**IDAPA 07
TITLE 01
CHAPTER 03**

**07.01.03 - RULES OF ELECTRICAL LICENSING AND REGISTRATION - GENERAL
DIVISION OF BUILDING SAFETY**

000. LEGAL AUTHORITY.

The Idaho Electrical Board is authorized under Section 54-1006(5), Idaho Code, to adopt rules concerning the issuance of electrician licenses and apprentice registrations referred to in Sections 54-1007 and 54-1010, Idaho Code. (2-26-93)

001. TITLE AND SCOPE.

These rules shall be cited as IDAPA 07.01.03, "Rules of Electrical Licensing and Registration - General," Division of Building Safety. These rules include criteria for issuance of electrical licenses and registrations. (2-26-93)

002. WRITTEN INTERPRETATIONS.

This agency has written interpretations of this chapter in the form of legal memoranda. (2-26-93)

003. ADMINISTRATIVE APPEALS.

The Idaho Rules of Administrative Procedure of the Attorney General govern license revocation/suspension meetings. (2-26-93)

004. -- 010. (RESERVED).

011. LICENSE APPLICATION FORMS/APPRENTICE REGISTRATION FORMS.

Application forms for Electrical Contractor, Master Electrician, Journeyman Electrician Licenses, Specialty Electrical Licenses, and registration forms for Apprentice Electricians and Specialty Electrical Trainees shall be printed and made available by the Electrical Bureau of the Division of Building Safety, State of Idaho. (4-5-00)

01. Application Forms. All applications for licenses and all registrations shall be properly completed, giving all pertinent information, and all signatures shall be notarized. (4-5-00)

02. Application Fee. All applications for electrical licenses shall be accompanied by the fifteen dollar (\$15) application fee; apprentice and specialty trainee registration forms shall be accompanied by the ten dollar (\$10) registration fee as provided by Section 54-1014, Idaho Code. (4-5-00)

03. Application Submission. An application for license shall be submitted to the Electrical Bureau and shall be approved by an authorized representative of the Bureau before any examination is given and before any license is issued. (4-5-00)

04. Examination. An applicant for licensure must take the required examination within ninety (90) days of the date of application, or the application shall be considered to be null and void. (4-5-00)

05. License. Following the approval by an authorized representative and the successful completion of the required examination, the applicant must purchase a license prior to engaging in business within the state of Idaho. Applicants who fail to purchase a license within ninety (90) days of the date of successful examination shall be required to reapply for licensure, again obtain the approval of an authorized representative, and re-examine. (4-5-00)

012. APPRENTICE ELECTRICIAN.

01. Requirements for Apprentice Electrician. (5-3-03)

a. A person wishing to become an apprentice electrician register with the Division of Building Safety prior to going to work. Said person shall carry a current registration certificate on his person at all times and shall present it upon request to personnel of the Division of Building Safety for examination. Each apprentice shall re-register prior to each July 31, furnishing proof of completion of a minimum of one hundred forty-four (144) hours of an organized sequence of instruction in technical subjects related to the electrical trade as approved by the Idaho State

Electrical Board and the Idaho State Board for Professional and Technical Education and work experience performed during the previous year with notarized letters from each employer and a certificate of achievement from the vocational institution attended. This requirement shall continue each year until the minimum requirements of Chapter 10, Title 54, Idaho Code, have been fulfilled. Any apprentice failing to register by August 1 of each year shall pay an additional fee of ten dollars (\$10) to revive his registration certificate. Time shall not be credited while the apprentice is inactive or not registered, nor shall time be allowed for any year which is not accompanied by proof of required instruction for that year of apprenticeship. (5-3-03)

b. In order to qualify to take the journeyman electrician examination an apprentice electrician shall be required to work four (4) years, defined as a minimum of eight thousand (8,000) hours of work experience, under the constant on-the-job supervision of a journeyman electrician. That work shall include three (3) categories: (5-3-03)

i. Residential; (5-3-03)

ii. Commercial; and (5-3-03)

iii. Industrial installations. (5-3-03)

c. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category. The requirements of Subsection 012.01.b. shall not apply to a registered apprentice enrolled in an apprenticeship program accredited by the Electrical Bureau. (5-3-03)

d. An apprentice who has completed the required number of instructional hours and has not passed the journeyman's examination within two (2) years of completion of the required instructional training hours shall provide proof of continuation training in order to re-register as an apprentice. For the purposes of Section 012, continuation training is defined as registration in an approved fourth year apprenticeship class. (4-6-05)

e. An apprentice who has not advanced in apprenticeship training for a period of two (2) years shall provide proof of successful completion of continuation training in order to re-register as an apprentice. For purposes of Section 012, continuation training is registration in an approved year of apprenticeship class for which the apprentice is eligible or a repeat of the most recent apprenticeship class attended. (4-6-05)

