f. Roads, not abandoned, which are to continue in use under the jurisdiction of a governmental or private landowner, are the Permittee’s responsibility to comply with the nonpoint source sediment control provisions of Subsection 040.01 until the successor assumes control. (7-1-21)

06. Settling Ponds -- Minimum Criteria. (7-1-21)

a. Settling ponds must provide adequate sediment storage capacity to achieve compliance with applicable water quality standards and protect existing beneficial uses, and may require periodic cleaning and proper disposal of sediment. (7-1-21)

b. No settling pond, used for process water clarification, must be constructed to block a surface water drainage. (7-1-21)

c. All settling ponds must be constructed and designed to prevent surface water runoff from entering the pond. (7-1-21)

d. All settling ponds must be constructed and maintained to contain direct precipitation to the pond surface from a fifty (50) year twenty-four (24) hour storm event. (7-1-21)

e. No chemicals may be used for water clarification or on site gold recovery without prior notification to, and approval from, the DEQ. (7-1-21)

07. Dewatering Settling Ponds. Upon reclamation, settling ponds must be dewatered, detoxified, and stabilized. Stabilization includes regrading the site for erosion control, to the approximate original contour, and may require removal and disposal of settling pond contents. (7-1-21)

08. Topsoil Replacement. Following completion of the requirements of Subsection 040.07, the settling ponds must be retopped with stockpiled topsoils or other soils conducive to plant growth. Where such soils are limited in quantity or not available, physical or chemical methods of erosion control may be used. All such areas are to be revegetated in accord with Subsection 040.17, unless otherwise specified in the placer mining permit. (7-1-21)

09. Dam Safety. Settling ponds must conform with the Idaho Dam Safety Act, Section 42-1710 through 42-1721, Idaho Code and with the Environmental Protection and Health Act, Section 39-118, Idaho Code, requiring plan and specification review and approval for waste treatment facilities. (7-1-21)

10. Backfilling and Grading. (7-1-21)

a. Every operator who conducts placer mining exploration operations that disturb less than one-half (1/2) acre must contour the disturbed land to its approximate previous contour. These lands must be revegetated in accordance with Subsection 040.17. For showing discovery on federal mining claims, unless otherwise required by a federal agency, one (1) pit may be left open on each claim pending verification by federal mining examiners, but must not create a hazard to humans or animals. Such pits and trenches must be reclaimed within one (1) year of verification. (7-1-21)
b. Every Permittee who disturbs more than one-half (1/2) acre must shape and smooth the disturbed ground to a grade reasonably comparable with the natural contour of the ground prior to mining, and to a condition that promotes the growth of vegetation except as provided in Paragraph 040.17.m. or minimize erosion through other means. Any disturbed natural watercourse must be restored to a configuration and structure conducive to good fish and wildlife habitat and recreational use.

(7-1-21)T

c. Backfill materials must be compacted in a manner to ensure stability of the fill.

(7-1-21)T

d. After the disturbed land has been graded, slopes will be measured by the department for compliance with the requirements of the act, these rules, the placer or dredge mining permit, and the reclamation plan.

(7-1-21)T

11. Waste Disposal - Disposal of Waste in Areas Other Than Mine Excavations. Waste materials not used in backfilling mined areas must be placed, stabilized, and revegetated to ensure that drainage is compatible with the surrounding drainage and to ensure long-term stability.

(7-1-21)T

a. The Permittee may, if appropriate, use terraces to stabilize the face of any fill. Slopes of the fill material may not exceed the angle of repose.

(7-1-21)T

b. Unless adequate drainage is provided through a fill area, all surface water above a fill must be diverted away from a fill area into protected channels, and drainage may not be directed over the unprotected face of a fill.

(7-1-21)T

12. Topsoil Redistribution. Topsoil must be spread to achieve a thickness over the regraded area, adequate to support plant life. Excessive compaction of overburden and topsoil is to be avoided. Topsoil redistribution must be timed so that seeding or other protective measures can be readily applied to prevent compaction and erosion. Final grading must be along the contour unless such grading will expose equipment operators to hazardous operating conditions, in which case the best alternative method must be used in grading.

(7-1-21)T

13. Soil Amendments. Nutrients and soil amendments must, if necessary, be applied to the graded areas to successfully achieve the revegetation requirements of the permit and reclamation plan.

(7-1-21)T

14. Revegetating Waste Piles. The Permittee must conduct revegetation activities with respect to such waste piles in accordance with Subsection 040.17.

(7-1-21)T

15. Mulching. Mulch must be used on severe sites and may be required by the approved placer or dredge mining permit. Nurse crops such as rye, oats, and wheat may be used as a substitute for mulch where they will provide adequate protection and will be replaced by permanent species within a reasonable length of time.

(7-1-21)T

16. Permanent Cessation and Time Limits for Planting.

(7-1-21)T

a. Wherever possible, but not later than one (1) year after grading, seeding and planting of disturbed lands must be completed during the first favorable growth period after seedbed preparation. If permanent vegetation is delayed or slow in establishment, temporary cover of small annual grains, grasses, or legumes may be used to control erosion until adequate permanent cover is established.

(7-1-21)T

b. Reclamation activities should be concurrent with the mining operation and may be included in the approved placer or dredge mining permit and reclamation plan. Final reclamation must begin within one (1) year after the placer or dredge mining operations have permanently ceased on a mine panel. If the Permittee permanently ceases disposing of overburden on a waste area or permanently ceases removing minerals from a pit or permanently ceases using a road or other disturbed land, the reclamation activity on each given area must start within one (1) year of such cessation, despite the fact that all operations as to the mine panel, which included such pit, road, overburden pile, or other disturbed land, has not permanently ceased.

(7-1-21)T
c. A Permittee will be presumed to have permanently ceased placer or dredge mining operations on a given portion of disturbed land where no substantial amount of mineral or overburden material has been removed or overburden placed on an overburden dump, or no significant use has been made of a road during the previous one (1) year.

    (7-1-21)T

d. If a Permittee does not plan to use disturbed land for one (1) or more years but intends thereafter to use the disturbed land for placer or dredge mining operations and desires to defer final reclamation until after its subsequent use, the Permittee must submit a notice of intent and request for deferral of reclamation to the Director, in writing. If the Director determines that the Permittee plans to continue the operation within a reasonable period of time, the Director will notify the Permittee and may require actions to be taken to reduce degradation of surface resources until operations resume. If the Director determines that the use of the disturbed land for placer or dredge mining operations will not be continued within a reasonable period of time, the Director will proceed as though the placer or dredge mining operation has been abandoned, but the Permittee will be notified of such decision at least thirty (30) days before taking any formal administrative action.

    (7-1-21)T

17. Revegetation Activities.

a. The Permittee must select and establish plant species that can be expected to result in vegetation comparable to that growing on the disturbed lands prior to placer or dredge mining operations or other species that will be conducive to the post-mining use of the disturbed lands. The Permittee may use available technical data and results of field tests for selecting seeding practices and soil amendments that will result in viable revegetation.

    (7-1-21)T

b. Standards for success of revegetation. Revegetative success, unless otherwise specified in the approved placer mining permit and reclamation plan, is measured against the existing vegetation at the site prior to mining, or an adjacent reference area supporting similar vegetation.

    (7-1-21)T

c. The ground cover of living plants on the revegetated area must be comparable to the ground cover of living plants on the adjacent reference area for two (2) full growing seasons after cessation of soil amendment or irrigation.

    (7-1-21)T

d. For purposes of this rule, ground cover is considered comparable if it has, on the area actually planted, at least seventy percent (70%) of the premining ground cover for the mined land or adjacent reference area.

    (7-1-21)T

e. For locations with an average annual precipitation of more than twenty-six (26) inches, the Director, in approving a placer mining permit, may set a minimum standard for success of revegetation as follows:

    (7-1-21)T

i. Vegetative cover of seventy percent (70%) for two (2) full growing seasons in areas planted to herbaceous species only; or

    (7-1-21)T

ii. Fifty percent (50%) vegetative cover for two (2) full growing seasons and six hundred (600) woody plants per acre in areas planted to a mixture of herbaceous and woody species.

    (7-1-21)T

f. As used in this section, “herbaceous species” means grasses, legumes, and other forbs; “woody plants” means woody shrubs, trees, and vines; and “ground cover” means the area of the ground surface covered by the combined aerial parts of vegetation and the litter that is produced naturally on-site, expressed as a percentage of the total area measurement. Rock surface areas, composed of rock three plus (3+) inches in diameter will be excluded from this calculation. For purposes of measuring ground cover, rock greater than three (3) inches in diameter is considered as ground cover.

    (7-1-21)T

g. For previously mined areas that were not reclaimed to the standards required by Section 040, and that are disturbed by the placer or dredge mining operations, vegetation must be established to the extent necessary to control erosion, but not be less than that which existed before redisturbance.

    (7-1-21)T

h. Introduced species may be planted if they are comparable to previous vegetation, or if known to be
of equal or superior use for the approved post-mining use of the disturbed land, or, if necessary, to achieve a quick, temporary cover for soil stabilization purposes. Species classified as poisonous or noxious weeds may not be used in revegetation. (7-1-21)

i. By mutual agreement of the Director, the landowner, and the Permittee, a site may be converted to a different, more desirable, or more economically suitable habitat. (7-1-21)

j. Planting of grasses and forbs should be done in a manner which promotes rapid stabilization of the soil surface. Wherever terrain permits, grasses and forbs should be drilled or compacted into the ground using agricultural grass planting equipment or other seeders specifically designed for mine revegetation applications. Broadcast and hydroteeading may be used on areas where other methods are impractical or unavailable. (7-1-21)

k. The Permittee should plant shrubs or shrub seed, as required, where shrub communities existed prior to mining. Shrub seed may be planted as a portion of a grass seed mix or planted as bare-root transplants after grass seeding. Where the landowner desires a specific land use such as grazing or cropland, shrubs will not be required in the revegetation species mix. Shrub lands undergoing revegetation with shrubs must be protected from erosion by vegetation, chemical, or other acceptable means during establishment of the shrubs. (7-1-21)

l. Reforestation -- Tree stocking of forestlands should meet the following criteria: (7-1-21)

i. Trees that are adapted to the site should be planted on the land to be revegetated, in a density which can be expected over time to yield a timber stand comparable to premining timber stands. This in no way is to exclude the conversion of sites to a different, more desirable, or more economically suited species; (7-1-21)

ii. Trees must be established for two (2) full growing seasons after cessation of any soil amendments and irrigation before they are considered to be established; and

iii. Forest lands undergoing revegetation with trees should be protected from erosion by vegetation, chemical binders, or other acceptable means during seedling establishment. (7-1-21)

m. Revegetation is not required on the following areas: (7-1-21)

i. Disturbed lands, or portions thereof, where planting is not practicable or reasonable because the soil is composed of excessive amounts of sand, gravel, shale, stone, or other material to such an extent to prohibit plant growth; (7-1-21)

ii. Any mined land or overburden piles proposed to be used in the mining operations; (7-1-21)

iii. Any mined land or overburden pile, where lakes are formed by rainfall or drainage run-off from adjoining lands; (7-1-21)

iv. Any mineral stockpile; (7-1-21)

v. Any exploration trench which will become a part of any pit or overburden disposal area; and (7-1-21)

vi. Any road which is to be used in mining operations, so long as the road is not abandoned. (7-1-21)

041. -- 049. (RESERVED)

050. TERMINATION OF A PERMIT.

01. Completion of Reclamation. A placer or dredge mining permit terminates upon completion of all reclamation activity to the standards specified in the permit and reclamation plan, and final inspection and approval has been granted by the Director. Upon termination, the Director will release the remaining portion of the bond. (7-1-21)
02. Involuntary Termination. For continuous operation, the bonded permit will remain valid. Administrative action may be taken to terminate a placer and dredge mining permit if:

a. The permit does not remain bonded; (7-1-21)

b. The placer and dredge mining operations are not commenced within two (2) years of the date of Board approval; (7-1-21)

c. The placer and dredge mining operations are permanently ceased and final reclamation has not commenced within one (1) year of the date of permanent cessation; (7-1-21)

d. Inspection costs are delinquent; or (7-1-21)

e. Permittee fails to comply with the act, these rules, the permit, or the reclamation plan. (7-1-21)

051. ENFORCEMENT AND FAILURE TO COMPLY.

01. Inspection. The Director may inspect the operation under permit from time to time to determine compliance with the act, these rules, the permit, and the reclamation plan. The cost and expense of such inspections will be borne by the Permittee. (7-1-21)

a. Cost of inspection is assessed at a flat rate of two hundred and fifty dollars ($250) per year for each permit. Permits upon U.S. Forest Service administered lands is assessed at a flat rate of one hundred dollars ($100) per year for each permit, to reflect the reduced inspection work for the department. (7-1-21)

b. A billing for inspection costs will be made in advance each May 1, with the costs due and payable within thirty (30) days of receipt of an inspection cost statement. Inspection fees become delinquent if not paid on or before June 1, and the department may assess the greater of the following: either a twenty-five dollars ($25) late payment charge or penalty at the rate of one percent (1%) for each calendar month or fraction thereof, compounded monthly, for late payments from the date the inspection fee is due. Such costs constitute a lien upon equipment, personal property, or real property of the Permittee and upon minerals produced from the permit area. Should inspection fees be delinquent, the department will send a single notice of delinquent payment by certified mail, return receipt requested, to the Permittee. If payment is not received by the department within thirty (30) days from the date of receipt, the department may take appropriate administrative action to cancel the permit as provided by Subsection 050.02. (7-1-21)

c. Inspection costs related to a reported violation are assessed at actual costs and in addition to those costs in Paragraph 051.01.a. Costs include mileage to and from the mine site, employee meals, lodging, personnel costs, and administrative overhead. Costs are due and payable thirty (30) days after receipt of the inspection cost statement. (7-1-21)

02. Department Remedies. Without affecting the penal and injunctive provisions of these rules, the department may pursue the following remedies:

a. When the Director determines that a Permittee has not complied with the act, these rules, the permit, or the reclamation plan, the Director will notify the Permittee in writing and set forth the violations claimed and the corrective actions needed. (7-1-21)

b. If the Permittee fails to commence and diligently proceed to complete the requested corrective action within a specified number of days after notice of the violation, unless a cooperative agreement has been reached pursuant to Subsection 035.09, the Director may take administrative action as provided within this rule to terminate the permit and forfeit the bond. (7-1-21)

c. The Board may cause to have issued and served upon the Permittee alleged to be committing such violation, a formal complaint that specifies the provisions of the act, the permit, the reclamation plan, or these rules which the Permittee allegedly is violating, and a statement of the manner in and the extent to which said Permittee is alleged to be violating the provisions of the act, the permit, the reclamation plan, or these rules. Such complaint may
be served by certified mail, and return receipt, signed by the Permittee, an officer of a corporate Permittee, or the designated agent of the Permittee, will constitute service. (7-1-21)T

d. The Permittee is required to answer the formal complaint and request a hearing before a hearing officer appointed by the Director, which authority to appoint is hereby delegated by the Board to the Director, within thirty (30) days of receipt of the complaint if matters asserted in the complaint are disputed. The hearing will be held at a time not less than thirty (30) days after the date the Permittee requests such a hearing. The Board will issue subpoenas at the request of the Director and at the request of the charged Permittee. The hearing will be conducted in accordance with Sections 67-5209 through 67-5213, Idaho Code, and these rules. (7-1-21)T

e. The hearing officer will enter an order in accordance with Section 67-5212, Idaho Code, that, if adverse to the Permittee, will designate a time period within which prescribed corrective action, if any, should be taken. The designated time period will be sufficient to allow a reasonably diligent Permittee to correct any violation. Procedure for appeal of an order is outlined in Subsection 002.01. (7-1-21)T

f. Upon the Permittee’s compliance with the order, the Director will consider the matter resolved and take no further action with respect to such noncompliance. (7-1-21)T

g. If the Permittee fails to answer the complaint and request a hearing, the matters asserted in the complaint will be deemed admitted by the Permittee, and the Director may proceed to cancel the placer mining permit and forfeit the bond in the amount necessary to pay all costs and expense of restoring the lands and beds of streams damaged by dredge or other placer mining of said defaulting Permittee and covered by such bond and remaining unrestored, including the department’s administrative costs. (7-1-21)T

03. Violation of an Order. Upon request of the Director, the attorney general may institute proceedings to have the bond of a Permittee forfeited for violation of an order entered pursuant to Subsection 051.02.e. (7-1-21)T

04. Injunctive Procedures. (7-1-21)T

a. The Director may seek injunctive relief, as provided by Section 47-1324(b), Idaho Code, against any Permittee who is conducting placer mining or exploration operations when: (7-1-21)T

i. Under an existing approved permit, reclamation plan, and bond, a Permittee violates or exceeds the terms of the permit; (7-1-21)T

ii. A Permittee violates a provision of the act or these rules; or (7-1-21)T

iii. The bond, if forfeited, would not be sufficient to adequately restore the land; (7-1-21)T

b. The Director may seek injunctive relief to enjoin a placer mining operation for the Permittee’s violation of the terms of an existing approved permit, the reclamation plan, the act, and these rules, and if immediate and irreparable injury, loss, or damage to the state may be expected to occur. (7-1-21)T

c. The Director will request the court to terminate any injunction when he determines that all conditions, practices, or violations listed in the order have been abated. Termination will not affect the right of the department to pursue civil penalties for these violations in accordance with Subsection 051.06. (7-1-21)T

05. Civil Action. In addition to the injunctive provisions above, the Board may maintain a civil action against any person who violates any provision of the act or these rules, to collect civil damages in an amount sufficient to pay for all the damages to the state caused by such violation, including but not limited to, costs of restoration in accordance with Section 47-1314, Idaho Code, where a person is conducting placer or dredge mining without an approved permit or bond. (7-1-21)T

06. Civil Penalty. (7-1-21)T

a. Pursuant to Section 47-1324(d), Idaho Code, any person violating any of the provisions of the
placer and dredge mining act or these rules or violating any determination or order pursuant to these rules, is liable for a civil penalty of not less than five hundred dollars ($500) nor more than two thousand five hundred dollars ($2,500) for each day during which such violation continues. Such penalty is recoverable in an action brought in the name of the state of Idaho by the attorney general.

b. Pursuant to Section 47-1324(d), Idaho Code, any person who willfully or knowingly falsifies any records, plans, specifications, or other information required by the Board or willfully fails, neglects, or refuses to comply with any of the provisions of these rules, is guilty of a misdemeanor and will be punished by a fine of not less than one thousand dollars ($1,000) or more than five thousand dollars ($5,000) or imprisonment, not to exceed one (1) year, or both.

07. Hearing Procedures.

a. Process and procedures under these rules will be as summary and simple as may be possible. The Director, Board, or any member thereof, or the hearing officer designated by the Director, has the power to subpoena witnesses and administer oaths. The District Court will enforce the attendance and testimony of witnesses and the production for examination of books, papers, and records. A stenographic record or other recording of the hearing will be made. Witnesses subpoenaed by the Director or the hearing officer will be allowed such fees and traveling expenses as are allowed in civil actions in the District Court, to be paid by the party in whose interest such witnesses are subpoenaed. The Board, Director, or hearing officer will make such inquiries and investigations as deemed relevant. Each hearing will be held at the county seat in the county where any of the lands involved in the hearing are situate, or in the County of Ada, as the Board or Director may designate.

b. A notice of hearing will be served by certified mail to the last known address of the Permittee or his agent at least twenty (20) days prior to the hearing. A certified return receipt signed by the Permittee or his agent constitutes service and time thereof.

c. The cost of such hearing including, but not limited to, room rental, hearing officer fees, and transcript will be assessed against the defaulting Permittee. The Director may designate a hearing officer to conduct any hearings and make findings of fact, conclusions of law, and decision on issues involving the administration of the act and these rules.

d. If the hearing involves a permit or application for a permit, the decisions of the Board or the hearing officer, together with the transcript of the evidence, findings of fact, and any other matter pertinent to the questions arising during any hearing will be filed in the office of the Director. A copy of the findings of fact and decision will be sent to the applicant or holder of the permit involved in such hearing, by U.S. mail. If the matter has been assigned for hearing and a claim for review is not filed by any party in the proceeding within thirty (30) days after his decision is filed, the decision may be adopted as the decision of the Board and notice thereof will be sent to the applicant or permit holder involved in such hearing by U.S. mail.
Lowell; the Lochsa River from its junction with the Selway at Lowell forming the Middle Fork upstream to the Powell Ranger Station; and the Selway River from Lowell upstream to its origin; (7-1-21)

b. The Middle Fork of the Salmon River, from its origin to its confluence with the main Salmon River; (7-1-21)

c. The St. Joe River, including tributaries, from its origin to its confluence with Coeur d’Alene Lake, except for the St. Maries River and its tributaries. (7-1-21)

02. Mining Withdrawals. The Board, under authority provided by Title 47, Chapter 7, Idaho Code, has withdrawn certain other lands from placer and dredge mining. A listing of such withdrawals is available from the administrative offices of the Department. (7-1-21)

065. DEPOSIT OF FORFEITURES AND DAMAGES.

01. Mining Account. All monies, forfeitures, and penalties collected under the provisions of these rules will be deposited in the Placer and Dredge Mining Account to be used by the Director for placer and dredge mine reclamation purposes and related administrative costs. (7-1-21)

02. Funds for Reclamation. Upon approval of the Board, monies in the account may be used to reclaim lands for which the forfeited bond was insufficient to reclaim in accord with these rules, or for placer or dredge mine sites for which the bond has been released and which have resulted in subsequent damage. Monies received from inspection fees are to be kept separate and used for costs incurred by the Director in conducting such inspections. (7-1-21)

066. -- 069. (RESERVED)

070. COMPLIANCE OF EXISTING PLANS WITH THESE RULES.
These rules, upon their adoption, apply as appropriate to all existing placer or dredge mining operations, but will not affect the validity or modify the duties, terms, or conditions of any existing approved placer or dredge mining permits or impose any additional obligations with respect to reclamation upon any Permittee conducting placer or dredge mining operations pursuant to a placer or dredge mining permit approved prior to adoption of these rules. (7-1-21)

071. -- 999. (RESERVED)
000.  LEGAL AUTHORITY.
Title 47, Chapter 15 (“chapter”), Idaho Code, authorizes the Board to promulgate rules pertaining to mineral exploration; mining operations; reclamation of lands affected by exploration and mining operations, including review and approval of reclamation and permanent closure plans; requirements for financial assurance for reclamation and permanent closure, and to establish a reasonable fee for reviewing and approving reclamation plans and permanent closure plans, including the reasonable cost to employ a qualified independent party, acceptable to the applicant and the Board, to verify the accuracy of cost estimates for reclamation plans and permanent closure plans. The Board has delegated to the director of the Department the duties and powers under the chapter and these rules, however the Board retains responsibility for administrative review.

001.  TITLE AND SCOPE.
01.  Title. These rules are titled IDAPA 20.03.02, “Rules Governing Mined Land Reclamation,” IDAPA 20, Title 03, Chapter 02.

02.  Scope. These rules establish the notification requirements for exploration and the application, operation, and reclamation requirements for mined lands. In addition, they establish the application and closure requirements for cyanidation facilities. These rules also establish the reclamation and financial assurance requirements for all these activities, and describe the processes used to administer the rules in an orderly and predictable manner.

03.  Other Laws. Operators engaged in exploration, mine operation, and operation of a cyanidation facility shall comply with all applicable laws and rules of the state of Idaho including, but not limited to the following:

a.  Idaho water quality standards established in Title 39, Chapters 1 and 36, Idaho Code; IDAPA 58.01.02, “Water Quality Standards”; and IDAPA 58.01.11, “Ground Water Quality Rule,” administered by the Department of Environmental Quality (DEQ).

b.  Requirements and procedures for hazardous and solid waste management, as established in Title 39, Chapter 44, Idaho Code, and rules promulgated thereunder including, IDAPA 58.01.05, “Rules and Standards for Hazardous Waste” and IDAPA 58.01.06, “Solid Waste Management Rules,” administered by the DEQ.

c.  Section 39-118A, Idaho Code, and applicable rules for ore processing by cyanidation as promulgated and administered by the DEQ as defined in IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation.”

d.  Section 39-175, Idaho Code, and applicable rules for the discharge of pollutants to waters of the United States as promulgated and administered by DEQ in IDAPA 58.01.25, “Rules Regulating the Idaho Pollutant Discharge Elimination System Program.”

e.  Idaho Stream Channel Protection Act, Title 42, Chapter 38, Idaho Code, and applicable rules as promulgated and administered by the Idaho Department of Water Resources.

04.  Applicability. These rules are to be read and applied in conjunction with the chapter. These rules apply to all exploration, mining operations, and permanent closure of cyanidation facilities on all lands in the state, regardless of ownership.

a.  These rules apply to mining operations or exploration operations commenced after January 1, 1997. These rules in no way affect, alter, or modify the terms or conditions of any approved reclamation plan, reclamation plan amendment, or financial assurance for reclamation obtained prior to January 1, 1997. If a material change arises and is regulated in accordance with Subsection 090.01, then the operator shall submit a reclamation plan amendment.

b.  These rules do not apply to:

i.  Any surface mining operations performed prior to May 31, 1972. An operator will not be required to perform reclamation activities on any pit or overburden pile as it existed prior to May 31, 1972.
ii. Mining operations for which the Idaho Dredge and Placer Mining Protection Act requires a permit, or which are otherwise regulated by that act. (7-1-21)T

iii. Extraction of minerals from within the right-of-way of a public highway by a public or governmental agency for maintenance, repair or construction of a public highway, provided the affected land is an integral part of such highway. (7-1-21)T

iv. Underground mines that existed prior to July 1, 2019, and have not expanded their surface disturbance by 50% or more after that date. (7-1-21)T

c. Sand and gravel mining operations in state-owned beds of navigable lakes, rivers or streams shall constitute an approved mining plan for the purpose of these rules if the operator has all of the following: (7-1-21)T

i. A valid riverbed mineral lease granted by the Board in accordance with IDAPA 20.03.05, “Rules Governing Riverbed Mineral Leasing”, with a valid mineral lease bond; (7-1-21)T

ii. An approved plan of operations for the riverbed mineral lease; and (7-1-21)T

iii. A valid stream channel alteration permit issued by the Idaho Department of Water Resources. (7-1-21)T

d. Surface mining operations, conducted by a public or governmental agency for maintenance, repair, or construction of a public highway, which:

i. Disturb more than two (2) acres will comply with the provisions of Section 069; or (7-1-21)T

ii. Disturb less than two (2) acres will comply with Subsections 060.06.a. through 060.06.e. (7-1-21)T

e. A cyanidation facility with a permit approved by the DEQ prior to July 1, 2005, is subject to the applicable laws and rules for ore processing by cyanidation in effect on June 30, 2005; however, if there is a material modification or material expansion to a cyanidation facility after July 1, 2005, these rules shall apply to the modification or expansion. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS. In addition to the definitions set forth in the chapter, the following definitions apply to these rules: (7-1-21)T

01. **Adit.** A nearly horizontal passage from the surface into an underground mine. (7-1-21)T

02. **Approximate Previous Contour.** A contour that is reasonably comparable to that contour existing prior to disturbance, or that blends with the adjacent topography. (7-1-21)T

03. **Best Management Practices (BMP).** Practices, techniques or measures developed or identified by the designated agency and identified in the state water quality management plan which are determined to be a cost-effective and practicable means of preventing or reducing pollutants generated from nonpoint sources to a level compatible with water quality goals. (7-1-21)T

04. **Chapter.** The Mined Land Reclamation Act, Title 47, Chapter 15, Idaho Code. (7-1-21)T

05. **Department.** The Idaho Department of Lands. (7-1-21)T

06. **Discharge.** With regard to cyanidation facilities, when used without qualification, any spilling, leaking, emitting, escaping, leaching, or disposing of a pollutant into the waters of the state. (7-1-21)T

07. **Ground Water.** Any water of the state that occurs beneath the surface of the earth in a saturated
geological formation of rock or soil.

08. **Land Application.** A process or activity involving application of liquids or slurries potentially containing cyanide from the cyanidation facility to the land surface for the purpose of treatment, neutralization, disposal, or groundwater recharge.

09. **Material Change.** A change that deviates from the approved reclamation plan or permanent closure plan and causes one (1) or more of the following to occur:

   a. Results in a substantial adverse effect to the geotechnical stability of overburden disposal areas, topsoil, stockpiles, roads, embankments, tailings facilities, cyanidation facilities or pit walls;

   b. Substantially modifies surface water management or a water management plan, not to include routine implementation and maintenance of BMPs;

   c. Exceeds the permitted acreage; or

   d. Increases overall estimated reclamation costs by more than fifteen percent (15%).

10. **Material Modification or Material Expansion.** With regard to cyanidation facilities:

   a. Any change to a permitted cyanidation facility, except as provided in Subsection 010.10.b, that the Department determines will:

      i. Cause or increase the potential to cause degradation of waters, such as a new cyanidation process or cyanidation facility component; or

      ii. Change the capacity, location, or process of an existing cyanidation facility component; or

      iii. Change the site condition in a manner that is not adequately described in the original permit application.

   b. Reclamation and closure related activities at a cyanidation facility with an existing permit that did not actively add cyanide after January 1, 2005 are not material modifications or material expansions of the cyanidation facility.

11. **Material Stabilization.** Managing or treating spent ore, tailings, other solids and/or sludges resulting from the cyanidation process to minimize waters or all other applied solutions from migrating through the material and transporting pollutants associated with the cyanidation facility to ensure that all discharges comply with all applicable standards and criteria.

12. **Motorized Earth-Moving Equipment.** Backhoes, bulldozers, front-loaders, trenchers, core drills, and other similar equipment.

13. **Neutralization.** Treatment of process waters such that discharge or final disposal of those waters does not, or will not, violate any applicable standards and criteria.

14. **Operating Plan.** A plan that describes how a mining operation will be constructed and operated to avoid or minimize surface disturbance and potential impacts to waters of the state, and to prepare for final reclamation.

15. **Permanent Closure.** Those activities that result in neutralization, material stabilization, and decontamination of cyanidation facilities or the facilities’ final reclamation.

16. **Permit.** When used without qualification, any written authorization, license, or equivalent control document issued by the DEQ. This includes authorizations issued pursuant to the application, public participation,
and appeal procedures in IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation,” and those issued pursuant to the application, public participation, and appeal procedures in IDAPA 58.01.25. (7-1-21)

17. **Pollutant.** Chemicals, chemical waste, process water, biological materials, radioactive materials, or other materials that, when discharged, cause or contribute adverse effects to any beneficial use or for any other reason may impact waters of the state. (7-1-21)

18. **Process Waters.** Any liquids intentionally or unintentionally introduced into any portion of the cyanidation process. These liquids may contain cyanide or other minerals, meteoric water, ground or surface water, elements and compounds added to the process solutions for leaching or the general beneficiation of ore, or hazardous materials that result from the combination of these materials. (7-1-21)

19. **Real Property.** Land and appurtenances as defined in Section 55-101, Idaho Code. (7-1-21)

20. **Reclamation.** The process of restoring an area affected by a mining operation or cyanidation facility to its original or another beneficial use, considering previous uses, possible future uses, and surrounding topography. The objective is to re-establish a diverse, self-perpetuating plant community, and to minimize erosion, remove hazards, and maintain water quality. (7-1-21)

21. **Reclamation Plan.** A plan using a combination of maps, drawings, and descriptions that describes how a mine is constructed and how reclamation of a mine’s affected land is accomplished. (7-1-21)

22. **Revegetation.** The establishment of the premining vegetation or a comparable vegetative cover on the land disturbed by mining operations. (7-1-21)

23. **Shaft.** A vertical or inclined passage from the surface into an underground mine. (7-1-21)

24. **Surface Waters.** The surface waters of the state of Idaho. (7-1-21)

25. **Treatment.** Any method, technique or process, including neutralization, that changes the physical, chemical, or biological character or composition of a waste for the purpose of disposal, or the end result of such action. (7-1-21)

26. **Water Balance.** An inventory and accounting process capable of being reconciled that integrates all potential sources of water that are entrained in the cyanidation facility or may enter into or exit from the cyanidation facility. The inventory must include the water holding capacity of specific structures within the facility that contain process water. The water balance is used to ensure that all process water and other pollutants can be contained as engineered and designed within a factor of safety as determined in the permanent closure plan. (7-1-21)

27. **Water Management Plan.** A document that describes the results of the water balance and the methods that will be used to ensure that pollutants are not discharged from a cyanidation facility into waters of the state, unless permitted or otherwise approved by the DEQ. (7-1-21)

28. **Waters of the State.** All the accumulations of water, surface and underground, natural and artificial, public or private, or parts thereof that are wholly or partially within, flow through or border upon the state of Idaho. These waters shall not include municipal or industrial wastewater treatment or storage structures or private reservoirs, the operation of which has no effect on waters of the state. (7-1-21)

**011. ABBREVIATIONS.**

01. **BMP.** Best Management Practices. (7-1-21)

02. **DEQ.** Department of Environmental Quality. (7-1-21)

03. **IPDES.** Idaho Pollutant Discharge Elimination System. (7-1-21)
04. **SWPPP. Storm Water Pollution Prevention Plan.**

05. **U.S.C. United States Code.**

012. -- 049. (RESERVED)

**050. ADMINISTRATION.**
The Department will administer these rules under the direction of the director.

051. -- 059. (RESERVED)

**060. EXPLORATION OPERATIONS AND REQUIRED RECLAMATION.**

01. **Diligence.** All reclamation activities required to be conducted on exploration sites must be performed in a good, workmanlike manner with all reasonable diligence, and as to a given exploration drill hole, road, or trench, within one (1) year after abandonment thereof.

02. **When Exploration Is Mining.** Exploration operations may under some circumstances constitute mining operations as described in Section 47-1503(7), Idaho Code.

03. **Notification.** Any operator desiring to conduct exploration using motorized earth-moving equipment to locate minerals for immediate or ultimate sale shall notify the Department within seven (7) days after beginning exploration operations. No application fee or financial assurance is required for exploration that is not a mining operation.

04. **Contents of Notification.** The notification shall include:

a. The name and address of the operator;

b. The legal description of the exploration and its starting and estimated completion date; and

c. The anticipated size of the exploration and the general method of operation.

05. **Confidentiality.** Any such notification is treated as confidential in accord with Section 180.

06. **Exploration Reclamation (Less Than Two Acres).** Every operator who conducts exploration affecting less than two (2) acres shall:

a. Wherever possible, contour the affected lands to their approximate previous contour; and

b. Conduct revegetation activities in accordance with Subsection 140.11. Unless otherwise required by a federal agency, one (1) pit or trench on a federal mining claim showing discovery, may be left open pending verification by federal mining examiners.

c. Exploration drill holes must be plugged within thirty (30) days of drilling the holes. Upon request, the director may allow the holes to be temporarily left unplugged for up to a year, but until they are plugged the holes must be left so as to eliminate hazards to humans and animals.

d. Pits or trenches on mining claims showing discovery may be left open pending verification by federal mining examiners but shall not create a hazard to humans or animals. Such abandoned pits and trenches must be reclaimed within one (1) year of verification.

e. If water runoff from exploration causes siltation of surface waters in amounts more than normally results from runoff, the operator shall reclaim affected lands and adjoining lands under his control as is necessary to meet state water quality standards.
07. **Exploration Reclamation (More Than Two Acres).** Reclamation of lands where exploration has affected more than two (2) acres must be completed as set forth in Subsection 060.06 and the following additional requirements:

   a. Abandoned exploration roads must be cross-ditched as necessary to minimize erosion. The director may request in writing, or may be petitioned in writing, that a given road or road segment be left for a specific purpose and not be cross-ditched or revegetated. If the director approves the petition, the operator cannot thereafter be required to conduct reclamation activities with respect to that given road or road segment.

   b. Ridges of overburden must be leveled so as to have a minimum width of ten (10) feet at the top.

   c. Peaks of overburden must be leveled so as to have a minimum width of fifteen (15) feet at the top.

   d. Overburden piles must be reasonably prepared to control erosion.

   e. Abandoned lands affected by exploration must be top-dressed to the extent that such overburden is reasonably available from any pit or other excavation created by the exploration, with that type of overburden that is conducive to the control of erosion or the growth of vegetation that the operator elects to plant thereon.

   f. Any water containment structure created in connection with exploration, must be reasonably prepared so as not to constitute a hazard to humans or animals.

08. **Additional Reclamation.** The operator and the director may agree, in writing, to complete additional reclamation beyond the requirements established in the chapter and these rules.

061. -- 067. (RESERVED)

068. **APPLICATION FEES**

01. **Base Application Fees.** The following base fee schedule will be used for all reclamation plans and permanent closure plans and amendments to those plans. For plans processed under Section 069 of these rules, this base fee covers up to twenty (20) hours of staff time for review and processing. For plans processed under Section 070 of these rules, the applicant may instead enter an agreement with the Department as described in Subsection 068.03 of these rules. The applicable acreage is based on the proposed reclamation plan area identified in the application:

<table>
<thead>
<tr>
<th>Type of Plan</th>
<th>Fee (Dollars)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Section 069 of these rules, Reclamation Plan 0 to 5 acres</td>
<td>Five hundred ($500)</td>
</tr>
<tr>
<td>Section 069 of these rules, Reclamation Plan &gt;5 to 40 acres</td>
<td>Six hundred ($600)</td>
</tr>
<tr>
<td>Section 069 of these rules, Reclamation Plan over 40 acres</td>
<td>Seven hundred fifty ($750)</td>

</tbody>
</table>

02. **Additional Fees for Applications Submitted Under Section 069.** Plans processed under Section 069 of these rules that require more than twenty (20) hours of staff time due to an incomplete application will result in additional fees being charged. After a revised application has been received and determined to be complete with the exception of the fee, IDL will send an invoice to the operator at a rate of forty dollars per hour ($40/hour) for the
additional review time over the initial twenty (20) hours. If this additional fee is not paid prior to the sixty (60) day approval deadline, the application will be denied. If the additional fee is paid within 30 days of the denial, the application will be considered complete and the time requirements of Subsection 080.03 will apply. (7-1-21)

03. Alternative Fee Agreement for Applications Submitted Under Section 070. In lieu of paying a fee at the time the application is submitted, an applicant under Section 070 of these rules may enter into an agreement with the Department for actual costs incurred to process an application, verify a reclamation cost estimate submitted under Idaho Code § 47-1512(c), and issue a final decision. The applicant shall not commence operations until the terms of the agreement have been met, including that the Department has been reimbursed for all actual costs incurred for the permitting process. (7-1-21)

069. APPLICATION PROCEDURE AND REQUIREMENTS FOR QUARRIES, DECORATIVE STONE, BUILDING STONE, AND AGGREGATE MATERIALS INCLUDING SAND, GRAVEL AND CRUSHED ROCK.

01. Approval Required. Approval of a reclamation plan by the Department is required even if approval of such plan has been or will be obtained from a federal agency. (7-1-21)

02. No Operator Shall Conduct Mining Operations. No operator shall conduct mining operations on any lands in the state until the reclamation plan has been approved by the director, and the operator has filed financial assurance that meets the requirements of the chapter and these rules. (7-1-21)

03. Application Package. The operator must submit a complete application package, for each separate mine or mine panel, before the reclamation plan will be approved. Separate mines are individual, physically disconnected operations. A complete application package consists of:

a. An application provided by the director; (7-1-21)

b. A map or maps of the proposed mining operation which includes the information required under Subsection 069.04; (7-1-21)

c. A reclamation plan, in map and narrative form, which includes the information required under Subsection 069.05; and (7-1-21)

d. An out-of-state operator shall designate an in-state agent authorized to act on behalf of the operator. In case of an emergency that requires an action or actions to prevent environmental damage, both the operator and the authorized agent will be notified. (7-1-21)

e. The correct fee listed in Section 068 of these rules. (7-1-21)

04. Map Requirements. A vicinity map must be prepared on standard United States Geological Survey (“USGS”) seven and one-half (7.5) minute quadrangle maps or equivalent. A map of the proposed mining operation site must be of sufficient scale to show:

a. The location of existing roads, access, and main haul roads to be constructed or reconstructed in conjunction with the mining operation and the approximate dates for construction, reconstruction, and abandonment; (7-1-21)

b. The approximate location and names, if known, of drainages, streams, creeks, or water bodies within one thousand (1,000) feet of the mining operation; (7-1-21)

c. The approximate boundaries of the lands to be utilized in the mining operations, including a legal description to the quarter-quarter section; (7-1-21)

d. The approximate boundaries and acreage of the lands that will become affected land as a result of the mining operation during the first year of operations; (7-1-21)
e. The currently planned storage locations of fuel, equipment maintenance products, wastes, and chemicals that will be utilized in the mining operation; (7-1-21)

f. The currently planned location and configuration of pits, overburden piles, crusher reject materials, mineral stockpiles, topsoil storage, wash plant ponds and sediment ponds that will be utilized; (7-1-21)

g. Scaled cross-sections by length and height showing surface profiles prior to mining; and (7-1-21)

h. A surface and mineral control or ownership map of appropriate scale for boundary identification; (7-1-21)

05. Reclamation Plan Requirements. Reclamation plans must be submitted in map and narrative form and include the following:

a. Where waters of the state are likely to be impacted or when requested by the director, documents identifying and assessing foreseeable, site-specific sources of water quality impacts from mining operations and proposed management activities, such as BMPs or other measures and practices, to comply with water quality requirements; (7-1-21)

b. Scaled cross-sections by length and height, showing planned surface profiles and slopes after reclamation; (7-1-21)

c. Roads to be reclaimed; (7-1-21)

d. A plan for revegetation of affected lands including soil types, slopes, precipitation, seed rates, species, handling of topsoil or other growth medium, time of planting, method of planting and, if necessary, fertilizer and mulching rates; (7-1-21)

e. The planned reclamation of wash plant or sediment ponds; (7-1-21)

f. A drainage control map which identifies the location of BMPs that will be implemented to control erosion and water quality impacts during mining and reclamation activities; (7-1-21)

g. The location of any current 100-year floodplain in relation to the mining facilities if the floodplain is within one hundred (100) feet of the facilities, and the BMPs to be implemented that will keep surface waters from entering any pits and potentially changing course. (7-1-21)

h. For operations over five (5) acres, an estimate of total reclamation cost to be used in establishing a financial assurance amount. The cost estimate will include, but is not limited to, the approximate cost of grading, revegetation, equipment mobilization, labor, and other pertinent direct and indirect costs of a third-party to complete reclamation. (7-1-21)

i. If construction, mining, or reclamation will be completed in phases, a description of the tasks to be completed in each phase, an estimated schedule, and proposed adjustments of financial assurance related to each phase. (7-1-21)

070. APPLICATION PROCEDURE AND REQUIREMENTS FOR OTHER MINING OPERATIONS INCLUDING HARDROCK, UNDERGROUND AND PHOSPHATE MINING.

01. Reclamation Plan Approval Required. Approval of a reclamation plan by the Department is required even if approval of such plan has been or will be obtained from a federal agency. No operator shall conduct mining operations on any lands in the state until the reclamation plan has been approved by the director, and the operator has filed the required financial assurance. (7-1-21)

02. Application Package. The operator must submit a complete application package for each separate mine or mine panel before the reclamation plan will be approved. Separate mines are individual, physically disconnected operations. A complete application package consists of: (7-1-21)
a. All items and information required or allowed under Section 069 of these rules; (7-1-21)

b. Any additional information required by Subsection 070.04; and (7-1-21)

c. An operating plan, if required by Section 47-1506(b), Idaho Code, prepared in accordance with Subsection 070.05 of these rules. (7-1-21)

03. Map Requirements. Maps must be prepared in accordance with Subsection 069.04 of these rules with the addition of any tailings facilities or process fluid ponds. (7-1-21)

04. Reclamation Plan Requirements. Reclamation plans must include all of the information required under Subsection 069.05, including but not limited to phases as described in Subsection 069.05.i, and the following additional information:

a. A description of the planned reclamation of overburden disposal areas, tailings facilities, and sediment ponds; and (7-1-21)

b. An estimate of total reclamation cost to be used in establishing the financial assurance amount. The cost estimate should include the approximate cost of grading, revegetation, equipment mobilization, labor, and other pertinent costs for third party reclamation. (7-1-21)

c. To assist in meeting the requirements of paragraph 069.05.a in these rules, a summary of requirements from a SWPPP, IPDES permit, ground water point of compliance, and other permits or approvals or BMPs related to foreseeable water quality impacts on the affected land. (7-1-21)

d. Structures that will be built to help implement a SWPPP, IPDES permit, Point of Compliance or other permits or approvals related to foreseeable water quality impacts on the affected land. (7-1-21)

e. Additional information regarding coarse and durable rock armor if any is proposed to be used for reclamation of mine facilities. The director may, after considering the type, size, and potential environmental impact of the facility, require the operator to include additional information in the reclamation plan. Such information may include, but is not limited to, one (1) or more of the following:

i. A description of the quantities, size, geologic characteristics, and durability of the materials to be used for final reclamation and armoring. (7-1-21)

ii. A description of how the coarse and durable materials will be handled and/or stockpiled, including a schedule for such activities that will ensure adequate quantities are available during reclamation. (7-1-21)

f. The director may, after considering the type, size, and potential environmental impact of the facility, require the operator to provide a geotechnical analysis and report. If failure of these structures can reasonably be expected to impact adjacent surface or ground waters or adjacent private or state-owned lands, the analysis may be required to consider the long-term stability of these structures, the potential for ground water accumulation, and the expected seismic accelerations at the site. The report must bear the imprint of an Idaho licensed professional engineer that is both signed and dated by the engineer. The report shall show that the following features, if present, are designed in a manner that is consistent with industry standards to minimize the potential for failure:

i. Any waste rock or overburden stockpiles; (7-1-21)

ii. Any pit walls proposed to be more than one hundred (100) feet high; and (7-1-21)

iii. Any pit walls where geologic conditions could lead to failure of the wall regardless of the height. (7-1-21)

g. Underground mines must provide the following additional information: (7-1-21)
i. Location and dimensions of all underground mine openings at the ground surface, including but not limited to vents, shafts, and adits; and

ii. A description of how each mine opening in subparagraph 070.04.g.i of these rules will be secured during reclamation to eliminate hazards to human health and safety.

h. A description of post-closure activities that includes the proposed length of the post-closure period and the following:

i. A summary of procedures and methods for water management including any likely IPDES permit, stormwater permit, and monitoring required for any ground water point of compliance, along with sufficient information to support a cost estimate for such water management activities.

ii. Care and maintenance for facilities after mining has ceased.

i. Other pertinent information the Department has determined is necessary to ensure that the operator will comply with the requirements of the chapter.

05. Operating Plan Requirements. A complete operating plan shall consist of:

a. Ore, tailings, and waste rock handling flow sheets and diagrams.

b. Waste rock management plan.

c. Water quality monitoring locations.

d. Anticipated concurrent reclamation prior to the cessation of mining.

e. Estimated throughput and timeline for mining.

f. Types of ore processing and beneficiation.

g. Process fluid pond volumes and anticipated contents, if applicable.

06. Monitoring Data. The Department will, as needed and through consultation with DEQ, obtain the operator’s baseline data on ground water or surface water gathered during the planning and permitting process for the operation, and may require the operator to furnish additional monitoring data during the life of the project. This will not require any additional monitoring data where such data is already provided under an IPDES permit, SWPPP, ground water point of compliance, or other federal or state requirements for collecting surface or ground water data.

071. APPLICATION PROCEDURE AND REQUIREMENTS FOR PERMANENT CLOSURE OF CYANIDATION FACILITIES.

01. Permanent Closure Plan Approval Required. No operator shall operate a new cyanidation facility or materially modify or materially expand an existing cyanidation facility prior to obtaining a permit, approval from the director and before the operator has filed financial assurance, as required by these rules.

02. Permanent Closure Plan Requirements. A permanent closure plan shall:

a. Identify the current owner of the cyanidation facility and the party responsible for the permanent closure and the long-term care and maintenance of the cyanidation facility;

b. Include a timeline showing:

i. The schedule to complete permanent closure activities, including neutralization of process waters and material stabilization, and the time period for which the operator is responsible for post-closure activities; and
ii. If the operator plans to complete construction, operation, and/or permanent closure of the cyanidation facility in phases, the schedule to begin each phase of construction, operation, and/or permanent closure activities and any associated post-closure activities.

(7-1-21)

c. Provide the objectives, methods, and procedures that will achieve neutralization of process waters and material stabilization during the closure period and through post-closure;

(7-1-21)

d. Provide a water management plan from the time the cyanidation facility is in permanent closure through the defined post-closure period. The plan must be prepared in accordance with IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation,” administered by the DEQ, as required to meet the objectives of the permanent closure plan.

(7-1-21)

e. Include the schematic drawings for all BMPs that will be used during the closure period, through the defined post-closure period, and a description of how the BMPs support the water management plan, and an explanation of the water conveyance systems that are planned for the cyanidation facility.

(7-1-21)

f. Provide proposed post-construction topographic maps and scaled cross-sections showing the configuration of the final heap or tailing facility, including the final cap and cover designs and the plan for long-term operation and maintenance of the cap. Caps and covers used as source control measures for cyanidation facilities must be designed to minimize the interaction of meteoric waters, surface waters, and ground waters with wastes containing pollutants that are likely to be mobilized and discharged to waters of the state. Prior to approval of a permanent closure plan, engineering designs and specifications for caps and covers must bear the imprint of an Idaho licensed professional engineer that is both signed and dated by the engineer;

(7-1-21)

(g. Include monitoring plans for surface and ground water during closure and post-closure periods, adequate to demonstrate water quality trends and to ensure compliance with the stated permanent closure objectives and the requirements of the chapter;

(7-1-21)

h. Provide an assessment of the potential impacts to soils, vegetation, and surface and ground waters for all areas to be used for the land application system and provide a mitigation plan, as appropriate.

(7-1-21)

i. Provide information on how the operator will comply with the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 et seq.; Idaho Hazardous Waste Management Act, Chapter 44, Title 39, Idaho Code; Idaho Solid Waste Management Act, Chapter 74, Title 39, Idaho Code; and appropriate state rules, during operation and permanent closure;

(7-1-21)

j. Provide sufficient detail to allow the operator to prepare an estimate of the reasonable costs to implement the permanent closure plan;

(7-1-21)

k. Provide an estimate of the reasonable estimated costs to complete the permanent closure activities specified in the permanent closure plan in the event the operator fails to complete those activities. The estimate shall:

(7-1-21)

i. Identify the incremental costs of attaining critical phases of the permanent closure plan and a proposed financial assurance release schedule;

(7-1-21)

ii. Assume that permanent closure activities will be completed by a third party whose services are contracted for by the Board as a result of a financial assurance forfeiture under Section 47-1513, Idaho Code.

(7-1-21)

l. If the proposal is to complete cyanidation facility construction, operation, and/or permanent closure activities in phases:

(7-1-21)

i. Describe how these activities will be phased and how, after the first phase of activities, each subsequent phase will be distinguished from the previous phase or phases; and
ii. Describe how any required post-closure activities will be addressed during and after each subsequent phase has begun. (7-1-21)

m. Provide any additional information that may be required by the Department to ensure compliance with the objectives of the permanent closure plan and the requirements of the chapter. (7-1-21)

03. Preapplication Conference. Prospective applicants are encouraged to meet with the Department well in advance of preparing and submitting an application package to discuss the anticipated application requirements and application procedures, and to arrange for a visit or visits to the proposed location of the cyanidation facility. The preapplication conference may trigger a period of collaborative effort between the Department, the DEQ, and the applicant in developing checklists to be used by the agencies in reviewing an application for completion, accuracy, and protectiveness. (7-1-21)

04. Application Package for Permanent Closure. An application and its contents submitted to the Department will be used to determine whether an applicant can complete all permanent closure activities in conformance with all applicable state laws. An application must provide information in sufficient detail to allow the director to make necessary application review decisions regarding cyanidation facility closure and protection of public health, safety, and welfare, in accordance with the chapter. A complete application package must be submitted to the Department. A complete application package for an operator proposing to use cyanidation shall consist of:

a. A Department application form completed, signed, and dated by the applicant. This form shall contain the following information:

i. Name, location, and mailing address of the cyanidation facility;

ii. Name, mailing address, and phone number of the operator. An out-of-state operator shall designate an in-state agent authorized to act on his behalf. In case of an emergency that requires actions to prevent environmental damage, both the operator and his agent will be notified;

iii. Land ownership status (federal, state, private or public);

iv. The legal description to the quarter-quarter section of the location of the proposed cyanidation facility; and

v. The legal structure (corporation, partnership, etc.) and primary place of business of the operator.

b. Evidence that the applicant is authorized by the Secretary of State to conduct business in the state of Idaho;

c. A permanent closure plan as prescribed in Subsection 071.02;

d. The DEQ application and supporting materials;

e. The fee as defined in Subsection 071.05.a.

05. Application Fee. The application fee shall consist of two (2) parts:

a. Processing and review fee.

i. The applicant shall pay a nonrefundable five thousand dollar ($5,000) fee upon submission of an application. Within thirty (30) days of receiving an application and this fee, the director shall provide a detailed cost estimate to the operator which includes a description of the scope of the Department’s review; the assumptions on which the Department’s estimate is based; and an itemized accounting of the anticipated number of labor hours, hourly labor rates, travel expenses and any other direct expenses the Department expects to incur, and indirect expenses equal to ten percent (10%) of the Department’s estimated direct costs, as required to satisfy its statutory
b. Permanent closure cost estimate verification fee.

i. Pursuant to Sections 47-1506(g) and 47-1508(f), Idaho Code, the Department may employ a qualified independent party, acceptable to the operator and the Board, to verify the accuracy of the permanent closure cost estimate.

ii. The applicant is solely responsible for paying the Department’s cost to employ a qualified independent party to verify the accuracy of the permanent closure cost estimate. The applicant may participate in the Department’s processes for identifying qualified parties and selecting a party to perform this work.

iii. If a federal agency has responsibility to establish the financial assurance amount for permanent closure of a cyanidation facility on federal land, the Department may employ the firm retained by the federal agency to verify the accuracy of the permanent closure cost estimate. If the director chooses not to employ the firm retained by the federal agency, he shall provide a written justification explaining why the firm was not employed.

072. -- 079. (RESERVED)

080. PROCEDURES FOR REVIEW AND DECISION UPON AN APPLICATION FOR A RECLAMATION PLAN OR PERMANENT CLOSURE PLAN.

01. Return of Application. Within thirty (30) days after receipt of a reclamation plan or permanent closure plan by the Department, an application may be returned for correction and resubmission if either the reclamation plan or permanent closure plan are incomplete. Return of an application by the director shall constitute a rejection in accordance with Section 47-1507(b), Idaho Code.

02. Agency Notification and Comments.

a. Nonconfidential materials submitted under Sections 069, 070, and 071 will be forwarded by the director to the Idaho Departments of Water Resources, Environmental Quality, and Fish and Game for review and comment. The director may decide not to circulate applications submitted under Section 069 if the director determines the impacts of the proposed activities are minor and do not involve surface or ground waters. The director may provide public notice on receipt of a reclamation plan or permanent closure plan. In addition, nonconfidential contents of an application will be provided to individuals who request the information in writing, as required by the Idaho Public Records Act.
b. Upon receipt of a complete application for a reclamation plan or a permanent closure plan, the director shall provide notice to the cities and counties where the mining or cyanidation facility operation is proposed, in accordance with Section 47-1505(7), Idaho Code. The notice shall include the name and address of the operator, the procedure and schedule for the Department’s review, and an invitation to review nonconfidential portions of the application, if requested in writing. Such notice will be provided upon receipt of a reclamation plan, a permanent closure plan, or any amended plan for an existing operation, or an amended cost estimate to complete permanent closure of a cyanidation facility, if required under the chapter and these rules. (7-1-21)T

03. Decision on Reclamation Plans. The director shall review a new reclamation plan or an amended reclamation plan pursuant to Sections 47-1507 and 47-1508, Idaho Code. (7-1-21)T

a. Approval. (7-1-21)T

i. Within sixty (60) days of receipt of an application that complies with Subsections 069 and 070 of these rules, the Department shall provide written notice to the applicant that the reclamation plan or any amendment(s) to an approved reclamation plan is approved or denied and, if approved, the amount of the financial assurance required; or (7-1-21)T

ii. If the director does not take action within sixty (60) days, a reclamation plan or any amendments thereof is deemed to comply with the chapter, unless the sixty (60) day time period is extended pursuant to Section 47-1507(c), Idaho Code. (7-1-21)T

iii. The operator and director may agree, in writing, to implement additional actions with respect to reclamation that extend beyond the requirements set forth in these rules. (7-1-21)T

b. Inspections. The director may determine that an inspection of the proposed mining site location is necessary if the inspection will provide additional information or otherwise aid in processing of the application. (7-1-21)T

i. If the director decides to perform an inspection, the applicant will be contacted and asked that he or an authorized employee or agent be present. This rule shall not prevent the Department from making an inspection of the site if the applicant does not appear. (7-1-21)T

ii. If weather conditions preclude an inspection of a proposed mining operation, the director shall provide written notice to the applicant that review of the reclamation plan or an amended reclamation plan has been suspended until weather conditions permit an inspection, and that the schedule for a decision will be extended for up to thirty (30) days after weather conditions permit such inspection in accordance with Section 47-1507(c), Idaho Code. (7-1-21)T

04. Decision on Cyanidation Facility Permanent Closure Plans. Pursuant to Sections 47-1507 and 47-1508, Idaho Code, following review of a complete application, the director shall: (7-1-21)T

a. Coordination with DEQ. Initiate a coordinated interagency review of the application by providing a notice in writing to the DEQ director that the Department has received an application for permanent closure of a cyanidation facility; (7-1-21)T

b. Approval. (7-1-21)T

i. Within one-hundred eighty (180) days of receipt of an application that complies with Subsection 071.04 of these rules, the Department shall provide written notice to the applicant that the permanent closure plan is approved or denied and, if approved, the amount of the permanent closure financial assurance required; or (7-1-21)T

ii. If the director does not take action within one-hundred eighty (180) days, a permanent closure plan, or any amendments thereof, is deemed to comply with the provisions of the chapter, unless the one hundred eighty (180) day time period is extended in accordance with Section 47-1507(c), Idaho Code. (7-1-21)T
c. Inspections. The director may determine that it is necessary to inspect the proposed cyanidation facility location if the inspection will provide additional information or otherwise aid in processing of the application.

i. If the director determines to inspect the site, the applicant will be contacted and asked that he or an authorized employee or agent be present. The Department may proceed with an inspection if the applicant or his designated employee or agent does not appear.

ii. If weather conditions preclude an inspection of the proposed cyanidation facility, the director shall provide written notice to the applicant that processing of the application has been suspended until weather conditions permit an inspection, and that the schedule for a decision is extended for up to thirty (30) days after weather conditions permit such inspection in accordance with Section 47-1507(c), Idaho Code.

05. Permanent Closure Plan Approval.

a. The Department may condition its approval on issuance of a permit by the DEQ for the cyanidation facility.

b. Except for the concurrent and additional permanent closure requirements that may be established in a permit issued by the DEQ pursuant to Section 39-118A, Idaho Code and IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation,” an approved permanent closure plan shall define the nature and extent of the operator’s obligation under the chapter.

c. The permanent closure plan, as approved by the Department in coordination with the DEQ, will be incorporated by reference into the cyanidation facility permit issued by DEQ as a permit condition and will be enforceable as such. The operator shall ensure that closure complies with the approved permanent closure plan and any additional permanent closure requirements as outlined in the permit issued by DEQ.

d. No sooner than one hundred and twenty (120) days after an application for a permanent closure plan has been submitted to the Department, the applicant may submit a reclamation plan as required by Section 070 of these rules. The Department will review and approve the reclamation plan in accordance with Subsection 080 of these rules.

e. Approval of a permanent closure plan by the Department is required even if approval of such plan has been or will be obtained from an appropriate federal agency.

06. Denial of an Application. If the director rejects an application, the director shall deliver in writing to the applicant a statement of the reasons the application has been rejected, the factual findings upon which the rejection is based, a statement of the applicable statute(s) and rule(s), the manner in which the application failed to fulfill the requirements of these rules, and the action that must be taken or conditions that must be satisfied to meet the requirements of the chapter and these rules. The applicant may submit an amended application in accordance with Sections 069, 070 or 071 of these rules for review and, if appropriate, approval by the Department. The director shall deny a reclamation plan, permanent closure plan, or any amendments thereof if:

a. The application is inaccurate or incomplete;

b. The cyanidation facility as proposed cannot be conditioned for construction, operation, and closure to protect public safety, health, and welfare, in accordance with the scope and intent of these rules, or to protect beneficial uses of the waters of the state, as determined by the DEQ pursuant to Section 39-118A, Idaho Code and IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation” and other DEQ rules cited therein.

07. Public Hearing. The director may call a public hearing to determine whether a proposed application complies with the chapter and these rules. A hearing will be conducted in accordance with Section 110 of these rules.

08. Referral to Board. The director may refer the decision concerning an application to the Board. This action will not extend the time period for a decision to approve or deny an application.
09. Appeal of Final Order. Any final order of the Board regarding an application for a mining reclamation plan or for permanent closure of a cyanidation facility may be appealed as set forth in Section 47-1514, Idaho Code.

081. -- 089. (RESERVED)

090. AMENDING AN APPROVED RECLAMATION PLAN.

01. Cause for Reclamation Plan Amendment. In the event circumstances arise that necessitate amendments to an approved reclamation plan, the operator shall submit an application to amend the plan and state the reasons the amendment is necessary. Either the operator or the director may initiate a process to amend an approved reclamation plan. If the director identifies a material change he believes requires a change in the reclamation plan, the director must deliver in writing to the operator a detailed statement identifying the material change and the action(s) necessary to address the material changes. Plan amendments have the same requirements as described in Section 069 and 070 of these rules.

02. Review of Amendment. The director will process an application to amend a plan in accordance with Sections 080 and 110 of these rules, provided, however, that no land or aspect or provision of an approved reclamation plan that would not be affected by the proposed amendment, is subject to the amendment, review or reapproval in connection with processing the application. Approval of an amendment shall not be conditioned upon the performance of any actions not required by the approved reclamation plan or the proposed amendment itself, unless the operator agrees to perform such actions.

03. Adjustments. Adjustments to an approved reclamation plan may be made by agreement between the director and the operator, if the adjustment is consistent with the overall objectives of the approved reclamation plan and so long as applicable surface and ground water quality standards will be met. Adjustments are due to changes that are smaller than material changes.

091. AMENDING AN APPROVED PERMANENT CLOSURE PLAN.

01. Cause for Permanent Closure Plan Amendment. In the event circumstances arise that necessitate amendments to an approved permanent closure plan, the operator shall submit an application to amend the permanent closure plan and state the reasons the amendment is necessary. Either the operator or the director may initiate a process to amend an approved permanent closure plan. Circumstances that could require a permanent closure plan to be amended include:

a. A material modification or material expansion in the cyanidation facility design or operation for which the approved permanent closure plan is no longer adequate;

b. Conditions substantially different from those anticipated in the original permit for which the approved permanent closure plan is no longer adequate; or

c. A material change as defined in Subsection 010.09 of these rules.

02. Modifications at an Operator’s Request. Requests from an operator to modify a permanent closure plan must be submitted to the Department in writing. The director shall process an application for amendment in accordance with Section 080 of these rules. An application to amend a permanent closure plan shall include:

a. A written description of the circumstances that necessitate the amendment;

b. Data supporting the request;

c. The proposed amendment;

d. A description of how the amendment will impact the estimated cost to complete permanent closure.
pursuant to the chapter; (7-1-21)

e. A cost estimate to implement the amended permanent closure plan, prepared in accordance with Subsection 071.02 of these rules; and (7-1-21)

f. Payment of a reasonable fee as may be determined by the director in accordance with Section 47-1508, Idaho Code. (7-1-21)

03. Modification at Request of Director. If, following consultation with the DEQ, the director determines that cause exists to amend the permanent closure plan the director shall notify the operator in writing of his determination and explain the circumstances that have arisen which require the permanent closure plan to be amended. Within thirty (30) days or as agreed by the operator and the Department, the operator shall submit an application to amend the permanent closure plan in accordance with Subsection 091.02. (7-1-21)

04. Adjustment. Adjustments to an approved permanent closure plan may be made by agreement between the director and the operator, if the adjustment is consistent with the overall objectives of the approved permanent closure plan and so long as applicable surface and ground water quality standards will be met. (7-1-21)

092. -- 099. (RESERVED)

100. DEVIATION FROM AN APPROVED RECLAMATION PLAN.

01. Unforeseen Events. If a mining operator finds that unforeseen events or unexpected conditions require immediate change from an approved plan, the operator may continue mining in accordance with the procedures dictated by the changed conditions, pending submission and approval of an amended plan, even though operations do not comply with the approved reclamation plan on file with the Department. This shall not excuse the operator from complying with the requirements of Sections 140 and 120 of these rules. (7-1-21)

02. Notification. The operator shall notify the director, in writing, within ten (10) days of the discovery of conditions that require deviation from the approved plan. A proposed amendment to the reclamation plan must be submitted by the operator within thirty (30) days of the discovery of those conditions. (7-1-21)

101. -- 109. (RESERVED)

110. PUBLIC HEARING.

01. Call for a Hearing. A public hearing called by the director following receipt of a complete application submitted in accordance with Sections 069, 070, or 071 of these rules is conducted in accordance with Section 47-1507(d), Idaho Code. The director may call for a hearing following his preliminary review of an application for a new operation or an amendment application for an existing operation when one (1) or more of the following circumstances arises:

a. Public Concern. The public, potentially affected landowners, any governmental entity, or any other interested parties who may be affected by the operations proposed under the chapter have registered, in writing, a concern with the director regarding the proposed operations or cyanidation facility. The purpose of the public hearing is to gather written and oral comments as to whether the proposed reclamation plan or permanent closure plan meets the requirements of the chapter and these rules. (7-1-21)

b. Agency Concern. The director determines, after consultation with the Department of Water Resources, DEQ, the Department of Fish and Game, and affected Indian tribes that the proposed mining or cyanidation facility operations could reasonably be expected to significantly degrade adjacent surface and/or ground waters or otherwise threaten public health, safety or welfare. The purpose of a public hearing held under this subsection will be to receive written and oral comments on the measures the operator is proposing to use to protect surface and/or ground water quality from nonpoint source pollution. (7-1-21)

02. Consolidation. If the director determines that a hearing should be held, he shall order that such proceedings be consolidated. The applicant and the public must be advised of the specific subjects to be discussed at
the hearing at least twenty (20) days prior to the hearing. The Department will coordinate with the DEQ, as appropriate, for any hearings relating to permanent closure of a cyanidation facility to streamline application processing.

03. Location. A hearing will be held in the locality of the proposed mine or a proposed cyanidation facility at a reasonably convenient time and place for public participation. The director may call for more than one hearing when conditions warrant.

04. Notice of Hearing. The director shall provide at least twenty (20) days’ advance notice of the date, time, and place of the hearing to: federal, state, and local governmental agencies, Indian tribes who may have an interest in the decision as shown on the application, and the public; to all persons who petitioned for a hearing; and to any person identified by the applicant under Subsection 070.02 as a legal owner of the land that will likely be affected by the proposed operations. Notice to the applicant must be sent by certified mail and postmarked not less than twenty (20) days before the scheduled public hearing date.

05. Publication of Notice. The director shall provide at least twenty (20) days advance notice to the general public of the date, time, and place of the hearing. A newspaper advertisement will be placed once a week, for two (2) consecutive weeks, in the locale of the area covered by the application.

a. In the event a hearing is ordered under Section 110, the notice shall describe:
   i. The potentially significant surface water quality impacts from the proposed mining operation and the operator’s description of the measures that will be used to prevent degradation of adjacent surface and ground waters from sources of pollution; or
   ii. The objectives of a permanent closure plan that have been submitted for review.

b. A copy of the application will be placed for review in a public place in the local area of the proposed mining operation or cyanidation facility, in the closest Department area office, and the Department’s administrative office in Boise.

06. Hearing Officer. The hearing will be conducted by the director or his designated representative. Both oral and written testimony will be accepted. Proceedings of the hearing will be recorded on audio tape and a verbatim transcript will be prepared.

07. Consideration of Hearing Record. The Department will consider the hearing record when reviewing reclamation plans or permanent closure plans for final approval or rejection.

111. COMPLETION OF PERMANENT CLOSURE.

01. Implementation of a Permanent Closure Plan. Unless otherwise specified in the approved permanent closure plan, an operator must begin implementation of the approved permanent closure plan as follows:

a. Within two (2) years of the final addition of new cyanide to the ore process circuit; or
b. If the product recovery phase of the cyanidation facility has been suspended for a period of more than two (2) years.

02. Submittal of a Permanent Closure Report. The operator must submit a permanent closure report to the Department for review and approval. A permanent closure report must be of sufficient detail for the directors of the Department and DEQ to issue a determination that permanent closure, as defined by Subsection 010.15 of these rules, has been achieved. The permanent closure report shall address:

a. The effectiveness of material stabilization;

b. The effectiveness of the water management plan and the adequacy of the monitoring plan;
21) The final configuration of the cyanidation facility and its operational/closure status; (7-1-21)

c. The post-closure operation, maintenance, and monitoring requirements, and the estimated reasonable cost to complete those activities; (7-1-21)

d. The operational/closure status of any land application site of the cyanidation facilities; (7-1-21)

e. Source control systems that have been constructed or implemented to eliminate, mitigate, or contain short- and long-term discharge of pollutants from the cyanidation facility, unless otherwise permitted; (7-1-21)

f. The short- and long-term water quality trends in surface and groundwater through the statistical analysis of the existing monitoring data pursuant to the ore-processing by cyanidation permit; (7-1-21)

g. Ownership and responsibility for the site upon permanent closure during the defined post-closure period; (7-1-21)

h. The future beneficial uses of the land, surface and ground waters in and adjacent to the closed cyanidation facilities; and (7-1-21)

i. How the permanent closure of the cyanidation facility complies with the Resource Conservation and Recovery Act, Hazardous Waste Management Act, Solid Waste Management Act, and appropriate rules. (7-1-21)

03. Review of a Permanent Closure Report. The Department will immediately forward a copy of the permanent closure report to DEQ for their review and comment. (7-1-21)

112. DECISION TO APPROVE OR DISAPPROVE OF A PERMANENT CLOSURE REPORT.

01. Receipt of a Permanent Closure Report. Within sixty (60) days of receipt of a permanent closure report, the director shall issue to the operator a director’s determination of approval or disapproval of the permanent closure report. (7-1-21)

02. Permanent Closure Report Is Disapproved. The director’s determination to approve or disapprove a permanent closure report will be based on the permanent closure report’s demonstration that permanent closure has resulted in long-term neutralization of process waters and material stabilization. If a permanent closure report is disapproved, the director shall provide in writing identification of:

a. Errors or inaccuracies in the permanent closure report; (7-1-21)

b. Issues or details that require additional clarification; (7-1-21)

c. Failures to fully implement the approved permanent closure plans; (7-1-21)

d. Failures to ensure protection for public health, safety, and welfare or to prevent degradation of waters of the state; (7-1-21)

e. Outstanding violations or other noncompliance issues; and (7-1-21)

f. Other issues supporting the Department’s disagreement with the contents, final conclusions or recommendations of the permanent closure report. (7-1-21)

113. -- 119. (RESERVED)

120. FINANCIAL ASSURANCE REQUIREMENTS.
01. **Submittal of Financial Assurance Before Mining.** Prior to beginning any mining on a mine panel covered by a reclamation plan, an operator shall submit to the director, on a Department form, financial assurance meeting the requirements of this rule.  

02. **Submittal of Financial Assurance Before Operating a Cyanidation Facility.** Prior to beginning operation of a cyanidation facility an operator will submit to the director, on a Department form, financial assurance meeting the requirements of Section 47-1512(a)(2), Idaho Code. The financial assurance will be in an amount equal to the total costs estimated under paragraph 071.02.k. and Section 120 of these rules.

03. **Timely Financial Assurance Submittal.** Financial assurance must be received by the Department within twenty-four (24) months of reclamation or permanent closure plan approval or the Department will cancel the respective plan without prejudice. If financial assurance is not received within eighteen (18) months of a plan approval, the Department will notify the operator that financial assurance is required prior to the twenty-four (24) month deadline. Extensions will be granted by the director for reasonable cause given if a written request is received prior to the deadline. If financial assurance or an extension request is not received by the deadline, the plan will be canceled. The operator must then submit a new plan application and application fee to restart the approval process.

04. **Phased Financial Assurance.** If the Department approves a reclamation plan or permanent closure plan with phased financial assurance, then financial assurance may increase incrementally commensurate with the additional reclamation or permanent closure liability. After construction and operation of the initial phase has commenced and after filing by an operator of the initial financial assurance, an operator will not construct any component of a subsequent phase or phases of the subject mine or cyanidation facility before filing the additional financial assurance amount that is required by the Board. If phased financial assurance is not authorized, the operator is required to file the financial assurance amount required to complete reclamation or permanent closure of all planned phases prior to any construction of the mine or operation of the cyanidation facility.

05. **Financial Assurance for Mines with Five (5) or Less Disturbed Acres.** Financial assurance will be a minimum of five thousand dollars ($5,000) per acre unless the operator or the Department determine that the estimated reasonable costs of reclamation require a different amount. No financial assurance may exceed fifteen thousand dollars ($15,000) for a given acre of affected land unless the condition in Subsection 120.07 of these rules have been met.

06. **Financial Assurance for Cyanidation Facility Affecting Five (5) or Less Disturbed Acres.** The Board may require financial assurance in excess of five million dollars ($5,000,000) if the conditions in Subsection 120.07 of these rules have been met.

07. **Process for Requiring Higher Financial Assurance.** Financial assurance in excess of the amounts in Subsections 120.05 and 06 of this rule may only be obtained if:  

a. The Board has determined that such financial assurance is necessary to meet the requirements of the chapter; and  

b. The Board has delivered to the operator, in writing, a notice setting forth the reasons it believes such financial assurance is necessary; and  

c. The Board has conducted a hearing where the operator is allowed to give testimony to the Board concerning the amount of the proposed financial assurance, as provided by Section 47-1512, Idaho Code. This requirement for a hearing may be waived, in writing, by the operator.

08. **Financial Assurance for Mine or Cyanidation Facility with More than Five (5) Disturbed Acres.** The amount of financial assurance must be the amount necessary for the Board to pay the estimated reasonable costs of reclamation required under the reclamation plan or permanent closure plan, including indirect costs in Section 120 of these rules.

09. **Mobilization Costs are Direct Costs.** Mobilization and demobilization costs will be included in
financial assurance calculations as a direct cost. Costs will be calculated to the mine from the nearest community that has at least two (2) contractors able to perform the reclamation.

10. **Indirect Costs for Reclamation Cost Calculations.** Reclamation and permanent closure cost calculations shall include the following indirect costs and should fall within the percentages given. If a different percentage is used, then a justification must be given. Alternatively, an operator may propose the use of an industry recognized standardized reclamation cost estimation tool for use in reclamation and/or permanent closure cost estimates and the use of the tool’s associated indirect costs which are established using the project direct costs as identified:

   a. Contractor profit at six percent to ten percent (6% to 10%) of direct costs;  
   b. Contractor overhead at four percent to eight percent (4% to 8%) of direct costs;  
   c. Contractor insurance at one and a half percent (1.5%) of labor costs;  
   d. Contractor bonding at two and a half percent to three and a half percent (2.5% to 3.5%) of direct costs;  
   e. Contract administration at five percent to nine percent (5% to 9%) of direct costs;  
   f. Re-engineering for mines or cyanidation facilities with direct reclamation costs over five hundred thousand dollars ($500,000). Re-engineering will be three percent to seven percent (3% to 7%) of direct costs;  
   g. Scope contingency at six percent to eleven percent (6% to 11%) of direct costs;  
   h. Bid contingency at six percent to eleven percent (6% to 11%) of direct costs;  
   i. Other site specific costs as appropriate.

11. **Salvage Value Not Allowed.** Reclamation or permanent closure costs will not be reduced by assigning a salvage value to structures or fixtures to be removed during reclamation.

12. **Mining Operation Conducted by Public or Government.** Notwithstanding any other provision of law to the contrary, the financial assurance provisions of the chapter and these rules do not apply to any surface mining operations conducted by a public or governmental agency for maintenance, repair, or construction of a public highway.

13. **Annual Financial Assurance Review for Reclamation Plans.** At the beginning of each calendar year, the operator shall notify the director of any increase in the acreage of affected land beyond that covered by the existing financial assurance which will result from planned mining activity within the next twelve (12) months. A commensurate increase in the financial assurance will be required for an increase in affected acreage. Any additional financial assurance required must be submitted on the appropriate form within ninety (90) days of operator’s receipt of notice from the Department that an additional amount is required. In no event will mining operations be conducted that would affect additional acreage until the appropriate form and financial assurance has been submitted to the Department. Acreage on which reclamation is complete will be reported in accordance with Subsection 120.16 of these rules and after release of this acreage from the reclamation plan by the director, the financial assurance will be reduced by the amount appropriate to reflect the completed reclamation.

14. **Financial Assurance Provided to the Federal Government.** Any financial assurance provided to the federal government that also meets the requirements of Section 120 of these rules will be sufficient for the purposes of these rules. A mine providing financial assurance through an order under the Comprehensive Environmental Response, Compensation, and Liability Act is not required to submit financial assurance to the Department as described in Idaho Code 47-1512(n).

15. **Financial Assurance Reduction for Mines.**
a. An operator may petition the director for a change in the initial financial assurance amount. The director will review the petition and if satisfied with the information presented a revised financial assurance amount will be determined. The revised amount will be based upon the estimated cost that the director would incur should a forfeiture of financial assurance occur and it became necessary for the director, through contracting with a third party, to complete reclamation to the standards established in the plan. (7-1-21)T

b. Upon finding that any land covered by financial assurance will not be affected by mining, the operator will notify the director. The amount of the financial assurance will be reduced by the amount being held to reclaim those lands. (7-1-21)T

c. Any request for financial assurance reduction will be answered by the director within thirty (30) days of receiving such request unless weather conditions prevent inspection. (7-1-21)T

16. **Financial Assurance Release Following Mine Reclamation.** Upon completion of all or a portion of the reclamation or post-closure activity specified in the plan, the operator may notify the director of his desire to secure release from financial assurance. When the director has verified that the requirements of the reclamation plan have been substantially met as stated in the plan, the financial assurance will be released. (7-1-21)T

a. Any request for financial assurance release will be answered by the director within thirty (30) days of receiving such request unless weather conditions prevent inspection. (7-1-21)T

b. If the director finds that a specific portion of the reclamation or post-closure has been substantially completed, the financial assurance may be reduced to the amount required to complete the remaining reclamation or post-closure. The following schedule will be used to complete these financial assurance reductions unless the director determines in a specific case that this schedule is not appropriate and specifies a different schedule, or the approved reclamation plan has a different schedule based on site-specific conditions. (7-1-21)T

i. Sixty percent (60%) of the financial assurance may be released when the operator completes the required backfilling, regrading, topsoil replacement, and drainage control of a specific area in accordance with the approved reclamation plan; and (7-1-21)T

ii. After revegetation activities have been performed by the operator on the regraded lands, according to the approved reclamation plan, the Department may release an additional twenty-five percent (25%) of the financial assurance. (7-1-21)T

c. The remaining financial assurance shall not be released:

i. As long as the affected lands are contributing suspended solids to surface waters outside the affected area in excess of state water quality standards and in greater quantities than existed prior to the commencement of mining operations; (7-1-21)T

ii. Until final removal of equipment and structures related to the mining activity or until any remaining equipment and structures are brought under an approved reclamation plan and financial assurance by a new operator; and (7-1-21)T

iii. Until all temporary sediment or erosion control structures have been removed and reclaimed or until such structures are brought under an approved reclamation plan and financial assurance by a new operator. (7-1-21)T

17. **Corporate Guarantee Released First.** If an operator provides part of their financial assurance through a corporate guarantee, then the corporate guarantee will be released prior to any other type of financial assurance being released. Other types of financial assurance will only be released after the corporate guarantee has been completely released. (7-1-21)T

18. **Cooperative Agreements.** The director may through private conference, conciliation, and persuasion reach a cooperative agreement with the operator to correct deficiencies in complying with the reclamation
plan and thereby postpone action to forfeit the financial assurance and cancel the reclamation plan if all deficiencies are satisfactorily corrected within the time specified by the cooperative agreement.

19. **Permanent Closure Financial Assurance Review.** The Department will periodically review all financial assurances filed for permanent closure to determine their sufficiency to complete the work required by an approved permanent closure plan. For reviews conducted under paragraphs a and b the director may employ a qualified independent party to verify the accuracy of the revised permanent closure cost estimate as described in paragraph 071.05.b. of these rules.

   a. Once every three (3) years, the operator must submit an updated permanent closure cost estimate to the Department for review. The director will review the updated estimate to determine whether the existing financial assurance amount is adequate to implement the permanent closure plan, as approved by the Department. Any resulting change in the financial assurance amount does not in and of itself require an amendment to the permanent closure plan as may be required by Section 091 of these rules. The director will review the estimate to determine whether the existing financial assurance amount is adequate to complete permanent closure of the cyanidation facility.

   b. When the director determines that there has been a material change in the estimated reasonable costs to complete permanent closure:
      i. The director will notify the operator in writing of his intent to reevaluate the financial assurance amount. Within a reasonable time period determined by the Department, the operator will provide to the Department a revised cost estimate to complete permanent closure as approved by the Department.
      ii. Within thirty (30) days of receipt of the revised cost estimate, the director will notify the operator in writing of his determination of financial assurance adequacy.
      iii. Within ninety (90) days of notification of the director’s assessment, the operator will make the appropriate adjustment to the financial assurance or the director will reduce the financial assurance as appropriate.

   c. The Department may conduct an internal review of the amount of each financial assurance annually to determine whether it is adequate to complete permanent closure.

20. **Permanent Closure Financial Assurance Release.**

   a. A financial assurance filed for permanent closure of a cyanidation facility will be released according to the schedule in the permanent closure plan. The schedule will include provisions for the release of the post-closure monitoring and maintenance portions of the financial assurance. The schedule may be adjusted to reflect the operator’s performance of permanent closure activities and their demonstrated effectiveness.

   b. Upon completion of an activity required by an approved permanent closure plan, the operator may request in writing a financial assurance reduction for that activity. The Department will notify the operator within thirty (30) days whether or not the activity meets the requirements of the permanent closure plan. When the director, in consultation with DEQ, has verified that the activity meets the requirements of the permanent closure plan, the financial assurance will be reduced by an amount to reflect the activity completed.

   c. Upon the director’s determination that all activities specified in the permanent closure plan have been successfully completed, the Department will, in accordance with Section 47-1512(i), Idaho Code, release the balance remaining after partial financial assurance releases.

21. **Liabilities for Reclamation Costs Not Covered by Financial Assurance.** An operator who is not required to furnish financial assurance by these rules but fails to reclaim may be subject to civil penalty under Section 47-1513(c), Idaho Code. The amount of civil penalty will be the estimated cost of reasonable reclamation of affected lands as determined by the director. Reasonable reclamation of the site will be presumed to be in accordance with the standards established in the approved reclamation plan. The amount of the civil penalty is in addition to those described in Section 47-1513(f), Idaho Code.
22. **Appeal Process for Financial Assurance Decisions.** All decisions regarding financial assurance extension requests, plan cancellation, financial assurance reduction, or financial assurance release as described in Section 120 of these rules are subject to appeal as described in Section 58-104, Idaho Code, and Section 47-1514, Idaho Code. (7-1-21)

121. (RESERVED)

122. **FORM OF FINANCIAL ASSURANCE.**

01. **Corporate Surety Bond.** (7-1-21)
   a. A corporate surety bond is an indemnity agreement executed for the operator and a corporate surety licensed to do business in the state of Idaho, filed on the appropriate Department form. The bond must be payable to the state of Idaho and conditioned to require the operator to faithfully perform all requirements of the chapter, and the rules in effect on the date that a reclamation plan or a permanent closure plan was approved by the Department. (7-1-21)

   b. The surety company issuing the bond must, at a minimum, be among those listed as acceptable sureties in Circular 570 of the U.S. Department of the Treasury. (7-1-21)

   c. When replacement financial assurance is submitted, the following rider must be filed with the Department as part of the replacement before the existing financial assurance will be released: “[Surety company or principal] understands and expressly agrees that the liability under this bond shall extend to all acts for which reclamation is required on areas disturbed in connection with reclamation plan or permanent closure plan [number], both prior to and subsequent to the date of this rider.” (7-1-21)

02. **Collateral Bond.** A collateral bond is an indemnity agreement executed by or for the operator, payable to the state of Idaho, pledging cash deposits, government securities, real property, time deposit receipts, or certificates of deposit of any financial institution authorized to do business in the state. Collateral bonds are subject to the following conditions. (7-1-21)

   a. The director shall obtain possession of cash or other negotiable collateral bonds, and, upon receipt, deposit them with the state treasurer to hold them in trust for the purpose of bonding reclamation or permanent closure performance. (7-1-21)

   b. The director shall value the collateral at its current market value minus any penalty for early withdrawal, not its face value. (7-1-21)

   c. Certificates of deposit or time deposit receipts are issued or assigned, in writing, to the state of Idaho and upon the books of the financial institution issuing such certificates. Interest will be allowed to accrue and may be paid by the bank, upon demand and after written release by the Department, to the operator or another person who posted the collateral bond. (7-1-21)

   d. Amount of an individual certificate of deposit or time deposit receipt may not exceed the maximum amount insured by the Federal Deposit Insurance Corporation or Federal Savings and Loan Insurance Corporation or their successors. (7-1-21)

   e. Financial institutions issuing certificates of deposit or time deposit receipts will waive all rights of set-off or liens which it has or might have against such certificates, and will place holds on those funds that prevent the operator from withdrawing funds until the Department sends a written release to the bank. (7-1-21)

   f. Certificates of deposit and time deposit receipts must be automatically renewable. (7-1-21)

03. **Letters of Credit.** A letter of credit is an instrument executed by a bank doing business in Idaho, made at the request of a customer. A letter of credit states that the issuing bank will honor drafts for payment upon compliance with the terms of the credit. Letters of credit are subject to the following conditions. (7-1-21)
a. All credits must be irrevocable and prepared in a format prescribed by the director. (7-1-21)

b. All credits must be issued by an institution authorized to do business in the state of Idaho or through a correspondent bank authorized to do business in the state of Idaho. (7-1-21)

c. The account party on all credits must be identical to the entity identified in the reclamation plan or in the permanent closure plan and on the cyanidation facility permit as the party obligated to complete reclamation or permanent closure. (7-1-21)

04. Real Property. Real property used as a collateral bond must be a perfected, first lien security interest in real property located within the state of Idaho, in favor of the state of Idaho, which meets the requirements of these rules using a deed of trust form acceptable to the Department for all lands forty (40) acres or less, or a mortgage form approved by the Department for all lands over forty (40) acres. (7-1-21)

a. The following information must be submitted for real property collateral: (7-1-21)

i. The value of the real property. The property will be valued at the difference between the fair market value and any reasonable expense anticipated by the Department in selling the property. The fair market value will be determined by an appraisal conducted by a licensed appraiser. The appraiser will be selected by the Department and the Department will provide appraisal instructions; however, the operator may propose an appraiser to the Department. The appraisal will be performed in a timely manner, and a copy sent to the Department and the operator. The expense of the appraisal will be borne by the operator. The real property will be reappraised every three (3) years; (7-1-21)

ii. A description of the property and a site improvement survey plat to verify legal descriptions of the property and to identify the existence of recorded easements; (7-1-21)

iii. Proof of ownership and title to the real property; (7-1-21)

iv. A current title binder which provides evidence of clear title containing no exceptions, or containing only exceptions acceptable to the director; and (7-1-21)

v. Phase I environmental assessment. (7-1-21)

b. Real property will not include any lands in the process of being mined, reclaimed, or planned to be mined under an approved reclamation plan. The operator may offer any lands within a reclamation plan that have received full release of financial assurances. In addition, any land used as a security will not be mined or otherwise disturbed while it is a security. The acceptance of real property within the permit boundary will be at the discretion of the director. (7-1-21)

05. Trusts. Trusts are subject to the requirements of Sections 47-1512(l) and 68-101 et seq. Idaho Code. The proposed trustee, range of investments, initial funding, schedule of payments, trustee fees, and expected rate of return are subject to review and approval by the Department through a memorandum of agreement with the operator. The trustee will invest the principal and income of the fund in accordance with general investment practices. Investments can include equities, bonds, and government securities and be well diversified in accordance with the following conditions: (7-1-21)

a. The joint party on the trust must be identical to the entity identified in the reclamation plan or in the permanent closure plan as the party obligated to complete reclamation or permanent closure. (7-1-21)

b. The trustee must be an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a federal or state agency. (7-1-21)

c. Equities may include stock funds, stock index funds, or individual stocks, but an individual stock may not exceed five percent (5%) of the total value of the trust. Direct investments in the operator’s company or parent company are not allowed. Corporate equities must not exceed seventy percent (70%) of the total value of the
trust fund. (7-1-21)T

d. Bonds or money market funds must be investment-grade rated securities from a nationally recognized securities rating service. Individual corporate bonds may not exceed five percent (5%) of the total value of the trust. (7-1-21)T

e. Payments into the trust will be made as follows: (7-1-21)T

i. When used to cover reclamation or permanent closure costs, the trust fund will be initially funded in an amount needed to cover any surface disturbance in the first year of the trust fund. Annual payments into the trust will occur as needed prior to the disturbance of additional affected land at the mine or cyanidation facility. (7-1-21)T

ii. When used to cover a portion of reclamation or permanent closure costs in combination with other types of financial assurance, the initial and annual payments will be the pro-rata amount of the reclamation or permanent closure costs as described in subparagraph 122.05.e.i of these rules. (7-1-21)T

iii. When used to cover the anticipated post-closure costs, a payment schedule will be created in the memorandum of agreement. The trust fund, together with the anticipated earnings, must be enough at the expected start of the post-closure period to cover the costs of the post-closure period. (7-1-21)T

f. Disbursements from the trust will only occur upon written authorization of the Department. Disbursements include payments to the trustee or any other payment of funds not related to financial assurance release and not specifically mentioned in the memorandum of agreement. (7-1-21)T

g. Trusts will be irrevocable. (7-1-21)T

h. Income accrued on trust funds will be retained in the trust, except as otherwise agreed by the director under the terms of an agreement governing the trust. (7-1-21)T

06. Corporate Guarantees. (7-1-21)T

a. Up to fifty percent (50%) of required financial assurance for reclamation costs may be provided by a corporate guarantee. Post-closure costs for reclamation plans and permanent closure plans cannot be covered by a corporate guarantee. (7-1-21)T

b. Only operators who submit plans under Sections 070 or 071 of these rules may provide a corporate guarantee. (7-1-21)T

c. Operators who want to provide financial assurance through a corporate guarantee must provide an audited financial statement from a third-party certified public accountant that meets the requirements of IDAPA 24.30.01, the Idaho Accountancy Rule. The audited financial statement must show the operator meets two (2) of the following three (3) criteria and the criteria in paragraph d of this section: (7-1-21)T

i. Ratio of total liabilities to stockholder’s equity is less than two (2) to one (1); (7-1-21)T

ii. Ratio of sum of net income plus depreciation, depletion, and amortization to total liabilities greater than ten one-hundredths (0.1) to one (1); or (7-1-21)T

iii. Ratio of current assets to current liabilities greater than one and fifty one-hundredths (1.5) to one (1). (7-1-21)T

d. The following financial criteria must also be met for a corporate guarantee: (7-1-21)T

i. Net working capital and tangible net worth are each equal to or greater than the total reclamation or permanent closure cost estimate; (7-1-21)T

ii. Tangible net worth of at least ten million dollars ($10,000,000); and (7-1-21)T
iii. At least ninety percent (90%) of the corporation’s total assets are in the United States, or the total assets in the United States are at least six (6) times greater than total reclamation or permanent closure cost estimate. (7-1-21)

e. A corporate guarantee can be provided by a parent company guarantor if that guarantor meets the conditions of paragraphs (c) and (d) in this section as if it were the operator. The terms of this corporate guarantee will provide for the following:

i. The operator and the parent company will submit to the Department an indemnity agreement signed by corporate officers from both companies who are authorized to bind their corporations. The operator or parent company must also provide an affidavit certifying that such an agreement is valid under all applicable federal and state laws. The indemnity agreement will bind each party jointly and severally; (7-1-21)

ii. If the operator fails to complete reclamation or permanent closure, the parent company guarantor will do so or the guarantor will be liable under the indemnity agreement to provide funds to the Department sufficient to complete reclamation or permanent closure as per the plan, but not to exceed the financial assurance amount; (7-1-21)

iii. The corporate guarantee will remain in force unless the parent company guarantor sends notice of cancellation by certified mail to the operator and to the Department at least ninety (90) days in advance of the cancellation date, and the Department accepts the cancellation; and

iv. The cancellation will be accepted by the Department only if the operator obtains replacement financial assurance before the cancellation date or if the lands for which the corporate guarantee, or portion thereof, was accepted have not been disturbed.

v. If the operator is a partnership or joint venture, the indemnity agreement will bind each partner or member who has a beneficial interest, directly or indirectly, in the operator. (7-1-21)

f. The operator, or parent company guarantor, is required to either complete the approved reclamation or permanent closure plan for the lands in default, or pay to the Department an amount necessary to complete the approved reclamation, not to exceed the amount established in Section 120 of these rules. (7-1-21)

g. The operator or parent company guarantor will submit an annual update of the information required under paragraphs (c) and (d) of this section by April 1 following the issuance of the corporate guarantee. (7-1-21)

h. If the operator or parent company guarantor’s financial fitness falls below the eligibility for providing a corporate guarantee they will immediately notify the Department, and the Department will require the operator to submit replacement financial assurance within ninety (90) days of being notified. (7-1-21)

i. The Department may require the operator or parent company guarantor to provide an update of the information in paragraphs (c) and (d) in this section at any time. The update must be provided within thirty (30) days of being requested. The requirements of paragraph (h) in this Section will then apply. (7-1-21)

07. Blanket Financial Assurance. Where an operator is involved in more than one (1) reclamation plan or permanent closure plan permitted by the Department, the director may accept a blanket financial assurance in lieu of separate reclamation or permanent closure financial assurances under the approved plans. The amount of such financial assurance must be equal to the total of the requirements of the separate financial assurances being combined into a single financial assurance, as determined pursuant to Section 47-1512, Idaho Code, and in accordance with Section 120 of these rules. The principal is liable for an amount no more than the financial assurance filed for completion of reclamation activities or permanent closure activities if the Department takes action against the financial assurance pursuant to Section 47-1513, Idaho Code and Section 123 of these rules. (7-1-21)

08. Reclamation Fund. Reclamation plans processed under Section 069 of these rules may provide financial assurance through the Reclamation Fund established by Section 47-18, Idaho Code, and IDAPA 20.03.03. If financial assurance is provided through the Reclamation Fund, no other type of financial assurance may be combined.
with it on an individual mine site. (7-1-21)

09. **Multiple Forms of Financial Assurance Accepted.** An operator may combine more than one type of financial assurance, within the limitations of each type of financial assurance, to reach the full amount of the required financial assurance for a reclamation plan or permanent closure plan. (7-1-21)

123. **FORFEITURE OF FINANCIAL ASSURANCE.**

A financial assurance may be forfeited in accordance with Section 47-1513, Idaho Code, when the operator has not conducted the reclamation or has not conducted permanent closure in accord with an approved plan and the applicable requirements of these rules. (7-1-21)

124. -- 129. **(RESERVED)**

130. **TRANSFER OF APPROVED PLANS.**

01. **Reclamation Plans.** A reclamation plan may be transferred from one (1) operator to another only after the Department’s approval. To complete a transfer, the new applicant must file a notarized assumption of reclamation plan form as prescribed by the Department and provide replacement financial assurance. The new operator is responsible for the past operator’s obligations under the chapter, these rules, and the reclamation plan. (7-1-21)

02. **Permanent Closure Plans.** An approved permanent closure plan permit may be transferred to a new operator if he provides written notice to the director that includes a specific date for transfer of permanent closure responsibility, coverage, and liability between the old and new operators no later than ten (10) days after the date of closure. An operator is required to provide such notice at the same time he provides notice to the DEQ as required IDAPA 58.01.13, “Rules for Ore Processing by Cyanidation.” To complete a transfer, the new applicant must:

   a. File a notarized assumption of permanent closure plan form as prescribed by the Department; and (7-1-21)

   b. File a replacement permanent closure plan financial assurance on a form approved by the Department. (7-1-21)

131. -- 139. **(RESERVED)**

140. **BEST MANAGEMENT PRACTICES AND RECLAMATION FOR MINING OPERATION AND PERMANENT CLOSURE OF CYANIDATION FACILITIES.**

These are the minimum standards expected for all activities covered by these rules. Specific standards for individual mines may be appropriate based on site specific circumstances, and must be described in the plan. (7-1-21)

01. **Nonpoint Source Control.**

   a. Appropriate BMPs for nonpoint source controls will be designed, constructed, and maintained with respect to site-specific mining operations or permanent closure activities. Operators shall utilize BMPs designed to achieve state water quality standards and to protect existing beneficial uses of adjacent waters of the state. State water quality standards, as administered by DEQ, is the standard that must be achieved by BMPs. (7-1-21)

   b. If the BMPs utilized by the operator do not result in compliance with Subsection 140.01.a., the director shall require the operator to modify or improve such BMPs to meet the controlling, water quality standards as set forth in current laws, rules, and regulations. (7-1-21)

02. **Sediment Control.** In addition to proper mining techniques and reclamation measures, the operator shall take necessary steps at the close of each operating season to assure that sediment movement associated with surface runoff over the area is minimized in order to achieve water quality standards, or to preserve the condition of water runoff from the mined area prior to commencement of the subject mining or exploration operations, whichever is the more appropriate standard. Sediment control measures refer to best management practices carried out within
and, if necessary, adjacent to the disturbed area and consist of utilization of proper mining and reclamation measures, as well as specific necessary sediment control methods, separately or in combination. Specific sediment control methods may include, but are not limited to:

- Keeping the disturbed area to a minimum at any given time through progressive reclamation; (7-1-21)T
- Shaping waste to help reduce the rate and volume of water runoff by increasing infiltration; (7-1-21)T
- Retaining sediment within the disturbed area; (7-1-21)T
- Diverting surface runoff around the disturbed area; (7-1-21)T
- Routing runoff through the disturbed area using protected channels or pipes so as not to increase sediment load; (7-1-21)T
- Use of riprap, straw dikes, check dams, mulches, temporary vegetation, or other measures to reduce overland flow velocities, reduce runoff volume, or retain sediment; and (7-1-21)T
- Use of adequate sediment ponds, with or without chemical treatment. (7-1-21)T

03. Clearing and Grubbing. Clearing and grubbing of land in preparation for mining exposes mineral soil to the erosive effects of moving water. Operators are cautioned to keep such areas as small as possible (preferably no more than one (1) year’s mining activity) as the operator is required to meet the applicable surface water quality standards on all such areas. Where practicable, trees and slash should be stockpiled for use in seedbed protection and erosion control. (7-1-21)T

04. Overburden/Topsoil. To aid in the revegetation of affected lands where mining operations result in the removal of substantial amounts of overburden including any topsoil, the operator should remove the available topsoil or other growth medium as a separate operation for such area. Unless there are previously affected lands which are graded and immediately available for placement of the newly removed topsoil or other growth medium, the topsoil or other growth medium will be stockpiled and protected from erosion and contamination until such areas become available. (7-1-21)T

- Overburden/Topsoil Removal. (7-1-21)T
  - Any overburden/topsoil to be removed should be removed prior to any other mining activity to prevent loss or contamination; (7-1-21)T
  - Where overburden/topsoil removal exposes land area to potential erosion, the director, under the reclamation plan, may require BMPs necessary to prevent violation of water quality standards; and (7-1-21)T
  - Where the operator can show that an overburden material other than topsoil is conducive to plant growth, or where overburden other than topsoil is the only material reasonably available, such overburden may be allowed as a substitute for or a supplement to the available topsoil. (7-1-21)T

- Topsoil Storage. Topsoil stockpiles will be placed to minimize rehandling and exposure to excessive wind and water erosion. Topsoil stockpiles will be protected as necessary from erosion by use of temporary vegetation or by other methods which will control erosion, including, but not limited to, silt fences, chemical binders, seeding, and mulching. (7-1-21)T

- Overburden Storage. Stockpiled ridges of overburden will be leveled in such a manner as to have a minimum width of ten (10) feet at the top. Peaks of overburden will be leveled in such a manner as to have a minimum width of fifteen (15) feet at the top. The overburden piles will be reasonably prepared to control erosion using best management practices; such activities may include terracing, silt fences, chemical binders, seeding, mulching or slope reduction. (7-1-21)T
d. Topsoil Placement. Abandoned affected lands must be covered with topsoil or other type of overburden that is conducive to plant growth, to the extent such materials are readily available, in order to achieve a stable uniform thickness. Excessive compaction of overburden and topsoil is to be avoided. Topsoil redistribution will be timed so that seeding, or other protective measures, can be readily applied to prevent compaction and erosion. (7-1-21)

e. Fill. Backfill and fill materials should be compacted in a manner to ensure stability. (7-1-21)

05. Roads.

a. Roads must be constructed to minimize soil erosion, which may require restrictions on the length and grade of the roadbed, surfacing of roads with durable non-toxic material, stabilization of cut and fill slopes, and other techniques designed to control erosion. (7-1-21)

b. All access and haul roads must be adequately drained. Drainage structures may include, but are not limited to, properly installed ditches, water-bars, cross drains, culverts, and sediment traps. (7-1-21)

c. Culverts that are to be maintained for more than one (1) year must be designed to pass peak flows from not less than a twenty (20) year, twenty-four (24) hour precipitation event and have a minimum diameter of eighteen (18) inches. (7-1-21)

d. Roads and water control structures will be maintained at periodic intervals as needed. Water control structures serving to drain roads must not be blocked or restricted in any manner to impede drainage or significantly alter the intended purpose of the structure. (7-1-21)

e. Roads that will not be recontoured to approximate original contours upon abandonment will be cross-ditched and revegetated, as necessary, to control erosion. (7-1-21)

f. Roads that are not abandoned and continue to be used under the jurisdiction of a governmental or private landowner, will comply with the nonpoint source sediment control provisions of Subsection 140.02 until the successor assumes control. (7-1-21)

06. Backfilling and Grading.

a. Every operator who conducts mining or cyanidation facility operations which disturb less than two (2) acres shall, where possible, contour the disturbed land to its approximate previous contour. These lands must be revegetated in accordance with Subsection 140.11. (7-1-21)

b. An operator who conducts mining or cyanidation facility operations which disturb two (2) acres or more shall reduce all waste piles and depressions to the lowest practicable grade. This grade shall not exceed the angle of repose or maximum slope of natural stability for such waste or generate erosion in which sediment enters waters of the state. (7-1-21)

c. Backfill and fill materials should be compacted in a manner to ensure mass and surface stability. (7-1-21)

d. After the disturbed area has been graded, slopes will be measured for consistency with the approved reclamation plan or the permanent closure plan. (7-1-21)

07. Disposal of Waste in Areas Other Than Mine Excavation. Waste material not used to backfill mined areas will be transported and placed in a manner designed to stabilize the waste piles and control erosion. (7-1-21)

a. The available disposal area should be on a moderately sloped, naturally stable area. The site should be near the head of a drainage to reduce the area of watershed above the fill. (7-1-21)
b. All surface water flows within the disposal area must be diverted and drained using accepted engineering practices such as a system of French drains, to keep water from entering the waste pile. These measures must be implemented in accordance with standards prescribed by the Idaho Stream Channel Protection Act, Title 42, Chapter 38, Idaho Code, and the Idaho Dam Safety Act, Sections 42-1710 through 42-1721, Idaho Code, if applicable. (7-1-21)

c. The waste material not used in backfilling mined areas should be compacted, where practical, and should be covered and graded to allow surface drainage and ensure long-term stability. (7-1-21)

d. The operator may, if appropriate, use terraces or slope reduction to stabilize the face of any fill. Slopes of the fill material should not exceed angle of repose or generate erosion in which sediment enters waters of the state. (7-1-21)

e. Unless adequate drainage is provided through a fill area, all surface water above the fill must be diverted away from the fill area into protected channels, and drainage shall not be directed over the unprotected face of the fill. (7-1-21)

f. The operator will conduct revegetation activities with respect to such waste piles in accordance with Subsection 140.11 of these rules. (7-1-21)

08. Settling Ponds; Minimum Criteria.

a. Sediment Storage Volume. Settling ponds will provide adequate sediment storage capacity to achieve compliance with applicable water quality standards and protect existing beneficial uses, and may require periodic cleaning and proper disposal of sediment. (7-1-21)

b. Water Detention Time. Settling ponds shall have an adequate theoretical detention time for water inflow and runoff entering the pond, but theoretical detention time may be reduced by improvements in pond design, chemical treatment, or other methods. (7-1-21)

c. Emergency Spillway. In addition to the sediment storage volume and water detention time, settling ponds must be designed to withstand and release storm flows as required by the Idaho Dam Safety Act, Section 42-1710 through 42-1721, Idaho Code, and Safety of Dams Rules, where applicable. (7-1-21)

09. Tailings Facilities. All tailings ponds, dams, or other types of tailings facilities must be designed, constructed, operated, and decommissioned so that upon their abandonment, the dam and impoundment area will meet applicable surface and ground water quality standards and not otherwise constitute a hazard to human or animal life. (7-1-21)

a. Design criteria, construction techniques, and decommission techniques for tailings dams and impoundments shall comply with the Idaho Dam Safety Act, Sections 42-1710 through 42-1721, Idaho Code, and applicable rules and regulations. (7-1-21)

b. Topsoil will be removed from the area to be affected by the impounding structure, tailings pond, or other tailings facilities in accordance with Subsection 140.04 of these rules. (7-1-21)

c. Abandonment and Decommissioning of Tailings Impoundments.

i. Dewatering. Tailings ponds will be dewatered to the extent necessary to provide an adequate foundation for the approved post-mining use. (7-1-21)

ii. Control of surface waters. Surface waters shall either be channeled around the reservoir and impoundment structure or through the reservoir and breached structure. Permanent civil structures must be designed and constructed to implement either method of channeling. The structure shall provide for erosion-free passage of waters and adequate energy dissipation prior to entry into the natural drainage below the impounding structure. (7-1-21)
iii. Detoxification. Hazardous chemical residues within the tailings pond must be detoxified or covered with an adequate thickness of non-toxic material, to the extent necessary to achieve water quality standards in waters of the state. (7-1-21)T

iv. Reclamation. After implementing the required dewatering, detoxification, and surface drainage control measures, the reservoir and impounding structure will be covered with topsoil or other material conducive to plant growth, in accordance with Subsection 140.04 of these rules. Where such soils are limited in quantity or not available, and upon approval by the Department, physical or chemical methods for erosion control may be used. All such areas are to be revegetated in accordance with Subsection 140.11 of these rules, unless specified otherwise. (7-1-21)T

d. When the operator requests termination of its reclamation or permanent closure plan, pursuant to Section 150 of these rules, impoundment structures and any reservoirs retained as fresh water reservoirs after final reclamation or permanent closure are required to conform with the Idaho Dam Safety Act, Sections 42-1710 through 42-1721, Idaho Code, if applicable. (7-1-21)T

10. Permanent Cessation and Time Limits for Planting. (7-1-21)T

a. Seeding and planting of affected lands or a permanently closed cyanidation facility should be conducted during the first normal period for favorable planting conditions after final seedbed preparation. (7-1-21)T

b. Reclamation activities, where possible, are encouraged to be concurrent with the mining operation and may be included in the approved reclamation plan. Final reclamation must begin within one (1) year after the mining operations have permanently ceased on a mine panel. If the operator permanently ceases disposing of overburden on a waste area or permanently ceases removing minerals from a pit or permanently ceases using a road or other affected land, the reclamation activity on each given area must start within one (1) year of such cessation, despite the fact that all operations as to the mine panel, which included such pit, road, overburden pile, or other affected land, has not permanently ceased. (7-1-21)T

c. An operator is presumed to have permanently ceased mining operations on a given portion of affected land when no substantial amount of mineral or overburden material has been removed or overburden placed on an overburden dump, or no significant use has been made of a road during the prior three (3) years. If an operator does not plan to use an affected area for three (3) or more years but intends thereafter to use the affected area for mining operations and desires to defer final reclamation until after its subsequent use, the operator must submit a notice of intent and request for deferral of reclamation to the director, in writing. If the director determines that the operator plans to continue the operation within a reasonable period of time, the director shall notify the operator and may require actions to be taken to reduce degradation of surface resources until operations resume. If the director determines that use of the affected land for mining operations will not be continued within a reasonable period of time, the director may proceed as though the mining operation has been abandoned, but the operator will be notified of such decision at least thirty (30) days before taking any formal administrative action. (7-1-21)T

11. Revegetation Activities. (7-1-21)T

a. The operator shall select and establish plant species that can be expected to result in vegetation comparable to that growing on the affected lands or on a closed cyanidation facility prior to mining or cyanidation facility operations, respectively. Certified weed free seed should be used in revegetation. The operator may use available technical data and results of field tests for selecting seeding practices and soil amendments which will result in viable revegetation. These practices of selection may be included in an approved reclamation plan or permanent closure. (7-1-21)T

b. Unless otherwise specified in the approved reclamation or permanent closure plan, the success of revegetation efforts is measured against the existing vegetation on site prior to the mining or cyanidation facility operation, or against an adjacent reference area supporting similar types of vegetation. (7-1-21)T

i. The ground cover of living plants on the revegetated area should be comparable to the ground cover of living plants on the adjacent reference area for two (2) full growing seasons after cessation of soil amendment or irrigation. (7-1-21)T
For purposes of this rule, ground cover is considered comparable if it has, on the area actually planted at least seventy percent (70%) of the premining ground cover for the mined area or adjacent reference area; (7-1-21)

For locations with an average annual precipitation of more than twenty-six (26) inches, the director, in approving a reclamation or permanent closure plan, may set a minimum standard for success of revegetation as follows: Vegetative cover of seventy percent (70%) for two (2) full growing seasons in areas planted to herbaceous species only; or fifty percent (50%) vegetative cover for two (2) full growing seasons and six hundred (600) woody plants per acre in areas planted to a mixture of herbaceous and woody species. (7-1-21)

As used in this section, “herbaceous species” means grasses, legumes, and other forbs; “woody plants” means woody shrubs, trees, and vines; and “ground cover” means the area of the ground surface covered by the combined aerial parts of vegetation and the litter that is produced naturally on-site, expressed as a percentage of the total area measured. Rock surface areas will be excluded from this calculation. (7-1-21)

For previously mined areas that were not reclaimed to the standards required by Section 140, and which are affected by the mining or cyanidation facility operations, vegetation should be established to the extent necessary to control erosion, but shall not be less than that which existed before redisturbance; and (7-1-21)

Vegetative cover shall not be less than that required to control erosion. (7-1-21)

Introduction species may be planted if they are known to be comparable to previous vegetation, or if known to be of equal or superior use for the approved post-mining use of the affected land, or, if necessary, to achieve a quick, temporary cover for soil stabilization purposes. Species classified as poisonous or noxious weed species shall not be used in revegetation. (7-1-21)

By mutual agreement of the director, the landowner, and the operator, a site may be converted to a different, more desirable or more economically suitable habitat. (7-1-21)

Planting of grasses and forbs should be done in a manner which promotes rapid stabilization of the soil surface. Wherever terrain permits, grasses and forbs should be drilled or compacted into the ground using agricultural grass planting equipment or other seeders specifically designed for mine revegetation applications. Broadcast and hydroseeding may be used on areas where other methods are impractical or unavailable. (7-1-21)

The operator should plant shrubs or shrub seed, as required, where shrub communities existed prior to mining. Shrub seed may be planted as a portion of a grass seed mix or planted as bare-root transplants after grass seeding. Where the landowner desires a specific land use such as grazing or cropland, shrubs will not be required in the revegetation species mix. Shrub lands undergoing revegetation with shrubs will be protected from erosion by vegetation, chemical, or other acceptable means during establishment of the shrubs. (7-1-21)

Reforestation. Tree stocking of forestlands should meet the following criteria: (7-1-21)

Trees that are adapted to the site should be planted on the area to be revegetated in a density which can be expected over time to yield a timber stand comparable to premining timber stands; (7-1-21)

Trees will be established for two (2) full growing seasons after cessation of any soil amendments and irrigation before they are considered to be established; and (7-1-21)

Forestlands undergoing revegetation with trees should be protected from erosion by vegetation, chemical binders, or other acceptable means during seedling establishment. (7-1-21)

Revegetation is not required on the following areas: (7-1-21)

Affected lands, or portions thereof, where planting is not practicable or reasonable because the soil is composed of excessive amounts of sand, gravel, shale, stone, or other material to such an extent to prohibit plant growth; (7-1-21)
ii. Any mined area or overburden stockpiles proposed to be used in the mining operations for haulage roads, so long as those roads are not abandoned; (7-1-21)T

iii. Any mined area or overburden stockpile, where lakes are formed by rainfall or drainage runoff from adjoining lands; (7-1-21)T

iv. Any mineral stockpile; (7-1-21)T

v. Any exploration trench which will become a part of a pit or an overburden disposal area; and (7-1-21)T

vi. Any road which is to be used in mining operations, so long as the road is not abandoned. (7-1-21)T

i. Mulching. Mulch should be used on severe sites and may be required by the reclamation or permanent closure plan where slopes are steeper than three to one (3:1) or the mean annual rainfall is less than twelve (12) inches. When used, straw or hay mulch should be obtained from certified weed free sources. “Mulch” means vegetation residues or other suitable materials to aid in the stabilization of soil and soil moisture conservation which will provide a micro-climate more suitable for germination and growth on severe sites. Annual grains such as rye, oats, and wheat may be used as a substitute for mulch where they will provide adequate protection and will be replaced by permanent species within a reasonable length of time. (7-1-21)T

12. Petroleum-Based Products and Chemicals. All refuse, chemical and petroleum products and equipment should be stored and maintained in a designated location away from surface water and disposed of in such a manner as to prevent their entry into a waterway. (7-1-21)T

141. -- 149. (RESERVED)

150. TERMINATION OF A PLAN.

01. Terminate upon Request of the Operator. A reclamation plan shall terminate upon request of the operator, upon inspection by the director, and a determination that all reclamation activity has been completed to the standards specified in the plan, and following final approval by the director. Upon termination, the director will release the remaining financial assurance, notify the operator, and any authority to conduct any mining operations under the subject plan shall terminate. (7-1-21)T

02. Terminate a Permanent Closure Plan. The director shall terminate a permanent closure plan upon request of the operator, provided all the provisions and objectives of the permanent closure plan have been met, as determined by the director under Sections 111 and 112 of these rules. Upon a determination that permanent closure has been completed in accordance with the approved permanent closure plan and upon consultation with the DEQ that the operator’s request to terminate a plan should be approved, the director will notify the operator that any authority to continue cyanidation operations shall cease and he will release the balance of the financial assurance in accordance with Subsection 120.20. (7-1-21)T

151. -- 154. (RESERVED)

155. FIVE (5) YEAR UPDATES AND PERIODIC INSPECTIONS.

01. Five (5) Year Updates. The Department may require operators to submit an update on their mining operation at least every five (5) years. The update will be on a Department form, and will be used to assist the Department in determining whether or not adjustments are needed for financial assurance or if a plan amendment is required due to a material change. Failure by an operator to complete the form and return it to the Department, or an operator providing false statements on the form, may result in the penalties in Section 47-1513(g), Idaho Code. (7-1-21)T

02. Right of Inspection. Authorized representatives of the Department have the right to enter upon lands affected or proposed to be affected by exploration, mining operations, or cyanidation facilities to determine
compliance with the reclamation or permanent closure plans and these rules. Inspections will be conducted at reasonable times in the presence of the operator or his authorized representative. The operator shall make such a person available for the purpose of inspection. This rule does not prevent the Department from making an inspection of the site if the operator fails to make a representative available on request.  

03. **Frequency of Inspection.**

a. Mining operations with an approved reclamation plan will be inspected at least once every five (5) years to determine compliance with the approved plan and adequacy of the financial assurance. Inspections may need to be more frequent due to the large size, rapid pace of mining, complexity of an operation, or high financial assurance.  

b. Cyanidation facilities with an approved permanent closure plan will be inspected as often as is needed, but at least once a year.

156. -- 159. (RESERVED)

160. **ENFORCEMENT AND FAILURE TO COMPLY.**

01. **Financial Assurance Forfeiture.** Upon request by the director, the attorney general may institute proceedings to have the financial assurance for reclamation or permanent closure forfeited for violation of an order entered pursuant to Section 47-1513, Idaho Code and these rules.  

02. **Civil Penalty.** An operator with no financial assurance, or an operator who violates these rules by performing an act which is not included in an approved reclamation plan or an approved permanent closure plan that is not subsequently approved by the Department, will be subject to a civil penalty as authorized by Section 47-1513(c), Idaho Code.  

03. **Injunctive Procedures.** The director may seek injunctive relief and proceed with legal action, if necessary, to enjoin a mine operator or cyanidation facility operator who violates the provisions of the chapter, these rules, or the terms of an existing approved reclamation or permanent closure plan. Any such action will follow the procedures established in Section 47-1513, Idaho Code.  

04. **Appeal of Final Order.** An operator dissatisfied with a final order of the Board may within sixty (60) days after receiving the order, file an appeal in accordance with Section 47-1514, Idaho Code.  

161. -- 169. (RESERVED)

170. **COMPUTATION OF TIME.**

Computation of time will be based on calendar days. In computing any period of time prescribed by the chapter, the day on which the designated period of time begins is excluded. The last day of the period is included unless it is a Saturday, Sunday or legal holiday when the Department is not open for business. In such a case, the time period runs until the end of the next day which is not a Saturday, Sunday or legal holiday. Intermediate Saturdays, Sundays or legal holidays are excluded from the computation when the period of prescribed time is seven (7) days or less.  

171. -- 179. (RESERVED)

180. **PUBLIC AND CONFIDENTIAL INFORMATION.**

01. **Information Subject to Disclosure.** Information obtained by the Department pursuant to the chapter and these rules is subject to disclosure under Title 74, Chapter 1, Idaho Code (“Public Records Act”).  

02. **Use by Board.** Any plans, documents, or materials submitted as confidential and held as such shall not prohibit the Board, director, or Department from using the information in an administrative hearing or judicial proceeding initiated pursuant to Section 47-1514, Idaho Code.
03. Plans and BMPs. An operator will not unreasonably designate as confidential portions of reclamation or permanent closure plans which detail proposed BMPs to meet state surface and ground water quality standards. Confidential portions of reclamation or permanent closure plans may be shared with DEQ in its coordinating role under these rules, as reasonably necessary. (7-1-21)T

181. -- 189. (RESERVED)

190. DEPOSIT OF FORFEITURES AND DAMAGES.
All fees, penalties, forfeitures, and civil damages collected pursuant to the chapter, will be deposited with the state treasurer in the following accounts as appropriate: (7-1-21)T

01. Mine Reclamation Fund. The mine reclamation fund to be used by the director for mined land reclamation purposes and to administer the reclamation provisions of the chapter and these rules. (7-1-21)T

02. Cyanidation Facility Closure Fund. The cyanidation facility closure fund to be used by the director to complete permanent closure activities and to administer the permanent closure provisions of the chapter and these rules. (7-1-21)T

191. -- 199. (RESERVED)

200. COMPLIANCE OF EXISTING RECLAMATION PLANS.

01. Plans Approved Prior to 2019. Reclamation plans approved prior to July 1, 2019, or reclamation plans that have permanently ceased operations prior to July 1, 2019, are not subject to the 2019 legislative amendments to the chapter regarding financial assurance and post-closure. New reclamation plans or plan amendments received after July 1, 2019, will be subject to the 2019 legislative amendments to the chapter. (7-1-21)T

02. Plans Submitted in 2019. Reclamation plan applications submitted prior to July 1, 2019, but not yet approved, have until July 1, 2020 to submit post-closure plans and financial assurances as described in the 2019 legislative amendments to the chapter. (7-1-21)T

201. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated by the Idaho State Board of Land Commissioners under Sections 58-104(3) and (6), Idaho Code, and Title 47, Chapter 18, Idaho Code. The Board has delegated to the Director of the Idaho Department of Lands the duties and powers under Title 47, Chapter 18, Idaho Code and these rules, except that the Board retains responsibility for administrative review.

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.03, “Rules Governing Administration of the Reclamation Fund,” IDAPA 20, Title 03, Chapter 03.

02. Scope. These rules constitute the Department’s administrative procedures and participation criteria for the Reclamation Fund, which is an alternative form of financial assurance for certain mines in Idaho. These rules are to be construed in a manner consistent with the duties and responsibilities of the Board and of operators, permit holders, or lessees as set forth in Title 47, Chapter 7, Idaho Code, “Mineral Rights in State Lands;” Title 47, Chapter 13, Idaho Code, “Dredge Mining;” Title 47, Chapter 15, Idaho Code, “Mined Land Reclamation;” Title 47, Chapter 18, Idaho Code, “Financial Assurance;” IDAPA 20.03.01, “Dredge and Placer Mining Operations in Idaho;” IDAPA 20.03.02, “Rules Governing Mined Land Reclamation;” and IDAPA 20.03.05, “Riverbed Mineral Leasing In Idaho.”

002. ADMINISTRATIVE APPEALS.
Any person aggrieved by a final agency action or a party aggrieved by a final order of the Board arising from its administration of the Reclamation Fund Act is entitled to judicial review pursuant to the provisions of Title 67, Chapter 52, Idaho Code, “Administrative Procedure Act,” and IDAPA 20.01.01, “Rules of Practice and Procedure Before the State Board of Land Commissioners.”

003. -- 009. (RESERVED)

010. DEFINITIONS.
Except as provided in these rules, the Board adopts the definitions set forth in the Mineral Leasing Act, the Dredge Mining Act, and the Mined Land Reclamation Act. As used in these rules:

01. Actual Allowable Cost. The allowable total reclamation cost as set by the Board to allow participation in the Reclamation Fund.

02. Actual Allowable Disturbance. The area of disturbed acres or affected land as set by the Board to allow participation in the Reclamation Fund.

03. Board. The Idaho State Board of Land Commissioners or its authorized representative.

04. Department. The Idaho Department of Lands.

05. Disturbed Acres; Affected Lands. Any land, natural watercourses, or existing stockpiles or waste piles affected by placer or dredge mining, remining, exploration, stockpiling of ore, waste from placer or dredge mining, or construction of roads, settling ponds, structures, or facilities appurtenant to a placer or dredge mine. The land area included in overburden disposal areas, mined areas, mineral stockpiles, roads, tailings ponds, and other areas disturbed at a mine. The land area disturbed by motorized exploration of state land under a mineral lease.

06. Dredge Mining Act. Title 47, Chapter 13, Idaho Code, and IDAPA 20.03.01, “Dredge and Placer Mining Operations in Idaho.”

07. Financial Assurance. Cash, corporate surety bond, collateral bond, or letter of credit as described in the Dredge Mining Act, the Mineral Leasing Act, or a mineral lease. Financial assurance as defined in the Mined Land Reclamation Act.

08. Mine; Mine Panel. All areas designated by the operator on the map or plan submitted pursuant to Section 47-703A, Idaho Code, or Section 47-1506, Idaho Code, or as an identifiable portion of a placer or dredge mine on the map submitted under Section 47-1317, Idaho Code.

09. Mined Land Reclamation Act. Title 47, Chapter 15, Idaho Code, and IDAPA 20.03.02, “Rules
Governing Mined Land Reclamation.”

10. **Mineral Lease.** Lease executed by the Board and the mineral lessee pursuant to the Mineral Leasing Act. (7-1-21)T

11. **Mineral Lessee.** The lessee of a mineral lease. (7-1-21)T

12. **Mineral Leasing Act.** Title 47, Chapter 7, Idaho Code. (7-1-21)T

13. **Mining Reclamation Plan.** Any reclamation plan approved pursuant to the Mined Land Reclamation Act. (7-1-21)T

14. **Motorized Exploration.** Exploration which may appreciably disturb or damage the land or resources thereon. Motorized exploration includes, but is not limited to, drilling, trenching, dredging, or other techniques which employ the use of earth moving equipment, seismic operations using explosives, and includes sampling with a suction dredge having an intake diameter greater than two (2) inches when operated in a perennial stream. When operated in an intermittent stream, suction dredges shall be considered motorized exploration regardless of intake size. (7-1-21)T

15. **Operator.** Any person or entity authorized to conduct business in Idaho, partnership, joint venture, or public or governmental agency required to have any reclamation plan under the Mined Land Reclamation Act or the Mineral Leasing Act, or a permit under the Dredge Mining Act, whether individually or jointly through subsidiaries, agents, employees, or contractors. (7-1-21)T

16. **Permit.** Dredge or placer mining permit issued pursuant to the Dredge Mining Act. (7-1-21)T

17. **Reclamation Fund.** The interest-bearing dedicated fund authorized pursuant to the Reclamation Fund Act. (7-1-21)T

18. **Reclamation Fund Act.** Title 47, Chapter 18, Idaho Code, and IDAPA 20.03.03, “Rules Governing Administration of the Reclamation Fund.” (7-1-21)T

011. -- 015. (RESERVED)

016. **REQUIRED PARTICIPANTS.**
Any operator, with the exception of the mines and operators listed in Section 017 of these rules, shall be required to provide alternative financial assurance through the Reclamation Fund to assure the reclamation of disturbed acres or affected lands. Alternative financial assurance pursuant to the Reclamation Fund Act is in lieu of other types of financial assurance as set forth in the Mined Land Reclamation Act, the Mineral Leasing Act, or the Dredge Mining Act. (7-1-21)T

017. **INELIGIBLE MINES OR OPERATORS.**
The following types of mines and operators are not allowed to participate in the Reclamation Fund and must file proof of other acceptable financial assurance as required by the Department. (7-1-21)T

01. **Disturbed Acres Limit.** A mine or mineral lease with un-reclaimed disturbed acres in excess of the actual allowable disturbance may not provide alternative financial assurance through the Reclamation Fund. Un-reclaimed disturbance is that which does not meet the final financial assurance release criteria in the Dredge Mining Act, the Mined Land Reclamation Act or a mineral lease. (7-1-21)T

02. **Reclamation Cost Limit.** Operators with an estimated reclamation cost in excess of the actual allowable reclamation cost, regardless of the disturbed acres. (7-1-21)T

03. **Phosphate Mines.** Operators or mineral lessees of phosphate mines. (7-1-21)T

04. **Hardrock Mines.** Operators or mineral lessees of hardrock mines such as gold, silver, molybdenum, copper, lead, zinc, cobalt, and other precious metal mines. (7-1-21)T
05. Potential Heavy Metal Releases. Operators of mines with a reasonable potential to release heavy metals or other substances harmful to human health or the environment, but not including substances such as fuels and other materials commonly used in excavation or construction. (7-1-21)T

06. Oil and Gas Conservation. Oil and gas exploration and development under Title 47, Chapter 3, Idaho Code. (7-1-21)T

07. Oil and Gas Leasing. Oil and gas leases and associated exploration and development under Title 47, Chapter 8, Idaho Code. (7-1-21)T

08. Geothermal. Operators or mineral lessees of geothermal wells and development under Title 47, Chapter 16, Idaho Code. (7-1-21)T

09. Off Lease Exploration. Motorized exploration on state lands that are not under a mineral lease or exploration location. (7-1-21)T

10. Violators. Mines or operators in violation of the Reclamation Fund Act, Dredge Mining Act, Mined Land Reclamation Act, Mineral Leasing Act, or a mineral lease. (7-1-21)T

11. Reclamation Fund Forfeitures. Operators, permittees or lessees who have not reimbursed the Reclamation Fund for a forfeiture from the Reclamation Fund due to their violations of the Reclamation Fund Act, Dredge Mining Act, Mined Land Reclamation Act, Mineral Leasing Act, or a mineral lease. (7-1-21)T

12. Other Forfeitures. An operator who has forfeited any financial assurance. (7-1-21)T

13. Operators Providing Acceptable Financial Assurance. An operator who provides proof of financial assurance accepted by the Department that is greater than or equal to the minimum dollar per acre for each acre of affected land at a mine. (7-1-21)T

018. ACREAGE AND RECLAMATION COST LIMITATIONS.

01. Actual Allowable Participation. The Board will establish by policy the actual allowable disturbance, actual allowable reclamation cost, and the minimum dollar per acre of disturbance in order to provide financial assurance to opt out of participation in the Reclamation Fund. (7-1-21)T

02. Maximum Disturbance and Reclamation Cost. The maximum disturbance and maximum reclamation costs in these rules are maximums. The maximum allowable disturbance is eighty (80) acres; the maximum allowable reclamation cost is four hundred forty thousand dollars ($440,000). (7-1-21)T

03. Multiple Plans or Permits. An operator who has multiple mining reclamation plans or permits that have a total disturbance in excess of the actual allowable disturbance, or with total reclamation costs in excess of the actual allowable reclamation cost, may participate in the Reclamation Fund with one (1) or more sites that together contain less than both of the Board-established actual allowable limits. (7-1-21)T

019. OPTIONAL PARTICIPATION.
Operators who have one (1) or more mines or mineral leases that are ineligible to participate in the Reclamation Fund as set forth in Section 017 or 018 of these rules may choose to not participate in the Reclamation Fund with respect to all other eligible mines or mineral leases in their name. An operator who does not participate in the Reclamation Fund must secure all mines with other types of financial assurance approved by the Department. (7-1-21)T

020. FEDERAL AGENCY NON-ACCEPTANCE OF RECLAMATION FUND.
If a federal agency will not accept an operator’s participation in the Reclamation Fund as proof of reclamation security, the operator will be required to provide the Department with proof of other types of financial assurance acceptable to the Department. (7-1-21)T

021. -- 025. (RESERVED)
026. PAYMENT.

01. Board Approved Payment Schedule. The Board will adopt a payment schedule that determines the annual Reclamation Fund payment for each operator participating in the Reclamation Fund. Any changes to the payment schedule will be approved by the Board. Participating operators shall pay all required payments annually.

02. Acreage Calculation. The annual payment for each participant in the Reclamation Fund will be established based upon the number of disturbed acres at each mine. The acres used to calculate the annual payment will include the total current disturbed acres of affected lands and the acres planned to be disturbed or affected during the next twelve (12) months. The total acreage calculation will not be rounded when determining annual payments.

03. Annual Payments Non-Refundable. Payments to the Reclamation Fund are non-refundable. Payments will be billed annually and, if not timely paid, will accrue late fees and interest as established by the Board. New participants will be assessed a pro-rated payment based on the Department’s established billing cycle.

04. Supplemental Payments. If an operator affects more acreage than the acreage secured through the Reclamation Fund for a current period, the Department may require supplemental Reclamation Fund payments.

05. Assignment. When a mineral lease, mining reclamation plan, or permit is assigned, all financial assurance requirements must be assumed by the new operator. No Reclamation Fund payments will be refunded following an assignment. If the new operator is ineligible to participate in the Reclamation Fund, the new operator must provide proof of other acceptable financial assurance before the assignment may be approved.

06. Non-Payment Constitutes Lack of Bonding. For any operator participating in the Reclamation Fund, non-payment of the annual payment shall be considered a failure to provide financial assurance as required by the Dredge Mining Act, the Mined Land Reclamation Act, Mineral Leasing Act, or a mineral lease.

027. -- 030. (RESERVED)

031. ENFORCEMENT AND FAILURE TO COMPLY.

01. Forfeiture. Prior to withdrawing monies from the Reclamation Fund due to a violation of the Dredge Mining Act, the Mined Land Reclamation Act, Mineral Leasing Act, or a mineral lease, the Department will comply with the respective financial assurance forfeiture procedures.

02. Penalties. If an operator fails to provide financial assurance as required by these rules or has forfeited monies from the Reclamation Fund and has not repaid those monies, the Board shall be authorized to file liens against personal property and equipment of the operator to recover costs. The operator shall be liable for actual costs of all unpaid annual payments, interest, and late payment charges, the actual reclamation costs, and administrative costs incurred by the Department in reclaiming the disturbed or affected lands. Authorization to obtain a lien under these rules and Section 47-1804, Idaho Code, shall be in addition to, not in lieu of, any other legal remedy available to the Board and the Department pursuant to the Dredge Mining Act, Mined Land Reclamation Act, Mineral Leasing Act, or a mineral lease.

032. MINIMUM BALANCE FOR THE RECLAMATION FUND. The Board will determine a reasonable minimum balance for the Reclamation Fund.

033. -- 999. (RESERVED)
20.03.04 – RULES FOR THE REGULATION OF BEDS, WATERS, AND AIRSPACE OVER NAVIGABLE LAKES IN THE STATE OF IDAHO

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authorities of Sections 58-104(6), 58-104(9), 58-105, and 58-127, Idaho Code; Title 58, Chapter 13, Idaho Code; and Title 67, Chapter 52, Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.04, “Rules for the Regulation of Beds, Waters, and Airspace Over Navigable Lakes in the State of Idaho.” (7-1-21)

02. Scope. These rules govern encroachments on, in, or above navigable lakes in the state of Idaho. (7-1-21)

002. ADMINISTRATIVE APPEALS.
Any person aggrieved by any final decision or order of the board is entitled to judicial review pursuant to the provisions of Title 67, Chapter 52, Idaho Code, IDAPA 20.01.01, Title 58, Chapter 13, Sections 58-1305 and 58-1306, Idaho Code, and Sections 025, 030, and 080 of these rules. (7-1-21)

003. INCORPORATION BY REFERENCE.
The following documents are incorporated by reference into these rules: (7-1-21)

004. -- 009. (RESERVED)

010. DEFINITIONS.

01. Adjacent. Contiguous or touching, and with regard to land or land ownership having a common boundary. (7-1-21)

02. Aids to Navigation. Buoys, warning lights, and other encroachments in aid of navigation intended to improve waterways for navigation. (7-1-21)

03. Artificial High Water Mark. The high water elevation above the natural or ordinary high water mark resulting from construction of man-made dams or control works and impressing a new and higher vegetation line. (7-1-21)

04. Beds of Navigable Lakes. The lands lying under or below the “natural or ordinary high water mark” of a navigable lake and, for purposes of these rules only, the lands lying between the natural or ordinary high water mark and the artificial high water mark, if there be one. (7-1-21)

05. Board. The Idaho State Board of Land Commissioners or its designee. (7-1-21)

06. Boat Garage. A structure with one (1) or more slips that is completely enclosed with walls, roof, and doors, but no temporary or permanent residential area. (7-1-21)

07. Boat Lift. A mechanism for mooring boats partially or entirely out of the water. (7-1-21)

08. Boat Ramp. A structure or improved surface extending below the ordinary or artificial high water mark whereby watercraft or equipment are launched from land-based vehicles or trailers. (7-1-21)

09. Commercial Marina. A commercial navigational encroachment whose primary purpose is to provide moorage for rental or for free to the general public. (7-1-21)
10. **Commercial Navigational Encroachment.** A navigational encroachment used for commercial purposes.

11. **Community Dock.** A structure that provides private moorage for more than two (2) adjacent littoral owners, or other littoral owners possessing a littoral common area with littoral rights including, but not limited to homeowner’s associations. No public access is required for a community dock.

12. **Covered Slip.** A slip, or group of slips, with a frame, fabric canopy, and eaves that do not extend beyond the underlying dock.

13. **Department.** The Idaho Department of Lands or its designee.

14. **Director.** The head of the Idaho Department of Lands or his designee.

15. **Encroachments in Aid of Navigation.** Includes docks, piers, jet ski and boat lifts, buoys, pilings, breakwaters, boat ramps, channels or basins, and other facilities used to support water craft and moorage on, in, or above the beds or waters of a navigable lake. The term “encroachments in aid of navigation” is used interchangeably with the term “navigational encroachments.”

16. **Encroachments Not in Aid of Navigation.** Includes all other encroachments on, in, or above the beds or waters of a navigable lake, including landfills, bridges, utility and power lines, or other structures not constructed primarily for use in aid of navigation, such as float homes and boat garages. The term “encroachments not in aid of navigation” is used interchangeably with the term “non-navigational encroachments.”

17. **Floating Home or Float Home.** A structure that is designed and built to be used, or is modified to be used, as a stationary waterborne residential dwelling and is not self-propelled. These structures are usually dependent for utilities upon a continuous utility linkage to a source originating on shore, and must have either a permanent continuous connection to a sewage system on shore, or an alternative method of sewage disposal that does not violate local, state, or federal water quality and sanitation regulations.

18. **Floating Toys.** Trampolines, inflatable structures, water ski courses, and other recreational equipment that are not permanently anchored to the lake bed or an encroachment and are either located between the shoreline and the line of navigability or are waterward of the line of navigability for less than twenty-four (24) consecutive hours.

19. **Jet Ski Ramp, Port, or Lift.** A mechanism for mooring jet skis or other personal watercraft similar to a boat lift. The lifts may be free standing or attached to a dock or pier.

20. **Line of Navigability.** A line located at such distance waterward of the low water mark established by the length of existing legally permitted encroachments, water depths waterward of the low water mark, and by other relevant criteria determined by the board when a line has not already been established for the body of water in question.

21. **Low Water Mark.** That line or elevation on the bed of a lake marked or located by the average low water elevations over a period of years, and marks the point to which the riparian rights of adjoining landowners extend as a matter of right, in aid of their right to use the waters of the lake for purposes of navigation.

22. **Moorage.** A place to secure float homes and watercraft including, but not limited to, boats, personal watercraft, jet skis, etc.

23. **Natural or Ordinary High Water Mark.** The high water elevation in a lake over a period of years, uninfluenced by man-made dams or works, at which elevation the water impresses a line on the soil by covering it for sufficient periods to deprive the soil of its vegetation and destroy its value for agricultural purposes.

24. **Navigable Lake.** Any permanent body of relatively still or slack water, including man-made reservoirs, not privately owned and not a mere marsh or stream eddy, and capable of accommodating boats or canoes.
This definition does not include man-made reservoirs where the jurisdiction thereof is asserted and exclusively assumed by a federal agency.

25. **Party.** Each person or agency named or admitted as a party or properly seeking and entitled as of right to be admitted as a party.

26. **Person.** A partnership, association, corporation, natural person, or entity qualified to do business in the state of Idaho and any federal, state, tribal, or municipal unit of government.

27. **Piling.** A metal, concrete, plastic, or wood post that is placed into the lakebed and used to secure floating docks and other structures.

28. **Plans.** Maps, sketches, engineering drawings, aerial and other photographs, word descriptions, and specifications sufficient to describe the extent, nature and approximate location of the proposed encroachment and the proposed method of accomplishing the same.

29. **Public Hearing.** The type of hearing where members of the public are allowed to comment, in written or oral form, on the record at a public meeting held at a set time and place and presided over by a designated representative of the Department who acts as the hearing coordinator. This type of hearing is an informal opportunity for public comment and does not involve the presentation of witnesses, cross examination, oaths, or the rules of evidence. A record of any oral presentations at such hearings will be taken by the Department by tape recorder. The hearing coordinator exercises such control at hearings as necessary to maintain order, decorum and common courtesy among the participants.

30. **Public Trust Doctrine.** The duty of the State to its people to ensure that the use of public trust resources is consistent with identified public trust values. This common law doctrine has been interpreted by decisions of the Idaho Appellate Courts and is codified at Title 58, Chapter 12, Idaho Code.

31. **Pylon.** A metal, concrete, or wood post that is placed into the lakebed and used to support fixed piers.

32. **Riparian or Littoral Rights.** The rights of owners or lessees of land adjacent to navigable waters of the lake to maintain their adjacency to the lake and to make use of their rights as riparian or littoral owners or lessees in building or using aids to navigation but does not include any right to make any consumptive use of the waters of the lake.

33. **Riparian or Littoral Owner.** The fee owner of land immediately adjacent to a navigable lake, or his lessee, or the owner of riparian or littoral rights that have been segregated from the fee specifically by deed, lease, or other grant.

34. **Riparian or Littoral Right Lines.** Lines that extend waterward of the intersection between the artificial or ordinary high water mark and an upland ownership boundary to the line of navigation. Riparian or littoral right lines will generally be at right angles to the shoreline.

35. **Side Tie.** Moorage for watercraft where the dock or pier is on only one (1) side of the watercraft.

36. **Single-Family Dock.** A structure providing noncommercial moorage that serves one (1) waterfront owner whose waterfront footage is no less than twenty-five (25) feet.

37. **Slip.** Moorage for boats with pier or dock structures on at least two (2) sides of the moorage.

38. **Submerged Lands.** The state-owned beds of navigable lakes, rivers and streams below the natural or ordinary high water marks.

39. **Two-Family Dock.** A structure providing noncommercial moorage that serves two (2) adjacent

---

Section 010 Page 3297
waterfront owners having a combined waterfront footage of no less than fifty (50) feet. Usually the structure is located on the common littoral property line.

40. **Upland.** The land bordering on navigable lakes, rivers, and streams.

**ABBREVIATIONS.**

01. **ATON.** Aids to Navigation.

02. **HDPE.** High-Density Polyethylene.

**POLICY.**

01. **Environmental Protection and Navigational or Economic Necessity.** It is the express policy of the State of Idaho that the public health, interest, safety and welfare requires that all encroachments upon, in or above the beds or waters of navigable lakes of the state be regulated in order that the protection of property, navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty and water quality be given due consideration and weighed against the navigational or economic necessity or justification for, or benefit to be derived from the proposed encroachment. Moreover, it is the responsibility of the State Board of Land Commissioners to regulate and control the use or disposition of state-owned lake beds, so as to provide for their commercial, navigational, recreational or other public use.

02. **No Encroachments Without Permit.** No encroachment on, in or above the beds or waters of any navigable lake in the state may be made unless approval has been given as provided in these rules. An encroachment permit does not guarantee the use of public trust lands without appropriate compensation to the state of Idaho.

03. **Permitting of Existing Encroachments.**

a. The provisions of Title 58, Chapter 13, Section 58-1312, Idaho Code, apply.

b. Any new encroachments, or any unpermitted encroachments constructed after January 1, 1975, are subject to these rules.

**ENCROACHMENT STANDARDS.**

01. **Single-Family and Two-Family Docks.** The following parameters govern the size and dimensions of single-family docks and two-family docks.

a. No part of the structure waterward of the natural or ordinary high water mark or artificial high water mark may exceed ten (10) feet in width, excluding the slip cut out.

b. Total surface decking area waterward of the natural or ordinary or artificial high water mark may not exceed seven hundred (700) square feet, including approach ramp and walkway for a single-family dock and may not exceed one thousand one hundred (1,100) square feet, including approach ramp and walkway for a two-family dock.

c. No portion of the docking facility may extend beyond the line of navigability. Shorter docks are encouraged whenever practical and new docks normally will be installed within the waterward extent of existing docks or the line of navigability.

d. A variance to the standards in this Subsection 015.01 may be approved by the Department when justified by site specific considerations, such as the distance to the established line of navigability.

02. **Community Docks.**
a. A community dock is considered a commercial navigational aid for purposes of processing the application.

b. No part of the structure waterward of the natural or ordinary high water mark or artificial high water mark may exceed ten (10) feet in width except breakwaters when justified by site specific conditions and approved by the Department.

c. A community dock may not have less than fifty (50) feet combined shoreline frontage. Moorage facilities will be limited in size as a function of the length of shoreline dedicated to the community dock. The surface decking area of the community dock is limited to the product of the length of shoreline multiplied by seven (7) square feet per lineal feet or a minimum of seven hundred (700) square feet. However, the Department, at its discretion, may limit the ultimate size when evaluating the proposal and public trust values.

d. If a breakwater will be incorporated into the structure of a dock, and a need for the breakwater can be demonstrated, the Department may allow the surface decking area to exceed the size limitations of Paragraph 015.02.c of these rules.

e. A person with an existing community dock that desires to change the facility to a commercial marina must submit the following information to the Department:

   i. A new application for an encroachment permit.

   ii. Text and drawings that describe which moorage will be public and which moorage will be private.

03. Commercial Marina.

a. Commercial marinas must have a minimum of fifty percent (50%) of their moorage available for use by the general public on either a first come, first served basis for free or rent, or a rent or lease agreement for a period of time up to one (1) year. Moorage contracts may be renewed annually, so long as a renewal term does not exceed one (1) year. Moorage for use by the general public may not include conditions that result in a transfer of ownership of moorage or real property, or require membership in a club or organization.

b. Commercial marinas that are converted to a community dock must conform to all the community dock standards, including frontage requirements and square footage restrictions. This change of use must be approved by the Department through a new encroachment permit prior to implementing the change.

c. If local city or county ordinances governing parking requirements for marinas have not been adopted, commercial marinas must provide a minimum of upland vehicle parking equivalent to one (1) parking space per two (2) public watercraft or float home moorages. If private moorage is tied to specific parking spaces or designated parking areas, then one (1) parking space per one (1) private watercraft or float home moorage must be provided. In the event of conflict, the local ordinances prevail.

d. If a commercial marina can be accessed from a road, marina customers must be allowed access via that road.

e. Moorage that is not available for public use as described in Paragraph 015.03.a. of these rules is private moorage.

f. When calculating the moorage percentage, the amount of public moorage is to be compared to the amount of private moorage. Commercial marinas with private float home moorage are required to provide either non-private float home moorage or two (2) public use boat moorages for every private float home moorage in addition to any other required public use boat moorages.

g. When private moorage is permitted, the public moorage must be of similar size and quality as private moorage, except for float home moorage as provided in Paragraph 015.03.f.
h. Commercial marinas with private moorage must form a condominium association, co-op, or other entity that owns and manages the marina, littoral rights, upland property sufficient to maintain and operate a marina, and private submerged land, if present. This entity is responsible for obtaining and maintaining an encroachment permit under these rules and a submerged lands lease under IDAPA 20.03.17, “Rules Governing Leases on State-Owned Submerged lands and Formerly Submerged Lands.”

i. Existing commercial marinas that desire to change their operations and convert some of their moorage to private use must keep at least fifty percent (50%) of their moorage available for use by the general public. This change in operations must be approved by the Department through a new encroachment permit prior to implementation of the change. The permit application must describe, in text and in drawings, which moorage will be public and which moorage will be private.

04. Covered Slip. Covered slips, regardless of when constructed, may not have a temporary or permanent residential area. Slip covers should have colors that blend with the natural surroundings and are approved by the Department. Covered slips may not be supported by extra piling nor constructed with hard roofs. Slip covers with permanent roofs and up to three (3) walls may be maintained or replaced at their current size if they were previously permitted or if they were constructed prior to January 1, 1975. These structures may not be expanded nor converted to boat garages. Fabric covered slips must be constructed as canopies without sides unless the following standards are followed:

i. At least two (2) feet of open space is left between the bottom of the cover and the dock or pier surface; and

ii. Fabric for canopy and sides will transmit at least seventy-five percent (75%) of the natural light.

05. Boat Garage. Boat garages are considered nonnavigational encroachments. Applications for permits to construct new boat garages, expand the total square footage of the existing footprint, or raise the height will not be accepted unless the application is to support local emergency services. Existing permitted boat garages may be maintained or replaced with the current square footage of their existing footprint and height. Relocation of an existing boat garage will require a permit.

06. Breakwaters. Breakwaters built upon the lake for use in aid of navigation will not be authorized below the level of normal low water without an extraordinary showing of need, provided, however that this does not apply to floating breakwaters secured by piling and used to protect private property from recurring wind, wave, or ice damage, or used to control traffic in busy areas of lakes. The breakwater must be designed to counter wave actions of known wave heights and wave lengths.

07. Seawalls. Seawalls should be placed at or above the ordinary high water mark, or the artificial high water mark, if applicable. Seawalls are not an aid to navigation, and placement waterward of the ordinary or artificial
high water mark will generally not be allowed.

08. Riprap.

a. Riprap used to stabilize shorelines will consist of rock that is appropriately sized to resist movement from anticipated wave heights or tractive forces of the water flow. The rock must be sound, dense, durable, and angular rock resistant to weathering and free of fines. The riprap must overlie a distinct filter layer which consists of sand, gravel, or nonwoven geotextile fabric. The riprap and filter layer must be keyed into the bed below the ordinary or artificial high water mark, as applicable. If the applicant wishes to install riprap with different standards, they must submit a design that is signed and stamped for construction purposes by a professional engineer registered in the state of Idaho.

b. Riprap used to protect the base of a seawall or other vertical walls may not need to be keyed into the bed and may not require a filter layer, at the Department’s discretion.

09. Mooring Buoys. Buoys must be installed a minimum of thirty (30) feet away from littoral right lines of adjacent littoral owners. One (1) mooring buoy per littoral owner may be allowed.

10. Float Homes.

a. Applications for permits to construct new float homes, or to expand the total square footage of the existing footprint, will not be accepted.

b. Applications for relocation of float homes within a lake or from one (1) lake to another are subject to the following requirements:

i. Proof of ownership or long term lease of the uplands adjacent to the relocation site must be furnished to the Department.

ii. The applicant must show that all wastes and waste water will be transported to shore disposal systems by a method approved by the Idaho Department of Environmental Quality or the appropriate local health authority. Applicant must also provide a statement from a professional plumber licensed in the state of Idaho that the plumbing was designed in accordance with IDAPA 24.39.20, “Rules Governing Plumbing,” as incorporated by reference in Section 003 of these rules, installed properly, and has been pressure tested.

c. Encroachment applications and approved local permits are required for replacement of, or adding another story to, a float home.

d. All plumbing work on float homes must be done in accordance with IDAPA 24.29.20, “Rules Governing Plumbing” and IDAPA 29.39.10, “Rules of the Idaho Electrical Board,” as incorporated by reference in Section 003 of these rules.

e. All float homes in Idaho that connect with upland sewer or septic systems must implement the following standards by December 31, 2012:

i. The holding tank with pump or grinder unit must be adequately sealed to prevent material from escaping and to prevent lake water from entering. The tank lid must have a gasket or seal, and the lid must be securely fastened at all times unless the system is being repaired or maintained. An audible overflow alarm must also be installed.

ii. Grinders or solids handling pumps must be used to move sewage from the float home to the upland system.

iii. If solids handling pumps are used, they must have a minimum two (2) inch interior diameter discharge, and the pipe to the shoreline must also have a minimum two (2) inch interior diameter. Connectors used on
either end of this pipe may not significantly reduce the interior diameter. (7-1-21)

iv. The pipeline from the float home to the shoreline must be a continuous line with no mechanical connections. Check valves and manual shut-off valves must be installed at each end of the line. Butt fused HDPE, two hundred (200) psi black polyethylene pipe, or materials with similar properties must be used. The pipeline must contain sufficient slack to account for the maximum expected rise and fall of the lake or river level. The pipeline must be buried in the lakebed for freeze protection where it will be exposed during periods of low water. Pipelines on the bed of the lake must be appropriately located and anchored so they will not unduly interfere with navigation or other lake related uses. (7-1-21)

v. Manifolds below the ordinary, or artificial if applicable, high water mark that collect two (2) or more sewer lines and then route the discharge to the shore through a single pipe are not allowed. All float homes must have an individual sewer line from the float home to a facility on the shore. (7-1-21)

f. All float home permittees will have their float homes inspected by a professional plumber licensed in the state of Idaho by December 31, 2012. The inspection will be documented with a report prepared by the inspector. The report will document whether or not the float homes meet the standards in Paragraph 015.10.e. of these rules, and will be provided to the Department before the above date. (7-1-21)

g. A float home permittee must request an extension, and give cause for the extension, if their float home does not meet the standards in paragraph 015.01.e. of these rules by December 31, 2012. Extensions beyond December 31, 2016 will not be allowed. A permittee’s failure to either request the extension, if needed, or to meet the December 31, 2016 deadline will be a violation subject to the provisions of Section 080 of these rules. (7-1-21)

h. Construction or remodel work on a float home that costs fifty percent (50%) or more of its assessed value will require an encroachment application and construction drawings stamped by an engineer licensed in the state of Idaho. (7-1-21)

11. Excavated or Dredged Channel.

a. Excavating, dredging, or redredging channels require an encroachment permit and are processed in accordance with Section 030 of these rules. (7-1-21)

b. An excavated or dredged channel or basin to provide access to navigable waters must have a clear environmental, economic, or social benefit to the people of the state, and must not result in any appreciable environmental degradation. A channel or basin will not be approved if the cumulative effects of these features in the same navigable lake would be adverse to fisheries or water quality. (7-1-21)

c. Whenever practical, such channels or basins must be located to serve more than one (1) littoral owner or a commercial marina; provided, however, that no basin or channel will be approved that will provide access for watercraft to nonlittoral owners. (7-1-21)

12. ATONs. Aids to Navigation will conform to the requirements established by the United States Aid to Navigation system. (7-1-21)

a. Square Footage. The square footage limitations in Subsections 015.01 and 015.02 include all structures beyond the ordinary or artificial high water mark such as the approach, ramp, pier, dock, and all other floating or suspended structures that cover the lake surface, except for:

i. Boat lifts as allowed pursuant to Paragraph 015.13.b. (7-1-21)

ii. Jet ski ramp, port, or lift as allowed pursuant to Paragraph 015.13.b. (7-1-21)

iii. Slip covers. (7-1-21)
iv. Undecked portions of breakwaters.

b. Boat Lifts and Jet Ski Lifts.

i. Single-family docks are allowed a single boat lift and two (2) jet ski lifts, or two (2) boat lifts, without adding their footprint to the dock square footage. Additional lifts will require that fifty percent (50%) of the footprint of the largest lifts be included in the allowable square footage of the dock or pier as per Subsection 015.01.

ii. Two-family docks are allowed two (2) boat lifts and four (4) jet ski lifts, or four (4) boat lifts, without adding their footprint to the dock square footage. Additional lifts will require that fifty percent (50%) of the footprint of the largest lifts be included in the allowable square footage of the dock or pier as per Subsection 015.01.

iii. A boat lift or jet ski lift within lines drawn perpendicular from the shore to the outside dock edges will not require a separate permit if the lift is outside the ten (10) foot adjacent littoral owner setback, the lift does not extend beyond the line of navigability, and the lift does not count toward the square footage of the dock as outlined in Subparagraphs 015.13.b.i. and 015.13.b.ii. The permittee must send a revised permit drawing with the lift location as an application to the Department. If the lift meets the above conditions, the application will be approved as submitted. Future applications must include the lifts.

iv. Community docks are allowed one (1) boat lift or two (2) jet ski lifts per moorage. Boat lifts placed outside of a slip must be oriented with the long axis parallel to the dock structure. Additional lifts will require that fifty percent (50%) of their footprint be included in the allowable square footage of the dock or pier as per Subsection 015.02.

c. Angle from Shoreline.

i. Where feasible, all docks, piers, or similar structures must be constructed so as to protrude as nearly as possible at right angles to the general shoreline, lessening the potential for infringement on adjacent littoral rights.

ii. Where it is not feasible to place docks at right angles to the general shoreline, the Department will work with the applicant to review and approve the applicant’s proposed configuration and location of the dock and the dock’s angle from shore.

d. Length of Community Docks and Commercial Navigational Encroachments. Docks, piers, or other works may extend to a length that will provide access to a water depth that will afford sufficient draft for water craft customarily in use on the particular body of water, except that no structure may extend beyond the normal accepted line of navigability established through use unless additional length is authorized by permit or order of the Director. If a normally accepted line of navigability has not been established through use, the Director may from time to time as he deems necessary, designate a line of navigability for the purpose of effective administration of these rules.

e. Presumed Adverse Effect. It will be presumed, subject to rebuttal, that single-family and two-family navigational encroachments will have an adverse effect upon adjacent littoral rights if located closer than ten (10) feet from adjacent littoral right lines, and that commercial navigational encroachments, community docks or nonnavigational encroachments will have a like adverse effect upon adjacent littoral rights if located closer than twenty-five (25) feet to adjacent littoral right lines. Written consent of the adjacent littoral owner or owners will automatically rebut the presumption. All boat lifts and other structures attached to the encroachments are subject to the above presumptions of adverse affects.

f. Weather Conditions. Encroachments and their building materials must be designed and installed to withstand normally anticipated weather conditions in the area. Docks, piers, and similar structures must be adequately secured to pilings or anchors to prevent displacement due to ice, wind, and waves. Flotation devices for docks, float homes, etc. must be reasonably resistant to puncture and other damage.
g. Markers. If the Department determines that an encroachment is not of sufficient size to be readily seen or poses a hazard to navigation, the permit will specify that aids to navigation be used to clearly identify the potential hazard.

h. Overhead Clearance.

i. Overhead clearance between the natural or ordinary high water mark or the artificial high water mark, if there be one, and the structure or wires must be sufficient to pass the largest vessel that may reasonably be anticipated to use the subject waters in the vicinity of the encroachment. In no case will the clearance be required to exceed thirty (30) feet unless the Department determines after public hearing that it is in the overall public interest that the clearance be in excess of thirty (30) feet. Irrespective of height above the water, approval of structures or wires presenting a hazard for boating or other water related activities may be conditioned upon adequate safety marking to show clearance and otherwise to warn the public of the hazard. The Department will specify in the permit the amount of overhead clearance and markings required.

ii. When the permit provides for overhead clearance or safety markings under Paragraph 015.13.h., the Department will consider the applicable requirements of the United States Coast Guard, the Idaho Transportation Department, the Idaho Public Utilities Commission and any other applicable federal, state, or local regulations.

14. Floating Toys.

b. A floating toy becomes a nonnavigational encroachment, and an encroachment permit is required, when one (1) of the following occurs:

i. It is anchored to the bed of the lake with a device that requires equipment to remove it from the bed of the lake, or;

ii. It is located waterward of the line of navigability for more than twenty-four (24) consecutive hours.

15. Lake Specific Encroachment Permit Terms.

a. The Department may use encroachment permit conditions specific to individual lakes if the permit conditions are needed to protect public trust values and the permit condition is approved by the Land Board.

b. Lake specific encroachment permit conditions may supplement, negate, or alter encroachment standards established in Section 015 of these rules.

c. Lake specific encroachment permit conditions will be used to assist with implementing lake management plans authorized by Title 39, Chapter 66, Idaho Code; Title 39, Chapter 85, Idaho Code; Title 67, Chapter 43, Idaho Code; and Title 70, Chapter 2, Idaho Code. The purpose for using such lake specific permit conditions is to address lake specific environmental concerns that require attention and create a need for a variance from what is allowed on other lakes.

d. Lake specific encroachment permit terms may be read at the Idaho Department of Lands website: [http://www.idl.idaho.gov/](http://www.idl.idaho.gov/)

016. -- 019. (RESERVED)

020. APPLICATIONS.
01. **Encroachment Applications.** No person shall hereafter make or cause to be made any encroachment on, in or above the beds or waters of any navigable lake in the state of Idaho without first making application to and receiving written approval from the department. The placing of dredged or fill material, refuse or waste matter intended as or becoming fill material, on or in the beds or waters of any navigable lake in the state of Idaho shall be considered an encroachment and written approval by the department is required. If demolition is required prior to construction of the proposed encroachment, then the application must describe the demolition activities and the steps that will be taken to protect water quality and other public trust values. No demolition activities may proceed until the permit is issued. (7-1-21)

02. **Signature Requirement.** Only persons who are littoral owners or lessees of a littoral owner shall be eligible to apply for encroachment permits. A person who has been specifically granted littoral rights or dock rights from a littoral owner shall also be eligible for an encroachment permit; the grantor of such littoral rights, however, shall no longer be eligible to apply for an encroachment permit. Except for waterlines or utility lines, the possession of an easement to the shoreline does not qualify a person to be eligible for an encroachment permit. (7-1-21)

03. **Other Permits.** Nothing in these rules shall excuse a person seeking to make an encroachment from obtaining any additional approvals lawfully required by federal, local or other state agencies. (7-1-21)

04. **Repairs, Reinstallation of Structures.** No permit is required to clean, maintain, or repair an existing permitted encroachment, but a permit is required to completely replace, enlarge, or extend an existing encroachment. Replacement of single-family and two-family docks may not require a permit if they meet the criteria in Section 58-1305(e), Idaho Code. Reinstalling the top or deck of a dock, wharf or similar structure shall be considered a repair; reinstallation of winter damaged or wind and water damaged pilings, docks, or float logs shall be considered a repair. Repairs, or replacements under Section 58-1305(e), Idaho Code, that adversely affect the bed of the lake will be considered a violation of these rules. (7-1-21)

05. **Dock Reconfiguration.**
   a. Rearrangement of single-family and two-family docks will require a new application for an encroachment permit. (7-1-21)
   b. Rearrangement of community docks and commercial navigational encroachments may not require a new application for an encroachment permit if the changes are only internal. The department shall be consulted prior to modifications being made, and shall use the following criteria to help determine if a new permit must be submitted:
      i. Overall footprint does not change in dimension or orientation; (7-1-21)
      ii. No increase in the square footage, as described in the existing permit and in accordance with Paragraph 015.13.a., occurs. This only applies to community docks; (7-1-21)
      iii. The entrances and exits of the facility do not change. (7-1-21)

06. **Redredging.** Redredging a channel or basin shall be considered a new encroachment and a permit is required unless redredging is specifically authorized by the outstanding permit. Water quality certification from the Idaho Department of Environmental Quality is required regardless of how redredging is addressed in any existing or future permit. (7-1-21)

07. **Forms, Filing.** Applications and plans shall be filed on forms provided by the Department together with filing fees and costs of publication when required by these rules. Costs of preparation of the application, including all necessary maps and drawings, shall be paid by the applicant.
   a. Plans shall include the following information at a scale sufficient to show the information requested:
i. Lakebed profile in relationship to the proposed encroachment. The lakebed profile shall show the summer and winter water levels. (7-1-21)

ii. Copy of most recent survey or county plat showing the full extent of the applicant’s lot and the adjacent littoral lots. (7-1-21)

iii. Proof of current ownership or control of littoral property or littoral rights. (7-1-21)

iv. A general vicinity map. (7-1-21)

v. Scaled air photos or maps showing the lengths of adjacent docks as an indication of the line of navigability, distances to adjacent encroachments, and the location and orientation of the proposed encroachment in the lake. (7-1-21)

vi. Total square footage of proposed docks and other structures, excluding pilings, that cover the lake surface. (7-1-21)

vii. Names and current mailing addresses of adjacent littoral landowners. (7-1-21)

b. Applications must be submitted or approved by the littoral owner or, if the encroachment will lie over or upon private lands between the natural or ordinary high water mark and the artificial high water mark, the application must be submitted or approved by the owner of such lands. When the littoral owner is not the applicant, the application shall bear the owner’s signature as approving the encroachment prior to filing. (7-1-21)

c. If more than one (1) littoral owner exists, the application must bear the signature of all littoral owners, or the signature of an authorized officer of a designated homeowner’s or property management association. (7-1-21)

d. Applications for noncommercial encroachments intended to improve waterways for navigation, wildlife habitat and other recreational uses by members of the public must be filed by any municipality, county, state, or federal agency, or other entity empowered to make such improvements. Application fees are not required for these encroachments. (7-1-21)

e. The following applications shall be accompanied by the respective nonrefundable filing fees together with a deposit toward the cost of newspaper publication, which deposit shall be determined by the director at the time of filing:

   i. Nonnavigational encroachments require a fee of one thousand dollars ($1,000); except that nonnavigational encroachments for bank stabilization and erosion control require a fee of five hundred fifty dollars ($550). (7-1-21)

   ii. Commercial navigational encroachments require a base fee of two thousand dollars ($2,000). If the costs of processing an application exceed this amount, then the applicant may be charged additional costs as allowed by Title 58, Chapter 13, Section 58-1307, Idaho Code; (7-1-21)

   iii. Community navigational encroachments require a fee of two thousand dollars ($2,000); and (7-1-21)

   iv. Navigational encroachments extending beyond the line of navigability require a fee of one thousand dollars ($1,000). (7-1-21)

f. Applicants shall pay any balance due on publication costs before written approval will be issued. The Department shall refund any excess at or before final action on the application. (7-1-21)

g. Application for a single-family or two-family dock not extending beyond the line of navigability or a nonnavigational encroachment for a buried or submerged water intake line serving four or less households shall be accompanied by a nonrefundable filing fee of four hundred twenty-five dollars ($425). (7-1-21)
h. No publication cost is required for application for noncommercial navigational encroachment not extending beyond the line of navigability or for application for installation of buried or submerged water intake lines and utility lines. (7-1-21)

i. Applications and plans shall be stamped with the date of filing. (7-1-21)

j. Applications that are incomplete, not in the proper form, not containing the required signature(s), or not accompanied by filing fees and costs of publication when required, shall not be accepted for filing. The department shall send the applicant a written notice of incompleteness with a listing of the application’s deficiencies. The applicant will be given thirty (30) days from receipt of the notice of incompleteness to resubmit the required information. The deadline may be extended with written consent of the department. If the given deadline is not met, the department will notify the applicant that the application has been denied due to lack of sufficient information. The applicant may reapply at a later date, but will be required to pay another filing fee and publication fee, if applicable. (7-1-21)

025. PROCESSING OF APPLICATIONS FOR SINGLE-FAMILY AND TWO-FAMILY NAVIGATIONAL ENCROACHMENTS WITHIN LINE OF NAVIGABILITY.

01. Single-Family and Two-Family Navigational Encroachments. Applications for single-family and two-family navigational encroachments not extending beyond the line of navigability will be processed with a minimum of procedural requirements and shall not be denied except in the most unusual of circumstances. No newspaper publication, formal appearance by the applicant, or hearing is contemplated. (7-1-21)

02. Notification of Adjacent Littoral Owners. The department will provide a copy of the application to the littoral owners immediately adjacent to the applicant’s property. If the applicant owns one (1) or more adjacent lots, the department shall notify the owner of the next adjacent lot. If the proposed encroachment may infringe upon the littoral rights of an adjacent owner, the department will provide notice of the application by certified mail, return receipt requested; otherwise, the notice will be sent by regular mail. Notification will be mailed to the adjacent littoral owners’ usual place of address, which, if not known, will be the address shown on the records of the county treasurer or assessor. The applicant may submit the adjacent littoral owners’ signatures, consenting to the proposed encroachment, in lieu of the department’s notification. (7-1-21)

03. Written Objections.

a. If an adjacent littoral owner files written objections to the application with the department within ten (10) days from the date of service or receipt of notice of the completed application, the department shall fix a time and a place for a hearing. In computing the time to object, the day of service or receipt of notice of the application shall not be counted. Objections must be received within the ten (10) day period by mail or hand delivery in the local department office or the director’s office in Boise. If the last day of the period is Saturday, Sunday or a legal holiday, the time within which to object shall run until the end of the first business day thereafter. (7-1-21)

b. The applicant and any objectors may agree to changes in the permit that result in the objections being withdrawn. Department employees may facilitate any such agreement. Participation by department personnel in this informal mediation shall not constitute a conflict of interest for participation in the hearing process. A withdrawal of objections must be in writing, completed prior to a scheduled hearing, and contain:

i. Signatures of the applicant and the objecting party; (7-1-21)

ii. A description of the changes or clarifications to the permit that are acceptable to the applicant, the objecting party, and the department. (7-1-21)

04. Unusual Circumstances. Even though no objection is filed by an adjacent littoral owner to a noncommercial navigational encroachment, if the director deems it advisable because of the existence of unusual circumstances, he may require a hearing.
05. **Hearings.** Hearings fixed by the director following an objection pursuant to Subsection 025.03 or the Director’s own determination pursuant to Subsection 025.04 shall be fixed as to time and place, but no later than sixty (60) days from date of acceptance for filing of the application. At the hearing the applicant and any adjacent riparian owner filing timely objections may appear personally or through an authorized representative and present evidence. The department may also appear and present evidence at the hearing. In such hearings the hearing coordinator shall act as a fact finder and not a party. The Director, at his discretion, will designate a Department representative to sit as the hearing coordinator. Provided, however, that the parties may agree to informal disposition of an application by stipulation, agreed settlement, consent order, or other informal means.

06. **Decision Following a Hearing.** The director shall, within forty-five (45) days after close of the hearing provided for in Subsections 025.03 or 025.04 render a final decision and give notice thereof to the parties appearing before him either personally or by certified or registered mail. The final decision shall be in writing.

07. **Disposition Without Hearing.** If a hearing is not held under Subsection 025.03 or Subsection 025.04, then the department shall act upon a complete application filed under Subsection 025.01 as expeditiously as possible but no later than sixty (60) days from acceptance of the application. Failure to act within this sixty (60) day timeframe shall constitute approval of the application. Applications determined to be incomplete under Subsection 020.07 are not subject to the sixty (60) day timeframe until the information requested by the department and required by the rules has been submitted.

08. **Judicial Review.** Any applicant aggrieved by the Director’s final decision, or an aggrieved party appearing at a hearing, shall have a right to have the proceedings and final decision reviewed by the district court in the county where the encroachment is proposed by filing a notice of appeal within thirty (30) days from the date of the final decision. An adjacent littoral owner shall be required to deposit an appeal bond with the court, in an amount to be determined by the court but not less than five hundred dollars ($500) insuring payment to the applicant of damages caused by delay and costs and expenses, including reasonable attorney fees, incurred on the appeal in the event the district court sustains the action of the director. The applicant need post no bond with the court to prosecute an appeal.

026. -- 029. (RESERVED)

030. **PROCESSING OF APPLICATIONS FOR ALL OTHER TYPES OF ENCROACHMENTS.**

01. **Nonnavigational, Community, and Commercial Navigational Encroachments.** Within ten (10) days of receiving a complete application for a nonnavigational encroachment, a community dock, a commercial navigational encroachment, or a navigational encroachment extending beyond the line of navigability, the Department will cause to be published a notice of application once a week for two (2) consecutive weeks in a newspaper of general circulation in the county in which the encroachment is proposed. If, however, the Director orders a hearing on the application within the time for publication of the above notice, the Department will dispense with publication of the notice of the application and proceed instead to publish a notice of the public hearing as provided in Subsection 030.05. Applications for installation of buried or submerged water intake lines and utility lines are exempt from the newspaper publication process.

02. **Encroachments Not in Aid of Navigation.** Encroachments not in aid of navigation in navigable lakes will normally not be approved by the Department and will be considered only in cases involving major environmental, economic, or social benefits to the general public. Approval under these circumstances is authorized only when consistent with the public trust doctrine and when there is no other feasible alternative with less impact on public trust values.

03. **Notifications.** Upon request or when the Department deems it appropriate, the Department may furnish copies of the application and plans to federal, state and local agencies and to adjacent littoral owners, requesting comment on the likely effect of the proposed encroachment upon adjacent littoral property and public trust values such as navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, water quality, etc.
04. Written Comments or Objections. Within thirty (30) days of the first date of publication, an agency, adjacent littoral owner or lessee, or any resident of the state of Idaho may do one (1) of the following:

a. Notify the Department of their opinions and recommendation, if any, for alternate plans they believe will be economically feasible and will accomplish the purpose of the proposed encroachment without unreasonably adversely affecting adjacent littoral property or public trust values; or

b. File with the Department written objections to the proposed encroachment and request a public hearing on the application. The hearing must be specifically requested in writing. Any person or agency requesting a hearing on the application must deposit and pay to the Department an amount sufficient to cover the cost of publishing notice of hearing provided in Subsection 030.05.

05. Hearing. Notice of the time and place of public hearing on the application will be published by the Director once a week for two (2) consecutive weeks in a newspaper in the county in which the encroachment is proposed, which hearing will be held within ninety (90) days from the date the application is accepted for filing.

06. Hearing Participants. Any person may appear at the public hearing and present oral testimony. Written comments will also be received by the Department.

07. Decision After Hearing. The Director will render a final decision within thirty (30) days after close of the public hearing. A copy of his final decision will be mailed to the applicant and to each person or agency appearing at the hearing and giving oral or written testimony in support of or in opposition to the proposed encroachment.

08. Decision Where No Hearing. In the event no objection to the proposed encroachment is filed with the Department and no public hearing is requested under Subsection 030.04, or ordered by the Director under Subsection 030.01, the Department, based upon its investigation and considering the economics of the navigational necessity, justification or benefit, public or private, of such proposed encroachment as well as its detrimental effects, if any, upon adjacent real property and public trust values such as navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, water quality, etc. will prepare and forward to the applicant its decision.

b. The applicant, if dissatisfied with the Director’s decision, has twenty (20) days from the date of the Director’s decision to request reconsideration thereof. If reconsideration is required, the Director will set a time and place for a reconsideration hearing, not to exceed thirty (30) days from receipt of the request, at which time and place the applicant may appear in person or through an authorized representative and present briefing and oral argument. Upon conclusion of reconsideration, the Director will, by personal service or by registered or certified mail, notify the applicant of his final decision.

09. Judicial Review. Any applicant aggrieved by the Director’s final decision, or an aggrieved party who appeared at a hearing, has the right to have the proceedings and final decision of the Director reviewed by the district court in the county in which the encroachment is proposed by filing a notice of appeal within thirty (30) days from the date of the final decision. The applicant need post no bond with the court to prosecute an appeal. Any other aggrieved party is required to deposit an appeal bond with the court, in an amount to be determined by the court but not less than five hundred dollars ($500), insuring payment to the applicant of damages caused by delay and costs and expenses, including reasonable attorney fees, incurred on the appeal in the event the district court sustains the action of the Director.

10. Factors in Decision. In recognition of continuing private property ownership of lands lying between the natural or ordinary high water mark and the artificial high water mark, if present, the Department will consider unreasonable adverse effect upon adjacent property and undue interference with navigation the most important factors to be considered in granting or denying an application for either a nonnavigational encroachment or a commercial navigational encroachment not extending below the natural or ordinary high water mark. If no objections have been filed to the application and no public hearing has been requested or ordered by the Director, or,
if upon reconsideration of a decision disallowing a permit, or following a public hearing, the Department determines that the benefits, whether public or private, to be derived from allowing such encroachment exceed its detrimental effects, the permit will be granted.

031. -- 034. (RESERVED)

035. TEMPORARY PERMITS.

01. Applicability. Temporary permits are used for construction, temporary activities related to permitted encroachments, or other activities approved by the Department.

02. Permit Term. These permits are generally issued for less than one (1) year, but longer terms may be approved by the Department and permits may be extended with Department approval.

03. Bonding. The Department may require bonds for temporary permits.

04. Fee. The board sets fees for temporary permits, but the fees will not be greater than the amounts listed for the respective permit types in Subsection 020.07. Fee information is available on the Internet at www.idl.idaho.gov.

05. Processing. These permits may be advertised if the Department deems it appropriate, with the applicant paying the advertising fee as per Subsection 020.07.

036. -- 049. (RESERVED)

050. RECORDATION.

Recordation of an issued permit in the records of the county in which an encroachment is located is a condition of issuance of a permit and proof of recordation must be furnished to the Department by the permittee before a permit becomes valid. Such recordation is at the expense of the permittee. Recordation of an issued permit serves only to provide constructive notice of the permit to the public and subsequent purchasers and mortgagees, but conveys no other right, title, or interest on the permittee other than validation of said permit.

051. -- 054. (RESERVED)

055. LEASES AND EASEMENTS.

01. Lease or Easement Required. As a condition of the encroachment permit, the Department may require a submerged land lease or easement for use of any part of the state-owned bed of the lake where such lease or easement is required in accordance with “Rules Governing Leases on State-owned Submerged Lands and Formerly Submerged Lands,” IDAPA 20.03.17, or “Rules For Easements On State-owned Submerged Lands And Formerly Submerged Lands,” IDAPA 20.03.09. A lease or easement may be required for uses including, but not limited to, commercial uses. Construction of an encroachment authorized by permit without first obtaining the required lease or easement constitutes a trespass upon state-owned public trust lands. This rule is intended to grant the state recompense for the use of the state-owned bed of a navigable lake where reasonable and it is not intended that the Department withhold or refuse to grant such lease or easement if in all other respects the proposed encroachment would be permitted.

02. Seawalls, Breakwaters, Quays. Seawalls, breakwaters, and quays on or over state-owned beds, designed primarily to create additional land surface, will be authorized, if at all, by an encroachment permit and submerged land lease or easement, upon determination by the Department to be an appropriate use of submerged lands.

056. -- 059. (RESERVED)

060. INSTALLATION.

01. Installation Only After Permit Issued. Installation or on site construction of an encroachment
may commence only when the permit is issued or when the department notifies the applicant in writing that
installation may be commenced or when the department has failed to act in accordance with Subsection 025.07. (7-1-21)

02. Removal of Construction Waste. (7-1-21)

a. Pilings, anchors, old docks, and other structures or waste at the site of the installation or
reinstallation and not used as a part of the encroachment shall be removed from the water and lakebed at the time of
the installation or reinstallation to a point above normal flood water levels; provided, however, that this shall not be
construed to prevent the use of trash booms for the temporary control of floatable piling ends and other floatable
materials in a securely maintained trash boom, but approval for a trash boom shall be required as part of a permit. (7-1-21)

b. Demolition of encroachments shall be done in a manner that does not unnecessarily damage the
lakebed or shoreline. Demolition work must comply with water quality standards administered by the Department of
Environmental Quality. (7-1-21)

03. Compliance with Permit. All work shall be done in accordance with these rules, and the
application submitted, and is subject to any condition specified in the permit. (7-1-21)

04. Sunset Clause. All activities authorized within the scope of the encroachment permit must be
completed within three (3) years of issuance date. If the activities are not completed within three (3) years, the permit
shall automatically expire unless it was previously revoked or extended by the department. The department may issue
a permit with an initial sunset clause that exceeds three (3) years, if the need is demonstrated by the applicant. (7-1-21)

065. ASSIGNMENTS.

01. Assignment of Encroachment Permit. Encroachment permits may be assigned upon approval of
the department provided that the encroachment conforms with the approved permit. The assignor and assignee must
complete a department assignment form and forward it to the appropriate area office. (7-1-21)

02. Assignment Fee. The assignment fee is three hundred dollars ($300) and is due at the time the
assignment is submitted to the department. (7-1-21)

03. Approval Required for Assignment. An assignment is not valid until it has been approved by the
department. (7-1-21)

04. Assignment With New Permit. Encroachments not in compliance with the approved permit may
be assigned only if:

a. An application for a new permit to correct the noncompliance is submitted at the same time. (7-1-21)

b. The assignee submits written consent to bring the encroachment permit into compliance. (7-1-21)

066. MISCELLANEOUS.

01. Water Resources Permit. A permit to alter a navigable stream issued by the Department of Water
Resources pursuant to Title 42, Chapter 38, Idaho Code, may, in appropriate circumstances, contain language stating
the approval of the Department of Lands to occupy the state-owned bed of the navigable stream. (7-1-21)

02. Dredge and Placer Mining. Department authorization is required for dredge and placer mining in
the lands, lakes and rivers within the state, whether or not the state owns the beds, pursuant to Title 47, Chapter 13, Idaho Code.

03. Mineral Leases. Littoral rights do not include any right to remove bed materials from state-owned lakebeds. Applications to lease minerals, oil, gas and hydrocarbons, and geothermal resources within the state-owned beds of navigable lakes will be processed by the Department pursuant to Title 47, Chapters 7, 8 and 16, Idaho Code, and rules promulgated thereunder.

04. Other Laws and Rules. The permittee must comply with all other applicable state, federal and local rules and laws insofar as they affect the use of public trust resources.

071. -- 079. (RESERVED)

080. VIOLATIONS - PENALTIES.

01. Cease and Desist Order. When the Department determines that a violation of these rules is occurring due to the ongoing construction of an unauthorized encroachment or an unauthorized modification of a permitted encroachment, it may provide the landowner, contractor, or permittee with a written cease and desist order that consists of a short and plain statement of what the violation is, the pertinent legal authority, and how the violation may be rectified. This order will be served by personal service or certified mail. The cease and desist order is used to maintain the status quo pending formal proceedings by the Department to rectify the violation.

02. Notice of Noncompliance/Proposed Permit Revocation. When the Department determines that these rules have been violated, a cause exists for revocation of a lake encroachment permit, or both of these have occurred, it will provide the permittee or offending person with a notice of noncompliance/propose permit revocation that consists of a short and plain statement of the violation including any pertinent legal authority. This notice also informs the permittee or offending person of what steps are needed to either bring the encroachment into compliance, if possible, or avoid revocation, or both.

03. Noncompliance Resolution. The Department will attempt to resolve all noncompliance issues through conference with the permittee or other involved party. Any period set by the parties for correction of a violation is binding. If the Department is unsuccessful in resolving the violations, then the Department may pursue other remedies under Section 080 of these rules.

04. Violations. The following acts or omissions subject a person to a civil penalty as allowed by Title 58, Chapter 13, Section 58-1308, Idaho Code:

a. A violation of the provisions of Title 58, Chapter 13, Idaho Code, or of the rules and general orders adopted and applicable to navigable lakes;

b. A violation of any special order of the Director applicable to a navigable lake; or

c. Refusal to cease and desist from any violation in regards to a navigable lake after having received a written cease and desist order from the Department by personal service or certified mail, within the time provided in the notice, or within thirty (30) days of service of such notice if no time is provided.

d. Willfully and knowingly falsifying any records, plans, information, or other data required by these rules.

e. Violating the terms of an encroachment permit.

05. Injunctions, Damages. The Board expressly reserves the right, through the Director, to seek injunctive relief under Title 58, Chapter 13, Section 58-1308, Idaho Code and mitigation of damages under Title 58, Chapter 13, Section 58-1309, Idaho Code, in addition to the civil penalties provided for in Subsection 080.04 of these rules.

06. Mitigation, Restoration. The board expressly reserves the right, through the Director, to require
mitigation and restoration of damages under Title 58, Chapter 13, Section 58-1309, Idaho Code, in addition to the civil penalties and injunctive relief provided for in Subsections 080.04 and 080.05 of these rules. The Department may consult with other state agencies to determine the appropriate type and amount of mitigation and restoration required.

07. Revocation of Lake Encroachment Permits.

a. The Department may institute an administrative action to revoke a lake encroachment permit for violation of the conditions of a permit, or for any other reason authorized by law. All such proceedings will be conducted as contested case hearings subject to the provisions of Title 67, Chapter 52, Idaho Code, and IDAPA 20.01.01, “Rules of Practice and Procedure before the State Board of Land Commissioners.”

b. A hearing officer appointed to conduct the revocation hearing prepares recommended findings of fact and conclusions of law and forward them to the Director for final adoption or rejection.

c. An aggrieved party who appeared and testified at a hearing has the right to have the proceedings and final decision of the Director reviewed by the district court of the county in which the violation or revocation occurred by filing a notice of appeal within twenty-eight (28) days from the date of the final decision.

081. -- 999. (RESERVED)
000. AUTHORITY.

01. Statutory Authority. These rules are promulgated by the Idaho State Board of Land Commissioners pursuant to Title 47 and 58, Chapters 7 and 1, Sections 47-710, 47-714 and 58-104, Idaho Code. (7-1-21)

02. Discretionary Powers. The Board of Land Commissioners is delegated discretionary power to regulate and control the use or disposition of lands in the beds of navigable lakes, rivers, and streams, to the natural or ordinary high water mark thereof, so as to provide for their commercial, navigational, recreational or other public use; provided that the Board will take no action in derogation of or seeking to interfere with the riparian or littoral rights of the owners of upland property abutting or adjoining such lands. (Section 58-104(9), Idaho Code). (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.05, “Riverbed Mineral Leasing in Idaho.” (7-1-21)

02. Where Applicable. These rules apply to the exploration and extraction of precious metals, minerals, and construction materials from a placer deposit situated in state-owned submerged lands. (7-1-21)

03. Where Not Applicable. These rules do not apply to the application and leasing of geothermal resources by title 47, Chapter 16, Idaho Code, or to the application and leasing of oil and gas resources covered by Title 47, Chapter 8, Idaho Code. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Available State Lands. All lands between the ordinary high water marks of a navigable river which have not been located, leased, or withdrawn. (7-1-21)

02. Board. The State Board of Land Commissioners or its authorized representative. (7-1-21)

03. Casual Exploration. Entry and/or exploration which does not appreciably disturb or damage the land or resources thereon. Casual exploration includes, but is not limited to, geochemical and/or geophysical exploration techniques, sampling with hand tools, and entry using wheeled vehicles for transportation to conduct such exploration. Exploration using suction dredges having an intake diameter of two inches (2") or less are considered casual exploration when operated in a perennial stream and authorized under the stream protection act, Title 42, Chapter 38, Idaho Code. Refer to Section 015 for further clarification regarding casual exploration and recreational mining. (7-1-21)

04. Commercial. The type of operation that engages in the removal of construction materials or uses suction dredges with an intake diameter larger than five inches (5") or attendant power sources rated at greater than fifteen (15) horsepower and/or other motorized equipment. (7-1-21)

05. Construction Materials. Sand, gravel, cobble, boulders, and other similar materials. (7-1-21)

06. Director. The Director of the Idaho Department of Lands or his authorized representative. (7-1-21)

07. Motorized Exploration. Exploration that may appreciably disturb or damage the land or resources thereon. Motorized exploration includes, but is not limited to, drilling, trenching, dredging, or other techniques that employ the use of earth moving or other motorized equipment, seismic operations using explosives, and sampling with suction dredges having an intake diameter greater than two inches (2") when operated in a perennial stream. When operated in an intermittent stream, suction dredges are considered motorized exploration regardless of the intake size. (7-1-21)

08. Natural or Ordinary High Water Mark. The line that the water impresses upon the soil by covering it for sufficient periods to deprive the soil of its vegetation and destroy its value for agricultural purposes. (7-1-21)

09. Person. (7-1-21)
a. An individual of legal age;  

b. Any firm, association or corporation qualified to do business in the state of Idaho; or  
c. Any public agency or government unit, including without limitation, municipalities.

10. **Recreational Mining.** Mining with a suction dredge having an intake diameter of five inches (5”) or less, and attendant power sources, rated at fifteen (15) horsepower or less, pans, rockers, hand tools, hand operated sluices and other similar equipment.

11. **River Mile.** Five thousand two hundred eighty (5,280) feet of contiguous riverbed as measured along the approximate center of the river.

12. **Navigable River.** A natural water course of perceptible extent, with definite bed and banks, which confine and conduct continuously flowing water, and the bed of which is owned by the state of Idaho in trust.

13. **Submerged Lands.** All state-owned beds of navigable lakes, rivers, and streams between the natural or ordinary high water marks.

011. -- 014. (RESERVED)

015. **CASUAL EXPLORATION AND RECREATIONAL MINING.**

01. **Lands Open.** All beds of navigable rivers that have not been located, leased or withdrawn in accordance with statute or the terms of these rules, are free and open to casual exploration and recreational mining on a nonexclusive and first come basis.

02. **Equipment Limitations.** Mining equipment for casual exploration that may occur prior to the filing of a location or lease application is limited to suction dredges with a two (2”) inch intake or less, pans, rockers, hand tools, hand operated sluices and other similar equipment.

03. **No Approval for Casual Exploration Required.** No written approval is required from the Director for casual exploration.

04. **Recreational Mining Equipment.** Mining equipment for recreational mining is limited to suction dredges with an intake diameter of five (5”) inches or less with attendant power sources rated at fifteen (15) horse power or less, pans, rockers, hand tools, hand operated sluices and other similar equipment.

05. **Department of Water Resources Permits.** Possession of a valid Stream Protection Act Permit issued by the Idaho Department of Water Resources and a Recreational Mining Permit issued by the Idaho Department of Lands constitutes the Board’s waiver of bond, waiver of royalty, and written approval to engage in recreational mining under Section 47-704(6), Idaho Code, and Title 47, Chapter 13, Idaho Code.

