SUBJECT: Overview of Special Edition Bulletin on Historical State Executive Orders

Under Idaho Code, the Division of Financial Management (DFM) publishes the Idaho Administrative Bulletin. While most known for publishing all state administrative rules, the Bulletin **by law** must also include all executive orders of the Governor.

DFM currently provides on its website a **cumulative index** of executive orders published since September 1995 with direct links to the text of each. Any executive order issued prior to this date must be obtained from the Idaho State Archives, which is the official repository for historic Idaho records and provides public access to records of fiscal, administrative, legal, and long-term research value to the citizens and government of Idaho.

Executive orders are often used to respond to specific emergencies or challenges facing the state, or they may seek to improve the management or operations of state government. Given the rich history that executive orders represent, DFM and the Idaho State Archives collaborated to make this resource available online, publishing a cumulative and searchable Bulletin of all known executive orders issued prior to 1995.

In this Bulletin you will find the first currently known executive order issued in the state, signed by Governor Barzilla Clark in 1938 and dealing with price protections for potatoes. Other executive orders deal with disaster relief funds associated with emergencies like the failure of the Teton Dam, or the assignment of duties to various agencies or councils.

We invite researchers, scholars, and lovers of Idaho history to continue to supplement this file over time with any executive orders that may have been omitted. DFM intends to update this resource to ensure it reflects a comprehensive record of all known state executive orders.

We hope you find this Bulletin interesting and useful in telling the rich history of Idaho state government!

# PREFACE

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Division of Financial Management, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

## CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 19-1 refers to the first Bulletin issued in calendar year 2019; Bulletin 20-1 refers to the first Bulletin issued in calendar year 2020. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 19-1 refers to January 2019; Volume No. 20-2 refers to February 2020; and so forth. Example: The Bulletin published in January 2019 is cited as Volume 19-1. The December 2019 Bulletin is cited as Volume 19-12.

## RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon Bulletin publication. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the **Cumulative Rulemaking Index**. Link to it on the Administrative Rules homepage at [adminrules.idaho.gov](https://adminrules.idaho.gov).

## THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.

## **1. NEGOTIATED RULEMAKING**

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so. The agency files a "Notice of Intent to Promulgate – Negotiated Rulemaking" for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency's intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

## **2. PROPOSED RULEMAKING**

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a "Notice of Rulemaking – Proposed Rule" in the Bulletin. This notice must include very specific information regarding the rulemaking including all relevant state or federal statutory authority occasioning the rulemaking, a non-technical description of the changes being made, any associated costs, guidance on how to participate through submission of written comments and requests for public hearings, and the text of the proposed rule in legislative format.

## **3. TEMPORARY RULEMAKING**

Temporary rules may be adopted only when the governor finds that it is necessary for:

- a) protection of the public health, safety, or welfare; or
- b) compliance with deadlines in amendments to governing law or federal programs; or
- c) conferring a benefit.

If a rulemaking meets one or more of these criteria, and with the Governor's approval, the agency may adopt and make a temporary rule effective prior to receiving legislative authorization and without allowing for any public input. The law allows an agency to make a temporary rule immediately effective upon adoption. A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

## **4. PENDING RULEMAKING**

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule. When a pending rule is published in the Bulletin, the agency is required to include certain information in the "Notice of Rulemaking – Pending Rule." This includes a statement giving the reasons for adopting the rule, a statement regarding when the rule becomes effective, a description of how it differs from the proposed rule, and identification of any fees being imposed or changed.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule.

## **5. FINAL RULEMAKING**

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.

## HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the **Idaho Administrative Bulletin** are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “**IDAPA**” number. (The “**IDAPA**” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or sections to which a two-digit “**TITLE**” number is assigned. There are “**CHAPTER**” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

### **IDAPA 38.05.01.200.02.c.ii.**

“**IDAPA**” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“**38.**” refers to the Idaho Department of Administration

“**05.**” refers to Title 05, which is the Department of Administration’s Division of Purchasing

“**01.**” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

“**200.**” refers to Major Section 200, “Content of the Invitation to Bid”

“**02.**” refers to Subsection 200.02.

“**c.**” refers to Subsection 200.02.c.

“**ii.**” refers to Subsection 200.02.c.ii.

## DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “**DOCKET NUMBER.**” The docket number is a series of numbers separated by a hyphen “-”, (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

### **“DOCKET NO. 38-0501-1901”**

“**38-**” denotes the agency’s IDAPA number; in this case the Department of Administration.

“**0501-**” refers to the **TITLE AND CHAPTER** numbers of the agency rule being promulgated; in this case the Division of Purchasing (**TITLE 05**), Rules of the Division of Purchasing (**Chapter 01**).

“**1901**” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in **calendar year 2019**. A subsequent rulemaking on this same rule chapter in calendar year 2019 would be designated as “**1902**”. The docket number in this scenario would be 38-0501-1902.

Within each Docket, only the affected sections of chapters are printed. (See **Sections Affected Index** in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

**(BREAK IN CONTINUITY OF SECTIONS)**

EXECUTIVE ORDER

The Potato Growers of Idaho harvested and now have in storage the largest and finest crop of potatoes in the history of the State. Because of the fine quality and the wide-spread advertising program, prices have advanced to where growers now realize some profit.

It has been called to my attention that certain dealers are shipping culls which will undoubtedly lower the price of all grades and nullify the good reputation that Idaho potatoes enjoy. Because many growers and a large majority of dealers have appealed to this office for assistance to stop cull shipments, I, therefore, call upon all dealers and shippers of Idaho potatoes to forego the shipment of culls in order that No. 1's and No. 2's may reach a profitable price to the grower and that the Idaho potato will still be in favor because of its good quality. I request that the Department of Agriculture exercise the necessary authority in carrying out this order.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Idaho to be affixed at the Capitol this 25th day of November, 1936.

  
GOVERNOR

EXECUTIVE ORDER

In re: Group Insurance for State Employees #1960-1

WHEREAS the 35th Idaho Legislature authorized the state, county, or any political subdivision to enter into contracts for the purpose of providing group insurance for employees. Chapter 216 of the 1959 Idaho Session Laws

provides: "SECTION 1. Any governmental body...operated by the State of Idaho, municipality, county or other political subdivision of the State of Idaho,...is hereby authorized to make contracts of group insurance and arrangements with prepayment plans, insuring and covering life, health, hospitalization, medical and surgical service and expense, accident insurance, contracts of annuities and pensions, or any one or more of such forms of coverage for the benefit of its elected or appointed officers and employees including life, hospitalization, medical and surgical expense insurance or prepayment plan coverage for dependents of such officers and employees."

Section 2 of this chapter provides that such insurance plans may be employer-contributing as well as employee-contributing. This enactment had force and effect from March 17, 1959.

WHEREAS the State Board of Examiners last spring took cognizance in this matter, studied, and asked insurance carriers to make proposals under this statute insofar as employees of the State of Idaho were concerned. The Board of Examiners has received and studied the proposals from several carriers.

WHEREAS the Attorney General has given as his opinion contracting authority with respect to such insurance plans as above mentioned is vested individually in the several agencies, departments, boards, commissions, and institutions (hereafter referred to as Departments), and further, that such contracting is not within the powers of the Board of Examiners.

WHEREAS it is the purpose of this order to authorize the execution of an insurance program in the Executive Department.

WHEREAS there are more than one hundred different Departments of state government who employ a total in excess of 6,000 Idahoans and there must be uniformity in the benefits available to state employees regardless of the Department in which they are employed.

WHEREAS the benefits of group health, accident, and life insurance will intimately affect the persons employed by state government and there is widespread desire and need for such coverage.

WHEREAS careful study of the appropriation structures of each Department of state government by the Bureau of the Budget and through conferences with department heads indicates that with only a few exceptions the several Departments do have the capacity within their present appropriation framework to enter into group insurance contracts which are employer-contributed insofar as life insurance coverage is concerned. This can be done without impairing in any way the Departments performance. In fact, efficiency may be increased by reducing turnover in personnel.

NOW, THEREFORE, IT IS HEREBY ORDERED:

(1) That the responsible head of each Department will give consideration as soon as possible to the opportunity to contract for group life, health and accident insurance, and he will move with all deliberate speed to bring the coverage into being for the reasons appearing herebefore.

(2) In group insurance plans which may be adopted, the authorization for employer-contributions will be utilized to procure group life, accidental death, dismemberment and disability insurance. The employer-contributions will not be used for any other type of insurance. The amount of life insurance coverage will be equal to the annual salary of the employee covered but not to exceed a maximum of \$10,000 per employee.

(3) In order that the head of each Department may have the benefit of study of the Board of Examiners previous files it is requested that they familiarize themselves with the abstract of coverages and rates proposed to the Board by the several carriers which is on file with the Commissioner of Insurance.

(4) The authority herein conferred does not extend beyond the close of the current fiscal period - June 30, 1961.

(5) In negotiating and concluding agreements with carriers for coverage, each Department head is requested to advise and counsel with the Commissioner of Insurance in the spirit of Title 41, Chapter 33, Idaho Code. It is directed that copies of the actual, final agreement be submitted to the Commissioner for his review prior to execution by the Department head. It is directed that the lowest and best proposal for insurance coverage be sought by the Departments in order that the cost of the program can be held at a minimum.

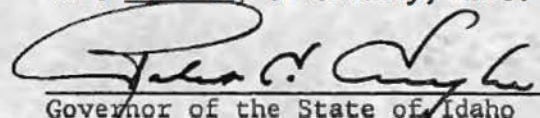

(6) The State Auditor advises that the central accounting system has provisions within it for the orderly administration of the payroll for both employer and employee contributing plans. A copy of the agreement will be placed on file with the State Auditor and his advice and counsel sought with regard to orderly accounting and administration of the insurance programs by each Department head.

(7) For the purpose of allotment control and appropriation integrity, each Department head will file a copy of the agreement, accompanied by a monthly projection of employer costs, with the Bureau of the Budget.

(8) The heads of Departments employing a relatively small number of persons will work with the Commissioner of Insurance and interested insurance carriers in the consideration and development of a plan of insurance wherein through concurrent and cooperative action by these Department heads the benefits and economies of large-group insurance plans will be made available to their personnel. This will further maintain equality of benefit for employees.

IN WITNESS OF THE ABOVE ORDER

EXECUTIVE ORDER

The 36th Idaho Legislature enacted into law H. B. No. 217, which is now currently cited as Chapter 309, Idaho Session Laws of 1961, which is titled AN ACT PROHIBITING DISCRIMINATION IN EMPLOYMENT AND IN PUBLIC ACCOMMODATIONS BECAUSE OF RACE, CREED, COLOR OR NATIONAL ORIGIN.

This Act declares it to be the public policy of this State to protect by legal sanction each citizen against discrimination because of race, creed, color, or national origin and recognizes the existence of this protection as an enforceable civil right.

Idaho has always maintained an enviable position on the national scene in terms of acceptance and community recognition of the rights of persons of divergent background, in terms of national origin, religious persuasion, color and creed, and to a very laudable extent has recognized the cultural and economic contribution to our community life which has been made by minority groups among us.

IN VIEW OF THIS NEW STATUTE AND IN RECOGNITION OF THESE FACTS, IT IS HEREBY ORDERED:

(1) That all contracts for construction or procurement to which the State of Idaho is a party shall hereafter include a clause following in harmony with the above cited statute.

(2) That personnel policies of all State agencies shall include anti-discrimination provisions. Responsible heads of the State agencies, departments, institutions, boards and commissions are directed to take the necessary steps to implement the provisions of this Order and of the statute cited above.

(3) All agencies, departments, institutions, boards and commissions shall review existing policies and bring any non-complying policies into compliance with the new law.

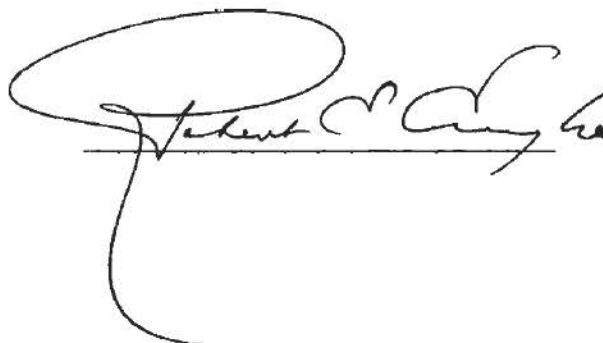

(4) Reports of compliance with this Order shall be filed as soon as practicable after the effective date of the Order and annually thereafter by each affected governmental organization. The Director of Administration will receive these reports and make a report of compliance herewith to the Governor from time to time.

(5) This Order shall be effective on and after May 3, 1961.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the 24th day of April, in the year of our Lord Nineteen Hundred and Sixty-one and of the Independence of the United States the One Hundred and Eighty-fifth.

EXECUTIVE ORDER NO. 2-61

SUBJECT: PERMANENT BUILDING PROGRAM; IMPLEMENTATION

The 36th Idaho Legislature enacted Chapter 43, Idaho Session Laws of 1961, which was designed to meet emergency building needs of the State of Idaho at its several state institutions, and to provide a permanently financed plan of meeting future building needs.

For the first time Idaho has a comprehensive plan for meeting the building needs of the state institutions as they now exist and as they will arise in the future. The purpose of this executive order is to set forth the philosophy on which this new law is based and to elucidate executive policy designed to implement this statute.

There are many instances at all the institutions where over the last fifty years we have not built as wisely, or as economically, or as soundly, as might have been the case in ideal circumstances.

This fact suggests the necessity for centralized planning and supervision of a well conceived building program based on need. We need above all to develop a plan that will use the talents of our citizens who are trained in such problems and who will work in cooperation with central coordinating authority, and with the several institutions, in achieving adequate buildings at a minimum cost. This law establishes a Permanent Building Fund Advisory Council to advise the Commissioner of Public Works on building needs, priority of construction, the planning of buildings, and the construction thereof. This Council consists of a member of each of the two Legislative Houses, plus a contractor, a banker and a member of the business community. The advice and consent of this Board of Advisors is required in connection with all decisions concerning the administration of these building appropriations and appropriations made in subsequent years.

The law requires the approval of the responsible head of the institution concerned before planning and/or construction can be undertaken.

The building priorities under Section 7 of this statute are essentially emergency in nature and represent the State's effort to catch up with immediately pressing needs.

The fund which supports these building needs is a continuing one. Building plans must be coordinated, must be sound and well-founded and based on an intelligent assessment of the long-range future needs of Idaho. Buildings, if planned only for immediate needs, can be obsolete soon after construction is completed in these rapidly changing times.

The building plans must be based on the future not so much in size but in design. The past decade has seen revolutionary changes in the mission of nearly all of the state institutions. A few examples include the introduction and broad use of tranquilizing drugs at the institutions treating with mental illness; new social, educational, and psychiatric concepts in the care

and treating of maladjusted children; enormous increases in the body of knowledge with which our institutions of higher education must be concerned.

Therefore, the planning of Idaho's future buildings must be bottomed on a philosophy which understands the legitimate future goals, aspirations and needs of the people of Idaho; on the fact that the people of the State are the perpetual, on-going proprietors of these buildings; and that flexibility and low maintenance costs are the keystones in sound design.

This legislation provides for the use of tax anticipation notes in order that construction may go forward as soon as design and engineering permit. This is in harmony with the legislative desire to meet the emergency needs as soon as possible.

NOW, THEREFORE, pursuant to the authority contained in Article IV, Section 6, Constitution of Idaho, IT IS ORDERED:

(1) Justification in writing of the need for buildings proposed for construction in the 1963-1965 biennium will be submitted to the Department of Public Works not later than March 1, 1962. The Department will develop criteria and forms for making these submissions.

(2) All agencies, commissions, boards, departments, and institutions of the government of the State of Idaho are directed to, and will hereafter, confer and advise with the Commissioner of Public Works and the Permanent Building Fund Advisory Council prior to contracting for any architectural, engineering, design, or consulting services whether preliminary, continuing, or final, in connection with State buildings, building projects, extensive remodeling or renovations; and will secure the approval of the Department as a condition precedent to any such contract. All agencies shall observe the fiscal provisions of Sections 67-3517, 67-3523, Idaho Code, particularly those requirements concerning the allotment of funds prior to entering into contracts for design, either preliminary or final, or construction of any sort. Site location is specifically subject to the provisions of this paragraph and this order. Attention is specifically directed to Section 67-2304, Idaho Code, and to Sections 8 and 9, Chapter 43, Idaho Session Laws of 1961.

(3) All agencies and institutions will cooperate fully with the Permanent Building Fund Advisory Council and the Commissioner of Public Works in the effort to obtain for Idaho the most efficient, functional and economic buildings consistent with the long-range needs of Idaho.

(4) All agencies of state government are instructed to share their estimates of building needs, their long-range aspirations and goals with the Permanent Building Fund Advisory Council in order that the Council may be informed in the earliest stages of building planning in order to facilitate the exercise of the Council's sound judgment.

(5) All agencies, commissions, departments and boards will forthwith review any presently outstanding contracts for architectural services with the Commissioner of Public Works and the Permanent Building Fund Advisory Council.

(6) The office of the Commissioner of Public Works will function as the secretariat for the Permanent Building Fund Advisory Council. The Council will select from its membership a chairman and the Council shall meet not less than once in every calendar quarter in the office of the Commissioner

of Public Works in the Capitol Building at Boise. The Council may meet at the call of the Chair as often and in such locations throughout the State as may appear necessary for the expeditious transaction of business. Members of the Council will receive no salary, but will be reimbursed for their travel expenses and subsistence in the manner provided in the statutes and regulations for other State offices and employees. The Council will visit and physically inspect each of the State institutions for which appropriations have been made from the Permanent Building Fund by this session of the legislature as soon as is practicable, but certainly prior to the authorization of any expenditures.

(7) The Commissioner of Public Works will cause to be prepared and submitted to the Bureau of the Budget in the same fashion and time as other budgets are submitted a separate budget request for capital construction items to be built with moneys in the Permanent Building Fund. This request should include new buildings and items of construction which are major maintenance or repair which have heretofore been carried in capital outlay operating requests. This request will be developed from submissions made pursuant to paragraph (1) of this order and will be completed with the advice and consent of the Permanent Building Fund Advisory Council. The proposed priorities of construction will be set forth in the request together with justification of the project. The Bureau of the Budget will prescribe the form of this capital construction budget and will submit it to the Governor at the same time as the operating budget is submitted.

(8) This order shall be effective on and after July 1, 1961, but will guide all affected activities between the present date and July 1, 1961.

IN WITNESS WHEREOF, I have set  
my hand and caused to be affixed the  
Great Seal of the State of Idaho this  
tenth day of May, 1961.

**SUBJECT:** The Idaho State Police Operations Manual and a Revised Merit System of Career Personnel Administration for the Idaho State Police.

WHEREAS, in order to develop and insure uniformity throughout the Idaho State Police in the fields of administration, management, and operations, and in order to provide for more complete implementation of a merit system in the hiring, promotion, and administration of the personnel of the Idaho State Police, an administrative and managerial study was initiated in October, 1960. The result of this study is the Idaho State Police Operations Manual which becomes effective with promulgation of this Order.

NOW, THEREFORE, IT IS HEREBY ORDERED THAT:

- (1) The Idaho State Police Operations Manual will be in full force and effect on and after May 15, 1961.
- (2) The Director of Administration is charged with supervising the administration of the implementation of this Manual.
- (3) The Superintendent of the Idaho State Police is charged with the routine implementation of those parts of the Manual dealing with specific police-type operations, and with insuring that the letter and spirit of the Manual is followed in the administration of the Idaho State Police.
- (4) Until such time as the final printing of the Manual is accomplished, the master copy in the possession of the Director of Administration will contain the authorized text.
- (5) The Idaho State Police Merit Board, duly appointed by the Governor, becomes operative on May 15, 1961; and the Idaho State Police Merit Board will:
  - a. Establish seniority rank-in-grade and classification status within the Idaho State Police as outlined in Paragraph 6-008.t of the Manual.
  - b. Process the employment of additional officers in order to fill vacancies and in order to bring the Idaho State Police up to the strength authorized by the 1961 Legislature. This recruitment must be completed not later than September 1, 1961, so that the 1961 Recruit School may be conducted during October, 1961.

c. Receive recommendations for promotion among incumbents or search for outside candidates to fill the vacancies in the newly established positions of Captain-Operations Officer and Sergeant-Port of Entry Coordinator.

d. Consider candidates for promotion to District Lieutenant in order to fill the vacancy in District 2.

(6) The new Merit Rating System will be started immediately to provide the Merit Board with an additional basis for their selection of candidates. Under the direction of the Director of Administration, a school in rating procedures, based on the new rating form, will be conducted for all supervisors within the Idaho State Police. For this initial rating, the provisions of the second sentence of Paragraph 6-013.f (5) shall not apply.

(7) The Property Officer, under the direction of the Lieutenant-Inspector, and with the assistance of the Director of Administration, will conduct the inventories required in Paragraph 12-001.a of the Manual. The system of supply acquisition, accountability, responsibility, stockage, and disposition of salvageable items, as outlined in Chapter 12-000 of the Manual will become effective on the effective date of the Manual, except those portions which are dependent upon completion of the inventories, will become effective upon the completion of the inventories. The Director of Administration will coordinate the disposition of salvage items with the Departments of Highways and Law Enforcement.

(8) Authorized additions to the clothing and equipment of individual employees will be purchased and issued as outlined in Chapter 12-000 upon receipt of instructions from the Director of Administration.

(9) The purchase of new police vehicles, now needed for replacements, will be expedited under the direction of the Director of Administration and in accordance with the Operations Manual.

(10) The Lieutenant-Training will immediately begin the preparation of a training program and schedule for the 1961 Recruit School, as outlined in Chapter 9-000. Requests for the use of facilities under the control of the Idaho National Guard at Gowen Field, Boise, Idaho, will be coordinated through the Director of Administration.

(11) Incumbent officers of the Idaho State Police who have not had experience in the Port of Entry category approximating the times specified in the Manual will be provided with special instructional material by the Lieutenant-Training, in order to remedy this lack of training, and the new Operations Officer will assign a short tour of Port of Entry duty to such officers when, in his judgment, the good of the service requires such assignment.

(12) Chapter 17-000 of the Manual will be considered to be in "draft" status until the Sergeant-Port of Entry Coordinator and the Officers-in-Charge of all Ports of Entry have had an opportunity to meet and resolve any inconsistencies in operations that may exist. This shall be accomplished by July 1, 1961. Until this is accomplished, the draft chapter will be considered as a guide except in any instances where it may be found to be inconsistent with the laws of the State of Idaho.

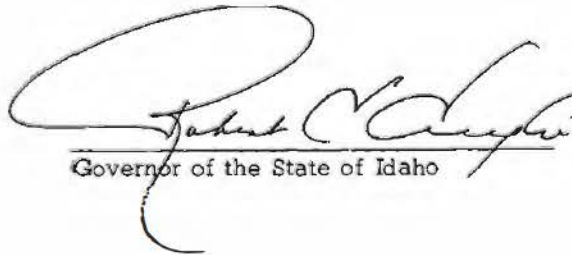

(13) Paragraph 6-009 shall become effective to the extent possible with the present forces within the Idaho State Police. Paragraphs 6-009.h(1) and 6-009.h(6) may require an unusual number of exceptions until the force is augmented in November, 1961. District Lieutenants will follow the spirit of these paragraphs as closely as possible until that date.

(14) Each District Lieutenant will make arrangements to accomplish the first required annual physical examination for officers in his District prior to December 1, 1961.

(15) The final printing and distribution of the Manual will be accomplished under the direction of the Director of Administration acting in cooperation with the Superintendent of the Idaho State Police.

EXECUTIVE ORDER

During recent months numerous studies on the national and state level have been made regarding the advisability of the use of seat belts in passenger cars and trucks.

The American Medical Association, The National Safety Council, The President's Committee for Traffic Safety, and many others have furnished irrefutable evidence illustrating the fact that the use of seat belts in motor vehicles reduces the number of traffic deaths and the severity of traffic accident injuries dramatically.

A conclusive study by the Traffic Safety Division of the Department of Law Enforcement at the state level indicates that traffic fatalities in the State of Idaho could be reduced as much as 35 per cent if all motor vehicles were equipped with seat belts and if the drivers and passengers used them at all times when the vehicle is in motion.

Case histories show that the lives of at least three state employees have been saved in recent years when state-owned motor vehicles were involved in serious motor vehicle accidents. In each of these three cases no injury was sustained. All three of these state employees were wearing seat belts at the time the accident occurred.

IN VIEW OF THIS EVIDENCE AND THE FACTS ABOVE PRESENTED, IT IS HEREBY ORDERED:

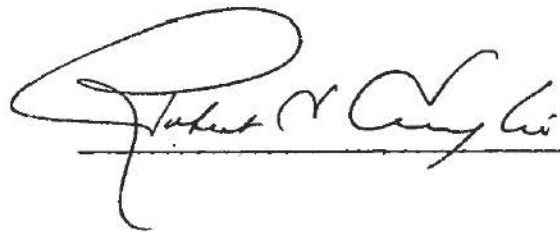

1. That all agencies, departments, institutions, boards, and commissions of state government operating state-owned motor vehicles will equip such vehicles with seat belts meeting SAE or GSA standards.
2. That two such seat belts shall be installed in the front seat of state-owned cars for the use of the driver and one passenger.
3. That state-owned motor trucks shall have one seat belt installed for the use of the driver only.
4. That all state employees, when operating state-owned motor vehicles equipped with seat belts, are hereby specifically directed to properly secure themselves with the seat belt at all times when the vehicle is in motion.
5. The the State Purchasing Agent shall include seat belts in compliance with the order on all specifications for the purchase of passenger vehicles and trucks.

6. That all motor vehicles and trucks presently in service shall be equipped in compliance with this order at the earliest possible time.
7. That all department, agency, and institution heads will furnish statements of compliance with this order to the Traffic Safety Division, Department of Law Enforcement, not later than September 1, 1961.
8. That enforcement of this order shall be the responsibility of the Traffic Safety Division, Department of Law Enforcement.
9. That this order shall become effective on and after August 1, 1961.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the 17th day of July, in the year of our Lord nineteen hundred and sixty-one and of the Independence of the United States the one hundred and eighty-sixth.

EXECUTIVE ORDER

After a review of the recommendations of the Advisory Council of the Department of Commerce and Development and the history of air carrier service in the State of Idaho it appears both desirable and necessary to provide and maintain an organized liaison between the people of the State and air carriers serving the needs of the State. The necessity for better communications between carriers and the communities they serve appears to be more urgent as industrialization continues with the State. In order that the people of Idaho may be more certain and satisfactorily served by certified air carriers, and in order to assure regular, dependable and adequate scheduled services for passengers, freight and mail both now and in the future it is directed that an Airline Service Coordinating Committee be formed.

The Airline Service Coordinating Committee shall consist of five members to be appointed by the Governor as special assistants to serve without pay and at the pleasure of the Governor. Members of the committee shall be as broadly representative of the economy, regions and people of Idaho as possible and shall have knowledge of the air carrier needs and interests of the communities, businesses and industries within the State of Idaho.

It shall be the duty of the Airline Service Coordinating Committee to consult with the air carriers serving the State of Idaho on all matters of major importance to the communities, businesses and industries within the State affecting air passenger, freight or mail service. In addition the Committee shall prepare information for the Civil Aeronautics Board describing in detail the position of local areas within the State of Idaho in regard to proposed changes, additions to, or deletions of airline service affecting the people of the State.

Further, it shall be the duty of the Committee to extend its best efforts to coordinate and consolidate the position of local areas of the State in matters relative to air service before the Civil Aeronautics Board to the end that all of the people of Idaho may be better served by air transportation. The Committee is expressly empowered to consider and act with respect to both interstate and intra-state air service.

The Department of Commerce and Development and the Department of Aeronautics shall act as consultants and advisors to the Airline Service Coordinating Committee, and shall cooperate with the Committee to the fullest extent.

The Department of Commerce and Development shall provide necessary staff assistance to the Committee and shall act as secretary to the Committee.

The Committee shall report in writing to the Governor from time to time concerning its affairs and in addition shall be prepared to provide special

assistance and information to the Governor on request on any matters affecting airline services within the State.

All meetings of the Committee shall be open to the public and such meetings shall be publicized in advance so that all interested parties may have an opportunity to attend and be heard.

1. An Advisory Council be appointed from the Executives and Department Directors to cooperate and coordinate with the office of the Attorney General in the application of the requirement of the Administrative Procedures Act.

5. The Advisory Council must submit and shall require to be submitted from all other state departments, agencies, boards and commissions to the office of the Attorney General such documents, forms, rules and regulations, policy statements and procedural requirements affecting current administrative procedures as may be requested by the office of the Attorney General.

6. A copy of this Order will be filed with the Secretary of State of Idaho, the Director of the Budget and Division of Administration, Office of the Attorney General, and the offices of the members of the Advisory Council, and will be given appropriate distribution to all agencies of government.

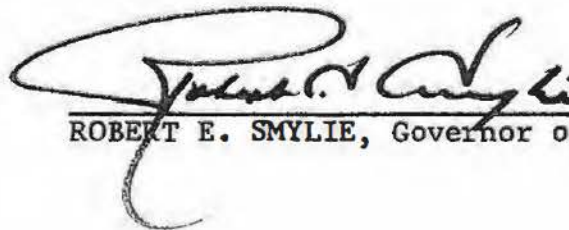

7. The Attorney General shall take steps to advise all agencies affected by the Administrative Procedures Act of the applicability of that Act to their activities not later than July 1, 1965.

COOPERATIVE MANPOWER PLANNING SYSTEM FOR IDAHO

With the advent of numerous new programs relating to manpower services and utilization involving federal and state financing in varying degrees and through diverse channels, there is a growing need for systematic coordination of the activities of all state and federal agencies having some responsibilities in this field.

It is recognized that there is an obligation in the administration and operation of these programs of providing service to the public, and that such service must be provided in the most economical, efficient and productive manner possible. It is also recognized that each of several agencies have responsibilities under state and federal law and regulations that must be observed.

In order to accomplish these objectives, I direct that the following departments and agencies of the state having duties and obligations in the field of manpower services and utilization work through a coordinating committee for the purpose of bringing together those agencies having administrative and operational responsibilities in these and related fields to the end that overlapping and duplication shall be eliminated and to avoid the possibility of competing services:

1. Department of Education
2. Department of Employment
3. Governor's Office
4. Department of Labor
5. Department of Public Assistance
6. Agriculture Extension Service, Univ. of Idaho
7. State Department of Vocational Education
8. Vocational Rehabilitation Service

The following federal agencies, as may be deemed appropriate by the Committee, are invited and urged to participate:

1. Bureau of Indian Affairs
2. Department of Housing and Urban Development
3. Economic Development Administration
4. Bureau of Apprenticeship & Training
5. Farmers Home Administration
6. Bureau of Work Programs
7. Office of Economic Opportunity

It will be the function of this coordinating committee to give equal attention to gaps or omissions in service to assure that the intended beneficiaries receive the maximum service provided by the programs coming within the scope of manpower services and utilization. The heads of the departments or agencies shall organize through the selection of a chairman and shall meet sufficiently often so as to accomplish the objective, and take such other steps as are necessary for the creation and functioning of a Cooperative Manpower Planning System for Idaho. Provision by the Committee shall be made for other state and federal representation as deemed necessary.

