Official EIA test samples shall be accompanied to the testing laboratory by an official EIA test report on which is recorded the name and address of the owner or person in charge of the animal, the breed, sex, age and identification of the animal being tested. Identification shall include identifying tattoos, brands, color and distinctive markings. The accredited veterinarian or animal health official collecting the EIA test samples shall record the date the samples were collected and affix his signature to the official EIA test report. (3-20-04)
- **03. Official Tests.** Official EIA tests shall be conducted in a laboratory approved by USDA or the state of Idaho to conduct EIA tests. (3-20-04)

201. EIA IS A REPORTABLE DISEASE.

All laboratories conducting EIA tests on Idaho origin equidae and all veterinarians who diagnose EIA in Idaho equidae shall report positive results of all EIA tests and diagnoses to the Administrator of Animal Industries within twenty-four (24) hours of such test or diagnosis. Negative test results shall be reported within forty-eight (48) hours.

(3-20-04)

202. EIA INFECTED ANIMALS.

Any equidae which are positive to an official EIA test shall be declared to be infected with EIA and shall be designated as an EIA reactor. The Administrator may require or recommend a re-test of EIA reactors in order to confirm infection or identification of the animal. In cases where a confirmatory test is conducted, the final determination of infection will be delayed until the results of the confirmatory test are available. The animal on which a confirmatory test is to be conducted shall be placed under an official Hold Order until the results of the confirmatory test are available.

(3-20-04)

203. DISPOSITION OF EIA REACTORS.

Equidae found to be infected with EIA shall be:

(3-20-04)

- **Quarantined**. Quarantined to the premises where the animal was found to be infected, the owner's premises, or another premises that is approved by the Administrator. (4-2-08)
 - **O2. Duration of Quarantine.** The infected animal shall remain under quarantine until it is: (3-20-04)
 - a. Consigned to slaughter at a USDA approved equine slaughter establishment; or (3-20-04)
 - **b.** Euthanized and buried or incinerated; or (3-20-04)
 - **c.** Donated to a university or other research facility for use in EIA research projects. (3-20-04)

204. ISOLATION OF EIA REACTORS.

The quarantine premises or area for EIA reactors shall provide no less than two-hundred (200) yards separation from all other equidae. The quarantine area and quarantined animals therein may be monitored periodically by state or federal animal health officials to ensure that provisions of the quarantine are being met. (3-20-04)

205. IDENTIFICATION OF EIA REACTORS.

All equidae found to be infected with EIA shall be identified with an "82 A" brand on the left neck or left shoulder of the animal. Identification as an EIA reactor shall be accomplished within fifteen (15) days of notification that the animal is infected with EIA. The "82 A" brand shall be at least two (2) inches high and may be either a hot iron brand or a freeze brand.

(3-20-04)

206. EXPOSED EQUIDAE.

EIA exposed equidae may include all equidae that are held within two-hundred (200) yards of the location where an EIA reactor is or was maintained. (3-20-04)

01. Hold Order. Exposed equidae shall be placed under a Hold Order until the animals have been tested negative to EIA at least sixty (60) days after the last reactor animal has been removed from the premises.

(3-20-04)

02. Movement of Exposed Equids. Individual exposed equids, which have not had a negative sixty (60) day test, may be allowed to move under Hold Order for specific purposes if they have a negative EIA test prior to movement. Such movement shall not be for longer than fifteen (15) days. (3-20-04)

207. EXTENDED VALIDITY EQUINE CERTIFICATES.

Provided there is a written agreement between the Administrator and the chief livestock sanitary official of the state of destination, Idaho origin equidae may be moved from Idaho for shows, rides or other equine events and return to Idaho on an extended validity equine certificate under a state system of equine certification acceptable to the Administrator and the state of destination. The Administrator may authorize the movement of equidae into or out of Idaho on extended validity equine certificates under the following conditions:

(3-20-04)

- **01. Purpose of Certificate**. The movement involves short term travel to or from the state of Idaho for participation in equine activities, including but not limited to, participation in equine events, shows, rodeos, ropings, trail rides and search and rescue activities. (3-20-04)
- **O2. Limitations of Certificate.** The movement does not involve the sale or change of ownership of the equid, animal breeding activities or movements that involve stays of longer than ninety (90) days. Movements for these purposes shall be accompanied by a certificate of veterinary inspection. (3-20-04)
- **O3.** Completion, Reporting, and Approval of Certificate. The extended validity equine certificate is properly completed, the required tests and certifications are recorded on the certificate and a copy of the completed certificate is submitted to and approved by the Administrator. (3-20-04)
- **04. Certificate Validity.** Extended validity equine certificates shall be valid for no longer than six (6) months from the date of veterinary inspection. (3-30-07)
- **05. Reporting Itinerary**. The recipients of extended validity equine certificates shall be required to submit a travel itinerary for the equidae to the Administrator within ten (10) working days following the date of expiration of the certificate. The travel itinerary shall include a listing of all travel, including dates, purpose and destinations of travel that the equid has made out of the state of Idaho during the validity of the certificate. (3-20-04)
- **06.** Cancellation of Certificate. The Administrator may cancel any extended validity equine certificate in the event of serious or emergency disease situations or for the certificate holders' failure to comply with the rules that apply to such certificates. Cancellation of the certificates may be accomplished by written or verbal notice to certificate holders. Verbal notice shall be confirmed by written notice. The canceled certificate will become invalid on the date and at the time of initial notification. (3-20-04)

208. -- 299. (RESERVED).

300. FOREIGN ANIMAL AND REPORTABLE DISEASES.

It is the duty of all persons in Idaho to report to the Administrator immediately, by telephone, facsimile, or electronic mail, any lesions or symptoms resembling any of the foreign animal and reportable diseases listed in this chapter, that they may find existing among the animals in Idaho. The Administrator may add a foreign animal and reportable disease by issuing an administrative order explaining in writing the reasons for requiring the disease to be reported.

- **01. Laboratories**. Blood, serum, tissues, or other samples are to be tested only by state/federal-approved laboratories. (3-20-04)
- **O2. Supervision**. State or federal veterinarians shall supervise pseudorabies control and eradication efforts. (3-20-04)
- **Quarantines**. Any herd in which any livestock has been determined to be infected with pseudorabies by an official pseudorabies test or diagnosed by a veterinarian as having pseudorabies shall be placed under official state quarantine for pseudorabies. (3-20-04)
- **a.** All swine on pseudorabies-infected premises shall be sold for slaughter under permit within fifteen (15) days of diagnosis. (3-20-04)
- **b.** Livestock, other than swine, on pseudorabies infected premises shall be confined to the premises for a period of ten (10) days after the swine herd is sold for slaughter. Livestock, other than swine can, under permit, be moved to a separate holding area and be released from quarantine after a period of ten (10) days, if no signs of pseudorabies occur in the animals. (3-20-04)

402. PSEUDORABIES VACCINE.
