**IDAPA 58
TITLE 01
CHAPTER 22**

**58.01.22 - RULES FOR ADMINISTRATION OF PLANNING GRANTS
FOR DRINKING WATER FACILITIES**

000. LEGAL AUTHORITY.

The Idaho State Board of Environmental Quality, pursuant to authority granted in Chapters 1 and 36, Title 39, Idaho Code, adopted the following rules for the administration of a Drinking Water Planning Grant Program in Idaho.

(5-3-03)

001. TITLE AND SCOPE.

01. Title. These rules will be known and cited as Rules of the Idaho Department of Environmental Quality, IDAPA 58.01.22, "Rules for Administration of Planning Grants for Drinking Water Facilities." (3-30-01)

02. Scope. The provisions of these rules will establish administrative procedures and requirements for establishing, implementing and administering a state grant program providing financial assistance to qualifying entities to prepare an engineering report or facility plan. (4-2-08)

002. WRITTEN INTERPRETATIONS.

As described in Section 67-5201(19)(b)(iv), Idaho Code, the Department of Environmental Quality may have written statements which pertain to the interpretation of these rules. If available, such written statements can be inspected and copied at cost at the Department of Environmental Quality, 1410 N. Hilton, Boise, Idaho 83706. (3-30-01)

003. ADMINISTRATIVE APPEALS.

Persons may be entitled to appeal agency actions authorized under these rules pursuant to IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (5-3-03)

004. INCORPORATION BY REFERENCE AND AVAILABILITY OF REFERENCED MATERIAL.

01. Incorporation by Reference. These rules do not contain documents incorporated by reference. (4-2-08)

02. Availability of Referenced Material. The "Drinking Water Loan Handbook of Procedures" (Handbook) is available at the Idaho Department of Environmental Quality, Water Quality Division Loan Program, 1410 N. Hilton, Boise, ID 83706-1255, (208)373-0502. (4-2-08)

005. CONFIDENTIALITY.

Information obtained by the Department under these rules is subject to public disclosure pursuant to the provisions of Chapter 3, Title 9, Idaho Code, and IDAPA 58.01.21, "Rules Governing the Protection and Disclosure of Records in the Possession of the Idaho Department of Environmental Quality." (5-3-03)

006. POLICY.

It is the policy of the Idaho Board of Environmental Quality, through the Idaho Department of Environmental Quality, to administer the Drinking Water Grant Program. The Drinking Water Grant Program provides assistance to eligible public drinking water systems for the planning of facilities to help ensure safe and adequate supplies of drinking water. It is also the intent of the Idaho Board of Environmental Quality to assign a priority rating to those projects which shall facilitate the compliance of any eligible public drinking water system with national primary drinking water regulations applicable to the system, IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems," and the Safe Drinking Water Act, 42 U.S.C. Sections 300f et seq. (4-2-08)

007. SYSTEM ELIGIBILITY.

01. Eligible Systems. Community water systems and nonprofit noncommunity water systems. (3-30-01)

02. Systems Not Eligible. The following public drinking water systems will not be considered eligible

for project planning grants: (3-30-01)

- a. Systems that do not have the financial capability to pay their non-grant share of a planning project. (3-30-01)
- b. Systems delinquent in payment of the annual state drinking water fee assessment. (3-30-01)

008. -- 009. (RESERVED).

010. DEFINITIONS.

For the purpose of the rules contained in this chapter, the following definitions apply: (3-30-01)

