*For each year the member is more than fifteen (15) years older than the contingent annuitant subtract .01 from the factor for Option 1 and subtract .01 from the factor for Option 2. (7-1-21)T

545. PRE-ERISA VESTING RULES.

01. **Termination or Partial Termination.** Upon the effective date of any termination or partial termination or upon a complete discontinuation of contributions: (7-1-21)T

a. No persons who were not theretofore members shall be eligible to become members; (7-1-21)T
b. No further benefits shall accrue; and (7-1-21)T
c. The accrued benefits of all members not theretofore vested and not theretofore forfeited shall immediately become fully vested. (7-1-21)

546. FORFEITURES.
Forfeitures will not be applied to increase the benefits any employee would otherwise receive under the Base Plan. (7-1-21)

547. ACTUARIAL ASSUMPTIONS TO BE SPECIFIED.
Whenever the amount of any Base Plan benefit is to be determined on the basis of actuarial assumptions, such assumptions will be specified in rule in a manner that precludes employer discretion. (7-1-21)

548. COMPENSATION LIMIT.

01. Limit. Except for members of the system prior to July 1, 1996, as provided in Section 59-1302(31)(B), Idaho Code, the annual compensation of each participant taken into account in determining benefit accruals in any plan year beginning after December 31, 2001, shall not exceed two hundred thousand dollars ($200,000). Annual compensation means compensation during the calendar year (the determination period). In determining benefit accruals for determination periods beginning before January 1, 2002, compensation shall be two hundred thousand dollars ($200,000). (7-1-21)

02. Limit Adjustment. The two hundred thousand dollars ($200,000) limit on annual compensation in Subsection 548.01 shall be adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the IRS Code. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year. (7-1-21)

549. DEFINED BENEFIT DOLLAR LIMITATION.
The “defined benefit dollar limitation” is one hundred sixty thousand dollars ($160,000), as adjusted, effective January 1 of each year thereafter, under Section 415(d) of the IRS Code in such manner as the Secretary shall prescribe, and payable in the form of a straight life annuity. A limitation as adjusted under Section 415(d) will apply to limitation years ending with or within the calendar year for which the adjustment applies. The “maximum permissible benefit” is the defined benefit dollar limitation (adjusted where required, as provided in Subsection 549.01 and, if applicable, in Subsections 549.02 through 549.04 of these rules). (7-1-21)

01. Less Than Ten Years of Service. If the participant has fewer than ten (10) years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction: (7-1-21)

a. The numerator of which is the number of years (or part thereof) of participation in the plan; and (7-1-21)

b. The denominator of which is ten (10). (7-1-21)

02. Benefit Begins Prior to Age Sixty-Two. If the benefit of a participant begins prior to age sixty-two (62), the defined benefit dollar limitation applicable to the participant at such earlier age is an annual benefit payable in the form of a straight life annuity beginning at the earlier age that is the actuarial equivalent of the defined benefit dollar limitation applicable to the participant at age sixty-two (62) (adjusted under Subsection 549.01, if required). The defined benefit dollar limitation applicable at an age prior to age sixty-two (62) is determined as set forth in IRS regulation under section 415(b)(2) of the IRS Code. This Subsection 549.02 does not apply to participants who have at least fifteen (15) years of credited service for which the member was classified as a police officer or firefighter. (7-1-21)

03. Benefit Begins at Age Sixty-Five. If the benefit of a participant begins after the participant attains age sixty-five (65), the defined benefit dollar limitation applicable to the participant at the later age is the annual benefit payable in the form of a straight life annuity beginning at the later age that is actuariaaly equivalent to the defined benefit dollar limitation applicable to the participant at age sixty-five (65) (adjusted under Subsection 549.01, if required). The actuarial equivalent of the defined benefit dollar limitation applicable at an age after age sixty-five (65) is determined as set forth in IRS regulation under section 415(b)(2) of the IRS Code. (7-1-21)
04. **Transition.** Benefit increases resulting from the increase in the limitations of section 415(b) of the IRS Code shall be provided to all current and former participants (with benefits limited by section 415(b)) who have an accrued benefit under the plan immediately prior to the effective date of this Section (other than an accrued benefit resulting from a benefit increase solely as a result of the increases in limitations under section 415(b)).

550. **COMPUTATION OF BENEFITS FOR EMPLOYEES OF WITHDRAWN EMPLOYER.**

01. **PERSI’s Responsibility.** PERSI’s responsibility to a withdrawing political subdivision or governmental entity or its employees is limited to the vested accrued actuarial benefits of the system’s members upon the date of complete withdrawal, Section 59-1326(10), Idaho Code.

