Where an individual is determined eligible for medical assistance participation in the cost of his long term care, the Department must reduce its payment to the long term care facility by the amount of his income considered available to meet the cost of his care. This determination is made in accordance with IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind and Disabled (AABD)," Sections 721 through 726. The amount which the medical assistance participant receives from SSA as reimbursement for his payment of the premium for Part B of Title XVIII (Medicare) is not considered income for patient liability under IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind and Disabled (AABD)," Section 317. (3-19-07)

225. NURSING FACILITY: COVERAGE AND LIMITATIONS.

An institution must provide, on a regular basis, health-related care and services to individuals; who because of their mental or physical condition require care and services above the level of room, board, and supervision. (3-19-07)

01. Nursing Facility Care. The minimum content of care and services for nursing facility patients must include the following: (3-19-07)

- a.** Room and board; (3-19-07)
- b.** Bed and bathroom linens; (3-19-07)
- c.** Nursing care, including special feeding if needed; (3-19-07)
- d.** Personal services; (3-19-07)
- e.** Supervision as required by the nature of the patient's illness and duration of his stay in the nursing facility; (3-4-11)
- f.** Special diets as prescribed by a patient's physician; (3-19-07)
- g.** All common medicine chest supplies that are over-the-counter including mouthwashes, analgesics, laxatives, emollients, burn ointments, first aid cream, protective creams and liquids, cough and cold preparations, and

- simple eye preparations; (3-4-11)
- h.** Dressings; (3-19-07)
 - i.** Administration of intravenous, subcutaneous, or intramuscular injections and infusions, enemas, catheters, bladder irrigations, and oxygen; (3-19-07)
 - j.** Application or administration of all drugs; (3-19-07)
 - k.** All medical supplies including but not limited to gauzes, bandages, tapes, compresses, cottons, sponges, hot water bags, ice bags, disposable syringes, thermometers, cellucotton, incontinent supplies, or any other type of pads used to save labor or linen, and disposable gloves; (3-4-11)
 - l.** Social and recreational activities; and (3-19-07)
 - m.** Each item that is utilized by individual patients and is reusable and expected to be available, such as bed rails, canes, crutches, walkers, wheel chairs, traction equipment, and other durable medical equipment. (3-4-11)
- 02. Skilled Services.** Skilled services include services which could qualify as either skilled nursing or skilled rehabilitative services, which include: (3-19-07)
- a.** Overall management and evaluation of the care plan. The development, management, and evaluation of a resident's care plan, based on the physician's orders, constitute skilled services when, in terms of the patient's physical or mental condition, such development, management, and evaluation necessitate the involvement of technical or professional personnel to meet his needs, promote his recovery, and assure his medical safety. This would include the management of a plan involving only a variety of personal care services where, in light of the patient's condition, the aggregate of such services necessitates the involvement of technical or professional personnel. Where the patient's overall condition would support a finding that his recovery and safety could be assured only if the total care he requires is planned, managed, and evaluated by technical or professional personnel, it would be appropriate to infer that skilled services are being provided. (3-19-07)
 - b.** Observation and assessment of the resident's changing condition. When the resident's condition is such that the skills of a licensed nurse or other technical or professional person are required to identify and evaluate the patient's need for possible modification of treatment and the initiation of additional medical procedures until his condition is stabilized, such services constitute skilled services. (3-19-07)
- 03. Direct Skilled Nursing Services.** Direct skilled nursing services include the following: (3-19-07)
- a.** Intravenous injections; intravenous feedings; intramuscular or subcutaneous injection required on more than one (1) shift; (3-19-07)
 - b.** Nasopharyngeal feedings; (3-19-07)
 - c.** Nasopharyngeal and tracheotomy aspiration; (3-19-07)
 - d.** Insertion and sterile irrigation and replacement of catheters; (3-19-07)
 - e.** Application of dressings involving prescription medications or aseptic techniques; (3-19-07)
 - f.** Treatment of extensive decubitus ulcers or other widespread skin disorders; (3-19-07)
 - g.** Heat treatments which have been specifically ordered by a physician as part of treatment and which require observation by nurses to adequately evaluate the resident's progress; and (3-19-07)
 - h.** Initial phases of a regimen involving administration of oxygen. (3-19-07)

04. Direct Skilled Rehabilitative Services. Direct skilled rehabilitative services include the following: (3-19-07)

a. Ongoing assessment of rehabilitation needs and potential, services concurrent with the management of a resident's care plan, including tests and measurements of range of motion, strength, balance, coordination, endurance, functional ability, activities of daily living, perceptual deficits, speech and language or hearing disorders; (3-19-07)

b. Therapeutic exercises or activities which, because of the type of exercises employed or the condition of the resident, must be performed by or under the supervision of a qualified physical therapist or occupational therapist to ensure the safety of the resident and the effectiveness of the treatment; (3-19-07)

c. Gait evaluation and training furnished by a physical or occupational therapist to restore function in a resident whose ability to walk has been impaired by neurological, muscular, or skeletal abnormality; and (3-19-07)

d. Ultrasound, short-wave, and microwave therapy treatments by a licensed physical therapist. (3-19-07)

05. Other Treatment and Modalities. Other treatment and modalities which include hot pack, hydroculator, infrared treatments, paraffin baths, and whirlpool, in cases where the resident's condition is complicated by circulatory deficiency, areas of desensitization, open wounds, fractures, or other complications, and the skills, knowledge, and judgement of a licensed physical therapist are required. (3-19-07)

226. NURSING FACILITY: PROCEDURAL RESPONSIBILITIES.

01. Nursing Facility Responsibility. Each nursing facility administrator, or his authorized representative must report the following information to the appropriate RMS within three (3) working days of the date the facility has knowledge of the following. (3-19-07)

a. Any readmission or discharge of a participant, and any temporary absence of a participant due to hospitalization or therapeutic home visit. (3-19-07)

b. Any changes in the amount of a participant's income. (3-19-07)

c. When a participant's account has exceed the following amount; (3-19-07)

i. For a single individual, one thousand eight hundred dollars (\$1,800);or (3-19-07)

ii. For a married couple, two thousand eight hundred dollars (\$2,800). (3-19-07)

02. Other Financial Information for Participant. Other information about a participant's finances which may potentially affect eligibility for medical assistance must be reported if the nursing facility has any knowledge of the participant's financial information. (3-19-07)

227. PREADMISSION SCREENING AND ADDITIONAL RESIDENT REVIEW PROGRAM (PASARR).

All Medicaid certified nursing facilities must participate in, cooperate with, and meet all requirements imposed by, the Preadmission Screening and Additional Resident Review program, (PASARR) as set forth in 42 CFR, Part 483, Subpart C. (3-19-07)

01. Background and Purpose. The purpose of these provisions is to comply with and implement the PASARR requirements imposed on the state by federal law. The purpose of those requirements is to prevent the placement of individuals with mental illness (MI) or intellectual disabilities (ID) in a nursing facility unless their medical needs clearly indicate that they require the level of care provided by a nursing facility. This is accomplished by both pre-admission screening (PAS) and additional resident review (ARR). Individuals, for whom it appears that a diagnosis of MI or ID is likely, are identified for further screening by means of a Level I screen. The actual PASARR is accomplished through a Level II screen where it is determined whether, because of the individual's physical and

mental condition, he requires the level of services provided by a nursing facility. If the individual with MI or ID is determined to require a nursing facility level of care, it must also be determined whether the individual requires specialized services. PASARR applies to all individuals entering or residing in a nursing facility, regardless of payment source. (3-19-07)

02. Policy. It is the policy of the Department that the difficulty in providing specialized services in the nursing facility setting makes it generally inappropriate to place individuals needing specialized services in a nursing facility. This policy is supported by the background and development of the federal PASARR requirements, including the narrow definition of mental illness adopted by federal law. While recognizing that there are exceptions, it is envisioned that most individuals appropriate for nursing facility placement will not require services in excess of those required to be provided by nursing facilities by 42 CFR 483.45. (3-19-07)

03. Inter-Agency Agreement. The state Medicaid agency will enter into a written agreement with the state mental health and intellectual disabilities authorities as required in 42 CFR 431.621(c). This agreement will, among other things, set forth respective duties and delegation of responsibilities, and any supplemental criteria to be used in making determinations. (3-19-07)

a. The “State Mental Health Authority” (SMHA) in the Division of Family and Community Services of the Department, or its successor entity. (3-19-07)

b. The “State Intellectual Disabilities or Developmental Disabilities Authority” (SDDA) in the Division of Family and Community Services of the Department, or its successor entity. (3-19-07)

04. Coordination for PASARR. The PASARR process is a coordinated effort between the state Medicaid agency, the SMHA and SDDA, independent evaluators and the nursing facility. PASARR activities will be coordinated through the Regional Medicaid Services (RMS). RMS is responsible for record retention and tracking functions. However, the nursing facility is responsible for assuring that all screens are obtained and for coordination with the RMS, independent MI evaluators, the SMHA and SDDA, and their designees. Guidelines and procedures on how to comply with these requirements can be found in the “Statewide PASARR Procedures,” a reference guide. (3-19-07)

a. All required Level I screens and reviews must be completed and submitted to the RMS prior to admission to the facility. (3-19-07)

b. When a nursing facility identifies an individual with MI or ID through a Level I screen, or otherwise, the nursing facility is responsible for contacting the SMHA or SDDA (as appropriate), and assuring that a Level II screen is completed prior to admission to the facility, or in the case of an existing resident, completed in order to continue residing in the facility. (3-19-07)

c. Additional Resident Reviews (ARR). An individual identified with MI or ID must be reviewed and a new determination made promptly after a significant change in his physical or mental condition. The facility must notify the RMS of any such change within two (2) working days of its occurrence. For the purpose of this section, significant change for the participant's mental condition means a change which may require the provision of specialized services or an increase in such services. A significant change in physical condition is a change that renders the participant incapable of responding to MI or D.D. program interventions. (3-19-07)

228. NURSING FACILITY: COORDINATION OF NURSING FACILITY ELIGIBILITY AND THE NEED FOR SPECIALIZED SERVICES.

Determinations as to the need for nursing facility care and determinations as to the need for specialized services should not be made independently. Such determinations must often be made on an individual basis, taking into account the condition of the resident and the capability of the facility to which admission is proposed to furnish the care needed. When an individual identified with MI and ID is admitted to a nursing facility, the nursing facility is responsible for meeting that individual's needs, except for the provision of specialized services. (3-19-07)

01. Level of Care. (3-19-07)

a. Individual determinations must be based on evaluations and data as required by these rules.

(3-19-07)

b. Categorical determinations. Recognizing that individual determinations of level of care are not always necessary, those categories set forth as examples at 42 CFR 483.130(d) are hereby adopted as appropriate for categorical determinations. When nursing facility level of care is determined appropriate categorically, the individual may be conditionally admitted prior to completion of the determination for specialized services. However, conditional admissions cannot exceed seven (7) days, except for respite admissions, which cannot exceed thirty (30) consecutive days in one (1) calendar year. (3-19-07)

02. Specialized Services. Specialized services for mental illness as defined in 42 CFR 483.120(a)(1), and for intellectual disabilities as defined in 42 CFR 483.120(a)(2), are those services provided by the state which due to the intensity and scope can only be delivered by personnel and programs which are not included in the specialized rehabilitation services required of nursing facilities under 42 CFR 483.45. The need for specialized services must be documented and included in both the resident assessment instrument and the plan of care. (3-19-07)

a. Individual determinations must be based on evaluations and data as required by these rules. (3-19-07)

b. Categorical determinations that specialized services are not needed may be made in those situations permitted by 42 CFR 483.130. (3-19-07)

03. Penalty for Non-Compliance. No payment will be made for any services rendered by a nursing facility prior to completion of the Level I screen and, if required, the Level II screen. Failure to comply with PASARR requirements for all individuals admitted or seeking admission may also subject a nursing facility to other penalties as part of certification action under 42 CFR 483.20. (3-19-07)

04. Appeals. Discharges, transfers, and preadmission PASARR determinations may be appealed to the extent required by 42 CFR, Part 483, Subpart E, and under Section 67-5229, Idaho Code. Appeals under this paragraph are made in accordance with the fair hearing provisions in IDAPA 16.05.03, "Rules Governing Contested Case Proceedings and Declaratory Rulings." (3-19-07)

a. A Level I finding of MI or ID is not an appealable determination. It may be disputed as part of a Level II determination appeal. (3-19-07)

b. In the event that the PASARR program is eliminated or made non-mandatory by an act of Congress, the provisions of Section 227 of these rules will cease to be operative on the effective date of any such act, without further action. (3-19-07)

229. NURSING FACILITY: PREPAYMENT SCREEN AND DETERMINATION OF ENTITLEMENT TO MEDICAID PAYMENT FOR NURSING FACILITY CARE AND SERVICES.

The level of care for Title XIX and Title XXI payment purposes is determined by the Department. Necessity for payment is determined in accordance with 42 CFR 483 Subpart C and Section 1919(e) (7) of the Social Security Act. In the event a required Level II screen was not accomplished prior to admission, entitlement for Medicaid payment as established by the RMS will not be earlier than the date the Level II screen is completed, indicating that nursing facility placement is appropriate. (4-2-08)

01. Information Required for Medical Evaluation Determination. A current Minimum Data Set (MDS) assessment will be provided to the Department. Additional supporting information may be requested. (3-19-07)

02. Information Required for Level I and II Screen Determination. An accurate Level I screen and when required, a Level II screen. (3-19-07)

230. NURSING FACILITY: PROVIDER QUALIFICATIONS AND DUTIES.

01. Provider Application and Certification. A facility must apply to participate as a nursing facility. (3-19-07)

02. Licensure and Certification. (3-19-07)

a. Upon receipt of an application from a facility, the Licensing and Certification Agency determines the facility's compliance with certification standards for the type of care the facility proposes to provide to medical assistance participants. (3-19-07)

b. If a facility proposes to participate as a skilled nursing facility, Medicare (Title XVIII) certification and program participation is required before the facility can be certified for Medicaid. The Licensing and Certification Agency must determine the facility's compliance with Medicare requirements and recommend certification to the Medicare Agency. (3-19-07)

c. If the Licensing and Certification Agency determines that a facility meets Title XIX certification standards for nursing facility care. The Department must certify to the appropriate branch of government that the facility meets the standards for nursing facility level of care. (3-19-07)

d. Upon receipt of the certification from the Licensing and Certification Agency, the Department may enter into a provider agreement with the long-term care facility. (3-19-07)

e. After the provider agreement has been executed by the Facility Administrator and by the Department, one (1) copy must be sent by certified mail to the facility and the original is to be retained by the Department (3-19-07)

232. -- 234. (RESERVED)

235. NURSING FACILITY: PROVIDER REIMBURSEMENT.

01. Payment Methodology. Nursing facilities will be reimbursed in accordance with the payment methodologies as described in Sections 236 through 295 of these rules. (3-19-07)

02. Date of Discharge. Payment by the Department for the cost of long term care is to exclude the date of the participant's discharge. If a Medicaid patient dies in a nursing home, his date of death is covered regardless of the time of occurrence. If an admission and a discharge occur on the same date, then one (1) day of care will be deemed to exist. (3-21-12)

236. NURSING FACILITY: REASONABLE COST PRINCIPLES.

To be allowable, costs must be reasonable, ordinary, necessary and related to patient care. It will be expected that providers will incur costs in such a manner that economical and efficient delivery of quality health care to participants will result. (3-19-07)

01. Application of Reasonable Cost Principles. (3-19-07)

a. Reasonable costs of any services are determined in accordance with this chapter of rules found in Sections 236 through 295 of these rules, and Provider Reimbursement Manual (PRM), Sections 100 through 2600, as modified by the exceptions contained herein, is used to identify cost items to be included on Idaho's Uniform Cost Report. (3-19-07)

i. Reasonable cost takes into account both direct and indirect costs of providers of services, including normal standby costs. (3-19-07)

ii. The objectives of these methods are that: first, the costs with respect to individuals covered by the program will not be borne by others not so covered. Second, the costs with respect to individuals not covered will not be paid by the program. (3-19-07)

b. Costs may vary from one institution to another because of a variety of factors. It is the intent of the program that providers will be reimbursed the actual operating costs of providing high quality care, unless such costs exceed the applicable maximum base rate developed pursuant to provisions of Title 56, Idaho Code, or are

unallowable by application of promulgated regulation. (3-19-07)

c. Implicit in the intention that actual operating costs be paid to the extent they are reasonable is the expectation that the provider seeks to minimize its costs and that its actual operating costs do not exceed what a prudent and cost-conscious buyer pays for a given item or service. (3-19-07)

d. If costs are determined to exceed the level that such buyers incur, in the absence of clear evidence that the higher costs were unavoidable, the excess costs are not reimbursable. (3-19-07)

02. Costs Related to Patient Care. These include all necessary and proper costs in developing and maintaining the operation of patient care facilities. Necessary and proper costs related to patient care are usually costs which are common and accepted occurrences in the field of the provider's activity. They include costs such as depreciation, interest expense, nursing costs, maintenance costs, administrative costs, costs of employee pension plans, normal standby costs, and others. Example: Depreciation is a method of systematically recognizing the declining utility value of an asset. To the extent that the asset is related to patient care, reasonable, ordinary, and necessary, the related expense is allowable when reimbursed based on property costs according to other provisions of this chapter. Property related expenses are likewise allowable. (3-19-07)

03. Costs Not Related to Patient Care. Costs not related to patient care are costs which are not appropriate or necessary and proper in developing and maintaining the operation of patient care facilities and activities. Such costs are not allowable in computing reimbursable costs. Example: Fines are imposed for late remittance of federal withholding taxes. Such fines are not related to patient care, are not necessary, and are not reflective of prudent cost conscious management. Therefore, such fines and penalties are not allowable. (3-19-07)

04. Form and Substance. Substance of transactions will prevail over the form. Financial transactions will be disallowed to the extent that the substance of the transaction fails to meet reasonable cost principles or comply with rules and policy. Example: Lease-Purchase agreements are contracts which are executed in the form of a lease. The wording of the contract is couched in such a manner as to give the reader the impression of a true rental-type lease. However, the substance of this contract is a purchase of the property. If a lease contract is found to be in substance a purchase, the related payments are not allowable as lease or rental expense. (3-19-07)

237. NURSING FACILITY: NOTICE OF PROGRAM REIMBURSEMENT.

Following receipt of the finalized Medicare Cost Report and the timely receipt of any other information requested by the Department to fairly cost settle with the provider, a certified letter with the return receipt requested will be sent to the provider which sets forth the amounts of underpayment or overpayment made to the provider. (3-19-07)

01. Notice. The notice of the results of the final retroactive adjustment will be sent even though the provider intends to request a hearing on the determination, or has appealed the Medicare Intermediary's determination of cost settlement. Where the determination shows that the provider is indebted to the Medicaid program because total interim and other payments exceed cost limits, the state will take the necessary action to recover overpayment, including the suspension of interim payments sixty (60) days after the provider's receipt of the notice. (3-19-07)

02. Recovery or Suspension. Such action of recovery or suspension will continue even after a request for an informal conference or hearing is filed with the state. If the hearing results in a revised determination, appropriate adjustments will be made to the settlement amount. (3-19-07)

03. Timing of Notice. The Department will make every effort to issue a notice of program reimbursement within twelve (12) months of receipt of the Cost Report from the Medicare Intermediary. (3-19-07)

04. Reopening of Completed Settlements. A Medicaid completed cost settlement may be reopened by the provider or the state within a three-year (3) period from the date of the letter of notice of program reimbursement. The issues must have been raised, appealed and resolved through the reopening of the Cost Report by the Medicare Intermediary. Issues previously addressed and resolved by the Department's appeal process are not cause for reopening of the finalized cost settlement. (3-19-07)

238. NURSING FACILITY: INTEREST CHARGES ON OVERPAYMENTS AND UNDERPAYMENTS. The Title XIX and Title XXI programs will charge interest on overpayments, and pay interest on underpayments.

(3-19-07)

01. Interest After Sixty Days of Notice. If full repayment from the indebted party is not received within sixty (60) days after the provider has received notice of program reimbursement, interest will accrue from the date of receipt of the notice of program reimbursement, and will be charged on the unpaid settlement balance for each thirty-day (30) period that payment is delayed. Periods of less than thirty (30) days will be treated as a full thirty-day (30) period, and the thirty-day (30) interest charge will be applied to any unpaid balance. Each payment will be applied first to accrued interest, then to the principal. Interest accrued on overpayments and interest on funds borrowed by a provider to repay overpayments are not an allowable interest expense. (3-19-07)

02. Waiver of Interest Charges. When the Department determines an overpayment exists, it may waive interest charges if it determines that the administrative costs of collecting them exceed the charges. (3-19-07)

03. Rate of Interest. The interest rate on overpayments and underpayments will be the statutory rate as set forth in Section 28-22-104(1), Idaho Code, compounded monthly. (3-19-07)

04. Retroactive Adjustment. The balance and interest will be retroactively adjusted to equal the amounts that would have been due based on any changes which occur as a result of the final determination in the administrative appeal and judicial appeal process. Interest penalties will only be applied to unpaid amounts and will be subordinated to final interest determinations made in the judicial review process. (3-19-07)

239. NURSING FACILITY: RECOVERY METHODS FOR OVERPAYMENTS.

One (1) of the following methods will be used for recovery of overpayments: (3-19-07)

01. Lump Sum Voluntary Repayment. Upon receipt of the notice of program reimbursement, the provider voluntarily refunds, in a lump sum, the entire overpayment to the Department. (3-19-07)

02. Periodic Voluntary Repayment. The provider must request in writing that recovery of the overpayment be made over a period of twelve (12) months or less. The provider must adequately document the request by demonstrating that the financial integrity of the provider would be irreparably compromised if repayments occurred over a shorter period of time than requested. (3-19-07)

03. Department Initiated Recovery. The Department will recover the entire unpaid balance of the overpayment of any settlement amount in which the provider does not respond to the notice of program reimbursement within thirty (30) days of receiving the notice. (3-19-07)

04. Recovery From Medicare Payments. The Department can request that Medicare payments be withheld in accordance with 42 CFR, Section 405.377. (3-19-07)

240. NURSING FACILITY: ALLOWABLE COSTS.

The following definitions and explanations apply to allowable costs: (3-19-07)

01. Accounts Collection. The costs related to the collection of past due program related accounts, such as legal and bill collection fees, are allowable. (3-19-07)

02. Auto and Travel Expense. Maintenance and operating costs of a vehicle used for patient care purposes and travel expense related to patient care are reimbursable. The allowance for mileage reimbursement cannot exceed the amount determined reasonable by the Internal Revenue Service for the period being reported. Meal reimbursement is limited to the amount that would be allowed by the state for a state employee. (3-19-07)

03. Bad Debts. Payments for efforts to collect past due Title XIX and Title XXI accounts are reimbursable. This may include the fees for lawyers and collection agencies. Other allowances for bad debt and bad debt write-off are not allowable. However, Title XIX and Title XXI coinsurance amounts are one hundred percent (100%) reimbursable under PRM, Section 300. (3-19-07)

04. Bank and Finance Charges. Charges for routine maintenance of accounts are allowable. Penalties for late payments, overdrafts, etc., are not allowable. (3-19-07)

05. Compensation of Owners. An owner may receive reasonable compensation for services subject to the limitations in this chapter, to the extent the services are actually performed, documented, reasonable, ordinary, necessary, and related to patient care. Allowable compensation cannot exceed the amount necessary to attract assistance from parties not related to the owner to perform the same services. The nature and extent of services must be supported by adequate documentation including hours performing the services. Where an average industry wide rate for a particular function can be determined, reported allowable owner compensation cannot exceed the average rate. Compensation to owners, or persons related to owners, providing administrative services is further limited by provisions in Section 274 of these rules. In determining the reasonableness of compensation for services paid to an owner or a person related to an owner, compensation is the total of all benefits or remuneration paid to or primarily for the benefit of the owner regardless of form or characterization. It includes, but is not limited to, the following:

(3-19-07)

a. Salaries wages, bonuses and benefits which are paid or are accrued and paid for the reporting period within one (1) month of the close of the reporting period. (3-19-07)

b. Supplies and services provided for the owner's personal use. (3-19-07)

c. Compensation paid by the facility to employees for the sole benefit of the owner. (3-19-07)

d. Fees for consultants, directors, or any other fees paid regardless of the label. (3-19-07)

e. Keyman life insurance. (3-19-07)

f. Living expenses, including those paid for related persons. (3-19-07)

06. Contracted Service. All services which are received under contract arrangements are reimbursable to the extent that they are related to patient care or the sound conduct and operation of the facility. (3-19-07)

07. Depreciation. Depreciation on buildings and equipment is an allowable property expense subject to Section 275 of these rules. Depreciation expense is not allowable for land. Lease-hold improvements may be amortized. Generally, depreciation and amortization must be calculated on a straight line basis and prorated over the estimated useful life of the asset. (3-19-07)

08. Dues, Licenses and Subscriptions. Subscriptions to periodicals related to patient care and for general patient use are allowable. Fees for professional and business licenses related to the operation of the facility are allowable. Dues, tuition, and educational fees to promote quality health care services are allowable when the provisions of PRM, Section 400, are met. (3-19-07)

09. Employee Benefits. Employee benefits including health insurance, vacation, and sick pay are allowable to the extent of employer participation. See PRM, Chapter 21 for specifics. (3-19-07)

10. Employee Recruitment. Costs of advertising for new employees, including applicable entertainment costs, are allowable. (3-19-07)

11. Entertainment Costs Related to Patient Care. Entertainment costs related to patient care are allowable only when documentation is provided naming the individuals and stating the specific purpose of the entertainment. (3-19-07)

12. Food. Costs of raw food, not including vending machine items, are allowable. The provider is only reimbursed for costs of food purchased for patients. Costs for nonpatient meals are nonreimbursable. If the costs for nonpatient meals cannot be identified, the revenues from these meals are used to offset the costs of the raw food. (3-19-07)

13. Home Office Costs. Reasonable costs allocated by related entities for home office services are allowable in their applicable cost centers. (3-19-07)

14. Insurance. Premiums for insurance on assets or for liability purposes, including vehicles, are allowable to the extent that they are related to patient care. (3-19-07)

15. Interest. Interest on working capital loans is an allowable administrative expense. When property is reimbursed based on cost, interest on related debt is allowable. However, interest payable to related entities is not normally an allowable expense. Penalties are not allowable. (3-19-07)

16. Lease or Rental Payments. Payments for the property cost of the lease or rental of land, buildings, and equipment are allowable according to Medicare reasonable cost principles when property is reimbursed based on cost for leases entered into before March 30, 1981. Such leases entered into on or after March 30, 1981, will be reimbursed in the same manner as an owned asset. The cost of leases related to home offices cannot be reported as property costs, but will be allowable based on reasonable cost principles subject to other limitations contained herein. (3-19-07)

17. Malpractice and Public Liability Insurance. Premiums for malpractice and public liability insurance must be reported as administrative costs. (3-19-07)

18. Payroll Taxes. The employer's portion of payroll taxes is reimbursable. (3-19-07)

19. Property Costs. Property costs related to patient care are allowable subject to other provisions of this chapter. Property taxes and reasonable property insurance are allowable for all facilities. For free-standing nursing facilities, the property rental rate is paid as described in Section 275 of these rules. Hospital-based nursing facilities are paid based on property costs. (3-19-07)

a. Amortization of leasehold improvements will be included in property costs. (3-19-07)

i Straight line depreciation on fixed assets is included in property costs. (3-19-07)

ii. Depreciation of moveable equipment is an allowable property cost. (3-19-07)

b. Interest costs related to the purchase of land, buildings, fixtures or equipment related to patient care are allowable property costs only when the interest costs are payable to unrelated entities. (3-19-07)

20. Property Insurance. Property insurance per licensed bed is limited to no more than two (2) standard deviations above the mean of the most recently reported property insurance costs, as used for rate setting purposes, per licensed bed of all facilities in the reimbursement class of the end of a facility's fiscal year. (3-19-07)