016. **EXPLORATION LOCATIONS.**

01. **Lands Open.** The beds of navigable rivers that have not been located or withdrawn, or are not under application to lease, in accordance with statute or the terms of these rules, are available for exploration location; provided that salable minerals are not subject to exploration location. Details of exploration locations on state lands can be found in Title 47, Chapter 7, Idaho Code.

02. **Size of Location.** Each exploration location is limited to one-half (1/2) mile in length.

03. **Record Keeping Requirement.** A locator must keep a record of all minerals recovered during exploration operations and must pay to the state a royalty of five percent (5%) of the gross value of the minerals recovered. Payment must be made each year with the filing of the assessment work report.
04. **When No Written Approval Required.** No written approval is required from the Director for exploratory activity on an exploration location when such exploration is limited to mining equipment such as suction dredges with a five (5") inch intake diameter or less and attendant power sources rated at fifteen (15) horsepower or less, pans, rockers, hand operated sluices, and other similar equipment; provided however, that recreational mining activity performed under a Recreational Mining Permit as authorized under Section 015 does not serve to establish any basis for an exploration location. (7-1-21)T

05. **When Written Approval Required.** Written approval is required from the Director prior to entry for operators conducting motorized exploration except as allowed in Subsection 016.04. Approved operations must be bonded as outlined in Subsection 040.03. (7-1-21)T

017. -- 019. (RESERVED)

020. **RIVERBED MINERAL LEASE.**

01. **Limitations on Suction Dredges.** Operators may not use suction dredges with an intake diameter larger than five inches (5") or attendant power sources rated greater than fifteen (15) horsepower, except under lease. (7-1-21)T

02. **Approval Required Before Operations.** Prior to entry upon navigable rivers, operators are required to have written approval from the Director. (7-1-21)T

03. **Bonding.** Approved operations must be bonded as outlined in Subsection 040.01. (7-1-21)T

04. **Simultaneous Filings.** Two (2) or more lease applications received on the same date and hour, covering the same lands, are considered simultaneous filings. Simultaneous filings will be resolved by competitive bidding. (7-1-21)T

021. -- 024. (RESERVED)

025. **PUBLIC NOTICE AND HEARING.**

01. **Publication of Notice.** Upon receipt by the Board of an application to lease any lands that may belong to the state of Idaho by reason of being situated between the high water marks of navigable rivers of the state, the Board will cause at the expense of the applicant, a notice of such application to be published once a week for two (2) issues in a newspaper of general circulation in the county or counties in which said lands described in said application are situated. (7-1-21)T

02. **Public Hearing.** The Board may order a public hearing on an application if it deems this action is in the best interest of the public. (7-1-21)T

03. **Petition for Hearing.** The Board or its authorized representative will hold a public hearing on the application, if requested in writing no later than thirty (30) days after the last published notice by ten (10) person whose lawful rights to use the waters applied for may be injured thereby, or by an association presenting a petition with signatures of not less than ten (10) such aggrieved parties; provided that the Board may order a public hearing in the first instance. The Board will consider fully all written and oral submissions respecting the application. (7-1-21)T

026. -- 029. (RESERVED)

030. **RENTAL AND ROYALTY AND LATE PAYMENTS.**

01. **Minimum Annual Rental.** The minimum annual rental is one hundred sixty dollars ($160) for any area up to one hundred sixty (160) acres, and one dollar ($1) for each additional acre. (7-1-21)T

02. **Minimum Annual Royalty.** In addition to the annual rental, the commercial lessee pays an annual minimum royalty of five hundred dollars ($500) per year and all other lessees pay an annual minimum royalty of
three hundred forty dollars ($340) per year. (7-1-21)T

03. **Deduction of Royalty.** The annual minimum royalty and the annual rental for any year is deducted from the actual production royalty as it accrues for that year. (7-1-21)T

04. **Royalty Schedule.** The appropriate Board approved royalty schedule for the commodity mined must be attached and made a part of the mineral lease. (7-1-21)T

05. **Late Payments.** Rental or royalty not paid by the due date is considered late. A twenty-five dollars ($25) late payment charge or penalty interest from the due date, whichever is greater, will be added to the rental or royalty amount. The penalty interest is one percent (1%) for each calendar month or fraction thereof. (7-1-21)T

031. **SIZE AND COMPOSITION OF LEASABLE TRACT.**

01. **One Mile Limitation.** A riverbed lease may not exceed one (1) contiguous river mile in length or all the riverbed within one (1) section should all the available state lands within the section exceed one (1) river mile. (7-1-21)T

02. **Construction Materials.** Leases for construction materials may be limited to a smaller size tract at the Board’s discretion. (7-1-21)T

032. -- 034. **(RESERVED)**

035. **ASSIGNMENTS.**

01. **Prior Written Approval.** No location or lease assignment is valid until approved in writing by the Director, and no assignment takes effect until after the first day of the month following its approval. (7-1-21)T

02. **Partition.** A location or lease may be assigned to any person qualified to hold a state location or lease, provided that in the event an assignment partitions leased lands between two (2) or more persons, both the assigned and the retained part created by the assignment contain not less than one-half (1/2) mile length of river bed land. (7-1-21)T

03. **Segregation of Lease.** If an assignment partitions leased lands between two (2) or more persons, it must clearly segregate the assigned and retained portions of the leasehold. Resulting segregated leases continue in full force and effect for the balance of the term of the original lease or as further extended pursuant to statute and these rules. (7-1-21)T

036. -- 039. **(RESERVED)**

040. **BOND.**

01. **Minimum Bond.** Concurrent with the execution of the lease by the lessee, lessee must furnish to the Director a good and sufficient bond or undertaking on a Department form in the amount of five thousand dollars ($5,000) for commercial operations and one thousand dollars ($1,000) for all other operations, in favor of the state of Idaho, conditioned on the payment of all damages to the land and all improvements thereon which result from the lessee’s operation and conditioned on complying with statute, these rules and the lease terms. This bond is in addition to the bonds required by the Idaho Dredge and Placer Mining Protection Act (Title 47, Chapter 13, Idaho Code). (7-1-21)T

02. **Statewide Bond.** In lieu of the above bond, the lessee may furnish a good and sufficient “statewide” bond conditioned as above in the amount of fifty thousand dollars ($50,000) in favor of the state of Idaho, to cover all lessee’s leases and operations carried on under statute and these rules. (7-1-21)T

03. **Motorized Exploration.** Motorized exploration on a site under location is subject to a minimum bond in the amount of seven hundred fifty dollars ($750). A larger bond not exceeding seven hundred fifty dollars ($750) per acre may be required by the Department depending on the size and scope of the operation. (7-1-21)T
041. -- 044. (RESERVED)

045. FEES.
The following fees apply: (7-1-21)

01. Nonrefundable Application Fee for Lease. Fifty dollars ($50) per application. (7-1-21)

02. Nonrefundable Fee for Advertising Application. Forty-five dollars ($45) per application. (7-1-21)

03. Exploration Location Fee. Two hundred fifty dollars ($250) per location. (7-1-21)

04. Application Fee for Approval of Assignment. Fifty dollars ($50) per lease or location involved in the assignment. (7-1-21)

046. -- 999. (RESERVED)
20.03.08 – EASEMENTS ON STATE-OWNED LANDS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to and are to be construed in a manner consistent with the duties and responsibilities of the Idaho State Board of Land Commissioners as set forth in Idaho Code Title 58, Chapters 1 and 6, and Article IX, Sections 7 and 8 of the Idaho Constitution. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.08, “Easements on State-Owned Lands.” (7-1-21)

02. Scope. These rules set forth procedures concerning the issuance of easements on all lands within the jurisdiction of the Idaho State Board of Land Commissioners except for state-owned submerged lands and formerly submerged lands. Further, these rules do not apply to easements for hydroelectric projects. (7-1-21)

03. Valid Existing Rights. These rules are not construed as affecting any valid existing rights. (7-1-21)

002. ADMINISTRATIVE APPEALS.
An applicant aggrieved by a decision of the Director under these rules may request a hearing before the Board, but must do so within thirty (30) days after receipt of written notice of the Director’s decision. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Board. The Idaho State Board of Land Commissioners or such representative as may be designated by the Board. (7-1-21)

02. Damage or Impairment of Rights to the Remainder of the Property. The diminution of the market value of the remainder area, in the case of a partial taking. (7-1-21)

03. Department. The Idaho Department of Lands. (7-1-21)

04. Director. The Director of the Department of Lands or such representative as may be designated by the Director. (7-1-21)

05. Easement. A non-possessory interest in land for a specific purpose. Such interest may be limited to a specified term. (7-1-21)

06. Endowment Lands. Land grants made to the state of Idaho by the Congress of the United States, or real property subsequently acquired through land exchange or purchase, for the sole use and benefit of the public schools and certain other institutions of the state, comprising nine (9) grants altogether. (7-1-21)

07. Market Value. The most probable price at a specified date, in cash, or on terms reasonably equivalent to cash, for which the property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. (7-1-21)

08. State-Owned Lands. All lands within the jurisdiction of the Idaho State Board of Land Commissioners except for state-owned submerged lands or formerly submerged lands. (7-1-21)

09. Temporary Permit. An instrument authorizing a specific use on state land usually issued for five (5) years or less, but that may be issued for up to ten (10) years. (7-1-21)

011. -- 019. (RESERVED)

020. POLICY.

01. Easements Required. Easements are required for all rights-of-way of a permanent nature over state-owned land. Easements will not be granted when temporary permits will serve the required purpose or when a lease is appropriate. (7-1-21)
02. Prior Grants. The Director will recognize easements on state endowment lands by grant of the federal government, or subsequent landowners, prior to title vesting with the State or by eminent domain. (7-1-21)

03. Existing Easements. These rules do not apply to any use, facility or structure described in an existing easement. For amendment of an existing easement, see Section 025. (7-1-21)

04. Director's Discretion. The Director may grant an easement over state-owned land for any legitimate public or private purpose upon payment of appropriate compensation. (7-1-21)

05. Reciprocal Easements. The Director may seek reciprocal easements for access to state-owned lands from applicants for easements over state-owned lands. The value of the easement acquired by the state may be applied towards the cost of the easement acquired from the state. (7-1-21)

06. Interest Granted. An easement grants only such interest to the grantee as is specified in the instrument, including the right to use the property for the specified purpose without interference by the grantor. The right to use the property for all other purposes not inconsistent with the grantee’s interest remains with the grantor. (7-1-21)

07. Limit of Director's Discretion. The Director may grant and renew easements in all cases except when the compensation will exceed twenty-five thousand dollars ($25,000) exclusive of the value of timber and payment for any damage or impairment of rights to the remainder of the property. (7-1-21)

08. Width of Easement. The width of any easement granted may not be less than eight (8) feet. (7-1-21)

09. Recordation. The Department will record the easement, or easement release, with the appropriate county recorder's office. (7-1-21)

10. Term Easement. The Director may grant an easement that is issued for a specific time period of ten (10) to fifty-five (55) years. (7-1-21)

021. FEES AND COMPENSATION.

01. Application Fee. The application fee for new, renewed, or amended easements is one hundred dollars ($100) and is collected from all applicants. This application fee is in addition to the easement compensation and appraisal costs, and is non-refundable unless the Director determines that the land applied for is not under the jurisdiction of the Board. (7-1-21)

02. Easement Fee. The compensation for permanent easements over state-owned lands covered by these rules is as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Compensation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highways, roads, railroads, reservoirs, trails, canals, ditches, or any other improvements that require long term, exclusive or near exclusive use and occupation of the right of way</td>
<td>Up to 100% of land value plus payment for any damage or impairment of rights to the remainder of the property as determined by the Director and supported by specific data such as an appraisal</td>
</tr>
<tr>
<td>Overhead transmission and power lines</td>
<td>Up to 100% of land value depending on the exclusivity of use as determined by the Director and supported by specific data such as an appraisal plus payment for any damage or impairment of rights to the remainder of the property as determined by the Director and supported by data such as an appraisal</td>
</tr>
</tbody>
</table>
### COMPENSATION

| Buried installations - cables, pipelines, sewerlines, waterlines | Up to 100% of land value, depending on the exclusivity use as determined by the Director and supported by specific data such as an appraisal plus payment for any damage or impairment of rights to the remainder of the property, as determined by the Director and supported by specific data such as an appraisal |

#### 03. Appraisal Required
   An appraisal of an easement may be required where, in the opinion of the Director, the easement value will exceed the minimum compensation fee of five hundred dollars ($500).

#### 04. Performance of Appraisal
   The appraisal of the easement will normally be performed by qualified department staff. If so desired by the applicant, and agreed to by the Director, the applicant may provide the appraisal that is acceptable to and meets the specifications set by the Director.

#### 05. Appraisal Costs
   Where the appraisal is performed by department staff, the appraisal is two hundred fifty dollars ($250) for a market analysis, five hundred dollars ($500) for a short form appraisal, and one thousand dollars ($1,000) for appraisals of easements requiring Board approval. The appraisal cost is in addition to those costs outlined in Subsections 021.01 and 021.02. In no case will an applicant be charged more than one thousand dollars ($1000) for an appraisal of an easement conducted by departmental staff.

#### 06. Term Easements
   Compensation for term easements will be established by appraisal.

#### 07. Minimum Compensation
   The minimum compensation for any easement is five hundred dollars ($500), not including the application fee and appraisal costs.

#### 022. -- 024. (RESERVED)

#### 025. EASEMENT AMENDMENT.
   Amendment of an existing easement must be processed in the same manner as a new application. Amendment includes change of use, widening the easement area, or changing the location of the easement area. Amendment does not include ordinary maintenance, repair, or replacement of existing structures such as poles, wires, cables, and culverts.

#### 026. -- 029. (RESERVED)

#### 030. EMERGENCY WORK.
   The grantee is authorized to enter upon endowment lands and other lands managed by the Department for the purpose of performing emergency repairs on an easement for damage due to floods, high winds and other acts of God, provided that the grantee provides written notice to the Director within forty-eight (48) hours of the time work commences. Thereupon, the Director is authorized to assess any damages to the state lands and seek reimbursement.

#### 031. -- 034. (RESERVED)

#### 035. COOPERATIVE USE AND RECIPROCAL USE AGREEMENTS.
   **Joint Agreements**
   The Director may, subject to the approval of the Board, enter into joint ownership and use agreements with persons for roads providing access to state endowment lands and other lands managed by the Department. Such agreements must provide that all landowners share proportionately in the cost of building and maintaining the shared road. The proportionate shares are calculated on timber volume, acreage or other unit of value.

   **Reciprocal Use Agreements**
   The Director may enter into reciprocal use agreements with persons...
for existing roads where such agreements will enhance the management of state endowment lands or other lands managed by the Department. (7-1-21)

03. Applicability. Where the Director has entered into such agreements mentioned in Subsections 035.01 and 035.02 above, Sections 021, 040, and 046 do not apply. (7-1-21)

036. -- 039. (RESERVED)

040. ASSIGNMENTS.

01. Fee. Easements issued by the Director or by the Board are assignable provided that the assignor and assignee complete the Department’s standard assignment form and forward it and the non-refundable assignment fee of fifty dollars ($50) to any department office. (7-1-21)

02. Prior Written Consent. An assignment is not valid without the prior written consent of the Director. Such consent will not be unreasonably withheld. (7-1-21)

03. Multiple Assignments. If all state easements held by a grantee are assigned at one time, only one (1) assignment fee is required. (7-1-21)

041. ABANDONMENT, RELINQUISHMENT, AND TERMINATION.

01. Section 58-603, Idaho Code. The provisions of Idaho Code Section 58-603 apply to all easements over state-owned lands. (7-1-21)

02. Non-Use. An easement not used for the purpose for which it was granted, for five (5) consecutive years, is presumed abandoned and automatically terminates. The Director will notify the grantee in writing of the termination. The grantee has thirty (30) days from the date of notification to reply in writing to the Director to show cause why the easement should be reinstated. Within sixty (60) days of receipt of the statement to show cause, the Director will notify the grantee in writing as to the Director’s decision concerning reinstatement. The grantee has thirty (30) days of receipt of the Director’s decision to appeal an adverse decision to the Board. (7-1-21)

03. Removal of Improvements. Upon termination, the grantee has twelve (12) months from the date of final notice to remove any facilities and improvements. (7-1-21)

04. Voluntary Relinquishment. The grantee may voluntarily relinquish the easement at any time by completing an easement relinquishment form. The Department will pay the grantee one dollar ($1) for the relinquishment. (7-1-21)

042. -- 045. (RESERVED)

046. PROCEDURE.

01. Contents of Application. An easement application contains.

a. A letter of request stating the purpose of the easement; (7-1-21)

b. A map of right-of-way in triplicate; and (7-1-21)

c. One (1) copy of an acceptable written description based on a centerline survey or a metes and bounds survey of the perimeter of the easement tract. The applicant may also describe the area occupied by existing uses, facilities or structures by platting the state-owned land affected by the use and showing surveyed or scaled ties (to a legal corner) at the points where the use enters and leaves the parcel. (7-1-21)

02. Engineer Certification. As required in Section 58-601, Idaho Code, for any application for a ditch, canal or reservoir, the plats and field notes must be certified by the engineer under whose direction such surveys or plans were made and four (4) copies filed with the Department and one (1) copy with the Director, Department of
03. Where to Submit Application. An easement application may be submitted to any office of the Department.

04. Notification of Approval. If approved, the applicant will be notified of the amount due to the Department.

05. Notification of Denial. If the application is denied, the applicant will be notified in writing of such decision.

047. EASEMENTS ON STATE LAND UNDER LAND SALE CONTRACT.

01. Approval of Contract Purchaser. The Director will not approve an easement on lands under contract of sale (land sale certificate) without the approval of the contract sale purchaser or without reviewing the consideration received to insure that the state’s interests are protected.

02. Compensation. The compensation for easements on lands under land sale contract will be as set out in Section 021 except that “land value” may be the sale value. These moneys will be applied to the principal balance on the land sale contract. Additionally, the Department will collect the one hundred dollar ($100) application fee.

03. Co-Signature of Contract Purchaser. The contract sale purchaser must co-sign the easement to validate the document.

048. -- 999. (RESERVED)
LEGAL AUTHORITY.
These rules are promulgated pursuant to, and are to be construed in a manner consistent with, the duties and responsibilities of the Idaho State Board of Land Commissioners as set forth in Title 58, Chapters 1, 6, and 13, Idaho Code, and the Equal Footing Doctrine (Idaho Admission Act of July 3, 1890, 26 Stat. 215, Chapter 656).

TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.09, “Easements on State-Owned Submerged Lands and Formerly Submerged Lands.”

02. Purpose. These rules set forth procedures concerning the issuance of easements on state-owned submerged and formerly submerged lands.

03. Scope. These rules apply to the issuance of easements for all uses, other than irrigation facilities, diversion facilities, temporary irrigation berms, headgates, turnouts, and domestic water supply intake lines capable of drawing less than five (5) cubic feet per second of water; except that dams that span the entire width of a navigable stream channel regardless of their purpose are subject to these rules.

04. Exceptions; Permits Required. Easements will not be granted where temporary permits will serve the required purpose or when a lease is more usual and customary, such as for marinas, docks, float homes, and similar facilities. (see IDAPA 20.03.17, “Rules Governing Leases on State-owned Submerged Lands and Formerly Submerged Lands.”)

05. Exceptions; Temporary Structures. These rules do not apply to uses, facilities, and structures considered to be temporary in nature; more specifically, those uses that will be in effect for a period of ten (10) years or less or those facilities or structures with a lifespan of ten (10) years or less. Such uses, facilities, and structures may be authorized by revocable temporary permits.

ADMINISTRATIVE APPEALS.
An applicant aggrieved by a decision of the Director under these rules may request a hearing before the board, but must do so within thirty (30) calendar days after receipt of written notice of the Director’s decision. Failure to make said request within the thirty (30) day period constitutes a waiver of the applicant’s right to a hearing before the board. Pursuant to Title 67, Chapter 52, Idaho Code, the applicant may appeal an adverse decision of the Board.

DEFINITIONS.

01. Artificial High Water Mark. The high water elevation above the natural or ordinary high water mark resulting from construction of man-made dams or control works and impressing a new and higher vegetation line (Section 58-1302(d), Idaho Code).

02. Board. The Idaho State Board of Land Commissioners or such representative as may be designated by the board.

03. Dam. Any artificial barrier, placed across a navigable stream channel or watercourse.

04. Department. The Idaho Department of Lands.

05. Director. The Director of the Idaho Department of Lands or such representative as may be designated by the Director.

06. Easement. A nonpossessory interest held by one person in land of another person whereby the first person is accorded use for a portion of such land for a specific purpose.

07. Formerly Submerged Lands. Formerly submerged beds of state-owned navigable lakes, rivers, and streams which have either been filled or have subsequently become uplands because of human activities, i.e.,
dikes, berms, seawalls, etc. Included are islands that have been created on submerged lands by natural processes or human activities since the date of statehood (July 3, 1890).

08. **Grantee.** The party to whom the easement is granted and their assigns and successors in interest.

09. **Grantor.** The State of Idaho and its assigns and successors in interest.

10. **Hydroelectric Facilities.** The dam, diversion, penstock, transmission lines, water storage area, powerhouse and other facilities related to generating electric energy from water power.

11. **Market Value.** The amount in cash, or on terms reasonably equivalent to cash, for which in all probability the property would be sold by a knowledgeable owner willing but not obligated to sell to a knowledgeable purchaser who desired but is not obligated to buy.

12. **Natural or Ordinary High Water Mark.** The line which the water impresses upon the soil covering it for a sufficient period of time to deprive the soil of its vegetation and destroy its value for agricultural purposes (Section 58-104(9), Idaho Code). When the soil, configuration of the surface, or vegetation has been altered by man’s activity, the natural or ordinary high water mark shall be located where it would have been if this alteration had not occurred.

13. **Person.** A partnership, an association, a joint venture or a corporation qualified to do business in the State of Idaho, any federal, state, county or local unit of government, or an individual.

14. **Right-of-Way.** The privilege that one (1) person, or persons particularly described, may have of passing over the land of another in some particular line. Usually an easement over the land of another.

15. **Submerged Lands.** The state-owned beds of navigable lakes, rivers, and streams lying below the natural or ordinary high water marks.

16. **Uplands.** The land bordering on navigable lakes, rivers, and streams.

011. **POLICY.**

01. **Regulation of the Beds of Navigable Waters.** It is the policy of the State of Idaho to regulate and control the use or disposition of lands in the beds of navigable lakes, rivers, and streams to the natural or ordinary high water mark thereof, so as to provide for their commercial, navigational, recreational or other public use; provided, that the board shall take no action in derogation of or seeking to interfere with the riparian or littoral rights of the owners of upland property abutting or adjoining such lands (Section 58-104, Idaho Code).

a. These rules shall not be construed as adversely affecting any valid existing rights.

b. The board or Director shall not grant an easement for any use, facility, or structure that would impair those uses of submerged and formerly submerged lands protected under the public trust doctrine.

02. **Exercise of State Title.** The state exercises its title over the beds of all lakes, rivers, and streams that are navigable in fact. The department will respond to requests or inquiries as to which lakes, rivers, and streams are deemed navigable in fact. Additional information about streams deemed navigable by the state of Idaho is available from the Department.

03. **Stream Channel and Encroachment Permits.** Issuance of an easement shall be contingent upon the applicant first obtaining a stream channel alteration permit if required by the Idaho Department of Water Resources, pursuant to Title 42, Chapter 38, Idaho Code, or a lake encroachment permit if required by the Department, pursuant to the Lake Protection Act, Section 58-1301, Idaho Code.

04. **Other Permits.** Issuance of an easement shall not relieve an applicant of acquiring other permits and licenses that are required by law.
05. Existing Easements. These rules apply to existing easements on submerged or formerly submerged lands. However, it shall not be necessary for a person possessing a valid easement on the effective date of these rules to file a new application pursuant to these rules. (7-1-21)

06. Existing Permits. Any person holding a permit, issued after May 23, 1984 during the pendency of the promulgation of these rules, for right-of-way on submerged or formerly submerged lands shall convert the permit to an easement upon payment of fees and compensation in the amount provided for by these rules. (7-1-21)

07. Limitation on Easement Grant. An easement grants only such interest to the grantee as is specified within the document, including the legal right to occupy and use the submerged or formerly submerged lands for the specified purpose in the easement without interference by the grantor, except as otherwise provided by law. The legal right to use the submerged or formerly submerged lands for all other purposes not inconsistent with the grantee’s interest remains with the grantor. (7-1-21)

08. Minimum Width. The minimum width of any easement granted shall be eight (8) feet. (7-1-21)

020. FEES AND COMPENSATION.

01. Administrative Fee. There shall be a one-time nonrefundable administrative fee of three hundred dollars ($300) for any use, facility, or structure requiring an easement under these rules. No supplemental compensation, in excess of the one-time administrative fee, shall be required for:

   a. An easement for a use, facility, or structure for which the navigable lake, river, or stream poses an obstacle or barrier for construction or operation of the use, facility, or structure, or where the applicant demonstrates, and the Director or Board concurs, that the impact of the use, facility, or structure on the submerged lands is less than the impact on the other values associated with the adjacent uplands such as conservation of resources, significant cost savings to the public, or accessibility. (7-1-21)

   b. An easement for a dam that does not produce hydroelectric power and is less than ten (10) feet in height (as measured from the natural stream bed at the downstream side). (7-1-21)

02. Supplemental Compensation. In addition to the one-time nonrefundable administrative fee of three hundred dollars ($300), supplemental compensation will be required for:

   a. New and renewed easements for all dams of any size that produce hydroelectric power and all dams that are ten (10) feet and higher (as measured from the natural stream bed at the downstream side). Supplemental compensation for such easements shall be one thousand dollars ($1,000), and for a dam including associated hydroelectric facilities, there shall be an additional one-time payment of five dollars ($5) per megawatt of installed capacity per the nameplate rating of said facility. If the facility is situated on a Snake River segment that is a common border with the state of Oregon or the state of Washington, the installed capacity shall be prorated based on the location of the common border for the purpose of calculating the compensation. Total compensation for a new or renewed easement issued for a dam including associated hydroelectric facilities shall not exceed twenty thousand dollars ($20,000). If an easement for a hydroelectric facility has been issued prior to relicensing, the fee will be prorated based on a fifty (50) year use period. The fee for annual extensions that are frequently issued by FERC because of permitting delays prior to issuance of the major FERC license will be prorated based on a fifty (50) year use period. (7-1-21)

   b. An easement over submerged and formerly submerged lands, for any use, facility, or structure, that is not a dam or hydroelectric facility, which would use submerged or formerly submerged lands as a substitute for or to reduce or eliminate the use of uplands. Supplemental compensation for such easements shall be a one-time payment based on the market value of the submerged or formerly submerged lands. The compensation shall be determined by appraisal. For purposes of this subsection, the per acre value of the submerged or formerly submerged lands shall be the same as the per acre value of the adjacent uplands for which the submerged or formerly submerged lands shall serve as a substitute or in the case of filled lands, the per acre value shall be based on its highest and best
use. Adjacent uplands are uplands bordered on one (1) side by the water body and extending landward at least one (1) lot in depth or three hundred (300) feet, whichever is greater. (7-1-21)T

03. Appraisal. The appraisal of the easement normally will be performed by qualified Department staff. If so desired by the applicant and agreed to by the Director, the applicant may provide the appraisal, which must be acceptable to and meet the specifications set by the Director. (7-1-21)T

04. Cost of Appraisal. Where the appraisal is performed by department staff, the appraisal costs shall be the actual cost and shall be charged to the applicant in addition to those costs outlined in Subsections 020.01 and 020.02. These costs shall include transportation, personnel costs (including per diem), and administrative overhead. An itemized statement of these costs shall be provided to the applicant. The appraisal fee shall be billed separately from the nonrefundable administrative fee established in Subsection 020.01. (7-1-21)T

021. -- 029. (RESERVED)

030. TERM OF EASEMENT.

01. Permanent Uses. A permanent easement will be issued for uses, facilities, and structures that are normally considered permanent in nature, such as bridges, utility crossings, highway fills, and dams. (7-1-21)T

02. Term Easements. A term easement will be issued for a specific time period of ten (10) to fifty-five (55) years and will be issued for those uses, facilities, and structures not normally considered permanent in nature. (7-1-21)T

03. Federally Licensed Facilities. The term of an easement for all federally licensed hydroelectric facilities on submerged or formerly submerged lands shall be run concurrently with the term of such license issued by the United States Federal Energy Regulatory Commission (FERC), or its successor, authorizing the facility. Easements for hydroelectric facilities for which FERC has issued a conduit exemption shall not exceed fifty-five (55) years. (7-1-21)T

031. -- 039. (RESERVED)

040. USE, FACILITY, OR STRUCTURE MODIFICATION. Modification of an existing use, facility, or structure shall require an easement or an amendment to an existing easement and shall be processed in the same manner as a new application. Modification includes expanding the use or easement area, or changing the location of the use or easement area. Modification does not include ordinary maintenance, repair, or replacement of existing structures such as poles, wires, and cables. (7-1-21)T

041. -- 049. (RESERVED)

050. ASSIGNMENTS.

01. Assignment Fee. Easements may be assigned upon approval of the Director. The assignor and assignee must complete the department’s standard assignment form and forward it and the nonrefundable assignment fee of fifty dollars ($50) to any department office. (7-1-21)T

02. Prior Written Consent. An assignment is not valid without the written consent of the Director which shall not be unreasonably withheld. The Department shall work diligently to complete assignments within sixty (60) days after receipt of the standard assignment forms and all associated information. (7-1-21)T

03. Multiple Assignments. If all state easements held by a grantee are assigned at one time, only one (1) assignment fee shall be required. (7-1-21)T

051. -- 059. (RESERVED)

060. ABANDONMENT, RELINQUISHMENT, AND TERMINATION.
01. **Section 58-603, Idaho Code.** The provisions of Section 58-603, Idaho Code relating to rights-of-way apply to all easements over state-owned submerged and formerly submerged lands. (7-1-21)

02. **Non-Use.** Upon termination of an easement for any cause, the Director shall provide the grantee with a specific, but reasonable, period of time (up to twelve (12) months) to remove all facilities or structures. Failure to remove all facilities or structures within such time period established by the Director shall be deemed a trespass on submerged or formerly submerged lands. (7-1-21)

03. **Voluntary Relinquishment.** The grantee may voluntarily relinquish the easement at any time by submitting a letter or relinquishment form in recordable format to the state of Idaho. Voluntary relinquishment of an easement does not waive or forgive the obligation of the easement holder to remove facilities as required in Subsection 060.02. (7-1-21)

061. -- 069. (RESERVED)

070. **PROCEDURE.**

01. **Contents of Application.** An easement application shall contain:
   a. A letter of request stating the purpose of the easement; (7-1-21)
   b. A plat of right-of-way in triplicate; and (7-1-21)
   c. One (1) copy of an acceptable written description based on a survey of the centerline or a metes and bounds survey of the easement tract. The applicant may also describe the area occupied by existing uses, facilities or structures by platting the state-owned submerged or formerly submerged lands affected by the use and showing surveyed or scaled ties (to a legal corner) at the points where the use enters and/or leaves the parcel. (7-1-21)

02. **Engineer Certification.** All maps, plans, and field notes attached to an application for rights-of-way for ditches and reservoirs governed by Section 58-601, Idaho Code, shall be certified by the engineer under whose direction such surveys or plans were made and four (4) copies filed with the Department and one (1) copy filed with the Idaho Department of Water Resources. (7-1-21)

03. **Decision on Application.** Upon proper application and payment of the nonrefundable administrative fees, appraisal costs, and supplemental compensation required pursuant to these rules, the Director may, after appropriate review and consideration of the facts and the law, grant an easement on and over submerged or formerly submerged lands for any public or private purpose. The Director may deny an application for easement upon a finding that issuance would not be consistent with law or these rules. Such denial or approval shall be in writing within six (6) months of the receipt of the application. (7-1-21)

04. **Director's Decision.** The Director may grant and renew easements in all cases except when the compensation will exceed ten thousand dollars ($10,000), exclusive of the payment for any damage or impairment of rights to the remainder of the property. (7-1-21)

05. **Board Decision.** Easement applications where compensation exceeds ten thousand dollars ($10,000), or that are of a complex and unusual nature as determined by the Director, shall be presented to the Board for appropriate action. (7-1-21)

06. **Where to Submit.** An easement application may be submitted to any office of the Department. (7-1-21)

07. **Notification of Approval.** If the application is approved, the applicant shall be notified in writing of the amount due to the Department. (7-1-21)

08. **Denial of Application.** If the application is denied, the applicant shall be notified in writing of the reasons for the denial. (7-1-21)
080. EASEMENT ACCESS AND EMERGENCY WORK.

01. Use of Land. The grantee has the right to use such portion of the lands adjacent to and along said easement as may be reasonably necessary in connection with the installation, repair, and replacement of the use, facility, or structure authorized by the easement. If such activities cause soil disturbance, the destruction of vegetation, and/or entering the navigable stream bed below the natural or ordinary high water mark, the grantee will obtain written authorization from the grantor.

02. Emergency Work. The grantee is authorized to enter upon lands lying outside the easement area, including submerged or formerly submerged lands and other lands managed by the Department, for the purpose of performing emergency repairs on an easement for damage due to floods, high winds, and other acts of God, provided that the grantee provides written notice to the Director within forty-eight (48) hours of the time work commences. The grantee shall be responsible for any damage to lands or other resources outside the easement area.
20.03.13 – ADMINISTRATION OF COTTAGE SITE LEASES ON STATE LANDS

000. LEGAL AUTHORITY.
The State Board of Land Commissioners has adopted these rules in accordance with Article IX, Section 8 of the Idaho Constitution and Sections 58-104(1) and 58-304, Idaho Code.

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.13, “Administration of Cottage Site Leases on State Lands.”

02. Scope. It is the intent and express policy of the Board in administration of cottage site leases located on state-owned lands administered by the Board, to provide for a reasonable rental income from those lands in accordance with the requirements of the Constitution of the State of Idaho.

002. -- 009. (RESERVED)

010. DEFINITIONS.
For the purposes of these rules, unless otherwise indicated by express term or by context, the term:

01. Annual Rental. The rental paid on or before January 1, in advance, for the following year.

02. Board. The State Board of Land Commissioners.

03. Cottage Site. Any state-owned lot that is leased for recreational residential purposes.

04. Department. The Idaho Department of Lands.

05. Lessee. A tenant of a cottage site.

011. -- 019. (RESERVED)

020. SALE AND ASSIGNMENT - REQUIRED DOCUMENTATION.

01. Documentation of Sale. The lessee must provide the Department, at their expense, the following documents concerning a cottage site sale prior to assignment of the cottage site lease.

a. The original of the current lease; or

b. A signed and notarized Affidavit of Loss if the current lease has been lost.

02. Assignments. A lease may only be assigned to an individual or to a husband or wife. The Board will not recognize assignments to corporations, partnerships, or companies. Leases may be assigned to and held by an estate only if one (1) individual or husband or wife are designated as the sole contact for all billing and correspondence. A lessee may only hold one (1) cottage site lease at a time.

021. -- 024. (RESERVED)

025. LEASE RATE DETERMINATION -- ANNUAL RENTAL.
Annual rental is set by the Board from time to time as deemed necessary. It is the intent of the State Board of Land Commissioners that those rental rates be determined through market indicators of comparable land values.

026. -- 999. (RESERVED)
20.03.14 – RULES GOVERNING GRAZING, FARMING, CONSERVATION, NONCOMMERCIAL RECREATION, AND COMMUNICATION SITE LEASES

000. LEGAL AUTHORITY.
These rules are promulgated by the Idaho State Board of Land Commissioners pursuant to Section 58-104, Idaho Code. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.14, “Rules Governing Grazing, Farming, Conservation, Noncommercial Recreation, and Communication Site Leases.” (7-1-21)

02. Scope. These rules constitute the Department’s administrative procedures for leasing of state endowment trust land for grazing, farming, conservation, noncommercial recreation, communication sites and other uses that are treated similarly under the provisions of Section 58-307, Idaho Code, regarding a lease term for no longer than twenty (20) years, and under the provisions of Section 58-310, Idaho Code regarding lease auctions. These rules are to be construed in a manner consistent with the duties and responsibilities of the Idaho State Board of Land Commissioners as set forth in Title 58, Chapter 3, Idaho Code; Article 9, Sections 3, 7 and 8, of the Idaho Constitution; and Section 5 of the Idaho Admission Bill. (7-1-21)

002. ADMINISTRATIVE APPEALS.

01. Board Appeal. All decisions of the Director are appealable to the Board. An aggrieved party desiring to make such an appeal must, within twenty (20) days after receiving notice of the final decision being appealed or in case of a conflict auction within twenty (20) days after the auction is held, file with the Director a written notice of appeal setting forth the basis for the appeal. The Board has the discretion to accept or reject any timely appeal. In the event that the Board rejects hearing the appeal, the decision of the Director will be deemed final. (7-1-21)

02. Board Decision. In the event the Board hears an appeal, it will do so at the earliest practical time or, in its discretion, appoint a Board sub-committee or a hearing officer to hear the appeal. The Board sub-committee or hearing officer will make findings and conclusions which the Board accepts, rejects or modifies. The decision of the Board after a hearing, or upon a ruling concerning the Board sub-committee or hearing officer’s findings and conclusions, are final. (7-1-21)

03. Judicial Review. Judicial review of the final decision of the Board is in accord with the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Amortization. The purchase of Department authorized, lessee installed, lease improvements by the Department through allowance of credit to the lessee’s annual lease payments. (7-1-21)

02. Animal Unit Month (AUM). The amount of forage necessary to feed one (1) cow or one (1) cow with one (1) calf under six (6) months of age or one (1) bull for one (1) month. One (1) yearling is considered seven tenths (.7) of an AUM. Five (5) head of sheep, or five (5) ewes with lambs are considered one (1) AUM. One (1) horse is considered one and one-half (1 1/2) AUM. (7-1-21)

03. Assignment. The Department approved transfer of all, or a portion of, a lessee’s right to another person wherein the second person assumes the lease contract with the Department. (7-1-21)

04. Board. The Idaho State Board of Land Commissioners or such representatives as may be designated. (7-1-21)

05. Conflict Application. An application to lease state endowment trust land for grazing, farming, conservation, noncommercial recreation or communication site use when one (1) or more applications have been submitted for the same parcel of state endowment trust land and for the same or an incompatible use. (7-1-21)

06. Department. The Idaho Department of Lands. (7-1-21)

07. Director. The Director of the Department of Lands, or such representative as may be designated by
08. **Extension.** An approved delay in the due date of the rental owed on a farming lease without risk of loss of the lease. 

09. **Improvement Valuation.** The process or processes of estimating the value of Department authorized improvements associated with a lease, as defined in Section 102. 

10. **Lease.** A written agreement between the Department and a person containing the terms and conditions upon which the person will be authorized to use state endowment trust land. 

11. **Herd Stock.** Livestock leased or managed, but not owned, by the lessee. 

12. **Lease Application.** An application to lease state endowment trust land for grazing, farming, conservation, noncommercial recreation, or communication site purposes. 

13. **Manageable Unit.** A unit of state endowment trust land designated by the Department, geographically configured and sufficiently large to achieve the proposed use. 

14. **Management Plan.** The signed state endowment trust land lease for grazing, farming and conservation, and any referenced attachments such as annual operating plans or federal allotment management plans, is considered the management plan. 

15. **Mortgage Agreement.** Department authorization for the lessee to obtain a mortgage on a state endowment trust land lease. 

16. **Person.** An individual, partnership, association, corporation or any other entity qualified to do business in the state of Idaho and any federal, state, county, or local unit of government. 

17. **Proposed Management Plan.** A document written and submitted by the lease applicant detailing the management objectives and strategies associated with their proposed activity. 

18. **Sublease.** An agreement in which the state endowment trust land lease holder conveys the right of use and occupancy of the property to another party on a temporary basis. 

011. -- 018. (RESERVED) 

019. **LESSEE MAILING ADDRESS.** 

Unless otherwise notified by the lessee, all lease correspondence from the Department will be sent to the name and address as it appears on the lease application. It is the lessee’s duty to notify the Department, in writing, of any change in mailing address. 

020. **APPLICATIONS AND PROCESSING.** 

01. **Eligible Applicant.** Any person legally competent to contract may submit an application to lease state endowment trust land provided such person is not then in default of any contract with the Department of Lands; provided further, that the Department may, in its discretion, exclude any person in breach of any contract with the state of Idaho or any department or agency thereof. 

02. **Application Process.** All lease applications must be submitted to the Department on the appropriate Department form. The applications must be signed by the applicant, must be submitted in such manner as determined by the Department, and must meet the following criteria: 

   a. Non-refundable Fee. Each application for a lease must be accompanied by a non-refundable application fee in the amount specified by the Board. 

   b. Application Deadline. The deadline to apply to lease a parcel of state endowment trust land already
covered by a lease is as established by the Department for the year the existing lease expires. Applications to lease unleased state endowment trust land may be submitted at any time, or at such time as designated by the Department. (7-1-21)T

c. Proposed Management Plan. All applicants for state grazing, farming and conservation leases must submit a proposed management plan with their application. Where current lessee is an applicant, the Department will recognize the existing management plan, as described by the existing lease provisions, as the proposed management plan required to complete the lease application. The Department may require amendments to the proposed management plan in accordance with Subsections 020.02.e. and 020.02.f. (7-1-21)T

d. Legal Description on Application. All applications must include a legal description of the state endowment trust land applied on. The Department reserves the right to require an amendment of the legal description of state endowment trust lands identified in a lease application to ensure the parcel is a manageable unit or for any other reason deemed appropriate by the Department. If the applicant fails to provide an amended application, referencing a manageable unit as designated by the Department, the application is considered invalid. (7-1-21)T

e. Nonconflicted Applications. (7-1-21)T

i. If the current lessee is the only applicant and the Department does not have concerns with the lessee’s current management of the leased state endowment trust land, a new lease will be issued. (7-1-21)T

ii. If the current lessee is the only applicant and the Department has concerns with the lessee’s current management of the state endowment trust lands, the Department will request in writing a new proposed management plan and meet with the current lessee to develop terms and conditions of a proposed lease. (7-1-21)T

f. Conflicted Applications. (7-1-21)T

i. All applicants submitting conflict applications must meet with the Department to develop the terms and conditions of a proposed lease specific to each applicant’s proposed management plan. (7-1-21)T

ii. The Department will provide all applicants for conflicted leases with the list of criteria that will be used to develop lease provisions. Among the factors to be addressed in the criteria are the following: (7-1-21)T

(1) The applicant’s proposed use and the compatibility of that use of the state endowment trust land with preserving its long-term leasing viability for purposes of generating maximum return to trust beneficiaries; i.e., the impact of the proposed use and any anticipated improvements on the parcel’s future utility and leasing income potential. (7-1-21)T

(2) The applicant’s legal access to and/or control of land or other resources that will facilitate the proposed use and is relevant to generating maximum return to trust beneficiaries. (7-1-21)T

(3) The applicant’s previous management of land leases, land management plans, or other experience relevant to the proposed use or ability/willingness to retain individuals with relevant experience. (7-1-21)T

(4) Potential environmental and land management constraints that may affect or be relevant to assessing the efficacy or viability of the proposed use. (7-1-21)T

(5) Mitigation measures designed to address trust management concerns such as: (7-1-21)T

(a) Construction of improvements at lessee’s expense. (7-1-21)T

(b) Payment by lessee of additional or non-standard administrative costs where the nature of the proposed use and/or the applicant’s experience raises a reasonable possibility that greater monitoring or oversight by the Department than historically provided will be necessary to ensure lease-term compliance. (7-1-21)T

(c) Bonding to ensure removal of any improvements installed for the lessee’s benefit only and which would impair the future utility and leasing income potential of the state endowment trust land. (7-1-21)T
(d) Bonding to ensure future rental payments due under the lease in cases where the lessee is determined by the Department to pose a significant financial risk because of lack of experience or uncertain financial resources. (7-1-21)T

(6) Any other factors the Department deems relevant to the management of the state endowment trust land for the proposed use. (7-1-21)T

g. Proposed Lease. Within ten (10) days of the final meeting with the applicant to discuss lease provisions, the Department will provide the applicant with a proposed lease containing those terms and conditions upon which it will lease the state endowment trust land. If the applicant does not accept in writing the lease as proposed by the Department within seven (7) days of receipt, the application will be rejected in writing by the Department. Within twenty (20) days of the date of mailing of the rejection notice, the applicant may appeal the Department’s determination as to the lease’s terms and conditions to the Land Board. If the appeal is denied, the applicant may continue with the auction process by accepting the lease terms and conditions initially offered by the Department. No auction may be held until the Land Board resolves any such appeal. (7-1-21)T

03. Expiring Leases. Lease applications will be mailed by the Department to all holders of expiring leases no less than thirty (30) days prior to the application deadline. Signed applications and the application fee must be returned to the Department by the established deadline or postmarked no later than midnight of that date. It is the lessee’s responsibility to ensure applications are delivered or postmarked by the deadline. (7-1-21)T

04. Rental Deposit.

a. Existing Lessee. If the existing lessee is the sole applicant, the lessee may submit the rental deposit at the normal due date. If a conflict application is also filed on the expiring lease and the existing lessee is awarded the lease by the Land Board, the lessee must deposit, with the Department, the estimated first year’s rental for the lease at the time the lease is submitted to the Department with lessee’s signature. (7-1-21)T

b. New Applicants.

i. Expiring Lease. New applicants for expiring leases must submit the estimated first year’s rental to the Department at the time of the application’s submission. (7-1-21)T

ii. Unleased State Endowment Trust Land. All applicants for unleased state endowment trust land are deemed new applicants. If an applicant for unleased state endowment trust land is the sole applicant, the applicant may submit the rental deposit at the normal billing cycle, unless the time of application and desired time of use do not coincide with the normal billing cycle, in which case payment must be rendered at the direction of the Department. (7-1-21)T

021. LENGTH OF LEASE.
The Department may issue a lease for any period of time up to the maximum term provided by law. (7-1-21)T

022. -- 029. (RESERVED)

030. CHANGE IN LAND USE.
The Director may change the use of any state endowment trust land, in whole or in part, for other uses that will better achieve the objectives of the Board. (7-1-21)T

031. -- 039. (RESERVED)

040. RENTAL.

01. Rental Rates. The methodology used to calculate rental rates is determined by the Board. (7-1-21)T

02. Special Uses. Fees for special uses requested by the lessee and approved by the Department are
determined by the Department. (7-1-21)

03. Rental Due Date. Lease rentals are due in accordance with the terms of the lease. (7-1-21)

041. CHANGE OF RENTAL.
The Department reserves the right to increase the annual lease rental. Notice of any increase will be provided in writing to the lessee at least one hundred eighty (180) days prior to the lease rental due date. (7-1-21)

042. LATE PAYMENTS.
Rental not paid by the due date is considered late. Late payment charges from the due date forward are specified in the lease. (7-1-21)

043. -- 048. (RESERVED)

049. BREACH.

01. Non-Compliance. A lessee is in breach if the lessee’s use is not in compliance with the provisions of the lease. (7-1-21)

02. Damages for Breach. A lessee is responsible for all damages resulting from breach and other damages as provided by law. (7-1-21)

050. LEASE CANCELLATION.
Leases may be canceled by the Director for the following reasons: (7-1-21)

01. Non-Compliance. If the lessee is not complying with the lease provisions or if resource damage attributable to the lessee’s management is occurring to state endowment trust land within a lease, the lessee will be provided written notification of the violation by regular and certified mail. The letter will set forth the reasons for the Department’s cancellation of the lease and provide the lessee thirty (30) days’ notice of the cancellation. (7-1-21)

02. Change in Land Use. A lease may be canceled in whole or in part upon one hundred eighty (180) days written notice by the Department if the state endowment trust lands are to be leased for any other use as designated by the Board or the Department and the new use is incompatible with the existing lease. In the event of early cancellation due to a change in land use, the lessee will be entitled to a prorated refund of the premium bid for a conflicted lease. (7-1-21)

03. Land Sale. The Department reserves the right to sell state endowment trust lands covered under the lease. The lessee will be notified that the state endowment trust lands are being considered for sale prior to submitting the sales plan to the Board for approval. The lessee will also be notified of a scheduled sale at least thirty (30) days prior to sale. In the event of early cancellation due to land sale, the lessee will be entitled to a prorated refund of the premium bid for a conflicted lease. (7-1-21)

04. Mutual Agreement. Leases may be canceled by mutual agreement between the Department and the lessee. (7-1-21)

051. LEASE ADJUSTMENTS.

01. Department Required. The Department may make adjustments to the lease for resource protection or resource improvement. (7-1-21)

02. Lessee Requested. Lessee requested changes in lease conditions must be submitted in writing and must receive written approval from the Department before implementation. (7-1-21)

052. EXTENSIONS OF ANNUAL FARMING LEASE PAYMENT.

01. Farming Lease Extensions. An extension of the annual lease payment may be approved for farming leases only. Each lease is limited to no more than two (2) successive or five (5) total extensions during any
ten (10) year lease period. Requests for extensions must be submitted in writing and must include the extension fee determined by the Board. The lessee must provide a written statement from a financial institution verifying that money is not available for the current year's farming operations. (7-1-21)

02. **Liens.** When an extension is approved, the Department will file a lien on the lessee’s pertinent crop in a manner provided by Idaho Code. (7-1-21)

03. **Due Date.** Rental plus interest at a rate established by the Board will be due not later than November 1 of the year the extension is granted. (7-1-21)

053. -- 059. (RESERVED)

060. **FEES.**
Fees for lease administration will be periodically set by the Board and must be paid in full before a transaction can occur. All lease administration fees are non-refundable. The Board has the authority to set fees related to administration of the leasing process including, but not limited to the following: lease applications; full lease assignment; partial lease assignment; mortgage agreement; subleases; late rental payment; minimum lease fee; and lease payment extension request. (7-1-21)

061. -- 069. (RESERVED)

070. **SUBLEASING.**
A lessee may not authorize another person to use state endowment trust land without prior written approval from the Department. The lessee must provide the name and address of sublessee, purpose of sublease, and a copy of the proposed sublease agreement. Lessee controlled herd stock does not require sublease approval. (7-1-21)

071. **ASSIGNMENTS.**
The lessee may not assign a lease, or any part thereof, without prior written approval of the Department. (7-1-21)

072. **MORTGAGE AGREEMENTS.**
The lessee may not enter into a mortgage agreement that involves state endowment trust land lease without prior written approval of the Department. The lessee must submit the required filing fee. The term of a mortgage agreement may not exceed the lease term. (7-1-21)

073. -- 079. (RESERVED)

080. **MANAGEMENT PLANS.**

01. **Federal Plan.** When state endowment trust land is managed in conjunction with federal land, the management plan prepared for the federal land may be deemed by the Department, at its discretion, the management plan. (7-1-21)

02. **Modification of Plan.** The Department may review and modify any grazing management plan upon changes in conditions, laws, or regulations, provided that the Department will give the lessee thirty (30) days notice of any such modifications prior to the effective date thereof. Modifications mutually agreeable to both the Department and lessee may be made at any time and may be initiated by lessee’s request. (7-1-21)

081. -- 089. (RESERVED)

090. **TRESPASS.**

01. **Loss or Waste.** The lessee must use the property within the lease in such manner as will best protect the state of Idaho against loss or waste. Unauthorized activities occurring on state endowment trust land are considered trespass; these include dumping of garbage, constructing improvements without a permit, and other unauthorized actions. (7-1-21)

02. **Civil Action by Lessee.** The lessee is encouraged to take civil action against owners of trespass
livestock on state endowment trust lands to recover damages to the lessee for lost forage or other values incurred by the lessee. (7-1-21)

03. Continuing Trespass. When continued trespass causes resource damage, the Department will initiate proceedings to restrict further trespass and recover damages as necessary. (7-1-21)

04. Trespass Claims. Trespass claims initiated by the Department will be assessed as triple the current State AUM rate for forage taken. (7-1-21)

091. -- 099. (RESERVED)

100. CONSTRUCTION AND MAINTENANCE OF IMPROVEMENTS.

01. Prior Written Approval. The lessee must secure the written approval of the Department prior to constructing any improvements or buildings, or clearing any state endowment trust land. Failure to secure such approval eliminates any right to an improvement credit and may, at the Department’s discretion, be deemed a material breach of the lease and cause for cancellation. Any arrangement for cost sharing or improvement crediting will be identified in the improvement permit. Routine farming practices identified in a farm plan will not require prior approval. (7-1-21)

02. Maintenance. All authorized improvements must be maintained in functional condition by the lessee. The lessee may be required to remove or reconstruct improvements in poor or non-serviceable condition. Existing maintenance agreements on lands acquired from the federal government remain in effect until amended by the parties involved. If maintenance is not being accomplished, the Department will provide a certified letter to the lessee informing the lessee of the rule violation. If work is not begun within thirty (30) days, the Department may contract repairs and add the amount to the annual rental. (7-1-21)

03. Bond. The Department may require the lessee to furnish a bond prior to constructing improvements as deemed necessary to protect endowment assets or to ensure performance under the lease. (7-1-21)

101. IMPROVEMENT CREDIT.

01. Sale or Auction. In the event of sale of the state endowment trust land covered under the lease or if the existing lessee is not the successful bidder at the auction of the lease, the creditable value of the authorized improvements, as determined by the Department, will be paid to the former lessee by the Department or the purchaser where a sale occurs or by the successful bidder where a new lease is issued. (7-1-21)

02. Exchange. In the event of exchange of the state endowment trust land covered under the lease, the creditable value of authorized improvements, as determined by the Department, will be paid to the former lessee by the acquiring party, if other than the existing lessee. (7-1-21)

03. Crediting. Improvement credit may be allowed when the Department determines that such credit would further the objective of maximizing long-term financial return to trust beneficiaries if the improvements are:

a. Authorized in writing by the Department or lacking written authorization, but in existence prior to 1970; (7-1-21)

b. Not expressly permitted “for lessee’s benefit only”; and (7-1-21)

c. Maintained during the lease term. (7-1-21)

04. Value Only to Lessee. Where improvements are approved, but due to their nature, are not acceptable to receive improvement credit because no value exists for a future lessee, a notation will be made in the permit, “For lessee's benefit only.” If the succeeding lessee or assignee chooses not to purchase the non-creditable improvements, the former lessee will be required to remove them. (7-1-21)
05. **Maintenance Costs.** Maintenance of improvements will be considered a normal cost of doing business and no improvement credit will be allowed, except that, with prior written approval from the Department, improvement crediting may be allowed for materials used for the maintenance of Department-funded improvements.

06. **Unauthorized Improvements.** No credit will be allowed for unauthorized improvements. At the discretion of the Department, the lessee may be required to remove unauthorized improvements.

07. **Cost Sharing.** Federal or state cost-share amounts are not included in the allowable improvement credit.

102. **VALUATION OF IMPROVEMENTS.**
Credited improvements will be valued on the basis of replacement cost, including lessee provided labor, equipment and materials, less depreciation based on loss of utility. Improvements cannot be appraised higher than current market value, regardless of lessee's cost. Any improvement amortization or cost limitations identified by the Department will be considered in determining a final value.

01. **Applicant Review of Department Improvement Credit Valuation.** All applicants for a conflicted lease will be provided a copy of the Department’s improvement credit valuation for review and a notice of objection form. Any applicant objecting to the appraisal will have twenty-one (21) days from the date of the valuation mailing to submit the notice of objection form to the Department. If no objections are received during the twenty-one (21) day review period, the lease auction will be scheduled and will proceed using the Department’s improvement credit valuation.

02. **Failure to File a Timely Notice of Objection.** Failure to submit a notice of objection within the specified twenty-one (21) day period will preclude any applicant from further administrative remedies and the auction will proceed using the Department’s improvement credit valuation.

03. **Notice of Objection.** Any applicant objecting to the Department improvement credit valuation must submit a complete and timely notice of objection form, and payment of two thousand five hundred dollars ($2,500) or ten percent (10%) of the total Department improvement credit valuation whichever is greater, to pay for the services of an independent third party. Within five (5) days of receipt of the notice of objection, the Department will notify all applicants in writing that an objection has been received and provide them with a list of certified appraisers.

04. **Selection of an Independent Third Party.** The applicants will have twenty-one (21) days from the date of the Department’s notification of an objection to select by mutual agreement, one individual from the list of certified appraisers to serve as an independent third party. If the applicants cannot agree on an independent third party within the twenty-one (21) day time period, the Department will randomly select one individual from the list to serve as the independent third party.

05. **Duties of the Independent Third Party.** The independent third party will review the Department improvement credit valuation and alternate valuations provided by the applicants. Following this review, the independent third party will select from among the Department valuation and alternate valuations, the one value that (s)he determines is the most accurate value of the improvements. The independent third party will notify the Department of this value in writing.

06. **Notification of Final Improvement Value.** Within five (5) days of receiving the independent third party’s final determination of improvement credit value, the Department will mail to each applicant an auction notice that will reference the independent third party’s determined value of improvements. The determination by the independent third party of the improvement value will be deemed final, and the appraised value of improvements will not be allowed as a basis for appeal of the auction.

103. -- 104. (RESERVED)

105. **CONFLICT AUCTIONS.**
01. Two or More Applicants. When two (2) or more eligible applicants apply to lease the same state endowment trust land for grazing, farming, conservation, noncommercial recreation, or communication site purposes and the Department determines the proposed uses are not compatible, the Department will hold an auction. (7-1-21)T

02. Minimum Bid. Bidding begins at two hundred fifty dollars ($250) or the cost of preparing any required improvement valuation in connection with the expiring lease, whichever is greater. (7-1-21)T

03. Auction Bidding. Each applicant who appears in person or by proxy at the time and place so designated in said notice and bids for the lease is deemed to have participated in the auction. A proxy must be authorized by the lease applicant in writing prior to the start of the auction. (7-1-21)T

04. Withdrawal Prior to or Failure to Participate in an Auction. Applicants who either withdraw their applications after accepting the Department offered lease per Subsection 020.02 of this rule and prior to the auction that results in no need to schedule an auction or cancellation of a scheduled auction; or applicants who fail to participate at the auction by not submitting a bid which results in only one (1) participant at the scheduled auction, forfeit an amount equal to the lesser of the following: (7-1-21)T

a. The Department’s cost of making any required improvement credit valuation; (7-1-21)T

b. For existing lessee applicants, any improvement credit payment that would otherwise be due if not awarded the lease; or (7-1-21)T

c. For conflict applicants, the rental deposit made. (7-1-21)T

05. High Bid Deposit. The high bidder is required to submit payment in the amount of the high bid at the conclusion of the auction. (7-1-21)T

06. Auction Procedures. The Department will prescribe the procedures for conducting conflicted lease auctions. (7-1-21)T

07. Withdrawal After Auction. (7-1-21)T

a. If the high bidder withdraws or refuses to accept the lease, the high bid payment will be retained by the Department. (7-1-21)T

i. If the auction involved only two (2) participants, the second high bidder will be awarded the lease. (7-1-21)T

ii. If the auction involved more than two (2) participants, the lease will be reauctioned. (7-1-21)T

b. If an auction bidder other than the high bidder withdraws a bid before Land Board review and action on the auction results, no adjustment will be made in the payment deposited by the high bidder. (7-1-21)T

106. BOARD REVIEW OF AUCTION. The Board will review the proposed leases and auction results and make the determination required under Section 58-310, Idaho Code, consistent with its obligations under Article IX, Section 8 of the Idaho Constitution and all relevant statutory provisions. (7-1-21)T

107. -- 110. (RESERVED)

111. NOXIOUS WEED CONTROL.

01. Weed Control. The lessee must cooperate with the Department, or any other authorized agency, to undertake programs for control or eradication of noxious weeds on state endowment trust land. The lessee will take measures to control noxious weeds on the leased state endowment trust land in accordance with Title 22, Chapter 24, Idaho Code.
02. Responsibility. The lessee will not be held responsible for the control of noxious weeds resulting from other land management activities such as temporary permits, easements, special leases and timber sales. Control of noxious weeds on state grazing lands will be shared by the lessee and Department, with the Department’s share subject to funds appropriated for that purpose. (7-1-21)

112. LIVESTOCK QUARANTINE.

01. Cooperation. The lessee must cooperate with the state/federal agency responsible for the control of livestock diseases. (7-1-21)

02. Non-Compliance. Non-compliance with state/federal regulations will be considered a lease violation and may result in cancellation of the lease. (7-1-21)

113. ANIMAL DAMAGE CONTROL.
The lessee may request the services of USDA Animal and Plant and Health Inspection Service-Wildlife Services to remove animals causing crop damage or harassing/killing the lessee’s livestock. The Department is liable for any consequence from any animal control actions. (7-1-21)

114. LIABILITY (INDEMNITY).
The lessee must indemnify and hold harmless the state of Idaho, its departments, agencies and employees for any and all claims, actions, damages, costs and expenses which may arise by reason of lessee’s occupation of the leased state endowment trust land, or the occupation of the leased parcel by any of the lessee’s agents or by any person occupying the same with the lessee’s permission. (7-1-21)

115. RULES AND LAWS OF THE STATE.
The lessee must comply with all applicable rules, regulations and laws of the state of Idaho and the United States insofar as they affect the use of the state endowment trust lands described in the lease. (7-1-21)

116. -- 999. (RESERVED)
20.03.15 – RULES GOVERNING GEOTHERMAL LEASING ON IDAHO STATE LANDS

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authorities of Sections 58-104(1), 58-104(6), 58-104(9), 58-105, and 58-127, Idaho Code; Section 58-307, Idaho Code; Title 47, Chapter 7, Idaho Code; Title 47, Chapter 16, Idaho Code; and Title 67, Chapter 52, Idaho Code.

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.15, “Rules Governing Geothermal Leasing on Idaho State Lands.”

02. Scope. These rules apply to the exploration and extraction of any and all geothermal resources situated in state-owned mineral lands.

03. Other Laws. In addition to these rules, the Lessee must comply with all applicable federal, state and local laws, rules and regulations. The violation of any applicable law, rule or regulation constitutes a breach of any lease issued in accordance with these rules.

002. ADMINISTRATIVE APPEALS.
Any person aggrieved by any final agency action will be entitled to judicial review pursuant to the provisions of Title 67, Chapter 52, Idaho Code, IDAPA 20.01.01, and Title 47, Chapter 16, Idaho Code.

003. – 009. (RESERVED)

010. DEFINITIONS.

01. Associated By-Products or By-Product: Any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium) that are found in solution or developed in association with geothermal resources; or

02. Board. The Idaho State Board of Land Commissioners or its designee.

03. Casual Exploration. Casual exploration means entry and/or exploration that does not appreciably disturb or damage the land or resources thereon. Casual exploration includes, but is not limited to, geochemical and/or geophysical exploration techniques, sampling with hand tools, and entry using wheeled vehicles for transportation to conduct such exploration.

04. Completion. A well is considered to be completed thirty (30) days after drilling operations have ceased and the drill rig is removed from the premises or thirty (30) days after the initial production or injection test has been completed, whichever occurs last.

05. Department. The Idaho Department of Lands or its designee.

06. Director. The director of the Idaho Department of Lands or his designee.

07. Direct Use. The use of geothermal resources for direct applications, including, but not limited to, road surface heating, resorts, hot spring bathing and spas, space heating of buildings, recreation, greenhouse warming, aquaculture, or industrial applications where geothermal heat is used in place of other energy inputs.

08. Electrical Generation. The use of geothermal resources to either directly generate electricity or to heat a secondary fluid and use it to generate electricity.

09. Field. A geographic area overlying a geothermal system with one (1) or more geothermal reservoirs or pool, including any porous, permeable geologic layer, that may be formed along one (1) fault or fracture, or a series of connected faults or fractures.

10. Geothermal Resources. The natural heat energy of the earth, the energy, in whatever form, that may be found in any position and at any depth below the surface of the earth present in, resulting from, or created by,
or that may be extracted from such natural heat, and all minerals in solution or other products obtained from the material medium of any geothermal resource. When used without restriction, it includes associated by-products.

11. **Lease.** A lease covering the geothermal resources and associated by-products in state lands.

12. **Lessee.** The person to whom a geothermal lease has been issued and his successor in interest or assignee. It also means any agent of the Lessee or an operator holding authority by or through the Lessee.

13. **Market Value.** The most probable price at a specified date, in cash, or on terms reasonably equivalent to cash, for which the property or commodity should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus.

14. **Motorized Earth-Moving Equipment.** Backhoes, bulldozers, front-loaders, trenchers, core drills, drill rigs, power augers, and other similar equipment.

15. **Navigable Water Courses.** The state owned beds of active lakes, rivers and streams that do not include formerly submerged lands where the state retains ownership.

16. **Operator.** The person having control or management of operations on the leased lands or a portion thereof. The operator may be the Lessee, designated operator, or agent of the Lessee, or holder of rights under an approved operating agreement.

17. **Overriding Royalty.** An interest in the geothermal resource produced at the surface free of any cost of production. It is a royalty in addition to the royalty reserved to the state.

18. **Person.** Any natural person, corporation, association, partnership, or other entity recognized and authorized to do business in Idaho, receiver, trustee, executor, administrator, guardian, fiduciary, or other representatives of any kind, and includes any government or any political subdivision of any agency thereof. The masculine gender, in referring to a person, includes the feminine and the neuter genders.

19. **Record Title.** The publicly recorded lease that is the evidence of right that a person has to the possession of the leased property.

20. **Reservoir or Pool.** A porous, permeable geologic layer containing geothermal resources.

21. **Shut In.** To close the valves at the wellhead so that the well stops flowing or producing. Also describes a well on which the valves have been closed.

22. **State Lands.** Without limitation, lands in which the title to the mineral rights are owned by the state of Idaho and are under the jurisdiction and control of the Board or under the jurisdiction and control of any other state body or agency, having been obtained from any source and by any means whatsoever, including the beds of navigable waters of the state of Idaho.

23. **Waste.** Any physical loss of geothermal resources including, but not limited to:

   a. Underground loss of geothermal resources resulting from inefficient, excessive, or improper use, or dissipation of geothermal energy, or of any geothermal resource pool, reservoir, or other source; or the locating, spacing, constructing, equipping, operating, or producing of any well in a manner that results, or tends to result in, reducing the quantity of geothermal energy to be recovered from any geothermal area in the state;

   b. The inefficient above-ground transporting and storage of geothermal energy; and the locating, spacing, equipping, operating, or producing of any well or injection well in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of geothermal energy; the escape into the open air from a well of
steam or hot water in excess of what is reasonably necessary in the efficient development or production of a well.

011.  ABBREVIATIONS.

01.  IDWR. Idaho Department of Water Resources.

012.  -- 019. (RESERVED)

020.  QUALIFIED APPLICANTS AND LESSEES.
Any person legally competent to contract may submit an application to lease state land provided such person is not then in default of any contract with the state of Idaho or any department or agency thereof.

021.  LEASE AWARD THROUGH AUCTION.
If more than one (1) application is received for geothermal development on the same parcel of land, a lease auction will be held.

022.  -- 029. (RESERVED)

030.  TERM.

01.  Lease Term. All leases may be for a term of up to forty-nine (49) years from the effective date of the lease.

02.  Diligence in Utilization. Lessee will use due diligence to market or utilize geothermal resources in paying quantities. If leased land is capable of producing geothermal resources in paying quantities, but production is shut-in, the lease will continue in force upon payment of rentals for the duration of the lease term or two (2) years after shut-in, whichever is shorter. If the Department determines that the Lessee is proceeding diligently to acquire a contract to sell or to utilize the production or is progressing with installations needed for production, the lease may continue in force for one (1) additional year if rental payments are kept current. The Department will continue to review a shut-in lease every year until production and payment of royalties takes place, or the lease is terminated for Lessee’s lack of due diligence or surrendered by the Lessee.

03.  Yearly Reporting. A report of all exploration, development, and production activities must be submitted to the Department at the close of each lease year.

031.  -- 034. (RESERVED)

035.  RENTALS.

01.  Advance Annual Rental. Lessee will pay to the Department in advance each year an annual rental. The annual rental for the first year of the term will be due and payable and will be received by the Department, together with a lease agreement executed by Lessee within thirty (30) days of the date of notice of approval or award. Second year and subsequent rental payments must be received by the Department on or before the anniversary date of the lease.

02.  Amount. Annual rentals will be set by the Board through competitive bidding, negotiation, fixed amounts, formulas, or some other method of valuation that a prudent investor might reasonably apply to establish such rental amounts.

036.  ROYALTIES.

01.  Royalty Payments. The Lessee will cause to be paid to the Department royalties on the value of geothermal production from the leased premises. The royalty rate will be established by the Board based on the market value of the geothermal resources produced from the lands under lease. The royalties specified in geothermal leases will be fixed in any manner by the Board, including but not limited to competitive bidding, negotiation, fixed amounts, or formulas. Royalty rates may be adjusted through the term of the lease in order to keep pace with market conditions.
values. When leases are issued, the following guidelines will be used for royalty rates not subject to competitive bidding:

a. A royalty of between five percent (5%) and twenty percent (20%) of the amount or value of geothermal resources, or any other form of heat or energy excluding electrical power generation, derived from production under the lease and sold or utilized by the Lessee or reasonably susceptible to sale or utilization by the Lessee;

b. A royalty of between two percent (2%) and fifteen percent (15%) of the amount or value of any associated by-product derived from production under the lease and sold or utilized or reasonably susceptible of sale or utilization by the Lessee, including commercially demineralized water.

c. A royalty of between two percent (2%) and five percent (5%) of gross receipts for sale of electrical power.

02. Calculation of Value. The value of geothermal production from the leased premises for the purpose of computing royalties is based on a total of the following:

a. The total consideration accruing to the Lessee from the sale of geothermal resources to another party in an arms-length transaction; and

b. The value of the end product attributable to the geothermal resource produced from a particular lease where geothermal resources are not sold by the Lessee before being utilized, but are instead directly used in manufacturing power production, or other industrial activity; and

c. The value of all renewable energy credits or similar incentives based on a proportionate share of the leased lands in the entire project area qualifying for the credits.

03. Due Date. Royalties will be due and payable monthly to the Department on or before the last day of the calendar month following the month in which the geothermal resources and/or their associated by-products are produced and utilized or sold.

04. Utilization of Geothermal Resources. The Lessee must file with the Department within thirty (30) days after execution a copy of any contract for the utilization of geothermal resources from the lease. Reports of sales or utilization by Lessee and royalty for each productive lease must be filed each month once production begins, even though production may be intermittent, unless otherwise authorized by the Department. Total volumes of geothermal resources produced and utilized or sold, including associated by-products, the value of production, and the royalty due the state of Idaho must be shown. This report is due on or before the last day of the month following the month in which production was obtained and sold or utilized, together with the royalties due the state of Idaho.

05. Measurement. The Lessee will measure or gauge all production in accordance with methods approved by the Department. The quantity and quality of all production will be determined in accordance with the standard practices, procedures and specifications generally used in industry. All measuring equipment must be tested consistent with industry practice and, if found defective, the Department will determine the quantity and quality of production from the best evidence available.

06. By-Product Testing. The Lessee will periodically furnish the Department the results of periodic tests showing the content of by-products in the produced geothermal resources. Such tests will be taken as specified by the Department and by the method of testing approved by him, except that tests not consistent with industry practices will be conducted at the expense of the Department.

07. Commingling. The Department may authorize a Lessee to commingle production from wells on his State lease(s) with production from non-state lands. Department approval of commingling will not be unreasonably withheld, and will consider the following:

a. The operator’s economic necessity of commingling;
b. The type of geothermal use proposed for the commingled waters; and (7-1-21)

c. Sufficient measurement and accounting of all the commingled waters to ensure that the Department is appropriately compensated by royalties. (7-1-21)

037. -- 039. (RESERVED)

040. SIZE OF A LEASABLE TRACT.

01. Surface Area. Geothermal leases are not limited in surface area. The Board will determine the surface area of a lease after consultation with other state agencies and prospective Lessees. The probable extent of a geothermal reservoir, the surface area needed for a viable project, and other relevant factors will be used to help determine lease surface area. (7-1-21)

02. Navigable Water Courses. Geothermal resources leases may be issued for state lands underlying navigable water courses in Idaho. Such lands are considered “state lands” and will be leased in accordance with these rules. Operations in the beds of navigable water courses will not be authorized except in necessary circumstances and then only with express written approval of the Board upon such conditions and security as the Department deems appropriate. (7-1-21)

041. -- 049. (RESERVED)

050. LAND SURFACE USE RIGHTS AND OBLIGATIONS.

01. Use and Occupancy. (7-1-21)

a. Lessee will be entitled to use and occupy only so much of the surface of the leased lands as may be required for all purposes reasonably incident to exploration for, drilling for, production and marketing or geothermal resources and associated by-products produced from the leased lands, including the right to construct and maintain thereon all works, buildings, plants, waterway, roads, communication lines, pipelines, reservoirs, tanks, pumping stations or other structures necessary to the full enjoyment and development thereof, consistent with a plan of operations and amendments thereto, as approved by the Department. (7-1-21)

b. Uses occurring on the leased area related to exploration, development, production, or marketing of geothermal resources and associated by-products produced from off-lease lands may require the Lessee to pay additional rent. (7-1-21)

02. Supervision. Uses of state lands within the jurisdiction and control of the Board are subject to the supervision of the Department. Other state lands are subject to the supervision of the appropriate state agency consistent with these rules. (7-1-21)

03. Distance from Residence. No well may be drilled within two hundred (200) feet of any house or barn on the premises, without the written consent of the Department and its surface Lessees, grantees or contract purchasers. (7-1-21)

04. Disposal of Leased Land. The Board reserves the right to sell or otherwise dispose of the surface of the lands embraced with a lease, insofar as said surface is not necessary for the use of the Lessee in the exploration, development and production of the geothermal resources and associated by-products, but any sale of surface rights made subsequent to execution of a lease will be subject to all the terms and provisions of that lease during the life thereof. (7-1-21)

05. Damage. Lessee must pay to the Board, its surface Lessees or grantees or contract purchasers, for any damage done to the surface of said lands and improvements thereon, including without limitation growing crops, by reason of Lessee’s operations. (7-1-21)

051. -- 053. (RESERVED)
054. EXPLORATION UNDER THE LEASE.

01. Diligent Exploration. Lessees must perform diligent exploration and development activities in the first five (5) years of the initial lease term or as otherwise extended by lease provision. Diligent exploration includes seismic, gravity, and other geophysical surveys, geothermometry studies, drilling temperature gradient wells, or similar activities that seek to determine the presence or extent of geothermal resources. This exploration may occur off-lease if it is being done on the same geothermal field. Failure to perform diligent exploration as described may result in lease cancellation. (7-1-21)

02. Casual Exploration. At any time after formal approval by the Board of a lease application, Lessee may enter upon the leased lands for casual exploration or inspection without notice to the department. As an express condition of an application to lease and of the right of casual inspection without notice, Lessee agrees to the indemnity conditions provided in Section 102 of these rules without a formally executed lease. (7-1-21)

03. Plan Required. Lessee must submit a Research and Analysis Plan to the Department before any exploration using motorized equipment or before otherwise engaging in operations that may lead to an appreciable disturbance or damage to lands, timber, other resources, or improvements on or adjacent to the leased lands. The proposed activities may not start until the Department approves the plan and the applicable preconditions in Sections 100 and 101 of these rules have been satisfied. The plan of operations may be amended as needed with Department approval. The plan includes all items that the Department deems necessary or useful in managing the geothermal resources including, but not limited to, the following: (7-1-21)

   a. A narrative statement describing the proposed measures to be taken for protection of the environment, including, but not limited to the prevention or control of:

      i. Fires; (7-1-21)
      ii. Soil loss and erosion; (7-1-21)
      iii. Pollution of surface and ground waters; (7-1-21)
      iv. Damage to fish and wildlife or other natural resources; (7-1-21)
      v. Air and noise pollution; and (7-1-21)
      vi. Hazards to public health and safety during lease activities. (7-1-21)

   b. All pertinent information or data that the department may require to support the plan of operations for the utilization of geothermal resources and the protection of the environment; (7-1-21)

055. DEVELOPMENT AND PRODUCTION UNDER THE LEASE.

01. Diligent Development of Lease and Production. Lessee must develop the geothermal resources on their lease area and start production within the first ten (10) years of the initial lease term or as otherwise extended by lease provision. Development of the lease area requires wells to be drilled and other necessary infrastructure to be built. Production on the lease area means that geothermal fluids are being used and royalties are being paid to the state. Failure to develop the lease and start production as described may result in lease cancellation unless the Lessee applies to the Department for an extension and the extension is granted. (7-1-21)

02. Best Practices. All operations will conform to the best practice and engineering principles in use in the industry. Operations must be conducted in such a manner as to protect the natural resources on the leased lands, including without limitation geothermal resources, and to result in the maximum ultimate recovery of geothermal resources with a minimum of waste, and be consistent with the principles of the use of the land for other purposes and of the protection of the environment. Lessee must promptly remove from the leased lands or store, in an orderly manner, all scraps or other materials not in use and not reasonably incident to the operation. (7-1-21)

03. Plans Required. Prior to development, Lessee must submit a Development Plan, Operating Plan,
and Decommissioning and Reclamation Plan for the leased lands. All plans must be approved by the Department, in writing, prior to Lessee beginning a phase of the lease in which those plans are performed or as otherwise required by the lease. All required plans must include all items that the Department deems necessary or useful in managing the geothermal resources, including, but not limited to, those items referred to in Paragraphs 054.03.a. and 054.03.b. of these rules.

04. Waste and Damage.
   a. Lessee must take all reasonable precautions to prevent the following:
      i. Waste;
      ii. Damage to other natural resources;
      iii. Injury or damage to persons, real or personal property; and
      iv. Any environmental pollution or damages that may constitute a violation of state or federal laws.

   b. The Department may inspect Lessee’s operations and issue such orders as are necessary to accomplish the purposes in Paragraph 055.04.a. Any significant effect on the environment created by the Lessee’s operations or failure to comply with environmental standards must be reported to the Department by Lessee within twenty-four (24) hours and confirmed in writing within thirty (30) days.

05. Notice of Production. Lessee must notify the department within sixty (60) days before any geothermal resources are used or removed for commercial purposes.

06. Amendments. The plan of operations must be amended by the Lessee for the Department’s approval to reflect changes in operations on the leased lands, including the installation of works, buildings, plants or structures for the production, marketing or utilization of geothermal resources.

056. WASTE PREVENTION, DRILLING AND PRODUCTION OBLIGATIONS.

01. Waste. All leases are subject to the condition that the Lessee will, in conducting his exploration, development and producing operations, use all reasonable precautions to prevent waste of geothermal resources and other natural resources found or developed in the leased lands.

02. Diligence. The Lessee must, subject to the right to surrender the lease, diligently drill and produce, or unitize such wells as are necessary to protect the Board from loss by reason of production on other properties.

03. Prevention of Waste Through Reinjection. Geothermal Lessees must return geothermal waters to the geothermal aquifer in a manner that supports geothermal development.

04. Additional Requirements. The selection of the types and weights of drilling fluids and provisions for controlling fluid temperatures, blowout preventers and other surface control equipment and materials, casing and cementing programs, etc., to be used must be based on sound engineering principles and must take into account apparent geothermal gradients, depths and pressures of the various formations to be penetrated and other pertinent geologic and engineering data and information about the area. In addition, the Lessee must do the following:
   a. Take all necessary precautions to keep all wells under control at all times;
   b. Utilize trained and competent personnel;
   c. Utilize properly maintained equipment and materials; and
d. Use operating practices that ensure the safety of life and property. (7-1-21)

05. Unused Wells. Except as provided in Subsection 070.02 of these rules, the Lessee must promptly plug and abandon any well on the leased land that is not used or useful in conformity with regulations promulgated by the IDWR or its successor agency. No production well will be abandoned until its lack of capacity for further profitable production of geothermal resources has been demonstrated to the satisfaction of the Department and the Department has been given an opportunity to either acquire the well permit or assign it to another party. A producible well may be abandoned only after receipt of written approval by the Department. Equipment will be removed, and premises at the well site will be restored as near as reasonably possible to its original condition immediately after plugging operations are completed on any well except as otherwise authorized by the Department. Drilling equipment must not be removed from any suspended drilling well without taking adequate measures to close the well and protect subsurface resources. Upon failure of Lessee to comply with any requirements under this rule, the Department is authorized to cause the work to be performed at the expense of the Lessee and the surety. (7-1-21)

057. -- 059. (RESERVED)

060. EXPLORATION AND OPERATION RECORDS, CONFIDENTIALITY.

01. Drilling Records. Lessee must keep or cause to be kept and filed with the IDWR such careful and accurate well drilling records as are now or may hereafter be required by that Department. Lessee must file with the Department such production records and exploration evidence as required by Sections 030, 036, and 055 of these rules, which records will be subject to inspection by the public at the offices of the Department during regular business hours under such conditions as the Department deems appropriate, subject, however, to exemptions from disclosure as set forth in Section 74107, Idaho Code. As an express condition of the lease, the Department may inspect and copy well drilling records filed with the IDWR at any time after the records are filed. (7-1-21)

02. Continuing Obligations. Unless Lessee is specifically released in writing by the Department of all or any portion of its obligations under the lease upon the assignment, surrender, termination or expiration of the lease, Lessee’s obligations under this rule will continue beyond assignment, surrender, termination or expiration of the lease. Lessee must, within thirty (30) days after assignment, surrender, termination or expiration or such additional time as the Department may grant, file all outstanding data and records required by this rule with the Department. (7-1-21)

03. Well Logs. The confidentiality of well logs is limited to one year from well completion as stated in Section 42-4010(b), Idaho Code. (7-1-21)

061. -- 064. (RESERVED)

065. LESSEE’S RECORDS, RIGHT OF INSPECTION BY DEPARTMENT.
Lessee will permit the Department to examine during reasonable business hours all books, records and other documents and matters pertaining to operations under a lease, in Lessee’s custody or control, and to make copies of and extracts therefrom. (7-1-21)

066. -- 069. (RESERVED)

070. WATER RIGHTS.

01. Water Rights. Lessee must comply with all applicable federal and state laws, rules and regulations regarding the appropriation of public waters of Idaho to beneficial uses. The establishment of any new water rights on state lands must be by and for the Lessor and no claim thereto may be made by the Lessee. Such water rights will attach to and become appurtenant to the state lands, and the Lessor will be the owner thereof. (7-1-21)

02. Potable Water Discovery. All leases issued under these rules will be subject to the condition that, where the Lessee finds only potable water of no commercial value as a geothermal resource in any well drilled for exploration or production of geothermal resources, and when the water is of such quality and quantity as to be valuable and usable for agricultural, domestic, or other purpose, the Board, or where appropriate, the surface Lessee, grantee or contract purchaser, will have the right to acquire the well with whatever casing is installed in the well at the
fair market value of the casing, and upon the assumption of all future liabilities and responsibilities for the well, with the approval of the director of the IDWR.

071. -- 074. (RESERVED)

075. ASSIGNMENTS.

01. Prior Written Approval. In order for Lessee to effect an assignment, Lessee must, prior to the consummation of an effective sale, transfer or assignment of the lease between Lessee and its proposed assignee, provide to the Department certain information about the proposed assignment, including identification of the proposed assignee and general terms of the proposed assignment on assignment application forms provided by the Department. Any proposed total or partial assignment of a lease must be preapproved in writing by the Department prior to any proposed sale, transfer or assignment of the lease is consummated between Lessee and the proposed assignee. Approval will not be unreasonably withheld. Following the Department's written preapproval of the proposed assignee and general terms of the proposed assignment, Lessee and assignee may consummate any such sale, transfer or assignment of Lessee’s leasehold interest in the lease. The consummation of any assignment agreement by the Lessee without the Department’s prior written preapproval constitutes a default of the lease, and such sale, transfer or assignment may be rejected in the Department’s sole discretion; and, such assignment will only be effective if the default is expressly waived in writing by the Department. In order for an assignment of Lessee’s interest in the lease to be acceptable for approval by the Department, the consummated sale, transfer or assignment must include provisions wherein Lessee has sold, transferred or assigned to the assignee any and all interest Lessee has in any and all improvements located upon the leased premises, and assignee must assume all liabilities of Lessee under the lease together with ownership of all improvements owned by Lessee. An assignment between Lessee and its assignee will only take effect following the Department’s final written approval of the assignment following receipt of copies of the final, consummated sale, transfer or assignment agreement between Lessee and assignee.

02. Full or Partial. A lease may be assigned as to all or part of the acreage included therein to any person qualified to hold a state lease, provided that neither the assigned nor the retained part created by the assignment contains less than forty (40) acres. No undivided interest in a lease of less than ten percent (10%) may be created by assignment.

03. Overriding Royalty Disclosure. Overriding royalty interests created by an assignment are subject to the requirements in Section 080 of these rules.

04. Responsibility. In an assignment of a partial or complete interest in all of the lands in a lease, the assignor and its surety continue to be responsible for performance of any and all obligations under the lease until such time as the Department, in writing, releases Lessee and its surety from obligations arising under the lease after the Department accepts any such assignment and provides a release of any or all obligations in writing. After the effective date of any assignment, the assignee and its surety will be bound by the terms of the lease to the same extent as if the assignee were the original Lessee, any conditions in the assignment to the contrary notwithstanding.

05. Segregation of Assignment. An assignment of all or any portion of Lessee’s record title of the complete interest in a portion of the lands in a lease must clearly identify and segregate the assigned and retained portions. After the effective date, the assignor will be released and discharged from any obligations thereafter accruing with respect to the assigned portion of the leased lands. Such segregated leases continue in full force and effect for the primary term of the original lease or as further extended pursuant to the terms of these rules.

06. Joint Principal. Where an assignment does not segregate the record title to the lease, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. The application must also be accompanied by a consent of assignor’s surety to remain bound under the bond of record, if the bond, by its terms, does not contain such consent. If a party to the assignment has previously furnished a statewide bond, no additional showing by such party is necessary as to the bond requirement.

07. Application. The application for approval of an assignment must be on forms approved by the Department.
08. Denial. If the Lessee is in default of the lease at the time of a request for assignment approval, the Department may, at its sole discretion, reject any proposed assignment until the lease is brought into full compliance. The approval of an assignment of lease in good standing will not be unreasonably withheld provided such consent of the Department is requested and obtained prior to any assignment. (7-1-21)

076. -- 079. (RESERVED)

080. OVERRIDING ROYALTY INTERESTS.

01. Statements. An overriding royalty interest, or any similar interest whereby an agreement is made to pay a percentage based on production, must be disclosed at the time of assignment or transfer by filing a statement of such interest with the Department. Assignees must meet the requirements of Section 021 of these rules. All assignments of overriding royalty interests without a working interest and otherwise not contemplated by Section 075 of these rules, must be filed with the Department within ninety (90) days from the date of execution. (7-1-21)

02. Maximum Amount. No overriding royalty on the production of geothermal resources created by an assignment contemplated by Section 075 of these rules or otherwise will exceed five percent (5%) nor will an overriding royalty, when added to overriding royalties previously created, exceed five percent (5%). (7-1-21)

03. Conformance with Rules. The creation of an overriding royalty interest that does not conform to the requirements of this rule is be deemed a violation of the lease terms, unless the agreement creating overriding royalties provides for a prorated reduction of all overriding royalties so that the aggregate rate of overriding royalties does not exceed five percent (5%). (7-1-21)

04. Director's Authority. In addition to the foregoing limitations, any agreement to create or any assignment creating royalties or payments out of production from the leased lands is subject to the authority of the Director, after notice and hearing, to require the proper parties thereto to suspend or modify such royalties or payments out of production in such manner as may be reasonable when and during such periods of time as they may constitute an undue economic burden upon the reasonable operations of such lease. (7-1-21)

081. -- 084. (RESERVED)

085. UNIT OR COOPERATIVE PLANS OF DEVELOPMENT OR OPERATION.

01. IDWR Approval. Nothing in this rule will excuse the parties to a unit agreement from procuring the approval of the IDWR pursuant to Section 42-4013, Idaho Code, if approval is required. (7-1-21)

02. Unit Plan. For the purpose of conserving the natural resources of any geothermal pool, field or like area, Lessees under lease issued by the Board are authorized, with the written consent of the Department, to commit the state lands to unit, cooperative or other plans of development or operation with other state lands, federal lands, privately-owned lands or Indian lands. Departmental consent will not be unreasonably withheld. Applications to unitize, or a copy of the application filed with IDWR, will be filed with the Department who will certify whether such plan is necessary or advisable in the public interest. The Department may require whatever documents or data that the Department deems necessary in its reasonable discretion. To implement such unitization, the Board may with the consent of its Lessees modify and change any and all terms of leases issued by it that are committed to such unit, cooperative or other plans of development or operations. (7-1-21)

03. Contents. The agreement must describe the separate tracts comprising the unit, disclose the apportionment of the production of royalties and costs to the several parties, and the name of the operator, and must contain adequate provisions for the protection of the interests of all parties, including the state of Idaho. The agreement should be signed by or in behalf of all interested necessary parties before being submitted to the Department. The unit operator must be a person as defined by these rules and must be approved by the Department. (7-1-21)

04. Lease Modification. Any modification of an approved agreement will require approval of the Department under procedures similar to those cited in Subsection 085.02 of these rules. (7-1-21)
05. Term. At the sole discretion of the Department, the term of any leases included in any cooperative or unit plan of development or operation may be extended for the term of such unit or cooperative agreement, but in no event beyond that time provided in Subsection 030.01 of these rules. Rentals or royalties on leases so extended may be reassessed for such extended term of the lease. (7-1-21)T

06. Continuation of Lease. Any lease that will be eliminated from any such cooperative or unit plan of development or operation, or any lease that will be in effect at the termination of any such cooperative or unit plan of development or operation, unless relinquished, will continue in effect for the term of the lease. (7-1-21)T

07. Evidence of Agreement. Before issuance of a lease for lands within an approved unit agreement, the lease applicant or successful bidder will be required to file evidence that they have entered into an agreement with the unit operator for the development and operation of the lands in a lease if issued to him under and pursuant to the terms and provisions of the approved unit agreement, or a statement giving satisfactory reasons for the failure to enter into such agreement. If such statement is acceptable, the lease applicant or successful bidder will be permitted to operate independently, but will be required to perform his operations in a manner that the Department deems to be consistent with the unit operations. (7-1-21)T

086. -- 094. (RESERVED)

095. SURRENDER, TERMINATION, EXPIRATION OF LEASE.

01. Procedure. A lease, or any surveyed subdivision of the area covered by such lease, may be surrendered by the record title holder by filing a written relinquishment in the office of the Department, on a form furnished by the Department, provided that a partial relinquishment does not reduce the remaining acreage in the lease to less than forty (40) acres. The minimum acreage provision of this section may be waived by the Department where the Department finds such exception is justified on the basis of exploratory and development data derived from activity on the leasehold. The relinquishment must:

a. Describe the lands to be relinquished; (7-1-21)T

b. Include a statement as to whether the relinquished lands had been disturbed and, if so, whether they were restored as prescribed by the terms of the lease; and (7-1-21)T

c. State whether wells had been drilled on the lands and, if so, whether they have been plugged and abandoned pursuant to the rules of the IDWR. (7-1-21)T

02. Continuing Obligations. A relinquishment takes effect on the date it is filed, subject to the continued obligation of the Lessee and his surety:

a. To make payments of all accrued rentals and royalties; (7-1-21)T

b. To place all wells on the land to be relinquished in condition for suspension of operations or abandonment; (7-1-21)T

c. To restore the surface resources in accordance with these rules and the terms of the lease; and (7-1-21)T

d. To comply with all other environmental stipulations provided for by these rules or lease. (7-1-21)T

03. Failure to Pay Rental or Royalty. The Director may terminate a lease for failure to pay rentals or royalties thirty (30) days after mailing a notice of delinquent payment. However, if the time for payment falls upon any day in which the office of the Department is not open, payment received on the next official working day will be deemed to be timely. The termination of the lease for failure to pay the rental will be noted on the official records of the Department. Upon termination the lands included in such lease may become subject to leasing as provided by these rules. (7-1-21)T
04. Termination for Cause. A lease may be terminated by the Department for any violation of these rules, or the lease terms, sixty (60) days after notice of the violation has been given to Lessee by personal service or certified mail, return receipt requested, to the address of record last appearing in the files of the Department, unless:

a. The violation has been corrected; or
b. The violation is one that cannot be corrected within the notice period and the Lessee has in good faith commenced within the notice period to correct the violation and thereafter proceeds diligently to complete the correction.

05. Equipment Removal. Prior to the expiration of the lease, or the earlier termination or surrender thereof pursuant to this rule, and provided the Lessee is not in default, the Lessee will have the privilege at any time during the term of the lease to remove from the leased premises any materials, tools, appliances, machinery, structures, and equipment other than improvements needed for producing wells. Any materials, tools, appliances, machinery, structures and equipment subject to removal, but not removed prior to any termination of the lease or any extension thereof that may be granted because of adverse climatic conditions during that period, will, at the option of the Department, become property of the state of Idaho, but the Lessee must remove any or all such property where so directed by the Department.

06. Surrender After Termination. Upon the expiration or termination of a lease, the Lessee will quietly and peaceably surrender possession of the premises to the state, and if the Lessee is surrendering the leased premises or any portion thereof, the Lessee must deliver to the state a good and sufficient release on a form furnished by the Department.

096. -- 099. (RESERVED)

100. BOND REQUIREMENTS.

01. Minimum Bond. Prior to initiation of operations using motorized earth-moving equipment Lessee must furnish a bond. This bond will be in favor of the state of Idaho, conditioned on the payment of all damages to the land surface and all improvements thereon, including without limitation crops on the lands, whether or not the lands under this lease have been sold or leased by the Board for any other purpose; conditioned also upon compliance by Lessee of his obligations under this lease and these rules. The Department may require a new bond in a greater amount at any time after operations have begun, upon a finding that such action is reasonably necessary to protect state resources.

02. Statewide Bond. In lieu of the aforementioned bonds, Lessee may furnish a good and sufficient “statewide” bond conditioned as in Subsection 100.01. This bond will cover all Lessee’s leases and operations carried on under all geothermal resource leases issued and outstanding to Lessee by the Board at any given time during the period when the “statewide” bond is in effect. The amount of such bond will be equal to the total of the requirements of the separate bonds being combined into a single bond.

03. Period of Liability. The period of liability of any bond will not be terminated until all lease terms and conditions have been fulfilled and the bond is released in writing by the Department.

04. Operator Bond. In the event suit is filed to enforce the terms of any bond furnished by an operator in which the Lessee (if a different person) is not a named party, the Department may, in its sole discretion, join the Lessee as a party to such suit.

101. LIABILITY INSURANCE.

01. Liability Insurance Required. The Department will require the Lessee to purchase and maintain suitable insurance for the duration of the lease prior to entry upon the leased lands for other than casual exploration or inspection as contemplated by Subsection 054.02 of these rules.

02. Insurance Certificate Required. No work under this lease will commence prior to the
Department’s receipt of a certificate, signed by a licensed insurance agent, evidencing existence of insurance as required above. Further, such certificate must reflect that no change or cancellation in such coverage will become effective until after the Department receives written notice of such change or cancellation. (7-1-21)

102. -- 104. (RESERVED)

105. TITLE.
The state of Idaho does not warrant title to the leased lands or the geothermal resources and associated by-products that may be discovered thereon; the lease is issued only under such title as the state of Idaho may have as of the effective date of the lease or thereafter acquire. If the interest owned by the state in the leased lands includes less than the entire interest in the geothermal resources and associated by-products for which royalty is payable, then the royalties provided for in the lease will be paid to the state only in the proportion that its interest bears to said whole and undivided interest in said geothermal resources and associated by-products for which royalty is payable; provided, however, that the state is not liable for any damages sustained by the Lessee, nor is the Lessee entitled to or may claim any refund of rentals or royalties therefore paid to the state in the event that the state does not own title to said geothermal resources and associated by-products, or if its title thereto is less than whole and entire. (7-1-21)

106. -- 110. (RESERVED)

111. TAXES.
Lessee must pay, when due, all taxes and assessments of any kind lawfully assessed and levied against Lessee’s interests or operations under the laws of the state of Idaho. (7-1-21)

112. RENTAL NOTICES.
Advance notice of rental due is usually sent to the Lessee by the Department, but failure to receive such notices does not act to relieve the Lessee from the payment of the rental and the lease will be in default if such payment is not made as provided in these rules. (7-1-21)

113. OUTSTANDING LEASES.
No right to seek, obtain or use geothermal resources has passed or will pass with any existing or future license, permit or lease of state lands, including without limitation, mineral leases and oil and gas development leases, except upon the issuance of a geothermal resources lease. (7-1-21)

114. -- 119. (RESERVED)

120. FEES.
The following fees apply: (7-1-21)

01. Non-Refundable Application Fee for Lease. Two hundred fifty dollars ($250) per application. (7-1-21)

02. Application Fee for Approval of Assignment. One hundred fifty dollars ($150) per lease involved in the assignment. (7-1-21)

03. Late Payment Fee. The greater of the following: (7-1-21)
   a. Twenty-five dollars ($25); or (7-1-21)
   b. One percent (1%) per month (or portion thereof) on the unpaid balance. (7-1-21)

121. -- 999. (RESERVED)
20.03.16 – RULES GOVERNING OIL AND GAS LEASING ON IDAHO STATE LANDS

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authorities of Sections 58-104(1), 58-104(6), 58-104(9), 58-105, and 58-127, Idaho Code; Section 58-307, Idaho Code; Title 47, Chapter 7, Idaho Code; Title 47, Chapter 8, Idaho Code; and Title 67, Chapter 52, Idaho Code.

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.16, “Rules Governing Oil and Gas Leasing on Idaho State Lands.”

02. Scope. These rules apply to the exploration and extraction of oil and gas resources situated in state-owned mineral lands.

03. Other Laws. In addition to these rules, the lessee must comply with all applicable federal, state and local laws, rules and regulations. The violation of any applicable law, rule or regulation constitutes a breach of any lease issued in accordance with these rules.

002. ADMINISTRATIVE APPEALS.

01. Appeal to Board. All decisions of the Director are appealable to the Board. An aggrieved party desiring to take such an appeal must, within thirty (30) days after notice of the Director’s decision, file with the Director a written notice of appeal setting forth the basis for the appeal.

02. Hearing. The Board will hear the appeal at the earliest practical time or in its discretion appoint a hearing officer to hear the appeal, within sixty (60) days after filing of the notice of appeal. The hearing officer will make findings and conclusions that the Board may accept, reject or modify. The decision of the Board after hearing or upon a ruling concerning the hearing officer’s findings and conclusions is final.

03. Judicial Review. Judicial review of the final decision of the Board will be in accord with the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, by filing a petition in the district court in Ada County, or the county where the Board heard the appeal and made its final decision, within thirty (30) days after notice of the Board’s decision. Service of the Board’s decision may be by personal service or by certified mail to the lessee.

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Board. The Idaho State Board of Land Commissioners or its authorized representative, or where appropriate, the state of Idaho.

02. Commission. The Idaho Oil and Gas Conservation Commission.

03. Collateral Surety Bond and Corporate Surety Bond. See Subsections 080.04.a. and 080.04.b.

04. Department. The Idaho Department of Lands.

05. Director. The Director of the Idaho Department of Lands or his authorized representative.

06. Discretion. Exercising authority to make a decision, choice or judgment without being arbitrary, capricious or illegal.

07. Exploration. Activities related to the various geological and geophysical methods used to detect and determine the existence and extent of hydrocarbon deposits.

08. Final Board Approval. Approval of a lease occurs after the lease is signed by the Governor, the Secretary of State and the Director on behalf of the Board after approval of the lease by a majority of the Board. All approved leases must first be signed by the Lessee and then by the above-entitled state officials.
09. **Lease.** A written agreement between the Department and a person containing the terms and conditions upon which the Person will be authorized to use state lands. (7-1-21)T

10. **Legal Subdivision.** See Subsection 071.04. (7-1-21)T

11. **Lesse.** The person to whom a lease has been issued and his successor in interest or assignee(s). More than one (1) person may be entered as an applicant on the application form but only one (1) person shall be designated in the application for lease or assignment as the lessee of record with sole responsibility for the lease under these rules. (7-1-21)T

12. **Lessor.** The Board on behalf of the state of Idaho. (7-1-21)T

13. **Motorized Exploration Equipment.** The equipment used in exploration that may appreciably disturb or damage the land or resources thereon as defined in Section 47-703(a), Idaho Code. (7-1-21)T

14. **Natural Gas Plant Liquids.** Hydrocarbon compounds in raw gas that are separated as liquids at gas processing plants, fractionating plants, and cycling plants. Includes ethane, liquefied petroleum gases (propane and the butanes), and pentanes plus any heavier hydrocarbon compounds. Component products may be fractionated or mixed. (7-1-21)T

15. **Oil and Gas.** Oil and gas means oil or gas, or both. (7-1-21)T

16. **Person.** (7-1-21)T
   
a. An individual of legal age; (7-1-21)T

b. Any firm, association or corporation that is qualified to do business in the state of Idaho; (7-1-21)T

c. Or any public agency or governmental unit, including without limitation, municipalities. (7-1-21)T

17. **Production in Paying Quantities.** That gross income from oil and/or gas produced and saved (after deduction of taxes and royalty) that exceeds the cost of operation. (7-1-21)T

18. **State Lands.** Lands, including the beds of navigable waters within Idaho in which the title to mineral rights is owned by the state of Idaho, that are under the jurisdiction and control of the Board or any other state agency. (7-1-21)T

19. **Tract.** An expanse of land representing the surface expression of the underlying mineral estate, which includes oil and gas rights owned by the State, that:

   a. May be identified by its public land survey system of rectangular surveys that subdivides and describes land in the United States in the public domain and is regulated by the U.S. Department of the Interior, Bureau of Land Management; (7-1-21)T

   b. Is of no particular size; (7-1-21)T

   c. Is a maximum size of six hundred forty (640) acres or one section, unless otherwise determined by the Director; (7-1-21)T

   d. May be irregular in form; (7-1-21)T

   e. Is contiguous; (7-1-21)T

   f. May lie in more than one township or one section; (7-1-21)T

   g. May have a boundary defined entirely or in part by natural monuments such as streams, divides, or straight lines connecting prominent features of topography; (7-1-21)T
May include the mineral estate beneath navigable waters of the State; and

May be combined with other tracts to form a lease.

011. -- 014. (RESERVED)

015. CONTROL OF STATE LANDS.
The Director will regulate and supervise pursuant to law and these rules all state lands within the custody and control of the Board. State lands subject to the custody and control of other state agencies will be regulated and supervised by the respective agency in accord with state laws and rules; provided that any lease for oil and gas thereon complies with these rules.

016. WITHDRAWAL OF LANDS.
At any time prior to final Board approval of a lease, the Board reserves the right to withdraw state lands entirely from oil and gas leasing if consistent with its constitutional and statutory duties and in the state’s best interests.

017. -- 019. (RESERVED)

020. QUALIFIED APPLICANTS AND LESSEES.
Any person who is not then in default of any contract with the state of Idaho or any department or agency thereof is a qualified applicant and lessee. No member of the Board or employee of the Department may take or hold such lease.

021. EXPLORATION.

01. Written Permit Required. Any appreciable surface disturbing activity, including, but not limited to, motorized exploration on state lands is prohibited except by written permit for exploration for a period of time as determined by the Director. This permit is in addition to any permit required by the Commission.

02. Permit Conditions. The permit will contain such conditions as the Director determines will protect the existing surface uses and resources of the state. The permit applicant must pay in advance the fee required by Section 120.

022. LEASE ACQUISITION PROCESS.

01. Acquiring a Lease. A lease may be acquired for the exclusive right and privilege to explore for and produce oil and gas by oral auction, online auction, or such other method of competitive bidding authorized by the Board, in its discretion, determined to be in the best interest of the state, and will be awarded to the winning bidder at close of auction. The winning bidder at auction will be issued the lease by the Department on the first day of the month following Final Board Approval. The Board and Department reserve the right to reject any or all nominations or bids, and expressly disclaim any liability for inconvenience or loss caused by errors that may occur concerning lease offerings.

02. Lease Provisions.

a. Advance Annual Rental. The Lessee must pay to the state of Idaho an advance annual rental for each lease of three dollars ($3) per acre with a minimum of two hundred fifty dollars ($250) per lease.

b. Diligent Drilling. Diligent and continuous drilling operations means no delay or cessation of drilling for a period greater than one hundred twenty (120) days, unless extended in writing by the Director. The Director must receive a written request for an extension at least ten (10) days prior to the expiration of the one hundred twenty (120) day period.

c. Notification at End of Lease Period. The Lessee must notify the Director in writing prior to the expiration of the final year of his lease that drilling or reworking operations has commenced and will extend beyond the expiration date of the lease. Advance Annual Rental, in the amount required by Section 022 for any additional and
each succeeding year, must be received by the Department prior to the expiration date and entitles the Lessee to hold the lease only as long as drilling or rework operations are pursued in accord with these rules. There will be no refund of unused rental.

(7-1-21)T

d. Abandonment. During any additional or succeeding year of any lease, cessation of production for a period of six (6) months is considered as abandonment. The lease will then automatically terminate at its next anniversary date unless the Director determines that such cessation of production is justified or the well meets the requirements of a shut in well under Subsection 022.02.e.

(7-1-21)T
e. Suspension of Production. The Director may grant a suspension of production not to exceed one (1) year upon a written application showing that the lessee is unable to market oil or gas from a well located on the leased premises capable of oil and gas production in paying quantities due to a lack of suitable production facilities or a suitable market for the oil or gas and such conditions are outside the reasonable control of lessee and the lease is not being otherwise maintained in force and effect. If such well is shut in and the Director approves the application for suspension of production requirements prior to the expiration or termination of the lease, then the lease will be extended in accordance with the terms of Section 47-801, Idaho Code, for a period of one (1) year if the lessee timely submits an application in a form approved by the Director and, upon approval of said application, pays a shut-in royalty in the amount equal to double the annual rental provided for by these rules for each well capable of producing oil or gas in paying quantities. The lessee must remit the shut-in royalty payment while the lease is otherwise maintained in force and effect. Payment of shut-in royalty after the expiration or other termination of the lease will not revive or extend the lease. The Lessee may request continuation of this suspension of production, provided such request is received in writing by the Director at least thirty (30) days prior to the expiration date of the period of suspension.

(7-1-21)T

03. Nominating a Tract for Auction. A tract may be nominated for auction either by application to the Department at least ninety (90) days prior to a Department-defined close of auction date, or by Department nomination at least ninety (90) days prior to a Department-defined close of auction date. Any qualified person may nominate a tract for lease auction by submitting a nomination to the Department, and paying the nomination fee in an amount determined by the Board, during regular business hours on the Department nomination form. Each nominated tract must be a maximum size of six hundred forty (640) acres or one section. The nominating person may propose that multiple tracts be included in a single lease. Each nomination for a tract for auction is deemed an offer by the nominating person to lease the tract for the advance annual rental amount as defined in Subsection 022.02 above.

(7-1-21)T

04. Withdrawing a Tract for Auction. Any person nominating a tract for auction may withdraw their nomination if a request for such withdrawal is received by the Department at least ten (10) business days prior to the opening date of auction. The nomination fee will not be refunded.

(7-1-21)T

05. Auction Conditions. The Department will determine the conditions associated with the auction including, but not limited to, the following: when or if a tract will be offered for auction; whether the tract is to be removed from the auction; whether multiple tracts will be combined in a single lease at the discretion of the Department; and any disclaimers, additional information, and any other such terms and conditions associated with the auction of the tracts. Any such terms and conditions, disclaimers, and additional information will be posted on the Department’s website.

(7-1-21)T

06. Lease Information for Auction. For each lease to be auctioned, the Department will provide on the website the following: a lease number designated by the Department; the legal description; the lease length; the number of acres; a minimum bid per acre; a lease template; any lease stipulations; any other lease information; a specific date designated for the beginning and ending dates that a bidder may conduct due diligence; a specific date designated for the opening of auction; and a close of auction date. A notice of lease auction will be published at least once per week for the four (4) consecutive weeks prior to the date of auction in a newspaper in general circulation in the county in which the nominated lease is located and in a newspaper in general circulation in Ada County.

(7-1-21)T

07. Auction Procedure. The Department will determine the procedures associated with the auction, including, but not limited to place of auction, time of auction, and bidder registration procedure. Additional auction procedures are as follows.
a. Bid Increments. The minimum bid increment is one dollar ($1).  

b. Winning Bid. At close of auction, the winning bid for a Lessee is the number of dollars bid multiplied by the number of acres in the lease, with fractions of an acre rounded up to the next whole acre. If, at close of auction, a bid for a lease has not been submitted by a bidder, then the lease will be awarded to the nominating applicant. The entry of a bid constitutes an enforceable contractual obligation.  

c. Amount Due. The amount due for a lease is the winning bid, plus the first year’s annual rental amount as per Subsection 022.02, plus the nomination fee. If the winning bid was submitted by the nominator of the tract(s), then the nomination fee will already have been submitted to the Department and will not be included in the amount due. The nominator will be refunded the nomination fee if they are not the winning bidder.  

d. Transfer of Funds. Unless otherwise required in the notice of auction, the winning bidder for each lease has five (5) full business days after close of auction to complete the transfer of funds to the Department. Failure of the winning bidder to transfer funds within the period specified constitutes a breach of contract, and the state may pursue any action or remedy at law or in equity against the winning bidder.  

08. Execution of Lease. The completed lease will be executed by the winning bidder within thirty (30) days from the date of mailing after close of auction, or if personally delivered to the applicant or his agent by the Department, within thirty (30) days from the date of receipt. An individual who executes a lease on behalf of another Person must submit a power of attorney outlining such delegated authority.  

023. -- 044. (RESERVED)  

045. ROYALTIES.  

01. Royalty Payments. Unless otherwise specified by the Board, the lessee will pay to the state of Idaho in money or in kind to the state at its option a royalty of no less than twelve and one-half percent (12.5%) of the oil and/or gas or natural gas plant liquids produced and saved. The lessee will make payments in cash unless written instructions for payment in kind are received from the state. Royalty is due on all production from the leased premises except that consumed for the direct operation of the producing wells and that lost through no fault of the lessee.  

02. Royalty Not Reduced. Where royalties are paid in cash, costs of marketing, transporting and processing oil and/or gas or natural gas plant liquids or all of them produced are borne entirely by the lessee, and such cost will not reduce the lessor’s royalty directly or indirectly. If the Director elects to take royalty in kind, the state will reimburse the lessee for reasonable additional storage and transportation costs.  

03. Oil, Gas, and Natural Gas Plant Liquids Royalty Calculation and Reporting. All royalty owed to the lessor hereunder and not paid in kind at the election of the lessor will be paid to the lessor in the following manner:  

a. Payment of royalty on production of oil is due and must be received by the lessor on or before the 65th day after the month of production;  

b. Payment of royalty on production of gas and natural gas plant liquids is due and must be received by the lessor on or before the 95th day after the month of production;  

c. All royalty payments must be completed in the form and manner approved by the Department including, but not limited to, the gross amount and disposition of all oil, gas, and natural gas plant liquids produced and the market value of the oil, gas, and natural gas plant liquids;  

d. Lessee must maintain, and make available to the lessor upon request, copies of all documents, records or reports confirming the gross production, disposition and market value, including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of the amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records that the lessor may require to verify the
Each royalty payment must be accompanied by a check stub, schedule, summary or other remittance advice showing, by the assigned lessor lease number, the amount of royalty being paid on each lease.

04. **Overriding Royalty.** All assignments of overriding royalty without a working interest made directly by the lessee and not included with an assignment of lease must be filed with the Department with the processing fee within ninety (90) days from the date of execution; provided that it is the lessee’s responsibility, and not the Department’s, to process such assignments by third parties. Any assignment that creates an overriding royalty exceeds the royalty previously payable to the state by greater than five percent (5%), is deemed a violation of the terms of the lease unless such an assignment expressly provides that the obligation to pay such excess overriding royalty is suspended when the average production of oil per well per day, averaged on a monthly basis, is fifteen (15) barrels or less.

050. **LAND USE, SURFACE RIGHTS AND OBLIGATIONS.**

01. **Use and Occupancy.** Notwithstanding other leases for other uses of state lands, the lessee is entitled to use and occupy as much of the surface of the leased lands as may be required for all purposes reasonably incident to exploration, drilling and production and marketing of oil and gas produced from the leased land, including the right to construct and maintain all works, buildings, plants, waterways, roads, communication lines, pipelines, reservoirs, tanks pumping stations or other structures necessary to full enjoyment and development; provided that lessee’s operation does not unreasonably interfere with or endanger operations under any lease, license, claim, permit or other authorized, lawful use.

02. **Prevention of Injury or Damage.** The lessee, its assignees, agents, and/or contractors must take all reasonable precautions to prevent injury or damage to persons, real and personal property and to prevent waste or damage to the oil, gas and other surface and subsurface natural resources and the surrounding environment including but not limited to, vegetation, livestock, fish and wildlife and their natural habitat, streams, rivers, lakes, timber, forest and agricultural resources. The Lessee, his assignees, agents and/or contractors will compensate the Board, his surface lessees, grantees or contract purchasers for any damage resulting by reason of their operations or any damage resulting from their failure to take all reasonable precautions to prevent injury or damage to persons, real and personal property and to prevent waste or damage to the oil, gas and other surface and subsurface natural resources and surrounding environment as set forth above. The lessee, its assignees, agents and/or contractors must comply with all environmental laws, rules and regulations as they pertain to its operation.

03. **Blowout or Spill.** The lessee must report to the Director any blowout, fire, uncontrolled venting, or oil spill on the leased land within twenty-four (24) hours and confirm this report in writing within ten (10) days.

04. **Fences.** The lessee may not at any time fence any watering place upon leased lands where it is the only accessible and feasible watering place upon the lands within a radius of one (1) mile, without first having secured the written consent of the Director.

05. **Timber Removal.** The lessee may not unreasonably interfere with the removal of timber purchased prior or subsequent to the issuance of an oil and gas lease. The lessee may remove any timber required for ingress or egress or necessary for operations. The lessee must pay for any timber cut or removed on a current stumpage price basis as determined by the Director, and proceeds therefrom accrue to the state agency that has custody and control over the leased lands.

06. **Potable Water Discovery.** If the lessee finds only potable water in any well drilled for exploration or production of oil and gas, and the water is of such quality and quantity as to be valuable and usable for agricultural, domestic, or other purposes, the Board may acquire the well with whatever casing is installed in the well at the fair market value of the casing upon the assumption by its surface lessee, grantee, or contract purchaser of all future liabilities and responsibilities for the well, with the approval of the commission and in compliance with Section 058;
provided that the surface lessee, grantee, or contract purchaser also complies with applicable laws and rules of the Department of Water Resources.

07. Reclamation. The lessee must reclaim all state lands disturbed by its exploration and operations at least consistent with previous use by the surface owner, including segregating and protecting topsoil and regrading to approximate previous contour. If substantial removal of topsoil has occurred as determined by the Director, the lessee will replace the topsoil and revegetate to the extent necessary to minimize erosion.

08. Entry by Director. The Director is permitted at all reasonable times to go in and upon the leased lands and premises to inspect the operations and the products obtained and to post any lawful notice. The Director may at any time require that reasonable tests, surveys, samples, etc., be taken in accord with his instruction, without cost to the state of Idaho, to assure compliance with these rules. The Director may at any reasonable time inspect and copy at his own expense all of lessee’s books and records pertaining to a lease under these rules. Upon failure of lessee to take timely, corrective measures ordered by the Director or the Board or the commission, the Director may shut down lessee’s operations if he determines they are unsafe or are causing or may cause waste or pollution to oil, gas or other resources; or the Director may terminate the lease and cause damage or unsafe conditions to be repaired or corrected at the expense of the lessee and forfeiture of bond in accordance with these rules.

09. Other Uses. Subject to Subsection 050.01, the Director may issue leases for other uses of state lands leased under these rules. All lessees have the right of reasonable ingress and egress at all times during the term of the lease.

10. Disposal of Leased Lands. The Board reserves the right to sell or otherwise dispose of the surface of the leased lands; provided that any sale of surface rights made subsequent to execution of the lease is subject to all terms and provisions of the oil and gas lease during its life including extensions and continuations under Section 040.

051. DILIGENT EXPLORATION REQUIRED.
The lessee must perform diligent exploration during the entire term of a lease. Diligent exploration means that the lessee provides continuing efforts as a reasonably prudent operator toward achieving production, including, without limitation, performing geological and geophysical surveys and/or the drilling of a test well.

052. -- 054. (RESERVED)

055. OPERATIONS UNDER THE LEASE.

01. Best Practices. The lessee will at all times conduct exploration, development, drilling and all operations as a reasonably prudent operator and conform to the best practice and engineering principles in use in the oil and gas industry.

02. Compliance with Rules. The lessee will comply with all rules of the oil and gas commission, including amendments promulgated pursuant to Title 67, Chapter 52, Idaho Code, and any violations of the commission’s rules or other applicable state laws and rules may constitute a violation of the lease under these rules.

03. Designation of Operator. In all cases where operations are not conducted by the lessee but are to be conducted under authority of an approved operating agreement, assignment or other arrangement, a designation of operator must be submitted to the Director prior to commencement of operations. Such a designation authorizes the operator or his local representative to act for the lessee and to sign any papers or reports required under these rules. The lessee must immediately report to the Director all changes of address and termination of the authority of the operator.

04. Legal Representative. When required by the Director, the lessee must designate a local representative empowered to receive service of civil or criminal process and notices and orders of the Director issued pursuant to these rules.

05. Diligence. The lessee will, subject to the right to surrender the lease, diligently drill and produce
such wells as are necessary to protect the Board from loss by reason of production on other properties, or with the consent of the Director, compensate the Board for failure to drill and produce any such well. All wells under lease must be drilled, maintained and operated to produce the maximum amount of oil and/or gas that can be secured without injury to the well.

06. Loss Through Waste or Failure to Produce. The Director will determine the value of production accruing to the Board where there is loss through waste or failure to drill and produce protection wells on the leased lands and the compensation due to the Board as reimbursement for such loss. Payment for such losses must be made within sixty (60) days after the date of billing. The value of production resulting from a loss through waste or failure to take corrective measures to protect a well is calculated at ninety percent (90%) of the last year’s actual production royalty or a minimum royalty of five dollars ($5) per acre or fraction thereof, whichever is greater. (7-1-21)T

07. By-Products. Where production, use of conversion of oil and gas under a lease, is susceptible of producing a valuable by-product or by-products, including, without limitation, commercially demineralized water, carbon dioxide or helium, the lessee must submit to the Director all available information concerning the potential by-product. The Department may conduct tests or studies at its expense and may issue reasonable orders to produce and preserve such by-product. (7-1-21)T

08. Geothermal Information. Prior to abandoning any well, the lessee must submit to the Director all available information concerning geothermal resource potential. The Department may conduct tests or studies at its expense prior to the abandoning of any well to determine geothermal resource potential. Except as provided in Subsection 040.05, the lessee must promptly plug and abandon any well on the leased land that is not used or useful, in accord with these rules and the rules of the commission, and any applicable rules and regulations of the Department of Water Resources. When drilling in a known geothermal resources area, the applicant may need a geothermal resource well permit from the Department of Water Resources. (7-1-21)T

056. WATER RIGHTS.
The lessee will comply with all state laws and rules regulating the appropriation of water rights. No water rights developed or obtained by the lessee in conjunction with operations under a lease may be sold, assigned or otherwise transferred without written approval of the Director. Upon surrender, termination or expiration of the lease, the lessee must take all actions required by the Director to assign to the Board all water rights, including applications and permits, subject to applicable laws regarding the transfer or assignment of permits to appropriate water. (7-1-21)T

057. -- 059. (RESERVED)

060. ASSIGNMENTS.

01. Prior Written Approval. No lease assignment is valid until approved in writing by the Director, and no assignment takes effect until the first day of the month following its approval. (7-1-21)T

02. Qualified Assignee. A lease may be assigned to any person qualified to hold a state lease, provided that in the event an assignment partitions leased lands between two (2) or more persons, neither the assigned nor the retained part created by the assignment may contain less than forty (40) acres or a government lot, whichever is less. (7-1-21)T

03. Responsibilities. In an assignment of the complete interest of the leasehold, the assignor and his surety continue to comply with the lease and these rules until the effective date of the assignment. After the effective date of any assignment, the assignee and his surety are bound by the lease and these rules to the same extent as if the assignee were the original lessee, notwithstanding any conditions in the assignment to the contrary; however, the assignor-lessee remains liable for rentals and royalties due and damages accruing prior to the effective date of the assignment. (7-1-21)T

04. Segregation of Assignment. If an assignment partitions leased lands between two (2) or more persons, it must clearly segregate the assigned and retained portions of the leasehold. Resulting segregated leases continue in full force and effect for the balance of the ten-year term of the original lease or as further extended pursuant to these rules. (7-1-21)T
05. **Joint Principal.** Where an assignment does not segregate the record title to the lease, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. The application must be accompanied by a consent of assignor’s surety to remain bound under the bond of record, if the bond by its terms does not contain such consent. If a party to the assignment has previously furnished a statewide bond, no additional showing by such party is necessary as to the bond requirement. (7-1-21)

06. **Form of Assignment.** An assignment is a valid legal instrument, properly executed and acknowledged, setting forth the number of the lease, a legal description of the land involved, the name and address of the assignee, the interest transferred and the consideration. A fully executed copy of the instrument of assignment must be filed with the application for approval pursuant to Subsection 060.07. An assignment may affect or concern more than one (1) lease. (7-1-21)

07. **Application.** The application for approval of an assignment must be submitted in duplicate on forms of the Department or exact copies of such forms. The “lessee/assignee of record” must be designated in accordance with Subsection 010.11. If payments out of production are reserved, a statement must be submitted stating the amount, method of payment, and other pertinent items. The statement must be filed with the Department no later than fifteen (15) days after the filing of the application for approval. (7-1-21)

08. **Denial.** The Director may deny an application for assignment if the lessee or the assignee is delinquent in payment of rentals or royalties or otherwise has violated these rules. (7-1-21)

09. **Fee.** All applications for approval of assignment must be accompanied by the fee required by Section 120. (7-1-21)

061. -- 069. (RESERVED)

070. **SURRENDER - RELINQUISHMENT.**

01. **Procedure.** The lessee may surrender its lease or any surveyed subdivision of the area covered by such lease, by filing a written relinquishment with the Department, provided that a partial relinquishment does not reduce the remaining acreage in the lease to less than forty (40) acres or a government lot, whichever is less. The Director may waive the minimum acreage provision of this rule if he finds it is justified on the basis of exploratory and development data derived from activity on the leasehold. (7-1-21)

02. **Effective Date.** A relinquishment takes effect thirty (30) days after it is received by the Department. Thereafter the lessee is relieved of liability under these rules except for the continued obligation of the lessee and his surety to:

   a. Make payments of all accrued rentals and royalties; (7-1-21)
   b. Place all wells on the land to be relinquished in condition for suspension of operations or abandonment; (7-1-21)
   c. Comply with all rules of the commission for plugging of abandoned wells; (7-1-21)
   d. Comply with applicable laws and rules of the Department of Water Resources; and (7-1-21)
   e. Reclaim the surface and natural resources in accord with these rules. (7-1-21)

03. **Partial Surrender.** In the event of a partial surrender of the land covered by such lease, the annual rental thereafter payable will be reduced proportionately. (7-1-21)

071. **TERMINATION - CANCELLATION OF LEASE.**

01. **Cause.** Except as otherwise provided in these rules, the Director may terminate the lease for any substantial violation of these rules, the lease, or the rules of the commission, ninety (90) days after notice of the violation has been given to lessee by personal service or by certified mail to the lessee, unless: (7-1-21)
a. The violation has been corrected; or (7-1-21)\text{\textsuperscript{T}}

b. The violation is one that cannot be corrected within the notice period and the lessee has in good faith commenced within the notice period to correct the violation and proceeds diligently to complete corrective action within a time period set by the Director. If sent by certified mail, such notice will be deemed served upon mailing. (7-1-21)\text{\textsuperscript{T}}

02. Surrender After Termination. Upon the expiration or termination of the lease, the lessee will quietly and peaceably surrender possession of the premises to the state. Thereafter, lessee’s obligations under these rules that have accrued prior to the date of expiration or termination continue in full force and effect. (7-1-21)\text{\textsuperscript{T}}

03. Other Wells. Default by the lessee in the performance of any of the conditions or provisions of the lease concerning a well or wells on any legal subdivision of the leasehold do not affect the right of the lessee to continue the possession or operation of any other well or wells, situated upon any other legal subdivision of the leasehold. The term “legal subdivision” as herein used means a subdivision as established by the United States land survey that most nearly approximates in size the area allocated to one well under any approved well spacing program; provided that if no special program has been approved, “legal subdivision” means the parcel upon which such well is located, but in any event not less than forty (40) acres surrounding such well. Where such a default involving one (1) or more wells results in cancellation, and the lessee has other wells on the lease not in default, such cancellation will result in the division of the defaulting acreage from the lease and resultant reduction in the size of the lease held by the lessee. (7-1-21)\text{\textsuperscript{T}}

04. Equipment Removal. Upon the expiration of the lease, or its earlier termination or surrender pursuant to these rules, the lessee must, within a period of ninety (90) days, remove from the premises all materials, tools, appliances, machinery, structures. Equipment subject to removal but not removed within the ninety (90) day period or any extension that may be granted because of adverse climatic conditions during that period, may, at the option of the Director, become property of the state of Idaho, or the Director may cause the property to be removed at the lessee’s expense. (7-1-21)\text{\textsuperscript{T}}

072. -- 079. (RESERVED)

080. BOND REQUIREMENTS.

01. Minimum Bond. Prior to entry with motorized exploration equipment upon leased lands, the surface of which has been sold or leased, the lessee must submit to the Director a corporate surety bond or collateral bond in the amount of one thousand dollars ($1,000) in favor of the state of Idaho conditioned upon the payment of all damages to the surface that result from the lessee’s operation. Prior to entry upon the leased land with drilling equipment or prior to commencing any construction in preparation for drilling upon leased lands, the lessee must submit to the Director a corporate security bond or collateral bond in the amount of six thousand dollars ($6,000) in favor of the state of Idaho bond will be conditioned upon compliance with the lease, these rules, the removal of all materials, etc. per Subsection 071.04, and the payment of all damages to the land surface and all improvements thereon, including crops, which result from the lessee’s operation, regardless of whether the lands under this lease have been sold or leased by the Board for any other purpose. This bond is in addition to the drilling bond pursuant to commission rules. This rule notwithstanding, the oil and gas lessee may be required on a case-by-case basis to post a bond in excess of six thousand dollars ($6,000) to protect a surface lessee’s or surface owner’s interests pursuant to Section 47-708, Idaho Code. (7-1-21)\text{\textsuperscript{T}}

02. Statewide Bond. In lieu of the aforementioned bonds, the lessee may furnish a good and sufficient “statewide” bond conditioned as above in the amount of fifty thousand dollars ($50,000) in favor of the state of Idaho to cover all lessee’s leases and operations carried on under these rules. (7-1-21)\text{\textsuperscript{T}}

03. Period of Liability. The period of liability of any bond is not be terminated until all obligations under the lease and these rules have been fulfilled and the bond is released in writing by the Director. (7-1-21)\text{\textsuperscript{T}}

04. Form of Performance Bond. (7-1-21)\text{\textsuperscript{T}}
a. Corporate surety bond means an indemnity agreement executed by or for the lessee and a corporate surety licensed to do business in the state of Idaho on an oil and gas lease bond form supplied by the Department conditioned in accord with Subsection 080.01, and payable to the state of Idaho. (7-1-21)

b. Collateral bond means an indemnity agreement executed by or for the lessee and payable to the state of Idaho, pledging cash deposits, negotiable bonds of the United States, state or municipalities, or negotiable certificates of deposit of any bank doing business in the United States. Collateral bonds are subject to the following conditions: The Department obtains possession and deposits such with the state treasurer. The Department will value collateral at its current market value, not face value. Certificates of deposit are made payable to the “State of Idaho or the lessee.” Amount of an individual certificate may not exceed the maximum amount insured by the Federal Deposit Insurance Corporation or Federal Savings and Loan Insurance Corporation or their successors. Banks issuing such certificates waive all rights of set-off or liens that they have or may have against such certificates. Any such certificates are automatically renewable. The certificate of deposit must be of sufficient amount to ensure that the Department would be able to liquidate such certificates prior to maturity, upon forfeiture, for the amount of the required bond including any penalty for early withdrawal. (7-1-21)

05. Bond Cancellation. Any surety company or indemnitor canceling a bond must give the Department at least sixty-days’ (60) notice prior to cancellation. The Department will not release a surety or indemnitor from liability under existing bonds until the lessee has submitted to the Department an acceptable replacement bond. Such replacement bond must cover any liability accrued against the bonded principal on the lease covered by the previous bond. (7-1-21)

06. Surety License. If the license to do business in Idaho of any surety is suspended or revoked, the lessee must find a substitute for such surety within thirty (30) days after notice by the Department. If the lessee fails to secure a substitute surety, he must cease operation upon the lease. The substitute surety must be licensed to do business in Idaho. (7-1-21)

07. Form. All bonds furnished must be on the Department bond form or exact copy of it. (7-1-21)

081. -- 089. (RESERVED)

090. UNIT OR COOPERATIVE PLANS OF DEVELOPMENT OR OPERATION.

01. Unit Plan. For the purpose of properly conserving the natural resources of any oil and gas pool, field or like area, the lessee may, with the written consent of the Director, commit the leased lands to a unit, cooperative or other plan of development or operation with other state, federal, Indian, or privately-owned lands. (7-1-21)

02. Contents. An agreement to unitize must: describe the separate tracts comprising the unit; disclose the apportionment of the production of royalties and costs to the several parties; the name of the operation; and contain adequate provisions for the protection of the interests of all parties, including the state. The agreement must: be signed by or in behalf of those persons or entities having effective control of the geologic structure; submitted to the Director with the application to unitize; and effective only after approval by the Director. (7-1-21)

03. Interested Parties. The owners of any right, title or interest in the oil and gas resources to be developed or operated under an agreement may be regarded as interested parties to a proposed unitization agreement. Signature of a party with only an overriding royalty interest in unnecessary. (7-1-21)

04. Collective Bond. In lieu of separate bonds for each lease committed to a unit agreement, the unit operator may furnish and maintain a collective corporate surety bond or a collateral bond conditioned upon faithful performance of the duties and obligations of the agreement, the lease subject to the agreement and these rules. The liability under the bond will be for such amount the Director determines to be adequate to protect the interests of the state. If the unit operator is changed, a new bond or consent of surety to the change in principal under the existing bond must be filed within thirty (30) days of assignment. (7-1-21)

05. Lease Modification. The terms of any lease included in any cooperative or unit plan of development or operation may be modified by the Director with approval of the lessee, except that a unit agreement
must have final approval by the Director for a state cooperative plan or the final approval by the secretary of interior for a federal cooperative plan prior to extending any lease into its eleventh year and each year thereafter. A lease so extended expires two (2) years after the unit plan expires provided the lessee continues to pay the annual rental as outlined in Subsection 041.03.

06. Rentals. Rentals and royalties on leases so extended are at the rates specified in these rules. Advanced rental must be paid on or before the extended lease’s anniversary date. Any unused portion of annual rental will not be refunded.

07. Evidence of Agreement. Before issuance of a lease for lands within an approved unit agreement, the lease applicant must file with the Department evidence that he has entered into an agreement with the unit operator for the development and operation of the lands in a lease, or a statement giving satisfactory reasons for the failure to enter into such agreement. If such statement is acceptable, the applicant will be permitted to operate independently but be required to perform its operations in a manner that the Director deems to be consistent with the unit operations.

08. Segregation Prohibited. A lease may not be segregated if any part thereof is included in a cooperative plan until the pool or field has been defined. Once defined, those areas outside the unit area or pool boundary can be surrendered as provided in Section 070.

095. LIABILITY INSURANCE; SPECIAL ENDORSEMENTS.

01. Liability Insurance Required. Prior to entry upon the leased lands for any reason other than casual exploration or inspection pursuant to Section 021, the lessee must secure and maintain during the term of this lease, public liability, property damage, and products liability insurance in the sum of four hundred thousand dollars ($400,000) for injury or death for each occurrence; in the aggregate sum of two million dollars ($2,000,000) for injury or death; and in the sum of four hundred thousand dollars ($400,000) for damages to property and products damages caused by any occupancy, use, operations of any other activity on leased lands carried on by the lessee, its assigns, agents, operators or contractors. The lessee must insure against explosion, blow out, collapse, fire, oil spill and underground hazards and submit evidence of such insurance to the Director. If the land surface and improvements thereon covered by the lease have been sold or leased by the state of Idaho, the owner or lessee of the surface rights will be an additional named insured. The state of Idaho is a named insured in all instances. This policy or policies of liability insurance must contain the following special endorsement:

“The state of Idaho, the Idaho State Board of Land Commissioners, the Director of the Department of Lands, the Department of Lands, (or other state agency exercising custody and control over the lands), and (herein insert name of owner or lessee of surface rights, if applicable) and the officers, employees and agents of each and every of the foregoing are additional insureds under the terms of this policy: Provided, however, these additional insureds shall not be insured hereunder for any primary negligence or misconduct on their part, but such additional insureds shall be insured hereunder for secondary negligence or misconduct, which shall be limited to failure to discover and cause to be corrected the negligence or misconduct of the lessee, its agents, operators or contractors. This insurance policy shall not be canceled without thirty (30) days prior written notice to the Idaho Department of Lands. None of the foregoing additional insureds is liable for the payment of premiums or assessments of this policy.”

No cancellation provision in any insurance policy is in derogation of the continuous duty of the lessee to furnish insurance during the term of this lease. Such policy or policies must be underwritten to the satisfaction of the Director. A signed complete certificate of insurance, with the endorsement required by this paragraph, must be submitted to the Director prior to entry upon the leased land with motorized exploration equipment after award of a lease and may be required prior to such entry under Rule 021.

02. Certificate of Insurance. At least thirty (30) days prior to the expiration of any such policy, a signed complete certificate of insurance, with the endorsement required by Subsection 095.01, showing that such insurance coverage has been renewed or extended, must be filed with the Director.
The state of Idaho, the Board, the Director, the Department, and any other state agency that may have custody or control of the leased lands, and the owner of the surface rights and improvements, if not the state of Idaho, or state lessee of surface rights, if there be one, the officers, agents and employees of each of the foregoing, are free from any and all liabilities and claims for damages and/or suits for or by reason of death or injury to any person or damage of property of any kind whatsoever, caused by a negligent or otherwise wrongful act or omission of the lessee, its assigns, agents, operators, employees or contractors; and lessee covenants and agrees to indemnify and to save harmless the state of Idaho, the Board, the Director, the Department, or other state agency, or the lessee of surface rights if there be one, and their officers, agents, and employees from all liabilities, charges, expense, including attorney fees, claims, suits or losses caused by a negligent or otherwise wrongful act or omission of the lessee, its assigns, agents, operators, employees or contractors. The lessee’s signature to a lease under these rules constitutes express agreement to this rule.

097. -- 099. (RESERVED)

100. TITLE.
The state of Idaho does not warrant title to the leased lands or the oil and gas resources that may be discovered thereon; the lease is issued only under such title as the state of Idaho may have as of the effective date of the lease or thereafter acquires.

101. IMPOSSIBILITY OF PERFORMANCE.
Whenever, as a result of any act of God, or law, order or regulation of any governmental agency, it becomes impossible for the lessee to perform or to comply with any obligation under the lease or these rules, other than payment of rentals or royalties, the Director in his discretion, may by written order excuse lessee from damages or forfeiture of the lease, and the lessee’s obligations may be suspended and the term of the lease may be extended provided that the Director finds that good cause exists.

102. TAXES.
The lessee pays, when due, all taxes and assessments of any kind lawfully assessed and levied against the lessee’s interest or operations under the laws of the state of Idaho.

103. -- 119. (RESERVED)

120. FEES.

01. Exploration Permit. One hundred dollars ($100) per linear mile or a minimum of one hundred dollars ($100) per section.

02. Nonrefundable Nomination Fee. The nomination fee is set by the Board at a minimum of two hundred fifty dollars ($250) per tract.

03. Processing Fee. The processing fee is set by the Board at a minimum of one hundred dollars ($100) per each document.

04. Fee Adjustment. The Board may annually adjust these fees without formal rulemaking procedures.

121. -- 999. (RESERVED)
20.03.17 – RULES GOVERNING LEASES ON STATE-OWNED SUBMERGED LANDS AND FORMERLY SUBMERGED LANDS

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authorities of Title 58, Chapter 1, Idaho Code, Sections 58-104(6), 58-104(9), and 58-105; Title 58, Chapter 3, Idaho Code, Sections 58-304 through 58-312; Title 58, Chapter 6, Idaho Code; Title 58, Chapter 12; and Title 67, Chapter 52, Idaho Code.

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.03.17, “Rules Governing Leases on State-Owned Submerged Lands and Formerly Submerged Lands.”

02. Scope. These rules govern the issuance of leases on state-owned submerged lands.

a. These rules also apply to state-owned islands raised from submerged lands, or filled submerged lands, or other formerly submerged lands that are no longer covered by water at any time during an ordinary year.

b. While the State asserts the right to issue leases for all encroachments, navigational or non-navigational, upon, in or above the beds or waters of navigable lakes and rivers, nothing in these rules may be construed to vest in the State of Idaho any property, right or claim of such right to any private lands lying above the natural or ordinary high water mark of any navigable lake or river.

002. ADMINISTRATIVE APPEALS.
Any person aggrieved by any final decision or order of the Board is entitled to judicial review pursuant to the provisions of Title 67, Chapter 52, Idaho Code, and IDAPA 20.01.01, “Rules of Practice and Procedure Before the State Board of Land Commissioners.”

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Artificial High Water Mark. The high water elevation above the natural or ordinary high water mark resulting from construction of man-made dams or control works and impressing a new and higher vegetation line.

02. Board. The Idaho State Board of Land Commissioners or its designee.

03. Commercial Marina. A commercial navigational encroachment whose primary purpose is to provide moorage for rental or for free to the general public.

04. Commercial Navigational Encroachment. A navigational encroachment used for commercial purposes.

05. Community Dock. A structure that provides private moorage for more than two (2) adjacent littoral owners, or other littoral owners possessing a littoral common area with littoral rights including, but not limited to, homeowners’ associations. No public access is required for a community dock.

06. Department. The Idaho Department of Lands or its designee.

07. Director. The director of the Idaho Department of Lands or his designee.

08. Dock Surface Area. Includes docks, slips, piers, and ramps and is calculated in square feet. Dock surface area does not include pilings, submerged anchors, or undecked breakwaters.

09. Encroachments in Aid of Navigation. Includes docks, piers, jet ski and boat lifts, buoys, pilings, breakwaters, boat ramps, channels or basins, and other facilities used to support water craft and moorage on, in, or above the beds or waters of a navigable lake, river or stream. The term “encroachments in aid of navigation” may be used interchangeably herein with the term “navigational encroachments.”

10. Encroachments Not in Aid of Navigation. Includes all other encroachments on, in, or above the beds or waters of a navigable lake, river or stream, including landfills, bridges, utility and power lines, or other...
structures not constructed primarily for use in aid of navigation. It also includes float homes and floating toys. The term “encroachments not in aid of navigation” may be used interchangeably herein with the term “non-navigational encroachments.”

11. **Formerly Submerged Lands.** The beds of navigable lakes, rivers, and streams that have either been filled or subsequently became uplands because of human activities including construction of dikes, berms, and seawalls. Also included are islands that have been created on submerged lands through natural processes or human activities since statehood, July 3, 1890.

12. **Market Value.** The most probable price at a specified date, in cash, or on terms reasonably equivalent to cash, for which the property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus.

13. **Natural or Ordinary High Water Mark.** The line that the water impresses upon the soil by covering it for a sufficient period of time to deprive the soil of its vegetation and destroy its value for agricultural purposes. If, however, the soil, configuration of the surface, or vegetation has been altered by man’s activity, the ordinary high water mark is located where it would have been if the alteration had not occurred.

14. **Person.** A partnership, association, corporation, natural person, or entity qualified to do business in the state of Idaho and any federal, state, tribal, or municipal unit of government.

15. **Riparian or Littoral Rights.** The rights of owners or lessees of land adjacent to navigable lakes, rivers or streams to maintain their adjacency to the lake, river, or stream and to make use of their rights as riparian or littoral owners or lessees in building or using aids to navigation but does not include any right to make any consumptive use of the waters.

16. **Single-Family Dock.** A structure providing noncommercial moorage that serves one (1) waterfront owner whose waterfront footage is no less than twenty-five (25) feet.

17. **Submerged Lands.** The state-owned beds of navigable lakes, rivers, and streams below the natural or ordinary high water marks.

18. **Two-Family Dock.** A structure providing noncommercial moorage that serves two (2) adjacent waterfront owners having a combined waterfront footage of no less than fifty (50) feet. Usually the structure is located on the common littoral property line.

19. **Upland.** The land bordering on navigable lakes, rivers, and streams.

011. -- 019. (RESERVED)

020. **APPLICABILITY.**

Leases are required for all encroachments on, in, or over state-owned submerged land except:

01. **Single -Family or Two-Family Docks.** Single-family or two-family docks that were constructed on or before July 1, 1993, that occupy less than eleven hundred (1,100) square feet of dock surface area lakeward of the ordinary high water mark, and for which all required permits and approvals have been obtained.

02. **Single-Family Docks.** Single-family docks that were constructed after July 1, 1993, that occupy less than seven hundred (700) square feet of dock surface area lakeward of the ordinary high water mark, and for which all required permits and approvals have been obtained.

03. **Two-Family Docks.** Two-family docks that were constructed after July 1, 1993, that occupy less than eleven hundred (1,100) square feet of dock surface area lakeward of the ordinary high water mark, and for which all required permits and approvals have been obtained.

04. **Encroachments Free to the Public.** Encroachments in aid of navigation for which the complete
05. Temporary Permits or Easements. Uses or encroachments that are customarily authorized by temporary permits or easements, such as roads, railroads, overhead utility lines, submerged cables, and pipelines. Information on easements can be found in IDAPA 20.03.09, “Easements on State-Owned Submerged Lands and Formerly Submerged Lands.”

021. -- 024. (RESERVED)

025. POLICY.

01. Policy of the State of Idaho. It is the policy of the state of Idaho to regulate and control the use and disposition of lands in the beds of navigable lakes, rivers and streams to the natural or ordinary high water mark thereof, so as to provide for their commercial, navigational, recreational or other public use; provided that the Board will take no action in derogation of or seeking to interfere with the riparian or littoral rights of the owners of upland property abutting or adjoining such lands.

02. Director May Grant Leases. The Director may grant leases for uses that are in the public interest and consistent with these rules.

03. Requests or Inquiries Regarding Navigability. The State owns the beds of all lakes, rivers, and streams that were navigable in fact at statehood. The Department will respond to requests or inquiries as to which lakes, rivers, and streams are deemed navigable in fact. Additional information about streams deemed navigable by the State of Idaho is available from the Department.

04. Stream Channel Alteration Permit or Encroachment Permit. Issuance of a lease is contingent upon the applicant obtaining a stream channel alteration permit if required by the Idaho Department of Water Resources, pursuant to Title 42, Chapter 38, Idaho Code, or an encroachment permit if required by the Department pursuant to the Lake Protection Act, Title 58, Chapter 13, Idaho Code, and compliance with local planning and zoning regulations if applicable.

05. Other Permits and Licenses. Issuance of a lease does not relieve an applicant from acquiring other permits and licenses that are required by law.

06. Submerged Lands Lease Required Upon Notification. All persons using submerged lands in a manner that requires a submerged land lease must obtain such a lease from the Director when notified to do so.

07. Term of Lease, Renewal of Lease. Leases are issued for a term of ten (10) years or as determined by the Board. Leases may be renewed for additional periods to be determined by the Department based upon satisfactory performance during the present term. Renewals will be processed with a minimum of procedural requirements and will not be denied except in the most unusual circumstances or noncompliance with the terms and conditions of the previous lease. Lease renewals are initiated by the Department.

08. Director’s Authorization to Issue and Renew Leases. The Director is authorized to issue and renew leases for the use of submerged lands in accordance with these rules.

09. Rights Granted. The lease grants only such rights as are specified in the lease. The right to use the submerged or formerly submerged lands for all other purposes that do not interfere with the rights authorized in the lease remains with the state.

10. Rules Applicable to All Existing and Proposed Uses and Encroachments. These rules apply to all existing and proposed uses and encroachments, whether or not authorized by permit under the Lake Protection Act, Title 58, Chapter 13, Idaho Code, or the Stream Channel Protection Act, Title 42, Chapter 38, Idaho Code. These rules provide that a lease may be required in addition to existing permits. See Section 020 of these rules for information about exceptions to lease requirements.
11. **Waiver of Lease Requirements.** The Director may, in his discretion, waive lease requirements for single-family or two-family dock encroachments whose dock surface areas exceed square footage described in Subsections 020.01 through 020.03 of these rules when the additional dock surface area square footage is necessary to gain or maintain access to water of sufficient depth to sustain dock use for water craft customarily in use on that particular lake. 

12. **Private Moorage at Commercial Marinas.**
   a. This Subsection (025.12) does not apply to community docks.
   b. Private moorage at commercial marinas is allowed as long as the requirements of IDAPA 20.03.04, “Rules for the Regulation of Beds, Waters, and Airspace Over Navigable Lakes in the State of Idaho,” Subsection 015.03 are met.
   c. The sale, lease, or rental of private moorage is in no way an encumbrance on any underlying public trust land. All transactions related to private moorage are subject to the limitations of the associated submerged lands lease.
   d. Acquisition of private moorage must be documented with a disclosure that the transaction does not convey public trust lands and only conveys the right to use the designated portion of the marina.
   e. The Department will make no policy regarding the cost of private moorage and the resolution of disputes between the involved parties.

030. **LEASE APPLICATION, FEE, AND PROCEDURE.**

01. **Fee.** The lease application fee is one hundred fifty dollars ($150).

02. **Fee Is Required.** A lease application and nonrefundable fee is required for new and existing encroachments. A lease application fee is required for leases that are renewed upon expiration.

03. **Application to Lease and Fee.** The lease application and fee must be submitted with the information from Subsections 030.03.a. through 030.03.c., in sufficient detail for the Department to determine an appropriate lease rate based on numbers of slips, square footage, or other permit information:
   a. A letter of request stating the purpose of the lease.
   b. A scale drawing of the proposed lease area with plans detailing all intended improvements, including reference to the nearest known property corner(s). An encroachment permit may satisfy this requirement.
   c. The permit number of each existing applicable encroachment permit.

04. **Submital of Application to Lease and Fee.** The lease application and fee must be filed in the local office of the Department or the Director’s office.

05. **Notification of Approval or Denial.** The applicant will be notified in writing if the lease application is approved or denied. The applicant will also be notified of any additional requirements.

06. **Request for Reconsideration.** Any applicant aggrieved with the Director’s determination of rent or denial of a lease application may request reconsideration by the Director.

031. -- 034. **(RESERVED)**

035. **RENTAL.**
The rental rate policy for submerged land leases is set by the Board. This policy is available on the Department website at http://www.idl.idaho.gov/.

01. **Standardized Rental Rates.** The Board sets standard submerged land lease rental rates for common uses such as commercial marinas, community docks, float homes, restaurants, and retail stores. Rental rates for commercial marinas and other uses that produce revenue for the lessee will commonly be calculated as a percentage of gross receipts, however, other methods may be used as determined appropriate by the Board.

02. **Nonstandard Rental Rates.** The Board directs the Department to use a percentage of market value or gross receipts, or other methods determined appropriate by the Board, as the submerged lands lease rental rate for uses that are uncommon, especially for non-navigational encroachments.

036. **YEARLY REPORTING.**

01. **Annual Report.** Lessees must provide an annual report to the Department that includes:

a. A schedule of moorage rental rates, including moorage sizes and types.

b. The number and size of all public boat and float home moorages.

c. The number and size of all private boat and float home moorages.

d. Current proof of insurance that is required by the lease.

02. **Failure to Report.** Failure to provide the annual report information is a violation of these rules.

037. -- 039. (RESERVED)

040. **LATE PAYMENT, EXTENSIONS OF PAYMENT.**

01. **Penalty for Late Payment of Rent.** Rent not paid by the due date is considered late. A penalty, calculated from the day after which payment was due, will be added to the rent. The penalty will be determined by the Board for the first month or any portion thereof and one percent (1%) of the rent due, including penalty, per month thereafter.

02. **Extension in Time for Payment of Rent.** An extension in time in which to submit payment of rent may be granted for commercial submerged lands leases only. Such extensions may not exceed two (2) successive years, as required by Title 58, Chapter 3, Idaho Code, Section 58-305.

03. **Request for Extension in Time for Payment of Rent.** Lessees must request extensions on forms supplied by the lessor and pay an extension fee to be determined by the Board. The lessee must also provide a statement from his banker or accountant verifying that money is not available for the payment of rent.

04. **Interest Rate for Extension in Time for Payment of Rent.** If an extension is granted, rent plus interest at a rate established by the Board will be due no later than October 1 of the rent year. Specifically, interest will be the average monthly rate for conventional mortgages as quoted in the Federal Reserve Statistical Report; the rate to be rounded downward to the nearest one quarter percent (1/4%) on the tenth of each month following the release of data.

041. -- 044. (RESERVED)

045. **APPRAISAL PROCEDURES.** Appraisals may be used to determine the market value of adjacent uplands for calculating submerged lease rental rates.

01. **Appraisal.** An appraisal will either be performed by qualified Department staff or an independent...
contract appraisal. Any appraisal must be under the control of the Department. (7-1-21)T

02. Cost of Appraisal. The appraisal costs are the actual cost for Department personnel plus transportation, including per diem and administrative overhead, or the bid amount for the contract appraiser. An itemized statement of these costs will be provided to the applicant. The cost of the appraisal is in addition to those costs outlined in Section 035 of these rules and is billed separately from the application fee and rent. (7-1-21)T

046. -- 049. (RESERVED)

050. LEASE MODIFICATION OR AMENDMENT.

01. Encroachment Amendment. A lease modification or amendment must first be permitted through an amendment to the lake encroachment permit or stream alteration permit, if needed. (7-1-21)T

02. Modification of Existing Lease. Modification or amendment of an existing lease will be processed in the same manner as a new lease application, but no fee will be required. Modification or amendment includes change of use, location, size or scope of the lease site, but does not include ordinary maintenance, repair or replacement of existing structures or facilities. (7-1-21)T

03. Modification of Interior Facilities. If the proposed changes to a facility do not require a new encroachment permit, a lease modification may still be needed as described in Subsection 050.02 of these rules. The lessee must give written notice to the Department at least ten (10) days in advance of making such changes. The Department will determine if a lease modification is needed due to the proposed changes. When requested, the lessee must also furnish one (1) set of as-built plans to the Department within thirty (30) days following completion of changes. (7-1-21)T

051. -- 054. (RESERVED)

055. ASSIGNMENTS, ASSIGNMENT FEE.

01. Assignment of Lease. Leases may be assigned upon approval of the Director provided that the lease conforms with Subsection 025.02 and all other provisions of these rules. The assignor and assignee must complete the Department’s standard assignment form and forward it to any Department office. (7-1-21)T

02. Assignment Fee. The assignment fee is one hundred fifty dollars ($150). (7-1-21)T

03. Permit Assignment. The encroachment permit/stream alteration permit pertinent to a lease must be assigned to a purchaser simultaneously with a lease assignment. A lease assignment will not be approved unless the permit is assigned. (7-1-21)T

04. Approval Required for Assignment. An assignment is not valid until it has been approved by the Director. (7-1-21)T

056. -- 059. (RESERVED)

060. CANCELLATION AND ADDITIONAL REMEDIES.

01. Cancellation of Lease for Violation of Terms. Any violation of the terms of the lease by the lessee, including non-payment of rent or any violation by lessee of any rule now in force or hereafter adopted by the Board may subject the lease to cancellation. The lessee will be provided written notice of any violation. The letter will specify the violation, corrective action necessary, and specify a reasonable time to make the correction. If the corrective action is not taken within the specified reasonable period of time, the Department will notify the lessee of cancellation of the lease: provided, however, that the notice is provided to lessee no later than thirty (30) days prior to the effective date of such cancellation. (7-1-21)T

02. Reinstatement of Lease. A lease may be reinstated within ninety (90) days after cancellation for non-payment by paying the rental, plus interest, and a reinstatement fee to be determined by the Board. (7-1-21)T
03. Cancellation of Lease for Use Other Than Intended Purpose. A lease not used for the purpose for which it was granted may be canceled. The Department will notify the lessee in writing of any proposed cancellation. The lessee has thirty (30) days to reply in writing to the Department to show cause why the lease should not be canceled. Within sixty (60) days, the Department will notify the lessee in writing as to the Department’s decision concerning cancellation. The lessee has thirty (30) days to appeal an adverse decision to the Director. (7-1-21)

04. Removal of Improvements Upon Cancellation. Upon cancellation, the Director will provide the lessee with a specific amount of time, not to exceed six (6) months from the date of final notice, to remove any facilities and improvements. Failure to remove any facilities or structures within such time period established by the Director will be deemed a trespass on submerged or formerly submerged lands. (7-1-21)

05. Additional Remedies Available. In addition to termination of the lease for the material default of the lessee, the lease may provide for other remedies to non-monetary breach of the lease including, but not limited to:

a. Civil penalties as determined by the Board and to be collected as additional rent; (7-1-21)

b. The reasonable costs of remedial action undertaken by the Department as a result of the lessee’s failure to perform a requirement of the lease. These costs will be collected as additional rent; and (7-1-21)

c. Such other remedies as the Board deems appropriate. (7-1-21)

061. -- 064. (RESERVED)

065. BOND.

01. Bond Requirement Determined by Director. Bonds may be required for commercial navigational, community dock, and nonnavigational leases. The need for bond will be at the discretion of the Director who will consider the potential for abandonment of the facility, harm to state-owned submerged land and water resources, the personal and real property of adjacent upland owners and the personal and real property owned by the encroachment owner that is appurtenant to and supportive of the encroachment. (7-1-21)

02. Performance Bond. In the event a bond is necessary, the lessee must submit a performance bond in favor of the state of Idaho and in a format acceptable to the Director before a lease is issued. Acceptable bonds include surety, collateral, and letters of credit. The amount of bond is the estimated cost of restoration as established by the Director in consultation with the lease applicant on a case by case basis. To determine restoration costs, the Director may consider the potential for damage to land, to improvements, and the cost of structure removal. (7-1-21)

066. -- 069. (RESERVED)

070. LIABILITY AND INDEMNITY. A lessee will indemnify and hold harmless the lessors, its departments, agencies and employees for any and all claims, actions, damages, costs, and expenses that may arise by reason of lessee’s occupation of the leased premises, or the occupation of the leased premises by any of the lessee’s agents, or by any person occupying the same with the lessee’s permission. (7-1-21)

071. -- 074. (RESERVED)

075. OTHER RULES AND LAWS. The lessee will comply with all applicable state, federal, and local rules and laws insofar as they affect the use of the lands described in the lease. (7-1-21)
080. BINDING ON HEIRS.
All of the terms, covenants, and conditions in a state lease are binding upon the heirs, executors, and assigns of the lessee.

081. -- 084. (RESERVED)

085. CIVIL RIGHTS.
The lessee may not discriminate against any person on the basis of such person’s race, creed, color, sex, national origin or handicap.

086. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are adopted pursuant to the rulemaking authority granted in Sections 38-132 and 38-402, Idaho Code.

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 20.04.02, “Rules Pertaining to the Idaho Forestry Act and Fire Hazard Reduction Laws.”

02. Scope. These rules implement the provisions of the Idaho Forestry Act and Fire Hazard Reduction Laws.

002. -- 009. (RESERVED)

010. DEFINITIONS.
Unless otherwise required by context, as used in these rules:

01. Agreement. The Certificate of Compliance-Fire Hazard Management Agreement (Department of Lands Form 715) required by Section 38-122, Idaho Code.

02. Contract Area. The legal description of the land given on the agreement.

03. Contractor. The person who enters into the Certificate of Compliance-Fire Hazard Management Agreement.

04. Department. The Idaho Department of Lands.

05. Director. The Director of the Idaho Department of Lands or his authorized representative.

06. District. A designated forest protective district.

07. Fire Line. A line dug to mineral soil which is intended to control a fire.

08. Fire Warden. A duly appointed fire warden or deputy.

09. Fuel. Any slash or woody debris that will contribute to the spread or intensity of a wildfire.

10. Fuel Break. An area in which all slash and dead woody debris have been removed or piled and burned.

11. Hazard Reduction. The burning or physical reduction of fire hazards by treatment in a manner that will reduce the intensity and/or spread of a wildfire after treatment is completed.

12. Initial Purchaser or Purchaser. The first person, company, partnership, corporation or association of whatever nature who purchases a forest product after it is harvested.

14. Slash or Slashing. Brush, severed limbs, poles, tops and/or other waste material incident to such cutting or to the clearing of land, which are four (4) inches and under in diameter. However, for the purpose of these rules and to correspond with standard fire classifications, slash will only include material less than or equal to three (3) inches in diameter.

15. Slash Load. Slash resulting from timber harvesting that has occurred under a current agreement, exclusive of natural mortality.

030. CERTIFICATE OF COMPLIANCE-FIRE HAZARD MANAGEMENT AGREEMENT.

01. Contents. A Certificate of Compliance-Fire Hazard Management Agreement must be obtained by anyone who conducts an operation involving the harvesting of forest products or potential forest products. Such Agreement provides the option of entering into a contract as provided in Section 38-404, Idaho Code or posting of a cash or surety bond to the State. The Certificate of Compliance required by Section 38-122, Idaho Code, must be in substantially the same form as Department of Lands Form No. 715 -- “Certificate of Compliance-Fire Hazard Management Agreement.”

02. Period of Time. The period set forth within the Agreement is based upon such considerations as the size of the contract area, the volume of the timber to be harvested or the silvicultural objectives of the landowner. However, in no case may a single Agreement exceed a period of twenty four (24) months unless the contractor and the fire warden mutually agree upon a plan for the timely abatement of the hazard during a period that may exceed twenty four (24) months.

03. Extensions. If the contractor cannot meet the standard required to obtain a clearance within the period specified above, the contractor may apply to the fire warden for an extension. The application must be in writing, received at the district office thirty (30) working days before the Agreement expires, and show good reason other than financial hardship, why an extension should be given. The fire warden will acknowledge receipt of the request prior to the expiration of the Agreement.

04. Responsibility. The contractor named in the Agreement will be responsible for managing the fire hazard created by the harvesting and will receive the clearance if the slash treatment meets standards, or will carry the liability for suppressing wildfire for five (5) full years following the expiration of the Agreement.

040. ADDENDUM TO CERTIFICATE OF COMPLIANCE-FIRE HAZARD MANAGEMENT AGREEMENT.
In those instances where a contractor indicates an intent to accomplish only the piling portion of the total slash hazard reduction job, an addendum to the Agreement must be executed specifying precisely the portion of slash withholding money that will be refunded. The addendum must be in substantially the same form as Department of Lands Form No. 715.1 -- “Addendum to Certificate of Compliance-Fire Hazard Management Agreement.”

050. BOND.

01. Amount of Bond. The bond specified in Section 38-122 and Section 38-404, Idaho Code, must be in the amount of four dollars ($4) per thousand board feet (MBF), or equivalent measure as shown in Table I below, of forest products harvested, and may take the form of cash, surety bond or irrevocable letter of credit. Surety bonds must be in substantially the same form as Department of Lands Form No. 707 - “Bond.”

02. Rates. Rates and amounts listed in Table I will be used as a minimum in calculating hazard reduction bonds for products cut from all state and private lands in Idaho.

<table>
<thead>
<tr>
<th>PRODUCT</th>
<th>BOND RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) MBF Measurement</td>
<td>$4.00 MBF</td>
</tr>
<tr>
<td>All Products</td>
<td>$4.00 MBF</td>
</tr>
</tbody>
</table>

OR
03. **Exceeding Minimum Bond.** The minimum bond rate will only be exceeded when the landowner or operator requests that higher rate to accomplish additional hazard reduction.

051. -- 059. (RESERVED)

060. **CONTRACTS WITH FOREST LANDOWNERS OR OPERATORS.**
Forest landowners and operators who engage in timber harvesting operations may enter into an optional Agreement with the Director as provided in Section 38-404, Idaho Code. Under the terms of such an optional Agreement, the Director may assume all responsibility for the management and reduction of fire hazards to be created in return for a stipulated amount to be paid to the Director by the landowner or operator. Such optional Agreement must be in substantially the same form as Department of Lands Form No. 720 -- “Contract for Management, Reduction and/or Removal of Fire Hazards Created by the Harvesting of Timber Within the State of Idaho,” or Department of Lands Form No 725 - “Contract for Management of Fire Hazards Created By the Harvesting of Timber Within the State of Idaho.”

061. -- 069. (RESERVED)

070. **CASH BOND RELEASE.**
Contractors who elect under Section 38-122, Idaho Code, to have hazard reduction money withheld, but who do not intend to dispose of the hazard themselves, must release the withheld monies to the Director of the Department of Lands. Such release must be in substantially the same form as Department of Lands Form No. 761 -- “Release of Cash Bond Withheld to Assure Slash Disposal.”

071. -- 079. (RESERVED)

080. **ADDED PROTECTION IN LIEU OF HAZARD REDUCTION.**
As provided in Section 38-401, Idaho Code, fire hazard management methods may include or be limited to the taking of additional protective measures in lieu of actual disposal of the slash hazard. Any funds coming into district hazard management accounts through contract, cash bond release or forfeiture, may be used for added protection provided that the expenditure meets specifications outlined in Section 38-401, Idaho Code.
081. -- 089. (RESERVED)

090. PURCHASER REQUIREMENTS.

01. Initial Purchaser. Initial purchasers of forest products, in accordance with Section 38-122, Idaho Code, must withhold and remit to the State slash management monies as appropriate for the slash management option chosen by the contractor. Such option must be clearly identified on the purchaser’s copy of the Agreement. Slash monies withheld in any one (1) calendar month must be remitted to the Director on or before the end of the next calendar month. Such remittance must be in substantially the same form as Department of Lands Form No. 740 -- “Hazard Reduction Payment Record.” (7-1-21)

02. Duty of Initial Purchaser. Initial purchasers of forest products must make certain that all contractors from whom they purchase forest products have obtained a proper Agreement. (7-1-21)

091. -- 099. (RESERVED)

100. INJUNCTION AGAINST FURTHER CUTTING. Any person who cuts timber or other forest products of any kind, without having first secured an Agreement in accordance with Section 38-122, Idaho Code, may be enjoined from continuing such cutting and will be required to immediately dispose of all slash created. If the person responsible fails to properly dispose of the slash within thirty (30) days after being notified to do so, the State may dispose of the slash and such costs of disposal, plus twenty percent (20%) as a penalty, may be collected as a prior lien against the products harvested. (7-1-21)

101. -- 109. (RESERVED)

110. BURNING OF SLASH.

01. Permits. Any burning operation conducted for the purpose of hazard reduction must be in accordance with the law requiring burning permits during the closed fire season. Persons conducting burning operations must have sufficient men, tools and equipment on hand to immediately stop the uncontrolled spread of any fire. Burning operations must be planned, prepared and executed in such a manner that forest resources are not damaged and air quality standards are met. (7-1-21)

02. Burn Plan. Burning of specifically designated blocks or areas of forest land for any purpose must be conducted in accordance with a prescribed burn plan approved by the fire warden in whose area of responsibility the burn occurs. (7-1-21)

111. -- 119. (RESERVED)

120. STANDARDS -- TREATMENT OF HAZARDS.

01. Purpose. To provide standards for hazard reduction and the release of liability for the contractor who is working under a valid Agreement with the State. (7-1-21)

02. Reduction of Total Hazard Points. The contractor must reduce the total hazard points charged against the contract area to five (5) points or less (see Table II) on or before the expiration date on the Agreement in order to receive a refund of slash monies withheld (less three (3) percent for the fire suppression fund, ref. Rule 150) or, to clear any demands that might be made against the surety bond and to receive a release of liability against any fires that start on or pass through the contract area.
Slash loads can be determined by using any standard photo series appropriate for the habitat type represented by the contract area, or by using USDA Forest Service General Technical Report INT-16, 1974 (HANDBOOK FOR INVENTORYING DOWNED WOODY MATERIAL). If the contractor insists upon the latter, sampling intensity will be one (1) point per two (2) acres through the area in question. The inventory cost is paid by the contractor. All slash made available as a result of the current harvest will be included in the inventory except that slash that has been piled and will be burned by the contractor before the expiration date on the Agreement or such extensions granted by the fire warden.

<table>
<thead>
<tr>
<th>RATING (POINTS)</th>
<th>ADJECTIVE DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOW (0-5)</td>
<td>Associated with low harvest volumes per acre such as; selection cutting, light commercial thinning, sanitation/salvage operations, tree length skidding with tops and limbs and little or no breakage. Slash is broken up; slash is in many islands over the operating area.</td>
</tr>
<tr>
<td>MODERATE (6-10)</td>
<td>Operation types similar to those listed above except that harvest volume per acre is higher or utilization standards are lower, or timber has higher proportion of unusable top and crown (commonly associated with partial cutting in second growth stands of mixed timber). Most diameter limit cutting falls in this category. Slash is distributed with some clear or very light areas intermingled with heavy islands of slash over the operating area, slash is not continuous.</td>
</tr>
<tr>
<td>HIGH (11-15)</td>
<td>Usually associated with regeneration harvest methods such as shelterwood, seed tree and most clearcuts, or any partial cut with a high harvest volume per acre. Slash is nearly continuous through the operating area frequently with heavier islands intermingled with light continuous slash.</td>
</tr>
<tr>
<td>EXTREME (16-20)</td>
<td>Any operation with very high cut volume, and/or low utilization standards, and/or many slashed or broken stems. Slash is continuous over the operating area with few light areas.</td>
</tr>

In applying offset points to large, complex contract areas, or contract areas with highly variable hazard characteristics, hazard offset techniques must first be applied toward that portion of the contract area which will do the most to reduce the hazard by optimizing fire control effects.

<td>DISPOSAL</td>
</tr>
<tr>
<td>If disposal reduces slash load in the contract area to &lt;3 tons, deduct hazard points to five (5) or less. If disposal does not reduce slash load to that level, points should be assigned as a proportion of the area treated. For example, if twenty-five percent (25%) of the area is dozer piled and the piles burned, but the slash load in the contract area still exceeds three (3) tons, twenty-five percent (25%) of the total points charged against the job should be deducted. However, if the disposal effectively isolates the untreated portion of the slash, or is otherwise placed to optimize fire control effects the proportion of points deducted may be increased to an amount to be determined by the district fire warden.</td>
</tr>
</tbody>
</table>

| MODIFICATION: | Chipping | 0-42 |
| Crushing | 0-20 |
| Lopping | 0-10 |
| Lopping standards: All material less than three (3) inches in diameter will be cut so that it does not extend more than twenty (20) inches of the mean height above the ground. In addition, all boles greater than three (3) inches in diameter intersecting another bole will be completely severed. |
| Assign points as a proportion of the contract area treated. |

| ISOLATION | Fuel Breaks | 0-20 |
To qualify as a fuel break, all slash and available fuels (Ref. Subsection 010.10) must be removed, or piled and burned, or treated sufficiently to prevent a fire from carrying through the area, for a minimum width of one chain (66 feet). In addition, the breaks must be placed to take advantage of terrain, manmade or natural barriers and to provide for optimum fire control effect.

Fire Lines 0-5

All vegetative material must be removed to expose mineral soil. Minimum width of dozer line must be the width of the dozer blade with all dirt pushed in one direction and all vegetative debris to the other. Handlines must be eighteen (18) inches wide; additionally all fuels must be cleared for eight (8) feet. Lines must be tied to an anchor point except that they are not required to be built through a riparian management zone. In addition, the lines must be placed to take advantage of terrain, manmade or natural barriers, and to provide for optimum fire control effect. Maximum points allowed only if combined with an approved fuel break.

**ASSIGNING POINTS FOR ISOLATION**

Isolation techniques will usually be used to break the area into subunits or isolate the area from adjacent stands. Hazard offsets can be deducted for both if, in the opinion of the fire warden, both objectives are met and the total isolation points do not exceed 25 offset points.

121. -- 129. (RESERVED)

130. LIABILITY.

01. State Liability. With the exception of cases of negligence on the part of the landowner, operator or
their agents, liability for the cost of suppressing fires that originate on or pass through a slashing area remains with
the State if one of the following alternatives is executed by the contractor:

a. The contract area is covered by a Certificate of Compliance-Fire Hazard Management Agreement
and all hazard money payments are current or a proper bond is in place.

b. The contractor treats the slash in accordance with the standards outlined in the Section 120, Table II
within the time period specified on the Agreement or approved extensions.

c. The landowner or operator elects to enter into a contract with the State for management of the slash
and liability of fire suppression costs in accordance with Section 38-404, Idaho Code.

02. Contractor Liability. Should the contractor choose not to treat the slash or not enter into a contract
with the State in accordance with Subsection 130.01, the contractor, in addition to forfeiting any applicable bond, is
liable for fire suppression costs for all fires that originate on or pass through the contractor’s slashing area. The
contractor retains the full liability for five (5) years from the time the Agreement or any extension thereof expires,
unless a clearance has been issued.

03. Failure to Treat. Any contractor who fails to treat the fire hazard as outlined in Subsection 130.02,
is liable for the actual costs of suppressing any wildfire that may occur on or pass through the area covered by the
Agreement for an amount up to two hundred fifty thousand dollars ($250,000). If the same wildfire occurs on or
passes through several areas covered by separate agreements or if several Agreements cover the same area, the
contractor is liable for the actual cost of suppression up to one million dollars ($1,000,000). If a wildfire occurs on or
passes through an area covered by separate Agreements with different contractors, the actual cost of suppression up to
one million dollars ($1,000,000) will be shared by the contractors prorated on acreage included in their Agreements.

04. Fees. Upon payment of the fees set forth in Table III, the State will assume liability for the cost of
suppressing fires that originate on or pass through the contract area.
Additional fee rates for measurement other than board foot measurement are available upon request from any Department of Lands office.

05. Additional Fee. If the contractor is unable to reduce the hazard points on a contract area to the standards required for a clearance, but has completed some hazard reduction work, that contractor can discharge the remainder of his hazard obligation by returning a portion of his bond to the district and paying an additional fee to transfer liability. Use the following formula: [One minus (the acceptable hazard point or five, divided by the residual, or untreated hazard points)] multiply that ratio times the slash rate. This dollar amount should be multiplied by the total volume removed from the contract area. Add to that the additional fee to transfer liability (for the untreated hazard points, from Table III) times the total volume. When this amount is paid to the State the contract area can be cleared. Which can also be expressed as:

\[(1-(U/5)) \times B \times V + (A \times V) = \text{Formula to transfer liability for a partially completed job.}\]

Where:

\[U = \text{Untreated or residual hazard points}\]
\[B = \text{Bond rate (usually $4.00 MBF) Ref. Section 050, Table I}\]
\[A = \text{Additional fee to transfer liability, Table III}\]
\[V = \text{Total volume removed from the contract areas}\]

131. -- 139. (RESERVED)

140. CERTIFICATE OF CLEARANCE.
The Certificate of Clearance is the instrument used to certify that hazard reduction has been accomplished, a contract entered into with the Director to ensure hazard management, or an additional fee has been paid. Anyone who has been issued an Agreement for the cutting of any forest product or potential forest product and who has met standards outlined in Section 120, or has made payment for hazard reduction under a contract with the Director, as provided in Section 38-404, Idaho Code, or has paid an additional fee in accordance with Section 38-122, Idaho Code, must apply in writing to the Director for a Certificate of Clearance. Within thirty (30) days after receipt of such written request for a Certificate of Clearance, the Director will cause the area covered by the request to be inspected. If it is found that the fire hazard has been properly disposed of, the Director will issue a Certificate of Clearance. The Certificate of Clearance must be substantially the same form as Department of Lands Form No. 760 - “Certificate of Clearance.”

141. -- 149. (RESERVED)

150. FIRE SUPPRESSION AND FOREST PRACTICES ASSESSMENT.

01. Withholding. An amount of three percent (3%) of the slash management rate (twelve cents ($0.12)/MBF) will be withheld from all slash management monies received and dedicated to suppression of wildfires on forest lands. For harvest from private land, an additional amount not to exceed three percent (3%) of the slash
management rate (twelve cents ($0.12)/MBF) can be withheld from slash management monies received and will be dedicated to Forest Practices support on forest lands. (7-1-21)

02. **Assessment Costs.** Fire suppression assessment costs on operations covered by surety bond or irrevocable letter of credit or other form of bond is paid at the rate specified in Subsection 150.01. (7-1-21)

151. -- 159. (RESERVED)

160. **PRELOGGING CONFERENCE AND AGREEMENT.**
Prelogging conferences and hazard reduction agreements are encouraged, however, the hazard reduction agreement will be canceled or modified if significant operational changes occur during the harvesting of forest products or potential forest products. (7-1-21)

161. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Section 38-1208, Idaho Code, the Board has the power to adopt and amend rules. (7-1-21)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 20.06.01, “Rules of the Idaho Board of Scaling Practices.” (7-1-21)

02. Scope. These rules constitute the levy of assessment, payment for logging and hauling, licensing standards and renewals, method of scaling forest products for commercial purposes, check scaling operations, and informal hearings. (7-1-21)

002. INCORPORATION BY REFERENCE.

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Board. The Idaho Board of Scaling Practices. (7-1-21)

02. Check Scaling. The comparison of scaling practices between a Board-appointed check scaler and any other scaler. (7-1-21)

03. Combination Log. Any multiple-segment log involving more than one (1) product classification. (7-1-21)

04. Complaint. A written statement alleging a violation of the Idaho Scaling Law, Title 38, Chapter 12, Idaho Code. (7-1-21)

05. Complainant. A person or entity who submits a complaint to the Board. (7-1-21)

06. Cubic Volume. A log rule that uses cubic feet as its basic unit of measure, determined on the basis of a mathematical formula. (7-1-21)

07. Decimal “C.” A log rule that uses tens of board feet as its basic unit of measure; one (1) decimal “C” equals ten (10) board feet. The Idaho Scribner decimal “C” volumes as listed in the Appendix of the “Idaho Log Scaling Manual.” (7-1-21)

08. Gross Scale. The log rule volume of timber products before deductions are made for defects. (7-1-21)

09. Informal Hearing. Any hearing before the Board of Scaling Practices, as opposed to a formal hearing before a hearing officer designated by the Board. (7-1-21)

10. Log Brands. A unique symbol or mark placed on or in forest products for the purpose of identifying ownership. (7-1-21)

11. Net Scale. The remaining log rule volume of timber products after deductions are made for defects, based on the product classification that is used. (7-1-21)

12. Official Seal. An official seal of the Idaho Board of Scaling Practices is hereby adopted. The seal must be round, of a diameter of at least one and one-half inches (1-1/2”), and so constructed that it may readily be imprinted on paper. (7-1-21)

13. Prize Logs. As described in Section 38-809, Idaho Code. (7-1-21)
14. **Product Classification.** Classification as sawlog, pulp log, or cedar products log for purposes of net scale determination or check scaling. (7-1-21)

15. **Purchaser.** The principal individual, partnership, or corporation entitled to ownership at the first determination of scale for forest products harvested in Idaho. Purchaser also includes the owner of the timber as provided in Section 38-1209(b), Idaho Code. (7-1-21)

16. **Requested Check Scale.** A check scale performed pursuant to Section 820 of these rules. (7-1-21)

17. **Relicense Check Scale.** A check scale requested and scheduled in advance, by a licensed scaler, for purposes of license renewal. (7-1-21)

18. **Routine Check Scale.** A check scale that is not a relicense, temporary permit, or requested check scale. (7-1-21)

19. **Respondent.** The person or entity accused of violating the Idaho Scaling Law, Title 38, Chapter 12, Idaho Code. (7-1-21)

20. **Temporary Permit Check Scale.** A check scale performed pursuant to provisions of Section 240 of these rules. (7-1-21)

21. **Written Scaling Specifications.** A written document provided to the scaler that states the information necessary to scale logs in accordance with a contractual scaling agreement. (7-1-21)

011. -- 049. (RESERVED)

050. **ASSESSMENT.**
In accordance with provisions of Section 38-1209, Idaho Code, the Board is authorized and directed to levy an assessment. (7-1-21)

01. **Purchaser.** The purchaser, as defined in Subsection 010.15, pays the assessment levied by the Board. (7-1-21)

02. **Assessment.** The assessment must be transmitted to the Board on or before the twentieth (20th) day of each month for all timber harvested during the previous month. Forms provided by the Board must be completed and submitted with the assessment. (7-1-21)

03. **Weight.** On forest products harvested and purchased solely on the basis of weight, no levy of assessment is applicable. (7-1-21)

051. -- 059. (RESERVED)

060. **LOG BRANDS.**
In accordance with the provisions of Section 38-808, Idaho Code, the Board is responsible for approval and registration of all log brands. (7-1-21)

01. **Applications.** All applications for log brands or renewals must be submitted and approved prior to use. (7-1-21)

02. **Fees.** Log brand registration, renewal, and transfer of ownership fees are twenty-five dollars ($25) for each log brand. (7-1-21)

061. -- 069. (RESERVED)

070. **PRIZE LOGS.**
In accordance with provisions of Section 38-809, Idaho Code, the Board is responsible for the disposition of prize logs.

(7-1-21)

071. -- 099. (RESERVED)

100. PAYMENT FOR LOGGING OR HAULING.
Provisions of Section 38-1220(b), Idaho Code, govern payment for logging or hauling.

(7-1-21)

01. Gross Scale Determination. Gross scale is determined by the methodology stated in Chapter Two (2) of the “Idaho Log Scaling Manual.”

(7-1-21)

02. Compliance with Gross Scale Determination. Notwithstanding the methodology criteria contained in the “Idaho Log Scaling Manual,” compliance will be determined to have been met when check scale results on gross scale comparisons are within allowable standards of variation as provided in these rules.

(7-1-21)

101. -- 199. (RESERVED)

200. LICENSES.

01. Application Form. Application for a scaling license is made on a form prescribed and furnished by the Board.

(7-1-21)

02. Revocation or Suspension for Incompetency. If check scale results on three (3) occasions in any twelve (12) month period are found unacceptable based on standards of variation established under Section 810, the scaler’s license may be revoked or suspended as provided in Section 38-1218, Idaho Code.

(7-1-21)

201. -- 219. (RESERVED)

220. APPRENTICESHIP CERTIFICATE.

01. General. Is issued at no charge to those individuals with no previous scaling experience who wish to practice scaling techniques in view of becoming a licensed scaler.

(7-1-21)

02. Procedure to Obtain Certificate. After submitting the application form, a candidate will be required to take the written examination. Upon passing the written examination, the Apprenticeship Certificate will then be issued.

(7-1-21)

03. Regulations Governing Use of Certificate. The apprentice is authorized to scale only under the direct supervision of a licensed scaler. The scale determined by the apprentice will, under no circumstances, be used as the sole basis for payment.

(7-1-21)

221. -- 239. (RESERVED)

240. TEMPORARY PERMIT.

01. General. Is issued for a period of time, not to exceed three (3) months, to individuals with previous scaling experience who need to scale for commercial purposes.

(7-1-21)

02. Procedure to Obtain. Submit the application form; remit the required twenty-five dollar ($25) fee; submit a letter from the employer requesting the temporary permit and identifying where the permittee would be scaling; take and pass the written portion of the scaler’s examination, and demonstrate practical scaling abilities in the form of an acceptable check scale.

(7-1-21)

03. Regulations Governing Use of Temporary Permit.

a. Permits expire the date of the next practical examination in the area or three (3) months from the date of issuance, whichever comes first. The scale determined by the holder of a temporary permit may be used as a
basis for payment. 

b. Should the holder of a temporary permit fail to appear to take the practical portion of the scaler’s examination after being notified in writing of the time and place of said examination, the temporary permit will be canceled. 

c. Temporary permits will not be issued to applicants or relicenses who have failed the practical examination two (2) or more times until thirty (30) days following the individual’s last exam failure. 

241. -- 259. (RESERVED) 

260. SPECIALTY LICENSE. 

01. General. Is issued to handle situations where the applicant would not be required to possess the exacting skills needed to scale sawlogs. 

02. Procedure to Obtain. Submit the application form, remit the required twenty-five dollar ($25) fee, submit a letter from the employer describing scaling that would justify the issuance of a specialty license, and successfully complete the examination as may be devised by the Board. 

03. Regulations Governing Use of Specialty License. The holder is only allowed to scale the products specified on the individual’s license. 

261. -- 279. (RESERVED) 

280. STANDARD LICENSE. 

01. General. Is issued to individuals who demonstrate competency in scaling principles and techniques. 

02. Procedure to Obtain. Submit the application form, remit the required twenty-five dollar ($25) fee, and take and pass the examination as described under Section 300. 

03. Regulations Governing Use of Standard License. The holder is qualified to scale all species and products. 

281. -- 299. (RESERVED) 

300. STANDARD LICENSE EXAMINATION. 
To be taken by all persons applying for the standard license. 

01. Written Examination. 

a. Will be based upon Chapters 1, 2, and 3 of the “Idaho Log Scaling Manual.” 

b. Any score of seventy percent (70%) or better is a passing grade. 

c. The written test must be taken and passed before the practical examination can be attempted. 

02. Practical Examination. 

a. The practical examination for a scaler’s license will consist of scaling a minimum of not less than two hundred (200) logs with a net decimal “C” scale determination for sawlogs of not less than twenty thousand (20,000) board feet, or not less than fifteen thousand (15,000) board feet in the southeast Idaho area. 

b. The logs will first be scaled by three (3) qualified check scalers, except the southeast Idaho area.
will be two (2) or more qualified check scalers, and the agreed-upon results will be the basis for grading the examination.

To obtain a passing grade, a scaler must be within allowable limits of variation in the following categories:

<table>
<thead>
<tr>
<th>CATEGORY</th>
<th>ALLOWABLE VARIATION</th>
</tr>
</thead>
</table>
| Gross Volume | For logs in round form +/- 2.0%  
               For logs in fractional or slab form +/- 5.0% |
| Net Volume | Check scale percent of defect on logs checked  
           Up to 10 +/- 2.0%  
           10.1 to 15 +/- 3.0%  
           15.1 to 20 +/- 0.2% for each percent of defect  
           Over 20 +/- 5.0% |
| Species identification errors | 3.0% |

301. -- 399. (RESERVED)

400. RENEWAL OF STANDARD AND SPECIALTY LICENSES.
For scalers who hold “Standard” and “Specialty” licenses, the process for renewal will consist of the following.

01. To Renew a License by the Expiration Date. Receive an acceptable check scale performed by a Board check scaler and pay renewal fee of twenty-five dollars ($25).

02. To Renew a License Within Two Years After The Expiration Date:

a. Request and receive an acceptable check scale performed by a Board check scaler. When the check scale is unacceptable, the individual is required to reapply for the standard license.

b. Pay renewal fee of twenty-five dollars ($25).

03. To Renew a License More Than Two Years After The Expiration Date. An individual is required to reapply for the standard license.

04. Option to a Check Scale for Standard License Renewal. A practical examination successfully completed may be used in-lieu-of a check scale for renewal.

05. Option to a Check Scale for Specialty License Renewal. An examination as may be devised by the Board may be used in-lieu-of a check scale for renewal of specialty licenses.

401. -- 499. (RESERVED)

500. METHOD OF SCALING FOREST PRODUCTS FOR COMMERCIAL PURPOSES.

01. Scribner Decimal “C”. Log scaling by the Scribner decimal “C” method must be made according to scaling practices and procedures described in the “Idaho Log Scaling Manual” and Sections 501 through 504 of these rules.