02. **Withdrawal Liability Calculations.** On the occasion that a withdrawing political subdivision or governmental entity fails to pay, in full with accrued interest from date of withdrawal, the withdrawal liability calculated in accordance with Section 59-1326(7), Idaho Code, PERSI shall exhaust all efforts to collect the outstanding withdrawal liability as follows:

   a. Collect the full withdrawal liability from withdrawing political subdivision or governmental entity at date of withdrawal. If full withdrawal liability is not paid, then;

   b. Contract with withdrawing political subdivision or governmental entity, in accordance with section 59-1326(9) and file a lien on the assets of the withdrawing political subdivision or governmental entity. If scheduled payments are not timely made or assets are insufficient or unavailable, then;

   c. PERSI will pursue collection efforts against the authorizing state agency, political subdivision or governmental entity that caused the withdrawing political subdivision or governmental entity to be formed. If these collection efforts are ineffective, then;

   d. PERSI will cause an actuarial study to be performed for the withdrawing political subdivision or governmental entity and its employees to determine the actuarial value of the accrued benefits at time of withdrawal and will reduce an employee’s benefit to match funded status.

551. **COMPUTING VALUE OF SICK LEAVE.**
For those members who accrue sick leave based upon each month of service, the rate of pay for purposes of computing the monetary value of a retired member’s unused sick leave as outlined in Sections 59-1365, 67-5333, and 33-2109A, Idaho Code, shall be the base hourly rate of compensation reported by the employer during the month of separation from employment prior to retirement, not including any temporary increases, bonuses, or payoffs. For those members employed on a contract basis under Section 33-1228, Idaho Code, the rate of pay for purposes of computing the monetary value of a retiring member’s unused sick leave based upon each month of service shall be determined at a daily rate by dividing the annual contract amount by the required days of work. No temporary increases, bonuses or payoffs shall be included in the contract amount. Where the daily rate is affected by changes in the work week such as adoption of a four (4) day work week or similar events, adjustments shall be made to convert the daily rate to maintain equity within the pool. No other forms of leave may be converted to sick leave or otherwise considered in computing the value of unused sick leave.

552. **SICK LEAVE FUNDING RATES.**
The sick leave pools shall be funded by employer contributions as follows:

01. **State Agencies and Junior College Districts.** All employer groups participating in the pools established by Sections 33-2109A and 67-5333, Idaho Code, shall contribute point sixty-five percent (.65%) of employee covered payroll.

02. **Schools.** All employer groups participating in the pool established by Section 33-1228, Idaho Code, shall contribute the percentage of employee covered payroll based on the number of days of paid sick leave permitted during the contract year for certified teachers as set forth in the following table:
Where a four (4) day work week or similar policies have been adopted, adjustments shall be made to convert the number of days of paid sick leave to the contribution level necessary to maintain equity within the pool. (7-1-21)

553. LIMITATION ON INSURANCE PROGRAMS.
The health, accident, and life insurance programs maintained by state agencies, political subdivisions or government entities as outlined in Sections 59-1365, 33-1228, and 33-2109A, Idaho Code, are limited to plans where the policy holder is the state agency, political subdivision or government entity or a consortium of state agencies, political subdivisions or government entities. Insurance programs outlined in Section 67-5333, Idaho Code, shall be maintained by the state agency, political subdivision or government entity. The board may require plans to sign an agreement before participating. (7-1-21)

554. PAYMENT OF INSURANCE PREMIUMS.
Upon certification by the state agency, political subdivision or government entity and the insurance carrier that a plan qualifies under Section 553 of this subchapter, the board may pay the monthly premiums for a retired member using unused sick leave account funds as prescribed by Idaho Code. (7-1-21)

01. Adjustments. Coverage and premium changes or adjustments must be submitted to PERSI no less than thirty (30) days prior to their effective date unless PERSI has previously agreed in writing to a shorter period. (7-1-21)

02. Duration of Payments. Premium payments will continue to be made from the unused sick leave account until credits are insufficient to make a premium payment, or until the retiree’s death, whichever first occurs. (7-1-21)

555. SEPARATION BY REASON OF RETIREMENT.
Unused sick leave benefits are credited only to employees who are eligible to retire at the time they separate from the state agency, political subdivision or government entity. When an employee separates from service and does not immediately retire, unused sick leave benefits are credited to the member but not available for use unless the member actually retires without intervening employment resulting in PERSI participation. The existence of available unused sick leave credits does not necessarily mean they are usable. A member must also be eligible to participate in the retiree plan offered by the state agency, political subdivision or government entity from which the member retired. Except for school district employees transferring from one (1) district to another, unused sick leave credits may not be transferred from one (1) state agency, political subdivision or government entity to another. If a member negates their retirement under Section 541 and returns to work for a new PERSI state agency, political subdivision or government entity, unused sick leave credits are also negated and eligibility for unused sick leave credits must be reestablished with the new state agency, political subdivision or government entity. (7-1-21)