- 01. Applicant.** Any qualifying entity making application for drinking water planning grant funds. (3-30-01)
- 02. Board.** The Idaho Board of Environmental Quality. (4-2-08)
- 03. Categorical Exclusion (CE).** Category of actions which do not individually or cumulatively have a significant effect on the human environment and for which, therefore, neither an environmental information document nor an environmental impact statement is required. (4-2-08)
- 04. Community Water System.** A public drinking water system that: (3-30-01)
 - a. Serves at least fifteen (15) service connections used by year round residents of the area served by the system; or (3-30-01)
 - b. Regularly serves at least twenty-five (25) year-round residents. (3-30-01)
- 05. Contaminant.** Any physical, chemical, biological, or radiological substance or matter in water. (3-30-01)
- 06. Department.** The Idaho Department of Environmental Quality. (3-30-01)
- 07. Director.** The Director of the Idaho Department of Environmental Quality or the Director's designee. (4-2-08)
- 08. Distribution System.** Any combination of pipes, tanks, pumps, and other equipment which delivers water from the source(s) and/or treatment facility(ies) to the consumer. (3-30-01)
- 09. Eligible Costs.** Costs which are necessary for planning public drinking water systems. To be eligible, costs must also be reasonable and not ineligible costs. The determination of eligible costs shall be made by the Department pursuant to Section 032. (5-3-03)
- 10. Engineering Report.** A report prepared to address a specific portion of the system or facility for which modifications are being designed. These reports address specific purpose and scope, design requirements, and evaluate feasible treatment, storage, and/or distribution alternatives for the public drinking water system to identify the cost effective and environmentally sound alternative. Engineering reports are generally project specific as opposed to an overall system-wide plan such as a master plan or a facility plan. An engineering report shall be prepared by or under the supervision of an Idaho licensed professional engineer and shall bear the imprint of the engineer's seal. Guidance on how to prepare an engineering report may be found in the Handbook. (4-2-08)
- 11. Environmental Impact Statement (EIS).** A document prepared by the applicant when the Department determines that the proposed drinking water project will significantly affect the environment. The major purpose of the EIS will be to describe fully the significant impacts of the project and how these impacts can be either avoided or mitigated. The Environmental Review Procedures contained in Chapter 5 of the Handbook may be used as guidance when preparing the EIS. (4-2-08)

12. Environmental Information Document (EID). Any written environmental assessment prepared by an applicant or consultant describing the environmental impacts of a proposed drinking water project. This document will be of sufficient scope to enable the responsible official to assess the environmental impacts of the proposed project and ultimately determine if an environmental impact statement (EIS) is warranted. (4-2-08)

13. Facility Plan. A plan that describes the overall system, including sources of water, treatment processes and facilities, pumping stations and distribution piping, finished water storage, and waste disposal. It is a comprehensive planning document for the existing infrastructure and includes the plan for the future of the system/facility, including upgrades and additions. The plan also includes a systematic evaluation of feasible alternatives considering demographic, topographic, hydrologic and institutional characteristics of a project area to demonstrate that the selected alternative is cost effective and environmentally sound. A facility plan is sometimes referred to as a master plan or facilities planning study and is an overall system-wide plan as opposed to a project specific plan. A facility plan shall be prepared by or under the supervision of an Idaho licensed professional engineer and shall bear the imprint of the engineer's seal. Guidance on how to prepare a facility plan may be found in the Handbook. (4-2-08)

14. Financial Capability. The ability to raise and manage funds to provide the necessary resources for proper operation. (3-30-01)

15. Finding of No Significant Impact (FONSI). A document prepared by the Department briefly presenting the reasons why an action, not otherwise excluded, will not have a significant effect on the human environment and for which an environmental impact statement (EIS) will not be prepared. It shall include the environmental information document or a summary of it and shall note any other environmental documents related to it. (4-2-08)

16. Handbook. "Drinking Water Loan Handbook of Procedures." (4-2-08)

17. Ineligible Costs. Costs which are described in Subsection 032.06. (5-3-03)

18. Maximum Contaminant Level (MCL). The maximum permissible level of a contaminant in water which is delivered to any user of a public drinking water system. (3-30-01)

19. Managerial Capability. The capabilities of the qualified entity to support the proper financial management and technical operation of the system. (3-30-01)

20. Noncommunity Water System. A public water system that is not a community water system. (5-3-03)

21. Nonprofit Noncommunity Water System. A public drinking water system that is not a community water system and is governed by Section 501 of the Internal Revenue Code and includes, but is not limited to, state agencies, municipalities and nonprofit organizations such as churches and schools. (5-3-03)

