFERENCE (RULE 511).
Notice of the place, date and hour of a prehearing conference will be served at least fourteen (14) days before the time set for the prehearing conference, unless the presiding officer finds it necessary or appropriate for the conference to be held earlier. Notices for prehearing conference must contain the same information as notices of hearing with regard to an agency’s obligations under the American with Disabilities Act.

512. RECORD OF CONFERENCE (RULE 512).
Prehearing conferences may be held formally (on the record) or informally (off the record) before or in the absence of a presiding officer, according to order or notice. Agreements by the parties to the conference may be put on the record during formal conferences or may be reduced to writing and filed with the agency after formal or informal conferences.
513. **ORDERS RESULTING FROM PREHEARING CONFERENCE (RULE 513).**
The presiding officer, or an authorized employee of the agency, may issue a prehearing order or notice based upon the results of the agreements reached at or rulings made at a prehearing conference. A prehearing order will control the course of subsequent proceedings unless modified by the presiding officer for good cause. (7-1-21)

514. **FACTS DISCLOSED NOT PART OF THE RECORD (RULE 514).**
Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in prehearing conferences in a contested case are not part of the record. (7-1-21)

515. -- 519. **(RESERVED)**

520. **KINDS AND SCOPE OF DISCOVERY LISTED (RULE 520).**

01. **Kinds of Discovery.** The kinds of discovery recognized and authorized by these rules in contested cases are: (7-1-21)
   a. Depositions; (7-1-21)
   b. Production requests or written interrogatories; (7-1-21)
   c. Requests for admission; (7-1-21)
   d. Subpoenas; and (7-1-21)
   e. Statutory inspection, examination (including physical or mental examination), investigation, etc. (7-1-21)

02. **Rules of Civil Procedure.** Unless otherwise provided by statute, rule, order or notice, the scope of discovery, other than statutory inspection, examination, investigation, etc., is governed by the Idaho Rules of Civil Procedure (see Idaho Rule of Civil Procedure 26(b)). (7-1-21)

521. **WHEN DISCOVERY AUTHORIZED (RULE 521).**
No party before the agency is entitled to engage in discovery unless the party moves for an order authorizing discovery and the agency issues an order authorizing the requested discovery, or upon agreement of all parties to the discovery that discovery may be conducted. The presiding officer shall provide a schedule for discovery in the order authorizing discovery, but the order authorizing and scheduling discovery need not conform to the timetables of the Idaho Rules of Civil Procedure. A party, upon reasonable notice to other parties and all persons affected thereby, may apply for an order compelling discovery in a manner consistent with the provisions of Rule 37(a) of the Idaho Rules of Civil Procedure. The agency or agency staff may conduct statutory inspection, examination, investigation, etc., at any time without filing a motion to authorize discovery. (7-1-21)

522. **RIGHTS TO DISCOVERY RECIPROCAL (RULE 522).**
All parties to a proceeding have a right of discovery of all other parties to a proceeding according to Rule 521 and to the authorizing statutes and rules. The presiding officer may by order authorize or compel necessary discovery authorized by statute or rule. (7-1-21)

523. **DEPOSITIONS (RULE 523).**
Depositions may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, the Idaho Rules of Civil Procedure, or rule or order of the agency. (7-1-21)

524. **PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND REQUESTS FOR ADMISSION (RULE 524).**
Production requests or written interrogatories and requests for admission may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, the Idaho Rules of Civil Procedure, or rule or order of the agency. (7-1-21)

525. **SUBPOENAS (RULE 525).**
The agency may issue subpoenas upon a party’s motion or upon its own initiative. The agency upon motion to quash made promptly, and in any event, before the time to comply with the subpoena, may quash the subpoena, or condition denial of the motion to quash upon reasonable terms.

526. STATUTORY INSPECTION, EXAMINATION, INVESTIGATION, ETC. -- CONTRASTED WITH OTHER DISCOVERY (RULE 526).
This rule recognizes, but does not enlarge or restrict, an agency’s statutory right of inspection, examination (including mental or physical examination), investigation, etc. This statutory right of an agency is independent of and cumulative to any right of discovery in formal proceedings and may be exercised by the agency whether or not a person is a party to a formal proceeding before the agency. Information obtained from statutory inspection, examination, investigation, etc., may be used in formal proceedings or for any other purpose, except as restricted by statute or rule. The rights of deposition, production request or written interrogatory, request for admission, and subpoena, can be used by parties only in connection with formal proceedings before the agency.

527. ANSWERS TO PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND TO REQUESTS FOR ADMISSION (RULE 527).
Answers to production requests or written interrogatories and to requests for admission shall be filed or served as provided by the order compelling discovery. Answers must conform to the requirements of the Idaho Rules of Civil Procedure. The order compelling discovery may provide that voluminous answers to requests need not be served so long as they are made available for inspection and copying under reasonable terms.

528. FILING AND SERVICE OF DISCOVERY-RELATED DOCUMENTS (RULE 528).
Notices of deposition, cover letters stating that production requests, written interrogatories or requests for admission have been served, cover letters stating answers to production requests, written interrogatories, or requests for admission have been served or are available for inspection under Rule 527, and objections to discovery must be filed and served as provided in the order authorizing discovery.

529. EXHIBIT NUMBERS (RULE 529).
The agency assigns exhibit numbers to each party.

530. PREPARED TESTIMONY AND EXHIBITS (RULE 530).
Order, notice or rule may require a party or parties to file before hearing and to serve on all other parties prepared expert testimony and exhibits to be presented at hearing. Assigned exhibits numbers should be used in all prepared testimony.

531. SANCTIONS FOR FAILURE TO OBEY ORDER COMPELLING DISCOVERY (RULE 531).
The agency may impose all sanctions recognized by statute or rules for failure to comply with an order compelling discovery, including but not limited to the sanctions listed in paragraphs (A), (B), and (C) of Rule 37(b)(2) of the Idaho Rules of Civil Procedure.

532. PROTECTIVE ORDERS (RULE 532).
As authorized by statute or rule, the agency may issue protective orders limiting access to information generated during settlement negotiations, discovery, or hearing.

533. -- 549. (RESERVED)

550. NOTICE OF HEARING (RULE 550).
Notice of the place, date and hour of hearing will be served on all parties at least fourteen (14) days before the time set for hearing, unless the agency finds by order that it is necessary or appropriate that the hearing be held earlier. Notices must comply with the requirements of Rule 551. Notices must list the names of the parties (or the lead parties if the parties are too numerous to name), the case number or docket number, the names of the presiding officers who will hear the case, the name, address and telephone number of the person to whom inquiries about scheduling, hearing facilities, etc., should be directed, and the names of persons with whom the documents, pleadings, etc., in the case should be filed if the presiding officer is not the person who should receive those documents. If no document previously issued by the agency has listed the legal authority of the agency to conduct the hearing, the notice of hearing must do so. The notice of hearing shall state that the hearing will be conducted under these rules of procedure and inform the parties where they may read or obtain a copy.
551. FACILITIES AT OR FOR HEARING AND A.D.A. REQUIREMENTS (RULE 551).
All hearings must be held in facilities meeting the accessibility requirements of the Americans with Disabilities Act, and all notices of hearing must inform the parties that the hearing will be conducted in facilities meeting the accessibility requirements of the Americans with Disabilities Act. All notices of hearing must inform the parties and other persons notified that if they require assistance of the kind that the agency is required to provide under the Americans with Disabilities Act in order to participate in or understand the hearing, the agency will supply that assistance upon request a reasonable number of days before the hearing. The notice of hearing shall explicitly state the number of days before the hearing that the request must be made.

552. HOW HEARINGS HELD (RULE 552).
Hearings may be held in person or by telephone or television or other electronic means, if each participant in the hearing has an opportunity to participate in the entire proceeding while it is taking place.

553. CONDUCT AT HEARINGS (RULE 553).
All persons attending a hearing must conduct themselves in a respectful manner. Smoking is not permitted at hearings. The presiding officer may exclude persons from the hearing who refuse to conduct themselves in a respectful manner. Disruptive conduct that is serious in nature shall be cause for dismissal of a disrupting party from the proceeding.

554. CONFERENCE AT HEARING (RULE 554).
In any proceeding the presiding officer may convene the parties before hearing or recess the hearing to discuss formulation or simplification of the issues, admissions of fact or identification of documents to avoid unnecessary proof, exchanges of documents, exhibits or prepared testimony, limitation of witnesses, establishment of order of procedure, and other matters that may expedite orderly conduct of the hearing. The presiding officer shall state the results of the conference on the record.

555. PRELIMINARY PROCEDURE AT HEARING (RULE 555).
Before taking evidence the presiding officer will call the hearing to order, take appearances of parties, and act upon any pending motions or petitions. The presiding officer may allow opening statements as necessary or appropriate to explain a party’s presentation.

556. CONSOLIDATION OF PROCEEDINGS (RULE 556).
The agency may consolidate two (2) or more proceedings for hearing upon finding that they present issues that are related and that the rights of the parties will not be prejudiced. In consolidated hearings the presiding officer determines the order of the proceeding.

557. STIPULATIONS (RULE 557).
Parties may stipulate among themselves to any fact at issue in a contested case by written statement filed with the presiding officer or presented at hearing or by oral statement at hearing. A stipulation binds all parties agreeing to it only according to its terms. The agency may regard a stipulation as evidence or may require proof by evidence of the facts stipulated. The agency is not bound to adopt a stipulation of the parties, but may do so. If the agency rejects a stipulation, it will do so before issuing a final order, and it will provide an additional opportunity for the parties to present evidence and arguments on the subject matter of the rejected stipulation.

558. ORDER OF PROCEDURE (RULE 558).
The presiding officer may determine the order of presentation of witnesses and examination of witnesses.

559. TESTIMONY UNDER OATH (RULE 559).
All testimony presented in formal hearings will be given under oath. Before testifying each witness must swear or affirm that the testimony the witness will give before the agency is the truth, the whole truth, and nothing but the truth.

560. PARTIES AND PERSONS WITH SIMILAR INTERESTS (RULE 560).
If two (2) or more parties or persons have substantially like interests or positions, to expedite the proceeding and avoid duplication, the presiding officer may limit the number of them who testify, examine witnesses, or make and argue motions and objections.
561. CONTINUANCE OF HEARING (RULE 561).
The presiding officer may continue proceedings for further hearing. (7-1-21)

562. RULINGS AT HEARINGS (RULE 562).
The presiding officer rules on motions and objections presented at hearing. When the presiding officer is a hearing officer, the presiding officer’s rulings may be reviewed by the agency head in determining the matter on its merits and the presiding officer may refer or defer rulings to the agency head for determination. (7-1-21)

563. ORAL ARGUMENT (RULE 563).
The presiding officer may set and hear oral argument on any matter in the contested case on reasonable notice according to the circumstances. (7-1-21)

564. BRIEFS -- MEMORANDA -- PROPOSED ORDERS OF THE PARTIES -- STATEMENTS OF POSITION -- PROPOSED ORDER OF THE PRESIDING OFFICER (RULE 564).
In any contested case, any party may ask to file briefs, memoranda, proposed orders of the parties or statements of position, and the presiding officer may request briefs, proposed orders of the parties, or statements of position. The presiding officer may issue a proposed order and ask the parties for comment upon the proposed order. (7-1-21)

565. PROCEDURE ON PREHEARING MOTIONS (RULE 565).
The presiding officer may consider and decide prehearing motions with or without oral argument or hearing. Unless otherwise provided by the presiding officer upon a showing of good cause by a party, when a motion has been filed, all parties joining in, answering to or responding to the motion(s) will have fourteen (14) days from the time of filing of the motion in which to respond. (7-1-21)

566. JOINT HEARINGS (RULE 566).
The agency may hold joint hearings with federal agencies, with agencies of other states, and with other agencies of the state of Idaho. When joint hearings are held, the agencies may agree among themselves which agency’s rules of practice and procedure will govern. (7-1-21)

567. -- 599. (RESERVED)

600. RULES OF EVIDENCE -- EVALUATION OF EVIDENCE (RULE 600).
Evidence should be taken by the agency to assist the parties’ development of a record, not excluded to frustrate that development. The presiding officer at hearing is not bound by the Idaho Rules of Evidence. No informality in any proceeding or in the manner of taking testimony invalidates any order. The presiding officer, with or without objection, may exclude evidence that is irrelevant, unduly repetitious, inadmissible on constitutional or statutory grounds, or on the basis of any evidentiary privilege provided by statute or recognized in the courts of Idaho. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. The agency’s experience, technical competence and specialized knowledge may be used in evaluation of evidence. (7-1-21)

601. DOCUMENTARY EVIDENCE (RULE 601).
Documentary evidence may be received in the form of copies or excerpts. Upon request, parties shall be given an opportunity to compare the copy with the original if available. (7-1-21)

602. OFFICIAL NOTICE -- AGENCY STAFF MEMORANDA (RULE 602).
Official notice may be taken of any facts that could be judicially noticed in the courts of Idaho and of generally recognized technical or scientific facts within the agency’s specialized knowledge. Parties shall be notified of the specific facts or material noticed and the source of the material noticed, including any agency staff memoranda and data. Notice that official notice will be taken should be provided either before or during the hearing, and must be provided before the issuance of any order that is based in whole or in part on facts or material officially noticed. Parties must be given an opportunity to contest and rebut the facts or material officially noticed. When the presiding officer proposes to notice agency staff memoranda or agency staff reports, responsible staff employees or agents shall be made available for cross-examination if any party timely requests their availability. (7-1-21)

603. DEPOSITIONS (RULE 603).
Depositions may be offered into evidence. (7-1-21)T

604. OBJECTIONS – OFFERS OF PROOF (RULE 604).
Grounds for objection to the admission or exclusion of evidence must be stated briefly at the time the evidence is offered. Formal exceptions to rulings admitting or excluding evidence are unnecessary and need not be taken. An offer of proof for the record consists of a statement of the substance of the excluded evidence. When a party objects to the admission of evidence, the presiding officer will rule on the objection, or, if the presiding officer is a hearing officer, the presiding officer may receive the evidence subject to later ruling by the agency head or refer the matter to the agency head. (7-1-21)T

605. PREPARED TESTIMONY (RULE 605).
The presiding officer may order a witness’s prepared testimony previously distributed to all parties to be included in the record of hearing as if read. Admissibility of prepared testimony is subject to Rule 600. (7-1-21)T

606. EXHIBITS (RULE 606).
Exhibit numbers may be assigned to the parties before hearing. Exhibits prepared for hearing should ordinarily be typed or printed on eight and one-half inch (8 1/2") by eleven inch (11") white paper, except that maps, charts, photographs and non-documentary exhibits may be introduced on the size or kind of paper customarily used for them. A copy of each documentary exhibit must be furnished to each party present and to the presiding officer, except for unusually bulky or voluminous exhibits that have previously been made available for the parties’ inspection. Copies must be of good quality. Exhibits identified at hearing are subject to appropriate and timely objection before the close of proceedings. Exhibits to which no objection is made are automatically admitted into evidence without motion of the sponsoring party. Neither motion pictures, slides, opaque projections, videotapes, audiotapes nor other materials not capable of duplication by still photograph or reproduction on paper shall be presented as exhibits without approval of the presiding officer prior to the hearing. (7-1-21)T

607. -- 609. (RESERVED)

610. CONFIDENTIALITY OF SETTLEMENT NEGOTIATIONS (RULE 610).
Settlement negotiations in a contested case are confidential, unless all participants to the negotiation agree to the contrary in writing. Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in settlement negotiations in a contested case are not part of the record. (7-1-21)T

611. SUGGESTION FOR OR INQUIRY ABOUT SETTLEMENTS (RULE 611).
Through notice or order or on the record at prehearing conference or hearing, the presiding officer may inquire of the parties in any proceeding whether settlement negotiations are in progress or are contemplated or may invite settlement of an entire proceeding or certain issues. (7-1-21)T

612. CONSIDERATION OF SETTLEMENTS (RULE 612).
Settlements must be reviewed under this rule. When a settlement is presented to the presiding officer, the presiding officer will prescribe procedures appropriate to the nature of the settlement to consider the settlement. For example, the presiding officer could summarily accept settlement of essentially private disputes that have no significant implications for administration of the law for persons other than the affected parties. On the other hand, when one (1) or more parties to a proceeding is not party to the settlement or when the settlement presents issues of significant implication for other persons, the presiding officer may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is consistent with the agency’s charge under the law. (7-1-21)T

613. BURDENS OF PROOF (RULE 613).
Proponents of a proposed settlement carry the burden of showing that the settlement is in accordance with the law. The presiding officer may require the development of an appropriate record in support of or opposition to a proposed settlement as a condition of accepting or rejecting the settlement. (7-1-21)T

614. SETTLEMENT NOT BINDING (RULE 614).
The presiding officer is not bound by settlement agreements that are not unanimously accepted by all parties or that have significant implications for persons not parties. In these instances, the presiding officer will independently review any proposed settlement to determine whether the settlement is in accordance with the law. (7-1-21)T
650. RECORD FOR DECISION (RULE 650).

01. Official Record. The agency shall maintain an official record for each contested case and (unless statute provides otherwise) base its decision in a contested case on the official record for the case. (7-1-21)T

02. Contents of Record. The record for a contested case shall include:

a. All notices of proceedings;

b. All applications or claims or appeals, petitions, complaints, protests, motions, and answers filed in the proceeding;

c. All intermediate or interlocutory rulings of hearing officers or the agency head;

d. All evidence received or considered (including all transcripts or recordings of hearings and all exhibits offered or identified at hearing);

e. All offers of proof, however made;

f. All briefs, memoranda, proposed orders of the parties or of the presiding officers, statements of position, statements of support, and exceptions filed by parties or persons not parties;

g. All evidentiary rulings on testimony, exhibits, or offers of proof;

h. All staff memoranda or data submitted in connection with the consideration of the proceeding;

i. A statement of matters officially noticed; and

j. All recommended orders, preliminary orders, final orders, and orders on reconsideration. (7-1-21)T

651. RECORDING OF HEARINGS (RULE 651).

All hearings shall be recorded on audiotape or videotape at the agency’s expense. The agency may provide for a transcript of the proceeding at its own expense. Any party may have a transcript prepared at its own expense. If the transcript prepared at the expense of a party is deemed by the presiding officer to be the official transcript of the hearing, the party shall furnish the agency a transcript without charge. (7-1-21)T

652. -- 699. (RESERVED)

700. NOTICE OF PROPOSED DEFAULT AFTER FAILURE TO APPEAR OR RESPOND (RULE 700).

If an applicant or claimant or appellant, petitioner, protestant, complainant, or moving party fails to appear at the time and place set for hearing, or prehearing conference, on an application or claim or appeal, petition, complaint, or motion, or fails to respond to a written information inquiry, the presiding officer may serve upon all parties a notice of a proposed default order denying the application or claim or appeal, petition, complaint, or motion. The notice of a proposed default order shall include a statement that the default order is proposed to be issued because of a failure of the applicant or claimant or appellant, petitioner, complainant or moving party to appear at the time and place set for hearing or prehearing conference, or to respond to the information inquiry. The notice of proposed default order may be mailed to the last known mailing address of the party proposed to be defaulted. (7-1-21)T

701. SEVEN DAYS TO CHALLENGE PROPOSED DEFAULT ORDER (RULE 701).

Within seven (7) days after the service of the notice of proposed default order, the party against whom it was filed may file a written petition requesting that a default order not be entered. The petition must state the grounds why the petitioning party believes that default should not be entered. (7-1-21)T
ISSUANCE OF DEFAULT ORDER (RULE 702).
The agency shall promptly issue a default order or withdraw the notice of proposed default order after expiration of the seven (7) days for the party to file a petition contesting the default order or receipt of a petition. If a default order is issued, all further proceedings necessary to complete the contested case shall be conducted without participation of the party in default (if the defaulting party is not a movant) or upon the results of the denial of the motion (if the defaulting party is a movant). All issues in the contested case shall be determined, including those affecting the defaulting party. Costs may be assessed against a defaulting party.

(7-1-21)T

INTERLOCUTORY ORDERS (RULE 710).
Interlocutory orders are orders that do not decide all previously undecided issues presented in a proceeding, except the agency may by order decide some of the issues presented in a proceeding and provide in that order that its decision on those issues is final and subject to review by reconsideration or appeal, but is not final on other issues. Unless an order contains or is accompanied by a document containing one (1) of the paragraphs set forth in Rules 720, 730 or 740 or a paragraph substantially similar, the order is interlocutory. The following orders are always interlocutory: orders initiating complaints or investigations; orders joining, consolidating or separating issues, proceedings or parties; orders granting or denying intervention; orders scheduling prehearing conferences, discovery, hearing, oral arguments or deadlines for written submissions; and orders compelling or refusing to compel discovery. Interlocutory orders may be reviewed by the officer issuing the order pursuant to Rules 711, 760, and 770. (7-1-21)T

REVIEW OF INTERLOCUTORY ORDERS (RULE 711).
Any party or person affected by an interlocutory order may petition the officer issuing the order to review the interlocutory order. The officer issuing an interlocutory order may rescind, alter or amend any interlocutory order on the officer’s own motion, but will not on the officer’s own motion review any interlocutory order affecting any party’s substantive rights without giving all parties notice and an opportunity for written comment. (7-1-21)T

CONTENTS OF ORDERS (RULE 712).
Pursuant to Section 67-5248, Idaho Code, an order that determines the legal rights or interests of one (1) or more parties must be in writing and shall include the following:

01. Findings of Fact and Conclusions of Law. An order shall contain a reasoned statement in support of the decision. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts of record supporting the findings. Findings of fact must be based exclusively on the evidence in the record of the contested case and on matters officially noticed in that proceeding. (7-1-21)T

02. Statement of Available Procedure. An order shall contain a statement of the available procedures and applicable time limits for seeking reconsideration or other administrative relief. (7-1-21)T

RECOMMENDED ORDERS (RULE 720).

01. Recommended Orders -- Definition. Recommended orders are orders issued by a person other than the agency head that will become a final order of the agency only after review of the agency head (or the agency head’s designee) pursuant to Section 67-5244, Idaho Code. (7-1-21)T

02. Contents of Recommended Orders. Every recommended order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

a. This is a recommended order of the hearing officer. It will not become final without action of the agency head. Any party may file a petition for reconsideration of this recommended order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this recommended order will dispose of any petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code. (7-1-21)T

b. Within fourteen (14) days after (a) the service date of this recommended order, (b) the service date
of a denial of a petition for reconsideration from this recommended order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this recommended order, any party may in writing support or take exceptions to any part of this recommended order and file briefs in support of the party's position with the agency head or designee on any issue in the proceeding. If no party files exceptions to the recommended order with the agency head or designee, the agency head or designee will issue a final order within fifty-six (56) days after:

(7-1-21)

(i) the last day a timely petition for reconsideration could have been filed with the hearing officer;

(7-1-21)

(ii) the service date of a denial of a petition for reconsideration by the hearing officer; or

(7-1-21)

(iii) the failure within twenty-one (21) days to grant or deny a petition for reconsideration by the hearing officer.

(7-1-21)

c. Written briefs in support of or taking exceptions to the recommended order shall be filed with the agency head (or designee of the agency head). Opposing parties shall have fourteen (14) days to respond. The agency head or designee may schedule oral argument in the matter before issuing a final order. The agency head or designee will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order.

(7-1-21)

721. -- 729. (RESERVED)

730. PRELIMINARY ORDERS (RULE 730).

01. Preliminary Orders -- Definition. Preliminary orders are orders issued by a person other than the agency head that will become a final order of the agency unless reviewed by the agency head (or the agency head’s designee) pursuant to Section 67-5245, Idaho Code.

(7-1-21)

02. Contents of Preliminary Order. Every preliminary order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

(7-1-21)

a. This is a preliminary order of the hearing officer. It can and will become final without further action of the agency unless any party petitions for reconsideration before the hearing officer issuing it or appeals to the hearing officer’s superiors in the agency. Any party may file a petition for reconsideration of this preliminary order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this order will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code.

(7-1-21)

b. Within fourteen (14) days after:

i. The service date of this preliminary order;

(7-1-21)

ii. The service date of the denial of a petition for reconsideration from this preliminary order; or

(7-1-21)

iii. The failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing appeal or take exceptions to any part of the preliminary order and file briefs in support of the party’s position on any issue in the proceeding to the agency head (or designee of the agency head). Otherwise, this preliminary order will become a final order of the agency.

(7-1-21)

c. If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal within the agency. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the agency head (or designee). The agency head (or designee) may review the preliminary order on its own motion.
d. If the agency head (or designee) grants a petition to review the preliminary order, the agency head (or designee) shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. The agency head (or designee) will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency head (or designee) may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. (7-1-21)

e. Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department or the Board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing. (7-1-21)

f. Pursuant to Sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:
   i. A hearing was held; (7-1-21)
   ii. The final agency action was taken; (7-1-21)
   iii. The party seeking review of the order resides; or (7-1-21)
   iv. The real property or personal property that was the subject of the agency action is located. (7-1-21)

g. This appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (7-1-21)

731. -- 739. (RESERVED)

740. FINAL ORDERS (RULE 740).

01. Final Order -- Definition. Final orders are preliminary orders that have become final under Rule 730 pursuant to Section 67-5245, Idaho Code, or orders issued by the agency head pursuant to Section 67-5246, Idaho Code, or emergency orders, including cease and desist or show cause orders, issued by the agency head pursuant to Section 67-5247, Idaho Code. (7-1-21)

02. Content of Final Order. Every final order issued by the agency head must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (7-1-21)

   a. This is a final order of the agency. Any party may file a petition for reconsideration of this final order within fourteen (14) days of the service date of this order. The agency will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5246(4), Idaho Code. (7-1-21)

   b. Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department or the Board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director,
within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing. (7-1-21)

c.  Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this final order or orders previously issued in this case may appeal this final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i.  A hearing was held; (7-1-21)

ii.  The final agency action was taken; (7-1-21)

iii.  The party seeking review of the order resides; or (7-1-21)

iv.  The real property or personal property that was the subject of the agency action is located. (7-1-21)

d.  An appeal must be filed within twenty-eight (28) days (a) of the service date of this final order, (b) of an order denying petition for reconsideration, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See Section 67-5273, Idaho Code, and Rule 84 of the Idaho Rules of Civil Procedure. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (7-1-21)

741. -- 749. (RESERVED)  

750. ORDER NOT DESIGNATED (RULE 750).  
If an order does not designate itself as recommended, preliminary or final at its release, but is designated as recommended, preliminary or final after its release, its effective date for purposes of reconsideration or appeal is the date of the order of designation. If a party believes that an order not designated as a recommended order, preliminary order or final order according to the terms of these rules should be designated as a recommended order, preliminary order or final order, the party may move to designate the order as recommended, preliminary or final, as appropriate. (7-1-21)

751. -- 759. (RESERVED)  

760. MODIFICATION OF ORDER ON PRESIDING OFFICER'S OWN MOTION (RULE 760).  
A hearing officer issuing a recommended or preliminary order may modify the recommended or preliminary order on the hearing officer’s own motion within fourteen (14) days after issuance of the recommended or preliminary order by withdrawing the recommended or preliminary order and issuing a substitute recommended or preliminary order. The agency head may modify or amend a final order of the agency (be it a preliminary order that became final because no party challenged it or a final order issued by the agency head itself) at any time before notice of appeal to District Court has been filed or the expiration of the time for appeal to District Court, whichever is earlier, by withdrawing the earlier final order and substituting a new final order for it. (7-1-21)

761. -- 769. (RESERVED)  

770. CLARIFICATION OF ORDERS (RULE 770).  
Any party or person affected by an order may petition to clarify any order, whether interlocutory, recommended, preliminary or final. Petitions for clarification from final orders do not suspend or toll the time to petition for reconsideration or appeal the order. A petition for clarification may be combined with a petition for reconsideration or stated in the alternative as a petition for clarification and/or reconsideration. (7-1-21)

771. -- 779. (RESERVED)  

780. STAY OF ORDERS (RULE 780).  
Any party or person affected by an order may petition the agency to stay any order, whether interlocutory or final. Interlocutory or final orders may be stayed by the judiciary according to statute. The agency may stay any interlocutory or final order on its own motion. (7-1-21)
790. PERSONS WHO MAY APPEAL (RULE 790).
Pursuant to Section 67-5270, Idaho Code, any party aggrieved by a final order of an agency in a contested case may appeal to district court. Pursuant to Section 67-5271, Idaho Code, a person is not entitled to judicial review of an agency action in district court until that person has exhausted all administrative remedies available with the agency, but a preliminary, procedural, or intermediate agency action or ruling is immediately reviewable in district court if review of the final agency action would not provide an adequate remedy.

791. NOTICE OF APPEAL (RULE 791).
The notice of appeal must be filed with the district court and served on the agency and all parties.

01. Filing Appeal. Pursuant to Section 67-5272, Idaho Code, appeals may be filed in the district court of the county in which:

   a. The hearing was held;

   b. The final agency action was taken;

   c. The party seeking review of the agency action resides; or

   d. The real property or personal property that was the subject of the agency is located.

02. Filing Deadline. Pursuant to Section 67-5273, Idaho Code, and Rule 84 of the Idaho Rules of Civil Procedure a petition for judicial review of a final order in a contested case must be filed within twenty-eight (28) days:

   a. Of the service date of the final order;

   b. Of the denial of the petition for reconsideration; or

   c. The failure within twenty-one (21) days to grant or deny the petition for reconsideration.
000. LEGAL AUTHORITY (RULE 0).
This chapter is adopted under the legal authority of Section 42-1762, Idaho Code.

001. TITLE AND SCOPE (RULE 1).

01. Title. The title of this chapter is IDAPA 37.02.03, “Water Supply Bank Rules.”

02. Scope. These rules were first adopted by the Water Resource Board in October 1980 as mandated by Section 42-1762, Idaho Code enacted in 1979. The rules govern the Board’s operation and management of a Water Supply Bank provided for in Sections 42-1761 to 42-1766, Idaho Code. The purposes of the Water Supply Bank, as defined by statute, are to encourage the highest beneficial use of water; provide a source of adequate water supplies to benefit new and supplemental water uses; and provide a source of funding for improving water user facilities and efficiencies. These rules are to be used by the Water Resource Board in considering the purchase, sale, lease or rental of natural flow or stored water, the use of any funds generated therefrom, and the appointment of local committees to facilitate the lease and rental of stored water. The purchase, sale, lease or rental of water shall be in compliance with state and federal law. The adoption of these rules is not intended to prevent any person from directly selling or leasing water by transactions outside the purview of the Water Supply Bank Rules where such transactions are otherwise allowed by law.

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).

01. Board. The Idaho Water Resource Board.

02. Board’s Water Supply Bank. The water exchange market operated directly by the Board to facilitate marketing of water rights.

03. Director. The Director of the Idaho Department of Water Resources.

04. Department. The Idaho Department of Water Resources.

05. Lease. To convey by contract a water right to the Board’s water supply bank or stored water to a rental pool operated by a local committee.

06. Local Committee. The committee which has been designated by action of the Board to facilitate marketing of stored water by operating a rental pool pursuant to Section 42-1765, Idaho Code.

07. Natural Flow. Water or the right to use water that exists in a spring, stream, river, or aquifer at a certain time and which is not the result of the storage of water flowing at a previous time.

08. Rent. To convey by contract a water right from the Board’s water supply bank or stored water from a rental pool.

09. Rental Pool. A market for exchange of stored water operated by a local committee.

10. Stored Water. Water made available by detention in surface reservoirs or storage space in a surface reservoir.

11. Water Right. The right to divert and beneficially use the public waters of the state of Idaho including any storage entitlement.

12. Water Supply Bank. The water exchange market operated by the Water Resource Board pursuant to Section 42-1761 through 42-1766, Idaho Code, and these rules and is a general term which includes the Board’s water supply bank and rental pools.

13. Year. A time period of twelve (12) consecutive months.

14. Person. Any company, corporation, association, firm, agency, individual, partnership, Indian tribe, government or other entity.
ACQUISITION OF WATER RIGHTS FOR THE BOARD’S WATER SUPPLY BANK (RULE 25).

01. General. The Board may purchase, lease, accept as a gift or otherwise obtain rights to natural flow or stored water and credit them to the Board’s water supply bank. These water rights may then be divided or combined into more marketable blocks provided that there is no injury to other right holders, or enlargement of use of the water rights, and the change is in the local public interest. Any person proposing to sell or lease water rights to the Board’s water supply bank, or to otherwise make water available through the water supply bank for the purposes of Section 42-1763A, Idaho Code, shall file a completed application with the Director on a forms or in a format provided by the Department and provide such additional information as the Board or Director may require in evaluating the proposed transaction. The completed application form shall state the period of time a water right is offered for lease, or the period of time that storage water will be released for fish migration purposes in accordance with Section 42-1763A, Idaho Code, and the payment terms, if any, requested by the applicant.

02. Application. Submitted with the completed application shall be:

a. Evidence that the water right has been recorded through court decree, permit or license issued by the Department. If the right is included in an ongoing adjudication, a copy of the claim is required;

b. Proof of current ownership of the water right by the applicant;

c. Information that the water right has not been lost through abandonment, or forfeiture as defined by Section 42-222(2), Idaho Code;

d. Evidence to demonstrate the relative availability of water in the source to fill the water right; and

e. The written consent of such company, corporation or irrigation district to the proposed sale or lease must accompany the application if the right to the use of the water, or the use of the diversion works or irrigation system is represented by shares of stock in a company or corporation, or if such works or system is owned or managed by an irrigation district.

f. A lease application filing fee of two hundred fifty dollars ($250) per water right up to a maximum total of five hundred dollars ($500.00) for overlapping water rights which have a common place of use or common diversion rate or diversion volume. The lease filing fee described herein shall be deposited in the Water Administration Account and shall not apply to applications to lease stored water into rental pools described in Rule 40.

03. Review. Upon receipt of the completed application the Director will review it for completeness and make such further review as he deems necessary to adequately brief the Board on the proposed transaction.

04. Inadequate Application. If an application is not complete, the Director will correspond with the applicant to obtain the needed information. If the requested information is not returned in thirty (30) days, the application will no longer be considered a valid request to place a water right into the Board’s water supply bank.

05. Consideration. The Board may consider an application at any regular or special meeting.

06. Criteria. The Board will consider the following in determining whether to accept an offered water right into the Board’s water supply bank:

a. Whether the applicant is the current owner, title holder or contract water user of the water right proposed to be transferred to the Board’s water supply bank or has authority to act on behalf of the owner;

b. Whether all necessary consents have been filed with the Board;
c. Whether the information available to the Board indicates that the water right has been abandoned or forfeited; (7-1-21)

d. Whether the offering price or requested rental rate is reasonable; (7-1-21)

e. Whether acquisition of the water right will be contrary to the State Water Plan; (7-1-21)

f. Whether the application is in the local public interest as defined in Section 42-1763, Idaho Code; (7-1-21)

g. The probability of selling or renting the water right from the Board’s water supply bank. (7-1-21)

h. Whether there are sufficient funds on hand to acquire the water right for the Board’s water supply bank, provided that, if there are insufficient funds, or if in the opinion of the Board, existing funds should not immediately be expended for such acquisition, the Board may find that the water right should be acquired on a contingency basis, with payment to be made to the seller or lessor only after water is subsequently sold or rented from the Board’s water supply bank, and (7-1-21)

i. Such other factors as determined to be appropriate by the Board. (7-1-21)

07. Resolution of Board. The Board may by resolution accept an application to sell or lease a water right to the Board’s water supply bank, or to otherwise make water available through the water supply bank for the purposes of Section 42-1763A, Idaho Code. An application to lease together with the resolution accepting it becomes a lease and the water right is placed into the Board’s water supply bank upon adoption of the resolution. A resolution accepting an application to sell a right to the Board’s water supply bank will provide authority for the chairman of the Board to enter an agreement to purchase the water right. The resolution may include conditions of approval, including but not limited to, the following: (7-1-21)

a. A condition providing the length of time the water right will be retained in the Board’s water supply bank. (7-1-21)

b. A condition describing the terms for payment to the owner of the water right and the sale or rental price from the Board’s water supply bank. (7-1-21)

c. Other conditions as the Board determines appropriate, including a condition recognizing that water is being made available through the water supply bank pursuant to the provisions of Section 42-1763A, Idaho Code, for purposes of fish migration. (7-1-21)

08. Placement of Water Right. Effect of placement of a water right into the Board’s water supply bank. (7-1-21)

a. Upon acceptance of a water right into the Board’s water supply bank, the owner of the right may withdraw the right within thirty (30) days of acceptance into the bank if the owner does not agree with the conditions of acceptance. (7-1-21)

b. Upon acceptance of a water right into the Board’s water supply bank, the owner of the water right is not authorized to continue the diversion and use of the right while it is in the Board’s water supply bank, unless the water right is for hydropower and is placed in the Board’s water supply bank to be released for salmon migration and power production purposes. (7-1-21)

c. A water right which has been accepted shall remain in the Board’s water supply bank for the period designated by the Board unless removed by resolution of the Board. (7-1-21)

d. The owner of the water right shall remain responsible to take actions required to claim the water right in an adjudication or other legal action concerning the water right and to pay taxes, fees, or assessments related to the water right. (7-1-21)
e. The forfeiture provisions of Section 42-222(2), Idaho Code are tolled during the time period the water right is in the Board’s water supply bank, pursuant to the provisions of Section 42-1764, Idaho Code.

026. -- 029. (RESERVED)

030. SALE OR RENTAL OF WATER RIGHTS FROM THE BOARD’S WATER SUPPLY BANK (RULE 30).

01. General. The Board may in its discretion initiate the process to sell or rent water rights from the Board’s water supply bank to achieve the purposes stated in Rule 1. The Board may from time to time, as water rights are available, authorize the Director to announce the availability of the rights from the Board’s water supply bank, establishing a time and date for receiving applications in the office of the Director to purchase or rent the water rights. An application shall be on a form or in a format provided by the Director. The sale or rental price shall be the price, if any, as determined by the Board. The Director will evaluate applications with respect to the purposes of Rule 1, as to whether there will be injury to other water rights, whether the proposal would constitute an enlargement of the water right, whether the water will be put to a beneficial use, whether the water supply available from applicable rights in the Board’s water supply bank is sufficient for the use intended, and whether the proposal is in the local public interest. For applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code, the Director will only make an evaluation as to whether the proposed use of water will cause injury to other water rights. The Director may defer the evaluation of potential injury to other water rights conditioned upon the right of any affected water right holder to petition the Director pursuant to Section 42-1766, Idaho Code, to revoke or modify the rental approval upon a showing of injury.

02. Notice. The Director may give notice of an intended rental as he deems necessary, provided that prior to approving any application for purchase, or for rental for a period of more than five (5) years, he shall give notice as required in Section 42-222(1), Idaho Code.

03. Approval. Sale or rental shall be approved only for use of water within the state of Idaho. The Director shall consider in determining whether to approve a rental of water for use outside of the state of Idaho those factors enumerated in Section 42-401(3), Idaho Code, except that this evaluation shall not be required for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code.

04. Consideration. All applications received on or prior to the announced date for receiving applications shall be considered as having been received at the same time. Applications received after the close of the application date may be considered only if sufficient available water remains in the Board’s water supply bank after all acceptable, timely applications have been filed.

05. Authorized to Rent. The Director is authorized to rent water rights offered by the Board from the Board’s water supply bank for a period up to five (5) years, but shall submit applications for purchase, or rental for a period of more than five (5) years to the Board for action. The Director will advise the Board on applications which require Board approval under Rule Subsection 025.06 whether he can approve the application in whole or in part or with conditions to comply with Section 42-1763, Idaho Code.

06. Board Review. The Board will review applications for purchase or which propose the rental of water rights for a duration of more than five (5) years, and may approve, approve with conditions or may reject the applications as the Board determines to best meet the purposes of Rule 1 and promote the interest of the people of the state of Idaho.

07. Order of Consideration. When renting water from the bank, the Director and the Board shall consider rental of water rights in the order the rights were leased to the bank, with first consideration for the rights which have continuously been in the bank the longest period of time provided the rights are suitable for the purpose of the renter.

031. -- 034. (RESERVED)
035. HANDLING OF MONEY ASSOCIATED WITH THE BOARD'S WATER SUPPLY BANK (RULE 35).

Payments received by the Department from the sale or rental of water rights from the Board’s water supply bank shall be handled as follows:

01. Credited Amount. Ten percent (10%) of the gross amount received from the sale or rental of a water right from the Board’s water supply bank and the entire lease application fee received pursuant to Rule 025 shall be credited to the Water Administration Account created by Section 42-238a, Idaho Code, or to the federal grant fund if the payment is received from a federal agency, for administrative costs of operating the Water Supply Bank. The ten percent (10%) charge described herein shall not apply to stored water rented from the rental pools described in Rule 040.

02. Excess Funds. Any funds in excess of the amount needed to compensate the owner of the water right in accordance with the resolution accepting the water right into the Board’s water supply bank and the administrative charge of Rule Subsection 035.01 shall be credited to the Water Management Account created by Section 42-1760, Idaho Code, for use by the Board for the purposes of Rule 1.

036. -- 039. (RESERVED)

040. APPOINTMENT OF LOCAL RENTAL POOL COMMITTEES (RULE 40).

01. Board Meetings for Committee Appointments. The Board may at any regular or special meeting to consider appointing an entity to serve as a local committee to facilitate the lease and rental of stored water. At least ten (10) days prior to the meeting, the entity seeking appointment shall provide to the Director information concerning the organization of the entity, a listing of its officers, a copy of its bylaws and procedures, if applicable, a copy of the proposed local committee procedures, pursuant to which the local committee would facilitate the lease and rental of stored water, together with a copy of each general lease and rental form proposed to be used by the local committee. The local committee procedures must be approved by the Board and must provide for the following:

a. Determination of priority among competing applicants to lease stored water to the rental pool and to rent stored water from the rental pool;

b. Determination of the reimbursement schedule for those leasing stored water into the rental pool;

c. Determination of the rental price charge to those renting stored water from the rental pool;

d. Determination of the administrative charge to be assessed by the local committee;

e. Allocation of stored water leased to the bank but not rented;

f. Notification of the Department and the watermaster of any rentals where stored water will be moved from the place of use authorized by the permit, license, or decree establishing the stored water right;

b. Submittal of applications to rent water from the rental pool for more than five (5) years to the Board for review and approval as a condition of approval by the local committee;

h. Prevention of injury to other water rights;

i. Protection of the local public interest, except for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code;

j. Consistency with the conservation of water resources within the state of Idaho, except for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code;
k. Management of rental pool funds as public funds pursuant to the Public Depository Law, Chapter 1, Title 57, Idaho Code. (7-1-21)

02. Local Committee Procedures. The local committee procedures shall provide that a surcharge of ten percent (10%) of the rental fee charged per acre foot of stored water rented from the rental pool shall be assessed and credited to the revolving development account and the water management account established in Sections 42-1752 and 42-1760, Idaho Code, in such proportion as the Board in its discretion shall determine. Such moneys, together with moneys accruing to or earned thereon, shall be set aside, and made available until expended, to be used by the Board for the purposes of Rule 1 unless the surcharge is prohibited by statute, compact or inter-governmental agreement. (7-1-21)

03. Review by Director. The Director will review the local committee procedures and submit them along with the Director’s recommendation to the Board. The lease and rental form must receive the Director’s approval. The Board may designate the applying entity as the local committee for a period not to exceed five (5) years. A Certificate of Appointment will be issued by the Board. The Board may extend the appointment for additional periods up to five (5) years, upon written request of the local committee. The Board may revoke a designation upon request of the local committee, or after a hearing pursuant to the promulgated Rules of Practice and Procedure of the Board, if the Board determines that the local committee is no longer serving a necessary purpose or is not abiding by its own approved procedures, these rules or applicable statutes. (7-1-21)

04. Annual Report. The local committee shall report annually on the activity of the rental pool on forms provided by the Board. (7-1-21)

05. Submission of Amendments to Procedures to Board. Amendments to the approved procedures of an appointed local committee which change the amount charged for the rental of stored water shall be submitted to the Board by April 1st of any year. The amendment will be considered approved by the Board unless specifically disapproved at the first regular Board meeting following the amendment action of the local committee. The Board may, upon good cause being determined by the Board, specifically approve of amendments submitted after April 1 of any year. (7-1-21)

041. -- 999. (RESERVED)
37.03.01 – ADJUDICATION RULES

000. LEGAL AUTHORITY.
These rules are adopted under the legal authorities of Section 42-1414, and 42-1805(8), Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 37.03.01, “Adjudication Rules.” (7-1-21)

02. Scope. These rules implement statutes governing the filing of notices of claims to water rights acquired under state law and the collection of fees for filing notices of claims to water rights acquired under state law in general adjudications, as provided in Sections 41-1409, 42-1414 and 42-1415, Idaho Code. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Amendment Fee. The additional fee payable at the time of filing an amendment to a claim, as provided in Section 42-1414(2), Idaho Code. (7-1-21)

02. Aquaculture. The use of water for propagation of fish, shell fish, and any other animal or plant product naturally occurring in an underwater environment. (7-1-21)

03. Aquaculture Fee. The variable fee payable for aquaculture use, as provided in Section 42-1414(1)(b)(iii), Idaho Code, which shall be calculated for each cfs and fraction thereof to the nearest dollar. (7-1-21)

04. Claim. A notice of claim to a water right acquired under state law, as provided in Section 42-1409(4), Idaho Code. (7-1-21)

05. Department. The Idaho Department of Water Resources. (7-1-21)

06. Director. The Director of the Idaho Department of Water Resources. (7-1-21)

07. Domestic Use. Domestic use as defined in Section 42-1401A(4), Idaho Code. (7-1-21)

08. Flat Fee. The per claim fee for filing claims, as provided in Section 42-1414(1)(a), Idaho Code. (7-1-21)

09. Late Fee. The additional fee payable for the filing of late claims, as provided in Section 42-1414(3), Idaho Code. (7-1-21)

10. Per Acre Fee. The variable fee for irrigation use, as provided in Section 42-1414(1)(b)(i), Idaho Code, which shall be calculated for each acre and fraction thereof rounded to the next whole acre. (7-1-21)

11. Per Cfs Fee. The variable fee payable for other uses, as provided in Section 42-1414(1)(b)(iii), (iv) and (v), Idaho Code, which shall be calculated for each cfs and fraction thereof to the nearest dollar. (7-1-21)

12. Per Kilowatt Fee. The variable fee payable for power generation use, as provided in Section 42-1414(1)(b)(ii), Idaho Code, which shall be calculated for each kilowatt and fraction thereof. (7-1-21)

14. Stock Watering Use. Stock watering use as defined in Section 42-1401A(11), Idaho Code. (7-1-21)

15. Total Fee. The fee payable for filing a claim, which consists of the flat fee plus any applicable variable fee and late fee. (7-1-21)

16. Variable Fee. The fee payable for filing claims in addition to the flat fee, as provided in Section 42-1414(1)(b), Idaho Code. (7-1-21)
17. **Water Delivery System.** All structures and equipment used for diversion, storage, transportation, and use of water from the water source to and including each place of use. (7-1-21)T

18. **Water Delivery Organization.** An irrigation district, a water utility, a municipality, or any similar claimant of a water right who diverts water pursuant to the water right claimed and delivers the water to others who make beneficial use of the water diverted by the water delivery organization pursuant to the water right claimed by the water delivery organization. (7-1-21)T

011. **ABBREVIATIONS.**

01. **AF.** An acre foot (feet). (7-1-21)T

02. **CFS.** Cubic foot (feet) per second. (7-1-21)T

03. **NA.** Not applicable. (7-1-21)T

04. **PIN.** Parcel identification number. (7-1-21)T

012. -- 024. (RESERVED)

025. **GENERAL.**

01. **Requirement to Pay.** All persons filing claims to water rights acquired under state law or amendments to claims to water rights acquired under state laws shall be required to pay filing fees as set forth by statute and these rules. (7-1-21)T

02. **Method of Payment.** Fees shall be paid in legal tender of the United States; or by money order, certified check, cashier’s check, personal check, or by electronic payment on-line payable to the department in legal tender of the United States. Two-party checks will not be accepted. (7-1-21)T

03. **Personal Check.** If a personal check in payment of a flat fee, a variable fee, or a late fee, is returned unpaid to the department or the debit or credit card payment is rejected by the financial institution, the claims covered by the returned check or the rejected debit or credit card will be rejected and returned to the claimant. If a personal check in payment of an amendment fee is returned unpaid to the department or the debit or credit card payment is rejected by the financial institution, the amended claim will be rejected and returned to the claimant, but the original claim will still be in effect. (7-1-21)T

04. **Time of Payment.** Flat fees and variable fees shall be payable to the department at the time of filing a claim. Amendment fees shall be payable to the department at the time of filing the amended claim. Late fees shall be payable at the time of filing the late claim. (7-1-21)T

05. **Government Voucher.** Fees payable by government agencies (other than agencies of foreign governments) may be paid when due by government voucher. If full payment of the voucher is not received within forty-five (45) days of the date the voucher is received, the unpaid voucher will be treated as a returned check as provided in Subsection 025.03. (7-1-21)T

06. **Rejection of Claim.** Claims submitted without the correct filing fee shall be rejected and returned to the claimant. (7-1-21)T

07. **Fire-Fighting.** A claim is not required to be filed for water used solely to extinguish an existing fire on private or public lands, structures, or equipment, or to prevent an existing fire from spreading to private or public lands, structures, or equipment endangered by an existing fire pursuant to Section 42-201(3), Idaho Code. A claim is required for the use of water for domestic purposes in regularly maintained firefighting stations and for the storage of water for fighting future fires. (7-1-21)T

026. -- 029. (RESERVED)
030. FLAT FEES.

01. Small Domestic and Stock Water. A flat fee of twenty-five dollars ($25) shall be payable for each claim for domestic use and/or stock watering use meeting the definition of domestic use and/or stock watering use in Rule 010. (7-1-21)

02. Other Claims. A flat fee of fifty dollars ($50) shall be payable for each claim that does not meet the criteria of Subsection 030.01. (7-1-21)

031. -- 034. (RESERVED)

035. VARIABLE FEES.

01. General. For each claim not meeting the criteria of Subsection 030.01, there may be a variable fee in addition to the flat fee. (7-1-21)

02. Per Acre Fee.

a. A fee of one dollar ($1.00) per acre shall be required for claims for irrigation use. (7-1-21)

b. The per acre fee shall only be charged once against a particular acre, regardless of the number of claims filed for the irrigation of that acre or the number of claimants filing claims for the irrigation of that acre. (7-1-21)

c. The per acre fee shall be payable by the first person to file a claim for the irrigation of a particular acre. (7-1-21)

d. The per acre fee for an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more, or irrigation districts organized and existing as such under the laws of the state of Idaho, or for beneficial use by more than five (5) water users in an area of less than twenty-five thousand (25,000) acres shall be determined based upon the acreage claimed to be irrigated by the project or irrigation district within the boundaries of the project or irrigation district. (7-1-21)

03. Per Kilowatt Fee.

a. A per kilowatt of capacity (manufacturer’s nameplate rating) fee of three dollars and fifty cents ($3.50) per kilowatt, or two hundred fifty thousand dollars ($250,000.00), whichever is less, shall be required for claims for power use. (7-1-21)

b. The per kilowatt fee shall be determined based upon the total generating capacity of all generators in which the water right claimed is used. (7-1-21)

c. The total per kilowatt fee for all claims filed for a single hydropower facility shall not exceed the per kilowatt fee for the total generating capacity of all generators in the hydropower facility. (7-1-21)

04. Per CFS Fee.

a. A fee of ten dollars ($10) per cfs for aquaculture shall be required. A fee of one hundred dollars ($100) per cfs for all other uses shall be required except for irrigation, power, and domestic and stock watering uses meeting the definition of domestic and stock watering use in Section 010. (7-1-21)

b. For a claim to water for more than one (1) public purpose, the per cfs fee shall only be charged once per cfs claimed. Public purposes shall include public in-stream flows, lake level maintenance, wildlife, aesthetic beauty, and recreation. (7-1-21)

c. If there is a seasonal variation in the number of cfs claimed, the per cfs fee shall be based upon the maximum number of cfs claimed for any period during a single calendar year. (7-1-21)
The per cfs fee shall apply to claims for water quality improvement, recreation, aesthetic purposes, and any other purpose not expressly listed at Section 42-1414(1), Idaho Code, except as otherwise provided by these rules.

05. Claims Including Storage.

a. The variable fee for a claim that includes storage shall be based upon the ultimate use of the water stored. If the claim states purposes other than diversion to storage, storage, and diversion from storage, the total variable fee will be determined as provided in Subsection 035.06.

b. No variable fee shall be payable for water claimed for ground water recharge purposes.

c. For purposes of determining the per cfs fee for amounts of water claimed in af, one (1) cfs equals one and ninety-eight one-hundredths (1.98) af per day of diversion to storage.

d. No variable fee shall be payable for minimum by-pass flows.

06. Multiple Purpose Claims. If a claimant claims more than one (1) purpose of use on a single claim, the variable fee will be the total of the variable fees payable for each purpose of use.

07. Exceptions. No variable fee shall be payable for claims or portions of claims for fire-fighting purposes if a claim is required under Subsection 025.07 or for domestic use and/or stock watering use meeting the definitions of domestic use and stock watering use in Section 010.

036. -- 044. (RESERVED)

045. AMENDMENT FEES. When a claimant files an amendment to a claim, the total fee shall be recalculated as if the amended claim were the original claim. If the total fee as recalculated is greater than the total fee paid at the time the claim was filed, the amendment fee shall be the difference between the two (2) amounts. No refund shall be made if the total fee as recalculated is less than the total fee paid at the time the claim was filed.

046. -- 049. (RESERVED)

050. LATE FEES.

01. Late Fee Payable. A late fee shall be payable when a claim is filed after the date set forth in the first commencement notice mailed to the claimant or the claimant’s predecessor in interest pursuant to Sections 42-1414(3), Idaho Code.

02. Waiver. The late fee may be waived by the director for good cause shown.

051. -- 054. (RESERVED)

055. REFUNDS. Fees shall not be refunded or returned except where the fee was miscalculated at the time the claim was filed or as expressly provided in these rules.

056. -- 059. (RESERVED)

060. SUFFICIENCY OF CLAIMS.

01. Single Claim. Except for claims based on both state law and federal law, a single claim may describe only one (1) water right. A claim that describes more than one (1) water right will be rejected and returned along with any fees paid, and must be refiled as multiple claims.
02. **State Law Claim Form -- Minimum Requirements.** Claims filed on the state law claim form shall contain the following information:

a. **Name, Address and Phone Number of Claimant.** The name, address, and phone number of the claimant and all co-claimants claiming the water right jointly with the claimant shall be listed at item one (1) of the form.

b. **Date of Priority.** The date of priority shall be listed at item two (2) of the form, and shall include month, day and year. Only one (1) priority may be stated unless the claim is based upon both state and federal law as provided in Subsection 060.01. If more than one (1) priority date is stated, the claim will be rejected and returned along with any fees paid, and must be refiled as multiple claims.

   i. Within thirty (30) days, unless an extension by the director or his designee is approved, the claimant shall provide evidence of the priority date to support the water right claimed. If the claimant fails to provide evidence of priority, the form may be rejected and returned with no refund of the fees paid.

   c. **Source of Water Supply.** The source of water supply shall be stated at item three (3) of the form.

   1. For surface water sources, the source of water shall be identified by the official name listed on the U.S. Geological Survey Quadrangle map. If no official name has been given, the name in local common usage should be listed. If there is no official or common name, the source should be described as "unnamed stream" or "spring." The first named downstream water source to which the source is tributary shall also be listed. For ground water sources, the source shall be listed as "ground water."

   2. Only one (1) source shall be listed unless the claim is for a single water delivery system that has more than one (1) source, or the claim is for a single licensed or decreed right that covers more than one (1) water delivery system. If more than one (1) source is listed and the claim is not for a single water delivery system that has more than one (1) source, and the claim is not for a single licensed or decreed water right that covers more than one (1) water delivery system, the claim will be rejected and returned along with any fees paid, and must be refiled as multiple claims.

   d. **Location of Point of Diversion.** For claims other than in-stream flows, the location of the point(s) of diversion shall be listed at item four (4) part (a) of the form. For claims to in-stream flows, the beginning and ending points of the claimed in-stream flow shall be listed at item four (4) part (b) of the form.

   1. The location of the point of diversion shall be described to nearest forty (40) acre tract (quarter-quarter section) or government lot number, and shall include township number (including north or south designations), range number (including east or west designations), section number, and county.

   2. The claimant shall also list the Parcel Number or Parcel Identification Number (PIN) as assigned by the county assessor's office for the parcel where the water is diverted unless no Parcel Number or PIN is recorded for the property at the point of diversion.

   3. If the point of diversion is located in a platted subdivision, a plat of which has been recorded in the county recorder’s office for the county in which the subdivision is located, the claimant shall also list the subdivision name, block number and lot number in item thirteen (13) of the form (remarks section).

   4. A claim to a water right that includes storage shall state the point at which water is impounded (applicable only to on-stream reservoirs) or the point at which water is diverted to storage (applicable only to off-stream reservoirs), the point at which water is released from storage into a natural stream channel (applicable only where a natural stream channel is used to convey stored water), and the point at which water is rediverted (applicable only where a natural channel is used to convey stored water).

   v. Only one (1) point of diversion shall be listed unless the claim is for a single water delivery system that has more than one (1) point of diversion, or the claim is for a single licensed or decreed water right that covers more than one (1) water delivery system. If more than one (1) point of diversion is listed and the claim is not for a
single water delivery system that has more than one (1) point of diversion, and the claim is not for a single licensed or decreed water right that covers more than one (1) water delivery system, the claim will be rejected and returned along with any fees paid, and must be refilled as multiple claims. (7-1-21)

e. Description of Diversion Works. The diversion works shall be described at item five (5) of the form. (7-1-21)

i. The description shall include all major components of the water delivery system, such as dams, reservoirs, ditches, pipelines, pumps, wells, headgates, etc. The description shall also include those dimensions of major components which affect the diversion capacity of the water delivery system. The description shall also state whether the ditches are lined and/or covered, the depth of wells, the horsepower capacity of pumps, and whether headgates are automatic or equipped with locks and/or measuring devices. (7-1-21)

ii. The description shall include the dates and a description of any changes in use (including change in point of diversion, place of use, purpose of use, and period of use) or enlargements in use (including an increase in the amount of water diverted, the number of acres irrigated, or additional uses of water), and as to those dimensions required to be described above, the dimensions as originally constructed and as enlarged. (7-1-21)

iii. Water delivery organizations shall describe the water delivery system up to and including the point where responsibility for water distribution is assumed by entities other than the water delivery organization. (7-1-21)

f. Purpose of Use and Period of Use. Each purpose for which water is claimed, the period of use for each purpose for which water is claimed, and the amount of water claimed for each purpose for which water is claimed shall be listed at item six (6) of the form. Period of use shall include the month and day of the first and last day of use. For example, the period of use for domestic use is often January 1st through December 31st. (7-1-21)

i. The purpose may be described in general terms such as irrigation, industrial, municipal, mining, power generation, fish propagation, domestic, stock watering, etc. (7-1-21)

ii. A claim to a water right that includes storage shall be broken down into component purposes with the ultimate use(s) of the stored water indicated. The component purposes of a storage right are diversion to storage (not applicable to on-stream reservoirs), storage, and diversion from storage (not applicable where the ultimate use is an in-reservoir public purpose). Detention of water in a holding pond that can be filled in less than twenty-four (24) hours at the claimed diversion rate is not required to be claimed as storage. The amount of water claimed shall be limited to the active storage capacity of the reservoir unless a past practice of refilling the reservoir during the water year (October 1 to September 30) is shown or the claim is for a licensed or decreed right that includes refilling. If a past practice of refilling the reservoir is shown or if the claim is for a licensed or decreed right that includes refill, the total amount of water claimed for the calendar year and the entire period during which diversion to storage or impoundment occurs shall be indicated. (7-1-21)

iii. The amount of water claimed for each purpose for which water is claimed shall not exceed the amount of water beneficially used for the purpose claimed, and the period of use for each purpose claimed shall not exceed the period in which water is beneficially used for the purpose claimed. (7-1-21)

iv. The amount of water diverted shall be listed in cfs, and the amount of water stored shall be listed in af per annum. (7-1-21)

g. Amount of Water Claimed. The total amount of water claimed shall be listed at item seven (7) of the form. The total amount of water claimed shall not exceed the total of the amounts listed at item six (6) of the form, or the total diversion capacity of the diversion system, whichever is less. (7-1-21)

h. Description of Non-Irrigation Uses. Non-irrigation uses shall be fully described at item eight (8) of the form. For domestic uses, the number of households served shall be described; for stock watering uses, the type of stock and number of each type of stock shall be described. (7-1-21)

i. If the claimant’s domestic use does not meet the definition of domestic use in Subsection 010.07,
the form will be rejected and returned unless the appropriate variable fee is paid. (7-1-21)

ii. The claimant shall also state whether the stock watering use is in-stream, or whether water is diverted from the source for stock watering. Both types of stock watering cannot be filed on the same claim form; each type requires a separate claim. (7-1-21)

iii. Domestic use for organization camps and public campgrounds shall be fully described, including but not limited to the number of camp units, water faucets, flush toilets, showers, and sewer connections. Description of domestic use for organization camps and public campgrounds shall also include the average and peak number of individuals using the facility, and the periods when peak or average rates of usage occur. (7-1-21)

i. Place of Use. The place of use for each purpose for which water is claimed shall be listed at item nine (9) of the form, except that the place of use for in-stream flows for public purposes need not be listed if the place of use is fully described as the stream between the beginning and ending points listed as the points of diversion. (7-1-21)

ii. Except claims for irrigation projects and irrigation districts meeting the criteria described in Subsection 060.i.ii. below, the number of acres irrigated shall be described by entering the appropriate numbers in the appropriate boxes for each forty (40) acre tract or government lot on the form. For other uses, a symbol or letter corresponding to the purpose for which water is claimed shall be placed in the appropriate box for each forty (40) acre tract or government lot on the form. (7-1-21)

ii. Claims for an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more, or irrigation districts organized and existing as such under the laws of the state of Idaho, or for beneficial use by more than five (5) water users in an area of less than twenty-five thousand (25,000) acres shall be accompanied by a map showing the boundaries of the project or irrigation district, and shall state the total number of acres irrigated within the boundaries of the project or irrigations district. The project or district shall submit a map of the boundary of the place of use and, when available, a digital boundary defined in Section 42-202(B)(2), Idaho Code. (7-1-21)

iii. The claimant shall also list the Parcel Number or Parcel Identification Number (PIN) as assigned by the county assessor’s office for the parcel where the water is used unless no Parcel Number or PIN is recorded for the property at the place of use or the PIN is the same as the PIN shown in item four (4) for the point of diversion. (7-1-21)

j. County of Place of Use. The county(ies) in which the place(s) of use is (are) located shall be listed at item ten (10) of the form. (7-1-21)

k. Authority to Assert Claim. The claimant shall indicate at item eleven (11) of the form whether the claimant is the owner of the place(s) of use. If the claimant is not the owner of the place(s) of use, the claimant shall describe in the remarks section of the form the claimant’s authority to assert the claim. Unless the claimant is a water delivery organization, the claimant shall also state the name, address, and phone number of the owner(s) of the place of use in item thirteen (13) (remarks section) of the form. (7-1-21)

l. Other Water Rights. The claimant shall describe at item twelve (12) of the form any other water rights used at the same place and for the same purpose as the right claimed. If there are no other water rights used at the same place and for the same purpose as the right claimed, the claimant shall state “NA” or “none.” (7-1-21)

m. Remarks. At item thirteen (13) of the form, the claimant may submit any additional, relevant information not specifically requested. If the space provided is not sufficient, remarks shall be set forth on a separate piece of paper and attached to the form. All separate attachments must be specifically referenced in the remarks section of the form. (7-1-21)

n. Maps. An aerial photograph or USGS quadrangle map shall be included with the claim, unless the claim meets the definition of domestic use and stock watering use as defined in Section 010 or unless the claim is submitted electronically through the department’s online claim filing website. The point(s) of diversion, place(s) of use, and the water delivery system shall be identified on the aerial photograph or USGS quadrangle map. (7-1-21)
o. Basis of Claim. The basis of the claim shall be indicated at item fourteen (14) of the form. If a water right number has been assigned by the department to the right claimed, the water right number shall also be indicated. If a water right number has not been assigned and the water right is based upon a decree, the claimant shall list the title and date of the decree, the case number, and the court that issued the decree. If the basis of claim is a beneficial use (also known as the constitutional method of appropriation), the claimant shall provide a short description of events or history of the development of the water right. (7-1-21)

p. Signature. Each claim must be signed by the claimant at item fifteen (15) of the form, unless the claim is submitted electronically through the department’s online claim filing website. Each claimant, through submission of a signed claim or through submission of a claim by means of the department’s online claim filing website, solemnly swears or affirms under penalty of perjury that the statements contained in the notice of claim are true and correct. (7-1-21)

i. For claims submitted through the department’s online claim filing website, the form shall be submitted by a person listed as the claimant at item one (1) of the form unless the person submitting the form has authority to submit the form for the claimant or claimants. Claims by corporations, municipalities or other organizations shall be submitted by an officer of the corporation or an elected official of the municipality or an individual authorized by the organization to submit the form. (7-1-21)

ii. For claims that are not submitted by means of the internet, the form must be signed by each of the persons listed as claimants at item one (1) of the form unless the signatory has authority to sign for the claimant or claimants. Claims by corporations, municipalities or other organizations shall be signed by an officer of the corporation or an elected official of the municipality or an individual authorized by the organization to sign the form. The signatory’s title shall be indicated with the signature. (7-1-21)

q. Notice of Appearance. If notices to be sent by the director to the claimant are to be sent to the claimant’s attorney, the claimant’s attorney shall list the attorney’s name and address and sign and date the form at item sixteen (16) of the form. (7-1-21)

03. State Law Claim Form -- Insufficient Claims, Waivers. (7-1-21)

a. Claims filed on the state law claim form that do not contain the information required by Subsection 060.02 shall be rejected and returned along with any fees paid, unless otherwise provided by these rules. (7-1-21)

b. The director may waive the minimum information requirements of Subsection 060.02 and accept the claim for good cause shown. (7-1-21)

04. Further Information. This Rule 060 sets forth minimum requirements for the filing of claims. The director may request further information in support of the assertions contained in a claim as part of the investigation of the water system and the claims pursuant to Section 42-1410, Idaho Code. (7-1-21)

061. -- 064. (RESERVED)

065. REJECTED AND RETURNED CLAIMS.

01. Rejected Claims. Rejected claims shall be returned to the claimant by ordinary mail at the most recent address shown by department records. The rejected claim shall be accompanied by a notice of rejection that states generally the reason(s) for rejection. (7-1-21)

02. Refiled Claims. Claims that have been rejected and returned to the claimant may be refiled with the appropriate fees and appropriate information at any time prior to the deadline for filing the original claim. Claims refiled after the deadline for filing the original claim will be subject to the late fee, unless the claim is refiled within thirty (30) days from the date of mailing the rejected claim by the department. (7-1-21)

066. -- 999. (RESERVED)
37.03.02 – BENEFICIAL USE EXAMINATION RULES

000. LEGAL AUTHORITY (RULE 0).
The director of the Department of Water Resources adopts these rules under the authority provided by Section 42-1805(8), Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 1).
Sections 42-217 and 42-221, Idaho Code, requires a license examination fee be submitted together with the written proof of beneficial use or that a field examination report prepared by a certified water right examiner be submitted together with the written proof of beneficial use. The statutes also provided that field examinations could be conducted by certified water right examiners appointed by the director. (7-1-21)

01. Examination Requirements. The examination requirements listed are intended as a guide to establish acceptable standards to determine the extent of application of water to beneficial use. The requirements are not intended to restrict the application of other sound examination principles by water right examiners. The director will evaluate any deviation from the standards hereinafter stated as they pertain to the review of any given examination. Water right examiners are encouraged to submit new ideas which will advance the art and provide for the public benefit. (7-1-21)

02. Rules. These rules shall not be construed to deprive or limit the director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the director from any owner of a water right permit or authorized representative for the proper administration of the law. (7-1-21)

002. – 008. (RESERVED)

009. APPLICABILITY (RULE 9).

01. Proof of Beneficial Use. These rules apply to all permits for which proof of beneficial use is not yet due and has not been submitted to the department. (7-1-21)

02. Examination. These rules apply to all permits for which an examination has not been conducted. (7-1-21)

03. Re-Examination. These rules apply to all permits that have been examined but the license has not been issued due to a request for a re-examination by the permit holder. (7-1-21)

04. Examination Fee. The examination fee requirements of these rules do not apply to a permit for single family domestic use, stockwatering, or other small uses for which the use does not exceed four one-hundredths (0.04) cfs or four (4) AF/year. The examination fee is required for multiple use permits which exceed four one-hundredths (0.04) cfs or four (4) AF/year even though single family domestic use or stockwater use is included as one (1) of the uses on the permit. (7-1-21)

010. DEFINITIONS (RULE 10).
Unless the context otherwise requires, the following definitions govern these rules. (7-1-21)

01. Acre-Foot (AF). A volume of water sufficient to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand, five hundred sixty (43,560) cubic feet. (7-1-21)

02. Acre-Foot/Annum. An annual volume of water that may be diverted under a given use or right. (7-1-21)

03. Amendment. A change in point of diversion, place, period or nature of use or other substantial change in the method of diversion or use of a permitted water right. (7-1-21)

04. Capacity Measurement. The maximum volume of water impounded in the case of reservoirs or the maximum rate of diversion from the source as determined by actual measurement of the system during normal operation. (7-1-21)

05. Certified Water Right Examiner. A professional engineer or professional geologist, qualified and registered in the state of Idaho who has the knowledge and experience necessary to satisfactorily complete water right field examinations as determined by the Director, and who has been appointed by the Director, Idaho Department of Water Resources as a certified water right examiner. A certified water right examiner is commonly termed a field
examiner, water right examiner or examiner. A certified water right examiner is an impartial investigator and reporter of the information required by the Director to determine the extent of beneficial use established in compliance with a permit. Department employees are authorized to conduct water right examinations at the discretion of the Director.

06. **Conveyance Works.** The ditches, pipes, conduits or other means by which water is carried or moved from the point of diversion to the place of use. Storage works, if any, such as a dam can be considered part of the conveyance works.

07. **Cubic Foot Per Second (CFS).** A rate of flow approximately equal to four hundred forty-eight and eight tenths (448.8) gallons per minute and also equals fifty (50) miner’s inches.

08. **Department.** The Idaho Department of Water Resources.

09. **Director.** The Director of the Idaho Department of Water Resources.

10. **Duty of Water.** The quantity of water necessary when economically conducted and applied to land without unnecessary loss as will result in the successful growing of crops.

11. **Examination or Field Examination.** An on-site inspection or investigation to determine the extent of application of water to beneficial use and to determine compliance with terms and conditions of the water right permit.

12. **Field Report.** The form provided by the Department upon which the examiner records the data gathered and describes the extent of diversion of water and application to beneficial use. The report is fully termed beneficial use field report and is also termed a field examination report.

13. **Headworks or Diversion Works.** The constructed barriers or devices on the source of water (surface water or ground water) by which water can be diverted from its natural course of flow and/or measured.

14. **License.** The certificate issued by the Director in accordance with Section 42-219, Idaho Code confirming the extent of diversion and beneficial use of the water that has been made in conformance with the permit conditions.

15. **License Examination Fee.** The fee required in Section 42-221K, Idaho Code, and is also termed an examination fee.

16. **Legal Subdivision.** A tract of land described by the government land survey and usually is described by government lot or quarter-quarter, section, township and range. A lot and block of a subdivision plat recorded with the county recorder may be used in addition to the government lot, quarter-quarter, section, township and range description.

17. **Measuring Device.** A generally accepted structure or apparatus used to determine a rate of flow or volume of water. Examples are weirs, meters, and flumes. Less typical devices may be accepted by the Director on a case-by-case basis.

18. **Nature of Use.** The characteristic use for which water is applied. Examples are domestic, irrigation, mining, industrial, fish propagation, power generation, municipal, etc.

19. **Period of Use.** The time period during which water under a given right can be beneficially used.

20. **Permit Holder or Owner.** The person, association, or corporation to whom a permit has been issued or assigned as shown by the records of the Department.

21. **Permit or Water Right Permit.** The water right document issued by the Director authorizing the
diversion and use of unappropriated public water of the state or water held in trust by the state. (7-1-21)T

22. **Place of Use (P.U. or POU).** The location where the beneficial use is made of the diverted water. (7-1-21)T

23. **Point of Diversion (P.D. or POD).** The location on the public source of water from which water is diverted. Examples are pump intake, headgate, well locations, and dam locations. (7-1-21)T

24. **Project Works.** A general term which includes diversion works, conveyance works, and any devices which may be used to measure the water or to apply the water to the intended use. Improvements which have been made as a result of application of water, such as land preparation for cultivation, are not a part of the project works. (7-1-21)T

25. **Proof of Beneficial Use.** The submittal required in Section 42-217, Idaho Code. This submittal is commonly termed proof. (7-1-21)T

26. **Source.** The name of the natural water body at the point of diversion. Examples are Snake River, Smith Creek, ground water, spring, etc. (7-1-21)T

011. **ABBREVIATIONS.**

01. AF. Acre-Foot or Acre-Feet. (7-1-21)T
02. CFS. Cubic Foot Per Second. (7-1-21)T
03. P.D. or POD. Point of Diversion. (7-1-21)T
04. P.U. or POU. Place of Use. (7-1-21)T
05. USGS. United States Geological Survey. (7-1-21)T

012. -- 024. (RESERVED)

025. **AUTHORITY OF REPRESENTATIVE (RULE 25).**

01. **Proof of Beneficial Use.** When the proof of beneficial use, field report, and drawings are filed by the water right examiner on behalf of an owner, written evidence of authority to represent the owner shall be filed with the proof, field report, and drawings. (7-1-21)T

02. **Responsibility.** It is the responsibility of the permit holder or authorized representative to submit proof of beneficial use and provide for the timely submission of a completed field report by the due date in acceptable form to the director by either paying the required examination fee to the department or by employing a certified water right examiner. (7-1-21)T

026. -- 029. (RESERVED)

030. **QUALIFICATION, EXAMINATION AND APPOINTMENT OF CERTIFIED WATER RIGHT EXAMINER (RULE 30).**

01. **Consideration.** Any professional engineer or geologist qualified and registered in the state of Idaho who has the knowledge and experience necessary to satisfactorily complete water right field examinations as determined by the Director shall be considered for appointment as a water right examiner upon application to the Director. The application shall be in the form prescribed by the Director and shall be accompanied by a non-refundable fee in the amount provided by statute. (7-1-21)T

02. **Information.** The Director may require an applicant for appointment to the position of water right examiner to provide detailed information of past experience, provide references, and to satisfactorily complete a
written or oral examination. (7-1-21)T

03. Denial. If the Director determines an applicant is not qualified, the application will be denied. If the Director determines an applicant is qualified, a certificate of appointment will be issued. (7-1-21)T

04. Expiration. Every water right examiner certificate of appointment shall expire March 31 of each year unless renewed by application in the manner prescribed by the Director. A non-refundable fee in the amount provided by statute shall accompany an application for renewal. (7-1-21)T

05. Refusal or Revocation. An appointment or renewal may be refused or revoked by the Director at any time upon a showing of reasonable cause. A party aggrieved by an action of the Director may request an administrative hearing pursuant to Section 42-1701A (3), Idaho Code. (7-1-21)T

06. Reconsideration. An application for appointment or renewal which has been refused or revoked by the Director may not be reconsidered for six (6) months. (7-1-21)T

07. Liability. The state of Idaho shall not be liable for the compensation of any water right examiner other than department employees. The permit holder shall be responsible for costs associated with proof submittal including examination and field report preparation. (7-1-21)T

08. Examinations. The Director may authorize sufficiently knowledgeable and experienced department employees to conduct water right examinations during the course and scope of their employment with the department. Upon termination of employment with the department, such examiners, unless reappointed as a non-department certified examiner under provisions of these rules, are not authorized to conduct field examinations. The fee provisions of these rules do not apply to department employees. (7-1-21)T

09. Ingress or Egress Authority. Appointment as a water right examiner does not grant ingress or egress authority to non-department examiners and does not convey authority unless explicitly prescribed in these rules. (7-1-21)T

10. Reports. The Director will not accept a field examination report prepared by a certified water right examiner or a department employee who has any past or present interest, direct or indirect, in either the water right permit, the land or any enterprise benefiting, or likely to benefit, from the water right. Among those that the Director will presume to have an actual or potential conflict of interest and from whom he will not accept a field examination report are the following: (7-1-21)T

a. The person or persons owning the water right permit or the land or enterprise benefiting from the water right permit, members of their families (spouse, parents, grandparents, lineal descendants including those that are adopted, lineal descendants of parents; and spouse of lineal descendants), and their employees. (7-1-21)T

b. The person or persons, who sold or installed the diversion works or distribution system. (7-1-21)T

11. Money Received. All moneys received by the department under the provisions of these rules shall be deposited in the water administration fund created under Section 42-238a, Idaho Code. (7-1-21)T

031. -- 034. (RESERVED)

035. EXAMINATION FOR BENEFICIAL USE (RULE 35).

01. Field Report. (7-1-21)T

a. All items of the field report must be completed and must provide sufficient information for the Director to determine the extent of the water right developed in order for the report to be acceptable to the Director. (7-1-21)T

b. Permitted uses partially developed by the permit holder shall be described in detail. Permitted uses which were not developed by the permit holder shall be noted. Uses determined to exist which are not authorized by
the permit being examined shall also be described in detail. (7-1-21)T

c. A concise description of the diversion works and a general description of the distribution works shall be given. This description must trace the water from the point of diversion to the place of use and the return to a public water source, if any. Any reservoir, diversion dam, headgate, well, canal, flume, pump and other related structure shall be included. If water is stored, the timing and method of storage, release, rediversion and conveyance to the place of use shall be described. The make, capacity, serial number and model number of all pumps, boosters or measuring devices associated with the point of diversion at the source of the water supply shall be described on the field examination report. Schematic diagrams, photographs, and maps sufficient to locate and describe the diversion, conveyance and usage systems shall also be provided in the examination report. (7-1-21)T

d. Any interconnection of the water use being examined with other water rights or with other conveyance systems shall be described on the field report. Interconnection includes, but is not limited to, sharing the same point of diversion, distribution system, place of use, or beneficial use. The examination report shall also include an evaluation of how the water use being examined is distinct from prior existing water rights and provides an alternate source of water or increment of beneficial use not authorized by prior existing water rights. (7-1-21)T

e. If water is returned to a public water source after use, a legal description of the point where the water is returned and source to which discharge is made shall be provided. Examples of uses which generally have an effluent discharge include fish propagation and power facilities. (7-1-21)T

f. The method of compliance with each condition of approval of a permit shall be shown on the field report by the examiner. (7-1-21)T

g. If the water is used for irrigation, the boundaries of the irrigated areas and the location of the project works providing water to each shall be platted on the maps submitted with the report and the full or partial acreage in each legal subdivision of forty (40) acres or government lot shall be shown. (7-1-21)T

h. Irrigated acreage shall be shown on the field report to the nearest whole acre in a legal subdivision except the acreage shall be shown to the nearest one-tenth (0.10) acre for permits covering land of less than ten (10) acres. (7-1-21)T

i. Where a permit has been developed as separate distribution systems from more than one point of diversion, the separate areas irrigated from each point of diversion shall be shown on the maps submitted with the report and the legal subdivisions embracing the irrigated areas for each such respective point of diversion together with the total irrigated area shall be described. (7-1-21)T

j. For each use of water the examiner shall report an annual diversion volume based on actual beneficial use during the development period for the permit. The method of determining the annual diversion volume shall be shown. The annual diversion volume shall account for seasonal variations in factors affecting water use, including seasonal variations in water availability. For irrigation, the volume shall be based on the field headgate requirements in the map titled Irrigation Field Headgate Requirement appended to these rules (see Appendix A located at the end of this chapter). Annual diversion volumes for heating and cooling uses may be adjusted to account for documented weather conditions during any single heating or cooling season from among the fifty (50) years immediately prior to submitting proof of beneficial use for the permit. For storage uses that include filling the reservoir and periodically replenishing evaporation and seepage losses throughout the year, the annual diversion volume shall be the sum of the amounts used for filling and for replenishment. Volumes may include reasonable conveyance losses actually incurred by the water user. The following water uses are exempt from the volume reporting requirement:

i. Diversion to storage. (Volume should be reported for the storage use, such as irrigation storage.) (7-1-21)T

ii. Domestic uses as defined in Section 42-111, Idaho Code. (7-1-21)T

iii. In-stream watering of livestock. (7-1-21)T
iv. Fire protection. (Volume is required for fire protection storage.) (7-1-21)T
v. On-stream, run-of-the-river, non-consumptive power generation uses. (7-1-21)T
vi. Minimum stream flows established pursuant to Chapter 15, Title 42, Idaho Code. (7-1-21)T
vii. Municipal use by an incorporated city or other entity serving users throughout an incorporated city, except the following situations that do require a volume to be reported:
   (1) The permit or amended permit was approved with a volume limitation; or (7-1-21)T
   (2) The permit was not approved for municipal use but can be amended and licensed for a municipal use established during the authorized development period for the permit. (7-1-21)T
viii. Irrigation using natural stream flow diverted from a stream or spring. (Volumes must be reported for irrigation uses from ponds, lakes and ground water and for irrigation storage and irrigation from storage.) (7-1-21)T

k. The total number of holding/rearing ponds and the dimensions and volume of the ponds shall be shown on the field report for fish rearing or fish propagation use. The annual volume shall be calculated based on the changes of water per hour. (7-1-21)T

l. Information shall be submitted concerning the beneficial use that has been made of the water unless the purpose of use is for irrigation. For example, for stockwater use, the number and type of stock watered shall be provided. Similar indications of the extent of beneficial use shall be provided for all other non-irrigation uses. (7-1-21)T

m. The period during each year that the water is used shall be described for each use. (7-1-21)T

n. For permits having more than one (1) use, the diversion rate measured for each use, the annual diversion volume determined for each use (unless specifically exempted by rule or statute), and the place of use for each use shall be described. (7-1-21)T

o. The amount (rate and/or volume) of water shall be limited by the smaller of the permitted amount, the amount upon which the license examination fee is paid, the capacity of the diversion works or the amount beneficially used prior to submitting proof of beneficial use, including any statutory limitation of the duty of water. (7-1-21)T

p. Suggested amendments shall be noted on the field report when the place of use, point of diversion, period or nature of use is different from the permit. Suggested amendments shall be based on actual use, not on potential use. (7-1-21)T

q. An aerial photo marked to depict the point(s) of diversion and place(s) of use for each use must accompany each field report unless waived by the Director. If existing photos are not available, the Director will accept a USGS Quadrangle map at the largest scale available. (7-1-21)T

r. Unless required as a condition of permit approval, an on-site examination and direct measurement of the diversion rate are not required for the following water uses if the beneficial use, place of use, season of use, and point of diversion can be confirmed by documentary means such as well driller reports, property tax records, receipts and other records of the permit holder, or photographs, including aerial photographs:
   i. Irrigation up to five (5) acres. (7-1-21)T
   ii. Storage of up to fourteen point six (14.6) acre-feet of water solely for stock watering purposes. (7-1-21)T
   iii. Any uses other than irrigation or storage if the total combined diversion rate for all the uses
established in connection with the permit does not exceed twenty-four one hundredths (0.24) cubic feet per second.