IT IS HEREBY ORDERED AND DIRECTED That the Idaho Traffic Safety Commission is created and that any prior Executive Commission, Board or Advisory Council conflicting with or competing with the duties and objectives of the Idaho Traffic Safety Commission is hereby abolished.

EXECUTIVE ORDER NO. 4

WAIVER OF EMPLOYMENT SECURITY TAXES

The Idaho Employment Security Law, Section 72-1316A, provides that on and after July 5, 1959 an individual's entire service for wages, when performed for and paid by the State of Idaho, is covered employment for purposes of unemployment insurance. Excluded are:

1. Elective officials
2. Members of faculties of State and public schools, colleges and universities
3. Physicians, dentists, student nurses or other professional specialists in institutions or departments of government employed on a part-time, irregular or fee basis.

Section 72-1316I provides that the State of Idaho shall pay into the Employment Security fund an amount equivalent to the amount of benefits paid to individuals based upon wages paid by the State. The amount of such payments shall be ascertained by the Director of the Department of Employment and shall be paid in such manner as he may prescribe, with the prior approval of the State Budget Director. Such taxes are due and payable quarterly. The current rate is 0.6% of wages paid.

Benefits paid during the past year have been less than tax collections, creating a fund surplus. On recommendations by the Director of the Department of Employment and the State Budget Director, I hereby order a waiver of payments on taxes due for the April-June quarter and the July-September quarter of calendar year 1967.

The quarterly payroll report showing monthly employment and total quarterly wages should be completed and forwarded to the Department of Employment no later than July 31 and October 31, respectively. Reference to this Executive Order should be made on the report form in lieu of taxes due.

ADMINISTRATION AND ORGANIZATION  
OF AUTOMATED DATA PROCESSING

WHEREAS, the State Government of Idaho seeks to provide the best possible service at a reasonable cost to its taxpayers, and as part of this continuing effort to improve service as well as to evaluate new technological innovations on an objective cost/benefit basis; and

WHEREAS, Chapter 332 of the Idaho Session Laws effective July 1, 1967 authorizes and directs the Division of Management Services of the Department of Administrative Services to approve the leasing, purchasing or installing of any electric data processing equipment and facilities for any officer, board, department, agency or institution of state government; and

WHEREAS, the discharge of this responsibility requires mutual coordination among state agencies in the development of plans for automated data processing systems and equipment that can best be used to support the functions and activities of the State of Idaho; and

WHEREAS, intermediate and long-term plans and policy must be developed to provide a coordinated state-wide approach to the automated data processing within the State of Idaho;

NOW, THEREFORE, I, DON SAMUELSON, GOVERNOR OF THE STATE OF IDAHO, pursuant to the authority vested in me by law, do hereby issue the following executive order to implement a program for the development of a coordinated approach to the administration of automated data processing on a state-wide basis.

GENERAL

1. The State of Idaho shall develop a coordinated approach to the administration of automated data processing on a state-wide basis. To this end, a coordinated state-wide automated data processing master plan, including all agencies within the State of Idaho, shall be developed and maintained. State agencies are directed to submit reports, as required, on the use and cost of existing ADP installations to the Management Services Division of the Department of Administrative Services, for use in the preparation of such coordinated master plan.

2. State agencies are directed to submit appropriate documentation which may include: feasibility studies, system specifications, equipment proposals and equipment selection criteria, to the Management Services Division for review prior to entering into any commitment for payment for any ADP resources which will be under, or which may with a reasonable likelihood within five years come under, state jurisdiction.

This policy directive applies to the addition or expansion of existing configurations as well as to new equipment configurations.

3. All proposals for the purchase, rental or other acquisition of ADP equipment shall be approved or disapproved by the Administrator of the Management Services Division subject to review and resolution by the Governor's Executive Committee on Data Processing in case of grievances. Other acquisition is deemed to include such documents as letters of intent and conditional purchase contracts. In order to assist state agencies in complying with the above directives, the Management Services Division shall prepare, publish, distribute, and maintain current a set of guidelines for completing the appropriate documentation in support of requests for ADP equipment.

#### ORGANIZATION

1. The Division of Management Services shall coordinate the State's ADP program and within available resources shall provide management analysis services. The Administrator of the Division of Management Services shall approve or disapprove all requests for ADP resources; consideration shall be given the feasibility of each request with respect to the coordinated state-wide master plan as it is developed, and any grievances concerning decisions shall be subject to review and resolution by the Governor's Executive Committee on Data Processing.

2. An ADP Services section shall be created within the Division of Management Services to provide on a data processing service center basis a central ADP capability in systems analysis, programming and data processing to agencies needing such service. The data processing installation of the office of the Tax Collector, including staff and equipment, shall provide the basic personnel staff and equipment for the service center under terms of a memorandum of understanding executed between the Tax Collector and the Division of Management Services on August 31, 1967.

The ADP Services Section shall maintain a current fee schedule for all services provided, and shall bill using agencies accordingly for reimbursement monthly.

3. In order to promote the mutual coordination among state agencies, a Governor's Executive Committee on Data Processing is hereby established.

The purposes of the Executive Committee on Data Processing relative to ADP are: to assure that the State agency needs regarding ADP are being met properly; to provide for State administrators and directors a forum for the exchange of information concerning ADP; to recommend to the Governor intermediate and long-term State ADP policy; to recommend to the Governor implementation priorities for State ADP programs; and to provide guidance to the Management Services Division in the definition of the operational feasibility of a coordinated State-wide ADP Master Plan. The Governor may recommend to the Legislature that part of the ADP program which requires legislative action.

Appropriate rules for its procedure shall be adopted by the Committee membership. Staff support shall be provided by the Management Services Division.

The Executive Committee on Data Processing shall consist of:

Voting Members

Director, Department of Administrative Services  
State Auditor  
Chairman, State Tax Commission  
Chief Engineer, Department of Highways  
Commissioner of Law Enforcement  
State Superintendent of Education

Director, Department of Fish and Game  
Director, Idaho Personnel Commission  
President of the University of Idaho  
President of Idaho State University

Representative of the State Judiciary  
Representative of the State Legislature

Technical observers or advisors may attend at the pleasure of the committee. The chairman and the vice chairman of the committee shall be designated by and shall serve at the pleasure of the Governor. It is recommended the State Board of Education establish a Higher Education Advisory Committee on ADP to:

- 1) Assure that the ADP needs of higher education are being properly met.
- 2) Provide a forum for representatives from Universities, Colleges and Junior Colleges to exchange information concerning ADP.
- 3) Recommend to the State Board of Education a consolidated plan for ADP as applied to Universities, Colleges and Junior Colleges. Such a plan should be submitted to the Management Services Division for inclusion annually in a coordinated state-wide ADP master plan.
- 4) Recommend to the State Board of Education implementation priorities for ADP resources to fulfill the needs of higher education.

PERSONNEL

A comprehensive program shall be established for training systems analysts, computer programmers, and computer operating personnel. The program should be administered for all agencies by the ADP Services Section in conjunction with the Idaho Personnel Commission and State educational institutions. The Management Services Division shall review present and proposed training programs and make necessary recommendations which shall relate training activities to objectives of state-wide ADP planning.

The adoption of official commercial programming languages for the State of Idaho shall be part of the state-wide ADP plan developed by the Management Services Division and reviewed by the Governor's Executive Committee on Data Processing.

ADP EQUIPMENT

It shall be a state policy to afford all qualified vendors the opportunity to present proposals for automated data processing equipment and to require that evaluations be made by skilled and experienced personnel utilizing objective guidelines. The guidelines shall be formally provided to vendors.

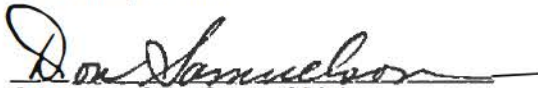

The State shall notify all vendors in writing that no commitments of any type for the purchase, lease or other acquisition of ADP equipment or access to equipment with State funds will be honored by the State unless they have been approved by the Administrator of Management Services. Any efforts by vendors to commit the State to the acquisition of equipment when the proper procedures have not been followed shall result in the rejection of contracts. Formal notification shall be given to ADP equipment manufacturers to eliminate any misunderstanding with respect to the State's selection procedures.

I hereby appoint James Defenbach, Director of the Department of Administrative Services as Chairman and Clyde Koontz, Chairman of State Tax Commission, as Vice Chairman of the Executive Committee on Data Processing.

The Director of the Department of Administrative Services shall proceed, within available resources, to effect the organization and assign the duties prescribed herein for those parts of this order affecting the Division of Management Services and shall prepare appropriate fiscal rules as required to further implement portions of this order which are not self-executing.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the eighth day of November, in the Year of our Lord, Nineteen Hundred and Sixty-seven and of the Independence of the United States the One Hundred and Ninety-second.

EXECUTIVE ORDER 67-A

Whereas, the State Government of Idaho continually seeks to improve the work of administrative agencies, and

Whereas, there is an understandable cause for public concern for the upward spiral of governmental costs, and

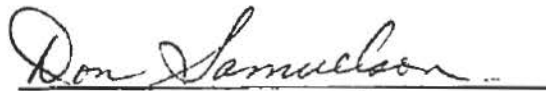

Whereas this general course must be subjected to determined and incisive inquiry looking toward greater effectiveness in governmental operations and finding better ways of providing essential and desirable public services without an attendant intolerable burden on the taxpayer, therefore

I direct that an Advisory Commission on Management in State Government is created to: review the cost and content of basic programs; the assumptions and objectives underlying these programs; review current operating policies and procedures; and determine whether fundamental changes of method and direction are needed to achieve more efficient and economical results.

The commission shall consist of a group of citizens who can bring to bear on the problem a wide range of experience, particularly in business practices.

This wide-ranging look at administrative operations will assist management improvement efforts of the Department of Administrative Services in identifying areas for improvement and recommending basically new methods and approaches.

It is further ordered and directed that the Director of Administrative Services shall implement this order and report the implementation to the Governor.

ACTIVATION OF DIVISION OF BUILDING

WHEREAS, the 39th Idaho State Legislature, Second Extraordinary Session, has provided that control over the Capitol Building and grounds be transferred to the Division of Building Services, and that the Division of Building Services shall lease all office space used statewide by the various state agencies, and that the Division of Building Services shall manage the state property known as the Capitol Mall, it is now feasible and practical to activate this Division under the Department of Administrative Services.

Recognizing that the functions of the Division of Building Services encompass those duties related to the general housekeeping of state owned and state leased office space, it is determined that these functions would be more properly placed under the Department of Administrative Services than under the jurisdiction of the Department of Public Works where they have heretofore been operating

WAIVER OF EMPLOYMENT SECURITY TAXES

The Idaho Employment Security Law, Section 72-1316A, provides that on and after July 5, 1959 an individual's entire service for wages, when performed for and paid by the State of Idaho, is covered employment for purposes of unemployment insurance. Excluded are:

1. Elective officials
2. Members of faculties of State and public schools, colleges and universities.
3. Physicians, dentists, student nurses or other professional specialists in institutions or departments of government employed on a part-time, irregular or fee basis.

Section 72-1316I provides that the State of Idaho shall pay into the Employment Security fund an amount equivalent to the amount of benefits paid to individuals based upon wages paid by the State. The amount of such payments shall be ascertained by the Director of the Department of Employment and shall be paid in such manner as he may prescribe, with the prior approval of the State Budget Director. Such taxes are due and payable quarterly. The current rate is 0.6% of wages paid. Effective January 1, 1969, the rate will be 0.4% of total wages.

Benefits paid during the past year have been less than tax collections, creating a fund surplus. On recommendations by the Director of the Department of Employment and the State Budget Director, I hereby order a waiver of payments on taxes due for the October-December quarter of calendar year 1968.

The quarterly payroll report showing monthly employment and total quarterly wages should be completed and forwarded to the Department of Employment no later than January 31, 1969. Reference to this Executive Order should be made on the report form in lieu of taxes due.

IDAHO HUMAN RESOURCES DEVELOPMENT COUNCIL (2010 HUMAN RESOURCES SOCIETY)

Recognizing the needs of the unemployed and underemployed of the people of Idaho, I find it essential to take action to assure effective and economical use of State and Federal funds available for manpower training, work experience, placement and other services. Further, I find that it is essential to:

- (1) Establish explicit priorities for the allocation of these funds to insure that they are used to assist those in greatest need of manpower services;
- (2) Establish definitive goals for the total system of manpower training, work experience, placement, and other services to maximize the effectiveness of the system in assisting individuals to find and maintain gainful employment;

The Executive Director shall be administratively responsible to the Chairman of the Council. He shall have the authority to hire, contract for, and direct such secretarial, clerical, administrative and research staff as may be necessary to carry out the functions set forth in this order. The State CAMPS staff shall be under the immediate direction and control of the Executive Director. CREATING THE IDAHO DEPARTMENT OF SPECIAL SERVICES

Whereas, there has been established under the Office of the Governor, the State Office of Aging, directed by the Director of the State Economic Opportunity Office, and

Whereas, the Fortieth Legislature of the State of Idaho, First Regular Session, created an Idaho Commission on Human Rights, and provided that the Director of the Economic Opportunity Office for the State of Idaho serve as Executive Secretary of the Commission, and

Whereas, these legislative and executive actions have expanded program operations under the Executive Director beyond those of Director of the Office of Economic Opportunity and such operations and responsibilities are not accurately reflected as part of the Office of Economic Opportunity; and

Whereas, it now appears desirable to change the name of the State Economic Opportunity Office to the Idaho Department of Special Services, more appropriately designating the coordinating nature of the agency. In order that the separate functions of the State Office on Aging, the State Economic Opportunity Office, and the Idaho Commission on Human Rights may be maintained and not lose their separate identities, they shall operate as separate divisions of the Department of Special Services, under a Director reporting to the Governor.

NOW, THEREFORE, I, DON SAMUELSON, GOVERNOR OF THE STATE OF IDAHO, by powers and authority vested in me by law, do hereby establish an Idaho Department of Special Services as a separate administrative office of the State of Idaho with specific and primary responsibility for implementing the Economic Opportunity Act of 1964 as Amended; the Older Americans Act of 1965 as Amended; and the State Anti-Discrimination Act, and such other related responsibilities as may be assigned. The Director shall structure the Department administratively as he shall deem best to carry out the duties and responsibilities of the Department.

It is directed that the Director of the State Economic Opportunity Office shall hereafter be known as the Director of the Idaho Department of Special Services. The existing Commission on Human Rights and the separate advisory councils designated for the State Economic Opportunity Office and the State Office on Aging shall remain and function as presently designated.

EXECUTIVE ORDER NO. 71-3

WHEREAS, a position identification and control system is vital to keep salaries and wages within available funds and such a system cannot easily be established while many types of personnel transactions are being processed; and

WHEREAS, the Legislature in its deliberations on the budget needs to be assured that state agencies will not be adding to their salary and wage costs during the time their budgets are being considered;

NOW, THEREFORE, I, CECIL D. ANDRUS, GOVERNOR OF THE STATE OF IDAHO, strongly request all heads of departments, boards, commissions, institutions, and other state agencies to observe the following:

1. Do not submit any further requests for reclassifications or reallocations of positions to a higher pay grade until May 1, 1971.
2. Do not submit any request for promotions which result in a higher pay grade until May 1, 1971.
3. Do not submit any request for meritorious salary increases (above the normal merit salary increase) until May 1, 1971.
4. Do not fill any positions at higher than the first step except in cases of great emergency until May 1, 1971.
5. Until May 1, 1971 require a delay of 15 days between the time that the terminal leave pay for a person ends and the time a successor is appointed. Exceptions will be permitted for positions directly involved in the care and custody of patients, inmates, and residents in state hospitals, the Idaho State Penitentiary, the State School for the Deaf and Blind, the Youth Training Center and the Idaho State School and Hospital.
6. Do not submit any requests for new positions until May 1, 1971.

Furthermore, I strongly urge that vacancies in state agencies be filled by former employees on layoff lists in comparable classifications wherever possible.

When a position identification and control system has been established for a state agency, the Executive Order No. 71-1 with respect to personnel expense will no longer be in effect for that agency. Exceptions to this executive order in cases of extreme urgency may be considered by the Division of the Budget.

Exemptions to this order are the positions in the Legislative Branch of government, positions in the Judicial Branch of government, and positions in the offices of elected state officials.

It is my intention to grant salary increases later, particularly for our lowest paid employees. The money for these raises must come from more efficient administration of state departments. Therefore, I urge each agency to examine its own need for personnel with a critical eye and attempt to reduce the number of its own employees by 5 percent by filling as few vacancies as possible while still maintaining essential services.

ECONOMIC GROWTH CENTER AND DEVELOPMENT HIGHWAYS

Idaho accepts the challenge--contained in the program for Economic Growth Center Development Highways authorized by the 1970 Federal-Aid Highway Act--to demonstrate the role that highways can play to promote the development, improvement, and continuance of those wholesome human activities which are basic to a respectable way of life.

Fundamental to the economic growth of Idaho is a willingness to:

- promote desirable development of the Nation's natural resources;
- revitalize and diversify the economy of rural areas and smaller communities;
- enhance and disperse industrial growth;
- encourage more balanced population patterns;
- interest people in remaining in rural areas and smaller communities;
- improve living conditions and the quality of the environment.

The Economic Growth Center Development Highways Program authorizes the Secretary of Transportation "to make grants to States for demonstration projects for the construction, reconstruction, and improvement of development highways on the Federal-aid primary system to serve and promote the development of economic growth centers and surrounding areas."

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby designate the City of Lewiston as an economic growth center, and urge that improvement of Federal-aid primary routes in the vicinity of Lewiston, including but not limited to, U. S. Highways 95 and 12, be given first priority for demonstration projects, as development highways serving the center and area, including the Port of Lewiston.

I also certify that: The projects related to this program will promote the program's aims and purposes; that Lewiston qualifies geographically and economically; and that the city's 1970 population of 28,068 is less than the maximum specified by the 1970 Federal-Aid Highway Act.

I further submit that Lewiston is the growth center of the five-county Clearwater Economic Development District authorized and funded under the provision of the Public Works and Economic Development Act of 1965.

INSTITUTING SALARY INCREASES FOR STATE CLASSIFIED PERSONNEL

Recognizing the present deficiencies in salaries of state career classified employees in comparison to prevailing rates paid in surrounding industry and government as required by law, and being particularly concerned with those state career salaries below the recognized poverty level in Idaho, I find it essential and necessary to take immediate steps to correct the problems and to still remain within the budgetary limits provided by the 1971 Legislature.

Therefore, as Governor of the State of Idaho, I have found it essential to take the following actions:

- (1) Establish complete position control lists for all departments, agencies, boards, commissions, and institutions of government;
- (2) To require budget office advance approval of all contracts for services by all departments, agencies, boards, commissions, and institutions;
- (3) To require a reduction of personnel numbers by a factor of five percent (5%) by October 31, 1971, and by a factor of ten percent (10%) overall by January 1, 1972. Responsibility for these reductions lies with the Agency head.
- (4) To implement in all departments, agencies, boards, commissions, and institutions on July 1, 1971, October 1, 1971, and January 1, 1972, new compensation plans for state career classified employees as approved and issued by the Idaho Personnel Commission according to the following formula:
  - (a) A state minimum salary will be established by July 1, 1971, at \$323 per month.
  - (b) The Salary Survey of the Idaho Personnel Commission will be implemented by the following timetable:

Implementation dates for Pay Grades 1 - 25:

July 1, 1971	All classes approved for 15% reallocation will be raised one grade (5%).
October 1, 1971	All classes approved for 15% reallocation will be raised an additional grade (5%); and all classes approved for 10% reallocation will be raised one grade (5%).

January 1, 1972

All classes approved for 15% reallocation will be raised the remaining grade (5%); all classes approved for 10% reallocation will be raised the additional grade (5%); and all classes approved for 5% reallocation will be raised one grade.

Full implementation of salary recommendations for pay grades 26 and above.

A detailed and separate plan for use on each of the implementation dates above, bearing classification numbers, positions, and new salaries for each class will be issued within the next ten days by the Idaho Personnel Commission at the request of this office and after my approval of each plan. This will allow appointing authorities time to reexamine their budgets for the coming year prior to the forthcoming fiscal year.

- (5) Departments, agencies, boards, commissions, and institutions are hereby directed to make available funds from the 1971-72 salary budgets for these increases as priority expenditures within their allowable budgetary categories and prior to additional reclassification, new positions, exempt, seasonal, parttime, or vacancy allocations.
- (6) Exceptions to this order implementing salary increases will not be granted.

The Idaho Personnel Commission, with the approval of the Budget Division, is hereby empowered to implement this order within the limits prescribed.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the thirtieth day of April in the year of our Lord nineteen hundred seventy-one, and of the State the eightieth, and of the Independence of the United States of America the one hundred ninety-fifth.

EXECUTIVE ORDER NO. 71-10

The purpose of this order is to expand the clearinghouse function now performed by the State Planning and Community Affairs Agency, as defined in Office of Management and Budget Circular A-95, to include a review by the Coordinator of Federal Programs, Office of the Governor, of all State plans and applications for Federal financial assistance. This review will be similar to that review of projects included in the Project Notification and Review System and pertains to all Federal monies that in any way are administered by or pass through any agency, department, board or commission of the State of Idaho.

A period of 21 days is provided for the required review. To accomplish this review, initiating State Departments must submit the following to the Coordinator of Federal Programs, Office of the Governor:

A complete copy of the State plan or grant application under consideration with a covering summary description. The summary description, not to exceed three pages, must contain the following information:

1. A completed form SN-003 on each grant. This is the form now used by the State Clearinghouse, Department of State Planning and Community Affairs. (attached)
2. Innovations. The significant changes or differences, if any between the proposed plan and existing State plans and programs with the same functional area.
3. Implementation. The manner in which the plan ~~is to be implemented~~ including a brief description of the responsibilities of State, regional and local governments, special purpose units of government, quasi-public organizations, etc. Include the name of the State agency primarily responsible for the implementation of the program.
4. Number of State Employees under the Grant and Number of New Employees Requested. Also total ~~number~~ of employees and total new employees requested.
5. Amount of any Future Commitment of State Funds (i.e., agreement to spend any State funds in future years. Also list amounts of cash commitments and what can be made up with in-kind matching funds.)
6. Include Office of Management and Budget title and program number.

This order does not eliminate the necessity for clearing applications that are required by OMB Circular A-95 through the State Clearinghouse.

Due to the fact that present information in the Federal Coordinator's Office is sketchy, it is necessary to further expand this order to include the submission of plans and grants now in effect and applied for along with the summary report on each.

Those agencies who merely amend a plan on a periodic basis should include the original plan and all amendments--a summary report for only the last year and proposed future changes is needed.

This order is effective June 7, 1971, and all new grant applications after that date must be cleared through the Federal Coordinator. A deadline of June 28, 1971, is hereby set for submission of grants and summary reports now in effect and applied for.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the twenty-fourth day of May, in the year of our Lord nineteen hundred seventy-one and of the State the eightieth and of the United States of America the one hundred ninety-fifth.

EXECUTIVE ORDER NO. 72-3

ESTABLISHING UNIFORM  
STATE PLANNING REGIONS

WHEREAS, state departments and agencies currently rely on widely divergent regional patterns for planning, administrative, technical assistance and data gathering activities; and

WHEREAS, it is extremely difficult to coordinate the activities of state departments and agencies without common regions; and

WHEREAS, this situation leads to confusion among local public officials and citizens since a particular local governmental unit often falls within several state and federal regions, and

WHEREAS, attempts to coordinate inter-related federal, state and local programs are frequently frustrated, and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968, and Part IV of U. S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of Federal, State and local development programs;"

NOW, THEREFORE, by virtue of the powers vested in me as Governor of the State of Idaho, I do now issue this executive order creating official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions are as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah, and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, Nez Perce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou, and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies will conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government shall take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may, with the authorization of the Governor's Office, group or combine whole State Planning Regions into agency-designated larger geographic areas, but will utilize the Six Districts with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted to those state agencies whose immediate compliance to these exact regional boundaries would bring undue expense, hardship, or significantly decreased efficiency to the operation of that agency, or because of other special circumstances. Exemptions will be considered and may be granted by the Office of the Governor, to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary.
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay in adoption of the State Multi-County Regions specified herein.
- (c) A timetable for eventual agency conformance with this order.

All state agencies utilizing administrative districts are encouraged to take steps necessary to bring their administrative districts boundaries into conformity with the boundaries of the six state planning regions.

This order contemplates the issuance of a subsequent order directing the establishment of uniform state administrative districts for all agencies unless special circumstances warrant exceptions.

FURTHERMORE, local governmental units are encouraged to jointly participate in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

This Executive Order is to be in effect and force as of July 1, 1972.

EXECUTIVE ORDER NO. 76-4

ESTABLISHING AN IDAHO OFFICE OF ENERGY, DIRECTING STATE AGENCIES  
TO REVIEW AND TO CHANGE ACTIVITIES NOT CONSISTENT WITH THIS  
EXECUTIVE ORDER, AND REPEALING EXECUTIVE ORDER NO. 74-2 AND  
EXECUTIVE ORDER NO. 75-3

---

Spiraling costs for energy, natural resources and commodities, continuing high levels of inflation, unemployment and interest rates, unstable national economies around the world, increasing world levels of air and water pollution, increasing scarcity of resources and ever-larger demands for capital--these are all unmistakable signs that we are moving more and more out of balance with our natural resources, more and more out of harmony with our physical environment.

Idaho cannot isolate itself from these world trends. We are a single state in a nation on a globe of nations. To the extent we can influence our future, the people of Idaho prefer environmental order over economic disorder, energy conservation over inappropriate energy consumption, and material frugality over the "throw-away" society.

Aware of the state's responsibility to promote energy conservation and to offer to Idaho's citizens the direction toward continued social and economic viability consistent with available resources, I hereby establish within the Office of the Governor an Office of Energy to be headed by a director appointed by the Governor.

As I do so, I am mindful that energy conservation, however laudable, is not an end in itself. Though energy conservation yields present environmental and economic benefits, the unchanging fact is that the traditional energy sources--the fossil fuels--are being rapidly depleted. New discoveries of traditional energy sources and new processes for their use will be obtained only at a tremendous cost of other natural resources and capital. Conservation of energy and conservation of natural resources must be viewed overall as an effort to save the energy, acquire the knowledge and gain the time necessary to change to patterns of consumption and economic development consistent with our available resources, especially the renewable energy resources available in Idaho.

Except as otherwise provided by law or by action of the Governor, the Office of Energy shall have the primary responsibility within the Executive Department of the State of Idaho to:

1. Promote energy conservation through the efficient thermal use of energy systems;
2. Guide regional, state, county and city energy policies toward actions which will provide the maximum opportunities to continue and to increase the use of renewable energy resources;

3. Educate all levels of society to the inherent economic benefits of appropriate technology which uses wherever possible renewable energy resource systems, through programs of demonstration and involvement of all Idaho's citizens;

4. Make known to all Idaho's citizens the results of promising energy conservation programs in use to encourage continued changes in activities which will insure energetic and economic stability;

5. Gather, analyze, integrate and make available data from energy supply and demand systems;

6. Make recommendations to the Governor regarding energy resource planning;

7. Coordinate energy-related federal programs in which the State of Idaho participates;

8. Coordinate energy policy and related activities of all state agencies, and in order to maintain consistent statewide energy policy, insure the greatest possible understanding of the impacts of energy policy decisions made by all levels of government;

9. Furnish assistance upon request to the Idaho Legislature, in particular to the Legislative Council committee established pursuant to Senate Concurrent Resolution 132, Forty-Third Idaho Legislature, Second Session; and

10. Perform other duties as directed by the Governor.

All state agencies are directed to cooperate fully with the Office of Energy.

All state agencies are directed to review their current activities and to take whatever steps are necessary, not inconsistent with Idaho law, to bring their activities into line with the philosophy and goals reflected in this Executive Order. They shall be prepared to report to the Office of Energy on or before October 1, 1976, activities which have been changed, activities which can be changed in the future, activities which can only be changed with additional funding, and activities where change is desirable but inconsistent with Idaho law.

Nothing in this Executive Order shall be interpreted to give the Office of Energy any regulatory authority.

Executive Order No. 74-2 and Executive Order No. 75-3 are hereby repealed.

BY THE GOVERNOR:

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the thirtieth day of July, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred first, and of the Statehood of Idaho the eighty-seventh.

EXECUTIVE ORDER NO. 76-5

SETTING FORTH A CODE OF ETHICAL CONDUCT FOR EMPLOYEES OF THE  
EXECUTIVE DEPARTMENT OF IDAHO STATE GOVERNMENT

GENERAL PURPOSE

This Executive Order is issued to insure high standards of conduct among state employees and to strengthen the faith and confidence of the people of Idaho in the integrity of state government and state employees. This Executive Order sets forth a code of conduct for state employees and restates existing Idaho law governing employee conduct in areas where there are actual or potential ethical concerns between their public duties and their private interests. Unless the context indicates otherwise, "state employee(s)" shall have the broadest meaning possible within the Executive Department of Idaho state government consistent with Idaho law, and "person" shall include an association, corporation or governmental entity.

It shall be a paramount concern of state employees that they engage in no conduct which might reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

GRATUITIES AND OTHER BENEFITS

State employees shall never solicit in their official capacity any gratuity or other benefit from any person under any circumstances. State employees shall not accept gratuities or other benefits exceeding a total retail value of \$25.00 within a calendar year from any person who is subject to their legal jurisdiction or who is likely to become interested in any contract or transaction over which they exercise any discretionary function. State employees are not precluded from accepting from time to time food or beverages consumed at the time and place of receipt from any person with whom they deal in their official capacity, subject to the limitation of \$25.00 retail value within a calendar year. These rules apply irrespective of kinship or other relationship with the donor outside of the official status of the state employee, and irrespective of the existence of legal consideration for or legal entitlement to the gratuity or other benefit. It is not material that the acceptance of any gratuity or other benefit contrary to this Executive Order is not prejudicial to official impartiality in fact.

State employees shall not accept transportation or lodging from any person who is subject to their jurisdiction or who is or is likely to become interested in any contract or transaction over which they exercise any discretionary function. It shall be the general policy that reimbursable expenses for transportation and lodging of state employees shall be paid by the State of Idaho rather than by another person. This rule does not apply under circumstances where state employees do not have reasonable access to public services or accommodations, when the acceptance of an offer of transportation makes an economical and efficient use of time or transportation and any benefit conferred is trivial or otherwise consistent with the general purpose of this Executive Order.

All state employees exercising any discretionary function shall make a conscious effort to be open to contact by all segments of Idaho society that have an interest in the exercise of that discretionary function. State employees exercising any discretionary function shall not associate with any one person who has or may have an interest in the exercise of that discretionary function to such an extent as would reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

Honorariums shall not be accepted by state employees from Idaho citizens, associations, corporations or governmental entities for appearances or services given in the course of their official duties.

#### CONFLICTS OF INTEREST

State employees shall not profit, directly or indirectly, from public funds under their control. State employees shall not have a private interest in any contract made by them in their official capacity. State employees must avoid self-dealing in any purchase or sale made in their official capacity. Any state employee having a private interest in any discretionary matter coming before him in the course of his official duties, whether the matter be regulatory, adjudicative, contractual, or the formation of public policy, shall not act but shall withdraw himself.