22. Nontransient Noncommunity Water System. A public drinking water system that is not a community water system and that regularly serves at least twenty-five (25) of the same persons over six (6) months per year. (4-2-08)

23. Person. An individual, corporation, company, association, partnership, state agency, municipality, or federal agency (and includes officers, employees, and agents of any corporation, company, association, state agency, municipality, or federal agency). (5-3-03)

24. Priority List. A list of proposed projects rated by severity of a risk to public health, the necessity to ensure compliance with, IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems," and the Safe Drinking Water Act, 42 U.S.C., Sections 300f et seq., population affected, the need on a household basis for protection of Idaho's public drinking water supplies, and as otherwise described in Section 020. (4-2-08)

25. Public Drinking Water System/Public Water System/Water System. A system for the provision to the public of water for human consumption through pipes or, after August 5, 1998, other constructed conveyances,

if such system has at least fifteen (15) service connections, regardless of the number of water sources or configuration of the distribution system, or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year. Such term includes: any collection, treatment, storage, and distribution facilities under the control of the operator of such system and used primarily in connection with such system; and any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system. Such term does not include any "special irrigation district." A public water system is either a "community water system" or a "noncommunity water system." (4-2-08)

26. Qualifying Entity. Any county, city, special service district, nonprofit or investor-owned corporation, or other governmental entity, or a combination thereof, which owns or operates a public drinking water system or irrigation system. (4-2-08)

27. Rehabilitation. The repair or replacement of segments of drinking water facilities. (3-30-01)

28. Reserve Capacity. That portion of the system in the planned facilities to handle future drinking water demand. (3-30-01)

29. State. The state of Idaho. (3-30-01)

30. Suspension. An action by the Director to suspend a grant contract prior to project completion for a specified cause. Suspended contracts may be reinstated. (3-30-01)

31. Technical Capability. The ability of the public drinking water system to comply with existing and expected drinking water rules. (3-30-01)

32. Termination. An action by the Director to permanently terminate a grant contract prior to project completion for a specific cause. Terminated contracts will not be reinstated. (3-30-01)

33. User Charge System. A system of rates and service charges applicable to specific types of users, including any legal enforcement mechanism as may be required, and which provides sufficient reserves and/or revenues for debt retirement, operation and maintenance, and replacement of the public drinking water system. (4-2-08)

34. Unreasonable Risk to Health (URTH). Refers to a level of contamination that presents an "unreasonable risk to health" and is determined on a contaminant by contaminant basis by the U.S. Environmental Protection Agency. (5-3-03)

35. Water Treatment Plant. That portion of the public drinking water system whose primary purpose is to remove contaminants. (3-30-01)

011. -- 019. (RESERVED).

020. PRIORITY RATING SYSTEM.

Projects are identified for placement on priority lists by surveying eligible entities directly on an annual basis. Information is also received from the Department and consulting engineers. Grant funds are awarded to projects based on priority ratings. Projects are rated by the Department on a standard priority rating form using public health and water quality criteria and condition of the existing system. (4-2-08)

01. Purpose. A priority rating system shall be utilized by the Department to annually allot available funds to projects determined eligible for funding assistance in accordance with these rules. (4-2-08)

02. Priority Rating. Priority criteria shall contain the following points: (3-30-01)

a. Public Health Emergency. Shall be certified by the Idaho Board of Environmental Quality or by a District Board of Health. Such emergencies shall be related to a waterborne outbreak, chemical or radiological contamination levels above Unreasonable Risk to Health (URTH), or a failed water source - one hundred (100) points. (4-2-08)

b. Public Health Hazard. Identified and documented by the Department or by a District Health Department. Points shall be given based on the presence and severity of waterborne illnesses - nineteen (19) points. (4-2-08)

c. Water Quality Violations. Identified and verified by the Department. Points shall be given, based on maximum contaminant levels (MCLs) or based on treatment technique violations, for microbiological and chemical constituents - seventy-one (71) points. (3-30-01)

d. General Conditions of Existing Facilities. Points shall be given based on deficiencies with facilities for pumping, treating, storing, and delivering drinking water - sixty-one (61) points. (3-30-01)

e. Overall Urgency. Points shall be given to entities that need a new source of water to assure safety and adequate supply - ten (10) points. (3-30-01)

f. Consent or Administrative Orders. Points shall be given if the system is operating under an order - thirty (30) points. (3-30-01)

g. Incentives. Bonus points shall be awarded to systems that promote source water protection, conservation, economy, proper operation maintenance, and monitoring - sixteen (16) points. (3-30-01)

h. Affordability. Points shall be given when current system user charges exceed state affordability guidelines - ten (10) points. (3-30-01)

