TESTING AND MEASUREMENT PROCEDURES
Rules 71 through 80

071. STRAY CURRENT OR VOLTAGE TESTS (RULE 71).

Subject to Subsection 071.02, there are six (6) tests used to detect and measure stray current or voltage. ()

01. Scheduling of Stray Voltage Tests. Efforts shall be made to perform the tests under conditions

substantially similar to those conditions existing at the time(s) the dairy producer believes stray voltage to be a problem. ()

- a. Test 1 - Cow Contact Test; ()
- b. Test 2 - Forty-Eight (48) Hour Test; ()
- c. Test 3 - Primary Profile Test; ()
- d. Test 4 - Secondary Neutral Voltage Drop Test; ()
- e. Test 5 - Load Box Test; and ()
- f. Test 6 - Signature Test. ()

02. Testing Sequence. Test 1 shall be performed first. Tests 1 and 2 are used to determine the presence and level of stray voltage and shall be performed in all investigations, subject to the provisions of Subsection 071.03. Tests 3, 4, 5, and 6 may be performed in any order and may be performed without first determining that these tests are required under Paragraph 071.02.b. Tests 3, 4, 5, and 6 may be performed prior to starting the recording for Test 2 or while Test 2 is in progress. Test 2 may be interrupted as necessary to conduct Tests 4, 5, and 6, or for review and analysis of the data recorded up to that point. ()

a. If the results from Tests 1 and 2 indicate that stray voltage does not exceed the preventive action level (PAL), the utility has no further testing or remediation obligations under these rules during this test cycle. ()

b. If the PAL is exceeded, the utility shall perform the remaining four (4) tests except as provided in Subsection 071.03. The utility shall also perform analysis to determine whether the portion of the stray current or voltage attributable to an off-farm source exceeds fifty percent (50%) of the PAL. ()

c. If the PAL is exceeded, and the portion of the stray current or voltage attributable to an off-farm source does not exceed fifty percent (50%) of the PAL, the utility has no further testing or remediation obligations. ()

d. If the PAL is exceeded, and the portion of the stray current or voltage attributable to an off-farm source exceeds fifty percent (50%) of the PAL, the utility shall conduct remediation pursuant to Section 091. Under this condition, the forty-eight (48) hour recording of Test 2 may be reduced to no fewer than twenty-four (24) hours. ()

e. For all testing conducted under these rules, the utility shall have a qualified analyst prepare a report pursuant to Section 082. ()

03. Suspended or Limited Testing. The utility may suspend a stray voltage investigation or conduct a limited evaluation, as agreed between the utility and the dairy producer. ()

072. PREPARATION FOR TESTING (RULE 72).
The person performing the tests shall perform the following: ()

01. Remote Reference Grounding Rod. ()

a. Remote reference grounding rod(s) shall be installed and penetrate moist soil to a depth of thirty (30) inches. When practicable, remote reference rods shall be installed at least twenty-five (25) feet away from the nearest underground conductive electrical equipment of any type or at a distance equal to three (3) to four (4) times the buried depth of any metallic structure connected to the service entrance neutral. The reference ground rod shall be located not closer than twenty-five (25) feet from the centerline of a primary electrical conductor right-of-way. A reference rod shall be located not closer than one hundred (100) feet from the edge of a transmission line right-of-way. ()

b. All remote reference grounding rods shall be checked for “remoteness” prior to their use for tests or measurements and if found to be insufficiently “remote,” a new location for that reference ground rod shall be found and retested for remoteness. Remoteness of the reference ground shall be determined by measuring the voltage from the transformer grounding electrode conductor to the remote reference ground. The resistance-to-earth of the transformer grounding electrode shall be measured. The grounding electrode current shall be measured. Remoteness is considered adequate if the measured voltage (transformer grounding conductor to reference ground, V_p) is within twenty percent (20%) of the voltage calculated by multiplying the grounding electrode current by the grounding electrode resistance-to-earth. ()

c. If the transformer grounding electrode is within twenty-five (25) feet of other primary or secondary grounding electrodes, this remoteness test shall be conducted at the first primary system grounding electrode upstream of the transformer that is greater than twenty-five (25) feet from other primary or secondary system grounding electrodes. ()

02. Inspecting the Transformer(s). Prior to testing, the utility transformer shall be inspected, grounding electrode resistance measured, and any repairs necessary for safety be made and recorded. In the case of a customer-owned transformer, qualified personnel shall inspect the installation, measure grounding electrode resistance, and make and record any repairs necessary for safety. Measurements that require contact with utility or customer-owned primary wires or equipment shall be made by the utility or other qualified personnel. ()

03. In-Line Ammeters. If in-line or series ammeters are used, they shall be installed under safe conditions in accordance with the NESC and the NEC with the entire dairy system or the specific circuit to be tested de-energized. ()

04. Pre-Test Documentation. ()

a. All pre-test calibration requirements from Section 052 shall be completed and documented. ()

b. A sketch or drawing of the dairy shall be prepared indicating: ()

i. The location of the buildings; ()

ii. Secondary electrical service panels and secondary feeder systems serving cow contact areas; ()

iii. Transformer(s) and central distribution point; ()

iv. Existing grounding electrodes (if known); ()

v. The location of all cow contact points to be tested; ()

vi. All remote reference grounding rods; and ()

vii. All primary and secondary neutral test points used in conjunction with the remote reference grounding rod(s). ()

c. A listing of planned test points shall be prepared using the applicable form prior to beginning each test. Each test shall be listed separately and specific reference numbers shall be given to each planned test point. ()

05. Safety. ()

a. If the service provider reasonably concludes that a dairy’s noncompliance with the NEC poses a significant and immediate safety hazard which prevents completion of any test or measurement required by these rules, then the service provider’s obligations to proceed under these rules shall be suspended until the hazard is

eliminated. ()

b. At the discretion of the service provider conducting the test, livestock shall be removed from any area where electrical equipment or wiring is examined or electrical measurements are taken. Testing may be suspended if the presence of cows or other animals creates a potential hazard to testing personnel. The locations of electric fences and other electrified cow control devices shall be noted and de-energized where practical. ()

073. TEST 1 -- COW CONTACT TEST (RULE 73).

01. Purpose. This test is to determine the location(s), if any, where stray current or voltage exceeds the PAL and to identify the location(s) at which the cow contact voltage will be recorded in the forty-eight (48) hour test. ()

02. Selection of Cow Contact Points. The selection of cow contact points to be tested shall include a sufficient number of locations reasonably likely to demonstrate the presence of stray voltage or current, if any. ()

