01. Appraisals. A real estate appraisal is required for all real property to be acquired with recreational program grant funds. All appraisals shall be prepared according to department procedures. The appraisal shall be paid

for by the applicant, but may be included as part of eligible project costs. The selection of the appraiser shall be approved by the department. (7-1-99)

02. Appraisal Review. The department shall review appraisals as necessary. Any appraisal report which does not meet content requirements or use correct analysis procedures shall be corrected to the satisfaction of the department. All costs shall be covered by the applicant. (7-1-99)

03. Negotiated Price. An approved appraisal is an acceptable estimate of property value. The negotiation between a willing seller and a willing buyer may set a price which is higher than the appraisal, and this value can be considered along with the appraised value in establishing the reasonable limits of assistance. If the applicant believes the negotiating price is a better indication of market value, yet is higher than the appraised value, a detailed statement of this difference shall be submitted to the department. (7-1-99)

04. Adequate Title And Public Access. The applicant shall have clear title to, or adequate control and tenure of, the real property (land, land improvement, structures, and appurtenances) to be developed. The term "adequate control and tenure" of real property means a lease or an easement that provides the applicant sufficient control over the real property to permit the proposed development and use for a period of at least twenty-five (25) years from the date of application, unless specifically approved in writing by the appropriate recreational program manager for a shorter term. The applicant shall list all outstanding rights or interests held by others in the real property to be developed. If access to the real property to be developed is over private property, then the applicant shall describe the provisions made to ensure adequate public access. In the event the real property becomes unusable for its intended purposes or if such use ceases, the applicant shall be responsible for conversion of the project as described in Section 350 of this chapter. (7-1-99)

05. Limitations On Use. Property rights obtained with recreational program grant funds shall be free of all reservations or encumbrances which would limit the use of the site disproportionate to the public benefit. (7-1-99)