02. Cubic Volume. Log scaling by a cubic volume method must be made according to scaling practices and procedures agreed upon in writing between parties to a scaling agreement.
03. **Other Scaling Methods.** Log scaling by any method other than Scribner decimal “C” or cubic volume will be considered and determined by the Board upon written request. (7-1-21)

501. **GROSS VOLUME CONVERSIONS.**

01. **Conversion to Gross Decimal “C” or Gross Cubic Volume.** Gross volume measurement determined in a manner other than decimal “C” or cubic volume will be converted to an equivalent decimal “C” or cubic volume gross scale. (7-1-21)

02. **Conversion Factors.** Measurement procedures and converting factors described in the Special Situations Measurement section, Chapter Two (2) of the “Idaho Log Scaling Manual,” may be used to express decimal “C” board foot equivalents. (7-1-21)

03. **Other Conversion Factors.** Measurement procedures and converting factors not listed in the “Idaho Log Scaling Manual” will be considered and determined by the Board upon written request. (7-1-21)

502. **GENERAL SCALING REQUIREMENTS.**

01. **Written Scaling Specifications.** At any scaling site, licensed scalers will be provided with a written document that states the information necessary to scale logs in accordance with a contractual scaling agreement. (7-1-21)

02. **Recording Measurements on Scale Tickets.** For each log scaled, scalers must record a combination of data from which both gross and net volume can be derived. This data includes scaling length and scaling diameter(s). (7-1-21)

03. **Load Identification.** Scalers must ensure that all loads are readily identifiable upon completion of scaling. (7-1-21)

503. **GROSS DECIMAL “C” SCALE DETERMINATION.**
Contractual scaling agreements relating to determination of Scribner decimal “C” gross scale may not establish any scaling requirement that differs from those stated in the “Idaho Log Scaling Manual” except for a minimum top diameter that may be smaller than five and fifty-one hundredths inches (5.51”) actual measure. Licensed scalers will be provided with written scaling specifications that denote any minimum top diameter that is smaller than five and fifty-one hundredths inches (5.51”) actual measure. (7-1-21)

504. **NET DECIMAL “C” SCALE DETERMINATION.**
Contractual scaling agreements relating to determination of Scribner decimal “C” net scale may establish scaling requirements that differ from those stated in the “Idaho Log Scaling Manual.” Licensed scalers will be provided with written scaling specifications that clearly describe any changes in net scale scaling practices. (7-1-21)

505. -- 799. **(RESERVED)**

800. **CHECK SCALING PROCEDURES.**

01. **Valid Check Scale.** (7-1-21)

a. Check scaling requires a minimum of fifty (50) logs containing a decimal “C” gross scale of at least ten thousand (10,000) board feet. When other methods of measurement are used, the check scaler will investigate the situation and determine the most logical method of check scaling. (7-1-21)

b. Check scaling will be performed without scaler’s knowledge, when possible. (7-1-21)

c. Check scales are performed only on logs that are in the same position as presented to the scaler. (7-1-21)
d. Check scales will not be performed if the logs are not spread adequately enough, in the check scaler’s discretion, to allow for accurate scaling. If these conditions arise, the check scaler makes a written report describing the conditions and surrounding circumstances. The Board will make a decision as to the disposition of these conditions and direct the check scaler accordingly. (7-1-21)

e. The check scaler must use the written scaling specifications that have been provided to the scaler. In the absence or omission of written scaling specifications, logs will be check scaled according to scaling methodology stated within the “Idaho Log Scaling Manual.” (7-1-21)

02. Cooperative Scaling. Cooperative scaling involves two (2) scalers, using different scaling specifications, working together to determine the log scale volume. In these instances, each scaler is individually responsible for the scale recorded. (7-1-21)

03. Team Scaling. Team scaling is two (2) scalers, using the same scaling specifications, working together to determine the log scale volume. In these instances, both scalers are responsible for the scale recorded, except that if one (1) of the individuals is an apprentice scaler, the licensed scaler is responsible for the scale recorded. (7-1-21)

04. Holding Check Scale Log Loads. All log loads involved in an unacceptable check scale will be held at the point of the check scale until such time as the logs have been reviewed with the scaler, or for a period up to forty-eight (48) hours. (7-1-21)

a. During this period the load(s) may not be moved or tampered with in any way. (7-1-21)

b. The Board’s check scaler will mark all loads that must be held, and notify the scaler and landing supervisors respectively. (7-1-21)

801. -- 809. (RESERVED)

810. CHECK SCALING STANDARDS OF VARIATION.

01. Allowable Limits of Variation. To determine a check scale as acceptable or unacceptable for Board consideration, and when the method of measurement is the Coconino Scribner decimal C log rule, a scaler must be within allowable limits of variation in the following categories:

<table>
<thead>
<tr>
<th>CATEGORY</th>
<th>ALLOWABLE VARIATION</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Gross Volume</strong></td>
<td></td>
</tr>
<tr>
<td>For logs in round form</td>
<td>+/- 2.0 percent</td>
</tr>
<tr>
<td>For logs in fractional or slab form</td>
<td>+/- 5.0 percent</td>
</tr>
<tr>
<td><strong>Net Volume</strong></td>
<td></td>
</tr>
<tr>
<td>Check scale percent of defect on logs checked</td>
<td>+/- 2.0 percent</td>
</tr>
<tr>
<td>Sawlogs</td>
<td></td>
</tr>
<tr>
<td>Up to 10</td>
<td>+/- 3.0 percent</td>
</tr>
<tr>
<td>10.1 to 15</td>
<td>+/- 0.2 percent for each percent of defect</td>
</tr>
<tr>
<td>15.1 to 20</td>
<td>+/- 5.0 percent</td>
</tr>
<tr>
<td>Over 20</td>
<td></td>
</tr>
<tr>
<td>Pulp Logs</td>
<td>+/- 5.0 percent</td>
</tr>
<tr>
<td>Cedar Product Logs</td>
<td>+/- 8.0 percent</td>
</tr>
<tr>
<td>Species Identification Errors</td>
<td>3.0 percent</td>
</tr>
<tr>
<td>Product Classification Errors</td>
<td>3.0 percent</td>
</tr>
</tbody>
</table>
02. **Combination Logs.** For purposes of determining product classification errors, combination logs are counted as one-half (1/2), one-third (1/3), one-fourth (1/4) -- depending on the number of scaling segments -- to arrive at a piece or log count variation. Combination logs will be considered only when provided for in a contractual scaling agreement or written scaling specifications. (7-1-21)

03. **Check Scales Involving Multiple Variations.** Some check scales will involve more than one (1) parameter of variation. The overall allowable limit of variation to determine acceptability or unacceptability of the total gross or net scales is determined by the following formula:

\[
OAV = \frac{a \times E + b \times F + c \times F}{D + E + F}
\]

- **OAV** = overall allowable percentage variation
- **A** = allowable percentage variation for gross/net sawlog scale
- **B** = allowable percentage variation for gross/net pulp log scale
- **C** = allowable percentage variation for gross/net cedar products scale
- **D** = check scaler’s gross/net sawlog scale
- **E** = check scaler’s gross/net pulp log scale
- **F** = check scaler’s gross/net cedar products log scale

(7-1-21)

811. -- 819. (RESERVED)

820. **REQUESTED CHECK SCALE.**
A check scale may be performed upon request of any individual, company, or corporation. (7-1-21)

01. **Submission of Request.** (7-1-21)
   a. The request must be in writing and approved by the Board’s executive director. (7-1-21)
   b. The request must be made by a party directly affected and involve disputes on scaling. (7-1-21)

02. **Cost of a Requested Check Scale.** The fee is two hundred dollars ($200) for each day, or part of a day, that the check scaler is scaling the logs. (7-1-21)

821. -- 829. (RESERVED)

830. **CHECK SCALE REPORT.**

01. **Check Scale Results.** The check scaler will make a report of his findings to the Board. (7-1-21)

02. **Persons Entitled to a Copy of the Check Scale Report.** (7-1-21)
   a. Persons directly affected and entitled to a copy of the check scale report on temporary permits and relicensure check scales are the scaler and the scaler’s employer(s). (7-1-21)
   b. Persons directly affected and entitled to a copy of the check scale report on routine and requested check scales include the scaler, the scaler’s employer(s), the scaler’s supervisor(s), the logging contractor(s), or other persons directly affected by the check scale report as determined by the Board’s executive director. (7-1-21)

831. -- 909. (RESERVED)

910. **INFORMAL HEARINGS -- SCOPE AND AUTHORITY.**
Sections 910 through 980 apply to all informal hearings before the Board. These rules are adopted pursuant to Sections 38-1208 and 67-5201, et seq., Idaho Code, and are intended to facilitate the Board in executing its duties and responsibilities under Title 38, Chapter 12, Idaho Code. These rules are construed to effectuate the intent of the legislature in adopting the Idaho Scaling Law in a reasonable, fair and expeditious manner.

911. -- 919. (RESERVED)

920. COMPLAINTS.
   01. Submittal of Complaint. Is submitted in writing in the name of the primary complainant.
   02. Contents of Complaint. Must state:
      a. The name and address of the person or entity actually aggrieved;
      b. A short and plain statement of the nature of the complaint, including the location and date of the alleged violation;
      c. The complainant’s notarized signature;
      d. The complainant must submit written or documentary evidence in support of the alleged violation; and
      e. In the case of a gross scale complaint, which alleges violations of Section 38-1220(b), Idaho Code, the complainant must also provide a readable copy of the contract, payment slips, and scale tickets for each transaction involved in the alleged complaint.

921. -- 929. (RESERVED).

930. RESPONSE TO COMPLAINT.
   01. Response. The respondent must submit to the Board a written response to the allegations of the complaint, with supporting evidence, within thirty (30) days after receiving a copy of the same from the Board. The Board will presume that the respondent received such complaint and evidence within three (3) days after mailing by the Board, unless the respondent submits evidence to the contrary to the Board.
   02. Consideration of Complaint. The Board will consider a complaint in its next meeting following the timely response of the respondent or the respondent’s failure to respond within the time limit of Subsection 930.01.

931. ACCESS TO RECORDS.
The Board will provide to the respondent or his counsel a copy of the complaint and any supporting evidence to which the respondent does not have access, at the earliest date after the Board has received the same. The Board will provide the complainant or his counsel a copy of any answer or response and supporting evidence thereof to which the complainant does not have access, at the earliest date after the Board has received the same.

932. -- 939. (RESERVED).

940. CONDUCT OF INFORMAL HEARINGS.
   01. Hearing Procedure. The chairman of the Board will minimize, where possible, the use or application of formal court rules of procedure and evidence in the spirit of an informal hearing consistent with the intent of these rules, fairness to the parties, and the interests of justice.
   02. Statements. The complainant and the respondent may make a brief statement concerning the allegation(s) and may introduce new evidence in support of or in opposition to the allegation(s). Statements must be
concise, specific, relevant to the allegation(s), and limited to ten (10) minutes per party, unless the specific allegation(s) as determined by the chairman clearly requires greater time to address the same. (7-1-21)

  03. Questions Directed to the Board. All questions at the hearing are directed to the Board. The Board will consider written or oral questions from the complainant or respondent at the hearing or take such questions under advisement. (7-1-21)

  04. Questions Asked by the Board. Only the Board may ask questions of the complainant or respondent and may call witnesses. (7-1-21)

  05. Representation by Counsel. The complainant and the respondent may be represented by counsel. (7-1-21)

941. -- 949. (RESERVED)

950. TIME FOR BOARD DETERMINATION.
After submission of the complaint and supporting documentation for evidence in accord with Section 930, and after an informal hearing on a complaint wherein the parties have had opportunity to respond to these allegations and to present testimony, documentation, or other evidence thereon in accord with Section 940, the Board may thereafter make its determination or take the matter under advisement and reach its determination within thirty (30) days. (7-1-21)

951. -- 959. (RESERVED).

960. FINAL DETERMINATION.
The Board’s determination is final, subject to appeal pursuant to Title 67, Chapter 52, Idaho Code. (7-1-21)

961. -- 969. (RESERVED).

970. BOARD ACTION UPON DETERMINATION OF PROBABLE VIOLATION.
In the event that the Board determines that the complaint and supporting evidence indicate a probable violation of the Idaho Scaling Law, the Board will, within thirty (30) days after that determination, transmit the complaint and supporting documentation to the prosecutor of the county where the violation occurred. (7-1-21)

971. -- 999. (RESERVED).
20.07.02 – RULES GOVERNING CONSERVATION OF OIL AND NATURAL GAS
IN THE STATE OF IDAHO

SUBCHAPTER A – GENERAL PROVISIONS

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authorities of Title 47, Chapter 3, Idaho Code; and Title 67, Chapter 52, Idaho Code.

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 20.07.02, “Rules Governing Conservation of Oil and Natural Gas in the State of Idaho.”

02. Scope. These rules apply to the exploration and extraction of any and all crude oil and natural gas resources in the state of Idaho, not including biogas, manufactured gas, or landfill gas, regardless of ownership.

03. Other Laws. Owners or operators engaged in the exploration and extraction of crude oil and natural gas resources will comply with all applicable laws and rules of the state of Idaho including, but not limited to the following:

a. Idaho water quality standards and waste water treatment requirements established in Title 39, Chapter 1, Idaho Code; IDAPA 58.01.02, “Water Quality Standards”; IDAPA 58.01.16, “Wastewater Rules”; and IDAPA 58.01.11, “Ground Water Quality Rule,” administered by the IDEQ.

b. Idaho air quality standards established in Title 39, Chapter 1, Idaho Code and IDAPA 58.01.01 “Rules for the Control of Air Pollution in Idaho,” administered by the IDEQ.

c. Requirements and procedures for hazardous and solid waste management, as established in Title 39, Chapter 44, Idaho Code, and rules promulgated thereunder including IDAPA 58.01.05, “Rules and Standards for Hazardous Waste”; IDAPA 58.01.06, “Solid Waste Management Rules”; and IDAPA 58.01.10, “Rules Regulating the Disposal of Radioactive Materials Not Regulated Under the Atomic Energy Act of 1954, As Amended,” administered by the IDEQ.

d. Idaho Stream Channel Protection Act, Title 42, Chapter 38, Idaho Code, and rules promulgated thereunder including IDAPA 37.03.07, “Stream Channel Alteration Rules,” administered by the IDWR.

e. Injection Well Act, Title 42, Chapter 39, Idaho Code and rules promulgated thereunder including IDAPA 37.03.03, “Rules and Minimum Standards for the Construction and Use of Injection Wells,” administered by the IDWR.

f. Department of Water Resources – Water Resource Board Act, Title 42, Chapter 17, Idaho Code and rules promulgated thereunder including IDAPA 37.03.06, “Safety of Dams Rules,” administered by the IDWR.

002. ADMINISTRATIVE APPEALS.
Any person aggrieved by any final decision or order of the Commission shall be entitled to judicial review pursuant to the provisions of Title 67, Chapter 52, Idaho Code, Title 47, Chapter 3, Idaho Code, and IDAPA 20.07.01, “Rules of Practice and Procedure before the Idaho Oil and Gas Conservation Commission.”

003. INCORPORATION BY REFERENCE.
The following documents are incorporated by reference into these rules:

03. API SPEC 10a, Specification for Cements and Materials for Well Cementing. The 24th Edition
dated December, 2010 is available at the office of the Idaho Department of Lands at 300 North 6th Street, Suite 103.

04. ASTM D698-07e1, Standard Test Methods for Laboratory Compaction Characteristics of Soil Using Standard Effort (12,400 ft-lbf/ft3 (600 kN-m/m3)). 2007 revision. Available at the office of the Idaho Department of Lands at 300 North 6th Street, Suite 103.

06. ASTM D1557-09, Standard Test Methods for Laboratory Compaction Characteristics of Soil Using Modified Effort (56,000 ft-lbf/ft3 (2,700 kN-m/m3)). 2009 revision. Available at the office of the Idaho Department of Lands at 300 North 6th Street, Suite 103.

004. -- 009. (RESERVED)

010. DEFINITIONS.

01. Act. The Idaho Oil and Gas Conservation Act, Title 47, Chapter 3, Idaho Code.

02. Active Well. A permitted well used for production, disposal, or injection that is not idled for more than twenty-four (24) continuous months.

03. Barrel. Forty-two (42) U. S. gallons at sixty (60) Degrees F at atmospheric pressure.

04. Blowout. An unplanned sudden or violent escape of fluids from a well.

05. Blowout Preventer. A casinghead control equipped with special gates or rams that can be closed and sealed around the drill pipe, or that otherwise completely closes the top of the casing.

06. Bonus Payment. Monetary consideration that is paid by the lessee to the lessor for the execution of an oil and gas lease.

07. Casing Pressure. The pressure within the casing or between the casing, tubing, or drill pipe.

08. Casinghead. A metal flange attached to the top of the conductor pipe that is the primary interface for the diverter system during drilling out for surface casing.

09. Casinghead Gas. Any gas or vapor, or both, indigenous to an oil stratum and produced from such stratum with oil.

10. Common Source of Supply. The geographical area or horizon definitely separated from any other such area or horizon and which, or from competent evidence appears to contain, a common accumulation of oil or gas or both. Any oil or gas field or part thereof which comprises and includes any area which is underlaid, or which from geological or other scientific data or experiments or from drilling operations or other evidence appears to be underlaid by a common pool or accumulation of oil or gas or both oil and gas.

11. Completion. An oil well is considered completed when the first new oil is produced through
12. **Conductor Pipe.** The first and largest diameter string of casing to be installed in a well. This casing extends from land surface to a depth great enough to keep surface waters from entering and loose earth from falling in the hole and to provide anchorage for the diverter system prior to setting surface casing.  

13. **Cubic Foot of Gas.** The volume of gas contained in one (1) cubic foot of space at a standard pressure base and a standard temperature base. The standard pressure base shall be fourteen and seventy-three hundredths (14.73) pounds per square inch absolute and the standard temperature base shall be sixty (60) Degrees F.  

14. **Day.** A period of twenty-four (24) consecutive hours from 8 a.m. one day to 8 a.m. the following day.  

15. **Development.** Any work that actively promotes bringing in production.  

16. **Director.** The head of the Idaho Department of Lands and secretary to the Oil and Gas Conservation Commission, or his designee.  

17. **Drilling Logs.** The recorded description of the lithologic sequence encountered in drilling a well, and any electric, gamma ray, geophysical, or other logging done in the hole.  

18. **Fresh Water.** All surface waters and those ground waters that are used, or may be used in the future, for drinking water, agriculture, aquaculture, or industrial purposes other than oil and gas development. The possibility of future use is based on hydrogeologic conditions, water quality, future land use activities, and social/economic considerations.  

19. **Gas-Oil Ratio.** The volume of gas produced in standard cubic feet to each barrel of oil or condensate produced concurrently during any stated period.  

20. **Gas Processing Facility.** A facility that conditions liquids or gas by compression, dehydration, refrigeration, or by other means.  

21. **Gas Well.**  
   a. A well that produces primarily natural gas;  
   b. Any well capable of producing gas in commercial quantities and also producing oil from the same common source of supply but not in commercial quantities; or  
   c. Any well classed as a gas well by the Commission for any reason.  

22. **Geophysical or Seismic Operations.** Any geophysical method performed on the surface of the land utilizing certain instruments operating under the laws of physics respecting vibration or sound to determine conditions below the surface of the earth that may contain oil or gas and is inclusive of, but not limited to, the preliminary line survey, the acquisition of necessary permits, the selection and marking of shot-hole locations, necessary clearing of vegetation, shot-hole drilling, implantation of charge, placement of geophones, detonation and backfill of shot-holes, and vibroseis.  

23. **Hydraulic Fracturing, or Fracing.** A method of stimulating or increasing the recovery of hydrocarbons by perforating the production casing and injecting fluids or gels into the potential target reservoir at pressures greater than the existing fracture gradient in the target reservoir.  

24. **Inactive Well.** An unplugged well that has no reported production, disposal, injection, or other permitted activity for a period of greater than twenty-four (24) continuous months, and for which no extension has been granted.
25. **Intermediate Casing.** The casing installed within the well to seal intermediate zones above the anticipated bottom hole depth. The casing is generally set in place after the surface casing and before the production casing.

26. **Junk.** Debris in a hole that impedes drilling or completion.

27. **Lease.** A tract(s) of land that by virtue of an oil and gas lease, fee or mineral ownership, a drilling, pooling or other agreement, a rule, regulation or order of a governmental authority, or otherwise constitutes a single tract or leasehold estate for the purpose of the development or operation thereof for oil or gas or both.

28. **Mechanical Integrity Test.** A test designed to determine if there is a significant leak in the casing, tubing, or packer of a well.

29. **Oil Well.** Any well capable of primarily producing oil in paying quantities, but not a gas well.

30. **Pit.** Any excavated or constructed depression or reservoir used to contain reserve, drilling, well treatment, produced water, or other fluids at the drill site. This does not include enclosed, mobile, or portable tanks used to contain fluids.

31. **Pollution.** Constituents of oil, gas, salt water, or other materials used in oil and gas extraction, occurring in fresh water supplies at levels that exceed the standards in IDAPA 58.01.02, “Water Quality Standards,” and IDAPA 58.01.11, “Ground Water Quality Rules,” as a result of the drilling, casing, treating, operation or plugging of wells.

32. **Pressure Maintenance.** The injection of gas, water, or other fluids into oil or gas reservoirs to maintain pressure or retard pressure decline in the reservoir for the purpose of increasing the recovery of oil or other hydrocarbons therefrom.

33. **Produced Water.** Water that is produced along with oil or gas.

34. **Production Casing.** The casing set across the reservoir interval and within which the primary completion components are installed.

35. **Proppant.** Sand or other materials used in hydraulic fracturing to prop open fractures.

36. **Release.** Any unauthorized spilling, leaking, emitting, discharging, escaping, leaching, or disposing into soil, ground water, or surface water.

37. **Spud.** To start the drilling process by removing rock, dirt, and other sedimentary material with the drill bit.

38. **Surface Casing.** The first casing that is run after the conductor pipe to anchor blow out prevention equipment and seals out fresh water zones.

39. **Surface Water.** Rivers, streams, lakes, and springs when flowing in their natural channels.

40. **Systems Approach.** The disclosure of chemical information by chemical abstract service name only, without disclosing component percentages or chemical relationships.

41. **Tank.** A concrete, metal, or plastic stationary vessel used to contain fluids.

42. **Tank Battery.** One (1) or more tanks that are connected to receive crude oil, condensate, or produced waters from a well(s) and that serves as the point of collection and disbursement of oil or gas from a well(s).
Tank Dike. An impermeable man-made structure constructed around a tank to contain leakage from the tank.

Tubing. Pipe used inside the production casing to convey oil or gas from the producing interval to the surface.

Volatile Organic Compound. Organic chemical compounds whose composition makes it possible for them to evaporate under normal indoor atmospheric conditions of sixty-eight (68) degrees F and an absolute pressure of fourteen point seven (14.7) psi atmospheric.

Waterflooding. The injection into a reservoir through one (1) or more wells with volumes of water for the purpose of increasing the recovery of oil therefrom.

Well Report. The written record progressively describing the strata, water, oil, or gas encountered in drilling a well with such additional information as to give volumes, pressures, rate of fill-up, water depths, caving strata, casing record, etc., as is usually recorded in normal procedure of drilling; also, it includes electrical radioactivity, or other similar logs run, lithologic description of all cores, and all drill-stem tests, including depth-tested, cushion-used, time tool open, flowing and shut-in pressures and recoveries.

Well Site. The areas that are directly disturbed during the drilling and subsequent operation of, or affected by production facilities directly associated with, any oil well, gas well, or injection well, and its associated well pad.

Well Treatment. Actions performed on a well to acidize, fracture, or stimulate the target reservoir.

Wildcat Well. An exploratory well drilled in an area of unknown subsurface conditions.
015. **PROTECTION OF CORRELATIVE RIGHTS.**
The Commission and the Department should afford a reasonable opportunity to each person entitled thereto to recover or receive the oil or gas in such person’s tract(s) or the equivalent thereof, without being required to drill unnecessary wells or to incur other unnecessary expense to recover or receive such oil or gas or its equivalent.

016. -- 019. (RESERVED)

020. **APPLICABILITY.**

01. **Oil and Gas Development.** These rules apply to oil and gas development and carry out the Commission’s duty to prevent waste, protect correlative rights, and prevent pollution of fresh water supplies through activities authorized by these rules.

02. **Exclusions.** These rules do not apply to the exploration and development of other mineral resources covered by Title 47, Chapter 13, Idaho Code; Title 47, Chapter 15, Idaho Code; or Title 42, Chapter 40, Idaho Code.

021. **CLASS II INJECTION WELLS.**
Class II injection wells, as described in IDAPA 37.03.03, “Rules and Minimum Standards for the Construction and Use of Injection Wells,” are currently not authorized under this rule. Permits for Class II injection wells must be obtained through IDAPA 37.03.03.

022. -- 029. (RESERVED)

030. **NOTICES - GENERAL.**

01. **Written Authorization Required.** Any written notice of intention to do work or to change plans previously approved must be filed with the Department, unless otherwise directed, and must be approved before the work is begun. Such approval may be given orally and, if so given, shall thereafter be confirmed by the Department in writing. Written notices may be submitted to the Department by e-mail or facsimile.

02. **Emergency Authorization.** In case of emergency, or a situation where operations might be unduly delayed, any written notice required by these rules and regulations to be given the Department may be given orally or by wire and if approval is obtained, the transaction shall be confirmed in writing, as a matter of record.

03. **Publication of Legal Notices.** Whenever these rules require a legal notice to be published in a newspaper, the notice must be published once a week for two (2) consecutive weeks.

031. **FORMS.**
The Department will adopt such forms of notices, requests, permits, and reports as it may deem advisable or necessary in carrying out the provisions of law and its rules.

032. **ORGANIZATION REPORTS.**

01. **Required Content.** Before any person engages in any activity covered by the statutes and rules of the Commission, that person must file an organization report with the Department. The organization report must
include the following information: (7-1-21)

a. The person’s name and the type of the business being operated or conducted; (7-1-21)

b. The mailing address to which all correspondence from the Department is to be sent; (7-1-21)

c. The telephone number(s), facsimile number(s), and e-mail address(es) for which contact by the Department may be made; (7-1-21)

d. The names of persons authorized to submit required forms, reports, and other documents to the Department; and (7-1-21)

e. If a legal entity, proof the person is authorized to transact business within the state. (7-1-21)

02. Updates. A supplementary report must be filed with the Department within thirty (30) days of any change to facts stated in a previously-filed organization report. (7-1-21)

033. DESIGNATION OF AGENT.
A “Designation of Agent” must be submitted to the Department in a manner and form approved by the Department prior to the commencement of operations. A Designation of Agent(s) will be accepted as authority of agent to fulfill the obligations of the owner and to sign any papers or reports required under these oil and gas operating regulations, and all authorized orders or notices given by the Department when given in the manner hereinafter provided will be deemed service of such orders or notices upon the owner and the lessee. All changes of address and any termination of the agent’s authority must be immediately reported in writing to the Department and, in the latter case, the designation of a new agent(s) must be immediately made. If the designated agent(s) is at any time incapacitated for duty or absent from the address provided, the owner must designate in writing a substitute to serve in his or their stead, and in the absence of such owner or of notice of appointment of a substitute then, in such case, notices may be given by the Department by delivering a registered letter to the United States Post Office at Boise, Idaho, directed to the agent(s) at the address shown on the current Designation of Agent on file in the Department’s office, and such notice will be deemed service upon the owner and lessee. (7-1-21)

034. -- 039. (RESERVED)

040. PUBLIC COMMENT.
Applications submitted under Sections 100, 200, 210, 230 and 330 of these rules will be posted on the Department’s website for a fifteen-day (15) written comment period. The Department will also send an electronic copy of the application to the respective county, and city if applicable, where the proposed operation is located. The purpose of the comment period is to receive written comments on whether a proposed application complies with these rules. These comments will be considered by the Department prior to permit approval or denial. Relevant comments will be posted on the Department’s website following the comment period. (7-1-21)

041. -- 049. (RESERVED)

050. ENFORCEMENT.
The Department enforces these rules pursuant to Section 47-325, Idaho Code. (7-1-21)

051. -- 099. (RESERVED)

SUBCHAPTER B – EXPLORATION AND DEVELOPMENT

100. GEOPHYSICAL OPERATIONS.

01. Permit Required. Before beginning seismic operations in the state of Idaho, a representative of the client company and the seismic contractor will meet with the staff of the Department, file an application for a permit to conduct seismic operations, and pay an application fee. No seismic operation may be conducted without such a permit. The Department has discretion to waive the requirement of the pre-permit meeting for the client company. The permit for seismic operations may be revoked or suspended or the application for the permit denied by the
Department for failure to comply with the Commission’s rules, statutes, and orders. The Department may revoke, suspend, or deny the application for a seismic permit without a hearing; provided that the seismic contractor will be given an opportunity for a hearing at the next regularly scheduled Commission meeting. The fact that a permit is revoked or suspended does not excuse the seismic contractor or client company from properly plugging existing seismic holes but does prohibit the person(s) from drilling any more. The application for a permit for seismic operations must include:

a. The proposed route of the seismic line on a topographic or recent air photo base map at a sufficient scale to show roads, buildings, surface waters, and Section, Township, and Range lines. The map must also show additional area as needed for any alternative routing. The alternative routing must be within at least one-half (1/2) mile of the proposed route. Reapplication must be made if the final route strays from the proposed route and outside the designated alternative routing areas; and

b. The energy sources proposed to be used for the seismic operation, such as vibroseis, shot holes, surface shot, or others.

c. The approximate number, depth, and location of the seismic holes and the size of the explosive charges. The application must be accompanied by a map with a scale of one inch equaling two (2) miles that shows the depth and location of the shotholes.

d. The name and permanent address of the client company the Department may contact about the seismic operation.

e. The name, permanent address, and phone number of the seismic contractor and his local representative whom the Department may contact about the seismic activity.

f. The name, phone number, and permanent address of the hole plugging contractor, if different from the seismic contractor.

g. A detailed description of the hole plugging procedures, and a description of the surface reclamation procedures, if such reclamation is needed.

h. The anticipated starting date of seismic operations.

i. The anticipated completion date of seismic operations, and the anticipated date of any required reclamation or hole plugging.

j. A description of the identifying mark that will be on the hat or nonmetallic plug to be used in the plugging of the seismic hole.

02. Operating Requirements. All geophysical operations must comply with the following requirements:

a. All vehicles utilized by the permit holder, or its agents or contractors, shall be clearly identified by signs or markings utilizing letters or numbers, or a combination thereof, a minimum of three (3) inches in height and one-half (1/2) inch wide, indicating the name of such agent.

b. No seismic source generation from vibroseis, shot holes, surface shot, or other method shall be conducted within two hundred (200) feet of any residence, water well, oil well, gas well, injection well or other structure without having first secured the express written authority of the owner(s) thereof and the permit holder shall be responsible for any resulting damages.

c. Written authority from the owner of a residence, water well, oil well, gas well, injection well or other structure must also be obtained from the owner(s) if any explosive charge exceeds the maximum allowable charge within the scaled distance below:
The maximum allowable charge weight is twenty-five (25) pounds, unless the permit holder requests and secures the prior written authorization from the Department.

All seismic sources placed for detonation shall contain additives to accelerate the biodegradation thereof and shall be handled with due care in accordance with industry standards. The cap leads for any seismic sources that fail to detonate shall be buried at least three (3) feet deep.

All vegetation cleared to the ground shall be cleared in a competent and workmanlike manner in the exercise of due care.

Unless otherwise consented to by the surface owner in writing, permit holder shall not cut down any tree measuring six (6) inches or more in diameter, as measured at a height of three (3) feet from the ground surface, unless there are no reasonable alternatives to the removal of such tree(s) available to permit holder. Permit holder shall compensate surface owner the value of all such trees.

All excessive rutting or soil disturbances shall be repaired or restored to the original condition and contour to the extent reasonable, unless otherwise agreed to by the permit holder and the surface owner in writing.

All fences removed shall be replaced, unless otherwise agreed to by the permit holder and the surface owner in writing.

All debris associated with the seismic activity shall be removed and properly disposed.

Before beginning geophysical operations, the geophysical contractor must file and have approved by the Department a bond in the amount of at least ten thousand dollars ($10,000). The Department may increase this bonding requirement for geophysical contractors based on the amount of potential damage from the contemplated operation. The condition of such bond shall comply with the Act, the rules and orders of the Commission, and orders of the Department. The obligation of the bond shall not be discharged until one (1) year from completion of the survey or until the geophysical contractor has complied with the Oil and Gas Conservation Law, the Commission’s rules, and the orders of the Commission and the Department.

Persons or other entities who engage in the plugging of seismic holes and are not a regular full-time employee of the seismic company, owner, or operator shall have posted with the director a surety bond in favor of the Department. Said bond shall be on a form prescribed by the Department and in the amount of five thousand dollars ($5,000). The condition of the bond shall comply with the Oil and Gas Conservation Law and the regulations and

orders of the Commission and the Department.

04. Newspaper Notice. Before a geophysical contractor conducts the geophysical operation, the contractor shall publish a legal notice in a newspaper of general circulation in the county where the survey will be conducted. The notice shall state the nature and approximate time period of the seismic operations. These requirements do not apply to operations conducted within a well or conducted by aerial surveys.

05. Owner and Occupant Notification. No entry shall be made by any person to conduct seismic operations, upon the lands where such seismic operations are to be conducted, without the permit holder having first given notice at least thirty (30) calendar days prior to commencement of field seismic operations.

a. The notice shall be in writing and given either personally or by certified United States mail to the following persons:

i. Surface owners reflected in the tax records of the counties where the lands are located, at the mailing addresses identified for such surface owners in such records;

ii. Occupants residing on the lands who are not the surface owners, if it can be reasonably ascertained that there are such occupants; and

iii. Owners or operators of oil and gas wells within the seismic survey area, as reflected in Department records.

b. The notice shall contain the following:

i. Name of the person or entity that is conducting the seismic operations;

ii. Proposed location of the seismic operations; and

iii. Approximate date the person or entity proposes to commence seismic operations.

06. Department Notifications.

a. The permit holder shall also notify the Department within five (5) business days of the commencement and completion of each seismic operation.

b. Before beginning geophysical operations other than seismic operations, the geophysical contractor shall file a notice of intention to do so with the Department. Said notice shall describe the geophysical method to be used and be accompanied by a map of a scale of one (1) inch equals two (2) miles showing the location of the project.

07. Reports and Notices Required.

a. Activity Report. Upon completion of the seismic activity or at thirty (30) day intervals after the work has commenced, whichever occurs first, the seismic contractor shall file with the Department a report of the completion or progress of the seismic project. The final completion report shall be in affidavit form and shall include a seven and one-half (7 1/2) - or fifteen (15) minute United States Geological Survey topographic quadrangle map (at a scale of one (1) inch equals two thousand (2,000) feet or one (1) inch equals four thousand (4,000) feet that shows section, township, and range) and the location of each survey so that the shotholes and other potential impacts can be easily located. The final completion report shall also include a statement that all work has been performed in compliance with the application for a permit to perform seismic activity, Section 100 of these rules, and permit provisions. Said maps, applications, and reports shall be kept confidential by the Department for a period of one (1) year from the date of receipt, subject to the needs of the Department to use them to enforce these regulations, the Act, and the orders of the Commission or the Department. Also, the owner of the surface of the land may be advised of the location of seismic lines or seismic holes on his land and of the exploration method used.

b. Plugging Notice. Seismic contractors shall give the Department at least twenty-four (24) hours
advance notice of shothole plugging operations, provided that notice of plugging operations planned for Sunday or Monday may be given on the previous Friday. (7-1-21)

08. Client-Contractor Responsibility. The client company may be held responsible along with the seismic contractor for conducting the operation in compliance with the Commission’s rules and orders, the Department’s orders, and the Act for the seismic contractor’s failure to comply with such rules, statutes, and orders. The hats used in the plugging of seismic holes shall be imprinted with the name of the contractor responsible for the plugging of the hole. (7-1-21)

09. Plugging. Unless the seismic contractor can prove to the satisfaction of the Department that another method will provide better protection to ground water and long-term land stability, seismic shothole operations shall be conducted in the following manner:

a. When water is used in conjunction with the drilling of seismic shotholes and artesian flow is not encountered at the surface, seismic holes are to be filled with a high grade bentonite/water slurry mixture. Said slurry shall have a density that is at least four percent (4%) greater than the density of fresh water; said slurry shall also have a Marsh funnel viscosity of at least sixty (60) seconds per quart. Density and viscosity are to be measured prior to adding cuttings to the slurry. Cuttings not added to the slurry are to be disposed of in accordance with Paragraph 100.09.f. of this rule. Any other suitable plugging material commonly used in the industry may be substituted for the bentonite/water slurry as long as the physical characteristics of said substitute are at least comparable to those of the bentonite/water slurry. Between November 1 and May 1, coarse ground bentonite approved by the Department shall be used as a plugging material. (7-1-21)

b. The hole will be filled with the slurry from the bottom up to a depth of three (3) feet (three (3) feet below ground level). A nonmetallic plug will be set at this depth of three (3) feet, and the remaining hole will be filled and tamped to the surface with cuttings and native soil. (7-1-21)

c. When drilling with air and nonartesian water is encountered, the hole shall be plugged with the slurry mixture, or coarse ground bentonite, as specified in Paragraph 100.09.a., supra. (7-1-21)

d. When drilling with air only and in completely dry holes, plugging may be accomplished by returning the cuttings to the hole, tamping the returned cuttings to the above-referenced depth of three (3) feet, and setting the permaplug topped with more cuttings and soil as per Paragraph 100.09.b. above. A small mound will be left over the hole for settling allowance. Auger holes twenty (20) feet or less in depth may be plugged in this same manner. (7-1-21)

e. The foregoing seismic holes shall be properly plugged and abandoned as soon as practical after the shot has been fired; however, a shot hole shall not be left unplugged for more than thirty (30) days without approval of the Department. (7-1-21)

f. Any slurry, drilling fluid, or cuttings which are deposited on the surface around the seismic hole will be raked or otherwise spread out to at least within one (1) inch of the surface, so that the growth of the natural grasses or foliage will not be impaired. (7-1-21)

g. The requirements of Paragraphs 100.09.a. through 100.09.f. of this rule may be modified by any reasonable written agreement between the seismic company and the surface owner. (7-1-21)

h. If artesian flow (water flowing at the surface) is encountered in the drilling of any seismic hole, cement will be used to seal off the water flow thereby preventing cross-flow, erosion, and/or contamination of freshwater supplies. Said holes shall be cemented immediately. (7-1-21)

i. After completing the plugging of seismic shot holes and spreading the cuttings as required by this rule, the seismic contractor shall record the GPS location of the seismic hole, and the contractor shall provide the location data to the Department. (7-1-21)

10. Forfeiture of Geophysical Exploration Bond. The Department may forfeit the bond submitted under Subsection 100.03 of this rule upon failure of the owner or operator to conduct the seismic survey and complete
reclamation in conformance with Section 100 of this rule. The owner or operator will be given an opportunity to address compliance issues prior to the Department taking action against the bond.  

101. -- 199. (RESERVED)

**SUBCHAPTER C – DRILLING, WELL TREATMENT, AND PIT PERMITS**

**200. PERMIT TO DRILL, DEEPEN, OR PLUG BACK.**

**01. Permits Required.** Prior to the commencement of operations to drill, deepen, or plug back to any source of supply other than the existing producing horizon, application shall be delivered to the Department of intention to drill, deepen, or plug back any well for oil or gas, and approval obtained.  

**02. Fees.** An application fee must accompany each application for permit to drill, deepen, or plug back. No service fee is required for a permit to deepen or plug back in a well for which the fee has been paid for permit to drill unless the drilling permit has expired.  

**03. Time Required to Commence Operations; Term of Permit.** On the first anniversary of the date of issuance of a permit to drill, deepen, or plug back, said permit will expire and be of no further force or effect, unless the work for which the permit was issued has been started. Prior to the anniversary date, the owner or operator may apply for a one-time, six-month extension if work has not started. If conditions have not changed and no changes to the permit are requested, the extension may be approved by the Department. If a permit expires due to the failure to commence operations, then reapplication is required prior to commencing operations.  

**04. Application.** The Application for Permit to Drill shall include a Department approved form and the following:

a. An accurate plat showing the location of the proposed well with reference to the nearest lines of an established public survey.

b. The location of the nearest structure with a water supply, or the nearest water well as shown on the IDWR registry of water rights or well log database.

c. Information on the type of tools to be used and the proposed logging program.

d. Proposed total depth to which the well will be drilled, estimated depth to the top of the important geologic markers, and the estimated depth to the top of the target formations.

e. The proposed casing program, including size and weight thereof, the depth at which each casing type is to be set.

f. The type and amount of cement to be used, and the intervals cemented.

g. Information on the drilling plan.

h. Best management practices to be used for erosion and sediment control.

i. Plan for interim reclamation of the drill site after the well is completed, and a plan for final reclamation of the drill site following plugging and abandonment of the well. These plans must contain the information needed to implement reclamation as described in Subsection 310.16 and Section 510 of these rules.

j. Applications that include the following actions must also provide the information from the respective Section of these rules:

i. Well treatments require the submittal of the information in Section 210.
ii. Pit construction and use requires the submittal of the information in Section 230. (7-1-21)

iii. Directional or horizontal drilling requires the submittal of the information in Section 330. (7-1-21)

k. Any other information which may be required by the Department based on site specific reasons. (7-1-21)

05. Permit Denial. Applications may be denied for the following reasons:

a. Application fee was not submitted. (7-1-21)

b. Application is incomplete. (7-1-21)

c. Failure to post required bonds. (7-1-21)

d. Proposed well will result in a waste of oil or gas, a violation of correlative rights, or the pollution of fresh water supplies. (7-1-21)

201. MULTIPLE ZONE COMPLETIONS.

01. Requirements of the Owner or Operator; Request for Approval. A multiple zone completion may be approved by the Department upon application by the owner or operator and payment of an application fee, as herein provided. The application shall be accompanied by an exhibit showing the location of wells on applicant’s lease and all offset wells on leases, and shall set forth all material facts involved and the manner and method of completion proposed, including a diagrammatic sketch of the mechanical installation of the proposed well. The application fee may not exceed that required by Subsection 200.02 of these rules. Notice of the filing of such application shall be given by the applicant by mailing to each offset operator a notice containing a full description of the proposed completion for which approval is requested, and proof of mailing such notice shall be made by affidavit, which shall be attached to the application showing names and addresses of those to whom notice was mailed. (7-1-21)

02. Conditions for Approval; Cause for Hearing. In the event the Department is in agreement with the application and that no offset operator files a written objection to the application with the Department within fifteen (15) days of the date of the offset operator’s receipt of application, the application shall be approved as an amendment to the drilling permit. If any offset operator shall file in writing with the Department an objection to such multiple completion, or if the Department is not in agreement with the application, the matter shall be immediately set for hearing and Notice of Hearing duly given by the Department. (7-1-21)

03. Zone Effectiveness; Requirement for Production Testing. The Department may require such tests as necessary to determine the effectiveness of the segregation of the different productive zones. (7-1-21)

04. Commingling Production. The Department may require that oil or gas from multiple zones be produced through different sets of tubing, if needed to protect correlative rights or to prevent waste. (7-1-21)

202. -- 209. (RESERVED)

210. WELL TREATMENTS.

01. Application Required. An Application for Permit to Drill required by Section 200 must include any plans for well treatment if they are known before the well is drilled. If well treatments are not covered in the original drilling permit, then an application to amend the permit must be made to the Department with an application fee. Approval by the Department is required prior to the well treatments being implemented. Actions to clean the casing or perforations not in excess of pressures sufficient to overcome the fracture gradient in the surrounding formation are not considered to be well treatments, but operators must notify the Department when such actions occur. Applications for well treatments must include the permit number, well name, well location, as-built description if drilling has been completed, and the following: (7-1-21)
a. Depth to perforations or the openhole interval;  

b. The source of water or type of base fluid;  

c. Additives, meaning any substance or any combination of substances including proppant, having a specified purpose that is combined with base treatment fluid by trade name, if available, and MSDS for each additive;  

d. Type of proppant(s);  

e. Anticipated percentages by volume and total volumes of base treatment fluid, individual additives, and proppant(s);  

f. Estimated pump pressures;  

g. Method and timeline for the management, storage, and disposal of well treatment fluids, including anticipated disposal site of treatment fluids or plans for reuse;  

h. Size and design of storage pits, if proposed, in conformance with Section 230 of these rules;  

i. Information specific to hydraulic fracturing as described in Section 211 of these rules;  

j. Summary identifying all water bearing zones from the surface down to the bottom of the well;  

k. Fresh water protection plan that describes the proposed site specific measures to protect water quality from activities associated with well treatments. The Department will review this plan in consultation with the IDEQ. The Fresh Water Protection Plan shall include the following information:  

i. Ground water and storm water best management practices;  

ii. Statement certifying that the owner or operator is complying with Spill Prevention, Control, and Countermeasures (SPCC) requirements administered by the EPA;  

iii. A preconstruction topographic site map or aerial photos identifying all habitable structures, wells, perennial and intermittent springs, surface waters, and irrigation ditches within one-quarter (1/4) mile of the oil or gas well. The distance or location may be changed based on site specific factors such as horizontal drilling, the expected length of fractures, or lack of suitable water sample locations within one-quarter (1/4) mile;  

iv. A brief description of the structural geology that may influence ground water flow and direction;  

v. The general hydrogeological characteristics of the treatment area and surrounding land.  

l. Certification by the owner or operator that all aspects of the well construction, including the suitability and integrity of the cement used to seal the well, are designed to meet the requirements of proposed well treatments;  

m. Affidavit signed by the owner or operator stating that all home owners and water well owners within one-quarter (1/4) mile of the oil or gas well, and all owners of a public drinking water system that have a IDEQ recognized source water assessment or protection area within one-quarter (1/4) mile of the oil or gas well, have been notified of the proposed treatment. If a well deviates from the vertical, these surface distances will be from the entire length of the wellbore from the surface to total depth. The notification will also offer an opportunity to have the owner or operator sample and test the water, at the owner or operator’s cost, prior to and after the oil or gas well being treated. Notification shall be by certified mail to the surface owner as identified by the county assessor’s records, or to
the well owner as identified on the IDWR registry of water rights or well log database; (7-1-21) T

n. Proof of publication in a newspaper of general circulation in the county where the well is located of a legal notice briefly describing the well treatment to be performed. Notice shall also advise all water well or public drinking water system owners, as described in Paragraph 210.01.m. of these rules, of the opportunity to have their water tested at the owner’s or operator’s cost before and after the well treatment; and (7-1-21) T

o. Additional information as required by the Department. (7-1-21) T

02. Master Drilling/Treatment Plans. Where multiple stimulation activities will be undertaken for several wells proposed to be drilled in the same field within an area of geologic similarity, approval may be sought from the Department for a comprehensive master drilling/treatment plan containing the information required. The approved master drilling/treatment plan must then be referenced on each individual well’s Application for Permit to Drill. (7-1-21) T

03. Application Denial. The Department may deny well treatment applications for one (1) or more of the following reasons: (7-1-21) T

a. Application does not contain the information in Subsection 210.01 of these rules; (7-1-21) T

b. Application fee was not submitted. (7-1-21) T

c. Proposed treatment will result in a waste of oil or gas, a violation of correlative rights, or the pollution of fresh water supplies. (7-1-21) T

04. Time Limit. If a treatment approved in a drilling permit or amended drilling permit is not started within one (1) year of the approval of the well treatment, the well treatment permit will expire and reapplication will be required prior to conducting the well treatment. Prior to the anniversary date, the owner or operator may apply for a six-month (6) extension. If conditions have not changed, and no changes to the permit are requested, the extension may be approved by the Department. (7-1-21) T

05. Inspections. The Department may conduct inspections prior, during, and after well treatments. (7-1-21) T

06. Reporting Requirements. A report on the well treatment must be submitted within thirty (30) days of the treatment. The report shall present a detailed account of the work done and the manner in which such work was performed, including: (7-1-21) T

a. The daily production of oil, gas, and water both prior to and after the operation. (7-1-21) T

b. The size and depth of perforations. (7-1-21) T

c. Percentages by volume and total volumes of base treatment fluid, individual additives, and proppant(s). This requirement can be met by the submittal of well completion field tickets if they contain this information. (7-1-21) T

d. Documentation demonstrating the chemicals used in the well treatment have been reported to the website www.fracfocus.org, its successor website, or another publicly accessible database approved by the Department. The chemical information must be reported in a systems approach. (7-1-21) T

e. Information specific to hydraulic fracturing, as described in Section 211 of these rules. (7-1-21) T

f. Static pressure testing results before and after the well treatment. (7-1-21) T

g. The amounts, handling, and if necessary, disposal at an identified appropriate disposal facility, or reuse of the well stimulation fluid load recovered during flow back, swabbing, and/or recovery from production facility vessels. Reporting of recovered fluids shall be included with other monthly production reports required by the
Department. Storage of such fluid shall be protective of ground water as demonstrated by the use of either tanks or authorized lined pits as described in Section 230 of these rules. (7-1-21)

h. Any other information related to operations which alter the performance or characteristics of the well. (7-1-21)

07. Fresh Water Protections for Well Treatments. (7-1-21)

a. The Department will not authorize pits, lagoons, ponds, or other methods of subsurface storage for treatment fluids within IDEQ recognized source water assessment or protection areas for public drinking water systems. Owners or operators must store and transport treatment fluids using above ground storage facilities and tanker trucks for well treatments in these locations. (7-1-21)

b. The Department will not authorize well treatments to create fractures within five hundred (500) vertical feet above or below fresh water aquifers. (7-1-21)

c. The Department shall require the owner or operator to complete fresh water monitoring at the owner’s or operator's cost before and after a well treatment unless the Department, in consultation with the IDEQ, determines that the proposed treatment does not pose a threat of pollution to fresh waters. The Department will review and approve all monitoring proposals with the IDEQ. The monitoring will be done using representative existing water wells or surface waters within one-quarter (1/4) horizontal mile of the treated well. For wells that deviate from the vertical, sampling may be required within one-quarter (1/4) horizontal mile of the wellbore’s projected location on the surface. If no water wells or surface waters are present in this area, the sampling area may be enlarged as needed with approval by the Department. If the Department determines that existing water wells are not representative of the ground waters that could be impacted, then the Department may require the owner or operator to install one (1) or more ground water monitoring wells at the owner’s or operator’s cost. The owner or operator must obtain consent from appropriate property owners to gain access prior to any sampling or well construction. When monitoring is required by the Department, the operator will prepare a monitoring plan that includes the following: (7-1-21)

i. Location of proposed monitoring sites; (7-1-21)

ii. Construction details of any sampled or constructed wells including total well depth, depth of screened interval(s), screen size, and drilling log. For existing wells, the operator must make every reasonable attempt to locate this information; (7-1-21)

iii. When possible, data from the existing wells collected within the last five (5) years and analyzed in a state or EPA certified drinking water lab; (7-1-21)

iv. List of proposed analytes, testing methods, and their detection limits; (7-1-21)

v. Additional tests such as stable isotopic analysis; and (7-1-21)

vi. Pre-treatment sampling and analysis when no relevant data exists, and a schedule for post-treatment sampling and analysis. (7-1-21)

d. The owner or operator will provide the Department with copies of any analysis or reports within thirty (30) days of samples being taken. All samples must be analyzed in a state or EPA certified drinking water lab. (7-1-21)

e. Pollution of fresh water supplies due to a well treatment is a violation of these rules and Title 47, Chapter 3, Idaho Code. (7-1-21)

211. HYDRAULIC FRACTURING.

01. Application Requirements. In addition to the information required by Subsection 210.01 of this rule, the owner or operator shall provide the following application information regarding hydraulic fracturing: (7-1-21)
a. The geological names and descriptions of the formation into which well stimulation fluids are to be injected; (7-1-21)

b. Detailed information on the base stimulation fluid source. For each stage of the well stimulation program, provide the chemical additives and proppants and concentrations or rates proposed to be mixed and injected, including:

i. Stimulation fluid identified by additive type (such as but not limited to acid, biocide, breaker, brine, corrosion inhibitor, crosslinker, demulsifier, friction reducer, gel, iron control, oxygen scavenger, pH adjusting agent, proppant, scale inhibitor, surfactant); (7-1-21)

ii. The chemical compound name and Chemical Abstracts Service (CAS) number as found on the previously submitted MSDS shall be identified (such as the additive biocide is glutaraldehyde, or the additive breaker is ammonium persulfate, or the proppant is silica or quartz sand, and so on for each additive used); (7-1-21)

iii. The proposed rate or concentration for each additive and the total volume of each shall be provided (such as gel as pounds per thousand gallons, or biocide at gallons per thousand gallons, or proppant at pounds per gallon, or expressed as percent by weight or percent by volume, or parts per million, or parts per billion); and (7-1-21)

iv. The formulary disclosure of the chemical compounds used in the well stimulation(s) for the purpose of protecting public health and safety. (7-1-21)

c. A detailed description of the proposed well stimulation design that shall include:

i. The anticipated surface treating pressure range; (7-1-21)

ii. The maximum injection treating pressure, which shall be within accepted safety limits. Accepted safety limits are generally eighty percent (80%) of the maximum pressure rating of the pressurized system; (7-1-21)

iii. The estimated or calculated fracture height in both the horizontal and vertical directions. (7-1-21)

02. Volatile Organic Compounds and Petroleum Distillates. The injection of volatile organic compounds, such as benzene, toluene, ethyl benzene and xylene, also known as BTEX compounds, or any petroleum distillates into ground water in excess of the applicable groundwater quality standards is prohibited. Volatile organic compounds or petroleum distillates may be appropriate as additives, but they are not appropriate for use as the base fluids. The proposed use of volatile organic compounds or any petroleum distillates for well stimulation into hydrocarbon bearing zones may be authorized with prior approval of the director. Water that is produced with oil and gas, and which may contain small amounts of naturally occurring volatile organic compounds or petroleum distillates, may be used as well stimulation fluid in hydrocarbon bearing zones. (7-1-21)

03. Well Integrity. Prior to the well stimulation, the owner or operator will perform a suitable mechanical integrity test of the casing or of the casing-tubing annulus or other mechanical integrity test methods and submit an affidavit certifying that the well was tested in anticipation of proposed treatment pressures. The owner or operator will notify the Department of this test twenty (20) to twenty-four (24) hours in advance. (7-1-21)

04. Pressure Monitoring. During the well stimulation operation, the owner or operator shall monitor and record the annulus pressure at the casinghead. If intermediate casing has been set on the well being stimulated, the pressure in the annulus between the intermediate casing and the production casing shall also be monitored and recorded. If the annulus pressure increases by more than five hundred (500) psi gauge as compared to the pressure immediately preceding the stimulation, the owner or operator shall verbally notify the Department as soon as practicable but no later than twenty-four (24) hours following the incident. (7-1-21)

05. Post Treatment Report. In addition to the information required by Subsection 210.06 of this rule, the owner or operator shall provide the following post-treatment reporting: (7-1-21)
a. The actual total well stimulation treatment volume pumped; (7-1-21)T
b. The actual surface pressure and rate at the end of each fluid stage and the actual flush volume, rate and final pump pressure; (7-1-21)T
c. The instantaneous shut-in pressure, and the actual fifteen (15) minute and thirty (30) minute shut-in pressures when these pressure measurements are available; (7-1-21)T
d. A continuous record of the annulus pressure during the well stimulation; (7-1-21)T
e. A copy of the well stimulation service contractor’s job log, without any cost/pricing data from the field ticket, in lieu of paragraphs (a) through (d) above. If the job log does not contain all the needed information, it must be supplemented with additional information needed to satisfy Paragraphs 211.05.a. through 211.05.d. of this rule. (7-1-21)T
f. A report containing all details pertaining to any annulus pressure increases of more than five hundred (500) psi gauge as described in Subsection 211.04 of this rule. The report shall include corrective actions taken, if necessary. (7-1-21)T
g. Results of post treatment fluid analysis used to help determine where the fluid can be disposed. (7-1-21)T

212. -- 219. (RESERVED)

220. BONDING.

01. Individual Bond. The Department shall, except as hereinafter provided, require from the owner or operator a good and sufficient bond in the sum of not less than ten thousand dollars ($10,000) plus one dollar ($1) for each foot of planned well length in favor of the Department. The bond shall be conditioned upon the performance of the owner’s or operator’s duty to comply with the requirements of the Act and the rules of the Commission, with respect to the drilling, maintaining, operating, and plugging of each well drilled for oil and gas and the reclamation of surface disturbance associated with these activities. Said bond shall remain in force and effect until the plugging of said well is approved by the Department and the well site is reclaimed as described in Section 510 of these rules, or the bond is released by the Department. (7-1-21)T

02. Blanket Bond. In lieu of the bond in Subsection 220.01 of this rule, any owner or operator may file with the Department a good and sufficient blanket bond covering all active wells drilled or to be drilled in the state of Idaho. The amount of the blanket bond will be as follows according to the number of active wells covered by the bond:

a. Up to ten (10) wells, fifty thousand dollars ($50,000); (7-1-21)T
b. Eleven (11) to thirty (30) wells, one hundred thousand dollars ($100,000); or (7-1-21)T
c. More than thirty (30) wells, one hundred fifty thousand dollars ($150,000). (7-1-21)T

03. Inactive Well Bond. An owner or operator must provide the Department with a bond of at least ten thousand dollars ($10,000) plus eight dollars ($8) for each foot of planned well length for each inactive well conditioned upon the performance of the duty to comply with the requirements of the Act and the rules of the Commission, with respect to the drilling, maintaining, operating, and plugging of each well drilled for oil and gas. Said bond shall remain in force and effect until the plugging of said well is approved by the Department, or the bond is released by the Department. Inactive wells may not be covered by a blanket bond as provided in Subsection 220.02 of this rule. (7-1-21)T

04. Additional Bonding. The Department may impose additional bonding on an owner or operator given sufficient reason, such as non-compliance, unusual conditions, horizontal drilling, or other circumstances that suggest a particular well or group of wells has potential risk or liability in excess of that normally expected. The
owner or operator may request a hearing to appeal either the decision to impose an additional bond or the proposed amount of the bond.

05. Authorized Bonds. The bond(s) referred to in Section 220 must be by a corporate surety authorized to do business in the state of Idaho or in cash. If cash is used to satisfy the bonding requirements in these rules, interest on the cash will be allocated to the general fund.

221. TRANSFER OF DRILLING PERMITS.
No person to whom a permit has been issued shall transfer the permit to any other location or to any other person until the following requirements have been complied with:

01. Prior to Drilling Well. If, prior to the drilling of a well, the person to whom the permit was originally issued desires to change the location, he shall submit a letter so stating and another application properly filled out showing the new location. Drilling shall not be started until the transfer has been approved and the new permit posted at the new location.

02. During Drilling or After Completion. If, while a well is being drilled or after it has been completed, the person to whom the permit was originally issued disposes of his interest in the well, he shall submit a written statement to the Department setting forth the facts and requesting that the permit be transferred to the person who has acquired the well.

03. Terms for Acceptance of Transfer. Before the transfer of a drilling permit shall be recognized, the person who has acquired the well must submit a written statement setting forth that he has acquired such well and assumes full responsibility for its operation and abandonment in conformity with the law, rules, regulations, and orders issued by the Commission. If bond is required to guarantee compliance with the rules and regulations of the Commission, the person acquiring such well shall furnish bond.

222. -- 229. (RESERVED)

230. PIT REQUIREMENTS.

01. Plans Required. If pits are proposed to be constructed in connection with another permit application required by these rules, then the owner or operator must include plans for pit construction in the application. If a pit is needed after the other permits have been approved, then an application to amend the permit must be made to the Department with an application fee. Approval by the Department is required prior to the pit being constructed unless the pit is necessary for an emergency action. Pit applications must include the permit number, well name, well location, as-built description if drilling has been completed, proposed pit location, and plans for pit construction, operation, and reclamation.

02. Location.

a. Pits must be located where they are structurally sound and the liner systems can be adequately protected against factors such as wild fires, floods, landslides, surface and ground water systems, equipment operation, and public access.

b. Pits located in a one hundred-year floodplain must be in conformance with any applicable floodplain ordinances pertaining to activities within the one hundred-year floodplain.

c. Pits shall not be located within an IDEQ recognized source water assessment or protection areas for public drinking water systems.

03. Site Preparation. All sites must be properly prepared prior to pit construction. Vegetation, roots, brush, large woody debris and other deleterious materials, topsoil, historic foundations and plumbing, or other materials that may adversely affect appropriate construction, must be removed from the footprint of the pit unless approved by the Department.

04. Pit Sizing Criteria.
a. Pits that have constructed berms ten (10) or more feet in height or hold fifty (50) acre-feet or more of fluid must also comply with the dam safety requirements of IDAPA 37.03.06, “Safety of Dams Rules.”

b. Pits must be designed to hold the maximum volume of fluids being used for drilling or well treatment and the volume of water associated with a one hundred-year, twenty-four-hour precipitation event.

c. Snowmelt events shall be considered in determining the containment capacity.

d. Pits that are left over winter must be able to contain one hundred twenty-five percent (125%) of the average annual precipitation that falls from October through May.

e. Pits must be designed to maintain a minimum two (2) foot freeboard at all times. Contingency plans for managing excesses of fluids shall be described in the application. At no time shall fluids in a pit be allowed to escape from the impoundment.

05. Minimum Plans and Specifications for Reserve, Well Treatment, and Other Short Term Pits.

Pits used for one (1) year or less, not including extensions, are short term pits. Construction plans and specifications for short term pits must include the requirements under Subsections 230.02 through 230.04 of this rule and the following:

a. A prepared subbase, which shall be free of plus three (3) inch rocks, roots, brush, trash, debris or other deleterious materials, and compacted to ninety-five percent (95%) of Standard Proctor Test ASTM D698-07e1 or ninety-five percent (95%) of Modified Proctor Test ASTM D1557-09;

b. Slopes of two (2) feet horizontal to one (1) foot vertical (2H:1V) or flatter for all interior and exterior pit walls. The top of a bermed pit wall must be a minimum of two (2) feet wide;

c. A primary liner system consisting of a synthetic liner of at least twenty (20) mils thickness and constructed according to manufacturers’ standards with at least four (4) inches of welded seam overlap and complete coverage on the floor and inside walls of the pit. Seams must run parallel to the line of maximum slope so they do not traverse across the slope. The liner edges shall be anchored in a compacted earth filled trench at least eighteen (18) inches in depth. The liner must be protected against cracking, sun damage, ice, frost penetration or heaving, wildlife and wildfires, and damage that may be caused by personnel or equipment operating in or around these facilities. Liner compatibility shall comply with EPA SW-846 method 9090A. Alternative liner systems with similar standards may be proposed by the owner or operator and approved at the Department’s discretion;

d. Minimum factors of safety, and the logic behind their selection, for the stability of the earthworks and the lining system of the pit;

e. Site-specific methods for excluding people, terrestrial animals, and avian wildlife from the pits;

f. Segregation and stockpiling of topsoil in a manner that will support reestablishment of the pre-disturbance land use after pit closure; and

g. A closure plan including the following:

i. Testing of residual fluids and any accumulated solids, if anything other than water based drilling fluid was placed in the pit;

ii. Plans for removal and disposal of residual fluids and accumulated solids, with the liner material, at an appropriate facility;

iii. Regrading plan, replacement of topsoil, and erosion control measures; and
iv. Reseeding and Revegetation. 

06. Minimum Plans and Specifications for Long Term Pits. Pits used for more than one (1) year, not including extensions, are long term pits. Construction plans and specifications for long term pits must include the requirements under Subsections 230.02 through 230.05 of this rule and the following:

a. A quality control/quality assurance construction and installation plan;

b. Type of fluids to be contained in the pit;

c. Secondary containment synthetic liners, which shall have a minimum thickness of sixty (60) mils consisting of HDPE and a maximum coefficient of permeability of $10^{-9}$ cm/sec, or comparable liners approved by the Department;

d. Leak detection and collection systems. The plans and specifications shall:

   i. Provide a material between primary and secondary containment synthetic liners to collect, transport and remove all fluids that pass through the primary containment synthetic liner at such a rate as to prevent hydraulic head from developing on the secondary containment synthetic liner to the level at which it may be reasonably expected to result in discharges through the secondary containment synthetic liner;

   ii. Provide routines and schedules for the evaluation of the efficiency and effectiveness of the removal of fluids from the layer placed between primary and secondary containment synthetic liners. The properly working system shall continually relieve head pressures on the secondary containment synthetic liner;

   iii. Provide specific triggers for maintenance routines, which shall be initiated in response to inadequate performance of primary or secondary containment synthetic liners; and

   iv. Specify operation and maintenance procedures, which shall be initiated in response to inadequate performance of primary and secondary containment or leak detection and collection systems.

e. All piping, including that contained in the leak detection and collection system, shall have a minimum wall thickness of PVC Schedule 80 and be designed to:

   i. Withstand chemical attack from oil field waste or leachate;

   ii. Withstand structural loading from stresses and disturbances from cover materials or equipment operation; and

   iii. Facilitate clean-out and maintenance.

f. Protections for the liner from excessive hydrostatic force or mechanical damage at the point of discharge into, or suction from, the pit. External discharge or suction lines shall not penetrate the liner;

g. Plans for erosion control during and immediately following construction; and

h. Operating and maintenance plans.

07. Time Limits for Short Term Pits. Reserve, well treatment, and other short term pits must be closed out and reclaimed within one (1) year of being constructed. The owner or operator may request a one-time extension for up to six (6) months. The Department may grant the request if the owner or operator gives sufficient cause and presents a plan for ensuring that the pit is adequately monitored and maintained.

   a. Fluids may be left in a pit for up to six (6) months after the associated well activities are conducted. The owner or operator may request a one-time extension for up to one (1) year. The Department may grant the request if the owner or operator gives sufficient cause and presents a plan for keeping the fluids in a usable state.
b. Notwithstanding the above time limits, the owner or operator may request additional time based upon conditions wholly outside of the owner’s or operator’s control including, but not limited to, governmental lease requirements and delays related to difficult drilling conditions. The Department may impose additional construction or monitoring requirements prior to granting additional time. (7-1-21)

08. Emergency Pits. Pits constructed during an emergency situation may be approved by an after-the-fact application submitted to the Department. The requirements in Subsections 230.02 through 230.05 of this rule shall apply, and the pit must be closed out and reclaimed within six (6) months of being constructed. The Department must be notified within twenty-four (24) hours of an emergency situation requiring an emergency pit. (7-1-21)

09. Operating Requirements. (7-1-21)

a. Waste oil, hydraulic fluid, transmission fluids, trash, or any other miscellaneous waste products must not be disposed of in a pit. Placement of these materials into a pit may result in the creation of a mixed waste that requires handling and disposal as a hazardous waste. (7-1-21)

b. If a pit liner’s integrity is compromised, or if any penetration of the liner occurs above the liquid’s surface, then the owner or operator shall notify the appropriate Department area office within forty-eight (48) hours of the discovery and repair the damage or replace the liner. (7-1-21)

c. If a pit or closed-loop system develops a leak, or if any penetration of the pit liner occurs below the liquid’s surface, then the owner or operator shall remove all liquid above the damage or leak line within forty-eight (48) hours, notify the appropriate Department area office within forty-eight (48) hours of the discovery, and repair the damage or replace the pit liner. (7-1-21)

d. The owner or operator shall install, or maintain on site, an oil absorbent boom or other device to contain and remove oil from a pit’s surface. Visible oil must be removed from short term pits immediately following the cessation of activity for which the pit was constructed. Visible oil must be removed from long term pits as soon as it is discovered. (7-1-21)

10. Closure of Pits. (7-1-21)

a. The owner or operator shall remove all liquids from the pit prior to closure and dispose of them at an appropriate facility or reuse them at a different location. If the nature of the fluids has substantially altered during their use, then the fluids must be sampled and tested to determine which disposal facility can accept them. (7-1-21)

b. Any solids that have been accumulated in the bottom of the pit will be tested to determine which disposal facility can accept the material. The solid material and liner will then be removed and disposed of at an appropriate facility. (7-1-21)

c. The owner or operator must notify the Department at least forty-eight (48) hours prior to removal of the pit liner so an inspection may be conducted. (7-1-21)

d. The pit foundation will be inspected for signs of leakage. If evidence of leakage is observed, the owner or operator must contact the Department and the IDEQ within twenty-four (24) hours and report the type of fluids released and the estimated extent of release. The owner or operator must then remediate the site in conformance with the applicable standards administered by IDEQ in IDAPA 58.01.02,” Water Quality Standards,” Sections 850 through 852. (7-1-21)

e. After addressing any pit leakage concerns, the owner or operator shall perform the activities described in Subsections 510.04 through 510.08 of these rules. (7-1-21)

11. Condemnation Due to Improper Impoundment. The Department shall have authority to condemn any pit that does not properly impound fluids and order the disposal of such fluids in conformance with IDAPA 58.01.16, “Wastewater Rules,” and other applicable rules. (7-1-21)

231. -- 299. (RESERVED)
SUBCHAPTER D – WELL SITES AND DRILLING

300. IDENTIFICATION OF WELLS.

01. Signs; Lease Access Roads. To identify all producing leases the owner or operator thereof shall cause a sign to be placed where the principal lease road enters the lease and such sign shall show the name of the lease and the owner or operator thereof and the section, township, and range. (7-1-21)T

02. Signs; Well Sites. Prior to spud activity, a legible sign must be placed near the well to identify the operator, permit number, well name, and emergency telephone number. If a multiple completion, each well head connection shall be identified. (7-1-21)T

301. WELL SITE OPERATIONS.
The owner or operator must conduct all operations and maintain the well site at all times in a safe and workmanlike manner. Best management practices and good housekeeping practices must be used at well sites. (7-1-21)T

01. Fencing. Within sixty (60) days after completion of the well, the owner or operator must install a fence around the well site to maintain safe working conditions, secure the well site, and prevent access by wildlife and livestock. The fence design must be acceptable to both the landowner and owner or operator. (7-1-21)T

02. Storage. All chemicals must be stored and maintained in accordance with the applicable MSDS requirements. Materials related to operations must be palletized where applicable. Vehicles and materials not in use must be removed from the well site. (7-1-21)T

03. Vegetation. All well sites must be kept free of excessive vegetation. (7-1-21)T

04. Trash. All trash, debris, and scrap metal must be removed from the well site. Pending removal, any trash or debris that might constitute a fire hazard shall be removed to a distance of at least one hundred (100) feet from the well location, tanks, and separator. (7-1-21)T

302. ACCIDENTS AND FIRES.
The owner or operator shall take all reasonable precautions to prevent accidents and fires. An emergency response plan will be prepared and available at the well for use or inspection. Coordination with local emergency responders and the Idaho Bureau of Homeland Security is recommended prior to rig set up. The following actions must be taken in event of a release, industrial accident, or fire of major consequence: (7-1-21)T

01. Provide Information to Emergency Response. Emergency workers will be given information on all fluids or chemicals involved in a spill or accident as needed according to OSHA Standard 1910.1200 (Hazard Communication). Nothing in this rule shall authorize any person to withhold information that is required by state or federal law to be provided to a health care professional, a doctor, or a nurse. All information required by a health care professional, a doctor, or a nurse shall be supplied, immediately upon request, by the owner or operator, or their contractors, directly to the requesting health care professional, doctor, or nurse, including the percent by volume of the chemical constituents (and associated CAS numbers) in the fluids and the additives; (7-1-21)T

02. Initiate Spill Response and Corrective Actions. Owner or operator must comply with the requirements of IDAPA 58.01.02, “Water Quality Standards,” Sections 850 through 852; and (7-1-21)T

03. Notify the Department. Notify the Department within twenty-four (24) hours and submit a full report thereon within fifteen (15) days. (7-1-21)T

303. -- 309. (RESERVED)

310. GENERAL DRILLING RULES.

01. General Design Requirements for Casing and Cementing. Casing and cementing programs adopted for wells must be so planned as to protect any potential oil- or gas-bearing horizons penetrated during drilling
from infiltration of injurious waters from other sources, and to prevent the migration of oil or gas from one horizon to another. Owners and operators shall follow the standards for casing and tubing in API SPEC 5CT and the standards for cementing in API SPEC 10A.

02. Wildcat and High-Pressure Conditions. When drilling wildcat territory or in any field where high pressures are likely to exist, the owner or operator shall take all necessary precautions to keep the well under control at all times and shall use proper high-pressure fittings and equipment at the time the well is started. Under such conditions all strings of casings must be securely anchored.

03. High Temperature Conditions. Due to high geothermal gradients in Idaho, the temperature of the return drilling mud shall be monitored daily during the drilling of the surface casing hole and all deeper holes. The owner or operator must use cements appropriate for the temperatures expected or encountered.

04. Conductor Pipe or Casing Requirements. A minimum of forty (40) feet of conductor pipe shall be installed. If geologic conditions are such that forty (40) feet is not feasible, the owner or operator may request a variance from the Department. The annular space is to be cemented solid to the surface. A twenty-four (24) hour cure period for the grout must be allowed prior to drilling out the shoe unless sufficient additives, as determined by the Department, are used to obtain early strength.

05. Surface Casing Requirements.
   a. The Department must be notified in writing seventy-two (72) hours in advance of planned spud activity for surface casing. The Department will post the spud activity notice on its website and send an electronic copy of the notice to the county where the well is located.
   b. Surface casing must be set at a minimum depth equal to ten percent (10%) of the proposed total depth of the well. In areas where pressures and formations are unknown, a minimum of two hundred (200) feet of surface casing shall be set.
   c. Surface casing shall provide for control of formation fluids, protection of fresh water, and for adequate anchorage of blow out prevention equipment. The casing must be seated through a sufficient series of low permeability, competent lithologic units such as claystone, siltstone, basalt, etc., to insure a solid anchor for blow out prevention equipment and to protect usable ground water from contamination. Additional surface casing may be required if the first string has not been cemented through a sufficient series of low permeability, competent lithologic units, or rapidly increasing thermal gradients or formation pressures are encountered.
   d. All surface casing shall be cemented solid to the surface by pump and plug, displacement, or other approved method. When surface samples are cured, additional drilling activities may commence.
   e. The Department must be notified in writing twenty-four (24) hours in advance of planned cementing activity for surface casing. The Department will witness and document all surface casing cementing activities.

06. Requirements for BOP Equipment. Unless altered, modified, or changed for a particular pool(s) upon hearing before the Commission, BOP and related equipment shall be installed and maintained during the drilling of all wells in accordance with the following rules:
   a. BOP equipment installed on wells in which formation pressures to be encountered are abnormal or unknown shall consist of a double-gate, hydraulically operated preventer with pipe and blind rams or two (2) single-ram-type preventers; one (1) equipped with pipe rams, the other with blind rams and an annular type preventer. In addition, upper and lower kelly cocks, pit level indicators with alarms and/or flow sensors with alarms, and surface facilities to handle pressure kicks shall be installed prior to drilling any formation with known abnormal pressure.
   i. Accumulators shall maintain a pressure capacity reserve at all times to provide for operation of the hydraulic preventers and valves with no outside source.
ii. In all other drilling operations, BOP equipment shall consist of at least one (1) double-gate preventer with pipe and blind rams or two (2) single-ram-type preventers, one (1) equipped with pipe rams, the other with blind rams, and sufficient valving to permit fluid circulation at the surface. (7-1-21)T

b. All BOP equipment, choke lines, and manifolds shall be installed above ground level. Casing heads and optional spools may be installed below ground level provided they are visible and accessible. (7-1-21)T
c. BOP equipment and related casing heads and spools shall have a vertical bore no smaller than the inside diameter of the casing to which they are attached. (7-1-21)T
d. The working pressure rating of all BOP and related equipment shall equal or exceed the maximum anticipated pressure to be contained at the surface. (7-1-21)T
e. All ram-type BOP and related equipment, including casing, shall be tested to the full working pressure rating of said equipment upon installation, provided that components need not be tested to levels higher than the lowest working pressure rated component. Annular type BOP and related equipment must be tested in conformance with the manufacturer’s published recommendations. If, for any reason, a pressure seal in the assembly is disassembled, a test to a full working pressure rating of that seal shall be conducted prior to the resumption of any drilling operation. In addition to the initial pressure tests, ram-type BOP shall be checked for physical operation at least once per week and all components, again with exception of the annular-type BOP, tested at least once every twenty-one (21) days to at least fifty percent (50%) of the rated pressure of the BOP equipment and/or to the maximum anticipated pressure to be contained at the surface, whichever is greater. (7-1-21)T
f. The Department will require an affidavit covering the initial pressure tests after installation signed by the owner, operator, or contractor attesting to the satisfactory pressure tests. The Department must be advised at least twenty-four (24) hours in advance of all tests. The Department may inspect and witness all BOP operations and testing. (7-1-21)T
g. A schematic diagram of the BOP and well head assembly shall be submitted to the Department upon application for a permit to drill. The schematic diagram should indicate the minimum size and pressure rating of all components of the well head and BOP assembly. (7-1-21)T
h. Studs on all well head and BOP flanges shall be checked for tightness each week. Hand wheels for locking screws shall be installed and operational, and the entire BOP and well head assembly shall be kept clean of mud and ice. (7-1-21)T
i. A drillstem safety valve shall be available on the rig floor at all times with correct thread for the pipe in use. (7-1-21)T
j. A drillstem float valve shall be installed in bit sub or as close to bit as reasonably possible. (7-1-21)T

07. Intermediate Casing. (7-1-21)T
a. Intermediate casing, if installed, shall be cemented solidly to the surface or to the top of the casing. (7-1-21)T
b. Intermediate casing not run to surface will be lapped into at least one hundred (100) feet of the surface casing, or at least one hundred (100) feet of the next larger casing to provide overlap and secure a seal. (7-1-21)T
c. Such casing shall be cemented and pressure tested before cement plugs are drilled. (7-1-21)T
d. The Department must be notified in writing twenty-four (24) hours in advance of planned cementing activity for intermediate casing. The Department may witness and document all intermediate casing cementing activities. (7-1-21)T
08. **Production Casing; Cementing and Testing Requirements.**

   a. If and when it becomes necessary to run a production casing, such casing shall be cemented and pressure tested before cement plugs are drilled.

   b. The Department must be notified in writing twenty-four (24) hours in advance of planned cementing activity for production casing. The Department may witness and document all production casing cementing activities.

   c. When not run to the surface, production casing will be cemented from the bottom of the hole up into at least one hundred (100) feet of the next larger casing to provide overlap and secure a seal.

   d. If the bottom plug will be drilled out, the open hole interval must be completed to protect any potential oil-bearing or gas-bearing horizons penetrated during drilling from infiltration of injurious waters from other sources, and to prevent the migration of oil or gas from one horizon to another.

09. **Step-off.** An owner or operator may submit to the Department a step-off request to complete a new borehole from surface if a borehole without production casing deviates from vertical plumb by more than five (5) degrees. A step-off borehole must be drilled within the existing pad of the permitted well. The incomplete borehole must be plugged and abandoned in accordance with Section 502 of these rules.

10. **Well Control (Rotary Tools); Reserve Mud Tanks.** When drilling with rotary tools, the owner or operator shall provide, as required by the Department, a reserve mud pit or tank of suitable capacity for the anticipated depth of the well and maintain an on-site supply of mud additives that can raise the mud weight by one (1) pound per gallon in case of loss of well control.

11. **Mud Pits.** Before commencing to drill, proper and adequate mud pits shall be constructed for the reception and confinement of mud and cuttings and to facilitate the drilling operation. Special precautions shall be taken, if necessary, to prevent contamination of fresh waters. These pits must conform to the standards in Section 230 of these rules. If tanks will be used, then mud pits may not be required.

12. **Well Control (Cable Tools); Fluid Containment.** Natural gas or oil which may be encountered in a substantial quantity in any section of a cabletool drilled hole above the ultimate objective shall be shut off with reasonable diligence either by mudding or by casing, or other approved method, and confined to its original source to the satisfaction of the Department. The use of cable tools for drilling activities requires written approval by the Department prior to spud activities. A request to use cable tools must include the following:

   a. Proposed pressure control measures;

   b. Diversion and disposal methods for stray gas;

   c. Safety protocols for mud weights and well controls; and

   d. Annual drill rig safety inspection information, including the date of last replacement of cables, draw works inspection report, and metallurgic report of safety compliance for structural integrity of the drill rig.

13. **Drilling Mud Disposal.** Drilling mud will be disposed of at an appropriate facility in compliance with applicable state and federal requirements.

14. **Report of Water Encountered; Owner’s or Operator’s Duties.** It shall be the duty of any owner or operator drilling an oil or gas well or drilling a seismic, core or other exploratory hole to report to the Department all potential water bearing zones encountered; such report shall be in writing and give the location of the well or hole, the depth at which the zones were encountered, the thickness of such zones, and the rate of flow of water if known. This requirement can be met by the submittal of the logs required in Section 340 of this rule.

15. **Spill Prevention, Control, and Countermeasures Plan.** The owner or operator must have a Spill
Prevention, Control, and Countermeasures Plan in conformance with the requirements of the EPA. This plan must be updated as needed when facilities or activities change.

16. **Interim Drill Site Clean Up.** If a well is completed for production or other purposes, interim reclamation must be completed within six (6) months of the rig being removed. Interim reclamation includes the following activities:

   a. Debris and waste materials including, but not limited to, concrete, sack bentonite and other drilling mud additives, sand, plastic, pipe, and cable associated with the drilling, re-entry, or completion operations shall be removed and disposed of properly.

   b. All disturbed areas affected by drilling or subsequent operations, except areas reasonably needed for production operations or for subsequent drilling operations to be commenced within twelve (12) months, shall be reclaimed and revegetated to approximately the pre-drilling condition or to the condition specified in an agreement with the surface owner. The reclamation standards in Subsections 510.04 through 510.07 of these rules, shall apply.

311. **LOSS OF TOOL WITH RADIOACTIVE MATERIAL.**

   01. **Recovery or Cementing of Tool.** If a gamma ray tool, or some other tool containing radioactive material, becomes lost in a well, the owner or operator shall make every reasonable attempt to retrieve the tool from the well. If the tool cannot be recovered, the owner or operator must immediately cover the tool with cement sufficient to secure it in place and prevent it from contacting any fluids in the well. A whipstock or other approved deflection device shall be placed on top of the cement plug to prevent accidental or intentional mechanical disintegration of the radioactive source.

   02. **Sidetracking.** If the hole is later sidetracked above the radioactive material, the sidetracked hole must be at least fifteen (15) feet from the original hole with the lost radioactive material.

   03. **Reporting.** A report must be sent to the Department and IDEQ within thirty (30) days of cementing the tool. The report must describe the tool that was lost, the depth it was lost at, the specific type and amount of radioactive material in the tool, and an estimate of the length of cement covering the tool. This report may be included in a plugging report if the well will be plugged.

312. **CHOKES.**

All flowing wells shall be equipped with adequate chokes or beans to properly control the flow thereof.

313. **USE OF EARTHEN RESERVOIRS.**

Oil shall not be produced, stored, or retained in earthen reservoirs or in open receptacles.

314. **VACUUM PUMPS PROHIBITED.**

The use of vacuum pumps or other devices for the purpose of placing a vacuum on any gas- or oil-bearing stratum is prohibited; however, the Department may upon application and hearing and for good cause shown permit the use of vacuum pumps.

315. **PULLING OUTSIDE STRINGS OF CASING.**

Casing shall not be recovered if its recovery will expose any abnormal pressure, lost circulation, oil, gas, or water zone. In pulling outside strings of casing from any oil or gas well, the space outside the casing left in the hole shall be kept and left full of mud-laden fluid of adequate specific gravity to seal off all fresh and saltwater strata and any strata bearing oil or gas which is not producing. Casing may not be pulled without first making application to the Department and receiving approval. The application must describe how fresh waters will be protected.

316. -- 319. (RESERVED)

320. **MECHANICAL INTEGRITY TESTING.**

   01. Mechanical Integrity Testing.
a. The mechanical integrity test shall include one (1) of the following tests to determine whether leaks are present in the casing, tubing, or packer:

i. A pressure test with liquid or gas at a pressure of not less than three hundred (300) psi or the minimum injection pressure, whichever is greater, and not more than the maximum injection pressure; or

ii. The monitoring and reporting to the Department, on a monthly basis for sixty (60) consecutive months, of the average casing-tubing annulus pressure, following an initial pressure test; or

iii. In lieu of Subparagraphs 320.01.a.i. and 320.01.a.ii. of this rule, any equivalent test or combinations of tests approved by the Department.

b. The mechanical integrity test shall include one (1) of the following tests to determine whether there are fluid movements in vertical channels adjacent to the well bore:

i. Tracer surveys;

ii. Cement bond log or other acceptable cement evaluation log;

iii. Temperature surveys; or

iv. In lieu of Subparagraphs 320.01.b.i. through 320.01.b.iii. of this rule, any other equivalent test or combination of tests approved by the Department.

c. Mechanical integrity tests shall be performed at the rate of not less than one (1) test every five (5) years, regardless of well status. The first five-year period shall commence on the date the initial mechanical integrity test is performed.

02. Inactive Wells. If, at any time, surface equipment excluding the wellhead is removed or the well becomes incapable of production, a mechanical integrity test shall be performed within thirty (30) days. The mechanical integrity test for an inactive well shall be isolation of the wellbore with a bridge plug or similar approved isolating device set one hundred (100) feet or less above the highest perforations and a pressure test with liquid or gas at a pressure of not less than three hundred (300) psi surface pressure or any equivalent test or combination of tests approved by the Department.

03. Prior Notification. Not less than ten (10) days prior to the performance of any mechanical integrity test required by this rule, any person required to perform the test shall notify the Department, in writing, of the scheduled date on which the test will be performed.

04. Reporting Requirements. Mechanical integrity test results shall be submitted to the Department within thirty (30) days of testing.

05. Mechanical Integrity Required. All wells shall maintain mechanical integrity. All wells that fail a mechanical integrity test, or that are determined through any other means to lack mechanical integrity, shall immediately be investigated by the owner or operator. The well shall be repaired or immediately shut down following the investigation. Repairs shall be completed within six (6) months, or the well shall be plugged and abandoned. If the repair cannot be completed within six (6) months, the owner or operator may request an extension and provide a plan for the repair.

321. -- 329. (RESERVED)

330. WELL DIRECTIONAL CONTROL.

01. General Restrictions; Allowable Deviation. The maximum point at which a well penetrates the producing formation shall not unreasonably vary from the vertical drawn from the center of the hole at the surface. Deviation is permitted without special permission to remedy blowouts and, for short distances, to straighten the hole,
sidetrack junk, or correct other mechanical difficulties.

02. Controlled Directional Drilling. Except for the purposes recited in Subsection 330.01, no well hereafter drilled may be intentionally directionally deviated from the vertical unless the owner or operator thereof shall first file an application and application fee to amend the drilling permit and receive approval from the Department. Such application shall contain the following information:

a. Name and address of the owner or operator.

b. Lease name, well number, name of field and reservoir and county.

c. Description of surface location and proposed location of the producing interval (footage from lease and section or block and survey lines).

d. Reason for intentional deviation.

e. List of offset operators and statement that each has been furnished a copy of the application by registered mail.

f. Signature of representative of owner or operator.

g. Notification to offset operators that any objection they may have to the proposed intentional deviation of the well must be filed with the Department within fifteen (15) days of receipt of a copy of the application.

h. The application shall be accompanied by a neat, accurate plat or sketch of the lease and all offset leases showing the names of all offset operators and the surface and proposed producing interval locations of the well. Plat shall be drawn to a scale which will permit facile observation of all pertinent data.

03. Copy of Application to Offset Operators. At the time the application is filed with the Department, a copy of the application and the plat shall be forwarded by registered mail to all offset operators to the lease on which the well is to be drilled.

04. Department Action. Upon receipt, the Department will hold the application for fifteen (15) days. If objection from any offset operator to the proposed intentional deviation is received within fifteen (15) days of receipt of the application by said operator, or if the Department is not in agreement with the proposed deviation, the application shall be set down for public hearing. If no objection from either an offset operator or the Department is interposed within the fifteen (15) day period, the application shall be approved and permit issued by the Department. If written consent of the offset operator(s) is filed concurrently with the application to drill directionally, the Department may immediately approve the application without waiting fifteen (15) days.

05. Angular Deviation and Directional Survey. Upon completion, a complete angular deviation and directional survey of the well obtained by an approved well surveying company shall be filed with the Department, together with other regularly required reports.

06. Application for Exceptions. In the event the proposed, or final, location of the producing interval of the directionally deviated well is not in agreement with spacing or other rules of the Commission applicable to the reservoir, proper applications shall be made to obtain approval of exceptions to such rules. Such approval shall be granted or denied at the discretion of the Department, and shall be accorded with the same consideration and treatment as if the well had been drilled vertically to the producing interval.

331. -- 339. (RESERVED)

340. WELL COMPLETION/RECOMPLETION REPORT AND WELL REPORT. Within thirty (30) days after the completion of a well drilled for oil or gas, or the recompletion of a well into a different source of supply, or where the producing interval is changed, a completion report shall be filed with the Department, on a form prescribed by the Department. Such report shall include name, number, and exact location of
the well; lease name, date of completion and date of first production, if any; name and depth of hydrocarbon reservoir(s), if a multiple completion, from which well is producing; annulus pressure test; initial production test, including oil, gas, and water, if any; a well report as defined in Section 010; and such other relevant information as the Department may require. (7-1-21)T

341. DRILLING LOGS.

01. Minimum Required Logs. All wells shall have a lithologic log from the bottom of the hole to the top, to the extent practicable. (7-1-21)T

02. Bottom Hole Survey. All wells shall have a bottom hole location survey. (7-1-21)T

03. Cement Bond Log. All wells that are cased and cemented shall have a cement bond log run across the casing. (7-1-21)T

04. Other Logs. If other logs are run, including, but not limited to, resistivity, gamma-neutron log, sonic log, etc., then the owner or operator shall retain a copy regardless of results. (7-1-21)T

05. Log Submittal. The above logs shall be submitted to the Department in paper and digital formats within thirty (30) days of the log being run. If logs were run in color, then the submitted copies shall also be in color. Digital formats must be Tiff and LAS 2.0 or higher. Logs submitted to the Department must have a scale of one (1) inch for correlation logs and five (5) inches for detail logs. (7-1-21)T

342. -- 399. (RESERVED)

SUBCHAPTER E – PRODUCTION

400. PRODUCTION REPORTS.

01. Required Content. An owner or operator must report production on a form created by the Department. Production reports submitted to the Department must include gas quantities sold in thousand cubic feet (mcf), condensate sold in barrel quantities (bbl), oil sold in barrel quantities (bbl), and formational waters produced in barrel quantities (bbl). (7-1-21)T

02. Annual Production Report. By January 31 of each year, an owner or operator must submit to the Department an aggregated report of all hydrocarbons and formational waters produced and sold or disposed of for each well during the previous calendar year. (7-1-21)T

401. MEASUREMENT OF OIL.

The volume of production of oil shall be computed in terms of barrels of clean oil on the basis of meter measurements or tank measurements of oil-level difference made and recorded to the nearest quarter-inch (1/4") of one hundred percent (100%) capacity tables, subject to the following corrections:

01. Correction for Impurities. The percentage of impurities (water, sand, and other foreign substances, not constituting a natural component part of the oil) shall be determined to the satisfaction of the Department, and the observed gross volume of oil shall be corrected to exclude the entire volume of such impurities. (7-1-21)T

02. Temperature Correction. The observed volume of oil corrected for impurities shall be further corrected to the standard volume at sixty (60) Degrees F in accordance with ASTM D-1250-08, Table 7, or any revisions thereof and any supplements thereto, or any close approximation thereof approved by the Department. (7-1-21)T

03. Gravity Determination. The gravity of oil at sixty (60) degrees F shall be determined in accordance with ASTM D-1250-08, Table 5, or any revisions thereof and any supplements thereto approved by the Department. (7-1-21)T
402. MEASUREMENT OF GAS.
Gas Measurement. For computing volume of gas to be reported to the Department, the standard of pressure shall be fourteen point seventy-three (14.73) psi atmospheric, and the standard of temperature shall be sixty (60) Degrees F. All volumes of gas to be reported to the Department shall be adjusted by computation to these standards, unless otherwise authorized by the Department.

403. GAS-OIL RATIO FOR WELL CLASSIFICATIONS.
In the absence of an order by the Commission setting a field-specific oil-gas ratio, a well that produces gas of five thousand (5,000) cubic feet or greater to one (1) bbl of oil at standard temperature and pressure will be classified as a gas well.

404. GAS-OIL RATIO LIMITATION.
01. Waste Prevention; Conditions for Emergency Order. To further prevent waste resulting from the production of wells with inefficient gas-oil ratios, the Department may enter an emergency order temporarily prohibiting the production of oil or gas from all wells in a pool producing both oil and gas when the Department believes that waste may be occurring or is imminent in said pool by reason of the operation of wells with inefficient gas-oil ratios. The order shall specify a date for the hearing described in Subsection 404.02 of these rules. The Department may use information provided by an offset operator or an owner or operator in a common source of supply to determine if waste is occurring.

02. Notice and Cause for Hearing. The Department will notify all offset operators and owners or operators in the common source of supply of the hearing date. A hearing regarding waste due to inefficient gas-oil ratios will held for any of the following reasons:

i. If an emergency order is issued as described in Subsection 404.01 of these rules. The hearing will be scheduled between five (5) and fifteen (15) days after the effective date of the order.

ii. Upon application to the Department from any person with an ownership interest in the common source of supply who believes that waste is occurring due to inefficient oil and gas ratios. The application must include credible evidence of such waste. The hearing shall be held within thirty (30) days of the Department receiving the application.

iii. Prior to an emergency situation and upon its own motion with reasonable cause, the Department may schedule a hearing regarding potential waste due to inefficient gas-oil ratios.

03. Determination of Inefficient Ratios; Power to Limit Production. If the Department after notice and hearing, whether held upon its own motion, upon the application of an interested party, or pursuant to an emergency order entered as hereinafter provided for, shall find that a well(s) in the pool are operating with inefficient gas-oil ratios, and that waste is occurring or is imminent as a result thereof, it shall enter an order limiting the production of oil and gas from said pool to that amount which the pool can produce without waste and in accordance with sound engineering practice. The order shall also limit the amount of oil or gas, or both, that may be produced from any well in the pool, so that each owner or operator is given an opportunity to produce his just and equitable share in the pool in accordance with sound engineering practice.

405. GAS-OIL RATIO SURVEYS AND REPORTS.
Within thirty (30) days following the completion or recompletion of each well producing oil and gas and thereafter as the Department may require, the owner or operator of such well shall make a gas-oil ratio test of such well and the results of such test shall be reported to the Department within twenty (20) days after the test is made. Certain wells may be excepted from this rule by the Department upon written request. Entire fields may be excepted from this rule after notice and hearing.

406. -- 409. (RESERVED)

410. METERS.
01. General Requirements. Meter fittings of adequate size to measure the gas efficiently for the
purpose of obtaining gas-oil ratios shall be installed on the gas vent line of every separator or proper connections made for orifice well tester. Well-head equipment shall be installed and maintained in excellent condition. Valves shall be installed so that pressures can be readily obtained on both casing and tubing.  

02. Visibility. All required meters shall be accessible and viewable by the Department for the purpose of monitoring daily, monthly and/or cumulative production volumes from individual wells.

411. SEPARATORS.
All flowing oil wells must be produced through an adequate oil and gas separator or emulsion treater, provided, however, the director may approve producing wells without a separator or emulsion treater.

412. PRODUCING FROM DIFFERENT POOLS THROUGH THE SAME CASING STRING.
No well shall be permitted to produce either oil or gas from different pools through the same string of casing without first receiving written permission from the Department.

413. GAS UTILIZATION.
After a well is completed and while it is being tested, the owner or operator may flare gas for no more than fourteen (14) days without paying royalties and severance taxes on the flared gas. Under no conditions may gas be flared for more than sixty (60) days after a well is completed or recompleted. Prior to flaring gas, owners or operators must notify the county in which the well is located and all owners of occupied structures within one-quarter (1/4) mile radius of the well. After the owner or operator has tested a well, no gas from such well shall be permitted to escape into the air, and all gas produced therefrom shall be utilized without waste.

414. -- 419. (RESERVED)

420. TANK BATTERIES.
Tank batteries must meet the following requirements.

01. Containment Requirements. All tank batteries consisting of tanks containing produced fluids or crude oil storage tanks or containing tanks equipped to receive produced fluids must be surrounded by tank dikes that meet the following requirements:

a. Tank dikes must be designed to have a capacity of at least one and one-half (1½) times the volume of the largest tank which the dike surrounds.

b. The material used to construct a tank dike and the material used to line the bottom and sides of the containment reservoir must have a maximum coefficient of permeability of 10-9 cm/sec so as to contain fluids and resist erosion. An operator must submit proof of compliance for tank dike liner construction to the Department in the form of a manufacturer’s statement of design or a nuclear density test performed by a third party trained to perform the test.

c. All piping and manmade improvements that perforate the tank dike wall or tank battery floor must be sealed to a minimum radius of twelve (12) inches from the outside edge of the piping or improvement.

d. Valves and quick-connect couplers on tank batteries must be at least eighteen (18) inches from the inside wall of the tank dike.

e. Vegetation on the top and outside surface of tank dike must be properly maintained so as to not pose a fire hazard.

f. A ladder or other permanent device must be installed over the tank dike to access the containment reservoir.

g. The containment reservoir must be kept free of vegetation, stormwater, produced fluids, other oil and gas field related debris, general trash, or any flammable material. Drain lines installed through the tank dike for the purpose of draining storm water from the containment reservoir must have a valve installed which must remain closed and capped when not in use. Any fluids collected, spilled or discharged within the containment reservoirs must
be removed as soon as practical, characterized, treated if necessary, and disposed in conformance with IDAPA 58.01.16, “Wastewater Rules,” and other applicable rules. 

421. -- 429. (RESERVED)

430. GAS PROCESSING FACILITIES.
Gas processing facilities must meet the following requirements.

01. Operations. Operators of gas processing facilities must notify the Department which wells, by API number, are served by a gas processing facility. All gas processing facilities not constructed on a well site must comply with the requirements in Sections 301 and 302 of these rules.

02. Meters and Facility Plans. Gas processing facilities must account for all liquids and gas entering and leaving the facility with accurate meters. A supervisory control and data acquisition systems or other data recording system must be used to monitor the liquids and gas in the facility. Operators of gas processing facilities must submit an as-built facility design plan to the Department upon completion of the facility, a facility design plan must contain at the minimum:
   a. Site layout;
   b. Piping and instrumentation diagram;
   c. Process Flow schematics;
   d. Electronic controls and sensing schematic;
   e. Equipment operations and maintenance manuals for, pumps, meters, heat exchangers and any other operationally critical equipment that requires periodic maintenance and calibration;
   f. Periodic maintenance schedule for critical equipment;
   g. Troubleshooting metric; and
   h. Other information or documentation necessary for the safe and continued operation of a gas processing facility.

03. Flaring. Flaring at gas processing facilities must be in conformance with IDAPA 58.01.01, Rules for the Control of Air Pollution in Idaho, and any permit issued by the IDEQ.

04. Inspections. Gas processing facilities must have site specific facility design plans and a log book of gas metered in and out of the facility available for review by Department staff during the inspections of gas processing facilities. During inspections, gas process facility staff must demonstrate knowledge of all operations and the location of all emergency shut off equipment, direction of flow lines, and heat exchangers. The Department will conduct quarterly inspections of facilities.

431. -- 499. (RESERVED)

SUBCHAPTER F – WELL ACTIVITY AND RECLAMATION

500. ACTIVE WELLS.

01. Gas Storage Wells. Gas storage wells are to be considered active at all times unless physically plugged.

02. Extension of Active Status. An owner or operator may request an extension of active well status for wells that are idled for more than twenty-four (24) continuous months. The owner or operator shall provide a written request to the Department stating the reason for the extension, the length of extension, the method used to
close the well to the atmosphere, and the plans for future operation. The Department shall review the request for approval, modification, or denial, and shall set the duration of the extension if approved. An extension shall not exceed five (5) years and may be renewed upon request.

03. Annual Reports for Active Wells. The owner or operator shall submit an annual report to the Department describing the current status of the well and the plans for future well operation by January 31 of each year. Failure to submit the annual report may result in the Department declaring the well inactive.

501. INACTIVE WELLS.

01. Determination of Inactive Status. The Department shall declare a well inactive after twenty-four (24) continuous months of inactivity if the owner or operator has not received approval for an extension of active status, or after an owner or operator fails to submit an annual report for an active well. The Department will immediately notify an owner or operator of this determination by certified mail, and the owner or operator may appeal this determination to the Commission.

02. Owner’s or Operator’s Responsibility for Inactive Wells. The owner or operator must plug and abandon an inactive well in accordance with Section 502 of these rules within six (6) months of being notified by the Department unless the owner or operator supplies the following information within the six-month time period:

a. A written request to extend inactive status;

b. An individual bond, as provided for in Subsection 220.03 of these rules, if the well was covered by a blanket bond; and

c. A description of how the well is closed to the atmosphere with a swedge and valve, packer, or other approved method, and how the well is to be maintained.

03. Inactive Review and Decision. The Department shall review the request for approval, modification, or denial, and shall set the duration of the extension if approved. An extension shall not exceed three (3) years and may be renewed upon request.

04. Testing of Inactive Wells. In addition to the requirements of Section 320 of these rules, inactive wells shall have a mechanical integrity test performed within two (2) years after the date of last use in order to retain inactive status.

05. Converting Inactive Wells to Active Wells. The owner or operator must apply to the Department to change the status of a well from inactive to active. The Department shall review the request for approval, modification, or denial. A mechanical integrity test may be required by the Department if the well has been worked over or if a test has not been conducted for five (5) years or longer. If approved, the well may again be covered by a blanket bond.

502. WELL PLUGGING.

01. Plugging Required. The operator or owner shall not permit any well drilled for oil, gas, saltwater disposal or any other purpose in connection with the production of oil and gas, to remain unplugged after such well is no longer used for the purpose for which it was drilled or converted.

02. Notice of Intention to Abandon Well. Before beginning abandonment work on an oil or gas well, a Notice of Intention to Abandon shall be filed with the Department and approval obtained as to the method of abandonment before the work is started. The notice must show the reason for abandonment and must give a detailed statement of the proposed work, including such information as kind, location, and length of plugs (by depths), and plans for mudding, cementing, shooting, testing, and removing casing as well as any other pertinent information.

03. Plugging Dry Holes. If a nonproductive well, or dry hole, is drilled and not needed for any specific purpose, it must be plugged and abandoned prior to removal of the drill rig. A verbal notification and approval may
be used for dry holes in lieu of the written notification referenced in Subsection 502.02 of these rules. The standards in Subsections 502.04 through 502.06 of these rules will still apply.

04. **Plugging of Wells.** The owner or operator of any well drilled for oil or gas, or any seismic, core, or other exploratory holes, whether cased or uncased, and regardless of diameter shall be responsible for the plugging of said hole in a manner sufficient to properly protect all freshwater-bearing and possible or probable oil- or gas-bearing formations. The material used in plugging, whether cement, mechanical plug, or some other equivalent method approved in writing by the Director, must be placed in the well in a manner to permanently prevent migration of oil, gas, water, or other substance from the formation or horizon in which it originally occurred. The preferred plugging cement slurry is that recommended in API Bulletin E3. Pozzolan, gel, and other approved extenders may be used if the owner or operator can document to the Department's satisfaction that the slurry design will achieve a minimum compressive strength of three hundred (300) psi after twenty-four (24) hours, and eight hundred (800) psi after seventy-two (72) hours measured at ninety-five (95) degrees F and at eight hundred (800) psi. No substances of any nature or description other than those normally used in plugging operations shall be placed in any well at any time during plugging operations.

05. **Plugged Intervals.** The following plugging standards shall be followed for all wells:

a. Cement must be placed for a length of at least one hundred (100) feet on either side of each casing shoe, or casing bottom if no shoe is present. If the bottom of the hole is less than one hundred (100) feet from the bottom of the lowest casing, then the entire length of the uncased hole below the casing will be cemented.

b. In the uncased portions of a well, cement plugs must be placed to extend from one hundred (100) feet below the bottom up to one hundred (100) feet above the top of any oil, gas, and abnormally high pressure zones, so as to isolate fluids in the strata in which they are found and to prevent them from escaping into other strata.

c. A cement plug shall be placed a minimum of one hundred (100) feet above all producing zones in uncased portions of a well.

d. A cement plug shall be placed a minimum of fifty (50) feet above and below the following intervals:
   i. Where the casing is perforated or ruptured. If no cement is present behind the casing, then cement must also be squeezed out the perforations or ruptures and into the annular space between the casing and the borehole.
   ii. Top and bottom of fresh water zones. If fresh water zone is less than one hundred (100) feet thick, then continuous cement must be placed from fifty (50) feet below the zone upward to fifty (50) feet above the zone.

e. The top of all cement plugs will be tagged to verify their depth.

f. The owner or operator shall have the option as to the method of placing cement in the hole by:
   i. Dump bailer;
   ii. Pumping a balanced cement plug through tubing or drill pipe;
   iii. Pump and plug; or
   iv. Equivalent method approved by the Director prior to plugging.

g. Unless prior approval is given, all wellbores shall have water based drilling muds, high viscosity pills, or other approved fluids between all plugs.
h. All abandoned wells shall have a plug or seal placed at the surface of the ground or the bottom of the cellar in the hole in such manner as not to interfere with soil cultivation or other surface use. The top of the pipe must be sealed with either a cement plug and a screw cap, or cement plug and a steel plate welded in place or by other approved method, or in the alternative be marked with a permanent monument which shall consist of a piece of pipe not less than four (4) inches in diameter and not less than ten (10) feet in length, of which four (4) feet shall be above the general ground level, the remainder to be embedded in cement or to be welded to the surface casing.

06. **Subsequent Report of Abandonment.** If a well is plugged or abandoned, a subsequent record of work done must be filed with the Department. This report shall be filed separately within thirty (30) days after the work is done. The report shall give a detailed account of the manner in which the abandonment of plugging work was carried out, including the weight of mud, the nature and quantities of materials used in plugging, the location and extent (by depths) of the plugs of different materials, and the records of any tests or measurements made and of the amount, size, and location (by depths) of casing left in the well. If an attempt was made to part any casing, a complete report of the method used and the results obtained must be included.

07. **Wells Used for Fresh Water (Cold Water < 85 degrees Fahrenheit), Low Temperature Geothermal (85 - 212 Degrees Fahrenheit) or Geothermal Wells (>212 Degrees Fahrenheit).**

a. Oil and gas wells, seismic, core or other exploratory holes no longer being used for their original purpose may not be converted into fresh water, low temperature geothermal, or geothermal wells unless the following actions occur:

i. Owner, operator, or surface owner files an application with the IDWR describing the conversion and the proposed use for the water or geothermal resource and any modifications necessary to meet the applicable well construction standards;

ii. The surface owner provides written documentation assuming responsibility for the converted well including, should it become necessary, decommissioning (plugging) of the converted well in accordance with applicable law;

iii. IDWR issues a permit for a geothermal resource well, a water right, or recognizes a domestic exemption authorizing the withdrawal of water from the converted well; and

iv. A licensed driller in Idaho inspects and certifies that the converted well meets all well construction standards for its intended purpose.

b. The Department’s bond may not be released, and the oil and gas permit cancelled, until all requirements in Paragraph 502.07.a. of these rules are met.

503. -- 509. **SURFACE RECLAMATION.**

01. **Timing of Reclamation.** After the plugging and abandonment of a well or closure of other oil and gas facilities, all reclamation work described in this Section shall be completed within twelve (12) months. The Director may grant an extension where unusual circumstances are encountered, but every reasonable effort shall be made to complete reclamation before the next local growing season.

02. **General Clean Up.** All debris, abandoned gathering line risers and flowline risers, surface equipment, supplies, rubbish, and other waste materials shall be removed within three (3) months of plugging a well. The burning or burial of such material on the premises shall be performed in accordance with applicable local, state, or federal solid waste disposal and air quality regulations. In addition, material may be burned or buried on the premises only with the prior written consent of the surface owner.

03. **Road Removal.** All access roads to plugged and abandoned wells and associated production facilities shall be ripped, regraded, and recontoured unless otherwise specified in a surface use agreement. Culverts and any other obstructions that were part of the access road(s) shall be removed. Roads to be left will be graded to

---

Section 510  Page 3430
drain and prepared with rolling dips or other best management practices to minimize erosion. 

04. Regrading. Drill pads, pits, berms, cut and fill slopes, and other disturbed areas will be regraded to approximate the original contour. Where possible, slopes should be reduced to three (3) horizontal feet to one (1) vertical foot (3H:1V) or flatter.

05. Compacted Areas. All areas compacted by drilling and subsequent oil and gas operations that are no longer needed following completion of such operations shall be cross-ripped. Ripping shall be undertaken to a depth of eighteen (18) inches or bedrock, whichever is reached first.

06. Topsoiling. Stockpiled topsoil shall be replaced in a manner that will support reestablishment of the pre-disturbance land use and contoured to control erosion and provide long-term stability. If necessary, topsoiled areas shall be tilled adequately in order to establish a proper seedbed.

07. Revegetation.

a. The owner or operator shall select and establish plant species that can be expected to result in vegetation comparable to that growing on the affected lands prior to the oil and gas operations. Certified weed free seed should be used in revegetation. The owner or operator may use available technical data and results of field tests for selecting seeding practices and soil amendments that will result in viable revegetation.

b. The disturbed areas shall be reseeded in the first favorable season following rig demobilization, site regrading, and topsoil replacement.

c. Unless otherwise specified in the approved permit, the success of revegetation efforts shall be measured against the existing vegetation on site prior to the oil and gas operations, or against an adjacent reference area supporting similar types of vegetation. Reseeding or replanting is required until the following cover standards are met:

i. The ground cover of living plants on the revegetated area should be comparable to the ground cover of living plants on an adjacent reference area for two (2) full growing seasons after cessation of soil amendment or irrigation, if used;

ii. Ground cover shall be considered comparable if the planted area has at least seventy percent (70%) of the pre-disturbance, or adjacent reference area, ground cover;

iii. For locations with an average annual precipitation of more than twenty-six (26) inches, the Department, in approving a drilling permit or a pit, may set a minimum standard for success of revegetation as follows: Vegetative cover of seventy percent (70%) for two (2) full growing seasons in areas planted to herbaceous species only; or fifty percent (50%) vegetative cover for two (2) full growing seasons and six hundred (600) woody plants per acre in areas planted to a mixture of herbaceous and woody species;

iv. As used in this section, “herbaceous species” means grasses, legumes, and other forbs; “woody plants” means woody shrubs, trees, and vines; and “ground cover” means the area of the ground surface covered by the combined aerial parts of vegetation and the litter that is produced naturally on-site, expressed as a percentage of the total area measured. Rock surface areas will be excluded from this calculation; and

v. In all cases, vegetative cover shall be established to the extent necessary to control erosion.

d. Introduced species may be planted if they are known to be comparable to previous vegetation, or if known to be of equal or superior use for the approved post-reclamation land use, or, if necessary, to achieve a quick, temporary cover for soil stabilization purposes. Species classified as poisonous or noxious weed species shall not be used in revegetation.

e. By mutual agreement of the Department, the surface owner, and the owner or operator, a site may be converted to a different, more desirable or more economically suitable habitat.
f. Planting of grasses and forbs should be done in a manner which promotes rapid stabilization of the soil surface. Wherever terrain permits, grasses and forbs should be drilled or compacted into the ground using agricultural grass planting equipment or other seeders specifically designed for revegetation applications. Broadcast and hydroseeding may be used on areas where other methods are impractical or unavailable.

(7-1-21)

g. The owner or operator should plant shrubs or shrub seed, as required, where shrub communities existed prior to oil and gas operations. Shrub seed may be planted as a portion of a grass seed mix or planted as bare-root transplants after grass seeding. Where the surface owner desires a specific land use such as grazing or cropland, shrubs will not be required in the revegetation species mix. Shrub lands undergoing revegetation with shrubs shall be protected from erosion by vegetation, chemical binders, or other acceptable means during establishment of the shrubs.

(7-1-21)

h. Tree stocking of forestlands should meet the following criteria:

i. Trees that are adapted to the site should be planted in a density which can be expected over time to yield a timber stand comparable to pre-disturbance timber stands;

(7-1-21)

ii. Trees shall be established for two (2) full growing seasons after cessation of any soil amendments and irrigation before they are considered to be established; and

(7-1-21)

iii. Forestlands undergoing revegetation with trees should be protected from erosion by vegetation, chemical binders, or other acceptable means during seedling establishment.

(7-1-21)

i. Revegetation is not required on areas that the surface owner wishes to incorporate into an irrigated field and any roads which will be used for other oil and gas operations.

(7-1-21)

j. Mulch should be used on severe sites and may be required by the permit where slopes are steeper than three (3) horizontal feet to one (1) vertical foot (3H:1V) or the mean annual rainfall is less than twelve (12) inches. When used, straw, or hay mulch should be obtained from certified weed free sources. “Mulch” means vegetation residues or other suitable materials to aid in the stabilization of soil and soil moisture conservation which will provide a micro-climate more suitable for germination and growth on severe sites. Annual grains such as rye, oats, and wheat may be used as a substitute for mulch where they will provide adequate protection and will be replaced by permanent species within a reasonable length of time.

(7-1-21)

08. Reclamation Under a Surface Use Agreement. Notwithstanding the requirements of Subsections 510.03 through 510.07 of this rule, reclamation may be superseded by the conditions of a surface use agreement as long as the site is left in a stable, non-eroding condition that will not impact fresh waters.

(7-1-21)
NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 65-202; 65-204; 65-506, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 21, rules of the Idaho Division of Veterans Services:

IDAPA 21
• 21.01.06, Rules for the Enforcement of the Veteran’s Preference in Public Employment.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. This temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the temporary rule, contact Kevin Wallior 208-780-1308.

DATED this 1st day of July, 2021.

Kevin Wallior
Management Assistant
Idaho Division of Veterans Services
351 Collins Road
Boise, ID 83702
Ph: 208-780-1308
Fax: 208-780-1301
000. LEGAL AUTHORITY.
Section 65-506, Idaho Code, authorizes and directs the Idaho Division of Veterans Services to issue rules for the enforcement of Title 65, Chapter 5, Idaho Code.

001. SCOPE.
These rules contain procedures public employers may implement for an internal process which must be exhausted prior to a petitioner gaining access to the courts to contest a public employer’s application of the veteran’s preference in public employment.

002. – 009. (RESERVED)

010. DEFINITIONS.
Definitions in Section 65-502, Idaho Code, apply to terms in these rules, supplemented by the following:

01. Petitioner. Petitioner means a person who alleges the denial of a preference.

02. Preference. Preference means a right or benefit granted to the petitioner under Title 65, Chapter 5, Idaho Code.

03. Presiding Officer. The individual or individuals, as more particularly described in Subsection 103.01 of these rules, appointed by the public employer executive to preside at a hearing.

04. Public Employer Executive. Public employer executive means the individual or body of individuals in whom the ultimate legal authority of the public employer is vested by any provision of law.

011. -- 099. (RESERVED)

100. HEARING REQUESTS.

01. Written Requests. A petitioner must make a hearing request in writing to the public employer executive. A written hearing request must be hand delivered to the public employer executive or deposited in the United States mail. Hearing requests must contain the following information:

a. The petitioner’s full name and complete mailing address.

b. A request for either a telephonic or a face-to-face hearing. The petitioner shall provide the telephone number where a telephonic hearing may be conducted.

c. The position for which the petitioner applied for appointment.

d. A brief statement of the petitioner’s basis of eligibility for a preference, as set forth in Section 65-503, Idaho Code.

e. A brief statement of the issues petitioner proposes to raise at the hearing.

f. Any dates or times that the petitioner or the petitioner’s attorney cannot be available for a hearing.

02. Timely Requests. The public employer executive must receive hearing requests by 5 p.m. at the offices of the public employer executive no later than thirty-five (35) days following the date of the alleged denial of a preference. The date of the alleged denial of a preference for the purpose of calculation of time under Subsection 100.02 of these rules, is the date of issuance of a notice to the petitioner that the petitioner was not awarded a position or, if no notice is issued, the date petitioner becomes aware that he was not awarded a position.

03. Request Withdrawal. A petitioner may withdraw a hearing request at any time.

04. Disposition of Case Without a Hearing. Any hearing request may be resolved without a hearing on the merits of the request by stipulation, settlement, motion to dismiss, summary judgment, default, or for lack of jurisdiction. The public employer executive must dismiss an appeal that is not timely filed for lack of jurisdiction.
101. HEARING NOTICES.

01. Notification of Hearing. Upon timely receipt of a hearing request, the public employer executive shall notify petitioners of the time and date of the hearing and the presiding officer at the hearing not less than seven (7) days prior to the hearing. The hearing notice shall specify whether the hearing will be conducted by telephone or face-to-face. If the hearing is to be face-to-face, the hearing notice shall specify the location of the hearing. The hearing notice shall stipulate an address for the filing of documents with the presiding officer.

02. Location of Hearings. Hearings may be conducted by telephone or face-to-face in the discretion of the public employer executive, except that where the petitioner or another participant in the hearing would be denied the opportunity to participate in the hearing if held by telephone, the hearing will be face-to-face. Face-to-face hearings will be held in the city in which the position the petitioner applied for appointment is located, unless otherwise agreed upon by the parties.

03. Hearing Date. The public employer executive shall conduct hearings within thirty-five (35) days of receipt of the hearing request. The public employer executive may extend the hearing date for an additional thirty-five (35) days for good cause shown by the public employer executive or the petitioner.

102. PREHEARING PROCEDURE.

01. Discovery. Prehearing discovery is limited to obtaining the names of witnesses and copies of documents the opposing party intends to offer as exhibits. The presiding officer at the hearing may order production of the names of witnesses and copies of documents after receiving a written request for an order of production. The presiding officer shall issue an order of production as needed to ensure the orderly conduct of the hearing.

02. Subpoenas. If the public employer executive holds statutory subpoena power applicable to hearings under these rules, the presiding officer may issue subpoenas for witnesses or documents.

03. Briefing. The presiding officer may require briefs to be filed by the parties and establish a reasonable briefing schedule.

04. Filing of Documents. All documents requested by a party to be entered as exhibits shall be filed with the presiding officer in person or by first class mail with a copy provided to the opposing party. Service by mail is complete when the document, properly addressed and stamped, is deposited in the United States mail. A certificate showing delivery to all parties must accompany all documents when they are filed with the presiding officer.

103. PROCEDURE AT HEARING.

01. Presiding Officer at Hearing. In the discretion of the public employer executive, the public employer executive, one (1) or more members of the public employer executive, or one (1) or more hearing officers will be the presiding officer at the hearing.

02. Representation. The petitioner may represent himself. Either party may be represented by legal counsel, authorized to practice law in Idaho, at the party’s own expense.

03. Evidence. The presiding officer may exclude evidence that is irrelevant, immaterial, incompetent, unduly repetitious, excludable on constitutional or statutory grounds, or protected by legal privilege. Hearsay evidence may be admitted if it is relevant to the grant or denial of the preference and is sufficiently reliable that prudent persons would commonly rely on it in the conduct of their affairs or if the hearsay evidence corroborates competent evidence. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. Documentary evidence may be received in the form of copies or excerpts if the original is not readily available. Notice may be taken of judicially cognizable facts or general, technical, or scientific facts by the presiding officer on its own motion or on motion of a party.

04. Hearing Record. The presiding officer shall make a record of the hearing consisting of: an audio
recording of the hearing, except in instances where the presiding officer requires a different method of recording the hearing; and, exhibits and other items of evidence presented at the hearing. A party may request a copy of the hearing record, at the party’s own expense.

104. **FINAL ORDER.**

01. **Order of the Presiding Officer.** The presiding officer must issue a written order not more than thirty-five (35) days from the date of the hearing that includes:
   
   a. Specific findings on all major facts at issue; 
   
   b. A reasoned statement in support of the decision; 
   
   c. All other findings and recommendations of the presiding officer; 
   
   d. A preliminary decision finding that a preference was or was not applied by the public employer as required by Title 65, Chapter 5, Idaho Code; and 
   
   e. The procedure and time limits for filing a request for a review by the public employer executive, if available.

02. **Review by the Public Employer Executive.**
   
   a. If the presiding officer at the hearing was a hearing officer or less than a quorum of the public employer executive, either party may request a review by a quorum of the public employer executive not later than seven (7) days from the date the presiding officer mailed the order of the presiding officer. The request must identify all legal and factual bases of disagreement with the order of the presiding officer. 
   
   b. Upon receipt of the request for a review hearing, the public employer executive may: 
      
      i. Issue a written order affirming the decision of the public employer executive without a hearing; or, 
      
      ii. Issue a notice for a review hearing complying with the provisions of Section 101 of these rules. 
   
   c. If the public employer executive issues a notice for a review hearing, the notice will establish a schedule for briefing, if allowed, and specify whether oral argument will be heard on the review.
   
   d. The public employer executive shall conduct review hearings within thirty-five (35) days of receipt of the review request. 
   
   e. The public employer executive shall issue a written order not more than thirty-five (35) days from the date of the review hearing containing:
      
      i. Specific findings on all major facts at issue; 
      
      ii. A reasoned statement in support of the decision; 
      
      iii. All other findings and recommendations of the public employer executive; and 
      
      iv. A finding that a preference was or was not applied by the public employer as required by Title 65, Chapter 5, Idaho Code.

03. **Order of the Public Employer Executive.**
   
   a. The following shall be orders of the public employer executive:
i. The order of the presiding officer if the presiding officer is an individual serving as the public employer executive or a quorum of the public employer executive. The date of exhaustion of the appeal process is the date such order of the presiding officer is issued. (7-1-21)

ii. The order of the presiding officer if the presiding officer is a hearing officer or less than a quorum of the public employer executive and the public employer executive fails to hold a review hearing after a timely request or fails to issue an order within the required time after holding a review hearing. The date of exhaustion of the appeal process is the last day the public employer executive was required by these rules to hold a hearing or to issue an order. (7-1-21)

iii. The written order of the public employer executive following a review hearing. The date of exhaustion of the appeal process is the date such order of the public employer executive is issued. (7-1-21)

iv. The initial hiring determination of the public employer executive if the public employer executive fails to hold a hearing as required by these rules or if the presiding officer fails to issue an order after holding a hearing. The date of exhaustion of the appeal process is the last day the public employer executive was required by these rules to hold a hearing or to issue an order. (7-1-21)

b. Orders of the public employer executive shall set forth the procedure and time limits for filing an appeal to the district court under Section 65-506, Idaho Code. (7-1-21)

105. -- 200. (RESERVED)

201. ALTERNATIVE PROCESSES.
A public employer may publish an alternative internal review process for challenges to the application of Title 65, Chapter 5, Idaho Code, if such process:

01. Appeal Deadline. Establishes a deadline of thirty-five (35) days for the filing of appeals alleging the denial of a preference. (7-1-21)

02. Notice of Process. Includes written notice to applicants for employment of the existence of the process and how to obtain a copy of the process. Publication of the process in a rule or ordinance of the public employer shall be written notice to applicants for employment. (7-1-21)

03. Opportunity to Be Heard. Provides an opportunity in the internal review for the petitioner to submit argument, evidence, and witnesses and to cross-examine the public employer executive’s witnesses. (7-1-21)

04. Record of Process. Produces a record of the internal review process that is available to the district court. (7-1-21)

05. Written Final Order. Requires a written final order of the public employer containing:

a. Specific findings on all major facts at issue; (7-1-21)

b. A reasoned statement in support of the decision; and (7-1-21)

c. A finding that a preference was or was not applied by the public employer as required by Title 65, Chapter 5, Idaho Code. (7-1-21)

06. Notice of Appeal Rights. Includes written notice to petitioners at the conclusion of the internal review of the procedure and time limits for filing an appeal to the district court under Section 65-506, Idaho Code. (7-1-21)

202. -- 300. (RESERVED)
301. APPEAL TO DISTRICT COURT.
Petitioners must exhaust an appeal process implemented under these rules prior to appeal to district court. If a public employer implements an appeal process under these rules, petitioner may appeal the order of the public employer executive to a district court of the state of Idaho within one hundred eighty (180) days of the exhaustion of the appeal process. If a public employer has not implemented an appeal process under these rules, the petitioner may file an action directly in a district court of the state of Idaho within thirty-five (35) days of the alleged denial of a preference.

302. TRANSFER OF HEARING RECORD TO DISTRICT COURT.
The public employer shall submit a complete copy of the hearing record to a district court of the state of Idaho following the filing of an appeal and payment by the appealing party of the costs of duplicating and preparing the hearing record for submission, including labor costs. The opposing party may obtain a copy of the transcript at a cost not exceeding the cost of duplicating the hearing record submitted to the district court.

303. -- 999. (RESERVED)
IDAPA 21 – IDAHO DIVISION OF VETERANS SERVICES
DOCKET NO. 21-0000-2100F (FEE RULE)
NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \ RESCISSION OF PREVIOUS TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 21-0000-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded previous temporary rules. The action is authorized pursuant to Sections 65-202; 65-204; and 66-907, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 21, rules of the Idaho Division of Veterans Services:

IDAPA 21
• 21.01.01, Rules Governing Admission, Residency, and Maintenance Charges in Idaho State Veterans Homes and Division of Veterans Services Administrative Procedure; and
• 21.01.04, Rules Governing the Idaho Veterans Cemetery.

Rescission of previous temporary rule aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules are required to meet our obligations to Veterans in Idaho by providing the necessary standard of care in our State Veterans Homes and providing a dignified final resting place in our State Veterans Cemeteries.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 66-907 and 65-202(8), Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

• IDAPA 21.01.01.915 – Maintenance Charges
• IDAPA 21.01.01.916.01 – Monthly Charges and Allowances, Nursing Care
• IDAPA 21.01.01.916.02 – Monthly Charges and Allowances, Residential and Domiciliary Care
• IDAPA 21.01.04.024 – Fees For Interment, Disinterment, and Reinterment, and Memorial

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the adoption of temporary rules and rescission of temporary rules, contact Kevin Wallior, Management Assistant, at (208) 780-1308.

DATED this 1st day of July, 2021.
Kevin Wallior  
Management Assistant

IDAPA 21 – IDAHO DIVISION OF VETERANS SERVICES

21.01.01 – RULES GOVERNING ADMISSION, RESIDENCY, AND MAINTENANCE CHARGES IN IDAHO STATE VETERANS HOMES AND DIVISION OF VETERANS SERVICES ADMINISTRATIVE PROCEDURE

000. LEGAL AUTHORITY.
The Administrator of the Division of Veterans Services with the advice of the Veterans Affairs Commission is authorized by the Idaho Legislature to establish rules governing requirements for admission to Idaho State Veterans Homes and to establish rules governing charges for residency, pursuant to Sections 65-202, 65-204 and 66-907, Idaho Code.

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 21.01.01, “Rules Governing Admission, Residency, and Maintenance Charges in Idaho State Veterans Homes and Division of Veterans Services Administrative Procedure.”

02. Scope. These rules contain provisions for determining eligibility for admission and for establishing charges for residency in Idaho State Veterans Homes, together with rules of administrative procedure before the Idaho Veterans Affairs Commission.

002. POLICY.
Through the facilities and services available at Idaho State Veterans Homes, the Division of Veterans Services will provide necessary care for honorably discharged eligible veterans. No applicant will be denied admission on the basis of sex, race, color, age, political or religious opinion or affiliation, national origin, or lack of income, nor will any care or other benefit at a Home be provided in a manner, place, or quality different than that provided for other residents with comparable disabilities and circumstances. However, if residents are financially able to do so, they must contribute to the cost of their care, with allowances made for retention of funds for their personal needs.

003. INCORPORATION BY REFERENCE.
01. Incorporated Documents. These rules incorporate by reference:

004. -- 009. (RESERVED)

010. DEFINITIONS.
For the purposes of the rules contained in this Chapter, the following terms are used as defined:

01. Applicant. A person who has expressed interest in applying for residency in an Idaho State Veterans Home.

02. Asset. Real or personal property that is owned in whole or in part by an applicant or resident, including stocks, bonds, goods, rights of action, evidences of debt, and cash or money that is not income. Insurance payments or monetary compensation for loss of or damage to an asset is an asset. Income not expended in the calendar month received is an asset beginning on the first day of the next calendar month.

03. Bona Fide Resident. A person who maintains a principal or primary home or place of abode in the state of Idaho coupled with the present intent to remain at that home or abode and return to it after any period of absence pursuant to Section 66-901, Idaho Code.

05. Division. Division of Veterans Services in the Idaho Department of Self Governing Agencies.
06. Division Administrator. The Administrator of the Division of Veterans Services in the Department of Self Governing Agencies, or his designee. The chief officer of the Division of Veterans Services. (7-1-21)

07. Home Administrator. Administrator of an Idaho State Veterans Home. The chief officer of each respective Veterans Home. (7-1-21)

08. Home. An Idaho State Veterans Home. (7-1-21)

09. Idaho State Veterans Home. Pursuant to Section 66-901, Idaho Code, a Home for eligible veterans. (7-1-21)

10. Income. Money received from any source including wages, tips, commissions, private pension and retirement payments, social security benefits, unemployment compensation, veterans assistance benefits, and gifts. (7-1-21)

11. Legal Dependents. The mother, father, spouse, or minor children of an applicant or a resident who, by reason of insufficient financial resources, or non-minor children who because of disease, handicap or disability, must have financial support from the applicant or resident in order to maintain themselves. (7-1-21)

12. Liquid Assets. Those assets which are cash or can be liquidated for cash within a reasonable period of time including, but not limited to, money market certificates, certificates of deposit, stocks and bonds, and some tax shelter investments. (7-1-21)

13. Maintenance Charge. A charge made for care and residence at an Idaho State Veterans Home, based upon the current established rate. (7-1-21)

14. Net Income. That income used to compute charges after allowable deductions have been made. (7-1-21)

15. Resident. A person who is a resident of an Idaho State Veterans Home. (7-1-21)

16. Spouse. The husband or wife, under a marriage recognized by Title 32, Idaho Code, of a veteran or the widow or widower of a veteran under a marriage recognized by Title 32, Idaho Code. (7-1-21)

17. VA. United States Department of Veterans Affairs. (7-1-21)

18. Veteran. Has the meaning established in Section 65-203, Idaho Code. The separation or discharge considered under this definition means the conditions of the most recent separation or discharge from military service. (7-1-21)

011. -- 049. (RESERVED)

050. ADMINISTRATIVE POWERS. The Home Administrator has full authority in the management of a Home, subject to review by the Division Administrator and Commission. A Home Administrator can, in the execution of his duties, delegate certain responsibilities to his staff. When requested by the Division Administrator, the Home Administrator will attend regular and special meetings of the Commission. (7-1-21)

01. Representative Powers. The Division Administrator is authorized to represent the Commission in all official transactions between the Homes and other departments of Idaho state government. (7-1-21)

02. Investigation Powers. Upon receipt of an application for residency and for the duration of residency of any resident, the Division is authorized to conduct an investigation to determine the total value of the property and assets of the applicant/resident to determine his ability to pay maintenance charges established in this Chapter pursuant to Section 66-907, Idaho Code. (7-1-21)
03. Inspection Powers. Inspection of the rooms and facilities of a Home, as well as of the dress and appearance of all residents, can be conducted at any time by the Home Administrator. (7-1-21)T

04. Emergency Powers. In an emergency, the Home Administrator is authorized to use his judgment in matters not specifically covered by a statute, order, rule, or policy. (7-1-21)T

051. -- 074. (RESERVED)

075. ADMINISTRATIVE DUTIES.
The Home Administrator will enforce all orders and rules and implement all policies of the Division in the administration of a Home. (7-1-21)T

01. Management of Records. The Home Administrator must maintain accurate fiscal and resident records.

b. Residential and domiciliary care records. Records relating to each residential care resident of a Home will be kept in accordance with VA Rules 38 CFR Part 51; Subpart A, B, C, and E dated December 28, 2018. (7-1-21)T

02. Response to Complaints. The Home Administrator will respond in writing to any written and signed complaint made by a resident pursuant to Section 300 of these rules. (7-1-21)T

076. -- 099. (RESERVED)

100. ELIGIBILITY REQUIREMENTS.
Applicants and residents must satisfy the following requirements: (7-1-21)T

01. Veterans or Eligible Spouse.

a. Nursing Care. Applicants for and residents of nursing care must be a veteran or the spouse of a veteran who is eligible for admission to a Home. The death of a veteran shall not disqualify a resident spouse if the veteran was eligible for admission to a Home at the time of death. (7-1-21)T

b. Residential Care and Domiciliary Care. Applicants for and residents of residential care and domiciliary care must be a veteran. A Home will not grant spouses admission for residential care or domiciliary care. (7-1-21)T

02. Idaho Residency. The applicant must be a bona fide resident of the state of Idaho at the time of admission to a Home. (7-1-21)T

03. Incompetent Applicants. Applicants and residents who are incompetent must provide copies of a legally sufficient guardianship or power of attorney. (7-1-21)T

04. Necessity of Services. Applicants and residents must meet the requirements for the level of care for which they apply or are receiving. At the request of the Home, residents must provide recertification of their need for services from a VA physician or a physician currently licensed by the Idaho Board of Medicine to practice medicine or surgery in the state of Idaho.

a. Nursing Care. To be eligible to receive nursing care in a Home, applicants must be referred by a VA physician or a physician currently licensed by the Idaho Board of Medicine to practice medicine or surgery in the state of Idaho. (7-1-21)T
b. Residential and Domiciliary Care. Each applicant must submit to a physical examination performed by a licensed physician and meet the physical limitation requirements for residential care and domiciliary care. Applicants and residents must be unable to earn a living and have no adequate means of support due to wounds, old age, or physical or mental disabilities. However, each residential care and domiciliary care resident must ambulate independently or with the aid of a wheelchair, walker, or similar device and be capable of performing at the time of admission, and for the duration of his residency, all of the following with minimal assistance:

i. Making his bed daily;

ii. Maintaining his room in a neat and orderly manner at all times;

iii. Keeping all clothing clean through proper laundering;

iv. Observing cleanliness in person, dress and living habits and dressing himself;

v. Bathing or showering frequently;

vi. Shaving daily or keeping his mustache or beard neatly groomed;

vii. Proceeding to and returning from the dining room and feeding himself;

viii. Securing medical attention on an ambulatory basis and managing medications;

ix. Maintaining voluntary control over body eliminations or control by use of an appropriate prosthesis; and

tax. Making rational decisions as to his desire to remain or leave the Home.

05. Placement Restriction. A Home shall not accept applicants or continue to extend care to residents for whom the facility does not have the capability or services to provide an appropriate level of care.

06. Financial Statement. Each applicant must file a signed, dated statement with the Home Administrator containing a report of income from all sources and a report of all liquid assets which will be used to determine the amount of the maintenance charge which is required in accordance with Section 66-907, Idaho Code, and these rules.

07. Social Security Benefits. If eligible for Social Security benefits, the applicants and residents and their spouses must apply for those benefits unless waived by the Home Administrator.

08. Medicare Coverage. If eligible for Medicare, the applicants and residents must elect to participate, unless participation is waived by the Home Administrator.

09. Income Limitation.

a. Nursing Care. None.

b. Residential and Domiciliary Care. An applicant whose total monthly net income, at the time of his application for residency, exceeds the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95588 divided by twelve (12) cannot be admitted unless granted a waiver by the Home Administrator. This waiver must include a statement from a VA Medical Center physician indicating the veteran is in “need of continuing medical care.”

10. VA Pension -- Nursing Care. Unless waived by the Home Administrator, a wartime veteran, as defined in 5 U.S.C. Section 2108, who is a nursing care applicant or resident must be eligible for, apply for, or be in receipt of a VA disability pension in accordance with Public Law 95588. Such waivers may be considered only when the applicant or resident has signed a statement that he is able to defray the necessary expenses of the medical care for which he is applying or receiving and arrangements are made to secure medical services not provided by the VA.
11. Agreements for Behavior and Care Needs. The Homes may require that applicants or residents enter into agreements concerning the applicant or resident’s behavior or care needs while residing in the Home. The resident’s failure to perform these agreements is a basis for discharge from the Home.

12. Limit on Admission of Spouses. Unless waived in writing by the Division Administrator, a Home shall not accept spouses for admission if the Home’s residency is at ninety-five percent (95%) or more of capacity. Homes shall not admit a spouse if the number of spouses residing in the home will exceed twenty-five percent (25%) of the residents of the Home following admission of the applicant.

101. -- 149. (RESERVED)

150. APPLICATION PROCEDURE.

01. Submission of Application. An application may be submitted to the administrative offices of a Home on a form from the Division.

02. Application Processing. Completed applications will be processed no later than three (3) working days from receipt.

03. Waiting List. An applicant who is approved for admission for whom a vacancy does not exist will be placed on a waiting list and accepted on a first come, first served basis dependent on the Home's ability to provide a level of care consistent with the needs of the applicant. The Home Administrator may award “priority status” to prospective Home residents resulting in their names being placed near the top of the Home waiting list, provided they have completed all preadmission requirements and meet one (1) or more of the following criteria:

a. Veterans who served during any war or conflict officially engaged in by the government of the United States.

b. Previous residents of Homes who have been discharged for therapeutic treatment or to live in a lesser level of care or in an independent setting and whose discharge plan indicates a readmission priority.

c. Current Home residents who demonstrate a need for a level of care provided by a Home and who would benefit from maintaining a stable environment.

d. Receive special consideration as per the request of the medical director because of his desire to provide a very specific continuum of care.

04. Provision If Application Rejected. An applicant whose application has been rejected and who feels he meets the eligibility requirements can request a hearing in accordance with the procedures specified in Section 982, et seq., of these rules.

151. -- 199. (RESERVED)

200. CONDITIONS FOR ADMISSION.

01. Denial of Admission. Admission may be denied to an otherwise eligible applicant for any reason for which an admitted resident could be involuntarily discharged.

02. Assignment of Personal Property. Prior to admission to a Home, an eligible applicant must agree that while he is a resident of a Home he will assign the following, under the conditions specified:

a. Pursuant to Section 66-906, Idaho Code, all personal property owned, money held, or assets to which he is entitled at the time of his death -- unless disposed of by will or rightfully claimed within five (5) years of the death of the resident by an heir or person named in the resident's will -- must be assigned to the Division Administrator at the time of application for the sole use and benefit of a Home.
b. Upon discharge or voluntary departure from a Home, and after written notification is sent to the resident, all personal property owned or money deposited with the Home which is unclaimed by the former resident will be converted for the sole use and benefit of a Home as specified below: (7-1-21)

i. Personal property unclaimed within thirty (30) days of departure or discharge will be made available to needy Home residents or disposed of at public auction or private sale and the proceeds deposited with the state; or (7-1-21)

ii. Money deposited with the Home will be retained and deposited with the state; however, said money may be claimed by the former resident within five (5) years of departure or discharge. (7-1-21)

201. WEAPONS.
Weapons including, but not limited to, firearms, ammunition, straight razors, and knives are not allowed. (7-1-21)

202. ACKNOWLEDGMENT OF CONDITIONS LEADING TO DISCHARGE.
Upon admission to a Home, each resident will be advised in writing of the conditions under which immediate discharge will occur, as specified in Section 350 of these rules. Each resident must acknowledge receipt of this information by signature, and that acknowledgment will be a permanent part of each resident's file. (7-1-21)

203. -- 299. (RESERVED)

300. CONDUCT OF RESIDENTS.
Each resident must comply with applicable rules in this Chapter and with any order or directive of the Home Administrator. All complaints made by the residents concerning food, quarters, ill treatment, neglect, abusive language, or other violations of any rule or standard applicable to the Home, or complaints against the operation of a Home may be made either verbally or in writing to the Home Administrator. (7-1-21)

01. No Operation of Motor Vehicles by Nursing Care Residents. The operation or storage of privately owned motor vehicles by nursing care residents is prohibited on Home property. (7-1-21)

02. Operation of Motor Vehicles by Domiciliary and Residential Care Residents. Each authorized domiciliary and residential care resident who drives a motor vehicle onto the grounds of a Home must adhere to the following:

a. Requirements:

i. Possess a valid driver's license; (7-1-21)

ii. Have a current motor vehicle registration; (7-1-21)

iii. Operator is insured against liability and property damage in accordance with Idaho law; and (7-1-21)

iv. Park only in assigned spaces. (7-1-21)

b. Prohibitions. Nonoperable motor vehicles and motor vehicle repairs are not permitted on the grounds of a Home. (7-1-21)

03. Housekeeping.

a. Housekeeping services for nursing care residents shall be provided by the Home. (7-1-21)

b. Each residential and domiciliary care resident must adhere to the following requirements (residential care residents may need minimal assistance):

i. Making his bed daily; (7-1-21)
ii. Maintaining his room in a neat and orderly manner at all times; and (7-1-21)T
iii. Assuring that all clothing is appropriately marked, stored and kept clean through proper laundering. (7-1-21)T
c. All residents are prohibited from:
   i. Washing clothes or other articles which present a health or safety hazard in resident rooms or bathrooms; (7-1-21)T
   ii. Using electrical devices, including televisions, radios, recorders, and shavers, until they have been certified by Home maintenance staff as being safe for use; (7-1-21)T
   iii. Entering the kitchen, laundry, shop or mechanical spaces without permission; and (7-1-21)T
   iv. Interfering or tampering with the heating, refrigeration or air conditioning systems, televisions, lighting, appliances, plumbing, or mechanical equipment at the Home without authorization. (7-1-21)T

04. Personal Conduct. Each resident must adhere to the following:

   a. Requirements:
      i. Observing cleanliness in person, dress and in living habits; (7-1-21)T
      ii. Bathing or showering frequently; (7-1-21)T
      iii. Observing the smoking policies of a Home; and (7-1-21)T
      iv. Residential and domiciliary care residents must retire to a recreation area or utilize an individual bed light if desiring to read between 10 p.m. and 6:30 a.m. during which time all room overhead lights are turned off. (7-1-21)T

   b. Prohibitions:
      i. Creating a disturbance or using intoxicating beverages or nonprescribed controlled substances in the buildings or on the grounds (unless prescribed by a physician); (7-1-21)T
      ii. Marking or writing on the walls of a building, or damaging the grounds or any other property; (7-1-21)T
      iii. Using profanity or exhibiting vulgar behavior in the Home or in any other public place; (7-1-21)T
      iv. Becoming involved in quarrels, persistent dissension or criticism of others; (7-1-21)T
      v. Lending money to, or borrowing money from, another resident or an employee of the Home; (7-1-21)T
      vi. Smoking in an unauthorized area; (7-1-21)T
      vii. Taking food (other than fresh fruit for consumption within a reasonable time period), condiments, dishes or utensils from the dining room; (7-1-21)T
      viii. Cooking or using heating devices in residents' rooms or other unauthorized areas; and (7-1-21)T
      ix. Storing flammable or combustible material including, but not limited to, gasoline, butane, solvents, and acetone on Home grounds. (7-1-21)T
301. -- 349.  (RESERVED)

350.  TRANSFER AND DISCHARGE OF RESIDENTS.
A resident can be transferred or discharged, for a period to be determined by the Home Administrator, for the bases set forth in Section 350 of these rules. The Home Administrator will provide notice of transfer or discharge and the opportunity to appeal a transfer or discharge in accordance with Section 980 of these rules.  

01.  Emergency Discharge or Transfer. Upon determination by the Home Administrator that an emergency exists, a resident may be immediately discharged or transferred.  

02.  General Discharge or Transfer. If the Home Administrator determines that one (1) or more of the following is present or has occurred, the resident may be discharged or transferred from the Home:  

a.  Possession of a lethal weapon of any kind by the resident on Division property; possession of wine, beer, or liquor by the resident on Division property; or possession of a controlled substance or medication by the resident, unless prescribed by the resident's physician;  

b.  Excessive or habitual intoxication;  

c.  Willfully destroys or wrongfully appropriates state or another person's property;  

d.  Failure to comply with the rules of this Chapter or a written directive of the Home Administrator or the Division Administrator;  

e.  Financial conditions set forth in Section 950 of these rules are present;  

f.  Engages in a pattern of behavior that infringes upon the rights of another person;  

g.  Unauthorized absences from the Home in excess of those permitted by Section 352 of these rules;  

h.  Endangers the safety, wellbeing, or health of the resident or other persons or disrupts the peace of the home;  

i.  The resident is required by law to register as a sex offender. Should it be determined by the Home that it must provide resources in excess of those provided to other residents to ensure the safety of the resident or other persons;  

j.  The resident does not meet the requirements and limitations set forth in Section 100 of these rules.  

03.  Discharge or Transfer During Absence. A resident who is absent from the Home may be discharged or transferred due to one (1) or more of the following:  

a.  The Home will not have the capability or services to provide an appropriate level of care to the resident upon the resident’s return to the Home;  

b.  The resident has not returned to the Home from an absence prior to the expiration of the bed hold period established by a third party payer paying more than half of the resident’s maintenance charges;  

c.  The resident ceases to pay the resident’s maintenance charges or a bed hold charge applicable to an absence.  

04.  Voluntary Transfer or Discharge. A resident may be transferred or discharged at any time upon voluntary consent of the resident.
351. (RESERVED)

352. **UNAUTHORIZED ABSENCES -- RESIDENTIAL AND DOMICILIARY CARE.**

   **01. Unauthorized Absences Prohibited.** For residential and domiciliary care residents, no more than three (3) unauthorized absences may be accumulated in a thirty (30) day period. If more than three (3) unauthorized absences are accumulated, the resident may be discharged for a period of thirty (30) days.

   **02. Yearly Maximum.** The maximum number of unauthorized absences allowable in a one (1) year period is twelve (12). Any resident who exceeds twelve (12) unauthorized absences in one (1) year may be discharged for a period of up to one (1) year.

   **03. Readmission Requirements.** Residents discharged for unauthorized absences must reapply for admission and are subject to the same restrictions and conditions as other applicants.

353. -- 850. (RESERVED)

851. **AVAILABLE SERVICES.**

The Division will make available the following services.

   **01. Residential and Domiciliary Care.** The Division will make available the services listed below for residential and domiciliary care residents:

   a. Barber/Beauty Shop.
   b. Chaplain.
   c. Dietary.
   d. Laundry.
   e. Nursing (limited).
   f. Referral.
   g. Social Work.
   h. Therapeutic Recreation.
   i. Limited Transportation.

   **02. Nursing Care.** In addition to the services listed in Subsection 851.01, the Division will make available the services listed below for nursing care residents:

   a. Dental Hygiene.
   b. Lab.
   c. Nursing (Skilled).
   d. Pharmaceutical.
   e. Physical Therapy.
   f. Physician.
   g. Speech Therapy.
h. X-Ray.

852. -- 879. (RESERVED)

880. FINANCIAL CONDITION OF APPLICANTS/RESIDENTS.
Each applicant/resident or his legal representative must submit a signed and dated financial statement to the Home Administrator on which his income and liquid assets from all sources are reported. The statement must also indicate whether the applicant/resident is responsible for the support of any legal dependent who should be considered in fixing the amount of monthly charges. If changes occur in the applicant's/resident's income or liquid assets, it is the applicant's/resident's responsibility to submit an accurate financial statement immediately.

01. Investigation of Financial Condition. The Division is authorized to investigate the financial condition of applicants/residents to determine their ability to pay maintenance charges. An applicant/resident may need to provide a power of attorney or a release of information to the Home Administrator in order to assist in investigating his financial condition and to aid in securing any benefits for which he may be eligible.

02. Retroactive Income. In the event an applicant/resident is awarded retroactive income from any source, he is responsible to report this award to the Home Administrator and to pay his maintenance charge retroactive to the effective date of income.

881. -- 914. (RESERVED)

915. MAINTENANCE CHARGES.
Upon becoming a resident of a Home, each resident is liable for the payment of a maintenance charge as well as expenses for supplies, medication, equipment, and services (other than basic services for the assigned level of care) that are not provided or paid for by VA, Medicaid, Medicare, or other insurance unless otherwise determined by the Home Administrator. Residents living in a Home for any part of a month must pay for each day, based on the actual number of days in the month, at that fraction of their total charge. Refusal or failure to pay the established maintenance charge or related expenses is cause for discharge from the Home.

01. Nursing Care Charges. Charges shall be computed, based on payment source to include VA, Medicaid, Medicare, or full cost of care.

02. Residential and Domiciliary Care Charges. Charges will be computed, based on the following factors:

a. If the resident has an income, those items used to compute the charge will include:
   i. Social Security benefits;
   ii. Retirement benefits;
   iii. Income from annuities;
   iv. Insurance benefits;
   v. Rental from property;
   vi. Farm income;
   vii. VA pensions or compensations;
   viii. Tax refunds; and
   ix. Income from any and all other sources.
b. If the resident is single, incompetent, and has liquid assets in excess of one thousand five hundred dollars ($1,500), he will be assessed the current maximum charge until those assets are reduced to less than one thousand five hundred dollars ($1,500). (7-1-21)

e. If the resident is single, competent, and has liquid assets in excess of fifteen hundred dollars ($1,500), he will be assessed the current maximum charge until those assets are reduced to less than fifteen hundred dollars ($1,500). (7-1-21)

d. Joint income will be used in computing charges for married persons. If the resident has dependents who rely upon him for financial support, the amount of liquid assets will not be drawn upon after they have declined to a level of five thousand dollars ($5,000). (7-1-21)

e. Residential Care. After allowable deductions, a resident will be assessed a fee of seventy-five percent (75%) of the remaining portion of his net monthly income up to the maximum charge. The maximum monthly maintenance charge shall be seventy-five percent (75%) of the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95 588 divided by twelve (12). (7-1-21)

f. Domiciliary Care. After allowable deductions, a resident will be assessed a fee of sixty percent (60%) of the remaining portion of his net monthly income up to the maximum charge. The maximum monthly maintenance charge shall be sixty percent (60%) of the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95 588 divided by twelve (12). (7-1-21)

03. Exclusions from Income or Payment for Residential and Domiciliary Care. The only exclusions in computing monthly charges will be:

a. Those funds which a resident receives from the sale of hobby/craft items constructed and sold as part of a Home occupational therapy program; or (7-1-21)

b. Those unusual expenses specified below, which are incurred after the resident's admission to a Home and are approved by the Home Administrator, up to a maximum monthly allowance which is established pursuant to Section 916 of these rules: (7-1-21)

i. Prosthetic, orthopedic, and paraplegic appliances; (7-1-21)

ii. Sensory aids; (7-1-21)

iii. Wheelchairs; (7-1-21)

iv. Therapy services; (7-1-21)

v. Hospital, medical, surgical expenses and bills for prescription drugs incurred and paid by the individual in the current month and documented by a paid receipt. (7-1-21)

c. Reasonable medical insurance premiums, as paid, with documentation of payment. Other insurance premiums are excluded from consideration; or (7-1-21)

d. An allowance established pursuant to Section 916 of these rules for retention by a resident for personal needs; (7-1-21)

e. That amount necessary for a resident of a Home to contribute to the support of a legal dependent where proof of actual payment is documented. A monthly allowance will be established for a spouse or additional dependents pursuant to Section 916 of these rules. (These allowances take into consideration housing and utility costs.) (7-1-21)

04. Income Eligibility Limits. (7-1-21)

a. Nursing Care. None. (7-1-21)
b. Residential and Domiciliary Care. A resident's total monthly net income, from all sources, may not exceed the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95-588 divided by twelve (12) unless waived by the Home Administrator in accordance with Subsection 100.08 of these rules. (7-1-21)

c. While in residence at a Home, a domiciliary resident may seek outside employment and receive income so that his total monthly net income from all sources will exceed the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95-588 divided by twelve (12) for a one-month transitional period. At the end of this one-month transitional period, the resident will be discharged. (7-1-21)

05. Continued Eligibility.

a. Nursing Care. A resident may continue to be eligible for residency in a Home, regardless of income changes, if the conditions defined in Subsection 100.09 of these rules continue to be met. (7-1-21)

b. Residential and Domiciliary Care. If a resident's net monthly income exceeds the income eligibility limit after admission to the Home, the resident may appeal to the Home Administrator for a waiver of the income eligibility limit which may be granted for good cause. Consideration for good cause must include “need for continuing medical care” as documented by a VA Medical Center physician. (7-1-21)

06. Payment Schedule. Maintenance charges are due the first of each month and must be paid in full by the resident or guardian on or before the tenth day of the month. Payments may be made either by cash or by check, and a receipt will be issued. (7-1-21)

07. Security Deposit. A deposit of one hundred dollars ($100) will be required by domiciliary and residential care residents upon admission to a Home, unless waived by the Home Administrator. This deposit will be held until the resident leaves. Any debts or liabilities on behalf of the resident will be offset against this deposit at that time. After payment of any debts or liabilities, the remaining balance of the deposit will be returned to the outgoing resident. (7-1-21)

08. Leave of Absence or Hospitalization. Residents receiving Medicaid, Medicare, or VA per diem will be charged for leave of absence or hospitalization in accordance with Medicaid, Medicare, and VA requirements. The Home will not reduce charges for leave of absence or hospitalization of residents not qualifying for Medicaid, Medicare, or VA payment for such absence and each day will count as if the resident were present at a Home. Unless waived by the Home Administrator or prohibited by law, the Home will charge residents receiving Medicaid, Medicare, or VA per diem the current VA per diem rate for each absent day of a leave of absence or hospitalization in excess of the period eligible for payment by Medicaid, Medicare, or the VA. (7-1-21)

09. Medicaid Eligibility. All nursing care residents, including re-admitted residents must either apply for or become eligible for Medicaid benefits, or must pay the maximum monthly charge as it may be established from time to time. Eligibility for Medicaid benefits is determined entirely by the Idaho Department of Health and Welfare and its agents. Residents who cannot, or choose not to, qualify for Medicaid are required to pay for services in full from other than Medicaid funds. Care and services for those residents who are Medicaid eligible will be billed to and paid by Medicaid. Residents eligible for Medicaid will be assessed a fee equal to the resident’s liability as determined by Medicaid. (7-1-21)

916. MONTHLY CHARGES AND ALLOWANCES.

01. Nursing Care. Pursuant to Section 66-907, Idaho Code, maximum monthly charges are established by the Division Administrator with the advice of the Commission. A schedule of charges will be available in the business office of each Home. Charges will be reviewed from time to time by the Division Administrator and the Commission. (7-1-21)

a. Changes to Charges. Members of the public may comment on proposed changes at meetings of the Commission when changes are considered.
b. Notification and Posting. When changes are made to charges, residents or their families or sponsors will receive written notification and changes will be posted in the business office of each Home a minimum of thirty (30) days prior to the effective date of the change. (7-1-21)

02. Residential and Domiciliary Care. Pursuant to Section 66-907, Idaho Code, maximum monthly charges and allowances are established by the Division Administrator with the advice of the Commission. A schedule of charges and allowances will be available in the business office of the Homes. Allowances will be reviewed from time to time by the Division Administrator and the Commission. (7-1-21)

a. Changes to Charges and Allowances. Pursuant to Paragraphs 915.02.e. and 915.02.f. of these rules, monthly charges for residential and domiciliary care will be adjusted automatically when a change is made to the current maximum annual rate of VA pension for a single veteran pursuant to Public Law 95-588 divided by twelve (12). Relative to monthly allowances, members of the public may comment on proposed changes at meetings of the Commission when changes are considered. (7-1-21)

b. Notification and Posting of Changes to Allowances. When changes are made to allowances, residents or their families or sponsors will receive written notification, and changes will be posted in the business office of the Veterans Homes directly following notification pursuant to Public Law 95-588. (7-1-21)

917. -- 949. (RESERVED)

950. FINANCIAL GROUNDS FOR REJECTION OR DISCHARGE.
The following circumstances may be considered as grounds for rejection of an application for residency or for revocation of residency and subsequent discharge. (When an application is rejected or a resident discharged, the applicant/resident will be given notification of intended application rejection or discharge, in accordance with the provisions in Section 982 of these rules.) (7-1-21)

01. Disposal of Assets. If the Home Administrator determines that an applicant/resident has disposed of assets following or within sixty (60) months preceding initial application for residency, which would have the effect of reducing his maintenance charge, such action can lead to rejection of the application or discharge from a Home. (7-1-21)

02. Failure to Pay Maintenance Charge. Refusal or failure to pay the established maintenance charge can be cause for discharge from a Home. If the resident is so discharged, or leaves a Home voluntarily, the resident will not be eligible for readmission to a Home until all indebtedness to the Home is paid in full, or acceptable arrangements have been made with the Home Administrator for repayment. (7-1-21)

03. Failure to Pay for Services. (7-1-21)

a. Residents who are excluded from receiving free services from a VA Medical Center may elect to purchase such services through a sharing agreement or contract between a Home and a VA Medical Center or an outside provider when such sharing agreement or contract exists. In those cases where sharing agreement or contract costs are borne by a Home, the resident must reimburse the Home for the costs of services provided. (7-1-21)

b. Failure to reimburse a Home or a service provider within ten (10) days after receipt of a bill for services provided under a sharing agreement or contract may result in a resident's discharge from the Home. (7-1-21)

951. -- 979. (RESERVED)

980. NOTICE OF RESIDENT TRANSFER OR DISCHARGE AND NOTICE OF DENIAL OF AN APPLICATION FOR RESIDENCY.
The Home Administrator or his designee must notify the applicant or resident of any action to be taken regarding rejection of an application or involuntary transfer or discharge from a Home. (7-1-21)

01. Form of Notice. (7-1-21)
a. The notice of denial of application may be made orally. (7-1-21)
b. The notice of transfer or discharge must be in writing. (7-1-21)

02. Content of Notice of Transfer or Discharge. The notice must state the following: (7-1-21)
a. The reason for the impending action and a reference to the pertinent rules under which the action is being brought or decision has been made; (7-1-21)
b. The effective date of the action; (7-1-21)
c. The location to which the resident is transferred or discharge, which is established for Nursing Care transfers and discharges only; (7-1-21)
d. The applicant's or resident's right to request a hearing according to the provisions in Section 982 of these rules; and (7-1-21)
e. The procedure for requesting a hearing, as provided in Subsection 982.03 of these rules. (7-1-21)
f. The name, address, and telephone number of the State long term care ombudsman; (7-1-21)
g. The name, address, and telephone number of the State Disability Rights agency responsible for the protection and advocacy for those residents with developmental disabilities or mental illness. (7-1-21)

03. Notification Deadlines for Domiciliary Care. The following notification deadlines are established for Domiciliary Care only: (7-1-21)
a. Discharge notices must be sent to the resident three (3) days prior to the intended effective date of the action, except under the conditions noted in Subsections 350.01, 350.03 and 350.04 of these rules. (7-1-21)
b. Notification of findings of ineligibility for residency will be mailed to the applicant within three (3) working days after receipt of the completed application citing the reasons for rejection. (7-1-21)

04. Notification Deadlines for Residential Care. The following notification deadlines are established for Residential Care only: (7-1-21)
a. Discharge notices must be sent to the resident fifteen (15) days prior to the intended effective date of the action, except under the conditions noted in Subsections 350.01, 350.03 and 350.04 of these rules. (7-1-21)
b. Notification of findings of ineligibility for residency will be mailed to the applicant within three (3) working days after receipt of the completed application citing the reasons for rejection. (7-1-21)

05. Notification Deadlines for Nursing Care. The following notification deadlines are established for Nursing Care only: (7-1-21)
a. Notices of general discharge or transfer pursuant to Subsection 350.02 of these rules must be sent to the resident thirty (30) days prior to the intended effective date of the action. (7-1-21)
b. Notices of emergency discharge or transfer pursuant to Subsection 350.01 of these rules must be sent to the resident as soon as practical. (7-1-21)
c. Notices of discharge or transfer during absence pursuant to Subsection 350.03 of these rules must be sent to the resident within three (3) working days of the Home’s determination to transfer. (7-1-21)
d. Notice of discharge for unauthorized absences pursuant to Paragraph 350.02.g. of these rules must be sent to the resident within three (3) days of the last unauthorized absence establishing a basis for discharge. (7-1-21)
e. The Home does not need to provide notice of voluntary transfer or discharge pursuant to Subsection 350.04 of these rules. (7-1-21)

f. Notification of the denial of an application for residency will be mailed to the applicant within three (3) working days after receipt of the completed application citing the reasons for rejection. (7-1-21)

981. APPEAL PROCEDURE.
Upon notification to a resident of transfer or discharge from a Home by the Home Administrator, the resident may request a hearing in accordance with the provisions in Section 982, “Provisions for Contested Cases,” of these rules. Any additional violation of Home rules by a resident while on notice of transfer or discharge will be treated independent of any pending appeal. (7-1-21)

982. PROVISIONS FOR CONTESTED CASES.

01. Inapplicability of Idaho Rules of Administrative Procedure of the Attorney General. All contested cases shall be governed by the provisions of these rules. The Commission and Division Administrator find that the provisions of IDAPA 04.11.01, et seq., “Idaho Rules of Administrative Procedure of the Attorney General,” are inapplicable and inappropriate for contested cases before the Commission, because of the specific and unique requirements of federal and state law regarding notices, hearing processes, procedural requirements, timelines, and other provisions requiring the Division to adopt its own procedures pursuant to Section 67-5206(5)(b), Idaho Code, and hereby affirmatively promulgate and adopt alternative procedures and elect not to be governed by any of the provisions of IDAPA 04.11.01, et seq., “Idaho Rules of Administrative Procedure of the Attorney General.” (7-1-21)

02. Hearing Rights. Residents and applicants have the following rights to a hearing: (7-1-21)

a. If a resident of a Home is notified of transfer or discharge, the resident will be afforded an opportunity for a hearing. A resident of a Home must attempt to resolve the bases stated on the notice of action through verbal discussions with the Home Administrator or his designee prior to submission of a written request for a hearing. A resident will not be afforded an opportunity for a hearing based upon a voluntary transfer or discharge under Subsection 350.04 of these rules. (7-1-21)

b. If an application for residency in a Home is rejected, the applicant may request a hearing. (7-1-21)

03. Requesting a Hearing for Nursing Care. A request for a hearing from a nursing care resident for residency in a Home must be submitted to the Idaho Department of Health and Welfare, Fair Hearing Office, P.O. Box 83720, Boise, Idaho 83720. Requests for appeal should be received by the Idaho Department of Health and Welfare before thirty (30) days have passed in order to stop the discharge before it occurs. (7-1-21)

04. Requesting a Hearing for Residential and Domiciliary Care. (7-1-21)

a. A request for a hearing from a resident for residential and domiciliary care residency in a Home must be submitted through the Home Administrator to the Division Administrator for possible resolution or the scheduling of a hearing. A resident’s request must contain a description of what effort he has taken to satisfy the requirements of Paragraph 982.02.a. of these rules. (7-1-21)

b. A request for a hearing must be in writing and signed by the applicant/resident. (7-1-21)

c. A request for a hearing must be submitted within three (3) days of receipt of the written notice of action or denial. (7-1-21)

d. Pending a hearing, benefits will be continued or held in abeyance as follows: (7-1-21)

i. Benefits for domiciliary care, residential care, and nursing care residents will not be continued when the transfer or discharge is an emergency discharge under Subsection 350.01 of these rules or a discharge for
unauthorized absences under Paragraph 350.02.g. of these rules. If the hearing request is made before the effective
date of action and within three (3) days of receipt of the notice, no action will be taken by the Home Administrator on
a general discharge under Subsection 350.02 of these rules, except Paragraph 350.02.g., or a transfer under
Subsection 350.03 of these rules pending receipt of the final order. (7-1-21)

e. The Division Administrator will not accept a request for a hearing from a voluntary transfer or
discharge pursuant to Subsection 350.04 of these rules. (7-1-21)

983. PREHEARING PROVISIONS FOR RESIDENTIAL AND DOMICILIARY CARE.
The following general provisions are applicable to those phases of all appeals which occur before the hearing is
carried out unless precluded by statute or rule. (7-1-21)

01. Notice of Hearing. Upon the receipt of a timely request for a hearing, the hearing shall be arranged
by the Division Administrator and a notice sent to all parties that includes: (7-1-21)
a. A statement of the time, place and nature of the hearing; (7-1-21)
b. A statement of the legal authority under which the hearing is to be held; (7-1-21)
c. A reference to the particular sections of any statutes and rules involved; (7-1-21)
d. A statement of the issues involved; (7-1-21)
e. A statement that all documents to be relied upon by the hearing officer to make its order or notice
decision, or otherwise related to the issues involved in the hearing and relied upon by any party, are to be filed with
the Division Administrator and that each party must serve its own documents unless otherwise stated by law; (7-1-21)
f. A statement that all parties may be represented by counsel; and (7-1-21)
g. A statement concerning advance requests for hearing transcripts pursuant to Subsection 983.08 of
these rules. (7-1-21)
h. The assignment of a hearing officer for the hearing. The Division Administrator may designate the
Commission as a hearing officer. (7-1-21)

02. Prehearing Conference. The Division Administrator or hearing officer may, upon written or other
sufficient notice to all interested parties, hold a prehearing conference for the following purposes: (7-1-21)
a. To formulate or simplify the issues; (7-1-21)
b. To obtain admissions or stipulations of fact and of documents; (7-1-21)
c. To arrange for exchange of proposed exhibits or prepared expert testimony; (7-1-21)
d. To limit the number of witnesses; (7-1-21)
e. To determine the procedure at the hearing; and (7-1-21)
f. To determine any other matters which may expedite the orderly conduct and disposition of the
proceeding. (7-1-21)

03. Disposition of Case Without a Hearing. Unless precluded by law, disposition without a hearing
may be made of any contested case by stipulation, agreed settlement, consent order, motions to dismiss, summary
judgment, or default. (7-1-21)

04. Withdrawal of Appeal. The initiating party at any time may withdraw from any contested case
proceeding upon serving written notice of withdrawal to the Division Administrator. (7-1-21)

05. Withdrawal of Attorney or Representative. Any attorney or other person representing a party in a contested case proceeding who wants to withdraw from such proceeding must immediately notify, in writing, the Division Administrator, and all involved parties. (7-1-21)

06. Intervention. Persons, other than the original parties to the proceeding, who are directly and substantially affected by the proceeding, may intervene if they first secure an order from the Division Administrator granting leave to intervene. (7-1-21)

a. Granting of Leave to Intervene. The granting of leave to intervene or to otherwise appear in any matter or proceeding shall not be construed to be a finding or determination that such party will or may be a party aggrieved by any ruling, order or decision of the agency for purposes of judicial review or appeal. (7-1-21)

b. Form and Content of Petitions. Petitions for leave to intervene must be in writing and must clearly:

i. Identify the proceeding in which it is sought to intervene, setting forth the name and address of the intervenor; (7-1-21)

ii. Make a clear and concise statement of the direct and substantial interest of the intervenor in such proceeding and the relationship of the intervenor to the other parties; (7-1-21)

iii. State the manner in which such intervenor will be affected by such proceeding, outlining the matters and things relied upon by such intervenor as a basis for his request to intervene in such cause; (7-1-21)

iv. If affirmative relief is sought, the petition must contain a clear and concise statement of relief sought and the basis thereof; and (7-1-21)

v. A statement as to the nature and quantity of evidence the intervenor will present if such petition is granted. (7-1-21)

c. Filing of Petitions. All petitions must be filed with the Division Administrator. Petitions to intervene and proof of service thereof on all other parties of record must be filed within seven (7) days after receiving notice of the proceeding, or if no notice is received, not less than fourteen (14) days prior to the date set for hearing and, if filed thereafter, must state a substantial reason for such delay; otherwise the petition will not be considered. (7-1-21)

07. Hearing Record. The hearing officer or the Division Administrator will arrange for a record to be made of the hearing. The record must be a verbatim record and it will be recorded by a recording device, unless a party requests a stenographic recording by a certified court reporter, in writing, at least seven (7) days prior to the date of hearing. The record will be transcribed at the expense of the party requesting a transcription, and prepayment or guarantee of payment may be required. Once a transcription is requested, any party may obtain a copy at the party's own expense. The recorded proceedings will be provided to the Division Administrator for inclusion into the record. The Division will maintain an official record of each contested case for a period of not less than six (6) months after the expiration of the last date for judicial review, unless otherwise provided by law. The record will include all notices of proceedings, pleadings, motions, briefs, petitions and intermediate rulings, evidence received or considered, any oral or written statements allowed by the hearing officer or the Division Administrator, statement of matters officially noticed, offers of proof and objections and rulings thereon, the recording of the proceedings or any transcript of all or part of the proceedings, staff memoranda or data submitted to the hearing officer or the Division Administrator in connection with the proceeding, and any recommended order, preliminary order, final order or order on reconsideration. (7-1-21)

08. Subpoenas. Where authorized by law, the hearing officer may compel the attendance of specific persons and the production of specific documents, materials, or objects at any hearing by subpoena issued by the Division Administrator. (7-1-21)
09. **Stipulations.** The parties to a contested case proceeding may stipulate as to any fact at issue, either by written stipulation or by oral statement shown upon the record. Any such stipulation is binding upon all parties so stipulating and may be considered by the hearing officer and the Division Administrator. The hearing officer and the Division Administrator may require proof by evidence of any facts stipulated to, notwithstanding the stipulation of the parties. (7-1-21)T

10. **Rules of Civil Procedure.** As contested case proceedings and hearings are informal, the Idaho Rules of Civil Procedure do not apply. The hearing officer shall provide the procedure at the hearing, as required by the provisions of Section 67-5242(3), Idaho Code. (7-1-21)T

11. **Discovery.** Prehearing discovery shall be strictly limited to obtaining the names of witnesses and copies of documents the opposing party intends to offer or present at the hearing. The hearing officer may order disclosure of this information if a party refuses to comply after receiving a written request. (7-1-21)T

12. **Briefing Schedule.** The hearing officer may require briefs and written memoranda to be filed by the parties, and may establish a reasonable briefing schedule. (7-1-21)T

13. **Informal Disposition.** Unless otherwise prohibited by statute or rule, the hearing officer may decline to initiate a contested case. Informal disposition may be made of any contested case by negotiation, stipulation, agreed settlement or consent order, which informal settlement is encouraged. The parties may stipulate as to the facts, reserving their right to appeal to a court of competent jurisdiction on issues of law. The hearing officer may request such additional information as may be necessary to decide whether to initiate or to decide a contested case. If the hearing officer declines to initiate or decide a contested case, a brief statement of the reasons for that decision will be furnished to all persons or parties involved. This disposition of a contested case by informal disposition is a final agency action pursuant to Section 67-5241, Idaho Code. (7-1-21)T

984. **HEARING PROVISIONS FOR RESIDENTIAL AND DOMICILIARY CARE.**
The following general provisions are applicable to those phases of all hearings, unless precluded by statute or rule. (7-1-21)T

01. **Computation of Time.** In computing any period of time relating to a hearing, the first day of the period is not to be included. The last day of the period is to be included unless it is a Saturday, Sunday or legal holiday, in which case the period runs until 5 p.m. of the next working day, unless otherwise provided by law. (7-1-21)T

02. **Service of Documents.** Documents concerning hearings must be served as follows: (7-1-21)T

   a. All pleadings, briefs and subsequent papers must be served upon every party of record concurrently with the filing with the Division Administrator. (7-1-21)T

   b. All notices and orders required to be served, other than the initial complaint or petition, must be served in person or by first-class mail. (7-1-21)T

   c. The initial complaint or petition must be served in person or by certified mail. (7-1-21)T

   d. The initial hearing request must be served in person or by certified mail. (7-1-21)T

   e. Service by first-class or certified mail will be deemed complete when the document, properly addressed and stamped, is deposited in the United States mail. The postmark will be the determinant date for all time lines. (7-1-21)T

   f. Proof of service must accompany all documents when they are filed with the Division Administrator. (7-1-21)T

03. **Hearing Officer Authority.** In the context of each proceeding and unless precluded by law, the hearing officer has the discretion, power and authority to:
a. Determine the order of presentation; (7-1-21)T
b. Grant or deny petitions for reconsideration; (7-1-21)T
c. Determine the need, if any, for consolidation; (7-1-21)T
d. Rule on all evidentiary questions; (7-1-21)T
e. Rule on motions and objections and dispose of procedural requests; (7-1-21)T
f. Determine the need for prehearing conferences, recesses, adjournments, hearings on motions and postponements; (7-1-21)T
g. Administer oaths and affirmations; (7-1-21)T
h. Examine witnesses; (7-1-21)T
i. Issue subpoenas or request orders in the form of subpoenas as provided by law; (7-1-21)T
j. Prescribe general rules of hearing decorum and conduct; (7-1-21)T
k. Regulate the course of the proceeding; (7-1-21)T
l. Formulate a reasoned statement in support of the decision. Findings of fact should be set forth in statutory language and be accompanied by a concise and explicit statement of the underlying facts of record supporting the findings. (7-1-21)T
m. Perform any functions including those set forth in Sections 67-5241 through 67-5251, Idaho Code; and (7-1-21)T
n. All other functions specifically authorized by statute or rule. (7-1-21)T
o. The hearing officer shall not have the jurisdiction or authority to invalidate any federal or state statute, rule, or regulation. (7-1-21)T

04. Ex Parte Consultations. Ex parte communications between the hearing officer and any party to a contested case proceeding are precluded pursuant to Section 67-5253, Idaho Code. (7-1-21)T

05. Representation by Counsel. Any party in a contested case proceeding may be represented by counsel, at the party's own expense. (7-1-21)T

06. Open Hearings. All hearings may be open to the public, unless precluded by law. When the Commission is acting as a hearing officer, hearings will be held during regular meetings of the Commission unless otherwise scheduled by the Commission and will be arranged by the Division Administrator. (7-1-21)T

07. Testimony Under Oath. All testimony to be considered, with the exception of matters officially noticed or entered by stipulation, must be given under oath, as administered by the hearing officer or other authority authorized to administer oaths. (7-1-21)T

08. Appearance and Representation. Any party to a proceeding may appear and be heard in person or may authorize an attorney to represent the party at the party's own expense. Unless otherwise prohibited by law and with the prior approval of the hearing officer, a party may be assisted, but not represented, by a friend or relative. When a party chooses to appear in person and does not speak or understand the English language, an interpreter shall be allowed to interpret under oath. The interpreter is not allowed to act as a representative of the party and shall act at the party's own expense. (7-1-21)T

09. Default. If a party fails to appear at a scheduled hearing or at any stage of a contested case without
good cause and reasonable notice to the hearing officer and to all other parties, the hearing officer may enter a notice of proposed default order against the nonappearing party. A default order may be altered or set aside upon petition filed within seven (7) days of service of the order showing sufficient good cause stating the grounds relied on, and providing reasonable notice to all parties.

10. **Order of Presentation and Burden of Proof.** At any contested case hearing, the party having the burden of proof shall be the first to present testimony unless the hearing officer determines otherwise. Unless otherwise determined, in advance, by the hearing officer, the burden of proof shall be preponderance of the evidence.

11. **Evidence.** Pursuant to Section 67-5251, Idaho Code, the hearing shall be informal and technical rules of evidence do not apply, except that irrelevant, immaterial, incompetent, duly repetitious evidence, or evidence excludable on constitutional or statutory grounds protected by the rules of privilege recognized by law may be excluded. Hearsay evidence may be received if it is relevant to or corroborates competent evidence, but shall not be the sole basis for any finding of fact. Any part of the evidence may be received in written form if doing so will expedite the hearing without substantially prejudicing the interest of any party. Documentary evidence may be received in the form of copies or excerpts if the original is not readily available.

12. **Testimony by Telephone or Other Electronic Means.** With the prior approval of the hearing officer, witnesses may testify by telephone or other electronic means, provided the examination and responses are audible to all parties.

13. **Official Notice.**

   a. **Discretionary Notice.** Notice may be taken of judicially cognizable facts by the hearing officer on its own motion or on motion of a party. In addition, notice may be taken of generally recognized technical or scientific facts within the hearing officer’s specialized knowledge. Parties shall be notified either before or during the hearing, or by reference in preliminary reports or otherwise, of the material noticed including any staff memoranda or data, and the parties shall be afforded an opportunity to contest the material so noticed. The hearing officer’s experience, technical competence, and specialized knowledge may be utilized in the evaluation of the evidence.

   b. **Mandatory Notice.** For all hearings, the hearing officer must take official notice of the following materials on its own motion or on the motion of any party. Objections going to such notice must become a part of the record. For the purposes of the hearing, it is established as true without proof that the following are admissible, valid and enforceable:

      i. Rules of the Division and other state agencies;
      (7-1-21)T
      ii. Federal regulations;
      (7-1-21)T
      iii. The constitution and statutes of the United States and Idaho;
      (7-1-21)T
      iv. Public records; and
      (7-1-21)T
      v. Such other materials that a court of law must judicially notice.
      (7-1-21)T

14. **Hearing Officer Decision.** The hearing officer will issue a written order as provided in Section 67-5243, Idaho Code.

   a. Recommended orders will contain a statement of the schedule for review of that order by the Division Administrator.
   (7-1-21)T

   b. Preliminary orders will include notice of the right to seek a review of the order by the Division Administrator and a statement that the order will become final without a request for such review. A request for review shall be filed no later than fourteen (14) days following the issuance of the preliminary order, unless a request for reconsideration by the hearing officer is filed prior to the expiration of such fourteen (14) day period. If a petition for reconsideration is made, a request shall be filed within fourteen (14) days of the hearing officer’s order disposing of
the petition or the deemed denial of the petition pursuant to Section 67-5243, Idaho Code.

c. A party may file a motion for reconsideration with the hearing officer no later than fourteen (14) days following the issuance of the preliminary order or the recommended order.

15. Contents of the Record. Pursuant to Section 67-5249(2), Idaho Code, the record in a contested case proceeding will be kept by the Division Administrator, on behalf of the hearing officer, and must include the following:

a. All notices, pleadings, motions and rulings;

b. All evidence received or considered;

c. A statement of all matters officially noticed;

d. A record of testimony and offers of proof, objections and rulings thereon;

e. A record of proposed findings and exceptions;

f. Any decision, opinion, or report by the Commission;

g. All staff memoranda or data submitted to the Commission in connection with consideration of the case;

h. All briefs or memoranda submitted by any party; and

i. Any recommended order, preliminary order, final order, or order on reconsideration.

16. Review by the Division Administrator and Issuance of the Final Order. Following the issuance of an order by the hearing officer, the Division Administrator will:

a. Review recommended orders as provided in Section 67-5244, Idaho Code;

b. Review preliminary orders upon the appeal of a party or upon the Division Administrator's own motion as provided in Section 67-5245, Idaho Code; and

c. Issue a final order as provided in Section 67-5246, Idaho Code.

17. Judicial Review. In accordance with Section 67-5271, Idaho Code, a party which has exhausted all administrative remedies available within the Division may seek judicial review. Proceedings for judicial review shall be instituted in accordance with Sections 67-5270 and 67-5273, Idaho Code.

985. POST HEARING PROVISIONS FOR RESIDENTIAL AND DOMICILIARY CARE.
The following provisions are applicable to those phases of all contested case proceedings which occur after the hearing has been conducted:

01. Service of Decisions and Orders. Decisions and orders are deemed to have been served when copies thereof are mailed to all parties of record or their attorneys by the Division Administrator.

02. No Motions for Reconsideration. Unless otherwise provided by law or these rules, motions for reconsideration shall not be permitted.

03. Public Inspection. All final decisions and orders of the Commission must be maintained by the Division Administrator and made available for public inspection after service on the parties.

04. Effect of Petition for Judicial Review. The filing of a petition for judicial review shall not stay compliance with the decision and order or suspend the effectiveness of the decision and order, unless otherwise
ordered or mandated by law.  

986. -- 999.  (RESERVED)
000. LEGAL AUTHORITY.
The Idaho Legislature has given the Administrator of the Division of Veterans Services the authority to promulgate rules governing the Idaho State Veterans Cemetery pursuant to Section 65-202, Idaho Code.

001. SCOPE.
These rules contain provisions for eligibility for interment at Idaho State Veterans Cemeteries and the provisions for operation and maintenance of Idaho State Veterans Cemeteries.

002. INCORPORATION BY REFERENCE.
01. Incorporated Documents. These rules incorporate by reference the following:
   c. 38 CFR 39.5(d), dated July 1, 2008.

003. -- 009. (RESERVED)

010. DEFINITIONS.
01. Administrator. The Administrator of the Idaho Division of Veterans Services or his designee.
02. Applicant. The individual requesting interment, disinterment or reinterment of a qualified person.
03. Armed Forces Member. A member or former member of the armed forces of the United States, the reserve component of the armed forces of the United States, the reserve officers training corps of the United States, or the armed forces of an ally of the United States who is eligible for burial in national cemeteries pursuant to 38 CFR 38.620 and 38 U.S.C. Section 2402.
05. Committal Service. A gathering of one (1) or more individuals prior to interment or reinterment.
06. Cremains. Cremated human remains.
07. Designated Interpretive Trail. A public recreational trail designated by a sign or marker.
08. Disinterment. The removal of human remains from their place of interment.
09. Division. The Idaho Division of Veterans Services.
10. Interment. The disposition of human remains by burial or the placement of cremains in a grave plot or in any location designated by the Administrator for use as a permanent location of cremains.
11. Qualified Person. A person who satisfies the requirements for eligibility for interment in national cemeteries found at 38 CFR 38.620 and 38 U.S.C. Section 2402 and is not prohibited from being interred by 38 CFR 39.10(b).
12. Reinterment. The interment of previously interred human remains.
13. Unremarried Spouse. An individual who is the surviving spouse of a deceased armed forces
member and who has not remarried. (7-1-21)T

14. USDVA. The United States Department of Veterans Affairs. (7-1-21)T

011. -- 019. (RESERVED)

020. ELIGIBILITY FOR INTERMENT.

01. Eligibility. A qualified person is eligible for interment at the cemetery. An individual who is a qualified person based upon a relationship to an armed forces member is eligible for interment at the cemetery if the armed forces member is pre-registered for interment at the cemetery or is interred at the cemetery. (7-1-21)T

02. Requirements. (7-1-21)T

a. Proof of qualification as an Armed Forces Member as evidenced by:

i. A valid discharge from the armed forces of the United States in the name of the individual indicating that the character of discharge was other than dishonorable; (7-1-21)T

ii. A copy of a Reserve Retirement Eligibility Benefits Letter in the name of the individual; (7-1-21)T

iii. A valid certificate of naturalization or a valid United States passport in the name of the individual and a valid discharge in the name of the individual from the armed forces of an ally of the United States in a war during which the individual served indicating that the character of discharge was other than dishonorable; (7-1-21)T

iv. Any other evidence satisfactory to the Administrator. (7-1-21)T

b. Proof of qualification for relatives of an Armed Forces Member as evidenced by the documentation necessary for an Armed Forces Member and the following:

i. For a parent of the individual, a valid birth or adoption record identifying such parent, and proof of the individual’s birth date; or (7-1-21)T

ii. For the spouse of the individual, a valid record of marriage between the individual and the armed forces member, and a certification that the individual was an unremarried spouse at the time of death, if the armed forces member predeceased the individual; or (7-1-21)T

iii. Any other evidence satisfactory to the Administrator. (7-1-21)T

03. Burden of Proof. The burden of proof in establishing eligibility for interment or reinterment in the cemetery is on the applicant. (7-1-21)T

04. Application. Applications must be submitted on a form prescribed by the Administrator by a qualified person or their legal representative, the Administrator of their estate, or the personal representative or a relative of a deceased person. (7-1-21)T

021. (RESERVED)

022. INTERMENT AND REINTERMENT.

01. Remains. Remains shall be delivered to the cemetery in a casket or, if cremated, in a recoverable container. The container for cremains designated by the applicant for interment in a location other than a grave plot shall not exceed nine (9) inches in width, thirteen (13) inches in height, and nine (9) inches in depth. (7-1-21)T

02. Committal Services. The cemetery will provide a designated non-gravesite location for committal services. The cemetery will not provide facilities for viewing of remains. The arrangements for and any expenses associated with committal services are the responsibility of the applicant. (7-1-21)T
023. DISINTERMENT AND REINTERMENT.

01. Disinterment. The Administrator may approve an application for disinterment where the applicant for interment, the surviving unremarried spouse, if any, and the children of the interred person, or the legal representatives of any of the foregoing persons, complete and sign an application form prescribed by the Administrator and submit proof of applicable governmental approval of the disinterment, transporting, and reinterment of the remains. The Administrator shall approve an application for disinterment accompanied by the order of a court of competent jurisdiction. (7-1-21)T

02. Reinterment. (7-1-21)T

a. Who May Be Reinterred. The Administrator may approve an application for reinterment of remains in the cemetery where the remains are of a qualified person and the applicant for interment desires that the remains be interred with remains interred in the cemetery or with the remains of a qualified person pre-registered for interment in the cemetery. (7-1-21)T

b. Application and Proof of Eligibility. The applicant for reinterment shall complete an application form prescribed by the Administrator and submit proof of the eligibility of the qualified person and proof of applicable governmental approval of the disinterment, transporting, and reinterment of the remains. If the application seeks reinterment of the remains of a qualified person, the applicant shall identify the qualified person with whom the reinterred remains will be interred. (7-1-21)T

024. FEES FOR INTERMENT, DISINTERMENT, REINTERMENT, AND MEMORIAL. The Administrator shall charge the following fees:

01. Interment. (7-1-21)T

a. A fee equal to the then current USDVA reimbursement for opening and closing an interment site containing a pre-placed crypt. The Administrator will accept, as full payment the amount of reimbursement by the USDVA to the Division for opening and closing an interment site containing a pre-placed crypt for a qualified veteran. (7-1-21)T

b. In addition to the fee charged under Paragraph 024.01.a. of this rule, the Administrator shall charge a fee of seven hundred dollars ($700) for preparation of an interment site not containing a pre-placed crypt. (7-1-21)T

02. Disinterment. A fee equal to the then current USDVA reimbursement for opening and closing an interment site. The expenses of removal, transportation and reinterment of remains, and the expenses of removal, transportation and reinstallation of the grave marker, if any, shall be paid by the applicant for disinterment. (7-1-21)T

03. Reinterment. A fee equal to the then current USDVA reimbursement for opening and closing an interment site for reinterment. The expenses of reinterment of remains and reinstallation of the grave marker, if any, shall be paid by the applicant for reinterment. (7-1-21)T

04. Memorial Marker. A fee of two hundred dollars ($200) to order, install, and provide perpetual care of a furnished flush granite marker to commemorate an eligible deceased Veteran whose remains have not been recovered or identified, were buried at sea, donated to science, or cremated and the remains scattered. (7-1-21)T

025. -- 029. (RESERVED)

030. CEMETERY USE.

01. Public Use. The cemetery will be open to public access from 8 a.m. to sunset daily. The Administrator may close the cemetery at 6 p.m. when a public fireworks display is planned. (7-1-21)T

02. Interment Schedule. Cemetery staff will schedule interments to ensure that cemetery staff complete their duties between the hours of 8 a.m. and 5 p.m. Cemetery staff will not schedule interments on
3. Public Behavior. The Administrator may adopt and enforce policies regarding public behavior in the cemetery, including but not limited to preservation of property, recreation, ceremonies and gatherings, animals, motor vehicles, alcohol, and photography.

31. -- 39. (RESERVED)

40. MEMORIALS AND DONATIONS.

1. Flowers and Grave Decorations. The Administrator will post the requirements for natural and artificial flowers and other grave decorations in the cemetery. Cemetery personnel may remove and discard grave decorations that fail to comply with the posted requirements or that are faded, wilted, tattered or worn.

2. Plaques, Statues, and Other Memorials. The Administrator may approve plaques, statues, and other memorials to commemorate events, units, individuals, groups, and organizations. Persons wishing to install such memorials at their own cost may submit an application on a form prescribed by the Administrator. Memorials approved by the Administrator are considered donations to the cemetery.

3. Grave Markers. Grave markers issued by the USDVA are approved as follows:

b. Interments in an area reserved for the interment of cremains in the soil – Flush granite markers.

c. Interment of cremains in a structure reserved for the interment of cremains – Granite niche markers.

4. Donations and Gifts. The Administrator may accept gifts and donations to the Veterans Cemetery Maintenance Fund established pursuant to Section 65-107, Idaho Code.
EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to I.C. § 67-2604, and the following sections of Idaho Code:

IDAPA 24.33 – Sections 54-1806(1), 54-5105, 54-3913, 54-4305, and 54-3505, Idaho Code;

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 24, rules of the Division of Occupational and Professional Licenses:

IDAPA 24
• 24.33.03, General Provisions of the Board of Medicine;
• 24.39.32, Rules Governing Manufactured Homes – Consumer Complaints – Dispute Resolution;
• 24.39.60, Rules Governing Uniform School Building Safety; and

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the adoption of temporary rules, contact the undersigned.

DATED this 1st day of July, 2021.