556. PROHIBITION AGAINST CASH OPTION.
All state agencies, political subdivisions or government entities participating in any PERSI administered sick leave pool are prohibited from offering or permitting any employee to convert unused sick leave to cash, other forms of leave, or any other benefit, even if the employee is not eligible to receive credits. Failure to comply with this prohibition will result in the state agencies, political subdivisions or government entities inability to participate in PERSI administered unused sick leave pools. (7-1-21)

557. -- 575. (RESERVED)
576. PARTICIPATION IN SUBDIVISION UNUSED SICK LEAVE POOL.
Any PERSI state agency, political subdivision or government entity meeting the following requirements may elect to participate in the unused sick leave pool authorized by Section 59-1365, Idaho Code:

01. No Current Plan. The state agency, political subdivision or government entity does not participate in any other statutorily created plan that offers benefits for unused sick leave, including but not limited to, those plans created under Sections 33-1228, 33-2109, and 67-5333, Idaho Code.

02. All Inclusive Participation. All of a participating state agencies, political subdivisions or government entities employees who are PERSI members and who accrue sick leave must be participants in the plan, except that state agencies, political subdivisions or government entities may exclude certain distinctive classes of employees for legitimate business reasons. For example, a city could exclude employees covered by a collective bargaining agreement, or a county may choose to exclude elected officials.

03. No Other Options for Unused Sick Leave. No employee may be given any option to receive benefits from unused sick leave other than through this plan. For example, no employee, other than those properly excluded under Subsection 576.02, may be given the option of exchanging sick leave for cash or other forms of payment or leave.

04. Fixed Annual Accrual of Sick Leave. State agency, political subdivision or government entity must comply with a policy that offers a fixed amount of sick leave annually that is applicable to all employees or employee groups. A “personal leave” option that fails to distinguish between sick, vacation, or other forms of leave is not permitted.

05. Medicare Eligible Retirees. State agencies, political subdivisions or government entities plan must provide coverage to all retired employees eligible for unused sick leave credits, including retirees that become Medicare eligible.

06. Annual Application. State agency, political subdivision or government entity must annually update and submit an application for participation in the Subdivision Unused Sick Leave Pool on the form prescribed by PERSI.

577. OPERATION OF SUBDIVISION POOL.
Upon separation from employment by retirement, in accordance with Chapter 13, Title 59, Idaho Code, every employee of a participating state agency, political subdivision or government entity shall, upon payment by the state agency, political subdivision or government entity under Section 578, receive a credit for unused sick leave in the same manner and under the same terms as provided in Section 67-5333(1), Idaho Code.

578. FUNDING OF SUBDIVISION POOL.
Participating state agencies, political subdivisions or government entities shall, within ten (10) days of retiree’s last day in pay status, pay to PERSI a sum equal to the retiree’s unused sick leave credit, together with any administrative fees the board may require. Investment earnings on funds paid into this pool will remain in the pool, together with any reversions due to the death of a retiree, and may be used by the board to pay some or all administrative costs.

579. TERMINATION, WITHDRAWAL, OR REMOVAL FROM SUBDIVISION POOL.
Any state agency, political subdivision or government entity failing to meet the requirements of participation provided by Section 576 shall be terminated from participation in the Subdivision Pool. Any state agency, political subdivision or government entity failing to meet the funding requirements provided by Section 578 shall be terminated from participation in the Subdivision Pool, provided however, a state agency, political subdivision or government entity may submit a detailed explanation for its failure to meet the funding requirements as required in Section 578 and subject to PERSI approval. State agencies, political subdivisions or government entities that have withdrawn or have been terminated shall not be allowed to rejoin.

580. -- 599. (RESERVED)
600. PAYMENT DATE OF RETIREMENT ALLOWANCE FOR FRF MEMBERS.
A paid firefighter who retires under the provisions of Chapter 14, Title 72, Idaho Code, is entitled to a retirement allowance computed from the date following separation from employment, payable at the end of the calendar month following separation from employment. (7-1-21)

601. FIREFIGHTER RETIREMENT ALLOWANCE.
Notwithstanding Sections 525 and 526 of this subchapter, the retirement allowances of firefighter members, as defined by Section 59-1391(b), Idaho Code, shall be determined pursuant to the provisions of Chapter 14, Title 72, Idaho Code. (7-1-21)