No state employee shall appoint or otherwise employ for compensation payable from public funds any person related by blood or marriage to within the second degree.

#### OUTSIDE EMPLOYMENT AND EXTRA COMPENSATION

Heads of executive departments, members of the Tax Commission, the Industrial Commission, and the Public Utilities Commission, the Executive Director of the State Board of Education, and the Director of the Executive Office of the Governor shall not hold any other public office or public employment for which compensation is received, nor shall they serve as a director or officer of any profitmaking corporation or institution. State employees other than those identified above may occupy offices or positions of profit outside of state government service but only to the extent that it does not interfere with the performance of their official duties in an efficient, mentally and physically alert manner.

Except as otherwise prohibited by law, all state employees including those identified above may own stock in a public or private corporation, be a trustee to a trust, be a personal representative to an estate, serve as a parttime member of the military reserves or the National Guard, and serve upon a jury.

All state employees receiving fixed compensation are not to be paid for any extra service performed in the ordinary course of their employment, except for overtime compensation as provided by law, employment in any state educational program as provided in Section 59-512, Idaho Code, or other circumstances expressly authorized by law.

#### POLITICAL ACTIVITIES

As provided by Section 67-5311, Idaho Code, and an Idaho Personnel Commission directive dated August 9, 1976, state employees shall not command political contributions from other state employees.

State employees subject to the state personnel system (hereinafter "classified employees") shall not use their official authority or influence to bring about any nomination or election to public office. Classified employees shall not take an active part in the management of any political organization. Classified employees shall not hold the elected office of precinct committeeman/committeewoman. Classified employees shall not seek election to a partisan public office. All state employees may vote and express their personal opinion on political issues and candidates and take an active part in support of a candidate in partisan or non-partisan elections. All state employees may be members of a political party or organization, participate in its activities, serve as an elected convention delegate, and voluntarily contribute to political parties or candidates. Classified employees shall avoid participation in public affairs in a manner which would materially compromise their neutrality, efficiency or integrity in the performance of their official duties.

#### ADMINISTRATION

Department heads and boards and commissions within the Executive Department of the State of Idaho may establish particular codes of employee conduct to supplement the general code of conduct provided under Idaho law and this Executive Order. Nothing in this Executive Order is intended to preclude more strict provisions of conduct than are required under this Executive Order, except as precluded by Idaho law.

Questions or disputes regarding the conduct of state employees under this Executive Order and Idaho law shall be directed to the appropriate appointing authority who may seek legal counsel from the Attorney General.

State employees who have questions regarding their conduct that are not specifically addressed in this Executive Order or who need more direction than is included herein should consult their appointing authorities. State employees who are presently engaged in a course of conduct addressed herein are directed to review that conduct in light of this Executive Order.

Violation of this Executive Order may lead to dismissal, suspension, demotion or other personnel action. In addition, state employees whose conduct violates Idaho law whether or not restated in this Executive Order are subject to the penalties provided under Idaho law.

#### DISTRIBUTION

Appointing authorities shall bring this Executive Order to the attention of state employees now or hereafter under their supervision.

It is the duty of state employees to familiarize themselves with the code of conduct contained in this Executive Order and to reflect upon their own conduct.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the eighteenth day of October, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred first, and of the Statehood of Idaho the eighty-seventh.

EXECUTIVE ORDER NO. 77-3

PROVISIONS FOR THE NECESSARY AND APPROPRIATE STATE COORDINATION AND PARTICIPATION WITH THE FEDERAL INSURANCE ADMINISTRATION UNDER THE NATIONAL FLOOD INSURANCE ACT OF 1968, AS AMENDED, AND RULES AND REGULATIONS PROMULGATED THEREUNDER

---

WHEREAS, uneconomic uses of the State's flood plains are occurring and potential flood losses are increasing despite substantial efforts to control floods; and

WHEREAS, national, state and local studies of areas and property subject to flooding indicate a further increase in flood damage potential and flood losses, even with continuing investment in flood protection structures; and

WHEREAS, the State of Idaho has continuing programs for the construction of buildings, roads, and other facilities and annually acquires and disposes of lands in flood hazard areas, all of which activities significantly influence patterns of commercial, residential, and industrial development; and

WHEREAS, the availability of flood insurance under the National Flood Insurance Program, as provided by the National Flood Insurance Act of 1968, as amended is dependent upon State coordination of Federal, State and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State; and

WHEREAS, the Department of Water Resources is the State agency responsible for State level programs for flood prevention, flood control and flood protection; and

WHEREAS, the Bureau of State Planning and Community Affairs is the State agency responsible for assisting with local regulations necessary for flood insurance provided by the National Flood Insurance Act of 1968 under the Idaho Code, Title 67:1911 through 1917; and

WHEREAS, the Federal Insurance Administration has promulgated and adopted rules and regulations governing eligibility of State and local communities to participate in the National Flood Insurance Program, which participation depends on State coordination and the designation of an agency in the State of Idaho to be responsible for coordinating Federal, State and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State of Idaho;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me do hereby order as follows:

Section 1. The Department of Water Resources is hereby designated as the agency to provide implementation of Section 1910.12, Rules and Regulations of the Federal Insurance Administration, and will encourage a broad and unified effort to prevent uneconomic uses and development of the State's flood plains and in particular, to lessen the risk of flood losses in connection with State lands and installations and State financed or supported improvements. Specifically:

- (1) Under the leadership and direction of the Department of Administration, all State agencies directly responsible for the construction of buildings, structures, roads, or other facilities shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in connection with such facilities. In the event of construction in the flood plain, the flood plain management criteria set forth in Sections 1910.3, 1910.4, and 1910.5 of the National Flood Insurance Regulations shall apply as applicable. Flood proofing measures shall be applied to existing facilities in order to reduce flood damage potential.
- (2) All State agencies responsible for the administration of grant or loan programs involving the construction of buildings, structures, roads or other facilities shall evaluate flood hazards in connection with such facilities and, in order to minimize the exposure of facilities to potential flood damage and the need for future State expenditures for flood protection and flood disaster relief, shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in such connection.
- (3) All State agencies responsible for the disposal of lands or properties shall evaluate flood hazards in connection with lands or properties proposed for disposal to other public instrumentalities or private interests and, in order to minimize future State expenditures for flood protection and flood disaster relief, shall notify those instrumentalities and private interests that such hazards exist.
- (4) All State agencies responsible for programs which affect land use planning, including State permit programs, shall take flood hazards into account when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.

Section 2. As may be permitted by law, the head of each State agency shall issue appropriate rules and regulations to govern the carrying out of the provisions of Section 1 of this order by his agency to be coordinated with the Department of Administration.

Section 3. This order shall take effect on the 6th day of July, 1977.

EXECUTIVE ORDER NO. 77-5

CONTINUING UNIFORM STATE PLANNING REGIONS

WHEREAS, Executive Order No. 72-3, dated the first day of May 1972 created six official and uniform state planning regions to be utilized by all state departments and agencies; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of Federal, State and local development programs";

NOW, THEREFORE, by virtue of the powers vested in me as Governor of the State of Idaho, I do now issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, Nez Perce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue, with the written authorization of the Governor, to group or combine whole State Planning Regions into agency-designated larger geographic areas, but shall continue to utilize the six regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted to those state agencies whose immediate compliance to these exact regional boundaries would bring undue expense, hardship, or significantly decreased efficiency to the operation of that agency, or because of other special circumstances. Exemptions will be considered and may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary.
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay in adoption of the State Multi-County Regions specified herein.
- (c) A timetable for eventual agency compliance with this order.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

When we allow race, color, religion, national origin, sex, age and/or handicap to prevent anyone from reaching their potential, we fail that person, our state and our country. In accordance with the principles of fair practice, we must strive to recognize and advance the abilities and talents of every individual, while denying no person his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a model for government, business, industry, labor and education in this regard; and

WHEREAS, in that spirit and to that purpose, I, JOHN V. EVANS, Governor of the State of Idaho, now proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

Race, color, religion, national origin, sex or handicap shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans or other financial assistance to public agencies, private institutions or organizations which engage in discriminatory practices.

#### ARTICLE IV - State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a nondiscriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age or handicap.

#### ARTICLE V - State Education, Counseling, and Training Programs

All educational, counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age or handicap.

This Executive Order shall be posted in prominent places in all state facilities in public view so that its contents may be easily read by all employees and by the general public.

DECLARING THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES;  
AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO  
ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-CYCLE  
COSTING PRACTICES.

---

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives: in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the State, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling State contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, declare that it is the policy of the State to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. Life-cycle costing shall be a consideration in the selection of a building design by a public agency.

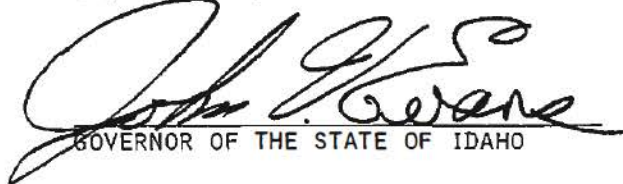

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the State, including life-cycle costing for the purchase of all major energy-consuming products.

I further direct the Department of Administration to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and building practices.

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the State's energy demand; and

WHEREAS, the State government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the State government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby order all State building designs and lease agreements to include energy conservation considerations including:

- insulation levels no less stringent than the Code for Energy Conservation in New Building Construction (Uniform Building Code, 1979);
- insulated or storm windows and doors;
- adequate caulking and weatherstripping;
- use of solar hot water where feasible and solar heating where cost effective;
- in the Capitol Mall, use of natural hot water where feasible;
- roof design providing summer shade for sun-facing windows and entry ways in the summer and direct sunlight on those walls in the winter.

I further order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of

all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, should become a major consideration in and State buildings and lease agreements.

AND REGULATIONS PROMULGATED THEREUNDER

WHEREAS, uneconomic uses of the State's flood plains are occurring and potential flood losses are increasing despite substantial efforts to control floods; and

WHEREAS, national, State and local studies of areas and property subject to flooding indicate a further increase in flood damage potential and flood losses, even with continuing investment in flood protection structures; and

WHEREAS, the State of Idaho has continuing programs for the construction of buildings, roads, and other facilities and annually acquires and disposes of lands in flood hazard areas, all of which activities significantly influence patterns of commercial, residential, and industrial development, and

WHEREAS, the availability of flood insurance under the National Flood Insurance Program, as provided by the National Flood Insurance Act of 1968, as amended is dependent upon State coordination of Federal, State and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State; and

WHEREAS, the Department of Water Resources is the State agency responsible for State level programs for flood prevention, flood control and flood protection; and

WHEREAS, the Bureau of State Planning and Community Affairs is the State agency responsible for assisting with local regulations necessary for flood insurance provided by the National Flood Insurance Act of 1968 under the Idaho Code, Title 67:1911 through 1917; and

WHEREAS, the Federal Insurance Administration has promulgated and adopted rules and regulations governing eligibility of State and local communities to participate in the National Flood Insurance Program, which participation depends on State coordination and the designation of an agency in the State of Idaho to be responsible for coordinating Federal, State and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State of Idaho;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me do hereby order as follows:

Section 1. The Department of Water Resources is hereby designated as the agency to provide implementation of Section 1910.12, Rules and Regulations of the Federal Insurance Administration, and will encourage a broad and unified effort to prevent uneconomic uses and development of the State's flood plains and in particular, to lessen the risk of flood losses in connection with State lands and installations and State financed or supported improvements. Specifically:

- (1) Under the leadership and direction of the Department of Administration, all State agencies directly responsible for the construction of buildings, structures, roads, or other facilities shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in connection with such facilities. In the event of construction in the flood plain, the flood plain management criteria set forth in Sections 1910.3, 1910.4, and 1910.5 of the National Flood Insurance Regulations shall apply as applicable. Flood proofing measures shall be applied to existing facilities in order to reduce flood damage potential.
- (2) All State agencies responsible for the administration of grant or loan programs involving the construction of buildings, structures, roads or other facilities shall evaluate flood hazards in connection with such facilities and, in order to minimize the exposure of facilities to potential flood damage and the need for future State expenditures for flood protection and flood disaster relief, shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in such connection.
- (3) All State agencies responsible for the disposal of lands or properties shall evaluate flood hazards in connection with lands or properties proposed for disposal to other public instrumentalities or private interests and, in order to minimize future State expenditures for flood protection and flood disaster relief, shall notify those instrumentalities and private interests that such hazards exist.
- (4) All State agencies responsible for programs which affect land use planning, including State permit programs, shall take flood hazards into account when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.
- (5) In evaluating flood hazard potential, all State agencies shall coordinate their work with the Department of Water Resources to assure that the most up-to-date data and/or methods of analysis are utilized.

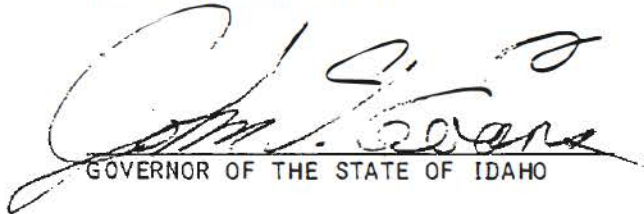

Section 2. As may be permitted by law, the head of each State agency shall issue appropriate rules and regulations to govern the carrying out of the provisions of Section 1 of this order by his agency to be coordinated with the Department of Administration.

Section 3. This order shall take effect on the 11th day of April, 1980.

WHEREAS, at present, no central committee or group exists which can adequately address the broad policy issues concerning architecturally barrier-free state facilities; and

WHEREAS, it is the policy and intent of the Executive Branch of the government of the State of Idaho to make its programs available to all of the citizens of this State;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby establish the Architecturally Barrier-Free Public Facilities Coordination Committee.

This Committee shall have the following responsibilities within the Executive Department of the State of Idaho:

- (1) To develop a set of proposed rules and regulations which will carry out the requirements of Title 39, Chapter 32, Idaho Code, Building Facilities for the Physically Handicapped;
- (2) To develop a design manual which will clarify architectural barrier issues;
- (3) To develop a comprehensive plan to bring all state facilities into compliance with Section 504 of the Rehabilitation Act of 1973 and Title 39, Chapter 32, Idaho Code. This comprehensive plan should prioritize the areas of need in relation to the funds available to correct such violations;

CREATING THE IDAHO CONSORTIUM FOR HUMAN AND ANIMAL HEALTH

WHEREAS, it is in the public interest to promote the well being of the people of Idaho by optimal use of resources related to human and animal health; and

WHEREAS, the most efficient and effective use of scarce resources requires cooperative planning as well as sharing information, technical capability and equipment; and

WHEREAS, the public agencies that are responsible for various aspects of human and animal health at the state, local and federal levels need to maintain and enhance open lines of communication; and

WHEREAS, the State of Idaho has experienced complicated and perplexing crises such as the PCB contaminated livestock episode in 1979 and recent ash fallout from Mt. St. Helens volcano, both having serious implications for human and animal health;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby establish the Idaho Consortium for Human and Animal Health, which shall be composed of the State Health Officer, the Chief of the State Bureau of Laboratories in the Department of Health and Welfare, the Administrator of the Division of Animal Industries, the Chief of the Bureau of Plant Chemicals, the Dean of the Faculty of the University of Idaho School of Veterinarian Medicine and the Director of the University of Idaho Veterinarian Teaching Center in Caldwell.

The appointment of this Consortium is made with the understanding that policy-making responsibilities and the administration of affected state programs as provided by the Idaho Code will be maintained as legally required, and the Consortium will report to the Governor's Office, Department Directors and Agency Boards that have different degrees of responsibility for programs related to human and animal health.

The appointment of this Consortium is made with the understanding that its main responsibility will be to maximize the use of all government resources that can be applied to an optimum understanding of human and animal health concerns, particularly, those functions involving laboratory study, research initiatives and the coordination of acute information needs necessary for accurate technical analysis. This will require the coordination of ongoing programs and the investigation of high priority health problems that require the prompt organization of diverse data necessary for the prevention of widespread, costly illness in humans and animals.

The appointment of this Consortium is made with the understanding that the people serving in these positions have the most extensive technical knowledge and experience available in State Government for the protection and maintenance of human and animal health in the State of Idaho and, therefore, have the greatest access to other state, local and federal government resources. Since these resources extend far beyond the members of the Consortium, yet remain essential to laboratory coordination and research direction for health-related concerns, the Consortium must make every effort to maximize their effectiveness.

The appointment of this Consortium is made with the understanding that staff in the Governor's Office will take responsibility for coordinating meetings, working with the members of the Consortium to develop priorities and serving as a liaison between the Governor and the Consortium.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the second day of August, in the year of our Lord nineteen hundred eighty, and of the Independence of the United States of America the two hundred fifth, and of the Statehood of Idaho the ninety-first.

EXECUTIVE ORDER NO. 80-16

DECLARING THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-CYCLE COSTING PRACTICES.

---

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the State, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, declare that it is the policy of the state to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the State, including life-cycle costing for the purchase of all major energy-consuming products.

I further direct the Department of Administration to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and building practices.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the twenty-second day of December, in the year of our Lord nineteen hundred eighty, and of the Independence of the United States of America the two hundred fifth, and of the Statehood of Idaho the ninety-first.

UNIFORM STATE PLANNING REGIONS

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies; and Executive Order No. 77-5 continued such regions; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, by virtue of the powers vested in me as Governor of the State of Idaho, I, JOHN V. EVANS, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, NezPerce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou, and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue, with the written authorization of the Governor, to group or combine whole State Planning Regions into agency-designated larger geographic areas, but shall continue to utilize the six regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted to those state agencies whose immediate compliance to these exact regional boundaries would bring undue expense, hardship, or significantly decreased efficiency to the operation of that agency, or because of other special circumstances. Exemptions will be considered and may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary.
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay in adoption of the State Multi-County Regions specified herein.
- (c) A timetable for eventual agency compliance with this order.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

IDAHO CODE OF FAIR EMPLOYMENT PRACTICES  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 78-4

WHEREAS, the Legislature of the State of Idaho by Title 67, Chapter 59, of the Idaho Code has declared a policy to secure to all individuals within the State freedom from discrimination because of race, color, religion, national origin, sex, and by Title 44, Chapter 16 of the Idaho Code, freedom from discrimination in employment in the state service on the basis of handicap, and by Title 65, Chapter 5, of the Idaho Code, veterans are to be given preference in employment by public employers; and

WHEREAS, every Idahoan should be provided the opportunity to fully develop and use his/her talents. When we allow race, color, religion, national origin, sex, age and/or handicap to prevent anyone from reaching his potential, we fail that person, our state and our country. In accordance with the principles of fair practice, we must strive to recognize and advance the abilities and talents of every individual, while denying no person his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a model for government, business, industry, labor and education in this regard;

NOW, THEREFORE, in that spirit and to that purpose, I, JOHN V. EVANS, Governor of the State of Idaho, now proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

ARTICLE I - Employment Policies of State Agencies

State employees shall be recruited, appointed, assigned and promoted upon the sole basis of individual merit, without regard to race, color, religion, national origin, sex, age or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.

All state departments, commissions and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training and compensation policies and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations.

The State Personnel Commission shall take positive steps to insure that the entire examination process, oral and written, shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating "Hiring is done without regard to race, color, religion, national origin, sex, age or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."

## ARTICLE II - State Action

All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex or handicap. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, plan, contract or subcontract which has the effect of sanctioning such practices.

## ARTICLE III - State Financial Assistance

Race, color, religion, national origin, sex or handicap shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans or other financial assistance to public agencies, private institutions or organizations which engage in discriminatory practices.

## ARTICLE IV - State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a nondiscriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age or handicap.

## ARTICLE V - State Education, Counseling and Training Programs

All educational, counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age or handicap.

## ARTICLE VI - Cooperation with Human Rights Commission

All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.

## ARTICLE VII - Enforcement by Appointing Authorities

The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.

Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment; (2) an investigative procedure designed to protect the confidentiality of participants and to effect an immediate and fair resolution of the allegation; and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article VI of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

This Executive Order shall be posted in prominent places in all state facilities in public view so that its contents may be easily read by all employees and by the general public.

#### ARTICLE VIII - Annual Reports

Each executive agency shall, on September 1 of each year, submit a written report to the Governor setting forth all activities undertaken in the past year to effect this Idaho Code of Fair Employment Practices.

This Executive Order repeals and replaces Executive Order No. 78-4.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 19th day of February, in the year of our Lord nineteen hundred eighty-one, and of the Independence of the United States of America the two hundred fifth, and of the Statehood of Idaho the ninety-first.

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 79-6

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the State's energy demand; and

WHEREAS, the State government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the State government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby order all State building designs and lease agreements to include energy conservation considerations including;

- insulation levels no less stringent than the Code for Energy Conservation in New Building Construction (Uniform Building Code, 1979);
- insulated or storm windows and doors;
- adequate caulking and weatherstripping;
- use of solar hot water where feasible and solar heating where cost effective;
- in the Capitol Mall, use of natural hot water where feasible;
- roof design providing summer shade for sun-facing windows and entry ways in the summer and direct sunlight on those walls in the winter.

I further order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of

all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, should become a major consideration in construction of all State buildings and lease agreements.

DUES, FEES AND MEMBERSHIPS IN PROFESSIONAL ASSOCIATIONS--  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 79-7

Recognizing that there is no uniform state policy in regard to the payment of professional dues, fees, and memberships for state employees, I find it essential to make a policy for all state employees in the Executive Department.

THEREFORE, as Governor of the State of Idaho, I proclaim the following policy:

No state money shall be used to pay for any kind of professional, occupational or trade license, certificate, permit or occupational registration for any state employee or officer; nor shall any state monies be used to pay for any kind of dues to any professional, occupational or trade association in which membership is restricted to persons who are licensed, certified or registered under Idaho law. This policy does not preclude the state or state departments from paying dues to organizations relating to their responsibilities in state government.

PROVISIONS FOR THE NECESSARY AND APPROPRIATE STATE COORDINATION AND  
PARTICIPATION WITH THE FEDERAL INSURANCE ADMINISTRATION UNDER THE  
NATIONAL FLOOD INSURANCE ACT OF 1968, AS AMENDED, AND RULES AND

EXECUTIVE ORDER NO. 80-3

WHEREAS, uneconomic uses of the state's flood plains are occurring and potential flood losses are increasing despite substantial efforts to control floods; and

WHEREAS, national, state and local studies of areas and property subject to flooding indicate a further increase in flood damage potential and flood losses, even with continuing investment in flood protection structures; and

WHEREAS, the State of Idaho has continuing programs for the construction of buildings, roads, and other facilities and annually acquires and disposes of lands in flood hazard areas--all of which activities significantly influence patterns of commercial, residential, and industrial development; and

WHEREAS, the availability of flood insurance under the National Flood Insurance Program, as provided by the National Flood Insurance Act of 1968, as amended, is dependent upon state coordination of federal, state, and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the state; and

WHEREAS, the Department of Water Resources is the state agency responsible for assisting with local regulations necessary for flood insurance provided by the National Flood Insurance Act of 1968 under the Idaho Code, Title 67, Sec. 1911 through 1917; and

WHEREAS, the Federal Insurance Administration has promulgated and adopted rules and regulations governing eligibility of state and local communities to participate in the National Flood Insurance Program, which participation depends on state coordination and the designation of an agency in the State of Idaho to be responsible for coordinating federal, state and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State of Idaho;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby order as follows:

Section 1. The Department of Water Resources is hereby designated as the agency to provide implementation of Section 1910.12, Rules and Regulations of the Federal Insurance Administration and will encourage a broad and unified effort to prevent uneconomic uses and development of the state's flood plains and in particular, to lessen the risk of flood losses in connection with state lands and installations and state financed or supported improvements; specifically,

- (1) Under the leadership and direction of the Department of Administration, all state agencies directly responsible for the construction of buildings, structures, roads, or other facilities shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in connection with such facilities. In the event of construction in the flood plain, the flood plain management criteria set forth in Sections 1910.3, 1910.4, and 1910.5 of the National Flood Insurance Regulations shall apply as applicable. Flood proofing measures shall be applied to existing facilities in order to reduce flood damage potential.
- (2) All state agencies responsible for the administration of grant or loan programs involving the construction of buildings, structures, roads or other facilities shall evaluate flood hazards in connection with such facilities and, in order to minimize the exposure of facilities to potential flood damage and the need for future state expenditures for flood protection and flood disaster relief, shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in such connection.
- (3) All state agencies responsible for the disposal of lands or properties shall evaluate flood hazards in connection with lands or properties proposed for disposal to other public instrumentalities or private interests and, in order to minimize future state expenditures for flood protection and flood disaster relief, shall notify those instrumentalities and private interests that such hazards exist.
- (4) All state agencies responsible for programs which affect land use planning, including state permit programs, shall take flood hazards into account when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.
- (5) In evaluating flood hazard potential, all state agencies shall coordinate their work with the Department of Water Resources to assure that the most up-to-date data and/or methods of analysis are utilized.

Section 2. As may be permitted by law, the head of each state agency shall issue appropriate rules and regulations to govern the carrying out of the provisions of Section 1 of this order by his agency to be coordinated with the Department of Administration.

Section 3. This order shall take effect on the twelfth day of April 1982 and repeals and replaces Executive Order No. 80-3.

EXECUTIVE ORDER NO. 82-11

CURTAILMENT OF STATE GOVERNMENT OPERATIONS  
DUE TO FINANCIAL EXIGENCY

WHEREAS, Article 7, Section 11, of the Idaho Constitution provides that state government expenditures shall not exceed state government revenues; and

WHEREAS, I have determined that the expenditures from the general fund authorized by the Legislature for the current fiscal year will exceed anticipated moneys available to meet those expenditures; and

WHEREAS, it will not be possible to sufficiently reduce general fund expenditures without substantially reducing personnel costs; and

WHEREAS, it would not be in the public interest to resort to massive state employee layoffs to solve this problem when a smaller sacrifice by a larger number of state employees will accomplish the necessary result;

NOW, THEREFORE, I, JOHN V. EVANS, by the authority vested in me as Governor of Idaho under the Constitution and laws of this state do hereby order:

1. In order to reduce expenditures from the general fund, all department heads and other appointing authorities shall reduce the workweek of their employees in the following manner:
  - a. Employees subject to reduced workweek requirements shall immediately be placed on work schedules limited to a maximum of thirty-two (32) hours per week. Employees who are currently regularly scheduled for fewer than forty (40) hours per week shall be limited to eighty (80) percent of the number of hours regularly scheduled, except that the reduction shall not result in the loss of state employee benefits by any employee currently eligible for such benefits. The Office of Group Insurance will advise each department head and other appointing authorities on avoidance of such deprivation of employee benefits so that existing agreements with benefit providers may be complied with.
  - b. In general, the reduced workweek requirement is intended to be applied in a manner which will maximize the cost savings to the general fund while minimizing adverse impacts on state employees and on the delivery of services to the public. Therefore, to the extent legally possible, positions funded from sources other than the general

fund should not be subject to the reduced workweek requirement. Conversely, exceptions to the requirement for general fund positions should be minimized.

The following approach should be utilized in determining which employees shall be subject to the reduced workweek requirement:

- (1) All personnel employed in organizational units in which no positions are funded from the general fund shall not be subject to the requirement.
- (2) Initially, all employees in all other units shall be subject to the requirement. However, in the event the Idaho Personnel Commission grants the attached petition for waiver of IPC Rule 14.A.1 (the layoff rule) additional employees may be exempted from the requirement:
  - aa. Remaining non-general fund positions.
  - bb. Positions which must be maintained at existing levels to avoid endangering the health and safety of the public or of persons in the custody or care of the state.
  - cc. Positions where the imposition of the requirement would result in an unnecessary loss of revenue to the state which exceeds the savings to be realized.
  - dd. Other positions, provided that further restrictions are imposed on other employees in the unit which will result in equivalent personnel cost savings to the general fund.

The Division of Financial Management should be consulted about exemptions in Categories cc and dd.

- (3) Some personnel subject to the requirement may be permitted to exceed the maximum hours allowed in a given week provided other workweeks are further reduced in a commensurate amount, and provided further that services are to be maintained at or near normal levels for at least four days out of each week for every state agency.
- c. State officials and employees who receive an annual salary fixed by statute from the general fund, which salary would not be affected by a reduction in hours worked per week, are encouraged to donate an amount equivalent to twenty (20) percent of their income to the general fund for the period this Order remains in effect.
- d. State offices should continue to be kept open to serve the public during the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday, as provided in Section 59-1007, Idaho Code. However, to the extent it becomes necessary to limit operations or services as a result of this curtailment in available personnel, in the interests of uniformity and to avoid

public confusion, Friday of each week is hereby designated as the day on which limited state business will be transacted. While individual agency circumstances may dictate a different schedule be adopted, each Friday shall be the day when most offices will be functioning with a minimum of personnel.

2. All out-of-state travel on state business will require prior written approval of the appropriate department head, which shall only be granted if such travel is essential to the performance of specific statutory or constitutionally-imposed duties. To the extent practical, the department head should consult with the Office of the Governor and the Division of Financial Management prior to granting such approval.
3. No positions in any executive agency, office or institution which are currently vacant and which would be funded in whole or in part by the general fund shall be filled prior to the end of the current fiscal year without the approval of the Division of Financial Management.
4. The Governor will order appropriate reductions in agency allotments as provided in Section 67-3512A, Idaho Code, to reflect cost reductions to be achieved by this Order, and any further cost reductions necessary to balance the budget.
5. The Legislative and Judicial Departments and the Offices of the Lieutenant Governor, Attorney General, Secretary of State, Treasurer, Auditor, and Superintendent of Public Instruction shall be exempt from this Order. However, each of these departments and offices is encouraged to adopt similar curtailments to the extent possible without impairing the discharge of constitutional duties.
6. This Order shall take effect immediately upon its execution and shall continue in effect until the end of the current fiscal year (June 30, 1982) unless improving economic conditions allow it to be revoked early.

PLANS FOR REDUCTION OF FY 1983 GENERAL ACCOUNT ALLOTMENTS

WHEREAS, Article 7, Section 11, of the Idaho Constitution provides that state government expenditures shall not exceed state government revenues; and

WHEREAS, I have determined that expenditures from the General Account authorized by the Legislature for Fiscal Year 1983 will exceed anticipated monies available to meet those expenditures;

NOW, THEREFORE, I, JOHN V. EVANS, by the authority vested in me as Governor of Idaho under the Constitution and laws of this state do hereby order:

That the director of each agency, department, board or commission which derives its funding in whole or in part from the General Account submit to the Division of Financial Management no later than July 26, 1982, a plan reducing the expenditures of appropriated General Account revenues for Fiscal Year 1983 by 9.0 percent. The State Board of Education shall determine the allocation of the reduction among the various offices and institutions under its control.

Agency directors will have flexibility to choose savings approaches that minimize public impact but are asked to consider the following guidelines:

- a. Where possible, "reductions in force" should be avoided by the use of voluntary personnel reductions, attrition, or vacancy savings.
- b. Public safety and the safety of persons in the care of the state should be protected to the best of our ability.
- c. Special attention should be given to limiting out-of-state travel or other discretionary expenditures, reorganizing to improve efficiency, and protecting the agency's most critical programs.
- d. Short-term savings which produce greatly increased costs in the future should be avoided.
- e. Agencies should coordinate their reduction plans to minimize adverse impacts on the public and state employees.

