Bradley A. Hunt, Rules Coordinator

SUBJECT: **Overview of Executive Agency Rulemaking in 2021**

Background. Governor Little maintains and continues to stress the importance of an efficiently functioning government along with ensuring continuity of the services citizens expect and implemented through executive administrative rules. Nearly all rules published in the Legislative Rules Review books are simply re-published because the 2021 Legislature adjourned *sine die* without passing a concurrent resolution approving any pending fee rules as specified in Section 67-5224, Idaho Code, as well as not extending any effective rule on July 1 by statute as outlined in Section 67-5292, Idaho Code. The necessary rules were re-published in the following special bulletins:

- July 21 – Temporary Rules
- October 20 – Proposed Rules
- December 22 – Pending Rules

Changes in Existing Rules. Since the vast majority of rules either expired or were not approved, there is no existing rule available to amend. Therefore, only a clean version of the rule chapter is able to be presented to the Legislature in January 2022. In some cases, rules were modified based on public comment, or to implement Executive Order 2020-01, Zero-Based Regulation (ZBR), among other reasons. Given the unprecedented volume, edits are incorporated within a single omnibus docket, or in the case of ZBR rulemaking a standalone docket, and presented as a clean rule chapter. There are several ways that legislators may view previous rules for comparison purposes:

- An archive of any rule since 1996 is available on the DFM website. This allows legislators to see the evolution of a rule over time.
- The Legislative Services Office analyzes all proposed rules. You can find their analysis of proposed rules which, in some cases, may discuss changes between previous rules and the proposed rules. These may be found on the Legislature's website.
- Changes made between the proposed and pending rule stages for omnibus rulemaking were noted in the December 22 bulletin where applicable.

Process for Approving Rules. Below, you will find a brief description on legislative actions and outcomes regarding the rules review process and contents of the Legislative Rules Review Books:

- Pending Fee Rules must be affirmatively approved by both bodies via adoption of concurrent resolution to become final.
- Pending Rules become final and effective sine die unless rejected, in whole or in part, via concurrent resolution adopted by both bodies.
    - Pending rules may be approved, in whole or in part, or rejected if determined to be inconsistent with legislative intent of the governing statute.
    - If rejected, new or amended language must be identified at a numerical or alphabetical designation within the rule and specified in the concurrent resolution.
- A link to LSO's proposed rule analysis is provided at the beginning of each docket and includes any required supporting documentation (e.g. Cost Benefit Analysis (CBA), Incorporation By Reference Synopsis (IBRS)) as part of the analysis.
- All 2022 review books can be accessed on the DFM website here.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2022 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

( )

015. TESTIMONIALS OR ENDORSEMENTS BY THIRD PARTIES.

01. Testimonials. Testimonials used in advertisements will be genuine, represent the current opinion of the author, be applicable to the policy advertised and be accurately reproduced. The insurer, in using a testimonial, makes as its own all of the statements contained therein, and the advertisement, including such statement, is subject to all the provisions of this chapter. ( )

Such an advertisement will not imply that such statistics are derived from the policy advertised unless such is the fact, and when applicable to other policies or plans will specifically so state. ( )

02. Restrictions on Representations. An advertisement will not represent or imply that claim settlements by the insurer are "liberal" or "generous," or use words of similar import, or that claim settlements are or will be beyond the actual terms of the contract. Different terms of renewability; and increase or decrease in the dollar amounts of benefits; and increase or decrease in any elimination period or waiting period from those available during an enrollment period for another policy will not be sufficient to constitute the product being offered as a different product eligible for concurrent or overlapping enrollment periods. ( )

A policy that provides for residual disability benefits may impose a qualification period, during which the insured needs to be continuously totally disabled before residual disability benefits are payable. The qualification period for residual benefits may be longer than the elimination period for total disability. b. For policies other than disability income or specified disease, an individual carrier will not modify a policy with respect to an individual or dependent through riders, endorsements, or otherwise, to restrict or exclude coverage for specifically named preexisting diseases or conditions otherwise covered by the policy. 030. MINIMUM STANDARDS FOR BENEFITS.

01. Minimum Standards. The following minimum standards for benefits are prescribed for the categories of coverage noted in Sections 035 through 040 of this chapter. Such an insurance policy or certificate will not be offered, delivered, issued for delivery, or renewed in this state or to a resident of this state unless it meets the minimum standards for the specified categories or the Director finds that the policies or contracts are allowable as limited benefit health insurance, and the outline of coverage complies with the applicable model outline of coverage for each category of coverage. An insurer will deliver an outline of coverage to an applicant or enrollee with the sale. ( )

02. Renewability. A "noncancellable," "guaranteed renewable," or "noncancellable and guaranteed renewable" policy or certificate will not provide for termination of coverage of the spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than nonpayment of premium. In addition, the policy will provide that in the event of the insured's death, the spouse of the insured, if covered under the policy, will become the insured. ( )

a. The terms "noncancellable," "guaranteed renewable," or "noncancellable and guaranteed renewable" will not be used without further explanatory language in accordance with the disclosure requirements of Section 101 of this chapter. ( )

b. The terms "noncancellable" or "noncancellable and guaranteed renewable" may be used only in a policy that the insured has the right to continue in force by the timely payment of premiums set forth in the policy, during which period the insurer has no right to make unilaterally any change in any provision of the policy while the policy is in force. ( )

c. An individual accident and sickness or individual accident-only policy that provides for periodic payments, weekly or monthly, for a specified period during the continuance of disability resulting from accident or sickness may provide that the insured has the right to continue the policy only to age sixty (60) if, at age sixty (60), the insured has the right to continue the policy in force at least to age sixty-five (65) while actively and regularly employed. ( )

d. Except as provided in Subsection 030.02 of this chapter, (the term "guaranteed renewable" may be used only in a policy that the insured has the right to continue in force by the timely payment of premiums and, until the age of sixty-five (65) or until eligibility for Medicare and to the extent not in conflict with the federal Health Insurance Portability and Accountability Act (HIPAA), during which period the insurer has no right to make unilaterally any change in any provision of the policy while the policy is in force, except where the insurer is able to show good cause for changing the policy provisions and obtains prior written approval from the Director. The insurer may make changes in premium rates by classes. ( )

03. Age and Durational Requirements. In a policy covering both husband and wife, the age of the younger spouse will be used as the basis for meeting the age and durational requirements of the definitions of "noncancellable" or "guaranteed renewable." However, this provision will not mandate termination of coverage of the older spouse upon attainment of the stated age so long as the policy may be continued in force as to the younger spouse as the insured to the age or for the durational period as specified in the policy. ( )

04. Accidental Death and Dismemberment Coverage. When accidental death and dismemberment coverage is part of the policy coverage offered under the contract, the insured will have the option to include all insureds under the coverage. ( )

05. Military Service Limitations. If a policy contains a status-type military service exclusion or a provision that suspends coverage during military service, the policy will provide, upon receipt of written request, for refund of premiums as applicable to the person on a pro rata basis. ( )

06. Pregnancy Benefit Extension. In the event the insurer cancels or refuses to renew, policies providing pregnancy benefits will provide for an extension of benefits as to pregnancy commencing while the policy is in force and for which benefits would have been payable had the policy remained in force. ( )

07. Convalescent or Extended Care Benefits. Policies providing convalescent or extended care benefits following hospitalization will not condition the benefits upon admission to the convalescent or extended care facility within a period of less than fourteen (14) days after discharge from the hospital. ( )

08. Coverage of Dependents. A policy's coverage will continue for a dependent child who is incapable of self-sustaining employment due to intellectual disability or physical disability on the date that the child's coverage would otherwise terminate under the policy due to the attainment of a specified age for children and who is chiefly dependent on the insured for support and maintenance. The policy may stipulate that the company receives due proof of the incapacity within thirty-one (31) days of the date in order for the insured to elect to continue the policy in force with respect to the child, or that a separate converted policy be issued at the option of the insured or policyholder. Provisions relating to coverage of dependents with intellectual disabilities or physical disabilities need meet the requirements of Sections 41-2139 and 41-2203, Idaho Code. ( )

09. Expenses of Live Donor. provision relating to recurrent disabilities will not specify that a recurrent disability be separated by a period greater than six (6) months. ( )

11. Accidental Death and Dismemberment. Accidental death and dismemberment benefits will be payable if the loss occurs within ninety (90) days from the date of the accident, irrespective of total disability. Disability income benefits, if provided, will not require the loss to commence less than thirty (30) days after the date of accident, nor will any policy that the insurer cancels or refuses to renew require that it be in force at the time disability commences if the accident occurred while the coverage was in force. ( )

12. Specific Dismemberment Benefits. Specific dismemberment benefits will not be in lieu of other benefits unless the specific benefit equals or exceeds the other benefits. ( )

13. Extension of Benefits. Termination of the policy will be without prejudice to a continuous loss that commenced while the policy or certificate was in force. Such extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. ( )

14. Fractures or Dislocations. A policy providing coverage for fractures or dislocations will not provide benefits only for "full or complete" fractures or dislocations. ( )

( )

a. Except as provided in Section 025, Premium Rate Schedule Increases, exceptional increases are subject to the same requirements as other premium rate schedule increases. ( )

b. The director may request a review by an independent actuary or a professional actuarial body of the basis for a request that an increase be considered an exceptional increase. ( )

c. The director, in determining that the necessary basis for an exceptional increase exists, will determine any potential offsets to higher claims costs. ( )

02. Incidental. As used in Subsection 025.10, the value of the long-term care benefits provided is less than ten percent (10%) of the total value of the benefits provided over the life of the policy. These values are measured as of the date of issue. ( )

011. POLICY DEFINITIONS.
For the purpose of this rule, no long-term care insurance policy delivered or issued for delivery in this state may use the terms set forth below, unless the terms are defined in the policy. For purposes of determining similar policy forms, long-term care benefit classifications are defined as follows: ( )

( )

01. Renewability. The terms “guaranteed renewable” and “noncancellable” cannot be used in any individual long-term care insurance policy without further explanatory language in accordance with the disclosure requirements of Section 014 of this rule. ( )

a. A policy issued to an individual cannot contain renewal provisions other than “guaranteed renewable” or “noncancellable.” ( )

b. The term “guaranteed renewable” may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums and when the insurer has no unilateral right to

make any change in any provision of the policy or rider while the insurance is in force, and cannot decline to renew, except that rates may be revised by the insurer on a class basis. ( )

c. The term "noncancellable" may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums during which period the insurer has no right to unilaterally make any change in any provision of the insurance or in the premium rate. ( )

d. The term "level premium" may only be used when the insurer does not have the right to change the premium for a specified period for the life of the policy. ( )

e. In addition to the other requirements of Subsection 011.01, a qualified long-term care insurance contract is guaranteed renewable, within the meaning of Section 7702B(b)(1)(C) of the Internal Revenue Code of 1986 as amended. ( )

02. Limitations and Exclusions. A policy cannot be delivered or issued for delivery in this state as long-term care insurance if the policy limits or excludes coverage by type of illness, treatment, medical condition or accident, except as follows: ( )

d. Illness, treatment, or medical condition arising out of: ( )

i. War or act of war (whether declared or undeclared); ( )

i. When the state other than the state of policy issue does not have the provider licensing, certification or registration prescribed in the policy, but where the provider satisfies the policy requirements outlined for providers in lieu of licensure, certification or registration; or ( )

ii When the state other than the state of policy issue licenses, certifies or registers the provider under another name. For purposes of this Subsection 011.02.h. "state of policy issue" means the state in which the individual policy or certificate was originally issued. ( )

iii. Subsection 011.02 is not intended to prohibit territorial limitations. ( )

03. Extension of Benefits. Termination of long-term care insurance is without prejudice to any benefits payable for institutionalization if the institutionalization began while the long-term care insurance was in force and continues without interruption after termination. The extension of benefits beyond the period the long-term care insurance was in force may be limited to the duration of the benefit period, if any, or to payment of the maximum benefits and may be subject to any policy waiting period, and all other applicable provisions of the policy. ( )

04. Continuation or Conversion. ( )

a. Group long-term care insurance issued in this state on or after the effective date of Section 011 provides covered individuals with a basis for continuation or conversion of coverage. ( )

Group policies that restrict provision of benefits and services to, or contain incentives to use certain providers or facilities, may provide continuation benefits that are substantially equivalent to the benefits of the existing group policy. The director makes a determination as to the substantial equivalency of benefits, and in doing so, takes into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity. ( )

c. For the purposes of Section 011, "a basis for conversion of coverage" means a policy provision that an individual whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and any group policy which it replaced) for at least six (6) months immediately prior to termination, is entitled to the issuance of a converted policy by the insurer under whose group policy he or she is covered, without evidence of insurability. ( )

d. For the purposes of Section 011, "converted policy" means an individual policy of long-term care insurance providing benefits identical to or benefits determined by the director to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use certain providers or facilities, the director, in making a determination as to the substantial equivalency of benefits, takes into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity. ( )

e. Written application for the converted policy is made and the first premium due, if any, is paid as directed by the insurer not later than thirty-one (31) days after termination of coverage under the group policy. The converted policy is issued effective on the day following the termination of coverage under the group policy and is renewable annually. ( )

f. Unless the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy is calculated on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy is calculated on the basis of the insured's age at inception of coverage under the group policy replaced. ( )

g. Continuation of coverage or issuance of a converted policy is mandatory, except where: ( )

i. Termination of group coverage resulted from an individual's failure to make any prescribed payment of premium or contribution when due; or ( )

ii. The terminating coverage is replaced not later than thirty-one (31) days after termination, by group coverage effective on the day following the termination of coverage: ( )

(1) Providing benefits identical to or benefits determined by the director to be substantially equivalent to or in excess of those provided by the terminating coverage; and ( )

(2) The premium for which is calculated in a manner consistent with the requirements of Subsection 011.04.f. ( )

h. Notwithstanding any other provision of Section 011, a converted policy issued to an individual who at the time of conversion is covered by another long-term care insurance policy that provides benefits on the basis of incurred expenses, may contain a provision that results in a reduction of benefits payable if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than one hundred percent (100%) of incurred expenses. The provision is only included in the converted policy if the converted policy also provides for a premium decrease or refund which reflects the reduction in benefits payable. ( )

i. The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, cannot exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect. ( )

j. Notwithstanding any other provision of Section 011, an insured individual whose eligibility for group long-term care coverage is based upon the individual's relationship to another person is entitled to continuation of coverage under the group policy upon termination of the qualifying relationship by death or dissolution of marriage. ( )

k. For the purposes of Section 011 a "managed-care plan" is a health care or assisted living arrangement designed to coordinate patient care or control costs through utilization review, case management or use of specific provider networks. ( )

05. Discontinuance and Replacement. If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer offers coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy: ( )

a. Will not result in an exclusion for preexisting conditions that would have been covered under the group policy being replaced; and ( )

b. Cannot vary or depend on the individual's health or disability status, claim experience or use of long-term care services. ( )

06. Premium Changes. ( )

a. The premium charged to an insured cannot increase due to either: ( )

i. The increasing age of the insured at ages beyond sixty-five (65); or ( )

ii. The duration the insured has been covered under the policy. ( )

b. The purchase of additional coverage is not considered a premium rate increase, but for purposes of the calculation prescribed under Section 032, the portion of the premium attributable to the additional coverage is added to and considered part of the initial annual premium. ( )

c. A reduction in benefits is not considered a premium change, but for purpose of the calculation prescribed under Section 032, the initial annual premium is based on the reduced benefits. ( )

07. Electronic Enrollment for Group Policies. ( )

a. In the case of a group defined in Section 41-4603(4)(a), Idaho Code, any requirement that a signature of an insured be obtained by a producer or insurer is satisfied if: ( )

i. The consent is obtained by telephonic or electronic enrollment by the group policyholder or insurer. A verification of enrollment information is provided to the enrollee; ( )

ii. The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure the accuracy, retention, and prompt retrieval of records; and ( )

iii. The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure that the confidentiality of individually identifiable information, "privileged information," is maintained. ( )

b. The insurer makes available, upon request of the director, records that will demonstrate the insurer's ability to confirm enrollment and coverage amounts. ( )

013. UNINTENTIONAL LAPSE.

01. Notice Before Lapse or Termination. Each insurer offering long-term care insurance, as a protection against unintentional lapse, complies with the following: ( )

a. No individual long-term care policy or certificate is issued until the insurer has received from the applicant either a written designation of at least one (1) person, in addition to the applicant, who is to receive notice of lapse or termination of the policy or certificate for nonpayment of premium, or a written waiver dated and signed by the applicant electing not to designate additional persons to receive notice. The applicant has the right to designate at least one (1) person who is to receive the notice of termination, in addition to the insured. Designation cannot constitute acceptance of any liability on the third party for services provided to the insured. The form used for the written designation will provide space clearly designated for listing at least one (1) person. The designation includes each person's full name and home address. In the case of an applicant who elects not to designate an additional person, the waiver states: "Protection against unintended lapse. I understand that I have the right to designate at least one (1) person other than myself to receive notice of lapse or termination of this long-term care insurance policy for nonpayment of premium. I understand that notice will not be given until thirty (30) days after a premium is due and unpaid. I elect NOT to designate a person to receive this notice." The insurer notifies the insured of the right to change this written designation, no less often than once every two (2) years. ( )

b. When the policyholder or certificate holder pays premium for a long-term care insurance policy or certificate through a payroll or pension deduction plan, the requirements contained in Subsection 013.01.a. need not be met until sixty (60) days after the policyholder or certificate holder is no longer on such a payment plan. The application or enrollment form for such policies or certificates clearly indicates the payment plan selected by the applicant. ( )

c. Lapse or termination for nonpayment of premium. No individual long-term care policy or certificate can lapse or be terminated for nonpayment of premium unless the insurer, at least thirty (30) days before the effective date of the lapse or termination, has given notice to the insured and to those persons designated pursuant to Subsection 013.01.a., at the address provided by the insured for purposes of receiving notice of lapse or termination. Notice is given by first class United States mail, postage prepaid; and notice cannot be given until thirty (30) days after a premium is due and unpaid. Notice is deemed to have been given as of five (5) days after the date of mailing. ( )

02. Reinstatement. In addition to the requirement in Subsection 013.01, a long-term care insurance policy or certificate includes a provision that provides for reinstatement of coverage, in the event of lapse if the insurer is provided proof that the policyholder or certificate holder was cognitively impaired or had a loss of functional capacity before the grace period contained in the policy expired. This option is available to the insured if requested within five (5) months after termination and allows for the collection of past due premium, where appropriate. The standard of proof of cognitive impairment or loss of functional capacity cannot be more stringent than the benefit eligibility criteria on cognitive impairment or the loss of functional capacity contained in the policy

and certificate. ( )

014. REQUISITE DISCLOSURE PROVISIONS.

01. Renewability. Individual long-term care insurance policies will contain a renewability provision. ( )

a. The provision is appropriately captioned, appears on the first page of the policy, and clearly states that the coverage is guaranteed renewable or noncancellable. This provision cannot apply to policies that do not contain a renewability provision, and under which the right to nonrenew is reserved solely to the policyholder. ( )

b. A long-term care insurance policy or certificate, other than one where the insurer does not have the right to change the premium, includes a statement that the premium rates may change. ( )

02. Riders and Endorsements. Except for riders or endorsements by which the insurer effectuates a request made in writing by the insured under an individual long-term care insurance policy, all riders or endorsements added to an individual long-term care insurance policy after date of issue or at reinstatement or renewal that reduce or eliminate benefits or coverage in the policy requires signed acceptance by the individual insured. After the date of policy issue, any rider or endorsement that increases benefits or coverage with a concomitant increase in premium during the policy term is agreed to in writing signed by the insured, except if the increased benefits or coverage are prescribed by law. Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, the premium charge is set forth in the policy, rider or endorsement. ( )

03. Payment of Benefits. A long-term care insurance policy that provides for the payment of benefits based on standards described as "usual and customary," "reasonable and customary," or words of similar import includes a definition of these terms and an explanation of the terms in its accompanying outline of coverage. ( )

06. Disclosure of Tax Consequences. With regard to life insurance policies that provide an accelerated benefit for long-term care, a disclosure statement is prescribed at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted that receipt of these accelerated benefits may be taxable, and that assistance should be sought from a personal tax advisor. The disclosure statement is prominently displayed on the first page of the policy or rider and any other related documents. Subsection 014.06 cannot apply to qualified long-term care insurance contracts. ( )

07. Benefit Triggers. Activities of daily living and cognitive impairment is used to measure an insured's need for long-term care and is described in the policy or certificate in a separate paragraph and is labeled "Eligibility for the Payment of Benefits." Any additional benefit triggers need to be explained. If these triggers differ for different benefits, explanation of the trigger accompanies each benefit description. If an attending physician or other specified person needs to certify a certain level of functional dependency to be eligible for benefits, this too needs to be specified. ( )

08. Qualified Contracts. A qualified long-term care insurance contract includes a disclosure statement in the policy and in the outline of coverage as contained in Section 035 that the policy is intended to be a qualified long-term care insurance contract under Section 7702B (b) of the Internal Revenue Code of 1986, as amended. ( )

09. Non-Qualified Contracts. A non-qualified long-term care insurance contract includes a disclosure statement in the policy and in the outline of coverage as contained in Section 035 that the policy is not intended to be a qualified long-term care insurance contract. ( )

10. Requisite Disclosure of Rating Practices to Consumers. ( )

( )

b. Other than policies for which no applicable premium rate or rate schedule increases can be made, insurers provide all of the information listed in Subsection 014.10.b. to the applicant at the time of application or enrollment, unless the method of application does not allow for delivery at that time. In such a case, an insurer provides all information listed in Subsection 014.10.b. to the applicant no later than at the time of delivery of the policy or certificate. ( )

i. A statement that the policy may be subject to rate increases in the future; ( )

ii. An explanation of potential future premium rate revisions, and the policyholder's or certificateholder's option in the event of a premium rate revision; ( )

( )

c. Information regarding each premium rate increase on this policy form or similar forms over the past ten (10) years for this state or any other state that, at a minimum, identifies: ( )

i. The policy forms for which premium rates have been increased; ( )

d. The insurer may, in a fair manner, provide additional explanatory information related to the rate increases. ( )

e. An insurer has the right to exclude from the disclosure premium rate increases that only apply to blocks of business acquired from other nonaffiliated insurers or the long-term care policies acquired from other nonaffiliated insurers when those increases occurred prior to acquisition. ( )

f. If an acquiring insurer files for a rate increase on a long-term care policy form acquired from nonaffiliated insurers or a block of policy forms acquired from nonaffiliated insurers on or before the later of the effective date of Subsection 014.10 or the end of a twenty-four (24) month period following the acquisition of the

block of policies, the acquiring insurer may exclude that rate increase from the disclosure. However, the nonaffiliated selling company includes the disclosure of that rate increase in accordance with Subsection 014.10.c. ( )

g. If the acquiring insurer in Subsection 014.10.f. above files for a subsequent rate increase, even within the twenty-four (24) month period, on the same policy form acquired from nonaffiliated insurers or block of policy forms acquired from insurers referenced in Subsection 014.10.f., the acquiring insurer will make all disclosures prescribed by Subsection 014,10.c., including disclosure of the earlier rate increase referenced in Subsection 014.10.f. ( )

h. An applicant signs an acknowledgment at the time of application, unless the method of application does not allow for signature at that time, that the insurer made the disclosure prescribed under Subsections 014.10.b. and 014.10.c. If because of the method of application the applicant cannot sign an acknowledgment at the time of application, the applicant signs no later than at the time of delivery of the policy or certificate. ( )

If the medications listed in the application were known by the insurer, or should have been known at the time of application, to be directly related to a medical condition for which coverage would be denied, then the policy or certificate cannot be rescinded for that condition. ( )

03. Non-Guaranteed Issue. Except for policies or certificates which are guaranteed issue: ( )

a. The following language is set out conspicuously and in close conjunction with the applicant's signature block on an application for a long-term care insurance policy or certificate: Caution: If your answers on this application are incorrect or untrue, (company) has the right to deny benefits or rescind your policy. ( )

This requirement cannot apply to policies or certificates issued to residents of continuing care retirement communities. ( )

03. Maximum Coverage. Home health care coverage may be applied to the non-home health care benefits provided in the policy or certificate when determining maximum coverage under the terms of the policy or certificate. ( )

017. REQUIREMENT TO OFFER INFLATION PROTECTION.

01. Inflation Protection Offer. No insurer may offer a long-term care insurance policy unless the insurer also offers to the policyholder in addition to any other inflation protection the option to purchase a policy that

provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. Insurers will offer to each policyholder, at the time of purchase, the option to purchase a policy with an inflation protection feature no less favorable than one (1) of the following: ( )

a. Increases benefit levels annually in a manner so that the increases are compounded annually at a rate not less than five percent (5%); ( )

The offer discloses in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant . ( )

07. Rejection of Offer. Inflation protection as provided in Subsection 017.01 is included in a long-term care insurance policy unless an insurer obtains a rejection of inflation protection signed by the policyholder as prescribed in Subsection 017.07. The rejection may be either in the application or on a separate form. The rejection is considered a part of the application and states: "I have reviewed the outline of coverage and the graphs that compare the benefits and premiums of this policy with and without inflation protection. Specifically, I have reviewed Plans _____, and I reject inflation protection (signature line: _____)." ( )

018. REQUIREMENTS FOR APPLICATION FORMS AND REPLACEMENT COVERAGE.

01. Application Forms. Application forms include the following questions designed to elicit information as to whether, as of the date of the application, the applicant has another long-term care insurance policy or certificate in force or whether a long-term care policy or certificate is intended to replace any other accident and sickness or long-term care policy or certificate presently in force. A supplementary application or other form to be signed by the applicant and producer, except where the coverage is sold without a producer, containing the questions may be used. With regard to a replacement policy issued to a group defined by Section 41-4603(a), Idaho Code, the following questions may be modified only to the extent necessary to elicit information about health or long-term care insurance policies other than the group policy being replaced, provided that the certificateholder has been notified of the replacement. One (1) copy of the notice is retained by the applicant and an additional copy signed by the applicant is retained by the insurer. The prescribed notice is in a form based on the NAIC Model Regulation Attachment I. ( )

When long-term care benefits are provided through the acceleration of benefits under group or individual life policies or riders to such policies, policy reserves for the benefits are determined in accordance with Section 41-612, Idaho Code, Standard Valuation Law – Life Insurance. Claim reserves will also be established in the case when the policy or rider is in claim status. ( )

02. Decrement Models. Reserves for policies and riders subject to Section 022 should be based on the multiple decrement model utilizing all relevant decrements except for voluntary termination rates. Single decrement approximations are acceptable if the calculation produces essentially similar reserves, if the reserve is clearly more conservative, or if the reserve is immaterial. The calculations may take into account the reduction in life insurance benefits due to the payment of long-term care benefits. However, in no event can the reserves for the long-term care benefit and the life insurance benefit be less than the reserves for the life insurance benefit assuming no long-term care benefit. ( )

03. Considerations Impacting Projected Claim Costs. Any applicable valuation morbidity table is certified as appropriate as a statutory valuation table by a member of the American Academy of Actuaries. In the development and calculation of reserves for policies and riders subject to Section 022, due regard is given to the applicable policy provisions, marketing methods, administrative procedures and all other considerations which have an impact on projected claim costs, including, but not limited to, the following: ( )

a. Definition of insured events; ( )

b. Covered long-term care facilities; ( )

c. Existence of home convalescence care coverage; ( )

d. Definition of facilities; ( )

e. Existence or absence of barriers to eligibility; ( )

f. Premium waiver provision; ( )

g. Renewability; ( )

h. Ability to raise premiums; ( )

i. Marketing method; ( )

j. Underwriting procedures; ( )

k. Claims adjustment procedures; ( )

l. Waiting period; ( )

m. Maximum benefit; ( )

n. Availability of eligible facilities; ( )

o. Margins in claim costs; ( )

p. Optional nature of benefit; ( )

q. Delay in eligibility for benefit; ( )

r. Inflation protection provisions; and ( )

s. Guaranteed insurability option. ( )

04. Benefits Not Covered in Section 022. When long-term care benefits are provided other than as in Subsection 022.01 above, reserves are determined in accordance with Section 41-608, Idaho Code, "Reserve for Disability Insurance." ( )

023. LOSS RATIO.
Section 023 applies to all (group and individual) long-term care insurance policies or certificates except those covered under Sections 024 and 025 of this chapter. ( )

01. Expected Loss Ratios. Benefits under long-term care insurance policies are reasonable in relation to premiums provided the expected loss ratio is at least sixty percent (60%), calculated in a manner which provides for adequate reserving of the long-term care insurance risk. In evaluating the expected loss ratio, due consideration is given to all relevant factors, including: ( )

a. Statistical credibility of incurred claims experience and earned premiums; ( )

b. The period for which rates are computed to provide coverage; ( )

c. Experienced and projected trends; ( )

d. Concentration of experience within early policy duration; ( )

e. Expected claim fluctuation; ( )

f. Experience refunds, adjustments or dividends; ( )

g. Renewability features; ( )

h. All appropriate expense factors; ( )

i. Interest; ( )

j. Experimental nature of the coverage; ( )

k. Policy reserves; ( )

l. Mix of business by risk classification; and ( )

m. Product features such as long elimination periods, high deductibles and high maximum limits. ( )

02. Policies That Accelerate Benefits. Subsection 023.01 cannot apply to life insurance policies that

accelerate benefits for long-term care. A life insurance policy that funds long-term care benefits entirely by accelerating the death benefit is considered to provide reasonable benefits in relation to premiums paid, if the policy complies with all of the following provisions: ( )

a. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy; ( )

b. The portion of the policy that provides life insurance benefits meets the nonforfeiture requirements of Section 41-1927, Idaho Code, Standard Nonforfeiture Law – Life Insurance. ( )

c. The policy meets the disclosure requirements of Sections 41-4605(9), 41-4605(10), and 41-4605(11), Idaho Code. ( )

i. Any policy illustration that meets the applicable requirements of the NAIC Life Insurance Illustrations Model Regulation. ( )

d. An actuarial memorandum is filed with the insurance department that includes: ( )

i. A description of the basis on which the long-term care rates were determined; ( )

ii. A description of the basis for the reserves; ( )

iii. A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance; ( )

iv. A description and a table of each actuarial assumption used. For expenses, an insurer will include percent of premium dollars per policy and dollars per unit of benefits, if any; ( )

v. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives; ( )

vi. The estimated average annual premium per policy and the average issue age; ( )

vii. A statement as to whether underwriting is performed at the time of application. The statement indicates whether underwriting is used and, if used, the statement includes a description of the type or types of underwriting used, such as medical underwriting or functional assessment underwriting. Concerning a group policy, the statement indicates whether the enrollee or any dependent will be underwritten and when underwriting occurs; and ( )

viii. A description of the effect of the long-term care policy provision on the prescribed premiums, nonforfeiture values and reserves on the underlying life insurance policy, both for active lives and those in long-term care claim status. ( )

024. FILING REQUIREMENT.

Prior to an insurer or similar organization offering group long-term care insurance to a resident of this state pursuant to Section 41-4604, Idaho Code, Extraterritorial Jurisdiction – Group Long-Term Care Insurance, it files with the director evidence that the group policy or certificate thereunder has been approved by a state having statutory or regulatory long-term care insurance requirements substantially similar to those adopted in this state. ( )

01. Initial Filing Requirements. ( )

a. Subsection 024.01 applies to any long-term care policy issued in this state on or after July 1, 2001. ( )

b. An insurer will provide the information listed in Subsection 024.01 to the director thirty (30) days prior to making the long-term care insurance form available for sale. ( )

c. A copy of the disclosure documents prescribed in Section 014. ( )

d. An actuarial certification consisting of at least the following: ( )

i. A statement that the initial premium rate schedule is sufficient to cover anticipated costs under moderately adverse experience and that the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated; ( )

ii. A statement that the policy design and coverage provided have been reviewed and taken into consideration; ( )

iii. A statement that the underwriting and claims adjudication processes have been reviewed and taken into consideration. ( )

e. A complete description of the basis for contract reserves that are anticipated to be held under the form, to include: ( )

i. Sufficient detail or sample calculations provided so as to have a complete depiction of the reserve amounts to be held; ( )

ii. A statement that the assumptions used for reserves contain reasonable margins for adverse experience; ( )

iii. A statement that the net valuation premium for renewal years does not increase (except for attained-age rating where permitted; and ( )

iv. A statement that the difference between the gross premium and the net valuation premium for renewal years is sufficient to cover expected renewal expenses; or if such a statement cannot be made, a complete description of the situations where this does not occur; ( )

v. An aggregate distribution of anticipated issues may be used as long as the underlying gross premiums maintain a reasonably consistent relationship; ( )

vi. If the gross premiums for certain age groups appear to be inconsistent with this requirement, the director may request a demonstration under Subsection 024.02 based on a standard age distribution; and ( )

vii. A statement that the premium rate schedule is not less than the premium rate schedule for existing similar policy forms also available from the insurer except for reasonable differences attributable to benefits; or, ( )

viii. A comparison of the premium schedules for similar policy forms that are currently available from the insurer with an explanation of the differences. ( )

02. Actuarial Demonstration. The director may request an actuarial demonstration that benefits are reasonable in relation to premiums. The actuarial demonstration includes either premium and claim experience on similar policy forms, adjusted for any premium or benefit differences, relevant and credible data from other studies, or both. ( )

a. In the event the director requests additional information under this provision, the period referred to in Subsection 024.01.b. of this section does not include the period of time during which the insurer is preparing the requested information. ( )

025. PREMIUM RATE SCHEDULE INCREASES.

01. Premium Rate Increase Notice. An insurer provides notice of a pending premium rate schedule increase, including an exceptional increase, to the director at least thirty (30) days prior to the notice to the

policyholders and includes: ( )

a. Information prescribed by Section 014. ( )

b. Certification by a qualified actuary that: ( )

i. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated; and ( )

ii. The premium rate filing is in compliance with the provisions of this Section 025. ( )

02. Actuarial Memorandum. The actuarial memorandum justifying the rate schedule change request includes: ( )

a. Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase; and the method of assumptions used in determining the projected values, including reflection of any assumptions that deviate from those used for pricing other forms currently available for sale: ( )

i. Annual values for the past five (5) years preceding and the three (3) years following the valuation date are provided separately; ( )

ii. The projections include the development of the lifetime loss ratio, unless the rate of increase is an exceptional increase; ( )

iii. The projections demonstrate compliance with Subsection 025.03; and ( )

iv. For exceptional increases; ( )

(1) The projected experience should be limited to the increases in claims expenses attributable to the approved reasons for the exceptional increase; and ( )

(2) In the event the director determines as provided in Subsection 010.09.c. that offsets may exist, the insurer uses appropriate net projected experience. ( )

b. Disclosure of how reserves have been incorporated in this rate increase will trigger contingent benefit upon lapse. ( )

c. Disclosure of the analysis performed to determine why a rate adjustment is necessary, which pricing assumptions were not realized and why, and what other actions taken by the company have been relied on by the actuary. ( )

d. A statement that policy design, underwriting and claims adjudication practices have been taken into consideration; and in the event that it is necessary to maintain consistent premium rates for new certificates and certificates receiving a rate increase, the insurer will need to file composite rates reflecting projections of new certificates. ( )

e. A statement that renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits, unless sufficient justification is provided to the director; and sufficient information for review of the premium rate schedule increase by the director. ( )

03. Premium Rate Schedule Increases. All premium rate schedule increases are determined in accordance with the following requirements: ( )

a. Exceptional increases provide that seventy percent (70%) of the present value of projected additional premiums from the exceptional increase will be returned to policyholders in benefits. ( )

b. Premium rate schedule increases are calculated such that the sum of the accumulated value of incurred claims, without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following: ( )

i. The accumulated value of the initial earned premium times fifty eight percent (58%); ( )

ii. Eighty-five percent (85%) of the accumulated value of prior premium rate schedule increases on an earned basis; ( )

iii. The present value of future projected initial earned premiums times fifty-eight percent (58%); and ( )

iv. Eighty-five percent (85%) of the present value of future projected premiums not in Subsection 025.03.b.iii. on an earned basis. ( )

c. In the event that a policy form has both exceptional and other increases, the values in Subsections 025.03.b.ii. and 025.03.b.iv., will also include seventy percent (70%) for exceptional rate increase amounts. ( )

d. All present and accumulated values used to determine rate increases use the maximum valuation interest rate for contract reserves. The actuary discloses as part of the actuarial memorandum the use of any appropriate averages. ( )

04. Projections Filed for Review. For each rate increase that is implemented, the insurer files for review by the director updated projections, as defined in Subsection 025.02.a., annually for the following three (3) years and include a comparison of actual results to projected values. The director may extend the period to greater than three (3) years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in Subsection 025.13, the projections prescribed by this Subsection 025.04 are provided to the policyholder in lieu of filing with the director. ( )

05. Revised Premium Rate. If any premium rate in the revised premium rate schedule is greater than 200 percent (200%) of the comparable rate in the initial premium schedule, lifetime projections, as defined in Subsection 025.02.a., are filed for review by the director every five (5) years following the end of the prescribed period in Subsection 025.04. For group insurance policies that meet the conditions in Subsection 025.13, the projections prescribed by Subsection 025.05 are provided to the policyholder in lieu of filing with the director. ( )

06. Actual and Projected Experience. If the director has determined that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of the premium specified in Subsection 025.03, the director may require the insurer to implement any of the following: ( )

a. Premium rate schedule adjustments; or ( )

i. Other measures to reduce the difference between the projected and actual experience. ( )

b. In determining whether the actual experience adequately matches the projected experience, consideration should be given to Subsection 025.02.d. and 025.02.e., if applicable. ( )

07. Contingent Benefit upon Lapse. If the majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse, the insurer files: ( )

a. A plan, subject to director approval, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect. If the director should determine that such appropriate administration and claims processing functions have not been addressed, provisions of Subsection 025.08 may be applied; and ( )

b. The original anticipated lifetime loss ratio, and the premium rate schedule increase that would have been calculated according to Subsection 025.03 had the greater of the original anticipated lifetime loss ratio or fifty-eight percent (58%) been used in the calculations described in Subsections 025.03.b.i. and 025.03.b.iii. ( )

08. Additional Rate Increase Filings. For a rate increase filing that meets the following criteria, the director reviews, for all policies included in the filing, the projected lapse rates and past lapse rates during the twelve (12) months following each increase to determine if significant adverse lapse has occurred or is anticipated: ( )

a. The rate increase is not the first rate increase requested for the specific policy form or forms; ( )

b. The rate increase is not an exceptional increase; and ( )

c. The majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse. ( )

d. In the event significant adverse lapse has occurred, is anticipated in the filing or is evidenced in the actual results as presented in the updated projections provided by the insurer following the requested rate increase, the director may determine that a rate spiral exists. Following the determination that a rate spiral exists, the director may require the insurer to offer, without underwriting, to all in force insureds subject to the rate increase option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The offer will; ( )

i. Be subject to the approval of the director; ( )

ii. Be based on actuarially sound principles, but not be based on attained age; and ( )

iii. Provide that the maximum benefits under any new policy accepted by an insured is reduced by comparable benefits already paid under the existing policy. ( )

e. The insurer maintains the experience of all the replacement insureds separate from the experience of insureds originally issued the policy forms. In the event of a request for a rate increase on the policy form, the rate increase is limited to the lesser of: ( )

i. The maximum rate increase determined based on the combined experience; and ( )

ii. The maximum rate increase determined based only on the experience of the insureds originally issued the form plus ten percent (10%). ( )

09. Persistent Practice of Inadequate Rate Filings. If the director determines that the insurer has exhibited a persistent practice of filing inadequate initial premium rates for long-term care insurance, the director may, in addition to the provisions of Subsection 025.08 of this section, prohibit the insurer from either of the following: ( )

a. Filing and marketing comparable coverage for a period of up to five (5) years; or ( )

b. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases. ( )

10. Exceptions. Subsection 025.01 and 025.09 does not apply to policies for which the long-term care benefits provided by the policy are incidental, as defined in Subsection 010.12, if the policy complies with all of the following provisions: ( )

a. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without

long-term care set forth in the policy; ( )

b. The portion of the policy that provides insurance benefits other than long-term care coverage meets the nonforfeiture requirements as applicable in any of the following: ( )

i. Section 41-1927, Idaho Code, Standard Nonforfeiture Law-Life Insurance; ( )

ii. Section 41-1927A, Idaho Code, Standard Nonforfeiture Law for Individual Deferred Annuities; ( )

iii. IDAPA 18.03.03, Subsection 018.02, "Variable Contracts." ( )

11. Exceptions for Disclosure and Performance Standards. The policy meets the disclosure requirements of Sections 41-4605(9), 41-4605(10) and 41-4605(11), Idaho Code, pertaining to the Disclosure and Performance Standards for Long-term Care Coverage. ( )

12. Exception If Actuarial Memorandum Filed Which Includes Defined Information. An actuarial memorandum is filed with the Department of Insurance that includes: ( )

a. A description of the basis on which the long-term care rates were determined; ( )

b. A description of the basis for the reserves; ( )

c. A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance; ( )

d. A description and a table of each actuarial assumption used. For expenses, an insurer will include percent of premium dollars per policy and dollars per unit of benefits, if any; ( )

e. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives; ( )

f. The estimated average annual premium per policy and the average issue age; ( )

g. A statement as to whether underwriting is performed at the time of application. The statement indicates whether underwriting is used and, if used, the statement includes a description of the type or types of underwriting used, such as medical underwriting or functional assessment underwriting. Concerning a group policy, the statement indicates whether the enrollee or any dependent will be underwritten and when underwriting occurs; and ( )

h. A description of the effect of the long-term care policy provision on the prescribed premiums, nonforfeiture values and reserves on the underlying insurance policy, both for active lives and those in long-term care claims status. ( )

13. Exceptions for Association Plans. Premium Rate Schedule Increases Subsections 025.06 and 025.08 cannot apply to group insurance policies as defined in Section 41-4603(4)(a), Idaho Code, where: ( )

a. The policies insure two hundred fifty (250) or more persons and the policyholder has five thousand (5,000) or more eligible employees of a single employer; or ( )

b. The policyholder, and not the certificateholders, pay a material portion of the premium, which cannot be less than twenty percent (20%) of the total premium for the group in the calendar year prior to the year a rate increase is filed. ( )

026. FILING REQUIREMENTS FOR ADVERTISING.

01. Filing and Retention. Every Insurer, Fraternal Benefit Society, Managed Care Organization, or

other similar organization providing long-term care insurance or benefits in this state provides a copy of any long-term care insurance advertisement intended for use in this state whether through written, radio, or television medium to the Director of Insurance of this state for review and approval by the Director. In addition, all advertisements are retained by the insurer or other entity for at least five (5) years from the date the advertisement was first used; or until the filing of the next regular report of examination of the insurer, whichever is the longer period of time. ( )