02. Direct Supervision. It shall be the responsibility of the employing electrical contractor to insure that the apprentice performs electrical work only under the constant on-the-job supervision of a journeyman electrician. Any contractor who employs more than two (2) apprentice electricians for each licensed journeyman electrician employed is presumed to be in violation of the direct supervision requirements of Section 54-1010, Idaho Code, and of the constant on-the-job supervision requirement of Section 54-1003A, Idaho Code. This presumption may be rebutted by a showing by the contractor that special circumstances exist which are peculiar to the work done by that contractor which allows for effective supervision by each journeyman electrician of more than two (2) apprentice electricians. Prior to employing more than two (2) apprentice electricians for each journeyman electrician, a contractor must obtain permission from the Electrical Bureau to do so. Failure to comply with this requirement will be grounds for suspension or revocation of the electrical contractor's license. (4-1-91)

013. JOURNEYMAN ELECTRICIAN.

01. Experience and Education Required. (5-3-03)

a. An applicant for a journeyman electrician license must have worked as an apprentice electrician making electrical installations for four (4) years, defined as a minimum of eight thousand (8,000) hours under the constant on-the-job supervision of a qualified journeyman electrician and meet the minimum vocational educational requirements of the Idaho State Electrical Board and the Idaho State Board for Professional and Technical Education as provided by Section 54-1007, Idaho Code and Subsection 012.01.a. That work shall include three (3) categories: (5-3-03)

i. Residential; (5-3-03)

ii. Commercial; and (5-3-03)

iii. Industrial installations. (5-3-03)

b. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category. The requirements of Subsection 013.01.a. shall not apply to a registered apprentice enrolled in an apprenticeship program accredited by the Electrical Bureau. (5-3-03)

c. An applicant with out-of-state experience from a state that does not have a current reciprocal agreement with Idaho must meet the experience and vocational education requirements as set forth in Subsection 013.01.a. or if the applicant has not completed the vocational education requirement, the applicant may alternately submit verification of twice the amount of experience (eight (8) years defined as a minimum of sixteen thousand (16,000) hours)). That work shall include three (3) categories: (5-3-03)

i. Residential; (5-3-03)

ii. Commercial; and (5-3-03)

iii. Industrial installations. (5-3-03)

d. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category and must have been legally obtained in the state in which the applicant received his or her experience. (5-3-03)

e. An applicant from a state that has a current reciprocal agreement with the state of Idaho may be issued a journeyman electrician license without testing in accordance with Section 54-1007, Idaho Code, upon verification that: (5-3-03)

i. The license is current and active and in good standing; (5-3-03)

ii. The license was obtained by testing from the issuing state; (5-3-03)

iii. The license has been in effect for a minimum of one year; and (5-3-03)

iv. The applicant has not previously taken and failed the Idaho State journeyman electrical examination. (5-3-03)

f. Experience in appliance repairing, motor winding, and communications will not be accepted towards qualification for a journeyman electrician license. (5-3-03)

02. Application and Examination. A qualified journeyman electrician not holding an Idaho state license shall make application for a journeyman electrician license with the Electrical Bureau prior to going to work in the state of Idaho as provided by Section 54-1002(2), Idaho Code. An applicant will be permitted a maximum of thirty (30) days in which to take the examination after making application unless mutual agreements have been made between the applicant and the Electrical Division. (1-14-87)

014. MASTER ELECTRICIAN.

An applicant for a Master Electrician license must have at least four (4) years experience as a licensed journeyman electrician as provided in Section 54-1007, Idaho Code. Any person having these qualifications may make application at any time by remitting to the Electrical Bureau the application fee. Upon approval, the applicant will be notified and may apply to take the next examination. Upon notification of passing the examination, the applicant must remit the required fee for the issuance of a master license. A person holding a current master license shall not be required to hold a journeyman license. (4-6-05)

015. ELECTRICAL CONTRACTOR.

01. Qualifications for Electrical Contractor. (4-7-91)

a. Except as hereinafter provided, any person, partnership, company, firm, association, or corporation

shall be eligible to apply for an electrical contractor license upon the condition that such applicant shall have at least one (1) full-time employee who holds a valid master electrician license or journeyman electrician license issued by the Electrical Bureau, and has held a valid journeyman electrician's license for a period of not less than two (2) years, during which time he was actively employed as a journeyman electrician for a minimum of four thousand (4,000) hours, and who will be responsible for supervision of electrical installations made by said company, firm, association, or corporation as provided by Section 54-1010, Idaho Code. An individual electrical contractor may act as his own supervising journeyman electrician upon the condition that he holds a valid master electrician license or journeyman electrician license issued by the Electrical Bureau, and has held a valid journeyman electrician's license for a period of not less than two (2) years, during which time he was actively employed as a journeyman electrician for a minimum of four thousand (4,000) hours. The supervising journeyman electrician shall be available during working hours to carry out the duties of supervising journeymen, as set forth herein. (4-5-00)

b. Those duties include assuring that all electrical work substantially complies with the National Electrical Code and other electrical installation laws and rules of the state, and that proper electrical safety procedures are followed; assuring that all electrical labels, permits, and licenses required to perform electrical work are used; assuring compliance with correction notices issued by the Bureau; and any person designated under Subsection 015.01.a., and the contractor he represents, shall each notify the Bureau in writing if the supervising journeyman's working relationship with the contractor has been terminated. Each notice must be filed with the Bureau within ten (10) days of the date of termination. If the supervising journeyman's relationship with the contractor is terminated, the contractor's license is void within ninety (90) days unless another supervising journeyman is qualified by the Bureau. (7-27-94)

