THE FOLLOWING NOTICE PUBLISHED WITH THE PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section, Idaho Code 54-2506.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than November 15th, 2017.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Currently, IDAPA 11.04.06 provides Racing Stewards with jurisdiction to resolve hearings for 30 days after our live race meet has concluded. However, in another Section 160 of the rule (IDAPA 11.04.11.160), horsemen are provided an opportunity to request a split blood test sample to be done at a lab of their choosing. This rule provides a time period for the requesting, shipping and receiving of that blood sample. Typically, this process takes much longer than 30 days to complete. If a horseman races near the end of the live season and has been found to have a drug violation, the Steward's jurisdiction could expire before that horseman has a chance to exercise his right to a split blood test sample.

When a Steward's jurisdiction expires before a hearing has been resolved, the Racing Commission must hire attorneys to bring the drug violation forward to the Racing Commissioners. The Racing Commission must also hire a Hearing Officer to decide the case, if it is appealed. These actions cause a significant delay to the hearing process.

Effectively, end-of-season horsemen could potentially experience a different enforcement process than other racing participants simply because rule writers in 2010 overlooked the timeframe for processing a split sample blood test. Purse monies could potentially take longer to distribute, and publishing of accurate win records could also potentially be significantly delayed.

This rule change extends the Steward's jurisdiction from 30 days to 90 days, to provide horsemen time to complete their split sample testing process, if needed.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because this rule change is simple in nature.

THE FOLLOWING NOTICE PUBLISHED WITH THE PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that the Idaho Public Utilities Commission has initiated proposed rulemaking procedures. This action is authorized pursuant to Section 61-515, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 18, 2017.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Commission's Safety and Accident Reporting Rules (IDAPA 31.11.01) adopt by reference several national safety codes applicable to electric and natural gas utilities and federal safety regulations applicable to natural gas and pipeline utilities. Currently, Rule 201 adopts the October 2014 edition of 49 Code of Federal Regulations (CFR) Parts 191-193, 195, and 199, addressing the construction and operation of natural gas pipelines, and the April 2014 edition of 18 CFR Part 260.9.

Since the publication of those editions, there have been several minor updates and revisions to the safety codes, including amendments relating to the technical requirements of materials, installation methods and use, updated references to technical standards, and other non-substantive editorial corrections. There has also been added rules relating to expanded use of excess flow valves in gas distribution systems. There are no major revisions to the codes in question.

FEE SUMMARY: There are no fees associated with this proposed rulemaking.

FISCAL IMPACT: There is no fiscal impact on the state general fund resulting from this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because this proposed rule adopts updated national safety codes and federal regulations necessary for the safety of utility employees and the public during the installation, operation, or maintenance of natural gas pipelines, fuel gas systems and natural gas-fired appliances.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

Adoption of the current national safety codes and the CFRs will make these rules consistent with federal safety regulations concerning natural gas and pipeline utilities. In addition, incorporation of the two other national safety codes will promote the safety of utility employees, utility customers, and the public. Finally, incorporation by reference will mitigate the need to publish hundreds of pages of safety codes.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the proposed rule, contact Brandon Karpen, Deputy Attorney General, at (208) 334-0357.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the Commission Secretary and must be delivered on or before October 25, 2017. Persons desiring to comment are encouraged to submit written comments at their earliest convenience rather than wait until the comment deadline.

DATED this 29th day of August, 2017.