602. REEMPLOYMENT OF RETIRED FRF FIREFIGHTER.
A paid firefighter retired under the provisions of Chapter 14, Title 72, (FRF), Idaho Code, who returns to employment as a paid firefighter with the same fire department from which retired shall be considered reemployed in the manner provided for PERSI members by Section 59-1356(1), Idaho Code. Retirement benefits shall then terminate and contributions shall again commence under conditions specified prior to retirement. The terminated benefit shall resume upon subsequent retirement with adjustments made in the manner prescribed by Section 59-1356(1), Idaho Code, as they would apply to the member’s retirement benefit entitlement computed under the provisions of Chapter 14, Title 72, Idaho Code.
Statutory References: Section 59-1356, Idaho Code. (7-1-21)

603. -- 624. (RESERVED)

625. PURCHASE OF SERVICE GENERALLY.
No member may purchase more than forty-eight (48) months of membership service, whether purchased under Section 59-1362, or 59-1363, Idaho Code, or a combination thereof. In all cases, the cost of purchasing service shall be the full actuarial costs, as determined by the board, of providing additional benefits resulting from the purchased service. Service may only be purchased at the time of retirement. In no event can a member revoke a purchase of service after payment has been made. (7-1-21)

626. TIME OF RETIREMENT.
Within ninety (90) days before a member’s effective date of retirement, the member may request the cost of service to be purchased. Costs provided for purchased service are valid only for the effective date requested. Purchased service will be calculated into the member’s benefit only to the extent that it is paid by the effective date. In no event shall service be credited for which payment has not been made. Service may be purchased with after-tax dollars or with eligible rollover distributions. The member’s service class at the time of purchase determines the class of service that may be purchased. (7-1-21)

627. RETIREMENT DELAYED OR NEGATED AFTER PURCHASE.
If a member purchases service and thereafter revokes their application for retirement or negates their retirement as provided in Rule 541, the contributions made to purchase the service shall remain in the system until a distributable event occurs. If the distributable event results in payment of a monthly retirement benefit or an optional death benefit, the purchase price of the service previously purchased will be recalculated based on factors existing on the date the new benefit becomes effective. If, based on the new factors, the purchase price is higher than previously determined, the number of months purchased will be reduced to reflect the higher cost unless the member elects to pay the difference. If the purchase price is lower, the difference will be paid to the member as a lump-sum payment within sixty (60) days after the date of retirement unless the member elects to convert the difference into additional months and can do so without exceeding the forty-eight (48) month limit, the IRS limit referenced in Subsection 705.05, or any other statutory limitation, including the limitation in Section 59-1342(6), Idaho Code. (7-1-21)

628. TREATMENT OF PURCHASE OF SERVICE CONTRIBUTIONS.
Contributions made for purposes of purchasing service, and interest earnings thereon, are not considered for purposes of determining death benefits under Section 59-1361(3), Idaho Code, and distributions under Section 59-1309(5), Idaho Code. When determining death benefits under Section 59-1361(3), Idaho Code, first calculate two hundred percent (200%) of accumulated contributions, excluding contributions and interest related to purchased service, then add member contributions and interest related to purchased service. Member contributions and interest will also be included in any separation benefit. In no event shall employer contributions for purchased service be included in any separation benefit or lump-sum death benefit. (7-1-21)
629. **EMPLOYER PARTICIPATION.**
State agency, political subdivision or government entity participation must be in the form of lump-sum payments at the time of retirement. In the event a state agency, political subdivision or government entity makes a contribution on behalf of a member and a distribution other than periodic payments occurs prior to the actual retirement effective date, the state agency, political subdivision or government entity may claim a credit against future contributions equal to the amount of the contribution. State agency, political subdivision or government entity contributions must be accompanied by or preceded by a written statement endorsed by the governing body or officer of the state agency, political subdivision or government entity verifying that the participation is properly authorized and that the state agency, political subdivision or government entity indemnifies PERSI against any loss resulting from failure of the state agency, political subdivision or government entity, or any person acting on its behalf, to act within its authority.

630. **ADDITIONAL LIMITS ON PURCHASED SERVICE.**
The Internal Revenue Code imposes limits on the amount of retirement benefits that can be paid to a retiree under a defined benefit plan. Benefits acquired through purchase of service are subject to these limits for some purposes. In no event can a member purchase service that would result in the member exceeding the limits imposed in Section 415(n)(1)(A) of the IRS Code. In addition, a member’s initial retirement benefit, including purchased service, continues to be subject to the limitation in Section 59-1342(6), Idaho Code.