02. Exemptions. The director may exempt from these requirements any advertising form or material when, in the director's opinion, this requirement cannot be reasonably applied. ( )

027. STANDARDS FOR MARKETING AND PRODUCER TRAINING.

01. General Provisions. Every Insurer, Fraternal Benefit Society, Managed Care Organization or other similar organization marketing long-term care insurance coverage in this state, directly or through its producers, will: ( )

f. Inquire and make every reasonable effort to identify whether a prospective applicant or enrollee for long-term care insurance already has accident and sickness or long-term care insurance and the types and amounts of any such insurance, except that in the case of qualified long-term care insurance contracts, an inquiry into whether a prospective applicant or enrollee for long-term care insurance has accident and sickness insurance is not prescribed. ( )

g. Establish auditable procedures for verifying compliance with Subsection 027.01. ( )

h. At solicitation, provide written notice to the prospective policyholder and certificateholder that Senior Health Insurance Benefits Advisors/SHIBA the program is available and the name, address and telephone number of the program. ( )

i. For long-term care insurance policies and certificates, use the terms "noncancellable" or "level premium" only when the policy or certificate conforms to Subsection 011.01.c. of this chapter. ( )

02. Banned Practices. In addition to the practices banned in Title 41, Chapter 13, Idaho Code, Trade Practices and Frauds, the following acts and practices are banned: ( )

d. Misrepresentation. Misrepresenting a material fact in selling or offering to sell a long-term care insurance policy. ( )

03. Associations. With respect to the obligations set forth in Subsection 027.03, the primary responsibility of an association, as defined in Section 41-4603(4)(b), Idaho Code, when endorsing or selling long-term care insurance is to educate its members concerning long-term care issues in general so that its members can make informed decisions. Associations provide objective information regarding long-term care insurance policies or certificates endorsed or sold by such associations to ensure that members of such associations receive a balanced and complete explanation of the features in the policies or certificates that are being endorsed or sold. ( )

a. The insurer files with the insurance department the following material: ( )

ii. A corresponding outline of coverage; and ( )

iii. All advertisements to be utilized. ( )

b. The association discloses in any long-term care insurance solicitation: ( )

i. The specific nature and amount of the compensation arrangements (including all fees, commissions, administrative fees and other forms of financial support) that the association receives from endorsement or sale of the policy or certificate to its members; and ( )

e. The association also will: ( )

i. At the time of the association's decision to endorse, engage the services of a person with expertise in long-term care insurance not affiliated with the insurer to conduct an examination of the policies, including its benefits, features, and rates, and update the examination thereafter in the event of material change; ( )

ii. Actively monitor the marketing efforts of the insurer and its producers; and ( )

iii. Review and approve all marketing materials or other insurance communications used to promote sales or sent to members regarding the policies or certificates. ( )

iv. Subsections 027.03.e.i. through 027.03.e.iii. cannot apply to qualified long-term care insurance contracts. ( )

f. No group long-term care insurance policy or certificate may be issued to an association unless the insurer files with the state insurance department the information prescribed in Section 027. ( )

g. The insurer cannot issue a long-term care policy or certificate to an association or continue to market such a policy or certificate unless the insurer certifies annually that the association has complied with the requirements set forth in Section 027. ( )

h. Failure to comply with the filing and certification requirements of Section 027 constitutes an unfair trade practice in violation of Title 41, Chapter 13, Idaho Code, Trade Practices and Frauds. ( )

04. Producer Training Requirements. An insurer maintains records with respect to the training of its producers concerning the distribution of its long-term care Partnership policies that will allow the Department of Insurance to provide assurance to the Division of Medicaid that the producers have received the training as prescribed by Subsection 027.04 and that producers have demonstrated an understanding of the Partnership policies and their relationship to public and private coverage of long-term care including Medicaid in this state. These records are maintained in accordance with the state's record retention requirements and made available to the director upon request. ( )

e. The satisfaction of these training requirements in any state satisfy the training requirements of this state. ( )

b. Train its producers in the use of its suitability standards; and ( )

c. Maintain a copy of its suitability standards and make them available for inspection upon request by the director. ( )

03. Determination of Standards. To determine whether the applicant meets the standards developed by the issuer; ( )

a. The producer and issuer develop procedures that take the following into consideration: ( )

i. The ability to pay for the proposed coverage and other pertinent financial information related to the purchase of the coverage; ( )

ii. The applicant's goals or needs with respect to long-term care and the advantages and disadvantages of insurance to meet these goals or needs; and ( )

The efforts include presentation to the applicant, at or prior to application, the "Long-Term Care Insurance Personal Worksheet." The personal worksheet used by the issuer contains, at a minimum, the information in the format contained in the NAIC Model Regulations in Appendix B, in not less than twelve (12) point type. The issuer may request the applicant to provide additional information to comply with its suitability standards. A copy of the issuer's personal worksheet is filed with the director. ( )

i. Copies of NAIC Model Regulations for Long-Term Care Insurance Minimum Standards Appendixes B, C, and D can be found at the Idaho Department of Insurance website. ( )

c. A completed personal worksheet is returned to the issuer prior to the issuer's consideration of the applicant for coverage, except the personal worksheet need not be returned for sales of employer group long-term care insurance to employees and their spouses. ( )

d. The sale or dissemination outside the company or agency by the issuer or producer of information obtained through the personal worksheet in the NAIC Model Regulations, Appendix B is banned. ( )

05. Use of Standards. Producers use the suitability standards developed by the issuer in marketing long-term care insurance. ( )

06. Disclosure Form. At the same time as the personal worksheet is provided to the applicant, the disclosure form entitled "Things You Should Know Before You Buy Long-Term Care Insurance" is provided. The form is in the format contained in the NAIC Model Regulations, Appendix C, in not less than twelve (12) point type. ( )

07. Rejection and Alternatives. If the issuer determines that the applicant does not meet its financial suitability standards, or if the applicant has declined to provide the information, the issuer may reject the application. In the alternative, the issuer sends the applicant a letter similar to the NAIC Model Regulations, Appendix D. However, if the applicant has declined to provide financial information, the issuer may use some other method to

verify the applicant's intent. Either the applicant's returned letter or a record of the alternative method of verification is made part of the applicant's file. ( )

08. Reporting. The issuer reports annually to the director the total number of applications received from residents of this state, the number of those who declined to provide information on the personal worksheet, the number of applicants who did not meet the suitability standards, and the number of those who chose to confirm after receiving a suitability letter. ( )

029. PROHIBITION AGAINST PREEXISTING CONDITIONS AND PROBATIONARY PERIODS IN REPLACEMENT POLICIES OR CERTIFICATES.

If a long-term care insurance policy or certificate replaces another long-term care policy or certificate, the replacing insurer waives any time periods applicable to preexisting conditions and probationary periods in the new long-term care policy for similar benefits to the extent that similar exclusions have been satisfied under the original policy. ( )

030. AVAILABILITY OF NEW SERVICES OR PROVIDERS.

01. Notification to Policyholder. An insurer notifies the policyholder of the availability of a new long-term care policy that provides coverage for new long-term care services or providers material in nature and not previously available through the insurer to the general public. The notice is provided within twelve (12) months of the date the new policy is made available for sale in this state. ( )

02. Exceptions to Notification Requirements. Notwithstanding Subsection 030.01, notification is not prescribed for any policy issued prior to the effective date of this Section 030 or to any policyholder who is currently eligible for benefits, within an elimination period or on claim, or who previously has been in claim status, or who would not be eligible to apply for coverage due to issue age limitations under the new policy. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the prescribed premium to add such new services or providers. ( )

03. New Coverage. The insurer makes the new coverage available in one of the following ways: ( )

a. By adding a rider to the existing policy and charging a separate premium for the new rider based on the insured's attained age; ( )

b. By exchanging the existing policy or certificate for one with an issue age based on the present age of the insured and recognizing past insured status by granting premium credits toward the premiums for the new policy or certificate. The premium credits are based on premiums paid or reserves held for the prior policy or certificate. ( )

c. By exchanging the existing policy or certificate for a new policy or certificate in which consideration for past insured status is recognized by setting the premium for the new policy or certificate at the issue age of the policy or certificate being exchanged. The cost of the new policy or certificate may recognize the difference in reserves between the new policy or certificate and the original policy or certificate; or ( )

d. By an alternative program developed by the insurer that meets the intent of Section 030 if the program is filed with and approved by the Director. ( )

04. Proprietary Policy. An insurer is not prescribed to notify policyholders of a new proprietary policy created and filed for use in a limited distribution channel. For purposes of this Subsection 030.04, "limited distribution channel" means through a discrete entity, such as a financial institution or brokerage, for which specialized products are available that are not available for sale to the general public. Policyholders that purchased such a proprietary policy are notified when a new long-term care policy that provides coverage for new long-term care services or providers material in nature is made available to that limited distribution channel. ( )

05. Exchanges and Not Replacements. Policies issued pursuant to this Section 030 are considered exchanges and not replacements. These exchanges are not subject to Section 018, and Section 028, and the reporting

requirements of Section 019.01. through 019.05. of this rule. ( )

06. Employer Sponsored Plan. Where the policy is offered through an employer, labor organization, professional, trade or occupational association, the prescribed notification in Subsection 030.01 is made to the offering entity. However, if the policy is issued to a group defined in Section 41-4603 (04) (d), Idaho Code, Long Term Care Insurance Act, the notification is made to each certificateholder. ( )

07. Nothing Prohibits an Insurer From Offering Coverage. Nothing in this Section 030 prohibits an insurer from offering any policy, rider, certificate or coverage change to any policyholder or certificate-holder. However, upon request any policyholder may apply for currently available coverage that includes the new services or providers. The insurer may require that policyholders meet eligibility requirements, including underwriting and payment of the prescribed premium to add such new services or providers. ( )

08. Not Applicable to Life Insurance Policies. This Section 030 does not apply to life insurance policies or riders containing accelerated long-term care benefits. ( )

031. RIGHT TO REDUCE COVERAGE AND LOWER PREMIUMS.

01. Reduction of Coverage. Every long-term care insurance policy and certificate includes a provision that allows the policyholder or certificateholder to reduce coverage and lower the policy or certificate premium in at least one of the following ways: ( )

a. Reducing the maximum benefit; or ( )

b. Reducing the daily, weekly or monthly benefit amount. ( )

c. The insurer may also offer other reduction options that are consistent with the policy or certificate design or the carrier's administrative processes. ( )

02. Implementing a Reduction in Coverage. The provision includes a description of the ways in which coverage may be reduced and the process for requesting and implementing a reduction in coverage. ( )

03. Determination of Premium for Reduced Coverage. The age to determine the premium for the reduced coverage is based on the age used to determine the premiums for the coverage currently in force. ( )

04. Limitations for the Reduction of Coverage. The insurer may limit any reduction in coverage to plans or options available for that policy form and to those for which benefits will be available after consideration of claims paid or payable. ( )

05. Notification in Regard to the Possible Lapse of Policy. If a policy or certificate is about to lapse, the insurer provides a written reminder to the policyholder or certificateholder of their right to reduce coverage and premiums in the notice prescribed by Subsection 013.01.c. of this rule. ( )

06. Not Applicable to Life Insurance Policies or Riders Containing Accelerated Benefits. This Section 031 does not apply to life insurance policies or riders containing accelerated long-term care benefits. ( )

07. Compliance Requirements. The requirements of this Section 031 apply to any long-term care policy issued in this state on or after November 1, 2007. Compliance with this Section 031 may be accomplished by policy replacement, exchange or by adding the prescribed provision via amendment or endorsement to the policy. ( )

032. NONFORFEITURE BENEFIT REQUIREMENT.

01. Life Insurance Policies That Accelerate Benefits. Section 032 does not apply to life insurance policies or riders containing accelerated long-term care benefits. ( )

02. Nonforfeiture Benefits. To comply with the requirement to offer a nonforfeiture benefit pursuant

to the provisions of Section 41-4607, Idaho Code, every Insurer, Fraternal Benefit Society, Managed Care Organization, or other similar organization marketing long-term care insurance coverage in this state satisfies the following: ( )

a. A policy or certificate offered with nonforfeiture benefits will have coverage elements, eligibility, benefit triggers and benefit length that are the same as coverage to be issued without nonforfeiture benefits. The nonforfeiture benefit included in the offer is the benefit described in Subsection 032.04.e. ( )

b. The offer is in writing if the nonforfeiture benefit is not described in the Outline of Coverage or other materials given to the prospective policyholder. ( )

03. Contingent Benefit. If the offer prescribed under Section 41-4607, Idaho Code, is rejected, the insurer provides the contingent benefit upon lapse described in Section 032. Even if this offer is accepted for a policy with a fixed or limited premium paying period, the contingent benefit on lapse in Subsection 032.04.b.i. still applies. ( )

04. Rejection of Offer. After rejection of the offer prescribed under Section 41-4607, Idaho Code, as it pertains to nonforfeiture benefits, for individual and group policies without nonforfeiture benefits issued after the effective date of Section 032, the insurer provides a contingent benefit upon lapse. ( )

a. In the event a group policyholder elects to make the nonforfeiture benefit an option to the certificate holder, a certificate provides either the nonforfeiture benefit or the contingent benefit upon lapse. ( )

b. A contingent benefit on lapse is triggered every time an insurer increases the premium rates to a level which results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth within Subsection 032.04 based on the insured's issue age, and the policy or certificate lapses within one hundred twenty (120) days of the due date of the premium so increased. Unless otherwise prescribed, policyholders are notified at least thirty (30) days prior to the due date of the premium reflecting the rate increase.

i. A contingent benefit on lapse is also triggered for policies with a fixed or limited premium paying period every time an insurer increases the premium rates to a level that results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth below based on the insured's issue age, the policy or certificate lapses within one hundred twenty (120) days of the due date of the premium so increased, and the ratio in Subsection 032.04.d.ii. is forty percent (40%) or more. Unless otherwise prescribed, policyholders are notified at least thirty (30) days prior to the due date of the premium reflecting the rate increase.

Triggers For A Substantial Premium Increase

Issue Age	Percent Increase Over Initial Premium
Under 65	50%
65-80	30%
Over 80	10%

This provision is in addition to the contingent benefit provided by Subsection 032.04.b. and where both are triggered, the benefit provided is at the option of the insured. ( )

c. On or before the effective date of a substantial premium increase as defined in Subsection 032.04.b., the insurer: ( )

i. Offers to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that premium payments are not increased; ( )

ii. Offers to convert the coverage to a paid-up status with a shortened benefit period in accordance with the terms of Subsection 032.04.e. This option may be elected at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.; and ( )

iii. Notifies the policyholder or certificate holder that a default or lapse at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b. is the election of the offer to convert in Subsection 032.04.c.ii. unless the automatic option in Subsection 032.04.d.iii. applies. ( )

d. On or before the effective date of a substantial premium increase as defined in Subsection 032.04.b.i., the insurer: ( )

i. Offers to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that premium payments are not increased; ( )

ii. Offers to convert the coverage to a paid-up status where the amount payable for each benefit is ninety percent (90%) of the amount payable in effect immediately prior to lapse times the ratio of the number of completed months of paid premiums divided by the number of months in the premium paying period. This option may be elected at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.i.; and ( )

iii. Notifies the policyholder or certificateholder that a default or lapse at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.i. is the election of the offer to convert in Subsection 032.04.d.ii. above if the ratio is forty percent (40%) or more. ( )

e. Benefits continued as nonforfeiture benefits, including contingent benefits upon lapse, in accordance with Subsection 032.04.b. but not Subsection 032.04.b.i. are described in Subsection 032.04.e. ( )

i. For purposes of this Subsection 032.04.e., attained age rating is defined as a schedule of premiums starting from the issue date which increases age at least one percent (1%) per year prior to age fifty (50), and at least three percent (3%) per year beyond age fifty (50); ( )

ii. For purposes of Subsection 032.04.e., the nonforfeiture benefit is of a shortened benefit period providing paid-up long-term care insurance coverage after lapse. The same benefits (amounts and frequency in effect at the time of lapse but not increased thereafter) will be payable for a qualifying claim, but the lifetime maximum dollars or days of benefits are determined as specified in Subsection 032.04.e.iii.; ( )

iii. The standard nonforfeiture credit will be equal to one hundred percent (100%) of the sum of all premiums paid, including the premiums paid prior to any changes in benefits. The insurer may offer additional

shortened benefit period options, as long as the benefits for each duration equal or exceed the standard nonforfeiture credit for that duration. However, the minimum nonforfeiture credit cannot be less than thirty (30) times the daily nursing home benefit at the time of lapse. In either event, the calculation of the nonforfeiture credit is subject to the limitation of Subsection 032.04.f.; ( )

iv. The nonforfeiture benefit begins not later than the end of the third year following the policy or certificate issue date. The contingent benefit upon lapse is effective during the first three (3) years as well as thereafter. ( )

v. Notwithstanding Subsection 032.04.e.iv. for a policy or certificate with attained age rating, the nonforfeiture benefit begins on the earlier of: ( )

(1) The end of the tenth year following the policy or certificate issue date; or ( )

(2) The end of the second year following the date the policy or certificate is no longer subject to attained age rating. ( )

vi. Nonforfeiture credits may be used for all care and services qualifying for benefits under the terms of the policy or certificate, up to the limits specified in the policy or certificate. ( )

f. All benefits paid by the insurer while the policy or certificate is in premium paying status and in the paid-up status will not exceed the maximum benefits which would be payable if the policy or certificate had remained in premium paying status. ( )

g. There is no difference in the minimum nonforfeiture benefits as prescribed under Section 032 for group and individual policies. ( )

h. For certificates issued on or after the effective date of this Section 032, under a group long-term care insurance policy as defined in Section 41-4603(4)(a), Idaho Code, which policy was in force at the time this rule became effective, the provisions of Section 032 cannot apply. ( )

i. The last sentence Subsection 032.03 and Subsection 032.04.b. and Subsection 032.04.d. applies to any long-term care insurance policy defined in Section 41-4603(4)(a), Idaho Code one (1) year after adoption. ( )

i. Premiums charged for a policy or certificate containing nonforfeiture benefits or a contingent benefit on lapse are subject to the loss ratio requirements of Section 023 or Section 025, whichever is applicable, treating the policy as a whole. ( )

j. To determine whether contingent nonforfeiture upon lapse provisions are triggered under Subsection 032.04.b. or 032.04.b.i., a replacing insurer that purchased or assumed a block or blocks of long-term care insurance policies from another insurer calculates the percentage increase based on the initial annual premium paid by the insured when the policy was first purchased from the original insurer. ( )

k. A nonforfeiture benefit for qualified long-term care insurance contracts that are level premium contracts is offered that meets the following requirements: ( )

i. The nonforfeiture provision is appropriately captioned; ( )

ii. The nonforfeiture provision provides a benefit available in the event of a default on the payment of any premiums and states that the amount of the benefit may be adjusted subsequent to being initially granted only as necessary to reflect changes in claims, persistency and interest as reflected in changes in rates for premium paying contracts filed for review with the Director for the same contract form; and ( )

iii. The nonforfeiture provision provides at least one (1) of the following: ( )

(1) Reduced paid-up insurance; ( )

(2) Extended term insurance; ( )

(3) Shortened benefit period; or ( )

(4) Other similar offerings approved by the Director. ( )

033. STANDARDS FOR BENEFIT TRIGGERS.

01. Conditions of Benefits Payment. A long-term care insurance policy conditions the payment of benefits on a determination of the insured's ability to perform activities of daily living and on cognitive impairment. Eligibility for the payment of benefits is not more restrictive than requiring either a deficiency in the ability to perform not more than three (3) of the activities of daily living or the presence of cognitive impairment. ( )

02. Activities of Daily Living. Insurers may use activities of daily living to trigger covered benefits in addition to those contained in Subsection 033.02 as long as they are defined in the policy. Activities of daily living includes at least the following as defined in Section 010 and in the policy. ( )

a. Bathing; ( )

b. Continence; ( )

c. Dressing; ( )

d. Eating; ( )

e. Toileting; and ( )

f. Transferring. ( )

03. Additional Provisions. An insurer may use additional provisions for the determination of when benefits are payable under a policy or certificate; however the provisions cannot restrict, and are not in lieu of, the requirements contained in Subsections 033.01 and 033.02. ( )

04. Determinations of Deficiency. For purposes of Section 033 the determination of a deficiency cannot be more restrictive than: ( )

a. Requiring the hands-on assistance of another person to perform the prescribed activities of daily living; or ( )

b. If the deficiency is due to the presence of a cognitive impairment, supervision or verbal cueing by another person is needed to protect the insured or others. ( )

05. Assessments. Assessments of activities of daily living and cognitive impairment are performed by licensed or certified professionals, such as physicians, nurses or social workers. ( )

06. Appeals. Long-term care insurance policies include a clear description of the process for appealing and resolving benefit determinations. ( )

07. Effective Date. The requirements set forth in Section 033 are effective within twelve (12) months of the effective date of the rule and apply as follows: ( )

a. Except as provided in Subsection 033.07.b. the provisions of Section 033 apply to a long-term care policy issued in this state on or after the effective date of the rule. ( )

b. For certificates issued on or after the effective date of Section 033, under a group long-term care insurance policy as defined in Section 41-4603(4)(a), Idaho Code, which was in force at the time this rule became

effective, the provisions of Section 033 do not apply. ( )

034. ADDITIONAL STANDARDS FOR BENEFIT TRIGGERS FOR QUALIFIED LONG-TERM CARE INSURANCE CONTRACTS.

( )

06. Appeals. Qualified long-term care contracts include a clear description of the process for appealing

notifies the employer that the protections provided under the Act and this chapter cease to apply to the employer if such employer fails to renew its current health benefit plan or elects to enroll in a different health benefit plan. ( )

05. Employer Subsequently Becomes a Small Employer. If a health benefit plan is issued to an employer that is not a small employer as defined in the Act, but subsequently the employer becomes a small employer (due to the loss or change of work status of one or more employees), the terms of the Act do not apply to the health benefit plan. The carrier providing a health benefit plan to such an employer does not become a small employer carrier under the terms of the Act solely because the carrier continues to provide coverage under the health benefit plan to the employer. ( )

06. Time Period for Notification of Options to Employer. A carrier providing coverage to an employer described in Subsection 015.05, within sixty (60) days of becoming aware that the employer has fifty (50) or fewer eligible employees, notifies the employer of the options and protections available to the employer under the Act, including the employer's option to purchase a small employer health benefit plan from any small employer carrier. ( )

07. Employees in More Than One State. If a small employer has employees in more than one (1) state, the provisions of the Act and this chapter apply to a health benefit plan issued to the small employer if: ( )

a. The majority of eligible employees of such small employer are employed in this state; or ( )

b. If no state contains a majority of the eligible employees of the small employer, the primary business location of the small employer is in this state. ( )

08. Laws of This State or Another State. In determining whether the laws of this state or another state apply to a health benefit plan issued to a small employer described in Subsection 015.07, the provisions of the paragraph is applied as of the date the health benefit plan was issued to the small employer for the period that the health benefit plan remains in effect. ( )

09. Health Benefit Plan Subject to The Act and This Chapter. If a health benefit plan is subject to the Act and this chapter, the provisions of the Act and this chapter applies to all individuals covered under the health benefit plan, whether they reside in this state or in another state. ( )

10. When Is a Small Employer Carrier Not Subject to the Act and This Chapter. A carrier that is not operating as a small employer carrier in this state does not become subject to the provisions of the Act and this chapter solely because a small employer that was issued a health benefit plan in another state by that carrier moves to this state. ( )

016. -- 020. (RESERVED)

021. ESTABLISHMENT OF CLASSES OF BUSINESS.

01. Supporting Documentation for Establishment of Classes of Business. A small employer carrier that establishes more than one class of business pursuant to the provisions of Section 41-4705, Idaho Code, maintains on file for inspection by the Director the following information with respect to each class of business so established: ( )

a. A description of each criterion employed by the carrier (or any of its agents) for determining membership in the class of business; ( )

b. A statement describing the justification for establishing the class as a separate class of business and documentation that the establishment of the class of business is intended to reflect substantial differences in expected claims experience or administrative costs related to the reasons set forth in Section 41-4705, Idaho Code; and ( )

c. A statement disclosing that, if any, health benefit plans are currently available for purchase in the class and any significant limitations related to the purchase of such plans. ( )

02. Group Size Is Not a Class of Business. A carrier will not directly or indirectly use group size as a criterion for establishing eligibility for a health benefit plan or for a class of business. ( )

022. -- 027. (RESERVED)

028. TRANSITION FOR ASSUMPTIONS OF BUSINESS FROM ANOTHER CARRIER.

01. Conditions for Transfer or Assumption of Entire Insurance Obligation. A small employer carrier will not transfer or assume the entire insurance obligation and/or risk of a health benefit plan covering a small employer in this state unless: ( )

a. The transaction received any necessary approval of the insurance supervisory official of the state of domicile of the assuming carrier; ( )

b. The transaction received any necessary approval of the insurance supervisory official of the state of domicile of the ceding carrier; and, ( )

c. The transaction meets the other requirements of this Section. ( )

02. Time Frame for Filing Plan to Assume or Cede Entire Insurance Obligation. A carrier domiciled in this state that proposes to assume or cede the entire insurance obligation and/or risk of one or more small employer health benefit plans from another carrier makes a filing for approval with the Director at least sixty (60) days prior to the date of the proposed assumption. The Director may approve the transaction if the Director finds that the transaction is in the best interests of the individuals insured under the health benefit plans to be transferred and is consistent with the purposes of the Act and this chapter. The Director will not approve the transaction until at least thirty (30) days after the date of the filing; except that, if the ceding carrier is in hazardous financial condition, the Director may approve the transaction as soon as the Director deems reasonable. ( )

03. Filing Requirements. The filing for Subsection 028.02 will: ( )

a. Describe the class of business (including any eligibility requirements) of the ceding carrier from which the health benefit plans will be ceded; ( )

b. Describe whether the assuming carrier will maintain the assumed health benefit plans as a separate class of business (pursuant to Subsection 028.08 or will incorporate them into an existing class of business (pursuant to Subsection 028.09). If the assumed health benefit plans will be incorporated into an existing class of business, the filing will describe the class of business of the assuming carrier into which the health benefit plans will be incorporated; ( )

c. Describe whether the health benefit plans being assumed are currently available for purchase by small employers; ( )

d. Describe the potential effect of the assumption, if any, on the benefits provided by the health benefit plans to be assumed; ( )

e. Describe the potential effect of the assumption, if any on the premiums for the health benefit plans to be assumed; ( )

f. Describe any other potential material effects of the assumption on the coverage provided to the small employers covered by the health benefit plans to be assumed; and ( )

g. Include any other information prescribed by the Director. ( )

04. Informational Filings in Other States. A small employer carrier prescribed to make a filing under

Subsection 028.02 will also make an informational filing with the Insurance Supervisory Official of each state in which there are small employer health benefit plans that would be included in the transaction. The informational filing to each state will be made concurrently with the filing made under Subsection 028.02 and will include at least the information specified in Subsection 028.03 for the small employer health benefit plans in that state. ( )

05. Other Considerations in the Transfer and Assumption of the Entire Insurance Obligation. A small employer carrier will not transfer or assume the entire insurance obligation and/or risk of a health benefit plan covering a small employer in this state unless it complies with the following provisions: ( )

a. The carrier has provided notice to the Director at least sixty (60) days prior to the date of the proposed assumption. The notice contains the information specified in Subsection 028.03 for the health benefit plans covering small employers in this state. ( )

b. If the assumption of a class of business would result in the assuming small employer carrier being out of compliance with the limitations related to premium rates contained in Section 41-4706(1)(a), Idaho Code, the assuming carrier makes a filing with the Director pursuant to Section 41-4706(3), Idaho Code, seeking suspension of the application of Section 41-4706(1)(a), Idaho Code. ( )

c. An assuming carrier seeking suspension of the application of Section 41-4706(1)(a), Idaho Code, will not complete the assumption of health benefit plans covering small employers in this state unless the Director grants the suspension requested pursuant to Paragraph 028.05.b. ( )

d. Unless a different period is approved by the Director, a suspension of the application of Section 41-4706(1)(a), Idaho Code, with respect to an assumed class of business, is for no more than fifteen (15) months and, with respect to each individual small employer, lasts only until the anniversary date of such employer's coverage (except that the period with respect to an individual small employer may be extended beyond its first anniversary date for a period of up to twelve (12) months if the anniversary date occurs within three (3) months of the date of assumption of the class of business). ( )

06. Exceptions to Ceding or Assumption of Business. Except as provided in Subsection 028.02, a small employer carrier will not cede or assume the entire insurance obligation and/or risk for a small employer health benefit plan unless the transaction includes the ceding to the assuming carrier of the entire class of business within Idaho which includes such health benefit plan. ( )

07. Requirements for Ceding Less Than an Entire Class of Business. A small employer carrier may cede less than an entire class of business to an assuming carrier if: ( )

a. One (1) or more small employers in the class have exercised their right under contract to reject, either directly or by implication, the ceding of their health benefit plans to another carrier. In that instance, the transaction includes each health benefit plan in the class of business except those health benefit plans for which a small employer has rejected the proposed cession; or ( )

b. After a written request from the transferring carrier, the Director determines that the transfer of less than the entire class of business is in the best interests of the small employers insured in that class of business. ( )

08. Separate Class of Business. Except as provided in Subsection 028.09, a small employer carrier that assumes one (1) or more health benefit plans from another carrier will maintain such health benefit plans as a separate class of business. ( )

09. Provisions for Exceeding the Maximum Number of Classes of Business. A small employer carrier that assumes one or more health benefit plans from another carrier may exceed the limitation contained in Section 41-4705(2), Idaho Code, (relating to the maximum number of classes of business a carrier may establish) due solely to such assumption for a period of up to fifteen (15) months after the date of the assumption, provided that the carrier complies with the following provisions: ( )

a. Upon assumption of the health benefit plans, such health benefit plans are maintained as a separate

class of business. During the fifteen-month (15) period following the assumption, each of the assumed small employer health benefit plans are transferred by the assuming small employer carrier into a single class of business operated by the assuming small employer carrier. The assuming small employer carrier selects the class of business into which the assumed health benefit plans will be transferred in a manner such that the transfer results in the least possible change to the benefits and rating method of the assumed health benefit plans. ( )

b. The transfers authorized in Paragraph 028.09.a. occurs with respect to each small employer on the anniversary date of the small employer's coverage, except that the period with respect to an individual small employer may be extended beyond its first anniversary date for a period of up to twelve (12) months if the anniversary date occurs within three (3) months of the date of assumption of the class of business. ( )

c. A small employer carrier making a transfer pursuant to Paragraph 028.09.a. may alter the benefits of the assumed health benefit plans to conform to the benefits currently offered by the carrier in the class of business into which the health benefit plans have been transferred. ( )

d. The premium rate for an assumed small employer health benefit plan is not modified by the assuming small employer carrier until the health benefit plan is transferred pursuant to Paragraph 028.09.a. Upon transfer, the assuming small employer carrier calculates a new premium rate for the health benefit plan from the rate manual established for the class of business into which the health benefit plan is transferred. In making such calculation, the risk load applied to the health benefit plan is no higher than the risk load applicable to such health benefit plan prior to the assumption. ( )

e. During the fifteen-month (15) period provided in this Subsection, the transfer of small employer health benefit plans from the assumed class of business in accordance with this subsection is considered a violation of Section 41-4706(2), Idaho Code. ( )

10. Restrictions to Apply Eligibility Requirements by Assuming Carrier. An assuming carrier will not apply eligibility requirements, including minimum participation and contribution requirements, with respect to an assumed health benefit plan (or with respect to any health benefit plan subsequently offered to a small employer covered by such an assumed health benefit plan) that are more stringent than the requirements applicable to such health benefit plan prior to the assumption. ( )

11. Request for Extension of the Transition Period. The Director may approve a longer period of transition upon application of a small employer carrier. The application is made within sixty (60) days from assumption of the class of business and clearly states the justification for a longer transition period. ( )

12. Additional Information. Nothing in this Section or in the Act is intended to: ( )

a. Reduce or diminish any legal or contractual obligation or requirement, including any obligation provided in Section 41-511, Idaho Code, of the ceding or assuming carrier related to the transaction; ( )

b. Authorize a carrier not admitted to transact the business of insurance in this state to offer or insure health benefit plans in this state; or ( )

c. Reduce or diminish the protections related to an assumption reinsurance transaction provided in Section 41-511, Idaho Code, or otherwise provided by law. ( )

029. -- 035. (RESERVED)

036. RESTRICTIONS RELATING TO PREMIUM RATES.
The following provisions are applicable for all small employer health benefit plans. ( )

01. Separate Rate Manual for Each Class of Business. A small employer carrier develops a separate rate manual for each class of business. Base premium rates and new business premium rates charged to small employers by the small employer carrier are computed solely from the applicable rate manual developed pursuant to this Section. To the extent that a portion of the premium rates charged by a small employer carrier is based on the carrier's discretion, the manual specifies the criteria and factors considered by the carrier in exercising such

discretion. ( )

02. Requirements for Adjustments to Rating Method. A small employer carrier will not modify the rating method used in the rate manual for a class of business until the change has been approved as provided in this Section. The Director may approve a change to a rating method if the Director finds that the change is reasonable, actuarially appropriate, and consistent with the purposes of the Act and this chapter. ( )

03. Information for Review of Modification of Rating Method. A carrier may modify the rating method for a class of business only with prior approval of the Director. A carrier requesting to change the rating method for a class of business makes a filing with the Director at least thirty (30) days prior to the proposed date of the change. The filing contains at least the following information: ( )

a. The reasons the change in rating method is being requested; ( )

b. A complete description of each of the proposed modifications to the rating method; ( )

c. A description of how the change in rating method would affect the premium rates currently charged to small employers in the class of business, including an estimate from a qualified actuary of the number of groups or individuals (and a description of the types of groups or individuals) whose premium rates may change by more than ten percent (10%) due to the proposed change in rating method (not generally including increases in premium rates applicable to all small employers in a health benefit plan); ( )

d. A certification from a qualified actuary that the new rating method would be based on objective and credible data and would be actuarially sound and appropriate; and ( )

e. A certification from a qualified actuary that the proposed change in rating method would not produce premium rates for small employers that would be in violation of Section 41-4706, Idaho Code. ( )

04. Change in Rating Method. For the purpose of this Section, a change in rating method means: ( )

a. A change in the number of case characteristics used by a small employer carrier to determine premium rates for health benefit plans in a class of business (a small employer will not use case characteristics other than age, individual tobacco use, geography or gender without prior approval of the Director); ( )

b. A change in the manner or procedures by which insureds are assigned into categories for the purpose of applying a case characteristic to determine premium rates for health benefit plans in a class of business; ( )

c. A change in the method of allocating expenses among health benefit plans in a class of business; or ( )

d. A change in a rating factor with respect to any case characteristic if the change would produce a change in premium for any small employer that exceeds ten percent (10%). ( )

e. For the purpose of this Subsection, a change in a rating factor means the cumulative change with respect to such factor considered over a twelve (12) month period. If a small employer carrier changes rating factors with respect to more than one case characteristic in a twelve (12) month period, the carrier considers the cumulative effect of all such changes in applying the ten percent (10%) test. ( )

05. Rate Manual to Specify Case Characteristics and Rate Factors to Be Applied. The rate manual developed pursuant to Subsection 036.01 specifies the case characteristics and rate factors to be applied by the small employer carrier in establishing premium rates for the class of business. ( )

06. Uniform Application of Case Characteristics. A small employer carrier uses the same case characteristics as defined in Section 41-4706(1)(h), Idaho Code, in establishing premium rates for each health benefit plan in a class of business and applies them in the same manner in establishing premium rates for each such health

benefit plan. Case characteristics are applied without regard to the risk characteristics of a small employer. ( )

07. Base Premium Rates and Any Difference in New Business Rate. The rate manual developed pursuant to Subsection 036.01 clearly illustrates the relationship among the base premium rates charged for each health benefit plan in the class of business. If the new business premium rate is different than the base premium rate for a health benefit plan, the rate manual illustrates the difference. ( )

08. Reasonable and Objective Rate Differences. Differences among base premium rates for health benefit plans are based solely on the reasonable and objective differences in the design and benefits of the health benefit plans and will not be based in any way on the actual or expected health status or claims experience of the small employer groups that choose or are expected to choose a particular health benefit plan. A small employer carrier applies case characteristics and rate factors within a class of business in a manner that assures that premium differences among health benefit plans for identical small employer groups vary only due to reasonable and objective differences in the design and benefits of the health benefit plans and are not due to the actual or expected health status or claims experience of the small employer groups that choose or are expected to choose a particular health benefit plan. ( )

09. Two-Step Process. The rate manual developed pursuant to Subsection 036.01 provides for premium rates to be developed in a two-step process. In the first step, a base premium rate is developed for the small employer group without regard to any risk characteristics of the group. In the second step, the resulting base premium rate may be adjusted by a risk load, subject to the provisions of Section 41-4706, Idaho Code, to reflect the risk characteristics of the group. ( )

10. Exception to Application Fee, Underwriter Fee, or Other Fees. Except as provided in Subsection 036.11, a premium charged to a small employer for a health benefit plan will not include a separate application fee, underwriting fee, or any other separate fee or charge. ( )

11. Uniform Application of Fees. A carrier may charge a separate fee with respect to a health benefit plan provided the fee is applied in a uniform manner to every health benefit plan in a class of business. All such fees are premium and are included in determining compliance with the Act and this chapter. ( )

12. Uniform Allocation of Administration Expenses. The rate manual developed pursuant to Subsection 036.01 describes the method of allocating administrative expenses to the health benefit plans in the class of business for which the manual was developed. ( )

13. Rate Manual to be Maintained for a Period of Six Years. Each rate manual developed pursuant to Subsection 036.01 is maintained by the carrier for a period of six (6) years. Updates and changes to the manual are maintained with the manual. ( )

14. Guidelines Issued by Director. The rate manual and rating practices of a small employer carrier will comply with any guidelines issued by the Director. ( )

15. Application of Restrictions Related to Changes in Premium Rates. The restrictions related to changes in premium rates are set forth in Section 41-4706(1)(c), Idaho Code, and are applied as follows: ( )

a. A small employer carrier revises its rate manual each rating period to reflect changes in base premium rates and changes in new business premium rates. ( )

b. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate is less than or the same as the percentage change in the base premium rate, the change in the new business premium rate is the change in the base premium rate for the purposes of Sections 41-4706(1)(c)(i), Idaho Code. ( )

c. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate exceeds the percentage change in the base premium rate, the health benefit plan is considered a health benefit plan into which the small employer carrier is no longer enrolling new small employers for the purposes of Section 41-4706(1)(c)(i), Idaho Code. ( )

d. If, for any rating period, the change in the new business premium rate for a health benefit plan differs from the change in the new business premium rate for any other health benefit plan in the same class of business by more than twenty percent (20%), the carrier makes a filing with the Director containing a complete explanation of how the respective changes in new business premium rates were established and the reason for the difference. The filing is made within thirty (30) days of the beginning of the rating period. ( )

e. A small employer carrier keeps on file for a period of at least six (6) years the calculations used to determine the change in base premium rates and new business premium rates for each health benefit plan for each rating period. ( )

16. Change in Premium Rate. Except as provided in Subsection 036.17, a change in premium rate for a small employer produces a revised premium rate that is no more than the following: ( )

a. The base premium rate for the small employer, given its present composition, (as shown in the rate manual as revised for the rating period), multiplied by; ( )

b. One (1) plus the sum of: ( )

i. The risk load applicable to the small employer during the previous rating period; and ( )

ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). ( )

17. Plans No Longer Enrolling New Business. In the case of a health benefit plan into which a small employer carrier is no longer enrolling new small employers, a change in premium rate for a small employer will produce a revised premium rate that is no more than the base premium rate for the small employer (given its present composition and as shown in the rate manual in effect for the small employer at the beginning of the previous rating period), multiplied by Paragraphs 036.17.a. and 036.17.b. ( )

a. One (1) plus the lesser of: ( )

i. The change in the base rate; or ( )

ii. The percentage change in the new business premium for the most similar health benefit plan into which the small employer carrier is enrolling new small employers. ( )

b. One (1) plus the sum of: ( )

i. The risk load applicable to the small employer during the previous rating period; and ( )

ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). ( )

18. Limitations on Revised Premium Rate. Notwithstanding the provisions of Subsections 036.16 and 036.17, a change in premium rate for a small employer will not produce a revised premium rate that would exceed the limitations on rates provided in Section 41-4706(1)(b), Idaho Code. ( )

19. Waiver Request for a Taft-Hartley Trust. A representative of a Taft-Hartley trust (including a carrier upon the written request of such a trust) may file a written request with the Director for the waiver of application of the provisions of Section 41-4706(1), Idaho Code, with respect to such trust. ( )

20. Provisions for Which Trust Is Seeking Waiver. A request made under Subsection 036.19 identifies the provisions for which the trust is seeking the waiver and describes, with respect to each provision, the extent to which application of such provision would: ( )

a. Adversely affect the participants and beneficiaries of the trust; and ( )

b. Require modifications to one (1) or more of the collective bargaining agreements under or pursuant

to which the trust was or is established or maintained. ( )

21. Waiver Not for an Individual or Associate Member. A waiver granted under this provision will not apply to an individual who participates in the trust because the individual is an associate member of an employee organization or the beneficiary of such an individual. ( )

037. -- 045. (RESERVED)

046. REQUIREMENT TO INSURE ENTIRE GROUPS.

01. Offer of Coverage. A small employer carrier that offers coverage to a small employer will offer to provide coverage to each eligible employee and to each dependent of an eligible employee. Except as provided in Subsection 046.02, the small employer carrier provides the same health benefit plan to each such employee and dependent. ( )

02. Choice of Health Benefit Plans. A small employer carrier may offer the employees of a small employer the option of choosing among one (1) or more health benefit plans, provided that each eligible employee may choose any of the offered plans. The choice among benefit plans will not be limited, restricted or conditioned based upon the risk characteristics of the eligible employees or their dependents. ( )

03. Participation Requirement. The small employer carrier may impose reasonable minimum participation requirements for issuance of coverage to small employers, subject to prior approval from the Director. ( )

04. Employer Census and Supporting Documentation. A small employer carrier will require each small employer that applies for coverage, as part of the application process, to prepare or provide an employer census of dependents and eligible employees as defined in Sections 41-4703(11) and 41-4703(13), Idaho Code. The small employer carrier may require the small employer to provide appropriate supporting documentation (such as the W-2 Summary Wage and Tax Form) or a certification of information by a Small Employer as to the current census information. ( )