03. Priority List. A list shall be developed annually from projects rated according to the priority rating system. Such list shall be submitted for public review and comment, and shall thereafter be submitted to the Board for approval and adoption. (3-30-01)

04. Priority Reevaluation. Whenever significant changes occur, which in the Department's judgment would affect the design parameters or treatment requirements by either increasing or decreasing the need for or scope of any project, a reevaluation of that priority rating will be conducted. (3-30-01)

05. Priority Target Date. A qualifying entity whose project is on the approved list will be contacted by the Department and a target date for submission of a completed grant application will be established. (4-2-08)

06. Project Bypass. A project that does not or will not meet the project target date or a Department schedule that allows for timely utilization of grant funds may be bypassed, substituting in its place the next highest ranking project that is ready to proceed. A qualifying entity that is bypassed will be notified in writing of the reasons for being bypassed. (3-30-01)

021. -- 029. (RESERVED).

030. PROJECT FUNDING.

Grant funds awarded under this program will be used entirely to prepare an engineering report or facility plan which identifies the cost effective and environmentally sound drinking water system alternative to achieve or maintain compliance with IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems," and the Safe Drinking Water Act, 42 U.S.C. Sections 300f et seq., and which is approvable by the Department. (4-2-08)

01. Engineering Report or Facility Plan. (4-2-08)

a. The engineering report or facility plan shall be certified by an Idaho licensed professional engineer. The engineering report or facility plan shall include, as a minimum, the following: (4-2-08)

i. Description of existing conditions for the proposed project area; (3-30-01)

ii. Description of future conditions for the proposed project area; (3-30-01)

- iii. Development and initial screening of alternatives; (3-30-01)
- iv. Final screening of principal alternatives and plan adoption; (3-30-01)
- v. Selected plan description and implementation arrangements; (3-30-01)
- vi. Relevant engineering data supporting the final alternative; and (3-30-01)
- vii. Level of environmental review specified by the Department as described in Section 040. (4-2-08)
- b.** The engineering report or facility plan must be reviewed and approved by the Department. (4-2-08)
- c.** The planning period shall be twenty (20) years for all facilities except for distribution and transmission systems which may be forty (40) years. (4-2-08)
- d.** At least one (1) public hearing shall be held within the jurisdiction of the grantee and shall be conducted in accordance with state law. The cost effective and environmentally sound alternative selected shall be based in part on public comments received from intended users affected by the proposed project. (4-2-08)

02. Limitation on Funding Assistance. The maximum grant funding provided in a state planning grant award shall not exceed fifty percent (50%) of the total eligible costs for grants awarded. (3-30-01)

031. LIMITATION ON PRE-GRANT ENGINEERING REVIEWS.

Pre-grant engineering documents prepared by consulting engineers will be reviewed by Department staff only when accompanied by a certificate that the consulting engineer carries professional liability insurance in accordance with Subsection 050.05.d. (5-3-03)

032. REVIEW AND EVALUATION OF GRANT APPLICATIONS.

01. Submission of Application. Those eligible systems which received high priority ranking shall be invited to submit an application. The applicant shall submit to the Department, a completed application in a form prescribed by the Department. (3-30-01)