631. – 649. (RESERVED)

**SUBCHAPTER G – PERSI GAIN SHARING RULES**
Rules 650 through 755

650. **EXISTENCE OF EXTRAORDINARY GAINS.**
The existence of extraordinary gains triggers the possibility that allocations will be made as provided in Section 59-1309, Idaho Code. However, the existence of extraordinary gains does not obligate the retirement board to make an allocation. The Board may choose not to allocate extraordinary gains, or it may choose to allocate all or part of the extraordinary gains. Extraordinary gains exist when, at the close of the fiscal year, the value of plan assets exceeds plan liabilities as determined by the actuary, plus a sum necessary to absorb a one (1) standard deviation market event without increasing contribution rates, as determined by the Board. The amount of extraordinary gains available for possible distribution equals the amount by which the assets exceed the sum of the liabilities and the one standard deviation.

651. **VALUE OF PLAN ASSETS.**
This is the total assets held in the PERSI base plan, as reported in the actuarial valuation at the end of the fiscal year.

652. **PLAN LIABILITIES.**
This is the actuarial liability of the PERSI base plan, including but not limited to, the cost of the proposed COLA to be effective in March following the close of the fiscal year, the cost of any benefit enhancements to the base plan approved by the legislature, and the cost of actuarial gains and losses, as reported in the actuarial valuation for the fiscal year.

653. **ONE STANDARD DEVIATION.**
This is the amount of reserve necessary to absorb normal market fluctuations and is a function of the risk associated with investment holdings and strategies, and will be determined by the Board based on those factors.

654. **BOARD DISCRETION.**
The Board retains full discretion in determining whether to allocate extraordinary gains when they exist. Because of the broad range of factors that might be relevant to such a determination, and to assure that the Board will not be limited in exercising its discretion, these rules do not attempt to identify any of the factors that might be considered in the Board’s fiduciary capacity. When extraordinary gains exist, the Board will decide whether they will be allocated no later than the first day of December following the end of the fiscal year. Such decision shall be in writing and shall constitute an amendment to the plan document for purposes of the Internal Revenue Code of 1986, as amended, or any successor thereto. In the absence of any such decision, the allocation for that year shall be zero (0.00).
655. -- 674. (RESERVED)

675. ALLOCATION BETWEEN GROUPS.
If extraordinary gains exist, and the Board determines that all or part of such gains should be allocated, an allocation will be made among the three (3) groups identified by Section 59-1309, Idaho Code. The three (3) groups and allocations are:

a. Active PERSI members - 38 percent (38%);

b. PERSI retirees - twelve percent (12%); and

c. PERSI employers - fifty percent (50%) (7-1-21)

676. -- 699. (RESERVED)

700. ACTIVE MEMBER ALLOCATION.
After the amount to be allocated to the active member group has been determined, it shall be allocated among the members of the group. The active member allocation determines each member’s initial share before considering any applicable individual limits. Each member’s initial share shall be determined by dividing that member’s accumulated contributions in the base plan at the close of the fiscal year by the total accumulated contributions in the base plan of all members of the group at the close of the fiscal year, multiplied by the amount allocated to the active member group. In no event shall a member’s initial share, before considering individual limits, exceed the maximum annual contribution limit under Section 415(c) of the IRS Code applicable for the limitation year.

701. MINIMUM ALLOCATION AMOUNT.
Due to the costs associated with maintaining individual choice accounts, no allocation shall be made to any member whose allocation share does not exceed thirty-eight dollars ($38) after considering individual limits, unless the member had a PERSI choice account on the last day of the fiscal year and has not withdrawn funds before the allocation date.

702. ACTIVE MEMBER.
A member participates in the active member allocation only if he is an active member as defined in this subchapter. Whenever a member is placed on leave of absence under circumstances making that member eligible for benefits under USERRA, the employer shall notify PERSI in writing within thirty (30) days and attach a copy of the member’s orders.

703. ACCUMULATED CONTRIBUTIONS.
For purposes of allocating extraordinary gains within the active member group, accumulated contributions do not include contributions or interest related to the purchase of permissive service credits or contributions or interest in the Choice Plan or accounts.

704. TRANSFER TO DEFINED CONTRIBUTION CHOICE ACCOUNTS.
After each member’s initial share has been determined, it will be transferred to an individual account as permitted under Section 414(k) of the IRS Code, subject to individual limits imposed by the Internal Revenue Code. The Board may transfer allocations anytime after necessary compensation data is received and processed by the Board.

705. LIMITATIONS ON ALLOCATION.
In no event shall a member’s final allocation exceed the limits imposed by Section 415(c) of the IRS Code, based on compensation earned during the calendar year that included the end of the fiscal year.