Tim Frost, Operations and Regulatory Bureau Chief
Division of Occupational & Professional Licenses
Phone: (208) 577-2491
11351 W. Chinden Boulevard, Building #6
Boise, ID 83714

000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Section 54-1806(2), Idaho Code. (7-1-21)T

001. SCOPE.
The rules govern general aspects of Board of Medicine operations. (7-1-21)T

002. -- 099. (RESERVED)

100. GENERAL QUALIFICATIONS FOR LICENSURE.

01. Application. All applications for license or permit will be made to the Board on forms supplied by the Board, will be verified, must include all requested information, and must include the nonrefundable application fee. (7-1-21)T

02. Application Expiration. All applicants must complete their license application within one (1) year unless extended by the Board after filing an application for extension. Unless extended, applications that remain on file for more than one (1) year will be considered null and void and a new application and new fees will be required as if filing for the first time. (7-1-21)T

03. Personal Interview. The Board may, at its discretion, require the applicant to appear for a personal interview. (7-1-21)T

04. Residence. No period of residence in Idaho is required of any applicant, however, each applicant for licensure must be legally able to work and live in the United States. Original documentation of lawful presence in the United States must be provided upon request only. The Board may refuse licensure or to renew a license if the applicant is not lawfully present in the United States. (7-1-21)T

101. LICENSE OR PERMIT EXPIRATION AND RENEWAL.

01. License Expiration. Licenses and permits will be issued for a period of not more than five (5) years. All licenses expire on the expiration date printed on the face of the certificate and become invalid after that date unless renewed. The Board will collect a fee for each renewal year of a license. Prorated fees may be assessed by the Board to bring the expiration date of the license within the next occurring license renewal period. (7-1-21)T

02. Renewal. Each license to practice medicine may be renewed prior to its expiration date by the payment of a renewal fee to the Board and by completion of a renewal form provided by the Board. In order to be eligible for renewal, a licensee must provide a current address and e-mail address to the Board and must notify the Board of any change of address or e-mail address prior to the renewal period. Licenses not renewed by their expiration date will be canceled. (7-1-21)T

03. Reinstatement. Licenses canceled for nonpayment of renewal fees may be reinstated by filing a reinstatement application on forms prescribed by the Board and upon payment of a reinstatement fee and applicable renewal fees for the period the license was lapsed. (7-1-21)T

04. Reapplication. A person whose license has been canceled for a period of more than five (5) years, is required to make application to the Board as a new applicant for licensure. (7-1-21)T

102. LICENSE BY ENDORSEMENT.
Where permitted by law, an applicant, in good standing with no restrictions upon or actions taken against their license to practice in a state, territory or district of the United States or Canada is eligible for licensure by endorsement to practice medicine in Idaho. An applicant with any disciplinary action, including past, pending, or confidential, by any board of medicine, licensing authority, medical society, professional society, hospital, medical school or institution staff in any state, territory, district or country is not eligible for licensure by endorsement. An applicant ineligible for licensure by endorsement may make a full and complete application pursuant to the requirements found in Title 54, Idaho Code, IDAPA 24.33.03, and on Board-approved forms. (7-1-21)T

01. Application. All applications for license or permit will be made to the Board on forms supplied by the Board, will be verified, must include all requested information, and the nonrefundable application fee. (7-1-21)T

02. Character. An applicant is not eligible for licensure by endorsement if the Board finds the applicant has engaged in conduct prohibited by state law for that specific category of licensure. (7-1-21)T
03. **Residence.** No period of residence in Idaho is required of any applicant, however, each applicant for licensure must be legally able to work and live in the United States. Original documentation of lawful presence in the United States must be provided upon request. The Board may refuse licensure or to renew a license if the applicant is not lawfully present in the United States. (7-1-21)

103. (RESERVED)

104. **INACTIVE LICENSE**

01. **Issuance of Inactive License.** Any applicant who is eligible to be issued a license by the Board, except a volunteer license, may be issued, upon request, an inactive license to practice on the condition that he will not engage in the practice of the relevant profession in this state. An inactive license fee will be collected by the Board. (7-1-21)

02. **Renewal of Inactive License.** Inactive licenses will be issued for a period of not more than five (5) years and such licenses will be renewed upon payment of an inactive license renewal fee. The inactive license certificate will set forth its date of expiration. (7-1-21)

03. **Inactive to Active License.** An inactive license may be converted to an active license by application to the Board and payment of required fees. Before the license will be converted the applicant must account for the time during which an inactive license was held. The Board may, in its discretion, require a personal interview. (7-1-21)

105. -- 149. (RESERVED)

150. **ADDITIONAL GROUNDS FOR SUSPENSION, REVOCATION, DISCIPLINARY SANCTIONS OR DENIAL OR RESTRICTION OF A LICENSE.**

01. **Discipline.** In addition to the grounds for discipline set forth in Idaho Code, every person licensed or permitted by the Board is subject to discipline upon any of the following grounds: (7-1-21)

02. **Unethical Advertising.** Advertising the licensee or permittee's practice in any unethical or unprofessional manner, including but not limited to:
   a. Using advertising or representations likely to deceive, defraud or harm the public. (7-1-21)
   b. Making a false or misleading statement regarding the licensee or permittee's skill or the efficacy or value of the treatment, remedy, or service offered, performed, or prescribed by the licensee or permittee. (7-1-21)

03. **Standard of Care.** Providing health care that fails to meet the standard of health care provided by other qualified licensees or permittees of the same profession, in the same community or similar communities, including but not limited to:
   a. Being found mentally incompetent or insane by any court of competent jurisdiction. (7-1-21)
   b. Engaging in practice or behavior that demonstrates a manifest incapacity or incompetence to practice his or her profession. (7-1-21)
   c. Allowing another person or organization to use his or her license or permit to practice his or her profession. (7-1-21)
   d. Prescribing, selling, administering, distributing or giving any drug legally classified as a controlled substance or recognized as an addictive or dangerous drug to himself or herself or to a spouse, child or stepchild. (7-1-21)
   e. Using any controlled substance or alcohol to an extent that use impairs the licensee or permittee's
ability to practice his or her profession competently. (7-1-21)T

f. Violating any state or federal law or regulation relating to controlled substances. (7-1-21)T

g. Directly promoting surgical procedures or laboratory tests that are unnecessary and not medically indicated. (7-1-21)T

h. Failure to transfer pertinent and necessary medical records to another provider when requested to do so by the subject patient or client or by his or her legally designated representative. (7-1-21)T

i. Failing to maintain adequate records. Adequate patient or client records means legible records that contain, at a minimum, subjective information, an evaluation and report of objective findings, assessment or diagnosis, and the plan of care. (7-1-21)T

j. Providing care or performing any service outside the licensee or permittee's scope of practice as set forth in Idaho Code, including providing care or performing a service without supervision, if such is required by Idaho Code or Board rule. (7-1-21)T

k. Failing to have a supervising or directing physician who is licensed by the Board, if such supervision is required by Idaho Code or Board rule. (7-1-21)T

04. Conduct. Engaging in any conduct that constitutes an abuse or exploitation of a patient or client arising out of the trust and confidence placed in the licensee or permittee by the patient or client, including but not limited to:

a. Obtaining any fee by fraud, deceit or misrepresentation. (7-1-21)T

b. Employing abusive billing practices. (7-1-21)T

c. Commission of any act of sexual contact, misconduct, exploitation or intercourse with a patient or client or former patient or client or related to the licensee's practice. (7-1-21)T

i. Consent of the patient or client shall not be a defense. (7-1-21)T

ii. This Section 150 does not apply to sexual contact between a licensee or permittee and the licensee or permittee's spouse or a person in a domestic relationship who is also a patient or client. (7-1-21)T

iii. A former patient or client includes a patient or client for whom the licensee or permittee has provided services related to the licensee or permittee's practice, including prescriptions, within the last twelve (12) months; sexual or romantic relationships with former patients or clients beyond that period of time may also be a violation if the licensee or permittee uses or exploits the trust, knowledge, emotions or influence derived from the prior professional relationship with the patient or client. (7-1-21)T

d. Accepting any reimbursement for service, beyond actual expenses, while providing services under a volunteer license. (7-1-21)T

e. Employing, supervising, directing, aiding or abetting a person not licensed or permitted in this state who directly or indirectly performs activities or provides services requiring a license or permit. (7-1-21)T

f. Failing to report to the Board any known act or omission of a Board licensee or permittee that violates any provision of these rules. (7-1-21)T

g. Interfering with an investigation or disciplinary proceeding by willful misrepresentation of facts or by use of threats or harassment against any patient or client, Board or Advisory Board or Committee member, Board staff, hearing officer, or witness in an attempt to influence the outcome of a disciplinary proceeding, investigation, or other legal action. (7-1-21)T
h. Failing to obey any and all state and local laws and rules related to the licensee or permittee's practice or profession. (7-1-21)T

05. Failure to Cooperate. Failing to cooperate with the Board during any investigation or disciplinary proceeding, even if such investigation or disciplinary proceeding does not personally concern the particular licensee. (7-1-21)T

151. ON SITE REVIEW.
The Board, by and through its designated agents, is authorized to conduct on-site reviews of the activities of its licensees at the locations and facilities in which the licensees practice at such times as the Board deems necessary. (7-1-21)T

152. – 999. (RESERVED)
000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Section 44-2102(4), Idaho Code. (7-1-21)T

001. SCOPE.
The rules establish a program for the timely resolution of disputes between manufacturers, retailers and installers of manufactured homes in order to comply with Federal Housing and Urban Development regulations within 42 U.S.C. Section 5422(c)(12). (7-1-21)T

002. -- 012. (RESERVED)

013. INVESTIGATION.
  01. Site Inspection. The Division may perform a site inspection, based on the nature of a complaint or upon request of the complainant. (7-1-21)T
  02. Fees. A charge for mileage to and from the inspection site, plus an hourly charge for the time spent conducting the inspection, is assessed the manufacturer, installer, or retailer if a site inspection is made upon a request by the manufacturer, installer, or retailer, and does not involve a serious defect or imminent safety hazard. (7-1-21)T
  03. Inspection Report. Following a site inspection, the inspector will prepare a final report and include photographs. (7-1-21)T

014. ACTION.
A notification letter and copies of the complaint form and investigation findings may be provided to all involved parties and HUD. (7-1-21)T
  01. Division Action. Any Division action, notification and follow-up are completed according to HUD guidelines. (7-1-21)T
  02. License File. If the nature of the complaint pertains to retailer contractual issues or installation problems, a copy of the complaint is to be consolidated with the appropriate Division license files. (7-1-21)T
  03. Correction or Repair. A Division building inspector will issue a report concerning correction or repair of defects that are a matter of dispute between the homeowner, retailer, installer, or manufacturer. The report will include the likely cause of the defect and identify the party responsible for creating the defect that is in need of correction or repair. (7-1-21)T

015. DECISIONS - APPEALS - INFORMAL DISPOSITION.
  01. Decisions. The Administrator will review the inspector’s report and set forth the required corrective action and identify the party responsible for such action. The Administrator may initiate a contested case proceeding if, in his sole discretion, he determines that such a proceeding or further investigation would be of assistance in reaching a decision. The decision must direct the responsible party to complete the required corrective action within specified timelines and consider the needs of the involved parties including, but not limited to, safety, anticipated expense and availability of funds, time of year, and convenience to the parties. (7-1-21)T
  02. Appeals. Decisions of the administrator are final orders for purposes of appeal. (7-1-21)T
  03. Informal Disposition -- Arbitration -- Mediation. Unless otherwise prohibited by other provisions of law, informal disposition may be made of any complaint by negotiation, stipulation, agreed settlement, and consent order. The parties may agree to enter into binding arbitration or mediation. Informal settlement of matters is to be encouraged. (7-1-21)T

016. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Section 39-8007, Idaho Code. (7-1-21)

001. SCOPE.
The rules prescribe the Idaho Uniform School Building Safety Code and provide for enforcement and administration of the Idaho Uniform School Building Safety Act. (7-1-21)

002. INCORPORATION BY REFERENCE.

01. Uniform Codes. The following uniform codes are hereby incorporated by reference into these rules as, and insofar as, the most recent editions have been adopted by the appropriate governing authority for the state of Idaho pursuant to applicable Idaho Code:

a. International Building Code; (7-1-21)
b. International Mechanical Code; (7-1-21)
c. International Fuel Gas Code; (7-1-21)
d. Safety Code for Elevators and Escalators (ASME/ANSI A17.1); (7-1-21)
e. International Energy Conservation Code; (7-1-21)
f. Accessible and Usable Buildings and Facilities (ICC/ANSI A117.1); (7-1-21)
g. Idaho Fire Code (IFC); (7-1-21)
h. National Electrical Code (NEC); (7-1-21)
i. Idaho State Plumbing Code (UPC); (7-1-21)
j. Pacific NW AWWA Manual for Backflow Prevention and Cross Connection Control; and (7-1-21)
k. Idaho Safety and Occupational Health Standards. (7-1-21)

02. Idaho Uniform School Building Safety Code. The codes set forth in Subsection 002.01 of this rule, together with the definitions contained therein and the written interpretations thereof, insofar as they are applicable to school facilities, constitute the Idaho Uniform School Building Safety Code. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS.

02. Building Code. The Building Code specified in Paragraph 002.01.a. of these rules. (7-1-21)

03. Code. The Idaho Uniform School Building Safety Code. (7-1-21)

04. School Building or Building. Any school building, including its structures and appurtenances necessary for the operation of the school building, and subject to the provisions of the Act. (7-1-21)

011. -- 049. (RESERVED)

050. VIOLATION OF CODE.

01. Imminent Safety Hazard. Code violations that constitute an imminent safety hazard, include, but are not limited to, whenever the following are observed:

a. Any door, aisle, passageway, stairway or other means of exit is not of sufficient width or size or is
not so arranged as to provide safe and adequate means of exit in case of fire or panic; (7-1-21)T

b. The walking surface of any aisle, passageway, stairway or other means of exit is so warped, worn, loose, torn or otherwise unsafe as to not provide safe and adequate means of exit in case of fire or panic; (7-1-21)T
c. The stress in any materials, member or portion thereof, due to all dead and life loads, is more than one and one half (1-1/2) times the working stress or stresses allowed in the Building Code for new buildings of similar structure, purpose or location; (7-1-21)T
d. Any portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the Building Code for new buildings of similar structure, purpose or location; (7-1-21)T
e. Any portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property; (7-1-21)T

f. Any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place so as to be capable of resisting a wind pressure of one-half (1/2) of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the Building Code for such buildings; (7-1-21)T
g. Any portion thereof has wracked, warped, buckled or settled to such an extent that walls or other structural portions have materially less resistance to winds or earthquakes than is required in the case of similar new construction; (7-1-21)T

h. The building or structure, or any portion thereof, because of:
i. Dilapidation, deterioration or decay; (7-1-21)T

ii. Faulty construction; (7-1-21)T

iii. The removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building; (7-1-21)T

iv. The deterioration, decay or inadequacy of its foundation; or (7-1-21)T

v. Any other cause, is likely to partially or completely collapse; (7-1-21)T

i. Any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the building regulations of this jurisdiction, as specified in the Building Code, or of any law or ordinance of this state or jurisdiction relating to the condition, location or structure of buildings; (7-1-21)T

j. Any building or structure which, whether or not erected in accordance with all applicable laws and ordinances, has in any nonsupporting part, member or portion less than fifty percent (50%), or in any supporting part, member or portion less than sixty-six percent (66%) of the:

i. Strength; (7-1-21)T

ii. Fire-resisting qualities or characteristics; or (7-1-21)T

iii. Weather-resisting qualities or characteristics required by law in the case of a newly constructed building of like area, height and occupancy in the same location; (7-1-21)T

k. Any building or structure, because of obsolescence; dilapidated condition; deterioration; damage;
inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections or heating apparatus; or other cause, is determined by the state fire marshal to be a fire hazard; 

l. A building or structure, because of inadequate maintenance; dilapidation; decay; damage; faulty construction or arrangement; inadequate light, air or sanitation facilities; or otherwise, is determined to be unsanitary, unfit for human occupancy or habitation, or in such a condition that is likely to cause accidents, sickness, or disease; 

m. Any building or structure, because of dilapidated condition; deterioration; damage; inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections, or heating apparatus; or other cause, is determined by the state fire marshal to be a fire or life safety hazard; and 

n. There is, within the building, the presence of vapors, fumes, smoke, dusts, chemicals, or materials in any form (natural or man made) in quantities that have been established by national health organizations to be a threat to the health or safety of the building occupants. This does not include materials stored, used, and processed in accordance with nationally recognized safety standards for the materials in question.
SUBCHAPTER A – GENERAL PROVISIONS
(Rules 000 - 050)

000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Section 67-2601A, Idaho Code. (7-1-21)T

001. SCOPE.
The rules are applicable to the logging industry in the state of Idaho. (7-1-21)T

002. -- 006. (RESERVED)

007. DEFINITIONS A THROUGH C.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined. (7-1-21)T

01. A-Frame. A structure made of the independent columns (of wood or steel) fastened together at the top and separated a reasonable width at the bottom to stabilize the unit from tipping sideways. (7-1-21)T

02. Arch. A piece of equipment attached to the rear of a vehicle, used for raising one end of logs to facilitate skidding. (7-1-21)T

03. Back Cut. The final falling cut. (7-1-21)T

04. Barber Chair. Slab portion of tree remaining on the stump above the back cut due to improper falling. (7-1-21)T

05. Bight. The loop of a line, the ends being “gast” elsewhere, or the angle formed by a line running through a block. (7-1-21)T

06. Binder. Chain, cable, or steel strap used for binding loads of logs. (7-1-21)T

07. Brow Log. A log placed parallel to any roadway at a landing or dump to protect vehicles while loading or unloading. (7-1-21)T

08. Bullbuck. The supervisor over cutting crew. (7-1-21)T

09. Buckle Guy Line. Line used to stiffen or support a tree, pole, or structure between the top guys and the base. (7-1-21)T

10. Bunk. The cross support for logs on a logging car or truck. (7-1-21)T

11. Butt Hook. Hook at the end of a haul-in line for attaching chokers to line. (7-1-21)T

12. Butt Rigging. Arrangement at the end of main line for attaching chokers. (7-1-21)T

13. Cable-Assisted Logging Systems. Logging systems, including, but not limited to, winch-assisted, cable-assisted, tethered, and traction-assisted systems that enable ground-based timber harvesting machines, including, but not limited to, feller bunchers, harvesters, loaders and shovels, to be operated on slopes. (7-1-21)T

14. Capped Fuse. A piece of fuse to which a blasting cap has been crimped. (7-1-21)T

15. Carriage Logging. A type of high lead logging using gravity, haul back, or remote control carriages to yard logs. (Bullet carriage is one type). (7-1-21)T

16. Cat Road. A tractor road. (7-1-21)T

17. Chaser. The member of the yarding crew who unhooks the logs at the landing or fights hang-ups on skid road. (7-1-21)T

18. Chipper. A machine that cuts materials into chips. (7-1-21)T
19. **Chock (Bunk Block-Cheese Block).** A wedge that prevents logs from rolling off the bunks. (7-1-21)

20. **Cheater.** An extension to bunk stakes. (7-1-21)

21. **Choker.** A wire rope with special attachments put around the log near the end for hauling or lifting. (7-1-21)

22. **Cold Deck.** Any pile of logs that is yarded and left for future removal. (7-1-21)

23. **Cold Shut.** A link for joining two (2) chains, the link being closed cold with a hammer, not a weld. (7-1-21)

24. **Competent Person.** An individual who is capable of identifying existing and predictable hazards in the work site surroundings or working conditions that are unsanitary, hazardous or dangerous to employees, and who has authorization to take prompt corrective measures to eliminate such. (7-1-21)

25. **Cutter.** A term used to designate faller or bucker. (7-1-21)

**008. DEFINITIONS D THROUGH I.**

Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined. (7-1-21)

01. **Dead Man.** A buried log or other object used as an anchor. (7-1-21)

02. **Drag-Turn.** Any log or group of logs attached by some means of power and moved from a point of rest. (7-1-21)

03. **Equipment.** The term, as used, means and include all machines, machinery, tools, devices, safeguard, and protective facilities used in connection with logging operations, regardless of ownership. (7-1-21)

04. **Fair Lead.** A combination of a pair of sheaves or roller set transversely or vertically in a unit in front of another pair of sheaves to guide a line coming from any direction and leading it properly to a drum. (7-1-21)

05. **Grapple.** A device attached to a hoisting line for mechanically handling logs. (7-1-21)

06. **Guarded.** Guarded means covered, shielded, or railed so as to remove the possibility of dangerous contact or approach by employees or objects. It further means construction of guards to ensure protection from flying objects where applicable. (7-1-21)

07. **Guy Lines.** The lines used to stay or support spar trees, booms, etc. (7-1-21)

08. **Haul Back.** A small wire line traveling between the power skidder and a pulley set near the logs. Used to return the main cable with tongs, chokers, or hooks to the next log. (7-1-21)

09. **Hazard.** Hazard, as used in these standards, means any condition or circumstance that may cause accident or injury to an employee. (7-1-21)

10. **Heel Boom.** A type of loading boom where one end of the log is pulled up against the boom. (7-1-21)

11. **Hook Tender, Hooker.** The worker who supervises the method of moving the logs from the woods to the place of loading. (7-1-21)

12. **It is Recommended, or Should.** When these terms are used they indicate provisions that are not
009. DEFINITIONS J THROUGH R.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined.

01. **Jaggers**. Any projecting broken strand of cable.

02. **Jammer**. A machine used for handling logs.

03. **Jill Poke**. A projecting object out of its normal position.

04. **Knob**. A metal ferrule arranged to be attached to the end of a line, used in place of a spliced eye.

05. **Landing**. Any place where logs are placed, after being yarded, awaiting loading or unloading.

06. **Lang Lay Rope**. A wire rope, in which the wires in the strands of the rope are laid in the same direction.

07. **Leaners**. A live or dead leaning tree.

08. **Loading Boom**. Any structure projecting from a pivot point to guide a log when lifted.

09. **Log or Logs**. When the word log or logs is used, it includes poles, piling, pulpwood, skids, etc.

10. **Operation (Show Woods Layout)**. Any place where logging is being done.

11. **Mainline**. A cable which pulls logs or trees to loading.

12. **Pike, Pole**. A long pole whose end is shod with a sharp pointed steel spike, point, or hook.

13. **Portable Spar or Tower**. An engineered structure designed to be used in a manner similar to which a wooden spar tree would be used.

14. **Qualified Person**. An individual who, by possession of a recognized degree, certificate or professional standing, or who by extensive knowledge, training and experience, has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project.

15. **Reach**. An adjustable beam between a trailer and a motorized logging vehicle.

16. **Running Line**. Any line that moves.

010. DEFINITIONS S THROUGH Z.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined.

01. **Safety Factor**. This term as used is the ratio of the ultimate breaking strength of a member or piece of material to the actual working stress or to the maximum permissible (safe load) stress. For example: When a safety factor of six (6) is required, the structure, lines, hoists, or other equipment referred to shall be such as to provide a strength sufficient to support a load equal to six (6) times the total weight or stress to be imposed on it.

02. **Sail Guy**. A guy which holds the outer end of a boom.

011. INTERPRETATION AND APPLICATION OF THESE RULES.

01. Scope. These rules are part of the state of Idaho industrial accident prevention program and have
the full force and effect of law. (7-1-21)T

02. Jurisdiction. In accordance with the laws of the state of Idaho, every employer and every
employee working in the state of Idaho shall comply with the rules contained herein. (7-1-21)T

03. Enforcement. The enforcement of all rules of this chapter and the right of inspection and
examination, at any time, shall rest with the Division. (7-1-21)T

04. Issues Not Covered. Where specific standards in these rules fail to provide a rule or standard
applicable to the operation in question, and other state of Idaho codes or standards are applicable, those codes or
standards shall apply. (7-1-21)T

05. Interpretations. Should any controversy develop as to the intent or application of any standard or
rule as set forth in these rules, or the interpretation of any standard or rule set forth in these rules, such controversy
shall be called to the direct attention of the Division, which shall render a decision as the applicability of such rule or
standard. Any appeal from this decision shall be directed to the Administrator. (7-1-21)T

06. Additional Standards. It is recognized that a definite, positive safety standard cannot anticipate all
contingencies. The Division, after due notice and opportunity to be heard, may require additional standards and
practices to insure adequate safety at any place of any employment, and, on its own motion or upon application of any
employer, employee, group, or organization, may modify any provision of this rule. (7-1-21)T

07. Exceptions. In exceptional cases where the rigid application or compliance with a requirement can
only be accomplished to the detriment and serious disadvantage of an operation, method, or process, exception to the
requirement will be considered upon written application to the Division. After thorough investigation, the Division
may grant an exception if human life and physical well being will not be endangered by such exception. (7-1-21)T

08. Existing Buildings, Structures, and Equipment. Nothing contained in this rule for logging safety
shall prevent the use of existing buildings, structures, and equipment during their lifetime when maintained in good
safe condition, and properly safeguarded, or require conformance with the applicable safety standards required by
Idaho Safety Codes effective prior to the effective date of this rule, provided that replacements and alterations shall
conform with all provisions of these rules. (7-1-21)T

012. EMPLOYER’S RESPONSIBILITY.

01. General Requirements. (7-1-21)T

a. Every employer subject to these rules shall maintain places of employment that are safe according
to the standards as set forth herein. (7-1-21)T

b. Every employer shall adopt and use practices, means, methods, operations and processes that are
adequate to render such employment and place of employment safe. (7-1-21)T

i. Employers shall place highly visible “LOGGING AHEAD” or similar-type warning signs at the
entrances of active logging jobs. Employers shall also place “TRUCKS AHEAD,” “TRUCKS ENTERING,” “TREE
FALLING,” and “CABLES OVERHEAD,” whenever applicable. (7-1-21)T

ii. Every employer shall furnish to its crew a Company Emergency Rescue Plan. (7-1-21)T

c. Every employer should insure that Safety Data Sheets (SDS) are reasonably accessible for every
hazardous material. (7-1-21)T
d. Every employer shall post and maintain in a conspicuous place or places in and about his place or places of business a written notice stating the fact that he has complied with the worker’s compensation law as to securing the payment of compensation to his employees and their dependents in accordance with the provisions of Idaho law. Such notice shall contain the name and address of the surety, as applicable, with which the employer has secured payment of compensation. Such notice shall also be readily available on the site where logging operations are occurring, and available for inspection by Division officials upon request.

(7-1-21)T

e. Every employer shall do all other things as required by these rules to protect the life and safety of employees.

(7-1-21)T

f. No employer shall require any employee to go or be in any place of employment that does not meet the minimum safety requirement of these rules, except for the purpose of meeting such requirements.

(7-1-21)T

g. No employer shall fail or neglect:

(7-1-21)T

i. To make available and use safety devices and safeguards as are indicated.

(7-1-21)T

ii. To adopt and use methods and processes adequate to render the employment and place of employment safe.

(7-1-21)T

iii. To do all other things as required by these rules to protect the life and safety of employees.

(7-1-21)T

h. No employer, owner or lessee of any real property shall construct or cause to be constructed any place of employment that does not meet the minimum safety requirements of these rules.

(7-1-21)T

i. No person, employer, employee, other than an authorized person, shall do any of the following:

(7-1-21)T

i. Remove, displace, damage, destroy or carry off any safeguard, first aid material, notice or warning, furnished for use in any employment or place of employment, or interfere in any way with the use thereof by any other person.

(7-1-21)T

ii. Interfere with the use of any method or process adopted for the protection of any employee, including himself, in such employment or place of employment.

(7-1-21)T

iii. No person shall fail or neglect to do all other things as required by these rules to protect the life and safety of employees.

(7-1-21)T

iv. The use of intoxicants or drugs while on duty is prohibited. Persons reporting for duty while under the influence of or impaired by liquor or other legal or illegal drugs or substances shall not work until completely recovered.

(7-1-21)T

j. A procedure for checking the welfare of all workers during working hours shall be instituted and all workmen so advised. The employer shall assume responsibility of work assignments so that no worker shall be required to work in a position or location so isolated or hazardous that he is not within visual or audible signal contact with another person who can render assistance in case of emergency. In any operation where cutting, yarding, loading, or a combination of these activities are carried on there shall be a minimum crew of two (2) persons who shall work as a team, and shall be in visual or audible signal contact with one another. This does not apply to operators of motorized equipment, watchmen, or certain other jobs which, by their nature are singular workmen assignments. There shall be some method of checking-in crew members at the end of the shift. Each immediate supervisor shall be responsible for his crew being accounted for. This standard also includes operators of movable equipment.

(7-1-21)T

k. Every employer shall keep a record of all cases of injuries his employees receive at their work. This record shall be kept in such manner as to enable representatives of the Division to determine by examining the record, the injury rate of the employee force for the period covered by the report.

(7-1-21)T
Every employer shall investigate every accident resulting in a disabling injury that his employees suffer in connection with their employment. Employers shall promptly take any required action to correct the situation. Employees shall assist in the investigation by giving any information and facts they have concerning the accident. (7-1-21)

02. Management Responsibility. (7-1-21)
   a. Management shall take an active and interested part in the development and guidance of the operation’s safety program, including fire safety. (7-1-21)
   b. Management shall apply a basic workable safety plan on the same priority as it does to any other work facet of the operation where elimination of all injuries is to be achieved in all phases of the operation. It is the duty of management to assume full and definite responsibility. To attain these safety objectives, management shall have the full cooperation of employers and the Division. (7-1-21)
   c. Every employer shall furnish employment which shall be safe for the employees therein and shall furnish such devices and safeguards and shall adopt and use such practices, means, methods, operation and processes as are adequate to render such employment and places of employment safe to protect the life and safety of employees. The employer shall make available necessary personal protective safety equipment. (7-1-21)
   d. Regular safety inspection by a qualified person of all rigging, logging, machinery, rolling stock, bridges, and other equipment shall be made as often as the character of the equipment requires. Defective equipment or unsafe conditions found shall be replaced, repaired or remedied promptly. (7-1-21)
   e. All places of employment shall be inspected by a qualified person or persons as often as the type of operation or the character of the equipment requires. Defective equipment or unsafe conditions found by these inspections shall be replaced or repaired or remedied promptly. (7-1-21)

013. EMPLOYEE’S RESPONSIBILITY.

01. General Requirements. (7-1-21)
   a. Employees shall not indulge in activities that create or constitutes a hazard while on the employer’s property or at any time when being transported from or to work in facilities furnished by the employer. (7-1-21)
   b. Employees who are assigned to, or engaged in the operation of any machinery or equipment, shall ensure that all guards, hoods, safety devices, etc., that are provided by the employer are in proper place and properly adjusted. (7-1-21)

02. Employee Accidents. Each employee shall make it his individual responsibility to keep himself, his coworkers, and his machine or equipment free from accidents to the best of his ability. (7-1-21)

03. Study Requirements. So that each worker may be better qualified to cooperate with his fellow workmen in preventing accidents, he shall study and observe these and any other safety standards governing his work. (7-1-21)

04. Employee Responsibilities. Additional responsibilities of an employee insofar as industrial safety is concerned shall be as follows: (7-1-21)
   a. Report immediately, preferably in writing, to his foreman or safety coordinator for the logging operation, all known unsafe conditions and practices. (7-1-21)
   b. Ascertain from the foreman where medical help may be obtained if it is needed. (7-1-21)
   c. Prompt reporting of every accident regardless of severity to the foreman, first aid attendant, or person in charge. Such reports are required and are necessary in order that there may be a record of his injuries.
The employee shall at all times apply the principles of accident prevention in his daily work and shall use proper safety devices and protective equipment. No employee shall remove, displace, damage, destroy, or carry off any safety device or safeguard furnished and provided for use in any employment, or interfere in any way with the use thereof by any other person, or interfere with the use of any method or process adopted for the protection of any employee in such employment, or fail or neglect to do every other thing reasonably necessary to protect the life and safety of himself and fellow employees, and by observing safe practice rules shall set a good example for his fellow workmen.

The employee shall not report to the job impaired by intoxicants or legal or illegal drugs and shall not use intoxicants or such drugs while on the job. The employer shall prohibit any employee from working on or being in the vicinity of any job while under the influence of or impaired by intoxicants or drugs. Employers shall be responsible for the actions of any employee known to be in an intoxicated or impaired condition while on the job.

The employee shall wear, use and properly care for personal protective safety equipment issued to him.

Workers exposed to head hazards shall wear approved head protection.

Proper eye protection shall be worn while performing work where a known eye hazard exists.

The employee should consider the benefits of accident prevention to himself and to his job.

The employee should make an effort to understand his job.

The employee should anticipate every way in which a person might be injured on the job, and conduct the work to avoid accidents.

The employee should be on the alert constantly for any unsafe condition or practice.

The employee shall learn first aid.

The employee should keep physically fit, and obtain sufficient rest.

The employee should be certain that all instructions received are understood completely before starting the work.

The employee should actively participate in safety programs.

The employee should study the safety educational material posted on the bulletin boards and distributed by the employer or safety committee.

The employee should advise inexperienced fellow-employees of safe ways to perform their work and warn them of dangers to be guarded against.

It is the employer’s responsibility to ensure compliance with the foregoing provisions.
01. Transportation. (7-1-21)T
   a. Suitable means of transportation shall be established and maintained at the site of all operations to be 
      used in the event any employee is seriously injured. (7-1-21)T
   b. Each crew bus, or similar vehicle, shall be equipped with at least one (1) first aid kit with the 
      required contents as indicated in Subsection 051.06 of this rule. (7-1-21)T

02. Communication. (7-1-21)T
   a. Every employer shall arrange suitable telephone or radio communication at the nearest reasonable 
      point, and shall establish an emergency action plan to be taken in the event of serious injury to any employee. 
      (7-1-21)T
   b. Instructions covering the emergency action plan shall be made available to all work crews. 
      (7-1-21)T
   c. When practicable, a poster shall be displayed on, or near the cover of each first aid cabinet or phone. The 
      poster shall display the phone numbers of applicable emergency services. The use of the Idaho State EMS 
      Communication Center is recommended. The number is 1-800-632-8000 or 208-846-7610. (7-1-21)T
   d. Every employer shall obtain their specific job location (longitude and latitude preferred) and 
      furnish such to crew for emergency evacuation. (7-1-21)T

03. Attendance for Seriously Injured. (7-1-21)T
   a. Seriously injured employees shall, at all times, be attended by the most qualified available person 
      to care for the injured employees. (7-1-21)T
   b. Seriously injured employees shall be carefully handled and removed to a hospital, or given medical 
      attention as soon as possible. (7-1-21)T
   c. Caution shall be used in removing a helpless or unconscious person from the scene of an accident 
      to prevent further injury. (7-1-21)T

04. First Aid Training. Any person performing work associated with a logging operation shall be 
      required to complete an approved course in first-aid and have a current card. (7-1-21)T

05. Stretcher or Spine Board. A spine board (designed for or adaptable to the work location and 
      terrain) and two blankets maintained in sanitary and serviceable condition shall be available where such conditions 
      require the use of such to provide for the proper transportation and first aid to an injured workman. (7-1-21)T

06. First Aid Kits. (7-1-21)T
   a. The employer shall provide first aid kits at each work site where trees are being felled, at each 
      active landing, and in each employee transport vehicle. (7-1-21)T
   b. The following list sets forth the minimally acceptable number and type of first-aid supplies for 
      required first-aid kits. The contents of the first-aid kits shall be adequate for small work sites, consisting of 
      approximately two (2) to three (3) employees. When larger operations or multiple operations are being conducted at 
      the same location, additional first-aid kits shall be provided at the work site or additional quantities of supplies shall 
      be included in the first-aid kits:

<table>
<thead>
<tr>
<th>TABLE 051.06 – REQUIRED FIRST-AID KIT CONTENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Gauze pads (at least 4 x 4 inches)</td>
</tr>
</tbody>
</table>
c. Special kits, or the equivalent, shall be provided and approved for special hazards peculiar to any given work location.

(7-1-21)T

d. First aid kits shall be in sanitary containers. Such containers shall be designed and constructed so as to be impervious to conditions of weather, dust, dirt, or other foreign matter.

(7-1-21)T

052. SAFETY EQUIPMENT AND PERSONAL PROTECTIVE EQUIPMENT.

01. General Requirements.

a. Special protective equipment or apparel required for safe employment, other than clothing or equipment customarily supplied by employees, shall be furnished by the employer where necessary for the safety of employees.

(7-1-21)T

b. Employees are required to utilize all prescribed safety equipment and special protective equipment or apparel, and they shall exercise due care in maintaining it in safe, efficient and sanitary conditions.

(7-1-21)T

c. Employers are required to provide, at no cost to employees, appropriate eye, face, head, hand, and leg protection.

(7-1-21)T

d. Defective safety equipment shall not be used. Where the need for their use is indicated, protective covering, ointments, gloves or other effective protection shall be provided for and used by persons exposed to materials that are irritating to the skin.

(7-1-21)T

02. Inspection, Maintenance and Sanitizing.

a. Each employer shall maintain a regular system of inspection and maintenance of personal protective equipment furnished to workers.

(7-1-21)T

b. Air line equipment shall have a necessary regulator and shall be inspected before each use.

(7-1-21)T
c. Workers shall check their equipment at the beginning of each shift. (7-1-21)

03. **Eye Protection.** (7-1-21)
   a. Where workers are subject to eye hazards (flying particles, dusts, hazardous liquids, gases, mists or vapors, or injurious light rays) they shall be furnished with and shall wear eye protection suitable for the hazards involved. Such eye protection shall conform to the American National Standard Institute standards for Head, Eyes and Respiratory protection.
   b. Face shields may be used in lieu of other forms of eye protection where the nature of the operation is such that they will furnish equivalent protection.
   c. Clean water in ample quantities shall be immediately available where materials are handled that are caustic or corrosive to the eyes.

04. **Foot and Leg Protection.** (7-1-21)
   a. Employees shall wear footwear suitable for the work conditions.
   b. Employees shall wear sharp caulk-soled boots or other footwear which will afford maximum protection from slipping.
   c. Special types or designs of shoes, or foot guards, shall be required to be worn where conditions exist that make their use necessary for the safety of the workers.
   d. Leggings or high boots of leather, rubber or other suitable material shall be worn by climbers, persons exposed to hot substances, or caustic solutions, etc., or where poisonous snakes may be encountered.
   e. Each employee who operates a chain saw shall wear leg protection, which meets the requirements of ASTM F 1897 and covers the full length of the thigh to the top of the boot on each leg, except when working as a climber.

05. **Hand Protection.** (7-1-21)
   a. Hand protection suitable for the required usage shall be worn wherever the nature of the work requires extra protection for the hands.
   b. Gloves shall not be worn where their use would create a hazard.

06. **Head Protection.** (7-1-21)
   a. Persons required to work where falling or flying objects, overhead structures, exposed electrical conductors, equipment or material create a hazard shall wear approved safety hard hats or caps at all times while exposed to such hazards.
   b. Employees working in locations which present a catching or fire hazard to hair shall wear caps or other head protection that completely covers the hair.

07. **Life Jackets, Vests and Life Rings.**
Where personal buoyancy equipment is provided, it shall be of a design and shall be worn in a manner that will maintain the wearer’s face above water. It shall be capable of floating a sixteen (16) pound weight for three (3) hours in fresh water. Such equipment shall not be dependent upon manual or mechanical manipulation or chemical action to secure the buoyant effect.
a. Employees shall be provided with, and shall wear, approved buoyant protective equipment at all times while working on or over water, as follows:

i. On floating pontoons, rafts and floating stages.

ii. On open decks of floating plants (such as dredges, pile-drivers, cranes, pond saws, and similar types of equipment) which are not equipped with bulwarks, guardrails or life lines.

iii. During the construction, alteration or repair of structures extending over or adjacent to water, except when guardrails, safety nets, or safety belts and life lines are provided and used.

iv. Working alone at night where there are potential drowning hazards regardless of other safeguards provided.

v. On floating logs, boom sticks or unguarded walkways.

b. Life rings with sufficient line attached to meet conditions shall be located at convenient points along exposed sides of work areas adjacent to water. Such rings, if used at night where a person might be beyond illuminated areas, shall be provided with a means of rendering them visible.

NOTE: Consult U.S. Coast Guard requirements for operations in navigable waters.

08. Life Lines -- Safety Belts.

a. Each life line and safety belt shall be of sufficient strength to support, without breaking, a weight of two thousand five hundred (2,500) pounds.

b. All life lines and safety belts shall be periodically inspected by the supervisor in charge. Employees shall inspect their belts and lines daily. Any defective belts or life lines shall be discarded or repaired before use.

c. Life lines shall be safely secured to strong stable supports and maintained with minimum slack.

09. Work Clothing.

a. Clothing shall be worn which is appropriate to work performed and conditions encountered.

b. Loose sleeves, cuffs or other loose or ragged clothing shall not be worn near moving machinery.

c. Clothing saturated or impregnated with flammable liquids, corrosive substances, irritants or oxidizing agents shall be removed immediately and not worn again until properly cleaned.

d. When it is necessary for workers to wear aprons or similar clothing near moving machines or hazardous materials, such clothing shall be so arranged that it can be instantly removed.

e. Clothing with exposed metal buttons, metal visors or other conductive materials shall not be worn around exposed electrical conductors.

10. Respiratory Equipment.

a. When filter or cartridge-type respirators are required to be used regularly, each employee shall have one such respirator for his own exclusive use.

b. Employers and employees shall familiarize themselves with the use, sanitary care and limitations of such respiratory equipment as they may have occasion to use.
c. Whenever practical, harmful dusts, fumes, mists, vapors and gases shall be suppressed by water, oil or other means which will minimize harmful exposure and permit employees to work without the use of respiratory equipment. (7-1-21)

d. Whenever compressed air from an oil-lubricated compressor is used to supply respiratory equipment, a filter shall be inserted in the supply line to remove any oil, sediment or condensation that it may contain. Such filter shall be maintained in efficient working condition. (7-1-21)

e. When self-contained respiratory equipment is used in hazardous locations, a standby unit shall be maintained for rescue purposes. (7-1-21)

11. Hearing Protection. Where workers are subject to hazardous noise levels, they shall be furnished with and shall wear hearing protection suitable for the level of hazard involved. (7-1-21)

12. Additional Information and Requirements. Additional information and requirements for the use of safety equipment and personal protective equipment may be found in the Safety and Health Standards established in IDAPA 07.09.01, “Safety and Health Rules for Places of Public Employment.” (7-1-21)

053. FIRE PREVENTION, PROTECTION AND SUPPRESSION.

01. General Requirements. (7-1-21)

a. Additional Standards pertinent to the storage, distribution, and use of liquefied petroleum gases and other flammables or combustibles may be obtained by reference to regulations of the Idaho State Fire Marshal and the National Fire Protective Association pamphlets. (7-1-21)

b. Fire fighting equipment, suitable for the hazards involved, shall be provided for the protection of workmen. Such equipment shall be readily accessible, and shall be plainly labeled as to its character and method of operation. Locations of such equipment shall be conspicuously posted. (7-1-21)

c. All equipment and apparatus for fire protection and fire fighting shall be regularly inspected and be maintained in good and serviceable condition at all times. A record of the date of the latest inspection shall be kept with each portable fire extinguisher. This includes all automatic sprinkler systems and hose lines. (7-1-21)

d. Fire extinguishers, whether portable or automatic, shall comply with appropriate current standards as published by the National Fire Protection Association. Portable fire extinguishers shall also be subject to an annual maintenance inspection by the Division. They must also be visually inspected by the employer each month, and such inspections documented. (7-1-21)

e. Electrical lights, apparatus, and wiring used in locations where flammable or explosive gases, vapors, mists, or dusts are present shall be of the type accepted by the adopted Electrical Code for the State of Idaho. (7-1-21)

f. Smoking while refueling equipment is prohibited. (7-1-21)

g. All fuel storage tanks, service tanks, etc., shall be bonded for ground for fueling purposes. (7-1-21)

h. When lights are used in enclosed rooms, vaults, manholes, tanks or other containers which may contain flammable or explosive vapors, mists, gases, or dusts, such lights shall be of the approved vapor proof types. (7-1-21)

i. No torch, flame, arc, spark, or other source of ignition shall be applied to any tank or container that has contained or does contain flammable or explosive vapors or materials until such container has been made to be inert or otherwise purged of flammable or explosive vapors or materials, except that “hot tapping” on tanks may be done provided that: (7-1-21)
i. There shall be at least four (4) feet of liquid above the point of the “hot tap”; and

ii. The work shall be carried out under the direction of a supervisor experienced in this type of work.

NOTE: A test for flammability or explosiveness of the interior of such vessels shall be made using a device which will determine the concentration of flammable vapors for this purpose. Unless the percentage of flammable vapors is found to be less than twenty percent (20%) of its lower explosive limit, no source of ignition shall be permitted.

j. Frequent testing for determining the concentration of flammable and explosive vapors shall be made, and if the concentration is found to exceed twenty percent (20%) of its lower explosive limit, sources of ignition shall be extinguished or removed immediately. Fire extinguishing equipment adequate to cope with possible hazards shall be maintained close at hand.

k. Smoking, the use of open flames, tools which are not approved for such areas, and other sources of ignition are prohibited in locations where flammable or explosive gases, vapors, mists, or dusts are present. Warning signs shall be conspicuously posted in such areas.

l. Where salamanders and other fuel-burning heating devices are used, they shall be provided with adequate means for preventing the emission of sparks or other sources of ignition. Such devices shall be insulated or placed a sufficient distance from combustible structures and materials to prevent causing fires. Adequate ventilation shall be provided.

m. When welding or cutting is done special precautionary measures shall be exercised before, during and after the job is finished to eliminate any possibility of immediate or delayed fires.

02. Flammable Liquids

a. For the purpose of this section, “Flammable Liquids” shall mean any liquid having a flash point below one hundred forty (140) degrees Fahrenheit and having a vapor pressure not exceeding forty (40) pounds per square inch (absolute) at one hundred (100) degrees Fahrenheit.

b. All flammable liquids shall be stored in approved containers suitable for their particular contents, and such approved containers shall be stored in areas removed from any direct source of ignition.

c. Flammable liquids shall be kept in approved covered containers when not in actual use.

d. The name of the flammable liquid contained therein shall be placed on all stock containers, and whenever such liquids are taken from the stock containers and put into other approved containers for use, it shall be the responsibility of the employer to ensure that these containers (except small containers of flammable liquids which are scheduled for immediate use and disposal) also bear the name of the flammable liquid contained therein.

e. Flammable liquids shall not be used indoors to clean or wash floors, walls, any part of a building structure, furniture, equipment, machines or machine parts, unless sufficient ventilation is provided to bring and maintain the concentration of explosive vapors in the atmosphere below twenty percent (20%) of its lower explosive limit.

NOTE: The use of flammable liquids may create toxic contaminants in the atmosphere above permissible threshold limit values.

03. Transferring Flammable Liquids and Powdered Materials. In transferring flammable liquids or finely divided flammable or explosive materials from one metal container to another, the containers shall be in firm contact with each other or be continuously bonded throughout the transfer so as to prevent the accumulation of static charges. Where portable tanks, mixers, or processing vessels are used for flammable liquids or flammable or explosive compounds, they shall be bonded and grounded while being filled or emptied.

04. Transportation of Flammable Liquids.
a. When transporting gasoline or other flammable liquids, approved containers shall be used. (7-1-21)T

b. If tank truck service is not available or used, gasoline and other flammable liquids shall be transported in approved containers. Bungs shall be tight and containers shall be secured to prevent movement. (7-1-21)T

c. It may be permissible to transport gasoline or other flammable liquids on passenger vehicles if in approved, closed safety containers of not more than six and one-half (6 1/2) gallon capacity, provided such containers are carried in a suitable and safe location outside the passenger compartment. (7-1-21)T

054. -- 100. (RESERVED)

SUBCHAPTER C – GARAGES, MACHINE SHOPS, AND RELATED WORK AREAS
(Rules 101 - 150)

101. GARAGES AND MACHINE SHOPS AND RELATED AREAS.

01. General Requirements. (7-1-21)T

a. Machine shops and other structures where workers are employed shall be constructed, ventilated, lighted and maintained in a safe working condition. (7-1-21)T

b. Engines, pulleys, belts, gears, sprockets, collars and other moving parts of machinery shall be properly guarded. (7-1-21)T

c. Grinding wheels shall have proper and adequate eye guards or hoods. Face shields shall be worn by employees while grinding. (7-1-21)T

d. Machines shall be in good repair and good housekeeping shall be maintained. (7-1-21)T

e. Proper goggles or hoods shall be made available and used in grinding and cutting, acetylene welding, electric arc and other types of welding. (7-1-21)T

f. Tools shall be kept in good condition and care shall be taken in the handling and storing of all tools and materials so as to minimize chances for injury. (7-1-21)T

g. An approved screen shall be provided, and used, to protect other workers from welding flashes. (7-1-21)T

102. -- 150. (RESERVED)

SUBCHAPTER D – SIGNALS AND SIGNAL SYSTEMS
(Rules 151 - 200)

151. GENERAL REQUIREMENTS.

01. Rigging. (7-1-21)T

a. Rigging shall be moved by established signals and procedures only. (7-1-21)T

b. Signals shall be thoroughly understood by the crew. (7-1-21)T

02. Daily Test Required. Each electric or radio signal system shall be tested daily before operations begin. (7-1-21)T
03. Personnel in Clear Before Moving Logs or Turns. (7-1-21)T
   a. Operators of yarding equipment shall not move logs or turns until all personnel are in the clear and a signal has been given. (7-1-21)T
   b. Operators of yarding equipment shall be alert to signals at all times. (7-1-21)T

152. SIGNALING.

01. One Worker to Give Signals. (7-1-21)T
   a. The Worker sending drag shall be the only one to give signals. (7-1-21)T
   b. Any person is authorized to give a stop signal when a worker is in danger or other emergency conditions are apparent. (7-1-21)T

02. Signal Must Be Clear and Distinct. (7-1-21)T
   a. Machine operators shall not move any line unless the signal received is clear and distinct. (7-1-21)T
   b. If in doubt the operator shall repeat the signal as understood and wait for confirmation. (7-1-21)T

03. Hand Signal Use Restricted. (7-1-21)T
   a. Hand signals are permitted only when in plain sight of the operator. (7-1-21)T
   b. Hand signals may be used at any time as an emergency stop signal. (7-1-21)T

04. Persons in Clear Before Signal Given. All persons shall be in the clear before a signal is given to move logs or turns. (7-1-21)T

05. Throwing Material Prohibited. Throwing of any type of material as a signal is prohibited. (7-1-21)T

06. Audible Signaling to Be Installed and Used. A whistle, horn or other audible signaling device, clearly audible to all persons in the affected area, shall be installed and used on all machines operating as yarders. (7-1-21)T

07. Audible Signaling Device at the Machine to Be Activated. When radio or other means of signal transmission is used, an audible signal must be activated at the machine. (7-1-21)T

153. ELECTRIC SIGNAL SYSTEMS.

01. Weatherproof Wire and Attachments to Be Used. Where an electrical signal system is used, all wire and attachments shall be of the weather proof type. (7-1-21)T

02. Electric Signal Systems to Be Properly Installed and Adjusted. Electric signal systems shall be properly installed and adjusted as necessary. They shall be protected against accidental signaling, and shall be maintained in good operating condition at all times. (7-1-21)T

03. All Connections to Be Weatherproof. All connections in insulated signal wire shall be weatherproof. (7-1-21)T

154. RADIO SIGNALING SYSTEMS.
01. **Use of Conventional Space Transmission of Radio Signals.** When conventional space transmission of radio signals is used under and in accordance with an authorization granted by the Federal Communications Commissions to initiate any whistle, horn, bell or other audible signaling device, or such transmission of radio signals is used to activate or control any equipment, the following specific rules contained in this section will apply.

NOTE: This rule shall apply only to devices operating on radio frequencies authorized pursuant to the rules and regulations of the Federal Communications Commission. (7-1-21T)

02. **Description on Outside of Case.**

   a. Each radio transmitter and receiver shall have its tone frequency(s) in hertz (CPS), the manufacturer’s serial number, and the assigned radio frequency clearly and permanently indicated on the outside of the case. (7-1-21T)

   b. When the duration of a tone frequency performs a function, the pulse-tone duration shall also be permanently indicated on the outside of the case. (7-1-21T)

   c. On the FCC restricted frequencies one hundred fifty-four point fifty-seven (154.57) MHZ and one hundred fifty-four point sixty (154.60) MHZ, a maximum of two (2) watts of power will be allowed. (7-1-21T)

03. **Activating Pulse-Tone Limitations.** The activating pulse-tone of any multi-tone transmitter shall be of not more than forty (40) milliseconds duration. (7-1-21T)

04. **Adjustment, Repair or Alteration.** All adjustments, repairs or alterations of radio-signaling devices shall be done only by or under the immediate supervision and responsibility of a person holding a first or second class commercial radio operator’s license, either radio-telephone or radio-telegraph, issued by the Federal Communications Commission. (7-1-21T)

05. **Testing of Tone-Signal Controlled Devices.**

   a. Tone-signal controlled devices shall be tested each day before work begins. If any part of the equipment fails to function properly, the system shall not be used until the source of trouble is detected and corrected. (7-1-21T)

   b. Audible signals used for test purposes shall not include signals used for movement of lines or material. NOTE: Equipment or machines controlled by radio-signaling devices shall be designed and built to “fail safe” or stop, in case of failure of the radio-signaling device. (7-1-21T)

06. **Interference, Overlap, Fade-Out or Blackout.** When interference, overlap, fade-out or blackout of radio signals is encountered, the use of the tone-signal controlled device shall be immediately discontinued. The use of such tone-signal controlled device shall not be resumed until the source of trouble has been detected and corrected. (7-1-21T)

07. **Number of Transmitters Required.**

   a. Two (2) radio transmitters shall be in the vicinity of the rigging crew at all times when transmitters are being used by persons who are around the live rigging. (7-1-21T)

   b. Only one (1) radio transmitter shall be required, if in possession of a signalman who has no other duties and remains in an area where he is not subjected to hazards created by moving logs or rigging. (7-1-21T)

08. **Voice Communication.**

   a. Voice Communication shall be used for explanation purposes only. (7-1-21T)

   b. Actual activation of equipment shall be done by audible horn, bell or whistle and not by voice.
c. The signal must be audible throughout the entire yarding and machine area.

155. -- 200. (RESERVED)

SUBCHAPTER E – TRUCK ROAD STANDARDS
(Rules 201 - 250)

201. TRUCK ROAD STANDARDS.

01. Building Roads.

a. When building roads, all construction shall be carried on in accordance with good logging engineering practices and shall be constructed and maintained in a manner to insure reasonably safe operation.

b. The due consideration shall be given to the following factors:

i. The type of material used for roadbed and surfacing.

ii. The type of hauling equipment which will travel road.

iii. The size of loads to be hauled.

iv. The pitch and length of grades.

v. The degree of curvature and visibility on turns.

vi. The volume of traffic.

c. Truck roads shall not be too steep for safe operation of logging, or work trucks which operate over them, and should not exceed twenty percent (20%) grade unless an auxiliary means of truck lowering is provided.

d. Sufficient turnouts shall be provided and a safe side clearance maintained along all truck roads.

e. Brush and other materials that obstruct the view at intersections or on sharp curves shall be eliminated and all possible precautions taken.

f. Culverts and bridge structures shall be adequate to support the maximum imposed loads without exceeding the maximum safe working unit stresses. Such structures shall be maintained in good condition and shall be inspected annually by a qualified individual.

g. Dangerous trees, snags and brush, which may create a hazard shall be cleared a safe distance on both sides of the right-of-way.

02. Main Truck Roads.

a. Main truck roads shall be of sufficient width and evenness to insure the safe operation of equipment.

b. Truck roads with blind curves where visibility is less than three hundred (300) feet shall be of sufficient width for two (2) trucks to pass, controlled by some type of signal system, or speed shall be limited to fifteen (15) miles per hour.
c. Conditions such as broken planking, deep holes, large rocks, logs, etc., which prevent the safe operation of equipment shall be immediately corrected. (7-1-21)T

d. Wheel guard rails on bridges shall be not less than eight (8) inches above deck and shall be substantially fastened to withstand impact of shearing wheels. Such guard rails shall extend the full length of the bridge. (7-1-21)T

03. Operation of Equipment. Excavators, tractors, bulldozers, and other equipment shall be operated in a safe and careful manner. All precautions shall be taken to insure the safety of all employees. (7-1-21)T

202. -- 250. (RESERVED)

SUBCHAPTER F – TRANSPORTATION OF EMPLOYEES
(Rules 251 - 300)

251. TRANSPORTATION OF EMPLOYEES.

01. General Requirements. (7-1-21)T

a. Anchored seats and seat belts shall be provided for each person riding in any vehicle. (7-1-21)T

b. Vehicles used for the transportation of employees shall be constructed or accommodated for that purpose, and shall be equipped with adequate seats with back rests properly secured in place. Vehicles shall be protected on their sides and ends to prevent falling from the vehicle. (7-1-21)T

c. Vehicles, as described above, shall be equipped with adequate steps, stirrups, or other similar devices, so placed and arranged that the employees can safely mount or dismount the vehicle. (7-1-21)T

d. Vehicles designed to transport nine (9) or more passengers, shall be equipped with an emergency exit not less than six and one-half (6 1/2) feet in area, with the smaller dimension being not less than eighteen (18) inches. Such exit shall be placed at or near the back of the vehicle on the side opposite the regular entrance. The route to and egress from the exit must be unobstructed. (7-1-21)T

e. Every emergency exit shall be conspicuously marked “Emergency Exit,” and be so fastened that it can be readily opened by a passenger in the case of emergency. (7-1-21)T

f. Emergency doors shall be not less than twenty-four (24) inches in width. (7-1-21)T

g. Every vehicle used for the transportation of employees shall be equipped with an Underwriters Laboratories, Inc. approved fire extinguisher, or its equivalent, with at least a four (4) BC rating. (7-1-21)T

h. All drivers of vehicles used for the transportation of employees shall have an appropriate operator’s license for the state of Idaho. (7-1-21)T

i. Drivers shall inspect vehicles before operating them. If a vehicle is found to be unsafe, it shall be reported to a proper authority and shall not be operated until it has been made safe. (7-1-21)T

j. Brakes, steering mechanism and lights shall be tested immediately before starting any trip. (7-1-21)T

k. No flammable materials, or toxic substances shall be transported in passenger compartments of vehicles while carrying personnel. (7-1-21)T

l. Transporting more individuals than the seating capacity of the vehicle is permitted only under emergency conditions. Should it become necessary in an emergency, all employees not having seats must ride within the vehicle. (7-1-21)T
m. Under no circumstances shall employees ride on fenders or running boards. (7-1-21)

n. An employee must never ride in, or on, any vehicle with his legs hanging over the end or sides. (7-1-21)

o. If tools are transported at the same time that employees are being transported, the tools shall be enclosed in boxes or racks and properly secured to the vehicle. (7-1-21)

p. No one shall board, or leave, moving equipment except in the case of an emergency (except trainmen or others whose duties require such). (7-1-21)

q. Equipment shall be operated in a safe manner and in compliance with traffic regulations. Safe speeds shall be maintained at all times. (7-1-21)

r. No explosives shall be transported on, or in, vehicles used primarily for carrying personnel while such vehicles are being used for carrying personnel. (7-1-21)

s. The driver shall do everything reasonably possible to keep vehicles under control at all times, and shall not operate vehicles at excessive speeds. The driver shall take into consideration the condition of the roadway, weather factors, curves, grades and grade crossings, the mechanical condition of the vehicle and equipment and other pertinent items. The driver shall clear rocks from between dual tires before driving on multi-lane roads. A daily inspection shall be made of trucks and trailers with particular attention to steering apparatus, brakes, boosters, brake hoses and connections, reaches and couplings. Any defects found shall be corrected before the equipment is used. (7-1-21)

252. -- 300. (RESERVED)

SUBCHAPTER G – FALLING AND BUCKING

(Rules 301 - 350)

301. FALLING AND BUCKING.

01. General Requirements. (7-1-21)

a. There shall be an established method of checking-in workers from the woods. Each supervisor shall be responsible for their crew being accounted for at the end of each shift. (7-1-21)

b. Cutters not in sight of another employee shall have radio communications with crew members on that job site. (7-1-21)

c. Common sense and good judgment must govern the safety of cutters as affected by weather conditions. At no time shall they work if wind is strong enough to prevent the falling of trees in the desired direction, or when vision is impaired by weather conditions or darkness. (7-1-21)

d. All cutters shall have a current first aid certification. Employers shall provide an opportunity for cutters to take a standard first aid course. (7-1-21)

e. Tools of cutters such as axes, sledges, wedges, saws, etc., must be maintained in safe condition. Battered sledges, and wedges shall not be used. When power saws are used, wedges shall be made of soft material, such as wood or plastic. (7-1-21)

f. Cutters shall not be placed on hillsides immediately below each other or below other operations where there is possible danger. (7-1-21)

g. Trees shall not be felled if a falling tree endangers any worker, line, or any unit in operation. (7-1-21)
h. Before starting to fall or buck any tree or snag, the cutter must survey the area for possible hazards and proceed according to safe practices. Snags, which are unsafe to cut, shall be blown down with explosives, or felled by other methods.

i. Dangerous or hazardous snags shall be felled prior to or in the course of cutting a strip. No danger tree shall be felled by one (1) cutter where and when the assistance of a fellow employee is necessary to minimize the danger or hazards involved. In the case that any danger tree or snag cannot be safely felled and must remain standing or unattended, such tree or snag shall be clearly identified and suitably marked, including all surrounding impact area, and the employee’s supervisor shall be notified as soon as possible.

j. In falling timber, adjacent brush and snow shall be cleared away from and around the tree to be felled to provide sufficient room to use saws and axes and provide an adequate escape path.

k. Cutters shall not fall into another strip; leaners on the line shall be traded. Trees shall be felled into the open whenever conditions permit.

l. Undercuts and side cuts shall be large enough to safely guide the trees and eliminate the possibility of splitting and barber chairing. Particular care shall be taken to hold enough wood to prevent the tree from prematurely slipping or twisting from the stump. Undercuts shall be cleaned out to the full depth of the saw cut. Especially large undercuts are necessary in heavy leaners. When required to safely fell a tree, mechanical or other means shall be employed to accomplish this objective. Pre-cutting of trees for the purpose of production logging is prohibited.

m. Back-cuts shall be above the level of the upper horizontal cut of the undercut.

n. While wedging, fallers shall watch for limbs or other material which might be jarred loose. Cutting of holding wood in lieu of using wedges is prohibited.

o. When falling or bucking a tree is completed the power saw motor should be stopped. The power saw motor shall be stopped while the operator is traveling to the next tree.

p. Cutters shall not work on the downhill side of the log being bucked unless absolutely unavoidable and only when the log is blocked or otherwise secured to prevent rolling when cut is completed.

q. Cutters must give timely warning to all persons within range of any log which may have a tendency to roll or slide after being cut off.

r. Logs shall be completely bucked-through whenever possible. If it becomes hazardous to complete a cut, then the log shall be marked and identified by a predetermined method. Rigging crews shall be instructed to recognize such marks and when possible cutters shall warn rigging crew of locations where such unfinished cuts remain.

s. A competent person properly experienced in this type of work shall be placed in charge of falling and bucking operations. Inexperienced workers shall not be allowed to fall timber or buck logs unless under the direction of experienced workers.

t. Power saws shall be kept in good repair at all times. All exhaust parts on power chain saws shall be constructed and maintained so the operator is exposed to a minimum amount of fumes and noise.

u. Combustion engine driven power saws shall be equipped with an automatic throttle which will return the motor to idling speed upon release of the throttle.

v. Power saw motors shall be stopped while being fueled.
w. All personnel shall wear approved head protection, proper clothing and footwear. (7-1-21)T

x. Each employee who operates a chain saw shall wear leg protection, which meets the requirements of ASTM F 1897 and covers the full length of the thigh to the top of the boot on each leg, except when working as a climber. (7-1-21)T

302. ILLUSTRATION OF UNDERCUTS.

01. Illustration of Undercuts. (7-1-21)T

FIGURE 302.01.a. – CONVENTIONAL UNDERCUT

a. Conventional Undercut. May be made with parallel saw cut and a diagonal cut. Backcut (D) shall be above undercut. (7-1-21)T
b. Humboldt Undercut. A cut in which both cuts made with the saw leaves a square end log (See Figure 302.01.b.). The cut is the same as a conventional cut (See Figure 302.01.a.) except that waste is on the stump. Backcut (D) shall be above undercut.

(7-1-21)T
c. Open Face Undercut. A cut in which two (2) angle cuts are made with the saw (See Figure 302.01.c.) -- It is used when it is necessary that the face does not close until the tree is near the ground. (7-1-21)

303. MECHANICAL DELIMBERS AND FELLER BUNCHERS.

01. General Requirements. (7-1-21)

a. Before start-up or moving equipment, check the surrounding area for fellow employees or equipment. (7-1-21)

b. If any protective device is missing, it is to be replaced as soon as possible. If it affects a safe operation, the machine is to be shut down. (7-1-21)

c. When a machine is working, extreme caution shall be used when approaching. The operator shall be notified by radio or visual contact. (7-1-21)

d. All raised equipment shall be lowered to the ground or to a safe position and the park brake set before leaving the machine. (7-1-21)

304. -- 350. (RESERVED)
351. RIGGING.

01. General. The determining factor in rigging-up shall be the amount of rated stump pull which a machine can deliver on each line.

02. Equipment Classification. (7-1-21)T
   a. Equipment shall be classed according to the manufacturer’s rating. (7-1-21)T
   b. Where lower gear ratios or other devices are installed to increase the power of equipment, the size of the rigging shall be increased proportionately so that it will safely withstand the increased strains to conform to Subsection 010.04 of these rules. (7-1-21)T

03. Safe Loading. Rigging, and all parts thereof, shall be of a design and application to safely withstand all expected or potential loading to which it will be subjected. (7-1-21)T

04. Allowable Loading or Stress. (7-1-21)T
   a. In no case shall the allowable loading or stress be imposed on one half (1/2) of the rated breaking strength of any parts of the rigging. (7-1-21)T
   b. This shall not be construed as applying to chokers. (7-1-21)T

05. Chokers. Chokers shall be at least one eighth (1/8) inch smaller than the mainline. (7-1-21)T

06. Placing, Condition, and Operation of Rigging. The placing, condition and operation of rigging shall be such as to ensure safety to those who will be working in the vicinity. (7-1-21)T

07. Arrangement and Operation. Rigging shall be arranged and operated so that rigging or loads will not pound, rub, or saw against lines, straps, blocks, or other equipment. (7-1-21)T

08. Line Hazards. (7-1-21)T
   a. Running lines and changed settings shall be made in a way to avoid bight of line hazards. (7-1-21)T
   b. Signals to operator shall be made before moving lines. (7-1-21)T

09. Reefing. Reefing or similar practices to increase line pull shall be prohibited. (7-1-21)T

10. Inspection of Rigging. (7-1-21)T
   a. A thorough inspection, by the operator or qualified person, of all blocks, straps, guylines, and other rigging shall be made before the rigging is placed in position for use and subsequently repeated every thirty (30) days for as long as the rigging is in position for use. Each rigging inspection shall be documented and kept onsite for review. (7-1-21)T
   b. This inspection shall include an examination for damaged, cracked or worn parts, loose nuts and bolts, lubrication, condition of straps and guylines. (7-1-21)T
   c. The repairs or replacements necessary for safe operation shall be made before rigging is used. (7-1-21)T

352. GUYLINES.
01. **General Requirements.**

a. Guylines shall be of plow steel or equivalent, and in good condition. (7-1-21)T

b. Guylines shall be provided in sufficient number, condition and location to develop stability and strength equivalent to the breaking strength of any component part of the rigging or equipment. (7-1-21)T

c. Guylines shall be fastened by means of shackles or hooks and slides. The use of loops or molles for attaching guylines is prohibited. The use of wedge buttons on guylines is prohibited. (7-1-21)T

d. The “U” part of a shackle shall be around the guyline and the pin passed through the eye of the guyline. Pins shall be secured with molles, cotter-keys, or the equivalent. (7-1-21)T

e. Guylines shall be kept tightened while equipment or rigging they support is in use. (7-1-21)T

02. **Anchoring Guylines.**

a. Stumps used for fastening guylines and skylines shall be carefully chosen as to position, height and strength. They shall be tied back if necessary. See Figures 352.02.a. and 352.02.b.

**FIGURE 352.02.a.**
b. Properly installed deadman anchors are permitted. Guylines shall not be directly attached to deadman anchors. Suitable straps or equally effective means shall be used. (7-1-21)

c. Stumps, trees and guyline anchors shall be inspected from time to time while an operation is in progress and hazardous conditions immediately corrected. (7-1-21)

d. Standing trees which will reach landing or work areas shall not be used for guyline anchors. (7-1-21)

e. Any guyline anchor tree that can reach the landing or work area shall be felled before using as an anchor. (7-1-21)

03. Effectiveness of Guys. (7-1-21)

a. Guys making an angle with the horizontal greater than sixty (60) degrees will be considered less than fifty percent (50%) effective. For the effectiveness of other angles see Table 352.03.a.

<table>
<thead>
<tr>
<th>Degree</th>

</tr>
</tbody>
</table>

04. Minimum Guyline Requirements. A minimum of four (4) top guys are required on any portable spar tree used for yarding, swinging, loading or cold-decking.

353. LINES, SHACKLES AND BLOCKS.

01. General Requirements.

a. All lines, shackles, blocks, etc., should be maintained in good condition and shall be of sufficient size, diameter and material to withstand one and one half (1 1/2) times the maximum stress imposed.

b. Wire rope or other rigging equipment which shows a fifteen percent (15%) reduction in strength shall be replaced.

02. Splices.

a. Two (2) lines may be connected by a long splice, or by shackles of patent links of the next size larger than the line where practical.

b. A safe margin of line must be used for making long splices. See Table 353.02.b.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

   b. Clips should always be attached with the base or saddle of the clip against the longer or “live” end of the rope. See Figure 353.03.b. This is the only approved method.
Do not reverse the clips or stager them. See Figure 353.03.c. Otherwise the “U” bolt will cut into the live rope when the load is applied.

**FIGURE 353.03.c.**

![Wrong setup](image)

**d.** After the rope has been used and is under tension, the clips should again be tightened to take up any looseness caused by the tension reducing the rope diameter. Remember that even when properly applied a clip fastening has only about ninety percent (90%) of the strength of the rope and far less than that when rigged improperly.

**e.** U-bolt wire rope clamps must not be used to form eyes on running lines, skylines, machine guylines, or straps.

04. **Blocks.** All blocks must be of steel construction or of material of equal or greater strength and so hung that they will not strike or interfere with other blocks or rigging.

05. **Pins.** All pins in blocks shall be properly secured by keys of the largest size the pin hole will accommodate.

06. **Shackles.**

a. Spread in jaws of shackles shall not exceed by more than one (1) inch the size of yoke or swivel of the block to which it is connected.

b. All shackles must be made of forged steel or material of equivalent strength and one (1) size larger than the line it connects.

07. **Cable Cutting.** Cable cutters, soft hammers, or a cutting torch shall be available and used for cutting cables. Eye protection must be used when cutting cable.

08. **Damaged or Worn Wire Rope.** Worn or damaged wire rope creating a safety hazard shall be taken out of service or properly repaired before further use.

354. -- 400. (RESERVED)
SUBCHAPTER I – CANOPY AND CANOPY CONSTRUCTION FOR LOGGING EQUIPMENT
(Rules 401 - 450)

401. GENERAL REQUIREMENTS.

01. Driver Protection Guard. (7-1-21)T
   a. A substantial metal guard for the protection of the driver shall be installed on every piece of equipment, where exposed to overhead hazards. (7-1-21)T
   b. This guard shall be strongly constructed to afford adequate protection for the driver against overhead hazards. (7-1-21)T
   c. This guard shall be of sufficient width and height so that it will not impair the movements of the driver or prevent his immediate escape from the equipment in emergencies. (7-1-21)T
   d. This guard shall be of open construction to allow the driver all the visibility possible. (7-1-21)T

02. Canopy Framework. (7-1-21)T
   a. The canopy framework shall consist of at least two (2) arches, either transverse or longitudinal. (7-1-21)T
   b. If transverse, one (1) arch shall be installed at the rear of the equipment and the other at the center of the equipment. They shall be joined together by three (3) longitudinal braces, one (1) at the top and one (1) at each side of the arches. (7-1-21)T
   c. There shall be a shear or deflecting guard extending from the leading edge of the forward arch to the front part of the frame of the tractor or similar equipment. (7-1-21)T
   d. If longitudinal arches are used, they shall be extended from the rear of the tractor or equipment to the front frame of the tractor or equipment and each arch shall have an intermediate support located approximately at the dash so that ingress or egress will not be impeded. (7-1-21)T
   e. Regardless of the type of construction used, the fabrication and method of connecting to the tractor or equipment shall be of such design as to develop a strength equivalent to that of the upright members. (7-1-21)T

03. Canopy Structure. The canopy structural framework shall be fabricated of pipe of the following size, or materials of equivalent strength, depending upon the gross weight of the tractor or similar equipment as equipped. Under twenty-eight thousand (28,000) lbs., two (2) inch double extra strong pipe (XXS); twenty-eight thousand (28,000) to fifty-eight thousand (58,000) lbs., three (3) inch double extra strong pipe (XXS); over fifty-eight thousand (58,000) lbs., four (4) inch double extra strong pipe (XXS). (7-1-21)T

04. Gusset Plates or Braces. Gusset plates or braces shall be installed on the canopy framework so that the framework will withstand a horizontal pressure equal to twenty-five percent (25%) of the gross weight of the tractor or similar equipment, as equipped, when such pressure is applied to any vertical member at a point not more than six (6) inches below the roof of the canopy. (7-1-21)T

05. Clearance Above the Deck. The clearance above the deck of the tractor or similar equipment at points of egress shall be not less than fifty-two (52) inches and the clearance above the driver’s seat shall be of such height as will allow sufficient clearance above the driver’s head. (7-1-21)T

06. Overhead Covering. The overhead covering on the canopy structure shall be of not less than three-sixteenth (3/16) inch steel plate except that the forward eighteen (18) inches may be made of one quarter (1/4) inch woven wire having not more than one (1) inch mesh. (7-1-21)T
07. Rear Covering.
   a. The opening in the rear of the structure shall be covered with one quarter (1/4) inch woven wire having not less than one and one half (1 1/2) inch or more than two (2) inch wire mesh. This covering shall be affixed to the structural members so that ample clearance will be provided between the screen and the back of the operator.
   b. Structural members shall present smooth, rounded edges and the covering shall be free from projections which would tend to puncture or tear flesh or clothing.

08. Pin Connections.
   a. Pin connections are recommended for joints in the structural frame and especially at connections to the tractor frame or similar equipment frame.
   b. Gusset plates shall be installed at each place where individual pieces of pipe are joined.

09. Sideguards. When practical, sideguards shall be installed to protect the operator from hazards.

402. TRACTORS AND SIMILAR LOGGING EQUIPMENT.

01. Operating Condition.
   a. The general operating condition of a tractor or equipment shall be sufficient to ensure the safety of the driver and other workmen.
   b. An operating manual shall be readily available in either print or electronic format for each piece of machinery.

02. Guards. All guards shall be kept in place and in good repair at all times when the tractor or similar equipment is used.

03. Repairs or Adjustments. Repairs or adjustments to clutches, frictions, or other parts of equipment which may cause hazardous movement of equipment shall not be done while engines are running.

04. Blades or Similar Equipment.
   a. Blades or similar equipment shall be blocked or otherwise securely supported when making repairs or performing other work around such equipment when they are elevated from the ground.
   b. Equipment under repair or adjustment should be tagged out.

05. Brakes and Steering.
   a. All equipment shall be equipped with a braking system capable of stopping and holding the maximum load on all grades at all times.
   b. Any defect found in the braking system or steering devices of any equipment used in skidding or yarding operations shall not be used until repaired or replaced.

06. Starting of Equipment. Equipment shall be started (cranked) only by the operator or other experienced persons.

07. Seatbelts.
   a. Seatbelts shall be installed on all tractors and mobile equipment having roll-over protection or in
accordance with a design by a professional engineer which offers equivalent employee protection. (7-1-21)T

b. Seatbelts shall be used when operating any machine equipped with Roll Over Protection Structure (ROPS), Falling Object Protection Structure (FOPS), or overhead guards. (7-1-21)T

08. Pin Connections.

a. Pin connections are recommended for joints in the structural frame and especially at connections to the tractor frame or similar equipment frame. (7-1-21)T

b. Gusset plates shall be installed at each place where individual pieces of pipe are joined. (7-1-21)T

09. Sideguards. When practical, sideguards shall be installed to protect the operator from hazards. (7-1-21)T

403. -- 450. (RESERVED)

SUBCHAPTER J – SKIDDING AND YARDING
(Rules 451 - 500)

451. SKIDDING AND YARDING.

01. General Requirements. (7-1-21)T

a. All personnel shall wear approved head protection and proper clothing at all times in skidding and yarding. (7-1-21)T

b. Getting on or off moving equipment is strictly prohibited. (7-1-21)T

c. Equipment operators shall move rigging only upon the signal of an authorized person. (7-1-21)T

d. Workers shall at all times watch for and protect themselves and their fellow workers from side-winders, rolling logs, up ending logs, snags, and other hazards caused by the movement of equipment, logs and/or lines. (7-1-21)T

e. Chokers should be placed near, but not closer than two (2) feet, from the ends of logs if possible. (7-1-21)T

f. Choker holes shall be dug from the uphill side of a log if there is any danger of its rolling. (7-1-21)T

g. Knots shall not be used to connect separate lengths of chain or cable. (7-1-21)T

h. Chaser (hooker) shall not unhook logs (trees) until rigging has stopped and the equipment operator is aware of his location. (7-1-21)T

i. Riding on drag or logs or any part of equipment used in skidding and yarding except in the area of the driver’s seat is prohibited. (7-1-21)T

j. A tool handle, stick, iron bar, or similar object shall be used in guiding lines onto drums. Guiding lines with hands is prohibited. (7-1-21)T

k. Make sure all personnel are in the clear before skidding turn, drag, log, or tree into landing. (7-1-21)T

l. All personnel shall keep out of the bight of line and clear of running lines. (7-1-21)T
m. Logs shall not be swung over personnel. (7-1-21)

n. Knot bumping should be done before a log is loaded. (7-1-21)

452. CABLE YARDING.

01. Safety A. Personnel shall not ride hooks, lines, rigging, or logs suspended in the air or being moved. (7-1-21)

02. Safety B. Personnel shall not hold on to haywire, running lines, drop lines, or chokers as an assist when walking uphill. (7-1-21)

03. Safety C. Personnel shall not work in the bight of lines under tension. (7-1-21)

04. Safety D. Personnel shall be “in the clear” before any signal to move any lines is given. (7-1-21)

05. Safety E. All swing yarders shall have the outer swing radius marked with hi-vis tape or cones while skidding is in progress. No tools or supplies may be kept inside that radius outside the machine unless in a locked box. No employee may get inside that radius without first notifying the operator. (7-1-21)

453. YARDING MACHINERY.

01. Equipment Assessment. When personnel arrive at a job site with a set of machinery on hand to perform yarding operations, evaluation of the conditions at the landing shall be made, and reassessment of the capacity of the available equipment shall be performed to determine if it meets the task. The principal options and features for yarders, log loaders, and processors are described in this section. (7-1-21)

02. Manufacturer’s Manual. Yarders of various types are used in logging operations, including ground-based and rigged trees to lift the lines, and mobile steel towers. The manufacturer’s manual shall always be consulted for essential features and inspection points on each particular machine. (7-1-21)

03. Types of Yarding Equipment. Yarding operations may include the use of, but is not limited to the following yarding equipment:

a. Straight Tube Telescoping Tower. This equipment uses a hydraulic ram or multiple-sheave cable system to raise the tower. Some telescoping towers allow use at the telescoped height. The tower may be used partially retracted if guylines are placed closer to the landing or on steep slopes. (7-1-21)

i. This equipment may travel by self-propulsion, or be either trailer or track-mounted. It has long reach capacity with a typical height of ninety (90) to one hundred ten (110) feet. (7-1-21)

ii. The advantages of this equipment include the ability to operate heavy payloads, the tower height allows for more line deflection, and some yarders allow yarding one hundred eighty (180) degrees without moving yarder or guylines. (7-1-21)

iii. The disadvantages of this equipment are that it is heavy and difficult to move, it requires appropriate roads and it may have to be disassembled to move on public roads, it requires large landing areas, and it needs large guyline anchor capacity.
b. Fixed Leaning Tower. This equipment is a one-piece tower that may be front-mounted vertical, or leaning. The height of the tower varies with make and model.

i. This equipment may travel by self-propulsion, or be either trailer or track-mounted. It has medium reach capacity with a typical height of forty (40) to eighty (80) feet.

ii. The advantages of this equipment include faster line setup, smaller landing area requirements, it is lighter and easier to move, and has lower guyline anchor requirements.

iii. The disadvantages include a smaller yarding window which necessitates moving the tower and guylines more frequently, and smaller payloads than straight tube towers.

c. Swing Yarder. This equipment is similar to the fixed leaning tower in nearly all respects; however,
the swing yarder is also capable of swinging logs onto the road or landing, and capable of using a running skyline. Track mounts are more stable when moving. (7-1-21)

d. Grapple Yarder. This equipment uses a swing yarder or yoader system. The grapple is controlled by signals from the rigging slinger, or by the yarder engineer using a video link on the carriage. Swing capability is necessary to allow a wider logging corridor. A grapple system is typically used in conjunction with a machine anchor and elevated support on the back end of the unit, making for quick road changes. (7-1-21)

i. This equipment may travel by track-mount or rubber-tire mount. It has medium to short reach capacity. (7-1-21)

ii. The advantages of this equipment include the need for a smaller crew size, typically only a yarder engineer, landing worker, and a hooktender, and it is easier to rig up which is ideal for smaller logging areas. (7-1-21)

iii. The disadvantages of this equipment are that it requires extensive planning to achieve full production, it must have moderate to good deflection, access to the back of unit is generally necessary, and it possesses limited yarding width.

FIGURE 453.03.d.

GRAPPLE YARDER

(7-1-21)

e. Yoader. This yarder is typically a log loader with two (2) drums mounted at the base of the boom. Both lines run through sheaves mounted on the boom or heel rack. The lines can be set up in a standing, live, or running skyline configuration, or a high-lead configuration. (7-1-21)

i. This equipment may travel by track-mount or rubber-tire mount. It has medium reach capacity. (7-1-21)

ii. The advantages of this equipment are that guylines are not necessary, it is easier to move, easy road changes, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader. (7-1-21)

iii. The disadvantages of this equipment are that it requires/results in slower line speeds, it requires blocking up front of the tracks to create stability, and rigging height is limited.
f. Tong-tosser/Jammer System. These are two (2) systems which basically use the same machine as the yoader, with either tongs or chokers on the end of the line to secure the logs. This version typically uses one (1) drum on the machine with a spitter wheel at the end of the boom to pull the line from the drum and push it out to the brush. The yarder engineer usually gets the tongs or chokers swinging and then tosses them to the waiting choker setters.

i. This equipment travels by track-mount. It has short reach capacity.

ii. The advantages of this equipment are that guylines are not necessary, it is easier to move, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader. Additionally, it does not require line layouts or anchors.

iii. The disadvantages of this equipment are that it results in slower line speeds, it requires blocking up front of the tracks to create stability, rigging height is limited, and there is a greater potential risk to the rigging crew.
g. Stiff-leg Spar Yarder. One of various configurations for this yader uses an excavator or log loader fitted with a third boom between the main and jib boom, which is elevated to provide lift. The elevated boom is typically rigged with two (2) or three (3) lines. Works with high lead, standing, running, or slackline configurations.

i. This equipment travels by track-mount. It has medium reach capacity.

ii. The advantages of this equipment are that guylines may not be necessary, it is easier to move, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader or excavator. Additionally, it does not require line layouts or anchors. Additionally, jib boom offers greater stability, and the rigging height is greater than yoder or tong-tosser/jammer system.

iii. The disadvantages of this equipment are that it results in slower line speeds, the attached tower boom may need to be removed for other operations, and it generates heavy stress on boom and components.

**FIGURE 453.03.g.**

![STIFF-LEG SPAR YARDER](image)

454. WIRE ROPE.

01. **General Characteristics.** Wire rope comes in many grades and dimensions, and every rope has its own characteristics with regard to strength and resistance to crushing and fatigue. A larger rope will outlast a smaller rope of the same materials and construction, used in the same conditions, because wear occurs over a larger surface. Similarly, a stronger rope will outlast a weaker rope, because it performs at a lower percentage of its breaking strength, with reduced stress.

02. **Wire Rope Terms.** Common grades of wire rope include extra improved plow steel (EIPS) and swaged powerflex, among others. The following terms are commonly used for wire rope:

a. **Abrasion Resistance.** Ability of outer wires to resist wear. Abrasion resistance is greater with larger wires.

b. **Core.** The foundation of a wire rope which is made of materials that will provide support for the strands under normal bending and loading conditions. A fiber core (FC) can be natural or synthetic. If the core is steel, it can be a wire strand core (WSC) or an independent wire rope core (IWRC).

c. **Crushing Resistance.** Ability of the rope to resist being deformed. A rope with an independent wire core is more resistant to crushing than one with a fiber core.

d. **Die-form Line.** Made from strands that are first compacted by drawing them through a drawing die.
to reduce their diameter. The finished rope is then swaged or further compressed. (7-1-21)T

e. Fatigue Resistance. Ability of the rope to withstand repeated bending without failure (the ease of bending a rope in an arc is called its “bendability”). Fatigue resistance is greater with more wires. (7-1-21)T

f. Strength. Referred to as breaking strength, usually measured as a force in pounds or tons. The breaking strength is not the same as the load limit, which is calculated as a fraction of the breaking strength to ensure safety. (7-1-21)T

g. Swaged Line. Manufactured by running a nominal-sized line through a drawing die to flatten the outer crown and thus reduce the rope diameter. This compacted rope allows for increased drum capacity and increased line strength. (7-1-21)T

03. Typical Wire Rope Specifications. The table below lists a few examples of wire-rope breaking strengths. (7-1-21)T

Source: Cable Yarding Systems Handbook. 2006. Worksafe BC. Table lists typical breaking strengths. See manufacturer’s specifications for specific lines. (7-1-21)T

04. Synthetic Rope. High-tensile strength synthetic lines are considerably lighter than standard wire rope; however, some lines are dimensionally as strong as standard wire rope. Accordingly, high-tensile strength synthetic lines are permitted to be used in appropriate logging applications, including as substitutes for brush straps,
tree straps, tail and intermediate support guylines, guyline extensions, skyline extensions, and haywire. Manufacturers’ standards and recommendations for determining usable life or criteria for retirement of such lines shall be followed. Personnel shall examine the lines for broken or abraded strands, discoloration, inconsistent diameter, glossy or glazed areas caused by compression and heat, and other inconsistencies. Rope life is affected by load history, bending, abrasion, and chemical exposure. Most petroleum products do not affect synthetic ropes.

05. Inspection and Care.

a. Wire rope shall be inspected daily by a qualified individual and repaired or taken out of service when there is evidence of any of the following conditions:

i. Twelve and five tenths percent (12.5%) of the wires are broken within a distance of one (1) lay.

ii. Evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, corrosion, heat damage, or other damage that has weakened the rope structure.

b. Qualified personnel shall closely inspect those points subject to the most wear, including the knob ends of lines, eye splices, and those sections of line that most often run through blocks or carriages. If there is doubt about the integrity of the line, it is far safer to replace a suspect line, or cut out and resplice a defective area, than risk a failure during operation. Evaluation of the load-bearing yarder lines shall be stringent. A qualified person shall also inspect all other lines used on site and remove any that are unsafe.

06. Additional Precautions. The following precautions shall also be observed:

a. Ensure the working load limit for any line is adequate for the intended use.

b. The manufacturer’s specifications with regard to assigned breaking strength shall be followed. Such specifications as determined by engineering test results should factor the grade of the wire, number of strands, number of wires per strand, filler wire construction, lay pattern of the wires, and the diameter of the line.

07. Safety Factor. Operators shall follow the manufacturer’s specifications in determining load limits. The working load limit is a fraction of a line’s breaking strength – a factor of three (3), or one-third (1/3) the breaking strength, is commonly used as a safety factor for running and standing lines, when workers are not exposed to breaking lines or loads passing overhead. A safety factor of three (3) is commonly used to determine the working load limit for a standing or running line. A standard six (6) x twenty-six (26) IWRC wire rope with a diameter of one (1) inch has a breaking strength of approximately forty-five (45) tons – divide by three (3) equals fifteen (15) tons working load limit.

08. Wire Labeling.

a. The elements of a typical wire rope are labeled, for example, six (6) x twenty-five (25) FW PRF RL EIPS IWRC. The label indicates a six (6)-strand rope with twenty-five (25) wires per strand (six (6) x twenty-five (25)), filler-wire construction (FW), strands pre-formed in a helical pattern (PRF), laid in a right-hand lay pattern (RL), using an extra-improved plow steel (EIPS) grade of wire, and strands laid around an independent wire rope core (IWRC). See figure 013.08-A for proper labeling of wire rope.
FIGURE 454.08.a.

b. Out of Service Standard Example. A six (6) x twenty-five (25) IWRC wire rope = six (6) strands in one (1) lay with twenty-five (25) wires per strand = one hundred fifty (150) wires. The rope must be taken out of service when twelve and five tenths percent (12.5%), or one-eighth (1/8), of the wires are broken within the distance of one (1) lay = one hundred fifty (150) divided by eight (8) = eighteen and seventy-five one hundredths (18.75), or nineteen (19) broken wires.

09. Wire Line Life. Table 454.09 provides the allowable life of a line in million board feet in accordance with line size and use. Figure 454.09.a. illustrates both the correct and incorrect manner in which to measure line size (diameter).

Source: Willamette Logging Specialist’s Reference by Keith L McGonagill. 1976. Portland, OR: Willamette National Forest. Calculations of line life refer to EIPS 6x21 wire rope for the skyline, and EIPS 6x26 for other lines. Figures will be different for other classes of wire rope.

FIGURE 454.09.a.

Correct way to measure line diameter
10. **Dynamic Loads.** Operators shall consider high dynamic loads when calculating safe working limits of wire ropes. Wire ropes are often subjected to high dynamic loads, which greatly multiply the force on a line and may exceed the safe working limit. Even a split second of time over the limit can lead to premature failure of a line. Typical dynamic loads occur when a turn hits a stump, a turn comes down off of the back hillside to full suspension, or when excessive force is applied to pulling a turnout of its bed. A high dynamic load or a sudden shock load that exceeds the working limit may not result in immediate failure, but rope strands may stretch and weaken, and may fail at a later time.

11. **Other Common Wire Rope Considerations.**

   a. Wire Rope Stretching and Line Diameter. A stretched wire rope has a reduced diameter. Operators shall check for stretched lines by measuring the diameter, particularly on older lines and any line used in stressful situations.

   b. Older Wire Rope. Standing lines and guylines are often kept in service for multiple years (four (4) to five (5), and as long as ten (10) years in some instances) without exhibiting any obvious signs of excessive wear other than rust. Operators shall check date stamps of wire rope and evaluate line life. Operators shall also inspect the core of older lines periodically for a fractured or dry core, which could indicate other deficiencies such as broken wires, excessive wear, or line deformation.

   c. Hard Use. The life of a wire rope is also affected by hard use. Line life can be measured by the volume of wood hauled (see Table 459.09). Line life is reduced when a line exceeds its elastic limits, is heavily shocked, or rubbed against rocks or other lines. As a line wears, the safe working load limit shall be lower and the payload adjusted appropriately.

   d. Wire Rope endurance and elastic limits. Working within the endurance and elastic limits of lines can help preserve line life. The following principles shall be observed when evaluating the integrity and safe use of wire rope:

      i. The “endurance limit” for all lines is fifty percent (50%) of the breaking strength. If wire rope tensioning regularly exceeds the endurance limit, the life of the line is reduced through fatigue.

      ii. The “elastic limit” for all lines is sixty to sixty-five percent (60-65%) of the breaking strength. When a wire rope is loaded to its normal safe working limit, the line stretches, but then returns to its original size when the load is released. If a load increases past the elastic limit through prolonged exertion or repeated stress, the line will stretch and stay stretched, resulting in a permanent reduction in the breaking strength.

   e. Lubrication and Abrasion. Wire rope is lubricated in the factory to reduce internal friction and corrosion, and prolong the life of the rope. Heat from friction causes the internal lubricant to deteriorate. Friction occurs when the rope stretches under load, particularly in places where it bends around sheaves or other objects. An improperly lubricated line can pick up particles of dirt and sand that will increase abrasion. Accordingly, operators
shall:

i. Check for and ensure the proper lubrication of all lines and wire rope, following the manufacturer’s instructions. Commercial wire rope lubricants are available. (7-1-21)T

ii. Carefully inspect lines for faults in areas where dust and sand may collect. (7-1-21)T

iii. Store all wire rope and lines off the ground. (7-1-21)T

12. Line Connections.

a. Inspection. Operators shall regularly inspect shackles, hooks, splices, and other connecting equipment for damage and wear, as well as ensure the connectors are the correct type and size for the line and intended use. (7-1-21)T

b. Wire Splicing. Splices are used to form an eye at the end of a line, extend the length of a line, or repair a broken or damaged line. The splicing of wire rope requires special skill and shall only be performed under the supervision of a competent person with using the proper tools. Reference materials are available with detailed instructions for numerous types of splices. Individuals splicing wire shall always wear appropriate eye protection while splicing or assisting with a splicing procedure. (7-1-21)T

c. The logger’s eye splice and three (3)-pressed eye are the most common methods to form an eye for use as a skyline terminal. See Figure 454.12.c. The spliced eye is approximately eighty percent (80%) efficient. A three (3)-pressed eye can reach ninety percent (90%) line strength. The pressed eye is typically performed at the rigging shop. Spliced eyes may be placed in the field, but may require additional time to install. (7-1-21)T

FIGURE 454.12.c.

THE LOGGER’S EYE SPLICE

THREE-PRESSED EYE

(7-1-21)T

d. When Flemish (Farmers, Rolled) eye splices are used on load-bearing lines, the strand ends must be secured by:

i. Hand tucking each strand three (3) times; or (7-1-21)T

ii. Applying a compression (pressed-eye) fitting. (7-1-21)T

e. Guyline Care. Guylines are a vital link in holding up a tower. Guyline extensions shall not be excessively moved around by dragging on the ground, or left on the ground for long periods of time as they will deteriorate faster. (7-1-21)T

f. Guyline extensions must be connected by: (7-1-21)T
i. A bell shackle using a safety pin to connect spliced eyes or pressed eyes; or

ii. Poured nubbins (buttons) and a double-ended hook.

Line Deformity. A line may deform where it loops around a shackle or pin, producing weakness that may result in line failure. A thimble in the loop protects the line. Thimbles may be used on standing lines, but not on running lines. Examples of the appearance of deformed lines and the use of thimbles in shackles are illustrated in Figure 454.12.g.

![FIGURE 454.12.g.](Image)

13. Shackles and Hooks.

a. Hooks. Hooks shall be inspected to ensure that they have not sprung open. Ensure that shackles are positioned correctly to bear the load. Haywire swivels shall be inspected frequently, due to their susceptibility to wear rapidly.

b. Shackle Safety. Proper bells or shackles shall be used to connect the guylines to the stumps, and the guyline lead blocks to the ring at the top of the tower. Connections shall have at least one and a half (1-1/2) times the strength of the guyline. The pins of the shackles must be secured to protect against dislodgement, and a nut and cotter key, or a nut and molly may be used for that purpose. The use of loops or mollies to attach guylines is prohibited. Examples of the appearance of some shackle equipment is illustrated in Figure 454.13.b.

![FIGURE 454.13.b.](Image)

c. The following practices shall be observed in order to ensure the safe use of shackles:

i. A shackle must have a rated breaking strength greater than the rated breaking strength of the lines attached to it, and the manufacturer’s rated strengths to determine oversized requirements shall be used. Accepted industry standards shall be utilized and adhered to when determining the correct shackle size based on the type and
nature of the logging operation being performed. Examples of the appearance of some shackle equipment for the purposes of proper selection is illustrated in Figure 454.13.c.i (7-1-21)

ii. Shackles with pins, and securing nuts with mollies or a cotter key shall be used on standing or overhead rigging. (7-1-21)

iii. Screw shackle pins shall not be used in any standing or overhead rigging. (7-1-21)

iv. Screw shackle pins, where allowed to be used, shall be tightened securely. (7-1-21)

v. Shackle pin mollies shall be rolled sufficiently and fit the pin hole fully. Mollies shall be tucked a minimum of three (3) times. (7-1-21)

vi. The shackle shall always be placed with the pin nearest to the yarder, so that in the event the shackle fails the least amount of hardware may be thrown at the yarder. (7-1-21)

vii. Replace shackles that are bent, broken, or show excess wear on the inner surfaces. Examples of the appearance of some damaged or non-conforming shackles are illustrated in Figure 454.13.c.vii. (7-1-21)

viii. Sleeve shackles or choker bells must be used when choked lines are permitted. (7-1-21)
14. **Knobs, Ferrules, and Eyes.**

a. Poured nubbins and a double-end hook are acceptable connectors in place of shackles in some instances. The use of quick nubbins (wedge buttons) as guylines and skyline end fittings is prohibited unless attaching guylines to guyline drums. Operators shall follow the manufacturer’s recommendations when attaching sockets and similar end fastenings.

b. Poured nubbins achieve ninety-nine percent (99%) of line strength and may be used. Quick nubbins only achieve a maximum of sixty-five percent (65%) under ideal conditions, and accordingly operators shall consider whether they are appropriate for safe use in any given application. Pressed ferrule are not certifiable for strength, and shall not be used. Examples of the appearance of some knob, ferrule, and nubbin equipment are illustrated in Figure 454.14.

c. Operators shall inspect knobs, ferrules, and eyes at cable ends for loose or broken wires, and corroded, damaged, or improperly applied end connections. Poured nubbins shall be date stamped.

**FIGURE 454.14**

15. **Brush Blocks.** Brush blocks shall be thoroughly inspected for cracks, wear, or deterioration. Operators shall closely examine the areas subject to the most wear, including bearings, sheave, frame, yoke, and pins. Defective parts shall be replaced immediately. Blocks shall be greased every time before each use.
16. **Chains and Straps.** Chains or straps shall always be sized and used correctly for the intended purpose. Determining which size to use may depend on various factors. Oversized trailer lift straps, for example, shall have a breaking strength equal to five (5) times the load to be lifted. Towing chains shall have a tensile strength equivalent to the gross weight of the towed vehicle. The manufacturer’s specifications or other appropriate reference materials shall always be consulted to ensure the right chain or strap is used for a task.

    (7-1-21)T

    **a.** Operators shall periodically inspect chains for damaged, worn, or stretched links. Chains with more than ten percent (10%) wear at the bearing surface shall be replaced. Operators shall periodically inspect straps, and examine them for broken wires or wear. Examples of the appearance of damaged and safe chains are illustrated in Figure 454.16.a.
455. TREE CLIMBING.
Loggers are often required to climb considerable heights to top trees or hang rigging on lift trees. All workers who may be exposed to fall hazards shall be specifically trained and equipped with fall protection.

01. Rescue Plan. Before rigging any tree, the employer must develop rescue procedures, which includes identifying appropriate equipment, personnel, and training to perform a rescue in case a climber is injured or incapacitated in the tree. A second set of climbing gear and a person with climbing experience shall be readily available. Equipment and procedures that will support an injured climber’s chest and pelvis in an upright position during a rescue shall be used. When an injured climber is wearing only a climbing belt, provisions must be made to prevent the climber from slipping through it; this may include using a rope to create an upper-body support system. Consideration should be made to replacing climbing belts with a climbing harness.

02. Before Leaving the Ground. Employers shall check climbing equipment and immediately remove defective equipment from service. Personnel shall ensure that hardware and safety equipment is securely fastened before placing weight on the lanyard or life-support rope. All climbing knots shall be tied, dressed, and set prior to ascending. All personnel shall follow the recommendations of the manufacturer of the cordage with respect to the use of splices.

03. Climbing Equipment.

a. A climbing harness provides both pelvic and upper-body support, and may be a one (1)-piece, full-body harness, or any two (2)-piece design that meets industry standards.

b. Climbing and life-support lines shall be conspicuous and easily identifiable.

c. All lines and webbing used for life support shall have a minimum breaking strength of five thousand four hundred (5,400) pounds and may only be used for climbing.

d. When a cutting tool is used in a tree, the climbing rope (lanyard) shall be a high-quality steel safety chain of three-sixteenths (3/16) inch size or larger, or a wire-core rope.

e. A life-support rope evidencing excessive wear or damage or that has been subjected to a shock load shall be removed from climbing service.

04. Climbing Operations.

a. Ensure climbers are appropriately well-trained in climbing and in the use of all equipment to carry out assigned tasks.

b. While climbing operations are underway, co-workers and others on the ground shall stay clear of potential falling objects. If co-workers must work directly below a climber, the climber shall stop any activity in which objects could be dropped or dislodged until the area below is cleared. Climbers shall provide warning whenever any material may be likely to fall or is dropped deliberately. Unsecured equipment, rigging, or material shall not be left in the tree.

c. Yarding activity must cease within reach of a tree or guylines of a tree where a climber is working. Machinery may operate in reach of the climber to hoist rigging into the tree. In such circumstance the following shall apply:

i. A spotter shall be utilized and yarding operations shall be performed with extra caution;

ii. The machine operator and the spotter shall give the task their undivided attention;

iii. Equipment that is nearby and which may be noisy, such as power saws, tractors, or logging machines shall be shut down if the noise interferes with signal communications with the climber; and
iv. Lines attached to a tree in which a climber is working shall not be moved except on a signal from the climber. (7-1-21)T

d. Tree climbers shall use a three (3)-point climbing system whereby three (3) points of contact must be firmly in place on a secure surface before moving to another point. Along with hands and feet, other points on the body, such as a hooked knee, can be considered a point of contact if it can support the full body weight. Additionally, the places of support must be secure, and climbers should use care to void unsound branches or stubs as a contact point. A lanyard around the tree secured to the safety harness or climbing belt on both ends constitute two (2) points of contact. (7-1-21)T

e. Climbing without being secured to the tree is prohibited, except in conifers, when in the judgment of a qualified climber, the density of branches growing from the stem make attaching the lanyard more hazardous than simply climbing the tree. In such instances, the climber shall evaluate the tree farther up, and use attachments when it is safe to do so. (7-1-21)T

05. Topping Trees. Only an experienced climber with experience felling trees shall top a tree. Cutters shall not cut when wind or other conditions make doing so hazardous. Standard safe felling procedures shall apply, with the additional following requirements: (7-1-21)T

a. A chainsaw with a bar short enough to make both the face-cut and backcut easily from one side shall be used. (7-1-21)T

b. Cutters shall determine the felling direction and ensure there are no obstructions. Consideration shall be given to the fact that an impact could cause violent movement in the tree being topped where the climber is perched. (7-1-21)T

c. A safety chain shall be wrapped around the tree just below the cut to prevent the tree from splitting or slabbing down inside the climbing rope. (7-1-21)T

d. The cutter shall ensure he is comfortable, and avoid any awkward cutting position. (7-1-21)T

e. Exact cuts should be made. There is no escape route for the climber to get away from the stem to avoid kickback or a splintered hinge. When making horizontal side cuts, extra care shall be used to stay on the line of the backcut to avoid wood breaking away with the saw as the top falls. (7-1-21)T

456. TYPICAL RIGGING SYSTEMS.

01. See Figures 456.01-A through 456.01-H.

SUBCHAPTER K – ROAD TRANSPORTATION
(Rules 501 - 550)

501. LOG TRUCK TRANSPORTATION.

01. General. The following requirements are supplemental to any Idaho law governing automobiles, trucks, tractors, trailers, and any combination of these units. If there are any discrepancies in the codes between this section and any federal or Idaho motor vehicle regulations pursuant to title 49, Idaho Code, applicable in the state of Idaho, such federal or other governmental regulations will govern.

02. Stopping and Holding Devices for Log Trucks.

a. Motor logging trucks and trailers must be equipped with brakes or other control methods which will safely stop and hold the maximum load on the maximum grade. Air or vacuum brake lines shall be of the type intended for such use and shall have fittings which will not be interchangeable with water or other lines.

b. Brake Test - A brake test shall be made before and immediately after moving a vehicle. Any defects shall be eliminated before proceeding.

03. Lighting Equipment Required.

a. Motor vehicles used on roads not under the control of the Idaho Transportation Board, counties or cities, shall have equipment necessary for safe operation, such as head, tail, and stop lights.

b. Such lights shall be used during clearance periods of reduced visibility.

04. Safe Operating Requirements.

a. The driver shall do everything reasonably possible to keep his truck under control at all times and shall not operate in excess of a speed at which he can stop the truck in one-half (1/2) the distance between him and the range of unobstructed vision.

b. The driver shall take into consideration the condition of the roadway, weather factors, curves, grades and grade crossings, the mechanical condition of his equipment, and other relevant factors.

c. The driver shall clear rocks from between dual tires before driving on multi-lane roads.

d. A daily inspection shall be made of trucks and trailers with particular attention to steering apparatus, brakes, boosters, brake hoses and connections, reaches, and couplings. Any defects found shall be corrected before equipment is used.

05. Stakes, Bunks, or Chock Blocks. All stakes and bunks, installed on log trucks and trailers, together with the means provided for securing and locking the stakes in a hauling position, shall be designed and constructed of materials of such size and dimensions that will withstand a pressure of fifteen thousand (15,000) pounds applied outward against the tops of the stakes, and, or extensions when used, without yield or permanent set resulting in the stakes, bunks or the means provided for securing and locking the stakes.

NOTE: Test Procedure - A test pressure of fifteen thousand (15,000) pounds is applied to the top of one (1) stake, using the top of the stake opposite as a base for applying pressure. Bunk is not to be secured to floor or other base except in a manner similar to that used to mount it to truck or trailer. Stakes must return to normal upright position at end of test and stakes and all component parts examined and checked with original specifications. If no yield results in any part, the design and construction may be considered as meeting code requirements.

06. Stake Extensions.
a. Stake extensions shall not be used unless all component parts of the bunking system are of sufficient size and strength to support the added stresses involved. (7-1-21)T

b. Truck drivers shall report missing or broken stake extensions to the proper authority. (7-1-21)T

07. **Stake and Chock Tripping Mechanisms.** Stakes and chocks that trip shall be constructed in such a manner that the tripping mechanism, which releases the stake or chocks, is activated at the opposite side of the load from the stake being tripped. (7-1-21)T

08. **Linkage for Stakes or Chocks.** (7-1-21)T

a. The linkage used to support the stakes or chock must be of adequate size and strength to withstand the maximum imposed impact load. (7-1-21)T

b. “Molly Hogans” or cold shuts are prohibited in chains or cable used for linkage. (7-1-21)T

09. **Notify Engineer When Around Truck.** (7-1-21)T

a. Persons shall not walk along side of or be underneath any truck being loaded. (7-1-21)T

b. Prior to performing any duties, such as releasing bunk locks, placing or removing compensating pin, scaling logs, reading scale, chopping limbs or making connections, persons shall notify the loading engineer of their intentions and be acknowledged. (7-1-21)T

10. **Number of Wrappers Required.** (7-1-21)T

a. Each unit used for hauling logs longer than twenty six (26) feet, shall have the load secured by a minimum of three (3) wrappers. Wrappers shall be placed in positions that effectively secure the load. One (1) wrapper shall be placed within ten (10) feet of each bunk. See Figure 501.10.a.

**FIGURE 501.10.a.**
b. All exposed outside logs shall be secured by one (1) wrapper passing near each end of the log. See Figure 501.10.b.

FIGURE 501.10.b.

SHORT LOG LOADS

LONG LOG LOAD WITH SHORT
LOGS IN REAR OR IN FRONT
11. Requirements for Crosswise Loaded Trucks.

   a. When loads of short logs are loaded crosswise, the logs shall be properly contained by use of stake or chock blocks and shall be secured by a minimum of two (2) wrappers. (See Figure 501.11.a.)
b. Binders shall be securely fastened to the vehicle.

12. Construction of Wrappers and Binders.
   a. Cables shall have a spliced eye or swaged fittings.
   b. “Molly Hogans” or cold shuts are prohibited to make splices or connections.
   c. Each wrapper shall have a minimum breaking strength of not less than fifteen thousand (15,000) pounds.
   d. Binders must be stamped with a working load limit of four thousand (4,000) pounds or greater.

   a. Binders shall be placed in a manner whereby they will be released on the side opposite the brow log, or on the side where the unloading equipment operator can see the binders.
   b. Truck drivers shall be required to stop vehicles, dismount, check and tighten loose load binders, either just before or immediately after leaving a private road to enter the first public road they encounter.

14. Precautions When Placing or Removing Binders and Wrappers.
   a. Binders and wrappers shall remain on the load until an approved safeguard has been provided to prevent logs from rolling off the side of truck where binders are being released.
   b. At least one (1) wrapper shall remain secured while relocating or tightening other binders.
15. **Binders and Wrappers to Be Placed Before Leaving Landing Area.** Binders and wrappers shall be placed and tightened around the completed load before shifting the load for proper balance. Each load must have all required wrappers placed and secured at the loader before the truck is moved. If it is unsafe to do so, the truck may be moved to the nearest safe place in sight of the loader.

16. **Adequate Reaches Required.**

a. Log trailers must be connected to tractors by reaches of a size and strength to withstand all imposed stresses.

b. Spliced reaches shall not be used.

c. Documented reach inspections shall be performed annually.

17. **Proper Lay of Logs in Stakes or Bunks.**

a. The method of loading shall be such that the logs in any tier or layer unsecured by stakes or cheese blocks shall have their centers inside of the centers of the outer logs of the next lower tier or layer so that the load is stable without the aid of binders.

b. Logs shall be well saddled without crowding so that there will be no excessive strain on the wrappers or stakes.

c. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled.

d. Bunk logs shall extend not less than twelve (12) inches beyond the bunk, with the exception of non-oscillating bunks.

18. **Traffic Travel on Right Side of Road Except Where Posted.** All trucks shall keep to the right side of the road, except where road is plainly and adequately posted for left side traveling.

19. **Towing of Trucks.** When trucks must be towed on any road, the person guiding the vehicle being towed shall, by prearranged signals, govern the speed of travel.

20. **Scaling and Branding.** When at the dump or reload and where logs are scaled or branded on the truck, the logs shall be scaled or branded before the wrappers are released.

21. **Metal Parts Between Bunk and Cab to Be Covered.** Suitable material shall be used on treading surfaces between the bunk and cab to prevent persons from slipping on the metal parts.

22. **Bunks to Be Kept in Good Condition and Repair.**

a. Log bunks or any part of bunk assembly bent enough to cause bunks to bind shall be straightened.

b. Bunks shall be sufficiently sharp to prevent logs from slipping.

23. **Following Other Vehicles.**

a. A vehicle not intending to pass shall not follow another vehicle closer than one hundred fifty (150) feet.

b. Passing shall be done only when it can be done safely. The passing vehicle shall consider all factors which may be essential, such as condition of the roadway, width of the road, and distance of clear visibility ahead.
24. **Reaches to Be Clamped When Towing Unloaded Trailer.** A positive means, in addition to the clamp, shall be installed on the reach of log truck trailers when the trailers are being towed without a load. (7-1-21)T

25. **Inserting of Compensating Pin.**
   a. Persons shall never enter the area below suspended logs or trailers. (7-1-21)T
   b. At dumps where the load must remain suspended above the bunks until the truck is moved away and when the trailer is the type with a compensating pin in the reach, a device shall be installed that will allow the trailer to be towed away from the danger area. (7-1-21)T

26. **Safety Chains.**
   a. All trailers shall be secured with a safety chain, or chains, which connect the frame of the truck assembly to the trailer unit. (7-1-21)T
   b. The chains shall be capable of holding the trailer in line in case of failure of the hitch assembly. (7-1-21)T

502. **STEERED TRAILERS.**

   01. **Steered Trailers.** Steered trailers not controlled from the truck cab shall be designed, constructed, and operated in accordance with this section. (7-1-21)T

   a. Secure seat. A secure seat with substantial foot rests shall be provided for the steerer at the rear of the bunk. Any arrangement that permits the steerer to ride in front of the bunk is prohibited. (7-1-21)T

   b. Unobstructed exit. The seat for the steerer shall be so arranged that the steerer has an unobstructed exit from both sides and the rear. (7-1-21)T

   c. Bunk support. The bunk support shall be so constructed that the steerer has a clear view ahead at all times. (7-1-21)T

   d. Adequate means of communication. Adequate means of communication shall be provided between the steerer and the truck driver. (7-1-21)T

   e. Eye protection and respirator. Eye protection and respirator shall be provided for the steerer. (7-1-21)T

   f. Fenders and splash plates. The trailer shall be equipped with fenders or splash plates to protect the steerer from mud and dust so far as possible. (7-1-21)T

   g. Lights. If used during a period of reduced visibility on roads not under the control of the Idaho Transportation Board, counties or cities, the trailer shall be equipped with head, tail and stop lights. (7-1-21)T

503. **COMMON CARRIERS.**

   01. **Responsibility.** It shall be the responsibility of the common carrier, and particularly the operator of the common carrier, upon entering the premises of any sawmill, woodworking or allied industry, to exercise all possible caution and to use all necessary safety devices and precautions to their fullest extent. (7-1-21)T

   02. **Audible and Visual Warning Devices.**

      a. All common carriers equipped with audible and visual warning devices shall activate such warning devices before entering a danger zone, and they shall remain activated as long as the carrier is moving in that zone. (7-1-21)T
b. A danger zone shall be defined as an area where men or vehicles are working or normally work.

03. **Train Operations.** When a train is operating on a plant railway system, the safety rules shall apply as outlined by the Association of American Railroads governing train, engine and transportation of employees.

504. **SELF-LOADING LOG TRUCKS.**

01. **Self-Loading Log Trucks.** Self-loading log trucks manufactured after January 1, 1981, shall be equipped with:

   a. A load check valve (velocity fuse) or similar device installed on the main boom.
   
   b. A seat that is offset from the point of attachment of the boom. The seat and boom structure shall rotate concurrently.

02. **Operator.** The operator of a self-loading log truck shall not:

   a. Heel the log over his head; or
   
   b. Heel the log on the operator side of the boom if offset from the point of attachment of the boom.

03. **Safe and Adequate Access.** A safe and adequate means of access to and from the loading work station on self-loading log trucks shall be provided.

04. **Overhead Hazards.** A self-loading log truck shall not load itself or another truck when the loading process is under or within a guyline circle or similar overhead hazard.

05. **Trailers Secured.** Self-loading truck trailers shall be secured to the truck when the trailer is being hauled on the truck.

505. -- 550. (RESERVED)

SUBCHAPTER L – LOG DUMPS, LANDING, LOG HANDLING EQUIPMENT, LOADING AND UNLOADING BOOMS, AND TRAILER LOADING HOISTS
( Rules 551 - 600)

551. **SPECIFIC REQUIREMENTS.**

01. **Log Dumps, Landings, Log Handling Equipment, Loading, and Unloading.**

   a. Only authorized persons shall operate log handling equipment. Machine operators shall be capable and experienced personnel. No persons other than the operator may be in the operator’s compartment while machinery is operating, except for purposes of operating instructions. Unnecessary talking to the operator of log handling equipment while the machine is in operation is prohibited.

   b. Machine operators shall make necessary inspection of machines each day before starting work. All repairs or adjustments shall be made before any strain or load is placed upon the equipment.

   c. Substantial barriers or bulkheads protecting the operator shall be provided for all log handling machines where the design, location, or use of such machines exposes the operator to material or loads being handled. Such barriers or bulkheads shall be of adequate area and capable of withstanding impact of materials handled.

   d. A safe and adequate means of access to, and egress from, the operator’s station shall be provided.
Necessary ladders, steps, step plates, foot plates, running boards, walkways, grab irons, handrails, etc., shall be provided and maintained. (7-1-21)

e. All moving parts shall be guarded in an approved manner to afford complete protection to the operator and other workers. (7-1-21)

f. Throttles and all power controls shall be maintained in good operating condition. (7-1-21)

g. Landings shall be prepared and arranged to provide maximum safety for all employees and shall provide ample space for the safe movement of equipment and storage and handling of logs. (7-1-21)

h. Adequate means shall be used to prevent logs from rolling into the road or against trucks. Workers shall be sure that logs are securely landed before approaching them. While unhooking chokers, workers shall choose the safest approach. This is usually from the upper side of the log. (7-1-21)

i. Logs shall not be landed at loading areas until all workers, tractors, trucks, or equipment are in the clear. All persons shall stay in the clear of running lines, moving rigging, and loads until rigging or loads have stopped. (7-1-21)

j. The loading machine shall be set so that the operator shall have an unobstructed view of the loading area, or a signalman shall be properly placed and his signal shall be followed. Signaling the operator shall be done by standard hand signals, whistles, or other positive means of communication. (7-1-21)

k. Machines, sleds, or bases shall be of sufficient strength to safely withstand moving, and machines shall be securely anchored to their bases. (7-1-21)

l. Mufflers shall be installed on all internal combustion engines of log handling equipment and located or guarded in such a manner as to prevent accidental contact with the muffler or exhaust pipes and afford protection from fumes. (7-1-21)

m. Brakes shall be installed on all machine drums and maintained in effective working condition. (7-1-21)

n. Brake levers shall be provided with a ratchet or other equally effective means for securely holding the drum. (7-1-21)

o. Brake bands shall have a safety factor of five (5) times the stress to be imposed and they shall be of a design which will render them impervious to exposure. Operators shall test brakes before lifting any load at the start of each shift. (7-1-21)

p. In no case shall stresses in excess of the manufacturer’s recommendation be permitted. Equipment not carrying a manufacturer’s recommendation shall not exceed stresses of more than one half of the yield strength of the material used. Conversion of cranes, shovels, etc., into yarders shall be in conformity with these rules. Necessary guylines or outriggers shall be provided and used to effectively prevent mast, A-frames, etc., from tipping or overturning. (7-1-21)

q. The manufacturer’s recommendations for line sizes, if in compliance with these rules, shall be followed and such line sizes shall not exceed the rated capacity of the machine using it. (7-1-21)

r. Fork lifts or arms, tongs, clams or grapples shall be lowered to their lowest position and all equipment brakes set before the operator leaves the machine. (7-1-21)

s. Log unloaders shall not be moved about the premises for distances greater than absolutely necessary with the lift extended or with the loads higher than necessary for clear vision. (7-1-21)

t. All log handling machines which have lift arms that create a shear point with the driver’s cab or position shall be provided sheer guards that will eliminate the operator’s exposure to such hazard. Grapple arms or
other positive means of keeping logs on the forks shall be required on fork lift-type loading machines. (7-1-21)T

u. All workers shall be in the clear and in view of the machine operator before a lift is made. (7-1-21)T

v. All mobile log handling machines shall be equipped with rearview mirrors, a horn or other audible warning device, and lights front and rear so as to illuminate the entire length of the load being lifted or carried. An automatic warning device that will activate when the vehicle is moved is preferable in areas where other workers are employed. (7-1-21)T

w. Logs or loads shall not be swung over occupied equipment or workers and no person shall ride the load or rigging. (7-1-21)T

x. While logs are being loaded, no person shall remain on the chain deck or behind the truck cab protector where they could be pinned between the end of a log and cab, tank, or cab protector. Cab protectors shall be cleaned of all loose gear before trucks are moved from the landing. (7-1-21)T

y. An unimpaired clearance of not less than three (3) feet shall be maintained from swinging or moving parts of machines, where such swinging or moving parts create a hazard to personnel. If this clearance cannot be maintained, suitable barricades or safeguards shall be installed to isolate the hazardous area. (7-1-21)T

z. A-frames, towers, masts, etc., shall be designed and constructed to provide adequate structural strength and height for positive control of materials or loads lifted. When in use, they shall be guyed or braced to provide stability and prevent tipping. Their bases shall be secured against possible displacement. (7-1-21)T

aa. All log handling equipment shall be equipped with brakes capable of holding and controlling the vehicle with capacity load. (7-1-21)T

bb. A limit stop which will prevent the lift arms from over-traveling shall be installed on all electric powered log unloaders. (7-1-21)T

c. Gas powered vehicles shall not be refueled while motor is running nor in the vicinity of smoking or open flames. (7-1-21)T

dd. All log handling equipment shall be equipped with approved fire extinguisher of at least five (5) B.C. rating easily accessible to operator. (7-1-21)T

ee. Methods of unloading logs shall be properly arranged and used in a manner to provide protection to all employees. (7-1-21)T

ff. After cars or trucks are spotted at such dump or landing, no person will be permitted to pass between a brow log and a truck or rail car. (7-1-21)T

gg. Where there is danger of tongs or hooks pulling out of the logs, straps shall be used. (7-1-21)T

hh. All equipment should be so positioned, equipped, or protected so that no part shall be capable of coming within ten (10) feet of any power line. (7-1-21)T

ii. Bunk logs shall extend not less than twelve (12) inches beyond the bunks, with the exception of non-oscillating bunks. (7-1-21)T

jj. The method of loading shall be such that the logs in any tier or layer unsecured by stakes or cheese blocks shall have their centers inside of the centers of the outer logs of the next lower tier or layer so that the load is stable without the aid of binders. Logs shall be well saddled without crowding so that there will be no excessive strain on the binders, bunk chains, or stakes. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled. (7-1-21)T

Section 601

kk. Binders shall be so placed that they will not be fouled by the unloading machine and that they may be released from the side on which the unloader operates. Proper protection shall be provided for workers while removing wrappers. (7-1-21)T

ll. Truck drivers shall be in the clear and in view of the log unloader operator before forks are moved into the load or against it, before a lift is made. All persons are prohibited from standing under, or near, the ends of logs being lifted or moved. (7-1-21)T

mm. Loads or logs shall not be moved or shifted while binders are being applied or adjusted. NOTE: For logs in transit see Section 501 of these rules “Log Truck Transportation.” (7-1-21)T

nn. All log dumps, trailer loading areas, and landings shall be kept reasonably free from bark and other debris. (7-1-21)T

oo. Logs in storage decks shall be so arranged as to prevent logs from rolling off the face of the deck. (7-1-21)T

pp. All log load wrappers shall be arranged so that they must be released in view of the unloader operator or signal person. When binders are released by remote control devices and when the person releasing the binders is in a safe location, and when in view of the unloading operators, or signal person, the binders may be released from either side. After the unloading machine is in position to hold the load, the binders shall be removed and the person removing them shall be in a safe location in view of the operator. The operator will be given a signal by the person releasing the binders before the machine or load is moved. (7-1-21)T

02. Trailer Loading Hoist/Sawmill Log Dump. (7-1-21)T

a. The hoist shall be designed and constructed in accordance with the National Electrical Code, so as to provide safe loading or unloading of the trailer. (7-1-21)T

b. The hoist shall be equipped with a limiting device to maintain safe take-up limits of line on the hoisting drum. (7-1-21)T

c. Regular service and inspection of the hoist and hoisting equipment shall be made to assure reliable serviceability of the facility. (7-1-21)T

SUBCHAPTER M – HELICOPTER LOGGING
(Rules 601 -- 650)

601. GENERAL REQUIREMENTS.
Safety requirements are as follows: (7-1-21)T

01. Briefings. Prior to each day’s operation, a briefing shall be conducted. This briefing shall set forth the daily plan of operation for the pilot and ground personnel. (7-1-21)T

02. Personal Protective Equipment. Personal protective equipment for employees receiving the load shall, as a minimum, consist of complete eye protection and hard hats secured by chinstraps. (7-1-21)T

03. Loose-Fitting Clothing. Loose-fitting clothing likely to flap in the downwash, and perhaps be snagged on the hoist line, shall not be worn. (7-1-21)T

04. Reduced Visibility. When visibility is reduced by dust or other conditions, ground personnel shall keep clear of main and stabilizing rotors. (7-1-21)T

05. Unauthorized Personnel. No unauthorized person shall be allowed to approach within fifty (50) feet of the helicopter when the rotor blades are turning. (7-1-21)T
06. Approaching or Leaving Helicopter. All employees approaching or leaving a helicopter with blades rotating shall remain in full view of the pilot and remain in a crouched position. (7-1-21)T

07 Areas to Avoid in Helicopter. Employees shall avoid the area from the cockpit or cabin rearward unless authorized to be there by the helicopter operator. (7-1-21)T

08. Approach and Departure Zones. Helicopter approach and departure zones shall be designated and no equipment or personnel will occupy these areas during helicopter arrival or departure. (7-1-21)T

09. External Loads. Helicopters with an external load shall not pass over areas where fallers are working. (7-1-21)T

10. Open Fires. Open fires shall not be permitted in an area that could result in such fires being spread by rotor downwash. (7-1-21)T

11. Compliance with FAA Regulations. Helicopter operations shall comply with any applicable regulation of the Federal Aviation Administration. (7-1-21)T

12. Protective Precautions. Every practical precaution shall be taken to provide for the protection of employees from flying objects in the rotor downwash. (7-1-21)T

602. SPECIFIC REQUIREMENTS.

01. Signal Systems. (7-1-21)T

a. Signal systems between air crew and ground personnel shall be understood and checked before hoisting the load. This applies to either radio or hand signal systems. (7-1-21)T

b. There shall be constant reliable communication between the pilot and a designated signalman during the period of loading and unloading. (7-1-21)T

c. The helicopter shall be equipped with a siren to warn workers of hazardous situations. (7-1-21)T

02. Loading Logs. (7-1-21)T

a. It shall be the responsibility of the firm, supervisor, or person who is in charge of the actual loading operation to comply with the provisions of these rules applicable to log loading. (7-1-21)T

b. The helicopter operator shall be responsible for the size, weight and manner in which loads are attached to the helicopter. If, for any reason, the helicopter operator believes the lift cannot be made safely, the lift shall not be made. (7-1-21)T

c. When employees are required to perform work under hovering aircraft, a safe means of access shall be provided for employees to reach the hoist line hook and engage or disengage cargo slings. (7-1-21)T

d. Employees shall not work under hovering aircraft except while hooking or unhooking loads. (7-1-21)T

e. The weight of an external load shall not exceed the manufacturer’s rating. (7-1-21)T

f. The hook-up crew shall not work on slopes below felled and bucked timber when an unsafe situation exists. Culls left, which have a potential of rolling, should be moved to a safe position. (7-1-21)T

03. Loading and Landing Areas. (7-1-21)T

a. The minimum dimensions of a drop zone shall be determined by the length of the logs being
hauled. All zones shall be at least one and one-half (1 1/2) times as long, and as wide as the length of the average log being harvested. (7-1-21)T

c. Landing or loading machinery shall be a reasonable distance away from where logs are to be landed. (7-1-21)T

d. Landing crew shall be in the clear before logs are landed. (7-1-21)T

e. The approach to the landing shall be clear and long enough to prevent tree tops from being pulled onto the landing. (7-1-21)T

f. Separate areas shall be designated for landing logs and fueling helicopters. (7-1-21)T

g. Sufficient ground personnel shall be provided for safe helicopter loading and unloading operations. (7-1-21)T

h. A clear area shall be maintained in all helicopter loading and unloading areas. (7-1-21)T

i. Emergency landing areas for injured workers shall be located within a reasonable distance from all working areas. (7-1-21)T

04. Hooks and Chokers.

a. The electrical activating device of all electrically operated cargo hooks shall be designed and installed to prevent inadvertent operation. In addition, these cargo hooks shall be equipped with an emergency mechanical control for releasing the load. (7-1-21)T

b. Logs will be laid on the ground and the helicopter completely free of the chokers before workers approach the logs. (7-1-21)T

c. One (1) end of all the logs in the turn shall be touching the ground and at an angle no greater than forty-five degrees (45°) before the chokers are released. (7-1-21)T

d. If the load must be lightened, the hook shall be placed on the ground on the uphill side of the turn before the hooker approaches to release the excess logs. (7-1-21)T

603. -- 650. (RESERVED)

SUBCHAPTER N – RECOMMENDED SAFETY PROGRAM
(Rules 651 - 700)

651. INTRODUCTION.

01. Scope.

a. These rules are part of the accident prevention program of the state of Idaho. This program is dedicated to the safety and well-being of all workers in Idaho’s logging industry. It has been established according to the processes prescribed by law. (7-1-21)T

b. These rules contain the primary safety rules for the logging industry. However, other Idaho Safety Standards promulgated and adopted by the Industrial Commission shall be applicable to this industry where not inconsistent with the provisions herein, or where any particular activity which is being carried on is not specifically covered or regulated herein. (7-1-21)T

02. Enforcement. The enforcement of these rules is the responsibility of the Division of Building Safety. These rules will not serve their purpose if their requirements are considered anything but a minimum for safe operation. So much variation exists in the logging industry that each operation should be judged, not by its
compliance to the letter of this Standard, but according to a higher standard -- that of absolute safety under all conditions. (7-1-21)T

03. **Accident Prevention.** Accident prevention is often a problem of organization and education. It does not succeed solely on detailed safety codes but consists largely of the desire to institute a common sense safety program and determination to carry out the program effectively. Effective accident prevention embodies the following five (5) principles: management leadership; employee cooperation; effective organization; thorough training; and good supervision. (7-1-21)T

**652. FIRE AND SAFETY POLICY.**

01. **Elements.** The basic elements or management responsibility for fire and safety policy are enumerated in this section. (7-1-21)T

02. **Management Leadership.** The establishment of the safety policy should be made clear to all levels of supervision, purchasing, engineering, industrial and construction; and communicated to all employees that top management has approved the operation’s safety program. (7-1-21)T

03. **Planning.** The program should be based on the following: accounting record of safety cost, accident recording system, accident investigation recommendations, operation inspection recommended corrections, employee suggestions, and job analysis to determine the work hazards. The hazard appraisal can be summarized as follows: mechanical and physical hazards; environmental hazards; and work procedure and practices. (7-1-21)T

04. **Management Discharge of Duty.** (7-1-21)T

a. If management is to discharge its duty in proper directing of the fire and safety program, it must organized a definite planned program of continuous supervision and leadership by all facets of the management organization. The very fact that safety must be woven into all operations and activities should not require extra managerial time beyond the ordinary to operate a business successfully, i.e., if the entire management team will assume their safety responsibility. (7-1-21)T

b. The first task of management is to determine the operational hazards. Once these are ascertained and appraised, suitable corrective action can be initiated. If the working unit is operating, the following specific activities should be carried out to find the hazards. These are: job inspection; job analysis; accident investigation (near accident, non-disabling injuries) to determine necessary remedial action to prevent reoccurrence of the accident. (7-1-21)T

05. **Hazard Appraisal.** The partial list of terms covered by appraisals are summarized briefly as follows: mechanical and physical hazards; adequacy of mechanical guarding of machines and equipment; preventing the use of inferior manufactured and unsafe supplies, equipment, chain, cables, sheaves, tires, power saws, tractor canopy guards, approved head protection, fire extinguishers, solvents, mill saws, etc.; and physical exhaustion such as may be caused by excessive work hours by truck drivers and mill maintenance employees. (7-1-21)T

06. **Environmental Hazards Inherent to the Operation.** (7-1-21)T

a. Personal protection devices (approved head protection, ear plugs, knee pads, proper eye protection, respirators, etc.) (7-1-21)T

b. Storage and use of flammable liquids and gases (gasoline, diesel, acetone, acetylene, acids, etc.) (7-1-21)T

c. All employees should be familiar with proper work signals (falling, blasting, high lead signals, loading, mill signals, operation fire signal, etc.) (7-1-21)T

d. Noise and fatigue hazards that are inherent to the industry (planers, cutoff saws, jack hammers, etc.). (7-1-21)T
   a. Hazards directly related to work practices should be carefully observed and evaluated.
   b. Work practices that should be investigated include, but are not necessarily limited to: use, care and maintenance of hand and portable power tools; degree of supervision given the worker; the extent of job training provided; the safety indoctrination and training of new or transferred employees; the proper use of fire extinguishers; the use of personal protective devices (approved head protection, shoes, etc.); and the repair and maintenance of equipment with respect to machines, mechanical handling equipment, log loaders, yarning equipment, tractors, fork lifts, overhead cranes, headrigs, etc.;

08. Reporting of Injuries.
   a. The employer shall instruct all employees to report all job injuries to the supervisor at the time injuries occur. The employer shall check specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use.
   b. The employer is responsible for reporting all industrial lost time injuries to the Industrial Commission within forty-eight (48) hours.
   c. The employer is responsible for reporting all in-patient hospitalization, amputation, or the loss of an eye for any employee to the Occupational Safety and Health Administration (OSHA) and the Division of Building Safety Logging Safety Program within twenty-four (24) hours.

09. Fatalities. All work fatalities should be immediately reported to the County Sheriff or Coroner, the Division of Building Safety Logging Safety Program, and OSHA in accordance with the Code of Federal Regulations, 29 CFR 1904.39.

   a. The recruiting and placing of a new worker on the job is a major responsibility of the management organization. Every effort should be made to match the qualifications of the worker with the demands of the job.
   b. The furnishing of first aid services, treatment of injuries, and inspection of working conditions is the employer’s responsibility.

11. Assignment of Responsibilities.
   a. Supervisors, purchasing agents, engineering personnel, safety directors, personnel directors, and employees have responsibilities to ensure conformance with the organization’s fire and safety objectives in every operation.
   b. Management must accept the normal obligation for preventing accidents. In many operations it is a practice to delegate the actual administration of the safety program to a person who can devote full-time to it. In smaller operations, safety administration may be a collateral duty carried on in conjunction with some other duties. The safety director should function in a staff capacity. Because the safety director operates in a consultant capacity, ultimate responsibility for accident prevention rests with the workers’ supervisor, the foreman and line production organization. There is no doubt that the foreman is the key person in every safety program. Safety is not something separate and apart from production. If the job is done right, it is done safely.
   c. Safety is an integral and important part of production, just as is quality and quantity, or meeting production schedules.
   d. All these duties are foreman or project superintendent duties, and the most important part of the line production organization. This obligation cannot be delegated. As the person in charge of production, the foreman
is responsible for the safety of his people. This fact must be made clear and should be included in the statement of policy.

12. **Safety Director (Part-Time or Full-Time):**

a. Makes periodic inspections of the operations and suggests corrective measures to eliminate hazards.

b. Should assist in investigation of all types of accidents to determine the cause, so as to prevent like accidents in the future.

c. Aids foremen in developing safe work procedures and practices and assists foremen in training their workers.

d. Keeps accident records and makes periodic reports to the proper official on the progress being made. Reports and records; report of accidents; accident investigation report; performance report (injury frequency and severity); accident cost report; safety committee reports; report on degree of corrective action taken on different recommendations.

e. Conducts or initiates safety training courses including first aid and fire fighting, where appropriate, and any other course inherent to the job (truck driver courses, power saw courses, welding, grinder usage, fork lift truck operator, etc.).

f. Establishes safety committee.

g. Ensures that recommendations are promptly and properly implemented.

h. Checks specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use.

i. He shall assist the safety committee in developing agendas for their meetings.

13. **Foreman Responsibilities.** It is widely accepted that the foreman is the key man in attaining proper work habits in any operation. It is the obligation of management to give the most careful attention to the selection, education, and training of foremen and train them in the proper way to train employees in correct and safe work methods to attain the best production in the safest way.

14. **First Aid Training.** It shall be the responsibility of management to arrange to have all employees take a full course in first aid training. It is required that supervisory personnel shall take an approved first aid course, and have a current first aid card.

15. **Injury Record and Reporting System.**

a. If an employer had ten (10) or fewer employees at all times during the last calendar year, it does not need to keep OSHA injury and illness records unless OSHA or the Bureau of Labor Statistics (BLS) informs the employer in writing that it must keep records under OSHA regulations. However, as required by such regulations, all employers covered by the OSH Act must report to OSHA and the Division of Building Safety Logging Safety Program any workplace incident that results in a fatality or the hospitalization, the amputation of a limb, or the loss of an eye for any employee.

b. For those employers subject to the injury and illness recording requirements under OSHA, the employer shall establish in its main Idaho office an injury record and reporting system which is consistent with reporting, record, and statistical requirements of the Occupational Safety and Health Administration (OSHA).

c. Injury frequency rates shall be calculated annually commencing the first of January each year. These rates shall be kept on file in the office of the employer for at least four (4) years after the date of entry thereof,
and shall be made available to the Division of Building Safety, upon request.

d. The injury frequency rate shall be the number of lost time injuries to all employees per one million (1,000,000) man hours of exposure. The frequency rate is computed by multiplying the number of lost time injuries by one million (1,000,000) (the standard of measurement) and dividing the product by the total number of man hours worked during the period. The formula is expressed as follows: Frequency equals the number of lost time injuries times one million (1,000,000) total man hours of exposure.

e. A lost time injury shall be the term applied to any injury, arising out of, and in the course of employment which makes it impossible for the injured person to return to an established regular job at the beginning of the next regular shift following the shift during which the injury occurred, or some future shift.

f. Man hours of exposure shall be the total number of man hours actually worked by all personnel in the industrial unit during the period for which the rate is being computed.

16. Training and Education.

a. Training and education includes:
   i. Establishment of effective job training methods and safety education.
   ii. First aid courses, proper work signals and job hazard warnings.
   iii. Pamphlets, bulletin boards, safety meetings, posters, etc.

b. The employer shall establish an adequate job training and safety education program. The relationship of safety to job quality and modern quantity production methods should be clearly understood. Good work production is governed by careful planning and accurate control of all phases of the operation. Accidents are the result of inadequate planning of faulty operation.

c. Safety must be made an essential and integral part of every operation and integrated into the activity if the most successful quantity production is to be attained. The soundness of this statement has been proven many times by comparing the accident cost with the day by day curve of production.

d. It is the responsibility of management to train employees in all phases of the work they are assigned. The worker training should begin at the time of employment with a careful presentation of the general safety information the employee must have to work on and in logging and lumbering or wood working operations. When the worker is placed on the job, the worker must be given detailed training on proper work methods for accomplishment of the job. The correct way is the safe way. Telling is not training.

e. People learn to do things primarily through action. The employee’s job training should be given using the five (5) step job training method:
   i. Tell the employee;
   ii. Show the employee;
   iii. Have the employee do it;
   iv. Correct until the employee does it right; and
   v. Supervise to see that the employee keeps doing it right.

f. Education and promotion are a supplemental means of reducing injuries. This device employs any number of methods to accomplish results. A good program may use but will not overemphasize emotional appeal to the workers using such devices as scholarships, stamps, posters, safety meetings, contests, and awards. It is management’s responsibility to integrate education and training program and balance its effectiveness to employee
training. Unsafe acts or unsafe work practices are the result of failure to train workers in safe work procedures. In establishing or operating a safe and quality work program, an appraisal of unsafe work procedures and poor quality of work is called for, and job training methods initiated to correct these practices. (7-1-21)T

17. Employer, Employee, and Labor Representative Cooperation. (7-1-21)T

a. The workers have a responsibility to obey the units safety rules, smoking rules, report unsafe conditions, to serve on the different safety committees, perform their work in a safe way, and to help fellow workers by showing them how to do their job safely. (7-1-21)T

b. Many safety programs fail because the worker has not been made to feel that it is their program; or that they can contribute as well as benefit from the program. It often fails because it lacks employee participation and interest. The fact that employees are given the opportunity to participate and to contribute to the program not only opens a reservoir of valuable information on practical experience in accident prevention, it also gives the employee a feeling of being a part of the organization. (7-1-21)T

c. The committee on safety should be made up of personnel selected from management and workers. Management members are supervisors and worker members may be selected by the union or by the employees. (7-1-21)T

d. The labor unions should help develop a safe behavior among the workers. (7-1-21)T

18. Maintenance of Safe Working Conditions. (7-1-21)T

a. The employer shall provide a safe and healthy work area in which to work, including purchasing of safe equipment and tools and provide proper maintenance of such equipment. (7-1-21)T

b. Since a safe and healthy place to work is the very foundation of the safety program, the mechanical, physical, and environmental conditions should be given first consideration. (7-1-21)T

c. For almost every accident there are typically two (2) contributing causes - an unsafe condition and an unsafe act. A safe and healthy place to work will diminish or eliminate the first cause, the unsafe condition; but unless the unsafe act is corrected, accidents will continue to occur. Unsafe acts may stem from a number of factors, such as improper selection of the worker for the job, lack of job training, physical or mental limitations or inadequate supervision. When a safety program is first established or a new project with a new crew is started, this may necessitate a thorough periodic survey of the entire operation to determine hazards. (7-1-21)T

19. Remedial Measures of Corrective Action. (7-1-21)T

a. The employees shall support and correct the findings of job analysis, inspections, accident investigations, employee suggestions, etc. (7-1-21)T

b. The assumption of responsibility for fire and accident prevention by management carries with it the continuing responsibility to assess the progress being made on the program, and where progress is unsatisfactory to take necessary steps to bring about improvement. Inspection alone is primarily a means of finding and eliminating fire and physical hazards, particularly in connection with enforcement. All educational and promotional activities should be integrated with inspection activities, and should be based on the specific needs of the establishment or operation. Inspection and educational and promotional programs are sometimes looked upon as entirely unrelated activities rather than a single integrated program. (7-1-21)T

c. None of the foregoing activities are of value unless followed by effective corrective action. The responsible executive within top management must establish specific procedures to effect proper and complete corrective action in each area for problems that occur. In well-managed organizations the areas of responsibility are clearly defined. The activities are well coordinated, supervision is adequate and proactive, employees’ safety behavior is excellent, and policies are well-defined to permit smooth organization. This is not difficult; the corrective measures are applied as part of the day to day operating procedure. (7-1-21)T
20. Safety Order By the Administrator. In accordance with the provisions of section 67-2601A(3), Idaho Code, the administrator may issue a safety order requiring an owner, operator or other party responsible for ensuring safe logging operations to immediately stop work or close any work site, or portion thereof where an inspection has revealed evidence of a condition that poses an immediate threat of bodily harm or loss of life to any person. The process governing the issuance of a safety order is contained herein this section. (7-1-21)

a. Upon receiving information evidencing an unsafe condition or unsafe practices at any logging workplace or place of employment, the administrator shall inspect or cause to be inspected such place of employment unless such information was obtained by previous inspection of the Division. If upon such inspection the administrator determines that an unsafe condition or unsafe practice exists which may pose an immediate threat of bodily harm or loss of life, the administrator may issue a safety order requiring the employer to immediately stop work or close any work site, or portion thereof. Any safety order issued by the administrator shall specifically identify the unsafe condition or practice, as well as the safety risks associated therewith. Written notice of such order shall immediately be provided by the administrator to the owner or operator of the business, or any other appropriate party responsible for abating the unsafe condition or practice. (7-1-21)

b. Upon receiving such notice from the administrator, such owner, operator or responsible party shall immediately comply with such, and may notify the administrator in writing of their objection to the notice and request to contest such at a hearing. The owner, operator or responsible party shall provide the administrator with information, documentation, or other evidence supporting their objection. (7-1-21)

c. Upon receipt and review of such information from the owner, operator, or responsible party, the administrator may reconsider the matter and issue appropriate findings to the owner, operator, or party responsible for abating the unsafe condition or practice, including rescission of the order. (7-1-21)

d. If after review it is the determination of the administrator to keep the safety order in place, he shall so notify the owner, operator or responsible party and designate a time and place for hearing, and may assign the matter for hearing by a hearing officer. The hearing shall be afforded at such time not to exceed five (5) business days from the date the administrator received the notice of objection unless additional time is requested by the owner, operator, or responsible party. The hearing proceedings shall be governed by the provisions of Title 67, Chapter 52, Idaho Code. The hearing officer shall issue an order in accordance with Section 67-5243, Idaho Code. The hearing may be held at such location or by such means as the administrator determines most convenient for the parties. (7-1-21)

e. The safety order shall remain in effect, and shall not be rescinded until the administrator has determined that the safety threat has been corrected or removed from the workplace. Upon verification by the administrator that the safety threat has been corrected or otherwise removed from the worksite, the administrator shall immediately notify the owner, operator or responsible party of the rescission of the safety order. Any party aggrieved by the final order of the administrator shall be entitled to judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code. (7-1-21)

f. Any person who knowingly fails or refuses to comply with the provisions of a safety order issued by the administrator shall be guilty of a misdemeanor, and the administrator may seek criminal prosecution of any such violations. (7-1-21)

653. -- 700. (RESERVED)

SUBCHAPTER O – CABLE-ASSISTED LOGGING SYSTEMS
(Rules 701 - 999)

701. MACHINE SAFETY REQUIREMENTS.

01. Harvesting Machines. Harvesting machines for cable-assisted logging operations shall comply with each of the following: (7-1-21)

a. Meet the protective structure requirements set forth in IDAPA 07.08.10.010; (7-1-21)
b. Be equipped with a certified roll-over protective structure (ROPS); and  

(7-1-21)T

c. Be equipped with at least a four (4)-point restraint system approved by the machine’s manufacturer or a qualified person.  

(7-1-21)T

02. System Approval. The cable-assisted logging system shall be designed and constructed for cable-assisted logging applications by the original equipment manufacturer, or approved for cable-assisted logging applications in writing by the original equipment manufacturer or a registered professional engineer.  

(7-1-21)T

03. Operation of System. The cable-assisted logging system shall be operated, inspected and maintained in accordance with the manufacturer’s recommendations, specifications and limitations, or if no manufacturer’s recommendations exist, then by the recommendations of a registered professional engineer. Cable-assisted logging systems not in safe operating condition shall be removed from service until repaired by a qualified person.  

(7-1-21)T

702. TETHERED LINE SAFETY REQUIREMENTS.

01. Inspection of Tethered Lines. Tether lines shall be new wire rope and have a rated breaking load according to the cable-assisted logging system manufacturer’s recommendations and specifications. At a minimum, a competent person shall inspect the entire length of each tether line and drum connection prior to the startup of each cable-assisted logging operation, and thereafter on a monthly basis. A competent person shall also inspect the first fifty (50) feet of each tether line daily prior to use. These inspections shall be documented in writing. Tether lines must not be spliced and shall be replaced if there is evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, significant corrosion, heat damage, other damage that has weakened the tether line.  

(7-1-21)T

02. Line Tension. The tether line tension and machine travel shall be synchronized or automatically held constant to ensure tether line tension is continuously provided and does not exceed thirty-three percent (33%) of the rope’s rated breaking load. The operator shall have an immediate and self-reliant or automated method to identify tether line tension, winch rotation and speed, amount of line on and off the drum, and anchor movement.  

(7-1-21)T

03. Tether Line Components. All tether line assembly components shall be rated with a greater safe working load than the wire rope. Tether line attachment points and hitches shall be engineered and certified to maintain a safety factor equal to or greater than the recommendations and specifications of the cable-assisted logging system manufacturer. Inspections of tether line assembly components (except drum connection as specified in Subsection 011.01 of these rules), hitches, winches, machines, and anchors shall be performed daily by a competent person prior to use.  

(7-1-21)T

703. OPERATION AND SAFETY REQUIREMENTS.

01. General. Cable-assisted logging systems shall be operated, inspected and maintained in accordance with the manufacturer’s recommendations and specifications. Inspections shall be documented in writing.  

(7-1-21)T

02. Planning. All cable-assisted logging operations shall be planned by the operator and a competent person who has the knowledge, training or experience to identify existing and predictable hazards in the work site surroundings or working conditions, which could be hazardous to employees, and has been authorized by the employer or employer representative to eliminate the hazard or take corrective action therefrom. Items to consider during site-specific planning must include, but are not limited to, the following:  

(7-1-21)T

a. Experience of the operator;  

(7-1-21)T

b. Limitations of the equipment;  

(7-1-21)T

c. Soil and terrain conditions;  

(7-1-21)T

d. Environmental conditions;  

(7-1-21)T
e. Poor visibility and lighting conditions;

f. Weather conditions;

g. Direction of travel;

h. Requirements for turning the machine on slopes;

i. Load sizes;

j. Method and adequacy of anchorage; and

k. Any other condition that may adversely affect operations.

03. Operator Qualifications. Cable-assisted logging operators shall have documented training or adequate experience to safely operate the equipment on slopes.

04. Operating Plans. A cable-assisted logging system operator shall have a written operating plan on site detailing the following:

a. Tether line replacement criteria;

b. Cable size, type and breaking strength, and method of assurance that tensions do not exceed one-third (1/3) of breaking strength to maintain a 3:1 safety factor or greater;

c. Inspection and maintenance to be performed on tether lines, end connectors, machines and winches;

d. How the operator will use tension limiting controls to maintain desired tension;

e. How the winch cable tension and machine travel are synchronized;

f. How the operator will monitor machine slope, anchor movement, winch tension, amount of line on and off drum, and winch function;

g. How the tether line attachment points to the harvesting machine are engineered to withstand potential loads;

h. All harvesting machine modifications that allow it to operate on steep slopes, including operator harness or restraint system;

i. How pre-operations planning and daily assessments will identify hazards for soil and terrain conditions;

j. How the operator will determine if soil and terrain conditions are unsafe during operations;

k. How operators will report new hazards identified during operations;

l. Operating guidance given to the operator; and

m. How emergencies are handled by the system, including line failure, machine failure, winch failure, anchor failure, winch machine movement or anchor movement, and whether there is an emergency stop for the operator or at the anchor.

05. Unsafe Conditions. The employer shall establish and use procedures for operators to report unsafe conditions to a supervisor or qualified person. Such conditions must be corrected prior to resuming cable-assisted
logging operations. Procedures shall also include steps to take in the event of equipment breakdown and for upset conditions.

06. **Warning Signs.** Effective signage shall be affixed to all remotely operated equipment warning employees and others that lines and machines may start, stop, or move without warning. All employees working in close proximity of cable-assisted logging operations must receive training that enables them to recognize the potential hazards involved and to maintain safe distances.

DOCKET NO. 24-0000-2100F (FEE RULE)

NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \\ RESCISSION OF PREVIOUS TEMPORARY RULE

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded previous temporary rules. The action is authorized pursuant to Section 67-2604, Idaho Code, and the following additional sections of Idaho Code:

IDAPA 24.01 – Section 54-308, Idaho Code; IDAPA 24.02 – Section 54-406, Idaho Code;
IDAPA 24.03 – Section 54-707, Idaho Code; IDAPA 24.04 – Section 54-2808, Idaho Code;
IDAPA 24.05 – Section 54-2406, Idaho Code; IDAPA 24.06 – Section 54-3717, Idaho Code;
IDAPA 24.07 – Section 54-3003, Idaho Code; IDAPA 24.08 – Sections 54-1106, 54-1107, Idaho Code;
IDAPA 24.09 – Section 54-1604, Idaho Code; IDAPA 24.10 – Section 54-1509, Idaho Code;
IDAPA 24.11 – Section 54-605, Idaho Code; IDAPA 24.12 – Section 54-2305, Idaho Code;
IDAPA 24.13 – Section 54-2206, Idaho Code; IDAPA 24.14 – Section 54-3204, Idaho Code;
IDAPA 24.15 – Section 54-3404, Idaho Code; IDAPA 24.16 – Section 54-3309, Idaho Code;
IDAPA 24.17 – Section 54-4705, Idaho Code; IDAPA 24.18 – Section 54-4106, Idaho Code;
IDAPA 24.19 – Section 54-4205, Idaho Code; IDAPA 24.21 – Section 54-5206, Idaho Code;
IDAPA 24.22 – Section 54-5310, Idaho Code; IDAPA 24.23 – Section 54-2910, Idaho Code;
IDAPA 24.24 – Section 54-5607, Idaho Code; IDAPA 24.25 – Section 54-5403, Idaho Code;
IDAPA 24.26 – Section 54-5504, Idaho Code; IDAPA 24.27 – Section 54-4007, Idaho Code;
IDAPA 24.28 – Section 54-5807, Idaho Code; IDAPA 24.29 – Section 54-3107, Idaho Code;
IDAPA 24.30 – Section 54-204, Idaho Code; IDAPA 24.31 – Section 54-912, Idaho Code;
IDAPA 24.32 – Sections 54-1208, 55-1606, Idaho Code;
IDAPA 24.33 – Sections 54-1806, 54-5105, 54-3913, 54-4305, and 54-3505, Idaho Code;
IDAPA 24.34 – Section 54-1404, Idaho Code;
IDAPA 24.35 – Uniform Controlled Substances Act, Title 37, Chapter 27, Idaho Code; the Idaho Pharmacy Act, the Idaho Wholesale Drug Distribution Act, and the Idaho Legend Drug Donation Act, Title 54, Chapter 17, Idaho Code; and Sections 54-1904, 54-1907, 54-1910, 54-4507, 54-4508, 54-5004, 54-5005, and 54-5006, Idaho Code;
IDAPA 24.36 – Sections 54-1208, 55-1606, Idaho Code;

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 24, rules of the Division of Occupational and Professional Licenses:

IDAPA 24
- 24.01.01, Rules of the Board of Architectural Examiners;
- 24.02.01, Rules of the State Athletic Commission;
- 24.03.01, Rules of the State Board of Chiropractic Physicians;
DIV. OF OCCUPATIONAL & PROFESSIONAL LICENSES  
Docket No. 24-0000-2100F  
IDAPA 24  
Omnibus Notice – Adoption/Rescission of Temporary

• 24.04.01, Rules of the Board of Registration for Professional Geologists;
• 24.05.01, Rules of the Board of Drinking Water and Wastewater Professionals;

• 24.39.40, Safety Rules for Elevators, Escalators, and Moving Walks;
• 24.39.50, Rules of the Public Works Contractors License Board;
• 24.39.70, Rules Governing Installation of Heating, Ventilation, and Air Conditioning Systems; and
• 24.39.90, Rules Governing the Damage Prevention Board.

Rescission of previous temporary rule aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:
These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in the sections of Idaho Code referenced below, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

24.01.01, Rules of the Board of Architectural Examiners – Fees are established in accordance with Section 54-313, Idaho Code, as follows:

<table>
<thead>
<tr>
<th>FEE TYPE</th>

24.01.01 – RULES OF THE BOARD OF ARCHITECTURAL EXAMINERS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-308, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of architecture in Idaho. (7-1-21)

002. INCORPORATION BY REFERENCE.
The document titled NCARB Rules of Conduct as published by the National Council of Architectural Registration Boards, dated July 2014, is hereby incorporated by reference. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. AXP. Architectural Experience Program. (7-1-21)

02. Direct Supervision. Direct supervision of an unlicensed individual in the practice of architecture means the exercise of management, control, authority, responsibility, oversight and guidance over the unlicensed individuals work, activities and conduct. (7-1-21)

03. NAAB. National Architectural Accrediting Board. (7-1-21)

04. NCARB. National Council of Architectural Registration Board. (7-1-21)

0011. -- 099. (RESERVED)

100. ORGANIZATION.

01. Organization of the Board. At the first meeting of each calendar year, the Board shall organize and elect from its members a Chairman and Vice Chairman, who shall assume the duties of their respective offices immediately upon such selection. (7-1-21)

02. Board Members and Duties. (7-1-21)

a. Chairman. The Chairman shall be a voting member of the Board, and when present preside at all meetings, appoint with the consent of the Board, all committees, and shall otherwise perform all duties pertaining to the office of Chairman. The Chairman shall be an ex-officio member of all committees. (7-1-21)

b. Vice Chairman. The Vice Chairman shall, in the absence or incapacity of the Chairman exercise the duties and possess all the powers of the Chairman. (7-1-21)

101. -- 174. (RESERVED)

175. APPLICANT PAST CRIME REVIEW.

01. Review Authority. In reviewing an Applicant for licensure who has been convicted of a felony or misdemeanor as set forth in section 54-314(1)(d) Idaho Code, the Board may utilize the follow process and factors to determine the applicant's suitability for licensure: (7-1-21)

02. Exemption Review. The exemption review shall consist of a review of any documents relating to the crime and any supplemental information provided by the applicant bearing upon his suitability for registration. The Board may, at its discretion, grant an interview of the applicant. (7-1-21)

a. During the review, the Board shall consider the following factors or evidence: (7-1-21)

i. The severity or nature of the crime; (7-1-21)
ii. The period of time that has passed since the crime under review; (7-1-21)T
iii. The number or pattern of crimes or other similar incidents; (7-1-21)T
iv. The circumstances surrounding the crime that would help determine the risk of repetition; (7-1-21)T
v. The relationship of the crime to the practice of architecture; and (7-1-21)T
vi. The applicant's activities since the crime under review, such as employment, treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation. (7-1-21)T

b. The applicant shall bear the burden of establishing their current suitability for licensure. (7-1-21)T

(7-1-21)T

201. -- 249. (RESERVED)

250. QUALIFICATIONS OF APPLICANTS FOR EXAMINATION.

01. Accredited Degree Applicants. All applicants for the Architectural Registration Examination (ARE) shall possess a professional degree in architecture from a program that is accredited by the National Architectural Accrediting Board (NAAB) or that is approved by the Board. All applicants for the ARE must have started or completed the Architectural Experience Program (AXP) requirements. (7-1-21)T

02. Experience in Lieu of Degree Applicants. The Board may allow an applicant without an architecture degree to sit for the architecture examination upon determining that such applicant has attained the knowledge and skill approximating that attained by graduation from an accredited architecture curriculum including the submission of a record of eight (8) years or more of experience in architecture work of a character deemed satisfactory by the Board. Said experience may include that necessary for completion of the AXP. Two (2) years of eight (8) or more years of experience may be accepted if determined that such experience is directly related to architecture under the direct supervision of a registered engineer (practicing as a structural, civil, mechanical or electrical engineer in the field of building construction) or a registered landscape architect. At least six (6) years of such experience must be obtained while working under the direct supervision of a licensed architect. A person is qualified for the examination once they have met the experience requirement and started the AXP. (7-1-21)T

251. -- 299. (RESERVED)
300. APPLICATION.

01. Licensure by Examination.  
   a. Application for licensure by examination shall be made on the uniform application form adopted by the Board.  
   b. Applicants shall furnish all information required by the uniform application form and shall include the following:  
      i. If applying based upon an accredited degree: Furnish certification of graduation and a certified transcript of all subjects and grades received for all college courses taken.  
      ii. If applying based upon experience in lieu of an accredited degree: Furnish statement or statements, of all actual architectural or other applicable experience signed by the person under whose supervision the work was performed, giving kind and type of work done, together with dates of employment.  
   c. Application shall not be reviewed by the Board until all required information is furnished and the required fee is paid.  
   d. Applications received less than seven (7) days prior to a Board meeting may be held over to the next meeting.

02. Licensure by Endorsement -- Blue Cover. General requirements. Application shall be accompanied by a current blue cover dossier compiled by the NCA RB certifying that the applicant has satisfactorily passed the standard NCARB examinations, or NCARB authorized equivalent and shall include letters, transcripts, and other documents substantiating all statements relative to education and experience made in said application as required by the Board.

03. Licensure by Endorsement -- Equivalency.  
   a. Applicants for licensure by endorsement must submit a complete application, verified under oath, to the Board at its official address. The application must be on the forms approved by the Board and submitted together with the appropriate fee(s) and supporting documentation.  
   b. Applicants shall provide proof of holding a current and valid license issued by another state, a licensing authority recognized by the Board.  
   c. Applicants shall provide proof of satisfactorily passing the NCARB examinations or NCARB authorized equivalent examination, as determined by the Board.

301. -- 349. (RESERVED)

350. REGISTRATION EXAMINATION.  
The Board, having found that the content and methodology of the ARE prepared by NCARB is the most practicable and effective examination to test an applicant’s qualifications for registration, adopts the ARE as the single, written and/or electronic examination for registration of architects in this state, and further adopts the following rules with respect thereto:

01. When Taken. The Board will cause the ARE, prepared by NCARB, to be administered to all applicants eligible, in accordance with the requirements of the Board, by their training and education to be examined for registration on dates scheduled by the NCARB. The Board shall cause repeat divisions of the ARE to be administered to qualified candidates on such dates as are scheduled by the NCARB. The ARE examination is a multiple part examination prepared by NCARB. Content of the examination in all of its sections is available from the Board or NCARB.
02. Grading. The ARE shall be graded in accordance with the methods and procedures recommended by the NCARB. To achieve a passing grade on the ARE, an applicant must receive a passing grade in each division. Grades from the individual division may not be averaged. Applicants will have unlimited opportunities to retake division which they fail except as set forth in these rules. The Board shall accept passing grades of computer administered divisions of the ARE as satisfying the requirements for said division(s) when such examinations are administered as prescribed by the NCARB. 

03. Passing (ARE). To pass the ARE, an applicant must achieve a passing grade on each division. Subject to certain conditions, a passing grade for any division of the ARE shall be valid for five (5) years, after which time the division must be retaken unless all divisions have been passed. The Board may allow a reasonable extension of such period in circumstances where completion of all divisions is prevented by a medical condition, active duty in military service, or other like causes. Approval to take the ARE will terminate unless the applicant has passed or failed a division of the ARE within a period of five (5) years. Any applicant whose approval has so terminated must reapply for approval to take the ARE.

351. -- 374. (RESERVED)

375. ARCHITECTURAL INTERN. 
An individual may represent themselves as an architectural intern only under the following conditions: 

01. Supervision. Each architectural intern shall be employed by and work under the direct supervision of an Idaho licensed architect. 

02. AXP Enrollment. Each architectural intern shall be enrolled in NCARB’s AXP and shall maintain a record in good standing. 

03. Record. Each architectural intern shall possess either: 
   a. A record with the NCARB establishing that AXP training has been started; or 
   b. A record establishing completion of all AXP training regulations as specified by NCARB. 

04. Prohibitions. An architectural intern shall not sign or seal any architectural plan, specification, or other document. An architectural intern shall not engage in the practice of architecture except under the direct supervision of an Idaho licensed architect.

376. -- 399. (RESERVED)

400. FIRM NAME. 

01. Firm Names. Firm names incorporating the use of names of unlicensed individuals are considered in violation of Section 54-315, Idaho Code. A firm may continue to utilize the name of a retired or deceased formerly licensed architect so long as their unlicensed status is clearly disclosed.

401. -- 409. (RESERVED)

410. USE OF AN ARCHITECT'S SEAL. 
An architect's seal may be placed on all technical submissions prepared personally by the architect or prepared under the architect's responsible control or as otherwise allowed under the provisions of Section 54-304, Idaho Code. Nothing in this rule shall limit an architect's responsibility to the owner for the work of other licensed professionals to the extent established by contract between the owner and architect.

411. -- 449. (RESERVED)

450. CONTINUING EDUCATION. 
In order to protect the public health and safety and promote the public welfare, the Board has adopted the following
rules for continuing education.

01. Continuing Education Requirement. Each Idaho licensed architect must successfully complete a minimum of twelve (12) hours of continuing education in architectural health, safety and welfare in the calendar year prior to license renewal.

a. Each licensee will submit to the Board their annual renewal application form and required fees, and will certify that they have complied with annual CE requirements for the previous calendar year. Each licensee will provide to the Board together with their application for reinstatement of an expired license form and required fees, proof of compliance with annual CE requirements for each year that their license was expired. A license that has been canceled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code.

b. A licensee shall be considered to have satisfied their CE requirements for the first renewal of their initial license. Licensees who have failed to meet the annual continuing education requirement may petition the Board for additional time to complete their continuing education requirements.

c. A licensee may carryover a maximum of six (6) hours of continuing education to meet the next year's continuing education requirement.

d. One (1) continuing education hour shall be equal to one (1) learning unit, as determined by the American Institute of Architects, or one (1) clock hour of education, as determined by the Board.

02. Architectural Health, Safety and Welfare Requirement. To qualify for continuing education, a course must involve architectural health, safety and welfare, which generally relates to the structural integrity or unimpairedness of a building or building sites and be germane to the practice of architecture. Courses may include the following subject areas:

a. Legal, which includes laws, codes, zoning, regulations, standards, life safety, accessibility, ethics, insurance to protect owners and public.

b. Building systems, which includes structural, mechanical, electrical, plumbing, communications, security, and fire protection.

c. Environmental, which includes energy efficiency, sustainability, natural resources, natural hazards, hazardous materials, weatherproofing, and insulation.

d. Occupant comfort, which includes air quality, lighting, acoustics, ergonomics.

e. Materials and methods, which includes construction systems, products, finishes, furnishings, and equipment.

f. Preservation, which includes historical, reuse, and adaptation.

g. Pre-Design, which includes land use analysis, programming, site selection, site and soils analysis, and surveying.

h. Design, which includes urban planning, master planning, building design, site design, interiors, safety and security measures.

i. Construction documents, which includes drawings, specifications, and delivery methods.

j. Construction contract administration, which includes contracts, bidding, contract negotiations.

03. Approved Credit. Continuing education courses must be in the subject of architectural health, safety and welfare and be presented by:
Section 750

a. Providers approved by the National Architectural Accreditation Board (NAAB) schools of architecture; or  

b. Providers approved by the National Council of Architectural Registration Board (NCARB); or  

c. Providers approved by the American Institute of Architects (AIA); or  

d. Providers as otherwise approved by the Board. All requests for approval or pre-approval of continuing education credits must be made to the Board in writing and must be accompanied by a statement that includes the name of the instructor or instructors, his or her qualifications, the date, time and location of the course, the specific agenda for the course, the number of continuing education hours requested, and a statement of how the course is believed to be in the nature of architectural health, safety and welfare.  

04. Verification of Attendance. It shall be necessary for each licensee to maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any and all hours attended by the licensee. This verification shall be maintained by the licensee for a period of five (5) years and provided to the Board upon request of the Board or its agent.  

05. Failure to Fulfill the Continuing Education Requirements. The license will not be renewed for those licensees who fail to certify or otherwise provide acceptable documentation of meeting the CE requirements. Licensees who make a false attestation regarding compliance with the CE requirements shall be subject to disciplinary action by the Board.  

06. Exemptions. A licensed architect shall be deemed to have complied with the CE requirements if the licensee attests in the required affidavit that for not less than ten (10) months of the preceding one (1) year period of licensure, the architect has met one (1) of the following criteria:  

b. Is a government employee working as an architect and assigned to duty outside the United States.  

c. Special Exemption. The Board shall have authority to make exceptions for reasons of individual hardship, including health (certified by a medical doctor) or other good cause. The architect must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board.  

451. -- 749. (RESERVED)  

750. CODE OF ETHICS.  

01. Rules of Conduct. The NCARB Rules of Conduct are hereby adopted as the Code of Ethics for all Idaho licensed architects.  

751. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Title 54, Chapter 4, Idaho Code. (7-1-21)

001. SCOPE.
These rules are intended to provide clarification on the methods and restrictions of unarmed combat in Idaho. (7-1-21)

002. INCORPORATION BY REFERENCE.
The following documents are incorporated by reference into these rules: (7-1-21)

  01. Association of Boxing Commissions and Combative Sports Unified Rules of Boxing Amended 2016. This document can be accessed online here: https://www.abcboxing.com/unified-rules-boxing/. (7-1-21)

003. – 009. (RESERVED)

100. LICENSING.

  01. Application for License. Applicants will submit a complete, Commission-approved application verified under oath, including the fee and any necessary supporting documentation to the Division for each of the following licenses: (7-1-21)

      a. Combatant; (7-1-21)

      b. Promoter; (7-1-21)
101. COMBATANT.

01. Age of Combatant. The Commission will review all complete applications for a combatant license so that the applicant’s experience and fitness may be considered before a license is issued, if the applicant has:
   a. Not reached eighteen (18) years of age; or (7-1-21)T
   b. Reached thirty-six (36) years of age. (7-1-21)T

02. Examination by Physician. Any combatant who has applied for a license or renewal of his license must be examined by a physician. The physician will establish the combatant’s physical and mental fitness for competition.
   a. Poor Vision. The Commission will not issue a license to engage in unarmed combat to any applicant who is found to be blind in one (1) eye or whose vision in one (1) eye is so poor that a physician recommends that no license be granted. No exceptions will be made. (7-1-21)T
   b. Cerebral Hemorrhage. Any person who has suffered a cerebral hemorrhage will not be issued a license. (7-1-21)T
   c. Serious Head Injuries. The Commission will review the application of any person who has suffered a serious head injury before a license is issued to that person. (7-1-21)T

03. Additional Examination. Any licensed combatant who participates in a contest outside of the state of Idaho, or in an unsanctioned contest will need to take this examination again before being allowed to compete in Idaho. (7-1-21)T

04. Blood Testing. The Commission will not issue a license to or allow an athlete to compete in an event, if the athlete, within the six (6) months immediately preceding the application for licensure or the event at which the licensee wishes to compete, has tested positive for the HIV virus, Hepatitis B Surface Antigen and Hepatitis C Antibody, or illegal drugs or other substances. Upon application for a license, the athlete will submit with the application a blood test report from a blood test conducted within the six (6) months preceding the application date. The blood test must have tested the athlete for HIV virus, Hepatitis B Surface Antigen, Hepatitis C Antibody, and illegal drugs and substances. Additionally, each combatant who is to compete in an event will, at the start of the event, provide the Commission with a blood test report from a blood test conducted within the six (6) months immediately preceding the event. The Commission may, in its discretion, request addition blood tests. (7-1-21)T

05. Drug Abuse. The Commission will not issue a license to an athlete who has a recent history of drug abuse, without proof of participation in a recognized drug rehabilitation program and/or submission to urinalysis. (7-1-21)T

06. Blood Testing and Five Panel Drug Test Results. Results must show blood concentrate percentages. (7-1-21)T

102. ABILITY OF COMBATANT.
Before the Commission issues a combatant license to any person, the Commission must be satisfied of the person’s
ability to compete. (7-1-21)

01. Questioned Ability. If a combatant’s ability to perform is questioned for any reason, the Commission may hold a hearing to determine:
   a. Whether the person’s license should be revoked; or
   b. Whether the person should be granted a license. (7-1-21)

103. HONORING ACTIONS OF REGULATORY AGENCIES IN OTHER JURISDICTIONS.
The Commission may honor the following actions of agencies in other jurisdictions which regulate boxing, wrestling, martial arts, or combination thereof:
   01. Suspension. A suspension of a combatant ordered for:
       a. Medical Safety. The following suspensions are a guideline for ringside physicians. A ringside physician may additionally require proof of medical clearance for release of suspension:

<table>
<thead>
<tr>
<th>Technical Knockout (TKO) Occurrence</th>

</table>

b. A violation of a law or rule governing boxing, wrestling, martial arts, or combination thereof which also exists in this state; or

c. Any other conduct which discredits boxing, wrestling, martial arts, or combination thereof as determined by the Commission. (7-1-21)

104. TIME BETWEEN CONTESTS.
In no case may a combatant (excluding wrestlers) participate in more than one (1) contest or exhibition in any twenty-four (24) hour period. Without the special permission of the Commission, a combatant may not compete in this state until after time has elapsed in the following increments:

<table>
<thead>
<tr>
<th>Number of Rounds for Contest</th>

</tr>
</tbody>
</table>
105. FEMALE COMBATANTS.

01. Limitation. A female combatant will not engage in a contest with a male combatant. (7-1-21)

02. General Requirements. In addition to meeting such requirements of this chapter as are applicable to combatants generally, a female applicant will submit to pregnancy test within fourteen (14) days of the contest. (7-1-21)

03. Addendum Requirement. A female combatant will, in addition to signing the contract, sign an addendum certifying that the combatant is not pregnant and that the contest will not take place during a menstrual period. (7-1-21)

106. REQUIREMENTS FOR LICENSE AS A PROMOTER.

Any person applying for a license as a promoter may need to appear before the Commission and prove their preparations to successfully promote a sanctioned event and pay all obligations. (7-1-21)

107. HEALTH INSURANCE.

An event promoter will obtain health insurance sufficient to cover the medical, surgical, and hospital care of all event participants, other than the promoter, for injuries sustained while participating in the event. The insurance shall provide primary coverage for each such participant, and the minimum amount coverage per participant will be ten thousand dollars ($10,000). The participant may not be required to pay a deductible associated with care provided under this insurance. If a participant pays for the medical, surgical or hospital care, the insurance proceeds must be paid to the participant or the participant’s beneficiaries for reimbursement for the payment. (7-1-21)

108. SURETY BOND OR OTHER SECURITY.

01. Requirement. Every promoter who applies for a sanctioning permit shall furnish a surety bond or other form of financial security to the Commission consistent with Section 54-408, Idaho Code. The bond or other form of financial security will be in an amount deemed by the Commission to be adequate to guarantee payment of all taxes, fees, fines, and other moneys due and payable under Title 54, Chapter 4, Idaho Code and the Commission’s rules, including reimbursement to the purchasers of tickets for the event. (7-1-21)

02. Various Locations. The promoter may apply one (1) bond or other form of financial security to multiple locations if only one (1) of the covered locations is scheduled for an event on any given calendar date. (7-1-21)

03. Total Sum. Each bond or other form of financial security must be conditioned for the payment to the Commission of a sum equivalent to the total sale of tickets:

a. If the main event is not held on the date advertised, unless the event is subsequently held on a date fixed by the Commission; and (7-1-21)

b. If the main event is neither held on the original date advertised nor on a subsequent date fixed by the Commission. (7-1-21)

04. Sum Due. The sum is due within fifteen (15) days after default, to ensure reimbursement to the purchasers of tickets for the event, if the reimbursement of ticket holders is ordered by the Commission. (7-1-21)

109. APPROVAL OF SANCTIONED EVENT PERMITS.

01. Prior Approval. No contest will be held without the prior approval of the Commission. A promoter will submit a completed application on a form provided by the Division for a sanctioning permit to hold an event on a specific date, and a permit must be issued by the Commission before the event may be announced or advertised. (7-1-21)
02. **Deadline.** A complete application together with application fees, applicable bond amount, proof of insurance, and information regarding the combatants named in the main and semi-main contest must be received by the Commission no less than thirty (30) days prior to the date requested for the event named in the application. Combatants named in contests may be changed at the discretion of the Commission.

03. **Cancellation.** The failure of the promoter to notify the Commission of a cancellation at least seven (7) calendar days before the date for the program will result in the forfeiture of all fees and will be grounds for disciplinary action.

110. **ARRANGEMENT OF CONTEST FOR PROMOTER.**
A Contest may not be arranged on behalf of a promoter except by a licensed matchmaker.

111. **NON-COMBATANT LICENSES.**
No person will be retained for any of the following positions unless currently licensed by the Commission:

01. **Second.**

02. **Combatant.**

03. **Matchmaker.**

04. **Ring Official.**

112. **MANAGER ACTING AS SECOND.**
A manager licensed by the Commission may act as a second without having a second’s license.

113. **REQUIREMENTS FOR LICENSE AS A RING OFFICIAL.**
Ring official is any individual who performs an official function during the progress of a regulated contest or exhibition including, but not limited to, timekeepers, judges, referees and attending physicians.

01. **Qualifications.** To qualify for a license as a ring official of contests, an applicant will:

a. Be at least twenty-one (21) years of age. The Commission may, for good cause shown, lower the minimum age limit for a particular applicant to eighteen (18) years of age;

b. Submit a record of conviction of a crime for Commission review in compliance with Section 67-9411, Idaho Code;

c. Have had at least one (1) year experience in amateur or professional contest as a ring official;

d. Submit verifications from two (2) persons of proficiency as a ring official; and

e. Each referee licensed by the Commission will be required to undergo an eye examination conducted by an optometrist or ophthalmologist. The Commission may request the licensee to produce all records of the examination. The Commission may require each referee license by the Commission to submit to a pre-fight physical.

02. **Equivalent Qualifications.** In lieu of the above qualifications, the Commission may accept satisfactory evidence of equivalent qualifications possessed by an applicant who is currently licensed in another state or country.

114. **OFFICIALS OF EVENTS.**

01. **Officials Described.** The officials of events are the referee, judges, timekeeper, physician, and the Commission’s agents.
02. Commission Involvement. The Commission will approve and assign all the officials. The promoter may select the announcer, subject to the Commission’s approval. (7-1-21)

115. REFEREES.

01. Selection. The Commission will select the referee for the main event in championship events and for events that the Commission considers to be special events. The Commission will set the fee and reasonable expenses the referee is entitled to receive for an event. (7-1-21)

02. Protests. If any licensee of the Commission protests the assignment of a referee, the protesting licensee will be given a hearing by the Commission if time permits. If time does not permit, the matter will be heard by two (2) Commissioners in order to make such disposition of the protest as the facts may justify. Protests not made in a timely manner may be summarily rejected. (7-1-21)

116. JUDGES.

01. Selection. The Commission will select the judges for the main event in championship events and for any other events which the Commission considers to be special events. (7-1-21)

02. Protests. If any licensee of the Commission protests the assignment of a judge, the protesting license will be given a hearing by the Commission if time permits. If time does not permit, the matter will be heard by two (2) Commissioners in order to make such disposition of the protest as the facts may justify. Protests not made in a timely manner may be summarily rejected. (7-1-21)

03. Fees. The Commission will set the fee and reasonable expenses which the judges are entitled to receive for an event. (7-1-21)

04. Station of Judges. Judges will be stationed ringside at places designated by the Commission. (7-1-21)

05. Physical Examination. Each judge licensed by the Commission may be required to submit to or provide proof of a complete physical examination, including an eye examination. (7-1-21)

117. DENIAL OR REVOCATION OF LICENSE.

01. Grounds. The Commission may deny an application or suspend or revoke a license, or take such other disciplinary action deemed appropriate if it finds that the applicant or licensee or any partner, officer, director, stockholder, or employee of the applicant or licensee has:

a. Performed any act which constitutes a violation of the laws or rules of the Commission. (7-1-21)

b. Has been convicted of a felony relevant to licensure with the Commission; (7-1-21)

c. Engages in illegal bookmaking; (7-1-21)

d. Engages in any illegal gambling activity; (7-1-21)

e. Engages in any fraud or misrepresentation in the application process; (7-1-21)

f. Has a recent history of drug abuse or fails a drug test or refuses to submit to a drug test; (7-1-21)

g. Is under suspension from any other commission; (7-1-21)

h. Failure to report to the Commission a request or suggestion that a contest not be conducted honestly; or (7-1-21)

i. Is engaged in any activity or practice which is detrimental to the best interests of a contest regulated
by the Commission. (7-1-21)T

118. PENALTIES FOR CERTAIN VIOLATIONS – REVIEW BY COMMISSION.

01. Penalties General. Except as otherwise provided in this chapter, the Commission may charge a penalty not to exceed twenty-five thousand dollars ($25,000) for:

a. Any violation of the provisions of these rules (IDAPA 24.02.01, “Rules of the State Athletic Commission”); or

b. Being late or failing to appear for a weigh-in or contest. (7-1-21)T

02. Later Review. Any disciplinary action taken pursuant to these rules may be reviewed at a later date by the Commission. (7-1-21)T

119. SUSPENSION AND REVOCATION OF LICENSES.

Every person whose license has been suspended or revoked by the Commission will refrain from participating in or matchmaking or holding contests during the period of suspension or after the revocation. (7-1-21)T

01. Comply with Suspensions. Every promoter and matchmaker will take notice of the bulletins of suspension sent out by the Commission and will not permit any person under suspension to take any part as a participant or in arranging or conducting matches or exhibitions during the period of suspension. (7-1-21)T

02. Specific Actions. Any person whose license has been suspended or revoked is barred from:

a. The dressing rooms at the premises where any program of boxing is being held;

b. Occupying any seat within six (6) rows of the ring platform;

c. Approaching within six (6) rows of seats from the ring platform; and

d. Communicating in the arena or near the dressing rooms with any of the principals in the contests, their managers, their seconds, or the referee, whether directly or by a messenger, during any program.

e. Having any dealings related to mixed martial arts, boxing, or wrestling with any person whose license had been suspended or revoked by the Commission.

f. Any person who violates a provision of Subsection 120.02 of this rule may be ejected from the arena or building where the program is being held, and the price paid for admission refunded upon presentation of the ticket stub at the box office. Thereafter, they are barred entirely from all premises used for contests or exhibitions while the programs are being held.

03. Dishonest Methods. If a license issued by the Commission has been suspended because the holder used dishonest methods to affect the outcome of any contest or because of any conduct reflecting serious discredit upon the sport of boxing, the Commission will not reinstate the license for six (6) months in the case of first offense. In the case of a second offense, the holder’s license will be revoked.

04. Temporary Suspension. Any manager under temporary suspension is considered to have forfeited all rights in this state under the terms of any contract with a combatant licensed by the Commission. Any attempt by a suspended manager to exercise those contract rights will result in a permanent suspension of their license. A combatant, matchmaker, or promoter who continues to engage in any contractual relations with a manager whose license has been suspended by the Commission may be indefinitely suspended.

05. Continuation. A combatant whose manager has been suspended may continue to compete independently during the term of that suspension, signing contracts for matches. Payment of a combatant’s earnings may not be made by any promoter to a manager who is under suspension, or to a suspended manager’s agent, but will
be paid in full to the combatant. (7-1-21)T

06. Cancellation of Contract Rights. Revocation of a manager’s license automatically cancels all contract rights in this state under any contracts with combatants made under the authority of the Commission. If such a revocation occurs, a combatant may operate independently and make contracts for matches or enter into contracts with other managers licensed by the Commission. (7-1-21)T

(7-1-21)T

121. – 199. (RESERVED)

200. PHYSICIAN QUALIFICATIONS.
A physician is an individual licensed under the laws of this state to engage in the general practice of medicine or osteopathic medicine. A physician will also have training or experience in combative sports. (7-1-21)T

201. PHYSICIAN'S DETERMINATION OF FITNESS OF COMBATANTS AND REFEREE – CERTIFICATION – REPORT.

01. Determination of Physician. The physician who examines any combatant or referee who has contracted to participate in an event will determine that a combatant or referee will not participate in the event and must immediately report such finding to the promoter and the Commission if:

a. The combatant is unfit for competition; or
b. The referee is unfit for officiating. (7-1-21)T

02. Written Certification. If the examining physician finds that the combatants and referees are in good physical condition, the physician will, one (1) hour before the start of the event, give written certification of those findings to the Commission. (7-1-21)T

03. Physician's Written Report. Within twenty-four (24) hours after the event ends, the physician will mail or deliver to the Commission his written report on every licensee he examined. The report will be on a form furnished by the Commission. (7-1-21)T

202. COMBATANT'S REPORT OF OWN ILLNESS OR INJURY – EXAMINATION – FEE.

01. Combatant's Report of Non-Participation to Commission. When a licensed combatant is unable to take part in a contest for which they are under contract because of injury or illness, they will immediately report the fact to the Commission and submit to an examination by a physician designated by the Commission. (7-1-21)T
02. Payment of Fees to Physician. The fee for the physician’s examination will be paid by the promoter if they have requested the examination, otherwise the fee will be paid by the combatant. (7-1-21)

203. SUSPENSION OF LICENSEE FOR MEDICAL REASON. Any licensee who is determined to be unfit to compete or officiate will be suspended until it is shown that he is fit for further competition or officiating. (7-1-21)

204. PREPARATIONS TO STOP HEMORRHAGING. The Commission will periodically review the preparations available to stop hemorrhaging. Avetine and Thrombin are the only Commission approved preparations to stop hemorrhaging. (7-1-21)

205. PROHIBITED SUBSTANCES. The Commission adopts the Athletes Guide to the 2020 Prohibited List published by the United States Anti-Doping Agency © 2019. Prohibited substances are regulated by Commission in the following manor:

01. Urinalysis. A combatant will submit to a urinalysis or chemical test before or after a contest if the Commission directs him to do so. (7-1-21)

02. Suspension. A Combatant who tests positive for a prohibited substance in quantities prohibited by the incorporated document will forfeit purse. (7-1-21)

03. Procedure for Testing for Prohibited Substance(s). (7-1-21)

a. The Commission reserves the right to conduct random drug testing. A combatant with a recent history of drug abuse may be specifically required to test. Both combatants in a title contest will be tested by urine specimen or blood test at the discretion of the Commission. (7-1-21)

b. The combatant to be tested shall go directly to the dressing room after the end of the fight. Only water may be consumed until the test sample has been taken. The Commission’s approved physician or agent will give each combatant the specimen container and observe the combatant give the specimen into the container. The container will be sealed and labeled by the physician or agent. The Chain of Custody Form is signed by the combatant, manager, and the physician or agent will also sign and date the form. The physician or agent will transport the sample to the testing laboratory as selected by the Commission. Any other person taking custody of the sample will sign and date The Chain of Custody Form. After completion of the test, the Chain of Custody Form will be returned to the Commission with the test results. (7-1-21)

206. CONTRACT BETWEEN MANAGER AND COMBATANT.

01. Contractual Obligations. The Commission may refuse to honor a contract between a manager and combatant unless it complies with the requirements Section 206 of this rule. A contract between a manager and a combatant will be for a term of not more than four (4) years. Such a contract may contain an option which permits the manager, at the expiration of the initial term, to renew the contract for an additional period of not more than two (2) years. (7-1-21)

02. After Contract Services. A manager may not contract to receive the services of a combatant under their management for a match scheduled to take place after the expiration of the contract. (7-1-21)

03. Options. A contract between a combatant and a manager may provide for voluntary binding arbitration of disputes by the Commission. If so agreed, the arbitration will be conducted by a member of the Commission mutually agreed upon by the two (2) parties or, if there is no agreement, by a member of the Commission appointed by the chairman. The arbitration will be conducted pursuant to generally accepted arbitration standards. (7-1-21)

04. Contract Approval. The Commission may approve a contract entered into in another jurisdiction by a person who is not a resident of Idaho if the terms of the contract comply with the requirements of this section. If the terms of the contract exceed the limitations contained in this section, the Commission may honor the contract to the extent of those limitations. (7-1-21)
05. Manager Limitations. A manager may not negotiate or sign for matches for a combatant who is not under contract to him. Any combatant who does not have a contract with a licensed manager must sign for his own contest and sign the receipt for his own purse. A manager or managers may not participate separately or collectively in more than thirty-three and one-third percent (33 1/3%) of the combatant’s earnings in the ring. (7-1-21)T

06. Manager Responsibilities. If a manager signs only for a combatant’s appearance at a contest, a copy of the manager’s authorization to negotiate and sign for the combatant must accompany the contract which they concluded with the promoter. If the manager does not send a copy of his authorization, the Commission may deny any application received from the combatant or manager pending a hearing before the Commission. (7-1-21)T

207. Manager's Advances – Accounting. Any manager who advances or lends any money to any combatant or incurs indebtedness on behalf of a combatant will furnish an accounting in writing to the combatant every ninety (90) days. The accounting will be verified by the manager and set forth each item of indebtedness owed by the combatant, the date that the indebtedness occurred, the purpose of the indebtedness, and the name of the person to whom the debt is owed. (7-1-21)T

208. Contract Between Promoter and Combatant.

01. Gate Receipts. A promoter may not deduct any amount from the gate receipts, other than for any federal taxes and the fees prescribed herein until all combatants who are to be paid a percentage of the receipts have been paid, unless the amount to be paid to the combatant is specified in the contract. (7-1-21)T

02. Contract Prohibitions. A contract which provides that a combatant fight exclusively for or at the option of one (1) promoter or that a combatant is to pay for the services of an opponent is prohibited. (7-1-21)T

209. Combatant Not to Have Promoter or Certain Others Act as Manager or Hold Financial Interest. A combatant may not have a promoter or any of its members, stockholders, officials, matchmakers or assistant matchmakers act directly or indirectly as manager, or hold any financial interest in the management of the combatant’s earnings. (7-1-21)T

01. Main and Semi-Main Events. A contract between a promoter and a combatant for the main and semi-main events of a program will be filed with the Commission at least seven (7) working days before the event unless the Commission gives special approval for filing the contract closer to the time of weighing in. (7-1-21)T

02. Other Combatants. Contracts for all combatants who will be contending in the program will be filed before the scheduled time for weighing in. (7-1-21)T

03. Disciplinary Action. A promoter or matchmaker who fails to file a contract for any participant whose name is released to the news media is subject to disciplinary action. (7-1-21)T

04. Media Contracts. Any contract by the promoter for the sale, lease, or other use of rights to broadcast, televise including a right to make a closed-circuit telecast, or take motion pictures of a contest will be filed with the Commission at least five (5) working days before the event unless the promoter obtains special approval from the Commission for filing the contract at a time closer to the event. (7-1-21)T

211. Percentage of Gate Receipts to Combatant. Each combatant working on a percentage basis will be paid on the basis of the net receipts of each exhibition after state and federal taxes, ring expenses, and the price of complimentary tickets upon which a price is specified, have been deducted. (7-1-21)T

212. Promoter's Advances to Combatant or Manager or Occurrence of Debt on His Behalf.
01. **Restrictions.** A promoter licensed by the Commission will not directly or indirectly make any loan or advance to any combatant or manager. (7-1-21)T

02. **Any Indebtedness Restricted.** A promoter will not, directly or indirectly, create any indebtedness which becomes the obligation of a combatant or manager unless the promoter has the express written permission of the Commission for that action. (7-1-21)T

### 213. FAILURE OF COMBATANT TO APPEAR.

Any combatant who fails to appear in an event in which the combatant signed a contract to appear, without a written excuse determined to be valid by the Commission or a certificate from a physician designated by the Commission in advance in case of physical disability, is subject to disciplinary action. Any combatant who files a certificate from a physician designated by the Commission stating that he is unable to fulfill a contract because of physical disability must, on being restored to the eligible list, fulfill his contract with the same opponent or a suitable substitute specified in the contract within a reasonable time, that period to be set by the Commission, unless the combatant is released from the contract by mutual agreement. (7-1-21)T

### 214. PAYMENT OF COMBATANT.

01. **Payment in Full.** Every combatant will be paid in full according to the combatant’s contract, and no part of the combatant’s remuneration may be withheld except by order of the Commission, nor may any part of the combatant’s remuneration be returned through arrangement with the combatant’s manager to any matchmaker or promoter, except as otherwise provided in this section. (7-1-21)T

02. **Prior Written Commitments.** With the prior written permission of a member of the Commission, a promoter may withhold from the purse of a combatant money advanced to the combatant for transportation and maintenance in preparation for a contest, if their agreement so provides. (7-1-21)T

03. **Manager’s Share.** A manager’s share of the purse may be deducted and paid directly to the manager if the contract so specifies. (7-1-21)T

04. **Pending Action.** If arbitration of a contract entered into by a manager and combatant is pending before the Commission or if the contract is in litigation in a court of competent jurisdiction, the Commission may:

a. Withhold the amount in dispute in the Commission’s trust fund until resolution of the dispute; or (7-1-21)T

b. Pay the disputed amount to the clerk of the court in which the litigation is pending. (7-1-21)T

05. **Prior Approval of Commission.** Neither a combatant nor his manager may assign their share of the purse, or any portion thereof, without the approval of the Commission. If a combatant or manager wants to assign their share of the purse, they must file a written request with the Commission at least seven (7) working days before the contest. (7-1-21)T

### 215. PAYMENT OF PURSE.

01. **Payment Made.** All payment of purses will be made:

a. Immediately after the contest or exhibition; or (7-1-21)T

b. If the combatant is to receive a percentage of the net receipts, immediately after that percentage is determined by a person designated by the Commission, unless otherwise ordered by the Commission. (7-1-21)T

02. **Signatures.** Immediately after the contest or exhibition, the Commission designated person will release the checks or cash to the entitled persons and will obtain their signatures on a list in which they acknowledge the payment. (7-1-21)T
03. **Reconciliation.** The promoter may withhold an amount of not more than ten percent (10%) of the purse for payment of expenses incurred by the combatant. A reconciliation of those expenses and payment of the undistributed portion of the purse will be made to the Commission on the Commission’s form within seven (7) working days after the contest. The reconciliation must bear written approval of the combatant before it is submitted. If good cause is shown, the chairman of the Commission may grant an extension of the date for reconciliation for a period not to exceed thirty (30) days after the contest.