05. Waiver for Documentation of Coverage. A small employer carrier will secure a waiver with respect to each eligible employee and each dependent of such an eligible employee who declines an offer of coverage under a health benefit plan provided to a small employer. The waiver is signed by the eligible employee (on behalf of such employee or the dependent of such employee) and certifies that the individual who declined coverage was informed of the availability of coverage under the health benefit plan. The waiver form requires that the reason for declining coverage be stated on the form, and includes a statement informing the eligible employee of the special enrollment rights provided within the Section 41-4703(17)(d) and (e), Idaho Code, and includes a written warning of the penalties imposed on late enrollees. Waivers are maintained by the small employer carrier for a period of six (6) years. ( )

06. Refusal to Provide Information. A small employer carrier will not issue coverage to a small employer that refuses to provide the list prescribed under Subsection 046.04 or a waiver prescribed under Subsection 046.05, except if the excluded individual has coverage under a health benefit plan or other health benefit arrangement that provides benefits similar to or exceeding benefits provided under the basic health benefit plan. ( )

07. Induced Declinations. A small employer carrier will not issue coverage to a small employer if the carrier, or an agent for such carrier, has reason to believe that the small employer has induced or pressured an eligible employee (or dependent of an eligible employee) to decline coverage due to a health status related factor of the individual. ( )

08. Agent Notification to Small Employer Carrier. An agent will notify a small employer carrier, prior to submitting an application for coverage with the carrier on behalf of a small employer, of any circumstances that would indicate that the small employer has induced or pressured an eligible employee (or dependent of an eligible employee) to decline coverage due to the individual's risk characteristics. ( )

09. New Entrants. New entrants to a small employer group are offered an opportunity to enroll in the

health benefit plan currently held by such group based upon the provisions of Section 41-4708, Idaho Code. A new entrant that does not exercise the opportunity to enroll in the health benefit plan within the period provided by the small employer carrier may be treated as a late enrollee by the carrier, provided that the period provided to enroll in the health benefit plan extends at least thirty (30) days after the date the new entrant is notified of their opportunity to enroll. The period of continuous coverage will not include any waiting period for the effective date of the new coverage applied by the employer to all new enrollees under the Employee Benefit Plan. If a small employer carrier has offered more than one health benefit plan to a small employer group pursuant to Subsection 046.02, the new entrant is offered the same choice of health benefit plans as the other members of the group. ( )

10. Waiting Period. A small employer carrier will not apply a waiting period, elimination period or other similar limitation of coverage (other than an exclusion for pre-existing medical conditions consistent with Section 41-4708(3), Idaho Code). ( )

11. Risk Characteristics. New entrants to a group are accepted for coverage by the small employer carrier without any restrictions or limitations on coverage related to the risk characteristics of the employees or their dependents, except that a carrier may exclude or limit coverage for pre-existing medical conditions, consistent with the provisions provided in Section 41-4708(3), Idaho Code. ( )

12. Risk Load. A small employer carrier may assess a risk load to the premium rate associated with a new entrant, consistent with the requirements of Section 41-4706, Idaho Code. The risk load is the same risk load charged to the small employer group immediately prior to acceptance of the new entrant into the group. ( )

13. Rescission Employer Misstatements. When material application misstatements are found, rescission action by the carrier may be taken at the carrier's option against the coverage of an entire small employer (including employees and dependents) and is limited to circumstances under which the application misstatements have been made by the small employer. When rescission action is taken, per Section 41-4707(1)(b), Idaho Code, premiums are refunded less any claims which had been paid prior to the date the rescission was initiated. At the carrier's option, the carrier may seek to recover any amounts of claims paid in excess of premiums paid. The applicable contract or coverage is considered null and void. ( )

047. -- 054. (RESERVED)

055. APPLICATION TO REENTER STATE.

Restrictions on offering small group health insurance. A carrier that has been banned from writing coverage for small employers in this state pursuant to Section 41-4707(2), Idaho Code, will not resume offering health benefit plans to small employers in this state until the carrier has made a petition to the Director to be reinstated as a small employer carrier and the petition has been approved by the Director. In reviewing a petition, the Director may ask for such information and assurances as the Director finds reasonable and appropriate. ( )

056. -- 059. (RESERVED)

060. QUALIFYING PREVIOUS AND QUALIFYING EXISTING COVERAGES.

01. Previous Coverage or Existing Coverage. In determining whether a health benefit plan or other health benefit arrangement (whether public or private) is considered qualifying previous coverage or qualifying existing coverage for the purposes of Sections 41-4703(17), 41-4703(23), and 41-4708(3)(c), Idaho Code, a small employer carrier interprets the Act no less favorably to an insured individual than the following: ( )

a. A health benefit plan, certificate, or other health benefit arrangement is considered employer-based if an employer sponsors the plan or arrangement or makes a contribution to the plan or arrangement. ( )

02. Source of Previous or Existing Coverage. A small employer carrier will ascertain the source of previous or existing coverage of each eligible employee and each dependent of an eligible employee at the time such employee or dependent initially enrolls into the health benefit plan provided by the small employer carrier. The small employer carrier has the responsibility to contact the source of such previous or existing coverage to resolve any questions about the benefits or limitations related to such previous or existing coverage. ( )

03. Certification of Creditable Coverage. Small employer carriers will provide written certification of creditable coverage to individuals in accordance with this Subsection. ( )

a. A small employer carrier satisfies the certification requirements if another person provides the certificate, but only to the extent that information relating to the individual's creditable coverage and waiting or affiliation period has been provided by another person. ( )

b. To the extent coverage under a health benefit plan consists of group coverage, the plan satisfies the certification requirements if the small employer carrier offering the coverage is prescribed to provide the certificates of creditable coverage to individuals pursuant to an agreement between the plan and the carrier. ( )

c. A small employer carrier is not obligated to provide information regarding health benefit plan coverage provided to an individual by another person. ( )

i. If an individual's coverage under a policy ceases before the individual's coverage under the group health plan ceases, the entity that issued the policy provides sufficient information to the small employer carrier, or to another person designated by the carrier, to enable the carrier, or other person, to provide a certificate that reflects the period of coverage under the policy, after the individual's coverage under the group health plan ceases. ( )

ii. The provision of the information pursuant to Subparagraph 060.03.c.i. to the new carrier satisfies the entity's obligation to provide an automatic certificate. ( )

iii. The carrier providing the information about creditable coverage cooperates with other carriers in responding to any request for additional information. ( )

( )

06. Restrictions as to Contribution to Association. The small group carrier will not require a small employer to join or contribute to any association or group as a condition of being accepted for coverage by the small

employer carrier, except that, if membership in an association or other group is a requirement for accepting a small employer into a particular health benefit plan, a small employer carrier may apply such requirement, subject to the requirements of Section 41-4708, Idaho Code. ( )

( )

013. -- 027. (RESERVED)

028. TRANSITION FOR ASSUMPTIONS OF BUSINESS FROM ANOTHER CARRIER.

01. Conditions for Transfer or Assumption of Entire Insurance Obligation. An individual carrier will not transfer or assume the entire insurance obligation and/or risk of a health benefit plan covering an individual in this state unless: ( )

a. The transaction received any necessary approval of the insurance supervisory official of the state of domicile of the assuming carrier; ( )

b. The transaction received any necessary approval of the insurance supervisory official of the state of domicile of the ceding carrier; and, ( )

c. The transaction meets the other requirements of this Section. ( )

02. Time Frame for Filing Plan to Assume or Cede Entire Insurance Obligation. A carrier domiciled in this state that proposes to assume or cede the entire insurance obligation and/or risk of one or more individual health benefit plans from another carrier makes a filing for approval with the Director at least sixty (60) days prior to the date of the proposed assumption. The Director may approve the transaction if the Director finds that the transaction is in the best interests of the individuals insured under the health benefit plans to be transferred and is consistent with the purposes of the Act and this chapter. The Director will not approve the transaction until at least thirty (30) days after the date of the filing; except that, if the ceding carrier is in hazardous financial condition, the Director may approve the transaction as soon as the Director deems reasonable. ( )

03. Filing Requirements. The filing for Subsection 028.02 will: ( )

a. Describe the health benefit plan (including any eligibility requirements) of the ceding carrier from which the health benefit plans will be ceded; ( )

b. Describe whether the assuming carrier will maintain the assumed health benefit plans (pursuant to Subsection 028.08) or will incorporate them into existing business (pursuant to Subsection 028.09). If the assumed health benefit plans will be incorporated into existing business, the filing will describe the business of the assuming carrier into which the health benefit plans will be incorporated; ( )

c. Describe whether the health benefit plans being assumed are currently available for purchase by eligible individuals; ( )

d. Describe the potential effect of the assumption, if any, on the benefits provided by the health benefit plans to be assumed; ( )

e. Describe the potential effect of the assumption, if any, on the premiums for the health benefit plans to be assumed; ( )

f. Describe any other potential material effects of the assumption on the coverage provided to the eligible individuals covered by the health benefit plans to be assumed; and ( )

g. Include any other information prescribed by the Director. ( )

04. Informational Filings in Other States. An individual carrier prescribed to make a filing under Subsection 028.02 will also make an informational filing with the Insurance Supervisory Official of each state in which there are individual health benefit plans that would be included in the transaction. The informational filing to each state will be made concurrently with the filing made under Subsection 028.02 and will include at least the information specified in Subsection 028.03 for the individual health benefit plans in that state. ( )

05. Considerations in the Transfer and Assumption of the Entire Insurance Obligation. An individual carrier will not transfer or assume the entire insurance obligation and/or risk of a health benefit plan covering an eligible individual in this state unless it complies with the following provisions: ( )

a. The carrier has provided notice to the Director at least sixty (60) days prior to the date of the

proposed assumption. The notice contains the information specified in Subsection 028.03 for the health benefit plans covering eligible individuals in this state. ( )

b. If the assumption of a health benefit plan would result in the assuming individual carrier being out of compliance with the limitations related to premium rates contained in Section 41-5206(1)(a), Idaho Code, the assuming carrier makes a filing with the Director pursuant to Section 41-5206(2), Idaho Code, seeking suspension of the application of Section 41-5206(1)(a), Idaho Code. ( )

c. An assuming carrier seeking suspension of the application of Section 41-5206(1)(a), Idaho Code, will not complete the assumption of health benefit plans covering eligible individuals in this state unless the Director grants the suspension requested pursuant to Paragraph 028.05.b. ( )

d. Unless a different period is approved by the Director, a suspension of the application of Section 41-5206(1)(a), Idaho Code, with respect to assumed one (1) or more health benefit plans, is for no more than fifteen (15) months and, with respect to each individual, lasts only until the anniversary date of such individual's coverage (except that the period with respect to an individual may be extended beyond such individual first anniversary date for a period of up to twelve (12) months if the anniversary date occurs within three (3) months of the date of assumption of the health benefit plan). ( )

06. Exceptions to Ceding or Assumption of Business. Except as provided in Subsection 028.02, an individual carrier will not cede or assume the entire insurance obligation or risk for an individual health benefit plan unless the transaction includes the ceding to the assuming carrier of all business within Idaho which includes such health benefit plan. ( )

07. Requirements for Ceding Less Than Entire Business. An Individual carrier may cede less than an entire health benefit plan to an assuming carrier if: ( )

a. One (1) or more eligible individuals in the health benefit plan have exercised their right under contract to reject, either directly or by implication, the ceding of their health benefit plans to another carrier. In that instance, the transaction includes each health benefit plan with the exception of those health benefit plans for which an eligible individual has rejected the proposed cession; or ( )

b. After a written request from the transferring carrier, the Director determines that the transfer of less than all health benefit plans is in the best interests of the eligible individuals insured. ( )

08. Separate Health Benefit Plans. Except as provided in Subsection 028.09, an individual carrier that assumes one (1) or more health benefit plans from another carrier may maintain such health benefit plans as a separate health benefit plan. ( )

09. Restrictions to Apply Eligibility Requirements by Assuming Carrier. An assuming carrier will not apply eligibility requirements, with respect to an assumed health benefit plan (or with respect to any health benefit plan subsequently offered to an eligible individual covered by such an assumed health benefit plan) that are more stringent than the requirements applicable to such health benefit plan prior to the assumption. ( )

10. Request for Extension of the Transition Period. The Director may approve a longer period of transition upon application of an individual carrier. The application is made within sixty (60) days from assumption of the health benefit plan and clearly states the justification for a longer transition period. ( )

11. Additional Information. Nothing in this Section or in the Act is intended to: ( )

a. Reduce or diminish any legal or contractual obligation or requirement, including any obligation provided in Section 41-511, Idaho Code, of the ceding or assuming carrier related to the transaction; ( )

b. Authorize a carrier not admitted to transact the business of insurance in this state to offer or insure health benefit plans in this state; or ( )

c. Reduce or diminish the protections related to an assumption reinsurance transaction provided in

Section 41-511, Idaho Code, or provided by law. ( )

029. -- 035. (RESERVED)

036. RESTRICTIONS RELATING TO PREMIUM RATES.
The following provisions are applicable for all individual health benefit plans. ( )

01. Rate Manual. An individual carrier develops a rate manual for all individual business. Base premium rates and new business premium rates charged to eligible individuals by the individual carrier are computed solely from the applicable rate manual developed pursuant to this Section. To the extent that a portion of the premium rates charged by an individual carrier is based on the carrier's discretion, the manual specifies the criteria and factors considered by the carrier in exercising such discretion. ( )

02. Requirements for Adjustments to Rating Method. An individual carrier will not modify the rating method used in the rate manual for its individual business until the change has been approved as provided in this Section. The Director may approve a change to a rating method if the Director finds that the change is reasonable, actuarially appropriate, and consistent with the purposes of the Act and this chapter. ( )

03. Information for Review of Modification of Rating Method. A carrier may modify the rating method for its individual business only with prior approval of the Director. A carrier requesting to change the rating method for its individual business makes a filing with the Director at least thirty (30) days prior to the proposed date of the change. The filing contains at least the following information: ( )

a. The reasons the change in rating method is being requested; ( )

b. A complete description of each of the proposed modifications to the rating method; ( )

c. A description of how the change in rating method would affect the premium rates currently charged to eligible individuals in the health benefit plan, including an estimate from a qualified actuary of the number of individuals (and a description of the types of individuals) whose premium rates may change by more than ten percent (10%) due to the proposed change in rating method (not generally including increases in premium rates applicable to all individuals in a health benefit plan); ( )

d. A certification from a qualified actuary that the new rating method would be based on objective and credible data and would be actuarially sound and appropriate; and ( )

e. A certification from a qualified actuary that the proposed change in rating method would not produce premium rates for eligible individuals that would be in violation of Section 41-5206, Idaho Code. ( )

04. Change in Rating Method. For the purpose of this Section a change in rating method means: ( )

a. A change in the number of case characteristics used by an individual carrier to determine premium rates for health benefit plans in its individual business (an individual carrier will not use case characteristics other than age, individual tobacco use, geography or gender without prior approval of the Director); ( )

b. A change in the method of allocating expenses among health benefit plans; or ( )

c. A change in a rating factor with respect to any case characteristic if the change would produce a change in premium for any individual that exceeds ten percent (10%). ( )

d. For the purpose of this Subsection, a change in a rating factor means the cumulative change with respect to such factor considered over a twelve (12) month period. If an individual carrier changes rating factors with respect to more than one case characteristic in a twelve (12) month period, the carrier considers the cumulative effect of all such changes in applying the ten percent (10%) test. ( )

05. Rate Manual to Specify Case Characteristics and Rate Factors. The rate manual developed

pursuant to Subsection 036.01 specifies the case characteristics and rate factors to be applied by the individual carrier in establishing premium rates for the health benefit plans. ( )

06. Prior Approval of Case Characteristics. An individual carrier will not use case characteristics other than those specified in Section 41-5206(1)(f), Idaho Code, without the prior approval of the Director. An individual carrier seeking such an approval makes a filing with the Director for a change in rating method under Subsection 036.02. ( )

07. Uniform Application of Case Characteristics. An individual carrier uses the same case characteristics in establishing premium rates for each health benefit plan and applies them in the same manner in establishing premium rates for each such health benefit plan. Case characteristics are applied without regard to the risk characteristics of an eligible individual. ( )

08. Base Premium Rates and Any Difference in New Business Rate. The rate manual developed pursuant to Subsection 036.01 clearly illustrates the relationship among the base premium rates charged for each health benefit plan. If the new business premium rate is different than the base premium rate for a health benefit plan, the rate manual illustrates the difference. ( )

09. Reasonable and Objective Rate Differences. Differences among base premium rates for health benefit plans are based solely on the reasonable and objective differences in the design and benefits of the health benefit plans and cannot be based in any way on the actual or expected health status or claims experience of the eligible individual or groups that choose or are expected to choose a particular health benefit plan. An individual carrier applies case characteristics and rate factors within its health benefit plans in a manner that assures that premium differences among health benefit plans for identical individuals vary only due to reasonable and objective differences in the design and benefits of the health benefit plans and are not due to the actual or expected health status or claims experience of the individuals that choose or are expected to choose a particular health benefit plan. ( )

10. Two-Step Process. The rate manual developed pursuant to Subsection 036.01 provides for premium rates to be developed in a two (2) step process. In the first step, a base premium rate is developed for the eligible individual without regard to any risk characteristics. In the second step, the resulting base premium rate may be adjusted by a risk load, subject to the provisions of Section 41-5206, Idaho Code, to reflect the risk characteristics of the individual. ( )

11. Exception to Application Fee, Underwriter Fee or Other Fees. Except as provided in Subsection 036.12, a premium charged to an individual for a health benefit plan will not include a separate application fee, underwriting fee, or any other separate fee or charge. ( )

12. Uniform Application of Fees. A carrier may charge a separate fee with respect to a health benefit plan provided the fee is applied in a uniform manner to all health benefit plans. All such fees are premium and are included in determining compliance with the Act and this chapter. ( )

13. Uniform Allocation of Administration Expenses. The rate manual developed pursuant to Subsection 036.01 describes the method of allocating administrative expenses to the health benefit plans for which the manual was developed. ( )

14. Rate Manual to be Maintained for a Period of Six Years. Each rate manual developed pursuant to Subsection 036.01 is maintained by the carrier for a period of six (6) years. Updates and changes to the manual are maintained with the manual. ( )

15. Guidelines Issued by Director. The rate manual and rating practices of an individual carrier comply with any guidelines issued by the Director. ( )

16. Application of Restrictions Related to Changes in Premium Rates. The restrictions related to changes in premium rates are set forth in Section 41-5206(1)(b), Idaho Code, and are applied as follows: ( )

a. An individual carrier revises its rate manual each rating period to reflect changes in base premium

rates and changes in new business premium rates. ( )

b. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate is less than or the same as the percentage change in the base premium rate, the change in the new business premium rate is the change in the base premium rate for the purposes of Sections 41-5206(1)(b)(i) and 41-5206(1)(d)(i), Idaho Code. ( )

c. If for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate exceeds the percentage change in the base premium rate, the health benefit plan is considered a health benefit plan into which the individual carrier is no longer enrolling new eligible individuals for the purposes of Section 41-5206(1)(b)(i), Idaho Code. ( )

d. If, for any rating period, the change in the new business premium rate for a health benefit plan differs from the change in the new business premium rate for any other health benefit plan by more than twenty percent (20%), the carrier makes a filing with the Director containing a complete explanation of how the respective changes in new business premium rates were established and the reason for the difference. The filing is made within thirty (30) days of the beginning of the rating period. ( )

e. An individual carrier keeps on file for a period of at least six (6) years the calculations used to determine the change in base premium rates and new business premium rates for each health benefit plan for each rating period. ( )

17. Change in Premium Rate. Except as provided in Subsection 036.18, a change in premium rate for an eligible individual produces a revised premium rate that is no more than the following: ( )

a. The base premium rate for the eligible individual, given its present composition, (as shown in the rate manual as revised for the rating period), multiplied by: ( )

b. One (1) plus the sum of: ( )

i. The risk load applicable to the eligible individual during the previous rating period; and ( )

ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). ( )

18. Plans No Longer Enrolling New Business. In the case of a health benefit plan into which an Individual carrier is no longer enrolling new Individuals, a change in premium rate for an Individual will produce a revised premium rate that is no more than the base premium rate for the Individual (given its present composition and as shown in the rate manual in effect for the Individual at the beginning of the previous rating period), multiplied by Paragraphs 036.18.a. and 036.18.b.; ( )

a. One (1) plus the lesser of: ( )

i. The change in the base rate; or ( )

ii. The percentage change in the new business premium for the most similar health benefit plan into which the Individual carrier is enrolling new Individuals. ( )

b. One (1) plus the sum of: ( )

i. The risk load applicable to the Individual during the previous rating period; and ( )

ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). ( )

19. Limitations on Revised Premium Rate. Notwithstanding the provisions of Subsections 036.17 and 036.18, a change in premium rate for an Individual will not produce a revised premium rate that would exceed the limitations on rates provided in Section 41-5206, Idaho Code. ( )

037. -- 045. (RESERVED)

046. REQUIREMENT TO INSURE INDIVIDUALS.

01. Offer of Coverage. An individual carrier that offers coverage to an individual will offer to provide coverage to each eligible individual and to each eligible dependent of an eligible individual. ( )

02. Risk Characteristics. Individuals are accepted for coverage by the individual carrier without any restrictions or limitations on coverage related to the risk characteristics of the Individual or their dependents, except that a carrier may exclude or limit coverage for pre-existing medical conditions, consistent with the provisions provided in Section 41-5208(3), Idaho Code. ( )

03. Risk Load. An individual carrier may assess a risk load to the premium rate associated with a new entrant, consistent with the requirements of Section 41-5206, Idaho Code. The risk load is the same risk load charged to the Individual immediately prior to acceptance of the new entrant into the health benefit plan. ( )

04. Rescission. When material application misstatements are found, rescission action by the carrier may be taken at the carrier's option. When rescission action is taken, premiums are refunded less any claims which had been paid prior to the date the rescission was initiated. At the carrier's option, the carrier may seek to recover any amounts of claims paid in excess of premiums paid. The applicable contract or coverage is considered null and void. ( )

05. Coverage Rescinded for Fraud or Misrepresentation. Any individual whose coverage is subsequently rescinded for fraud or misrepresentation will not be an "eligible individual" for a period of twelve (12) months from the effective date of the termination of the individual coverage and cannot be deemed to have "qualifying previous coverage" under Title 41, Chapter 22, 47, 52, or 55, Idaho Code; provided such limitations are not in conflict with the Health Insurance Portability and Accountability Act of 1996. ( )

06. Certification of Creditable Coverage. ( )

a. Individual carriers will provide written certification of creditable coverage to individuals in accordance with this Subsection. ( )

b. The certification of creditable coverage is provided: ( )

i. At the time an individual ceases to be covered under the health benefit plan or otherwise becomes covered under a COBRA continuation provision; ( )

ii. In the case of an individual who becomes covered under a COBRA continuation provision, at the time the individual ceases to be covered under that provision; and ( )

iii. Such certification is automatically provided by the individual carrier or at the time a request is made on behalf of an individual if the request is made not later than twenty-four (24) months after the date of cessation of coverage described in Paragraphs 046.06.b.i. and 046.06.b.ii., whichever is later. ( )

c. The certificate of creditable coverage contains: ( )

i. Written certification of the period of creditable coverage of the individual under the health benefit plan; and ( )

ii. The waiting period, if any, and if applicable, affiliation period imposed with respect to the individual for any coverage under the health benefit plan. ( )

055. APPLICATION TO REENTER STATE.

01. Restrictions on Offering Individual Health Insurance. An individual carrier that has been banned from writing coverage for individuals in this state pursuant to Section 41-5207(2), Idaho Code, will not resume offering health benefit plans to individuals in this state until the carrier has made a petition to the Director to be reinstated as an individual carrier and the petition has been approved by the Director. In reviewing a petition, the Director may ask for such information and assurances as the Director finds reasonable and appropriate. ( )

02. Geographic Service Areas. In the case of an individual carrier doing business in an established geographic service area of the state, if the individual carrier elects to non-renew a health benefit plan under Section 41-5207(3), Idaho Code, the individual carrier is banned from offering health benefit plans to individuals in that service area for a period of five (5) years. ( )

056. -- 059. (RESERVED)

060. QUALIFYING PREVIOUS AND QUALIFYING EXISTING COVERAGES.

01. Previous Coverage or Existing Coverage. In determining whether a health benefit plan or other health benefit arrangement (whether public or private) is considered qualifying previous coverage or qualifying existing coverage for the purposes of Sections 41-5203(20), and 41-5208(3), Idaho Code, an individual carrier interprets the Act no less favorably to an insured individual than the following: ( )

a. An individual carrier ascertains the source of previous or existing coverage of each eligible individual and each dependent of an eligible individual at the time such individual or dependent initially enrolls into the health benefit plan provided by the individual carrier. ( )

061. -- 066. (RESERVED)

067. RESTRICTIVE RIDERS.
Except as permitted in Section 41-5208(3), Idaho Code, an individual carrier will not modify or restrict any health benefit plan with respect to any eligible individual or dependent of an eligible individual, through riders, endorsements or otherwise, for the purpose of restricting or excluding the coverage or benefits provided to such individual or dependent for specific diseases, medical conditions or services otherwise covered by the plan.

075. RULES RELATED TO FAIR MARKETING.

01. Individual Carrier to Actively Market. An individual carrier actively markets each of its health benefit plans to individuals in this state. ( )

02. Offer. An individual carrier offers all health benefit plans to any individual that applies for or makes an inquiry regarding health insurance coverage from the individual carrier. The offer may be provided directly to the individual or delivered through a producer. The offer is in writing and includes at least the following information: ( )

a. A general description of the benefits contained in the all actively marketed health benefit plans; and ( )

b. Information describing how the individual may enroll in the plans. ( )

04. Timeliness of Price Quote. An individual carrier provides a price quote to an individual (directly or through an authorized producer) within fifteen (15) working days of receiving a request for a quote and such information as is necessary to provide the quote. An individual carrier notifies an individual (directly or through an authorized producer) within ten (10) working days of receiving a request for a price quote of any additional information needed by the individual carrier to provide the quote. ( )

05. Restrictions as to Application Process. An individual carrier will not apply more stringent or

detailed requirements related to the application process for the mandated health benefit plans than are applied for other health benefit plans offered by the carrier. ( )

06. Denial of Coverage. If an individual carrier denies coverage under a health benefit plan to an individual on the basis of a risk characteristic, the denial is in writing and maintained in the individual carrier's office. This written denial states with specificity the risk characteristic(s) of the individual that made it ineligible for the health benefit plan it requested (for example, health status). The denial is accompanied by a written explanation of the availability of any mandated health benefit plans from the individual carrier. The explanation includes at least the following: ( )

a. A general description of the benefits contained in each such plan; ( )

b. A price quote for each such plan; and ( )

c. Information describing how the individual may enroll in such plans. ( )

d. The written information described in this paragraph may be provided within the time periods provided in Subsection 075.04 directly to the individual or delivered through an authorized producer. ( )

07. Premium Rate Charged. The price quote prescribed under Paragraph 075.06.b. is for the lowest premium rate charged under the rating system for a health benefit plan for which the individual is eligible. ( )

08. Toll-Free Telephone Service. An individual carrier establishes and maintains a toll-free telephone service to provide information to individuals regarding the availability of individual health benefit plans in this state. The service provides information to callers on how to apply for coverage from the carrier. The information may include the names and phone numbers of producers located geographically proximate to the caller or such other information reasonably designed to assist the caller to locate an authorized producer or to apply for coverage. ( )

09. No Requirement to Qualify for Other Insurance Product. An individual carrier will not require, as a condition to the offer of sale of a health benefit plan to an individual, that the individual purchase or qualify for any other insurance product or service. ( )

10. Plans Subject to Requirements. Carriers offering individual health benefit plans in this state are responsible for determining whether the plans are subject to the requirements of the Act and this chapter. ( )

11. Annual Filing Requirement. An individual carrier files annually the following information with the Director related to health benefit plans issued by the individual carrier to individuals in this state on forms prescribed by the Director: ( )

a. The number of individuals that were covered under health benefit plans in the previous calendar year (separated as to newly issued plans and renewals); ( )

b. The number of individuals that were covered under each mandated health benefit plan in the previous calendar year (separated as to newly issued plans and renewals). ( )

c. The number of individual health benefit plans in force in each county (or by five (5) digit zip code) of the state as of December 31 of the previous calendar year; ( )

d. The number of individual health benefit plans that were voluntarily not renewed by Individuals in the previous calendar year; ( )

e. The number of individual health benefit plans that were terminated or non renewed (for reasons other than nonpayment of premium) by the carrier in the previous calendar year; and ( )

f. The number of health benefit plans that were issued to residents that were uninsured for at least the sixty-three (63) days prior to issue. ( )

12. Total Number of Residents. All carriers file annually with the Director, on forms prescribed by the Director, the total number of residents, including spouses and dependents, covered during the previous calendar year under all health benefit plans issued in this state. This includes residents covered under reinsurance by way of excess loss and stop loss plans. ( )

13. Filing Date. The information described in Subsections 075.11 and 075.12 is filed no later than March 15, each year. ( )

14. Specific Data. For purposes of this section, health benefit plan information includes policies or certificates of insurance for specific disease, hospital confinement indemnity, reinsurance by way of excess loss, and stop loss coverages. ( )

076. -- 080. (RESERVED)

081. BANNED POLICY PROVISIONS.

01. Probationary or Waiting Period. Except as provided in Subsection 081.02 for a pre-existing condition, a policy cannot contain provisions establishing a probationary or waiting period during which no coverage is provided under the policy. ( )

02. Pre-existing Conditions. A policy will not deny, exclude or limit benefits for covered expenses incurred more than twelve (12) months following the effective date of the coverage due to a pre-existing condition. ( )

a. A policy waives any time period applicable to a pre-existing condition exclusion or limitation period with respect to particular services for the period of time an individual was previously covered by qualifying previous coverage to the extent such previous coverage provided benefits with respect to such services, provided that the qualifying previous coverage was continuous to a date not more than sixty-three (63) days prior to the effective date of the new coverage. ( )

b. A carrier will not modify a policy with respect to an individual or dependent through riders, endorsements, or otherwise, to restrict or exclude coverage for specifically named pre-existing conditions otherwise covered by the policy. ( )

03. Exclusions. A policy cannot limit or exclude coverage by type of illness, accident, treatment or medical condition, except that a policy may include one or more of the following limitations or exclusions: ( )

a. Pre-existing conditions, except for congenital anomalies of a covered dependent child; ( )

b. Mental or nervous disorders, alcoholism and drug addiction; ( )

f. Foot care in connection with corns, calluses, flat feet, fallen arches, weak feet, chronic foot strain or symptomatic complaints of the feet; ( )

g. Care in connection with the detection and correction by manual or mechanical means of structural imbalance, distortion, or subluxation in the human body for purposes of removing nerve interference and the effects of it, where the interference is the result of or related to distortion, misalignment or subluxation of, or in the vertebral column; ( )

h. Benefits in excess of Medicare eligible expense, if enrolled in Medicare or other governmental program (except Medicaid), or benefits provided under a state or federal worker's compensation law, employers liability or occupational disease law, or motor vehicle no-fault law unless the motor vehicle no-fault plan provides for coordination of benefits; services performed by a member of the covered person's immediate family; and services for which no charge is normally made in the absence of insurance; ( )

l. Territorial limitations; ( )

m. Hearing aids, auditory osseointegrated (bone conduction) devices, cochlear implants and examination for or fitting of them, except for congenital or acquired hearing loss that without intervention may result in cognitive or speech development deficits of a covered dependent child, covering not less than one (1) device every thirty-six (36) months per ear with loss and not less than forty-five (45) language/speech therapy visits during the first twelve (12) months after delivery of the covered device; ( )

q. The reversal of an elective sterilization procedure, including but not limited to vasovasostomy or salpingoplasty. ( )

082. GENERAL MINIMUM STANDARDS.
An insurance policy subject to this chapter cannot be offered, delivered or issued for delivery, continued or renewed in this state unless it meets the following minimum standards. ( )

01. Outline of Coverage. An insurer will deliver an outline of coverage to an applicant or enrollee with the sale, which complies with the model outline of coverage established by the National Association of Insurance Commissioners ("NAIC"), incorporated herein in Section 002. ( )

a. If an outline of coverage was delivered at the time of application or enrollment and the policy is issued on a basis which would require revision of the outline, a substitute outline of coverage properly describing the policy will accompany the policy when it is delivered and contain the following statement in no less than twelve (12) point type, immediately above the company name: "NOTICE: Read this outline of coverage carefully. It is not identical to the outline of coverage provided upon (application) (enrollment), and the coverage originally applied for has not been issued." ( )

b. In any case where the prescribed outline of coverage is inappropriate for the coverage provided by the policy, an alternate outline of coverage is to be submitted to the Director for prior written approval. ( )

02. Coverage of Dependents. A policy will consider as an eligible dependent a child who is chiefly dependent on the insured for support and maintenance and who is incapable of self-sustaining employment due to intellectual disability or physical disability on the date that the child's coverage would otherwise terminate under the policy due to the attainment of a specified age for children. The policy may require that within thirty-one (31) days of such date the company receives due proof of the incapacity in order for the insured to elect to continue the policy in force with respect to the child, or that a separate converted policy be issued at the option of the insured or policyholder. ( )

03. Limitation on Termination of Coverage of Dependent. A policy cannot provide for termination of coverage of a covered dependent solely because of the occurrence of an event specified for termination of coverage of the insured, other than nonpayment of premium. In addition, the policy will provide that in the event of the insured's death, the spouse or dependent of the insured, if covered under the policy, will become the insured. ( )

04. Continuous Loss Extension. Termination of the policy will be without prejudice to a continuous loss that commenced while the policy was in force. Such extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. ( )

05. Pregnancy Benefit Extension. In the event the insurer cancels or refuses to renew, policies providing pregnancy benefits will provide for an extension of benefits as to pregnancy commencing while the policy is in force and for which benefits would have been payable had the policy remained in force. ( )

06. Expenses of Live Donor. A policy providing coverage for the recipient in a transplant operation also provides reimbursement of any medical expenses of a live donor to the extent that benefits remain and are available under the recipient's policy or certificate, after benefits for the recipient's own expenses have been paid. ( )

07. Fractures or Dislocations. A policy providing coverage for fractures or dislocations will not provide benefits only for "full or complete" fractures or dislocations. ( )

08. Coinsurance. Except for out-of-network benefits offered as part of a managed care plan, a coinsurance percentage will not exceed fifty percent (50%) of covered charges. A coinsurance percentage for out-of-network benefits offered as part of a managed care plan will not exceed sixty percent (60%) of covered charges. ( )

083. -- 100. (RESERVED)

101. DISCLOSURE PROVISIONS.

01. Requisite Provisions. Each policy will include a renewal, continuation or nonrenewal provision. The language or specification of the provision will be consistent with the type of contract to be issued. The provision will be appropriately captioned, will appear on the first page of the policy, and will clearly state the duration, where limited, of renewability and the duration of the term of coverage for which the policy is issued and for which it may be renewed. ( )

02. Added Riders or Endorsements. Riders or endorsements added to a policy after date of issue or at reinstatement or renewal that reduce or eliminate benefits or coverage in the policy require signed acceptance by the policyholder. After date of policy issue, any rider or endorsement that increases benefits or coverage with a concomitant increase in premium during the policy term will be agreed to in writing and signed by the policyholder, except if the increased benefits or coverage is prescribed by law. ( )

03. Separate Additional Premium. Where a separate additional premium is charged for benefits

provided in connection with riders or endorsements, the premium charge is set forth in the policy. ( )

04. Requisite Definition of Terms. A policy that provides for the payment of benefits based on standards described as "usual and customary," "reasonable and customary," or words of similar import will include a definition of the terms and an explanation of the terms in its accompanying outline of coverage. ( )

05. Pre-existing Conditions Limitations. If a policy contains any limitations with respect to pre-existing conditions, the limitations will appear as a separate paragraph of the policy and be labeled as "Pre-existing Condition Limitations." ( )

06. Requisite Notice. All policies will have a notice prominently printed on the first page of the policy stating in substance that the policyholder has the right to return the policy within ten (10) days of its delivery and have the premium refunded if, after examination of the policy, the policyholder holder is not satisfied for any reason. 18.04.14 – COORDINATION OF BENEFITS

000. LEGAL AUTHORITY.
Title 41, Chapters 2, 21, 22 and 34, Idaho Code. ( )

001. TITLE AND SCOPE.

01. Title. IDAPA 18.04.14, "Coordination of Benefits." ( )

02. Scope. This chapter applies to all plans, as defined. It allows plans to include a coordination of benefits (COB) provision unless banned by federal law; establish a uniform order of benefit determination under which plans pay claims; provide authority for the orderly transfer of necessary information and funds between plans; reduce duplication of benefits by permitting a reduction of the benefits to be paid by plans that, pursuant to these rules, do not pay their benefits first; reduce claims payment delays; and require that COB provisions be consistent with this rule; and provide greater efficiency in the processing of claims when a person is covered under more than one (1) plan. ( )

002. INCORPORATION BY REFERENCE.
This rule incorporates by reference the full text of the National Association of Insurance Commissioners (NAIC) Model Coordination of Benefits Contract Provisions (Appendix A) and the NAIC Consumer Explanatory Booklet (Appendix B), published as part of the NAIC 2013 Coordination of Benefits model regulation and available on the Idaho Department of Insurance website. ( )

003. -- 009. (RESERVED)

010. DEFINITIONS.
As used in this chapter, these words and terms have the following meanings, unless the context clearly indicates otherwise: ( )

01. Allowable Expense. Any health care expense including coinsurance or copayments, and without reduction for any applicable deductible that is covered in full or in part by any of the plans covering the person. If a plan is advised by a covered person that all plans covering the person are high-deductible health plans and the person intends to contribute to a health savings account established in accordance with Section 223 of the Internal Revenue Code of 1986, the primary high-deductible health plan's deductible is not an allowable expense, except for any health care expense incurred that will not be subject to the deductible as described in Section 223 (c) (2) (C) of the Internal Revenue Code of 1986. An expense that a provider by law or in accordance with contractual agreement is banned from charging a covered person is not an allowable expense. An expense or a portion of an expense that is not covered by any of the plans is not an allowable expense. ( )

a. The following are examples of expenses or services that are not an allowable expense: ( )

i. If a covered person is confined in a private hospital room, the difference between the cost of a semi-private room in the hospital and the private room (unless the patient's stay in the private hospital room is medically necessary in terms of generally accepted medical practice, or one of the plans provides coverage for private hospital rooms) is not an allowable expense. ( )

ii. If a person is covered by two (2) or more plans that compute their benefit payments on the basis of usual and customary fees, or relative value schedule reimbursement or other similar reimbursement methodology, any amount charged by the provider in excess of the highest reimbursement amount for a specified benefit is not an allowable expense. ( )

iii. If a person is covered by two (2) or more plans that provide benefits or services on the basis of negotiated fees, any amount in excess of the highest of the negotiated fees is not an allowable expense. ( )

iv. If a person is covered by one plan that calculates its benefits or services on the basis of usual and customary fees or relative value schedule reimbursement or other similar reimbursement methodology and another plan that provides its benefits or services on the basis of negotiated fees, the primary plan's payment arrangement is the allowable expense for all plans. However, if the provider has contracted with the secondary plan to provide the benefit or service for a specific negotiated fee or payment amount that is different than the primary plan's payment arrangement and if the provider's contract permits, that negotiated fee or payment is the allowable expense used by the secondary plan to determine its benefits. ( )

b. The definition of the "allowable expense" may exclude certain types of coverage or benefits such

as dental care, vision care, prescription drug or hearing aids. A plan that limits the application of COB to certain coverages or benefits may limit the definition of Allowable Expenses in its contract to expenses that are similar to the expenses that it provides. When COB is restricted to specific coverages or benefits in a contract the definition of "Allowable Expense" includes similar expenses to which COB applies. ( )

c. When a plan provides benefits in the form of service, the reasonable cash value of each service will be considered as an allowable expense and a benefit paid. ( )

d. The amount of the reduction may be excluded from allowable expense when a covered person's benefits are reduced under a primary plan: ( )

i. Because the covered person does not comply with the plan provisions concerning second surgical opinions or precertification of admissions or services: or ( )

ii. Because the covered person has a lower benefit because the covered person did not use a preferred provider. ( )

02. Birthday. Refers only to month and day in a calendar year and does not include the year in which the individual is born. ( )

03. Claim. A request that benefits of a plan be provided or paid. The benefits claimed may be in the form of: ( )

a. Services (including supplies); ( )

b. Payment for all or a portion of the expenses incurred; ( )

c. A combination of Paragraphs 010.03.a. and 010.03.b. of this chapter; or ( )

d. An indemnification. ( )

04. Closed Panel Plan. A plan that provides health benefits to covered persons primarily in the form of services through a panel of providers that have contracted with or are employed by the plan, and that excludes benefits for services provided by other providers, except in cases of emergency or referral by a panel member. ( )

05. Consolidated Omnibus Budget Reconciliation Act of 1985 or "COBRA". Coverage provided under a right of continuation pursuant to federal law. ( )

06. Coordination of Benefits (COB). A provision establishing an order in which plans pay their claims, and permitting secondary plans to reduce their benefits so that the combined benefits of all plans do not exceed total allowable expenses. ( )

07. Custodial Parent. The parent awarded custody by a court decree. In the absence of a court decree, the parent with whom the child resides more than one half of the calendar year without regard to any temporary visitation. ( )

08. Group-Type Contract. A contract that is not available to the general public and is obtained and maintained only because of membership in or a connection with a particular organization or group, including blanket coverage. Group-type contract does not include an individually underwritten and issued guaranteed renewable policy even if the policy is purchased through payroll deduction at a premium savings to the insured since the insured would have the right to maintain or renew the policy independently of continued employment with the employer. ( )

09. High-Deductible Health Plan. Has the meaning given the term under Section 223 of the Internal Revenue Code of 1986, as amended by the Medicare Prescription Drug, Improvement and Modernization Act of 2003. ( )

10. Hospital Indemnity Benefits. The benefits not related to expenses incurred. The term does not include reimbursement-type benefits even if they are designed or administered to give the insured the right to elect indemnity-type benefits at the time of claim. ( )