(7-1-21)T

02. Field Report Acceptability.

a. All field reports shall be prepared by or under the supervision of certified water right examiners or authorized department employees. Reports submitted by certified water right examiners must be properly endorsed with an engineer or geologist seal and signature. Field reports received from certified water right examiners will be accepted if the report includes all the information required to complete the report and provides the information required by Rule Subsection 035.01.

(7-1-21)T

b. Field reports not completed as required by these rules will be returned to the certified water right examiner for completion. If the date for submitting proof of beneficial use has passed, the penalty provisions of Rule 055 shall apply.

(7-1-21)T

c. If the Director determines that a field report prepared by a certified water right examiner is acceptable but that additional information is needed to clarify the field report, he will notify the examiner in writing of the information required. If the additional information is not submitted within thirty (30) days or within the time specified in the written notice, the priority date of the permit will be advanced one (1) day for each day the information submittal is late. Failure to submit the required information within one (1) year of the date of the department’s request is cause for the Director to take action to cancel the permit.

(7-1-21)T

d. Field reports which indicate that a measuring device or lockable controlling works, required as a condition of approval of the permit, has not been installed, are not acceptable and will be returned to the examiner unless the measuring device requirement or lockable controlling works requirement has been formally waived or modified by the Director.

(7-1-21)T

03. General.

a. For irrigation purposes, the duty of water shall not exceed five (5) acre feet of stored water for each acre of land to be irrigated or more than one (1) cubic foot per second for each fifty (50) acres of land to be irrigated unless it can be shown to the satisfaction of the Director that a greater amount is necessary.

(7-1-21)T

b. For irrigated acreage of five (5) acres or less, a diversion rate up to three one-hundredths (0.03) cfs per acre may be allowed on the license to be issued by the Director.

(7-1-21)T

c. Conveyance losses of water from the point of diversion to the place of use which are determined by actual measurement may be allowed by the Director if the loss is determined by the Director to be reasonable.

(7-1-21)T

d. The duty of water described in Subsections 035.03.a or 035.03.b. may be exceeded if the department has authorized a greater diversion rate per acre when the permit was issued and good cause acceptable to the Director has been demonstrated.

(7-1-21)T

e. For irrigation systems which cover twenty-five thousand (25,000) acres or more, within irrigation districts organized and existing under the laws of the state of Idaho, and for irrigation projects developed under a permit held by an association, company, corporation, or the United States to deliver surface water to more than five (5) water users under an annual charge or rental, the field report does not need to describe the irrigated land by legal subdivision, but may describe generally the lands under the project works if the total irrigated acres has been accurately determined and is shown on the field report. The amount of water beneficially used under such projects must be shown on the field report.

(7-1-21)T

036. -- 039. (RESERVED)

040. WATER MEASUREMENT (RULE 40).

01. Measurement Terminology.
a. Rate of flow measurements shall be shown in units of cubic feet per second (cfs) with three (3) significant figures and no more precision than hundredths. (7-1-21)

b. Volume measurements shall be shown in units of acre-feet (AF) with three (3) significant figures, and no more precision than tenths. (7-1-21)

02. Rate of Diversion. The rate of diversion measurement shall be conducted as close as reasonably possible to the source of supply and shall be measured with the project works fully in place operating at normal capacity. For example, if a sprinkler system is used for irrigation purposes, discharge from the pump must be measured with the sprinkler system connected. (7-1-21)

03. Measurements. Water measurements may be made by vessel, weir, meter, rated flume, reservoir capacity table or other standard method of measurement acceptable to the Director. The field report shall describe the method used in making the measurement, the date when made, the name of the person making the measurement, the legal description of the location where the measurement was taken and shall include sufficient information, including current meter notes, rating tables, and/or calibration information to enable the Director to check the quantity of water measured in each case. (7-1-21)

04. Unacceptable Measurements. Theoretical diversion rates or theoretical carrying capacities are not acceptable as a measure of the rate of diversion except as indicated in these rules and for some diversion systems where the flow rate cannot be measured accurately due to the physical characteristics of the diversion and distribution system. (7-1-21)

05. Method. Rate of flow measurements shall be determined using equipment and methods capable of obtaining an accuracy of plus or minus ten percent (10%). (7-1-21)

045. DRAWINGS, MAP, AND SCHEMATIC DIAGRAM (RULE 45). The following provisions shall apply to the submittal of drawings, maps, photos and the schematic diagrams. (7-1-21)

01. Submittal of Drawings, Maps, Photos and Schematic Diagrams. Drawings, maps, photos and schematic diagrams used as an attachment to the field report shall be on eight and one-half by eleven (8 1/2 x 11) inch paper whenever possible. (7-1-21)

02. Attachment Sheets. Attachment sheets shall depict information on one (1) side only. (7-1-21)

03. Scale of Map. The map depicting the point of diversion and place of use shall be of a reasonable scale but not less than two (2) inches equals one (1) mile. The map shall show the location of the point(s) of diversion to the nearest forty (40) acre tract or to a ten (10) acre tract for springs. The location of ditches, canals, mainlines, distribution systems and the place of use by forty (40) acre tract must be shown. (7-1-21)

04. Drawings. Drawings need to generally depict the size and type of diversion works, measuring device, conveyance system, water application method, and the location of any measurements taken. (7-1-21)

05. Photographs. Photographs of the diversion works, the typical distribution works and other prominent features of the system shall be provided with the field report. (7-1-21)

046. -- 049. (RESERVED)

050. LICENSE EXAMINATION FEE (RULE 50). (7-1-21)

a. The examination fee shall be payable to the Department of Water Resources unless the field
examination is conducted by a certified water right examiner. (7-1-21)T

b. The department will not conduct an examination for which the fee has not been paid to the department unless exempted in Rule Subsection 009.04, except that for any prior examination, whether conducted by a certified water right examiner or by department staff, the department may conduct a supplemental examination on its own initiative at any time. No examination fee shall be charged for a supplemental examination conducted by the department on its own initiative. (7-1-21)T

c. A license shall not be issued for an amount of water in excess of the amount covered by the examination fee. Subsequent to the examination and prior to a license being issued, the Director will notify the permit holder that the licensed amount will be limited because an insufficient examination fee was paid. The permit holder will be allowed thirty (30) days after the notice is mailed to pay the additional examination fee, along with a late payment penalty of twenty-five dollars ($25) or twenty percent (20%) of the amount of the additional required fee whichever is more. If payment is received within the thirty (30) day period, the rate or volume licensed shall not be reduced by reason of the examination fee. If payment is not received within the thirty (30) day period, the rate or volume licensed shall be limited by the original examination fee paid. For the purpose of determining advancement of priority for late fee as provided in Section 42-217, Idaho Code, fees shall not be considered as having been paid until paid in full, including any subsequent fee. (7-1-21)T

d. Excess examination fees are non-refundable. (7-1-21)T

e. An examination fee equal to the initial examination fee paid to the department shall be paid for a re-examination made at the request for the permit holder except upon a showing of error by the department on the initial examination. (7-1-21)T

02. Examinations Conducted by Non-Department Certified Water Right Examiners. (7-1-21)T

a. The examination fee required by Section 42-217, Idaho Code is not applicable for examination conducted by or under the supervision of certified water right examiners. (7-1-21)T

b. A permit holder may not choose to have the examination conducted by the department after selecting a certified water right examiner. (7-1-21)T

c. After submitting proof of beneficial use and paying an examination fee to the department, but before the department’s actual examination, a permit holder may submit an examination report completed by a certified water right examiner. Because the examination fee is an essential component of timely proof submittal, the department will not refund the examination fee. (7-1-21)T

051. -- 054. (RESERVED)

055. PENALTY (RULE 55).

01. Permits for Which Proof Has Not Been Submitted. The submittal required is the proof and the examination fee or the proof and a completed field report. (7-1-21)T

02. Failure to Submit. Failure to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner by the proof due date is cause to lapse the permit pursuant to Section 42-218a, Idaho Code, unless an extension of time pursuant to Section 42-204, Idaho Code, extending the proof of beneficial use due date has been approved. (7-1-21)T

056. -- 999. (RESERVED)

Acres Feet per Year per Acre
000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authority of Sections 42-3913, 42-3914, and 42-3915, Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 37.03.03 “Rules and Minimum Standards for the Construction and Use of Injection Wells.” (7-1-21)

02. Scope. These rules and minimum standards are for construction and use of injection wells in the state of Idaho. Upon promulgation, these rules apply to all injection wells (see Rule Subsection 035.01). The construction and use of Class I, III, IV, or VI injection wells are prohibited by these rules. Class IV wells are also prohibited by federal law. These rules and minimum standards for construction and use of injection wells apply to all injection wells in the state of Idaho, except in Indian lands. All injection wells shall be permitted and constructed in accordance with the “Well Construction Standards Rules” found in IDAPA 37.03.09 which are authorized under Section 42-238, Idaho Code. (7-1-21)

03. Rule Coverage. In the event that a portion of these rules is less stringent than the minimum requirements for injection wells as established by Federal regulations, the correlative Federal requirement will be used to regulate the injection well. (7-1-21)

04. Variance of Methods. The Director may approve the use of a different testing method or technology if it is no less protective of human health and the environment, will not allow the migration of injected fluids into a USDW, meets the intent of the rule, and yields information or data consistent with the original method or technology required. A request for review by the Director must be submitted in writing by the applicant, permit holder, or operator and be included with all pertinent information necessary for the Director to evaluate the proposed testing method or technology. (7-1-21)

002. INCORPORATION BY REFERENCE.

01. Incorporated Document. IDAPA 37.03.03 adopts and incorporates by reference those groundwater quality standards found in Section 200 of IDAPA 58.01.11, “Ground Water Quality Rule,” of the Department of Environmental Quality. (7-1-21)

02. Document Availability. Copies of the incorporated document may be found at the central office of the Idaho Department of Water Resources, 322 East Front Street, Boise, Idaho, 83720-0098 or online through the department or state websites. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Abandonment. See “permanent decommission.” (7-1-21)

02. Abandoned Well. See “permanent decommission”. (7-1-21)

03. Agricultural Runoff Waste. Excess surface water from agricultural fields generated during any agricultural operation, including runoff of irrigation tail water, as well as natural drainage resulting from precipitation, snowmelt, and floodwaters, and is identical to the statutory phrase “irrigation waste water” found in Idaho Code 42-3902. (7-1-21)

04. Applicant. Any owner or operator submitting an application for permit to construct, modify or maintain an injection well to the Director of the Department of Water Resources. (7-1-21)

05. Application. The standard Department forms for applying for a permit, including any additions, revisions or modifications to the forms. (7-1-21)

06. Aquifer. Any formation that will yield water to a well in sufficient quantities to make production of water from the formation reasonable for a beneficial use, except when the water in such formation results solely from fluids deposited through an injection well. (7-1-21)
07. Beneficial Use. One (1) or more of the recognized beneficial uses of water including but not limited to, domestic, municipal, irrigation, hydropower generation, industrial, commercial, recreation, aquifer recharge and storage, stockwatering and fish propagation uses, as well as other uses which provide a benefit to the user of the water as determined by the Director. Industrial use as used for purposes of these rules includes, but is not limited to, manufacturing, mining and processing uses of water. (7-1-21)T

08. Best Management Practice (BMP). A practice or combination of practices that are more effective than other techniques at preventing or reducing contamination of ground water and surface water by injection well operation. (7-1-21)T

09. Casing. A pipe or tubing of appropriate material, of varying diameter and weight, lowered into a borehole during or after drilling in order to support the sides of the hole and thus prevent the walls from caving, to prevent loss of drilling fluid into porous ground, or to prevent water, gas, or other fluid from entering or leaving the hole. (7-1-21)T

10. Cementing. The operation whereby a cement slurry is pumped into a drilled hole and/or forced behind the casing. (7-1-21)T

11. Cesspool. An injection well that receives sanitary waste without benefit of a treatment system or treatment device such as a septic tank. Cesspools sometimes have open bottom and/or perforated sides. (7-1-21)T

12. Coliform Bacteria. All of the aerobic and facultative anaerobic, gram-negative, non-spore forming, rod-shaped bacteria that either ferment lactose broth with gas formation within forty-eight (48) hours at thirty-five degrees Celsius (35C), or produce a dark colony with a metallic sheen within twenty-four (24) hours on an Endo-type medium containing lactose. (7-1-21)T

13. Confining Bed. A body of impermeable or distinctly less permeable material stratigraphically adjacent to one (1) or more aquifers. (7-1-21)T

14. Construct. To create a new injection well or to convert any structure into an injection well. (7-1-21)T

15. Contaminant. Any physical, chemical, biological, or radiological substance or matter. (7-1-21)T

16. Contamination. The introduction into the natural ground water of any physical, chemical, biological, or radioactive material that may:
   a. Cause a violation of Idaho Ground Water Quality Standards found in IDAPA 58.01.11 “Ground Water Quality Rule” or the federal drinking water quality standards, whichever is more stringent; or (7-1-21)T
   b. Adversely affect the health of the public; or (7-1-21)T
   c. Adversely affect a designated or beneficial use of the State’s ground water. Contamination includes the introduction of heated or cooled water into the subsurface that will alter the ground water temperature and render the local ground water less suitable for beneficial use. (7-1-21)T

17. Conventional Mine. An open pit or underground excavation for the production of minerals. (7-1-21)T

18. Decommission. To remove a well from operation such that injection through the well is not possible. See “permanent decommission” and “unauthorized decommission”. (7-1-21)T

19. DEQ. The Idaho Department of Environmental Quality. (7-1-21)T

20. Deep Injection Well. An injection well which is more than eighteen (18) feet in vertical depth below land surface. (7-1-21)T
21. **Department.** The Idaho Department of Water Resources.

22. **Director.** The Director of the Idaho Department of Water Resources.

23. **Disposal Well.** A well used for the disposal of waste into a subsurface stratum.

24. **Draft Permit.** A prepared document indicating the Director's tentative decision to issue or deny, modify, revoke and reissue a “permit.” Permit conditions, compliance schedules, and monitoring requirements are typically included in a “draft permit”. A notice of intent to terminate a permit, and a notice of intent to deny a permit are types of “draft permits.” A denial of a request for modification, revocation and reissuance, or termination is not a “draft permit.”

25. **Drilling Fluid.** Any number of liquid or gaseous fluids and mixtures of fluids and solids (such as solid suspensions, mixtures and emulsions of liquids, gases, and solids) used in operations to drill boreholes into the earth.

26. **Drywell.** An injection well completed above the water table so that its bottom and sides are typically dry except when receiving fluids.

27. **Endangerment.** Injection of any fluid which exceeds Idaho ground water quality standards, or federal drinking water quality standards, whichever is more stringent, that may result in the presence of any contaminant in ground water which supplies or can reasonably be expected to supply any public or non-public water system, and if the presence of such contaminant may result in a system not complying with any ground water quality standard or may otherwise adversely affect the health of persons or result in a violation of ground water quality standards that would adversely affect beneficial uses.

28. **Exempted Aquifer.** An “aquifer” or its portion that meets the criteria in the definition of USDW but which has been recategorized as “other” according to the procedures in IDAPA 58.01.11 “Ground Water Quality Rule”.

29. **Existing Injection Well.** An “injection well” other than a “new injection well.”

30. **Experimental Technology.** A technology which has not been proven feasible under the conditions in which it is being tested.

31. **Facility or Activity.** Any UIC “injection well,” or another facility or activity that is subject to regulation under the UIC program.

32. **Fault.** A surface or zone of rock fracture along which there has been displacement.

33. **Flow Rate.** The volume per time unit given to the flow of gases or other fluid substance which emerges from an orifice, pump, turbine or passes along a conduit or channel.

34. **Fluid.** Any material or substance which flows or moves, whether in a semisolid, liquid, sludge, gaseous or any other form or state.

35. **Formation.** A body of consolidated or unconsolidated rock characterized by a degree of lithologic homogeneity which is prevalingly, but not necessarily, tabular and is mappable on the earth’s surface or traceable in the subsurface.

36. **Generator.** Any person, by site location, whose act or process produces hazardous waste identified or listed in 40 CFR part 261.

37. **Ground Water.** Any water that occurs beneath the surface of the earth in a saturated formation of rock or soil.

38. **Ground Water Quality Standards.** Standards found in IDAPA 58.01.11, “Ground Water Quality
39. **Hazardous Waste.** Any substance defined by IDAPA 58.01.05, “Rules and Standards for Hazardous Waste.”

40. **Indian Lands.** “Indian Country” as defined in 18 U.S.C. 1151. That section defines Indian Country as:
   a. All land within the limits of any Indian reservation under the jurisdiction of the United States government, notwithstanding the issuance of any patent, and, including rights-of-way running through the reservation;
   b. All dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a State; and
   c. All Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same.

41. **Individual Subsurface Sewage Disposal System.** For the purpose of these rules, any standard or alternative disposal system which injects sanitary waste from single family residential septic systems, or non-residential septic systems which are used solely for the disposal of sanitary waste and have the capacity to serve fewer than twenty (20) people a day.

42. **Improved Sinkhole.** A naturally occurring karst depression or other natural crevice found in volcanic terrain and other geologic settings which have been modified by man for the purpose of directing and emplacing fluids into the subsurface.

43. **Injection.** The subsurface emplacement of fluids through an injection well.

44. **Injection Well.** Any feature that is operated to allow injection which also meets at least one (1) of the following criteria:
   a. A bored, or driven shaft whose depth is greater than the largest surface dimension;
   b. A dug hole whose depth is greater than the largest surface dimension;
   c. An improved sinkhole; or
   d. A subsurface fluid distribution system.

45. **Injection Zone.** A geological “formation”, or those sections of a formation receiving fluids through an “injection well.”

46. **IWRB.** Idaho Water Resource Board.

47. **Large Capacity Cesspools.** Any cesspool used by a multiple dwelling, community or regional system for the disposal of sanitary wastes (for example: a duplex or an apartment building) or any cesspool used by or intended to be used by twenty (20) or more people per day (for example: a rest stop, campground, restaurant or church).

48. **Large Capacity Septic System.** Class V wells that are used to inject sanitary waste through a septic tank and do not meet the criteria of an individual subsurface sewage disposal system.

49. **Maintain.** To allow, either expressly or by implication, an injection well to exist in such condition as to accept or be able to accept fluids. Unless a well has been permanently decommissioned pursuant to the criteria contained in these rules it is considered to be capable of accepting fluids.
50. **Modify.** To alter the construction of an injection well, but does not include cleaning or redrilling operations which neither deepen nor increase the dimensions of the well. (7-1-21)T

51. **Motor Vehicle Waste Disposal Wells.** Injection wells that receive or have received fluids from vehicle repair or maintenance activities, such as an auto body repair shop, automotive repair shop, new and used car dealership, specialty repair shop (transmission and muffler repair shop), or any facility that does any vehicular repair work. (7-1-21)T

52. **New Injection Well.** An “injection well” which began to be used for injection after a UIC program for the State applicable to the well is approved or prescribed. (7-1-21)T

53. **Open-Loop Heat Pump Return Wells.** Injection wells that receive surface water or ground water that has been passed through a heat exchange system for cooling or heating purposes. (7-1-21)T

54. **Operate.** To allow fluids to enter an injection well by action or inaction of the operator. (7-1-21)T

55. **Operator.** Any individual, group of individuals, partnership, company, corporation, municipality, county, state agency, taxing district, federal agency or other entity that operates or proposes to operate any injection well. (7-1-21)T

56. **Owner.** Any individual, group of individuals, partnership, company, corporation, municipality, county, state agency, taxing district, federal agency or other entity owning land on which any injection well exists or is proposed to be constructed. (7-1-21)T

57. **Packer.** A device lowered into a well to produce a fluid-tight seal. (7-1-21)T

58. **Perched Aquifer.** Ground water separated from an underlying main body of ground water by an unsaturated zone. (7-1-21)T

59. **Permanent Decommission.** The discontinuance of use of an injection well in a method approved by the Director such that the injection well no longer has the capacity to inject fluids and the upward or downward migration of fluid is prevented. This also includes the disposal and proper management of any soil, gravel, sludge, liquids, or other materials removed from or adjacent to the injection well in accordance with all applicable Federal, State, and local regulations and requirements. (7-1-21)T

60. ** Permit.** An authorization, license, or equivalent control document issued by the Department. (7-1-21)T

61. **Person.** Any individual, association, partnership, firm, joint stock company, trust, political subdivision, public or private corporation, state or federal governmental department, agency or instrumentality, or any other legal entity which is recognized by law. (7-1-21)T

62. **Point of Beneficial Use.** The top or surface of a USDW, directly below an injection well, where water is available for a beneficial use. (7-1-21)T

63. **Point of Diversion for Beneficial Use.** A location such as a producing well or spring where ground water is taken under control and diverted for a beneficial use. (7-1-21)T

64. **Point of Injection.** The last accessible sampling point prior to waste being released into the subsurface environment through an injection well. For example, the point of injection for a Class V septic system might be the distribution box. For a drywell, it is likely to be the well bore itself. (7-1-21)T

65. **Pressure.** The total load or force per unit area acting on a surface. (7-1-21)T

66. **Radioactive Material.** Any material, solid, liquid or gas which emits radiation spontaneously. Radioactive geologic materials occurring in their natural state are not included. (7-1-21)T
67. **Radioactive Waste.** Any fluid which contains radioactive material in concentrations which exceed those established for discharges to water in an unrestricted area by 10 CFR 20.1302.(b)(2)(i) and Table 2 in Appendix B of 10 CFR 20. (7-1-21)

69. **Remediation Project.** Use of an injection well for the removal, treatment or isolation of a contaminant from ground water through actions or the removal or treatment of a contaminant in ground water as approved by the Director. (7-1-21)

70. **Residential (Domestic) Activities.** Human activities that generate liquid or solid waste in any public, private, industrial, commercial, municipal, or other facility. (7-1-21)

71. **Sanitary Waste.** Any fluid generated through residential (domestic) activities, such as food preparation, cleaning and personal hygiene. This term does not include industrial, municipal, commercial, or other non-residential process fluids. (7-1-21)

72. **Schedule of Compliance.** A schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with the standards. (7-1-21)

73. **Septic System.** An injection well that is used to inject sanitary waste below the surface. A septic system is typically comprised of a septic tank and subsurface fluid distribution system or disposal system. (7-1-21)

74. **Shallow Injection Well.** An injection well which is less than or equal to eighteen (18) feet in vertical depth below land surface. (7-1-21)

75. **Site.** The land or water area where any “facility or activity” is physically located or conducted, including adjacent land used in connection with the facility or activity. (7-1-21)

76. **State.** The state of Idaho. (7-1-21)

77. **Stratum (plural strata).** A single sedimentary bed or layer, regardless of thickness, that consists of generally the same kind of rock material. (7-1-21)

78. **Subsidence.** The lowering of the natural land surface in response to: Earth movements; lowering of fluid pressure; removal of underlying supporting material by mining or solution of solids, either artificially or from natural causes; compaction due to wetting (Hydrocompaction); oxidation of organic matter in soils; or added load on the land surface. (7-1-21)

79. **Subsurface Fluid Distribution System.** An assemblage of perforated pipes, drain tiles, or other similar mechanisms intended to distribute fluids below the surface of the ground. (7-1-21)

80. **UIC.** The Underground Injection Control program under Part C of the Safe Drinking Water Act, including an “approved State program.” (7-1-21)

81. **Unauthorized Decommission.** The decommissioning of any injection well that has not received the approval of the Department prior to decommissioning, or was not decommissioned in a method approved by the Director. These wells may have to be properly decommissioned when discovered by the Director to ensure that the well prevents commingling of aquifers or is no longer capable of injection. (7-1-21)

82. **Underground Injection.** See “injection.” (7-1-21)

83. **Underground Source of Drinking Water (USDW).** An aquifer or its portion: (7-1-21)

a. Which:
i. Supplies any public water system; or (7-1-21)T
ii. Contains a sufficient quantity of ground water to supply a public water system; or (7-1-21)T
(1) Currently supplies drinking water for human consumption; or (7-1-21)T
(2) Contains fewer than ten thousand (10,000) mg/l total dissolved solids; and (7-1-21)T
b. Which is not an exempted aquifer. (7-1-21)T

84. Unreasonable Contamination. Endangerment of a USDW or the health of persons or other beneficial uses by injection. See “endangerment.” (7-1-21)T

85. Water Quality Standards. Refers to those standards found in Idaho Department of Environmental Quality Rules, IDAPA 58.01.02, “Water Quality Standards” and IDAPA 58.01.11, “Ground Water Quality Rule.” (7-1-21)T

86. Well. For the purposes of these rules, “well” means “injection well.” (7-1-21)T

015. VIOLATIONS, FORMAL NOTIFICATION AND ENFORCEMENT.

01. Violations. It shall be a violation of these rules for any owner or operator to: (7-1-21)T
a. Fail to comply with a permit or authorization, or terms or conditions thereof; (7-1-21)T
b. Fail to comply with applicable standards for water quality; (7-1-21)T
c. Fail to comply with any permit application notification or filing requirement; (7-1-21)T
d. Knowingly make any false statement, representation or certification in any application, report, document or record filed pursuant to these rules, or terms and conditions of an issued permit; (7-1-21)T
e. Falsify, tamper with or knowingly render inaccurate any monitoring device or method required to be maintained or utilized by the terms and conditions of an issued permit; (7-1-21)T
f. Fail to respond to any formal notification of a violation when a response is required; or (7-1-21)T
g. Decommission a well in an unauthorized manner. (7-1-21)T

02. Additional. It shall be a violation of these rules for any person to construct, operate, maintain, convert, plug, decommission or conduct any other activity in a manner which results or may result in the unauthorized injection of a hazardous waste or of a radioactive waste by an injection well. (7-1-21)T

03. Formal Notification. Formal notification of violations may be communicated to the owner or operator with a letter, a notice of violation, a compliance or enforcement order or other appropriate means. (7-1-21)T

04. Enforcement. Violation of any of the provisions of the Injection Well Act (Chapter 39, Title 42, Idaho Code) or of any rule, regulation, standard or criteria pertaining to the Injection Well Act may result in the Director initiating an enforcement action as provided under Chapters 17 and 39, Title 42, Idaho Code. (7-1-21)T

016. -- 019. (RESERVED)

020. HEARING BEFORE THE WATER RESOURCE BOARD.

01. General. All hearings before the IWRB will be conducted in accordance with Chapter 52, Title 67,
Idaho Code, at a place convenient to the owner and/or operator. For purposes of such hearings, the IWRB or its designated hearing officer shall have power to administer oaths, examine witnesses, and issue in the name of the said Board subpoenas requiring testimony of witnesses and the production of evidence relevant to any matter in the hearing. Judicial review of the final determination by the IWRB may be secured by the owner by filing a petition for review as prescribed by Chapter 52, Title 67, Idaho Code, in the District Court of the county where the injection well is situated or proposed to be located. The petition for review shall be served upon the Chairman of the IWRB and upon the Attorney General.

02. **Hearings on Conditional Permits, Disapproved Applications, or Petitions for Exemption.** Any owner or operator aggrieved by the approval or disapproval of an application, or by conditions imposed upon a permit, or any person aggrieved by the Director’s decision on a petition for exemption under Section 025 of these rules, shall be afforded an opportunity for a hearing before the IWRB or its designated hearing officer. Written notice of such grievance shall be transmitted to the Director within thirty (30) days after receipt of notice of such approval, disapproval or conditional approval. Such hearing shall be held for the purpose of determining whether the permit shall be issued, whether the conditions imposed in a permit are reasonable, whether a change in circumstances warrants a change in conditions imposed in a valid permit, or whether the Director’s decision on a petition for exemption should not be changed.

03. **Hearings on Permit Cancellations.** When the Director has reason to believe the operation of an injection well for which a permit has been issued is interfering with the right of the public to withdraw water for beneficial uses, or is causing unreasonable contamination of a drinking or other ground water source as provided for in Title 42, Chapter 39, Idaho Code, the permit may be canceled by the Director. Prior to the cancellation of such permit there shall be a hearing before the IWRB for the purpose of determining whether or not the permit should be canceled. At such hearing, the Director shall be the complaining party. At least thirty (30) days prior to the hearing, a notice, which shall be in accordance with Chapter 52, Title 67, Idaho Code, shall be sent by certified mail to the owner or operator whose permit is proposed to be canceled. The Board shall affirm, modify, or reject the Director’s decision and make its decision in the form of an order to the Director.

035. **CLASSIFICATION OF INJECTION WELLS.**

01. **Classification of Injection Wells.** For the purposes of these rules, injection wells are classified as follows:

   a. **Class I:**  
      i. Wells used by generators of hazardous waste or owners or operators of hazardous waste management facilities to inject hazardous waste beneath the lowermost formation containing, within one-quarter (1/4) mile of the well bore, an underground source of drinking water.
      (7-1-21)T

      ii. Other industrial and municipal disposal wells which inject fluids beneath the lowermost formation containing, within one-quarter (1/4) mile of the well bore, an underground source of drinking water.  
      (7-1-21)T

      iii. Radioactive waste disposal wells which inject fluids below the lowermost formation containing an underground source of drinking water within one-quarter (1/4) mile of the well bore.  
      (7-1-21)T

   b. **Class II.** Wells used to inject fluids:
      i. Which are brought to the surface in connection with natural gas storage operations, or conventional oil or natural gas production and may be commingled with waste waters from gas plants, dehydration stations, or compressor stations which are an integral part of production operations, unless those waters are classified as a hazardous waste at the time of injection.  
      (7-1-21)T

      ii. For enhanced recovery of oil or natural gas; and
      (7-1-21)T

      iii. For storage of hydrocarbons which are liquid at standard temperature and pressure.  
      (7-1-21)T
c. Class III. Wells used to inject fluids for extraction of minerals including:
   i. Mining of sulfur by the Frasch process; (7-1-21)
   ii. In situ production of uranium or other metals; this category includes only in-situ production from ore bodies which have not been conventionally mined. Solution mining of conventional mines such as stopes leaching is included in Class V. (7-1-21)
   iii. Solution mining of salts or potash. (7-1-21)

d. Class IV:
   i. Wells used by generators of hazardous waste or of radioactive waste, by owners or operators of hazardous waste management facilities, or by owners or operators of radioactive waste disposal sites to dispose of hazardous waste or radioactive waste into a formation which within one-quarter (1/4) mile of the well contains an underground source of drinking water. (7-1-21)
   ii. Wells used by generators of hazardous waste or of radioactive waste, by owners or operators of hazardous waste management facilities, or by owners or operators of radioactive waste disposal sites to dispose of hazardous waste or radioactive waste above a formation which within one-quarter (1/4) mile of the well contains an underground source of drinking water. (7-1-21)
   iii. Wells used by generators of hazardous waste or owners or operators of hazardous waste management facilities to dispose of hazardous waste, which cannot be classified under Subparagraphs 035.01.a.i. or 035.01.d.i. or 035.01.d.ii. of this rule (e.g., wells used to dispose of hazardous waste into or above a formation which contains an aquifer which has been exempted pursuant to Section 025 of these rules). (7-1-21)

e. Class V -- All injection wells not included in Classes I, II, III, IV, or VI. (7-1-21)
f. Class VI. (7-1-21)
   i. Wells that are not experimental in nature that are used for geologic sequestration of carbon dioxide beneath the lowermost formation containing a USDW; or (7-1-21)
   ii. Wells used for geologic sequestration of carbon dioxide that have been granted a waiver of the injection depth requirements pursuant to requirements at 40 CFR Section 146.95; or (7-1-21)
   iii. Wells used for geologic sequestration of carbon dioxide that have received an expansion to the areal extent of an existing Class II enhanced oil recovery or enhanced gas recovery aquifer exemption pursuant to Section 025 of these rules. (7-1-21)

02. **Subclassification.** Class V wells are subclassified as follows: (7-1-21)
   a. 5A5-Electric Power Generation. (7-1-21)
   b. 5A6-Geothermal Heat. (7-1-21)
   c. 5A7-Heat Pump Return. (7-1-21)
   d. 5A8-Aquaculture Return Flow. (7-1-21)

1 The construction and operation of wells in these subclasses is currently illegal in Idaho.

036. -- 039. (RESERVED)

040. AUTHORIZATIONS, PROHIBITIONS AND EXEMPTIONS.

01. Authorizations. Construction and use of Class V deep injection wells may be authorized by permit as approved by the Director in accordance with these rules. (7-1-21)T

02. Prohibitions. (7-1-21)T
a. These rules prohibit the permitting, construction, or use of any Class I, III, IV, or VI injection well.

b. No owner or operator shall construct, operate, maintain, convert, plug, abandon, or conduct any other injection activity in a manner that allows or causes the movement of fluid containing any contaminant into underground sources of drinking water, if the presence of that contaminant may cause a violation of any primary or secondary drinking water regulation, under IDAPA 58.01.11, “Ground Water Quality Rule,” Section 200 or may otherwise adversely affect the health of persons. The applicant for a permit shall have the burden of showing that the requirements of Paragraph 040.02.c. are met.

c. Notwithstanding any other provision of this section, the Director may take emergency action upon receipt of information that a contaminant which is present in or likely to enter a public water system or underground source of drinking water may present an imminent and substantial endangerment to the health of persons.

d. Construction of large capacity cesspools, motor vehicle waste disposal wells, radioactive waste disposal wells, and untreated sewage disposal wells is prohibited. Construction and use of other Class V shallow injection wells are authorized by these rules without permit provided that:

i. Required inventory information is submitted to the Director pursuant to Subsection 070.01 of this rule.

ii. Use of the shallow injection well shall not result in unreasonable contamination of a USDW or cause a violation of surface or ground water quality standards that would affect a beneficial use.

e. Class IV injection wells used to inject contaminated ground water that has been treated and is being reinjected into the same formation from which it was drawn are not prohibited by these rules if such injection is approved by EPA, or Idaho, pursuant to provisions for cleanup of releases under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. 9601–9657, or pursuant to requirements and provisions under the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6901 through 6987.

f. All large capacity cesspools must be properly decommissioned by January 1, 2005. A cease and desist order may be issued to the owner or the operator when a large capacity cesspool is found to be a threat to the ground water resources as described in Paragraph 070.01.c.

g. All motor vehicle waste disposal wells must be properly decommissioned by January 1, 2005. A cease and desist order may be issued to the owner or the operator when a motor vehicle waste disposal well is found to be a threat to the ground water resources as described in Paragraph 070.01.c.

h. The construction, operation or maintenance of any non-experimental Class V geologic sequestration well is prohibited.

i. Owners or operators of shallow injection wells are prohibited from injecting into the well upon failure to submit inventory information in a timely manner pursuant to Paragraph 070.01.a. of these rules.

03. Exemptions.

a. The UIC inventory and fee requirements of these rules do not apply to individual subsurface sewage disposal system wells. These systems are, however, subject to the permitting and fee requirements of IDAPA 58.01.03 “Individual/Subsurface Sewage Disposal Rules,” Title 39, Chapter 1 and Title 39, Chapter 36, Idaho Code.

b. State or local government entities are exempt from the permit requirements of these rules for wells associated with highway and street construction and maintenance projects, but shall submit shallow injection well inventory information for said wells and shall comply with all other requirements of these rules.
c. Mine tailings backfill (5X13) wells are authorized by rule as part of mining operations. They are therefore exempt from the ground water quality standards and permitting requirements of these rules provided that their use is limited to the injection of mine tailings only. The use of any 5X13 well(s) shall not result in water quality standards at points of diversion for beneficial use being exceeded or otherwise affect a beneficial use. Should water quality standards be exceeded or beneficial uses be affected, the Director may order the wells to be put under the permit requirements of these rules, or the wells may be required to be remediated or closed. As a condition of their use, the Director may require the construction and sampling of monitoring wells by the owner/operator. 5X13 wells are subject to the inventory requirements of Subsection 070.01.

041. -- 069. (RESERVED)

070. CLASS V: CRITERIA AND STANDARDS.

01. Class V Shallow Injection Well Requirements.

a. Authorization. As a condition of authorization, all owners or operators of shallow Class V injection wells, including improved sinkholes used for aquifer recharge, that dispose of nonhazardous and nonradioactive wastes are required to submit a Shallow Injection Well Inventory Form to the Department no later than thirty (30) days prior to commencement of construction for each new well or no later than thirty (30) days after the discovery of an existing injection well that has not previously been inventoried with the Department. Forms are available from any Department office or at the Department website at http://www.idwr.idaho.gov. State or local government entities shall submit the following inventory information for wells associated with highway and street construction and maintenance projects.

i. Facility name and location; and

ii. County in which the injection well(s) is (are) located; and

iii. Ownership of the well(s); and

iv. Name, address and phone number of legal contact; and

v. Type or function of the well(s); and

vi. Number of wells of each type; and

vii. Operational status of the well(s).

b. Inventory Fees. For shallow injection wells constructed after July 1, 1997, the Shallow Injection Well Inventory Form shall be accompanied by a fee as specified in Section 42-3905, Idaho Code, payable to the Department of Water Resources. State or local government entities are exempt from Shallow Injection Well Inventory Form filing fees for wells associated with highway and street construction and maintenance, but shall comply with all other requirements of these rules.

c. Permit Requirements. If operation of a shallow Class V injection well is causing or may cause unreasonable contamination of a USDW, or cause a violation of the ground water quality standards at a place of beneficial use, the Director shall require immediate cessation of the injection activity. Where a Class V injection well is owned or operated by an entity other than a state or local entity involved in highway and street construction and maintenance, the Director may authorize continued operation of the well through a permit that specifies the terms and conditions of acceptable operation.

d. Permanent Decommission. Owners or operators of shallow injection wells shall notify the Director not less than thirty (30) days prior to permanent decommissioning of any shallow injection well. Permanent decommissioning shall be accomplished in accordance with procedures approved by the Director.

e. Inter-Agency Cooperation. The Department may seek the assistance of other government agencies, including cities and counties, health districts, highway districts, and other departments of state government to
inventory, monitor and inspect shallow injection wells, where local assistance is needed to prevent deterioration of ground water quality, and where injection well operation overlaps with water quality concerns of other agencies or local governing entities. Assistance is to be negotiated through a memorandum of understanding between the Department and the local entity, agency, or department, and is subject to the approval of the Director. (7-1-21)

02. Class V Deep Injection Well Requirements.

a. Application Requirements.

i. No person shall continue to maintain or use an unauthorized injection well after the effective date given in Section 42-3903, Idaho Code, unless a permit therefor has been issued by the Director. No injection well requiring a permit under Subsection 070.02 shall be constructed, modified or maintained after the effective date given in Section 42-3903, Idaho Code, unless a permit therefor has been issued by the Director. No injection well requiring a permit shall continue to be used after the expiration of the permit issued for such well unless another application for permit therefor has been received by the Director. All applications for permit shall be on forms furnished by the Director.

ii. Each application for permit to construct, modify or maintain an injection well, as required by these rules, shall be accompanied by a filing fee as specified in Section 42-3905, Idaho Code, payable to the Department of Water Resources. For the purposes of these rules, all wells or groups of wells associated with a “Remediation Project” may be administered as one (1) “well” at the discretion of the Director.

b. Application Information Required. An applicant shall submit the following information to the Director for all injection wells to be authorized by permit, unless the Director determines that it is not needed in whole or in part, and issues a written waiver to the applicant:

i. Facility name and location;

ii. Name, address and phone number of the well operator;

iii. Class, subclass and function of the injection well (see Section 035);

iv. Latitude/longitude or legal description of the well location to the nearest ten (10) acre tract;

v. Ownership of the well;

vi. County in which the injection well is located;

vii. Construction information for the well;

viii. Quantity and general character of the injected fluids;

ix. Status of the well;

x. A topographic map or aerial photograph extending one (1) mile beyond property boundaries, depicting:

(1) Location of the injection well and associated facilities described in the application;

(2) Locations of other injection wells;

(3) Approximate drainage area, if applicable;

(4) Hazardous waste facilities, if applicable;

(5) All wells used to withdraw drinking water;
(6) All other wells, springs and surface waters.

xi. Distance and direction to nearest domestic well;

xii. Depth to ground water; and

xiii. Alternative methods of waste disposal.

c. Additional Information. The Director may require the following additional information for Class V injection wells to assess potential effects of injection:

i. A topographic map showing locations of the following within a two (2) mile radius of the injection well:

(1) All wells producing water;

(2) All exploratory and test wells;

(3) All other injection wells;

(4) Surface waters (including man-made impoundments, canals and ditches);

(5) Mines and quarries;

(6) Residences;

(7) Roads;

(8) Bedrock outcrops; and

(9) Faults and fractures.

ii. Additional maps or aerial photographs of suitable scale to accurately depict the following:

(1) Location and surface elevation of the injection well described in this permit;

(2) Location and identification of all facilities within the property boundaries;

(3) Locations of all wells penetrating the proposed injection zone or within a one-quarter (1/4) mile radius of the injection well;

(4) Maps and cross sections depicting all underground sources of drinking water to include vertical and lateral limits within a one-quarter (1/4) mile radius of the injection well, their position relative to the injection zone and the direction of water movement: local geologic structures; regional geologic setting.

iii. A comprehensive report of the following information:

(1) A tabulation of all wells penetrating the proposed injection zone, listing owner, lease holder and operator; well identification (permit) number; size, weight, depth and cementing data for all strings of casing;

(2) Description of the quality and quantity of fluids to be injected;

(3) Geologic, hydrogeologic, and physical characteristics of the injection zone and confining beds;
(4) Engineering data for the proposed injection well;

(5) Proposed operating pressure;

(6) A detailed evaluation of alternative disposal practices;

(7) A plan of corrective action for wells penetrating the zone of injection, but not properly sealed or decommissioned; and

(8) Contingency plans to cope with all shut-ins or well failures to prevent the migration of unacceptable fluids into underground sources of drinking waters.

iv. Name, address and phone number of person(s) or firm(s) supplying the technical information and/or designing the injection well;

v. Proof that the applicant is financially responsible, through a performance bond or other appropriate means, to decommission the injection well in a manner approved by the Director.

d. Other Information. The Director may require of any applicant such additional information as may be necessary to demonstrate that the proposed or existing injection well will not endanger a USDW. The Director will not complete the processing of an application for which additional information has been requested until such time as the additional information is supplied. The Director may return any incomplete application and will not process such application until such time as the application is received in complete form.

03. Application Processing.

a. Draft Permit. After all application information is received and evaluated, the Director will prepare a draft permit or denial, which will include the application for permit, permit conditions or reasons for denial, and any compliance schedules or monitoring requirements. In preparing the draft permit or denial, the Director shall consider the following factors:

i. The availability of economic and practical alternative means of disposal;

ii. The application of best management practices to the facilities and/or area draining into the well;

iii. The availability of economical, practical means of treating or otherwise reducing the amount of contaminants in the injected fluids;

iv. The quality of the receiving ground water, its category, its present and future beneficial uses or interconnected surface water;

v. The location of the injection well with respect to drinking water supply wells; and

vi. Compliance with the IDAPA 58.01.11, “Ground Water Quality Rule.”

b. Public Notice. The Director will provide public notice of any draft permit to construct, maintain or modify a Class V injection well by means of a legal notice in a newspaper of general circulation in the county in which the well is located. The Director may give additional notice as necessary to adequately inform the interested public and governmental agencies. There shall be a period of at least thirty (30) days following publication for any interested person to submit written comments and to request a fact-finding hearing. The hearing will be held by the Director if deemed necessary.

c. Review by the Directors of Other State Agencies. The Directors of other state agencies, as determined by the Director, shall be provided the opportunity to review and comment on draft permits. Comments shall be submitted to the Director within thirty (30) days of the public or legal notice.
d. Open-Loop Heat Pump Return Wells (Subclass 5A7).

i. An open-loop heat pump return well greater than eighteen (18) feet in depth to be used solely for disposal of heat pump water at a rate not exceeding fifty (50) gpm does not require a draft permit and is not subject to a recurring permit cycle, however, registration of the well with the Department and submittal of a filing fee as specified in Section 42-3905, Idaho Code is required. The Director reserves the right to override the exemptions from the draft permit and permit cycle requirements.

ii. An open-loop heat pump return well greater than eighteen (18) feet in depth to be used solely for disposal of heat pump return water at a rate exceeding fifty (50) gpm is subject to the requirements of Subsections 070.02 and 070.03 of these rules.

e. Fact-Finding Hearings. At the Director’s discretion, or upon motion of any interested individual, the Director may elect to hold a fact-finding hearing. Said hearing will be held at a location in the geographical area of the injection well. Notice of said hearing will be provided at least thirty (30) days in advance of the hearing by regular mail to the applicant and to the person or persons requesting the hearing. Public notice of the fact-finding hearing will be made by means of press release to a newspaper of general circulation in the county of the application.

04. The Director’s Action On Draft Permits and Duration Of Approved Permits. The role of the Director is to determine whether or not the injection wells and their respective owners or operators are in compliance with the intent of these rules, thus protecting the ground waters of the state against unreasonable contamination or deterioration of quality and preserving them for diversion to beneficial uses.

a. Consideration. The Director will consider the following factors in taking final action on draft permits:

i. The likelihood and consequences of the injection well system failing;

ii. The long term effects of such disposal or storage;

iii. The recommendations and related justifications of the Directors of other state agencies and the public;

iv. The potential for violation of ground water quality standards at the point of injection or the point of beneficial use; and

v. Compliance with the Idaho Ground Water Quality Plan.

b. Issuance of Permit. After considering the draft permit for construction, modification, or maintenance, and all matters relating thereto, the Director shall issue a permit if the standards and criteria of Subsection 070.05 will be met and USDW’s will not otherwise be unreasonably affected. If the Director finds that the standards and criteria cannot be met or that ground water sources cannot otherwise be protected from unreasonable contamination at all times, the draft permit may be denied or a permit may be issued with conditions designed to protect ground water sources. The Director’s decision shall be in writing and a copy shall be mailed by regular mail to the applicant and to all persons who commented in writing on the draft permit or appeared at a hearing held to consider the draft permit.

c. Permit Conditions and Requirements. Any permit issued by the Director shall contain conditions to insure that ground water sources will be protected from waste, unreasonable contamination, or deterioration of ground water quality that could result in violations of the ground water quality standards. In addition to specific construction, operation, maintenance and monitoring requirements that the Director finds necessary, each permit shall be subject to the standard conditions and requirements of this rule.

d. Construction Requirements.
i. Well drillers or other persons involved with the construction of any injection well requiring a permit shall not commence construction on the facility until a certified copy of the approved permit is obtained from the Director. *(7-1-21)T*

ii. Deep injection wells shall be constructed by a licensed water well driller to conform with the current Minimum Well Construction Standards and the conditions of the permit, except that a driller’s license is not required for the construction of a driven mine shaft or a dug hole. *(7-1-21)T*

iii. Shallow injection wells authorized by permit shall be constructed in accordance with the conditions of the permit. Rule-authorized shallow injection wells shall be constructed as shown or described in the inventory submittal. *(7-1-21)T*

iv. Injection wells shall be constructed to prevent the entrance of any fluids other than specified in the permit. *(7-1-21)T*

v. Injection wells shall be constructed to prevent waste of artesian fluids or movement of fluids from one aquifer into another. *(7-1-21)T*

vi. When construction or modification of an injection well has been completed, the owner or operator shall inform the Director of completion on a form provided by the Department. *(7-1-21)T*

vii. A sampling port shall be provided if the injection well system is enclosed. *(7-1-21)T*

viii. All new injection wells constructed into alluvial formations shall have a minimum ten (10) foot separation from the bottom of the well and seasonal high ground water. *(7-1-21)T*

(1) Injection wells installed into fractured basalt are exempt from separation distances. *(7-1-21)T*

(2) The Director may reduce separation distance requirements if the quality of injected fluids are improved through additional treatment or BMPs. *(7-1-21)T*

(3) Heat pump return wells (sub-class 5A7) are exempt from the separation distance requirement of this section. *(7-1-21)T*

e. Operational Conditions. *(7-1-21)T*

i. The injection well shall not be used until the construction, operation and maintenance requirements of the permit are met and provisions are made for any required inspection, monitoring and record keeping. *(7-1-21)T*

ii. Injection of any contaminant at concentrations exceeding the standards set in Paragraph 070.05.e. into a present or future drinking or other ground water source that may cause a health hazard or adversely affect a designated and protected use is prohibited. *(7-1-21)T*

iii. The injection well owner or operator shall develop approved procedures to detect constructional or operational failure in a timely fashion, and shall have contingency plans to cope with the well failure. *(7-1-21)T*

iv. Authorized representatives of the Department shall be allowed to enter, inspect and/or sample: *(7-1-21)T*

(1) The injection well and related facilities; *(7-1-21)T*

(2) The owner or operator’s records of the injection operation; *(7-1-21)T*

(3) Monitoring instrumentation associated with the injection operation; and *(7-1-21)T*

(4) The injected fluids. *(7-1-21)T*
The injection facilities shall be operated and maintained to achieve compliance with all terms and conditions of this permit.

(1) Proper operation and maintenance includes effective performance, adequate funding, operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures;

(2) If compliance cannot be met, the owner shall take corrective action as determined by the Director or terminate injection.

vi. The owner shall mitigate any adverse effects resulting from non-compliance with the terms and conditions of the permit.

vii. If the injection well was constructed prior to issuance of the permit, the well shall be brought into compliance with the terms and conditions of the permit in accordance with the schedule of compliance issued by the Director.

viii. The permit shall not convey any property rights.

f. Conditions of Permanent Decommissioning.

i. Notice of intent to permanently decommission a well shall be submitted to the Director not less than thirty (30) days prior to commencement of the decommissioning activity.

ii. The method of permanent decommissioning for all injection wells shall be approved by the Director prior to commencement of the decommissioning activity.

iii. Notice of completion of permanent decommission shall be submitted to the Director within thirty (30) days of completion.

iv. All deep injection wells that are to be permanently decommissioned shall be plugged in accordance with current Well Construction Standards.

v. Following permanent cessation of use, or where an injection well is not completed, the Director shall be notified. Decommissioning procedures or other action, as prescribed by the Director, shall be conducted.

vi. The injection well owner or operator has the responsibility to insure that the injection operation is decommissioned as prescribed.

g. Duration of Approved Permits. The length of time that a permit may be in effect for Class V wells requiring permits shall not exceed ten (10) years.

05. Standards For The Quality of Injected Fluids and Criteria For Location and Use.

a. General. These standards, which are minimum standards that are to be adhered to for all deep injection wells and shallow injection wells requiring permits and rule-authorized wells not requiring permits, are based on the premise that if the injected fluids meet ground water quality standards for physical, chemical and radiological contaminants, and if ground water produced from adjacent points of diversion for beneficial use meets the water quality standards as defined in Section 010 of these rules, then that aquifer will be protected from unreasonable contamination and will be preserved for diversion to beneficial uses. The Director may, however, when it is deemed necessary, require specific injection wells to be constructed and operated in compliance with additional requirements, such as best management practices (BMPs), so as to protect the ground water resource from deterioration and preserve it for diversion to beneficial use.

b. Waivers. A waiver of one (1) or more standards may be granted by the Director if it can be demonstrated by the applicant that the contaminants in injected fluid will not endanger a ground water source for any
c. Standards for Quality of Fluids Injected into Class V Wells.  

i. Ground water quality standards for chemical and radiological contaminants in injected fluids. After the effective date of these standards, the following limits shall not be exceeded in injected fluids from a well when such fluids will or are likely to reach a USDW:

(1) Chemical contaminants. The concentration of each chemical contaminant in the injected fluids shall not exceed the ground water quality standard for that chemical contaminant, or the concentration of each contaminant in the receiving water, whichever requirement is less stringent; and

(2) Radiological contaminants. Radiological levels of the injected fluids shall not exceed those levels specified by the ground water quality standards.

ii. Restrictions on injection of fluids containing biological contaminants. The following restrictions apply to biological contaminants included in the ground water quality standard in injected fluids. Coliform bacteria: injected fluids containing coliform bacteria are subject to the following restrictions:

(1) Contamination of ground water produced at any existing point of diversion for beneficial use, or any point of diversion for beneficial use developed in the future, by injected fluids is prohibited; 

(2) The Director may require the use of best management practices (BMPs) to reduce the concentration of coliform bacteria in the injected fluids;

(3) The Director may require the use of water treatment technology, including ozonation and chlorination devices, sand filters, and settling pond specifications to reduce the concentration of coliform bacteria in injected fluids;

(4) Ground water produced from points of diversion for beneficial use adjacent to injection wells that dispose of fluids containing coliform bacteria in concentrations greater than the current ground water quality standard shall be subject to monitoring for bacteria by the owner/operator of the injection well. A waiver of the monitoring requirement may be granted by the Director when it can be demonstrated that injection will not result in unreasonable contamination of ground water produced from these adjacent points;

(5) Construction of new Subclass 5F1 injection wells, and other shallow and deep injection wells, as specified by the Director, that are likely to exceed the current ground water quality standard for coliform bacteria at the point of beneficial use is prohibited; and

(6) At no time shall any fluid containing or suspected of containing fecal contaminants of human origin be injected into any Class V injection well authorized under these rules.

iii. Physical, visual and olfactory characteristics. The following restrictions apply to physical, visual and olfactory characteristics of injected fluids. Temperature, color, odor, turbidity, conductivity and pH: the temperature, color, odor, conductivity, turbidity, pH or other characteristics of the injected fluid may not result in the receiving ground water becoming less suitable for diversion to beneficial uses, as determined by the Director.

iv. Contamination by an injection well of ground water produced at an existing point of diversion for beneficial use, or a point of diversion for beneficial use developed in the future, shall not exceed water quality standards defined in Section 010 of these rules.

d. Criteria for Location and Use of Class V Wells Requiring Permits.

i. A Class V well requiring a permit may be required to be located a minimum distance, as determined from Table 1, from any point of diversion for beneficial use that could be harmed by bacterial contaminants. This requirement is not applicable to injection wells injecting wastes of quality equal to or better than
adopted ground water quality standards in all respects. In addition, Class V wells may be required to be located at such a distance from a point of diversion for beneficial use as to minimize or prevent ground water contamination resulting from unauthorized or accidental injection, as determined by the Director.

ii. These location requirements in Table 1 may be waived, as per Paragraph 070.05.b., when the applicant can demonstrate that any springs or wells within the calculated perimeter of the generated perched water zone will not be contaminated by the applicant’s waste disposal or injection well. Monitoring by the applicant of the production wells or springs in question may be required to demonstrate that they are not being contaminated.

* Injection rates shall be based on the average volume of wastes injected by the well during the week of greatest injection in an average water year.

### e. Standards for the Quality of Fluids Injected by Subclass 5A7 Wells (Open-Loop Heat Pump Return).

i. The quality of fluids injected by a Subclass 5A7 injection well shall comply with ground water quality standards or shall be equal to the quality of the ground water source to the heat pump, whichever is less stringent.

ii. If the quality of the ground water source does not meet ground water quality standards, the injected fluids must be returned to the formation containing the ground water source.

iii. The temperature of the injected fluids shall not impair the designated beneficial uses of the receiving ground water.

iv. All Rule-authorized Injection Wells shall conform to the ground water quality standards at the point of injection and not cause any water quality standards to be violated at any point of beneficial use.

### 06. Monitoring, Record Keeping and Reporting Requirements.

The Director may require monitoring, record keeping and reporting by any owner or operator if the Director finds that the well may adversely affect a ground water source or is injecting a contaminant that could have an unacceptable effect upon the quality of the ground waters of the state.

a. Monitoring.

i. Any injection authorized by the Director shall be subject to monitoring and record keeping requirements as conditions of the permit. Such conditions may require the installation, use and maintenance of monitoring equipment or methods. The Director may require where appropriate, but is not limited to, the following:
(1) Monitoring of injection pressures and pressures in the annular space between casings;
(2) Flow rate and volumes;
(3) Analysis of quality of the injected fluids for contaminants that are subject to limitation or reduction under the conditions of the permit; or contaminants which the Director determines could have an unacceptable effect on the quality of the ground waters of the state, and which the Director has reason to believe are in the injected fluids;
(4) Monitoring of ground water through special monitoring wells or existing points of diversion for beneficial use in the zone of influence as determined by the Director;
(5) A demonstration of the integrity of the casing, tubing or seal of the injection well.

ii. The frequency of required monitoring shall be specified in the permit when issued, except that the Director at any time may, in writing, require additional monitoring and reporting.

iii. All monitoring tests and analysis required by permit conditions shall be performed in a state certified laboratory or other laboratory approved by the Director.

iv. Any field instrumentation used to gather data, when specified as a condition of the permit, shall be required by the Director to be tested and maintained in such a manner as to ensure the accuracy of the data.

v. All samples and measurements taken for the purpose of monitoring shall be representative of the monitoring activity and fluids injected.

b. Record Keeping. The permittee shall maintain records of all monitoring activities to include:

i. Date, time and exact place of sampling;

ii. Person or firm performing analysis;

iii. Date of analysis, analytical methods used and results of analysis;

iv. Calibration and maintenance of all monitoring instruments; and

v. All original tapes, strip charts or other data from continuous or automated monitoring instruments.

c. Reporting.

i. Monitoring results obtained by the permittee pursuant to the monitoring requirements prescribed by the Director shall be reported to the Director as required by permit conditions.

ii. The Director shall be notified in writing by the permittee within five (5) days after the discovery of violation of the terms and conditions of the permit. If the injection activity endangers human health or a public or domestic water supply, use of the injection well shall be immediately discontinued and the owner or operator shall immediately notify the Director. Notification shall contain the following information:

(1) A description of the violation and its cause;

(2) The duration of the violation, including dates and times; if not corrected or use of the well discontinued, the anticipated time of correction; and

**07. Permit Assignable.** Permits may be assignable to a new owner or operator of an injection well if the new owner or operator, within thirty (30) days of the change, notifies the Director of such change. The new owner or operator shall be responsible for complying with the terms and conditions of the permit from the time that such change takes place.

**071. -- 999.** (RESERVED)
000. LEGAL AUTHORITY (RULE 0). 
The Idaho Department of Water Resources, through authority granted by Section 42-4001 through Section 42-4015, Idaho Code, is the regulatory agency for the drilling, operation, maintenance, and abandonment of all geothermal wells in the state. The Department’s authority also includes regulatory jurisdiction over other related operations and environmental hazards pertaining to the exploration and development of geothermal resources. (7-1-21)T

001. TITLE AND SCOPE (RULE 1). 
The geothermal policy of the state of Idaho as stated in Section 42-4001, Idaho Code, is as follows: “It is the policy and purpose of this state to maximize the benefits to the entire state which may be derived from the utilization of our geothermal resources, while minimizing the detriments and costs of all kinds which could result from their utilization. This policy and purpose is embodied in this act which provides for the immediate regulation of geothermal resource exploration and development in the public interest.” (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10). 
For the purpose of these rules, the following definitions apply. (7-1-21)T

01. Applicant. Any person submitting an application to the Department of Water Resources for a permit for the construction and operation of any well or injection well. (7-1-21)T

02. Board. The Idaho Water Resource Board. (7-1-21)T

03. BOPE. An abbreviation for Blow Out Prevention Equipment which is designed to be attached to the casing in a geothermal well in order to prevent a blow out of the drilling mud. (7-1-21)T

04. Completion. A well is considered to be completed thirty (30) days after drilling operations have ceased unless a suspension of operation is approved by the Director, or thirty (30) days after it has commenced producing a geothermal resource, whichever occurs first, unless drilling operations are resumed before the end of the thirty (30) day period or at the end of the suspension. (7-1-21)T

05. Conductor Pipe. The first and largest diameter string of casing to be installed in the well. This casing extends from land surface to a depth great enough to keep surface waters from entering and loose earth from falling in the hole and to provide anchorage for blow out prevention equipment prior to setting surface casing. (7-1-21)T

06. Department. The Idaho Department of Water Resources. (7-1-21)T

07. Director. The Director of the Idaho Department of Water Resources. (7-1-21)T

08. Drilling Logs. The recorded description of the lithologic sequence encountered in drilling a well. (7-1-21)T

09. Drilling Operations. The actual drilling, redrilling, or recompletion of the well for production or injection including the running and cementing of casing and the installation of well head equipment. Drilling operations do not include perforating, logging, and related operations after the casing has been cemented. (7-1-21)T

10. Exploratory Well. A well drilled for the discovery and/or evaluation of geothermal resources either in an established geothermal field or in unexplored areas. Exploratory well does not include holes six (6) inches in diameter or less if they are used for gathering geotechnical data such as, but not limited to, heat flow, earth temperature, temperature gradient and/or seismic measurements, provided said holes are not greater than one thousand (1000) feet in depth below land surface and provided the material medium is not intended to be encountered. (7-1-21)T

11. Geothermal Area. The same general land area which in its subsurface is underlain or reasonably appears to be underlain by geothermal resources from or in a single reservoir, pool, or other source or interrelated sources, as such area or areas may be designated from time to time by the Director. (7-1-21)T

12. Geothermal Field. An area designated by the Director which contains a well or wells capable of commercial production of geothermal resources. (7-1-21)T
13. **Geothermal Resource.** The natural heat energy of the earth, the energy in whatever form which may be found in any position and at any depth below the surface of the earth, present in, resulting from, or created by, or which may be extracted from such natural heat and all minerals in solution or other products obtained from the material medium of any geothermal resource. Geothermal resources are found and hereby declared to be sui generis, being neither a mineral resource nor a water resource but they are also found and hereby declared closely related to and possibly affecting and affected by water and mineral resources in many instances. (7-1-21)T

14. **Injection Well.** Any special well, converted producing well, or reactivated or converted abandoned well employed for injecting material into a geothermal area or adjacent area to maintain pressures in a geothermal reservoir, pool, or other source, or to provide new material or to serve as a material medium therein, or for reinjecting any material medium or the residue thereof, or any by-product of geothermal resource exploration or development into the earth. (7-1-21)T

15. **Intermediate String or Casing.** The casing installed within the well to seal out brackish water, caving zones, etc., below the bottom of the surface casing. Such strings may either be lapped into the surface casing or extend to land surface. (7-1-21)T

16. **Material Medium.** Any substance including, but not limited to, naturally heated fluids, brines, associated gasses and steam in whatever form, found at any depth and in any position below the surface of the earth, which contains or transmits the natural heat energy of the earth, but excluding petroleum, oil, hydrocarbon gas, or other hydrocarbon substances. (7-1-21)T

17. **Notice of Intent or Notice.** A written statement to the Director that the applicant intends to do work. (7-1-21)T

18. **Observation Well.** A small diameter well drilled strictly for monitoring purposes. In no case shall an observation well be completed for production of geothermal resources or for use as an injection well. (7-1-21)T

19. **Operator.** Any person drilling, maintaining, operating, pumping, or in control of any well. The term operator also includes owner when any well is or has been or is about to be operated by or under the direction of the owner. (7-1-21)T

20. **Owner.** The owner of the geothermal lease or well and includes operator when any well is operated or has been operated or is about to be operated by any person other than the owner. (7-1-21)T

21. **Permit.** A permit issued pursuant to these rules for the construction and operation of any well or injection well. (7-1-21)T

22. **Person.** Any individual natural person, general or limited partnership, joint venture, association, cooperative organization, corporation, whether domestic or foreign, agency or subdivision of this or any other state or municipal or quasi-municipal entity whether or not it is incorporated. (7-1-21)T

23. **Production String.** The casing or tubing through which a geothermal resource is produced. This string extends from the producing zone to land surface. (7-1-21)T

24. **Production Well.** Any well which is commercially producing or is intended for commercial production of a geothermal resource. (7-1-21)T

25. **Surface Casing.** The first string of casing which is run after the conductor pipe to anchor blow out prevention equipment and to seal out all existing groundwater zones. (7-1-21)T

26. **Suspension of Operations.** The cessation of drilling, redrilling, or alteration of casing before the well is officially abandoned or completed. All suspensions must be authorized by the Director. (7-1-21)T

27. **Waste.** Any physical waste including, but not limited to:

a. Underground waste resulting from inefficient, excessive, or improper use, or dissipation of
geothermal energy, or of any geothermal resource pool, reservoir, or other source; or the locating, spacing, constructing, equipping, operating, or producing of any well in a manner which results, or tends to result in reducing the quantity of geothermal energy to be recovered from any geothermal area in the state; (7-1-21)T

b. The inefficient above-ground transporting and storage of geothermal energy; and the locating, spacing, equipping, operating, or producing of any well or injection well in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of geothermal energy; the escape into the open air from a well of steam or hot water in excess of what is reasonably necessary in the efficient development or production of a well. (7-1-21)T

28. Well. Any excavation or other alteration in the earth’s surface or crust by means of which the energy of any geothermal resource and/or its material medium is sought or obtained. (7-1-21)T

011. -- 024. (RESERVED)

025. DRILLING (RULE 25).

01. General. All wells shall be drilled in such a manner as to protect or minimize damage to the environment, waters usable for all beneficial purposes, geothermal resources, life, health, or property. (7-1-21)T

02. Permits and Notices. (7-1-21)T

a. Permit to Drill for Geothermal Resources. Any person, owner, or operator who proposes to construct a well for the production of or exploration for geothermal resources or to construct an injection well shall first apply to the Director for permit. Application for permit shall be on department form 4003-1. Any person, owner, or operator who proposes to construct a hole for the gathering of geotechnical data shall file a notice of intent with the Director twenty (20) days prior to construction. Written approval of the Director is required before construction may begin. The notice of intent shall show the hole location, proposed depth, hole size, construction methods, intended use and abandonment plan together with other information as required by the Director. (7-1-21)T

b. Permit to Deepen or Modify an Existing Well. If the owner or operator plans to deepen, redrill, plug, or perform any operation that will in any manner modify the well, an application shall be filed with the Director and written approval must be received prior to beginning work. Application for permit to alter a geothermal well shall be on department form 4003-2. (7-1-21)T

c. Application for Permit to Convert to Injection. If the owner or operator plans to convert an existing geothermal well into an injection well with no change of mechanical condition, an application for permit shall be filed with the Director and written approval must be received prior to beginning injection. Application for permit shall be made on department form 4003-3. (7-1-21)T

d. Amendment of Permit. No well may be owned or operated by any person whose name does not appear on the permit or permit application and no changes in departure from the procedures, location, data, or persons specified on the face of a permit shall be allowed until an amendment to such permit is approved by the Director. Application for amendment shall be made on department form 4003-1. (7-1-21)T

e. Notice to Other Agencies. Notice of applications, permits, orders, or other actions received or issued by the Director may be given to any other agency or entity which may have information, comments, or jurisdiction over the activity involved. The Director may enter into a memorandum of understanding with other agencies to eliminate duplication of applications or other efforts. (7-1-21)T

f. No filing fee shall be charged for filing a notice of intent to construct a hole for gathering geotechnical data, for abandonment, or for the drilling of an observation well. (7-1-21)T

g. No application shall be accepted and filed by the Director until such filing fee has been deposited with the Director. (7-1-21)T

03. Bonds. (7-1-21)T
The Director shall require as a condition of every permit every operator or owner who engages in the construction, alteration, testing, or operation of the well to file with the Director on a form prescribed by the Director a bond indemnifying the state of Idaho providing good and sufficient security conditioned upon the performance of the duties required by these regulations and the Geothermal Resource Act and the proper abandonment of any well covered by such permit. Such bond shall be in an amount which is not less than ten thousand dollars ($10,000) for each individual well.

Bonds remain in force for the life of the well or wells and may not be released until the well or wells are properly abandoned or another valid bond is substituted therefor. Any person who acquires the ownership or operation of any well or wells shall within five (5) days after acquisition file with the Director an indemnity bond in the sum of ten thousand dollars ($10,000) for each well acquired. The Director reserves the right to request additional bonding prior to abandonment if deemed necessary.

Any well drilled for the discovery and production of geothermal resources or as an injection well shall be located more than one hundred (100) feet from and within the outer boundary of the parcel of land on which the well is situated, or more than one hundred (100) feet from a public road, street, or highway dedicated prior to the commencement of drilling. This requirement may be modified or waived by the Director upon written request.

For several contiguous parcels of land in one or different ownerships that are operated as a single geothermal field, the term outer boundary line means the outer boundary line of the land included in the field. In determining the contiguity of any such parcels of land, no street, road, or alley lying within the lease or field shall be determined to interrupt such contiguity.

The Director shall approve the proposed well spacing programs or prescribe such modifications to the programs as he deems necessary for proper development giving consideration to such factors as, but not limited to, topographic characteristics of the area, hydrologic, geologic, and reservoir characteristics of the area, the number of wells that can be economically drilled to provide the necessary volume of geothermal resources for the intended use, minimizing well interference, unreasonable interference with multiple use of lands, and protection of the environment.

Directional Drilling. Where the surface of the parcel of land containing one acre or more is unavailable for drilling, the surface well location may be located upon property which may or may not be contiguous. Such surface well locations shall not be less than twenty-five (25) feet from the outer boundary of the parcel on which it is located, nor less than twenty-five (25) feet from an existing street or road. The production or injection interval of the well shall not be less than one hundred (100) feet from the outer boundary of the parcel into which it is drilled. Directional surveys must be filed with the Director for all wells directionally drilled.

General. All wells shall be cased in such a manner as to protect or minimize damage to the environment, usable ground waters, geothermal resources, life, health, and property. The permanent well head completion equipment shall be attached to the production casing or to the intermediate casing if production casing does not reach the surface. No permanent well head equipment may be attached to any conductor or surface casing alone. The specification for casing strength shall be determined by the Director on a well-to-well basis. All casing reaching the surface shall provide adequate anchorage for blow out prevention equipment, hole pressure control, and protection for natural resources. Sufficient casing shall be run to reach a depth below all known or reasonably estimated groundwater levels to prevent blow outs or uncontrolled flows. The following casing requirements are general but should be used as guidelines in submitting applications for permit to drill.
necessary by the Department. (7-1-21)

c. Surface Casing. The surface casing hole shall be logged with an induction electrical log or equivalent or gamma-neutron log before running casing. This requirement may be waived by the Director. Permission to waive this requirement must be granted by the Director in writing prior to running surface casing. This casing shall provide for control of formation fluids, protection of shallow usable groundwater, and for adequate anchorage for blow out prevention equipment. All surface casing shall be cemented solid to the surface. A twenty-four (24) hour cure period shall be allowed prior to drilling out the shoe of the surface casing unless additives sufficient, as determined by the Director, are used to obtain early strength. (7-1-21)

i. A minimum of two hundred (200) feet of surface casing shall be set in areas where pressures and formations are unknown. In no case may surface casing be set at a depth less than ten percent (10%) of the proposed total depth of the well. (7-1-21)

ii. In areas of known high formation pressure, surface casing shall be set at the depth determined by the Director after a study of geologic conditions in the area. (7-1-21)

iii. In areas where subsurface geological conditions are variable or unknown, surface casing shall be in accordance with specifications as outlined in a. above. The casing must be seated through a sufficient series of low permeability, competent lithologic units such as claystone, siltstone, basalt, etc., to insure a solid anchor for blow out prevention equipment and to protect usable groundwater from contamination. Additional casing may be required if the first string has not been cemented through a sufficient series of such beds, or a rapidly increasing thermal gradient or formation pressures are encountered. (7-1-21)

iv. The temperature of the return drilling mud shall be monitored continuously during the drilling of the surface casing hole. Either a continuous temperature-monitoring device shall be installed and maintained in a working condition or the temperature shall be read manually. In either case, the return temperature shall be entered into the log book for each thirty (30) feet of depth drilled. (7-1-21)

v. Blow out prevention equipment capable of shutting in the well during any operation shall be installed on the surface casing and maintained ready for use at all times. BOPE pressure tests shall be performed by the operator for department personnel on all exploratory wells prior to drilling out the shoe of the surface casing. The decision to perform BOPE pressure tests on other types of wells shall be made on a well-to-well basis by the Director. The Director must be notified five (5) days in advance of a scheduled pressure test. Permission to proceed with the test sooner may be given orally by the Director upon request by the operator. (7-1-21)

d. Intermediate Casing. Intermediate casing shall be required for protection against anomalous pressure zones, cave-ins, washouts, abnormal temperature zones, uncontrollable lost circulation zones or other drilling hazards. Intermediate casing strings when installed shall be cemented solidly to the surface or to the top of the casing. (7-1-21)

e. Production Casing. Production casing may be set above or through the producing or injection zone and cemented either below or just above the objective zones. Sufficient cement shall be used to exclude overlying formation fluids from the geothermal zone, to segregate zones, and to prevent movement of fluids behind the casing into possible fresh groundwater zones. Production casing shall either be cemented solid to the surface or lapped into the intermediate casing if run. If the production casing is lapped into an intermediate string, the casing overlap shall be at least fifty (50) feet, the lap shall be cemented solid, and the lap shall be pressure tested to insure its integrity. (7-1-21)

06. Electric Logging. All wells except observation wells shall be logged with an induction electrical log or equivalent or gamma-neutron log from the bottom of the hole to the bottom of the conductor pipe. This requirement may be modified or waived by the Director upon written request. (7-1-21)

026. -- 029. (RESERVED)

030. RECORDS (RULE 30).
01. General. The owner or operator of any well shall keep or cause to be kept a careful and accurate log, core record, temperature logs, and history of the drilling of the well. These records shall be kept in the nearest office of the owner or operator or at the well site and together with all other reports of the owner and operator regarding the well shall be subject to inspection by the Director during business hours. All records unless otherwise specified must be filed with the Director within thirty (30) days of completion of the well. (7-1-21)T

02. Records to Be Filed with the Director.

a. Drilling Logs and Core Record. The drilling log shall include the lithologic characteristics and depths of formations encountered, the depth and temperatures of water-bearing and steam-bearing strata, the temperatures, chemical compositions and other chemical and physical characteristics of fluids encountered from time to time so far as ascertained. The core record shall show the depth, lithologic character, and fluid content of cores obtained so far as determined. (7-1-21)T

b. Well History. The history shall describe in detail in chronological order on a daily basis all significant operations carried out and equipment used during all phases of drilling, testing, completion, and abandonment of any well. (7-1-21)T

c. Well Summary Report. The well summary report shall accompany the core record and well history reports. It is designed to show data pertinent to the condition of a well at the time of completion of work done. (7-1-21)T

d. Production Records. The owner or operator of any well producing geothermal resources shall file with the Director on or before the 20th day of each month for the preceding month a statement of production utilized in such a form as the Director may designate. Copies of monthly geothermal energy report forms are available from the Director; however, production data can be submitted on non-department forms such as computer print-outs if they have been approved by the Director. (7-1-21)T

e. Injection Records. The owner or operator of any well injecting geothermal fluids or waste water for any purpose shall file with the Director on or before the twentieth day of each month for the preceding month a report of the injection in such form as the Director may designate. Copies of monthly injection report forms are available from the Director. Injection data may be submitted on non-department forms if they have been approved by the Director. (7-1-21)T

f. Electric Logs and Directional Surveys, If Conducted. Electric logs and directional surveys shall be filed with the Director within sixty (60) days of completion, cessation of drilling operations, excluding any approved suspension of operations, or abandonment of any well. Like copies shall be filed upon recompletion of any well. Upon a showing of hardship, the Director may extend the time within which to comply for a period not to exceed six (6) additional months. (7-1-21)T

03. Confidential Status. Information on file with the Director is open to public inspection except any reports, logs, records, or histories derived from the drilling of a well and filed with the Director shall not be available for public inspection and shall be kept confidential by the Director for a period of one year from receipt provided, however, that the Director may use any such reports, logs, records, or histories in any action in any court to enforce the provisions of the Geothermal Act or any order or regulation adopted hereunder. (7-1-21)T

04. Inspection of Records. The records filed by an operator with the Director which relates to the data gathered from the drilling operation shall be open to inspection only to those authorized in writing by the operator and designated personnel. The records of any operator filed for a completed or producing well that has been transferred by sale, lease, or otherwise shall be available to the new owner or lessee for his inspection or copying and shall be available for inspection or copying by others upon written authorization of such new owner or lessee. (7-1-21)T

031. -- 034. (RESERVED)

035. BLOW OUT PREVENTION (RULE 35).

01. Unexplored Areas. (7-1-21)T
a. A department employee may be present at the well at any time during the initial phases of drilling until the surface casing has been cemented and the BOPE has been satisfactorily pressure tested. The Department employee may be present during any drilling operations at the well and if in his opinion conditions warrant he may order additional casing to be run.

b. A logging unit equipped to continuously record the following data shall be installed and operated continuously by a technician approved by the Director after drilling out the shoe of the conductor pipe until the well has been drilled to the total depth.

   i. Drilling mud temperature (in and out).
   ii. Drilling mud pit level.
   iii. Drilling mud pump volume.
   iv. Drilling mud weight.
   v. Drilling rate.
   vi. Hydrocarbon and hydrogen sulfide gas volume (with alarm).

c. An annular BOPE with a minimum working pressure of one thousand (1,000) PSI shall be installed on the surface casing. If unusual conditions are anticipated, a BOPE may be required on the conductor pipe.

d. If drilling mud temperature out reaches one hundred twenty-five (125) Degrees C (Celsius), drilling operations shall cease, drilling mud circulation will continue and the Director must be notified immediately. The operator must obtain the Director's approval of his proposed course of action prior to resuming drilling operations.

e. The above requirements for BOPE may be modified by the Director and any proposed modification by the applicant must be approved by the Director in writing.
provide the Director with such information he deems necessary for evaluation of the impact of such injection on the geothermal reservoir and other natural resources. Such information shall include existing reservoir conditions, method of injection, source of injection fluid, estimates of daily amount of material medium to be injected, zones or formations affected, and analysis of fluid to be injected and of the fluid from the intended zone of the injection. Such information shall be on department form 4003-3. (7-1-21)

02. Surveillance.

a. When an operator or owner proposes to drill or modify an injection well or convert a producing or idle well to an injection well, he shall be required to demonstrate to the Director by means of a test that the casing has complete integrity. This test shall be conducted in a method approved by the Director. (7-1-21)

b. To establish the integrity of the annular cement above the shoe of the casing, the owner or operator shall make sufficient surveys within thirty (30) days after injection is started into a well to prove that all the injected fluid is confined to the intended zone of injection. Thereafter, such surveys shall be made at least every two (2) years or more often if necessary. The Director shall be notified forty-eight (48) hours in advance of such surveys in order that a representative may be present if deemed necessary. If in the Director’s opinion such tests are not necessary, he may grant a waiver excepting the operator from such tests. (7-1-21)

c. After the well has been placed on injection, the injection well site will be visited periodically by Department personnel. The operator or owner will be notified of any necessary remedial work. Unless modified by the Director, this work must be performed within ninety (90) days or approval for the injection well issued by the Director will be rescinded. (7-1-21)

041. -- 044. (RESERVED)

045. ABANDONMENT (RULE 45).

01. Objectives. The objectives of abandonment are to block interzonal migration of fluids so as to:

   a. Prevent contamination of fresh water or other natural resources; (7-1-21)
   b. Prevent damage to geothermal reservoirs; (7-1-21)
   c. Prevent loss of reservoir energy; (7-1-21)
   d. Protect life, health, environment and property. (7-1-21)

02. General Requirements. The following are general requirements which are subject to review and modification for individual wells or field conditions.

   a. A notice of intent to abandon geothermal resource wells is required to be filed with the Director five (5) days prior to beginning abandonment procedures. A permit to abandon may be given orally by the Director provided the operator submits a written request for said abandonment on a form approved by the Director within twenty-four (24) hours of the oral request. (7-1-21)

   b. A history of geothermal resource wells shall be filed within sixty (60) days after completion of abandonment procedures.

   c. All wells abandoned shall be monumented and the description of the monument shall be included in the history of well report. Such monument shall consist of a four (4) inch diameter pipe ten (10) feet in length of which four (4) feet shall be above ground. The remainder shall be embedded in concrete. The name, number, and location of the well shall be shown on the monument. Alternate methods of monumentation may be approved by the Director where land surface use indicates the above described method is not satisfactory.

   d. Good quality heavy drilling fluid shall be used to replace any water in the hole and to fill all
portions of the hole not plugged with cement.