Further, directors of agencies, departments, boards or commissions which derive their funding in whole or in part from sources other than the General Account shall review the potential for producing savings in the

state's General Account by altering their own operating procedures such as reducing billings to General Account agencies or in other ways reducing expenditures for General Account agencies. Where those savings are possible, directors are hereby ordered to submit plans describing these actions to the Division of Financial Management by July 26, 1982.

This Order shall take effect immediately upon its execution.

CONTINUATION OF THE IDAHO CONSORTIUM  
FOR HUMAN AND ANIMAL HEALTH

---

WHEREAS, it is in the public interest to promote the well being of the people of Idaho by optimal use of resources related to human and animal health; and

WHEREAS, the most efficient and effective use of scarce resources requires cooperative planning as well as sharing information, technical capability and equipment; and

WHEREAS, the public agencies that are responsible for various aspects of human and animal health at the state, local and federal levels need to maintain and enhance open lines of communication; and

WHEREAS, the State of Idaho has experienced complicated and perplexing crises such as the PCB contaminated livestock episode in 1979 and the ash fallout from Mount St. Helens volcano in 1980, both having serious implications for human and animal health;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby continue the Idaho Consortium for Human and Animal Health, which shall be composed of the State Health Officer, the Chief of the State Bureau of Laboratories in the Department of Health and Welfare, the Administrator of the Division of Animal Industries, the Chief of the Bureau of Plant Chemicals, the Dean of the Faculty of the University of Idaho School of Veterinarian Medicine, the Director of the University of Idaho Veterinarian Teaching Center in Caldwell and the Director of Fish and Game.

The appointment of this Consortium is made with the understanding that policy-making responsibilities and the administration of affected state programs as provided by the Idaho Code will be maintained as legally required, and the Consortium will report to the Governor's Office, Department Directors and Agency Boards that have different degrees of responsibility for programs related to human and animal health.

The appointment of this Consortium is made with the understanding that its main responsibility will be to maximize the use of all government resources that can be applied to an optimum understanding of human and animal health concerns, particularly those functions involving laboratory study, research initiatives and the coordination of acute information needs necessary for accurate technical analysis. This will require the coordination of ongoing programs and the investigation of high-priority health problems that require the prompt organization of diverse data necessary for the prevention of widespread, costly illness in humans and animals.

The appointment of this Consortium is made with the understanding that the people serving in these positions have extensive technical knowledge and experience available in state government for the protection and maintenance of human and animal health in the State of Idaho and, therefore, have access to other state, local and federal government resources. Since these resources extend far beyond the members of the Consortium yet remain essential to laboratory coordination and research direction for health-related concerns, the Consortium must make every effort to maximize their effectiveness and consider the resources of other state and federal agencies.

The appointment of the Chairperson of the Consortium shall be made by the Governor from a list of recommendations submitted by the Consortium. The Chairperson will serve at the pleasure of the Governor. Regular meetings of the Consortium will be held twice annually and emergency meetings may be called at any time.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the twenty-seventh day of July, in the year of our Lord nineteen hundred eighty-two, and of the Independence of the United States of America the two hundred seventh, and of the Statehood of Idaho the ninety-third.

WHEREAS, the state must design a comprehensive cost-efficient labor market and occupational supply and demand information system which

1. Is responsive to the economic demand and education and training supply support needs of the state and areas within the state, and
2. Meets the federal standards under Chapter 35 of Title 44, United States Code, and other appropriate federal standards established by the Bureau of Labor Statistics; and

WHEREAS, the state's system must standardize available federal and state multi-agency administrative records and direct survey data sources to produce an employment and economic analysis with a published set of projections for the state and designated areas within the state which shall be used to contribute in carrying out the provisions of the "Job Training Partnership Act of 1982," the "Vocational Education Act of 1963," and the "Act of June 6, 1933," known as the "Wagner-Peyser Act"; and

AND I FURTHER DIRECT the following in an effort to reduce paperwork and multiple survey burdens of the employers of Idaho:

EXECUTIVE ORDER NO. 82-30

UNIFORM STATE PLANNING REGIONS

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies and this has continued through such orders, the last issued being Executive Order No. 80-18; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, by virtue of the powers vested in me as Governor of the State of Idaho, I, JOHN V. EVANS, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, NezPerce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou, and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region).

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue, with the written authorization of the Governor, to group or combine whole State Planning Regions into agency-designated larger geographic areas, but shall continue to utilize the six regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted to those state agencies whose immediate compliance to these exact regional boundaries would bring undue expense, hardship, or significantly decreased efficiency to the operation of that agency, or because of other special circumstances. Exemptions will be considered and may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary.
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay in adoption of the State Multi-County Regions specified herein.
- (c) A timetable for eventual agency compliance with this order.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the thirtieth day of December, in the year of our Lord nineteen hundred eighty-two, and of the Independence of the United States of America the two hundred seventh, and of the Statehood of Idaho the ninety-third.

CONTINUING THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-CYCLE COSTING PRACTICES, REPEALING AND REPLACING EXECUTIVE ORDER NO. 80-16

---

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the state, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby declare that it is the policy of the state to continue to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the state, including life-cycle costing for the purchase of all major energy-consuming products.

I further direct the Department of Administration to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and building practices.

This Executive Order repeals and replaces Executive Order No. 80-16.

IDAHO CODE OF FAIR EMPLOYMENT PRACTICES

REPEALING AND REPLACING EXECUTIVE ORDER NO. 81-1

WHEREAS, the Legislature of the State of Idaho by Title 67, Chapter 59, of the Idaho Code has declared a policy to secure to all individuals within the state freedom from discrimination because of race, color, religion, national origin, or sex, and by Title 44, Chapter 16 of the Idaho Code, freedom from discrimination in employment in the state service on the basis of handicap, and by Title 65, Chapter 5, of the Idaho Code, veterans are to be given preference in employment by public employers; and

WHEREAS, every Idahoan should be provided the opportunity to fully develop and use his/her talents. When we allow race, color, religion, national origin, sex, age and/or handicap to prevent anyone from reaching his potential, we fail that person, our state and our country. In accordance with the principles of fair practice, we must strive to recognize and advance the abilities and talents of every individual, while denying no person his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a model for government, business, industry, labor and education in this regard;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, in that spirit and to that purpose, proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

ARTICLE I--Employment Policies of State Agencies

State employees shall be recruited, appointed, assigned and promoted upon the sole basis of individual merit, without regard to race, color, religion, national origin, sex, age or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.

All state departments, commissions and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training and compensation policies and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations.

The State Personnel Commission shall take positive steps to insure that the entire examination process, oral and written, shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all

citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating "Hiring is done without regard to race, color, religion, national origin, sex, age or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."

#### ARTICLE II--State Action

All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex or handicap. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, plan, contract or subcontract which has the effect of sanctioning such practices.

#### ARTICLE III--State Financial Assistance

Race, color, religion, national origin, sex or handicap shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans or other financial assistance to public agencies, private institutions or organizations which engage in discriminatory practices.

#### ARTICLE IV--State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a nondiscriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age or handicap.

#### ARTICLE V--State Education, Counseling and Training Programs

All educational counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age or handicap.

#### ARTICLE VI--Cooperation with Human Rights Commission

All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.

ARTICLE VII--Enforcement by Appointing Authorities

The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.

Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment; (2) an investigative procedure designed to protect the confidentiality of participants and to effect an immediate and fair resolution of the allegation; and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article VI of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

This Executive Order shall be posted in prominent places in all state facilities in public view so that its contents may be easily read by all employees and by the general public.

ARTICLE VIII--Annual Reports

Each executive agency shall, on September 1 of each year, submit a written report to the Governor setting forth all activities undertaken in the past year to effect this Idaho Code of Fair Employment Practices.

This Executive Order repeals and replaces Executive Order No. 81-1.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the eighteenth day of February, in the year of our Lord nineteen hundred eighty-three, and of the Independence of the United States of America the two hundred seventh, and of the Statehood of Idaho the ninety-third.

1122 REVIEW PROGRAM IN THE STATE OF IDAHO

WHEREAS, the need to be able to access quality health care is required for all Idaho citizens; and

WHEREAS, as Governor of the State of Idaho, I have the authority to enter the State of Idaho into an agreement with the Secretary of the United States Department of Health and Human Services for the conduct of a capital expenditure review program for health facilities within the State of Idaho pursuant to Section 1122 of the Social Security Act (42 USC Chapter 7); and

WHEREAS, to assure availability and accessibility of health care to all citizens of the state and to insure that duplication of services, excessive development of health care facilities or services and containment of health care costs are controlled, the implementation of a Section 1122 review program is necessary and proper;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby declare that a health facilities capital expenditure review program pursuant to Section 1122 of the Social Security Act will be implemented effective July 1, 1983.

The 1122 review program is a regulatory review process to be administered by the Department of Health and Welfare which department is hereby proclaimed to be the designated planning agency for purposes of this 1122 review program.

For the purpose of assuring that federal and state funds appropriated pursuant to Titles V, XVIII, and XIX of the Social Security Act are not used to support unnecessary capital expenditures made by or on behalf of health care facilities which are reimbursed under any of such titles or state statutes, expenditures shall be analyzed and a determination as to whether they are appropriate shall be made. The Director of the Department of Health and Welfare or the Director's designee shall, after consideration of the record of review and input from the State Health Planning and Development Agency and the Health Systems Agency, make a recommendation on proposed capital expenditures to the Secretary of the United States Department of Health and Human Services for his final approval or disapproval.

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 81-10

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the state's energy demand; and

WHEREAS, the state government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the state government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby continue the order that all state building designs and lease agreements will include energy conservation considerations including:

- insulation levels no less stringent than the Code for Energy Conservation in New Building Construction (Uniform Building Code, 1979);
- insulated or storm windows and doors;
- adequate caulking and weatherstripping;
- use of solar hot water where feasible and solar heating where cost effective;
- in the Capitol Mall, use of natural hot water where feasible;
- roof design providing summer shade for sun-facing windows and entry ways in the summer and direct sunlight on those walls in the winter.

FURTHER, I order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, should become a major consideration in construction of all state buildings and lease agreements.

EXECUTIVE ORDER NO. 82-8

WHEREAS, uneconomic uses of the state's flood plains are occurring and potential flood losses are increasing despite substantial efforts to control floods; and

WHEREAS, the State of Idaho has continuing programs for the construction of buildings, roads, and other facilities and annually acquires and disposes of lands in flood hazard areas--all of which activities significantly influence patterns of commercial, residential, and industrial development; and

WHEREAS, the availability of flood insurance under the National Flood Insurance Program, as provided by the National Flood Insurance Act of 1968, as amended, is dependent upon state coordination of federal, state, and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the state; and

WHEREAS, the Department of Water Resources is the state agency responsible for assisting with local regulations necessary for flood insurance provided by the National Flood Insurance Act of 1968 under the Idaho Code, Title 67, Sec. 1911 through 1917; and

- (2) All state agencies responsible for the administration of grant or loan programs involving the construction of buildings, structures, roads or other facilities shall evaluate flood hazards in connection with such facilities and, in order to minimize the exposure of facilities to potential flood damage and the need for future state expenditures for flood protection and flood disaster relief, shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in such connection.
- (3) All state agencies responsible for the disposal of lands or properties shall evaluate flood hazards in connection with lands or properties proposed for disposal to other public instrumentalities or private interests and, in order to minimize future state expenditures for flood protection and flood disaster relief, shall notify those instrumentalities and private interests that such hazards exist.
- (4) All state agencies responsible for programs which affect land use planning, including state permit programs, shall take flood hazards into account when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.

CONTINUATION OF THE IDAHO CONSORTIUM FOR HUMAN AND ANIMAL HEALTH,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 82-16

WHEREAS, it is in the public interest to promote the well being of the people of Idaho by optimal use of resources related to human and animal health; and

WHEREAS, the most efficient and effective use of scarce resources requires cooperative planning as well as sharing information, technical capability and equipment; and

WHEREAS, the public agencies that are responsible for various aspects of human and animal health at the state, local and federal levels need to maintain and enhance open lines of communication; and

WHEREAS, the State of Idaho has experienced complicated and perplexing crises such as the PCB contaminated livestock episode in 1979 and the ash fallout from Mount St. Helens volcano in 1980, both having serious implications for human and animal health;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby continue the Idaho Consortium for Human and Animal Health, which shall be composed of the State Health Officer, the Chief of the State Bureau of Laboratories in the Department of Health and Welfare, the Administrator of the Division of Animal Industries, the Chief of the Bureau of Plant Chemicals, the Dean of the Faculty of the University of Idaho School of Veterinarian Medicine, the Director of the University of Idaho Veterinarian Teaching Center in Caldwell and the Director of the Department of Fish and Game.

The appointment of this Consortium is made with the understanding that policy-making responsibilities and the administration of affected state programs as provided by the Idaho Code will be maintained as legally required, and the Consortium will report to the Governor's Office, Department Directors and Agency Boards that have different degrees of responsibility for programs related to human and animal health.

The appointment of this Consortium is made with the understanding that its main responsibility will be to maximize the use of all government resources that can be applied to an optimum understanding of human and animal health concerns, particularly those functions involving laboratory study, research initiatives and the coordination of acute information needs necessary for accurate technical analysis. This will require the coordination of ongoing programs and the investigation of high-priority health problems that require the prompt organization of diverse data necessary for the prevention of widespread, costly illness in humans and animals.

The appointment of this Consortium is made with the understanding that the people serving in these positions have extensive technical knowledge and experience available in state government for the protection and maintenance of human and animal health in the State of Idaho and, therefore, have access to other state, local and federal government resources. Since these resources extend far beyond the members of the Consortium, yet remain essential to laboratory coordination and research direction for health-related concerns, the Consortium must make every effort to maximize their effectiveness and consider the resources of other state and federal agencies.

The appointment of the Chairperson of the Consortium shall be made by the Governor from a list of recommendations submitted by the Consortium. The Chairperson will serve at the pleasure of the Governor. Regular meetings of the Consortium will be held twice annually and emergency meetings may be called at any time.

This Executive Order repeals and replaces Executive Order No. 82-16.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the tenth day of July, in the year of our Lord nineteen hundred eighty-four, and of the Independence of the United States of America the two hundred ninth, and of the Statehood of Idaho the ninety-fifth.

ESTABLISHING THE STATE CEILING AND ALLOCATION  
OF INDUSTRIAL REVENUE BOND AUTHORITY

WHEREAS, the Idaho State Legislature has authorized certain state agencies, cities and counties and certain special purpose districts and also including the Student Loan Fund of Idaho Management Association, Inc. ("Issuing Authorities") to issue industrial revenue bonds to promote higher employment and business investment in the State of Idaho; and

WHEREAS, on July 18, 1984, the President of the United States signed into law the Deficit Reduction Act of 1984 (PL 98-369) (the "Act"), which Act inter alia imposes a state-by-state ceiling (the "State Ceiling") on the issuance of industrial revenue bonds and student loan bonds ("Private Activity Bonds"); and

WHEREAS, the Act limits the State Ceiling to \$150 per capita annually or two hundred million dollars (\$200,000,000) annually, whichever is greater; and

WHEREAS, The Act sets forth a method of allocating the State Ceiling within each state among the Issuing Authorities for Private Activity Bonds unless the state provides a different formula of allocation; and

WHEREAS, The Act authorizes the governor of a state to proclaim a different formula for allocating the State Ceiling among all such Issuing Authorities as an interim allocation system pending the enactment of state law with respect to the ceiling; and

WHEREAS, it is in the best interest of the welfare of the residents of this state to promote industrial and economic development and encourage private investment in our state's economy by preserving the ability of state agencies and local governmental units to issue Private Activity Bonds;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by the power vested in me by the Constitution and laws of the State of Idaho and by the Act do hereby order and proclaim:

Section 1. The State Ceiling for the State of Idaho shall be two hundred million dollars (\$200,000,000).

Section 2. The State Ceiling shall be allocated by the following formula to each Issuing Authority. The entire State Ceiling shall be reserved to the state to be allocated as needed to each Issuing Authority in the chronological order of receipt by the Executive Office of the Governor, Division of Economic and Community Affairs (the "Division") of a Purchase Agreement or similar binding commitment for the purchase of such Private Activity Bonds (a "Purchase Agreement"). Each Issuing Authority issuing such bonds shall submit a Purchase

Agreement to the Division together with the completed form attached to this order (Exhibit "A") and incorporated herein by reference. The Division shall respond by letter within fifteen (15) days to the Issuing Authority, allocating the requested amount according to the particular Purchase Agreement. Such allocation shall expire on December 31st of the allocation year unless specific authority is requested and granted by the Division to carry forward the allocation into the succeeding calendar year. Within ten (10) days of the closing of the sale of such bonds, the Issuing Authority shall submit to the Division the completed form (Exhibit "B") attached to this Executive Order and incorporated herein by reference. In the event that the amount of bonds issued at time of closing is less than the amount contemplated by the Purchase Agreement, the allocation received by the Issuing Authority shall be adjusted to the amount actually sold at closing.

Section 3. Any issuing authority electing to carry forward its allocation shall notify the Division by letter of its request before December 1st of the calendar year in which the allocation was granted. The Division shall respond in writing within fifteen (15) days granting the carry forward of the allocation.

Any Issuing Authority which has passed an Inducement Resolution but does not have a purchase agreement signed may apply between November 15th and December 15th of each year for a carry forward allocation for a project. The application shall be on the form attached to this order (Exhibit C) with a copy of the Inducement Resolution, a note of explanation and a letter from a representative of the person(s) or entity using the proceeds of the bond sale, stating they will proceed with due diligence with the project and issuance of the bonds within a specified time. The Division shall respond by letter within ten (10) days granting the carry forward allocation.

Section 4. No action taken pursuant hereto shall be deemed to create an obligation, debt or liability of the State of Idaho or deemed to constitute an approval of any obligation issued or to be issued hereunder.

Section 5. The allocation system provided for in Section 1 of this Order shall be effective immediately and continue until January 1, 1986, unless repealed or superseded by operation of state or federal law.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 14th day of September in the year of our Lord nineteen hundred eighty-four, and of the Independence of the United States of America the two hundred ninth, and of the Statehood of Idaho the ninety-fifth.

EXECUTIVE ORDER NO. 84-20

CONTINUATION OF THE IDAHO DEPARTMENT OF EMPLOYMENT AS THE ORGANIZATIONAL  
UNIT TO BE RESPONSIBLE FOR THE STATE OF IDAHO'S LABOR MARKET IN-  
FORMATION PROGRAMS, REPEALING AND REPLACING  
EXECUTIVE ORDER NO. 82-31

WHEREAS, the "Job Training Partnership Act of 1982" requires the Governor, in order to be eligible for federal financial assistance for state labor market information programs under this Act, to designate an organizational unit to be responsible for oversight and management of a statewide comprehensive labor market and occupational supply and demand information system; and

WHEREAS, the state must design a comprehensive, cost-efficient labor market and occupational supply and demand information system which

1. Is responsive to the economic demand and education and training supply support needs of the state and areas within the state, and
2. Meets the federal standards under Chapter 35 of Title 44, United States Code, and other appropriate federal standards established by the Bureau of Labor Statistics; and

WHEREAS, the state's system must standardize available federal and state multi-agency administrative records and direct survey data sources to produce an employment and economic analysis with a published set of projections for the state and designated areas within the state which shall be used to contribute in carrying out the provisions of the "Job Training Partnership Act of 1982;" the "Vocational Education Act of 1963," and the "Act of June 6, 1933," known as the "Wagner-Peyser Act"; and

WHEREAS, the Governor must assure to the extent feasible that

1. Automated technology will be used by the state,
2. Administrative records have been designed to reduce paperwork, and
3. Multiple survey burdens on the employers of the state have been reduced; and

WHEREAS, the Idaho Department of Employment operates a highly automated labor market information system supported by seven area labor market analysts located in each of the largest cities in Idaho; and

WHEREAS, since the Idaho Department of Employment in operating the state's Unemployment Insurance Program must collect from the employers of the state core information basic to any comprehensive statewide labor market and occupational supply and demand information system;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby assign the Idaho Department of Employment the role of organizational unit to be responsible for oversight and management of Idaho's statewide comprehensive labor market and occupational supply and demand information system; and

I FURTHER DIRECT that the Idaho Department of Employment continue to rely upon the Idaho State Occupational Information Coordinating Committee as the disseminating and coordinating mechanism for occupational supply/demand and career information system. Such a system will use existing sources of information where possible, including data from and generated by the Idaho Department of Employment through its Labor Market Information and Occupational Employment Statistics programs.

AND I FURTHER DIRECT the following in an effort to reduce paperwork and multiple survey burdens of the employers of Idaho:

1. The Idaho Personnel Commission will discontinue the Idaho portion of its annual wage survey and utilize the Department of Employment's annual wage and salary survey to meet its obligation to recommend payline adjustment to the Governor and Legislature. All attributable costs to the Idaho Department of Employment for the Personnel Commission's portion of the annual wage and salary survey will be deducted from the Department's interaccount billing for services performed for the Idaho Personnel Commission.
2. The Regulatory Reform Task Force will act as a screening mechanism for all proposed surveys of the state's private employers by the Executive Branch that request information beyond that required by law for each agency to perform its statutory duties.
3. Executive Order No. 82-31 is hereby repealed and replaced.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the twelfth day of December, in the year of our Lord nineteen hundred eighty-four, and of the Independence of the United States the two hundred ninth, and of the Statehood of Idaho the ninety-fifth.

EXECUTIVE ORDER NO. 84-21

CONTINUATION OF UNIFORM STATE PLANNING REGIONS

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies and this has continued through such orders, the last issued being Executive Order No. 82-30; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data-gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, I JOHN V. EVANS, by virtue of the powers vested in me as Governor of the State of Idaho, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, NezPerce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou, and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take this above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue, with the written authorization of the Governor, to group or combine whole State Planning Regions into agency-designated larger geographic areas, but shall continue to utilize the six regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted to those state agencies whose immediate compliance to these exact regional boundaries would bring undue expense, hardship, or significantly decreased efficiency to the operation of that agency, or because of other special circumstances. Exemptions will be considered and may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary.
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay in adoption of the State Multi-County Regions specified herein.
- (c) A timetable for eventual agency compliance with this order.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

This Executive Order repeals and replaces Executive Order No. 82-30.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the twenty-first day of December, in the year of our Lord nineteen hundred eighty-four, and of the Independence of the United States of America the two hundred ninth, and of the Statehood of Idaho the ninety-fifth.

CONTINUATION OF THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES  
AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO  
ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-  
CYCLE COSTING PRACTICES, REPEALING AND REPLACING  
EXECUTIVE ORDER NO. 82-32

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the state, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby declare that it will continue to be the policy of the state to continue to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the state, including life-cycle costing for the purchase of all major energy-consuming products.

I further direct the Department of Administration to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and building practices.

This Executive Order repeals and replaces Executive Order No. 82-32.

IDAHO CODE OF FAIR EMPLOYMENT PRACTICES  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 83-3

WHEREAS, the United States through its Constitution, laws, executive orders, and regulations has declared that all persons are to be treated fairly and equally; and the State of Idaho is committed to fulfilling that federal mandate; and

WHEREAS, the Legislature of the State of Idaho by Title 44, Chapter 17 and Title 67, Chapter 59 of the Idaho Code has declared that employment discrimination based upon race, color, national origin, religion, sex, or age is illegal; by Title 56, Chapter 7 that the handicapped shall be free from employment discrimination in public service; and by Title 65, Chapter 5 that veterans are to be given preference by public employers; and

WHEREAS, every Idahoan should be provided the opportunity to fully develop and use his/her talents. When we allow race, color, religion, national origin, sex, age and/or handicap to prevent anyone from reaching full potential, we fail that person, our state, and our country. In accordance with the principles of fair employment practices, we must strive to recognize and advance the abilities and talents of all people, while denying no individual his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a mode for government, business, industry, labor, and education in this regard;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, in that spirit and to that purpose, proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

ARTICLE I--Employment Policies of State Agencies

State employees shall be recruited, appointed, assigned and promoted upon the basis of individual merit, in accordance with the principles of fair treatment and non-discrimination on the basis of race, color, sex, religion, national origin, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.

All state departments, commissions, and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training, and compensation policies and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations and seek to redress under-utilization, if any, of minority, women, or handicapped persons within the state workforce.

The State Personnel Commission shall take positive steps to insure that the entire examination process, oral, written, and ratings shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating "Hiring is done without regard to race, color, religion, national origin, sex, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."

#### ARTICLE II--State Action

All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex or handicap. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, plan, contract, or subcontract which has the effect of sanctioning such practices.

#### ARTICLE III--State Financial Assistance

Race, color, religion, national origin, sex, or handicap shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans, or other financial assistance to public agencies, private institutions or organizations which engage in discriminatory practices.

#### ARTICLE IV--State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a nondiscriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE V--State Education, Counseling, and Training Programs

All educational counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE VI--Cooperation with Human Rights Commission

All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.

### ARTICLE VII--Enforcement by Appointing Authorities

The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.

Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment; (2) an investigative procedure designed to protect the confidentiality of participants and to effect an immediate and fair resolution of the allegation; and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article VI of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

This Executive Order shall be posted in prominent places in all state facilities in public view so that its contents may be easily read by all employees and by the general public.

### ARTICLE VIII--Annual Reports

Each executive agency shall, on September 1 of each year, submit a written report to the Governor setting forth all activities undertaken in the past year to effect this Idaho Code of Fair Employment Practices. The report shall be submitted in a form prescribed by the Governor's Office and in sufficient detail to indicate whether goals established by this Code are being met.

The Governor will appoint an interagency committee to review and evaluate the reports and to consult with each appointing authority as to the progress each is making. The committee will report to the Governor the results of this review and consultation and make periodic recommendations for further improvements in the State's EEO/AA effort.

This Executive Order repeals and replaces Executive Order No. 83-3.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the seventeenth day of May, in the year of our Lord nineteen hundred eighty-five, and of the Independence of the United States of America the two hundred ninth, and of the Statehood of Idaho the ninety-fifth.

WHEREAS, Chapters 18 and 118 of the 1985 Session Laws mandate the Director of the Department of Water Resources to commence a general adjudication of the water rights of the Snake River Basin; and

WHEREAS, House Concurrent Resolution No. 16 directs the Governor and the Attorney General to attempt to resolve issues related to unidentified and unquantified reserved water rights by negotiations with the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation or any other affected tribe prior to the filing of a petition to commence the adjudication of Snake River Basin water rights; and

In this regard, every effort should be made to harmonize the legal positions of the various state agencies and institutions.

EXECUTIVE ORDER NO. 85-17

SETTING FORTH A CODE OF ETHICAL CONDUCT FOR EMPLOYEES OF  
THE EXECUTIVE DEPARTMENT OF IDAHO STATE GOVERNMENT

GENERAL PURPOSE

This Executive Order is issued to insure high standards of conduct among state employees and to strengthen the faith and confidence of the people of Idaho in the integrity of state government and state employees. This Executive Order sets forth a code of conduct for state employees and restates existing Idaho law governing employee conduct in areas where there are actual or potential ethical concerns between their public duties and their private interests. Unless the context indicates otherwise, "state employee(s)" shall have the broadest meaning possible within the Executive Department of Idaho state government consistent with Idaho law, and "person" shall include an association, corporation or governmental entity.

It shall be a paramount concern of state employees that they engage in no conduct which might reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

GRATUITIES AND OTHER BENEFITS

State employees shall never solicit in their official capacity any gratuity or other benefit from any person under any circumstances. State employees shall not accept gratuities or other benefits exceeding a total retail value of \$100 within a calendar year from any person who is subject to their legal jurisdiction or who is likely to become interested in any contract or transaction over which they exercise any discretionary function. State employees are not precluded from accepting from time to time food or beverages consumed at the time and place of receipt from any person with whom they deal in their official capacity, subject to the limitation of \$100 retail value within a calendar year. These rules apply irrespective of kinship or other relationship with the donor outside of the official status of the state employee, and irrespective of the existence of legal consideration for or legal entitlement to the gratuity or other benefit. It is not material that the acceptance of any gratuity or other benefit contrary to this Executive Order is not prejudicial to official impartiality in fact.

Nothing herein is intended to prevent appointing authorities from approving participation by their employees in bonafide training or educational programs provided by public or private entities.

State employees shall not accept transportation or lodging from any person who is subject to their jurisdiction or who is or is likely to become interested in any contract or transaction over which they exercise any discretionary function. It shall be the general policy that reimbursable expenses for transportation and lodging of state employees shall be paid by the State of Idaho rather than by another person. This rule does not apply under circumstances where state employees do not have

reasonable access to public services or accommodations, when the acceptance of an offer of transportation makes an economical and efficient use of time or transportation and any benefit conferred is trivial or otherwise consistent with the general purpose of this Executive Order.

All state employees exercising any discretionary function shall make a conscious effort to be open to contact by all segments of Idaho society that have an interest in the exercise of that discretionary function. State employees exercising any discretionary function shall not associate with any one person who has or may have an interest in the exercise of that discretionary function to such an extent as would reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

Honorariums shall not be accepted by state employees from Idaho citizens, associations, corporations or governmental entities for appearances or services given in the course of their official duties.

#### CONFLICTS OF INTEREST

State employees shall not profit, directly or indirectly, from public funds under their control. State employees shall not have a private interest in any contract or grant made by them in their official capacity. State employees must avoid self-dealing in any purchase or sale made in their official capacity. Any state employee having a private interest in any discretionary matter coming before him in the course of his official duties, whether the matter be regulatory, adjudicative, contractual, or the formation of public policy, shall not act but shall withdraw himself.

State employees shall not refer to themselves any business or client where the origin of the relationship arises in their official capacity.

No state employee shall appoint or otherwise employ for compensation payable from public funds any person related by blood or marriage to within the second degree.

#### OUTSIDE EMPLOYMENT AND EXTRA COMPENSATION

Heads of executive departments; members of the Tax Commission, the Industrial Commission, and the Public Utilities Commission; the Executive Director of the State Board of Education, and the Director of the Executive Office of the Governor shall not hold any other public office or public employment for which compensation is received. Nor shall any state employee serve as a director, officer or employee of any profit-making corporation or institution without disclosure to and approval by their appointing authority. Such approval shall be granted only if such activity will not adversely affect the performance of the employee's official duties, nor create an appearance of impropriety.

State employees may occupy offices or positions in non-profit organizations outside state government service to the extent that it does not interfere with the performance of their official duties in an efficient, mentally- and physically-alert manner.

Except as otherwise prohibited by law, all state employees including those identified above, may own stock in a public or private corporation, be a trustee to a trust, be a personal representative to an estate, serve as a part-time member of the military reserves or the National Guard and serve upon a jury.

All state employees receiving fixed compensation are not to be paid for any extra service performed in the ordinary course of their employment, except for overtime compensation as provided by law, employment in any state educational program as provided in Section 59-512, Idaho Code, or other circumstances expressly authorized by law.