11. Plan. A form of coverage with which coordination is allowed. Separate parts of a plan for members of a group that are provided through alternative contracts that are intended to be part of a coordinated package of benefits are considered one plan and there is no COB among the separate parts of the plan. If a plan coordinates benefits, its contract states the types of coverage that will be considered in applying the COB provision of that contract. Whether the contract uses the term "plan," or some other term such as "program," the contractual definition may be no broader than this definition. The definition of "plan" in the incorporated Appendix A is an example. ( )

a. Plan includes: ( )

i. Group and nongroup insurance contracts and subscriber contracts; ( )

ii. Uninsured group or group-type coverage arrangements; ( )

iii. Group and nongroup coverage through closed panel plans; ( )

iv. Group-type contracts; ( )

v. The medical care components of long-term care contracts, such as skilled nursing care; ( )

vi. Medicare or other governmental benefits, except as provided in Subparagraph 010.11.b.ix. of this chapter. That part of the definition of plan may be limited to the hospital, medical and surgical benefits of the governmental program. ( )

vii. The medical benefits coverage in automobile "no fault" and traditional automobile "fault" type contracts. No plan is prescribed to coordinate benefits provided that it pays benefits as a primary plan. If a plan coordinates benefits, it will do so in compliance with the provisions of this chapter. ( )

viii. Group and nongroup insurance contracts and subscriber contracts that pay or reimburse for the cost of dental or vision care. ( )

b. Plan does not include: ( )

i. Hospital indemnity coverage or other fixed indemnity coverage; ( )

ii. School accident-type coverages, such as contracts that cover students for accidents only, including athletic injuries, either on a twenty-four (24) hour basis or on a "to and from school" basis; ( )

iii. Specified disease or specified accident coverage; ( )

iv. Accident only coverage; ( )

v. Benefits provided in long-term care insurance policies for non-medical service; for example, personal care, adult daycare, homemaker services, assistance with activities of daily living, respite care, and custodial care or for contracts that pay a fixed daily benefit without regard to expenses incurred or the receipt of services; ( )

vi. Limited benefit health coverage as defined in IDAPA 18.04.08, "Individual Disability and Group Supplemental Disability Insurance Minimum Standards Rule." ( )

vii. Medicare supplement policies; ( )

viii. A state plan under Medicaid; or ( )

ix. A governmental plan which, by law, provides benefits that are in excess of those of any private insurance plan or other nongovernmental plan. ( )

12. Policyholder. The primary insured named in a non-group insurance policy. ( )

13. Primary Plan. A plan whose benefits for a person's health care coverage needs to be determined without taking the existence of any other plan into consideration. A plan is a primary plan if; ( )

a. The plan either has no order of benefit determination rules, or its rules differ from those permitted by this rule; or ( )

b. All plans that cover the person use the order of benefit determination prescribed by this rule, and under those rules the plan determines its benefits first. ( )

14. Secondary Plan. A plan that is not a primary plan. ( )

011. -- 020. (RESERVED)

021. USE OF MODEL COB CONTRACT PROVISION.

01. Coordination of Benefits. The incorporated by reference Appendix A contains a model COB provision for use in contracts. The use of this model COB provision is subject to the provisions of Subsections 021.02 through 021.04 and the provisions of Section 022. ( )

02. Coordination of Benefits Attachment. The incorporated by reference Appendix B is a plain language description of the COB process that explains to the covered person how health plans will implement coordination of benefits. It is not intended to replace or change the provisions that are set forth in the contract. Its purpose is to explain the process by which two (2) or more plans will pay for or provide benefits. ( )

03. Application of Requirements. The COB provision contained in the incorporated by reference Appendix A and the plain language explanation in the incorporated by reference Appendix B do not have to use the specific words and format as shown. Changes may be made to fit the language and style of the rest of the contract or to reflect differences among plans that provide services, that pay benefits for expenses incurred and that indemnify. No substantive changes are permitted. ( )

04. Limits on COB Provisions. A COB provision will not be used that permits a plan to reduce benefits on the basis that: ( )

a. Another plan exists and the covered person did not enroll in that plan; ( )

b. A person is or could have been covered under another plan, except with respect to Part B of Medicare; or ( )

c. A person has elected an option under another plan providing a lower level of benefits than another option that could have been elected. ( )

05. "Always Excess" or "Always Secondary." No plan may contain a provision that its benefits are "always excess" or "always secondary" except in accordance with this rule. ( )

06. Closed Panel Provider. Under the terms of a closed panel plan, benefits are not payable if the covered person does not use the services of a closed panel provider. In most instances, COB does not occur if a covered person is enrolled in two (2) or more closed panel plans and obtains services from a provider in one of the closed panel plans because the other closed panel plan (the one whose providers were not used) has no liability. However, COB may occur during the plan year when the covered person receives emergency services that would have been covered by both plans; the secondary plan will use the provisions of Section 023 of this chapter to determine the amount it should pay for the benefit. ( )

07. Plan Requirements. No plan may use a COB provision, or any other provision that allows it to reduce its benefits with respect to any other coverage its insured may have that does not meet the definition of plan under Subsection 010.11 of this rule. ( )

022. RULES FOR COORDINATION OF BENEFITS.

01. Order of Benefit Payments. When a person is covered by two (2) or more plans, the rules for determining the order of benefit payments are as follows: ( )

a. The primary plan pays or provides its benefits as if the secondary plan or plans did not exist. ( )

b. If the primary plan is a closed panel plan and the secondary plan is not a closed panel plan, the secondary plan pays or provides benefits as if it were the primary plan when a covered person uses a non-panel provider, except for emergency services or authorized referrals that are paid or provided by the primary plan. ( )

c. When multiple contracts providing coordinated coverage are treated as a single plan under this rule, Section 022 of this chapter applies only to the plan as a whole, and coordination among the component contracts is governed by the terms of the contracts. If more than one (1) carrier pays or provides benefits under the plan, the carrier designated as primary within the plan is responsible for the plan's compliance with this rule. ( )

d. If a person is covered by more than one (1) secondary plan, the order of benefit determination requirements of this rule decide the order in which secondary plan benefits are determined in relation to each other. Each secondary plan takes into consideration the benefits of the primary plan or plans and the benefits of any other plan, which, under the requirements of this rule, has its benefits determined before those of that secondary plan. ( )

02. Consistent Order of Benefit Provisions. Except as provided in Paragraph 022.02.a. of this chapter, a plan that does not contain order of benefit determination provisions that are consistent with this rule is always the primary plan unless the provisions of both plans, regardless of the provisions of Subsection 022.02 of this chapter, state that the complying plan is primary. ( )

a. Coverage that is obtained by virtue of membership in a group and designed to supplement a part of a basic package of benefits may provide that the supplementary coverage is excess to any other parts of the plan provided by the contract holder. Examples of these types of situations are major medical coverages that are superimposed over base plan hospital and surgical benefits, and insurance type coverages that are written in connection with a closed panel plan to provide out-of-network benefits. ( )

b. A plan may take into consideration the benefits paid or provided by another plan only when, under the requirements of this rule, it is secondary to that other plan. ( )

03. Order of Benefit Determination. Each plan determines its order of benefits using the first of the following rules that applies. ( )

a. The plan that covers the person other than as a dependent, for example, as an employee, member, subscriber, policyholder or retiree, is the primary plan and the plan that covers the person as a dependent is the secondary plan. However, if the person is a Medicare beneficiary and, as a result of the provisions of Title XVIII of the Social Security Act and implementing rules, Medicare is: ( )

i. Secondary to the plan covering the person as a dependent; and ( )

ii. Primary to the plan covering the person as other than a dependent (e.g. a retired employee), then the order of benefits is reversed so that the plan covering the person as an employee, member, subscriber, policyholder or retiree, is the secondary plan and the other plan covering the person as a dependent is the primary plan. ( )

b. Unless there is a court decree stating otherwise, plans covering a dependent child determine the order of benefits as follows: ( )

i. For a dependent child whose parents are married or are living together, whether or not they have ever been married: ( )

(1) The plan of the parent whose birthday falls earlier in the calendar year is primary plan; or ( )

(2) If both parents have the same birthday, the plan that has covered the parent longest is the primary plan. ( )

ii. For a dependent child whose parents are divorced or separated or are not living together, whether or not they have ever been married: ( )

(1) If a court decree states that one of the parents is responsible for the dependent child's health care expenses or health care coverage and the plan of that parent has actual knowledge of those terms, that plan is primary. If the parent with responsibility has no health care coverage for the dependent child's health care expenses, but that parent's spouse does, that parent's spouse's plan is the primary plan. This does not apply with respect to any plan year during which benefits are paid or provided before the entity has actual knowledge of the court decree provisions; ( )

(2) If a court decree states that both parents are responsible for the dependent child's health care expenses or health care coverage, the provisions of Subparagraph 022.03.b.i. of this chapter determine the order of benefits; ( )

(3) If a court decree states that the parents have joint custody without specifying that one (1) parent has responsibility for the health care expenses or health care coverage of the dependent child, the provisions of Subparagraph 022.03.b.i. of this chapter determine the order of benefits; or ( )

(4) If there is no court decree allocating responsibility for the child's health care expenses or health care coverage, the order of benefits for the child are as follows: ( )

(a) The plan covering the custodial parent; ( )

(b) The plan covering the custodial parent's spouse; ( )

(c) The plan covering the noncustodial parent; and then ( )

(d) The plan covering the noncustodial parent's spouse. ( )

(5) For a dependent child covered under more than one plan of individuals who are not the parents of the child, the order of benefits is determined, as applicable under Subparagraph 022.03.b.i. or 022.03.b.ii. of this chapter as if those individuals were parents of the child. ( )

(6) For a dependent child who has coverage under either or both parents' plans and also has their own coverage as a dependent under a spouse's plan, the provisions of Paragraph 022.02.e. apply. In the event the dependent child's coverage under the spouse's plan began on the same date as the dependent child's coverage under either or both parents' plans, the order of benefits is determined by applying the birthday rule in Subparagraph 022.02.b.i. to the dependent child's parent(s) and the dependent's spouse. ( )

c. The plan that covers a person as an active employee; that is, an employee who is neither laid-off nor retired or as a dependent of an active employee is the primary plan. The plan covering that same person as a retired or laid-off employee or as a dependent of a retired or laid-off employee is the secondary plan. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this rule is ignored. Coverage provided an individual as a retired worker and as a dependent of that individual's spouse as an active worker will be determined under Paragraph 022.03.a. of this chapter. ( )

d. If a person whose coverage is provided pursuant to COBRA or under a right of continuation pursuant to federal or state law is covered under another plan, the plan covering the person as an employee, member, subscriber or retiree or covering the person as a dependent of an employee, member, subscriber or retiree is the primary plan and the plan covering that same person pursuant to COBRA or under a right of continuation pursuant to state or other federal law is the secondary plan. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this rule is ignored. This provision does not apply if the rule in Paragraph 022.03.a. of this chapter can determine the order of benefits. ( )

e. If the preceding rules do not determine the order of benefits, the plan that covered the person for the longer period of time is the primary plan and the plan that covered the person for a shorter period of time is the secondary plan. ( )

i. To determine the length of time a person has been covered under a plan, two (2) successive plans are treated as one (1) if the covered person was eligible under the second plan within twenty-four (24) hours after the coverage under the first plan ended. ( )

ii. The start of a new plan does not include: ( )

(1) A change in the amount or scope of a plan's benefits; ( )

(2) A change in the entity that pays, provides or administers the plan's benefits; or ( )

(3) A change from one type of plan to another such as from a single employer plan to a multiple employer plan. ( )

iii. The person's length of time covered under a plan is measured from the person's first date of coverage under that plan. If that date is not readily available for a group plan, the date the person first became a member of the group is used as the date from which to determine the length of time the person's coverage under the present plan has been in force. ( )

f. If none of the preceding rules determines the order of benefits, the allowable expenses are shared equally between the plans. ( )

023. PROCEDURE TO BE FOLLOWED BY SECONDARY PLAN.
In determining the amount to be paid by the secondary plan on a claim, should the plan wish to coordinate benefits, the secondary plan calculates the benefits it would have paid on the claim in the absence of other health care coverage and apply that calculated amount to any allowable expense under its plan that is unpaid by the primary plan. The secondary plan may reduce its payment by the amount so that, when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim do not exceed one hundred percent (100%) of the total allowable expense for that claim. In addition, the secondary plan credits to its plan deductible any amounts it would have credited to its deductible in the absence of other benefit care coverage. ( )

024. NOTICE TO COVERED PERSONS.
A plan, in its explanation of benefits provided to covered persons, includes the following language: "If you are covered by more than one (1) health benefit plan, you should file all your claims with each plan." ( )

025. MISCELLANEOUS PROVISIONS.

01. Benefits in the Form of Services. A secondary plan that provides benefits in the form of services may recover the reasonable cash value of the services from the primary plan, to the extent that benefits for the services are covered by the primary plan and have not already been paid or provided by the primary plan. Nothing in this provision requires a plan to reimburse a covered person in cash for the value of services provided by a plan which provides benefits in the form of services. ( )

02. Complying Plan Versus Noncomplying Plan. A plan with order of benefit determination rules that comply with this rule (complying plan) may coordinate its benefits with a plan that is "excess" or "always

secondary" or that uses order of benefit determination rules that are inconsistent with those contained in this rule (noncomplying plan) on the following basis: ( )

a. If the complying plan is the primary plan, it pays or provides its benefits first; ( )

b. If the complying plan is the secondary plan, it pays or provides its benefits first, but the amount of the benefits payable is determined as if the complying plan were the secondary plan. In such a situation, the payment is the limit of the complying plan's liability; and ( )

c. If the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan assumes that the benefits of the noncomplying plan are identical to its own and pays its benefits accordingly. If, within two (2) years of payment, the complying plan receives information as the actual benefits of the noncomplying plan, it adjusts payments accordingly. ( )

i. If the noncomplying plan reduces its benefits so that the covered person receives less in benefits than the covered person would have received had the complying plan paid or provided its benefits as the secondary plan and the noncomplying plan paid or provided its benefits as the primary plan, and governing state law allows the right of subrogation set forth below, then the complying plan advances to the covered person or on behalf of the covered person an amount equal to the difference. ( )

ii. In no event does the complying plan advance more than the complying plan would have paid had it been the primary plan less any amount it previously paid for the same expense or services. In consideration of the advance, the complying plan is subrogated to all rights of the covered person against the noncomplying plan. The advance by the complying plan is to be without prejudice to any claim it may have against the noncomplying plan in the absence of such subrogation. ( )

03. COB Versus Subrogation. COB differs from subrogation. Provisions for one may be included in health care benefits contracts without compelling the inclusion or exclusion of the other. ( )

04. Timely Payment of Benefits. If the plans cannot agree on the order of benefits within thirty (30) calendar days after the plans have received all of the information needed to pay the claim, the plans immediately pay the claim in equal shares and determine their relative liabilities following payment, except that no plan is obligated to pay more than it would have paid had it been primary. 001. TITLE AND SCOPE.

01. Title. IDAPA 18.04.15, "Rules Governing Short-Term Health Insurance Coverage." ( )

02. Purpose and Scope. Implement Title 41, Chapters 21, 42, and 52, Idaho Code, regarding short-term, limited-duration insurance by defining rules for enhanced short-term plans and nonrenewable short-term coverage, including minimum standards for benefits, rating rules, enrollment, renewability, and disclosure provisions. ( )

03. Applicability. This rule applies to all enhanced short-term plans and nonrenewable short-term coverage that provide medical expense coverage. ( )

002. -- 009. (RESERVED)

02. Guaranteed Issue. Enhanced short-term plans are only to be offered on a guaranteed issue basis. ( )

03. Portability. Enhanced short-term plan coverage is qualifying previous coverage under Title 41,

Chapter 52, Idaho Code. Preexisting condition exclusions are to be waived for the period of time an individual was previously covered by an enhanced short-term plan or other qualifying previous coverage. ( )

04. Requirement to Offer Exchange Plans. To offer an enhanced short-term plan, a carrier is to offer individual QHPs through the Exchange in the same service area. ( )

012. GENERAL RULES FOR NONRENEWABLE SHORT-TERM COVERAGE.
Nonrenewable short-term coverage is subject to the provisions of IDAPA 18.04.13, Sections 081, 082, and 101. ( )

013. -- 019. (RESERVED)

020. ENROLLMENT.

01. Enhanced Short-term Plans. There are two exclusive options for enhanced short-term plan enrollment. ( )

a. Year-round Enrollment. If a carrier allows year-round enrollment in enhanced short-term plans, the following provisions apply: ( )

i. A preexisting condition exclusion period, as defined at Subsection 010.04, may be applied, subject to Section 41-5208, Idaho Code. ( )

ii. The policy is to be offered on a plan year basis, not a calendar year basis. ( )

b. Annual Open Enrollment Period. If a carrier restricts enrollment in enhanced short-term plans to an annual open enrollment period, the following apply: ( )

i. No preexisting condition exclusion period may be applied. ( )

ii. The beginning and ending dates of the open enrollment period are identical to those for enrollment in QHPs, unless the Director allows an extension of the open enrollment period for enhanced short-term plans after determining it is in the public interest. ( )

iii. Special enrollment periods are to be allowed to the same extent as QHP enrollment. ( )

02. Nonrenewable Short-term Coverage. Nonrenewable short-term coverage is to be offered on a year-round basis. ( )

021. RENEWAL AND REISSUANCE.

01. Enhanced Short-term Plans Renewals. ( )

a. A policy is to be renewable at the option of the enrollee, consistent with Section 41-5207, Idaho Code. ( )

b. No new application or questions concerning the health or medical condition of the covered individuals may be requested to effectuate the renewal. ( )

c. A policy is not to be renewable beyond thirty-six (36) consecutive months. ( )

d. Upon exhaustion of a policy's renewability due to duration or age, the policyholder is eligible for enrollment into fully renewable coverage, including all of the current carrier's QHPs, when an enhanced short-term policy has been in effect for at least eleven (11) months. Timely notification of eligibility is to be provided to the policyholder plus the notification of any offer of reissuance. ( )

02. Enhanced Short-term Plans Reissuances. Upon exhausting renewability due to duration or age,

the following provisions apply to reissuance: ( )

a. No new application or questions concerning the health or medical condition of the covered individuals may be requested for reissuance. ( )

b. The reissuance premium rate is a change in premium rate subject to IDAPA 18.04.13.036.17. ( )

03. Nonrenewable Coverage. Carriers are not to renew nonrenewable short-term coverage and are not to reissue or replace nonrenewable short-term coverage issued by the same or another carrier. ( )

022. RATING REQUIREMENTS.

01. Enhanced Short-term Plans. In addition to the requirements applicable to individual health benefit plans, the following rating requirements apply: ( )

a. Premium rates do not vary by gender. ( )

b. Geographic rating areas are identical to those used for Exchange-offered QHPs. ( )

c. Medical underwriting criteria may be used to ascertain the risk characteristics of an applicant, if the criteria are limited to those in the Universal Health Statement Addendum and available claims data. ( )

d. Enhanced short-term plans comprise a single risk pool with the carrier's other actively marketed individual health benefit plans subject to Title 41, Chapter 52, Idaho Code. ( )

e. The rating period is on a calendar year basis, whereby the rates filed apply to all enrollees uniformly during a given calendar year and premium rate changes occur at the start of a new calendar year. ( )

02. Nonrenewable Short-term Coverage. The following rating requirements apply: ( )

a. The rates cannot utilize case characteristics other than age, individual tobacco use, and geography but may vary by the duration of coverage requested. ( )

b. Case characteristics are applied uniformly, without regard to the risk characteristics of an eligible individual. ( )

c. The premium rate is not affected by an applicant's risk characteristics or health status. ( )

d. The premium rate remains the same for the duration of the policy. ( )

023. -- 029. (RESERVED)

030. MINIMUM STANDARDS FOR BENEFITS.

b. Miscellaneous hospital services; ( )

c. Surgical services; ( )

d. Anesthesia services; ( )

e. In-hospital medical services; and ( )

f. Out-of-hospital care, consisting of physicians' services rendered on an ambulatory basis where coverage is not provided elsewhere in the policy for diagnosis and treatment of sickness or injury, diagnostic x-ray, laboratory services, radiation therapy, and hemodialysis ordered by a physician. ( )

02. Minimum Additional Benefits. A separate premium corresponding to additional benefits offered through a rider is to be filed and actuarially justified. A policy is to provide not fewer than three (3) of the following additional benefits: ( )

a. In-hospital private duty registered nurse services; ( )

b. Convalescent nursing home care; ( )

c. Diagnosis and treatment by a radiologist or physiotherapist; ( )

d. Rental of special medical equipment, as defined by the insurer in the policy; ( )

f. Treatment for functional nervous disorders, and mental and emotional disorders; or ( )

g. Out-of-hospital prescription drugs and medications. ( )

03. Enhanced Short-term Plans Covered Benefits. The following covered benefits and limitations are to be provided consistent with the Benchmark Medical Plan, including: ( )

04. Prescription Drug Formulary. If a prescription drug coverage formulary is applied, the applicable formulary drug list is to: ( )

a. Include at least one drug in every United States Pharmacopeia (USP) category and class; ( )

b. Cover a range of drugs across a broad distribution of therapeutic categories and classes and recommended drug treatment regimens that treat all covered disease states, and does not discourage enrollment by any group of enrollees; and ( )

c. Provide appropriate access to drugs included in broadly accepted treatment guidelines and indicative of then-current general best practices. ( )

05. Cost Sharing. ( )

a. Except for out-of-network benefits offered as part of a managed care plan, a coinsurance percentage is not to exceed fifty percent (50%) of covered charges. A coinsurance percentage for out-of-network benefits offered as part of a managed care plan is not to exceed sixty percent (60%) of covered charges. ( )

b. The maximum out-of-pocket is to be stated in the policy and in aggregate is not to exceed four percent (4%) of the aggregate annual limit under the policy for each covered person. All deductibles, copayments, coinsurance and any other cost-sharing are applicable to the maximum out-of-pocket. Within the aggregate maximum, the policy may include separate out-of-pocket limits applicable to particular services. ( )

c. The annual limit is no less than one million dollars ($1,000,000) for each covered person. ( )

d. Enhanced short-term plans are to provide coverage for and not impose any cost sharing requirements for preventive and wellness services consistent with QHP requirements. ( )

06. Applicability of Mental Health Parity. Enhanced short-term plans are to meet the requirements of Section 2726 of the Public Health Service Act (Mental Health Parity and Addiction Equity Act) in the same manner and extent as QHPs. ( )

07. Benefit Requirements. The minimum benefits imposed by Subsections 030.01, 030.02, and 030.03 may be subject to all applicable deductibles, coinsurance and general policy exceptions and limitations. Except as disallowed by Subsections 030.03, 030.05, and 030.06, a policy may also have special or internal limitations for nursing facilities, transplants, experimental treatments, services covered under Subsection 030.02, and other special or internal limitations authorized by the Director. Except as authorized by this Subsection through the application of special or internal limitations, a policy will cover, after any deductibles or coinsurance provisions are met, the usual, customary and reasonable charges, as determined consistently by the carrier and as subject to prior written approval by the Director or another rate agreed to between the insurer and provider, for covered services up to the annual limit. ( )

031. -- 039. (RESERVED)

040. DISCLOSURE PROVISIONS.
Polices subject to this chapter will include in the application for coverage, any application materials, and the insurance contract, the following language in at least 14-point type:

"This coverage is not required to comply with certain federal market requirements for health insurance, principally those contained in the Affordable Care Act. Be sure to check your policy carefully to make sure you are aware of any exclusions or limitations regarding coverage of preexisting conditions or health benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs, and mental health and substance use disorder services). Your policy might also have lifetime and/or annual dollar limits on health benefits. If this coverage expires or you lose eligibility for this coverage, you might have to wait until an open enrollment period to get other health insurance coverage." ( )

c. Clarifies consumer protection on title insurance products. ( )

d. Preserves the financial stability of title insurers and title insurance agents. ( )

e. Defines certain fair trade practice standards for title insurance, the violation of which will constitute rebates and/or illegal inducements by Sections 41-2708(3) and 41-1314, Idaho Code. This rule does not limit the Director's authority to determine that other title insurance trade practices constitute violations of Title 41, Chapter 27 and 41-1314, Idaho Code. ( )

002. -- 009. (RESERVED)

010. DEFINITIONS.
All terms defined in Title 41, Chapters 1, 13, and 27, Idaho Code, which are used in this rule will have the same meaning as used in those chapters. ( )

07. Issuance of a Policy. The preparation, execution and delivery of a title insurance policy which is deemed to be only a contract of insurance up to the face amount of such policy and will in no way create a tort liability as to the condition of the record insured from. Issuance of the policy will not include services which are essentially escrow or closing services, such as receiving and disbursing money, prorating insurance and taxes, etc., for which an escrow fee will be charged. It is not the responsibility of the policy issuer to cure defects of title or remove liens or encumbrances. Title insurers and title insurance agents issuing title insurance policies will not do any acts which constitute the practice of law and the premium will not include the cost of legal services to be performed for the benefit of anyone other than the company. A title insurance agent who is also a licensed lawyer rendering any legal services in the transaction insured will render a separate legal billing and the escrow fees will not include such legal services. 011. TRACT INDEXES OR ABSTRACT RECORDS.

For clarification and guidance, the following is considered to be the correct definition or meaning of "a complete set of tract indexes or abstract records" as used in Section 41-2702, Idaho Code: A set of indexes from which the record ownership and condition of title to all land within a particular county can be traced and ascertained. Tract indexes and abstract records will be maintained and posted to current date and will include adequate maps that will enable a person working the title plant to locate a tract of land that is the subject of the title examination. The basic component parts of such a set of indexes are: ( )

01. Basic Component Parts. An index or indexes, to be complete from the inception of title from the United States of America, in which the reference is to geographic subdivisions of land, classified according to legal description, (as distinguished from an index or indexes in which the reference is to the name of the title holder, commonly called a grantor-grantee index) wherein notations of or references to: ( )

a. All filed or recorded instruments legally affecting title to particularly described parcels of real property and which impart constructive notice under the recording laws; and ( )

b. All judicial proceedings in the particular county legally affecting title to particularly described parcels of real property are posted, filed, entered or otherwise included in that part of the indexing system which designates the particular parcel of real property; provided, no reference need be made in such index to any judicial proceeding which is referred to or noted in the name index defined in Subsection 011.02 of these rules. ( )

c. No requirement is made for taxes and assessments, water or otherwise, or for water and mineral rights, land use regulations, and zoning ordinances to be made a part of the plant records. ( )

02. Name Index or Indexes. A name index or indexes wherein notations of or references to all instruments, proceedings and other matters of record in the particular county which legally affects or may legally affect title to all real property (as distinguished from particularly described parcels of real property) of the person, partnership, corporation or other entity named and affected, including guardianships, absentee, bankruptcies, receiverships, divorces and mental illness matters, if available, are posted, filed, entered or otherwise included in that part of the indexing system which designates the same. ( )

03. Index Maintenance. The indexes prescribed in Subsection 011.01 may be maintained in bound books, looseleaf books, jackets or folders, on card files, or in any other form or system, whether manual, mechanical, electronic or otherwise; or in any combination of such forms or systems. ( )

04. Subdivision or Refinement. The extent to which the prescribed indexes are subdivided or refined is dependent upon all relevant circumstances. The population of the particular county, the extent to which land within

the particular county has been subdivided and passed into separate ownerships, and all other factors which are reasonably related to the purpose of the statutory requirements are entitled to consideration in such determination. ( )

05. Discarding or Destroying. Any requirement established in this rule to the contrary notwithstanding, it is permissible to discard and destroy prior index books, jackets, folders, cards, photoprints or files pertaining to recorded instruments affecting title to particularly described parcels of real property once the titles to such particularly described parcels have been searched, examined and a policy of owner's title insurance issued thereon. The discarding and destruction of prescribed index components is applicable only when a permanent copy of the search notes, examiner's opinion and issued policy is retained in lieu of the discarded and destroyed index components. ( )

012. PROCEDURAL RULES.

01. Miscellaneous Reports. Where an insurer or its agent issues judgment reports, lot book reports or property search reports, each such report will specifically contain the following statement: "This report is based on a search of our tract indexes of the county records. This is not a title or ownership report and no examination of the title to the property described has been made. For this reason, no liability beyond the amount paid for this report is assumed hereunder, and the company is not responsible beyond the amount paid for any errors and omissions contained herein." ( )

02. Special Exceptions. An insurer may insert such special exception(s) as may develop from an examination of the title. A special exception will specifically describe the item excepted to and will not be general in terms. The printed provisions of a filed policy form, including exclusions from coverage, exceptions not insured against and stipulations and conditions will not be deemed special exceptions. ( )

03. Liens and Encumbrances, Standards of Insurability and Insuring Around. The determination of insurability as to liens and encumbrances under Sections 41-2708(1) and the risk disallowed under 41-2708(2), Idaho Code, intentionally omitting an outstanding enforceable recorded lien or encumbrance, are interpreted by the insurance director to mean: ( )

a. "Intentionally" omitting an outstanding enforceable recorded lien or encumbrance is the issuance of the policy with the intent to conceal information from any person by suppressing or withholding title information, the consequence of which could result in a monetary loss either to the title insurance company or to the insured under the policy or binder. ( )

b. "Outstanding enforceable recorded lien or encumbrance" and/or "determination of insurability" as to possible liens and encumbrances will not be construed as preventing an insurer from issuing a policy without taking exception to a specific recorded, inchoate, or death tax item when sound underwriting standards and practices allow insurance against the item. Defects of title are not regulated by this provision. Specifically, a policy may be issued without taking exception to the following items on the conditions set out: ( )

i. Where a lien securing an obligation, though not released of record, to the satisfaction of the insurer has been discharged and the insurer or its agent has documentary evidence in its file that the obligation has been paid in full. ( )

ii. Where funds are in escrow to pay said item and a recordable release in form for filing is available for recording in the ordinary course of business. ( )

iii. Where liens, in the opinion of counsel, are barred by the statute of limitations. ( )

iv. Where inchoate liens may arise from improvements to the described property and may have priority over a mortgage being insured and a sufficient indemnity defined has been delivered to and accepted by the insurer, or sufficient funds, including short term treasury bills and notes, have been deposited with the insurer or its agent to assure ultimate payment and release of such liens; provided, an exception as to such inchoate liens will be shown on the policy with a provision insuring against enforcement. Sufficient indemnity as used herein will mean a direct obligation to pay such liens in an amount judged adequate by the insurer executed by a financial institution

regulated by the state or federal government or executed by a responsible person as hereinafter defined. This subsection will also apply to recorded liens being contested if the indemnity is one hundred and fifty percent (150%) of the claim and is by such financial institution or in said funds. ( )

v. Where the insurer has previously issued a policy without taking exception to the specific item and is called upon to issue an additional policy where it is already obligated under such prior policy and where the new policy will not increase its liability or exposure; provided, an exception as to such item will be shown on the policy with a provision insuring against the enforcement thereof. ( )

vi. When the mortgage policy issued insures validity and priority of a lien, the insurer need not itemize liens which are subordinate to the lien insured, whether by express subordination or operation of law, unless such subordinated matters are shown to comply with a policy provision, or unless requested by the insured to do so; provided, when issuing a preliminary report, commitment or a binder for a mortgagee's policy all subordinate liens will be shown but a statement may be made that they are subordinate. ( )

vii. With reference to federal estate taxes and state inheritance taxes which have not been paid, where the insurer has examined a balance sheet of the estate and determined more than adequate funds are on hand to pay such taxes, and the insurer has taken an indemnity from a responsible person protecting itself against such unpaid taxes, or where sufficient moneys or other securities to pay such taxes have been placed in escrow pending the payment thereof or pending receipt of waiver of lien from the taxing authority. ( )

viii. "Responsible person" is one (1), or more than one (1) if they are jointly and severally liable, each of whose current verified balance sheet upon examination is determined by the insurer to be sufficient for the purpose of the indemnity given. Verified copies of all statements will be retained by the insurer or its agent. ( )

04. Mechanics' Liens, Disallowed Risk. Under the provisions of Section 41-2708, Idaho Code, the Insurance Director has determined under standards of insurability, disallowed risks and rebates, that under all forms of mortgage policies the risk insured will not include unrecorded liens and encumbrances, including contractors', subcontractors' professional services, materialmen's and mechanics' liens, unless: ( )

a. The mortgage will have been placed of record prior to commencement of any improvement on the premises and the insurer is satisfied that the mortgage and related documents with reference to such priority; or ( )

b. Unless the provisions of Subsections 012.03.b.ii., 012.03.b.iii. or 012.03.b.iv., and 012.03.b.viii. as applicable have been complied with; or ( )

c. Unless the insurer has satisfied itself and documented its file that construction has been completed and the time for filing liens has expired. ( )

05. Usury, Truth in Lending Disclosures. Protection against usury, or disclosures prescribed in consumer credit protection acts, truth in lending acts, or similar acts imposing duties on lenders, do not constitute a part of the issuance of title insurance policies. Title insurers and their agents will not prepare or pass judgment on documents as to usury nor on disclosure documents and notice of right of rescission documents demanded by any such acts or make any computations as essential therein, in the issuance of title insurance policies; provided, an endorsement to a mortgage policy insuring that the loan is one by definition of the Truth in Lending Act exempt from rescission is permissible. Nothing herein will prevent such title insurers or their agents from performing closing or escrow services involving such matters when a proper fee is obtained therefor. ( )

06. Filing, Approval, Unique Contract or Rate. Whenever a title insurer is requested to insure a unique kind or class of risk for which a premium rate or form of policy or endorsement has not been filed, neither of which lends itself to an advance filing and determination of said rate or form, pursuant to Section 41-2706(4), such title insurer may make a written application to the Director of Insurance for approval of said special rate or form without complying with the filing notice and thirty (30) day waiting provisions of Section 41-2707 upon complying with the following requirements: ( )

a. The insurer has not agreed to the special rates, nor agreed to issue the special policy or

endorsement, prior to making an application to the Director of Insurance. ( )

b. The insurer will make a written application to the Director of Insurance, requesting approval of the applicable special rate or special insurance policy or endorsement, wherein the insurer will set forth why the particular rate or policy or endorsement is unique as to the risk or form, that such item has or has not ever arisen in the past five (5) years to the knowledge of said insurer, and the circumstances if it has previously arisen in said period, and the circumstances which now arise which necessitate said rate, policy or endorsement and an analysis comparing said unique rate, policy or endorsement to the nearest comparable filed rate, policy or endorsement and justifying the difference on the basis of Sections 41-2706(1) and (2), Idaho Code. Such application will have attached to it the proposed policy or endorsement form. The Director of Insurance will have ten (10) working days after the date of receipt of such application to disapprove the same, and the filing will be deemed effective if the same is not disapproved within such time. The burden is upon the insurer to make inquiry after the expiration after said ten (10) days to determine whether a disapproval has been made, whether or not mailed notice of such disapproval has not yet been received by said insurer. ( )

c. These provisions are only applicable to rates, policies and endorsements, which by reason of the rarity of the event, or the peculiarity of the circumstances, do not lend themselves to a general advance determination and filing of said item. Applications under this rule and the applicable statute will not be approved if it appears either that said application does not meet the standards of the statute or is such a deviation from the usual policy form or rate most nearly applicable thereto as to be an unsound underwriting practice or an inadequate premium. ( )

013. PREMIUM RATES AND THEIR APPLICATION.

01. Schedule of Premium Rates. Each title insurer will file its schedule of premium rates (including both the taxable risk portion and the service portion) for title insurance charged the public for all policies, which premium rates commence with the lowest rate and advance by one thousand dollars ($1,000) increments. The rate schedule will include owner's, standard mortgagee and extended coverage mortgagee policies, and may include other rates. In addition, any charges made for special endorsements will be listed and the type of policy to which applicable. Filed rates will provide that where a preliminary report is issued, the order for the policy may be canceled prior to closing. The applicant may be requested to pay a cancellation fee. The premium rates for policies will only include title examination and issuance of title insurance which will be deemed to include any preliminary report, commitment to insure, binder or similar report (herein collectively called preliminary report) and the policy subsequently issued thereon. If more than one (1) chain of title is involved, an additional charge will be made for each additional chain. An additional chain is one involving property in a different block or section or under a different ownership within the last five (5) years. ( )

02. Issuing Binders, Commitments or Preliminary Reports. No title insurer or title insurance agent will issue a title insurance binder, commitment or preliminary report without an order. ( )

03. Amount of Owner's Policy. An owner's policy will be issued for not less than (a) the amount of the current sales price of the land and any existing improvements appurtenant thereto, or (b) if no sale is being made, the amount equal to the value of the land and any existing improvements at the time of the issuance of the policy. If improvements are contemplated, the amount may include the cost of such improvements immediately contemplated to be erected thereon with a following pending improvement clause set forth in Schedule B of said policy and the full premium collected, which clause reduces the policy amount to the extent the improvements are not completed. The amount of policies covering leasehold estates for a term of fifty years or more will be for the full value of the land and existing improvements, and for less than fifty years will be for an amount at the option of the insured based on either the total amount of the rentals payable for the primary term but not less than five (5) years, or the full value of the land and existing improvements together with any improvements immediately contemplated to be erected thereon. The amount of policies insuring contract purchasers will be for the full value of the principal payments. Insurance of lesser estates will be written for the amount of the value of the estate at the time the policy is issued. ( )

04. Amount of Mortgagee Policies. A mortgagee's policy will be for not less than the full principal debt of the loan insured and at insured's request may include up to twenty percent (20%) in excess of the principal debt to cover interest, foreclosure costs, etc. Where the land covered represents only part of the security for the loan, the policy will be written for the amount of the unencumbered value of the land or the amount of the loan, whichever is the lesser. ( )

05. Simultaneous Issuance of Owner's and Mortgagee's Policy. When an owner's policy and a mortgage policy covering identical land are simultaneously issued, the owner's policy will bear the regular owner's rate. Premium for the mortgagee policy simultaneously issued may be for an amount less than the full mortgagee rate for the amount of insurance not in excess of the owner's policy. ( )

06. Double Sale and Reissue. No order will be held open to cover a double sale and the premium will be charged and the policy issued on each sale, unless the conveyance on resale is recorded at the same time as the original transaction. A title insurer may file an owner's reissue rate of not less than fifty percent (50%) of the basic rate which will be applicable to any policy ordered within two (2) years of the effective date of a prior owner's or purchaser's policy naming applicant as the insured provided that the following conditions are met: ( )

a. The prior policy or a copy thereof is presented to the issuing company and will be retained in the issuing company's file, or in the absence thereof, reasonable proof of issuance is provided the issuing company. ( )

b. The reissue premium will be based on the schedule of fees in effect at the time of reissue. ( )

c. Increased liability is to be computed in accordance with the basic schedule of fees in the applicable brackets. ( )

07. Amount on Litigation and Foreclosure Reports. Where a preliminary report is made for an owner's policy to be issued after a quiet title action or after a foreclosure of contracts of sale, deeds of trust or mortgages, the premium charge will be that on an owner's policy and the policy will be issued following the successful completion of the litigation or the foreclosure. A cancellation fee may be charged if the action is unsuccessful. Each such preliminary report will bear on its face as the limit of liability of the insurer, the value upon which the premium charge is based. ( )

014. DISCLOSURE BY PRODUCER OF TITLE BUSINESS.

01. Disclosure of Financial Interest. No title entity may accept any order to issue a title commitment, guarantee, title insurance policy for, or provide services including, but not limited to, escrow closing and foreclosure services, to an applicant if it knows or has reason to believe that the applicant was referred by a producer of title business, where the producer of title business has a financial interest in the title entity to which the business is referred unless the producer of title business has disclosed to the applicant the financial interest of the producer of title business. The disclosure will be made in writing and contain the items prescribed in Subsection 014.02 of this rule. ( )

02. Disclosure Provided to Applicant. The disclosure will be provided to the applicant at the time the sale and/or purchase contract is entered into. A signed copy of the disclosure will be maintained by the producer of title business and provided to the title entity prior to, or simultaneously with, the placing or the order for a title insurance commitment or guarantee or escrow closing services. The title entity will maintain a copy of said disclosure for a minimum period of five (5) years. The disclosure will contain the following: ( )

a. A heading, in bold face, all caps, type font 14 or higher that states: “NOTICE OF FINANCIAL INTEREST IN TITLE ENTITY BY PRODUCER OF TITLE BUSINESS.” ( )

b. A statement in type 12 font or higher: “We call this interest to your attention for disclosure purposes. (Provide name of Producer of Title Business) has a financial interest in this title entity (provide title entity name). This financial interest may result in a conflict of interest in our representation of you. Accordingly, you are free to choose any other title entity which is licensed by the Idaho Department of Insurance in the county in which the property is located. A list of title insurers and title agents licensed in the county in which the property is located may be found by contacting the Idaho Department of Insurance.” ( )

c. A statement that the Applicant has read the aforementioned disclosure and chooses to have their transaction served by the Title Entity referred by the Producer of Title Business. The disclosure will contain the signature of all applicants along with the date the signature(s) was accomplished. ( )

015. FINANCIAL INTEREST NOTICE.

01. Financial Interest Notice to Director. ( )

02. Notice Filing. The title entity will provide the financial interest notice to the Director of the Department prior to the granting of a title agent license and upon request for renewal of a title agent license. ( )

016. – 020. (RESERVED)

021. TITLE INSURANCE AGENTS AND EMPLOYEES ACTING AS ESCROW AGENTS.

01. Written Instructions. An escrow agent will not accept funds or papers into escrow without dated written instructions signed by the parties or their authorized representatives adequate to administer the escrow account and without receiving, at the time provided with the escrow instructions, sufficient funds and documents to carry out terms of the escrow instructions. Funds and documents deposited will be used only in accordance with such written instructions. If additional instructions are needed, the agent will obtain the consent of both parties, their representatives to the escrow or an order of a court of competent jurisdiction at the expense of the escrow parties. ( )

02. Notice of Conflict of Interest. An escrow agent will act without partiality to any of the parties to the escrow. An escrow agent cannot close a transaction where he has, directly or indirectly, a monetary interest in the subject property either as buyer or seller. If an escrow agent has a business interest in the escrow transaction other than as escrow agent, the relationship or interest will be disclosed in the written escrow instructions. After noting such interest, an additional statement will appear as follows: "We call this interest to your attention for disclosure purposes. This interest will not, in our opinion, prevent us from being a fair and impartial escrow agent in this transaction, but you are, nevertheless, free to request the transaction be closed by some other escrow agent." ( )

03. Closing Statement. On completion of an escrow transaction, the agent will deliver to each principal a written closing statement signed by the agent of each principal's account. The same will show all receipts and disbursements. Any charge made by and disbursements to the escrow agent will be clearly noted. A copy will be retained. ( )

04. Control of Funds. An escrow agent will maintain one or more trust accounts in a federally insured financial institution into which all escrow funds received will be deposited and from which there will be drawn escrow payments. No other funds will be commingled with such trust account. Escrow fees will not be drawn until the escrow is completely ready to close in accordance with the escrow instructions and will be withdrawn not later than the day on which the final disbursements are made for the escrow closing. ( )