21. Repairs and Maintenance. Costs of maintenance and minor repairs are allowable when related to the provision of patient care. (3-19-07)

22. Salaries. Salaries and wages of all employees engaged in patient care activities or operation and maintenance are allowable costs. However, non-nursing home wages are not an allowable cost. (3-19-07)

23. Supplies. Cost of supplies used in patient care or providing services related to patient care is allowable. (3-19-07)

24. Taxes. The cost of property taxes on assets used in providing patient care are allowable. Other taxes are allowable costs as provided in the PRM, Chapter 21. Tax penalties are nonallowable costs. (3-19-07)

241. NURSING FACILITY: NONALLOWABLE COSTS.
The following definitions and explanations apply to nonallowable costs: (3-19-07)

01. Accelerated Depreciation. Depreciation in excess of calculated straight line depreciation, except as otherwise provided is nonallowable. (3-19-07)

02. Acquisitions. Costs of corporate acquisitions, such as purchase of corporate stock as an investment, are nonallowable. (3-19-07)

- 03. Barber and Beauty Shops.** All costs related to running barber and beauty shops are nonallowable. (3-19-07)
- 04. Charity Allowances.** Cost of free care or discounted services are nonallowable. (3-19-07)
- 05. Consultant Fees.** Costs related to the payment of consultant fees in excess of the lowest rate available to a facility are nonallowable. It is the provider's responsibility to make efforts to obtain the lowest rate available to that facility. The efforts may include personally contacting possible consultants or advertising. The lowest rate available to a facility is the lower of the actual rate paid by the facility or the lowest rate available to the facility, as determined by departmental inquiry directly to various consultants. Costs in excess of the lowest rate available will be disallowed effective thirty (30) days after a facility is notified, unless the provider shows by clear and convincing evidence it would have been unable to comply with state and federal standards had the lowest rate consultant been retained or that it tried to but was unable to retain the lowest rate consultant. This subsection in no way limits the Department's ability to disallow excessive consultant costs under other Sections of this chapter, such as Section 236 or 245 of these rules, when applicable. (3-19-07)
- 06. Fees.** Franchise fees are nonallowable, see PRM, Section 2133.1. (3-19-07)
- 07. Fund Raising.** Certain fund raising expenses are nonallowable, see PRM, Section 2136.2. (3-19-07)
- 08. Goodwill.** Costs associated with goodwill as defined in Section 011 of these rules are nonallowable. (3-19-07)
- 09. Holding Companies.** All home office costs associated with holding companies are nonallowable see PRM, Section 2150.2A. (3-19-07)
- 10. Interest.** Interest to finance nonallowable costs are nonallowable. (3-19-07)
- 11. Medicare Costs.** All costs of Medicare Part A or Part B services incurred by Medicare certified facilities, including the overhead costs relating to these services are nonallowable. (3-19-07)
- 12. Nonpatient Care Related Activities.** All activities not related to patient care are nonallowable. (3-19-07)
- 13. Organization.** Organization costs are nonallowable, see PRM, Section 2134. (3-19-07)
- 14. Pharmacist Salaries.** Salaries and wages of pharmacists are nonallowable. (3-19-07)
- 15. Prescription Drugs.** Prescription drug costs are nonallowable. (3-19-07)
- 16. Related Party Interest.** Interest on related party loans are nonallowable, see PRM, Sections 218.1 and 218.2. (3-19-07)
- 17. Related Party Nonallowable Costs.** All costs nonallowable to providers are nonallowable to a related party, whether or not they are allocated. (3-19-07)
- 18. Related Party Refunds.** All refunds, allowances, and terms, will be deemed to be allocable to the members of related organizations, on the basis of their participation in the related purchases, costs, etc. (3-19-07)
- 19. Self-Employment Taxes.** Self-employment taxes, as defined by the Internal Revenue Service, which apply to facility owners are nonallowable. (3-19-07)
- 20. Telephone Book Advertising.** Telephone book advertising costs in excess of the base charge for a quarter column advertisement for each telephone book advertised in are nonallowable. (3-19-07)

21. Vending Machines. Costs of vending machines and cost of the product to stock the machine are nonallowable costs. (3-19-07)

242. NURSING FACILITY: HOME OFFICE COST PRINCIPLES.

The reasonable cost principles will extend to the home office costs allocated to individual providers. In addition, the home office, through the provider, will provide documentation as to the basis used to allocate its costs among the various entities it administers or otherwise directs. (3-19-07)

243. NURSING FACILITY: RELATED PARTY TRANSACTIONS.

01. Principle. Costs applicable to services, facilities and supplies furnished to the provider by organizations or persons related to the provider by common ownership, control, etc., are allowable at the cost to the related party. Such costs are allowable to the extent that they relate to patient care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer. (3-19-07)

02. Cost Allowability - Regulation. Allowability of costs is subject to the regulations prescribing the treatment of specific items as outlined in 42 CFR 413.17, et al, and the Providers Reimbursement Manual, PRM Chapter 10 and other applicable chapters of the PRM. (3-19-07)

244. NURSING FACILITY: APPLICATION OF RELATED PARTY TRANSACTIONS.

01. Determination of Common Ownership or Control in the Provider Organization and Supply Organization. In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. (3-19-07)

a. A determination as to whether an individual(s) possesses ownership or equity in the provider organization and the supplying organization, so that the organizations will be considered to be related by common ownership, will be made on the basis of the facts and circumstances in each case. (3-19-07)

b. The term "control" includes any kind of control whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control which is decisive, not its form or the mode of its exercise. (3-19-07)

02. Cost to Related Organizations. The charges to the provider from related organizations may not exceed the billing to the related organization for these services. (3-19-07)

03. Costs Not Related to Patient Care. All home office costs not related to patient care are not allowable under the program. (3-19-07)

04. Interest Expense. Generally, interest expense on loans between related entities will not be reimbursable. See the PRM, Chapters 2, 10, and 12 for specifics. (3-19-07)

245. NURSING FACILITY: COMPENSATION OF RELATED PERSONS.

Compensation paid to persons related to owners or administrators is allowable only to the extent that services are actually performed and are necessary and adequately documented and the compensation for the services is reasonable. (3-19-07)

01. Compensation Claimed. Compensation claimed for reimbursement must be included in compensation reported for tax purposes and be actually paid. (3-19-07)

a. Where such persons perform services without pay, no cost may be imputed. (3-19-07)

b. Time records documenting actual hours worked are required in order that the compensation be allowable for reimbursement. (3-19-07)

c. Compensation for undocumented hours worked will not be a reimbursable cost. (3-19-07)

- 02. Related Persons.** A related person is defined as having one (1) of the following relationships with the provider: (3-19-07)
- a.** Husband or wife; (3-19-07)
 - b.** Son or daughter or a descendent of either; (3-19-07)
 - c.** Brother, sister, stepbrother, stepsister or descendent thereof; (3-19-07)
 - d.** Father, mother, stepfather, stepmother, an ancestor thereof, or a brother or sister thereof; (3-19-07)
 - e.** Son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law; (3-19-07)
 - f.** A descendent of a brother or sister of the provider's father or mother; (3-19-07)
 - g.** Any other person with whom the provider does not have an arms length relationship. (3-19-07)

246. NURSING FACILITY: INTEREST EXPENSE.

Generally interest on loans between related entities is not an allowable expense. The loan will usually be considered invested capital. See PRM, Chapter 2 for specifics. (3-19-07)

247. -- 249. (RESERVED)

250. NURSING FACILITY: COST LIMITS.

Sections 250 through 271 of these rules, provide procedures and specifications necessary to implement the provisions and accomplish the objectives of the nursing home reimbursement system as specified in Sections 56-101 through 56-135, Idaho Code. All audits related to fiscal years ending on or before December 31, 1999, are subject to rules in effect before July 1, 1999. (3-19-07)

251. (RESERVED)

252. NURSING FACILITY: PROPERTY AND UTILITY COSTS.

Whether or not each of these cost items is allowed will be determined in accordance with other provisions of this chapter, or the PRM in those cases where this the rules of this chapter are silent or not contradictory. Total property and utility costs are defined as being made up of the following cost categories. The Department may require and utilize an appraisal to establish those components of property costs which are identified as an integral part of an appraisal. (3-19-07)

- 01. Depreciation.** All allowable depreciation expense. (3-19-07)
- 02. Interest.** All allowable interest expense relating to financing building and equipment purchases. Interest on working capital loans will be included as administrative costs. (3-19-07)
- 03. Property Insurance.** All allowable property insurance. Malpractice insurance, workmen's compensation and other employee-related insurances will not be considered to be property costs. (3-19-07)
- 04. Lease Payments.** All allowable lease or rental payments. (3-19-07)
- 05. Property Taxes.** All allowable property taxes. (3-19-07)
- 06. Utility Costs.** All allowable expenses for heat, electricity, water and sewer. (3-19-07)

253. -- 254. (RESERVED)

255. NURSING FACILITY: RATE SETTING.

The objectives of the rate setting mechanism for nursing facilities are: (3-19-07)

01. Payments. To make payments to nursing facilities through a prospective cost-based system which includes facility-specific case mix adjustments. (3-19-07)

02. Rate Adjustment. To set rates based on each facility's case mix index on a quarterly basis and establishing rates that reflect the case mix of that facility's Medicaid residents as of a certain date during the preceding quarter. (3-19-07)

256. NURSING FACILITY: PRINCIPLE FOR RATE SETTING.

Reimbursement rates will be set based on projected cost data from cost reports and audit reports. Reimbursement is to be set for freestanding and hospital-based facilities. In general, the methodology will be a cost-based prospective reimbursement system with an acuity adjustment for direct care costs. (3-19-07)

257. NURSING FACILITY: DEVELOPMENT OF THE RATE.

Nursing facility rates are prospective, with new rates effective July 1st of each year, and are recalculated annually with quarterly adjustments for case mix. The rate for a nursing facility is the sum of the cost components described in Subsection 257.04 through 257.08 of this rule. In no case will the rate be set higher than the charge for like services to private pay patients in effect for the period for which payment is made as computed by the lower of costs or customary charges. For the rate year of July 1, 2011, through June 30, 2012, rates will be calculated using audited cost reports ended in calendar year 2010 with no allowance for inflation to the rate year of July 1, 2011, through June 30, 2012. For the rate years beginning July 1, 2012, and annually thereafter, rates will be calculated using audited cost reports for periods ended in the preceding calendar year with no allowance for inflation to the prospective rate period. (10-1-12)T

01. Applicable Case Mix Index (CMI). The Medicaid CMI used in establishing each facility's rate is calculated based on the most recent assessment for each Medicaid resident in the nursing facility on the first day of the month of the preceding quarter (for example, assessments as of April 1 are used to establish the CMI needed to establish rates for the quarter beginning July 1st). Facility-wide CMI is calculated based on the most recent assessment for all residents in the nursing facility. The CMI is recalculated quarterly and each nursing facility's rate is adjusted accordingly. A facility-wide CMI is also established each year by averaging four (4) calendar quarter CMIs for the cost reporting period from historical data to represent each fiscal quarter in the cost reporting period (for example, an October 1 CMI would represent the fiscal quarter ended September 30th). (3-19-07)

02. Applicable Cost Data. The cost data used in establishing the cost components of the rate calculation are from the audited or unaudited cost report which ended during the previous calendar year (for example, cost reports ending during the period from January 1, 1998 - December 31, 1998 are used in setting rates effective July 1, 1999). The draft audit of a cost report submitted by a facility will be issued by the Department no later than five (5) months after the date all information required for completion of the audit is filed with the Department. (3-19-07)

03. Interim Rates. Nursing facilities with unaudited cost reports are given an interim rate established by the Department until a rate is calculated based on an audited cost report. When audited data are available, a retroactive adjustment to the payment rate is made through the calculation of the finalized rate. (3-19-07)

04. Direct Care Cost Component. The direct care cost component of a nursing facility's rate is determined as follows: (3-19-07)

a. The direct care per diem cost limit applicable to the rate period for a nursing facility type (free-standing and urban hospital-based nursing facility, rural hospital-based nursing facility, free-standing and urban hospital-based behavioral care unit, or rural hospital-based behavioral care unit) is identified. The identified direct care cost limit is divided by the statewide average CMI for the cost reporting period, and then multiplied by the nursing facility's facility-wide CMI for the cost reporting period to derive the adjusted direct care per diem cost limit. (10-1-12)T

b. The adjusted direct care per diem cost limit is compared to the nursing facility's inflated direct care per diem costs. The lower of the two (2) amounts is then case mix adjusted. (3-19-07)

i. If the adjusted direct care per diem cost limit is lower, the adjusted limit is divided by the nursing facility's facility-wide CMI for the cost reporting period, and then multiplied by the nursing facility's most recent quarterly Medicaid CMI for the rate period to arrive at the direct care cost component. (3-19-07)

ii. If the inflated direct care per diem costs are lower, these costs, minus raw food and Medicaid related ancillary costs, are divided by the nursing facility's facility-wide CMI for the cost reporting period, then multiplied by the nursing facility's most recent quarterly Medicaid CMI for the rate period. Raw food and Medicaid related ancillary costs are then added back to arrive at the direct care cost component. (3-19-07)

05. Indirect Care Cost Component. The indirect care cost component of a facility's rate is the lesser of the facility's inflated indirect care per diem costs, or the indirect per diem cost limit for that type of provider -- free-standing and urban hospital-based nursing facilities including behavioral care unit nursing facility providers, or rural hospital-based nursing facilities including behavioral care unit nursing facility providers. (10-1-12)T

06. Costs Exempt From Limitation. Costs exempt from cost limits are property taxes, property insurance, utilities and costs related to new legal mandates as defined in Section 264 of these rules. (3-19-07)

07. Property Reimbursement. The property reimbursement component is calculated in accordance with Section 275 and Subsection 240.19 of these rules. (3-19-07)

08. Revenue Offset. Revenues from products or services provided to nonpatients will be offset from the corresponding rate component(s) as described in Section 257 of this rule. (10-1-12)T

258. NURSING FACILITY: COST LIMITS BASED ON COST REPORT.

Each July 1st cost limitations will be established for nursing facilities based on the most recent audited cost report with an end date of June 30th of the previous year or before. Calculated limitations will be effective for a one (1) year period, from July 1 through June 30th of each year, which is the rate year. For the rate year of July 1, 2011, through June 30, 2012, the direct and indirect cost limits were calculated using the most recent audited cost reports adjusted to the midpoint of the cost reporting year's end in calendar year 2010, to allow for no inflation to the rate year. For rate years beginning July 1, 2012, and annually thereafter, the direct and indirect cost limits will be calculated using the most recent audited cost reports adjusted to the midpoint of each provider's cost reporting year that is used to set the July 1 rate, to allow for no inflation to the rate year. (10-1-12)T

01. Percentage Above Bed-Weighted Median. (10-1-12)T

a. Prior to establishing the first "shadow rates" at July 1, 1999, the estimated Medicaid payments under the previous retrospective system for the year period from July 1, 1999, through June 30, 2000, will be calculated. This amount will then be used to model the estimated payments under the case mix system set forth in Sections 255 through 257 of these rules. The percentages above the bed-weighted median, for direct and indirect costs, will be established at a level that approximates the same amount of Medicaid expenditures as would have been produced by the retrospective system. The percentages will also be established to approximate the same distribution of total Medicaid dollars between the hospital-based and freestanding nursing facilities as existed under the retrospective system. (10-1-12)T

b. Once the percentage is established, it will be used to calculate the limit by multiplying the bed-weighted median per diem direct cost times the calculated percentage for that class of provider. There will be a direct and indirect percentage that is applied to freestanding and urban hospital-based nursing facilities, and a higher direct and indirect percentage that is applied to rural hospital-based nursing facilities. (10-1-12)T

c. Beginning with rates effective October 1, 2012, additional direct care cost limit categories will be added for free-standing and urban hospital-based behavioral care units and rural hospital-based behavioral care units. Percentages previously established for other provider class types not considered a behavioral care unit will remain unchanged. Once established, these percentages will remain in effect for future rate setting periods. (10-1-12)T

02. Direct Cost Limits. The direct cost limitation will be calculated by indexing the selected cost data forward by the inflation adjustment from the midpoint of the cost report period to the midpoint of the period for

which the limit will be applicable. The indexed per diem costs will then be normalized and arrayed from high to low, with all nursing facilities included in the same array, and the bed-weighted median will be computed. (10-1-12)T

03. Indirect Cost Limits. The indirect cost limitation will be calculated by indexing the selected cost data forward by the inflation adjustment from the midpoint of the cost report period to the midpoint of the period for which the limit will be applicable. The indexed per diem costs will then be arrayed, with all nursing facilities included in the same array, and the bed-weighted median will be computed. (10-1-12)T

04. Limitation on Increase or Decrease of Cost Limits. Increases in the direct and indirect cost limits will be determined by the limitations calculated in the most recent base year, indexed forward each year from the midpoint of the base year to the midpoint of the rate year by the inflation factor plus one percent (1%) per annum. The calculated direct and indirect cost limits will not be allowed to decrease below the limitations effective in the base year. The maximum rate of growth on the cost limits, and the minimum cost limitation, will be examined by the oversight committee periodically to determine which factors to use in the calculation of the limitations effective in the new base year and forward. (3-29-10)

05. Costs Exempt From Limitations. Costs exempt from limitations include property taxes, property insurance, and utilities. These costs will be reimbursed on a per diem basis and will not be included in the calculation of the direct or indirect care component. However, property taxes and property insurance will be subject to minimum occupancy levels as defined in Section 278 of these rules. (3-19-07)

259. NURSING FACILITY: TREATMENT OF NEW BEDS.

Facilities that add beds after July 1, 1999, will have their reimbursement rate subjected to an additional limitation for the next three (3) years. This limitation will apply beginning with the first rate setting period which utilizes a cost report that includes the date when the beds were added. (3-19-07)

01. Limitation of Facilities Rate. The facility's rate will be limited to the bed-weighted average of the following two (2) rates: (3-19-07)

- a.** The facility's current prospective rate calculated in accordance with Section 257 of these rules; and (3-19-07)
- b.** The current median rate for nursing facilities of that type, free-standing, rural hospital-based, or urban hospital-based, established each July 1st. (3-19-07)

02. Calculation of the Bed-Weighted Average. The current calculated facility rate is multiplied by the number of beds in existence prior to the addition. The median rate is multiplied by the number of added beds, weighted for the number of days in the cost reporting period for which they were in service. These two (2) amounts are added together and divided by the total number of beds, with the new beds being weighted if they were only in service for a portion of the year. The resulting per diem amount represents an overall limitation on the facility's reimbursement rate. Providers with calculated rates that do not exceed the limitation receive their calculated rate. (3-19-07)

03. Exception to New Bed Rate. The following situations will not be treated as new beds for reimbursement purposes: (3-19-07)

a. Any beds converted from nursing facility beds to assisted living beds, can be converted back to nursing facility beds within three (3) years and not be classified as new nursing facility beds. When a nursing facility bed has been converted to an assisted living bed for three (3) or more concurrent years and the bed is converted back to a nursing facility bed, it must be treated as a new nursing facility bed. (3-19-07)

b. Beds added as a result of expansion plans, which the Department was aware of prior to July 1, 1999, will not be treated as new beds. The facility must have already expended significant resources on the purchase of land, site planning, site utility planning, and development. The existence of adequate land or space at the nursing facility does not by itself constitute a significant expenditure of resources for the purposes of expansion. A written request with adequate supporting documentation for an exception under this provision must have been received by the Department no later than December 31, 1999. In no case will beds added after July 1, 2003, qualify for this

exception to the new bed criteria. (3-19-07)

c. Beds which are decertified as a requirement of survey and certification due to deficiencies at the facility can be re-certified as existing beds with the approval of the Department. (3-19-07)

d. When a facility can demonstrate to the Department that adding beds is necessary to meet the needs of an under served area, these beds will not be treated as new beds. For an existing facility the new beds are reimbursed at the same reimbursement rate for that facility's existing beds. For a new facility, the reimbursement rate is negotiated with the Department. (3-19-07)

260. NURSING FACILITY: TREATMENT OF NEW FACILITIES.

Facilities constructed subsequent to July 1, 1999, will be reimbursed at the median rate for skilled care facilities of that type (freestanding or hospital-based) for the first three (3) full years of operation. During the period of limitation, the facility's rate will be modified each July 1st to reflect the current median rate for skilled care facilities of that type. After the first three (3) full years, the facility will have its rate established at the next July 1st with the existing facilities in accordance with Section 257 of this rule. (3-19-07)

261. NURSING FACILITY: TREATMENT OF A CHANGE IN OWNERSHIP.

New providers resulting from a change in ownership of an existing facility will receive the previous owner's rate until such time as the new owner has a cost report which qualifies for the rate setting criteria established under these rules. If the Department determines that such a facility is operationally or financially unstable, the Department may negotiate a reimbursement rate different than the rate then in effect for the facility. (5-8-09)

262. NURSING FACILITY: OUT-OF-STATE NURSING HOMES.

The Idaho Medicaid Program will reimburse for out-of-state nursing home placements when services are not available in Idaho to meet the participant's medical need, or in a temporary situation for a limited period of time required to safely transport the participant to an Idaho facility. Reimbursement for out-of-state nursing homes will be at the per diem rate set by the Medicaid Program in the state where the nursing home is located. Special rates will be allowed according to Section 270 of these rules. (3-19-07)

263. NURSING FACILITY: DISTRESSED FACILITY.

01. Determination. If the Department determines that a facility is located in an under-served area, or addresses an under-served need, the Department may negotiate a reimbursement rate different than the rate then in effect for that facility. (5-8-09)

02. Discretionary Factors. The fact that a facility may be located in an under-served area or meets an under-served need does not guarantee increased reimbursement. In exercising its discretion to apply a higher rate, the Department will consider the factors as described in Subsections 263.02.a. through 263.02.e. of this rule. (5-8-09)

a. Prudent Spending Patterns. The facility has exercised prudent spending and cost allocation practices, as evidenced by a thorough and comprehensive review of the facility's accounts by the Department. (5-8-09)

b. Reasonable Attempts to Remedy Problems. The facility must persuade the Department that it has conscientiously and diligently attempted to cover its costs of care, hire qualified staff and otherwise operate effectively and efficiently, but for causes beyond the facility's reasonable control, it has not been able to do so. (5-8-09)

c. Facility Already Receives Special Rates. When a facility already receives special rates for certain difficulty-of-care patients from the Department, the same costs of care that were used to determine special rates will not be applied toward a determination of distressed facility status, because the special rate meets that need. (5-8-09)

d. Direct and Indirect Costs of Care Apportioned to Patient Care. The Department reimburses the costs of patient care, and does not pay for indirect costs not associated with patient care. The determination of distressed status will focus on whether the facility's distress stems from patient care costs, or whether the distress

arises from expenses unrelated to patient care costs. (5-8-09)

e. Existing Cost Limits. Under no circumstances may a facility's reimbursement exceed the lower of its actual costs or customary charge to private-pay patients, as required by federal law, subject to the exceptions in federal law. The Department's cost caps can be exceeded through the distressed facility process, but to an amount no greater than the federal upper payment limit. (5-8-09)

03. Annual Review. Distressed facility payments are assumed to be short-term in nature. Each distressed payment must be re-requested and re-justified for each subsequent fiscal year that the facility desires the distressed facility rate. (5-8-09)

04. Prospective Application. Distressed facility status will be applied only to facilities that are currently distressed or entering a period of distress. Distressed facility status will not be applied to retroactive rate years. (5-8-09)

05. Facility-by-Facility Basis. Each facility must independently establish distress on its own merits, whether or not other facilities with a common owner may also be experiencing distress. (5-8-09)

264. NURSING FACILITY: INTERIM ADJUSTMENTS TO RATES AS A RESULT OF NEW MANDATES.

Certain costs may be excluded from the cost limit calculations, may be subject to retrospective settlement at the discretion of the Department, and may result in changes to the prospective rates as provided in this Section to assure equitable reimbursement: (3-19-07)

01. Changes of More Than Fifty Cents Per Patient Day in Costs. Changes of more than fifty cents (\$.50) per patient day in costs otherwise subject to the cost limitations incurred by a facility as a result of changes in state or federal laws or rules will be reported separately on the cost report until such time as they can be properly reflected in the cost limits. (3-19-07)

a. The provider will report these costs on a separate schedule or by notations on the cost report so that these costs can be identified and reconciled to the provider's general ledger. These costs will be reported separately and will not be reimbursed through the rate setting process until the costs are fully represented in the cost data used to establish the cost limitations and rates. (3-19-07)

b. If more than one (1) increase occurs as a result of one (1) or more law or rule changes, the costs from each event are to be reported separately. (3-19-07)

c. The computation of the cost increase amount or amounts is to be presented in detail on a supplementary schedule or schedules unless the Department states otherwise. (3-19-07)

02. Interim Rate Adjustments. For interim rate purposes, the provider may be granted an increase in its prospective rate to cover such cost increases. A cost statement covering a recent period may be required with justification for the increased costs. The actual amount related to such increases will be determined at audit and may be retrospectively settled. (3-19-07)

03. Future Treatment of Costs. After the initial deadline has passed for all providers to file cost reports for reporting periods beginning on or after the date certain cost increases were first required, the Department will, at its option, include all of the previously excluded costs related to those increases in the calculation of costs subject to the cost center limits. The intent of this provision is for costs to be exempt from the cost limits until these costs are able to be fully and equitably incorporated into the data base used to project the cost limits. When cost increases which have been excluded from the cap are incorporated in the inflation indices used to set the cost limits, the cost indices will be adjusted to exclude the influence of such changes if the amount included in the index is identified. When the cost limits are set to include previously excluded amounts, any adjustments made to the indices related to the previously excluded costs will be removed. (3-19-07)

265. NURSING FACILITY: MDS REVIEWS.

The following Minimum Data Set (MDS) reviews will be conducted: (3-19-07)

01. Facility Review. Subsequent to the picture date, each facility will be sent a copy of its resident roster (a listing of residents, their RUG classification, case mix index, and identification as Medicaid or other). It will be the facility's responsibility at that time to review the roster for accuracy. If the roster is accurate, the facility will sign and return the roster for rate setting. If any errors are detected, those errors will be communicated to the Department in writing along with any supporting documentation. If the signed resident roster is not returned and no errors are communicated to the Department, the original resident roster will be used for rate setting. Once the resident roster has been used for rate setting, it will be considered final unless modified by subsequent Departmental review. (3-19-07)

02. Departmental Review. If a departmental review of the MDS data reveals errors that result in an incorrect case mix index, the provider's rate will be retroactively adjusted, for all quarters containing the incorrect assessment, and an amount due to or from the Department will be calculated. This does not include residents who received the default classification due to incomplete or inconsistent MDS data. (3-19-07)

266. NURSING FACILITY: BEHAVIORAL CARE UNIT (BCU) AND RATE STRUCTURE.

Effective October 1, 2012, the additional direct care costs associated with BCU residents will remain in direct care costs subject to the direct care cost limitation. Those qualifying BCU nursing facility providers may have a direct care cost limitation higher than non-BCU nursing facility providers. BCU nursing facility providers will not receive an increased indirect care cost limitation. (10-1-12)T

01. Determination. The BCU must have a qualifying program and have been providing care in the BCU to behavior residents as of July 1, 2011. Nursing facility providers that meet the BCU criteria will have BCU direct care costs included in direct care costs subject to the cost limit. The direct care cost limitation may be higher than a non-BCU nursing facility. (10-1-12)T

02. BCU Routine Customary Charge. If the cost to operate a BCU is included in a nursing facility's rate calculation, the nursing facility must report its usual and customary charge for semi-private rooms in both the BCU and general nursing facility. A weighted average routine customary charge is computed to represent the composite of all Medicaid nursing facility residents in the nursing facility based on the type of rooms they occupy, including the BCU. (10-1-12)T

03. Prospective Rate Setting. Beginning October 1, 2012, the direct care cost limit calculation for any special rate revenue offsets in the prior year related to one-to-one (1:1) staffing ratios, BCU, or increased staffing, will be reversed before calculating the cost limit. This revenue offset reversal excludes revenues related to special rate add-ons for ventilator-dependent or tracheostomy services. Rates will be calculated using the cost report ended in the calendar year prior to each July 1 rate setting period with the BCU's direct care costs included in direct care costs subject to the higher BCU cost limit. (10-1-12)T

04. Rates Effective October 1, 2012. For rates effective October 1, 2012, a nursing facility designated as a BCU during each nursing facility provider's cost report ended in calendar year 2011 must be identified. (10-1-12)T

a. Days approved for a BCU during the 2011 cost report year must be identified. (10-1-12)T

b. To qualify as a BCU, Medicaid BCU days identified in Subsection 266.04.a. of this rule, are divided by total days in the nursing facility and that calculation must equal or exceed a minimum of fifteen percent (15%). (10-1-12)T

05. Annual Rates Beginning July 1, 2013. For annual rates beginning July 1, 2013, once a rate has been set as provided in Subsection 266.03 of this rule, the following process will be used to determine BCU eligibility. A nursing facility must apply for BCU eligibility on an annual basis. Eligibility is determined by: (10-1-12)T

a. BCU days, regardless of payer source, are divided by the total occupied days in the nursing facility and that calculation must equal or exceed a minimum of twenty percent (20%). (10-1-12)T

b. The BCU nursing facility provider must provide a list of all residents they believe were qualified for BCU status for the previous year; (10-1-12)T

i. The Department will select a sample of Idaho Medicaid participants from the submitted list. The nursing facility provider must send the MDS for each selected sample participant, along with related census information, and other requested information to the Department. (10-1-12)T

ii. The Department will review this information to determine that the participants meet the requirements of Subsection 266.06 of this rule and calculate the percentage of BCU days to the total occupied days in the facility to determine whether the facility meets the BCU eligibility requirement in Subsection 266.05.a. of this rule. (10-1-12)T

06. Participant Characteristics. All participants in a BCU must meet the criteria for nursing facility level of care, and have the following characteristics as provided in the participants' MDS assessment: (10-1-12)T

a. Medically based behavior disorder which causes a significantly diminished capacity for judgment, retention of information, or decision making skills, or medically based mental health disorder of diagnosis and has a high level resource use; and (10-1-12)T

b. Must have a history or demonstrate need for additional resources to provide for disruptive behaviors requiring enhanced resource use from nursing facility staff, evidenced by one (1) or more of the following: (10-1-12)T

i. Wandering behaviors; (10-1-12)T

ii. Verbally abusive behaviors; (10-1-12)T

iii. Physically abusive behaviors; (10-1-12)T

iv. Socially inappropriate or disruptive behaviors, such as verbal or vocal symptoms like disruptive sounds, noises, screaming, physical symptoms like self-abusive acts, public sexual behavior or disrobing in public, smearing or throwing food or bodily wastes, hoarding, rummaging through belongings of other residents; (10-1-12)T

v. Behaviors that resist care; or (10-1-12)T

vi. Does not meet unit discharge criteria outlined in Subsection 266.13 of this rule. (10-1-12)T

c. A behavior baseline profile must be established for each participant; (10-1-12)T

d. A behavior intervention program must be in place for each participant, designed to reduce or control the inappropriate behaviors to enhance the participant's quality of life, functional and cognitive status or safety. (10-1-12)T

07. BCU Annual Renewal. The facility must request continuation in the BCU program annually. The request must include the following: (10-1-12)T

a. A description of the facility's program that includes the required components in Subsections 266.05 and 266.06 of this rule; and (10-1-12)T

b. A profile of the types of behavior of participants served and any restrictions the facility has adopted. (10-1-12)T

08. Administrative and Staffing Requirements. (10-1-12)T

a. Staffing must be at a level necessary for the facility to be able to provide direct supervision of participants as needed. (10-1-12)T

b. Psychiatrist or physician extender must be available to consult as needed for initial and on-going assessments and for twenty-four hours a day/seven days a week (24/7) emergency services. Consultants must make at least quarterly site visits and be available to participate in Behavior Management Team meetings as needed.