## POLITICAL ACTIVITIES

As provided by Section 67-5311, Idaho Code, and an Idaho Personnel Commission directive dated August 9, 1976, state employees shall not command political contributions from other state employees. State employees subject to the state personnel system (hereinafter "classified employees") shall not use their official authority or influence to bring about any nomination or election to public office. Classified employees shall not take an active part in the management of any political organization. Classified employees shall not seek election to a partisan public office. All state employees may vote and express their personal opinion on political issues and candidates and take an active part in support of a candidate in partisan or nonpartisan elections. All state employees may be members of a political party or organization, participate in its activities, serve as an elected convention delegate and voluntarily contribute to political parties or candidates. Classified employees shall avoid participation in public affairs in a manner which would materially compromise their neutrality, efficiency or integrity in the performance of their official duties.

## ADMINISTRATION

Department heads and boards and commissions within the Executive Department of the State of Idaho may establish particular codes of employee conduct to supplement the general code of conduct provided under Idaho law and this Executive Order. Nothing in this Executive Order is intended to preclude more strict provisions of conduct than are required under this Executive Order, except as precluded by Idaho law.

Questions or disputes regarding the conduct of state employees under this Executive Order and Idaho law shall be directed to the appropriate appointing authority who may seek legal counsel from the Attorney General.

State employees who have questions regarding their conduct that are not specifically addressed in this Executive Order or who need more direction than is included herein should consult their appointing authorities. State employees who are presently engaged in a course of conduct addressed herein are directed to review that conduct in light of this Executive Order.

Violation of this Executive Order may lead to dismissal, suspension, demotion or other personnel action. In addition, state employees whose conduct violates Idaho law whether or not restated in this Executive Order are subject to the penalties provided under Idaho law.

## DISTRIBUTION

Appointing authorities shall bring this Executive Order to the attention of state employees now or hereafter under their supervision.

It is the duty of state employees to familiarize themselves with the code of conduct contained in this Executive Order and to reflect upon their own conduct.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 13th day of August in the year of our Lord nineteen hundred eighty-five, and of the Independence of the United States of America the two hundred tenth, and of the Statehood of Idaho the ninety-sixth.

EXECUTIVE ORDER NO. 85-28

CREATING A FARM FORECLOSURE REVIEW BOARD

WHEREAS: Agriculture is Idaho's largest industry; and

WHEREAS: Idaho farmers have been victimized by distressing economic circumstances, including an international trade deficit caused by an inflated U.S. dollar, high real interest rates caused by massive federal budget deficits, and low commodity prices; and

WHEREAS: Idaho farmers have been further victimized by natural causes, including drought, grasshopper infestations and early frosts;

WHEREAS: The value of Idaho farm assets has been eroded dramatically by declining land values which in turn restricts access to farm credit; and

WHEREAS: Foreclosure on farm collateral is becoming an increasingly common occurrence despite the fact foreclosure is typically the creditors' least desirable means of recovery; and

WHEREAS: A recent survey estimates 11 percent of Idaho farmers face extreme financial problems which may well force them from agriculture within two years; and

WHEREAS: A forced sale of farm land or equipment not only can wipe out a farm family's life savings, but also adversely affects the economic well-being of the surrounding community; and

WHEREAS: The State of Idaho should assist farmers and their creditors in finding alternatives to foreclosure wherever possible without impairing the creditors' legal and equitable interest in collateral;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho pursuant to the authority vested in me by the Constitution and laws of this state do hereby order as follows:

I. A Farm Foreclosure Review Board is hereby established.

- A. Membership. The Board shall consist of five (5) ~~members~~ who shall be appointed by the Governor. At least two of the members shall be past or present farmers, and at least two additional members shall be persons with past professional experience working in either an Idaho lending institution, or the Farmers Home Administration or the Farm Credit System. One of the Board members shall be designated by the Governor as chairman. Board members shall be appointed for a period of two years except that at least two of the Board members shall be appointed for a one year term initially. Those two shall include one farmer's representative and one lender's representative.

- B. Duties, Compensation and Expenses. The Board shall serve as a mediator between a farmer who is in danger of foreclosure, or who has received a notice of foreclosure, on his farm real property and any creditor (including state lending institutions, Federal Land Bank, Farmers Home Administration, Production Credit Associations, Insurance Companies or private individuals) who holds a valid mortgage or lien, in such real property.

Board members will serve in a voluntary capacity with no compensation to be paid except for reimbursement of their reasonable and necessary expenses. Expenses of the Board are to be paid and/or reimbursed by the Director of the Department of Agriculture.

- C. Procedure. A petition for review may be filed by a farmer who faces foreclosure and who has not filed for bankruptcy. A petition may also be filed by a creditor who desires review of a pending foreclosure. Petitions shall be submitted to the Board in care of the Idaho Department of Agriculture, Statehouse, Boise, ID 83720.

A filing fee set by the Board must accompany each petition for review. The filing fee will be refunded if the Board fails to issue a decision due to the fact that the other side has declined to submit the matter to the Board for review. Money received from filing fees shall be used to defray costs and expenses of the Board.

- D. Recommendations of the Board. Recommendations of the Board shall not be binding on the parties. The Board is to act as an ombudsman in trying to reconcile differences between farmers and creditors and/or to find common ground under which foreclosure can be avoided.

Upon receiving a petition, the Board shall contact other parties involved, attempting to get the other parties to submit the matter for review. The Board shall review the matter and issue a recommendation or opinion. The recommendation or opinion may be made after review of documents and affidavits submitted, unless a hearing is requested by a party and granted by the Board. Board hearings need not follow formal rules of procedure or of evidence, and may be held ex parte and/or in camera if necessary to prevent disclosure of confidential information.

Within thirty days of receiving all documents from both parties in the matter, the Board shall issue its recommendation or opinion. This time limit may be extended another thirty days for good cause.

- E. Additional Board Powers. The Board shall have the following powers:

1. To limit petitions it will accept for review to those involving family farm foreclosures, or further, to family farm foreclosures involving the farmer's residential real property, if such limitation is necessary to the efficient operation of the Board within available resources. Similarly, the Board may condition acceptance of a petition for review upon agreement by the farmer to keep interest payments current to the lender during the pending of the Board's review.

2. To prescribe forms to be used when filing a petition for review. This form may include a consent by a petitioning farmer for the Board to obtain bank documents or other instruments concerning the loan under review.

3. To issue guidelines for procedure before the Board, and to protect the confidentiality of information provided to the Board by the parties;

4. To contact other potential parties to a review and obtain their consent to submit the matter for a review.

5. To act on a petition only if all parties consent. Action shall include review of documents and testimony, holding discussions with the parties and issuing recommendations or opinions.

6. To accept and spend funds from public or private sources to defray necessary Board expenses.

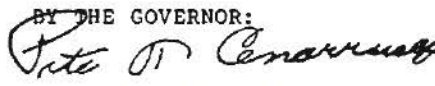

II. The Director of Agriculture is directed to request that the State Auditor establish a new account called the "Family Farm Assistance Account," into which non-cognizable non-state funds received for family farm assistance activities shall be deposited.

III. All State agencies and institutions shall cooperate with and assist the Board in carrying out its responsibilities under this order.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 8th day of November, in the year of our Lord nineteen hundred eighty-five, and of the Independence of the United States of America the two hundred tenth, and of the Statehood of Idaho the ninety-sixth.

For purposes of receiving an allocation of the State Ceiling, any application that has been amended shall be treated as though such application was

submitted on the date that the amendment was made, rather than on the date of the original submission of such application.

#### Section 9

1. Any Governmental Unit issuing Bonds without a certificate of the Director issued pursuant to Sections 6 or 7 hereof, evidencing the granting of an allocation for such Bonds, or any Governmental Unit issuing Bonds after the expiration of an allocation under Sections 6 or 7 hereof, or any Governmental Unit issuing Bonds in excess of the allocation set forth in the aforementioned certificate, or any Governmental Unit issuing Bonds as described in subsection (4) of this section, is not entitled to any allocation of the State Ceiling for any of such Bonds and all of such Bonds shall be deemed to have been issued without any such allocation.
2. Each Governmental Unit shall advise the Director on or before the sixtieth (60th) day after the issuance of any Bonds, of the principal amount of Bonds issued pursuant to the certificate issued by the Director evidencing the granting of an allocation for such Bonds by delivering to the Director a copy of the Department of the Treasury Form 8038 which was delivered to the Internal Revenue Service in connection with the Bonds, or if no Bonds are issued, shall so advise the Director on or before the fifteenth (15th) day after the earlier of (a) the final decision not to issue the Bonds or (b) the expiration of the allocation.
3. In the event that (a) the amount of Bonds actually issued by a Governmental Unit for a given Project is less than the amount allocated by the Director pursuant to the application submitted for such Project or (b) no Bonds are issued pursuant to the grant of an allocation of the State Ceiling (except those grants made pursuant to Section 7 hereof), then the allocation received by the Governmental Unit shall be adjusted on the records kept by the Director to reflect the amount of the State Ceiling actually used, if any, and such unused amount of the State Ceiling shall immediately become available for allocation pursuant to the provisions of this Executive Order.
4. Each Governmental Unit shall cooperate with the Director in furnishing any information the Director reasonably requires. If a Governmental Unit obtains an allocation of the State Ceiling for a particular Project as provided in Sections 6 and 7 hereof but does not issue its Bonds within the prescribed time limit, or issues a lesser amount of Bonds within the prescribed time limit, such Governmental Unit may again submit an application with respect to the proposed Bonds or portion of such Bonds not issued for such Project as provided in Sections 6 or 7 hereof. This application shall be treated as a new application.
5. If any provision of this Executive Order shall be held to be, or shall, in fact, be invalid, inoperative, or unconstitutional, the defect of the provision shall not affect any other provision of this Executive Order or render it invalid, inoperative, or unenforceable. To the extent this Executive Order shall be held or shall, in fact, be invalid, inoperative, or unconstitutional, all allocations of the State Ceiling previously made under this Executive Order shall be treated as allocations made by the Governor of the State.

6. This Executive Order shall not affect any allocations in the State with respect to any years prior to 1986 made pursuant to any other Executive Orders.

Section 10

No action taken pursuant to this Executive Order shall be deemed to create an obligation, debt, or liability of the State or be deemed to constitute an approval of any obligation issued or to be issued hereunder.

Section 11

This Executive Order shall be effective retroactive to January 1, 1986, and continue in effect hereafter unless repealed or superseded by operation of State or federal law.

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 84-1

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the state's energy demand; and

WHEREAS, the state government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the state government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby continue the order that all state building designs and lease agreements will include energy conservation considerations including:

- insulation levels no less stringent than the Code for Energy Conservation in New Building Construction (Uniform Building Code, 1979);
- insulated or storm windows and doors;
- adequate caulking and weatherstripping;
- use of solar hot water where feasible and solar heating where cost effective;
- in the Capitol Mall, use of natural hot water where feasible; and
- roof design providing summer shade for sun-facing windows and entry ways in the summer and direct sunlight on those walls in the winter.

FURTHER, I order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, should become a major consideration in construction of all state buildings and lease agreements.

COORDINATION AND PARTICIPATION WITH THE FEDERAL INSURANCE  
ADMINISTRATION UNDER THE NATIONAL FLOOD INSURANCE ACT OF 1968,  
AS AMENDED, AND RULES AND REGULATIONS PROMULGATED THEREUNDER,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 84-7

WHEREAS, uneconomic uses of the state's flood plains are occurring and potential flood losses are increasing despite substantial efforts to control floods; and

WHEREAS, national, state and local studies of areas and property subject to flooding indicate a further increase in flood damage potential and flood losses, even with continuing investment in flood protection structures; and

WHEREAS, the State of Idaho has continuing programs for the construction of buildings, roads, and other facilities and annually acquires and disposes of lands in flood hazard areas--all of which activities significantly influence patterns of commercial, residential, and industrial development; and

WHEREAS, the availability of flood insurance under the National Flood Insurance Program, as provided by the National Flood Insurance Act of 1968, as amended, is dependent upon state coordination of federal, state, and local aspects of flood plain, mudslide (I.E., mudflow) area and flood-related erosion area management activities in the state; and

WHEREAS, the Department of Water Resources is the state agency responsible for assisting with local regulations necessary for flood insurance provided by the National Flood Insurance Act of 1968 under the Idaho Code, Title 67, Sec. 1911 through 1917; and

WHEREAS, the Federal Insurance Administration has promulgated and adopted rules and regulations governing eligibility of state and local communities to participate in the National Flood Insurance Program, which participation depends on state coordination and the designation of an agency in the State of Idaho to be responsible for coordinating federal, state and local aspects of flood plain, mudslide (i.e., mudflow) area and flood-related erosion area management activities in the State of Idaho;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby order as follows:

Section 1. The Department of Water Resources is hereby designated as the agency to assist in the implementation of Section 1910.12, Rules and Regulations of the Federal Insurance Administration and will encourage a broad and unified effort to prevent uneconomic uses and development of the state's flood plains and, in particular, to lessen the risk of flood losses in connection with state lands and installation and state financed or supported improvements; specifically,

- (1) Under the leadership and direction of the Department of Administration, all state agencies directly responsible for the construction of buildings, structures, roads, or other facilities shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in connection with such facilities. In the event of construction in the flood plain management criteria set forth in Sections 1910.3, 1910.4, and 1910.5 of the National Flood Insurance Regulations shall apply as applicable. Flood proofing measures shall be applied to existing facilities in order to reduce flood damage potential.
- (2) All state agencies responsible for the administration of grant or loan programs, involving the construction of buildings, structures, roads or other facilities shall evaluate flood hazards in connection with such facilities and, in order to minimize the exposure of facilities to potential flood damage and the need for future state expenditures for flood protection and flood disaster relief, shall preclude the uneconomic, hazardous, or unnecessary use of flood plains in such connection.
- (3) All state agencies responsible for the disposal of lands or properties shall evaluate flood hazards in connection with lands or properties proposed for disposal to other public instrumentalities or private interests and, in order to minimize future state expenditures for flood protection and flood disaster relief, shall notify those instrumentalities and private interests that such hazards exist.
- (4) All state agencies responsible for programs which affect land use planning, including state permit programs, shall take flood hazards into account when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.
- (5) In evaluating flood hazard potential, all state agencies shall coordinate their work with the Department of Water Resources to assure that the most up-to-date data and/or methods of analysis are utilized.

Section 2. As may be permitted by law, the head of each state agency shall issue appropriate rules and regulations to govern the carrying out of the provisions of Section 1 of this order by his agency to be coordinated with the Department of Administration.

Section 3. This order shall take effect on the sixth day of April 1986 and repeals and replaces Executive Order No. 84-7.

EXECUTIVE ORDER NO. 86-15

CONTINUATION OF THE IDAHO CONSORTIUM FOR HUMAN AND ANIMAL HEALTH,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 84-11

WHEREAS, it is in the public interest to promote the well being of the people of Idaho by optimal use of resources related to human and animal health; and

WHEREAS, the most efficient and effective use of scarce resources requires cooperative planning as well as sharing information, technical capability and equipment; and

WHEREAS, the public agencies that are responsible for various aspects of human and animal health at the state, local, and federal levels need to maintain and enhance open lines of communication; and

WHEREAS, the State of Idaho has experienced complicated and perplexing crises such as the PCB contaminated livestock episode in 1979 and the ash fallout from Mount St. Helens volcano in 1980, both having serious implications for human and animal health;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby continue the Idaho Consortium for Human and Animal Health, which shall be composed of the State Health Officer, the Chief of the State Bureau of Laboratories in the Department of Health and Welfare, the Administrator of the Division of Animal Industries in the Department of Agriculture, the Administrator of the Division of Plant Industries in the Department of Agriculture, the Director of the University of Idaho Veterinarian Medicine in Caldwell, a Professor of Veterinary and Comparative Toxicology at the University of Idaho, Director of the Department of Fish and Game, the Administrator of the Division of Environment in the Department of Health and Welfare, and the Chairman of the Conference of Public Health District Directors or their designee.

The appointment of this Consortium is made with the understanding that policy-making responsibilities and the administration of affected state programs as provided by the Idaho Code will be maintained as legally required, and the Consortium will report to the Governor's Office, Department Directors, and Agency Boards that have different degrees of responsibility for programs related to human and animal health.

The appointment of this Consortium is made with the understanding that its main responsibility will be to maximize the use of all government resources that can be applied to an optimum understanding of human and animal health concerns, particularly those functions involving laboratory study, research initiatives, and the coordination of acute information needs necessary for accurate technical analysis. This will require the coordination of ongoing programs and the investigation of high-priority health problems that require the prompt organization of diverse data necessary for the prevention of widespread, costly illness in humans and animals.

The appointment of this Consortium is made with the understanding that the people serving in these positions have extensive technical knowledge and experience available in state government for the protection and maintenance of human and animal health in the State of Idaho, and, therefore, have access to other state, local, and federal government resources. Since these resources extend far beyond the members of the Consortium, yet remain essential to laboratory coordination and research direction for health-related concerns, the Consortium must make every effort to maximize their effectiveness and consider the resources of other state and federal agencies.

The appointment of the Chairperson of the Consortium shall be made by the Governor from a list of recommendations submitted by the Consortium. The Chairperson will serve at the pleasure of the Governor. Regular meetings of the Consortium will be held twice annually and emergency meetings may be called at any time.

This Executive Order repeals and replaces Executive Order No. 84-11.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the twelfth day of August, in the year of our Lord nineteen hundred eighty-six, and of the Independence of the United States of America the two hundred eleventh, and of the Statehood of Idaho the ninety-seventh.

EXECUTIVE ORDER NO. 86-16

ESTABLISHING A SYSTEM FOR ALLOCATING THE 1986 UNIFIED  
VOLUME CAP IN THE STATE CONSISTENT WITH THE  
PROVISIONS OF HOUSE BILL 3838

WHEREAS, on December 17, 1985, the United States House of Representatives adopted House Bill 3838 (in the form so adopted, the "Bill"); and

WHEREAS, if enacted into law in its present form, the Bill would apply to state and local government obligations issued after December 31, 1985; and

WHEREAS, the Bill proposes to create a new "unified volume cap" (the "Unified Volume Cap") in lieu of the private activity bond cap currently set forth in Section 103(n) of the Internal Revenue Code of 1954, as amended, by enacting Section 145 of the Internal Revenue Code of 1985 (the "Code"); and

WHEREAS, bonds subject to a volume limitation are expanded by the Bill to include virtually all nonessential function bonds and certain essential function bonds all as set forth in the Bill; and

WHEREAS, although, as of the date hereof, the Bill has not been passed by the Senate of the United States of America, because of its retroactive effective date, the State of Idaho (the "State") and its governmental units must treat the Bill as if it had the effect of law; and

WHEREAS, although the State opposes the enactment of the Bill because the Bill contains provisions which drastically limit and impair the power and ability of the State and its governmental units to issue bonds and other obligations, this Executive Order is essential to enable the State and its governmental units to finance their projects and programs; and

WHEREAS, it is necessary and desirable and in the best interest of the welfare of the residents of the State to issue this Executive Order in order to provide a different formula for allocating the Unified Volume Cap other than the formula contained in Section 145 of the Code to establish a more equitable allocation of the Unified Volume Cap among the State and its governmental units which will better promote industrial and economic development and encourage private investment in the economy of the State;

Allocations of the State Ceiling made pursuant to Chapter 28, Title 50 of the Idaho Code and any executive orders promulgated thereunder, to the extent applicable, are ratified, approved, and confirmed.

Section 3. (1)(a) There are created the following allotment accounts:

The Health Chairman and the Housing Chairman shall be responsible for accounting for all allocations made from the respective 501(c)(3) Account and the Housing Account, all Qualified Bonds issued pursuant to such allocations and all allotment dollars available in such accounts at any given time.

(2) Any Allotment Dollars which have been allocated to a Governmental Unit other than the Health Facilities Authority or the Housing Agency for which Bonds or Qualified Bonds are not issued by the earlier of ninety (90) days after their allocation or December

30, 1986, other than allocations for carryforward Projects as described in Section 8, shall be transferred on that date into the allotment account from which the allocation was originally made.

Section 5. Anything herein to the contrary notwithstanding, Allotment Dollars may not be allocated to any Governmental Unit from the Balance Account for purposes of issuing Qualified Bonds unless there are insufficient Allotment Dollars available for the particular Project for which an allocation is requested in the 501(c)(3) Account, the Redevelopment Account or the Housing Account, as appropriate; provided that, if insufficient Allotment Dollars are available in the 501(c)(3) Account, the Redevelopment Account or the Housing Account, as appropriate, for an issue of Qualified Bonds for which an application has been submitted, the Governmental Unit applying to the Director for such allocation shall receive an allocation from the Balance Account in an amount sufficient that, when combined with the allocation of available Allotment Dollars for the particular Project from the appropriate allotment account corresponding to the proposed issue of Qualified Bonds, the full amount of the requested allocation will have been granted; provided further that no such allocation shall be made from the Balance Account unless sufficient Allotment Dollars are available therein to, when combined with the available Allotment Dollars in the allotment account corresponding to the proposed issue of Qualified Bonds, equal the full amount of the requested allocation.

Section 6. (1) Any Governmental Unit other than the Health Facilities Authority or the Housing Agency proposing to issue Bonds or Qualified Bonds shall, prior to the issuance of such Bonds or Qualified Bonds, submit an application to the Director which contains the information and attachments:

- (a) the name of the Governmental Unit;

- (c) the tax identification number of the Governmental Unit;
- (d) the name, title and office telephone number of the official of the Governmental Unit to whom notices should be sent and from whom information can be obtained;
- (e) the principal amount of the Bonds or Qualified Bonds proposed to be issued for which an application for an allocation of the Unified Volume Cap is requested;
- (f) the nature and the specific location of the Project or the type of program;

- (g) the initial owner(s) or user(s) of the Project;
- (h) a copy of a valid and fully executed inducement resolution or similar official action passed by the Governmental Unit with respect to the Project (this is not required for 501(c)(3) Issuers);
- (i) the anticipated date on which the Bonds or Qualified Bonds are expected to be sold and the anticipated date on which the closing or final transaction with respect to the issuance and sale of the Bonds or Qualified Bonds is expected to occur;
- (j) the name, address, and telephone number of all parties to the transaction;
- (k) the applicable provisions of the Code under which the Bonds or Qualified Bonds are expected to be issued;
- (l) any other information or attachments reasonably required as set forth in rules promulgated by the Director.

(2) The Director shall (a) establish the form of application for requests for allocations of the Unified Volume Cap, which form shall contain the information required by Section 6(1), and (b) make such form available to the public upon request.

(3) The Director shall be under no obligation to process any application that is incomplete. Any application submitted by a Governmental Unit that the Director does not process shall be returned by the Director on or before the fifteenth (15th) day after the receipt thereof with a brief explanation as to why the application was not processed.

Section 7. (1) Except as otherwise provided in this Executive Order, on or before the fifteenth (15th) day after receipt by the Director of an application for an allocation of the Unified Volume Cap (including applications by the Health Facilities Authority and the Housing Agency for allocations from the Balance Account) the Director shall, if the application is in satisfactory order, make the requested allocation in the amount so requested, if available, from the appropriate allotment account and certify to the Governmental Unit applying for the allocation that an allocation has been made, the allotment account or allotment accounts from which the allocation has been made, the Project for which the allocation has been made and the amount of such allocation. On or before the fifteenth (15th) day after receipt by the Director of an application by a 501(c)(3) issuer for an allocation of Allotment Dollars from the 501(c)(3) Account and the required preliminary opinion of bond counsel, the Director shall, if the application is

in satisfactory order, make the requested allocation in the amount so requested, if available, from the 501(c)(3) Account and certify to the 501(c)(3) Issuer that an allocation from the 501(c)(3) Account has been made, the Project for which the allocation has been made and the amount of such allocation. The Director shall notify the Health Chairman of any allocations it makes from the 501(c)(3) Account. Except as otherwise provided in this Executive Order, certificates evidencing the granting of an allocation by the Director shall be issued by the Director in the chronological order in which completed applications are received. No Governmental Unit issuing Bonds or Qualified Bonds is entitled to any allocation of the Unified Volume Cap from the Balance Account, the Redevelopment Account, or in the case of 501(c)(3) Issuers, the 501(c)(3) Account with respect to such Bonds or Qualified Bonds unless it has first received the aforementioned certificate from the Director evidencing the granting of an allocation for such Bonds or Qualified Bonds. Every allocation of the Unified Volume Cap granted under this Executive Order by the Director for which Bonds or Qualified Bonds have not been issued with respect to such allocation, except those grants made pursuant to Section 8, shall remain effective until and including the earlier of (a) the ninetieth (90th) day after the date on which such allocation was granted or (b) 12:00 o'clock midnight on December 30, 1986. The Health Chairman (for other than 501(c)(3) Issuers) and the Housing Chairman shall determine how long allocations from the 501(c)(3) Account and the Housing Account respectively shall remain effective; however, in no event shall such allocations, except those made pursuant to Section 8, remain effective after 12:00 o'clock midnight on December 31, 1986.

(2) No application submitted by a Governmental Unit to the Director shall be processed if the amount of allocation of the Unified Volume Cap requested in such application is in excess of the amount of Unified Volume Cap remaining available in the appropriate allotment account for allocation, except as provided in Section 5. Any application not processed for the reason stated in this subsection may be resubmitted to the Director, with or without a change in the amount of allocation requested. Any application resubmitted to the Director pursuant to this subsection shall be treated as a new application. Should an allocation not be granted for the reasons stated in this subsection, the Director shall continue to process other applications in the chronological order in which received, granting allocations from the appropriate allotment accounts pursuant to the provisions of this Executive Order.

Section 8. (1) Governmental Units other than the Health Facilities ~~Authority~~ and the Housing Agency but including 501(c)(3) Issuers with Projects qualifying as carryforward Projects under Section 145(f) of the Code may apply for an allocation of Allotment Dollars for such carryforward Projects from the 501(c)(3) Account with respect to Qualified 501(c)(3) Bonds, the Redevelopment Account

with respect to Qualified Redevelopment Bonds, or the Balance Account with respect to all Bonds or Qualified Bonds, subject to the limitation set forth in Section 5, by submitting an application to the Director on or after October 1, 1986. Applications for an allocation of the Unified Volume Cap for carryforward Projects shall contain:

- (b) any information required by Section 145(f)(2) of the Code;
- (c) a certification signed by both an official of the Governmental Unit responsible for the supervision of the issuance of the Bonds or Qualified Bonds with respect to the Project and a representative of the person or entity constructing, acquiring, or rehabilitating the Project or administering the program, stating that they will proceed with diligence to insure the issuance of the Bonds or Qualified Bonds within the carryforward period provided by Section 145(f)(3) of the Code;
- (d) a preliminary opinion from bond counsel that the Project qualifies for carryforward under Section 145(f) of the Code and, in the case of 501(c)(3) Issuers, that the proposed obligations qualify as Qualified 501(c)(3) Bonds; and
- (e) such other information and attachments as are set forth in Section 6(1).

The Health Chairman and the Housing Chairman shall, in their discretion, allocate Allotment Dollars in the respective 501(c)(3) Account and the Housing Account to Projects qualifying as carryforward Projects. Upon receipt of an application by the Director from 501(c)(3) Issuers for allocations of Allotment Dollars from the 501(c)(3) Account for Projects qualifying as carryforward Projects, the Director shall allocate Allotment Dollars remaining in the 501(c)(3) Account on a first come first served basis based upon receipt of such applications on or after October 1, 1986, after the Health Chairman has allocated Allotment Dollars in the 501(c)(3) Account to carryforward Projects for the Health Facilities Authority.

(2) No application submitted by a Governmental Unit pursuant to this section shall be processed if the amount of allocation of the Unified Volume Cap requested in the application is in excess of the amount of the Unified Volume Cap remaining available in the appropriate allotment account for allocation, except as provided in Section 5. Any application not processed for the reason stated in this subsection may be resubmitted to the Director

with or without a change in the amount of allocation requested. Any application resubmitted to the Director pursuant to this subsection shall be treated as a new application. Should any allocation not be granted for the reasons stated in this subsection, the Director shall continue to process other applications submitted for qualifying carryforward Projects in the chronological order in which received, granting allocations from the appropriate allotment accounts pursuant to the provisions of this Executive Order.

(3) Allocations of the Unified Volume Cap for qualifying carryforward Projects shall be granted by the Director in the amount requested by the applying Governmental Unit, if available, on or before the fifteenth (15th) day after receipt by the Director of an application in satisfactory order for an allocation of the Unified Volume Cap for a qualifying carryforward Project, but no later than December 31, 1986, and in the chronological order in which applications for such allocations are received. The Director shall issue certificates evidencing the granting of an allocation within the time period specified in the preceding sentence to each Governmental Unit which applied to the Director and which received an allocation of the Unified Volume Cap for a qualifying carryforward Project for each such qualifying carryforward Project of such Governmental Unit similar to the certificates described in Section 7 hereof stating the amount of Allotment Dollars in the appropriate allotment account or allotment accounts which have been allocated to such Governmental Unit, specifying the qualifying carryforward Project for which the allocation has been made and specifying the expiration date of the allocation, as provided by Section 145(f)(3) of the Code.

Section 9. No application submitted to the Director may be amended without the consent of the Director; provided, however, that no such consent shall be required for a Governmental Unit to submit a new application in order to replace a previously submitted application if such new application is submitted before an allocation is made on the basis of the original application; provided further, that the consent of the Director shall not be required for a Governmental Unit to withdraw a previously submitted application. For purposes of receiving an allocation of the Unified Volume Cap, any application that has been amended shall be treated as though such application was submitted on the date that the amendment was made, rather than on the date of the original submission of such application.

Section 10. (1) Any Governmental Unit other than the Health Facilities Authority and the Housing Agency issuing Bonds or Qualified Bonds without a certificate of the Director issued pursuant to Section 7 or Section 8, as appropriate, evidencing the granting of an allocation for such Bonds or Qualified Bonds, or any Governmental Unit issuing Bonds or Qualified Bonds after the

expiration of an allocation under Section 7 or Section 8, as appropriate, or any Governmental Unit issuing Bonds or Qualified Bonds in excess of the allocation set forth in the aforementioned certificate, or any Governmental Unit issuing Bonds or Qualified Bonds as described in subsection (4) of this section, is not entitled to any allocation of the Unified Volume Cap for any of such Bonds or Qualified Bonds and all of such Bonds or Qualified Bonds shall be deemed to have been issued without any such allocation.

(2) Each Governmental Unit other than the Health Facilities Authority and the Housing Agency shall advise the Director on or before the earlier of the sixtieth (60th) day after the issuance of any Bonds or Qualified Bonds or December 30, 1986, of the principal amount of Bonds or Qualified Bonds issued pursuant to the certificate issued by the Director evidencing the granting of an allocation for such Bonds or Qualified Bonds by delivering to the Director a copy of the Department of the Treasury Form 8038 (or any successor form thereto) which was delivered to the Internal Revenue Service in connection with the Bonds or Qualified Bonds, or if no Bonds or Qualified Bonds are issued, shall so advise the Director on or before the earlier of (a) the fifteenth (15th) day after the earlier of (i) the final decision not to issue the Bonds or Qualified Bonds or (ii) the expiration of the allocation or (b) December 30, 1986.