02. Application Requirements. Applications shall contain the following documentation, as applicable: (5-3-03)

a. An authorizing resolution passed by a majority of the governing body authorizing an elected official or officer of the qualifying entity to commit funding; and (5-3-03)

b. Contracts for engineering services or other technical services and the description of costs and tasks set forth therein shall be in sufficient detail for the Department to determine whether the costs associated with the tasks are eligible costs pursuant to Section 033; and (4-2-08)

c. A plan of study describing the work tasks to be performed in the engineering report or facility plan; and (4-2-08)

d. Justification for the engineering firm selected. An engineering firm selected by the applicant must at a minimum: (5-3-03)

i. Be procured through the selection guidelines and procedures prescribed under Section 67-2320, Idaho Code; and (5-3-03)

ii. Be a registered professional engineer currently licensed by the Idaho Board of Professional Engineers and Land Surveyors; and (5-3-03)

iii. Not be debarred or otherwise prevented from providing services under another federal or state financial assistance program; and (5-3-03)

iv. Be covered by professional liability insurance in accordance with Subsection 050.05.d. A certification of liability insurance shall be included in the application; and (5-3-03)

e. A description of other costs, not included in the contracts for engineering or other technical services, for which the applicant seeks funding. The description of the costs and tasks for such costs must be in sufficient detail for the Department to determine whether the costs are eligible costs pursuant to Section 033; and (4-2-08)

f. A demonstration that the obligation to pay the costs for which funding is requested, is the result or will be the result of the applicant's compliance with applicable competitive bidding requirements and requirements for professional service contracts, including without limitation, the requirements set forth in Sections 67-2801 et seq., 67-2320, 59-1026, and 42-3212, Idaho Code; and (4-2-08)

g. A statement regarding how the non-grant portion of the project will be funded; and (5-3-03)

h. For incorporated nonprofit applicants only, Articles of Incorporation and/or Bylaws showing nonprofit and incorporated status according to Chapter 3, Title 30, Idaho Code. (3-30-01)

03. Determination of Completeness of Application. Applications will be reviewed to determine whether they contain all of the information required by Subsection 032.02. (5-3-03)

04. Notification Regarding Incompleteness of Application. Written notification if an application is incomplete, including an explanation of missing documentation, will be sent to the applicant. The applicant may provide the missing documentation. (5-3-03)

05. Reapplication for Grant. The action of disapproving, recalling, or terminating a grant in no way precludes or limits the former applicant from reapplying for another grant when the project deficiencies are resolved and project readiness is secured. (5-3-03)

033. DETERMINATION OF ELIGIBILITY OF COSTS.

The Department shall review the application, including any contracts required to be submitted with the application, to determine whether the costs are eligible costs for funding. (5-3-03)

01. Eligible Costs. Eligible costs are those determined by the Department to be: (5-3-03)

a. Necessary for planning drinking water treatment facilities; (5-3-03)

b. Reasonable; and (5-3-03)

c. Costs that are not ineligible as described in Subsection 033.05. (5-3-03)

02. Necessary Costs. The Department shall determine whether costs are necessary by comparing the tasks for which the costs will be incurred to the scope of the project as described in the plan of study for the engineering report or facility plan. (4-2-08)

03. Reasonable Costs. Costs shall be determined by the Department to be reasonable if the obligation to pay the costs is the result of or will be the result of the applicant's compliance with applicable competitive bidding requirements and requirements for professional service contracts, including without limitation, the requirements set forth in Sections 67-2801 et seq., 67-2320, 59-1026, and 42-3212, Idaho Code. (4-2-08)

04. Examples of Costs That May Be Eligible. Examples of costs that may be eligible, if determined necessary, reasonable and not ineligible costs include: (5-3-03)

a. Costs of salaries, benefits, and expendable material the qualified entity incurs in the project except ordinary expenses such as salaries and expenses of a mayor; city council members; board; or a city, district or board attorney; (4-2-08)