</table>
petition all reasons for requesting the hearing. The applicant may respond to the petition within ten (10) days of its service. However, failure of the applicant to respond shall not be prejudicial to his right to appear at the hearing and present such evidence as he deems proper, if the Director grants the petition for such hearing. The hearing shall be set by the Director at any location deemed appropriate. Notice of the time and location shall be served on the applicant and/or the petitioner by the Director at least twenty (20) days before said date by certified mail addressed to applicant’s address as stated in the application and to the petitioner at the address given in the petition. The hearing shall be conducted in the manner prescribed in the general rules and procedures of the Department. (7-1-21)T

056. -- 059.  (RESERVED)

060.  HEARINGS ON REFUSED, LIMITED, OR CONDITIONED PERMIT (RULE 60).
Any applicant who is granted a limited or conditioned permit, or who is denied a permit or any person aggrieved by a decision of the Director may seek a hearing on said action of the Director by serving on the Director written notice and request for a hearing before the Board within thirty (30) days of service of the Director’s decision. Said hearing will be set, conducted, and notice given as set forth in Rule 055 above. Any applicant may appeal the decision of the Board to the District Court within thirty (30) days of service of the decision. All hearings under this rule shall be conducted in the manner prescribed in the general rules and procedures of the Department. (7-1-21)T

061. -- 064.  (RESERVED)

065.  PENALTIES (RULE 65).

01.  Order by Director. If the Director finds that any person is constructing, operating, or maintaining any hole, well or injection well not in accordance with any applicable permit or in a fashion so as to involve an unreasonable risk of, or so as to cause, damage to life or property or subsurface, surface, or atmospheric resources, the Director may issue an order to such person to correct or to stop such practices as are found to be improper and to mitigate any injury of any sort caused by such practices. (7-1-21)T

02.  Enforcement by Director. The Director may enforce any provision of this act or any order or regulation issued or adopted pursuant thereto by an appropriate action in the District Court. The Director may bring action in the District Court to have enjoined any threatened noncompliance with any provision of this act or any order or regulation adopted pursuant thereto or any threatened harm to life, property, or surface, subsurface or atmospheric resources which would be caused by such noncompliance. (7-1-21)T

03.  Willful Violations or Failure to Comply. Any willful violations of or failure to comply with any provision of these rules, or if such order or regulation has been served on such person or is otherwise known to him, any valid order or regulation issued or adopted hereto shall be a misdemeanor punishable by fine of up to five thousand dollars ($5,000) for each offense or a sentence of up to six (6) months in a county jail or both; each day of a continuing violation shall be a separate offense under this subdivision. A responsible or principal executive officer or any corporate person may be liable under this subdivision if such corporate person is not in compliance with any provision of this act or with any valid order or regulation adopted pursuant hereto. (7-1-21)T

066. -- 069.  (RESERVED)

070.  FORMS (RULE 70).
Forms required by these rules. (7-1-21)T

01.  Samples of Forms. Samples of all forms required by these rules are available from the Department to interested parties upon request. (7-1-21)T

02.  Forms. The forms include the following: (7-1-21)T

a.  Form 4003-1, Application for Permit to Drill for Geothermal Resources; (7-1-21)T
b.  Form 4003-2, Application for Permit to Alter a Geothermal Well; (7-1-21)T
c.  Form 4003-3, Application for Permit to Convert a Well to a Geothermal Injection Well; (7-1-21)T
d. Form 4005, Geothermal Resources Surety Bond; (7-1-21)

e. Form 4007, Notice of Intent to Abandon a Well; (7-1-21)

f. Form 4009, Report of Abandonment of a Well; (7-1-21)

g. Form 4010-1, Monthly Injection Report for Geothermal Wells; and (7-1-21)

h. Form 4010-2, Monthly Energy Report for Geothermal Wells. (7-1-21)

(RESERVED)
000. **LEGAL AUTHORITY (RULE 0).**
These rules are adopted pursuant to Section 42-1714, Idaho Code.

001. **TITLE AND SCOPE (RULE 1).**

01. **Title.** These rules are titled IDAPA 37.03.05, “Mine Tailings Impoundment Structures Rules.”

02. **Scope.**

a. These rules and standards will only apply to structures upon which construction, lift construction, enlargement, or alteration is underway on or after July 1, 1978. Under no circumstances shall these rules be construed to deprive or limit the Director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the Director from any owner of a mine tailings impoundment structure for the proper administration of the law.

b. The design requirements listed are intended as a guide to establish acceptable standards of construction. They are not intended to restrict the application of other sound design principles by engineers. The Director will evaluate any deviation from the standards hereinafter stated as they pertain to the safety of any given mine tailings impoundment structure. Engineers are encouraged to submit new ideas which will advance the art and provide for the public safety.

002. -- 009. **(RESERVED)**

010. **DEFINITIONS (RULE 10).**
Unless the context otherwise requires, the following definitions govern these rules.

01. **Board.** The Idaho Water Resource Board.

02. **Director.** The Director of the Idaho Department of Water Resources.

03. **Department.** The Idaho Department of Water Resources.

04. **Mine Tailings Impoundment Structure.** Any artificial embankment which is or will be more than thirty (30) feet in height measured from the lowest elevation of the toe to the maximum crest elevation constructed for the purpose of storing mine tailings slurry.

05. **Mine Tailings Slurry.** All slurry wastes from a mineral processing or mining operation.

06. **Mine Tailings Storage Capacity.** The total storage volume of the impoundment when filled with tailings to the maximum approved design storage elevation.

07. **Borrowed Fill Embankment.** Any embankment constructed of borrowed earth materials and which is designed for construction by conventional earth moving equipment.

08. **Reservoir.** Any basin which contains or will contain the material impounded by the mine tailings impoundment structure.

09. **Owner.** Includes any of the following who own, control, operate, maintain, manage, or propose to construct a mine tailings impoundment structure or reservoir.

a. The state of Idaho and any of its departments, agencies, institutions and political subdivisions;

b. The United States of America and any of its departments, bureaus, agencies and institutions; provided that the United States of America are not required to pay any of the fees required by Section 42-1713, Idaho Code, and shall submit plans, drawings and specifications as required by Section 42-1721, Idaho Code, for information purposes only;

c. Every municipal or quasi-municipal corporation;
d. Every public utility; (7-1-21)T

e. Every person, firm, association, organization, partnership, business, trust, corporation or company; (7-1-21)T

f. The duly authorized agents, lessees, or trustees of any of the foregoing; (7-1-21)T

g. Receivers or trustees appointed by any court for any of the foregoing. (7-1-21)T

10. **Alterations, Repairs or Either of Them.** Only such alterations or repairs as may directly affect the safety of the mine tailings impoundment structure or reservoir, as determined by the Director. (7-1-21)T

11. **Enlargement.** Any change in or addition to an existing mine tailings impoundment structure or reservoir, which raises or may raise the storage capacity of the structure, as defined in Rule Subsection 010.06. (7-1-21)T

12. **Days Used in Establishing Deadlines.** Calendar days including Sundays and holidays. (7-1-21)T

13. **Certificate of Approval.** A certificate issued by the Director for the mine tailings impoundment structure listing restrictions imposed by the Director, and without which no new mine tailings impoundment structures shall be allowed to impound water or continue deposition of mine tailings slurry. The structure will be recertified every two (2) years, unless the Director determines that the structure is unsafe. (7-1-21)T

14. **Engineer.** A registered professional engineer, licensed as such by the state of Idaho. (7-1-21)T

011. -- 024. (RESERVED)  

025. **AUTHORITY OF REPRESENTATIVE (RULE 25).**  
When plans, drawings and specifications are filed by another person in behalf of an owner, written evidence of authority to represent the owners shall be filed with the plans, drawings and specifications. (7-1-21)T

026. -- 029. (RESERVED)

030. **FORMS (RULE 30).**  
Forms required by these rules. (7-1-21)T

01. **Samples of Forms.** Samples of all forms required by these rules are available from the Department to interested parties upon request. (7-1-21)T

02. **Form 1721.** Construction of a mine tailings impoundment structure requires the filing of Form 1721. (7-1-21)T

031. -- 034. (RESERVED)

035. **PLANS, DRAWINGS, AND SPECIFICATIONS (RULE 35).**  
The following provisions apply in submitting plans, drawings, and specifications. (7-1-21)T

01. **Submission of Plans, Drawings, and Specification.** Any owner who shall desire to construct, or enlarge, or alter or repair any mine tailings impoundment structure shall submit duplicate copies of plans, drawings, and specifications prepared by an engineer for the proposed work to the Director with required fees. An owner who desires to construct a continuously raised tailings impoundment structure shall submit duplicate copies of plans, drawings, and specifications prepared by an engineer, showing the stages of lift height, by periods of time, and ultimate design height. (7-1-21)T

02. **Application for and Receipt of Written Approval.** Construction of a new mine tailings
impoundment structure or enlargement, or non-emergency alteration or repairs on existing mine tailings
impoundment structures shall not be commenced until the owner has applied and obtained written approval of the
plans, drawings, and specifications covering the work. In emergency situations, the owner shall make the required
alterations or repairs necessary to relieve the emergency, and notify the Director. (7-1-21)

03. Preparation and Submission of Plans. Plans must be prepared on a good grade of tracing linen or
a good quality vellum or mylar. Transparent copies reproducible by standard duplicating processes, if accurate,
legible and permanent, will be accepted. Plans may initially be submitted in the form of nonreproducible paper prints.
After reviewing the plans, the Director will notify the owner of any required changes. (7-1-21)

04. Scale of Plans and Drawings. Plans and drawings shall be of sufficiently large scale with an
adequate number of views and proper dimensions, so that drawings may be readily interpreted and studied. (7-1-21)

05. Dimensions of Plans. All sheets for a set of plans shall have an outside dimension of twenty-four
by thirty-six (24 x 36) inches. A margin of two (2) inches on the left-hand end and a margin of one-half (1/2) inch on
the other three sides must be provided, making the available work space twenty-three (23) x thirty-three and one-half
(33 1/2) inches. (7-1-21)

06. Plans. The plans shall include the following:

a. A topographic map of the mine tailings impoundment structure site showing the location of the
proposed mine tailings impoundment structure by section, township and range, and location of spillway or diversion
structures, outlet works, and all borings, test pits, borrow pits; (7-1-21)

b. A profile along the mine tailings impoundment structure axis showing the locations, elevations, and
depths of borings or test pits, including logs of bore hole and/or test pits; (7-1-21)

c. A maximum cross-section of the mine tailings impoundment structure showing elevation and width
of crest, slopes of upstream and downstream faces, thickness of any proposed riprap, zoning of the earth embankment
(if any), location of cutoff and bonding trenches, elevations, size and type of decant systems, valves, operating
mechanism, and dimensions of all other essential structural elements such as cutoff walls, filters, embankment zones,
etc.; (7-1-21)

d. Detailed drawings describing the outlet system, i.e., decant line, barge pump system, siphon
system; (7-1-21)

e. If a spillway is used, a curve showing the discharge capacity in cubic feet per second of the
spillway vs. gage height of the storage pool level above the spillway crest up to the maximum high water level, and
the formula used in making such determinations; (7-1-21)

f. If a stream diversion is created, a tabulation of the discharge capacity in cubic feet per second of
any diversion works and of the diversion channel vs. flow depth through the diversion works or channel up to
maximum capacity of the system, and the formulas used in making such determinations; (7-1-21)

g. Where staged construction will take place and no spillway exists, a curve showing maximum safe
operating level for the tailings as a function of embankment height and the design criteria used to arrive at this;
(7-1-21)

h. Detailed plans, including cross-sections and profile, of the spillway or diversion works and any
associated channels; (7-1-21)

i. Plans for monitoring and/or recovering seepage from the reservoir in those instances where safety
of the impoundment may be affected; (7-1-21)

j. An operation plan; (7-1-21)

k. An emergency procedure plan for protection of life and property; (7-1-21)
l. An abandonment plan that assures the Director to his satisfaction that, upon completion of the mining operation, the site will be in a safe maintenance-free condition. (7-1-21)

07. Specifications. Specifications shall include provisions acceptable to the Director for adequate observation, inspection and control of the work by a registered professional engineer during the period of construction. (7-1-21)

08. Provision Included with Plans. The specifications shall provide that the plans and specifications may not be materially changed without prior written consent of the Director. (7-1-21)

09. Provisions Included with Specifications. The specifications shall provide that certain stages of construction shall not proceed without the approval of the Director. Those stages requiring approval are as follows: (7-1-21)

a. After clearing and excavation of foundation and prior to placing any fill material; (7-1-21)

b. After installation of the decant conduit and any proposed collars and before placing any backfill material around conduit; (7-1-21)

c. After construction is completed (first stage starter dike if staged construction) and before any water or mine tailings slurry is stored in the reservoir; (7-1-21)

d. Before each successive enlargement of the impoundment structure; (7-1-21)

e. After each stage of enlargement of the impoundment structure is completed and before storage is allowed to exceed the level approved for the previous approved stage; (7-1-21)

f. At such other times as determined necessary by the Director. The Director will, within seven (7) days after notification by the engineer, inspect and if satisfactory, approve the completed stage of construction. Owners are encouraged to give prior notice to the Department, so that the inspection can be scheduled to prevent delays. (7-1-21)

10. Inspections, Examinations, and Tests. All materials and workmanship may be subject to inspection, examination and test by the Director at any and all reasonable times during manufacture and/or construction and at any and all places where such manufacture and/or construction are carried on. (7-1-21)

11. Rejection of Defective Material. The Director shall have the right to require the owner or engineer to reject defective material and workmanship or require its correction. Rejected workmanship shall be corrected and rejected material shall be replaced with proper material. (7-1-21)

12. Suspension of Work. The Director may order the engineer to suspend any work that may be subject to damage by climatic conditions. (7-1-21)

13. Responsibility of Engineer. These provisions shall not relieve the engineer of his responsibility to assure that construction is accomplished in accordance to approved plans and specifications or to suspend work on his own motion. (7-1-21)

14. Detailing Provisions of Specifications. The specifications shall state in sufficient detail, all provisions necessary to ensure that construction is accomplished in an acceptable manner and provide needed control for construction to ensure that a safe structure is constructed. (7-1-21)

15. Required Information. The following information shall be submitted with the plans and specifications. (7-1-21)

16. Engineer's Report. An engineer's report giving details necessary for analysis of the structure and appurtenances. Included as a part of the report where applicable shall be the following: (7-1-21)
a. Formulas and assumptions used in designs;

b. Hydrologic data used in determining runoff from the drainage areas;

c. Engineering properties of each type of material to be used in the embankment and of the foundation areas;

d. Stability analysis, including an evaluation of overturning, sliding, upstream and downstream slopes and foundation stability;

e. Geologic description of reservoir area, including evaluation of landslide potential;

f. Chemical analysis of all materials composing the slurry;

g. Earthquake design loads must be evaluated at all sites located east of Range 22 E., Boise Meridian. This area corresponds to Seismic Zone 3 as designated by the Recommended Guidelines of the National Dam Safety Program. Earthquake analysis may be required at other impoundment structure sites if deemed necessary by the Director;

h. A seepage analysis of the embankment and reservoir bottom;

i. A hydraulic analysis of the outlet system and spillway, diversion work or diversion channel;

j. Engineering properties and the weathering characteristics of the proposed tailings to be stored in the impoundment;

k. Other information which would aid in evaluating the safety of the design.

17. Filing of Additional Information. The Director may require the filing of such additional information which in his opinion is necessary to assess safety or waive any requirement herein cited if in his opinion it is unnecessary.

036. -- 039. (RESERVED)

040. BONDING (RULE 40).

An active surety bond or other means of acceptable surety payable to the Director of the Department of Water Resources shall be on file with the Director throughout the active life of the tailings disposal site. The purpose of this bond is to provide a means by which the tailings impoundment can be placed in a safe maintenance-free condition if abandoned by the owner without conforming to an abandonment plan approved by the Director.

01. Filing of Bond. The bond shall be filed prior to any issuance by the Director of a certificate of approval for use of the mine tailings impoundment structure to impound mine tailings slurry and shall run for the two (2) year approval period covered on the certificate of approval.

02. Provisions of Bond. Bond provisions shall provide that the surety may be held liable for a period of up to five (5) years following notice of default on the bond.

03. Amount of Bond. The bond amount will be set by the Director and is subject to revision each time it is renewed. The owner must obtain approval for the amount of his surety bond prior to each renewal.

04. Cost Estimate Submitted by Engineer. In order to provide a basis for setting the bond amount, the engineer shall submit a cost estimate acceptable to the Director, together with conceptual details needed to arrive at the estimate, for abandonment of the facility at each proposed stage of its construction.

05. Current Costs for Abandonment. Bond amount will be based on current costs for abandonment.
of the facility based on the approved cost estimate for abandonment at the present construction condition or the next approved proposed stage, whichever represents the larger bond amount. (7-1-21)T

06. Determination of Bond Amount. If the final abandonment is determined to be the most costly condition, the owner may elect to use this as a basis for bonding throughout the life of the project. The Director may, however, revise the bonding amount to reflect updated costs when he feels it is necessary in order to maintain a realistic bond. (7-1-21)T

07. Filing Initial Bond. The initial bond shall be filed upon completion of the first stage of construction and before the required certificate of approval is issued to allow storage of mine tailings slurry in the impoundment. No certificate of approval shall be renewed prior to filing by the owner of a bond renewal in an amount approved by the Director. (7-1-21)T

08. Filing Copy of Performance Bond. Upon the filing of a copy of a performance bond with the Director, covering the terms and conditions of a state of Idaho mineral lease or an approved reclamation plan, in which these documents specify compliance with a plan of restoration of all mining operations, including the tailings impounding structure, the Director may determine the bond required of this section has been met, if the amount of the bond accurately reflects the cost associated with the abandonment plan provided by the owner. (7-1-21)T

045. MINE TAILINGS IMPOUNDMENT STRUCTURES DESIGN CRITERIA (RULE 45).

The following minimum design criteria shall be used for all mine tailings impoundment structures designed for installation in Idaho. These limitations are intended to serve as guidelines for a broad range of circumstances, and engineers should not consider them as a restriction to the use of other sound design criteria. Deviation from this established criteria will be considered by the Director in approving plans and specifications. (7-1-21)T

01. Embankment Slopes. (7-1-21)T

a. For construction of borrowed fill embankments, in the absence of a stability analysis, the slopes shall be:

<table>
<thead>
<tr>
<th>Upstream slope</th>
<th>2:1 or flatter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Downstream slope</td>
<td>2:1 or flatter</td>
</tr>
</tbody>
</table>

(7-1-21)T

b. Construction by the upstream method shall not be used in the area of the state east of Range 22 E., Boise Meridian, unless the engineer can provide evidence that the construction and operation of the tailings impoundment will achieve a relative density of sixty percent (60%) or greater in the embankment and tailings to prevent liquefaction during earthquake loading. (7-1-21)T

c. Safety factors for the embankment shall be at least one and five-tenths (1.5) for static loads and a minimum of one (1) for the static plus the appropriate earthquake load. (7-1-21)T

d. To insure sufficient permeability and stability of the embankment, designs will require utilizing materials other than the tailings, when the tailings materials:

i. Contain greater than seventy-five percent (75) passing the #200 standard U.S. sieve, or fifty percent (50%) passing the #325 standard U.S. sieve; (7-1-21)T

ii. Contain phosphate clays; (7-1-21)T

iii. The design calls for the water to be impounded against the embankment; (7-1-21)T

iv. Have other properties which makes them unsuitable for use as construction materials. (7-1-21)T
e. Embankments designed for the storage of hazardous levels of radioactive materials shall, in addition to any requirements of these regulations, meet the criteria outlined in the Nuclear Regulatory Commission Regulatory Guide 3.11 and the Idaho Radiation Control Regulations administered by the Idaho Department of Environmental Quality. (7-1-21)

f. The design shall consider the need for drains and/or operational procedures to promote consolidation and insure that a low phreatic surface is maintained within the embankment. Drainage pipe shall not be used beneath embankments where excessive or differential settlement may cause failure of the pipes and subsequent piping of the tailings or embankment. When the quality of the mine tailings slurry is such that it will adversely affect the quality of the existing groundwater, the design should be coordinated with the Department and the Department of Environmental Quality to insure that all applicable permits are obtained. (7-1-21)

g. Instrumentation of the embankment and/or foundation will be required to insure that the structure is functioning satisfactorily. Standpipe piezometers with an inside diameter greater than one-half (1/2) inch will not be acceptable for use in fine-grained or cohesive soils in order to minimize response time. (7-1-21)

h. Tailings impoundment structures which are constructed using the tailings shall not be constructed or raised during freezing weather to prevent frost lenses in the embankment. Sufficient freeboard must be provided during the summer construction season if the disposal operation is to continue during the winter. (7-1-21)

i. If tailings are to be discharged during times of freezing weather and the embankment is to be constructed using either the upstream or centerline method, the pond shall be of sufficient size to insure that any ice formed in the tailings pond area melts during the next warm season. (7-1-21)

02. Top Width Embankment.

a. In the absence of a stability analysis, the minimum top width for mine tailings impoundment structures shall be:

\[ W = 2 \left( H \text{ to } 1/2 \text{ power} \right) + 4, \text{ minimum} \]

\[ W = \text{Top width} \]

\[ H = \text{Embankment height} \] (7-1-21)

b. The minimum top width for any tailings embankment is ten (10) feet. (7-1-21)

03. Cutoff Trenches or Walls.

a. Cutoff trenches, if needed, shall be used to bond the fill through relatively pervious material to an impervious stratum or zone. The bond area shall extend up the abutments to the maximum high water or tailings impoundment elevation. Cutoff (keylock) trenches which are to be backfilled with compacted fill shall be wide enough to allow the free movement of excavation and compaction equipment. Side slopes shall be no steeper than 1:1 for depths up to twelve (12) feet, and no steeper than one and one-half (1 1/2) to one (1) for greater depths to provide for proper compaction. Flatter slopes may be required for safety and stability. (7-1-21)

b. Concrete cutoff walls may be used to bond fills to smooth rock surfaces in a similar manner as cutoff trenches and they shall be entrenched in the rock to a depth approximately one-half (1/2) the thickness of the cutoff wall. Concrete cutoff walls shall be doweled into the rock a minimum of twelve (12) inches with a maximum spacing of eighteen (18) inches for three-quarter (3/4) inch steel dowels. Concrete walls shall have a minimum projection of three (3) feet perpendicular to the rock surface and shall have a minimum thickness of twelve (12) inches. (7-1-21)

04. Borrowed Fill Embankment.

a. The approved earth materials (silt soils are seldom acceptable) shall be zoned as shown in the plans and placed in the embankment in continuous, approximately level layers. Compaction shall be based on ASTM D-698 for cohesive soils and a minimum compaction of ninety-five percent (95%) of the laboratory Standard Proctor dry density is required. Compaction of cohesionless soils shall insure a relative density of sixty percent (60%) or
greater. (7-1-21)T

b. An acceptable working range of moisture content for the fill material shall be established and maintained. (7-1-21)T
c. The material shall be compacted by means of a loaded sheepsfoot roller, vibratory roller, or other acceptable means, to the required density. (7-1-21)T
d. No rock shall be left in the fill material which has a maximum dimension exceeding the lift thickness. The fill material shall be free of brush and organic materials. (7-1-21)T
e. The fill shall be carried up simultaneously the full design width of the structure, and the top of the fill shall be kept substantially level at all times or slope slightly toward the reservoir. (7-1-21)T
f. No frozen or cloddy fill material shall be used, and no material shall be place upon frozen, muddy or unscarified surfaces. (7-1-21)T
g. All materials used in the embankment shall meet all the stability and seepage requirements as shown by a design analysis of the structure and shall be properly installed to meet these requirements. (7-1-21)T

05. Riprap. (7-1-21)T

a. All dams shall be protected from wave action. In cases where water is stored directly against the mine tailings impoundment structure or where wave action at maximum pool level during design inflow events would affect the integrity of the embankment, the Director may require use of riprap or other protective measures. (7-1-21)T
b. If riprap is used the design shall specify the rock size and extent of blanket required to prevent erosion. (7-1-21)T

06. Outlet Systems. (7-1-21)T

a. Reservoirs must safely handle the design inflow for all areas draining into the reservoir. This may be done either by storing the entire design inflow or by having an outlet system or combination of systems adequate to safely pass the design inflow. If the tailings reservoir is situated on a stream channel, an outlet system or an approved alternative system capable of meeting downstream flow requirements must be provided. (7-1-21)T
b. The minimum design inflow for all reservoirs shall be the flood with one percent (1%) probability of occurrence. The Director may require a greater design inflow be used in instances of high hazard, for larger mine tailings impoundment structures, or when the inflow is to be entirely stored in the reservoir during the flood period. (7-1-21)T
c. The outlet system may be composed of one (1) or a combination of the following: decant line, spillway, stream channel diversion to bypass the reservoir. The system will be determined by individual reservoir conditions. Unless removal of the mine tailings impoundment structure and reservoir is part of the abandonment plan, the outlet system shall be maintained in perpetuity, unless it is demonstrated that an outlet system is not needed. (7-1-21)T
d. Outlet systems will not be allowed if their use would release toxic, highly turbid, radioactive or otherwise hazardous flows from the reservoir. In these cases the design inflow must either be entirely stored or diverted around the reservoir. (7-1-21)T
e. All spillways shall be stabilized to discharge flow through the use of concrete, masonry, riprap or sod, if not constructed in resistant rock. (7-1-21)T
f. Wherever possible, the spillway shall be constructed independent of the impoundment structure. It shall lead the water far enough away from the mine tailings impoundment structure so as not to endanger the structure. (7-1-21)T
g. A diversion system must not subject the mine tailings impoundment structure to erosion during the design inflow event. All stream diversions shall conform to the minimum standards for stream channel alterations as written by this Department.

h. Decant conduits, if under the embankment, shall be laid on a firm, stable foundation and normally must not be placed on fill. They shall have a minimum inside diameter of twelve (12) inches and one (1) of the following provisions included in the design:

i. The owner shall have the conduit inspected by photographic or video tape equipment and a copy of the inspection provided to the Department, if a problem is suspected; or

ii. The conduit shall be completely plugged with concrete and/or suitable material, for that portion which extends through the embankment, if a nonrepairable problem occurs within the conduit. The conduit shall consist of material which has been shown to possess the qualities necessary to perform in the environment of the specific tailings impoundment. The design life of the conduit shall be greater than the life of the mine tailings impoundment structure. The portion of the conduit through the embankment shall be completely filled with concrete, or other suitable material, and the riser portion of the conduit capped, upon abandonment of the mine tailings impoundment structure.

i. All decant conduits, if under the embankment, shall have a seepage path through the impervious zone at least equivalent in length to the maximum head above the downstream end of the system. Only one third (1/3) the horizontal distance through the impervious zone will be utilized when calculating the length of the seepage path. Collars may be used to satisfy this requirement, but all collars shall extend a minimum of three (3) feet outside the conduit. Collars shall be spaced at intervals of at least seven (7) times their height and no collar may be closer to the outer surface of the impervious zone than the distance it extends out from the conduit.

j. More than two (2) decant conduits are not to be used, unless special conditions warrant.

07. Freeboard. A minimum freeboard of two (2) feet plus wave height (H) shall be provided on the crest of the mine tailings impoundment structure during passage of the design inflow.

\[ H = 1.95 \left( \frac{F}{2} \right)^{1/2} \]

\[ F = \text{Fetch in miles across water surface at a design maximum level.} \]

08. Records. All instrumentation shall be read and recorded on a regular basis, and all records must be available for inspection by Department personnel on request.

09. Inspection and Completion Reports.

a. It is the responsibility of the engineer to submit test reports along with periodic inspection and progress reports to the Director.

b. Upon completion of each approved stage of construction, a letter shall be sent to the Director, giving a short, narrative account covering all items of work. As-built plans shall be submitted to the Director if the completed project was substantially changed from the plans originally approved.

10. Abandonment. An abandonment plan which provides a stable, maintenance-free condition when the mine tailings impoundment is no longer being regularly maintained by the owner or the owner has ceased to use the site for disposal of mine tailings slurry, shall be submitted to the Director by the owner. The plan shall provide a safe condition by providing for removal of the tailings, or construction of a maintenance-free spillway or diversion works where needed to accommodate runoff. The plan shall include provisions to prevent water storage behind, and erosion of, the mine tailings impoundment structure and the impounded tailing. A conceptual plan which includes an engineering design report, detailed enough to provide the required cost estimate for bonding purposes, will be required prior to the approval of the proposed project. Detailed construction plans must be approved by the Director prior to implementation of any abandonment work. The Director shall notify the owner upon acceptance of completion of abandonment in accordance with the approved plan.
046. -- 049. (RESERVED)

050. DAMS STORING TAILING AND WATER (RULE 50).
Construction of dams intended to store water in excess of the water being decanted in the tailing placement operation shall also meet the requirements for water storage reservoirs specified in the Department’s Rules for the Safety of Dams. The Director may waive any or all of these requirements if, in the opinion of the Director, sound engineering design supplied by the owner indicates such requirements are not applicable. (7-1-21)

051. -- 054. (RESERVED)

055. PROVISIONS OF CHAPTER 17, TITLE 42, IDAHO CODE (RULE 55).
The provisions of Sections 42-1709 through 42-1721, Idaho Code, are a part of these rules. (7-1-21)

056. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules are adopted pursuant to Chapter 17, Section 42-1714, Idaho Code, and implement the provisions of Sections 42-1709 through 42-1721, Idaho Code.

001. TITLE AND SCOPE (RULE 1).

01. Title. These rules are titled IDAPA 37.03.06, “Safety of Dams Rules.”

02. Scope.

a. The requirements that follow are intended as a guide to establish acceptable standards for construction and to provide guidelines for safety evaluation of new or existing dams. The rules apply to all new dams, to existing dams to be enlarged, altered or repaired, and maintenance of certain existing dams, as specifically provided in the rules. The Director will evaluate any deviation from the standards hereinafter stated as they pertain to the safety of any given dam. The standards are not intended to restrict the application of other sound engineering design principles. Engineers are encouraged to submit new ideas which will advance the state of the art and provide for the public safety.

b. Under no circumstances shall these rules be construed to deprive or limit the Director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the Director from any owner of a dam for the proper administration of the law. State sovereignty as expressed in Policy 1A of the adopted State Water Plan for independent review and approval of dam construction, operation and maintenance will not be waived due to any overlapping jurisdiction from federal agencies.

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
Unless the context otherwise requires, the following definitions govern these rules.

01. Active Storage. The water volume in the reservoir stored for irrigation, water supply, power generation, flood control, or other purposes but does not include flood surcharge. Active storage is the total reservoir capacity in acre-feet, less the inactive and dead storage.

02. Alterations, Repairs or Either of Them. Only such alterations or repairs as may directly affect the safety of the dam or reservoir, as determined by the Director. Alterations, repairs does not include routine maintenance items. (See Rule Subsections 055.02.a. and 055.02.b.)

03. Appurtenant Structures. Ancillary features (e.g. outlets, tunnels, gates, valves, spillways, auxiliary barriers) used for operation of a dam, which are owned by the dam owner or the owner has responsible control.

04. Board. The Idaho Water Resource Board.

05. Certificate of Approval. A certificate issued by the Director for all dams listing restrictions imposed by the Director, and without which no new dams shall be allowed by the owner to impound water. A certificate of approval is also required for existing dams before impoundment of water is authorized.

06. Dam. Any artificial barrier together with appurtenant works, which is or will be ten (10) feet or more in height or has or will have an impounding capacity at maximum storage elevation of fifty (50) acre-feet or more. Height of a dam is defined as the vertical distance from the natural bed of the stream or watercourse at the downstream toe of the barrier, as determined by the Director, or from the lowest elevation of the outside limit of the barrier, if it is not across a stream channel or watercourse, to the maximum water storage elevation.

07. Small Dams. Artificial barriers twenty (20) feet or less in height that are capable of storing less than one hundred (100) acre-feet of water.

08. Intermediate Dams. Artificial barriers more than twenty (20) feet, but less than forty (40) feet in height, or are capable of storing one hundred (100) acre-feet or more, but less than four thousand (4,000) acre-feet of water.
09. **Large Dams.** Artificial barriers forty (40) feet or more in height or are capable of storing four thousand (4,000) acre-feet or more of water.

10. **Department Jurisdiction.** The following are not subject to department jurisdiction:
   a. Artificial barriers constructed in low risk areas as determined by the Director, which are six (6) feet or less in height, regardless of storage capacity.
   b. Artificial barriers constructed in low risk areas as determined by the Director, which impound ten (10) acre-feet or less at maximum water storage elevation, regardless of height.
   c. Artificial barriers in a canal used to raise or lower water therein or divert water therefrom.
   d. Fills or structures determined by the Director to be designed primarily for highway or railroad traffic.
   e. Fills, retaining dikes or structures, which are under jurisdiction of the Department of Environmental Quality, designed primarily for retention and treatment of municipal, livestock, or domestic wastes, or sediment and wastes from produce washing or food processing plants.
   f. Levees, that store water regardless of storage capacity. Levee means a retaining structure alongside a natural lake which has a length that is two hundred (200) times or more greater than its greatest height measured from the lowest elevation of the toe to the maximum crest elevation of the retaining structure.

11. **Days Used in Establishing Deadlines.** Calendar days including Sundays and holidays.

12. **Dead Storage.** The water volume in the bottom of the reservoir stored below the lowest outlet and generally is not withdrawn from storage.

13. **Department.** The Idaho Department of Water Resources.

14. **Design Evaluation.** The engineering analysis required to evaluate the performance of a dam relative to earthquakes, floods or other site specific conditions that are anticipated to affect the safety of a dam or operation of appurtenant facilities.

15. **Director.** The Director of the Idaho Department of Water Resources.

16. **Engineer.** A registered professional engineer, licensed as such by the state of Idaho.

17. **Enlargement.** Any change in or addition to an existing dam or reservoir, which raises or may raise the water storage elevation of the water impounded by the dam.

18. **Factor of Safety.** A ratio of available shear strength to shear stress, required for stability.

19. **Flood Surcharge.** A variable volume of water temporarily detained in the upper part of a reservoir, in the space (or part thereof) that is filled by excess runoff or flood water, above the maximum storage elevation. Flood surcharge cannot be retained either because of physical or administrative factors but is passed through the reservoir and discharged by the spillway(s) until the reservoir level has been drawn down to the maximum storage elevation.

20. **Inflow Design Flood (IDF).** The flood specified for designing the dam and appurtenant facilities.

21. **Maximum Credible Earthquake.** The largest earthquake that reasonably appears capable of occurring under the conditions of the presently known geological environment.
22. Operation Plan. A specific plan that will assure the project is safely managed for its intended purpose and which provides reservoir operating rule curves or specific limits and procedures for controlling inflow, storage, and/or release of water, diverted into, passed through or impounded by a dam. (7-1-21)

23. Owner. Includes any of the following who own, control, operate, maintain, manage, hold the right to store and use water from the reservoir or propose to construct a dam or reservoir. (7-1-21)
   a. The state of Idaho and any of its departments, agencies, institutions and political subdivisions; (7-1-21)
   b. The United States of America and any of its departments, bureaus, agencies and institutions; provided that the United States of America are not required to pay any of the fees required by Section 42-1713, Idaho Code, and shall submit plans, drawings and specifications as required by Section 42-1712, Idaho Code, for information purposes only; (7-1-21)
   c. Every municipal or quasi-municipal corporation. (7-1-21)
   d. Every public utility; (7-1-21)
   e. Every person, firm, association, organization, partnership, business trust, corporation or company; (7-1-21)
   f. The duly authorized agents, lessees, or trustees of any of the foregoing; (7-1-21)
   g. Receivers or trustees appointed by any court for any of the foregoing. (7-1-21)

24. Reservoir. Any basin which contains or will contain the water impounded by a dam. (7-1-21)

25. Storage Capacity. The total storage in acre-feet at the maximum storage elevation. (7-1-21)

26. Water Storage Elevation. The maximum elevation of the water surface which can be obtained by the dam or reservoir. It is further defined as the storage level attained when the reservoir is filled to capacity (i.e. to the spillway crest) or an authorized storage level attained by installing flashboards to increase the reservoir capacity, or a specified upper storage limit, which is attained by operation of movable gates that raises the reservoir to a controlled operating level. The maximum storage elevation is an equivalent term of water storage elevation. (7-1-21)

27. Release Capability. The ability of a dam to pass excess water through the spillway(s) and outlet works and otherwise discharge. (7-1-21)

011. -- 024. (RESERVED)

025. DAM SIZE CLASSIFICATION AND RISK CATEGORY (RULE 25).

01. Size Classification. The following table defines the height and storage capacity limits used by the Department to classify dams:

<table>
<thead>
<tr>
<th>Size Classification</th>
<th>Height (ft)</th>
<th>Storage Capacity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small</td>
<td>20 ft. or less</td>
<td>Less than 100 acre-ft.</td>
</tr>
<tr>
<td>Intermediate</td>
<td>More than 20 ft. but less than 40 ft.</td>
<td>100 Acre-ft or more, but less than 4000 acre ft</td>
</tr>
<tr>
<td>Large</td>
<td>40 ft. or more</td>
<td>4000 acre-ft., or more</td>
</tr>
</tbody>
</table>

(7-1-21)
02. Risk Category. The following table describes categories of risk used by the Department to classify losses and damages anticipated in down-stream areas, that could be attributable to failure of a dam during typical flow conditions.

<table>
<thead>
<tr>
<th>Risk Category</th>
<th>Dwellings</th>
<th>Economic Losses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low</td>
<td>No permanent structures for human habitation.</td>
<td>Minor damage to land, crops, agricultural, commercial or industrial facilities, transportation, utilities or other public facilities or values.</td>
</tr>
<tr>
<td>Significant</td>
<td>No concentrated urban development, 1 or more permanent structures for human habitation which are potentially inundated with flood water at a depth of 2 ft. or less or at a velocity of 2 ft. per second or less.</td>
<td>Significant damage to land, crops, agricultural, commercial or industrial facilities, loss of use and/or damage to transportation, utilities or other public facilities or values.</td>
</tr>
<tr>
<td>High</td>
<td>Urban development, or any permanent structure for human habitation which are potentially inundated with flood water at a depth of more than 2 ft. or at a velocity of more than 2 ft. per second.</td>
<td>Major damage to land, crops, agricultural, commercial or industrial facilities, loss of use and/or damage to transportation, utilities or other public facilities or values.</td>
</tr>
</tbody>
</table>

(7-1-21)T

03. Determination of Size and Risk Category. The Director shall determine the size and risk category of a new or existing dam.

(7-1-21)T

026. -- 029. (RESERVED)

030. AUTHORITY OF REPRESENTATIVE (RULE 30). When plans, drawings and specifications are filed by another person on behalf of an owner, written evidence of authority to represent the owner shall be filed with the plans, drawings and specifications.

(7-1-21)T

031. -- 034. (RESERVED)

035. FORMS (RULE 35). Forms required by these rules are available from the Department to interested parties upon request. Construction of a small dam requires the filing of Form 1710 and construction of an intermediate or large dam requires the filing of Form 1712.

(7-1-21)T

036. -- 039. (RESERVED)

040. CONSTRUCTION PLANS, DRAWINGS AND SPECIFICATIONS (RULE 40). The following provisions shall apply in submitting plans, drawings and specifications.

(7-1-21)T

01. Submission of Duplicate Plans, Drawings and Specifications. Any owner who shall desire to construct, enlarge, alter or repair any intermediate or large dam, shall submit duplicate plans, drawings and specifications prepared by an engineer for the proposed work to the Director with required fees. The Director may, however, require the submittal of plans, drawings and specifications prior to the construction of any dam.

(7-1-21)T

02. Applying for and Obtaining Written Approval. Construction of a new dam or enlargement, alteration or repairs on existing dams shall not be commenced until the owner has applied for and obtained written approval of the plans, drawings and specifications. Alteration or repairs do not include routine maintenance for which prior approval is not required. (See Rule Subsections 055.02.a and 055.02.b)

(7-1-21)T

03. Plans Shall Be Prepared on a Good Quality Vellum or Mylar. Transparent copies reproducible
by standard duplicating processes, if accurate, legible and permanent, will be accepted. Plans may initially be submitted in the form of nonreproducible paper prints. After reviewing the plans, the Director will notify the owner of any required changes.

04. **Preparation and Submission of Plans.** Plans and drawings shall be of a sufficient scale with an adequate number of views showing proper dimensions, so that the plans and drawings may be readily interpreted and so that the structure and appurtenances can be built in conformance with the plans and drawings.

05. **Information Included with Plans.** Plans for new dams shall include the following information and plans for enlargement, alteration or repair of an existing dam shall include as much of the following information as required by the Director to adequately describe the enlargement, alteration or repair and the affect on the existing dam or its appurtenant facilities:

   a. A topographic map of the dam site showing the location of the proposed dam by section, township and range, and location of spillway, outlet works, and all borings, test pits, borrow pits;

   b. A profile along the dam axis showing the locations, elevations, and depths of borings or test pits, including logs of bore holes and/or test pits;

   c. A maximum cross-section of the dam showing elevation and width of crest, slopes of upstream and downstream faces, thickness of riprap, zoning of earth embankment, location of cutoff and bonding trenches, elevations, size and type of outlet conduit, valves, operating mechanism and dimensions of all other essential structural elements such as cutoff walls, filters, embankment zones, etc.;

   d. Detailed drawings showing plans, cross and longitudinal sections of the outlet conduits, valves and controls for operating the same, and trash racks;

   e. A curve or table showing the capacity of the reservoir in acre-feet vs gauge height (referenced to a common project datum) of the reservoir storage level, and the computations used in making such determinations.

   f. A curve or table showing the outlet discharge capacity in cubic feet per second vs gauge height of reservoir storage level, and the equation used in making such determination;

   g. A curve showing the spillway discharge capacity in cubic feet per second vs gauge height of the reservoir or flood surcharge level above the spillway crest and the equation used in making such determinations;

   h. Detailed drawings of spillway structure(s), cross-sections of the channel heading to and from the spillway and a spillway profile;

   i. Plans for flow measuring devices capable of providing an accurate determination of the flow of the stream above and below the reservoir, and a permanent reservoir or staff gauge near the outlet of the reservoir plainly marked in feet and tenths of a foot referenced to a common project datum;

   j. Plans or drawings of instruments, recommended by the owner’s engineer to monitor performance of intermediate or large dams to assure safe operation, or as may be required by the Director to monitor any dam regardless of size, that is situated upstream of a high risk area.

06. **Specifications.** Specifications shall include provisions acceptable to the Director for adequate observation, inspection and control of the work by a registered professional engineer, during the period of construction.

07. **Changes to Specifications.** The specifications shall not be materially changed without prior written consent of the Director. Significant design changes, while construction is underway, shall be submitted for the Director’s review and approval.
08. **Inspections.** The owner shall provide for and allow inspections by the Department to assure the
dam and appurtenant structures are constructed in conformance with the approved plans and specifications, or as may
be revised by the engineer and approved by the Director if there are unforeseen conditions discovered during site
excavation or construction of the dam which potentially jeopardize the future integrity and safety of the dam. Certain
stages of construction shall not proceed without inspection and approval by the Director, including the following:

a. After clearing and excavation of the foundation area and cutoff trench and prior to placing any fill
material. (7-1-21)T

b. After installation of the outlet conduit and collars and before placing any backfill material around
the conduit; (7-1-21)T

c. After construction is completed and before any water is stored in the reservoir. (7-1-21)T

d. At such other times as determined necessary by the Director. The Director will, upon seven (7) days
notice, inspect and if satisfactory, approve the completed stage of construction. The Director may conduct inspections
upon shorter notice upon good reason being shown or upon a schedule jointly agreed upon by the Director and the
owner. (7-1-21)T

09. **Inspection, Examination and Testing of Materials.** All materials and workmanship shall be
subject to inspection, examination and testing by the Director at any and all times. (7-1-21)T

10. **Rejection of Defective Material.** The Director shall have the right to require the owner or engineer
to reject defective material and workmanship or require its removal or correction respectively. Rejected workmanship
shall be corrected and rejected material shall be replaced with proper material. (7-1-21)T

11. **Suspension of Work.** The Director may order the engineer to suspend any work that may be
subject to damage by inclement weather conditions. (7-1-21)T

12. **Responsibility of Engineer.** These provisions shall not relieve the engineer of his responsibility to
assure that construction is accomplished in accordance with the approved plans and specifications or to suspend work
on his own motion. (7-1-21)T

13. **Detailing Provisions of Specifications.** The specifications shall state in sufficient detail, all
provisions necessary to insure that construction is accomplished in an acceptable manner and provide needed control
of construction to insure that a safe structure is constructed. (7-1-21)T

14. **Design Report.** Owners proposing to construct, enlarge, alter or repair an intermediate or large
dam shall submit an engineering or design evaluation report with the plans and specifications. The engineering report
shall include as much of the following information as necessary to present the technical basis for the design and to
describe the analyses used to evaluate performance of the structure and appurtenances.

a. All technical reference(s); equations and assumptions used in the design; (7-1-21)T

b. Hydrologic data used in determining runoff from the drainage areas; reservoir flood routing(s); and
hydraulic evaluations of the outlet(s) and the spillway(s). (7-1-21)T

c. Engineering properties of the foundation area and of each type of material to be used in the
embankment. (7-1-21)T

d. A stability analysis, including an evaluation of overturning, sliding, slope and foundation stability
and a seepage analysis; (7-1-21)T

i. Seismic design loads shall be evaluated and applied at all large dams to be located in significant or
high risk areas, in Seismic Zone 3, which for purposes of these rules is the area in Idaho east of Range 22 East, Boise
Meridian. The evaluation required of large dams, that are classified significant or high risk, shall use the maximum
ground motion/acceleration generated by the maximum credible earthquake, which could affect the dam site.

ii. Seismic analysis may be required as determined by the Director for large dams located above high risk areas in Seismic Zone 2, which for purposes of these rules is the area in Idaho west of Range 22 East, Boise Meridian.

15. Additional Information/Waiver. The Director may require the filing of such additional information which in his opinion is necessary or waive any requirement herein cited if in his opinion it is unnecessary.

16. Alternate Plans. The Director may accept plans and specifications or portions thereof prepared for other agencies which are determined to meet the requirements of Rule 40.

041. -- 044. (RESERVED)

045. OPERATION PLAN (RULE 45).

An operation plan is required as described in the following rules and shall provide procedures for emergency operations and include guidelines and procedures for inspection, operation and maintenance of the dam and appurtenances, including any instruments required to monitor performance of the dam during normal operating cycles, critical filling or flood periods, or as may be required to monitor new or existing dams subject to earthquake effects.

01. New, Reconstructed or Enlarged Dams. Prior to the initial filling of the reservoir or refilling the reservoir for a reconstructed or enlarged dam in the following categories, the owner shall file with the Director an operation plan for review and approval:

a. Small, high risk.

b. Intermediate, significant risk.

c. Intermediate, high risk.

d. Large, any risk category.

02. Existing Dams. Unless exempted by the Director, owners of the following categories of dams shall file an operation plan with the Director on or before July 1, 1992 for review and approval:

a. Intermediate, high risk.

b. Large, significant risk.

c. Large, high risk.

03. Alternate Plans. The Director may accept existing studies or plans in lieu of an operation plan if the Director determines the information provided fulfills the requirements of Rule 45.

046. -- 049. (RESERVED)

050. NEW INTERMEDIATE OR LARGE DAMS (RULE 50).

The following minimum criteria shall be used to evaluate the design of intermediate or large earthfill dams in Idaho. These standards are intended to serve as guidelines for a broad range of circumstances, and engineers should not consider them as a restriction to the use of other sound engineering design principles. Exclusion from this established criteria will be considered by the Director on a case-by-case basis in approving plans and specifications and evaluating dams. Dams constructed of other materials shall comply with these criteria as found appropriate by the Director and with other engineering criteria approved by the Director.
01. Embankment Stability. Slope stability analyses shall determine the appropriate upstream and downstream slopes. Unless slope stability analysis determines otherwise, the embankment slopes shall be:

<table>
<thead>
<tr>
<th>Upstream slope</th>
<th>3:1 or flatter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Downstream slope</td>
<td>2:1 or flatter</td>
</tr>
</tbody>
</table>

(a) For large high and significant hazard dams and intermediate high hazard dams the embankment shall be designed, constructed and maintained to assure stability under static loads and prevent instability due to seepage or uplift forces, or drawdown conditions. Transmission of seepage through the embankment, abutments and foundation shall be controlled to prevent internal removal of material and instability where seepage erodes or emerges.

(b) The design analysis shall consider the need for installing filters, filter fabric and/or toe drains to stabilize the fill and protect against piping of the embankment fill material.

(c) The minimum factor of safety for a dam under steady state condition shall be 1.5. During rapid drawdown of the reservoir, the minimum factor of safety for the embankment shall be 1.2. For dams constructed in Seismic Zone 3, the minimum factor of safety under seismic load shall be 1.0.

(d) The stability of an embankment subjected to earthquake ground motions can be analyzed by dynamic response or pseudo-static analyses. Pseudo-static analyses are acceptable for embankment dams constructed of soils that will not build-up excess pore pressures due to shaking, nor sustain more than fifteen percent (15%) strength loss during earthquake events, otherwise the stability of an embankment dam shall be analyzed by a dynamic response method. A pseudo-static analysis simplifies the structural analysis (i.e. the resultant force of the seismic occurrence is represented by a static horizontal force applied to the critical section to derive the factor of safety against sliding along an assumed shear surface). The value of the horizontal force used in the pseudo-static analysis, is the product of the seismic coefficient and the weight of the assumed sliding mass.

(e) Slope deformation analyses are required for dams located in Seismic Zone 3, that are constructed of cohesionless soils and/or on foundations which are subject to liquefaction, when the peak acceleration at the site is anticipated to exceed 0.15g.

(f) The design analyses for new dams located in high risk areas (in Seismic Zone 2 or 3) shall include geologic and seismic reports, location of faults and history of seismicity.

(g) Where in the opinion of the Director, embankment design or conditions warrant, instrumentation of the embankment and/or foundation will be required.

(h) The design analyses for new large dams located in high risk areas (in Seismic Zone 3) shall include an evaluation of potential landslides in the vicinity of the dam or immediate area of the reservoir, which could cause damage to the dam or appurtenant structures, obstruct the spillway or suddenly displace water in the reservoir causing the dam to overtop. If potential landslides pose such a threat, they shall be stabilized against sliding, with a minimum factor of safety of 1.5.

02. Top Width. The crest width shall be sufficient to provide a safe percolation gradient through the embankment at the level of the maximum storage elevation. The minimum crest width (top of embankment) shall be determined by:

\[ W = \frac{H}{5} + 10 \]

W = Width, in feet
H = Structural Height, in feet

The minimum top width for any dam is twelve (12) feet.

03. Cutoff Trenches or Walls. Cutoff trenches shall be excavated through relatively pervious foundation material to an impervious stratum or zone. The trench shall be backfilled with suitable material,
compacted to the specified density. The cutoff trench shall extend up the abutments to the maximum storage elevation.

a. Cutoff trenches shall be wide enough to allow the free movement of excavation and compaction equipment. Side slopes shall be no steeper than one to one (1:1) for depths up to twelve (12) feet, and no steeper than one and one half to one (1 1/2:1) for greater depths to provide for proper compaction. Flatter slopes may be required for safety and stability.

b. Concrete cutoff walls may be used to bond fills to smooth rock surfaces in a similar manner as cutoff trenches and shall be entrenched in the rock to a depth approximately one-half the thickness of the cutoff wall. Concrete cutoff walls shall be dowled into the rock a minimum of eight (8) inches with a maximum spacing of eighteen (18) inches for three-fourths (3/4) inch steel dowsels. Concrete walls shall have a minimum projection of three (3) feet perpendicular to the rock surface and shall have a minimum thickness of twelve (12) inches.

04. Impervious Core Material. The approved earth materials (silt soils are seldom acceptable) shall be zoned as shown in the plans and placed in the embankment in continuous, approximately level layers, having a thickness of not more than six (6) inches before compaction. Compaction shall be based on ASTM D-698. A minimum compaction of ninety-five percent (95%) is required.

a. An acceptable working range of moisture content for the core material shall be established and maintained.

b. The material shall be compacted by means of a loaded sheepfoot or pneumatic roller to the required density.

c. No rock shall be left in the core material which has a maximum dimension of more than four (4) inches. The core material shall be free of organic and extraneous material.

d. The core material shall be carried up simultaneously the full width and length of the dam, and the top of the core material shall be kept substantially level at all times, or slope slightly toward the reservoir.

e. No frozen or cloddy material shall be used, and no material shall be placed upon frozen, muddy or unscarified surfaces.

f. All materials used in the dam shall meet the stability and seepage requirements as shown by a design analysis of the structure and shall be properly installed to meet these requirements.

05. Drains. Toe or chimney drains or free draining downstream material shall be installed where necessary to maintain the phreatic line within the downstream toe.

a. Filter design for chimney drains, filter blankets and toe drains in clay and silt soils shall be selected using the following design criteria, unless deviations are substantiated by laboratory tests. All tests are subject to review and approval by the Director.

\[
\begin{align*}
D_{15} \text{filter} &> 2 \text{ times diameter of pipe perforations, or } 1.2 \text{ times width of pipe slots.} \\
D_{15} \text{filter} &> 5 \text{ but } < 20 \\
D_{15} \text{filter} &< 5 \\
D_{50} \text{filter} &< 25 \\
D_{85} \text{filter} &> 2 \text{ times diameter of pipe perforations, or } 1.2 \text{ times width of pipe slots.} \\
\end{align*}
\]

b. Filter material requirements are determined by comparing the particle size distribution of the filter to the particle size distribution of the materials to be protected;

e.g. 
D_{50} \text{ filter material to be protected}
Where D is the particle size passing a mechanical (sieve) analysis expressed as a percentage by weight. (7-1-21)T

c. The base material should be analyzed considering the portion of the material passing the No. 4 sieve, for designing filters for base materials that contain gravel size particles. To assure internal stability and prevent segregation of the filter material, the coefficient of uniformity (D60/D10) shall not be greater than 20. (7-1-21)T

d. The minimum thickness of filter blankets and chimney drains shall be twelve (12) inches, with the maximum size particle passing the one (1) inch sieve. The maximum particle size may be increased with increasing thickness of the filter, by the rate of one (1) inch per foot of filter. However, the maximum particle shall not exceed three (3) inches. Zoned filters and chimney drains must not be less than twelve (12) inches thick per each zone. The width of granular filters shall not be less than the width of the installation equipment unless the plans and specifications include construction procedures adequate to insure the integrity of a narrower width. (7-1-21)T

e. Perforated drain pipes must have a minimum of six (6) inches of drain material around the pipe. The maximum particle size shall not exceed one-half (1/2) inch unless the layer thickness is increased at the rate of one (1) inch per foot of filter. Underdrains and collection pipes must be constructed of noncorrosive material. (7-1-21)T

06. Freeboard. The elevation of the top of the embankment shall be constructed and maintained above the flood surcharge level to prevent the dam from overtopping during passage of the inflow design flood and to provide freeboard for wind generated waves. Camber shall be included in the design and incorporated in the construction of the top of the embankment, unless waived by the Director. Camber may be estimated by multiplying the structural height of the dam by five percent (5%). (7-1-21)T

a. The height of wind generated waves (H) moving across a surcharged reservoir can be estimated by the following equation:

\[ H = 1.95 \left( \frac{F}{1} \right) \]  where F = fetch, the distance in miles across the reservoir, measured perpendicular to the major axis of the dam. (7-1-21)T

b. For large, high risk dams the minimum freeboard shall be two (2) feet plus wave height during passage of the one percent (1%) flood or equal to the surcharge elevation of the reservoir during passage of the inflow design flood whichever is greater. (7-1-21)T

c. Estimation of the height of the wind generated wave using the empirical equation in Rule 050.06.a. shall not preclude a more conservative design including consideration of fill materials, embankment zoning, slope surface protection, drainage or other safety factors. (7-1-21)T

07. Riprap. All dams which are subject to erosion shall be protected from wave action. The design engineer, with approval of the Director, shall determine whether or not rock riprap or other protection is necessary. (7-1-21)T

a. Where rock riprap is used, it shall be placed on a granular bedding material, and extend up the slope, from three (3) feet below the normal minimum operating level to the top of the dam. (7-1-21)T

b. Where riprap is required by Rule Subsection 055.07, pipes, cables, brush, tree growth, dead growth, logs, or floating debris are not acceptable substitutes for rock riprap and granular bedding material. (7-1-21)T

08. Outlet Conduits. All reservoirs shall be provided with an outlet conduit of sufficient capacity to prevent interference with natural streamflow through the reservoir to the injury of downstream appropriators unless waived by the Director. In addition to any natural flow releases, the outlet conduit should be of sufficient capacity to pass at the same time, the maximum water requirement of the owner. A larger outlet conduit may be required to provide adequate release capability as determined by the Director. (7-1-21)T

a. Outlet conduits shall be laid on a firm, stable foundation and normally not be placed on fills which can consolidate, allow differential settlement, and cause separation or misalignment of the pipe. Unless otherwise
required, the outlet shall have a minimum inside diameter of twelve (12) inches. The conduits shall be of reinforced concrete or of metal pipe encased in concrete, poured with a continuous seal between the concrete and the trench except as otherwise approved by the Director. Void spaces and uncompacted areas shall not be covered over when the outlet trench is backfilled. Outlets shall be properly aligned on an established grade and may be supported on a concrete cradle, or otherwise supported and kept aligned when the outlet is covered.

b. Asphalt dipped or other metal pipe is not acceptable unless it is encased in concrete. Exceptions may be made only where conditions warrant, but in no case shall the reasonable life expectancy of the pipe be less than the design life of the dam.

c. All outlet conduits shall have a seepage path through the impervious zone at least equivalent in length to the maximum head above the downstream end of the system. Only one-third (1/3) the horizontal distance through the impervious zone will be utilized when calculating the length of the seepage path. Collars may be used to satisfy this requirement but all collars shall extend a minimum of two (2) feet outside the conduit for dams up to thirty (30) feet in height and a minimum of three (3) feet for dams above that height. Collars shall be spaced at intervals of at least seven (7) times their height and no collar may be closer to the outer surface of the impervious zone than the distance it extends out from the conduit.

d. The use of multiple conduits is allowed only upon the written approval of the Director.

09. Gates. All conduits shall be gated on the upstream end, unless otherwise approved by the Director, with either a vertical or an inclined gate. All conduits shall be vented directly behind the gate unless otherwise determined by the Director. Reservoirs storing water during the winter and subject to severe ice conditions shall have inclined gate controls enclosed in a protective sleeve which is buried. All gate stem pedestals shall be made of concrete. All trash racks shall slope toward the reservoir. At least one (1) of the sides of the inlet structure shall be open to allow water to flow into the outlet conduit and shall be covered with a trash rack. Trash racks should be designed with bars primarily in one (1) direction so they can be cleaned. If fish screens are used, they shall be placed over the trash rack and shall be removable for cleaning, or of the self-cleaning type.

10. Outlet Controls. Outlet controls shall be installed at a stable location, on the crest or on an elevated platform, or within an enclosure when required, which is readily accessible, but secured to prevent unauthorized operation.

11. Release Capability. Based on the size of the dam and on the risk category assigned by the Director, the release capability of a dam shall equal or exceed the inflow design flood in the following table:

<table>
<thead>
<tr>
<th>Downstream Risk Category</th>
<th>Size Classification</th>
<th>Inflow Design Flood</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low</td>
<td>Small</td>

<td>Large</td>
<td>PMF</td>
</tr>
</tbody>
</table>

NOTE: The inflow design flood(s) indicated in the table include specific frequency floods (2%/50yr, 1%/100 yr.) expressed in terms of exceedance with a probability the flood will be equaled or exceeded in any given year (a fifty
(50) year flood has a two percent (2%) chance of occurring in any given year and a one hundred (100) year flood has a one percent (1%) chance of occurring in any given year); or PMF - probable maximum flood, which may be expected from the most severe combination of meteorologic and hydrologic conditions that are reasonably possible in the region. The PMF is derived from the probable maximum precipitation (PMP) which is the greatest theoretical depth of precipitation for a given duration that is physically possible over a particular drainage area at a certain time of year.

(a) All spillways shall be stabilized for the discharge of flow by the use of concrete, masonry, riprap or sod, if not constructed in resistant rock.

(b) Where site conditions allow, the spillway shall be constructed independent of embankment dams. The spillway(s) shall guide the discharge of water away from the dam embankment so as not to erode or endanger the structure.

(c) The minimum base width of an open-channel spillway shall be ten (10) feet. Conduits or siphon pipes other than glory hole spillways are not acceptable substitutes for an open-channel spillway.

(d) The effectiveness of spillways shall be undiminished by bridges, fences, pipelines or other structures.

(e) Unless expressly authorized in writing by the Director, or approved as an integral part of an operation plan, stop logs or flashboards shall not be installed in spillways.

12. Reservoir Site. The dam site shall be cleared of all trees, brush, large rocks, and debris unless otherwise waived by the Director. The reservoir site shall be cleared of all woody material, growth or debris that is large enough to lodge in the spillway, or outlet works, except as otherwise approved by the Director.

13. Inspection and Completion Reports. As construction proceeds, it is the responsibility of the engineer to submit test reports (e.g. soil material analyses, density tests, concrete strength tests) along with periodic inspection and progress reports to the Director.

(a) Upon completion of construction the owner or his engineer shall provide the Director a short, written narrative account of all items of work. Record drawings and revised specifications shall be submitted to the Director if the completed project has been substantially changed from the plans and construction specifications originally approved.

(b) The engineer representing the owner shall certify that construction, reconstruction, enlargement, replacement or repair of the dam and appurtenances was completed in accordance with the record drawings and specifications, or as revised.

051. -- 054. (RESERVED)

055. EXISTING INTERMEDIATE OR LARGE DAMS (RULE 55). All dams regulated by the department shall be operated and maintained to retain the embankment dimensions and the hydraulic capacity of the outlet works and spillway(s) as designed and constructed, or as otherwise required by these rules.

01. Analyses Required. The analyses required by Rule 40 are not applicable to existing dams except as required in Rule Subsections 055.01.a. and 055.01.e. unless for good cause, the Director specifically requires the analyses. Dams constructed of other than earth material shall comply with these criteria, as determined by the Director, or with other engineering criteria approved by the Director.

(a) For large, significant or high risk dams, the release capability required by Rule Subsection 050.11 shall be evaluated and applied to the structure. Dams of other size and risk are required to provide the release capability of Rule Subsection 050.11 but are not required to conduct the analyses.

(b) Every dam, unless exempted by the Director shall have a spillway with a capacity to pass a flood of
one percent (1%) (two percent (2%) for small low hazard dams) occurring with the reservoir full to the spillway crest at the beginning of the flood while maintaining the freeboard required by Rule Subsection 050.06.

**c.** The Director may waive the spillway requirement for dams proposing off stream storage or upon a showing acceptable to the Director.

**d.** The release capability can include the capacity of spillway(s) and outlet(s), diversion facilities, or other appurtenant structures, and any approved operating procedures which utilize upstream storage, diversion and flood routing storage to pass flood events. The remainder of the required release capacity, if any, may be met by the following:

**i.** Reconstruction, enlargement or addition of spillway(s), outlet(s), diversion facilities or other appurtenant structures.

**ii.** A showing acceptable to the Director that failure of the dam during a flood of the specified magnitude described in Rule Subsection 050.11 would not substantially increase downstream damages over and above the losses and damages that would result from any natural flood up to that magnitude.

**iii.** A showing acceptable to the Director that the release capability of the dam together with other emergency release modes such as a controlled failure or overtopping of the dam would not result in a larger rate of discharge than the rate of inflow to the reservoir.

**iv.** A showing acceptable to the Director that limiting physical factors unique to the dam site exist that prevent construction of a spillway or other release capability mechanisms during a flood of the specified magnitude described in Rule Subsection 050.11 provided the owner implements storage operational procedures and/or provides for emergency warning to protect life and property.

**e.** For large, high risk dams, the seismic design loads shall be evaluated and applied to dams located east of Range 22E, B.M. The evaluation shall use the maximum ground motion/acceleration generated by the maximum credible earthquake.

**f.** The Director may accept existing studies relative to requirements of Rule Subsections 055.01.a. and 055.01.e., if the Director determines the information provided fulfills the requirements of Rule Subsections 055.01.a. and 055.01.e.

**g.** The Director may allow until July 1, 1992 for completion of the analyses required in Rule Subsections 055.01.a. and 055.01.g. and may allow the owner of an existing dam a compliance period of up to ten years for completing the studies, to complete structural modifications or implement other improvements necessary to provide the release capability determined to be required (Rule Subsection 055.01.a.) or complete structural modifications necessary to assure the dam and appurtenant facilities will safely function under earthquake loads (Rule Subsection 055.01.g.).

**h.** Within thirty (30) days after completing the analyses required in Rule Subsection 055.01.a. or 055.01.g., the owner of an existing dam that is deficient in either case (Rule Subsection 055.01.a. or 055.01.g.) shall file with the Director a schedule outlining the dates work or construction items will be completed.

### 02. Other Requirements.

**a.** Routine maintenance items include the following:

**i.** Eradication of rodents and filling animal burrows.

**ii.** Removal of vegetation and debris from the dam.

**iii.** Restoring original dimensions of the dam by the addition of fill material.

**iv.** Addition of bedding or riprap material which will not increase the height or storage capacity.
v. Repair or replacement of gates, gate stems, seals, valves, lift mechanisms or vent pipes with similar equipment. (7-1-21)

vi. Repair or replacement of wingwalls, headwalls or aprons including spalling concrete. (7-1-21)

b. The following are not routine maintenance items:

i. Reconstruction of embankment slopes. (7-1-21)

ii. Replacement, reconstruction or extension of outlets. (7-1-21)

iii. Foundation stabilization. (7-1-21)

iv. Filter or drain construction or replacement. (7-1-21)

v. Spillway size alteration or modification. (7-1-21)

vi. Installation of instrumentation or piezometers. (7-1-21)

vii. Release capability modification. (7-1-21)

c. Items not specifically described in Rule Subsections 055.02.a. and 055.02.b. will be determined by the Director to be included in one rule or the other upon receipt of a written request from the owner or his representative seeking such a determination. (7-1-21)

d. Where riprap is required to prevent erosion and to maintain a stable embankment, pipes, cables, brush, tree growth, logs, or floating debris are not acceptable substitutes for rock riprap and granular bedding material. Dams or portions thereof which are stable without riprap, are not required to have riprap. (7-1-21)

e. Upon completion of reconstruction of a dam or feature of a dam included in Rule Subsection 055.02.b., the owner or his engineer shall provide the Director a short written narrative account of all items of work. Record drawings and revised specifications shall be submitted to the Director if the completed project has been substantially changed from the plans and construction specifications originally approved. (7-1-21)

f. Upon request, the owner of every dam shall provide his name and address to the Director and shall advise the Director of future changes in ownership. If the owner does not reside in Idaho, the owner shall provide the name and address of the person residing in Idaho who is responsible for the operation, maintenance and repair of the dam. (7-1-21)

056. -- 061. (RESERVED)

060. SMALL DAM DESIGN CRITERIA (RULE 60).

The following provisions apply to small dams. (7-1-21)

01. Design and Construction of Small Dams. Design and construction of small dams located in high risk areas as determined by the Director require submittal of fees, plans and specifications prepared by an engineer and shall follow the same general criteria established under Rules 40, 45, 50, and 55. Other small dams not determined to be in a high risk area shall follow the same general criteria established under Rules 50 and 55 or larger dams, except that submittal of plans, specifications and test results is not required. (7-1-21)

02. Notification Prior to Construction. The owner shall notify the Director in writing ten (10) calendar days prior to commencing construction. (7-1-21)

03. Approval Required. The owner shall not proceed with the following stages of construction without approval from the Director. (7-1-21)
a. After clearing and excavation of the foundation area and cutoff trench, and prior to placing any fill material; (7-1-21)T
b. After installation of the outlet conduit, and before placing any backfill material around the conduit; (7-1-21)T
c. After construction is completed, and before any water is stored in the reservoir; (7-1-21)T
d. At such other times as determined necessary by the Director. The Director, will, upon seven (7) day notice, inspect and, if satisfactory, approve the completed stage of construction. (7-1-21)T

04. Notification upon Completion of Construction. The owner shall in writing notify the Director upon completion of construction. (7-1-21)T

065. DAMS STORING TAILINGS AND WATER (RULE 65).

01. Construction of Dams Storing Fifty Acre-Feet or More. Construction of dams intended to store or likely to store fifty (50) acre-feet or more of water in excess of the water contained in the tailings material shall meet the requirements specified in Rules 40, 45, 50 and 55 of these rules. The Director may waive any or all of these requirements if, in the opinion of the Director, sound engineering design provided by the owner indicates such requirements are not applicable. (7-1-21)T

02. Abandonment Plan. An abandonment plan which provides a stable, maintenance-free condition at any time tailings are not being actively placed for an extended period of time, as determined by the Director, shall be submitted to the Director by the owner of a dam storing tailings and water. This rule may be waived by the Director if determined not to be applicable. (7-1-21)T

066. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
The purpose of these rules and minimum standards is to specify procedures for processing and considering applications for stream channel alterations under the provisions of Title 42, Chapter 38, Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 1).

01. Title. These rules are titled IDAPA 37.03.07, “Stream Channel Alteration Rules.” (7-1-21)

02. Scope. The minimum standards are intended to enable the Director to process, in a short period of time, those applications which are of a common type and which do not propose alterations which will be a hazard to the stream channel and its environment. It is intended that these rules and minimum standards be administered in a reasonable manner, giving due consideration, to all factors affecting the stream and adjacent property. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).

01. Alteration. To obstruct, diminish, destroy, alter, modify, relocate or change the natural existing shape of the channel or to change the direction of flow of water of any stream channel within or below the mean high water mark. It includes removal of material from the stream channel and emplacement of material or structures in or across the stream channel where the material or structure has the potential to affect flow in the channel as determined by the director. (7-1-21)

02. Applicant. Any individual, partnership, company, corporation, municipality, county, state or federal agency, their agent, or other entity proposing to alter a stream channel or actually engaged in constructing a channel alteration, whether authorized or not. (7-1-21)

03. Board. The Idaho Water Resource Board. (7-1-21)

04. Continuously Flowing Water. A sufficient flow of water that could provide for migration and movement of fish, and excludes those reaches of streams which, in their natural state, normally go dry at the location of the proposed alteration. IDWR will assume, subject to information to the contrary, that the USGS quadrangle maps accurately depict whether a stream reach is continuously flowing, at the location of the proposed alteration. Such exclusion does not apply to minor flood channels that are a part of a stream which is continuously flowing in the reach where the alteration is located. Also, such exclusion does not apply to streams which may be dry as a result of upstream diversion or storage of water. (7-1-21)

05. Department. The Idaho Department of Water Resources. (7-1-21)

06. Drop Structures, Sills and Barbs. Physical obstructions placed within a stream channel for the purpose of stabilizing the channel by decreasing stream gradient and velocity and by dissipating stream energy. (7-1-21)

07. Director. The Director of the Idaho Department of Water Resources. (7-1-21)

08. Mean High Water Mark. A water level corresponding to the “natural or ordinary high water mark” as defined in Section 58-104(9), Idaho Code, and is the line which the water impresses on the soil by covering it for sufficient periods of time to deprive the soil of its terrestrial vegetation and destroy its value for commonly accepted agricultural purposes. (7-1-21)

09. Non-Powered Sluice Equipment. Equipment which is powered only by human strength. (7-1-21)

10. Plans. Maps, sketches, engineering drawings, photos, work descriptions and specifications sufficient to describe the extent, nature, and location of the proposed stream channel alteration and the proposed method of accomplishing the alteration. (7-1-21)

11. Repair. Any work needed or accomplished, to protect, maintain, or restore any water diversion structure and the associated stream channel upstream and downstream as necessary for the efficient operation of the water diversion structure. (7-1-21)
12. **Stream Channel.** A natural water course of perceptible extent with definite beds and banks which confines and conducts continuously flowing water. The channel referred to is that which exists at the present time, regardless of where the channel may have been located at any time in the past. For the purposes of these rules only, the beds of lakes and reservoir pool areas are not considered to be stream channels. (7-1-21)T

13. **Base Flood Elevation.** The Base Flood (BF) is referred to as the one hundred (100) year flood and is a measure of flood magnitude based on probability. The base flood has a one percent chance of occurring or being exceeded in any given year, with the Base Flood Elevation (BFE) being the level of flooding reached during the BF or the one hundred (100) year flood event. (7-1-21)T

025. **EXEMPTIONS (RULE 25).**

01. **Work on Existing or Proposed Reservoir Projects.** Permits are not required under the provisions of Title 42, Chapter 38 for construction work on any existing or proposed reservoir project, including the dam, and such areas downstream as the Director may determine is reasonably necessary for construction and maintenance of the dam. (7-1-21)T

02. **Snake and Clearwater Rivers.** Permits are not required for work within that portion of the Snake and Clearwater rivers from the state boundary upstream to the upper boundary of the Port of Lewiston Port District as it now exists or may exist in the future. (7-1-21)T

03. **Cleaning, Maintenance, Construction or Repair Work.** No permit is required of a water user or his agent to clean, maintain, construct, or repair any diversion structure, canal, ditch, or lateral or to remove any obstruction from a stream channel which is interfering with the delivery of any water under a valid existing water right or water right permit. (7-1-21)T

04. **Removal of Debris.** No permit is required for removal of debris from a stream channel provided that no equipment will be working in the channel and all material removed will be disposed of at some point outside the channel where it cannot again reenter the channel. (7-1-21)T

030. **APPLICATIONS (RULE 30).**

01. **Joint Application Permit Form.** The Department of Water Resources, Department of Lands, and the U.S. Army Corps of Engineers have developed a joint application for permit form which will suffice for the required application under the Stream Protection Act. An application should be filed at least sixty (60) days before the applicant proposes to start the construction and shall be upon the joint application form furnished by the Department. The application shall be accompanied by plans which clearly describe the nature and purpose of the proposed work. (7-1-21)T

02. **Applicant Following Minimum Standards.** In those cases where the applicant intends to follow the minimum standards (Rule 055), detailed plans may be eliminated by referring to the specific minimum standard; however, drawings necessary to adequately define the extent, purpose, and location of the work will still be required. Plans shall include some reference to water surface elevations and stream boundaries to facilitate review. The application should show the mean high water mark on the plans; however, any water surface or water line reference available will be helpful as long as this reference is described. (Examples: present water surface, low water, high water.) (7-1-21)T

03. **Submission of Copies.** The applicant shall submit one (1) copy of all necessary plans along with the application form. When drawings submitted are larger than eight and one half by eleven (8 1/2 x 11), the applicant shall provide the number of copies specified by the department. (7-1-21)T

04. **Stream Channel Alteration Permit.** Any applicant proposing to operate a vacuum or suction dredge within or below the mean high water mark of a stream channel shall apply for and obtain a stream channel...
alteration permit. The vacuum or suction dredge shall only be operated in accordance with the conditions of the permit and with the applicable rules.