03. Conducting the Test. The voltage across the shunt resistor or current through the shunt resistor shall be measured between cow contact points as shown in Figure 1. The source resistance shall be calculated during analysis for all cow contact points. ()

a. When using a voltmeter to measure voltage between contact points where one (1) of those points is the floor surface, the equipment shall be arranged as shown in Figures 1 and 2, using a metal plate, which shall make a high quality conductive contact with the ground or floor. If the service provider is unsure of having a high quality conductive contact with the floor or ground, then the procedure described in Paragraph 073.03.c. shall be followed. If necessary, corrosion shall be removed from the point(s) where test lead(s) make contact with metal equipment. ()

b. When using an in-line milliammeter or a clamp-around milliammeter to measure current between contact points and one (1) of those points is the floor surface or earth, the equipment shall be arranged as shown in Figure 3, using a metal plate which shall make high quality conductive contact with the ground or floor. If the service provider is unsure of having a high quality conductive contact with the floor or ground, then the procedures described in Paragraph 073.03.c. shall be followed. If necessary, corrosion shall be removed from the point(s) where test lead(s) make contact with metal equipment. ()

c. A metal plate used to make an electrical contact with the earth or floor shall be of regular shape (square, rectangular or round), and shall have a surface area equal to or greater than sixteen (16) square inches (4 inches x 4 inches or equivalent). Place a weight not less than twenty (20) pounds on the metal plate. This weight shall be applied evenly across the metal plate and not to the adjacent concrete or earth. Place the metal plate a minimum distance of twelve (12) inches from any metal equipment making contact with the floor or earth. ()

i. Where the metal plate is to be placed on a concrete floor, the surface shall be flat. Clean the floor surface with a stiff brush to remove debris that may add excess resistance. Use water to clean the floor surface at the point where the metal plate will be placed. Place a paper towel or similar material soaked in saltwater between the metal plate and the concrete floor. ()

ii. Where the metal plate is to be placed on the ground or earth surface, the surface shall be flat. Remove any debris and add water to the area, if necessary, to dampen the soil. The surface of the metal plate that will make contact with the earth shall be clean and free of corrosion before use. Remove any corrosion, if necessary. ()

04. Recording the Data. The person conducting this test shall record the location of, and measured values at, each test point. At each cow contact location, an open circuit voltage reading (V_{oc}) and a voltage with five hundred (500) ohm nominal shunt resistor placed across the input to the meter (V_{shunt}) shall be taken. These readings shall be taken with ten (10) seconds or less time between each reading. Alternatively, a current measurement (I_{shunt}) may be taken in place of the voltage reading (V_{shunt}). Data for these test points shall be recorded on the form in Appendix 1. ()

05. Source Resistance Calculation. The source resistance (R_{source}) shall be calculated for each cow contact location measured and the value recorded in Appendix 1. The following formulas shall be used to calculate source resistance.

$$R_{\text{source}} = \frac{V_{\text{oc}} - V_{\text{shunt}}}{V_{\text{shunt}}} \times R_{\text{shunt}}$$

$$R_{\text{source}} = \frac{V_{\text{oc}}}{I_{\text{shunt}}} - R_{\text{shunt}} \quad (\quad)$$

074. TEST 2 -- FORTY-EGHT HOUR TEST (RULE 74).

01. Purpose. This test is to determine whether stray current or voltage exceeds the PAL at selected location(s) over a forty-eight (48) hour period, subject to Subsection 074.06 and Paragraph 071.02.d. The test also demonstrates whether the primary or secondary sides of the system have a specific impact on the recorded current or voltage at specific times of day. ()

02. Setup. A digitizing data recorder with averaging capability and capable of detecting and recording transient deviations of one-tenth (0.1) second or less in duration shall be used to record the following: ()

a. Voltage from primary neutral at the transformer to remote reference ground, V_p . ()

b. Voltage from secondary neutral in the service panel serving the area of the cow contact to remote reference ground, V_s . ()

c. Voltage drops (V_p s) from primary neutral at the location of connection for V_p to secondary neutral at the location of the connection for V_s . ()

d. Cow contact current through (I_{cc}) or voltage across a five hundred (500) ohm resistor at the high voltage point(s) found in Test 1, V_{cc} . ()

03. Measurement Interval. The results of the forty-eight (48) hour test may be highly indicative of the presence of stray voltage. A recording interval as high as ten (10) seconds may be used provided that transient deviations of voltage or current of one-tenth (0.1) second or less in duration of voltage or current are recorded to the maximum ability of the instrument. ()

04. Measurement at the Cow Contact Point(s). Measurements to the earth or concrete surface shall be to a metal plate as described in Paragraph 073.03.c. When making measurements to metal objects, corrosion shall be removed to obtain a low resistance connection. ()

05. Recording the Data. Data gathered by the recording equipment during the forty-eight (48) hour test including transients shall be downloaded and retained with the records of the investigation. In addition, the steady-state data shall be summarized in the investigation report. The recorded data shall be made available to the dairy producer or utility upon request. The person conducting this test shall record the location of, and measured values at, each test point. The identification of the cow contact point shall be recorded on the form in Appendix 2. Transient deviations shall be recorded on the supplemental data form, page 3 of 3 in Appendix 2. A plot of the voltage versus time may be substituted for the recording of measured values in Appendix 2. ()

06. Reduced Recording Period. If a qualified analyst concludes that remediation by the utility is required under Paragraph 071.02.d. prior to the completion of a forty-eight (48) hour recording period, the recording period may be reduced to no fewer than twenty-four (24) hours. ()

075. TEST 3 -- PRIMARY PROFILE TEST (RULE 75).

01. Purpose. This test is to measure or calculate neutral-to-earth voltage (NEV) for a multi-grounded distribution system. ()

02. Conducting the Test. The primary profile test requires concurrent measurement of the ground electrode resistance and current at all primary system ground points within three quarters (3/4) of a mile on either side of all primary service points serving the dairy, or to the end of the line if less than three quarters (3/4) of a mile. Alternatively, the voltage between a remote grounding rod and the primary ground point being tested may be measured. ()

a. This test shall be conducted starting at one (1) end of the distribution system and working toward the other end along the main primary distribution system. Figure 4 below illustrates the procedure. ()

i. Where the dairy is served by a dedicated tap of less than one-half (1/2) mile in length from a distribution line, the neutral-to-earth voltage shall be measured at each primary ground along the tap and along the distribution line to a distance of three-quarters (3/4) of a mile in each direction from the point of the tap; or ()

ii. Where a dairy is served by a dedicated tap that extends more than one-half (1/2) mile from the distribution line, the neutral-to-earth voltage shall be measured at each primary grounding electrode along the tap and along the distribution line to a distance of one-half (1/2) mile in each direction from the point of the tap. ()

03. Recording the Data. The person conducting this test shall record the location of, and measured values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 3. ()

076. TEST 4 -- SECONDARY NEUTRAL VOLTAGE DROP TEST (RULE 76).

01. Purpose. This test is used to determine the impact of each secondary service on the neutral-to-earth (NEV) and cow contact voltages on the dairy under controlled conditions. ()

02. Conducting the Test. This test shall be performed for all service entrances. A proxy load of known characteristics (such as a resistive load like a one hundred twenty (120) volt, fifteen hundred (1,500) watt hairdryer) is required for this test. The proxy load must create a known and stable current and subsequent voltage drop for each neutral serving a main panel, sub-panel or end-of-service area. All service entrances other than that being tested shall be turned "off" to perform this test. A diagram showing the connections and measurement points for this test is shown in Figure 5. ()

03. Data Collection. The following data shall be collected for each secondary neutral tested: ()

a. Gauge and type of neutral wire. ()

b. Length of neutral wire. ()

c. Neutral current, I_{sn} . ()

d. Voltage drop (V_{DropM}) between both ends of the secondary neutral being tested. ()

e. Cow contact voltage (V_{cc}) or current (I_{cc}) at the same points used in the forty-eight (48) hour test. ()

f. Primary neutral at the transformer to reference ground voltage, V_p . ()

g. Secondary neutral to reference ground voltage, V_s . ()