(3) In the event that (a) the amount of Bonds or Qualified Bonds actually issued by a Governmental Unit for a given Project is less than the amount allocated by the Director pursuant to the application submitted for such Project or (b) no Bonds or Qualified Bonds are issued pursuant to the grant of an allocation of the Unified Volume Cap by the Director (except those grants made pursuant to Section 8 hereof), then the allocation received by the Governmental Unit shall be adjusted on the records kept by the Director; or in the case of allocations by the Director from the 501(c)(3) Account to 501(c)(3) Issuers, the Director shall communicate such information to the Health Chairman who shall adjust the records with respect to the 501(c)(3) Account to reflect the amount of the Unified Volume Cap actually used, if any, and such unused amount of the Unified Volume Cap shall immediately become available for allocation pursuant to the provisions of this Executive Order from the allotment account from which the allocation was originally received.

(4) Each Governmental Unit shall cooperate with the Director in furnishing any information the Director reasonably requires. If a Governmental Unit obtains an allocation of the Unified Volume Cap for a particular Project from the Director as provided in Section 7 or Section 8, as appropriate, but does not issue its Bonds or Qualified Bonds within the prescribed time limit, or issues a lesser amount of Bonds or Qualified Bonds within the prescribed time limit, such Governmental Unit may again submit

an application with respect to the proposed Bonds or Qualified Bonds or portion of such Bonds or Qualified Bonds not issued for such Project as provided in Section 7 or Section 8, as appropriate. Such application shall be treated as a new application.

Section 11. The Department shall serve as the agency of the State responsible for the receipt, verification and approval of applications for allocations of the Unified Volume Cap from the Balance Account, the Redevelopment Account and, in the case of 501(c)(3) Issuers, the 501(c)(3) Account and for authorization of allocations from such accounts. The Health Facilities Authority and the Housing Agency shall serve as the agencies of the State responsible for the verification and approval of allocations of the Unified Volume Cap from the 501(c)(3) Account and the Housing Account respectively. The duties of the Department, the Health Facilities Authority and the Housing Agency under the provisions of this Executive Order shall be fulfilled by the Director, the Health Chairman and the Housing Chairman respectively.

Section 12. In addition to the duties otherwise specifically set forth in this Executive Order, the Director shall:

- (1) determine the Unified Volume Cap for the Year under Section 145(d) of the Code;
- (2) determine, in accordance with the Code, the amount of Allotment Dollars to be deposited into the 501(c)(3) Account, the Redevelopment Account, the Housing Account and the Balance Account within fifteen (15) days after the effective date after this Executive Order;
- (3) maintain a record of all applications filed by Governmental Units under Section 6 and Section 8 and all certificates issued under Section 7 and Section 8;
- (4) maintain a record of all Bonds and Qualified Bonds issued by Governmental Units other than Qualified Bonds issued by the Health Facilities Authority and the Housing Agency (which shall keep records of Qualified Bonds issued by them and shall make such records available to the Director) during the Year and maintain a record of the allotment accounts from which allocations for such Bonds or Qualified Bonds were made;
- (5) maintain a record of all information filed by Governmental Units under this Executive Order;
- (6) make available upon reasonable request a certified copy

of all or any part of the records maintained by the Department under this Executive Order or a summary thereof including information regarding the Unified Volume Cap for the Year and any amounts available, or at any time remaining available, for allocation from each allotment account under this Executive Order; and

- (7) promulgate reasonable rules not inconsistent with the Executive Order deemed necessary or expedient to allocate the Unified Volume Cap under this Executive Order.

Section 13. If any provision of this Executive Order shall be held to be, or shall, in fact, be invalid, inoperative or unconstitutional, the defect of the provision shall not affect any other provision of this Executive Order or render it invalid, inoperative, or unenforceable. To the extent this Executive Order shall be held or shall, in fact, be invalid, inoperative or unconstitutional, all allocations of the Unified Volume Cap previously made under this Executive Order shall be treated as allocations made by the Governor of the State.

Section 14. This Executive Order shall not affect any allocations in the State with respect to any date prior to the date hereof made pursuant to any other Executive Orders or laws of the State.

Section 15. The State pledges and agrees with the owners of any Bonds and the owners of any Qualified Bonds to which an allocation of the Unified Volume Cap has been granted under this Executive Order that the State will not retroactively alter the allocation of the Unified Volume Cap to such Bonds or Qualified Bonds.

Section 16. No action taken pursuant to this Executive Order shall be deemed to create an obligation, debt or liability of the State or be deemed to constitute an approval of any obligation issued or to be issued hereunder.

Section 17. The purpose of this Executive Order is to maximize the benefits of financing through the use of Bonds or Qualified Bonds by providing a formula for allocating the Unified Volume Cap within the meaning of Section 145(e) of the Code.

Section 18. This Executive Order shall be effective immediately and continue in effect until the end of the Year unless repealed or superseded by operation of State or federal law. However, allocations for carryforward Projects pursuant to Section 8 hereof shall remain effective for the term of such allocation provided for

in Section 145(f) of the Code. It is the intent of the Governor to promulgate a new Executive Order in the event the Bill does not become law in its present form.

FURTHER, I authorize the Director of the Department of Health and Welfare to establish a subcommittee of the permanent Vital Statistics Advisory Committee, to be known as the Cooperative Center for Health Statistics Advisory Committee. The Cooperative Center for Health Statistics Advisory Committee shall advise the Department of Health and Welfare with respect to the design and use of statistical and information systems within the Division of Health and shall make specific recommendations to:

1. Develop general program policy and long-range plans for the development, implementation, and technical support of the State Cooperative Center for Health Statistics;
2. Assure that state and local health data providers, collectors, and users are appropriately involved in decision-making regarding health data;

3. Improve the availability and use of nonconfidential health data, with equal access to data limited only by the provision of guarantees of confidentiality or nondisclosure of the identity of individual respondents or data subjects;
4. Maintain an appropriate balance between legitimate access to data and protection of confidentiality and privacy;
5. With respect to technical uses of major import regarding the compatibility and integration of health data systems, recommend such standards that relate to confidentiality, quality control, and physical security;
6. Assist in the coordination of activities in the development of shared data systems for the purpose of reducing duplication of data collection and processing, minimizing respondent burden, and encouraging maximum compatibility of data; and
7. Assure that the needs of local, state, and national data users in both the public and private sectors have been considered and that the Division of Health's data systems are flexible and responsive to these needs.

FURTHER, the Cooperative Center for Health Statistics Advisory Committee shall report its recommendations in writing to the Director of the Department of Health and Welfare, the Division of Health Administrator, and the State Health Officer at least once a year on a date designated by the Division of Health Administrator.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 30th day of October, in the year of our Lord nineteen hundred eighty-six, and of the Independence of the United States of America the two hundred eleventh, and of the Statehood of Idaho the ninety-seventh.

EXECUTIVE ORDER NO. 86-25

ESTABLISHING A SYSTEM FOR ALLOCATING THE  
VOLUME CAP IN THE STATE  
CONSISTENT WITH THE PROVISIONS OF  
THE INTERNAL REVENUE CODE OF 1986

WHEREAS, the United States Congress has enacted the Tax Reform Act of 1986, amending the Internal Revenue Code of 1954, as amended prior to the enactment of the Tax Reform Act of 1986 (the "1954 Code"), and has renamed such code the Internal Revenue Code of 1986 (the "Code"); and

WHEREAS, Section 146 of the Code subjects certain private activity and non-private activity bonds to a new "volume cap" (the "Volume Cap") which replaces the private activity bond limit and volume limitations set forth in Section 103(n) and Section 103A(g), respectively, of the 1954 Code; and

WHEREAS, Section 146 of the Code authorizes the governor of a state to proclaim a different formula for allocating the Volume Cap among the governmental units (or other authorities) in such state as an interim allocation system pending the enactment of state law with respect to the Volume Cap; and

WHEREAS, in order to establish a more equitable allocation of the Volume Cap among the state and its issuing authorities it is necessary and desirable to issue this Executive Order to provide an allocation formula for allocating the Volume Cap different from the formula contained in Section 146 of the Code;

(8) "Issuing Authority" means (a) any county, city or port district, (b) any public corporation created pursuant to Section 50-2703 of the Idaho Code, or other entity acting on behalf of one or more counties, cities, or both, (c) the State, or (d) any other entity authorized to issue Bonds or Certificates in the State.

Section 2. The Volume Cap for each Year is allocated to Issuing Authorities in accordance with the procedures set forth in this Executive Order. An allocation of the Volume Cap may be obtained by submitting an application to the Director in accordance with Section 3 or Section 5, as appropriate. The Director shall evidence a grant of an allocation of the Volume Cap by issuing a certificate of allocation in accordance with Section 4 or Section 5, as appropriate.

Section 3. (1) Any Issuing Authority proposing to issue Bonds or Certificates shall, prior to the issuance of such Bonds or Certificates, submit an application to the Director which contains the following information and attachments:

- (a) the name of the Issuing Authority;
- (b) the mailing address of the Issuing Authority;
- (c) the tax identification number of the Issuing Authority;
- (d) the name, title and office telephone number of the official of the Issuing Authority to whom notices should be sent and from whom information can be obtained;

- (e) the principal amount of Bonds or Certificates proposed to be issued for which an application for an allocation of the Volume Cap is requested;
- (f) the nature and the specific location of the Project or the type of Program;
- (g) the initial owner or user of the Project or Program, if other than the Issuing Authority;
- (h) a copy of a valid and fully executed resolution or similar official action of the Issuing Authority evidencing its intention to issue Bonds or Certificates for the Project or Program;
- (i) with respect to Bonds, the anticipated date on which the Bonds are expected to be sold and the anticipated date on which the closing or final transaction with respect to the issuance and sale of the Bonds is expected to occur and, with respect to Certificates, the anticipated date on which the Certificates are expected to be issued;
- (j) the name, address, and telephone number of all parties to the transaction;
- (k) the applicable provisions of the Code under which the Bonds or Certificates are expected to be issued; and
- (l) any other information or attachments reasonably required by the Director.

(2) The Director shall (a) establish the form of application for requests for allocations of the Volume Cap, which form shall contain the information required by Section 3(1), and (b) make such form available to the public upon request.

(3) The Director shall be under no obligation to process any application that is incomplete. Any application submitted by an Issuing Authority that the Director does not process shall be returned by the Director on or before the fifteenth day after receipt thereof with a brief explanation as to why the application was not processed.

Section 4. (1) Except as otherwise provided in this Executive Order, on or before the fifteenth day after receipt by the Director of an application for an allocation of the Volume Cap, the Director shall, if the application is in satisfactory order, make the requested allocation in the amount so requested, if available, and certify to the Issuing Authority applying for the allocation that an allocation has been made, the Project or Program for which the allocation has been made, and the amount of such allocation. Certificates of allocation evidencing the granting of an allocation by the Director shall be issued by the Director in the chronological order in which completed applications are received. No Issuing Authority issuing Bonds or Certificates is entitled to any allocation of the Volume Cap with respect to such Bonds or Certificates unless it has first received the aforementioned certificate of allocation from the Director evidencing the granting of an allocation for such Bonds or Certificates.

(2) Every allocation of the Volume Cap granted under this Executive Order by the Director for which Bonds or Certificates have not been issued with respect to such allocation, except those grants made pursuant to Section 5, shall remain effective until and including the earlier of (a) the ninetieth day after the date on which such allocation was made, (b) 12:00 o'clock midnight on December 30 of the Year in which such allocation was made, or (c) the date upon which the Director receives a written notification from any such Issuing Authority pursuant to Section 7(2). Any allocation for which Bonds or Certificates are issued on or prior to the applicable date specified in this subsection shall be irrevocably allocated to such Bonds or Certificates.

(3) Until and including December 30 of each Year, any allocation of Allotment Dollars made in such Year, except allocations made pursuant to Section 5, for which Bonds or Certificates are not issued on or prior to the applicable date specified in Section 4(2) shall be available for reallocation to applying Issuing Authorities. On December 31 of each Year, any allocation of Allotment Dollars made in such Year for which Bonds or Certificates are not issued on or prior to the applicable date specified in Section 4(2) shall become available for reallocation only for Qualifying Carryforward Projects or Programs. In either case, such reallocations shall be made in the same manner as for original allocations of Allotment Dollars.

(4) No application submitted by an Issuing Authority to the Director pursuant to this section shall be processed if the amount of allocation of the Volume Cap requested in such application is in excess of the amount of Volume Cap remaining available for allocation. Any application not processed for the reason stated in this subsection may be resubmitted to the Director, with or without a change in the amount of allocation requested. Any application resubmitted to the Director pursuant to this subsection shall be treated as a new application. Should an allocation not be granted for the reasons stated in this subsection, the Director shall continue to process other applications in the chronological order in which received, granting allocations pursuant to the provisions of this Executive Order.

Section 5. (1) Issuing Authorities with Qualifying Carryforward Projects or Programs may apply for an allocation of Allotment Dollars for such Qualifying Carryforward Projects or Programs by submitting an application to the Director which shall contain:

- (a) the carryforward purpose for the Bonds or Certificates under Section 146(f) of the Code;
- (b) any other information required by Section 146(f) of the Code;
- (c) a certification signed by both an official of the Issuing Authority responsible for the supervision of the issuance of the Bonds or Certificates and, if applicable, a representative of the person or entity constructing, acquiring, or rehabilitating the Project or administering the Program, stating that the Issuing Authority and, if applicable, such person or entity, will proceed with diligence to insure the issuance of the Bonds or Certificates within the carryforward period provided by Section 146(f) of the Code;
- (d) a preliminary opinion from bond counsel that the Project or Program qualifies for carryforward under Section 146(f) of the Code, if applicable;
- (e) if applying for an allocation of Allotment Dollars for the purpose of issuing Certificates, the amount of qualified mortgage bonds defined in Section 143 of the Code which the Issuing Authority elects not to issue under the Code; and
- (f) such other information and attachments as are set forth in Section 3(1).

(2) No application submitted by an Issuing Authority to the Director pursuant to this section shall be processed if at the time such application is considered the amount of allocation of the Volume Cap requested in such application is in excess of the amount of Volume Cap remaining available for allocation. Any application not processed for the reason stated in this subsection may be resubmitted to the Director, with or without a change in the amount of allocation requested. Any application resubmitted to the Director pursuant to this subsection shall be treated as a new application. Should an allocation not be granted for the reasons stated in this subsection, the Director shall continue to process other applications in the chronological order in which received, granting allocations pursuant to the provisions of this Executive Order.

(3) Allocations of the Volume Cap for Qualifying Carryforward Projects or Programs shall be granted by the Director in the amount requested by the applying Issuing Authority, if available, on or after December 1, but no later than December 31, of the Year in which an application in satisfactory order is submitted to the Director for an allocation of the Volume Cap for a Qualifying Carryforward Project or Program in the chronological order in which applications for such allocations are received. The Director shall issue certificates of allocation evidencing the granting of an allocation within the time period specified in the preceding sentence to each Issuing Authority which applied to the Director and which received an allocation of the Volume Cap for a Qualifying Carryforward Project or Program for each such Qualifying Carryforward Project or Program of such Issuing Authority, such certificates of allocation to be similar to the certificates of allocation described in Section 4, stating the amount of Allotment Dollars which have been allocated to such Issuing Authority, specifying the Qualifying Carryforward Project or Program for which the allocation has been made and specifying the expiration date of the allocation, as provided by Section 146(f) of the Code.

Section 6. No application submitted to the Director may be amended without the consent of the Director; provided, however, that no such consent shall be required for an Issuing Authority to submit a new application in order to replace a previously submitted application if such new application is submitted before an allocation is made on the basis of the original application; provided further, that the consent of the Director shall not be required for an Issuing Authority to withdraw a previously submitted application. For purposes of receiving an allocation of the Volume Cap, any application that has been amended shall be treated as though such application was submitted on the date that the amendment was made, rather than on the date of the original submission of such application.

Section 7. (1) After the effective date of this Executive Order, any Issuing Authority issuing Bonds or Certificates without a certificate of allocation of the Director issued pursuant to Section 4 or Section 5, as appropriate, evidencing the granting of an allocation for such Bonds or Certificates, or any Issuing Authority issuing Bonds or Certificates after the expiration of an allocation under Section 4 or Section 5, as appropriate, is not entitled to any allocation of the Volume Cap for such Bonds or Certificates, and any Issuing Authority issuing Bonds or Certificates in excess of the allocation set forth in the certificate of allocation is not entitled to any allocation of the Volume Cap for such excess.

(2) Each Issuing Authority shall (a) advise the Director on or before the earlier of the sixtieth day after the issuance of any Bonds or Certificates or December 30 of each Year, of the principal amount of Bonds or Certificates issued under the allocation set forth in each certificate of allocation issued by the Director evidencing the granting of an allocation for such Bonds or Certificates by delivering to the Director a copy of the Form 8038 which was delivered to the Internal Revenue Service in connection with such Bonds or Certificates, or, if no such form was required to be delivered to the Internal Revenue Service, a completed copy of a Form 8038 prepared for the Director with respect to such Bonds or Certificates, or (b) if all or a stated portion of such Bonds or Certificates will not be issued, shall advise the Director in writing, on or before the earlier of (i) the fifteenth day after the earlier of (A) the final decision not to issue all or a stated portion of such Bonds or Certificates or (B) the expiration of the allocation, or (ii) December 30 of the Year in which the allocation for such Bonds or Certificates was made.

(3) Each Issuing Authority shall cooperate with the Director in furnishing any information the Director reasonably requires. If an Issuing Authority obtains an allocation of a portion of the Volume Cap for a particular Project or Program from the Director as provided in Section 4 or Section 5, as appropriate, but does not issue its Bonds or Certificates within the prescribed time limit, or issues a lesser amount of Bonds or Certificates within the prescribed time limit, such Issuing Authority may again submit an application with respect to the proposed Bonds or Certificates or portion of such Bonds or Certificates not issued for such Project or Program as provided in Section 4 or Section 5, as appropriate. Such application shall be treated as a new application.

Section 8. In addition to the duties otherwise specifically set forth in this Executive Order, ~~the Director~~ shall:

- (1) determine the amount of Allotment Dollars available on December 31 of each Year for allocation for Qualifying Carryforward Projects or Programs and allocate the Allotment Dollars available for Qualifying Carryforward Projects or Programs as provided in this Executive Order;
- (2) maintain a record of all applications filed by Issuing Authorities under Section 3 and Section 5 and all certificates of allocation issued under Section 4 and Section 5;
- (3) maintain a record of all Bonds or Certificates issued by Issuing Authorities during each Year;
- (4) maintain a record of all information filed by Issuing Authorities under this Executive Order;
- (5) make available upon reasonable request a certified copy of all or any part of the records maintained by the Department under this Executive Order or a summary thereof including information regarding the Volume Cap for each Year and any amounts available, or at any time remaining available, for allocation under this Executive Order;
- (6) the Director shall serve as the State official designated under State law to make any certifications required to be made under the Code including, without limitation, the certification required by Section 149(e)(2)(F) of the Code; and
- (7) promulgate reasonable rules not inconsistent with this Executive Order deemed necessary or expedient to allocate the Volume Cap hereunder.

Section 9. If any provision of this Executive Order shall be held to be, or shall, in fact, be ~~invalid, inoperative~~ or unconstitutional, the defect of the provision shall not affect any other provision of this Executive Order or render it invalid, inoperative, or unenforceable. To the extent this Executive Order shall be held or shall, in fact, be invalid, inoperative, or unconstitutional, all allocations of the Volume Cap previously made under this Executive Order shall be treated as allocations made by the Governor of the State.

Section 10. This Executive Order repeals and replaces Executive Order No. 86-1 and ~~Executive Order No. 86-16~~, provided that such repeal and replacement shall not affect any allocations in the State made prior to the effective date hereof pursuant to any other Executive Orders or laws of the State.

Section 11. The State pledges and agrees with the owners of any Bonds or Certificates to ~~which an allocation~~ of the Volume Cap has been granted under this Executive Order that the State will not retroactively alter the allocation of the Volume Cap to such Bonds or Certificates.

Section 12. No action taken pursuant to this Executive Order shall be deemed to create an ~~obligation~~, debt or liability of the State or be deemed to constitute an approval of any obligation issued or to be issued hereunder.

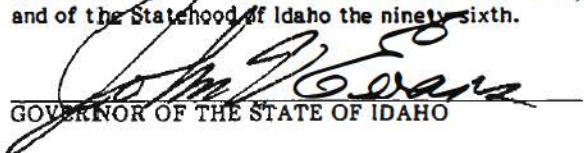

Section 13. The purpose of this Executive Order is to maximize the benefits of financing and development through the use of Bonds and Certificates by providing a formula for allocating the Volume Cap within the meaning of Section 146(e) of the Code.

Section 14. This Executive Order shall be effective immediately and shall be applied retroactively to all allocations made after August 15, 1986 with respect to any proposed issuance of Bonds or Certificates. This Executive Order shall continue in effect until such time as it may be repealed or superseded by operation of State or federal law. Notwithstanding the foregoing, allocations for Qualifying Carryforward Projects or Programs pursuant to Section 5 hereof shall remain effective for the term of such allocation provided for in Section 146(f) of the Code.

WHEREAS, the "Job Training Partnership Act of 1982" requires the Governor, in order to be eligible for federal financial assistance for state labor market information programs under this Act, to designate an organizational unit to be responsible for oversight and management of a statewide comprehensive labor market and occupational supply and demand information system; and

WHEREAS, the state must design a comprehensive cost-efficient labor market and occupational supply and demand information system which

1. Is responsive to the economic demand and education and training supply support needs of the state and areas within the state; and
2. Meets the federal standards under Chapter 35 of Title 44, United States Code, and other appropriate federal standards established by the Bureau of Labor Statistics; and

WHEREAS, the state's system must standardize available federal and state multi-agency administrative records and direct survey data sources to produce an employment and economic analysis with a published set of projections for the state and designated areas within the state which shall be used to contribute in carrying out the provisions of the "Job Training Partnership Act of 1982," the "Vocational Education Act of 1963," and the "Act of June 6, 1933," known as the "Wagner-Peyser Act"; and

WHEREAS, the Governor must assure to the extent feasible that

All attributable costs to the Idaho Department of Employment for the Personnel Commission's portion of the annual wage and salary survey will be billed by the Department of Employment to the Personnel Commission.
2. The Regulatory Reform Task Force will act as a screening mechanism for all proposed surveys of the state's private employers by the Executive Branch who request information beyond that required by law for each agency to perform its statutory duties.

EXECUTIVE ORDER NO. 86-27

CONTINUATION OF UNIFORM STATE PLANNING REGIONS,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 84-21

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies and this has continued through such orders since 1972; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data-gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, I, JOHN V. EVANS, by virtue of the powers vested in me as Governor of the State of Idaho, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, Nez Perce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue with the written authorization of the Governor, to group or combine whole State Planning Regions into agency-designated larger geographic areas, but shall continue to utilize the six regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary;
- (b) A written statement or justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay or total exemption from adoption of the State Multi-County Regions specified herein; and
- (c) A timetable for eventual agency compliance with this order when appropriate.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

The Department of Water Resources shall be exempted from this Order as their administrative regions are based on hydrologic drainage basins since major programs involve streams and their tributaries and it would be inefficient and confusing to the public to administer the water of the same stream from different regional offices. Also planning basins are based on hydrologic boundaries and must related to water management considerations.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

This Executive Order repeals and replaces Executive Order No. 84-21.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the nineteenth day of December, in the year of our Lord nineteen hundred eighty-six, and of the Independence of the United States of America the two hundred eleventh, and of the Statehood of Idaho the ninety-seventh.

CONTINUATION OF THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES  
AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO  
ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-CYCLE  
COSTING PRACTICES, REPEALING AND REPLACING EXECUTIVE ORDER NO. 84-22

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the state, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, JOHN V. EVANS, Governor of the State of Idaho, do hereby declare that it will continue to be the policy of the state to continue to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the state, including life-cycle costing for the purchase of all major energy-consuming products.

When we allow race, color, religion, national origin, sex, age, and/or handicap to prevent anyone from reaching full potential, we fail that person, our state, and our country. In accordance with the principles of fair employment practices, we must strive to recognize and advance the abilities and talents of all people, while denying no individual his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a mode for government, business, industry, labor, and education in this regard;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, in that spirit and to that purpose, proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

ARTICLE I--Employment Policies of State Agencies

State employees shall be recruited, appointed, assigned, and promoted upon the basis of individual merit, in accordance with the principles of fair treatment and non-discrimination on the basis of race, color, sex, religion, national origin, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.

All state departments, commissions, and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training, and compensation policies and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations and seek to redress under-utilization, if any, of minority, women, or handicapped persons within the state workforce.

The State Personnel Commission shall take positive steps to insure that the entire examination process, oral, written, and ratings shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating "Hiring is done without regard to race, color, religion, national origin, sex, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."

#### ARTICLE II--State Action

All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex, or handicap. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, plan, contract, or subcontract which has the effect of sanctioning such practices.

#### ARTICLE III--State Financial Assistance

Race, Color, religion, national origin, sex, or handicap shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans, or other financial assistance to public agencies, private institutions, or organizations which engage in discriminatory practices.

#### ARTICLE IV--State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a nondiscriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE V--State Education, Counseling, and Training Programs

All educational counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE VI--Cooperation with Human Rights Commission

All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.

ARTICLE VII--Enforcement by Appointing Authorities

The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.

Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment; (2) an investigative procedure designed to protect the confidentiality of participants and to effect an immediate and fair resolution of the allegation; and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article IV of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

ARTICLE VIII--Annual Reports

Each executive agency shall, on September 1 of each year, submit a written report to the Governor setting forth all activities undertaken in the past year to effect this Idaho Code of Fair Employment Practices. The report shall be submitted in a form prescribed by the Governor's Office and in sufficient detail to indicate whether goals established by this Code are being met.

The Governor will appoint an interagency committee to review and evaluate the reports and to consult with each appointing authority as to the progress each is making. The committee will report to the Governor the results of this review and consultation and make periodic recommendations for further improvements in the State's EEO/AA effort.

This Executive Order repeals and replaces Executive Order No. 85-6.

EXECUTIVE ORDER NO. 87-17

SETTING FORTH A CODE OF ETHICAL CONDUCT FOR EMPLOYEES OF THE EXECUTIVE  
DEPARTMENT OF IDAHO STATE GOVERNMENT, REPEALING AND REPLACING  
EXECUTIVE ORDER NO. 85-17

---

GENERAL PURPOSE

This Executive Order is issued to insure high standards of conduct among state employees and to strengthen the faith and confidence of the people of Idaho in the integrity of state government and state employees. This Executive Order sets forth a code of conduct for state employees and restates existing Idaho law governing employee conduct in areas where there are actual or potential ethical concerns between their public duties and their private interests. Unless the context indicates otherwise, "state employee(s)" shall have the broadest meaning possible within the Executive Department of Idaho State Government consistent with Idaho Law, and "person" shall include an association, corporation or governmental entity.

It shall be a paramount concern of state employees that they engage in no conduct which might reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

GRATUITIES AND OTHER BENEFITS

State employees shall never solicit in their official capacity any gratuity or other benefit from any person under any circumstances. State employees shall not accept gratuities or other benefits exceeding a total retail value of \$100 within a calendar year from any person who is subject to their legal jurisdiction or who is likely to become interested in any contract or transaction over which they exercise any discretionary function. State employees are not precluded from accepting from time to time food or beverages consumed at the time and place of receipt from any person with whom they deal in their official capacity, subject to the limitation of \$100 retail value within a calendar year. These rules apply irrespective of kinship or other relationship with the donor outside of the official status of the state employee, and irrespective of the existence of legal consideration for or legal entitlement to the gratuity or other benefit. It is not material that the acceptance of any gratuity or other benefit contrary to this Executive Order is not prejudicial to official impartiality in fact.

Nothing herein is intended to prevent appointing authorities from approving participation by their employees in bonafide training or educational programs provided by public or private entities.

State employees shall not accept transportation or lodging from any person who is subject to their jurisdiction or who is or is likely to become interested in any contract or transaction over which they exercise any discretionary function. It shall be the general policy that reimbursable expenses for transportation and lodging of state employees shall be paid by the State of Idaho rather than by another person. This rule does not apply under circumstances where state employees do not have reasonable access to public services or accommodations, when the acceptance of an offer of transportation makes an economical and efficient use of time or transportation and any benefit conferred is trivial or otherwise consistent with the general purpose of this Executive Order.

All state employees exercising any discretionary function shall make a conscious effort to be open to contact by all segments of Idaho society that have an interest in the exercise of that discretionary function. State employees exercising any discretionary function shall not associate with any one person who has or may have an interest in the exercise of that discretionary function to such an extent as would reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

Honorariums shall not be accepted by state employees from Idaho citizens, associations, corporations or governmental entities for appearances or services given in the course of their official duties.

#### CONFLICTS OF INTEREST

State employees shall not profit, directly or indirectly, from public funds under their control. State employees shall not have a private interest in any contract or grant made by them in their official capacity. EXECUTIVE DEPARTMENT  
STATE OF IDAHO  
BOISE

EXECUTIVE ORDER NO. 88-1

SETTING FORTH A CODE OF ETHICAL CONDUCT FOR EMPLOYEES OF THE EXECUTIVE  
DEPARTMENT OF IDAHO STATE GOVERNMENT, REPEALING AND REPLACING  
EXECUTIVE ORDER NO. 87-17

GENERAL PURPOSE

This Executive Order is issued to insure high standards of conduct among state employees and to strengthen the faith and confidence of the people of Idaho in the integrity of state government and state employees. This Executive Order sets forth a code of conduct for state employees and restates existing Idaho law governing employee conduct in areas where there are actual or potential ethical concerns between their public duties and their private interests. Unless the context indicates otherwise, "state employee(s)" shall have the broadest meaning possible within the Executive Department of Idaho State Government consistent with Idaho Law, and "person" shall include an association, corporation or governmental entity.

It shall be a paramount concern of state employees that they engage in no conduct which might reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

GRATUITIES AND OTHER BENEFITS

State employees shall never solicit in their official capacity any gratuity or other benefit from any person under any circumstances. State employees shall not accept gratuities or other benefits exceeding a total retail value of \$100 within a calendar year from any person who is subject to their legal jurisdiction or who is likely to become interested in any contract or transaction over which they exercise any discretionary function. State employees are not precluded from accepting from time to time food or beverages consumed at the time and place of receipt from any person with whom they deal in their official capacity, subject to the limitation of \$100 retail value within a calendar year. These rules apply irrespective of kinship or other relationship with the donor outside of the official status of the state employee, and irrespective of the existence of legal consideration for or legal entitlement to the gratuity or other benefit. It is not material that the acceptance of any gratuity or other benefit contrary to this Executive Order is not prejudicial to official impartiality in fact.

Nothing herein is intended to prevent appointing authorities from approving participation by their employees in bonafide training or educational programs provided by public or private entities.