(10-1-12)T

c. Licensed Master Social Worker (LMSW), Licensed Professional Counselor (LPC), or Licensed Social Worker (LSW) with behavioral experience must be available to consult as needed, make periodic site visits and to participate in the assessment, behavioral intervention planning, behavioral intervention implementation and Behavior Management Team meetings as needed.

(10-1-12)T

09. Behavior Management Team Meetings. Weekly behavior management team meetings must be conducted that include but are not limited to psychiatrist, physician, facility social services staff, behavior program director, director of nursing services, dietary manager, recreational services or activity director, and selected primary care staff. Physicians, psychiatrists, social services consultants and other off-site specialists are included as needed, and may participate in person or by telephone.

(10-1-12)T

10. Staff Training. Behavioral training classes for staff that are tailored to the needs of the positions involved, and includes appropriate information on:

(10-1-12)T

a. Assessment and prevention; (10-1-12)T

b. Medication and side effects; (10-1-12)T

c. Effects of disease process on mood state; (10-1-12)T

d. Safety techniques; (10-1-12)T

e. Deflecting aggression or target behaviors; (10-1-12)T

f. Comprehensive environmental intervention; (10-1-12)T

g. Stress management; and (10-1-12)T

h. Documentation and charting. (10-1-12)T

11. Yearly Training. Yearly training for behavioral interventions and safety techniques is required for staff. (10-1-12)T

12. Care Planning, Behavioral Management, and Programming. Individualized care plans, based on assessments of cognitive and functional abilities, along with behavior analysis to create a strategy for prevention and intervention that are documented for each participant and include the following: (10-1-12)T

a. Thirty (30) day assessments of progress made by each participant, must be completed, documented, and reviewed by the facility's behavioral management team. (10-1-12)T

b. Comprehensive behavior monitoring techniques that track and trend the intensity and daily occurrence of behaviors, successful interventions, and behavior modification techniques used must be documented for each participant. (10-1-12)T

c. Attempts to involve family and responsible parties with the participant through visits, training, outings, or appropriate communications, must be documented. (10-1-12)T

d. Recreational and activity programming must be targeted to specific needs of each individual participant and the behaviors each participant exhibits must be documented. (10-1-12)T

e. Integration for appropriate social interactions must be used when appropriate for each individual participant. (10-1-12)T

- f. Community for transition must be used when appropriate for each individual participant. (10-1-12)T
- g. Attempts to meet discharge criteria must be documented for each individual participant when progress shows a decline in the need for special care programming. (10-1-12)T
- 13. Discharge Criteria.** The BCU must maintain and document discharge criteria as follows: (10-1-12)T
- a. Document improvement in ability to function that would enable transfer to less-restrictive environment. (10-1-12)T
- b. Document lack of benefit from specialized programs offered in BCU. (10-1-12)T
- c. Document consistent refusals by participant or responsible party to allow interventions that are determined to be helpful, (10-1-12)T
- d. Document acute danger to self or others that cannot be managed by staffing in the BCU. (10-1-12)T
- e. Document acute physical illness or complications requiring a higher level of medical care than available in the facility. (10-1-12)T
- f. A nursing facility provider that is approved for one-hundred percent (100%) behavioral participants will be exempt for the discharge criteria provided in Subsections 266.13.a. through 266.13.e. of this rule. (10-1-12)T
- 14. Termination of BCU Status.** If a provider opts to leave the BCU program, the Department must be notified so the direct care cap can be adjusted to that of a non-BCU provider, beginning with the next rate year. (10-1-12)T
- 15. Refusal of Admissions.** These rules do not preclude a nursing facility from refusing to admit a participant whose needs cannot be met by the nursing facility. (10-1-12)T
- 267. NURSING FACILITY: NEW BEHAVIORAL CARE UNIT (BCU).**
- 01. Criteria to Qualify as a New BCU.** A nursing facility provider must meet the following criteria to qualify as a new BCU nursing facility provider: (10-1-12)T
- a. BCU days from the cost report period, regardless of payer source, are divided by the total occupied days in the nursing facility, and that calculation must equal or exceed a minimum of twenty percent (20%). (10-1-12)T
- b. A qualifying cost report must demonstrate that the nursing facility provider has a qualifying program in place with residents. (10-1-12)T
- 02. First Cost Reporting Year.** No BCU eligibility, or increased direct care cost limit will be allowed in the first cost reporting year the BCU program is added. (10-1-12)T
- 03. Qualifying Report in Tandem with BCU Eligibility.** Once a qualifying cost report is submitted for the BCU program, and the nursing facility provider qualifies in tandem with the BCU eligibility criteria, the cost report will be used to set a prospective rate effective the following July 1 rate period with the increased direct care cost limit. (10-1-12)T
- 268. NURSING FACILITY: EXISTING PROVIDER ELECTS TO ADD BEHAVIORAL CARE UNIT (BCU).**
An existing nursing facility provider that elects to add a BCU after July 1, 2011, may be deemed eligible after

meeting the following requirements: (10-1-12)T

01. Qualifying Cost Report. A qualifying cost report that demonstrates a qualifying program is in place with residents and meets the criteria in Section 282 of these rules. (10-1-12)T

02. Meet Criteria for BCU. The nursing facility provider must meet the criteria for a BCU described in Section 266 of these rules. (10-1-12)T

03. BCU Payments. No BCU payments or increased direct care cost limits will be allowed in the first cost reporting year the program is added. Once a qualifying cost report is submitted, and the provider qualifies in tandem with the BCU criteria, the cost report will be used to set a prospective rate, effective with the following July 1 rate period with the increased direct care cost limit. (10-1-12)T

269. NURSING FACILITY; NEW OWNER OF AN EXISTING NURSING FACILITY WITH A BEHAVIORAL CARE UNIT (BCU).

01. New Owner Elects to Continue BCU. An existing nursing facility that is considered a BCU will continue to be a BCU, if the new owner elects to continue to provide these services. The new owner will receive a rate calculated according to the current change of ownership rules in Section 261 of these rules. The prior owner's cost report will be used until the new owner has a qualifying cost report. They BCU will continue to qualify for the higher direct care cost limit the previous owner was allowed. (10-1-12)T

02. New Owner Does Not Elect to Continue BCU. If the new owner does not elect to operate the BCU, the prior owner's cost report will be used. The direct care cost limit will be adjusted down to that of the non-BCU nursing facility. (10-1-12)T

270. NURSING FACILITY; SPECIAL RATES.

A special rate consists of a facility's daily reimbursement rate for a patient plus an add-on amount. Section 56-117, Idaho Code, provides authority for the Department to pay facilities an amount in addition to the daily rate when a patient has needs that are beyond the scope of facility services and when the cost of providing for those additional needs is not adequately reflected in the rates calculated. This special rate add-on amount for such specialized care is in addition to any payments made in accordance with other provisions of this chapter and is excluded from the computation of payments or rates under other provisions in these rules. (10-1-12)T

01. Determination. The Department determines to approve a special rate on a patient-by-patient basis. No rate will be allowed if reimbursement for these needs is available from a non-Medicaid source. A special rate request must be based on an identified condition that will continue for a period greater than thirty (30) days. (3-4-11)

02. Effective Date. Upon approval, a special rate is effective on the date the application was received. (3-4-11)

03. Reporting. Costs equivalent to payments for special rate add-on amounts must be removed from the cost components subject to limits, and be reported separately by the provider. (3-19-07)

04. Limitation. A special rate cannot exceed the provider's charges to other patients for similar services. (3-19-07)

05. Prospective Rate Treatment. Prospective treatment of special rates became effective July 1, 2000. Subsections 270.06 and 270.07 of this rule provide clarification of how special rates are paid under the prospective payment system. (10-1-12)T

06. Determination of Payment for Qualifying Residents. Special rate add-on amounts are calculated using one (1) of the methods described in Subsections 270.06.a. through 270.06.c. of this rule. (10-1-12)T

a. One Hundred Percent (100%) Special Care Facility Existing July 1, 2000. If on July 1, 2000, an entire facility was a special care unit which included Medicaid residents, the facility's direct care cost per diem will not be subject to the direct care cost limit. However, the direct care costs are case mix adjusted based on the ratio of

the facility's Medicaid CMI for the rate period to the facility-wide CMI for the cost reporting period. (3-19-07)

b. Equipment and Non-Therapy Supplies. Equipment and non-therapy supplies not addressed in Section 225 of these rules as determined by the Department, are reimbursed in accordance with IDAPA 16.03.09, "Medicaid Basic Plan Benefits," Section 755, as an add-on amount. (10-1-12)T

c. Ventilator Dependent Residents and Residents Receiving Tracheostomy Care. In the case of residents who are ventilator-dependent and who receive tracheostomy care, the special add-on amount to the facility's rate for approved residents receiving this care, is determined by combining the following two (2) components: (10-1-12)T

i. Calculation of a staffing add-on for the cost, if any, for additional direct care staff required in meeting the exceptional needs of these residents. The hourly add-on rate is equal to the current WAHR CNA or current WAHR RN wage rate plus a benefits allowance based on annual cost report data, then weighted to remove the CNA minimum daily staffing time adjusted for the appropriate skill level of care staff; and (10-1-12)T

ii. Calculation of an add-on for equipment and non-therapy supplies following the provisions in Subsection 270.06.b. of this rule. (10-1-12)T

07. Treatment of the Special Rate Cost for Future Rate Setting Periods. Special rates are established on a prospective basis similar to the overall facility rate. When the cost report used to set a prospective rate contains special rate costs, an adjustment is made to "offset," or reduce costs by an amount equal to total incremental revenues, or add-on payments received by the provider during the cost reporting period. The amount received is calculated by multiplying the special rate add-on amount paid for each qualifying resident by the number of days that were paid. No related adjustment is made to the facility's CMIs. (10-1-12)T

08. Special Rate for Providers that Change Ownership or Close. When a facility changes ownership or closes, a closing cost report is not required. Special rate payments made in the closing cost reporting period may be reviewed by the Department. (10-1-12)T

271. NURSING FACILITY: OVERSIGHT COMMITTEE.

The Director will appoint an oversight committee to monitor implementation of the Prospective Payment System (PPS) for nursing facility reimbursement. The committee will be made up of at least one (1) member representing each of the following organizations: the Department, the state associations representing free standing skilled care facilities, and the state associations representing hospital-based skilled care facilities. The committee will continue to meet periodically subsequent to the implementation of the PPS. (5-8-09)

272. NURSING FACILITY: LEGAL CONSULTANT FEES AND LITIGATION COSTS.

Costs of legal consultant fees and litigation costs incurred by the provider will be handled in accordance with the following: (3-19-07)

01. In General. Legal consultant fees unrelated to the preparation for or the taking of an appeal of an audit performed by the Department of Health and Welfare, or litigation costs incurred by the provider in an action unrelated to litigation with the Department of Health and Welfare, will be allowed as a part of the total per diem costs of which the Medicaid Program will reimburse a portion according to the percentage of Medicaid patient days. (3-19-07)

02. Administrative Appeals. In the case of the provider contesting in administrative appeal the findings of an audit performed by the Department of Health and Welfare, the costs of the provider's legal counsel will be reimbursed by the Medicaid Program only to the extent that the provider prevails on the issues involved. The determination of the extent that the provider prevails will be based on the ratio of the total dollars at issue for the audit period at issue in the hearing to the total dollars ultimately awarded to the provider for that audit period by the hearing officer or subsequent adjudicator. (3-19-07)

03. Other. All other litigation costs incurred by the provider in actions against the Department of Health and Welfare will not be reimbursable either directly or indirectly by the Medicaid Program except where specifically ordered by a court of law. (3-19-07)

273. NURSING FACILITY: PATIENT FUNDS.

The safekeeping of patient funds, under the program, is the responsibility of the provider. Accordingly, the administration of these funds requires scrupulous care in recording all transactions for the patient. (3-19-07)

01. Use. Generally, funds are provided for personal needs of the patient to be used at the patient's discretion. The provider agrees to manage these funds and render an accounting but may not use them in any way. (3-19-07)

02. Provider Liability. The provider is subject to legal and financial liabilities for committing any of the following acts. This is only a partial listing of the acts contrary to federal regulations: (3-19-07)

a. Management fees may not be charged for managing patient trust funds. These charges constitute double payment as management is normally performed by an employee of the provider and their salary is included in reasonable cost reimbursement. (3-19-07)

b. Nothing is to be deducted from these funds, unless such deductions are authorized by the patient or his agent in writing. (3-19-07)

c. Interest accruing to patient funds on deposit is the property of the patients and is part of the personal funds of each patient. The interest from these funds is not available to the provider for any use, including patient benefits. (3-19-07)

03. Fund Management. Proper management of such funds would include the following as minimum: (3-19-07)

a. Savings accounts, maintained separately from facility funds. (3-19-07)

b. An accurate system of supporting receipts and disbursements to patients. (3-19-07)

c. Written authorization for all deductions. (3-19-07)

d. Signature verification. (3-19-07)

e. Deposit of all receipts of the same day as received. (3-19-07)

f. Minimal funds kept in the facility. (3-19-07)

g. As a minimum these funds must be kept locked at all times. (3-19-07)

h. Statement of policy regarding patient's funds and property. (3-19-07)

i. Periodic review of these policies with employees at training sessions and with all new employees upon employment. (3-19-07)

j. System of periodic review and correction of policies and financial records of patient property and funds. (3-19-07)

274. NURSING FACILITY: IDAHO OWNER-ADMINISTRATIVE COMPENSATION.

Allowable compensation to owners and persons related to owners who provide any administrative services will be limited based on the schedule in this section. (3-19-07)

01. Allowable Owner Administrative Compensation. The following schedule will be used in determining the maximum amount of owner administrative compensation allowable for the calendar year ending December 31, 2002.

Licensed Bed Range	Upper limit
51 - 100	86,951
101 - 150	95,641
151 - 250	129,878
251 - up	186,435

(3-19-07)

02. The Administrative Compensation Schedule. The administrative compensation schedule in this Section will be adjusted annually based upon the change in average hourly earnings in nursing and personal care facilities as published by Data Resources Incorporated, its successor organization or, if unavailable, another nationally recognized forecasting firm. (3-19-07)

03. The Maximum Allowable Compensation. The maximum allowable compensation for an owner providing administrative services is determined from the schedule in Subsection 274.01 of these rules. Allowable compensation will be determined as follows: (3-19-07)

a. In determining the number of beds applicable on the schedule, all licensed beds for which the individual provides administrative services will be counted, regardless of whether they are in the same facility. (3-19-07)

b. For an owner providing services to more than fifty (50) beds, the amounts shown on the schedule for the applicable number of beds will determine the upper limit for allowable compensation. (3-19-07)

c. For owners providing services to less than fifty-one (51) beds, such services related to administrative duties will be reimbursed at the hourly rate allowable if the owner was providing services to fifty-one (51) beds. Additionally, services other than administrative services may be performed by the owner and will be allowable at the reasonable market rate for such services. To be allowable, hours for each type of service will be documented. In no event will the total compensation for administrative and non-administrative duties paid to an owner or related party to an owner of a facility or facilities with fifty (50) licensed beds or less exceed the limit that would be applicable to an owner with the same number of points providing administrative services to facilities with fifty-one (51) beds as set forth in the schedule of Subsection 274.01 of these rules. (3-19-07)

04. Compensation for Persons Related to an Owner. Compensation for persons related to an owner will be evaluated in the same manner as for an owner. (3-19-07)

05. When an Owner Provides Services to More Than One Provider. When an owner provides services to more than one (1) provider compensation will be distributed on the same basis as costs are allocated for non-owners. (3-19-07)

06. More Than One Owner or Related Party May Receive Compensation for Hours Actually Worked. Services must be actually performed, documented and necessary. Total compensation must be reasonable, and not greater than the amount for which the same services could be obtained on the open market. The standard by which full time compensation is measured will be two thousand eighty (2,080) hours. Compensation of an owner or a party related to an owner is subject to other provisions of this chapter, and will not exceed the compensation determined from the Administrative Compensation Schedule, and, on an hourly basis, will not exceed the compensation determined in the Administrative Compensation Schedule divided by two thousand eighty (2,080). (3-19-07)

275. NURSING FACILITY: PROPERTY RENTAL RATE REIMBURSEMENT.

Free standing nursing facilities other than hospital based nursing facilities will be paid a property rental rate. Property taxes and property insurance will be reimbursed as costs exempt from limitations. The property rental rate includes compensation for major movable equipment but not for minor movable equipment. The property rental rate is paid in

lieu of payment for amortization, depreciation, and interest for financing the cost of land and depreciable assets. Prior to final audit for free-standing nursing facilities, an interim rate for property reimbursement will be set to approximate the property rental rate as determined by Sections 56-108 and 56-109, Idaho Code. (3-19-07)

01. Property Rental Rate. The property rental rate is based upon current construction costs, the age of the facility, the type of facility, and major expenditures made to improve the facility, or a rate based upon property costs as of January 1, 1985. The amount paid for each Medicaid day of care will be phased in according to Section 275.01 of these rules, and, beginning April 1, 1985, will be: (3-19-07)

R = "Property Base" x 40 - "Age" / 40 x "change in building costs" where: (3-19-07)

- a. "R" = the property rental rate. (3-19-07)
- b. "Property Base" = thirteen dollars and nineteen cents (\$13.19) beginning October 1, 1996 for all freestanding nursing facilities. (3-19-07)
- c. "Change in building costs" = 1.0 from October 1, 1996, through December 31, 1996. Beginning January 1, 1997, "change in building costs" will be adjusted each calendar year to reflect the reported annual change in the building cost index for a class D building in the western region, as published by the Marshall Swift Valuation Service or the consumer price index for renter's costs whichever is greater. For freestanding nursing facilities, the index available in September of the prior year will be used. (3-19-07)

d. "Age" of facility - The effective age of the facility in years will be set by subtracting the year in which the facility, or portion thereof, was constructed from the year in which the rate is to be applied. No facility or portion thereof will be assigned an age of more than thirty (30) years, however: (3-19-07)

i. If adequate information is not submitted by the facility to document that the facility, or portion thereof, is newer than thirty (30) years, the age will be set at thirty (30) years. Adequate documentation will include, but not be limited to, such documents as copies of building permits, tax assessors' records, receipts, invoices, building contract, and original notes of indebtedness. An age will be determined for each building. A weighted average using the age and square footage of the buildings will become the effective age of the facility. The age of each building will be based upon the date when construction on that building was completed. This age will be adjusted to reflect major building expansion or remodeling prior to April 1, 1985, if that expenditure was large enough to reduce the age of the facility by two (2) or more years according to the following formula: (3-19-07)

$$r = A \times E / S \times C$$

Where:

r	=	Reduction in the age of the facility in years.
A	=	Age of the building at the time when construction was completed.
E	=	Actual expenses for the construction provided that the total costs must have been incurred within twenty-four (24) months of the completion of the construction.
S	=	The number of square feet in the building at the end of construction.
C	=	The cost of construction for the buildings in the year when construction was completed according to the schedule in Subsection 275.01.d.ii.

If the result of this calculation, "r" is equal to or greater than 2.0, the age of the building in years will be reduced by this number, rounded to the nearest whole number for rate setting purposes. In no case will the age be less than zero (0). (3-19-07)

- ii. Historical nursing home construction cost per square foot for purposes of evaluating facility age.

Age	Year	Cost	Age	Year	Cost	Age	Year	Cost
1	2004	82.41	2	2003	80.80	3	2002	79.06

iii. For rates paid after June 30, 1989, the effective age of a facility will be further adjusted when the cost of major repairs, replacement, remodeling, or renovation of a building initiated after April 1, 1985, results in the change in age by at least one (1) year when applied to the formula in Subsection 275.01.d.i. of these rules. However, such change will not decrease the effective age of a facility beyond the point where the increase in the property rental rate is greater than three-fourths (3/4) of the difference between the property rental rate "r" for a new facility at the time of the proposed rate revision and the property rental rate for which the facility was eligible immediately before the adjustment. The cost used for "C" will be adjusted according to costs published by Marshall Swift Valuation Service to reflect current construction costs for average Class D convalescent hospitals. It is the provider's responsibility to notify the Department and document costs. The Department will adjust the age after documentation of costs. (3-19-07)

iv. In the event that new requirements are imposed by state or federal agencies, the Department will reimburse the expenditures directly related to these requirements as an increase in the property rental rate if the expense is in excess of one hundred dollars (\$100) per bed. If the cost related to the requirement is less than one hundred dollars (\$100) per bed, the Department will, within twelve (12) months of verification of expenditure, reimburse the Medicaid share of the entire cost of such new requirements, as a one (1) time payment to the facility. (3-19-07)

v. At no time will the property rental rate paid to a facility be less than the greater of the rate allowable to that facility on December 31, 1988, the rate allowable immediately following the first opening of a new facility after December 31, 1988, or the rate allowable immediately following the last, if any, age revision after December 31, 1988. However, subsequent to the application of this provision, before any property rental rate increase may be made for current or successor operators, the final settlement amount of any increase in the property rental rate will first be offset by an amount equal to the impact on final settlement of any rate decrease that would have occurred if the provisions of Subsections 275.01.d.iii. and 275.01.d.iv. of these rules had not been applied. This is intended to allow the postponement of the financial burden to providers of property rental rate decreases and to allow an equal offset of the financial burden to the state of subsequent property rate increases for a current or successor provider. (3-19-07)

vi. Effective July 1, 1991, for freestanding nursing facilities, "age of facility" will be a revised age which is the lesser of the age established under other provisions of this Section or the age which most closely yields the rate allowable to existing facilities as of June 30, 1991, under Subsection 275.01 of these rules. This revised age will not increase over time. (3-19-07)

02. Grandfathered Rate. A "grandfathered property rental rate" for existing free-standing nursing facilities will be determined by dividing the audited allowable annualized property costs, exclusive of taxes and insurance, for assets on hand as of January 1, 1985, by the total patient days in the period July 1, 1984, through June 30, 1985. (3-19-07)

a. Prior to audit settlement, the interim rate for property costs allowable as of January 1, 1985, will be used to approximate the grandfathered rate. (3-19-07)

b. The grandfathered property rental rate will be adjusted to compensate the facility for the property costs of major repairs, replacement, expansion, remodeling or renovation initiated prior to April 1, 1985, and completed during calendar year 1985. (3-19-07)

c. Beginning July 1, 1989, facilities receiving grandfathered rates may have those rates adjusted for modifications related to major repairs, replacement, expansion, remodeling, or renovation initiated after January 1, 1986, if the cost of these modifications would be sufficient to reduce the age of the facility by one (1) year or more according to Subsection 275.01.d.i. of these rules. The grandfathered rate will be revised after completion of modifications and will be the greater of: (3-19-07)

i. The grandfathered rate previously allowed; or (3-19-07)

ii. The actual per diem property costs of amortization, depreciation and interest not applicable to the modifications for the audit period in which the modifications were completed plus the per diem rate of the first year amortization of the cost of these modifications when amortized over American Hospital Association guideline useful life or lives. However, no change in the grandfathered rate will be allowed to change that rate by more than three-fourths (3/4) of the difference between the previous grandfathered rate and the property rental rate that would be paid for a new building at the time of the proposed rate revision. (3-19-07)

d. The facility will be reimbursed a rate which is the higher of the grandfathered property rental rate as determined according to provisions of Subsection 275.02 of these rules or the property rental rate determined according to Subsections 275.01, 275.03, or 275.05 of these rules. (3-19-07)