02. Required Signatures on Application. An application for an electrical contractor license shall be signed by the applicant or by the official representative of the partnership, company, firm, association, or corporation making the application. The application shall be countersigned by the supervising journeyman electrician. (4-1-91)

03. Electrical Contracting Work Defined. An electrical contractor license issued by the Division of Building Safety must be obtained prior to acting or attempting to act as an electrical contractor in Idaho. (4-5-00)

a. Electrical contracting work includes electrical maintenance or repair work, in addition to new electrical installations, unless such work is expressly exempted by Section 54-1016, Idaho Code. (4-5-00)

b. Any person or entity providing or offering to provide electrical contracting services, including, but not limited to, submitting a bid shall be considered as acting or attempting to act as an electrical contractor and shall be required to be licensed. (4-5-00)

c. Any person or entity, not otherwise exempt, who performs or offers to perform electrical contracting work, is acting as an electrical contractor, whether or not any compensation is received. (4-5-00)

04. Previous Revocation. Any applicant for an electrical contractor license who has previously had his electrical contractor license revoked for cause, as provided by Section 54-1009, Idaho Code, shall be considered as unfit and unqualified to receive a new electrical contractor license so long as such cause for revocation is continuing and of such nature that correction can be made by the applicant. (1-14-87)

05. Reviving an Expired License. Any applicant for an electrical contractor license who has allowed his license to expire and seeks to revive it under the provisions of Section 54-1013, Idaho Code, may be denied a license as unfit and unqualified if, while operating under the license prior to expiration, he violates any of the laws and/or rules applicable to electrical contractors. (4-1-91)

06. Qualification for Supervising Journeyman. A journeyman electrician shall not be considered as qualified to countersign an electrical contractor license application as the supervising journeyman, nor shall said application be approved if he does countersign said application as the supervising journeyman, if said journeyman has had his Idaho Electrical Contractor license revoked for cause under Section 54-1009, Idaho Code. A supervising journeyman shall not countersign for more than one (1) contractor. A journeyman who is a full time employee of a company, corporation, firm or association with an industrial account may sign as supervising journeyman for that industrial account in addition to signing as supervising journeyman for his own contractor's license so long as the journeyman is listed as the owner and complies with the provisions of Subsections 015.01.a. and 015.01.b. (7-1-97)

07. Failure to Correct Defects in Electrical Installations. If a journeyman countersigns an electrical contractor license application pursuant to Subsection 015.03 and thereafter willfully fails to correct defects in electrical installations he made or supervised, and such defects are within his power to correct and are not the fault of the contractor, then the Electrical Bureau shall have the power to suspend or revoke said journeyman's license pursuant to Section 54-1009, Idaho Code. (1-14-87)

08. Overcharging of Fees. It shall be grounds for suspension or revocation of an electrical contractor license if he charges and collects from the property owner an electrical permit or inspection fee which is higher than the fee actually in effect at the time of such charging and collection, pursuant to the current Electrical Laws and Rules of the Division of Building Safety, Electrical Bureau, and the fee remitted by the contractor to the Bureau is less than the fee actually charged and collected by him. (4-6-83)

09. Electrical Contractor's Examination. (9-1-94)

a. Each electrical contractor's license applicant must pass a contractor's examination to be administered by the Bureau or its designee. Any applicant which purports to be a non-individual (i.e., corporation, partnership, company, firm, or association), must designate in writing an individual to represent the partnership, company, etc., for examination purposes. Any such designee shall be a full-time supervisory employee and may not represent any other applicant for an electrical contractor's license. (9-1-94)

b. Any person designated under Subsection 015.09.a., and the contractor he represents, shall each notify the Bureau in writing if the designee's working relationship with the contractor has been terminated. Each notice must be filed with the Bureau within ten (10) days of the date of termination. If the designee's relationship with the contractor is terminated, the contractor's license is void within ninety (90) days unless another duly qualified designee passes the electrical contractor's examination on behalf of the contractor. (9-1-94)

c. Passage of the contractor's examination shall only be required for new electrical contractor license applications submitted after the effective date of this rule, September 1, 1994, and shall not apply to license renewal or revival under Section 54-1013, Idaho Code. (9-1-94)