State employees shall not accept transportation or lodging from any person who is subject to their jurisdiction or who is or is likely to become interested in any contract or transaction over which they exercise any discretionary function. It shall be the general policy that reimbursable expenses for transportation and lodging of state employees shall be paid by the State of Idaho rather than by another person. This rule does not apply under circumstances where state employees do not have reasonable access to public services or accommodations, when the acceptance of an offer of transportation makes an economical and efficient use of time or transportation and any benefit conferred is trivial or otherwise consistent with the general purpose of this Executive Order.

All state employees exercising any discretionary function shall make a conscious effort to be open to contact by all segments of Idaho society that have an interest in the exercise of that discretionary function. State employees exercising any discretionary function shall not associate with any one person who has or may have an interest in the exercise of that discretionary function to such an extent as would reasonably be interpreted by the people of Idaho as tending to influence or adversely affect the performance of their official duties.

Honorariums shall not be accepted by state employees from Idaho citizens, associations, corporations or governmental entities for appearances or services given in the course of their official duties.

#### CONFLICTS OF INTEREST

State employees shall not profit, directly or indirectly, from public funds under their control. State employees shall not have a private interest in any contract or grant made by them in their official capacity. State employees must avoid self-dealing in any purchase or sale made in their official capacity. Any state employee having a private interest in any discretionary matter coming before him in the course of his official duties, whether the matter be regulatory, adjudicative, contractual or the formation of public policy, shall not act but shall withdraw himself.

State employees shall not refer to themselves any business or client where the origin of the relationship arises in their official capacity.

No state employee shall appoint or otherwise employ for compensation payable from public funds any person related by blood or marriage to within the second degree.

#### OUTSIDE EMPLOYMENT AND EXTRA COMPENSATION

Heads of executive departments; members of the Tax Commission, the Industrial Commission, and the Public Utilities Commission; the Executive Director of the State Board of Education; and the Director of the Executive Office of the Governor shall not hold any other public office or public employment for which compensation is received. Nor shall any state employee serve as a director, officer or employee of any profit-making corporation or institution without disclosure to and approval by their appointing authority. Such approval shall be granted only if such activity will not adversely affect the performance of the employee's official duties, nor create an appearance of impropriety.

State employees may occupy offices or positions in non-profit organizations outside state government service to the extent that it does not interfere with the performance of their official duties in an efficient, mentally- and physically-alert manner.

Except as otherwise prohibited by law, all state employees including those identified above, may own stock in a public or private corporation, be a trustee to a trust, be a personal representative to an estate, serve as a part-time member of the military reserves or the National Guard and serve upon a jury.

#### POLITICAL ACTIVITIES

As provided by Section 67-5311, Idaho Code, state employees shall not command political contributions from other state employees. State employees subject to the state personnel system (hereinafter "classified employees") shall not use their official authority or influence to bring about any nomination or election to public office. Classified employees shall not seek election to a partisan public office. All state employees may vote and express their personal opinion on political issues and candidates and take an active part in support of a candidate in partisan or nonpartisan elections. All state employees may be members of a political party or organization, participate in its activities, serve as an elected

convention delegate, voluntarily contribute to political parties or candidates and take an active part in political organization management. Classified employees shall avoid participation in public affairs in a manner which would materially compromise their neutrality, efficiency or integrity in the performance of their official duties.

#### ADMINISTRATION

Department heads and boards and commissions within the Executive Department of the State of Idaho may establish particular codes of employee conduct to supplement the general code of conduct provided under Idaho Law and this Executive Order. Nothing in this Executive Order is intended to preclude more strict provisions of conduct than are required under this Executive Order, except as precluded by Idaho Law.

Questions or disputes regarding the conduct of state employees under this Executive Order and Idaho Law shall be directed to the appropriate appointing authority who may seek legal counsel from the Attorney General.

State employees who have questions regarding their conduct that are not specifically addressed in this Executive Order or who need more direction than is included herein should consult their appointing authorities. State employees who are presently engaged in a course of conduct addressed herein are directed to review that conduct in light of this Executive Order.

Violation of this Executive Order may lead to dismissal, suspension, demotion or other personnel action. In addition, state employees whose conduct violates Idaho Law whether or not restated in this Executive Order are subject to the penalties provided under Idaho Law.

#### DISTRIBUTION

Appointing authorities shall bring this Executive Order to the attention of state employees now or hereafter under their supervision.

It is the duty of state employees to familiarize themselves with the code of conduct contained in this Executive Order and to reflect upon their own conduct.

This Order repeals and replaces Executive Order No. 87-17.

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 86-5

---

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the state's energy demand; and

WHEREAS, the state government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the state government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby continue the order that all state building designs and lease agreements will include energy conservation considerations including:

- those outlined in the publication entitled Energy Conscious Design for New Idaho State Buildings;
- Chapter 53 of the Uniform Building Code, 1985 Edition;
- use of alternative energy sources such as solar, geothermal, and cogeneration;
- energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and
- current "state-of-the-art" systems and equipment to economically conserve energy.

FURTHER, I order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease-drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, should become a major consideration in construction of all state buildings and lease agreements.

In allowing such degradation or lower water quality, the state shall assure water quality adequate to protect existing uses fully. Further, the state shall assure that there shall be achieved the highest statutory and regulatory requirements for all new and existing point sources and all cost-effective and reasonable best management practices for nonpoint source control.

IDAHO STATE LIBRARY

ESTABLISHING LICENSING/CERTIFICATION PROGRAMS  
FOR ASBESTOS PROFESSIONALS

WHEREAS, the Asbestos Hazard Emergency Response Act of 1986 (AHERA, P.L. 99-519) mandates states accreditation of asbestos professionals who perform work in elementary or secondary schools; and

WHEREAS, AHERA mandates that each state adopt a contractor accreditation plan at least as stringent as the Environmental Protection Agency's (EPA) model plan;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the powers of authority vested in me by the Constitution and laws of this state, and by AHERA, P.L. 99-519, do hereby: (1) order the adoption of a contractor accreditation plan in compliance with the EPA's model plan, (2) order the Idaho Industrial Commission to adopt such procedures, rules, and regulations for the purpose of complying with AHERA, and (3) order the Idaho Department of Labor and Industrial Services to implement such procedures, rules, and regulations adopted by the Commission.

I. POLICY

Exposure to airborne asbestos fibers has been demonstrated to cause significant increases in lung cancer, mesothelioma, and other diseases. It is the intent of this Order to prevent unnecessary exposure of the public to asbestos fibers by regulating asbestos abatement practices in requiring statewide standards for training and accreditation of persons who perform asbestos projects.

II. IMPLEMENTATION OF AHERA POLICY

A. As used in this Order, unless context otherwise requires:

1. "Accreditation" means a certificate or license issued by the Department permitting a person to work in an asbestos occupation.
2. "Asbestos" means asbestiform varieties of chrysotile, amosite, crocidolite, anthophyllite, tremolite, and actinolite.
3. "Asbestos-containing material" means any material or product that contains more than 1 percent asbestos.
4. "Asbestos occupation" means an inspector, management planner, project designer, contractor, supervisor, or worker for an asbestos project.
5. "Asbestos project" means encapsulation, enclosure, removal, repair, operations and maintenance, renovation, or demolition project involving asbestos; except the term does not include small-scale, short-duration operations and maintenance projects as determined by the Department of Labor.

6. "Friable asbestos-containing material" means asbestos-containing material that may be crumbled, pulverized, or reduced to powder by hand pressure when dry, and includes any asbestos-containing material that will become, or may reasonably be expected to become, friable as a result of cutting, crushing, grinding, or other activities during the asbestos project being conducted.
7. "Person" means an individual, partnership, corporation, sole proprietorship, firm, enterprise, franchise, association, state or municipal agency, political subdivision of the state, or any other entity.
- B. It shall be unlawful, after January 1, 1990, for any person to engage in an asbestos occupation in a public, non-profit private, elementary or secondary school without accreditation for that occupation from the Department of Labor.
- C. The Commission shall promulgate regulations establishing standards and procedures that are consistent with federal law for the accreditation of asbestos occupations. The regulations shall include, but not be limited to standards for training, course approval and review; examinations for accreditation applicants; annual refresher courses and renewal of accreditation; and revocation of accreditation.
- D. To qualify for accreditation in a particular asbestos occupation, a person shall have
  1. Successfully completed an asbestos-related training course approved or administered by the Department of Labor for that occupation,
  2. Passed an examination approved or administered by the Department of Labor, and
  3. Satisfactorily demonstrated previous training or experience for the occupation as the Department of Labor may require. Any person applying for accreditation shall submit required fees and follow procedures prescribed by the Department of Labor.
- E. The Department of Labor may accredit a person for an asbestos occupation who has completed an EPA-approved course for that occupation. To be eligible, that person also must
  1. Successfully complete a training course approved or administered by the Department of Labor on Idaho law, rules, and regulations;
  2. Pass an examination administered by the Department of Labor that covers the applicant's asbestos occupation and state law, rules, and regulations; and
  3. Meet any other requirements set by the Department of Labor.
- F. The Department of Labor may accredit a person for an asbestos occupation who has been accredited by another state for that occupation in conformance with federal law. To be eligible, that person also must
  1. Successfully complete a training course approved or administered by the Department of Labor on Idaho law, rules, and regulations;

2. Pass an examination administered by the Department on those topics; and
  3. Meet any other requirements set by the Department of Labor.
- G. The Department of Labor shall establish a fee schedule for the implementation of this Order. The Department of Labor may collect fees for applications, issuance and renewal of accreditation, examinations, training course approval and review, job notifications and inspections, record-keeping, and other asbestos-related activities of the Department of Labor.

III. ENFORCEMENT AND PENALTIES

- A. At least once a year, during an actual asbestos project, the Department of Labor shall conduct an on-site job inspection for each asbestos contractor. The Department of Labor may make similar job inspections for other asbestos occupations. The Department of Labor shall have the power and authority to enter at reasonable times upon any property for this purpose.
- B. An asbestos contractor shall keep a record of each asbestos project that it performs and shall make the record available to the Department of Labor upon request. Records required by this section shall be kept for at least 30 years, unless otherwise specified by the Department of Labor. The records shall include:

  2. Fails at any time to meet the qualifications for accreditation or to comply with the requirements of this Order or any regulation adopted by the Department of Labor; or
  3. Fails to meet any applicable federal or state standard for asbestos projects.

D. ENFORCEMENT

Failure to comply with any provision of this Order will result in the issuance of a Safety Order pursuant to Idaho Code §72-720, et. seq. Failure or refusal to comply with such order may result in the imposition of civil fines or misdemeanor penalties pursuant to Idaho Code §72-723.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 2<sup>nd</sup> day of October, in the year of our Lord nineteen hundred eighty-nine, and of the Independence of the United States of America the two hundred fourteenth, and of the Statehood of Idaho the one hundredth.

CONTINUATION OF THE IDAHO CONSORTIUM FOR HUMAN AND ANIMAL HEALTH,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 86-15

---

WHEREAS, it is in the public interest to promote the well-being of the people of Idaho by optimal use of resources related to human and animal health; and

WHEREAS, the most efficient and effective use of scarce resources requires cooperative planning as well as sharing information, technical capability, and equipment; and

WHEREAS, the public agencies that are responsible for various aspects of human and animal health at the state, local, and federal levels need to maintain and enhance open lines of communication; and

WHEREAS, the State of Idaho has experienced complicated and perplexing crises such as the PCB contaminated livestock episode in 1979 and the ash fallout from Mount St. Helens volcano in 1980, both having serious implications for human and animal health;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby continue the Idaho Consortium for Human and Animal Health, which shall be composed of the State Health Officer in the Department of Health and Welfare, the Chief of the Bureau of Laboratories in the Department of Health and Welfare, the Administrator of the Division of Animal Industries in the Department of Agriculture, the Administrator of the Division of Agriculture Technology in the Department of Agriculture, the Director of the Caine Teaching Center in Caldwell, the Head of the Quality Assurance Laboratories in Moscow and Twin Falls, The Director of the Department of Fish and Game, The State Wildlife Veterinarian, the Administrator of the Division of Environmental Quality in the Department of Health and Welfare, and the Chairman of the Conference of Public Health Directors, or their designee.

The continuation of this Consortium is made with the understanding that policy-making responsibilities and the administration of affected state programs as provided by the Idaho Code will be maintained as legally required, and the Consortium will report to the Governor's Office, department directors, and agency boards that have different degrees of responsibility for programs related to human and animal health.

The continuation of the appointment of this Consortium is made with the understanding that its main responsibility will be to maximize the use of all government resources that can be applied to an optimum understanding of human and animal health concerns, particularly those functions involving laboratory study, research initiatives, and the coordination of acute information needs necessary for accurate technical analysis. This will require the coordination of ongoing programs and the investigation of high-priority health problems that require the prompt organization of diverse data necessary for the prevention of widespread, costly illness in humans and animals.

The continuation of this Consortium is made with the understanding that the people serving in these positions have extensive technical knowledge and experience available in state government for the protection and maintenance of human and animal health in the State of Idaho and, therefore, have access to other state, local, and federal government resources. Since these resources extend far beyond the members of the Consortium, yet remain essential to laboratory coordination and research direction for health-related concerns, the Consortium must make every effort to maximize their effectiveness and consider the resources of other state and federal agencies.

The appointment of the Chairperson of the Consortium shall be made by the Governor from a list of recommendations submitted by the Consortium. The Chairperson will serve at the pleasure of the Governor. Regular meetings of the Consortium will be held twice annually and emergency meetings may be called at any time.

  - (f) such other information and attachments as are set forth in Section 3(1).

- (2) No application submitted by an Issuing Authority to the Director pursuant to this section shall be processed if at the time such application is considered the amount of allocation of the Volume Cap requested in such application is in excess of the amount of the Volume Cap remaining available for allocation. Any application not processed for the reason stated in this subsection may be resubmitted to the Director, with or without a change in the amount of allocation requested. Any application resubmitted to the Director pursuant to this subsection shall be treated as a new application. Should an allocation not be granted for the reasons stated in this subsection, the Director shall continue to process other applications in the chronological order in which received, granting allocations pursuant to the provisions of this Executive Order.
- (3) Allocations of the Volume Cap for Qualifying Carryforward Projects or Programs shall be granted by the Director in the amount requested by the applying Issuing Authority, if available, on or after December 1, but no later than December 31, of the Year in which an application in satisfactory order is submitted to the Director for an allocation of the Volume Cap for a Qualifying Carryforward Project or Program in the chronological order in which applications for such allocations are received. The Director shall issue certificates of allocation evidencing the granting of an allocation within the time period specified in the preceding sentence to each Issuing Authority which applied to the Director and which received an allocation of the Volume Cap for a Qualifying Carryforward Project or Program for each such Qualifying Carryforward Project or Program of such Issuing Authority, such certificates of allocation to be similar to the certificates of allocation described in Section 4, stating the amount of Allotment Dollars which have been allocated to such Issuing Authority, specifying the Qualifying Carryforward Project or Program for which the allocation has been made and specifying the expiration date of the allocation, as provided by Section 146(f) of the Code.

#### Section 6:

No application submitted to the Director may be amended without the consent of the Director; provided, however, that no such consent shall be required for an Issuing Authority to submit a new application in order to replace a previously submitted application if such new application is submitted before an allocation is made on the basis of the original application; provided further, that the consent of the Director shall not be required for an Issuing Authority to withdraw a previously submitted application. For purposes of receiving an allocation of the Volume Cap, any application that has been amended shall be treated as though such application was submitted on the date that the amendment was made, rather than on the date of the original submission of such application.

#### Section 7:

- (1) After the effective date of this Executive Order, any Issuing Authority issuing Bonds or Certificates without a certificate of allocation of the Director issued pursuant to Section 4 or Section 5, as appropriate, evidencing the granting of an allocation for such Bonds or Certificates, or any Issuing Authority issuing Bonds or Certificates after the expiration of an allocation under Section 4 or Section 5, as appropriate, is not entitled to any allocation of the Volume Cap for such Bonds or Certificates, and any Issuing Authority issuing Bonds or Certificates in excess of the allocation set forth in the certificate of allocation is not entitled to any allocation of the Volume Cap for such excess.

    - (B) the expiration of the allocation, or
  - (ii) December 30 of the Year in which the allocation for such Bonds or Certificates was made.
- (3) Each Issuing Authority shall cooperate with the Director in furnishing any information the Director reasonably requires. If an Issuing Authority obtains an allocation of a portion of the Volume Cap for a particular Project or Program from the Director as provided in Section 4 or Section 5, as appropriate, but does not issue its Bonds or Certificates within the prescribed time limit, or issues a lesser amount of Bonds or Certificates within the prescribed time limit, such Issuing Authority may again submit an application with respect to the proposed Bonds or Certificates or portion of such Bonds or Certificates not issued for such Project or Program as provided in Section 4 or Section 5, as appropriate. Such application shall be treated as a new application.

Section 8:

In addition to the duties otherwise specifically set forth in this Executive Order, the Director shall:

- (7) promulgate reasonable rules not inconsistent with this Executive Order deemed necessary or expedient to allocate the Volume Cap hereunder.

Section 9:

If any provision of this Executive Order shall be held to be, or shall, in fact, be invalid, inoperative or unconstitutional, the defect of the provision shall not affect any other provision of this Executive Order or render it invalid, inoperative, or unenforceable. To the extent this Executive Order shall be held or shall, in fact, be invalid inoperative, or unconstitutional, all allocations of the Volume Cap previously made under this Executive Order shall be treated as allocations made by the Governor of the State in accordance with provisions of the State Law.

Section 10:

This Executive Order replaces Executive Order No. 86-25, which has expired, provided that such replacement shall not affect any allocations in the State made prior to the effective date hereof pursuant to any other Executive Orders or laws of the State.

EXECUTIVE ORDER NO. 90-11

CONTINUATION OF UNIFORM STATE PLANNING REGIONS,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 86-27

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies and this has continued through such orders since 1972; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data-gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of the U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the powers vested in me, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, Nez Perce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Canyon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue with the written authorization of the Governor to group or combine whole State Planning Regions into agency-designated larger geographic areas but shall continue to utilize the six state regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary;
- (b) A written statement of justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay or total exemption from adoption of the State Multi-County Regions specified herein; and
- (c) A timetable for eventual agency compliance with this order when appropriate.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six planning regions.

The Department of Water Resources shall be exempted from this Order as their administrative regions are based on hydrologic drainage basins.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

This Executive Order repeals and replaces Executive Order No. 86-27.

CONTINUATION OF THE POLICY OF THE STATE ON LIFE-CYCLE COSTING  
PRACTICES AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF  
PURCHASING TO ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE  
LIFE-CYCLE COSTING PRACTICES, REPEALING AND REPLACING EXECUTIVE  
ORDER NO. 86-28

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the state, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby declare that it will continue to be the policy of the state to continue to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the state, including life-cycle for the purchase of all major energy-consuming products.

I Further Direct the Administrator of the Division of Purchasing to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and bidding practices. The Administrator of the Division of Purchasing may, in his discretion, waive the requirements of life-cycle costing if he determines such exemption would be in the best interest of the State of Idaho.

EXECUTIVE ORDER NO. 91-3

ESTABLISHING THE IDAHO RURAL DEVELOPMENT COUNCIL

WHEREAS, Idaho is among the most rural states in the nation; and

WHEREAS, Idaho's tremendous geography and sparse population create problems of distance and isolation; and

WHEREAS, the most rural counties in Idaho consistently have lower per capita incomes, higher unemployment rates, lower rates of in-migration, higher poverty levels, and less new construction and job growth; and

WHEREAS, the most rural residents of Idaho have less access to health care services, employment training, business assistance, library service, and diverse educational and cultural opportunities; and

WHEREAS, the most rural communities have disproportionately large infrastructure needs for transportation, utility services, and education; and

WHEREAS, two state goals are to provide universal access to basic services and to create economic opportunities so that citizens can live in rural Idaho if they so choose;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by the authority vested in me by law, do hereby establish the Idaho Rural Development Council.

The Rural Development Council's responsibilities will be:

1. To identify organizations, authorities, and resources to address various aspects of rural development;
2. To serve as a clearinghouse of information on rural problems, programs, and policies, and to promote broader understanding of these issues at the local level;
3. To assess conditions in rural Idaho and to set overarching goals and specific objectives for improving the quality of life in rural Idaho;
4. To identify alternative approaches toward meeting those goals and to design a state strategy for applying available resources to achieve long-term rural economic development;
5. To implement (in cooperation with the federal government, local government, and the private sector) the state rural economic development strategy and make progress reports;
6. To develop better intergovernmental coordination and to seek out opportunities for new partnerships to achieve rural development goals within the existing structure; and
7. To decide the most appropriate response from the public sector in cases of requests to multiple agencies or levels of government.

The Idaho Rural Development Council is a joint effort between federal, state, and local government. Because its primary mission is to determine how state and federal government can best help the people, communities, and economies of rural Idaho, most Council members will represent state or federal agencies. However, all action to improve rural areas must ultimately occur at the local level; state and federal government can only facilitate positive change.

Membership shall include representation from the following state entities:

1. Executive Office of the Governor
2. Idaho Legislature (4)
3. Department of Commerce
4. Department of Agriculture
5. Department of Employment
6. Department of Health and Welfare
7. Department of Parks and Recreation
8. Idaho Transportation Department
9. Department of Lands
10. Department of Water Resources
11. Division of Vocational Education
12. Commission on the Arts
13. Small Business Development Centers
14. State Library
15. Public Utilities Commission

3. Regional planning districts
4. Idaho Cooperative Utility Association (REAs)
5. Health districts
6. Tribal government
7. Resource Conservation and Development areas (RC&Ds)
8. Idaho Rural health Education Center

These state and local representatives shall join on the Council with representatives of the following federal entities:

1. Senators (2)
2. Congressmen (2)
3. Farmers Home Administration
4. Soil Conservation Service
5. Forest Service
6. Cooperative Extension Service
7. Agricultural Stabilization and Conservation Service
8. Small Business Administration
9. Economic Development Administration
10. Department of Housing and Urban Development
11. Bureau of Reclamation
12. Bureau of Land Management
13. Department of Energy

The Council shall meet no less than quarterly for a period of two years. The Council will be co-chaired by the representative from the Executive Office of the Governor and a designated federal representative. The Council may establish an executive committee and subcommittees at its discretion.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, the 31<sup>st</sup> day of May, in the year of our Lord 1911, and of the Independence of the United States of America the two hundred fifteenth, and of the Statehood of Idaho the one hundred first.

IDAHO CODE OF FAIR EMPLOYMENT PRACTICES,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 87-8

---

WHEREAS, the United States through its Constitution, laws, executive orders, and regulations has declared that all persons are to be treated fairly and equally; and the State of Idaho is committed to fulfilling that federal mandate; and

WHEREAS, the Legislature of the State of Idaho by Title 44, Chapter 17, and Title 67, Chapter 59, of the Idaho Code has declared that employment discrimination based upon race, color, national origin, religion, handicap, sex, or age is illegal; by Title 56, Chapter 7, that the handicapped shall be free from employment discrimination in public service; and by Title 65, Chapter 5, that veterans are to be given preference by public employers; and

WHEREAS, every Idahoan should be provided the opportunity to fully develop and use his/her talents. When we allow race, color, religion, national origin, sex, age, and/or handicap to prevent anyone from reaching full potential, we fail that person, our state, and our country. In accordance with the principles of fair employment practices, we must strive to recognize and advance the abilities and talents of all people, while denying no individual his/her rightful opportunities; and

WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens and serve in that leadership role as a model for government, business, industry, labor, and education in this regard;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, in that spirit and to that purpose, do hereby proclaim the following Idaho Code of Fair Employment Practices to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.

ARTICLE I--Employment Policies of State Agencies

State employees shall be recruited, appointed, assigned, and promoted upon the basis of individual merit, in accordance with the principles of fair treatment and non-discrimination on the basis of race, color, sex, religion, national origin, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.

All state departments, commissions, and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training, compensation policies, and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations and seek to redress under-utilization, if any, of minority, women, or handicapped persons within the state workforce.

STATE DOCUMENTS

IDAHO STATE LIBRARY

Idaho State Library  
325 West State Street

The State Personnel Commission shall take positive steps to insure that the entire examination process, oral, written, and ratings shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating "Hiring is done without regard to race, color, religion, national origin, sex, age, or handicap. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."

#### ARTICLE III---State Financial Assistance

All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex, or handicap. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, plan, contract, or subcontract which has the effect of sanctioning such practices.

#### ARTICLE IV--State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a non-discriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE V--State Education, Counseling, and Training Program

All educational counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies, or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age, or handicap.

#### ARTICLE VI--Cooperation with Human Rights Commission

All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.

#### ARTICLE VII--Enforcement by Appointing Authorities

The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.

Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment; (2) an investigative procedure designed to protect the confidentiality of participants and to effect an immediate and fair resolution of the allegation; and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article IV of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

#### ARTICLE VIII--Affirmative Action Plans

Each executive agency shall, on September 1 of each year, submit a written affirmative action plan to the Governor setting forth all activities undertaken in the past year to effect this Idaho Code of Fair Employment Practices. The report shall be submitted in a form prescribed by the Governor's Office and in sufficient detail to indicate whether goals established by this Code are being met.

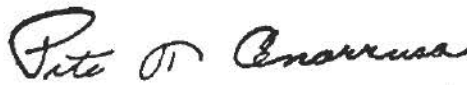

The Governor will appoint an interagency committee to review and evaluate the plans and to consult with each appointing authority as to the progress each is making. The committee will report to the Governor the results of this review and consultation and make periodic recommendations for further improvements in the State's EEO/AA effort.

This Executive Order repeals and replaces Executive Order No. 87-8.

EMPLOYEE POSITIONS IN STATE GOVERNMENT

WHEREAS, considerable concern existed this past legislative session regarding the number of positions in state government which have been vacant for an extended period of time; and

WHEREAS, the legislature passed a bill, HB 781, which I signed into law, the intent of which was to amend Idaho Code 67-3519 to require the elimination of positions which have not been filled for twelve months or longer; and

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, hereby direct the Division of Financial Management to work with the State Auditor's Office which operates the State Employee Information System to implement this policy, effective July 1, 1992, of eliminating all permanent positions which have not been filled for twelve months. ENERGY CONSERVATION CONSIDERATIONS IN STATE BUILDINGS AND LEASES,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 88-19

*WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and*

*WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the state's energy supply; and*

*WHEREAS, the state government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and*

*WHEREAS, it is imperative that the state government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;*

*NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby continue the order that all state building designs and lease agreements shall include energy conservation considerations including:*

- 1. Chapter 53 of the Uniform Building Code, 1991 Edition;*
- 2. use of alternative energy sources such as solar, geothermal, and cogeneration;*
- 3. compliance with the intent of the Environmental Protection Agency's Green Lights State Partner program;*
- 4. energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and*
- 5. "state-of-the-art" systems and equipment to conserve energy economically.*

*FURTHER, I order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified in any such negotiations that failure to comply with these objectives may be sufficient grounds for voiding the lease agreement. I further order that the signing of such agreements include a statement of accountability to the intent of this order so that compliance will be a part of the lease-drafting procedure rather than a source of conflict after a contract has been signed. I further direct the attention of all persons and agencies in all branches of state and local government to the spirit of this order. Consideration of long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, shall be a major consideration in construction of all state buildings and execution of lease agreements.*

WHEREAS, the Asbestos Hazard Emergency Response Act of 1986 (AHERA, P.L. 99-519) mandates state accreditation of asbestos professionals who perform work in elementary or secondary schools; and

WHEREAS, AHERA mandates that each state adopt a contractor accreditation plan at least as stringent as the Environmental Protection Agency's (EPA) model plan;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the authority vested in me by the Constitution and laws of the State of Idaho, and by AHERA, P.L. 99-519, do hereby order: (1) the adoption of a contractor accreditation plan in compliance with the EPA's model plan; (2) the Idaho Industrial Commission to adopt such procedures, rules, and regulations for the purpose of complying with AHERA; and (3) the Idaho Department of Labor and Industrial Services to implement such procedures, rules, and regulations adopted by the Commission.

I. POLICY

Exposure to airborne asbestos fibers has been demonstrated to cause significant increases in lung cancer, mesothelioma, and other diseases. It is the intent of this Order to prevent unnecessary exposure of the public to asbestos fibers by regulating asbestos abatement practices in requiring statewide standards for training and accreditation of persons who perform asbestos projects.