03. Leased Freestanding Nursing Facilities. Freestanding nursing facilities with leases will not be reimbursed in the same manner specified in Subsections 275.01 and 275.02 of these rules. Provisions in this section do not apply to reimbursement of home office costs. Home office costs will be paid based on reasonable cost principles. (3-19-07)

a. Facilities with leases entered into on or after March 30, 1981, are to be reimbursed in the same way as owned facilities with ownership costs being recognized instead of lease costs. (3-19-07)

b. Facilities with leases entered into prior to March 30, 1981, will not be subject to reimbursement according to the provisions of Subsections 275.01 or 275.02 of these rules. Their property rental rate per day of care will be the sum of the annualized allowed lease costs and the other annualized property costs for assets on hand as of January 1, 1985, exclusive of taxes and insurance when paid separately, divided by total patient days in the period June 30, 1983, through July 1, 1984. (3-19-07)

i. Effective July 1, 1989, the property rental rates of leased nursing facilities with leases entered into prior to March 30, 1981, may be adjusted to compensate for increased property costs resulting from facility modifications related to major repairs, replacement, expansion, remodeling, or renovation initiated after January 1, 1985, if the cost would be sufficient to reduce the age of the facility by one (1) year or more according to Subsection 275.01.d.i. of these rules. The rate will be revised after the completion of such modifications and will be the greater of the property rental rate previously allowed under Subsection 275.03, or the actual per diem property costs for the amortization, depreciation, and interest not applicable to the modifications for the reporting period in which the modifications were completed, plus the per diem of the first year amortization of the modification expenses using the American Hospital Association guideline useful life of lives. However, no such rate change will increase the allowable property rental rate by more than three-fourths (3/4) of the difference between the previous rate and the property rental rate that would be allowed for a new building at the time of the proposed rate revision. (3-19-07)

ii. Where such leases contain provisions that bind the lessee to accept an increased rate, reimbursement will be at a rate per day of care which reflects the increase in the lease rate. (3-19-07)

iii. Where such leases bind the lessee to the lease and allow the rate to be renegotiated, reimbursement will be at a rate per day of care which reflects an annual increase in the lease rate not to exceed the increase in the consumer price index for renters' costs. After April 1, 1985, if such a lease is terminated or if the lease allows the lessee the option to terminate other than by an option to purchase the facility, the property rental rate will become the

amount “R” determined by the formula in Subsection 275.01 of these rules as of the date on which the lease is or could be terminated. (3-19-07)

04. Sale of a Facility. In the event of the sale of a facility, or asset of a facility, the buyer will receive the property rental rate of Subsection 275.01 of these rules, except in the event of a forced sale or except in the event of a first sale of a facility receiving a “grandfathered rate” after June 30, 1991, whereupon the property rental rate of the new owner will be computed as if no sale had taken place. (3-19-07)

05. Forced Sale of a Facility. In the event of a forced sale of a facility, or asset of a facility, where the seller has been receiving a grandfathered rate, the buyer will receive a rate based upon his incurred property costs, exclusive of taxes and insurance, for the twelve (12) months following the sale, divided by the facility’s total patient days for that period, or the property rental rate, not modified by Section 275 of these rules, whichever is higher, but not exceeding the rate that would be due the seller. (3-19-07)

276. -- 277. (RESERVED)

278. NURSING FACILITY: OCCUPANCY ADJUSTMENT FACTOR.

In order to equitably allocate fixed costs to the Medicaid patients in cases where a facility is not maintaining reasonable occupancy levels, an adjustment will be made. No occupancy adjustment will be made against the costs that are used to calculate the property rental rate; however adjustment will be made against all other property costs. The adjustment will be made as follows: (3-19-07)

01. Occupancy Levels. If a facility maintains an average occupancy of less than eighty percent (80%) of a facility’s capacity, the total property costs not including cost paid under the property rental rate, will be prorated based upon an eighty percent (80%) occupancy rate. Property costs and property rental rates are defined in Section 013 of these rules. The facility’s average occupancy percentage will be subtracted from eighty percent (80%) and the resultant percentage will be taken times the total fixed costs to determine the nonallowable fixed costs. (3-19-07)

02. Occupancy Adjustment. For purposes of an occupancy adjustment, facility capacity will be computed based upon the greater of the largest number of beds for which the facility was licensed during the period being reported on or the largest number of beds for which the facility was licensed during calendar year 1981, except where a portion of the facility has been converted to use for nonroutine nursing home activities or the facility is newly constructed and has entered the Medicaid Program subsequent to January 1, 1982. If the facility’s designed capacity has been changed, the number of beds used to determine occupancy will be lowered by the amount of capacity being converted to nonroutine nursing home activities. Facility capacity for a new facility will be based on the number of beds approved by the certificate of need process less any capacity converted to nonroutine nursing home activities. (3-19-07)

03. Fixed Costs. For purposes of an occupancy adjustment fixed costs will be considered all allowable and reimbursable costs reported under the property cost categories. (3-19-07)

04. Change in Designed Capacity. In cases where a provider changes the designed capacity of a facility, the average occupancy for the period prior to the change and subsequent to the change will be computed and each period will be adjusted separately. If the designed capacity is increased, the increased number of beds will not be subject to this adjustment for the first six (6) months following their licensure. (3-19-07)

05. New Facility. In the case of a new facility being licensed and occupied, the first six (6) months occupancy level will not be subject to this adjustment. (3-19-07)

279. NURSING FACILITY: RECAPTURE OF DEPRECIATION.

Where depreciable assets that were reimbursed based on cost and were used in the Medicaid Program by a facility subsequent to January 1, 1982, and for which depreciation has been reimbursed by the Program, are sold for an amount in excess of their net book value, depreciation so reimbursed will be recaptured from the buyer of the facility in an amount equal to reimbursed depreciation after January 1, 1982, or gain on the sale, whichever is less. (3-19-07)

01. Amount Recaptured. Depreciation will be recaptured in full if a sale of a depreciated facility takes

place within the first five (5) years of a seller's ownership. Credit will be given for the period of ownership prior to January 1, 1982. For every year the asset is held beyond the first five (5) years, the total depreciation recaptured will be reduced by ten percent (10%) per year of the total depreciation taken. (3-19-07)

02. Time Frame. Depreciation will be recaptured by the Medicaid Program from the buyer of the facility over a period of time not to exceed five (5) years from the date of sale, with not less than one-fifth (1/5) of the total amount being recaptured for each year after such date. (3-19-07)

280. NURSING FACILITY: REPORTING SYSTEM.

The objective of the reporting requirements is to provide a uniform system of periodic reports which will allow: (3-19-07)

01. Basis for Reimbursement. A basis of provider reimbursement approximating actual costs. (3-19-07)

02. Disclosure. Adequate financial disclosure. (3-19-07)

03. Statistical Resources. Statistical resources, as a basis for measurement of reasonable cost and comparative analysis. (3-19-07)

04. Criteria. Criteria for evaluating policies and procedures. (3-19-07)

281. NURSING FACILITY: REPORTING SYSTEM PRINCIPLE AND APPLICATION.

The provider will be required to file mandatory annual cost reports. (3-19-07)

01. Cost Report Requirements. The fiscal year end cost report filing must include: (3-19-07)

a. Annual income statement (two (2) copies); (3-19-07)

b. Balance sheet; (3-19-07)

d. Schedule of patient days; (3-19-07)

e. Schedule of private patient charges; (3-19-07)

f. Statement of additional charges to residents over and above usual monthly rate; and (3-19-07)

g. Other schedules, statements, and documents as requested. (3-19-07)

02. Special Reports. Special reports may be required. Specific instructions will be issued, based upon the circumstance. (3-19-07)

b. Presented on accrual basis. (3-19-07)

c. Prepared in accordance with generally accepted accounting principles and principles of reimbursement. (3-19-07)

d. Appropriate detail must be provided on supporting schedules or as requested. (3-19-07)

04. Preparer. It is not required that any statement be prepared by an independent, licensed or certified public accountant. (3-19-07)

05. Reporting by Chain Organizations or Related Party Providers. PRM, Section 2141.7, prohibits the filing of combined or consolidated cost reports as a basis for cost reimbursement. Each facility so related must file a separate set of reports. These cost reports will be required for each level of organization that allocates expenses to the provider. Consolidated financial statements will be considered supplementary information and are not acceptable as fulfilling the primary reporting requirements. (3-19-07)

06. Change of Management or Ownership. To properly pay separate entities or individuals when a change of management or ownership occurs, the following requirements must be met: (3-19-07)

a. Outgoing management or administration must file an adjusted-period cost report if they are being reimbursed on a retrospective basis at the time of the charge. This report must meet the criteria for annual cost reports, except that it must be filed not later than sixty (60) days after the change in management or ownership for the purpose of computing a final program settlement. (3-19-07)

b. The Department may require an appraisal at the time of a change in ownership. (3-19-07)

c. Providers who are receiving a new provider rate or being reimbursed on a prospective basis, when the change of management or ownership occurs, will not be required to file a closing cost report. (3-19-07)

282. NURSING FACILITY: REPORTING PERIOD.

For purposes of nursing facility rate setting, cost report periods of less than six (6) months will not be used. If a provider changes their fiscal year-end or experiences a change in ownership, the last cost report filed by that facility that is greater than six (6) months will be used until a cost report exceeding six (6) months is received from the new owner, or is based on the new fiscal year. (3-19-07)

283. NURSING FACILITY: FILING DATES.

01. Deadlines. Deadlines for annual cost reports will be the last day of the third month following the fiscal year end or the deadline imposed by Medicare if the provider is required to file a Medicare cost report. (3-19-07)

02. Waivers. A delay of thirty (30) days may be granted for annual cost reports in unusual circumstances. Requests for such deferrals and reasons therefore must be in writing and should be made prior to the deadline. A written decision will be rendered in writing within ten (10) days. (3-19-07)

284. NURSING FACILITY: FAILURE TO FILE.

Failure to submit timely reports may result in a reduction in the interim rate. Failure to file the required cost reports, including required supplemental information, unless a waiver is granted, may result in a reduction of ten percent (10%) in the provider's interim rate(s) the first day of the month following the deadline date. Continued failure to comply will result in complete payment suspension on the first day of the following month. When suspension or reduction has occurred and the provider has filed the required cost reports, amounts accruing to the provider during the period of suspension or reduction will be restored. Loss of license or certification will result in immediate termination of reimbursement, full scope audit and settlement for the cost period. (3-19-07)

285. NURSING FACILITY: ACCOUNTING SYSTEM.

Reports must be filed using the accrual basis and conform with generally accepted accounting principles or within provisions of the guidelines as specified. In any case, the recorded transaction must be capable of verification by Departmental audit. (3-19-07)

Before any program payments can be made to a prospective provider the intermediary will review the provider's accounting system and its capability of generating accurate statistical cost data. Where the provider's record keeping capability does not meet program requirements the intermediary will offer limited consultative services or suggest revisions of the provider's system to enable the provider to comply with program requirements. (3-19-07)

02. Requirements. Providers Reimbursement Manual (PRM), Section 2404.3, states: "Examination of Pertinent Data and Information -- Providers asking to participate as well as those currently participating must permit the intermediary to examine such records and documents as are deemed necessary. 291. NURSING FACILITY: COSTS FOR THE COMPLETION OF NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS (NATCEPS) AND FOR COMPLYING WITH CERTAIN OTHER REQUIREMENTS.

Provisions of federal law require the state to give special treatment to costs related to the completion of training and competency evaluation of nurse aides and to increase rates related to other new requirements. Treatment will be as follows: (3-19-07)

01. Cost Reimbursement. Effective for cost reports filed and for payments made after April 1, 1990, NATCEP costs will be outside the content of nursing facility care and will be reported separately as exempt costs. (3-19-07)

02. Costs Subject to Audit. Such NATCEP costs are subject to audit, and must be reported by all nursing facilities, including those that are hospital-based, and are not included in the percentile cap. (3-19-07)

292. NURSING FACILITY: PAYMENTS FOR PERIODS OF TEMPORARY ABSENCE.

Payments may be made for reserving beds in long-term care facilities for participants during their temporary absence if the facility charges private paying patients for reserve bed days, subject to the following limitations: (3-19-07)

01. Facility Occupancy Limits. Payment for periods of temporary absence from long term care facilities will not be made when the number of unoccupied beds in the facility on the day preceding the period of temporary absence in question is equal to or greater than: (3-19-07)

a. If licensed beds are less than one hundred (<100) and they have five (5) or more beds unoccupied, leave of absence payments are not allowed. (3-19-07)

b. If licensed beds are greater than or equal to one hundred (>100), they must have a minimum occupancy rate of ninety-five percent (95%) for leave of absence payments to be allowed. (3-19-07)

02. Time Limits. Payments for periods of temporary absence from long term care facilities will be made for therapeutic home visits for nursing facility residents of up to three (3) days per visit and not to exceed a total of fifteen (15) days per calendar year so long as the days are part of a treatment plan ordered by the attending physician. (3-19-07)

03. Limits on Amount of Payments. Payment for reserve bed days will be the lesser of the following: (3-19-07)

i. Seventy-five percent (75%) of the audited allowable costs of the facility; or (3-19-07)

ii. The rate charged to private paying patients for reserve bed days. (3-19-07)

04. Payment Procedures. Each long term care facility must submit its claims to the Department in accordance with the procedures established by the Department. The Department will not pay for a claim on behalf of a medical assistance participant unless the information on the claim is consistent with the information in the Department's computer eligibility file. (3-19-07)

293. -- 294. (RESERVED)

295. NURSING FACILITY: UTILIZATION CONTROL REVIEWS.

Selection of participants to be reviewed at least annually: (3-19-07)

01. Level II Participants. Participants who have a Level II evaluation, with the review completed within the quarter of the admission anniversary date; and (3-19-07)

02. Special Medicaid Rate. Participants who are receiving services that require a special Medicaid rate; and (3-19-07)

03. Selected Recertification. Participants identified during previous reviews whose improvement may

remove the need for continuing nursing facility care. (3-19-07)

296. NURSING FACILITY: QUALITY INCENTIVES.

Nursing facility providers that are recognized for providing high quality care, based on determinations by the agency of the Department that inspects and certifies such facilities for participation in the Medicaid program, will be eligible for incentive payments. The amount of such payments and the basis therefore will be determined by the Director and will be paid in addition to any other payments for which the facility is eligible under other provisions of this chapter, including provisions related to limitations related to customary charges. However, such payments will be subject to available State and federal funds and will be postponed or omitted in the event that such payments along with other payments made to Nursing Facilities under this chapter would, in aggregate, exceed the estimated payments that would be made utilizing Medicare principles of cost reimbursement. (3-19-07)

297. -- 299. (RESERVED)

300. PERSONAL CARE SERVICES (PCS).

Under Sections 39-5601 through 39-5607, Idaho Code, it is the intent of the Department to provide personal care services (PCS) to eligible participants in their own homes or personal residences to prevent unnecessary institutional placement, to provide for the greatest degree of independence possible, to enhance quality of life, to encourage individual choice, and to maintain community integration. (3-19-07)

301. PERSONAL CARE SERVICES: DEFINITIONS.

(3-29-10)

302. PERSONAL CARE SERVICES: ELIGIBILITY.

01. Financial Eligibility. The participant must be financially eligible for medical assistance under IDAPA 16.03.01, "Eligibility for Health Care Assistance for Families and Children," or 16.03.05, "Rules Governing Eligibility for Aid to the Aged, Blind and Disabled (AABD)." (3-19-07)

02. Other Eligibility Requirements. Regional Medicaid Services (RMS) will prior authorize payment for the amount and duration of all services when all of the following conditions are met: (3-19-07)

a. The RMS finds that the participant is capable of being maintained safely and effectively in his own home or personal residence using PCS. (3-19-07)

b. The participant is an adult for whom a Uniform Assessment Instrument (UAI) has been completed, or a child for whom a children's PCS assessment has been completed; (3-29-10)

d. The participant has a plan of care. (4-2-08)

03. State Plan Option. A participant who receives medical assistance is eligible for PCS under the State Medicaid Plan option if the Department finds he requires PCS due to a medical condition that impairs his

physical or mental function or independence. (3-19-07)

RMS must make the medical eligibility redetermination. In addition to performing at least one (1) of the services listed in Subsections 303.01.a. through 303.01.f. of this rule, the provider may also perform the following services, if no natural supports are available: (3-29-10)

a. Incidental housekeeping services essential to the participant's comfort and health, including changing bed linens, rearranging furniture to enable the participant to move around more easily, laundry, and room cleaning incidental to the participant's treatment. Cleaning and laundry for any other occupant of the participant's residence are excluded. (3-19-07)

b. Accompanying the participant to clinics, physicians' office visits or other trips that are reasonable for the purpose of medical diagnosis or treatment. (3-19-07)

01. Service Delivery Based on Plan of Care or NSA. All PCS services are provided based on a written plan of care or a negotiated service agreement (NSA). The requirements for the NSA for participants in Residential Care or Assisted Living Facilities are described in IDAPA 16.03.22, "Residential Care or Assisted Living Facilities in Idaho." b. The plan of care must include all aspects of medical and non-medical care that the provider needs to perform, including the amount, type and frequency of necessary services. (3-19-07)

c. The plan of care must be revised and updated based upon treatment results or a change(s) in the participant's needs, or both, but at least annually. (3-19-07)

02. Service Supervision. The delivery of PCS may be overseen by a licensed professional nurse (RN) or Qualified Intellectual Disabilities Professional (QIDP). The RMS must identify the need for supervision. (3-19-07)

a. Oversight must include all of the following: (3-19-07)

- i.** Assistance in the development of the written plan of care; (3-19-07)
- ii.** Review of the treatment given by the personal assistant through a review of the participant's PCS record as maintained by the provider; (3-19-07)

- iv. Documentation of any changes noted in the participant's condition or any deviations from the plan of care. (3-19-07)

b. Participant's Signature. The participant must sign the record of service delivery verifying that the services were delivered. The RMS may waive this requirement if it determines the participant is not able to verify the service delivery. (3-19-07)

c. A copy of the information required in Subsection 304.04 of these rules must be maintained in the participant's home unless the RMS authorizes the information to be kept elsewhere. Failure to maintain this information may result in recovery of funds paid for undocumented services. (3-19-07)

d. Telephone Tracking System. Agencies may employ a software system that allows personal assistants to register their start and stop times and a list of services by placing a telephone call to the agency system from the participant's home. This system will not take the place of documentation requirements of Subsection 304.04 of these rules. (3-19-07)

e. Participant in a Residential or Assisted Living Facility. The PCS record requirements for participants in Residential Care or Assisted Living Facilities are described in IDAPA 16.03.22. "Residential Care or Assisted Living Facilities in Idaho." (3-19-07)

f. Participant in a Certified Family Home. The PCS record requirements for participants in Certified Family Homes are described in IDAPA 16.03.19, "Rules Governing Certified Family Homes." (3-19-07)

05. Provider Responsibility for Notification. The Personal Assistance Agency is responsible to notify the RMS and physician or authorized provider when any significant changes in the participant's condition are noted during service delivery. This notification must be documented in the Personal Assistance Agency record. (3-19-07)

305. PERSONAL CARE SERVICES: PROVIDER QUALIFICATIONS.

01. Provider Qualifications for Personal Assistants. All personal assistants must have at least one (1) of the following qualifications: (3-19-07)

a. Licensed Professional Nurse (RN). A person currently licensed by the Idaho State Board of Nursing as a licensed professional nurse; (3-19-07)

b. Licensed Practical Nurse (LPN). A person currently licensed by the Idaho State Board of Nursing as a licensed practical nurse; or (3-19-07)

c. Personal Assistant. A person who meets the standards of Section 39-5603, Idaho Code, and receives training to ensure the quality of services. The assistant must be at least age eighteen (18) years of age. The RMS may require a certified nursing assistant (CNA) if, in their professional judgment, the participant's medical condition warrants a CNA. (3-19-07)

02. Provider Training Requirements. In the case where care is provided in the participant's own home, and the participant has a developmental disability that is not physical only and requires more than physical assistance, all those who provide care must have: (3-19-07)

a. Completed one (1) of the Department-approved developmental disabilities training courses; or (3-19-07)

b. Experience providing direct services to people with developmental disabilities. (3-19-07)

c. RMS determines whether developmental disability training is required. Providers who are qualified as QIDPs are exempted from the Department-approved developmental disabilities training course. (3-19-07)

d. In order to serve a participant with a developmental disability, a region may temporarily approve a PCS provider who meets all qualifications except for the required training course or experience, if all the following conditions are met: (3-19-07)

i. The RMS verifies that there are no other qualified providers available; (3-19-07)

ii. The provider is enrolled in the next available training course with a graduation date no later than six (6) months from the date of the request for temporary provider status; and (3-19-07)

iii. The supervising QIDP makes monthly visits until the provider graduates from the training program. (3-19-07)

03. Provider Exclusion. If PCS is paid for by Medicaid, a PCS service provider cannot be the spouse of any participant or be the parent of a participant if the participant is a minor child. (3-19-07)

04. Care Delivered in Provider's Home for a Child. When care for a child is delivered in the provider's home, the provider must be licensed or certified for the appropriate level of child foster care or day care. The provider must be licensed for care of individuals under age eighteen (18), as defined in Section 39-1213, Idaho Code. Noncompliance with these standards is cause for termination of the provider's provider agreement. (3-19-07)

05. Care Delivered in Provider's Home for an Adult. When care for an adult is provided in a home owned or leased by the provider, the provider must be certified as a Certified Family Home under IDAPA 16.03.19, "Rules Governing Certified Family Homes." (3-19-07)

06. Criminal History Check. All PCS providers, including service coordinators, RN supervisors, QIDP supervisors and personal assistants, must participate in a criminal history check as required by Section 39-5604, Idaho Code. The criminal history check must be conducted in accordance with IDAPA 16.05.06, "Criminal History and Background Checks." (3-19-07)

07. Health Screen. Each Personal Assistance Agency employee who serves as a personal assistant must complete a health questionnaire. Personal Assistance Agencies must retain the health questionnaire in their personnel files. If the personal assistant indicates on the questionnaire that he has a medical problem, he is required to submit a statement from a physician or authorized provider that his medical condition does not prevent him from performing all the duties required of a personal care provider. Misrepresentation of information submitted on the health questionnaire may be cause for termination of employment for the personal assistant and would disqualify the employee to provide services to Medicaid participants. (3-19-07)

306. PERSONAL ASSISTANCE AGENCY (PAA): QUALIFICATIONS AND DUTIES.

01. Provider Agreement Required. A Personal Assistance Agency is an organization that has signed the Medicaid Provider General Agreement and the Additional Terms-Personal Assistance Agencies, Aged and Disabled Waiver Provider Agreement with the Department. The PAA agrees to comply with all conditions within the agreements. A Personal Assistance Agency may also provide fiscal intermediary services in accordance with Section 329 of these rules. Each Personal Assistance Agency must direct, control, and monitor the work of each of its personal assistants. (5-8-09)

02. Responsibilities of a Personal Assistance Agency. A Personal Assistance Agency must be capable of and is responsible for all of the following, no matter how the PAA is organized or the form of the business entity it has chosen: (3-19-07)

a. Recruitment, hiring, firing, training, supervision, scheduling and payroll for personal assistants and the assurance that all providers are qualified to provide quality service; (3-19-07)

b. Participation in the provision of worker's compensation, unemployment compensation and all other state and federal tax withholdings; (3-19-07)

c. Maintenance of liability insurance coverage. Termination of either worker's compensation or professional liability insurance by the provider is cause for termination of the provider's provider agreement; (3-19-07)

d. Provision of a licensed professional nurse (RN) or, where applicable, a QIDP supervisor to develop and complete plans of care and provide ongoing supervision of a participant's care; (3-19-07)

e. Assignment of qualified personal assistants to eligible participants after consultation with and approval by the participants; (3-19-07)

f. Assuring that all personal assistants meet the qualifications in Subsection 305.01 of these rules; (3-19-07)

g. Billing Medicaid for services approved and authorized by the RMS; (3-19-07)

h. Collecting any participant contribution due; (5-8-09)

i. Conducting, at least annually, participant satisfaction or quality control reviews which are available to the Department and the general public; and (5-8-09)

307. PERSONAL CARE SERVICES: PROVIDER REIMBURSEMENT.

01. Reimbursement Rate. Personal assistance providers will be paid a uniform reimbursement rate for service as established by the Department on an annual basis. Provider claims for payment will be submitted on claim forms provided or approved by the Department. Billing instructions will be provided by the Department. (3-21-12)

02. Calculated Fee. The fee calculated for personal care provider reimbursement includes a basic rate for services and mileage. No separate charges for mileage will be paid by the Department for non-medical transportation, unless approved by the RMS under a Home and Community-Based Services (HCBS) waiver, or provider transportation to and from the participant's home. Fees will be calculated as provided in Subsections 307.03

through 307.07 of these rules. (3-19-07)

03. Weighted Average Hourly Rates. Annually Medicaid will conduct a poll of all Idaho nursing facilities and ICFs/ID, and establish the weighted average hourly rates (WAHR) for nursing facility industry employees in comparable positions (i.e. RN, QMRP, certified and non-certified nurse's aides) in Idaho to be used in calculating the reimbursement rate to be effective on July 1st of that year. (3-29-10)

04. Payment for Personal Assistance Agency. (3-4-11)

a. The Department will establish Personal Assistance Agency rates for personal assistance services based on the WAHR. For State Fiscal Year 2012, this rate will only be adjusted if the prevailing hourly rate for comparable positions is less than the rate paid during State Fiscal Year 2011.