04. Measurements. The three (3) voltages (V_{cc} , V_p and V_s) shall be measured with the proxy load "off" and "on." Calculated expected voltage drops (V_{DropC}) (see Appendix 4) shall be compared with measured voltage drops (V_{DropM}). If the measured and calculated voltage drops differ significantly, further investigation shall be undertaken to determine the source of additional voltage drop within the circuit. Neutral current shall be

measured and recorded with the proxy load on (Isn). ()

05. Recording the Data. Any person conducting this test shall record the location of, and measured values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 4. ()

077. TEST 5 -- THE LOAD BOX TEST (RULE 77).

01. Purpose. To determine the extent to which the primary system contributes to stray current or voltage at cow contact points. For dairies with three (3) phase balanced primary service, the service provider shall perform Steps One and Two in Paragraph 077.02.b. below. ()

02. Conducting the Load Box Test. This test shall be performed at the same time of day as the time(s) of highest cow contact voltage found in the forty-eight (48) hour test. During this test, voltage and current shall be measured and recorded at the points indicated in Figure 6. ()

a. The load box test requires the recording of eight (8) data points during each of the five (5) test steps. The eight (8) data points that shall be measured or calculated and recorded for each step are: ()

i. Primary line to neutral voltage, V_{pri} . ()

ii. Load Box Current, I_{lb} . ()

iii. Voltage at load box connection to secondary system, V_{lb} . ()

iv. Calculate transformer current I_p using $I_p = \frac{I_{lb} \times V_{lb}}{V_{pri}}$. ()

v. Voltage from primary neutral at the transformer to remote reference ground rod, V_p . ()

vi. Voltage from secondary neutral in the service panel serving the area of the cow contact to remote reference ground rod, V_s . ()

vii. Voltage from primary neutral at the transformer to secondary neutral at the service panel serving the area of cow contact, V_{ps} . ()

viii. Cow contact voltage (V_{cc}) or current (I_{cc}) at the same point(s) used in the forty-eight (48) hour test. ()

b. Except for dairies with three (3) phase balanced primary service, the following five (5) test steps shall each be conducted for at least two (2) minutes: ()

i. Step One: The load box shall be de-energized, the dairy shall remain “on,”. ()

ii. Step Two: The load box shall be de-energized, the dairy shut “off,”. ()

iii. Step Three: The load box shall be set to half load, the dairy shut “off,”. ()

iv. Step Four: The load box shall be set to full load, the dairy shut “off,”. ()

v. Step Five: The load box shall be set to full load, the dairy shall be turned “on,”. ()

03. Calculating the K Factor. The K factor is a calculated ratio (V_{cc}/V_s). The K factor should be less than one (1) because V_{cc} (cow contact voltage) should be less than V_s (the dairy ground to reference ground voltage). If the K factor is greater than one (1), then there is contribution to V_{cc} from sources other than V_s . ()

04. Recording the Data. The person conducting this test shall record the location of, and measured

values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 5. ()

078. TEST 6 -- SIGNATURE TEST (RULE 78).

01. Purpose. This test is used to determine the contribution to stray current or voltage of individual pieces of equipment operating on the dairy. The test is best performed when there is minimal farm electrical activity. ()

02. Conducting the Signature Test. During this test, individual pieces of major current drawing equipment shall be started and stopped. The effects of starting, operating, and stopping each piece of equipment shall be measured and recorded for a period of operation of at least fifteen (15) seconds. The person conducting the test shall identify and record the equipment being tested and record the specific times that the equipment was started and stopped. A digitizing data recorder with averaging capability shall be used to measure and record the required electrical data. These measurements shall be taken at the same locations at the dairy where measurements were taken for the purpose of the load box test and forty-eight (48) hour test. ()

- a.** Voltage from primary neutral at the transformer to remote reference ground rod, V_p . ()
- b.** Secondary neutral at the service panel serving the area of cow contact to remote reference ground voltage, V_s . ()
- c.** Primary neutral voltage drop (V_p s) from the location of connection for V_p to secondary neutral voltage at the location of the connection for V_s . ()
- d.** Cow contact voltage (V_{cc}) or current (I_{cc}) at the preselected point. ()

03. Recording the Data. All of the data gathered by the recording equipment during the signature test, including transients shall be downloaded and retained with the records of the investigation. In addition, the steady state data shall be summarized in the investigation report. The recorded data shall be made available to the dairy producer or utility upon request. The location of all test point(s) shall be recorded on the form in Appendix 6. A plot of the voltage versus time may be substituted for the recording of measured values on Appendix 6. ()

079. -- 080. (RESERVED)

ANALYSIS AND REPORTING THE DATA
Rules 81 through 90

081. ANALYZING THE COLLECTED DATA (RULE 81).

01. Cow Contact Points. Examine the data recorded for the forty-eight (48) hour test in Appendix 2 and determine the highest steady state value of cow contact voltage (V_{cc}) or current (I_{cc}). Determine the value of primary neutral to reference voltage (V_p) that was present for the highest cow contact value. Record these values on the data sheet of Appendix 7. These values shall be identified as "test cow contact voltage or current" (V_{cc} 48hr or I_{cc} 48hr) and "primary neutral to reference voltage at time of maximum cow contact voltage or current" (V_p 48hr). The three (3) data sets created from the values are: ()

- a.** The primary to reference ground voltage and the cow contact voltage or current measured during the load box test (Appendix 5) with the farm power "off" and the load box "off" shall be recorded on the data sheet of Appendix 7 as V_p OFF and either V_{cc} OFF or I_{cc} OFF. ()
- b.** The primary to reference ground voltage and the cow contact voltage or current measured with the load box set at one-half (1/2) load shall be recorded on the data sheet of Appendix 7 as V_p HALF LOAD and either V_{cc} HALF LOAD or I_{cc} HALF LOAD. ()
- c.** The primary to reference ground voltage and the cow contact voltage or current measured with the load box at maximum shall be recorded on the data sheet of Appendix 7 as V_p FULL LOAD and ()

either V_{cc} FULL LOAD or I_{cc} FULL LOAD. ()

02. Contributions to Stray Voltage or Current for Single Phase Dairies. The utility contribution to cow contact voltage or current shall be determined using the following formula. Compare the values determined to the preventive action level (PAL).

$$\begin{aligned} &\text{Utility contribution to} \\ &\text{cow contact voltage} = \frac{V_{p48} - V_{pHALF}}{V_{pFULL} - V_{pHALF}} \times (V_{cc FULL} - V_{cc HALF}) + V_{cc HALF} \end{aligned}$$

or

$$\begin{aligned} &\text{Utility contribution to} \\ &\text{cow contact current} = \frac{V_{p48} - V_{pHALF}}{V_{pFULL} - V_{pHALF}} \times (I_{cc FULL} - I_{cc HALF}) + I_{cc HALF} \end{aligned} \quad ()$$

03. Contributions to Stray Voltage or Current for Three Phase Dairies. The utility contribution to cow contact voltage or current for dairies with three (3) phase balanced load service, shall be determined by directly using the results of the load box test results for Step 1 and Step 2 as specified in Paragraph 077.02.b. ()

a. The V_{cc} measured during Step 1 of the load box with the load box “off” and the dairy “on” will be the total V_{cc} . ()

b. The V_{cc} measured during Step 2 of the load box test with the load box “off” and the dairy “off” is the contribution to V_{cc} from the utility, $V_{ccutility}$. ()

c. The contribution to V_{cc} by the dairy is the difference between V_{cc} and $V_{ccutility}$, $V_{ccdairy} = V_{cc} - V_{ccutility}$. ()