031. -- 034. (RESERVED)

035. APPLICATION REVIEW (RULE 35).

01. Prior to Issuance of Permit. The following items shall be among those considered by the Director prior to issuing a permit:

a. What is the purpose of doing the work?

b. What is the necessity and justification for the proposed alteration?

c. Is the proposal a reasonable means of accomplishing the purpose?

d. Will the alteration be a permanent solution?

e. Will the alteration pass anticipated water flows without creating harmful flooding or erosion problems upstream or downstream?

f. What effect will the alteration have on fish habitat?

g. Will the materials used or the removal of ground cover create turbidity or other water quality problems?

h. Will the alteration interfere with recreational use of the stream?

i. Will the alteration detract from the aesthetic beauty of the area?

j. What modification or alternative solutions are reasonably possible which would reduce the disturbance to the stream channel and its environment and/or better accomplish the desired goal of the proposed alteration?

k. Is the alteration to be accomplished in accordance with the adopted minimum standards?

l. Are there public safety factors to consider?

02. Proposed Alteration Which Does Not Follow Minimum Standards. In those cases where a proposed alteration does not follow the minimum standards, a copy of the application will be sent for review to those state agencies requesting notification. The Director shall provide for review by the Department of Lands, copies of applications on navigable rivers. The Director will provide a copy of any other application requested by the Department of Lands and may request review by other state agencies regardless of whether or not the proposed alteration will comply with the minimum standards.

036. -- 039. (RESERVED)

040. APPROVAL (RULE 40).

01. Conformance to Application. All work shall be done in accordance with the approved application, subject to any conditions specified by the department.

02. Permits Allowed Without Review. A permit may be approved by the Director of the Department of Water Resources without review by other agencies in situations where the work is of a nature not uncommon to the particular area and where it is clear that the work will not seriously degrade the stream values except on navigable rivers which require review by the Department of Lands. All work approved in this manner shall be accomplished in accordance with the minimum standards.
03. **Reinstatement of Expired Permit.** A permit which has expired may be reinstated by the Director after review by other agencies as determined by the Director. (7-1-21)

041. -- 044. (RESERVED)

045. **ENFORCEMENT OF ACT (RULE 45).**

01. **Written Orders Issued by Designated Employees of Department.** Employees of the Department designated by the Director may issue written orders directing an applicant to cease and desist, to ensure proper notice to applicants who are found to be altering a stream without a permit or not in compliance with the conditions of a permit. Such orders shall be in effect immediately upon issuance and will continue in force until a permit is issued or until the order is rescinded by the Director. (7-1-21)

02. **Failure to Comply with Stream Protection Act.** Failure to comply with any of the provisions of the Stream Protection Act (Chapter 38, Title 42, Idaho Code), may result in issuance of an Idaho uniform citation and/or the cancellation of any permit by the Director without further notice and the pursuit in a court of competent jurisdiction, such civil or criminal remedies as may be appropriate and provided by law. The Director may allow reasonable time for an applicant to complete stabilization and restoration work. (7-1-21)

046. -- 049. (RESERVED)

050. **EMERGENCY WAIVER (RULE 50).**

01. **Waiver of Provisions of Stream Protection Act.** Section 42-3808, Idaho Code, provides for waiver of the provisions of the Stream Protection Act in emergency situations where immediate action must be taken to protect life or property including growing crops. The Director will not consider failure to submit an application for a stream channel alteration far enough ahead of the desired starting time of the construction work as an emergency situation. (7-1-21)

02. **Verbal Waivers.** A verbal waiver may be granted initially; however, all verbal requests for waivers shall be followed up by the applicant in writing within fifteen (15) days of any initial authorization to do work. If the applicant is unable to contact the Director to obtain an emergency waiver, he may proceed with emergency work; however, he must contact the Director as soon as possible thereafter. Proving that a bonafide emergency did actually exist will be the responsibility of the applicant. (7-1-21)

03. **Emergency Waiver.** Work authorized by an emergency waiver shall be limited to only that which is necessary to safeguard life or property, including growing crops, during the period of emergency. (7-1-21)

04. **Conformance to Conditions of Waiver.** The applicant shall adhere to all conditions set by the Director as part of a waiver. (7-1-21)

05. **Waivers Granted by Designated Employees.** The Director may delegate the authority to grant waivers to designated employees of the Department. Names and telephone numbers of such employees will be made available to any interested applicant upon request. (7-1-21)

051. -- 054. (RESERVED)

055. **MINIMUM STANDARDS (RULE 55).** These standards are intended to cover the ordinary type of stream channel alteration and to prescribe minimum conditions for approval of such construction. Unless otherwise provided in a permit, these standards shall govern all stream channel alterations in this state. An applicant should not assume that because an application utilizes methods set forth in these standards it will automatically be approved. These minimum standards include the following items: (7-1-21)

01. **Construction Procedures.** (7-1-21)
02. Dumped Rock Riprap. (7-1-21)T
03. Drop Structures, Sills and Barbs. (7-1-21)T
04. Culverts and Bridges. (7-1-21)T
05. Removal of Sand and Gravel Deposits. (7-1-21)T
06. Suction Dredges and Non-Powered Sluice Equipment. (7-1-21)T
07. Piling. (7-1-21)T
08. Pipe Crossings. (7-1-21)T
09. Concrete Plank Boat Launch Ramps. (7-1-21)T

056. CONSTRUCTION PROCEDURES (RULE 56).

01. Conformance to Procedures. Construction shall be done in accordance with the following procedures unless specific approval of other procedures has been given by the Director. When an applicant desires to proceed in a manner different from the following, such procedures should be described on the application. (7-1-21)T

02. Operation of Construction Equipment. No construction equipment shall be operated below the existing water surface without specific approval from the Director except as follows: Fording the stream at one (1) location only will be permitted unless otherwise specified; however, vehicles and equipment will not be permitted to push or pull material along the streambed below the existing water level. Work below the water which is essential for preparation of culvert bedding or approved footing installations shall be permitted to the extent that it does not create unnecessary turbidity or stream channel disturbance. Frequent fording will not be permitted in areas where extensive turbidity will be created. (7-1-21)T

03. Temporary Structures. Any temporary crossings, bridge supports, cofferdams, or other structures that will be needed during the period of construction shall be designed to handle high flows that could be anticipated during the construction period. All structures shall be completely removed from the stream channel at the conclusion of construction and the area shall be restored to a natural appearance. (7-1-21)T

04. Minimizing Disturbance of Area. Care shall be taken to cause only the minimum necessary disturbance to the natural appearance of the area. Streambank vegetation shall be protected except where its removal is absolutely necessary for completion of the work adjacent to the stream channel. (7-1-21)T

05. Disposal of Removed Materials. Any vegetation, debris, or other material removed during construction shall be disposed of at some location out of the stream channel where it cannot reenter the channel during high stream flows. (7-1-21)T

06. New Cut of Fill Slopes. All new cut or fill slopes that will not be protected with some form of riprap shall be seeded with grass and planted with native vegetation to prevent erosion. (7-1-21)T

07. Fill Material. All fill material shall be placed and compacted in horizontal lifts. Areas to be filled shall be cleared of all vegetation, debris and other materials that would be objectionable in the fill. (7-1-21)T

08. Limitations on Construction Period. The Director may limit the period of construction as needed to minimize conflicts with fish migration and spawning, recreation use, and other uses. (7-1-21)T

057. DUMPED ROCK RIPRAP (RULE 57).

01. Placement of Riprap. Riprap shall be placed on a granular bedding material or a compact and stable embankment. (7-1-21)T

02. Sideslopes of Riprap. Sideslopes of riprap shall not be steeper than 2:1 (2’ horizontal to 1’
vertical) except at ends of culverts and at bridge approaches where a 1 1/2:1 sideslope is standard. (7-1-21)T

03. Minimum Thickness of Riprap. The minimum thickness of the riprap layer shall equal the
dimension of the largest size riprap rock used or be eighteen (18) inches, whichever is greater. When riprap will be
placed below high water level, the thickness of the layer shall be fifty percent (50%) greater than specified below.
(7-1-21)T

04. Riprap Protection. Riprap protection must extend at least one (1) foot above the anticipated high
water surface elevation in the stream. (7-1-21)T

05. Rock Used for Riprap. Rock for riprap shall consist of sound, dense, durable, angular rock
fragments, resistant to weathering and free from large quantities of soil, shale, and organic matter. The length of a
rock shall not be more than three (3) times its width or thickness. Rounded cobbles, boulders, and streambed gravels
are not acceptable as dumped riprap. (7-1-21)T

06. Size and Gradation of Riprap. Riprap size and gradation are commonly determined in terms of
the weight of riprap rock. The average size of riprap rock shall be at least as large as the maximum size rock that the
stream is capable of moving. The maximum size of riprap rock used shall be two (2) to five (5) times larger than the
average size. (7-1-21)T

07. Methods Used for Determining Gradation of Riprap. There are many methods used for
determining the gradation of riprap rock. One of these many acceptable methods is shown in Table 1 below the Far
West States (FWS) method shown in APPENDIX A - Table 1A at the end of this chapter.

</tbody>
</table>

08. Use of Filter Material. A blanket of granular filter material or filter fabric shall be placed between
the riprap layer and the bank in all cases where the bank is composed of erodible material that may be washed out
from between the riprap rock. Filter material shall consist of a layer of well-graded gravel and coarse sand at least six
(6) inches thick. (7-1-21)T

09. Toe Protection. Some suitable form of toe protection shall be provided for riprap located on
erodible streambed material.

a. Various acceptable methods of providing toe protection are shown in APPENDIX B at the end of
this chapter. (7-1-21)T

b. In addition to the approved methods of providing toe protection as shown in APPENDIX B at the end of this chapter, any other reasonable method will be considered by the Director during review of a proposed project. (7-1-21)T

10. Extension of Riprap Area. Riprap shall extend far enough upstream and downstream to reach stable areas, unless protected against undermining at ends by the method shown in APPENDIX C, Figure 3 at the end of this chapter. On extremely long riprap sections, it is recommended that similar cutoff sections be used at several intermediate points to reduce the hazard that would be created if failure of the riprap occurred at any one (1) location. (7-1-21)T

11. Finished Surface. Placement shall result in a smooth, even finished surface. Compaction is not necessary. (7-1-21)T

12. Placement of Riprap. The full course thickness of the riprap shall be placed in one (1) operation. Dumping riprap long distances down the bank or pushing it over the top of the bank with a dozer shall be avoided if possible. Material should be placed with a backhoe, loader, or dragline. Dumping material near its final position on the slope or dumping rock at the toe and bulldozing it up the slope is a very satisfactory method of placement, if approval is obtained for the use of equipment in the channel. (7-1-21)T

13. Design Procedure. Design procedure using the Far West States (FWS) method. (7-1-21)T

a. The FWS method uses a single equation to deal with variables for riprap. (7-1-21)T

\[ D_{75} = \frac{3.5}{C \cdot K \cdot W \cdot D \cdot S} \]

where: \( D_{75} \) = Size of the rock at seventy five percent (75%) is finer in gradation, in inches.

\begin{tabular}{|c|c|}
\hline
\text{W} & Specific weight of water, usually 62.4 lbs./cu.ft. \hline
\text{D} & Depth of flow in stream, in feet in flood stage \hline
\text{S} & Channel slope or gradient, in ft/ft. \hline
\text{C} & A coefficient relating to curvature in the stream \hline
\text{K} & A coefficient relating to steepness of bank slopes \hline
\end{tabular}

b. The coefficient, \( C \), is based on the ratio of the radius of curvature of the stream, (CR), to the water surface width, (WSW), so it is necessary for the user to make field determination of these values. The coefficient varies from 0.6 for a curve ratio of 4 to 6, up to 1.0 for a straight channel. If the computed ratio for a particular project is less than 4, the designer should consider some modification less than 4.

\begin{tabular}{|c|c|}
\hline
\text{CR/WSW} & \text{C} \hline
4 - 6 & 0.60 \hline
6 - 9 & 0.75 \hline
9 - 12 & 0.90 \hline
Straight Channel & 1.00 \hline
\end{tabular}

c. The coefficient, \( K \), ranges from 0.5 for a 1.5:1 sideslope to 0.87 for 3:1 sideslope. No values are
given for steeper or flatter slopes. Slopes steeper than 1.5:1 are not recommended. If slopes flatter than 3:1 are desired, it would be conservative to use the K-value for 3:1 slopes.

Table 1A in APPENDIX A, located at the end of this chapter.

**058. DROP STRUCTURES, SILLS AND BARBS (RULE 58).**

01. **Drop Structures.** A drop structure shall be constructed of rocks, boulders and/or logs placed within a stream channel to act as a low level dam. Placement of a drop structure perpendicular to stream flow will decrease the stream gradient, dissipate stream energy and decrease stream velocity through an increase in water surface elevation immediately above the structure. Drop structures shall comply with the following criteria:

   a. Maximum water surface differential across (upstream water surface elevation minus downstream water surface elevation) a drop structure shall not exceed two (2) feet. The department shall approve the final elevation of any structure.

   b. Rock drop structures shall be constructed of clean, sound, dense, durable, angular rock fragments, and/or boulders of size and gradation, such that the stream is incapable of moving the material during peak flows. Rocks shall be keyed into the stream banks to minimize the likelihood of bank erosion. (See Figure 8 in APPENDIX H located at the end of this chapter).

   c. Log drop structures are acceptable in four (4) designs including the single log dam, the stacked log dam, the three (3) log dam, and the pyramid log dam. Log ends shall be keyed into both banks at least one-third (1/3) of the channel width or a distance sufficient to prevent end erosion. To prevent undercutting, the bottom log shall be imbedded in the stream bed or hardware cloth, cobbles or boulders shall be placed along the upper edge. Minimum log size for a single log structure shall be determined by on-site conditions and shall be placed to maintain flow over the entire log to prevent decay. Each log drop structure must be accompanied by downstream scour protection, such as a rock apron. (See Figure 9 in APPENDIX I located at the end of this chapter).

   d. All drop structures shall be constructed to facilitate fish passage and centralized scour pool development.

02. **Sills.** A sill shall be constructed of the same material and in the same manner as a drop structure. The top of the sill may not exceed the elevation of the bottom of the channel. The purpose of a sill is to halt the upstream movement of a headcut, thus precluding the widening or deepening of the existing channel. (See Figure 10 in APPENDIX J located at the end of this chapter).

03. **Barb or Partial Drop Structure.** A barb or partial drop structure shall be constructed in the same manner and of the same material as a drop structure and placed into the stream channel to act as a low level dam and grade control structure. The barb will decrease stream gradient, dissipate stream energy and redirect stream flow.

   a. Barbs shall be constructed of clean, sound, dense, angular rock fragments, of size and gradation such that the stream is incapable of moving the material during peak flows.
b. Barbs shall be constructed with a downstream angle of no less than one hundred (100) degrees and no greater than one hundred thirty-five (135) degrees unless otherwise specified. (7-1-21)

c. Barbs shall “extend” into the channel a distance of not more than twenty percent (20%) of the width of the channel unless otherwise specified by the Director. (7-1-21)

d. Barbs shall be keyed into the bank a distance equal to or greater than the width of the structure and down to bed level. Whenever moisture is encountered in the construction of the keyways, willow cuttings or clumps shall be placed before and during rock placement in such a manner that the base of the cutting is in permanent moisture and the top extends a minimum of six (6) inches above grade (see Figure 11 in APPENDIX K located at the end of this chapter). (7-1-21)

059. CULVERTS AND BRIDGES (RULE 59).

01. Culverts and Bridges. Culverts and bridges shall be capable of carrying streamflows and shall not significantly alter conditions upstream or downstream by causing flooding, turbidity, or other problems. The appearance of such installations shall not detract from the natural surroundings of the area. (7-1-21)

02. Location of Culverts and Bridges. Culverts and bridges should be located so that a direct line of approach exists at both the entrance and exit. Abrupt bends at the entrance or exit shall not exist unless suitable erosion protection is provided. (7-1-21)

03. Ideal Gradient. The ideal gradient (bottom slope) is one which is steep enough to prevent silting but flat enough to prevent scouring due to high velocity flows. It is often advisable to make the gradient of a culvert coincide with the average streambed gradient. (7-1-21)

a. Where a culvert is installed on a slope steeper than twenty percent (20%), provisions to anchor the culvert in position will be required. Such provisions shall be included in the application and may involve the use of collars, headwall structures, etc. Smooth concrete pipe having no protruding bell joints or other irregularities shall have such anchoring provisions if the gradient exceeds ten percent (10%). (7-1-21)

04. Size of Culvert or Bridge Opening. The size of the culvert or bridge opening shall be such that it is capable of passing design flows without overtopping the streambank or causing flooding or other damage. (7-1-21)

a. Design flows shall be based upon the following minimum criteria:

<table>
<thead>
<tr>
<th>Drainage Area</th>
<th>Design Flow Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 50 sq. mi.</td>
<td>25 Years</td>
</tr>
<tr>
<td>Over 50 sq. mi. or more</td>
<td>50 years or greatest flow of record, whichever is more</td>
</tr>
</tbody>
</table>

(7-1-21)

b. For culverts and bridges located on U.S. Forest Service or other federal lands, the sizing should comply with the Forest Practices Act as adopted by the federal agencies or the Department of Lands. (7-1-21)

c. For culverts or bridges located in a community qualifying for the national flood issuance program, the minimum size culvert shall accommodate the one hundred (100) year design flow frequency. (7-1-21)

d. If the culvert or bridge design is impractical for the site, the crossing may be designed with additional flow capacity outside the actual crossing structure, provided there is no increase in the Base Flood Elevation. (NOTE: When flow data on a particular stream is unavailable, it is almost always safe to maintain the existing gradient and cross-section area present in the existing stream channel. Comparing the proposed crossing size with...
Section 059 Page 4955

others upstream or downstream is also a valuable means of obtaining information regarding the size needed for a proposed crossing.)

**e.** Minimum clearance shall be at least one (1) foot at all bridges. This may need to be increased substantially in the areas where ice passage or debris may be a problem. Minimum culvert sizes required for stream crossings:

**i.** Eighteen (18) inch diameter for culverts up to seventy (70) feet long;

**ii.** Twenty-four (24) inch diameter for all culverts over seventy (70) feet long.

**f.** In streams where fish passage is of concern as determined by the director, an applicant shall comply with the following provisions and/or other approved criteria to ensure that passage will not be prevented by a proposed crossing.

**g.** Minimum water depth shall be approximately eight (8) inches for salmon and steelhead and at least three (3) inches in all other cases.

**h.** Maximum flow velocities for streams shall not exceed those shown in Figure 17 in APPENDIX N, located at the end of this chapter, for more than a forty-eight (48) hour period. The curve used will depend on the type of fish to be passed.

**i.** Where it is not feasible to adjust the size or slope to obtain permissible velocities, the following precautions may be utilized to achieve the desired situation.

**j.** Baffles downstream or inside the culvert may be utilized to increase depth and reduce velocity. Design criteria may be obtained from the Idaho Fish and Game Department.

**k.** Where multiple openings for flow are provided, baffles or other measures used in one (1) opening only shall be adequate provided that the opening is designed to carry the main flow during low-flow periods.

**05. Construction of Crossings.** When crossings are constructed in erodible material, upstream and downstream ends shall be protected from erosive damage through the use of such methods as dumped rock riprap, headwall structures, etc., and such protection shall extend below the erodible streambed and into the banks at least two (2) feet unless some other provisions are made to prevent undermining.

**a.** Where fish passage must be provided, upstream drops at the entrance to a culvert will not be permitted and a maximum drop of one (1) foot will be permitted at the downstream end if an adequate jumping pool is maintained below the drop.

**b.** Downstream control structures such as are shown in Figure 18 in APPENDIX O, located at the end of this chapter, can be used to reduce downstream erosion and improve fish passage. They may be constructed with gabions, pilings and rock drop structures.

**06. Multiple Openings.** Where a multiple opening will consist of two (2) or more separate culvert structures, they shall be spaced far enough apart to allow proper compaction of the fill between the individual structures. The minimum spacing in all situations shall be one (1) foot. In areas where fish passage must be provided, only one (1) opening shall be constructed to carry all low flows. Low flow baffles may be required to facilitate fish passage.

**07. Areas to be Filled.** All areas to be filled shall be cleared of vegetation, topsoil, and other unsuitable material prior to placing fill. Material cleared from the site shall be disposed of above the high water line of the stream. Fill material shall be reasonably well-graded and compacted and shall not contain large quantities of silt, sand, organic matter, or debris. In locations where silty or sandy material must be utilized for fill material, it will be necessary to construct impervious sections both upstream and downstream to prevent the erodible sand or silt from being carried away (see Figure 19, APPENDIX P, located at the end of this chapter). Sideslopes for fills shall not...
exceed one and one half to one (1.5:1). Minimum cover over all culvert pipes and arches shall be one (1) foot.

08. Installation of Pipe and Arch Culvert. All pipe and arch culverts shall be installed in accordance with manufacturer’s recommendations.

a. The culvert shall be designed so that headwaters will not rise above the top of the culvert entrance unless a headworks is provided.

060. REMOVAL OF SAND AND GRAVEL DEPOSITS (RULE 60).

01. Removal of Sand and Gravel. This work consists of removal of sand and gravel deposits from within a stream channel. The following conditions shall be adhered to unless other methods have been specified in detail on the application and approved by the Director.

02. Removal Below Water Surface. Sand and gravel must not be removed below the water surface existing at the time of the work. Where work involves clearing a new channel for flow, removal of material below water level will be permitted to allow this flow to occur; however, this must not be done until all other work in the new channel has been completed.

03. Buffer Zone. A buffer zone of undisturbed streambed material at least five (5) feet in width or as otherwise specified by the Director shall be maintained between the work area and the existing stream. The applicant shall exercise reasonable precautions to ensure that turbidity is kept to a minimum and does not exceed state water quality standards.

04. Movement of Equipment. Equipment may cross the existing stream in one (1) location only, but shall not push or pull material along the streambed while crossing the existing stream.

05. Disturbing Natural Appearance of Area. Work must be done in a manner that will least disturb the natural appearance of the area. Sand and gravel shall be removed in a manner that will not leave unsightly pits or other completely unnatural features at the conclusion of the project.

061. SUCTION DREDGES AND NON-POWERED SLUICE EQUIPMENT (RULE 61).

01. Standards for Suction Dredges. The following standards shall apply only to uses of suction dredges with nozzle diameter of five (5) inches or less and rated at fifteen (15) HP or less and non-powered sluice equipment moving more than one-quarter (1/4) cubic yard per hour.

02. Operating Permit. A permit for the operation of a suction dredge may authorize the use of the dredge within a drainage basin or a large portion of a drainage basin except as otherwise determined by the Director.

03. Mechanized Equipment Prohibited Below High Water Mark. There shall be no use of mechanized equipment below the mean high water mark except for the dredge itself, and any life support system necessary to operate the dredge.

04. Operation of Dredge. The operation of the dredge shall be done in a manner so as to prevent the undercutting of streambanks.

05. Permit Required for Non-Powered Operation -- More Than Five People. A permit shall be required for any non-powered operation in which more than five (5) people are working the same area.

06. Permit Required for Non-Powered Operation -- More Than Thirty-Three Percent of Stream Width. A permit shall be required for any non-powered operation if the disturbed area exceeds thirty-three percent (33%) of the stream width at the mining location.

07. Limitation of Mining Sites. Only one (1) mining site per one hundred (100) linear feet of stream
channel shall be worked at one (1) time unless waived by the Director. (7-1-21)T

062. PILING (RULE 62).

01. Standards for Pilings. The following standards apply to a piling associated with a boat or swimming dock, a log boom, a breakwater, or bridge construction. (7-1-21)T

02. Replacement of Pilings. In replacing a piling the old piling shall be completely removed from the channel, secured to the new piling or cut at stream bed level. (7-1-21)T

03. Condition of Pilings. Chemicals or compounds used for protection of piles and lumber shall be thoroughly dried to prevent bleeding, weeping or dissolution before placing such piles and lumber over, in or near water. (7-1-21)T

04. Prohibited Materials. The application of creosote, arsenicals or phentachlorophenol (Penta) to timber shall not occur in, or over water. (7-1-21)T

063. PIPE CROSSINGS (RULE 63).

01. Standards for Pipe Crossings. The following standards apply to pipe crossings to be installed below the bed of a stream or river such as utility crossings of a gas line, sewer line, electrical line, communication line, water line or similar line. (7-1-21)T

02. Depth of Line. The line shall be installed below the streambed to a depth which will prevent erosion and exposure of the line to free flowing water. In areas of high stream velocity where scouring may occur, the pipe shall be encased in concrete or covered with rock riprap to prevent the pipeline from becoming exposed. (7-1-21)T

03. Pipe Joints. The joints shall be welded, glued, cemented or fastened together in a manner to provide a watertight connection. (7-1-21)T

04. Construction Methods. Construction methods shall provide for eliminating or minimizing discharges of turbidity, sediment, organic matter or toxic chemicals. A settling basin or cofferdam may be required for this purpose. (7-1-21)T

05. Cofferdam. If a cofferdam is used, it shall be completely removed from the stream channel upon completion of the project. (7-1-21)T

06. Revegetation of Disturbed Areas. Areas disturbed as a result of the alteration shall be revegetated with plants and grasses native to these areas. (7-1-21)T

064. CONCRETE PLANK BOAT LAUNCH RAMPS (RULE 64).

01. Construction of Concrete Plank Boat Launch Ramps. Concrete plank boat launch ramps, shall be constructed with individual sections of precast, reinforced concrete planks linked together to provide a stable non-erosive water access. Typical plank size is twelve feet by fourteen inches by four inches (12’ x 14” x 4”). (See Figure 20, APPENDIX Q, located at the end of this chapter). (7-1-21)T

02. Construction of Planks. All planks shall be constructed with Type II low alkali cement. (7-1-21)T

03. Concrete Planks. All concrete planks shall have a smooth finish, free of rock pockets and loose materials. Figure 22 shows a typical launch plank detail. (See Figures 21 and 22 in APPENDIXES R and S). (7-1-21)T

04. Assembly of Planks. The planks shall be assembled out of the water and slid into place on a constructed launch ramp where water velocities do not exceed two (2) feet per second. In waters exceeding (2) feet per second the ramp sections shall be linked together and fastened to pre-positioned stringers anchored into the
launch ramp. (See Figure 23, APPENDIX T, located at the end of this chapter).

05. **Water Depth.** The water depth above the lower end of the ramp section shall not be less than three (3) feet during low level or low flow periods. (See Figure 20, APPENDIX Q, located at the end of this chapter).

06. **Construction of Boat Ramp.** The boat launch ramp shall have a base constructed of sound, dense, durable, angular rock resistant to weathering and free from soil, shale and organic materials. Rounded cobbles, boulders and streambed material are not acceptable as base material in areas with stream flow velocities greater than two (2) fps. Base materials shall be covered with a layer of (three-fourths inches (3/4”) min.) crushed rock with a minimum depth of two inches (2”). The ramp shall have a minimum and maximum slope of ten percent (10%) and fifteen percent (15%) respectively, and shall be constructed in a manner to avoid long incursions into the stream channel. All ramps and fill material shall be protected with rock riprap in accordance with Rule 057 when stream flow velocities exceed two (2) fps. (See Figure 24, APPENDIX U, located at the end of this chapter).

065. -- 069. (RESERVED)

070. **HEARINGS ON DENIED, LIMITED, OR CONDITIONED PERMIT OR OTHER DECISIONS OF THE DIRECTOR (RULE 70).**

Any applicant who is granted a limited or conditioned permit, or who is denied a permit, may seek a hearing on said action of the Director by serving on the Director written notice and request for a hearing before the Board within fifteen (15) days of receipt of the Director’s decision. Said hearing will be set, conducted, and notice given as set forth in the Rules promulgated by the Board under the provisions of Title 67, Chapter 52, Idaho Code.

APPENDIX B

METHOD 1: This is most suited to areas where the toe is dry during construction.

METHOD 2: Used when streambed is very wet or groundwater present makes using Method 1 impractical.

METHOD 3: Often used when toe is underwater during construction. Both Methods 2 and 3 utilize the idea that undermining will cause rock at toe blanket to settle into eroded area providing protection during scouring.

FIGURE 2. Acceptable toe protection
APPENDIX B (CONTINUED)

METHOD 4: Used underwater in areas with extremely bad streambed erosion conditions which make Method 3 unfeasible. This method may also be preferred where Method 3 would destroy fish spawning beds.

METHOD 5: When the streambed is non-erodible, no special provisions for toe protection are needed other than ensuring that the riprap is well keyed to the rock.

FIGURE 2. Acceptable toe protection continued

000. LEGAL AUTHORITY (RULE 0).
The Director of the Department of Water Resources adopts these rules under the authority provided by Section 42-1805(8), Idaho Code.

001. TITLE AND SCOPE (RULE 1).

01. Title. These rules are titled IDAPA 37.03.08, “Water Appropriation Rules.”

02. Scope.

a. Background and Purpose. The 1985 Idaho Legislature authorized reallocation of certain hydropower water rights to new upstream beneficial uses. The reallocation is to be accomplished using statutes designed to provide for the appropriation of unappropriated public water supplemented by a public interest review of those reallocations which significantly reduce existing hydropower generation. These rules provide the procedures for obtaining the right to divert and use unappropriated public water as well as water previously appropriated for hydropower use which has been placed in trust with the State of Idaho and is subject to reallocation. Guidelines are provided for the filing and processing of applications, and criteria are established for determining the actions to be taken by the Director.

b. Scope and Applicability. These rules are applicable to appropriations from all sources of unappropriated public water in the state of Idaho under the authority of Chapter 2, Title 42, Idaho Code. Sources of public water include rivers, streams, springs, lakes and groundwater. The rules are also applicable to the reallocation of hydropower water rights held in trust by the state of Idaho. The rules are applicable to all applications to appropriate water filed with the Department of Water Resources prior to the effective date of these rules upon which an action to approve or deny the application is pending and to all applications filed subsequent to adoption of the rules and regulations. In addition, the rules are applicable to existing permits to appropriate water required to be reviewed under the provisions of Section 42-203D, Idaho Code.

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
Unless the context otherwise requires, the following definitions govern these rules:

01. Acre-Foot (AF). A volume of water sufficient to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand five hundred sixty (43,560) cubic feet.

02. Advertisement. The action taken by the Director to provide notice, usually by publication of a legal notice in one (1) or more newspapers, of a proposed appropriation or other notice required in administration of his duties and responsibilities.

03. Applicant. The person, corporation, association, firm, governmental agency or other entity, or the holder of a permit being reprocessed pursuant to Section 42-203D, Idaho Code, who initiates an appropriation of water or related water matter for the Director’s consideration.

04. Application for Permit. The written request to the department on forms furnished by the department proposing to appropriate the public waters or trust waters of the state.

05. Board. The Idaho Water Resource Board.

06. Beneficial Use. One (1) or more of the recognized beneficial uses of water including but not limited to, domestic, municipal, irrigation, hydropower generation, industrial, commercial, recreation, stockwatering and fish propagation uses for which permits to appropriate water can be issued as well as other uses which provide a benefit to the user of the water as determined by the Director. Industrial use as used for purposes of these rules includes, but is not limited to, manufacturing, mining and processing uses of water.

07. Cubic Foot Per Second (CFS). A rate of flow approximately equal to four hundred forty-eight and eight-tenths (448.8) gallons per minute and also equals fifty (50) Idaho miner’s inches.

08. DCMI. An acronym for domestic, commercial, municipal and industrial. In these rules it designates certain classes of these uses presumed to satisfy public interest requirements. Domestic use, for purposes of this definition, is water for one or more households and water used for all other purposes including irrigation of a
residential lot in connection with each of the households where the diversion to each household does not exceed thirteen thousand (13,000) gallons per day. Also for purposes of this definition, commercial, municipal and industrial uses are any such uses which do not deplete the system containing the trust water more than two (2) acre feet per day.

09. Department. The Idaho Department of Water Resources.

10. Director. The Director of the Idaho Department of Water Resources.

11. Legal Subdivision. A tract of land described by the government land survey and usually is described by government lot or quarter-quarter, section, township and range. A lot and block of a subdivision plat recorded with the county recorder may be used in addition to the quarter-quarter, section, township and range description.

12. Permit or Water Right Permit. The water right document issued by the Director authorizing the diversion and use of unappropriated public water of the state or water held in trust by the state.

13. Priority, or Priority of Appropriation, or Priority Date. The date of appropriation established in the development of a water right. The priority of a water right for public water or trust water is used to determine the order of water delivery from a source during times of shortage. The earlier or prior date being the better right.

14. Project Works. A general term which includes diversion works, conveyance works, and any devices which may be used to apply the water to the intended use. Improvements which have been made as a result of application of water, such as land preparation for cultivation, are not a part of the project works.

15. Single Family Domestic Purposes. Water for household use or livestock and water used for all other purposes including irrigation of up to one half (1/2) acre of land in connection with said household where total use is not in excess of thirteen thousand (13,000) gallons per day.

16. Subordinated Water Right. A water right used for hydropower generation purposes that is subject to depletion without compensation by upstream water rights which are initiated later in time and which are for a purpose other than hydropower generation purposes.

17. Trust Water. That portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action either with agreement of the holder of the hydropower right as provided by Section 42-203B(5), Idaho Code or without an agreement as provided by Section 42-203B(3), Idaho Code.

18. Unappropriated Water. The public water of the state of Idaho in streams, rivers, lakes, springs or groundwater in excess of that necessary to satisfy prior rights including prior rights reserved by federal law.

011. -- 024. (RESERVED)

025. GENERAL DESCRIPTION OF THE PROCEDURE TO BE USED FOR ALLOCATION (RULE 25).

01. Applications to Appropriate Unappropriated Water and Water Held in Trust. Applications to appropriate unappropriated water and water held in trust as provided by Section 42-203B(3), Idaho Code, will be evaluated using the criteria of Section 42-203A, Idaho Code, which requires an assessment to be made of the impact of the proposed use on water availability for existing water rights, the adequacy of the water supply for the proposed use, whether the application is filed for speculative purposes, the financial ability of the applicant to complete the project, and the effect of the proposed use on the local public interest.

02. Applications to Appropriate Water from Sources Held by State in Trust. Applications to appropriate water from sources on which the state holds water in trust, pursuant to Section 203B(5), Idaho Code, will be processed in a three-step analysis. Evaluation will consider the purposes of “trust water” established in Section 42-
203B, Idaho Code.

a. First, the proposed use must be evaluated using the procedures and criteria of Section 42-203A, Idaho Code. If all criteria of Section 42-203A(5), Idaho Code, are satisfied, the application may be approved for unappropriated water. If the application does not satisfy the criteria of Section 42-203A(5) b, c, d, and e, Idaho Code, or is found to reduce the water to existing water rights other than those held in trust by the state, the application will be denied. If the application satisfies all criteria of Section 42-203A(5), Idaho Code, except Section 42-203A(5)a, Idaho Code, but is found to reduce water held in trust by the state, the application will be reviewed under criteria of Section 42-203C, Idaho Code.

b. Second, Section 42-203C, Idaho Code, requires a determination of whether the proposed use will significantly reduce, individually or cumulatively with existing uses and other uses reasonably likely to exist within twelve months of the proposed use, the amount of trust water available to the holder of the water right used for power production that is defined by agreement pursuant to subsection (5) of Section 42-203B, Idaho Code (hereinafter termed “significant reduction”). If a significant reduction will not occur, the application may be approved without an evaluation of the public interest criteria of Section 42-203C(2), Idaho Code.

c. Third, based upon a finding of significant reduction, the proposed use will be evaluated in terms of the public interest criteria of Section 42-203C(2), Idaho Code.

026. -- 029. (RESERVED)

030. LOCATION AND NATURE OF TRUST WATER (RULE 30).

01. Snake River Water Rights Agreement. The legislation ratifying the Snake River water rights agreement between the state of Idaho and Idaho Power Company places in trust a part of the flows available to Idaho Power Company under its hydropower water rights in the Snake River Basin between Swan Falls Dam and Milner Dam. The flows subject to the trust water provisions and reallocation under Section 42-203C(2), Idaho Code, are as follows:

a. Trust water flows under the Snake River water rights agreement are located in the Snake River between Swan Falls Dam located in Section 18, Township 2 South, Range 1 East, Boise Meridian (B.M.) and Milner Dam located in Sections 28 and 29, Township 10 South, Range 21 East, Boise Meridian (B.M.) and all surface and groundwater sources tributary to the Snake River in that reach.

b. Surface water and groundwater tributary to the Snake River upstream from Milner Dam is not trust water. After giving notice and considering public comment, the Director will designate the area in which groundwater is presumed to be tributary to the Snake River upstream from Milner Dam. Modification or changes in the designated boundary may be made only after providing notice and considering public comment. The area presently designated as tributary to the Snake River in the Milner Dam to Swan Falls Dam reach is appended to these rules (See Attachment A in APPENDIX A located at the end of this chapter), for information purposes only.

c. Trust water flows under the Snake River water rights agreement are those occurring in the Snake River and tributaries in the geographic area designated in Subsection 030.01.a. that exceed the established minimum stream flows but are less than the water rights for hydropower generating facilities in the Swan Falls Dam to Milner Dam reach of Snake River, to the extent such rights were unsubordinated prior to the Snake River water rights agreement. Minimum average daily flows have been established by action of the Board and legislature at the U.S. Geological Survey gauging station located near Murphy (Section 35, Township 1 South, Range 1 West B.M.) in the amount of three thousand nine hundred (3900) cfs from April 1 to October 31 and five thousand six hundred (5600) cfs from November 1 to March 31, and at Milner gauging station located in Section 29, Township 10 South, Range 21 East, B.M. in the amount of zero (0) cfs from January 1 to December 31.

02. Trust Water Created by State Action. Section 42-203B(3), Idaho Code, provides that trust water can be created by state action establishing a minimum flow without an agreement with the holder of the hydropower water right. Allocation of trust water so established will be pursuant to state law except the criteria of Section 42-203C, Idaho Code, will not be considered.
03. Sources of Public Water Not Trust Water. The following sources of public water are not trust water and are not subject to the public interest provisions of Section 42-203C, Idaho Code:

a. Sources or tributaries to sources upon which no hydropower generating facilities are located downstream within the state of Idaho.

b. Sources or tributaries to sources which have a state hydropower water right permit or license or Federal Energy Regulatory Commission license which have not been subordinated, and the state of Idaho has not entered into an agreement with the holder of the hydropower water right pursuant to Section 42-203B(2), Idaho Code, and the State of Idaho has not established a minimum stream flow for purposes of protecting hydropower generation.

c. Sources or tributaries to sources for which a state hydropower water right permit or license, or the Federal Energy Regulatory Commission license included a subordination condition. Such flows are considered to be public waters subject to appropriation under the provisions of Section 42-203A, Idaho Code.

d. Flows in excess of established rights including rights used for hydropower purposes. Such flows are unappropriated waters subject to allocation under Section 42-203A, Idaho Code.

e. Flows in the Snake River upstream from Milner Dam and all surface and groundwater tributaries to that reach. Such flows are subject to allocation under Section 42-203A, Idaho Code, without consideration of water rights existing downstream from Milner Dam (Reference: 42-203B(2), Idaho Code).

031. -- 034. (RESERVED)

035. APPLICATION REQUIREMENTS (RULE 35).

01. General Provisions.

a. No person shall commence the construction of any project works or commence the diversion of the public water or trust water of the state of Idaho from any source without first having filed an application for permit to appropriate the water or other appropriate form with the department and received approval from the Director, unless exempted by these rules or by statute.

b. Any person proposing to commence a diversion of the public water or the trust water of the state of Idaho from a groundwater source for single family domestic purposes is exempt from the application and permit requirements of Subsection 035.01.a.

c. Any person watering livestock directly from a natural stream or natural lake without the use of a constructed diversion works is exempt from Subsection 035.01.a.

d. All applications for permit to appropriate public water or trust water of the state of Idaho shall be on the form provided by the department entitled “Application for Permit to Appropriate the Public Waters of the State of Idaho” and include all necessary information as described in Subsection 035.03. An application for permit that is not complete as described in Subsection 035.03 will not be accepted for filing and will be returned along with any fees submitted to the person submitting the application. No priority will be established by an incomplete application. Applications meeting the requirements of Subsection 035.03. will be accepted for filing and will be endorsed by the department as to the time and date received. The acceptability of applications requiring clarification or corrections shall be determined by the Director.

e. The department will correspond with the applicant concerning applications which have been accepted for filing by the department which require clarification or correction of the information required by Subsection 035.03. If the additional or corrected information is supplied after thirty (30) days, the priority date of the application will be determined by the date the additional or corrected information is received by the department unless the applicant has requested within the thirty (30) day period additional time to provide the information, has shown good reasons for needing additional time, and the Director has granted additional time.
f. Failure to submit the additional or corrected information is cause for the Director to void the department’s records of the application. (7-1-21)

02. Effect of an Application.

a. Any application that seeks to appropriate water from a source upon which the state holds trust water shall be considered an application for appropriation of unappropriated water. If the Director determines unappropriated water is not available, the application, if otherwise approvable, will be reviewed for compliance with provisions of Section 42-203C, Idaho Code. (7-1-21)

b. The priority of an application for unappropriated or trust water is established as of the time and date the application is received in complete form along with the statutory fee in any official office of the department. The priority of the application remains fixed unless changed by action of the Director in accordance with applicable law. (7-1-21)

c. An application for permit to appropriate water is not a water right and does not authorize diversion or use of water until approved by the Director in accordance with statutes in effect at the time the application is approved. (7-1-21)

d. An applicant’s interest in an application for permit to appropriate water is personal property. An assignment of interest in an application must include evidence satisfactory to the Director that the application was not filed for speculative purposes. (7-1-21)

03. Requirements for Applications to Be Acceptable for Filing.

a. The following information shall be shown on an application for permit form and submitted together with the statutory fee to an office of the department before the application for permit may be accepted for filing by the department. (7-1-21)

i. The name and post office address of the applicant shall be listed. If the application is in the name of a corporation, the names and addresses of its directors and officers shall be provided. If the application is filed by or on behalf of a partnership or joint venture, the application shall provide the names and addresses of all partners and designate the managing partner, if any. (7-1-21)

ii. The name of the water source sought to be appropriated shall be listed. For surface water sources, the source of water shall be identified by the official geographic name listed on the U.S. Geological Survey Quadrangle map. If the source has not been named, it can be described as “unnamed,” but the system or river to which it is tributary shall be identified. For groundwater sources, the source shall be listed as “groundwater.” Only one source shall be listed on an application unless the application is for a single system which will have more than one source. (7-1-21)

iii. The legal description of the point of diversion and place of use shall be listed. The location of the point(s) of diversion and the place of use shall be described to the nearest forty (40) acre subdivision or U.S. Government Lot of the Public Land Survey System. The location of springs shall be described to the nearest ten (10) acre tract. Subdivision names, lot and block numbers and any name in local common usage for the point of diversion, or place of use shall be included in the comments section of the application form. If irrigation is listed as a purpose of use, the number of acres in each forty (40) acre subdivision of the place of use shall be listed. (7-1-21)

iv. The quantity of water to be diverted shall be listed as a rate of flow in cubic feet per second and/or as a volume to be stored in acre-feet per year for each purpose of use requested. (7-1-21)

v. Impoundment (storage) applications shall show the maximum acre-feet requirement per year which shall not exceed the storage capacity of the impoundment structure unless the application describes a plan of operation for filling the reservoir more than once per year. (7-1-21)

vi. Every offstream storage impoundment application shall show a maximum rate of diversion to storage as well as the total storage volume. (7-1-21)
vii. The nature of the proposed beneficial use or uses of the water shall be listed. While the purpose may be described in general terms such as irrigation, industrial or municipal, a description sufficient to identify the proposed use or uses of the water shall also be included.

viii. The period of each year during which water will be diverted, stored and beneficially used shall be listed. The period of use for irrigation purposes shall coincide with the annual periods of use shown in Figure 1 in APPENDIX B (located at the end of this chapter), unless it can be shown to the satisfaction of the Director that a different period of use is necessary.

ix. The proposed method of diversion, conveyance system and system for distributing and using the water shall be described.

x. The period of time required for completion of the project works and application of water to the proposed use shall be listed. This period of time shall not exceed the time required to diligently and uninterruptedly apply the water to beneficial use and shall not exceed five (5) years.

xi. A map or plat of sufficient scale (not less than two (2) inches equal to one (1) mile) to show the project proposed shall be included. The map or plat shall agree with the legal descriptions and other information shown on the application.

xii. The application form shall be signed by the applicant listed on the application or evidence must be submitted to show that the signator has authority to sign the application. An application in more than one (1) name shall be signed by each applicant unless the names are joined by “or” or “and/or.”

xiii. Applications by corporations, companies or municipalities or other organizations shall be signed by an officer of the corporation or company or an elected official of the municipality or an individual authorized by the organization to sign the application. The signator’s title shall be shown with the signature.

xiv. Applications may be signed by a person having a current “power of attorney” authorized by the applicant. A copy of the “power of attorney” shall be included with the application.

xv. Applications to appropriate water in connection with Carey Act or Desert Land Entry proposals shall include evidence that appropriate applications have been filed for the lands involved in the proposed project.

xvi. The application form shall be accompanied with a fee in the amount required by Section 42-221A, Idaho Code.

04. Amended Applications.

a. Applications for permit shall be amended whenever significant changes to the place, period or nature of the intended use, method or location of diversion or proposed use of the water or other substantial changes from that shown on the pending application are intended. An application shall be amended if the proposed change will result in a greater rate of diversion or depletion (see Subsection 035.04.c.), if the point of diversion, place of use, or point of discharge of the return flow are to be altered, if the period of the year that water will be used is to be changed, or if the nature of the use is to be changed.

b. An application can be amended to clarify the name of the source of water but may not be amended to change the source of water.

c. An amendment which increases the rate of diversion, increases the volume of water diverted per year or the volume of water depleted, lengthens the period of use, or adds an additional purpose of use shall result in the priority of the application for permit being changed to the date the amended application is received by the department.

d. An application for permit may be amended by endorsement by the applicant or his agent on the
original application for permit form which endorsement shall be initialed and dated. If the changes required to the information on the application are, in the judgment of the Director, substantial enough to cause confusion in interpreting the application form, the amended application shall be submitted on a new application for permit form to be designated as an amended application. (7-1-21)

e. An amended application shall be accompanied by the additional fee required by Section 42-221A, Idaho Code, if the total rate of diversion or total volume of storage requested is increased and by the fee required by Section 42-221F, Idaho Code, for readvertising if notice of the original application has been published. (7-1-21)

f. If the applicant’s name or mailing address changes, the applicant shall in writing notify the department of the change. (7-1-21)

036. -- 039. (RESERVED)

040. PROCESSING APPLICATIONS FOR PERMIT AND REPROCESSING PERMITS (RULE 40).

01. General. (7-1-21)

a. Unprotested applications, whether for unappropriated water or trust water, will be processed using the following general steps: (7-1-21)

i. Advertisement and protest period; (7-1-21)

ii. Department review of applications and additional information, including department field review if determined to be necessary by the Director; (7-1-21)

iii. Fact finding hearing if determined to be necessary by the Director; (7-1-21)

iv. Director’s decision; (7-1-21)

v. Section 42-1701A, Idaho Code, hearing, if requested; and (7-1-21)

vi. Director’s decision affirmed or modified. (7-1-21)

b. Protested applications, whether for unappropriated water or trust water, will be processed using the following general steps: (7-1-21)

i. Advertisement and protest period; (7-1-21)

ii. Hearing and/or conference; (7-1-21)

iii. Department review of applications, hearing record and additional information including department field review if determined to be necessary by the Director. (7-1-21)

iv. Proposed decision (unless waived by parties); (7-1-21)

v. Briefing or oral argument in accordance with the department’s adopted Rules of Procedure. (7-1-21)

vi. Director’s decision accepting or modifying the proposed decision. (7-1-21)

c. The Director’s decision rejecting and denying approval of an application for permit filed for diversion from a source previously designated as a critical groundwater area or upon which a moratorium has previously been entered may be issued without advertisement of the application. (7-1-21)

d. An applicant may request in writing that commencement of processing of his or her application be delayed for a period not to exceed one (1) year or that processing be interrupted for a period not to exceed six (6)
months. The Director at his discretion may approve the request unless he determines that others will be injured by the delay or that the applicant seeks the delay for the purpose of speculation, or that the public interest of the people of Idaho will not be served by the delay. The Director may approve a request for delay for a shorter period of time or upon conditions, and may renew the approval upon written request.

02. Public Notice Requirement.

a. Applications for permit which have not been advertised.

i. Advertisement of applications for permit proposing a rate of diversion of ten (10) cfs or less or storage of one thousand (1000) AF or less shall comply with Section 42-203A, Idaho Code. The first required advertisement will be published on the first or third Thursday of a month when published in daily newspapers and on the first or third publishing day of the month for weekly newspapers.

ii. Advertisement of applications for permit in excess of the amounts in Subsection 040.02.a.i. shall comply with Subsection 040.02.a.i. and shall also be published in a newspaper or newspapers to achieve statewide circulation.

iii. Statewide circulation with respect to Section 42-203A(2), Idaho Code, shall be obtained by publication of a legal notice at least once each week for two (2) successive weeks in a newspaper, as defined in Section 60-106, Idaho Code, of general circulation in the county in which the point of diversion is located and by publication of a legal notice at least once each week for two (2) successive weeks in at least one (1) daily newspaper, as defined in Section 60-107, Idaho Code, published in each of the department’s four (4) administrative regions and determined by the Director to be of general circulation within the department’s region within which it is published. The administrative regions of the department are identified on Figure 2 in APPENDIX C (located at the end of this chapter). The names of newspapers used for statewide publication are available from any department office.

b. Applications for permit which have been advertised.

i. Notice of applications for permit for water from the Snake River between Swan Falls Dam and Milner Dam or surface and groundwater tributaries to that reach of Snake River which were advertised prior to July 1, 1985 and have been held without final action by the department due to the Swan Falls controversy shall be readvertised by the Director in accordance with Subsection 040.02.a. as appropriate to allow opportunity for protests to be entered with respect to the public interest criteria of Section 42-203C(2), Idaho Code.

ii. Applications for permit from the Snake River or surface and groundwater sources upstream from Milner Dam which have been held without action due to the Swan Falls controversy may be processed without readvertisement.

iii. The applicant shall pay the readvertisement fee provided in Section 42-221F, Idaho Code, prior to the readvertisement.

iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to void the application.

c. Notice of existing permits.

i. Existing permits appropriating water held in trust by the state of Idaho issued prior to July 1, 1985, unless exempted by Subsection 040.02.c.i. shall be subject to the review requirements of Section 42-203D, Idaho Code, and shall be readvertised in accordance with Subsection 040.02.a. as appropriate. The review is limited to the criteria described in Section 42-203C(2), Idaho Code.

ii. Permits exempt from the provisions of Section 42-203D, Idaho Code, include:

(1) Permits appropriating water not held in trust by the state of Idaho;
(2) Permits for DCMI uses, stockwater uses and other essentially non-consumptive uses as determined by the Director; and

Permits for which an acceptable proof of beneficial use submittal was received by the department prior to July 1, 1985, or permits for which an acceptable proof of beneficial use was submitted after July 1, 1985, if evidence satisfactory to the Director has been received to show that the permit was fully developed prior to July 1, 1985 to the extent claimed on the proof of beneficial use.

iii. Holders of permits subject to the review requirement of Section 42-203D, Idaho Code, shall pay in advance, upon the request of the Director, the readvertising fee required by Section 42-221F, Idaho Code.

iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to cancel the permit.

03. Protests, Intervention, Hearings, and Appeals.

a. Protests.

i. Protests against the approval of an application for permit or against a permit being reprocessed shall comply with the requirements for pleadings as described in the department’s adopted Rules of Procedure.

ii. Protests against the approval of an application for permit or against a permit being reprocessed will only be considered if received by the department after receipt of the application by the department and prior to the expiration of the protest period announced in the advertisement unless the protestant successfully intervenes in the proceeding.

iii. General statements of protest (blanket protests) against appropriations for a particular class of use or from a particular source of water will not be considered as valid protests by the Director.

b. Intervention. Requests to intervene in a proceeding pending before the department shall comply with the Department’s adopted Rules of Procedure.

c. Hearings. Hearings will be scheduled and held in accordance with the department’s adopted Rules of Procedure.

d. Appeals. Any final decision of the Director may be appealed in accordance with Section 42-1701A, Idaho Code.

04. Burden of Proof.

a. Burden of proof is divided into two (2) parts: first, the burden of coming forward with evidence to present a prima facie case, and second, the ultimate burden of persuasion.

b. The burden of coming forward with evidence is divided between the applicant and the protestant as follows:

i. The applicant shall bear the initial burden of coming forward with evidence for the evaluation of criteria (a) through (d) of Section 42-203A(5), Idaho Code;

ii. The applicant shall bear the initial burden of coming forward with evidence for the evaluation of criterion (e) of Section 42-203A(5), Idaho Code, as to any factor affecting local public interest of which he is knowledgeable or reasonably can be expected to be knowledgeable. The protestant shall bear the initial burden of coming forward with evidence for those factors relevant to criterion (e) of Section 42-203A(5), Idaho Code, of which the protestant can reasonably be expected to be more cognizant than the applicant.

iii. The protestant shall bear the initial burden of coming forward with evidence for the evaluation of
the public interest criteria of Section 42-203C(2), Idaho Code, and of demonstrating a significant reduction, except that the applicant shall provide details of the proposed design, construction, and operation of the project and directly associated operations to allow the impact of the project to be evaluated. (7-1-21)

c. The applicant has the ultimate burden of persuasion for the criteria of Section 42-203A, Idaho Code, and the protestant has the ultimate burden of persuasion for the criteria of Section 42-203C, Idaho Code. (7-1-21)

d. For unprotested applications or permits to be reprocessed, the Director will evaluate the application, information submitted pursuant to Subsection 040.05.c. and information in the files and records of the department, and the results of any studies the department may conduct to determine compliance with the appropriate criteria. (7-1-21)

e. In protested matters the Director will take official notice of information as described in the department’s adopted Rules of Procedure, and will, prior to considering, circulate to the parties information from department studies and field examinations concerning the protested application or permit being reprocessed, if such information has not otherwise been made a part of the hearing record. (7-1-21)

05. Additional Information Requirements. (7-1-21)

a. For unprotested applications and permits being reprocessed, the additional information required by Subsection 040.05.c. shall be submitted within thirty (30) days after the Director notifies the applicant that the application or permit is being reviewed for decision. The Director may extend the time within which to submit the information upon request by the applicant and upon a showing of good cause. Failure to submit the required information within the time period allowed will be cause for the Director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The Director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code. (7-1-21)

b. For protested applications or protested permits being reprocessed, the information required by Subsection 040.05.c. may be requested by the Director to be submitted within thirty (30) days after notification by the Director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures. Failure to submit the required information within the time period allowed will be cause for the Director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. (7-1-21)

c. The following information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre-feet (500 AF) or less and for filings seeking reallocation of trust water which the Director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. However, the Director may specifically request submittal of any of the following information for any filing, as he determines necessary. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. (7-1-21)

ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well. (7-1-21)

iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights. (7-1-21)

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be
i. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year.

ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources, and information on other sources of supply that may be used to supplement the applied for water source.

e. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows:

i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code.

ii. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials.

f. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows:

i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed.

ii. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications.

g. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows: The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the Director.

h. The following information Relative to the Public Interest Criteria of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the Director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. The Director may request any or all of the following information for any filing seeking the reallocation of trust water.

i. A project design and estimate of cost of development shall be submitted. For applications appropriating more than twenty-five (25) cfs, or ten thousand (10,000) AF of storage, or generating more than five (5) megawatts, the information shall be prepared and submitted by a qualified engineer licensed under the provisions of Chapter 12, Title 54, Idaho Code, unless waived by the Director. The design shall be definite enough to reflect the project’s impacts and implications as required in subsequent rules.
ii. If the project proposes development for irrigation purposes, information shall be submitted on crop rotation, including acreages, for lands when newly developed.  

iii. Information shall be submitted concerning the number and kinds of jobs that will be created or eliminated as a direct result of project development including both the construction and operating phases of the project. If jobs are seasonal, the estimated number of months per year of employment shall be submitted.  

iv. For applications or permits being reprocessed for more than twenty-five (25) cfs, or more than ten thousand (10,000) AF of storage, or more than five (5) megawatts, information shall be submitted concerning the changes to community services that will be required during the construction and operation phases of the project including, but not limited to, changes to schools, roads, housing, public utilities and public health and safety facilities, if any.  

v. Information shall be submitted concerning the source of energy for diverting and using water for the project, the estimated instantaneous demand and total amount of energy that will be used, the efficiency of use, and energy conservation methods.  

vi. Information shall be submitted concerning the location, amount, and quality of return flow water, and any water conservation features of the proposed project.  

vii. If the project proposes irrigation as a use, information shall be submitted concerning the kinship, if any, of the operator of the land to be irrigated by the project to the applicant, the location and acreage of other irrigated lands owned, leased, or rented by the applicant, the names, addresses and number of shares held by each shareholder if the applicant is a corporation, evidence of tax-exempt status if a corporation is so claiming, a soil survey prepared in accordance with the U.S. Soil Conservation Service irrigatable land classification system, and a schedule for bringing into production the project lands.

041. -- 044. (RESERVED)

045. EVALUATION CRITERIA (RULE 45).

01. Criteria for Evaluating All Applications to Appropriate Water. The Director will use the following criteria in evaluating whether an application to appropriate unappropriated water or trust water should be approved, denied, approved for a smaller amount of water or approved with conditions.  

a. Criteria for determining whether the proposed use will reduce the quantity of water under existing water rights. A proposed use will be determined to reduce the quantity of water under an existing water right (i.e., injure another water right) if:  

i. The amount of water available under an existing water right will be reduced below the amount recorded by permit, license, decree or valid claim or the historical amount beneficially used by the water right holder under such recorded rights, whichever is less.  

ii. The holder of an existing water right will be forced to an unreasonable effort or expense to divert his existing water right. Protection of existing groundwater rights are subject to reasonable pumping level provisions of Section 42-226, Idaho Code; or  

iii. The quality of the water available to the holder of an existing water right is made unusable for the purposes of the existing user’s right, and the water cannot be restored to usable quality without unreasonable effort or expense.  

iv. An application that would otherwise be denied because of injury to another water right may be approved upon conditions which will mitigate losses of water to the holder of an existing water right, as determined by the Director.  

v. The provisions of Subsection 045.01.a.v. are not intended to require compensation or mitigation for
loss of flow to holders of subordinated hydropower rights or those from which trust water is reallocated. (7-1-21)T

b. Criteria for determining whether the water supply is insufficient for the proposed use. The water supply will be determined to be insufficient for the proposed use if water is not available for an adequate time interval in quantities sufficient to make the project economically feasible (direct benefits to applicant must exceed direct costs to applicant), unless there are noneconomic factors that justify application approval. In assessing such noneconomic factors, the Director will also consider the impact on other water rights if the project is abandoned during construction or after completion, the impact on public resource values, and the cost to local, state and federal governments of such an abandonment. (7-1-21)T

c. Criteria for determining whether the application is made in good faith. The criteria requiring that the Director evaluate whether an application is made in good faith or whether it is made for delay or speculative purposes requires an analysis of the intentions of the applicant with respect to the filing and diligent pursuit of application requirements. The judgment of another person’s intent can only be based upon the substantive actions that encompass the proposed project. Speculation for the purpose of this rule is an intention to obtain a permit to appropriate water without the intention of applying the water to beneficial use with reasonable diligence. Speculation does not prevent an applicant from subsequently selling the developed project for a profit or from making a profit from the use of the water. An application will be found to have been made in good faith:

i. The applicant shall have legal access to the property necessary to construct and operate the proposed project, has the authority to exercise eminent domain authority to obtain such access, or in the instance of a project diverting water from or conveying water across land in state or federal ownership, has filed all applications for a right-of-way. Approval of applications involving Desert Land Entry or Carey Act filings will not be issued until the United States Department of Interior, Bureau of Land Management has issued a notice classifying the lands suitable for entry; and

ii. The applicant is in the process of obtaining other permits needed to construct and operate the project; and

iii. There are no obvious impediments that prevent the successful completion of the project. (7-1-21)T

d. Criteria for determining whether the applicant has sufficient financial resources to complete the project.

i. An applicant will be found to have sufficient financial resources upon a showing that it is reasonably probable that funding is or will be available for project construction or upon a financial commitment letter acceptable to the Director. This showing is required as described in Subsection 040.05.c. or at the time the hearing provided by Subsection 040.05.c. is conducted.

ii. A governmental entity will be determined to have satisfied this requirement if it has the taxing, bonding or contracting authority necessary to raise the funds needed to commence and pursue project construction in accordance with the construction schedule. (7-1-21)T

e. Criteria for determining whether the project conflicts with the local public interest. The Director will consider the following, along with any other factors he finds to be appropriate, in determining whether the project will conflict with the local public interest:

i. The effect the project will have on the economy of the local area affected by the proposed use as determined by the employment opportunities, both short and long term, revenue changes to various sectors of the economy, short and long term, and the stability of revenue and employment gains;

ii. The effect the project will have on recreation, fish and wildlife resources in the local area affected by the proposed use; and

iii. An application which the Director determines will conflict with the local public interest will be denied unless the Director determines that an over-riding state or national need exists for the project or that the project can be approved with conditions to resolve the conflict with the local public interest. (7-1-21)T
02. Criteria for Evaluating Whether a Proposed Use of Trust Water Will Cause a Significant Reduction. Reference: Section 42-203C(1), Idaho Code and Subsection 025.02.b. For purposes of reallocating trust water made available by the Snake River water rights agreement, an application for permit or a permit being reprocessed, will be presumed to not cause a significant reduction if the Director determines that it complies with both the individual and cumulative tests for evaluating significant reduction as provided in Subsections 045.02.a. and 045.02.b.

a. Individual test for evaluating significant reduction. A proposed use will be presumed to not cause a significant reduction if when fully developed and its impact is fully felt, the use will individually reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. An irrigation project of two hundred (200) acres or less located anywhere in the Snake River Basin above Murphy Gauge proposing to use trust water is presumed to not reduce the flow at Murphy Gauge by more than two (2) acre-feet per day. The presumption of this section is not applicable to applications or permits to be reprocessed which the Director determines to be part of a larger development.

b. Cumulative test for evaluating significant reduction. A proposed use will be presumed to not cause a significant reduction, if the use, when fully developed and its impact is fully felt and when considered cumulatively with other existing uses and other uses reasonably likely to exist within twelve (12) months of the proposed use, will not deplete the flow of Snake River measured at Murphy Gauge by more than:

i. Forty thousand (40,000) acre-feet per calendar year when considered with all other uses approved for development of trust water during that calendar year;

ii. Forty thousand (40,000) acre-feet per calendar year using a four (4) year moving average when considered with all other uses approved for development of trust water during that four (4) year period; and

iii. Twenty thousand (20,000) acre-feet per calendar year from filings approved for reallocation of trust water which meet the criteria of Subsection 045.02.a.

c. The Director will determine on a case-by-case basis from available information whether a permit to be reprocessed or an application for trust water which exceeds the flow depletion limits of Subsection 045.02, or one which meets the flow depletion limits but has been protested, will cause a significant reduction. In making this determination, the Director will consider:

i. The amount of the reduction in hydropower generation that the proposed use will cause individually and cumulatively with other uses expected to be developed within twelve (12) months of the proposed use as compared to the existing hydropower generation output of the affected facility or facilities.

ii. The relative importance of the affected hydropower facility or facilities to other sources of electrical power generation available to the holder of the facility or facilities.

iii. The timing of the reduction in hydropower generation both on an annual basis and on a long-term basis considering the lag time between the beginning of diversion by the proposed use and the resulting reduction in hydropower generation.

iv. The effect of the reduction in hydropower generation on the unit cost of hydropower from the facility or facilities and the average cost of electrical power offered by the holder of the facility.

v. The terms of contracts, mortgages, or regulatory permits and licenses which require the holder of the hydropower generation facility to retain the capability to produce hydroelectric power at a specific level.

d. Other provisions of these rules not withstanding, applications or permits to be reprocessed proposing a direct diversion of water for irrigation purposes from the Snake River between Milner Dam and Swan Falls Dam or from tributary springs in this reach are presumed to cause a significant reduction.
e. Other provisions of these rules notwithstanding, applications or permits to be reprocessed for DCMI purposes are presumed to not cause a significant reduction.

03. Criteria for Evaluating Public Interest. If the Director determines that a proposed use of trust water held by the state pursuant to Section 42-203B(5), Idaho Code, will cause a significant reduction, the Director will consider the criteria of Section 42-203C(2), Idaho Code, before acting on the application or permit being reprocessed. The Director shall consider and balance the relative benefits and detriments for each factor required to be weighed under Section 42-203C(2), Idaho Code, to determine whether a proposed reduction of the amount of water available for power production serves the greater public interest. The Director shall evaluate whether the proposed use sought in the permit being reprocessed or the application will provide the greater benefit to the people of the state of Idaho when balanced against other uses for the same water resource. In evaluating the public interest criteria, the Director will use the following guidelines:

a. The Director will consider the potential benefits both direct and indirect, and that the proposed use would provide to the state and local economy. The economic appraisal shall be based upon generally accepted economic analysis procedures which uniformly evaluate the following factors within the state of Idaho and the counties directly affected by the project:

i. Direct project benefits.

ii. Indirect benefits including net revenues to the processing, transportation, supply, service and government sectors of the economy.

iii. Direct project costs, to include the opportunity cost of previous land use.

iv. Indirect project costs, including verifiable costs to government in net lost revenue and increased regulation costs, verifiable reductions in net revenue resulting from losses to other existing instream uses, and the increased cost of replacing reduced hydropower generation from unsubordinated hydropower generating facilities.

b. The Director will consider the impact the proposed use would have upon the electric utility rates in the state of Idaho, and the availability, foreseeability and cost of alternative energy sources to ameliorate such impact. These evaluations will include the following considerations:

i. Projections of electrical supply and demand for Idaho and the Pacific Northwest made by the Bonneville Power Administration and the Northwest Power Planning Council and information available from the Idaho Public Utilities Commission or from the electric utility from whose water right trust water is being reallocated.

ii. The long term reliability of the substitute source and the cost of alternatives including the resulting impact on electrical rates.

c. The Director will consider whether the proposed use will promote the family farming tradition in the state of Idaho. For purposes of this evaluation, the Director will use the following factors:

d. If the total land to be irrigated by the applicant, including currently owned and leased irrigated land and land proposed to be irrigated in the application and other applications and permits of the applicant, do not exceed nine hundred sixty (960) acres, the application will be presumed to promote the family farming tradition.

e. If the requirement of Subsection 045.03.c.i. is not met, the Director will consider the extent the applicant conforms to the following characteristics:

i. The farming operation developed or expanded as a result of the application is operated by the applicant or a member of his family (spouse, parents or grandparents, lineal descendants, including those that are adopted, lineal descendants of parents; and spouse of lineal descendants);
ii. In the event the application is filed in the name of a partnership, one or more of the partners shall operate the farming operation; and

iii. If the application is in the name of a corporation, the number of stockholders does not exceed fifteen (15) persons, and one or more of the stockholders operates the farming operation unless the application is submitted by an irrigation district, drainage district, canal company or other water entity authorized to appropriate water for landowners within the district or for stockholders of the company all of whom shall meet the family farming criteria.

f. The Director will consider the promotion of full economic and multiple use development of the water resources of the state of Idaho. In this regard, the extent to which the project proposed complies with the following factors will be considered:

i. Promotes and conforms with the adopted State Water Plan;

ii. Provides for coordination of proposed and existing uses of water to maximize the beneficial use of available water supplies;

iii. Utilizes technology economically available to enhance water and energy use efficiency;

iv. Provides multiple use of the water, including multipurpose storage;

v. Allows opportunity for reuse of return flows;

vi. Preserves or enhances water quality, fish, wildlife, recreation and aesthetic values;

vii. Provides supplemental water supplies for existing uses with inadequate supplies.

The Director will consider whether a proposed use, which includes irrigation, will conform to a staged development policy of up to twenty thousand (20,000) acres per year or eighty thousand (80,000) acres in any four (4) year period in the Snake River drainage above Murphy Gauge. In applying this criteria, the Director will consider the following:

i. “Above Murphy gauge” means the Snake River and any of its surface or groundwater tributaries upstream from Murphy gauge which gauge is located on the Snake River approximately four (4) miles downstream from Swan Falls Dam from which trust water is to be reallocated;

ii. Twenty thousand (20,000) acres per year or eighty thousand (80,000) acres per four (4) year period is a four (4) year moving average of Twenty thousand (20,000) acres/year of permits issued during a calendar year for irrigation development. If permits for development of less than twenty-thousand (20,000) acres are issued in a year, additional development in excess of twenty-thousand (20,000) acres can be permitted in succeeding years. Likewise, if more than twenty thousand (20,000) acres is permitted in one year (recognizing that a single large project could exceed twenty thousand (20,000) acres) the permitted development in succeeding years must be correspondingly less to maintain no greater than a twenty thousand (20,000) acres/year average for any four (4) year period;

iii. The criteria of Subsection 045.03.g. applies to multiple-use projects with irrigation as a principal purpose. Projects which use irrigation as only an incidental purpose, such as the land treatment of waste, shall not be included within this policy; and

iv. An application determined by the Director to be otherwise approvable but found to exceed the acreage limitations, when considered with other applications approved for development, may be approved with conditions providing for the construction of project works and beneficial use of water to be commenced in a future year.

h. No single public interest criterion will be entitled to greater weight than any other public interest criterion.
i. Until such time as the studies prescribed in Policy 32 I of the State Water Plan are completed and accepted by the Idaho Water Resource Board, applications and permits reprocessed which propose to divert water to surface storage from the Snake River and surface tributaries upstream from Murphy Gauging Station shall be presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. Applications or reprocessed permits which are approved prior to completion of the studies, will not be subject to additional reprocessing. (7-1-21)

j. Applications for permit for trust water sources filed prior to July 1, 1985, for projects for which diversion and beneficial use was complete prior to October 1, 1984, are presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. (7-1-21)

k. Applications or permits to be reprocessed proposing a direct diversion of water for irrigation purposes from the Snake River between Milner Dam and Swan Falls Dam or from tributary springs in this reach are presumed not to be in the public interest as defined by Section 42-203C, Idaho Code. Such proposals, are presumed to prevent the full economic and multiple use of water in the Snake River Basin and to adversely affect hydropower availability and electrical energy rates in the state of Idaho. (7-1-21)

l. Proposed DCMI uses which individually do not have a maximum consumptive use of more than two acre-feet/day are presumed to meet the public interest criteria of Section 42-203C(2), Idaho Code, unless protested. (7-1-21)

046. -- 049. (RESERVED)

050. CONDITIONS OF APPROVAL (RULE 50).

01. Issuance of Permits with Conditions. The Director may issue permits with conditions to insure compliance with the provisions of Title 42, Chapter 2, Idaho Code, other statutory duties, the public interest, and specifically to meet the criteria of Section 42-203A, Idaho Code, and to meet the requirements of Section 42-203C, Idaho Code, to the fullest extent possible including conditions to promote efficient use and conservation of energy and water. (7-1-21)

02. Requirements to Mitigate Impact of Flow Depletion. Permits to be reprocessed or applications approved to appropriate water from the main stem of the Snake River between Milner and Murphy gauging station for diversion to off-stream storage during the period November 1 to March 31 shall include requirements to mitigate, in accordance with the State Water Plan, the impact of flow depletions on downstream generation of hydropower. (7-1-21)

03. Applications and Existing Permits That Are Junior and Subordinate. Applications and existing permits approved for hydropower generation shall be junior and subordinate to all rights to the use of water, other than hydropower, within the state of Idaho that are initiated later in time than the priority of the application or existing hydropower permit. A subordinated permit shall not give rise to any right or claim against future rights to the use of water, other than hydropower, within the state of Idaho initiated later in time than the priority of the application or existing hydropower permit. A permit issued for hydropower purposes shall contain a term condition on the hydropower use in accordance with Section 42-203B(6), Idaho Code. (7-1-21)

04. Permanent Flow Measuring Device Requirement. Applications approved for on-stream storage reservoirs will, unless specifically waived by the Director, require permanent flow measuring devices both upstream and downstream from the reservoir. (7-1-21)

05. Well Spacing and Well Construction Requirements. Applications approved for diversion of groundwater may include conditions requiring well spacing and well construction requirements. (7-1-21)

06. Reprocessed Permits. Permits reprocessed pursuant to Section 42-203D, Idaho Code, may be cancelled, modified or conditioned by the Director to make the permit comply in every way with any permit that would be issued for the same purpose based upon a new application processed under these rules. (7-1-21)

07. Voiding Approval of Permit. Permits may be conditioned to authorize the Director to void the
approval of the permit if he determines that the applicant submitted false or misleading information on the application or supporting documents.

(7-1-21)T

08. **Retention of Jurisdiction.** The Director may condition permits to retain jurisdiction to insure compliance with the design, construction and operation provisions of the permit.

(7-1-21)T

09. **Insuring Minimum Stream Flows and Prior Rights.** The Director may condition permits to insure that established minimum stream flows and prior rights including prior rights reserved by federal law are not injured.

(7-1-21)T

10. **Insuring Compliance with Water Quality Standards.** The Director may condition permits to insure compliance with Idaho’s water quality standards.

(7-1-21)T

11. **Insuring Assignment of Interest.** The Director may condition a permit issued for trust water to require that any amendment (Section 42-211, Idaho Code), transfer (Section 42-222, Idaho Code), or assignment of interest in the permit by any method whatsoever shall not result in the project failing to meet the public interest criteria of Section 42-203C, Idaho Code except, however, lenders obtaining title to the project through default will have a reasonable period of time, as determined by the Director, to meet such criteria or to convey the project to a person or entity that does meet the criteria.

(7-1-21)T

051. -- 054. (RESERVED)

055. **MORATORIUM (RULE 55).**

a. **Applications for Permit.**

The Director may cease to approve applications for permit in a designated geographical area upon finding a need to:

i. Protect existing water rights;

ii. Insure compliance with the provisions of Chapter 2, Title 42, Idaho Code; and

iii. Prevent reduction of flows below a minimum stream flow which has been established by the Director or the board pursuant to applicable law.

(7-1-21)T

b. Notice of the Director’s action to cease application approval will be by:

i. Summary Order served by certified mail upon the then existing affected applicants; and

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area affected.

(7-1-21)T
c. Objections to the Director’s action shall be considered under the department’s adopted Rules of Procedure and applicable law.

(7-1-21)T

02. **Permits.**

a. To the extent a permit has not been developed, the Director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Subsection 055.01.

(7-1-21)T

b. Notice of the Director’s action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

(7-1-21)T
ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area. (7-1-21)

c. Objections to the Director’s action shall be considered under the department’s adopted Rules of Procedure and applicable law. (7-1-21)

056. -- 999. (RESERVED)
APPENDIX A

Geographic Area From Which Groundwater is Determined to Be Tributary to the Snake River in the Milner Dam to Swan Falls Dam Reach.

- Tributary Area
- Draped Aquifers Not Tributary But Designated Regional Aquifer Tributary.
APPENDIX B

SUGGESTED IRRIGATION SEASONS IN IDAHO

50% chance of a 28°F frost occurring before or after the dates given.

- March 15 - November 15
- April 1 - November 1
- April 15 - October 15
APPENDIX C

Administrative Regions of the Idaho DEPT. of WATER RESOURCES
000. LEGAL AUTHORITY (RULE 0).
The Idaho Water Resource Board adopts these administrative rules with the authority provided by Section 42-238(12), Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 1).

01. Title. These rules are cited as IDAPA 37.03.09, “Well Construction Standards Rules.” (7-1-21)

02. Scope. The Department of Water Resources has statutory responsibility for the statewide administration of the rules governing well construction. These rules establish minimum standards for the construction of all new wells and the modification and decommissioning (abandonment) of existing wells. The intent of the rules is to protect the ground water resources of the state against waste and contamination. These rules are applicable to all water wells, monitoring wells, low temperature geothermal wells, injection wells, cathodic protection wells, closed loop heat exchange wells, and other artificial openings and excavations in the ground that are more than eighteen (18) feet in vertical depth below land surface as described in these rules pursuant to Section 42-230 Idaho Code. Some artificial openings and excavations do not constitute a well. For the purposes of these rules, artificial openings and excavations not defined as wells are described in Subsection 045.03 of these rules. Any time that such an artificial opening or excavation is constructed, modified, or decommissioned (abandoned) the intent of these rules must be observed. If waste or contamination is attributable to this type of artificial opening or excavation, the artificial opening or excavation must be modified, or decommissioned (abandoned) as determined by the Director. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
Unless the context otherwise requires, the following definitions apply to these rules. (7-1-21)

01. Approved Seal or Seal Material. Seal material must consist of bentonite chips, pellets, or granules, bentonite grout, neat cement, or neat cement grout as defined by these rules. No other materials may be used unless specifically authorized by the Director. (7-1-21)

02. Annular Space. The space, measured as one-half (1/2) the difference in diameter between two (2) concentric cylindrical objects, one of which surrounds the other, such as the space between the walls of a drilled hole (borehole) and a casing or the space between two strings of casing. (7-1-21)

03. Aquifer. Any geologic formation(s) that will yield water to a well in sufficient quantities to make the production of water from the formation feasible for beneficial use. (7-1-21)

04. Area of Drilling Concern. An area designated by the Director in which drillers must comply with additional standards to prevent waste or contamination of ground or surface water due to such factors as aquifer pressure, vertical depth of the aquifer, warm or hot ground water, or contaminated ground or surface waters, in accordance with Section 42-238(7), Idaho Code. (7-1-21)

05. Artesian Water. Any water that is confined in an aquifer under pressure so that the water will rise in the well casing or drilled hole above the elevation where it was first encountered. This term includes water of flowing and non-flowing wells. (7-1-21)

06. Artificial Filter Pack. Clean, rounded, smooth, uniform, sand or gravel placed in the annular space around a perforated well casing or well screen. A filter pack is frequently used to prevent the movement of finer material into the well casing and to increase well efficiency. (7-1-21)

07. Bentonite. A commercially processed and packaged, low permeability, sodium montmorillonite clay certified by the NSF International for use in well construction, sealing, plugging, and decommissioning (abandonment). All bentonite products used in the construction or decommissioning (abandonment) of wells must have a permeability rating not greater than $10^{-7}$ (ten to the minus seven) cm/sec. (7-1-21)

a. Chips. Bentonite composed of pieces ranging in size from one-quarter (1/4)-inch to one (1) inch on their greatest dimension. (7-1-21)

b. Granules (also Granular). Bentonite composed of pieces ranging in size from one thirty-seconds (1/32) inch (#20 standard mesh) to seven thirty-seconds (7/32) inch (#3 standard mesh) on their greatest dimension. (7-1-21)
c. Bentonite Grout. A mixture of bentonite specifically manufactured for use as a well sealing or plugging material and potable water to produce a grout with an active solids content not less than twenty-five percent (25%) by weight e.g., (twenty-five percent (25%) solids content by weight = fifty (50) pounds bentonite per eighteen (18) gallons of water).

d. Pellets. Bentonite manufactured for a specific purpose and composed of uniform sized, one-quarter (1/4) inch, three-eighths (3/8) inch, or one-half (1/2) inch pieces on their greatest dimension.