04. **Alternative Payment.** The Commission may permit a form of payment other than those specified in this section. A promoter who wishes to pay the purse by an alternative method of payment will:

a. Submit a written request to the Commission at least thirty (30) days before the contest.

b. Describe in detail the alternative method of payment contemplated.

c. Show good cause for a waiver of the provisions as outlined in Section 215 of this rule.

d. Comply with all requirements of the Commission regarding the production of relevant information.

e. Follow the procedural directives of the Commission if the request is granted.

05. **Non-Payment of Amateurs.** Consistent with Section 54-402, Idaho Code, a promoter may not compensate any amateur for participating in or being associated in any way with the promoter’s event. This ban absolutely bars a promoter from paying an amateur to sell tickets or merchandise or provide services related to an event.

216. **RETAINING PORTION OF PURSE PENDING DETERMINATION OF WHETHER PENALTY WILL BE CHARGED.**

At any time before the award of a purse to a combatant, the Commission may specify any amount not to exceed twenty-five thousand dollars ($25,000) to be retained from the combatant’s purse and transferred from the promoter to the Commission. The money will not be given to the combatant until the Commission determines that no penalty in lieu of revoking the combatant’s license will be charged for any action or condition of the combatant. Any amount so specified is not a limitation upon the amount of a penalty which may be charged.

217. – 298. (RESERVED)

299. **CHANGES TO MAIN AND SEMI-MAIN EVENTS.**

01. **Notice.** The promoter must request Commission approval of any change in an announced or advertised program for the main and semi-main events at least one (1) week before the event. Notice of any change or substitution must also be conspicuously posted at the box office of the premises where the program is to be held and announced from the ring before the opening contest.

02. **Refunds.** If such change to the main or semi-main events occur and any patron desires a refund of the ticket price, the promoter will provide a refund upon presentation of the ticket or the ticket stub at the box office before the event is scheduled to begin. The box office must remain open a reasonable length of time to redeem such tickets.

03. **Substitutions.** A combatant may not substitute for another combatant in a contest which is the main and semi-main events unless the Commission approves the substitution.

300. **PROGRAM FOR CHARITY.**

01. **Application.** A person who wishes to present a program or event under the jurisdiction of the Commission for charitable purposes will submit a sanction application to present the program. The application will contain the name of the charity, charitable fund or organization which is to benefit from the program and the amount
or percentage of the receipts of the program to be paid to the charity. (7-1-21)

02. Certified, Itemized Statement. Within seventy-two (72) hours after such a program is held, the promoter will furnish to the Commission a certified itemized statement of the receipts and expenditures in connection with the program and the net amount paid to the charitable fund or organization. If the promoter fails to file the statement within the prescribed time, the Commission:
   a. May suspend or revoke the promoter’s license; and
   b. May prohibit the promoter from holding any program for charitable purposes. (7-1-21)

301. BEVERAGE CONTAINERS. All drinks at an event will be dispensed in paper or plastic cups. (7-1-21)

302. – 399. (RESERVED)

400. ADMISSION FEE AT QUARTERS WHERE COMBATANT TRAINS.

01. Fee. An admission fee may not be charged to enter the quarters where a combatant is training unless the Commission has authorized the charging of admission. Where such an admission fee is charged, the Commission will consider the charge to be for the privilege of seeing an exhibition. (7-1-21)

02. State Fee. The state fee on those gross receipts, exclusive of any federal taxes paid thereon, will be sent to the Commission with the report. (7-1-21)

401. TICKETS LIMITED TO SEATING CAPACITY OF ARENA. The sale of tickets for an event may not exceed the seating capacity of an indoor arena and no ticket may be issued for standing room. A person may not be sold the right of admission without a ticket. (7-1-21)

402. TICKETS.

01. Inventory. The ticket outlet shall report to the Commission an inventory, which they affirm under oath to be correct, of all the tickets issued. (7-1-21)

02. Notification. The promoter will notify the ticket outlet of the requirements of this section. (7-1-21)

403. CONTENTS OF TICKETS.

01. General. Every ticket will have the price, name of the promoter, and date of the program plainly on it. (7-1-21)

02. Changes. Requests for changes in ticket prices or dates of programs will be made in writing to the Commission for approval. (7-1-21)

03. License to Sell. Tickets may not be sold by any person except through an agency holding a license to sell the tickets unless the sale is first approved by the Commission. (7-1-21)

404. COMPLIMENTARY TICKETS.

01. Limitation. A promoter may not issue complimentary tickets for more than two percent (2%) of the seats in the arena without the Commission’s written authorization. Complimentary tickets authorized under this section do not constitute part of the total gross receipts from admission fees for the purposes of calculating the Commission taxes. (7-1-21)

02. More Than Two Percent Issued. If complimentary tickets are issued for more than two percent (2%) of the tickets sold:
a. Each combatant who is working on a percentage will be paid their percentage of the normal price of all complimentary tickets in excess of two percent (2%) of the tickets sold unless the contract between the combatant and the promoter provides otherwise and stipulates the number of complimentary tickets which will be issued; and

(7-1-21)T

b. If a service charge is made for complimentary tickets, the combatant is entitled to be paid their percentage of that service charge, less any deduction for federal taxes and fees.

(7-1-21)T

405. PROVISIONS OF TICKETS WITHOUT CHARGE OR AT REDUCED RATES.

01. No Fees. Persons who receive tickets pursuant to this section are not liable for the payment of any fees for those tickets.

(7-1-21)T

02. Optional Charges. Each promoter may provide tickets without charge or at a reduced rate to:

(7-1-21)T

a. Any employees, and if the promoter is a corporation, to a director or officer, who is regularly employed or engaged in promoting such programs, whether or not their duties require them to be admitted to the particular program and whether or not he is on duty at the time of that program;

(7-1-21)T

b. A journalist performing their duties as such; and

(7-1-21)T

c. A fireman or police officer performing their duties as such.

(7-1-21)T

03. Duties Required. Each promoter will perform the following duties in relation to the issuance of complimentary tickets issued:

(7-1-21)T

a. Each ticket issued to a journalist will be clearly marked “PRESS.” No more tickets may be issued to journalists than will permit comfortable seating in the press area.

(7-1-21)T

b. The promoter may allocate seats for the media, subject to the Commission’s final approval of the allocation. Seating at the press tables or in the press area will be limited to journalists who are actually covering the contest and to other persons designated by the Commission.

(7-1-21)T

c. A list of passes issued to journalists must be submitted to the Commission.

(7-1-21)T

d. Only one (1) complimentary ticket may be issued to any one (1) manager, second, combatant, or other person licensed by the Commission.

(7-1-21)T

e. The Commission will approve in advance any credential issued by the promoter which allows an admission to the event without a ticket. Requests for the issuance of such credentials must be made at least five (5) hours before the first contest on the program.

(7-1-21)T

04. Admission Criteria. Admission of any person who does not hold a ticket or who is not specifically exempted pursuant to this section is grounds for suspension or revocation of the promoter’s license or the assessment of a penalty.

(7-1-21)T

05. Fees. The Commission will collect all fees and taxes due on any ticket which is not specifically exempt pursuant to this section, and for any person who is admitted without a ticket in violation of this section.

(7-1-21)T

406. SPECULATION IN TICKETS PROHIBITED.

01. Prevent Speculation. A promoter who holds programs or events under the jurisdiction of the Commission shall exercise extraordinary caution to prevent speculation in tickets.

(7-1-21)T
02. No Other Price. The promoter may not sell any tickets for a price other than the price printed thereon. (7-1-21)T

   a. The promoter may not, without the Commission’s written permission, change the price of tickets at any time after they have been placed on sale or sell them at any time during the program for a different price than tickets for the same seats were offered or sold before the program commenced. (7-1-21)T

   b. Any ticket sold for other than the price printed on the ticket will be over stamped with the actual price charged. The over stamp must be placed on the printed face of the ticket as well as the stub retained by the holder of the ticket. (7-1-21)T

03. Exchange. A person may only exchange tickets at the box office. A ticket may not be redeemed after the show has taken place. Tickets that have not sold will be returned to the box office not later than one (1) hour before the show is scheduled to begin. (7-1-21)T

04. Removal and Possession of Stub. A holder of a ticket for a program or event will not be allowed:

   a. To pass through the gate of the premises where the program is being held unless their ticket has been redeemed. (7-1-21)T

   b. To occupy a seat unless in possession of proof of purchase of a ticket for that seat. (7-1-21)T

05. Tickets for Readmission. A promoter may not issue a ticket to any person for the purpose of readmission due to leaving the arena and later reentering the arena, unless the promoter has obtained the Commission’s written permission for such an issuance. (7-1-21)T

407. – 414. (RESERVED)

415. TICKETS – REMOVAL AND RETENTION AFTER MATCH – DESTRUCTION. After the tickets and stubs have been held for at least fifteen (15) days by the Commission, the Commission will destroy them. If the tickets are not taken by the Commission, they must be retained by the promoters for at least six (6) months. Those tickets may be destroyed after they have been held for at least thirty (30) days and written permission has been granted by the Commission for the destruction of such tickets. Tickets need to be kept in separate packages for each show so that the Commission may, at any time, conduct an audit. (7-1-21)T

416. – 499. (RESERVED)

500. ADMISSION OF LICENSEES AND AGENTS TO EVENTS. The promoter of any event under the jurisdiction of the Commission will admit the following to said event without a ticket:

   01. Participants. Any individual who is licensed by the Commission and who has been authorized by the Commission to participate in said event upon such individual’s presentation of a current and valid license issued by the Commission. (7-1-21)T

   02. Commissioner or Agent. The Athletic Commissioner, any Deputy Commissioner, and any agent of the Division upon presentation of valid identification that identifies the holder as a member of the Commission or an agent of the Division. (7-1-21)T

501. PAYMENT OF FEE TO OFFICIAL DESIGNATED BY COMMISSION. A promoter will pay the fee and reasonable expenses set by the Commission to any person directed by the Commission to officiate in an event promoted by that promoter. (7-1-21)T

502. POSTPONEMENT OF PROGRAM.

   01. Prior Approval. A promoter may only postpone a sanctioned event with approval from the
Commission. (7-1-21)

02. No Fault Postponement. If a postponement of a sanctioned event becomes necessary through no fault of the promoter, the Commission will grant an extension of the contracts and set a new date. (7-1-21)

03. Limitations on Postponement. A small advance sale is not a legitimate reason for postponement. Indoor boxing and wrestling programs may not be called off or canceled on account of storms or for any other reason not expressed in this chapter except as approved by the Commission. (7-1-21)

04. Advance Notice. A promoter may not call off a sanctioned event without one (1) week prior written approval of the Commission. (7-1-21)

503. REQUIRED NUMBER OF AMBULANCES – NOTICE TO AMBULANCE SERVICE AND HOSPITAL.

01. Required Number of Ambulances. The following number of ambulances must be present at the site of any program or event under the jurisdiction of the Commission: (7-1-21)

a. Where the anticipated attendance is four thousand (4,000) persons or more but less than eight thousand (8,000) persons, one (1) ambulance. (7-1-21)

b. Where the anticipated attendance is eight thousand (8,000) persons or more, two (2) ambulances. (7-1-21)

02. Promoter Requirements. Each promoter of a program or event will, without regard to the size of the anticipated attendance: (7-1-21)

a. Give notice of the time, date and site of the program to the ambulance service or emergency medical service which is located nearest to the site of the program and ascertain from the service the length of time for one (1) of its ambulances to reach the site. (7-1-21)

b. Give such a notice to the nearest hospital and the persons in charge of its emergency room. (7-1-21)

c. Before the start of the program or event, certify to a member of the Commission that the requirements of this section have been met. (7-1-21)

504. SANITATION.

01. Sanitary Conditions. Each promoter is responsible for and must correct any violation of the regulations of the Commission or the public health district regarding the sanitary condition of dressing rooms, showers, water bottles, towels or other equipment. (7-1-21)

02. Reporting. Physicians and the Commission or its agents will make a particular examination before or during each program or event to discover any violation of such regulations, and any such violation will be reported to the Commission immediately. (7-1-21)

505. AUTHORIZED PERSONS IN DRESSING ROOMS.

01. Authorized Persons to Enter. On the day of a contest only the following people are allowed in the dressing room of a combatant: (7-1-21)

a. The combatant’s manager; (7-1-21)

b. The combatant’s seconds; (7-1-21)

c. Any authorized agent of the promoter; and (7-1-21)
d. Members of the Commission or its agent. (7-1-21)T

02. Other Persons. The promoter will furnish a doorman or doormen at the entrance to the dressing rooms to enforce this section. (7-1-21)T

506. EQUIPMENT OF THE CHIEF SECOND.

01. Equipment. The chief second will be equipped with:

a. A clear plastic water bottle; (7-1-21)T
b. A bucket containing ice; (7-1-21)T
c. A solution of a kind approved by the Commission for stopping hemorrhaging; (7-1-21)T
d. Adhesive tape; (7-1-21)T
e. Gauze; (7-1-21)T
f. Scissors; and (7-1-21)T
g. One (1) extra mouthpiece. (7-1-21)T

02. Ammonia. No ammonia may be used in the ring. (7-1-21)T

03. Inspection. The ring physician or the Commission may at any time inspect the contents of the chief second’s first-aid kit. (7-1-21)T

507. BELL OR GONG.
There will be a bell or gong at the ring no higher than the floor level of the ring. The bell or gong will produce a clear tone easily heard by the combatants. (7-1-21)T

508. EQUIPMENT OF A TIMEKEEPER.
Every timekeeper will have the equipment prescribed by the Commission and will carry out the duties directed by the Commission. (7-1-21)T

509. – 599. (RESERVED)

600. ADVANCE APPEARANCE OF COMBATANT SCHEDULED TO FIGHT IN MAIN EVENT.

01. When to Appear. Each combatant who is scheduled to fight in a main event, except a combatant in a regularly scheduled weekly contest, must be present in any place specified by the promoter at least three (3) days before the scheduled day of the contest for the purpose of training, publicity, and whatever other purpose the promoter may desire, unless the combatant has the Commission’s express written approval to be absent. (7-1-21)T

02. Expenses. Unless otherwise provided for in the contract, the combatant’s expenses for this purpose will be borne by the promoter. If a combatant fails to comply with this requirement, the promoter, subject to approval of the Commission, may deduct ten percent (10%) of the offending combatant’s purse. (7-1-21)T

601. WEIGHING IN OF COMBATANTS.

01. Attendees and Scales Used at Weigh-In. Each combatant will be weighed in the presence of the public, the other combatant, the Commission and an official representing the promoter, on scales approved by the Commission at any place designated by the Commission. (7-1-21)T

02. Attire. The combatant will have all weights stripped from his body before they are weighed in, but
they may wear shorts. (7-1-21)T

03. **Press Attendance.** Press who provide official identification as such will be admitted to each official weighing in of a combatant. (7-1-21)T

04. **Security.** The owner or operator of the premises in which the weighing in is held will provide adequate security for all those present. (7-1-21)T

05. **Weigh-Ins on Day of Contest.** If a weigh-in is scheduled on the day of the contest, weight loss in excess of two (2) pounds after the time of the weigh-in is not permitted. (7-1-21)T

06. **Weigh-in, Examination of Combatant May Be Ordered By the Commission.** Any combatant who has signed a contract to compete on a promoter’s program is subject to an order by the Commission to appear at any time to be weighed or examined by any physician designated by the Commission. (7-1-21)T

602. **COMBATANTS MUST REPORT.**
Each combatant will report to the Commission in the dressing rooms at least one (1) hour before their scheduled time of the first match. (7-1-21)T

603. **COSTUME AND EQUIPMENT.**

01. **Costume.** Each combatant on a program will provide the Commission approved ring costume. (7-1-21)T

02. **Fit.** The trunks must be loose fitting and made of a lightweight cloth. The belt of the trunks must not extend above the waist line. (7-1-21)T

03. **Other Equipment.** Each combatant will wear:

a. A mouthpiece which has been individually fitted; and (7-1-21)T

b. An abdominal cup which will protect him against injury from a foul blow. (7-1-21)T

604. **COMBATANT'S PHYSICAL APPEARANCE.**

01. **Grease or Foreign Substances.** The excessive use of grease or any other foreign substance may not be used on the face of a combatant. The referees or the Commission will cause any excessive grease or foreign substance to be removed. (7-1-21)T

02. **Hair.** The Commission will determine whether head or facial hair presents any hazard to the safety of the combatant or their opponent or will interfere with the supervision and conduct of the contest. (7-1-21)T

605. **PHYSICIAN – SUITABLE PLACE TO EXAMINE COMBATANT – FEE – EMERGENCY TREATMENT.**

01. **Suitable Examination Place.** The promoter will provide the physician designated by the Commission a suitable place to examine each combatant. (7-1-21)T

02. **Fees.** The physician is entitled to receive a fee for their services at a bout. (7-1-21)T

03. **Emergency Treatment.** The physician will give any injured combatant temporary or emergency treatment in the arena or dressing room and no additional fee may be charged. (7-1-21)T

606. **CONTINUOUS PRESENCE OF PHYSICIAN AT RINGSIDE.**

01. **Presence of Physician at Ringside.** The physician designated by the Commission will sit at the immediate ringside at every event. A contest may not proceed unless the physician is seated at ringside. The
physician must not leave until released by the Commission. (7-1-21)T

02. **Injury to Combatant During Round.** When a combatant appears to have been injured during the course of a round, their manager or second cannot attempt to render aid before the physician has had an opportunity to examine them. (7-1-21)T

### 607. PROCEDURE FOR USE OF SCORECARDS.

01. **Scorecards.** The Commission will give scorecards to each judge before the start of the contest. (7-1-21)T

02. **Scoring by Judges.** The judges will score each round of the contest on an individual scorecard and sign it. The referee will pick up the scorecard from each judge and turn in the scorecards at the Commission’s desk before the start of each round. (7-1-21)T

03. **Presentation of Scorecards to Press After Contest.** The Commission may show the scorecards to accredited representatives of the press after the completion of the contest. (7-1-21)T

04. **Delivery of Scorecards to Commission.** The Commission will mail or deliver the scorecards together with required reports regarding the contest to the Division. (7-1-21)T

05. **Report of Each Contest.** Reports of each contest will be kept on file in the office of the Division. (7-1-21)T

### 608. REFEREE’S INSTRUCTIONS TO COMBATANTS.

The referee will, before starting a contest, ascertain from each combatant the name of their chief second, who will be responsible for the conduct of the assistant seconds during the progress of the contest. The referee will call combatants together before each contest for final instructions, accompanied only by their chief second. (7-1-21)T

### 609. LIMITATIONS ON SECONDS.

01. **Number of Seconds.** No combatant will have more than three (3) seconds except that in a contest for a world title the Commission may authorize four (4) seconds. (7-1-21)T

02. **Excessive Use of Water.** Any excessive or undue spraying or throwing of water on any combatant by a second between rounds is prohibited. (7-1-21)T

### 610. PERSONS ALLOWED IN RING.

No persons other than the combatants and the referee may be in the ring during the progress of a round. (7-1-21)T

### 611. UNFAIR PRACTICES – DUTIES OF REFEREES.

01. **Enforcing the Rules.** A referee is responsible for enforcing the rules of the contest and cannot permit unfair practices that may cause injury to a combatant. (7-1-21)T

02. **Warnings.** Referees will warn the combatants whenever they are committing fouls. (7-1-21)T

03. **Deducting Points.** If a combatant persists in committing fouls after a warning, the referee will deduct points from or disqualify them. (7-1-21)T

### 612. STOPPING OF CONTEST – INJURY TO COMBATANT.

The referee, in consultation with the ring physician, will determine whether a contest should be stopped because of an injury to a combatant. (7-1-21)T

### 613. STOPPING OF CONTEST – ONE-SIDED CONTEST – RISK OF INJURY – EXAMINATION BY PHYSICIAN.
01. **One-Sided Contested.** The referee may stop a contest at any stage if they consider it too one-sided or if either combatant is in such a condition that to continue might subject him to serious injury. (7-1-21)

02. **Risk of Injury and Examination by Physician.** If a combatant sustains any injury which the referee believes may incapacitate them, the referee will call the physician into the ring to examine the combatant. The physician will give their opinion to the referee before the referee renders a decision in the matter. (7-1-21)

**614. STOPPING OF CONTEST – COMBATANT NOT HONESTLY COMPETING.**
If the referee decides a combatant is not honestly competing, they may stop the contest before its scheduled completion, disqualify the combatant and recommend the purse of that combatant be held pending investigation by the Commission. The announcer will then inform the audience that no decision has been rendered. (7-1-21)

**615. FAILURE OF COMBATANT TO RESUME.**
A combatant may not leave the ring during any one (1) minute rest period between rounds. If any combatant fails or refuses to resume the contest when the bell sounds signaling the commencement of the next round, the referee will award a decision of technical knockout to their opponent as of the round which has last been finished, unless the circumstances indicate to the referee the need for investigation or punitive action, in which event the referee will not give a decision and will recommend the purse or purses of either or both combatants to be withheld. (7-1-21)

**616. PROCEDURE WHEN COMBATANT IS KNOCKED OUT.**
A combatant who has been knocked out will be kept in a prone position until they have recovered. Except for the referee or chief second who may remove the mouthpiece, no one may touch them until the ring physician enters the ring and attends to them. (7-1-21)

**617. ANNOUNCEMENT OF WINNER OF BOUT.**
At the termination of each boxing bout the announcer will announce the winner and the referee will raise the winner’s hand. (7-1-21)

**618. CHANGE OF DECISION IN CONTEST.**
The Commission will not change a decision rendered at the end of any contest unless:

01. **Collusion.** The Commission determines that there was collusion affecting the result of the contest. (7-1-21)

02. **Error in Scoring.** The compilation of scorecards of the judges discloses an error which shows that the decision was given to the wrong combatant. (7-1-21)

03. **Error in Interpretation of Rules.** As a result of an error in interpreting a provision of this chapter, the referee has rendered an incorrect decision. (7-1-21)

04. **Failure of Drug Test.** The Commission determines that there was a violation of Section 205. (7-1-21)

**619. PHYSICIAN'S REPORT TO COMMISSION AFTER CONTEST.**
On the report which the Commission-designated physician files after a contest, they shall list each case in which a combatant was injured during the contest, or applied for medical aid after the contest. (7-1-21)

620. – 699. (RESERVED)

**700. MARTIAL ARTS AND MIXED MARTIAL ARTS (MMA) – RULES.**
A Licensed Combatant in an MMA contest must adhere to the rules of the Association of Boxing Commissions and Combative Sports Unified Rules of Mixed Martial Arts. (7-1-21)

01. **Regulation of Martial Arts and MMA.** Except to the extent set forth under Sections 700-799 of these rules, all requirements and the limitations relating to combatants and licenses (as set forth within Title 54, Chapter 4, Idaho Code, and in the remaining rules of the Commission) will apply to all martial arts and MMA contests and exhibitions. Notwithstanding the foregoing, at its sole discretion, the Commission may, by specific
reference in the sanctioning permit, allow the use of other requirements and limitations during a particular martial arts contest or exhibition. 

03. MMA Weight Classes. The Commission adopts the Unified Rules of Mixed Martial Arts weight classes as listed in the Association of Boxing Commissions and Combative Sports Unified Rules for Mixed Martial Arts incorporated by reference in Section 002 of these rules.

04. Practices, Belt Promotion Testing, and Non-Contact Demonstrations. Martial arts practices, belt promotion testing and demonstrations (as used herein the term demonstrations means displays that do not involve combative contact between combatants or between participants) conducted by martial arts schools are not considered to be boxing. Such practices, testing, and demonstrations are exempt from the licensing requirements of Title 54, Chapter 4, Idaho Code, and persons do not need a license to participate in such practices, testing, and demonstrations.

05. Licensing Exemption. Martial arts schools that meet the conditions set forth within Section 54-406(3)(b), Idaho Code, may apply to the Commission for exemption from licensing and sanctioning permit requirements relating to exhibitions and contests.

06. Use of Official Rules for Art. Martial arts contests and exhibitions will be conducted pursuant to the official rules of the particular art. The sponsoring organization or promoter must file a copy of the official rules with the Commission before the Commission will issue a sanctioning permit for the contest or exhibition.

07. Gloves. The requirement set forth in Section 54-414, Idaho Code, of wearing boxing gloves applies to kickboxing but will not apply to any other form of martial art unless the use of boxing gloves is required by the official rules of that particular art. Any gloves utilized must be in good condition as approved by the commission. For main and semi main events, gloves will be in new condition and of the same brand for combatants.

08. Commission Approved Attire.

a. Each combatant will wear a foul-proof groin protector.

b. Each female combatant will wear Commission-approved form fitting breast support protection. Supports may not have brace, metal or hard material of any kind.

c. For male combatants, no body shirts or pants are allowed. Female combatants will wear fighting shorts and rash guard.

d. Combatant may only use soft materials to tie hair.

09. Prohibited Equipment and Attire.

a. The following equipment and attire are prohibited:

i. Shoes;

ii. Facial hair, if determined by the Commission to pose a health, safety or sanitary issue;

iii. Tar material on any part of the body;

iv. Henna-type tattoos;

v. Piercing accessories; and
vi. Makeup of any kind. (7-1-21)T
b. Masks, costumes, and props must be approved by the Commission prior to usage. (7-1-21)T
c. Fingernails and toenails must be cut and trimmed prior to a contest. (7-1-21)T

701. SUSPENSION OF MMA CONTEST FOR UNFORESEEN REASONS.

01. Unforeseen Reasons. If a contest has to be suspended for any reason other than the actions of the combatants, the referee will have the clock stopped and attend to the issue. The referee, Commission or Commission’s representative will decide the length of time allotted to address the issue. All reasonable efforts are made to resume the contest as soon as possible. It is expected that the responsible party or parties make a true effort to resolve the issue. (7-1-21)T

02. Suspicious Circumstances. If the contest is unexpectedly stopped under suspicious circumstances, all or part of the following actions may take place: (7-1-21)T

a. If a combatant or his corner is involved, the offending combatant may be disqualified. (7-1-21)T
b. The combatant may be subject to investigation and discipline in the event of a violation of these rules. (7-1-21)T
c. In certain circumstances the matter may be referred to the appropriate law enforcement agency or the courts, or both. (7-1-21)T

702. METHODS OF WINNING MMA CONTEST.

01. Knockout (KO). A knockout is declared when a combatant is unable to intelligently defend himself following a strike. (7-1-21)T

02. Technical Knockout (TKO). A technical knockout is declared when the licensed ringside physician or referee decides the combatant cannot continue due to a cut or other injury. (7-1-21)T

03. Submission. When a combatant submits by tapping out on the opponent or the mat as a result from a choke, lock, or any other legal technique or strike. A combatant may call out defeat when unable to tap out. (7-1-21)T

04. Referee Stoppage. The referee may stop the contest if a combatant can no longer defend himself or cannot or will not tap out, or for any other reason to preserve the health and safety of the combatants. (7-1-21)T

05. Decision. When the contest ends after the specified time period and there is no winner, or ends due to a foul or fouls that cause injury, or ends due to unforeseen circumstance, it will be scored by the three (3) judges. (7-1-21)T

a. Decisions made via a scorecard in MMA contest will be: (7-1-21)T
i. A “Unanimous Decision” in which all three (3) judges agree on winner. (7-1-21)T
ii. A “Split Decision” in which two (2) judges agree on one (1) combatant and one (1) judge scores for the other combatant. (7-1-21)T
iii. A “Majority Decision” in which two (2) judges agree on one (1) combatant and one (1) judge scores a draw. (7-1-21)T
b. A “Draw” may be: (7-1-21)T
i. A “Unanimous” decision in which all three (3) judges score the contest a draw; (7-1-21)T

ii. A “Majority” decision in which two (2) judges score the contest a draw and one (1) judge scores for a combatant; or (7-1-21)T

iii. A “Split” decision in which one (1) judge scores for a combatant, one (1) judge scores for the other combatant and one (1) judge scores the contest a draw. (7-1-21)T

c. Other scorecard decisions are: (7-1-21)T

i. Technical Decision; (7-1-21)T

ii. Technical Draw; or (7-1-21)T

iii. No Contest. (7-1-21)T

d. A “Disqualification” can result from fouling or unsportsmanlike conduct as determined by the referee. (7-1-21)T

06. Inability of Opponent to Continue or Throws in Towel. If the opponent is unable or unwilling to continue the contest or the combatant’s corner decides that the combatant is unable to continue and indicates this by throwing the towel into the ring or cage, a TKO will result against this combatant. (7-1-21)T

703. MMA COMBATANT DOWN AFTER THE SOUND OF THE BELL.

01. End of Round. The round ends when the bell sounds to end the round. (7-1-21)T

02. Combatant Down After Round Has Ended. If during the round legal blows negatively affect a combatant and the combatant goes down after the bell has sounded ending the round, the referee will consider the round ended and the one-minute rest period started. The referee may then allow the combatant’s corner to assist the downed combatant or he may summon the ringside physician to evaluate the combatant, or both. (7-1-21)T

704. BLOWS AT OR AFTER THE BELL IN MMA CONTEST.

01. Legal Blow. A blow that strikes a combatant concurrent with the sounding of the bell is deemed to be a legal blow. (7-1-21)T

02. Illegal Blow. A blow that strikes a combatant after the sounding of the bell is deemed to be a foul. The referee will determine if it was accidental or intentional foul. (7-1-21)T

705. – 799. (RESERVED)

800. BOXING – RULES.
A licensed combatant in a boxing contest must adhere to the Unified Rules of the Association of Boxing Commissions and Combative Sports Unified Boxing Rules. (7-1-21)T

02. Weights and Classes of Boxing Combatants. The classes and weights for each class are shown in the following schedule:

a. Strawweight – up to one hundred five (105) pounds. (7-1-21)T

b. Light-Flyweight – over one hundred five (105) to one hundred eight (108) pounds. (7-1-21)T

c. Flyweight – over one hundred eight (108) to one hundred twelve (112) pounds. (7-1-21)T
d. Super Flyweight – over one hundred twelve (112) to one hundred fifteen (115) pounds. (7-1-21)

e. Bantamweight – over one hundred fifteen (115) to one hundred eighteen (118) pounds. (7-1-21)

f. Super Bantamweight – over one hundred eighteen (118) to one hundred twenty-two (122) pounds. (7-1-21)

g. Featherweight – over one hundred twenty-two (122) to one hundred twenty-six (126) pounds. (7-1-21)

h. Super Featherweight – over one hundred twenty-six (126) to one hundred thirty (130) pounds. (7-1-21)

i. Lightweight – over one hundred thirty (130) to one hundred thirty-five (135) pounds. (7-1-21)

j. Super Lightweight – over one hundred thirty-five (135) to one hundred forty (140) pounds. (7-1-21)

k. Welterweight – over one hundred forty (140) to one hundred forty-seven (147) pounds. (7-1-21)

l. Super Welterweight – over one hundred forty-seven (147) to one hundred fifty-four (154) pounds. (7-1-21)

m. Middleweight – over one hundred fifty-four (154) to one hundred sixty (160) pounds. (7-1-21)

n. Super Middleweight – over one hundred sixty (160) to one hundred sixty-eight (168) pounds. (7-1-21)

o. Light-Heavyweight – over one hundred sixty-eight (168) to one hundred seventy-five (175) pounds. (7-1-21)

p. Cruiserweight – over one hundred seventy-five (175) to two hundred (200) pounds. (7-1-21)

q. Heavyweight – all over two hundred (200) pounds. (7-1-21)

03. Exceeding Weight Allowances. No contest may be scheduled and no combatant may engage in a boxing contest without the approval of the Commission if the difference in weight between combatants exceeds the allowance shown in the following schedule:

a. Up to one hundred eighteen (118) pounds – not more than three (3) pounds. (7-1-21)

b. One hundred eighteen (118) to one hundred twenty-six (126) pounds – not more than five (5) pounds. (7-1-21)

c. One hundred twenty-six (126) to one hundred thirty-five (135) pounds – not more than seven (7) pounds. (7-1-21)

d. One hundred thirty-five (135) to one hundred forty-seven (147) pounds – not more than nine (9) pounds. (7-1-21)

e. One hundred forty-seven (147) to one hundred sixty (160) pounds – not more than eleven (11) pounds. (7-1-21)

f. One hundred sixty (160) to one hundred seventy-five (175) – not more than twelve (12) pounds. (7-1-21)
04. Licensing Exemption. Amateur Boxing Organizations that meet the conditions set forth within Section 54-406(3)(b), Idaho Code, are considered exempt from the licensing requirements set forth in these rules.

05. Boxing Gloves. The gloves used in a boxing contest must meet the following requirements:

a. General. The gloves will be examined by the Commission and the referee. If padding in any of the gloves is found to be misplaced or lumpy or if any of the gloves are found to be imperfect, they must be changed before the contest starts. No breaking, roughing or twisting of gloves is permitted.

b. Glove Specifications. The gloves for every main event will be new, of the same brand for both combatants, furnished by the promoter, and of the size specified by the Commission.

c. Sanitary. If gloves to be used in preliminary contests have been used before, they will be whole, clean and in sanitary condition. The gloves are subject to inspection by the referee or the Commission. If found to be unfit, they will be immediately discarded and replaced with gloves meeting the requirements of this section.

d. Weight of Gloves. Each combatant will wear gloves that are not less than eight (8) ounces and not more than ten (10) ounces in weight except that the Commission will set the weight of gloves to be used in a championship fight. Eight (8) ounce gloves will be used for all weight classes through welterweight (one hundred forty-seven (147) lbs). Super welterweight (above one hundred forty-seven (147) lbs) and above must use ten (10) ounce gloves.

e. All gloves will have the distal portion of the thumb attached to the body of the glove so as to minimize the possibility of injury to an opponent’s eye.

06. Bandaging of Combatant’s Hands. Bandages may not exceed one (1) winding of surgeon’s adhesive tape, not over one and one-half (1 1/2) inches wide, placed directly on the hand to protect the part of the hand near the wrists. The tape may cross the back of the hand twice but may not extend within three-fourths (3/4) inch of the knuckles when the hand is clenched to make a fist.

a. Each combatant will use soft surgical bandage not over two (2) inches wide, held in place by not more than six (6) feet of surgeon’s adhesive tape for each hand. Up to one (1) fifteen (15) yard roll of bandage may be used to complete the wrappings for each hand. Strips of tape may be used between the fingers to hold down the bandages.

b. Bandages must be adjusted in the dressing room in the presence of the Commission and both combatants. Either combatant may waive his privilege of witnessing the bandaging of the opponent’s hands.

801. BOXING RING. A boxing ring will meet the following requirements:

01. Ring Dimensions. The ring will be not less than sixteen (16) feet square not more than twenty-four (24) feet square within the ropes. The ring floor will extend at least eighteen (18) inches beyond the ropes. The ring floor will be padded with ensolite or another similar closed-cell foam. Padding will extend beyond the ring ropes and over the edge of the platform, with a top covering of canvas, duck or similar material tightly stretched and laced to the ring platform. Material that tends to gather in lumps or ridges must not be used.

02. Ring Platform. The ring platform will not be more than four (4) feet above the floor of the building, and will be provided with suitable steps for use of combatants. Ring posts will be of metal, not more than
three (3) inches in diameter, extending from the floor of the building to a height of fifty-eight (58) inches above the ring floor. Rings posts will be at least eighteen (18) inches away from the ropes.

03. **Ropes.** There will be four (4) padded ring ropes, not less than one (1) inch in diameter and wrapped in soft material. The lower rope will be eighteen (18) inches above the ring floor and offset four (4) inches to the outside of the ring from the ropes above.

802. **KNOCKDOWN OF BOXING COMBATANT – PROCEDURE FOR COUNTING.**

01. **Knockdown.** When a combatant is knocked down, the referee will order the opponent to retire to the farthest neutral corner of the ring, pointing to the corner, and immediately begin the count over the combatant who is down. The referee will audibly announce the passing of the seconds, accompanying the count with motions of his arm, the downward motion indication the end of each second.

02. **Timekeeper.** The timekeeper, by effective signaling, will give the referee the correct one (1) second interval for his count. The referee’s count is the official count. Once the referee picks up the count from the timekeeper, the timekeeper will cease counting. No combatant who is knocked down may be allowed to resume boxing until the referee has finished counting to eight (8). The combatant may take the count either on the floor or standing.

03. **Failure of Opponent to Stay in Farthest Neutral Corner.** If the opponent fails to stay in the farthest neutral corner, the referee will cease counting until he has returned to his corner and will then go on with the count from the point at which it was interrupted. If the combatant who is down arises during the count, the referee may step between the combatants long enough to assure himself that the combatant just arisen is in condition to continue. If so assured, he will, without loss of time, order both combatants to go on with the contest. During the intervention by the referee the striking of a blow by either combatant may be ruled a foul.

04. **Knock-Out.** When a combatant is knocked out, the referee will perform a full ten (10) second count unless, in the judgment of the referee, the safety for the combatant would be jeopardized by such a count. If the combatant who is knocked down is still down when the referee calls the count of ten (10), the referee will wave both arms to indicate that he had been knocked out and will raise the hand of the opponent as the winner.

05. **Both Combatants Down.** If both combatants go down at the same time, the count will be continued as long as one (1) is still down. If both combatants remain down until the count of ten (10), the contest is stopped and the decision is a technical draw.

06. **Combatants Down – Referee Counting.** If a combatant is down as a result of a legal blow at or near the end of a round, the ring official will continue the count. The combatant cannot be saved by the bell.

803. **RESUMING COUNT ON BOXING COMBATANT.**

If a knockdown occurs before the normal termination of a round and the boxer who is down stands up before the count of ten (10) is reached and then falls down immediately without being struck, the referee will resume the count where it was left off. If the combatant is on the ring platform outside the ropes, he must enter the ring immediately where he may resume the contest or take a count. The referee will start the count as soon as the combatant who had fallen is back in the ring.

01. **Stalling Outside Ropes.** If the combatant stalls for time outside the ropes, the referee will start the count without waiting for him to reenter the ring.

02. **Combatant to Neutral Corner.** When one (1) combatant has fallen through the ropes, the other combatant will retire to the farthest corner and stay there until ordered to continue the contest by the referee.

03. **Penalty.** A combatant who deliberately wrestles or throws an opponent from the ring, or who hits when he is partly out of the ring and is prevented by the ropes from assuming a position of defense, may be penalized.
804. WHEN BOXING COMBATANT FALLS FROM RING DURING ROUND.
A combatant who has been knocked or has fallen through the ropes and over the edge of the ring platform during the contest may be helped back by anyone except his seconds or manager, and the referee may allow a reasonable amount of time for the combatant to return to the ring. If the combatant is on the ring platform outside the ropes, they must enter the ring immediately where they may resume the contest or take a count them to reenter the ring. A combatant who deliberately wrestles or throws an opponent from the ring, or who hits when they are partly out of the ring and is prevented by the ropes from assuming a position of defense, may be penalized. (7-1-21)

805. WHEN A BOXING COMBATANT SHALL BE DEEMED DOWN.

01. Feet Off Floor. A boxer is deemed to be down when any part of his body other than his feet is on the floor. (7-1-21)

02. Hanging Over Ropes. A boxer is deemed to be down when hanging over the ropes without the ability to protect themself and he cannot fall to the floor. A referee may count a combatant out if they are on the floor or are being held up by the ropes. (7-1-21)

806. – 899. (RESERVED)

900. WRESTLING – SPECIAL LICENSE REQUIRED FOR A CONTEST.
Unless a special license has been obtained, all professional wrestling programs under the supervision and authority of the Commission are only exhibitions and not contests, and those exhibitions cannot be advertised or announced as contests. (7-1-21)

901. WRESTLING – DISQUALIFICATION FOR DANGEROUS TACTICS.

01. Restrictions. The referee will not permit physically dangerous conduct or tactics. Any wrestler who fails to discontinue those tactics, after being warned by the referee, will be disqualified and have their purse held up and paid to the Commission. (7-1-21)

02. Professionalism. A referee cannot participate in an exhibition to the extent that the Commission or the referee is made to look ridiculous. (7-1-21)

902. LICENSEE’S DUTIES AT WRESTLING EXHIBITION.

01. Conduct. The referee, promoter and their agents, attaches and employees, and participants in any wrestling exhibition will maintain peace, order and decency in the conduct of the exhibition. (7-1-21)

02. No Abusive Behavior. A person involved in such exhibition will not abuse the referee or an official of the Commission. (7-1-21)

03. Decision and Appeal. The Commission will hear any complaint about a referee or an official. (7-1-21)

903. WRESTLERS – PHYSICAL EXAMINATION.
Any person applying for or renewing a license as a wrestler will first be examined by a physician approved by the Commission to establish physical and mental fitness. A wrestler will be furnished a list of approved examining physicians by the Commission. The Commission may order the examination of any wrestler for the purpose of determining whether the wrestler is fit and qualified to engage in further exhibitions. (7-1-21)

904. – 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-707, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of chiropractic in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITION.

01. Chiropractic Assistant. A chiropractic assistant is an individual functioning in a dependent relationship with a supervising chiropractic physician in the performance of any chiropractic practice. (7-1-21)

02. Chiropractic Intern. A chiropractic intern is defined as any individual who is presently enrolled in a school of chiropractic and is qualified to practice as an intern as established by the approved chiropractic college that the individual attends and who will function in a dependent relationship with a supervising chiropractic physician in the performance of chiropractic practice. (7-1-21)

03. Direct Personal Supervision. Direct Personal Supervision means that the licensed chiropractic physician is physically present in the clinic, is monitoring the activities of the supervisee, and is available to intervene, if necessary. (7-1-21)

04. Inactive Retired. The status of a licensee who is over sixty-five (65) years of age, has paid the inactive retired fee and is permanently retired from the practice of chiropractic. The holder of an inactive retired license may not practice chiropractic in Idaho. (7-1-21)

011. -- 099. (RESERVED)

100. APPLICATIONS.

01. Qualifications. (7-1-21)

a. New applicants will meet the following requirements: (7-1-21)

i. National Boards Parts I, II, III, and IV; (7-1-21)

ii. Graduation from a Council on Chiropractic Education (CCE) approved college or university; and (7-1-21)

iii. Applicants will be required to sign an affidavit swearing under oath that they have fully reviewed and understand and will abide by the Chiropractic Act, Title 54, Chapter 7, Idaho Code, and the Board’s Rules, IDAPA 24, Title 03, Chapter 01, “Rules of the State Board of Chiropractic Physicians.” (7-1-21)

b. Endorsement applicants will meet the following requirements: (7-1-21)

i. Successful passage of the National Boards Parts which were in effect at the time of graduation from chiropractic college and physiotherapy; (7-1-21)

ii. If licensed prior to January, 1980, CCE approved college or university not required. If licensed after January, 1980, applicant must have graduated from a CCE approved college or university; (7-1-21)

iii. Five (5) years of consecutive practice without discipline immediately prior to application and holds a current, valid license to practice in a state, territory, or district of the United States or Canada; (7-1-21)

iv. Applicants must demonstrate that they possess the requisite qualifications to provide the same standard of chiropractic care as provided by physicians in this state. The Board may, in its sole discretion, require further examination to establish such qualifications, such as passage of the National Board Special Purposes Examination for Chiropractors (SPEC); and (7-1-21)

v. Applicants will be required to sign an affidavit swearing under oath that they have fully reviewed and understand and will abide by the Chiropractic Act, Title 54, Chapter 7, Idaho Code, and the Board’s Rules,
150. **FEES.**

All fees are non-refundable.

(7-1-21)T

151. -- 199. (RESERVED)

200. **EXAMINATIONS.**

It shall be the applicant’s duty to take and successfully pass the National Board Examinations administered by the National Board of Chiropractic Examiners as specified in these rules.

(7-1-21)T

201. -- 299. (RESERVED)

300. **INACTIVE LICENSE.**

A licensee holding a current active license in this state who is not practicing chiropractic in this state may be issued an inactive license in accordance with Section 54-708(2), Idaho Code, as follows:

01. **Inactive Status.** Each application for an Inactive status license must be accompanied by:

a. The established fee; and

b. A written application to change a current active license to an inactive license.

c. An inactive license shall be issued for one (1) year.

02. **Inactive License Status Renewal.**

a. An inactive license must be renewed annually by submitting the established fee and renewal application. Inactive licenses not renewed will be canceled.

b. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing or supervising in Idaho.

(7-1-21)T
03. **Return to Active Status of License Inactive for Five (5) or Fewer Years.** An inactive license holder whose license has been inactive for five (5) or fewer years may convert from inactive to active license status by:

a. Making written application to the Board on a form prescribed by the Board;  

b. Providing documentation to the Board showing successful completion within the previous twelve (12) months of the continuing education requirements for renewal of an active license; and  

c. Paying a fee equivalent to the difference between the current inactive fee and the active renewal fee.

04. **Return to Active Status of License Inactive for More Than Five (5) Years.** An inactive license holder whose license has been inactive for more than five (5) years may convert from inactive to active license status by:

a. Making written application to the Board on a form prescribed by the Board.  

b. Providing an account to the Board for that period of time during which the license was inactive and fulfilling requirements that demonstrate competency to resume practice. Those requirements may include, but are not limited to, education, supervised practice, and examination as determined by the Board. The Board may consider practice in another jurisdiction in determining competency.  

c. Paying a fee equivalent to the difference between the current inactive fee and the active renewal fee.

05. **Clinical Nutrition Certificate Expires.** If a licensee holds a clinical nutrition certificate and places their license on inactive status, the clinical nutrition certificate is immediately canceled as though the license was not timely renewed as provided in Section 703 of these rules.

06. **Reissuance of Clinical Nutrition Certificate.** An inactive license holder who held a clinical nutrition certificate at the time their license was placed on inactive status who returns to active license status pursuant to this rule may be reissued a clinical nutrition certificate by showing proof of compliance with the provisions of Sections 704, 705, and 706 that apply to their situation.

301. -- 349. (RESERVED)

350. **CONTINUING EDUCATION.**
All licensees must comply with the following continuing education requirements:

01. **Requirement.** Applicants for renewal shall be required to complete a minimum of eighteen (18) hours of continuing education within the preceding twelve (12) months, as approved by the Board.

a. Continuing education credit will only be given for actual time in attendance or for the time spent participating in the educational activity.  

b. The educational setting may include a classroom, conference/seminar, on-line, or a virtual classroom.  

c. If the licensee completes two (2) or more courses having substantially the same content during any one (1) renewal period, the licensee only will receive continuing education credit for one (1) of the courses.

02. **Documentation.** Each licensee shall maintain documentation verifying continuing education attendance and curriculum for a period of five (5) years from the date of completion. This documentation will be subject to audit by the Board.
a. Documented evidence of meeting the continuing education requirement shall be in the form of a certificate or letter from the sponsoring entity that includes verification of attendance by the licensee, the title of the activity, the subject material covered, the dates and number of hours credited, and the presenter’s full name and professional credentials.
   
   b. A licensee must submit the verification documentation to the Board if requested by the Board. In the event a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the licensee may be subject to disciplinary action.

03. Waiver. The Board may waive the requirements of this rule for reasons of individual hardship including health or other good cause. The licensee should request the waiver in advance of renewal and must provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board.

04. Carryover of Continuing Education Hours. Continuing education hours not claimed in the current renewal year may be claimed in the next renewal year. Hours may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year.

05. Exemption. A licensee is exempt from the continuing education requirements under this section for the period between the initial issuance or the original license and the first expiration date of that license.

06. Continuing Education Activities. The following educational activities qualify for continuing education:
   
a. Post-graduate education courses, germane to chiropractic practice as approved by the Board.
   
b. Attendance at Board meetings.

351. APPROVAL OF CONTINUING EDUCATION COURSES.

01. Approved Continuing Education Courses. Approved continuing education courses shall be those courses, programs, and activities that are germane to the practice of chiropractic, as defined in Sections 54-704(1) and (2), Idaho Code, and meet the general requirements and content requirements of these rules, and are approved, sponsored, or provided by the following entities or organizations, or otherwise approved by the Board:
   
a. Council of Chiropractic Education (CCE) approved chiropractic college or university, a college or university accredited by a nationally recognized accrediting agency as recognized by the United States Secretary of Education or an educational program approved by the Board;
   
b. Providers of Approved Continuing Education (PACE);
   
c. National and state chiropractic associations; and
   
d. Provider Course Approval. Other courses that may be approved by the Board based upon documentation submitted by a continuing education provider. Requests for approval of courses made by the provider must be submitted on a form approved by the Board that includes:
   
i. The nature and subject of the course and how it is germane to the practice of chiropractic;
   
ii. The name of the instructor(s) and their qualifications;
   
iii. The date, time, and location of the course;
   
iv. The specific agenda for the course;
v. The number of continuing education hours requested; (7-1-21)T
vi. The procedures for verification of attendance; and (7-1-21)T
vii. Other information as may be requested by the Board. (7-1-21)T
viii. Upon review of all information requested, the Board may deny any request for a course that does not meet the requirements of Idaho law or rule. Board approval of a course shall be granted for a period not to exceed two (2) years or until the course materials or instructors are changed, whichever may occur first. (7-1-21)T

02. Licensee Course Approval. Other courses that may be approved by the Board based upon documentation submitted by the licensee. All requests for approval must be made to the Board in writing and include the nature and subject of the course and its relevancy to the practice of chiropractic, name of instructor(s) and their qualifications, date, time and location of the course, and procedures for verification of attendance. (7-1-21)T

352. -- 399. (RESERVED)

400. APPROVED SCHOOLS OF CHIROPRACTIC.

01. Requirement for Approval. (7-1-21)T
a. The Board will consider a school, college, or university in good standing only if such school, college, or university conforms to the requirements of “recognized candidate for accreditation,” or “accredited” of the Council of Chiropractic Education or any foreign country college which meets equivalent standards as determined by the Board and teaches accredited courses in all the subjects set forth in Section 54-709(1)(b), Idaho Code. (7-1-21)T
b. Regardless of the Council on Chiropractic Education status, the Board may make additional requirements for approval as a reputable school, college or university of Chiropractic. (7-1-21)T

02. New Schools. Those graduates of new schools of chiropractic will only be accepted for licensure application provided the school reaches “recognized candidate for accreditation” status with the Council on Chiropractic Education within one year following the first graduating class. (7-1-21)T

401. -- 449. (RESERVED)

450. ADVERTISEMENTS.

01. Prohibited Advertising. No chiropractor shall disseminate or cause the dissemination of any advertisement or advertising which is any way fraudulent, false, deceptive or misleading. Any advertisement or advertising shall be deemed by the board to be fraudulent, false, deceptive, or misleading if it: (7-1-21)T
a. Is likely to deceive, defraud, or harm the public; or (7-1-21)T
b. Uses false or misleading statement(s) regarding a chiropractor’s skill or the efficacy or value of the chiropractic medicine, treatment, or remedy prescribed by a chiropractor or at a chiropractor’s direction in the treatment of any disease or other condition of the body or mind. (7-1-21)T

451. -- 549. (RESERVED)

550. CHIROPRACTIC ASSISTANTS.

01. Chiropractic Physician Responsible and Liable. The chiropractic physician shall be responsible and liable for: (7-1-21)T
a. Direct personal supervision; (7-1-21)T
b. Any acts of the assistant in the performance of chiropractic practice; (7-1-21)T

c. Proper training and capabilities of the chiropractic assistant before authorization is given to perform any chiropractic practice. (7-1-21)T

02. **Chiropractic Assistant Limitations.** A chiropractic assistant shall not:

a. Manipulate articulations; (7-1-21)T

b. Provide diagnostic results or interpretations to the patient; (7-1-21)T

c. Provide treatment advice to any patient without instructions from the supervising Chiropractic Physician. (7-1-21)T

551. **CHIROPRACTIC INTERN.**

01. **Chiropractic Physician Responsible and Liable.** The chiropractic physician shall be responsible and liable for:

a. Direct personal supervision of the intern; (7-1-21)T

b. Any acts of the intern in the performance of chiropractic practice; (7-1-21)T

c. Determining that the intern possesses sufficient training and capabilities before authorization is given to perform any chiropractic practice. (7-1-21)T

02. **Chiropractic Intern Limitations.** A chiropractic intern shall not:

a. Perform any chiropractic practice independently, but must perform all such practice under the direct personal supervision of a licensed Chiropractic Physician; (7-1-21)T

b. Provide diagnostic results or interpretations to the patient prior to consultation with the supervising Chiropractic Physician; (7-1-21)T

c. Provide treatment advice to any patient without instructions from the supervising Chiropractic Physician. (7-1-21)T

552. **TEMPORARY PRACTICE PERMITS.**

When an original application for license or internship is accepted by the board as being fully completed, in accordance with the requirements of the Idaho Chiropractic Physician Law and these Rules, a temporary permit to practice may be issued.

01. **Supervision Required.** A permit holder may work only when under the direct personal supervision of a chiropractic physician currently licensed in Idaho. The name, address and signature of the supervising chiropractic physician shall appear on the application. (7-1-21)T

02. **Only One Permit May Be Issued.** Only one (1) permit may be issued under any circumstances to any individual. (7-1-21)T

03. **Validity of Temporary Permits.** Temporary permit to practice will be valid for a period not to exceed twelve (12) months and only:

a. In the case of an applicant for Idaho licensure, until the results of the next scheduled examination have been released. No work permit will be issued to an applicant who has previously failed an examination for licensure in this or any other state, territory, possession, or country more than once. Failure to sit for the next scheduled examination will invalidate the work permit and no further permits will be issued. (7-1-21)T
b. In the case of an intern, until the scheduled date of graduation from an approved school of chiropractic. Upon original application for licensure in Idaho, the intern permit may be extended by the board until the results of the next scheduled examination have been released. No work permit will be issued to an applicant who has previously failed an examination for licensure in this or any other state, territory, possession, or country more than once. Failure to sit for the next scheduled examination will invalidate the work permit and no further permits will be issued. (7-1-21)

553. -- 604. (RESERVED)

605. CODE OF ETHICS.
Chiropractic physicians are responsible for maintaining and promoting ethical practice in accordance with the ethical principles set forth in Appendix A in these rules. (7-1-21)

606. -- 699. (RESERVED)

700. CLINICAL NUTRITION CERTIFICATION AND PRACTICE.

01. Non-Certified Clinical Nutritional Practice. Clinical nutritional methods as referenced in Section 54-704(1), Idaho Code, include, but are not limited to, the clinical use, administration, recommendation, compounding, prescribing, selling, and distributing non-prescription vitamins, minerals, botanical medicine, herbas, homeopathic, phytonutrients, antioxidants, enzymes and glandular extracts, and durable and non-durable medical goods and devices. Nothing herein shall allow any deviation from Section 54-704(3), Idaho Code. (7-1-21)

02. Certified Clinical Nutritional Practice. The Board may issue clinical nutrition certification to a chiropractic physician licensed by the Board who successfully completes the minimum education and complies with requirements in Chapter 7, Title 54, Idaho Code governing clinical nutrition certification and the requirements of Sections 700 through 706. (7-1-21)

701. (RESERVED)

702. REQUIREMENTS FOR CLINICAL NUTRITION CERTIFICATION.
The Board may grant clinical nutrition certification to a licensee who completes an application, pays the applicable fees and meets the following requirements:

01. General.

a. Hold and maintain a current, active, unrestricted license as a chiropractic physician issued by the Board. (7-1-21)

b. Not have been on probation or otherwise disciplined by the Board or by any other licensing board or regulatory entity; provided the applicant may make written request to the Board for an exemption review to determine the applicant's suitability for certification, which the Board shall determine in accordance with the following:

i. The exemption review shall consist of a review of any documents relating to the probation or discipline and any supplemental information provided by the applicant bearing upon the applicant's suitability for certification. The Board may, at its discretion, grant an interview of the applicant. During the review, the Board shall consider the following factors or evidence:

1. The severity or nature of the violation(s) resulting in probation or discipline;
2. The period of time that has passed since the violation(s) under review;
3. The number or pattern of violations or other similar incidents;
4. The circumstances surrounding the violation(s) that would help determine the risk of repetition;
(5) The relationship of the violation(s) to the practice of chiropractic or any health care profession, including but not limited to, whether the violation(s) related to clinical practice, involved patient care, a violation of any state or federal law, rule or regulation relating to controlled substances or to a drug, substance or product identified in Section 54-704(3)(b), Idaho Code; (7-1-21)T

(6) The applicant's activities since the violation(s) under review, such as employment, education, participation in treatment, payment of restitution, or any other factors that may be evidence of current rehabilitation; and (7-1-21)T

(7) Any other mitigating or aggravating circumstances. (7-1-21)T

ii. The applicant shall bear the burden of establishing current suitability for certification. (7-1-21)T

c. Successfully complete the requirements of Section 54-717, Idaho Code, and Section 702.(7-1-21)T

d. Written verification of current health care provider cardiopulmonary resuscitation (CPR) certification. Health care provider CPR certification must be from a course that includes a hands-on skill component as provided by the American Heart Association, American Red Cross, American Health and Safety Institute or similar provider approved by the Board. Written verification of current basic life support (BLS) certification. All chiropractic physicians holding clinical nutrition certification must maintain current health care provider CPR and BLS certification as provided in this Section. (7-1-21)T

e. Certify that the chiropractic physician has BLS equipment on the premises where clinical nutrition treatment is being performed. BLS equipment shall include at a minimum: (7-1-21)T

i. Rescue breathing equipment. (7-1-21)T

ii. Oxygen. (7-1-21)T

iii. Epinephrine. (7-1-21)T

f. Certify that the chiropractic physician possesses and will provide to patients informed consent documentation that explains the benefits and potential risks of the specific course of intravenous or injectable nutrition therapy that is being proposed and that the physician will in advance obtain from the patient written voluntary permission to perform the proposed therapy in accordance with Section 54-717(7), Idaho Code. (7-1-21)T

g. Payment of all fines, costs, fees or other amounts that are due and owing to the Board or in compliance with a payment arrangement with the Board is required to be eligible for clinical nutrition certification pursuant to Sections 700 through 706. (7-1-21)T

02. Didactic Education Requirement. Provide a certificate or other evidence acceptable to the Board of successful completion of a minimum of seven (7) credits (seventy-seven (77) hours) of didactic human nutrition, nutrition biochemistry, and nutritional pharmacology courses. The certificate or other evidence of successful completion must be provided directly to the Board by the educational institution. (7-1-21)T

a. Chiropractic physicians licensed by the Board who apply for clinical nutrition certification may be determined to have satisfied the didactic education requirements only if they present a certificate or other evidence acceptable to the Board pursuant to this Section demonstrating they commenced obtaining the didactic education required by this Section no earlier than three (3) years prior to applying for clinical nutrition certification and thereafter successfully completed the requirements. (7-1-21)T

03. Practicum Requirement. Provide a certificate or other evidence acceptable to the Board of successful completion of a minimum of twenty-four (24) hours of practicums in intravenous and injectable nutrient therapy, which must include: sterile needle practices, phlebotomy, proper injection techniques, intravenous therapy techniques, intramuscular injection techniques, safety practices, and use and expected outcomes utilizing micronutrients, response to adverse effects, lab testing, and blood chemistry interpretation. (7-1-21)T
a. After July 1, 2019, the practicum of any applicant for clinical nutrition certification required by this Section must not have commenced more than two (2) years prior to the date of application for clinical nutrition certification and be successfully completed thereafter. (7-1-21)

04. Accredited Institution and Program Requirement. The courses and practicum required by Subsections 702.02 and 702.03 must be taken from an accredited chiropractic college or other accredited institution of higher education. In addition the courses and practicum must be from an accredited program at the college or institution or be a program approved by the Board.

a. For purposes of this Section “accredited” means accredited by an accrediting agency recognized by the United States Department of Education. (7-1-21)

b. For purposes of this Section “approved by the Board” means a program that is a “recognized candidate for accreditation,” has “initial accreditation” status or “preaccreditation” status by an accrediting body recognized by the United States Department of Education, or is substantially equivalent to a program having that status. (7-1-21)

c. An applicant for clinical nutrition certification shall bear the burden to demonstrate their education and training in clinical nutrition meets the requirements of this Section, including both the accredited institution and accredited program requirements. (7-1-21)

05. Audit of Compliance with Clinical Nutrition Certification and Recertification Requirements. The Board may conduct audits to confirm that licensees meet the requirements to maintain clinical nutrition certification and recertification. In the event a licensee audited by the Board fails to provide documentation or other evidence acceptable to the Board of meeting the clinical nutrition certification or recertification requirements as verified to the Board as part of their annual license renewal or the recertification process the matter will be referred to Division’s investigative unit for investigation and potential disciplinary proceedings by the Board. (7-1-21)

06. Requirement to Maintain Supporting Documentation. A licensee need not submit documentation to the Board with a chiropractic license renewal application verifying qualifications for annual issuance of clinical nutrition certification pursuant to Section 703, or verifying qualifications to recertify clinical nutrition certification pursuant to Section 706. However, a licensee must maintain documentation for a period of five (5) years verifying the licensee has satisfied the requirements. A licensee must submit the documentation to the Board if the annual reissuance or the recertification is audited. All documentation must include the licensee’s name, and as applicable, the date the course or other required activity commenced and was completed, provider name, course title and description, length of the course/activity, and other information required by the Board. (7-1-21)

703. ANNUAL ISSUANCE OF CLINICAL NUTRITION CERTIFICATION WITH LICENSE RENEWAL.

01. Expiration Date. Chiropractic physicians’ clinical nutrition certification expires on the expiration date of their chiropractic license and must be issued annually with the renewal of their license pursuant to Section 350. The Board shall waive the clinical nutrition certification fee in conjunction with the first timely renewal of the chiropractic license after initial clinical nutrition certification. (7-1-21)

02. Issuance. Clinical nutrition certification shall be issued annually by timely submission of a chiropractic license renewal application, payment of the chiropractic license renewal fee, the clinical nutrition certification fee, any amounts owing pursuant to Subsection 702.01.g., and verifying to the Board that the licensee is in compliance with the requirements for clinical nutrition certification as provided in the Board’s laws and rules. (7-1-21)

03. Failure to Comply with Issuance Requirements.

a. If a licensee with clinical nutrition certification fails to verify meeting clinical nutrition certification annual issuance requirements when renewing their chiropractic physician license the clinical nutrition certification is canceled and the chiropractic physician license will be renewed without clinical nutrition certification. (7-1-21)
b. If a licensee with clinical nutrition certification fails to timely renew their chiropractic physician license their clinical nutrition certification is canceled. (7-1-21)

c. Clinical nutrition certification canceled pursuant to this Section may be reissued within three (3) years in accordance with Section 704. (7-1-21)

704. REISSUANCE OF CANCELLED CLINICAL NUTRITION CERTIFICATION.

01. Reissuance. Clinical nutrition certification canceled pursuant to Subsection 703.03 may be reissued within three (3) years of cancellation as follows: (7-1-21)

a. Submission of a reissuance application and payment of the current clinical nutrition certification fee. (7-1-21)

b. Submission of any other documents required by the Board for reissuance including but not limited to: (7-1-21)

i. Documentation of holding current licensure as a chiropractic physician from the Board meeting the requirements of Section 702. (7-1-21)

ii. Documentation of compliance with clinical recertification requirements in accordance with Section 706. (7-1-21)

iii. Documentation of current health care provider CPR and BLS certification and certification that the chiropractic physician has BLS equipment on the premises where clinical nutrition treatment is performed and that informed consent and voluntary permission to perform the proposed therapy are being used in accordance with Section 702. (7-1-21)

705. CLINICAL NUTRITION CERTIFICATION CANCELLED FOR OVER THREE (3) YEARS.

Clinical nutrition certification canceled for a period of more than three (3) years may not be reissued. The chiropractic physician so affected shall be required to make application to the Board in compliance with Section 701 and Section 702 and pay the application and other fees for new clinical nutrition certification. The applicant shall be reviewed by the Board and considered as follows: (7-1-21)

01. Current Competency and Training. The chiropractic physician shall fulfill requirements as determined by the Board that demonstrate the chiropractic physician’s competency to regain clinical nutrition certification in this state. Such requirements may include, but are not limited to, education, supervised practice, and examination, including some or all education, training and other requirements for original clinical nutrition certification as set forth in Section 54-717, Idaho Code, and Section 702. (7-1-21)

02. New Clinical Nutrition Certification. Chiropractic Physicians who fulfill the conditions and requirements of this Section may be granted a new clinical nutrition certification. (7-1-21)

706. CLINICAL NUTRITION RECERTIFICATION REQUIREMENT.

01. Recertification in Clinical Nutrition Every Three (3) Years. After Initial certification in clinical nutrition, chiropractic physicians must recertify in clinical nutrition every three (3) years in order to maintain clinical nutrition certification. (7-1-21)

02. Annual Verification of Meeting Requirements. In order to maintain clinical nutrition certification pursuant to Section 54-717, Idaho Code, and Section 700, chiropractic physicians having clinical nutrition certification must annually verify, along with their chiropractic license renewal, pursuant to Subsection 706.01 by attesting to the Board they are in compliance with the requirements to recertify in clinical nutrition the following: (7-1-21)

a. Completion within the three (3) years prior to required recertification of a twelve (12) hour in
person face to face classroom course from an institution and program meeting Section 702.04 accreditation requirements. The course must include both didactic education and practical review and practice of contemporary developments and best practices to maintain core competency in the practice of clinical nutrition as set forth in Section 54-716, Idaho Code, and Section 54-717, Idaho Code.

b. Current licensure as a chiropractic physician issued by the Board meeting the requirements of Section 702.

c. Current health care provider CPR and BLS certification and that BLS equipment is maintained on the premises where clinical nutrition treatment is performed pursuant to Section 702.

d. They possess and will provide to patients informed consent documentation that explains the benefits and potential risks of the specific course of intravenous or injectable nutrition therapy that is being proposed and that the physician will in advance obtain from the patient written voluntary permission to perform the proposed therapy in accordance with Section 54-717(7), Idaho Code.

03. Recertification is in Addition to Required Annual Continuing Education. The twelve (12) hour recertification course requirement is in addition to the annual eighteen (18) hours of continuing education required under Section 350.

04. Failure to Timely Recertify in Clinical Nutrition. Clinical nutrition certification not timely recertified in accordance with Section 706 shall expire and be canceled. Clinical nutrition certification canceled for failure to recertify may be reissued within three (3) years in accordance with Section 704.

707. OBTAINING AND INDEPENDENTLY ADMINISTERING CLINICAL NUTRITION PRESCRIPTION DRUG PRODUCTS.

A chiropractic physician with clinical nutrition certification as defined by Sections 54-704(4), 54-716 and 54-717, Idaho Code, may obtain and independently administer prescription drug products in the practice of chiropractic subject to the conditions below.

01. Current Certification in Clinical Nutrition Required. Only chiropractic physicians who hold current certification in clinical nutrition by the Board may obtain and independently administer prescription drug products during chiropractic practice.

02. Obtain Prescription Drugs Products from the Formulary. A chiropractic physician with clinical nutrition certification may not obtain a prescription drug product that is not listed in the chiropractic clinical nutrition formulary.

03. Only Administer Prescription Drug Products from the Formulary. Chiropractic physicians with clinical nutrition certification may only administer those prescription drug products listed in the chiropractic clinical nutrition formulary.

a. Chiropractic physicians with clinical nutrition certification shall not prescribe, dispense, distribute, or direct to a patient the use of a prescription drug product except as allowed in Section 54-704(5), Idaho Code.

04. Routes of Administration and Dosing of Prescription Drug Products. Prescription drug products listed in the chiropractic clinical nutrition formulary may be administered through oral, topical, intravenous, intramuscular or subcutaneous routes by a chiropractic physician with clinical nutrition certification. The route of administration and dosing shall be in accordance with the product’s labeling as approved by the federal food and drug administration or with the manufacturer’s instructions.

05. Practice Limited to Chiropractic Physicians with Clinical Nutrition Certification. Chiropractic interns, chiropractic assistants, holders of chiropractic temporary practice permits and others working under the authority or direction of a chiropractic physician may not perform any practice or function requiring clinical nutrition certification.
06. Sale, Transfer, or Other Distribution of Prescription Drugs Prohibited. Chiropractic physicians with clinical nutrition certification may obtain and administer prescription drug products to a patient only in accordance with this Section 707. Chiropractic physicians may not prescribe, sell, transfer, dispense, or otherwise distribute prescription drug products to any person or entity. Prescription drug products not administered to a patient shall be handled in accordance with Subsections 708.05, 708.06, and 708.07. (7-1-21)T

708. CLINICAL NUTRITION FORMULARY.
Chiropractic physicians certified in clinical nutrition may obtain and independently administer, during chiropractic practice, only the prescription drug products listed in this chiropractic clinical nutrition formulary and subject to the provisions hereof. (7-1-21)T

01. Chiropractic Clinical Nutrition Prescription Drug Formulary. Prescription drug products that may be used by chiropractic physicians with clinical nutrition certification are limited to the following: (7-1-21)T
a. Vitamins: vitamin A, all B vitamins and vitamin C; (7-1-21)T
b. Minerals: ammonium molybdate, calcium, chromium, copper, iodine, magnesium, manganese, potassium, selenium, sodium, and zinc; (7-1-21)T
c. Fluids: dextrose, lactated ringers, plasma lyte, saline, and sterile water; (7-1-21)T
d. Epinephrine; and (7-1-21)T
e. Oxygen for use during an emergency or allergic reaction. (7-1-21)T

02. Sources of Clinical Nutrition Prescription Drug Products. Prescription drug products listed in the chiropractic clinical nutrition formulary shall be obtained only by a chiropractic physician with clinical nutrition certification and only from a source licensed under Chapter 17, Title 54, Idaho Code, that is a wholesale distributor, a manufacturer, a pharmacy, compounding pharmacy, or an outsourcing facility and from no other source. (7-1-21)T

03. No Compounding of Prescription Drug Products. No vitamin or mineral may be compounded, as defined in Section 54-1705, Idaho Code, by a chiropractic physician. A compounded drug product containing two (2) or more of the vitamins or minerals approved in the chiropractic clinical nutrition formulary shall be obtained for office use by a chiropractic physician with clinical nutrition certification only from an outsourcing facility licensed under Chapter 17, Title 54, Idaho Code or compounding pharmacy and from no other source. A chiropractic physician may not obtain or use in chiropractic practice a compounded drug product containing a prescription drug product that is not included in the chiropractic clinical nutrition formulary. (7-1-21)T

04. Limitations on Possession of Prescription Drug Products. Possession of prescription drug products without a valid prescription drug order by chiropractic physicians licensed pursuant to Chapter 7, Title 54, Idaho Code, and certified pursuant to Sections 54-708, and 54-717, Idaho Code, or their agents or employees shall be limited to: (7-1-21)T
a. Only those prescription drug products listed in Sections 54-716, Idaho Code, and in the chiropractic clinical nutrition formulary; (7-1-21)T
b. Only those quantities reasonably required for use in the usual and lawful course of the chiropractic physician’s clinical nutrition practice based on the patient panel size and history of orders. (7-1-21)T

05. Prescription Drug Product Storage. Clinical nutrition prescription drugs must be stored in accordance with United States Pharmacopeia-National Formulary requirements in an area maintained and secured appropriately to safeguard product integrity and protect against product theft or diversion. (7-1-21)T

06. Expired, Deteriorated, Adulterated, Damaged, or Contaminated Prescription Drug Products. Expired, deteriorated, adulterated, damaged, or contaminated prescription drug products must be removed from stock and isolated for return, reclamation or destruction. (7-1-21)T
07. Compliance with Federal and State Requirements. In addition to the requirements of the Idaho Chiropractic Practice Act and rules of the Board, chiropractic physicians shall comply with all federal and state laws, rules and policies governing possession, storage, record keeping, use, and disposal of prescription drug products.

709. Medical Waste. Chiropractic physicians certified in clinical nutrition must dispose of medical waste during the practice of chiropractic clinical nutrition according to the following protocol:

01. Containers for Non-Sharp, Medical Waste. Medical waste, except for sharps, must be placed in disposable containers/bags that are impervious to moisture and strong enough to preclude ripping, tearing, or bursting under normal conditions of use. The bags must be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport. The containment system must have a tight-fitting cover and be kept clean and in good repair. All bags used for containment of medical waste must be clearly identified by label or color, or both.

02. Containers for Sharps. Sharps must be placed in impervious, rigid, puncture-resistant containers immediately after use. After use, needles must not be bent, clipped or broken by hand. Rigid containers of discarded sharps must either be labeled or colored like the disposable bags used for other medical waste, or placed in such labeled or colored bags and disposed of according to container guidelines.

710. -- 999. (RESERVED)

Appendix A – Chiropractic Physicians Code of Ethics

PREAMBLE

This code of ethics set forth principles for the ethical practice of chiropractic. All chiropractic physicians are responsible for maintaining and promoting ethical practice and otherwise complying with the terms of this code of ethics. To this end, the chiropractic physician shall act in the best interest of the patient. This code of ethics shall be binding on all chiropractic physicians.

1. Duty to Report

   A. Duty to Report. It shall be the duty of every licensee to notify the Board through the Division of Occupational and Professional Licenses of any violation of the Chiropractic Act or Board Rules, if the licensee has personal knowledge of the conduct.

   B. Reporting of Certain Judgments to Board. If a judgment is entered against a licensee in any court, or a settlement is reached on a claim involving malpractice exceeding fifty thousand dollars ($50,000), a licensee shall report that fact to the Board within thirty (30) days. The licensee may satisfy the provision of this subsection if he/she provides the Board with a copy of the judgment or settlement.

   If a licensee is convicted of a felony or a crime involving dishonesty, theft, violence, habitual use of drugs or alcohol, or sexual misconduct, he/she shall report that fact to the board within thirty (30) days following the conviction.

2. Advertising of Research Projects

   Advertisement of Affiliation with Research Projects. If a licensee advertises any affiliation with a research project, he must make a written statement of the objectives, cost and budget of the project, and the person conducting the research. Such statements are to be made available at the request of the Board, to scientific organizations, and to the general public. The advertisement must indicate that it is supported by clinical research. Any willful failure to comply with these requirements will be deemed false and deceptive advertising under rule 450. Licensee must comply with all state and federal laws and regulations governing research projects on humans, and shall obtain “Institutional Review Board” (IRB) approval as established and set forth in the U.S. Code of Federal Regulations, Title 45, Part 46, Subpart A (45 CFR 46.101-46-505).
3. Sexual Misconduct

The doctor-patient relationship requires the chiropractic physician to exercise utmost care that he or she will do nothing to exploit the trust and dependency of the patient. Sexual misconduct is a form of behavior that adversely affects the public welfare and harms patients individually and collectively. Sexual misconduct exploits the doctor-patient relationship and is a violation of the public trust. This section of the Code of Ethics shall not apply between a chiropractor and their spouse.

For the purposes of this subsection, sexual misconduct is divided into sub-categories based upon the severity of the conduct:

A. Sexual Impropriety. Any behavior such as gestures, expressions, and statements which are sexually suggestive or demeaning to a patient, or which demonstrate a lack of respect for a patient's privacy.

B. Sexual Violation. Physician-patient contact of a sexual nature, whether initiated by the physician or the patient.

C. A chiropractic physician shall wait at least one (1) year ("waiting period") following the termination of a professional doctor-patient relationship, before beginning any type of sexual relationship with a former patient.

4. Prepaid Funds

A chiropractic physician shall promptly refund any unearned fees within thirty (30) days upon request and cancellation of the prepaid contract. A full accounting of the patient account shall be provided to the patient at the time of the refund or upon request.
24.04.01 – RULES OF THE BOARD OF REGISTRATION FOR PROFESSIONAL GEOLOGISTS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-2808, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of geology in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.
For the purposes of these rules, the following definitions apply:

01. Geologist-in-Training. The interim designation given to any person who has met the academic requirements and successfully passed the fundamentals of geology portion of the professional examination but has not yet completed the requisite years of experience and passed the practices of geology examination. (7-1-21)

02. Registrant. Any person currently registered as a professional geologist. (7-1-21)

03. Responsible Position. A position wherein a person, having independent control, direction, or supervision of a geological project, investigates and interprets geologic features. (7-1-21)

04. Responsible Charge. Means the control and direction of geology work, requiring initiative, professional skill, independent judgment, and professional knowledge of the content of relevant documents during their preparation. (7-1-21)

011. -- 099. (RESERVED)

100. GENERAL PROVISIONS.

01. Certificates. Certificates of registration shall be issued to each Registrant on forms adopted by the Board. Certificates shall be displayed by Registrants in their place of business. (7-1-21)

02. Seals. The Board has adopted a seal for use by each Registrant. The seal may be a rubber stamp, crimp, or electronically generated image. Whenever the seal is applied, the Registrant’s signature and date shall also be included. If the signature is handwritten, it shall be adjacent to or across the seal. No further words or wording are required. A facsimile signature generated by any method will not be acceptable unless accompanied by a digital signature. (See “Appendix A” at end of this Chapter.) (7-1-21)

a. The seal, signature, and date shall be placed on all final specifications, reports, information, and calculations, whenever presented. Any such document that is not final and does not contain a seal, signature, and date shall be clearly marked as “Preliminary,” “Draft,” “Not for Construction,” or with similar words to distinguish the document from a final document. (7-1-21)

b. The seal, signature, and date shall be placed on all original documents. The application of the Registrant’s seal, signature, and date shall constitute certification that the work thereon was done by the Registrant or under the Registrant’s supervision. Each plan or drawing sheet shall be sealed and signed by the Registrant or Registrants responsible for each sheet. In the case of a business entity, each plan or drawing sheet shall be sealed and signed by the Registrant or Registrants involved. The supervising professional geologist shall sign and seal the title or first sheet. Copies of electronically produced documents, listed in Paragraph 100.06.b. of these rules, distributed for informational uses such as for bidding purposes or working copies, may be issued with the Registrant’s seal and a notice that the original document is on file with the Registrant’s signature and date. The words “Original Signed By:” and “Date Original Signed:” shall be placed adjacent to or across the seal on the electronic original. The storage location of the original document shall also be provided. Only the title page of reports, specifications, and like documents need bear the seal, signature, and date of the Registrant. (7-1-21)

c. The seal and signature shall be used by the Registrant only when the work being stamped was under the Registrant’s responsible charge. Upon sealing, the Registrant takes full professional responsibility for that work. After-the-fact ratification by the sealing of documents relating to work that was not performed by the Registrant but by an unregistered subordinate or other unregistered individual and without thorough technical review throughout the project by the sealing Registrant is prohibited. (7-1-21)

d. In the event a Registrant in responsible charge of a project leaves employment, is transferred, is
promoted, becomes incapacitated, dies, or is otherwise not available to seal, sign, and date final documents, the duty of responsible charge for the project shall be accomplished by successor Registrant by becoming familiar with and reviewing, in detail, and retaining the project documents to date. Subsequent work on the project must clearly and accurately reflect the successor Registrant’s responsible charge. The successor Registrant shall seal, sign, and date all work product in conformance with Section 54-2815, Idaho Code.

103. Address Change. Each Applicant and Registrant shall notify the Board within sixty (60) days of any and all changes of address, giving both old and new address.

101. -- 149. (RESERVED)

150. FEES.
The fees for registration under the Act shall be the following:

<table>
<thead>
<tr>
<th>FEE TYPE</th>
<th>AMOUNT (Not to Exceed)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application</td>
<td>$100</td>
</tr>
<tr>
<td>Initial Certificate</td>
<td>$20</td>
</tr>
<tr>
<td>Annual Renewal</td>
<td>$60</td>
</tr>
<tr>
<td>Annual Renewal for Registrants Seventy (70) Years of Age or Older</td>
<td>One-half (1/2) of the current renewal fee</td>
</tr>
<tr>
<td>Reinstatement</td>
<td>Is as provided in Section 67-2614, Idaho Code</td>
</tr>
<tr>
<td>Duplicate Certificate</td>
<td>$20</td>
</tr>
<tr>
<td>Examination</td>
<td>Set by ASBOG</td>
</tr>
</tbody>
</table>

151. -- 199. (RESERVED)

200. APPLICATION PROCEDURES.

01. Applications. Applications for registration shall be:

a. On forms prescribed by the Board and accompanied by official transcripts, reference statements, and a signed code of ethics;

b. Received by the Board, if for registration by examination, not less than ninety (90) days prior to the date of examination;

c. Subscribed and certified to by the Applicant under penalty of perjury as provided for by state law; and

d. Incomplete applications will not be accepted by the Board and will be returned to the Applicant with a statement of the reason for return.

02. Dates. The date of application shall be the date it is delivered in person to the Board office or, if mailed, the date shown by post office cancellation mark. Qualifying education and experience of the Applicant, for examination and registration, shall be computed from the date of application as described above.

03. References. Statements from personal references in Responsible Positions concerning the Applicant’s technical ability and personal character, shall be received, as prescribed by the Act, prior to any action by the Board to approve an Application. Each statement must reflect in a positive way the technical and ethical merits of
the Applicant. Applicants for the Fundamentals of Geology examination may fulfill this requirement with reference statements from geologists in Responsible Positions familiar with the ability and character of the Applicant as demonstrated in an academic setting. (7-1-21)

04. **Lack of Activity.** If an applicant fails to respond to a Board request or an application has lacked activity for twelve (12) consecutive months, the application on file with the Board will be deemed denied and will be terminated upon a thirty (30) day written notice, unless good cause is demonstrated to the Board. (7-1-21)

201. -- 299. (RESERVED)

300. **EXAMINATIONS.**
Except as otherwise provided in statute, every Applicant for registration as a professional geologist shall take and pass the complete professional examination for registration as a professional geologist. (7-1-21)

01. **Fundamentals of Geology.** The written examination is the Fundamentals of Geology examination provided by ASBOG. To be eligible to take the Fundamentals of Geology examination, an Applicant must have completed thirty (30) semester units or equivalent quarter units in courses in geological science leading to a degree in the geological sciences of which at least twenty-four (24) units are in third or fourth year, and/or graduate courses. Applicants who can satisfy to the Board that they will have completed the required coursework and number of units and will be graduating at the end of the spring, summer or fall terms of any given year, may be eligible for examination immediately preceding the date of graduation. (7-1-21)

02. **Practice of Geology.** The written examination is the Practice of Geology examination provided by ASBOG. To be eligible to take the Practice of Geology examination an Applicant must have satisfied the education requirements as set forth in Section 54-2812, Idaho Code. (7-1-21)

03. **Authorization.**
   a. The Board shall notify each Applicant in writing of the acceptance or rejection of his Application and, if rejected, the reason for the rejection. (7-1-21)
   b. Not less than ninety (90) days prior to the examination date, the Applicant shall give written notice to the Board of his intent to take the examination and shall submit all applicable testing fees in full. (7-1-21)
   c. Not less than thirty (30) days prior to the examination date, the Board shall give written notice to each Applicant that has previously given written notice and has paid his examination fees, of the date, time, and location(s) of the examination. (7-1-21)

04. **Reexamination.** An Applicant failing their first examination may apply for reexamination without filing a new Application and shall be entitled to such reexamination on payment of the reexamination fee. Provided, however, that it shall be unlawful for an Applicant failing any examination to practice professional geology under the appropriate provisions of the Act. (7-1-21)

05. **Time and Place.** The Board shall make all arrangements necessary to provide sufficient help to conduct examinations and to provide adequate facilities at such locations throughout the state as may be required to accommodate the number of Applicants to be examined upon the dates prescribed by ASBOG. (7-1-21)

06. **Scores.** An Applicant for registration by examination must successfully pass both the Fundamentals of Geology examination and the Practice of Geology examination. (7-1-21)
   a. Every Applicant receiving a scaled score of seventy (70) or more, as determined by ASBOG, on the Fundamentals of Geology examination shall be deemed to have passed the examination, is thereby eligible to receive certification as a Geologist-in-Training. (7-1-21)
   b. Every Applicant receiving a scaled score of seventy (70) or more, as determined by ASBOG, on the Practice of Geology examination shall be deemed to have passed such examination and will be registered as a professional geologist. (7-1-21)
c. Every Applicant receiving a scaled score of less than seventy (70), as determined by ASBOG, on either the Fundamentals of Geology examination or the Practice of Geology examination, shall be deemed to have failed such examination. Every Applicant having failed shall have his Application denied without prejudice, but shall be allowed to retake the failed examination in accordance with Subsection 300.04 of these rules. (7-1-21)

07. Re-Score or Review of Examination. (7-1-21)

a. An Applicant who fails to obtain a passing grade in any portion of the written examination may request a rescore or review of his examination papers at such times, locations, and under such circumstances as may be designated by the Board, ASBOG, or both. (7-1-21)

b. When a review is requested and authorized, at the time of review, no one other than the examinee or his attorney and a representative of the Board shall have access to such examination papers. (7-1-21)

301. -- 399. (RESERVED)

400. GEOLOGIST IN TRAINING. An Applicant who has passed the Fundamentals of Geology examination and satisfied the education requirements set forth in Subsection 300.01 of these rules, will receive a certificate of completion designating the Applicant as a Geologist-in-Training. (7-1-21)

01. Supervised Practice. The possession of a Geologist-in-Training certificate by an Applicant does not entitle the Applicant to practice professional geology without supervision. (7-1-21)

02. Limitation. Designation as a Geologist in Training is limited to a period not to exceed ten (10) years. If after ten (10) years the Geologist-in-Training has not met all requirements for registration as a professional geologist, the Geologist-in-Training certification is withdrawn and the Applicant must re-apply for registration. (7-1-21)

401. -- 999. (RESERVED)

APPENDIX A -- AS REFERENCED IN SECTION 24.04.01.100.06.b.
24.05.01 – RULES OF THE BOARD OF DRINKING WATER AND WASTEWATER PROFESSIONALS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-2406, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of drinking water operators, wastewater operators, and backflow assembly testers. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Class I Restricted License. Class I restricted license means a water or wastewater license associated with a specific class I system. A restricted license is available for water distribution or treatment or for wastewater collection or treatment. A restricted license is not transferable and does not qualify for endorsement. (7-1-21)T

02. DEQ. The Idaho Department of Environmental Quality. (7-1-21)T

03. Direct Supervision. Supervision in a way that will ensure the proper operation and maintenance of the public drinking water or public wastewater system. Supervision shall include, but not be limited to, providing written, hands-on, or oral instruction as well as verification that the instructions are being completed. The supervisor has an active on-site or on-call presence at the specific facility. (7-1-21)T

04. Endorsement. Endorsement (often referred to as “reciprocity”) is that process by which a person licensed in another jurisdiction may apply for a license in Idaho. (7-1-21)T

05. EPA. The United States Environmental Protection Agency. (7-1-21)T

06. Experience. One (1) year of experience is based upon a minimum of one thousand six hundred hours (1,600) worked. (7-1-21)T

07. On-Site Operating Experience. On-site operating experience means experience obtained while physically present at the location of the system. (7-1-21)T

08. Operating Personnel. Operating personnel means any person who is employed, retained, or appointed to conduct the tasks associated with the day-to-day operation and maintenance of a public drinking water system or a public wastewater system. Operating personnel shall include every person making system control or system integrity decisions about water quantity or water quality that may affect public health. (7-1-21)T

09. Person. A human being, municipality, or other governmental or political subdivision or other public agency, or public or private corporation, any partnership, firm, association, or other organization, any receiver, trustee, assignee, agent or other legal representative of the foregoing or other legal entity. (7-1-21)T

10. Responsible Charge Operator. An operator of a public drinking water system or wastewater system, designated by the system owner, who holds a valid license at a class equal to or greater than the drinking water system or wastewater classification, who is in responsible charge of the public drinking water system or the wastewater system. (7-1-21)T

11. Substitute or Back-Up Responsible Charge Operator. An operator of a public drinking water or wastewater system who holds a valid license at a class equal to or greater than the drinking water or wastewater system classification, designated by the system owner to replace and to perform the duties of the responsible charge operator when the responsible charge operator is not available or accessible. (7-1-21)T

12. Very Small Public Drinking Water System. A community or non-transient non-community public water system that serves five hundred (500) persons or less and has no treatment other than disinfection or has only treatment which does not require any chemical treatment, process adjustment, backwashing or media regeneration by an operator (e.g. calcium carbonate filters, granular activated carbon filters, cartridge filters, ion exchangers). (7-1-21)T

13. Very Small Wastewater System. A public wastewater system that serves five hundred (500) connections or less and includes a collection system with a system size of six (6) points or less on the Department of
Environmental Quality (DEQ) system classification rating form and is limited to only one (1) of the following wastewater treatment processes:

a. Aerated lagoons:

b. Non-aerated lagoon(s):

c. Primary treatment; or

d. Primary treatment discharging to a large soil absorption system (LSAS).

101. -- 099. (RESERVED)

100. ORGANIZATION.

At the first meeting of each fiscal year, the Board shall elect from its members a Chairman, who shall assume the duty of the office immediately upon such selection.

101. -- 149. (RESERVED)

150. APPLICATION.

Each applicant for licensure shall submit a complete application together with the required fees. The applicant must provide or facilitate the provision of any supplemental third party documents that may be required. The Board shall not review an application until all required information is furnished and the required fees paid.

01. Licensure by Examination. An application shall be made on the uniform application form adopted by the Board and furnished to the applicant by the Division. All applications shall include:

a. Documentation of having met the appropriate educational requirement;

b. Documentation of all actual applicable experience giving kind and type of work done, together with dates of employment, and verification by affidavit of the most current applicable experience, signed by the person under whose supervision the work was performed.

02. Licensure by Endorsement. An application shall be made on the uniform application form adopted by the Board and furnished to the applicant by the Division. All applications shall include:

a. Official documentation of licensure sent to the Division directly from each regulatory authority from which the applicant has obtained licensure. Such documentation shall note name, address, current status, date originally issued, expiration date, and any disciplinary action imposed;

b. A copy of the current regulations governing licensure in each jurisdiction from which the applicant obtained licensure.

03. Application Required. Applicants seeking licensure in any type or classification of licensure shall submit a separate application for each type and classification of licensure being sought. Applicants holding a current type and classification of license and who are seeking a classification upgrade within the same license type and category shall not be required to submit an original license fee with their application.

151. -- 174. (RESERVED)

175. LICENSE TYPES AND CLASSIFICATIONS.

The Board shall issue each of the following licenses under the provisions of Chapter 24, Title 54, Idaho Code.

01. Drinking Water Distribution Operator.

a. Class Operator-In-Training, Class I Restricted, Class I, Class II, Class III, or Class IV.
02. Drinking Water Treatment Operator. (7-1-21)T
   a. Class Operator-In-Training, Class I Restricted, Class I, Class II, Class III, or Class IV. (7-1-21)T
03. Wastewater Treatment Operator. (7-1-21)T
   a. Class Operator-In-Training, Lagoon, Class I Restricted, Class I, Class II, Class III, Class IV, or Land Application. (7-1-21)T
04. Wastewater Collection Operator. (7-1-21)T
   a. Class Operator-In-Training, Class I Restricted, Class I, Class II, Class III, or Class IV. (7-1-21)T
05. Wastewater Laboratory Analyst. (7-1-21)T
   a. Class I, Class II, Class III, or Class IV. (7-1-21)T
06. Backflow Assembly Tester. (7-1-21)T
07. Drinking Water Very Small System Operator. (7-1-21)T
08. Wastewater Very Small System Operator. (7-1-21)T

176. -- 199. (RESERVED)

200. FEES FOR EXAMINATION AND LICENSURE.
    Application and examination fees are non-refundable.

(7-1-21)T

201. -- 249. (RESERVED)

250. LICENSE REQUIRED -- SCOPE OF PRACTICE.
    All water and wastewater operating personnel, including those in responsible charge and those in substitute responsible charge, of public water systems and public wastewater systems, and all backflow assembly testers, shall be licensed under the provisions of these rules and Chapter 24, Title 54, Idaho Code. (7-1-21)T

   01. Drinking Water Operator Scope. Operating personnel shall only act in accordance with the nature and extent of their license. Those in responsible charge or substitute responsible charge of a public water system must hold a valid license equal to or greater than the classification of the public water system where the responsible charge or substitute responsible charge operator is in responsible charge. The types of water systems are distribution and treatment. (7-1-21)T
02. **Wastewater Operator Scope.** Operating personnel shall only act in accordance with the nature and extent of their license. Those in responsible charge or substitute responsible charge of a public wastewater system shall hold a valid license equal to or greater than the classification of the public wastewater system where the responsible charge or substitute responsible charge operator is in responsible charge. The types of wastewater systems are collection, laboratory analyst, and treatment.

03. **Backflow Assembly Tester.** Individuals licensed as backflow assembly testers may inspect and test backflow prevention assemblies as defined in Title 54, Chapter 24, Idaho Code.

04. **Operator-in-Training.** Operators-in-training shall practice only under the direct supervision of a licensed operator of a type, category, and classification higher than operator-in-training. No operator-in-training shall accept or perform the designated responsible charge duties at any system.

251. -- 299. (RESERVED)

300. **GENERAL REQUIREMENTS FOR LICENSE.** Applicants shall submit an application together with the required fees and such documentation as is required.

01. **Examination Requirement.** Applicants must pass a written examination for each individual classification in each type of licensure with a minimum score of seventy percent (70%).

   a. The examination will reflect different levels of knowledge, ability and judgment required for the established license type and class. The Board will administer examinations at such times and places as the Board may determine.

   b. The examination for all types and classes of licensure shall be validated and provided by the Association of Boards of Certification (ABC). The American Backflow Prevention Association (ABPA) backflow assembly tester examination is also approved for backflow assembly tester licensure.

   c. Applicants who fail an examination must make application to retake the same type and class examination and pay the required examination fees prior to retaking the examination.

   d. Applicants must take and pass the examination within one (1) year of application approval. After one (1) year a new application and applicable fees must be submitted.

02. **Education Requirements.** Documentation must be provided showing proof of education required for the type and level of license being sought.

03. **Experience Requirement.** Only actual verified on-site operating experience at a treatment, distribution or collection system will be acceptable except as may be allowed by substitution as set forth in these rules. Experience as a laboratory analyst can be counted as wastewater operating experience for up to one-half (1/2) of the wastewater operating experience requirement but cannot be counted as responsible charge experience. Experience as a wastewater operator can be counted as laboratory analyst experience for up to one-half (1/2) of the laboratory analyst experience. Applicants shall not receive more than one (1) year of experience for hours worked in excess of one thousand six hundred (1,600) hours in a calendar year unless specifically approved by the Board based upon documentation submitted by the Applicant.

04. **Apprenticeship Program.** The Board may approve Apprenticeship Programs that are designed to provide either experience or experience and education for individuals seeking licensure in Idaho as an Operator-In-Training, or a Class I, II or III Water or Wastewater Operator. A basic Apprenticeship Program is designed to provide hands on experience and education related to the operation of Class I and II facilities. An advanced Apprenticeship Program is designed to provide hands on experience and education related to Class III facilities. All approved Apprenticeship Programs shall be registered with the U.S. Department of Labor, Office of Apprenticeship, meet the Standards of Apprenticeship developed by the U.S. Department of Labor and meet the intent of these rules regarding the education and experience necessary for Operator-In-Training, Class I, II and III licensure. Sponsors of Apprenticeship Programs shall seek Board approval by application along with all supporting documentation.
necessary to establish the program meets the intent of these rules regarding education and experience. The Board may revoke the approval of any program that fails to comply with the Board’s rules. (7-1-21)T

301. -- 309. (RESERVED)

310. REQUIREMENTS FOR OPERATOR-IN-TRAINING LICENSE.
Each applicant for an Operator-In-Training License must meet the following requirements: (7-1-21)T

01. Education. Possess a high school diploma or GED; and (7-1-21)T

02. Examination. Pass the relevant Class I examination or be enrolled in an Apprenticeship Program approved by the Board. (7-1-21)T

311. -- 314. (RESERVED)

315. REQUIREMENTS FOR A VERY SMALL WATER SYSTEM LICENSE.
To qualify for a Very Small Water System license an operator must meet the following requirements: (7-1-21)T

01. Education. Possess a high school diploma or GED and; (7-1-21)T

02. Experience. Document eighty-eight (88) hours of acceptable on-site operating experience at a water system; and (7-1-21)T

a. Complete an approved six-hour water treatment course or an approved six-hour chlorination course or a combination of said approved courses equaling six (6) hours; and (7-1-21)T

b. Complete an approved six-hour water distribution course; and (7-1-21)T

03. Examination. Pass the relevant very small water system examination. (7-1-21)T

316. -- 319. (RESERVED)

320. REQUIREMENTS FOR A VERY SMALL WASTEWATER SYSTEM LICENSE.
To qualify for a Very Small Wastewater System license, an operator must meet the following requirements: (7-1-21)T

01. Education. Possess a high school diploma or GED; and (7-1-21)T

02. Experience. Document fifty (50) hours of acceptable on-site operating experience at a wastewater collection system; and (7-1-21)T

a. Fifty (50) hours of acceptable relevant on-site operating experience at a wastewater treatment system or lagoon; and (7-1-21)T

b. Complete an approved six-hour pumps and motors course or an approved six-hour collection course or a combination of said approved courses equaling six (6) hours; and (7-1-21)T

c. Complete an approved six-hour lagoon operation and maintenance course; or an approved six-hour large soil absorption system course or an approved six-hour wastewater treatment course or a combination of said approved courses equaling six (6) hours; and (7-1-21)T

03. Examination. Pass the relevant lagoon examination. (7-1-21)T

321. -- 324. (RESERVED)

325. REQUIREMENTS FOR CLASS I RESTRICTED WATER OR WASTEWATER LICENSE.
To qualify for a Class I Restricted water or wastewater license an operator must meet the following requirements: (7-1-21)T
01. **Education.** Possess a high school diploma or GED; and (7-1-21)

02. **Experience.** Document two hundred sixty (260) hours of acceptable relevant on-site operating experience during twelve (12) consecutive months with the system and complete sixteen (16) hours of continuing education relevant to the license; and (7-1-21)

03. **Examination.** Pass the relevant Class I examination. (7-1-21)

04. **Restricted License Upgrade.** Upon obtaining one thousand six hundred (1,600) hours of supervised on-site operating experience for each license, the operator shall be eligible to apply for an unrestricted Class I license. There is no limit on the amount of time needed to obtain the necessary experience to qualify for the unrestricted license. A restricted license is limited to a specific system. (7-1-21)

326. -- 327. (RESERVED)

328. **REQUIREMENTS FOR A CLASS I OPERATOR LICENSE.**
To qualify for a Class I operator license an applicant must meet the following requirements: (7-1-21)

01. **Education.** Possess a high school diploma or GED; and (7-1-21)

02. **Experience.** Document one (1) year of acceptable relevant on-site operating experience at a Class I or higher system or successfully complete one (1) year of an Approved Apprenticeship Program; and (7-1-21)

03. **Examination.** Pass the relevant Class I examination. (7-1-21)

329. (RESERVED)

330. **REQUIREMENTS FOR A CLASS II OPERATOR LICENSE.**
To qualify for a Class II license an applicant must meet the following requirements: (7-1-21)

01. **Education.** Possess a high school diploma or GED; and (7-1-21)

02. **Experience.** Document three (3) years of acceptable relevant on-site operating experience at a Class I or higher system or successfully complete an Approved Apprenticeship Program; and (7-1-21)

03. **Examination.** Pass the relevant Class II examination. (7-1-21)

331. -- 334. (RESERVED)

335. **REQUIREMENTS FOR A CLASS III OPERATOR LICENSE.**
To qualify for a Class III license an applicant must meet the following requirements: (7-1-21)

01. **Education.** Possess a high school diploma or GED and two (2) years of post-high school education in the environmental control field, engineering or related science; and (7-1-21)

02. **Experience.** Document four (4) years of acceptable relevant on-site operating experience, including two (2) years of responsible charge of a major segment of a system in the same or next lower class, of a Class I or higher system for collection or distribution or Class II or higher system for treatment or successful completion of an Approved Apprenticeship Program; and (7-1-21)

03. **Examination.** Pass the relevant Class III examination. (7-1-21)

336. -- 339. (RESERVED)

340. **REQUIREMENTS FOR A CLASS IV OPERATOR LICENSE.**
To qualify for a Class IV license an applicant must meet the following requirements; (7-1-21)
01. **Education.** Possess a high school diploma or GED and four (4) years of post-high school education in the environmental control field, engineering or related science; and  

02. **Experience.** Document four (4) years of acceptable relevant on-site operating experience, including two (2) years of responsible charge of a major segment of a system in the same or next lower class, at a Class I or higher system for collection or distribution or Class III or higher system for treatment; and  

03. **Examination.** Pass the relevant Class IV examination.  

341. -- 344. (RESERVED)  

345. **REQUIREMENTS FOR A LAGOON OPERATOR LICENSE.**  
To qualify for a lagoon license, an operator must meet the following requirements:  

01. **Education.** Possess a high school diploma or GED; and  

02. **Experience.** Document twelve (12) consecutive months of acceptable on-site operating experience at a Lagoon system; and  

03. **Examination.** Pass the relevant Lagoon examination.  

346. -- 349. (RESERVED)  

350. **REQUIREMENTS FOR A WASTEWATER LAND APPLICATION LICENSE.**  
To qualify for a Wastewater Land Application license, an operator must meet the following requirements:  

01. **Education.** Possess a high school diploma or GED; and  

02. **Experience.** Document a minimum six (6) months of on-site operating experience at a wastewater land application system; and  

03. **Examination.** Pass the relevant Wastewater Land Application examination; and  

04. **Other.** Possess a wastewater Class I or higher operation license. The wastewater land application operator that is a responsible charge or substitute responsible charge operator must be licensed at the type and class equal to or greater than the classification of the wastewater system.  

351. -- 354. (RESERVED)  

355. **REQUIREMENTS FOR A BACKFLOW ASSEMBLY TESTER LICENSE.**  
To qualify for a backflow assembly tester license, an applicant must meet the following requirements:  

01. **Education.** Possess a high school diploma or GED, and  

02. **Experience.** Document successful completion of a Board-approved backflow assembly tester training program in compliance with the Cross Connection Control Accepted Procedure and Practice Manual and consisting of theory instruction, practical instruction, and a practical examination in compliance with the USC Test procedures; and  

03. **Examination.** Pass the relevant Backflow Assembly Tester examination.  

356. -- 359. (RESERVED)  

360. **REQUIREMENTS FOR WASTEWATER LABORATORY ANALYST LICENSE.**  
To qualify for a wastewater laboratory analyst license, an applicant must meet the following requirements for the relevant class:
01. Class I.
   a. Possess a high school diploma or GED; and
   b. Document one (1) year of acceptable lab experience at a class I or higher system; and
   c. Pass the relevant class I laboratory analyst examination.

02. Class II.
   a. Possess a high school diploma or GED; and
   b. Document three (3) years of acceptable lab experience at a class I or higher system; and
   c. Pass the relevant class II laboratory analyst examination.

03. Class III.
   a. Possess a high school diploma or GED and two (2) years of post-high school education in the environmental control field, engineering or related science; and
   b. Document four (4) years of acceptable lab experience at a class II or higher system; and
   c. Pass the relevant class III laboratory analyst examination.

04. Class IV.
   a. Possess a high school diploma or GED and four (4) years of post-high school education in the environmental control field, engineering or related science; and
   b. Document four (4) years of acceptable lab experience at a class III or higher system; and
   c. Pass the relevant class IV laboratory analyst examination.

361. -- 374. (RESERVED)

375. SUBSTITUTIONS.

01. Substituting Education for Experience. Applicants may substitute approved education for operating and responsible charge experience as specified below.
   a. No substitution for on-site operating experience shall be permitted for licensure as a very small system operator or a Class I operator.
   b. For Classes II, III and IV, substitution shall only be allowed for the required experience when fifty percent (50%) of all stated experience (both on-site operating and responsible charge) has been met by actual on-site operating experience.
   c. For Class II, a maximum of one and one-half (1½) years of post-high school education in the environmental control field, engineering or related science may be substituted for one and one-half (1½) years of operating experience.
   d. For Class III and IV, a maximum of two (2) years of post-high school education in the environmental control field, engineering or related science may be substituted for two (2) years of on-site operating experience; however the applicant for Class III must still have one (1) year of responsible charge experience and the applicant for Class IV must have two (2) years of responsible charge experience.
e. Education substituted for on-site operating experience may not be also credited toward the
education requirement. (7-1-21)T

f. One (1) year of post-high school education may be substituted for one (1) year experience up to a
maximum of fifty percent (50%) of the required on-site operating or responsible charge experience. (7-1-21)T

02. **Substituting Experience for Education.** Where applicable, approved on-site operating and
responsible charge experience may be substituted for education as specified below: (7-1-21)T

a. One (1) year of on-site operating experience may be substituted for two (2) years of grade school or
one (1) year of high school with no limitation. (7-1-21)T

b. For Class III and IV, additional responsible charge experience (that exceeding the two-year class
requirements) may be substituted for post-high school education on a one (1) for one (1) basis: one (1) year additional
responsible charge equal one (1) year post-high school education. (7-1-21)T

03. **Substituting Experience for Experience.** Related experience may be substituted for experience
up to one-half (½) of the operating experience requirement for Class II, III and IV. Experience that may be substituted
includes, but is not limited to, the following: (7-1-21)T

a. Experience as an environmental or operations consultant; (7-1-21)T

b. Experience in an environmental or engineering branch of federal, state, county, or local
government; (7-1-21)T

c. Experience as a wastewater collection system operator; (7-1-21)T

d. Experience as a wastewater treatment plant operator; (7-1-21)T

e. Experience as a water distribution system operator and/or manager; (7-1-21)T

f. One (1) year of post-high school education may be substituted for one (1) year experience up to a
maximum of fifty percent (50%) of the required operating or responsible charge experience. (7-1-21)T

g. Experience in waste treatment operation and maintenance. (7-1-21)T

h. Experience as a laboratory analyst can be counted as wastewater operating experience for up to
one-half (1/2) of the wastewater operating experience requirement but cannot be counted as responsible charge
experience. (7-1-21)T

i. Experience as a wastewater operator can be counted as laboratory analyst experience for up to one-
half (1/2) of the laboratory analyst experience requirement. (7-1-21)T

04. **Equivalency Policy.** Substitutions for education or experience requirements needed to meet
minimum requirements for license will be evaluated upon the following equivalency policies: (7-1-21)T

a. High School - High School diploma equals GED or equivalent as approved by the Board equals
four (4) years. (7-1-21)T

b. College - Thirty (30) credits equal one (1) year (limited to curricula in environmental engineering,
environmental sciences, water/wastewater technology, and/or related fields as determined by the Board). (7-1-21)T

c. Continuing Education Units (CEU) for operator training courses, seminars, related college courses,
and other training activities. Ten (10) classroom hours equal one (1) CEU; forty-five (45) CEUs equal one (1) year of
college. (7-1-21)T
376. -- 399. (RESERVED)

400. ENDORSEMENT.
The board may waive the examination requirements and issue the appropriate license for applicants holding licenses issued by other States that have equivalent license requirements and who otherwise meet the requirements set forth in Subsections 150.02, 150.03, and 150.04. (7-1-21)

401. -- 449. (RESERVED)

450. WASTEWATER GRANDPARENT PROVISION.
The board issued grandparent licenses to wastewater operators who provided documentation satisfactory to the board of being in responsible charge of an existing public wastewater system on or before April 15, 2006. (7-1-21)

  01. Grandparent License. A grandparent license allowed the licensee to operate in responsible charge of the specific facility identified in the original application. The license is site specific and non-transferable and does not grant authority for the holder to practice at any other system in any capacity as an operator. (7-1-21)

  02. License Requirements. A grandparent licensed wastewater operator is required to meet all other requirements including the continuing education and renewal requirements. (7-1-21)

  03. Wastewater System Classification Limitations. The grandparent license shall become invalid any time the classification of the wastewater system changes to a higher classification. (7-1-21)

451. -- 499. (RESERVED)

500. CONTINUING EDUCATION.
In order to further protect the health, safety and welfare of Idaho’s public, and to facilitate the continued competence of persons licensed under the drinking water and wastewater professionals licensing act, the Board has adopted the following rules for continuing education. (7-1-21)

  01. Continuing Education Requirement. Each licensee must successfully complete a minimum of six (6) hours (0.6 CEUs) of approved continuing education annually for license renewal, except that backflow assembly testers shall complete an eight (8) hour refresher course every two (2) years for license renewal. Continuing education must be earned in a subject matter relevant to the field in which the license is issued. A licensee holding one (1) or more drinking water license(s) shall be required to meet the annual continuing education requirement for only one license. A licensee holding one (1) or more wastewater license(s) shall be required to meet the annual continuing education requirement for only one license. A licensee holding both drinking water and wastewater class licenses must complete a minimum of six (6) hours annually for the drinking water license plus six (6) hours annually for the wastewater license. (7-1-21)

    a. Each licensee shall submit to the Board an annual license renewal application form, together with the required fees, certifying by signed affidavit that compliance with the CE requirements have been met. The Board may conduct such continuing education audits and require verification of attendance as deemed necessary to ensure compliance with the CE requirements. (7-1-21)

    b. A licensee shall be considered to have satisfied their CE requirements for the first renewal of their license. (7-1-21)

    c. A water or wastewater licensee may carryover a maximum of six (6) hours of continuing education to meet the next year’s continuing education requirement. The same hours may not be carried forward more than one (1) renewal cycle. (7-1-21)

    d. Continuing Education hours for approved operator training courses, seminars, related college courses, and other training activities may be converted to Continuing Education Units (CEU) as follows: Six (6) classroom hours = point six (0.6) CEU. (7-1-21)

  02. Subject Material. The subject material of the continuing education requirement shall be relevant
to the license for which the continued education is required. “Relevant” shall be limited to material germane to the operation, maintenance and administration of drinking water and wastewater systems as referenced in Chapter 24, Title 54, Idaho Code, and includes those subjects identified in the “need to know” criteria published by the Associations of Boards of Certification.

03. **Course Approval.** All course providers must submit requests for approval of continuing education courses to the Board in writing no less than thirty (30) days prior to the course being offered, on a form approved by the Board that includes:

- The name and qualifications of the instructor or instructors;
- The date, time and location of the course;
- The specific agenda for the course;
- The type and number of continuing education credit hours requested;
- A statement of how the course is believed to be relevant as defined;
- Any certificate of approval from a governmental agency if the course has been previously approved for continuing education;
- The training materials;
- Other information as may be requested by the Board.

Upon review of all information requested, the Board may either approve or deny any request for a course. Board approval of a course shall be granted for a period not to exceed five (5) years or until the course materials or instructors are changed.

04. **Approved Courses.** Those continuing education courses which are relevant and approved by the states of Nevada, Oregon, Montana, Utah, Wyoming, and Washington are deemed approved by the Board.

05. **Verification of Attendance.** It shall be necessary for each licensee to maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any and all hours attended by the licensee. This verification shall be maintained by the licensee and provided upon request of the Board or its agent.

06. **Distance Learning and Independent Study.** The Board may approve a course of study for continuing education credit that does not include the actual physical attendance of the licensee in a face-to-face setting with the course instructor. The licensee shall maintain documentation of the nature and details of the course and evidence that the licensee successfully completed the course, which shall be made available to the Board upon request.

07. **Failure to Fulfill the Continuing Education Requirements.** The license will not be renewed for those licensees who fail to certify or otherwise provide acceptable documentation of meeting the CE requirements. Licensees who make a false attestation regarding compliance with the CE requirements shall be subject to disciplinary action by the Board.

08. **Exemptions.** The Board may waive the continuing education requirement or extend the deadline up to ninety (90) days for any one or more of the following circumstances. The licensee must request the exemption and provide any information requested to assist the Board in making a determination. An exemption may be granted at the sole discretion of the Board.

   a. The licensee is a resident of another jurisdiction recognized by the Board having a continuing professional education requirement for licensure renewal and has complied with the requirements of that state or district.
b. The licensee is a government employee working outside the continental United States. (7-1-21)

c. The licensee documents individual hardship, including health (certified by a medical doctor) or other good cause. (7-1-21)

501. -- 599. (RESERVED)

600. RENEWAL OR REINSTATEMENT OF LICENSE.

01. Expiration Date. All licenses expire and must be renewed annually on forms approved by the Board in accordance with Section 67-2614, Idaho Code. Licenses not so renewed will be cancelled in accordance with Section 67-2614, Idaho Code. (7-1-21)

02. Reinstatement. Any license cancelled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code, with the exception that the applicant shall submit proof of having completed the total number of required continuing education for each year the license or certificate was cancelled. (7-1-21)

03. Operator-in-Training License. Applicants for the operator-in-training license shall, upon compliance with the requirements of Subsections 300.01 and 300.02, be issued a “one-time” non-renewable license for the purpose of gaining supervised experience as an operator-in-training (OIT). This license will be valid for three (3) years from the date of issue. (7-1-21)

04. Backflow Assembly Testers. Backflow assembly testers shall complete a Board-approved eight (8) hour refresher course every two (2) years for license renewal. (7-1-21)

05. Wastewater Land Application License. Wastewater land application licenses shall not be renewed unless the licensee also maintains a current wastewater treatment license. (7-1-21)

601. -- 649. (RESERVED)

650. BACKFLOW ASSEMBLY TESTER CODE OF ETHICS AND STANDARDS OF CONDUCT.

All backflow assembly tester licensees shall comply with the Idaho Backflow Assembly Tester Code of Ethics and Standards of Conduct as approved by the Board and attached to these rules as Appendix A. (7-1-21)

651. -- 699. (RESERVED)

700. DISCIPLINE.

01. Civil Fine. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensee for each violation of Chapter 24, Title 54, Idaho Code. (7-1-21)

02. Costs and Fees. The Board may order a licensee to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Chapter 24, Title 54, Idaho Code. (7-1-21)

701. -- 999. (RESERVED)

APPENDIX A

IDAHO BACKFLOW ASSEMBLY TESTER CODE OF ETHICS AND STANDARDS OF CONDUCT

The purpose of this rule is to protect public health by setting minimum requirements and standards for licensed Backflow Assembly Testers in Idaho who inspect and field test backflow assemblies, backflow prevention devices and air gaps that protect public water systems.

1. Code of Ethics -- A licensed Backflow Assembly Tester shall:

---

Section 600 Page 3633
a. At all times, act in accordance with his/her primary obligation to perform his/her duties with due care and diligence to protect the safety, health and welfare of the public;

b. Comply with the laws and rules governing Backflow Assembly Testers and all applicable state and federal laws and regulations relating to backflow assembly testing;

c. Perform only those duties consistent with and appropriate to his/her experience, training, skills, abilities, and licensure; and

d. Be objective and truthful in all professional reports, statements, or testimony and include all relevant and pertinent information in such reports, statements or testimony.

2. Definitions:

a. Backflow Prevention Assembly: an approved assembly such as a Double Check Valve Assembly (DCVA), a Pressure Vacuum Breaker Assembly (PVBA), a Reduced Pressure Backflow Assembly (RPBA), or a Spill-Resistant Pressure Vacuum Breaker Assembly (SVBA) used for the protection of the public water supply according to the provisions of IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems,” as administered by DEQ.

b. Backflow Prevention Device: an approved device such as an Atmospheric Vacuum Breaker (AVB), which does not contain valves or test ports, or a method, such as an air gap, that is utilized to prevent cross connections to a public water supply.

c. Calibration/Verification: the annual verification, calibration, or both of a backflow assembly field test kit by an instrument calibration laboratory/facility or by a person qualified to verify and calibrate a field test kit such as a manufacturer, dealer licensed to calibrate or verify field test kits, or calibration technician.

d. Customer: means the owner of the property or his/her authorized or appointed agent.

e. Field Test Kit: an instrument, either mechanical or electronic in design, and all related fittings, tools, equipment and appurtenances necessary to perform field verification tests on backflow prevention assemblies.

3. Standards of Conduct

a. Principle 1 -- A Backflow Assembly Tester shall act only within the scope of practice as set forth in the Board’s laws and rules. A Backflow Assembly Tester must use due care and diligence in performing his/her duties.

b. Principle 2 -- When conducting inspections and field tests of backflow prevention assemblies, a Backflow Assembly Tester must use test procedures that comply with standard field test procedures.

c. Principle 3 -- The Backflow Assembly Tester shall observe or inspect existing installations of backflow prevention assemblies to identify whether the assembly is properly installed and whether, in the opinion of the Backflow Assembly Tester, the assembly is adequate and appropriate for the degree of hazard posed to the Public Water System having jurisdiction over the assembly.

i. A Backflow Assembly Tester must report improperly installed assemblies to the customer and the Public Water System having jurisdiction over the backflow prevention assembly and also must note the discrepancy on the test report and submit the test report to the customer and the Public Water System having jurisdiction over the backflow prevention assembly.

ii. A Backflow Assembly Tester must note discrepancies regarding inadequate or inappropriate backflow prevention assemblies on the test report and submit the test report to the customer and the Public Water System having jurisdiction over the backflow prevention assembly.

d. Principle 4 -- A Backflow Assembly Tester shall use a properly working and calibrated field test kit
that meets the requirements of the Pacific Northwest Section of the American Water Works Association Cross Connection Control Manual, Seventh Edition, November 2012. When requested by a Public Water System, a Backflow Assembly Tester shall submit the most recent calibration report that verifies the accuracy of the field kit. When requested by a Public Water System, a Backflow Assembly Tester shall submit proof of current licensure in Idaho as a Backflow Assembly Tester.

e. Principle 5 -- The Backflow Assembly Tester must competently use a field test kit, all tools, and other equipment and appurtenances necessary to inspect and field test backflow prevention assemblies, inspect air gaps and backflow prevention devices.

f. Principle 6 -- When a backflow prevention assembly passes a field test, the Backflow Assembly Tester shall submit within fifteen (15) business days of performing the field test a passing test report to the customer and the Public Water System having jurisdiction over the backflow prevention assembly.

g. Principle 7 -- When a backflow prevention assembly is defective or fails to pass the field test, the Backflow Assembly Tester shall submit immediately, if possible, but no later than within two (2) business days, a failing field test report to the customer and the Public Water System having jurisdiction over the backflow prevention assembly.

h. Principle 8 -- The Backflow Assembly Tester shall complete a test report for each backflow prevention assembly for which the Backflow Assembly Tester conducts a field test. A test report must be legible and contain all relevant and pertinent information pertaining to the field test including, at a minimum, the make, model, size, serial number, orientation, and test results for each test conducted.

i. A Backflow Assembly Tester shall record data and sign test reports only for backflow prevention assemblies for which the Backflow Assembly Tester has personally conducted the field test.

ii. A Backflow Assembly Tester shall not falsify the results of a backflow prevention assembly field test or inspection.
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-3717(2), Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of occupational therapy in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Client-Related Tasks. Client-related tasks are routine tasks during which the aide may interact with the client but does not act as a primary service provider of occupational therapy services. (7-1-21)

02. Direct Line-of-Sight Supervision. Direct line-of-sight supervision requires the supervisor’s physical presence when services are being provided to clients by the individual under supervision. (7-1-21)

03. Direct Supervision. Direct supervision requires daily, in-person contact by the supervisor at the site where services are provided to clients by the individual under supervision. (7-1-21)

04. Evaluation. Evaluation is the process of obtaining and interpreting data necessary for treatment, which includes, but is not limited to, planning for and documenting the review, specific observation, interviewing, and administering data collection procedures, which include, but are not limited to, the use of standardized tests, performance checklists, and activities and tasks designed to evaluate specific performance abilities. (7-1-21)

05. General Supervision. General Supervision requires in-person or synchronous interaction at least once per month by an occupational therapist and contact by other means as needed. Other means of contact include, but are not limited to, electronic communications such as email. (7-1-21)

06. Routine Supervision. Routine Supervision requires in-person or synchronous interaction at least once every two (2) weeks by an occupational therapist and contact by other means as needed. Other means of contact include, but are not limited to, electronic communications such as email. (7-1-21)

011. SUPERVISION.
An occupational therapist shall supervise and be responsible for the patient care given by occupational therapy assistants, limited permit holders, aides, and students. An occupational therapist’s or occupational therapy assistant’s failure to provide appropriate supervision in accordance with these rules is grounds for discipline. (7-1-21)

01. Occupational Therapy Assistants. Occupational therapy assistants must be supervised by an occupational therapist. General Supervision must be provided at a minimum. (7-1-21)

02. Limited Permit Holders. Limited permit holders must be supervised by an occupational therapist or occupational therapy assistant. Direct supervision must be provided at a minimum. The occupational therapist is responsible for the overall use and actions of the limited permit holder. (7-1-21)

03. Occupational Therapy Aides. Occupational therapy aides do not provide skilled occupational therapy services. An aide must be trained by an occupational therapist or an occupational therapy assistant to perform specifically delegated tasks. The occupational therapist is responsible for the overall use and actions of the aide. The occupational therapist must oversee the development, documentation, and implementation of a plan to supervise and routinely assess the ability of the occupational therapy aide to carry out non-client related and client-related tasks. The occupational therapy assistant may contribute to the development and documentation of this plan. (7-1-21)

a. The following factors must be present when an occupational therapist or occupational therapy assistant assigns a selected client-related task to the aide: (7-1-21)

   i. The outcome of the assigned task is predictable; (7-1-21)

   ii. The situation of the client and the environment is stable and will not require that judgment, interpretations, or adaptations be made by the aide; (7-1-21)

   iii. The client has demonstrated some previous performance ability in executing the task; and
IV. The task routine and process have been clearly established.

b. Before assigning client-related and non-client related tasks to an aide, the occupational therapist or occupational therapy assistant must ensure that the aide is able to competently perform the task.

c. The occupational therapist or occupational therapy assistant must train the aide to perform client-related and non-client related tasks at least once per month.

d. An aide must perform client-related tasks under the direct line-of-sight supervision of an occupational therapist or occupational therapy assistant.

e. Occupational therapists and occupational therapy assistants must document all training and supervision of an aide.

04. Students. Students must be under the direct on-site supervision of an occupational therapist or occupational therapy assistant who is appropriately supervised by an occupational therapist. The occupational therapist is responsible for the overall use and actions of the student.

05. Supervision Requirements. Supervision is the direction and review of service delivery, treatment plans, and treatment outcomes. Unless otherwise specified in this rule, General Supervision is the minimum level of supervision that must be provided. Methods of supervision may include, but are not limited to, Direct Line-of-Sight Supervision, Direct Supervision, Routine Supervision, or General Supervision, as needed to ensure the safe and effective delivery of occupational therapy.

a. An occupational therapist and an occupational therapy assistant must ensure the delivery of services by the individual being supervised is appropriate for client care and safety and must evaluate:

i. The complexity of client needs;

ii. The number and diversity of clients;

iii. The skills of the occupational therapist assistant, aide, or limited permit holder;

iv. The type of practice setting;

v. The requirements of the practice setting; and

vi. Other regulatory requirements applicable to the practice setting or delivery of services.

b. Supervision must be documented in a manner appropriate to the supervised position and the setting. The documentation must be kept as required by Section 013 of these rules.

c. Supervision must include consultation at appropriate intervals regarding evaluation, intervention, progress, reevaluation and discharge planning for each patient. Consultation must be documented and signed by the supervisor and supervisee.

012. DEEP THERMAL, ELECTROTHERAPEUTIC, MECHANICAL PHYSICAL AGENT MODALITIES, AND WOUND CARE.

01. Qualifications. Except as provided in Subsection 012.02 of these rules, a person may not utilize occupational therapy techniques involving deep thermal, electrotherapeutic, or mechanical physical agent modalities or perform wound care management unless the person is licensed by the Board as an occupational therapist and certified by the Hand Therapy Commission. In lieu of being certified by the Hand Therapy Commission, the person must have obtained education and training as follows.
a. If the person utilizes techniques involving deep thermal, electrotherapeutic, or mechanical physical agent modalities, the person must have successfully completed thirty (30) contact hours in the application of deep thermal, electrotherapeutic modalities, and mechanical physical agent modalities, along with forty (40) hours of supervised, on-the-job or clinical internship or affiliation training pertaining to such modalities. (7-1-21)T

b. If the person manages wound care, the person must have successfully completed fifteen (15) contact hours in wound care management, along with forty (40) hours of supervised, on-the-job or clinical internship or affiliation training pertaining to wound care management. (7-1-21)T

c. If the person utilizes both deep thermal, electrotherapeutic, or mechanical physical agent modalities and manages wound care, the forty (40) hours of supervised components may be obtained concurrently. (7-1-21)T

02. Obtaining Education and Supervised Training. A student occupational therapist, graduate occupational therapist, and an occupational therapist may utilize deep thermal, electrotherapeutic, or mechanical physical agent modalities or manage wound care while working towards obtaining the education and supervised training described in Section 012 of these rules. The supervisor must provide at least direct supervision to the student occupational therapist, and at least routine supervision to the graduate occupational therapist or occupational therapist. An occupational therapy assistant may apply deep thermal, electrotherapeutic, or mechanical physical agent modalities under routine supervision if the occupational therapy assistant has obtained the education and training described in this section. Otherwise, the occupational therapy assistant must work under direct line-of-sight supervision while applying such modalities. (7-1-21)T

03. Supervised Training by Qualified Individual. The supervised training described in Section 012 of these rules must be provided by an occupational therapist who is qualified pursuant to Subsection 012.01, or by another type of licensed health care practitioner whose education, training, and scope of practice enable the practitioner to competently supervise the person as to the modalities utilized and wound care management provided. (7-1-21)T

013. RECORD KEEPING. Occupational therapists and occupational therapy assistants must maintain adequate records that are consistent with the standard business practices of the setting in which the licensee is providing occupational therapy or supervision and that show necessary client care, supervision provided by the licensee, and compliance with regulatory requirements applicable to the setting. (7-1-21)T

014. -- 019. (RESERVED)

020. GENERAL QUALIFICATIONS FOR LICENSURE.

01. Applicant. The Board may refuse licensure if it finds the applicant has engaged in conduct prohibited by Section 54-3718, Idaho Code; provided, the Board shall take into consideration the rehabilitation of the applicant and other mitigating circumstances. (7-1-21)T

02. Education. Each applicant shall provide evidence of successful completion of the academic requirements of an educational program in occupational therapy that is accredited by the American Occupational Therapy Association’s Accreditation Council for Occupational Therapy Education (ACOTE), or by a predecessor or successor organization recognized by the United States Secretary of Education, the Council for Higher Education Accreditation, or both. (7-1-21)T

03. Examination. Each applicant shall either pass an examination required by the Board or shall be entitled to apply for licensure by endorsement or limited permit. (7-1-21)T

a. The written examination shall be the examination conducted by the National Board for Certification in Occupational Therapy, Inc. (NBCOT) and the passing score shall be the passing score established by the NBCOT. (7-1-21)T

b. An applicant for licensure by examination who fails to pass the examination on two (2) attempts must submit a new application. (7-1-21)T
021. APPLICATION FOR LICENSURE.

01. Licensure by Endorsement. An applicant may be eligible for licensure without examination if he or she meets all of the other qualifications prescribed in Section 54-3709, Idaho Code, and also holds a current valid license or registration from some other state, territory or district of the United States, or certified by the National Board for Certification in Occupational Therapy providing they meet Idaho standards and are equivalent to the requirements for licensure pursuant to these rules. (7-1-21)T

02. Limited Permit. The Board may issue a Limited Permit to a graduate occupational therapist or graduate occupational therapy assistant who meets the requirements set forth by Sections 54-3706(1) and 54-3706(2), Idaho Code, who has not yet passed the examination as required in Paragraph 020.04.a. of these rules. (7-1-21)T

   a. A Limited Permit shall only allow a person to practice occupational therapy in association with and under the supervision of a licensed occupational therapist. (7-1-21)T
   b. A Limited Permit shall be valid six (6) months from the date of issue. (7-1-21)T
   c. A Limited Permit may be extended by the Board for good cause. (7-1-21)T

04. Temporary License. The Board may issue a temporary license to a person applying for licensure as an occupational therapist or an occupational therapy assistant if the person is currently licensed and in good standing to practice in another jurisdiction and meets that jurisdiction’s requirements for licensure by endorsement. (7-1-21)T

   a. A temporary license shall automatically expire once the Board has processed the person’s application for licensure and issued or denied the applied-for license, or in six (6) months after the date on which the Board issued the temporary license, whichever is sooner. (7-1-21)T

05. Personal Interview. The Board may, at its discretion, require the applicant to appear for a personal interview. (7-1-21)T

022. WRITTEN STATEMENT OF SUITABILITY FOR LICENSURE.

An applicant who, or whose license, has a criminal conviction, finding of guilt, withheld judgment, or suspended sentence for any crime under any municipal, state, or federal law other than minor traffic offenses, or has been subject to discipline by any state professional regulatory agency or professional organization must submit with the application a written statement and any supplemental information establishing the applicant’s current suitability for licensure. (7-1-21)T

01. Consideration of Factors and Evidence. The Board shall consider the following factors or evidence:

   a. The severity or nature of the crime or discipline; (7-1-21)T
   b. The period of time that has passed since the crime or discipline under review; (7-1-21)T
   c. The number or pattern of crimes or discipline or other similar incidents; (7-1-21)T
   d. The circumstances surrounding the crime or discipline that would help determine the risk of repetition; (7-1-21)T
   e. The relationship of the crime or discipline to the practice of occupational therapy; (7-1-21)T
   f. The applicant's activities since the crime or discipline under review, such as employment, education, participation in treatment, payment of restitution, or any other factors that may be evidence of current rehabilitation; and (7-1-21)T
g. Any other information regarding rehabilitation or mitigating circumstances. (7-1-21)T

02. Interview. The Board may, at its discretion, grant an interview of the applicant. (7-1-21)T

03. Applicant Bears the Burden. The applicant shall bear the burden of establishing the applicant’s current suitability for licensure. (7-1-21)T

023. -- 024. (RESERVED)

025. CONTINUING EDUCATION. In order to protect public health and safety and promote the public welfare, the Board has adopted the following continuing education requirement of all licensees: (7-1-21)T

01. Requirement. Each licensee shall successfully complete, in the twelve (12) months preceding license renewal, a minimum of ten (10) contact hours of continuing education, as approved by the Board. (7-1-21)T

a. One (1) contact hour is equivalent to one (1) clock hour for the purpose of obtaining continuing education. (7-1-21)T

b. The Board shall waive the continuing education requirement for the first license renewal after initial licensure. (7-1-21)T

02. Attestation. The licensee must attest, as part of the annual license renewal process, that the licensee is in compliance with the continuing education requirement. (7-1-21)T

03. Courses and Activities. At least five (5) contact hours must directly relate to the delivery of occupational therapy services. The remaining contact hours must be germane to the practice of occupational therapy and relate to other areas of a licensee’s practice. A licensee may take online or home study courses or self-competency assessments, as long as a course completion certificate is provided. (7-1-21)T

a. The delivery of occupational therapy services may include: models, theories or frameworks that relate to client care in preventing or minimizing impairment, enabling function within the person/environment or community context. (7-1-21)T

b. Other areas may include, but are not limited to, occupation based theory assessment/interview techniques, intervention strategies, and community/environment as related to the licensee’s practice. (7-1-21)T

c. Continuing education acceptable to the Board includes, but is not limited to, programs or activities sponsored by the American Occupational Therapy Association (AOTA), the Idaho Occupational Therapy Association (IOTA), or National Board for Certification in Occupational Therapy (NBCOT); post-professional coursework completed through any approved or accredited educational institution; or otherwise meet all of the following criteria: (7-1-21)T

i. The program or activity contributes directly to professional knowledge, skill, and ability; (7-1-21)T

ii. The program or activity relates directly to the practice of occupational therapy; and (7-1-21)T

iii. The program or activity must be objectively measurable in terms of the hours involved. (7-1-21)T

04. Carry Over and Duplication. A maximum of ten (10) continuing education hours may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year. If the licensee completes two (2) or more courses having substantially the same content during any one (1) renewal period, the licensee only will receive continuing education credit for one (1) of the courses. (7-1-21)T

05. Documentation. A licensee need not submit documentation of continuing education when the licensee renews a license. However, a licensee must maintain documentation verifying that the licensee has completed the continuing education requirement for a period of four (4) years from the date of completion. A licensee
must submit the verification documentation to the Board if the licensee is audited by the Board. A percentage of occupational therapists and certified occupational therapy assistants will be audited every year. Documentation for all activities must include licensee’s name, date of activity or when course was completed, provider name, course title, description of course/activity, and number of contact hours.

a. Continuing education course work. The required documentation for this activity is a certificate or documentation of attendance.

b. In-service training. The required documentation for this activity is a certificate or documentation of attendance.

c. Professional conference or workshop. The required documentation for this activity is a certificate or documentation of attendance.

d. Course work offered by an accredited college or university, provided that the course work is taken after the licensee has obtained a degree in occupational therapy, and the course work provides skills and knowledge beyond entry-level skills or knowledge. The required documentation for this activity is a transcript.

e. Publications. The required documentation for this activity is a copy of the publication.

f. Presentations. The required documentation for this activity is a copy of the presentation or program listing. Any particular presentation may be reported only once per reporting period.

g. Interactive online courses and evidence-based competency assessments. The required documentation for this activity is a certificate or documentation of completion.

h. Development of instructional materials incorporating alternative media such as video, audio and/or software programs to advance professional skills of others. The required documentation for this activity is a program description. The media/software materials must be available if requested during audit process.

i. Professional manuscript review. The required documentation for this activity is a letter from the publishing organization verifying review of manuscript. A maximum of five (5) hours is allowed per renewal period for this category.

j. Guest lecturer for occupational therapy related academic course work (academia not primary role). The required documentation for this activity is a letter or other documentation from instructor.

k. Serving on a professional board, committee, disciplinary panel, or association. The required documentation for this activity is a letter or other documentation from the organization. A maximum of five (5) hours is allowed per renewal period for this category.

l. Level II fieldwork direct supervision of an occupational therapy student or occupational therapy assistant student by site designated supervisor(s). The required documentation for this activity is the name of student(s), letter of verification from school, and dates of fieldwork.

06. Exemptions. A licensee may request an exemption from the continuing education requirement for a particular renewal period for reasonable cause. The licensee must provide any information requested by the Board to assist in substantiating the licensee’s need for a claimed exemption.

026. -- 029. (RESERVED)

030. INACTIVE STATUS.

01. Request for Inactive Status. Occupational Therapists and Occupational Therapy Assistants requesting an inactive status during the renewal of their active license must submit a written request and pay the established fee.
02. Inactive License Status. (7-1-21)T
   a. Licensees may not practice in Idaho while on inactive status. (7-1-21)T
   b. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing or supervising in Idaho, subject to Subsection 030.03 of these rules. (7-1-21)T

03. Reinstatement to Full Licensure from Inactive Status. (7-1-21)T
   a. Return to Active Status of License - Inactive for Five (5) or Fewer Years. An inactive license holder whose license has been inactive for five (5) or fewer years may convert from inactive to active license status by:
      i. Providing documentation to the Board showing successful completion within the previous twelve (12) months of the continuing education requirements for renewal of an active license; and (7-1-21)T
      ii. Paying a fee equivalent to the difference between the current inactive fee and the active renewal fee. (7-1-21)T
   b. Return to Active Status of License - Inactive for Greater than Five (5) Years. An inactive license holder whose license has been inactive for greater than five (5) years may convert from inactive to active license status by:
      i. Providing documentation to the Board showing successful completion within the previous twelve (12) months of the continuing education requirements for renewal of an active license; and (7-1-21)T
      ii. Providing proof that the licensee has actively engaged in the practice of occupational therapy in another state or territory of the United States for at least three (3) of the immediately preceding five (5) years, or provide proof that the licensee is competent to practice in Idaho. (7-1-21)T
      iii. The Board may consider the following factors when determining proof of competency: (7-1-21)T
         (1) Number of years of practice prior to transfer from active status; (7-1-21)T
         (2) Employment in a field similar to occupational therapy; and (7-1-21)T
         (3) Any other factors the Board deems appropriate. (7-1-21)T

031. (RESERVED)

032. DENIAL OR REFUSAL TO RENEW, SUSPENSION OR REVOCATION OF LICENSE.

   01. Grounds for Discipline. In addition to the grounds set forth in Section 54-3718, Idaho Code, applicants may be denied or refused licensure and licensees are subject to discipline upon the following grounds, including but not limited to: (7-1-21)T
       a. Obtaining a license by means of fraud, misrepresentation, or concealment of material facts; (7-1-21)T
       b. Being guilty of unprofessional conduct or violating the Code of Ethics in Appendix A, incorporated herein by reference governing said licensees, including the provision of health care which fails to meet the standard of health care provided by other qualified licensees in the same community or similar communities, taking into account the licensee’s training, experience and the degree of expertise to which he holds himself out to the public; (7-1-21)T
       c. The unauthorized practice of medicine; (7-1-21)T
d. Failure to properly supervise persons as required in these rules. 

02. **Penalties.** In addition to any other disciplinary sanctions the Board may impose against a licensee, the Board may impose a fine of up to one thousand dollars ($1,000) per violation, or in such greater amount as the Board may deem necessary to deprive the licensee of any economic advantage gained by the licensee through the conduct that resulted in discipline and that reimburses the Board for costs of the investigation and disciplinary proceedings.

(7-1-21)T
000. **LEGAL AUTHORITY.**
These rules are promulgated pursuant to Section 54-3003, Idaho Code. (7-1-21)T

001. **SCOPE.**
These rules govern the practice of landscape architecture in Idaho. (7-1-21)T

002. **INCORPORATION BY REFERENCE.**

003. -- 100. (RESERVED)

101. **APPROVED EDUCATION.**
An approved college or school of landscape architecture shall have a landscape architecture program accredited by the Landscape Architectural Accreditation Board (LAAB), or shall substantially meet the accrediting standards of the LAAB as may be determined by the Board. (7-1-21)T

102. **PRACTICAL EXPERIENCE IN LIEU OF EDUCATION.**
An applicant shall document at least eight (8) years of actual practical experience in landscape architecture in lieu of graduation from an approved college or school of landscape architecture. Such experience shall establish the applicant’s education in those subjects and areas contained in the curriculum of an approved college or school of landscape architecture. No less than fifty percent (50%) of such practical experience shall be under the supervision of a licensed landscape architect. (7-1-21)T

103. -- 199. (RESERVED)

200. **APPLICATION.**
Each applicant for licensure shall submit a complete application together with the required fees to the Board. An application shall be made on the uniform application form adopted by the Board and furnished to the applicant by the Division. An application shall not be reviewed by the Board until all required information is furnished and the required fees paid. (7-1-21)T

201. **APPLICATION FORM.**

01. **Materials Submitted to Board.** All required applications, statements, fees and other documentation must be submitted to the Board in care of the Division of Occupational and Professional Licenses, and shall include:

a. Either certification of graduation from an approved college or school of landscape architecture; or (7-1-21)T

b. Documentation of all actual landscape architectural or other applicable experience signed by the person under whose supervision the work was performed, giving kind and type of work done, together with dates of employment; and (7-1-21)T

c. Proof of successful passage of an examination approved by the Board. (7-1-21)T

202. -- 249. (RESERVED)

250. **LANDSCAPE ARCHITECT-IN-TRAINING.**
An individual may represent themselves as a landscape architect-in-training only under the following conditions:

01. **Qualifications.** Any person who is at least eighteen (18) years of age and has graduated from an approved college or school of landscape architecture, or who documents at least eight (8) years of actual practical experience in landscape architecture approved by the Board. (7-1-21)T

02. **Supervision.** Each landscape architect-in-training shall be employed by and work under the direct supervision of an Idaho licensed landscape architect. Any change in supervision shall require a new application and registration. (7-1-21)T
03. **Prohibitions.** A landscape architect-in-training shall not sign or seal any plan, specification, or other document, and shall not engage in the practice of landscape architecture except under the direct supervision of an Idaho licensed landscape architect.

04. **Registration.** Each landscape architect-in-training shall register with the Board on forms provided by the Division of Occupational and Professional Licenses that shall include the application fee and the names and addresses of their employer, and supervisor.

05. **Termination.** A registration for a landscape architect-in-training shall not exceed a total of six (6) years.

251. -- 299. (RESERVED)

300. **EXAMINATIONS.**

The examination prepared by the Council of Landscape Architectural Registration Boards is an approved examination. The Board may approve other examinations it deems appropriate.

01. **Minimum Passing Score.** The minimum passing score for each section of the examination shall be the score as determined by the examination provider.

02. **Failing a Section of Exam.** An applicant failing any section of the examination will be required to retake only that section failed.

301. (RESERVED)

302. **ENDORSEMENT.**

The Board may approve the registration and licensure of an applicant who holds a current license in another state and who has successfully passed the Landscape Architect Registration Examination as required by Section 300 or holds a current Council of Landscape Architectural Registration Boards certificate.

303. -- 399. (RESERVED)

400. **FEES.**

Fees are not refundable.

401. -- 424. (RESERVED)

425. **RULES OF PROFESSIONAL RESPONSIBILITY.**

01. **Rules of Professional Responsibility.** The CLARB model rules of professional conduct, as incorporated, are the Rules of Professional Responsibility for all Idaho licensed landscape architects.

02. **Violation of the Rules of Professional Responsibility.** The Board will take action against a
licensee under Section 54-3004(5), Idaho Code, who is found in violation of the Rules of Professional Responsibility. (7-1-21)T

426. -- 449. (RESERVED)

450. DISCIPLINE.

01. Civil Fine. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed landscape architect for each violation of Section 54-3004, Idaho Code. (7-1-21)T

02. Costs and Fees. The Board may order a licensed landscape architect to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Section 54-3004, Idaho Code. (7-1-21)T

451. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The following rules are promulgated pursuant to Section 54-1106 and 54-1107, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of morticians, funeral directors, and funeral establishments in Idaho. (7-1-21)

002. -- 249. (RESERVED)

250. RESIDENT TRAINEE.
A Resident Trainee is a person who is licensed to train, under the direct and immediate supervision of a sponsoring mortician, to become a licensed mortician or funeral director. (7-1-21)

01. Training Requirements. (7-1-21)

a. Full-time employment requires that the Resident Trainee be employed for at least thirty-six (36) hours per week for fifty (50) weeks per year within the Idaho mortuary where the Resident Trainee’s sponsoring mortician is practicing. (7-1-21)

i. At least three-fourths (3/4) of the Resident Trainee’s training must consist of the sponsoring mortician instructing and demonstrating practices and procedures to increase the Resident Trainee’s knowledge of the service performed by a mortician or a funeral director as defined in Chapter 11, Title 54, Idaho Code. (7-1-21)

ii. For the balance of the required hours, the sponsoring mortician, or his licensed appointee, must be immediately available to consult with the Resident Trainee. (7-1-21)

b. All training must occur within Idaho. (7-1-21)

c. A Resident Trainee shall not sign a death certificate. (7-1-21)

02. Sponsoring Mortician. A sponsoring mortician must: (7-1-21)

a. Be an Idaho-licensed mortician who practices in Idaho. (7-1-21)

b. Not serve as the sponsoring mortician for more than two (2) “Resident Trainees at any given time.” (7-1-21)

c. Supervise and instruct the Resident Trainee, and provide demonstrations for and consultations to the Resident Trainee, as described in Subsection 250.01, of this rule. (7-1-21)

d. Complete and co-sign, with the Resident Trainee, quarterly and final reports. These reports must be completed on forms approved by the Board and document the information described in Subparagraphs 250.04.c. and 250.04.d., of this rule. The sponsoring mortician must promptly submit a report after the period of time covered by the report ends. (7-1-21)

e. Promptly notify the Board in writing if a Resident Trainee’s training is terminated, including termination due to interruption as specified in Subsection 250.05, of this rule and submit a final report documenting training up to the termination date. (7-1-21)

03. Eligibility to Be Licensed. For purposes of accounting for total cumulative training as a Resident Trainee, the sponsoring mortician must notify the Division at the beginning and termination of the training period. When a Resident Trainee completes training, the Resident Trainee must complete the remaining qualifications for licensure as a mortician or funeral director within the following three (3) years or show good reason for further delay. (7-1-21)

251. -- 299. (RESERVED)

300. APPLICATIONS AND EXAMINATION.
In order to be admitted to the examination, the applicant must submit a completed application on forms provided by the Division and provide all requested documentation including proof of having completed the training period as prescribed by law and these rules, and meet the specific requirements for license as set forth in Section 54-1109 of the Idaho Code. (7-1-21)
325. APPROVED EXAMINATION.
Applicants for licensure shall successfully pass the examinations set forth below.

01. Mortician Examination. The Mortician examination shall consist of:
   a. All sections of the International Conference of Funeral Service Examining Board’s National Board Examination; and
   b. The examination of the laws and rules of the state of Idaho relating to the care, disinfection, preservation, burial, transportation, or other final disposition of human remains; and the rules of the Department of Health and Welfare relating to infectious diseases and quarantine.

02. Funeral Director. The funeral director examination shall consist of:
   a. The Arts section of the State Based Examination conducted by the International Conference of Funeral Service Examination Board; and
   b. The examination of the laws and rules of the state of Idaho relating to the care, disinfection, preservation, burial, transportation, or other final disposition of human remains; and the rules of the Department of Health and Welfare relating to infectious diseases and quarantine.

03. Grading. The required average grade to pass the examination is seventy-five percent (75%). Provided further, that where the applicant has a score of less than seventy percent (70%) in one (1) or more subjects, such applicant shall not be passed, notwithstanding that his average mark may be higher than seventy-five percent (75%), however, should the applicant apply for reexamination he may, by board approval, be required to retake only that portion of the examination which he failed in previous examination.

380. INACTIVE LICENSE.

01. Request for Inactive License. Persons holding an unrestricted mortician or funeral director license in this state may apply for inactive status by making written application to the Board on a form prescribed by the Board and paying the established fee.

02. Inactive License Status.
   a. If a licensee holds a certificate of authority and places their license on inactive status, their certificate of authority expires as of the date their license becomes inactive.
   b. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing or supervising in Idaho.

03. Return to Active License Status. An inactive license holder may convert from inactive to active license status by:
   a. Providing documentation to the Board showing successful completion within the previous twelve (12) months of the continuing education requirements for renewal of an active license; and
   b. Paying a fee equivalent to the difference between the current inactive fee and the active renewal fee.
   c. An inactive licensee who held a certificate of authority at the time their license became inactive who returns to active license status pursuant to this rule may be reissued a certificate of authority by paying the
renewal fee for the certificate of authority.  

381. -- 409. (RESERVED)  

410. CONTINUING EDUCATION.  

01. Continuing Education (CE) Requirement. Each Idaho licensed mortician and funeral director must successfully complete a minimum of eight (8) hours of continuing education annually for license renewal.  

a. Each licensee must certify on their renewal application form that compliance with the annual CE requirements has been met during the previous twelve (12) months. The Board may conduct such continuing education audits and require verification of attendance as deemed necessary to ensure compliance with the CE requirements.  

b. A licensee is considered to have satisfied the CE requirements for the first renewal of the initial license.  

c. Prior to reinstatement of a license lapsed, canceled, or otherwise non-renewed for less than five (5) years, the applicant must provide proof of attendance of eight (8) hours of continuing education for the previous twelve (12) months.  

02. Credit. Continuing education credit will only be given for actual time in attendance or for the time spent participating in the educational activity. One (1) hour of continuing education is equal to sixty (60) minutes. Courses taken by correspondence or by computer on-line may be approved for continuing education if the courses require an exam or other proof of successful completion. Only four (4) hours of the required continuing education may be from correspondence, computer on-line, or self-study in each renewal period. The remaining hours must be in an interactive setting that provides the opportunity for participants to communicate directly with the instructor. Each licensee must maintain proof of attendance or successful completion documentation of all continuing education courses for a period of three (3) years.  

a. A licensee may carryover a maximum of eight (8) hours of continuing education to meet the next year's continuing education requirement. Only four (4) hours may be carried over from correspondence, computer on-line, or self-study.  

03. Providers/Sponsors/Subjects of Continuing Education. The continuing education must be provided by a college or university, a national or state association, trade group, or other person or entity approved by the Board and must be germane to the license held. Continuing education may include, but shall not be limited to, the following subject areas:  

a. Public Health and Technical. This includes, but is not limited to, embalming, restorative art, after care, organ procurement, sanitation, and infection control.  

b. Business Management. This includes, but is not limited to, computer application, marketing, personnel management, accounting, or comparable subjects.  

c. Social Science. This includes, but is not limited to, communication skills (both written and oral), sociological factors, counseling, grievance psychology, funeral customs, or comparable subjects.  

d. Legal, Ethical, Regulatory. This includes, but is not limited to, OSHA (Occupational Safety and Health Association), FTC (Federal Trade Commission), ethical issues, legal interpretations, or comparable subjects.  

04. Verification of Attendance. Each licensee must maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any and all hours attended by the licensee.
05. **Failure to Fulfill the Continuing Education Requirements.** The license will not be renewed for a licensee who fails to certify compliance with CE requirements. A licensee who makes a false attestation regarding compliance with the CE requirements is subject to disciplinary action by the Board. (7-1-21)

06. **Special Exemption.** The Board has authority to make exceptions for reasons of individual hardship, including health or other good cause. Each licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board. Request for special exemption must be made prior to licensure renewal. (7-1-21)

411. -- 424. (RESERVED)

425. **MAINTENANCE OF PRE-NEED TRUST ACCOUNT FEES.** Maintenance of pre-need trust accounts fee. Pursuant to Section 54-1134(4), Idaho Code, a fee not to exceed ten percent (10%) of the annual earned interest income may be charged for maintenance of pre-need trust accounts. (7-1-21)

426. -- 449. (RESERVED)

450. **FUNERAL ESTABLISHMENT AND CREMATORY ESTABLISHMENT.** Applicants shall submit a board approved application form. All newly licensed establishments and all branch or satellite facilities must meet the same requirements for licensure. A walk-through inspection of the establishment must be arranged and completed within six (6) months of the Board’s review of the application or the application will be deemed denied and will be terminated upon a thirty (30) day written notice, unless good cause is demonstrated to the Board. (7-1-21)

01. **Change in Ownership or Location.** Any change in the ownership or location of a funeral establishment shall constitute a new funeral establishment for the purposes of licensure. (7-1-21)

02. **Funeral Establishment.** All funeral establishments shall be required to provide each of the following:

   a. An operating room and necessary equipment for embalming; (7-1-21)

   b. A selection room for caskets and merchandise which may include video, catalogs, and electronic depiction of caskets and merchandise; (7-1-21)

   c. A chapel where funeral or other religious ceremonies may be held; and (7-1-21)

   d. A room for viewing and visitation. (7-1-21)

03. **Funeral Firm.** Every funeral firm in the state of Idaho and/or licensee thereof shall give or cause to be given to the person or persons making funeral arrangements or arranging for the disposition of the dead human body at the time of said arrangements and prior to rendering that service or providing that merchandise, a written statement showing to the extent then known the following:

   a. The price of the service that the person or persons have selected and what is included therein. (7-1-21)

   b. The prices of each of the supplementary items of service and/or merchandise requested. (7-1-21)

   c. The amount involved for each of the items for which the firm will advance monies as an accommodation for the family. (7-1-21)

   d. The method of payment. (7-1-21)

   e. If the quoted price includes a basic component of a funeral or a part thereof which is not desired, then a credit thereof should be granted. (7-1-21)
04. **Crematory Establishment.** All crematory establishments shall be required to provide each of the following:

a. Detailed information regarding each retort, specifically documenting that each retort and accompanying equipment is listed by an approved testing agency as listed in the Uniform Fire Code or in the case of alkaline hydrolysis, an appropriate purpose-built vessel with documented validation for sterilization; and

b. One (1) set of plans approved by the local building department for the proposed new construction or remodeling where the retort is to be located.

451. (RESERVED)

452. **MINIMUM STANDARDS.**

01. **Reasonable Sanitation and Safety Required.** No license will be issued to operate a funeral establishment or crematory unless it is apparent that the establishment or crematory can and will be operated in a reasonably sanitary and safe manner and that all pertinent federal, state, and local permits have been obtained when operating an alkaline hydrolysis retort.

02. **Delay Before Cremation.** No dead human body, regardless of cause of death, is to be cremated, nor is actual cremation of such a body to be commenced, unless the county coroner in the county in which the death occurred gives written authorization to cremate the body.

03. **Embalming.** If a dead human body is to be held longer than twenty-four (24) hours prior to burial, cremation, or other disposition, the body must be either embalmed or refrigerated at thirty-six degrees Fahrenheit (36F) or less until buried, cremated, or otherwise disposed of.

04. **Casket Not Necessary.** It is not necessary for the body to be in a casket for cremation to take place.

a. This is not to be construed to mean that the crematory must cremate without a casket; and

b. It will not prevent the operators from developing their own internal requirements for aesthetic or sanitary reasons.

453. **RECEIPT FOR BODIES TO BE CREMATED.**
The following must be performed by the operator of a crematory upon receipt of a human body for cremation:

01. **Provide a Receipt.** A receipt must be delivered to the licensed mortician or funeral director, his agent, or another person who delivers such body to the crematory.

02. **Contents of Receipt.** The receipt must show:

a. The name of the decedent whose body was received; and

b. The date on which that body was received; and

c. The place where that body was received; and

d. The name and address of the funeral establishment from whom that body was received; and

e. The name and address of the person, or the names and addresses of the persons, if more than one (1), who actually delivers the body.
454. RECORDS OF BODIES.

01. Content of Record. Each funeral establishment and crematory must maintain a record of each burial, cremation, or other disposition of human remains, disclosing:
   a. The name of the decedent; and
   b. The name and address of the person, or names and addresses of the persons if more than one (1), authorizing the burial, cremation, or other disposition of that body; and
   c. A statement as to whether or not the body was embalmed; and
   d. The date of the burial, cremation, or other disposition of that body; and
   e. The subsequent disposal of any cremated remains.

455. RESPONSIBILITY, INSPECTION, AND CONFIDENTIALITY OF RECORDS.

01. Responsibility for Record. Records regarding the burial, cremation, and other disposition of human bodies must be made as soon as reasonably possible after the burial, cremation, or other disposition and must be dated and signed by the licensed mortician or funeral director who supervised or was otherwise directly responsible for the burial, cremation, or other disposition.

02. Inspection of Records. Records regarding the receipt, burial, cremation, and other disposition of human bodies must be maintained at the funeral establishment and crematory and be open for inspection at any reasonable time by the Board or its designated representatives.

501. DISCIPLINE.

The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensee for each violation of Section 54-1116, Idaho Code.

502. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules promulgated pursuant to Section 54-1604, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of nursing home administration in Idaho. (7-1-21)T

002. -- 099. (RESERVED)

100. EXAMINATION FOR LICENSURE.

01. Examination Fee. The examination fee for the national examination shall be in the amount as determined by the National Association of Long Term Care Administration Boards and shall be paid to the entity administering said examination. The examination fee is in addition to the license fee provided for in Section 54-1604, sub-paragraph (g), Idaho Code. (7-1-21)T

02. Good Moral Character. An applicant who has a criminal conviction, finding of guilt, withheld judgment, or suspended sentence for any felony or any crime related to an applicant’s fitness for licensure, or whose license has been subject to discipline by any state professional regulatory agency or professional organization must submit with the application a written statement and any supplemental information establishing the applicant’s current suitability for licensure. (7-1-21)T

a. Consideration of Factors and Evidence. The Board shall consider the following factors or evidence:

i. The severity or nature of the crime or discipline; (7-1-21)T

ii. The period of time that has passed since the crime or discipline under review; (7-1-21)T

iii. The number or pattern of crimes or discipline or other similar incidents; (7-1-21)T

iv. The circumstances surrounding the crime or discipline that would help determine the risk of repetition; (7-1-21)T

v. The relationship of the crime or discipline to the practice; (7-1-21)T

vi. The applicant's activities since the crime or discipline under review, such as employment, education, participation in treatment, payment of restitution, or any other factors that may be evidence of current rehabilitation; and (7-1-21)T

vii. Any other information regarding rehabilitation or mitigating circumstances. (7-1-21)T

b. Interview. The Board may, at its discretion, grant an interview of the applicant. (7-1-21)T

c. Applicant Bears the Burden. The applicant shall bear the burden of establishing the applicant’s current suitability for licensure. (7-1-21)T

03. Contents of Exam, Passing Scores. An applicant must pass an examination issued by NAB, and an examination pertaining to Idaho law and rules governing nursing homes administered by the Board. The passing score of the Idaho Laws and Rules Examination shall be seventy-five percent (75%). (7-1-21)T

04. Date and Location of Exam. Examinations shall be held at the location and at the times determined by the entity administering the national examination. The state examination shall be a take-home examination and be returned to the Board. (7-1-21)T

101. -- 199. (RESERVED)

200. CONTINUING EDUCATION REQUIREMENTS.

01. Educational Requirements. In order to qualify as continuing education, a seminar or course of study must be relevant to nursing home administration as determined by the Board and sponsored by accredited
universities or colleges, State or National health related associations, and/or approved by NCERS (National Continuing Education Review Service).

02. **Renewal of License.** Applicants for renewal of license shall be required to complete a minimum of twenty (20) clock hours of approved courses within the preceding twelve-month (12) period. Licensees shall not be required to comply with this requirement during the first year in which they become licensed under this chapter.

03. **Carryover of Continuing Education Hours.** Continuing education hours not claimed in the current renewal year may be claimed in the next renewal year. A maximum of twenty (20) hours may be carried forward from the immediately preceding year, and may not be carried forward more than one (1) renewal year.

04. **Waiver.** The Board may waive the requirements of this rule for reasons of individual hardship including health or other good cause. The licensee should request the waiver in advance of renewal and must provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board.

201. -- 299. (RESERVED)

300. **ENDORSEMENT.**

Each applicant for licensure by endorsement shall be required to document compliance with each of the following requirements.

01. **A Valid License.** Hold a valid and current nursing home administrator license issued in another state or jurisdiction with substantially equivalent licensing standards.

02. **Experience/Education.**

a. One thousand (1,000) hours of experience as an administrator in training in another state; or

b. A total of one thousand (1,000) hours of combined experience obtained in an administrator in training program and from practical experience as an administrator in another state; or

c. A master's degree in health administration related to long-term care from an accredited institution; or

d. A master's degree in health administration or business administration with a healthcare emphasis from an accredited institution and one (1) year management experience in long-term care.

03. **National Examination.** Has taken and successfully passed the NAB examination.

04. **State Examination.** Has taken and successfully completed the state of Idaho examination.

05. **Criminal History.** Applicant is subject to Section 100.02 of these rules.

301. -- 399. (RESERVED)

400. **NURSING HOME ADMINISTRATORS-IN-TRAINING.**

01. **Supervised Hour Requirements.** An individual must successfully complete one thousand (1,000) hours under the direct supervision of a licensed nursing home administrator in compliance with Section 54-1610, Idaho Code, and these rules in order to be eligible to take the examination.

02. **Trainees.** A trainee must work on a full time basis in any capacity in an Idaho licensed nursing
home setting. Full time shall be at least a thirty-two (32) hour per week work schedule with consideration for normal leave taken. (7-1-21)T

a. Each trainee shall register with the Board as a Nursing Home Administrator-In-Training (AIT) by submitting an application provided by the Board together with the required fee. The effective date of each AIT program shall be the date the Board approves the application. (7-1-21)T

b. Reports for those trainees employed in a nursing home must be submitted to the Board after completion of each five hundred (500) hour increment and reflect that the preceptor of the trainee has instructed, assisted and given assignments as deemed necessary to fulfill the requirements of Subsection 400.03. (7-1-21)T

03. Nursing Home Administrator-in-Training Requirements. A Nursing Home Administrator-in-Training shall be required to train in all domains of nursing home administration including the following: (7-1-21)T

a. Customer care, support, and services. (7-1-21)T

b. Human resources. (7-1-21)T

c. Finance. (7-1-21)T

d. Environment. (7-1-21)T

e. Management and leadership. (7-1-21)T

f. Completion of a specialized course of study in nursing home long-term health care administration approved by NAB or otherwise approved by the Board. (7-1-21)T

04. Facility Administrator. The trainee must spend no less than thirty-two (32) hours a month with the preceptor in a training and/or observational situation in the five (5) domains of nursing home administration as outlined in Subsection 400.03. Time spent with the preceptor must be in addition to the full time work that the trainee must perform under Subsection 400.02, unless the Administrator-in-Training role is designated as a full time training position. Collectively, during the training period, reports must reflect particular emphasis on all five (5) domains of nursing home administration during the time spent in the nursing home. (7-1-21)T

05. Preceptor Certification. (7-1-21)T

a. A nursing home administrator who serves as a preceptor for a nursing home administrator-in-training must be certified by the Board of Examiners of Nursing Home Administrators. The Board will certify the Idaho licensed nursing home administrator to be a preceptor who:

i. Is currently practicing as a nursing home administrator and who has practiced a minimum of two (2) consecutive years as a nursing home administrator; and (7-1-21)T

ii. Who successfully completes a six (6) clock hour preceptor orientation course approved by the Board. (7-1-21)T

b. The orientation course will cover the philosophy, requirements and practical application of the nursing home administrator-in-training program and a review of the six (6) phases of nursing home administration as outlined in Subsection 400.03. (7-1-21)T

c. The preceptor must be re-certified by the Board every ten (10) years. (7-1-21)T

401. -- 449. (RESERVED)

450. ADMINISTRATOR DESIGNEE QUALIFICATION. In order to practice as an administrator designee, an individual shall register with the Board as an Administrator Designee by submitting an application and providing documentation of each the following requirements.
01. **Criminal History.** Applicant is subject to Section 100.02 of these rules. (7-1-21)

02. **Education.** Provide proof of either:
   
   a. A bachelor's degree from an approved college or university, or (7-1-21)
   
   b. Two (2) years of satisfactory practical experience in nursing home administration or a related health administration area for each year of the required education as set forth in Section 54-1605(3), Idaho Code; (7-1-21)

04. **Experience.** Provide proof of having one (1) year of management experience in a skilled nursing facility. Experience documented in Subsection 450.03.b. may also be used to meet this requirement. (7-1-21)

05. **Authorization.** Submit an agreement signed by an Idaho Licensed Nursing Home Administrator who will act as a consultant to assist the designee in administrating the facility. (7-1-21)

451. -- 499. (RESERVED)

500. **PERMITS.**

01. **Requirements for Issuance.** A temporary permit may be issued upon submission of an endorsement application evidencing a license in good standing in another state and payment of fees. The permit shall be valid until the Board acts upon their endorsement application. No more than one (1) temporary permit may be granted to any applicant for any reason. (7-1-21)

02. **Issuance of a Temporary Permit Does Not Obligate the Board.** Issuance of a temporary permit does not obligate the board to subsequently issue a license. Issuance of a subsequent license depends upon a successful application to the Board. (7-1-21)

501. -- 599. (RESERVED)

(7-1-21)

601. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-1509, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of optometry in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Low Vision. Refer to Section 54-1501(5), Idaho Code, correcting defects may include low vision but is not limited to low vision rehabilitation. (7-1-21)

02. Opticianry. The professional practice of filling prescriptions from a licensed optometrist or ophthalmologist for ophthalmic lenses, contact lenses, and any other ophthalmic device used to improve vision. Opticianry does not include prescriptive authority. (7-1-21)

03. Vision Therapy. Any person who assesses, diagnoses, treats, or prescribes treatment for conditions of the visual system or manages a patient with vision therapy, visual training, visual rehabilitation, orthoptics or eye exercises or who hold him/herself out as being able to do so for the rehabilitation and/or treatment of physical, physiological, sensorimotor, neuromuscular or perceptual anomalies of the eyes or vision system or who prescribes or utilizes lenses, prisms, filters, occlusion or other devices for the enhancement, rehabilitation and/or treatment of the visual system or prevention of visual dysfunctions, except under the supervision and management of a licensed optometrist, is engaged in the practice of optometry. (7-1-21)

011. -- 174. (RESERVED)

175. METHOD OF APPLICATION – EXAMINATION OF APPLICANTS.
Applications for license shall be made on forms approved by the Board. (7-1-21)

01. Application. The application must be accompanied by:

a. The required fee. (7-1-21)

b. A complete transcript of credits from any college of optometry attended. (7-1-21)

c. A photocopy of any diplomas granted by any college of optometry. (7-1-21)

d. A copy of certified results establishing successful passage of the required examinations. (7-1-21)

02. Application Review. Only fully completed applications accompanied by appropriate documents shall be reviewed for licensure. (7-1-21)

03. Exam Content. The written and the practical portions of the Idaho examination shall be all parts of the National Board of Examiners in Optometry Examination (NBEOE) and the Board approved jurisprudence examination. A passing grade for the NBEOE shall be that established by the test provider. The passing grade for the jurisprudence examination shall be seventy-five percent (75%). A passing score on all examinations shall be necessary to qualify for a license to practice Optometry in Idaho. (7-1-21)

176. -- 199. (RESERVED)

200. APPROVAL OF SCHOOLS OF OPTOMETRY.
The State Board of Optometry recognizes as reputable and in good standing the schools and colleges of optometry which have met the standards set by the Accreditation Council on Optometric Education, or its successor agency, a list of which may be obtained from the secretary of the Board or from the office of the Division of Occupational and Professional Licenses in Boise. (7-1-21)

201. -- 224. (RESERVED)

225. APPROVAL OF PRELIMINARY EDUCATION.
The State Board of Optometry recognizes the preliminary education prerequisites for entry into a school, college or
university of optometry approved by the Council on Optometric Education of the American Optometric Association as adequate preliminary education prerequisites for licensing in Idaho. (7-1-21)T

226. -- 249. (RESERVED)

250. LICENSES CANCELED FOR FAILURE TO RENEW.
A license that has been canceled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code. Any person whose license to practice optometry has been canceled for failure to renew for a period of more than five (5) years must apply for a new license in accordance with the requirements of Section 67-2614, Idaho Code. (7-1-21)T

251. -- 274. (RESERVED)

275. ENDORSEMENT.

01. Endorsement. Any person who presents to the Board of Optometry a certified copy of a certificate or license of registration which he holds in good standing in another state or a foreign country, which state or foreign country has similar requirements for licensing or registration as is provided for new applicants in Idaho (including therapeutic privileges), may apply to the Board for the issuance of a license to practice optometry in the state of Idaho. (7-1-21)T

02. Conditions to be Granted a License. The right to be granted a license to practice optometry in Idaho is also subject to the following conditions set out below: (7-1-21)T

a. The submission of a completed application meeting the requirements of Subsection 175.01 including the applicable fee. (7-1-21)T

b. That the license or certificate of registration of the applicant shall not have been suspended or revoked by any state or country or subject to any pending or unresolved licensure action in any state or country. That the applicant must not have committed any act which would constitute a violation of the Optometry Act or Board Rules. (7-1-21)T

c. For those licensed in another state the applicant must document to the Board for approval, the education, training, and examination for diagnostic and therapeutic privileges in the other state and return the state of Idaho law examination. (7-1-21)T

d. That the applicant has been engaged in the practice of optometry continuously for three (3) of the last four (4) years. (7-1-21)T

276. -- 299. (RESERVED)

300. CONTINUING EDUCATION IN OPTOMETRY.

01. Hours Required, Advance Approval. (7-1-21)T

a. Each optometrist licensed by the state of Idaho shall attend in each calendar year prior to license renewal, a minimum of twelve (12) full hours of approved optometric continuing education courses or meetings. (7-1-21)T

b. Approved optometric continuing education courses or meetings shall be those post-graduate optometric education courses or meetings approved in advance by the Board of Optometry or post-graduate study sessions or seminars at an accredited school or college of optometry. In addition, all Council on Optometric Practitioners Education (COPE) approved courses are approved for continuing education credit. If an optometrist attends or plans to attend a course of study or seminar which has not been approved in advance, he may petition the Board for approval of that educational course of study, setting forth a description of the course. The Board may, in its discretion, approve the course upon review of the material submitted either in advance or after completion of the course. (7-1-21)T
02. Additional Hours Required to Use Therapeutic Pharmaceutical Agents. (7-1-21)
   a. Each optometrist licensed by the state of Idaho to use therapeutic pharmaceutical agents shall attend in each calendar year prior to license renewal, a minimum of six (6) additional full hours of approved optometric courses or meetings. (7-1-21)
   b. This six (6) hours of continuing education must be in courses involving ocular pharmacology and/or advanced ocular disease and are in addition to the twelve (12) hours of continuing education required under Subsection 300.01. (7-1-21)

03. Correspondence/Home Study Courses/Observation. The Board allows credit for correspondence courses, individual home study and observation that is germane to the practice of optometry. No more than nine (9) hours of continuing education shall be permitted each year in correspondence courses or other continuing education obtained from “home study” courses or observation. (7-1-21)

04. Waiver of Requirements. The Board of Optometry shall waive the continuing education requirement for the first license renewal after initial licensure. The Board of Optometry may, upon application, waive the requirements of this rule in cases involving illness, unusual circumstances interfering with the optometrist’s ability to practice or inability to conform to the rules due to military duty. (7-1-21)

05. Renewal Application Form. Each licensed Idaho optometrist will be furnished a license renewal application form by the State Board of Optometry on which each optometrist shall attest on their annual license renewal application that they have satisfied the continuing education requirements. False attestation of satisfaction of the continuing education requirements on a renewal application shall subject the licensee to disciplinary action. (7-1-21)

06. Audit. The Board may conduct audits to confirm that the continuing education requirements have been met. In the event a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the license will not be renewed. (7-1-21)

07. Documentation of Attendance. It shall be necessary for each licensed Idaho optometrist to provide documentation verifying attendance or completion of continuing education by securing authorized signatures, documentation, or electronic verification from the course instructors, providers, or sponsoring institution substantiating any hours attended by the licensee. This documentation must be maintained by the licensee and provided upon request by the Board or its agent. (7-1-21)

08. Excess Hours. A licensee may carryover a maximum of six (6) hours of continuing education to meet the next year’s continuing education requirement. Excess hours may be used only during the next renewal period and may not be carried forward more than one (1) year. (7-1-21)

301. -- 324. (RESERVED)

325. UNPROFESSIONAL CONDUCT.

01. Unprofessional Conduct. In conducting practice, an optometrist must not: (7-1-21)
   a. Practice optometry in any manner other than as a professional person in an individual capacity, or in partnership with or associate with other licensed health care professionals. An optometrist may be a stock holder in and practice as a member of a professional service corporation with other licensed health care professionals as authorized by Title 54, Chapter 15, Idaho Code, but the optometrist must list his individual name as well as any name selected for the professional service corporation on any letterheads, telephone directories, office or building directories, or other places where the general public might be advised of the fact that the individual is practicing optometry, as required by these rules. (7-1-21)
   b. Use either “Cappers” or “Steerers” or accept a split or divided fee for the purpose of obtaining patients or use solicitors or agents for the purpose of securing patients or conducting eye examinations or furnishing
optometric services. (7-1-21)

c. Allow his prescription files and records to be used by any unlicensed person, firm, or corporation not under the direct control of that optometrist for the practice of optometry. (7-1-21)

d. Fail to perform services for which fees have been received. (7-1-21)

e. File false reports of services performed or fees rendered. (7-1-21)

f. Permit the use of his name or professional title by or in conjunction with any person not an optometrist, or any firm, company, corporation or military association which illegally practices or in any manner holds himself or itself out to the public as being entitled to practice the profession of optometry when not licensed to do so under the law of Idaho or which uses the title “Optometric Services” in such a manner as to convey to the public the impression that the individual or corporation is entitled to practice optometry or furnish optometric advice or services when not so authorized by law. (7-1-21)

326. -- 424. (RESERVED)

425. GROSS INCOMPETENCE.

Any behavior or practice on the part of the licensed optometrist which demonstrates a lack of competence with respect to discharging professional obligations or duties which might result in injury or damage to a patient whether such injury or damage actually occurs or not and in particular, the Board defines as “gross incompetence” any of the following:

01. Failure to Meet Prevailing Standards. Failure to meet prevailing standards, or willful rendering of substandard care, either individually or as part of a third party reimbursement agreement or by other agreement. (7-1-21)

02. Failure to Meet Prevailing Standards in the Referral of Any Patient Who Is Suffering From Any Apparent or Suspected Pathological Condition. A failure to meet prevailing standards in the referral of any patient who is suffering from any apparent or suspected pathological condition to a person competent and licensed to properly treat or diagnose the condition. (7-1-21)

03. Employment of Techniques or Methods of Practice. Employment of techniques or methods of practice in treating or prescribing for a patient when he does not have proper training in the technique or methods of practice. (7-1-21)

04. Failure to Advise Patient of Possible Danger When a Lens Not Meeting Impact Resistance Standards of F.D.A. Failure to advise his patient of possible danger when a lens does not meet impact resistance standards of F.D.A. Regulation, 21 CFR 801.410, and is provided to the patient. (7-1-21)

05. Failure to Provide Follow-Up Care. Failure to provide follow-up care according to prevailing standards. (7-1-21)

06. Displaying Gross Ignorance or Demonstrating Gross Inefficiency. Displaying gross ignorance or demonstrating gross inefficiency in the care of a patient. (7-1-21)

07. Failure to Verify the Specifications of All Lenses. Failure to verify the specifications of all lenses provided by him. (7-1-21)

08. Failing to Perform Tests and Record Findings. In the course of an examination of a patient, failure to perform tests and record findings in a manner consistent with prevailing standards of optometric care. (7-1-21)

09. Using Pharmaceutical Agents. Using pharmaceutical agents in the practice of optometry without having attended sufficient training programs or schools and acquiring the knowledge necessary to use the drugs in a competent manner. (7-1-21)
10. **Illegal Prescription Sale, Administration, Distribution, or Use of Drugs.** Prescribing, selling, administering, distributing, giving, or using drugs legally classified. Prescribing, selling, administering, distributing, giving, or using drugs legally classified as a controlled substance or as an addictive or dangerous drug for other than accepted diagnostic or therapeutic purposes. (7-1-21)T

11. **Disciplinary Action or Sanctions.** Disciplinary action or sanctions taken by another state, jurisdiction, peer review body or a professional association or society against an optometrist for acts or conduct similar to acts or conduct which would constitute grounds for action as defined under “Rules of the Idaho Board of Optometry.” (7-1-21)T

12. **Sanitary Office.** Failure to maintain sanitary office conditions, equipment, and use appropriate techniques and procedures. (7-1-21)T

13. **Failure to Release Prescription.** Failure to release either a spectacle or contact lens prescription as required by Federal law. (7-1-21)T

14. **Sufficient Training or Education.** Performing procedures without having successfully completed education, instruction or certification. (7-1-21)T

426. -- 449. (RESERVED)

450. **PRESCRIPTIONS FOR SPECTACLES AND CONTACT LENSES.** Eyeglasses and contact lenses, including plano or cosmetic contact lenses, may only be dispensed upon a current prescription issued by an optometrist or medical physician. Every prescription written or issued by an optometrist practicing in Idaho shall contain at least the following information: (7-1-21)T

01. **Prescription for Spectacles.** Prescriptions for spectacles must contain the following: (7-1-21)T
   a. Sphere, cylinder, axis, prism power and additional power, if applicable; and (7-1-21)T
   b. The standard expiration date of the prescription must be at least one (1) year from date the prescription was originally issued. (7-1-21)T

02. **All Prescriptions for Rigid Contact Lenses.** All prescriptions for rigid contact lenses must contain at least the following information: (7-1-21)T
   a. Base curve; (7-1-21)T
   b. Lens manufacturer or “brand” name; (7-1-21)T
   c. Overall diameter; (7-1-21)T
   d. Lens material; (7-1-21)T
   e. Power; and (7-1-21)T
   f. The standard expiration date of the prescription must be at least one (1) year from date the prescription was originally issued. A shorter prescription period may be allowed when based upon a documented medical condition. (7-1-21)T

03. **All Prescriptions for Soft Contact Lenses.** All prescriptions for soft contact lenses must contain at least the following information: (7-1-21)T
   a. Lens manufacturer or “brand” name; (7-1-21)T
   b. Series or base curve; (7-1-21)T
c. Power;  
(7-1-21)T

d. Diameter, if applicable;  
(7-1-21)T

e. Color, if applicable; and  
(7-1-21)T

f. The standard expiration date of the prescription is one (1) year from date the prescription was originally issued. A shorter prescription period may be allowed when based upon a documented medical condition.  
(7-1-21)T

04. Alteration of Prescriptions. A person may not alter the specifications of an ophthalmic lens prescription without the prescribing doctor’s consent.  
(7-1-21)T

05. Expired Contact Lens Prescription. A person may not fill an expired contact lens prescription.  
(7-1-21)T

06. Fitting and Dispensing Contact Lenses.

a. Contact lenses may be fitted only by an optometrist, or licensed physician.  
(7-1-21)T

b. An ophthalmic dispenser may dispense contact lenses on a fully written contact lens prescription issued by an optometrist or licensed physician.  
(7-1-21)T

c. Notwithstanding Subsection 450.06.b., an optometrist, or licensed physician who issues a contact lens prescription remains professionally responsible to the patient.  
(7-1-21)T

451. -- 474. (RESERVED)

475. PATIENTS RECORDS.

01. Optometrist Shall Keep a Complete Record of All Patients Examined. Every optometrist practicing in the state of Idaho shall keep a complete record of all patients examined by him or for whom he has adapted optical accessories, including copies of prescriptions issued to the patient and copies of statements of charges delivered or provided to the patient. All such records shall be maintained in an orderly and accessible manner and place and shall be maintained for at least five (5) years following the optometrist’s last professional contact with the patient. Failure to maintain such records is deemed to be unprofessional conduct and constitutes gross incompetence in the handling of the patient’s affairs.  
(7-1-21)T

02. Prescription Files. The prescription files and all records pertaining to the practice of optometry shall be maintained as the sole property of the optometrist and not be distributed to any unlicensed person except as required by law or when lawfully subpoenaed in a criminal or civil proceeding in court, or subpoenaed for presentation at a deposition or hearing authorized by the Board of Optometry.  
(7-1-21)T

03. Storage of Patient Records. Storage of patient records must be in compliance with rules in accordance with Health Insurance Portability and Accountability Act (HIPAA) including that patient records must be stored in an area inaccessible to patients.  
(7-1-21)T

476. -- 499. (RESERVED)

500. PRECEPTORSHIP PROGRAM.  
An optometrist may use a student of optometry in his office under his direct supervision for educational purposes.  
(7-1-21)T

501. -- 524. (RESERVED)

525. GENERAL RULES.
01. **Engaging as an Advisor or Staff Optometrist.** An optometrist may be engaged as an advisor for or be engaged as a staff optometrist for an administrator for:

a. Industrial plants where industrial vision programs are being, or have been instituted.

b. Health programs sponsored or funded by any agency or municipal county, state or federal government.

c. Research organizations or educational institutions.

d. Insurance companies.

e. Hospitals.

f. Ophthalmologists.

g. Corporations where the optometrist’s full time is engaged by the corporation to care for the visual needs of the employees of such corporation and their families.

02. **Professional Responsibilities.** Provided, however, that in acting in the capacity of consultant, advisor, or staff optometrists, the optometrist shall at all times remain cognizant of his professional responsibilities and shall with demeanor, decorum and determination retain his right of independent professional judgment and title in all situations and circumstances and in a manner similar to that which he would exercise if he were engaged in practice in his own office.

526. -- 574. (RESERVED)

575. **FEES.**

576. -- 599. (RESERVED)

600. **BOARD CERTIFICATION OF OPTOMETRIST AUTHORIZED TO OBTAIN AND USE PHARMACEUTICAL AGENTS.**

01. **The Right to Obtain and Use Topically Applied Diagnostic Pharmaceutical Agents.** The right to obtain and use topically applied diagnostic pharmaceutical agents for use in diagnosis of another in the practice of optometry as defined by Section 54-1501, Idaho Code, is subject to the following conditions set out below:

a. Optometrists who have obtained a certificate from the Board of Optometry authorizing them to obtain and use topically applied diagnostic pharmaceutical agents shall obtain, from pharmacists licensed by the state of Idaho, or from any other source, and use only those agents listed below:
i. All medications for use in the diagnosis of conditions of the human eye and/or eyelid. (7-1-21)

ii. All over-the-counter agents. (7-1-21)

iii. Such other diagnostic pharmaceutical agents as may be approved by the Board of Optometry. (7-1-21)

b. The Board of Optometry shall issue a certificate to obtain and use the diagnostic drugs specifically identified and listed in this rule to any optometrist licensed to practice in Idaho who complies with both the minimum educational requirements in the subject of general and ocular pharmacology and the minimum continuing educational requirements set out below:

i. Each optometrist certified to obtain and use topically applied pharmaceutical agents shall have completed courses totaling fifty-five (55) hours of actual classroom instruction in general and ocular pharmacology and emergency medical care given by an institution approved by the Council on Post Secondary Accreditation of the U.S. Department of Education or an instructor accredited and employed by such institution and which have been approved by the Board of Optometry. (7-1-21)

ii. Each optometrist certified to obtain and use topically applied pharmaceutical agents shall also have completed a refresher course in cardiopulmonary resuscitation (CPR), emergency medical care provided by the Emergency Medical Services Bureau, or equivalent program either approved or provided by the Board of Optometry, within a two (2) year period preceding issuance of the certificate by the Board of Optometry. (7-1-21)

iii. In order to maintain the certificate issued by the Board, each certified optometrist must complete a refresher course in CPR described in Subsection 600.01.b.ii. above once during each two (2) year period following certification and shall list and describe the course attended and the dates of attendance upon a license renewal application form filed pursuant to Section 300. (7-1-21)

c. In order to implement this rule, the Board of Optometry may designate and approve courses of instruction given by those institutions or instructors described in Subsection 600.01.b.i. above which may be necessary to provide practicing optometrists who have received less than fifty-five (55) hours of actual classroom instruction in general and ocular pharmacology in optometry school with the opportunity to meet the requirements of this rule. (7-1-21)

02. The Right to Prescribe, Administer and Dispense Therapeutic Pharmaceutical Agents. The right to prescribe, administer and dispense therapeutic pharmaceutical agents in the practice of optometry as defined by Section 54-1501, Idaho Code, is subject to the following conditions set out below: (7-1-21)

a. Optometrists who have obtained a certificate from the Board of Optometry authorizing them to prescribe, administer and dispense therapeutic pharmaceutical agents shall obtain, from pharmacists licensed by the State of Idaho, or from any other source, and use only those agents listed below: (7-1-21)

i. All medications for use in the treatment of the human eye and/or eyelid. (7-1-21)

ii. All over-the-counter agents. (7-1-21)

iii. Such other therapeutic pharmaceutical agents as may be approved by the Board of Optometry. (7-1-21)

b. The Board of Optometry shall issue a certificate to prescribe, administer and dispense the therapeutic medications to any optometrist licensed to practice in Idaho who complies with Subsection 600.01 and both the minimum educational and clinical experience requirements in the subject of ocular pharmacology and therapeutics and the minimum continuing educational requirements set out below:

i. Completion of a minimum of one hundred (100) hours of actual classroom and clinical instruction in ocular pharmacology and therapeutics courses given by an institution or organization approved by the Council on Post-Secondary Accreditation of the U.S. Department of Education, or an Instructor employed by such institution,
which have been approved by the Board of Optometry. (7-1-21)

   ii. Successful passage of the “Treatment and Management of Ocular Diseases” section of the optometrist examination approved by the Association of Regulatory Boards of Optometry, Inc. (ARBO) or its equivalent as approved by the Board. (7-1-21)

601. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-605, Idaho Code.  

001. SCOPE.
These rules govern the practice of podiatry in Idaho.  

002. INCORPORATION BY REFERENCE.
The document titled American Podiatric Medical Association’s Code of Ethics as published by the American Podiatric Medical Association, dated March 2013 and referenced in Section 500, is herein incorporated by reference and is available for review at the Board’s office and on the Board’s web site at http://www.ibol.idaho.gov.  

003. -- 009. (RESERVED)  

010. DEFINITIONS AND STANDARDS.

01. Reputable School. A “reputable school” of podiatry is defined as an approved podiatry school located within the United States or Canada and designated as such by the Council on Podiatric Medical Education and the American Podiatric Medical Association.  

011. -- 149. (RESERVED)  

150. PRE-PROFESSIONAL EDUCATION.
All applicants must provide official documentation of credits granted for at least two (2) full years of general college study in a college or university of recognized standing.  

151. PROFESSIONAL EDUCATION.
All applicants must possess evidence of graduation from four (4) full years of study in a reputable school of podiatry, as defined in Subsection 010.02 of these rules.  

152. PODIATRIC RESIDENCY.

01. Residency Required for Licensure. A candidate may not apply for licensure until completion of an accredited podiatric residency as approved by the Council on Podiatric Medical Education of no less than twenty-four (24) months, a minimum of twelve (12) months of which must be surgical.  

02. Submission of Verification of Residency Curriculum. Notwithstanding the provisions of Subsection 152.01, a candidate must provide directly from the residency program such official documentation of completion of the entire curriculum as the board may require. Any deviation of this requirement must be approved by the Board.  

153. -- 199. (RESERVED)  

200. CREDENTIALS TO BE FILED BY ALL APPLICANTS.

01. Certified Copy of National Board Results. A copy of the applicable National Board results that has been certified as true and correct by the examining entity.  

02. Educational Certificate Requirement. Each applicant must provide official documentation of a collegiate education of not less than two (2) years in an accredited college or university giving instruction in letters and sciences.  

03. Diploma. Certified photostatic copy of diploma granted by any college of podiatry and official certified transcripts indicating graduation from the program.  

04. Residency Certification Requirement. All applications must include certification of completion of a residency as defined in Rule 152.  

201. -- 299. (RESERVED)  

300. FEES.
All fees are non-refundable; if a license is not issued, the license fee will be refunded.
400. LICENSURE BY EXAMINATION.

01. Examination of Applicants. All applicants must successfully pass all parts of the American Podiatric Medical Licensing Examination developed and administered by the National Board of Podiatric Medical Examiners.

02. Passing Grade. A passing grade in all subjects examined is the grade established by the examination provider.

401. LICENSURE BY ENDORSEMENT.
Under Section 54-613, Idaho Code, applicants for licensure by endorsement may be granted a license upon the approval of the Board. Each applicant for licensure by endorsement must provide documentation for each of the following before licensure will be considered:

01. Certification of License. Certification of having maintained a current license or other authority to practice issued by a regulatory board of Podiatry in any state or territory.