082. REPORTING (RULE 82).

Within a reasonable period of time after completion of any tests required to be performed by the utility under these rules, a qualified analyst shall prepare a written report. The report shall include a summary of the tests performed, a copy of the sketch or drawing of the dairy prepared pursuant to Section 072, all of the data or results obtained from the tests, and an analysis of the data or results obtained from the tests. If remediation was required under these rules, the report shall specify the actions taken or to be taken. The utility shall provide a copy of the written report to the dairy producer. ()

083. -- 090. (RESERVED)

REMEDIAL ACTIONS AND COMMISSION PROCEEDINGS
Rules 91 through 999

091. REMEDIATION (RULE 91).

01. Utility System. If the utility is required to conduct remediation, it shall commence such remediation within five (5) business days. The utility shall diligently pursue to completion remedial procedures which shall reduce, and are reasonably likely to sustain, that portion of the stray current or voltage attributable to the utility’s distribution system to a level equal to or less than fifty percent (50%) of the PAL. This may include addressing other off-dairy sources. ()

02. Other Dairies, Farms and Industrial Sites. If a utility’s contribution to stray voltage exceeds fifty percent (50%) of the PAL and the utility determines that another customer is a significant contributing source of stray voltage, the utility shall notify both the dairy and the other customer in writing. ()

092. COMMISSION PROCEEDINGS (RULE 92).

01. Filing with the Commission. All petitions seeking relief under Section 61-805, Idaho Code, shall be filed with the Commission Secretary pursuant to Section 005. Petitions shall conform to IDAPA 31.01.01, Section 053. The petitioner shall file an original and five (5) copies of the petition. ()

093. FIGURES AND APPENDICES (RULE 93)

All figures and appendices to these rules can be found on the Commission website at www.puc.idaho.gov. ()

012. PRESERVATION OF RECORDS.

Records of a purchasing authority, which are created or held pursuant to these rules, may be kept in such format as prescribed by the purchasing authority responsible for record retention; and otherwise in accordance with record preservation and retention policies established by the agency designated by the legislature for such purpose. ()

013. -- 020. (RESERVED)

021. DELEGATION OF AUTHORITY OF ADMINISTRATOR.

The division's purchases on behalf of another agency are as the agent for such agency. The division administers the acquisition of all property for agencies except those specifically exempted from the state procurement act, title 67, chapter 92, Idaho Code. The administrator may delegate in writing such authority to division employees, an agency or employees of an agency. Such delegations remain in effect unless modified or until revoked in writing. All delegations must be given in writing prior to the acquisition of the property. Designees shall make purchases according to these purchasing rules, the policies developed by the division, and the conditions established by the administrator in the delegation. Delegations are subject to periodic reporting and review as directed by the administrator. ()

01. Manner of Submission. Request for delegated purchasing authority must be submitted in writing, on a form and in a manner established by the administrator. ()

02. Policy. The administrator's delegated purchasing authority policy is applicable to all designees; and may place additional conditions on the agency or individual delegated authority. ()

03. Failure to Comply. A designee's failure to comply with the policy, the conditions included in the written authorization provided by the administrator, or the instructions of the administrator regarding activities delegated pursuant to this rule may result in immediate rescission of delegated authority, increased monitoring, reduced authority level, additional training, or other action deemed appropriate by the administrator. ()

022. -- 033. (RESERVED)

034. PUBLIC NOTICE.

Notice of informal and formal solicitations are posted electronically unless the administrator exempts the acquisition from e-procurement. Notice of sole source acquisitions are posted electronically, and otherwise in accordance with Section 67-9221, Idaho Code. ()

035. -- 040. (RESERVED)

041. ACQUISITION PROCEDURES.

Except as otherwise provided in statute or these rules, the acquisition of property shall be by competitive solicitation. Acquisition requirements shall not be artificially divided to avoid bid statutes, rules, or policies. The procedure followed for acquisitions shall be as follows: ()

01. Small Purchases. ()

a. Acquisitions of the following property are small purchases: ()

i. Services with a total cost less than twenty-five thousand dollars (\$25,000) ()

ii. Software, regardless of the delivery method (e.g. on-premise, cloud, software as a service, etc.), with a total cost less than fifteen thousand dollars (\$15,000); ()

iii. Property, excluding services, with a total cost less than fifteen thousand dollars (\$15,000); ()

iv. A mix of property including services and other property, with a total cost less than fifteen thousand dollars (\$15,000). ()

b. Small purchases do not require acquisition through competitive solicitation. Agencies must comply with the division's small purchase policy. Property available under single agency or open contracts shall be purchased under such contracts and are not a small purchase under this rule unless otherwise authorized by the administrator. ()

02. Informal Purchases. ()

a. Acquisition of property with a total cost exceeding the dollar limits established in this rule for a small purchase and less than the formal sealed procedure limit are informal purchases. ()

b. Informal purchases may be made using: ()

i. An informal solicitation issued through e-procurement, unless exempted by the administrator; or ()

ii. The formal sealed procedure, when the purchasing authority makes a written determination that using a formal solicitation is in the best interest of the state, including where selection based solely on cost is not appropriate. ()

c. Agencies procuring property under this rule shall maintain a purchasing file containing: ()

i. The informal or formal solicitation document posted and quotes received. If the acquisition was not publicly posted, the agency shall include a statement describing the justification for determining that posting was impractical or impossible, along with the administrator's authorization. ()

ii. If not using e-procurement, the agency shall document the quotes received (or its attempt to obtain quotes) from at least three (3) vendors having a significant Idaho economic presence as defined in Section 67-2349, Idaho Code. ()

03. Formal Sealed Procedure. ()

a. The sealed procedure limit is one hundred fifty thousand dollars (\$150,000). ()

b. Purchases of property in excess of the sealed procedure limit are made using the formal sealed procedure, unless exempted by these rules or the administrator. ()

042. EXCEPTIONS TO COMPETITION REQUIRING ADMINISTRATOR APPROVAL.

The administrator may exempt the following purchases from the requirement for competitive solicitation by issuing a written determination to the purchasing authority. ()

01. Emergency Purchases. An emergency purchase is a purchase required to address an emergency condition, which is a situation that creates a threat to public health, welfare, or safety, such as may arise from floods, epidemics, riots, equipment failure, or similar circumstances. The existence of such condition must create an immediate and serious need for property that cannot be met through normal acquisition methods. The buyer must send a written explanation stating the emergency condition and the basis for the supplier selection, if applicable, to the administrator for review and written approval that the purchase be undertaken as an emergency purchase. Emergency purchases are limited to only that property required to address the emergency. The director or administrator may delegate authority in writing to an agency or purchasing authority to make emergency purchases and may impose conditions in the delegation. ()

02. Sole Source Purchases. Sole source purchases are authorized only if the required property is reasonably available from a single supplier. A requirement for a proprietary property does not justify a sole source purchase if there is more than one (1) potential supplier that can provide the required property. In cases of reasonable doubt, competition should be solicited. The buyer must send a written request to the administrator justifying the purchase and the basis to conclude that no other supplier is reasonably available. Sole source purchases require written approval of the administrator. The administrator may condition an approval. ()