08. Board. The Idaho Water Resource Board.

09. Bore Diameter. The diameter of the hole in the formation made by the drill bit or reamer.

10. Borehole (also Well Bore). The subsurface hole created during the drilling process.

11. Bottom Hole Temperature of an Existing or Proposed Well. The temperature of the ground water encountered in the bottom of a well or borehole.

12. Casing. The permanent conduit installed in a well to provide physical stabilization, prevent caving or collapse of the borehole, maintain the well opening and serve as a solid inner barrier to allow for the installation of an annular seal. Casing does not include temporary surface casing, well screens, liners, or perforated casing as otherwise defined by these rules.

13. Cathodic Protection Well. Any artificial excavation in excess of eighteen (18) feet in vertical depth constructed for the purpose of protecting certain metallic equipment in contact with the ground. Commonly referred to as cathodic protection.

14. Closed Loop Heat Exchange Well. A ground source thermal exchange well constructed for the purpose of installing any underground system through which fluids are circulated but remain isolated from direct contact with the subsurface or ground water.

15. Conductor Pipe. The first and largest diameter string of permanent casing to be installed in a low temperature geothermal resource well.

16. Confining Layer. A subsurface zone of low-permeability earth material that naturally acts to restrict or retard the movement of water or contaminants from one zone to another. The term does not include topsoil.

17. Consolidated Formations. Naturally-occurring geologic formations that have been lithified (turned to stone) such as sandstone and limestone, or igneous rocks such as basalt and rhyolite, and metamorphic rocks such as gneiss and slate.

18. Contaminant. Any physical, chemical, ion, radionuclide, synthetic organic compound, microorganism, waste, or other substance that does not occur naturally in ground water or that naturally occurs at a lower concentration.

19. Contamination. The introduction into the natural ground water of any physical, chemical, biological or radioactive material that may:

a. Cause a violation of Idaho Ground Water Quality Standards; or

b. Adversely affect the health of the public; or

c. Adversely affect a designated or beneficial use of the State’s ground water. Contamination includes the introduction of heated or cooled water into the subsurface that will alter the ground water temperature and render the local ground water less suitable for beneficial use, or the introduction of any contaminant that may cause a
violation of IDAPA 58.01.11, “Ground Water Quality Rule.”

20. **Decommissioned (Abandoned) Well.** Any well that has been permanently removed from service and filled or plugged in accordance with these rules so as to meet the intent of these rules. A properly decommissioned well will not:
   a. Produce or accept fluids; (7-1-21)
   b. Serve as a conduit for the movement of contaminants inside or outside the well casing; or (7-1-21)
   c. Allow the movement of surface or ground water into unsaturated zones, into another aquifer, or between aquifers. (7-1-21)

21. **Decontamination.** The process of cleaning equipment intended for use in a well in order to prevent the introduction of contaminants into the subsurface and contamination of natural ground water. (7-1-21)

22. **Department.** The Idaho Department of Water Resources. (7-1-21)

23. **Dewatering Well.** A well constructed for the purpose of improving slope stability, drying up borrow pits, or intercepting seepage that would otherwise enter an excavation. (7-1-21)

24. **Director.** The Director of the Idaho Department of Water Resources or his duly authorized representatives. (7-1-21)

25. **Disinfection.** The introduction of chlorine or other agent or process approved by the Director in sufficient concentration and for the time required to inactivate or kill fecal and Coliform bacteria, indicator organisms, and other potentially harmful pathogens. (7-1-21)

26. **Draw Down.** The difference in vertical distance between the static water level and the pumping water level. (7-1-21)

27. **Drive Point (also known as a Sand Point).** A conduit pipe or casing through which ground water of any temperature is sought or encountered created by joining a “drive point unit” to a length of pipe and driving the assembly into the ground. (7-1-21)

28. **Exploratory Well.** A well drilled for the purpose of discovering or locating new resources in unproven areas. They are used to extract geological, hydrological, or geophysical information about an area. (7-1-21)

29. **Global Positioning System (GPS).** A global navigational receiver unit and satellite system used to triangulate a geographic position. (7-1-21)

30. **Hydraulic Conductivity.** A measurement of permeability. (7-1-21)

31. **Hydraulic Fracturing.** A process whereby water or other fluid is pumped under high pressure into a well to further fracture the reservoir rock or aquifer surrounding the production zone of a well to increase well yield. (7-1-21)

32. **Injection Well.** Any excavation or artificial opening into the ground which meets the following three (3) criteria:
   a. It is a bored, drilled or dug hole, or is a driven mine shaft or driven well point; and (7-1-21)
   b. It is deeper than its largest straight-line surface dimension; and (7-1-21)
   c. It is used for or intended to be used for subsurface placement of fluids. (7-1-21)
33. **Intermediate String or Casing.** The casing installed and sealed below the surface casing within a low temperature geothermal resource well to isolate undesirable water or zones below the bottom of the surface casing. Such strings may either be lapped into the surface casing or extend to land surface. (7-1-21)

34. **Liner.** (7-1-21)
   
a. A conduit pipe that can be removed from the borehole or well that is used to serve as access and protective housing for pumping equipment and provide a pathway for the upward flow of water within the well. (7-1-21)

   b. Liner does not include casing required to prevent caving or collapse, or both, of the borehole or serve as a solid inner barrier to allow for the installation of an annular seal. (7-1-21)

35. **Mineralized Water.** Any naturally-occurring ground water that has an unusually high amount of chemical constituents dissolved within the water. Water with five thousand (5000) mg/L or greater total dissolved solids is considered mineralized. (7-1-21)

36. **Modify.** To deepen a well, increase or decrease the diameter of the casing or the well bore, install a liner, place a screen, perforate existing casing or liner, alter the seal between the casing and well bore, or alter the well to not meet well construction standards. (7-1-21)

37. **Monitoring Well.** Any well more than eighteen (18) feet in vertical depth constructed to evaluate, observe or determine the quality, quantity, temperature, pressure or other characteristics of the ground water or aquifer. (7-1-21)

38. **Neat Cement.** A mixture of water and cement in the ratio of not more than six (6) gallons of water to ninety-four (94) pounds of Portland cement (neat cement). Other cement grout mixes may be used if specifically approved by the Director. (7-1-21)

39. **Neat Cement Grout.** Up to five percent (5%) bentonite by dry weight may be added per sack of cement (neat cement grout) and the water increased to not more than six and one-half (6.5) gallons per sack of cement. Other neat cement mixes may be used if specifically approved by the Director. These grouts must be mixed and installed in accordance with the American Petroleum Institute Standards - API Class A through H. As found in API RP10B, “Recommended Practice for Testing Oil Well Cements and Cement Additives,” current edition or other approved standards. (7-1-21)

40. **Oxidized Sediments.** Sediments, characterized by distinct coloration, typically shades of brown, red, or tan, caused by the alteration of certain minerals in an environment with a relative abundance of oxygen. (7-1-21)

41. **Perforated Well Casing.** Well casing that has been modified by the addition of openings created by drilling, torch cutting, saw cutting, mechanical down-hole perforator, or other method. (7-1-21)

42. **Pitless Adaptor or Pitless Unit.** An assembly of parts designed for attachment to a well casing which allows buried pipe to convey water from the well or pump and allows access to the interior of the well casing for installation or removal of the pump or pump appurtenances, while maintaining a water tight connection through the well casing and preventing contaminants from entering the well. (7-1-21)

43. **Potable Water.** Water of adequate quality for human consumption. (7-1-21)

44. **Pressure Grouting (Grouting).** The process of pumping and placing an approved grout mixture into the required annular space, by positive displacement from bottom to top using a tremie pipe, Halliburton method, float shoe, or other method approved by the Director. (7-1-21)

45. **Production Casing.** The casing or tubing through which a low temperature geothermal resource is produced. This string extends from the producing zone to land surface. (7-1-21)
46. **Public Water System.** A system for the provision to the public of water for human consumption through pipes or, after August 5, 1998, other constructed conveyances, if such system has at least fifteen (15) service connections, regardless of the number of water sources or configuration of the distribution system, or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year. Such term includes:

   a. Any collection, treatment, storage, and distribution facilities under the control of the operator of such system and used primarily in connection with such system; and
   b. Any collection or pretreatment storage facilities not under such control that are used primarily in connection with such system.
   c. Such term does not include any “special irrigation district.”
   d. A public water system is either a “community water system” or a “non-community water system.”

47. **Reduced Sediments.** Sediments, characterized by distinct coloration, typically shades of blue, black, gray, or green, caused by the alteration of certain minerals in an oxygen poor environment.

48. **Remediation Well.** A well used to inject or withdraw fluids, vapor, or other solutions approved by the Director for the purposes of remediating, enhancing quality, or controlling potential or known contamination. Remediation wells include those used for air sparging, vapor extraction, or injection of chemicals for remediation or in-situ treatment of contaminated sites.

49. **Sand.** Any sediment particle retained on a U.S. standard sieve #200 (Seventy-five hundredths (0.075) mm to two (2) mm).

50. **Screen (Well Screen).** A commercially produced structural tubular retainer with standard sized openings to facilitate production of sand free water.

51. **Seal or Sealing.** The placement of approved seal material in the required annular space between a borehole and casing, between casing strings, or as otherwise required to create a low permeability barrier and prevent movement or exchange of fluids. Seals are required in the construction of new wells, repair of existing wells, and in the decommissioning (abandonment) of wells. Seals are essential to the prevention of waste and contamination of ground water.

52. **Start Card.** An expedited drilling permit process for the construction of cold water, single-family residential wells.

53. **Static Water Level.** The height at which water will rise in a well under non-pumping conditions.

54. **Surface Casing.** The first string of casing in a low temperature geothermal resource well which is set and sealed after the conductor pipe to anchor blow out prevention equipment and to case and seal out all existing cold ground water zones.

55. **Temporary Surface Casing.** Steel pipe used to support the borehole within unstable or unconsolidated formations during construction of a well that will be removed following the installation of the permanent well casing and prior to or during placement of an annular seal.

56. **Thermoplastic/PVC Casing.** Plastic piping material meeting the requirements of ASTM F 480 and specifically designed for use as well casing.

57. **Transmissivity.** The capacity of an aquifer to transmit water through its entire saturated thickness.
58. **Tremie Pipe.** A small-diameter pipe used to convey grout, dry bentonite products, or filter pack materials into the annular space, borehole, or well from the bottom to the top of a borehole or well. (7-1-21)

59. **Unconfined Aquifer.** An aquifer in which the water table is in contact with and influenced by atmospheric pressure through pore spaces in the overlying formation(s). (7-1-21)

60. **Unconsolidated Formation.** A naturally-occurring earth formation that has not been lithified. Alluvium, soil, sand, gravel, clay, and overburden are some of the terms used to describe this type of formation. (7-1-21)

61. **Unstable Unit.** Unconsolidated formations, and those portions of consolidated formations, that are not sufficiently hard or durable enough to sustain an open borehole without caving or producing obstructions without the aid of fluid hydraulics or other means of chemical or physical stabilization. (7-1-21)

62. **Unusable Well.** Any well that can not be used for its intended purpose or other beneficial use authorized by law. (7-1-21)

63. **Waiver.** Approval in writing by the Director of a written request from the well driller and the well owner proposing specific variance from the minimum well construction standards. (7-1-21)

64. **Waste.** The loss, transfer, or subsurface exchange of a ground water resource, thermal characteristic, or natural artesian pressure from any aquifer caused by improper construction, misuse, or failure to properly maintain a well. Waste includes:
   a. The flow of water from an aquifer into an unsaturated subsurface zone; (7-1-21)
   b. The transfer or mixing, or both, of waters from one aquifer to another (aquifer commingling); or (7-1-21)
   c. The release of ground water to the land surface whenever such release does not comply with an authorized beneficial use. (7-1-21)

65. **Water Table.** The height at which water will rise in a well; also the upper surface of the zone of saturation in an unconfined aquifer. This level will change over time due to changes in water supply and aquifer impacts. (7-1-21)

66. **Well.**
   a. An artificial excavation or opening in the ground more than eighteen (18) feet in vertical depth below land surface by which ground water of any temperature is sought or obtained. The depth of a well is determined by measuring the maximum vertical distance between the land surface and the deepest portion of the well. Any water encountered in the well is considered to be obtained for the purpose of these rules; or (7-1-21)
   b. Any waste disposal and injection well, as defined in Section 42-3902, Idaho Code. (7-1-21)
   c. Well does not mean:
      i. A hole drilled for mineral exploration; or (7-1-21)
      ii. Holes drilled for oil and gas exploration which are subject to the requirements of Section 47-320, Idaho Code; or (7-1-21)
      iii. Holes drilled for the purpose of collecting soil samples above the water table. (7-1-21)

67. **Well Development.** The act of bailing, jetting, pumping, or surging water in a well to remove drilling fluids, fines, and suspended materials from within a completed well and production zone in order to establish
the optimal hydraulic connection between the well and the aquifer. (7-1-21)T

68. **Well Driller or Driller.** Any person who operates drilling equipment, or who controls or supervises the construction of a well, and is licensed under Section 42-238, Idaho Code. (7-1-21)T

69. **Well Drilling or Drilling.** The act of constructing a new well or modifying or changing the construction of an existing well. (7-1-21)T

70. **Well Owner.** Any person, firm, partnership, co-partnership, corporation, association, or other entity, or any combination of these, who owns the property on which the well is or will be located or has secured ownership of the well by means of a deed, covenant, contract, easement, or other enforceable legal instrument for the purpose of benefiting from the well. (7-1-21)T

71. **Well Rig (Drill Rig).** Any power driven percussion, rotary, boring, digging, jetting or auguring machine used in the construction of a well. (7-1-21)T

011. -- 024. (RESERVED)

025. **CONSTRUCTION OF COLD WATER WELLS (RULE 25).** All persons constructing wells must comply with the requirements of Section 42-238, Idaho Code, and IDAPA 37.03.10, “Well Driller Licensing Rules.” The standards specified in Rule 25 apply to all wells with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Wells with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit, but less than two hundred twelve (212) degrees Fahrenheit, must meet the requirements of Rule 30 in addition to meeting the requirements of Rule 25. These standards also apply to any waste disposal and injection well as defined in Section 42-3902, Idaho Code. (7-1-21)T

01. **General.** The well driller must construct each well as follows: (7-1-21)T

a. In accordance with these rules and with the conditions of approval of any drilling permit issued pursuant Section 42-235, Idaho Code, and in a manner that will prevent waste and contamination of the ground water resources of the state of Idaho. The adopted standards are minimum standards which must be adhered to in the construction of all new wells, and in the modification or decommissioning (abandonment) of existing wells. The well driller is charged with the responsibility of preventing waste or contamination of the ground water resources during the construction, modification or abandonment of a well. The Director may add conditions of approval to a drilling permit issued pursuant to Rule 45 of these rules to require that a well be constructed, modified, or decommissioned (abandoned) in accordance with additional standards when necessary to protect ground water resources and the public health and safety from existing contamination and waste or contamination during the construction, modification or decommissioning (abandonment) of a well. (7-1-21)T

b. In consideration of the geologic and ground water conditions known to exist or anticipated at the well site. (7-1-21)T

c. Such that it is capable of producing, where obtainable, the quantity of water to support the allowed or approved beneficial use of the well, subject to law; (7-1-21)T

d. Meet the siting and separation distance requirements in the table in this Subsection (025.01.d.). Additional siting and separation distance requirements are set forth by the governing district health department and the Idaho Department of Environmental Quality rules at IDAPA 58.01.03, “Individual/Subsurface Sewage Disposal Rules,” and IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems”.

02. **Waivers.** In unique cases where the Director concludes that the ground water resources will be protected against waste and contamination and the public health and safety are not compromised, a waiver of specific standards required by these rules may be approved prior to constructing, decommissioning, or modifying a well.

   a. To request a waiver the well driller and well owner must:

      i. Jointly submit a detailed plan and written request identifying a specific Rule or Rules proposed to be waived. Additionally, the plan must detail the well construction process that will be employed in lieu of complete Rule compliance:

      **(7-1-21)T**

      ii. Prior to submittal, the well driller and the well owner must sign the plan and written request acknowledging concurrence with the request; and

      **(7-1-21)T**

      iii. Submit the plan and request by facsimile, e-mail, or letter.

   b. The Director will evaluate and respond to the request within ten (10) business days of receiving the request.

      i. If the request for waiver is approved, the intent of the rules will be served and all standards not waived will apply. Waivers approved by the Director will not supersede requirements of other regulatory agencies without specific concurrence from that agency. Work activity related to a waiver request will not proceed until a written or verbal approval is granted by the Director.

      **(7-1-21)T**

      ii. Any verbal approval will be followed by a written approval.

**Separation of Well from:** | **Minimum Separation Distance (feet)**
---|---
Other existing well, separate ownership | 25
Septic drain field | 100
Septic tank | 50
Drainfield of system with more than 2,500 GPD of sewage inflow | 300*
Sewer line - main line or sub-main, pressurized, from multiple sources | 100
Sewer line - main line or sub-main, gravity, from multiple sources | 50
Sewer line - secondary, pressure tested, from a single residence or building | 25
Effluent pipe | 50
Property line | 5
Permanent buildings, other than those to house the well or plumbing apparatus, or both | 10
Above ground chemical storage tanks | 20
Permanent (more than six months) or intermittent (more than two months) surface water | 50
Canals, irrigation ditches or laterals, & other temporary (less than two months) surface water | 25

*This distance may be less if data from a site investigation demonstrates compliance with IDAPA 58.01.03, "Individual/Subsurface Sewage Disposal Rules," separation distances.
03. Records. In order to enable a comprehensive survey of the extent and occurrence of the state’s ground water resource, the coordinates of every newly constructed, modified or decommissioned (abandoned) well location must be identified by latitude and longitude with a global positioning system (GPS) and recorded on the driller’s report in degrees and decimal minutes and within the nearest 40 acre parcel using the Public Land Survey System. Every well driller must maintain records as described in IDAPA 37.03.10 “Well Driller Licensing Rules,” pursuant to Section 42-238(11), Idaho Code, and provide the well owner with a copy of the approved well drilling permit and a copy of the well driller’s report when submitted to the Director. (7-1-21)

04. Casing. The well driller must install casing in every well. Steel or thermoplastic casing may be installed in any well with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Thermoplastic pipe must not be installed in a well with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit. All casing to be installed must be new or in like-new condition, free of defects, and clearly marked by the manufacturer with all specifications required by these rules. For all wells the casing must extend at least twelve (12) inches above land surface and finished grade and to a minimum depth below land surface as required by these rules. Concrete slabs around a well casing will be considered finished grade (Figure 01, Appendix A). The well driller must install casing of sufficient strength to withstand calculated and anticipated subsurface forces and corrosive effects. The well driller must install casings sufficiently plumb and straight to allow the installation or removal of screens, liners, pumps and pump columns without causing adverse effects on the operation of the installed pumping equipment. (7-1-21)

a. Steel Casing. When steel casing lengths are joined together, they must be joined by welded joints or screw-couple joints. All connection must be water tight. If steel casing joints are welded, the weld must be at least as thick as the well casing and fully penetrating. Welding rods or flux core wire of at least equal quality to the casing metal must be used. Casing ends to be joined by welding must be properly prepared, beveled and gapped to allow full penetration of the weld. All stick welded joints must have a minimum of two (2) passes including a “root” pass and have minimal undercut when complete. (7-1-21)

i. In addition to meeting these standards, all wells that are constructed for public water systems must meet all of the casing wall thickness requirements set forth by the Idaho Department of Environmental Quality Rules, IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems.” (7-1-21)

ii. The well driller must install steel casing that meets or exceeds the American Society of Testing and Materials (ASTM) standard A53, Grade B or American Petroleum Institute (API) 5L Grade B, and that meets the following specifications for wall thickness:

</table>
b. Thermoplastic Casing. Thermoplastic casing may be used in monitoring wells and cold water wells if drilling of the borehole confirms its suitability for use.

i. Thermoplastic casing must conform to ASTM F 480 and NSF-WC. The well driller must not use thermoplastic casing under any condition where the manufacturer’s resistance to hydraulic collapse pressure (RHCP) or total depth specifications are exceeded. Thermoplastic casing extending above-ground must be protected from physical and ultraviolet light damage by enclosing it within steel casing extending at least twelve (12) inches above land surface and finished grade and to a minimum depth of eighteen (18) feet below land surface or five (5) feet below land surface for monitoring wells.

ii. Thermoplastic pipe used in wells as casing or liner must have a minimum rating of SDR-21. For nominal diameters of four (4) inches or less, a minimum rating of Schedule 40 is required. If used as casing within unconsolidated or unstable consolidated formations, thermoplastic pipe must be centralized and fully supported throughout the unstable zone(s) with filter pack or seal material as required by these rules.

iii. All thermoplastic casing and liner must be installed in accordance with the manufacturer’s recommendations and specifications, and as required by these rules. The well driller will not treat thermoplastic pipe in any manner that would adversely affect its structural integrity. The well driller must:

1. Ensure that the weight of the pump assembly, if secured to the thermoplastic pipe, does not exceed the weight limitations per manufacturer’s recommendations or cause damage to the pipe resulting in breaks or leaks.

2. Not use Type III (high-early strength) Portland cement-based seal materials in direct contact with thermoplastic pipe unless approved by the Director.

3. Not drive, drop, force, or jack thermoplastic pipe into place. Thermoplastic pipe must be lowered or floated into an oversized, obstruction-free borehole.

c. Perforated Well Casing. Perforated well casing may be used in the construction or decommissioning of a well when such application does not violate any standards required by these rules.

05 Liner. In addition to well casing, liners may be installed in wells to prevent damage to pumping equipment. Steel or thermoplastic pipe may be installed as liner in a well with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Thermoplastic liner must conform to ASTM F 480 and NSF-WC. Thermoplastic liners must not be used in unconsolidated formations or unstable units.

06. Screen. Well screens must be used in constructing a well when necessary to avoid sand production (see sand production, Rule 25, Subsection 025.24). Well screens must be commercially manufactured, be slotted,
louvered or wire wrapped, and be installed according the manufacturers specifications. (7-1-21)

a. Screens may require a filter pack consisting of sand or gravel to further reduce the quantity of sand produced from the well. (7-1-21)

b. The well driller will not install well screens, perforated casing or filter pack across a confining layer(s) separating aquifers of different pressure, temperature, or quality. (7-1-21)

07. Use of Approved Sealing Materials and Required Annular Space. Well casings must be sealed in the required annular space with approved material to prevent the possible downward movement of contaminated surface waters or other fluids in any annular space around the well casing (Figure 02, Appendix A). Proper sealing is also required to prevent the movement of groundwater either upward or downward from zones of different pressure, temperature or quality within the well or outside the casing. The well driller must notify by phone the Department’s appropriate Region Office at least four (4) hours in advance of placing any annular seal to provide Department staff the opportunity to observe seal placement. (7-1-21)

a. All casing to be sealed must be adequately centralized to ensure uniform seal thickness around the well casing. Surface seals must extend to not less than thirty-eight (38) feet below land surface for well depths greater than thirty-eight (38) feet. For well depths less than thirty-eight (38) feet, seals must extend to depths as hereafter required. (7-1-21)

b. Seals are required at depths greater than thirty-eight (38) feet in artesian wells or to seal through confining layers separating aquifers of differing pressure, temperature, or quality in any well. (7-1-21)

c. When a well is modified and the existing casing is moved or the original seal is damaged, or a well driller discovers that a seal was not installed or has been damaged, the well driller must repair, replace, or install a seal around the permanent casing that is equal to or better than required when the well was originally constructed. (7-1-21)

d. Manufactured packers and shale traps may be used as devices to retain approved seal material when installing a required annular seal. Whenever these devices are used to retain seal material, the well driller must comply with the manufacturer’s recommendations for installation. (7-1-21)

e. If a temporary casing has been installed, upon completion of the drilling, the annular space must be filled with approved seal material and kept full while withdrawing the temporary casing. Bentonite chips should be used with caution when the annular space between a temporary casing and permanent casing is filled with water. (7-1-21)

i. When attempts at removing a temporary casing are unsuccessful, the casing must be sealed in place by a method approved by the department. (7-1-21)

ii. The well driller must notify the department whenever a temporary casing can not be removed and propose a plan to adequately seal the casing to prevent waste and contamination of the ground water. The plan must detail how the casing will be sealed on the outside to a sufficient depth below land surface in addition to placement of any required formation seals through the interval at which the casing will remain. (7-1-21)

f. For mixed grout seals the minimum annular space required must provide for a uniform seal thickness not less than one (1) inch on all sides of the casing or a borehole at least two (2) inches larger than the outside diameter (OD) of the casing to be sealed (Figure 02, Appendix A). (Note: a seven and seven-eighths (7 7/8) inch diameter (eight (8) inch nominal) borehole around a six and five-eighths (6 5/8) inch OD (six (6) inch nominal casing does not satisfy the minimum annular space requirements). (7-1-21)

i. When placing grout seals with a removable tremie pipe between casing strings or between a borehole and casing, the required annular space must be at least one (1) inch or equal to the OD of the tremie pipe whichever is greater. Permanent tremie pipes will be considered as a casing string and subject to minimum annular space requirements in addition to the annular space requirements around the well casing (Figure 03, Appendix A). (7-1-21)
ii. All grout seals must be placed from the bottom up, by using an approved method. Bentonite grout must not be used above the water table unless specifically designed and manufactured for such use and approved by the Director in advance. (7-1-21)

iii. If cement-based grout (neat cement or neat cement grout) is used to create a seal, the casing string sealed must not be moved or driven after the initial set. Construction must not resume for a minimum of twenty-four (24) hours following seal placement; (7-1-21)

g. For dry bentonite seals the minimum annular space required must provide for a uniform seal thickness not less than one and five-eighths (1 5/8) inches on all sides of the casing or a borehole at least four (4) inches larger than the “nominal diameter” of the casing to be sealed. e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a ten and three-fourths (10 3/4) inch OD (ten (10) inch nominal) temporary casing or a nine and seven-eighths (9 7/8) inch (ten (10) inch nominal) minimum borehole). Listed below are additional annular space requirements and limitations for placement of dry bentonite seals:

i. All dry bentonite seals must be tagged during placement and consider volumetric calculations to verify placement. (7-1-21)

ii. Installation of dry bentonite seals must be consistent with the manufacturers’ recommendations and specifications for application and placement. (7-1-21)

iii. Granular bentonite must not be placed through water. (7-1-21)

iv. If a granular bentonite seal is placed deeper than two hundred (200) feet, the minimum annular space must be increased by at least one (1) inch e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a twelve and three-fourths (12 3/4) inch OD (twelve (12) inch nominal) temporary casing or an eleven and seven-eights (11 7/8) inch (twelve (12) inch nominal) minimum borehole). (7-1-21)

v. Bentonite chips may be placed through water or drilling fluid of appropriate viscosity. Bentonite chip seals placed through more than fifty (50) feet of water or drilling fluid will require the minimum annular space to be increased by at least one (1) inch e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a twelve and three-fourths (12 3/4) inch OD (twelve (12) inch nominal) temporary casing or an eleven and seven-eights (11 7/8) inch (twelve (12) inch nominal) minimum borehole). (7-1-21)

08. Sealing of Wells. Sealing requirements described herein are minimum standards that apply to all wells. The Director may establish alternate minimum sealing requirements in specific areas when it can be determined through detailed studies of the local hydrogeology that a specific alternate minimum will provide protection of the ground water from waste and contamination. (7-1-21)

a. Consolidated Formations. When a water well is drilled into and acquires water from an aquifer that consists of consolidated formations that are above the water table, casing must be installed so that it extends and is sealed to a depth not less than thirty-eight (38) feet (Figure 04, Appendix A). If the well depth is less than thirty-eight (38) feet from land surface, well casing must be installed and sealed five (5) feet into the consolidated formation or to a depth of eighteen (18) feet, whichever is greater. (7-1-21)

b. Unconsolidated Formations without Confining Layers of Clay. When a water well is drilled into and acquires water from an unconfined aquifer that is overlain with unconsolidated formations, such as sand and gravel without confining layers of clay, well casing must extend to at least five (5) feet below the water table and be sealed to a depth not less than thirty-eight (38) feet (Figure 05, Appendix A). If the well depth is less than thirty-eight (38) feet well casing must extend to at least five (5) feet below the water table or eighteen (18) feet, whichever is greater, and be sealed to a depth of at least eighteen (18) feet. (7-1-21)

i. The extensive (for example, one hundred fifty (150) feet thick or more) unconsolidated, non-stratified, sand and gravel of the Rathdrum Prairie are characterized by extremely high transmissivity and hydraulic conductivity. Under these conditions, sealing wells to depths greater than eighteen (18) feet may not be additionally protective. When a water well is drilled within the boundaries of the Rathdrum Prairie, (shown in Figure 06,
Appendix A of these rules), well casing must extend to at least five (5) feet below the water table and be sealed to a depth not less than eighteen (18) feet (Figure 07, Appendix A).

**Unconsolidated Formations with Confining Layers of Clay.** When a well is drilled into and acquires water from an aquifer that is overlain by unconsolidated deposits such as sand and gravel, and there are confining layers of clay above the water table, well casing must be installed from the land surface to the confining layer immediately above and in contact with the production zone and sealed to a depth not less than thirty-eight (38) feet (Figure 08, Appendix A). If the well depth is less than thirty-eight (38) feet from land surface, well casing must extend and be sealed into the first confining layer or to a depth of eighteen (18) feet, whichever is greater. (7-1-21)

**09. Sealing Artesian Wells.**

**a.** Unconsolidated Formations. When artesian water is encountered in unconsolidated formations, the production zone or open interval must be limited to zones of like pressure, temperature, and quality. Water encountered in oxidized sediments must not be comingled with water encountered in reduced sediments. Well casing must extend from land surface into the lowermost confining layer above the production zone, and must be sealed:

i. From land surface to a depth of at least thirty-eight (38) feet; and

ii. Through all confining layer(s); and

(1) A minimum of five (5) feet of seal material must be placed into or through the lowermost confining layer above the production zone (Figure 09, Appendix A); or

(2) Five (5) feet into or through the lowermost confining layer above the production zone and continuously to land surface (Figure 09, Appendix A).

iii. If the well depth is less than thirty-eight (38) feet, the well must be cased and sealed from land surface to the confining layer in direct contact with the production zone or to a depth of eighteen (18) feet, whichever is greater.

**b.** Consolidated Formations. When artesian water is encountered in a consolidated formation, well casing must be installed and sealed from land surface to a depth of at least thirty-eight (38) feet; and

i. If the consolidated formation is overlain by a permeable formation(s) and water will rise above the consolidated formation, well casing must extend and be sealed at least five (5) feet into the confining portion of the consolidated formation (Figure 10, Appendix A).

ii. If the well depth is less than thirty-eight (38) feet, the well must be cased and sealed from land surface five (5) feet into the confining consolidated formation or to a depth of eighteen (18) feet, whichever is greater.

**c.** Control Device. Pursuant to Section 42-1603, Idaho Code, if the well flows at land surface, it must be equipped with a control device approved by the Director, so that the flow can be completely stopped. If leaks occur around the well casing or adjacent to the well, the well must be completed with seals, casing or cement grout to eliminate the leakage.

i. Flowing artesian wells must be equipped with an approved pressure gage fitting that will allow access for measurement of shut-in pressure of a flowing well. All pressure gage fittings must include control valves such that the pressure gage can be removed without resulting in artesian flow from the well.

ii. The well driller must not move his well drilling rig from the site until all requirements have been satisfied. Some mixing of water may be allowed to develop an adequate water well; however, the mixing must be restricted to water zones of similar pressure, temperature and quality. The driller must take precautions to case and seal out zones which may lead to waste or contamination.
10. **Alternative Methods for Sealing Wells.** To accommodate for new technology, and in consideration of the wide variety of drilling equipment used to construct wells, other methods of sealing wells not specifically addressed in these rules may be allowed. The Director may consider specific proposals for alternative methods of sealing on a case by case basis. Director approval or acceptance of such procedures will not constitute a “waiver” of any requirements of these rules. In such cases, the well driller must provide sufficient information for the Director to determine that the full intent of the sealing requirements will be satisfied if an alternative method is employed. If it is determined that a specific alternate method will provide protection of the ground water from waste and contamination, the Director may issue a statement of acceptance qualifying the use and implementation of such methods.

11. **Injection Wells.** In addition to meeting the requirements of Rule 25 of these rules, the construction, modification, or decommissioning (abandonment) of all injection wells over eighteen (18) feet in vertical depth must also comply with the IDAPA 37.03.03, “Rules for the Construction and Use of Injection Wells,” and the injection well permit. Drillers must obtain from the Director a certified copy of the permit authorizing construction or modification of an injection well before beginning work.

12. **Cathodic Protection Wells.** All cathodic protection wells must be constructed by a licensed well driller in compliance with these rules. A detailed construction plan must be included with the drilling permit application.

13. **Monitoring and Remediation Wells.** All monitoring wells and remediation wells must be constructed and maintained in a manner that will prevent waste or contamination and as otherwise required by these rules. When a monitoring well or a remediation well is no longer useful or needed, the owner or operator of the well must decommission (abandon) the well in accordance with Rule 25, Subsection 025.16 of these rules. No person may divert ground water from a monitoring well or a remediation well for any purpose not authorized by the Director. The application for a permit for all monitoring wells and all remediation wells must include a design proposal prepared by a licensed engineer or registered geologist pursuant to Section 42-235, Idaho Code. Blanket permits for monitoring well and remediation well networks may be approved for site-specific monitoring and remediation programs. The designs and specification for monitoring wells and remediation wells must demonstrate that:

a. The ground water resources are protected against waste and contamination;

b. The well(s) will inject or withdraw only fluids, gases or solutions approved by the Director;

c. The well(s) will be constructed so as to prevent aquifer commingling; and

d. The well(s) will be properly decommissioned (abandoned) upon project completion and in accordance with these rules.

14. **Closed Loop Heat Exchange Wells.** The well driller must construct closed loop heat exchange wells consistent with these rules. The well driller is not required to install steel casing in such wells. When constructing a closed loop heat exchange well, the well driller must:

a. Construct each borehole of sufficient size to provide the annular space required by these rules.

b. Seal the annular space of each borehole with approved seal material in accordance with these rules;

c. Install fluid-tight circulating pipe, composed of high-density polyethylene, grade PE3408, minimum cell classifications PE355434C or PE345434C conforming to ASTM Standard D3350, or other Director-approved pipe;

d. Join pipe using thermal fusion techniques according to ASTM Standards D-3261 or D-2683. All personnel creating such system joints must be trained in the appropriate thermal fusion technologies;

e. Use only propylene glycol, or other circulating fluid approved by the Director;
f. Ensure that any other system additive is NSF approved and has prior approval from the Director; (7-1-21)

g. Pressure test each loop with potable water prior to grout installation; (7-1-21)

h. Pressure test the system with potable water prior to installation of the circulating fluid at one hundred percent (100%) of the designed system operating pressure for a minimum duration of twenty-four (24) hours; and (7-1-21)

i. Properly repair or decommission (abandon) all loops failing the test by pressure pumping approved seal material through the entire length of each failed loop. After grouting, loop ends must be fused together or capped. (7-1-21)

15. Access Port or Pressure Gage. Upon completion of a well and before removal of the well rig from the site, the well must be equipped with an access port that will allow for measurement of the depth to water or an approved pressure gage fitting that will allow access for measurement of shut-in pressure of an artesian flowing well. All pressure gage fittings must include control valves such that the pressure gage can be removed. Approved access ports are illustrated in Figure 11, APPENDIX A, together with approved locations for pressure gage fittings. Air lines are not a satisfactory substitution for an access port. Nonflowing domestic and stock water wells that are to be equipped with a sanitary seal with a built-in access port are exempt from this requirement. (7-1-21)

16. Decommissioning (Abandoning) of Wells. (7-1-21)

a. The well owner is charged with maintaining and properly decommissioning (abandoning) a well in a manner that will prevent waste or contamination, or both, of the ground water. No person is allowed to decommission a well in Idaho without first obtaining a driller’s license or receiving a waiver of the license requirement from the Director of the Department of Water Resources. Authorization is required from the Director prior to decommissioning any well. Upon decommissioning, the person who decommissioned the well must submit to the Director a report describing the procedure. (7-1-21)

b. The Director may require decommissioning of a well in compliance with the provisions of these rules, if the well:

i. Does not meet minimum well construction standards; (7-1-21)

ii. Meets the definition of an unusable well; (7-1-21)

iii. Poses a threat to human health and safety; (7-1-21)

iv. Is in violation of IDAPA 58.01.11, “Ground Water Quality Rule”; or (7-1-21)

v. Has no valid water right or other authorization acceptable to the Director for use of the well. (7-1-21)

c. When required by the Director, decommissioning must be done in accordance with the following: (7-1-21)

i. Cased wells and boreholes without a continuous seal from the top of the intakes or screen to the surface. The well driller must use one (1) of the following methods as applicable: (7-1-21)

   (1) The Director may require that well casing be perforated every five (5) feet from the bottom of the casing to within five (5) feet of the surface. Perforations made must be adequate to allow the free flow of seal material into any voids outside the well casing. There must be at least four equally spaced perforations per section circumference. Approved grout must be pressure pumped to fill any voids outside of the casing. A sufficient volume must be used to completely fill the well and annular space; or (7-1-21)
(2) Fill the borehole with approved seal material as the casing is being removed. (7-1-21)T

ii. Cased wells and boreholes with full-depth seals. If the well is cased and sealed from the top of the screen or production zone to the land surface, the well must be completely filled with approved seal material. (7-1-21)T

iii. Uncased wells must be completely filled with approved seal material. (7-1-21)T

iv. Dry hole wells or wells from which the quantity of water to meet a beneficial use cannot be obtained must be decommissioned with cement grout, concrete or other approved seal material in accordance with these rules. (7-1-21)T

17. Completion of a Well. The Director will consider that every well is completed when the well drilling equipment has been removed, unless written notice has been given to the Director by the well driller that he intends to return and do additional work on the well within a specified period of time. Upon completion of the well, the well must meet all of the required standards. (7-1-21)T

a. Upon completion of drilling and prior to removal of well drilling equipment from a water well site, the top of the casing must be completely covered with: (7-1-21)T

i. A one-fourth inch (1/4") thick solid, new or like-new steel plate with a three-fourths inch (3/4) threaded and plugged access port, welded to and completely covering the casing (Figure 12, Appendix A); or (7-1-21)T

ii. A threaded cap, or a commercially manufactured watertight sanitary well cap (Figure 12, Appendix A); or (7-1-21)T

iii. A commercially manufactured water-tight, snorkel-vented or non-vented well cap on any well susceptible to submergence; or (7-1-21)T

iv. A control device approved by the Director per Section 42-1603, Idaho Code, on any well that flows at land surface (Figure 11, Appendix A). (7-1-21)T

b. Upon the completion of every well, the well driller must permanently affix the stainless steel well tag to the steel surface casing in a manner and location that maintains tag legibility. For closed loop heat exchange wells, the well driller must obtain approval for the well tag placement and method of attachment. The well driller must secure each tag by: (7-1-21)T

i. A full-length weld across the top and down each side of the tag; or (7-1-21)T

ii. Using one (1) stainless steel, closed-end domed rivet near each of the four (4) corners of the tag. (7-1-21)T

iii. Prior to welding or riveting, the tag must be pre-shaped to fit the casing such that both sides to be welded or riveted touch the casing and no gaps exist between the tag and casing. (7-1-21)T

18. Pitless Adapters. When a pitless adaptor is used (Figure 12, Appendix A), the adaptor should be of the type approved by the NSF International testing laboratory or the approval code adopted by the Pitless Adaptor Division of the Water Systems Council. The pitless adaptor, including the cap or cover, casing extension, and other attachments, must be so designed and constructed to be water tight and to prevent contamination of the potable water supply from external sources. If a permanent surface or outer casing is installed and is cut off or breached to install the pitless adaptor on an inner well casing or liner, the space between the permanent outer casing and the liner or inner casing must be sealed. The well owner or person installing the pitless adaptor must then seal the excavation surrounding the pitless adaptor using an approved seal material. (7-1-21)T

19. Pump Installation. No person is allowed to install a pump into any well that would cause a violation of Rule 25, of these rules or other applicable rules or state law. (7-1-21)T
20. **Explosives.** Explosives used in well construction must never be detonated inside the required well casing. Approved explosive casing perforators may be exempted by the Director. (7-1-21)

21. **Hydraulic Fracturing.** Hydraulic fracturing must be performed only by well drillers licensed in Idaho. The pressure must be transmitted through a drill string and must not be transmitted to the well casing. The driller must provide a report to the Director of the fracturing work which must include well location, fracturing depth, fracturing pressures and other data as requested by the Director. (7-1-21)

22. **Drilling Fluids or Drilling Additives.** The well driller must use only potable water and drilling fluids or drilling additives that are manufactured for use in water wells, are NSF International, American Petroleum Institute (API), or ASTM/ANSI approved; and do not contain a concentration of any substance in excess of Primary Drinking Water Standards, as set forth in IDAPA 58.01.08, “Rules for Public Drinking Water Systems,” according to manufacturer’s specifications. The well driller may seek approval from the Director to use specific, non-certified products on a case-by-case basis. In addition, the well driller must ensure the containment of all drilling fluids and materials used or produced to the immediate drilling site, and will not dispose of such fluids or materials into any streams, canals, boreholes, wells, or other subsurface pathways. (7-1-21)

23. **Disinfection and Decontamination.** Upon completion of a well, the driller is responsible for adding the appropriate amount of disinfecting chemical compound and distributing it throughout the well to achieve a uniform concentration for “in place” disinfection of the well. Chlorine compounds used in accordance with the table listed below will satisfy this requirement. Other methods may be used if approved by the Director in advance.

<table>
<thead>
<tr>
<th>Casing Diameter (in.)</th>
<th>Gallons of water in casing per 100 ft. of water depth</th>
<th>Amount of 5.25% Sodium Hypochlorite (Unscented Laundry Bleach)</th>
<th>Amount of 65% Calcium Hypochlorite (Chlorine Granules)</th>
</tr>
</thead>
<tbody>

<td>1044</td>
<td>1 gal</td>
<td>1 ¾ cup</td>
</tr>
</tbody>
</table>

Note: 1 gal = 4 qt = 8 pt = 16 cups; 1 cup = 16 tbsp

Chlorine granules or tablets must be dissolved and placed into the well as a solution.

If another concentration of hypochlorite solution is used, the following equation should be used for calculating amounts.

\[(\text{Volume of water in gallons}) \times (0.08) / \% \text{ Hypochlorite (e.g. 50\% = 50) = cups of hypochlorite}\]

Example: To treat 147 gallons of water using a 50\% concentration of hypochlorite solution:

\[(147 \text{ gallons water}) \times (0.08) / 50 \approx 0.23 \text{ (or approximately ⅛ cup) of 50\% Hypochlorite solution}\]

24. **Sand Production.** The maximum sand content produced from a well after initial well development must not exceed fifteen (15) ppm. For the purpose of this rule, sand is considered to be any sediment particle retained on a U.S. standard sieve #200 (seventy-five hundredths (0.075) mm to two (2) mm). (7-1-21)

a. When necessary to mitigate sand production the well driller must: (7-1-21)
i. Construct each well with properly sized casing, screen(s) or perforated intake(s); and (7-1-21)

ii. Install properly sized filter pack(s); or (7-1-21)

iii. Install pre-packed well screens; or (7-1-21)

iv. Employ other methods approved by the Director. (7-1-21)

b. The Director may grant a waiver exempting a well producing water that exceeds the maximum sand content only if the well driller has met the requirements of Rule 25, Subsection 025.24.a. (7-1-21)

c. Sand production in public water system wells. Wells used in connection with a public water system have more stringent requirements. See IDAPA 58.01.08, “Idaho Rules for Public Water Systems.” (7-1-21)

25. Well Development and Testing. For each well the well driller must measure and record the static (non-pumping) water level and the pumping water level, and the production rate. The production rate will be determined by a pump, bailer, air-lift, or other industry approved test of sufficient duration to establish production from the well. For wells with no returns the driller must report no returns and the static water level. This information must be documented on the well driller’s report. (7-1-21)

026. -- 029. (RESERVED)

030. CONSTRUCTION OF LOW TEMPERATURE GEOTHERMAL RESOURCE WELLS AND BONDING (RULE 30).

01. General. Drillers constructing low temperature geothermal resource wells (bottom hole temperature more than eighty-five (85) degrees Fahrenheit and less than two hundred twelve (212) degrees Fahrenheit) must be qualified under the Well Driller Licensing Rules. All low temperature geothermal resource wells must be constructed in such a manner that the resource will be protected from waste due to lost artesian pressure and temperature. The owner or well driller is required to provide bottom hole temperature data, but the Director may make the final determination of bottom hole temperature, based upon information available to him. (7-1-21)

a. All standards and guidelines for construction and decommissioning (abandonment) of cold water wells apply to low temperature geothermal resource wells except as modified by Rule 30, Subsections 030.03, 030.04, and 030.06. (7-1-21)

b. A drilling prospectus must be submitted to and approved by the Director prior to the construction, modification, deepening or decommissioning (abandonment) of any low temperature geothermal resource well. The well owner and the well driller are responsible for the prospectus and subsequent well construction. (7-1-21)

02. Well Owner Bonding. The owner of any low temperature geothermal resource well must file a surety bond or cash bond as required by Section 42-233, Idaho Code, with the Director in an amount not less than five thousand dollars ($5,000) nor more than twenty thousand dollars ($20,000) payable to the Director prior to constructing, modifying or deepening the well after July 1, 1987. The bond amount will be determined by the Director within the following guidelines. The bond will be kept in force for one (1) year following completion of the well or until released in writing by the Director, whichever occurs first. (7-1-21)

a. Any well less than three-hundred (300) feet deep with a bottom hole temperature of less than one hundred twenty (120) degrees Fahrenheit and a shut-in pressure of less than ten (10) pounds per square inch gage (psig) at land surface must maintain a bond of five thousand dollars ($5,000). (7-1-21)

b. The owner of any well three hundred (300) feet to one thousand (1,000) feet deep with a bottom hole temperature of less than one hundred fifty (150) degrees Fahrenheit and a shut-in pressure of less than fifty (50) psig at land surface must maintain a bond of ten thousand dollars ($10,000). (7-1-21)

c. The owner of any low temperature geothermal resource well not covered by Rule 30, Subsections 030.02.a. and 030.02.b. must maintain a bond of twenty thousand dollars ($20,000). (7-1-21)
d. The Director may decrease or increase the bonds required if it is shown to his satisfaction that well construction or other conditions merit an increase or decrease. (7-1-21)

e. The bond requirements of Section 42-233, Idaho Code, are applicable to wells authorized by water right permits or licenses having a priority date earlier than July 1, 1987, if the well authorized by the permit or license was not constructed prior to July 1, 1987 or if an existing well constructed within the terms of the permit or license is modified, deepened or enlarged on or after July 1, 1987. (7-1-21)

03. Casing. Low temperature geothermal resource wells must be properly cased and sealed to protect from cooling by preventing intermingling with cold water aquifers. (7-1-21)

a. Steel casing which meets or exceeds the minimum specifications for permanent steel casing of Rule 25, Subsection 025.04 must be installed in every well. The Director may require a more rigid standard for collapse and burst strength as depths or pressures may dictate. Every low temperature geothermal resource well which flows at land surface must have a minimum of forty (40) feet of conductor pipe set and cemented its entire length. (7-1-21)

b. Casing must be installed from twelve (12) inches above land surface into the overlying confining strata of the thermal aquifer. The casing schedule may consist of several different casing strings (i.e. conductor pipe, surface casing, intermediate casing, production casing) which may all extend to land surface or may be overlapped and sealed or packed to prevent fluid migration out of the casing at any depth (Figure 13, Appendix A). (7-1-21)

i. Low temperature geothermal resource wells less than one thousand (1,000) feet deep and which encounter a shut-in pressure of less than fifty (50) psig at land surface must have two (2) strings of casing set and cemented to land surface. Conductor pipe must be a minimum of forty (40) feet in length or ten percent (10%) of the total depth of the well whichever is greater. Surface casing must extend into the confining stratum overlying the aquifer. (7-1-21)

ii. Low temperature geothermal resource wells one thousand (1,000) feet or more in depth or which will likely encounter a shut-in pressure of fifty (50) psig or more at land surface require prior approval of the drilling plan by the Director and must have three strings of casing cemented their total length to land surface. Conductor pipe must be a minimum length of forty (40) feet. Surface casing must be a minimum of two hundred (200) feet in length or ten percent (10%) of the total depth of the well, whichever is greater. Intermediate casing must extend into the confining stratum overlying the aquifer. (7-1-21)

c. Subsection 030.03 b. may be waived if it can be demonstrated to the Director through the lithology, electrical logs, geophysical logs, injectivity tests or other data that formations encountered below the last casing string set, will neither accept nor yield fluids at anticipated pressure to the borehole. (7-1-21)

d. A nominal borehole size of two (2) inches in diameter larger than the Outside Diameter (O.D.) of the casing or casing coupler (whichever is larger) must be drilled. All casing designations must be by O.D. and wall thickness and must be shown to meet a given specification of the American Petroleum Institute, the American Society for Testing and Materials, the American Water Works Association or the American National Standards Institute. The last string of casing set during drilling operations must, at the Director’s option, be flanged and capable of mounting a valve or blow out prevention equipment to control flows at the surface before drilling resumes. (7-1-21)

04. Sealing of Casing. All casing must be sealed its entire length with cement or a cement grout mixture unless waived by the Director. The seal material must be placed from the bottom of the casing to land surface either through the casing or tubing or by use of a tremie pipe. The cement or cement grout must be undisturbed for a minimum of twenty-four (24) hours or as needed to allow adequate curing. (7-1-21)

a. A caliper log may be run for determining the volume of cement to be placed with an additional twenty-five (25%) percent on site ready for mixing. If a caliper log is not run, an additional one hundred (100%) percent of the calculated volume of cement must be on site ready for placement. (7-1-21)

b. If there is no return of cement or cement grout at the surface after circulating all of the cement mixture on site, the Director will determine whether remedial work should be done to insure no migration of fluids
around the well bore. (7-1-21)T

c. The use of additives such as bentonite, accelerators, retarders, and lost circulation material must follow manufacturer’s specifications. (7-1-21)T

05. Blow Out Prevention Equipment. The Director may require the installation of gate valves or annular blow out prevention equipment to prevent the uncontrolled blow out of drilling mud and geothermal fluid. (7-1-21)T

06. Repair of Wells. The well driller must submit a drilling prospectus to the Director for review and approval prior to the repair or modification of a low temperature geothermal resource well. (7-1-21)T

07. Decommissioning (Abandoning) of Wells. Proper decommissioning (abandonment) of any low temperature geothermal resource well requires the following:

a. All cement plugs must be pumped into the hole through drill pipe or tubing. (7-1-21)T

b. All open annuli must be completely filled with cement. (7-1-21)T

c. A cement plug at least one hundred (100) feet in vertical depth must be placed straddling (fifty (50) feet above and fifty (50) feet below) the zone where the casing or well bore meets the upper boundary of each ground water aquifer. (7-1-21)T

d. A minimum of one hundred (100) feet of cement must be placed straddling each drive shoe or guide shoe on all casing including the bottom of the conductor pipe. (7-1-21)T

e. A surface plug of either cement grout or concrete must be placed from at least fifty (50) feet below the top of the casing to the top of the casing. (7-1-21)T

f. A cement plug must extend at least fifty (50) feet above and fifty (50) feet below the top of any liner installed in the well. The Director may waive this rule upon a showing of good cause. (7-1-21)T

g. Other decommissioning (abandonment) procedures may be approved by the Director if the owner or operator can demonstrate that the low temperature geothermal resource, ground waters, and other natural resources will be protected. (7-1-21)T

h. Approval for decommissioning (abandonment) of any low temperature geothermal well must be in writing by the Director prior to the beginning of any decommissioning (abandonment) procedures. (7-1-21)T

031. -- 034. (RESERVED)

035. HEALTH STANDARDS (RULE 35).

01. Public Water System Wells. In addition to meeting these standards, all wells that are constructed for public supply of domestic water must meet all of the requirements set forth by the Idaho Department of Environmental Quality Rules, IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems.” (7-1-21)T

02. Special Standards for Construction of Wells When Mineralized or Contaminated Water Is Encountered. Any time in the construction of a well that mineralized or contaminated water is encountered, the well driller must take the appropriate steps necessary to prevent the poor quality waters from entering the well or moving up or down the annular space around the well casing. The method employed to case and seal out this water will be determined by the well driller, provided all other minimum standards are met. The well driller will take special precautions in the case of filter-packed wells to prevent water of inferior quality from moving vertically in the filter packed portions of the well. All actions taken will be clearly documented on the well driller’s report. (7-1-21)T

03. Distances From Contaminant Sources. All water wells constructed for domestic use must comply with minimum distances from septic tanks, drain fields, drainfield replacement area and other siting
036. OWNERS RESPONSIBILITIES FOR WELL USE AND MAINTENANCE (RULE 36).
After a well is completed the well owner is responsible for water quality testing, properly maintaining the well, and reporting problems with a well to the Director. All wells must be capped, covered and sealed such that debris cannot enter the well, persons or animals cannot fall into the well, and water cannot enter the well around the outside of the casing. Pursuant to Section 42-1603, Idaho Code, the owner of any artesian well that will flow at land surface is required to apply to the Director for approval of a flow control device.

01. Use. The well owner must not operate any well in a manner that causes waste or contamination of the ground water resource. Failure to operate, maintain, knowingly allow the construction of any well in a manner that violates these rules, or failure to repair or properly decommission (abandon) any well as herein required will subject the well owner to civil penalties as provided by statute.

02. Maintenance. The well owner must:

a. Not allow modification to wells under their control without first obtaining an approved Idaho Department of Water Resources (IDWR) permit, pursuant to Section 42-235, Idaho Code;

b. Maintain the minimum casing height of twelve (12) inches above land surface and finished grade;

c. Maintain the appropriate well cap, and control device if required, according to these Rules; and

d. Not install or allow the installation of any well pump that would cause a violation of the sand production requirements in accordance with these Rules or allow the well to pump in excess of that allowed by a valid water right or domestic exemption.

e. Maintain the well to prevent waste or contamination of ground waters through leaky casings, pipes, fittings, valves, pumps, seals or through leakage around the outside of the casings, whether the leakage is above or below the land surface. Any person owning or controlling a non-compliant well must have the well repaired by a licensed well driller under a permit issued by the Director in accordance with these Rules.

03. New Construction. The well owner must not construct or allow construction of any permanent building, except for buildings to house a well or plumbing apparatus, or both, closer than ten (10) feet from an existing well.

04. Maintain All Other Separation Distances. The well owner must not construct or install, or allow the construction or installation of any object listed in a location closer than that allowed by the table of Rule 25, Subsection 025.01.d.

05. Unusable Wells. The well owner must have any unusable well repaired or decommissioned (abandoned) by a licensed well driller under a permit issued by the Director in accordance with these Rules.

06. Wells Posing a Threat to Human Health and Safety or Causing Contamination of the Ground Water Resource. The well owner must have any well shown to pose a threat to human health and safety or cause contamination of the ground water resource immediately repaired or decommissioned (abandoned) by a licensed well driller under a permit issued by the Director in accordance with these Rules.
a. The Director may designate an “area of drilling concern” to protect public health, or to prevent waste and contamination of ground or surface water, or both, because of factors such as aquifer pressure, vertical depth to the aquifer, warm or hot ground water, or contaminated ground or surface waters.

b. The designation of an area of drilling concern does not supersede or preclude designation of part or all of an area as a Critical Ground Water Area (Section 42-233a, Idaho Code), Ground Water Management Area (Section 42-233b, Idaho Code), or Geothermal Resource Area (Sections 42-4002 and 42-4003, Idaho Code).

c. The designation of an area of drilling concern can include certain aquifers or portions thereof while excluding others. The area of drilling concern may include low temperature geothermal resources while not including the shallower cold ground water systems.

02. Bond Requirement.

a. The minimum bond to be filed by the well driller with the Director for the construction or modification of any well in an area of drilling concern is ten thousand dollars ($10,000) unless it can be shown to the satisfaction of the Director that a smaller bond is sufficient.

b. The Director may determine on a case-by-case basis if a larger bond is required based on the estimated cost to repair, complete or properly decommission (abandon) a well.

03. Additional Requirements.

a. A driller must demonstrate to the satisfaction of the Director that he has the experience and knowledge to adequately construct or decommission (abandon) a well which encounters warm water or pressurized aquifers.

b. A driller must demonstrate to the satisfaction of the Director that he has, or has immediate access to, specialized equipment or resources needed to adequately construct or decommission (abandon) a well.
verbal approval granted. (7-1-21)T

02. Effect of a Permit. (7-1-21)T

a. A drilling permit authorizes the construction or modification of a well in compliance with these rules and the conditions of approval on the permit. (7-1-21)T

b. A drilling permit does not constitute a water right, injection well permit or other authorization which may be required, authorizing use of water from a well or discharge of fluids into a well. (7-1-21)T

c. A drilling permit may not be assigned from one owner to another or from one driller to another. (7-1-21)T

d. A drilling permit authorizes the construction of one (1) well, except for blanket monitoring well and blanket remediation well drilling permits. (7-1-21)T

03. Exclusions. For the purposes of these Rules, artificial openings and excavations that do not constitute a well and are not subject to the drilling permit requirements must be modified, constructed, or decommissioned (abandoned) in accordance with minimum well construction standards. The Director may require decommissioning (abandonment) of artificial openings and excavations constructed pursuant to Rule 45, Subsection 045.03 of these rules, when the use ceases or if the holes may contribute to waste or contamination of the ground water. The following types of artificial openings and excavations are not considered wells: (7-1-21)T

a. Artificial openings and excavations with total depth less than eighteen (18) feet. (7-1-21)T

b. Artificial openings and excavations for collecting soil or rock samples, determining geologic properties, or mineral exploration or extraction, including gravel pits. (7-1-21)T

c. Artificial openings and excavations for oil and gas exploration for which a permit has been issued pursuant to Section 47-320, Idaho Code. (7-1-21)T

d. Artificial openings and excavations constructed for de-watering building or dam foundation excavations. (7-1-21)T

04. Converting an Artificial Openings or Excavations Not Constructed as a Well for Use as a Well. Artificial openings and excavations that were not constructed as a well pursuant to a drilling permit, if subsequently converted to obtain water, monitor water quantity or quality, or to dispose of water or other fluids, must be reconstructed by a licensed driller in compliance with well construction standards and drilling permit requirements. (7-1-21)T

05. Fees. (7-1-21)T

a. Drilling permit fees are as prescribed by Section 42-235, Idaho Code. (7-1-21)T

b. The difference between the drilling permit fee required by Section 42-235 Idaho Code as applicable, must be paid when an existing well constructed on or after July 1, 1987, for which the lower drilling permit fee was paid, is authorized by the Director for a use which would require the larger drilling permit fee. (7-1-21)T

046. -- 049. (RESERVED)

050. PENALTIES (RULE 50). A person owning or controlling a well that allows waste or contamination of the state’s ground water resources or causes a well not to meet the construction standards provided in these Rules is subject to the civil penalties as provided by statute. A driller who violates the foregoing provisions of these well construction standards Rules is subject to enforcement action and the penalties as provided by Statute. (7-1-21)T

Pitless adapter

Note. Steel or cast iron caps are required. cast aluminum or “pot metal” caps are NOT allowed.
Figure 13. Casing Requirements for Low Temperature Geothermal Wells

Low temperature geothermal wells less than one thousand (<1,000) feet deep require two strings of casing:

1) Conductor pipe; minimum forty feet or ten percent of total well depth, whichever is greater.
And;
2) Surface casing to confining layer overlying the aquifer.

Low temperature geothermal wells one thousand (1,000) feet deep or more require three strings of casing:

1) Conductor pipe; minimum forty feet. And;
2) Minimum two hundred (200) feet of surface casing or ten percent of total well depth, whichever is greater. And;
3) Intermediate casing to confining layer overlying the aquifer.

Not to scale.
37.03.10 – WELL DRILLER LICENSING RULES

000. LEGAL AUTHORITY (RULE 0).
The Idaho Water Resource Board adopts these rules under the authority provided by Section 42-238, Idaho Code. (7-1-21)

001. TITLE AND SCOPE (RULE 1).
   01. Title. The title of this chapter is “Well Driller Licensing Rules.” (7-1-21)

   02. Scope. These rules establish the requirements and procedures for obtaining and renewing authorization to drill wells in the state of Idaho. The rules also establish the requirements and procedures for obtaining authorization to operate drilling equipment under the supervision of a licensed driller. The licensing rules are applicable to all individuals and companies drilling or contracting to drill wells. (7-1-21)

002. OTHER AUTHORITIES REMAIN APPLICABLE (RULE 2).
Nothing in these rules limits the director’s authority to take alternative or additional actions relating to the licensing of well drillers and permitting of operators as provided by Idaho law. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS (RULE 10).
Unless the context otherwise requires, the following definitions govern these rules. (7-1-21)

   01. Abandonment. See Decommissioned Well. (7-1-21)

   02. Adequate Supervision. Inspection and observation of each drilling operation and the associated drilling site by the licensed driller that has responsible charge during the critical phases of drilling to assure compliance with well construction standards and drilling permit conditions. (7-1-21)

   03. Applicant. An individual that submits to the department a complete application for a license or operator’s permit or a company that submits a complete application for a license. (7-1-21)

   04. Area of Drilling Concern. An area designated by the director in accordance with Section 42-238, Idaho Code, within which special drilling procedures and equipment are needed to prevent waste or contamination of the ground water. (7-1-21)

   05. Auxiliary Equipment. Powered equipment, other than the drill rig, used for grouting, installing or advancing casing, welding casings and screens, and other tasks necessary for drilling a well. (7-1-21)

   06. Board. The Idaho Water Resource Board. (7-1-21)

   07. Bond. A cash or surety bond obtained by a licensed driller or company payable to the director to provide funding for abandonment or repair should the driller fail to comply with well construction standards, and to allow information to be collected concerning the drilling of the well if the driller fails to submit a timely, accurate driller’s report. (7-1-21)

   08. Bottom Hole Temperature of an Existing or Proposed Well. The temperature of the ground water encountered in the bottom of a well or borehole. (7-1-21)

   09. Company. A firm, co-partnership, corporation or association licensed in accordance with these rules to drill or contract to drill wells. (7-1-21)

   10. Compliance History. An applicant’s record of compliance with the laws and rules of Idaho and other states relating to drilling of wells. The record includes, but is not limited to, the applicant’s record of obtaining and complying with drilling permits; filing accurate and complete well driller’s reports on time; adhering to well construction standards and other rules relating to drilling; and the number, nature and resolution of violations of laws, rules and conditions on licenses, operator’s permits and drilling permits. (7-1-21)

   11. Continuing Education. Education or training pertinent to the drilling industry and the construction, modification or decommissioning of wells. (7-1-21)

   12. Continuing Education Committee (CEC). A committee whose purpose is to review and approve
activities related to continuing education credit.

13. Credit Unit. The unit of measurement for continuing education requirements.

14. Critical Phases of Drilling. Drilling tasks that require the added experience of a licensed driller to assure completion of the well in accordance with the well construction standards and conditions of drilling permits. These tasks include, but are not limited to, placement of required casings and seals, testing of casings and seals, and resolving problems such as casing or joint failures, heaving formations, lost circulation, and encountering high pressure or high temperature water.

15. Decommissioned (Abandoned) Well. Any well which has been permanently removed from service and filled or plugged in accordance with these rules so as to meet the intent of these rules. A properly decommissioned well will not:
   a. Produce or accept fluids;
   b. Serve as a conduit for the movement of contaminants inside or outside the well casing; or
   c. Allow the movement of surface or ground water into unsaturated zones, into another aquifer, or between aquifers.

16. Department. The Idaho Department of Water Resources.

17. Director. The director of the Idaho Department of Water Resources or his duly authorized representative.

18. Drilling or Well Drilling. The act of constructing a new well, or modifying, changing the construction, or decommissioning an existing well.

20. Drilling Site. The location of the drill rig and immediate area where the drill rig and auxiliary equipment are set up to drill a well.

21. Global Positioning System (GPS). A global navigational receiver unit and satellite system used to triangulate a geographic position.

22. License. A certificate issued by the director to an individual or a company upon meeting the requirements of Section 42-238, Idaho Code, and these rules authorizing the drilling of wells permitted in accordance with Section 42-235, Idaho Code.

23. Licensed Driller. An individual having a license to drill wells and is authorized and required to supervise operators in the state of Idaho.

24. Modify. To deepen a well, increase or decrease the diameter of the casing or the well bore, install a liner, place a screen, perforate existing casing or liners, alter the seal between the casing and the well bore, or alter the well to not meet well construction standards.

25. Operator. An individual holding either a class I or class II operator’s permit issued in accordance with these rules.

26. Operator’s Permit. A certificate issued by the director upon meeting the requirements of Section 42-238, Idaho Code, and these rules allowing the holder to operate a drill rig as provided in these rules.

27. Principal Driller. A licensed driller in responsible charge of a company’s drilling activities, which
has been designated the principal driller by the company with the department. (7-1-21)

28. **Responsible Charge.** The responsibility for direction and control of a drilling operation to meet the requirements of these rules including, but not limited to, the following activities: (7-1-21)
   a. Contracting to drill a well; (7-1-21)
   b. Coordinate with property owner to locate a well to comply with applicable well construction standards; (7-1-21)
   c. Setting up drilling equipment at the drilling site; (7-1-21)
   d. Drilling operations; and (7-1-21)
   e. Testing the adequacy of casing and seal; (7-1-21)
   f. Properly completing the well. (7-1-21)

29. **Start Card.** An expedited drilling permit process for the construction of cold water Single Family residential wells. (7-1-21)

30. **Well.** An artificial excavation or opening in the ground more than eighteen (18) feet in vertical depth below land surface by which ground water of any temperature is sought or obtained. The depth of a well is determined by measuring the maximum vertical distance between the land surface and the deepest portion of the well. Any water encountered in the well is considered to be obtained for the purpose of these rules. Well also means any waste disposal and injection well as defined by Section 42-3902, Idaho Code. (7-1-21)

31. **Well Construction Standards.** IDAPA 37.03.09, “Well Construction Standards Rules,” adopted by the board. (7-1-21)

32. **Well Driller’s Report or Driller’s Report.** A report required by Section 42-238, Idaho Code, describing drilling of the well and supplying information required on forms provided by the department. (7-1-21)

33. **Well Log.** A diary maintained at the drilling site consistent with Section 42-238, Idaho Code. (7-1-21)

34. **Well Rig or Drill Rig.** Any power-driven percussion, rotary, boring, digging, jetting, or augering machine used in the drilling of a well. (7-1-21)

011. -- 019. (RESERVED)

020. **APPLICABILITY OF LICENSING REQUIREMENTS (RULE 20).**

01. **Licensing Requirements.** A well shall only be drilled by or under the responsible charge of a licensed driller except that a property owner, who is not licensed, can construct a well on his property for his own use without the aid of power-driven mechanical equipment. (7-1-21)

02. **Driller to Have Responsible Charge of Other Workers.** A licensed driller shall have responsible charge of all others engaged in a well drilling operation. (7-1-21)

03. **Operators to Have Permits.** An individual assisting a licensed driller whose duties include operation of a drill rig or auxiliary equipment shall possess an operator’s permit as provided in these rules. If the driller is not present at the well site at all times that drilling operations are being conducted, one or more of those operating the equipment in the driller’s absence shall have a class II operator’s permit. The driller shall provide adequate supervision of class II operators. An individual having a class I operator permit shall be supervised by a licensed driller or a class II operator at all times when operating the drill rig or auxiliary equipment. (7-1-21)

04. **Laborer Exempted.** An individual whose duties at the drilling site do not include operation of the
drill rig or auxiliary equipment at any time is not required to have either a driller’s license or an operator’s permit.

05. **Company to be Licensed.** No company shall drill or contract to drill a well or wells unless the company has been issued a license and has employed a principal driller as described in accordance with these rules.

06. **Drillers to Decommission (Abandon) Wells.** Only licensed drillers may decommission (abandon) wells, except that wells may be decommissioned (abandoned) by the owner after receiving a specific waiver from the Director.

021. **CONSTRUCTION AND USE OF HOLES THAT ARE NOT WELLS (RULE 21).**

01. **When a License Is Not Required.** A person drilling a hole that does not meet the definition of a well does not need a driller’s license or operator’s permit.

02. **Holes Not Defined as Wells.** The following list describes the types of holes that are not wells for purposes of these rules:

   a. Holes with total depth less than eighteen (18) feet.
   b. Holes for collecting soil or rock samples, determining geologic properties, or mineral exploration or extraction, including gravel pits.
   c. Holes for oil and gas exploration for which a permit has been issued pursuant to Section 47-320, Idaho Code.
   d. Holes for constructing building foundations or de-watering building or dam foundation excavations.
   e. Holes for the installation of standpipes or piezometers to monitor the saturation of dam embankments or foundations or to measure uplift forces on buildings, dams and other structures.

03. **Converting a Hole Not Constructed as a Well for Use as a Well.** A hole that was not constructed as a well by or under the responsible charge of a driller, if subsequently converted to obtain water, to monitor water quantity or quality, or to dispose of water or other fluids, shall be reconstructed by a driller to comply with well construction standards and drilling permit conditions. The owner shall obtain a drilling permit, a water right or other approval if needed, and have the hole inspected and modified by a licensed driller as necessary to meet well construction standards. The driller shall file a driller’s report for the well.

022. -- 029. (RESERVED)

030. **OBTAINING A LICENSE FOR AN INDIVIDUAL DRILLER (RULE 30).**

01. **Application Requirements.** An individual desiring a license shall file with the department a completed application on a form provided by the department accompanied by the following:

   a. The application fee required by Section 42-238, Idaho Code.
   b. Written documentation of drilling experience, compliance history, and the names and addresses of three (3) references to confirm the applicant’s drilling experience.
   c. A list of all drill rigs used by or under the responsible charge of the applicant providing the make, model, and type.
   d. The names and addresses of all licensed drillers and permitted operators that will work under the responsible charge of the applicant.
02. Experience Requirements. (7-1-21)

a. An applicant shall have a minimum of twenty-four (24) months of drilling experience. An applicant will be credited with one (1) month of drilling experience for each one hundred sixty (160) hours of employment as a driller or operator, or the equivalent, as determined by the director. Experience drilling monitoring wells, geothermal wells or other cased wells will be credited as experience by the Director if the equipment and drilling methods are applicable to water well construction. (7-1-21)

b. An applicant for driller’s license shall submit evidence to establish that the applicant, as an operator or driller, has successfully constructed a sufficient number of wells within the preceding twenty-four (24) months to demonstrate competency. Evidence of this experience can be demonstrated by the submission of driller’s reports bearing the applicant’s signature, well reports upon which the driller having responsible charge attests that the applicant drilled the wells or other documentation acceptable to the director. (7-1-21)

c. Twelve (12) of the twenty-four (24) months drilling experience must have occurred within the five (5) year period immediately preceding the filing of the application. (7-1-21)

d. Successful completion of classroom study in geology, well drilling, map reading, and other related subjects may be substituted for up to, but not exceeding, twelve (12) months of drilling experience. The director will determine the number of months of classroom study, up to twelve (12), to be credited as experience. (7-1-21)

03. Examination. An applicant determined by the director to have adequate experience and an acceptable compliance history, as confirmed by references acceptable to the director, is eligible to take a written examination. The examination may include separate sections and shall test the applicant's knowledge of the following: (7-1-21)

a. Idaho statutes and rules relating to appropriation and use of ground water, well drilling, construction and use of injection wells and geothermal wells, and well driller licensing under the provisions of Title 42, Idaho Code. (7-1-21)

b. Land description by government lot, quarter-quarter, section, township and range, and the use of portable GPS units. (7-1-21)

c. Geologic material identification including the use of correct terminology in describing the geologic material. (7-1-21)

d. Well construction principles relating to the proper design, construction, development, and abandonment of wells. (7-1-21)

e. The occurrence, nature, and movement of ground water. (7-1-21)

f. The use of various types of drill rigs and auxiliary equipment. (7-1-21)

031. OBTAINING A LICENSE FOR A COMPANY (RULE 31).

01. Application Requirements. A company shall file with the department a complete application for a company license upon a form provided by the department to be accompanied by the following: (7-1-21)

a. The names and addresses of three (3) persons not affiliated with the company, whom the department can contact for information regarding the company’s past well drilling operations, if any, and related business activities. (7-1-21)

b. A complete record of the compliance history of the company and the owners and employees of the company. (7-1-21)

c. Designation of a principal driller who shall be a full time employee of the company and shall drill wells only for the company. A licensed driller who renders only occasional, part-time or consulting drilling services
to or for a company may not be designated as the principal driller.

d. The names and addresses of drillers and operators presently employed.

e. A list of all drill rigs and other related equipment owned or used by the company providing the make, model, and type.

02. Application Processing. Applications received under this rule will be processed in accordance with Rule 33.

032. OBTAINING AN OPERATOR’S PERMIT (RULE 32).

01. Application for Class I Operator’s Permit. A licensed driller or company proposing to employ a class I operator shall submit a completed application on a form provided by the director. The application shall:

a. Be accompanied by the fee required by Section 42-238, Idaho Code.

b. Be signed by the individual seeking the operator’s permit and the licensed driller or principal driller of the company proposing to employ the operator.

02. Application for Class II Operator’s Permit. A licensed driller or company proposing to employ an individual who does not currently hold a class II operator’s permit shall submit the following:

a. A completed application on a form provided by the department.

b. The fee required by Section 42-238, Idaho Code. No fee is required if the applicant is presently permitted as a class I operator, but the expiration date of the permit when converted to a class II operator’s permit will remain as originally issued.

c. Documentation that the operator has successfully constructed a sufficient number of wells, or has constructed wells for a sufficient length of time, or a combination of both to demonstrate competency.

03. Written Examination. An examination is not required for a class I operator’s permit. An otherwise qualified applicant for a class II operator’s permit shall obtain a satisfactory score on an examination as provided in Rule 34. The examination may be comprised of separate sections and shall test the applicant’s knowledge of the following:

a. Idaho statutes and rules relating to appropriation and use of ground water, well drilling, construction and use of injection wells and geothermal wells, and well driller licensing under the provisions of Title 42, Idaho Code.

b. Land description by government lot, quarter-quarter, section, township, and range, and the use of portable GPS units.

c. Geologic material identification including the use of correct terminology in describing geologic material.

d. Well drilling principles relating to proper design, construction, development, and abandonment of wells.

e. The occurrence, nature, and movement of ground water.

04. Operator Drills Only for Licensed Driller or Company. An operator shall only drill for the licensed driller or company approved by the director. If an operator changes employment to another licensed driller or company, an application for an operator’s permit shall be filed as provided in this rule.
05. Processing an Application for Operator’s Permit. The department will process an application for operator’s permit in accordance with Rule 33. (7-1-21)

033. PROCESSING APPLICATION FOR A DRILLER’S LICENSE OR OPERATOR’S PERMIT (RULE 33).

01. Incomplete Application. If an application is incomplete, not properly signed, or does not include the information required by these rules, the department will advise the applicant in writing of the deficiency. If the deficiencies are not satisfied within ninety (90) days of sending the notice of the deficiency, the application will be void. The application fee is not refundable. (7-1-21)

02. Issuance of License. If the director, upon review of the application, determines that an applicant for license is qualified and the driller has subsequently taken and passed an examination, a notice will be sent to the applicant requesting a bond in an amount determined in accordance with Rule 60 be filed with the department. Upon receipt of a satisfactory bond, the director will issue a license to the applicant. (7-1-21)

03. Issuance of Operator’s Permits. If the director determines that an applicant is qualified and has passed an examination, if required, the department will mail a notice and operator’s permit card to the principal driller on behalf of the applicant. (7-1-21)

04. Driller’s License or Operator’s Permit Issued With Conditions or Denial of License or Operator’s Permit. The Director may issue a license or operator’s permit with specific conditions or limitations based on the applicant’s experience and compliance history. The Director may refuse to issue or renew a driller’s license permanently or for a designated period of time if the driller has previously constructed wells improperly or constructed a well without a valid driller’s license. If the Director determines that the applicant is not qualified, the Director will deny the application. Notice of a denied application or a conditioned license or operator’s permit will be given to the applicant in accordance with IDAPA 37.01.01, “Rules of Procedure of the Idaho Department of Water Resources.” (7-1-21)

034. EXAMINATION PROCEDURES (RULE 34).

01. Written Examination. Written examinations will be offered at department offices on the first Monday of each quarter. If the first Monday is a legal holiday, written examination will be offered on the first Tuesday. Re-examination may be taken at a regularly scheduled examination date during a following quarter and shall be scheduled with the department office originally testing the applicant. (7-1-21)

02. Oral Examination. Successful passage of an oral examination may satisfy all or a part of the written testing requirements under the following circumstances:\n\n\na. The applicant requests an oral rather than a written examination and shows cause acceptable to the director why the examination should be oral rather than written. Applicants desiring to take the examination orally shall request that an oral examination be scheduled allowing at least fifteen (15) days to set an examination date. (7-1-21)

\nb. The director determines that because of the applicant’s compliance history, additional testing is needed to determine the applicant’s qualifications. (7-1-21)

03. Examination Scoring. The applicant shall pass each section of the examination with a score of seventy percent (70%) or higher. (7-1-21)

04. Assistance Must Be Authorized. The use of written materials, equipment or other individuals to assist an applicant during an examination is prohibited unless specifically authorized by the department. An applicant receiving unauthorized assistance during an examination may be disqualified and the application may be rejected. An application filed by a disqualified applicant will not be processed for a period of up to one (1) year from the time of disqualification. (7-1-21)

035. EXPIRATION AND RENEWAL OF LICENSE (RULE 35).
01. **Expiration of Licenses.** All licenses expire at the end of the licensing period for which they are issued. The licensing period begins April 1 and ends March 31 of the second year following issuance.