05. Escrow Accounting Procedures. An escrow agent will maintain on a current basis (a) an escrow ledger with a separate numbered sheet for each escrow agreement and (b) an escrow liability control account. Disbursements will be posted from checks or other vouchers and each item, not the total of items, will be entered. Escrow liability control account will balance with the escrow ledger at all times and will equal the balance of funds in the trust accounts for escrows at the bank. Checks cannot be drawn against an escrow account without sufficient credit balance for the particular escrow existing at the time. Funds will not be transferred between escrow agents except by writing checks and receipts which are charged and credited respectively to accounts with the reason noted and the authority therefor. All services will be performed and the escrow account ready to close before any service or escrow fees may be charged and drawn from an escrow account (unless an escrow is a long term collection, and fees are payable monthly or annually). The escrow funds will be placed in the trust accounts for escrows and no other funds commingled therewith. All entries in any escrow account will be posted the date of the entry without regard of the date of posting, but all entries will be posted daily. ( )

06. Escrow Records. Each escrow agent will maintain in each escrow transaction: ( )

b. Complete evidence of all funds disbursed which will include check stubs or check copies, and wire instructions for all disbursements as applicable; and ( )

c. A final ledger sheet for each escrow transaction listing all items received and disbursed. All records will be available for audit, inspection and examination by the Director upon demand, and all records will be preserved for not less than six (6) years from the closing date of the escrow. ( )

07. Bond. Before a license will be issued to a title insurance agent, such agent will comply with the requirements for a bond pursuant to Section 41-2711. Such bond may be in the form that continues from year to year until canceled. In lieu of a bond, cash or securities as herein defined may be deposited with the Director of Insurance. The Director of Insurance approves the following securities which are eligible for deposit in place of the bond: Cash in the form of a cashier's check, any public obligation as defined in Sections 41-707 and 41-708, Idaho Code, and the assignment of any savings deposits or certificates of deposit as defined in Section 41-720, Idaho Code. In each case, such deposit will be accompanied by a statement that such deposit is made to meet the compliance of Section 41-2710, Idaho Code, and may be liquidated to meet the obligations of said section. Said cash or security in lieu of the bond will be deposited with the director pursuant to Section 41-804, Idaho Code, except that the cash will be deposited with the state treasurer for the account of the bond of said depositing agent. ( )

08. Cancellation of Bond. A title insurance agent's bond may provide for cancellation thereof upon notice of not less than thirty days to the Insurance Director and to the licensed agent. Upon such notice being received, the licensed title insurance agent will provide a new bond in place thereof before the cancellation of the current bond, and in the event of failure to do so, the license of the title insurance agent will be deemed suspended on the date of the expiration of such bond, and until a replacement bond has been issued and delivered to the Director of Insurance. ( )

09. Disbursement of Funds or Documents From Escrow -- Requirement for Collected Funds. ( )

a. Notwithstanding any agreement to the contrary, no disbursement of funds or delivery of documents from an escrow for recording or otherwise may be made unless the escrow contains a credit balance consisting of collected funds, other than funds of the escrow agent or its affiliates, sufficient to discharge all monetary conditions of the escrow. The requirement of collected funds does not apply to collection or long term escrows. ( )

b. Notwithstanding any other provision of Section 021, an escrow agent may advance its own funds in an aggregate amount not to exceed one thousand dollars ($1000) to pay incidental expenses incurred with respect to the escrow. ( )

022. ESCROW FEES.

Title insurers and title insurance agents will not charge less than the fees filed with the Department of Insurance for a specified escrow service, as such service is defined in the title insurer's or title insurance agent's filed schedule of fees. Each title insurer and title insurance agent will file its schedule of escrow fees charged for all escrow and closing services rendered on a yearly basis due March 15 reflecting experience from the previous calendar year. Fees should include a title entity's basic rate, minimum rate and negotiable rate with respect to different types of closings and should not reflect credits of any kind with regard to different classifications of customers. The fee will be based upon the full sales price in the event of a sale, or the amount of the loan in the event of a mortgage and will not be less than the title entity's cost for providing that service. Fees for escrow and closing services will not include preparation of instruments. Property in different ownerships always, and noncontiguous properties generally, are rated separately. Additional fees will be charged where the minimum fee is inadequate because of the unusual complications of the transactions. Fees may also be filed throughout the year as often as necessary as determined by the title entity. Fee filings in these instances will be filed at least thirty (30) days prior to implementation of the fees. ( )

023. -- 030. (RESERVED)

031. REBATES AND ILLEGAL INDUCEMENTS.

09. Projection Scale G2 (Scale G2). A table of annual rates, $G2_x$, of mortality improvement by age for projecting future mortality rates beyond calendar year 2012. This table was developed by the Society of Actuaries Committee on Life Insurance Research. ( )

011. INDIVIDUAL ANNUITY OR PURE ENDOWMENT CONTRACTS.

01. Individual Annuity Mortality Table. Except as provided in Subsections 011.02 and 011.03, of this rule, the 1983 Table 'a' is recognized and approved as an individual annuity mortality table for valuation and, at the company's option, may be used for purposes of determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after July 1, 1982. ( )

02. Minimum Standard for Valuation. Except as provided in Subsection 011.03 of this rule, either the 1983 Table 'a' or the Annuity 2000 Mortality Table is used for determining the minimum standard of valuation

for any individual annuity or pure endowment contract issued on or after January 1, 1987. ( )

03. The Annuity 2000 Mortality Table. Except as provided in Subsection 011.04 of this rule, the Annuity 2000 Mortality Table is used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after March 29, 2012. ( )

04. The 2012 IAR Mortality Table. Except as provided in Subsection 011.05 of this rule, the 2012 IAR Mortality Table is used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 2015. ( )

05. The 1983 Table 'a.' The 1983 Table 'a' without projection is to be used for determining the minimum standards of valuation for an individual annuity or pure endowment contract issued on or after March 29, 2012, solely when the contract is based on life contingencies and issued to fund periodic benefits arising from: ( )

a. Settlements of various forms of claims pertaining to court settlements or out of court settlements from tort actions; ( )

b. Settlements involving similar actions such as workers' compensation claims; or ( )

c. Settlements of long-term disability claims where a temporary or life annuity has been used in lieu of continuing disability payments. ( )

012. GROUP ANNUITY OR PURE ENDOWMENT CONTRACTS.

01. Group Annuity Mortality Tables. Except as provided in Subsections 012.02 and 012.03 of this rule, the 1983 GAM Table, the 1983 Table 'a' and the 1994 GAR Table are recognized and approved as group annuity mortality tables for valuation and, at the option of the company, any one (1) of these tables may be used for purposes of valuation for any annuity or pure endowment purchased on or after July 1, 1982, under a group annuity or pure endowment contract. ( )

02. Minimum Standard of Valuation. Except as provided in Subsection 012.03 of this rule, either the 1983 GAM Table or the 1994 GAR Table is used for determining the minimum standard of valuation for any annuity or pure endowment purchased on or after January 1, 1987, under a group annuity or pure endowment contract. ( )

03 1994 GAR Table. The 1994 GAR Table will be used for determining the minimum standard of valuation for any annuity or pure endowment purchased on or after the effective date of Subsection 012.03 under a group annuity or pure endowment contract. ( )

013. FORMULA.
In using the 1994 GAR table, the mortality rate for a person age x in year (1994 + n) is calculated as follows:

$$q_x^{1994+n} = q_x^{1994} (1\text{-}AAx)^n$$

Where the q_x^{1994} and AA_xs are specific in the 1994 GAR table. ( )

014. APPLICATION OF THE 2012 IAR MORTALITY TABLE.

01. Mortality Rate Formula. In using the 2012 IAR Mortality Table, the mortality rate for a person age x in year (2012 + n) is calculated as follows: ( )

a. $q_x^{2012+n} = q_x^{2012}(1 - G2_x)^n$ ( )

b. The resulting q_x^{2012+n} is to be rounded to three (3) decimal places per one thousand (1,000), e.g., 0.741 deaths per one thousand (1,000). The rounding is to occur according to the formula above, starting at the 2012

period table rate. ( )

02. Mortality Rate Formula Example. For a male age 30, q_x^{2012}=0.741: ( )

a. q_x^{2013}=0.741 * (1 - 0.010) ^ 1 = 0.73359, which is rounded to 0.734. ( )

b. q_x^{2014}=0.741 * (1 - 0.010) ^ 2 = 0.7262541, which is rounded to 0.726. ( )

c. A method leading to incorrect rounding would be to calculate q_x^{2014} as q_x^{2013} * (1 - 0.010), or 0.734 * 0.99 = 0.727. It is incorrect to use the already rounded q_x^{2013} to calculate q_x^{2014}. ( )

18.07.03 – VALUATION OF LIFE INSURANCE POLICIES INCLUDING THE USE OF SELECT MORTALITY FACTORS

01. Title. IDAPA 18.07.03, "Valuation of Life Insurance Policies Including the Use of Select Mortality Factors." ( )

02. Purpose. To provide: ( )

a. Tables of select mortality factors and rules for their use; ( )

b. Rules concerning a minimum standard for the valuation of plans with nonlevel premiums or benefits; and ( )

c. Rules concerning a minimum standard for the valuation of plans with secondary guarantees. ( )

03. Method. The method for calculating basic reserves defined in this chapter will constitute the commissioners' reserve valuation method for policies to which this chapter is applicable. ( )

04. Applicability. This chapter applies to all life insurance policies, with or without nonforfeiture values, issued on or after March 30, 2001,subject to the following exceptions and conditions. ( )

a. Exceptions: ( )

i. This chapter does not apply to any individual life insurance policy issued on or after March 30, 2001, if the policy is issued in accordance with and as a result of the exercise of a reentry provision contained in the original life insurance policy of the same or greater face amount, issued before March 30, 2001, that guarantees the premium rates of the new policy. This chapter also does not apply to subsequent policies issued as a result of the exercise of such a provision, or a derivation of the provision, in the new policy. ( )

ii. This chapter does not apply to a universal life policy that meets all the following requirements: ( )

(1) Secondary guarantee period, if any, is five (5) years or less; ( )

(2) Specified premium for the secondary guarantee period is not less than the net level reserve premium for the secondary guarantee period based on the CSO valuation tables as defined in Subsection 010.06 and the applicable valuation interest rate; and ( )

(3) The initial surrender charge is not less than one hundred percent (100%) of the first year annualized specified premium for the secondary guarantee period. ( )

iii. This chapter does not apply to a variable life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts. ( )

iv. This chapter does not apply to a variable universal life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts. ( )

v. This chapter does not apply to a group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums needed in order to continue coverage in force for a period in excess of one (1) year. ( )

b. Conditions: ( )

i. Calculation of the minimum valuation standard for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), or both, is in accordance with the

provisions of Section 012. ( )

ii. Calculation of the minimum valuation standard for flexible premium and fixed premium universal life insurance policies, that contain provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period will be in accordance with the provisions of Section 013. ( )

002. INCORPORATION BY REFERENCE.
The tables of select mortality factors are incorporated by reference into IDAPA 18.07.03, "Valuation of Life Insurance Policies Including the Introduction and Use of the New Select Mortality Factors" that are the bases to which the respective percentage of Subsections 011.01.b., 011.02.b., and 011.02.c. are applied. ( )

01. Types of Tables. The six (6) tables of select mortality factors incorporated by reference include: ( )

a. Male aggregate; ( )

b. Male nonsmoker; ( )

c. Male smoker; ( )

d. Female aggregate; ( )

e. Female nonsmoker; and ( )

f. Female smoker. ( )

02. Age Basis. These tables apply to both age last birthday and age nearest birthday mortality tables. ( )

03. Computation for Sex-Blended Mortality Tables. For sex-blended mortality tables, compute select mortality factors in the same proportion as the underlying mortality. For example, for the 1980 CSO-B Table, the calculated select mortality factors are eighty percent (80%) of the appropriate male table as referenced in Section 004, plus twenty percent (20%) of the appropriate female table, as referenced in Section 004. ( )

003. -- 009. (RESERVED)

010. DEFINITIONS.

01. Basic Reserves. Reserves calculated in accordance with Section 41-612(5), Idaho Code. ( )

02. Contract Segmentation Method. Method of dividing the period from issue to mandatory expiration of a policy into successive segments, with the length of each segment being defined as the period from the end of the prior segment (from policy inception, for the first segment) to the end of the latest policy year as determined below. All calculations are made using the 1980 CSO valuation tables, as defined in this chapter, (or any other valuation mortality table adopted by the National Association of Insurance Commissioners (NAIC) after the effective date of this chapter or promulgated by rule by the Director for this purpose), and, if elected, the optional minimum mortality standard for deficiency reserves set forth in Subsection 011.02. The length of a particular contract segment will be set equal to the minimum of the value t for which G_t is greater than R_t (if G_t never exceeds R_t the segment length is deemed to be the number of years from the beginning of the segment to the mandatory expiration date of the policy), where G_t and R_t are defined as follows:

- Formulas -

$$G_t = \frac{GP_{x+k+t}}{GP_{x+k+t-1}}$$

where:

x = original issue age;

k = the number of years from the date of issue to the beginning of the segment;

t = 1, 2, ...; *t* is reset to 1 at the beginning of each segment;

$GP_{x+k+t-1}$ = Guaranteed gross premium per thousand of face amount for year *t* of the segment, ignoring policy fees only if level for the premium paying period of the policy.

$R_t = \frac{q_{x+k+t}}{q_{x+k+t-1}}$, However, R_t may be increased or decreased by one percent (1%) in any policy year, at the company's option, but R_t cannot be less than one (1);

where:

x, k and t are as defined above, and

$q_{x+k+t-1}$ = valuation mortality rate for deficiency reserves in policy year k+t but using the mortality of Paragraph 011.02.b. if Paragraph 011.02.c. is elected for deficiency reserves.

However, if GP_{x+k+t} is greater than 0 and $GP_{x+k+t-1}$ is equal to 0, G_t is presumed to be 1000. If GP_{x+k+t} and $GP_{x+k+t-1}$ are both equal to 0, G_t is presumed to be 0. ( )

03. Deficiency Reserves. Excess, if greater than zero (0), of ( )

a. Minimum reserves calculated in accordance with Section 41-612(10), Idaho Code, over ( )

b. Basic reserves. ( )

04. Guaranteed Gross Premiums. Premiums under a policy of life insurance that are guaranteed and determined at issue. ( )

05. Maximum Valuation Interest Rates. Interest rates defined in Section 41-612(4b), Idaho Code (Computation of Minimum Standard by Calendar Year of Issue) used in determining the minimum standard for the valuation of life insurance policies. ( )

06. 1980 CSO Valuation Tables. Commissioners' 1980 Standard Ordinary Mortality Table (1980 CSO Table) without ten (10) year selection factors, incorporated into the 1980 amendments to the NAIC Standard Valuation Law, and variations of the 1980 CSO Table approved by the NAIC, such as the smoker and nonsmoker versions approved in December 1983. ( )

07. Scheduled Gross Premium. Smallest illustrated gross premium at issue for other than universal life insurance policies. For universal life insurance policies, scheduled gross premium means the smallest specified premium described in Paragraph 013.01.c., if any, or else the minimum premium described in Paragraph 013.01.d. ( )

08. Segmented Reserves. ( )

a. Reserves calculated using segments produced by the contract segmentation method, equal to the present value of all future guaranteed benefits less the present value of all future net premiums to the mandatory expiration of a policy, where the net premiums within each segment are a uniform percentage of the respective guaranteed gross premiums within the segment. The uniform percentage for each segment is such that, at the beginning of the segment, the present value of the net premiums within the segment equals: ( )

i. The present value of the death benefits within the segment, plus ( )

ii. The present value of any unusual guaranteed cash value (see Subsection 012.04) occurring at the end of the segment, less ( )

iii. Any unusual guaranteed cash value occurring at the start of the segment, plus ( )

iv. For the first segment only, the excess of the Item one (1) over Item two (2), as follows: ( )

(1) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for in the first segment after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary within the first segment on which a premium falls due. However, the net level annual premium will not exceed the net level annual premium on the nineteen (19) year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy. ( )

(2) A net one (1) year term premium for the benefits provided for in the first policy year. ( )

b. The length of each segment is determined by the "contract segmentation method," as defined in this chapter. ( )

c. The interest rates used in the present value calculations for any policy cannot exceed the maximum valuation interest rate, determined with a guarantee duration equal to the sum of the lengths of all segments of the policy. ( )

d. For both basic reserves and deficiency reserves computed by the segmented method, present values will include future benefits and net premiums in the current segment and in all subsequent segments. ( )

09. Tabular Cost of Insurance. The net single premium at the beginning of a policy year for one (1) year term insurance in the amount of the guaranteed death benefit in that policy year. ( )

10. Ten Year Select Factors. The select factors adopted with the 1980 amendments to the NAIC Standard Valuation Law. ( )

11. Unitary Reserves. ( )

a. The present value of all future guaranteed benefits less the present value of all future modified net premiums, where: ( )

i. Guaranteed benefits and modified net premiums are considered to the mandatory expiration of the policy; and ( )

ii. Modified net premiums are a uniform percentage of the respective guaranteed gross premiums, where the uniform percentage is such that, at issue, the present value of the net premiums equals the present value of

all death benefits and pure endowments, plus the excess of Item one (1) over Item two (2), as follows: ( )

(1) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium will not exceed the net level annual premium on the nineteen (19) year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy. ( )

(2) A net one (1) year term premium for the benefits provided for in the first policy year. ( )

b. The interest rates used in the present value calculations for any policy will not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the length from issue to the mandatory expiration of the policy. ( )

12. Universal Life Insurance Policy. Any individual life insurance policy under the provisions of which separately identified interest credits (other than in connection with dividend accumulations, premium deposit funds, or other supplementary accounts) and mortality or expense charges are made to the policy. ( )

011. GENERAL CALCULATION REQUIREMENTS FOR BASIC RESERVES AND PREMIUM DEFICIENCY RESERVES.

01. Basic Reserves. At the company's election for any one (1) or more specified plans of life insurance, the minimum mortality standard for basic reserves may be calculated using the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this chapter and promulgated by rule by the Director for this purpose). If select mortality factors are elected, they may be: ( )

a. The ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law; ( )

b. The select mortality factors in the tables as referenced in Section 004; or ( )

c. Any other table of select mortality factors adopted by the NAIC after March 30, 2001, promulgated by rule for the purpose of calculating basic reserves. ( )

02. Deficiency Reserves. Deficiency reserves, if any, are calculated for each policy as the excess, if greater than zero (0), of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using guaranteed gross premiums instead of net premiums when the guaranteed gross premiums are less than the corresponding net premiums. At the company's election for any one or more specified plans of insurance, the quantity A and the corresponding net premiums used in the determination of quantity A may be based upon the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after March 30, 2001, and promulgated by rule). If select mortality factors are elected, they may be one (1) of the following: ( )

a. The ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law; ( )

b. The select mortality factors in the tables as referenced in Section 004; ( )

c. For durations in the first segment, X percent of the select mortality factors in the tables as referenced in Section 004, subject to the following: ( )

i. X may vary by policy year, policy form, underwriting classification, issue age, or any other policy factor expected to affect mortality experience; ( )

ii. X is such that, when using the valuation interest rate used for basic reserves, Item one (1) is greater

than or equal to Item two (2); ( )

(1) The actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X; ( )

(2) The actuarial present value of future death benefits calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date; ( )

iii. X is such that the mortality rates resulting from the application of X are at least as great as the anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five (5) years after the valuation date; ( )

iv. The appointed actuary will increase X at any valuation date where it is necessary to continue to meet all the requirements of Paragraph 011.02.c.; ( )

v. The appointed actuary may decrease X at any valuation date as long as X continues to meet all the requirements of Paragraph 011.02.c.; and ( )

vi. The appointed actuary will specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums. ( )

vii. If X is less than one hundred percent (100%) at any duration for any policy, the following requirements are to be met: ( )

(1) The appointed actuary will annually prepare an actuarial opinion and memorandum for the company in conformance with the requirements of the Actuarial and Memorandum Rule, IDAPA 18.07.10, Section 022, "Statement of Actuarial Opinion Based on an Asset Adequacy Analysis"; ( )

(2) The appointed actuary will disclose, in the Regulatory Asset Adequacy Issues Summary, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one (1) or more interim periods; and ( )

(3) The appointed actuary will annually opine for all policies subject to this chapter as to whether the mortality rates resulting from the application of X meet the requirements of Paragraph 011.02.c. This opinion will be supported by an actuarial report, subject to appropriate Actuarial Standards of Practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors will reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience. ( )

d. Any other table of select mortality factors adopted by the NAIC after March 30, 2001, and promulgated by rule for the purpose of calculating deficiency reserves. ( )

03. Applicability. Subsection 011.03 applies to both basic reserves and deficiency reserves. Any set of select mortality factors may be used only for the first segment. However, if the first segment is less than ten (10) years, the appropriate ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law may be used thereafter through the tenth policy year from the date of issue. ( )

04. Gross Premiums. In determining basic reserves or deficiency reserves, guaranteed gross premiums without policy fees may be used where the calculation involves the guaranteed gross premium but only if the policy fee is a level dollar amount after the first policy year. In determining deficiency reserves, policy fees may be included in guaranteed gross premiums, even if not included in the actual calculation of basic reserves. ( )

05. Changes in Guarantees. Reserves for policies that have changes to guaranteed gross premiums, guaranteed benefits, guaranteed charges, or guaranteed credits that are unilaterally made by the insurer after issue and that are effective for more than one (1) year after the date of the change will be the greatest of the following: ( )

a. Reserves calculated ignoring the guarantee; ( )

b. Reserves assuming the guarantee was made at issue; and ( )

c. Reserves assuming that the policy was issued on the date of the guarantee. ( )

06. Reserve Adequacy. The Director may require that the company document the extent of the adequacy of reserves for specified blocks, including but not limited to policies issued prior to the effective date of this chapter. This documentation may include a demonstration of the extent to which aggregation with other non-specified blocks of business is relied upon in the formation of the appointed actuary opinion pursuant to and consistent with the requirements of the Actuarial and Memorandum Rule, IDAPA 18.07.10, Section 022, "Statement of Actuarial Opinion Based on an Asset Adequacy Analysis." ( )

012. CALCULATION OF MINIMUM VALUATION STANDARD FOR POLICIES WITH GUARANTEED NONLEVEL GROSS PREMIUMS OR GUARANTEED NONLEVEL BENEFITS (OTHER THAN UNIVERSAL LIFE POLICIES).

01. Basic Reserves. Basic reserves are be calculated as the greater of the segmented reserves and the unitary reserves. Both the segmented reserves and the unitary reserves for any policy will use the same valuation mortality table and selection factors. At the option of the insurer, in calculating segmented reserves and net premiums, either of the adjustments described below may be made: ( )

a. Treat the unitary reserve, if greater than zero (0), applicable at the end of each segment as a pure endowment and subtract the unitary reserve, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment; or ( )

b. Treat the guaranteed cash surrender value, if greater than zero (0), applicable at the end of each segment as a pure endowment; and subtract the guaranteed cash surrender value, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment. ( )

02. Deficiency Reserves. ( )

a. The deficiency reserve at any duration will be calculated: ( )

i. On a unitary basis if the corresponding basic reserve determined by Subsection 012.01 is unitary; ( )

ii. On a segmented basis if the corresponding basic reserve determined by Subsection 012.01 is segmented; or ( )

iii. On the segmented basis if the corresponding basic reserve determined by Subsection 012.01 is equal to both the segmented reserve and the unitary reserve. ( )

b. Subsection 012.02 applies to any policy for which the guaranteed gross premium at any duration is less than the corresponding modified net premium calculated by the method used in determining the basic reserves, but using the minimum valuation standards of mortality (specified in Subsection 011.02 and rate of interest). ( )

c. Deficiency reserves, if any, are be calculated for each policy as the excess if greater than zero (0), for the current and all remaining periods, of the quantity A over the basic reserve, where A is obtained as indicated in Subsection 011.02. ( )

d. For deficiency reserves determined on a segmented basis, the quantity A is determined using segment lengths equal to those determined for segmented basic reserves. ( )

03. Minimum Value. Basic reserves will not be less than the tabular cost of insurance for the balance

of the policy year, if mean reserves are used. Basic reserves will not be less than the tabular cost of insurance for the balance of the current modal period or to the paid-to-date, if later, but not beyond the next policy anniversary, if mid-terminal reserves are used. The tabular cost of insurance will use the same valuation mortality table and interest rates as that used for the calculation of the segmented reserves. However, if select mortality factors are used, they will be the ten (10) year select factors incorporated into the 1980 amendments of the NAIC Standard Valuation Law. In no case may total reserves (including basic reserves, deficiency reserves and any reserves held for supplemental benefits that would expire upon contract termination) be less than the amount that the policyowner would receive (including the cash surrender value of the supplemental benefits, if any, referred to above), exclusive of any deduction for policy loans, upon termination of the policy. ( )

04. Unusual Pattern of Guaranteed Cash Surrender Values. ( )

a. For any policy with an unusual pattern of guaranteed cash surrender values, the reserves actually held prior to the first unusual guaranteed cash surrender value will not be less than the reserves calculated by treating the first unusual guaranteed cash surrender value as a pure endowment and treating the policy as an *n* year policy providing term insurance plus a pure endowment equal to the unusual cash surrender value, where *n* is the number of years from the date of issue to the date the unusual cash surrender value is scheduled. ( )

b. The reserves actually held subsequent to any unusual guaranteed cash surrender value will not be less than the reserves calculated by treating the policy as an *n* year policy providing term insurance plus a pure endowment equal to the next unusual guaranteed cash surrender value, and treating any unusual guaranteed cash surrender value at the end of the prior segment as a net single premium, where: ( )

i. *n* is the number of years from the date of the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of: ( )

(1) The date of the next unusual guaranteed cash surrender value, if any, that is scheduled after the valuation date; or ( )

(2) The mandatory expiration date of the policy; and ( )

ii. The net premium for a given year during the *n* year period is equal to the product of the net to gross ratio and the respective gross premium; and ( )

iii. The net to gross ratio is equal to Item One (1) divided by Item Two (2) as follows: ( )

(1) The present value, at the beginning of the *n* year period, of death benefits payable during the *n* year period plus the present value, at the beginning of the *n* year period, of the next unusual guaranteed cash surrender value, if any, minus the amount of the last unusual guaranteed cash surrender value, if any, scheduled at the beginning of the *n* year period. ( )

(2) The present value, at the beginning of the *n* year period, of the scheduled gross premiums payable during the *n* year period. ( )

c. For purposes of Subsection 012.04, a policy is considered to have an unusual pattern of guaranteed cash surrender values if any future guaranteed cash surrender value exceeds the prior year's guaranteed cash surrender value by more than the sum of: ( )

i. One hundred ten percent (110%) of the scheduled gross premium for that year; ( )

ii. One hundred ten percent (110%) of one (1) year's accrued interest on the sum of the prior year's guaranteed cash surrender value and the scheduled gross premium using the nonforfeiture interest rate used for calculating policy guaranteed cash surrender values; and ( )

iii. Five percent (5%) of the first policy year surrender charge, if any. ( )

05. Optional Exemption for Yearly Renewable Term (YRT) Reinsurance. At the option of the

company, the following approach for reserves on YRT reinsurance may be used: ( )

a. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year; ( )

b. Basic reserves will never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection 012.03; ( )

c. Deficiency reserves. ( )

i. For each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium. ( )

ii. Deficiency reserves will never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subparagraph 012.05.c.i.; ( )

d. For purposes of Subsection 012.05, the calculations use the maximum valuation interest rate and the 1980 CSO mortality tables with or without ten (10) year select mortality factors, or any other table adopted after the effective date of this chapter by the NAIC and promulgated by rule by the Director for this purpose; ( )

e. A reinsurance agreement will be considered YRT reinsurance for purposes of Subsection 012.05 if only the mortality risk is reinsured; and ( )

f. If the assuming company chooses this optional exemption, the ceding company's reinsurance reserve credit will be limited to the amount of reserve held by the assuming company for the affected policies. ( )

06. Optional Exemption for Attained-Age-Based Yearly Renewable Term Life Insurance Policies. At the company's option, the following approach for reserves for attained-age-based YRT life insurance policies may be used: ( )

a. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year. ( )

b. Basic reserves will never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection 012.03. ( )

c. Deficiency reserves: ( )

i. For each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium. ( )

ii. Deficiency reserves will never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subparagraph 012.06.c.i. ( )

d. For purposes of Subsection 012.06, the calculations use the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten (10) year select mortality factors, or any other table adopted after March 30, 2001, by the NAIC and promulgated by rule for this purpose. ( )

e. A policy is considered an attained-age-based YRT life insurance policy for purposes of Subsection 012.06 if: ( )

i. The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are based upon the attained age of the insured such that the rate for any given policy at a given attained age of the insured is independent of the year the policy was issued; and ( )

ii. The premium rates (on both the initial current premium scale and the guaranteed maximum

premium scale) are the same as the premium rates for policies covering all insureds of the same sex, risk class, plan of insurance and attained age. ( )

f. For policies that become attained-age-based YRT policies after an initial period of coverage, the approach of Subsection 012.06 may be used after the initial period if: ( )

i. The initial period is constant for all insureds of the same sex, risk class and plan of insurance; or ( )

ii. The initial period runs to a common attained age for all insureds of the same sex, risk class, and plan of insurance; and ( )

iii. After the initial period of coverage, the policy meets the conditions of Paragraph 012.06.e.; and ( )

g. If this election is made, this approach will be applied in determining reserves for all attained-age-based YRT life insurance policies issued on or after the effective date of this chapter. ( )

07. Exemption from Unitary Reserves for Certain n-Year Renewable Term Life Insurance Policies. Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met: ( )

a. The policy consists of a series of *n*-year periods, including the first period and all renewal periods, where *n* is the same for each period, except that for the final renewal period, *n* may be truncated or extended to reach the expiry age, provided that this final renewal period is less than ten (10) years and less than twice the size of the earlier *n*-year periods, and for each period, the premium rates on both the initial current premium scale and the guaranteed maximum premium scale are level; ( )

b. The guaranteed gross premiums in all *n*-year periods are not less than the corresponding net premiums based upon the 1980 CSO Table with or without the ten (10) year select mortality factors; and ( )

c. There are no cash surrender values in any policy year. ( )

08. Exemption From Unitary Reserves for Certain Juvenile Policies. Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met, based upon the initial current premium scale at issue: ( )

a. At issue, the insured is age twenty-four (24) or younger; ( )

b. Until the insured reaches the end of the juvenile period, which will occur at or before age twenty-five (25), the gross premiums and death benefits are level, and there are no cash surrender values; and ( )

c. After the end of the juvenile period, gross premiums are level for the remainder of the premium paying period, and death benefits are level for the remainder of the life of the policy. ( )

013. CALCULATION OF MINIMUM VALUATION STANDARD FOR FLEXIBLE PREMIUM AND FIXED PREMIUM UNIVERSAL LIFE INSURANCE POLICIES THAT CONTAIN PROVISIONS RESULTING IN THE ABILITY OF A POLICY OWNER TO KEEP A POLICY IN FORCE OVER A SECONDARY GUARANTEE PERIOD.

01. General. ( )

a. Policies with a secondary guarantee include: ( )

i. A policy with a guarantee that the policy will remain in force at the original schedule of benefits, subject only to the payment of specified premiums; ( )

ii. A policy in which the minimum premium at any duration is less than the corresponding one (1) year valuation premium, calculated using the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten (10) year select mortality factors, or any other table adopted after March 30, 2001, by the NAIC and promulgated by rule for this purpose; or ( )

iii. A policy with any combination of Subparagraphs 013.01.a.i. and 013.01.a.ii. ( )

b. A secondary guarantee period is the period for which the policy is guaranteed to remain in force subject only to a secondary guarantee. When a policy contains more than one secondary guarantee, the minimum reserve will be the greatest of the respective minimum reserves at that valuation date of each unexpired secondary guarantee, ignoring all other secondary guarantees. Secondary guarantees that are unilaterally changed by the insurer after issue will be considered to have been made at issue. Reserves described in Subsections 013.02 and 013.03 below will be recalculated from issue to reflect these changes. ( )

c. Specified premiums mean the premiums specified in the policy, the payment of which guarantees that the policy will remain in force at the original schedule of benefits, but which otherwise would be insufficient to keep the policy in force in the absence of the guarantee if maximum mortality and expense charges and minimum interest credits were made and any applicable surrender charges were assessed. ( )

d. For purposes of Section 013, the minimum premium for any policy year is the premium that, when paid into a policy with a zero (0) account value at the beginning of the policy year, produces a zero (0) account value at the end of the policy year. The minimum premium calculation will use the policy cost factors (including mortality charges, loads and expense charges) and the interest crediting rate, which are all guaranteed at issue. ( )

e. The one (1) year valuation premium means the net one (1) year premium based upon the original schedule of benefits for a given policy year. The one (1) year valuation premiums for all policy years are calculated at issue. The select mortality factors defined in Paragraphs 011.02.b., 011.02.c., and 011.02.d. cannot be used to calculate the one (1) year valuation premiums. ( )

f. The one (1) year valuation premium should reflect the frequency of fund processing, as well as the distribution of deaths assumption employed in the calculation of the monthly mortality charges to the fund. ( )

02. Basic Reserves for the Secondary Guarantees. Basic reserves for the secondary guarantees will be the segmented reserves for the secondary guarantee period. In calculating the segments and the segmented reserves, the gross premiums will be set equal to the specified premiums, if any, or otherwise to the minimum premiums, that keep the policy in force and the segments will be determined according to the contract segmentation method as defined in Subsection 010.02. ( )

03. Deficiency Reserves for the Secondary Guarantees. Deficiency reserves, if any, for the secondary guarantees will be calculated for the secondary guarantee period in the same manner as described in Subsection 012.02 with gross premiums set equal to the specified premiums, if any, or otherwise to the minimum premiums that keep the policy in force. ( )

04. Minimum Reserves. The minimum reserves during the secondary guarantee period are the greater of: ( )

a. The basic reserves for the secondary guarantee plus the deficiency reserve, if any, for the secondary guarantees; or ( )

b. The minimum reserves prescribed by other rules or rules governing universal life plans. ( )

Insurers having direct premiums written in this state of less than one million dollars ($1,000,000) in any calendar year and less than one thousand (1,000) policyholders or certificate holders of direct written policies nationwide at the end of such calendar year are exempt from this rule for such year (unless the Director makes a specific finding that compliance is necessary for the Director to carry out statutory responsibilities) except that insurers having assumed premiums pursuant to contracts or treaties of reinsurance of one million dollars ($1,000,000) or more, or both, will not be exempt. Foreign or alien insurers filing the audited financial report in another state, pursuant to that other state's requirement for filing of audited financial reports found by the Director to be substantially similar to the requirements herein, are exempt from Section 011 through Section 020 of this rule if conditions of Subsection 001.02.a. or 001.02.b., of this rule apply: ( )

a. A copy of the Audited financial report, Communication of Internal Control Related Matters Noted in an Audit, and the Accountant's Letter of Qualifications that are filed with the other state are filed with the Director in accordance with the filing dates in Sections 011, 018, and 019 respectively (Canadian insurers may submit accountants' reports as filed with the Office of the Superintendent of Financial Institutions, Canada). 011. GENERAL REQUIREMENTS RELATED TO FILING AND EXTENSIONS FOR FILING OF ANNUAL AUDITED FINANCIAL REPORTS AND AUDIT COMMITTEE APPOINTMENT.

01. Annual Audit Filing Date. All insurers will have an annual audit by an independent certified public accountant and file an audited financial report with the Director on or before June 1 for the year ended December 31 immediately preceding. The Director may require an insurer to file an audited financial report earlier than June 1 with ninety (90) days advance notice. ( )

02. Request for Extension. Extensions of the June 1 filing date may be granted by the Director for thirty (30) day periods upon a showing by the insurer and its independent certified public accountant of the reasons for the request and a determination by the Director of good cause for an extension. The request for extension needs to be submitted in writing at least ten (10) days prior to the due date in sufficient detail to permit the Director to make an

informed decision with respect to the extension. If an extension is granted, an extension of thirty (30) days is also granted to the filing of Management's Report of Internal Control over Financial Reporting. ( )

03. Designation of Audit Committee. Every insurer needs to file an annual audited financial report pursuant to this chapter will designate an Audit committee, as defined in Section 010. The Audit committee of an entity controlling an insurer may be deemed to be the insurer's Audit committee for purposes of this rule at the controlling person's election. ( )

012. CONTENTS OF ANNUAL AUDITED FINANCIAL REPORT.

01. Contents of Report. The annual audited financial report will report the financial position of the insurer as of the end of the most recent calendar year and the results of its operations, cash flows and changes in capital and surplus for the year then ended in conformity with statutory accounting practices prescribed, or otherwise permitted, by the Department of Insurance of the state of domicile. The annual Audited financial report will include the following: ( )

a. Report of independent certified public accountant; ( )

b. Balance sheet reporting admitted assets, liabilities, capital and surplus; ( )

c. Statement of operations; ( )

d. Statement of cash flow; ( )

e. Statement of changes in capital and surplus; ( )

f. Notes to financial statements, which will those prescribed by the appropriate NAIC Annual Statement Instructions and NAIC Accounting Practices and Procedures Manual. The notes will include a reconciliation of differences, if any, between the audited statutory financial statements and the annual statement filed pursuant to Section 41-335, Idaho Code, or other applicable section of Idaho Code with a written description of the nature of these differences. ( )

g. The financial statements included in the audited financial report will be prepared in a form and using language and groupings substantially the same as the relevant sections of the annual statement of the insurer filed with the Director. The financial statement will be comparative, presenting the amounts as of December 31 of the current year and the amounts as of the immediately preceding December 31. (In the first year in which an insurer needs to file an audited financial report, the comparative data may be omitted.) ( )

013. DESIGNATION OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT.

01. Registration with the Director. Each insurer prescribed by this rule to file an annual audited financial report needs, within sixty (60) days after becoming subject to the requirement, to register with the Director in writing the name and address of the independent certified public accountant or accounting firm retained to conduct the annual audit. Insurers not retaining an independent certified public accountant on the effective date of this rule will register the name and address of their retained independent certified public accountant not less than six (6) months before the date when the first audited financial report is to be filed. ( )

02. Letter of Awareness. The insurer will obtain a letter from the accountant, and file a copy with the Director stating that the accountant is aware of the provisions of the Insurance Code and the Department's rules of the state of domicile that relate to accounting and financial matters and affirming that they will express his opinion on the financial statements in terms of their conformity to the statutory accounting practices prescribed or otherwise permitted by that Department, specifying appropriate exceptions. ( )

03. Dismissal or Resignation. If an accountant who was the accountant for the immediately preceding filed audited financial report is dismissed or resigns, the insurer will within five (5) business days notify the Department. The insurer will also furnish the Director with a separate letter within ten (10) business days after the above notification stating whether in the twenty-four (24) months preceding such event there were any disagreements

with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure; which disagreements, if not resolved to the satisfaction of the former accountant, would have caused the accountant to make reference to the subject matter of the disagreement in connection with the opinion. The disagreements need to be reported in response to this rule include those resolved to the former accountant's satisfaction and not resolved to the former accountant's satisfaction. Disagreements contemplated by this section occur at the decision-making level, such as between personnel of the insurer responsible for presentation of financial statements and personnel of the accounting firm responsible for rendering the report. The insurer will also in writing request the former accountant to furnish a letter addressed to the insurer stating whether the accountant agrees with the statements contained in the insurer's letter and, if not, stating the reasons for which the accountant does not agree; and the insurer will furnish such responsive letter from the former accountant to the Director with its own. ( )

014. QUALIFICATIONS OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT.

01. In Good Standing. The Director will not recognize any person or firm as a qualified independent certified public accountant that is not in good standing with the AICPA in all states in which the accountant is licensed to practice, or, for a Canadian or British company, that is not a chartered accountant; or has either directly or indirectly entered into an agreement of indemnity or release from liability ("indemnification") with respect to the insurer's audit. ( )

02. Conformance with Ethical and Professional Standards. Except as otherwise provided in this rule, the Director will recognize an independent certified public accountant as qualified if the accountant conforms to the standards contained in the Code of Professional Ethics of the AICPA and Rules and Regulations and Code of Ethics and Rules of Professional Conduct of the Idaho Board of Public Accountancy, or similar code. ( )

03. Resolution of Disputes and Delinquency Proceedings. A qualified independent certified public accountant may enter into an agreement with an insurer to have audit-related disputes resolved by mediation or arbitration. In the event of a delinquency proceeding commenced against the insurer under Title 41, Chapter 33, the mediation or arbitration provisions operates at the option of the statutory successor. ( )

04. Capacity to Render Report for Consecutive Years. The lead (or coordinating) audit partner (primarily responsible for the audit) cannot act in the capacity for more than five (5) consecutive years. The person will be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of five (5) consecutive years. An insurer may make application to the Director for relief from the above requirement due to unusual circumstances. Application should be made at least thirty (30) days before the end of the calendar year. The Director may consider the following factors in determining if the relief should be granted: ( )

a. Number of partners, expertise of the partners or the number of insurance clients in the currently registered firm; ( )

b. Premium volume; or ( )

c. Number of jurisdictions in which the insurer transacts business. ( )

05. Relief from Limitation on Consecutive Appointment of Lead Partner. The insurer will file, with its annual statement filing, the approval for relief from Subsection 014.04 of this rule, with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer will file the approval in an electronic format acceptable to the NAIC. ( )

06. Grounds for Not Recognizing as Qualified. The Director will neither recognize as a qualified independent certified public accountant, nor accept any annual Audited financial report, prepared in whole or in part by, any natural person who: ( )

a. Has been convicted of fraud, bribery, a violation of the Racketeer Influenced and Corrupt Organizations Act, 18 U.S.C. Sections 1961 to 1968, or any dishonest conduct or practices under federal or state law; ( )

b. Has been found to have violated the insurance laws of this state with respect to any previous reports submitted under this rule; or ( )

c. Has demonstrated a pattern or practice of failing to detect or disclose material information in previous reports filed under the provisions of this rule. ( )

07. Hearings. The Director of insurance may, as provided in Chapter 52, Title 67 and Chapter 2, Title 41, Idaho Code and IDAPA 04.11.01, hold a hearing to determine whether an independent certified public accountant is qualified and, considering the evidence presented, may rule that the accountant is not qualified for purposes of expressing his opinion on the financial statements in the annual Audited financial report made pursuant to this rule and require the insurer to replace the accountant with another whose relationship with the insurer is qualified within the meaning of this rule. ( )