03. Rehabilitation Agency Acquisitions. Acquisitions of property that is provided by non-profit corporations and public agencies operating rehabilitation facilities serving the handicapped and disadvantaged and that is offered for sale at fair market price as determined by the administrator in accordance with these rules. The buyer must submit a written request to the administrator to purchase from a rehabilitation agency and a written approval from the administrator. The purchase must comply with the division's policy for rehabilitation agency acquisitions. ()

04. Purchases from General Services Administration Federal Supply Contractors. Acquisitions of property may be made from General Services Administration federal supply contractors without the use of competitive bid upon written approval of the administrator. The administrator shall determine whether the price and terms and conditions of acquisition is advantageous to the state. The administrator shall commemorate the determination in a written statement that shall be incorporated in the applicable file. ()

05. Exempt Purchases. The administrator may, by written policy, exempt from the formal sealed procedure or the requirement for competitive solicitation that property for which bidding is impractical, disadvantageous or unreasonable under the circumstances. ()

a. Examples include: ()

i. Special market conditions; ()

ii. Property requiring special contracting procedures due to uniqueness; ()

iii. Legal advertising, publication or placement of advertisements by state agency personnel directly

with media sources; ()

iv. Property for which competitive solicitation procedures are impractical; ()

v. Used property; ()

vi. Ongoing maintenance, upgrades, support or additional licenses for software or other information technology solutions, including a change in the manner of solution delivery; which software or solution was originally acquired in compliance with the purchasing laws in effect at the time of acquisition; or ()

vii. Acquisition of property for direct resale. ()

b. Such policy shall describe the property exempted, the duration of the exemption, and any other requirements or circumstances appropriate to the situation. ()

043. EXCEPTIONS TO COMPETITION NOT REQUIRING APPROVAL.

Unless the administrator makes a written determination to the contrary, property meeting the following criteria need not be purchased by competitive solicitation. ()

01. Reverse Auction. Purchases through reverse public auctions as authorized by Section 67-9221, Idaho Code. ()

02. Federal Government Acquisitions. Acquisitions from the United State of America or any agency thereof. ()

03. Public Agency Acquisitions. Acquisitions from other public agencies as defined in Section 67-2327, Idaho Code, and authorized by Section 67-2332, Idaho Code. ()

04. Idaho Correctional Industries. Purchases of property marketed directly by Idaho Correctional Industries in accordance with Section 20-245, Idaho Code. ()

05. Open Contracts. Except as provided in these rules or exempted by the administrator, property available under existing open contracts shall be purchased under such contracts in accordance with the provisions or requirements for use thereof. ()

06. Professional or Consultant Services. The acquisition of professional or consultant services for one-time projects costing less than the sealed procedure limit and lasting less than one (1) year in duration. ()

07. Small Purchases. The acquisition of property meeting the criteria in sub-section 041.01 of these rules; provided, however, that acquisitions cannot be artificially divided to meet the small purchase criteria. ()

044. -- 050. (RESERVED)

051. CONTENT OF FORMAL SOLICITATIONS.

The following shall be included in formal solicitations: ()

01. Submission Information. Information regarding the applicable closing date, time and location. ()

03. Contract Terms. Terms and conditions applicable to the contract, subject to the provisions of Section 112 of these rules. ()

04. Evaluation and Award Criteria. Any evaluation criteria to be used to determine property

acceptability and identification of the lowest responsive and responsible offer. For an ITN, also a summary of evaluation criteria to classify proposals and determine the competitive threshold for negotiations. ()

052. CHANGES TO FORMAL SOLICITATIONS.

A formal solicitation may be changed by the buyer through issuance of an amendment, provided the change is issued in writing prior to the formal solicitation closing date and is made available to all vendors receiving the original formal solicitation. Any material information given or provided to a prospective vendor with regard to a formal solicitation shall be made available in writing by the buyer to all vendors receiving the original formal solicitation. Oral interpretations of specifications or contract terms and conditions shall not be binding on the state unless confirmed in writing by the buyer prior to the date of the closing. Changes to the formal solicitation shall be identified as such and shall require that the vendor acknowledge receipt of all amendments issued. The right is reserved to waive any informality. ()

053. -- 060. (RESERVED)

061. FORM OF SUBMISSION FOR FORMAL SOLICITATIONS.

01. Manual Submissions. Unless otherwise provided in these rules and in addition to any specific requirements set forth in the formal solicitation, bids or proposals submitted manually must be made on the form provided, which form must be properly completed and contain a signature to receive consideration. All changes or erasures on manual submissions shall be initialed in ink. Unsigned or improperly submitted bids or proposals will be rejected. The purchasing authority assumes no responsibility for failure of the United States Postal Service, any private or public delivery service, or any computer or other equipment to deliver all or a portion of the bid or proposal at the time or to the location required by the formal solicitation. ()

02. Electronic Submissions. Unless otherwise provided in these rules and in addition to any specific requirements set forth in the formal solicitation, bids or proposals submitted electronically must be submitted in accordance with and meet all applicable requirements of these rules and contain a signature. Submission of a bid or proposal through e-procurement shall constitute a signature. The purchasing authority assumes no responsibility for failure of any electronic submission process, including any computer or other equipment to deliver all or a portion of the bid or proposal at the time or to the location required by the formal solicitation. ()

062. -- 069. (RESERVED)

070. PRE-PROPOSAL CONFERENCE.

A pre-proposal conference for vendors must be conducted by the purchasing authority for all RFPs and ITNs. The purchasing authority may provide an opportunity for a verbal question and answer period, however, only written questions and answers posted through e-procurement as an amendment to the formal solicitation, have force or effect in the procurement. ()

071. PRE-OPENING WITHDRAWAL OR MODIFICATION.

Bids or proposals submitted manually may be withdrawn or modified prior to closing of the formal solicitation only as follows. ()

01. By written communication containing a signature. ()

02. In person upon presentation of satisfactory evidence establishing the individual's authority to act on

behalf of the submitting vendor. ()

03. Any withdrawing or modifying communication, must clearly identify the formal solicitation and should be worded so as not to reveal the amount of the original bid or proposal. ()

072. LATE BIDS/PROPOSALS, LATE WITHDRAWALS AND LATE MODIFICATIONS.

Any bid or proposal, withdrawal, or modification received after the time and date set for closing at the place designated in the formal solicitation is late. No late bid or proposal, late modification or late withdrawal will be considered. All late bids and proposals, will be returned to the submitting vendor. Time of receipt will be determined by the official time stamp or receipt mechanism located at the designated place for receipt of responses. ()

073. RECEIPT, OPENING, AND RECORDING OF BIDS AND PROPOSALS.

Upon receipt, all bids, proposals, and modifications properly marked and identified are time stamped, but not opened. They shall be stored in a secure place until the time specified for opening. Time stamping and storage may be through electronic means. Bids and proposals shall be opened publicly at the date and time specified in the formal solicitation. Opening of proposals shall identify only the names of the offerors unless otherwise stated in the formal solicitation. Bid and proposal openings may be electronic virtual openings. When no manual bids or proposals are received, retaining the e-procurement audit record shall be opening in public view under section 67-9209, Idaho Code. ()

074. MISTAKES.

The following procedures are established relative to claims of a mistake. ()