02. **Renewal Application.** A license may be renewed by submitting a license renewal application including the following:

   a. A completed application on a form provided by the department. An application to renew a license for an individual licensed driller shall be signed by the individual and an application to renew a license for a company shall be signed by the principal driller.

   b. The renewal fee required by Section 42-238, Idaho Code.

   c. A new bond or continuation certificate for an existing bond covering the licensed driller or company.

   d. If the application is for renewal of a license held by an individual, the application shall include verification that the applicant has obtained the required continuing education credits.

03. **Continuing Education Requirements.** Fourteen (14) credit units are required for renewal of a license for an individual for any licensing period beginning on or after April 1, 2011.

04. **Welding Competency.** A driller that has been issued a Notice of Violation for welding that does not comply with the well construction standards may be required to obtain a certificate of welding competency from the American Welding Society or similar organization.

036. **EXPIRATION AND RENEWAL OF AN OPERATOR'S PERMIT (RULE 36).**

01. **Expiration of Operator’s Permits.** Class I and class II operator’s permits shall expire on March 31 of the same year that the license of the licensed driller and company employing the operator expires.

02. **Renewal Application.** An operator’s permit may be renewed by submitting to the department an application for renewal including the following:

   a. A completed application on a form provided by the department. The operator seeking renewal and the driller under whose responsible charge the operator works shall sign the form.

   b. The renewal fee required by Section 42-238, Idaho Code.

   c. For renewal of a class II operator’s permit, verification of the required continuing education credit units.

03. **Continuing Education Required for Renewals.** Fourteen (14) credit units are required for renewal of a class II operator’s permit for a licensing period beginning on or after April 1, 2011.

04. **Welding Competency.** An operator’s work that has resulted in a Notice of Violation for welding that does not comply with the Well Construction Standards may be required to obtain a certificate of welding competency from the American Welding Society or similar organization.

037. **PROCESSING APPLICATION TO RENEW LICENSE OR OPERATOR’S PERMIT (RULE 37).**

01. **Processing Applications for Renewal.** Applications for renewal will be processed in the order received by the department. The department shall receive a complete application for renewal no later than March 15 to assure that the license or operator’s permit will remain in force without interruption. If the director determines that the application is complete and the applicant is qualified, the license or operator’s permit will be renewed for the period ending on March 31 of the second year after approval of the renewal.

02. **Regulatory Compliance Required for Renewals.** A license or operator’s permit will not be
renewed if the applicant has not submitted all required driller’s reports, applications for drilling permits, fees, agreed civil penalties, has not complied with all orders requiring repair or abandonment of improperly constructed wells or is not otherwise in compliance with Sections 42-235 and 42-238, Idaho Code, and the applicable rules. (7-1-21)

03. **Compliance History.** If the Director determines that the applicant has exhibited an unacceptable compliance history, the Director may deny renewal, refuse renewal for a specified time, or renew with conditions, including but not limited to an increased bond amount. (7-1-21)

04. **Renewal of Expired Licenses or Operator’s Permits.** A license or an operator’s permit which has expired or otherwise not been in effect for a period not exceeding three (3) years shall be renewed in accordance with the requirements of Rule 35 or Rule 36 as appropriate. An applicant for renewal shall provide verification of earned credit units required for the entire period since the license or class II operator’s permit was last issued. If a license or operator’s permit has been expired or otherwise not effective for a period of more than three (3) years, an application for a new license shall be submitted in accordance with Rule 30 for an individual license, Rule 31 for a company or Rule 32 for an operator’s permit. The director may waive the examination requirement if the applicant has been previously licensed or permitted in the state of Idaho. (7-1-21)

05. **Reuse of Identification Numbers.** The identification number assigned to a license by the department will not be reused if the license has been expired or otherwise not in effect for three (3) years or more except, at the director’s discretion, the number may be reassigned to the original owner. (7-1-21)

06. **Condition or Denial of an Application for Renewal.** If the Director determines that the applicant has not or cannot fully comply with these rules, a license or operator’s permit may be issued with conditions. If the Director determines that the applicant is not qualified, the Director will deny the application. When there are documented violations of well drilling laws and/or rules, including well construction standards, the Director may consult with the Driller's Advisory Committee, created in accordance with Rule 80, prior to making a decision to issue a conditional license or operator's permit or to deny an application based on the applicant's compliance history. Notice of a denied application or a conditioned license will be given as provided in IDAPA 37.01.01, “Rules of Procedure of the Idaho Department of Water Resources.” (7-1-21)

038. -- 049. **(RESERVED)**

050. **DUTIES AND RESPONSIBILITIES OF DRILLERS, COMPANIES AND OPERATORS (RULE 50).**

01. **Licensed Drillers and Principal Drillers.** All licensed drillers and principal drillers shall:

   a. Allow drilling only by those authorized by and under the supervision required by these rules and according to any conditions of the license or permit. (7-1-21)

   b. Complete each well in compliance with IDAPA 37.03.09, “Well Construction Standards Rules,” and drilling permit conditions. (7-1-21)

   c. Have a valid cash or surety bond in effect, as defined in Rule 60. (7-1-21)

   d. Have the license number displayed in a conspicuous place on the drill rig using a metal identification plate provided by the department or other permanent marking approved by the director. The displayed license number shall represent the company or individual driller license under which the well is being drilled. One plate will be issued upon initial licensure with replacement and additional plates available for a fee. (7-1-21)

   e. Keep current the department’s list of operators and drillers employed by the licensed driller or company, including current addresses for the company, drillers, and operators. The licensed driller or principal driller shall be held responsible for all drilling activity of a driller or operator under their supervision until such notification has been submitted in writing to the department that the driller or operator is no longer employed by the licensed driller or company. (7-1-21)

   f. Have at the drilling site the driller’s license and drilling permit or other written authorization from
the director to drill the well. (7-1-21)T

g. Only drill wells in contaminated areas identified by the department or in areas of drilling concern so designated by the department with specific written authorization of the director. Verbal authorizations to drill and pre-approved drilling permits (start cards) do not authorize drilling in these areas. (7-1-21)T

h. Only drill a public drinking water supply well, as defined in IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems,” low temperature geothermal resource or geothermal resource well with specific written authorization from the director. Verbal authorizations and start card permits (start cards) are not authorized for these uses. (7-1-21)T

i. Monitor and record bottom-hole temperature in areas where low temperature geothermal resources are known or suspected or when the well is being constructed pursuant to IDAPA 37.03.09, Rule 30, as a low temperature geothermal resource well. Bottom-hole temperature of every well being constructed pursuant to IDAPA 37.03.09, Rule 30, must be measured, recorded, and reported on the well drillers report. (7-1-21)T

j. Maintain a daily well log at the drilling site acceptable to the department and as required by Section 42-238(11), Idaho Code. Pertinent data required to be recorded on the daily log must include information sufficient to complete a well drillers report acceptable to the Director. The driller shall retain the well log for at least one (1) year after the driller’s report is submitted to the department. (7-1-21)T

k. Submit driller’s reports, acceptable to the Director, on forms approved by the department within thirty (30) days following removal of the drill rig from the drilling site at completion of the well. Driller’s reports shall be prepared from information recorded on the daily well log. Driller’s reports returned to the driller due to deficiencies must be corrected and returned to the department within thirty (30) days of mailing by the department. (7-1-21)T

l. Attach a well tag supplied by the department to every well drilled for which a drilling permit is required. The tag shall be affixed permanently to the casing, or other permanent object attached to the well, by a method approved by the Director prior to removing the well rig from the drilling site. (7-1-21)T

m. Cause all drilling activity under the supervision of the driller to cease when the driller’s license expires, becomes invalid, or is suspended or revoked. (7-1-21)T

02. Companies. Companies shall:

a. Have a principal driller designated with the department at all times. (7-1-21)T

b. Notify the department within ten (10) days of the principal driller leaving employment with the company. The company’s license shall immediately become void and of no effect when the principal driller leaves employment with the company and shall remain so until the department has been notified in writing that a new principal driller has been employed and designated by the company. Failure to designate a principal driller within ninety (90) days of the departure of the designated principal driller is cause for the director to take action to cancel the company’s license. (7-1-21)T

c. Maintain a bond in force at all time as required in Rule 60. (7-1-21)T

03. Operators. Operators shall:

a. Have in their possession a valid operator’s permit while drilling wells. (7-1-21)T

b. Only drill wells as authorized by the operator’s permit. (7-1-21)T

c. Maintain a complete and accurate well log at the drilling site. (7-1-21)T

d. Co-sign with the driller a driller’s report upon completion of the well. (7-1-21)T
Section 060

060. BONDING (RULE 60).

01. Bonding Requirements. Each licensed driller or company shall submit a surety bond or cash bond in an amount determined by the director, within the limits of 42-238, Idaho Code, for each driller employed by the company, payable to the director for the licensing period.

   a. A company shall have a bond, which covers the drilling activities of each driller and operator employed by the company. If the licensed driller drills wells as an individual and not for a company, a separate bond must be filed with the director.

   b. Drillers proposing to drill wells in an area of drilling concern, monitoring wells, public water supply wells, or wells to obtain or likely to encounter water with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit, shall submit an upgraded bond, in an amount determined by the director, at the time the drilling permit application is processed. Drillers anticipating drilling such wells may, instead, submit adequate bonding at the time of driller license application or renewal.

   c. The amount of the bond, within the limits prescribed in Section 42-238, Idaho Code, will be determined by the director based on the applicant’s compliance history, the size and depth of wells the applicant proposes to construct and is authorized to drill, the complexity of the wells, the resource to be recovered, the area of operation of the applicant, the number of drillers and operators employed by a company, and other relevant factors.

   d. All bonds and continuation certificates must be on forms provided or approved by the department.

02. Cash Bonds.

   a. Acceptable Cash Bonds. Cash bonds shall be in a separate account readily accessible to the director for use as provided in these rules. The director will review cash bond proposals made by an applicant. Cash bonds shall be retained in financial institutions within the state of Idaho unless waived by the director.

   b. Retention. The director will hold cash bonds for two (2) years from the date the driller requests that the bond be released unless replaced by another bond or the director determines that all wells drilled by the driller satisfy well construction standards. The release of a cash bond must be requested in writing.

03. License Void Without Bond. If the issuing company cancels a bond, the bond expires or otherwise becomes non-effective during the term of a license, the license shall immediately become void and of no further effect until an adequate replacement bond is received by the department.

061. -- 069. (RESERVED)

070. CONTINUING EDUCATION (RULE 70).

01. Requirements. Every licensed driller or permitted operator must have earned at the time of renewal the applicable number of credit units required by these rules. The credit units shall have been obtained during the licensing period preceding the application for renewal.

02. Earning Credit Units. Credit units may be earned for time spent in attendance at workshops, seminars, short courses, and other educational opportunities devoted to drilling or related subjects acceptable to the Director and approved by the continuing education committee (CEC) and in compliance with the CEC guidelines. These may include completion of college courses, correspondence courses, videotaped courses, and other endeavors such as authoring appropriate publications.

03. Documentation. Documentation to support credit units claimed is the responsibility of the licensed driller and permitted operator. Records required include but are not limited to:
04. Submittal and Maintenance of Records. Copies of continuing education records for the preceding license period shall be submitted with applications to renew licenses or permits. These records shall be maintained for a period of three (3) years and shall be available for review by the department at the request of the director.

05. Insufficient Credit Units. If at the time of renewal, the applicant is unable to provide verification of the required credit units, the director will deny renewal of the driller’s license or operator’s permit, except as otherwise provided in the following:

a. The director may withhold action on an application for renewal for a period not to exceed ninety (90) days to allow the applicant to provide verification of the required credit units. The applicant is not authorized to drill until the verification is provided and the renewal is issued.

b. The director may exempt an applicant from all or part of the continuing education requirements if the applicant served on active duty in the armed forces of the United States for one hundred twenty (120) consecutive days or more during the licensing period prior to filing the application for renewal; or the applicant suffered physical disability, serious illness, or other extenuating circumstances that prevented the applicant from earning the required units.

c. A licensed driller or operator who has chosen to allow his license or permit to expire or otherwise become of no effect shall be exempt from continuing education requirements unless an application for renewal is filed less than three (3) years after the license or permit expired or otherwise became of no effect.

06. Out-of-State Residents. The continuing education requirements for a non-resident applicant for a license or operator’s permit shall be the same as for resident applicants.

07. Responsibility for Education Development and Implementation. The Idaho Ground Water Association (IGWA) is delegated responsibility to develop and implement a program for continuing education for review and approval by the director.

071. CONTINUING EDUCATION COMMITTEE CONTINGENCY PLAN (RULE 71). Should the memorandum of understanding (MOU) and/or the contract between the department and the IGWA be breached, revoked, or not renewed, the CEC shall be organized and administered by the department.

072. -- 079. (RESERVED)

080. DRILLER’S ADVISORY COMMITTEE (RULE 80).

01. Selection and Duties. The Director may appoint a driller’s advisory committee from the list of drillers holding valid licenses. The Director will solicit appointment recommendations from the IGWA and other licensed drillers. The Director will determine the term of appointment for members of the committee. The committee shall provide recommendations and suggestions concerning revision of these rules, the minimum standards for well construction, significant violations and other matters regarding well drilling. The committee members shall serve on a voluntary basis without compensation. The department will hold meetings at the discretion of the Director.

02. Reimbursement. Travel costs shall be paid to members of the advisory committee for travel and per diem and for costs associated with attendance of advisory committee meetings held by the department. Reimbursement shall be based on existing department policy covering travel and per diem expenses.
081. -- 089. (RESERVED)

090. ENFORCEMENT (RULE 90).

01. Violations. Violations of these rules or Sections 42-235 or 42-238, Idaho Code, will be enforced as provided in Sections 42-238 and 42-1701B, Idaho Code.

02. Enforcement Policy. An administrative policy providing guidelines for enforcement shall be published and maintained by department staff. A copy of the enforcement guidelines is available upon request at no charge.

091. -- 999. (RESERVED)
IDAPA 38 – IDAHO DEPARTMENT OF ADMINISTRATION
DOCKET NO. 38-0000-2100
NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Title 67, Chapter 92, et. seq., Idaho Code, and Sections 67-1604 and 67-5709, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 38, rules of the Idaho Department of Administration:

IDAPA 38
• 38.04.06, Rules Governing Use of the Exterior of State Property in the Capitol Mall and Other State Facilities;
• 38.04.07, Rules Governing Use of the Interior of State Property in the Capitol Mall and Other State Facilities;
• 38.04.08, Rules Governing Use of Idaho State Capitol;
• 38.04.09, Rules Governing Use of the Chinden Office Complex; and
• 38.05.01, Rules of the Division of Purchasing.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the temporary rules, contact Keith Reynolds, Director, Department of Administration, 208-332-1812.

DATED this 1st day of July, 2021.

Keith Reynolds, Director
Idaho Department of Administration

38.04.06 – RULES GOVERNING USE OF THE EXTERIOR OF STATE PROPERTY IN THE CAPITOL MALL AND OTHER STATE FACILITIES

000. LEGAL AUTHORITY.
Section 67-5709, Idaho Code, gives the Director of the Department of Administration authority to promulgate rules governing the state properties in the Capitol Mall and other state facilities.

001. SCOPE.
These rules contain the provisions for use of the exterior of the Capitol Mall Office Properties, the Capitol Annex, the Parking Facilities, the Other State Properties, and the Multi-agency Facilities. Rules governing the interior of the Capitol Office Mall Properties, the Other State Properties, and the Multi-agency Facilities are codified under IDAPA 38.04.07, “Rules Governing Use of the Interior of State Property in the Capitol Mall and Other State Facilities.”

002. -- 009. (RESERVED)

010. DEFINITIONS.

02. Capitol Annex. The grounds, exterior of buildings, exterior of improvements, and real property located at 514 West Jefferson Street, Boise, Idaho and occupying block 65 as shown on the Boise City original townsite plat filed in the Ada County Recorder’s office in Book 1 on page 1.

03. Capitol Mall Office Properties. The grounds, exterior of buildings, exterior of improvements, and real property set forth in Section 67-5709(a) and (b), Idaho Code. The Capitol Mall Office Properties do not include the Idaho State Capitol or its grounds or the Capitol Mall Annex.

04. Commemorative Installation. Any statue, monument, sculpture, memorial or landscape feature designed to recognize a person, group, event or element of history.

05. Department. The Department of Administration.

06. Director. The Director of the Department of Administration or his designee.

07. Multi-Agency Facilities. The grounds, exterior of buildings, exterior of improvements, and real property set forth in Section 102 of these rules.

08. Other State Properties. The grounds, exterior of buildings, exterior of improvements, and real property set forth in Section 101 of these rules.

10. Private Event or Private Exhibit. Any activity sponsored or initiated by a member of the public that is open only to invited or qualifying individuals or groups. Private Events and Private Exhibits include, but are not limited to, weddings, dinners, award ceremonies, memorials, and seminars.

11. Public Use. Use that is not:
   a. A State Event or Exhibit;
   b. Use by a public officer, official, employee, contractor, agency, or board or commission for state of Idaho business; or
   c. State Maintenance and Improvements.

12. Security Personnel. A state of Idaho employee or a staff member of a state of Idaho contractor whose job duties include monitoring compliance with and enforcing these rules.

13. State Events and Exhibits. All functions initiated and controlled by any state of Idaho agency, board, commission, officer or elected official acting on behalf of the state of Idaho.
14. **State Facilities.** The Capitol Mall Office Properties, the Capitol Annex, the Multi-agency Facilities, the Parking Facilities and the Other State Properties. Use of the phrase “at the State Facilities” includes the exterior of buildings, exterior of improvements and the grounds and real property comprising the State Facilities. 

15. **State Maintenance and Improvements.** Maintenance or improvement of the State Facilities by the state of Idaho or its contractors. Maintenance for the purpose of this definition includes, but is not limited to, grounds maintenance such as mowing, watering, landscaping, aerating, resodding, fertilizing and planting, and structural maintenance such as pressure washing, painting, window cleaning and re-glazing. Improvement for the purpose of this definition includes, but is not limited to, the following: construction of new buildings or portions of buildings; renovations to existing buildings; the installation of permanent structures and equipment such as benches, sprinklers, flagpoles, monuments and memorials; and, the installation of temporary equipment and structures such as construction fencing, generators and portable buildings.

011. -- 100. (RESERVED)

101. **OTHER STATE PROPERTIES.** 
These rules apply to the following Other State Properties pursuant to the request of the state of Idaho public entity owning or controlling the property:

01. **Idaho State Historical Society Properties.**

a. The following properties owned or operated by the Idaho State Historical Society Properties under these rules:

i. Idaho State Historical Museum, located at 610 North Julia Davis Drive, Boise, Idaho.  
ii. Old U.S. Assay Office, located at 210 Main Street, Boise, Idaho.  
iii. Old Penitentiary site located in Boise, Idaho and defined in Section 58-337, Idaho Code.  
iv. Idaho History Center, located at 2205 Old Penitentiary Road, Boise, Idaho.  
v. Franklin Historic Properties, located in Franklin, Idaho. The Franklin Historic Properties include the Franklin Co-operative Mercantile Institution Building, the Hatch House, the Doney House, and the Relic Hall.  
vi. Pierce Courthouse, located in Pierce, Idaho.  

b. The following sections of these rules apply to the Idaho State Historical Society Properties set forth in Paragraph 101.01.a. of these rules only as modified by this Paragraph 101.01.b.:

i. Subsection 010.06. “Director” means the Executive Director of the Idaho State Historical Society when these rules are applied to the Idaho State Historical Society Properties.  
ii. Subsection 200.01. “Authorized Uses by the Public” applies except that the Director may authorize Private Events or Exhibits and the exclusion of members of the public from attending Private Events and Exhibits. For the purpose of this subsection, the grant of a lease or a license is authorization to exclude members of the public from a Private Event or Exhibit.  
iii. Section 302. “Maintenance and Improvements” applies as if the Idaho State Historical Society Properties were Capitol Mall Office Properties unless otherwise designated at the property, or posted on the Idaho State Historical Society website.
iv. Subsection 305.02. “Domestic Animals” applies unless a sign at the property specifies that domestic animals are not permitted. (7-1-21)T

c. The Idaho State Historical Society Properties set forth in Paragraph 101.01.a. of these rules may be licensed or leased and such license or lease may vary the provisions of these rules applicable to use of the property under this chapter, including but not limited to the following: commercial use; Public Use; Private Events or Exhibits; consumption and distribution of alcohol; affixing of materials to the Idaho State Historical Society Properties; use of sound amplification; fireworks displays; and, use of utilities. (7-1-21)T

102. MULTI-AGENCY FACILITIES.
These rules apply to the following Multi-agency Facilities managed and administered by the Department. (7-1-21)T

01. Lewiston State Office Building. Lewiston State Office Building, 1118 F Street, Lewiston, Idaho 83501. (7-1-21)T

02. Idaho Falls State Office Building. Idaho Falls State Office Building, 150 Shoup Avenue, Idaho Falls, Idaho 83401. (7-1-21)T

103. -- 199. (RESERVED)

200. USE OF STATE FACILITIES.

01. Authorized Uses by the Public. Except as provided otherwise in these rules, the State Facilities are available for Public Use. (7-1-21)T

02. Prohibited Uses. The following uses are prohibited at the State Facilities: (7-1-21)T

a. Commercial Activity. The State Facilities shall not be used for any activity conducted for profit and no persons may solicit to sell any merchandise or service at the State Facilities. The following are not commercial activity prohibited by this subsection:

i. Meetings or conferences for public employees or their relatives describing employee benefits and approved by a state of Idaho agency. (7-1-21)T

ii. Concessions authorized by law. (7-1-21)T

iii. Vaccinations may be provided in exchange for a fee without the prior written permission of the Director where approved by a state of Idaho agency, board, commission or elected official. (7-1-21)T

b. Camping. (7-1-21)T

c. Private Events and Exhibits. (7-1-21)T

03. Priority of Uses. State Maintenance and Improvements have priority over all other use of the State Facilities. (7-1-21)T

201. (RESERVED)

202. EQUIPMENT AND SUPPLIES.
Except as provided in these rules, the Department will not provide equipment or supplies for use of the State Facilities. (7-1-21)T

203. ESTABLISHMENT OF PERIMETERS.
Security Personnel and law enforcement may establish perimeters separating participants in Public Use of the State Facilities or State Events and Exhibits. Participants in and observers of any Public Use or State Events and Exhibits shall observe perimeters set pursuant to this section. (7-1-21)T
204. AREA CLOSURES.
The Director may direct that any portion of the State Facilities be closed for Public Use upon a finding that the closed portion of the State Facilities has sustained damage or is in imminent danger of sustaining damage. The closure directive shall identify the portion of the State Facilities closed, the damage that has occurred or that will occur without closure, and the estimated period of closure to restore or prevent the damage. A notice of closure and information on how to obtain a copy of the closure directive shall be posted at the closed portion of the State Facilities. Circumstances presenting an imminent danger of damage to the State Facilities include, but are not limited to, the saturation of soil, turf, or landscaped areas with water, excessive foot traffic over landscaped areas, preventing turf or plants from obtaining adequate sunlight, and the buildup of ice or snow on landscaped areas. (7-1-21)T

205. -- 299. (RESERVED)

300. RESTRICTIONS AND LIMITATIONS ON USE.
The restrictions and limitations on use of the State Facilities set forth in Sections 301 through 399 of these rules apply to all Public Use of the State Facilities. (7-1-21)T

301. USES INTERFERING WITH ACCESS OR USE OF FACILITY.

01. Interference with Primary Use of Facility or Real Property. Public Use of the State Facilities shall not interfere with the primary use of the facility or real property adjoining the facility. The primary uses of the State Facilities include, but are not limited to, public meetings and hearings, court proceedings, and the conduct of public business by agencies or officials of the state of Idaho that normally occupy and use the affected facility or the real property adjoining the facility. (7-1-21)T

02. Interference with Access. Public Use of the State Facilities shall not block fire hydrants, fire or emergency vehicle lanes, vehicular drives, pedestrian walkways, doorways, steps or similar access routes through, in or out of the State Facilities. (7-1-21)T

302. MAINTENANCE AND IMPROVEMENTS.
Public Use shall not interfere with State Maintenance and Improvements. The Department will publish the regular maintenance and improvement schedule at the website address set forth in Section 005 of these rules. The regular maintenance and improvement schedule may be modified due to weather, staffing, emergency repairs, equipment failures, funding changes, contract modifications, State Events and Exhibits or other causes arising after the schedule’s publication. (7-1-21)T

303. MOTORIZED VEHICLES.
Motorized vehicles not owned or operated by the state of Idaho or law enforcement must remain on designated roadways and parking areas. Parking of motorized vehicles are governed by IDAPA 38.04.04, “Capitol Mall Parking Rules.” Wheelchairs, motorized scooters, and other equipment providing individual mobility to the disabled are not motorized vehicles for the purposes of this section. (7-1-21)T

304. BICYCLES, SKATES, SKATEBOARDS, SCOOTERS, AND OTHER NON-MOTORIZED TRANSPORTATION.
Bicycles, skates, skateboards, and scooters may not be used at the State Facilities. Users of all other non-motorized transportation must remain on designated pathways during use. Where indicated by a posted notice or where requested by Security Personnel, law enforcement or a state employee or agent supervising a State Facility, users must store non-motorized transportation in a designated storage area on the exterior of a State Facility. Wheelchairs and other equipment providing individual mobility to the disabled are not non-motorized transportation for the purposes of this section. (7-1-21)T

305. ANIMALS.
The following apply to animals at the State Facilities:

01. Wildlife. Unless authorized by the Director no person may:

a. Interfere with, hunt, molest, harm, frighten, kill, trap, chase, tease, annoy, shoot, or throw any object at a wild animal at the State Facilities. (7-1-21)T
b. Feed, give, or offer food or any noxious substance to a wild animal at the State Facilities.  
(7-1-21)T

02. Domestic Animals.  
(7-1-21)T

a. Domestic animals are not allowed at the State Facilities unless leashed and under the control of the person bringing the animal to the State Facility.  
(7-1-21)T

b. The person bringing the animal to the State Facilities shall have in his possession the equipment necessary to remove the animal’s fecal matter and immediately remove all fecal matter deposited by the animal.  
(7-1-21)T

306. LANDSCAPING.  
Unless authorized by the Director, no person shall:  
(7-1-21)T

01. Plants. Damage, cut, carve, transplant or remove any plant, including but not limited to trees, at the State Facilities.  
(7-1-21)T

02. Grass. Dig in or otherwise damage grass areas at the State Facilities.  
(7-1-21)T

03. Irrigation Equipment. Interfere with, damage or remove irrigation equipment at the State Facilities.  
(7-1-21)T

04. Landscaping Materials. Move or alter landscaping materials at the State Facilities including, but not limited to, rock, edging materials, and bark or mulch.  
(7-1-21)T

05. Climbing. Climb or scale buildings, memorials, statues, trees, fences, or improvements at the State Facilities.  
(7-1-21)T

307. FOOD AND BEVERAGES.  
Consumption of food and beverages at the State Facilities is subject to the following:  
(7-1-21)T

01. Consumption May Be Prohibited. The consumption of food and beverages may be prohibited by a notice posted at the entrance to all or a portion of the State Facilities.  
(7-1-21)T

02. Alcohol. Alcohol may not be consumed or distributed at the State Facilities.  
(7-1-21)T

308. SMOKING.  
All persons shall observe the smoke free entrance notices and smoke only in designated exterior areas of the State Facilities.  
(7-1-21)T

309. FIRES, CANDLES, AND FLAMES.  
No fires, candles, or other sources of open flame are permitted at the State Facilities.  
(7-1-21)T

310. POSTERS, PLACARDS, BANNERS, SIGNS, EQUIPMENT, TABLES, MATERIALS, AND DISPLAYS.  
(7-1-21)T

01. Electrical Cords. Electrical cords must be protected by cord covers or gaffers tape to prevent an electrical or trip hazard.  
(7-1-21)T

02. Railings and Stairways. No items may be placed on railings or stairways and no persons shall sit or stand on railings or stairways.  
(7-1-21)T

03. Tossing or Dropping Items. No items may be tossed or dropped over railings or from one level of a facility to another level or to the ground.  
(7-1-21)T
04. **Ingress or Egress.** No item, including tables, chairs, exhibits, equipment, materials, and displays shall be located so as to block ingress or egress to any portion of the State Facilities, or to restrict the follow of individuals using the facility, or to restrict emergency egress or ingress. (7-1-21)T

05. **Attaching, Affixing, Leaning, or Propping Materials.** Posters, placards, banners, signs, and displays, including any printed materials, shall not be affixed or placed on any exterior surface of the State Facilities not designed for that purpose or on any permanent Commemorative Installation, post, railing, fence or landscaping, including trees. All posters, placards, banners, signs, and displays must be free-standing or supported by individuals. No items may be leaned or propped against any exterior surface of the State Facilities or embedded into the ground, including, but not limited to, placement of a stake, post or rod into the ground to support materials. (7-1-21)T

06. **Materials Causing Damage to Exterior Surface.** Stages, risers, chairs, tables, sound equipment, props, materials, displays, and similar items shall be constructed and used in a manner that will not damage, scratch, dent, dig or tear any surface at the State Facilities or any systems or utilities of the State Facilities including, but not limited to, fire suppression systems, storm drains, ventilation systems, and landscape watering systems. (7-1-21)T

07. **Free Distribution of Literature and Printed Material.** All literature and printed material must be distributed at no charge. The party distributing literature and printed material shall ensure periodically and at the conclusion of its use of the State Facilities that such material is not discarded outside of designated trash receptacles. (7-1-21)T

08. **Surface Markings.** Users shall not use any material to mark on any surface of the State Facilities including chalk, paint, pens, ink, or dye. (7-1-21)T

311. **ITEMS SUBJECT TO SEARCH.**
To enhance security and public safety, Security Personnel or law enforcement may inspect:

01. **Packages and Bags.** Packages, backpacks, purses, bags, and briefcases reasonably suspected of concealing stolen items or items prohibited by these rules. (7-1-21)T

02. **Items.** Items brought to the State Facilities, if there is a reasonable suspicion that an item may be capable of injuring, damaging or harming persons or property at the State Facilities. (7-1-21)T

312. **PROHIBITED ITEMS.**
The following, as defined in Title 18, Chapter 33, Idaho Code, are not permitted at the State Facilities: bombs, destructive devices, shrapnel, weapons of mass destruction, biological weapons, and chemical weapons. Security Personnel or law enforcement may direct that any person at the State Facilities immediately remove from the State Facilities any club, bat, or other item that can be used to injure, damage, or harm persons or property. (7-1-21)T

313. **RESERVED**

314. **UTILITY SERVICE.**
The public may not use the utility services of the State Facilities other than restrooms; provided, however, the Director may authorize limited use of electrical service for the duration of Public Use authorized by these rules. Utility services include, but are not limited to, electrical, sewage, water, heating, and geothermal services. The Director may terminate the use of utilities if such use interferes with the utility services of the State Facilities or the equipment or apparatus using utility service fails to comply with applicable rules or codes. (7-1-21)T

315. **LAW ENFORCEMENT AND FACILITY EXIGENCY.**
In case of a fire, bomb threat, utility malfunction, structural failure or other unforeseen emergency or threat endangering public safety or health, or endangering public property, law enforcement, Security Personnel and state employees or officials may direct all persons off of the State Facilities and delay or postpone any activity until the emergency or threat is abated. (7-1-21)T

316. **COMPLIANCE WITH LAW.**
All use of the State Facilities shall comply with applicable law including, but not limited to, fire and safety codes. (7-1-21)T
317. HEALTH, SAFETY, AND MAINTENANCE OF STATE FACILITIES.

01. Clean Condition After Use. Users shall leave the State Facilities in reasonably clean condition after use, including depositing all trash in designated receptacles. (7-1-21)T

02. Items Return to Proper Location. Users shall return all items including, but not limited to, movable furniture and trash receptacles, to their location at the conclusion of the use. (7-1-21)T

03. Public Health. No person shall excrete human waste at the State Facilities except in designated restroom facilities. For purposes of this section, excrete means the discharge of human waste from the body, including the acts of defecation and urination. For purposes of this section, human waste means human feces or human urine. (7-1-21)T

04. Fireworks. No person shall possess or use fireworks at the State Facilities. (7-1-21)T

318. -- 399. (RESERVED)

400. LIABILITY AND INDEMNIFICATION.

01. State Liability. Nothing in these rules shall extend the liability of the state of Idaho beyond that provided in the Idaho Tort Claims Act, Title 6, Chapter 9, Idaho Code. (7-1-21)T

02. No Endorsement. Action or inaction of the Department shall not imply endorsement or approval by the state of Idaho of the actions, objectives or views of participants in Public Use of the State Facilities. (7-1-21)T

401. -- 999. (RESERVED)
38.04.07 – RULES GOVERNING USE OF THE INTERIOR OF STATE PROPERTY
IN THE CAPITOL MALL AND OTHER STATE FACILITIES

000. LEGAL AUTHORITY.
Section 67-5709, Idaho Code, gives the Director of the Department of Administration authority to promulgate rules
governing the State Properties in the Capitol Mall and other state facilities. (7-1-21)

001. SCOPE.
These rules contain the provisions for use of the interior of the Capitol Mall Office Properties, the Parking Facilities,
the Other State Properties, and the Multi-agency Facilities. The interiors of such facilities occupied by a tenant under
lease may be subject to additional requirements imposed by the tenant. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Camping. Any activity prohibited under Section 67-1613, Idaho Code. (7-1-21)
02. Capitol Annex. The interior of improvements located at 514 West Jefferson Street, Boise, Idaho. (7-1-21)
03. Capitol Mall Office Properties. The interior of improvements set forth in Section 67-5709(2)(a)
and (b), Idaho Code. The Capitol Mall Office Properties do not include the Idaho State Capitol or its grounds. (7-1-21)
04. Common Space. The portion of the Interior State Facility that is not Tenant Space. Common Space
includes but is not limited to interior lobbies not within Tenant Space and restrooms not accessed through Tenant
Space. Common Space does not include Tenant Space or any area marked “private,” “no admission,” “staff only,” or
similarly designated as not open to the public. (7-1-21)
05. Department. The Department of Administration. (7-1-21)
06. Director. The Director of the Department of Administration or his designee. (7-1-21)
07. Interior State Facilities. The interior spaces within the Capitol Mall Office Properties, the Parking
Facilities, the Multi-agency Facilities, and the Other State Properties. (7-1-21)
08. Multi-Agency Facilities. The interior of buildings and improvements set forth in Section 102 of
these rules. (7-1-21)
09. Other State Properties. The interior of buildings and improvements set forth in Section 101 of
these rules. (7-1-21)
11. Security Personnel. A state of Idaho employee or a staff member of a state of Idaho contractor
whose job duties include monitoring compliance with and enforcing these rules. (7-1-21)
12. State Business Day. Monday through Friday, excluding the holidays set forth in Section 73-108,
Idaho Code. (7-1-21)
13. Tenant Space. The portion of the Interior State Facilities occupied by a state of Idaho officer,
official, agency, board or commission or leased to a public agency or a private individual or entity. (7-1-21)

011. -- 100. (RESERVED)

101. OTHER STATE PROPERTIES.
These rules apply to the following Other State Properties pursuant to the request of the state of Idaho public entity
owning or controlling the property: (7-1-21)

01. Idaho State Historical Society Properties. (7-1-21)
a. The interior of the following properties owned or operated by the Idaho State Historical Society are Other Properties under these rules:

i. Idaho State Historical Museum, located at 610 North Julia Davis Drive, Boise, Idaho. (7-1-21)
ii. Old U.S. Assay Office, located at 210 Main Street, Boise, Idaho. (7-1-21)
iii. Old Penitentiary site located in Boise, Idaho and defined in Section 58-337, Idaho Code. (7-1-21)
iv. Idaho History Center, located at 2205 Old Penitentiary Road, Boise, Idaho. (7-1-21)
v. Franklin Historic Properties, located in Franklin, Idaho. The Franklin Historic Properties include the Franklin Co-operative Mercantile Institution Building, the Hatch House, the Doney House, and the Relic Hall. (7-1-21)
vi. Pierce Courthouse, located in Pierce, Idaho. (7-1-21)
vii. Rock Creek Station and Stricker Homesite, located at 3715 Stricker Cabin Road, Hansen, Idaho. (7-1-21)

b. The following sections of these rules apply to the Idaho State Historical Society Properties set forth in Paragraph 101.01.a. of these rules only as modified by this Paragraph 101.01.b.:

i. Subsection 010.06. “Director” means the Executive Director of the Idaho State Historical Society when these rules are applied to the Idaho State Historical Society Properties. (7-1-21)
ii. Subsection 200.01. “Authorized Uses by the Public” applies except that the Director may authorize public or private uses of the interior of the Idaho Historical Society Properties and the exclusion of members of the public from attending such events. For the purpose of this subsection, the grant of a lease or a license is authorization to exclude members of the public from the interior of the Idaho Historical Society Properties. (7-1-21)
iii. Section 302. “Hours and Locations of Use” applies as if the Idaho State Historical Properties were Capitol Mall Office Properties unless other hours of use or access restrictions are designated at the property, or posted on the Idaho State Historical Society website. (7-1-21)

c. The Idaho State Historical Society Properties set forth in Paragraph 101.01.a. of these rules may be licensed or leased and such license or lease may vary the provisions of these rules applicable to use of the property under this chapter, including but not limited to the following: hours of use; authorized uses; consumption and distribution of alcohol; affixing of materials to the Idaho State Historical Society Properties; use of sound amplification; and, use of utilities. (7-1-21)

102. MULTI-AGENCY FACILITIES.
These rules apply to the following Multi-agency Facilities managed and administered by the Department:

01. Lewiston State Office Building. 1118 F Street, Lewiston, Idaho 83501. (7-1-21)
02. Idaho Falls State Office Building. 150 Shoup Avenue, Idaho Falls, Idaho 83401. (7-1-21)

103. -- 199. (RESERVED)

200. USE OF INTERIOR STATE FACILITIES.

01. Authorized Uses by the Public. Public access to the Interior State Facilities is limited to the conduct of business with a tenant. Public access to the Tenant Space is limited to the conduct of business with the tenant. (7-1-21)
02. Prohibited Uses. The following uses are prohibited at the Interior State Facilities: (7-1-21)
a. Events. The Interior State Facilities shall not be used by the public for press conferences, performances, ceremonies, presentations, meetings, rallies, receptions or gatherings. (7-1-21)

b. Exhibits. The Interior State Facilities shall not be used by the public for attended or unattended displays, including but not limited to equipment, machines, vehicles, products, samples, paintings, sculptures, arts and crafts, photographs, signs, banners or other graphic displays. (7-1-21)

c. Commercial Activity. The Common Space shall not be used for any activity conducted for profit and no persons may solicit to sell any merchandise or service in the Common Space. (7-1-21)

201. -- 299. (RESERVED)

300. RESTRICTIONS AND LIMITATIONS ON USE.
Except as otherwise provided, the restrictions and limitations on use of the Interior State Facilities set forth in Sections 301 through 399 of these rules apply to all use of the Interior State Facilities. (7-1-21)

301. USES INTERFERING WITH ACCESS OR USE OF FACILITY.

01. Interference With Primary Use of Facility or Real Property. No person shall interfere with the primary use of the Interior State Facilities. The primary uses of the Interior State Facilities include but are not limited to public meetings and hearings, court proceedings, and the conduct of public business by agencies or officials of the state of Idaho that normally occupy and use Interior State Facilities and the conduct of business by a tenant of a state facility. (7-1-21)

02. Interference With Access. No person shall block fire hydrants, fire or emergency vehicle lanes, vehicular drives, pedestrian walkways, doorways, steps or similar access routes through, in or out of the Interior State Facilities. (7-1-21)

302. HOURS AND LOCATIONS OF USE.

01. Capitol Mall Office Properties and Multi-Agency Facilities. The hours for public access to the interior of the Capitol Mall Office Properties and the Multi-agency Facilities are 8 a.m. to 5 p.m. on State Business Days. (7-1-21)

02. Parking Facilities. The hours of use of the Parking Facilities are governed by IDAPA 38.04.04, “Capitol Mall Parking Rules.” (7-1-21)

303. BICYCLES, SKATES, SKATEBOARDS, SCOOTERS, AND OTHER NON-MOTORIZED TRANSPORTATION.
Bicycles, skates, skateboards, scooters, and other non-motorized transportation may not be used in the Interior State Facilities. Where indicated by a posted notice or where requested by Security Personnel, law enforcement or a state employee or agent supervising a state facility, users must store non-motorized transportation in a designated storage area on the exterior of a state facility. Child strollers and wheelchairs and other equipment providing individual mobility to the disabled are not non-motorized transportation for the purposes of this section. (7-1-21)

304. ANIMALS.
Animals are not allowed at the Interior State Facilities unless the animal is a service animal necessary to assist persons with disabilities or an animal in the service of law enforcement. Service animals must be leashed and under the control of the person bringing the animal to the Interior State Facilities. The person bringing the animal to the Interior State Facilities shall have in his possession the equipment necessary to remove the animal’s urine and fecal matter and immediately remove all urine and fecal matter deposited by the animal. (7-1-21)

305. FOOD AND BEVERAGES.
Consumption of food and beverages at the Interior State Facilities is subject to the following:

01. Consumption May Be Prohibited. The consumption of food and beverages may be prohibited by
306. **SMOKING.**
Smoking is not allowed in the Interior State Facilities.

307. **FIRES, CANDLES, AND FLAMES.**
No fires, candles or other sources of open flame are permitted in the Interior State Facilities.

308. **LIMITS ON USE OF COMMON SPACE.**
The following provisions apply to the Common Space.

01. **Electrical Cords.** Electrical cords must be protected by cord covers or gaffers tape to prevent an electrical or trip hazard.

02. **Railings and Stairways.** No items may be placed on railings or stairways and no persons shall sit or stand on railings or stairways.

03. **Tossing or Dropping Items.** No items may be tossed or dropped over railings or from one level of a facility to another level or to the ground.

04. **Ingress or Egress.** No item, including tables, chairs, exhibits, equipment, materials, and displays shall be located so as to block ingress or egress to any portion of the Interior State Facilities, or to restrict the follow of individuals using the facility, or to restrict emergency egress or ingress.

05. **Attaching, Affixing, Leaning or Propping Materials.** Posters, placards, banners, signs, and displays, including any printed materials, shall not be affixed on any interior surface of the Common Space not designed for that purpose. No items may be leaned or propped against any interior surface of the Common Space.

06. **Materials Causing Damage to Interior Surface.** Stages, risers, chairs, tables, sound equipment, props, materials, displays, and similar items shall be constructed and used in a manner that will not damage, scratch, dent, dig or tear any surface in the Common Space or any systems or utilities of the Interior State Facilities, including but not limited to fire suppression systems, drains, ventilation systems, and lighting systems.

309. **ITEMS SUBJECT TO SEARCH.**
To enhance security and public safety, Security Personnel and law enforcement may inspect:

01. **Packages and Bags.** Packages, backpacks, purses, bags, and briefcases reasonably suspected of concealing stolen items or items prohibited by these rules.

02. **Items.** Items brought to the Interior State Facilities, if there is a reasonable suspicion that an item may be capable of injuring, damaging or harming persons or property at the Interior State Facilities.

310. **PROHIBITED ITEMS.**
The following, as defined in Title 18, Chapter 33, Idaho Code, are not permitted at the State Facilities; bombs, destructive devices, shrapnel, weapons of mass destruction, biological weapons, and chemical weapons. Security Personnel or law enforcement may direct that any person at the State Facilities immediately remove from the State Facilities any club, bat or other item that can be used to injure, damage, or harm persons or property at the Interior State Facilities.

311. **UTILITY SERVICE.**
The public may not use the utility services of the Interior State Facilities except restrooms.

312. **LAW ENFORCEMENT AND FACILITY EXIGENCY.**
In case of a fire, bomb threat, utility malfunction, structural failure or other unforeseen emergency or threat...
endangering public safety or health, or endangering public property, law enforcement, Security Personnel and state employees or officials may direct all persons out of the Interior State Facilities and delay or postpone any activity until the emergency or threat is abated. (7-1-21)T

313. COMPLIANCE WITH LAW.
All use of the Interior State Facilities shall comply with applicable law, including but not limited to fire and safety codes. (7-1-21)T

314. MAINTENANCE OF INTERIOR STATE FACILITIES.

01. Clean Condition After Use. Users shall leave the Interior State Facilities in reasonably clean condition after use, including depositing all trash in designated receptacles. (7-1-21)T

02. Items Return to Proper Location. Users shall return all items, including but not limited to movable furniture and trash receptacles to their location at the conclusion of use. (7-1-21)T

315. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
Section 67-1604, Idaho Code, gives the Director of the Department of Administration authority to promulgate rules governing access to and use by the public of the capitol building and its grounds. Section 67-5709, Idaho Code, gives the Director authority to promulgate rules governing certain public facilities.

001. **SCOPE.**
The rules contain the provisions for use of the exterior of the Idaho State Capitol.

002. -- 009. (RESERVED)

010. **DEFINITIONS.**

01. **Camping.** Any activity prohibited under Section 67-1613, Idaho Code.

02. **Commemorative Installation.** Any statue, monument, sculpture, memorial or landscape feature designed to recognize a person, group, event or element of history.

03. **Department.** The Department of Administration.

04. **Director.** The Director of the Department of Administration or his designee.

05. **Jefferson Steps.** The building entrance at the second floor of the State Capitol, the steps extending from the entrance, and the hard surface extending between the steps and the public sidewalk along Jefferson Street.

06. **Permit.** A written authorization issued by the Director allowing use of the State Capitol Exterior as set forth in the Permit. A Permit serves as a reservation to use a portion of the State Capitol Exterior with the priority for use set forth in Subsection 200.04 of these rules.

07. **Private Event or Private Exhibit.** Any activity sponsored or initiated by a member of the public that is open only to invited or qualifying individuals or groups. Private Events and Private Exhibits include, but are not limited to, weddings, dinners, award ceremonies, memorials, and seminars.

08. **Public Use.** Use that is not:

a. A State Event or Exhibit;

b. Use by a public officer, official, employee, contractor, agency, or board or commission for state of Idaho business; or

c. State Maintenance and Improvements.

09. **Security Personnel.** A state of Idaho employee or a staff member of a state of Idaho contractor whose job duties include monitoring compliance with and enforcing these rules.

11. **State Capitol Exterior.** The exterior of the Idaho State Capitol, the real property, the grounds, and the improvements on the exterior of the Idaho State Capitol or its grounds, all of which is located at capitol square as identified on the Boise City original townsite plat filed in the Ada County Recorder’s office in book 1 on page 1. The State Capitol Exterior is bounded by the following streets: State Street, Sixth Street, Jefferson Street, and Eighth Street.

12. **State Events and Exhibits.** All functions initiated and controlled by any state of Idaho agency, board, commission, officer or elected official acting on behalf of the state of Idaho.

13. **State Maintenance and Improvements.** Maintenance or improvement of the State Capitol Exterior by the state of Idaho or its contractors. Maintenance for the purpose of this definition includes, but is not limited to, grounds maintenance such as mowing, watering, landscaping, aerating, resodding, fertilizing and planting, and structural maintenance such as pressure washing, painting, window cleaning and re-glazing. Improvement for the purpose of this definition includes, but is not limited to, the following: construction of new buildings or portions of
buildings; renovations to existing buildings; the installation of permanent structures and equipment such as benches, sprinklers, flagpoles, monuments and memorials; and, the installation of temporary equipment and structures such as construction fencing, generators and portable buildings. (7-1-21)

011. -- 199. (RESERVED)

200. USE OF STATE CAPITOL EXTERIOR.

01. Authorized Uses by the Public. Except as provided otherwise in these rules, the State Capitol Exterior is available for Public Use. (7-1-21)

02. Prohibited Uses. The following uses are prohibited in the State Capitol Exterior: (7-1-21)

a. Commercial Activity. The State Capitol Exterior shall not be used for any activity conducted for profit and no persons may solicit to sell any merchandise or service on the State Capitol Exterior. (7-1-21)

b. Camping. (7-1-21)

c. Private Events and Private Exhibits. (7-1-21)

03. Priority of Uses. State Maintenance and Improvements have priority over all other use of the State Capitol Exterior. Public Use held under a Permit have priority over other Public Use. (7-1-21)

201. (RESERVED)

202. EQUIPMENT AND SUPPLIES. 
Except as provided in these rules, the Department will not provide equipment or supplies for use on the State Capitol Exterior. Where requested in a Permit application for use of the Jefferson Street Steps, the Department may provide a podium and a public address system. (7-1-21)

203. ESTABLISHMENT OF PERIMETERS. 
Security personnel and law enforcement may establish perimeters separating participants in Public Use of the State Capitol Exterior or State Events or Exhibits. Participants in and observers of any Public Use or State Events or Exhibits shall observe perimeters set pursuant to this section. (7-1-21)

204. AREA CLOSURES.
The Director may direct that any portion of the State Capitol Exterior be closed for Public Use upon a finding that the closed portion of the State Capitol Exterior has sustained damage or is in imminent danger of sustaining damage. The closure directive shall identify the portion of the State Capitol Exterior closed, the damage that has occurred or that will occur without closure, and the estimated period of closure to restore or prevent the damage. A notice of closure and information on how to obtain a copy of the closure directive shall be posted at the closed portion of the State Capitol Exterior. Circumstances presenting an imminent danger of damage to the State Capitol Exterior include, but are not limited to, the saturation of soil, turf, or landscaped areas with water, excessive foot traffic over landscaped areas, preventing turf or plants from obtaining adequate sunlight, and the buildup of ice or snow on landscaped areas. (7-1-21)

205. -- 299. (RESERVED)

300. RESTRICTIONS AND LIMITATIONS ON USE. 
The restrictions and limitations on use of the State Capitol Exterior set forth in Sections 301 through 399 of these rules apply to all Public Use of the State Capitol Exterior. (7-1-21)

301. USES INTERFERING WITH ACCESS OR USE OF FACILITY.

01. Interference With Primary Use of State Capitol Exterior. Events, exhibits, and Public Use of the State Capitol Exterior shall not interfere with the primary use of the Idaho State Capitol or the adjacent real property and improvements. The primary use of the Idaho State Capitol includes, but is not limited to, the conduct of public business by agencies or officials of the state of Idaho that normally occupy and use the Idaho State Capitol or
the State Capitol Exterior. (7-1-21)T

02. **Interference With Access.** Public Use of the State Capitol Exterior shall not block fire hydrants, fire or emergency vehicle lanes, vehicular drives, pedestrian walkways, doorways, steps or similar access routes through, in or out of the State Capitol Exterior. (7-1-21)T

302. **LOCATIONS.**

01. **Locations.** In addition to limitations on the interference with access set forth in Section 301 of these rules and compliance with all fire and safety codes, Public Use on the State Capitol Exterior shall be: (7-1-21)T

a. On the Jefferson Street Steps or on hard surfaces, including concrete and granite, on the State Capitol Exterior; and (7-1-21)T

b. At least fifteen (15) feet from the exterior walls and windows of the Idaho State Capitol. (7-1-21)T

303. **MAINTENANCE AND IMPROVEMENTS.**

Public Use shall not interfere with State Maintenance and Improvements. The regular maintenance and improvement schedule may be modified due to weather, staffing, emergency repairs, equipment failures, funding changes, contract modifications, State Events and Exhibits or other causes arising after the schedule’s publication. (7-1-21)T

304. **MOTORIZED VEHICLES.**

Motorized vehicles not owned or operated by the state of Idaho or law enforcement must remain on designated roadways and parking areas. Parking of motorized vehicles is governed by IDAPA 38.04.04, “Capitol Mall Parking Rules.” Wheelchairs, motorized scooters, and other equipment providing individual mobility to the disabled are not motorized vehicles for the purposes of this section. (7-1-21)T

305. **BICYCLES, SKATES, SKATEBOARDS, SCOOTERS, AND OTHER NON-MOTORIZED TRANSPORTATION.**

Bicycles, skates, skateboards, and scooters may not be used on the State Capitol Exterior. Users of all other non-motorized transportation must remain on designated pathways during use. Where indicated by a posted notice or where requested by Security Personnel, law enforcement or a state employee or agent supervising the State Capitol Exterior, users must store non-motorized transportation in a designated storage area on the State Capitol Exterior. Wheelchairs and other equipment providing individual mobility to the disabled are not non-motorized transportation for the purposes of this section. (7-1-21)T

306. **ANIMALS.**

The following apply to animals on the State Capitol Exterior: (7-1-21)T

01. **Wildlife.** Unless authorized by the Director no person may: (7-1-21)T

a. Interfere with, hunt, molest, harm, frighten, kill, trap, chase, tease, annoy, shoot or throw any object at a wild animal on the State Capitol Exterior. (7-1-21)T

b. Feed, give or offer food or any noxious substance to a wild animal on the State Capitol Exterior. (7-1-21)T

02. **Domestic Animals.** (7-1-21)T

a. Domestic animals are not allowed on the State Capitol Exterior unless leashed and under the control of the person bringing the animal to the State Capitol Exterior. (7-1-21)T

b. The person bringing the animal to the State Capitol Exterior shall have in his possession the equipment necessary to remove the animal’s fecal matter and immediately remove all fecal matter deposited by the animal. (7-1-21)T

307. **LANDSCAPING.**

Section 302 Page 5055
No person other than state employees or contractors designated by the Director shall:

01. **Plants.** Damage, cut, carve, transplant or remove any plant including, but not limited to, trees, on the State Capitol Exterior.

02. **Grass.** Dig in or otherwise damage grass areas on the State Capitol Exterior.

03. **Irrigation Equipment.** Interfere with, damage or remove irrigation equipment on the State Capitol Exterior.

04. **Landscaping Materials.** Move or alter landscaping materials on the State Capitol Exterior including, but not limited to, rock, edging materials, and bark or mulch.

05. **Climbing.** Climb or scale buildings, Commemorative Installations, trees, fences, posts or other improvements on the State Capitol Exterior.

308. **FOOD AND BEVERAGES.** Consumption of food and beverages on the State Capitol Exterior is subject to the following:

01. **Consumption May Be Prohibited.** The consumption of food and beverages may be prohibited by a notice posted at the entrance to all or a portion of the State Capitol Exterior.

02. **Alcohol.** Alcohol may not be consumed or distributed on the State Capitol Exterior.

309. **SMOKING.** All persons shall observe the smoke free entrance notices and smoke only in designated areas of the State Capitol Exterior.

310. **FIRES, CANDLES, AND FLAMES.** No fires, candles or other sources of open flame are permitted on the State Capitol Exterior.

311. **POSTERS, PLACARDS, BANNERS, SIGNS, EQUIPMENT, TABLES, MATERIALS, AND DISPLAYS.**

01. **Electrical Cords.** Electrical cords must be protected by cord covers or gaffers tape to prevent an electrical or trip hazard.

02. **Railings.** No items may be placed on railings and no persons shall sit or stand on railings.

03. **Tossing or Dropping Items.** No items may be tossed or dropped over railings or from one level of the Idaho State Capitol or improvements on the grounds of the State Capitol Exterior to another level or to the ground.

04. **Ingress or Egress.** No item, including tables, chairs, exhibits, equipment, materials, and displays shall be located so as to block ingress or egress to any portion of the State Capitol Exterior, or to restrict the follow of individuals using the facility, or to restrict emergency egress or ingress.

05. **Attaching, Affixing, Leaning or Propping Materials.** Posters, placards, banners, signs, and displays, including any printed materials, shall not be affixed on any exterior surface of the State Capitol Exterior or on any permanent Commemorative Installation, post, railing, fence or landscaping, including trees. All posters, placards, banners, signs, and displays must be free-standing or supported by individuals. No items may be leaned or propped against any exterior surface of the State Capitol Exterior or embedded into the ground including, but not limited to, placement of a stake, post or rod into the ground to support materials.

06. **Materials Causing Damage to Surfaces.** Stages, risers, chairs, tables, sound equipment, props, materials, displays, and similar items shall be constructed and used in a manner that will not damage, scratch, dent,
dig or tear any surface on the State Capitol Exterior or any systems or utilities of the State Capitol Exterior including, but not limited to, fire suppression systems, storm drains, ventilation systems, and landscape watering systems.

(7-1-21)T

312. ITEMS SUBJECT TO SEARCH.
To enhance security and public safety, Security Personnel and law enforcement may inspect:

01. Packages and Bags. Packages, backpacks, purses, bags, and briefcases reasonably suspected of concealing stolen items or items prohibited by these rules.

(7-1-21)T

02. Items. Items brought onto the State Capitol Exterior, if there is a reasonable suspicion that an item may be capable of injuring, damaging or harming persons or property on the State Capitol Exterior.

(7-1-21)T

313. PROHIBITED ITEMS.
The following, as defined in Title 18, Chapter 33, Idaho Code, are not permitted at the State Capitol Exterior: bombs, destructive devices, shrapnel, weapons of mass destruction, biological weapons, and chemical weapons. Security Personnel or law enforcement may direct that any person at the State Capitol Exterior immediately remove from the State Capitol Exterior any club, bat, or other item that can be used to injure, damage, or harm persons or property.

(7-1-21)T

314. UTILITY SERVICE.
The public may not use the utility services of the State Capitol Exterior other than restrooms; provided, however, the Director may authorize limited use of electrical service for the duration of Public Use authorized by these rules. Utility services include, but are not limited to, electrical, sewage, water, heating, and geothermal services. The Director may terminate the use of utilities if such use interferes with the utility services of the State Capitol Exterior or the equipment or apparatus using utility service fails to comply with applicable rules or codes.

(7-1-21)T

315. LAW ENFORCEMENT AND FACILITY EXIGENCY.
In case of a fire, bomb threat, utility malfunction, structural failure or other unforeseen emergency or threat endangering public safety or health, or endangering public property, law enforcement, security personnel and state employees or officials may direct all persons off of the State Capitol Exterior and delay or postpone any activity until the emergency or threat is abated.

(7-1-21)T

316. COMPLIANCE WITH LAW.
All use of the State Capitol Exterior shall comply with applicable law including, but not limited to, fire and safety codes.

(7-1-21)T

317. HEALTH, SAFETY AND MAINTENANCE OF STATE FACILITIES.

01. Clean Condition After Use. Users shall leave the State Capitol Exterior in reasonably clean condition after use, including depositing all trash in designated receptacles.

(7-1-21)T

02. Items Return to Proper Location. Users shall return all items including, but not limited to, movable furniture and trash receptacles, to their location at the conclusion of the event or exhibit.

(7-1-21)T

03. Public Health. No person shall excrete human waste at the State Capitol Exterior except in designated restroom facilities. For purposes of this section, excrete means the discharge of human waste from the body, including the acts of defecation and urination. For purposes of this section, human waste means human feces or human urine.

(7-1-21)T
04. **Fireworks.** No person shall possess or use fireworks on the State Capitol Exterior. (7-1-21)T

318. -- 399. (RESERVED)

400. **PERMITS.**

01. **Use Without a Permit.** A Permit grants a reservation providing priority for use of the area specified in the Permit as set forth in Subsection 200.04 of these rules. Applicants desiring to obtain a Permit for use of the State Capitol Exterior outside of the Permit areas, hours or duration or who have not submitted an application within the application period may use the State Capitol Exterior, subject to the provisions of these rules, on a first-come, first used basis. Permits will be issued to groups of two (2) or more people. (7-1-21)T

02. **Permit Areas, Hours and Duration, and Number of Participants.** (7-1-21)T

a. The Director will consider and grant Permits only for Public Use of the Jefferson Street Steps. (7-1-21)T

b. The Director will issue Permits reserving use of the Jefferson Street Steps only for the period between the hours of 7 a.m. and 6 p.m. on State Business Days. (7-1-21)T

c. The duration of a Permit will not exceed four (4) consecutive hours. (7-1-21)T

d. The Director will issue a Permit only for Public Use involving two (2) or more persons. (7-1-21)T

03. **Application Period.** Permit applications must be received and complete at least two (2) State Business Days prior to the requested date and time period of the Permit. The Department will not accept applications submitted more than six (6) months prior to the requested date of the Permit. (7-1-21)T

04. **Validity.** Permits are valid only for the dates, times, and locations specified on the Permit as approved by the Director. (7-1-21)T

05. **Distribution.** Permits will be granted by the Director on a first-come, first-served basis, subject to Subsection 200.03 of these rules. Only one (1) Permit will be granted for the Jefferson Street Steps during any period of time. (7-1-21)T

06. **Application Requirements.** Applications for a Permit shall be in writing on a form prescribed by the Director and available at the office of the Division of Public Works and the Department’s website. The Director will only process applications that are complete and signed by the individual making a request or an authorized representative of the entity or organization making the request. The Director may make reasonable inquiry to confirm the accuracy of the application and the authority of the party signing the application. (7-1-21)T

07. **Conditions.** The Director may impose reasonable conditions on the use of the State Capitol Exterior in the Permit for the purpose of protecting persons and property. Conditions may include the acquisition of liability insurance and a bond as security for costs arising from the use. (7-1-21)T

08. **Transferability.** Permits are non-transferable. (7-1-21)T

401. **APPROVALS AND DENIALS OF A PERMIT APPLICATION.**

01. **Period for Approval or Denial.** The Department will approve or deny a complete application within two (2) State Business Days of the submission of the application. (7-1-21)T

02. **Basis for Denial.** Permits may be denied for one (1) or more of the following: (7-1-21)T

a. A Permit has been granted for all or part of the requested location during all or part of the requested time period. (7-1-21)T
b. A public entity or official will be using all or part of the requested location during all or part of the requested time period. (7-1-21)

c. The requested use would violate any provision of these rules or applicable law. (7-1-21)

d. These rules do not authorize the use for the location or times requested or do not authorize the issuance of a Permit for the location requested. (7-1-21)

e. The Permit application is incomplete, contains a material falsehood, or contains a material misrepresentation. (7-1-21)

f. The Permit applicant has not certified that the applicant will comply with these rules or applicable law. (7-1-21)

g. The party signing the application is not legally competent to bind themselves or the organization or entity submitting the application. (7-1-21)

h. The individual, organization or entity submitting the application:

i. Failed to pay costs or damages arising from an earlier use of any state facility; (7-1-21)

ii. Made a material misrepresentation regarding the nature or scope of the use on a prior Permit application; (7-1-21)

iii. Violated the terms of prior Permits issued to the individual, organization or entity; or (7-1-21)

iv. Violated any applicable law in the course of previous Public Use of state of Idaho facilities. (7-1-21)

i. The requested use would cause a clear and present danger to the orderly processes of state of Idaho government or to the use of the State Capitol Exterior due to advocacy of:

i. The violent overthrow of the government of the United States, the state of Idaho, or any political subdivision thereof; (7-1-21)

ii. The willful damage or destruction, or seizure and subversion of public property; (7-1-21)

iii. The forcible disruption or impairment of or interference with the regularly schedule functions of the state of Idaho; (7-1-21)

iv. The physical harm, coercion, intimidation or other invasions of the lawful rights of public officials or the public; or (7-1-21)

v. Other disorders of a violent nature. (7-1-21)

402. REVOCATION OF A PERMIT. A Permit may be revoked by the Director for the violation of any term or condition of the Permit or the violation of law including, but not limited to, the violation of any provision of these rules. (7-1-21)

403. APPEALS. 01. Time for Appeal. The individual or the organization or entity submitting an application may request that the Department initiate a contested case within the period set forth below. The Department will not initiate a contested case after the following periods. (7-1-21)

a. Seven (7) State Business Days following the written denial of an application for a Permit.
02. Requesting an Appeal. The individual or the organization or entity submitting an application shall request an appeal in writing, with a physical copy delivered to the Director at the address set forth in Section 005 of these rules, containing the following:

   a. The name, address, and contact information of the appellant;
   b. A concise statement of the reason the appeal should be granted;
   c. Whether the appellant requests informal disposition to expedite the contested case; and
   d. A description of the Permit sought.

03. Informal Disposition. If an appellant requests informal disposition, the Director will accept written evidence submitted within five (5) State Business Days of the appeal request, or as otherwise agreed by the Director and the appellant. The Director will issue a final written order affirming, reversing or modifying the denial or revocation of the Permit.

04. Contested Cases. If an appellant does not request informal disposition, the Director will schedule a hearing and proceed as set forth in Title 67, Chapter 52, Idaho Code. Contested cases will be governed by the provisions of IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.”

404. -- 499. (RESERVED)

500. LIABILITY AND INDEMNIFICATION.

01. State Liability. Nothing in these rules shall extend the liability of the state of Idaho beyond that provided in the Idaho Tort Claims Act, Title 6, Chapter 9, Idaho Code.

02. No Endorsement. The grant of a Permit and any action or inaction of the Department shall not imply endorsement or approval by the state of Idaho of the actions, objectives or views of participants in Public Use of the State Facilities.

501. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
Section 67-5709, Idaho Code, gives the Director of the Department of Administration authority to manage state facilities and to promulgate rules governing state facilities. (7-1-21)

001. SCOPE.
These rules contain the provisions for use of the exterior and interior of the Chinden Office Complex. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Camping. Any activity prohibited under Section 67-1613, Idaho Code. (7-1-21)

02. Chinden Office Complex. The Chinden Office Complex is bounded to the north by West Chinden Boulevard, to the west by North Cloverdale Road, to the east by North Five Mile Road, and to the south by the Jones-Stiburek, Orchid Point, De Meyer Estates No. 7, Hickories No. 1, 9 and 12, Hickories East and EMS Avenue Subdivisions. Buildings 1 through 8 and the grounds adjacent to such buildings located in Boise, Idaho is the Chinden Office Complex under these rules. (7-1-21)

03. Commemorative Installation. Any statue, monument, sculpture, memorial or landscape feature designed to recognize a person, group, event or element of history. (7-1-21)

04. Common Space. The portion of the Chinden Office Complex that is not Tenant Space. Common Space includes but is not limited to interior lobbies not within Tenant Space and restrooms not accessed through Tenant Space. Common Space does not include Tenant Space or any area marked “private,” “no admission,” “staff only” or similarly designated as not open to the public. (7-1-21)

05. Department. The Department of Administration. (7-1-21)

06. Director. The Director of the Department of Administration or his designee. (7-1-21)

07. Private Event or Private Exhibit. Any activity sponsored or initiated by a member of the public that is open only to invited or qualifying individuals or groups. Private Events and Private Exhibits include, but are not limited to, weddings, dinners, award ceremonies, memorials, and seminars. (7-1-21)

08. Public Use. Use that is not:

a. A State Event or Exhibit; (7-1-21)

b. Use by a public officer, official, employee, contractor, agency, or board or commission for state of Idaho business; (7-1-21)

c. State Maintenance and Improvements; or (7-1-21)

d. Use by a Tenant. (7-1-21)

09. Recreational Facilities. Facilities designated by the Director for Recreational Use. (7-1-21)

10. Recreational Use. Use for leisure or athletic purposes such as picnicking and sports practices or informal sports games. (7-1-21)

11. Security Personnel. A state of Idaho employee or a staff member of a state of Idaho contractor whose job duties include monitoring compliance with and enforcing these rules. (7-1-21)

13. State Events and Exhibits. All functions initiated and controlled by any state of Idaho agency, board, commission, officer or elected official acting on behalf of the state of Idaho. (7-1-21)

14. State Maintenance and Improvements. Maintenance or improvement of the Chinden Office
Complex by the state of Idaho or its contractors. Maintenance for the purpose of this definition includes, but is not
limited to, grounds maintenance such as mowing, watering, landscaping, aerating, turf installation and repair,
fertilizing and planting, and structural maintenance such as pressure washing, painting, and window cleaning and re-
glazing. Improvement for the purpose of this definition includes, but is not limited to, the following: construction of
new buildings or portions of buildings; renovations to existing buildings; the installation of permanent structures and
equipment such as benches, sprinklers, flagpoles, monuments and memorials; and, the installation of temporary
equipment and structures such as construction fencing, generators and portable buildings.

15. Tenant. A state of Idaho officer, official, agency, board or commission or a public agency or a
private individual or entity with a license or lease to use the Chinden Office Complex.

16. Tenant Space. The portion of the exterior of the Chinden Office Complex licensed or leased to a
private individual or entity and the portion of the interior of the Chinden Office Complex occupied by a state of Idaho
officer, official, agency, board or commission or leased to a public agency or a private individual or entity.

011. – 199. (RESERVED)

200. USE OF THE CHINDEN OFFICE COMPLEX.

01. Authorized Uses by the Public. Except as provided otherwise in these rules, the Chinden Office
Complex is available for Public Use.

02. Prohibited Uses. The following uses are prohibited at the Chinden Office Complex:

a. Commercial Activity. The Chinden Office Complex shall not be used for any activity conducted for
profit and no persons may solicit to sell any merchandise or service at the Chinden Office Complex. The following
are not commercial activity prohibited by this subsection:

i. Meetings or conferences for public employees or their relatives describing employee benefits and
approved by a state of Idaho agency.

ii. Concessions authorized by law.

iii. Vaccinations may be provided in exchange for a fee without the prior written permission of the
Director where approved by a state of Idaho agency, board, commission or elected official.

iv. The conduct of business by a Tenant.

b. Camping.

c. Private Events and Exhibits, except use of the Recreational Facilities as authorized by these rules.

d. Use by the public for press conferences, performances, ceremonies, presentations, meetings, rallies,
receptions or gatherings.

e. Use by the public for attended or unattended displays, including but not limited to equipment,
machines, vehicles, products, samples, paintings, sculptures, arts and crafts, photographs, signs, banners or other
graphic displays.

03. Public Access to Interior. Public access to the interior of the buildings at the Chinden Office
Complex and to exterior Tenant Space at the Chinden Office Complex is limited to the conduct of business with the
Tenant.

04. Priority of Uses. State Maintenance and Improvements have priority over all other use of the
Chinden Office Complex.
201. **HOURS OF USE.**

01. **Hours for Use by the Public.** The hours for public access to the exterior of the Chinden Office Complex are from sunrise to sunset. The hours for public access to interior Common Space are as posted on the public entrance to each building at the Chinden Office Complex. (7-1-21)

02. **Public Parking Hours.** Unless approved by the Director, the public shall not park motorized vehicles overnight at the Chinden Office Complex. (7-1-21)

202. **USE OF RECREATIONAL FACILITIES.**

The Director may authorize reservation of Recreational Facilities under this subsection by a Tenant and the exclusion of members of the public from use of Recreational Facilities during reserved periods. Unless reserved by a Tenant, Recreational Facilities are available for Recreational Use by the public on a first-come, first-used basis from sunrise to sunset daily. (7-1-21)

203. **EQUIPMENT AND SUPPLIES.**

Except as provided in these rules, the Department will not provide equipment or supplies for use of the Chinden Office Complex. (7-1-21)

204. **ESTABLISHMENT OF PERIMETERS.**

Security personnel and law enforcement may establish perimeters separating participants in Public Use of the Chinden Office Complex or State Events and Exhibits. Participants in and observers of any Public Use or State Events and Exhibits shall observe perimeters set pursuant to this section. (7-1-21)

205. **AREA CLOSURES.**

The Director may direct that any portion of the Chinden Office Complex be closed for Public Use upon a finding that the closed portion of the Chinden Office Complex has sustained damage or is in imminent danger of sustaining damage. The closure directive shall identify the portion of the Chinden Office Complex closed, the damage that has occurred or that will occur without closure, and the estimated period of closure to restore or prevent the damage. A notice of closure and information on how to obtain a copy of the closure directive shall be posted at the closed portion of the Chinden Office Complex. Circumstances presenting an imminent danger of damage to the Chinden Office Complex include, but are not limited to, the saturation of soil, turf or landscaped areas with water, excessive foot traffic over landscaped areas, preventing turf or plants from obtaining adequate sunlight, and the buildup of ice or snow on landscaped areas. (7-1-21)

206. – 299. **(RESERVED)**

300. **RESTRICTIONS AND LIMITATIONS ON USE.**

The restrictions and limitations on use of the Chinden Office Complex set forth in Sections 301 through 399 of these rules apply to all Public Use of the Chinden Office Complex. The lease or license of Tenant Space may vary these rules for use by the Tenant, its employees, and its invited guests. (7-1-21)

301. **USES INTERFERING WITH ACCESS OR USE OF FACILITY.**

01. **Interference with Primary Use of Facility or Real Property.** Public Use of the Chinden Office Complex shall not interfere with the primary use of the facility or real property adjoining the facility. The primary uses of the Chinden Office Complex include, but are not limited to, the conduct of business by private Tenants leasing or licensing a portion of the Chinden Office Complex, public meetings and hearings, court proceedings, and the conduct of public business by agencies or officials of the state of Idaho that normally occupy and use the affected facility or the real property adjoining the facility. (7-1-21)

02. **Interference with Access.** Public Use of the Chinden Office Complex shall not block fire hydrants, fire or emergency vehicle lanes, vehicular drives, pedestrian walkways, doorways, steps or similar access routes through, in or out of the Chinden Office Complex. (7-1-21)

302. **MAINTENANCE AND IMPROVEMENTS.**

Public Use shall not interfere with State Maintenance and Improvements. The Department will publish the regular
maintenance and improvement schedule at the website address set forth in Section 005 of these rules. The regular maintenance and improvement schedule may be modified due to weather, staffing, emergency repairs, equipment failures, funding changes, contract modifications, State Events and Exhibits or other causes arising after the schedule’s publication. (7-1-21)

303. MOTORIZED VEHICLES.
Motorized vehicles parked outside of designated parking areas may be towed without notice at the vehicle owner’s expense. Public parking at the Chinden Office Complex is limited to the period the operator or passengers are using the Chinden Office Complex. Wheelchairs, motorized scooters, and other equipment providing individual mobility to the disabled are not motorized vehicles for the purposes of this section. (7-1-21)

304. SKATES, SKATEBOARDS, SCOOTERS, AND OTHER NON-MOTORIZED TRANSPORTATION.
Skates, skateboards, and scooters may not be used at the Chinden Office Complex. Users of all other non-motorized transportation must remain on roadways or designated pathways during use. Where indicated by a posted notice or where requested by Security Personnel, law enforcement or a state employee or agent supervising the Chinden Office Complex, users must store non-motorized transportation in a designated storage area on the exterior of the Chinden Office Complex. Wheelchairs and other equipment providing individual mobility to the disabled are not non-motorized transportation for the purposes of this section. (7-1-21)

305. ANIMALS.
The following apply to animals at the Chinden Office Complex:

01. Wildlife. Unless authorized by the Director no person may:
   a. Interfere with, hunt, molest, harm, frighten, kill, trap, chase, tease, annoy, shoot, or throw any object at a wild animal at the Chinden Office Complex.
   b. Feed, give, or offer food or any noxious substance to a wild animal at the Chinden Office Complex.

02. Domestic Animals.
   a. Domestic animals are not allowed at the Chinden Office Complex unless leashed and under the control of the person bringing the animal to the Chinden Office Complex.
   b. The person bringing the animal to the Chinden Office Complex shall have in his possession the equipment necessary to remove the animal’s fecal matter and immediately remove all fecal matter deposited by the animal.
   c. Persons bringing domestic animals to the Chinden Office Complex shall not permit the animal to swim or wade in irrigation ponds or canals at the Chinden Office Complex.

306. LANDSCAPING.
Unless authorized by the Director, no person shall:

01. Plants. Damage, cut, carve, transplant or remove any plant, including but not limited to trees, at the Chinden Office Complex.

02. Grass. Dig in or otherwise damage grass areas at the Chinden Office Complex.

03. Irrigation Equipment. Interfere with, damage or remove irrigation equipment at the Chinden Office Complex.

04. Landscaping Materials. Move or alter landscaping materials at the Chinden Office Complex including, but not limited to, rock, edging materials, and bark or mulch.
05. Climbing. Climb or scale buildings, memorials, statues, trees, fences, or improvements at the Chinden Office Complex.

307. FOOD AND BEVERAGES.
Consumption of food and beverages at the Chinden Office Complex is subject to the following:

01. Consumption May Be Prohibited. The consumption of food and beverages may be prohibited by a notice posted at the entrance to all or a portion of the Chinden Office Complex.

02. Alcohol. Alcohol may not be consumed or distributed in the Common Space.

308. SMOKING.
All persons shall observe the smoke free entrance notices and smoke only in designated exterior areas of the Chinden Office Complex.

309. FIRES, CANDLES, AND FLAMES.
Except in designated barbecue facilities, no fires, candles, or other sources of open flame are permitted at the Chinden Office Complex.

310. POSTERS, PLACARDS, BANNERS, SIGNS, EQUIPMENT, TABLES, MATERIALS, AND DISPLAYS.

01. Electrical Cords. Electrical cords must be protected by cord covers or gaffers tape to prevent an electrical or trip hazard.

02. Railings and Stairways. No items may be placed on railings or stairways and no persons shall sit or stand on railings or stairways.

03. Tossing or Dropping Items. No items may be tossed or dropped over railings or from one level of a facility to another level or to the ground.

04. Ingress or Egress. No item, including tables, chairs, exhibits, equipment, materials, and displays shall be located so as to block ingress or egress to any portion of the Chinden Office Complex, or to restrict the flow of individuals or motor vehicles using the facility, or to restrict emergency egress or ingress.

05. Attaching, Affixing, Leaning, or Propping Materials. Materials, including posters, placards, banners, signs, displays, including any printed materials, ropes, and chains shall not be affixed on any exterior surface of the Chinden Office Complex not designed for that purpose or on any permanent commemorative installation, post, railing, fence or landscaping, including trees. All posters, placards, banners, signs, and displays must be free-standing or supported by individuals. No items may be leaned or propped against any exterior surface of the Chinden Office Complex or embedded into the ground, including, but not limited to, placement of a stake, post or rod into the ground to support materials.

06. Materials Causing Damage to Exterior Surface. Stages, risers, chairs, tables, sound equipment, props, materials, displays, and similar items shall be constructed and used in a manner that will not damage, scratch, dent, dig or tear any surface at the Chinden Office Complex or any systems or utilities of the Chinden Office Complex including, but not limited to, fire suppression systems, storm drains, ventilation systems, and landscape watering systems.

07. Distribution of Literature and Printed Material. All literature and printed material must be distributed at no charge. The party distributing literature and printed material shall ensure periodically and at the conclusion of its use of the Chinden Office Complex that such material is not discarded outside of designated trash receptacles. Literature and printed materials shall not be placed on parked vehicles at the Chinden Office Complex.

08. Surface Markings. Users shall not use any material to mark on any surface of the Chinden Office Complex including chalk, paint, pens, ink, or dye.
09. **Removal of Items.** All items brought to the Chinden Office Complex by the public shall be removed prior to the expiration of each day’s hours of use by the public. Unless items are subject to report and transfer to the state treasurer as unclaimed property pursuant to Idaho law, the Director may authorize disposal of items left at the Chinden Office Complex.