Personal Assistance Agencies	WAHR x supplemental component	=	\$ amount/hour
------------------------------	-------------------------------	---	----------------

(3-21-12)

b. Beginning with State Fiscal Year 2013, every five (5) years the Department will conduct a survey of all Personal Assistance Agencies which requests the number of hours of all Direct Care Staff and the costs involved for all travel, administration, training, and all payroll taxes and fringe benefits. Based on the survey conducted, the Department will calculate a supplemental component using costs reported for travel, administration, training, and all payroll taxes and fringe benefits. The survey data is the cost information collected during the prior State Fiscal Year. (3-21-12)

c. Based on the survey conducted, provided that at least eighty-five percent (85%) of all Personal Assistance Agencies respond, the Department will calculate a supplemental component using costs reported for travel, administration, training, and all payroll taxes and fringe benefits. The survey data is the cost information collected during the prior State Fiscal Year. If less than eighty-five percent (85%) of all Personal Assistance Agencies respond, the rate will remain at the WAHR rate without the supplemental component. (3-4-11)

05. Payment Levels for Adults in Residential Care or Assisted Living Facilities or Certified Family Homes. Adult participants living in Residential Care or Assisted Living Facilities (RCALF) or Certified Family Homes will receive personal care services at a rate based on their care level. Each level will convert to a specific number of hours of personal care services. (3-19-07)

a. Reimbursement Level I -- One point twenty-five (1.25) hours of personal care services per day or eight point seventy-five (8.75) hours per week. (3-19-07)

The designated hospice must also notify the Medicaid program when the designated attending physician of a participant in their care is not a hospice employee. (3-19-07)

02. Election Procedures. If an participant elects to receive hospice care, he must file an election statement with a particular hospice. An election statement may also be filed by a legal representative or guardian per Section 15-5-312, Idaho Code. (3-19-07)

a. An election to receive hospice care will be automatically renewed after the initial election period and through any subsequent election periods without a break in care as long as the participant remains in the care of a designated hospice and does not revoke the election. (3-19-07)

b. A participant who elected less than eight (8) monthly election periods within the benefit period may request the availability of the remaining election periods. When the following conditions are met, the request will be granted. (3-19-07)

i. The hospice days available did not exceed two hundred ten (210) days in the benefit period due to the loss of financial eligibility. (3-19-07)

ii. The participant or the legal representative did not change hospices excessively per Subsection 454.05 of these rules. (3-19-07)

iii. The participant or the legal representative did not revoke hospice election periods more than eight (8) times per Subsection 454.04 of these rules. (3-19-07)

c. An participant may receive hospice services from the first day of hospice care or any subsequent day of hospice care, but a participant cannot designate an effective date that is earlier than the date that the election is made. (3-19-07)

d. A participant must waive all rights to Medicaid payments for the duration of the election period of hospice care, with the following exceptions: (3-19-07)

i. Hospice care and related services provided either directly or under arrangements by the designated hospice to the participant. (3-19-07)

ii. Any Medicaid services that are not related or equivalent to the treatment of the terminal condition or a related condition for which hospice care was elected. (3-19-07)

iii. Physician services provided by the participant's designated attending physician if that physician is not an employee of the designated hospice or receiving compensation from the hospice for those services. (3-19-07)

03. Election of Hospice. The election statement must include the following items of information: (3-19-07)

a. Identification of the particular hospice that will provide care to the participant. (3-19-07)

b. The participant's or representative's acknowledgment that he has been given a full understanding of hospice care. (3-19-07)

c. The participant's or representative's acknowledgment that he understands that all Medicaid services except those identified in Subsection 454.02.d of these rules, are waived by the election during the hospice benefit period. (3-19-07)

d. The effective date of the election. (3-19-07)

e. The signature of the participant or the representative and the date of that signature. (3-19-07)

04. Revocation of Hospice Election. A participant or representative may revoke the election of hospice care at any time. (3-19-07)

a. To revoke the election of hospice care, the participant must file a signed statement with the hospice that includes that the participant revokes the election for Medicaid coverage of hospice care effective as of the date of the revocation. (3-19-07)

b. Upon revocation of the hospice election, other Medicaid coverage is reinstated. (3-19-07)

05. Change of Hospice. A participant may at any time change their designated hospice during election periods for which he is eligible. (3-19-07)

a. A participant may change designated hospices no more than six (6) times during the hospice benefit period. (3-19-07)

b. The change of the designated hospice is not considered a revocation of the election. To change the designation of hospice programs, the participant must file during the monthly election period, with the hospice from which he has received care and with the newly designated hospice, a dated and signed statement that includes the following information: (3-19-07)

i. The name of the hospice from which the participant has received care; (3-19-07)

ii. The name of the hospice from which he plans to receive care; and (3-19-07)

iii. The effective date of the change in hospices. (3-19-07)

c. A change in ownership of a hospice is not considered a change in the patient's designation of a hospice, and requires no action on the patient's part. (3-19-07)

06. Plan of Care. A plan of care must be established and reviewed at least monthly. To be covered, services must be consistent with the plan of care. (3-19-07)

a. In establishing the initial plan of care, the member of the basic interdisciplinary group who assesses the patient's needs must meet or call at least one (1) other group member (nurse, physician, medical social worker, or

counselor) before writing the initial plan of care. (3-19-07)

b. At least one (1) of the persons involved in developing the initial plan must be a nurse or a physician. This plan must be established on the same day as the assessment if the day of assessment is to be a covered day of hospice care. (3-19-07)

c. The other two (2) members of the basic interdisciplinary group must review the initial plan of care and provide their input to the process of establishing the plan of care within two (2) calendar days following the day of assessment, input may be provided by telephone. (3-19-07)

455. HOSPICE: PROVIDER QUALIFICATIONS AND DUTIES.

All services must be performed by appropriately qualified personnel, but it is the nature of the service, rather than the qualification of the person who provides it, that determines the category of the service. (3-19-07)

456. HOSPICE: PROVIDER REIMBURSEMENT.

With the exception of payment for physician services under Section 458 of these rules, Medicaid reimbursement for hospice care will be made at one (1) of four (4) predetermined rates for each day in which a participant receives the respective type and intensity of the services furnished under the care of the hospice. The four (4) rates are prospective rates; there will be no retroactive rate adjustments other than the application of the "cap" on overall payments and the limitation on payments for inpatient care, if applicable. A description of the payment for each level of care is described in Subsections 456.01 through 456.04 of these rules. (3-19-07)

01. Routine Home Care. The hospice will be paid the routine home care rate for each day the patient is in residence, under the care of the hospice, and not receiving continuous home care. This rate is paid without regard to the volume or intensity of routine home care services provided on any given day. (3-19-07)

02. Continuous Home Care. Continuous home care is to be provided only during a period of crisis. A period of crisis is a period in which a patient requires continuous care which is primarily nursing care to achieve palliation and management of acute medical symptoms. Care must be provided by either a registered nurse or a licensed practical nurse and a nurse must provide care for at least half the total period of care. A minimum of eight (8) hours of care must be provided during a twenty-four (24) hour day which begins and ends at midnight. This care need not be continuous and uninterrupted. If less skilled care is needed on a continuous basis to enable the person to remain at home, this is covered as routine home care. For every hour or part of an hour of continuous care furnished, the hourly rate will be reimbursed to the hospice up to twenty-four (24) hours per day. (3-19-07)

03. Inpatient Respite Care. The hospice will be paid at the inpatient respite care rate for each day that the participant is in an approved inpatient facility and is receiving respite care. Payment for respite care may be made for a maximum of five (5) days at a time including the date of admission but not counting the date of discharge in any monthly election period. Payment for the sixth and any subsequent day is to be made at the appropriate rate routine, continuous, or general inpatient rate. (3-19-07)

04. General Inpatient Care. Payment at the inpatient rate will be made when general inpatient care is provided. No other fixed payment rates will be applicable for a day on which the participant receives hospice general inpatient care except as described in Section 458 of these rules. (3-19-07)

a. Date of discharge. For the day of discharge from an inpatient unit, the appropriate home care rate is to be paid unless the patient dies as an inpatient. When the patient is discharged as deceased, the inpatient rate, either general or respite, is to be paid for the discharge date. (3-19-07)

b. Hospice payment rates. The Medicaid hospice payment rates are the same as the Medicare hospice rates, adjusted to disregard cost offsets attributable to Medicare coinsurance amounts. Under the Medicaid hospice benefit, no cost sharing may be imposed with respect to hospice services rendered to Medicaid participants. (3-19-07)

c. Obligation of continuing care. After the participant's hospice benefit expires, the patient's Medicaid hospice benefits do not expire. The hospice must continue to provide that participant's care until the patient expires or until the participant revokes the election of hospice care. (3-19-07)

457. HOSPICE: LIMITATION ON PAYMENTS FOR INPATIENT CARE.

Payments to a hospice for inpatient care must be limited according to the number of days of inpatient care furnished to Medicaid patients. During the twelve (12) month period beginning November 1st of each year and ending October 31st of the next year, the aggregate number of inpatient days (both general inpatient days and inpatient respite care) may not exceed twenty percent (20%) of the total number of days of hospice care provided to all Medicaid participants during the same period by the designated hospice or its contracted agent(s). (3-19-07)

01. For Purposes of Computation. If it is determined that the inpatient rate should not be paid, any days for which the hospice receives payment at a home care rate will not be counted as inpatient days. The limitations on payment for inpatient days are as follows: (3-19-07)

a. The maximum number of allowable inpatient days will be calculated by multiplying the total number of a provider's Medicaid hospice days by twenty percent (20%). (3-19-07)

b. If the total number of days of inpatient care to Medicaid hospice patients is less than or equal to the maximum number of inpatient days computed in Subsection 457.01 of these rules then no adjustment is made. (3-19-07)

c. If the total number of days of inpatient care exceeds the maximum number of allowable inpatient days computed in Subsection 457.01 of these rules then the payment limitation will be determined by: (3-19-07)

i. Calculating the ratio of the maximum allowable inpatient days to the number of actual days of inpatient care, and multiplying this ratio by the total reimbursement for inpatient care that was made. (3-19-07)

ii. Multiplying excess inpatient care days by the routine home care rate. (3-19-07)

iii. Adding the amounts calculated in Subsections 457.01.c.i. and 457.01.c.ii. of these rules. (3-19-07)

iv. Comparing the amount in Subsection 457.01.c.iii. of these rules with interim payments made to the hospice for inpatient care during the "cap period." (3-19-07)

02. The amount by which interim payments for inpatient care exceeds the amount calculated as in Subsection 456.01.c.iv. of these rules is due from the hospice. (3-19-07)

458. HOSPICE: PAYMENT FOR PHYSICIAN SERVICES.

The basic rates for hospice care represent full reimbursement to the hospice for the costs of all covered services related to the treatment of the participant's terminal illness, including the administrative and general activities performed by physicians who are employees of or working under arrangements made with the hospice. These activities would generally be performed by the physician serving as the medical director and the physician member of the hospice interdisciplinary group. Group activities include participation in the establishment of plans of care, supervision of care and services, periodic review and updating of plans of care, and establishment of governing policies. The costs for these services are included in the reimbursement rates for routine home care, continuous home care, and inpatient respite care. (3-19-07)

01. Hospice Employed Physician Direct Patient Service. Reimbursement for a hospice employed physician's direct patient services which are not rendered by a hospice volunteer is made in accordance with the usual Idaho Medicaid reimbursement methodology for physician services. These services will be billed by the hospice under the hospice provider number and, the related payments will be counted in determining whether the overall hospice cap amount per Section 459 of these rules has been exceeded. The only physician services to be billed by a hospice for such services are direct patient care services. Laboratory and X-ray services are included in the hospice daily rate. (3-19-07)

02. Volunteer Physician Services. Volunteer physician services are excluded from Medicaid reimbursement with the following exceptions: (3-19-07)

a. A hospice may be reimbursed on behalf of a volunteer physician for specific direct patient care

services which are not rendered on a volunteer basis. The hospice must have a liability to reimburse the physician for those services rendered. In determining whether a service is provided on a volunteer basis, a physician must not distinguish which services are provided voluntarily on the basis of the patient's ability to pay. (3-19-07)

b. Reimbursement for an independent physician's direct patient services which are not rendered by a hospice volunteer is made in accordance with the usual Idaho Medicaid reimbursement methodology for physician services. These services will not be billed by the hospice under the hospice provider number and they will not be counted in determining whether the overall hospice cap amount per Section 459 of these rules has been exceeded. The only services to be billed by an attending physician are the physician's personal professional services. Costs for services such as laboratory or X-rays are not to be included on the attending physician's billed charges to the Medicaid program. The aforementioned charges are included in the daily rates paid and are expressly the responsibility of the hospice. (3-19-07)

459. HOSPICE: CAP ON OVERALL REIMBURSEMENT.

Aggregate payments to each hospice will be limited during a hospice cap period per Subsection 451.05 of these rules. The total payments made for services furnished to Medicaid participants during this period will be compared to the "cap amount" for this period. Any payments in excess of the cap must be refunded by the hospice. (3-19-07)

01. Overall Cap. The overall cap will be compared to reimbursement after the inpatient limitation is computed and subtracted from total reimbursement due the hospice. (3-19-07)

02. Total Payment for Services. Total payment made for services furnished to Medicaid participants during this period means all payments for services rendered during the cap year, regardless of when payment is actually made. (3-19-07)

03. Calculation of Cap Amount. The "cap amount" is calculated by multiplying the number of participants electing certified hospice care during the period by six thousand five hundred dollars (\$6,500). This amount will be adjusted for each subsequent cap year beginning November 1, 1983, to reflect the percentage increase or decrease in the medical care expenditure category of the Consumer Price Index (CPI) for all urban consumers as published by the Bureau of Labor Statistics. It will also be adjusted as per Subsection 459.07 of these rules. (3-19-07)

04. Computation and Application of Cap Amount. The computation and application of the "cap amount" is made by the Department after the end of the cap period. (3-19-07)

05. Report Number of Medicaid Participants. The hospice must report the number of Medicaid participants electing hospice care during the period to the Department. (3-19-07)

a. This must be done within thirty (30) days after the end of the cap period: and (3-19-07)

b. If the participant is transferred to a non-certified hospice no payment to the non-certified hospice will be made and the certified hospice may count a complete participant benefit period in their cap amount. (3-19-07)

06. Certified in Mid-Month. If a hospice certifies in mid-month, a weighted average cap amount based on the number of days falling within each cap period would be used. (3-19-07)

07. Adjustment of the Overall Cap. Cap amounts in each hospice's cap period will be adjusted to reflect changes in the cap periods and designated hospices during a participant's election period. The proportion of each hospice's days of service to the total number of hospice days rendered to the participant during their election period will be multiplied by the cap amount to determine each hospice's adjusted cap amount. (3-19-07)

a. After each cap period has ended, the Department will calculate the overall cap within a reasonable time for each hospice participating in the Idaho Medicaid Program. (3-19-07)

b. Each hospice's cap amount will be computed as follows: (3-19-07)

i. The share of the "cap amount" that each hospice is allowed will be based on the proportion of total

covered days provided by each hospice in the “cap period.” (3-19-07)

ii. The proportion determined in Subsection 456.05 of these rules for each certified hospice will be multiplied by the “cap amount” specified for the “cap period” in which the participant first elected hospice. (3-19-07)

c. The participant must file an initial election during the period beginning September 28 of the previous year through September 27 of the current cap year in order to be counted as an electing Medicaid participant during the current cap year. (3-19-07)

08. Additional Amount for Nursing Facility Residents. An additional per diem amount will be paid for “room and board” of hospice residents in a certified nursing facility receiving routine or continuous care services. In this context, the term “room and board” includes all assistance in the activities of daily living, in socializing activities, administration of medication, maintaining the cleanliness of a resident’s room, and supervision and assisting in the use of durable medical equipment and prescribed therapies. The additional payments and the related days are not subject to the caps specified in Sections 457 and 459 of these rules. The room and board rate will be ninety-five percent (95%) of the per diem interim reimbursement rate assigned to the facility for those dates of service on which the participant was a resident of that facility. (3-19-07)

460. HOSPICE: POST-ELIGIBILITY TREATMENT OF INCOME. Where a participant is determined eligible for medical assistance participation in the cost of long term care, the Department must reduce its payments for all costs of the hospice benefit, including the supplementary amounts for room and board, by an amount determined according to Section 227 of these rules. (3-19-07)

(Sections 500 Through 719)

500. DEVELOPMENTAL DISABILITY DETERMINATION STANDARDS. Prior to receiving developmental disability services as provided in Sections 507 through 719 of these rules, the participant must be determined to have a developmental disability. (3-19-07)

501. DEVELOPMENTAL DISABILITY DETERMINATION STANDARDS: ELIGIBILITY. The definitions and standards in the table below must be used to determine whether a participant meets criteria as a person with a developmental disability under Section 66-402, Idaho Code.

TABLE 501 - DEVELOPMENTAL DISABILITY DETERMINATION STANDARDS	
Definition	Standards
“Developmental Disability” means a chronic disability of a person which appears before the age of 22 years and:	Age of 22 means through the day before the individual’s 22nd birthday. AND
(a) is attributable to an impairment, such as an intellectual disability;	“Is attributable to an impairment” means that there is a causal relationship between the presence of an impairing condition and the developmental disability. Age 5 through Adult: There is a presumption that an intellectual disability exists when a full scale IQ score up to 75 exists. (IQ of 70 with a standard error of measurement of 5 points.) Birth to Age 5: An IQ test score is not required below the age of 5. In these cases it may be necessary to rely on the results of a functional assessment. There is a presumption that an intellectual disability exists when there is a standard score of 75 or below or a delay of 30% overall.

or other condition found to be closely related to or similar to one of these impairments that requires similar treatment or services;	For related or similar conditions, documentation must be present to show the causal relationship between the impairing condition and the developmental disability. (Does not include mental illness) Intellectual Disability: A full scale IQ score above 75 can in some circumstances be considered a related or similar condition to an intellectual disability when additional supporting documentation exists showing how the individual's functional limitations make their condition similar to an intellectual disability. Cerebral Palsy: Conditions related or similar to cerebral palsy include disorders which cause a similar disruption in motor function. Epilepsy: Conditions related or similar to epilepsy include disorders that interrupt consciousness.
or is attributable to dyslexia resulting from such impairments; and	AND
(b) results in substantial functional limitations in three (3) or more of the following major life activities:	"Results in" means that the substantial limitation must be because of the impairment. A "substantial" limitation is one in which the total effect of the limitation results in the need for a "combination and sequence of special interdisciplinary, or generic care, treatment or other services that need to be individually planned and coordinated." Listed below are standards for substantial functional limitations in each major life area. Age 3 through Adult: A score of 2 standard deviations below the mean creates a presumption of a functional limitation. Birth to Age 3: The following criteria must be utilized to determine a substantial functional limitations for children under 3: a. The child scores 30% below age norm; or b. The child exhibits a 6 month delay; or c. The child scores 2 standard deviations below the mean.
self care;	Adult: A substantial functional limitation is manifest when the person requires physical or non-physical assistance in performing eating, hygiene, grooming, or health care skills, or when the time required for a person to perform these skills him/her self is so substantial as to impair his ability to conduct other activities of daily living or retain employment. Birth to Age 21: A functional limitation is manifest when the child's skills are limited according to age-appropriate responses such that the parent, caregiver, or school personnel is required to provide care that is substantially beyond that typically required for a child of the same age (such as excessive time lifting, diapering, supervision).

503. DEVELOPMENTAL DISABILITY DETERMINATION: TEST INSTRUMENTS.

A variety of standardized test instruments are available. Tests used to determine a developmental disability must reflect the current functional status of the individual being evaluated. Tests over one (1) year old must be verified to reflect the current status of the individual by an appropriate professional. Instruments designed only for screening purposes must not be used to determine eligibility. (3-19-07)

01. Test Instruments For Adults. Unless contra-indicated, the following test instruments or subsequent revisions must be used to determine eligibility: (3-19-07)

- a. Cognitive: Wechsler Adult Intelligence Scale-Third Edition (WAIS-III). (3-19-07)
- b. Functional: Scales of Independent Behavior-Revised (SIB-R). (3-19-07)

02. Test Instruments for Children. The assessments utilized to determine eligibility must be based on age appropriate criteria. Evaluations must be performed by qualified personnel with experience and expertise with children; selected evaluation tools and practices should be age appropriate, based on consideration of the child's language and motor skills. Unless contraindicated, the most recent version of the following test instruments must be used with children: (7-1-11)

- a. Cognitive: (3-19-07)
 - i. Bayley Scales of Infant Development, for ages birth through forty-two (42) months; (7-1-11)
 - ii. Stanford Binet Intelligence Scales, for ages two (2) years through adult; (7-1-11)

- iv. Wechsler Intelligence Scale for Children, for ages six (6) through sixteen (16) years, eleven (11) months; or (7-1-11)
- v. Wechsler Adult Intelligence Scale, for ages sixteen (16) years to adult. (7-1-11)
- b. Functional:** (3-19-07)
 - i. Battelle Developmental Inventory, 2nd Edition (BDI-2) for ages birth to ninety-five (95) months; (3-19-07)
 - ii. Scales of Independent Behavior (SIB-R) for ages birth through adult; or (7-1-11)

507. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION (PA).

The purpose of adult developmental disability services prior authorization is to assure the provision of the right care, in the right place, at the right price, and with the right outcomes in order to enhance health and safety, and to promote participants' rights, self-determination, and independence. Prior authorization involves the assessment of the need for services, development of a budget, development of a plan of services, prior approval of services, and a quality improvement program. Services are reimbursable if they are identified on the authorized plan of service and are consistent with the purpose and rule for prior authorization as well as rules for the specific service. (3-29-12)

508. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION: DEFINITIONS.

For the purposes of these rules the following terms are used as defined below. (3-29-12)

- 01. Adult.** A person who is eighteen (18) years of age or older. (3-29-10)
- 02. Assessment.** A process that is described in Section 509 of these rules for program eligibility and in Section 512 of these rules for plan of service. (3-19-07)
- 03. Clinical Review.** A process of professional review that validates the need for continued services. (3-19-07)
- 04. Community Crisis Support.** Intervention for participants who are at risk of losing housing, employment or income, or who are at risk of incarceration, physical harm, family altercations or other emergencies. (3-19-07)
- 05. Concurrent Review.** A clinical review to determine the need for continued prior authorization of services. (3-19-07)
- 06. Exception Review.** A clinical review of a plan that falls outside the established standards. (3-19-07)
- 07. Interdisciplinary Team.** For purposes of these rules, the interdisciplinary team is a team of professionals, determined by the Department, that reviews requests for reconsideration. (3-19-07)
- 08. Level of Support.** An assessment score derived from the SIB-R that indicates types and amounts of services and supports necessary to allow the individual to live independently and safely in the community. (3-19-07)
- 09. Person-Centered Planning Process.** A meeting facilitated by the plan developer, comprised of family and individuals significant to the participant who collaborate with the participant to develop the plan of

service. (3-19-07)

10. Person-Centered Planning Team. The group who develops the plan of service. This group includes, at a minimum, the participant and the service coordinator or plan developer chosen by the participant. The person-centered planning team may include others identified by the participant or agreed upon by the participant and the Department as important to the process. (3-19-07)

11. Plan Developer. A paid or non-paid person identified by the participant who is responsible for developing one (1) plan of service and subsequent addenda that cover all services and supports, based on a person-centered planning process. (3-19-07)

12. Plan Monitor. A person who oversees the provision of services on a paid or non-paid basis. (3-19-07)

13. Plan of Service. An initial or annual plan that identifies all services and supports based on a person-centered planning process. Plans are authorized annually every three hundred sixty-five (365) days. (3-19-07)

14. Prior Authorization (PA). A process for determining a participant's eligibility for services and medical necessity prior to the delivery or payment of services as provided by these rules. (3-19-07)

15. Provider Status Review. The written documentation that identifies the participant's progress toward goals defined in the plan of service. (3-19-07)

16. Right Care. Accepted treatment for defined diagnosis, functional needs and abilities to achieve the desired outcome. The right care is consistent with best practice and continuous quality improvement. (3-19-07)

17. Right Place. Services delivered in the most integrated setting in which they normally occur, based on the participant's choice to promote independence. (3-19-07)

18. Right Price. The most integrated and least expensive services that are sufficiently intensive to address the participant's needs. The amount is based on the individual's needs for services and supports as identified in the assessment. (3-19-07)

509. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION: ELIGIBILITY DETERMINATION.

The Department will make the final determination of an individual's eligibility, based upon the assessments and evaluations administered by the Department. Initial and annual assessments must be performed by the Department. The purpose of the assessment is to determine a participant's eligibility for developmental disabilities services in accordance with Section 66-402, Idaho Code, and Sections 500 through 506 of these rules and for ICF/ID level of care for waiver services in accordance with Section 584 of these rules. (3-29-12)

Participants must provide the results of psychometric testing if eligibility for developmental disabilities services is based on an intellectual disability and they have no prior testing or prior testing is inconclusive. Documentation of diagnosis is required for participants whose eligibility is based on developmental disabilities other than an intellectual disability. A SIB-R will be administered by the Department for use in this determination. (3-19-07)

04. ICF/ID Level of Care Determination for Waiver Services. The assessor will determine ICF/ID level of care for adults in accordance with Section 584 of these rules. (3-19-07)

Please refer to Subsection 655 of these rules. (3-29-12)

04. SIB-R. The results of the SIB-R are used to determine the level of support for the participant. A current SIB-R assessment must be evaluated prior to the initiation of service and must be reviewed annually to assure it continues to reflect the functional status of the participant. (3-19-07)

b. The SIB-R for children is required for all children accessing DDA services for the first time. (3-29-12)

c. After the initial SIB-R assessment for children, additional SIB-R assessments will be reimbursed if a qualified professional determines that the assessment no longer reflects the current status of the participant. Please refer to Subsection 655 of these rules. (3-29-12)

05. Medical Condition. The participant's medical conditions, risk of deterioration, living conditions, and individual goals. (3-19-07)

513. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION: PLAN OF SERVICE.

In collaboration with the participant, the Department must assure that the participant has one (1) plan of service. This plan of service is based on the individualized participant budget referred to in Section 514 of these rules and must identify all services and supports. Participants may develop their own plan or designate a paid or non-paid plan developer. In developing the plan of service, the plan developer and the participant must identify services and supports available outside of Medicaid-funded services that can help the participant meet desired goals. Authorized services must be delivered by providers who are selected by the participant. (3-29-12)

01. Qualifications of a Paid Plan Developer. Neither a provider of direct service to the participant nor the assessor may be chosen to be the paid plan developer. Family members and all others who wish to be paid for plan

development must be employed as a service coordinator as defined in Sections 729 through 732 of these rules. (3-19-07)

02. Plan Development. The plan must be developed with the participant. With the participant's consent, the person-centered planning team may include family members, guardian, or individuals who are significant to the participant. In developing the plan of service, the plan developer and participant must identify any services and supports available outside of Medicaid-funded services that can help the participant meet desired goals. The plan of service must be submitted within forty-five (45) days prior to the expiration of the existing plan of service unless delayed because of participant unavailability due to extenuating circumstances. If the plan is not submitted within this time period, authorization for provider payments may be terminated. (3-19-07)

03. Prior Authorization Outside of These Rules. The plan developer must ensure that all services that require prior authorization outside of these rules are submitted to the appropriate unit of the Department. These services include: (3-19-07)

- a. Durable Medical Equipment (DME); (3-19-07)
- b. Transportation; and (3-19-07)
- c. Physical therapy, occupational therapy, and speech-language pathology services provided outside of a Development Disabilities Agency (DDA). (4-2-08)

05. Plan Monitoring. The participant, service coordinator or plan monitor must monitor the plan. The plan developer is the plan monitor unless there is a service coordinator, in which case the service coordinator assumes the roles of both service coordinator and plan monitor. The planning team must identify the frequency of monitoring, which must be at least every ninety (90) days. Plan monitoring must include the following: (3-19-07)

- a. Review of the plan of service in a face-to-face contact with the participant to identify the current status of programs and changes if needed; (3-19-07)
- b. Contact with service providers to identify barriers to service provision; (3-19-07)

(3-29-12)

06. Provider Status Reviews. Service providers, with exceptions identified in Subsection 513.11 of these rules, must report the participant's progress toward goals to the plan monitor on the provider status review when the plan has been in effect for six (6) months and at the annual person-centered planning meeting. The semi-annual and annual reviews must include: (3-19-07)

- a. The status of supports and services to identify progress; (3-19-07)
- b. Maintenance; or (3-19-07)
- c. Delay or prevention of regression. (3-19-07)

07. Content of the Plan of Service. The plan of service must identify the type of service to be delivered, goals to be addressed within the plan year, frequency of supports and services, and identified service

providers. The plan of service must include activities to promote progress, maintain functional skills, or delay or prevent regression. (3-19-07)

08. Informed Consent. Unless the participant has a guardian with appropriate authority, the participant must make decisions regarding the type and amount of services required. During plan development and amendment, planning team members must each indicate whether they believe the plan meets the needs of the participant, and represents the participant's choice. If not, the plan or amendment must be referred to the Bureau of Care Management's Medicaid Consumer Relations Specialist to negotiate a resolution with members of the planning team. (3-19-07)

09. Provider Implementation Plan. Each provider of Medicaid services, subject to prior authorization, must develop an implementation plan that identifies specific objectives that demonstrate how the provider will assist the participant to meet the participant's goals and needs identified in the plan of service. (3-19-07)

- a.** Exceptions. An implementation plan is not required for waiver providers of: (3-19-07)
- i. Specialized medical equipment; (3-19-07)
 - ii. Home delivered meals; (3-19-07)
 - iii. Environmental modifications; (3-19-07)
 - iv. Non-medical transportation; (3-19-07)
 - v. Personal emergency response systems (PERS); (3-19-07)
 - vi. Respite care; and (3-19-07)
 - vii. Chore services. (3-19-07)

b. Time for Completion. The implementation plan must be completed within fourteen (14) days after the initial provision of service, and revised whenever participant needs change. (3-19-07)

c. Documentation of Changes. Documentation of Implementation Plan changes will be included in the participant's record. This documentation must include, at a minimum, the reason for the change, documentation of coordination with other service providers (where applicable), the date the change was made, the signature of the person making the change complete with the date and title. (3-19-07)

10. Addendum to the Plan of Service. A plan of service may be adjusted during the year with an addendum to the plan. These adjustments must be based on a change to a cost, addition of a service or increase to a service, or a change of provider. Additional assessments or information may be clinically necessary. Adjustment of the plan of service is subject to prior authorization by the Department. (3-29-12)

11. Community Crisis Supports. Community crisis supports are interventions for participants who have been determined eligible for developmental disability services and who are at risk of losing housing, employment or income, or are at risk of incarceration, physical harm, family altercation, or other emergencies. Community crisis support may be authorized the following business day after the intervention if there is a documented need for immediate intervention, no other means of support are available, and the services are appropriate to rectify the crisis. Community crisis support is limited to a maximum of twenty (20) hours during any consecutive five (5) day period. (3-19-07)

a. Emergency Room. Crisis services may be provided in an emergency room during the ER evaluation process if the goal is to prevent hospitalization and return the participant to the community. (3-19-07)

b. Before Plan Development. Community crisis support may be provided before or after the completion of the assessment and plan of service. If community crisis support is provided before the completion of the assessment and plan of service, the plan of service must include an identification of the factors contributing to the

crisis and a strategy for addressing those factors in the future. (3-19-07)

c. Crisis Resolution Plan. After community crisis support has been provided, the provider of the community crisis support service must complete a crisis resolution plan and submit it to the Department for approval within three (3) business days. (3-19-07)

12. Annual Reauthorization of Services. A participant's plan of service must be reauthorized annually. The Department must review and authorize the new plan of service prior to the expiration of the current plan. (3-19-07)

a. Plan Developer Responsibilities for Annual Reauthorization. A new plan of service must be provided to the Department by the plan developer at least forty-five (45) days prior to the expiration date of the current plan. Prior to this, the plan developer must: (3-19-07)

i. Notify the providers who appear on the plan of service of the annual review date. (3-19-07)

ii. Obtain a copy of the current annual provider status review from each provider for use by the person-centered planning team. Each provider status review must meet the requirements in Subsection 513.14.d. of these rules. (3-19-07)

iii. Convene the person-centered planning team to develop a new plan of service. (3-19-07)

b. Evaluation and Prior Authorization of the Plan of Service. The plan of service must be evaluated and prior authorized in accordance with the requirements in Sections 507 and 513 of these rules. (3-19-07)

c. Adjustments to the Annual Budget and Services. The annual budget and services may be adjusted by the Department based on demonstrated outcomes, progress toward goals and objectives, and benefit of services. (3-29-12)

d. Annual Status Reviews Requirement. If the provider's annual status reviews are not submitted with the annual plan, services will not be authorized at the time of the annual reauthorization. These services may be added to the plan of service only by means of an addendum to the plan in accordance with Subsection 513.12 of these rules. (3-19-07)

e. Reapplication After a Lapse in Service. For participants who are re-applying for service after a lapse in service, the assessor must evaluate whether assessments are current and accurately describe the status of the participant. (3-19-07)

f. Annual Assessment Results. An annual assessment must be completed in accordance with Section 512 of these rules. (3-19-07)

13. Complaints and Administrative Appeals. (3-29-12)

a. Participant complaints about the assessment process, eligibility determination, plan development, quality of service, and other relevant concerns may be referred to the Division of Medicaid. (3-29-12)

b. A participant who disagrees with a Department decision regarding program eligibility and authorization of services under these rules may file an appeal. Administrative appeals are governed by provisions of IDAPA 16.05.03, "Rules Governing Contested Case Proceedings and Declaratory Rulings." (3-29-12)

514. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION: PROVIDER REIMBURSEMENT.