01. Mistakes in Submission. If a mistake is attributable to an error in judgment, the submission may not be corrected. Correction or withdrawal by reason of an inadvertent, nonjudgmental mistake is permissible, but at the discretion of the administrator and to the extent it is not contrary to the interest of the state or the fair treatment of other submitting vendors. ()

02. Mistakes Discovered Before Opening. Mistakes discovered by a vendor prior to closing may be corrected by such vendor by submitting a timely modification or withdrawing the original submission and submitting a corrected submission to the purchasing authority before the closing. Vendors who discover a mistake after closing, but prior to opening, may withdraw the submission by a written notification containing a signature to the purchasing authority if such notification is received by the purchasing authority prior to opening. ()

03. Mistakes Discovered After Opening But Before Award. This subsection sets forth procedures to be applied in three (3) situations described below in which mistakes are discovered after opening but before award. ()

a. Minor Informalities. Minor informalities are matters of form rather than substance evident from the bid or proposal document, or insignificant mistakes that can be waived or corrected without prejudice to other submitting vendors, that is, the effect of the mistake on price, quantity, quality, delivery or contractual conditions is not significant. The buyer may waive such informalities. Examples include the failure of a submitting vendor to: ()

i. Return the required number of signed submissions. ()

ii. Provide a signature, but only if it is clear from the submission that the submitting vendor intended to be bound by its terms. ()

iii. Acknowledge the receipt of an amendment, but only if: ()

(1) It is clear from the submission that the submitting vendor received the amendment and intended to be bound by its terms; or ()

(2) The amendment involved had a negligible effect on price, quantity, quality or delivery. ()

b. Mistakes Where Intended Submission is Evident. If the mistake and the intended submission are clearly evident on the face of the document, the submission shall be corrected to the intended submission and may not

be withdrawn. Examples of mistakes that may be clearly evident on the face of the document are typographical errors, errors in extending unit prices (unit prices will always govern in event of conflict with extension), transposition errors and arithmetical errors. ()

c. Mistakes Where Intended Submission is not Evident. A vendor may be permitted to withdraw a low bid if: ()

i. A mistake is clearly evident on the face of the submission document but the intended submission is not similarly evident; or ()

ii. The vendor submits timely proof of evidentiary value that clearly and convincingly demonstrates that a mistake was made. ()

04. Mistakes Discovered After Award. Mistakes shall not be corrected after award of the contract. ()

05. Written Approval or Denial Required. In the event of a mistake discovered after the opening date, the administrator shall approve or deny, in writing, a request to correct or withdraw a submission. ()

075. -- 080. (RESERVED)

081. EVALUATION AND AWARD.

01. General. The contract is to be awarded to the lowest responsible and responsive bidder or offeror (or for requests for quotes, vendor submitting a quote). The formal or informal solicitation shall set forth the requirements and criteria that will be used to make the lowest responsive and responsible determination. ()

02. Qualification. All vendors submitting responses to informal or formal solicitations issued by the state must be qualified. All vendors are qualified unless disqualified as defined by Section 67-9217, Idaho Code. ()

03. Responsibility. ()

a. Nothing herein shall prevent the buyer from establishing additional responsibility standards for a particular purchase. Factors to be considered in determining whether a vendor is responsible include, whether the vendor has: ()

i. Available the appropriate financial, material, equipment, facility and personnel resources and expertise, or the ability to obtain them, necessary to indicate capability to meet all contractual requirements; ()

ii. A satisfactory record of integrity; ()

iii. Qualified legally to contract with the purchasing authority and qualified to do business in the state of Idaho; ()

iv. Unreasonably failed to supply any necessary information in connection with the inquiry concerning responsibility; ()

v. Requisite experience; or ()

vi. A satisfactory prior performance record, if applicable. ()

b. **Information Pertaining to Responsibility.** A submitting vendor shall supply information requested by the buyer concerning its responsibility. If such submitting vendor fails to supply the requested information, the buyer shall base the determination of responsibility upon any available information or may find the submitting vendor nonresponsible if such failure is unreasonable. ()

c. Written Determination of Nonresponsibility Required. If a submitting vendor that otherwise would have been awarded a contract is found nonresponsible, a written determination of nonresponsibility setting forth the basis of the finding shall be prepared by the buyer. ()

04. Extension of Time for Acceptance. After opening, the buyer may request submitting vendors to extend the time during which their bids or proposals may be accepted. The reasons for requesting such extension shall be documented. ()

05. Partial Award. A buyer shall have the discretion to award on an all or nothing basis or to accept any portion of a response to a formal or informal solicitation, excluding other portions of a response and other offers, unless the vendor stipulates all or nothing in its submission. ()

082. TIE RESPONSES.

01. Tie Responses -- Definition. Tie responses are low responsive bids, proposals or quotes from responsible bidders or offerors (or for requests for quotes, from vendors submitting a quote) that are identical in price or score. Responsibility is determined based upon the standards of responsibility set forth in Section 081 of these rules. ()

02. Award. Award shall not be made by drawing lots, except as set forth below, or by dividing business among tie responses. In the discretion of the buyer, award shall be made in any permissible manner that will resolve tie responses. Procedures that may be used to resolve tie responses include: ()

a. If price is considered excessive or for another reason such responses are unsatisfactory, reject all responses, resolicit and seek a more favorable contract in the open market or enter into negotiations pursuant to Section 084 of these rules; ()

b. Award to an Idaho resident or an Idaho domiciled vendor or for Idaho produced property where other tie response(s) are from out of state or to a vendor submitting a domestic property where other tie responses are for foreign (external to Idaho) manufactured or supplied property; ()

c. Award to the vendor with the earliest delivery date. ()

03. Drawing Lots. If no permissible method will be effective in resolving tie responses and a written determination is made so stating, award may be made by drawing lots or tossing a coin in the presence of witnesses if there are only two (2) tie responses. ()

083. PROPOSAL DISCUSSION WITH INDIVIDUAL OFFERORS.

01. Use of Discussions. Discussions may be used in any type of formal solicitation when the solicitation provides for the possibility of discussions and the buyer determines that clarifications or revisions are required to achieve adequate competition. ()

02. Classifying Proposals. For the purpose of conducting proposal discussions under this rule, proposals shall be initially classified as: ()

a. Acceptable; ()

b. Potentially acceptable if clarified or amended under this rule; or ()

c. Unacceptable. ()

03. Conduct of Discussions.

a. The buyer may conduct discussions under this rule with offerors whose proposals are classified as acceptable or potentially acceptable. ()

b. The buyer may clarify any portion of a proposal with an offeror where the clarification does not materially alter the proposal. ()

c. The buyer may conduct discussions with offerors to determine potential revisions to proposals or the formal solicitation. Offerors shall be accorded faith and equal treatment with respect to any opportunity for discussions and revisions of proposals. Auction techniques (revealing one offeror's price to another) and disclosure of any information derived from competing proposals are prohibited. Any oral clarification or change of a proposal shall be reduced to writing and signed by the offeror. ()

d. If the buyer determines material changes to a formal solicitation or a proposal are necessary, the buyer shall establish a common time and date for submission of best and final offers. The buyer may conduct multiple rounds of best and final offers. If an offeror does not submit a notice of withdrawal or a best and final offer, the offeror's immediate previous offer is the offeror's best and final offer. ()