02. Credentials. Credentials as required in Subsections 200.01 through 200.04.

03. Examination. Successful passage of a written licensure examination covering all those subjects noted in Section 54-606, Idaho Code. Official certification of examination must be received by the board directly from:

a. The applicant’s state or territory of licensure; or

b. The national board of podiatric medical examiners.

04. Residency. Proof of completion of the residency requirement as set forth in Subsection 200.04 of this rule. However, if the applicant graduated from a college of podiatry prior to 1993, this requirement will be waived.

05. Practical Experience. Having practiced podiatry under licensure for three (3) of the last five (5) years immediately prior to the date of application.

06. Continuing Education. Having completed at least fifteen (15) hours of continuing education germane to the practice of podiatry during the twelve (12) months prior to the date of application.

07. Disciplinary Action. Has not been the subject of any disciplinary action including pending or unresolved licensure actions within the last five (5) years immediately prior to application and has never had a license to practice podiatry revoked or suspended either voluntarily or involuntarily in any jurisdiction.
402. TEMPORARY LICENSES.
No temporary licenses will be granted for the practice of podiatry in Idaho. (7-1-21)

403. -- 409. (RESERVED)

410. ORIGINAL APPLICATION.
The original application will be considered null and void after a period of two (2) years from date of original application if no license has been issued. (7-1-21)

411. -- 424. (RESERVED)

425. INACTIVE STATUS.

01. Request for Inactive Status. Each person requesting an inactive status during the renewal of their active license must submit a written request and pay the inactive license fee. (7-1-21)

02. Inactive License Status.

a. All continuing education requirements will be waived during the time that a licensee maintains an inactive license in Idaho. (7-1-21)

b. When the licensee desires active status, the licensee must show acceptable fulfillment of continuing education requirements for the previous twelve (12) months and submit a fee equivalent to the difference between the inactive and active renewal fee. (7-1-21)

426. -- 449. (RESERVED)

450. SCOPE OF PRACTICE.

01. Competence. Upon being granted a license to practice podiatry, a practitioner is authorized to provide only those services and treatments for which that practitioner has been trained and prepared to provide. Information contained within the application file and supplemental certified information of additional training and experience included in the credential file maintained by the practitioner is prima facie evidence of the practitioner’s education and experience. It is the responsibility of the individual practitioner to ensure that the information in his credential file is accurate, complete and supplemented to support all procedures, applications and treatments employed by the practitioner. Practice beyond a practitioner’s documented education and experience may violate the adopted code of ethics and be grounds for discipline by the board. (7-1-21)

02. Advanced Surgical Procedures. Advanced surgical procedures must be performed in a licensed hospital or certified ambulatory surgical center accredited by the joint commission on accreditation of healthcare organizations or the accreditation association for ambulatory health care where a peer review system is in place. Advanced surgical procedures are defined as:

a. Ankle fractures - Open Reduction and Internal Fixation. (7-1-21)

b. Ankle and rearfoot arthrodesis. (7-1-21)

c. Nerve surgery of the leg. (7-1-21)

d. Major tendon repair or transfer surgery - proximal to ankle. (7-1-21)

e. Autogenous bone grafting. (7-1-21)

f. External fixation of the rearfoot, ankle and leg. (7-1-21)

451. -- 499. (RESERVED)
500. **STANDARDS OF THE ETHICAL PRACTICE OF PODIATRY.**

The standards for the ethical practice of podiatry is the American Podiatric Medical Association’s Code of Ethics as referenced in Section 002 of these rules and are hereby adopted and apply to all practitioners of podiatry. (7-1-21)

501. -- 549. (RESERVED)

550. **DISCIPLINE.**

01. **Civil Fine.** The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed podiatrist for each violation of Sections 54-608 and 54-609, Idaho Code. (7-1-21)

02. **Costs and Fees.** The Board may order a licensed podiatrist to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Sections 54-608 and 54-609, Idaho Code. (7-1-21)

551. -- 699. (RESERVED)

700. **CONTINUING EDUCATION.**

01. **Education Requirement for License Renewal.** Each podiatrist licensed by the state of Idaho must complete in each twelve-month period preceding the renewal of a license to practice podiatry in Idaho, a minimum of fifteen (15) full hours of podiatry continuing education. Continuing education includes lectures, conferences, seminars, moderator-guided panel discussions, clinical and practical workshops, internet based learning and home study. Education must be germane to the practice of podiatry; and

   a. Approved by the Council on Podiatric Medical Education; or (7-1-21)

   b. Otherwise approved by the Board. (7-1-21)

02. **Submission of License Renewal Application Form.** Each licensed Idaho podiatrist will be furnished a license renewal application form by the Division of Occupational and Professional Licenses on which each podiatrist will be required to certify by signed affidavit that compliance with the continuing education requirements has been met and must submit the renewal application together with the required fees to the Division. (7-1-21)

03. **Verification of Completion.** A licensee must maintain verification of completion by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any and all hours completed by the licensee. This verification must be maintained by the licensee and provided to the Board upon the request of the Board or its agent. The Board will conduct random audits to monitor compliance. Failure to provide proof of meeting the continuing education upon request of the Board will be grounds for disciplinary action. (7-1-21)

04. **Carryover of Continuing Education Hours.** Continuing education not claimed for credit in the current renewal year may be credited for the next renewal year. A maximum of fifteen (15) hours may be carried forward from the immediately preceding year. (7-1-21)

05. **Special Exemption.** The Board has authority to make exceptions for reasons of individual hardship, including health, when certified by a medical doctor, or for other good cause. The licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board. (7-1-21)

701. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
The rules are promulgated pursuant to Section 54-2305, Idaho Code. (7-1-21)T

001. **SCOPE.**
These rules govern the practice of psychology in Idaho. (7-1-21)T

002. **INCORPORATION BY REFERENCE.**
The document titled “Ethical Principles of Psychologists and Code of Conduct,” published by the American Psychological Association and dated June 1, 2003 with the 2010 amendments effective June 1, 2010, as referenced in Section 350, is herein incorporated by reference and is available from the Board’s office and on the Board web site. (7-1-21)T

003. -- 009. (RESERVED)

010. **DEFINITIONS.**

01. **Certificate of Professional Qualification.** A certificate of professional qualification means the certificate of professional qualification granted to a psychologist by the Association of State and Provincial Psychology Boards. (7-1-21)T

02. **Collaboration or Collaborative Relationship.** Collaboration or collaborative relationship means a cooperative working relationship between a prescribing psychologist and a licensed medical provider in the provision of patient care, including cooperation in the management and delivery of physical and mental health care, to ensure optimal patient care. (7-1-21)T

03. **Geriatric Patient.** A person sixty-five (65) years of age or older. (7-1-21)T

04. **Licensed Medical Provider.** A physician or physician assistant licensed pursuant to chapter 18, title 54, Idaho Code, or an advanced practice registered nurse licensed pursuant to chapter 14, title 54, Idaho Code. (7-1-21)T

05. **Mental, Nervous, Emotional, Behavioral, Substance Abuse, and Cognitive Disorders.** Disorders, illnesses, or diseases listed in either the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association or those listed in the International Classification of Diseases published by the World Health Organization. (7-1-21)T

06. **Pediatric Patient.** A person seventeen (17) years of age or younger. (7-1-21)T

07. **Prescribing Psychologist.** A person who holds a license to practice psychology issued by the Board and who holds a Certification or Provisional Certification of Prescriptive Authority issued by the Board under Sections 54-2317, 54-2318, 54-2319, Idaho Code, and these rules. (7-1-21)T

08. **Supervising Physician.** A board-certified psychiatrist, neurologist, or other physician with specialized training and experience in the management of psychotropic medication and who is licensed under chapter 18, title 54, Idaho Code, or an equivalent licensing provision of the law of a state adjoining Idaho. (7-1-21)T

011. -- 099. (RESERVED)

100. **APPLICATION.**

01. **Filing an Application.** Applicants for licensure or certification or provisional certification of prescriptive authority must submit a complete application, verified under oath, to the Board at its official address. The application must be on the forms approved by the Board and submitted together with the appropriate fee(s) and supporting documentation. (7-1-21)T

02. **Supporting Documents.** The applicant must provide or facilitate the provision of any supporting third-party documents that may be required under the qualifications for the license being sought. (7-1-21)T

   a. Any third-party documents, including letters of reference, must be received by the Board directly from the third party. (7-1-21)T
b. One (1) of the two (2) years of supervised experience as required by Section 2307(2)(a), Idaho Code, for initial licensure may be pre-doctoral. The second year must be post-doctoral work under appropriate supervision and must be verified by the appropriate supervisor. (7-1-21)

101. -- 149. (RESERVED)

150. FEES.
All fees are non-refundable. The examination or reexamination fee are in addition to the application fee and must accompany the application.

200. EXAMINATIONS.

01. Written Exam Required. The Board will require a written examination of applicants. The written examination will be the National Examination for Professional Practice In Psychology (EPPP). (7-1-21)

02. Passing Score. The Board has determined that a passing score on the EPPP is a raw score of one hundred forty (140) or, for examinations after April 1, 2001, a scaled score of five hundred (500) for licensure. (7-1-21)

03. Time and Place of Exam. The examination will be conducted at a time and place specified by the administrator of the national examination for professional practice in psychology (EPPP). (7-1-21)

04. Failure of Exam. The first time the examination is failed the applicant may take it again the next time it is given upon application and payment of fees. If the examination has been failed twice, the individual must wait at least one (1) year and petition the Board for approval to take the examination the third time. The petition must include evidence satisfactory to the Board that the applicant has taken additional study in the field of Psychology.
before approval will be granted. (7-1-21)

201. EXAMINATION FOR PROVISIONAL CERTIFICATION OF PRESCRIPTIVE AUTHORITY.
The approved examination for provisional certification of prescriptive authority is the Psychopharmacology Examination for Psychologists (PEP). (7-1-21)

01. Passing Score. A passing score will be determined by the Association of State and Provincial Psychology Boards (ASPPB). (7-1-21)

02. Date of Exam. The passage of the exam may have occurred prior to the effective date of these rules. (7-1-21)

202. -- 249. (RESERVED)

250. ENDORSEMENT.

01. Eligibility for Endorsement. An applicant who is in possession of a valid statutory license or statutory certificate from another state or Canada may apply for licensing under the endorsement section of this law. (7-1-21)

02. Requirements for Endorsement. An applicant under the endorsement section must have: (7-1-21)

a. A valid psychology license or certificate issued by the regulatory entity of another jurisdiction; and (7-1-21)

b. A history of no disciplinary action in any jurisdiction; and (7-1-21)

c. Meet one of the following qualifications: (7-1-21)

i. A current certificate of professional qualification in Psychology as defined in these rules; or (7-1-21)

ii. A registration with the National Register of Health Service Providers in Psychology; or (7-1-21)

iii. A certification by American Board of Professional Psychology; or (7-1-21)

iv. Graduated from an APA accredited program with a doctoral degree in psychology and two (2) years of supervised experience acceptable to the Board, one (1) year of which may include a pre-doctoral practicum or internship and one (1) year of which must be post-doctoral; (7-1-21)

d. Or complete both of the following: (7-1-21)

i. Graduated with a doctoral degree in psychology or a related field, provided experience and training are acceptable to the Board; and (7-1-21)

ii. A record of practicing Psychology at the independent level for the five (5) years of the last seven (7) years immediately prior to application. (7-1-21)

251. ENDORSEMENT FOR CERTIFICATION OF PRESCRIPTIVE AUTHORITY.
The Board may grant a provisional certification or certification of prescriptive authority by endorsement to an applicant who completes an application as set forth in Section 100 of these rules, pays the required fee, and meets the following requirements: (7-1-21)

01. Holds a Current License. The applicant must be the holder of a current and unrestricted license to practice psychology in another state and in Idaho; (7-1-21)
02. **Holds a Current Certificate of Prescriptive Authority.** (7-1-21)

   a. The applicant must be the holder of a current and unrestricted certification of prescriptive authority from another state that imposes substantially equivalent educational and training requirements as those contained in Sections 54-2317 and 54-2318, Idaho Code, and these rules; or

   b. The applicant must have training from the United States department of defense demonstration project or other similar program developed and operated by any branch of the armed forces that imposes substantially equivalent educational and training requirements as those contained in Sections 54-2317 and 54-2318, Idaho Code, and these rules.

03. **Credit Toward Requirements.** In the event that an applicant has not met the requirements for certification of prescriptive authority, the Board may consider an applicant’s experience in prescribing in another state as meeting a portion of the requirements necessary to qualify for provisional certification or certification of prescriptive authority in this state. In that event, the Board may require additional education, supervision, or both to satisfy the requirements to obtain a provisional certification or certification of prescriptive authority in this state. (7-1-21)

04. **Advisory Panel.** The Advisory Panel, as established in Section 54-2320, Idaho Code, will review the education and training of an applicant seeking certification by endorsement and advise the Board as to its sufficiency to meet the requirements for provisional certification or certification of prescriptive authority under Chapter 23, Title 54, Idaho Code, and these rules. (7-1-21)

252. -- 274. (RESERVED)

275. **INACTIVE STATUS.**

01. **Request for Inactive Status.** Persons requesting an inactive status during the renewal of their active license must submit a written request and pay the established fee. (7-1-21)

02. **Inactive License Status.** (7-1-21)

   a. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing or supervising in Idaho. (7-1-21)

   b. When the licensees desire active status, they must show fulfillment of continuing education requirements within the previous twelve (12) months and submit a fee equivalent to the difference between the current inactive and active renewal fee. (7-1-21)

276. -- 299. (RESERVED)

300. **TEMPORARY LICENSES.**

Persons not licensed in this state who desire to practice psychology under the provisions of this chapter for a period not to exceed thirty (30) days within a calendar year may do so if they hold a license in another state or province have had no disciplinary action, and pay the required fee. Persons authorized to practice under this section must hold a certification of prescriptive authority issued by the Idaho Board of Psychologist Examiners to issue a prescription. (7-1-21)

301. -- 349. (RESERVED)

350. **CODE OF ETHICS.**

All licensees must have knowledge of the Ethical Principles of Psychologists and Code of Conduct, as published in the American Psychologist, as referenced in Section 002 of these rules. (7-1-21)

351. -- 374. (RESERVED)

375. **DISCIPLINE.**
The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed psychologist for each violation of Section 54-2309, Idaho Code.

376. -- 379. (RESERVED)

380. REHABILITATION COMPONENTS.
In the event of a violation of Board laws or rules, the Board, in its discretion, may implement a plan of rehabilitation. Completion of the plan may lead to consideration of submission of an application for re-licensure, the removal of suspension, or the removal of supervision requirements. In the event the licensee has not met the Board's criteria for rehabilitation, the plan may be revised, expanded, or continued depending upon the progress of the rehabilitation program. The rehabilitation components listed in this Section should be considered illustrative, but not exhaustive, of the potential options available to the Board. In each instance, rehabilitation parameters will be tailored to the individual needs of the licensee.

01. Options in Devising Rehabilitation Program. The Board may follow one (1) or more options in devising a rehabilitation program:

a. The individual may be supervised in all or selected areas of activities related to his practice as a licensee by a licensed psychologist approved by the Board for a specified length of time.

i. The Board may specify the focus of the supervision.

ii. The Board may specify the number of hours per week required in a face-to-face supervisory contract.

iii. The Board may require the supervisor to provide periodic and timely reports to the Board concerning the progress of the supervisee.

iv. Any fees for supervision time will be the responsibility of the supervisee.

02. Educational Programs. The individual may be expected to successfully complete a variety of appropriate educational programs. Appropriate educational formats may include, but are not limited to, workshops, seminars, courses in regionally accredited universities, or organized pre- or post-doctoral internship settings. Workshops or seminars that are not held in a setting of academic review (approved continuing education) need prior approval of the Board. Any course of study must be approved by the Board prior to enrollment if it is to meet the criteria of a rehabilitation plan.

03. Additional Requirements. The Board may require of the individual:

a. Psychodiagnostic evaluations by a psychologist approved by the Board;

b. A physical examination that may include an alcohol and drug screen by a physician approved by the Board;

c. Psychotherapy on a regular basis from a psychologist approved by the Board;

d. Take or retake and pass the appropriate professional examination; or

381. -- 399. (RESERVED)

400. RENEWAL OF LICENSE -- CONTINUING EDUCATION.
Licenses may be renewed or reinstated by payment of the required fees and by submitting certification of having satisfied the continuing education requirement.

401. CONTINUING EDUCATION REQUIREMENTS FOR RELICENSURE IN PSYCHOLOGY.

01. Number of Hours Required. All licensed psychologists, in order to renew their license, must have
accumulated twenty (20) hours per year of continuing education credits. All prescribing psychologists, in order to renew their provisional certification or certification of prescriptive authority, must have accumulated twenty (20) hours per year of continuing education credits in psychopharmacology or psychopharmacotherapy offered in accordance with Subsection 402.01 of these rules. Continuing education credits for a prescribing psychologist are in addition to the continuing education credits required to renew their psychologist license. (7-1-21)

a. At the time of renewal of the psychologists’ licenses and prescribing psychologists’ certifications, they will certify that they are aware of the requirements for continuing education and that they have met those requirements for the preceding year. (7-1-21)

b. At the time of reinstatement of a psychologist’s license or a prescribing psychologist’s certification or provisional certification, the psychologist must provide proof of meeting the requirements for continuing education for the preceding year. (7-1-21)

c. A minimum of four (4) hours credit in ethics, standards of care, and/or review of laws pertaining to the practice of psychology is required every three (3) years. Areas covered may include practice, consultation, research, teaching, and/or supervision. These units may be used as part of the continuing education credit required. (7-1-21)

02. Professional Level of Continuing Education -- Time Period Records Kept - Audit. This continuing education experience must be at an appropriate level for professional training in psychology. The licensees have responsibility for demonstrating the relevance and adequacy of the educational experience they select. The licensees are also responsible for keeping an accurate record of their own personal continuing education hours for a period of five (5) years. A random audit may be conducted to insure compliance. (7-1-21)

03. Newly Licensed Individuals. Newly licensed individuals will be considered to have satisfied the continuing education requirements for the remainder of the year in which their license is granted. (7-1-21)

04. Certificates of Satisfactory Attendance and Completion. Certificates of satisfactory attendance and completion, participant lists, transcripts from universities, letters of certification on instructor’s letterhead, and other reasonably convincing proof of the submitted activities may serve as documentation when persons audited are required to submit proof of continuing education. (7-1-21)

05. Licensees Who Do Not Fulfill the Continuing Education Requirements. Licensees who do not fulfill the continuing education requirements may be subject to disciplinary action. (7-1-21)

06. Carryover of Continuing Education Hours. Continuing education courses not claimed for CE credit in the current renewal year, may be credited for the next renewal year. A maximum of twenty (20) hours may be carried forward from the immediately preceding year for renewal of a psychologist license, and a maximum of twenty (20) hours may be carried forward from the immediately preceding year for renewal of a prescribing psychologist’s certificate. (7-1-21)

07. Special Exemption. The Board may make exceptions for reasons of individual hardship including health, when certified by a medical doctor, or other good cause. The licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board. Request for special exemption must be made prior to licensure renewal. (7-1-21)

402. GUIDELINES FOR APPROVAL OF CONTINUING EDUCATION CREDITS.

01. Continuing Education Credit. Continuing education credit will be given to formally organized workshops or classes with an attendance roster and preassigned continuing education credit offered in association with or under the auspices of:

a. Regionally accredited institutions of higher education. (7-1-21)

b. The American Psychological Association. (7-1-21)
c. A Regional Psychological Association. (7-1-21)T

d. A State Psychological Association. (7-1-21)T

e. For prescribing psychologists, in addition to the approved organizations above, workshops or classes may be classified as continuing medical education credit and offered in association with or under the auspices of:

i. The American Medical Association; (7-1-21)T

ii. A regional medical association; (7-1-21)T

iii. A state medical association; or (7-1-21)T

iv. Offered by sponsors accredited by the Accreditation Council for Continuing Medical Education (ACCME). (7-1-21)T

f. Credit will be given for the number of credit hours preauthorized by the sponsoring agency with no upper limit on the number of hours. (7-1-21)T

02. Credit for International, National and Regional Meetings of Psychological Organizations. Six (6) hours of continuing education credit will be allowed for documented attendance at international, national and regional meetings of psychological organizations. (7-1-21)T

03. Credit for Other Relevant Workshops, Classes or Training Experiences. Other relevant workshops, classes or training experiences when not offered, approved, or provided by an entity in Subsection 402.01, may receive up to six (6) hours of credit per experience provided they are conducted by a licensed or reputable psychologist or other mental health professional. Each documented hour of training experience counts as one (1) hour of continuing education experience. (7-1-21)T

04. Presentation of Papers. Presentation of papers at international, national, regional or state psychological or other professional associations may be counted as equivalent to six (6) hours per event. Only actual presentation time may be counted; preparation time does not qualify for credit. The licensee must provide the Board with a letter from a sponsor, host organization, or professional colleague, copy of the program, and a summary of the evaluations from the event. (7-1-21)T

05. Self-Study, Lectures or Public or Professional Publications and Presentations. The Board also recognizes the value of self-study, lectures or public or professional publications and presentations (including for example, in the case of the university faculty, preparation of a new course). Therefore, the Board will allow credit for six (6) hours of individual study per year. (7-1-21)T

a. Self-Study. The reading of a publication may qualify for credit with proper documentation verifying completion. A licensee seeking credit for reading a publication must submit results from a test on the information contained within the publication. If a test is not available, the licensee must seek pre-approval of the Board. (7-1-21)T

b. Professional publications. Publication activities are limited to articles in professional journals, a chapter in an edited book, or a published book. The licensee must provide the Board with a copy of the cover page of the article or book in which the licensee has been published. For chapters of an edited book, licensees must submit a copy of the table of contents. (7-1-21)T

06. Board Assessment of Continuing Education Activities. The Board of Psychologist Examiners may avail itself of help and consultation from the American Psychological Association or the Idaho Psychological Association in assessing the appropriateness of continuing education activities. (7-1-21)T

07. Electronic Continuing Education Courses. (7-1-21)T
a. Non-interactive. A maximum of ten (10) on-line, non-interactive continuing education hours relevant to the practice of psychology may be counted during each reporting period. (7-1-21)

   i. Continuing education credit will be given to on-line education offered in association with or under the auspices of the organizations listed in Subsections 402.01.a. through 402.01.d. of these rules. (7-1-21)

   ii. The licensee must provide the Board with a copy of the certification, verified by the authorized signatures from the course instructors, providers, or sponsoring institution, substantiating any hours completed by the licensee. (7-1-21)

b. Interactive. To qualify for credit, teleconferences must feature an interactive format. Interactive conferences are those that provide the opportunity for participants to communicate directly with the instructor or that have a facilitator present at the conference site. The licensee must provide the Board with a copy of the certificate, or a letter signed by course instructors, providers, or sponsoring institution, substantiating any hours attended by licensee. (7-1-21)

   i. When offered, approved, or provided by entities in Subsection 402.01, the number of hours that may be counted during each reporting period is not limited. (7-1-21)

   ii. When not offered, approved, or provided by an entity in Subsection 402.01, a maximum of six (6) hours may be counted during each reporting period. (7-1-21)

403. -- 449. (RESERVED)

450. GUIDELINES FOR USE OF SERVICE EXTENDERS TO LICENSED PSYCHOLOGISTS.
The Board recognizes that licensed psychologists may choose to extend their services by using service extenders. The Board provides general rules to cover all service extenders as well as specific rules to cover service extenders with different levels of training and experience. (7-1-21)

   01. General Provisions for Licensed Psychologists Extending Their Services Through Others. (7-1-21)

      a. The licensed psychologist will have administrative control for a service extender. (7-1-21)

      b. The licensed psychologist exercising professional direction for a service extender must: (7-1-21)

         i. Prior to employing the service extender, formulate and provide to the Board a written supervisory plan for each service extender and obtain approval for the plan. The plan must include provisions for supervisory sessions and chart review. If the psychologist requires recordings to be made of psychological services delivered by the service extender, then the plan must also specify review and destruction of these recordings. The plan must also specify the hours per calendar week that the licensed psychologist will be available for supervision of the person extending the services of the licensed psychologist. The plan must be accompanied by a completed application form and appropriate application fee. (7-1-21)

         ii. Establish and maintain a level of supervisory contact sufficient to be readily accountable in the event that professional, ethical, or legal issues are raised. For service extenders in Categories I and II, there will be a minimum of one (1) hour of face-to-face supervisory contact by the licensed psychologist with the service extender for each one (1) to twenty (20) hours of services provided by the service extender during any calendar week. At least one half (1/2) of this face-to-face supervisory contact will be conducted individually, and up to one half (1/2) of this face-to-face supervisory contact may be provided using a group format. A written record of this supervisory contact, including the type of activities conducted by the service extender, must be maintained by the licensed psychologist. Except under unusual circumstances, the supervisory contact will occur either during the week the services are extended or during the week following. In no case will services be extended more than two (2) weeks without supervisory contact between the service extender and the licensed psychologist. For service extenders in Category III, there will be a minimum of one (1) hour of face-to-face supervisory contact by the licensed psychologist with the service extender during each calendar month that services are provided by the service extender. A written record of this supervisory contact, including the type of activities conducted by the service extender, must be maintained by the
licensed psychologist. The licensed psychologist will also be available for consultation either face-to-face, by phone, or by other means of contact on any day that services are provided by the service extender.

iii. Provide the service extender a copy of the current Ethical Standards of the American Psychological Association, and obtain a written agreement from the service extender of his intention to abide by them.

02. Qualifications for Service Extenders.

a. Category I: A service extender will be placed in Category I if:

i. The licensed psychologist wishing to employ the service extender verifies in writing to the satisfaction of the Board that the service extender holds a license in counseling, social work, or a related mental health profession issued by the state of Idaho to practice a specific profession, and that the issuance of that license requires the licensee hold a master’s degree or its equivalent as determined by the Board; or

ii. The service extender meets the criteria for Category II specified below and the licensed psychologist wishing to employ the service extender verifies in writing to the satisfaction of the Board that the service extender has satisfactorily functioned as a service extender to one (1) or more licensed psychologist for at least twenty (20) hours per calendar week over a period totaling two hundred sixty (260) weeks.

b. Category II: A service extender will be placed in Category II if the licensed psychologist wishing to employ the service extender verifies in writing to the satisfaction of the Board that the service extender holds a master’s degree or equivalent from a program in psychology, counseling, or human development as determined by the Board.

c. Category III: A service extender will be placed in Category III if the licensed psychologist wishing to employ the service extender verifies in writing to the satisfaction of the Board that the service extender holds a bachelor’s degree, a master’s degree or equivalent from a program in psychology, counseling, or human development as determined by the Board, and the service extender will only provide psychometric services. Such services are defined as administrating, scoring, and/or summarizing psychological or neuropsychological tests and test data that require specialized training. Interpretation of the testing data must be performed by the licensed psychologist. Service extenders in Category III will not be allowed to perform psychotherapy, intake assessments, or other services outside the scope of psychometric services defined above. The licensed psychologist wishing to employ the service extender must also verify in writing to the satisfaction of the Board that the service extender has been properly trained in all of the testing instruments that the service extender will administer at the start of employment and will continue to receive proper training in any new testing instruments utilized by the service extender over the course of employment.

03. Conditions for Use of Service Extenders.

a. All persons used to extend the services of a licensed psychologist must be under the direct and continuing administrative control and professional direction of a licensed psychologist. These service extenders may not use any title incorporating the word “psychologist” or any of its variants or derivatives, e.g. “psychological,” “psychotherapist.”

b. Work assignments must be commensurate with the skills of the service extender and procedures must be planned in consultation with the licensed psychologist under all circumstances.

c. Public announcement of fees and services, as well as contact with lay or professional public must be offered only in the name of the licensed psychologist whose services are being extended. However, persons licensed to practice professions other than psychology may make note of their status in such announcements or contacts.
d. Setting and collecting of fees must remain the sole domain of the licensed psychologist; excepting that when a service extender is used to provide services of the licensed psychologist, third party payers must be informed of this occurrence in writing at the time of billing. Unless otherwise provided in these rules and regulations, licensed psychologists may neither claim nor imply to service recipients or to third party payers an ability to extend their services through any person who has not been approved as a service extender to that psychologist as specified in this section. (7-1-21)

e. All service recipients must sign a written notice of the service extender’s status as a service extender for the licensed psychologist. A copy of the signed written notice will be maintained on file with the licensed psychologist. (7-1-21)

f. Within the first three (3) contacts, the licensed psychologist must have face-to-face contact with each service recipient. (7-1-21)

g. A licensed psychologist must be available to both the service extender and the service recipient for emergency consultation. (7-1-21)

h. Service Extenders may be housed in the same service delivery site as the licensed psychologist whose services they extend. Service extenders must limit themselves to acting within their scope as service extenders of the licensed psychologist when providing direct services. (7-1-21)

i. A service extender may deliver services while a licensed psychologist is not available for supervision as defined in the following categories:
   i. Category I may deliver up to fifty percent (50%);
   ii. Category II may deliver up to twenty-five percent (25%); and
   iii. Category III may deliver up to seventy-five percent (75%). (7-1-21)

j. The licensed psychologist must employ no more than three (3) service extenders. (7-1-21)

k. When a licensed psychologist terminates employment of a service extender, the licensed psychologist will notify the Board in writing within thirty (30) days. (7-1-21)

l. At the time of license renewal the licensed psychologist must submit for each service extender the appropriate fee together with certification to the Board that they possess documentation of supervisory notes, hours of supervision, number of hours available for supervision while the service extender provided services, and plan of supervision. Documentation will be maintained by the supervisor for not less than three (3) years for each service extender and submitted to the Board upon request. (7-1-21)

451. -- 499. (RESERVED)

500. EDUCATIONAL AND CREDENTIALING REQUIREMENTS FOR LICENSURE.
Applicants who receive a doctoral degree from a program accredited by the American Psychological Association are considered to have met all criteria outlined in Section 500. (7-1-21)

01. Training in Professional Psychology. Training in professional psychology is doctoral training offered in an institution of higher education accredited by:
   a. Middle States Commission on Higher Education. (7-1-21)
   b. The New England Association of Schools and Colleges. (7-1-21)
   c. Higher Learning Commission. (7-1-21)
   d. The Northwest Commission on Colleges and Universities. (7-1-21)
02. Training Program. The training program must stand as a recognizable, coherent organizational entity within the institution. Programs that are accredited by the American Psychological Association or that meet the criteria for such accreditation are recognized as meeting the definition of a professional psychology program.

03. Authority and Primary Responsibility. There must be a clear authority and primary responsibility for the core and specialty areas by a designated leader who is a doctoral psychologist and is a member of the core faculty.

04. Content of Program. The program must be an integrated, organized sequence of study.

05. There Must Be an Identifiable Training Faculty and a Psychologist Responsible for the Program. There must be an identifiable training faculty on site of sufficient size and breadth to carry out the training responsibilities. A faculty psychologist must be responsible for the program.

06. Program Must Have an Identifiable Body. The program must have an identifiable body of students who are matriculated in that program for a degree.

07. What the Program Must Include. The program must include supervised practicum and pre-doctoral internship appropriate to the practice of psychology. Pre-doctoral internships must be completed at member sites of the Association of Psychology Postdoctoral and Internship Centers, or sites demonstrating an equivalent program.

08. Curriculum. The curriculum must encompass a minimum of three (3) academic years of full time graduate study at least one (1) year of which is spent in full-time physical residence at the degree granting educational institution. In addition to instruction in professional areas of competence, which include assessment and diagnosis, intervention, consultation, and supervision, the core program must require each student to demonstrate competence in specific substantive areas. Minimal competence is demonstrated by passing a three (3) credit semester graduate course (or a five (5) credit quarter graduate course) in each of the substantive areas listed below:

a. Biological Bases of Behavior: Physiological psychology, comparative psychology, neuropsychology, sensation and perception, psychopharmacology.

c. Social Bases of Behavior: Social psychology, group processes, organizational and systems theory.

d. Individual Differences: Personality theory, human development, abnormal psychology.

e. Scientific and Professional Standards and Ethics.

f. Research Design and Methodology.

i. History and Systems of Psychology.
501. -- 549. (RESERVED)

550. REQUIREMENTS FOR SUPERVISED PRACTICE.

01. Duration and Setting of Supervised Practice. (7-1-21)T
   a. A year of supervised experience is defined as a minimum of one thousand (1000) hours of supervised service provision acquired during not less than a twelve (12) month and no more than a thirty-six (36) calendar month period. The first year of supervised experience must be accredited only after acquiring the equivalent of one (1) year of full time graduate study. A second year must be obtained post-doctorally. (7-1-21)T

02. Qualifications of Supervisors. Supervising psychologists must be licensed and must have training in the specific area of practice in which they are offering supervision. (7-1-21)T

03. Amount of Supervisory Contact. One (1) hour per week of face-to-face individual contact per twenty (20) hours of applicable experience is a minimum. (7-1-21)T

04. Evaluation and Accreditation of Supervised Practice. The Board will require submission of information by the supervisor(s) that enable it to evaluate and credit the extent and quality of the candidate’s supervised practice, on a form approved by the Board. (7-1-21)T

05. Unacceptable Supervision. Supervised practice time during which the supervisor deems supervisee’s performance to have been unacceptable will not be credited towards the required supervised practice hours. (7-1-21)T

551. -- 699. (RESERVED)

700. QUALIFICATIONS FOR PROVISIONAL CERTIFICATION OF PRESCRIPTIVE AUTHORITY. (7-1-21)T

The Board may grant a provisional certification of prescriptive authority to an applicant who holds a current license to practice psychology in Idaho, who completes an application as set forth in Section 100 of these rules, pays the required fee, and who meets the following educational and training qualifications.

01. Doctoral Degree. The applicant must have been awarded a doctoral degree in psychology from an institution of higher education that meets the requirements in Section 54-2317(2), Idaho Code. (7-1-21)T

02. Master’s Degree. The applicant must have been awarded a master’s degree in clinical psychopharmacology from an accredited program that meets the requirements in Section 54-2317(3), Idaho Code. (7-1-21)T

03. Clinical Experience. An applicant must have successfully completed clinical experience as part of the master’s clinical psychopharmacology program that includes a diverse population of patients. (7-1-21)T
   a. Clinical experience must include a minimum of four hundred (400) hours consisting of direct patient contact and collaboration with licensed medical providers involving a minimum of one hundred (100) separate patients. (7-1-21)T
   b. A diverse population of patients includes diversity in:
      i. Gender; (7-1-21)T
      ii. Different ages throughout the life cycle, including adults, children/adolescents, and geriatrics, as possible and appropriate; (7-1-21)T
      iii. Range of disorders listed in the most recent diagnostic and statistical manual of mental disorders published by the American psychiatric association and acute and chronic disorders; (7-1-21)T
iv. Ethnicity; (7-1-21)T
v. Socio-cultural background; and (7-1-21)T
vi. In-patient and out-patient settings, as possible and appropriate. (7-1-21)T

04. Examination. An applicant must successfully pass the national examination in psychopharmacology, as approved by the Board under Section 201 of these rules. (7-1-21)T

05. Supervision Agreement. An applicant must submit to the Board a supervision agreement that identifies the supervising physician(s) who will directly supervise the applicant’s prescribing under a provisional certification of prescriptive authority. The documentation submitted to the Board must also identify: (7-1-21)T

a. For each supervising physician, the supervisor’s name, address, license number, state in which granted, licensure status, length of licensure, and area of specialization; (7-1-21)T

b. For each supervising physician, documentation of the physician’s board-certification as a psychiatrist or neurologist or of specialized training and experience in the management of psychotropic medication; (7-1-21)T

c. For an applicant seeking to prescribe for pediatric or geriatric patients, the supervising physician(s)’ specialized training and experience in treating the patient population for which the applicant seeks to prescribe; (7-1-21)T

d. Designate a primary supervising physician when more than one (1) supervising physician is identified. The primary supervising physician will be responsible for coordinating between the other supervising physician(s) to obtain written progress reports at least every six (6) months concerning how the provisional prescribing psychologist is performing in the domains for supervision. (7-1-21)T

e. The types of cases for which each supervisor will be responsible for supervising and in which the supervisor has specialized training and experience. (7-1-21)T

f. The number of provisional certification holders supervised by each supervising physician. A supervising physician may not concurrently supervise more than three (3) provisional certification holders unless otherwise approved by the Board; and (7-1-21)T

g. The name and nature of setting in which the applicant will practice; (7-1-21)T

h. Prior to a change in supervisors or a change in the supervision agreement, the supervisee must notify the Board and the change must be approved by the Board, or a designated member of the Board, prior to the commencement of supervision by a new supervisor or implementation of the change. (7-1-21)T

701. SUPERVISED PRACTICE OF PROVISIONAL CERTIFICATION HOLDER. A holder of a provisional certification of prescriptive authority may only prescribe under the supervision of physician(s) approved by the Board. Prior to application for a certification of prescriptive authority, a provisional certification holder must complete two (2) years of satisfactory prescribing, which includes: (7-1-21)T

01. Hours of Supervision. A minimum of two thousand (2,000) hours acquired in not less than twenty-four (24) months and not more than forty-eight (48) months. (7-1-21)T

a. The two thousand (2,000) hours may consist of direct patient contact, supervision, case consultations, and collaboration with licensed health care providers for the purpose of evaluation and treatment of patients with medication(s) within the formulary set forth in Section 730 of these rules. (7-1-21)T

b. Supervised practice time during which the supervisor(s) deem(s) a supervisee’s performance to have been unsatisfactory will not be credited towards the required supervised practice hours. A supervisor who
believes the supervisee’s practice is unsatisfactory should notify the supervisee and the primary supervisor as soon as possible and identify the basis for such conclusion including, but not limited to, specific domains or issues needing remediation.

(7-1-21)

02. Number of Patients. A minimum of fifty (50) separate patients who are seen for the purpose of evaluation and treatment with those medications that are within the formulary established in Section 730 of these rules.

(7-1-21)

03. Amount of Supervisory Contact. Supervision on a one-to-one basis for a minimum of four (4) hours each month and a minimum of a total of forty-six (46) hours each year. One-to-one supervision must be provided either face-to-face, telephonically, or, by live video communication.

(7-1-21)

04. Domains for Supervision. Supervision must include assessment of the provisional certification holder with regard to each of the following domains:

a. Basic science;

(7-1-21)

b. Neurosciences;

(7-1-21)

c. Physical assessments and laboratory exams;

(7-1-21)

d. Clinical medicine and pathophysiology;

(7-1-21)

e. Clinical and research pharmacology and psychopharmacology;

(7-1-21)

f. Clinical pharmacotherapeutics;

(7-1-21)

g. Research; and

(7-1-21)

h. Professional, ethical, and legal issues.

(7-1-21)

702. QUALIFICATIONS TO PRESCRIBE FOR PEDIATRIC OR GERIATRIC PATIENTS.

A prescribing psychologist may not prescribe for pediatric or geriatric patients unless approved by the Board. The Board may only grant prescriptive authority for pediatric patients or geriatric patients to an applicant for certification of prescriptive authority who has completed one (1) year of satisfactory prescribing, as attested to by the supervising physician, for the patient population for which the prescribing psychologist seeks to prescribe.

(7-1-21)

01. Credit Toward Certification. The one (1) year of satisfactory prescribing for a pediatric or geriatric population may be counted as one (1) year of the two (2) years of satisfactory prescribing required to qualify for a certification of prescriptive authority.

(7-1-21)

02. Hours of Supervision. One (1) year of satisfactory prescribing includes a minimum of one thousand (1,000) hours acquired in not less than twelve (12) months and not more than twenty-four (24) months.

(7-1-21)

a. The one thousand (1,000) hours may consist of direct patient contact, supervision, case consultations, and collaboration with licensed medical providers for the purpose of evaluation and treatment of patients with medication(s) within the formulary set forth in Section 730 of these rules. A minimum of eight hundred (800) hours of the one thousand (1,000) hours must be directly related to the population for which the prescribing psychologist seeks to prescribe.

(7-1-21)

b. Supervised practice time during which the supervisor(s) deem(s) a supervisee’s performance to have been unsatisfactory will not be credited towards the required supervised practice hours. A supervisor who believes the supervisee’s practice is unsatisfactory should notify the supervisee and the primary supervisor as soon as possible and identify the basis for such conclusion including, but not limited to, specific domains or issues needing remediation.

(7-1-21)
03. **Number of Patients.** One (1) year of satisfactory prescribing includes a minimum of twenty-five (25) separate patients in the population for which the prescribing psychologist seeks to prescribe and who are seen for the purpose of evaluation and treatment with those medications that are within the formulary established in Section 730 of these rules. For a prescribing psychologist who seeks to prescribe for pediatric patients, a minimum of ten (10) separate patients must be twelve (12) years of age or younger and a minimum of ten (10) separate patients must be between thirteen (13) years of age and seventeen (17) years of age. (7-1-21)

04. **Amount of Supervisory Contact.** Supervision must be obtained in accordance with Subsection 701.03 of these rules, and under a supervision agreement approved by the Board in accordance with Subsection 700.05 of these rules. (7-1-21)

05. **Domains for Supervision.** Supervision must include assessment in each of the domains set forth in Subsection 701.04 of these rules. (7-1-21)

703. -- 709. (RESERVED)

710. **QUALIFICATIONS FOR CERTIFICATION OF PRESCRIPTIVE AUTHORITY.**
The Board may grant a certification of prescriptive authority to an applicant who completes an application as set forth in Section 100 of these rules and who meets the following educational and training qualifications. (7-1-21)

01. **Holds a License to Practice Psychology.** The applicant must hold a current license to practice psychology issued by the Board. (7-1-21)

02. **Holds Provisional Certification.** The applicant must hold a provisional certification of prescriptive authority issued by the Board. (7-1-21)

03. **Supervision.** The applicant must have successfully completed at least two (2) years of satisfactory prescribing under supervision that meets the requirements of Section 701 of these rules, as attested to by the supervising physician(s). (7-1-21)

711. -- 719. (RESERVED)

720. **STANDARDS OF PRACTICE FOR PRESCRIPTIVE AUTHORITY.**
A prescribing psychologist who issues a prescription for medication to a patient must collaborate with the patient’s licensed medical provider and follow standards of practice as set forth in these rules. (7-1-21)

01. **Licensed Medical Provider.** A prescribing psychologist may only prescribe medication to a patient who has a licensed medical provider. If a patient does not have a licensed medical provider, the prescribing psychologist must refer the patient to a licensed medical provider prior to prescribing medication. (7-1-21)

a. In the event a patient terminates the relationship with the patient’s licensed medical provider, with whom the prescribing psychologist has established a collaborative relationship, and the patient declines to secure a new licensed medical provider, the prescribing psychologist must advise the patient that the prescribing psychologist cannot continue to psychopharmacologically manage the patient. (7-1-21)

b. The prescribing psychologist must document that the psychologist has made every reasonable effort to encourage the patient to maintain or establish a relationship with a licensed medical provider. (7-1-21)

c. In those cases, in which an abrupt discontinuation of a psychopharmacologic medication could represent a health risk or result in adverse effects, the prescribing psychologist, with concurrence from the previously established licensed medical provider, may prescribe the medication in a manner that is customarily recognized as a discontinuation regimen until the medication has been completely discontinued. The prescribing psychologist must document the discontinuation regimen in the patient’s medical records. (7-1-21)

02. **Release of Information.** A prescribing psychologist must obtain a release of information from the patient or the patient’s legal guardian authorizing the psychologist to contact the patient’s licensed medical provider. If the patient or the patient’s legal guardian refuses to sign a release of information for the patient’s licensed medical
provider, the prescribing psychologist must inform the patient or the patient’s legal guardian that the psychologist cannot treat the patient pharmacologically without an ongoing collaborative relationship with the patient’s licensed medical provider. The psychologist must refer the patient to another mental health care provider who is not required to maintain an ongoing collaborative relationship with a licensed medical provider. (7-1-21)

03. Initial Collaboration with Licensed Medical Provider. Prior to prescribing medication, a prescribing psychologist must contact the patient’s licensed medical provider as provided in these rules and receive the results of the licensed medical provider’s assessment. (7-1-21)

a. The prescribing psychologist must inform the licensed medical provider of: (7-1-21)

i. The medication(s) the prescribing psychologist intends to prescribe for mental, nervous, emotional, behavioral, substance abuse, cognitive disorders; and (7-1-21)

ii. Any laboratory tests that the prescribing psychologist ordered or reviewed. (7-1-21)

b. The prescribing psychologist must discuss with the licensed medical provider the relevant indications and contraindications to the patient of prescribing the medication(s) that the prescribing psychologist intends to prescribe. (7-1-21)

c. The prescribing psychologist must document the date and time of contacts with the licensed medical provider, a summary of what was discussed, and the outcome of the discussions or decisions reached. (7-1-21)

04. Ongoing Collaboration with Licensed Medical Provider. After the initial collaborative relationship with the patient’s licensed medical provider is established, the prescribing psychologist must maintain and document the collaborative relationship to ensure that relevant information is exchanged accurately and in a timely manner. At a minimum the prescribing psychologist must:

a. Contact the licensed medical provider for any changes in medication not previously discussed with the licensed medical provider. (7-1-21)

b. Contact the licensed medical provider if and when the patient experiences adverse effects from medications prescribed by the psychologist that may be related to the patient’s medical condition for which he or she is being treated by a health care practitioner. (7-1-21)

c. Contact the licensed medical provider regarding results of laboratory tests related to the medical care of the patient that have been ordered by the psychologist in conjunction with psychopharmacological treatment. (7-1-21)

d. Inform the licensed medical provider as soon as possible of any change in the patient’s psychological condition that may affect the medical treatment being provided by the licensed medical provider. (7-1-21)

e. Request that as part of the collaborative relationship, the licensed medical provider inform the prescribing psychologist of any new medical diagnosis or changes in the patient’s medical condition that may affect the treatment being provided by the prescribing psychologist. (7-1-21)

f. Request that as part of the collaborative relationship, the licensed medical provider inform the prescribing psychologist of any psychotropic medications prescribed or discontinued by the licensed medical provider or other licensed medical provider, of which the licensed medical provider is aware, the dates of any subsequent changes in psychotropic medications prescribed by the licensed medical provider or other licensed medical provider, of which the licensed medical provider is aware, and the efforts to coordinate the mental health care of the patient as soon as possible. (7-1-21)

05. Disagreement between Prescribing Psychologist and Licensed Medical Provider. If the licensed medical provider and the prescribing psychologist do not agree about a particular psychopharmacological
treatment strategy, the prescribing psychologist must document the reasons for recommending the psychopharmacological treatment strategy that is in disagreement and must inform the licensed medical provider of that recommendation. If the licensed medical provider believes the medication is contraindicated because of a patient’s medical condition, the prescribing psychologist must defer to the judgment of the licensed medical provider and may not prescribe that psychopharmacological treatment strategy. (7-1-21)

06. Prohibited Agreements with Licensed Medical Providers. A prescribing psychologist is prohibited from employing a licensed medical provider or entering into an independent contractor or similar contractual or financial relationship with a licensed medical provider with whom the prescribing psychologist collaborates, unless approved by the Board. The Board may grant an exception to this requirement on a case-by-case basis where the prescribing psychologist shows that such relationship is structured so as to prohibit interference with the licensed medical provider’s relationship with patients, the licensed medical provider’s exercise of independent medical judgment, and satisfaction of the obligations and responsibilities in Chapter 23, Title 57, Idaho Code, and these rules. (7-1-21)

07. Prescriptions. All prescriptions issued by a prescribing psychologist must comply with all applicable federal and state laws, rules and regulations and these rules. (7-1-21)

08. Emergencies. If a prescribing psychologist determines that an emergency exists that may jeopardize the health or well being of the patient, the prescribing psychologist may, without prior consultation with the patient’s licensed medical provider, prescribe psychotropic medications or modify an existing prescription for psychotropic medication previously written for that patient by that prescribing psychologist. The prescribing psychologist must consult with the licensed medical provider as soon as possible. The prescribing psychologist must document in the patient’s psychological evaluation/treatment records the nature and extent of the emergency and the attempt(s) made to contact the licensed medical provider prior to prescribing or other reason why contact could not be made. (7-1-21)

09. Disaster Areas. If a prescribing psychologist is working in a declared emergency/disaster area, the on-site medical staff can serve as the evaluating licensed medical provider. (7-1-21)

721. -- 729. (RESERVED)

730. Formulary. A prescribing psychologist may prescribe medications and controlled substances that are recognized in or customarily used in the diagnosis, treatment and management of individuals with mental, nervous, emotional, behavioral, substance abuse and cognitive disorders and that are relevant to the practice of psychology or other procedures directly related thereto under the following limitations. (7-1-21)

01. Prohibited Medications and Controlled Substances. A prescribing psychologist may not prescribe:

a. Any medication or controlled substance designated or included as a Schedule I controlled substance; or
b. Any opioid. (7-1-21)

02. Disorders and Conditions. A prescribing psychologist may not prescribe medication to treat a primary endocrine, cardiovascular, orthopedic, neurologic, gynecologic, obstetric, metabolic, hematologic, respiratory, renal, gastrointestinal, hepatic, dermatologic, oncologic, infectious, ophthalmologic, or rheumatologic illness or disorder. The provisions of this rule do not prohibit a prescribing psychologist from prescribing to treat a mental, nervous, emotional, behavioral, substance abuse or cognitive disorder that arises secondary to a primary physical illness, provided that the primary illness is being treated by a licensed medical provider and the prescribing psychologist collaborates with the patient’s licensed medical provider, as provided in these rules. (7-1-21)

731. -- 999. (RESERVED)
24.13.01 – RULES GOVERNING THE PHYSICAL THERAPY LICENSURE BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-2206, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of physical therapy in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Supportive Personnel. An individual, or individuals, who are neither a physical therapist or a physical therapist assistant, but who are employed by and/or trained under the direction of a licensed physical therapist to perform designated non-treatment patient related tasks and routine physical therapy tasks. (7-1-21)

02. Non-Treatment Patient Related Tasks. Actions and procedures related to patient care that do not involve direct patient treatment or direct personal supervision, but do require a level of supervision not less than general supervision, including, but not limited to: treatment area preparation and clean-up, equipment set-up, heat and cold pack preparation, preparation of a patient for treatment by a physical therapist or physical therapist assistant, transportation of patients to and from treatment, and assistance to a physical therapist or physical therapist assistant when such assistance is requested by a physical therapist or physical therapist assistant when safety and effective treatment would so require. (7-1-21)

03. Routine Physical Therapy Tasks. Actions and procedures within the scope of practice of physical therapy, which do not require the special skills or training of a physical therapist or physical therapist assistant, rendered directly to a patient by supportive personnel at the request of and under the direct personal supervision of a physical therapist or physical therapist assistant. (7-1-21)

04. Testing.

a. Standard methods and techniques used in the practice of physical therapy to gather data about individuals including:

i. Electrodiagnostic and electrophysiological measurements; (7-1-21)

ii. Assessment or evaluation of muscle strength, force, endurance and tone; (7-1-21)

iii. Reflexes; (7-1-21)

iv. Automatic reactions; (7-1-21)

v. Posture and body mechanics; (7-1-21)

vi. Movement skill and accuracy; (7-1-21)

vii. Joint range of motion and stability; (7-1-21)

viii. Sensation; (7-1-21)

ix. Perception; (7-1-21)

x. Peripheral nerve function integrity; (7-1-21)

xi. Locomotor skills; (7-1-21)

xii. Fit, function and comfort of prosthetic, orthotic, and other assistive devices; (7-1-21)

xiii. Limb volume, symmetry, length and circumference; (7-1-21)

xiv. Clinical evaluation of cardiac and respiratory status to include adequacy of pulses, noninvasive assessment of peripheral circulation, thoracic excursion, vital capacity, and breathing patterns; (7-1-21)
v. Vital signs such as pulse, respiratory rate, and blood pressure; (7-1-21)
v. Activities of daily living; and the physical environment of the home and work place; and (7-1-21)
vi. Pain patterns, localization and modifying factors; and (7-1-21)
vii. Photosensitivity. (7-1-21)

b. Specifically excluded are the ordering of electromyographic study, electrocardiography, thermography, invasive vascular study, selective injection tests, or complex cardiac or respiratory function studies without consultation and direction of a physician. (7-1-21)

05. **Functional Mobility Training**. Includes gait training, locomotion training, and posture training. (7-1-21)

06. **Manual Therapy**. Skilled hand movements to mobilize or manipulate soft tissues and joints for the purpose of:

a. Modulating pain, increasing range of motion, reducing or eliminating soft tissue swelling, inflammation or restriction; (7-1-21)

b. Inducing relaxation; (7-1-21)

c. Improving contractile and non-contractile tissue extensibility; and (7-1-21)

d. Improving pulmonary function. (7-1-21)

07. **Physical Agents or Modalities**. Thermal, acoustic, radiant, mechanical, or electrical energy used to produce physiologic changes in tissues. (7-1-21)

08. **General Supervision**. A physical therapist’s availability at least by means of telecommunications, which does not require a physical therapist to be on the premises where physical therapy is being provided, for the direction of a physical therapist assistant. (7-1-21)

09. **Direct Supervision**. A physical therapist’s or physical therapist assistant’s physical presence and availability to render direction in person and on the premises where physical therapy is being provided. (7-1-21)

10. **Direct Personal Supervision**. A physical therapist’s or physical therapist assistant’s direct and continuous physical presence and availability to render direction, in person and on the premises where physical therapy is being provided. The physical therapist or physical therapist assistant must have direct contact with the patient during each session and assess patient response to delegated treatment. (7-1-21)

11. **Supervising Physical Therapist**. A licensed physical therapist who developed and recorded the initial plan of care and/or who has maintained regular treatment sessions with a patient. Such physical therapist’s designation of another licensed physical therapist if the physical therapist who developed and recorded the initial plan of care or maintained regular treatment sessions is not available to provide direction at least by means of telecommunications. (7-1-21)

12. **Nationally Accredited School**. A school or course of physical therapy or physical therapist assistant with a curriculum approved by the Commission on Accreditation in Physical Therapy Education (CAPTE) or an accredited agency recognized by the U.S. Department of Education, the Council on Postsecondary Accreditation, or a successor entity, or both. (7-1-21)

13. **Examination**. The examination is the National Physical Therapy Examination (NPTE) administered by Federation of State Boards of Physical Therapy. The examination may also include a jurisprudence examination adopted by the Board. (7-1-21)
016. SUPERVISION.
A physical therapist shall supervise and be responsible for patient care given by physical therapist assistants, supportive personnel, physical therapy students, and physical therapist assistant students.

01. Procedures and Interventions Performed Exclusively by Physical Therapist. The following procedures and interventions shall be performed exclusively by a physical therapist:

   a. Interpretation of a referral for physical therapy if a referral has been received.

   b. Performance of the initial patient evaluation and problem identification including a diagnosis for physical therapy and a prognosis for physical therapy.

   c. Development or modification of a treatment plan of care which is based on the initial evaluation and which includes long-term and short-term physical therapy treatment goals.

   d. Assessment of the competence of physical therapist assistants, physical therapy students, physical therapist assistant students, and supportive personnel to perform assigned procedures, interventions and routine tasks.

   e. Selection and delegation of appropriate portions of treatment procedures, interventions and routine physical therapy tasks to the physical therapist assistants, physical therapy students, physical therapist assistant students, and supportive personnel.

   f. Performance of a re-evaluation when any change in a patient’s condition occurs that is not consistent with the physical therapy treatment plan of care, patient’s anticipated progress, and physical therapy treatment goals.

   g. Performance and documentation of a discharge evaluation and summary of the physical therapy treatment plan.

   h. Performance of dry needling.

02. Supervision of Physical Therapist Assistants. A physical therapist assistant must be supervised by a physical therapist by no less standard than general supervision.

   a. A physical therapist assistant must not change a procedure or intervention unless such change of procedure or intervention has been included within the treatment plan of care as set forth by a physical therapist.

   b. A physical therapist assistant may not continue to provide treatment as specified under a treatment plan of care if a patient’s condition changes such that further treatment necessitates a change in the established treatment plan of care unless the physical therapist assistant has consulted with the supervising physical therapist prior to the patient’s next appointment for physical therapy, and a re-evaluation is completed by the supervising physical therapist.

   c. The supervising physical therapist must provide direct personal contact with the patient and assess the plan of care on or before every ten (10) visits or once a week if treatment is performed more than once per day but no less often than once every sixty (60) days. The supervising therapist’s assessment must be documented in the patient record.

   d. A physical therapist assistant may refuse to perform any procedure, intervention, or task delegated by a physical therapist when such procedure, intervention, or task is beyond the physical therapist assistant’s skill level or scope of practice standards.
e. A physical therapist is not required to co-sign any treatment related documents prepared by a physical therapist assistant, unless required to do so in accordance with law, or by a third-party. (7-1-21)T

03. Supervision of Supportive Personnel. Any routine physical therapy tasks performed by supportive personnel requires direct personal supervision. (7-1-21)T

04. Supervision of Physical Therapy and Physical Therapist Assistant Students. Supervision of physical therapy students and physical therapist assistant students requires direct supervision. (7-1-21)T

a. A physical therapy student is only supervised by the direct supervision of a physical therapist. (7-1-21)T

b. A physical therapy student is required to sign all treatment notes with the designation “SPT” after their name, and all such signatures require the co-signature of the supervising physical therapist. (7-1-21)T

c. A physical therapist assistant student is required to sign all treatment notes with the designation “SPTA” after their name, and all such signatures require the co-signature of the supervising physical therapist or supervising physical therapist assistant. (7-1-21)T

05. Supervision Ratios. (7-1-21)T

a. At any one time, the physical therapist may supervise up to a total of three supervised personnel, who are physical therapist assistants or supportive personnel. If the physical therapist is supervising the maximum of three supervised personnel at any one time, no more than two of the supervised personnel may be supportive personnel or physical therapist assistants. (7-1-21)T

b. In addition to the supervised personnel authorized in a. of this subsection, the physical therapist may supervise two persons engaging in direct patient care who are pursuing a course of study leading to a degree as a physical therapist or a physical therapist assistant. (7-1-21)T

017. -- 174. (RESERVED)

175. REQUIREMENTS FOR LICENSURE. An individual shall be entitled to a license upon the submission of proof and approval that the individual has successfully passed the NPTE with a scaled score of at least six hundred (600) and the jurisprudence examination with a score of at least seventy-five percent (75%). Foreign educated individuals whose native language is not English must submit proof of successfully passing one (1) of the following English proficiency exams: (7-1-21)T

01. Test of English as a Foreign Language (TOEFL). Minimum passing scores of two hundred twenty (220) for computer test and five hundred sixty (560) for paper test; (7-1-21)T

02. Test of English as a Foreign Language – Internet-Based Test (TOEFL IBT). Minimum passing scores of twenty-four (24) in writing; twenty-six (26) in speaking, twenty-one (21) in reading, and eighteen (18) in listening; or (7-1-21)T

03. Alternative Exams. as otherwise approved by the Board. (7-1-21)T

176. INACTIVE STATUS.

01. Request for Inactive Status. Licensees requesting an inactive status during the renewal of their active license must submit a written request and pay the established fee. (7-1-21)T

02. Continuing Education. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing in Idaho. (7-1-21)T

03. Reinstatement to Full Licensure from Inactive Status.
a. Return to Active Status of License - Inactive for Five (5) or Fewer Years. An inactive license holder whose license has been inactive for five (5) or fewer years may convert from inactive to active license status by:

i. Providing documentation to the Board showing successful completion within the previous twelve (12) months of the following continuing education requirements:

(1). Licenses inactive for three (3) years or less, one (1) year of continuing education; or

(2). Licenses inactive for more than three (3) years, two (2) years of continuing education; and

ii. Paying the appropriate fee.

b. Return to Active Status of License - Inactive for Greater than Five (5) Years. An inactive license holder whose license has been inactive for greater than five (5) years may convert from inactive to active license status by:

i. Providing documentation to the Board showing successful completion within the previous twelve (12) months of two (2) years of continuing education requirements; and

ii. Providing proof that the licensee has actively engaged in the practice of physical therapy in another state or territory of the United States for at least three (3) of the immediately preceding five (5) years, or provide proof that the licensee is competent to practice in Idaho.

iii. The Board may consider the following factors when determining proof of competency:

(1). Number of years of practice prior to transfer from active status;

(2). Employment in a field similar to physical therapy; and

(3). Any other factors the Board deems appropriate.

177. -- 179. (RESERVED)

180. DRY NEEDLING CERTIFICATION.
The Board may grant certification for dry needling to a physical therapist who completes an application, pays the applicable fees, and meets the following requirements:

01. Training and Education. At least one (1) year of practice as a licensed physical therapist and successful completion of a Board approved course that is a minimum of twenty-seven (27) hours of in-person instruction of which no less than sixteen (16) hours must be hands-on application of dry needling techniques by the physical therapist.

02. Course Approval. The Board will review course curriculum, including a course syllabus, prior to approval. The course must:

a. Be taught by a qualified instructor as shown by education and experience;

b. Include instruction and training on indications/contraindications for dry needling, safe needling technique, and blood borne pathogens;

c. Require successful completion of an assessment of proficiency in dry needling, which includes a practical demonstration of the physical therapist’s dry needling skills.

03. Course Completion. Completion of this education and training may have occurred prior to the effective date of these rules.
181. DRY NEEDLING RECERTIFICATION.

01. Issuance. Dry needling certification shall be issued every three (3) years by timely submission of a physical therapy license renewal application, payment of the physical therapy license renewal fee, the dry needling certification fee, and payment of fines, costs, fees or other amounts that are due and owing to the Board or in compliance with a payment arrangement with the Board, and verifying to the Board that the licensee is in compliance with the requirements for dry needling certification as provided in the Board’s laws and rules. (7-1-21)

02. Expiration Date. Physical Therapists dry needling certification expires on the expiration date of their physical therapy license and must be issued every three (3) years. Proof of completion of a minimum of twenty-seven (27) hours of in-person instruction of which no less than sixteen (16) hours must be hands-on application of dry needling techniques by the physical therapist, must be provided for renewal of their license. The Board must waive the dry needling certification fee in conjunction with the first timely renewal of the physical therapy license after initial dry needling certification. (7-1-21)

03. Failure to Comply with Issuance Requirements.

a. If a licensee with dry needling certification fails to verify meeting dry needling issuance requirements when renewing their physical therapy license, the dry needling certification is canceled and the physical therapy license will be renewed without dry needling certification. (7-1-21)

b. If a licensee with dry needling certification fails to timely renew their physical therapy license, their dry needling certification is canceled. (7-1-21)

182. -- 199. (RESERVED)

200. FEES.
All fees are non-refundable.

201. -- 249. (RESERVED)

250. CONTINUING EDUCATION REQUIREMENT.
01. **Renewal of License.** Every person holding a license issued by the Board must annually complete sixteen (16) contact hours of continuing education prior to license renewal. (7-1-21)

02. **Reinstatement of License.** Any license canceled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code, with the exception that the applicant must submit proof of having met the following continuing education requirements:

   a. For licenses expired for three (3) years or less, one (1) year of continuing education; or (7-1-21)
   b. For licenses expired for more than three (3) years, two (2) years of continuing education; (7-1-21)

03. **Contact Hours.** The contact hours of continuing education must be obtained in areas of study germane to the practice for which the license is issued as approved by the board. (7-1-21)

04. **Documentation of Attendance.** The applicant must provide documentation verifying attendance by securing authorized signatures or other documentation from the course instructors, providers, or sponsoring institution substantiating any hours attended by the licensee. This documentation must be maintained by the licensee and provided to the board upon request by the board or its agent. (7-1-21)

05. **Excess Hours.** Continuing education hours accumulated during the twelve (12) months immediately preceding the license expiration date may be applied toward meeting the continuing education requirement for the next license renewal. Hours in excess of the required hours may be carried forward. Excess hours may be used only during the next renewal period and may not be carried forward more than one (1) time. (7-1-21)

06. **Compliance Audit.** The board may conduct random continuing education audits of those persons required to obtain continuing education in order to renew a license and require that proof acceptable to the board of meeting the continuing education requirement be submitted to the Division. Failure to provide proof of meeting the continuing education upon request of the board are grounds for disciplinary action. (7-1-21)

07. **Special Exemption.** The board has authority to make exceptions for reasons of individual hardship, including health or other good cause. The licensee must provide any information requested by the board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the board. (7-1-21)

08. **Continuing Education Credit Hours.** Hours of continuing education credit may be obtained by attending and participating in a continuing education activity approved by the Board.

   a. **General Criteria.** A continuing education activity which meets all of the following criteria is appropriate for continuing education credit:

      i. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee; (7-1-21)
      ii. Pertains to subject matters integrally related and germane to the practice of the profession; (7-1-21)
      iii. Conducted by individuals who have specialized education, training and experience to be considered qualified to present the subject matter of the program. The Board may request documentation of the qualifications of presenters; (7-1-21)
      iv. Application for Board approval is accompanied by a paper, manual or outline which describes the specific offering and includes the program schedule, goals and objectives; and (7-1-21)
      v. Provides proof of attendance to licensees in attendance including: Date, location, course title, presenter(s); Number of program contact hours (One (1) contact hour equals one (1) hour of continuing education credit.); and the official signature or verification of the program sponsor. (7-1-21)

   b. **Specific Criteria.** Continuing education hours of credit may be obtained by: (7-1-21)
i. Presenting professional programs which meet the criteria listed in these rules. Two (2) hours of credit will be awarded for each hour of presentation by the licensee. A course schedule or brochure must be maintained for audit; (7-1-21)

ii. Providing official transcripts indicating successful completion of academic courses which apply to the field of physical therapy in order to receive the following continuing education credits: (7-1-21)
   (1) One (1) academic semester hour = fifteen (15) continuing education hours of credit; (7-1-21)
   (2) One (1) academic trimester hour = twelve (12) continuing education hours of credit; (7-1-21)
   (3) One (1) academic quarter hour = ten (10) continuing education hours of credit. (7-1-21)

iii. Attending workshops, conferences, symposiums or electronically transmitted, live interactive conferences which relate directly to the professional competency of the licensee; (7-1-21)

iv. Authoring research or other activities that are published in a recognized professional publication. The licensee will receive five (5) hours of credit per page; (7-1-21)

v. Viewing videotaped presentations if the following criteria are met: (7-1-21)
   (1) There is a sponsoring group or agency; (7-1-21)
   (2) There is a facilitator or program official present; (7-1-21)
   (3) The program official may not be the only attendee; and (7-1-21)
   (4) The program meets all the criteria specified in these rules; (7-1-21)

vi. Participating in home study courses that have a certificate of completion; (7-1-21)

vii. Participating in courses that have business-related topics: marketing, time management, government regulations, and other like topics; (7-1-21)

viii. Participating in courses that have personal skills topics: career burnout, communication skills, human relations, and other like topics; (7-1-21)

ix. Participating in courses that have general health topics: clinical research, CPR, child abuse reporting, and other like topics; (7-1-21)

x. Supervision of a physical therapist student or physical therapist assistant student in an accredited college program. The licensee will receive four (4) hours of credit per year; and (7-1-21)

xi. Completion and awarding of Board Certification or recertification by American Board of Physical Therapy Specialists (ABPTS). The licensee will receive sixteen (16) hours for the year the certification or recertification was received. (7-1-21)

09. **Course Approval.** Courses of study relevant to physical therapy and sponsored or provided by the American Physical Therapy Association (APTA) or any of its sections or local chapters; CAPTE; the National Athletic Trainers Association; an accredited, or candidate for accreditation, college or university; or otherwise approved by the Board.

10. **Submitting False Reports or Failure to Comply.** The Board may condition, limit, suspend, or refuse to renew the license of any individual whom the Board determines submitted a false report of continuing education or failed to comply with the continuing education requirements. (7-1-21)
275. DISCIPLINARY PENALTY.

01. Disciplinary Procedures. The disciplinary procedures of the Division are the disciplinary procedures of the Board.

02. Civil Fine. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) for each violation upon anyone licensed under Title 54, Chapter 22, Idaho Code who is found by the Board to be in violation of Section 54-2219, Idaho Code.

276. (RESERVED)

300. CODE OF ETHICS.
Physical therapists and physical therapist assistants are responsible for maintaining and promoting ethical practice in accordance with the ethical principles set forth in Appendix A and Appendix B to these rules.

301. (RESERVED)

Appendix A - Physical Therapist Code Of Ethics

Preamble
This Code of Ethics of the American Physical Therapy Association sets forth principles for the ethical practice of physical therapy. All physical therapists are responsible for maintaining and promoting ethical practice. To this end, the physical therapist shall act in the best interest of the patient/client. This Code of Ethics shall be binding on all physical therapists.

Principle 1
A physical therapist shall respect the rights and dignity of all individuals and shall provide compassionate care.

Principle 2
A physical therapist shall act in a trustworthy manner toward patients/clients and in all other aspects of physical therapy practice.

Principle 3
A physical therapist shall comply with laws and regulations governing physical therapy and shall strive to effect changes that benefit patients/clients.

Principle 4
A physical therapist shall exercise sound professional judgment.

Principle 5
A physical therapist shall achieve and maintain professional competence.

Principle 6
A physical therapist shall maintain and promote high standards for physical therapy practice, education, and research.

Principle 7
A physical therapist shall seek only such remuneration as is deserved and reasonable for physical therapy services.

Principle 8
A physical therapist shall provide and make available accurate and relevant information to patients/clients about their care and to the public about physical therapy services.
Principle 9
A physical therapist shall protect the public and the profession from unethical, incompetent, and illegal acts.

Principle 10
A physical therapist shall endeavor to address the health needs of society.

Principle 11
A physical therapist shall respect the rights, knowledge, and skills of colleagues and other health care professionals.

APPENDIX B - PHYSICAL THERAPIST ASSISTANT CODE OF ETHICS

Preamble
This document of the American Physical Therapy Association sets forth standards for the ethical conduct of the physical therapist assistant. All physical therapist assistants are responsible for maintaining high standards of conduct while assisting physical therapists. The physical therapist assistant shall act in the best interest of the patient/client. These standards of conduct shall be binding on all physical therapist assistants.

Standard 1
A physical therapist assistant shall respect the rights and dignity of all individuals and shall provide compassionate care.

Standard 2
A physical therapist assistant shall act in a trustworthy manner toward patients/clients.

Standard 3
A physical therapist assistant shall provide selected physical therapy interventions only under the supervision and direction of a physical therapist.

Standard 4
A physical therapy assistant shall comply with laws and regulations governing physical therapy.

Standard 5
A physical therapist assistant shall achieve and maintain competence in the provision of selected physical therapy interventions.

Standard 6
A physical therapist assistant shall make judgments that are commensurate with his or her educational and legal qualifications as a physical therapist assistant.

Standard 7
A physical therapist assistant shall protect the public and the profession from unethical, incompetent, and illegal acts.
24.14.01 – RULES OF THE STATE BOARD OF SOCIAL WORK EXAMINERS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-3204, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of social work in Idaho. (7-1-21)T

002. – 009. (RESERVED)

010. DEFINITIONS.

01. Professionalism. Behavior exhibited on the part of an applicant which is in conformity with the Social Work Code of Professional Conduct as defined in Section 450 of these rules and within the limits of state law. (7-1-21)T

02. Psychotherapy. Treatment methods using a specialized, formal interaction between a Clinical Social Worker and an individual, couple, family, or group in which a therapeutic relationship is established, maintained, or sustained to understand unconscious processes, intrapersonal, interpersonal, and psychosocial dynamics, and the diagnosis and treatment of mental, emotional, and behavioral disorders, conditions, and addictions. (7-1-21)T

03. Relative. For the purposes of these rules, a relative is a person’s spouse, parent, child, or sibling, regardless of whether the relation is by blood, through marriage, or by law. (7-1-21)T

04. Supportive Counseling. Supportive counseling by a social worker means a method used by social workers to assist individuals, couples, families, and groups in learning how to solve problems and make decisions about personal, health, social, educational, vocational, financial, and other interpersonal concerns. This help in the maintenance of adaptive patterns is done in the interview through reassurance, advice giving, information providing, and pointing out client strengths and resources. Supportive counseling does not seek to reach unconscious material. (7-1-21)T

011. – 099. (RESERVED)

100. APPROVED COLLEGES AND UNIVERSITIES.
Any college, university, or school of social work that is accredited or is a candidate for accreditation by the Northwest Commission on Colleges and Universities or any similar accrediting body, and that offers a social work program that is accredited by the Council on Social Work Education (CSWE) or that is otherwise approved by the Board. The social work program must be a recognizable, coherent organizational entity within the institution. (7-1-21)T

101. – 199. (RESERVED)

200. LICENSING QUALIFICATIONS AND DEFINITION OF TERMS.
All applicants for licensing under the Social Work Licensing Act must meet the minimum qualifications as set forth by this act. (7-1-21)T

01. Educational Requirements. Educational requirements must be verified by submission of official transcripts sent directly to the Board from the educational institution or from the repository of primary source credentialing information administered by the Association of Social Work Boards (ASWB). Applicants are responsible for arranging transmission of this information. (7-1-21)T

201. PRACTICE OF SOCIAL WORK.

01. Baccalaureate Social Work. The application of social work theory, knowledge, methods, and ethics to restore or enhance social or psychosocial functioning of individuals, couples, families, groups, organizations, and communities. Baccalaureate social work is a generalist practice that includes assessment, planning, intervention, evaluation, case management, information and referral, supportive counseling, supervision, and consultation with clients. Baccalaureate social work also includes advocacy, education, community organization, and the development, implementation and administration of policies, programs, and activities. Bachelor level social workers are prohibited from performing psychotherapy. Baccalaureate social work can include independent practice, but not private practice. (7-1-21)T

02. Master’s Social Work. The application of social work theory, knowledge, methods and ethics, and
the professional use of self to restore or enhance social, psychosocial or biopsychosocial functioning of individuals, couples, families, groups, organizations, and communities. Master’s social work requires the application of specialized knowledge and advanced practice skills in the areas of assessment, treatment planning, implementation and evaluation, case management, information and referral, supportive counseling, supervision and consultation with clients, advocacy, teaching, research, community organization, and the development, implementation, and administration of policies, programs, and activities. Master level social workers who do not hold clinical licensure may provide psychotherapy only under the supervision of a licensed clinical social worker, psychologist, or psychiatrist and in accordance with an approved supervision plan. Master’s social work can include independent practice, but not private practice.

03. **Clinical Social Work.** The practice of clinical social work is a specialty within the practice of master’s social work and requires the application of specialized clinical knowledge and advanced clinical skills in the areas of assessment, diagnosis, and treatment of mental, emotional, and behavioral disorders, conditions and addictions. Clinical social work is based on knowledge and theory of psychosocial development, behavior, psychopathology, motivation, interpersonal relationships, environmental stress, social systems, and cultural diversity, with particular attention to person-in-environment. It shares with all social work practice the goal of enhancement and maintenance of psychosocial functioning of individuals, families, and small groups. Clinical social work includes, but is not limited to, individual, couples, family and group psychotherapy, and includes independent and private practice.

04. **Employment of a Social Worker.** A social worker employed directly by a physician, psychologist or other social worker, or by a public or private agency, institution, hospital, nursing home, rehabilitation center, or any similar facility, is not to be considered within the definition of an independent practitioner. Furthermore, a social worker who contracts with an agency or institution that assumes full responsibility for and supervises the services provided to clients is not considered to be a private practitioner.

202. -- 209. (RESERVED)

210. **SUPERVISION.**

01. **Generally Applicable Supervision Requirements.** All supervised experience, as set forth in this section, must meet the following requirements:

   a. Supervision must be consultative-teaching supervision which is directed toward enhancement and improvement of the individual’s social work values, knowledge, methods, and techniques.

   b. A minimum of one hundred (100) hours of the required supervision must be face-to-face contact with the supervisor and must occur on a regular and on-going basis. Supervision may include a face-to-face setting provided by a secure live electronic connection. The secure live electronic connection must comply with any applicable state and federal laws, rules and regulations, including the health insurance portability and accountability act (HIPAA).

      i. A supervisee may count in full all time in a supervisory session where the ratio of supervisor to supervisees does not exceed one (1) supervisor to two (2) social workers. All one hundred (100) hours may be earned in such a one (1) to two (2) setting.

      ii. Group supervision may count for no more than fifty (50) hours of face-to-face contact. Group supervision may count only where the ratio of supervisor to supervisees does not exceed one (1) supervisor to six (6) supervisees, and the allowable countable time must be prorated by the following formula: total session minutes divided by total supervisees, multiplied by two (2) equals the maximum allowable countable time per supervisee for the session. i.e. a supervisee attending a one (1) hour group supervisory session consisting of six (6) supervisees must be allowed twenty (20) minutes of group supervision credit (60 minutes/6 supervisees x 2 = 20 minutes).

02. **Pursuing Licensure As Independent Practitioners.** Requirements for supervision of baccalaureate or master’s social workers pursuing licensure as independent practitioners.

   a. Develop a plan for supervision that must be reviewed and approved by a designated Board member.
b. Complete a minimum of three thousand (3,000) hours of supervised social work experience. The hours must be accumulated in not less than two (2) years but in not more than five (5) years unless an extension is approved by the Board for good cause shown.

(7-1-21)T

c. Supervision must be provided by a qualified and experienced licensed social worker with a current license in good standing and approved to pursue independent practice.

(7-1-21)T

i. For a baccalaureate social worker the supervisor must hold a license at the baccalaureate, masters, or clinical level.

(7-1-21)T

ii. For a masters social worker the supervisor must hold a license at the masters, or clinical level.

(7-1-21)T

iii. Prior to a change in supervisors, the supervisee must notify the Board and the change must be approved by a designated member of the Board prior to the commencement of supervision by the new supervisor.

(7-1-21)T

iv. The supervisee may not have more than two (2) supervisors at any given time.

(7-1-21)T

03. Pursuing Licensure As Clinical Social Worker. Requirements for supervision of master’s social workers pursuing licensure as clinical social worker.

a. Develop a plan for supervision that must be reviewed and approved by a designated Board member prior to commencement of supervision.

(7-1-21)T

b. Complete a minimum of three thousand (3,000) hours of supervised social work experience focused on clinical social work. The hours must be accumulated in not less than two (2) years but in not more than five (5) years unless an extension is approved by the Board for good cause shown. The hours must also meet the following:

(7-1-21)T

i. One thousand seven hundred fifty (1,750) hours of direct client contact involving treatment in clinical social work as defined; and

(7-1-21)T

ii. One thousand two hundred fifty (1,250) hours involving assessment, diagnosis, and other clinical social work as defined.

(7-1-21)T

c. Fifty percent (50%) of supervised experience must be provided by a licensed clinical social worker registered as a supervisor pursuant to Section 211 of these rules. The remaining fifty percent (50%) of supervision may be provided by one or more of the following:

(7-1-21)T

i. A licensed clinical social worker who is registered as a supervisor pursuant to Section 211; (7-1-21)T

ii. A licensed clinical psychologist; (7-1-21)T

iii. A person licensed to practice medicine and surgery who practices in the area of psychiatry; (7-1-21)T

iv. A licensed clinical professional counselor registered as a supervisor by the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists; or (7-1-21)T

v. A licensed marriage and family therapist registered as a supervisor by the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists. (7-1-21)T

d. Prior to a change in supervisors, the supervisee must notify the Board and the change must be
approved by a designated member of the Board prior to the commencement of supervision by the new supervisor.

(7-1-21)T
e. The supervisee may not have more than two (2) supervisors at any given time.

(7-1-21)T

04. Out-of-State Supervised Experience. The Board may consider supervised experience obtained outside the state of Idaho submitted for Idaho licensure purposes as proscribed under Section 210.03 and consistent with that jurisdiction’s laws. Such experience, whether already obtained or planned to be obtained, must be included in the plan for supervision and reviewed and approved by a designated Board member.

(7-1-21)T

a. Previous supervised experience must have been obtained within the five (5) year period preceding the submission of the plan for supervision and must have been obtained in compliance with the law and rules of the state in which the experience was obtained.

(7-1-21)T

211. SOCIAL WORK SUPERVISOR REGISTRATION.

Idaho licensed social workers must be registered with the Board in order to provide postgraduate supervision for those individuals in Idaho pursuing licensure as a clinical social worker.

(7-1-21)T

01. Requirements for Registration.

(7-1-21)T

a. Document at least two-years’ experience as a licensed clinical social worker.

(7-1-21)T

b. Have not been the subject of any disciplinary action for five (5) years prior to application for registration.

(7-1-21)T

c. Document fifteen (15) contact hours of education in clinical supervisor training within the past five (5) years, as approved by the Board, or if previously registered as a supervisor with the Board, document six (6) hours of education in advanced supervisor training as approved by the Board.

(7-1-21)T

02. Registration.

(7-1-21)T

a. Upon receipt of a completed application verifying compliance with the requirements for registration as a supervisor, the applicant must be registered as a supervisor.

(7-1-21)T

b. A supervisor’s registration must remain valid only so long as the individual’s clinical social worker license remains current and in good standing.

(7-1-21)T

03. Renewal. A supervisor’s registration is valid for a term of five (5) years. To renew a supervisor registration, the registered supervisor must submit a renewal application and:

(7-1-21)T

a. Hold an active Idaho clinical social worker license which has not been subject to discipline, the Board may, in its discretion, approve a supervisor who has been previously disciplined based on the nature of the discipline and the time elapsed; and

(7-1-21)T

b. Document six (6) hours of continuing education in advanced supervisor training as approved by the Board and completed within the previous five (5) years.

(7-1-21)T

212. -- 224. (RESERVED)

225. INACTIVE STATUS.

01. Request for Inactive Status. Each person requesting an inactive status must submit the required form and pay the inactive license fee.

(7-1-21)T

02. Inactive License Status.

(7-1-21)T

a. All continuing education requirements will be waived for any year or portion thereof that a licensee
maintains an inactive license and is not actively practicing or supervising in Idaho

b. To return to active status, a licensee must complete one (1) year of continuing education requirements and submit a fee equivalent to the difference between the inactive and active renewal fee. (7-1-21)T

03. **Return to Active Status After Five (5) Years or More of Inactive Status.** Licensee must provide an account to the Board for that period of time during which the license was inactive and fulfilling requirements that demonstrate competency to resume practice. Those requirements may include, but are not limited to, education, supervised practice, and examination as determined by the Board. The Board may consider practice in another jurisdiction in determining competency. (7-1-21)T

#### 301. -- 349. (RESERVED)

#### 350. EXAMINATIONS AND ENDORSEMENT.
Applications for examination and endorsement may be reviewed and approved by a designated Board member upon determination that the applicant meets the qualifications. Approval to sit for examination does not obligate the Board to issue a license if it is later determined that the applicant does not meet the requirements for licensure. (7-1-21)T

01. **Exam.** The Board approves the uniform, nationally standardized examination of the Association of Social Work Boards (ASWB) as the Idaho licensure examination. (7-1-21)T

a. Bachelor level candidates are required to successfully pass the bachelor’s examination. (7-1-21)T

b. Masters level candidates are required to successfully pass the master’s examination. (7-1-21)T

c. Clinical level candidates are required to successfully pass the clinical examination. (7-1-21)T

02. **Graduation Date to Qualify for Exam.** Candidates for examination who can satisfy the Board that they will be graduating at the end of the spring, summer, or fall terms of any given year may qualify for examination immediately preceding the date of graduation. (7-1-21)T

03. **Endorsement.** The Board may grant a license to any person who submits an application and who:

---

Section 300  Page 3701
a. Holds a current, active social work license, at the level for which a license is being sought, issued by the authorized regulatory entity in another state or country, the certification of which must be received directly by the Board from the issuing agency; and

b. Has not been disciplined within the last five (5) years, had a license revoked, suspended, restricted, or otherwise sanctioned by any regulatory entity and has never voluntarily surrendered a license; and

c. Has not been convicted, found guilty, or received a withheld judgment or suspended sentence for any crime that is inconsistent with the profession of social work. In reviewing the application, the Board may review the following factors or evidence:

i. The severity or nature of the crime;

ii. The period of time that has passed since the crime under review;

iii. The number or pattern of crimes or other similar incidents;

iv. The circumstances surrounding the crime that would help determine the risk of repetition;

v. The relationship of the crime to the practice of social work; and

vi. The applicant's activities since the crime under review, such as employment, education, participation in treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation; and

d. Has successfully passed an examination, as referenced in Subsection 350.02, or an examination provided by the Professional Examination Service (PES) at the clinical social worker and social worker level or the Education Testing Service (ETS) examination; and

e. Has certified under oath to abide by the laws and rules governing the practice of social work in Idaho and the code of professional conduct.

f. The Board may waive the examination requirement in Subsection 350.05.d. for an applicant who was not required to pass such an examination at the time the applicant initially obtained a social work license, provided that the applicant meets all other requirements in this subsection and has actively practiced social work for five (5) of the last seven (7) years preceding application.

351. CONTINUING EDUCATION.

01. Continuing Education Requirements.

a. Continuing education is required for renewal at all levels of social work licensure in Idaho. The Board may waive this requirement upon a showing of good cause.

b. Each licensee must complete a minimum of twenty (20) continuing education (CE) hours, including at least one (1) hour in professional ethics.

c. Compliance with the continuing education (CE) requirements for licensees must be reported annually. A continuing education course taken in any renewal year, but not claimed for CE credit in that year, may be utilized for credit in the following renewal year.

d. Licensees will maintain documentation verifying CE attendance and curriculum for a period of four (4) years. This documentation will be subject to audit by the board.
e. Licensees are not required to comply with this requirement during the first year in which they become licensed under the social work act.

f. One (1) continuing education hour equals one (1) clock hour.

g. Courses that are part of the curriculum of a university, college or other educational institution are allotted CE credit at the rate of fifteen (15) CE hours for each semester hour or ten (10) CE hours for each quarter hour of school credit awarded.

h. Applications for reinstatement of a canceled license must include documented proof of meeting the continuing education requirements for the previous twelve (12) months. The requirement for professional ethics training continues during any period of cancellation.

02. Categories of Continuing Education.

a. Category I. Category I includes formally organized learning events, ideally involving face-to-face interaction with a teacher for the purpose of accomplishing specific learning objectives. Courses, workshops, conferences, practice oriented seminars, staff development and training activities coordinated and/or taught by approved and recognized educators also are included in this category. Because of our geographic location and sparse population, closed circuit T.V., video and audio tapes, internet based courses, and correspondence courses may be substituted for face-to-face contact if the course is interactive or requires an examination.

b. Category II. No more than ten (10) CE hours may be obtained from this category. Category II consists of a variety of self-directed professional study activities and growth experiences. Examples include making an initial presentation on professional issues or programs, teaching a course for the first time, presenting a lecture or conducting a workshop for the first time, editing or writing professional books or articles, and conducting professional research.

c. The subject matter of all approved continuing education must be germane to the practice of social work as defined in Section 54-3202, Idaho Code, and may include the specialties of Marriage and Family Therapy, Psychiatry, Psychiatric Nursing, or Psychology.
b. All continuing education hours must be relevant to the profession of social work at the individual’s particular level of social work licensure. The presenter’s level of education must be at the licensee’s level or above. Continuing education for clinical licensees must be clinical in nature except that five (5) hours each year may be non-clinical but must be germane to the practice of social work. Final approval of acceptable programs rests with the Board.

04. Documentation. (7-1-21)

a. Each licensee must maintain documentation verifying CE attendance and curriculum for a period of four (4) years from the date of completion. This documentation will be subject to audit by the Board. (7-1-21)

b. Licensees must attest, on their annual license renewal application, that they have satisfied the continuing education requirements. False attestation of satisfaction of the continuing education requirements on a renewal application will subject the licensee to disciplinary action, including revocation. (7-1-21)

c. Continuing education documents must be in the form of a certificate of attendance, a statement signed by the provider verifying participation in the activity, an official transcript, or other documentation such as a certificate or letter from the sponsoring entity that includes the title of the activity, the subject material covered, the dates and number of hours credited, and the presenter’s full name and professional credentials, or other documentation as the Board may require. (7-1-21)

352. -- 399. (RESERVED)

400. UNPROFESSIONAL CONDUCT. (7-1-21)

“Unprofessional conduct” is further defined as any violation of the Social Work Code of Professional Conduct.

401. -- 449. (RESERVED)

450. STATEMENT OF PUBLIC POLICY AND CODE OF PROFESSIONAL CONDUCT. (7-1-21)

The profession of social work is dedicated to serving people; the professional relationship between social workers and clients thus is governed by the highest moral and ethical values. The client is in a vulnerable role that extends beyond the time frame of actual services. In both social and professional interactions, this vulnerability is taken into consideration whether the person is currently or has been a client. Following is the Code of Professional Conduct:

01. The Social Worker's Ethical Responsibility to Clients. (7-1-21)

a. For the purpose of this Code of Professional Conduct, a client is anyone for whom the social worker provides social work services directly or indirectly through consultations, staffings, or supervision with other professionals. (7-1-21)

b. The social worker will not commit fraud nor misrepresent services performed. (7-1-21)

c. The social worker will not solicit the clients of an agency for which they provide services for his private practice. (7-1-21)

d. The social worker will not divide a fee or accept or give anything of value for receiving or making a referral. (7-1-21)

e. The social worker will provide clients with accurate and complete information regarding the extent and nature of the services available to them. (7-1-21)

f. The social worker will terminate service to clients, and professional relationships with them, when such service and relationships are no longer required or in which a conflict of interest arises. (7-1-21)

g. A social worker may not violate a position of trust by knowingly committing any act detrimental to
a client. (7-1-21)T

h. A social worker may not exploit their professional relationships with clients (or former clients), supervisees, supervisors, students, employees, or research participants, sexually or otherwise. Social workers will not condone or engage in sexual harassment. Sexual harassment is defined as deliberate or repeated comments, gestures, or physical contacts of a sexual nature that are unwelcomed by the recipient. (7-1-21)T

i. A social worker may not engage in romantic or sexual acts with a client or with a person who has been a client within the past three (3) years, with a relative of a client, or with a person with whom the client maintains a close personal relationship when it has the potential to be harmful to the client. A social worker must not provide social work services to a person with whom he/she has had a romantic or sexual relationship. (7-1-21)T

02. The Social Worker’s Conduct and Comportment as a Social Worker. (7-1-21)T

a. In providing services, a social worker may not discriminate on the basis of age, gender, race, color, religion, national origin, mental status, physical disability, social or economic status, political belief, or any other preference or personal characteristic, condition or status. (7-1-21)T

b. Social workers may not undertake any activity in which their personal problems are likely to lead to inadequate performance or harm to a client, colleague, student, or research participant. If engaged in such activity when they become aware of their personal problems, they must seek competent professional assistance to determine whether they should suspend, terminate, or limit the scope of their professional activities. (7-1-21)T

c. A social worker may not practice while impaired by medication, alcohol, drugs, or other chemicals. A social worker may not practice under a mental or physical condition that impairs the ability to practice safely. (7-1-21)T

d. A social worker may not repeatedly fail to keep scheduled appointments. (7-1-21)T

e. The social worker who anticipates the termination or interruption of service to clients must notify clients promptly and seek the transfer, referral, or continuation of services in relation to the clients’ needs and preferences. (7-1-21)T

f. The social worker must attempt to make appropriate referrals as indicated by the client’s need for services. (7-1-21)T

g. A social worker must obtain the client’s or legal guardian’s informed written consent when a client is to be involved in any research project. A social worker must explain the research, including any implications. (7-1-21)T

h. The social worker must obtain informed consent of clients before taping, recording, or permitting third party observation of their activities. (7-1-21)T

i. The social worker must safeguard information given by clients in providing client services. Except when required by law or judicial order, a social worker must obtain the client’s informed written consent before releasing confidential information from the setting or facility except for compelling reasons defined as but not limited to:

i. Consultation with another professional on behalf of the client thought to be dangerous to self or others; (7-1-21)T

ii. Duty to warn pursuant to Chapter 19, Title 6, Idaho Code; (7-1-21)T

iii. Child abuse and sexual molestation pursuant to Chapter 16, Title 16, Idaho Code; and (7-1-21)T

iv. Any other situation in accordance with statutory requirements. (7-1-21)T
j. A social worker must report any violation of the law or rules, including Code of Professional Conduct, by a person certified under Chapter 32, Title 54, Idaho Code. (7-1-21)T

03. Competent Practice for Social Workers. All social workers must practice in a competent manner consistent with their level of education, training, and experience. (7-1-21)T

a. A social worker must only represent himself and practice within the boundaries of his education, training, licensure level, supervision, and other relevant professional experience. (7-1-21)T

b. A social worker must only practice within new areas or use new intervention techniques or approaches after engaging in appropriate study, training, consultation, or supervision. (7-1-21)T

c. A social worker must exercise careful judgment, when generally recognized standards do not exist with respect to an emerging area of practice, and take responsible steps to ensure the competence of his practice. (7-1-21)T

04. The Advertising Rules for Social Workers. No social worker may disseminate or cause the dissemination of any advertisement or advertising that is any way fraudulent, false, deceptive or misleading. Any advertisement or advertising is deemed by the board to be fraudulent, false, deceptive, or misleading if it: (7-1-21)T

a. Contains a misrepresentation of fact; or (7-1-21)T

b. Is misleading or deceptive because in its content or in the context in which it is presented it makes only a partial disclosure of relevant facts. More specifically, it is misleading and deceptive for a social worker to advertise free services or services for a specific charge when in fact the social worker is transmitting a higher charge for the advertised services to a third party payor for payment or charges the patient or a third party. It is misleading and deceptive for a social worker or a group of social workers to advertise a social work referral service or bureau unless the advertisement specifically names each of the individual social workers who are participating in the referral service or bureau. (7-1-21)T

c. Creates false or unjustified expectations of beneficial treatment or successful outcomes; or (7-1-21)T

d. Fails to identify conspicuously the social worker or social workers referred to in the advertising as a social worker or social workers; or (7-1-21)T

e. Contains any representation or claims, as to which the social worker, referred to in the advertising, fails to perform; or (7-1-21)T

f. Contains any representation which identifies the social worker practice being advertised by a name which does not include the terms “social worker,” “social work,” or some easily recognizable derivation thereof; or (7-1-21)T

g. Contains any representation that the practitioner has received any license or recognition by the state of Idaho or its authorized agents, which is superior to the license and recognition granted to any social worker who successfully meets the licensing requirements of Chapter 32, Title 54, Idaho Code; or (7-1-21)T

h. Appears in any classified directory, listing, or compendium under a heading, which when considered together with the advertisement, has the capacity or tendency to be deceptive or misleading with respect to the profession or professional status of the social worker; or (7-1-21)T

i. Contains any other representation, statement, or claim which is misleading or deceptive. (7-1-21)T

05. Dual Relationships. A social worker may not engage in dual or multiple relationships with clients, with relatives of a client, or with individuals with whom clients maintain close personal relationships, in which a reasonable and prudent social worker would conclude after appropriate assessment that there is a risk of harm or exploitation to the client or of impairing a social worker’s objectivity or professional judgment. A dual or multiple
A social worker may not purchase goods or services from a client or otherwise engage in a business relationship with a client except when:

a. The client is providing necessary goods or services to the general public; (7-1-21)T

b. A reasonable and prudent social worker would determine that it is not practical or reasonable to obtain the goods or services from another provider; and (7-1-21)T

c. A reasonable and prudent social worker would determine that engaging in the business relationship will not be detrimental to the client or the professional relationship. (7-1-21)T

Bartering is the acceptance of goods, services, or other nonmonetary remuneration from a client in return for a social worker’s services. Social workers may not barter except when such arrangement is not exploitative and:

a. Is initiated by the client and with the client’s written informed consent; and (7-1-21)T

b. Has an easily determined fair market value of the goods or services received. (7-1-21)T

Civil Fine. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed social worker for each violation of Section 54-3211, Idaho Code. (7-1-21)T

Costs and Fees. The Board may order a licensed social worker to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Section 54-3211, Idaho Code. (7-1-21)T

476. -- 999. (RESERVED)
24.15.01 – RULES OF THE IDAHO LICENSING BOARD OF PROFESSIONAL COUNSELORS AND MARRIAGE AND FAMILY THERAPISTS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-3404, Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the practice of professional counseling and practice of marriage and family therapists in Idaho. (7-1-21)

002. – 003. (RESERVED)

004. INCORPORATION BY REFERENCE.

01. ACA Code of Ethics. “ACA Code of Ethics,” as published by the American Counseling Association (ACA), effective 2014, is herein incorporated by reference and is available from the Board’s office and website. (7-1-21)

02. AAMFT Code of Ethics. The document titled “AAMFT Code of Ethics,” as published by the American Association for Marriage and Family Therapy (AAMFT), effective January 1, 2015, is herein incorporated by reference and is available from the Board’s office and website. (7-1-21)

03. Guidelines. The document titled “Approved Supervision Designation Handbook” that provides supervision guidelines for supervisors, as published by the American Association for Marriage and Family Therapy (AAMFT), dated October 2007, is herein incorporated by reference and is available from the Board’s office and website. (7-1-21)

005. – 009. (RESERVED)

010. DEFINITIONS.

01. Accredited University or College. An accredited university or college is a college or university accredited by a regional accrediting agency as identified by the U.S. Department of Education. (7-1-21)

02. Face-to-face Setting. May include a secure live electronic face-to-face connection between the supervisor and supervisee. (7-1-21)

03. Licensed Mental Health Professional Supervisor. A clinical professional counselor, marriage and family therapist, psychologist, clinical social worker, or psychiatrist, whose license in Idaho is active, current, and in good standing and who, when applicable, is registered as a supervisor with their respective licensing board. (7-1-21)

04. Practicum. The term practicum includes a practicum, internship, or a combination, taken as part of the graduate level program. (7-1-21)

05. Supplemental Practicum Hours. Supplemental practicum hours are hours of direct client contact that are supervised at a ratio of one (1) hour of supervision for every ten (10) hours of direct client contact by a registered supervisor for the profession for which the applicant is seeking licensure. (7-1-21)

011. – 149. (RESERVED)

150. QUALIFICATIONS FOR PROFESSIONAL COUNSELOR LICENSURE.
Licensure as a “professional counselor” is restricted to persons who have successfully completed the required examination and each of the following:

01. Graduate Program. Possess a master’s degree or higher, which includes an educational specialist degree, that is primarily counseling in nature, from an accredited university or college offering a graduate program in counseling, provided that the program is either:

   a. Approved by the Council for Accreditation of Counseling and Related Educational Programs; or
b. A counseling program of at least sixty (60) semester hours or ninety (90) quarter hours in length and that at a minimum includes successful completion of one (1) graduate level course unique to the eight (8) areas and an advanced counseling practicum as follows:

i. Human growth and development: Includes studies that provide a broad understanding of the nature and needs of individuals at all developmental levels. Emphasis is placed on psychological, sociological, and physiological approaches. Also included are areas such as human behavior (normal and abnormal), personality theory, and learning theory.

ii. Social and cultural foundations: Includes studies of change, ethnic groups, subcultures, changing roles of women, sexism, urban and rural societies, population patterns, cultural mores, use of leisure time, and differing life patterns.

iii. The helping relationship: Includes philosophic bases of the helping relationship: Consultation theory and/or an emphasis on the development of counselor and client (or consultee) self-awareness and self-understanding.

iv. Groups: Includes theory and types of groups, as well as descriptions of group practices, methods dynamics, and facilitative skills. It includes either a supervised practice and/or a group experience.

v. Life-style and career development: Includes areas such as vocational-choice theory, relationship between career choice and life-style, sources of occupational and educational information, approaches to career decision-making processes, and career-development exploration techniques.

vi. Appraisal of the individual: Includes the development of a framework for understanding the individual, including methods of data gathering and interpretation, individual and group testing, case-study approaches and the study of individual differences. Ethnic, cultural, and sex factors are also considered.

vii. Research and evaluation: Includes areas such as statistics, research design, and development of research and demonstration proposals. It also includes understanding legislation relating to the development of research, program development, and demonstration proposals, as well as the development and evaluation of program objectives.

viii. Professional orientation: Includes goals and objectives of professional counseling organizations, codes of ethics, legal consideration, standards of preparation, certification, and licensing and role of identity of counselors.

ix. Advanced counseling practicum: Complete at least two (2) semester courses of an advanced counseling practicum taken at the graduate school level, provided that the applicant completed a total of two hundred eighty hours (280) of direct client contact that is supervised at the ratio of at least one (1) hour of one-to-one supervision for every ten (10) hours of experience in the setting. An applicant may complete one (1) supplemental practicum hour for every hour in which the practicum was deficient and that meets the requirements of Subsection 230.02 of these rules.

02. Supervised Experience Requirement. One thousand (1,000) hours of supervised experience in counseling acceptable to the Board.

a. One thousand (1,000) hours is defined as one thousand (1,000) clock hours of experience working in a counseling setting, four hundred (400) hours of which must be direct client contact. Supervised experience in practicum taken at the graduate level may be utilized. The supervised experience includes a minimum of one (1) hour of face-to-face or one-to-one (1/1) or one-to-two (1/2) supervision with the supervisor for every twenty (20) hours of job/internship experience.

b. Supervision must be provided in compliance with the ACA Code of Ethics that was adopted by the Board at the time the supervision and provided by a counselor education faculty member at an accredited college or university, Professional Counselor, registered with the Board as a supervisor, or a licensed mental health professional supervisor as defined in these rules. If the applicant’s supervision was provided in another state, it must have been
provided by a counseling professional licensed by that state, provided the requirements for licensure in that state are substantially equivalent to the requirements in Idaho. (7-1-21)

c. Experience in counseling is defined as assisting individuals or groups, through the counseling relationship, to develop an understanding of personal problems, to define goals, and to plan action reflecting interests, abilities, aptitudes, and needs as related to persona-social concerns, educational progress, and occupations and careers. Counseling experience may include the use of appraisal instruments, referral activities, and research findings. (7-1-21)

d. The Board considers the recommendation of the supervisor(s) when determining the acceptability of the applicant’s supervised experience. (7-1-21)

151. -- 224. (RESERVED)

225. CLINICAL PROFESSIONAL COUNSELOR LICENSURE.
Licensure as a “clinical professional counselor” is restricted to applicants who have successfully passed the required examination and have met the following: (7-1-21)

01. License. Hold a “professional counselor” license in this state or a license or other authorization in another state that has substantially similar requirements to a licensed professional counselor in this state, provided the license or authorization is current and in good standing; and (7-1-21)

02. Experience. Document two thousand (2,000) hours of direct client contact experience under supervision accumulated in no less than a two (2) year period after licensure or other authorization to practice in any state. (7-1-21)

a. All applicants must provide verification of meeting at least one thousand (1,000) hours of supervised experience under the supervision of a licensed Clinical Professional Counselor registered as a supervisor with the Board. The remainder of the supervision may be provided by a licensed mental health professional supervisor as defined in these rules. If the applicant’s supervision was provided in another state, it must have been provided by a counseling professional licensed by that state, provided the requirements for license and supervision are substantially equivalent to the requirements in Idaho. (7-1-21)

b. One (1) hour of clinical supervision for every thirty (30) hours of direct client contact is required. Individual supervision is defined as one (1) hour of face-to-face, one-on-one (1:1) or one-to-two (1:2) supervision to every thirty (30) hours of direct client contact. Supervision must be provided in a face-to-face setting. (7-1-21)

c. No more than one-half (1/2) of the required supervision hours may be group supervision. (7-1-21)

03. Recommendation of the Supervisor(s). The Board considers the recommendation of the supervisor(s) when determining the acceptability of the applicant’s supervised experience. (7-1-21)

226. -- 229. (RESERVED)

230. QUALIFICATIONS FOR ASSOCIATE MARRIAGE AND FAMILY THERAPIST.
An applicant for associate marriage and family therapist licensure must pass the required examination and meet the following: (7-1-21)

01. Graduate Degree. Possess a graduate degree as outlined in Subsection 238.01 of these rules or a master’s degree or higher in marriage and family therapy or a related field from an accredited university or college, provided that the graduate program meets one of the following: (7-1-21)

a. Accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE); or (7-1-21)

b. Accredited by the Council for Accreditation of Counseling and Related Educational Programs-
Marriage, Couple, and Family Counseling (CACREP-MCFC); or

c. The program includes, at a minimum, twenty-seven (27) semester credits or thirty-six (36) quarter
credits of the graduate level coursework set forth in Subsection 238.01.b of these rules.

02. Practicum. Completion of a supervised practicum in no less than a twelve (12) month period as
part of the graduate program. The practicum must consist of at least three hundred (300) hours of direct client contact,
of which at least one hundred fifty (150) hours must be with couples, families and other systems, provided that the
Board may grant a license to an applicant who completed a practicum with fewer than the required hours and
completed one (1) supplemental practicum hour for every hour in which the practicum was deficient. Supplemental
practicum hours must be completed as:

a. A Registered Intern under Section 245 of these rules; or

b. Supervised practice in another jurisdiction that is sufficient to be considered substantially similar to
the supplemental practicum hour requirements of these rules; or

c. A combination of Paragraph 02.a. and 02.b. of this subsection.

231. – 237. (RESERVED)

238. MARRIAGE AND FAMILY THERAPISTS.
An applicant for marriage and family therapist licensure must pass the required examination and meet the following:

01. Graduate Degree. Possess a master’s degree or higher in marriage and family therapy or a related
field from an accredited university or college provided that the program is either:

a. Accredited by the Commission on Accreditation for Marriage and Family Therapy Education
(COAMFTE); or

b. A program of at least sixty (60) semester hours or ninety (90) quarter hours in length and that
includes at a minimum:

i. Marriage and family studies – Nine (9) semester credit hours or twelve (12) quarter credit hours:
includes theoretical foundations, history, philosophy, etiology and contemporary conceptual directions of marriage
and family therapy or marriage and family counseling; family systems theories and other relevant theories and their
application in working with a wide variety of family structures, including families in transition, nontraditional
families and blended families, and a diverse range of presenting issues; and preventive approaches, including
premarital counseling, parent skill training and relationship enhancement, for working with couples, families,
individuals, subsystems and other systems;

ii. Marriage and family therapy – Nine (9) semester credit hours or twelve (12) quarter credit hours:
includes the practice of marriage and family therapy related to theory, and a comprehensive survey and substantive
understanding of the major models of marriage and family therapy or marriage and family counseling; and
interviewing and assessment skills for working with couples, families, individuals, subsystems and other systems,
and skills in the appropriate implementation of systematic interventions across a variety of presenting clinical issues
including, but not limited to, socioeconomic disadvantage, abuse and addiction;

iii. Biopsychosocial health and development across the lifespan – Nine (9) semester credit hours or
twelve (12) quarter credit hours: includes individual development and transitions across the life span; family, marital
and couple life cycle development and family relationships, family of origin and intergenerational influences, cultural
influences, ethnicity, race, socioeconomic status, religious beliefs, gender, sexual orientation, social and equity issues
and disability; human sexual development, function and dysfunction, impacts on individuals, couples and families,
and strategies for intervention and resolution; and issues of violence, abuse and substance use in a relational context,
and strategies for intervention and resolution;
iv. Psychological and mental health competency – Six (6) semester credit hours or eight (8) quarter credit hours: includes psychopathology, including etiology, assessment, evaluation and treatment of mental disorders, use of the current diagnostic and statistical manual of mental disorders, differential diagnosis and multiaxial diagnosis; standard mental health diagnostic assessment methods and instruments, including standardized tests; and psychotropic medications and the role of referral to and cooperation with other mental health practitioners in treatment planning, and case management skills for working with individuals, couples, families, and other systems and relational groups;

v. Professional ethics and identity – Three (3) semester credit hours or four (4) quarter credit hours: includes professional identity, including professional socialization, professional organizations, training standards, credentialing bodies, licensure, certification, practice settings and collaboration with other disciplines; ethical and legal issues related to the practice of marriage and family therapy, legal responsibilities of marriage and family therapy and marriage and family counseling practice and research, business aspects, reimbursement, recordkeeping, family law, confidentiality issues and the relevant codes of ethics, including the code of ethics specified by the board; and the interface between therapist responsibility and the professional, social and political context of treatment;

vi. Research – Three (3) semester credit hours or four (4) quarter credit hours: includes research in marriage and family therapy or marriage and family counseling and its application to working with couples and families; and research methodology, quantitative and qualitative methods, statistics, data analysis, ethics and legal considerations of conducting research, and evaluation of research.

02. Practicum. Completed a supervised practicum, including any supplemental practicum hours, which meets the requirements of Subsection 230.02 of these rules.

03. Supervised Marriage and Family Therapy Experience. Completed at least three thousand (3,000) hours of graduate or post-graduate supervised experience in marriage and family therapy that meets the following requirements:

a. A minimum of two thousand (2,000) post-master’s direct client contact hours, over a period of not less than two (2) years, which must include a minimum of one thousand (1,000) direct client contact hours with couples, families, and other systems; and

b. A minimum of two hundred (200) hours of post-master’s supervision.

c. Other hours must support development as a marriage and family therapist, and may include: additional hours of supervision, additional practicum hours above the three hundred (300) hours required in Subsection 230.02 of these rules, writing clinical reports, writing case notes, case consultation, coordination of care, administering tests, and attending workshops, training sessions, and conferences.

d. A minimum of one hundred (100) hours post-master’s supervision must be obtained from a registered marriage and family therapist supervisor. The remaining one hundred (100) hours of supervision may also be obtained from a licensed mental health professional supervisor as defined in these rules who documents:

i. A minimum of five (5) years of experience providing marriage and family therapy; and

ii. Fifteen (15) contact hours of education in supervisor training; and

iii. Has not been the subject of any disciplinary action for five (5) years immediately prior to providing supervision.

e. No more than one hundred (100) hours of group supervision are allowed. Group supervision is defined as up to six (6) supervisees and one (1) supervisor; and

f. Individual supervision is defined as up to two (2) supervisees per supervisor; and
Supervision must employ observation of client contact such as the use of audio technologies or video technologies or co-therapy, or live supervision; and

h. A supervisor may not act as an applicant’s personal Professional Counselor/Therapist.

i. The Board considers the recommendation of the supervisor(s) when determining the acceptability of the applicant’s supervised experience.

j. Supervision obtained in another jurisdiction or from a supervisor in another jurisdiction must conform with the jurisdiction’s requirements provided they are substantially equivalent to Idaho’s requirements.

239. SUPERVISOR REQUIREMENTS.
Licensees in Idaho must be registered with the board to provide supervision for those individuals pursuing licensure in the state of Idaho as a counselor or marriage and family therapist.

01. Requirements for Registration. The board will register an applicant who:

a. Possesses two (2) years experience as a licensed counselor or marriage and family therapist, respective to the profession for which the applicant seeks registration as a supervisor, and document at least one thousand five hundred (1,500) hours of direct client contact as a counselor or two thousand (2,000) hours of direct client contact with couples, families, and other systems as a marriage and family therapist.

b. Documents fifteen (15) contact hours of education in supervisor training as approved by the Board.

c. Has not been subject to discipline for five (5) years prior to registration, provided that the Board may in its discretion approve a supervisor with disciplinary action for failing to complete continuing education requirements.

02. Supervision.

a. A registered supervisor must provide supervision in conformance with the guidelines for supervisors set forth in the ACA Code of Ethics for counselor supervisors or the American Association for Marriage and Family Therapists and the guidelines set forth in the AAMFT Code of Ethics for marriage and family therapist supervisors.

b. Unless the primary work role of an individual is as a clinical supervisor, a registered supervisor may not supervise more than six (6) supervisees concurrently.

c. Supervision must be provided in a face-to-face setting.

d. A registered supervisor must ensure that informed consent containing information about the roles of the supervisor and supervisee is obtained from clients of the supervisee.

03. Renewal. A supervisor’s registration is valid for a term of five (5) years, provided the supervisor’s license remains current, active, in good standing, and is not subject to discipline. To renew a supervisor registration, the licensee must submit to the Board a complete application for registration renewal and document six (6) hours of continuing education in advanced supervisor training as approved by the Board and completed within the previous twenty-four (24) months, unless good cause is shown.

240. EXAMINATION FOR LICENSURE.
Applicants must have successfully completed the required written examination.

01. Examination. The required written examination is:

a. For counselor applicants, the National Counselor Examination prepared by the National Board of
Certified Counselors (NBCC).

b. For clinical counselor applicants, the National Clinical Mental Health Counselor Examination (NCMHCE) prepared by the National Board of Certified Counselors (NBCC).

c. For associate marriage and family therapist and marriage and family therapist applicants, the National Marital and Family Therapy Examination as approved by the Association of Marital and Family Therapy Regulatory Boards (AMFTRB) or another recognized competency examination in marriage and family therapy that is approved by the Board.

02. Time and Place. The examination will be conducted at a time and place specified by the Board or the examining entity.

03. Successful Passage. Successful passage of the examination is defined as achievement of the passing score set by the preparer of the examination. Reexamination consists of the entire examination.

241. NON-UNITED STATES EDUCATED APPLICANTS. Applicants with a graduate degree from a country other than the United States may be required to submit a certification from a credential evaluation service that is a member of the National Association of Credential Evaluation Services (NACES) or approved by the Board. The service must certify that the graduate degree is equivalent to a graduate degree from the United States. All costs for the certification are the responsibility of the applicant. All information submitted to the Board must be submitted with an English translation.

242. -- 244. (RESERVED)

245. REGISTERED INTERNS. The Board may issue a registration to allow an intern to engage in the practice of counseling or marriage and family therapy while completing either the supervised experience or supplemental practicum hours required for licensure. A registered intern may only practice under the direct supervision of a person registered as a supervisor with the Board or otherwise approved to provide supervision under this chapter.

01. Requirements for Registration. An applicant must meet the following requirements:

a. Possess a graduate degree in counseling, marriage and family therapy, or a closely related field from an accredited university or college.

b. Designate a supervisor who is registered with the board as a supervisor as set forth in these rules or who is otherwise approved to provide marriage and family therapy supervision as set forth in Section 238 of these rules.

02. Supervision. The designated supervisor is responsible to provide supervision and ensure that a Registered Intern is competent to practice such counseling or marriage and family therapy as may be provided.

03. Designation of Intern Status. Only a Registered Intern may use the title Registered Counselor Intern or Registered Marriage and Family Therapist Intern. Registered interns must explicitly state that they are interns in their documentation and advertising, such as business cards, informed consent forms, and other disclosures.

04. Expiration. An individual may not practice as an intern for more than four (4) years from the original date of registration, unless good cause is demonstrated to the board.

246. -- 249. (RESERVED)

250. FEES.

01. Application, License, and Registration Fee. All fees are non refundable:
20. **Examination or Reexamination Fee.** The examination or reexamination fees are the fees set by the provider of the approved examination plus an administration fee of twenty-five dollars ($25) for the Marriage and Family Therapy examination.

251. -- 299. (RESERVED)

300. **ENDORSEMENT.**
The Board may grant a license by endorsement to an applicant who pays the required fee, submits a completed board-approved application, and satisfies the Board that they hold a valid and current license in good standing issued by the authorized regulatory entity of another state, territory, or jurisdiction of the United States, which in the opinion of the Board imposes substantially equivalent licensing requirements.

301. -- 349. (RESERVED)

350. **CODE OF ETHICS.**
The Board adopts the American Counseling Association (ACA) Code of Ethics and the American Association for Marriage and Family Therapy (AAMFT) Code of Ethics. All licensees must adhere to the appropriate Code of Ethics pertaining to their licensure.

351. -- 359. (RESERVED)

360. **INACTIVE STATUS.**

01. **Request for Inactive Status.** Each person requesting an inactive status must submit a written request and pay the established fee.

02. **Inactive License Status.**

a. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license.

b. When the licensee desires active status, the licensee must show acceptable fulfillment of continuing education requirements for the previous twelve (12) months and submit a fee equivalent to the difference between the inactive and active renewal fee, provided that a licensee whose license has been inactive five (5) years or more must provide an account to the Board for that period of time during which the license was inactive and fulfill requirements that demonstrate competency to resume practice. Those requirements may include, but are not limited to, education,
supervised practice, and examination as determined by the Board. The Board may consider practice in another
jurisdiction in determining competency. 
(7-1-21)T

c. Licensees may not practice or supervise counseling or marriage and family therapy in Idaho while
on inactive status.
(7-1-21)T

361. -- 374. (RESERVED)

375. SENIOR STATUS.

01. Request for Senior Status. Each person having attained the age of sixty-five (65) and requesting a
senior status during the renewal of their active license must submit a written request and pay the established fee.
(7-1-21)T

02. Continuing Education. Continuing education must be completed annually per Section 425 of this
rule.
(7-1-21)T

376. -- 424. (RESERVED)

425. CONTINUING EDUCATION. 
All licensees must complete in each twenty-four-month period preceding the renewal of a license, forty (40) contact
hours of continuing education. A contact hour is one (1) hour of actual participation in a continuing education
activity, exclusive of breaks. 
(7-1-21)T

01. Contact Hours. The contact hours of continuing education must be obtained in areas of study
germane to the practice for which the license is issued as approved by the Board. No less than six (6) contact hours
for each renewal period must be in ethics, which must be specific to legal issues, law, or ethics. Therapeutic
workshops, retreats and other self-help activities are not considered continuing education training unless specific
parts of the experience are applicable to counseling or therapy practice. 
(7-1-21)T

02. Documentation of Attendance. Each licensee must maintain documentation verifying hours of
attendance by securing authorized signatures or other documentation from the course instructors, providers, or
sponsoring institution. This documentation is subject to audit and must be provided upon request by the Board or its
agent.
(7-1-21)T

03. Approved Contact Hours, Limitations, and Required Documents. 
(7-1-21)T

a. College or University Courses for Credit or Audit. There is no limit to the contact hours that a
licensee may obtain in this category during each reporting period. However, all courses are subject to Board approval.
For college or university courses, one (1) semester credit equals fifteen (15) contact hours; one (1) quarter credit
equals ten (10) contact hours. The licensee must provide the Board with a copy of the licensee's transcript
substantiating any hours attended by the licensee. 
(7-1-21)T

b. Seminars, Workshops, Conferences. There is no limit to the contact hours that a licensee may
obtain in this category during each reporting period. Verifying documentation is a copy of the certificate, or letter
signed by course instructors, providers, or sponsoring institution substantiating any hours attended by the licensee.
(7-1-21)T

c. Publications. A maximum of eight (8) contact hours may be counted in this category during each
reporting period. Publication activities are limited to articles in journals, a chapter in an edited book, or a published
book or professional publication. Verifying documentation is a copy of the cover page or the article or book in which
the licensee has been published. For a chapter in an edited book the licensee must submit a copy of the table of
contents.
(7-1-21)T

d. Presentations. A maximum of eight (8) contact hours may be counted in this category during each
reporting period. Class, conference, or workshop presentations may be used for contact hour credit if the topic is
germane to the field. A specific presentation given repeatedly can only be counted once. A particular presentation
will qualify for contact hour credit one (1) time in a five (5) year period. Only actual presentation time may be counted; preparation time does not qualify for contact hour credit. Verifying documentation is a copy of the conference program or a letter from the sponsor, host organization, or professional colleague. (7-1-21)

e. Clinical Supervision and Case Consultation. A maximum of ten (10) contact hours of received supervision/consultation may be counted in this category during each reporting period. In order to qualify for contact hour credit, supervision/consultation must be received on a regular basis with a set agenda. No credit will be given for the licensee's supervision of others. Verifying documentation is a letter from the supervisor or consultant listing periods of supervision or consultation. (7-1-21)

f. Dissertation. A maximum of ten (10) contact hours may be counted in this category during each reporting period. Verifying documentation is a copy of the licensee's transcript and the title of the dissertation. (7-1-21)

g. Leadership. A maximum of eight (8) contact hours may be counted in this category during each reporting period. Verifying documentation is a letter from a professional colleague listing the position of leadership, periods of leadership, and the name of the organization under which the leadership took place. The following leadership positions qualify for continuing education credits:

i. Executive officer of a state or national counseling or therapy organization; (7-1-21)

ii. Editor or editorial board service of a professional counseling or therapy journal; (7-1-21)

iii. Member of a national ethics disciplinary review committee rendering licenses, certification, or professional membership; (7-1-21)

iv. Active member of a counseling or therapy working committee producing a substantial written product; (7-1-21)

v. Chair of a major counseling or therapy conference or convention; or (7-1-21)

vi. Other leadership positions with justifiable professional learning experiences. (7-1-21)

h. Home Study and On-line Education. There is no limit to the contact hours that a licensee may obtain in this category during each reporting period. Home study or on-line courses qualify for contact hours, provided that the course is provided by a Board-approved continuing education provider or a course pre-approved by the Board. Verifying documentation is a copy of the certification that is verified by the authorized signatures from the course instructors, providers, or sponsoring institution and substantiates any hours completed by the licensee. A licensee seeking contact credit for reading a publication must submit results from a test on the information contained within the publication and administered by an independent third-party. (7-1-21)

i. Board Meetings. Continuing education credit may be granted for a maximum of four (4) hours each renewal period for time spent attending two (2) Board meetings. (7-1-21)

04. Waiver. The Board may waive continuing education requirements for reasons of individual hardship, including health (certified by a medical doctor) or other good cause. The licensee must request such waiver prior to renewal and provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board. (7-1-21)

426. – 524. (RESERVED)

525. DOCUMENTATION OF INFORMED CONSENT.
In accordance with Section 54-3410A, Idaho Code, all licensees and registered interns will document the process of obtaining the informed consent of clients at the beginning of treatment and at other times as appropriate. Licensees and interns must adhere to their respective Codes of Ethics and state law in obtaining informed consent and disclosing information to clients. The receipt of the disclosure must be acknowledged in writing by both the client and the licensee or intern, and such disclosure of information concerning their practice must include:
01. Name, Business Address and Phone Number of Licensee or Intern. If the licensee or intern is practicing under supervision, the statement must include the licensee or intern status as such and the designated qualified supervisor’s name, business address and phone number; (7-1-21)T

02. License Type and License Number, Credentials, and Certifications. (7-1-21)T

03. Education. Education with the name(s) of the institution(s) attended and the specific degree(s) received; (7-1-21)T

04. Theoretical Orientation and Approach. Counseling or marriage and family therapy; (7-1-21)T

05. Relationship. Information about the nature of the clinical relationship; fee structure and billing arrangements; cancellation policy; (7-1-21)T

06. The Extent and Limits of Confidentiality. (7-1-21)T

07. Written Statement. A statement that sexual intimacy is never appropriate with a client and should be reported to the board. (7-1-21)T

08. Client’s Rights. The client’s rights to be a participant in treatment decisions, to seek a second opinion, to file a complaint without retaliation, and to refuse treatment. (7-1-21)T

09. Board Information. The name, address, and phone number of the Board with the information that the practice of licensees and interns is regulated by the Board. (7-1-21)T

526. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-3309. (7-1-21)

001. SCOPE.
These rules govern the practice of denturitry in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.
01. Denturist Services. For purposes of the unconditional ninety (90) day guarantee prescribed in Section 54-3320(c), Idaho Code, denturist services include any and all prosthetic dental appliances and materials and/ or services related to the furnishing or supplying of such a denture, including preparatory work, construction, fitting, furnishing, supplying, altering, repairing or reproducing any prosthetic dental appliance or device. (7-1-21)

02. Denture Technician. A person who is limited to making, constructing, altering, reproducing or repairing of a full upper or lower removable prosthetic denture, the repairing of a removable partial upper or lower prosthetic denture but is not allowed to make an impression or come in direct contact with a patient. (7-1-21)

011. -- 149. (RESERVED)

150. EXAMINATIONS.
01. Date of Licensure Examination. The licensure examination will be held no less than two (2) times per year at such times and places as may be determined by the Board. (7-1-21)

02. Content. Examinations include both a written theory examination and a practical demonstration of skills. (7-1-21)

03. Grading. An applicant must obtain a score of seventy-five percent (75%) or better on each part of the examination in order to pass the examination. (7-1-21)

04. Re-Examination.
a. Applicants who fail either part or all of the examination will be required to make application and pay the required fees prior to being eligible to retake the failed part of the examination. (7-1-21)
b. Applicants failing either part or all of the examination on the first attempt will not be required to complete any additional instruction prior to being eligible to make application and retake the examination. (7-1-21)
c. Applicants failing either part or all of the examination on a second attempt and all subsequent attempts are not eligible to make application and retake the examination within one (1) year of the date of the examination failure. The Board may recommend additional course work or clinical work for any applicant who has failed an examination two (2) or more times. (7-1-21)

151. -- 199. (RESERVED)

200. APPLICATIONS.
01. Application Form for Licensure. Applications for licensure must be made on forms approved by the Board and furnished by the Division of Occupational and Professional Licenses and include all other documents necessary to establish the applicant meets the requirements for licensure except examination and is eligible to take the licensure examination. (7-1-21)

02. Authorization for Examination.
a. After the Board evaluates the applicant’s qualifications to take the examination the applicant will be notified in writing of the approval or denial, and, if denied, the reason for the denial. (7-1-21)
b. At the time the Board approves an applicant to take the examination the Board will set the date and location(s) of the next examination if it has not already been set. Approved applicants will be notified of the date and
location(s) of the next examination. (7-1-21)

201. -- 249. (RESERVED)

(7-1-21)

251. -- 299. (RESERVED)

300. INTERNSHIP.

01. Requirements and Conditions for Internship. (7-1-21)

a. To be eligible for internship the applicant must have completed:
   i. The educational requirements set forth in Section 54-3310(b), Idaho Code; or
   ii. Have denturist experience of three (3) years within the five (5) years immediately preceding application. (7-1-21)

b. Where an internship is established based on experience, the internship is valid only while the intern is actively pursuing completion of Idaho licensure requirements. (7-1-21)

c. Application must be made on forms provided by the Division of Occupational and Professional Licenses and must:
   i. Document the location of practice; (7-1-21)
   ii. Include the name and address of the supervising denturist or dentist; (7-1-21)
   iii. Include a sworn or affirmed statement by the supervising denturist or dentist; (7-1-21)
   iv. Include a sworn or affirmed statement by the supervisor accepting supervision of the intern; (7-1-21)
   v. Include a sworn statement by applicant that he is knowledgeable of law and rules and will abide by all requirements of such law and rules; and (7-1-21)
   vi. Include such other information necessary to establish applicant's qualifications for licensure as a denturist and establish compliance with pre-intern requirements. (7-1-21)

d. The supervising denturist or dentist must be present and directly observe any intern interaction with a patient. (7-1-21)
02. Internship Equivalency. A person is considered to have the equivalent of two (2) years internship under a licensed denturist who has met and verifies one (1) of the following within the five (5) years immediately preceding application:

a. Two (2) years internship as a denture lab technician under a licensed dentist; or

b. Two (2) years in the military as a denture lab technician; or

c. Three (3) years experience as a denturist under licensure in another state or Canada.

03. Internship Not to Exceed One Year. Internship not to exceed one (1) year acquired through a formal training program in an acceptable school will be accepted toward the two (2) year required internship for licensure.

04. Training Requirements. Each year of required internship consists of two thousand (2,000) clock hours of training and performance of the following minimum procedures for licensure.

a. Procedures include all steps required in constructing a finished denture but are not limited to the following:

i. Patient charting -- thirty-six (36) minimum.

ii. Operatory sanitation -- thirty-six (36) minimum.

iii. Oral examination -- thirty-six (36) minimum.

iv. Impressions, preliminary and final (pour models, custom trays) -- thirty-six (36) minimum.

v. Bite registrations -- twelve (12) minimum.

vi. Articulations -- twelve (12) minimum.

vii. Set ups -- twelve (12) minimum.

viii. Try ins -- twelve (12) minimum.

ix. Processing (wax up, flask-boil out, packing, grind-polish) -- thirty-six (36) minimum.

x. Delivery-post adjustment -- thirty-six (36) minimum.

b. Processed relines (one (1) plate = one (1) unit) -- twenty-four (24) units.

c. Tooth repairs -- forty-eight (48) minimum.

d. Broken or fractured plates or partials -- forty-eight (48) minimum.

05. Reporting Requirements. Interns must file reports, attested to by the supervisor, with the Board on forms provided by the Division of Occupational and Professional Licenses on a monthly basis and recapped at termination or completion of the training.

06. Denture Clinic Requirements. Denture clinic requirements for approved internship training:

(7-1-21)T
Section 315

07. Internship Supervisor Requirements.

a. A supervisor must:
   i. Be approved in advance by the Board for each internship.
   ii. Not have been the subject of any disciplinary action by the Board, by the Idaho Board of Dentistry or by any other jurisdiction for five (5) years immediately prior to being approved as the supervisor.

b. A supervisor that is a denturist must:
   i. Hold an Idaho denturist license that is current and in good standing and is renewed as provided in these rules; and
   ii. Have actively practiced denturist for at least three (3) of the five (5) years immediately prior to being approved as the supervisor.

c. A supervisor that is a dentist must:
   i. Hold an Idaho dentist license that is current and in good standing and is renewed as provided in Chapter 9, Title 54, Idaho Code; and
   ii. Have actively practiced general dentistry, or a dental specialty accepted by the Board, for at least three (3) of the five (5) years immediately prior to being approved as a supervisor.

d. Supervise only one (1) intern. A supervisor will not be approved to supervise more than one (1) intern at a time.

e. Termination of supervisor approval. Approval of the supervisor immediately terminates if the supervisor is disciplined or ceases to meet supervisor requirements.
3311(b), Idaho Code and may also include ethics courses. (7-1-21)T

02. Request for Approval. Requests for approval of continuing education programs must be made to the Board, in writing, and provide an outline of the program which the Board is being asked to approve. The request must also address the matters set forth in Subsection 350.05 below. Requests may accompany the annual renewal form or may be made to the Board in advance of the program for which approval is sought as indicated in Subsection 350.03, below. (7-1-21)T

03. Requests for Pre-Approval. Requests for pre-approval of continuing education programs must be made to the Board, in writing, and provide an outline of the program which the Board is being asked to approve. Requests for pre-approval must also address the matters set forth in Subsection 350.05 below. (7-1-21)T

a. Requests for pre-approval must be received by the Division of Occupational and Professional Licenses no less than eleven (11) working days prior to the date of the program. (7-1-21)T

b. Requests for pre-approval which are not denied within ten (10) working days from receipt by the Division will be deemed approved. (7-1-21)T

c. Only those continuing education programs sponsored by recognized educational institutions (such as accredited colleges or universities), state or national denturist boards or associations, will be eligible for pre-approval consideration by the Board. All other programs will be considered at the time of renewal. (7-1-21)T

04. Credit for Continuing Education Attendance. Continuing education credit will be given only for actual time in attendance by the licensee. No credit will be given for non-instructive time. Correspondence or Home Study courses are not eligible for continuing education credits. (7-1-21)T

05. Requests for Approval of Programs. All requests for approval or pre-approval of educational programs must be accompanied by a statement that includes the name of the instructor or instructors, the date and time and location of the course, the specific agenda for the course, and a statement by the licensee of how the course is believed to be pertinent to the practice of denturitry as specified in Section 54-3311(b), Idaho Code. (7-1-21)T

351. -- 399. (RESERVED)

400. INSPECTIONS.

01. Who May Examine or Inspect. The Board or its agents may examine and inspect the place of business of any denturist at anytime during business hours or upon at least seventy-two (72) hours notice made by U.S. mail to the address of record of the denturist when the Board or its agents are unable to establish the regular business hours. (7-1-21)T

02. Reason for Inspection. Inspections are made to insure compliance with the Standards of Conduct and practice set forth in Section 450. Deficiencies are a violation of Section 450 and actionable against the denturist under Section 54-3314(c), Idaho Code. (7-1-21)T

401. -- 449. (RESERVED)

450. STANDARDS OF CONDUCT AND PRACTICE.

01. Sanitation. (7-1-21)T

a. There must be three (3) separate rooms; a reception room, and operatory room and a laboratory. (7-1-21)T

b. The operatory room must have hot and cold running water, basin with approved disposal system; disinfectant soap; single-use towels, a cuspidor with running water and a closed waste receptacle. (7-1-21)T

c. The laboratory room must have hot and cold running water, and basin with approved disposal
system.  

d. There must be a method of sterilization and disinfection evident and in use to insure the protection of the public.  

e. All floors, walls, ceiling and benches must be kept in a sanitary condition at all times.  

f. Every patient must have a separate and clean bib and a disposable cup.  

g. The hands of every denturist must be washed in the presence of every patient with germicidal or antiseptic soap and water. Every denturist must wear disposable gloves.  

h. Adequate and conveniently located toilet facilities with hot and cold running water, basin with approved disposal system, soap and single use towels will be provided within the building.  
i. All denturist offices are open to inspection anytime during the business hours to inspection by the Board or its agents.  

02. Office Standards.  

a. Denturists must take care to use proper sterilization and sanitation techniques in all phases of their work.  

b. A complete record of each patient must be kept.  

c. All teeth and materials used must meet ADA standards.  

03. Advertisements.  

a. No denturist may disseminate or cause the dissemination of any advertisement or advertising that is any way fraudulent, false, deceptive or misleading.  

04. General Conditions.  

a. Conditions deemed by investigators to be a menace to the public health will be brought to the attention of the Board for consideration and immediate action.  

b. These Standards of Conduct and Practice must be conspicuously posted in every licensed denturist’s place of business.  

05. Patient Record. A denturist must record, update and maintain documentation for each patient relevant to health history, clinical examinations and treatment, and financial data. Documentation must be written or computerized. Records must be maintained in compliance with any applicable state and federal laws, rules and regulations, including the health insurance portability and accountability act (HIPAA), P.L. 104-191 (1996), and the health information technology for economic and clinical health act (HITECH), P.L. 111-115 (2009). Such records must be accessible to other providers and to the patient in accordance with applicable laws, rules and regulations. Records must include, but are not limited to, the following:  

a. Patient data, including name, address, date and description of examination;  
b. Evidence of informed consent;  
c. Date and description of treatment, services rendered, and any complications;  
d. Health history as applicable; and  
e. Any other information deemed appropriate to patient care.
06. **Record Retention.** Patient documentation, written or archived electronically by computer, must be retained for a minimum of seven (7) years and available upon request by the Board. (7-1-21)T

451. -- 474. (RESERVED)

475. **REGISTRATION STATEMENT.**
To enable the Board to examine or inspect the place of business of any licensed denturist as referred to in Section 54-3314(5)(b), Idaho Code, the filing of an annual statement is required of all licensed denturists. (7-1-21)T

01. **Statement.** must list the name and principal place of business of the denturist who is responsible for the practice of denturitry at that location. (7-1-21)T

02. **Other Business Locations.** Any other business locations maintained by the principal denturist and all denturists employed at the business. (7-1-21)T

03. **Date of Filing.** must be filed with the Board annually or within ten (10) days of any change in either location, identity of principal denturist or denturist employees. (7-1-21)T

04. **Failure to Timely File.** Failure to timely file or update this statement will constitute grounds for discipline pursuant to Section 54-3314(a), Idaho Code. (7-1-21)T

476. **GUARANTEE OF DENTURIST SERVICES.**
As prescribed in Section 54-3320(c), Idaho Code, unconditional guarantee of denturist services will require that the licensee refund, in full, any monies received in connection with the providing of denturist services, if demanded by the purchaser within ninety (90) days of delivery of the dentures, or the providing of services for which a fee is charged. (7-1-21)T

01. **Ninety Day Period.** The ninety (90) day period will be tolled for any period in which the denturist has taken possession or control of the dentures after original delivery. (7-1-21)T

02. **Written Contract.** By written contract signed by the purchaser, the denturist may specify the amount of the purchase price of the dentures, if any, that is nonrefundable should the consumer choose to cancel the purchase within the guarantee period. (7-1-21)T

03. **Nonrefundable Amount.** Under no circumstances will the nonrefundable amount exceed twenty-five percent (25%) of the total purchase price of the dentures. (7-1-21)T

04. **Limitation.** There is no limitation on the consumer’s right to cancel. (7-1-21)T

05. **Cancellation of Agreement.** If the licensee elects to cancel the agreement or refuses to provide adjustments or other appropriate services to the consumer, the consumer will be entitled to a complete refund. (7-1-21)T

477. -- 479. (RESERVED)

480. **DISCIPLINE.**

01. **Civil Fine.** The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed denturist for each violation of Section 54-3314(a), Idaho Code. (7-1-21)T

02. **Costs and Fees.** The Board may order a licensed denturist to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Section 54-3314(a), Idaho Code. (7-1-21)T

481. -- 999. (RESERVED)
24.17.01 – RULES OF THE STATE BOARD OF ACUPUNCTURE

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-4705, Idaho Code. (7-1-21)T

001. SCOPE.
These rules review and establish the minimum requirements for licensure/certification of acupuncturists. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Accredited College or University. An accredited college or university is a college or university accredited by an accrediting organization approved by the U.S. Department of Education. (7-1-21)T

02. Approved Acupuncture Program. A formal full-time acupuncture educational program that has met the standards of the Accreditation Commission for Acupuncture and Oriental Medicine or an equivalent educational body. An acupuncture program may be established as having satisfied this requirement by obtaining:

a. Accreditation; or

b. Candidacy for accreditation; or

c. An equivalent evaluation performed by a private, state government, or foreign government agency recognized for that purpose by the NCCAOM (National Certification Commission for Acupuncture and Oriental Medicine) Eligibility Committee. (7-1-21)T

03. License. Any license or certification issued to a qualified applicant pursuant to the laws and rules of the Board, permitting said applicant to practice acupuncture in the state of Idaho. (7-1-21)T

04. Practitioner. A person to whom a license, certification, or acupuncture trainee has been issued pursuant to Title 54, Chapter 47, Idaho Code. (7-1-21)T

011. -- 199. (RESERVED)

200. QUALIFICATIONS FOR LICENSURE OR CERTIFICATION.

01. Requirements for Licensure. Applicants for licensure must submit a complete application, required fee, and official certified documentation of either:

a. Certification from NCCAOM; or

b. Graduation from an approved formal full-time acupuncture program of at least one thousand seven hundred twenty-five (1,725) hours of entry-level acupuncture education which includes a minimum of one thousand (1000) hours of didactic course work and five hundred (500) clinical hours practice; and

c. Successful completion of an acupuncture internship, or other equivalent experience as approved by the Board; and

d. Receipt of a passing grade on an NCCAOM Acupuncture certification examination; or

e. Other demonstration of proficiency as uniformly required by the Board for other similarly qualified applicants for licensure; and

f. Successful completion of a Blood Borne Pathogen course and comprehensive examination that incorporates clean needle techniques and OSHA procedures and requirements. (7-1-21)T

201. ACUPUNCTURE TRAINEE PERMIT.
The Board may issue an acupuncture trainee permit to allow a person to engage in the practice of acupuncture while actively pursuing licensure or certification. The permit will expire one (1) year from date of issue. The permit may be extended in accordance with Section 54-4708, Idaho Code. The holder of an acupuncture trainee permit may only practice under the supervision of a person licensed or certified under this chapter who meets the requirements in
Section 404 of these rules. An applicant for a permit must present evidence satisfactory to the Board of meeting the following requirements:

01. **Education.** An applicant must submit documentation of either:

   a. Current enrollment in an Approved Acupuncture Program and actively pursuing completion of the program; or

   b. Satisfaction of the requirement for certification as set forth in Section 54-4707, Idaho Code.

02. **Supervision.** Submission of a supervision plan specifying at a minimum the name of the supervisor and the setting and location where the permit holder will practice. A supervision plan may be approved by a designated Board member.

202. -- 225. (RESERVED)

226. **REQUEST FOR APPROVAL OF QUALIFICATION.**

01. **Course Review.** A person or entity may request approval of a course of study in acupuncture that will be offered to qualify applicants for a credential to practice acupuncture. The request must include a complete description of the required hours, scope and extent of academic and other training and clinical experience offered through the course along with appropriate supporting documentation and course materials. The request must also designate whether approval is sought for compliance with standards for certification.

02. **Individual Qualification.** An applicant may request approval of his individual qualification for licensure or certification in acupuncture. The request must include a complete description of the number of hours, scope and extent of academic and other training and clinical experience the individual has received along with available supporting documentation. The request must also designate whether qualification is sought for licensure or certification. A demonstration of proficiency or examination may be required as a part of the determination of the individual’s qualification.

227. -- 299. (RESERVED)

300. **FEES.**
All fees are non-refundable:

301. **REINSTATEMENT OF LICENSE.**
The applicant must submit proof of having met the continuing education required of licensees by Section 305 through 307 of these rules as follows:

01. **Expired for One Year or Less.** For licenses or certificates expired for one (1) year or less, one (1)
year of continuing education;

02. Expired More than One Year. For licenses or certificates expired for more than one (1) year, two (2) years of continuing education.

302. INACTIVE STATUS.
A currently licensed or certified practitioner may request in writing to have their license placed on inactive status and pay the inactive status fee. Such request must be made prior to the expiration date of the license.

01. Waiving Continuing Education Requirements – Inactive Status. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license.

02. Return to Active Status.

a. A licensee desiring to return to active status must complete the equivalent of one (1) year of continuing education for every year the license was inactive and submit a fee equivalent to the difference between the inactive fee and renewal fee.

b. For licenses inactive five (5) years or greater, the licensee shall complete forty-five (45) hours of continuing education and either provide proof that the licensee has actively engaged in the practice of acupuncture in another state or territory of the United States for at least three (3) of the immediately preceding five (5) years, or provide proof that the licensee is competent to practice acupuncture in Idaho.

c. The Board may consider the following factors when determining proof of competency:

   i. Practice of acupuncture in another jurisdiction;
   ii. Number of years of practice prior to transfer from active status;
   iii. Completion of continuing education courses;
   iv. Employment in a field similar to acupuncture; and
   v. Any other factors the Board deems appropriate.

303. -- 304. (RESERVED)

305. CONTINUING EDUCATION REQUIREMENTS.
In order to further protect the public health and to facilitate the administration of the Acupuncture Act, the Board has adopted the following requirements:

01. Requirement. All practitioners are required to complete a minimum of fifteen (15) hours of continuing education within the preceding twelve (12) months. A minimum of ten (10) hours of continuing education must be from Category I topics, and a maximum of five (5) hours of continuing education may be from Category II topics, as set forth in Sections 306 and 307 of these rules.

02. Verification of Attendance. Each licensee must maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any hours attended by the applicant. This verification must be maintained by the licensee for no less than four (4) years and provided to the Board upon the request of the Board or its agent.

03. Distance Learning and Independent Study. The Board may approve a course of study for continuing education credit that does not include the actual physical attendance of the applicant in a face-to-face setting with the course instructor. Distance Learning or Independent Study courses are eligible for continuing education credits if approved by NCCAOM or upon approval of the Board.

04. Special Exemption. The Board has authority to make exceptions for reasons of individual
hardship. The licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board. (7-1-21)

05. Carryover. A continuing education course taken in a renewal year, but not claimed for continuing education credit in that year, may only be claimed for credit in the following renewal year. (7-1-21)

06. Credit for Teaching. Licensees may earn continuing education credit by teaching Board-approved courses. A licensee will earn one (1) credit hour for every two (2) hours of teaching. Credit for teaching will not exceed five (5) hours of the total continuing education hours required for a renewal period and will be credited to the category of the topic taught. (7-1-21)

306. APPROVAL OF CONTINUING EDUCATION COURSES.
Approved continuing education courses are those courses, programs, and activities that are approved or provided by the following entities or organizations, or otherwise approved by the Board: (7-1-21)

01. NCCAOM; (7-1-21)

02. Accredited Schools. Acupuncture and oriental medicine; and (7-1-21)

03. Other Courses May Be Approved by the Board. Other courses may be approved based upon documentation submitted by the licensee or course provider. All requests for approval or pre-approval of educational programs must be made to the Board in writing, and must be accompanied by a statement that includes the name of the instructor or instructors, the date and time and location of the course, the specific agenda for the course, the number of continuing education credit hours requested, and a statement of how the course is believed to be pertinent to the practice of acupuncture. (7-1-21)

307. CONTENT OF CONTINUING EDUCATION COURSES.
The content of a continuing education course must be germane to the practice of acupuncture as defined in Section 54-4702, Idaho Code, and: (7-1-21)

01. Category I. Category I courses relate to the following topics: (7-1-21)
   a. Acupuncture and the practice of acupuncture as defined in Section 54-4702, Idaho Code including topics that directly concern the history and theory of acupuncture, oriental medicine diagnosis and treatment techniques, and techniques of adjunctive oriental medicine therapies; (7-1-21)
   b. The role of acupuncture in individual and public health, such as emergencies and disasters; or (7-1-21)
   c. Research and evidence-based medicine as related to acupuncture and Asian medicine; (7-1-21)

02. Category II. Category II courses relate to the following topics: (7-1-21)
   a. Western biomedicine and biological sciences; (7-1-21)
   b. Scientific or clinical content with a direct bearing on the quality of patient care, community or public health, or preventive medicine; (7-1-21)
   c. Laws and ethics; (7-1-21)
   d. Enhancement of effective communication with other medical practitioners; (7-1-21)
   e. Behavioral sciences, patient counseling, and patient management and motivation when such courses are specifically oriented to the improvement of patient health; (7-1-21)
   f. Practice management unrelated to clinical matters and direct patient care, including, but not limited to, administrative record keeping, insurance billing and coding, and general business organization and management; (7-1-21)
or

308. -- 400. (RESERVED)

401. RECORDS.
A practitioner must keep accurate records of each patient the practitioner treats. The records must at a minimum include the name of the patient and the indication and nature of treatment given. Records must be kept on file for a minimum of five (5) years. A patient’s records will be made available to the patient within thirty (30) days of a request.

402. (RESERVED)

403. EMPLOYMENT OF UNLICENSED, NON-EXEMPT INDIVIDUALS.
Individuals who do not have a license and are not exempt from licensure may not perform any insertion of acupuncture needles or use similar devices and therapies, including application of moxibustion. They may only support the practitioner’s professional practice by performing office and ministerial acts related to acupuncture. The practitioner is responsible for the services provided by such employees.

404. SUPERVISION OF TRAINEES.
A licensed or certified acupuncturist providing supervision to trainees shall be responsible for the services provided by such individuals. Failure to adequately supervise such an individual may subject the supervisor to discipline.

01. Qualifications of Supervisors. Prior to providing supervision to a trainee, a supervisor must:

a. Have held a current acupuncture license or certification without restriction for a minimum of five (5) years.

b. Have not been the subject of any disciplinary action within the preceding five (5) years, provided that the Board may in its discretion approve a supervisor with disciplinary action for failing to complete continuing education requirements.

02. Supervision. For the first one hundred (100) hours of practice, the supervisor must provide supervision in person when the trainee is providing treatment. After the first one hundred (100) hours of practice, the supervisor may provide supervision by making themselves accessible to the trainee by telephone, or video conferencing, provided that the trainee has successfully completed the requirement in Paragraph 404.02.a. of this rule, and provided that the supervisor meets with the trainee in person on at least a monthly basis during which time the supervisor must review case studies and require the trainee to demonstrate acupuncture point location and needle placement technique.

a. Before providing treatment without in-person supervision, the trainee must successfully complete a Blood Borne Pathogen course and comprehensive examination that incorporates clean needle techniques and OSHA procedures and requirements.

b. The supervisor must provide the trainee with adequate training, which must include at a minimum charting, diagnosis, and treatment plans, and opportunities for the trainee to complete at least twenty-five (25) case studies.

c. The supervisor and trainee must keep adequate records of supervision, which shall include at a minimum, summary of case studies in progress or completed by the trainee under supervision, treatment plan for each patient, and the dates of supervision.

03. Continuing Education. A supervisor may annually count up to ten (10) hours of supervision of a
trainee toward the Category I continuing education requirements. Supervision hours not claimed in the current renewal year may be claimed in the next renewal year. A maximum of ten (10) hours may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year. (7-1-21)

04. **Completion of Supervision.** At the conclusion of supervision of a trainee, the supervisor must verify the hours of supervision, the type of supervision provided to the trainee, and the documentation of at least twenty-five (25) case studies by the trainee. (7-1-21)

05. **Termination of Supervision or Change in Supervisor.** A supervisor may terminate supervision at any time by submitting written notice of termination to the Board. (7-1-21)

405. **ADVERTISING.**
A practitioner shall not disseminate or cause the dissemination of any advertisement or advertising including offers, statements, or other representations, which is in any way fraudulent, false, deceptive, or misleading. (7-1-21)

406. – 574. (RESERVED)

575. **DISCIPLINE.**

01. **Civil Fine.** The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensee for each violation of Section 54-4711, Idaho Code. (7-1-21)

02. **Costs and Fees.** The Board may order a licensee to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Section 54-4711, Idaho Code. (7-1-21)

576. -- 999. (RESERVED)
24.18.01 – RULES OF THE REAL ESTATE APPRAiser BOARD

000. LEGAL AUTHORITY.
These rules are adopted under Section 54-4106, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of real estate appraisal in Idaho. (7-1-21)T

002. – 003. (RESERVED)

004. INCORPORATION BY REFERENCE.
The document titled “Uniform Standards of Professional Appraisal Practice (USPAP),” 2020-2021 Edition, excluding standards 7, 8, 9, and 10, published by the Appraisal Foundation and effective January 1, 2020, is herein incorporated by reference and is available for review at the Board’s office and may be purchased from the Appraisal Foundation, Distribution Center, P. O. Box 381, Annapolis Junction, MD 20701-0381. (7-1-21)T

005. – 009. (RESERVED)

010. DEFINITIONS.

01. Accredited. Accredited by the Commission on Colleges, a regional or national accreditation association, or by an accrediting agency that is recognized by the U.S. Secretary of Education. (7-1-21)T

02. Advisory Committee. A committee of state certified or licensed real estate appraisers appointed by the board to provide technical assistance relating to real estate appraisal standards and real estate appraiser experience, education and examination requirements that are appropriate for each classification of state certified or licensed real estate appraiser. (7-1-21)T

03. Appraiser Qualifications Board. Appraiser Qualifications Board of the Appraisal Foundation establishes the qualifications criteria for licensing, certification and recertification of appraisers. (7-1-21)T

04. Appraisal Standards Board. The Appraisal Standards Board of the Appraisal Foundation develops, publishes, interprets and amends the Uniform Standards of Professional Appraisal Practice (USPAP) on behalf of appraisers and users of appraisal services. (7-1-21)T

05. Classroom Hour. Fifty (50) minutes out of each sixty (60) minute hour in a setting which may include a classroom, conference/seminar, on-line or a virtual classroom. (7-1-21)T

06. Field Real Estate Appraisal Experience. Personal inspections of real property, assembly and analysis of relevant facts, and by the use of reason and the exercise of judgment, formation of objective opinions as to the market or other value of such properties or interests therein and preparation of written appraisal reports or other memoranda showing data, reasoning, and conclusion. Professional responsibility for the valuation function is essential. (7-1-21)T

07. FIRREA. Title XI, Financial Institutions Reform, Recovery and Enforcement Act of 1989, as amended, was designed to ensure that more reliable appraisals are rendered in connection with federally related transactions. (7-1-21)T

08. Real Estate. In addition to the previous definition in Section 54-4104(12), Idaho Code, will also mean an identified parcel or tract of land, including improvements, if any. (7-1-21)T

09. Real Property. In addition to the previous definition in Section 54-4104(12), Idaho Code, will also mean one or more defined interests, benefits, or rights inherent in the ownership of real estate. (7-1-21)T

10. Residential Unit. Real estate with a current highest and best use of a residential nature. A residential unit includes a kitchen and a bathroom. (7-1-21)T

11. Uniform Standards of Professional Appraisal Practice or USPAP. Those uniform standards adopted by the Appraisal Foundation’s Appraisal Standards Board. These standards may be altered, amended, interpreted, supplemented, or repealed by the Appraisal Standards Board (ASB) from time to time. (7-1-21)T

12. USPAP Course. For the purposes of licensure and license renewal, any reference to the approved USPAP course means the National USPAP Course provided by Appraisal Qualifications Board Certified USPAP...
Instructors and Educational Providers. (7-1-21)T

13. **Appraisal Management Company or AMC.** Appraisal Management Company or AMC means a natural person or organization that meets the definition in Section 54-4122, Idaho Code, and is registered under the Idaho Appraisal Management Company Registration and Regulation Act. (7-1-21)T

011. -- 149. (RESERVED)

150. **FEES.**

Fees are non-refundable and established in accordance with Sections 54-4113, 54-4124, and 54-4134, Idaho Code, as follows:

01. **Fees Followed by One Asterisk (*) Means.** Proposed fees for these categories marked with an asterisk (*) include forty dollars ($40) to be submitted by the state to the federal government. Title XI, Section 1109 of the FIRREA as amended requires each state to submit a roster listing of state licensed appraisers to the Appraisal Subcommittee of the Federal Financial Institutions Examination Council “no less than annually.” The state is also required to collect from such individuals who perform appraisals in federally related transactions an annual registry fee of “not more than eighty-five dollars ($85),” such fees to be transmitted by the state to the federal government on an annual basis. This fee is subject to change by the Appraisal Subcommittee. (7-1-21)T

02. **Fees Followed by Two Asterisks (**) Means.** The fees for the categories marked with two (2) asterisks (**) do not include additional fees assessed pursuant to Title XI, Section 1109 of the FIRREA, as amended, including, but not limited to, an AMC registry fee, such fees to be collected from AMCs by the state and transmitted to the federal government on an annual basis. (7-1-21)T

151. -- 199. (RESERVED)

200. **APPLICATION.**

01. **Appraiser License Application.** Any person desiring to apply for licensure must submit a completed application with required supporting documents and appropriate fees to the Division at its official address. After the qualifications have been reviewed, verified and approved by the Board, the applicant will receive the pre-approved examination card and must submit the appropriate fees to the examining entity. (7-1-21)T
02. **Eligibility for Examination.** The qualified applicant will be sent notification on how to register for the examination subsequent to the determination of eligibility based on documentation that the applicant has met the required education and experience requirements. (7-1-21)T

03. **Trainee Registration Application.** Any person desiring registration as a trainee must submit a completed application with required supporting documents and appropriate fees to the Division at its official address. (7-1-21)T

04. **AMC Registration Application.** Any person or organization desiring registration as an AMC must submit a completed application with required supporting documents and appropriate fees to the Division at its official address. (7-1-21)T

201. -- 249. (RESERVED)

250. **REQUIREMENTS FOR LICENSURE.**
All applicants for licensure in any real estate appraiser classification must comply with the following education, experience and examination requirements in addition to meeting those requirements set forth in Sections 275, 300, 350, and 400 below. (7-1-21)T

01. **Education.** Classroom hours will be credited only for courses with content that follows the Required Core Curriculum as outlined by the Appraisal Qualification Board. (7-1-21)T

a. Credit toward the classroom hour requirement may only be granted where the length of the educational offering is at least fifteen (15) hours, and the individual successfully completes a closed-book examination pertinent to the educational offering. In addition, distance education courses intended for use as qualifying education must include a written, closed-book final examination - proctored by an official approved by the college or university or by the sponsoring organization. The term “written” as used herein refers to an exam that might be written on paper or administered electronically on a computer workstation or other device. Oral exams are not acceptable. The testing must be in compliance with the examination requirements of this section. (7-1-21)T

b. Credit for the classroom hour requirement may be obtained from the following: (7-1-21)T

i. Colleges or Universities. (7-1-21)T

ii. Community or Junior Colleges. (7-1-21)T

iii. Courses approved by the Appraisal Qualifications Board. (7-1-21)T

iv. State or Federal Agencies or Commissions. (7-1-21)T

v. Other providers approved by the Board. (7-1-21)T

c. Only those courses completed preceding the date of application will be accepted for meeting educational requirements. (7-1-21)T

d. Course credits that are obtained from the course provider by challenge examination without attending the course will not be accepted. (7-1-21)T

e. Credit toward education requirements may be obtained through completion of a degree in Real Estate from: (7-1-21)T

i. An accredited degree-granting college or university that has been approved by the Association to Advance Collegiate Schools of Business; or (7-1-21)T

ii. A regional or national accreditation agency that is recognized by the U.S. Secretary of Education and whose curriculum has been reviewed and approved by the Appraiser Qualifications Board. (7-1-21)T
f. Applicants with a college degree from a foreign country may have their education evaluated for equivalency by one (1) of the following:

   i. An accredited, degree-granting domestic college or university;
   (7-1-21)T

   ii. The American Association of Collegiate Registrars and Admissions Officers (AACRAO);
       (7-1-21)T

   iii. A foreign degree credential evaluation services company that is a member of the National Association of Credential Evaluation Services (NACES); or
       (7-1-21)T

   iv. A foreign degree credential evaluation service company that provides equivalency evaluation reports accepted by an accredited degree-granting domestic college or university or by a state licensing board that issues credentials in another discipline.
       (7-1-21)T

02. Experience.

   a. The work product claimed for experience credit must be in conformity with USPAP.
       (7-1-21)T

   b. All appraisal experience must be obtained as a registered trainee or as a licensed appraiser. At least five hundred (500) hours in no less than three (3) months must be obtained in Idaho pursuant to these rules. The Board will only consider experience from other jurisdictions with substantially equal requirements.
       (7-1-21)T

   c. Only experience gained during the five (5) years immediately preceding application will be considered for evaluation.
       (7-1-21)T

   d. Acceptable non field appraisal experience includes, but is not limited to the following: Fee and Staff appraisal analysis, ad valorem tax appraisal, condemnation appraisal, technical review appraisal, appraisal analysis, review appraisal, real estate counseling, highest and best use analysis, and feasibility analysis/study.
       (7-1-21)T

   e. Each applicant applying for licensure must verify completion of the required experience via affidavit, under oath subject to penalty of perjury, and notarized on a form provided by the Board.
       (7-1-21)T

   i. The Board requires submission of a log that details hours claimed for experience credit. The log must include the following:
       (7-1-21)T

       (1) Type of property;
       (7-1-21)T

       (2) Address of the property;
       (7-1-21)T

       (3) Report date;
       (7-1-21)T

       (4) Description of work performed;
       (7-1-21)T

       (5) Number of work performed;
       (7-1-21)T

       (6) Complexity;
       (7-1-21)T

       (7) Approaches to value;
       (7-1-21)T

       (8) Appraised value;
       (7-1-21)T

       (9) Scope of supervising appraiser's review; and
       (7-1-21)T

       (10) Signature and license number of the supervising appraiser.
       (7-1-21)T
ii. The Board reserves the right to contact an employer for confirmation of length and extent of experience claimed. This may require an employer to submit appraisal reports and/or an affidavit. (7-1-21)

iii. The Board may request submission of written reports or file memoranda that substantiate an applicant’s claim for experience credit. (7-1-21)

f. Ad valorem tax appraisers must demonstrate the use of techniques to value properties similar to those used by appraisers and effectively use the process as defined in Subsection 010.06, Field Real Estate Appraisal Experience in order to receive experience credit. (7-1-21)

03. Examination. Successful completion of an examination appropriate to the license classification being applied for and approved by the Board pursuant to the guidelines of the Appraisal Qualifications Board. (7-1-21)

251. -- 274. (RESERVED)

275. REGISTERED TRAINEE REAL ESTATE APPRAISER.

01. Qualification. Each applicant for registration as an appraiser trainee must meet the following requirements: (7-1-21)

a. Education. Within the five-year period preceding application, all applicants for registration as a trainee must document completion of at least seventy-five (75) classroom hours of courses in subjects related to real estate appraisal as follows: (7-1-21)

i. Basic Appraisal Principles - not less than thirty (30) hours specifically including Real Property Concepts and Characteristics, Legal Considerations, Influences on Real Estate Values, Types of Value, Economic Principles, Overview of Real Estate Markets and Analysis, and Ethics and How They Apply in Appraisal Theory and Practice; and (7-1-21)

ii. Basic Appraisal Procedures - not less than thirty (30) hours specifically including Overview of Approaches to Value, Valuation Procedures, Property Description, and Residential Applications; and (7-1-21)

iii. National USPAP Course - not less than fifteen (15) hours. (7-1-21)

b. Experience. All applicants for registration as a trainee must retain and identify at least one (1) qualified supervisor as required by law and rule. (7-1-21)

c. Examination. Each trainee applicant shall document successful passage of examinations in each of the prerequisite courses required for registration as a trainee. (7-1-21)

d. Prior to registration as an appraiser trainee, each trainee applicant must complete a trainee appraiser course that complies with the content requirements established by the Appraisal Qualifications Board. This course is in addition to the education requirements set forth in Section 275. (7-1-21)

02. Scope and Practice. An Appraiser Trainee shall not be involved in the appraisal of any property that exceeds the lawful scope of practice of the supervising appraiser. The appraiser trainee shall be subject to USPAP. (7-1-21)

a. Each appraiser trainee is permitted to have more than one (1) supervising appraiser provided a supervising appraiser is not registered to more than three (3) trainees at any one (1) time. (7-1-21)

b. An appraisal log shall be maintained for each supervising appraiser by the appraiser trainee and shall include no less than the requirements outlined in Subsection 250.02.e.i. for each appraisal. (7-1-21)

c. An appraiser trainee shall be entitled to obtain copies of all appraisal reports prepared by the trainee. (7-1-21)
03. Continuing Education. Prior to the second renewal and for each continuing education cycle thereafter as provided in Section 275 of this rule, an appraiser trainee shall be required to obtain:

a. The equivalent of thirty (30) classroom hours of instruction in approved courses or seminars during the twenty-four (24) month period preceding the renewal. Once every twenty-four (24) months, registered appraiser trainees will be required to attend an approved seven-hour USPAP update course or the equivalent. The course must cover the most recent USPAP edition.

b. All continuing education shall be in compliance with Subsections 401.01 through 401.05. If the licensee completes two (2) or more courses having substantially the same content during any one (1) continuing education cycle, the licensee only will receive continuing education credit for one (1) of the courses.

c. Continuing education credit may also be granted for participation, other than as a student, in appraisal educational processes and programs. Examples of activities for which credit may be granted are teaching, program development, authorship of textbooks, or similar activities that are determined to be equivalent to obtaining continuing education. Credit for educational processes and programs continuing education shall not exceed one-half (1/2) of the total continuing education credits required for a renewal period.

d. The purpose of continuing education is to ensure that the appraiser trainee participates in a program that maintains and increases skill, knowledge and competence in real estate appraising.

04. Renewal and Reinstatement. An appraiser trainee shall renew their registration annually as set forth in Section 67-2614, Idaho Code, and may reinstate after expiration as provided in Section 67-2614, Idaho Code. Beginning July 1, 2017, an individual may only be registered as an appraiser trainee for a maximum period of five (5) years, unless approved by the Board for good cause.

276. REGISTERED TRAINEE SUPERVISORS.

01. Registered Trainee Supervisor Requirements.

a. A supervising appraiser shall:

i. Hold a current Idaho license as a Certified Residential Appraiser or as a Certified General Appraiser when supervising a trainee registered in Idaho.

ii. Have held a current and unrestricted license as a Certified Residential Appraiser or a Certified General Appraiser for at least three (3) years prior to providing supervision; and;

iii. Submit evidence of completion of an approved four-hour (4) continuing education course regarding the role of a supervising appraiser.

iv. Not have been disciplined by the Board or any other state or jurisdiction within the previous four (4) years; and

v. Not supervise more than three (3) appraiser trainees at one time; and

vi. Be responsible for the training and direct supervision of the appraiser trainee; and

vii. Accept responsibility for all appraiser trainee appraisal reports by signing and certifying that the report is in compliance with USPAP; and

viii. Review and sign all appraiser trainee appraisal report(s); and

ix. Personally inspect each appraised property with the appraiser trainee until the supervising appraiser determines the appraiser trainee is competent in accordance with the Competency Provision of USPAP for the property type.
b. An accurate, current and complete appraisal experience log shall be maintained jointly by the supervising appraiser and the appraiser trainee as outlined in Subsection 250.02.e.i. (7-1-21)

c. A supervising appraiser may not continue to supervise if:
   i. The appraiser ceases to meet supervisor requirements; or (7-1-21)
   ii. The appraiser is disciplined, unless the board grants a waiver and a waiver may be subject to conditions set by the board. (7-1-21)

300. LICENSED RESIDENTIAL REAL ESTATE APPRAISER CLASSIFICATION APPRAISER QUALIFICATION CRITERIA.
The state licensed residential real estate appraiser classification applies to the appraisal of residential real property consisting of one (1) to four (4) non-complex residential units having a transaction value less than one million dollars ($1,000,000) and complex one (1) to four (4) residential units having a transaction value less than two hundred fifty thousand dollars ($250,000). Applicants must meet the following education, experience and examination requirements in addition to complying with Section 250. Subsequent to being licensed, every licensee must annually meet the continuing education requirement. (7-1-21)

01. Education. As a prerequisite to taking the examination for licensure as an Idaho Licensed Residential Real Estate Appraiser, each applicant shall:
   a. Document registration as an Appraiser Trainee; and (7-1-21)
   b. Document the successful completion of not less than seventy-five (75) classroom hours of courses in subjects related to real estate appraisal as follows:
      i. Residential Market Analysis and Highest and Best Use – not less than fifteen (15) hours; and (7-1-21)
      ii. Residential Appraiser Site Valuation and Cost Approach – not less than fifteen (15) hours; and (7-1-21)
      iii. Residential Sales Comparison and Income Approaches – not less than thirty (30) hours specifically including: Valuation Principles and Procedures – Sales Comparison Approach; Valuation Principles and Procedures – Income Approach; Finance and Cash Equivalency; Financial Calculator Introduction; Identification, Derivation and Measurement of Adjustments; Gross Rent Multipliers; Partial Interests; Reconciliation; and Case Studies; and (7-1-21)
      iv. Residential Report Writing and Case Studies – not less than fifteen (15) hours specifically including: Writing and Reasoning Skills; Common Writing Problems; Form Reports; Report Options and USPAP Compliance; Case Studies. (7-1-21)

02. Experience. Prerequisite to sit for the examination:
   a. Document one thousand (1,000) hours of supervised appraisal experience as a registered Appraiser Trainee in no less than six (6) months. Experience documentation in the form of reports or file memoranda should be available to support the claim for experience. (7-1-21)
   b. Of the required one thousand (1,000) hours, the applicant must accumulate a minimum of seven hundred-fifty (750) hours from field real estate appraisal experience. The balance of two hundred-fifty (250) hours may include non-field experience, refer to Subsection 250.02.d. (7-1-21)

03. Examination. Successful completion of the Licensed Residential Appraiser examination approved
301. -- 349. (RESERVED)

350. CERTIFIED RESIDENTIAL REAL ESTATE APPRAISER CLASSIFICATION APPRAISER QUALIFICATION CRITERIA.
The State Certified Residential Real Estate Appraiser classification applies to the appraisal of residential properties of four (4) or less units without regard to transaction value or complexity. Applicants must meet the following education, experience and examination requirements in addition to complying with Section 250. Subsequent to being certified every licensee must annually meet the continuing education requirement.

01. Education. As a prerequisite to taking the examination for licensure as an Idaho Certified Residential Real Estate Appraiser, each applicant shall:

a. Hold a Bachelor’s degree in any field of study from an accredited degree-granting college or university, or meet one of the following options:
   i. Possession of an Associate’s degree in a field of study related to business administration, accounting, finance, economics or real estate; or
   ii. Successful completion of thirty (30) semester hours of college-level courses that cover each of the following specific topic areas and hours: English composition (three (3) semester hours), microeconomics (three (3) semester hours), macroeconomics (three (3) semester hours), finance (three (3) semester hours), algebra, geometry or higher mathematics (three (3) semester hours), statistics (three (3) semester hours), computer science (three (3) semester hours), business or real estate law (three (3) semester hours), and two (2) elective courses in any of the topics listed above or in accounting, geography, agricultural economics, business management, or real estate (three (3) semester hours each); or
   iii. Successful completion of at least thirty (30) semester hours of College Level Examination Program® (CLEP®) examinations from each of the following subject matter areas: college algebra (three (3) semester hours), college composition (six (6) semester hours), college composition modular (three (3) semester hours), college mathematics (six (6) semester hours), principles of macroeconomics (three (3) semester hours), principles of microeconomics (three (3) semester hours), introductory business law (three (3) semester hours), and information systems (three (3) semester hours), or
   iv. Any combination of the above criteria (within Subsections 350.01.a.ii. and 350.01.a.iii. of these rules) that ensures coverage of all topics and hours identified in Subsection 350.01.a.ii.

b. As an alternative to the requirements in Subsection 350.01.a., above, individuals who have held a Licensed Residential credential for a minimum of five (5) years may qualify as meeting the requirements of Subsection 350.01.a., if it is established that there is no record of any adverse, final, and non-appealable disciplinary action affecting the Licensed Residential appraiser’s legal eligibility to engage in appraisal practice within the five (5) years immediately preceding the date of application for a Certified Residential license.

c. Document registration as an Appraiser Trainee and completion of the education required for licensure as a Licensed Residential Real Estate Appraiser, or hold a current license as a Licensed Residential Real Estate Appraiser; and

d. Document the successful completion of not less than fifty (50) classroom hours of courses in subjects related to real estate appraisal as follows:
   i. Statistics, Modeling and Finance: not less than fifteen (15) hours, specifically including Statistics; Valuation Models (AVM’s and Mass Appraisal); and Real Estate Finance; and
   ii. Advanced Residential Applications and Case Studies: not less than fifteen (15) hours, specifically including Complex Property, Ownership and Market Conditions; Deriving and Supporting Adjustments; Residential Market Analysis; and Advanced Case Studies; and
02. Experience. Experience is a prerequisite to sit for the licensure examination:

   a. Document one thousand five hundred (1,500) hours of appraisal experience in no less than twelve (12) months (see Subsection 250.02). Experience documentation in the form of reports or file memoranda should be available to support the claim for experience.

   b. One thousand two hundred (1,200) hours of the experience shall be from residential field appraisal experience. The balance of three hundred (300) hours may include non-field experience, refer to Subsection 250.02.d.

   c. Examination. Successful completion of the Certified Residential Appraiser examination approved by the Board pursuant to the guidelines of the Appraisal Qualifications Board.

351. -- 399. (RESERVED)

400. CERTIFIED GENERAL REAL ESTATE APPRAISER CLASSIFICATION APPRAISER QUALIFICATION CRITERIA.

The State Certified General Real Estate Appraiser classification applies to the appraisal of all types of real property. Applicants must meet the following examination, education, and experience requirements in addition to complying with Section 250. Subsequent to being certified, an individual must meet the continuing education requirement.

01. Education. As a prerequisite to taking the examination for licensure as an Idaho Certified General Real Estate Appraiser, each applicant shall:

   a. Hold a Bachelor’s degree or higher from an accredited degree-granting college or university; and

   b. Document registration as an Appraiser Trainee and document the successful completion of not less than two hundred twenty-five (225) classroom hours of courses in subjects related to real estate appraisal as follows:

      i. Statistics, Modeling and Finance: not less than fifteen (15) hours, specifically including Statistics; Valuation Models (AVM’s and Mass Appraisal), and Real Estate Finance;

      ii. General Appraiser Market Analysis and Highest and Best Use: not less than thirty (30) hours;

      iii. General Appraiser Sales Comparison Approach: not less than thirty (30) hours, specifically including Value Principles, Procedures, Identification and Measurement of Adjustments, Reconciliation, and Case Studies;

      iv. General Appraiser Site Valuation and Cost Approach: not less than thirty (30) hours;

      v. General Appraiser Income Approach: not less than sixty (60) hours, specifically including Overview, Compound Interest, Lease Analysis, Income Analysis, Vacancy and Collection Law, Estimating Operating Expenses and Reserves, Reconstructed Income and Expense Statement, Stabilized Net Operating Income Estimate, Direct Capitalization, Discounted Cash Flow, Yield Capitalization, Partial Interest, and Case Studies;

      vi. General Appraiser Report Writing and Case Studies: not less than thirty (30) hours, specifically including Writing and Reasoning Skills, Common Writing Problems, Report Options and USPAP Compliance, and Case Studies; and
vii. Appraisal Subject Matter Electives: not less than thirty (30) hours, and may include hours over the minimum shown in Subsection 400.01.b. of these rules; or

(7-1-21)T

c. Document licensure as a Licensed Residential Real Estate Appraiser and the successful completion of not less than one hundred fifty (150) classroom hours of courses in subjects related to real estate appraisal as follows:

i. Statistics, Modeling and Finance: not less than fifteen (15) hours, specifically including Statistics; Valuation Models (AVM’s and Mass Appraisal); and Real Estate Finance; and

(7-1-21)T

ii. General Appraiser Market Analysis and Highest and Best Use: not less than fifteen (15) hours; and

(7-1-21)T

iii. General Appraiser Sales Comparison Approach: not less than fifteen (15) hours, specifically including Value Principles, Procedures, Identification and Measurement of Adjustments, Reconciliation, and Case Studies; and

(7-1-21)T

iv. General Appraiser Site Valuation and Cost Approach: not less than fifteen (15) hours; and

(7-1-21)T

v. General Appraiser Income Approach: not less than forty-five (45) hours, specifically including Overview, Compound Interest, Lease Analysis, Income Analysis, Vacancy and Collection Law, Estimating Operating Expenses and Reserves, Reconstructed Income and Expense Statement, Stabilized Net Operating Income Estimate, Direct Capitalization, Discounted Cash Flow, Yield Capitalization, Partial Interest, and Case Studies; and

(7-1-21)T

vi. General Appraiser Report Writing and Case Studies: not less than fifteen (15) hours, specifically including Writing and Reasoning Skills, Common Writing Problems, Report Options and USPAP Compliance, and Case Studies; and

(7-1-21)T

vii. Appraisal Subject Matter Electives: not less than thirty (30) hours, and may include hours over the minimum shown in Subsection 400.01.c.; or

(7-1-21)T

d. Document licensure as a Certified Residential Real Estate Appraiser and the successful completion of not less than one hundred five (105) classroom hours of courses in subjects related to real estate appraisal as follows:

i. General Appraiser Market Analysis and Highest and Best Use: not less than fifteen (15) hours; and

(7-1-21)T

ii. General Appraiser Sales Comparison Approach: not less than fifteen (15) hours, specifically including Value Principles, Procedures, Identification and Measurement of Adjustments, Reconciliation, and Case Studies; and

(7-1-21)T

iii. General Appraiser Site Valuation and Cost Approach: not less than fifteen (15) hours; and

(7-1-21)T

iv. General Appraiser Income Approach: not less than forty-five (45) hours, specifically including Overview, Compound Interest, Lease Analysis, Income Analysis, Vacancy and Collection Law, Estimating Operating Expenses and Reserves, Reconstructed Income and Expense Statement, Stabilized Net Operating Income Estimate, Direct Capitalization, Discounted Cash Flow, Yield Capitalization, Partial Interest, and Case Studies; and

(7-1-21)T

v. General Appraiser Report Writing and Case Studies: not less than fifteen (15) hours, specifically including Writing and Reasoning Skills, Common Writing Problems, Report Options and USPAP Compliance, and Case Studies.

(7-1-21)T

02. Experience. Experience is a prerequisite to sit for the licensure examination:

(7-1-21)T
a. Document three thousand (3,000) hours of appraisal experience in no less than eighteen (18) months (See Subsection 250.02). Experience documentation in the form of reports or file memoranda should be available to support the claim for experience.

b. One thousand five hundred (1,500) hours of the experience must be non-residential appraisal experience. The balance of one thousand five hundred (1,500) hours may be solely residential experience or can include up to five hundred (500) hours of non-field experience as outlined in Subsection 250.02.d.

c. Examination. Successful completion of the Certified General Appraiser examination approved by the Board pursuant to the guidelines of the Appraisal Qualifications Board.

401. CONTINUING EDUCATION.
All certified/licensed appraisers must comply with the following continuing education requirements:

01. Purpose of Continuing Education. The purpose of continuing education is to ensure that the appraiser participates in a program that maintains and increases his skill, knowledge and competency in real estate appraising.

02. Hours Required. The equivalent of thirty (30) classroom hours of instruction in courses or seminars during the twenty-four (24) months prior to renewal is required. If the licensee completes two (2) or more courses having substantially the same content during any one (1) continuing education cycle, the licensee only will receive continuing education credit for one (1) of the courses.

a. If the educational offering is taken on-line or in a virtual classroom, the course must include successful completion of prescribed course mechanisms required to demonstrate knowledge of the subject matter.

b. Credit toward the classroom hour requirement may be granted only where the length of the educational offering is at least two (2) hours.

c. Credit for the classroom hour requirement may be obtained by accredited courses which have been approved by the Appraisal Qualifications Board and by courses approved by Real Estate Appraiser Boards of states with reciprocity with Idaho. All other courses must have approval of the Board, which shall require the continuing education provider to submit the educational course approval application and application fee as set forth in these rules along with the documentation including the instructors and their qualifications, course content, length of course, and its location. Courses shall be approved for a period of four (4) years.

d. Once every twenty-four (24) months, Idaho State Certified/Licensed Real Estate Appraisers and registered trainees will be required to attend an approved seven (7) hour USPAP update course or the equivalent. The course must cover the most recent USPAP edition.

03. Credit for Appraisal Educational Processes and Programs. Continuing education credit may also be granted for participation, other than as a student, in appraisal educational processes and programs. Examples of activities for which credit may be granted are teaching, program development, authorship of textbooks, or similar activities which are determined to be equivalent to obtaining continuing education. Credit for educational processes and programs continuing education shall not exceed one-half (1/2) of the total continuing education credits required for a renewal period.

04. Credit for Attending the Licensure Board Meetings. Continuing education credit may be granted for a maximum of two (2) hours each continuing education cycle for time spent attending one (1) Board meeting. Members of the board shall not be entitled to continuing education credit for board service.

05. Requirement When a Certificate/License Is Canceled. For each year (less than five (5)) in which a license is lapsed, canceled, or otherwise non-renewed, fifteen (15) hours of continuing education must be documented, including a seven (7) hour USPAP update course, prior to reinstatement. The course must cover the most recent USPAP edition.
450. RECIROCITY. Applicant must comply with Section 54-4115, Idaho Code, and submit current notarized statement verifying certification/licensure in good standing in another state.

451. TEMPORARY PRACTICE.

01. Requirements for Issuance. A permit to temporarily practice may be issued to individuals coming to Idaho who are certified/licensed in another state and are either transferring to Idaho or have a temporary assignment in Idaho.

02. Proof of Current Certification or Licensure. The applicant must be listed on the National Registry, maintained by the Appraisal Subcommittee, as current and in good standing and comply with Section 54-4115(3), Idaho Code, regarding irrevocable consent.

03. Assignments and Length of Time Permit Will Be Issued. Permit to temporarily practice will be issued on a per appraisal assignment basis for a period not to exceed six (6) months. A temporary permit may be extended one (1) time only.

525. DISCIPLINE. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed or certified real estate appraiser for each violation of Section 54-4107(1), Idaho Code.

540. APPRAISALS IN LITIGATION. Licensed or certified appraisers providing opinions of value in litigation shall comply with USPAP Standard 1 including maintaining a work file in support of the opinion of value in litigation.

700. UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE/CODE OF ETHICS. The Uniform Standards of Professional Practice, excluding standards 7, 8, 9, and 10, as published by the Appraisal Foundation and referenced in Section 004, are hereby adopted as the rules of conduct and code of ethics for all Real Estate Appraisers licensed under Title 54, Chapter 41, Idaho Code, and these rules.
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-4205, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of residential care facility administration in Idaho. (7-1-21)T

002. – 003. (RESERVED)

004. INCORPORATION BY REFERENCE.
The document titled “ACHCA Code of Ethics,” published by the American College of Health Care Administrators (ACHCA) as referenced in Section 650, is herein incorporated by reference and is available from the Board’s office and on the Board web site. (7-1-21)T

005. – 099. (RESERVED)

100. APPLICATIONS.
Applications will be on forms approved by the Board. No application will be considered for any action unless accompanied by the appropriate fees and until the required supporting documentation is received by the Division. If an applicant fails to respond to a Board request or an application has lacked activity for twelve (12) consecutive months, the application on file with the Board will be deemed denied and will be terminated upon thirty (30) days written notice, unless good cause is established to the Board. (7-1-21)T

101. – 149. (RESERVED)

150. QUALIFICATIONS FOR ADMINISTRATOR LICENSE.
Each applicant for an administrator’s license must submit proof, along with their application, that said individual is at least twenty-one (21) years of age and meets all the following qualifications for the issuance of a license: (7-1-21)T

01. Criminal Background Check. The applicant must submit a criminal background check by an entity approved by the Board establishing that the applicant has not been convicted, pled guilty or nolo contendere or received a withheld judgment for a felony or any crime involving dishonesty or the health or safety of a person. (7-1-21)T

02. Education and Experience. The applicant must document one (1) of the combinations of education and experience in accordance with Section 54-4206, Idaho Code, and Subsection 400 of these rules. (7-1-21)T

03. Coursework. The applicant must document completion of a specialized course or program of study as set forth in Subsection 400 of these rules. (7-1-21)T

04. Examination. The applicant must submit proof of successful passage of a relevant examination as approved by the Board and defined in Subsection 300 of these rules. (7-1-21)T

151. – 159. (RESERVED)

160. NURSING HOME ADMINISTRATOR QUALIFICATIONS FOR LICENSE.
Any applicant who holds a valid Idaho nursing home administrator license must meet the requirements provided in Section 54-4211(2), Idaho Code, and must take and pass the Board-approved residential care administrator examination. This requirement may be waived if the applicant submits evidence satisfactory to the Board that he has at least one (1) year of leadership or management experience working in a residential care facility or nursing home facility within the five (5) years preceding the application. (7-1-21)T

161. – 299. (RESERVED)

300. EXAMINATIONS.

01. Examination. The Board approves the following examinations for licensure: (7-1-21)T

a. The Residential Care Facility Administrators examination developed and administered by the National Association of Boards of Examiners of Long Term Care Administrators (NAB) and an open book
examination of law and rules governing residential care administrators in Idaho. The passing score for the NAB examination is determined by NAB. An applicant for examination is required to register with NAB and pay any required examination fees directly to NAB. The passing score for the open book examination is seventy-five percent (75%).

b. Other examinations as approved by the Board.

301. -- 399. (RESERVED)

400. EDUCATIONAL AND TRAINING REQUIREMENTS.

01. Approved Course.

a. The Certification Program for Residential Care Facility Administrators course, administered by the Idaho Health Care Association (IHCA)/Idaho Center for Assisted Living (ICAL), are approved courses of study to qualify for licensure.

b. Any Certification Program for Residential Care Facility Administrators provided by a state or national Residential Care Facility Administrator organization or a nationally or regionally accredited college or university must be an approved course of study to qualify for licensure.

02. Approval of Other Courses. Applicants may, in lieu of completion of the Certification Program for Residential Care Facility Administrators, submit official documentation of successful completion of relevant courses. These courses must be approved by the Board before equivalency will be given.

401. CONTINUING EDUCATION.

01. Minimum Hours Required. Applicants for annual renewal or reinstatement are required to complete a minimum of twelve (12) hours of continuing education courses within the preceding twelve-month (12) period. Basic First Aid, Cardio-Pulmonary Resuscitation, medication assistance, or fire safety courses will not be considered for continuing education credit.

02. Course Approval. Courses of study relevant to residential care facility administration and sponsored or provided by the following entities or organizations are approved for continuing education credits:

a. Accredited colleges or universities.

b. Federal, state or local government entities.

c. National or state associations.

d. Otherwise approved by the Board based upon documentation submitted by the licensee or course provider reviewing the nature and subject of the course and its relevancy to residential care administration, name of instructor(s) and their qualifications, date, time and location of the course and procedures for verification of attendance.

03. Credit. Continuing education credit will only be given for actual time in attendance or for the time spent participating in the educational activity. One (1) hour of continuing education is equal to sixty (60) minutes. Courses taken by correspondence or by computer on-line may be approved for continuing education if the courses require an exam or other proof of successful completion. Each licensee must maintain proof of attendance or successful completion documentation of all continuing education courses for a period of three (3) years.

04. Special Exemption. The Board has authority to make exceptions for reasons of individual hardship, including health, when certified by a medical doctor, or other good cause. The licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board.
402. -- 449. (RESERVED)

450. SCOPE OF PRACTICE.
A residential care facility administrator must possess the education, training, and experience necessary to insure that appropriate services and care are provided for each facility resident within any facility under the licensee’s administration. Information contained within the application together with supporting documentation maintained by the licensee is prima facie evidence of the licensee’s education and experience. It is the responsibility of the individual licensee to maintain adequate documentation of education and experience appropriate to the planning, organizing, directing and control of the operation of a residential care facility. (7-1-21)

24.21.01 – RULES OF THE IDAHO STATE CONTRACTORS BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-5206, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice and registration of construction and contractors in Idaho. (7-1-21)T

002. -- 149. (RESERVED)

150. APPLICATION.
The applicant must provide or facilitate the provision of any supplemental third party documents that may be required. Applications on file with the Board where an applicant has failed to respond to a Board request or where the applications have lacked activity for twelve (12) consecutive months are deemed denied and will be terminated upon thirty (30) days written notice unless good cause is established to the Board. (7-1-21)T

151. -- 164. (RESERVED)

165. ADDITIONAL QUALIFICATIONS FOR REGISTRATION.
Applicants for a registration must meet the following qualifications in addition to those set forth in Section 54-5210, Idaho Code and these rules. (7-1-21)T

01. Felony Conviction. Not have been convicted of any felony in a state or federal court; provided the applicant may make written request to the board for an exemption review to determine the applicant's suitability for registration, which the board determines in accordance with the following: (7-1-21)T

02. Exemption Review. The exemption review consists of a review of any documents relating to the felony and any supplemental information provided by the applicant bearing upon his suitability for registration. The board may, at its discretion, grant an interview of the applicant. (7-1-21)T

a. During the review, the board considers the following factors or evidence: (7-1-21)T
i. The severity or nature of the felony; (7-1-21)T
ii. The period of time that has passed since the felony under review; (7-1-21)T
iii. The number or pattern of felonies or other similar incidents; (7-1-21)T
iv. The circumstances surrounding the crime that would help determine the risk of repetition; (7-1-21)T
v. The relationship of the crime to the registered practice of construction; and (7-1-21)T
vi. The applicant's activities since the crime under review, such as employment, education, participation in treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation. (7-1-21)T

b. The applicant bears the burden of establishing his current suitability for registration. (7-1-21)T

03. Fraud in Application Process. The registration application and supporting documents are free from any fraud or material misrepresentations. (7-1-21)T

(7-1-21)T

176. – 224. (RESERVED)

225. APPROVED EDUCATION AND EXAMINATIONS.
Each applicant must provide certified proof that they have successfully completed the following: (7-1-21)T

01. Basic Education. The Basic Certified Employee Training Program (CETP) provided by the National Propane Gas Association or the equivalent as determined by the Board within the thirty-six (36) months immediately preceding application. (7-1-21)T

02. Licensure Examination. Receipt of a passing grade on the Basic Certified Employee Training Program (CETP) examination provided by the National Propane Gas Association or the equivalent as determined by the Board within the thirty-six (36) months immediately preceding application. (7-1-21)T

226. -- 249. (RESERVED)

250. PRACTICAL EXPERIENCE.

01. Supervised Practical Experience. Each applicant must provide certified proof that the applicant has successfully obtained at least one (1) year of practical experience in a Liquefied Petroleum Gas (LPG) facility while the applicant was under supervision of a licensed dealer. A person in the process of meeting the practical experience requirement must complete the education and examination requirements and apply for a dealer license within eighteen (18) months of beginning to obtain supervised experience. (7-1-21)T

02. Dealer-in-Training License. An individual may not begin obtaining supervised practical experience until the individual has applied for and obtained a dealer-in-training license from the board. Such license
is issued on a non-renewable basis and is for the purpose of enabling the individual to gain the supervised practical experience that the person must obtain to become an LPG dealer. The dealer-in-training license is valid for eighteen (18) months from the date of issue.