706. INTERVENING RETIREMENT.
When a member is included in the active member pool but retires prior to the transfer of allocations, the member’s allocation will be made as a one-time payment directly to the member rather than a transfer to an individual account. Such allocations will not be limited by Section 705 but will be subject to the limitations of Section 729.
707. **INTERVENING WITHDRAWAL OF CONTRIBUTIONS.**
When a member is included in the active member pool but terminates prior to the transfer of allocations, the allocation will be made to the member's individual account if the member has not withdrawn contributions from the Base account prior to the date of transfer of the allocation. No member who has withdrawn contributions from the Base account prior to the transfer of the allocation is eligible to receive an allocation. (7-1-21)

708. **INTERVENING DEATH OF ACTIVE MEMBER.**
When a member would have been included in the active member allocation but dies prior to the transfer of allocations, no allocation shall be made to the member, beneficiary or estate except that an optional death benefit recipient will receive the active member's allocation as limited by Section 729. (7-1-21)

709. **TREATMENT OF GAIN SHARING ALLOCATIONS IN THE CHOICE ACCOUNT.**
Gain sharing allocations transferred to individual Choice Accounts have no effect on an individual's Base Plan benefit. Gain sharing allocations, and the earnings thereon, will be accounted for separately from other Choice Plan contributions but will be treated as one plan for purposes of reporting, investing, distributions, and fees to the extent they are applicable. Related provisions of the Plan adopted by the Board to facilitate voluntary and employer contributions are applicable to gain sharing allocations to the extent not inconsistent with these rules and Sections 59-1308 and 59-1309, Idaho Code. However, no loans or hardship withdrawals may be taken against gain sharing account balances. (7-1-21)

710. -- 724. **(RESERVED)**

725. **RETIREE ALLOCATION.**
After the amount to be allocated to the retiree group has been determined, it shall be allocated among the members of the group. The retiree allocation determines each member's share before considering any applicable individual limits. Each member's initial share shall be determined by dividing that retiree's monthly benefit at the close of the fiscal year by the total monthly benefits payable to all members of the group at the close of the fiscal year, multiplied by the amount allocated to the retiree group. (7-1-21)

726. **RETIREE.**
For purposes of allocating extraordinary gains, a member must be a retiree as defined in this subchapter. (7-1-21)

727. **MONTHLY BENEFIT.**
This is the monthly benefit for the last month of the fiscal year but does not include benefits related to other months that may also have been paid during the last month of the fiscal year. In no event shall a retiree’s share be determined based on more than the retiree’s annual benefit, not including any gain sharing allocations, divided by twelve (12). (7-1-21)

728. **PAYMENT OF ALLOCATION.**
After each retiree’s initial share has been determined, it will be paid no later than February 1 following the close of the fiscal year directly to the retiree either together with the retiree’s monthly benefit or separately, subject to individual limits imposed by the Internal Revenue Code. (7-1-21)

729. **LIMITATIONS ON ALLOCATION.**
Prior to allocation, a retiree’s initial share shall be further limited as necessary to comply with the limits of Section 415(b) of the IRS Code. (7-1-21)

730. **INTERVENING DEATH OF A RETIREE.**
When a retiree is included in the retiree allocation but dies prior to the transfer of allocations, no allocation shall be made unless benefit payments are continuing to be made to a contingent annuitant. (7-1-21)

731. **INTERVENING REEMPLOYMENT.**
When a retiree is included in the retiree allocation but becomes reemployed as defined in Section 59-1356, Idaho Code, prior to the date of distribution, the retiree allocation shall be made in the form of an active member allocation, and shall be subject to active member limitations. (7-1-21)

732. **NEGATED RETIREMENT.**
Gain sharing allocations received by a retiree are not included in the amounts required to be repaid when negating retirement under Section 541.

733. -- 749.  (RESERVED)

750.  EMPLOYER ALLOCATION.
After the amount to be allocated to the employer group has been determined, it shall be allocated among the members of the group. Each employer’s share shall be determined by dividing that employer’s contribution liability for the fiscal year by the total contribution liability for all members of the group for the fiscal year, multiplied by the amount allocated to the employer group.

751.  EMPLOYER.
Participation in the employer pool is limited to those entities defined as an employer in this subchapter.

752.  CONTRIBUTION LIABILITY.
This includes only employer contributions that are accrued during the fiscal year and required to be paid by Section 59-1322, Idaho Code, unreduced by gain sharing credits. It does not include contributions made to fund sick leave pools, to pay costs of other plans such as the Firefighters Retirement Fund, or to contributions required by Sections 33-107A and 33-107B, Idaho Code. Only adjustments related to fiscal year contributions will be considered.