Providers are reimbursed on a fee for service basis based on a participant budget. (3-29-12)

01. Individualized Budget Beginning on October 1, 2006. Beginning October 1, 2006, for DD

waiver participants, and beginning January 1, 2007, for all other adult DD participants, the Department sets an individualized budget for each participant according to an individualized measurement of the participant's functional abilities, behavioral limitations, and medical needs, related to the participant's disability. Using these specific participant factors, the budget-setting methodology will correlate a participant's characteristics with the participant's individualized budget amount, so participants with higher needs will be assigned a higher individualized budget amount. (3-29-12)

a. The Department notifies each participant of his set budget amount as part of the eligibility determination process or annual redetermination process. The notification will include how the participant may appeal the set budget amount. (3-29-12)

b. Individualized budgets will be re-evaluated annually. At the request of the participant, the Department will also re-evaluate the set budget amount when there are documented changes in the participant's condition resulting in a need for services that meet medical necessity criteria, and this is not reflected on the current inventory of individual needs. (3-29-12)

02. Residential Habilitation - Supported Living Acuity-Based Levels of Support. Reimbursement for residential habilitation - supported living is based on the participant's assessed level of support need. All plans of service that include supported living must include community integration goals that provide for maintained or enhanced independence, quality of life, and self-determination. As a participant's independence increases and he is less dependent on supports, he must transition to less intense supports. (3-19-07)

a. High support is for those participants who require twenty-four (24) hour per day supports and supervision and have an SIB-R Support Level of Pervasive, Extensive, or Frequent. High support allows for a blend of one-to-one and group staffing. Participants authorized at the high support daily rate will not be authorized to receive developmental therapy services, adult day care, or non-medical transportation. These services are included in the high support daily rate. (3-19-07)

b. Intense support is for those exceptional participants who require intense, twenty-four (24) hour per day supports and supervision. This support level typically requires one-on-one staffing, but requests for a blend of one-on-one and group staffing will be reviewed on a case-by-case basis. Participants authorized at the intense support daily rate will not be authorized to receive developmental therapy services, adult day care, or non-medical transportation. These services are included in the intense support daily rate. To qualify for this level of support, participants must be evaluated to meet one or more of the following criteria: (3-19-07)

i. Recent felony convictions or charges for offenses related to the serious injury or harm of another person. These participants must have been placed in a supported living setting directly from incarceration or directly after being diverted from incarceration. (3-19-07)

ii. History of predatory sexual offenses and are at high risk to re-offend based on a sexual offender risk assessment completed by an appropriate professional. (3-19-07)

iii. Documented, sustained history of serious aggressive behavior showing a pattern of causing harm to themselves or others. The serious aggressive behavior must be such that the threat or use of force on another person makes that person reasonably fear bodily harm. The participant must also have the capability to carry out such a threat. The frequency and intensity of this type of aggressive behavior must require continuous monitoring to prevent injury to themselves or others. (3-19-07)

iv. Chronic or acute medical conditions that are so complex or unstable that one-to-one staffing is required to provide frequent interventions and constant monitoring. Without this intervention and monitoring the participant would require placement in a nursing facility, hospital, or ICF/ID with twenty-four (24) hour on-site nursing. Verification of the complex medical condition and the need for this level of service requires medical documentation. (3-19-07)

c. Hourly support is for those individuals that do not meet criteria for either high or intense supports or those individuals who qualify for a daily rate but whose needs can be met with less than twenty-four (24) per day support. The combination of hourly supported living, developmental therapy, community supported employment, and

adult day care will not be authorized to exceed the maximum set daily amount established by the Department except when all of the following conditions are met: (3-19-07)

- i. The participant is eligible to receive the high support daily rate; (3-19-07)
- ii. Community supported employment is included in the plan and is causing the combination to exceed the daily limit; (3-19-07)
- iii. There is documentation that the Person-Centered Planning team has explored other options including using lower cost services and natural supports; and (3-19-07)
- iv. The participant's health and safety needs will be met using hourly services despite having been assessed to qualify for twenty-four (24) hour care. (3-19-07)

515. ADULT DEVELOPMENTAL DISABILITY SERVICES: QUALITY ASSURANCE AND IMPROVEMENT.

01. Quality Assurance. Quality Assurance consists of audits and reviews to assure compliance with the Department's rules and regulations. If problems are identified during the review or audit, the provider must implement a corrective action plan within forty-five (45) days after the results are received. The Department may terminate authorization of service for providers who do not comply with the corrective action plan. (3-19-07)

02. Quality Improvement. The Department may gather and utilize information from providers to evaluate customer satisfaction, participant satisfaction, outcomes monitoring, care management, quality assurance, quality improvement activities, and health and safety. These findings may lead to quality improvement activities to improve provider processes and outcomes for participants. (3-19-07)

03. Exception Review. In order to assure health and safety of the participant, the Department will complete an exception review of plans of service requesting residential habilitation High or Intense Supported Living when the request exceeds the assigned budget authorized by the assessor, and when the services requested on the plan are required, based on medical necessity in accordance with Subsection 012.14 of these rules. (3-29-12)

04. Concurrent Review. The Department will obtain the necessary information to determine that participants continue to meet eligibility criteria, services continue to be clinically necessary, services continue to be the choice of the participant, and services constitute appropriate care to warrant continued authorization or need for the service. (3-19-07)

05. Abuse, Fraud, or Substandard Care. Reviewers finding suspected abuse, fraud, or substandard care must refer their findings for investigation to the Department and other regulatory or law enforcement agencies for investigation. (3-19-07)

522. CHILDREN'S DEVELOPMENTAL DISABILITY PRIOR AUTHORIZATION (PA): ELIGIBILITY DETERMINATION.

The Department will make the final determination of a child's eligibility, based upon the assessments administered by the Department. Initial and annual assessments must be performed by the Department or its contractor. The purpose of the eligibility assessment is to determine a participant's eligibility for developmental disabilities services in accordance with Section 66-402, Idaho Code, and Sections 500 through 506 of these rules, to determine a participant's eligibility for children's home and community-based state plan option services in accordance with Section 662 of these rules, and to determine a participant's eligibility for ICF/ID level of care for children's waiver services in accordance with Section 682 of these rules. (7-1-11)

02. Annual Eligibility Determination. Eligibility determination must be completed annually for current participants. The assessor must reassess the participant, or establish and document that the existing assessments reflect the participant's current level of care needs. At least sixty (60) calendar days before the expiration of the current plan of service: (7-1-11)

a. The eligibility determination process must be completed to determine level of care needs; and (7-1-11)

(3-19-07)

10. Authorization of Long-Term Care Payment. If it has been determined that a person eligible for medical assistance is entitled to medical assistance participation in the cost of long-term care, and that the facility selected by the participant is licensed and certified to provide the level of care the participant requires, the Field Office will forward to such facility an "Authorization for Long-Term Care Payment" form HW 0459. (3-19-07)

587. ICF/ID: PROVIDER QUALIFICATIONS AND DUTIES.

01. Provider Application and Certification. A facility must apply to participate as an ICF/ID facility. (3-19-07)

02. Licensure and Certification. (3-19-07)

a. Upon receipt of an application from a facility, the Licensing and Certification Agency must conduct a survey to determine the facility's compliance with certification standards for the type of care the facility proposes to provide to participants. (3-19-07)

b. If the Licensing and Certification Agency determines that a facility meets Title XIX certification standards for ICF/ID, the Department must certify to the appropriate branch of government that the facility meets the standards for ICF/ID types of care. (3-19-07)

c. Upon receipt of the certification from the Licensing and Certification Agency, the Bureau may enter into a provider agreement with the long-term care facility. (3-19-07)

d. After the provider agreement has been executed by the Facility Administrator and by the Chief of the Bureau, one (1) copy must be sent by certified mail to the facility and the original is to be retained by the Bureau. (3-19-07)

03. Direct Care Staff. Direct Care staff in an ICF/ID are defined as the present on-duty staff calculated over all shifts in a twenty-four (24) hour period for each defined residential living unit. Direct care staff in an ICF/ID include those employees whose primary duties include the provision of hands-on, face-to-face contact with the participants of the facility. This includes both regular and live-in/sleep-over staff. It excludes professionals such as psychologists, nurses, and others whose primary job duties are not the provision of direct care, as well as managers/supervisors who are responsible for the supervision of staff. (3-19-07)

04. Direct Care Staffing Levels. The reasonable level of direct care staffing provided to a participant in an ICF/ID setting will be dependent upon the level of involvement and the need for services and supports of the participant as determined by the Department. Level of involvement relates to the severity of a participant's intellectual disability. Those levels, in decreasing level of severity, are: profound, severe, moderate, and mild. Staffing levels will be subject to the following constraints: (3-19-07)

a. Direct care staffing for a severely and profoundly intellectually disabled participant residing in an ICF/ID must be a maximum of sixty-eight point twenty five (68.25) hours per week. (3-19-07)

b. Direct care staffing for a moderately intellectually disabled participant residing in an ICF/ID must be limited to a maximum of fifty-four point six (54.6) hours per week. (3-19-07)

c. Direct care staffing for a mildly intellectually disabled participant residing in an ICF/ID must be limited to a maximum of thirty four point one two five (34.125) hours per week. (3-19-07)

05. Direct Care Staff Hours. The annual sum total level of allowable direct care staff hours for each residential living unit will be determined in the aggregate as the sum total of the level of staffing allowable for each resident residing in that residential living unit as determined in Subsection 587.04 of these rules. (3-19-07)

06. Phase-In Period. If enactment of Subsection 587.04 of these rules requires a facility to reduce its level of direct care staffing, a six (6) month phase-in period will be allowed from the date of the enactment of this section, without any resulting disallowances. Should disallowances result, the hourly rate of direct care staff used in determining disallowances will be the weighted average of the hourly rates paid to a facility's direct care staff, plus the associated benefits, at the end of the phase-in period. (3-19-07)

07. Exceptions. Should a provider be able to show convincing evidence documenting that the annual aggregate direct care hours as allowed under this section will compromise their ability to supply adequate care to the participants, as required by federal regulations and state rules, within an ICF/ID residential living unit and that other less costly options would not alleviate the situation, the Department will approve an additional amount of direct care hours sufficient to meet the extraordinary needs. This adjustment will only be available up through September 30, 1996. (3-19-07)

588. ICF/ID: PROVIDER REIMBURSEMENT.

01. Payment Methodology. ICF/ID facilities will be reimbursed in accordance with the methodology listed in Sections 588 through 633 of these rules. (3-19-07)

02. Date of Discharge. Payment by the Department for the cost of ICF/ID care is to include the date of the participant's discharge only if the discharge occurred after 3 p.m. and is not discharged to a related provider. If a Medicaid patient dies in an ICF/ID, his date of death is covered regardless of the time of occurrence. If an admission and a discharge occur on the same date, then one (1) day of care will be deemed to exist. (3-19-07)

589. ICF/ID: REASONABLE COST PRINCIPLES.

To be allowable, costs must be reasonable, ordinary, necessary and related to patient care. It will be expected that providers will incur costs in such a manner that economical and efficient delivery of quality health care to beneficiaries will result. (3-19-07)

01. Application of Reasonable Cost Principles. (3-19-07)

a. Reasonable costs of any services are determined in accordance with rules found in the Provider Reimbursement Manual (PRM), Sections 100 through 2600, as modified by the exceptions contained herein, is used to identify cost items to be included on Idaho's Uniform Cost Report. (3-19-07)

i. Reasonable cost takes into account both direct and indirect costs of providers of services, including normal standby costs. (3-19-07)

ii. The objectives of these methods are that: first, the costs with respect to individuals covered by the program will not be borne by others not so covered. Second, the costs with respect to individuals not covered will not be paid by the program. (3-19-07)

b. Costs may vary from one institution to another because of a variety of factors. It is the intent of the program that providers will be reimbursed the actual operating costs of providing high quality care, unless such costs

exceed the applicable maximum base rate developed pursuant to provisions of Title 56, Chapter 1, Idaho Code, or are unallowable by application of promulgated regulation. (3-19-07)

c. Implicit in the intention that actual operating costs be paid to the extent they are reasonable is the expectation that the provider seeks to minimize its costs and that its actual operating costs do not exceed what a prudent and cost-conscious buyer pays for a given item or service. (3-19-07)

d. If costs are determined to exceed the level that such buyers incur, in the absence of clear evidence that the higher costs were unavoidable, the excess costs are not reimbursable. (3-19-07)

02. Costs Related to Patient Care. These include all necessary and proper costs in developing and maintaining the operation of patient care facilities. Necessary and proper costs related to patient care are usually costs which are common and accepted occurrences in the field of the provider's activity. They include costs such as depreciation, interest expense, nursing costs, maintenance costs, administrative costs, costs of employee pension plans, normal standby costs, and others. Example: Depreciation is a method of systematically recognizing the declining utility value of an asset. To the extent that the asset is related to patient care, reasonable, ordinary, and necessary, the related expense is allowable when reimbursed based on property costs according to other provisions of this chapter. Property related expenses are likewise allowable. (3-19-07)

03. Costs Not Related to Patient Care. Costs not related to patient care are costs which are not appropriate or necessary and proper in developing and maintaining the operation of patient care facilities and activities. Such costs are not allowable in computing reimbursable costs. Example: Fines are imposed for late remittance of federal withholding taxes. Such fines are not related to patient care, are not necessary, and are not reflective of prudent cost conscious management. Therefore, such fines and penalties are not allowable. (3-19-07)

04. Form and Substance. Substance of transactions will prevail over the form. Financial transactions will be disallowed to the extent that the substance of the transaction fails to meet reasonable cost principles or comply with rules and policy. Example: Lease-Purchase agreements are contracts which are executed in the form of a lease. The wording of the contract is couched in such a manner as to give the reader the impression of a true rental-type lease. However, the substance of this contract is a purchase of the property. If a lease contract is found to be in substance a purchase, the related payments are not allowable as lease or rental expense. (3-19-07)

590. ICF/ID: ALLOWABLE COSTS.

The following definitions and explanations apply to allowable costs: (3-19-07)

01. Accounts Collection. The costs related to the collection of past due program related accounts, such as legal and bill collection fees, are allowable. (3-19-07)

02. Auto and Travel Expense. Maintenance and operating costs of a vehicle used for patient care purposes and travel expense related to patient care are reimbursable. The allowance for mileage reimbursement cannot exceed the amount determined reasonable by the Internal Revenue Service for the period being reported. Meal reimbursement is limited to the amount that would be allowed by the state for a state employee. (3-19-07)

03. Bad Debts. Payments for efforts to collect past due Title XIX and Title XXI accounts are reimbursable. This may include the fees for lawyers and collection agencies. Other allowances for bad debt and bad debt write-off are not allowable. However, Title XIX and Title XXI coinsurance amounts are one hundred percent (100%) reimbursable as provided in PRM, Section 300. (3-19-07)

04. Bank and Finance Charges. Charges for routine maintenance of accounts are allowable. Penalties for late payments, overdrafts, etc., are not allowable. (3-19-07)

05. Compensation of Owners. An owner may receive reasonable compensation for services subject to the limitations in this chapter, to the extent the services are actually performed, documented, reasonable, ordinary, necessary, and related to patient care. Allowable compensation cannot exceed the amount necessary to attract assistance from parties not related to the owner to perform the same services. The nature and extent of services must be supported by adequate documentation including hours performing the services. Where an average industry wide rate for a particular function can be determined, reported allowable owner compensation cannot exceed the average

rate. Compensation to owners, or persons related to owners, providing administrative services is further limited by provisions in Section 597 of these rules. In determining the reasonableness of compensation for services paid to an owner or a person related to an owner, compensation is the total of all benefits or remuneration paid to or primarily for the benefit of the owner regardless of form or characterization. It includes, but is not limited to, the following: (3-19-07)

a. Salaries wages, bonuses and benefits which are paid or are accrued and paid for the reporting period within one (1) month of the close of the reporting period. (3-19-07)

b. Supplies and services provided for the owner's personal use. (3-19-07)

c. Compensation paid by the facility to employees for the sole benefit of the owner. (3-19-07)

d. Fees for consultants, directors, or any other fees paid regardless of the label. (3-19-07)

e. Keyman life insurance. (3-19-07)

f. Living expenses, including those paid for related persons. (3-19-07)

06. Contracted Service. All services which are received under contract arrangements are reimbursable to the extent that they are related to patient care or the sound conduct and operation of the facility. (3-19-07)

07. Depreciation. Depreciation on buildings and equipment is an allowable property expense subject to Section 630 of these rules. Depreciation expense is not allowable for land. Lease-hold improvements may be amortized. Generally, depreciation and amortization must be calculated on a straight line basis and prorated over the estimated useful life of the asset. (3-19-07)

08. Dues, Licenses and Subscriptions. Subscriptions to periodicals related to patient care and for general patient use are allowable. Fees for professional and business licenses related to the operation of the facility are allowable. Dues, tuition, and educational fees to promote quality health care services are allowable when the provisions of PRM, Section 400, are met. (3-19-07)

09. Employee Benefits. Employee benefits including health insurance, vacation, and sick pay are allowable to the extent of employer participation. See PRM, Chapter 21 for specifics. (3-19-07)

10. Employee Recruitment. Costs of advertising for new employees, including applicable entertainment costs, are allowable. (3-19-07)

11. Entertainment Costs Related to Patient Care. Entertainment costs related to patient care are allowable only when documentation is provided naming the individuals and stating the specific purpose of the entertainment. (3-19-07)

12. Food. Costs of raw food, not including vending machine items, are allowable. The provider is only reimbursed for costs of food purchased for patients. Costs for nonpatient meals are nonreimbursable. If the costs for nonpatient meals cannot be identified, the revenues from these meals are used to offset the costs of the raw food. (3-19-07)

13. Home Office Costs. Reasonable costs allocated by related entities for home office services are allowable in their applicable cost centers. (3-19-07)

14. Insurance. Premiums for insurance on assets or for liability purposes, including vehicles, are allowable to the extent that they are related to patient care. (3-19-07)

15. Interest. Interest on working capital loans is an allowable administrative expense. When property is reimbursed based on cost, interest on related debt is allowable. However, interest payable to related entities is not normally an allowable expense. Penalties are not allowable. (3-19-07)

16. Lease or Rental Payments. Payments for the property cost of the lease or rental of land, buildings, and equipment are allowable according to Medicare reasonable cost principles when property is reimbursed based on cost for leases entered into before March 30, 1981. Such leases entered into on or after March 30, 1981, will be reimbursed in the same manner as an owned asset. The cost of leases related to home offices and ICF/ID day treatment services will not be reported as property costs and will be allowable based on reasonable cost principles subject to other limitations contained herein. (3-19-07)

17. Malpractice or Public Liability Insurance. Premiums for malpractice and public liability insurance must be reported as administrative costs. (3-19-07)

18. Payroll Taxes. The employer's portion of payroll taxes is reimbursable. (3-19-07)

19. Property Costs. Property costs related to patient care are allowable subject to other provisions of this chapter. Property taxes and reasonable property insurance are allowable for all facilities. For ICFs/ID, the property rental rate is paid as described in Section 630 of these rules. (3-19-07)

a. Amortization of leasehold improvements will be included in property costs. (3-19-07)

i. Straight line depreciation on fixed assets is included in property costs. (3-19-07)

ii. Depreciation of moveable equipment is an allowable property cost. (3-19-07)

b. Interest costs related to the purchase of land, buildings, fixtures or equipment related to patient care are allowable property costs only when the interest costs are payable to unrelated entities. (3-19-07)

20. Property Insurance. Property insurance per licensed bed is limited to no more than two (2) standard deviations above the mean of the most recently reported property insurance costs, as used for rate setting purposes, per licensed bed of all facilities in the reimbursement class of the end of a facility's fiscal year. (3-19-07)

21. Repairs and Maintenance. Costs of maintenance and minor repairs are allowable when related to the provision of patient care. (3-19-07)

22. Salaries. Salaries and wages of all employees engaged in patient care activities or operation and maintenance are allowable costs. However, non-nursing home wages are not an allowable cost. (3-19-07)

23. Supplies. Cost of supplies used in patient care or providing services related to patient care is allowable. (3-19-07)

24. Taxes. The cost of property taxes on assets used in providing patient care are allowable. Other taxes are allowable costs as provided in the PRM, Chapter 21. Tax penalties are nonallowable costs. (3-19-07)

591. ICF/ID: NONALLOWABLE COSTS.

The following definitions and explanations apply to nonallowable costs: (3-19-07)

01. Accelerated Depreciation. Depreciation in excess of calculated straight line depreciation, except as otherwise provided is nonallowable. (3-19-07)

02. Acquisitions. Costs of corporate acquisitions, such as purchase of corporate stock as an investment, are nonallowable. (3-19-07)

03. Barber and Beauty Shops. All costs related to running barber and beauty shops are nonallowable. (3-19-07)

04. Charity Allowances. Cost of free care or discounted services are nonallowable. (3-19-07)

05. Consultant Fees. Costs related to the payment of consultant fees in excess of the lowest rate available to a facility are nonallowable. It is the provider's responsibility to make efforts to obtain the lowest rate

available to that facility. The efforts may include personally contacting possible consultants or advertising. The lowest rate available to a facility is the lower of the actual rate paid by the facility or the lowest rate available to the facility, as determined by departmental inquiry directly to various consultants. Costs in excess of the lowest rate available will be disallowed effective thirty (30) days after a facility is notified, unless the provider shows by clear and convincing evidence it would have been unable to comply with state and federal standards had the lowest rate consultant been retained or that it tried to but was unable to retain the lowest rate consultant. This subsection in no way limits the Department's ability to disallow excessive consultant costs under other sections of this chapter, such as Section 589 or 595 of these rules, when applicable. (3-19-07)

- 06. Fees.** Franchise fees are nonallowable, see PRM, Section 2133.1. (3-19-07)
- 07. Fund Raising.** Certain fund raising expenses are nonallowable, see PRM, Section 2136.2. (3-19-07)
- 08. Goodwill.** Costs associated with goodwill as defined in Section 011 of these rules are nonallowable. (3-19-07)
- 09. Holding Companies.** All home office costs associated with holding companies are nonallowable see PRM, Section 2150.2A. (3-19-07)
- 10. Interest.** Interest to finance nonallowable costs are nonallowable. (3-19-07)
- 11. Medicare Costs.** All costs of Medicare Part A or Part B services incurred by Medicare certified facilities, including the overhead costs relating to these services are nonallowable. (3-19-07)
- 12. Nonpatient Care Related Activities.** All activities not related to patient care are nonallowable. (3-19-07)
- 13. Organization.** Organization costs are nonallowable, see PRM, Section 2134. (3-19-07)
- 14. Pharmacist Salaries.** Salaries and wages of pharmacists are nonallowable. (3-19-07)
- 15. Prescription Drugs.** Prescription drug costs are nonallowable. (3-19-07)
- 16. Related Party Interest.** Interest on related party loans are nonallowable, see PRM, Sections 218.1 and 218.2. (3-19-07)
- 17. Related Party Nonallowable Costs.** All costs nonallowable to providers are nonallowable to a related party, whether or not they are allocated. (3-19-07)
- 18. Related Party Refunds.** All refunds, allowances, and terms, will be deemed to be allocable to the members of related organizations, on the basis of their participation in the related purchases, costs, etc. (3-19-07)
- 19. Self-Employment Taxes.** Self-employment taxes, as defined by the Internal Revenue Service, which apply to facility owners are nonallowable. (3-19-07)
- 20. Telephone Book Advertising.** Telephone book advertising costs in excess of the base charge for a quarter column advertisement for each telephone book advertised in are nonallowable. (3-19-07)
- 21. Vending Machines.** Costs of vending machines and cost of the product to stock the machine are nonallowable costs. (3-19-07)

592. ICF/ID: HOME OFFICE COST PRINCIPLES.

The reasonable cost principles will extend to the home office costs allocated to individual providers. In addition, the home office, through the provider, will provide documentation as to the basis used to allocate its costs among the various entities it administers or otherwise directs. (3-19-07)

593. ICF/ID: RELATED PARTY TRANSACTIONS.

01. Principle. Costs applicable to services, facilities and supplies furnished to the provider by organizations or persons related to the provider by common ownership, control, etc., are allowable at the cost to the related party. Such costs are allowable to the extent that they relate to patient care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer. (3-19-07)

02. Cost Allowability - Regulation. Allowability of costs is subject to the regulations prescribing the treatment of specific items as outlined in 42 CFR 413.17, et al, and the Providers Reimbursement Manual, PRM Chapter 10 and other applicable chapters of the PRM. (3-19-07)

594. ICF/ID: APPLICATION OF RELATED PARTY TRANSACTIONS.

01. Determination of Common Ownership or Control in the Provider Organization and Supply Organization. In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. (3-19-07)

a. A determination as to whether an individual(s) possesses ownership or equity in the provider organization and the supplying organization, so that the organizations will be considered to be related by common ownership, will be made on the basis of the facts and circumstances in each case. (3-19-07)

b. The term "control" includes any kind of control whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control which is decisive, not its form or the mode of its exercise. (3-19-07)

02. Cost to Related Organizations. The charges to the provider from related organizations may not exceed the billing to the related organization for these services. (3-19-07)

03. Costs Not Related to Patient Care. All home office costs not related to patient care are not allowable under the program. (3-19-07)

04. Interest Expense. Generally, interest expense on loans between related entities will not be reimbursable. See the PRM, Chapters 2, 10, and 12 for specifics. (3-19-07)

595. ICF/ID: COMPENSATION OF RELATED PERSONS.

Compensation paid to persons related to owners or administrators is allowable only to the extent that services are actually performed and are necessary and adequately documented and the compensation for the services is reasonable. (3-19-07)

01. Compensation Claimed. Compensation claimed for reimbursement must be included in compensation reported for tax purposes and be actually paid. (3-19-07)

a. Where such persons perform services without pay, no cost may be imputed. (3-19-07)

b. Time records documenting actual hours worked are required in order that the compensation be allowable for reimbursement. (3-19-07)

c. Compensation for undocumented hours worked will not be a reimbursable cost. (3-19-07)

02. Related Persons. A related person is defined as having one (1) of the following relationships with the provider: (3-19-07)

a. Husband or wife; (3-19-07)

b. Son or daughter or a descendent of either; (3-19-07)

- c. Brother, sister, stepbrother, stepsister or descendent thereof; (3-19-07)
- d. Father, mother, stepfather, stepmother, an ancestor thereof, or a brother or sister thereof; (3-19-07)
- e. Son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law; (3-19-07)
- f. A descendent of a brother or sister of the provider's father or mother; (3-19-07)
- g. Any other person with whom the provider does not have an arms length relationship. (3-19-07)

596. ICF/ID: INTEREST EXPENSE.

Generally interest on loans between related entities is not an allowable expense. The loan will usually be considered invested capital. See PRM, Chapter 2 for specifics. (3-19-07)

597. ICF/ID: IDAHO OWNER-ADMINISTRATIVE COMPENSATION.

Allowable compensation to owners and persons related to owners who provide any administrative services will be limited based on the schedule in this section. (3-19-07)

01. Allowable Owner Administrative Compensation. The following schedule will be used in determining the maximum amount of owner administrative compensation allowable for the calendar year ending December 31, 2002.