08. Banned Services. The Director will not recognize as a qualified independent certified public accountant, nor accept an annual audited financial report, prepared in whole or in part by an accountant who provides to an insurer, contemporaneously with the audit, the following non-audit services: ( )

a. Bookkeeping or other services related to the accounting records or financial statements of the insurer; ( )

b. Financial information systems design and implementation; ( )

c. Appraisal or valuation services, fairness opinions, or contribution-in-kind reports. ( )

d. Actuarially-oriented advisory services involving the determination of amounts recorded in the financial statements. The accountant may assist an insurer in understanding the methods, assumptions and inputs used in the determination of amounts recorded in the financial statement only if it is reasonable to conclude that the services provided will not be subject to audit procedures during an audit of the insurer's financial statements. An accountant's actuary may also issue an actuarial opinion or certification ("opinion") on an insurer's reserves if the following conditions have been met: ( )

i. Neither the accountant nor the accountant's actuary has performed any management functions or made any management decisions; ( )

ii. The insurer has competent personnel (or engages a third party actuary) to estimate the reserves for which management takes responsibility; and ( )

iii. The accountant's actuary tests the reasonableness of the reserves after the insurer's management has determined the amount of the reserves; ( )

09. Principles of Independence. In general, the principles of independence with respect to services provided by the qualified independent certified public accountant are largely predicated on three (3) basic principles, violations of which would impair the accountant's independence. The principles are that the accountant: ( )

a. Cannot function in the role of management; ( )

b. Cannot audit his own work; and ( )

c. Cannot serve in an advocacy role for the insurer. ( )

10. Exemption from Banned Services. Insurers having direct written and assumed premiums of less than one hundred million dollars ($100,000,000) in any calendar year may request an exemption from Subsection 014.08 of this rule. The insurer will file with the Director a written statement discussing the reasons why the insurer should be exempt from these provisions. If the Director finds, upon review of this statement, that compliance with this regulation would constitute a financial or organizational hardship upon the insurer, an exemption may be granted. ( )

11. Permitted Non-Audit Services. A qualified independent certified public accountant who performs the audit may engage in other non-audit services, including tax services, that are not described in Subsection 014.08 of this rule, or that do not conflict with Subsection 014.09 of this rule, only if the activity is approved in advance by the Audit committee, in accordance with Subsection 014.12 of this rule. ( )

12. Preapproval Requisite by Audit Committee. All auditing services and non-audit services provided to an insurer by the qualified independent certified public accountant of the insurer will be preapproved by the Audit committee. The preapproval requirement is waived with respect to non-audit services if the insurer is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity; or ( )

a. The aggregate amount of all such non-audit services provided to the insurer constitutes not more than five percent (5%) of the total amount of fees paid by the insurer to its qualified independent certified public accountant during the fiscal year in which the non-audit services are provided; ( )

b. The services were not recognized by the insurer at the time of the engagement to be non-audit services; and ( )

c. The services are promptly brought to the attention of the Audit committee and approved prior to the completion of the audit by the Audit committee or by one (1) or more members of the Audit committee who are the members of the board of directors to whom authority to grant such approvals has been delegated by the Audit committee. ( )

13. Delegation by Audit Committee. The Audit committee may delegate to one (1) or more designated members of the Audit committee the authority to grant the preapprovals prescribed by Subsection 014.12 of this rule. The decisions of any member to whom this authority is delegated will be presented to the full Audit committee at each of its scheduled meetings. ( )

14. Prior Employment Banned. The Director will not recognize an independent certified public accountant as qualified for a particular insurer if a member of the board, president, chief executive officer, controller, chief financial officer, chief accounting officer, or any person serving in an equivalent position for that insurer, was employed by the independent certified public accountant and participated in the audit of that insurer during the one (1) year period preceding the date that the most current statutory opinion is due. Subsection 014.14 of this rule, will only apply to partners and senior managers involved in the audit. ( )

a. An insurer may make application to the Director for relief from Subsection 014.14 of this rule, on the basis of unusual circumstances. ( )

b. The insurer will file, with its annual statement filing, the approval for relief from Subsection 014.14 of this rule, with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer will file the approval in an electronic format acceptable to the NAIC. ( )

015. CONSOLIDATED OR COMBINED AUDITS.

An insurer may make written application to the Director for approval to file audited consolidated or combined financial statements in lieu of separate annual audited financial statements if the insurer is part of a group of insurance companies that utilizes a pooling or one hundred percent (100%) reinsurance agreement that affects the solvency and

integrity of the insurer's reserves and such insurer cedes all of its direct and assumed business to the pool. In such cases, a columnar consolidating or combining worksheet will be filed with the report, as follows: ( )

01. Worksheet. Amounts shown on the consolidated or combined Audited financial report will be shown on the worksheet; ( )

02. Separate Amounts. Amounts for each insurer subject to this section will be stated separately; ( )

03. Noninsurance Operations. Noninsurance operations may be shown on the worksheet on a combined or individual basis; ( )

04. Explanations of Consolidating and Eliminating Entries. Explanations of consolidating and eliminating entries will be included; and ( )

05. Reconciliation. A reconciliation will be included of any differences between the amounts shown in the individual insurer columns of the worksheet and comparable amounts shown on the annual statement of the insurers. ( )

016. SCOPE OF AUDIT AND REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT.
Financial statements furnished pursuant to Section 012 hereof will be examined by the independent certified public accountant. The audit of the insurer's financial statements will be conducted in accordance with generally accepted auditing standards. The independent certified public accountant should obtain an understanding of internal control sufficient to plan the audit. To the extent prescribed by the standards of his profession, for those insurers prescribed to file a Management's Report of Internal Control over Financial Reporting pursuant to Section 023, the independent certified public accountant should consider (as that term is defined in generally accepted auditing standards) the most recently available report in planning and performing the audit of the statutory financial statements. Consideration will be given to the other procedures illustrated in the Financial Condition Examiner's Handbook promulgated by the National Association of Insurance Commissioners as the independent certified public accountant deems necessary. ( )

017. NOTIFICATION OF ADVERSE FINANCIAL CONDITION.
The insurer needed to furnish the annual Audited financial report will require the independent certified public accountant to report, in writing, within five (5) business days to the board of directors or its Audit committee any determination by the independent certified public accountant that the insurer has materially misstated its financial condition as reported to the Director as of the balance sheet date currently under audit or that the insurer does not meet the minimum capital and surplus requirements of Title 41, Idaho Code, as of that date. An insurer that has received a report pursuant to this paragraph will forward a copy of the report to the Director within five (5) business days of receipt of the report and will provide the independent certified public accountant making the report with evidence of the report being furnished to the Director. If the independent certified public accountant fails to receive such evidence within the mandatory five (5) business day period, the independent certified public accountant will furnish to the Director a copy of its report within the next five (5) business days. No independent certified public accountant will be liable in any manner to any person for any statement made in connection with Section 017 if the statement is made in good faith in compliance with Section 017. If the accountant, subsequent to the date of the Audited financial report filed pursuant to this rule, becomes aware of facts which might have affected his report, the Director notes the obligation of the accountant to take action as prescribed by the standards of his profession. ( )

018. COMMUNICATION OF INTERNAL CONTROL RELATED MATTERS NOTED IN AN AUDIT.
In addition to the annual audited financial report, each insurer will furnish the Director with a written communication as to any unremediated material weaknesses in its Internal control over financial reporting noted during the audit. Such communication will be prepared by the accountant within sixty (60) days after the filing of the annual audited financial report, and will contain a description of any unremediated material weakness (as the term material weakness is defined by the standards of his profession) as of December 31 immediately preceding (so as to coincide with the audited financial report discussed in Subsection 011.01, of this rule) in the insurer's Internal control over financial reporting noted by the accountant during the course of their audit of the financial statements. If no unremediated material weaknesses were noted, the communication should so state. The insurer needs to provide a description of

remedial actions taken or proposed to correct unremediated material weaknesses, if the actions are not described in the accountant's communication. ( )

019. ACCOUNTANT'S LETTER OF QUALIFICATION.
The accountant will furnish the insurer in connection with, and for inclusion in, the filing of the annual audited financial report, a letter stating: ( )

01. Independence. That the accountant is independent with respect to the insurer and conforms to the standards of his profession as contained in the Code of Professional Ethics and pronouncements of the AICPA and the Rules of Professional Conduct of the Idaho Board of Public Accountancy, or similar code; ( )

02. Background and Experience. The background and experience in general, and the experience in audits of insurers of the staff assigned to the engagement and whether each is an independent certified public accountant. Nothing within this rule will be construed as prohibiting the accountant from utilizing such staff as he deems appropriate where use is consistent with the standards prescribed by generally accepted auditing standards; ( )

03. Compliance with Rule. That the accountant understands the annual audited financial report and his opinion thereon will be filed in compliance with this rule and that the Director will be relying on this information in the monitoring and regulation of the financial position of insurers; ( )

04. Consent to Requirements of Section 020. That the accountant consents to the requirements of Section 020 of this rule and that the accountant consents and agrees to make available for review by the Director, or the Director's designee or appointed agent, the workpapers, as defined in Section 020; ( )

05. Properly Licensed. A representation that the accountant is properly licensed by an appropriate state licensing authority and is a member in good standing in the AICPA; and ( )

06. Compliance with Section 014. A representation that the accountant is in compliance with the requirements of Section 014 of this rule. ( )

020. DEFINITION, AVAILABILITY AND MAINTENANCE OF CERTIFIED PUBLIC ACCOUNTANTS WORKPAPERS.
Workpapers are the records kept by the independent certified public accountant of the procedures followed, the tests performed, the information obtained, and the conclusions reached pertinent to the accountant's audit of the financial statements of an insurer. Workpapers, accordingly, may include audit planning documentation, work programs, analyses, memoranda, letters of confirmation and representation, abstracts of company documents and schedules or commentaries prepared or obtained by the independent certified public accountant in the course of his audit of the financial statements of an insurer and which support the accountant's opinion. Every insurer needs to file an Audited financial report pursuant to this rule, will require the accountant to make available for review by the insurance department examiners, all workpapers prepared in the conduct of the accountant's audit and any communications related to the audit between the accountant and the insurer, at the office of the insurer, at the insurance department or at any other reasonable place designated by the Director. The insurer will require that the accountant retain the audit workpapers and communications until the insurance department has filed a report on examination covering the period of the audit but no longer than seven (7) years from the date of the audit report. In the conduct of the aforementioned periodic review by the insurance. department examiners, it will be agreed that photocopies of pertinent audit workpapers may be made and retained by the department. Such reviews by the department examiners will be considered investigations and all working papers and communications obtained during the course of such investigations will be afforded the same confidentiality as other examination workpapers generated by the department. ( )

021. REQUIREMENTS FOR AUDIT COMMITTEES.
This section will not apply to foreign or alien insurers licensed in this state or an insurer that is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity. ( )

01. Responsibility. The Audit committee will be directly responsible for the appointment, compensation and oversight of the work of any accountant (including resolution of disagreements between

management and the accountant regarding financial reporting) for the purpose of preparing or issuing the audited financial report or related work pursuant to this chapter. Each accountant will report directly to the Audit committee. ( )

02. Corporate Membership. Each member of the Audit committee will need to be a member of the board of directors of the insurer or a member of the board of directors of an entity elected pursuant to Subsection 021.05 and Section 010 of this rule. ( )

03. Independence. In order to be considered independent for purposes of Section 021, a member of the Audit committee will not, other than in his capacity as a member of the Audit committee, the board of directors, or any other board committee, accept any consulting, advisory or other compensatory fee from the entity or be an affiliated person of the entity or any subsidiary thereof. However, if law requires board participation by otherwise non-independent members, that law will prevail and such members may participate in the Audit committee and be designated as independent for Audit committee purposes, unless they are an officer or employee of the insurer or one (1) of its affiliates. ( )

04. Continuation of Service. If a member of the Audit committee ceases to be independent for reasons outside the member's reasonable control, that person, with notice by the responsible entity to the Director, may remain an Audit committee member of the responsible entity until the earlier of the next annual meeting of the responsible entity or one (1) year from the occurrence of the event that caused the member to be no longer independent. ( )

05. Controlling Person. To exercise the election of the controlling person to designate the Audit committee for purposes of this rule, the ultimate controlling person will provide written notice to the directors of insurance of the affected insurers. Notification will be made timely prior to the issuance of the statutory audit report and include a description of the basis for the election. The election can be changed through notice to the Director by the insurer, which needs to include a description of the basis for the change. The election will remain in effect for perpetuity, until rescinded. ( )

06. Accountant's Reports to Audit Committee. The Audit committee will require the accountant that performs for an insurer any audit prescribed by this rule to timely report to the Audit committee in accordance with the standards of his profession. If an insurer is a member of an insurance holding company system, the reports prescribed by Subsection 021.06 of this rule, may be provided to the Audit committee on an aggregate basis for insurers in the holding company system, provided that any substantial differences among insurers in the system are identified to the Audit committee. The accountant's reports need to include: ( )

a. All significant accounting policies and material permitted practices; ( )

b. All material alternative treatments of financial information within statutory accounting principles that have been discussed with management officials of the insurer, ramifications of the use of the alternative disclosures and treatments, and the treatment preferred by the accountant; and ( )

c. Other material written communications between the accountant and the management of the insurer, such as any management letter or schedule of unadjusted differences. ( )

07. Requisite Proportion of Independent Audit Committee Members. The proportion of independent Audit committee members will meet or exceed the following criteria: ( )

Prior Calendar Year Direct Written and Assumed Premiums

Note B: All insurers with less than $500,000,000 in prior year direct written and assumed premiums are encouraged to structure their Audit committees with at least a supermajority of independent Audit committee members.

( )

08. Hardship Waiver. An insurer with direct written and assumed premium, excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than five hundred million dollars ($500,000,000) may make application to the Director for a waiver from the Section 021 requirements based upon hardship. The insurer will file, with its annual statement filing, the approval for relief from Section 021 with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer will file the approval in an electronic format acceptable to the NAIC. ( )

022. CONDUCT OF INSURER IN CONNECTION WITH THE PREPARATION OF REQUISITE REPORTS AND DOCUMENTS.

01. False or Misleading Statements. No director or officer of an insurer may, directly or indirectly make or cause to be made a materially false or misleading statement to an accountant in connection with any audit, review or communication prescribed under this chapter. ( )

( )

03. Coercion. No officer or director of an insurer, or any other person acting under the direction thereof, may directly or indirectly take any action to coerce, manipulate, mislead or fraudulently influence any accountant engaged in the performance of an audit pursuant to this chapter if that person knew or should have known that the action, if successful, could result in rendering the insurer's financial statements materially misleading. For purposes of Subsection 022.03 of this rule, actions that, "if successful, could result in rendering the insurer's financial statements materially misleading" include, but are not limited to, actions taken at any time with respect to the professional engagement period to coerce, manipulate, mislead or fraudulently influence an accountant: ( )

023. MANAGEMENT'S REPORT OF INTERNAL CONTROL OVER FINANCIAL REPORTING.

01. Premium Threshold. The report will be filed with the Director along with the Communication of Internal Control Related Matters Noted in an Audit described under Section 018. Management's Report of Internal Control over Financial Reporting will be as of December 31 immediately preceding. ( )

02. RBC Level or Other Event. Notwithstanding the premium threshold in Subsection 023.01 of this rule, the Director may require an insurer to file Management's Report of Internal Control over Financial Reporting if the insurer is in any RBC level event, or meets any one (1) or more of the standards of an insurer deemed to be in hazardous financial condition as defined in IDAPA 18.07.05, "Director's Authority for Companies Deemed to be in Hazardous Financial Condition." ( )

03. Section 404. An insurer or a group of insurers may file its or its parent's Section 404 Report and an addendum in satisfaction of this Section 023 requirement provided that those internal controls of the insurer or group of insurers having a material impact on the preparation of the insurer's or group of insurers' audited statutory financial statements (those items included in Subsections 012.02 through 012.07 of this rule) were included in the scope of the Section 404 Report. The addendum will be a positive statement by management that there are no material processes with respect to the preparation of the insurer's or group of insurers' audited statutory financial statements (those items included in Subsections 012.02 through 012.07 of this rule) excluded from the Section 404 Report. If there are internal controls of the insurer or group of insurers that have a material impact on the preparation of the insurer's or group of insurers' audited statutory financial statements and those internal controls were not included in the scope of the Section 404 Report, the insurer or group of insurers may either file: ( )

a. A Section 023 report; or ( )

b. The Section 404 Report and a Section 023 report for those internal controls that have a material impact on the preparation of the insurer's or group of insurers' audited statutory financial statements not covered by the Section 404 Report, providing the insurer or group of insurers is: ( )

c. A statement that briefly describes the approach or processes by which management evaluated the effectiveness of its Internal control over financial reporting; and ( )

d. A statement that briefly describes the scope of work that is included and whether any internal controls were excluded; ( )

Management may base its assertions, in part, upon its review, monitoring and testing of internal controls undertaken in the normal course of its activities. Management may have discretion as to the nature of the internal control framework used, and the nature and extent of documentation, in order to make its assertion in a cost effective manner and, as such, may include assembly of or reference to existing documentation. Management's Report on Internal Control over Financial Reporting, prescribed by Subsection 023.01 of this rule, and any documentation provided in support thereof during the course of a financial condition examination, will be kept confidential by the Idaho Department of Insurance. ( )

024. EXEMPTIONS AND EFFECTIVE DATES.

01. Exemptions Not Otherwise Provided. Upon written application of any insurer, the Director may grant an exemption from compliance with any and all provisions of this rule if the Director finds, upon review of the application, that compliance with this rule would constitute a financial or organizational hardship upon the insurer. An exemption may be granted at any time and from time to time for a specified period or periods. Within ten (10) days from a denial of an insurer's written request for an exemption from this chapter, the insurer may request in writing a hearing on its application for an exemption. The hearing will be held in accordance with the IDAPA 04.11.01, "Idaho Rules of Administrative Procedure of the Attorney General," pertaining to administrative hearing procedures. ( )

02. Alternate Effective Date for Section 021 [Requirements for Audit Committees]. An insurer or group of insurers that is not prescribed to have independent Audit committee members or only a majority of independent Audit committee members (as opposed to a supermajority) because the total written and assumed premium is below the threshold and subsequently becomes subject to one (1) of the independence requirements due to changes in premium will have one (1) year following the year the threshold is exceeded to comply with the independence requirements. Likewise, an insurer that becomes subject to one (1) of the independence requirements as a result of a business combination will have one (1) calendar year following the date of acquisition or combination to comply with the independence requirements. ( )

03. Effective Date for Section 023 [Management's Report of Internal Control Over Financial Reporting]. An insurer or group of insurers that is not prescribed to file a report because the total written premium is below the threshold and subsequently becomes subject to the reporting requirements will have two (2) years following the year the threshold is exceeded to file a report. 025. CANADIAN AND BRITISH COMPANIES.

02. Letter Requisite in Section 013. For such insurers, the letter prescribed in Section 013 states that the accountant is aware of the requirements relating to the annual Audited statement filed with the Director pursuant to section 011 and affirms that the opinion expressed is in conformity with such requirements. ( )

026. INTERNAL AUDIT FUNCTION REQUIREMENTS.

01. Exemption. An insurer is exempt from the requirements of this section if: ( )

a. The insurer has annual direct written and unaffiliated assumed premium, including international direct and assumed premium but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than five hundred million dollars ($500,000,000); and ( )

b. If the insurer is a member of a group of insurers, the group has annual direct written and unaffiliated assumed premium including international direct and assumed premium, but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than one billion dollars ($1,000,000,000). ( )

02. Function. The insurer or group of insurers need to establish an internal audit function providing independent, objective and reasonable assurance to the audit committee and insurer management regarding the insurer's governance, risk management and internal controls. This assurance will be provided by performing general and specific audits, reviews and tests and by employing other techniques deemed necessary to protect assets, evaluate control effectiveness and efficiency, and evaluate compliance with policies and regulations. ( )

03. Independence. In order to ensure that internal auditors remain objective, the internal audit function needs to be organizationally independent. Specifically, the internal audit function will not defer ultimate judgment on audit matters to others, and will appoint an individual to head the internal audit function who will have direct and unrestricted access to the board of directors. Organizational independence does not preclude dual-reporting relationships. ( )

04. Reporting. The head of the internal audit function will report to the audit committee regularly, but no less than annually, on the periodic audit plan, factors that may adversely impact the internal audit function's independence or effectiveness, material findings from completed audits and the appropriateness of corrective actions implemented by management as a result of audit findings. ( )

Whether the insurer's operating loss in the last twelve (12) month period or any shorter period of time, including but not limited to net capital gain or loss, change in non-admitted assets, and cash dividends paid to shareholders, is greater than fifty percent (50%) of the insurer's remaining surplus as regards policyholders in excess of the minimum mandatory. ( )

06. Operating Loss (20% of Surplus). Whether a reinsurer, obligor, or any entity within the insurer's insurance holding company system is insolvent, threatened with insolvency, or delinquent in payment of its monetary or other obligations, and which in the opinion of the Director may affect the solvency of the insurer. ( )

08. Contingent Liabilities. Contingent liabilities, pledges or guaranties which either individually or collectively involve a total amount which in the opinion of the Director may affect the solvency of the insurer. ( )

09. Controlling Person. Whether any "controlling person" of an insurer is delinquent in the transmitting to, or payment of, net premiums to such insurer. ( )

10. Receivables. The age and collectibility of receivables. ( )

11. Competence of Management. Whether the management of an insurer, including officers, directors, or any other person who directly or indirectly controls the operation of such insurer, fails to possess and demonstrate the competence, fitness and reputation deemed necessary to serve the insurer in such position. ( )

12. Failure to Respond to Inquiries. Whether management of an insurer has failed to respond to inquiries relative to the condition of the insurer or has furnished false and misleading information concerning an inquiry. ( )

13. Failure to Meet Filing Requirements. Whether the insurer has failed to meet financial and holding company filing requirements in the absence of a reason satisfactory to the Director. ( )

14. False or Misleading Financial Statements. Whether management of an insurer either has filed any false or misleading sworn financial statement, or has released false or misleading financial statement to lending institutions or to the general public, or has made a false or misleading entry, or has omitted an entry of material amount in the books of the insurer. ( )

15. Extensive Growth. Whether the insurer has grown so rapidly and to such an extent that it lacks adequate financial and administrative capacity to meet its obligations in a timely manner. ( )

16. Cash Flow. Whether the company has experienced or will experience in the foreseeable future cash flow and/or liquidity problems. ( )

17. Reserves Compliance with Minimum Standards. Whether management has established reserves that do not comply with minimum standards established by state insurance laws, regulations, statutory accounting standards, sound actuarial principles and standards of practice. ( )

18. Material Under-Reserving. Whether management persistently engages in material under-reserving that results in adverse development. ( )

19. Transactions Among Affiliates. Whether transactions among affiliates, subsidiaries or controlling persons for which the insurer receives assets, capital gains or both do not provide sufficient value, liquidity or diversity to assure the insurer's ability to meet its outstanding obligations as they mature. ( )

20. Any Other Finding. Any other finding determined by the Director to be hazardous to the insurer's policyholders or creditors or to the general public. ( )

012. DIRECTOR'S AUTHORITY.

01. Determination of Financial Condition. For the purposes of making a determination of an insurer's financial condition under this rule, the Director may: ( )

a. Disregard any credit or amount receivable resulting from transactions with a reinsurer which is insolvent, impaired or otherwise subject to a delinquency proceeding; ( )

b. Make appropriate adjustments, including disallowance, to asset values attributable to investments in or transactions with parents, subsidiaries, or affiliates, consistent with the NAIC Accounting Policies and Procedures Manual, state laws, and regulations; ( )

c. Refuse to recognize the stated value of accounts receivable if the ability to collect receivables is highly speculative in view of the age of the account or the financial condition of the debtor; ( )

d. Increase the insurer's liability in an amount equal to any contingent liability, pledge, or guarantee not otherwise included if there is a substantial risk that the insurer will be called upon to meet the obligation undertaken within the next twelve (12) month period. ( )

02. Issuance of Order. If the Director determines that the continued operation of the insurer licensed to transact business in this state may be hazardous to the policyholders or creditors or to the general public, then the Director may, upon a determination, issue an order requiring the insurer to: ( )

a. Reduce the total amount of present and potential liability for policy benefits by reinsurance; ( )

b. Reduce, suspend or limit the volume of business being accepted or renewed; ( )

c. Reduce general insurance and commission expenses by specified methods; ( )

d. Increase the insurer's capital and surplus; ( )

k. Provide a business plan to the Director in order to continue to transact business in the state; or ( )

l. Adjust rates for any non-life insurance product written by the insurer that the Director considers necessary to improve the financial condition of the insurer. ( )

03. Hearing. Any insurer subject to an order under Subsection 012.02 may request a hearing to review that order pursuant to Title 41, Chapter 2, Idaho Code. ( )

013. -- 999. (RESERVED)

000. LEGAL AUTHORITY.
Title 41, Chapters 2, 3, and 5, Sections 41-211, 41-335, 41-510, 41-511, 41-512 and 41-514, Idaho Code. ( )

001. TITLE, PURPOSE AND SCOPE.

01. Title. IDAPA 18.07.06, "Rules Governing Life and Health Reinsurance Agreements." ( )

02. Purpose. To set forth standards for Reinsurance Agreements involving life insurance, annuities, or accident and sickness insurance (disability) in order that the financial statements of the life and health and property and casualty insurers writing health business and utilizing such agreements properly reflect the financial condition of the ceding and assuming insurer. ( )

a. The Department recognizes that licensed insurers routinely enter into reinsurance agreements that yield legitimate relief to the ceding insurer from strain to surplus. ( )

b. However, it is improper for a licensed insurer, in the capacity of ceding insurer, to enter into reinsurance agreements for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business being reinsured. In substance or effect, the expected potential liability to the ceding insurer remains basically unchanged by the reinsurance transaction, notwithstanding certain risk elements in the reinsurance agreement, such as catastrophic mortality or extraordinary survival. The terms of such agreements referred to herein and described in Section 011 violate Idaho Code Sections 41-1306, 41-515, 41-308(3), 41-327 and 41-3309: ( )

03. Applicability. This rule applies to all domestic life and accident and health insurers and to all other licensed life and accident and health insurers that are not subject to a substantially similar rule in their domiciliary state. This rule also similarly applies to licensed property and casualty insurers with respect to their accident and health business. This rule does not apply to assumption reinsurance or yearly renewable term reinsurance. ( )

002. -- 010. (RESERVED)

011. ACCOUNTING REQUIREMENTS.

01. Standards for Credit on Financial Statement. No insurer subject to this rule will, for reinsurance ceded, reduce any liability or establish any asset in any financial statement filed with the Department if, by the terms of the reinsurance agreement, in substance or effect, any of the following conditions exist: ( )

a. Renewal expense allowances provided or to be provided to the ceding insurer by the reinsurer in any accounting period, are not sufficient to cover anticipated allocable renewal expenses of the ceding insurer on the portion of the business reinsured, unless a liability is established for the present value of the shortfall (using assumptions equal to the applicable statutory reserve basis on the business reinsured). Those expenses include commissions, premium taxes and direct expenses including, but not limited to, billing, valuation, claims and maintenance expected by the company at the time the business is reinsured; ( )

b. The ceding insurer can be deprived of surplus or assets at the reinsurer's option or automatically upon the occurrence of some event, such as the insolvency of the ceding insurer, except that termination of the reinsurance agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due, such as modified coinsurance reserve adjustments, interest and adjustments on funds withheld, and tax reimbursements, will not be considered to be such a deprivation of surplus or assets; ( )

c. The ceding insurer needs to reimburse the reinsurer for negative experience under the reinsurance agreement, except that neither offsetting experience refunds against current and prior years' losses under the agreement nor payment by the ceding insurer of an amount equal to the current and prior years' losses under the agreement upon voluntary termination of in force reinsurance by the ceding insurer will be considered such a reimbursement to the reinsurer for negative experience. Voluntary termination does not include situations where termination occurs because of unreasonable provisions which allow the reinsurer to reduce its risk under the agreement. An example of such a provision is the right of the reinsurer to increase reinsurance premiums or risk and expense charges to excessive levels forcing the ceding company to prematurely terminate the reinsurance treaty; ( )

d. The ceding insurer needs to, at specific points in time scheduled in the agreement, terminate or automatically recapture all or part of the reinsurance ceded; ( )

e. The reinsurance agreement involves the possible payment by the ceding insurer to the reinsurer of amounts other than from income realized from the insured policies. For example, it is improper for a ceding company to pay reinsurance premiums, or other fees or charges to a reinsurer which are greater than the direct premiums collected by the ceding company; ( )

f. The treaty does not transfer all of the significant risk inherent in the business being reinsured. The following table identified for a representative sampling of products or type of business, the risks which are considered to be significant. For products not specifically included, the risks determined to be significant will be consistent with this table. ( )

i. Risk categories: ( )

(1) Morbidity. ( )

(2) Mortality. ( )

ii. Lapse. This is the risk that a policy will voluntarily terminate prior to the recoupment of a statutory surplus strain experienced at issue of the policy. ( )

iii. Credit Quality (C1). This is the risk that invested assets supporting the reinsured business will decrease in value. The main hazards are that assets will default or that there will be a decrease in earning power. It excludes market value declines due to changes in interest rate. ( )

iv. Reinvestment (C3). This is the risk that interest rates will fall and funds reinvested (coupon payments or monies received upon asset maturity or call) will therefore earn less than expected. If asset durations are less than liability durations, the mismatch will increase. ( )

v. Disintermediation (C3). This is the risk that interest rates rise and policy loans and surrenders increase or maturing contracts do not renew at anticipated rates of renewal. If asset durations are greater than the liability durations, the mismatch will increase. Policyholders will move their funds into new products offering higher rates. The company may have to sell assets at a loss to provide for these withdrawals.

( )

g. Significant Risk. ( )

i. The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not (other than for the classes of business excepted in IDAPA 18.07.06.011.01.g.ii.) either transfer the underlying assets to the reinsurer or legally segregate such assets in a trust or escrow account or otherwise establish a mechanism satisfactory to the Director which legally segregates, by contract or contract provision, the underlying assets. ( )

ii. Notwithstanding the requirements of IDAPA 18.07.06.011.01.g.i., the assets supporting the reserves for the following classes of business and any classes of business which do not have a significant credit quality, reinvestment or disintermediation risk may be held by the ceding company without segregation of such assets:

- Health Insurance - LTC/LTD

- Traditional Non-Par Permanent

- Traditional Par Permanent

- Adjustable Premium Permanent

- Indeterminate Premium Permanent

- Universal Life Fixed Premium (no dump-in premiums allowed)

The associated formula for determining the reserve interest rate adjustment needs to use a formula that reflects the ceding company's investment earnings and incorporates all realized and unrealized gains and losses reflected in the statutory statement. The following is an acceptable formula:

$$\text{Rate} = \frac{2(I + CG)}{X + Y - I - CG}$$

Where: "I" is the net investment income as reported in Annual Statement

"CG" is capital gains less capital losses as reported in Annual Statement

"X" is the current year cash and invested assets plus investment income due and accrued less borrowed money as reported in Annual Statement

"Y" is the same as X but for the prior year ( )

h. Settlements are made less frequently than quarterly or payments due from the reinsurer are not made in cash within ninety (90) days of the settlement date. ( )

i. The ceding insurer needs to make representations or warranties not reasonably related to the business being reinsured. ( )

j. The ceding insurer needs to make representations or warranties about future performance of the business being reinsured. ( )

k. The reinsurance agreement is entered into for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business reinsured and, in substance or effect, the expected potential liability to the ceding insurer remains basically unchanged. ( )

02. Director's Approval. An insurer subject to this Rule may, with the prior approval of the Director, take such reserve credit or establish such asset as the Director may deem consistent with the Insurance Code and Rules, including actuarial interpretations or standards adopted by the Department. ( )

03. Filing of Reinsurance Agreements. ( )

a. Agreements entered into after the effective date of this Rule which involve the reinsurance of business issued prior to the effective date of the agreements, along with any subsequent amendments thereto, will be filed by the ceding company with the Director within thirty (30) days from its date of execution. Each filing will include data detailing the financial impact of the transaction. The ceding insurer's actuary who signs the financial statement actuarial opinion with respect to valuation of reserves will consider his Rule and any applicable actuarial standards of practice when determining the proper credit in financial statements filed with this Department. The actuary should maintain adequate documentation and be prepared upon request to describe the actuarial work performed for inclusion in the financial statements and to demonstrate that such work conforms to this Rule. ( )

b. Any increase in surplus net of federal income tax resulting from arrangements described in Subsection 011.03.a. will be identified separately on the insurer's statutory financial statement as a surplus item (aggregate write-ins for gains and losses in surplus in the Capital and Surplus Account line of the Annual Statement) and recognition of the surplus increase as income will be reflected on a net of tax basis in the "Reinsurance ceded" line of the annual statement as earnings emerge from the business reinsured. ( )

i. For example: On the last day of calendar year N, company XYZ pays a twenty ($20) million initial commission and expense allowance to company ABC for reinsuring an existing block of business. Assuming a thirty-four percent (34%) tax rate, the net increase in surplus at inception is thirteen point two ($13.2) million (twenty ($20) million - six point eight ($6.8) million) which is reported on the "Aggregate write-ins for gains and losses in surplus" line in the Capital and Surplus account. Six point eight ($6.8) million (thirty-four (34%) of twenty ($20) million) is reported as income on the "Commissions and expense allowances on reinsurance ceded" line of the Summary of Operations. ( )

ii. At the end of year N+1 the business has earned four ($4) million. ABC has paid point five ($.5) million in profit and risk charges in arrears for the year and has received a one million ($1) million experience refund. Company ABC's annual statement would report one point six five ($1.65) million (sixty-six percent (66%) of (four ($4) million - one ($1) million - point five ($.5) million) up to a maximum of thirteen point two ($13.2) million) on the "Commissions and expense allowance on reinsurance ceded" line of the Summary of Operations, and -one point sixty five ($1.65) million on the "Aggregate write-ins for gains and losses in surplus" line of the Capital and Surplus account. The experience refund would be reported separately as a miscellaneous income item in the Summary of Operations. ( )

012. WRITTEN AGREEMENTS.

01. Execution Date. No reinsurance agreement or amendment to any agreement may be used to reduce any liability or to establish any asset in any financial statement filed with the Department, unless the agreement, amendment or a binding letter of intent has been duly executed by both parties no later than the "as of date" of the financial statement. ( )

02. Letter of Intent. In the case of a letter of intent, a reinsurance agreement or an amendment to a reinsurance agreement needs to be executed within a reasonable period of time, not exceeding ninety (90) days from the execution date of the letter of intent, in order for credit to be granted for the reinsurance ceded. ( )

03. Requisite Provisions. The reinsurance agreement will contain provisions that provide that: ( )

a. The agreement will constitute the entire agreement between the parties with respect to the business being reinsured thereunder and that there are no understandings between the parties other than as expressed in the agreement; and ( )

b. Any change or modification to the agreement will be null and void unless made by amendment to the agreement and signed by both parties. ( )

013. EXISTING AGREEMENTS.
Insurers subject to this rule will not be allowed to recognize any reserve credits or assets established with respect to reinsurance agreements entered into prior to the effective date of this rule which, under the provisions of this rule would not be entitled to recognition of the reserve credits or assets; provided, however, that the reinsurance agreements will have been in compliance with laws or rules in existence immediately preceding the effective date of this rule. e. One (1) or more additional paragraphs will be needed in individual company cases as follows; ( )

i. If the appointed actuary considers it necessary to state a qualification of his opinion; ( )

ii. If the appointed actuary needs to disclose an inconsistency in the method of analysis or basis of asset allocation used at the prior opinion date with that used for this opinion; ( )

iii. If the appointed actuary needs to disclose whether additional reserves of the prior opinion date are released as of this opinion date, and the extent of the release; or ( )

iv. If the appointed actuary chooses to add a paragraph briefly describing the assumptions which form the basis for the actuarial opinion. ( )

02. Recommended Language. The Department has adopted recommended language which can be obtained on the Department's website and are to be included in the statement of actuarial opinion in accordance with this section. Language is that which in typical circumstances should be included in a statement of actuarial opinion. The language may be modified as needed to meet the circumstances of a particular case, but the appointed actuary should use language which clearly expresses their professional judgment. However, in any event the opinion will

retain all pertinent aspects of the language provided. ( )

03. Assumptions for New Issues. The adoption for new issues or new claims or other new liabilities of an actuarial assumption which differs from a corresponding assumption used for prior new issues or new claims or other new liabilities is not a change in actuarial assumptions within the meaning of this Section 022 of this chapter. ( )

04. Adverse Opinions. If the appointed actuary is unable to form an opinion, then they will refuse to issue a statement of actuarial opinion. If the appointed actuary's opinion is adverse or qualified, then they will issue an adverse or qualified actuarial opinion explicitly stating the reason(s) for such opinion. This statement should follow the scope paragraph and precede the opinion paragraph. ( )

05. Reliance on Data Furnished by Other Persons. If the appointed actuary relies on the certification of others on matters concerning the accuracy or completeness of any data underlying the actuarial opinion, or the appropriateness of any other information used by the appointed actuary in forming the actuarial opinion, the actuarial opinion should so indicate the persons the actuary is relying upon and a precise identification of the items subject to reliance. In addition, the persons on whom the appointed actuary relies will provide a certification that precisely identifies the items on which the person is providing information and a statement as to the accuracy, completeness or reasonableness, as applicable, of the items. This certification will include the signature, title, company, address and telephone number of the person rendering the certification, as well as the date on which it is signed. ( )

023. ALTERNATE OPTION.

01. Standard Valuation Law. The Standard Valuation Law gives the Director broad authority to accept the valuation of a foreign insurer when that valuation meets the requirements applicable to a company domiciled in this state in the aggregate. As an alternative to the requirements of part (c) in Paragraph 022.02.f. of this chapter, the Director may make one (1) or more of the following additional approaches available to the opining actuary: ( )

a. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and the formal written standards and conditions of this state for filing an opinion based on the law of the state of domicile." If the Director chooses to allow this alternative, a formal written list of standards and conditions will be made available. If a company chooses to use this alternative, the standards and conditions in effect on July 1 of a calendar year will apply to statements for that calendar year, and they will remain in effect until they are revised or revoked. If no list is available, this alternative is not available. ( )

b. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have verified that the company's request to file an opinion based on the law of the state of domicile has been approved and that any conditions prescribed by the Director for approval of that request have been met." If the Director chooses to allow this alternative, a formal written statement of such allowance will be issued no later than March 31 of the year it is first effective. It will remain valid until rescinded or modified by the Director. The rescission or modifications will be issued no later than March 31 of the year they are first effective. Subsequent to that statement being issued, if a company chooses to use this alternative, the company will file a request to do so, along with justification for its use, no later than April 30 of the year of the opinion to be filed. The request will be deemed approved on October 1 of that year if the Director has not denied the request by that date. ( )

c. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have submitted the prescribed comparison as specified by this state." ( )

i. If the Director chooses to allow this alternative, a formal written list of products (to be added to the table in Item (ii) below) for which the prescribed comparison will be provided will be published. If a company chooses to use this alternative, the list in effect on July 1 of a calendar year will apply to statements for that calendar year, and it will remain in effect until it is revised or revoked. If no list is available, this alternative is not available. ( )

ii. If a company desires to use this alternative, the appointed actuary will provide a comparison of the gross nationwide reserves held to the gross nationwide reserves that would be held under NAIC codification

standards. Gross nationwide reserves are the total reserves calculated for the total company in force business directly sold and assumed, indifferent to the state in which the risk resides, without reduction for reinsurance ceded. The information provided will be at least:

(1) Product Type	(2) Death Benefit or Account Value	(3) Reserves Held	(4) Codification Reserves	(5) Codification Standard

( )

iii. The information listed will include all products identified by either the state of filing or any other states subscribing to this alternative. ( )

iv. If there is no codification standard for the type of product or risk in force or if the codification standard does not directly address the type of product or risk in force, the appointed actuary will provide detailed disclosure of the specific method and assumptions used in determining the reserves held. ( )

v. The comparison provided by the company is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum. ( )

d. Notwithstanding the above, the Director may reject an opinion based on the laws and regulations of the state of domicile and require an opinion based on the laws of this state. If a company is unable to provide the opinion within sixty (60) days of the request or such other period of time determined by the Director after consultation with the company, the Director may contract with an independent actuary at the company's expense to prepare and file the opinion. ( )

024. DESCRIPTION OF ACTUARIAL MEMORANDUM INCLUDING AN ASSET ADEQUACY ANALYSIS AND REGULATORY ASSET ADEQUACY ISSUES SUMMARY.