311. **ITEMS SUBJECT TO SEARCH.**
To enhance security and public safety, security personnel or law enforcement may inspect:

01. **Packages and Bags.** Packages, backpacks, purses, bags, and briefcases reasonably suspected of concealing stolen items or items prohibited by these rules.

02. **Items.** Items brought to the Chinden Office Complex, if there is a reasonable suspicion that an item may be capable of injuring, damaging or harming persons or property at the Chinden Office Complex.

312. **PROHIBITED ITEMS.**
The following, as defined in Title 18, Chapter 33, Idaho Code, are not permitted at the Chinden Office Complex: bombs, destructive devices, shrapnel, weapons of mass destruction, biological weapons, and chemical weapons. Security personnel or law enforcement may direct that any person at the Chinden Office Complex immediately remove from the Chinden Office Complex any club, bat, or other item that can be used to injure, damage, or harm persons or property.

313. (RESERVED)

314. **UTILITY SERVICE.**
The public may not use the utility services of the Chinden Office Complex other than restrooms; provided, however, the Director may authorize limited use of electrical service for the duration of Public Use authorized by these rules. Utility services include, but are not limited to, electrical, sewage, water, and heating services. The Director may terminate the use of utilities if such use interferes with the utility services of the Chinden Office Complex or the equipment or apparatus using utility service fails to comply with applicable rules or codes.

315. **LAW ENFORCEMENT AND FACILITY EXIGENCE.**
In case of a fire, bomb threat, utility malfunction, structural failure or other unforeseen emergency or threat endangering public safety or health, or endangering public property, law enforcement, security personnel and state employees or officials may direct all persons off of the Chinden Office Complex and delay or postpone any activity until the emergency or threat is abated.

316. **COMPLIANCE WITH LAW.**
All use of the Chinden Office Complex shall comply with applicable law including, but not limited to, fire and safety codes.

317. **HEALTH, SAFETY, AND MAINTENANCE OF CHINDEN OFFICE COMPLEX.**

01. **Clean Condition After Use.** Users shall leave the Chinden Office Complex in reasonably clean condition after use, including depositing all trash in designated receptacles.

02. **Items Return to Proper Location.** Users shall return all items including, but not limited to, movable furniture and trash receptacles, to their location at the conclusion of the use.

03. **Public Health.** No person shall excrete human waste at the Chinden Office Complex except in designated restroom facilities. For purposes of this section, excrete means the discharge of human waste from the body, including the acts of defecation and urination. For purposes of this section, human waste means human feces or human urine.

04. **Fireworks.** No person shall possess or use fireworks at the Chinden Office Complex.

05. **Use of Waterways.** No person shall swim, fish, or wade in waterways at the Chinden Office Complex.
Complex. (7-1-21)T

318. -- 399. (RESERVED)

400. LIABILITY.

01. State Liability. Nothing in these rules shall extend the liability of the state of Idaho beyond that provided in the Idaho Tort Claims Act, Title 6, Chapter 9, Idaho Code. (7-1-21)T

02. No Endorsement. Action or inaction of the Department shall not imply endorsement or approval by the state of Idaho of the actions, objectives or views of participants in Public Use of the Chinden Office Complex. (7-1-21)T

401. – 999. (RESERVED)
000. LEGAL AUTHORITY.  
The following rules are promulgated in accordance with Section 67-9205(11), Idaho Code, by the administrator of the division of purchasing. (7-1-21)

001. SCOPE.  
These rules govern any other state agency acquiring property under these rules or through delegated authority. These rules also govern the contested case hearing process. (7-1-21)

002. -- 010. (RESERVED)

011. DEFINITIONS.  
Unless defined otherwise in these rules, the definitions set forth in Section 67-9203, Idaho Code, apply to this chapter. (7-1-21)

  01. Alternate. Property or services that are not at least a functional equal in features, performance or use of the brand, model or specification designated as the standard. (7-1-21)

  02. Brand Name or Equal Specification. A specification that uses a brand name to describe the standard of quality, performance or other characteristics being solicited and that invites the submission of equivalent products. (7-1-21)

  03. Brand Name Specification. A specification calling for one (1) or more products by manufacturers’ names or catalogue numbers. (7-1-21)

  04. Buyer. An employee of the division of purchasing designated as a buyer, contract-administrator, purchasing agent, contracting officer, or similar designation by the administrator, including, where appropriate, the administrator and other management personnel. The term also includes authorized employee(s) of a purchasing authority. (7-1-21)

  05. Competitive Negotiation. Procedure by which the buyer negotiates with one (1) or more responsive offerors in accordance with the provisions of an invitation to negotiate. (7-1-21)

  06. Concession Services. The granting by the purchasing authority of a right, franchise, authority, property interest or option to a contractor, regardless of whether an expenditure of state or other funds occurs. (7-1-21)

  07. Consultant Services. Work, rendered by either individuals or firms who possess specialized knowledge, experience, and expertise to investigate assigned problems or projects and to provide counsel, review, design, development, analysis or advice in formulating or implementing programs or services or improvements in programs or services, including but not limited to such areas as management, personnel, finance, accounting and planning. The consultant’s services, opinions or recommendations will be performed according to the consultant’s methods without being subject to the control of the agency except as to the result of the work. (7-1-21)

  08. Contract Administration. Actions taken related to changes to contracts, including amendments, renewals and extensions; as well as receipt, review and retaining of the contract and contract-related documents; and exercise of remedies. (7-1-21)

  09. Contract Management. Actions taken to ensure that both the agency and contractor comply with the requirements of the contract. Includes some functions related to solicitation development and contract development and close-out; also includes, but is not limited to regular monitoring of the contractor’s day-to-day performance, evaluation of deliverables, invoice review, payment approval, progress tracking, regular status meetings, and management of state-owned property and other resources used in contract performance management. (7-1-21)

  10. Division. The division of purchasing of the department of administration as established by Section 67-9204, Idaho Code. Whenever a purchase is made by the division on behalf of another agency, the division is deemed to be acting as the agent for such agency. (7-1-21)

  11. Document. When used in these rules, may include electronic documents. (7-1-21)

  12. Equal. Property that meets or exceeds the quality, performance and use of the brand, model or
specifications in the invitation to bid, request for proposals or request for quote.

13. **Formal Sealed Procedure.** Procedure by which the buyer solicits competitive sealed bids or competitive sealed proposals by means of an invitation to bid or request for proposals.

14. **Informal Solicitation.** Procedure by which the buyer solicits informal competitive quotes by means of a request for quote.

15. **Invitation to Bid.** All documents, whether attached or incorporated by reference, utilized for soliciting formal sealed bids.

16. **Invitation to Negotiate.** All documents, whether attached or incorporated by reference, utilized for soliciting proposals for a competitive negotiation.

17. **Offeror.** A vendor who has submitted a response to a request for proposals or invitation to negotiate for property to be acquired by the state.

18. **Professional Services.** Work rendered by an independent contractor whose occupation is the rendering of such services and who has a professional knowledge of some department of learning or science used by its practical application to the affairs of others or in the practice of an art founded on it, including but not limited to accounting and auditing, legal, medical, nursing, education, actuarial, veterinarian, information technology and research. The knowledge is founded upon prolonged and specialized intellectual training that enables a particular service to be rendered. The word “professional” implies professed attainments in special knowledge as distinguished from mere skills.

19. **Proposal.** A written response including pricing information to a request for proposals that describes the solution or means of providing the property requested and which proposal is considered an offer to perform a contract in full response to the request for proposals. Price may be an evaluation criterion for proposals, but will not necessarily be the predominant basis for contract award. When used in conjunction with an invitation to negotiate, a proposal may or may not initially include pricing information, as provided in the solicitation.

21. **Purchase.** The act of acquiring or procuring property for state use or the result of an acquisition action.

22. **Purchase Order.** Notification to the contractor to provide the stated property under the terms and conditions set forth in the purchase order. It may include the form of the state’s acceptance of a vendor’s quote, proposal or bid. See also definition of contract.

23. **Purchasing Authority.** The division or an agency exercising authority based on a delegation of authority by the administrator to an individual or an agency; or as otherwise provided under these rules to engage in the conduct of purchasing.

24. **Quote.** An offer to supply property in response to a request for quote and generally used for informal solicitation procedures.

25. **Request for Proposals.** Includes all documents, whether attached or incorporated by reference, utilized for soliciting competitive proposals as a component of the formal sealed procedure and is generally utilized in the acquisition of services or other complex purchases.

26. **Request for Quote.** The document, form or method generally used for purchases solicited in accordance with informal solicitation procedures.

27. **Requisition.** A standard state or agency specific form that serves as a purchasing request and that requests that the purchasing authority acquire the property.
28. **Sealed.** Includes invitations to bid and requests for proposals electronically sealed and submitted in accordance with requirements or standards set by the division and bids and proposals manually sealed and submitted. (7-1-21)

29. **Sealed Procedure Limit.** That dollar amount, as established by these rules, above which the formal sealed procedure will be used. The amount may be lowered by the administrator to maintain full disclosure or competitive purchasing or otherwise achieve overall state efficiency and economy. (7-1-21)

30. **Small Purchase.** An acquisition that costs less than the sealed procedure limit. (7-1-21)

31. **State.** The state of Idaho including each agency unless the context implies other states of the United States. (7-1-21)

32. **Telecommunications.** All present and future forms of hardware, software or services used or required for transmitting voice, data, video or images. (7-1-21)

33. **Written.** When used in these rules, may include an electronic writing. (7-1-21)

**SUBCHAPTER A – RULES GOVERNING PURCHASING**

012. **PRESERVATION OF RECORDS.**
Records of a purchasing authority, which are created or held pursuant to these rules, may be kept in such format as prescribed by the purchasing authority responsible for record retention; and otherwise in accordance with record preservation and retention policies established by the agency designated by the legislature for such purpose. (7-1-21)

013. **FORM OF COMMUNICATION.**
Any written communication authorized or required by these rules may be provided electronically, or in another format as designated by the administrator. (7-1-21)

014. -- 020. (RESERVED)

021. **DELEGATION OF AUTHORITY OF ADMINISTRATOR.**
Whenever a purchase is made by the division of purchasing on behalf of another agency, the division is deemed to be acting as the agent for such agency. The division shall administer the acquisition of all property for agencies except those for which the agencies have separate statutory purchasing authority. The administrator may delegate in writing such authority as deemed appropriate to employees of the division, an agency or employees of an agency. Such delegations shall remain in effect unless modified or until revoked in writing. All delegations must be given in writing prior to the acquisition of the property. All acquisitions under delegated authority must be made according to these purchasing rules, the policies developed by the division, and the conditions established by the administrator in the delegation. Delegations are subject to periodic reporting and review as directed by the administrator. (7-1-21)

01. **Manner of Submission.** Request for delegated purchasing authority must be submitted in writing, on a form and in a manner established by the administrator. (7-1-21)

02. **Accompaniments to Application.** Application for authority must be accompanied by the following:

   a. Documentation that the proposed designee demonstrates sufficient purchasing knowledge and ability to accommodate the agency's particular needs; (7-1-21)

   b. A demonstrated need for the dollar limit of authority requested; (7-1-21)

   c. An agency purchasing manual outlining internal operational processes and procedures related to the conduct of purchasing within the agency; and (7-1-21)
d. A written plan for continual training for staff which includes routine participation in training sessions, workshops and conferences offered by the division. (7-1-21)T

03. Policy. The administrator will establish a delegated purchasing authority policy applicable to all designees; and may place additional conditions on individual delegated authority, in order to ensure consistency in the procurement process as well as proper oversight and compliance with state purchasing code, rules and applicable policy. (7-1-21)T

04. Designee Responsibility. Agency designee(s) are responsible for all procurement-related activities conducted for designee’s agency under authority delegated by the administrator. (7-1-21)T

05. Sub-delegation. Designees may sub-delegate purchasing authority within their respective agencies consistent with the designee’s capacity to monitor and oversee such activity. (7-1-21)T

06. Authority Not Transferable. Authority is not transferable and will automatically terminate when the designee leaves the employment of the requesting agency; however, an agency may apply to the administrator for the immediate designation of an interim designee to exercise delegated purchasing authority for a time period not exceeding ninety (90) days, subject to conditions outlined by the administrator, relative to the purchasing competency of the interim designee. (7-1-21)T

07. Quarterly Review. The administrator will review the activities of a designee with delegated purchasing authority on no less than a quarterly basis. (7-1-21)T

08. Failure to Comply. Failure to comply with the conditions included in the written authorization provided by the administrator may result in immediate rescission of authority, increased monitoring, reduction in authority level, additional training, or other action deemed appropriate by the administrator to ensure compliance with purchasing code, rules and applicable policy. (7-1-21)T

022. -- 030. (RESERVED)

031. COOPERATIVE PURCHASING POLITICAL SUBDIVISIONS. The various bid statutes relating to municipal corporations, school districts, and counties may authorize these political subdivisions to utilize any contract entered into by the state. A public agency may use open contracts as authorized by statute and the terms of the open contract; and the state may otherwise cooperate with political subdivisions in the acquisition of property. (7-1-21)T

032. ACQUISITION OF CONCESSION SERVICES. If there is no expenditure of state funds, the acquisition of concession services, including but not limited to, exclusive-rights contracts, franchises, vending services, options, pouring contracts, service contracts, advertising contracts, broadcast rights to sporting events or other similar types of property, may be conducted by each purchasing authority as it determines to be in its best interest; provided, however, concessions within the definition of a food service facility set forth in Section 67-6902, Idaho Code, shall comply with the provisions of Title 67, Chapter 69, Idaho Code. The purchasing authority is encouraged to utilize a competitive process if determined to be in its best interest. (7-1-21)T

033. PURCHASE OF TELECOMMUNICATIONS OR INFORMATION TECHNOLOGY PROPERTY. Unless otherwise exempted by statute or these rules, all agency requests exceeding the sealed procedure limit for telecommunications or information technology property must be reviewed and approved by the office of information technology services within the office of the governor before submission to the division. It is the requesting agency’s responsibility to attach any approvals to any requisitions submitted to the division. Acquisitions of these types of property are subject to these rules and so agencies should plan in advance to allow for review by the office of information technology services. All acquisitions of telecommunications and information technology property will conform to the guidelines and policies established or adopted by the governing or policy board or council created by statute or directive for the purpose of information technology oversight or review. (7-1-21)T

034. PUBLIC NOTICE. Public notice of all solicitations shall be made in accordance with Section 67-9208, Idaho Code. Notice of
solicitations shall be posted electronically unless the administrator exempts the solicitation from the requirement to post to the state’s electronic procurement (e-procurement) system, as provided in Section 044 of these rules. Notice of sole source acquisitions shall be posted electronically, and otherwise in accordance with Section 67-9221, Idaho Code.

035. -- 040. (RESERVED)

041. PROCEDURE FOLLOWED IN THE SOLICITATION OF BIDS AND PROPOSALS.
Except as otherwise provided, the acquisition of property exceeding one hundred thousand dollars ($100,000) (the sealed procedure limit) shall be by the formal sealed procedure. All vendors submitting responses to solicitations issued by the state must be qualified. All vendors are qualified unless disqualified as defined by Section 67-9217, Idaho Code.

042. EXCEPTIONS TO COMPETITION.
Purchases meeting the following criteria need not be purchased by competitive solicitation, unless otherwise directed by the administrator:

01. Emergency Purchases. Emergency purchases as authorized by Section 67-9221, Idaho Code, and Section 043 of these rules.

02. Sole Source Purchases. Sole source purchases made through direct solicitation with documented source selection, in accordance with Section 67-9221, Idaho Code, and Section 045.

03. Reverse Auctions. Purchases through reverse public auctions as authorized by Section 67-9221, Idaho Code.

04. Federal Government Acquisitions. Acquisitions from the United States of America or any agency thereof.

05. Contracts with Other Public Agencies. Contracts with other public agencies as defined in Section 67-2327, Idaho Code, and authorized by Section 67-2332, Idaho Code.

06. Rehabilitation Agency Acquisitions. Acquisitions of property that is provided by non-profit corporations and public agencies operating rehabilitation facilities serving the handicapped and disadvantaged and that is offered for sale at fair market price as determined by the administrator in accordance with these rules.

08. Purchases from General Services Administration Federal Supply Contractors. Acquisitions of property may be made from General Services Administration federal supply contractors without the use of competitive bid upon written approval of the administrator. The administrator shall determine whether such property meets the requesting agency’s requirements and whether the price of acquisition is advantageous to the state. The administrator shall commemorate the determination in a written statement that shall be incorporated in the applicable file. If the administrator determines that the acquisition of property from General Services Administration contractors is not advantageous to the state, the acquisition shall be in accordance with competitive solicitation procedures and requirements.

09. Existing Open Contracts. Except as provided in these rules, property available under these contracts shall be purchased under such contracts in accordance with the provisions or requirements for use thereof.

10. Exempt Purchases. By written policy the administrator may exempt from the formal sealed procedure or the requirement for competitive solicitation that property for which bidding is impractical, disadvantageous or unreasonable under the circumstances.
a. Examples include, but are not limited to:
   i. Special market conditions;
   ii. Property requiring special contracting procedures due to uniqueness;
   iii. Legal advertising, publication or placement of advertisements by state agency personnel directly with media sources;
   iv. Property for which competitive solicitation procedures are impractical;
   v. Used property;
   vi. Ongoing maintenance, upgrades, support or additional licenses for software or other information technology solutions, including a change in the manner of solution delivery; which software or solution was originally acquired in compliance with the purchasing laws in effect at the time of acquisition; or
   vii. Acquisition of property for direct resale.

b. Such policy shall describe the property exempted, the duration of the exemption, and any other requirements or circumstances appropriate to the situation.

043. EMERGENCY PURCHASES.

01. Definition of Emergency Conditions. An emergency condition is a situation that creates a threat to public health, welfare or safety such as may arise by reason of floods, epidemics, riots, equipment failures or other similar circumstances. The existence of such condition must create an immediate and serious need for property that cannot be met through normal acquisition methods. The buyer or the agency official responsible for purchasing shall make a written determination stating the basis for an emergency purchase and for the selection, if applicable, of the particular supplier. Such determination shall be sent promptly to the administrator for review and written approval that the purchase be undertaken as an emergency purchase.

02. Conditions. Emergency purchases shall be limited to only that property necessary to meet the emergency. The director or administrator may delegate authority in writing to an agency or purchasing authority to make emergency purchases of up to an amount set forth in the delegation of authority.

044. SMALL PURCHASES.

01. Small Purchase Categories.
   a. Exempt. Property expected to cost less than ten thousand dollars ($10,000).
   b. Informal. Purchase of any property expected to cost at least ten thousand dollars ($10,000) and less than the sealed procedure limit.
   c. Professional and consultant services. The acquisition of professional or consultant services expected to cost less than the sealed procedure limit, for projects limited to one (1) year in duration.

02. Procedure. Agencies acquiring property under this rule are encouraged to work with legal counsel to develop solicitation and contract terms that serve the best interests of the state. The terms of procurements under this rule are subject to the provisions of Section 112 of these rules.
   a. Professional and consultant small purchases and exempt small purchases may be acquired as each agency sees fit, in accordance with good business practice and agency-established policy, in the best interest of the state, subject to the limitations in Subsection 044.03 of this rule.
   b. Informal small purchases may be made using informal solicitation procedures, subject to the
limitations in Subsection 044.03 of this rule. Unless exempted by the administrator, informal solicitations shall be issued through the division’s electronic procurement (e-procurement) system. The purchasing authority will establish the quoting time based on factors such as complexity, urgency, and the number and location of vendors, in an effort to allow vendors sufficient time to prepare and return a quote. Agencies procuring property under this rule shall maintain a purchasing file containing the following:

i. The solicitation document posted and quotes received. If the acquisition was not publicly posted, the agency shall include a statement in the purchasing file describing the basis for determining posting was impractical or impossible, along with the administrator’s authorization.

ii. If not posted on the division’s e-procurement system, the agency shall document the quotes received (or its attempt to obtain quotes) from at least three (3) vendors having a significant Idaho economic presence as defined in Section 67-2349, Idaho Code.

03. Limitations. The following limitations apply to all small purchases:

a. Property available under single agency or open contracts shall be purchased under such contracts and not as a small purchase under this rule unless otherwise authorized by the administrator.

b. Acquisition requirements shall not be artificially divided to avoid bid statutes, rules or policies.

c. Small purchases not issued for a fixed price shall include a not to exceed price of no more than the applicable sealed procedure limit.

04. Sole Source Purchases.

01. Only a Single Supplier. Sole source purchase shall be used only if the required property is reasonably available from a single supplier. A requirement for a particular proprietary property item does not justify a sole source purchase if there is more than one (1) potential supplier that can provide the required property.

02. Examples of Sole Source. Examples of circumstances that could necessitate a sole source purchase are:

a. Where the compatibility of equipment, components, accessories, computer software, replacement parts or service is the paramount consideration.

b. Where a single supplier’s property is needed for trial use or testing.

c. Purchase of mass produced movie or video films or written publications distributed or sold primarily by the publisher.

d. Purchase of property for which it is determined there is no functional equivalent.

03. Administrator Makes Determination. The determination as to whether an acquisition shall be made as a sole source will be made by the administrator. Each request must be submitted in writing by the requesting agency. The administrator may specify the application of such determination and its duration, and may apply additional conditions to an approval. In cases of reasonable doubt, competition should be solicited. Any request by an agency that an acquisition be restricted to a single supplier shall include a justification for the property, as well as an explanation as to why no other supplier is acceptable.

04. Negotiation in Sole Source Purchase. After receipt of authorization from the administrator for a sole source purchase, the agency shall conduct negotiations, as appropriate, as to price, delivery and terms, in accordance with the authorization and in the best interest of the state.

046. Determination of Fair Market Price for Rehabilitation Agency Acquisitions.
Upon receipt of a rehabilitation agency proposal accompanied by detailed cost data, the administrator will conduct a survey of the market appropriate for the property being sought. The fair market price of a rehabilitation agency shall not be greater than one hundred twenty-five percent (125%) of the lowest price received during the survey. The administrator will notify by letter the rehabilitation agency concerned advising it as to whether it is offering property at fair market price.

047. -- 050. (RESERVED)

051. CONTENT OF SOLICITATIONS ISSUED UNDER A FORMAL SEALED PROCEDURE.
The following shall be included in an invitation to bid or a request for proposals:

01. Submission Information. Information regarding the applicable closing date, time and location.

02. Specifications. Specifications developed in accordance with Section 111 of these rules.

03. Contract Terms. Terms and conditions applicable to the contract, subject to the provisions of Section 112 of these rules.

04. Evaluation Criteria. Any evaluation criteria to be used in determining property acceptability.

05. Trade-In Property. If trade-in property is to be included, a description of the property and location where it may be inspected.

06. Incorporation by Reference. A brief description of any documents incorporated by reference that specifies where such documents can be obtained.

07. Pre-Proposal or Pre-Bid Conference. The date, time and location of the conference must be included in the solicitation.

052. CHANGES TO INVITATION TO BID OR REQUEST FOR PROPOSALS.
A solicitation issued under a formal sealed procedure may be changed by the buyer through issuance of an amendment, provided the change is issued in writing prior to the solicitation closing date and is made available to all vendors receiving the original solicitation. Any material information given or provided to a prospective vendor with regard to a solicitation shall be made available in writing by the buyer to all vendors receiving the original solicitation. Oral interpretations of specifications or contract terms and conditions shall not be binding on the state unless confirmed in writing by the buyer and acknowledged by the purchasing authority prior to the date of the closing. Changes to the solicitation shall be identified as such and shall require that the vendor acknowledge receipt of all amendments issued. The right is reserved to waive any informality.

053. -- 060. (RESERVED)

061. FORM OF SUBMISSION FOR SOLICITATIONS ISSUED UNDER A FORMAL SEALED PROCEDURE.

01. Manual Submissions. Unless otherwise provided in these rules, to receive consideration, in addition to any specific requirements set forth in the invitation to bid or request for proposals, bids or proposals submitted manually must be made on the form provided, which form must be properly completed and signed in ink or contain an electronic signature as defined in Section 28-50-102, Idaho Code. All changes or erasures on manual submissions shall be initialed in ink. Unsigned or improperly submitted bids or proposals will be rejected. The purchasing authority assumes no responsibility for failure of the United States Postal Service, any private or public delivery service, or any computer or other equipment to deliver all or a portion of the bid or proposal at the time or to the location required by the solicitation.

02. Electronic Submissions. To receive consideration, in addition to any specific requirements set forth in the invitation to bid or request for proposals, bids or proposals submitted electronically must be submitted in
accordance with and meet all applicable requirements of these rules and contain an electronic signature as defined in Section 28-50-102, Idaho Code. The purchasing authority assumes no responsibility for failure of any electronic submission process, including any computer or other equipment to deliver all or a portion of the bid or proposal at the time or to the location required by the solicitation.

062. -- 069. (RESERVED)

070. PRE-PROPOSAL CONFERENCE.
All request for proposals will have a pre-proposal conference for vendors and will be conducted by the procurement team and project personnel. The conference will consist of a general overview of the procurement process as well as the scope of work and requirements of the solicitation. The procurement team will allow attendees to submit written questions and may provide an opportunity for a verbal question and answer period, provided, however, that only questions submitted and answered in written form and posted to the state’s e-procurement system as an amendment to the solicitation, will have any force or effect.

071. PRE-OPENING WITHDRAWAL OR MODIFICATION.
Manual submissions may be withdrawn or modified only as follows: Bids or proposals may be withdrawn or modified prior to the closing by written communication signed in ink by the submitting vendor. Bids or proposals may be withdrawn prior to closing in person upon presentation of satisfactory evidence establishing the individual’s authority to act on behalf of the submitting vendor. Bids or proposals may be withdrawn or modified by electronic communication provided the communication is received prior to the closing. The withdrawal or modification, if done via electronic communication, must be confirmed in a writing signed in ink or containing an electronic signature as defined in Section 28-50-102, Idaho Code. Any withdrawing or modifying communication, including an electronic communication, must clearly identify the solicitation. A modifying communication should be worded so as not to reveal the amount of the original bid or proposal.

072. LATE BIDS/PROPOSALS, LATE WITHDRAWALS AND LATE MODIFICATIONS.
Any bid or proposal, withdrawal, or modification received after the time and date set for closing at the place designated in the solicitation is late. No late bid or proposal, late modification or late withdrawal will be considered. All late bids and proposals, other than clearly marked “no bids”, will be returned to the submitting vendor. Time of receipt will be determined by the official time stamp or receipt mechanism located at the designated place for receipt of responses. The purchasing authority assumes no responsibility for failure of the United Postal Service, any private or public delivery service, or any computer or other equipment to deliver all or a portion of the bid or proposal at the time or to the location required by the solicitation.

073. RECEIPT, OPENING, AND RECORDING OF BIDS AND PROPOSALS.
Upon receipt, all bids, proposals and modifications properly marked and identified will be time stamped, but not opened. They shall be stored in a secure place until the time specified for opening. Time stamping and storage may be through electronic means. Bids shall be opened publicly at the date and time specified in the invitation to bid. Proposals shall be opened publicly, identifying only the names of the offerors unless otherwise stated in the request for proposals. Bid and proposal openings may be electronic virtual openings.

074. MISTAKES.
The following procedures are established relative to claims of a mistake.

01. Mistakes in Submission. If a mistake is attributable to an error in judgment, the submission may not be corrected. Correction or withdrawal by reason of an inadvertent, nonjudgmental mistake is permissible, but at the discretion of the administrator and to the extent it is not contrary to the interest of the state or the fair treatment of other submitting vendors.

02. Mistakes Discovered Before Opening. Mistakes discovered by a vendor prior to closing may be corrected by the submitting vendor by submitting a timely modification or withdrawing the original submission and submitting a corrected submission to the purchasing authority before the closing. Vendors who discover a mistake after closing but prior to opening may withdraw the submission by written notification to the purchasing authority and signed by an individual authorized to bind the vendor if such notification is received by the purchasing authority prior to opening.
03. Mistakes Discovered After Opening But Before Award. This subsection sets forth procedures to be applied in three (3) situations described below in which mistakes are discovered after opening but before award. (7-1-21)T

a. Minor Informalities. Minor informalities are matters of form rather than substance evident from the bid or proposal document, or insignificant mistakes that can be waived or corrected without prejudice to other submitting vendors, that is, the effect of the mistake on price, quantity, quality, delivery or contractual conditions is not significant. The buyer may waive such informalities. Examples include the failure of a submitting vendor to:

i. Return the required number of signed submissions. (7-1-21)T

ii. Sign in ink or provide an electronic signature, but only if it is clear from the submission that the submitting vendor intended to be bound by its terms. (7-1-21)T

iii. Acknowledge the receipt of an amendment, but only if:

1) It is clear from the submission that the submitting vendor received the amendment and intended to be bound by its terms; or (7-1-21)T

2) The amendment involved had a negligible effect on price, quantity, quality or delivery. (7-1-21)T

b. Mistakes Where Intended Submission is Evident. If the mistake and the intended submission are clearly evident on the face of the document, the submission shall be corrected to the intended submission and may not be withdrawn. Examples of mistakes that may be clearly evident on the face of the document are typographical errors, errors in extending unit prices (unit prices will always govern in event of conflict with extension), transposition errors and arithmetical errors. (7-1-21)T

c. Mistakes Where Intended Submission is not Evident. A vendor may be permitted to withdraw a low bid if:

i. A mistake is clearly evident on the face of the submission document but the intended submission is not similarly evident; or (7-1-21)T

ii. The vendor submits timely proof of evidentiary value that clearly and convincingly demonstrates that a mistake was made. (7-1-21)T

04. Mistakes Discovered After Award. Mistakes shall not be corrected after award of the contract. (7-1-21)T

05. Written Approval or Denial Required. In the event of a mistake discovered after the opening date, the administrator shall approve or deny, in writing, a request to correct or withdraw a submission. (7-1-21)T

075. -- 080. (RESERVED)

081. EVALUATION AND AWARD.
Any contract award shall comply with these provisions. (7-1-21)T

01. General. The contract is to be awarded to the lowest responsible and responsive bidder or offeror (or for requests for quotes, vendor submitting a quote). The solicitation shall set forth the requirements and criteria that will be used to make the lowest responsive and responsible determination. (7-1-21)T

02. Standards of Responsibility. Nothing herein shall prevent the buyer from establishing additional responsibility standards for a particular purchase. Factors to be considered in determining whether a vendor is responsible include, but are not limited to, whether the vendor has:

a. Available the appropriate financial, material, equipment, facility and personnel resources and
expertise, or the ability to obtain them, necessary to indicate capability to meet all contractual requirements;

b. A satisfactory record of integrity;

c. Qualified legally to contract with the purchasing authority and qualified to do business in the state of Idaho;

d. Unreasonably failed to supply any necessary information in connection with the inquiry concerning responsibility;

e. Requisite experience; or

f. A satisfactory prior performance record, if applicable.

03. Information Pertaining to Responsibility. A submitting vendor shall supply information requested by the buyer concerning its responsibility. If such submitting vendor fails to supply the requested information, the buyer shall base the determination of responsibility upon any available information or may find the submitting vendor nonresponsible if such failure is unreasonable.

04. Written Determination of Nonresponsibility Required. If a submitting vendor that otherwise would have been awarded a contract is found nonresponsible, a written determination of nonresponsibility setting forth the basis of the finding shall be prepared by the buyer.

05. Extension of Time for Acceptance. After opening, the buyer may request submitting vendors to extend the time during which their bids or proposals may be accepted. The reasons for requesting such extension shall be documented.

06. Partial Award. A buyer shall have the discretion to award on an all or nothing basis or to accept any portion of a response to a solicitation, excluding other portions of a response and other offers, unless the vendor stipulates all or nothing in its response to the solicitation.

07. Only One Submission Received. If only one (1) responsive submission is received in response to a solicitation, an award may be made to the single submitting vendor. In addition, the buyer may pursue negotiations in accordance with applicable conditions and restrictions of these rules. Otherwise, the solicitation may be canceled, and a new solicitation issued, as the purchasing authority determines to be in its best interest.

082. TIE RESPONSES.

01. Tie Responses -- Definition. Tie responses are low responsive bids, proposals or quotes from responsible bidders or offerors (or for requests for quotes, from vendors submitting a quote) that are identical in price or score. Responsibility is determined based upon the standards of responsibility set forth in Section 081 of these rules.

02. Award. Award shall not be made by drawing lots, except as set forth below, or by dividing business among tie responses. In the discretion of the buyer, award shall be made in any permissible manner that will resolve tie responses. Procedures that may be used to resolve tie responses include:

a. If price is considered excessive or for another reason such responses are unsatisfactory, reject all responses, resolicit and seek a more favorable contract in the open market or enter into negotiations pursuant to Section 084 of these rules;

b. Award to an Idaho resident or an Idaho domiciled vendor or for Idaho produced property where other tie response(s) are from out of state or to a vendor submitting a domestic property where other tie responses are for foreign (external to Idaho) manufactured or supplied property;

c. Where identical low responses include the cost of delivery, award the contract to the vendor located
03. **Drawing Lots.** If no permissible method will be effective in resolving tie responses and a written determination is made so stating, award may be made by drawing lots or tossing a coin in the presence of witnesses if there are only two (2) tie responses.

**083. PROPOSAL DISCUSSION WITH INDIVIDUAL OFFERORS.**

01. **Classifying Proposals.** For the purpose of conducting proposal discussions under this rule, proposals shall be initially classified as:

a. Acceptable;

b. Potentially acceptable, that is reasonably susceptible of being made acceptable; or

c. Unacceptable.

02. **“Offerors” Defined.** For the purposes of this rule, the term “offerors” includes only those vendors submitting proposals that are acceptable or potentially acceptable. The term shall not include vendors that submitted unacceptable proposals.

03. **Classification of Proposals.** For the purposes of this rule, the purchasing authority may establish criteria within the solicitation to classify proposals.

04. **Purposes of Discussions.** Discussions are held to facilitate and encourage an adequate number of potential offerors to offer their best proposals, by amending their original offers, if needed.

05. **Conduct of Discussions.** The solicitation document must provide for the possibility of discussions. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussions and revisions of proposals. The buyer should establish procedures and schedules for conducting discussions. If during discussions there is a need for clarification or change of the request for proposals, it shall be amended to incorporate such clarification or change. Auction techniques (revealing one offeror’s price to another) and disclosure of any information derived from competing proposals are prohibited. Any oral clarification or change of a proposal shall be reduced to writing by the offeror.

06. **Best and Final Offer.** The buyer shall establish a common time and date for submission of best and final offers. Best and final offers shall be submitted only once unless the buyer makes a written determination before each subsequent round of best and final offers demonstrating another round is in the purchasing authority’s interest, and additional discussions will be conducted or the requirements will be changed. Otherwise, no discussion of, or changes in, the best and final offers shall be allowed prior to award. Offerors shall also be informed that if they do not submit a notice of withdrawal or another best and final offer, their immediate previous offer will be construed as their best and final offer.

07. **Application to Other Solicitation Types.** The provisions of this Section 083 may be utilized in other types of solicitations, in addition to requests for proposals, so long as the solicitation document provides for the possibility of discussions and includes a reference to this section.

**084. NEGOTIATIONS.**

In accordance with Section 67-9205(12), Idaho Code, the administrator may negotiate acquisitions as follows:

01. **Use of Negotiations.** Negotiations may be used under these rules when the administrator determines in writing that negotiations may be in the best interest of the state including but not limited to the following circumstances:
a. Negotiations undertaken pursuant to a solicitation for competitive negotiation, in accordance with the provisions of Section 094 of these rules. (7-1-21)T

b. A competitive solicitation has been unsuccessful because, without limiting other possible reasons, all offers are unreasonable, noncompetitive or all offers exceed available funds and the available time and circumstances do not permit the delay required for resolicitation; (7-1-21)T

c. There has been inadequate competition; (7-1-21)T

d. During the evaluation process it is determined that more than one (1) vendor has submitted an acceptable proposal or bid and negotiations could secure advantageous terms or a reduced cost for the state; or (7-1-21)T

e. During the evaluation process it is determined that all responsive offers exceed available funds and negotiations could modify the requirements of the solicitation to reduce the cost to available funds and avoid the extended time and expenditure of resources for a resolicitation. (7-1-21)T

02. Examples. Examples of situations in which negotiations may be appropriate include but are not limited to: (7-1-21)T

a. Ensuring that the offering vendor has a clear understanding of the scope of work required and the requirements that must be met; (7-1-21)T

b. Ensuring that the offering vendor will make available the required personnel and facilities to satisfactorily perform the contract; or (7-1-21)T

c. Agreeing to any clarifications regarding specifications or contract terms. (7-1-21)T

03. Conditions of Use. Negotiations, as permitted by Paragraph 084.01.d. of this rule, are subject to the following: (7-1-21)T

a. The solicitation must specifically allow for the possibility of negotiation and describe, with as much specificity as possible, how negotiations may be conducted; (7-1-21)T

b. Submissions shall be evaluated and ranked based on the evaluation criteria in the solicitation; (7-1-21)T

c. Only those vendors whose proposals or bids are determined to be acceptable, in accordance with criteria for negotiations set forth in the solicitation, shall be candidates for negotiations; (7-1-21)T

d. Negotiations shall be conducted first with the vendor that is the apparent low responsive and responsible bidder, unless concurrent negotiations are permissible, in accordance with the terms of the solicitation; (7-1-21)T

e. If one (1) or more responsive offers does not exceed available funds, negotiations shall be against the requirements of and criteria contained in the solicitation and shall not materially alter those criteria or the specifications; (7-1-21)T

f. Auction techniques (revealing one vendor’s price to another) and disclosure of information derived from competing proposals is prohibited; (7-1-21)T

g. Any clarifications or changes resulting from negotiations shall be documented in writing; (7-1-21)T

h. If the parties to negotiations are unable to agree, the administrator shall formally terminate negotiations and may undertake negotiations with the next ranked vendor; and (7-1-21)T
1. If negotiations as provided for in this rule fail to result in a contract, as determined by the administrator, the solicitation may be canceled and the administrator may negotiate in the best interest of the state with any qualified vendor. (7-1-21)

04. **Timing of Use.** If conducted as part of a small purchase or under the formal sealed procedure, negotiations are the last step in the procurement process. Use of oral interviews or best and final procedures, as provided for in a solicitation, must precede negotiations as provided for in this rule, unless the administrator makes a written determination that it is in the state’s best interest to proceed directly to negotiations in lieu of first conducting oral interviews and the best and final procedures. (7-1-21)

05. **Termination of Negotiations.** The purchasing authority may terminate negotiations at any time, in the best interest of the state. (7-1-21)

085. **PRICE AGREEMENTS.** The administrator may authorize and negotiate price agreements with vendors when such agreements are deemed in the best interest of the state. Price agreements shall provide for termination for any reason upon not more than thirty (30) days’ written notice. Price agreements may be in the best interest of the state when:

01. **Dollar Value.** The dollar value of individual procurements of property is less than the maximum dollar value of an exempt small purchase under Section 044 of these rules and multiple individual procurements are anticipated within a state of Idaho fiscal year; (7-1-21)

02. **Property.** The property may not be conducive to standard competitive bidding procedures; (7-1-21)

03. **Multiple Agreements.** There exists a need to establish multiple agreements with vendors supplying property that is similar in nature or function but is represented by different manufacturers or needed in multiple locations; or (7-1-21)

04. **Non-exclusive Agreements.** Non-exclusive agreements for periods not exceeding two (2) years are deemed necessary to establish consistent general business terms, including without limitation, price, use of catalogs, delivery or credit terms. (7-1-21)

086. -- 090. (RESERVED)

091. **ACCEPTANCE OR REJECTION OF BIDS AND PROPOSALS.** Prior to the issuance of a contract, the administrator shall have the right to accept or reject all or any part of a bid or proposal or any and all bids or proposals when:

01. **Best Interest.** It is in the best interests of the state of Idaho; (7-1-21)

02. **Does Not Meet Specifications.** The submission does not meet the minimum specifications; (7-1-21)

03. **Not Lowest Responsible Bid.** The submission is not the lowest responsible submission; (7-1-21)

04. **Bidder Is Not Responsible.** A finding is made based upon available evidence that a submitting vendor is not responsible or otherwise capable of currently meeting specifications or assurance of ability to fulfill contract performance; or (7-1-21)

05. **Deviations.** The item offered deviates to a major degree from the specifications, as determined by the administrator (minor deviations, as determined by the administrator, may be accepted as substantially meeting the requirements of the state of Idaho). Deviations will be considered major when such deviations appear to frustrate the competitive process or provides a submitting vendor an unfair advantage. (7-1-21)

092. **CANCELLATION OF SOLICITATION.** Prior to the issuance of a contract, the purchasing authority reserves the right to reject all bids, proposals or quotes or
to cancel a solicitation. In the event of the cancellation of an invitation to bid or request for proposals, all submitting vendors will be notified. Examples of reasons for cancellation are:

01. Inadequate or Ambiguous Specifications.

02. Specifications Have Been Revised.

03. Cancellation Is in the Best Interest of the State.

093. NOTICE OF REJECTION.
Bidders or offerors whose bids or proposals are rejected as non-responsive will be notified in writing of the reasons for such rejection.

094. COMPETITIVE NEGOTIATIONS.
Notwithstanding the provisions of Section 041 of these rules applicable to the formal sealed procedure, the administrator may authorize the use of competitive negotiations when it is determined that the use of negotiations may enable the state to more effectively identify and refine potential solutions, especially where the business need is complex or requires innovation.

01. Written Authorization. The administrator shall establish guidelines on how and when agencies may request to use competitive negotiations. Requests for authorization to utilize competitive negotiations must be provided in writing, in a format designated by the administrator. The request must provide the reasons that a formal sealed procedure is not practicable; as well as support for the use of competitive negotiations in order to meet a complex business need, solicit innovative solutions, enable the state to keep within approved program budgets, or to otherwise facilitate the receipt of the most cost-effective solution. Written authorization must be provided by the administrator in order for a purchasing authority to use competitive negotiations under this rule.

02. Form of Solicitation. Proposals under this rule shall be solicited pursuant to an invitation to negotiate.

03. Applicability of Other Rules. An invitation to negotiate shall be subject to the rules applicable to a request for proposals, except as otherwise provided. Modifications under Section 072 of these rules will be allowed after closing to the extent authorized within the invitation to negotiate. Section 083 of these rules, proposal discussion with individual offerors, shall not apply to an invitation to negotiate.

04. Content of Solicitation for Competitive Negotiation. Notwithstanding Section 051 of these rules, the following shall be included in an invitation to negotiate:

a. Submission Information. Information regarding the applicable closing date, time and location.

b. Solicitation Procedure. An outline of the invitation to negotiate process.

c. Specifications. Specifications developed in accordance with Section 111 of these rules, to the extent the purchasing authority determines adequate to inform interested vendors of the desired result.

d. Contract Terms. Terms and conditions applicable to the contract, subject to the provisions of Section 112 of these rules.

e. Trade-In Property. If trade-in property is to be included, a description of the property and location where it may be inspected.

f. Incorporation by Reference. A brief description of any documents incorporated by reference that specifies where such documents can be obtained.

g. Pre-Proposal or Pre-Bid Conference. The date, time and location of the conference must be included in the solicitation.
h. Evaluation and Award Criteria. A summary of evaluation criteria to be used in determining property acceptability; evaluation criteria to classify proposals and determine the competitive threshold for negotiations; as well as the criteria that will be used to make the lowest responsive and responsible determination.

05. Cost. The buyer may request cost proposals at any time during the invitation to negotiate process; and may elect to request cost proposals only from those offerors determined to be in the competitive range for award (“finalists”), in accordance with the instructions contained within the solicitation.

06. Conduct of Negotiations. Negotiations shall be conducted in accordance with the procedure outlined in the invitation to negotiate, which may include multiple iterations of submissions and discussions in order to classify proposals; allow for revisions to the solicitation proposal(s), including any requirements, terms, conditions or specifications; and to determine finalists. The negotiation process ends upon submission of the best and final offer(s) from the finalists, after which time vendors shall not be allowed to make further modifications to their proposal(s).

095. -- 100. (RESERVED)

101. LEASES.

01. Lease for Personal Property. A lease for personal property may be entered into provided the lease is subject to the same requirements of competition that govern the purchase of property. Leases for periods exceeding one (1) year specifically require the approval of the administrator.

02. Lease Purchase Option. Unless a specific exemption is granted by the administrator or unless otherwise exempt by these rules, a lease purchase option may be exercised only if the lease containing the purchase option was awarded using the competitive process. Before exercising such an option, the buyer shall meet all applicable requirements of Section 67-9222, Idaho Code, including providing notice of the exercise of option as a sole source or competitively bidding the property by soliciting bids for new or used property.

102. -- 110. (RESERVED)

111. SPECIFICATIONS -- POLICIES AND DEVELOPMENT.

01. Purpose. Unless exempted by these rules or by the administrator, all solicitations require specifications. Specifications set forth the characteristics of the property to be acquired. Specifications serve as the basis for obtaining property adequate and suitable for the using agency’s needs in a cost effective manner, taking into account the costs of ownership and operation as well as initial acquisition costs. Specifications shall be drafted clearly to describe the agency’s needs and to enable the vendors to determine and understand the agency’s requirements. Specifications shall, as much as practical, be nonrestrictive to provide an equal basis for participation by an optimum number of vendors and to encourage competition. This information may be in the form of a description of the physical, functional or performance characteristics, a reference brand name or both. Specifications may be incorporated by reference or contained in an attachment.

02. Use of Functional or Performance Descriptions. Specifications shall, to the extent practicable, emphasize functional or performance criteria while limiting design or other detailed physical descriptions to those necessary to meet the needs of the agency. To facilitate the use of such criteria, using agencies shall endeavor to include as a part of purchase requisitions their principal functional or performance needs.

03. Preference for Commercially Available Products. Requirements shall be satisfied by standard commercial products whenever practicable.

04. Brand Name or Equal Specification.

a. A brand name or equal specifications may be used when the buyer determines that such a
specification is in the agency’s best interest. (7-1-21)T

b. A brand name or equal specification shall seek to designate as many different brands as are practicable as “or equal” and shall state that products substantially equivalent to those designated will be considered for award. (7-1-21)T
c. Unless the buyer authorized to finally approve specifications determines that the essential characteristics of the brand names included in the specifications are commonly known in the industry or trade, brand name or equal specifications shall include a description of the particular design and functional or performance characteristics required. (7-1-21)T
d. Where a brand name or equal specification is used, the document shall contain explanatory language that the use of a brand name is for the purpose of designating the standard of quality, performance, and characteristics desired and is not intended to restrict competition. (7-1-21)T

05. Brand Name Specification. (7-1-21)T

a. Since use of a brand name specification is restrictive, such a specification may only be used when the administrator or designee makes a written determination. Such determination may be in any form, such as a purchase evaluation or a statement of single manufacturer justification. The written statement must state specific reasons for use of the brand name specification. (7-1-21)T

b. The administrator shall seek to identify sources from which the designated brand name item or items can be obtained and shall solicit such sources to achieve whatever degree of competition is practicable. If only one (1) source can supply the requirement, the acquisition shall be made under Section 67-9221, Idaho Code. (7-1-21)T

06. Specification of Alternates May Be Included. A specification may provide alternate descriptions of property where two (2) or more design, functional or performance criteria will satisfactorily meet the agency’s requirements. (7-1-21)T

112. CONTRACT TERMS - POLICIES AND LIMITATIONS.

01. Prohibited Terms. Purchasing authorities do not have the authority to bind the state of Idaho or an agency to the following terms. If a contract contains such a term, the term shall be void pursuant to Section 67-9213, Idaho Code. (7-1-21)T

a. Terms waiving the sovereign immunity of the state of Idaho. (7-1-21)T

b. Terms subjecting the state of Idaho or its agencies to the jurisdiction of the courts of other states. (7-1-21)T
c. Terms limiting the time in which the state of Idaho or its agencies may bring a legal claim under the contract to a period shorter than that provided in Idaho law. (7-1-21)T
d. Terms imposing a payment obligation, including a rate of interest for late payments, less favorable than the obligations set forth in Section 67-2302, Idaho Code. (7-1-21)T

02. Terms Requiring Special Consideration. (7-1-21)T

a. Unless specifically authorized by the Idaho legislature, terms requiring an agency or the state of Idaho indemnify a vendor shall be subject to the provisions of Section 59-1015, Idaho Code, and require an appropriation by the Idaho legislature. Indemnification terms not specifically authorized by the Idaho legislature or subject to appropriation shall be void pursuant to Section 67-9213, Idaho Code, and Section 59-1016, Idaho Code. (7-1-21)T

b. Purchasing authorities shall consult with legal counsel prior to accepting terms submitting the contract to arbitration or waiving the state of Idaho's right to a jury trial. (7-1-21)T
113. CONTRACT OVERSIGHT.

01. Contract Management and Contract Administration. (7-1-21)T

   a. Agencies which issue their own contracts pursuant to their delegated authority (or as otherwise exempt from the requirements of these rules) will be responsible for all aspects of contract management and contract administration, as those terms are defined in Section 011 of these rules. (7-1-21)T

   b. When the division of purchasing issues a contract on behalf of an agency, in its role as the state’s contracting agent, the division of purchasing is responsible for contract administration and the agency is responsible for contract management. (7-1-21)T

02. Contract Management. Each state agency which manages one (1) or more contracts, whether entered into directly by the agency or by the division of purchasing acting as the statutory purchasing agency for the agency, will perform the following minimum contract management functions at a level consistent with the dollar value, complexity, and risk associated with each contract (7-1-21)T

   a. Designate a competent contract manager as the single point of contact for each agency contract; (7-1-21)T

   b. Document the contract manager’s responsibilities and reporting requirements relative to the contract, including activities such as management of the invoice and payment process, budget tracking, and invoice review and reconciliation with contract requirements and deliverables, to ensure compliance; (7-1-21)T

   c. Document a communication and escalation plan, as between the contract manager, identified agency personnel and the contract administrator, designed to ensure timely and effective contract monitoring and issue resolution (the communication and escalation plan must include the division of purchasing for contracts for which the division of purchasing is acting as the statutory purchasing agent for the agency); (7-1-21)T

   d. Develop and implement internal contract monitoring tools, including a reporting structure, based on the dollar value and/or potential risk associated with contract failure; and (7-1-21)T

   e. Close out each contract, including, but not limited to documenting receipt of goods or services in compliance with contract requirements as well as a review of vendor performance and lessons learned. (7-1-21)T

03. Service Contracts Exceeding $1,500,000 in Total Value. For each contract which is valued at more than one million five hundred thousand dollars ($1,500,000) over the duration of the contract and which consists primarily of the purchases of services, the agency responsible for contract management must develop and implement contract reporting requirements that capture, at a minimum, information on compliance with financial provisions and delivery schedules; the status of any corrective action plans; as well as any liquidated damages assessed or collected under the contract during the current reporting period. Reports will be submitted to the designated agency purchasing representative as well as the division of purchasing on no less than a biannual basis, with a schedule for each contract determined by the contract manager in consultation with the agency purchasing representative and the division of purchasing. (7-1-21)T

114. INFORMATION TECHNOLOGY RESALE.

01. Purpose. The use of resellers is common in the acquisition of information technology; however, the use of a reseller to acquire information technology attempts to separate the application of the State Procurement Act from the contract terms required by the information technology owner for use of the information technology. The requirements of this rule are in place to apply Idaho law to the contract terms required by the information technology owner, when information technology is acquired through a reseller. (7-1-21)T

02. Terms. All license, sale, or use terms imposed by the information technology owner shall be subject to the following: (7-1-21)T
a. Licensing, sale, or use terms required by a third party owner of information technology sold through a reseller shall be subject to these rules, specifically including Subsection 112.01 and Paragraph 112.02.a. of these rules. If a contract contains a term prohibited by Section 112 of these rules, the term shall be void pursuant to Section 67-9213, Idaho Code. (7-1-21)

115. -- 199. (RESERVED)

**SUBCHAPTER B – RULES GOVERNING CONTESTED CASE HEARINGS ON BID APPEALS AT THE DIVISION OF PURCHASING**

200. **FILING OF APPEAL.**
The notice of appeal must be filed in accordance with Section 67-9232(3)(a)(iii), Idaho Code. (7-1-21)

201. **NOTICE OF CONTESTED CASE HEARING.**
A notice of a contested case hearing shall be provided to the bidder, giving at least ten (10) days’ advance notice of the contested case hearing. The contested case hearing will be held in Ada County, at such place as may be designated in the hearing notice. Upon concurrence of the parties and the determinations officer, contested case hearings may be conducted telephonically. (7-1-21)

202. **BRIEFS AND MEMORANDA.**
Any party may make a request in writing to the determinations officer to file briefs, memoranda, proposed orders or statements of position and the determinations officer shall grant or deny such request as the determinations officer deems appropriate under the circumstances of a particular case. The determinations officer may request briefs, memoranda, proposed orders, or statements of position. (7-1-21)

203. **RULES OF EVIDENCE.**
The determinations officer shall control the hearing and direct the order or presentation. A party shall be entitled to introduce evidence, examine and cross-examine witnesses, make arguments, and generally participate in the conduct of the proceedings. (7-1-21)

204. **ADMISSION OF EVIDENCE.**
The admission of evidence at contested case hearings shall be governed by IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Sections 600 through 609. (7-1-21)

205. **TESTIMONY.**
Testimony to be considered by the determinations officer in the hearing shall be by sworn testimony, except for matters noticed or entered by stipulation. (7-1-21)

206. **DISCOVERY.**
Discovery may be conducted in the manner and to the extent allowed by the Idaho Rules of Civil Procedure only if first formally agreed to by the parties, or by order of the determinations officer after an application has been filed and a showing that discovery is required to clarify issues, identify witnesses, or preserve testimony. The order may limit the scope of discovery and the method of discovery as the determinations officer deems appropriate under the circumstances of a particular case. (7-1-21)

207. **RECORDING AND TRANSCRIPTION.**
The hearing will be recorded by electrical device. A written transcript will be produced by the department upon request of either party. A bidder requesting such transcript shall be responsible for the cost of the transcript. Any party wishing to have the hearing recorded by a qualified court reporter must request such no less than five (5) business days in advance of the date set for hearing. The requesting party shall pay the cost of the reporter’s fees and shall provide a copy to the determinations officer. The non-requesting party may pay for an additional copy for its own use. (7-1-21)

208. **WITNESSES AND EVIDENCE.**
The determinations officer, on his own or upon application of the bidder or the Department of Administration, may issue subpoenas for the attendance of witnesses and production of documents. (7-1-21)
209. **FINDINGS OF FACT AND CONCLUSIONS OF LAW.**
Once the matter is fully submitted, the determinations officer shall issue findings of fact, conclusions of law and preliminary order, and provide copies to all parties. (7-1-21)T

210. **FINAL ORDER.**
Upon receipt of the determination officer’s preliminary order, the director shall issue a final order affirming, modifying, or reversing the original selection determination, and provide copies to all parties. (7-1-21)T

211. **MOTIONS FOR RECONSIDERATION.**
Motions for reconsideration of the determination officer’s preliminary order or of the Director’s final order are not allowed. (7-1-21)T

212. **APPEALS.**
Appeals from the final order will be taken in accordance with Section 67-5270, Idaho Code. (7-1-21)T

213. -- 999. **(RESERVED)**
EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 38-0000-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule and rescinded a previous temporary rule. The action is authorized pursuant to Section 67-5708(5), Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 38, Rules of the Department of Administration:

IDAPA 38
• 38.04.04, Rules Governing Capitol Mall Parking.

Rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule. This fee rule is necessary to fund security and maintenance of Capitol Mall parking lots and structures.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 67-5708, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The following is a specific description of the fees or charges:

The Capitol Mall parking fees are currently $8.00 per month for general parking, to an amount not-to-exceed $10.00, and $35.00 a month for reserved parking, to an amount not-to-exceed $40.00.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the adoption of temporary rule and rescission of temporary rule, contact Steve Bailey at (208) 332-1825.

DATED this 1st day of July, 2021.

Keith Reynolds, Director
Department of Administration
650 W. State Street
P.O. Box 83720
Boise, ID 83720-0024
Phone: (208) 332-1811
Fax: (208) 334-5315
000. LEGAL AUTHORITY.
The following rules are promulgated pursuant to the authority of Section 67-5708, Idaho Code, and Senate Concurrent Resolution No. 135 (1976).

001. SCOPE.
These rules govern parking in the Capitol Mall.

002. -- 009. (RESERVED)

010. DEFINITIONS.

02. Capitol Mall Employee. A state employee whose assigned work area is in the Capitol Mall, and who receives a state of Idaho-issued paycheck from a tenant of the Capitol Mall.

03. Carpool. A vehicle carrying two (2) or more Capitol Mall employees who work at the Capitol Mall at least four (4) work days per week.

04. Employee with a Disability. An employee with a disability as defined in Section 49-117(7)(b), Idaho Code.

05. Executive Branch Departments. Pursuant to Section 67-2402, Idaho Code, excluding the Department of Self-Governing Agencies.

06. Facilities Services. Bureau of Facilities Services, Division of Public Works, Department of Administration.

07. General Parking. A parking space used for all Capitol Mall employees registered for general parking.

08. Legislative Personnel. An employee hired by the Legislative branch that receives a state of Idaho-issued paycheck during the Legislative session or is a year round employee of the Legislative branch.

09. Legislator. A member of the Idaho Senate or the Idaho House of Representatives for the state of Idaho.

10. Reserved Parking. A parking space assigned to a specific person, vehicle or agency.

11. State Elected Officials. The governor, lieutenant governor, secretary of state, attorney general, state controller, state treasurer and superintendent of public instruction, for the state of Idaho.

12. Temporary Contract Employee. An employee of a temporary employment service company who is working temporarily for a tenant of the Capitol Mall, and who does not receive a pay check issued by the state of Idaho.

13. Visitor. Any person visiting the Capitol Mall to carry out state business or attend a state-sponsored event.

011. -- 019. (RESERVED)

020. PARKING LOT LOCATIONS.
All Capitol Mall parking lots will be identified by signage. Capitol Mall Parking manages the state-owned parking lots at the following locations: 550 W. State Street Parking Garage, State Parking Garage #1; 608 W. Washington Street, State Parking Garage #2; 10th and Jefferson Streets, 8th Street between State and Jefferson Streets, and 3rd and Washington Streets. Capitol Mall Parking also manages parking spaces in and around the following Capitol Mall buildings: Capitol Annex, Len B. Jordan, Pete T. Cenarrusa, Division of Public Works, Borah Building and Idaho State Library.

021. TYPES OF AVAILABLE PARKING.
Designated parking spaces are available for reserved parking, state elected officials and directors of executive branch departments, Legislators, carpool, disabled employees and state agency vehicles. All other parking spaces, unless designated as public or visitor parking, are considered general parking.

022. PARKING SPACE ALLOCATION.

01. Reserved Parking Spaces.

a. Reserved parking spaces are available for state elected officials and directors of executive branch departments as defined in Subsections 010.05 and 010.11 of these rules. Capitol Mall Parking will assign a reserved space to each state elected official and director of executive branch departments upon request.

b. Reserved parking spaces will be made available to the Senate pro-tem, and the speaker of the House of Representatives. Capitol Mall Parking will assign a reserved space to each individual.

c. All other Capitol Mall employees may apply for a reserved parking space. General reserved parking spaces are assigned to Capitol Mall employees on a first-come, first-served basis when designated reserved parking spaces become available.

d. Reserved parking spaces for state elected officials, directors of executive branch departments and Capitol Mall employees are located in the following parking lots only: the first floor of State Parking Garage #1; the first and second floors of State Parking Garage #2, the Pete T. Cenarrusa Building parking lot, and the 8th Street parking lot between State and Jefferson Streets.

e. Capitol Mall Parking will determine the location of all reserved parking spaces.

f. Reserved parking spaces for state elected officials, directors of executive branch departments and Capitol Mall employees will not exceed twenty-five percent (25%) of parking spaces available within the Capitol Mall.

g. Capitol Mall employees may not sell, trade or barter the right to use their assigned reserved parking space. Capitol Mall Parking retains the right to assign, reassign, suspend or revoke Capitol Mall employees’ reserved parking spaces at any time.

02. Legislators’ Parking Spaces. During Legislative sessions and special sessions, Capitol Mall Parking will make available up to one hundred three (103) reserved Legislator parking spaces to Legislators.

a. Each Legislator will be assigned a reserved Legislator parking space. A Legislator who elects to park in the Capitol Mall is required to pay the fee for the reserved parking permit.

b. During the Legislative session, Legislator reserved parking spaces will be on the third floor of State Parking Garage #1, 8th Street parking lot, and the Capitol Annex parking lot and will be clearly marked. The Legislator reserved parking permit is only valid in the assigned reserved parking space; the permit is not valid in any other CMP general parking space during the Legislative session. When the Legislature is not in session, all Legislator parking spaces will be redesignated as general parking spaces.

c. When the Legislature is not in session, Legislators or Legislative personnel who hold a valid Capitol Mall parking permit, may park in any general parking space.
03. **Disabled Employee Parking Spaces.** Capitol Mall Parking will make available reserved disabled employee parking spaces for employees who have a proven disability. (7-1-21)

a. A temporarily or permanently disabled employee who has obtained an Americans with Disabilities Act (ADA) placard issued by the Idaho Transportation Department may request a reserved disabled employee parking space as close as possible to the employee’s work location. (7-1-21)

b. A disabled employee requesting a reserved disabled employee parking space must provide either a copy of his Americans with Disabilities Act (ADA) placard issued by the Idaho Transportation Department or a copy of the application to the Idaho Department of Transportation for an Americans with Disabilities Act (ADA) placard. (7-1-21)

c. A temporary reserved disabled employee parking space will be provided to any eligible employee who has applied for an Americans with Disabilities Act (ADA) placard with the Idaho Department of Transportation but has not yet received the placard. A temporary reserved disabled parking space will be made available for five (5) working days only per disabled employee. (7-1-21)

d. Reserved disabled employee parking spaces will be marked with signage. (7-1-21)

e. A permit for a reserved disabled employee parking space will be the same fee as a permit for a general parking space. (7-1-21)

04. **Carpool Parking Spaces.** Capitol Mall Parking will make available an indeterminate number of carpool parking spaces, which will be clearly marked, to employees who carpool at least four (4) work days per week. (7-1-21)

a. Capitol Mall employees who carpool may request a carpool parking permit from Capitol Mall Parking to use a designated carpool space. (7-1-21)

b. Carpool parking spaces will be available on a first-come, first-served basis for vehicles carrying two (2) or more Capitol Mall employees. All carpooling employees must be employees of the Capitol Mall with at least one (1) carpooling employee having a general parking space permit. (7-1-21)

c. A permit for a carpool parking space will be the same fee as a permit for a general parking space. (7-1-21)

d. All unoccupied reserved carpool parking spaces will be redesignated as general parking spaces after 9 a.m. work days. (7-1-21)

e. It is a parking violation to park in a reserved carpool parking space when the vehicle is carrying less than two (2) Capitol Mall employees before 9 a.m. (7-1-21)

05. **State-Owned Vehicles Parking Spaces.** Capitol Mall Parking will make available designated state-owned vehicle parking spaces. (7-1-21)

a. Capitol Mall Parking will make available an indeterminate number of designated state-owned vehicle parking spaces to department tenants of the Capitol Mall. (7-1-21)

b. Designated state-owned vehicle parking spaces will be on the fifth level of the State Parking Garage #1, and will be clearly marked “State Vehicle Only.” (7-1-21)

c. A Capitol Mall employee may park his personal vehicle in a designated state-owned vehicle parking space when removing a state vehicle for state purposes. The Capitol Mall employee’s personal vehicle must display the reserved state-owned vehicle parking space permit. (7-1-21)

d. A visiting agency employee conducting official business at the Capitol Mall may park a state
vehicle in an unoccupied designated state-owned vehicle parking space or in any Capitol Mall visitor parking space.

06. Motorcycle Parking Spaces. Capitol Mall Parking will make available designated motorcycle parking spaces.

a. Capitol Mall employees may request a special motorcycle parking permit for motorcycles, at no additional cost, to park in the designated motorcycle parking areas.

b. In order to receive a motorcycle permit, the Capitol Mall employee must possess a valid general or reserved parking permit.

07. General Parking Spaces. All other undesignated parking is considered general parking.

a. All Capitol Mall employees whose parking fees are deducted from their paychecks by the State Controller’s Office may request a general parking permit from Capitol Mall Parking.

b. General parking spaces are available on a first-come, first-served basis, and possession of a valid general parking permit does not guarantee the Capitol Mall employee a general parking space.

08. Visitor Parking Spaces. Capitol Mall Parking will make available a limited number of parking spaces for visitors and the public visiting the Capitol Mall.

a. Non-metered three (3) hour visitor parking spaces will be available at the parking lot at the Capitol Annex at 514 W. Jefferson Street and on the south side of the parking lot at the State Library Building at 325 W. State Street, and will be clearly marked.

b. State-owned vehicles that do not belong to the departments’ tenants of the Capitol Mall, and non-Capitol Mall employees visiting the Capitol Mall on business, may park in visitor parking spaces.

c. Capitol Mall employees may not park in visitor parking spaces between 6 a.m. and 6 p.m., Monday through Friday, excluding legal holidays with the exception of Human Rights Day and Presidents’ Day.

d. The maximum period of use of visitor parking spaces in the Capitol Mall is three (3) hours per day per vehicle. A change from one visitor parking space to another visitor parking space does not increase the maximum period of use for each vehicle beyond three (3) hours per day.

023. -- 029. (RESERVED)

030. PARKING PERMITS.
Capitol Mall Parking will issue applicable parking permits to all eligible persons who apply for a permit.

a. Capitol Mall Parking will reissue parking permits once a year. Outdated parking permits must be returned to Capitol Mall Parking.

b. Capitol Mall Parking will issue the applicable parking permit to each Capitol Mall state elected official, director of an executive branch department, Legislator or employee, with the exception of the carpool parking permit and the special motorcycle parking permit.

c. Capitol Mall Parking will issue only one (1) parking permit per employee. Capitol Mall Parking will not provide duplicate general parking permits. State elected officials, directors of executive branch departments, and Capitol Mall employees with reserved parking spaces may request a duplicate reserved parking permit for a one-time fee equal to the general permit monthly fee.
d. All individuals and department tenants are responsible for displaying the parking permit in the front windshield or other prominent location of the parked vehicle at all times. (7-1-21)T

e. In the event that a parking permit is stolen, lost or destroyed, the official, Legislator or employee must sign a statement attesting that the parking permit was lost, stolen or destroyed and pay a replacement fee before Capitol Mall Parking will issue a new permit. The replacement fee is equal to the general permit monthly fee. (7-1-21)T

02. Temporary Monthly Parking Permits. (7-1-21)T

a. An individual performing work or providing services to a department tenant as a Temporary Contract Employee in the Capitol Mall, but who does not receive a state of Idaho-issued paycheck, may purchase a general monthly parking permit at the same cost as a general parking permit from Capitol Mall Parking. (7-1-21)T

b. Upon request and receipt of the general parking permit fee, Capitol Mall Parking may issue a monthly general parking permit to the following: (7-1-21)T

i. Individuals who do not receive a paycheck issued by the state of Idaho but are performing work or providing services to a department tenant in the Capitol Mall. This includes, but is not limited to, employees of the Idaho Central Credit Union, employees of vendors of the Commission for the Blind and Visually Impaired, and Capitol Mall tenant departments’ temporary contract employees. (7-1-21)T

ii. Individuals who are employed by the state of Idaho, whose assigned work area is in the Capitol Mall, and who receive a state of Idaho-issued paycheck that is not issued by the State Controller’s Office. This includes, but is not limited to, employees of the University of Idaho whose assigned work area is the Capitol Annex occupied by the University of Idaho. (7-1-21)T

03. Temporary Meeting Parking Permits. Upon submission of an application by a department tenant in the Capitol Mall, Capitol Mall Parking may issue temporary daily parking permits for meetings hosted by the department tenant. Parking will be allowed only in a limited number of parking spaces in the area designated by the permit and for the date set forth on the permit. (7-1-21)T

031. PARKING PERMIT FEES. Pursuant to Sections 67-5701 and 67-5708, Idaho Code, parking permit fees will be established by the Department of Administration and administered by Capitol Mall Parking. (7-1-21)T

01. Elected Officials Parking Permits. The governor, lieutenant governor, secretary of state, attorney general, state controller, state treasurer, superintendent of public instruction, Senate pro-tem, and the speaker of the House of Representatives will be provided a reserved parking space at no charge. Additionally, upon request, Capitol Mall Parking will provide the governor four (4) additional reserved parking spaces. The fee for each additional reserved parking space provided to the governor will be the reserved parking permit monthly fee. (7-1-21)T

02. Directors of Executive Branch Departments. Directors of executive branch departments will be provided a reserved parking space at a cost not to exceed forty dollars ($40) per month. Executive branch departments will be charged for the reserved parking spaces annually by Capitol Mall Parking. (7-1-21)T

03. Reserved Parking Permits. The fee for a reserved parking space permit will not exceed forty dollars ($40) per month. (7-1-21)T

04. General Parking Permits. The fee for a general parking space permit will not exceed ten dollars ($10) per month. (7-1-21)T

05. Payment for Parking Permits. Capitol Mall employees will be charged the respective permit fee in the first paycheck of each month through a payroll deduction or as determined by the State Controller. (7-1-21)T

06. Legislators. Legislators and Legislative personnel must pay the associated space fee every month that the Legislature is in session for the eligible parking space permit. (7-1-21)T
07. **State-Owned Vehicles.** State-owned vehicles belonging to the tenant departments will receive state vehicle parking permits for a monthly fee not to exceed fifteen dollars ($15). (7-1-21)

08. **Replacement Permits.** If a parking permit is lost, stolen or destroyed, the official, Legislator, or Capitol Mall employee will be charged a fee equal to the general permit monthly fee for a new permit. A statement attesting that the parking permit was lost, stolen or destroyed must be signed before Capitol Mall Parking will issue a new permit. (7-1-21)

032. -- 039. (RESERVED)

040. **PARKING LOT VIOLATIONS.**

01. **Driving Violations.** Any driving violation in a Capitol Mall parking lot or garage may result in the suspension or loss of parking privileges. (7-1-21)

   a. It is a violation of these rules to drive or operate a personal vehicle negligently or recklessly in any Capitol Mall parking lot or garage. It is a violation of these rules to drive or operate a vehicle under the influence of illegal substances or alcohol in any Capitol Mall parking lot or garage. (7-1-21)

   b. It is a violation for any individual to drive above the posted speed limits or drive against posted directional arrows. (7-1-21)

02. **Parking Violations.** Any parking violation in a Capitol Mall parking lot or garage may result in the suspension or loss of parking privileges. (7-1-21)

   a. It is a violation of these rules to park in a location that is not marked as a parking space within the Capitol Mall. This includes, but is not limited to, parking in or on a driveway, sidewalk or other common driving areas of any parking lot or garage. It is also a violation to park one (1) vehicle in more than one (1) parking space. (7-1-21)

   b. It is a violation to park in a Legislator parking space without displaying the appropriate reserved parking permit during the Legislative session or to park in a general parking space without displaying the appropriate general parking permit. (7-1-21)

   c. It is a violation to park in a reserved parking space, in a reserved disabled employee parking space, ADA space, or in a reserved carpool parking space before 9 a.m., without displaying the appropriate parking permit. (7-1-21)

   d. It is a violation to park a motorcycle in any space not designated for motorcycle parking, unless a valid reserved parking permit is displayed and the motorcycle is parked in the designated reserved parking space. (7-1-21)

   e. It is a violation to park or store a personal trailer in a Capitol Mall parking lot. (7-1-21)

   f. It is a violation of these rules to:

      i. Use an invalid parking permit; (7-1-21)

      ii. Use a parking permit reported lost or stolen; (7-1-21)

      iii. Fail to properly display a valid Capitol Mall parking permit; or (7-1-21)

      iv. Transfer an invalid permit to another person. (7-1-21)

   g. It is a violation of these rules to park in one or more visitor parking spaces for a period in excess of the maximum period of use set forth in these rules. (7-1-21)
h. It is a violation of these rules for a CMP permit holder to park in a visitor parking space at any time. (7-1-21)

03. Other Violations. The Capitol Mall parking lots and garages are private property, and any tampering or other physical defacement of any vehicle parked on the lots or in the garage is considered a violation. (7-1-21)

a. The distribution of flyers or other materials on vehicles parked on Capitol Mall parking lots and in State Parking Garages #1 and #2 is prohibited, and violators will be escorted off the property. (7-1-21)

b. Any individual engaging in suspicious activity or threatening behavior, or an individual loitering in a Capitol Mall parking lot or in State Parking Garages #1 and #2, will be escorted off the property. (7-1-21)

c. Public access is not allowed in State Parking Garages #1 and #2 before 6 a.m. and after 6 p.m. Violators will be considered trespassers. (7-1-21)

041. ENFORCEMENT.

01. Security and Patrol. Capitol Mall parking lots and State Parking Garages #1 and #2 are secured and patrolled by Capitol Mall Parking, or its authorized representative. (7-1-21)

02. Notice of Violation. Upon witnessing or finding a violation of these rules, Capitol Mall Parking, or its authorized representative, will leave notice with the occupant of the vehicle or on the vehicle parked in violation of these rules. (7-1-21)

a. Notice may be in the form of a warning or a ticket. The warning or ticket will indicate the date and hour of the violation, the nature of the violation, and the name of the Capitol Mall Parking employee or its authorized representative. A warning or ticket may be issued only for those violations that do not cause the loss of a parking space and do not cause a safety hazard. (7-1-21)

b. A ticket may be issued by Capitol Mall Parking, or its authorized representative, for a fine of at least two dollars ($2), but not more than twenty-five dollars ($25). (7-1-21)

c. If an individual is determined to have altered, counterfeited or otherwise misused a parking permit, a ticket may be issued by Capitol Mall Parking, or its authorized representative, for a fine not to exceed fifty dollars ($50). (7-1-21)

d. All tickets issued by Capitol Mall Parking, or its authorized representative, will be forwarded to the city of Boise, county of Ada, for collection or prosecution. (7-1-21)

e. Capitol Mall Parking retains the right to suspend or revoke an individual’s parking privileges if the warnings or tickets have been issued or fines imposed for repeated violations. (7-1-21)

042. SUSPENSION OR REVOCATION OF PARKING PRIVILEGES.

01. Delinquent Payment. Capitol Mall Parking may suspend or revoke any individual’s parking permit if the parking permit fee is unpaid and at least thirty (30) days delinquent. Upon payment in full, Capitol Mall Parking will restore the individual’s parking permit. (7-1-21)

02. Parking Privileges Suspension.

a. Capitol Mall Parking may suspend an individual’s parking permit and privileges for up to six (6) months for a violation of these rules. (7-1-21)

b. Any Capitol Mall Parking permit holder, including a temporary parking permit holder, who has been cited for three (3) violations of these rules within six (6) months, may have his parking permit and privileges
revoked for up to twelve (12) months. (7-1-21)T

03. **Towing and Impounding.** (7-1-21)T
   
a. Capitol Mall Parking or its authorized representative may tow any vehicle from any Capitol Mall parking lot or the or State Parking Garages #1 and #2, belonging to an individual who has been cited for three (3) or more Capitol Mall parking violations within a twelve-month period. The owner of the vehicle is liable for any service fee owed for releasing the towed and impounded vehicle. (7-1-21)T
   
b. In the event that a vehicle is considered a security risk, Capitol Mall Parking will make reasonable efforts to locate the owner of the vehicle before it is towed. (7-1-21)T

04. **Reactivating a Suspended Permit.** A suspended parking permit may be reactivated after the applicable suspension period ends by reapplying for the automatic payroll deduction plan through Capitol Mall Parking and paying in full of any delinquent parking fees. (7-1-21)T

043. **SURRENDER OF PARKING PERMIT.**

01. **Surrender of Permit.** When an official, Legislator or Capitol Mall employee no longer works in the Capitol Mall or no longer needs to utilize Capitol Mall parking, the individual must submit a request to Capitol Mall Parking to cease automatic payroll deduction or billing for Capitol Mall parking. The individual must surrender the parking permit to Capitol Mall Parking within ten (10) days of the effective date of termination. (7-1-21)T

02. **Cancellation of Automatic Payroll Deduction.** (7-1-21)T
   
a. Capitol Mall Parking will notify the individual’s agency’s payroll clerk to cease the monthly parking fee deduction. Capitol Mall Parking will not refund a monthly parking fee after a monthly payroll deduction has been made. (7-1-21)T
   
b. Agency payroll clerks must receive a written request from Capitol Mall Parking prior to deleting the monthly parking fee from the employee’s payroll deduction schedule. (7-1-21)T

044. -- 049. (RESERVED)

050. **LOADING ZONE PARKING SPACES.**
Capitol Mall Parking will designate and mark a limited number of parking spaces to be used for short-term collection or delivery services or by authorized service contractors. It is a violation to park in loading zone parking spaces for any unauthorized purpose. (7-1-21)T

051. **WAIVER OF RULES.**
Pursuant to Section 67-5708, Idaho Code, the administrator for the Division of Public Works may waive any or all of the provisions of these rules if the administrator determines that application could result in discrimination among employees or otherwise violate law. (7-1-21)T

052. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 40-312 and 49-201, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 39, rules of the Idaho Transportation Department:

IDAPA 39
- 39.02.02, Rules Governing Vehicle & Vessel Dealer License Requirements – Motor Vehicles;
- 39.02.03, Rules Governing Vehicle Dealer’s Principal Place of Business and Claims to the Idaho Consumer Asset Recovery Fund;
- 39.02.09, Rules Governing Requirements for Manufacturer’s Certificate of Origin (MCO);
- 39.02.27, Rules Governing Titling and Registration of Non-Resident Commercial Vehicles and Transient Farm Labor Vehicles;
- 39.02.42, Rules Governing Conditional Vehicle Registration When Proof of Ownership is Insufficient;
- 39.02.43, Rules Governing Registration and Title Fee Refunds;
- 39.02.45, Rules Governing Fees for Lapsed Registration Periods;
- 39.02.46, Rules Governing Temporary Motor Vehicle Registration Permit License Plates;
- 39.02.70, Rules Governing Restricted Driving Permits;
- 39.02.71, Rules Governing Driver’s License Violation Point System;
- 39.02.72, Rules Governing Administrative License Suspensions;
- 39.02.73, Rules Governing Accident Prevention Course;
- 39.02.75, Rules Governing Driver’s License Violation Point System;
- 39.02.76, Rules Governing Driver’s License and Identification Card Renewal-by-Mail and Electronic Renewal and Replacement Processes;
- 39.02.80, Rules Governing Motor Carrier Financial Responsibility;
- 39.03.01, Rules Governing Definitions Regarding Special Permits;
- 39.03.02, Rules Governing Movement of Disabled Vehicles;
- 39.03.04, Rules Governing Special Permits – Overweight Non-Reducible;
- 39.03.05, Rules Governing Special Permits – Oversize Non-Reducible;
- 39.03.06, Rules Governing Special Permits for Extra-Length/Excess Weight, Up to 129,000 Pound Vehicle Combinations;
- 39.03.07, Rules Governing Special Permits for Reducible Loads;
- 39.03.08, Rules Governing Self-Propelled Snowplows;
- 39.03.40, Rules Governing Junkyards and Dumps;
- 39.03.41, Rules Governing Traffic Control Devices;
- 39.03.42, Rules Governing Highway Right-of-Way Encroachments on State Rights-of-Way;
- 39.03.43, Rules Governing Utilities On State Highway Right-of-Way;
- 39.03.44, Rules Governing Highway Relocation Assistance for Persons Displaced by Public Programs;
- 39.03.47, Rules Governing Certification of Local Improved Road Mileage;
- 39.03.48, Rules Governing Routes Exempt From Local Plans and Ordinances;
- 39.03.49, Rules Governing Ignition Interlock Devices;
- 39.03.50, Rules Governing Safety Rest Areas;
- 39.03.60, Rules Governing Outdoor Advertising, Accident Memorials, and Other Official Signs;
- 39.03.65, Rules Governing Traffic Minute Entries;
- 39.03.80, Rules Governing Legalization of Overloaded Vehicles; and
- 39.04.01, Rules Governing Aeronautics and Aviation.
The following rule chapters previously under IDAPA 39 expire on July 1, 2021, pursuant to Section 67-5292, Idaho Code:

- 39.02.01, Rules Governing Vehicle Manufacturer and Distributor Franchise Requirements (Expired)
- 39.03.81, Rules Governing Issuance of Temporary Permits In Lieu of Full Registration (Expired)

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b) and (c), Idaho Code, the Governor has found that temporary adoption of these rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety and welfare of the citizens of Idaho and confer a benefit to its citizens. These temporary rules implement the duly enacted laws of the State of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the temporary rules, please contact Ramón Hobdey-Sánchez at (208) 334-8810.