Licensed Bed Range	Upper limit
51 - 100	86,951
101 - 150	95,641
151 - 250	129,878
251 - up	186,435

(3-19-07)

02. The Administrative Compensation Schedule. The administrative compensation schedule in this Section will be adjusted annually based upon the change in average hourly earnings in nursing and personal care facilities as published by Data Resources Incorporated, its successor organization or, if unavailable, another nationally recognized forecasting firm. (3-19-07)

03. The Maximum Allowable Compensation. The maximum allowable compensation for an owner providing administrative services is determined from the schedule in Subsection 597.01. of these rules. Allowable compensation will be determined as follows: (3-19-07)

a. In determining the number of beds applicable on the schedule, all licensed beds for which the individual provides administrative services will be counted, regardless of whether they are in the same facility. (3-19-07)

b. For an owner providing services to more than fifty (50) beds, the amounts shown on the schedule for the applicable number of beds will determine the upper limit for allowable compensation. (3-19-07)

c. For owners providing services to less than fifty-one (51) beds, such services related to administrative duties will be reimbursed at the hourly rate allowable if the owner was providing services to fifty-one (51) beds. Additionally, services other than administrative services may be performed by the owner and will be allowable at the reasonable market rate for such services. To be allowable, hours for each type of service will be documented. In no event will the total compensation for administrative and non-administrative duties paid to an owner or related party to an owner of a facility or facilities with fifty (50) licensed beds or less exceed the limit that would be applicable to an owner with the same number of points providing administrative services to facilities with

fifty-one (51) beds as set forth in the schedule of Subsection 597.01 of these rules. (3-19-07)

04. Compensation for Persons Related to an Owner. Compensation for persons related to an owner will be evaluated in the same manner as for an owner. (3-19-07)

05. When an Owner Provides Services to More Than One Provider. When an owner provides services to more than one (1) provider compensation will be distributed on the same basis as costs are allocated for non-owners. (3-19-07)

06. More Than One Owner or Related Party May Receive Compensation for Hours Actually Worked. Services must be actually performed, documented and necessary. Total compensation must be reasonable, and not greater than the amount for which the same services could be obtained on the open market. The standard by which full time compensation is measured will be two thousand eighty (2,080) hours. Compensation of an owner or a party related to an owner is subject to other provisions of this chapter, and will not exceed the compensation determined from the Administrative Compensation Schedule, and, on an hourly basis, will not exceed the compensation determined in the Administrative Compensation Schedule divided by two thousand eighty (2,080). (3-19-07)

598. -- 599. (RESERVED)

600. ICF/ID; OCCUPANCY ADJUSTMENT FACTOR.

In order to equitably allocate fixed costs to the Medicaid patients in cases where a facility is not maintaining reasonable occupancy levels, an adjustment will be made. No occupancy adjustment will be made against the costs that are used to calculate the property rental rate; however adjustment will be made against all other property costs. The adjustment will be made as follows: (3-19-07)

01. Occupancy Levels. If a facility maintains an average occupancy of less than eighty percent (80%) of a facility's capacity, the total property costs not including cost paid under the property rental rate, will be prorated based upon an eighty percent (80%) occupancy rate. Property costs and property rental rates are defined in Section 013 of these rules. The facility's average occupancy percentage will be subtracted from eighty percent (80%) and the resultant percentage will be taken times the total fixed costs to determine the nonallowable fixed costs. (3-19-07)

02. Occupancy Adjustment. For purposes of an occupancy adjustment, facility capacity will be computed based upon the greater of the largest number of beds for which the facility was licensed during the period being reported on or the largest number of beds for which the facility was licensed during calendar year 1981, except where a portion of the facility has been converted to use for nonroutine nursing home activities or the facility is newly constructed and has entered the Medicaid Program subsequent to January 1, 1982. If the facility's designed capacity has been changed, the number of beds used to determine occupancy will be lowered by the amount of capacity being converted to nonroutine nursing home activities. Facility capacity for a new facility will be based on the number of beds approved by the certificate of need process less any capacity converted to nonroutine nursing home activities. (3-19-07)

03. Fixed Costs. For purposes of an occupancy adjustment fixed costs will be considered all allowable and reimbursable costs reported under the property cost categories. (3-19-07)

04. Change in Designed Capacity. In cases where a provider changes the designed capacity of a facility, the average occupancy for the period prior to the change and subsequent to the change will be computed and each period will be adjusted separately. If the designed capacity is increased, the increased number of beds will not be subject to this adjustment for the first six (6) months following their licensure. (3-19-07)

05. New Facility. In the case of a new facility being licensed and occupied, the first six (6) months occupancy level will not be subject to this adjustment. (3-19-07)

601. ICF/ID; RECAPTURE OF DEPRECIATION.

Where depreciable assets that were reimbursed based on cost and were used in the Medicaid Program by a facility subsequent to January 1, 1982, and for which depreciation has been reimbursed by the Program, are sold for an amount in excess of their net book value, depreciation so reimbursed will be recaptured from the buyer of the facility

in an amount equal to reimbursed depreciation after January 1, 1982, or gain on the sale, whichever is less. (3-19-07)

01. Amount Recaptured. Depreciation will be recaptured in full if a sale of a depreciated facility takes place within the first five (5) years of a seller's ownership. Credit will be given for the period of ownership prior to January 1, 1982. For every year the asset is held beyond the first five (5) years, the total depreciation recaptured will be reduced by ten percent (10%) per year of the total depreciation taken. (3-19-07)

02. Time Frame. Depreciation will be recaptured by the Medicaid Program from the buyer of the facility over a period of time not to exceed five (5) years from the date of sale, with not less than one-fifth (1/5) of the total amount being recaptured for each year after such date. (3-19-07)

Continued failure to comply will result in complete payment suspension on the first day of the following month. When suspension or reduction has occurred and the provider has filed the required cost reports, amounts accruing to the provider during the period of suspension or reduction will be restored. 01. Treatment of Income. Where an individual is determined eligible for medical assistance participation in the cost of his long term care, the Department must reduce its payment to the long term care facility by the amount of his income considered available to meet the cost of his care. This determination is made in accordance IDAPA 16.03.05, "Rules Governing Eligibility for Aid for the Aged, Blind, and Disabled (AABD)," Sections 721 through 725. (3-19-07)

02. SSA Income. The amount which the Participant receives from SSA as reimbursement for his payment of the premium for Part B of Title XVIII (Medicare) is not considered income for participant liability in accordance with IDAPA 16.03.05, "Rules Governing Eligibility for Aid for the Aged, Blind, and Disabled (AABD)." (3-19-07)

616. -- 619. (RESERVED)

620. ICF/ID: PAYMENTS FOR PERIODS OF TEMPORARY ABSENCE.

Payments may be made for reserving beds in ICFs/ID for participants during their temporary absence if the facility charges private paying participants for reserve bed days, subject to the following limitations: (3-19-07)

01. Prior Approval for Absence. Therapeutic home visits for ICF/ID residents of up to thirty-six (36) days per calendar year so long as the days are part of a written treatment plan ordered by the attending physician. 622. ICF/ID: PRINCIPLE PROSPECTIVE RATES.

Providers of ICF/ID facilities will be paid a per diem rate which, with certain exceptions, is not subject to an audit settlement. The per diem rate for a fiscal period will be based on audited historical costs adjusted for inflation. The provider must report these cost items in accordance with other provisions of this chapter or the applicable provisions of PRM consistent with this chapter. Sections 622 through 628 of these rules provide procedures and specifications necessary to implement the provisions and accomplish the objectives of the payment system for ICF/ID providers. Total payment will include the following components: Property reimbursement, capped costs, exempt costs, and excluded costs. Except as otherwise provided in this section, rates calculated for state fiscal year 2012 (July 1, 2011 through June 30, 2012) will be calculated by using finalized cost reports ended in calendar year 2009 with no cost or

cost limit adjustments for inflation to the rate period of July 1, 2011, through June 30, 2012. Rates effective July 1, 2012, and every July 1 thereafter, will be calculated by using audited cost reports ended in the calendar year two (2) years prior to each July 1 (July 1, 2012, rates will use cost reports ended in calendar year 2010 and so forth), with no cost or cost limit adjustments for inflation. (10-1-12)T

623. ICF/ID: PROPERTY REIMBURSEMENT.

Beginning October 1, 1996, ICF/ID property costs are reimbursed by a rental rate or based on cost. The following will be reimbursed based on cost as determined by the provisions of this chapter and applicable provisions of PRM to the extent not inconsistent with this chapter: ICF/ID living unit property taxes, ICF/ID living unit property insurance, and major movable equipment not related to home office or day treatment services. Reimbursement of other property costs is included in the property rental rate. Any property cost related to home offices and day treatment services are not considered property costs and will not be reported in the property cost portion of the cost report. These costs will be reported in the home office and day treatment section of the cost report. Property costs, including costs which are reimbursed based on a rental rate, will be reported in the property cost portion of the cost report. The Department may require and utilize an appraisal to establish those components of property costs which are identified as an integral part of an appraisal. Property costs include the following components: (3-19-07)

- 01. Depreciation.** Allowable depreciation based on straight line depreciation. (3-19-07)
- 02. Interest.** All allowable interest expense which relates to financing depreciable assets. Interest on working capital loans is not a property cost and is subject to the cap. (3-19-07)
- 03. Property Insurance.** All allowable property insurance. Malpractice insurance, workmen's compensation and other employee-related insurances are not property costs. (3-19-07)
- 04. Lease Payments.** All allowable lease or rental payments. (3-19-07)
- 05. Property Taxes.** All allowable property taxes. (3-19-07)
- 06. Costs of Related Party Leases.** Costs of related party leases are to be reported in the property cost categories based on the owner's costs. (3-19-07)

624. ICF/ID: CAPPED COST.

Beginning October 1, 1996, this cost area includes all allowable costs except those specifically identified as property costs in Section 623 of these rules and exempt costs or excluded costs in Section 627 or 628 of these rules. This Section defines items and procedures to be followed in determining allowable and exempt costs and provides the procedures for extracting cost data from historical cost reports, applying a cost forecasting market basket to project cost forward, procedures to be followed to project costs forward, and procedures for computing the median of the range of costs and the ICF/ID cap. (3-19-07)

01. Costs Subject to the Cap. Items subject to the cap include all allowable costs except property costs identified in Section 623 of these rules and exempt costs or excluded costs identified in Section 627 or 628 of these rules. Property costs related to a home office are administrative costs, will not be reported as property costs, and are subject to the cap. (3-19-07)

02. Per Diem Costs. Costs to be included in this category will be divided by the total participant days for the facility for the cost reporting period to arrive at allowable per diem costs. If costs for services provided some or all non-Medicaid residents are not included in the total costs submitted, the provider must determine the costs and combine them with the submitted costs in order that a total per diem cost for that facility can be determined both for both the purposes of determining the ICF/ID cap and of computing final reimbursement. (3-19-07)

03. Cost Data to Determine the Cap. Cost data to be used to determine the cap for ICF/ID facilities will be taken from each provider's most recent final cost report available sixty (60) days before the beginning of the period for which the cap is being set. Cost reports are final when the final audit report is issued, or earlier if the Department informs the facility the report is final for rate setting purposes. The selected final cost report will be used to establish the facility's prospective reimbursement rate. However, the final cost reports covering a period of less than twelve (12) months will be included in the data for determining the cap at the option of the Department.

(3-19-07)

04. Projection. Per diem allowable costs will be inflated forward using a cost forecasting market basket and forecasting indices according to the same table as used for free standing facilities. (3-19-07)

a. The projection method used in Section 624 of these rules to set the cap will also be used to set non property portions of the prospective rate which are not subject to the cap. (3-19-07)

b. Forecasting indices as developed by Data Resources, Incorporated, will be used unless they are unavailable. In such case, indices supplied by some other nationally recognized forecaster will be used. (3-19-07)

05. Costs Which Can be Paid Directly by the Department to Non ICF/ID Providers. Costs which can be paid directly by the Department to non ICF/ID providers are excluded from the ICF/ID prospective rates and ICF/ID cap: (3-19-07)

a. Direct physician care costs. Physicians who provide these services must bill the Medicaid program directly using their own provider numbers. (3-19-07)

b. Costs of services covered under the Early and Periodic Screening Diagnosis and Treatment (EPSDT) portion of the Medicaid Program. Items such as eyeglasses and hearing aids are covered under IDAPA 16.03.09, "Medicaid Basic Plan Benefits." Dental services provided to EPSDT participants who are under the age of twenty-one (21) and who reside in an ICF/ID, are covered under Sections 080 through 085 of these rules. The cost of these services is not includable as a part of ICF/ID costs. Reimbursement can be made to a professional providing these services through his billing the Medicaid Program on his own provider number. (5-8-09)

c. Costs of services covered by other parts of the Medicaid Program. Examples of these items include legend drugs and ambulance transportation. These items must be billed to the Medicaid Program directly by the provider using his own provider number. (3-19-07)

06. Cost Projection. Allowable per diem costs will be projected forward from the midpoint of the Base Period to the midpoint of the Target Period. "Base Period" is defined as the last available final cost report period. "Target Period" is defined as the effective period of the prospective rate. Procedures for inflating these costs are as follows: (3-19-07)

a. The percentage change for each cost category in the market basket will be computed from the beginning to the end of the Base Period. These percentages will then be divided by two (2) and the resultant percentages will be used to project forward allowable per diem costs for each cost category from the midpoint to the end of the Base Period. (3-19-07)

b. The percentage change for each cost category in the market basket will be computed for the period from the end of the Base Period to the beginning of the Target Period. These percentages will then be used to project forward the allowable per diem costs for each cost category, as determined in Subsection 624.06.a. of these rules, from the end of the Base Period to the beginning of the Target Period. (3-19-07)

c. The percentage change for each cost category in the market basket will be computed for the beginning to the end of the Target Period. These percentages will then be divided by two (2) and the resultant percentages will be used to project forward the allowable per diem costs as determined in Subsection 624.06.b. of these rules from the beginning to the midpoint of the Target Period. (3-19-07)

07. Cost Ranking. Prior to October 1st of each year the Director will determine the that percent above the median which will assure aggregate payments to ICF/ID providers will approximate but not exceed amounts that would be incurred using Medicare cost principles of reimbursement. That percentage will apply to caps and rates set after September 30th of each year. Projected per diem costs as determined in this section and subject to the cap will be ranked from the highest to the lowest. The cap will be set at a percent of the bed-weighted median for each rate period. The initial cap will be set as of October 1, 1996. (3-19-07)

a. The median of the range will be computed based on the available data points being considered as

the total population of data points. (3-19-07)

b. The cap for each ICF/ID facility with a fiscal year beginning October 1, 1996, will be computed prior to the beginning of that year. For those facilities with a fiscal year ending on a date other than September 30th, the first cap will be computed for the period beginning October 1, 1996, and ending on the fiscal year end date. (3-19-07)

c. Facilities with cost reports that transcend the period from October 1, 1996, through September 30, 1997, will be retrospectively settled using the previous reimbursement system for the period of the report up to September 30, 1996. There will not be a retrospective settlement on the portion of these cost reports attributed to October 1, 1996 through the end of the cost report period unless provisions of Section 626 of these rules apply. (3-19-07)

d. Cost reports for periods beginning on or after October 1, 1996, will not be subject to retrospective settlement except as required by other provisions of this chapter. (3-19-07)

e. A new cap and rate will be set on an annual basis for each facility the first of July every year. (3-19-07)

f. The cap and prospective rate will be determined and set on an annual basis for each facility July first of every year and will not be changed by any subsequent events or information with the exception that if the computations were found to contain mathematical or clerical errors, these errors will be corrected and the cap will be adjusted using the corrected figures. (3-19-07)

g. Payment of costs subject to the cap will be limited to the cap unless the Department determines the exclusions found in Section 628 of these rules apply. (3-19-07)

h. A facility which commences to offer participant care services as an ICF/ID on or after October 1, 1996, will be subject to retrospective settlement until the first prospective rate is set. Such facility will be subject to the ICF/ID cap as determined in this chapter. The first prospective rate for this provider will be set by the Department based on quarterly cost statements and final cost reports submitted for periods following the first three (3) months of operation. This first prospective rate may be set after the beginning of the second fiscal year of the provider. For the second year the provider will be paid a rate to be settled retrospectively unless both the Department and the provider agree to a prospective rate or rates covering that fiscal period. (3-19-07)

625. (RESERVED)

626. ICF/ID: RETROSPECTIVE SETTLEMENT.

When retrospective settlement is applicable, it is based on allowable reimbursement in accordance with this chapter and based on an audit report. Retrospective settlement will be subject to the same caps and limits determined for prospective payments. (3-19-07)

01. A Provider's Failure to Meet Any of the Conditions. A provider's failure to meet any of the conditions of participation set forth in 42 CFR 483, Subpart I, may subject that provider to retrospective reimbursement for the fiscal year, or any portion thereof, during which the condition is not met. The provider's projected per diem rate may be adjusted to reflect actual reimbursable costs subject to cost limits. (3-19-07)

02. A First Time Provider. A first time provider operating a new ICF/ID living unit will be subject to a retrospective settlement for the first fiscal year and until the first subsequent period wherein a prospective rate is set in accordance with Sections 603, 605, and 606 of these rules and this chapter. A budget based on the best available information is required prior to opening for participant care so an interim rate can be set. (3-19-07)

03. New ICF/ID Living Unit. A new ICF/ID living unit for an existing operator is subject to first time facility requirements if the new living unit reflects a net increase in licensed beds, otherwise the Department may set a prospective rate with the non-property rate components based on similar components of rates most recently paid for the participants moving into the facility. The property rental rate will be set according to applicable provisions of this chapter. (3-19-07)

04. Change of Ownership of Existing ICF/ID Living Unit. Where there is a change of ownership of an existing ICF/ID living unit, the provider operating the ICF/ID living unit will not receive an adjustment of the provider's prospective rate except that the property rental portion of the rate will be adjusted subject to property rental provisions of this chapter. However, new facility reporting requirements and the cap will apply. (3-19-07)

05. Fraudulent or False Claims. Providers who have made fraudulent or false claims are subject to retrospective settlement as determined by the Department. (3-19-07)

06. Excluded Costs. Excluded costs may be retrospectively settled according to the provisions of Section 247 of these rules. (3-19-07)

627. ICF/ID: EXEMPT COSTS.
Exempt costs are not subject to the ICF/ID cap. (3-19-07)

01. Day Treatment Services. As specified in this Section, the cost of day treatment services may be reimbursed in this category and may not be subject to the ICF/ID cap. (3-19-07)

a. This category includes the direct costs of labor, benefits, contracted services, property, utilities and supplies for such services up to the limitations provided in this Subsection. (3-19-07)

b. When a school or another agency or entity is responsible for or pays for services provided to a participant regularly during normal working hours on weekdays, no costs will be assigned to this category for such services. The Department will not reimburse for the cost of services which are paid for or should be paid for by an other agency. (3-19-07)

c. When ICF/ID day treatment services are performed for participants in a licensed Developmental Disability Center, the allowable cost of such services will be included in this category, but not more than the amount that would be paid according to the Department's fee schedule for individual or group therapy for similar services. Amounts incurred or paid by the ICF/ID in excess of what would be paid according to the Department's fee schedule for like services are not allowable costs and will be reported as non-reimbursable. (3-19-07)

d. For day treatment services provided in a location other than a certified developmental disability center, the maximum amount reportable in this category will also be limited. Total costs for such services reported by each provider in this category will be limited to the number of hours, up to thirty (30) hours per week per participant, of individual or group developmental therapy times the hourly rate that would be paid according to the most recent Department fee schedule for the same services if provided in a developmental disability center. Costs in excess of the limits determined in this Subsection will be classified and reported as subject to the ICF/ID cap. Initial rates established under the prospective system effective October 1, 1996, and not later than October 1, 1997, will not include a limitation of day treatment costs based on the hourly rate, when the hours of individual or group therapy were not obtained or audited by the Department at the time the rate was published. However, if a provider believes that the day treatment cost used to establish the day treatment portion of its prospective rate was misstated for rates set for periods beginning October 1, 1996, through rates beginning October 1, 1997, revisions to the prospective rate may be made to the extent the provider demonstrates, to the satisfaction of the Department, that the cost used was misstated. Such a revision will be considered only if the provider requests a revision and provides adequate documentation within sixty (60) days of the date the rate was set. At the option of the Department it may negotiate fixed rates for these day treatment services. Such rates will be set so the aggregate related payments are lower than would be paid with a limitation based on schedules used for licensed Developmental Disability Centers. (3-19-07)

e. Financial data including expenses and labor hours incurred by or on behalf of the provider in providing day treatment services, must be identifiable and separate from the costs of other facility operations. Reasonable property costs related to day treatment services and not included in the property rental rate, will be separately identified, will be reported as day treatment services costs, and will not include property costs otherwise reimbursed. Property costs related to day treatment services will be separately identified as not related to living unit costs by a final audit determination issued prior to October 1, 1996, or will be separate and distinct from any property used for ICF/ID services which are or were day treatment services. (3-19-07)

f. In the event a provider has a change in the number of participants requiring day treatment services, the prospective rate may be adjusted by the Department to reflect a change in costs related to such a change. Providers receiving such changes may be required to provide added documentation to the Department to assure that further changes can be identified and the prospective rate adjusted accordingly. (3-19-07)

02. Major Movable Equipment. Costs related to major movable equipment, as defined in this chapter will be exempt from the ICF/ID cap and will be reimbursed prospectively based on Medicare principles of cost reimbursement. (3-19-07)

628. ICF/ID: COSTS EXCLUDED FROM THE CAP.

Certain costs may be excluded from the ICF/ID cap, may be subject to retrospective settlement at the discretion of the Department, and may result in changes to the prospective rate as provided in this Section to assure equitable reimbursement: (3-19-07)

01. Increases of More Than One Dollar Per Participant Day in Costs. Increases of more than one dollar (\$1) per participant day in costs otherwise subject to the cap incurred by a facility as a result of changes in State or Federal laws or rules will be reported separately on the cost report for reports filed less than thirty (30) months, or a greater length of time if so directed by the Department, from the date such increases were first required. Such costs will be subdivided into the component parts of wages, benefits, contracted services and other costs in the amounts equal to costs removed from the respective cost categories subject to the cap. The Department may adjust the forecasted rate to include the projected per diem related to such costs. (3-19-07)

a. The provider will report these costs on a separate schedule or by notations on the cost report so that these costs can be identified and reconciled to the provider's general ledger. (3-19-07)

b. If more than one (1) increase occurs as a result of one (1) or more law or rule change, the costs from each event are to be reported separately. (3-19-07)

c. The computation of the cost increase amount or amounts is to be presented in detail on a supplementary schedule or schedules unless the Department states otherwise. (3-19-07)

d. For interim rate purposes the provider's prospective rate may be granted an increase to cover such cost increases. A cost statement covering a recent period may be required with the justification for the increased costs. The actual amount related to such increases will be determined at audit and may be retrospectively settled. (3-19-07)

e. After the initial deadline has passed for all providers to file cost reports for reporting periods beginning on or after the date certain cost increases were first required, the Department will, at its option, include all of the previously excluded costs related to those increases with costs subject to the cap when setting rates or increase the cap and individual facility prospective rates following such cost increases. If a cap is set with these particular costs included in the cap category, providers subject to that cap will not have these costs excluded from the cap for prospective rate purposes. The intent of this provision is for costs to be exempt from the cap until these costs are able to be fully and equitably incorporated in the data base used to project the cap and for these costs to be exempt only when they are not included in the data base. In those cases, when costs are not incurred immediately after a change in rule or law, delays in incorporating the new costs in the cap are warranted. (3-19-07)

f. When cost increases which have been excluded from the cap are incorporated in the inflation indices used to set the cap, the cost indices will be adjusted to exclude the influence of such changes if the amount is included in the index is identified. When the cap is set to include previously excluded amounts, any adjustments previously made to the indexes related to the previously excluded costs will be removed. (3-19-07)

02. Excess Inflation. Reimbursement of costs subject to the cap will be limited to the cap unless the Department determines the inflation indices used to set the prospective rates for a reporting period understated actual inflation by more than seven (7%) percentage points. In such case, prospective rates and the cap will be increased by the amount which actual inflation indices exceeded projected inflation indices and may be retrospectively adjusted by the department. (3-19-07)

03. Cost Increases Greater Than Three Percent. When cost increases of greater than three percent (3%) of the projected interim rate which result from disasters such as fire, flood, or earthquake, epidemic or similar unusual and unpredictable circumstances over which a provider has no control. Prospective rates will be increased and they will not be subject to the cap. However, they may be retrospectively adjusted by the Department. For the purposes of this Subsection, disaster does not include personal or financial problems. (3-19-07)

04. Decreases. In the event of state or federal law, rule, or policy changes which result in clearly identifiable reductions in required services, the Department may reduce the prospective rate to reflect the identified per diem amount related to such reductions. (3-19-07)

05. Prospective Negotiated Rates. Notwithstanding the provisions of Section 622 of these rules, the Director will have the authority to negotiate prospective rates for providers who would otherwise be subject to accept retrospective settlement. Such rates will not exceed the projected allowable rate that would otherwise be reimbursed based on provisions of this chapter. (3-19-07)

629. ICF/ID: LEGAL CONSULTANT FEES AND LITIGATION COSTS.

Costs of legal consultant fees and litigation costs incurred by the provider will be handled in accordance with the following: (3-19-07)

01. In General. Legal consultant fees unrelated to the preparation for or the taking of an appeal of an audit performed by the Department of Health and Welfare, or litigation costs incurred by the provider in an action unrelated to litigation with the Department of Health and Welfare, will be allowed as a part of the total per diem costs of which the Medicaid Program will reimburse a portion according to the percentage of Medicaid patient days. (3-19-07)

02. Administrative Appeals. In the case of the provider contesting in administrative appeal the findings of an audit performed by the Department of Health and Welfare, the costs of the provider's legal counsel will be reimbursed by the Medicaid Program only to the extent that the provider prevails on the issues involved. The determination of the extent that the provider prevails will be based on the ratio of the total dollars at issue for the audit period at issue in the hearing to the total dollars ultimately awarded to the provider for that audit period by the hearing officer or subsequent adjudicator. (3-19-07)

03. Other. All other litigation costs incurred by the provider in actions against the Department of Health and Welfare will not be reimbursable either directly or indirectly by the Medicaid Program except where specifically ordered by a court of law. (3-19-07)

630. ICF/ID: PROPERTY RENTAL RATE REIMBURSEMENT.

ICFs/ID will be paid a property rental rate. Property taxes, property insurance, and depreciation expense or major moveable equipment will be reimbursed as costs exempt from limitations. The property rental rate does not include compensation for minor movable equipment. The property rental rate is paid in lieu of payment for amortization, depreciation, and interest for financing the cost of land and depreciable assets. See Sections 56-108 and 56-109, Idaho Code, for further clarification. (3-19-07)

01. Property Rental Rate. The property rental rate is based upon current construction costs, the age of the facility, the type of facility, and major expenditures made to improve the facility, or a rate based upon property costs as of January 1, 1985. The amount paid for each Medicaid day of care will be phased in according to the following: (3-19-07)

a. $R = \text{"Property Base"} \times 40 - \text{"Age"} / 40 \times \text{"change in building costs"}$ where: (3-19-07)

b. "R" = the property rental rate. (3-19-07)

c. "Property Base" = eleven dollars and twenty-two cents (\$11.22) except for ICF/ID living units not able to accommodate residents requiring wheelchairs beginning October 1, 1996. Property base = seven dollars and twenty-two cents (\$7.22) for ICF/ID living units not able to accommodate residents requiring wheelchairs. (3-19-07)

d. "Change in building costs" = 1.0 from October 1, 1996, through December 31, 1996. For ICF/ID

facilities, the most recent index available when it is first necessary to set a prospective rate for a period that includes all or part of the calendar year, will be used. (3-19-07)

e. "Age" of facility - The effective age of the facility in years will be set by subtracting the year in which the facility, or portion thereof, was constructed from the year in which the rate is to be applied. No facility or portion thereof will be assigned an age of more than thirty (30) years, however: (3-19-07)

i. If adequate information is not submitted by the facility to document that the facility, or portion thereof, is newer than thirty (30) years, the age will be set at thirty (30) years. Adequate documentation will include, but not be limited to, such documents as copies of building permits, tax assessors' records, receipts, invoices, building contract, and original notes of indebtedness. An age will be determined for each building. A weighted average using the age and square footage of the buildings will become the effective age of the facility. The age of each building will be based upon the date when construction on that building was completed. This age will be adjusted to reflect major building expansion or remodeling prior to April 1, 1985, if that expenditure was large enough to reduce the age of the facility by two (2) or more years according to the following formula:

$$r = A \times E / S \times C$$

Where:

r	=	Reduction in the age of the facility in years.
A	=	Age of the building at the time when construction was completed.
E	=	Actual expenses for the construction provided that the total costs must have been incurred within twenty-four (24) months of the completion of the construction.
S	=	The number of square feet in the building at the end of construction.
C	=	The cost of construction for the buildings in the year when construction was completed according to the schedule in Subsection 630.01.d.ii.