01. General. ( )

a. In accordance with Section 41-612(12), Idaho Code, the appointed actuary will prepare a memorandum to the company describing the analysis done in support of their opinion regarding the reserves. The memorandum will be made available for examination by the Director upon his request but will be returned to the company after such examination and cannot be considered a record of the insurance department or subject to automatic filing with the Director. ( )

b. In preparing the memorandum, the appointed actuary may rely on, and include as a part of their own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of Subsection 021.02 of this chapter, with respect to the areas covered in such memoranda, and so state in their memoranda. ( )

c. If the Director requests a memorandum and no such memorandum exists or if the Director finds that the analysis described in the memorandum fails to meet the standards of the Actuarial Standards Board or the standards and requirements of this Rule, the Director may designate a qualified actuary to review the opinion and prepare such supporting memorandum as is needed for review. The reasonable and necessary expense of the independent review will be paid by the company but will be directed and controlled by the Director. ( )

d. The reviewing actuary will have the same status as an examiner for purposes of obtaining data from the company and the work papers and documentation of the reviewing actuary will be retained by the Director; provided, however, that any information provided by the company to the reviewing actuary and included in the work papers will be considered as examination workpapers and will be kept confidential to the same extent as is prescribed by Section 41-227, Idaho Code. The reviewing actuary cannot be an employee of a consulting firm involved with the

preparation of any prior memorandum or opinion for the insurer pursuant to this rule for any one of the current year or the preceding three (3) years. ( )

e. In accordance with Section 41-612(12), Idaho Code, the appointed actuary will prepare a regulatory asset adequacy issues summary, the contents of which are specified in Subsection 024.03 of this chapter. The regulatory asset adequacy issues summary will be submitted no later than March 15 of the year following the year for which a statement of actuarial opinion based on asset adequacy is mandatory. The regulatory asset adequacy issues summary will be maintained as confidential and not subject to public disclosure by the director in accordance with Section 41-612(12), Idaho Code, and Section 74-107(5) of the Idaho Public Records Act. ( )

f. In accordance with Section 41-612(12)(d)(iv), the director will accept the regulatory asset adequacy issues summary of a foreign or alien company filed by that company with the insurance supervisory official of another state if the director determines that the summary reasonably meets the requirements applicable to a company domiciled in Idaho. Therefore, foreign or alien insurers needed to file the regulatory asset adequacy issues summary in their home state are exempt from filing in this state, except upon request of the director, provided the other state has substantially similar reporting requirements and the summary is filed with the director of the other state within the time specified. ( )

02. Details of the Memorandum Section Documenting Asset Adequacy Analysis (Section 022). When an actuarial opinion under Section 022 of this chapter is provided, the memorandum will demonstrate that the analysis has been done in accordance with the standards for asset adequacy referred to in Subsection 021.04 of this chapter and any additional standards under this rule. It will specify; ( )

a. For reserves; ( )

i. Product descriptions including market description, underwriting and other aspects of a risk profile and the specific risks the appointed actuary deems significant; ( )

ii. Source of liability in force; ( )

iii. Reserve method and basis; ( )

iv. Investment reserves; ( )

v. Reinsurance arrangements; and ( )

vi. Identification of any explicit or implied guarantees made by the general account in support of benefits provided through a separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis. ( )

b. Documentation of assumptions to test reserves for the following: ( )

i. Lapse rates (both base and excess); ( )

ii. Interest crediting rate strategy; ( )

iii. Mortality; ( )

iv. Policyholder dividend strategy; ( )

v. Competitor or market interest rate; ( )

vi. Annuitization rates; ( )

vii. Commissions and expenses; and ( )

viii. Morbidity. ( )

ix. The documentation of the assumptions will be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions. ( )

c. For assets: ( )

i. Portfolio descriptions, including a risk profile disclosing the quality, distribution and types of assets; ( )

ii. Investment and disinvestment assumptions; ( )

iii. Source of asset data; ( )

iv. Asset valuation bases. ( )

d. Documentation of assumptions made for the following assets: ( )

i. Default costs; ( )

ii. Bond call function; ( )

iii. Mortgage prepayment function; ( )

iv. Determining market value for assets sold due to disinvestment strategy; and ( )

v. Determining yield on assets acquired through the investment strategy. ( )

vi. The documentation of the assumptions will be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions. ( )

e. For the analysis basis: ( )

i. Methodology; ( )

ii. Rationale for inclusion/exclusion of different blocks of business and how pertinent risks were analyzed; ( )

iii. Rationale for degree of rigor in analyzing different blocks of business (include in the rationale the level of "materiality" that was used in determining how rigorously to analyze different blocks of business); ( )

iv. Criteria for determining asset adequacy (include in the criteria the precise basis for determining if assets are adequate to cover reserves under "moderately adverse conditions" or other conditions as specified in relevant actuarial standards of practice); ( )

v. Whether the impact of federal income taxes was considered and the method of treating reinsurance in the asset adequacy analysis. ( )

f. Summary of material changes in methods, procedures, or assumptions from prior year's asset adequacy analysis; ( )

g. Summary of Results; ( )

h. Conclusion(s). ( )

i. The regulatory asset adequacy issues summary will include: ( )

i. Descriptions of the scenarios tested (including whether those scenarios are stochastic or

deterministic) and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary should describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values will be determined by either extending the projection period until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can reasonably be expected to arise from the assets and liabilities remaining in force; ( )

ii. The extent to which the appointed actuary uses assumptions in the asset adequacy analysis that are materially different than the assumptions used in the previous asset adequacy analysis; ( )

iii. The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion; ( )

iv. Comments on any interim results that may be of significant concern to the appointed actuary. For example, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods; ( )

v. The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested; and ( )

vi. Whether the actuary has been satisfied that all options whether explicit or embedded, in any asset or liability (including but not limited to those affecting cash flows embedded in fixed income securities) and equity-like features in any investments have been appropriately considered in the asset adequacy analysis. ( )

j. The regulatory asset adequacy issues summary will contain the name of the company for which the regulatory asset adequacy issues summary is being supplied and will be signed and dated by the appointed actuary rendering the actuarial opinion. ( )

04. Conformity to Standards of Practice. The memorandum will include a statement:
"Actuarial methods, considerations and analyses used in the preparation of this memorandum conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis for this memorandum." ( )

05. Use of Assets Supporting the Interest Maintenance Reserve and the Asset Valuation Reserve. An appropriate allocation of assets in the amount of the Interest Maintenance Reserve (IMR), whether positive or negative, needs to be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the Asset Valuation Reserve (AVR); these AVR assets cannot be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support. The amount of the assets used for the AVR needs to be disclosed in the Table of Reserves and Liabilities of the opinion and in the memorandum. The method used for selecting particular assets or allocated portions of assets needs to be disclosed in the memorandum. ( )

06. Documentation. The appointed actuary will retain on file, for at least seven (7) years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained. ( )

( )

04. Providing Information. For purposes of completing the CGAD, the insurer or insurance group may choose to provide information on governance activities that occur at the ultimate controlling parent level, an intermediate holding company level or the individual legal entity level, depending upon how the insurer or insurance group has structured its system of corporate governance. The insurer or insurance group is encouraged to make the CGAD disclosures at the level at which the insurer's or insurance group's risk appetite is determined, or at which the earnings, capital, liquidity, operations, and reputation of the insurer are overseen collectively and at which the supervision of those factors are coordinated and exercised, or the level at which legal liability for failure of general corporate governance duties would be placed. The insurer or insurance group will clearly reference the location of the relevant information within the CGAD and attach the referenced document if it is not already filed or available to the regulator. ( )

07. Filing of Amended Versions. Each year following the initial filing of the CGAD, the insurer or insurance group will file an amended version of the previously filed CGAD indicating where changes have been made. If no changes were made in the information or activities reported by the insurer or insurance group, the filing should so state. ( )

000. LEGAL AUTHORITY.
Title 41, Chapters 2 and 23, Sections 41-211 and 41-2314, Idaho Code. ( )

001. SCOPE.

05. Identifiable Charge. The amount the debtor is charged for insurance which is disclosed in the credit or other instrument furnished the debtor which sets out the financial elements of the credit transactions, and including any differential in finance, interest, service or other similar charge made to debtors who are in like circumstances, except for their insured or noninsured status. ( )

06. Net Written Premium. A gross written premium minus refunds on terminations. ( )

07. Open-End Credit. An arrangement as defined in Section 28-41-301(26), Idaho Code, including revolving charge accounts. ( )

011. RIGHTS AND TREATMENT OF DEBTORS.

01. Multiple Plans of Insurance. If a creditor makes available to the debtors more than one (1) plan of credit life insurance or more than one (1) of credit disability insurance, all debtors are to be informed of all such plans for which they are eligible. ( )

02. Substitution. When a creditor requires credit life insurance, credit disability insurance, or both, as additional security for an indebtedness, the debtor will be given the option of furnishing the amount of insurance

through existing policies of insurance owned or controlled by the debtor or by procuring and furnishing the coverage through any insurer authorized to transact insurance business in this state. If this subsection is applicable, the debtor will be informed by the creditor of the right to provide alternative coverage before the transaction is completed. ( )

03. Termination of Group Credit Insurance Policy. ( )

a. If a debtor is covered by a group credit insurance policy providing for the payment of single premiums to the insurer, then provision will be made by the insurer that in the event of termination of the policy for any reason, insurance coverage with respect to any debtor insured under such policy is to be continued for the entire period for which the single premium has been paid. ( )

b. If a debtor is covered by a group credit insurance policy providing for the payment of premiums to the insurer on a monthly outstanding balance basis, then the policy will provide that, in the event of termination of such policy for whatever reason, termination notice will be given to the insured debtor at least thirty (30) days prior to the effective date of termination except where replacement of the coverage by the same or another insurer in the same or greater amount takes place without lapse of coverage. The requisite notice is given by the insurer or, at the option of the insurer, by the creditor. ( )

04. Interest on Premiums. If any direct or indirect finance, carrying, credit or service charge is made to the debtor on such insurance charges or premiums, the creditor will remit and the insurer will collect such premium within sixty (60) days after it is added to the indebtedness. ( )

05. Renewal or Refinancing of the Indebtedness. If the indebtedness is discharged due to renewal or refinancing prior to the scheduled maturity date, the insurance in force will be terminated before any new insurance may be issued in connection with the renewed or refinanced indebtedness. In all cases of such termination prior to scheduled maturity, a refund is to be paid or credited to the debtor as provided in Section 017. In any renewal or refinancing of the indebtedness, the effective date of the coverage as respects any policy provision is deemed to be the first date on which the debtor became insured under the policy covering the indebtedness which was renewed or refinanced, at least to the extent of the amount and term of the indebtedness outstanding at the time of renewal and refinancing of the debt. In addition, the policy will provide that, in the event the debtor becomes disabled while insured, credit disability insurance benefits will be payable during continued disability regardless of any termination of the insurance by renewal or refinancing, unless a different provision not less favorable to the debtor is approved by the Director. ( )

06. Maximum Aggregate Provisions. A provision in a policy or certificate that sets a maximum limit on total payments applies only to that policy or certificate except as may be provided for in Section 41-2005(4), Idaho Code. ( )

07. Involuntary Prepayment of Indebtedness. If an indebtedness is prepaid by the proceeds of a credit life insurance policy covering the debtor or by a lump sum payment of a disability claim under a credit insurance policy covering the debtor, then it is the responsibility of the insurer to see that the following are paid to the insured debtor, if living, or the beneficiary, other than the creditor, named by the debtor or to the debtor's estate: ( )

c. In either case, the amount of the benefits in excess of the amount needed to repay the indebtedness after crediting any unearned interest or finance charges. ( )

08. Amounts to be Insured. If benefits to be provided are less than the scheduled amount of indebtedness, the insurer will notify the insured of such benefit in the policy or certificate. ( )

09. Total Disability. The policy is not to restrict coverage to those periods of total disability when the debtor is under the regular and continuing care of a physician, osteopath or chiropractor; provided, the insurer may retain the right to request medical evidence of actual total disability at reasonable intervals to justify the commencement and continued payment of benefits. ( )

10. Permanent Disabilities. Credit disability insurance will not restrict coverage to permanent disabilities, where the debtor is in fact totally disabled for the period dictated by the policy, although such disability may be of a temporary nature. ( )

11. Statement by Debtor. No statement made by a debtor will be used by the insurer as a basis for denying eligibility for coverage unless such statement is contained in a written application for insurance signed by the debtor. ( )

12. Acceptable Insurance Constituting Waiver. Acceptance of insurance by the insurer will constitute a waiver of any conditions for issuance of insurance that the debtor's application revealed as breached on the date the application was made, unless a refund of all insurance charges to the debtor is actually made within thirty (30) days of the effective date of coverage. ( )

012. (RESERVED)

013. DETERMINATION OF REASONABLENESS OF BENEFITS IN RELATION TO PREMIUM CHARGE.

01. General Standard. Benefits provided by credit insurance policies need to be reasonable in relation to the premium charged. This requirement is satisfied if the premium rate charged develops or is expected to develop a loss ratio of not less than fifty percent (50%). The Department of Insurance has established prima facie rates as a means to achieve the loss ratio benchmark. With the exception of deviations approved under Section 019, prima facie rates filed in accordance with Section 014 as adjusted pursuant to Section 018, may be conclusively presumed to satisfy this general standard. ( )

02. Nonstandard Coverage. If any insurer files for approval of any form, providing coverage more restrictive than that described in Section 014, the insurer will demonstrate to the satisfaction of the director that the premium rates to be charged for such restricted coverage will develop or may reasonably be expected to develop a loss ratio not less than that contemplated for standard coverage at the premium rates described in these sections. ( )

014. PRIMA FACIE RATES.

01. Credit Life Insurance Prima Facie Rates. ( )

a. The Director will post on the Department's website the prima facie rates for credit life insurance that are to be used. ( )

c. If the policy provisions are other than those that correspond to the use of rates provided for in this subsection, those other provisions will not be unfair, unjust, inequitable, misleading, or deceptive; encourage misrepresentation of the coverage; or be contrary to statute or administrative rule. ( )

02. Credit Disability Insurance Prima Facie Rates. ( )

a. The Director will post on the Department's website the credit disability insurance prima facie rates that are to be used. ( )

b. If the benefits provided are other than those described in Paragraph 014.02.a., rates for such

benefits need to be actuarially consistent with rates provided in Paragraph 014.02.a. ( )

c. The outstanding balance rate for credit disability insurance may be either a term-specified rate or may be a single composite term outstanding balance rate applicable to all loans. ( )

d. If the policy provisions are other than those that correspond to the use of rate provided for in this Subsection, those other provisions are not to be unfair, just, inequitable, misleading, or deceptive; encourage misrepresentations of the coverage; or be contrary to statute or administrative rule. ( )

015. CREDIT LIFE INSURANCE.
Premium rates in conformance with Section 014 apply to policies providing credit life insurance to be issued with or without evidence of insurability, to be offered to all debtors, and containing: ( )

03. Open-End Credit Plan. Insurance written in connection with an open-end credit plan may exclude from the classes eligible for insurance, classes of debtors determined by age, and provide for the cessation of insurance or reduction in the amount of insurance upon attainment of not less than age sixty-five (65). ( )

04. Closed-End Credit Plans. On insurance written in connection with closed-end credit plans and open-end credit plans where the amount of insurance is based on or limited to the outstanding unpaid balance, no provision excluding or denying a claim for death resulting from a pre-existing condition except for those conditions for which the insured debtor received medical advice, diagnosis or treatment within six (6) months preceding the effective date of coverage and which caused or substantially contributed to the death of the insured debtor within six (6) months following the effective date of coverage. The effective date of coverage for each part of the insurance attributable to a different advance or charge to the plan account is the date on which the advance or charge is posted to the plan account. Other more restrictive provisions may be used subject to appropriate rate adjustment approved by the director. ( )

05. Other Provisions. If the policy provisions are other than those that correspond to the use of rates provided for in Section 014, those other provisions are not to be unfair, unjust, inequitable, misleading, or deceptive; encourage misrepresentation of the coverage; or be contrary to statute or administrative rule. Premium rates in conformance with Section 014 apply to policies providing credit disability insurance to be issued with or without evidence of insurability, to be offered to all eligible debtors, and containing: ( )

01. Pre-existing Conditions. No provision excluding or denying a claim for disability resulting from preexisting conditions except for those conditions for which the insured debtor received medical advice, diagnosis or treatment within six (6) months preceding the effective date of the debtor's coverage and which caused loss within the six (6) months following the effective date of coverage. ( )

02. Other Exclusions or Restrictions. No other provision which excludes or restricts liability in the event of disability caused in a specific manner except that it may contain provisions excluding or restricting coverage in the event of normal pregnancy and intentionally self-inflicted injuries or disability arising out of the commission of felony acts. ( )

03. Actively-at-Work Requirement. No actively-at-work requirement more restrictive than one (1) requiring that the debtor be actively at work at a full-time gainful occupation on the effective date of coverage. "Full time" means a regular work week of not less than thirty (30) hours. A debtor is actively at work if absent from work due solely to regular day off, holiday or paid vacation. ( )

04. Age Restrictions. No age restrictions, or only age restrictions making ineligible for coverage debtors sixty-five (65) or over at the time the indebtedness is incurred or debtors who will have attained age sixty-six (66) or over on the maturity date of the indebtedness. ( )

05. Daily Benefit. A daily benefit equal in amount to one thirtieth (1/30) of the monthly benefit payable under the policy for the indebtedness. ( )

06. Definition of Disability. A definition of "disability" which provides that during the first twelve (12) months of disability the insured is unable to perform the substantial and material duties of his occupation at the time the disability occurred, and thereafter the duties of any occupation for which the insured is reasonably fitted by education, training or experience. This does not apply to lump sum disability coverage. ( )

07. Open-End Credit Plan. Insurance written in connection with an open-end credit plan may exclude from the classes eligible for insurance classes of debtors determined by age, and provide for the cessation of insurance or reduction in the amount of insurance upon attainment of not less than age sixty-five (65). ( )

08. Other Provisions. If the policy provisions are other than those that correspond to the use of rates provided for in Section 014, those other provisions are not to be unfair, unjust, inequitable, misleading, or deceptive; encourage misrepresentation of the coverage; or be contrary to statute or administrative rule. ( )

09. Effective Date of Coverage. For the purposes of Subsections 016.01 and 016.03, the effective date of coverage for each part of the insurance attributable to a different advance or charge to an open-end credit plan account is the date on which the advance or charge is posted to the plan account. ( )

017. REFUND FORMULAS.

01. Filing and Approval by the Director. Any refund formula that is at least as favorable to the insured debtor as the "sum of the digits" formula, or the "Rule of 78," for single premium decreasing or disability plans or pro-rata for other plans, will be deemed acceptable. ( )

02. Termination. In the event of termination, no charge for credit insurance may be made for the first fifteen (15) days of a loan month and a full month may be charged for sixteen (16) days or more of a loan month. ( )

03. Minimum Refund. No refund of five dollar ($5) or less need be made. ( )

018. EXPERIENCE REPORTS AND ADJUSTMENT OF PRIMA FACIE RATES.

01. Report of Credit Life and Credit Disability Business Written. Each insurer doing credit insurance business in this state will annually file with the Director and the NAIC Support and Services Office a report of credit life and credit disability business written on a calendar year basis. Such report will utilize the Credit Insurance Supplement-Annual Statement Blank as approved by the National Association of Insurance Commissioners. Such filing will be made in accordance with and no later than the due date in the Instructions to the Annual Statement. ( )

02. Review of Loss Ratio Standards. On a triennial basis beginning in 1995, the director will review the loss ratio standards set forth in Section 013 and the prima facie rates set forth in Section 014 and determine therefrom the rate of expected claims on a statewide basis, compare such rate of expected claims with the rate of actual claims for the preceding three years determined from the incurred claims and earned premiums at prima facie rates reported in the Annual Statement Supplement, and may, if deemed necessary, revise the actual statewide prima facie rates to be used by insurers during the next three (3) years. Such rates will reflect the difference between (a) actual claims based on experience; and (b) expected claims based on the loss ratio standards set forth in Section 013 applied to the prima facie rates set forth in Section 014. ( )

019. USE OF RATES - DIRECT BUSINESS ONLY.

01. Use of Prima Facie Rates. An insurer that files rates or has rates on file not in excess of the prima

facie rates shown in Section 014, to the extent adjusted pursuant to Section 018, may use those rates without further proof of their reasonableness. ( )

02. Use of Rates Higher Than Prima Facie Rates. An insurer may file for approval of and use rates higher than the prima facie rates established pursuant to Section 018, to the extent adjusted, if it can be expected that the use of such higher rates will result in a ratio of claims incurred to premiums earned (assuming the use of such higher rates) not less than fifty percent (50%) for those accounts to which such higher rates apply and that such upward deviations will not result on a statewide basis for that insurer of a ratio of claims incurred to premiums earned of less than the expected loss ratio underlying the current prima facie rate developed or adjusted pursuant to Section 018. If rates higher than the prima facie rates shown in Section 014, to the extent adjusted pursuant to Section 018, are filed for approval, the filing will specify the accounts to which such rates apply. Such rates may be: ( )

a. Applied uniformly to all accounts of the insurer; or ( )

b. Applied on an equitable basis approved by the Director to only one (1) or more accounts of the insurer for which the experience has been less favorable than expected; or ( )

c. Applied according to a case-rating procedure on file with the director. ( )

03. Approval Period of Deviated Rates. ( )

a. A deviated rate will be in effect for a period of time not longer than the experience period used to establish such rate (i.e. one (1) year, two (2) years or three (3) years). An insurer may file for a new rate before the end of a rate period, but not more often than once during any twelve-month (12) period. ( )

b. Notwithstanding Subsection 019.01, if an account changes insurers, that rate approved to be used for the account by the prior insurer is the maximum rate that may be used by the succeeding insurer for the remainder of the rate approval period approved for the prior insurer or until a new rate is approved for use on such account, if sooner. ( )

04. Use of Rates Lower Than Filed Rates. An insurer may at any time use a rate for an account lower than its filed rate without prior notice, justification and approval by the director. ( )

05. Terms and Definitions Applicable to This Section. ( )

a. "Experience" means "earned premiums" and "incurred claims" during the experience period. ( )

b. "Experience Period" means the most recent period of time for which experience is reported, but not for a period longer than three (3) full years. ( )

c. "Incurred Claims" means total claims paid during the experience period, adjusted for the change in claim reserve. ( )

020. SUPERVISION OF CREDIT INSURANCE OPERATIONS.

01. Responsibilities of Insurer. Each insurer transacting credit insurance in this state is responsible for the settlement, adjustment and payment of all claims and is responsible for conducting a thorough periodic review of creditors with respect to their credit insurance business with such creditors, to assure compliance with the insurance laws of this state and the rules promulgated by the Director. Such review needs to include, but not be limited to, a verification of the accuracy of premium payments or other identifiable charges, premium refunds, and claims incurred. ( )

02. Maintenance of Records. Records of such reviews will be maintained for four (4) years for review by the director. ( )

021. PRODUCER'S LICENSE NEEDED.

01. Life and Disability Insurance License or Limited License. Except as provided in this section, to solicit credit life and credit disability insurance, producer is: licensed to sell life and disability insurance; or issued an appropriate "Limited License". ( )

02. Administration of Group Policy. Under Section 41-1005(2)(b), Idaho Code, the issuance of group certificates of credit life insurance and credit disability insurance and the performance of other ministerial duties in connection with group insurance policy administration does not need the person doing such acts to be licensed as a producer provided that no commission is paid for such services. A group policyholder may be reimbursed its expense of administering a group policy without being licensed as a producer, and such reimbursement will not be considered a commission provided it is reasonably computed to equate to the actual administrative expenses. It will be presumed that an amount of reimbursement not exceeding ten percent (10%) of the net written prima facie premium for the group policy is reasonably computed to equate to the administrative expenses of the group policyholder. Amounts exceeding ten percent (10%) of the net written prima facie premium will be presumed to exceed actual administrative expenses unless prior approval to pay such greater amount is secured pursuant to the insurer demonstrating to the director's satisfaction that such higher amount does not exceed the policyholder's actual administrative expenses. For purposes of this subsection, "prima facie premium" means premiums at the rates set forth in Section 014 without adjustment pursuant to Section 018. ( )

022. DISCLOSURE.
When a premium or identifiable charge is payable by a debtor for credit insurance coverage offered by a creditor, at the time such insurance is applied for, disclosures will be made to the principal debtor and copies given and retained, in accordance with State and Federal law. The creditor will also disclose the optional nature of the coverage, premium or identifiable charge separately by type of coverage, eligibility requirements, and policy limitations and exclusions. These disclosures need to be made prominently above the space for the signature indicating election to obtain such coverage. These disclosures may be made in conjunction with either (1) the Federal Truth-in-Lending disclosure, (2) a Notice of Proposed Insurance, or (3) the insurance policy or certificate. ( )

a. A Medicare supplement policy or certificate cannot exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. Premiums may be modified to correspond with such changes.( )

f. Terminations of a Medicare supplement policy or certificate need to be without prejudice to any continuous loss that commenced while the policy was in force. Such extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss. ( )

g. A Medicare supplement policy or certificate provides that benefits and premiums under the policy or certificate may be suspended at the request of the policyholder or certificateholder for the period (not to exceed twenty-four (24) months) in which the policyholder or certificateholder has applied for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of the policy or certificate within ninety (90) days after the date the individual becomes entitled to assistance. ( )

i. If suspension occurs and if the policyholder or certificateholder loses entitlement to medical assistance, the policy or certificate is automatically reinstituted (effective as of the date of termination of entitlement) as of the termination of entitlement if the policyholder or certificateholder provides notice of loss of entitlement within ninety (90) days after the date of loss and pays the premium attributable to the period, effective as of the date of termination of entitlement. ( )

Each Medicare supplement policy provides that benefits and premiums under the policy may be suspended (for any period that may be provided by federal regulation) at the request of the policyholder if the policyholder is entitled to benefits under Section 226 (b) of the Social Security Act and is covered under a group health plan (as defined in Section 1862 (b)(1)(A)(v) of the Social Security Act). If suspension occurs and if the policyholder or certificateholder loses coverage under the group health plan, the policy is automatically reinstituted (effective as of the date of loss of coverage) if the policyholder provides notice of loss of coverage within (90) days after the date of the loss and pays the premium attributed to the period, effective as of the date of termination of enrollment in the group health plan. ( )

iii. Reinstitution of coverages as described in Subparagraphs 022.01.g.i. and 022.01.g.ii.; ( )

(2) Provides for resumption of coverage that is substantially equivalent to coverage in effect before the date of suspension; and ( )

(3) Provides for classification of premiums on terms at least as favorable to the policyholder or certificateholder as the premium classification terms that would have applied to the policyholder or certificateholder had the coverage not been suspended. ( )

h. An issuer makes available to each prospective policyholder and certificateholder a policy form or certificate form containing only the basic (core) benefits, as defined in Subsection 022.02. ( )

047. -- 050. (RESERVED)

051. LOSS RATIO STANDARDS AND REFUND OR CREDIT OF PREMIUM.

01. Loss Ratio Standards. ( )

a. A Medicare supplement policy form or certificate form will not be delivered or issued for delivery unless the policy form or certificate form can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to policyholders and certificateholders in the form of aggregate benefits (not including anticipated refunds or credits) provided under the policy form or certificate form. ( )

i. At least seventy-five percent (75%) of the aggregate amount of premiums earned in the case of group policies; or ( )

ii. At least sixty-five percent (65%) of the aggregate amount of premiums earned in the case of individual policies; ( )

b. Calculated on the basis of incurred claims experience or incurred health care expenses where coverage is provided by a managed care organization on a service rather than reimbursement basis and earned premiums for the period and in accordance with accepted actuarial principles and practices. Incurred health care expenses where coverage is provided by a managed care organization will not include: ( )

i. Home office and overhead costs; ( )

ii. Advertising costs; ( )

iii. Commissions and other acquisition costs; ( )

iv. Taxes; ( )

v. Capital costs; ( )

vi. Administrative costs; and ( )

vii. Claims processing costs. ( )

c. All filings of rates and rating schedules demonstrate that expected claims in relation to premiums comply with the requirements of this section when combined with actual experience to date. Filings of rate revisions also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards. Demonstrations, at a minimum, account for: ( )

i. Lapse rates; ( )

ii. Medical trend and rationale for trend; ( )

iii. Assumptions regarding future premium rate revisions; and ( )

iv. Interest rates for discounting and accumulating. ( )

d. For purposes of applying Paragraphs 051.01.a. and 056.05.b., only, policies issued as a result of solicitations of individuals through the mails or by mass media advertising (including both print and broadcast advertising) are individual policies. ( )

02. Refund or Credit Calculation. ( )

a. An issuer collects and files with the director by May 31 of each year the data contained in the applicable reporting form as defined by NAIC Model Regulation (Attachments) and accessible on the Department website for each type in a standard Medicare supplement benefit plan. ( )

b. If on the basis of the experience as reported the benchmark ratio since inception (ratio one (1)) exceeds the adjusted experience ratio since inception (ratio three (3)), then a refund or credit calculation is needed. The refund calculation is done on a statewide basis for each type in a standard Medicare supplement benefit plan. For purposes of the refund or credit calculation, experience on policies issued within the reporting year is excluded. ( )

c. For policies or certificates issued prior to July 1, 1992, the issuer makes the refund or credit calculation separately for all individual policies (including all group policies subject to an individual loss ratio standard when issued) combined and all other group policies combined for experience after July 1, 1992. ( )

d. A refund or credit is made only when the benchmark loss ratio exceeds the adjusted experience loss ratio and the amount to be refunded or credit exceeds a de minimis level. The refund includes interest from the end of the calendar year to the date of the refund or credit at a rate specified by the Secretary, but in no event less than the average rate of interest for thirteen (13) week Treasury notes. A refund or credit against premiums due is made by

September 30 following the experience year upon which the refund or credit is based. ( )

03. Annual Filing of Premium Rates. An issuer of Medicare supplement policies and certificates in this state annually files its rates, rating schedule, and supporting documentation including ratios of incurred losses to earned premiums by policy duration for approval by the director in accordance with the filing requirements and procedures prescribed by the director. The supporting documentation demonstrates in accordance with actuarial standards of practice using reasonable assumptions that the appropriate loss ratio standards can be expected to be met over the entire period for which rates are computed. The demonstration excludes active life reserves. An expected third-year loss ratio which is greater than or equal to the applicable percentage is demonstrated for policies or certificates in force less than three (3) years. As soon as practicable, but prior to the effective date of enhancements in Medicare benefits, every issuer of Medicare supplement policies or certificates in this state files with the director, in accordance with the applicable filing procedures of this state: ( )

a. Appropriate premium adjustments necessary to produce loss ratios as anticipated for the current premium for the applicable policies or certificates. The supporting documents accompanying the filing need to justify the adjustment. ( )

i. An issuer's adjustments need to produce an expected loss ratio under the policy or certificate that conforms to minimum loss ratio standards for Medicare supplement policies and which are expected to result in a loss ratio at least as great as that originally anticipated in the rates used to produce current premiums by the issuer for the Medicare supplement policies or certificates. No premium adjustment which would modify the loss ratio experience under the policy other than the adjustments described herein is made with respect to a policy at any time other than upon its renewal date or anniversary date. ( )

ii. If an issuer fails to make premium adjustments acceptable to the director, the director may order premium adjustments, refunds, or premium credits deemed necessary to achieve the loss ratio prescribed by Section 051. ( )

b. Any appropriate riders, endorsements, or policy forms needed to accomplish the Medicare supplement policy or certificate modifications necessary to eliminate benefit duplications with Medicare. The riders, endorsements, or policy forms provides a clear description of the Medicare supplement benefits provided by the policy or certificate. ( )

052. -- 055. (RESERVED)

056. FILING AND APPROVAL OF POLICIES AND CERTIFICATES AND PREMIUM RATES.

01. Filing of Policy Forms. ( )

a. An issuer cannot deliver or issue for delivery a policy or certificate to a resident of this state unless the policy form or certificate form has been filed with and approved by the director in accordance with filing requirements and procedures prescribed by the director. ( )

b. An issuer would file any riders or amendments to policy or certificate forms to delete outpatient prescription drug benefits as prescribed by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 only with the director in the state in which the policy or certificate was issued. ( )

02. Filing of Premium Rates. ( )

a. An issuer cannot use or change premium rates for a Medicare supplement policy or certificate unless the rates, rating schedule, and supporting documentation have been filed with and approved by the director in accordance with the filing requirements and procedures prescribed by the director. ( )

b. Except as provided in Subsection 051.03, the insured cannot receive more than one (1) rate increase in any twelve (12) month period. ( )

03. Except as provided in Paragraph 056.03.a., an issuer will not file for approval more than one (1)

form of a policy or certificate of each type for each standard Medicare supplement benefit plan. ( )

a. An issuer may offer, with the approval of the director, up to three (3) additional policy forms or certificate forms of the same type for the same standard Medicare supplement benefit plan, one (1) or each of the following cases: ( )

i. The inclusion of new or innovative benefits; ( )

ii. The addition of either direct response or agent marketing methods; ( )

iii. The addition of either guaranteed issue or underwritten coverage; ( )

b. For the purposes of Section 056, "type" means an individual policy, a group policy, an individual Medicare Select policy, or a group Medicare Select policy. ( )

04. Availability of Policy Form or Certificate. Except as provided in Paragraph 056.04.a., an issuer continuously makes available for purchase any policy form or certificate form. A policy form or certificate form would not be considered available for purchase unless the issuer has actively offered it for sale continuously during the previous twelve (12) months. ( )

a. An issuer may discontinue the availability of a policy form or certificate form if the issuer provides to the director in writing its decision at least thirty (30) days prior to discontinuing the availability of the form of the policy or certificate. After receipt of this notice by the director, the issuer no longer offers for sale the policy form or certificate form in this state. ( )

b. An issuer that discontinues the availability of a policy form or certificate form pursuant to Paragraph 056.04.a. will not file for approval a new policy form or certificate form of the same type for the same standard Medicare supplement benefit plan as the discontinued form for a period of five (5) years after the issuer provides notice to the director of the discontinuance. The period of discontinuance may be reduced if the director determines that a shorter period is appropriate. ( )

c. The sale or other transfer of Medicare supplement business to another issuer is considered a discontinuance for the purposes of Subsection 056.04. ( )

d. A change in the rating structure or methodology is considered a discontinuance under this Subsection 056.04 unless the issuer complies with the following requirements: ( )

i. The issuer provides an actuarial memorandum, in a form and manner prescribed by the director, describing the manner in which the revised rating methodology and resultant rates differ from the existing rating methodology and existing rates. ( )

ii. The issuer does not subsequently put into effect a change of rates or rating factors that would cause the percentage differential between the discontinued and subsequent rates as described in the actuarial memorandum to change. The director may approve a change to the differential which is in the public interest. ( )

05. Experience of Policy Forms. ( )

a. Except as provided in Paragraph 056.05.b., the experience of all policy forms or certificate forms of the same type in a standard Medicare supplement benefit plan is combined for purposes of the refund or credit calculation prescribed in Section 051. ( )

b. Forms assumed under an assumption reinsurance agreement are not combined with the experience of other forms for purposes of the refund or credit calculation. ( )

c. The experience of all policy forms or certificate forms for standardized benefit plans of the same type is combined for purposes of the rate change filing. Generally, any applicable percentage increase is filed and applied uniformly across all standardized plans within the same type, unless doing so would violate the federal

lifetime loss ratio standards for specific forms within the same type. ( )

06. Age Rating. With respect to Medicare supplement policies that conform to the Standard Benefit Plans under *this chapter*: *( )*

a. It is an unfair practice and an unfair method of competition for any issuer, insurer, or licensee to use the increasing age of an insured, subscriber or participant as the basis for increasing premiums or prepayment charges for policyholders who initially purchase a policy after January 1, 1995. For issue-age rated policies: ( )

i. For an individual who is sixty-five (65) years of age or older, the filed rate for any given age will not exceed the rate for any higher issue-age, similarly rated individual; and ( )

ii. For an individual who is under sixty-five (65) years of age, the premium is no greater than one hundred fifty percent (150%) of the premium for an issue-age sixty-five (65) similarly rated individual, while the individual's attained age is less than sixty-five (65). Upon attaining age sixty-five (65), a policyholder with an issue-age less than sixty-five (65) is charged the same premium rate as an issue-age sixty-five (65), similarly rated individual. ( )

b. For policies issued after February 28, 2022, it is an unfair practice and an unfair method of competition for any issuer, insurer, or licensee to use the increasing age or issue age of an insured, subscriber or participant as a basis for premiums. For such community-rated policies: ( )

i. For an individual who is eligible for Medicare Part B only due to disability or end stage renal disease, the premium is no greater than one hundred fifty percent (150%) of the premium for an enrollee otherwise eligible for Medicare Part B; and ( )

ii. Upon attaining Medicare Part B eligibility due to age, a policyholder who was previously eligible for Medicare Part B only due to disability or end stage renal disease is to be charged the same premium rate as an individual eligible for Medicare Part B due to age. ( )

07. Rating by Area and Gender. With respect to Medicare supplement policies that conform to the Standard Benefit Plans under *this chapter*, it is an unfair practice and an unfair method of competition for any issuer, insurer, or licensee to use area or gender for rating purpose. *( )*

08. Other Rating Requirements. With respect to Medicare supplement policies that conform to the Standard Benefit Plans under this chapter, sold to residents of this State on or after January 1, 2018: ( )

a. Any rate adjustments are uniform between 1990 Standardized and later Standardized plans throughout the lifetime of the policies, unless doing so would violate the federal lifetime loss ratio standards for specific forms within the same type. ( )

b. The rating by the issuer does not differentiate on the basis of the reason for eligibility for Medicare Part B, except for an individual, at any given age, described at Subparagraph 056.06.b.i. ( )

09. Discriminatory Discount or Other Payment Practices. With respect to Medicare supplement policies that conform to the Standard Benefit Plans under *this chapter*: *( )*

a. No discount or underwriting factor of less than 1.0 will be available to policies issued outside of open enrollment, per Section 036, or guaranteed issue, per Section 041, unless the greatest discount or lowest underwriting factor is automatically applied to all policies issued under open enrollment and guaranteed issue. ( )

b. For policies issued after February 28, 2022, it is an unfair practice and an unfair method of competition for any issuer to require application *or policy* fees or to vary premium rates based on payment terms including, without limitation, payment method or frequency of payment. *( )*

c. Nothing in this Subsection is construed to limit the ability of an issuer of a Medicare supplement policy or certificate to *apply* a discount *or underwriting factor* for: *( )*

i. Multiple Medicare Supplement policies issued to individuals residing within the same household, or; ( )

ii. Non-smoking or non-tobacco use. ( )

057. -- 060. (RESERVED)

061. PERMITTED COMPENSATION ARRANGEMENTS.

01. Commissions. An issuer or other entity may provide commission or other compensation to an agent or other representative for the sale of a Medicare supplement policy or certificate only if the first-year commission or other first-year compensation is no more than two hundred percent (200%) of the commission or other compensation paid for selling or servicing the policy or certificate in the second year or period. An issuer or other entity may not vary commission or otherwise pay commission differentials based upon variables such as age, guarantee issue status, or on any other basis. ( )

02. Compensation in Subsequent Years. The commission or other compensation provided in subsequent renewal years needs to be the same as that provided in the second year or period and be provided for no fewer than five (5) renewal years. ( )

03. Renewal Compensation. No issuer or other entity provides compensation to its agent or other producers and no agent or producer receives compensation greater than the renewal compensation payable by the replacing issuer on renewal policies or certificates if an existing policy or certificate is replaced. ( )

04. Compensation. For purposes of Section 061, compensation includes pecuniary or non-pecuniary remuneration of any kind relating to the sale or renewal of the policy or certificate, including but not limited to bonuses, gifts, prizes, awards, and finder's fees. ( )

b. Except for riders or endorsements by which the issuer effectuates a request made in writing by the insured, exercises a specifically reserved right under a Medicare supplement policy, or is needed to reduce or eliminate benefits to avoid duplication of Medicare benefits, all riders or endorsements added to a Medicare supplement policy after date of issue or at reinstatement or renewal which reduce or eliminate benefits or coverage in the policy requires a signed acceptance by the insured. After the date of policy or certificate issue, any rider or endorsement which increases benefits or coverage with a concomitant increase in premium during the policy term is agreed to in writing and signed by the insured, unless the benefits are prescribed by the minimum standards for Medicare supplement policies, or if the increased benefits or coverage is prescribed by law. ( )

The notice will: ( )

i. Include a description of revisions to the Medicare program and a description of each modification made to the coverage provided under the Medicare supplement policy or certificate, and ( )

b. If an outline of coverage is provided at the time of application and the Medicare supplement policy or certificate is issued on a basis which would require revision of the outline, a substitute outline of coverage properly describing the policy or certificate accompanies the policy or certificate when it is delivered and contains the following statement, in no less than twelve (12) point type, immediately above the company name:
"NOTICE: Read this outline of coverage carefully. It is not identical to the outline of coverage provided upon application and the coverage originally applied for has not been issued." ( )

c. The outline of coverage provided to applicants pursuant to this section consists of four (4) parts: a cover page, premium information, disclosure pages, and charts displaying the features of each benefit plan offered by the issuer. 453. (RESERVED)

454. WIRE ROPE.

01. General Characteristics. Wire rope comes in many grades and dimensions, and every rope has its own characteristics with regard to strength and resistance to crushing and fatigue. A larger rope will outlast a smaller rope of the same materials and construction, used in the same conditions, because wear occurs over a larger surface. Similarly, a stronger rope will outlast a weaker rope, because it performs at a lower percentage of its breaking strength, with reduced stress. ( )

02. Wire Rope Terms. Common grades of wire rope include extra improved plow steel (EIPS) and swaged powerflex, among others. The following terms are commonly used for wire rope: ( )

a. Abrasion Resistance. Ability of outer wires to resist wear. Abrasion resistance is greater with larger wires. ( )

b. Core. The foundation of a wire rope which is made of materials that will provide support for the strands under normal bending and loading conditions. A fiber core (FC) can be natural or synthetic. If the core is steel, it can be a wire strand core (WSC) or an independent wire rope core (IWRC). ( )

c. Crushing Resistance. Ability of the rope to resist being deformed. A rope with an independent wire core is more resistant to crushing than one with a fiber core. ( )

d. Die-form Line. Made from strands that are first compacted by drawing them through a drawing die to reduce their diameter. The finished rope is then swaged or further compressed. ( )

e. Fatigue Resistance. Ability of the rope to withstand repeated bending without failure (the ease of bending a rope in an arc is called its "bendability"). Fatigue resistance is greater with more wires. ( )

f. Strength. Referred to as breaking strength, usually measured as a force in pounds or tons. The breaking strength is not the same as the load limit, which is calculated as a fraction of the breaking strength to ensure safety. ( )

g. Swaged Line. Manufactured by running a nominal-sized line through a drawing die to flatten the outer crown and thus reduce the rope diameter. This compacted rope allows for increased drum capacity and increased line strength. ( )

03. Typical Wire Rope Specifications. The table below lists a few examples of wire-rope breaking strengths. ( )

Source: Cable Yarding Systems Handbook. 2006. Worksafe BC. Table lists typical breaking strengths. See manufacturer's specifications for specific lines. ( )

04. Synthetic Rope. High-tensile strength synthetic lines are considerably lighter than standard wire rope; however, some lines are dimensionally as strong as standard wire rope. Accordingly, high-tensile strength synthetic lines are permitted to be used in appropriate logging applications, including as substitutes for brush straps, tree straps, tail and intermediate support guylines, guyline extensions, skyline extensions, and haywire. Manufacturers' standards and recommendations for determining usable life or criteria for retirement of such lines shall be followed. Personnel shall examine the lines for broken or abraded strands, discoloration, inconsistent diameter, glossy or glazed areas caused by compression and heat, and other inconsistencies. Rope life is affected by load history, bending, abrasion, and chemical exposure. Most petroleum products do not affect synthetic ropes. ( )

05. Inspection and Care. ( )

a. Wire rope shall be inspected daily by a qualified individual and repaired or taken out of service when there is evidence of any of the following conditions: ( )

i. Twelve and five tenths percent (12.5%) of the wires are broken within a distance of one (1) lay.