DATED this 1st day of July, 2021.

Ramón S. Hobdey-Sánchez, J.D.
Governmental Affairs Project Manager
Idaho Transportation Department

Phone: (208) 334-8810
3311 W. State St., Boise, ID 83703
000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-1602, and 49-1606(7), Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.02, “Rules Governing Vehicle and Vessel Dealer License Requirements – Motor Vehicles.” (7-1-21)

02. Scope. This rule clarifies the requirements for the issuance of dealer licenses, clarifies allowable locations for “supplemental lot” and “temporary supplemental lot” licenses, and specifies provisions for refunds of dealer and salesman licensing fees, dealer thirty-day (30) temporary permits, dealer license plates, and dealer validation sticker fees. (7-1-21)

002. -- 099. (RESERVED)

100. DEALER LICENSE REQUIREMENTS.
A dealer license is required in the following situations: (7-1-21)

01. Seller Not Titled Owner. Selling or exchanging; or (7-1-21)

02. Maximum Sales. Selling, or exchanging, or soliciting the sale of five (5) or more vehicles or vessels in any one (1) calendar year even though titled in seller’s name; or (7-1-21)

03. Display for Sale. Displaying for sale or exchange, five (5) or more vehicles or vessels at any one (1) time even though titled in the displayer’s name; or (7-1-21)

04. Displaying Vehicles or Vessels. Displaying vehicles or vessels for sale, exchange or consign on property not legally controlled by the owner of the vehicle or vessel. (7-1-21)

101. SALESPERSON LICENSE.
Dealers shall not allow a person to act as a salesperson in their behalf unless such person holds a valid salesperson license containing a current photograph of the salesperson, and the date of expiration of the salesperson’s license. (7-1-21)

01. Temporary Salesperson. A new or transferring salesperson may act as a temporary salesperson for a sponsoring dealer for a period, not to exceed sixty (60) days, if the person has: (7-1-21)

   a. Made application to the Department; and (7-1-21)

   b. Paid the required fees; and (7-1-21)

   c. Has retained a copy of the completed application. (7-1-21)

02. Temporary Salesperson Sales Authorization. A copy of the application must be carried by the temporary salesperson as authorization to act as a salesperson. (7-1-21)

102. -- 199. (RESERVED)

200. OFF-PREMISE SALES ACTIVITIES.
The Department will not issue a “supplemental lot” or “temporary supplemental lot” license, unless the proposed sale or display activity is located within the same or adjacent county as the dealership’s principal place of business location or unless the dealership satisfies the requirements of Section 49-121(1), Idaho Code. Display of vehicle(s) or vessel(s) for sale or exchange at a location other than the location specified on the license issued to the dealer is a violation of this rule and the Dealer and Salesman Licensing Act. (7-1-21)

201. -- 299. (RESERVED)

300. REQUEST FOR REFUND OF DEALER OR SALESPERSON LICENSING FEES.
The fees established for dealer and salesperson licenses are based on the costs to set up the files and to issue the necessary documents to begin operation of the enterprise. Therefore, the Department will only process requests for
refunds of licensing fees if:

01. **Application Denial.** The application is denied prior to the issuance of a temporary license.

02. **Prior to License Issuance.** The applicant requests a refund prior to the issuance of a license.

03. **Prior to Renewal Issuance.** The licensee pays a renewal license fee and then requests a refund prior to the issuance of the renewed license.

04. **Over-Payment.** The applicant over-pays the fees required.

301. **REFUND OF DEALER THIRTY DAY TEMPORARY PERMITS, LICENSE PLATES, AND VALIDATION STICKER FEES.**

The Department will process requests for refunds if:

01. **Unused Permits.** The thirty (30) day temporary permits are returned unused by a dealership that is going out of business.

02. **Plates Not Ordered.** The dealer license plates have not been ordered through the plate manufacturer.

03. **Validation Stickers Unused.** The dealer validation stickers have not been applied to the dealer’s license plates.

302. **RESERVED**
39.02.03 – RULES GOVERNING VEHICLE DEALER’S PRINCIPAL PLACE OF BUSINESS AND CLAIMS TO THE IDAHO CONSUMER ASSET RECOVERY FUND

000. LEGAL AUTHORITY.
This rule is adopted under the authority of Section 49-201(1), Idaho Code and the Vehicle Dealer Act, Chapter 16, Title 49, Idaho Code.

001. TITLE AND SCOPE.
01. Title. This rule will be titled IDAPA 39.02.03, “Rules Governing Vehicle Dealer’s Principal Place of Business and Claims to the Idaho Consumer Asset Recovery Fund.”

02. Scope. This rule clarifies terms used in the definition of “principal place of business” and provisions regarding these terms and payment of claims from the Idaho Consumer Asset Recovery Fund.

002. -- 009. (RESERVED)

010. DEFINITIONS.
01. Vehicle Dealer File System. Books, records and files, necessary to conduct the business of a vehicle dealership. In accordance with the Vehicle Dealer Act, records shall be securely kept by the dealership in such order that they can be readily inspected by a Department Investigator. Such records and files may be kept electronically, as long as such records can be verified by the dealership as true and correct copies of the original records. Physical records or files retained by the dealership may be stored at an off-site location. The dealership must notify the department 30 days in advance of the address of the off-site location prior to moving such records. Records or files stored off-site must be made available to the department within 3 business days upon request. The files and records shall contain but are not limited to:

a. Physical or electronic sales invoices for current and two (2) preceding years;

b. Physical or electronic copies of purchase orders for vehicles purchased for current and two (2) preceding years;

c. Physical or electronic copies of title application forms accessible in numerical order;

d. Written or electronic records of vehicles bearing new or used dealers’ number plates and their use by a manufacturer, vehicle dealer, or full-time licensed salespersons searchable by date, time or plate number;

e. Written or electronic records for loaner plates searchable by date, time or plate number;

f. Copies or electronic records of Wholesale Dealer Forms records showing, all transactions, as applicable searchable by date or name of consignee;

g. Physical or electronic odometer disclosure records for non-exempt vehicles; and

h. Physical or electronic records of consignment agreements, as specified in Section 49-1636, Idaho Code.

i. All electronic records must be created in a secure manner to prevent such records from being altered. Electronic copies of records must be legible, complete, and an accurate reproduction of the original business record.

j. All electronic copies of records shall be supplemented with a back-up copy of the electronic records, either retained on-site or an off-site location, which permits the business record to be retrieved within three (3) business days.

k. Any device, server, network device, or any internal or external storage medium which stores the electronic records must have security access controls and physical security measures to protect the records from unauthorized access, viewing, or alteration.

l. Any dealer storing electronic or physical records that contain personal information shall ensure that disposal of any records be completed in a secure manner, by shredding, erasing, or otherwise modifying the personal
02. Vehicle Dealer Sign Requirements. An exterior sign permanently affixed to the land or building, with clearly visible letters, visible to major avenue of traffic meeting local building or zoning codes with the trade name of the dealership clearly visible is required. Wholesale dealer signs may be painted on the window of the office next to the entrance door of sufficient size to be easily read by prospective customers. A suggested retail sign size is twenty-four (24) square feet, with a minimum of four (4) inch letters. (7-1-21)

03. Telephone. A business phone that has a published business number and listing in a local telephone directory in the name of the dealership. Business phones shall be answered during declared business hours, in the name of the licensed dealer. The telephone may be answered in person, by an answering machine, or at a remote location in person. (7-1-21)

100. GENERAL PROVISIONS.

01. Physical or Electronic Records System Inspection. A vehicle dealer shall make available all books, records and files maintained at the dealership location for immediate inspection for cause or complaint, or within three (3) business days if records are stored at an approved off-site location for random compliance review by a peace officer or authorized agent of the Department. (7-1-21)

02. Title Fee Disclosure. A dealer may reflect the payment of a state-required title fee as specified by Section 49-202(2)(b), Idaho Code, however:
   a. The fee must be clearly identified as a “TITLE FEE”; (7-1-21)
   b. The fee must be shown as the exact amount required by law; (7-1-21)
   c. Any documentation fees charged must be clearly listed separately from other fees and identified to the customer as dealer document preparation fees that are subject to sales tax as part of the purchase price of the vehicle. (7-1-21)

03. Surety Bond. A valid bond in the amount required by Section 49-1608D, Idaho Code, for three (3) years after initially licensed, unless otherwise provided by code; (7-1-21)

04. Idaho Consumer Asset Recovery (ICAR) Fund. (7-1-21)
   a. All licensed dealers will pay the annual fee as set by the Idaho Consumer Asset Recovery (ICAR) Board as required by Section 49-1608C, Idaho Code, unless otherwise provided by code. (7-1-21)
   b. The ICAR fund fee will be set by the ICAR Board annually to be effective the following January 1. Such fee shall be posted on the Department web site and all applicable forms for dealer licensing. (7-1-21)

05. Liability Insurance. A valid liability insurance policy as required by Section 49-1608A, Idaho Code. (7-1-21)

06. Declared Business Hours. All licensed dealers shall declare in writing to the Department the regular business hours that their dealerships are open and when they are available to be contacted by the Department or their customers. All wholesale dealers shall declare in writing to the department the regular hours that their dealerships are open and when they are available to be contacted by the department or their customers. (7-1-21)

07. Vehicle Dealer License Suspension. Any dealer not meeting the requirements of the Vehicle Dealer Act shall be subject to suspension of an existing dealer license or refusal by the Department to issue a new dealer license. (7-1-21)
   a. The Department’s agent will give written notice of deficiencies to the dealer or applicant. (7-1-21)
b. At its discretion the Department may give the licensed dealership a reasonable amount of time to comply. (7-1-21)

c. Upon compliance, the license will be reinstated or issued. (7-1-21)

101. -- 199. (RESERVED)

200. IDAHO CONSUMER ASSET RECOVERY FUND CONTROL BOARD ADMINISTRATION.

01. Quorum. A majority of the members of the Idaho Consumer Asset Recovery Control (ICAR) Board established pursuant to Section 49-1608C, Idaho Code, constitutes a quorum. A quorum is required for voting on any ICAR claims. The ICAR Board chairman presides over ICAR Board meetings. The ICAR Board operates in compliance with Idaho open meeting laws. (7-1-21)

02. Voting. All members of the ICAR Board constituting the quorum are entitled to vote in consideration of any payment of a claim pursuant to Section 49-1608F, Idaho Code. (7-1-21)

03. Actual Loss or Damages. As provided for in Section 49-1608E, Idaho Code, “actual loss or damages”, means: The total cost to the purchaser, as set forth in a final judgement, of the loss directly resulting in a violation, by a dealer, of the provisions of Title 48, Chapter 5 or Title 49, Chapter 5 or Section 49-1418, Idaho Code; including such things as repairs, inspections and loss of resale value. The term includes the attorney fees and costs in bringing suit against the dealer, and includes pre-judgement, but not post-judgement interest. “Actual Loss or Damages” shall not include such things as treble damages, expectation damages nor consequential damages resulting from dealer fraud. (7-1-21)

04. Complete and Complaint Claims. All ICAR claims will be initiated by filing the complete claim with the Idaho Transportation Department DMV Administrator. When a proper ICAR claim has been received, staff will review the claim for completeness and compliance with these rules and the provisions of Title 49, Chapter 16, Idaho Code. If the claim is complete and in compliance with statute and these rules, the ICAR Board will send notification per Section 49-1608F(5), Idaho Code, to the subject vehicle dealer with a demand that the dealer satisfy the judgement within thirty (30) days. (7-1-21)

a. Should the dealer fail to satisfy the judgment within thirty (30) days of notice from the ICAR Board, staff will provide the ICAR Board and the claimant a staff-recommended amount of the claim. If the claimant agrees with the staff-recommended payment amount, the ICAR Board will issue a final order either adopting or rejecting the staff recommended claim payment amount. (7-1-21)

b. Should the claimant disagree with the proposed amount to be paid on the claim, the claimant may request an administrative hearing under the provisions of Title 67, Chapter 52, Idaho Code, within 10 business days of receipt of notification. The department will appoint a qualified hearing officer to hear the claim, take testimony and review evidence; and issue findings of fact, conclusions of law and provide a recommended order. (7-1-21)

c. Upon receipt of the recommended order from the hearing officer, the ICAR Board will issue a final order either adopting or rejecting the hearing officer’s recommendation of the claim payment amount. (7-1-21)

d. Final orders of the ICAR Board may be subject to judicial review under the provision of Title 67, Chapter 52, Idaho Code. (7-1-21)

201. -- 299. (RESERVED)

300. PENALTIES. A dealer violating this rule is subject to license suspension for a period not to exceed six (6) months. (7-1-21)

301. -- 999. (RESERVED)
39.02.09 – RULES GOVERNING REQUIREMENTS FOR MANUFACTURER’S CERTIFICATE OF ORIGIN (MCO)

000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-504 and 49-507, Idaho Code. (7-1-21)T

001. PURPOSE.
This rule outlines the requirements for a manufacturer’s certificate of origin (MCO). All provisions of this rule also apply to any Manufacturer’s Statement of Origin (MSO). (7-1-21)T

002. -- 099. (RESERVED)

100. MCO REQUIREMENTS FOR TITLE APPLICATION.

01. Title Application Endorsement. New vehicles sold in Idaho being titled for the first time will have the title application endorsed by an Idaho-licensed, franchised new vehicle dealer. (7-1-21)T

02. Manufacturer’s Certificate of Origin Required. Title applications for new vehicles will be accompanied by a manufacturer’s certificate of origin. (7-1-21)T

03. Out-of-State Purchases. New vehicles purchased out-of-state by Idaho residents will be accompanied by an MCO that meets the legal requirements of the state where the vehicle was purchased. (7-1-21)T

101. -- 199. (RESERVED)

200. CERTIFICATE CONTENTS.

01. MCO Content Requirements. Each MCO accompanying application for title will contain the following information: (7-1-21)T

a. Date; (7-1-21)T

b. Invoice number and document control number; (7-1-21)T

c. Name of distributor or dealer; (7-1-21)T

d. Issuing location - city and state; (7-1-21)T

e. Manufacturer’s name and signature of authorized manufacturer’s representative; (7-1-21)T

f. Manufacturer statement - “I, the undersigned authorized representative of the company, firm or corporation named below, hereby certify that the new vehicle described above is the property of the said company, firm or corporation and is transferred on the above date and under the Invoice Number indicated to the following distributor or dealer”;

(7-1-21)T

g. Year, make, body type, series or model; (7-1-21)T

h. Vehicle identification number, approved by the American Society of Automotive Engineers; (7-1-21)T

i. Shipping weight, horsepower (SAE) and number of cylinders when applicable, Gross Vehicle Weight Rating (GVWR); and (7-1-21)T

j. Certification attesting to the first transfer in ordinary trade or commerce: “It is further certified that this is the first transfer of such new vehicle in ordinary trade and commerce.” (7-1-21)T

02. Additional Motor Home Requirements. If the vehicle is a motor home, the following statement will be included: “The undersigned certifies that the vehicle described hereon is a motor home, equipped with at least four (4) of the following life support systems: cooking, refrigeration or ice box, self-contained toilet, heating and/or air conditioning, a potable water supply system including a faucet and sink, separate 110-115 volt electrical power supply and/or an LP as supply, all of which meet ANSI A119.2 standards.” (7-1-21)T
03. MCO Assignments and Reassignments. The reverse side of the certificate will provide for distributor/dealer assignments and reassignments.

201. CERTIFICATE DESIGN.
Each MCO will be printed on safety paper meeting the following standards:

01. Security Features. At a minimum, all “Certificates of Origin” will contain the following security features:

   a. Background Security Design -- a repetitious design consisting of a pattern which hinders counterfeiting efforts; and

   b. Consecutively Numbered -- documents that contain a number which is consecutively numbered for control purposes.

02. Document Size. Seven (7) inches by eight (8) inches.

03. Paper Stock. Minimum twenty-eight (28) pound, number one (1) bond, smooth-surface. Paper will be of sufficient weight to preclude bleeding through or shadowing.

04. Layout. Text matter space for one-tenth (1/10) inch horizontal and one-sixth (1/6) inch deep characters.

202. FACILITY SECURITY.
To insure the integrity of the manufacturer’s “Certificates of Origin”, the user should require the vendor to maintain secure printing and storage facilities.

203. -- 299. (RESERVED)

300. APPROVAL BY DEPARTMENT.
A sample copy of the proposed MCO or a complete list of printing specifications will be submitted to the Department for approval for titling purposes.

301. – 999. (RESERVED)
000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-201, 49-441 and 49-501, Idaho Code. (7-1-21)

001. SCOPE.
This rule establishes the procedures for the titling and registering of non-resident commercial vehicles and transient farm labor vehicles. (7-1-21)

002. – 009. (RESERVED)

010. DEFINITIONS.

01. Idaho Trucking Company. Any entity physically located within Idaho and owned, leased, or rented by the registrant, where the operational records of the registrant can be made available. (7-1-21)

02. Lessee. A person, firm, or corporation which has legal possession and control of a vehicle and/or motor vehicle under the terms of a written lease agreement. (7-1-21)

03. Non-Resident Owner-Operator. An owner-operator of a motor vehicle who is not a resident of Idaho, but is leasing transportation equipment, titled in another jurisdiction, to an Idaho trucking company. (7-1-21)

04. Transient Farm Labor Vehicles. A vehicle, or combination of vehicles, owned by a transient farm laborer, used in hauling unprocessed agricultural products for hire, and not exceeding sixty thousand (60,000) pounds maximum gross weight. (7-1-21)

011. – 199. (RESERVED)

200. NON-RESIDENT REGISTRATIONS.

01. No Reciprocity Agreement. Non-resident companies operating on an intrastate basis in Idaho when no specific agreement exists between Idaho and the state where the non-resident vehicle(s) are registered must register in Idaho. Idaho titling is not required. (7-1-21)

02. Registration. Vehicles used on an intrastate basis in Idaho by an out-of-state company and are housed or garaged in Idaho, and do not return to the state where registered each day, must register in Idaho. (7-1-21)

03. Proof of Ownership. Applicants registering transient farm labor vehicles must provide proof of ownership by one of the following means:

a. Certificate of title in the name of the applicant; (7-1-21)

b. Valid registration certificate from another state in the name of the applicant; or (7-1-21)

c. Certified copy of the title in the name of the applicant. (7-1-21)

05. Employee Owned Vehicles. Employees of companies who are working in Idaho on a contract or project must purchase Idaho registration for their privately owned vehicles if they establish a place of residence in Idaho. Non-resident employees who return to their state of residence on a daily basis are not required to purchase Idaho registration for their privately owned vehicles. If the assignment is for the duration of the project or contract only, no Idaho titling is required. (7-1-21)

201. – 999. (RESERVED)
000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-501, 49-507 and 49-523, Idaho Code. (7-1-21)T

001. TITLE AND SCOPE.

01. Title. This rule is cited as IDAPA 39.02.42, “Rules Governing Conditional Vehicle Registration When Proof of Ownership is Insufficient.” (7-1-21)T

02. Scope. The purpose of this rule establishes conditional vehicle registration when the applicant does not have sufficient proof of ownership. This rule provides operating privileges for a specific time period and does not apply to Idaho licensed dealers, non-residents of Idaho; or owners and/or operators of non-Idaho based commercial vehicles operated in interstate commerce under the various proportional registration plans or agreements with other states of which Idaho is a participant. (7-1-21)T

002. ADMINISTRATIVE APPEALS.
Administrative appeals under this chapter are governed by the rules of administrative procedure of the attorney general, IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (7-1-21)T

003. -- 099. (RESERVED)

100. GENERAL PROVISIONS FOR INSUFFICIENT PROOF OF OWNERSHIP INCLUDES.

01. Vehicle Record. The vehicle for which record of ownership is unavailable; (7-1-21)T

02. Title. The applicant does not have the title from the previous owner; (7-1-21)T

03. Release of Interest. The previous owner of record has not released interest in the title; (7-1-21)T

04. Bill of Sale. The possessor has the unreleased title but does not have a bill of sale to support transfer of ownership; (7-1-21)T

05. Vehicle Identification Number. The title vehicle identification number (VIN) and the VIN on the vehicle do not match (except for obvious typographical errors); or (7-1-21)T

06. Documentation for Component Part. Component parts of a homemade, reconstructed or specially constructed vehicle cannot be documented. (7-1-21)T

101. -- 199. (RESERVED)

200. PROCEDURE.

01. Conditional Registration. “Registration Only” (conditional registration until titling requirements are met) may be processed for a one (1) year period without benefit of title. “Registration Only” will not be issued on vehicles with altered VINs, vehicles confirmed as stolen or vehicles where there is a recorded and unpaid lien. (7-1-21)T

02. Conditional Registration Procedure. “Registration Only” procedure is as follows: (7-1-21)T

a. VIN Inspection: The vehicle must be inspected by an agent of the county assessor’s office or a city, county or state peace officer. The inspecting officer will verify the identification number and provide the applicant with a signed inspection form containing the vehicle description, other pertinent information and recommendations. If the VIN has been altered or is missing, the officer may ask for the assistance of a motor vehicle investigator before issuing the VIN inspection. (7-1-21)T

b. Indemnifying Affidavit. The “Registration Only” applicant will complete an indemnifying affidavit explaining how and where the vehicle came into the applicant’s possession, and why proper documentation is not available. The indemnifying affidavit must be signed, and fully indemnify and save harmless the department. (7-1-21)T

c. Registration of the Vehicle: The vehicle may be registered for one (1) year. The title block of the
registration document will show “Reg Only” in bold letters. The applicant must obtain adequate proof of ownership prior to the expiration of the registration period. The one (1) year “Registration Only” period will not be extended.

(7-1-21)T

d. The county will hold the VIN inspection and the indemnifying affidavit in file until the applicant complies with requirements in Subsection 200.04.

(7-1-21)T

03. Applicant Responsibility. By the expiration of the “Registration Only” period, the applicant must present a properly executed title and bill of sale for the vehicle or apply for a bonded or conditional title. (7-1-21)T

04. Action by the County Assessor. When the applicant has complied with Subsection 200.03, the county assessor will pull the VIN inspection and indemnifying affidavit from their file; prepare an Application for Title; and submit the application form with the title, bill of sale, indemnifying affidavit and VIN inspection for title processing. (7-1-21)T

05. Proof of Ownership. If the applicant cannot prove ownership within the one (1) year “Registration Only” period, no further registration (permanent or temporary) will be issued until after the title requirement is met. (7-1-21)T

201. -- 999. (RESERVED)
000. LEGAL AUTHORITY.  
This rule is adopted under the authority of Sections 49-201 and 49-507, Idaho Code. (7-1-21)T

001. PURPOSE.  
This rule specifies provisions for the refund of vehicle title and registration fees. (7-1-21)T

002. -- 099. (RESERVED)

100. REQUEST FOR REFUND OF TITLE FEES.  
A refund will be granted if: (7-1-21)T

  01. Withdrawal of Application. The applicant requests the title application be withdrawn before the county assessor has processed the application; or (7-1-21)T

  02. Process of Documents. The title application has been mailed directly to the Department’s Division of Motor Vehicles and the request is made before the documents are processed. (7-1-21)T

101. -- 199. (RESERVED)

200. REQUEST FOR REFUND OF REGISTRATION FEES.  

  01. Refund Granted. A refund may be granted only if: (7-1-21)T

    a. The applicant can show the motor vehicle was registered in error by the Department or County; and (7-1-21)T

    b. All plates, stickers and registration certificates are returned to the Department or County. (7-1-21)T

  02. Mailing and Handling Fees. The decision to refund the administrative mailing and handling fees for valid refund requests will be determined by individual counties or the Department. (7-1-21)T

201. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-201 and 49-401, Idaho Code. (7-1-21)

001. PURPOSE.
This rule ensures an applicant for motor vehicle registration renewal will not be charged for time periods when the registration was allowed to lapse beyond the current registration period. (7-1-21)

002. -- 099. (RESERVED)

100. GENERAL PROVISIONS.

01. Expired Registration Renewal. If an applicant for motor vehicle registration renewal is renewing an expired registration, they will be assessed registration fees for the established registration period, regardless of the month they renew. Registration expired for more than one (1) year will not be assessed fees retroactively. (7-1-21)

02. Expired License Plate Renewal. The applicant’s license plate may be used for renewal under the following conditions:

a. The license plate was originally issued to the applicant. (7-1-21)

b. The license plate is designed and numbered correctly. (7-1-21)

c. The license plate is in serviceable condition. (7-1-21)

101. -- 999. (RESERVED)
39.02.46 – RULES GOVERNING TEMPORARY MOTOR VEHICLE REGISTRATION PERMIT

000. LEGAL AUTHORITY.
This rule is adopted under the authority of Sections 49-201, 49-444, 49-445 and 49-523, Idaho Code. (7-1-21)

001. TITLE AND SCOPE.
This rule is titled IDAPA 39.02.46, “Rules Governing Temporary Motor Vehicle Registration Permit,” and clarifies issuance of a thirty (30) day temporary motor vehicle registration permit. (7-1-21)

002. -- 099. (RESERVED)

100. ISSUANCE BY COUNTY ASSESSOR OR THE DEPARTMENT.
County assessors or the Department may issue thirty (30) day temporary registration permits to persons who cannot immediately complete the requirements to obtain registration. Some examples are:

01. New Idaho Resident. A new Idaho resident who has a title held by an out-of-state lienholder, or a new resident who must apply to his last place of residence for a duplicate or replacement title. (7-1-21)

02. Newly Purchased Vehicle. A person who has a newly purchased motor vehicle and the Certificate of Title is not immediately available. (7-1-21)

101. ISSUANCE BY IDAHO VEHICLE DEALERS.

01. Dealer Issuance to Out-of-State Retail Purchasers. Idaho vehicle dealers may issue a thirty day (30-day) temporary registration permit to an out-of-state retail purchaser who is transferring their newly-purchased vehicle to their state of residence. (7-1-21)

02. Dealer Issuance to Commercial, Farm and Non-Commercial Vehicles and Trailers. Commercial, farm or non-commercial vehicles, trailers, or semi-trailers purchased from an Idaho dealership are eligible for a dealer-issued thirty day (30-day) temporary registration permit for unladen movements; one hundred twenty hour (120-hour) temporary permits in lieu of registration are required for laden movements. (7-1-21)

102. -- 199. (RESERVED)

200. INELIGIBLE VEHICLES - COUNTY ASSESSOR OR DEPARTMENT ISSUANCE.

01. Commercial, Farm and Non-Commercial Vehicles. Unregistered, commercial, farm or non-commercial motor vehicles exceeding eight thousand (8,000) pounds gross weight are required to operate under a one hundred twenty hour (120-hour) temporary permit for laden or unladen movements. (7-1-21)

02. Commercial, Farm and Non-Commercial Trailers. Unregistered commercial, farm, or non-commercial trailers or semi-trailers are required to operate under a one hundred twenty hour (120-hour) temporary permit for laden or unladen movements. (7-1-21)

201. -- 299. (RESERVED)

300. EXEMPT VEHICLES.

01. Recreational Vehicles. Snowmobiles, off-road motorcycles and all-terrain vehicles, dune buggies or any other vehicle that is not equipped for operation on the public roadways. (7-1-21)

02. Trailers. Utility trailers and recreation trailers, where a title is not required for registration. (7-1-21)

03. Special Make Equipment. Drilling rigs; construction, drilling and wrecker cranes; loaders; log jammers; and similar vehicles operated in an overweight and/or oversize condition. (7-1-21)

301. -- 399. (RESERVED)

400. ISSUANCE TO RECREATIONAL VEHICLES.
A thirty (30) day, temporary registration may be issued to a recreational vehicle, able to be titled. Payment of the recreational vehicle annual license fee is also required at the time the temporary registration is issued. A recreational vehicle which is able to be titled is defined as any recreational vehicle whose unladen weight is more than two
thousand (2,000) pounds. Some examples are motor homes, travel trailers weighing over two thousand (2,000) pounds unladen, fifth-wheel trailers and park trailers.

401. -- 999. (RESERVED)
39.02.70 – RULES GOVERNING RESTRICTED DRIVING PERMITS

000. LEGAL AUTHORITY.
Under authority of Sections 18-8002A, 49-325, and 49-326, Idaho Code, the Idaho Transportation Board adopts the following Rule for the issuance of Restricted Driving Permits for licensed drivers who face certain suspension or revocation of driving privileges in the state of Idaho.

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.70 “Rules Governing Restricted Driving Permits,” IDAPA 39, Title 02, Chapter 70.

02. Scope. This rule contains guidelines for issuance of non-commercial restricted driving privileges for those individuals whose driving privileges have been suspended or revoked under authority of Idaho law; and establishes minimum standards for the issuance, denial and cancellation of non-commercial Restricted Driving Permits pursuant to Sections 18-8002A, 49-325 and 49-326, Idaho Code.

002. -- 099. (RESERVED)

100. ELIGIBILITY.
In establishing these standards, the Idaho Transportation Board has determined that individuals eligible for restricted driving privileges in the state of Idaho must meet three (3) general criteria:

01. Need. It must be shown that driving privileges are essential to maintain a livelihood and/or to provide necessities of life;

02. Safety. It must be shown that restricted driving privileges will not jeopardize the safety of the traveling public; and

03. Rehabilitation. It must be shown that restrictions upon a person’s driving privileges would improve the person’s driving skills and habits.

101. -- 199. (RESERVED)

200. DURATION AND EXPIRATION OF RESTRICTED DRIVING PERMIT.

01. Duration and Expiration. The Restricted Driving Permit shall remain in effect for the period of time the driver’s privileges have been suspended or revoked unless canceled by the department or otherwise provided by law.

02. Reinstatement Action. Satisfactory completion of the terms and conditions of the Restricted Driving Permit will be noted in the driving records of the participant as maintained by the Department, and the Department shall reinstate the applicant’s regular driving privileges at the expiration of the Restricted Driving Permit if he has complied with all conditions of the Restricted Driving Permit and reinstatement requirements. Any convictions or notices of suspension or revocation shall remain a part of the driver’s file.

201. -- 299. (RESERVED)

300. RESTRICTED DRIVING PERMITS MAY BE ISSUED.
The Department may only issue Restricted Driving Permits to individuals whose driving privileges have been suspended or revoked for:

02. Fleeing or Eluding an Officer. Conviction of fleeing or attempting to elude a peace officer per Sections 49-1404 and 49-326(1)(f), Idaho Code.

03. Points. Accumulation of excessive “point” violations per Sections 49-326(1)(i) and (j), Idaho Code.

04. Leaving Scene of Accident. Conviction of leaving the scene of an accident involving damage to a vehicle per Sections 49-1301, and 49-326(1)(i), Idaho Code.
05. Using Motor Vehicle. Conviction of using a motor vehicle in the commission of a felony per Section 49-325(1)(b), Idaho Code. (7-1-21)T

06. Offense in Another State. Conviction of an offense in another state that would be grounds for suspension/revocation in this state per Section 49-326(1)(e), Idaho Code. (7-1-21)T

07. Restricted License. Conviction of violation of a restricted license per Sections 49-317 and 49-326(l)(k), Idaho Code. (7-1-21)T

08. Administrative License Suspension. An administrative suspension of driving privileges for a first-time failure of an evidentiary test for the last sixty (60) days of that suspension, for Class D privileges only per Section 18-8002A, Idaho Code. (7-1-21)T

301. -- 399. (RESERVED)

400. RESTRICTED DRIVING PERMITS SHALL NOT BE ISSUED.
Restricted Driving Permits shall not be issued by the Department to:

01. Privileges Suspended. Individuals who have had their driving privileges suspended or revoked by the Court and/or Department three (3) or more times during the three (3) year period prior to the effective date of the current suspension. (7-1-21)T

02. Like Offense. Individuals who have been issued a Restricted Driving Permit by the Department or by an Idaho Court for a like offense within a previous two (2) year period prior to the effective date of the current suspension or revocation. (7-1-21)T

03. Violation of Restrictions. An individual found to be in violation of restrictions on any court or Department-issued permit. (7-1-21)T

04. Revoked Out-of-State Drivers. An individual who was an out-of-state resident at the time driving privileges were revoked or suspended in that state or any other state. (7-1-21)T

05. Under Seventeen. An individual who is not at least seventeen (17) years of age at the time of issuance of the permit. (7-1-21)T

401. -- 499. (RESERVED)

500. GENERAL APPLICATION PROCEDURE FOR A NON-COMMERCIAL RESTRICTED DRIVING PERMIT.

01. Applicant Submissions. Applicant must submit the following before their suspension or revocation is stayed:

a. Completed Form No. ITD-3227, Application for Restricted Driving Permit; (7-1-21)T

b. Completed Form No. ITD-3208, Work Verification; (7-1-21)T

c. Proof of motor vehicle liability insurance coverage in the amount required by Idaho law to cover any and all vehicles to be used by the applicant; (7-1-21)T

d. All applicable reinstatement requirements must be satisfied; (7-1-21)T

e. A non-refundable application fee pursuant to Section 49-306, Idaho Code; (7-1-21)T

02. Written Agreement. If the Department determines that an applicant is eligible for a non-commercial Restricted Driving Permit, the applicant must then sign written agreements, prepared by the Department,
IDAHO ADMINISTRATIVE CODE   IDAPA 39.02.70
Idaho Transportation Department  Rules Governing Restricted Driving Permits

affirming that:

a. Cause exists to suspend or revoke the driver’s license or privileges of the applicant and that the
driver’s license of the applicant is suspended or revoked;

b. The applicant shall obey all motor vehicle laws;

c. The applicant shall provide and maintain adequate motor vehicle liability insurance;

d. The applicant shall notify the Department within one (1) business day following arrest, citation,
accident or warnings by any law enforcement officer with regard to motor vehicle violations or alleged violations,
and any change of address, telephone number, place of employment;

e. The applicant shall not operate any motor vehicle after consuming any alcohol, drugs, or other
intoxicating substances;

f. The applicant shall submit to any evidentiary testing to determine alcohol concentration at any time
at the request of any peace officer;

g. The applicant shall operate a motor vehicle only for those reasons specified on the Restricted
Driving Permit (See Section 600);

h. The applicant shall abide by all rules and regulations concerning the Restricted Driving Permit;

i. The applicant’s Restricted Driving Permit may be cancelled by the Department without a hearing
for violation of the terms of the agreement or other conditions specified on the Restricted Driving Permit; and

j. The applicant understands that if, while driving on a Restricted Driving Permit, he/she receives an
additional Department or court suspension that results in cancellation of the restricted permit, the applicant will not
be eligible to receive another Restricted Driving Permit for said suspension.

03. Restricted Driving Permit Approval. Approval will be given and a Restricted Driving Permit
shall be issued if the following conditions are met:

a. Submission and approval of all requirements listed in Subsection 500.01; and

b. No other suspensions or revocations are in effect which preclude issuance of a Restricted Driving
Permit.

501. -- 599. (RESERVED)

600. DRIVING RESTRICTIONS SPECIFIED.
The Department may impose the following restrictions upon an applicant’s driving privileges and such restrictions
shall be specified on the Restricted Driving Permit:

01. Operation of Vehicle. Time of operation of a motor vehicle, i.e. restricted to certain days, or hours
of a day.

02. Geographic Area. Geographic limitations within limits of states, counties, cities.

03. Purpose of Permit. Purposes of travel such as to and from employment, to and from counseling
sessions, to and from medical appointments, to and from grocery store, church, etc.

04. Purpose of Permit Administrative License Suspension. To travel to and from work and for work
purposes, to attend an alternative high school, work on a GED, for post-secondary education, or to meet the medical
needs of the person or their family.  

601. -- 699. (RESERVED)

700. CANCELLATION OF RESTRICTED DRIVING PERMIT.
The Department may cancel a Restricted Driving Permit and shall re-activate the suspension or revocation order which will expire according to the original order if:

01. Violation of Terms. There is a violation of terms of the written driver’s agreement set forth in Section 500.02. herein.  

02. Violation of Restrictions. There is a violation of any of the restrictions set forth in the applicant’s Restricted Driving Permit, see Section 600.  

701. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
Under authority of Sections 49-201 and 49-326, Idaho Code, the Department adopts the following rule.

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.71, “Rules Governing Driver’s License Violation Point System.”

02. Scope. These rules establish a driver’s license violation point system for drivers convicted of moving traffic violations and convictions.

002. -- 099. (RESERVED)

100. VIOLATION POINT COUNT SYSTEM.

01. Points for Moving Traffic Violations. Idaho Code authorizes and directs the Department to establish a violation point count system for drivers convicted of various moving traffic violations and infractions occurring either within the state of Idaho, or outside the state of Idaho. Moving traffic violations and infractions are violations that occur while operating a motor vehicle, hereinafter, referred to collectively as traffic violations. Therefore, a schedule of violation points for traffic violations has been established.

02. Violation Point Count List. The following violation point count list includes traffic violations in Idaho Code, and the appropriate code section reference. Convictions of traffic violations not herein listed which are violations of a state law or municipal ordinance will receive three (3) violation points, except those for which mandatory withdrawal of driving privileges is required by Idaho Code or the Idaho Code provides a point exemption.

03. Points Assessed. Each traffic violation conviction will be assessed from one (1) point for less serious violations to a maximum of four (4) points for more serious violations. The degree of seriousness of traffic violations has been determined by considering the possibility of bodily injury or property damage resulting from such violation.

04. Dual Violation. In cases where the driver is convicted of more than one (1) violation arising from one (1) occasion of arrest or citation, only one (1) conviction will be counted and assessed points against the driver’s record. The conviction counted will be the one with the greater amount of points.

05. Speeding Violation. Drivers convicted of traveling sixteen (16) miles per hour or more over the posted maximum speed limit or exceeding the speed limit in a work zone will receive four (4) points. Driving convictions of other speeding violations will receive three (3) points.

06. Distracted Driving. A first offense of Section 49-1401A, Idaho Code, will not be assessed points pursuant to code. Subsequent offenses will be assessed points as shown in Section 200. Third and subsequent offenses in a three-year period may also be subject to a court suspension.

101. -- 199. (RESERVED)

300. SUSPENSION OF DRIVER LICENSE.

01. Twelve Points. When a driver accumulates twelve (12) or more points in any twelve (12) month period of time, the suspension period shall be for thirty (30) days.

02. Eighteen Points. When a driver accumulates eighteen (18) or more points within any twenty-four (24) month period of time, the suspension period shall be for ninety (90) days.

03. Twenty-Four Points. When a driver accumulates twenty-four (24) or more points within any thirty-six (36) month period of time, the suspension period shall be for six (6) months.

301. -- 399. (RESERVED)
01. Removal of Points Upon Completion of Defensive Driving Class or Traffic Safety Education Program. Three (3) points may be removed from an Idaho driving record upon the driver’s completion of an approved defensive driving class or points may be removed from a traffic violation upon the driver’s completion of an approved traffic safety education program. Points may only be removed from a driver’s record once every three (3) years. The three-year period begins on the completion date of either a defensive driving class or traffic safety education program. (7-1-21)

   a. For completion of a defensive driving class, points are only removed from the violation point count total on the driving record. (7-1-21)

   b. For completion of a traffic safety education program as provided in Section 50-336, Idaho Code, points are removed from the conviction for which the traffic safety education program was offered and taken. (7-1-21)

02. Driving Conviction Cannot Be Removed. A driver may not remove a traffic conviction from their record by attending a defensive driving class or traffic safety education program. (7-1-21)

03. Suspension for Excessive Points. Once the department has suspended a driver for excessive points, that driver may not have the suspension action rescinded by attending a defensive driving class or traffic safety education program. (7-1-21)

04. Driver May Not Reserve Point Reduction. When a driver completes a defensive driving class or traffic safety education program but has no violation points on their driver record, the driver may not reserve a point reduction for use on a future traffic violation that points are assessed. (7-1-21)

401. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Section 18-8002A, Idaho Code, the Idaho Transportation Board adopts the following rule governing Administrative License Suspensions (ALS). (7-1-21)

001. TITLE AND SCOPE.
01. Title. This rule is titled IDAPA 39.02.72, “Rules Governing Administrative License Suspensions.” (7-1-21)

02. Scope. The purpose of this Rule is to establish driver’s license suspension procedures for persons driving under the influence of alcohol or other intoxicating substances as indicated by an evidentiary test of blood, breath, or urine, pursuant to Section 18-8002A, Idaho Code. This rule also includes the procedures for administrative hearings to review the propriety of administrative license suspensions. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.
01. Petitioner. A person who has been served with a Notice of Suspension pursuant to Section 18-8002A, Idaho Code. (7-1-21)

02. Received by the Department. A document that has been:
   a. Personally delivered to the Department’s Driver Services Section at 3311 W. State Street, Boise, Idaho; or (7-1-21)
   b. Delivered by mail and addressed to P.O. Box 7129, Boise, ID 83707-1129; or (7-1-21)
   c. Transmitted by facsimile machine to telephone number (208) 332-4124. (7-1-21)
   d. Sent by e-mail to driverrecords@itd.idaho.gov. (7-1-21)

03. Business Days. All days of the week except Saturday, Sunday, and legal holidays as defined by Section 73-108, Idaho Code. (7-1-21)

04. Certified Copy. A reproduction of an original record that has been certified by a custodian of such record to be a true and accurate copy. (7-1-21)

05. Duplicate Original. A counterpart produced by the same impression as the original, or from the same matrix. (7-1-21)

06. Evidentiary Test. An analysis of blood, breath, or urine to determine the presence of alcohol, drugs, or other intoxicating substances. (7-1-21)

011. -- 099. (RESERVED)

100. HEARING REQUESTS.
01. Written Requests. Hearing requests must be made in writing. Hearing requests must contain the following information:
   a. The petitioner’s full name, complete mailing address, and telephone number where hearing will be conducted; (7-1-21)
   b. The driver’s license number; (7-1-21)
   c. The petitioner’s date of birth; (7-1-21)
   d. The date of arrest; (7-1-21)
   e. A brief statement of the issues the petitioner proposes to raise at the hearing; and (7-1-21)
f. Any dates or times that the petitioner or attorney cannot be available for the hearing. (7-1-21)T

02. Timely Requests. Hearing requests must be received by the Department no later than 5 p.m. of the seventh day following the service of the Notice of Suspension. Hearing requests received after that time will be considered untimely. The Department shall deny an untimely hearing request unless the petitioner can demonstrate that a request should be granted. (7-1-21)T

03. Request Withdrawal. Petitioners may withdraw their hearing requests at any time. (7-1-21)T

101. HEARING NOTICES.

01. Notification. Upon timely receipt of hearing requests, the Department will notify petitioners of the time and date of the hearing as soon as practicable, but no later than seven (7) days prior to the hearing. Hearing notices will be mailed or e-mailed to the address provided in the hearing requests, or if no address was provided, notices will be mailed to the most current address contained in the petitioner’s driver’s license records. (7-1-21)T

02. Hearings Conducted by Telephone. Hearings will be conducted by telephone unless the hearing officer will determine that the petitioner or other participant would be denied the opportunity to participate in the entire hearing if held by telephone. Face to face hearings will be held in Ada County (or other locations within the state as may be determined by the Department). (7-1-21)T

03. Hearing Date. Hearings shall be conducted within twenty (20) days of receipt of the hearing request. However, the Hearing Officer may extend the hearing date for one (1) ten (10) day period upon a showing of good cause. Such extension shall not stay the suspension. (7-1-21)T

102. -- 199. (RESERVED)

200. DOCUMENT SUBMISSION.

01. Forwarding Documents to the Department. Upon service of a Notice of Suspension, a law enforcement agency shall, in accordance with Section 18-8002A, Idaho Code, forward the following documents to the Department within five (5) business days: (7-1-21)T

a. Notice of Suspension. (7-1-21)T

b. The sworn statement of the officer incorporating any arrest or incident reports relevant to the arrest and evidentiary testing. (7-1-21)T

c. A certified copy or duplicate original of the test results or log of test results if the officer has directed an evidentiary test of the petitioner’s breath. (7-1-21)T

02. Compliance. The documents shall be considered forwarded in a timely manner if they are postmarked within five (5) business days of the date of service of the Notice of Suspension or are accompanied by a certificate, certifying the documents were deposited with: (7-1-21)T

a. The United States mail or overnight delivery service; or (7-1-21)T

b. Hand delivered, within five (5) business days of the date of service of the suspension notice. (7-1-21)T

03. Blood and Urine Tests. If an evidentiary test of blood or urine was administered rather than a breath test, the Notice of Suspension shall not be served until the results of the test are obtained. In such cases, the peace officer may forward the sworn statement and accompanying reports to the Department and the Department shall have the responsibility of serving the Notice of Suspension, if necessary. (7-1-21)T

201. -- 299. (RESERVED)
300. SUBPOENAS.

01. Request. The Hearing Officer assigned to the matter may, upon written request, issue subpoenas requiring the attendance of witnesses or the production of documentary or tangible evidence at a hearing. (7-1-21)

02. Serving Subpoenas. Parties requesting subpoenas shall be responsible for having the subpoenas served. Witnesses shall not be compelled to attend and testify at hearings unless served with subpoenas at least one hundred and twenty (120) hours prior to the time of hearing. (7-1-21)

03. Proof of Service. Parties responsible for service of the subpoena shall provide proof of service of the subpoena prior to the scheduled hearing. (7-1-21)

301. -- 399. (RESERVED)

400. DOCUMENT DISCOVERY.

01. Obtaining Photocopies. To obtain a photocopy of a document which is public record, relates to the petitioner hearing, and is in the possession of the Department, petitioners shall make a written request to the Department. The Department shall attempt to provide the requested copies prior to the hearing date, but failure to do so shall not be grounds for staying or rescinding a suspension. (7-1-21)

02. Further Document Discovery. Further discovery shall only be conducted in accordance with IDAPA 04.11.01.521, “Idaho Rules of Administrative Procedure of the Attorney General.” (7-1-21)

401. -- 499. (RESERVED)

500. RECORDS OF PROCEEDINGS.

01. Required Records. The Hearing Officer shall make a record of hearing proceedings. This record shall consist of:

a. An audio recording of the hearing, except in instances where the Hearing Officer authorizes a different method of reporting the hearing. (7-1-21)

b. Exhibits and other items of evidentiary nature. (7-1-21)

02. Requesting Copies. Any party may make a written request for a copy of the audio recording of the hearing from the Department. The requesting party shall reimburse the Department for the actual cost of providing the copy. (7-1-21)

501. -- 599. (RESERVED)

600. FINAL ORDER REQUEST FOR RECONSIDERATION.
The Hearing Officer shall make Findings of Fact, Conclusions of Law and Order either sustaining or vacating the license suspension in question. The Findings of Fact, Conclusions of Law and Order shall be the final order of the Department. A request for reconsideration must be made within fourteen (14) days of the issuance of the Findings of Fact, Conclusions of Law and Order. The request for reconsideration shall contain a request to submit new evidence if the party wishes the hearing officer to consider any new evidence. (7-1-21)

01. Issuing Facts and Findings. The Hearing Officer shall issue the Findings of Fact, Conclusions of Law and Order following the hearing. (7-1-21)

02. Mailing Final Order. The Findings of Fact, Conclusions of Law and Order is issued when a copy is deposited in the United States Mail addressed to the petitioner or the petitioner’s attorney or e-mailed to the petitioner or the petitioner’s attorney. (7-1-21)
601. -- 699. (RESERVED)

700. **FAILURE TO APPEAR.**

01. **Proposed Order of Default.** Should the petitioner fail to appear at the scheduled hearing, either in person or through an attorney, the Hearing Officer shall promptly issue a notice of proposed order of default. This notice is deemed served when mailed or e-mailed to the petitioner or petitioner’s attorney at the address shown in the request for hearing, or if no address was provided, the notice shall be mailed to the most current address contained in the petitioner’s driver’s license records.

02. **Filing Petition.** The petitioner may, within seven (7) days of service of the notice of proposed order of default, file a petition requesting that the order of default not be entered and stating the grounds for such a request. If the Hearing Officer grants the petitioner’s request, the hearing shall be rescheduled. Granting the petitioner’s request shall not stay or vacate the suspension.

03. **Denied Petitions.** If the Hearing Officer denies the petitioner’s request that the default order not be entered, the Hearing Officer shall make a determination to sustain or vacate the suspension based upon the documentary record submitted by the Department.

04. **Attending a Hearing.** A petitioner or witness shall be deemed to have appeared if present within fifteen (15) minutes after the time the Hearing Officer is ready to begin the hearing. In the case of a telephone hearing, the petitioner or witness shall be deemed to have appeared if contacted by telephone on the second attempt to do so within a fifteen (15) minute period from the commencement of the hearing.

701. -- 799. (RESERVED)

800. **FORMS.**
The Department shall develop appropriate forms to be used throughout the state including, but not limited to, forms for Notice of Suspension and officer’s sworn statement. Each law enforcement agency shall use the forms supplied by the Department in carrying out the requirements of Section 18-8002A, Idaho Code, and this Rule. However, the sworn statement may be in the form of a law enforcement agency’s affidavit of probable cause or equivalent document, so long as it contains the elements required by Section 18-8002A, Idaho Code.

801. -- 999. (RESERVED)
39.02.73 – RULES GOVERNING ACCIDENT PREVENTION COURSE

000. LEGAL AUTHORITY.
Under authority of Sections 49-201 and 41-2515, Idaho Code, the Idaho Transportation Board adopts the following rule for criteria for a motor vehicle accident prevention course. (7-1-21)

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.73 “Rules Governing Accident Prevention Course,” IDAPA 39, Title 02, Chapter 73. (7-1-21)

02. Scope. This rule establishes minimum standards for approval of a motor vehicle accident prevention course, as provided in Section 41-2515, Idaho Code. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Accident Prevention Course. A structured course of study, either in a traditional classroom setting, field driving or internet based format, with curriculum focusing on becoming a safer driver and avoiding accidents, by being cautious, aware, responsible, and respectful of other drivers while abiding by Idaho’s rules of the road. The terms “accident prevention course” and “defensive driving class” are interchangeable, and the course standards established for the accident prevention course in this rule shall be the same standards for the defensive driving class for violation point count reduction as provided in IDAPA 39.02.71, “Rules Governing Driver’s License Violation Point Count System.” (7-1-21)

011. -- 099. (RESERVED)

100. CRITERIA.

01. Instructor Certification. For classroom and field driving instruction, instructors must be certified by the Idaho Department of Education as a Driver and Traffic Safety Education instructor, or the National Safety Council, American Automobile Association’s program (AAA), American Association of Retired Persons (AARP), or an equivalent program, as determined by the Idaho Transportation Department. (7-1-21)

02. Contents of Course. Other than courses provided by the National Safety Council, AAA, or AARP, all accident prevention course outlines must be approved by the Idaho Transportation Department. (7-1-21)

03. Length of Class. The course must be a minimum of six (6) hours, which may include any combination of classroom instruction, field driving instruction, or on-line instruction time. (7-1-21)

04. Proof of Insurance. For field driving instruction, if any, the course provider must confirm adequate proof of insurance. (7-1-21)

05. Provider Location. The course provider must confirm location(s) of established place of business, and a telephone number or e-mail address of a contact person who can be reached during regular working hours 8 a.m. to 5 p.m. (7-1-21)

06. Participant Certification. Each participant shall be issued a certificate of completion by the instructor or course provider. (7-1-21)

101. -- 199. (RESERVED)

200. COURSE REVIEW.
Accident Prevention Courses are subject to periodic review by the Department. As a part of the review process, the provider may be asked to confirm course and instructor information and resubmit instruction materials. (7-1-21)

201. WITHDRAWAL OF COURSE APPROVAL.
The Department may withdraw course approval if minimum standards are no longer met or if course providers have failed to respond to a course review. In the event the Department proposes to withdraw approval for a course, written notification will be sent to the provider. Requests for reconsideration will be reviewed by the Motor Vehicle Administrator. (7-1-21)

202. -- 999. (RESERVED)
39.02.75 – RULES GOVERNING NAMES ON DRIVERS’ LICENSES AND IDENTIFICATION CARDS

000. LEGAL AUTHORITY.
Under the authority of Sections 49-201, 49-306, 49-315, 49-318, 49-319, and 49-2443, Idaho Code, the Department adopts the following rule. (7-1-21)T

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.75 “Rules Governing Names on Drivers’ Licenses and Identification Cards,” IDAPA 39, Title 02, Chapter 75. (7-1-21)T

02. Scope. The purpose of this rule is to provide procedures and criteria for County Sheriffs and the Idaho Transportation Department to record and format names, and to allow surnames and hyphenated names on drivers’ licenses and identification cards. (7-1-21)T

002. -- 099. (RESERVED)

100. GENERAL PROVISIONS.

01. Punctuation Marks. The only punctuation marks which may be used in a name are the comma (,), apostrophe (’), and the hyphen (-). A hyphen is allowed in the last name only, and may occur once. A comma can only be used between the last name and the first name. (7-1-21)T

02. Full Name Requirements. If a full name has more characters than the department automated system allows, the last name and first name must be written out fully. The middle name can be initialized and then the full middle name entered on the comment line of the application. If there is a designator, it will follow the middle initial. If the name still has more characters than the department automated system allows, the first and middle names can be initialized and the full first and middle names entered on the comment line of the application. (7-1-21)T

101. -- 199. (RESERVED)

200. CRITERIA.

01. Legal Name. The name on the certified original birth certificate will be used unless a name changes due to:
   a. Marriage; (7-1-21)T
   b. Divorce; or (7-1-21)T
   c. Court Order. (7-1-21)T

02. Stepparents’ Name. An applicant is not allowed to use a stepparent’s last name, except by court order or other documents may be accepted to change a name, on approval by the Idaho Transportation Department. (7-1-21)T

03. Driver’s License and Identification Card Names. The name printed on the driver’s license or identification card will be maintained in the Idaho Transportation Department records in the following order: (1) Last name, (2) First name, (3) Middle name, (4) Designator (if applicable (see Subsection 200.04)). An applicant may not have a driver’s license and an identification card in different names. An applicant may add a middle name by providing a certified original copy of the applicant’s:
   a. Birth Certificate; (7-1-21)T
   b. Court Order; or (7-1-21)T
   c. Divorce Decree. (7-1-21)T

04. Designations of Names. The designations of I, II, III, etc., will become first (1st), second (2nd), third (3rd), etc., and will appear after the middle name. The designators of JR and SR (no periods allowed) will be permitted and will appear after the middle name. The JR and SR designators will be permitted only if there is proof that the other individual exists, by way of an original certified copy of a birth certificate. (7-1-21)T
05. Married Applicant’s Name. (7-1-21)

a. A married applicant is permitted to use either their birth last name or the birth last name of their spouse as the last name or as the middle name, or may hyphenate their current last name with their spouse’s last name to form the last name. In no case under any of these stated options shall any applicant have more than one (1) hyphen in their last name. (7-1-21)

b. Married applicants may choose to use different hyphenated last names. (7-1-21)

c. Married applicants who choose to have the same hyphenated last name may hyphenate their last names in any order. (7-1-21)

d. Married applicants who already have hyphenated last names may:

i. Use the hyphenated name of their spouse or retain their own hyphenated name; or (7-1-21)

ii. Combine part of their own hyphenated name and part of the hyphenated name of their spouse. (7-1-21)

e. An applicant who is established in department records with a hyphenated last name due to marriage and wants to drop the first part or the second part of the hyphenated name must provide, as required by the department, the following:

i. A certified copy of a birth certificate; and/or (7-1-21)

ii. A certified copy of a marriage certificate; and/or (7-1-21)

iii. A certified copy of a divorce decree; and/or (7-1-21)

iv. A certified copy of a death certificate. (7-1-21)

06. Divorced Applicant’s Name. A divorced applicant who wants to use their original birth last name, or a surname from a previous marriage, but does not have a divorce decree indicating the new name, is allowed to submit the following documents to the County Sheriff or the Idaho Transportation Department:

a. Original certified copy of the birth certificate showing the original last name; or (7-1-21)

b. Original certified copies of the marriage certificate and the divorce decree, as evidence to change the name. (7-1-21)

07. Applicant’s First Name. An applicant is not allowed to change their first name except by court order. (7-1-21)

08. Common Law Marriage. Common law marriages created prior to January 1, 1996 will, for the purposes of this rule, be treated as a valid marriage. An affidavit of agreement is required, which includes:

a. The signatures of both the husband and the wife; (7-1-21)

b. The date they became married under common law; and (7-1-21)

c. Other documents verifying the marriage (subject to the approval of the Idaho Transportation Department). (7-1-21)

09. Change of Name on Record. Once a name is established in the Idaho Transportation Department records, a court order, marriage license, or divorce decree will be required to change the name and record. (7-1-21)

10. Titles or Nicknames. An applicant is not allowed to use titles or nicknames. (7-1-21)
201. -- 299.  (RESERVED)

300.  PROCEDURES.

01.  Verification of Name. First-time applicants for a driver’s license or identification card must provide the County Sheriff’s issuing office with one (1) of the following in order to verify their name:

   a.  Original certified copy of the birth certificate;
   
   b.  Court order;
   
   c.  Original certified copy of the marriage license;
   
   d.  Divorce decree (if applicable);
   
   e.  Driver’s license from another state or country that is current or if expired, has been expired for less than five (5) years; or
   
   f.  A valid, unexpired passport.

02.  Surrendering Driver’s License or Identification Card. Applicants for license or identification card renewals must surrender the previous driver’s license or identification card. Name changes are allowed if the criteria in Section 200 are met.

03.  Surrendering Duplicate Driver’s License or Identification Cards. Applicants for duplicate drivers’ licenses or identification cards must surrender the previous driver’s license or identification card (if applicable). Name changes are allowed if the criteria in Section 200 are met.

04.  Document Approval by the Department. Other documents may be accepted to change a name, on approval by the Idaho Transportation Department.

301. -- 999.  (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Sections 49-201, 49-318, 49-319(10), and 49-2444, Idaho Code, the Idaho Transportation Board adopts the following rule to establish a process that may allow Idaho residents to renew or replace their drivers’ licenses and identification cards by mail or electronically.

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.76, “Rules Governing Driver’s License and Identification Card Renewal-by-Mail and Electronic Renewal and Replacement Processes”.

02. Scope. The purpose of this rule is to establish standards by which drivers’ licenses and identification cards may be renewed or replaced by mail or electronically for those individuals whose Idaho credentials are about to expire or requires replacement due to loss or mutilation. The renewal-by-mail and electronic systems are designed to reduce the length of waiting lines at county driver’s license offices.

002. WRITTEN INTERPRETATIONS.
There are no written interpretations for this chapter.

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. CDL. Commercial Driver’s License.

02. Class D Driver’s License. A license issued and valid for the operation of a motor vehicle that is not a commercial vehicle as defined in Section 49-123, Idaho Code.

03. Credential. Any physical driver license or identification card issued by the department.

04. Expiration Date. The date a credential expires.

05. Identification Card. A card issued in accordance with Section 49-2444, Idaho Code.

06. Photo License. A valid Idaho credential displaying a color photograph of the license holder.

011. ELIGIBILITY FOR RENEWAL AND REPLACEMENT.

01. Eligibility. An applicant may renew a Class D driver’s license or identification card by mail or electronically in lieu of renewing or replacing these credentials in person. Licenses or identification cards renewed by mail or electronically shall only be renewed once in an eight (8) year period, and have a four-year validity period.

02. License Renewal. Drivers’ licenses may not be renewed by mail or electronically for persons who:

a. Hold a driver’s license with a “J” restriction (e.g. limited to a five (5) mile driving radius of residence, driving privileges limited to one (1) or two (2) counties, cannot drive without parent for a specified time period, etc.);

b. Hold a CDL;

c. Have changes in the information shown on their licenses, other than address changes;

d. Have any changes in physical, mental, and/or emotional condition, including vision, which may impair the ability to safely operate a motor vehicle;

e. Have drivers’ licenses or driving privileges which are suspended, revoked, canceled, denied, refused, or disqualified;

f. Are operating on department or court restricted driving permits;
g. Are required to provide documentation proving lawful presence in the United States;  

h. Are not lawfully present in the United States;  

i. Have a driving record which has been marked for special handling (e.g., verification of identity or date of birth, possible fraud, etc.); 

j. Already have an existing extension;  

k. Wish to add a motorcycle endorsement;  

l. Are under twenty-one (21) years of age for purposes of renewal;  

m. Are seventy (70) years of age or older for purposes of renewal; or  
n. Have been expired more than one (1) year.  

03. Identification Card Renewal. Identification cards may not be renewed by mail or electronically for persons who: 

a. Have changes in the information shown on their identification cards, other than address changes;  

b. Have not been expired more than one (1) year;  

c. Are required to provide documentation proving lawful presence in the United States;  

d. Are not lawfully present in the United States; or  

e. Have a canceled or surrendered status.  

04. License and Identification Card Replacement. Any driver’s license, including a CDL, or identification card may be replaced by mail or electronically as long as the credential is not expired, and there are no information changes other than address changes and the status is otherwise valid.  

012. RENEWAL OR REPLACEMENT ELECTRONICALLY OR BY MAIL PROCEDURES.  

01. Application Submission. Credential renewal-by-mail or electronic renewal or replacement applications will be processed when received by mail or electronically. Eligible persons may mail or electronically submit their renewal or replacement application to the department or the driver’s license office in their county of residence, or deliver their application in person together with the renewal fee for the same class of credential, pursuant to Sections 49-306, and 49-2444, Idaho Code.  

02. Updating Individual Records. The county driver’s license office or the department will update individual records to reflect the new expiration year, if renewed, and the issue date of the new credential, within three (3) business days after receipt of the completed application form.  

03. If Lost or Destroyed in Mail. If an individual’s credential is lost or destroyed in the mail, a written statement detailing the loss or destruction may be mailed or hand-delivered to the applicant’s county of residence or completed electronically. Upon receipt of the letter, the county or the department can issue a no-charge replacement credential to the applicant.  

04. Temporarily Residing Out-of-State. Individuals temporarily residing out-of-state may apply for a renewal by mail, electronic renewal, or an extension, but not both, in an eight (8) year period.  

013. -- 999. (RESERVED)
39.02.80 – RULES GOVERNING MOTOR CARRIER FINANCIAL RESPONSIBILITY

000. LEGAL AUTHORITY.
This rule is adopted under the authority of Section 49-1233(5) Idaho Code. (7-1-21)T

001. PURPOSE.
This rule establishes the amount of liability coverage to be carried by motor carriers for personal injury suffered by one (1) person while being transported in a vehicle, any additional amounts for all persons receiving personal injury, and such amount for damage to the property of any person other than the insured. (7-1-21)T

002. INCORPORATION BY REFERENCE.

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Common Carrier. Any person who holds itself out to the general public to engage in the transportation by motor vehicle in commerce in the state of Idaho of passengers or property for compensation. (7-1-21)T

02. Contract Carrier. Any person who, under individual contracts or agreements, engages in the transportation by motor vehicle of passengers or property in commerce in the state of Idaho for compensation. (7-1-21)T

03. Environmental Restoration. See 49 CFR 387.5. (7-1-21)T

05. Injury. Harm to the body, sickness, or disease resulting from a motor carrier accident, including death from an injury. (7-1-21)T

06. Interstate Carrier. Any person who owns or operates any motor vehicle in the state of Idaho or on the highways of the state of Idaho, in commerce between the States, or between the States and a foreign Nation, used or maintained for the transportation of persons or property. (7-1-21)T

07. Private Carrier. Any person not included in the terms “common carrier” or “contract carrier” who or which transports in commerce in the state of Idaho by motor vehicle property of which such person is the owner, lessee, or bailee, when such property is for the purpose of sale, lease, rent or bailment, or in the furtherance of any commercial enterprise; provided, that a motor vehicle of a private carrier, not in excess of eight thousand (8,000) pounds gross vehicle weight, not engaged in the transport of a hazardous substance, is exempt. (7-1-21)T

08. Property Damage. Damage to or loss of use of tangible property. (7-1-21)T

011. -- 019. (RESERVED)

020. INSURANCE REQUIREMENTS.

01. Insurance Required. No motor carrier subject to the jurisdiction of the Department may transport property or passengers until the carrier has obtained and has in effect the minimum levels of insurance or a surety bond set forth in this rule. (7-1-21)T

02. Passenger Carriers. The minimum levels of insurance or surety bond coverage (for injury, death, or property damage) in any one (1) accident for common/contract passenger carriers are:

   a. For any vehicle with a seating capacity of twenty-five (25) passengers or more -- five million dollars ($5,000,000); (7-1-21)T

   b. For any vehicle with a seating capacity of twenty-four (24) passengers or less -- one million, five hundred thousand ($1,500,000). (7-1-21)T
03. **Property Carriers -- Certain Risky or Perilous Cargoes.** The minimum levels of insurance or surety bond coverage (for injury, death, environmental restoration, or property damage in any one accident) for common and contract property carriers are:

   a. Five million dollars ($5,000,000) for carriers of:
      i. Any quantity of Division 1.1, 1.2, or 1.3;
      ii. Any quantity of Division 2.3, Hazardous Zone A, or Division 6.1, Packing Group 1, Hazardous Zone A;
      iii. Highway route controlled quantity of Class 7 material as defined in 49 CFR 173.403;
      iv. Hazardous substances, as defined in 49 CFR 171.8, transported in cargo tanks, portable tanks, or hopper-type vehicles with capacities in excess of three thousand, five hundred (3,500) water gallons;
      v. Division 2.1 or 2.2 in bulk;

   b. One million dollars ($1,000,000) for carriers of:
      i. Oil listed in 49 CFR 172.101;
      ii. Hazardous waste, hazardous materials or hazardous substances as defined in 49 CFR 171.8 and listed in 49 CFR 172.101 or its Appendix, but not mentioned in Subsection 020.03.a.

04. **Other Property Carriers.** The minimum level of insurance or surety bond coverage (for injury, death or property damage in any one (1) accident) for common and contract carriers of all other property (including drive away and tow away units transported by the carrier) is seven hundred fifty thousand dollars ($750,000).

05. **Private Carriers.** Private carriers must maintain the insurance required by Section 49-1229, Idaho Code, except private carriers transporting certain risky or perilous cargoes described in Subsection 020.03 must carry insurance as required by that Subsection.

021. **CERTIFICATES OF INSURANCE.**

01. **Filing.** Common/contract carriers and interstate carriers who participate in the base state agreement by registering in Idaho as their base state must file with or be verified by the Department certificates that the insurance or bond described by the certificate of insurance is in effect for the account of the motor carrier.

02. **Forms.** The certificates for intrastate common/contract carriers must be either Form E, Department Form E-1, or W.C. 3091 that is completed and signed by the insurance company’s underwriting department or its authorized representative.

03. **Coverage.** Policies of insurance and surety bonds required and filed with or verified by the Department remain in effect as described on the certificate until terminated according to Section 49-1233(3), Idaho Code. When certificates of insurance show that insurance has lapsed, the Department shall refuse to renew the carrier’s vehicle registrations or revoke the carrier’s motor vehicle registrations under the authority of Section 49-202(10)(12), Idaho Code.

022. **RESERVED**
000. LEGAL AUTHORITY.
This rule is adopted under the authority of Section 40-312, Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.03.01, “Rules Governing Definitions Regarding Special Permits,” IDAPA 39, Title 03, Chapter 01. (7-1-21)

02. Scope. This rule gives the definitions for terms used in rules in IDAPA 39, Title 03 regarding special permitting. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Accessories. Additional parts of the single item load that have been removed to reduce width, length or height. (7-1-21)

02. Administrative Cost. The government’s cost of processing, issuing and enforcing a permit. (7-1-21)

03. Analysis. A mathematical study of a vehicle or combination of vehicles and the stress they cause over bridges or specific sections of highways conducted by a professional engineer. (7-1-21)

04. Annual. Twelve (12) consecutive months. (7-1-21)

05. Automobile Transporter. See Section 49-102, Idaho Code. (7-1-21)

06. Base Width. The measurement below the eaves of a manufactured home, modular building, or office trailer. (7-1-21)

07. Boat Transporter. See Section 49-103, Idaho Code. (7-1-21)

08. Cargo Unit. A full truck, a semi-trailer, a full trailer, or a semi-trailer converted to a full trailer by means of a dolly or a converter gear mounting a fifth wheel. A dromedary tractor equipped with conventional fifth wheel, not stinger steered, is excluded from the definition of a cargo unit. (7-1-21)

09. Convoy. A group of two (2) or more motor vehicles traveling together for protection or convenience. (7-1-21)

10. Department. Idaho Transportation Department. (7-1-21)

11. Designated Agent. An employee or relative of the farmer. (7-1-21)

12. Disabled Vehicle. A vehicle unable to complete transportation under its own power. (7-1-21)

14. Economic Hardship. The loss of a substantial amount of money caused by economic changes. (7-1-21)

15. Emergency Movement. A vehicle or vehicle combination hauling a load traveling to the site of an emergency for the purpose of aiding in eliminating the emergency. (7-1-21)

16. Escort Vehicle. See Pilot Vehicle. (7-1-21)

17. Excess Weight. Vehicle combinations hauling reducible loads operating on any highway with total gross loads exceeding eighty thousand (80,000) pounds but not to exceed twenty thousand (20,000) per single axle, thirty-four thousand (34,000) per tandem, not to exceed the weight limit for any group of two (2) or more consecutive axles established by Section 49-1001, Idaho Code, and for the front steer axle not to exceed the manufacturer's load rating per tire or the load rating of the axle or twenty thousand (20,000) pounds per axle; whichever is less. The
maximum allowable load for all other vehicle tires shall not exceed six hundred (600) pounds per inch width of tire for vehicles manufactured after July 1, 1987, or not to exceed eight hundred (800) pounds per inch width of tire for vehicles manufactured prior to that date as established by Section 49-1002, Idaho Code. (7-1-21)

18. **Extra-Length.** Any vehicle combination in excess of the legal limits, but not more than one hundred fifteen (115) feet as established in Section 49-1010, Idaho Code, that normally haul reducible loads. (7-1-21)

19. **Extra-Ordinary Hazard.** Any situation where the traveling public’s safety or the capacity of the highway system is endangered. (7-1-21)

20. **Farm Tractor.** See Section 49-107, Idaho Code. (7-1-21)

22. **Heavily Loaded.** Exceeding legal weight or hauling a load that obstructs the driver’s view. (7-1-21)

23. **Heavy Duty Wrecker Truck.** A motor vehicle designed and used primarily for towing disabled vehicles. (7-1-21)

24. **Height.** The total vertical dimension of a vehicle above the ground surface including any load and load-holding device thereon. (7-1-21)

25. **Implement of Husbandry.** See Section 49-110, Idaho Code. (7-1-21)

26. **Incidentally Operated.** See Section 49-110, Idaho Code. (7-1-21)

27. **Legal.** In compliance with the Idaho Code on size and weight. (7-1-21)

28. **Length.** The total longitudinal dimension of a single vehicle, a trailer, or a semi-trailer. Length of a trailer or semi-trailer is measured from the front of the cargo-carrying unit to its rear, exclusive of all overhang and any appurtenances listed in IDAPA 39.03.03, “Rules Governing Special Permits – General Conditions and Requirements.” (7-1-21)

29. **Light Truck.** See Section 49-121, Idaho Code. (7-1-21)

30. **Longer Combination Vehicle (LCV).** Any combination of a truck-tractor and two (2) or more trailers or semi-trailers that operate on the National System of Interstate and Defense Highways with a gross vehicle weight (GVW) greater than thirty-six thousand two hundred eighty-eight (36,288) kilograms (eighty thousand (80,000) pounds). (7-1-21)

31. **Manufactured Home.** A structure, constructed according to HUD/FHA mobile home construction and safety standards, transportable in one (1) or more sections, that, in the traveling mode, is eight (8’) body feet or more in width or is forty (40’) body feet or more in length, or when erected on site, is three hundred twenty (320) or more square feet, and that is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning, and electrical systems contained therein, except that such term includes any structure that meets all the requirements of this subsection except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the secretary of housing and urban development and complies with the standards established under 42 U.S.C. 5401 et seq. Similarly constructed vehicles used permanently or temporarily for offices, advertising, sales, display or promotion of merchandise or services are included in this definition. (7-1-21)

32. **Mobile Home.** A structure similar to a manufactured home, but built to a state mobile home code that existed prior to the Federal Manufactured Housing and Safety Standards Act (HUD Code) dated June 15, 1975. (7-1-21)
33. **Modular Buildings.** A facility designed as a building or building section that is constructed to standards contained in the Uniform Building Code (UBC), adopted by Section 39-4109, Idaho Code.

34. **Non-Reducible.** Any load or vehicle exceeding applicable length or weight limits that, if separated into smaller loads or vehicles, would:

   a. Compromise the intended use of the vehicle, i.e., make it unable to perform the function for which it was intended;

   b. Destroy the value of the load or vehicle, i.e., make it unusable for its intended purpose; or

   c. Require more than eight (8) work hours to dismantle using appropriate equipment. The applicant for a nondivisible load permit has the burden of proof of establishing the number of work hours required to dismantle the load.

35. **Off-Tracking.** The difference in the path of the first inside front wheel and of the last inside rear wheel as a vehicle negotiates a curve.

36. **Office Trailer.** See definition of Manufactured Homes.

37. **Overall Combination Length.** The total length of a combination of vehicles, i.e. truck tractor-semi-trailer-trailer combination, measured from front bumper of the motor vehicle to the back bumper or rear extremity of the last trailer including the connecting tongue(s).

38. **Overall Length.** The total length of a combination of vehicles, i.e. truck tractor-semi-trailer-trailer combination, measured from front bumper of the motor vehicle to the back bumper or rear extremity of the last trailer including the connecting tongue(s) plus any load overhang.

39. **Overdimensional.** Any vehicle or load in excess of the limits established in Section 49-1010, Idaho Code.

40. **Overhang.** The distance from the end of the vehicle to the end of its load.

41. **Overheight.** A vehicle or load in excess of the limits established in Section 49-1010, Idaho Code.

42. **Overlength.** Any load non-reducible in length being hauled or towed that is in excess of the limits established in Section 49-1010, Idaho Code.

43. **Oversize.** A vehicle or load in excess of the limits established in Section 49-1010, Idaho Code.

44. **Overweight.** A single vehicle or a vehicle combination hauling or towing a non-reducible load whose weight is in excess of eighty thousand (80,000) pounds and/or legal axle weights.

45. **Overwidth.** A vehicle or load in excess of the limits established in Section 49-1010, Idaho Code.

46. **Pilot Vehicle.** Passenger cars or trucks equipped as specified in IDAPA 39.03.05, “Rules Governing Special Permits – Oversize Non-Reducible.”

47. **Reducible Load.** A single item or multiple items for transport that could reasonably be repositioned so that the load conforms to legal size and weight dimensions. The determination of ability to reduce the load primarily depends on the intended disposition of the contents of the load upon delivery to its destination (i.e. made into smaller pieces).
48. **Single Axle.** An assembly of two (2) or more wheels whose centers are in one (1) transverse vertical plane or may be included between two (2) parallel transverse planes forty (40") inches apart extending across the full width of the vehicle. (7-1-21)T

49. **Snowplow.** A device intended for the use of removing snow or ice from road surfaces. (7-1-21)T

50. **Special Permit.** A permit issued by the Idaho Transportation Department that authorizes the movement of vehicles or loads on the state highway system in excess of the sizes and weights allowed by Sections 49-1001, 49-1002, or 49-1010, Idaho Code. (7-1-21)T

51. **Steering Axle.** The axle or axles on the front of a motor vehicle that are activated by the operator to directly accomplish guidance or steerage of the motor vehicle and/or combination of vehicles. (7-1-21)T

52. **Stinger-Steered.** A truck-tractor semi-trailer combination where the kingpin is located five (5) feet or more to the rear of the centroid of the rear axle(s). (7-1-21)T

53. **Tandem Axle.** Any two (2) axles whose centers are more than forty (40") inches but not more than ninety-six (96") inches apart and are individually attached to and/or articulated from a common attachment to the vehicle including a connecting mechanism designed to equalize the load between axles. (7-1-21)T

54. **Tridem Axle.** Any three (3) consecutive axles whose extreme centers are not more than one hundred forty-four (144") inches apart, and are individually attached to and/or articulated from a common attachment to the vehicle including a connecting mechanism designed to equalize the load between axles. (7-1-21)T

55. **Variable Load Suspension Axle.** See Section 49-123, Idaho Code. (7-1-21)T

56. **Vocational Vehicle.** A vehicle specifically designed to enable the operator to perform specific tasks none of which are primarily for the purpose of transporting loads. Cranes, loaders, scrapers, motor graders, and drill rigs are examples of vocational vehicles. (7-1-21)T

57. **Width.** The total outside transverse dimension of a vehicle including any load or load-holding devices thereon, but excluding any appurtenances listed in IDAPA 39.03.03, “Rules Governing Special Permits – General Conditions and Requirements.” (7-1-21)T

011. – 999. (RESERVED)
39.03.02 – RULES GOVERNING MOVEMENT OF DISABLED VEHICLES

000. LEGAL AUTHORITY.
This rule, governing the movement of disabled vehicles allowed by Sections 49-1001, 49-1002 or 49-1010, Idaho Code, is adopted under the authority of Sections 40-312 and 49-1004, Idaho Code.

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.03.02, “Rules Governing Movement of Disabled Vehicles,” IDAPA 39, Title 03, Chapter 02.

02. Scope. This rule provides the requirements for the movement of disabled vehicles.

002. -- 009. (RESERVED)

010. DEFINITIONS.