084. NEGOTIATIONS.

In accordance with Section 67-9205(12), Idaho Code, the administrator may negotiate acquisitions as follows: ()

01. Use of Negotiations. Negotiations may be used under these rules when the administrator determines in writing that negotiations may be in the best interest of the state including the following circumstances: ()

a. Negotiations undertaken pursuant to an ITN, in accordance with the provisions of Section 094 of these rules. ()

b. A competitive solicitation has been unsuccessful for reasons including that all offers are unreasonable, noncompetitive, or exceed available funds and the available time and circumstances do not permit the delay required for resolicitation; ()

c. There has been inadequate competition; ()

d. During the evaluation process it is determined that negotiations could secure advantageous terms or a reduced cost for the state; or ()

e. During the evaluation process it is determined that all responsive offers exceed available funds and negotiations could modify the requirements of the formal solicitation to reduce the cost to available funds and avoid the extended time and expenditure of resources for a resolicitation. ()

02. Conditions of Use. Negotiations, as permitted by Subsection 084.01.d., are subject to the following: ()

a. The formal solicitation must specifically allow for the possibility of negotiation and describe, with as much specificity as possible, how negotiations may be conducted; ()

b. Submissions shall be evaluated and ranked based on the evaluation criteria in the formal solicitation; ()

c. Only those vendors whose proposals or bids are determined to be acceptable, in accordance with criteria for negotiations set forth in the formal solicitation, shall be candidates for negotiations; ()

d. Negotiations shall be conducted first with the vendor that is the apparent low responsive and responsible bidder, unless concurrent negotiations are permissible, in accordance with the terms of the solicitation; ()

e. If one (1) or more responsive offers does not exceed available funds, negotiations shall be against the requirements of and criteria contained in the formal solicitation and shall not materially alter those criteria or the specifications; ()

f. Auction techniques (revealing one vendor's price to another) and disclosure of information derived from competing proposals is prohibited; ()

g. Any clarifications or changes resulting from negotiations shall be documented in writing; ()

h. If the parties to negotiations are unable to agree, the administrator shall formally terminate negotiations and may undertake negotiations with the next ranked vendor; and ()

i. If negotiations as provided for in this rule fail to result in a contract, as determined by the administrator, the formal solicitation may be canceled and the administrator may negotiate in the best interest of the state with any qualified vendor. ()

03. Timing of Use. If conducted as part of a small purchase or under the formal sealed procedure, negotiations are the last step in the procurement process. Use of oral interviews or best and final procedures, as provided for in a formal solicitation, must precede negotiations as provided for in this rule, unless the administrator makes a written determination that it is in the state's best interest to proceed directly to negotiations in lieu of first conducting oral interviews and the best and final procedures. ()

04. Termination of Negotiations. The purchasing authority may terminate negotiations at any time, in the best interest of the state. ()

085. PRICE AGREEMENTS.

The administrator may authorize and negotiate price agreements with vendors when such agreements are deemed in the best interest of the state. Price agreements shall provide for termination for any reason upon not more than thirty (30) days' written notice. Price agreements may be in the best interest of the state when: ()

01. Dollar Value. The dollar value of individual procurements of property is less than the maximum dollar value of an exempt small purchase under Section 044 of these rules and multiple individual procurements are anticipated within a state of Idaho fiscal year; ()

02. Property. The property may not be conducive to standard competitive bidding procedures; ()

03. Multiple Agreements. There exists a need to establish multiple agreements with vendors supplying property that is similar in nature or function but is represented by different manufacturers or needed in multiple locations; or ()

04. Non-exclusive Agreements. Non-exclusive agreements for periods not exceeding two (2) years are deemed necessary to establish consistent general business terms, including without limitation, price, use of catalogs, delivery or credit terms. ()

086. -- 090. (RESERVED)

091. ACCEPTANCE OR REJECTION OF BIDS AND PROPOSALS.

Prior to the issuance of a contract, the administrator shall have the right to accept or reject all or any part of a bid or proposal or any and all bids or proposals when: ()

01. Best Interest. It is in the best interests of the state of Idaho; ()

02. Does Not Meet Specifications. The submission does not meet the minimum specifications; ()

03. Not Lowest Responsible Bid. The submission is not the lowest responsible submission; ()

04. Bidder Is Not Responsible. A finding is made based upon available evidence that a submitting vendor is not responsible or otherwise capable of currently meeting specifications or assurance of ability to fulfill contract performance; or ()

05. Deviations. The item offered deviates to a major degree from the specifications, as determined by ()

the administrator (minor deviations, as determined by the administrator, may be accepted as substantially meeting the requirements of the state of Idaho). Deviations will be considered major when such deviations appear to frustrate the competitive process or provides a submitting vendor an unfair advantage. ()

092. CANCELLATION OF INFORMAL OR FORMAL SOLICITATION.

Prior to the issuance of a contract, the purchasing authority reserves the right to reject all bids, proposals or quotes or to cancel a formal or informal solicitation. In the event a formal or informal solicitation is cancelled, all submitting vendors will be notified. Examples of reasons for cancellation are identification of inadequate or ambiguous specifications, unexpected circumstances that require revised specifications, or determination that cancellation is in the best interest of the state. ()

093. NOTICE OF REJECTION.

Bidders or offerors whose bids or proposals are rejected as non-responsive will be notified in writing of the reasons for such rejection. ()

094. COMPETITIVE NEGOTIATIONS.

Notwithstanding the provisions of Section 041 of these rules applicable to the formal sealed procedure, the administrator may authorize the use of competitive negotiations when it is determined that the use of negotiations may enable the state to more effectively identify and refine potential solutions, especially where the business need is complex or requires innovation. ()

01. Written Authorization. A competitive negotiation may only be used when a determination has been made that another type of formal solicitation would not be in the best interest of the state. Only the division may use competitive negotiation unless the administrator provides written authorization to a purchasing authority. ()

02. Form of Solicitation. Proposals under this rule shall be solicited pursuant to an ITN. ()

03. Applicability of Other Rules. An ITN shall be subject to the rules applicable to a request for proposals, except as otherwise provided. Modifications under Section 072 of these rules will be allowed after closing to the extent authorized within the ITN. Section 083 of these rules, proposal discussion with individual offerors, shall not apply to an ITN, except as specifically provided in the ITN. ()

04. Cost Proposals. The buyer may request cost proposals at any time during the ITN process; and may elect to request cost proposals only from those offerors determined to be in the competitive range for award ("finalists"), in accordance with the instructions contained within the ITN. ()

05. Conduct of Negotiations. Negotiations shall be conducted in accordance with the procedure outlined in the ITN, which may include multiple iterations of submissions and discussions in order to classify proposals; to allow for revisions to the solicitation proposal(s), including any requirements, terms, conditions or specifications; and to determine finalists. The negotiation process ends upon submission of the best and final offer(s) from the finalists, after which time vendors shall not be allowed to make further modifications to their proposal(s). ()

095. -- 100. (RESERVED)

101. LEASES.

01. Lease for Personal Property. A lease for personal property may be entered into provided the lease is subject to the same requirements of competition that govern the purchase of property. Leases for periods exceeding one (1) year specifically require the approval of the administrator. ()