- b. Professional and consulting services utilizing a lump-sum contract, specifying costs of individual tasks. (5-3-03)
- c. Engineering costs pursuant to a lump-sum contract, specifying costs of individual tasks, directly related to the planning of public drinking water treatment, storage and distribution facilities including but not limited to the preparation of an engineering report or facility plan and environmental review report; (4-2-08)
- d. Financial, technical and management capability analysis; (5-3-03)
- e. Public participation for alternative selection; (5-3-03)
- f. Certain direct and other costs as determined eligible by the Department; and (5-3-03)
- g. Site acquisition services which could include legal fees, appraisals and surveys for land associated with the cost-effective alternative in the report and for land for purchase through future State Revolving Fund loan funding. (5-3-03)
- 05. Ineligible Project Costs.** Costs which are ineligible for funding include, but are not limited to: (5-3-03)
- a. Basin or area wide planning not directly related to the project; (5-3-03)
- b. Personal injury compensation or damages arising out of the project; (5-3-03)
- c. Fines or penalties due to violations of, or failure to comply with, federal, state, or local laws; (5-3-03)
- d. Costs outside the scope of the approved project; (5-3-03)
- e. Ordinary operating expenses such as salaries and expenses of a mayor, city council members, city attorney, district or association personnel costs, and acquiring project funding; (4-2-08)
- f. Preparation of a grant application; (5-3-03)
- g. All costs related to assessment, defense and settlement of disputes; (5-3-03)
- h. Costs of supplying required permits or waivers; (5-3-03)
- i. Costs incurred prior to award of the grant unless specifically approved in writing as eligible pre-award costs by the Department; (5-3-03)
- j. Engineering costs incurred prior to approval of the engineering contract or those costs in excess of the contract ceiling unless preapproval has been given in writing by the Department; and (5-3-03)
- k. Land acquisition costs and associated costs other than those listed as eligible in Subsection 032.05.g. (5-3-03)
- 06. Notification Regarding Ineligible Costs.** Prior to providing a grant offer, the Department shall notify the applicant that certain costs are not eligible for funding and the reasons for the Department's determination. If such costs are included in the engineering contract, the Department shall also provide notification to the engineer. The applicant may provide the Department additional information in response to the notice. (5-3-03)
- 07. Eligible Costs and the Grant Offer.** The grant offer shall reflect those costs determined by the Department to be eligible costs. The grant offer, however, may include estimates of some eligible costs that have not yet been set. Actual eligible costs may differ from such estimated costs set forth in the grant offer. In addition, grant disbursements may be increased or decreased if eligible costs are modified. (4-2-08)

034. -- 039. (RESERVED).

040. ENVIRONMENTAL REVIEW.

01. Environmental Documentation. The applicant shall complete an environmental review as part of and in conjunction with an engineering report or a facility plan. Guidance on how to complete an environmental review may be found in Chapter 5 of the Handbook. The applicant shall consult with the Department at an early stage in the preparation of the engineering report or facility plan to determine the required level of environmental review. Based on review of existing information and assessment of environmental impacts, the applicant shall complete one (1) of the following, per the Department's instruction: (4-2-08)

a. Submit a request for Categorical Exclusion (CE) with supporting backup documentation as specified by the Department; (4-2-08)

b. Prepare an Environmental Information Document (EID) in a format specified by the Department; (4-2-08)

or

c. Prepare an Environmental Impact Statement (EIS) in a format specified by the Department. (4-2-08)

02. Categorical Exclusions. If the applicant requests a CE, the Department shall review the request and, based upon the supporting documentation, take one (1) of the following actions: (4-2-08)

a. Determine if an action is consistent with categories eligible for exclusion whereupon the Department shall issue a notice of CE from further substantive environmental review. Once the CE is granted for the selected alternative, the Department will publish a notice of CE in a local newspaper, following which the engineering report or facility plan can be approved; or (4-2-08)

b. Determine if an action is not consistent with categories eligible for exclusion and that issuance of a CE is not appropriate. If issuance of a CE is not appropriate, the Department shall notify the applicant of the need to prepare an EID. (4-2-08)

03. Environmental Information Document Requirements. When an EID is required, the applicant shall prepare the EID in accordance with the following Department procedures: (4-2-08)

a. Various laws and executive orders related to environmentally sensitive resources shall be considered as the EID is prepared. Appropriate state and federal agencies shall be consulted regarding these laws and executive orders. (4-2-08)

b. A full range of relevant impacts, both direct and indirect, of the proposed project shall be discussed in the EID, including measures to mitigate adverse impacts, cumulative impacts, and impacts that shall cause irreversible or irretrievable commitment of resources. (4-2-08)

c. The Department shall review the draft EID and either request additional information about one (1) or more potential impacts, or shall draft a "finding of no significant impact" (FONSI). (4-2-08)