753.  CREDIT OF ALLOCATION.
After each employer’s share has been determined, it will be credited against the employer’s future contribution invoices. The credits shall be applied only to offset future employee and employer contributions required to be remitted by Section 59-1325(1), Idaho Code, until the credit is exhausted. An employer may elect to use the credits solely against employer contributions to the extent that no carry-over credits (as described in Section 754) result.

754.  CARRY-OVER OF CREDIT.
Should the credit exceed the employer’s contribution invoices for the succeeding twelve (12) month period, any remaining credits will carry over to the following year together with an additional credit representing an interest payment. The interest credit shall equal the balance of remaining credits multiplied by a ratio representing the regular rate of interest. This process shall be repeated annually until all credits have been used.

755.  WITHDRAWAL OF EMPLOYER.
When an employer is included in the employer pool but withdraws from the system as provided in Section 59-1326, Idaho Code, prior to allocation of credits, the employer shall not be entitled to receive any credits. When an employer is entitled to carry-over credits but withdraws prior to using all its credits, it shall not be entitled to additional credits based on interest payments.

**SUBCHAPTER B – DISTRIBUTIONS**

Rules 100 through 250

100. **REQUIRED MINIMUM DISTRIBUTIONS (RULE 100).**

01. **Default Application of Federal Requirements.** With respect to distributions under the Judges' Retirement Fund, and except as provided in Subsection 100.06, the Judges' Retirement Fund will apply the minimum distribution requirements of section 401(a)(9) of the Internal Revenue Code (Code) in accordance with a good faith interpretation of section 401(a)(9), notwithstanding any provision of the Judges' Retirement Fund to the contrary.

A limitation as adjusted under section 415(d) will apply to limitation years ending with or within the calendar year for which the adjustment applies. 01. **Less Than Ten Years of Service.** If the Member has fewer than ten (10) years of participation in the Judges' Retirement Fund, the defined benefit dollar limitation shall be multiplied by a fraction:

b. The denominator of which is ten (10).

02. **Benefit Begins Prior to Age Sixty-Two.** If the benefit of a Member begins prior to age sixty-two (62), the defined benefit dollar limitation applicable to the Member at such earlier age is an annual benefit payable in the form of a straight life annuity beginning at the earlier age that is the actuarial equivalent of the defined benefit dollar limitation applicable to the Member at age sixty-two (62) (adjusted under Rule 101.01, if required). The defined benefit dollar limitation applicable at an age prior to age sixty-two (62) is determined as set forth in IRS regulation under section 415(b)(2) of the Code.

03. **Benefit Begins at Age Sixty-Five.** If the benefit of a Member begins after the Member attains age sixty-five (65), the defined benefit dollar limitation applicable to the Member at the later age is the annual benefit
payable in the form of a straight life annuity beginning at the later age that is actuarially equivalent to the defined benefit dollar limitation applicable to the Member at age sixty-five (65) (adjusted under Rule 101.01, if required.) The actuarial equivalent of the defined benefit dollar limitation applicable at an age after age sixty-five (65) is determined as set forth in IRS regulation under section 415(b)(2) of the Code.

04. Transition. Benefit increases resulting from the increase in the limitations of section 415(b) of the Code shall be provided to all current and former Members (with benefits limited by section 415(b)) who have an accrued benefit under the Judges' Retirement Fund immediately prior to the effective date of this Rule (other than an accrued benefit resulting from a benefit increase solely as a result of the increases in limitations under section 415(b).)

05. Aggregation. If any member participates in two (2) or more qualified defined benefit plans maintained by the employer (or a predecessor employer), the combined benefits from all such plans may not exceed the “maximum permissible benefit” described in this Rule 101.

102. MAXIMUM LIMITATION ON ANNUAL ADDITIONS (RULE 102).

01. Annual Additions Limitation. Effective January 1, 2002, annual additions shall not exceed the lesser of:
   a. Forty thousand dollars ($40,000); or
   b. One hundred percent (100%) of the Member’s compensation.

02. Annual Adjustments. As of January 1 of each calendar year on and after January 1, 2002, the dollar limitation in Subsection 102.01 of these rules, with respect to both active and retired members, shall be adjusted for increases in the cost of living, taking into consideration applicable guidelines.

03. Other Qualified Plans. To the extent that any Member of the Judges Retirement Plan is also a member of any other qualified plan, and annual additions to all plans covering the Member would otherwise exceed the limits set forth above, annual additions to such other qualified plan shall be reduced to the extent necessary to avoid exceeding the limitations on annual additions.