02. Lease Purchase Option. Unless a specific exemption is granted by the administrator or unless otherwise exempt by these rules, a lease purchase option may be exercised only if the lease containing the purchase option was awarded using the competitive process. Before exercising such an option, the buyer shall meet all applicable requirements of Section 67-9222, Idaho Code, including providing notice of the exercise of option as a sole source or competitively bidding the property by soliciting bids for new or used property. ()

102. -- 110. (RESERVED)

111. SPECIFICATIONS -- POLICIES AND DEVELOPMENT.

01. Purpose. Unless exempted by these rules or by the administrator, all informal and formal solicitations require specifications. Specifications set forth the characteristics of the property to be acquired. Specifications serve as the basis for obtaining property adequate and suitable for the using agency's needs in a cost effective manner, taking into account the costs of ownership and operation as well as initial acquisition costs. Specifications shall be drafted clearly to describe the agency's needs and to enable the vendors to determine and understand the agency's requirements. Specifications shall, as much as practical, be nonrestrictive to provide an equal basis for participation by an optimum number of vendors and to encourage competition. This information may be in the form of a description of the physical, functional or performance characteristics, a reference brand name or both. It may include a description of any required inspection, testing or preparation or delivery. Specifications may be incorporated by reference or contained in an attachment. ()

02. Use of Functional or Performance Descriptions. Specifications shall, to the extent practicable, emphasize functional or performance criteria while limiting design or other detailed physical descriptions to those necessary to meet the needs of the agency. To facilitate the use of such criteria, using agencies shall endeavor to include as a part of purchase requisitions their principal functional or performance needs. ()

03. Preference for Commercially Available Property. Requirements shall be satisfied by standard commercial property whenever practicable. ()

04. Brand Name or Equal Specification. ()

a. A brand name or equal specifications may be used when the buyer determines that such a specification is in the agency's best interest. ()

b. A brand name or equal specification shall seek to designate as many different brands as are practicable as "or equal" and shall state that property substantially equivalent to those designated will be considered for award. ()

c. Unless the buyer authorized to finally approve specifications determines that the essential characteristics of the brand names included in the specifications are commonly known in the industry or trade, brand name or equal specifications shall include a description of the particular design and functional or performance characteristics required. ()

d. Where a brand name or equal specification is used, the document shall contain explanatory language that the use of a brand name is for the purpose of designating the standard of quality, performance, and characteristics desired and is not intended to restrict competition. ()

05. Brand Name Specification. ()

a. Since use of a brand name specification is restrictive, such a specification may only be used when the administrator or designee makes a written determination. Such determination may be in any form, such as a purchase evaluation or a statement of single manufacturer justification. The written statement must state specific reasons for use of the brand name specification. ()

b. The administrator shall seek to identify sources from which the designated brand name property can be obtained and shall solicit such sources to achieve whatever degree of competition is practicable. If only one (1) source can supply the requirement, the acquisition shall be made under Section 67-9221, Idaho Code. ()

06. Specification of Alternates May Be Included. A specification may provide alternate descriptions of property where two (2) or more design, functional or performance criteria will satisfactorily meet the agency's requirements. ()

112. CONTRACT TERMS - POLICIES AND LIMITATIONS.

01. Prohibited Terms. Purchasing authorities do not have the authority to bind the state of Idaho or an agency to the following terms. If a contract contains such a term, the term shall be void pursuant to Section 67-9213, Idaho Code. ()

a. Terms waiving the sovereign immunity of the state of Idaho. ()

b. Terms subjecting the state of Idaho or its agencies to the jurisdiction of the courts of other states. ()

c. Terms limiting the time in which the state of Idaho or its agencies may bring a legal claim under the contract to a period shorter than that provided in Idaho law. ()

d. Terms imposing a payment obligation, including a rate of interest for late payments, less favorable than the obligations set forth in Section 67-2302, Idaho Code. ()

02. Terms Requiring Special Consideration. ()

a. Unless specifically authorized by the Idaho legislature, terms requiring an agency or the state of Idaho indemnify a vendor shall be subject to the provisions of Section 59-1015, Idaho Code, and require an appropriation by the Idaho legislature. Indemnification terms not specifically authorized by the Idaho legislature or subject to appropriation shall be void pursuant to Section 67-9213, Idaho Code, and Section 59-1016, Idaho Code. ()

b. Purchasing authorities shall consult with legal counsel prior to accepting terms submitting the contract to arbitration or waiving the state of Idaho's right to a jury trial. ()

113. CONTRACT OVERSIGHT.

01. Contract Management and Contract Administration. ()

a. Agencies which issue their own contracts pursuant to their delegated authority (or as otherwise exempt from the requirements of these rules) will be responsible for all aspects of contract management and contract administration, as those terms are defined in Section 011 of these rules. ()

b. When the division issues a contract on behalf of an agency, in its role as the state's contracting agent, the division is responsible for contract administration and the agency is responsible for contract management. ()

02. Contract Management. Each state agency which manages one (1) or more contracts, whether entered into directly by the agency or by the division acting as the statutory purchasing agency for the agency, will perform the following minimum contract management functions at a level consistent with the dollar value, complexity, and risk associated with each contract ()

a. Designate a competent contract manager as the single point of contact for each agency contract; ()

b. Document the contract manager's responsibilities and reporting requirements relative to the contract, including activities such as management of the invoice and payment process, budget tracking, and invoice review and reconciliation with contract requirements and deliverables, to ensure compliance; ()

c. Document a communication and escalation plan, as between the contract manager, identified agency personnel and the contract administrator, designed to ensure timely and effective contract monitoring and issue resolution (the communication and escalation plan must include the division of purchasing for contracts for which the division of purchasing is acting as the statutory purchasing agent for the agency); ()

d. Develop and implement internal contract monitoring tools, including a reporting structure, based

on the dollar value and/or potential risk associated with contract failure; and ()

e. Close out each contract, including, documenting receipt of goods or services in compliance with contract requirements and reviewing vendor performance and lessons learned. ()

03. Service Contracts Exceeding \$1,500,000 in Total Value. For each contract which is valued at more than one million five hundred thousand dollars (\$1,500,000) over the duration of the contract and which consists primarily of the purchases of services, the agency responsible for contract management must develop and implement contract reporting requirements that capture, at a minimum, information on compliance with financial provisions and delivery schedules; the status of any corrective action plans; as well as any liquidated damages assessed or collected under the contract during the current reporting period. Reports will be submitted to the designated agency purchasing representative as well as the division on no less than a biannual basis, with a schedule for each contract determined by the contract manager in consultation with the agency purchasing representative and the division. ()

114. INFORMATION TECHNOLOGY RESALE.

01. Purpose. The use of resellers is common in the acquisition of information technology; however, the use of a reseller to acquire information technology attempts to separate the application of the State Procurement Act from the contract terms required by the information technology owner for use of the information technology. The requirements of this rule are in place to apply Idaho law to the contract terms required by the information technology owner, when information technology is acquired through a reseller. ()

02. Terms. All license, sale, or use terms imposed by the information technology owner shall be subject to the following: ()

a. Licensing, sale, or use terms required by a third party owner of information technology sold through a reseller shall be subject to these rules, specifically including Subsection 112.01 and Paragraph 112.02.a. of these rules. If a contract contains a term prohibited by Section 112 of these rules, the term shall be void pursuant to Section 67-9213, Idaho Code. ()

115. -- 199. (RESERVED)