04. Final Finding of No Significant Impact. The Department shall publish the draft FONSI in a newspaper of general circulation in the geographical area of the proposed project and shall allow a minimum thirty (30) day public comment period. Following the required period of public review and comment, and after any public concerns about project impacts are addressed, the FONSI shall become final. The Department shall assess the effectiveness and feasibility of the mitigation measures identified in the FONSI and EID prior to the issuance of the final FONSI and approval of the engineering report or facility plan. (4-2-08)

05. Environmental Impact Statement (EIS) Requirements. If an EIS is required, the applicant shall: (4-2-08)

- a.** Contact all affected state agencies, and other interested parties, to determine the required scope of the document; (4-2-08)
- b.** Prepare and submit a draft EIS to all interested agencies, and other interested parties, for review and comment; (4-2-08)
- c.** Conduct a public hearing which may be in conjunction with an engineering report or facility plan hearing; and (4-2-08)
- d.** Prepare and submit a final EIS incorporating all agency and public input for Department review and approval. (4-2-08)

06. Final EIS. Upon completion of the EIS by the applicant and approval by the Department of all requirements listed in Subsection 040.05, the Department shall issue a record of decision, documenting the mitigative measures which shall be required of the applicant. The engineering report or facility plan can be completed once the final EIS has been approved by the Department. (4-2-08)

07. Use of Environmental Reviews Conducted by Other Agencies. If an environmental review for the project has been conducted by another state, federal, or local agency, the Department may, at its discretion, issue its own determination by adopting the document and public notification process of the other agency. (4-2-08)

08. Validity of Review. Environmental reviews are valid for five (5) years. If a grant application is received for a project with an environmental review which is more than five (5) years old, the Department shall reevaluate the project, environmental conditions, and public comments and shall: (3-30-01)

- a.** Reaffirm the earlier decision; or (3-30-01)
- b.** Require supplemental information to the earlier Environmental Impact Statement, Environmental Information Document, or request for Categorical Exclusion. Based upon a review of the updated document, the Department shall issue and distribute a revised notice of Categorical Exclusion, finding of no significant impact, or record of decision. (3-30-01)

041. -- 049. (RESERVED).

050. GRANT OFFER AND ACCEPTANCE.

01. Grant Offer. Grant offers will be delivered by certified mail to applicants who received high priority ranking, were invited to submit an application, and provided a complete application. (3-30-01)

02. Acceptance of Grant Offer. Applicants have sixty (60) days in which to officially accept the grant offer on prescribed forms furnished by the State. The sixty (60) day acceptance period commences from the date indicated on the grant offer notice. If the applicant does not accept the grant offer within the sixty (60) day period, the grant funds may be offered to the next project of priority. (3-30-01)

03. Acceptance Executed as a Contract Agreement. Upon signature by the Director or the Director's designee as the grantor, and upon signature by the authorized representative of the qualifying entity, as the grantee, the grant offer shall become a grant contract agreement. The disbursement of funds pursuant to an agreement is subject to a finding by the Director that the grantee has complied with all agreement conditions and has prudently managed the project. The Director may, as a condition of payment, require that a grantee vigorously pursue any claims it has against third parties who will be paid in whole or in part, directly or indirectly, with grant funds or transfer its claim against such third parties to the Department. Grant contract agreements shall be interpreted according to the law of grants in aid. No third party shall acquire any rights against the State or its employees from a grant contract agreement. (3-30-01)

04. Estimate of Reasonable Cost. Each grant project contract will include the eligible cost of conducting the planning study. Some eligible costs may be estimated and payments may be increased or decreased as provided in Section 060. (5-3-03)