( )

ii. Evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, corrosion, heat damage, or other damage that has weakened the rope structure. ( )

b. Qualified personnel shall closely inspect those points subject to the most wear, including the knob ends of lines, eye splices, and those sections of line that most often run through blocks or carriages. If there is doubt about the integrity of the line, it is far safer to replace a suspect line, or cut out and resplice a defective area, than risk a failure during operation. Evaluation of the load-bearing yarder lines shall be stringent. A qualified person shall also inspect all other lines used on site and remove any that are unsafe. ( )

06. Additional Precautions. The following precautions shall also be observed: ( )

a. Ensure the working load limit for any line is adequate for the intended use. ( )

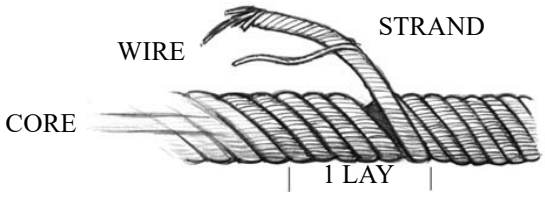
b. The manufacturer's specifications with regard to assigned breaking strength shall be followed. Such specifications as determined by engineering test results should factor the grade of the wire, number of strands, number of wires per strand, filler wire construction, lay pattern of the wires, and the diameter of the line. ( )

07. Safety Factor. Operators shall follow the manufacturer's specifications in determining load limits. The working load limit is a fraction of a line's breaking strength – a factor of three (3), or one-third (1/3) the breaking strength, is commonly used as a safety factor for running and standing lines, when workers are not exposed to breaking lines or loads passing overhead. A safety factor of three (3) is commonly used to determine the working load limit for a standing or running line. A standard six (6) x twenty-six (26) IWRC wire rope with a diameter of one (1) inch has a breaking strength of approximately forty-five (45) tons – divide by three (3) – equals fifteen (15) tons working load limit. ( )

08. Wire Labeling. ( )

a. The elements of a typical wire rope are labeled, for example, six (6) x twenty-five (25) FW PRF RL EIPS IWRC. The label indicates a six (6)-strand rope with twenty-five (25) wires per strand (six (6) x twenty-five (25)), filler-wire construction (FW), strands pre-formed in a helical pattern (PRF), laid in a right-hand lay pattern (RL), using an extra-improved plow steel (EIPS) grade of wire, and strands laid around an independent wire rope core (IWRC). See figure 013.08-A for proper labeling of wire rope. ( )

FIGURE 454.08.a.



( )

b. Out of Service Standard Example. A six (6) x twenty-five (25) IWRC wire rope = six (6) strands in one (1) lay with twenty-five (25) wires per strand = one hundred fifty (150) wires. The rope must be taken out of service when twelve and five tenths percent (12.5%), or one-eighth (1/8), of the wires are broken within the distance of one (1) lay = one hundred fifty (150) divided by eight (8) = eighteen and seventy-five one hundredths (18.75), or nineteen (19) broken wires. ( )

09. Wire Line Life. Table 454.09 provides the allowable life of a line in million board feet in accordance with line size and use. Figure 454.09.a. illustrates both the correct and incorrect manner in which to measure line size (diameter). ( )

FIGURE 454.09.a.

( )

10. Dynamic Loads. Operators shall consider high dynamic loads when calculating safe working limits of wire ropes. Wire ropes are often subjected to high dynamic loads, which greatly multiply the force on a line and may exceed the safe working limit. Even a split second of time over the limit can lead to premature failure of a line. Typical dynamic loads occur when a turn hits a stump, a turn comes down off of the back hillside to full suspension, or when excessive force is applied to pulling a turnout of its bed. A high dynamic load or a sudden shock load that exceeds the working limit may not result in immediate failure, but rope strands may stretch and weaken, and may fail at a later time. ( )

11. Other Common Wire Rope Considerations. ( )

a. Wire Rope Stretching and Line Diameter. A stretched wire rope has a reduced diameter. Operators shall check for stretched lines by measuring the diameter, particularly on older lines and any line used in stressful situations. ( )

b. Older Wire Rope. Standing lines and guylines are often kept in service for multiple years (four (4) to five (5), and as long as ten (10) years in some instances) without exhibiting any obvious signs of excessive wear other than rust. Operators shall check date stamps of wire rope and evaluate line life. Operators shall also inspect the core of older lines periodically for a fractured or dry core, which could indicate other deficiencies such as broken wires, excessive wear, or line deformation. ( )

c. Hard Use. The life of a wire rope is also affected by hard use. Line life can be measured by the volume of wood hauled (see Table 459.09). Line life is reduced when a line exceeds its elastic limits, is heavily shocked, or rubbed against rocks or other lines. As a line wears, the safe working load limit shall be lower and the payload adjusted appropriately. ( )

d. Wire Rope endurance and elastic limits. Working within the endurance and elastic limits of lines can help preserve line life. The following principles shall be observed when evaluating the integrity and safe use of

wire rope: ( )

i. The "endurance limit" for all lines is fifty percent (50%) of the breaking strength. If wire rope tensioning regularly exceeds the endurance limit, the life of the line is reduced through fatigue. ( )

ii. The "elastic limit" for all lines is sixty to sixty-five percent (60-65%) of the breaking strength. When a wire rope is loaded to its normal safe working limit, the line stretches, but then returns to its original size when the load is released. If a load increases past the elastic limit through prolonged exertion or repeated stress, the line will stretch and stay stretched, resulting in a permanent reduction in the breaking strength. ( )

e. Lubrication and Abrasion. Wire rope is lubricated in the factory to reduce internal friction and corrosion, and prolong the life of the rope. Heat from friction causes the internal lubricant to deteriorate. Friction occurs when the rope stretches under load, particularly in places where it bends around sheaves or other objects. An improperly lubricated line can pick up particles of dirt and sand that will increase abrasion. Accordingly, operators shall: ( )

i. Check for and ensure the proper lubrication of all lines and wire rope, following the manufacturer's instructions. Commercial wire rope lubricants are available. ( )

ii. Carefully inspect lines for faults in areas where dust and sand may collect. ( )

iii. Store all wire rope and lines off the ground. ( )

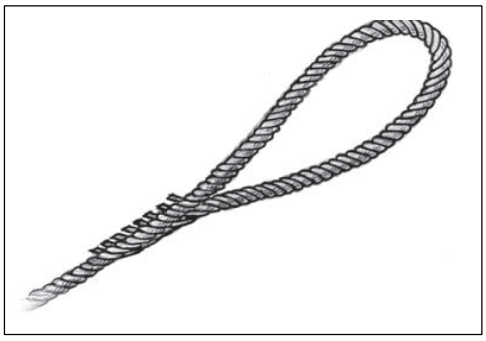
12. Line Connections. ( )

a. Inspection. Operators shall regularly inspect shackles, hooks, splices, and other connecting equipment for damage and wear, as well as ensure the connectors are the correct type and size for the line and intended use. ( )

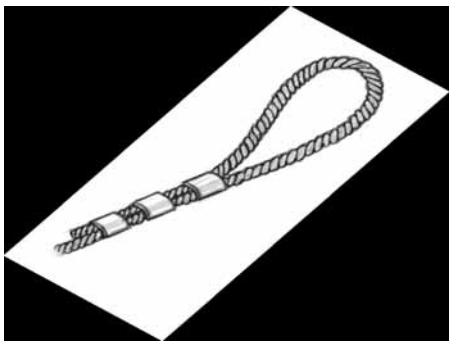
b. Wire Splicing. Splices are used to form an eye at the end of a line, extend the length of a line, or repair a broken or damaged line. The splicing of wire rope requires special skill and shall only be performed under the supervision of a competent person with using the proper tools. Reference materials are available with detailed instructions for numerous types of splices. Individuals splicing wire shall always wear appropriate eye protection while splicing or assisting with a splicing procedure. ( )

c. The logger's eye splice and three (3)-pressed eye are the most common methods to form an eye for use as a skyline terminal. See Figure 454.12.c. The spliced eye is approximately eighty percent (80%) efficient. A three (3)-pressed eye can reach ninety percent (90%) line strength. The pressed eye is typically performed at the rigging shop. Spliced eyes may be placed in the field, but may require additional time to install. ( )

FIGURE 454.12.c.



THE LOGGER'S EYE SPLICE



THREE-PRESSED EYE

( )

d. When Flemish (Farmers, Rolled) eye splices are used on load-bearing lines, the strand ends must be secured by: ( )

i. Hand tucking each strand three (3) times; or ( )

ii. Applying a compression (pressed-eye) fitting. ( )

e. Guyline Care. Guylines are a vital link in holding up a tower. Guyline extensions shall not be excessively moved around by dragging on the ground, or left on the ground for long periods of time as they will deteriorate faster. ( )

f. Guyline extensions must be connected by: ( )

i. A bell shackle using a safety pin to connect spliced eyes or pressed eyes; or ( )

ii. Poured nubbins (buttons) and a double-ended hook. ( )

g. Line Deformity. A line may deform where it loops around a shackle or pin, producing weakness that may result in line failure. A thimble in the loop protects the line. Thimbles may be used on standing lines, but not on running lines. Examples of the appearance of deformed lines and the use of thimbles in shackles are illustrated in Figure 454.12.g. ( )

FIGURE 454.12.g.

DEFORMED EYE

EYE WITH THIMBLE

( )

13. Shackles and Hooks. ( )

a. Hooks. Hooks shall be inspected to ensure that they have not sprung open. Ensure that shackles are positioned correctly to bear the load. Haywire swivels shall be inspected frequently, due to their susceptibility to wear rapidly. ( )

b. Shackle Safety. Proper bells or shackles shall be used to connect the guylines to the stumps, and the guyline lead blocks to the ring at the top of the tower. Connections shall have at least one and a half (1-1/2) times the strength of the guyline. The pins of the shackles must be secured to protect against dislodgement, and a nut and cotter key, or a nut and molly may be used for that purpose. The use of loops or mollies to attach guylines is prohibited. Examples of the appearance of some shackle equipment is illustrated in Figure 454.13.b.

FIGURE 454.13.b.

SHACKLE WITH SAFETY PIN

HAYWIRE SWIVEL

HAYWIRE HOOKS

( )

c. The following practices shall be observed in order to ensure the safe use of shackles: ( )

i. A shackle must have a rated breaking strength greater than the rated breaking strength of the lines attached to it, and the manufacturer's rated strengths to determine oversized requirements shall be used. Accepted industry standards shall be utilized and adhered to when determining the correct shackle size based on the type and nature of the logging operation being performed. Examples of the appearance of some shackle equipment for the purposes of proper selection is illustrated in Figure 454.13.c.i ( )

ii. Shackles with pins, and securing nuts with mollies or a cotter key shall be used on standing or overhead rigging. ( )

iii. Screw shackle pins shall not be used in any standing or overhead rigging. ( )

iv. Screw shackle pins, where allowed to be used, shall be tightened securely. ( )

v. Shackle pin mollies shall be rolled sufficiently and fit the pin hole fully. Mollies shall be tucked a minimum of three (3) times. ( )

vi. The shackle shall always be placed with the pin nearest to the yarder, so that in the event the shackle fails the least amount of hardware may be thrown at the yarder. ( )

vii. Replace shackles that are bent, broken, or show excess wear on the inner surfaces. Examples of the appearance of some damaged or non-conforming shackles are illustrated in Figure 454.13.c.vii. ( )

14. Knobs, Ferrules, and Eyes. ( )

a. Poured nubbins and a double-end hook are acceptable connectors in place of shackles in some instances. The use of quick nubbins (wedge buttons) as guylines and skyline end fittings is prohibited unless attaching guylines to guyline drums. Operators shall follow the manufacturer's recommendations when attaching sockets and similar end fastenings. ( )

b. Poured nubbins achieve ninety-nine percent (99%) of line strength and may be used. Quick nubbins only achieve a maximum of sixty-five percent (65%) under ideal conditions, and accordingly operators shall consider whether they are appropriate for safe use in any given application. Pressed ferrule are not certifiable for strength, and shall not be used. Examples of the appearance of some knob, ferrule, and nubbin equipment are illustrated in Figure 454.14. ( )

c. Operators shall inspect knobs, ferrules, and eyes at cable ends for loose or broken wires, and corroded, damaged, or improperly applied end connections. Poured nubbins shall be date stamped.

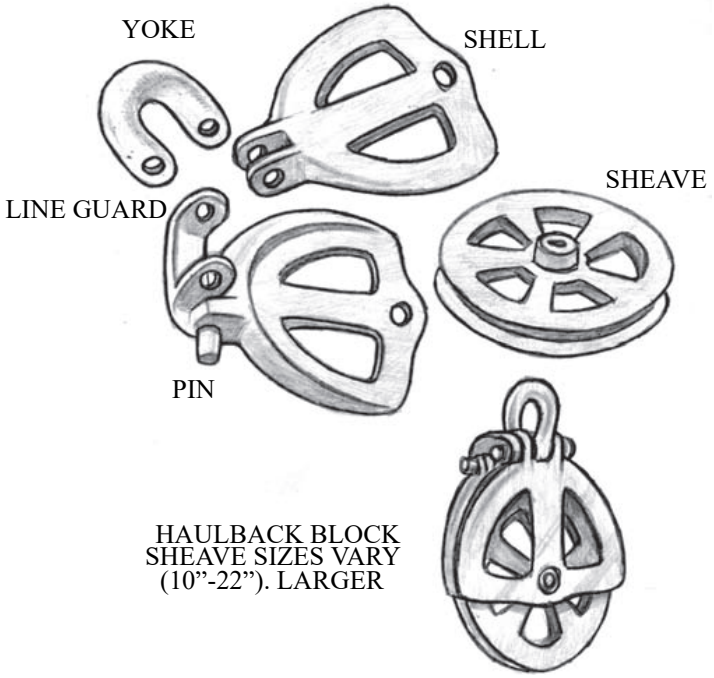
15. Brush Blocks. Brush blocks shall be thoroughly inspected for cracks, wear, or deterioration.

Operators shall closely examine the areas subject to the most wear, including bearings, sheave, frame, yoke, and pins. Defective parts shall be replaced immediately. Blocks shall be greased every time before each use.

FIGURE 454.15



( )

16. Chains and Straps. Chains or straps shall always be sized and used correctly for the intended purpose. Determining which size to use may depend on various factors. Oversized trailer lift straps, for example, shall have a breaking strength equal to five (5) times the load to be lifted. Towing chains shall have a tensile strength equivalent to the gross weight of the towed vehicle. The manufacturer’s specifications or other appropriate reference materials shall always be consulted to ensure the right chain or strap is used for a task. ( )

a. Operators shall periodically inspect chains for damaged, worn, or stretched links. Chains with more than ten percent (10%) wear at the bearing surface shall be replaced. Operators shall periodically inspect straps, and examine them for broken wires or wear. Examples of the appearance of damaged and safe chains are illustrated in Figure 454.16.a.

455. TREE CLIMBING.

Loggers are often required to climb considerable heights to top trees or hang rigging on lift trees. All workers who may be exposed to fall hazards shall be specifically trained and equipped with fall protection. ( )

01. Rescue Plan. Before rigging any tree, the employer must develop rescue procedures, which includes identifying appropriate equipment, personnel, and training to perform a rescue in case a climber is injured or incapacitated in the tree. A second set of climbing gear and a person with climbing experience shall be readily available. Equipment and procedures that will support an injured climber's chest and pelvis in an upright position during a rescue shall be used. When an injured climber is wearing only a climbing belt, provisions must be made to prevent the climber from slipping through it; this may include using a rope to create an upper-body support system. Consideration should be made to replacing climbing belts with a climbing harness. ( )

02. Before Leaving the Ground. Employers shall check climbing equipment and immediately remove defective equipment from service. Personnel shall ensure that hardware and safety equipment is securely fastened before placing weight on the lanyard or life-support rope. All climbing knots shall be tied, dressed, and set prior to ascending. All personnel shall follow the recommendations of the manufacturer of the cordage with respect to the use of splices. ( )

03. Climbing Equipment. ( )

a. A climbing harness provides both pelvic and upper-body support, and may be a one (1)-piece, full-body harness, or any two (2)-piece design that meets industry standards. ( )

b. Climbing and life-support lines shall be conspicuous and easily identifiable. ( )

c. All lines and webbing used for life support shall have a minimum breaking strength of five thousand four hundred (5,400) pounds and may only be used for climbing. ( )

d. When a cutting tool is used in a tree, the climbing rope (lanyard) shall be a high-quality steel safety chain of three-sixteenths (3/16) inch size or larger, or a wire-core rope. ( )

e. A life-support rope evidencing excessive wear or damage or that has been subjected to a shock load shall be removed from climbing service. ( )

04. Climbing Operations. ( )

a. Ensure climbers are appropriately well-trained in climbing and in the use of all equipment to carry out assigned tasks. ( )

b. While climbing operations are underway, co-workers and others on the ground shall stay clear of potential falling objects. If co-workers must work directly below a climber, the climber shall stop any activity in which objects could be dropped or dislodged until the area below is cleared. Climbers shall provide warning whenever any material may be likely to fall or is dropped deliberately. Unsecured equipment, rigging, or material shall not be left in the tree. ( )

c. Yarding activity must cease within reach of a tree or guylines of a tree where a climber is working. Machinery may operate in reach of the climber to hoist rigging into the tree. In such circumstance the following shall apply: ( )

i. A spotter shall be utilized and yarding operations shall be performed with extra caution; ( )

ii. The machine operator and the spotter shall give the task their undivided attention; ( )

iii. Equipment that is nearby and which may be noisy, such as power saws, tractors, or logging machines shall be shut down if the noise interferes with signal communications with the climber; and ( )

iv. Lines attached to a tree in which a climber is working shall not be moved except on a signal from the climber. ( )

d. Tree climbers shall use a three (3)-point climbing system whereby three (3) points of contact must be firmly in place on a secure surface before moving to another point. Along with hands and feet, other points on the body, such as a hooked knee, can be considered a point of contact if it can support the full body weight. Additionally, the places of support must be secure, and climbers should use care to void unsound branches or stubs as a contact point. A lanyard around the tree secured to the safety harness or climbing belt on both ends constitute two (2) points of contact. ( )

e. Climbing without being secured to the tree is prohibited, except in conifers, when in the judgment of a qualified climber, the density of branches growing from the stem make attaching the lanyard more hazardous than simply climbing the tree. In such instances, the climber shall evaluate the tree farther up, and use attachments when it is safe to do so. ( )

05. Topping Trees. Only an experienced climber with experience felling trees shall top a tree. Cutters shall not cut when wind or other conditions make doing so hazardous. Standard safe felling procedures shall apply, with the additional following requirements: ( )

a. A chainsaw with a bar short enough to make both the face-cut and backcut easily from one side shall be used. ( )

b. Cutters shall determine the felling direction and ensure there are no obstructions. Consideration shall be given to the fact that an impact could cause violent movement in the tree being topped where the climber is perched. ( )

c. A safety chain shall be wrapped around the tree just below the cut to prevent the tree from splitting or slabbing down inside the climbing rope. ( )

d. The cutter shall ensure he is comfortable, and avoid any awkward cutting position. ( )

e. Exact cuts should be made. There is no escape route for the climber to get away from the stem to avoid kickback or a splintered hinge. When making horizontal side cuts, extra care shall be used to stay on the line of the backcut to avoid wood breaking away with the saw as the top falls. ( )

a. Signal systems between air crew and ground personnel shall be understood and checked before hoisting the load. This applies to either radio or hand signal systems. ( )

b. There shall be constant reliable communication between the pilot and a designated signalman during the period of loading and unloading. ( )

c. The helicopter shall be equipped with a siren to warn workers of hazardous situations. ( )

02. Loading Logs. ( )

a. It shall be the responsibility of the firm, supervisor, or person who is in charge of the actual loading operation to comply with the provisions of these rules applicable to log loading. ( )

b. The helicopter operator shall be responsible for the size, weight and manner in which loads are attached to the helicopter. If, for any reason, the helicopter operator believes the lift cannot be made safely, the lift shall not be made. ( )

c. When employees are required to perform work under hovering aircraft, a safe means of access shall be provided for employees to reach the hoist line hook and engage or disengage cargo slings. ( )

d. Employees shall not work under hovering aircraft except while hooking or unhooking loads. ( )

e. The weight of an external load shall not exceed the manufacturer's rating. ( )

f. The hook-up crew shall not work on slopes below felled and bucked timber when an unsafe situation exists. Culls left, which have a potential of rolling, should be moved to a safe position. ( )

03. Loading and Landing Areas. ( )

a. The minimum dimensions of a drop zone shall be determined by the length of the logs being

hauled. All zones shall be at least one and one-half (1 1/2) times as long, and as wide as the length of the average log being harvested. ( )

b. Landing or loading machinery shall be a reasonable distance away from where logs are to be landed. ( )

c. Landing crew shall be in the clear before logs are landed. ( )

d. The approach to the landing shall be clear and long enough to prevent tree tops from being pulled onto the landing. ( )

e. Separate areas shall be designated for landing logs and fueling helicopters. ( )

f. Sufficient ground personnel shall be provided for safe helicopter loading and unloading operations. ( )

g. A clear area shall be maintained in all helicopter loading and unloading areas. ( )

h. Emergency landing areas for injured workers shall be located within a reasonable distance from all working areas. ( )

04. Hooks and Chokers. ( )

a. The electrical activating device of all electrically operated cargo hooks shall be designed and installed to prevent inadvertent operation. In addition, these cargo hooks shall be equipped with an emergency mechanical control for releasing the load. ( )

b. Logs will be laid on the ground and the helicopter completely free of the chokers before workers approach the logs. ( )

c. One (1) end of all the logs in the turn shall be touching the ground and at an angle no greater than forty-five degrees (45°) before the chokers are released. ( )

d. If the load must be lightened, the hook shall be placed on the ground on the uphill side of the turn before the hooker approaches to release the excess logs. ( )

SUBCHAPTER N – RECOMMENDED SAFETY PROGRAM
(Rules 651 - 700)

651. INTRODUCTION.

01. Scope. ( )

a. These rules are part of the accident prevention program of the state of Idaho. This program is dedicated to the safety and well-being of all workers in Idaho's logging industry. It has been established according to the processes prescribed by law. ( )

b. These rules contain the primary safety rules for the logging industry. However, other Idaho Safety Standards promulgated and adopted by the Industrial Commission shall be applicable to this industry where not inconsistent with the provisions herein, or where any particular activity which is being carried on is not specifically covered or regulated herein. ( )

02. Enforcement. The enforcement of these rules is the responsibility of the Division of Building Safety. These rules will not serve their purpose if their requirements are considered anything but a minimum for safe operation. So much variation exists in the logging industry that each operation should be judged, not by its

compliance to the letter of this Standard, but according to a higher standard -- that of absolute safety under all conditions. ( )

03. Accident Prevention. Accident prevention is often a problem of organization and education. It does not succeed solely on detailed safety codes but consists largely of the desire to institute a common sense safety program and determination to carry out the program effectively. Effective accident prevention embodies the following five (5) principles: management leadership; employee cooperation; effective organization; thorough training; and good supervision. ( )

652. FIRE AND SAFETY POLICY.

01. Elements. The basic elements or management responsibility for fire and safety policy are enumerated in this section. ( )

02. Management Leadership. The establishment of the safety policy should be made clear to all levels of supervision, purchasing, engineering, industrial and construction; and communicated to all employees that top management has approved the operation's safety program. ( )

03. Planning. The program should be based on the following: accounting record of safety cost, accident recording system, accident investigation recommendations, operation inspection recommended corrections, employee suggestions, and job analysis to determine the work hazards. The hazard appraisal can be summarized as follows: mechanical and physical hazards; environmental hazards; and work procedure and practices. ( )

04. Management Discharge of Duty. ( )

a. If management is to discharge its duty in proper directing of the fire and safety program, it must organized a definite planned program of continuous supervision and leadership by all facets of the management organization. The very fact that safety must be woven into all operations and activities should not require extra managerial time beyond the ordinary to operate a business successfully, i.e., if the entire management team will assume their safety responsibility. ( )

b. The first task of management is to determine the operational hazards. Once these are ascertained and appraised, suitable corrective action can be initiated. If the working unit is operating, the following specific activities should be carried out to find the hazards. These are: job inspection; job analysis; accident investigation (near accident, non-disabling injuries) to determine necessary remedial action to prevent reoccurrence of the accident. ( )

05. Hazard Appraisal. The partial list of terms covered by appraisals are summarized briefly as follows: mechanical and physical hazards; adequacy of mechanical guarding of machines and equipment; preventing the use of inferior manufactured and unsafe supplies, equipment, chain, cables, sheaves, tires, power saws, tractor canopy guards, approved head protection, fire extinguishers, solvents, mill saws, etc.; and physical exhaustion such as may be caused by excessive work hours by truck drivers and mill maintenance employees. ( )

06. Environmental Hazards Inherent to the Operation. ( )

a. Personal protection devices (approved head protection, ear plugs, knee pads, proper eye protection, respirators, etc.) ( )

b. Storage and use of flammable liquids and gases (gasoline, diesel, acetone, acetylene, acids, etc.) ( )

c. All employees should be familiar with proper work signals (falling, blasting, high lead signals, loading, mill signals, operation fire signal, etc.) ( )

d. Noise and fatigue hazards that are inherent to the industry (planers, cutoff saws, jack hammers, etc.). ( )

07. Work Procedures and Practices. ( )

a. Hazards directly related to work practices should be carefully observed and evaluated. ( )

b. Work practices that should be investigated include, but are not necessarily limited to: use, care and maintenance of hand and portable power tools; degree of supervision given the worker; the extent of job training provided; the safety indoctrination and training of new or transferred employees; the proper use of fire extinguishers; the use of personal protective devices (approved head protection, shoes, etc.); and the repair and maintenance of equipment with respect to machines, mechanical handling equipment, log loaders, yarding equipment, tractors, fork lifts, overhead cranes, headrigs, etc.; ( )

08. Reporting of Injuries. ( )

a. The employer shall instruct all employees to report all job injuries to the supervisor at the time injuries occur. The employer shall check specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use. ( )

b. The employer is required to report all industrial injuries to their surety (work comp carrier) within ten (10) days. ( )

c. The employer is responsible for reporting all in-patient hospitalization, amputation, or the loss of an eye for any employee to the Occupational Safety and Health Administration (OSHA) and the Division of Building Safety Logging Safety Program within twenty-four (24) hours. ( )

09. Fatalities. All work fatalities should be immediately reported to the County Sheriff or Coroner, the Division of Building Safety Logging Safety Program, and OSHA in accordance with the Code of Federal Regulations, 29 CFR 1904.39. ( )

10. Management of Personnel. ( )

a. The recruiting and placing of a new worker on the job is a major responsibility of the management organization. Every effort should be made to match the qualifications of the worker with the demands of the job. ( )

b. The furnishing of first aid services, treatment of injuries, and inspection of working conditions is the employer's responsibility. ( )

11. Assignment of Responsibilities. ( )

a. Supervisors, purchasing agents, engineering personnel, safety directors, personnel directors, and employees have responsibilities to ensure conformance with the organization's fire and safety objectives in every operation. ( )

b. Management must accept the normal obligation for preventing accidents. In many operations it is a practice to delegate the actual administration of the safety program to a person who can devote full-time to it. In smaller operations, safety administration may be a collateral duty carried on in conjunction with some other duties. The safety director should function in a staff capacity. Because the safety director operates in a consultant capacity, ultimate responsibility for accident prevention rests with the workers' supervisor, the foreman and line production organization. There is no doubt that the foreman is the key person in every safety program. Safety is not something separate and apart from production. If the job is done right, it is done safely. ( )

c. Safety is an integral and important part of production, just as is quality and quantity, or meeting production schedules. ( )

d. All these duties are foreman or project superintendent duties, and the most important part of the line production organization. This obligation cannot be delegated. As the person in charge of production, the foreman

is responsible for the safety of his people. This fact must be made clear and should be included in the statement of policy. ( )

12. Safety Director (Part-Time or Full-Time): ( )

a. Makes periodic inspections of the operations and suggests corrective measures to eliminate hazards. ( )

b. Should assist in investigation of all types of accidents to determine the cause, so as to prevent like accidents in the future. ( )

c. Aids foremen in developing safe work procedures and practices and assists foremen in training their workers. ( )

d. Keeps accident records and makes periodic reports to the proper official on the progress being made. Reports and records; report of accidents; accident investigation report; performance report (injury frequency and severity); accident cost report; safety committee reports; report on degree of corrective action taken on different recommendations. ( )

e. Conducts or initiates safety training courses including first aid and fire fighting, where appropriate, and any other course inherent to the job (truck driver courses, power saw courses, welding, grinder usage, fork lift truck operator, etc.). ( )

f. Establishes safety committee. ( )

g. Ensures that recommendations are promptly and properly implemented. ( )

h. Checks specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use. ( )

i. He shall assist the safety committee in developing agendas for their meetings. ( )

13. Foreman Responsibilities. It is widely accepted that the foreman is the key man in attaining proper work habits in any operation. It is the obligation of management to give the most careful attention to the selection, education, and training of foremen and train them in the proper way to train employees in correct and safe work methods to attain the best production in the safest way. ( )

14. First Aid Training. It shall be the responsibility of management to arrange to have all employees take a full course in first aid training. It is required that supervisory personnel shall take an approved first aid course, and have a current first aid card. ( )

15. Injury Record and Reporting System. ( )

a. If an employer had ten (10) or fewer employees at all times during the last calendar year, it does not need to keep OSHA injury and illness records unless OSHA or the Bureau of Labor Statistics (BLS) informs the employer in writing that it must keep records under OSHA regulations. However, as required by such regulations, all employers covered by the OSH Act must report to OSHA and the Division of Building Safety Logging Safety Program any workplace incident that results in a fatality or the hospitalization, the amputation of a limb, or the loss of an eye for any employee. ( )

b. For those employers subject to the injury and illness recording requirements under OSHA, the employer shall establish in its main Idaho office an injury record and reporting system which is consistent with reporting, record, and statistical requirements of the Occupational Safety and Health Administration (OSHA). ( )

c. Injury frequency rates shall be calculated annually commencing the first of January each year.

These rates shall be kept on file in the office of the employer for at least four (4) years after the date of entry thereof, and shall be made available to the Division of Building Safety, upon request. ( )

d. The injury frequency rate shall be the number of lost time injuries to all employees per one million (1,000,000) man hours of exposure. The frequency rate is computed by multiplying the number of lost time injuries by one million (1,000,000) (the standard of measurement) and dividing the product by the total number of man hours worked during the period. The formula is expressed as follows: Frequency equals the number of lost time injuries times one million (1,000,000) total man hours of exposure. ( )

e. A lost time injury shall be the term applied to any injury, arising out of, and in the course of employment which makes it impossible for the injured person to return to an established regular job at the beginning of the next regular shift following the shift during which the injury occurred, or some future shift. ( )

f. Man hours of exposure shall be the total number of man hours actually worked by all personnel in the industrial unit during the period for which the rate is being computed. ( )

16. Training and Education. ( )

a. Training and education includes: ( )

i. Establishment of effective job training methods and safety education. ( )

ii. First aid courses, proper work signals and job hazard warnings. ( )

iii. Pamphlets, bulletin boards, safety meetings, posters, etc. ( )

b. The employer shall establish an adequate job training and safety education program. The relationship of safety to job quality and modern quantity production methods should be clearly understood. Good work production is governed by careful planning and accurate control of all phases of the operation. Accidents are the result of inadequate planning of faulty operation. ( )

c. Safety must be made an essential and integral part of every operation and integrated into the activity if the most successful quantity production is to be attained. The soundness of this statement has been proven many times by comparing the accident cost with the day by day curve of production. ( )

d. It is the responsibility of management to train employees in all phases of the work they are assigned. The worker training should begin at the time of employment with a careful presentation of the general safety information the employee must have to work on and in logging and lumbering or wood working operations. When the worker is placed on the job, the worker must be given detailed training on proper work methods for accomplishment of the job. The correct way is the safe way. Telling is not training. ( )

e. People learn to do things primarily through action. The employee's job training should be given using the five (5) step job training method: ( )

i. Tell the employee; ( )

ii. Show the employee; ( )

iii. Have the employee do it; ( )

iv. Correct until the employee does it right; and ( )

v. Supervise to see that the employee keeps doing it right. ( )

f. Education and promotion are a supplemental means of reducing injuries. This device employs any number of methods to accomplish results. A good program may use but will not overemphasize emotional appeal to the workers using such devices as scholarships, stamps, posters, safety meetings, contests, and awards. It is

management's responsibility to integrate education and training program and balance its effectiveness to employee training. Unsafe acts or unsafe work practices are the result of failure to train workers in safe work procedures. In establishing or operating a safe and quality work program, an appraisal of unsafe work procedures and poor quality of work is called for, and job training methods initiated to correct these practices. ( )

17. Employer, Employee, and Labor Representative Cooperation. ( )

a. The workers have a responsibility to obey the units safety rules, smoking rules, report unsafe conditions, to serve on the different safety committees, perform their work in a safe way, and to help fellow workers by showing them how to do their job safely. ( )

b. Many safety programs fail because the worker has not been made to feel that it is their program; or that they can contribute as well as benefit from the program. It often fails because it lacks employee participation and interest. The fact that employees are given the opportunity to participate and to contribute to the program not only opens a reservoir of valuable information on practical experience in accident prevention, it also gives the employee a feeling of being a part of the organization. ( )

c. The committee on safety should be made up of personnel selected from management and workers. Management members are supervisors and worker members may be selected by the union or by the employees. ( )

d. The labor unions should help develop a safe behavior among the workers. ( )

18. Maintenance of Safe Working Conditions. ( )

a. The employer shall provide a safe and healthy work area in which to work, including purchasing of safe equipment and tools and provide proper maintenance of such equipment. ( )

b. Since a safe and healthy place to work is the very foundation of the safety program, the mechanical, physical, and environmental conditions should be given first consideration. ( )

c. For almost every accident there are typically two (2) contributing causes - an unsafe condition and an unsafe act. A safe and healthy place to work will diminish or eliminate the first cause, the unsafe condition; but unless the unsafe act is corrected, accidents will continue to occur. Unsafe acts may stem from a number of factors, such as improper selection of the worker for the job, lack of job training, physical or mental limitations or inadequate supervision. When a safety program is first established or a new project with a new crew is started, this may necessitate a thorough periodic survey of the entire operation to determine hazards. ( )

19. Remedial Measures of Corrective Action. ( )

a. The employees shall support and correct the findings of job analysis, inspections, accident investigations, employee suggestions, etc. ( )

b. The assumption of responsibility for fire and accident prevention by management carries with it the continuing responsibility to assess the progress being made on the program, and where progress is unsatisfactory to take necessary steps to bring about improvement. Inspection alone is primarily a means of finding and eliminating fire and physical hazards, particularly in connection with enforcement. All educational and promotional activities should be integrated with inspection activities, and should be based on the specific needs of the establishment or operation. Inspection and educational and promotional programs are sometimes looked upon as entirely unrelated activities rather than a single integrated program. ( )

c. None of the foregoing activities are of value unless followed by effective corrective action. The responsible executive within top management must establish specific procedures to effect proper and complete corrective action in each area for problems that occur. In well-managed organizations the areas of responsibility are clearly defined. The activities are well coordinated, supervision is adequate and proactive, employees' safety behavior is excellent, and policies are well-defined to permit smooth organization. This is not difficult; the corrective measures are applied as part of the day to day operating procedure. ( )

20. Safety Order By the Administrator. In accordance with the provisions of section 67-2601A (3), Idaho Code, the administrator may issue a safety order requiring an owner, operator or other party responsible for ensuring safe logging operations to immediately stop work or close any work site, or portion thereof where an inspection has revealed evidence of a condition that poses an immediate threat of bodily harm or loss of life to any person. The process governing the issuance of a safety order is contained herein this section. ( )

a. Upon receiving information evidencing an unsafe condition or unsafe practices at any logging workplace or place of employment, the administrator shall inspect or cause to be inspected such place of employment unless such information was obtained by previous inspection of the Division. If upon such inspection the administrator determines that an unsafe condition or unsafe practice exists which may pose an immediate threat of bodily harm or loss of life, the administrator may issue a safety order requiring the employer to immediately stop work or close any work site, or portion thereof. Any safety order issued by the administrator shall specifically identify the unsafe condition or practice, as well as the safety risks associated therewith. Written notice of such order shall immediately be provided by the administrator to the owner or operator of the business, or any other appropriate party responsible for abating the unsafe condition or practice. ( )

b. Upon receiving such notice from the administrator, such owner, operator or responsible party shall immediately comply with such, and may notify the administrator in writing of their objection to the notice and request to contest such at a hearing. The owner, operator or responsible party shall provide the administrator with information, documentation, or other evidence supporting their objection. ( )

c. Upon receipt and review of such information from the owner, operator, or responsible party, the administrator may reconsider the matter and issue appropriate findings to the owner, operator, or party responsible for abating the unsafe condition or practice, including rescission of the order. ( )

d. If after review it is the determination of the administrator to keep the safety order in place, he shall so notify the owner, operator or responsible party and designate a time and place for hearing, and may assign the matter for hearing by a hearing officer. The hearing shall be afforded at such time not to exceed five (5) business days from the date the administrator received the notice of objection unless additional time is requested by the owner, operator, or responsible party. The hearing proceedings shall be governed by the provisions of Title 67, Chapter 52, Idaho Code. The hearing officer shall issue an order in accordance with Section 67-5243, Idaho Code. The hearing may be held at such location or by such means as the administrator determines most convenient for the parties. ( )

e. The safety order shall remain in effect, and shall not be rescinded until the administrator has determined that the safety threat has been corrected or removed from the workplace. Upon verification by the administrator that the safety threat has been corrected or otherwise removed from the worksite, the administrator shall immediately notify the owner, operator or responsible party of the rescission of the safety order. Any party aggrieved by the final order of the administrator shall be entitled to judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code. ( )

f. Any person who knowingly fails or refuses to comply with the provisions of a safety order issued by the administrator shall be guilty of a misdemeanor, and the administrator may seek criminal prosecution of any such violations. ( )

b. Be equipped with a certified roll-over protective structure (ROPS); and ( )

c. Be equipped with at least a four (4)-point restraint system approved by the machine's manufacturer or a qualified person. ( )

02. System Approval. The cable-assisted logging system shall be designed and constructed for cable-assisted logging applications by the original equipment manufacturer, or approved for cable-assisted logging applications in writing by the original equipment manufacturer or a registered professional engineer. ( )

03. Operation of System. The cable-assisted logging system shall be operated, inspected and maintained in accordance with the manufacturer's recommendations, specifications and limitations, or if no manufacturer's recommendations exist, then by the recommendations of a registered professional engineer. Cable-assisted logging systems not in safe operating condition shall be removed from service until repaired by a qualified person. ( )

702. TETHERED LINE SAFETY REQUIREMENTS.

01. Inspection of Tethered Lines. Tether lines shall be new wire rope and have a rated breaking load according to the cable-assisted logging system manufacturer's recommendations and specifications. At a minimum, a competent person shall inspect the entire length of each tether line and drum connection prior to the startup of each cable-assisted logging operation, and thereafter on a monthly basis. A competent person shall also inspect the first fifty (50) feet of each tether line daily prior to use. These inspections shall be documented in writing. Tether lines must not be spliced and shall be replaced if there is evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, significant corrosion, heat damage, other damage that has weakened the tether line. ( )

02. Line Tension. The tether line tension and machine travel shall be synchronized or automatically held constant to ensure tether line tension is continuously provided and does not exceed thirty-three percent (33%) of the rope's rated breaking load. The operator shall have an immediate and self-reliant or automated method to identify tether line tension, winch rotation and speed, amount of line on and off the drum, and anchor movement. ( )

03. Tether Line Components. All tether line assembly components shall be rated with a greater safe working load than the wire rope. Tether line attachment points and hitches shall be engineered and certified to maintain a safety factor equal to or greater than the recommendations and specifications of the cable-assisted logging system manufacturer. Inspections of tether line assembly components (except drum connection as specified in Subsection 011.01 of these rules), hitches, winches, machines, and anchors shall be performed daily by a competent person prior to use. ( )

703. OPERATION AND SAFETY REQUIREMENTS.

01. General. Cable-assisted logging systems shall be operated, inspected and maintained in accordance with the manufacturer's recommendations and specifications. Inspections shall be documented in writing. ( )

02. Planning. All cable-assisted logging operations shall be planned by the operator and a competent person who has the knowledge, training or experience to identify existing and predictable hazards in the work site surroundings or working conditions, which could be hazardous to employees, and has been authorized by the employer or employer representative to eliminate the hazard or take corrective action therefrom. Items to consider during site-specific planning must include, but are not limited to, the following: ( )

a. Experience of the operator; ( )

b. Limitations of the equipment; ( )

c. Soil and terrain conditions; ( )

d. Environmental conditions; ( )

e. Poor visibility and lighting conditions; ( )

f. Weather conditions; ( )

g. Direction of travel; ( )

h. Requirements for turning the machine on slopes; ( )

i. Load sizes; ( )

j. Method and adequacy of anchorage; and ( )

k. Any other condition that may adversely affect operations. ( )

03. Operator Qualifications. Cable-assisted logging operators shall have documented training or adequate experience to safely operate the equipment on slopes. ( )

04. Operating Plans. A cable-assisted logging system operator shall have a written operating plan on site detailing the following: ( )

a. Tether line replacement criteria; ( )

b. Cable size, type and breaking strength, and method of assurance that tensions do not exceed one-third (1/3) of breaking strength to maintain a 3:1 safety factor or greater; ( )

c. Inspection and maintenance to be performed on tether lines, end connectors, machines and winches; ( )

d. How the operator will use tension limiting controls to maintain desired tension; ( )

e. How the winch cable tension and machine travel are synchronized; ( )

f. How the operator will monitor machine slope, anchor movement, winch tension, amount of line on and off drum, and winch function; ( )

g. How the tether line attachment points to the harvesting machine are engineered to withstand potential loads; ( )

h. All harvesting machine modifications that allow it to operate on steep slopes, including operator harness or restraint system; ( )

i. How pre-operations planning and daily assessments will identify hazards for soil and terrain conditions; ( )

j. How the operator will determine if soil and terrain conditions are unsafe during operations; ( )

k. How operators will report new hazards identified during operations; ( )

l. Operating guidance given to the operator; and ( )

m. How emergencies are handled by the system, including line failure, machine failure, winch failure, anchor failure, winch machine movement or anchor movement, and whether there is an emergency stop for the operator or at the anchor. ( )

05. Unsafe Conditions. The employer shall establish and use procedures for operators to report unsafe

conditions to a supervisor or qualified person. Such conditions must be corrected prior to resuming cable-assisted logging operations. Procedures shall also include steps to take in the event of equipment breakdown and for upset conditions. ( )

06. Warning Signs. Effective signage shall be affixed to all remotely operated equipment warning employees and others that lines and machines may start, stop, or move without warning. All employees working in close proximity of cable-assisted logging operations must receive training that enables them to recognize the potential hazards involved and to maintain safe distances. ( )