103. ROLLOVER DISTRIBUTIONS (RULE 103).

01. Direct Rollovers. A Member of the Judges' Retirement Fund or a beneficiary of a Member (including a Member's former spouse who is the alternate payee under an approved domestic relations order) who is entitled to an eligible rollover distribution may elect, at the time and in the manner prescribed by the Administrator, to have all or any portion of the distribution paid directly to an eligible retirement plan specified by the Member in a direct rollover. Effective January 1, 2006, in the event of a mandatory distribution greater than one thousand dollars ($1,000), if the Member does not elect to have such distribution paid directly to an eligible retirement plan specified by the Member in a direct rollover or to receive the distribution directly, then the plan administrator will pay the distribution in a direct rollover to an individual retirement plan designated by the plan administrator.

02. Eligible Rollover Distribution Defined. For purposes of this Rule, an eligible rollover distribution means any distribution of all or any portion of a Member's account balance, except that an eligible rollover distribution does not include (a) any installment payment for a period of ten (10) years or more, (b) any distribution made as a result of an unforeseeable emergency, or (c) for any other distribution, the portion, if any, of the distribution that is a required minimum distribution under Code section 401(a)(9). In addition, an eligible retirement plan means an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 403(b) of the Code, a qualified trust described in section 401(a) of the Code, an annuity plan described in section 403(a) or 403(b) of the Code, or an eligible governmental plan described in section 457(b) of the Code, that accepts the eligible rollover distribution. Effective January 1, 2008, an eligible retirement plan shall also mean a Roth IRA described in section 408A of the Code.

03. After-Tax Contributions. For purposes of the direct rollover provisions in Rule 103.01, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax...
employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in section 401(a) or 403(a) of the Code that agrees to separately account for the amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

(7-1-21)T

04. Alternate Payees. A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse, who is the alternate payee under a domestic retirement order, approved as provided in Rule 402 are distributees with regard to the interest of the spouse or former spouse.

(7-1-21)T

05. Transfers to Non-Spouse Beneficiaries. This Rule 103.05 applies to distributions made on or after July 1, 2008. Notwithstanding any provision of the Judges' Retirement Fund to the contrary that would otherwise limit the options of the Beneficiary of a deceased Member who is not the Member's spouse, the administrator shall, upon the request of such a Beneficiary transfer a lump sum distribution to the trustee of an individual retirement account established under Section 408 of the Code in accordance with the provisions of Code section 402(e)(11).

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 60-0501-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule and rescinded a previous temporary rule. The action is authorized pursuant to Sections 22-2718, 22-2727, and 22-2730, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 60, rules of the Idaho State Soil and Water Conservation Commission:

IDAPA 60

- 60.05.01, Rules of the Idaho State Soil and Water Conservation Commission.

Rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. This temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

      iii. Anticipated budget for the upcoming county fiscal year; (7-1-21)
   d. Information from Defending Attorneys necessary for the Compliance Plan and application; and (7-1-21)
   e. Other information requested by PDC Staff or the Commission related to Public Defense Rules or Financial Assistance. (7-1-21)

02. Preference. Financial Assistance is subject to the availability of funds, with preference given: (7-1-21)

   b. Second, to counties that need assistance to continue complying with Public Defense Rules; and (7-1-21)
   c. Third, to counties for other improvements to public defense. (7-1-21)

03. Financial Assistance for Workload. The Commission may award Financial Assistance for counties to pay for resources needed to meet the Workload rules in IDAPA 61.01.02, “Requirements and Procedures for Representing Indigent Persons,” Subsection 060.05 (“Workload Financial Assistance”) of these rules, which is subject to the following additional requirements: (7-1-21)

d. County responsibility for compliance with the maximum caseload standard is contingent upon the appropriation of state funds as provided in Section 19-862A, Idaho Code, at a level necessary to implement the numeric standard. If Caseload or Workload maximums are being exceeded and the county has timely requested and not received Financial Assistance to pay for resources needed to comply with Caseload or Workload rules, the county’s failure to comply with Caseload or Workload rules will not be deemed a Deficiency.

a. Defending Attorney applicants may apply exclusively for prospective litigation costs and any request seeking reimbursement for services already rendered or expenses already paid will be rejected.

b. Counties may request ELF Financial Assistance for reimbursement of extraordinary litigation costs paid and the application may only seek reimbursement for services rendered within the same state fiscal year.

c. Information provided in support of an ELF application is confidential and exempt from the Public Records Act under Section 74-105(18)(b), Idaho Code.

d. The Executive Director will approve or disapprove and will determine the amount of ELF assistance for costs other than attorney fees. The Commission will approve or disapprove and determine the amount of ELF assistance for attorney fees.

07. Independence. Counties applying for Financial Assistance must limit prosecutor involvement in the Financial Assistance process if the involvement may jeopardize the independence of any Defending Attorney or undermine the delivery of public defense.
