000. LEGAL AUTHORITY.

Under authority vested in the Board of Health and Welfare by Title 39, Chapter 46, Section 39-4605 and by Title 66, Chapter 3, Section 66-317(g), Idaho Code, the following rules and regulations are hereby adopted for semi-independent group residential facilities in the state of Idaho. (12-31-91)

These regulations contain the standards for semi-independent group residential facilities for the developmentally disabled or mentally ill. These rules are to be known as Idaho Department of Health and Welfare Rules, IDAPA 16, Title 03, Chapter 15, "Rules and Minimum Standards for Semi-Independent Group Residential Facilities for the Developmentally Disabled or Mentally Ill." 002. POLICY.

It is the policy of the Department of Health and Welfare to facilitate a continuum of community residential care for the developmentally disabled or mentally ill resident. Semi-independent group residential facilities provide services to persons who in the aggregate are able to care for themselves and who possess sufficient community living skills to adequately function in a homelike, noninstitutional setting providing maximum opportunity to learn the skills necessary for more independent living. The major focus of the facility is to create an environment that encourages self-management and self-support abilities and at the same time develop a sense of mutual responsibility among residents for their own and their peers' welfare. The goals for developing semi-independent group residential facilities are to allow individuals to remain within the community in a family-style setting and to avoid unnecessarily entering a higher level of care.