The regulations shall include, but not be limited to, standards for training, course approval and review; examinations for accreditation applicants; annual refresher courses and renewal of accreditation; and revocation of accreditation.*

- G. *The Department of Labor shall establish a fee schedule for the implementation of this Order. The Department of Labor may collect fees for applications, issuance, and renewal of accreditation, examinations, training course approval and review, job notifications and inspections, record-keeping, and other asbestos-related activities of the Department of Labor.*

### III. ENFORCEMENT AND PENALTIES

- A. *At least once a year, during an actual asbestos project, the Department of Labor shall conduct an on-site job inspection for each asbestos contractor. EXECUTIVE ORDER NO. 92-27

### GLOBAL WARMING: IDAHO RESPONSE

*WHEREAS, Idahoans take great pride in Idaho's mountains, forests, rivers, and every aspect of its unique natural resources, and are committed to conserving and protecting the quality of the state's air, water, and other natural resources; and*

*WHEREAS, scientific research suggests that increased levels of carbon dioxide and other "greenhouse gases" in the earth's atmosphere may have contributed to an increase in average global temperatures in the past century, as a result of the "greenhouse effect;" and*

*WHEREAS, increased global temperatures could result in major changes to the earth's environment, including significant changes in Idaho's weather patterns, requiring corresponding changes in the daily pursuits of all Idaho's citizens, and perhaps having catastrophic effects on the agriculture, timber and tourism industries; and*

*WHEREAS, recognizing that all countries must cooperate to face the challenge of global warming, the United States on June 12 signed the United Nations Framework Convention on Climate Change, committing the United States to work to combat global warming; and*

*WHEREAS, the process of global warming can be slowed by efforts to reduce the release of carbon dioxide from energy sources into the air through combustion and by reduction of emissions of greenhouse gases other than carbon dioxide; and*

*WHEREAS, Idaho state government is one of the largest energy consumers in the state, and the laws and regulations of the State of Idaho can play an important role in promoting reduced combustion of carbon by industry and homeowners by promoting energy conservation on a statewide basis through implementation and improvement of the Idaho Residential Energy Standards (IRES) set forth in Title 44, chapter 23, Idaho Code; and*

*WHEREAS, increased energy efficiency by state entities saves scarce tax dollars, makes unnecessary large new investments in power plants, and reduces the energy bills of homeowners and businesses, while aiding the environment;*

*NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the authority vested in me by the Constitution and laws of the State of Idaho, do hereby order:*

- 1. That the Department of Labor and Industrial Services (DLIS), the Energy Division of the Department of Water Resources (DWR), and the Idaho Public Utilities Commission (PUC) work with other state, federal and local government entities, utilities, and builders to propose amendments to the Idaho Code that would ensure that the Idaho Residential Energy Standards (IRES) are raised to equivalence with Model Conservation Standards and that provision is made for inspection and enforcement.*
- 2. That all agencies of the State of Idaho shall ensure that passenger vehicles and light trucks purchased by the State of Idaho for their use shall be of the smallest size class proper for the intended use and be rated by the U.S. Environmental Protection Agency as among the highest-mileage vehicles in their class. Vehicles purchased to accomplish special purposes, such as police, fire, and other emergency vehicles, shall not be subject to the requirements of this paragraph.*

3. *That the Department of Administration:*
- (a) *shall, when engaged in discussions with other state agencies regarding the purchase of vehicles, inform those agencies of the requirements of paragraph two above, in order that each agency understands the requirement to request vehicles of the smallest size class and among the highest mileage in that class.*
  - (b) *shall continue to promote energy conservation in state-owned and state-leased buildings, including participation in the "Green Lights" state partner program of the U.S. Environmental Protection Agency, as set forth in Executive Order 92-17, which requires surveying the lighting systems of state-owned and state-leased buildings to determine whether these systems should be replaced with modern efficient lighting systems;*
  - (c) *shall carry out a similar survey of the need to replace inefficient heating and cooling systems in state-owned and state-leased buildings;*
  - (d) *shall include in its maintenance contracts for state buildings and vehicles, the requirement that chlorofluorocarbons (CFCs) be collected during servicing of refrigeration units and reused or recycled.*
  - (e) *shall draft proposed amendments to the Idaho Code that would broaden the authorized use of parking fees paid by state employees to promote use of other forms of transportation, including mass transit and bicycles.*
  - (f) *shall incorporate in its requests for bids for state supplies, market-based incentives to promote submission of bids offering recycled goods (production of which requires less energy than new goods) at prices competitive with new goods.*
  - (g) *shall ensure that trees are planted around state-owned or state-leased buildings to contribute to the energy efficiency of those buildings (e.g., deciduous trees to the south, coniferous to the north) and to serve to offset carbon dioxide emissions.*
4. *That the Division of Environmental Quality (DEQ) of the Department of Health and Welfare:*
- (a) *shall review what steps would need to be taken to quantify Idaho's emissions of greenhouse gases, and work with industry to identify emission in Idaho of such non-carbon dioxide greenhouse gases as methane, CFCs 11 and 12, and nitrous oxide, and work with industry to reduce and eliminate such emissions.*
  - (b) *shall incorporate into its permit fee structure a system that would provide incentives for reduced emissions of greenhouse gases, including promotion of use of "offsets" and "sinks" for carbon dioxide (such as planting of trees) by those who receive permits.*
5. *That the Department of Lands shall ensure rapid and effective reforestation of federal, state, and private lands following timber sales and have its urban forestry personnel work with the Department of Administration to promote planting of trees around state-owned and state-leased buildings to contribute to their energy efficiency and the state's effort to offset carbon dioxide emissions.*
6. *That the Department of Transportation, in planning, designing and implementing its road construction projects, shall encourage alternate modes of transportation, including the use of car pools, public transit, and other techniques to minimize single user vehicle trips. The Department shall also work with local authorities to promote "bicycle friendly" streets and highways that would permit more Idaho workers to commute to their jobs on bicycles.*

*This Executive Order shall cease to be effective four years after its entry into force.*

## EXECUTIVE ORDER NO. 93-04

### ESTABLISHMENT OF THE CRIMINAL JUSTICE RECORDS IMPROVEMENT ADVISORY COUNCIL

---

*WHEREAS, automated criminal histories are relied upon at virtually every stage of the criminal justice system and play a vital role in almost every decision in the process; and*

*WHEREAS, under legislative directive, criminal histories increasingly are being made available for noncriminal justice purposes, such as background screening for public and private employment and occupational licensing; and*

*WHEREAS, national studies have found that the accuracy and completeness of criminal justice records are seriously deficient, thereby compromising the usefulness of these important records; and*

*WHEREAS, concern about the quality of criminal justice records has led the U.S. Congress and state governments to initiate programs to improve data quality; and*

*WHEREAS, the Federal Crime Control Act of 1990 requires states to allocate five percent of their total law enforcement assistance formula grant award for the improvement of criminal justice records, and federal guidelines for use of the set-aside grant funds have set forth a four step process for states to follow in developing a plan to meet certain data quality goals; and*

*WHEREAS, one step in that process is the establishment of a Criminal Justice Records Improvement Advisory Council with membership including officials representing all stages of the criminal justice process; and*

*WHEREAS, advice from a council representing the broad spectrum of the criminal justice community is crucial to the success of the state's records improvement project;*

*NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by the authority vested in me by law, do hereby establish the Criminal Justice Records Improvement Advisory Council and charge it with the responsibility of promoting interagency and intergovernmental cooperation involving efforts to improve the quality of Idaho's criminal justice records.*

*The Advisory Council shall have the following duties:*

- 1. reviewing findings and recommendations of a baseline audit of the state's criminal justice records system;*
- 2. assisting the effort to ascertain the reasons for incomplete and inaccurate records;*
- 3. recommending remedial actions for correcting deficiencies in the accuracy, completeness, and timeliness of criminal justice records;*
- 4. evaluating the criminal justice records improvement plan prepared for submission to the U.S. Department of Justice;*
- 5. reviewing the implementation of the criminal justice records improvement plan;*
- 6. reviewing a needs assessment of the criminal justice community regarding automated criminal histories;*
- 7. recommending initiatives for achieving the goals of an approved records improvement plan and for meeting the varied needs of the criminal justice community regarding automated criminal histories;*

8. evaluating the adequacy of state laws and other reporting requirements relating to criminal justice records and assisting in the formulation of needed statutory revision.

The Advisory Council shall consist of the following seven (7) members, who shall be appointed by and serve at the pleasure of the Governor:

- Attorney General of Idaho or Designee
- Director, Idaho Department of Correction or Designee
- Director, Idaho Department of Law Enforcement or Designee
- A Municipal Chief of Police
- A County Sheriff
- A Prosecuting Attorney
- One Noncriminal Justice User

The Governor shall designate a chairman from among the membership. The Advisory Council may select one of its members to serve as vice-chairman. At its discretion, the Advisory Council may appoint advisory committees to assist in developing solutions to problems adversely affecting the quality of criminal justice records. A Council member may designate a proxy to represent the member at council meetings.

The Department of Law Enforcement shall have the responsibility of ensuring that the criminal justice records improvement project satisfies federal requirements and achieves the goals of the state's records improvement plan. To accomplish this responsibility, the Department of Law Enforcement shall undertake the following duties:

1. preparing a criminal justice records improvement plan for submission to the U.S. Department of Justice;
2. administering a criminal justice records improvement project that is based on a federally-approved records improvement plan and funded by five percent of the state's law enforcement assistance formula grant award;
3. providing administrative support to the Criminal Justice Records Improvement Advisory Council;
4. preparing an annual report on the activities and progress of the criminal justice records improvement project.

This Executive Order shall cease to be effective four years after its entry into force.

DESIGNATION OF THE FARMWORKER RESOURCE COMMITTEE AS  
AN ADVISORY COMMITTEE TO THE GOVERNOR

WHEREAS, agriculture plays a key role in Idaho's economic well-being, and the contribution of seasonal farmworkers, both local and migrant, is critical to agricultural production in Idaho; and

WHEREAS, farmworkers are entitled to equal protection of the law and equal opportunity in society, yet oftentimes their interests are not well represented in Idaho's political system, since many farmworkers do not reside permanently in the places where they work, have limited formal education, and cannot communicate well in English; and

WHEREAS, the failure of the state to require coverage for farmworkers under workers' compensation laws often results in financial hardship to injured farmworkers, litigation expenses, and severe financial burdens to counties that assume indigent medical bills that the workers' compensation would have paid if farmworkers were covered; and

WHEREAS, many farmworkers are children who often work long hours in the agricultural community; and

WHEREAS, many farmworkers and their families rely on Spanish as their primary language and have difficulty taking advantage of available programs due to limited English language skills, and some of their children do not do well in school due to lack of classes in English as a Second Language (ESL), or the absence of Spanish-speaking instructors, and the result is often low educational accomplishment, limited access to jobs and job advancement; and

WHEREAS, many Idaho residents speak Spanish, according to the 1990 census, suggesting that Spanish-language literate persons are available to staff state agency positions responsible for carrying out programs that provide services to Spanish-speaking persons; and

WHEREAS, a number of local, state, and federal agencies are required to assist farmworkers in the State of Idaho, and that increased communication and cooperation between these agencies would enable them to assist farmworkers more effectively; and

WHEREAS, representatives of many such government agencies have come together to form the Farmworker Resource Committee to improve agency communication and cooperation, and already have had measurable success in addressing farmworker concerns; and

WHEREAS, designation of the Farmworker Resource Committee as an advisory committee to the Governor would support its efforts to better serve farmworkers and their families in Idaho;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by the authority vested in me by the constitution and laws of the State of Idaho, do hereby order:

1. The designation of the Farmworker Resource Committee as an advisory committee to the Governor.
2. That state agencies and commissions that provide services or protection to seasonal farmworkers and their families shall designate representatives to the Committee. Those agencies include, but need not be limited to, the Department of Agriculture, the Department of Employment, the Department of Health and Welfare, the Human Rights Commission, the Idaho Commission on Hispanic Affairs, the Idaho Personnel Commission, and the Industrial Commission. Other agencies that may, from time to time, have interests in farmworker issues should send representatives as appropriate. The Attorney General's Office, the Department of Education,

and the State Board of Education are invited to name representatives to the Committee. These representatives of state government shall work together to help the Committee accomplish its goals of improving the lot of farmworkers in Idaho. State members of the Committee shall encourage representatives of local government entities such as county commissions, hospital districts, and other entities with an interest in farmworker issues to participate in the Committee. They shall similarly encourage participation by non-governmental organizations with interest in farmworker issues, such as Idaho Legal Aid, the Idaho Migrant Council, health care providers such as Terry Reilly Health Services, and groups representing farmers and ranchers, such as the Farm Bureau.

3. *The responsibilities of the Farmworker Resource Committee, in its capacity as an advisory committee to the Governor, shall be to:*
  - (a) *Improve agency coordination and collaboration to ensure that farmworkers and their families have equal access to the health care, educational, and public services and opportunities available to other members of society.*
  - (b) *Collect information on farmworker issues and provide both information and analysis to the Governor, as well as other branches of state government and other levels of government, interested groups, and the public. In so doing, the Committee shall pay particular attention to the agricultural pursuits exemption of Idaho's workers compensation law. The Committee should determine amounts paid to cover medical and other costs that otherwise would have been covered by workers' compensation if farmworkers were not exempted. The Committee should estimate how many cases would have been handled administratively under workers' compensation law if farmworkers were not exempted, and estimate the number of cases that resulted in litigation. The Committee shall collect information on the educational needs of the children of seasonal farmworkers, the number of such children enrolled in various school districts, the number of teachers who speak Spanish, the offering of courses in English as a Second Language (ESL), instruction in Spanish, and other information useful to educational policy makers striving to improve education for the children of migrant or seasonal farmworkers in Idaho. The Committee shall study the issue of child labor in agricultural pursuits.*
  - (c) *Engage in educational and outreach activities to:*
    - (i) *Inform farmworkers and service providers of opportunities and responsibilities of farmworkers, including the services and protection to which they are entitled.*
    - (ii) *Inform all citizens of Idaho of the important role farmworkers have played and continue to play in the state's economy, culture, history, and diversity. The goal of such efforts would be the elimination of bias, bigotry, and racism as excuses for denying equal treatment to farmworkers and their families.*
  - (d) *Work with local, state, and federal agencies to promote use, in positions with frequent contact with farmworkers and their families, of personnel fluent in both Spanish and English. The Committee shall work with the Idaho Personnel Commission to ensure that language ability is included as an element in the job description of positions that have significant contact with Spanish-speaking persons, and that persons hired to staff such positions are able to communicate in Spanish. All state agencies shall similarly emphasize language ability in recruitment, hiring, and training for such positions.*
  - (e) *Deliver a written report to the Governor by July 31, 1994, detailing what the Committee has learned about farmworker issues in Idaho and steps it recommends be taken by state government to correct or ameliorate problems. The report shall include Committee findings on, and recommendations for, better handling of the workers' compensation issue. The report shall review issues of education of children of seasonal workers in Idaho and child farm labor and give recommendations for improvements. The report shall also describe what steps have been taken by state agencies to include language skills as an element of job descriptions for appropriate classified positions.*

*This Executive Order shall cease to be effective four years after its entry into force.*

EXECUTIVE ORDER NO. 93-08

ESTABLISHMENT OF THE IDAHO ALCOHOL AND DRUG-FREE WORKPLACE POLICY

WHEREAS, the State of Idaho has a vital interest in maintaining a safe, healthy, and efficient working environment for its employees, clients and the public; and

WHEREAS, employees impaired by alcohol or other drugs during work hours pose safety and health risks not only to themselves but to others; and

WHEREAS, employees who use illegal drugs, whether on or off duty, are generally less productive, less reliable and prone to greater absenteeism than employees who do not use drugs; and

WHEREAS, the use of illegal drugs by state employees is inconsistent with the law-abiding behavior expected of all citizens, and with the special trust placed in such employees as servants of the public; and

WHEREAS, the use of alcohol or drugs by state employees in certain positions of sensitivity poses a special risk to public safety and the effective enforcement of the law; and

WHEREAS, the use of alcohol or drugs becomes a matter of concern to the State of Idaho when it interferes with job performance, conduct, attendance, or safety of state employees; and

WHEREAS, the State of Idaho, as an employer, has a responsibility to taxpayers to ensure that state functions are performed efficiently and without undue risk to the people of the state; and

WHEREAS, the State of Idaho, as an employer, is also concerned with the well-being of its employees and should encourage the identification and rehabilitation of employees with alcohol or drug problems;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the power and authority vested in me by the Constitution and statutes of the State of Idaho, do hereby order the following Idaho Alcohol and Drug-Free Workplace Policy to become effective immediately for all employees of the State of Idaho:

1. the consumption of alcohol on the job is prohibited. Employees may not work if their performance is impaired by the use of alcohol;
2. the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited, and if occurring on state property or during an employee's hours of work, demands immediate corrective action;
3. each state agency shall provide employees with information on Idaho's Alcohol and Drug-Free Workplace Policy, as well as information on the state's Employee Assistance Plan;
4. violations of the Idaho Alcohol and Drug-Free Workplace Policy will be cause for management/supervisor intervention and may result in referral to treatment, including participation in the Employee Assistance Program. It shall be the policy of the State of Idaho to direct its efforts toward rehabilitation whenever reasonable;
5. any intervention steps taken upon a violation of the Idaho Alcohol and Drug-Free Policy must be consistent with all due process requirements and other constitutional rights of state employees;
6. the privacy rights of employees are important. Any intervention steps taken upon a violation of the Idaho Alcohol and Drug-Free Workplace Policy, including a referral for treatment, counseling or rehabilitation programs, shall include procedures to protect the confidentiality of treatment records as well as the employee's identity;
7. the director of each agency shall report quarterly, the first of January, March, July, and

October, to the Personnel Commission any violations of the Idaho Alcohol and Drug-Free Workplace Policy and the corrective actions taken. "Quarterly" means the report shall be filed the first day of January, March, July, and October. The report shall, to the extent practicable, protect the confidentiality of the employee involved, but shall describe the nature of the employee's position;

8. the Personnel Commission shall annually compile information regarding violations of this policy and the corrective actions taken and report this information by June 30 to the Governor. Any information so reported shall be reported in a manner to avoid revealing the identity of the employees involved. The Personnel Commission, when it compiles this data, shall do so by type of position so as to determine whether there is an alcohol or drug problem in any "safety-sensitive" positions;
9. whenever there is an alcohol or drug problem in a "safety-sensitive" position, it is critical that the problem be addressed aggressively. For the purpose of this policy, a "safety-sensitive" position is one in which:
  - a. the duties involve a greater-than-normal level of trust for, responsibility for, or impact on the health and safety of the employee or others; and
  - b. errors in judgment, inattentiveness or diminished coordination, dexterity, or composure while performing the duties could clearly result in mistakes that would endanger the health and safety of the employee or others; and
  - c. employees in these positions work with such independence that it cannot be safely assumed that mistakes such as those described in subsection (b) could be prevented by a supervisor or another employee;
10. in the event the Personnel Commission finds an alcohol or drug problem in any agency or classification, it shall report that to the Governor, and the agency, working in conjunction with the Personnel Commission and the Governor, shall develop a program to respond to the problem. This program may include alcohol or drug testing for employees in safety-sensitive classifications where such a problem has been documented;
11. all state agencies responsible to the Governor are directed, and all other public entities are requested, to assist the Personnel Commission in discharging its responsibilities under this order;
12. nothing in this order shall be deemed to abrogate any existing policy or directive relating to alcohol or drug use by state employees or to affect any existing or future state employee disciplinary proceeding; and
13. where federal laws or regulations require the state to implement more stringent regulations than those contained in this policy, those federal regulations and procedures supersede and/or augment this policy.

This Executive Order shall cease to be effective four years after its entry into force.

Further, the certification and experience requirements shall be attested to on an annual basis by the Idaho Department of Transportation Division of Aeronautics.

6. Each department director or other appointing authority will ensure that aircraft and pilots involved in paragraph four above will have sufficient insurance to meet state standards. Each aircraft will carry at least \$1,000,000 bodily injury and property damage liability COMBINED SINGLE LIMITS. Section 7:

- (1) *After the effective date of this Executive Order, any Issuing Authority issuing Bonds or Certificates without a certificate of allocation of the Director issued pursuant to Section 4 or Section 5, as appropriate, evidencing the granting of an allocation for such Bonds or Certificates, or any Issuing Authority issuing Bonds or Certificates after the expiration of an allocation under Section 4 or Section 5, as appropriate, is not entitled to any allocation of the Volume Cap for such Bonds or Certificates, and any Issuing Authority issuing Bonds or Certificates in excess of the allocation set forth in the certificate of allocation is not entitled to any allocation of the Volume Cap for such excess.*

  - (b) *if all or a stated portion of such Bonds or Certificates will not be issued, advise the Director in writing, on or before the earlier of*
    - (i) *the fifteenth day after the earlier of*
      - (A) *the final decision not to issue all or a stated portion of such Bonds or Certificates or*
      - (B) *the expiration of the allocation, or*
    - (ii) *December 30 of the Year in which the allocation for such Bonds or Certificates was made.*
- (3) *Each Issuing Authority shall cooperate with the Director in furnishing any information the Director reasonably requires. If an Issuing Authority obtains an allocation of a portion of the Volume Cap for a particular Project or Program from the Director as provided in Section 4 or Section 5, as appropriate, but does not issue its Bonds or Certificates within the prescribed time limit, or issues a lesser amount of Bonds or Certificates within the prescribed time limit, such Issuing Authority may again submit an application with respect to the proposed Bonds or Certificates or portion of such Bonds or Certificates not issued for such Project or Program as provided in Section 4 or Section 5, as appropriate. Such application shall be treated as a new application.*

Section 8:

*In addition to the duties otherwise specifically set forth in this Executive Order, the Director shall:*

EXECUTIVE ORDER NO. 94-10

CONTINUATION OF UNIFORM STATE PLANNING REGIONS,  
REPEALING AND REPLACING EXECUTIVE ORDER NO. 90-11

WHEREAS, Executive Order No. 72-3 created six official and uniform state planning regions to be utilized by all state departments and agencies and this has continued through such orders since 1972; and

WHEREAS, state departments and agencies continue to rely on divergent regional patterns for planning, administrative, technical assistance and data-gathering activities; and

WHEREAS, the need to coordinate the activities of state departments and agencies on a regional basis continues to exist; and

WHEREAS, the establishment of the aforementioned official and uniform state planning regions continues to result in a reduction of confusion among local public officials and in the more efficient delivery of services to the citizens of the State of Idaho by local governmental units; and

WHEREAS, the increase in the activities and involvement of the departments and agencies of the United States has intensified the need for the unimpeded cooperation among federal, state and local programs; and

WHEREAS, Public Law 90-577, the Intergovernmental Cooperation Act of 1968 and Part IV of the U.S. Office of Management and Budget Circular No. A-95, Revised, encourages the states "to exercise leadership in delineating and establishing a system of planning and development districts or regions in each state, which can provide a consistent geographic base for the coordination of federal, state and local development programs";

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, by virtue of the powers vested in me, do issue this Executive Order continuing the official and uniform state planning regions to be utilized by all state departments and agencies. Six major regions shall continue to be as follows:

- Region I: Boundary, Bonner, Kootenai, Benewah and Shoshone Counties (Panhandle Region)
- Region II: Latah, Clearwater, Nez Perce, Lewis, and Idaho Counties (Clearwater Region)
- Region III: Adams, Valley, Washington, Payette, Gem, Caryaon, Boise, Ada, Elmore, and Owyhee Counties (Southwest Region)
- Region IV: Camas, Blaine, Gooding, Lincoln, Jerome, Minidoka, Twin Falls, and Cassia Counties (Magic Valley Region)
- Region V: Bingham, Power, Bannock, Oneida, Franklin, Caribou and Bear Lake Counties (Southeast Region)
- Region VI: Lemhi, Custer, Butte, Clark, Jefferson, Fremont, Madison, Teton, and Bonneville Counties (Eastern Region)

It is hereby ordered and directed that all state agencies continue to conduct planning activities, collect data, compile reports, and report program progress on the basis of the State Planning Regions.

It is further ordered and directed that all agencies within the Executive Branch of Government continue to take the above Regional Districts into consideration in the future establishment and revision of all applicable state plans and programs.

It is further ordered and directed that state agencies may continue with the written authorization of the Governor to group or combine whole State Planning Regions into agency-designated larger geographic areas but shall continue to utilize the six state regions with the nomenclature and numerical designations established by this order for purposes of data gathering and reporting.

However, where warranted, special exceptions may be granted by the Governor to those state agencies showing just cause for exemption. Agencies seeking exemption must submit:

- (a) A map depicting those regions which can be utilized and those where a modification from existing boundaries is deemed necessary;
- (b) A written statement of justification citing statutes, federal regulations or guidelines, personnel difficulties, unreasonable workload assignments, existing investments in field facilities, or other major factors indicating sufficient cause for delay or total exemption from adoption of the State Multi-County Regions specified herein; and
- (c) A timetable for eventual agency compliance with this order when appropriate.

All state agencies utilizing administrative districts are encouraged to continue to bring their administrative district boundaries into conformity with the boundaries of the six state planning regions.

The Department of Water Resources shall be exempted from this Order as their administrative regions are based on hydrologic drainage basins.

FURTHERMORE, local governmental units are encouraged to continue joint participation in regional councils of governments within this system of districts to enhance intergovernmental cooperation for the purposes of comprehensive planning and development and the administration of state and federally supported programs within the State of Idaho as authorized by the provisions of law.

This order contemplates that, if subsequent circumstances and developments warrant changes in the six regional boundaries due to the continuing process of local regional organization, appropriate revision of this order will be undertaken.

This Executive Order repeals and replaces Executive Order No. 90-11.

#### CONTINUATION OF THE POLICY OF THE STATE ON LIFE-CYCLE COSTING PRACTICES AND DIRECTING THE ADMINISTRATOR OF THE DIVISION OF PURCHASING TO ASSIST STATE AGENCIES IN DEVELOPING PLANS TO UTILIZE LIFE-CYCLE COSTING PRACTICES, REPEALING AND REPLACING EXECUTIVE ORDER NO. 90-12

WHEREAS, energy, its production, distribution, and utilization is a primary concern of all Idaho citizens; and

WHEREAS, the use of energy is an integral part of people's lives--in agriculture, in business and industry, at home and in state and local government; and

WHEREAS, to be effective, energy planning should be incorporated into decision-making; and, with regard to procurement practices and construction of new buildings by the state, life-cycle costing is one technique already in use in several states of the Union; and

WHEREAS, life-cycle costing is a technique whereby the long-term maintenance and operating costs of a building or product are considered in addition to its original purchase price or construction cost. These additional costs are often as important as the original cost and affect the true economy of buildings and products. Life-cycle costing techniques supplement the present minimum bid standards for controlling state contracting, purchasing and building practices. When applied logically, this method of cost evaluation has been proven effective in establishing the greatest gain between quality and thrift; and

WHEREAS, Idahoans are rightly concerned about the cost of government today. By encouraging wise management of energy and fiscal resources in government, through life-cycle costing, every Idaho citizen's tax dollar will be expended in a manner to guarantee maximum efficiency;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby declare that it will continue to be the policy of the state to continue to promote the conservation of energy and the life-cycle cost or greatest value of commodities, and to effect coordination in the purchase of commodities by the State of Idaho.

To that end, all state agencies, prior to construction or renovation of any major facility, are directed to include in the design phase a provision for life-cycle costing. To accomplish the desired energy savings, agencies must calculate and define the additional costs of the life-cycle cost factors in their budget request of buildings. The Permanent Building Fund Advisory Council shall determine that all designs for buildings have been given a thorough analysis of life-cycle costing and energy-conscious design.

All state agencies are further directed to develop plans and specifications for energy efficiency in the acquisition of commodities purchased and/or acquired by the state, including life-cycle for the purchase of all major energy-consuming products.

I FURTHER DIRECT the Administrator of the Division of Purchasing to assist all state agencies in developing plans and specifications to utilize energy efficiency and life-cycle costing in their acquisition and bidding practices. The Administrator of the Division of Purchasing may, in his discretion, waive the requirements of life-cycle costing if he determines such exemption would be in the best interest of the State of Idaho.

EXECUTIVE ORDER NO. 95-08

### IDAHO CODE OF FAIR EMPLOYMENT PRACTICES, REPEALING AND REPLACING EXECUTIVE ORDERS NO. 91-7 AND NO. 93-06

*WHEREAS, the United States through its Constitution, laws, executive orders, and regulations has declared that all persons are to be treated fairly and equally; and the State of Idaho is committed to fulfilling that federal mandate; and*

*WHEREAS, the Legislature of the State of Idaho by Title 44, Chapter 17, and Title 67, Chapter 59, of the Idaho Code has declared that employment discrimination based upon race, color, national origin, religion, disability, sex, or age is illegal; by Title 56, Chapter 7, that the disabled shall be free from employment discrimination in public service; and by Title 65, Chapter 5, that veterans are to be given preference by public employers; and*

*WHEREAS, every Idahoan should be provided the opportunity to fully develop and use his/her talents. When we allow race, color, religion, national origin, sex, age, and/or disability to prevent anyone from reaching full potential, we fail that person, our state, and our country. In accordance with the principles of fair employment practices, we must strive to recognize and advance the abilities and talents of all people, while denying no individual his/her rightful opportunities; and*

*WHEREAS, we must assume our citizen-granted role of leadership in the protection of freedom for all citizens; and we must serve in that leadership role as a model for government, business, industry, labor, and education in this regard;*

*NOW, THEREFORE, I, PHILIP E. BATT, Governor of the State of Idaho, in that spirit and to that purpose, do hereby proclaim the following Idaho Code of Fair Employment Practices shall continue to be the governing policy throughout every department of the Executive Branch of Government of the State of Idaho.*

#### ARTICLE I--Employment Policies of State Agencies

*State employees shall be recruited, appointed, assigned, and promoted upon the basis of individual merit, in accordance with the principles of fair treatment and non-discrimination on the basis of race, color, sex, religion, national origin, age, or disability. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations.*

*All state departments, commissions, and boards are directed to review present personnel recruitment, appointment, promotion, demotion, transfer, retention, discipline, separation, training, compensation policies, and other employment practices to assure compliance with this Executive Order. They shall regularly review present state and federal laws and regulations and seek to redress under-utilization, if any, of minority, women, or disabled persons within the state workforce.*

*The State Personnel Commission shall take positive steps to insure that the entire examination process--oral, written, and ratings--shall be free from either conscious or inadvertent bias. State agencies shall give wide distribution of notice of employment opportunities so that all citizens may be fully advised of career opportunities in state government. Employment announcements issued by state agencies shall include a statement indicating, "Hiring is done without regard to race, color, religion, national origin, sex, age, or disability. Appropriate consideration shall be given to veterans in accordance with applicable state and federal laws and regulations."*

ARTICLE II—State Action

*All services of every state agency shall be performed without discrimination based on race, color, religion, national origin, sex, or disability. No state facility shall be used in furtherance of any discriminatory practice nor shall any state agency become a party to any agreement, arrangement, plan, contract, or subcontract which has the effect of sanctioning such practices.*

ARTICLE III—State Financial Assistance

*Race, color, religion, national origin, sex, or disability shall not be considered in state-administered programs involving the distribution of funds to qualified recipients for benefits authorized by law; and state agencies shall not provide grants, loans, or other financial assistance to public agencies, private institutions, or organizations which engage in discriminatory practices.*

ARTICLE IV—State Employment Services

*All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers, shall accept job orders and/or applications on a non-discriminatory basis. They shall refuse to fill any job order designed, either consciously or inadvertently, to exclude any person from employment because of race, color, religion, national origin, sex, age, or disability.*

ARTICLE V—State Education, Counseling, and Training Program

*All educational counseling and vocational guidance programs, employment and training programs, policy declarations and staff services of state agencies or those in which state agencies participate, shall be open to all qualified persons, without regard to race, color, religion, national origin, sex, age, or disability.*

ARTICLE VI—Cooperation with Human Rights Commission

*All state departments shall cooperate fully with the Idaho Human Rights Commission if state employees or applicants for state employment file complaints with the Commission. They shall also utilize the services of the Commission when needing technical advice regarding compliance with equal employment opportunity as described by Title 67, Chapter 59, Idaho Code. The Commission shall act as a referral agency for information or complaints concerning discrimination in certain protected classes not covered by Title 67, Chapter 59, Idaho Code.*

ARTICLE VII—Enforcement by Appointing Authorities

*The executive head of each state executive department shall be responsible for carrying out the policies of this Idaho Code of Fair Employment Practices and shall inform and educate all supervisory personnel regarding its intent and spirit. They shall promulgate clearly written directions to carry out this policy. Upon a showing of substantial evidence to the appropriate appointing authority that any officer or employee of the state has knowingly violated any of the provisions of this Executive Order or any applicable state or federal law or regulation, the appointing authority shall take appropriate disciplinary action.*

*Because of its sensitive nature, sexual harassment often cannot be effectively addressed through normal grievance procedures. Therefore, every appointing authority shall be responsible for the development of a grievance procedure to be used by employees and/or recipients of state services who believe they have been subjected to sexual harassment. This policy shall include at least the following: (1) a statement defining and forbidding sexual harassment, (2) an investigative procedure designed to protect the confidentiality of*

participants and to effect an immediate and fair resolution of the allegation, and (3) a statement advising employees and service recipients of their rights to raise this issue with appropriate governmental agencies and/or the courts. Pursuant to Article IV of this Executive Order, the Human Rights Commission and the Personnel Commission shall assist in the development of these policies.

ARTICLE VIII—Affirmative Action Plans

The Governor will appoint an interagency committee to review state Equal Employment and Affirmative Action planning. The Committee will consult with appointing authorities and report to the Governor its recommendations for further improvements in the State's EEO/AA efforts. The committee's recommendations will be presented to the Governor by November 1, 1995.

This Executive Order repeals and replaces Executive Orders No. 91-7 and No. 93-06.

This Executive Order shall cease to be effective four years after its entry into force.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at the Capitol in Boise on the twenty-second day of May in the year of our Lord nineteen hundred ninety-five and of the Independence of the United States of America the two hundred nineteenth and of the Statehood of Idaho the one hundred fifth.