251. -- 349. (RESERVED)

350. FACILITY LICENSURE.

01. Facility Licensure and Operation Requirements. (7-1-21)T

a. Application for a facility license must include a certificate of general liability insurance set forth in these rules and plans and specifications complying with local ordinances and zoning requirements. All applications must be submitted to the Board for approval and a license must be issued before a new facility may open for business; (7-1-21)T

b. Each facility application must clearly identify and designate a location adequate to allow the facilities safe operation and the selling, filling, refilling, or commercial handling or commercial storage of liquefied petroleum gas; (7-1-21)T

c. Each facility must meet all requirements of NFPA 58. (7-1-21)T

02. Facility Changes in Ownership or Location. (7-1-21)T

a. Whenever a change of ownership or location of a facility occurs, an original application must be submitted, the fee must be paid and compliance with all rules concerning a new facility documented, before a new license will be issued. FACILITY LICENSES ARE NOT TRANSFERABLE. (7-1-21)T

b. Deletion of an owner from multiple ownership does not constitute a change in ownership. (7-1-21)T

c. Addition of an owner to multiple ownership does constitute a change in ownership. (7-1-21)T

d. Whenever any facility ceases operation at the licensed location, the owner(s) must notify the Board in writing that the facility is out of business and the facility license must be submitted to the Division. A new facility license will not be issued for any location that is currently licensed as a facility at the time of application. (7-1-21)T

351. -- 354. (RESERVED)

355. GENERAL LIABILITY INSURANCE REQUIREMENT.
No facility license will be issued without a certificate showing proof of a current general liability insurance policy in the sum of not less than one million dollars ($1,000,000) for an occurrence. The Board may conduct random audits of facility licenses and request documentation of a current general liability insurance policy. (7-1-21)T

01. Original Facility License Application. An application for facility license will not be considered complete without a certificate of general liability insurance showing a current policy. The policy must be kept in full force and effect. (7-1-21)T

02. Renewal of Facility License. All licenses being renewed must certify that the facility holds a current general liability insurance policy. (7-1-21)T

356. -- 374. (RESERVED)

375. INSPECTION RULES.
All facilities are subject to inspection by the Board or its agents at any time without notice to insure the safe operation of each facility and to insure continued compliance with the requirements of NFPA 58 and the Idaho laws and rules. The Board may adopt a form which establishes for the facility those material rules of NFPA 58 which will be inspected, and a level of compliance necessary for issuance or retention of a license or disciplinary action. The Board
may further determine the time frame a facility may be granted in order to comply with NFPA 58, but still continue to operate, or pursue disciplinary action for a failure to comply. In the event of non-compliance necessitating re-inspection, the Board may assess a re-inspection fee.

376. -- 399. (RESERVED)

400. ENDORSEMENT.
Any person who holds a current, unsuspended, unrevoked or otherwise nonsanctioned license in another state or country that has licensing requirements substantially equivalent to or higher than those in Idaho may, submit the required application, supporting documentation, and required fee, for Board consideration. Those applicants who received their professional education or experience outside of the United States must provide such additional information concerning their professional education or experience as the Board may request. The Board may, in its discretion, require successful completion of additional course work or examination for any applicant under this provision.

401. -- 449. (RESERVED)

450. DISCIPLINE.

01. Civil Fine. The Board may impose a civil fine not to exceed one thousand dollars ($1,000) upon a licensed LPG dealer or a licensed LPG facility for each violation of Section 54-5315, Idaho Code.

02. Costs and Fees. The Board may order a licensed LPG dealer or a licensed LPG facility to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee for violation of Section 54-5315, Idaho Code.

451. -- 999. (RESERVED)
24.23.01 – RULES OF THE SPEECH, HEARING, AND COMMUNICATION SERVICES LICENSURE BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-2910, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern speech, hearing, and communication services in Idaho. (7-1-21)T

002. – 003. (RESERVED)

004. INCORPORATION BY REFERENCE.
The document titled “National Association of the Deaf (NAD)-Registry of Interpreters for the Deaf, Inc. (RID) Code of Professional Conduct,” copyright 2005 by the Registry of Interpreters for the Deaf, is incorporated by reference into this rule and is available at the Board’s office and on the Board’s web site. (7-1-21)T

005. – 009. (RESERVED)

010. DEFINITIONS.

01. Audiology Support Personnel. Unlicensed natural persons who work under the direction and supervision of an audiologist who is licensed in accordance with Title 54, Chapter 29, Idaho Code, and is engaged in the practice of audiology. (7-1-21)T

02. Direct Client Contact. Assessment, diagnosis, evaluation, screening, treatment, report writing, family or client consultation, counseling, or any combination of these activities. (7-1-21)T

03. Dual Licensure. The status of a person who holds more than one (1) license under Title 54, Chapter 29, Idaho Code. (7-1-21)T

011. – 174. (RESERVED)

175. FEES.
All fees are non-refundable. Fees are established in accord with Title 54, Chapter 29, Idaho Code as follows: (7-1-21)T

01. License, Permit, and Registration Fees.

(7-1-21)T

02. Examination Fees. The examination fee is that charged by the examination provider plus an administration fee of one hundred dollars ($100) when the examination is administered by the Board. (7-1-21)T

176. – 204. (RESERVED)
205. INACTIVE STATUS.

01. Request for Inactive Status. Each person requesting an inactive status of an active license must submit a written request and pay the established fee. (7-1-21)

02. Inactive License Status.

a. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license. (7-1-21)

b. When the licensee desires active status, the licensee must show acceptable fulfillment of ten (10) contact hours of continuing education during the previous twelve (12) months and submit a fee equivalent to the difference between the inactive and active renewal fee, provided that a licensee whose license has been inactive five (5) years or more must provide an account to the Board for that period of time during which the license was inactive and fulfill requirements that demonstrate competency to resume practice. Those requirements may include, but are not limited to, education, supervised practice, and examination as determined by the Board. The Board may consider practice in another jurisdiction in determining competency. (7-1-21)

c. Licensees may not practice or supervise in Idaho as an Audiologist, Speech-Language Pathologist, Speech-Language Pathologist Aide, Speech-Language Pathologist Assistant, Hearing Aid Dealer and Fitter, or Sign Language Interpreter while on inactive status. (7-1-21)

206. -- 209. (RESERVED)

210. QUALIFICATIONS FOR AUDIOLOGIST LICENSURE.

All applicants for licensure as an audiologist must comply with the following education, experience, and examination requirements: (7-1-21)

01. Graduate Program Requirement. A master's or doctoral degree with emphasis in audiology or not less than seventy-five (75) semester credit hours of post-baccalaureate study that culminates in a doctoral degree from a nationally accredited school for audiology. (7-1-21)

02. Examination. Pass the audiology examination given by PRAXIS within the last five (5) years or other examination as may be approved by the Board. (7-1-21)

03. Experience. Successfully complete a supervised academic clinical practicum as part of a doctoral program that satisfies Subsection 210.01 of this rule or supervised postgraduate experience that is substantially equivalent to such a practicum. An applicant who has insufficient supervised experience as part of the doctoral program may obtain the necessary experience under a provisional permit as provided in these rules. (7-1-21)

211. SUPPORT PERSONNEL: AUDIOLOGY.

01. Supervising Audiologist – Responsibilities – Restrictions. (7-1-21)

a. The supervising licensed audiologist is responsible for everything audiology support personnel do or fail to do while performing their duties under the supervising audiologist’s supervision. (7-1-21)

b. Responsibilities of the supervising audiologist include, but are not limited to:

i. Training, assessing the competency, and evaluating the performance of audiology support personnel. (7-1-21)

ii. Approving or disapproving all orders and directives concerning audiology tasks issued by administrators or other managers. (7-1-21)

iii. Assigning audiology tasks to audiology support personnel and supervising the performance of those tasks. Assigned tasks must not exceed the knowledge and skills of audiology support personnel nor require the
exercise of professional judgment, interpretation of test results, or the development or modification of treatment plans.

iv. Assessing the abilities of audiology support personnel to perform assigned audiology tasks.

v. Providing feedback to audiology support personnel to facilitate improved job performance.

c. The number of audiology support personnel that an audiologist may supervise at any one time must be consistent with the delivery of appropriate, quality service, and Title 54, Chapter 29, Idaho Code.

d. An audiologist must supervise audiology support personnel in the following manner:

i. A supervising audiologist must directly supervise audiology support personnel no less than one (1) time for every five (5) times that support personnel provide audiology services to a patient (twenty percent (20%). Direct supervision requires in-view real-time observation and guidance while an assigned activity is performed. This requirement can be met when the supervisor is providing supervision from a distant site using two-way video and audio transmission. The supervising audiologist will document and retain a record of all direct supervision periods.

ii. When not providing direct supervision, the supervising audiologist must provide direction and supervision to audiology support personnel while support personnel are providing audiology services to a patient by making themselves accessible to the support personnel by telephone, video conferencing or in person.

02. Audiology Support Personnel – Roles – Restrictions. Audiology support personnel perform only tasks that are planned, delegated, and supervised by the supervising audiologist. Duties and responsibilities are assigned based on training, certification, available supervision, and specific work setting, provided that an audiologist may not allow audiology support personnel to perform the following:

a. Any task prohibited by state or federal law.

b. Interpreting observations or data into diagnostic statements of clinical management strategies or procedures.

c. Determining case selection.

d. Transmitting clinical information, either verbally or in writing, to anyone without the approval of the supervising audiologist.

e. Composing clinical reports except for progress notes to be reviewed by the audiologist and held in the client’s records.

f. Referring a patient/client to other professionals or agencies.

g. Referring to self or using in connection with audiology support person’s name, any title other than one determined by the supervising audiologist that is consistent with state and federal law.

h. Signing any formal documents (e.g. treatment plans, reimbursement forms, or reports).

i. Discharging a patient/client from services.

j. Removal of cerumen.

03. Audiology Support Personnel – Pre-Service and In-Service Instruction.

a. The supervising audiologist is responsible for maintaining a written record of completed training
Training will be conducted pre-service (before tasks are assigned) and in-service (after tasks are assigned). The quality and content of training is left to the discretion of the supervising audiologist. The following guidelines apply to both pre-service and in-service training.

i. Training should be well-defined and specific to assigned tasks.

ii. Supervising audiologists should ensure that the scope and intensity of training is sufficient to prepare audiology support personnel to successfully perform assigned tasks.

iii. Training should be competency-based and be provided through a variety of formal and informal instructional methods accompanied by written policies and procedures.

iv. Supervising audiologists should provide audiology support personnel with a written description of their roles and functions. Audiologists should provide personnel with ongoing training opportunities to ensure that audiology practices are current and skills are maintained.

v. Training should include the identification of and appropriate response to linguistic and cultural challenges which may affect the delivery of service.

212. NEWBORN HEARING SCREENING TESTS.
Performing newborn hearing screening tests on infants using automated equipment that produces a pass/fail response does not, by itself, constitute the practice of audiology or convert persons performing the tests into audiology support personnel.

213. QUALIFICATIONS FOR SPEECH-LANGUAGE PATHOLOGIST LICENSURE.
All applicants for licensure as a speech-language pathologist must comply with the following education, experience, and examination requirements:

01. Graduate Program Requirement. A master's or doctoral degree from a nationally accredited school of speech-language pathology with a curriculum approved by the Board and includes a supervised academic clinical practicum.

02. Examination. Pass an examination in speech-language pathology given by PRAXIS or other examination as may be approved by the Board.

03. Supervised Experience. Satisfactorily complete the supervised postgraduate experience approved by the Board as follows:

a. One thousand two hundred sixty (1,260) hours of experience gained under the supervision of a licensed speech-language pathologist in no less than thirty-six (36) weeks of full-time (thirty-five (35) hours per week) experience or the equivalent part-time experience and in no more than forty-eight (48) months.

b. One thousand ten (1,010) hours of experience must be in direct client contact as defined in these rules.

c. A minimum of eighteen (18) hours of direct client contact must be observed on-site by the Board-approved supervisor and provided on a regular basis throughout the hours of experience.

d. The nature of the supervision and contact must allow for immediate feedback and can be conducted using audio/visual, in person, electronic means, or telephone.
230. QUALIFICATIONS FOR SPEECH-LANGUAGE PATHOLOGIST AIDE LICENSURE.
All applicants for licensure as a speech-language pathologist aide must comply with the following education and examination requirements:

01. **Education Program Requirement.** A baccalaureate degree from a nationally accredited school of speech-language pathology with a curriculum approved by the Board.

02. **Examination.** Pass an examination in speech-language pathology aide as approved by the Board.

03. **Supervision.** A speech-language pathologist aide must work under the supervision of a speech-language pathologist.

231. -- 239. (RESERVED)

240. QUALIFICATIONS FOR SPEECH-LANGUAGE PATHOLOGIST ASSISTANT LICENSURE.
All applicants for licensure as a speech-language pathologist assistant must comply with the following education and examination requirements:

01. **Education Program Requirement.** An associate degree from a nationally accredited school of speech-language pathology with a curriculum approved by the Board.

02. **Examination.** Pass an examination in speech-language pathology assistant approved by the Board.

03. **Supervision.** A speech-language pathologist assistant must work under the supervision of a speech-language pathologist.

241. -- 249. (RESERVED)

250. QUALIFICATIONS FOR HEARING AID DEALER AND FITTER LICENSURE.
All applicants for licensure as a hearing aid dealer and fitter must comply with the following education, experience, and examination requirements:

01. **Education Requirement.** A high school diploma or successful passage of the General Educational Development diploma (GED).

02. **Examination.** Pass the national International Hearing Instrument Studies examination and the practical examination approved by the Board. An applicant who fails to obtain a satisfactory score as determined by the examination provider in either the written examination or a section of the practical examination, may retake only the portion of the examination failed in order to qualify for licensure. If the applicant again fails the examination the applicant must retake the entire examination until the examination is successfully passed to qualify for licensure.

251. -- 259. (RESERVED)

260. QUALIFICATIONS FOR SIGN LANGUAGE INTERPRETER LICENSURE.
The Board may grant a sign language interpreter license to an applicant who meets the following:

01. **Education.** Possess a high school diploma or the equivalent;

02. **Examination or Certification.** Pass one (1) written and one (1) practical or performance competency examination approved by the Board or hold a current certification approved by the Board.

a. Written examinations approved by the Board include, but are not limited to: The Educational Interpreter Performance Assessment (EIPA), any interpreting generalist written examination developed by the Registry of Interpreters for the Deaf (RID), the Center for Assessment of Sign Language Interpreters (CAȘLI), or any
b. Practical or performance examinations approved by the Board include, but are not limited to: any practical or performance general interpreting examination recognized by the Registry of Interpreters for the Deaf (RID) or the Educational Interpreter Performance Assessment (EIPA) at score 4.0 or above. The practical or performance examination must have been passed within ten (10) years before the date of original application for licensure.

(7-1-21)

c. Certifications approved by the Board include, but are not limited to, those administered by: Registry of Interpreters for the Deaf (RID); National Association of the Deaf (NAD); Center for Assessment of Sign Language Interpreters (CASLI); Board for Evaluation of Interpreters (BEI) at basic level or above, or if certified before 2014, at intermediate level or above; Utah Interpreter Program (UIP) at professional or master level, or a Utah Certified: Deaf Interpreter (UC:DI).

(7-1-21)

265. CODE OF ETHICS AND STANDARDS FOR SIGN LANGUAGE INTERPRETERS.

All licensed sign language interpreters must follow the National Association of the Deaf (NAD)-Registry of Interpreters for the Deaf, Inc. (RID) code of professional conduct as incorporated by reference in Section 004 of these rules, and must practice competently and in a manner consistent with the licensee’s training, skill, and experience.

(7-1-21)

270. TEMPORARY REGISTRATION FOR OUT-OF-STATE LICENSEES.

A person licensed or certified in good standing as a sign language interpreter in another state, territory, or the District of Columbia may practice sign language interpreting in this state without a license issued by the Board for a period of thirty (30) days within a twelve (12) month period, provided they pay the required fee and meet the requirements of this section. The Board may grant an extension or additional registrations for good cause.

(7-1-21)

01. Statement of Registration. Before commencing such work, the person will file with the Board on a form approved by the board a statement of registration providing the person’s name, residence, sign language interpreter license or certificate of registration number, and the name, address, and phone number of the issuing authority.

(7-1-21)

271. -- 279. (RESERVED)

280. DEAF INTERPRETERS.

01. Letter of Endorsement. Persons who are deaf or hard-of-hearing and are not sign language interpreters may perform sign language interpreting services in the role of a deaf interpreter if they file with the Board two (2) written endorsement letters from sign language interpreters licensed by the Board. Each letter must, at a minimum, include:

a. Date letter of endorsement was written;

(7-1-21)

b. Full name, mailing address, and phone number of the deaf interpreter;

(7-1-21)

c. Name, mailing address, and phone number of the sign language interpreter; and

(7-1-21)

d. A statement endorsing the deaf interpreter to perform sign language interpreting services and an explanation as to why the sign language interpreter believes that the deaf interpreter has the skills and the knowledge to perform this role.

(7-1-21)

02. Withdrawal of Endorsement. A sign language interpreter who has endorsed a deaf interpreter may withdraw their endorsement at any time upon delivery of written notice to the deaf interpreter and the Board.

(7-1-21)
310. ENDORSEMENT.
The Board may grant a license to any person who holds a current, active license, at the level for which a license is being sought, issued by the authorized regulatory entity in another state and has not engaged in conduct that would constitute grounds for discipline under Section 54-2918, Idaho Code, unless the applicant has demonstrated suitability for licensure as set forth in these rules.

320. WRITTEN STATEMENT OF SUITABILITY FOR LICENSURE.
An applicant who or whose license has a conviction, finding of guilt, withheld judgment, or suspended sentence for a felony or has been subject to discipline in another state, territory, or country must submit with his application a written statement and any supplemental information establishing the applicant’s current suitability for licensure.

01. Consideration of Factors and Evidence. The board may consider the following factors or evidence:
   a. The severity or nature of the crime or discipline;
   b. The period of time that has passed since the crime or discipline under review;
   c. The number or pattern of crimes or discipline or other similar incidents;
   d. The circumstances surrounding the crime or discipline that would help determine the risk of reoccurrence;
   e. The relationship of the crime or discipline to the practice of sign language interpreting;
   f. The applicant’s activities since the crime or discipline under review, such as employment, education, participation in treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation; and
   g. Any other information regarding rehabilitation or mitigating circumstances.

02. Interview. The Board may, at its discretion, grant an interview of the applicant.

03. Applicant Bears the Burden. The applicant bears the burden of establishing the applicant’s current suitability for licensure.

321. -- 399. (RESERVED)

400. CONTINUING EDUCATION.
All licensees must complete the following continuing education requirements:

01. Requirement. For licensed sign language interpreters and up until January 1, 2021, for all other licensees, each licensee will successfully complete, in the twelve (12) months preceding each renewal of their license, a minimum of ten (10) contact hours of continuing education.

   a. Effective January 1, 2021, for licensees other than sign language interpreters, each licensee will successfully complete, in the three (3) years prior to their license expiration date, a minimum of thirty (30) contact hours of continuing education.

   b. A contact hour is a measurement of the licensee’s participation in an area of study germane to the practice for which the license is issued as approved by the Board. One (1) contact hour requires one (1) hour of
participation in a Board-approved continuing education program excluding meals and breaks. One (1) contact hour equals one (1) clock hour for purposes of obtaining continuing education credit. (7-1-21)

c. For college or university courses that are approved by the Board for continuing education credit, one (1) semester credit hour equals fifteen (15) contact hours; one (1) quarter credit hour equals ten (10) contact hours. (7-1-21)

d. For proctoring the hearing aid dealing and fitting examination administered by the Board, a licensee may claim three (3) contact hours per exam up to a total of six (6) contact hours during each year, provided that a licensee may not claim more than nine (9) contact hours during any three (3) year period. (7-1-21)

e. Effective January 1, 2021, the Board will waive the continuing education requirement for the first three (3) license renewals after initial licensure for licensees other than sign language interpreters. For sign language interpreters and up until January 1, 2021, for all other licensees, the Board will waive the continuing education requirement for the first renewal after initial licensure. (7-1-21)

02. Documentation. Each licensee must maintain documentation verifying hours of attendance by securing authorized signatures or other documentation from the course instructors, providers, or sponsoring institution. This documentation is subject to audit and must be provided upon request by the Board or its agent. (7-1-21)

03. Waiver. The Board may waive continuing education requirements for reasons of individual hardship, including health, when certified by a medical doctor, or other good cause. The licensee must provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board. (7-1-21)

04. Carryover of Continuing Education Hours. Until January 1, 2021, continuing education hours not claimed in the current renewal year may be claimed in the next renewal year. A maximum of ten (10) hours may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year. (7-1-21)

401. -- 449. (RESERVED)

450. PROVISIONAL PERMITS.

01. Scope and Purpose. The Board may issue a provisional permit to allow an applicant to engage in the supervised practice of a profession regulated by Title 54, Chapter 29, Idaho Code, while pursuing licensure for that profession. (7-1-21)

a. A provisional permit holder for audiology or speech language may practice the respective profession while completing the supervised experience necessary for licensure set forth in Subsection 210.03 or Subsection 220.03. (7-1-21)

b. A provisional permit holder for sign language interpreting or hearing aid dealing and fitting may practice the respective profession while pursuing passage of examination(s) or certification necessary for licensure as set forth in Subsections 250.02 and 260.02. (7-1-21)

02. Supervisor. A provisional permit holder may only practice under the supervision of a licensee(s) whose license is current, in good standing, has not had discipline in the last two (2) years, and who is not supervising more than one (1) other permit holder, and as set forth below: (7-1-21)

a. A permit holder must be supervised by a licensee for the profession corresponding to the permit, except that a hearing aid dealer and fitter permit holder must be supervised by: (7-1-21)

i. A hearing aid dealer and fitter who holds a current hearing instrument sciences (BC-HIS) from the National Board for Certification in Hearing Instrument Sciences or has three (3) years of active practice immediately preceding approval as a supervisor; or (7-1-21)
ii. An audiologist with one (1) year of active practice immediately preceding approval as a supervisor.

iii. For an applicant who holds a current hearing instrument sciences (BC-HIS) from the National Board for Certification in Hearing Instrument Sciences, the Board may within its discretion approve a supervisor who is an audiologist with less than one (1) year of practice, is supervising more than one (1) other permit holder, or both. The Board’s approval of such a supervisor may be rescinded in the event the permit holder fails a licensing examination or the permit holder failure to take the licensing examination within six (6) months after issuance of the permit. The Board may allow the supervisor to continue to supervise the permit holder upon adequate assurance that the supervision being provided is sufficient to ensure the safe and effective delivery of hearing aid dealing and fitting services and preparation for the examination.

b. A supervisor for a permit holder, except for sign language interpreter supervisor, must have an established business site in Idaho. A supervisor and permit holder for hearing aid dealing and fitting must work in the same facility.

c. A supervisor may terminate their supervision of a permit holder by a written notice to the Board and the permit holder by certified mail at least ten (10) calendar days prior to the termination.

03. Supervision. The supervisor is responsible for all practice and conduct of each permit holder under supervision. The supervisor and permit holder for hearing aid dealing and fitting must have adequate personal contact, which at a minimum includes:

a. Personal contact each work day to review any assignments, client contacts, and hearing aid fittings for the first sixty (60) days of practice. The nature of the supervision and contact must allow for immediate feedback and includes audio/visual, in person, or telephone contacts.

b. After the first sixty (60) days of practice, personal contact as described in Subsection 450.03.a. must be made no less than once in each calendar week throughout the remaining period of the permit.

c. In the event a permit holder fails the licensing examination two (2) consecutive times and is eligible to maintain a permit, the supervisor and permit holder must reinstate contact in person each work day as set forth in Subsection 450.03.a.

04. Plan of Training and Quarterly Reports. An applicant must submit a plan of training approved by the designated supervisor(s). Permit holders must submit quarterly reports signed by the supervisor(s) reflecting the progress on the plan(s) of training and any additional information required by this rule.

a. A plan of training for hearing aid dealing and fitting or a sign language interpreter must cover all sections of the license examination(s).

b. A plan of training and supervision for an audiology or speech language pathology permit holder must provide for adequate direct client contact activities which include assessment, diagnosis, evaluation, screening, treatment, and client management.

c. Quarterly reports must be on forms approved by the Board, attested to and signed by the permit holder and approved supervisor(s), and include:

i. A log of client and supervisor contacts;

ii. Supervisor’s statement of completed training assignments by the permit holder;

iii. For an audiology permit holder, documentation of all hearing aid sales or fittings made by the permit holder;

iv. For a sign language interpreter, certification of attendance for any workshop or training session that
permit holder has attended; (7-1-21)T

v. For a hearing aid dealing and fitting permit holder, a copy of test results for all persons tested by the permit holder whether or not a sale occurred and a copy of each hearing aid order for all fittings including specifications of instruments ordered. (7-1-21)T

d. Quarterly reports are due on or before April 10th, July 10th, October 10th, and January 10th for the three (3) calendar month period preceding the month due. If the permit has not been in effect for the entire quarter, the report is due for that portion of the quarter in which the permit was in effect. If quarterly reports are not received by the specified due date, are inadequate, or document inadequate progress or incompetent practice the permit may be suspended or revoked upon notice and an opportunity to be heard. (7-1-21)T

05. Change in Supervisor or Plan of Training. A permit holder must notify the Board prior to changing supervisors or changing the plan of training, and the change must be approved by the Board, or a designated member of the Board, prior to the commencement of supervision by a new supervisor or implementation of the change. Any supervision obtained from a supervisor or under a plan of training prior to or without approval of the Board will only be accepted at the discretion of the Board. (7-1-21)T

06. Cancellation of Permit. A permit is cancelled upon any of the following: issuance of a license, expiration of the permit, or ten (10) business days after termination or disqualification of all supervision or supervisors if the permit holder has not applied for a change of supervisor. (7-1-21)T

07. Expiration. Following the approval of a permit holder’s original application, a provisional permit expires after:

a. Twenty-four (24) months for the practice of audiology or the practice of hearing aid dealing and fitting. (7-1-21)T

b. Forty-eight (48) months for the practice of speech language pathology. (7-1-21)T

c. Twelve (12) months for the practice of sign language interpreting, provided that the Board may at its discretion, and upon application of the permit holder and approval of the supervisor, extend the time period by an additional twelve (12) months. The permit holder may apply for an extension a maximum of two (2) times, such that no permit holder may practice under a permit for more than thirty-six (36) months after the approval of the original application. (7-1-21)T

d. The Board may extend the time period for reasons of individual hardship, including health when certified by a medical doctor, or other good cause that prevented the permit holder from completing the supervision within the stated time period. (7-1-21)T

451. -- 499. (RESERVED)

500. HEARING EVALUATION.

01. Purpose of Rule. The purpose of this rule is to define, “tests utilizing appropriate procedures,” as used in Section 54-2923(6), Idaho Code. This rule is intended to be consistent with and to complement FDA Rule 801.420 as it refers to hearing evaluations. (7-1-21)T

02. Pre-Fitting Testing. All prospective hearing aid consumers must be given calibrated pure-tone air and bone tests with masking when applicable. Speech tests must be given by appropriate equipment calibrated to current H.T.L. reference levels. (7-1-21)T

03. Sound Field Testing. Before the prospective consumer purchases a hearing aid or within six (6) weeks afterward, the licensee must conduct the testing necessary to document that the fitted instrument meets industry standards and provides benefit to the consumer. This testing must be accomplished using appropriate sound field testing so as to ensure repeatability. Verification of benefit may be accomplished using any one (1) of the following tests:

(7-1-21)T
600. WRITTEN CONTRACTS.

01. Contract Form. Any person who practices the fitting and sale of hearing aids must enter into a written contract with the person to be supplied with the hearing aid, which is signed by the licensee and the consumer and contains the information required in Subsections 600.01.a. through g. The written contract must be given to the consumer at the time of the sale and must contain the following:

a. License number;

b. Business address;

c. The specifications as to the make, model, and manufacture date of the hearing aid;

d. Clearly state the full terms of the sale, including the exact portion of the purchase price, not to exceed twenty-five (25%) percent of the total purchase price of the hearing instrument and fitting expenses, that is nonrefundable;

e. Provide the serial number of the hearing aid upon delivery;

f. Be clearly marked as “used” or “reconditioned,” whichever is applicable, if the aid is not new; and

g. In print size no smaller than ten (10) point type:

i. The address of the Division of Occupational and Professional Licenses and the procedure for filing complaints against anyone licensed to dispense hearing aids.

ii. A nonwaivable statement that the contract is null and void and unenforceable if the hearing aid being purchased is not delivered to the consumer within thirty (30) days of the date the written contract is signed, and that in the event the hearing aid is not delivered to the consumer within thirty (30) days of the date the written contract is signed, the licensee shall promptly refund any and all moneys paid for the purchase of the hearing aid.

02. Cancellation and Refund. The written contract must grant the consumer a nonwaivable thirty (30) day right to cancel the purchase and obtain a refund. The thirty (30) day right to cancel commences from either the date the contract is signed or the hearing aid is originally delivered to the consumer, whichever is later. The thirty (30) day period is tolled for any period in which the licensee has taken possession or control of the hearing aid after its original delivery.

03. Dealer Cancellation. In the event that any licensee cancels, nullifies, or otherwise, of their own volition, refuses to honor any written contract, for any reason other than consumer cancellation as set forth in

04. Records. A copy of all test data must be kept on file by the licensee for two (2) years after sale.

05. Exemptions. The testing requirements contained in Subsections 500.02 and 500.03 of this rule do not apply to consumers who cannot respond to acceptable audiological tests, for any reason.
Subsection 600.02, that licensee must promptly refund any and all moneys paid for the purchase of the hearing aid, including any monies designated by the contract as nonrefundable in the event that the consumer had canceled the purchase.

601. -- 999. (RESERVED)
24.24.01 – RULES OF THE GENETIC COUNSELORS LICENSING BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Title 54, Chapter 56, Idaho Code. (7-1-21)T

001. SCOPE.
These rules regulate the profession of genetic counseling in the interest of the public health, safety, and welfare. (7-1-21)T

002. INCORPORATION BY REFERENCE.
The document titled “National Society of Genetic Counselors Code of Ethics,” adopted January 1992 and revised December 2004, January 2006, and April 2017, is incorporated by reference into this rule and is available at the Board’s office and on the Board’s web site. (7-1-21)T

003. -- 249. (RESERVED)

250. FEES.
All fees are non-refundable except that, if a license fee is tendered but the Board does not issue a license, the respective license fee will be returned. Fees are established in accord with Section 54-5613, Idaho Code as follows:

<table>

(7-1-21)T

251. -- 299. (RESERVED)

300. REQUIREMENTS FOR ORIGINAL LICENSURE.

01. General. An applicant who in any state, territory or country has had a license revoked or suspended or has been otherwise disciplined by a Board, a government agency, or any other disciplinary body, or has been found guilty, convicted, received a withheld judgment or suspended sentence for a felony or a lesser crime conviction must submit with his application a written statement and any supplemental information establishing his current suitability for licensure. (7-1-21)T

02. Consideration of Factors and Evidence. The Board will consider the following factors or evidence:

a. The severity or nature of the crime or discipline; (7-1-21)T
b. The period of time that has passed since the crime or discipline under review; (7-1-21)T
c. The number or pattern of crimes or discipline or other similar incidents; (7-1-21)T
d. The circumstances surrounding the crime or discipline that would help determine the risk of repetition; (7-1-21)T
e. The relationship of the crime or discipline to the practice of genetic counseling; (7-1-21)T
f. The applicant's activities since the crime or discipline under review, such as employment, education, participation in treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation; and (7-1-21)T
g. Any other information regarding rehabilitation or mitigating circumstances. (7-1-21)T

03. Interview. The Board may, at its discretion, grant an interview of the applicant. (7-1-21)T

04. Applicant Bears the Burden. The applicant will bear the burden of establishing his current suitability for licensure. (7-1-21)T

05. Education. An applicant must hold a master’s degree or higher in genetics from an American Board of Genetic Counseling (ABGC), American Board of Medical Genetics (ABMG), Accreditation Council for Genetic Counseling (ACGC), or National Society of Genetic Counselors (NSGC) accredited program or master’s degree or higher in a related field of study as approved by the Board. (7-1-21)T

06. Examination. An applicant must pass an ABGC or ABMG administered genetic counselor certification exam. The passage of the exam may have occurred prior to the effective date of these rules. (7-1-21)T

07. Certification. An applicant must provide proof of current certification from the ABGC or ABMG. (7-1-21)T

301. -- 309. (RESERVED)

310. REQUIREMENTS FOR LICENSURE BY ENDORSEMENT.
The Board may grant a license to an applicant for licensure by endorsement who meets the following requirements: (7-1-21)T

01. General. Meets the requirements prescribed in Subsection 300.01 of these rules; and (7-1-21)T

02. Holds a Current License. The applicant must be the holder of a current active license in the profession and at the level for which a license is being sought, issued by the authorized regulatory entity of another state, territory, or jurisdiction. The state, territory, or jurisdiction must have licensing requirements substantially equivalent to or higher than those required for new applicants in Idaho. The certification of licensure must be received by the Board from the issuing agency. (7-1-21)T

311. REQUIREMENTS FOR PROVISIONAL LICENSE.
The Board may issue a provisional license to allow a person who has been granted active candidate status to engage in the practice of genetic counseling. The holder of a provisional license may only practice under the general supervision of a person fully licensed under this chapter or a physician licensed in this state. (7-1-21)T

01. General. Meets the requirements prescribed in Subsection 300.01 of these rules; and (7-1-21)T

02. Supervision. While the provisional licensee is providing genetic counseling services, the licensee’s supervisor need not be physically present; however, the supervisor must be readily accessible to the provisional licensee by telephone or by electronic means for consultation and assistance. (7-1-21)T

312. INACTIVE STATUS.

01. Request for Inactive Status. Licensees requesting an inactive status during the renewal of their active license must submit a written request and pay the established fee. (7-1-21)T

02. Inactive License Status. All continuing education requirements will be waived for any year or portion thereof that a licensee maintains an inactive license and is not actively practicing in Idaho. (7-1-21)T

03. Reinstatement to Full Licensure from Inactive Status. An inactive licensee may reinstate to active status by submitting a completed, board-approved application and paying the appropriate fee, provide proof of ABGC certification and one (1) year of continuing education immediately preceding application. (7-1-21)T

313. -- 499. (RESERVED)
500. CONTINUING EDUCATION.
All licensees must comply with the following continuing education requirements: (7-1-21)T

01. Requirement. Beginning with the second renewal of their license, a licensee will be required to complete a minimum of two (2) Continuing Education Units (CEUs) within the preceding twelve (12) months or one (1) CEU and one (1) Professional Activity Credit (PAC) within the preceding twelve (12) months. (7-1-21)T

02. Documentation. Each licensee will maintain documentation verifying continuing education course attendance and curriculum, or completion of the educational activity for a period of five (5) years from the date of completion. This documentation will be subject to audit by the Board. (7-1-21)T

a. Documented evidence of meeting the continuing education course requirement must be in the form of a certificate or letter from the sponsoring entity that includes verification of attendance by the licensee, the title of the activity, the subject material covered, the dates and number of hours credited, and the presenter’s full name and professional credentials. Documented evidence of completing a continuing education activity must be in such form as to document both completion and date of the activity. (7-1-21)T

b. A licensee must submit the verification documentation to the Board, if requested by the Board. If a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the licensee may be subject to disciplinary action. (7-1-21)T

03. Waiver. The Board may, for good cause, waive the requirements of this rule. The licensee should request the waiver in advance of renewal and must provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board. (7-1-21)T

04. Carryover of Continuing Education Hours. CEUs and PACs not claimed in the current renewal year may be claimed in the next renewal year. A maximum of two (2) CEUs or one (1) PAC and one (1) CEU may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year. (7-1-21)T

501. -- 699. (RESERVED)

700. UNPROFESSIONAL AND UNETHICAL CONDUCT.
Unprofessional and unethical conduct is conduct that does not conform to the guidelines for genetic counseling contained within the (NSGC) Code of Ethics, incorporated by reference into Section 002 of these rules and approved by the Board as the Idaho Code of Ethics. (7-1-21)T

701. -- 899. (RESERVED)

900. DISCIPLINE.

01. Disciplinary Action. If the Board determines that grounds for discipline exist for violations of Title 54, Chapter 56, Idaho Code, violations of these rules, or both, it may impose disciplinary sanctions against the licensee. (7-1-21)T

901. -- 999. (RESERVED)
24.25.01 – RULES OF THE IDAHO DRIVING BUSINESSES LICENSURE BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-5403. (7-1-21)

001. SCOPE.
These rules govern the Idaho Driving Businesses Act. (7-1-21)

002. CHANGES IN LICENSEE INFORMATION.

01. Information Update. Each licensee must keep the Division current on the information that the licensee has placed on record with the Division. If a change occurs to the information that a licensee provided to the Division under Rules 150, 225, or 250, the licensee must notify the Division in writing of the change within twenty (20) calendar days after the change occurs. The licensee must provide the Division, upon request, with appropriate documentation reflecting the change. (7-1-21)

003. -- 174. (RESERVED)

175. FEES.
All fees are non-refundable.

(7-1-21)

176. -- 199. (RESERVED)

200. RENEWAL OF LICENSE.

01. Application for Renewal. In order to renew a license, a licensee must annually submit a timely, completed, Board-approved renewal application form and pay the required renewal fees. All renewals are subject to audit. When applying for renewal, the licensee must remain in compliance with all laws and rules required for licensure. (7-1-21)

02. Reinstatement. Any license canceled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code, and subject to Subsection 201.01.c., below. (7-1-21)

201. CONTINUING EDUCATION.

01. Continuing Education (CE) Requirement. Each Idaho licensed driving instructor must annually complete a minimum of eight (8) hours of continuing education. (7-1-21)

   a. The licensee must certify on the licensee’s renewal application that the licensee has complied with the annual CE requirements for the preceding twelve (12) months. The Board may conduct such continuing education audits and require verification of attendance as deemed necessary to ensure compliance with the CE requirements. (7-1-21)

   b. A licensee is considered to have satisfied the CE requirements for the first renewal of the initial license. (7-1-21)

   c. Prior to reinstatement of a license lapsed, canceled, or otherwise non-renewed for less than five (5) years, the applicant must provide proof of attendance of eight (8) hours of continuing education for the previous twelve (12) months. (7-1-21)
02. **Hours.** Credit for continuing education hours will only be given for actual time in attendance or for the time spent participating in the educational activity. One (1) hour of continuing education is equal to sixty (60) minutes. Courses taken by correspondence or on-line may be approved for continuing education if the courses require an exam or other proof of successful completion. Only four (4) hours of the required continuing education may be from correspondence, on-line, or self-study in each renewal period. The remaining hours must be in an interactive setting that allows participants to communicate directly with the instructor. Each licensee must maintain proof of attendance or successful completion documentation of all continuing education courses for a period of three (3) years.

03. **Providers/Sponsors/Subjects of Continuing Education.** The continuing education must be provided by a nationally or regionally accredited college or university, a national or state driver education and traffic safety association such as the Idaho Association of Professional Driving Businesses, Driving School Association of the Americas, the American Driver Traffic Safety Education Association, and the American Automobile Association, transportation and law enforcement agencies, or other person or entity approved by the Board and must be germane to driver education.

04. **Verification of Attendance.** Each licensee must maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution substantiating any and all hours attended by the licensee.

05. **Special Exemption.** The Board has authority to make exceptions for reasons of individual hardship or other good cause. Each licensee must provide any information requested by the Board to assist in substantiating hardship cases. This exemption is granted at the sole discretion of the Board.

06. **Carryover of Continuing Education Hours.** Continuing education hours not claimed in the current renewal year may be claimed in the next renewal year. A maximum of eight (8) hours may be carried forward from the immediately preceding year, and may not be carried forward more than one (1) renewal year.

225. **DRIVING BUSINESS LICENSE.** A driving business license enables a licensee to operate a driver education business at one (1), principal classroom location as designated in the application. The licensee may also utilize secondary locations for classroom instruction, so long as the business does not conduct driver education at any given secondary location for more than sixty (60) days in a one-year period. A driving business license is not transferable. The business licensee must conspicuously display the license at the business’s principal classroom location.

01. **Applicant Identity.** The applicant must provide such identifying information as may be requested by the Board on a form approved by the Board, including the names and addresses of the applicant’s officers and shareholders having a twenty-five percent (25%) or greater ownership interest (if a corporation), members and managers (if a limited liability company), and partners (if a partnership).

02. **Criminal History Background Check.** The applicant and all persons listed under Subsection 225.01 must submit to a current, fingerprint-based criminal history check conducted by an organization approved by the Board. Each applicant must ensure that such persons submit a full set of their fingerprints, and any relevant fees, to the Division which will forward the fingerprints and fees to the organization that conducts the fingerprint based criminal history background check. The application will not be processed until the Division has received the completed fingerprint-based criminal history background checks.

03. **Classroom Locations and Certificates of Occupancy.** Each applicant must list all principal and secondary classroom locations to be utilized by the business. The applicant must provide a certificate of occupancy issued to the building/room by the local fire marshal or the fire marshal’s designated agent, for each classroom location other than a location in a public or private school building, government building, church, or synagogue.

04. **Certificate of Vehicle Insurance.** The certificate of commercial automobile insurance for each
vehicle utilized by the driving business for driver education must accompany the application. The minimum coverage will include:

a. Medical Payment for each person - five thousand dollars ($5,000); and either

b. Limit of liability (Combined single limit) - five hundred thousand ($500,000) to apply to bodily injury and/or property damage; or

c. Limit of liability (Split limit). Bodily injury - two hundred-fifty thousand ($250,000) per person/five hundred thousand ($500,000) each accident; Property damage - two hundred-fifty thousand ($250,000) each accident.

05. Licensed Instructors. Before beginning to offer driver education, and at all times while offering driver education, a driving business must employ or have contracted with one (1) or more licensed driving instructors to teach the classroom instruction phase and behind-the-wheel training phase of the driver education to be provided by the business. A driving business must submit to the Division a current list of such licensed instructors with applications for original licensure, renewal, and reinstatement. The list must be kept at its primary place of business and retained for five (5) years.

06. Vehicles. An applicant for a driving business license must submit to the Division a list of the vehicles that the business will utilize when offering driver education. A business licensee may not utilize vehicles that do not appear on the list. Each vehicle must have dual control brake pedals, safety restraints for all passengers, a side view mirror on each side of the vehicle, and an additional rear view mirror or compatible viewing device for the exclusive use of the instructor. A driving business must ensure that students are not allowed in a listed vehicle unless the vehicle is in a safe and proper operating condition.

a. Initial Inspection. An applicant may not include a vehicle on a business’s vehicle list unless the vehicle has passed a vehicle inspection performed by an ASE mechanic or vehicle technician within the two (2) month period preceding the application. The inspection must be documented on a Board-approved inspection form. The person who inspected the vehicle must sign the form, certifying that the vehicle generally is in a safe and proper operating condition, and that each inspected item passed inspection or, if found to be in need of repair, was repaired on a given date. The application must be accompanied by a separate, signed form for each listed vehicle.

b. Annual Inspection. A business licensee must ensure that each vehicle passes an inspection every twelve (12) months, and that the inspection is performed by an ASE mechanic or vehicle technician documented on the Board-approved form referenced in Paragraph 225.06.a. of these rules. If a vehicle fails an annual inspection, the business licensee may not use the vehicle for behind-the-wheel training until the vehicle passes inspection by an ASE mechanic or vehicle technician and the business licensee has submitted to the Division the inspection form evidencing that the vehicle has passed.

c. Incident Inspection. If a vehicle incident occurs that requires an investigation and report by law enforcement, or in which the damage exceeds one thousand five hundred dollars ($1,500), the business licensee must withdraw the vehicle from service. The business licensee may not use the vehicle for behind-the-wheel training until the vehicle passes inspection by an ASE mechanic or vehicle technician and the business licensee has submitted to the Division the inspection form evidencing that the vehicle has passed.

d. Signage. The business licensee must ensure that the outside of each vehicle is equipped with safely secured signs. Signs must include “Student Driver,” “Driver Education,” “Driver Training,” “Driving School,” or similar language that clearly designates the vehicle as a driver training vehicle.

07. Course of Instruction. Each applicant must provide the course of instruction it will use when instructing students. The applicant must demonstrate, to the Board’s satisfaction, that the course of instruction is designed to produce safe and effective drivers and is educationally sound. The course of instruction must be based on the minimum curriculum components outlined in Rule 226, and consists of:

a. Not less than thirty (30) hours of classroom instruction; and
b. Not less than six (6) hours of behind-the-wheel practice driving; and  

(7-1-21)T

c. Not less than six (6) hours of student, in-vehicle observation of other persons (e.g., parents, other student drivers, etc.) driving the vehicle.  

(7-1-21)T

08. On-line Instruction. In addition to, or in lieu of offering classroom instruction at a physical classroom location, a business licensee may offer classroom instruction to students via the internet. While a business licensee may utilize a third party to offer on-line classroom instruction, the business licensee is responsible for ensuring that the instruction content meets the requirements of these rules and is approved by the Board.  

(7-1-21)T

226. DRIVING BUSINESS – MINIMUM CURRICULUM COMPONENTS.

In order to assure consistency among driving businesses, it is necessary that every business licensee ensure that its driver education curriculum include the following minimum curriculum components:  

(7-1-21)T

01. Component One for Classroom.

a. Conducting a parent/student orientation and course overview.  

(7-1-21)T

02. Component Two for Classroom.

a. Identifying vehicle gauges, alert, and warning symbols.  

(7-1-21)T

b. Preparing to drive.  

(7-1-21)T

c. Protecting occupants.  

(7-1-21)T

03. Component Three for Classroom.

a. Identifying road signs and signals.  

(7-1-21)T

b. Identifying lane markings.  

(7-1-21)T

04. Component Four for Classroom.

a. Understanding basic traffic laws, including right-of-way rules.  

(7-1-21)T

05. Component Five for Classroom.

a. Using good habits for reduced risk driving.  

(7-1-21)T

b. Using time and space management systems and strategies.  

(7-1-21)T

06. Component Six for Classroom.

a. Explaining the effect of gravity and energy of motion on a vehicle.  

(7-1-21)T

b. Understanding procedures to maintain vehicle balance and traction.  

(7-1-21)T

c. Identify strategies to negotiate hills and curves.  

(7-1-21)T

07. Component Seven for Classroom.

a. Identifying strategies to use when driving in rural and urban environments.  

(7-1-21)T

b. Identifying strategies to use when driving on freeways.  

(7-1-21)T

08. Component Eight for Classroom.  

(7-1-21)T
a. Identifying strategies to use when driving in bad weather. (7-1-21)T
b. Identifying strategies to use when encountering roadside emergencies. (7-1-21)T

09. **Component Nine for Classroom.**

a. Understanding ways to cooperate with other roadway users, including bicyclists. (7-1-21)T
b. Identifying responsibilities after a collision. (7-1-21)T
c. Identifying the procedure for obtaining a driver’s license. (7-1-21)T
d. Identifying and avoiding common driver distractions. (7-1-21)T
e. Identifying ways to prevent drowsiness while driving. (7-1-21)T
f. Resisting aggressive driving behaviors. (7-1-21)T

10. **Component Ten for Classroom.**

a. Explaining the effects of alcohol on the body. (7-1-21)T
b. Explaining the effects of alcohol on the driving task. (7-1-21)T
c. Correlating drinking and driving with vehicle crashes. (7-1-21)T
d. Identifying Idaho laws related to drinking and driving. (7-1-21)T
e. Explaining the dangers of alcohol and other drug use. (7-1-21)T

11. **Component Eleven for In-Car.**

a. Performing pre-drive procedure. (7-1-21)T
b. Identifying vehicle controls. (7-1-21)T
c. Starting the vehicle. (7-1-21)T
d. Backing the vehicle. (7-1-21)T
e. Demonstrating approved steering technique. (7-1-21)T
f. Smoothly stopping the vehicle. (7-1-21)T
g. Demonstrating proper signaling and turning technique. (7-1-21)T
h. Recognizing relevant signs and markings. (7-1-21)T
i. Distinguishing between four-way and two-way stops. (7-1-21)T

12. **Component Twelve for In-Car.**

a. Negotiating controlled and uncontrolled intersections. (7-1-21)T
b. Negotiating hills and curves. (7-1-21)T
c. Angle parking in a parking lot. (7-1-21)T

d. Driving in rural environment. (7-1-21)T

e. Making lane changes. (7-1-21)T

13. **Component Thirteen for In-Car.** (7-1-21)T
a. Driving in an urban environment (with one-way and two-way streets, if available). (7-1-21)T
b. Dealing with signal lights, pedestrians, and city traffic. (7-1-21)T
c. Performing a perpendicular park. (7-1-21)T
d. Merging onto the freeway. (7-1-21)T
e. Driving on the freeway. (7-1-21)T
f. Exiting the freeway and merging with traffic on surface streets. (7-1-21)T

14. **Component Fourteen for In-Car.** (7-1-21)T
a. Performing a parallel park/street park. (7-1-21)T
b. Performing turnabouts. (7-1-21)T
c. Passing another vehicle. (7-1-21)T
d. Driving independently with the instructor. (7-1-21)T

227. **DRIVING BUSINESS - COURSE OF INSTRUCTION.**

**01. In-Car Documentation.** A business licensee must ensure that each listed vehicle contains documentation that identifies each student and the student’s permit number. Permits will be given to the students following the completion of the course and used during the required graduate licensing process. (7-1-21)T

**02. Maximum Daily Driving and Observation Time.** Neither a business licensee nor an instructor licensee may permit an enrolled student to receive more than two (2) hours of behind-the-wheel driving time per day. Maximum observation time is two (2) hours per student, per day, and may be completed with a parent or legal guardian. (7-1-21)T

**03. Maximum Number of Students In Vehicle.** Neither a business licensee nor an instructor licensee may permit more than three (3) students in a vehicle at one (1) time. (7-1-21)T

**04. Grading Criteria.** A business licensee may not permit a student to graduate from the business’s driver education program unless the student has achieved an eighty percent (80%) or higher in each of the three (3) course areas described in Subsection 225.07. The business licensee must utilize written grading criteria for each of the minimum components in Rule 226. Criteria may include student attitude and such other criteria as the driving business may deem appropriate. The business licensee must maintain records of the student’s grades. (7-1-21)T

**05. Driving Log.** Each driving instructor must complete a log for each student's behind-the-wheel driving and each driving business licensee must ensure that its driving instructors complete the log. The log must include, for each student, at least the student’s name, birthdate, phone number, driving permit number, class date, instructor’s name, lesson objective, total instruction time, total observation time, final grade, and date the student passed. (7-1-21)T

**06. Reporting.** A business licensee will send student performance information as prescribed by the
Idaho Division of Motor Vehicles (DMV) to the DMV no later than five (5) p.m. on the third business day following completion of the course. (7-1-21)

07. Record Retention. The business licensee must maintain all logs and other records required under Rule 227 for at least three (3) years from date on which the student completes, or is no longer enrolled in, the business’s driver education course. The business licensee may not release these records without written consent from the student and the student’s parent or legal guardian. The Board and its agents, however, may inspect these records at any time. (7-1-21)

228. -- 249. (RESERVED)

250. DRIVING INSTRUCTOR LICENSE.

01. Application. An applicant must apply on a Board-approved application form. (7-1-21)

02. Driving Record and Driver’s License. Each applicant must submit a copy of a valid driver’s license in good standing and a copy of a satisfactory driving record. An unsatisfactory record includes, but is not limited to, two (2) moving violations in the past twelve (12) months, or suspension or revocation of a driver’s license in the last thirty-six (36) months, or a conviction involving alcohol or controlled substances within the last thirty-six (36) months. (7-1-21)

03. Criminal History Background Check. Each applicant must submit to a current, fingerprint-based criminal history check conducted by an organization approved by the Board. Each applicant must submit a full set of the applicant’s fingerprints, and any relevant fees, to the Division which will forward the fingerprints and fees to the organization that conducts the fingerprint based criminal history background check. The application will not be processed until the completed fingerprint-based criminal history background check has been received. (7-1-21)

04. Medical Certificate. A driving instructor licensee may not provide in-vehicle instruction to students if the instructor suffers from a medical condition that may impair the instructor’s ability to safely instruct student drivers. Each applicant for an instructor’s license must obtain a medical examination performed by a licensed medical professional. The examination must be completed within two (2) years preceding the application. A driving instructor licensee must obtain a new medical certificate every two (2) years and annually certify compliance with these requirements. The applicant must submit a medical examiner’s certificate, issued and signed by a licensed, qualified medical professional documenting that the examination occurred and that the applicant does not suffer from any physical or mental condition or disease that would impair the applicant’s ability to safely instruct student drivers. If a medical condition exists, the applicant must re-certify as the medical professional requires and submit that information to the Board. (7-1-21)

05. Instructor Apprenticeship Training Program. Applicants for licensure must demonstrate to the Board’s satisfaction that they have successfully completed all required classroom instruction and behind-the-wheel training hours from a Board-approved instructor apprenticeship training program or have met the requirements for a waiver of the apprenticeship training program as set forth in these rules. The applicant must have undertaken and completed the apprenticeship training program within the five (5) year period immediately preceding the application. (7-1-21)

   a. Proof of successful completion must include written certificate from a Board-approved apprenticeship training program certifying that the applicant has satisfactorily completed the program. An applicant need not have completed all required classroom instruction and behind-the-wheel training hours through a single program so long as the last program attended by the applicant ensures itself, and its business licensee certifies to the Board that the applicant has satisfactorily completed all required hours through Board-approved apprenticeship training programs. (7-1-21)

   b. A person may not enroll in an apprenticeship training program unless the person has applied for, paid for, and obtained an apprenticeship permit from the Board. The applicant must apply on Board-approved forms, which must identify the applicant and the business licensee in whose approved apprenticeship training program the applicant will be enrolled. The individual applicant must establish that they are at least twenty-one (21) years old and meet the requirements of Rule 250. An apprenticeship permit automatically expires one (1) year after issuance. The
Board also may suspend or revoke an apprenticeship permit, and refuse to issue another permit, if the permittee engages in any act or omission that would subject the permittee to discipline if the permittee had an instructor’s license. No one may be a permittee for more than three (3) years. (7-1-21)

06. Waiver of Instructor Apprenticeship Training Program. An applicant is entitled to a waiver of the apprenticeship training program if they provide proof to the Board that they possess the requisite training and experience requirements as set forth below:

An applicant who has held within the past five (5) years an active and unrestricted public driver education instructor license issued by the Idaho State Department of Education and has completed eight (8) hours of continuing education within the prior year or an individual who has completed the Idaho State Department of Education driving instructor program within the past five (5) years and has completed eight (8) hours of continuing education within the prior year qualifies for a waiver of the apprenticeship training program requirement. (7-1-21)

251. -- 274. (RESERVED)

275. OPERATION OF INSTRUCTOR APPRENTICESHIP TRAINING PROGRAM.

01. Application for Approval. A business licensee may operate a Board-approved instructor apprenticeship training program. The business licensee must apply for program approval on forms provided by the Board. (7-1-21)

02. Suspension or Revocation of Approval and Discipline. If an approved program fails to consistently adhere to the approval criteria in these rules, the Board may suspend or revoke the approval. (7-1-21)

03. Apprentices. The business licensee must ensure that all persons who enroll in the licensee’s program possess a valid instructor apprenticeship training permit from the Board. (7-1-21)

04. Instruction and Training Hours. The Board must be satisfied that the program has designed its proposed instruction and training to produce safe and effective driving instructors. The business licensee must ensure that the program includes at least the following instruction and training components:

a. Each apprentice must receive at least thirty (30) hours of classroom instruction covering the curriculum components for student classroom instruction specified in Subsections 226.01 through 226.10 of these rules. These hours may also be completed through on-line or internet based instruction. (7-1-21)

b. Each apprentice must receive at least fifty (50) hours of behind-the-wheel-training covering the curriculum components for student in-car instruction specified in Subsections 226.11 through 226.14 of these rules. When an apprentice begins to provide behind-the-wheel driving instruction to students, a program instructor must supervise the apprentice by riding in the vehicle with the apprentice and students for the first six (6) hours. A program instructor also must ride in the vehicle with the apprentice and students to evaluate the apprentice during the final two (2) hours of the apprentice’s behind-the-wheel training. (7-1-21)

05. Instructors. The business licensee must ensure that only licensed driving instructors are allowed to teach in the program. A list of the instructors must accompany the application for approval. (7-1-21)

06. Recordkeeping. The business licensee must ensure that the program maintains progress records for each apprentice. A program instructor and the apprentice must sign and date the records each month, and copies of the records must be provided to the apprentice. The records must, at a minimum, identify each lesson completed, the number of hours of instruction involved in the lesson, the date the apprentice completed the lesson, the instructor who taught the lesson, and whether the apprentice passed. When an apprentice’s course of instruction has been completed or terminated, the program business licensee must maintain the records of the apprentice’s progress, and the total hours recorded and maintained by the program for a period of five (5) years from completion or termination date. These records are subject to inspection by the Board at any time. (7-1-21)

07. Certificate of Proficiency. The program must provide each apprentice with a certificate of proficiency evidencing all hours satisfactorily completed by the apprentice while in the program, and that the
apprentice is proficient in all areas covered by the certificate. (7-1-21)T

08. Discontinuance of Program. If the business licensee ceases to operate the program, the business licensee must provide the program’s current and prior apprentices with any progress or other records that the program is required to maintain under this Section. (7-1-21)T

276. -- 449. (RESERVED)

450. DISCIPLINE.

01. Grounds for Discipline. In addition to the grounds for discipline listed in Section 54-5408, Idaho Code, grounds for discipline also include:

a. Failure to cooperate with an inspection or audit conducted by the Board or its agents including, without limitation, any continuing education audit, as specified in Section 54-5403(6), Idaho Code. Failure to cooperate includes, without limitation, failure to provide documentation requested by the Board or its agents during an inspection or audit of the licensee’s compliance with Board laws or rules. (7-1-21)T

b. Violating any of the following standards of conduct that have been adopted by the Board:

i. A licensee must not use fraud or deception in procuring or renewing, or in attempting to procure or renew, a license, permit, or other authorization issued by the Board. (7-1-21)T

ii. A licensee must not aid, abet, or assist any person or entity in conduct for which a license or permit is required under Idaho Driving Businesses Act, unless the person or entity has the required license or permit. (7-1-21)T

iii. A licensee must comply with final orders of the Board issued in contested cases to which the licensee is a party. (7-1-21)T

02. Disciplinary Sanctions. If the Board determines that grounds for discipline exist, it may impose disciplinary sanctions against the licensee including, without limitation, any or all of the following:

a. Revoke or suspend the licensee’s license(s); (7-1-21)T

b. Restrict or limit the licensee’s practice. (7-1-21)T

451. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-5504, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the licensure and regulation of the practice of midwifery in Idaho. (7-1-21)T

002. INCORPORATION BY REFERENCE.
The following documents are incorporated by reference into these rules, and are available at the Board’s office and through the Board’s website:

01. Prevention of Perinatal Group B Streptococcal Disease. Published by the Centers for Disease Control and Prevention, MMWR 2010;59 (No. RR 10), dated November 19, 2010. (7-1-21)T

02. Essential Documents of the National Association of Certified Professional Midwives. Copyright date 2004. (7-1-21)T

03. 2016 Job Analysis Survey. Published by the North American Registry of Midwives (NARM). (7-1-21)T

003. -- 099. (RESERVED)

100. QUALIFICATIONS FOR LICENSURE.

01. Applications. Applications for licensure must be submitted on Board-approved forms. (7-1-21)T

02. Qualifications. Applicants for licensure must submit a completed application, required application and licensing fees, and documentation, acceptable to the Board, establishing that the applicant:

a. Currently is certified as a CPM by NARM or a successor organization. (7-1-21)T

b. Has successfully completed Board-approved, MEAC-accredited courses in pharmacology, the treatment of shock/IV therapy, and suturing specific to midwives. (7-1-21)T

101. -- 174. (RESERVED)

175. FEES.
Unless otherwise provided for, all fees are non-refundable.

176. -- 199. (RESERVED)

200. RENEWAL OF LICENSE.

01. Complete Practice Data. The information submitted by the licensed midwife must include complete practice data for the calendar year preceding the date of the renewal application. Such information includes:

a. The number of clients to whom the licensed midwife has provided care; (7-1-21)T
b. The number of deliveries, including;
   i. The number of cesareans;
   ii. The number of vaginal births after cesarean (VBACs);

c. The average, oldest, and youngest maternal ages;

d. The number of primiparae;

e. All APGAR scores below five (5) at five (5) minutes;

f. The number of prenatal transfers and transfers during labor, delivery and immediately following birth, including:
   i. Transfers of mothers;
   ii. Transfers of babies;
   iii. Reasons for transfers;
   iv. Transfers of all newborns being admitted to the neonatal intensive care unit (NICU) for more than twenty four (24) hours.

g. Any perinatal deaths occurring up to six weeks post-delivery, broken out by: weight, gestational age, age of the baby, and stillbirths, if any.

h. Any significant neonatal or perinatal problem, not listed above, during the six (6) weeks following birth.

02. Current Cardiopulmonary Resuscitation Certification. A licensed midwife to renew their license must certify on their renewal application that they possess a current certification in adult, infant, and child cardiopulmonary resuscitation and in neonatal resuscitation obtained through completion of American Heart Association or the Health and Safety Institute approved cardiopulmonary resuscitation courses and American Academy of Pediatrics approved neonatal resuscitation courses.

03. Continuing Education Verification. When a licensed midwife submits a renewal application, the licensed midwife must certify by signed affidavit that the annual continuing education requirements set by the Board have been met. The Board may conduct such continuing education audits and require verification of attendance as deemed necessary to ensure compliance with continuing education requirements.

201. -- 299. (RESERVED)

300. CONTINUING EDUCATION REQUIREMENT.

01. Annual Continuing Education Requirement. A licensed midwife must successfully complete a minimum of ten (10) continuing education hours per year for the year preceding renewal. Two (2) of these hours must be in peer review participation as described in Subsection 300.06. One (1) continuing education hour equals one (1) clock hour. A licensed midwife is considered to have satisfied the annual continuing education requirement for the first renewal of the initial license.

02. Subject Material. The subject material of the continuing education must be germane to the practice of midwifery and either acceptable to NARM as counting towards recertification of a licensed midwife as a CPM or otherwise approved by the Board.

03. Verification of Attendance. Each licensed midwife must maintain verification of attendance by securing authorized signatures or other documentation from the course instructors or sponsoring institution.
substantiating any hours attended. This verification must be maintained by the licensed midwife for no less than seven (7) years and provided to the Board upon request by the Board or its agent.

04. Distance Learning and Independent Study. The Board may approve a course of study for continuing education credit that does not include the actual physical attendance of the licensed midwife in a face-to-face setting with the course instructor. Distance Learning or Independent Study courses will be eligible for continuing education credits if approved by NARM or upon approval of the Board.

05. Requests for Board Approval. All requests for Board approval of educational programs must be made to the Board in writing at least sixty (60) days before the program is scheduled to occur. Requests must be accompanied by a statement that includes:

a. The name of the instructor or instructors;

b. The date and time and location of the course;

c. The specific agenda for the course;

d. The number of continuing education credit hours requested; and

e. A statement of how the course is believed to be germane to the practice of midwifery.

06. Peer Review System. As part of the Board’s annual continuing education requirement, each licensed midwife must participate in peer review activities for a minimum of two (2) hours per year.

a. The purpose of peer review is to enable licensed midwives to retrospectively present and review cases in an effort to further educate themselves about the appropriateness, quality, utilization, and ethical performance of midwifery care.

b. Licensed midwives are responsible for organizing their own peer review sessions. At least three (3) licensed midwives or CPMs must participate in a peer review session in order for the session to count towards a licensed midwife’s annual two-hour peer review activity requirement.

c. Each licensed midwife must make a presentation that must include, without limitation, the following information:

i. Total number of clients currently in the licensed midwife’s care;

ii. The number of upcoming due dates for clients in the licensed midwife’s practice;

iii. The number of women in the licensed midwife’s practice that are postpartum;

iv. The number of births the licensed midwife has been involved with since the last peer review session; and

v. One (1) or more specific cases arising since the licensed midwife’s last peer review session. The licensed midwife must present any cases involving serious complications or the transport of a mother or baby to the hospital.

d. The information presented in a peer review session is confidential. The identities of the client, other health care providers, and other persons involved in a case may not be divulged during the peer review session.

07. Carryover Hours. A licensed midwife may carryover a maximum of five (5) hours of continuing education to meet the next year’s continuing education requirement.

08. Hardship Waiver. The Board may waive the continuing education requirement for good cause.
The licensed midwife must request the waiver and provide the Board with any information requested to assist the Board in substantiating the claimed hardship.

(7-1-21)

301. -- 324. (RESERVED)

325. INFORMED CONSENT.

01. Informed Consent Required. A licensed midwife must obtain and document informed consent from a client before caring for that client. The informed consent must be documented on an informed consent form, signed and dated by the client, in which the client acknowledges, at a minimum, the provisions listed in Section 54-5511, Idaho Code and the following:

a. Instructions for obtaining a copy of the Essential Documents of the NACPM and 2016 Job Analysis Survey, published by NARM;

b. Instructions for filing complaints with the Board;

02. Record of Informed Consent. All licensed midwives must maintain a record of all signed informed consent forms for each client for a minimum of nine (9) years after the last day of care for such client.

(7-1-21)

326. -- 350. (RESERVED)

351. USE OF FORMULARY DRUGS.

01. Protocols. A licensed midwife may use the drugs described in the midwifery formulary according to the following protocol describing the indication for use, dosage, route of administration and duration of treatment:

<table>

02. **Other Legend Drugs.** During the practice of midwifery a licensed midwife may not obtain or administer legend drugs that are not listed in the midwifery formulary. Drugs of a similar nature and character may be used if determined by the Board to be consistent with the practice of midwifery and provided that at least one hundred twenty (120) days' advance notice of the proposal to allow the use of such drugs is given to the Board of Pharmacy and the Board of Medicine and neither Board objects to the addition of such drugs to the midwifery formulary.

352. **OBTAINING, STORING, AND DISPOSING OF FORMULARY DRUGS.**
A licensed midwife must adhere to the following protocol for obtaining, storing, and disposing of formulary drugs during the practice of midwifery.

### 01. Obtaining Formulary Drugs.
A licensed midwife may obtain formulary drugs as allowed by law, including, without limitation, from:

- **a.** A person or entity that is licensed as a Wholesale Distributor by the Idaho State Board of Pharmacy; and
- **b.** A retail pharmacy, in minimal quantities for office use.

### 02. Storing Formulary Drugs.
A licensed midwife must store all formulary drugs in secure areas suitable for preventing unauthorized access and for ensuring a proper environment for the preservation of the drugs. However, licensed midwives may carry formulary drugs to the home setting while providing care within the course and scope of the practice of midwifery.

### 03. Disposing of Formulary Drugs.
A licensed midwife must dispose of formulary drugs using means that are reasonably calculated to guard against unauthorized access by persons and harmful excretion of the drugs into the environment. The means that may be used include, without limitation:

---

a. Transferring the drugs to a reverse distributor who is registered to destroy drugs with the U.S. Drug Enforcement Agency; (7-1-21)T

b. Removing the drugs from their original containers, mixing them with an undesirable substance such as coffee grounds or kitty litter, putting them in impermeable, non-descript containers such as empty cans or sealable bags, and throwing the containers in the trash; or (7-1-21)T

c. Flushing the drugs down the toilet if the accompanying patient information instructs that it is safe to do so. (7-1-21)T

353. -- 354. (RESERVED)

355. MEDICAL WASTE.
A licensed midwife must dispose of medical waste during the practice of midwifery according to the following protocol: (7-1-21)T

01. Containers for Non-Sharp, Medical Waste. Medical waste, except for sharps, must be placed in disposable containers/bags which are impervious to moisture and strong enough to preclude ripping, tearing or bursting under normal conditions of use. The bags must be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling or transport. The containment system must have a tight-fitting cover and be kept clean and in good repair. All bags used for containment of medical waste must be clearly identified by label or color, or both. (7-1-21)T

02. Containers for Sharps. Sharps must be placed in impervious, rigid, puncture-resistant containers immediately after use. Needles must not be bent, clipped or broken by hand. Rigid containers of discarded sharps must either be labeled or colored like the disposable bags used for other medical waste, or placed in such labeled or colored bags. (7-1-21)T

03. Storage Duration. Medical waste may not be stored for more than seven (7) days, unless the storage temperature is below thirty-two (32) degrees Fahrenheit. Medical waste must never be stored for more than ninety (90) days. (7-1-21)T

04. Waste Disposal. Medical waste must be disposed of by persons knowledgeable in handling of medical waste. (7-1-21)T

356. SCOPE AND PRACTICE STANDARDS.
A licensed midwife must adhere to the following scope and practice standards when providing antepartum, intrapartum, postpartum, and newborn care. (7-1-21)T

01. NACPM Scope and Practice Standards. The Board adopts the Essential Documents of the National Association of Certified Professional Midwives as scope and practice standards for licensed midwives. All licensed midwives must adhere to these scope and practice standards during the practice of midwifery to the extent such scope and practice standards are consistent with the Board’s enabling law, Chapter 55, Title 54, Idaho Code. (7-1-21)T

02. Conditions for Which a Licensed Midwife May Not Provide Care. A licensed midwife may not provide care for a client with conditions listed in Section 54-5505(1)(e)(i), Idaho Code. (7-1-21)T

03. Conditions for Which a Licensed Midwife May Not Provide Care Without Health Care Provider Involvement. A licensed midwife may not provide care for a client with a history of the disorders, diagnoses, conditions, or symptoms listed in Section 54-5505(1)(e)(ii), Idaho Code, unless such disorders, diagnoses, conditions or symptoms are being treated, monitored or managed by a licensed health care provider. For purposes of this Paragraph, in Section 54-5505(1)(e)(ii), Idaho Code, “history” means a “current history” and “illegal drug use” means “illegal drug abuse or addiction.” Before providing care to such a client, the licensed midwife must notify the client in writing that the client must obtain the described physician care as a condition to the client’s eligibility to obtain maternity care from the licensed midwife. The licensed midwife must, additionally, obtain the client’s signed
acknowledgment that the client has received the written notice.

04. Conditions for Which a Licensed Midwife Must Recommend Physician Involvement. Before providing care for a client with a history of any of the disorders, diagnoses, conditions or symptoms listed in Section 54-5505(1)(e)(iii), Idaho Code, a licensed midwife must provide written notice to the client that the client is advised to see a physician licensed under Chapter 18, Title 54, Idaho Code, or under an equivalent provision of the law of a state bordering Idaho, during the client’s pregnancy. Additionally, the licensed midwife must obtain the client’s signed acknowledgment that the client has received the written notice.

05. Conditions for which a Licensed Midwife must Facilitate Hospital Transfer.

a. Conditions. A licensed midwife must facilitate the immediate transfer of a client to a hospital for emergency care if the client has any of the disorders, diagnoses, conditions or symptoms listed in Section 54-5505(1)(e)(iv), Idaho Code, and the following:

i. Maternal fever in labor of more than 100.4 degrees Fahrenheit, in the absence of environmental factors;

ii. Suggestion of fetal jeopardy, such as frank bleeding before delivery, any abnormal bleeding (with or without abdominal pain), evidence of placental abruption, meconium with non-reassuring fetal heart tone patterns where birth is not imminent, or abnormal fetal heart tones with non-reassuring patterns where birth is not imminent;

b. Plan for Emergency Transfer and Transport. When facilitating a transfer under Subsection 356.05, the licensed midwife must notify the hospital when the transfer is initiated, accompany the client to the hospital, if feasible, or communicate by telephone with the hospital if the licensed midwife is unable to be present personally. The licensed midwife must also ensure that the transfer of care is accompanied by the client’s medical record, which must include items defined in Section 54-5505(1)(e)(v), Idaho Code, and if feasible, the licensed midwife’s assessment of the client’s current medical condition and description of the care provided by the licensed midwife before transfer.

c. Transfer or Termination of Care. A midwife who deems it necessary to transfer or terminate care pursuant to the laws and rules of the Board or for any other reason must transfer or terminate care and will not be regarded as having abandoned care or wrongfully terminated services.

357. -- 359. (RESERVED)

360. NEWBORN TRANSFER OF CARE OR CONSULTATION.

01. Newborn Transfer of Care. Conditions for which a licensed midwife must facilitate the immediate transfer of a newborn to a hospital for emergency care:

a. Respiratory distress defined as respiratory rate greater than eighty (80) or grunting, flaring, or retracting for more than one (1) hour.

b. Any respiratory distress following delivery with moderate to thick meconium stained fluid.

c. Central cyanosis or pallor for more than ten (10) minutes.

d. Apgar score of six (6) or less at five (5) minutes of age.

e. Abnormal bleeding.

f. Any condition requiring more than six (6) hours of continuous, immediate postpartum evaluation.
g. Any vesicular skin lesions. (7-1-21)T
h. Seizure-like activity. (7-1-21)T
i. Any bright green emesis. (7-1-21)T
j. Poor feeding effort due to lethargy or disinterest in nursing for more than two (2) hours immediately following birth. (7-1-21)T

02. Newborn Consultation Required. Conditions for which a licensed midwife must consult a Pediatric Provider (Neonatologist, Pediatrician, Family Practice Physician, Advanced Practice Registered Nurse, or Physician Assistant):

a. Temperature instability, defined as a rectal temperature less than ninety-six point eight (96.8) degrees Fahrenheit or greater than one hundred point four (100.4) degrees Fahrenheit documented two (2) times more than fifteen (15) minutes apart. (7-1-21)T

b. Murmur lasting more than twenty-four (24) hours immediately following birth. (7-1-21)T
c. Cardiac arrhythmia. (7-1-21)T
d. Congenital anomalies. (7-1-21)T
e. Birth injury. (7-1-21)T

f. Clinical evidence of prematurity, including but not limited to, low birth weight of less than two thousand five hundred (2,500) grams, smooth soles of feet, or immature genitalia. (7-1-21)T
g. Any jaundice in the first twenty-four (24) hours after birth or significant jaundice at any time. (7-1-21)T

h. No stool for more than twenty-four (24) hours immediately following birth. (7-1-21)T
i. No urine output for more than twenty-four (24) hours. (7-1-21)T
j. Development of persistent poor feeding effort at any time. (7-1-21)T

361. -- 449. (RESERVED)

450. UNPROFESSIONAL CONDUCT.

01. Standards of Conduct. If a licensed midwife or an applicant for licensure, renewal, or reinstatement has engaged in unprofessional conduct, the Board may refuse to issue, renew, or reinstate the applicant’s license and may discipline the licensee. Unprofessional conduct includes, without limitation, those actions defined in Section 54-5510, Idaho Code, and any of the following: (7-1-21)T

a. Having a license suspended, revoked, or otherwise disciplined in this or any other state or jurisdiction; (7-1-21)T

b. Having been convicted of any felony, or of a lesser crime that reflects adversely on the person’s fitness to be a licensed midwife. Such lesser crimes include, but are not limited to, any crime involving the delivery of health care services, dishonesty, misrepresentation, theft, or an attempt, conspiracy or solicitation of another to commit a felony or such lesser crimes. (7-1-21)T

c. Violating any standards of conduct set forth in these rules, whether or not specifically labeled as such, and including without limitation any scope and practice standards, record-keeping requirements, notice requirements, or requirements for documenting informed consent. (7-1-21)T
02. **Discipline.** If the Board determines that a licensed midwife has engaged in unprofessional conduct, it may impose discipline against the licensed midwife that includes, without limitation, the following:

   a. Require that a licensed midwife practice midwifery under the supervision of another health care provider. The Board may specify the nature and extent of the supervision and may require the licensed midwife to enter into a consultation, collaboration, proctoring, or supervisory agreement, written or otherwise, with the other health care provider;

   b. Suspend or revoke a license;

   c. Impose a civil fine not to exceed one thousand dollars ($1,000) for each violation of the Board’s laws and rules; and

   d. Order payment of the costs and fees incurred by the Board for the investigation and prosecution of the violation of the Board’s laws and rules.

451. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
These rules are promulgated pursuant to Section 54-4007, Idaho Code. (7-1-21)T

001. **SCOPE.**
These rules regulate the profession of massage therapy. (7-1-21)T

002. -- 009. (RESERVED)

010. **DEFINITIONS.**

01. **Approved Massage Program.** A massage therapy program conducted by an entity that is registered with the Idaho State Board of Education pursuant to Chapter 24, Title 33, Idaho Code, or with a comparable authority in another state, and that meets the entry-level educational requirements as set forth in Section 600 of these rules. (7-1-21)T

02. **Clinical Work.** Supervised, hands-on training in a classroom setting. (7-1-21)T

03. **Code of Ethics.** The Idaho Code of Ethics for Massage Therapy attached to these rules as Appendix A. (7-1-21)T

04. **Standards of Practice.** The Standards of Practice of Massage Therapy attached to these rules as Appendix B. (7-1-21)T

011. -- 199. (RESERVED)

200. **APPLICATION.**

01. **Filing an Application.** Applicants for licensure must submit a complete application, verified under oath, to the Board at its official address. The application must be on the forms approved by the Board and submitted together with the appropriate fee(s) and supporting documentation. (7-1-21)T

02. **Supplemental Documents.** The applicant must provide or facilitate the provision of any supplemental third party documents that may be required under the qualifications for the license being sought. (7-1-21)T

201. -- 249. (RESERVED)

250. **FEES.**
All fees are non-refundable except that, if a license is not issued, the license fee will be refunded

251. -- 299. (RESERVED)
300. REQUIREMENTS FOR ORIGINAL LICENSURE.
The Board may grant a license to an applicant for licensure who completes an application as set forth in Section 200 of these rules and meets the following general, education, and examination requirements: (7-1-21)T

01. General. (7-1-21)T

a. An applicant must provide evidence of being at least eighteen (18) years of age. (7-1-21)T

b. An applicant must certify that he/she has not been found guilty, convicted, received a withheld judgment, or suspended sentence for a felony or a crime involving moral turpitude, or if the applicant has been found guilty, convicted, received a withheld judgment, or suspended sentence for such a crime, the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules. (7-1-21)T

c. An applicant must certify that he/she has not been convicted of a crime under any municipal, state, or federal narcotic or controlled substance law, or if the applicant has been convicted of such a crime, the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules. (7-1-21)T

d. An applicant must certify that their license has not been subject to any disciplinary action by a regulatory entity in another state, territory or country including, but not limited to, having an application for licensure denied. If the applicant or their license has been subject to discipline, the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules. (7-1-21)T

301. -- 304. (RESERVED)

305. APPROVED EXAMINATIONS.
Approved examinations are the following examinations or another nationally recognized competency examination in massage therapy that is approved by the Board. (7-1-21)T

01. Approved Examinations. (7-1-21)T

a. Massage and Bodywork Licensing Examination (MBLEx) as administered by the Federation of State Massage Therapy Boards (FSMTB); (7-1-21)T

b. National Certification Examination for Therapeutic Massage and Bodywork (NCETMB) or National Certification Examination for Therapeutic Massage (NCETM) as administered by the National Certification Board for Therapeutic Massage and Bodywork (NCTMB), if taken before February 1, 2015. (7-1-21)T

c. Other nationally recognized competency examinations in massage therapy that are approved by the Board. A written request for approval must be submitted to the Board together with supporting documentation as may be requested by the Board. (7-1-21)T

02. Successful Passage. A passing score, or successful passage of the exam, will be determined by the entity administering the exam. (7-1-21)T

03. Date of Exam. The passage of the exam may have occurred prior to the effective date of these rules. (7-1-21)T

306. WRITTEN STATEMENT OF SUITABILITY FOR LICENSURE.
An applicant who or whose license has a conviction, finding of guilt, withheld judgment, or suspended sentence for a felony or crime involving moral turpitude, has a conviction for any crime under any municipal, state, or federal narcotic or controlled substance law, or has been subject to discipline in another state, territory or country must submit with his application a written statement and any supplemental information establishing his current suitability for licensure. (7-1-21)T

01. Consideration of Factors and Evidence. The Board considers the following factors or evidence: (7-1-21)T
310. REQUIREMENTS FOR LICENSURE BY ENDORSEMENT.
The Board may grant a license to an applicant for licensure by endorsement who completes an application as set forth in Section 200 and meets the following requirements:

01. Holds a Current License. The applicant must be the holder of a current active license or certificate in good standing in the profession, and at the level for which a license is being sought, issued by the authorized regulatory entity in another state. The state must have licensing or certification requirements substantially equivalent to or higher than those required for new applicants in Idaho. The certification of licensure or certification must be received by the Board from the issuing agency.

02. Has Not Been Disciplined. The applicant or his/her license must have not been voluntarily surrendered, revoked, or suspended by any regulatory entity. The Board may consider an applicant who, or whose license, has been restricted, denied, sanctioned, or otherwise disciplined. If the applicant or his/her license has been subject to discipline, the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules.

03. Is of Good Moral Character. The applicant must not have been found guilty, convicted, received a withheld judgment, or suspended sentence for any felony or any crime involving moral turpitude. If the applicant has been found guilty, convicted, received a withheld judgment, or suspended sentence for such a crime the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules.

04. Has Not Been Convicted of a Drug Offense. The applicant must not have been convicted of any crime under any municipal, state, or federal narcotic or controlled substance law. If the applicant has been convicted of such a crime, the applicant must submit a written statement of suitability for licensure as set forth in Section 306 of these rules.

311. -- 319. (RESERVED)

320. TEMPORARY LICENSE.

01. General. Any person who has submitted to the Board a complete application for licensure by examination under Section 54-4009, Idaho Code, or by endorsement under Section 54-4010, Idaho Code, together with the required fees, may apply for a temporary license to practice massage therapy while their application is being processed.
02. Duration. An applicant will be issued only one (1) temporary license that will be valid for a period not to exceed four (4) months or until the Board acts upon the licensure application, whichever occurs first. (7-1-21)

321. -- 329. (RESERVED)

330. PROVISIONAL PERMIT.
Upon application to the Board and payment of the required fees, an applicant may be issued a provisional permit to practice massage therapy if the applicant meets all the requirements for licensure under section 54-4009, Idaho Code, except for having successfully passed a nationally recognized competency examination in massage therapy that is approved by the Board as described in Subsection 305.01. (7-1-21)

01. General. A provisional permit will be issued subject to the following conditions: (7-1-21)

a. The applicant must certify that the applicant will take the next scheduled examination for licensure approved by the Board, and that the applicant has not failed two (2) previous examinations for licensure; and (7-1-21)

b. A licensed massage therapist certifies to the Board that the applicant will practice massage therapy only under the supervision of the licensed massage therapist while both are in the same location. (7-1-21)

02. Duration and Renewal. An applicant will be issued only one (1) provisional permit that is valid for a period not to exceed six (6) months or until the applicant is issued a temporary license or the Board acts upon the massage therapist license application, whichever occurs first. A provisional permit may only be renewed once upon a showing of good cause. (7-1-21)

331. -- 399. (RESERVED)

400. RENEWAL OR EXPIRATION OF LICENSE.
A license expires on the license holder’s birth date. The individual must annually renew the license before the license holder’s birth date. Licenses not so renewed will be immediately canceled in accordance with Section 67-2614, Idaho Code. (7-1-21)

01. Renewal. A license must be renewed before it expires by submitting a complete application for renewal on forms approved by the Board together with the renewal fee. As part of a complete renewal application, the licensee will attest to completion of the required continuing education pursuant to Section 500 of these rules. False attestation of satisfaction of the continuing education requirements on a renewal application subjects the licensee to disciplinary action, including revocation. (7-1-21)

02. Reinstatement. A license that has been canceled for failure to renew may be reinstated in accordance with Section 67-2614, Idaho Code. (7-1-21)

a. Within five (5) years of cancellation, an applicant seeking reinstatement must submit to the Board evidence that the applicant has completed the required continuing education together with a complete renewal application and appropriate fee(s). (7-1-21)

i. The applicant must submit evidence of completion of continuing education hours totaling the hours required at the time of cancellation and for each year the license was canceled. (7-1-21)

ii. The applicant must pay a reinstatement fee as set forth in Section 250 of these rules. (7-1-21)

b. After five (5) years of cancellation, the applicant will be treated as a new applicant, and application must be made on the same forms and in the same manner as an application for an original license in accordance with Section 200 of these rules. (7-1-21)
500. CONTINUING EDUCATION.
All licensees must comply with the following continuing education requirements:

01. Requirement. Beginning with the second renewal of their license, a licensee is required to complete a minimum of six (6) hours of continuing education, which includes one (1.0) hour in ethics, within the preceding twelve (12) months that meet the requirements in Sections 501, 502 and 503 of these rules.

   a. An hour is defined as fifty (50) minutes out of each sixty (60) minute segment.

   b. Continuing education credit will only be given for actual time in attendance or for the time spent participating in the educational activity.

   c. The educational course setting may include a classroom, conference, seminar, on-line or a virtual classroom.

   d. If the licensee completes two (2) or more courses having substantially the same content during any one (1) renewal period, the licensee will only receive continuing education credit for one (1) of the courses.

02. Documentation. Each licensee must maintain documentation verifying continuing education course attendance and curriculum, or completion of the educational activity for a period of five (5) years from the date of completion. This documentation will be subject to audit by the Board.

   a. Documented evidence of meeting the continuing education course requirement must be in the form of a certificate or letter from the sponsoring entity that includes verification of attendance by the licensee, the title of the activity, the subject material covered, the dates and number of hours credited, and the presenter’s full name and professional credentials. Documented evidence of completing a continuing education activity must be in such form as to document both completion and date of the activity.

   b. A licensee must submit the verification documentation to the Board, if requested by the Board. In the event a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the licensee may be subject to disciplinary action.

03. Waiver. The Board may waive the requirements of this rule for reasons of individual hardship, including health or other good cause. The licensee should request the waiver in advance of renewal and must provide any information requested by the Board to assist in substantiating hardship cases. This waiver is granted at the sole discretion of the Board.

04. Carryover of Continuing Education Hours. Continuing education hours not claimed in the current renewal year may be claimed in the next renewal year. A maximum of six (6) hours may be carried forward from the immediately preceding year, and may not be carried forward more than one renewal year.

05. Exemption. A licensee is exempt from the continuing education requirements under this Section for the period between the initial issuance of the original license and the first expiration date of that license.

501. APPROVAL OF CONTINUING EDUCATION COURSES.
Approved continuing education courses are those courses and programs that meet the requirements of these rules, and are approved, sponsored, or provided by the following entities or organizations, or otherwise approved by the Board:

01. A College or University. Accredited by a nationally recognized accrediting agency as recognized by the United States Secretary of Education;

02. Federal, State or Local Governmental Entities; and
03. National and State Massage Therapy Associations. (7-1-21)T

04. Provider Course Approval. Other courses may be approved by the Board based upon documentation submitted by a continuing education provider. Requests for approval of courses made by the provider must be submitted on a form approved by the Board that includes:

a. The nature and subject of the course and its relevancy to the practice of massage therapy; (7-1-21)T
b. The name of instructor(s) and their qualifications; (7-1-21)T
c. The date, time and location of the course; (7-1-21)T
d. The specific agenda for the course; (7-1-21)T
e. The number of continuing education hours requested; (7-1-21)T
f. The procedures for verification of attendance; and (7-1-21)T
g. Other information as may be requested by the Board. (7-1-21)T

h. Upon review of all information requested, the Board may deny any request for a course that does not meet the requirements of Idaho law or rule. Board approval of a course will be granted for a period not to exceed five (5) years, or until the course materials or instructors are changed, whichever may occur first. (7-1-21)T

05. Licensee Course Approval. Other courses may be approved by the Board based upon documentation submitted by the licensee. All requests for approval must be made to the Board in writing and include the nature and subject of the course and its relevancy to the practice of massage therapy, name of instructor(s) and their qualifications, date, time and location of the course, and procedures for verification of attendance. (7-1-21)T

502. CONTINUING EDUCATION ACTIVITIES.
The following educational activities qualify for continuing education as set forth:

01. Teaching a Course For The First Time, Not to Exceed Six Hours. A report must be submitted, including the name of the course, course outline, qualifications for teaching, number of hours taught, number of participants taught, date and location of the training. (7-1-21)T

02. Publishing Articles or Books. The hours awarded as determined at the discretion of the Board. (7-1-21)T

03. Self Study. Using books, audio tapes, video tapes, DVD's, research materials, professional publications, online sources, and/or other electronic sources/methods documented by a type-written two-page report summarizing the study content. (7-1-21)T

503. CONTENT OF CONTINUING EDUCATION.
The content of continuing education activities and course content must be germane to the practice of massage therapy as defined in Section 54-4002, Idaho Code, and courses in ethics must also be specific to legal issues, law, standards of practice, or ethics. (7-1-21)T

01. Continuing Education. Content germane to the practice of massage therapy includes, but is not limited to:

a. Applications of massage and bodywork therapy for specific needs, conditions, or client populations. (7-1-21)T
b. Client assessment protocols, skills for client record keeping, strategies for interfacing with other
health care providers. (7-1-21)T
c. Use of external agents such as water, sound, heat, cold, or topical applications of plant or mineral-based substances. (7-1-21)T
d. Body-centered or somatic psychology, psychophysiology, or interpersonal skills which may include communication skills, boundary functions, dual relationships, transference, counter-transference, and projection. (7-1-21)T
e. Standards of practice, professional ethics, or state laws. (7-1-21)T
f. Strategies for the marketing of massage and bodywork therapy practices. (7-1-21)T
g. Theory or practice of ergonomics as applied to therapists or clients. (7-1-21)T
h. Hygiene, methods of infectious disease control, organization and management of the treatment environment. (7-1-21)T
i. Body sciences, which may include anatomy, physiology, kinesiology or pathology, as they apply to massage therapy. (7-1-21)T
j. Certified CPR or first aid training. (7-1-21)T

504. -- 599. (RESERVED)

600. EDUCATIONAL PROGRAM STANDARDS.
Approved educational programs are those programs conducted by an entity that meet the definition in Section 010 and that consist of a minimum of five hundred (500) hours of in-class supervised hours of coursework and clinical work that meets the following entry-level educational standards: (7-1-21)T

01. Coursework Content and Hours. Coursework must include the following content areas and minimum hours: (7-1-21)T

a. Two hundred (200) hours in massage and bodywork assessment, theory, and application; (7-1-21)T
b. One hundred twenty-five (125) hours in body systems including anatomy, physiology, and kinesiology; (7-1-21)T
c. Forty (40) hours in pathology; (7-1-21)T
d. Twenty-five (25) hours in business and ethics; and (7-1-21)T

02. Clinical Work. A minimum of one hundred ten (110) hours must be clinical work. (7-1-21)T

a. Students are not permitted to render any clinical services to clients until students have completed at least twenty percent (20%) of the required hours of instruction. (7-1-21)T
b. All clinical services must be performed under the supervision of a person fully licensed. (7-1-21)T

601. SUPERVISION.

01. Supervision of Clinical Work. The supervising massage therapist must consult with the student, evaluate student performance and be physically present and available to render direction in person and on the premises where massage therapy is being provided. (7-1-21)T

02. Supervision of Fieldwork. The supervising massage therapist must be available to render direction either in person or by means of telecommunications but is not required to be physically present on the premises where massage therapy is being provided. (7-1-21)T
700. SCOPE OF PRACTICE.
All licensees must practice in a competent manner consistent with their level of education, training, and experience.

750. STANDARDS OF PRACTICE.
All licensees must comply with the Idaho Standards of Practice for Massage Therapy as approved by the Board and attached as Appendix B.

800. CODE OF ETHICS.
All licensees must comply with the Code of Ethics for Massage Therapy as approved by the Board and attached to these rules as Appendix A.

900. DISCIPLINE.
If the Board determines that grounds for discipline exist for violations of Title 54, Chapter 40, Idaho Code, violations of these rules, or both, it may impose disciplinary sanctions against the licensee including, without limitation, any or all of the following:

01. Refuse License. Refuse to issue, renew, or reinstate a license;

02. Revoke License. Revoke or suspend the licensee’s license(s);

03. Restrict License. Condition, restrict, or limit the licensee’s practice, license, or both;

04. Administrative Fine. Impose an administrative fine not to exceed one thousand dollars ($1,000) for each violation of the Board’s laws or rules; and

05. Licensee Costs. Order a licensee to pay the costs and fees incurred by the Board in the investigation, prosecution, or both, of the licensee for violation(s) of the Board’s laws, rules, or both.

IDAHO BOARD OF MASSAGE THERAPY CODE OF ETHICS -- APPENDIX A

Preamble: This Code of Ethics is a summary statement of the standards of conduct that define ethical practice of massage therapy. All licensees are responsible for maintaining and promoting ethical practice.

A licensee shall:

1. Conduct all business and professional activities honestly and within their scope of practice and all applicable legal and regulatory requirements.

2. Inform clients of the limitations of the licensee's practice, the limitations of massage therapy, and the contraindications for massage therapy.

3. Refer the client to other professionals or services if the treatment or service is beyond the licensee’s scope of practice.
4. Not engage in any sexual conduct, sexual activities, or sexualizing behavior involving a client, even if the client attempts to sexualize the relationship. Sexual activity includes any verbal and/or nonverbal behavior for the purpose of soliciting, receiving, or giving sexual gratification.

5. Be truthful in advertising and marketing, and not misrepresent services, charges for services, credentials, training, experience or results.

6. Safeguard the confidentiality of all client information, unless disclosure is requested by the client in writing or as allowed or required by law.

7. Obtain informed and voluntary consent from clients.

8. Allow a client the right to refuse, modify or terminate treatment regardless of prior consent given.

9. Provide draping and treatment in a way that ensures the safety, comfort, and privacy of the client.

10. Possess the right to refuse to treat any person or part of the body.

11. Refuse any gifts or benefits that are intended to influence a referral, decision, treatment or the professional relationship between the licensee and the client.

12. Report to the Idaho Board of Massage Therapy any unlicensed practice of massage therapy, and any evidence indicating unethical, incompetent or illegal acts committed by a licensee or individual.

13. Do no harm to the physical, mental, and emotional well being of clients.

**IDAHO BOARD OF MASSAGE THERAPY STANDARDS OF PRACTICE -- APPENDIX B**

**Standard I: Professionalism**

In his/her professional role the licensee shall:

1. Cooperate with any Board investigation regarding any alleged violation of the Massage Therapy law or rules.

2. Use professional verbal, nonverbal, and written communications.

3. Provide an environment that is safe for the client and which meets all legal requirements for health and safety.

4. Use standard precautions to ensure professional hygienic practices and maintain a level of personal hygiene appropriate for practitioners in the therapeutic setting.

5. Wear clothing that is clean and professional.

6. Obtain voluntary and informed consent from the client, or written informed consent from client's legal guardian, prior to initiating the treatment plan.

7. If applicable, conduct an accurate needs assessment, develop a plan of care with the client, and update the plan as needed.

8. Use appropriate draping to protect the client's physical and emotional privacy. When clients remain
dressed for seated massage or sports massage, draping is not required.

9. Not practice under the influence of alcohol, drugs, or any illegal substances, with the exception of legal or prescribed dosage of medication which does not impair the licensee.

**Standard II: Legal and Ethical Requirements**

In his/her professional role the licensee shall:

1. Maintain accurate and complete client billing and records. Client Records includes notes written by a licensee and kept in a separate client file that indicates the date of the session, areas of complaint as stated by client, and observations made and actions taken by the licensee.

2. Report within thirty (30) days to the Idaho Board of Massage Therapy any felony or misdemeanor criminal convictions of the licensee.

**Standard III: Confidentiality**

In his/her professional role the licensee shall:

1. Protect the confidentiality of the client's identity in conversations, all advertisements, and any and all other matters unless disclosure of identifiable information is requested or permitted by the client in writing or is required or allowed by law.

2. Protect the interests of clients who are minors or clients who are unable to give voluntary and informed consent by securing written informed consent from an appropriate third party or guardian.

3. Solicit only information that is relevant or reasonable to the professional relationship.

4. Maintain the client files for a minimum period of seven (7) years.

5. Store and dispose of client files in a secure manner.

**Standard IV: Business Practices**

In his/her professional role the licensee shall:

1. Not use sensational, sexual, or provocative language and/or pictures to advertise or promote their business.

2. Display/discuss a schedule of fees in advance of the session that is clearly understood by the client or potential client.

3. Make financial arrangements in advance that are clearly understood by, and safeguard the best interests of, the client or consumer.

**Standard V: Roles and Boundaries**

In his/her professional role the licensee shall:

1. Not participate in client relationships that could impair professional judgment or result in exploitation of the client.

**Standard VI: Prevention of Sexual Misconduct**
In his/her professional role the licensee shall:

1. Not engage in any behavior that sexualizes, or appears to sexualize, the client/licensee relationship.

2. Not participate in a sexual relationship or sexual conduct with the client, whether consensual or otherwise, from the beginning of the client/licensee relationship and for a minimum of twelve (12) months after the termination of the client/licensee relationship.

3. In the event that the client initiates sexual behavior, clarify the purpose of the therapeutic session and, if such conduct does not cease, terminate or refuse the session.
24.28.01 – RULES OF THE BARBER AND COSMETOLOGY SERVICES LICENSING BOARD

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-5807, Idaho Code.

001. SCOPE.
These rules regulate the professions of barbering and cosmetology.

002. -- 009. (RESERVED)

010. DEFINITIONS.
01. Clean. Removal of visible or surface debris, washing with soap and water, detergent or chemical “cleaner.” Cleaning prepares non-porous items for disinfection, but cleaning does not make multi-use items safe for use.

02. Clinical Services or Clinical Work. Performing hands-on acts or techniques within the scope of practice of a profession regulated by the Board.

03. Disinfect. The process of making a non-porous item safe for use. Disinfecting requires the use of a chemical intended to kill or denature a bacteria, virus or fungus. Items to be disinfected must be cleaned prior to disinfection. Ultraviolet (UV) light is not acceptable for disinfection.

04. Disinfectant. Disinfectant registered by the United States Environmental Protection Agency (EPA) and is bactericidal, virucidal and fungicidal with effectiveness against staphylococcus aureus (including methicillin-resistant staphylococcus aureus (MRSA)), human immunodeficiency virus (HIV) and hepatitis B (HEPB). This includes EPA registered Sodium Hypochlorite 5.25% or higher (household bleach) with instructions for disinfection, diluted as instructed on the label and observing the contact time listed on the manufacturer’s label. Bleach must be active (not expired) with a manufacture date of less than six (6) months prior to use.

05. Facility. A retail cosmetics dealer, a retail thermal styling equipment dealer, or a makeover or glamour photography business.

06. First-Aid Kit. First-aid kit means a packaged and identifiable assortment of medical supplies, including adhesive bandages, skin antiseptic, disposable gloves, and gauze.

07. Patron. Patron means any person who receives the services of anyone licensed, certificated or otherwise regulated by the provisions of Chapter 58, Title 54, Idaho Code.

08. Record of Instruction. The final documentation of total hours and operations completed by a student that is maintained by a school or, in the case of an apprentice, by the instructor.

09. Single-Use. Any non-electrical item that cannot be properly cleaned and disinfected is considered single-use. This includes, but is not limited to, pumice stones, buffing blocks, wooden cuticle pushers, cotton balls, pads or swabs, toe separators and flip flops, and all nail files or emery boards that are not made entirely of metal, glass, or crystal.

10. Sterilize. The eradication of all microbial life through the use of heat, steam or chemical sterilants. Items to be sterilized must be cleaned prior to sterilization.

11. Sterilant. Autoclaves or dry heat sterilizers approved by the United States Food and Drug Administration and spore tested through an independent lab at least once every thirty (30) days. Sterilants must be used only as instructed by the manufacturer. Spore testing results and maintenance records for the most recent twelve (12) months must be kept onsite at the establishment.

011. -- 249. (RESERVED)

250. FEES.
All fees are non-refundable.
300. QUALIFICATIONS FOR ALL LICENSES OR CERTIFICATES FOR INDIVIDUALS.
In addition to other qualifications set forth in these rules, each applicant for licensure or certification must meet the following general qualifications:

01. Education. Successful completion of at least two (2) years of high school or have attained an equivalent education as determined by the Board as evidenced by:

a. High school transcripts, a copy of a high school diploma, or a letter written on high school stationery, signed by an officer of the high school, indicating that the applicant has satisfactorily completed the tenth grade and is eligible to commence the eleventh grade; or

b. Documents establishing admission to or graduation from an associates, bachelors, or graduate degree program from an accredited college or university; or

c. Successful passage of the General Educational Development (G.E.D.) Test; or

d. Any test approved by the Department of Education to establish education equivalency shall be approved by the Board when an applicant receives a score approved by the Department of Education as meeting the equivalency requirement; or

e. Other proof of satisfactory completion of the tenth grade with eligibility to commence the eleventh grade.

03. Criminal and Disciplinary History.

a. An applicant must certify they have not engaged in conduct that would constitute grounds for discipline and have not had an application for licensure denied by another state, territory, or country.

b. An applicant who or whose license has a conviction, finding of guilt, withheld judgment, or suspended sentence for a felony, or has been subject to discipline in another state, territory or country must submit with their application a written statement and any supplemental information establishing their current suitability for
301. QUALIFICATIONS FOR LICENSE.
The Board may grant a license to an applicant who meets the requirements set forth in Section 54-810, Idaho Code, pays the required fee, meets the requirements prescribed in Section 300 of these rules, and the following education or apprenticeship, experience, and examination qualifications:

01. Original Barber License.
   a. Education. For a currently licensed cosmetologist, a licensed barber school must credit eight hundred (800) hours toward the required nine hundred (900) hours for a barber course. The school must submit for the Board’s approval a written explanation of how the credited hours and the remaining hours of instruction will be allotted among the subjects in the barber course curriculum, provided that the remaining hours of instruction must at a minimum include:
      i. Barber theory, including male haircuts, and
      ii. Shaving.

   b. For a currently licensed barber in another state, territory, possession or country, and who does not meet the qualifications for licensure by endorsement, fifty (50) hours of instruction may be credited for each three (3) months of practical experience in barbering.

02. Original Barber-Stylist License.
   a. For a currently licensed cosmetologist, a licensed barber school must credit one thousand four hundred (1,400) hours toward the required one thousand five hundred (1,500) hours for a barber-stylist course. The school must submit for the Board’s approval a written explanation of how the credited hours and the remaining hours of instruction will be allotted among the subjects in the barber-stylist course curriculum, provided that the remaining hours of instruction must at a minimum include the following:
      i. Barber theory, including male haircuts, and
      ii. Shaving.

   b. For a currently licensed barber-stylist in another state, territory, possession or country, fifty (50) hours of instruction may be credited for each three (3) months of practical experience in barber-styling.

03. Original Cosmetologist License.
   a. Education. For a currently licensed barber-stylist, a licensed cosmetology school must credit one thousand three hundred (1,300) hours toward the required one thousand six hundred (1,600) hours for a cosmetology course. The school must submit for the Board’s approval a written explanation of how the credited hours and the remaining hours of instruction will be allotted among the subjects in the cosmetology course curriculum, provided that the remaining hours of instruction must at a minimum include the following:
i. Nail technology; 
ii. Esthetics; and 
iii. Cosmetology theory, including female hairstyling.

b. For a currently licensed barber, a licensed cosmetology school must credit nine hundred (900) hours toward the required one thousand six hundred (1,600) hours for a cosmetology course. The school must submit for the Board’s approval a written explanation of how the credited hours and the remaining hours of instruction will be allotted among the subjects in the cosmetology course curriculum, provided that the remaining hours of instruction must at a minimum include the following:

i. Working on the hair with chemicals; 
ii. Nail technology; 
iii. Esthetics; and 
iv. Cosmetology theory, including female hairstyling.

c. A currently licensed esthetician, haircutter, or nail technician must be given credit of two hundred (200) hours toward the required one thousand six hundred (1,600) hours for a cosmetology course or four hundred (400) hours toward the required three thousand two hundred (3,200) hours as a cosmetology apprentice.

d. For a currently certificated makeup artist in this state, a licensed cosmetology school may credit up to fifty (50) hours toward the required instructional hours for a cosmetology course, or a licensed instructor may credit up to one hundred (100) hours toward the required apprenticeship hours.

e. For an esthetician, haircutter, or nail technician student, a licensed cosmetology school may credit eighty percent (80%) of accumulated hours, but no more than two hundred (200) hours, toward the required instructional hours for a cosmetology course.

f. For a currently licensed cosmetologist in another state, territory, possession or country, one hundred (100) hours of instruction or two hundred (200) hours as an apprentice may be credited for each six-month period of practical experience in cosmetology.

04. Original Electrologist License. Education. For a currently licensed electrologist in another state, territory, possession or country, forty (40) hours of instruction or eighty (80) hours as an apprentice may be credited for each six-month period of practical experience in electrology.

05. Original Esthetician License.

a. Education. For a currently certificated makeup artist in this state, a licensed cosmetology school may credit up to fifty (50) hours toward the required instructional hours for an esthetics course or, a licensed instructor may credit up to one hundred (100) hours toward the required apprenticeship hours.

b. A licensed cosmetology school may credit one-seventh (1/7) of accumulated hours toward the required instructional hours for an esthetics course for a cosmetology student.

c. For a currently licensed esthetician in another state, territory, possession or country, sixty (60) hours of instruction or one hundred twenty (120) hours as an apprentice may be given for each six-month period of practical experience in esthetics.

06. Original Nail Technician License.

a. A licensed cosmetology school may credit one-seventh (1/7) of accumulated hours toward the
required instructional hours for a nail technology course for a cosmetology student. (7-1-21)

b. For a currently licensed nail technician in another state, territory, possession or country, forty (40) hours of instruction or eighty (80) hours as an apprentice may be credited for each six-month period of practical experience in nail technology. (7-1-21)

07. Makeup Artist Certificate. (7-1-21)
a. Education/Training. Successful completion of instruction of not less than one hundred (100) hours in makeup artistry, which must include instruction and practical experience in safety and infection control. Hours may be classroom instruction, training, practical experience, or a combination. Instruction may be received from one (one) or more of the following sources:

i. A cosmetology school licensed in this state or another state, territory, possession, or country; (7-1-21)

ii. A cosmetology or esthetics instructor licensed in this state or another state, territory or possession; (7-1-21)

iii. A retail cosmetics dealer licensed in this state or another state, territory or possession; or (7-1-21)

iv. Other source of instruction that includes:

(1). Knowledgeable and experienced instructor with a record of safe practices; (7-1-21)

(2). Instruction in client safety and safe product selection; and (7-1-21)

(3). Hands-on practice and training in infection control. (7-1-21)

v. Any combination of the sources listed in Subsections 301.07.a.i. through a.iv. of this rule. (7-1-21)

b. Documentation of Education/Training. An applicant may present proof of education/training in makeup artistry in the following ways:

i. A current cosmetology or esthetician license from another state, territory, possession or country. (7-1-21)

ii. Transcripts or records of instruction. (7-1-21)

iii. Documentation of work history and training as an employee for a retail cosmetics dealer licensed in this state or another state, territory or possession of the United States. (7-1-21)

iv. Membership in the International Alliance of Theatrical Stage Employees Make-Up Artists and Hair Stylists Guild or other similar organization whose membership requirements meet or exceed the requirements of these rules. (7-1-21)

v. Documentation of other training/experience must include:

(1). Identity and qualifications of the person delivering the instruction/training; (7-1-21)

(2). Method of instruction/training and amount of hands-on training provided; and (7-1-21)

(3). Subject matters covered, particularly pertaining to topics listed in Subsection 301.07.a.iv of these rules. (7-1-21)

c. Additional Education/Training. The Board may require an applicant who does not have a
documented record of sufficient training in safety and infection control to obtain additional training or other
demonstration of competency in that area. (7-1-21)

302. -- 308. (RESERVED)

309. QUALIFICATIONS FOR INSTRUCTOR LICENSE.
The Board may grant a license to an applicant for licensure as an instructor who meets the requirements set forth in
Section 54-5810(3), Idaho Code, and meets the following education requirements: (7-1-21)

01. Course of Instruction. Have satisfactorily completed the corresponding teacher's course of
instruction:

a. A minimum three (3) month course of barber instructing, barber-stylist instructing, or cosmetology
instructing as a student in a licensed school, if the applicant has at least two (2) years of experience as a licensed
barber, barber-stylist, or cosmetologist, provided that the course consist of no less than five hundred (500) hours; or

b. A minimum six (6) month course of barber instructing, barber-stylist instructing, or cosmetology
instructing as a student, depending upon which license applying for, provided that the course consist of no less than
nine hundred (900) hours. (7-1-21)

02. Credit Hours. Earned twelve (12) college credit hours or the equivalent. Credit hours must be
obtained from the Education Department, Speech Communications Department or from the Psychology/Sociology
Department and other credit at the discretion of the Board. Equivalency is determined as:

a. Completion of teaching seminars focusing on barbering, barber-styling, cosmetology, nail
technology, esthetics, or electrolysis approved by the Board. Fourteen (14) clock hours is equivalent to one (1)
semester college credit hour in an approved seminar. Verification of satisfactory completion must be submitted to the
Board for its approval; or

b. Verified satisfactory teaching as a qualified instructor from another state for one (1) of the previous
three (3) years immediately prior to application. (7-1-21)

310. SINGLE LICENSE REQUIRED TO PRACTICE AND INSTRUCT.
The holder of a license issued by the Board who is subsequently issued an instructor license is permitted to maintain
a single license to practice. (7-1-21)

01. Scope. An instructor license issued by the Board permits the holder to both practice and instruct
only within the scope of the license(s) held.

02. Barber Stylist Instructor. The holder of a cosmetologist license who is subsequently issued a
barber-stylist instructor license may not practice or instruct elements of barbering or barber-styling that are outside
the definition of cosmetology unless the licensee also has been issued a license as a barber or barber-stylist by the
Board. (7-1-21)

311. APPROVED EXAMINATION.
Approved examinations shall be the written and practical examination provided by the National Interstate Council of
State Boards of Cosmetology (NIC) for the discipline for which licensure is sought. A passing score must be obtained
on both the written and practical examination. A passing score will be determined by NIC. (7-1-21)

312. (RESERVED)

313. REQUIREMENTS FOR LICENSURE BY ENDORSEMENT.

01. Licensure. The Board may grant a license to an applicant for licensure by endorsement who:
a. Meets the education requirements set forth in Subsection 300.01 of these rules. (7-1-21)

b. Holds an unrestricted license free from discipline. (7-1-21)

02. Hold a Current License and Have Experience. The applicant must be the holder of a current active license or certificate of qualification in the profession and at the level for which a license is being sought, issued by the authorized regulatory entity in another state, territory, possession, or foreign country. The certification of licensure must be received by the Board from the issuing agency; and

a. Must show that the state, territory, possession, or foreign country has licensing requirements substantially equivalent to or higher than those required for new applicants in Idaho; or

b. Document at least one (1) year of actual practice under certification or licensure in the three (3) years immediately prior to application in the profession for which a license is being sought. (7-1-21)

314. -- 324. (RESERVED)

325. LICENSURE AND OPERATION OF PRIMARY AND CONTIGUOUS ESTABLISHMENTS.

Except as otherwise provided in statute and these rules, a licensed individual must practice within a licensed establishment. An establishment may be licensed as a primary establishment or a contiguous establishment that operates within a primary establishment. A primary establishment license must be issued prior to the opening or operation of any barber or cosmetology establishment.

01. Primary Establishment License. A primary establishment license may be issued and annually renewed only under the following conditions:

a. There is a clearly defined and designated working floor space of adequate dimension to allow the safe and sanitary practice of any one (1) or combination of defined practices of cosmetology or barber-styling for all individual stations that may be in operation in addition to any restroom and access areas; and

b. There is an approved hot and cold running water source and drainage system that is available to any contiguous establishment or other establishment or facility that may exist; and must be within the perimeters of the licensed establishment and separate from the toilet facilities; and

c. There are restroom facilities conveniently located and accessible from within the building in which the primary establishment is located and which shall be accessible from the primary area and to all areas designated for the operation of contiguous establishments. Restroom facilities shall contain an approved hot and cold running water source and approved drainage system. The water source shall be in addition to the work area facilities; and

d. The holder of the primary establishment license is responsible for complying with the safety and disinfection requirements and all other applicable statutes and rules for the designated licensed area of the primary establishment, including areas that are cooperatively or jointly used as “common areas” such as shampoo bowls, restrooms, entrance or reception areas. (7-1-21)

02. Contiguous Establishment License. A contiguous establishment license may be issued and annually renewed only under the following conditions:

a. A license must be issued prior to the opening or operation of any barber or cosmetology contiguous establishment; and

b. The contiguous establishment is associated with a currently licensed primary establishment and a holder of the primary establishment license provides proof that the primary shop is equipped to meet the safety and disinfection requirements and rules of the Board; and

c. The contiguous establishment shall only operate in the contiguous establishment designated areas within the associated primary establishment. (7-1-21)
d. The holder of the contiguous establishment license will be responsible for complying with the safety and disinfection requirements and all other applicable statutes and rules for the contiguous designated area where it operates. (7-1-21)T

03. Businesses Other Than a Licensed Establishment or Facility. Businesses other than one licensed under Chapter 58, Title 54, Idaho Code, and living quarters shall be separate and apart. Home establishments must provide a separate outside entrance directly into the establishment and substantial partitions or walls shall extend from the floor to not less than seven (7) feet high, separating the establishment from adjoining rooms used for business or domestic purposes. All doors to an establishment from adjacent rooms shall be closed. (7-1-21)T

04. Conditions for Issuance. No primary establishment license may be issued which includes or overlaps all or any portion of an existing establishment license. (7-1-21)T

326. ESTABLISHMENT AND FACILITY CHANGES IN OWNERSHIP OR LOCATION. Whenever a change of ownership or fixed location of an establishment or facility occurs, an original license fee must be paid and compliance with all rules concerning a new establishment or facility must be met before a new license or registration will be issued. Establishment and facility licenses or registration are not transferable. (7-1-21)T

01. Board Must Be Informed of All Changes. The Board must be informed in writing of any and all changes of ownership and location of establishments or facilities. (7-1-21)T

02. Deletion of an Owner. Deletion of an owner in a multiple ownership may be effected by filing a written statement with the Board signed by the person withdrawing and the remaining owner(s). (7-1-21)T

03. Transfer of Ownership. If the transfer involves change of corporate structure or deleting one (1) or more owners, a written notarized statement signed by all former owners as registered with the Board shall be accepted. (7-1-21)T

04. Addition of an Owner. Addition of an owner to a multiple ownership constitutes a change in ownership and the requirements for a new establishment or facility apply. (7-1-21)T

05. Out of Business. Whenever any establishment or facility ceases operation at the licensed or registered location, the owner(s) or authorized agent of the establishment or facility shall notify the Board by submitting:

a. A signed letter by the owner(s) or authorized agent advising that the establishment or facility is out of business; or

b. The establishment or facility license or registration bearing the signature of the owner(s) or authorized agent and marked out-of-business; or

c. For a contiguous establishment license, a signed statement by the associated primary establishment advising that the contiguous establishment is out of business. (7-1-21)T

d. In the event that the Board has not been notified about the cessation of operations pursuant to this rule and documentation or evidence has been obtained that an establishment or facility has ceased operation at the licensed or registered location, the Board may cancel the establishment license or facility registration upon a thirty (30) day written notice to the owner(s) or authorized agent of the establishment or facility. (7-1-21)T

06. License Status. A new primary establishment license will not be issued for any location that is currently licensed as a primary establishment at the time of application. (7-1-21)T

327. RETAIL COSMETICS DEALER LICENSE. The Board may grant a retail cosmetic dealer license to allow the application of cosmetic products to customers’ faces in connection with the sale of the products. (7-1-21)T
01. **Requirements.** All retail cosmetic dealers shall provide an area within the business premises for disinfection and storage of equipment and supplies necessary to perform any cosmetic application services provided. The business premises must have:

a. Access to hot and cold running water;

b. Access to restroom facilities;

c. Disinfectants, as defined in these rules;

d. Single-use samples, wipes, spatulas or other dispensing techniques designed to prevent contamination of the cosmetic product; and

e. First-aid kit.

328. RETAIL THERMAL STYLING EQUIPMENT DEALER REGISTRATION.

The Board may grant a registration as a retail thermal styling equipment dealer to an applicant who meets the following requirements:

01. **Training.** The dealer is responsible to train all employees on the proper and safe use of the thermal styling equipment and all disinfection related to the demonstration of the equipment prior to permitting an employee’s use of the equipment on customers.

02. **Requirements.** All retail thermal styling equipment dealers shall provide the equipment and supplies necessary to perform any demonstration of the thermal styling equipment. The area where the demonstration is being performed must have:

a. Disinfectants, as defined in these rules; and

b. First-aid kit.

329. -- 499. (RESERVED)

500. BARBER AND COSMETOLOGY SCHOOL REQUIREMENTS.

The Board may grant a license to an applicant for licensure to operate a barber or cosmetology school who meets the following requirements:

01. **Premises.** The premises of a barber or cosmetology school must:

a. Possess sufficient apparatus and equipment for the proper and full teaching of all subjects or its curriculum.

b. Provide adequate space, ventilation, lighting, and facilities to safely accommodate all students, instructors, and customers.

c. Provide a restroom with a sink with hot and cold running water and approved drainage system.

02. **Faculty or Instructors.**

a. A school must be under the direct, personal supervision at all times of a licensed cosmetology instructor if a cosmetology school or a licensed barber or barber-stylist instructor if a barber school and must employ and maintain a licensed instructor for every twenty (20) students or fraction thereof, with an instructor trainee counting as an instructor for the purposes of the student-instructor ratio.

b. A cosmetology school that teaches electrology must be under the direct, personal supervision at all times of one (1) licensed electrologist instructor for every six (6) students or portion thereof being trained therein.
c. An instructor shall teach only those subject areas for which the instructor has been issued a license by the Board to practice.

(7-1-21)T

d. Instructors must devote their time during school or class hours to instructing students rather than engaging in occupational practice.

(7-1-21)T

03. Operations. A barber or cosmetology school must:

a. Maintain regular class and instruction hours, establish grades and hold monthly examinations. This information will be transferred to the record of instruction;

(7-1-21)T

b. Prescribe a school term for training in all aspects of the practice being taught; and

(7-1-21)T

04. Curriculum. Any proposed changes to a curriculum or catalog must be approved by the Board. The submission must identify what specific changes are being made to the curriculum.

(7-1-21)T

a. A school must submit a curriculum and course catalog that covers the subjects, as set forth in Section 54-5815, Idaho Code, relating to the profession for which the school is seeking approval to teach. (7-1-21)T

b. A cosmetology school that teaches electrology must submit a curriculum and course catalog that covers the subjects relating to electrology as set forth in Section 54-5815(1), Idaho Code.

(7-1-21)T

c. A school may teach no more than fifty percent (50%) of its curriculum through distance education.

(7-1-21)T

05. Clinical Work. Each school shall advertise to the public that it is a school and that all work is done by students. The clinic area shall not have connecting entrances to establishments or businesses other than barber or cosmetology schools.

(7-1-21)T

a. Students shall not be permitted to render any clinical service to patrons until students have completed at least five percent (5%) of the required hours of instruction.

(7-1-21)T

b. All clinical work shall be performed under the supervision of a licensed instructor.

(7-1-21)T

c. Clinical work shall be recorded on the record of instruction for each month.

(7-1-21)T

06. Outside School Activities. Schools may credit a student with a maximum of thirty (30) hours toward the required hours of instruction for a course of instruction for activities that take place outside the school. These hours must be approved by the instructor.

(7-1-21)T

07. Student Records To be Maintained by the School. A school must maintain the following records for each enrolled student:

(7-1-21)T

a. Proof of age showing student is no less than sixteen and one-half (16 ½) years of age;

(7-1-21)T

b. Proof of showing student has satisfactorily completed two (2) years of high school (tenth grade) or having equivalent education as evidenced in a manner identified in Subsection 300.02 of these rules;

(7-1-21)T

c. Record of instruction for each student showing the classroom hours, the clinical hours, and operations done for each month in which the student is enrolled; and

(7-1-21)T

d. When a student’s course of instruction has been completed or terminated, the completed operations, and number of hours of instruction are to be recorded by the school on the record of instruction form. This form is to be provided to the student and maintained by the school for five (5) years from completion or termination. (7-1-21)T
08. Change in Ownership or Location.
   a. Licenses are not transferable. (7-1-21)T
   b. A new application must be submitted to the Board and a license issued for a new or additional
      location or a change of ownership of an existing school. (7-1-21)T

09. Cessation of School. When a school ceases to operate as a school, the school must provide each
    enrolled student their records of instruction at or before the cessation of operations. (7-1-21)T

10. Rules for Cosmetology Schools Approved to Teach Electrology. (7-1-21)T
    a. Schools will provide a minimum of three hundred (300) square feet of designated floor space per
       six (6) students. (7-1-21)T
    b. Each school shall have the following equipment, which is considered the minimum equipment
       necessary for the proper instruction of students. This amount of equipment is based on six (6) students. (7-1-21)T
       i. Work stations equal to seventy-five percent (75%) of total enrollment; (7-1-21)T
       ii. Two (2) brands of machines, one (1) of which has three (3) method capability: Galvanic, Thermolysis,
           and Blend; (7-1-21)T
       iii. Two (2) treatment tables and adjustable technician chairs; (7-1-21)T
       iv. Two (2) swing arm lamps with magnifying lens; (7-1-21)T
       v. Two (2) magnifying glasses; (7-1-21)T
       vi. Tweezers; (7-1-21)T
       vii. One (1) basin with approved water source; (7-1-21)T
       viii. Necessary sanitation equipment for implements; and (7-1-21)T
       ix. Closed storage cabinet. (7-1-21)T
    c. Student Supplies. Each student is to be issued a basic kit containing two (2) tweezers, disposable
       probes, eye shields, disposable gloves, before treatment solution, after treatment lotion, hair pins or clips, and one (1)
       sharps container. (7-1-21)T

501. (RESERVED)

502. EDUCATIONAL PROGRAM STANDARDS FOR COURSES OF INSTRUCTION.
    A licensed school must maintain the following educational program standards for each course of instruction for
    which it is approved to teach. (7-1-21)T
    01. Barber. Coursework must include courses in the following content areas: (7-1-21)T
        a. Haircut; (7-1-21)T
        b. Blow dry (does not include haircut); (7-1-21)T
        c. Shampoo; (7-1-21)T
        d. Shave and Beard Trim; (7-1-21)T
e. Facial; (7-1-21)

f. Hair and Scalp Treatment; (7-1-21)

g. Curling Iron; and (7-1-21)

h. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. (7-1-21)

**02. Barber-Stylist.** Coursework must include courses in the following content areas: (7-1-21)

a. Haircut; (7-1-21)

b. Style/blow dry (does not include haircut); (7-1-21)

c. Shampoo; (7-1-21)

d. Permanent Wave; (7-1-21)

e. Shave and Beard Trim; (7-1-21)

f. Facial; (7-1-21)

g. Color/Bleach/Rinse; (7-1-21)

h. Hair and Scalp Treatment; (7-1-21)

i. Curling Iron; and (7-1-21)

j. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. (7-1-21)

**03. Cosmetology.** A record of the operations completed by each student shall be maintained and include the following: (7-1-21)

a. Creative hair styling which shall include hair styles, wet sets/styling, thermal styles, fingerwaving, braiding/free styling; (7-1-21)

b. Scalp Treatments; (7-1-21)

c. Permanent Waves (All Methods); (7-1-21)

d. Haircutting/shaping which shall include scissor and razor/clipper; (7-1-21)

e. Bleaching; (7-1-21)

f. Tinting; (7-1-21)

g. Semi Permanent/Temporary Color; (7-1-21)

h. Frosting/Highlights; (7-1-21)

i. Facials; (7-1-21)

j. Makeup Application; (7-1-21)

k. Waxing; (7-1-21)
l. Manicures which shall include plain and oil; (7-1-21)

m. Pedicures; (7-1-21)

n. Artificial Nails; and (7-1-21)

o. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. (7-1-21)

04. Esthetics. The recorded operations completed by each student shall be maintained and include the following:

a. Massage and manipulation application of lotions, creams, tonics, solutions, skin care masks, and similar cosmetic preparations and their effects on the skin and body; (7-1-21)

b. Cleansing, steaming, exfoliation, and extraction procedures; (7-1-21)

c. Cosmetics and makeup application; (7-1-21)

d. Machine Application: use of mechanical or electrical equipment; (7-1-21)

e. Bacteriology, disinfection and sterilization, and safety precautions; (7-1-21)

f. Human anatomy, physiology and histology of skin care; (7-1-21)

g. Follicle growth cycle and hair removal procedures; (7-1-21)

h. Skin analysis, conditions, disorders, and diseases; and (7-1-21)

i. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. (7-1-21)

05. Nail Technology. The recorded operations completed by each student shall be maintained and include the following:

a. Form nails; (7-1-21)

b. Finished tips; (7-1-21)

c. Wraps and mends; (7-1-21)

d. Basic manicures and pedicures; and (7-1-21)

i. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. (7-1-21)

06. Electrology. The recorded operations completed by each student shall be maintained and include:

a. Bacteriology, disinfection and sterilization, safety precautions, anatomy, and physiology; (7-1-21)

b. Electricity which shall include the nature of electrical current, principles of operating electrical devices and the various safety precautions used when operating electrical equipment; (7-1-21)

c. Electrolysis which shall include the use and study of galvanic current; (7-1-21)
d. Thermolysis, including the use and study of high frequency current, automatic and manual; 

(7-1-21)T 

e. A combination of high frequency and galvanic currents; 

(7-1-21)T 

f. The study and cause of hypertrichosis; and 

(7-1-21)T 

g. Hygiene and disinfection shall be taught on a continuing basis and indicated on the record of instruction. 

(7-1-21)T 

08. Instructor. The recorded operations completed by each student shall be maintained and include the following: 

(7-1-21)T 

a. Lesson planning; 

(7-1-21)T 

b. Audio-Visual aid preparation; 

(7-1-21)T 

c. Theory class; 

(7-1-21)T 

d. Practical demonstrations; 

(7-1-21)T 

e. Testing and evaluation theory; 

(7-1-21)T 

f. Testing and evaluation; and 

(7-1-21)T 

g. Clinic floor supervision. 

(7-1-21)T 

503. -- 549. (RESERVED) 

550. APPRENTICE REGISTRATION AND APPRENTICESHIPS. 
The Board may issue a registration as an apprentice to allow a person to engage in any of the practices licensed under Section 54-5815, Idaho Code, while completing the required instructional hours for a license or certificate. An apprentice may only practice under direct supervision as provided below. 

(7-1-21)T 

01. Application and Qualifications. An applicant must submit a completed application on a form approved by the Board, pay the required fee, and meet the following qualifications: 

(7-1-21)T 

a. Be at least sixteen and one-half (16 ½) years of age; 

(7-1-21)T 

b. Have successfully completed at least two (2) years of high school or have attained an equivalent education as determined by the Board as evidenced in a manner identified in Subsection 300.01 of these rules. 

(7-1-21)T 

c. Have certification from the establishment that the applicant is enrolled as an apprentice in the establishment; 

(7-1-21)T 

d. Identify the names and license numbers of the licensed cosmetologists, electrologists, estheticians, and nail technicians employed in the establishment in which the applicant will serve as an apprentice; and 

(7-1-21)T 

e. Identify the name(s) and license number(s) of the licensed instructors who will instruct the applicant during the apprenticeship. 

(7-1-21)T 

02. Instruction. The instructor for any apprenticeship must submit to the Board a curriculum for the entire course of apprenticeship instruction. The Board must approve the curriculum prior to the beginning of instruction. The curriculum must cover the subjects relating to the profession for which the apprentice is pursuing licensure as set forth in Section 54-5815(1)(g), Idaho Code. 

(7-1-21)T
03. **Supervision.** There must be at least one (1) licensed instructor and one (1) separate supervising licensee for each apprentice in the establishment at all times when an apprentice is being trained, except that an electrology apprentice may be supervised solely by the electrology instructor. (7-1-21)

a. The instructor must be licensed to teach the profession for which the registrant is pursuing licensure and the supervising licensee must be licensed to practice the profession for which the apprentice is pursuing licensure. (7-1-21)

b. An instructor may not train more than three (3) currently registered apprentices, except that an electrology instructor may not train more than one (1) currently registered electrology apprentice. (7-1-21)

c. An establishment may not have more than six (6) currently registered apprentices, unless otherwise approved by the Board. (7-1-21)

d. An establishment or an instructor under current discipline may not supervise an apprentice. (7-1-21)

e. An apprentice shall not be permitted to render any clinical service to patrons until the apprentice has completed at least five percent (5%) of the required hours of instruction. (7-1-21)

04. **Recordkeeping.** Establishments employing an apprentice shall keep a daily work record of the attendance of the apprentice and a record of the types of instruction given and the work performed by the apprentice as set forth below. (7-1-21)

a. An apprentice must be given monthly progress records, and the monthly record shall be signed and dated by the apprentice and the instructor. The establishment shall maintain the records for a period of five (5) years following completion or termination of the apprentice instruction. (7-1-21)

b. When an apprentice’s course of instruction has been completed or terminated, the completed operations and number of hours of instruction are to be recorded by the establishment on the Record of Instruction Form. The instructor must submit the Record of Instruction to the Board within fourteen (14) days of the completion of the apprenticeship. The establishment must maintain a copy of the Record of Instruction for a period of five (5) years from completion or termination date. (7-1-21)

c. Attendance, instruction, and work records must be kept in the establishment in which the apprentice is employed. (7-1-21)

d. Apprenticeship records are subject to inspection by the Board at any time. (7-1-21)

05. **Termination of Registration.** A registration as an apprentice is valid from the date of issuance until the apprentice is no longer enrolled as an apprentice in the establishment identified on the apprentice’s application. (7-1-21)

a. When an apprentice discontinues a course of study, the establishment must complete a Record of Instruction Form with the total number of hours worked and the types of instruction given to the apprentice. The Record of Instruction Form must be submitted to the Board within thirty (30) days of the discontinuance of the apprenticeship. If an apprentice discontinues a course of instruction and does not transfer to another salon within sixty (60) days, the apprentice registration is automatically canceled and is to be submitted to the Board along with the Record of Instruction. (7-1-21)

b. When an establishment where apprentices are being trained ceases operation as an establishment, the establishment must submit the records of instruction for each apprentice to the Board within thirty (30) days. (7-1-21)

c. An apprentice who has discontinued a course of study must apply for and be granted a new registration under Subsection 550.01 of these rules, prior to resuming instruction. (7-1-21)
06. **Out of State Apprenticeship.** An applicant who has received instruction as an apprentice in another state must file with the Board a copy of the record of instruction from the out of state apprenticeship. For purposes of this section, the record of instruction will be a statement which gives detailed information regarding operations and hours of instruction, and which is to be verified by the licensing agency or instructor(s) in the state in which the instruction was obtained.

07. **Apprenticeship Length.** An apprenticeship registration must not exceed the following lengths of time:

a. Barber: fifty-seven (57) weeks;

b. Barber-Stylist: ninety-four (94) weeks;

c. Cosmetologist: one hundred four (104) weeks;

d. Estheticians/Electrologist: thirty-eight (38) weeks;

e. Nail Technicians: twenty-five (25) weeks.

551. -- 709. (RESERVED)

710. **PRACTICE OUTSIDE OF A LICENSED ESTABLISHMENT.**
All licensees and certificants must practice in a place or establishment that is licensed for such practice, except as provided for in Section 54-5804, Idaho Code, or when the services provided by the licensee or certificant are limited to the following:

01. **Hair Styling.** Arranging, styling, dressing of the hair. Trimming of the hair may be performed when it is incidental to the arranging, styling, or dressing of the hair, including facial hair such as beards, mustaches, and eyebrows.

02. **Coloring.** Wash out topical color, tinted powder, spray or chalk to temporarily camouflage the hair.

03. **Extensions.** Application of extensions with non-permanent adhesive or thread, such as clip in hair, halos, wig and toupees.

04. **Temporary Hair Removal.** Tweezing of hairs on the face and neck.

05. **Cleansing.** Cleansing of the face for the limited purpose of removing makeup and debris and cosmetic preparations for the application of makeup.

06. **Nail Services.** Application of nail polish by painting without the use of a lamp or light, removal of polish that is incidental to the painting of the nail, and shaping of the nail with a single-use emery board.

07. **Makeup Application.** Application of makeup, except for the certified makeup artists.

08. **Safety and Disinfection.** All licensees and certificants must comply with the safety and disinfection rules applicable to the services being performed, regardless of the location where the services are performed.

711. -- 799. (RESERVED)

800. **UNPROFESSIONAL CONDUCT.**
A licensee shall not engage in unprofessional conduct in the course of their practice. Unprofessional conduct is conduct which has endangered or is likely to endanger the health, welfare, or safety of the public and includes, but is not limited to, the following:
01. Use of MMA. Use of Methyl Methacrylate acid (MMA);

02. Use of Skin Cutting Instruments. Use of skin cutting instruments, including razor-type callus shavers, credo blades, microplane, or other rasps or graters designed to remove corns or calluses by cutting below the skin surface. The presence of such instruments creates a presumption of the instrument's use;

03. Use of UV Sterilizers. Use of ultraviolet (UV) sterilizers for disinfection. This does not prohibit the use of ultraviolet dryers or lamps used to dry or cure nail products;

04. Use of Roll-on Wax. Use of roll-on wax, except that single-use roll-on wax cartridges are acceptable when they are disposed of immediately after use;

05. Double-Dipping. Placing an item or instrument that has been used on a person into a wax pot or other container that holds wax, a compound, solution, or other cosmetic preparation that will be used for more than one (1) than patron. This prohibited practice is commonly referred to as double-dipping;

06. Reuse of Single-Use or Porous Items. Use of single-use or porous items on more than one (1) patron. The presence of used single-use or porous items, which have not been disposed of, creates a presumption of the item’s use or intended use on more than one patron.

07. Apprentices. Failure to adequately supervise, instruct, or train an apprentice;

08. Inspections and Investigations. Interference with an inspection or investigation conducted by or on behalf of the Board;

09. Disease Transmission Prevention. Performing a service on a patron who has an open sore or a known contagious disease of a nature that may be transmitted by performing the procedure, unless the licensee takes medically-approved measures to prevent transmission of the disease; or

10. Practice Outside Scope of Training. Performing services or using machines or devices outside the licensee’s area of training, expertise, competence, or scope of practice for the license held.

801. -- 849. (RESERVED)

850. INSPECTION OF ESTABLISHMENTS, SCHOOLS AND FACILITIES.
All establishments, schools, and facilities shall be subject to inspection by the Board or its agents during business hours without notice to ensure the safe operation of each establishment, school, or facility and to ensure continued compliance with Chapter 58, Title 54, Idaho Code, and these rules.

01. Form. The Board may adopt a form which identifies those general items that will be inspected and a level of compliance necessary for issuance or renewal of a license and for which a failure to meet that level is grounds for discipline.

02. Classification Card. Following an inspection, each establishment, school, and facility, except for retail thermal styling equipment dealers, will receive classification as follows: 100%–90% = “A”; 89%–80% = “B”; 79% and below = “C.” The “C” classification denotes an unacceptable level of compliance and a reinspection is required.

03. Reinspection. A facility, school, or establishment not found to be at an acceptable level of compliance must make improvements within thirty (30) days. The Board may allow an establishment, school, or facility to continue to operate during that period. The Board may take action prior to any reinspection when the circumstances represent an immediate danger to the public health, safety, or welfare.

851. SAFETY AND DISINFECTION FOR ESTABLISHMENTS AND SCHOOLS.
All establishments and schools must take every precaution to prevent the transfer of disease-causing pathogens between people and must meet annual renewal requirements and the following requirements:
01. **Premises.** Establishments and schools must be separated from living areas by substantial walls and/or closable doors. All establishments and schools must be maintained in an orderly manner, so as to be safe and comfortable to the operators and patrons. Floors, walls, ceilings, furniture, and all other fixtures shall be kept clean and in good repair at all times. (7-1-21)T

02. **Instrument Cleaning.** All instruments and items used by operators shall be thoroughly cleaned after each use and prior to disinfection. (7-1-21)T

03. **Instrument Disinfection or Sterilization.** All instruments and items used by operators shall be disinfected or sterilized after cleaning and prior to use on each patron, with a disinfectant or sterilant as defined in these rules. All disinfectant must be mixed and changed according to the manufacturers’ instructions. Disinfection methods such as immersion, sprays, and wipes may be used. Contact time listed on the disinfectant’s label must be adhered to in all circumstances. Items or surfaces must remain completely immersed in disinfectant, or visibly wet if using sprays or wipes, for the full amount of contact time. (7-1-21)T

04. **Single-Use and Porous Instruments.** Instruments and items that are intended for single use or that are porous shall be immediately disposed of in a waste container after each use on a patron or given to the patron to take home for personal use, provided that the instruments may not be brought back to the establishment for future use. (7-1-21)T

05. **Waxes and Waxing Services.** Paraffins, waxes and all other solutions or compounds shall be covered and maintained free of any foreign contaminants. Only disinfected or unused, single-use items may be placed into a container that holds wax or paraffins. Waxes and paraffins must be dispensed for use on a patron in the following manner:

   a. Wax may be removed from a multi-use wax pot for use on a patron by one of the following methods:

      i. Single-use spatula disposed of after a single dip/application; (7-1-21)T

      ii. Disinfected plastic spatulas with one disinfected spatula used for each dip into the wax pot; or (7-1-21)T

      iii. Placement of all wax needed for entire service in a single-use, disposable cup or a container that can be properly cleaned and disinfected, such as a stainless steel bowl. The cup, any remaining wax, and all single-use applicators must be immediately disposed of at the conclusion of the service. This is the only instance in which a single applicator may be used for an entire service. (7-1-21)T

   b. Paraffin wax must be portioned out for each patron in a bag or other container, or dispensed in a manner that prevents contamination of the unused supply. All portions used on a patron must be disposed of immediately following use. (7-1-21)T

06. **Makeup Services.** All makeup and makeup services must follow the requirements in Section 852 of these rules. (7-1-21)T

07. **Nail Services.** A licensee must comply with the following disinfection procedures between every patron:

   a. All pedicure bowls, basins or tubs must be cleaned and disinfected prior to each use as follows:

      i. Empty pedicure bowl. (7-1-21)T

      ii. Remove all removable parts, including screens, foot plates, impellers and fans. (7-1-21)T

      iii. Clean removable parts with soap or detergent and water, rinse, and immerse parts in disinfectant following manufacturer's directions for proper contact time. (7-1-21)T
iv. Scrub bowl with soap or detergent and rinse with clean water. (7-1-21)

v. Replace removable cleaned and disinfected parts. (7-1-21)

vi. Fill bowl and add disinfectant to achieve proper concentration. (7-1-21)

vii. Allow disinfectant solution to sit, or run through system for bowls with circulating water for the manufacturer’s recommended contact time. (7-1-21)

viii. Drain the tub, rinse and air dry or wipe dry with clean paper towel. (7-1-21)

b. Metal drill bits may be soaked in acetone to remove nail product. When removed from the acetone, they must be cleaned using soap, water, and a brush, and then rinsed prior to immersion in disinfectant. Drill bits must remain in disinfectant for the full contact time. (7-1-21)

08. Water Supply and Hand Washing. Water supplies shall be from an approved source. Sufficient basins with hot and cold running water, approved drainage systems, soap and single-use towels shall be conveniently located within the work area. Operators and students shall wash their hands with running water and soap prior to providing service to any patron. When hand washing is not practicable, hand sanitizer of at least seventy percent (70%) alcohol may be used. (7-1-21)

09. Restroom Facilities. Clean, adequate and convenient restroom facilities, located and accessible from within the building where the shop or school is located, shall be available for use by operators and patrons. All operators and students must wash their hands with running water and soap and then dry their hands with a single-use towel after using the restroom. (7-1-21)

10. Safety. Clearly identifiable first-aid kit must be readily accessible on the premises. No animals are allowed in shops or schools except service dogs trained to do work or perform tasks for persons with disabilities. The definition of service animals and disabilities shall be as set forth in U.S. Department of Justice Regulations at 28 C.F.R. Section 36.104 effective August 11, 2016. (7-1-21)

11. Licenses and Classification Cards. All establishments and schools must be licensed prior to their operation and must be under the direct supervision of a licensed operator. A current establishment and/or school license, valid operator license(s), a copy of these safety and disinfection rules, and a valid classification card shall be conspicuously displayed in the work area of each establishment or school for the information of operators, Board agents, and the public. (7-1-21)

852. SAFETY AND DISINFECTION FOR RETAIL COSMETICS DEALER FACILITIES AND MAKEOVER OR GLAMOUR PHOTOGRAPHY BUSINESSES.

All retail cosmetic dealers and makeover or glamour photography businesses must take every precaution to prevent the transfer of disease-causing pathogens between people and must comply with Chapter 58, Title 54, Idaho Code. At a minimum the dealer or business must meet the following requirements:

01. Cake, Loose, or Liquid Makeup. All makeup that comes in a cake, loose, or liquid form, must be transferred to a palette with a disinfected or single-use spatula for use with a single customer and in a manner to prevent any contamination. Any excess make-up must be disposed of immediately following use on or by a customer. (7-1-21)

02. Makeup Pencils. Make-up pencils that require a sharpener must be sharpened prior to each use. Sharpeners must be cleaned and disinfected in accordance with Subsections 851.02 and 851.03 of these rules. Eyeliner that does not require a sharpener must have a portion transferred to a palette with a disinfected or single-use spatula for use on a single customer. (7-1-21)

03. Mascara. Single-use applicators must be used in the application of mascara. (7-1-21)

04. Brushes and Implements. All implements and applicators, including brushes, that are used on customers or made available to be used by customers must be stored, cleaned, and disinfected or disposed of in
accordance with Section 851 of these rules. (7-1-21)T

05. Displays. All make-up should be covered when not in use. When make-up displays are accessible to the public, single-use applicators for all make-up must be readily available. (7-1-21)T

06. Water Supply and Restroom Facilities. The facility or business must meet the requirements in Subsections 851.08 and 851.09, and Section 853 of these rules. (7-1-21)T

07. First-aid Kit. The facility or business must have a clearly identifiable first-aid kit readily accessible on the premises. (7-1-21)T

08. Licenses and Classification Card. All retail cosmetics dealers and glamour or makeover photography businesses must be licensed prior to their operation. A current license, a copy of these safety and disinfection rules, and a valid classification card shall be conspicuously displayed in the work area of each facility for the information of employees, Board agents, and the public. (7-1-21)T

853. SAFETY AND DISINFECTION FOR RETAIL THERMAL STYLING DEALER FACILITIES.
All retail thermal styling equipment dealers must take every precaution to prevent the transfer of disease-causing pathogens between people and must comply with Chapter 58, Title 54, Idaho Code. At a minimum the dealer must meet the following requirements: (7-1-21)T

01. Cleaning, Disinfection, and Storage. All implements and electrical equipment used on a customer must be cleaned, disinfected, and stored in accordance with Subsections 851.02, 851.03, and 851.04, of these rules. (7-1-21)T

02. First-aid Kit. The facility or business must have a clearly identifiable first-aid kit readily accessible on the premises. (7-1-21)T

03. Registration and Classification Card. All retail thermal styling equipment dealers must be registered prior to their operation. A current registration, a copy of these safety and disinfection rules, and a valid classification card shall be conspicuously displayed in the work area of each facility for the information of employees, Board agents, and the public. (7-1-21)T

126. -- 200. (RESERVED)

201. WRITTEN STATEMENT OF SUITABILITY FOR LICENSURE OR PERMIT.
An applicant or licensee who has a conviction, finding of guilt, withheld judgment, or suspended sentence for any crime other than a minor traffic offense must submit with their application a written statement and any supplemental information establishing their current suitability for licensure. (7-1-21)

01. Consideration of Factors and Evidence. The Board shall consider the following factors or evidence:
   a. The severity or nature of the crime; (7-1-21)
   b. The period of time that has passed since the crime under review; (7-1-21)
   c. The number or pattern of crimes; (7-1-21)
   d. The circumstances surrounding the crime that would help determine the risk of repetition; (7-1-21)
   e. The relationship of the crime or discipline to the practice of shorthand reporting; (7-1-21)
   f. The applicant's activities since the crime under review, such as employment, education, participation in treatment, payment of restitution, or any other factors which may be evidence of current rehabilitation; and (7-1-21)
   g. Any other information regarding rehabilitation or mitigating circumstances. (7-1-21)

02. Interview. The Board may, at its discretion, grant an interview of the applicant. (7-1-21)

03. Applicant Bears the Burden. The applicant shall bear the burden of establishing his current suitability for licensure. (7-1-21)

202. -- 299. (RESERVED)

300. EXAMINATIONS.

01. Examination Process. (7-1-21)
a. Late applicants shall not be admitted to the examination room. (7-1-21)

b. Picture identification shall be shown by all applicants before taking an examination. (7-1-21)

c. Examinees are forbidden to receive any unauthorized assistance during the examination. Communication between examinees or possession of unauthorized material or devices during the examination is strictly prohibited. (7-1-21)

d. Only scheduled examinees, Board members, and authorized personnel shall be admitted to the examination room. (7-1-21)

02. Scope of Examination

   a. The complete examining procedure for certification as a certified shorthand reporter consists of two (2) sections. The first section is the written examination covering subjects as are ordinarily given in a school of court reporting and which are common to all fields of practice. The second section is the skills portion which shall consist of the following segments and speeds. (7-1-21)

   i. Question and Answer -- Five (5) minutes at two hundred twenty-five (225) words per minute. (7-1-21)

   ii. Jury Charge -- Five (5) minutes at two hundred (200) words per minute. (7-1-21)

   iii. Literary -- Five (5) minutes at one hundred eighty (180) words per minute. (7-1-21)

   iv. Density of Exam -- The syllabic content of the dictated exam shall be one point four (1.4). (7-1-21)

   b. The examination is the same for all applicants. (7-1-21)

   c. The examining committee, which shall consist of three Board members, shall inform applicants of the approximate time allowed for typing the skills portion of the examination. (7-1-21)

   d. The written examination and the three (3) skills segments can be passed individually for the Idaho examination. (7-1-21)

03. Grading

   a. Each applicant must attain a grade of seventy-five percent (75%) or above to pass the written examination and ninety-five percent (95%) or above in each segment to pass the skills portion. (7-1-21)

   b. Every applicant receiving a grade of less than seventy-five percent (75%) in the written examination shall be deemed to have failed such examination and shall have the application denied without prejudice. (7-1-21)

   c. Every applicant receiving a grade of less than ninety-five percent (95%) in each of the skills segments of the examination shall be deemed to have failed such examination and shall have the application denied without prejudice. (7-1-21)

   d. An applicant failing either the written section, or the skills portion, and having filed a new application for examination, shall be required to take and pass within a two-year period only the section for which a failing grade was received. (7-1-21)

04. Inspection of Examination

   a. An applicant who fails to obtain a passing grade in the skills portion may inspect his/her
examination papers at such times and locations as may be designated by the Board. Inspection of such examination papers shall be permitted within a thirty (30) day period after receipt of notice by the applicant of his/her failure to pass the examination.

b. At the time of inspection no one other than the examinee or his/her attorney and a representative of the Board shall have access to such examination papers.

05. Inspection Review.

a. Within thirty (30) days after the date notice of the results of the examination has been mailed to him/her, an applicant who was unsuccessful in the examination may petition the Board for a review of his/her examination papers.

b. The petition for review shall be made in writing stating the reason for such review and citing the item or items against which the request is directed.

c. The Board shall, upon receiving such petition for review, conduct a hearing at the next scheduled Board meeting.

06. Retention of Examinations. The Board shall retain for at least six (6) months, all examination papers and notes submitted by applicants.

301. -- 399. (RESERVED)

400. TEMPORARY PERMIT.

01. Eligibility.

a. Any one (1) or more of the following shall be considered as minimum evidence that the applicant is qualified to hold a temporary permit:

i. Hold a Certificate of Merit Reporter (RMR) issued by the National Court Reporters Association (NCRA);

ii. Hold a Certificate of Registered Professional Reporter (RPR) issued by the National Court Reporters Association (NCRA);

iii. Hold a Certified Shorthand Reporter certificate, or its equivalent, in good standing from another state;

iv. Hold a diploma or certificate of completion of all requirements to graduate from a National Court Reporter Association (NCRA) approved school;

v. Has otherwise demonstrated his/her proficiency by a certificate from an agency from another state.

b. The applicant must have a high school diploma or equivalent.

02. Permit. All temporary permits shall be issued for a period of one (1) year and may be renewable for a single additional year if, before the permit expires, the permit holder:

a. Submits a written renewal request to the Board;

b. Establishes that they have passed at least one (1) skills segment of the Idaho Certified Shorthand Reporter Examination, the Registered Professional Reporter Examination (RPR), or the Registered Merit Reporter Examination (RMR); and
c. Pays the required fees as set forth in this Chapter. (7-1-21)

500. DISCIPLINARY PENALTY.
Costs and fees. The Board may order anyone licensed under Title 54, Chapter 31, Idaho Code, who is found by the Board to be in violation of the provisions of Title 54, Chapter 31, Idaho Code, to pay the costs and fees incurred by the Board in the investigation or prosecution of the licensee. (7-1-21)

501. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
This chapter is adopted under the legal authority of Title 54, Chapter 2, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the administration of the certified public accountant examination, the issuance and renewal of licenses to practice as certified or licensed public accountants, the registration of firms, the regulation of individuals granted practice privileges, and the limitation of non-licensees. (7-1-21)T

002. -- 003. (RESERVED)

004. INCORPORATION BY REFERENCE.
The following documents are hereby incorporated by reference into IDAPA 24.30.01 and can be obtained at the Board office. Licensees are required to comply with the following standards when applicable. (7-1-21)T

   01. AICPA Standards. The AICPA Professional Standards as applicable under the circumstances and at the time of the services, except as superseded by Section 54-206(8), Idaho Code. (7-1-21)T

   02. CPE Standards. 2016 Statements on Standards for Continuing Professional Education Programs jointly approved by NASBA and AICPA. (7-1-21)T

   03. PCAOB Standards. The Standards issued by the Public Company Accountability Oversight Board, as applicable under the circumstances and at the time of the services. (7-1-21)T

005. -- 009. (RESERVED)

010. DEFINITIONS.
The Idaho State Board of Accountancy adopts the definitions set forth in Section 54-206, Idaho Code. In addition, as used in this chapter: (7-1-21)T

   01. Administering Organization. An entity that has met, and at all relevant times continues to meet, the standards specified by the Board for administering peer reviews. (7-1-21)T

   02. Board. The Board or its designated representative. (7-1-21)T

   03. Candidate. Applicants approved to sit for the CPA Examination. (7-1-21)T

   04. CPA Examination. Uniform Certified Public Accountant Examination. (7-1-21)T

   05. CPE. Continuing Professional Education. (7-1-21)T

   06. Ethics CPE. Programs in ethics include topics such as ethical reasoning, state-specific statutes and rules, and standards of professional conduct, including those of other applicable regulatory bodies. (7-1-21)T

   07. NASBA. The National Association of State Boards of Accountancy. (7-1-21)T

   08. National Candidate Database. The National Association of State Boards of Accountancy database of all CPA Examination candidates. (7-1-21)T

   09. State-Specific Ethics for Idaho. A minimum two-hour (2) CPE course on Idaho Accountancy Act and Rules, which is exempt from the Statements on Standards for CPE. (7-1-21)T

   10. Year of Review. The calendar year during which a peer review is conducted. (7-1-21)T

   11. Year Under Review. The twelve-month (12) period that is reviewed. (7-1-21)T

011. -- 017. (RESERVED)

018. COMPLIANCE WITH THESE RULES.
A licensee of the Board or an individual granted practice privileges is subject to the rules of the Board when rendering professional services. (7-1-21)T
019. COMPUTATION OF TIME.
The time in which any act provided by law, rule, order, or notice is to be done is computed by excluding the first day; and including the last day unless the last day is a Saturday, Sunday, or legal holiday and then it is also excluded.

(7-1-21)

020. GOOD MORAL CHARACTER.

01. Demonstrating Good Moral Character. Applicants have the burden of demonstrating good moral character as defined by Section 54-206(11), Idaho Code, in the manner specified by the Board in its application forms.

(7-1-21)

02. Evidence. Prima facie evidence of a lack of good moral character includes, but is not limited to:

a. Any deferred prosecution agreement involving an admission of wrongdoing, or any criminal conviction, including conviction following a guilty plea or plea of nolo contendere, for any felony or any crime, an essential element of which is fraud, dishonesty, or deceit, or any other crime that evidences an unfitness of the applicant to provide professional services in a competent manner and consistent with the public safety; (7-1-21)

b. Revocation, suspension or the lapsing in lieu of discipline of any license or other authority to practice by or before any state, federal, foreign or other licensing or regulatory authority; or (7-1-21)

c. Any act that would be grounds for revocation or suspension of a license if committed by a licensee of the Board. (7-1-21)

03. Rehabilitation. The applicant may offer, and the Board may consider the following factors in determining whether the applicant’s moral character has been rehabilitated as of the date the applicant is seeking licensure. These factors include, but are not limited to:

a. The applicant’s completion of criminal probation, restitution, community service, military or other public service; (7-1-21)

b. The passage of time without the applicant’s commission of further crime or act demonstrating a lack of good moral character; and (7-1-21)

c. The entry of an order by any state or federal court expunging any conviction, reducing a conviction from a felony to misdemeanor, or commuting, suspending, or withholding any judgment as provided by law. (7-1-21)

021. NOTIFICATION OF CHANGE OF ADDRESS, FELONY CHARGES, OR ACTIONS TAKEN.
Per Section 54-211(3), Idaho Code, within thirty (30) days after its occurrence, a licensee or candidate will notify the Board, in writing, of:

01. Address Change. A change in the business address, residence address, or business connection, employer, or principal place of business; (7-1-21)

02. Felony Charge. Any felony charges, or; (7-1-21)

03. Actions Taken. The issuance, denial, disciplinary action, restriction, revocation, or suspension of a certificate, license, or permit by another state or by any federal agency. (7-1-21)

022. -- 099. (RESERVED)

100. CPA EXAMINATION.
An applicant must pass the CPA Examination before applying for a CPA license. The CPA Examination is graded by the American Institute of Certified Public Accountants and subject to review and acceptance by the Board. (7-1-21)
101. EXAM APPLICATIONS.  
Applications to take the CPA Examination are to be made as prescribed in accordance with Section 54-208, Idaho Code. (7-1-21)T

102. AUTHORIZATION TO TEST AND NOTIFICATION TO SCHEDULE.  
The Board will forward notification of eligibility in the form of an Authorization to Test (ATT) to NASBA. The ATT is issued for the test section(s) for which the candidate applied. Candidates must pay the fees charged by the AICPA, NASBA, and the test delivery service provider directly to NASBA. The ATT will expire ninety (90) days after it is issued if the candidate has not paid the appropriate fees. Eligible candidates will receive a Notice to Schedule (NTS) for the CPA Examination. The NTS is valid for six (6) months from the date issued. A candidate’s ATT lasts as long as the NTS is valid, or until the candidate tests, whichever occurs first. (7-1-21)T

103. FAILURE TO APPEAR.  
A candidate who fails to appear for the CPA Examination forfeits all fees paid. (7-1-21)T

104. CPA EXAM EDUCATIONAL QUALIFICATIONS.  
A candidate for the CPA examination provides evidence of successful completion of a baccalaureate degree or its equivalent to include thirty (30) or more semester hours (or forty-five (45) or more quarter hours) in business administration subjects of which at least twenty (20) semester hours (or at least thirty (30) quarter hours) are in accounting subjects. (7-1-21)T

105. TESTING PERIOD AND CREDIT.  

01. CPA Examination Credit. Candidates are to pass all four (4) test sections of the CPA Examination with a grade of seventy-five (75) or higher within an eighteen-month period which begins on the date that the first test section is passed. Candidates who do not pass all four (4) sections of the CPA Examination within the eighteen-month period lose credit for any test section(s) passed outside the eighteen-month period and that test section(s) is to be retaken. (7-1-21)T

02. Extending the Term of Credit. The Board may extend the term of credit validity upon demonstration by the candidate that the credit was lost by reason of circumstances beyond the candidate’s control. (7-1-21)T

03. Transfer of Credit. An applicant may submit the results of any test section of the CPA Examination taken by the applicant in any other state having standards at least equivalent to those of this state, and these results may be adopted by the Board in lieu of examination in this state on the same test section and in accordance with the provisions of Section 54-210, Idaho Code, and these rules. (7-1-21)T

106. CHEATING.  

01. Actions. Cheating by an applicant in applying for the CPA Examination or by a candidate in taking the CPA Examination will cause any grade otherwise earned on any part of the CPA Examination to be invalidated. Cheating may warrant summary expulsion from the examination room and disqualification from taking the CPA Examination for a specified period of time. (7-1-21)T

02. Hearings. If the Board believes that it has evidence that a candidate has cheated on the examination or a candidate has been expelled from the examination, the candidate will be provided notice and opportunity for hearing. In such hearings, the Board decides: (7-1-21)T

   a. Whether or not there was cheating, and if so what remedy should be applied; (7-1-21)T
   b. Whether the candidate will be given credit for any portion of the examination completed in that session; and (7-1-21)T
   c. Whether the candidate will be barred from taking the examination in future sittings, and if so, for how many sittings. (7-1-21)T
03. Notice. If a candidate is refused credit for any test section of an examination taken, disqualified from taking any test section, or barred from taking the examination in the future, the Board will provide information about findings and actions taken to the national candidate database and the board of any other state to which the candidate may apply for the examination. (7-1-21)

107. SECURITY AND IRREGULARITIES.
Notwithstanding any other provisions under these rules, the Board may postpone scheduled examinations, the release of grades, or the issuance of certificates due to a breach of security, unauthorized acquisition or disclosure of the contents of an examination, suspected or actual negligence, errors, omissions, or irregularities in conducting an examination, or for any other reasonable cause or unforeseen circumstance. (7-1-21)

108. -- 199. (RESERVED)

200. INITIAL CERTIFIED PUBLIC ACCOUNTANT LICENSURE.
Applications for initial licensure are to be made as prescribed in Section 54-207, Idaho Code, and are to comply with the following: (7-1-21)

01. Education. (7-1-21)

a. Applicants for licensure are to meet the provisions of Section 54-207(2), Idaho Code. An applicant for licensure who was accepted for the May 2000 CPA Examination or prior examination is exempt from additional educational requirements. (7-1-21)

b. The Board will recognize: (7-1-21)

i. Any college or university accredited by the Northwest Commission on Colleges or Universities or any other regional accrediting association having equivalent standards; (7-1-21)

ii. Any independent senior college in Idaho certified by the State Department of Education for teacher training; and (7-1-21)

iii. Accounting and business programs accredited by the Association to Advance Collegiate Schools of Business (AACSB) or any other accrediting agency having equivalent standards. (7-1-21)

c. An applicant is deemed to have met the education requirement if, as part of the one hundred fifty (150) semester hours of education, the applicant has met any one (1) of the following conditions: (7-1-21)

i. Earned a graduate degree with a concentration in accounting from a program that is accredited in accounting by an accrediting agency approved by the Board; (7-1-21)

ii. Earned a graduate degree from a program that is accredited in business by an accrediting agency approved by the Board. Completion of at least twenty-four (24) semester hours in accounting at the undergraduate or fifteen (15) semester hours at the graduate level, or an equivalent combination thereof, including coverage of, but not necessarily separate courses in, the subjects of financial accounting, auditing, taxation, and management accounting; (7-1-21)

iii. Earned a baccalaureate degree at an institution approved by the Board or from a program that is accredited in business by an accrediting agency approved by the Board. Completion of at least twenty-four (24) semester hours in business (other than accounting courses) and twenty-four (24) semester hours in accounting at the undergraduate or graduate level including coverage of, but not necessarily separate courses in, the subjects of financial accounting, auditing, taxation, and management accounting; (7-1-21)

02. Experience. (7-1-21)

a. An applicant is to provide evidence of one (1) year of experience as prescribed in Section 54-209, Idaho Code, and these rules. Experience consists of full or part time employment that extends over a period of no less than twelve (12) months and no more than thirty-six (36) months with no fewer than two thousand (2,000) hours.
earned within the ten (10) year period immediately preceding the latest application for licensure. (7-1-21)

b. An applicant completes and submits the Verification of Employment and Experience Evaluation form(s). An applicant may be called to appear before the Board to supplement or verify evidence of experience. (7-1-21)

c. A licensee verifying experience will maintain supporting documentation of the applicant's experience until thirty (30) days after the applicant is granted a license. The licensee will permit the Board to inspect the supporting documentation prior to issuing a license to the applicant. Any licensee who has been requested by an applicant to submit to the Board evidence of the applicant's experience and has refused to do so will, upon request by the Board, explain in writing or in person the basis for such refusal. (7-1-21)

d. A licensee who is responsible for supervising attest services, and signs or authorizes someone to sign the accountant's report on the financial statement on behalf of the firm, is to meet the experience requirement set out in the AICPA statements on quality control standards. (7-1-21)

03. Examination on Code of Professional Conduct. Prior to licensure, applicants successfully complete a course in professional ethics that is acceptable to the Board. (7-1-21)

04. Initial License Application Fee. As prescribed in Rule 600. (7-1-21)

201. ANNUAL LICENSE RENEWAL AND LATE FEE.

01. Renewal. Licenses expire on June 30 of each year. (7-1-21)

02. Non-Renewal. Individuals choosing not to renew their license are to notify the Board, on the renewal form by the expiration date. Individuals with lapsed licenses may not publicly display their wall certificates, use the title CPA or LPA, or provide services that are reserved to licensees. (7-1-21)

03. Late Fee. Licenses renewed after July 1, but before August 1, are subject to the late renewal fee as prescribed in Rule 600. After August 1, any license not renewed is deemed lapsed and is subject to reinstatement pursuant to Section 54-211, Idaho Code. (7-1-21)

202. PRACTICE PRIVILEGES.

01. Substantially Equivalent. As prescribed in Section 54-227, Idaho Code, and these rules. (7-1-21)

02. Internet Disclosures. An individual entering into an engagement to provide professional services via a web site, pursuant to Idaho practice privileges, is to disclose on their web site:

a. Their principal state of licensure, license number, and address. (7-1-21)

b. A means for regulators and the public to contact a responsible licensee in charge at the firm regarding complaints, questions, or regulatory compliance. (7-1-21)

203. RECIPROCAL LICENSURE.
If the practice privilege standard set out in Section 54-227, Idaho Code, is not applicable, the Board will issue a license to an applicant provided that the applicant pays the application and licensure fees prescribed in Rule 600 and meets one of the following:

01. Interstate Reciprocity. The requirements for a reciprocal license under Section 54-210(2), Idaho Code. Notwithstanding anything to the contrary, an individual whose principal place of business is not in this state and who holds a valid license or permit with unrestricted practice privileges as a Certified Public Accountant from any state that the NASBA National Qualification Appraisal Service has verified to be in substantial equivalence with the CPA licensure requirements of the AICPA/NASBA Uniform Accountancy Act is presumed to have the qualifications substantially equivalent to this state's requirements. (7-1-21)
02. **International Reciprocity.** The requirements for foreign reciprocal licensure under Section 54-210(5), Idaho Code, provided that the Board relies on the International Qualifications Appraisal Board for evaluation of foreign credential equivalency. Such licensees are to report any investigations undertaken, or sanctions imposed, by a foreign credentialing body against the licensee’s foreign credential. The Board will participate in joint investigations with foreign credentialing bodies and rely on evidence supplied by such bodies in disciplinary hearings.

(7-1-21)T

204. -- 299. (RESERVED)

300. **APPLICABILITY OF RULES.**

01. **Reliance.** A certified public accountant or licensed public accountant is to hold the affairs of his clients in strict confidence, observe the standards incorporated by reference, promote sound and informative financial reporting, and maintain high standards of personal conduct.

(7-1-21)T

02. **Acceptance of Licensure.** Acceptance of practice privileges or licensure as a certified public accountant or licensed public accountant establishes an affirmative obligation by said individual to be diligent in the performance of professional services, and to be fair and honest in relations with clients, fellow practitioners and the public.

(7-1-21)T

03. **Rules.** These rules do not comprise all acts that may be considered incompatible with the obligations and responsibilities imposed by professional status or discreditable or harmful even though not specifically mentioned or described in the rules. The Board may revoke, suspend, refuse to renew, administratively penalize, reprimand, restrict, or place on probation a licensee, individual granted practice privileges or other individual. The action will not be taken until the individual has been given notice and opportunity for hearing.

(7-1-21)T

04. **Applicability.** These rules apply to all professional services offered or performed by licensees or individuals granted practice privileges, including tax and management advisory services.

(7-1-21)T

05. **Responsibility.** A licensee is responsible for ensuring all persons associated with the licensee in the rendering of professional services, who are either under the licensee’s supervision or who are the licensee’s partners or shareholders in the practice comply with these rules. A licensee may not permit others to carry out, on his behalf, either with or without compensation, acts that, if carried out by the licensee, would place the licensee in violation of any laws.

(7-1-21)T

06. **Interpretation of Rules.** In the interpretation and enforcement of these rules, the Board gives consideration, but not necessarily dispositive weight, to relevant interpretations, rulings and opinions issued by other states, and by appropriately authorized standard setting bodies.

(7-1-21)T

07. **Investigative Committee.** The Board may appoint an investigative committee of not less than three (3) members consisting of active licensees in good standing. The committee duties are to direct the review and investigation of complaints of violations of the Idaho Accountancy Act and Rules, and to provide reports to the Board.

(7-1-21)T

301. **COMMISSIONS AND CONTINGENT FEES.**

01. **Acceptance.** Licensees may accept commissions or contingent fees subject to Section 54-218, Idaho Code, the AICPA Code of Professional Conduct, and these rules.

(7-1-21)T

02. **Disclosures.** Any licensee who directly or indirectly accepts or agrees to accept such form of compensation is to disclose the terms of such compensation to the client. The disclosure is to be:

(7-1-21)T

a. In writing, clear, and conspicuous; and state the amount of the compensation or basis on which it will be computed;
302. CONFIDENTIAL CLIENT INFORMATION.

01. Confidentiality. A licensee is to protect and not disclose confidential client information obtained in the course of performing professional services, unless the licensee has obtained the specific consent of the client, or of such client’s heirs, successors or personal representatives, or others legally authorized to give such consent on behalf of the client.

02. Exemptions. Nothing in these rules is construed as prohibiting the disclosure of information that is required to be disclosed:

   a. In reporting on the examination of financial statements;
   b. In investigations by the Board or other accounting regulatory agency;
   c. In ethical investigations conducted in private professional organizations;
   d. In the course of peer reviews;
   e. To other persons active in the organization performing services for that client on a need to know basis;
   f. To persons in the entity who need this information for the sole purpose of assuring quality control; or
   g. By any act of law.

03. Disciplinary Proceedings. Members of the Board and investigative officers may not disclose any confidential client information that comes to their attention from licensees in disciplinary proceedings or otherwise, except that they may furnish such information to an investigative or disciplinary body.

303. RECORDS.
A licensee is to furnish to his client or former client, upon request made within a reasonable time after original issuance of the document in question all client records, as that term is defined in the AICPA Code of Professional Conduct belonging to, or obtained from or on behalf of, the client that the licensee removed from the client's premises or received for the client's account. The licensee may make and retain copies of such documents when they form the basis for work performed by him. Client records are to be returned upon request by the client, whether the engagement has been terminated or the licensee has been paid for services rendered.

01. Tax Return, Other Reports, Working Papers Including Audit Documentation Made Part of Client's Records. A licensee who has been paid for the services rendered is to furnish to his client or former client, upon request, within a reasonable time after original issuance of the document in question the following records:

   b. A copy of any report, or other document, issued by the licensee to or for the client; and
   c. A copy of the licensee's working papers, to the extent that such working papers include records that would ordinarily constitute part of the client's books and records and are not otherwise available to the client. This would include adjusting, closing, combining, or consolidating journal entries; information normally contained in books of original entry and general ledgers or subsidiary ledgers; and tax and depreciation carry forward information. The information should be provided in the medium in which it is requested, provided it exists in that medium.
licensee does not have to convert information that is not in electronic format to an electronic format. (7-1-21)

02. Working Papers Including Audit Documentation Not a Part of the Client’s Records. A licensee’s working papers that do not become part of a client’s records, which may include analyses and schedules prepared by the client at the request of the licensee, are the licensee’s property, not client records, and need not be made available under any circumstances. (7-1-21)

03. Charges. A licensee does not have to furnish records to a client or a former client more than once. A licensee may charge the client or former client actual costs for time and photocopying charges on subsequent requests. (7-1-21)

304. FIRM NAMES.

01. General. A licensee may only provide professional services under a firm name that is not misleading as to the description of the legal form of the firm, or as to the person or persons who are owner(s), partners, officers, shareholders or members of the firm. Names of one (1) or more past owners, partners, shareholders or members who were licensed may be included in the firm name. A partner surviving the death or withdrawal of all other partners may continue to practice under a partnership name for up to two (2) years after becoming a sole practitioner. (7-1-21)

02. Title. A firm may designate itself as “Certified Public Accountant(s),” “Licensed Public Accountant(s)” or “Public Accountant(s)” when a majority of its partners, shareholders, or members are actively licensed certified public accountants or licensed public accountants under the provisions of the Idaho Accountancy Act and Rules. The firm name may not include the name of a non-licensee owner, except as allowed in Subsection 304.01 if the title “CPA(s)” or “LPA(s)” is included in the firm name. The firm name may not include the name of a person who is not a CPA or LPA if the title “Public Accountant(s)” is included in the firm name. (7-1-21)

305. COMMUNICATIONS.

01. Response. Unless otherwise specified, a licensee is to respond within thirty (30) calendar days of the mailing to any communication in which the Board requests a response. (7-1-21)

02. Complaints. Upon the receipt or filing of a complaint against an individual over whom the Board has regulatory authority, the Board may transmit a copy of such complaint to the individual. Upon receipt of a transmitted complaint, the individual is to file a written answer to the complaint within twenty (20) calendar days of receipt, unless otherwise granted an extension of time by the Board. (7-1-21)

306. -- 399. (RESERVED)

400. CPE BASIC REQUIREMENTS.
Demonstrate participation in a program of learning that meets the requirements as set forth in the Statement of Standards as referenced in Rule 004. CPE courses approved on NASBA's National Registry of CPE Sponsors, the AICPA, and state societies are deemed to meet the CPE requirements of this state. Responsibility for documenting the acceptability of the program and the validity of the credits rests with the licensee. (7-1-21)

01. Renewal. Licensees seeking active license renewal are to demonstrate that during the two (2) calendar years immediately preceding the date the reporting form is due that no less than eighty (80) hours of CPE are recorded, of which at least four (4) hours are ethics with a minimum of thirty (30) hours in any one (1) calendar year, and a maximum of fifty (50) hours recorded in any one (1) calendar year. (7-1-21)

02. New and Reciprocal. Completion of at least a two-hour (2) course on Idaho state-specific ethics during the calendar year that the license is issued. During the second calendar year of licensure, a minimum of thirty (30) hours is to be completed which may include an ethics component based on the prior year submission. (7-1-21)

401. CPE REPORTING, CONTROLS, AND LATE FEES.

01. Reporting. No later than January 31 of each year, individuals renewing their licenses are to provide a signed reporting form either.
a. Disclosing the information pertaining to the educational programs submitted for qualification as prescribed in the CPE Standards; or

b. Applying for exception, extension, or exemption.

02. CPE Late Fees. A License will not be issued until the licensee files the reporting form with supporting documentation, pays the late filing as prescribed in Rule 600, license renewal fee and any other penalty the Board may impose.

402. CPE EXCEPTIONS, EXTENSIONS, AND EXEMPTIONS.

01. Exceptions and Extensions. The Board may make exceptions to the CPE requirements, or grant extensions of time for completion of the CPE requirements, where reasons of health as certified by a medical doctor prevent compliance by the licensee, or other good cause exists.

a. Licensees asking for exceptions or extensions under these conditions apply on the reporting form for the year in which the extension or exemption is sought, and within the time period set for CPE reporting, stating the reasons for asking for such exception or extension. Any request not filed timely is subject to the late fee prescribed in Rule 600, in addition to any administrative action.

b. A penalty of no more than fifty percent (50%) of the hours a licensee is short in meeting the calendar year CPE requirement may be assessed for extensions. In such cases, the licensee will be required to complete the CPE hours and any assessed penalty no later than April 30. The penalty for non-compliance with ethics CPE is to obtain the mandatory hours of ethics CPE plus fifty percent (50%) penalty hours in ethics CPE prior to April 30. The penalty for non-compliance with state-specific ethics for Idaho is to complete the course plus fifty percent (50%) penalty hours in ethics CPE prior to April 30.

02. Inactive or Retired. Licensees who elect inactive or retired status are exempt from any CPE requirements as prescribed by Sections 54-211(c) and (d), Idaho Code. A licensee who has elected inactive or retired status may provide the following volunteer, uncompensated services: tax preparation services, participating in a government-sponsored business mentoring program, serving on the board of directors for a nonprofit or governmental organization, or serving on a government-appointed advisory board. If the CPA provides the foregoing volunteer, uncompensated services, the CPA has a duty to ensure that they hold the professional competencies necessary to offer these services.

403. REVIEW AND AUDIT OF CPE REPORTS.
All signed CPE reports are subject to formal verification to determine qualification and sufficiency of hours reported. A formal audit of CPE reported may be performed to determine whether hours reported qualify for credit. If a reporting form is not approved, the licensee will be notified.

404. NOTIFICATION.
A licensee is served a notice of noncompliance when it is determined the CPE requirement has not been fulfilled. The notice advises and provides opportunity for the deficiencies to be addressed. If the deficiencies remain, administrative action may be taken.

405. ACTION.
Following notice and hearing, the Board may suspend the license or take other action pursuant to Section 54-219, Idaho Code.

406. REINSTATEMENT AND RE-ENTRY.
An individual whose license has lapsed or is in a non-active status per Section 54-211, Idaho Code, is to complete no less than eighty (80) hours of CPE, of which at least four (4) hours are in ethics CPE with a minimum of two (2) hours to be in state specific ethics for Idaho, during the twelve (12) months immediately prior to applying for reinstatement or re-entry to an active license. The applicant is required to identify and complete a program of learning designed to demonstrate the currency of the applicant’s competencies directly related to his area of service. Completion of the CPE will otherwise exempt the licensee from obtaining CPE hours during the calendar year of returning to an active
license. If a licensee applies for re-entry during a license period and has already paid the fee for an inactive or retired license, the licensee is to pay the difference between the cost of an inactive or retired license and the annual license renewal fee. An individual who is applying for reinstatement to an inactive or retired license is not required to meet a CPE requirement. (7-1-21)

407. FORMERLY LICENSED.
Any person who was licensed by the Board and who chose to let their license lapse, or had their license lapsed by the Board, may place the word “former” adjacent to their CPA or LPA title on any business card, letterhead, or any other document or device so long as at the time the license lapsed, the person was in good standing with the Board. (7-1-21)

408. CONTINUING PROFESSIONAL EDUCATION COMMITTEE.

01. Appointment. The Board may appoint a continuing professional education committee. The committee consists of not less than five (5) members who are active licensees of this state, in good standing, and who need not be members of this Board. The committee performs the following duties and is authorized to take all actions necessary to perform these duties: (7-1-21)

a. To evaluate reported CPE to determine qualification. (7-1-21)

b. To consider applications for exceptions, extensions, and exemptions, and to assess penalties. (7-1-21)

c. To audit CPE reports and to consider other matters that may be assigned by the Board. (7-1-21)

02. Powers and Duties. Any decision or ruling of this committee, in performance of these duties, will have the full power and effect of a ruling of the Board, but is subject to the Board's review and approval. (7-1-21)

500. PURPOSE OF FIRM REGISTRATION AND PEER REVIEW.
The purpose of the program is to monitor compliance with applicable accounting and auditing standards adopted by generally recognized standard setting bodies. The program emphasizes appropriate education programs or remedial procedures that may be recommended or required where the firm does not comply with appropriate professional standards. In the event a firm is unwilling or unable to comply with professional standards, or a firm's failure to comply with professional standards is so egregious as to warrant continuing action, the Board will take appropriate action to protect the public interest as authorized by Section 54-219, Idaho Code. (7-1-21)

501. ISSUANCE OF REPORTS AND FORM OF PRACTICE.
A licensee can provide or offer to provide attest services or issue reports on compilations only in a firm as defined by Section 54-206(10), Idaho Code, except as provided under Section 54-221(4), Idaho Code. (7-1-21)

502. PEER REVIEW PROGRAM PARTICIPATION.

01. Participation. Any firm that issues reports on accounting and auditing engagements, including audits, reviews, compilations, prospective financial information, engagements performed in accordance with the PCAOB, and any examination, review or agreed-upon procedures engagement performed in accordance with the statement on standards for attestation engagements. A licensee who issues compilation reports through any form of business other than a firm is to participate in the peer review program. Such licensees are to meet the requirements for registration and peer review. (7-1-21)

02. Practice Privileges. Individuals with practice privileges in Idaho are to comply with the peer review requirements in the state of their principal place of business. (7-1-21)

503. EXEMPTION FROM PARTICIPATION.

01. Firms. A firm that does not perform any of the services in Rule 502 is exempt from peer review.
The firm is to notify the Board of such exemption in writing at the time of renewal of its registration. A firm that begins providing these services is to commence a peer review within eighteen (18) months of the date of the issuance of its initial report. 

02. **Licensees Not in Public Practice.** A licensee who does not perform any of the services in Rule 502 is exempt from firm registration and peer review. The licensee is to notify the Board of such exemption in writing at the time of initial CPA licensure and annually thereafter at the time of CPA or LPA license renewal. 

03. **Licensees Not Issuing Reports.** A licensee who issues financial statements pursuant to Section 54-221(5), Idaho Code, is exempt from peer review. 

504. **SCHEDULING OF THE PEER REVIEW.**

01. **Frequency.** A firm performing any of the services in Rule 502 undergoes, at its own expense, a peer review commensurate in scope with its practice, not less than once in each three (3) years. 

02. **Currently Enrolled.** A firm currently enrolled in a program of an approved administering organization will use the year of review assigned by the administering organization. The firm will notify the Board of the deadlines set by the administering organization. 

03. **Review Year.** Each firm is to enroll with one (1) of the approved administering organizations. Each firm adopts the review date assigned by the appropriate administering organization and notifies the Board of such date. 

04. **New Firms.** Within one (1) year of registration with the Board, new firms are to enroll with an approved administering organization. The firm adopts the review date assigned and notifies the Board of such date. 

05. **Mergers or Combinations.** In the event that two (2) or more firms are merged or combined, the resulting firm retains the peer review year of the firm with the largest number of accounting and auditing hours. 

06. **Dissolutions or Separations.** In the event that a firm is divided, the new firm(s) retains the review year of the former firm. In the event that the year under review is less than twelve (12) months, a review year will be assigned so that the review occurs within eighteen (18) months of the commencement of the new firm(s). 

07. **Multi-State Practices.** With respect to a multi-state firm, the Peer Review Oversight Committee may accept a peer review based solely upon work conducted outside of this state if the peer review is performed in accordance with requirements equivalent to those of this state. 

08. **Report Issuance.** It is the responsibility of the firm to anticipate its need for peer review services in sufficient time to enable the reviewer to issue the report within six (6) months after the review date. 

09. **Extensions.** The Board may accept an extension recommended by the administering organization for the conduct of a review, provided the Board is notified by the firm within thirty (30) days of the date of receipt of recommendation for such an extension. 

10. **Just Cause.** The Board may change a firm’s peer review year for just cause. 

505. **MINIMUM STANDARDS.** 

The minimum standards for peer review are contained in the Standards for Performing and Reporting on Peer Reviews section of the AICPA Standards. Peer reviews intended to meet the requirements of the AICPA peer review program are to be carried out in conformity with these standards under the supervision of an administering organization approved by the Board to administer peer reviews. Reviewed firms arrange and schedule their reviews in compliance with the procedures established by the administering organization and cooperate with the administering organization and with the Board in all matters related to the review.
506. REPORTING TO THE BOARD.

01. Firm Registration Form. All firms performing any of the peer reviewable services in Rule 502 annually file a firm registration no later than September 30. The registration is on a form prescribed by the Board. Firm registrations filed after September 30 are subject to penalty for non-compliance pursuant to Rule 600. (7-1-21)

02. Peer Review Documentation. A firm that has undergone peer review will file a copy of the peer review report, letter of comments if any, letter of response if any, and letter accepting the review report issued by the administering organization. The letter will be filed within thirty (30) days after receipt. Additionally, firms are to notify the Board within thirty (30) days of the date the peer reviewer or a team captain advises the firm that a grade of fail will be recommended. The Board reserves the right to obtain all other information relating to the peer review. The Board also has the authority to exempt for good cause firms who would otherwise have to file peer review documentation. (7-1-21)

507. RETENTION OF DOCUMENTS RELATING TO PEER REVIEWS.

Documents relating to peer reviews are to be retained as follows: (7-1-21)

01. Documents. All documentation necessary to establish that each peer review was performed in conformity with peer review standards adopted by the Board. These documents may include the peer review working papers, the peer review report, comment letters and related correspondence indicating the firm's concurrence or non-concurrence, and any proposed remedial actions and related implementation. (7-1-21)

02. Retention Period. Document retention is for a period of time corresponding to the designated retention period of the relevant administering organization and, upon request of the Committee, to be made available to it. In no event may the retention period be less than ninety (90) days from the date of acceptance of the review by the administering organization. (7-1-21)

508. CONFIDENTIALITY.

The letter and any documentation submitted to the Board pursuant to Rule 506.02 is confidential as authorized by Title 74, Chapter 1, Idaho Code, unless an Order is issued by the Board pursuant to Section 54-219, Idaho Code. (7-1-21)

509. REMEDIES FOR FAILURE TO COMPLY.

01. Corrective Actions. The Board will take appropriate action to protect the public interest if the Board determines, through the peer review process or otherwise, that a firm's performance or reporting practices, or both, are not, or may not be, in accordance with applicable professional standards, or that the firm does not comply with peer review program requirements or with all or some of the reporting, remedial action, or fee penalty requirements of this section. The Board's actions may include, but are not limited to: (7-1-21)

a. The annual license of the principal(s) of a non-compliant firm will not be issued until the firm complies with all requirements of these rules, provided the licensee has met all licensing requirements; (7-1-21)

b. Requiring the firm to develop quality control procedures to provide a reasonable assurance that similar occurrences will not occur in the future; (7-1-21)

c. Requiring any individual licensee who had responsibility for, or who substantially participated in, the engagement(s) to successfully complete specific courses or types of continuing education as specified by the Board; (7-1-21)

d. Requiring the reviewed firm to engage a Board-approved licensee to conduct a Board-prescribed on-site field review of the firm's work product and practices or perform other investigative procedures to assess the degree or pervasiveness of nonconforming work product. The Board-approved licensee engaged by the firm will submit a report of the findings to the Board within thirty (30) days of the completion of the services. The cost of the Board-prescribed on-site review or other Board-prescribed procedures will be at the firm's expense; (7-1-21)

e. Requiring the reviewed firm responsible for engagement(s) to submit all or specified categories of
its compilation or attest working papers and reports to a preissuance evaluation performed by a Board-approved licensee in a manner and for a duration prescribed by the Board. Prior to the firm issuing the reports on the engagements reviewed, the Board-approved licensee submits to a designee of the Board for the purpose of recommending that the Board accept a report of the findings, including the nature and frequency of recommended actions for the firm. The cost of the Board-approved preissuance evaluation will be at the firm's expense; (7-1-21)

f. Initiating an investigation to determine if additional discipline pursuant to Section 54-219, Idaho Code, is warranted. Notwithstanding the foregoing, absent an investigation the specific rating of a single peer review report is not a sufficient basis to warrant disciplinary action. (7-1-21)

02. Solicitation and Review of Other Sources. The Board may solicit, and review licensee reports and other information covered by the reports from clients, public agencies, banks, and other users of such information. (7-1-21)

510. ADMINISTERING ORGANIZATIONS.
Qualified administering organizations that register with, and are approved by the Board based on their adherence to the AICPA Peer Review minimum standards, include the peer review program of the American Institute of Certified Public Accountants (AICPA) and state CPA societies fully involved in the administration of the AICPA Peer Review Program and their successor organizations that meet the minimum standards. (7-1-21)

511. PEER REVIEW OVERSIGHT COMMITTEE.

01. Appointment. The Board appoints an Oversight Committee consisting of no more than seven (7) members who are active licensees and possess extensive current experience in accounting and auditing services. No committee member may be a current member of the Board. (7-1-21)

02. Responsibilities. The committee acts in an advisory capacity to the Board with the following duties: (7-1-21)

a. Monitoring administering organizations to provide reasonable assurance that peer reviews are being conducted and reported in accordance with the peer review minimum standards. (7-1-21)

i. Visit annually the administering organizations to examine their procedures for administering the peer review program and meet with the organization's peer review committee during the consideration of peer review documents. (7-1-21)

ii. Review, on the basis of random selection, a number of reviews performed by the administering organization which include, at a minimum, a review of the peer review report, the letter of comments (if any), the firm's response to the matters discussed in the letter of comments, the organization's acceptance letter outlining any additional corrective or monitoring procedures, and working papers on the selected review. The review of documents may be expanded if significant deficiencies, problems, or inconsistencies are discovered. (7-1-21)

b. Reports to the Board on conclusions reached and makes recommendations to the adherence to Peer Review Standards. Alternatively, for those organizations participating in the AICPA oversight program in connection with involved state societies, the committee may obtain and review the oversight program report to ensure that reviews are being conducted and reported on in accordance with the standards. Reports submitted may not contain information concerning specific firms or reviewers. (7-1-21)

c. Based on the result of the foregoing procedures, the committee will make recommendation to the Board as to the continuing qualifications of the approved administering organizations. (7-1-21)

601. -- 999. (RESERVED)
24.31.01 – RULES OF THE IDAHO STATE BOARD OF DENTISTRY

000. LEGAL AUTHORITY.
This Chapter is adopted under the legal authority of Chapter 9, Title 54, Idaho Code. (7-1-21)

001. SCOPE.
The rules constitute the minimum requirements for licensure and regulation of dentists, dental hygienists, and dental therapists. (7-1-21)

002. INCORPORATION BY REFERENCE.
Pursuant to Section 67-5229, Idaho Code, this chapter incorporates by reference the following documents: (7-1-21)

01. Professional Standards. (7-1-21)
b. CDC, Guidelines for Infection Control in Dental Health-Care Settings, 2003. (7-1-21)
c. ADA, Principles of Ethics, Code of Professional Conduct and Advisory Opinions, January 2009. (7-1-21)
d. ADHA Hygienists’ Association, Standards for Clinical Dental Hygiene Practice, 2016. (7-1-21)

003. -- 009. (RESERVED)

010. DEFINITIONS AND ABBREVIATIONS.

01. ACLS. Advanced Cardiovascular Life Support or Pediatric Advanced Life Support. (7-1-21)
02. ADA. American Dental Association. (7-1-21)
03. ADHA. American Dental Hygienists Association. (7-1-21)
04. AAOMS. American Association of Oral and Maxillofacial Surgeons. (7-1-21)
05. BLS. Basic Life Support. (7-1-21)
06. CDC. Centers for Disease Control and Prevention. (7-1-21)
07. CODA. Commission on Dental Accreditation. (7-1-21)
08. Deep Sedation. A drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilator function may be impaired. Patients may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained. (7-1-21)
09. Enteral. Administration of a drug in which the agent is absorbed through the gastrointestinal tract or mucosa. (7-1-21)
10. EPA. United States Environmental Protection Agency. (7-1-21)
11. General Anesthesia. A drug-induced loss of consciousness during which patients are not arousable, even by painful stimulation. The ability to independently maintain ventilator function is often impaired. Patients often require assistance in maintaining a patent airway, and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired. (7-1-21)
12. Inhalation. Administration of a gaseous or volatile agent introduced into the lungs and whose primary effect is due to absorption through the gas/blood interface. (7-1-21)
13. Local Anesthesia. The elimination of sensation, especially pain, in one (1) part of the body by the topical application or regional injection of a drug. (7-1-21)
14. **Minimal Sedation.** A minimally depressed level of consciousness that retains the patient’s ability to independently and continuously maintain an airway and respond normally to tactile stimulation and verbal command. Although cognitive function and coordination may be modestly impaired, ventilator and cardiovascular functions are unaffected. In accord with this particular definition, the drugs and/or techniques used should carry a margin of safety wide enough never to render unintended loss of consciousness. Further, patients whose only response is reflex withdrawal from repeated painful stimuli would not be considered to be in a state of minimal sedation. (7-1-21)T

15. **Moderate Sedation.** A drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is usually maintained. (7-1-21)T

16. **Monitor or Monitoring.** The direct clinical observation of a patient during the administration of sedation by a person trained to observe the physical condition of the patient and capable of assisting with emergency or other procedures. (7-1-21)T

17. **NBDE.** National Board Dental Examination. (7-1-21)T

18. **NBDHE.** National Board Dental Hygiene Examination. (7-1-21)T

19. **Operator.** The supervising dentist or another person who is authorized by these rules to induce and administer sedation. (7-1-21)T

20. **Parenteral.** Administration of a drug which bypasses the gastrointestinal tract [i.e., intramuscular, intravenous, intranasal, submucosal, subcutaneous, intraosseous]. (7-1-21)T

21. **Sedation.** The administration of minimal, moderate, and deep sedation and general anesthesia. (7-1-21)T

**011. APPLICATION AND LICENSE FEES.**
Application fees are not refunded. A license shall not be issued or renewed unless fees have been paid. License fees are prorated from date of initial licensure to the next successive license renewal date. The application fees and license fees are as follows:

(7-1-21)T

**012. EXAMINATIONS FOR LICENSURE.**

**01. Written Examination.** Successful completion of the NBDE may be required of all applicants for a license to practice dentistry or a dental specialty. Successful completion of the NBDHE may be required of all applicants for a license to practice dental hygiene. Dental therapists must successfully complete a board-approved written examination. Any other written examination will be specified by the Board. (7-1-21)T
02. Clinical Examination. All applicants for a license to practice general dentistry, dental hygiene or dental therapy are required to pass a Board-approved clinical examination upon such subjects as specified by the Board. Applicants for dental hygiene and dental therapy licensure must pass a clinical local anesthesia examination. Clinical examination results will be valid for licensure by examination for a period of (5) five years from the date of successful completion of the examination.