05. Terms of Agreement. The grant offer shall contain terms of agreement as prescribed by the Department including, but not limited to special conditions as determined necessary by the Department for the successful planning of the project. (3-30-01)

a. Terms consistent with this chapter; and (5-3-03)

b. Special clauses as determined necessary by the Department for the successful investigation and management of the project; and (5-3-03)

c. Terms consistent with applicable state and federal laws pertaining to engineering reports or facility plans; and (4-2-08)

d. Requirement for the prime engineering firm(s) retained for engineering services to carry professional liability insurance to protect the public from the engineer's negligent acts and errors of omission of a professional nature. The total aggregate of the engineer's professional liability shall be one hundred thousand dollars (\$100,000) or twice the amount of the engineer's fee, whichever is greater. Professional liability insurance must cover all such services rendered for all project steps, whether or not such services or steps are state funded, until the certification of project performance is accepted by the Department. (4-2-08)

051. -- 059. (RESERVED).

060. PAYMENTS.

01. Eligibility Determination. Grant funds will only be provided for eligible costs as defined at Section 010 and determined in accordance with Section 033. (5-3-03)

02. Payments for State Grants. Requests for payment shall be submitted to the Department on a form provided by the Department. The Department shall pay for those costs that are determined to be eligible. (3-30-01)

03. Grant Increases. Grant amendment increase requests as a result of an increase in eligible project costs will be considered, provided funds are available. Documentation and justification supporting the unavoidable need for a grant increase must be submitted to the Department for approval prior to incurring any costs above the approved eligible cost ceiling. (3-30-01)

04. Grant Decreases. If the actual eligible cost is determined to be lower than the estimated eligible cost the grant amount will be reduced proportionately. (3-30-01)

05. Final Project Review to Determine Actual Eligible Costs. The Department may conduct a final project review to determine the actual eligible costs. The financial records of the grantee may be reviewed by the Department. (4-2-08)

06. Final Payment. The final payment consisting of five percent (5%) of the total state grant will not be made until the project review has been completed or deferred, or after final approval of the engineering, or completion of the environmental review process. (4-2-08)

061. -- 069. (RESERVED).

070. SUSPENSION OR TERMINATION OF GRANT.

01. Causes. The Director may suspend or terminate any grant for failure by the grantee or its agents, including his engineering firm(s), contractor(s) or subcontractor(s) to perform. A grant may be suspended or terminated for good cause including, but not limited to, the following: (3-30-01)

a. Commission of fraud, embezzlement, theft, forgery, bribery, misrepresentation, conversion, malpractice, misconduct, malfeasance, misfeasance, falsification or unlawful destruction of records, or receipt of stolen property, or any form of tortious conduct; or (3-30-01)

- b.** Commission of any crime for which the maximum sentence includes the possibility of one (1) or more years imprisonment or any crime involving or affecting the project; or (3-30-01)
- c.** Violation(s) of any term of agreement of the grant offer or contract agreement; or (3-30-01)
- d.** Any willful or serious failure to perform within the scope of the project; or (4-2-08)
- e.** Debarment of an engineering firm, contractor or subcontractor for good cause by any federal or state agency from working on public work projects funded by that agency. (3-30-01)
- 02. Notice.** The Director will notify the grantee in writing and by certified mail of the intent to suspend or terminate the grant. The notice of intent shall state: (3-30-01)

 - a.** Specific acts or omissions which form the basis for suspension or termination; and (3-30-01)
 - b.** That the grantee may be entitled to appeal the suspension or termination pursuant to IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (3-15-02)
- 03. Determination.** A determination will be made by the Board pursuant to IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (3-15-02)
- 04. Reinstatement of Suspended Grant.** Upon written request by the grantee and evidence that the cause(s) for suspension no longer exist, the Director may, if funds are available reinstate the grant. (3-30-01)
- 05. Reinstatement of Terminated Grant.** No terminated grant shall be reinstated. (3-30-01)
- 071. -- 079. (RESERVED).**
- 080. WAIVERS.**
Waivers from the requirements of these rules may be granted by the Department on a case-by-case basis upon full demonstration that a significant public health emergency exists. (3-30-01)
- 081. -- 999. (RESERVED).**