013. REQUIREMENTS FOR LICENSURE.
Applicants for licensure to practice dentistry must furnish proof of graduation from a school of dentistry accredited by CODA at the time of applicant's graduation. Applicants for licensure to practice dental hygiene must furnish proof of graduation from a dental hygiene program accredited by CODA at the time of applicant's graduation. Applicants for licensure to practice dental therapy must furnish proof of graduation from a dental therapy program accredited by CODA at the time of applicant's graduation.

014. REQUIREMENT FOR BLS.
Applicants for initial licensure will provide proof of current BLS certification. Practicing licensees must maintain current BLS certification.

015. CONTINUING EDUCATION REQUIREMENTS.
A licensee renewing an active status license shall report 30 oral health/health-related continuing education hour credits to the Board of verifiable CE or volunteer practice.

016. – 020. (RESERVED)

021. PROVISIONAL LICENSURE.
This type of license may be granted at the Board's discretion to applicants with active practice within the previous (2) years, current license in good standing in another state, and evidence of not failing an exam given by the Board.

022. VOLUNTEER DENTAL HYGIENE SERVICES.
A person holding an unrestricted active status dental hygiene license issued by the Board may provide dental hygiene services in an extended access oral health care setting without being issued an extended access license endorsement. The dental hygiene services performed are limited to oral health screening and patient assessment, preventive and oral health education, preparation and review of health history, non-surgical periodontal treatment, oral prophylaxis, the application of caries preventive agents including fluoride, the application of pit and fissure sealants with recommendation that the patient will be examined by a dentist;

023. DENTAL HYGIENISTS – LICENSE ENDORSEMENTS.
The Board may grant license endorsements to qualified dental hygienists as follows:

01. Extended Access Endorsement. Upon application, the Board may grant an extended access endorsement to a person holding an unrestricted active status dental hygienist's license issued by the Board who provides satisfactory proof that all of the following requirements are met:

a. The person has been licensed as a dental hygienist during the two (2) year period immediately prior to the date of application for an extended access endorsement;

b. For a minimum of one thousand (1000) total hours within the previous two (2) years, the person has either been employed as a dental hygienist in supervised clinical practice or has been engaged as a clinical practice educator in an approved dental hygiene school;

c. The person has not been disciplined by the Board or another licensing authority upon grounds that bear a demonstrable relationship to the ability of the dental hygienist to safely and competently practice under general supervision in an extended access oral health care setting; and

d. Any person holding an unrestricted active status dental hygienist's license issued by the Board who is employed as a dental hygienist in an extended access oral health care setting in this state may be granted an extended access endorsement without being required to satisfy the experience requirements specified in this rule.
02. **Extended Access Restorative Endorsement.** Notwithstanding any other provision of these rules, a qualified dental hygienist holding an extended access restorative endorsement may perform specified restorative functions under the direct supervision of a dentist in an extended access oral health care setting. Permissible restorative functions under this endorsement are limited to the placement of a restoration into a tooth prepared by a dentist and the carving, contouring and adjustment of the contacts and occlusion of the restoration. Upon application, the Board may grant an extended access restorative endorsement to a person holding an unrestricted active status dental hygienist's license issued by the Board who provides satisfactory proof that the following requirements are met:

a. The person has successfully completed the Western Regional Examining Board's restorative examination or an equivalent restorative examination approved by the Board; and

b. The person has not been disciplined by the Board or another licensing authority upon grounds that bear a demonstrable relationship to the ability of the dental hygienist to safely and competently practice under in an extended access oral health care setting.

03. **Renewal.** Upon payment of the appropriate license fee and completion of required CE credits specified for a license endorsement, a person meeting all other requirements for renewal of a license to practice dental hygiene is also entitled to renewal of a license endorsement for the effective period of the license. An endorsement immediately expires and is cancelled at such time as a person no longer holds an unrestricted active status dental hygienist's license issued by the Board or upon a person's failure to complete the required CE.

024. **LICENSURE OF DENTAL SPECIALISTS.**

01. **Requirements for Specialty Licensure.** Each applicant for specialty licensure must have graduated from a CODA accredited dental school and hold a license to practice general dentistry in the state of Idaho or another state. The Board may grant licensure in specialty areas of dentistry for which a dentist has completed a CODA accredited postdoctoral advanced dental education program of at least two full-time academic years.

02. **Examination.** Specialty licensure in those specialties recognized may be granted solely at the discretion of the Board. An examination covering the applicant's chosen field may be required and, if so, will be conducted by the Board or a testing agent. Applicants who have met the requirements for licensure as a specialist may be required to pass an examination as follows:

a. Applicants who have passed a general licensure examination acceptable to the Board may be granted specialty licensure by Board approval.

b. Applicants who have passed a general licensure examination not acceptable to the Board may be required to pass a specialty examination.

c. Applicants who are certified by the American Board of that particular specialty as of the date of application for specialty licensure may be granted specialty licensure by Board approval.

03. **Limitation of Practice.** No dentist may announce or otherwise hold himself out to the public as a specialist unless he has first complied with the requirements established by the Board for such specialty and has been issued a specialty license authorizing him to do so. Any individual granted a specialty license must limit his practice to the specialty(s) in which he is licensed.

025. **SPECIALTY ADVERTISING.**

The specialty advertising rules are intended to allow the public to be informed about dental specialties and to require appropriate disclosures to avoid misperceptions on the part of the public.

01. **Recognized Specialty License.** An advertisement may not state that a licensee is a specialist unless the licensee has been granted a license in that specialty area of dental practice by the Board. Use of words or terms in
advertisements such as “Specialist,” “Board Certified,” “Diplomate,” “Practice Limited To,” and “Limited To Specialty Of” shall be prima facie evidence that the licensee is holding himself out to the public as a licensed specialist in a specialty area of dental practice.

02. **Disclaimer.** A licensee who has not been granted a specialty license by the Board may advertise as being qualified in a recognized specialty area of dental practice so long as each such advertisement, regardless of form, contains a prominent, clearly worded disclaimer that the licensee is “licensed as a general dentist” or that the specialty services “will be provided by a general dentist.” Any disclaimer in a written advertisement must be in the same font style and size as that in the listing of the specialty area.

03. **Unrecognized Specialty.** A licensee may not advertise as being a specialist in or as specializing in any area of dental practice which is not a Board recognized and licensed specialty area unless the advertisement, regardless of form, contains a prominent, clearly worded disclaimer that the advertised area of dental practice is not recognized as a specialty area of dental practice by the Idaho Board of Dentistry. Any disclaimer in a written advertisement shall be in the same font style and size as that in the listing of the specialty area.

026. **PATIENT RECORDS.**
A record must be maintained for each person receiving dental services, regardless of whether any fee is charged. Records must be in the form of an acronym such as “PARQ” (Procedure, Alternatives, Risks and Questions) or “SOAP” (Subjective Objective Assessment Plan) or their equivalent. Patient records must be maintained for no less than seven (7) years from the date of last entry unless: the patient requests the records be transferred to another dentist who will maintain the records, the dentist gives the records to the patient, or the dentist transfers the dentist’s practice to another dentist who will maintain the records.

027. – 030. (RESERVED)

031. **INFECTION CONTROL.**
In determining what constitutes unacceptable patient care with respect to infection control, the Board may consider current infection control guidelines such as those of the CDC. Additionally, licensees and dental assistants must comply with the following requirements:

01. **Gloves, Masks, and Eyewear.** Disposable gloves must be worn whenever placing fingers into the mouth of a patient or when handling blood or saliva contaminated instruments or equipment. Appropriate hand hygiene must be performed prior to gloving. Masks and protective eyewear or chin-length shields must be worn when spattering of blood or other body fluids is likely.

02. **Instrument Sterilization.** Between each patient use, instruments and other equipment that come in contact with body fluids must be sterilized.

03. **Sterilizing Devices Testing.** Heat sterilizing devices must be tested for proper function by means of a biological monitoring system that indicates micro-organisms kill. Devices must be tested each calendar week in which scheduled patients are treated. Testing results must be retained by the licensee for the current calendar year and the two (2) preceding calendar years.

04. **Non-Critical Surfaces.** Environmental surfaces that are contaminated by blood or saliva must be disinfected with an EPA registered hospital disinfectant.

05. **Clinical Contact Surfaces.** Impervious backed paper, aluminum foil, or plastic wrap should be used to cover surfaces that may be contaminated by blood or saliva. The cover must be replaced between patients. If barriers are not used, surfaces must be cleaned and disinfected between patients by using an EPA registered hospital disinfectant.

06. **Disposal.** All contaminated wastes and sharps must be disposed of according to any governmental requirements.

032. **EMERGENCY MEDICATIONS OR DRUGS.**
The following emergency medications or drugs are required in all sites where anesthetic agents of any kind are
administered: anti-anaphylactic agent, antihistaminic, aspirin, bronchodilator, coronary artery vasodilator, and glucose. (7-1-21)T

033. DENTAL HYGIENISTS – PRACTICE.
Dental hygienists are hereby authorized to perform the activities specified below:

01. General Supervision. A dental hygienist may perform specified duties under general supervision as follows:

a. Oral prophylaxis (removal of stains and plaque biofilm and if present, supragingival and/or subgingival calculus); (7-1-21)T
b. Medical history assessments and intra-oral and extra-oral assessments (including charting of the oral cavity and surrounding structures, taking case histories and periodontal assessment); (7-1-21)T
c. Developing patient care plans for prophylaxis, non-surgical periodontal therapy and supportive and evaluative care in accordance with the treatment parameters set by supervising dentist; (7-1-21)T
d. Root planing; (7-1-21)T
e. Non-surgical periodontal therapy; (7-1-21)T
f. Closed subgingival curettage; (7-1-21)T
g. Administration of local anesthesia; (7-1-21)T
h. Removal of marginal overhangs (use of high speed handpieces or surgical instruments is prohibited); (7-1-21)T
i. Application of topical antibiotics or antimicrobials (used in non-surgical periodontal therapy); (7-1-21)T
j. Provide patient education and instruction in oral health education and preventive techniques; (7-1-21)T
k. Placement of antibiotic treated materials pursuant to dentist authorization; (7-1-21)T
l. Administration and monitoring of nitrous oxide/oxygen; and (7-1-21)T
m. All duties which may be performed by a dental assistant. (7-1-21)T

02. Direct Supervision. A dental hygienist may perform specified duties under direct supervision as follows:

a. Use of a laser restricted to gingival curettage and bleaching. (7-1-21)T

034. DENTAL HYGIENISTS – PROHIBITED PRACTICE.

01. Diagnosis and Treatment. Definitive diagnosis and dental treatment planning. (7-1-21)T
02. Operative Preparation. The operative preparation of teeth for the placement of restorative materials. (7-1-21)T
03. Intraoral Placement or Carving. The intraoral placement or carving of restorative materials unless authorized by issuance of an extended access restorative endorsement. (7-1-21)T
04. Anesthesia. Administration of any general anesthesia or moderate sedation. (7-1-21)T
05. **Final Placement.** Final placement of any fixed or removable appliances.  

06. **Final Removal.** Final removal of any fixed appliance.

07. **Cutting Procedures.** Cutting procedures utilized in the preparation of the coronal or root portion of the tooth, or cutting procedures involving the supportive structures of the tooth.

08. **Root Canal.** Placement of the final root canal filling.

09. **Occlusal Equilibration Procedures.** Occlusal equilibration procedures for any prosthetic restoration, whether fixed or removable.

10. **Other Final Placement.** Final placement of prefabricated or cast restorations or crowns.

**035. DENTAL THERAPISTS – PRACTICE.**
Dental therapists are authorized to perform activities specified by the supervising dentist who practices in the same practice setting in conformity with a written collaborative practice agreement at the supervision levels set forth in the agreement.

036. **DENTAL THERAPISTS – PROHIBITED PRACTICE.**

01. **Sedation.** Administration of minimal, moderate or deep sedation or general anesthesia except as otherwise allowed by these rules;

02. **Cutting Procedures.** Cutting procedures involving the supportive structures of the tooth including both the soft and hard tissues.

03. **Periodontal Therapy.** Periodontal scaling and root planing, including the removal of subgingival calculus.

04. **All Extractions with Exception.** All extractions except:

   a. Under direct supervision.

   i. Non-surgical extractions.

   b. Under general supervision or as specified in Section 035.

   i. Removal of periodontally diseased teeth with class III mobility.

   ii. Removal of coronal remnants of deciduous teeth.

05. **Root Canal Therapy.**

06. **All Fixed and Removable Prosthodontics.** (except stainless steel crowns).

07. **Orthodontics.**

**037. DENTAL ASSISTANTS – PRACTICE.**
Dental assistants are authorized to perform dental services for which they are trained unless prohibited by these rules. Dental assistants must be directly supervised by a dentist when performing intraoral procedures except when providing palliative care as directed by the supervising dentist.

01. **Prohibited Duties.** A dental assistant is prohibited from performing the following duties:
a. The intraoral placement or carving of permanent restorative materials. (7-1-21)T
b. Any irreversible procedure. (7-1-21)T
c. The administration of any sedation or local injectable anesthetic. (7-1-21)T
d. Removal of calculus. (7-1-21)T
e. Use of an air polisher. (7-1-21)T
f. Any intra-oral procedure using a high-speed handpiece, except for the removal of orthodontic cement or resin. (7-1-21)T
g. Any dental hygiene prohibited duty. (7-1-21)T

038. – 040. (RESERVED)

041. LOCAL ANESTHESIA.
Dental offices in which local anesthesia is administered to patients shall, at a minimum, have and maintain suction equipment capable of aspirating gastric contents from the mouth and pharynx, a portable oxygen delivery system including full face masks and a bag-valve mask combination capable of delivering positive pressure, oxygen-enriched ventilation to the patient, a blood pressure cuff of appropriate size and a stethoscope. (7-1-21)T

042. NITROUS OXIDE/OXYGEN.
Persons licensed to practice and dental assistants trained in accordance with these rules may administer nitrous oxide/oxygen to patients. (7-1-21)T

01. Patient Safety. A dentist must evaluate the patient to ensure the patient is an appropriate candidate for nitrous oxide/oxygen; ensure that any patient under nitrous oxide/oxygen is continually monitored; and ensure that a second person is in the practice setting who can immediately respond to any request from the person administering the nitrous oxide/oxygen. (7-1-21)T

02. Required Facilities and Equipment. Dental offices where nitrous oxide/oxygen is administered to patients must have the following: a fail-safe nitrous oxide delivery system that is maintained in working order; a scavenging system; and a positive-pressure oxygen delivery system suitable for the patient being treated. (7-1-21)T

03. Personnel. For nitrous oxide/oxygen administration, personnel shall include an operator and an assistant currently certified in BLS. (7-1-21)T

043. MINIMAL SEDATION.
Persons licensed to practice dentistry may administer minimal sedation to patients of sixteen (16) years of age or older. When the intent is minimal sedation, the appropriate dosing of a single enteral drug is no more than the maximum FDA-recommended dose for unmonitored home use. In cases where the patient weighs less than one hundred (100) pounds, or is under the age of sixteen (16) years, minimal sedation may be administered without a permit by use of nitrous oxide, or with a single enteral dose of a sedative agent administered in the dental office. (7-1-21)T

01. Patient Safety. The administration of minimal sedation is permissible so long as it does not produce an alteration of the state of consciousness in a patient to the level of moderate sedation, general anesthesia, or deep sedation. A dentist must qualify for and obtain a permit from the Board to be authorized to sedate patients to the level of moderate sedation, general anesthesia, or deep sedation. Nitrous oxide/oxygen may be used in combination with a single enteral drug in minimal sedation, except as described in Section 043 of these rules. Notwithstanding any other provision in these rules, a dentist must initiate and regulate the administration of nitrous oxide/oxygen when used in combination with minimal sedation. (7-1-21)T

02. Personnel. At least one (1) additional person currently certified in BLS must be present in addition to the dentist. (7-1-21)T
044. MODERATE SEDATION, GENERAL ANESTHESIA AND DEEP SEDATION.

Dentists licensed in the state of Idaho cannot administer moderate sedation, general anesthesia, or deep sedation in the practice of dentistry unless they have obtained a permit from the Board. A moderate sedation permit may be either enteral or parenteral. A dentist may not administer moderate sedation to children under sixteen (16) years of age and one hundred (100) pounds unless they have qualified for and been issued a moderate parenteral sedation permit. A moderate enteral sedation permit authorizes dentists to administer sedation by either enteral or combination inhalation-ental routes of administration. A moderate parenteral, general anesthesia, or deep sedation permit authorizes a dentist to administer sedation by any route of administration. To qualify for a moderate, general anesthesia, or deep sedation permit, a dentist must provide proof of the following:

01. Training Requirements.

a. For Moderate Sedation Permits, completion of training in the administration of moderate sedation to a level consistent with requirements established by the Board within the five (5) year period immediately prior to the date of application for a moderate sedation permit. The five (5) year requirement is not applicable to applicants who hold an equivalent permit in another state which has been in effect for the twelve (12) month period immediately prior to the application date. Qualifying training courses must be sponsored by or affiliated with a dental school accredited by CODA, or be approved by the Board.

i. For a moderate enteral sedation permit, the applicant must provide proof of a minimum of twenty-four (24) hours of instruction plus management of at least ten (10) adult case experiences by the enteral and/or enteral-nitrous oxide/oxygen route. These ten (10) cases must include at least three live clinical dental experiences managed by participants in groups no larger than five (5). The remaining cases may include simulations and/or video presentations but must include one experience in returning a patient from deep to moderate sedation.

ii. For a moderate parenteral sedation permit, the applicant must provide proof of a minimum of sixty (60) hours of instruction, plus management of at least twenty (20) patients by the intravenous route.

b. For General Anesthesia and Deep Sedation Permits, completion of an advanced education program accredited by CODA that affords comprehensive training necessary to administer and manage deep sedation or general anesthesia within the five (5) year period immediately preceding the date of application. The five (5) year requirement is not applicable to applicants who hold an equivalent permit in another state which has been in effect for the twelve (12) month period immediately prior to the application date.

02. ACLS. Verification of current certification in ACLS or PALS, whichever is appropriate for the patient being sedated.

03. General Requirements The qualified dentist is responsible for the sedative management, adequacy of the facility and staff, diagnosis and treatment of emergencies related to the administration of moderate sedation, general anesthesia, or deep sedation and providing the equipment, drugs and protocol for patient rescue. Evaluators appointed by the Idaho State Board of Dentistry will periodically assess the adequacy of the facility and competence of the sedation team. For general anesthesia and deep sedation, the Board adopts the standards incorporated by reference in these rules, as set forth by the AAOMS in their office anesthesia evaluation manual.

a. Facility, Equipment and Drug Requirements. The following facilities, equipment and drugs must be available for immediate use during the sedation and recovery phase:

i. An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least two (2) individuals to freely move about the patient;

ii. An operating table or chair that permits the patient to be positioned so the operating team can maintain the patient's airway, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;
iii. A lighting system that permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure; (7-1-21)T

iv. Suction equipment that permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure; (7-1-21)T

v. An oxygen delivery system with adequate full face mask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system; (7-1-21)T

vi. A recovery area that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area can be the operating room (7-1-21)T

vii. A sphygmomanometer, pulse oximeter, oral and nasopharyngeal airways, supraglottic airway devices, and automated external defibrillator (AED); and (7-1-21)T

viii. Emergency drugs including, but not limited to, pharmacologic antagonists appropriate to the drugs used, bronchodilators, and antihistamines. (7-1-21)T

ix. Additional emergency equipment and drugs required for moderate parenteral sedation permits include precordial/pretracheal stethoscope or end-tidal carbon dioxide monitor, intravenous fluid administration equipment, vasopressors, and anticonvulsants. (7-1-21)T

x. Additional emergency equipment and drugs required for general anesthesia and deep sedation permits include precordial/pretracheal stethoscope and end-tidal carbon dioxide monitor, intravenous fluid administration equipment, vasopressors, and anticonvulsants. (7-1-21)T

b. Personnel (7-1-21)T

i. For moderate sedation, the minimum number of personnel is two (2) including: the operator and one (1) additional individual currently certified in BLS. (7-1-21)T

ii. For general anesthesia or deep sedation, the minimum number of personnel is three (3) including: the operator and two (2) additional individuals currently certified in BLS. When the same individual administering the general anesthesia or deep sedation is performing the dental procedure one (1) of the additional individuals must be designated for patient monitoring. (7-1-21)T

iii. Auxiliary personnel must have documented training in BLS, will have specific assignments, and shall have current knowledge of the emergency cart inventory. The dentist and all office personnel must participate in documented periodic reviews of office emergency protocol, including simulated exercises, to assure proper equipment function and staff interaction. (7-1-21)T

c. Pre-sedation Requirements. Before inducing moderate sedation, general anesthesia, or deep sedation a dentist must: (7-1-21)T

i. Evaluate the patient's medical history and document, using the American Society of Anesthesiologists Patient Physical Status Classifications, that the patient is an appropriate candidate for moderate sedation, general anesthesia, or deep sedation; (7-1-21)T

ii. Give written preoperative and postoperative instructions to the patient or, when appropriate due to age or psychological status of the patient, the patient's guardian; (7-1-21)T

iii. Obtain written informed consent from the patient or patient's guardian for the sedation; and (7-1-21)T

iv. Maintain a sedation record and enter the individual patient's sedation into a case/drug log.
d. Patient Monitoring. Patients must be monitored as follows:

i. For moderate sedation the patient must be continuously monitored using pulse oximetry. For general anesthesia or deep sedation, the patient must be continuously monitored using pulse oximetry and end-tidal carbon dioxide monitors.

ii. The patient's blood pressure, heart rate, and respiration must be recorded every five (5) minutes during the sedation and then continued every fifteen (15) minutes until the patient meets the requirements for discharge. These recordings must be documented in the patient record. The record must also include documentation of preoperative and postoperative vital signs, all medications administered with dosages, time intervals and route of administration. If this information cannot be obtained, the reasons must be documented in the patient's record.

iii. During the recovery phase, the patient shall be monitored by an individual trained to monitor patients recovering from sedation;

iv. A dentist will not release a patient who has undergone sedation except to the care of a responsible third party;

v. The dentist will assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met: vital signs are stable, patient is alert and oriented, and the patient can ambulate with minimal assistance; and

vi. A discharge entry will be made by the dentist in the patient's record indicating the patient's condition upon discharge and the name of the responsible party to whom the patient was discharged.

e. Sedation of Other Patients. The permit holder must not initiate sedation on another patient until the previous patient is in a stable monitored condition and in the recovery phase following discontinuation of their sedation.
suspend, revoke or restrict a permit shall be subject to applicable statutes and rules governing administrative procedures before the Board. 

047. DETERMINATION OF DEGREE OF SEDATION BY THE BOARD.
In any matter under review or in any proceeding being conducted in which the Board must determine the degree of central nervous system depression, the Board may base its findings or conclusions on, among other matters, the type, and dosages, and routes of administration of drugs administered to the patient and what result can reasonably be expected from those drugs in those dosages and routes administered in a patient of that physical and psychological status. 

048. USE OF OTHER ANESTHESIA PERSONNEL.
A dentist who does not hold a sedation permit may perform dental procedures in a dental office on a patient who receives sedation induced by an anesthesiologist, a certified registered nurse anesthetist, or another dentist with a sedation permit as follows: 

01. Facility, Equipment, Drugs, and Personnel Requirements. The dentist will have the same facility, equipment, drugs, and personnel available during the procedure and during recovery as required of a dentist who has a permit for the level of sedation being provided. 

02. Patient's Condition Monitored Until Discharge. The qualified sedation provider who induces sedation will monitor the patient's condition until the patient is discharged and record the patient's condition at discharge in the patient's dental record as required by the rules applicable to the level of sedation being induced. The sedation record must be maintained in the patient's dental record and is the responsibility of the dentist who is performing the dental procedures. 

03. Use of Services of a Qualified Sedation Provider. A dentist who intends to use the services of a qualified sedation provider must notify the Board in writing of his intent. Such notification need only be submitted once every licensing period. 

04. Advertising. A dentist who intends to use the services of a qualified sedation provider may advertise the service provided so long as each such advertisement contains a prominent disclaimer that the service “will be provided by a qualified sedation provider.” 

049. INCIDENT REPORTING.
Dentists must report to the Board, in writing, within seven (7) days after the death or transport to a hospital or emergency center for medical treatment for a period exceeding twenty-four (24) hours of any patient to whom sedation was administered. 

050. – 055. (RESERVED) 

056. UNPROFESSIONAL CONDUCT.
A licensee shall not engage in unprofessional conduct in the course of his practice. Unprofessional conduct by a person licensed under the provisions of Title 54, Chapter 9, Idaho Code, is defined as, but not limited to, one (1) of the following: 

01. Fraud. Obtaining fees by fraud or misrepresentation, or over-treatment either directly or through an insurance carrier. 

02. Unlicensed Practice. Employing directly or indirectly any suspended or unlicensed individual as defined in Title 54, Chapter 9, Idaho Code. 

03. Unlawful Practice. Aiding or abetting licensed persons to practice unlawfully. 

04. Dividing Fees. A dentist shall not divide a fee for dental services with another party, who is not a partner or associate with him in the practice of dentistry, unless: 

a. The patient consents to employment of the other party after a full disclosure that a division of fees
will be made;

b. The division is made in proportion to the services performed and responsibility assumed by each
dentist or party.

05. Prescription Drugs. Prescribing or administering prescription drugs not reasonably necessary for,
or within the scope of, providing dental services for a patient. A dentist may not prescribe or administer prescription
drugs to himself. A dentist shall not use controlled substances as an inducement to secure or maintain dental
patronage or aid in the maintenance of any person's drug addiction by selling, giving or prescribing prescription
drugs.

06. Harassment. The use of threats or harassment to delay or obstruct any person in providing
evidence in any possible or actual disciplinary action, or other legal action; or the discharge of an employee primarily
based on the employee's attempt to comply with the provisions of Title 54, Chapter 9, Idaho Code, or the Board's
Rules, or to aid in such compliance.

07. Discipline in Other States. Conduct himself in such manner as results in a suspension, revocation
or other disciplinary proceedings with respect to his license in another state.

08. Altering Records. Alter a patient's record with intent to deceive.

09. Office Conditions. Unsanitary or unsafe office conditions, as determined by the customary
practice and standards of the dental profession in the state of Idaho and CDC guidelines as incorporated by reference
in these rules.

10. Abandonment of Patients. Abandonment of patients by licensees before the completion of a phase
of treatment, as such phase of treatment is contemplated by the customary practice and standards of the dental
profession in the state of Idaho, without first advising the patient of such abandonment and of further treatment that is
necessary.

11. Use of Intoxicants. Practicing while under the influence of an intoxicant or controlled substance
where the same impairs the licensee’s ability to practice with reasonable and ordinary care.

12. Mental or Physical Condition. The inability to practice with reasonable skill and safety to patients
by reason of age, illness, or as a result of any mental or physical condition.

13. Consent. Revealing personally identifiable facts, data or information obtained in a professional
capacity without prior consent of the patient, except as authorized or required by law.

14. Scope of Practice. Practicing or offering to practice beyond the scope permitted by law,
or accepting and performing professional responsibilities that the licensee knows or has reason to know that he or she is
not competent to perform.

15. Delegating Duties. Delegating professional responsibilities to a person when the licensee
degenerating such responsibilities knows, or with the exercise of reasonable care and control should know, that such a
person is not qualified by training or by licensure to perform them.

16. Unauthorized Treatment. Performing professional services that have not been authorized by the
patient or his legal representative.

17. Supervision. Failing to exercise appropriate supervision over persons who are authorized to
practice only under the supervision of a licensed professional.

18. Legal Compliance. Failure to comply with any provisions of federal, state or local laws, statutes,
rules, and regulations governing or affecting the practice of dentistry or dental hygiene.

19. Exploiting Patients. Exercising undue influence on a patient in such manner as to exploit a patient
for the financial or personal gain of a practitioner or of a third party. (7-1-21)

20. Misrepresentation. Willful misrepresentation of the benefits or effectiveness of dental services. (7-1-21)

21. Disclosure. Failure to advise patients or their representatives in understandable terms of the treatment to be rendered, alternatives, the name and professional designation of the provider rendering treatment, and disclosure of reasonably anticipated fees relative to the treatment proposed. (7-1-21)

22. Sexual Misconduct. Making suggestive, sexual or improper advances toward a patient or committing any lewd or lascivious act upon or with a patient. (7-1-21)

23. Patient Management. Use of unreasonable and/or damaging force to manage patients, including but not limited to hitting, slapping or physical restraints. (7-1-21)

24. Compliance with Dentist Professional Standards. Failure by a dentist to comply with professional standards applicable to the practice of dentistry, as incorporated by reference in this chapter. (7-1-21)

25. Compliance with Dental Hygienist Professional Standards. Failure by a dental hygienist to comply with professional standards applicable to the practice of dental hygiene, as incorporated by reference in this chapter. (7-1-21)

26. Failure to Provide Records to a Patient or Patient's Legal Guardian. Refusal or failure to provide a patient or patient's legal guardian with records within five (5) business days. A patient or patient's legal guardian may not be denied a copy of his records for any reason, regardless of whether the person has paid for the dental services rendered. A person may be charged for the actual cost of providing the records but in no circumstances may a person be charged an additional processing or handling fee or any charge in addition to the actual cost. (7-1-21)

27. Failure to Cooperate with Authorities. Failure to cooperate with authorities in the investigation of any alleged misconduct or interfering with a Board investigation by willful misrepresentation of facts, willful failure to provide information upon request of the Board, or the use of threats or harassment against any patient or witness to prevent them from providing evidence. (7-1-21)

28. Advertising. Advertise in a way that is false, deceptive, misleading or not readily subject to verification. (7-1-21)

057. – 999. (RESERVED)
000. **LEGAL AUTHORITY.**
These rules are promulgated pursuant to Sections 54-1208(1), 55-1702(1), and 55-1606, Idaho Code. (7-1-21)

001. **SCOPE.**
These rules include procedures of the Board, rules of professional responsibility, rules of continuing professional development, rules for coordinate system of land description, and rules for properly completing corner perpetuation and filing forms. (7-1-21)

002. -- 009. (RESERVED)

010. **DEFINITIONS.**
The following terms are used as defined below: (7-1-21)

1. **Certificate Holder.** Any person holding a current certificate as an Engineer Intern or a Land Surveyor Intern or a business entity (which is also herein referred to as a “person”) holding a current certificate of authorization, which has been duly issued by the Board. (7-1-21)

2. **Deceit.** To intentionally misrepresent a material matter, or intentionally omit to disclose a known material matter. (7-1-21)

3. **Incompetence.** Failure to meet the standard of care. (7-1-21)

4. **Licensee.** Any person holding a current license as a Professional Engineer, a Professional Land Surveyor, or a combination thereof, which has been duly issued by the Board. (7-1-21)

5. **Misconduct.** A violation or attempt to violate these rules or statutes applicable to the practice of engineering or surveying, or to knowingly assist or induce another to do so, or do so through the acts of another; a finding of guilt of commitment of a felony or a plea of guilty to a felony; commit fraud or deceit; failure to respond within twenty (20) days of an inquiry from the Board or its representative, unless such time is extended by the Board for justifiable cause; state or imply an ability to influence improperly a government agency or official. (7-1-21)

**SUBCHAPTER A – RULES OF PROCEDURE**
(Rules 011 through 099)

011. **FEES.**

1. **Applications and Renewals.** All fees are set by the Board in the following categories and may in no event be more than the amount specified in Sections 54-1213, 54-1214, 54-1216, 54-1219 and 54-1223, Idaho Code. Fees are not refundable. (7-1-21)

   a. Licensure as a professional engineer or professional land surveyor by examination. (7-1-21)

   b. Reinstatement of a retired or expired license. (7-1-21)

   c. Certification for a business entity applying for a certificate of authorization to practice or offer to practice engineering or land surveying. (7-1-21)

   d. Renewals for professional engineers, professional land surveyors, engineer interns, land surveyor interns, and business entities. (7-1-21)

   e. Licensure for professional engineers or professional land surveyors by comity. (7-1-21)

012. **SEALS.**

1. **Official Seal of Board.** The official seal of this Board consists of the seal of the state of Idaho, surrounded with the words “Board of Professional Engineers and Professional Land Surveyors” and “State of Idaho.” (7-1-21)

2. **Standard Seals for Engineers and Land Surveyors.** The Board adopts standard seals for use by
licensed professional engineers and professional land surveyors as prescribed by Section 54-1215, Idaho Code. Seals prepared and approved prior to July 1, 2008 are valid for continued use. (7-1-21)

03. **Seal for Professional Engineer/Land Surveyor.** Engineers obtaining licensure as land surveyors under the changes to Section 54-1217, Idaho Code, by the 1978 Legislature use the seal showing licensure as a Professional Engineer and Land Surveyor as adopted by the Board. Seals prepared and approved prior to July 1, 2008 are valid for continued use. (7-1-21)

013 – 015. (RESERVED)

016. **APPLICATION FOR LICENSURE OR CERTIFICATION.**

01. **Completion of Application.** Applications must be made in English. An application that is not fully completed by the applicant need not be considered or acted upon by the Board. The application by a business entity for a certificate of authorization to practice or offer to practice engineering or land surveying must set forth its address, and name and address of the individual, or individuals, duly licensed to practice engineering or land surveying in this state, who will be in responsible charge of engineering or land surveying services offered or rendered by the business entity in this state. (7-1-21)

02. **Submittal of Applications and Examination Cutoff Date.** Submittal of applications for licensure or intern certification must occur after passing the required national examinations. Examinations may be given in various formats and different registration dates apply depending on the examination format. (7-1-21)

   a. For national examinations administered in a computer-based or paper format once or twice per year the registration requirements, including the deadline and testing windows, are established by the National Council of Examiners for Engineering and Surveying (NCEES). (7-1-21)

   b. For national examinations administered continuously in a computer-based format, there is no deadline for registering with NCEES. The registration requirements, including the testing windows, are established by NCEES. (7-1-21)

   c. In order for the Board to be able to verify experience, only experience up to the date of submittal of the application for licensure will be considered as valid. (7-1-21)

   d. Applications for certification as engineering or surveying interns are submitted after passing the Fundamentals of Engineering or the Fundamentals of Surveying examination and providing evidence of graduation with educational credentials required by Subsection 017.03 of this chapter. (7-1-21)

03. **Residency Requirement.** Except for military personnel stationed in the state of Idaho on military orders, and except for persons employed full-time in the state of Idaho, only residents of the state of Idaho and students enrolled at an Idaho university or college may qualify for initial licensure. (7-1-21)

04. **Minimum Boundary Survey Experience.** The Board requires a minimum of two (2) years boundary survey experience as a condition of professional land surveyor licensure. (7-1-21)

017. **EXAMINATIONS AND EDUCATION.**

01. **Use of NCEES Examinations.** National examinations prepared and graded by the National Council of Examiners for Engineering and Surveying (NCEES) may be used by the Board. Applicants registering for a national professional examination must have first passed the fundamentals examination unless exempted per Subsection 017.10 of this chapter. (7-1-21)

02. **Eligibility for Licensure. Educational Requirements.** The application for licensure as a professional engineer or professional land surveyor together with a passing score on the written ethics questionnaire or Idaho specific land surveying examination, is considered in the determination of the applicant’s eligibility. Each applicant must meet the minimum requirements as set forth in Section 54-1212, Idaho Code, before being licensed. Prescriptive education requirements are as follows: (7-1-21)
a. In regard to educational requirements, the Board will consider as unconditionally approved only those engineering programs that are accredited by the Engineering Accreditation Commission (EAC) of ABET, Inc., or the bachelor of science programs accredited by the Canadian Engineering Accrediting Board, or those bachelor of science engineering programs that are accredited by official organizations recognized by the U.K. Engineering Council. Non-EAC/ABET accredited engineering programs, related science programs, and engineering technology programs will be considered by the Board on their specific merits, but are not considered equal to engineering programs accredited by EAC/ABET. The Board may continue consideration of an application for valid reasons for a period of one (1) year, without forfeiture of the application fee. (7-1-21)

b. An applicant who has completed a four (4) year bachelor degree program in engineering not accredited by EAC/ABET or a four (4) year bachelor degree program in engineering technology, or in a related science degree program other than engineering must have completed the following before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(3)(b), Idaho Code, for certification as an Engineer Intern or as required by Section 54-1212(1)(b), Idaho Code, for licensure as a professional engineer: (7-1-21)

i. Thirty-two (32) college semester credit hours of higher mathematics and basic sciences. The credits in mathematics must be beyond algebra and trigonometry and emphasize mathematical concepts and principles rather than computation. Courses in differential and integral calculus are required. Additional courses may include differential equations, linear algebra, numerical analysis, probability and statistics and advanced calculus. The credits in basic sciences must include at least two (2) courses. These courses must be in general chemistry, general calculus-based physics, or general biological sciences; the two (2) courses may not be in the same area. Additional basic sciences courses may include earth sciences (geology, ecology), advanced biology, advanced chemistry, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements. Basic engineering science courses or sequence of courses in this area are acceptable for credit but may not be counted twice. (7-1-21)

ii. Twelve (12) college credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are philosophy, religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics (micro and macro), professional ethics, social responsibility. Examples of other general education courses deemed acceptable include management (such as organizational behavior), accounting, written and oral communications, business, and law. No more than six (6) credit hours may come from courses in management, accounting, business, or law. Courses in engineering economics, engineering management, systems engineering/analysis, production, and industrial engineering/management will not be counted. Language courses in the applicant’s native language are not acceptable for credit; no more than six (6) credit hours of foreign language courses are acceptable for credit. Native language courses in literature and civilization may be considered in this area. Courses which instill cultural values are acceptable, while routine exercises of personal craft are not. (7-1-21)

iii. Forty-eight (48) college credit hours of engineering science and/or engineering design courses. Courses in engineering science must be taught within the college / faculty of engineering having their roots in mathematics and basic sciences but carry knowledge further toward creative application of engineering principles. Examples of approved engineering science courses are mechanics, thermodynamics, heat transfer, electrical and electronic circuits, materials science, transport phenomena, and computer science (other than computer programming skills). Courses in engineering design stress the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Graduate level engineering courses may be included to fulfill curricular requirements in this area. Engineering technology courses cannot be considered to meet engineering topic requirements. (7-1-21)

iv. The Board may require detailed course descriptions for seminar, directed study, special problem and similar courses to ensure that the above requirements are met. (7-1-21)

c. In regard to educational requirements, the Board will consider as unconditionally approved only those surveying programs that are accredited either by the Engineering Accreditation Commission (EAC), the Applied and Natural Science Accreditation Commission (ANSAC) or the Engineering Technology Accreditation Commission (ETAC) of ABET, Inc. An applicant who has completed a four (4) year bachelor degree program in a
related program must have completed a minimum of the following college level academic courses, or their equivalents as determined by the Board, before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year surveying curriculum as required by Section 54-1212(4)(b), Idaho Code, for certification as a Land Surveyor Intern or as required by Section 54-1212(2)(b), Idaho Code, for licensure as a professional land surveyor:

i. Eighteen (18) college semester credit hours of mathematics and basic sciences. A minimum of twelve (12) credits in mathematics must be beyond basic mathematics, but the credits include college algebra or higher mathematics. These courses must emphasize mathematical concepts and principles rather than computation. Mathematics courses may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus. A minimum of six (6) credits must be in basic sciences. These courses must cover one or more of the following topics: general chemistry, advanced chemistry, life sciences (biology), earth sciences (geology, ecology), general physics, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements;

ii. Twelve (12) college semester credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics, professional ethics, and social responsibility. No more than six (6) credit hours of languages other than English or other than the applicant’s native language are acceptable for credit. English and foreign language courses in literature and civilization may be considered in this area. Courses that instill cultural values are acceptable, while routine exercises of personal craft are not;

iii. Thirty (30) college semester credit hours of surveying science and surveying practice. Courses must be taught by qualified surveying faculty. Examples of surveying courses are basic surveying, route surveying, geodesy, geographic information systems, land development design and planning, global positioning systems, photogrammetry, mapping, survey adjustment and coordinates systems, cartography, legal descriptions, and remote sensing. Required courses will include a minimum of basic surveying, route surveying, geodesy, surveying law, public land survey system and global positioning systems. Graduate-level surveying courses can be included to fulfill curricular requirements in this area.

d. The Board may require an independent evaluation of the engineering education of an applicant who has a non-EAC/ABET accredited engineering degree or a non-engineering degree. Such evaluation must be done through an organization approved by the Board and be done at the expense of the applicant to ensure that the applicant has completed the coursework requirements of Subsection 017.03.b. The Board may table action on the application pending receipt of the evaluation, and, in the event the applicant does not provide the evaluation within one (1) year, the Board may terminate the application, in which case the application fee is forfeited.
requirements of duration and difficulty necessary to adequately test the applicant’s fitness to practice in that particular discipline. The Board may use examinations prepared by the National Council of Examiners for Engineering and Surveying (NCEES) or it may prepare or commission the preparation of, or utilize other state examinations in disciplines other than those for which examinations may be available from NCEES.

06. Three Examinations for Land Surveying Licensure. The complete examining procedure for licensure as a professional land surveyor consists of three (3) separate written examinations. The first is the Fundamentals of Surveying examination for land surveyor intern certification, and the second is the Principles and Practice of Surveying, and the third is the Idaho specific professional land surveying examination. All examinations are required for professional land surveyor licensure. The examination will be a duration as determined by the Board. Having passed the Fundamentals of Surveying examination, applicants will be required to take the Principles and Practice of Surveying examination at a later date when qualified by the Board. The examination covers the theory and principles of surveying, the practice of land surveying and the requirements of legal enactments. The Principles and Practice of Surveying examination may consist of separate modules, each of which must be passed. Having passed the Principles and Practice of Surveying examination, applicants will be required to pass the Idaho specific professional land surveying examination, which tests for knowledge of the laws and rules of Idaho, and the legal and technical aspects of land surveying in Idaho.

07. Oral or Unassembled Examinations. An oral examination or unassembled written examination, in addition to the prescribed written examination, may be required for professional engineer and professional land surveyor applicants.

08. Grading. Unless otherwise provided in 54-1219, or 54-1223 Idaho Code, each land surveyor intern, engineer intern, professional land surveyor and professional engineer applicant must attain a passing score on the entire examination or modules as determined by the Board, before being awarded certification or licensure. Passing scores on national examinations are established by the National Council of Examiners for Engineering and Surveying. A passing score on the Idaho specific ethics questionnaire is eighty (80), a passing score on the law and rules module of the Idaho specific land surveying examination is ninety (90), and a passing score on the public land surveying module of the Idaho specific land surveying examination is seventy-five (75).

09. Exemption – Examination on the Fundamentals of Engineering. The Board may exempt an exceptional individual who has twelve (12) or more years of appropriate engineering experience from the requirement for satisfactory completion of an examination on the fundamentals of engineering as specified in 54-1223(2), Idaho Code. The Board will exempt an individual who has an earned bachelor’s degree and an earned doctoral degree from an approved engineering program from the requirement for satisfactory completion of an examination on the fundamentals of engineering as specified in 54-1223(3), Idaho Code.

10. Review of Examination by Examinee. Due to security concerns about the examinations, examinees are not allowed to review their examinations. Examinees who fail an examination will be provided a diagnostic analysis of their performance on the examination if such an analysis is available to the Board.

018. REEXAMINATIONS. The reexamination policy for each failed national examination will be established by NCEES. Reexamination for failed Idaho specific examinations will be allowed until a passing score is attained, but the Board may, in addition, require oral or other examinations.

019. LICENSEES OR CERTIFICATE HOLDERS OF OTHER STATES, BOARDS, AND COUNTRIES.

01. Interstate Licensure Evaluation. Each application for an Idaho professional engineer license or professional land surveyor license submitted by an applicant who is licensed as a professional engineer, or licensed as a professional land surveyor, respectively, in one (1) or more states, possessions or territories or the District of Columbia, will be considered by the Board on its merits, and the application evaluated for substantial compliance with respect to the requirements of the Idaho law related to experience, examination, and education. A minimum of four (4) years of progressive experience after graduation with a bachelor of science degree is required for licensure. Individuals who have passed the National Council of Examiners for Engineering and Surveying (NCEES) examinations for professional engineering or professional land surveying will be considered to have satisfied the examination requirement for issuance of a license as a professional engineer or professional land surveyor provided
that land surveyor applicants also pass the Idaho specific professional land surveying examination. Prescriptive education requirements are as follows:

(a) Graduates from programs accredited by the Engineering Accreditation Commission of the ABET, Inc., (EAC/ABET), or graduates of university bachelor of science engineering programs accredited by the Canadian Engineering Accrediting Board, or those university bachelor of science engineering programs that are accredited by official organizations recognized by the U.K. Engineering Council, or graduates of engineering programs with coursework evaluated by the Board as being substantially equivalent to EAC/ABET degrees, will be considered to have satisfied the educational requirement for issuance of a license as a professional engineer.

(b) The Board may require an independent evaluation of the engineering education of an applicant who has a non-EAC/ABET accredited four (4) year bachelor degree. Such evaluation must be done through an organization approved by the Board and is done at the expense of the applicant to ensure that they have completed the coursework requirements of Subsection 019.01.c. Such evaluation is not required if the applicant has been licensed in another jurisdiction of the United States for a minimum of ten (10) years and has not had any disciplinary action against them and there is none pending, and possesses the education, experience and examination credentials that were specified in the applicable registration chapter in effect in this state at the time such certification was issued. The Board may table action on the application pending receipt of the evaluation, and, in the event the applicant does not provide the evaluation within one (1) year, the Board may terminate the application, in which case the application fee will be forfeited.

(c) An applicant who was originally licensed in another jurisdiction after June 30, 1996, and who has completed a four (4) year bachelor degree program in engineering technology, or in a related science degree program other than engineering must have completed the following before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(1)(b), Idaho Code:

(i) Thirty-two (32) college semester credit hours of higher mathematics and basic sciences. The credits in mathematics must be beyond algebra and trigonometry and must emphasize mathematical concepts and principles rather than computation. Courses in differential and integral calculus are required. Additional courses may include differential equations, linear algebra, numerical analysis, probability and statistics and advanced calculus. The credits in basic sciences must include at least two (2) courses. These courses must be in general chemistry, general calculus-based physics, or general biological sciences; the two (2) courses may not be in the same area. Additional basic sciences courses may include earth sciences (geology, ecology), advanced biology, advanced chemistry, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements. Basic engineering science courses or sequence of courses in this area are acceptable for credit but may not be counted twice.

(ii) Twelve (12) college credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are philosophy, religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics (micro and macro), professional ethics, social responsibility. Examples of other general education courses deemed acceptable include management (such as organizational behavior), accounting, written and oral communications, business, and law. No more than six (6) credit hours may come from courses in management, accounting, business, or law. Courses in engineering economics, engineering management, systems engineering/analysis, production, and industrial engineering/management will not be counted. Language courses in the applicant's native language are not acceptable for credit; no more than six (6) credit hours of foreign language courses are acceptable for credit. Native language courses in literature and civilization may be considered in this area. Courses which instill cultural values are acceptable, while routine exercises of personal craft are not.

(iii) Forty-eight (48) college credit hours of engineering science and engineering design courses. Courses in engineering science must be taught within the college/faculty of engineering having their roots in mathematics and basic sciences but carry knowledge further toward creative application of engineering principles. Examples of approved engineering science courses are mechanics, thermodynamics, heat transfer, electrical and electronic circuits, materials science, transport phenomena, and computer science (other than computer programming skills). Courses in engineering design stress the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Graduate level engineering courses may be included to fulfill curricular
requirements in this area. Engineering technology courses cannot be considered to meet engineering topic requirements. (7-1-21)

d. In regard to educational requirements, the Board will consider as unconditionally approved only those surveying programs that are accredited either by the Engineering Accreditation Commission (EAC), the Applied and Natural Science Accreditation Commission (ANSAC) or the Engineering Technology Accreditation Commission (ETAC) of ABET, Inc. An applicant who has completed a four (4) year bachelor degree program in a related program must have completed a minimum of the following college level academic courses, or their equivalents as determined by the Board, before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year surveying curriculum as required by Section 54-1212(2)(b), Idaho Code, for licensure as a professional land surveyor: (7-1-21)

i. Eighteen (18) college semester credit hours of mathematics and basic sciences. A minimum of twelve (12) credits in mathematics must be beyond basic mathematics, but the credits include college algebra or higher mathematics. Mathematics courses must emphasize mathematical concepts and principles rather than computation. Mathematics courses may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus. A minimum of six (6) credits must be in basic sciences. These courses must cover one or more of the following topics: general chemistry, advanced chemistry, life sciences (biology), earth sciences (geology, ecology), general physics, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements; (7-1-21)

ii. Twelve (12) college semester credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics, professional ethics, and social responsibility. No more than six (6) credit hours of languages other than English or other than the applicant’s native language are acceptable for credit. English and foreign language courses in literature and civilization may be considered in this area. Courses that instill cultural values are acceptable, while routine exercises of personal craft are not; (7-1-21)

iii. Thirty (30) college semester credit hours of surveying science and surveying practice. Courses must be taught by qualified surveying faculty. Examples of surveying courses are basic surveying, route surveying, geodesy, geographic information systems, land development design and planning, global positioning systems, photogrammetry, mapping, survey adjustment and coordinates systems, cartography, legal descriptions, and remote sensing. Required courses will include a minimum of basic surveying, route surveying, geodesy, surveying law, public land survey system and global positioning systems. Graduate-level surveying courses can be included to fulfill curricular requirements in this area. (7-1-21)

02. International Engineering Licensure Evaluation - Countries or Jurisdictions with Board Approved Licensure Process. The Board may determine the professional engineering licensure process in other countries or jurisdictions within other countries is substantially equivalent to that required 54-1219 Idaho Code. As such, the Board may waive prescriptive education and examination requirements if the applicant possesses a professional engineer license credential, attains a minimum of eight (8) years of experience after licensure, provided the applicant has no criminal or outstanding disciplinary action in any country or jurisdiction, and is in good standing with the licensing Board within that country or jurisdiction. A bona fide licensing process in another country must include requirements of experience, education, testing, a code of professional responsibility, regulation of licensees including the ability take disciplinary action and the willingness, availability, and capacity of a foreign Board to release information to the Idaho Board in English. (7-1-21)

03. International Engineering Licensure Evaluation - Countries or Jurisdictions Without a Board Approved Licensure Process. Each application for an Idaho professional engineer license submitted by an applicant who is licensed as a professional engineer in one (1) or more foreign countries or jurisdictions within a country, will be considered by the Board on its merits, and the application evaluated for substantial compliance with the requirements of Idaho law with respect to experience, examination, and education. A minimum of four (4) years of progressive experience after graduation is required for licensure. The Board will require two (2) years of experience working in the United States or two (2) years of experience working on projects requiring the knowledge and use of codes and standards similar to those utilized in the United States where the experience is validated by a professional engineer licensed in the United States. The Board may postpone acting on or deny an application for a
license by comity if disciplinary or criminal action related to the applicant's practice has been taken or is pending in any country or jurisdiction. Applicants must have passed a professional engineering examination administered by NCEES. Applicants who meet the residency requirements of 54-1212, Idaho Code, are eligible for initial licensure in Idaho when qualified by the Board. Prescriptive education requirements are as follows: (7-1-21)

- a. Graduates of engineering university programs accredited by the Canadian Engineering Accrediting Board, or official organizations recognized by the U.K. Engineering Council, or graduates of engineering university programs accredited by EAC/ABET or evaluated by the Board as being substantially equivalent to EAC/ABET programs will be considered to have satisfied the educational requirement for issuance of a license as a professional engineer. (7-1-21)

- b. The Board may require an independent credentials evaluation of the engineering education of an applicant educated outside the United States who has a non-EAC/ABET accredited engineering degree. Such evaluation must be done through NCEES or another organization approved by the Board and is done at the expense of the applicant. (7-1-21)

- c. The Board may require an independent credentials evaluation of the education for an applicant who has completed a four (4) year bachelor degree program outside the United States in engineering technology, or in a related science degree program other than engineering and must demonstrate completion of the requirements of Subsection 019.01.c. before the Board will consider the applicant to possess the knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(1)(b), Idaho Code. Such evaluation must be done through NCEES or another organization approved by the Board and is done at the expense of the applicant. (7-1-21)

04. Waiver of Prescriptive Engineering Licensure Evaluation for Unique International Expertise. The Board may waive the prescriptive licensure evaluation requirements of 019.03 for international applicants who, in the Board's opinion, are qualified by reason of education and experience and offer unique technical expertise, provided the licensee meets the requirements of 54-1219 Idaho Code. (7-1-21)

05. Denials or Special Examinations. An application from a licensee of another state, possession or territory, District of Columbia, or foreign country may be denied by the Board for any just cause and the application fee retained; or the Board may approve the applicant for a special written and/or oral examination. (7-1-21)

06. Business Entity Requirements. No application for a certificate of authorization to practice or offer to practice professional engineering or professional land surveying, or both, in Idaho by a business entity authorized to practice professional engineering or professional land surveying, or both, in one (1) or more states, possessions or territories, District of Columbia, or foreign countries are considered by the Board unless such application includes the name and address of the individual or individuals, duly licensed to practice professional engineering or professional land surveying or both in this state, who will be in responsible charge of the engineering or land surveying services, or both, as applicable, to be rendered by the business entity in Idaho. The said individual or individuals must certify or indicate to the Board their willingness to assume responsible charge. (7-1-21)

020. DISCONTINUED, RETIRED, AND EXPIRED LICENSES AND CERTIFICATES.

01. Reinstatement – Disciplinary. Licensees who choose to convert their license to retired status as part of a disciplinary action, or in lieu of discipline, or in lieu of compliance with continuing professional development requirements, may be reinstated upon written request. The Board will consider the reinstatement request at a hearing or may waive the hearing for minor violations. (7-1-21)

02. Reinstatement – Nondisciplinary. Licensees who chose to convert their license to retired status not as part of a disciplinary action may request reinstatement in writing. Reinstatement may require a hearing by the Board. (7-1-21)

03. Continuing Professional Development. Licensees requesting reinstatement must demonstrate compliance with the continuing professional development requirements described in these rules as a condition of reinstatement. (7-1-21)
04. **Eligibility.** Unless otherwise approved by the Board, only unexpired licensees are eligible to convert to retired status.

05. **Discontinued Certificate of Authorization.** Business entities no longer providing engineering or land surveying services in Idaho may request their certificates be discontinued. Reinstatement of a discontinued certificate may be requested by submitting a new application with the Board.

06. **Fee for Reinstatement of Discontinued Certificate of Authorization.** The fee for reinstatement of a discontinued certificate will be as required for applications in Section 54-1213, Idaho Code.

024. -- 099. (RESERVED)

**100. RESPONSIBILITY TO THE PUBLIC.**

01. **Primary Obligation.** All Licensees and Certificate Holders must at all times recognize their primary obligation is to protect the safety, health and welfare of the public in the performance of their professional duties.

02. **Standard of Care.** Each Licensee and Certificate Holder must exercise such care, skill and diligence as others in that profession ordinarily exercise under like circumstances.

03. **Professional Judgment.** If any Licensee’s or Certificate Holder’s professional judgment is overruled under circumstances where the safety, health and welfare of the public are endangered, the Licensee or Certificate Holder must inform the employer or client of the possible consequences and, where appropriate, notify the Board or such other authority of the situation.

04. **Obligation to Communicate Discovery of Discrepancy.** Except as provided in the Idaho Rules of Civil Procedure 26(b)(4)(B), if a Licensee or Certificate Holder, during the course of his work, discovers a material discrepancy, error, or omission in the work of another Licensee or Certificate Holder, which may impact the health, property and welfare of the public, the discoverer must make a reasonable effort to inform the Licensee or Certificate Holder whose work is believed to contain the discrepancy, error or omission. Such communication must reference specific codes, standards or physical laws which are believed to be violated and identification of documents which are believed to contain the discrepancies. The Licensee or Certificate Holder whose work is believed to contain the discrepancy must respond within twenty (20) calendar days to any question about his work raised by another Licensee or Certificate Holder. In the event a response is not received within twenty (20) days, the discoverer must notify the License or Certificate Holder in writing, who has another twenty (20) days to respond. Failure to respond...
(with supportable evidence) on the part of the Licensee or Certificate Holder whose work is believed to contain the discrepancy is considered a violation of these rules and may subject the Licensee or Certificate Holder to disciplinary action by the Board. The discoverer must notify the Board in the event a response that does not answer the concerns of the discoverer is not obtained within the second twenty (20) days. A Licensee or Certificate Holder is exempt from this requirement if their client is an attorney and they are being treated as an expert witness. In this case, the Idaho Rules of Civil Procedure apply.

05. **Obligation to Comply with Rules of Continuing Professional Development.** All Licensees must comply with the continuing professional development requirements contained in these rules.

06. **Obligation to Affected Landowners.** Land surveyors have a duty to set monuments at the corners of their client’s property boundaries in compliance with 54-1227, Idaho Code. Per Subsection 100.04 above, land surveyors also have a duty to notify other licensees of a material discrepancy prior to setting monuments that represent a material discrepancy with a prior survey. If a monument is to be set at a location that represents a material discrepancy with an existing monument at any corner of record, land surveyors must also notify all affected adjoining land owners and the Board prior to setting the new monument.

101. **COMPETENCY FOR ASSIGNMENTS.**

01. **Assignments in Field of Competence.** A Licensee must undertake to perform assignments only when qualified by education or experience in the specific technical field involved, however, a Licensee, as the prime professional, may accept an assignment requiring education or experience outside of his own field of competence, but his services are restricted to those phases of the project in which the Licensee is qualified. All other phases of such project must be performed by qualified associates, consultants or employees. For projects encompassing one (1) or more disciplines beyond the Licensee’s competence, a Licensee may sign and seal the cover sheet for the total project only when the Licensee has first determined that all elements of the project have been prepared, signed and sealed by others who are competent, licensed and qualified to perform such services.

02. **Aiding and Abetting an Unlicensed Person.** A Licensee or Certificate Holder must avoid actions and procedures which, in effect, amount to aiding and abetting an unlicensed person to practice engineering or land surveying.

03. **Use of Seal on Documents.** A Licensee must affix his signature and seal only to plans or documents prepared under his responsible charge.

102. **(RESERVED)**

103. **CONFLICT OF INTEREST.**

01. **Conflict of Interest to Be Avoided.** Each Licensee or Certificate Holder must conscientiously avoid conflict of interest with an employer or client, and, when unavoidable, must forthwith disclose the circumstances in writing to the employer or client. In addition, the Licensee or Certificate Holder must promptly inform the employer or client in writing of any business association, interests, or circumstances which could influence a Licensee’s or Certificate Holder’s judgment or quality of service, or jeopardize the clients’ interests.

02. **Compensations From Multiple Parties on the Same Project.** A Licensee or Certificate Holder may accept compensation, financial or otherwise, from more than one (1) party for services on the same project, or for services pertaining to the same project, provided the circumstances are fully disclosed, in writing, in advance and agreed to by all interested parties.

03. **Solicitation From Material or Equipment Suppliers.** A Licensee or Certificate Holder may not solicit or accept financial or other valuable considerations from material or equipment suppliers for specifying or recommending the products of said suppliers, except with full disclosure as outlined in Subsection 103.02.

04. **Gratuities.** A Licensee or Certificate Holder may not solicit or accept gratuities, gifts, travel, lodging, loans, entertainment or other favors directly or indirectly, from contractors, their agents or other third parties.
dealing with a client or employer in connection with work for which the Licensee or Certificate Holder is responsible, which can be construed to be an effort to improperly influence the Licensee’s or Certificate Holder’s professional judgment. Minor expenditures such as advertising trinkets, novelties and meals are excluded. Neither may a Licensee or Certificate Holder make any such improper offer.

05. Solicitation From Agencies. A Licensee, a Certificate Holder or a representative thereof may not solicit or accept a contract from a governmental authority on which an existing officer, director, employee, member, partner, or sole proprietor of his organization serves as a member of the elected or appointed policy and governing body of such governmental authority or serves as a member of an entity of such governmental authority having the right to contract or recommend a contract for the services of a Licensee or a Certificate Holder.

06. Professional Services Decisions of Agencies. A Licensee, Certificate Holder or representative thereof serving as a member of the governing body of a governmental authority, whether elected or appointed, or an advisor or consultant to a governmental Board, commission or department may at all times be subject to the statutory provisions concerning ethics in government, Section 74-401, Idaho Code, et seq. A violation of the “Ethics in Government Act of 2015” will be considered a violation of these rules.

07. Unfair Advantage of Position and Work Outside Regular Employment. When a Licensee or an individual Certificate Holder is employed in a full time position, the person may not use the advantages of the position to compete unfairly with other professionals and may not accept professional employment outside of that person’s regular work or interest without the knowledge of and written permission or authorization from that person’s employer.

104. SOLICITATION OF WORK.

01. Commissions. A Licensee or Certificate Holder may not pay or offer to pay, either directly or indirectly, any commission, gift or other valuable consideration in an effort to secure work, except to bona fide employees or bona fide established business enterprises retained by a Licensee or Certificate Holder for the purpose of securing business or employment.

02. Representation of Qualifications. A Licensee or Certificate Holder may not falsify or permit misrepresentation of his or his associates’ academic or professional qualifications, and may not misrepresent or exaggerate the degree of responsibility in or for the subject matter of prior assignments. Brochures or other presentations incident to the solicitation of employment may not misrepresent pertinent facts concerning employers, employees, associates, joint-venturers or his or their past accomplishments with the intent and purpose of enhancing qualifications for the work. The Licensee or Certificate Holder may not indulge in publicity that is misleading.

03. Assignment on Which Others Are Employed. A Licensee or Certificate Holder may not knowingly seek or accept employment for professional services for an assignment that another Licensee or Certificate Holder is employed, or contracted to perform without the currently employed or contracted entity being informed in writing.

04. Contingency Fee Contracts. A Licensee or Certificate Holder may not accept an agreement, contract, or commission for professional services on a “contingency basis” that may compromise his professional judgment and may not accept an agreement, contract or commission for professional services that includes provisions wherein the payment of fee involved is contingent on a “favorable” conclusion, recommendation or judgment.

05. Selection on the Basis of Qualifications. On selections for professional engineering and land surveying services that are required pursuant to Section 67-2320, Idaho Code, a licensee or certificate holder, in response to solicitations described in Section 67-2320, Idaho Code, may not submit information that constitutes a bid for services requested either as a consultant or subconsultant.

105. IMPROPER CONDUCT.

01. Fraudulent or Dishonest Enterprises. A Licensee or Certificate Holder may not knowingly
associate with, or permit the use of his name or the firm name in a business venture by any person or firm that it is known to be, or there is reason to believe, is engaging in business or professional practices of a fraudulent or dishonest nature. (7-1-21)

02. Confidentiality. Licensees or Certificate Holders may not reveal confidential facts, data or information obtained in a professional capacity without prior written consent of the client or employer except as authorized or required by law. (7-1-21)

03. Actions by Other Jurisdictions. The surrender, revocation, suspension or denial of a license to practice Professional Engineering or Professional Land Surveying, as an individual or through a business entity, in another jurisdiction, for reasons or causes which the Board finds would constitute a violation of the Idaho laws regulating the practice of Engineering and Land Surveying, or any code or rules promulgated by the Board, is sufficient cause after a hearing for disciplinary action as provided in Title 54 Chapter 12, Idaho Code. (7-1-21)

106. -- 199. (RESERVED)

SUBCHAPTER C – RULES OF CONTINUING PROFESSIONAL DEVELOPMENT
(Rules 200 through 299)

200. REQUIREMENTS.
The purpose of the continuing professional development requirement is to demonstrate a continuing level of competency of licensees. Every licensee shall meet fifteen (15) PDH units per year or thirty (30) PDH units per biennium of continuing professional development as a condition for licensure renewal. (7-1-21)

201. USE OF NCEES MODEL CPC STANDARD.
Licensees must comply with the National Council of Examiners for Engineering and Surveying (NCEES) Continuing Professional Competency (CPC) renewal standard as identified in the latest version of the NCEES Model Rule 240.30, and further described in the NCEES Continuing Professional Competency Guidelines. This standard is found at https://ncees.org/wp-content/uploads/CPC-Guidelines-2017-final.pdf and is subject to the following exceptions:

01. Excess Continuing Education. A licensee may carry forward up to thirty (30) hours of excess continuing education per renewal period. (7-1-21)

02. Professional Society Membership. Membership in a professional society will count as one (1) PDH per year, for a maximum of two (2) PDH per profession per year. (7-1-21)

202. – 299. (RESERVED)

SUBCHAPTER D – RULES FOR CORNER PERPETUATION AND FILING
(Rules 300 through 399)

300. FORM.
The form to be used in filing corner perpetuations in the state of Idaho shall be substantially the same as that form available from the Idaho Board of Licensure of Professional Engineers and Professional Land Surveyors, 1510 E. Watertower St., Ste. 110, Meridian, ID 83642-7993. Clear spaces on the form may be provided as requested and required by County Recorders in order to place recording information in an unobstructed area. The form is not available in quantity from the Board, but one (1) copy will be furnished, upon request, and it may be duplicated or reproduced. (7-1-21)

301. COMPLETION OF FORM.
Prior to filing of the form, the professional land surveyor performing the work shall complete the form in compliance with the requirements set forth in these rules. Additional information, for example latitude and longitude, with datum used, may be included. (7-1-21)

302. CONTENTS ON THE FORM.
The contents on the form must contain the following:

01. Record of Original Corner and Subsequent History. Information provided in this section includes the name of the original surveyor and the date or dates on which the original survey was performed and a description of the original monument set. The information also includes the history of subsequent remonumentation, including the name(s) of the surveyor(s), the agency or company they represented, the date(s) of the survey(s) and a description of all monuments found or set, including all monuments and accessories that are not shown on previously recorded corner records. Information provided in this section also includes the instrument numbers of all previously recorded corner records, or the filing information if the corner record was not recorded, pertaining to the corner in question.

02. Description of Corner Evidence Found. Information provided in this section includes a description of any evidence found relating to the original corner. If no evidence of the original corner is found, evidence of a subsequent remonumentation shall be indicated on the form.

03. Description and Sketch of Monument and Accessories Found or Established to Perpetuate the Location of this Corner. Information provided in this section includes a description and a sketch of the monument and accessories found or placed in the current survey as well as the date the work was performed and the true or assumed magnetic declination at the time of the survey if magnetic bearings are used. If magnetic bearings are not used, the professional land surveyor shall indicate the basis of bearing to accessories.

04. Surveyor's Certificate. Include a print of the surveyor’s name, the license number issued by the Board, and the name of the employer for whom the surveyor is working.

05. Seal, Signature, Date. Include an imprint of the surveyor’s professional land surveyor seal, which is signed and dated by the surveyor.

06. Marks on Monument Found or Set. Include a sketch or legible image of the marks found or placed on the monument, if applicable.

07. Diagram. Include clear marks on the section diagram the location of the monument found or being established or reestablished in the survey.

08. Location. State the county, section, township, range and the monument location being established or reestablished or found in the survey.

303. -- 399. (RESERVED)

SUBCHAPTER E – RULES FOR COORDINATE SYSTEM OF LAND DESCRIPTION
(Rules 400 through 499)

400. STATE PLANE COORDINATES.

401. – 999. (RESERVED)
24.33.01 – RULES OF THE BOARD OF MEDICINE FOR THE LICENSURE TO PRACTICE MEDICINE AND OSTEOPATHIC MEDICINE IN IDAHO

000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Sections 6-1002, 54-1806(2), 54-1806(4), 54-1806(11), 54-1806A, 54-1807, 54-1812, 54-1813, 54-1814 and 54-1841, Idaho Code. (7-1-21)

001. SCOPE.
The rules govern the licensure to practice medicine and osteopathic medicine in Idaho. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Acceptable International School of Medicine. An international medical school located outside the United States or Canada that meets the standards for medical educational facilities set forth in Subsection 051.02 and is accredited by the ECFMG. (7-1-21)

02. Medical Practice Act. Title 54, Chapter 18, Idaho Code. (7-1-21)

011. ABBREVIATIONS.

01. ACGME. Accreditation Council for Graduate Medical Education. (7-1-21)

02. AOA. American Osteopathic Association. (7-1-21)

03. COCA. Commission on Osteopathic College Accreditation. (7-1-21)

04. ECFMG. Educational Commission for Foreign Medical Graduates. (7-1-21)

05. FAIMER. Foundation for Advancement of International Medical Education. (7-1-21)

06. FSMB. Federation of State Medical Boards. (7-1-21)

07. LCME. Liaison Committee on Medical Education. (7-1-21)

08. USMLE. United States Medical Licensing Exam. (7-1-21)

09. WFME. World Federation for Medical Education. (7-1-21)

012. -- 049. (RESERVED)

050. GENERAL QUALIFICATIONS FOR LICENSURE AND RENEWAL.
Requirements for licensure and renewal are found in Title 54, Chapter 18, Idaho Code, IDAPA 24.33.03, and on Board approved forms. (7-1-21)

01. Additional Circumstances. The Board may require further inquiry when in its judgment the need is apparent as outlined in Board policy. (7-1-21)

02. Special Purpose Examination. Upon inquiry, if further examination is required, the Board may require passage of the Special Purpose Examination (SPEX) administered by the FSMB, a post licensure assessment conducted by the FSMB, or an evaluation by an independent agency accepted by the Board to evaluate physician competence. (7-1-21)

03. Board Determinations. Where the Board deems necessary, it may limit, condition, or restrict a newly issued license based on the Board’s determination and the recommendation of the assessment or evaluation. (7-1-21)

051. LICENSURE FOR GRADUATES OF INTERNATIONAL MEDICAL SCHOOLS LOCATED OUTSIDE OF THE UNITED STATES AND CANADA.

01. International Medical Graduate. In addition to meeting the requirements of Section 050, graduates of international medical schools located outside of the United States and Canada must submit to the Board:
a. Original certificate from the ECFMG or original documentation that the applicant has passed the examination either administered or recognized by the ECFMG and passed an examination acceptable to the Board that demonstrates qualification for licensure or successfully completed the USMLE;

b. Original documentation directly from the international medical school that establishes to the satisfaction of the Board that the international medical school meets the standards for medical educational facilities set forth in Subsection 051.02;

c. A transcript from the international medical school showing successful completion of all the courses taken and grades received and original documentation of successful completion of all clinical coursework; and

d. Original documentation of successful completion of two (2) years of progressive postgraduate training at one (1) training program accredited for internship, residency, or fellowship training by the ACGME, AOA or the Royal College of Physicians and Surgeons of Canada or its successor organization, provided however, a resident who is attending an Idaho based residency program may be licensed after successful completion of one (1) years of progressive post graduate training, if the following conditions are met:

i. Written approval of the residency program director;

ii. Signed written contract with the Idaho residency program to complete the entire residency program;

iii. Remained in good standing at the Idaho-based residency program;

iv. Notified the Board within thirty (30) days if there is a change in circumstances or affiliation with the program; and

v. Received a MD or DO degree from an approved school that is eligible for Idaho licensure after graduation.

02. International Medical School Requirements. An international medical school must be listed in the World Directory of Medical Schools, a joint venture of WFME and FAIMER. Graduates of schools not listed in WFME or FAIMER must submit to the Board original documentation of three (3) of the four (4) requirements listed below:

a. A valid ECFMG Certificate.

b. Successful completion of three (3) years of progressive post graduate training at one (1) training program accredited for internship, residency or fellowship training in an ACGME or AOA or Royal College of Physicians and Surgeons of Canada or its successor organization’s approved program.

c. Current board certification by a specialty board approved by the American Board of Medical Specialties or the AOA.

d. Evidence of five (5) years of unrestricted practice as a licensee of any United States or Canadian jurisdiction.

052. -- 078. (RESERVED)

079. CONTINUING MEDICAL EDUCATION (CME) REQUIRED.

01. Renewal. Each person licensed to practice medicine and surgery or osteopathic medicine or surgery in Idaho shall complete no less than forty (40) hours of practice relevant, Category 1, CME every two (2) years.
02. **Verification of Compliance.** Licensees will, at license renewal, provide an attestation to the Board indicating compliance. The Board, in its discretion, may require such additional evidence as is necessary to verify compliance. (7-1-21)

03. **Alternate Compliance.** The Board may accept certification or recertification by a member of the American Board of Medical Specialties, the AOA, or the Royal College of Physicians and Surgeons of Canada or its successor organization in lieu of compliance with continuing education requirements during the cycle in which the certification or recertification is granted. The Board may also grant an exemption for full time participation in a residency or fellowship training at a professionally accredited institution. (7-1-21)

04. **Penalties for Noncompliance.** The Board may condition, limit, suspend, or refuse to renew the license of any person whom the Board determines has failed to comply with the continuing education requirements of this chapter. (7-1-21)

080. **PHYSICIAN PANELIST FOR PRELITIGATION CONSIDERATION OF MEDICAL MALPRACTICE CLAIMS.**

01. **Eligibility.** A physician licensed to practice medicine or osteopathic medicine in Idaho must be available to serve in any two (2) year period, or a longer period not to exceed five (5) years, as determined by the panel chairman, as a physician panelist for prelitigation consideration of a medical malpractice claim. (7-1-21)

02. **Excusing Physicians from Serving.** A physician panelist so selected must serve unless he had served on a prelitigation panel during any previous two (2) year period, or a longer period not to exceed five (5) years, as determined by the panel chairman or for good cause shown, is excused by the panel chairman. To show good cause for relief from serving, the selected physician panelist must present an affidavit to the panel chairman which shall set out the facts showing that service would constitute an unreasonable burden or undue hardship. The panel chairman has the sole authority to excuse a selected physician from serving on a prelitigation panel. (7-1-21)

03. **Penalties for Noncompliance.** The Board may condition, limit, suspend, or refuse to renew the license of any physician whom the Board determines has failed to serve as a physician panelist for the prelitigation consideration of a medical malpractice claim. (7-1-21)

081. -- 099. (RESERVED)

02. Administrative Fees for Services. Administrative fees for services shall be billed on the basis of time and cost.  

151. DEFINITIONS RELATING TO SUPERVISING AND DIRECTING PHYSICIANS.  

01. Athletic Trainer. A person who has met the qualifications for licensure as set forth in Title 54, Chapter 39, Idaho Code, is licensed under that chapter, and carries out the practice of athletic training under the direction of a designated Idaho licensed physician, registered with the Board.  

02. Directing Physician. A designated Idaho licensed physician, registered with the Board pursuant to this chapter and Title 54, Chapter 39, Idaho Code, who oversees the practice of athletic training and is responsible for the athletic training services provided by the athletic trainer. This chapter does not authorize the practice of medicine or any of its branches by a person not so licensed by the Board.  

03. Medical Personnel. An individual who provides cosmetic treatments using prescriptive medical/cosmetic devices and products that are exclusively non-incisive or non-ablative under the direction and supervision of a supervising physician registered with the Board, pursuant to the applicable Idaho statutes and the applicable rules promulgated by the Board.  

04. Supervising Physician of Interns or Residents. Any person approved by and registered with the Board who is licensed to practice medicine and surgery or osteopathic medicine and surgery in Idaho, who signs the application for registration of an intern or resident, and who is responsible for the direction and supervision of their activities.  

05. Supervising Physician of Medical Personnel. An Idaho licensed physician who is registered with the Board pursuant to this chapter, who supervises and has full responsibility for cosmetic treatments using prescriptive medical/cosmetic devices and products provided by medical personnel.  

152. – 160. (RESERVED)  

161. DUTIES OF DIRECTING PHYSICIANS.  

01. Responsibilities. The directing physician accepts full responsibility for the acts and athletic training services provided by the athletic trainer and oversees the practice of athletic training of the athletic trainer, and for the supervision of such acts which include, but are not limited to:  

a. An on-site visit at least semiannually to personally observe the quality of athletic training services provided; and  

b. Recording of a periodic review of a representative sample of the records, including, but not limited to, records made from the past six (6) months of the review to evaluate the athletic training services that were provided.  

02. Scope of Practice. The directing physician must ensure the scope of practice of the athletic trainer, as set forth in IDAPA 24.33.05, and Section 54-3903, Idaho Code, will be limited to and consistent with the scope of practice of the directing physician and exclude any independent practice of athletic training by an athletic trainer.  

03. Directing Responsibility. The responsibilities and duties of a directing physician may not be transferred to a business entity, professional corporation, or partnership, nor may they be assigned to another physician without prior notification and Board approval.  

04. Available Supervision. The directing physician will oversee the activities of the athletic trainer...
and must be available either in person or by telephone to supervise, direct, and counsel the athletic trainer. The scope and nature of the direction of the athletic trainer will be outlined in an athletic training service plan or protocol, as set forth in IDAPA 24.33.05. (7-1-21)

05. Disclosure. It is the responsibility of each directing physician to ensure that each athlete who receives athletic training services is aware of the fact that said person is not a licensed physician. (7-1-21)

162. DUTIES OF COLLABORATING PHYSICIANS.

01. Responsibilities. A collaborating physician is responsible for complying with the requirements set forth in Title 54, Chapter 18 and IDAPA 24.33.02 when collaborating and consulting in the medical services provided by any physician assistant or graduate physician assistant either through a collaborative practice agreement or through the facility bylaws or procedures of any facility with credentialing and privileging systems. (7-1-21)

163. DUTIES OF SUPERVISING PHYSICIANS OF INTERNS AND RESIDENTS.

01. Responsibilities. The supervising physician is responsible for the direction and supervision of the medical acts and patient services provided by an intern or resident. The direction and supervision of such activities include, but are not limited to:

a. Synchronous direct communication at least monthly with intern or resident to ensure the quality of care provided; (7-1-21)

b. Recording of a periodic review of a representative sample of medical records to evaluate the medical services that are provided; and (7-1-21)

c. Regularly scheduled conferences between the supervising physician and the intern or resident. (7-1-21)

02. Available Supervision. The supervising physician will oversee the activities of the intern or resident, and must always be available either in person or by telephone to supervise, direct and counsel the intern or resident. (7-1-21)

03. Disclosure. It is the responsibility of each supervising physician to ensure that each patient who receives the services of an intern or resident is notified of the fact that said person is not a licensed physician. (7-1-21)

164. SUPERVISING PHYSICIANS OF MEDICAL PERSONNEL.

The “practice of medicine” as defined in Section 54-1803(1), Idaho Code, includes the performance of cosmetic treatments using prescriptive medical/cosmetic devices and products which penetrate and alter human tissue. Such cosmetic treatments can result in complications such as visual impairment, blindness, inflammation, burns, scarring, hypopigmentation, and hyperpigmentation and, therefore, can only be performed as set forth herein. This chapter does not authorize the practice of medicine or any of its branches by a person not so licensed by the Board.(7-1-21)

01. Definitions. (7-1-21)

a. Ablative. Ablative is the separation, eradication, removal, or destruction of human tissue. (7-1-21)

b. Incisive. Incisive is the power and quality of cutting of human tissue. (7-1-21)

c. Cosmetic Treatment. An aesthetic treatment prescribed by a physician for a patient that uses prescriptive medical/cosmetic devices and/or products to penetrate or alter human tissue. (7-1-21)

d. Prescriptive Medical/Cosmetic Device. A federal food and drug administration approved prescriptive device that uses waveform energy including, but not limited to, intense pulsed light or lasers, to cosmetically alter human tissue. (7-1-21)
e. Prescriptive Medical/Cosmetic Product. A federal food and drug administration approved prescriptive product whose primary intended use of the product is achieved through chemical action and cosmetically alters human tissue including, but not limited to, filler substances such as collagen or fat; lipo transfer; muscle immobilizers or sclerosing agents. (7-1-21)

02. Duties and Responsibilities of Supervising Physicians. The supervising physician accepts full responsibility for cosmetic treatments provided by medical personnel and for the supervision of such treatments. The supervising physician must be trained in the safety and use of prescriptive medical/cosmetic devices and products. (7-1-21)

a. Patient Record. The supervising physician must document an adequate legible patient record of his evaluation, assessment and plan for the patient prior to the initial cosmetic treatment. (7-1-21)

b. Supervisory Responsibility. A supervising physician of medical personnel may not supervise more than three (3) such medical personnel contemporaneously. The Board, however, may authorize a supervising physician to supervise a total of six (6) such medical personnel contemporaneously if necessary to provide adequate cosmetic treatments and upon prior petition documenting adequate safeguards to protect the public health and safety. (7-1-21)

c. Available Supervision. The supervising physician will be on-site or immediately available to respond promptly to any questions or problems that may occur while a cosmetic treatment is being performed by medical personnel. Such supervision includes, but is not limited to:

i. Periodic review of the medical records to evaluate the prescribed cosmetic treatments that are provided by such medical personnel including any adverse outcomes or changes in the treatment protocol; and (7-1-21)

ii. Regularly scheduled conferences between the supervising physician and such medical personnel. (7-1-21)

d. Scope of Cosmetic Treatments. Cosmetic treatments can only be performed by a physician or by medical personnel under the supervision of a physician. Medical personnel providing cosmetic treatments are limited to using prescriptive medical/cosmetic devices and products that are exclusively non-incisive and non-ablative. The supervising physician will ensure cosmetic treatments provided by medical personnel are limited to and consistent with the scope of practice of the supervising physician. The supervising physician will ensure that, with respect to each procedure performed, the medical personnel possess the proper training in cutaneous medicine, the indications for the prescribed treatment, and the pre- and post-procedure care involved. (7-1-21)

e. Verification Training. The supervising physician will verify the training of medical personnel upon the board-approved Medical Personnel Supervising Physician Registration form. The Medical Personnel Supervising Physician Registration Form will be maintained on file at each practice location and at the address of record of the supervising physician. (7-1-21)

f. Disclosure. It is the responsibility of each supervising physician to ensure that every patient receiving a cosmetic treatment is advised of the education and training of the medical personnel rendering the treatment and that such medical personnel are not licensed physicians. (7-1-21)

g. Patient Complaints. The supervising physician will report to the Board of Medicine all patient complaints received against medical personnel that relate to the quality and nature of cosmetic treatments rendered. (7-1-21)

h. Duties and Responsibilities Nontransferable. The responsibilities and duties of a supervising physician may not be transferred to a business entity, professional corporation, or partnership, nor may they be assigned to another physician or person. (7-1-21)

165. -- 241. (RESERVED)
242. DEFINITIONS RELATED TO INTERNS AND RESIDENTS.

01. **Acceptable Training Program.** A medical training program or course of medical study that has been approved by the LCME, Council on Medical Education or COCA of the AOA. (7-1-21)T

02. **Acceptable Post Graduate Training Program.** A post graduate medical training program or course of medical study that has been approved by the ACGME or AOA. (7-1-21)T

243. RESIDENT AND INTERN REGISTRATION.

01. **Registration Certificate.** Upon approval of the registration application, the Board may issue a registration certificate that sets forth the period during which the registrant may engage in activities that may involve the practice of medicine. Each registration will be issued for a period of not less than one (1) year and will set forth its expiration date on the face of the certificate. Each registration will identify the supervising physician. Each registrant will notify the Board in writing of any change of the supervising physician or the program or course of study fourteen (14) days prior to any such change. If the Board deems the intern or resident qualified, and if the course study requires, the Board may additionally certify on the registration certificate that the intern or resident is qualified to write prescriptions for Class III through Class V scheduled medications. (7-1-21)T

02. **Termination of Registration.** The registration of an intern or resident may be terminated, suspended, or made conditional by the Board on the grounds set forth in Section 54-1814, Idaho Code, and under the procedures set forth in Section 54-1806A, Idaho Code. (7-1-21)T

03. **Annual Renewal of Registration.** Each registration must be renewed annually prior to its expiration date. Any registration not renewed by its expiration date will be canceled. (7-1-21)T

04. **Notification of Change.** Each registrant must notify the Board in writing of any adverse action or termination, whatever the outcome, from any post graduate training program and any name changes within fourteen (14) days of such event. (7-1-21)T

05. **Disclosure.** It is the responsibility of each registrant to ensure that every patient is aware of the fact that such intern and resident is currently enrolled in a post graduate training program and under the supervision of a licensed physician. (7-1-21)T

244. FEES - TABLE.

245. -- 999. (RESERVED)
24.33.02 – RULES FOR THE LICENSURE OF PHYSICIAN ASSISTANTS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-1806, Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of physician assistants and graduate physician assistants. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Approved Program. A course of study for the education and training of physician assistants that is accredited by the Accreditation Review Commission on Education for Physician Assistants (ARC-PA) or predecessor agency or equivalent agency recognized by the Board as recommended by the Committee. (7-1-21)T

011. -- 019. (RESERVED)

020. REQUIREMENTS FOR LICENSURE.
Requirements for licensure and renewal are found in Title 54, Chapter 18, Idaho Code, IDAPA 24.33.03, and on Board-approved forms. (7-1-21)T

021. -- 027. (RESERVED)

028. SCOPE OF PRACTICE.

01. Scope. The scope of practice of physician assistants and graduate physician assistants includes only those duties and responsibilities identified in a collaborative practice agreement or the facility bylaws or procedures of any facility with credentialing and privileging systems. (7-1-21)T

02. Collaborative Practice Agreement. A collaborative practice agreement will comply with Title 54, Chapter 18, Idaho Code and will contain the following elements:

   a. The parties to the agreement; (7-1-21)T

   b. The authorized scope of practice for each licensed physician assistant or graduate physician assistant; (7-1-21)T

   c. A requirement that the physician assistant or graduate physician assistant must collaborate with, consult with, or refer to the collaborating physician or another appropriate physician as indicated by: the condition of the patient; the education, experience and competence of the physician assistant or graduate physician assistant; and the community standard of care; and (7-1-21)T

   d. If necessary, any monitoring parameters. (7-1-21)T

03. Advertise. No physician assistant or graduate physician assistant may advertise or represent himself either directly or indirectly, as a physician. (7-1-21)T

04. Emergency or Disaster Care. A collaborative practice agreement is not necessary for a licensed physician assistant or graduate physician assistant to render medical services to an ill or injured person at the scene of an emergency or disaster (not to be defined as an emergency situation which occurs in the place of one’s employment) and while continuing to care for such person. (7-1-21)T

029. CONTINUING EDUCATION REQUIREMENTS.
Requirements for Renewal. Prior to renewal of each license as set forth by the expiration date on the face of the certificate, physician assistants shall attest to maintenance of certification by the National Commission on Certification of Physician Assistants or similar certifying agency approved by the Board, which certification requires a minimum of one hundred (100) hours of continuing medical education over a two-year (2) period. (7-1-21)T

030. -- 035. (RESERVED)

036. GRADUATE PHYSICIAN ASSISTANT.
01. **Licensure Prior to Certification Examination -- Board Consideration.** Any person who has graduated from an approved physician assistant training program and meets all Idaho requirements, including achieving a college baccalaureate degree, but has not yet taken and passed the certification examination, may be considered by the Board for licensure as a graduate physician assistant for six (6) months when an application for licensure as a graduate physician assistant has been submitted to the Board on forms supplied by the Board and payment of the prescribed fee, provided:

a. The applicant will submit to the Board, within ten (10) business days of receipt, a copy of acknowledgment of sitting for the national certification examination. The applicant will submit to the Board, within ten (10) business days of receipt, a copy of the national certification examination results.

b. After the graduate physician assistant has passed the certification examination, the Board will receive verification of national certification directly from the certifying entity. Once the verification is received by the Board, the graduate physician assistant’s license will be converted to a permanent license and he may apply for prescribing authority.

c. The applicant who has failed the certification examination one (1) time, may petition the Board for a one-time extension of his graduate physician assistant license for an additional six (6) months.

d. If the graduate physician assistant fails to pass the certifying examination on two (2) separate occasions, the graduate physician assistant’s license will automatically be canceled upon receipt of the second failing certification examination score.

e. The graduate physician assistant applicant will agree to execute an authorization for the release of information, attached to his application as Exhibit A, authorizing the Board or its designated agents, having information relevant to the application, including but not limited to the status of the certification examination, to release such information, as necessary, to his supervising physician.

02. **Licensure Prior to College Baccalaureate Degree -- Board Consideration.** Licensure as a graduate physician assistant may also be considered upon application made to the Board on forms supplied by the Board and payment of the prescribed fee when all application requirements have been met as set forth in Section 020 of these rules, except receipt of documentation of a college baccalaureate degree, provided:

a. A college baccalaureate degree from a nationally accredited school with a curriculum approved by the United States Secretary of Education, the Council for Higher Education Accreditation, or both, or from a school accredited by another such agency approved by the Board shall be completed within five (5) years of initial licensure in Idaho;

03. **No Prescribing Authority.** Graduate physician assistants shall not be entitled to issue any written or oral prescriptions unless granted an exemption by the Board. Application for an exemption must be in writing and accompany documentation of a minimum of five (5) years of recent practice as a physician assistant in another state.

037. -- 050. (RESERVED)

(7-1-21)T

052. -- 999. (RESERVED)
24.33.04 – RULES FOR THE LICENSURE OF NATUROPATHIC MEDICAL DOCTORS

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Section 54-5105(2), Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the licensure, scope of practice, and discipline of the Naturopathic Medical Doctors in Idaho. (7-1-21)T

002. – 009. (RESERVED)

010. DEFINITIONS.

01. Council on Naturopathic Medical Education (CNME). The accrediting organization that is recognized by the United States Department of Education as the accrediting agency for education programs that prepare naturopathic medical doctors. (7-1-21)T

02. North American Board of Naturopathic Examiners (NABNE). The independent, nonprofit organization that qualifies applicants to take the Naturopathic Physicians Licensing Exam and submits those results to the regulatory authority. (7-1-21)T

03. Naturopathic Physicians Licensing Exam (NPLEX). The board examination for naturopathic medical doctors. (7-1-21)T

04. Naturopathic Medical Doctor. A person who meets the definition in Section 54-5101(5), Idaho Code. Licensed naturopathic physician, physician of naturopathic medicine, naturopathic medical doctor and NMD are interchangeable terms. (7-1-21)T

05. Primary Care. Comprehensive first contact and/or continuing care for persons with any sign, symptom, or health concern not limited by problem of origin, organ system, or diagnosis. It includes health promotion, disease prevention, health maintenance, counseling, patient education, diagnosis and treatment of acute and chronic illness. It includes collaborating with other health professionals and utilizing consultation or referral as appropriate. (7-1-21)T

011. – 020. (RESERVED)

021. APPLICATION FOR LICENSURE.

01. Application. Each applicant for licensure will submit a completed written application to the Board on forms prescribed by the Board, together with the nonrefundable application fee. (7-1-21)T

02. Licensing Examinations. Each applicant must provide certification of passing the following four (4) NPLEX exams: (7-1-21)T
   a. Part I Biomedical Science; (7-1-21)T
   b. Part II Core Clinical Science; (7-1-21)T
   c. Part II Clinical Elective Minor Surgery; and (7-1-21)T
   d. Part II Clinical Elective Pharmacology. (7-1-21)T

022. AUTHORITY TO PRESCRIBE, DISPENSE, ADMINISTER, AND ORDER.
Naturopathic medical doctors are allowed to prescribe, dispense, administer, and order the following: (7-1-21)T

01. Laboratory and Diagnostic Procedures. Naturopathic medical doctors licensed under this chapter may perform and order physical examinations, laboratory tests, imaging, and other diagnostic tests consistent with primary care. (7-1-21)T
   a. All examinations, laboratory, and imaging tests not consistent with primary care must be referred to an appropriately licensed health care professional for treatment and interpretation. (7-1-21)T
   b. Any test result or lesion suspicious of malignancy must be referred to the appropriate physician
licensed pursuant to Chapter 18, Title 54 Idaho Code.

02 Naturopathic Formulary. The formulary for naturopathic medical doctors licensed under this chapter consists of non-controlled legend medications (excluding testosterone) deemed appropriate for the primary health care of patients within the scope of practice and training of each naturopathic medical doctor. Prescribing pursuant to the Naturopathic Formulary shall be according to the standard of health care provided by other qualified naturopathic medical doctors in the same community or similar communities, taking into account their training, experience and the degree of expertise to which they hold themselves out to the public.

03. Formulary Exclusions. The naturopathic formulary does not include:

a. Scheduled, controlled drugs, except for testosterone used in physiologic doses with regular lab assessment for hormone replacement therapy, gender dysphoria, or hypogonadism;

b. General anesthetics;

c. Blood derivatives except for platelet rich plasma; or

d. Systemic antineoplastic agents, except for the following antineoplastic agents used orally or topically for non-cancer purposes:

i. Fluorouracil (5FU);

ii. Anastrozole; and

iii. Letrozole.

023. – 031. (RESERVED)

032. GROUNDS FOR DISCIPLINE OR DENIAL OF A LICENSE.
In addition to statutory grounds for discipline set forth in Section 54-5109, Idaho Code, every person licensed as a naturopathic medical doctor is subject to discipline by the Board under the following grounds:

01. Ability to Practice. Demonstrating a manifest incapacity to carry out the functions of the licensee’s ability to practice naturopathic medicine or deemed unfit by the Board to practice naturopathic medicine;

02. Controlled Substance or Alcohol Abuse. Using any controlled substance or alcohol in a manner which has or may have a direct and adverse bearing on the licensee’s ability to practice naturopathic medicine with reasonable skill and safety;

03. Education or Experience. Misrepresenting educational or experience attainments;

04. Medical Records. Failing to maintain adequate naturopathic medical records. Adequate naturopathic medical records mean legible records that contain subjective information, an evaluation or report of objective findings, assessment or diagnosis, and the plan of care;

05. Untrained Practice. Practicing in an area of naturopathic medicine for which the licensee is not trained;

06. Sexual Misconduct. Committing any act of sexual contact, misconduct, exploitation, or intercourse with a patient or former patient or related to the licensee's practice of naturopathic medicine;

a. Consent of the patient shall not be a defense.

b. Subsection 032.06 does not apply to sexual contact between a naturopathic medical doctor and the naturopathic medical doctor’s spouse or a person in a domestic relationship who is also a patient.
c. A former patient includes a patient for whom the naturopathic medical doctor has provided naturopathic medical services within the last twelve (12) months. Sexual or romantic relationships with former patients beyond that period of time may also be a violation if the naturopathic medical doctor uses or exploits the trust, knowledge, emotions, or influence derived from the prior professional relationship with the patient. (7-1-21)

07. Failure to Report. Failing to report to the Board any known act or omission of a licensee, applicant, or any other person, that violates any of the rules promulgated by the Board under the authority of the act; (7-1-21)

08. Interfering with or Influencing Disciplinary Outcome. Interfering with an investigation or disciplinary proceeding by willful misrepresentation of facts or by use of threats or harassment against any patient, Board or naturopathic medical board, Board staff, hearing officer, or witness in an attempt to influence the outcome of a disciplinary proceeding, investigation or other legal action; (7-1-21)

09. Failure to Obey Laws and Rules. Failing to obey federal and local laws and rules governing the practice of naturopathic medicine. (7-1-21)

033. CONTINUING MEDICAL EDUCATION (CME) REQUIREMENTS.

01. Renewal. Every two (2) years, a total of forty-eight (48) hours (twenty (20) of which is pharmacology) of Board-approved CME is required as part of the naturopathic medical doctor’s license renewal. (7-1-21)

02. Verification of Compliance. Licensees must, at license renewal, provide a signed statement to the Board indicating compliance. The Board, in its discretion, may require such additional evidence as it deems necessary to verify compliance. (7-1-21)

24.33.05 – RULES FOR THE LICENSURE OF ATHLETIC TRAINERS TO PRACTICE IN IDAHO

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to Sections 54-3907 and 54-3913(2), Idaho Code. (7-1-21)T

001. SCOPE.
These rules govern the practice of athletic training in Idaho. (7-1-21)T

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Actively Engaged. A person who is employed in Idaho on a remuneration basis by an educational or health care institution, professional, amateur, or recreational sports club, or other bona fide athletic organization and is involved in athletic training as a responsibility of his employment. (7-1-21)T

02. Association. The Idaho Athletic Trainers’ Association. (7-1-21)T

03. Athletic Training Service Plan or Protocol. A written document, made upon a form provided by the Board, mutually agreed upon, signed and dated by the athletic trainer and directing physician that defines the athletic training services to be provided by the athletic trainer. The Board may review athletic training service plans or protocols, job descriptions, policy statements, or other documents that define the responsibilities of the athletic trainer in the practice setting, and may require such changes as needed to achieve compliance with this chapter and Title 54, Chapter 39, Idaho Code, and to safeguard the public. The Board of Chiropractic Physicians may review those athletic training service plans or protocols or other documents that define the responsibilities of the athletic trainer for those athletic trainers whose directing physicians are chiropractic physicians. (7-1-21)T

011. SCOPE OF PRACTICE.

01. Referral by Directing Physician. An athletic injury not incurred in association with an educational institution, professional, amateur, or recreational sports club or organization must be referred by a directing physician, but only after such directing physician has first evaluated the athlete. An athletic trainer treating or evaluating an athlete with an athletic injury incurred in association with an amateur or recreational sports club or organization will especially consider the need for a directing physician to subsequently evaluate the athlete and refer for further athletic training services. (7-1-21)T

02. Limitations of Scope of Practice. The scope of practice of the athletic trainer, as set forth in this chapter and Section 54-3903, Idaho Code, shall be limited to and consistent with the scope of practice of his directing physician. (7-1-21)T

03. Identification. The athletic trainer will at all times when on duty identify himself as an athletic trainer. (7-1-21)T

012. ATHLETIC TRAINING SERVICE PLAN OR PROTOCOL.
Each licensed athletic trainer providing athletic training services will create, upon a form provided by the Board, an athletic training service plan or protocol with his directing physician. This athletic training service plan or protocol must be reviewed and updated on an annual basis. Each licensed athletic trainer must notify the Board within thirty (30) days of any change in the status of his directing physician. This plan or protocol will not be sent to the Board, but must be maintained on file at each location in which the athletic trainer is practicing. The Board may review athletic training service plans or protocols, job descriptions, policy statements, or other documents that define the responsibilities of the athletic trainer in the practice setting, and may require such changes as needed to achieve compliance with this chapter, Title 54, Chapter 39, Idaho Code, and to safeguard the public. This plan or protocol will be made immediately available to the Board upon request. This plan or protocol will be made immediately available to the Board of Chiropractic Physicians upon request for those athletic trainers whose directing physicians are chiropractic physicians. This plan or protocol will include:

01. Listing of Services and Activities. A listing of the athletic training services to be provided and specific activities to be performed by the athletic trainer. (7-1-21)T

02. Locations and Facilities. The specific locations and facilities in which the athletic trainer will function; and (7-1-21)T

03. Methods to be Used. The methods to be used to ensure responsible direction and control of the
activities of the athletic trainer, which will provide for the:

a. Recording of an on-site visit by the directing physician at least semiannually or every semester;

b. Availability of the directing physician to the athletic trainer in person or by telephone and procedures for providing direction for the athletic trainer in emergency situations; and

c. Procedures for addressing situations outside the scope of practice of the athletic trainer.

013. -- 019. (RESERVED)

020. GENERAL QUALIFICATIONS FOR LICENSURE AND RENEWAL.
Requirements for licensure and renewal are found in Title 54, Chapter 39, Idaho Code, IDAPA 24.33.03, and on Board-approved forms.

021. -- 029. (RESERVED)

030. APPLICATION FOR LICENSURE.

01. Application for Provisional Licensure.

a. The Board, based upon the recommendation of the Board of Athletic Trainers, may issue provisional licensure to applicants who have successfully completed a bachelor's or advanced degree from an accredited four (4) year college or university, and met the minimum athletic training curriculum requirement established by the Board as recommended by the Board of Athletic Trainers and who have met all the other requirements set forth by Section 020 of these rules but who have not yet passed the examination conducted by the National Athletic Trainers' Association Board of Certification or a nationally recognized credentialing agency, approved by the Board as recommended by the Board of Athletic Trainers.

b. Each applicant for provisional licensure will submit a completed written application to the Board on forms prescribed by the Board, together with the application fee. The application shall be verified, under oath, and include an affidavit signed by an Idaho licensed athletic trainer affirming and attesting to supervise and be responsible for the athletic training services of the provisionally licensed athletic trainer and to review and countersign all records and documentation of services performed by the provisionally licensed athletic trainer.

ii. Supervision. A provisionally licensed graduate athletic trainer must be in direct association with his directing physician and Idaho licensed athletic trainer who will supervise and be available to render direction in person and on the premises where the athletic training services are being provided. The directing physician and the supervising athletic trainer is responsible for the athletic training services provided by the provisionally licensed graduate athletic trainer. The extent of communication between the directing physician and supervising athletic trainer and the provisionally licensed athletic trainer is determined by the competency of the provisionally licensed athletic trainer and the practice setting and the type of athletic training services being rendered.

c. Scope of Practice. The scope of practice of the provisionally licensed athletic trainer, as set forth in this chapter and Section 54-3903, Idaho Code, is limited to and consistent with the scope of practice of his directing physician and supervising athletic trainer and conform with the established athletic training service plan or protocol.

d. Expiration of Provisional License. All provisional licenses for athletic trainers will expire upon meeting the minimum athletic training curriculum requirement established by the Board as recommended by the Board of Athletic Trainers and meeting all the other requirements set forth by Section 020 of these rules, including passing the certification examination conducted by the National Athletic Trainers' Association Board of Certification or a nationally recognized credentialing agency, approved by the Board as recommended by the Board of Athletic Trainers.
031. -- 051. (RESERVED)

052. DENIAL OR REFUSAL TO RENEW LICENSURE OR SUSPENSION OR REVOCATION OF LICENSURE.

01. Application or Renewal Denial. A new or renewal application for licensure may be denied by the Board and shall be considered a contested case. Every person licensed pursuant to Title 54, Chapter 39, Idaho Code and these rules is subject to discipline pursuant to the procedures and powers established by and set forth in Section 54-3911, Idaho Code, and the Idaho Administrative Procedure Act. (7-1-21)

02. Petitions for Reconsideration of Denial. All petitions for reconsideration of a denial of a license application or reinstatement application shall be made to the Board within one (1) year from the date of the denial. (7-1-21)

053. -- 060. (RESERVED)

061. FEES -- TABLE.

(7-1-21)

062. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The rules are promulgated pursuant to Sections 54-4305, 54-4310, and 54-4311, Idaho Code. (7-1-21)

001. SCOPE.
The rules govern the practice of respiratory care and polysomnography related to respiratory care. (7-1-21)

002. -- 009. (RESERVED)

010. DEFINITIONS.

01. Board of Registered Polysomnographic Technologists. A nationally recognized private testing, examining and credentialing body for the polysomnography related respiratory care profession. (7-1-21)

02. Comprehensive Registry Exam. The comprehensive registry examination administered by the Board of Registered Polysomnographic Technologists, or administered by an equivalent board, recognized by the Board, the successful completion of which entitles a person to the professional designation of Registered Polysomnographic Technologist (RPSGT). (7-1-21)

03. Written Registry and Clinical Simulation Examinations. The certification examinations administered by the National Board of Respiratory Care, Inc., or certification examinations administered by an equivalent board, recognized by the Board, the successful completion of which entitles a person the professional designation of “Registered Respiratory Therapist” (RRT). (7-1-21)

011. -- 030. (RESERVED)

031. GENERAL QUALIFICATIONS FOR LICENSURE AND RENEWAL.
Requirements for licensure and renewal are found in Title 54, Chapter 43, Idaho Code, IDAPA 24.33.03, and on Board-approved forms. (7-1-21)

01. Application for Respiratory Care and Polysomnography Related Respiratory Care Practitioner. (7-1-21)

a. The Board may issue a dual license/permit to an applicant who meets the requirements set forth in this chapter and Sections 54-4308 and 54-4307(2) and (3), Idaho Code. A dual license/permit shall authorize the holder to perform respiratory care and polysomnography related respiratory care in this state. (7-1-21)

b. Application for a dual license/permit shall be made to the Board on a form prescribed by the Board, together with the application fee. (7-1-21)

c. Such dual license/permit shall expire on the expiration date printed on the face of the certificate unless renewed. (7-1-21)

032. CONTINUING EDUCATION.

01. Evidence of Completion. Prior to renewal, reinstatement or reapplication, each applicant shall submit evidence of successfully completing no less than twelve (12) hours per year of approved respiratory therapy related continuing education. Continuing education activities include but are not limited to: attending or presenting at conferences, seminars or in-service programs; or formal course work in respiratory therapy related subjects. (7-1-21)

02. Polysomnographer Continuing Education. Prior to renewal, reinstatement or reapplication, each applicant shall submit evidence of successfully completing no less than twelve (12) hours per year of approved polysomnography-related respiratory care continuing education. The Board, as recommended by the Licensure Board, may substitute all or a portion of the course work required in Subsection 032.02 when an applicant for renewal shows evidence of passing an approved challenge exam or of completing equivalent education as determined by the Board, as recommended by the Licensure Board, to be in full compliance with the education requirements of this chapter. (7-1-21)

033. PROVISIONAL LICENSE OR PERMIT.

01. Provisional Licensure or Permit by Examination. A provisional license or permit may be issued
until notification of exam results to an applicant following graduation from an accredited or approved respiratory care or polysomnography-related respiratory care educational program as set forth in Sections 54-4303, 54-4306, 54-4307, 54-4308, 54-4309, Idaho Code, if: the applicant otherwise meets the license or permit requirements set forth in Sections 54-4307(2) & (4) or 54-4308, Idaho Code; and the applicant has either applied to take or has taken the requisite Board-approved national examination(s) and is awaiting results. Provisional licenses and permits issued to examination candidates are issued for a period not to exceed six (6) months and are nonrenewable. (7-1-21)

02. **Unsuccessful Examination Candidates.** An applicant who fails to pass the requisite Board-approved national examination(s) during the six (6) month timeframe is not eligible for further temporary licensure or permitting. (7-1-21)

034. **SUPERVISION OF RESPIRATORY CARE.**
The practice or provision of respiratory care or polysomnography services by persons holding a student, consulting, or training exemption or a provisional license or permit shall be under the supervision of a respiratory care practitioner or licensed physician who shall be responsible for the activities of the person being supervised and shall review and countersign all patient documentation performed by the person being supervised. The supervising respiratory care practitioner or licensed physician need not be physically present or on the premises at all times but must be available for telephonic consultation. The extent of communication between the supervising or consulting respiratory care practitioner or licensed physician and the person being supervised shall be determined by the competency of the person, the treatment setting, and the diagnostic category of the client. (7-1-21)

035. -- 045. (RESERVED)

000. **LEGAL AUTHORITY.**
These rules are promulgated pursuant to Section 54-3505(2), Idaho Code. (7-1-21)T

001. **SCOPE.**
These rules govern the practice of dietetics in Idaho. (7-1-21)T

002. -- 019. (RESERVED)

020. **GENERAL QUALIFICATIONS FOR LICENSURE AND RENEWAL.**
Requirements for licensure and renewal are found in Title 54, Chapter 35, Idaho Code, IDAPA 24.33.03, and on Board-approved forms. (7-1-21)T

021. **PROVISIONAL LICENSURE.**

01. **Provisional License.** The Board may issue a provisional license to a person who has successfully completed the academic requirements of an education program in dietetics approved by the licensure board and has successfully completed a dietetic internship or preprofessional practice program, coordinated program or such other equivalent experience as may be approved by the board and who has met all the other requirements set forth by Section 020 of this rule but who has not yet passed the examination conducted by the Commission on Dietetic Registration. (7-1-21)T

02. **Provisional License Dietitian/Monitor Affidavit.** The provisionally licensed dietitian must obtain an affidavit signed by an Idaho licensed dietitian affirming and attesting that they will be responsible for the activities of the provisionally licensed dietitian and will review and countersign all patient documentation signed by the provisionally licensed dietitian. The supervising monitor need not be physically present or on the premises at all times but must be available for telephonic consultation. The extent of communication between the monitor and the provisionally licensed dietitian will be determined by the competency of the individual, the treatment setting, and the diagnostic category of the patients. (7-1-21)T

03. **Provisional Licensure Expiration.** Provisional licenses will become full active licenses upon the date of receipt of a copy of registration by the Commission on Dietetic Registration. All provisional licenses will expire on the last day of the current renewal cycle. (7-1-21)T

022. -- 031. (RESERVED)

032. **DENIAL OR REFUSAL TO RENEW, SUSPENSION OR REVOCATION OF LICENSE.**

01. **Disciplinary Authority.** A new or renewal application may be denied or a license may be suspended or revoked by the Board, and every person licensed pursuant to Title 54, Chapter 35, Idaho Code and these rules is subject to disciplinary actions or probationary conditions pursuant to the procedures and powers established by and set forth in Section 54-3505, Idaho Code, and the Idaho Administrative Procedure Act. (7-1-21)T

042. -- 999. (RESERVED)
24.34.01 – RULES OF THE IDAHO BOARD OF NURSING

000. LEGAL AUTHORITY.
This chapter is adopted in accordance with Section 54-1404(13), Idaho Code. (7-1-21)

001. SCOPE.
These rules govern the standards of nursing practice, licensure, educational programs and discipline in Idaho. (7-1-21)

002. FILING OF DOCUMENTS.
All written communications and documents that are intended to be part of an official record for decision in a rulemaking or contested case must be filed with the executive director of the Board. One (1) original is sufficient for submission to the hearing officer, with one (1) copy for the Board and one (1) copy submitted to the opposing party. Whenever documents are filed by facsimile transmission (FAX), originals are to be deposited in the mail the same day or hand delivered the following business day to the hearing officer or the Board, and opposing parties. (7-1-21)

003. CHANGES IN NAME AND ADDRESS – ADDRESS FOR NOTIFICATION PURPOSES.

01. Change of Name. Whenever a change of licensee name or address occurs, the Board is to be immediately notified of the change. Documentation confirming the change of name will be provided to the Board on request. (7-1-21)

02. Address for Notification Purposes. (7-1-21)
   a. The most recent mailing or electronic address on record with the Board is utilized for purposes of all written communication with the licensee. (7-1-21)
   b. In a contested case proceeding, the service of process of Board documents (including notices, summonses, complaints, subpoenas and orders) is made by:
      i. Personal service; (7-1-21)
      ii. Mailing to the licensee’s mailing address on record; or (7-1-21)
      iii. E-mailing to the licensee’s electronic address on record, if authorized. Service on an electronic address is authorized when the licensee has already appeared in the proceeding or has agreed in writing to service by e-mail. (7-1-21)

004. -- 009. (RESERVED)

010. DEFINITIONS.
The definitions set forth in Section 54-1402, Idaho Code, are applicable to these rules. In addition, unless the context clearly denotes or requires otherwise, for purposes of these rules, the below terms have the following meanings: (7-1-21)

01. Abandonment. The termination of a nurse/patient relationship without first making appropriate arrangements for continuation of required nursing care. The nurse/patient relationship begins when responsibility for nursing care of a patient is accepted by the nurse. Refusal to accept an employment assignment or refusal to accept or begin a nurse/patient relationship is not abandonment. Reasonable notification, or a timely request for alternative care for a patient, directed to a qualified provider or to a staff supervisor, prior to leaving the assignment, constitutes termination of the nurse/patient relationship. (7-1-21)

02. Accreditation. The official authorization or status granted by a recognized accrediting entity or agency other than a state board of nursing. (7-1-21)

03. Administration of Medications. The process whereby a prescribed medication is given to a patient by one (1) of several routes. Administration of medication is a complex nursing responsibility which requires a knowledge of anatomy, physiology, pathophysiology, and pharmacology. Only persons authorized under Board statutes and these rules may administer medications and treatments as prescribed by health care providers authorized to prescribe medications. (7-1-21)

04. Approval. The process by which the Board evaluates and grants official recognition to education programs that meet standards established by the Board. (7-1-21)
05. Assist. To aid or help in the accomplishment of a prescribed set of actions. (7-1-21)

06. Assistance With Medications. The process whereby a non-licensed care provider is delegated tasks by a licensed nurse to aid a patient who cannot independently self-administer medications. (7-1-21)

07. Board Staff. The executive director and other such personnel as are needed to implement the Nursing Practice Act and these rules. (7-1-21)

08. Charge Nurse. A licensed nurse who bears primary responsibility for assessing, planning, prioritizing and evaluating care for the patients on a unit, as well as the overall supervision of the licensed and unlicensed staff delivering the nursing care. (7-1-21)

09. Clinical Preceptor. A licensed registered nurse, or other qualified individual as defined in these rules, who acts to facilitate student training in a manner prescribed by a written agreement between the preceptor’s employer and an educational institution. (7-1-21)

10. Competence. Safely performing those functions within the role of the licensee in a manner that demonstrates essential knowledge, judgment and skills. (7-1-21)

11. Curriculum. The systematic arrangement of learning experiences including didactic courses, practical experiences, and other activities needed to meet the requirements of the nursing program and of the certificate or degree conferred by the parent institution. (7-1-21)

12. Delegation. The process by which a licensed nurse assigns tasks to be performed by others. (7-1-21)

13. Disability. Any physical, mental, or emotional condition that interferes with the ability to safely and competently practice. (7-1-21)

14. Emeritus License. A license issued to a nurse retiring from active practice for any length of time. (7-1-21)

15. Licensing Examination. A licensing examination acceptable to the Board. (7-1-21)

16. License in Good Standing. A license not subject to current disciplinary action, restriction, probation or investigation in any jurisdiction. (7-1-21)

17. Nursing Assessment. The systematic collection of data related to the patient’s health needs. (7-1-21)

18. Nursing Diagnosis. The clinical judgment or conclusion regarding patient/client/family/community response to actual or potential health problems made as a result of the nursing assessment. (7-1-21)

19. Nursing Intervention. An action deliberately selected and performed to support the plan of care. (7-1-21)

20. Nursing Jurisdiction. Unless the context clearly denotes a different meaning, when used in these rules, the term nursing jurisdiction means any or all of the fifty (50) states, U.S. territories or commonwealths, as the case may be. (7-1-21)

21. Nursing Service Administrator. A licensed registered nurse who has administrative responsibility for the nursing services provided in a health care setting. (7-1-21)

22. Organized Program of Study. A written plan of instruction to include course objectives and content, teaching strategies, provisions for supervised clinical practice, evaluation methods, length and hours of course, and faculty qualifications. (7-1-21)
23. **Patient.** An individual or a group of individuals who are the beneficiaries of nursing services in any setting and may include client, resident, family, community. (7-1-21)

24. **Patient Education.** The act of teaching patients and their families, for the purpose of improving or maintaining an individual’s health status. (7-1-21)

25. **Plan of Care.** The goal-oriented strategy developed to assist individuals or groups to achieve optimal health potential. (7-1-21)

26. **Practice Standards.** General guidelines that identify roles and responsibilities for a particular category of licensure and, used in conjunction with the decision-making model, define a nurse’s relationship with other care providers. (7-1-21)

27. **Probation.** A period of time set forth in an order in which certain restrictions, conditions or limitations are imposed on a licensee. (7-1-21)

28. **Protocols.** Written standards that define or specify performance expectations, objectives, and criteria. (7-1-21)

29. **Restricted License.** A nursing license subject to specific restrictions, terms, and conditions. (7-1-21)

30. **Revocation.** Termination of the authorization to practice. (7-1-21)

31. **Scope of Practice.** The extent of treatment, activity, influence, or range of actions permitted or authorized for licensed nurses based on the nurse’s education, preparation, and experience. (7-1-21)

32. **Supervision.** Designating or prescribing a course of action, or giving procedural guidance, direction, and periodic evaluation. Direct supervision requires the supervisor to be physically present and immediately accessible to designate or prescribe a course of action or to give procedural guidance, direction, and periodic evaluation. (7-1-21)

33. **Suspension.** An order temporarily withdrawing a nurse’s right to practice nursing. (7-1-21)

34. **Technician/Technologist.** These individuals are not credentialed by regulatory bodies in Idaho and may include, but are not limited to: surgical, dialysis and radiology technicians/technologists, monitor technicians and medical assistants. (7-1-21)

35. **Unlicensed Assistive Personnel (UAP).** This term is used to designate unlicensed personnel employed to perform nursing care services under the direction and supervision of licensed nurses. The term also includes licensed or credentialed health care workers whose job responsibilities extend to health care services beyond their usual and customary roles and which activities are provided under the direction and supervision of licensed nurses. UAPs are prohibited from performing any licensed nurse functions that are specifically defined in Section 54-1402, Idaho Code. UAPs may not be delegated procedures involving acts that require nursing assessment or diagnosis, establishment of a plan of care or teaching, the exercise of nursing judgment, or procedures requiring specialized nursing knowledge, skills or techniques. (7-1-21)

36. **Universal Precautions.** The recommendations published by the Center for Disease Control, Atlanta, Georgia, for preventing transmission of infectious disease. (7-1-21)

011. -- 039. (RESERVED)

040. **TEMPORARY LICENSE.**
A temporary license is a nonrenewable license. (7-1-21)

01. **Issued at Discretion of Board.** Temporary licenses are issued, and may be extended, at the
02. **Temporary Licensure by Interstate Endorsement.** A temporary license may be issued to an applicant for interstate endorsement on proof of current licensure in good standing in another nursing jurisdiction, satisfactory documentation of employment within the three (3) years immediately preceding application, and compliance with the requirements of Section 240 of these rules. (7-1-21)

03. **Temporary Licensure by Examination.** A temporary license to practice nursing until notification of examination results and completion of criminal background check may be issued to an applicant for Idaho licensure beginning thirty (30) days prior to graduation from a nursing education program recognized by the professional licensing board for another nursing jurisdiction, and compliance with Section 221 of these rules.

   a. The practice of nursing by new graduates holding temporary licensure is limited as follows:

   i. Direct supervision by a licensed registered nurse is provided. (7-1-21)

   ii. Precluded from acting as charge nurse. (7-1-21)

   b. Temporary licenses issued to examination candidates are issued for a period not to exceed ninety (90) days. (7-1-21)

04. **Unsuccessful Examination Candidates.**

   a. An applicant who fails to pass the licensing examination is not eligible for further temporary licensure. (7-1-21)

   b. In the event that such applicant subsequently passes the licensing examination after twelve (12) months or more have elapsed following completion of the educational program, a temporary license with conditions may be issued until verification of clinical competence is received. (7-1-21)

05. **Applicants Not in Active Practice.** A temporary license with specific terms and conditions may be issued to a person who has not actively engaged in the practice of nursing in any nursing jurisdiction for more than three (3) years immediately prior to the application for licensure or to an applicant whose completed application indicates the need for confirmation of the applicant’s ability to practice safe nursing. (7-1-21)

06. **Applicants from Other Countries.** Upon final evaluation of the completed application, the Board may, at its discretion, issue a temporary license to a graduate from a nursing education program outside of a nursing jurisdiction, pending notification of results of the licensing examination.

07. **Fee.** The applicant pays the temporary license fee, as prescribed in these rules. (7-1-21)

041. -- 059. (RESERVED)

060. **LPN, RN, AND APRN LICENSE RENEWAL.**

   All licenses are renewed as prescribed in Section 54-1411, Idaho Code.

   01. **Renewal Applications.** Renewal applications may be obtained by contacting the Board. (7-1-21)

   02. **Final Date to Renew.** The original completed renewal application and renewal fee as prescribed in Section 900 of these rules, are submitted to the Board and post-marked or electronically dated not later than August 31 of the appropriate renewal year. (7-1-21)

   03. **Date License Lapsed.** Licenses not renewed prior to September 1 of the appropriate year are lapsed and therefore invalid. (7-1-21)

061. **CONTINUED COMPETENCE REQUIREMENTS FOR RENEWAL OF AN ACTIVE LICENSE.**
01. **Learning Activities.** In order to renew an LPN or RN license, a licensee shall complete or comply with at least two (2) of any of the learning activities listed below in Paragraphs 061.01.a., b., or c. within the two-year (2) renewal period:

   a. Practice:
      i. Current nursing specialty certification as defined in Section 402 of these rules; or
      ii. One hundred (100) hours of practice or simulation practice, paid or unpaid, in which the nurse applies knowledge or clinical judgment in a way that influences patients, families, nurses, or organizations;

   b. Education, Continuing Education, E-learning, and In-service:
      i. Fifteen (15) contact hours of continuing education, e-learning, academic courses, nursing-related in-service offered by an accredited educational institution, healthcare institution, or organization (a contact hour equals not less than fifty (50) minutes); or
      ii. Completion of a minimum of one (1) semester credit hour of post-licensure academic education relevant to nursing practice, offered by a college or university accredited by an organization recognized by the U.S. Department of Education; or
      iii. Completion of a Board-recognized refresher course in nursing or nurse residency program; or
      iv. Participation in or presentation of a workshop, seminar, conference, or course relevant to the practice of nursing and approved by an organization recognized by the Board to include, but not limited to:
         1. A nationally recognized nursing organization;
         2. An accredited academic institution;
         3. A provider of continuing education recognized by another board of nursing;
         4. A provider of continuing education recognized by a regulatory board of another discipline; or
         5. A program that meets criteria established by the Board;

   c. Professional Engagement:
      i. Acknowledged contributor to a published nursing-related article or manuscript; or
      ii. Teaching or developing a nursing-related course of instruction; or
      iii. Participation in related professional activities including, but not limited to, research, published professional materials, nursing-related volunteer work, teaching (if not licensee's primary employment), peer reviewing, precepting, professional auditing, and service on nursing or healthcare related boards, organizations, associations or committees.

02. **APRN Continued Competence Requirements.** Registered nurses who also hold an active license as an APRN shall only meet the requirements of Section 300 of these rules.

03. **First Renewal Exemption.** A licensee is exempt from the continued competence requirement for the first renewal following initial licensure by examination.
04. **Extension.** The Board may grant an extension for good cause for up to one (1) year for the completion of continuing competence requirements. Such extension shall not relieve the licensee of the continuing competence requirements.

05. **Beyond the Control of Licensee Exemption.** The Board may, in the exercise of its sound discretion, grant an exemption for all or part of the continuing competence requirements due to circumstances beyond the control of the licensee.

06. **Disciplinary Proceeding.** Continued competence activities or courses required by Board order in a disciplinary proceeding shall not be counted as meeting the requirements for licensure renewal.

07. **Compliance Effective Dates.** Compliance with the continuing competence requirements of Sections 061 and 062 will be necessary to renew an LPN license beginning with 2018 renewals and an RN license beginning with 2019 renewals.

---

062. **DOCUMENTING COMPLIANCE WITH CONTINUED COMPETENCE REQUIREMENTS.**

01. **Retention of Original Documentation.** All licensees are to maintain original documentation of completion for a period of two (2) years following renewal and to provide such documentation within thirty (30) days of a request from the Board for proof of compliance.

02. **Documentation of Compliance.** Documentation of compliance consists of the following:

   a. Evidence of national certification includes a copy of a certificate that includes the name of licensee, name of certifying body, date of certification, and date of certification expiration. Certification will be initially attained during the licensure period, have been in effect during the entire licensure period, or have been recertified during the licensure period.

   b. Evidence of post-licensure academic education includes a copy of the transcript with the name of the licensee, name of educational institution, date(s) of attendance, name of course, and number of credit hours received.

   c. Evidence of completion of a Board-recognized refresher course includes certificate or written correspondence from the provider with the name of the licensee, name of provider, and verification of successful completion of the course.

   d. Evidence of completion of research or a nursing project includes an abstract or summary, the name of the licensee, role of the licensee as principal or contributing investigator, date of completion, statement of the problem, research or project objectives, methods used, and summary of findings.

   e. Evidence of contributing to a published nursing-related article, manuscript, paper, book, or book chapter includes a copy of the publication to include the name of the licensee and publication date.

   f. Evidence of teaching a course for college credit includes documentation of the course offering indicating instructor, course title, course syllabus, and the number of credit hours. Teaching a particular course may only be used once to satisfy the continued competence requirement unless the course offering and syllabus has changed in a material or significant fashion.

   g. Evidence of teaching a course for continuing education credit includes a written attestation from the director of the program or authorizing entity including the date(s) of the course and the number of hours awarded.

   h. Evidence of hours of continuing learning activities or courses includes the name of the licensee, title of activity, name of provider, number of hours, and date of activity.

   i. Evidence of one hundred (100) hours of practice in nursing includes the name of the licensee and
documentation satisfactory to the Board of the number of hours worked during review period validated by the employer/recipient agency. If self-employed, hours worked may be validated through other methods such as tax records or other business records. If practice is of a volunteer or gratuitous nature, hours worked may be validated by the recipient agency. (7-1-21)

063. REINSTATEMENT (NON-DISCIPLINE).
A person whose license has lapsed for failure to pay the renewal fee by the specified date may apply for reinstatement by submitting the items set out in Section 54-1411(3), Idaho Code and a current fingerprint-based criminal history check as set forth in Section 54-1401(3), Idaho Code, as well as paying the fees prescribed in these rules. (7-1-21)

064. REINSTATEMENT AFTER DISCIPLINE.

01. Submission of Application Materials. A person whose license has been subject to disciplinary action by the Board may apply for reinstatement of the license to active and unrestricted status by:
   a. Submitting the items set out in Section 54-1411(3), Idaho Code; (7-1-21)
   b. Submitting a current fingerprint-based criminal history check as set forth in Section 54-1401(3), Idaho Code; (7-1-21)
   c. Paying the fees prescribed in these rules; and (7-1-21)
   d. Documenting compliance with any term and restrictions set forth in any order as a condition of reinstatement. (7-1-21)

02. Appearance Before Board. Applicants for reinstatement may be called to appear before the Board. (7-1-21)

03. Application for Reinstatement After Revocation. Unless otherwise provided in the order of revocation, applicants for reinstatement of revoked licenses are precluded from applying for reinstatement for a period of two (2) years after entry of the order. (7-1-21)

065. -- 075. (RESERVED)

076. PERSONS EXEMPTED BY BOARD.
Licensure to practice nursing is not necessary, nor is the practice of nursing prohibited for persons exempted by the Board including:

01. Technicians and Technologists. Technicians and technologists who comply with Section 491 of these rules. (7-1-21)

02. Non-Resident Nurses. Non-resident nurses currently licensed in good standing in another nursing jurisdiction, who are in Idaho on a temporary basis because of enrollment in or presentation of a short term course of instruction recognized or approved by the Board and who are performing functions incident to formal instruction. (7-1-21)

03. Family Members and Others.
   a. Family members providing care to a person to whom they are related by blood, marriage, adoption, legal guardianship or licensed foster care. (7-1-21)
   b. Non-family members who provide gratuitous care to a person on a temporary basis in order to give respite to family members who regularly provide care to that person. (7-1-21)
   c. Live-in domestics, housekeepers and companions provided they do not represent themselves as, nor receive compensation as, licensed nurses or other nursing care providers and so long as any health care provided is incidental to the services for which they are employed. (7-1-21)
04. **Nurse Apprentice.** A nurse apprentice is a nursing student or recent graduate who is employed for remuneration in a non-licensed capacity outside the student role by a Board approved health care agency. (7-1-21)

a. Applicants for nurse apprentice must:

i. Be enrolled in an accredited/approved nursing education program that is substantially equivalent to Idaho’s approved programs for practical/registered nursing. (7-1-21)

ii. Be in good academic standing at the time of application and notify the Board of any change in academic standing. (7-1-21)

iii. Meet the employing agency’s health care skills validation requirements. (7-1-21)

iv. Satisfactorily complete a basic nursing fundamentals course. (7-1-21)

v. Use obvious designations that identify the applicant as a nurse apprentice. (7-1-21)

b. A completed application for nurse apprentice consists of:

i. Completed application form provided by the Board; and (7-1-21)

ii. Verification of satisfactory completion of a basic nursing fundamentals course; and (7-1-21)

iii. Validation of successful demonstration of skills from a nursing education program; and (7-1-21)

iv. Verification of good academic standing. (7-1-21)

c. An individual whose application is approved will be issued a letter identifying the individual as a nurse apprentice for a designated time period to extend not more than three (3) months after successful completion of the nursing education program. (7-1-21)

d. A nurse apprentice may, under licensed registered nurse supervision, perform all functions approved by the Board for unlicensed assistive personnel as set forth in Section 490 of these rules. (7-1-21)

05. **Employer Application.** (7-1-21)

a. Health care agencies wishing to employ nurse apprentices are to complete an application form provided by the Board that consists of:

i. Job descriptions for apprentice; (7-1-21)

ii. A written plan for orientation and skill validation; (7-1-21)

iii. The name of the licensed registered nurse who is accountable and responsible for the coordination or management of the nurse apprentice program; (7-1-21)

iv. Assurance that a licensed registered nurse is readily available when nurse apprentice is working; (7-1-21)

v. A written procedure for the nurse apprentice who is asked to perform a task that could jeopardize a patient and who declines to perform the task; and (7-1-21)

vi. A fee of one hundred dollars ($100). (7-1-21)

b. Following application review, the Board may grant approval to a health care agency to employ nurse apprentices for a period of up to one (1) year. (7-1-21)
c. To ensure continuing compliance with Board requirements, each approved agency submits an annual report to the Board on forms provided by the Board. Based on its findings, the Board may grant continuing approval annually for an additional one (1) year period. (7-1-21)

d. At any time, if the employing agency fails to inform the Board of changes in conditions upon which approval was based or otherwise fails to comply with established requirements, the Board may notify the agency of withdrawal of approval. (7-1-21)

077. -- 089. (RESERVED)

090. REAPPLICATION FOR A LICENSE AFTER PREVIOUS DENIAL.

01. Request for Review. Review of a denied application may be requested by submitting a written statement and documentation that includes evidence, satisfactory to the Board, of rehabilitation, or elimination or cure of the conditions for denial. (7-1-21)

02. Reapplication Files. Reapplication files remain open and active for a period of twelve (12) months from date of receipt. After twelve (12) months, the file is closed and any subsequent reapplication will require submission of a new application form and payment of the applicable fees. (7-1-21)

091. -- 099. (RESERVED)

100. GROUNDS FOR DISCIPLINE.

01. False Statement. A false, fraudulent or forged statement or misrepresentation in procuring a license to practice nursing means, but need not be limited to:

a. Procuring or attempting to procure a license to practice nursing by filing forged or altered documents or credentials; or (7-1-21)

b. Falsifying, misrepresenting facts or failing to verify and accurately report any and all facts submitted on any application for licensure, examination, relicensure, or reinstatement of licensure by making timely and appropriate inquiry of all jurisdictions in which licensee has made application for, or obtained, licensure or certification or engaged in the practice of nursing; or (7-1-21)

c. Impersonating any applicant or acting as proxy for the applicant in any examination for nurse licensure. (7-1-21)

02. Conviction of a Felony. Conviction of, or entry of a withheld judgment or a plea of nolo contendere to, conduct constituting a felony. (7-1-21)

03. False or Assumed Name. Practicing nursing under a false or assumed name means, but need not be limited to, carrying out licensed nursing functions while using other than the individual’s given or legal name. (7-1-21)

04. Offense Involving Moral Turpitude. An offense involving moral turpitude means, but need not be limited to, an act of baseness, vileness, or depravity in the private and social duties that a man owes to his fellow man, or to society in general, contrary to the accepted and customary rule of right and duty between man and man. (7-1-21)

05. Gross Negligence or Recklessness. Gross negligence or recklessness in performing nursing functions means, but need not be limited to, a substantial departure from established and customary standards of care which, under similar circumstances, would have been exercised by a licensed peer; an act or an omission where there is a legal duty to act or to refrain from acting that a reasonable and prudent practitioner of nursing under same or similar facts and circumstances would have done, would have refrained from doing or would have done in a different manner and which did or could have resulted in harm or injury to a patient/client. An exercise of so slight a degree of
care as to justify the belief that there was a conscious or overt disregard or indifference for the health, safety, well-being, or welfare of the public shall be considered a substantial departure from the accepted standard of care.

06. Habitual Use of Alcohol or Drugs. Habitual use of alcoholic beverages or drugs means, but need not be limited to, the use of such substances to the extent that the nurse's judgment, skills, or abilities to provide safe and competent nursing care are impaired; or that the individual is unable to care for himself or his property or his family members because of such use; or it is determined by a qualified person that the individual is in need of medical or psychiatric care, treatment or rehabilitation or counseling because of drug or alcohol use.

07. Physical or Mental Unfitness. Physical or mental unfitness to practice nursing means, but need not be limited to, a court order adjudging that a licensee is mentally incompetent, or an evaluation by a qualified professional person indicating that the licensee is mentally or physically incapable of engaging in registered or practical nursing in a manner consistent with sound patient care; or uncorrected physical defect that precludes the safe performance of nursing functions.

08. Violations of Standards of Conduct. Violations of standards of conduct and practice adopted by the Board means, but need not be limited to, any violation of those standards of conduct described in Section 101 of these rules.

09. Conduct to Deceive, Defraud or Endanger. Conduct of a character likely to deceive, defraud, or endanger patients or the public includes, but need not be limited to:
   a. Violating the standards of conduct and practice adopted by the Board.
   b. Being convicted of any crime or act substantially related to nursing practice and including, but not limited to, sex crimes, drug violations, acts of violence and child or adult abuse.

10. Action Against a License. Action against a license means entry of any order restricting, limiting, revoking or suspending or otherwise disciplining a license or privilege to practice nursing by any jurisdiction. A certified copy of an order entered in any jurisdiction is prima facie evidence of the matters contained therein.

11. Failure to Make Timely and Appropriate Inquiry. Failing to make timely and appropriate inquiry verifying licensure status in all jurisdictions in which the applicant has ever applied for licensure, certification or privilege to practice, including those jurisdictions in which the applicant is currently or was ever licensed, or in which applicant has practiced, prior to filing any application, verification or other statement regarding licensure status with the Board.

12. Failure to Cooperate With Authorities. Failure to cooperate with authorities in the investigation of any alleged misconduct or interfering with a Board investigation by willful misrepresentation of facts, failure to provide information on request of the Board, or the use of threats or harassment against any patient or witness to prevent them from providing evidence.

13. Patterns of Poor Practice. Repeatedly engaging in conduct that departs from the customary standards of care.

101. STANDARDS OF CONDUCT.

01. Violations. Any violation of these Standards of Conduct is grounds for disciplinary action in accordance with Section 54-1413(1), Idaho Code, of the Idaho Nursing Practice Act and Section 090 or 100 of these rules.

02. Classification. For purposes of convenience, the standards of conduct are grouped generally into one (1) of three (3) categories: license, practice, and professional responsibility. The fact that any particular standard is so classified in any particular category is not relevant for any purpose other than ease of use.
03. License.

a. Period of Practice. The nurse can practice registered or practical nursing in Idaho only with a current Idaho license or during the period of valid temporary licensure or as otherwise allowed by law.

b. Aiding in Violation of Law. The nurse shall not aid, abet, or assist any other person to violate or circumvent laws or rules pertaining to the conduct and practice of nursing.

c. Reporting Grossly Negligent or Reckless Practice. The nurse shall report to the Board any licensed nurse who is grossly negligent or reckless in performing nursing functions or who otherwise violates the Nursing Practice Act or the Board rules.

d. Unlawful Use of License. The nurse shall not permit their license to be used by another person for any purpose or permit unlicensed persons under their jurisdiction or supervision to indicate in any way that they are licensed to perform functions restricted to licensed persons.

e. Impairment of Ability. The nurse shall not practice nursing while the ability to practice is impaired by alcohol or drugs or physical, mental or emotional disability.

04. Practice. The nurse shall have knowledge of the statutes and rules governing nursing and function within the defined legal scope of nursing practice, not assume any duty or responsibility within the practice of nursing without adequate training or where competency has not been maintained, and:

a. Delegate activities only to persons who are competent and qualified to undertake and perform the delegated activities and will not delegate to non-licensed persons functions that are to be performed only by licensed nurses. The nurse delegating functions is to supervise the persons to whom the functions have been assigned or delegated.

b. Act to safeguard the patient from the incompetent practice, verbal or physical abusive acts or illegal practice of any person.

c. Not obtain, possess, furnish or administer prescription drugs to any person, including self, except as directed by a person authorized by law to prescribe drugs.

d. Not abandon patients in need of nursing care in a negligent or wanton manner. The nurse will leave a nursing assignment only after properly reporting and notifying appropriate personnel and will transfer responsibilities to appropriate personnel or caregiver when continued care is necessitated by the patient’s condition.

e. Respect the patient’s privacy.

f. Not disseminate information about the patient to individuals not entitled to such information except where such information is mandated by law or for the protection of the patient.

g. Observe the condition and signs and symptoms of a patient, record the information, and report to appropriate persons any significant changes.

h. Function as a member of the health team and shall collaborate with other health team members as necessary to meet the patient’s health needs.

i. Adhere to universal precautions and carry out principles of asepsis and infection control and not place the patient, the patient’s family or the nurse’s coworkers at risk for the transmission of infectious diseases.

05. Professional Responsibility.

a. Disclosing Contents of Licensing Examination. The nurse is not to disclose contents of any
licensing examination, or solicit, accept, or compile information regarding the contents of any examination before, during, or after its administration. (7-1-21)

b. Considerations in Providing Care. In providing nursing care, the nurse will respect and consider the individual’s human dignity, health problems, personal attributes, national origin, and handicaps and not discriminate on the basis of age, sex, race, religion, economic or social status or sexual preferences. (7-1-21)

c. Responsibility and Accountability Assumed. The nurse is responsible and accountable for their nursing judgments, actions and competence. (7-1-21)

d. Witnessing Wastage of Controlled Substances Medication. Controlled substances may not be wasted without witnesses. The nurse cannot sign any record as a witness attesting to the wastage of controlled substance medications unless the wastage was personally witnessed. The nurse cannot solicit the signatures on any record of a person as a witness to the wastage of a controlled substance when that person did not witness the wastage. The nurse will solicit signatures of individuals who witnessed the wastage in a timely manner. (7-1-21)
e. Record-keeping. The nurse shall make or keep accurate, intelligible entries into records mandated by law, employment or customary practice of nursing, and will not falsify, destroy, alter or knowingly make incorrect or unintelligible entries into patients’ records or employer or employee records. (7-1-21)

f. Diverting or Soliciting. The nurse will respect the property of the patient and employer and not take or divert equipment, materials, property, or drugs without prior consent or authorization, nor solicit or borrow money, materials or property from patients. (7-1-21)

g. Exploit, Solicit, or Receive Fees. The nurse shall not exploit the patient or the patient’s family for personal or financial gain or offer, give, solicit, or receive any fee or other consideration for the referral of a patient or client. (7-1-21)

h. Professionalism. The nurse must not abuse the patient’s trust, will respect the dignity of the profession and maintain appropriate professional boundaries with respect to patients, the patients’ families, and the nurse’s coworkers. The nurse is not to engage in sexual misconduct or violent, threatening or abusive behavior towards patients, patients’ families or the nurse’s coworkers. The nurse will be aware of the potential imbalance of power in professional relationships with patients, based on their need for care, assistance, guidance, and support, and ensure that all aspects of that relationship focus exclusively upon the needs of the patient. (7-1-21)

i. For purposes of this rule and Section 54-1413, Idaho Code, sexual misconduct violations include, but are not limited to: (7-1-21)

(1) Engaging in or soliciting any type of sexual conduct with a patient; (7-1-21)

(2) Using the nurse-patient relationship, trust and confidence of the patient derived from the nurse-patient relationship, or any information obtained as a result of the nurse-patient relationship, to solicit, suggest or discuss dating or a romantic or sexual relationship with a patient; (7-1-21)

(3) Using confidential information obtained during the course of the nurse-patient relationship to solicit, suggest or discuss dating or a romantic relationship, or engage in sexual conduct with a patient, former patient, colleague, or member of the public; and (7-1-21)

(4) Engaging in or attempting to engage in sexual exploitation or criminal sexual misconduct directed at patients, former patients, colleagues, or members of the public, whether within or outside the workplace. (7-1-21)

ii. For purposes of this rule: (7-1-21)

(1) Consent of a patient is not a defense. In the case of sexual exploitation or criminal sexual misconduct, consent of the victim is not a defense. (7-1-21)

(2) A patient ceases to be a patient thirty (30) days after receiving the final nursing services, or final
reasonably anticipated nursing services from a nurse, unless the patient is determined by the Board to be particularly
vulnerable by his minority; known mental, emotional, or physical disability; known alcohol or drug dependency; or
other circumstance. A patient deemed particularly vulnerable ceases to be a patient one (1) year after receiving the
final nursing services, or final reasonably anticipated nursing services from a nurse.
(7-1-21)T

(3) It is not a violation of this rule for a nurse to continue a sexual relationship with a spouse or
individual of majority if a consensual sexual relationship existed prior to the establishment of the nurse-patient
relationship.
(7-1-21)T

iii. The following definitions apply to this rule:
(7-1-21)T

(1) “Sexual conduct” means any behavior that might reasonably be interpreted as being designed or
intended to arouse or gratify the sexual desires of an individual. This includes, but is not limited to, physical touching
of breasts, buttocks or sexual organs, creation or use of pornographic images, discussion about sexual topics unrelated
to the patient's care, intentional exposure of genitals, and not allowing a patient privacy, except as may be medically
necessary.
(7-1-21)T

(2) “Sexual exploitation” means any actual or attempted abuse of a position of vulnerability,
differential power, or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or
politically from the sexual conduct of another, or withholding or threatening to withhold care, medication, food or
other services to coerce sexual conduct.
(7-1-21)T

(3) “Criminal sexual misconduct” means any sexual conduct that, if proven, would constitute a felony
or misdemeanor under state or federal law.
(7-1-21)T

102. -- 131. (RESERVED)

132. RESTRICTED LICENSES.
Restricted licenses may be issued to qualified individuals in four (4) categories: post-discipline, non-practicing status,
restricted status, and substance use and mental health disorders. Failure to comply with the terms and conditions of a
restricted license will be cause for summary suspension.
(7-1-21)T

01. Following Disciplinary Action.
(7-1-21)T

a. After evaluation of an application for licensure reinstatement, the Board may issue a restricted
license to a nurse whose license has been revoked.
(7-1-21)T

b. The Board will specify the conditions of issuance of the restricted license in writing. The conditions
may be stated on the license.
(7-1-21)T

02. Non-Practicing Status.
(7-1-21)T

a. Individuals who are prevented from engaging in the active practice of nursing may be issued a
restricted license.
(7-1-21)T

b. Non-practicing status does not entitle the licensee to engage in the active practice of nursing. The
status will be noted on the license.
(7-1-21)T

c. The non-practicing restriction may be removed by the Board following receipt and evaluation of
evidence satisfactory to the Board confirming that the licensee’s physical or mental health status no longer prevents
the individual from engaging in the active practice of nursing.
(7-1-21)T

03. Restricted Status.
(7-1-21)T

a. Individuals whose disabilities restrict or inhibit their ability to provide a full range of nursing
services may be issued a restricted license.
b. The conditions may include, but are not limited to:
   i. Notifying the Board of changes in employment status. (7-1-21)
   ii. Submission of regular reports by the employer or by such other entities or individuals as the Board
       may desire. (7-1-21)
   iii. Meeting with Board representatives. (7-1-21)
   iv. Specific parameters of practice, excluding the performance of specific nursing functions. (7-1-21)

c. The conditions of restricted practice may be removed by the Board following receipt and
   evaluation of satisfactory evidence confirming that the health status of the licensee no longer restricts or inhibits the
   person’s ability to provide a full range of nursing services. (7-1-21)

04. Disability Due to Substance Use Disorder or Mental Health Disorder. (7-1-21)

b. Individuals whose practice is or may be impaired due to substance use disorder or to mental health
   disorder may qualify for issuance of a restricted license as an alternative to discipline. (7-1-21)

b. The executive director may restrict the license of an individual who has a substance use disorder or
   mental health disorder for a period not to exceed five (5) years and who:

   i. Holds a current license to practice in Idaho as a registered nurse, advanced practice registered
      nurse, or licensed practical nurse, or is otherwise eligible, and is in the process of applying for licensure; (7-1-21)

   ii. Has a demonstrated or diagnosed substance use disorder or mental health disorder such that ability
       to safely practice is, or may be, impaired; (7-1-21)

   iii. Sign a written statement admitting to all facts that may constitute grounds for disciplinary action or
        demonstrate impairment of the safe practice of nursing, and waiving the right to a hearing and all other rights to due
        process in a contested case under the Idaho Administrative Procedures Act and the Nursing Practice Act; and

   iv. Submit reliable evidence, satisfactory to the executive director, that they are competent to safely
       practice nursing before being authorized to return to active practice. (7-1-21)

c. If ordered, the applicant must satisfactorily complete a treatment program accepted by the Board. (7-1-21)

d. The applicant agrees to participation in the Board’s monitoring program. (7-1-21)

e. Admission to the Program for Recovering Nurses or issuance of a restricted license, or both, may
   be denied for any reason including, but not limited to the following:

   i. The applicant diverted controlled substances for other than self-administration; or (7-1-21)

   ii. The applicant creates too great a safety risk; or (7-1-21)

   iii. The applicant has been terminated from this, or any other, alternative program for non-compliance. (7-1-21)

f. Upon satisfactory compliance with all of the terms of the restricted license, and provided that the
   licensee demonstrates that they are qualified and competent to practice nursing, the executive director will lift the
   restriction imposed. (7-1-21)

05. Compliance Required. Restricted licensure is conditioned upon the individual’s prompt and
faithful compliance with terms and conditions, which may include:

- **a.** Satisfactory progress in any ordered continuing treatment or rehabilitation program.
- **b.** Regular and prompt notification to the Board of changes in name and address of self or any employer.
- **c.** Obtaining of performance evaluations prepared by the employer to be submitted at specified intervals and at any time upon request.
- **d.** Continuing participation in, and compliance with all recommendations and requirements of, the approved treatment or rehabilitation program, and obtaining of reports of progress submitted by the person directing the treatment or rehabilitation program at specified intervals and at any time upon request.
- **e.** Submission of self-evaluations and personal progress reports at specified intervals and at any time upon request.
- **f.** Submission of reports of supervised random alcohol/drug screens at specified intervals and at any time upon request. Participant is responsible for reporting as directed, submitting a sufficient quantity of sample to be tested, and payment for the screening.
- **g.** Meeting with the Board’s professional staff or advisory committee at any time upon request.
- **h.** Working only in approved practice settings.
- **i.** Authorization by licensee of the release of applicable records pertaining to assessment, diagnostic evaluation, treatment recommendations, treatment and progress, performance evaluations, counseling, random chemical screens, and after-care at periodic intervals as requested.
- **j.** Compliance with all laws pertaining to nursing practice, all nursing standards, and all standards, policies and procedures of licensee’s employer relating to any of the admitted misconduct or facts as set out in the written statement signed by licensee, or relating to the providing of safe, competent nursing service.
- **k.** Compliance with other specific terms and conditions as may be directed by the executive director.

### 06. Summary Suspension - Lack of Compliance.

- **a.** Any failure to comply with the terms and conditions of a restricted license is deemed to be an immediate threat to the health, safety, and welfare of the public and the executive director will, upon receiving evidence of any such failure, summarily suspend the restricted license.
- **i.** Summary suspension of a restricted license may occur if, during participation in the program, information is received which, after investigation, indicates the individual may have violated a provision of the law or Board rules governing the practice of nursing.
- **b.** An individual whose restricted license has been summarily suspended by the executive director may request a hearing regarding the suspension by certified letter addressed to the Board. If the individual fails to request a hearing within twenty (20) days after service of the notice of suspension by the executive director, the right to a hearing is waived. If a hearing is timely requested, after the hearing the Board will enter an order affirming or rejecting summary suspension of the restricted license and enter such further orders revoking, suspending, or otherwise disciplining the nursing license as may be necessary. The above provisions do not limit or restrict the right of Board staff to bring any summary suspension order before the Board for further proceedings, even if the licensee has not requested a hearing.
- **c.** The Board may, for good cause, stay any order of the executive director or may modify the terms...
and conditions of a restricted license as deemed appropriate to regulate, monitor or supervise the practice of any licensee. (7-1-21)T

133. EMERGENCY ACTION.
If the Board finds that public health, safety, or welfare requires emergency action and incorporates a finding to that effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action. Such proceedings will be promptly instituted and determined as authorized in Title 67, Chapter 52, Idaho Code. (7-1-21)T

134. -- 219. (RESERVED)

220. QUALIFICATIONS FOR LICENSURE BY EXAMINATION.

01. In-State. Individuals who have successfully completed all requirements for graduation from an Idaho nursing education program approved by the Board will be eligible to make application to the Board to take the licensing examination. (7-1-21)T

02. Out-of-State. Individuals who hold a certificate of completion from a nursing education program having board of nursing approval in another nursing jurisdiction will be eligible to make application to the Board to take the licensing examination, providing they meet substantially the same basic educational requirements as graduates of Idaho nursing education programs at the time of application. (7-1-21)T

03. Practical Nurse Equivalency Requirement. An applicant for practical nurse licensure by examination who has not completed an approved practical nurse program, must provide satisfactory evidence (such as official transcripts) of successful completion of nursing and related courses at an approved school preparing persons for licensure as registered nurses to include a course in personal and vocational relationships of the practical nurse. Related courses are to be equivalent to those same courses included in a practical nursing program approved by the Board. (7-1-21)T

04. Time Limit for Writing Examinations. Graduates who do not take the examination within twelve (12) months following completion of the nursing education program must follow specific remedial measures as prescribed by the Board. (7-1-21)T

221. EXAMINATION APPLICATION.
A completed application for licensure by examination consists of a completed board approved application, all applicable fees and any additional required documentation. (7-1-21)T

222. EXAMINATION AND RE-EXAMINATION.

01. Applicants for Registered or Practical Nurse Licensure. Applicants will successfully pass the National Council Licensure Examination (NCLEX) for registered nurse licensure or for practical nurse licensure, as applied for and approved. In lieu of the NCLEX, the Board may accept documentation that the applicant has taken and successfully passed the State Board Test Pool examination. (7-1-21)T

223. -- 239. (RESERVED)

240. QUALIFICATIONS FOR LICENSURE BY ENDORSEMENT.
An applicant for Idaho licensure by interstate endorsement must: (7-1-21)T

01. Graduation. Be a graduate of a state approved/accredited practical or registered nursing education program that is substantially equivalent to Idaho’s board-approved practical or registered nursing education program. Applicants for practical nurse licensure may also qualify under the provisions of Section 241 of these rules. (7-1-21)T

02. Licensing Examination. Have taken the same licensing examination as that administered in Idaho and achieved scores established as passing for that examination by the Board. (7-1-21)T
03. **Minimum Requirements.** In lieu of the requirements in Subsections 240.01 and 240.02 of this rule, have qualifications that are substantially equivalent to Idaho’s minimum requirements. (7-1-21)T

04. **Current Practice Experience.** Have actively practiced nursing at least eighty (80) hours within the preceding three (3) years. (7-1-21)T

05. **License from Another Nursing Jurisdiction.** Hold a license in good standing from another nursing jurisdiction. The license of any applicant subject to official investigation or disciplinary proceedings is not considered in good standing. (7-1-21)T

241. **LICENSURE BY EQUIVALENCY AND ENDORSEMENT LICENSURE.**

01. **Application by Equivalency.** An applicant for practical nurse licensure by interstate endorsement based on equivalency must meet the following requirements: (7-1-21)T

a. Have successfully taken the same licensing examination as that administered in Idaho; and (7-1-21)T

b. Hold a license in another nursing jurisdiction based on successful completion of nursing and related courses at an approved school preparing persons for licensure as registered nurses to include a course in personal and vocational relationships of the practical nurse (or equivalent experience) and additional courses equivalent to those same courses included in a practical nursing program approved by the Board, and provide evidence thereof. (7-1-21)T

02. **Applicants Licensed in Another Nursing Jurisdiction.** Graduates of schools of nursing located outside the United States, its territories or commonwealths who are licensed in a nursing jurisdiction and who meet the requirements of Subsections 240.02 through 240.05 of these rules may be processed as applicants for licensure by endorsement from another state. (7-1-21)T

03. **Application for Licensure by Endorsement.** A completed application for licensure by interstate endorsement consists of a completed board approved application, all applicable fees and any additional required documentation. (7-1-21)T

242. -- 259. (RESERVED)

260. **QUALIFICATIONS FOR LICENSURE OF GRADUATES OF SCHOOLS OF NURSING LOCATED OUTSIDE THE UNITED STATES, ITS TERRITORIES, OR COMMONWEALTHS.**
A graduate from a nursing education program outside of the United States, its territories or commonwealths must:

01. **Qualifications.** Demonstrate nursing knowledge and English proficiency skills in reading, writing, speaking and listening. (7-1-21)T

02. **Education Credentials.** Have education qualifications that are substantially equivalent to Idaho’s minimum requirements at the time of application. (7-1-21)T

03. **License.** Hold a license or other indication of authorization to practice in good standing, issued by a government entity or agency from a country outside the United States, its territories or commonwealths. (7-1-21)T

04. **Examination/Re-Examination.** Take and achieve a passing score on the licensing examination required in Subsection 222.01 of these rules. (7-1-21)T

261. **APPLICATION FOR LICENSURE OF GRADUATES OF SCHOOLS OF NURSING LOCATED OUTSIDE THE UNITED STATES, ITS TERRITORIES, OR COMMONWEALTHS.**
A completed application for licensure by a graduate of a nursing education program outside of the United States, its territories or commonwealths consists of a completed board approved application, all applicable fees and any additional required documentation. (7-1-21)T
262. -- 270. (RESERVED)

271. DEFINITIONS RELATED TO ADVANCED PRACTICE REGISTERED NURSING.

01. Accountability. Means being answerable for one’s own actions. (7-1-21)T

02. Advanced Practice Registered Nurse. Means a registered nurse licensed in this state who has gained additional specialized knowledge, skills and experience through a graduate or post-graduate program of study as defined herein and is authorized to perform advanced nursing practice, which may include acts of diagnosis and treatment, and the prescribing, administering and dispensing of therapeutic pharmacologic and non-pharmacologic agents, as defined herein. Advanced practice registered nurses includes nurses licensed in the roles of certified nurse-midwife, clinical nurse specialist, certified nurse practitioner, and certified registered nurse anesthetist. Advanced practice registered nurses, when functioning within the recognized scope of practice, assume primary responsibility for the care of their patients in diverse settings. This practice incorporates the use of professional judgment in the assessment and management of wellness and conditions appropriate to the advanced practice registered nurse’s role, population focus and area of specialization. (7-1-21)T

03. Authorized Advanced Practice Registered Nurse. Means an advanced practice registered nurse authorized by the Board to prescribe and dispense pharmacologic and non-pharmacologic agents pursuant to Section 315 of these rules. (7-1-21)T

04. Certification. Means recognition of the applicant’s advanced knowledge, skills and abilities in a defined area of nursing practice by a national organization recognized by the Board. The certification process measures the theoretical and clinical content denoted in the advanced scope of practice, and is developed in accordance with generally accepted standards of validation and reliability. (7-1-21)T

05. Certified Nurse-Midwife. Means a licensed registered nurse who has graduated from a nationally accredited graduate or post-graduate nurse-midwifery program, and has current certification as a nurse-midwife from a national organization recognized by the Board. (7-1-21)T

06. Certified Nurse Practitioner. Means a licensed registered nurse who has graduated from a nationally accredited graduate or post-graduate nurse practitioner program and has current certification as a nurse practitioner from a national organization recognized by the Board. (7-1-21)T

07. Certified Registered Nurse Anesthetist. Means a licensed registered nurse who has graduated from a nationally accredited graduate or post-graduate nurse anesthesia program and has current certification as a nurse anesthetist from a national organization recognized by the Board. (7-1-21)T

08. Clinical Nurse Specialist. Means a licensed registered nurse who has graduated from a nationally accredited graduate or post-graduate clinical nurse specialist program and has current certification as a clinical nurse specialist from a national organization recognized by the Board. (7-1-21)T

09. Collaboration. Means the cooperative working relationship with another health care provider, each contributing their respective expertise in the provision of patient care, and such collaborative practice includes the discussion of patient treatment and cooperation in the management and delivery of health care. (7-1-21)T

10. Consultation. Means conferring with another health care provider for the purpose of obtaining information or advice. (7-1-21)T

11. Diagnosis. Means identification of actual or potential health problems and the need for intervention based on analysis of data collected. Diagnosis depends upon the synthesis of information obtained through interview, physical exam, diagnostic tests or other investigations. (7-1-21)T

12. Intervention. Means measures to promote health, protect against disease, treat illness in its earliest stages, manage acute and chronic illness, and treat disability. Interventions may include, but are not limited to ordering diagnostic studies, performing direct nursing care, prescribing pharmacologic or non-pharmacologic or
other therapies and consultation with or referral to other health care providers. (7-1-21)

13. **Peer Review Process.** The systematic process by which a qualified peer assesses, monitors, and makes judgments about the quality of care provided to patients measured against established practice standards. Peer review:
   a. Measures on-going practice competency of the advance practice registered nurse (APRN); (7-1-21)
   b. Is performed by a licensed APRN, physician, physician assistant, or other professional certified by a recognized credentialing organization; and (7-1-21)
   c. Focuses on a mutual desire for quality of care and professional growth incorporating attitudes of mutual trust and motivation. (7-1-21)

14. **Population Focus.** Means the section of the population which the APRN has targeted to practice within. The categories of population foci are:
   a. Family/individual across the lifespan; (7-1-21)
   b. Adult-gerontology; (7-1-21)
   c. Women’s health/gender-related; (7-1-21)
   d. Neonatal; (7-1-21)
   e. Pediatrics; and (7-1-21)
   f. Psychiatric-mental health. (7-1-21)

15. **Prescriptive and Dispensing Authorization.** Means the legal permission to prescribe, deliver, distribute and dispense pharmacologic and non-pharmacologic agents to a client in compliance with Board rules and applicable federal and state laws. Pharmacologic agents include legend and Schedule II through V controlled substances. (7-1-21)

16. **Referral.** Means directing a client to a physician or other health professional or resource. (7-1-21)

17. **Scope of Practice of Advanced Practice Registered Nurse.** Means those activities that the advanced practice registered nurse may perform. Those activities are defined by the Board according to the advanced practice registered nurse’s education, preparation, experience and the parameters set forth by the advanced practice registered nurse’s recognized, national certifying organization. (7-1-21)

18. **Specialization.** Means a more focused area of preparation and practice than that of the APRN role/population foci that is built on established criteria for recognition as a nursing specialty to include, but not limited to, specific patient populations (e.g., elder care, care of post-menopausal women), and specific health care needs (e.g., palliative care, pain management, nephrology). (7-1-21)

272. -- 279. (RESERVED)

280. **STANDARDS OF PRACTICE FOR ADVANCED PRACTICE REGISTERED NURSING.**

01. **Purpose.** (7-1-21)
   a. To establish standards essential for safe practice by the advanced practice registered nurse; and (7-1-21)
b. To serve as a guide for evaluation of advanced practice registered nursing to determine if it is safe and effective. (7-1-21)

02. Core Standards for All Roles of Advanced Practice Registered Nursing. The advanced practice registered nurse is a licensed independent practitioner who shall practice consistent with the definition of advanced practice registered nursing, recognized national standards and the standards set forth in these rules. (7-1-21)

a. The advanced practice registered nurse shall provide client services for which the advanced practice registered nurse is educationally prepared and for which competence has been achieved and maintained. (7-1-21)

b. The advanced practice registered nurse shall recognize their limits of knowledge and experience and consult and collaborate with and refer to other health care professionals as appropriate. (7-1-21)

c. The advanced practice registered nurse shall evaluate and apply current evidence-based research findings relevant to the advanced nursing practice role. (7-1-21)

d. The advanced practice registered nurse shall assume responsibility and accountability for health promotion and maintenance as well as the assessment, diagnosis and management of client conditions to include the use of pharmacologic and non-pharmacologic interventions and the prescribing and dispensing of pharmacologic and non-pharmacologic agents. (7-1-21)

e. The advanced practice registered nurse shall use advanced practice knowledge and skills in teaching and guiding clients and other health care team members. (7-1-21)

f. The advanced practice registered nurse shall have knowledge of the statutes and rules governing advanced nursing practice, and practice within the established standards for the advanced nursing practice role and population focus. (7-1-21)

g. The advanced practice registered nurse shall practice consistent with Subsections 400.01 and 400.02 of these rules. (7-1-21)

03. Certified Nurse-Midwife. In addition to the core standards, the advanced practice registered nurse in the role of certified nurse midwife provides the full range of primary health care services to women throughout the lifespan, including gynecologic care, family planning services, preconception care, prenatal and postpartum care, childbirth, care of the newborn and reproductive health care treatment of the male partners of female clients. (7-1-21)

04. Clinical Nurse Specialist. In addition to core standards, the advanced practice registered nurse in the role of clinical nurse specialist provides services to patients, care providers and health care delivery systems including, but not limited to, direct care, expert consultation, care coordination, monitoring for quality indicators and facilitating communication between patients, their families, members of the health care team and components of the health care delivery system. (7-1-21)

05. Certified Nurse Practitioner. In addition to core standards, the advanced practice registered nurse in the role of certified nurse practitioner provides initial and ongoing comprehensive primary care services to clients including, but not limited to, diagnosis and management of acute and chronic disease, and health promotion, disease prevention, health education counseling, and identification and management of the effects of illness on clients and their families. (7-1-21)

06. Certified Registered Nurse Anesthetist. In addition to core standards, the advanced practice registered nurse in the role of certified registered nurse anesthetist provides the full spectrum of anesthesia care and anesthesia-related care and services to individuals across the lifespan whose health status may range across the wellness-illness continuum to include healthy persons; persons with immediate, severe or life-threatening illness or injury; and persons with sustained or chronic health conditions. (7-1-21)

07. Documentation of Specialization. Unless exempted under Section 305 of these rules, the
advanced practice registered nurse must document competency within their specialty area of practice based upon education, experience and national certification in the role and population focus. (7-1-21)

281. -- 284. (RESERVED)

285. QUALIFICATIONS FOR ADVANCED PRACTICE REGISTERED NURSE.
To qualify as an advanced practice registered nurse, an applicant shall provide evidence of:

01. Current Licensure. Current licensure to practice as a registered nurse in Idaho;

02. Completion of Advanced Practice Registered Nurse Program. Successful completion of a graduate or post-graduate advanced practice registered nurse program which is accredited by a national organization recognized by the Board; and

03. National Certification. Current national certification by an organization recognized by the Board for the specified APRN role.

286. -- 289. (RESERVED)

290. APPLICATION FOR LICENSURE -- ADVANCED PRACTICE REGISTERED NURSE.
A completed application for licensure as an advanced practice registered nurse requesting licensure to practice as a certified nurse-midwife, clinical nurse specialist, certified nurse practitioner or certified registered nurse anesthetist consists of a completed board-approved application, all applicable fees and any additional required documentation.

291. -- 294. (RESERVED)

295. TEMPORARY LICENSURE -- ADVANCED PRACTICE REGISTERED NURSE.
A temporary license to engage in advanced practice registered nursing may be issued to the following:

01. Applicants Awaiting Initial Certification Examination Results. An otherwise qualified applicant who is eligible to take the first available certification examination following completion of an approved advanced practice registered nurse education program. Verification of registration to write a Board-recognized national certification examination must be received from the national certifying organization.

   a. Temporary licensure to practice shall be deemed to expire upon failure of the certification examination. An applicant who fails the national certification exam shall not engage in advanced practice registered nursing until such time as all requirements are met.

   b. An applicant who is granted a temporary license to practice as an advanced practice registered nurse must submit notarized results of the certification examination within ten (10) days of receipt. Failure to submit required documentation shall result in the immediate expiration of the temporary license.

   c. The temporary license of an applicant who does not write the examination on the date scheduled shall immediately expire and the applicant shall not engage in advanced practice registered nursing until such time as all requirements are met.

02. Applicants Whose Certification Has Lapsed. A licensed registered nurse applying for re-entry into advanced registered nursing practice, who is required by the national certifying organization to meet certain specified practice requirements under supervision. The length of and conditions for temporary licensure shall be determined by the Board.

03. Applicants Holding a Temporary Registered Nursing License. An advanced practice registered nurse currently authorized to practice advanced practice registered nursing in another nursing jurisdiction upon issuance of a temporary license to practice as a registered nurse, and upon evidence of current certification as an advanced practice registered nurse from a Board-recognized national certifying organization.
04. Applicants Without Required Practice Hours. An advanced practice registered nurse who has not practiced the minimum required period of time during the renewal period may be issued a temporary license in order to acquire the required number of hours and demonstrate ability to safely practice. (7-1-21)

05. Application Processing. An APRN whose application has been received but is not yet complete may be issued a temporary license. (7-1-21)

06. Term of Temporary License. A temporary license expires at the conclusion of the term for which it is issued, or the issuance of a renewable license, whichever occurs earlier. (7-1-21)

296. -- 299. (RESERVED)

300. RENEWAL OF ADVANCED PRACTICE REGISTERED NURSE LICENSE.
The advanced practice registered nurse license may be renewed every two (2) years as specified in Section 54-1411, Idaho Code, provided that the advanced practice registered nurse:

01. Current Registered Nurse License. Maintains a current registered nurse license or privilege to practice in Idaho. (7-1-21)

02. Evidence of Certification. Submits evidence of current APRN certification by a national organization recognized by the Board. (7-1-21)

03. Evidence of Continuing Education. Provides documentation of thirty (30) contact hours of continuing education during the renewal period, which shall include ten (10) contact hours in pharmacology if the nurse has prescriptive authority. Continuing education completed may be that required for renewal of national certification if documentation is submitted confirming the certifying organization’s requirement is for at least thirty (30) contact hours. (7-1-21)

04. Hours of Practice. Attests, on forms provided by the Board, to a minimum of two hundred (200) hours of advanced registered nursing practice within the preceding two (2) year period. (7-1-21)

05. Peer Review Process. Provides evidence, satisfactory to the Board, of participation in a peer review process acceptable to the Board. (7-1-21)

06. Exemption From Requirements. Nurse practitioners not certified by a national organization recognized by the Board and approved prior to July 1, 1998 shall be exempt from the requirement set forth in Subsection 300.02 of these rules. (7-1-21)

301. REINSTATEMENT OF ADVANCED PRACTICE REGISTERED NURSE LICENSE.
An advanced practice registered nurse license may be reinstated as specified in Section 54-1411, Idaho Code, provided that the applicant:

01. Current Registered Nurse License. Maintains a current registered nurse license or privilege to practice in Idaho. (7-1-21)

02. Evidence of Certification. Submits evidence of current APRN certification by a national organization recognized by the Board. (7-1-21)

03. Fee. Pays the fee specified in Section 900 of these rules. (7-1-21)

302. -- 304. (RESERVED)

305. PERSONS EXEMPTED FROM ADVANCED PRACTICE REGISTERED NURSING LICENSE REQUIREMENTS.

01. Students. Nothing in these rules prohibits a registered nurse who holds a current license, or privilege, to practice in Idaho and who is enrolled as a matriculated student in a nationally accredited educational
program for advanced practice registered nursing from practicing as an advanced practice registered nurse when such practice is an integral part of the advanced practice registered nurse curriculum. (7-1-21)

02. Certified Nurse Practitioners Licensed Prior to July 1, 1998. A certified nurse practitioner authorized to practice prior to July 1, 1998 may satisfy the requirement of Section 280.07 of these rules by documenting competency within their specialty area of practice based upon education, experience and national certification in that specialty or education, experience and approval by the Board. (7-1-21)

03. Advanced Practice Registered Nurses Educated Prior to January 1, 2016. (7-1-21)
   a. An applicant for APRN licensure who completed a nationally accredited undergraduate or certificate APRN program prior to January 1, 2016, does not need to meet the APRN graduate or post-graduate educational requirements for initial licensure contained within Section 285 of these rules. (7-1-21)
   b. A person applying for APRN licensure in Idaho who: holds an existing APRN license issued by any nursing jurisdiction, completed their formal APRN education prior to January 1, 2016, and who meets all of the requirements for initial licensure contained within Sections 285 and 286 of these rules except for the APRN graduate or post-graduate educational requirement, may be issued an APRN license by endorsement if at the time the person received their APRN license in the other jurisdiction they would have been eligible for licensure as an APRN in Idaho. (7-1-21)

306. DISCIPLINARY ENFORCEMENT.
The Board may revoke, suspend or otherwise discipline the advanced practice registered nurse license of a licensee who fails to comply with current recognized scope and standards of practice, who fails to maintain national certification or competency requirements, or who violates the provisions of the Nursing Practice Act or rules of the Board. (7-1-21)

307. -- 314. (RESERVED)

315. PRESCRIPTIVE AND DISPENSING AUTHORIZATION FOR ADVANCED PRACTICE REGISTERED NURSES.

01. Initial Authorization. An application for the authority to prescribe and dispense pharmacologic and non-pharmacologic agents may be made as part of initial licensure application or by separate application at a later date. Advanced practice registered nurses who complete their APRN graduate or post-graduate educational program after December 31, 2015, will automatically be granted prescriptive and dispensing authority with the issuance of their Idaho license. (7-1-21)
   a. An advanced practice registered nurse who applies for authorization to prescribe pharmacologic and non-pharmacologic agents within the scope of practice for the advanced practice role, shall: (7-1-21)
      i. Provide evidence of completion of thirty (30) contact hours of post-basic education in pharmacotherapeutics obtained as part of study within a formal educational program or continuing education program, related to advanced nursing practice; and (7-1-21)
      ii. Submit a completed, notarized application form provided by the Board. (7-1-21)
   b. Exceptions to the pharmacotherapeutic education may be approved by the Board. (7-1-21)
   c. Prescriptions written by authorized advanced practice registered nurses shall contain all the minimum information required by Idaho Board of Pharmacy statute and administrative rules and applicable federal law as well as the printed name and signature of the nurse prescriber, and the abbreviation for the applicable role of the advanced practice nurse (i.e. “CNP,” “CNM,” “CNS,” or CRNA”). If the prescription is for a controlled substance, it shall also include the DEA registration number and address of the prescriber. (7-1-21)

02. Temporary Authorization. The Board may grant temporary prescriptive authority to an applicant who holds a temporary advanced practice registered nurse license and who meets the requirements for initial
authorization pursuant to Subsection 315.01 of these rules.

03. Expiration of Temporary Prescriptive Authorization. Temporary prescriptive authorization automatically expires on the expiration, revocation, suspension, placement on probation, or denial of any advanced practice registered nurse license.

04. Prescribing and Dispensing Authorization. All authorized advanced practice registered nurses may prescribe and dispense pharmacologic and non-pharmacologic agents pursuant to applicable state and federal laws.

05. Valid Advanced Practice Registered Nurse/Patient Relationships.

a. An advanced practice registered nurse shall not dispense pharmacologic agents except in the course of his professional practice and when a bona fide advanced practice registered nurse/patient relationship has been established. A valid relationship will exist when the advanced practice registered nurse has obtained sufficient knowledge of the patient’s medical condition through examination and has assumed responsibility for the health care of the patient.

b. A valid advanced practice registered nurse/patient relationship is not required when dispensing or prescribing medications under the circumstances set forth at Section 54-1733(4), Idaho Code.

316. GROUNDS FOR DISCIPLINE OF AN ADVANCED PRACTICE REGISTERED NURSE LICENSE.
In addition to the grounds set forth in Section 54-1413, Idaho Code, and Section 100 of these rules, an advanced practice registered nursing license may be suspended, revoked, placed upon probation, or other disciplinary sanctions imposed by the Board on the following grounds:

01. Prescribing or Dispensing Controlled Substances. Prescribing, dispensing, or selling any drug classified as a controlled substance to a family member or to himself. For purposes of Section 316 of these rules, “family member” is defined as the licensee’s spouse, child (biological, adopted, or foster), parent, sibling, grandparent, grandchild, or the same relation by marriage.

02. Violating Governing Law. Violating any state or federal law relating to controlled substances.

03. Outside Scope of Practice. Prescribing or dispensing outside the scope of the advanced practice registered nurse’s practice.

04. Other Than Therapeutic Purposes. Prescribing or dispensing for other than therapeutic purposes.

317. -- 319. (RESERVED)

320. RECOGNITION OF NATIONAL CERTIFYING ORGANIZATIONS FOR ADVANCED PRACTICE REGISTERED NURSING.
The Board recognizes advanced practice registered nurse certification organizations that meet criteria as defined by the National Council of State Boards of Nursing.

321. -- 389. (RESERVED)

390. USE OF TITLES, ABBREVIATIONS, AND DESIGNATIONS FOR THE PRACTICE OF NURSING.

01. Title for Graduates. A new graduate issued a temporary license pursuant to Section 040 of these rules can use the title graduate nurse, abbreviated GN, or graduate practical nurse, abbreviated GPN, or graduate nurse midwife, abbreviated GNM, or graduate clinical nurse specialist, abbreviated GCNS, or graduate nurse practitioner, abbreviated GNP, or graduate nurse anesthetist, abbreviated GNA, whichever is appropriate, until the
renewable license is issued.

02. **Titles for Advanced Practice Registered Nurses.** Individuals who have successfully met all requirements for licensure as an advanced practice registered nurse have the right to use the title corresponding to the role of advanced nursing practice for which the individual is licensed.

   a. Individuals who have successfully met all requirements for licensure as a certified nurse-midwife have the right to use the title certified nurse-midwife, abbreviated APRN, CNM.

   b. Title of Clinical Nurse Specialist. Individuals who have successfully met all requirements for licensure as a clinical nurse specialist have the right to use the title clinical nurse specialist, abbreviated APRN, CNS.

   c. Individuals who have successfully met all requirements for licensure as a certified nurse practitioner have the right to use the title certified nurse practitioner, abbreviated APRN, CNP.

   d. Individuals who have successfully met all requirements for licensure as a certified registered nurse anesthetist have the right to use the title certified registered nurse anesthetist, abbreviated APRN, CRNA.

03. **Registered Nurse Title.** Individuals who have successfully met all requirements for licensure as registered nurse have the right to use the title Registered Nurse, abbreviated RN.

04. **Licensed Practical Nurse Title.** Individuals who have successfully met all requirements for licensure as a practical nurse have the right to use the title Licensed Practical Nurse, abbreviated LPN.

391. -- 399. (RESERVED)

400. **DECISION-MAKING MODEL.**

The decision-making model is the process by which a licensed nurse evaluates whether a particular act is within the legal scope of that nurse’s practice and determines whether to delegate the performance of a particular nursing task in a given setting. This model applies to all licensure categories permitting active practice, regardless of practice setting.

01. **Determining Scope of Practice.** To evaluate whether a specific act is within the legal scope of nursing practice, a licensed nurse shall determine whether:

   a. The act is expressly prohibited by the Nursing Practice Act, or the act is limited to the scope of practice of advanced practice registered nurses or to licensed registered nurses, or the act is prohibited by other laws;

   b. The act was taught as a part of the nurse’s educational institution’s required curriculum and the nurse possesses current clinical skills;

   c. The act does not exceed any existing policies and procedures established by the nurse’s employer;

   d. The act is consistent with standards of practice published by a national specialty nursing organization or supported by recognized nursing literature or reputable published research and the nurse can document successful completion of additional education through an organized program of study including supervised clinical practice or equivalent demonstrated competency;

   e. The employment setting/agency has established policies and procedures or job descriptions authorizing performance of the act; and

   f. Performance of the act is within the accepted standard of care that would be provided in a similar situation by a reasonable and prudent nurse with similar education and experience and the nurse is prepared to accept the consequences of the act.
02. Deciding to Delegate. When delegating nursing care, the licensed nurse retains accountability for the delegated acts and the consequences of delegation. Before delegating any task the nurse shall:

a. Determine that the acts to be delegated are not expressly prohibited by the Nursing Practice Act or Board rules and that the activities are consistent with job descriptions or policies of the practice setting;

b. Assess the client’s status and health care needs prior to delegation, taking into consideration the complexity of assessments, monitoring required and the degree of physiological or psychological instability;

c. Exercise professional judgment to determine the safety of the delegated activities, to whom the acts may be delegated, and the potential for harm;

d. Consider the nature of the act, the complexity of the care needed, the degree of critical thinking required and the predictability of the outcome of the act to be performed;

e. Consider the impact of timeliness of care, continuity of care, and the level of interaction required with the patient and family;

f. Consider the type of technology employed in providing care and the knowledge and skills required to effectively use the technology, including relevant infection control and safety issues;

g. Determine that the person to whom the act is being delegated has documented education or training to perform the activity and is currently competent to perform the act; and

h. Provide appropriate instruction for performance of the act.

03. Delegating to UAPs.

a. The nursing care tasks that may be delegated to UAPs shall be stated in writing in the practice setting. Decisions concerning delegation will be determined in accordance with the provisions of Section 400 of these rules. UAPs may complement the licensed nurse in the performance of nursing functions, but cannot substitute for the licensed nurse; UAPs cannot redelegate a delegated act.

b. Where permitted by law, after completion of a Board-approved training program, UAPs in care settings may assist patients who cannot independently self-administer medications, provided that a plan of care has been developed by a licensed registered nurse, and the act has been delegated by a licensed nurse. Assistance with medication may include: breaking a scored tablet, crushing a tablet, instilling eye, ear or nose drops, giving medication through a pre-mixed nebulizer inhaler or gastric (non-nasogastric) tube, assisting with oral or topical medications and insertion of suppositories.

04. Monitoring Delegation. Subsequent to delegation, the licensed nurse shall:

a. Evaluate the patient’s response and the outcome of the delegated act, and take such further action as necessary; and

b. Determine the degree of supervision required and evaluate whether the activity is completed in a manner that meets acceptable outcomes. The degree of supervision shall be based upon the health status and stability of the patient, the complexity of the care and the knowledge and competence of the individual to whom the activity is delegated.

401. LICENSED REGISTERED NURSE (RN).
In addition to providing hands-on nursing care, licensed registered nurses work and serve in a broad range of capacities including, but not limited to, regulation, delegation, management, administration, teaching, and case management. Licensed registered nurses, also referred to as registered nurses or as “RNs,” are expected to exercise competency in judgment, decision making, implementation of nursing interventions, delegation of functions or
Standards of Practice. A licensed registered nurse adheres to the decision-making model set forth in Section 400 of these rules.

Functions. A partial listing of tasks within the licensed registered nurse’s function follows. This listing is for illustrative purposes only, it is not exclusive. The licensed registered nurse:

a. Assesses the health status of individuals and groups;

b. Utilizes data obtained by assessment to identify and document nursing diagnoses which serve as a basis for the plan of nursing care;

c. Collaborates with the patient, family, and health team members;

d. Develops and documents a plan for nursing intervention based on assessment, analysis of data, identified nursing diagnoses and patient outcomes;

e. Is accountable and responsible for implementation of planned and prescribed nursing care;

f. Maintains safe and effective nursing care by:

i. Maintaining a safe environment;

ii. Evaluating patient status and instituting appropriate therapy or procedures which might be required in emergency situations to stabilize the patient’s condition or prevent serious complications in accordance with standard procedures established by the policy-making body in the health care setting, including but not limited to administration of intravenous drugs and starting intravenous therapy based on protocols if the patient has been assessed and determined to be in peril;

iii. Acting as a patient’s advocate;

iv. Applying principles of asepsis and infection control and universal standards when providing nursing care;

v. Implementing orders for medications and treatments issued by an authorized prescriber; and

vi. Providing information and making recommendations to patients and others in accordance with employer policies;

Utilizes identified goals and outcomes to evaluate responses to interventions;

h. Collaborates with other health professionals by:

i. Communicating significant changes in a patient’s status or responses to appropriate health team professionals;

ii. Coordinating the plan of care with other health team professionals; and

iii. Consulting with nurses and other health team members as necessary;

i. Teaches the theory and practice of nursing; and

j. Facilitates, mentors and guides the practice of nursing formally and informally in practice settings.
k. Engages in other interfaces with healthcare providers and other workers in settings where there is not a structured nursing organization and in settings where healthcare plays a secondary role, where the nurse needs to identify the nursing role and responsibility for the particular type of interface, for example, teaching, supervising, consulting, advising, etc.

03. Chief Executive Role. A licensed registered nurse functioning in a chief executive role is accountable and responsible for:

a. Prescribing, directing and evaluating the quality of nursing services including, but not limited to, staff development and quality improvement;

b. Assuring that organizational policies and procedures, job descriptions and standards of nursing practice conform to the Nursing Practice Act and nursing practice rules;

c. Assuring that the knowledge, skills and abilities of nursing care staff are assessed and that nursing care activities do not exceed the legally defined boundaries of practice; and

d. Assuring that documentation of all aspects of the nursing organization is maintained.

04. Management Role. A licensed registered nurse functioning in a management role is accountable and responsible for:

a. The quality and quantity of nursing care provided by nursing personnel under their supervision;

b. Managing and coordinating nursing care in accordance with established guidelines for delegation; and

c. Providing leadership in formulating, interpreting, implementing, and evaluating the objectives and policies of nursing practice.

402. LICENSED REGISTERED NURSE FUNCTIONING IN SPECIALTY AREAS.

01. Extended Functions. A licensed registered nurse may carry out functions beyond the basic educational preparation described in Sections 600 through 681 of these rules under certain conditions.

02. Conditions for Licensed Registered Nurses Functioning in Specialty Practice Areas. A licensed registered nurse may carry out functions defined within parameters of a nursing specialty that meets criteria approved by the American Board of Nursing Specialties (ABNS) or the National Commission for Certifying Agencies (NCCA) of the National Organization for Competency Assurance (NOCA) when the nurse:

a. Can document successful completion of additional education through an organized program of study including supervised clinical experience or equivalent demonstrated competence consistent with provisions of Section 400 of these rules; and

b. Conforms to recognized nursing specialty practice parameters, characters, and standards for practice of the specialty.

403. -- 459. (RESERVED)

460. LICENSED PRACTICAL NURSE (LPN).
Licensed practical nurses function in dependent roles. Licensed practical nurses, also referred to as LPNs, provide nursing care at the delegation of a licensed registered nurse, licensed physician, or licensed dentist pursuant to rules established by the Board. The stability of the patient’s environment, the patient’s clinical state, and the predictability of the outcome determine the degree of direction and supervision that must be provided to the licensed practical
01. **Standards.** The licensed practical nurse shall be personally accountable and responsible for all actions taken in carrying out nursing activities and adheres to the decision-making model set forth in Section 400 of these rules.

02. **Functions.** A partial listing of some of the functions that are included within the legal definition of licensed practical nurse, Section 54-1402(3), Idaho Code, (Nursing Practice Act) follows. This list is for example only, it is not complete. The licensed practical nurse:

   a. Contributes to the assessment of health status by collecting, reporting and recording objective and subjective data;

   b. Participates in the development and modification of the plan of care;

   c. Implements aspects of the plan of care;

   d. Maintains safe and effective nursing care;

   e. Participates in the evaluation of responses to interventions;

   f. Fulfills charge nurse responsibilities in health care facilities as allowed by state and federal law;

   g. Delegates to others as allowed by application of the decision-making model; and

   h. Accepts delegated assignments only as allowed by application of the decision-making model.

   i. Engages in other interfaces with healthcare providers and other workers in settings where there is not a structured nursing organization and in settings where health care plays a secondary role, where the nurse needs to identify the nursing role and responsibility for the particular type of interface, for example, teaching, supervising, consulting, advising, etc.

461. -- 490. (RESERVED)

491. **TECHNICIANS/TECHNOLOGISTS.**

01. **Functions.** Technicians/technologists may perform limited nursing functions within the ordinary, customary, and usual roles in their fields and are exempted from licensure by the Board under Section 54-1412, Idaho Code, provided they are:

   a. Enrolled in or have completed a formal training program acceptable to the Board; or

   b. Registered with or certified by a national organization acceptable to the Board.

02. **Supervision.** Technicians/technologists providing basic nursing care services on an organized nursing unit in an institutional setting must function under the supervision of a licensed registered nurse.

492. -- 599. (RESERVED)

600. **NURSING EDUCATION FOR REGISTERED AND PRACTICAL NURSES.**

601. **PURPOSE OF APPROVAL.**

To assure safe practice of nursing by establishing standards, criteria, and curriculum requirements for education programs preparing persons for the practice of nursing, and for enhancing the knowledge and skills of those in practice.
01. **Preparation of Graduates.** To ensure that graduates of nursing education programs are prepared for safe and effective nursing practice. (7-1-21)

02. **Guide for Development.** To serve as a guide for the development of new nursing education programs. (7-1-21)

03. **Continued Improvement.** To foster the continued improvement of established nursing education programs. (7-1-21)

04. **Evaluation Criteria.** To provide criteria for the evaluation of new and established nursing education programs. (7-1-21)

05. **Eligibility for Licensing Examination.** To assure eligibility for admission to the licensing examination for nurses, and to facilitate interstate endorsement of graduates of Board-approved nursing education programs. (7-1-21)

602. **APPROVAL OF A NEW EDUCATIONAL PROGRAM.**

01. **Educational Programs.** (7-1-21)

   a. Any university, college, or other institution wishing to establish a nursing education program must make application to the Board on forms supplied by the Board. The following information is to be included with the initial application:

   i. Purpose for establishing the nursing education program;
   (7-1-21)

   ii. Community needs and studies made, as basis for establishing a nursing education program;
   (7-1-21)

   iii. Type of program;
   (7-1-21)