If the result of this calculation, "r" is equal to or greater than two point zero (2.0), the age of the building in years will be reduced by this number, rounded to the nearest whole number for rate setting purposes. In no case will the age be less than zero (0). (3-19-07)

ii. For rates paid after June 30, 1989, the effective age of a facility will be further adjusted when the cost of major repairs, replacement, remodeling, or renovation of a building initiated after April 1, 1985, results in the change in age by at least one (1) year when applied to the formula in Subsection 630.01.d.i. However, such change will not decrease the effective age of a facility beyond the point where the increase in the property rental rate is greater than three-fourths (3/4) of the difference between the property rental rate "r" for a new facility at the time of the proposed rate revision and the property rental rate for which the facility was eligible immediately before the adjustment. The cost used for "C" will be adjusted according to costs published by Marshall Swift Valuation Service to reflect current construction costs for average Class D convalescent hospitals. It is the provider's responsibility to notify the Department and document costs. The Department will adjust the age after documentation of costs. (3-19-07)

iii. In the event that new requirements are imposed by state or federal agencies, the Department will reimburse the expenditures directly related to these requirements as an increase in the property rental rate if the expense is in excess of one hundred dollars (\$100) per bed. If the cost related to the requirement is less than one hundred dollars (\$100) per bed, the Department will, within twelve (12) months of verification of expenditure, reimburse the Medicaid share of the entire cost of such new requirements, as a one (1) time payment to the facility. (3-19-07)

iv. At no time will the property rental rate paid to a facility be less than the greater of the rate allowable to that facility on December 31, 1988, the rate allowable immediately following the first opening of a new facility after December 31, 1988, or the rate allowable immediately following the last, if any, age revision after December 31, 1988. However, subsequent to the application of this provision, before any property rental rate increase may be made for current or successor operators, the final settlement amount of any increase in the property rental rate will first be

offset by an amount equal to the impact on final settlement of any rate decrease that would have occurred if the provisions of Subsections 630.01.d.iii. and 630.01.d.iv. of these rules had not been applied. This is intended to allow the postponement of the financial burden to providers of property rental rate decreases and to allow an equal offset of the financial burden to the state of subsequent property rate increases for a current or successor provider. (3-19-07)

v. Effective October 1, 1996, for ICF/ID facilities, "age of facility" will be a revised age which is the lesser of the age established under other provisions of this Section or the age which most closely yields the rate allowable to existing facilities as of September 30, 1996, under Subsection 630.01 of these rules. This revised age will not increase over time. (3-19-07)

02. Sale of a Facility. In the event of the sale of a facility, or asset of a facility, the buyer will receive the property rental rate of Subsection 630.01 of these rules. (3-19-07)

631. ICF/ID: PROPERTY REIMBURSEMENT LIMITATIONS.

Beginning October 1, 1996, property costs of an ICF/ID will be reimbursed in accordance with Section 630 of these rules except as follows: (3-19-07)

01. Restrictions. No grandfathered rates or lease provisions other than lease provisions in Section 630 of these rules will apply to ICF/ID facilities. (3-19-07)

02. Home Office and Day Treatment Property Costs. Distinct parts of buildings containing ICF/ID living units may be used for home office or day treatment purposes. Reimbursement for the property costs of such distinct parts may be allowed if these areas are used exclusively for home office or day treatment services. The portion of property cost attributed to these areas may be reimbursed as part of home office or day treatment costs without a reduction in the property rental rate. Reimbursement for home office and day treatment property costs will not include costs reimbursed by, or covered by the property rental rate. Such costs will only be reimbursed as property cost if the facility clearly included space in excess of space normally used in such facilities. At a minimum to qualify for such reimbursement, a structure would have square feet per licensed bed in excess of the average square feet per licensed bed for other ICF/ID living units within four (4) licensable beds. (3-19-07)

03. Leases for Property. Beginning October 1, 1996, ICF/ID facilities with leases will be reimbursed as follows: (3-19-07)

a. The property costs related to ICF/ID living units other than costs for major movable equipment will be paid by a property rental rate in accordance with Section 630 of these rules. (3-19-07)

b. Leases for property other than ICF/ID living units will be allowable based on lease cost to the facility not to exceed a reasonable market rate, subject to other provisions of this chapter, and PRM principles including principles associated with related party leases. (3-19-07)

632. ICF/ID: SPECIAL RATES.

Section 56-117, Idaho Code, provides that the Department may pay facilities a special rate for care given to consumers who have medical or behavior long-term care needs beyond the normal scope of facility services. These individuals must have one (1) or more of the following behavior needs; additional personnel for supervision, additional behavior management, or additional psychiatric or pharmacology services. A special rate may also be given to consumers having medical needs that may include but are not limited to individuals needing ventilator assistance, certain medical pediatric needs, or individuals requiring nasogastric or intravenous feeding devices. These medical and behavior needs are not adequately reflected in the rates calculated pursuant to the principles set in Section 56-265, Idaho Code. The payment for such specialized care will be in addition to any payments made in accordance with other provisions of this chapter and will be based on a per diem rate applicable to the incremental additional costs incurred by the facility. Payment for special rates will start with approval by the Department and be and reviewed at least yearly for continued need. The incremental cost to a facility that exceeds the rate for services provided pursuant to the provisions of Section 632 of these rules, will be excluded from the computation of payments or rates under other provisions of Section 56-265, Idaho Code, IDAPA 16.03.09, "Medicaid Basic Plan Benefits," and IDAPA 16.03.10, "Medicaid Enhanced Plan Benefits." (3-19-07)

01. Determinations. A determination to approve or not approve a special rate will be made on a

consumer-by-consumer basis. No rate will be allowed if reimbursement for these needs is available from a non-Medicaid source. (3-19-07)

02. Approval. Special rates will not be paid unless prior authorized by the Department. A special rate may be used in the following circumstances: (3-19-07)

a. New admissions to a community ICF/ID; (3-19-07)

b. For individuals currently living in a community ICF/ID when there has been a significant change in condition not reflected in the current rate; or (3-19-07)

c. The facility has altered services to achieve and maintain compliance with state licensing or federal certification requirements that have resulted in additional cost to the facility not reflected in their current rate. (3-19-07)

d. For the purpose of this rule, an emergency exists when the facility must incur additional behavioral or medical costs to prevent a more restrictive placement. (3-19-07)

03. Reporting. Costs equivalent to payments at the special rate will be removed from the cost components subject to limits, and will be reported separately. (3-19-07)

04. Limitations. The reimbursement rate paid will not exceed the provider's charges to other participants for similar services. (3-19-07)

633. REIMBURSEMENT PROVISIONS FOR STATE OWNED OR OPERATED ICF/ID FACILITIES. Provisions of these rules do not apply to ICF/ID facilities owned or operated by the state of Idaho. Reimbursement of such facilities will be governed by the principles set forth in the PRM, with the exception of depreciation. Assets of such facilities need not be depreciated if they have an acquisition or historical cost of less than five thousand dollars (\$5,000). (3-19-07)

634. -- 647. (RESERVED)

648. INTRODUCTION TO DEVELOPMENTAL DISABILITIES AGENCIES SECTION. Sections 649 through 659 of these rules include the requirements for developmental disabilities agencies delivering services to children and adults. The benefit requirements for developmental therapy, Intensive Behavioral Intervention (IBI), and other DDA services were moved from IDAPA 16.04.11, "Developmental Disabilities Agencies (DDA)," to this section of rules. IDAPA 16.04.11, "Developmental Disabilities Agencies (DDA)," has been rewritten and renamed to: IDAPA 16.03.21, "Developmental Disabilities Agencies (DDA)." (7-1-11)

01. Background of the Children's System Redesign. (7-1-11)

a. In 2008, the Department began meeting with stakeholder groups to redesign developmental disabilities (DD) benefits for children. This project is known as the "Children's System Redesign." The Department will begin phased implementation of these redesigned benefits starting July 1, 2011. Implementation requirements are provided in Section 523 of these rules. (7-1-11)

b. In order to phase in these new benefits as seamlessly as possible, the Department will continue to operate the current children's DD benefits concurrently with the redesigned children's DD benefits. (7-1-11)

i. The current children's DD benefits are found under Sections 649 to 659 of these rules. (7-1-11)

ii. The redesigned children's DD benefits are found under Sections 520 through 528, 660 through 666, and 680 through 686 of these rules. (7-1-11)

02. Developmental Disabilities Agency Services for Adults Age Eighteen and Older. Current DDA services for adults have not been modified and are covered under Sections 649 to 659 of these rules. (7-1-11)

649. DEVELOPMENTAL DISABILITIES AGENCIES (DDA).

Under 42 CFR 440.130(d), the Department will pay for rehabilitative services including medical or remedial services provided by facilities that have entered into a provider agreement with the Department and are certified as developmental disabilities agencies by the Department. Services provided by a developmental disabilities agency to children birth to three (3) years of age must meet the requirements and provisions of the Individuals with Disabilities Act (IDEA), Part C; the Family Education Rights and Privacy Act; Sections 16-101, et seq., Idaho Code, regarding early intervention services; and the Idaho State Plan for Early Intervention Services under IDEA, Part C. These requirements include adherence to procedural safeguards and time lines, multi-disciplinary assessments, evaluations, individualized family service plans, provision of early intervention services in the natural environment, transition planning, and enrollment and reporting requirements. (3-19-07)

650. DEVELOPMENTAL DISABILITIES AGENCY (DDA) SERVICES: ELIGIBILITY.

01. DDA Services Eligibility. Prior to receiving services in a DDA an individual must be determined to have a developmental disability under Sections 500 through 506 of these rules and Section 66-402, Idaho Code. (7-1-11)

02. Intensive Behavioral Intervention (IBI) Service Eligibility. IBI is available to children with developmental disabilities through the month of their twenty-first birthday, who have the following characteristics: (7-1-11)

a. Self-injurious, aggressive, or severely maladaptive behavior as evidenced by a General Maladaptive Index score of minus twenty-two (-22) or below on the Scales of Independent Behavior - Revised (SIB-R) or other behavioral assessment indicators identified by the Department; and (7-1-11)

b. A severe deficit, defined as equivalent to fifty percent (50%) or less of chronological age, in at least one (1) of the following areas: (7-1-11)

i. Verbal and nonverbal communication as evidenced by the SIB-R Social Interaction & Communication Skills cluster score; (7-1-11)

ii. Social interaction as evidenced by the SIB-R Social Interaction subscale score; or (7-1-11)

iii. Leisure and play skills as evidenced by the SIB-R Home/Community Orientation subscale score. (7-1-11)

651. DDA SERVICES: COVERAGE REQUIREMENTS AND LIMITATIONS.

Developmental disabilities agency services must be recommended by a physician or other practitioner of the healing arts. The following therapy services are reimbursable when provided in accordance with these rules. (7-1-11)

01. Required DDA Services. Each DDA is required to provide developmental therapy; in addition, each DDA must provide or make available the following services: psychotherapy, occupational therapy, physical therapy, and speech and hearing therapy. Developmental therapy must be provided by qualified employees of the agency. Psychotherapy, occupational therapy, physical therapy, and speech and hearing therapy must either be provided by qualified employees of the agency or through a formal written agreement. (7-1-11)

a. Sufficient Quantity and Quality. All required services provided must be sufficient in quantity and quality to meet the needs of each person receiving services, and must be provided by qualified individuals in accordance with the requirements in Section 657 of these rules. (7-1-11)

b. When a Required Service Is Not Available. When a required service, other than developmental therapy, is not provided by the agency due to a documented shortage of available providers in a specific geographic area, the DDA must document its effort to secure the service or facilitate the referral for the needed service, including notifying the service coordinator, when the participant has one. (7-1-11)

02. Requirements to Deliver Developmental Therapy. Developmental therapy may be delivered in a developmental disabilities agency center-based program, the community, or the home of the participant. Participants

living in a certified family home must not receive home-based developmental therapy in a certified family home. Developmental therapy includes individual developmental therapy and group developmental therapy. Developmental therapy services must be delivered by Developmental Specialists or paraprofessionals qualified in accordance with these rules, based on a comprehensive developmental assessment completed prior to the delivery of developmental therapy. (7-1-12)T

a. Areas of Service. These services must be directed toward the rehabilitation or habilitation of physical or mental disabilities in the areas of self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, or economic self-sufficiency. If the individual has not completed the required training during any yearly training period, he may not provide family education services beginning with the anniversary date of the following period, and thereafter, until the required number of training hours have accumulated. As training hours accumulate, they will be accounted first to any training-deficient prior yearly period before being applied to the current annual training period. Training hours may not be earned in a current annual training period to be applied to a future training period. (7-1-11)

666. CHILDREN'S HCBS STATE PLAN OPTION: PROVIDER REIMBURSEMENT.

01. Reimbursement. The statewide reimbursement rate for children's HCBS state plan option services listed in Subsections 663.01 through 663.03 of these rules was derived by using Bureau of Labor Statistics mean wage for the direct care staff providing the service, adjusted for employment-related expenditures, program-related costs, and general and administrative costs based on a cost survey as described in Subsection 666.02 of this rule. Reimbursement rates are set at a percentage of the statewide target reimbursement rate. The Department will take into consideration the factors of efficiency, economy, quality of care, and access to care when determining rates. (7-1-11)

02. Cost Survey. The Department will conduct a cost survey every five (5) years from a statistically appropriate number of provider association representatives in order to obtain cost data for employment-related expenditures, program-related costs, and general and administrative costs. (7-1-11)

03. Claim Forms. Provider claims for payment will be submitted on claim forms provided or approved by the Department. Billing instructions will be provided by the Department. (7-1-11)

**CHILDREN'S WAIVER SERVICES
(Sections 680 through 699)**

680. CHILDREN'S WAIVER SERVICES.

Under 42 CFR Section 440.180, it is the intention of the Department to provide waiver services to eligible children to prevent unnecessary institutional placement, provide for the greatest degree of independence possible, enhance the quality of life, encourage individual choice, and achieve and maintain community integration. For a participant to be eligible, the Department must find that the participant requires services due to a developmental disability that impairs his mental or physical function or independence, is capable of being maintained safely and effectively in a non-institutional setting, and would, in the absence of such services, need to reside in an ICF/ID. (7-1-11)

681. CHILDREN'S WAIVER SERVICES: DEFINITIONS.

For the purposes of Sections 680 through 686 of these rules, the following terms are used as defined below; in addition, the definitions in Sections 521 and 661 of these rules apply. (7-1-11)

01. Crisis. An unanticipated event, circumstance, or life situation that places a participant at risk of at least one of the following: (7-1-11)

- a. Hospitalization; (7-1-11)
- b. Loss of housing; (7-1-11)
- c. Loss of employment; (7-1-11)

disabilities. (7-1-11)

03. Objective. A behavioral outcome statement developed to address a particular need identified for a participant. An objective is written in measurable terms that specify a target date for completion, no longer than one (1) year in duration, and include criteria for successful attainment of the objective. (7-1-11)

04. Probe. A probe is data gathered on an intermittent basis, after a baseline is established, to measure a participant's level of independent performance as related to an identified objective. (7-1-11)

05. Program Implementation Plan. A plan that details how intervention goals from the plan of service will be accomplished. (7-1-11)

06. Specific Skill Assessment. A type of assessment used to determine the baseline or the need for further supports or intervention for the discipline area being assessed. (7-1-11)

07. Telehealth. Telehealth is an electronic real-time synchronized audio-visual contact between a consultant and participant related to the treatment of the participant. The consultant and participant interact as if they were having a face-to-face service. (7-1-11)

08. Treatment Fidelity. Accurately and consistently administering a program or intervention from a manual, protocol, or model. (7-1-11)

682. CHILDREN'S WAIVER SERVICES: ELIGIBILITY.

Waiver eligibility will be determined by the Department as described in Section 522 of these rules. Children's waiver participants must meet the following requirements: (7-1-11)

01. Age of Participants. The following waiver programs are available for children: (7-1-11)

a. Children's DD Waiver. Children's DD waiver participants must be birth through seventeen (17) years of age. (7-1-11)

a. The participant would qualify for ICF/ID level of care as set forth in Section 584 of these rules, if the waiver services listed in Section 683 of these rules were not made available; and (7-1-11)

b. The participant could be safely and effectively maintained in the requested or chosen community residence with appropriate waiver services. This determination must: be made by a team of individuals with input from the family-centered planning team. Prior to any denial of services, it must be determined by the plan developer that services to correct the concerns of the team are not available. (7-1-11)

c. The average annual cost of waiver services and other medical services to participants would not exceed the average annual cost to Medicaid of ICF/ID care and other medical costs. (7-1-11)

d. Following the approval by the Department for services under the waiver, the participant must receive and continue to receive a waiver service as described in these rules. A participant who does not use a waiver service for thirty (30) consecutive days will be terminated from the waiver program. (7-1-11)

(7-1-11)

04. Children's Waiver Eligible Participants. A participant who is determined by the Department to be eligible for services under the children's waivers may elect not to use waiver services, but may choose admission to an ICF/ID. (7-1-11)

05. Home and Community-Based Waiver Participant Limitations. The number of Medicaid participants to receive waiver services under the children's waivers for participants with developmental disabilities will be limited to the projected number of users contained in the Department's approved waiver. Individuals who apply for waiver services after the waiver maximum has been reached will be placed on a waiting list and will have their applications processed after June 30th of each new waiver year. (7-1-11)

683. CHILDREN'S WAIVER SERVICES: COVERAGE AND LIMITATIONS.

All children's DD waiver services must be identified on a plan of service developed by the family-centered planning team, including the plan developer, and must be recommended by a physician or other practitioner of the healing arts. In addition to the children's home and community based state plan option services described in Section 663 of these rules, the following services are available for waiver eligible participants and are reimbursable services when provided in accordance with these rules: (7-1-11)

01. Family Training. Family training is professional one-on-one (1 on 1) instruction to families to help them better meet the needs of the waiver participant receiving intervention services. (7-1-11)

a. Family training is limited to training in the implementation of intervention techniques as outlined in the plan of service. (7-1-11)

b. Family training must be provided to the participant's parent or legal guardian when the participant is present. (7-1-11)

c. The family training provider must maintain documentation of the training in the participant's record documenting the provision of activities outlined in the plan of service. (7-1-11)

d. The parent or legal guardian of the waiver participant is required to participate in family training when the participant is receiving rehabilitative interventions. The following applies for each waiver program: (7-1-11)

i. For participants enrolled in the Children's DD Waiver, the amount, duration, and frequency of the training must be determined by the family-centered planning team and the parent or legal guardian, and must be listed as a service on the plan of service. (7-1-11)

ii. For participants enrolled in the Act Early Waiver, the parent or legal guardian will be required to be present and actively participate during the intervention service session for at least twenty percent (20%) of the intervention time provided to the child. (7-1-11)

02. Interdisciplinary Training. Interdisciplinary training is professional instruction to the direct service provider. Interdisciplinary training must only be provided during the provision of a support or intervention service. Interdisciplinary training is provided to assist the direct provider to meet the needs of the waiver participant. (7-1-11)

a. Interdisciplinary training includes: (7-1-11)

i. Health and medication monitoring; (7-1-11)

ii. Positioning and transfer; (7-1-11)

- iii. Intervention techniques; (7-1-11)
 - iv. Positive Behavior Support; (7-1-11)
 - v. Use of equipment; (7-1-11)
 - b.** Interdisciplinary training must only be provided to the direct service provider when the participant is present. (7-1-11)
 - c.** The interdisciplinary training provider must maintain documentation of the training in the participant's record documenting the provision of activities outlined in the plan of service. (7-1-11)
 - d.** Interdisciplinary training between a habilitative interventionist and a therapeutic consultant is not a reimbursable service. (7-1-11)
 - e.** Interdisciplinary training between employees of the same discipline is not a reimbursable service. (7-1-11)
- 03. Habilitative Intervention Evaluation.** The purpose of the habilitative intervention evaluation is to guide the formation of developmentally-appropriate objectives and intervention strategies related to goals identified through the family-centered planning process. The habilitative interventionist must complete an evaluation prior to the initial provision of habilitative intervention services. The evaluation must include: (7-1-11)
- a.** Specific skills assessments for deficit areas identified through the eligibility assessment; (7-1-11)
 - b.** Functional behavioral analysis; (7-1-11)
 - c.** Review of all assessments and relevant histories provided by the plan developer; and (7-1-11)
 - d.** Clinical Opinion. Professional summary that interprets and integrates the results of the testing. This summary includes functional, developmentally appropriate recommendations to guide treatment. (7-1-11)
- 04. Habilitative Intervention.** Habilitative intervention services must be consistent, aggressive, and continuous and are provided to improve a child's functional skills and minimize problem behavior. Services include individual or group behavioral interventions and skill development activity. Habilitative intervention must be based upon the well-known and widely regarded principles of evidence-based treatment. Evidence-based treatment (EBT) refers to the use of mental and behavioral health interventions for which systematic empirical research has provided evidence of statistically significant effectiveness as treatments for specific problems. As "promising practices" meet statistically significant effectiveness, they could be included as approved approaches. (7-1-11)
- a.** Habilitative intervention must be provided to meet the intervention needs of the participant by developing adaptive skills for all participants, and addressing maladaptive behaviors for participants who exhibit them. (7-1-11)
 - i. When goals to address maladaptive behavior are identified on the plan of service, the intervention must include the development of replacement behavior rather than merely the elimination or suppression of maladaptive behavior that interferes with the child's overall general development, community, and social participation. (7-1-11)
 - ii. When goals to address skill development are identified on the plan of service, the intervention must provide for the acquisition of skills that are functional. (7-1-11)
 - b.** Habilitative intervention must be provided in the participant's home or community setting, and in addition may be provided in a center-based setting. (7-1-11)
 - c.** Group intervention may be provided in the community and center. When habilitative intervention is provided as group intervention, the following applies: (7-1-11)

i. There must be a minimum of one (1) qualified staff providing direct services for every three (3) participants. As the number and severity of the participants with functional impairments or behavioral issues increases, the staff participant ratio must be adjusted accordingly. (7-1-11)

ii. When group intervention is community-based, the child must be integrated in the community in a natural setting with typically developing peers. (7-1-11)

iii. Group intervention must be directly related to meeting the needs of the child, and be identified as an objective in accordance with a plan of service goal. (7-1-11)

05. Therapeutic Consultation. Therapeutic consultation provides a higher level of expertise and experience to support participants who exhibit severe aggression, self-injury, and other dangerous behaviors. Therapeutic consultation is provided when a participant receiving habilitative intervention has been assessed as requiring a more advanced level of training and assistance based on the participant's complex needs. A participant requires therapeutic consultation when interventions are not demonstrating outcomes and it is anticipated that a crisis event may occur without the consultation service. (7-1-11)

a. The therapeutic consultant assists the habilitative interventionist by: (7-1-11)

i. Performing advanced assessments as necessary; (7-1-11)

ii. Developing and overseeing the implementation of a positive behavior support plan; (7-1-11)

iii. Monitoring the progress and coordinating the implementation of the positive behavioral support plan across environments; and (7-1-11)

iv. Providing consultation to other service providers and families. (7-1-11)

b. Telehealth resources may be used by a therapeutic consultant to provide consultation as appropriate and necessary. (7-1-11)

c. Therapeutic consultation providers are subject to the following limitations: (7-1-11)

i. Therapeutic consultation cannot be provided as a direct intervention service. (7-1-11)

ii. Participants must be receiving habilitative intervention services prior to accessing therapeutic consultation, with the exception of crisis situations. (7-1-11)

iii. Therapeutic consultation is limited to eighteen (18) hours per year per participant. (7-1-11)

iv. Therapeutic consultation must be prior authorized by the Department. (7-1-11)

06. Crisis Intervention. Crisis intervention services provide direct consultation and clinical evaluation of participants who are currently experiencing or may be expected to experience a psychological, behavioral, or emotional crisis. The need for crisis intervention must meet the definition of crisis in Section 681 of these rules. This service may provide training and staff development related to the needs of a participant, and also provides emergency back-up involving the direct support of the participant in crisis. Children's crisis intervention services: (7-1-11)

a. Are provided in the home and community. (7-1-11)

b. Are provided on a short-term basis typically not to exceed thirty (30) days. (7-1-11)

c. Cannot exceed fourteen (14) days of out-of-home placement. (7-1-11)

d. Must be prior authorized by the Department. (7-1-11)

i. Authorization for crisis intervention may be requested retroactively as a result of a crisis, defined in Section 681 of these rules, when no other means of support is available to the participant. In retroactive authorizations, the crisis intervention provider must submit a request for crisis intervention to the Department within seventy-two (72) hours of providing the service. (7-1-11)

ii. If staying in the home endangers the health and safety of the participant, the family, or both, the provider may request short-term out of home placement for the participant. Out of home placement must be prior authorized by the Department. (7-1-11)

e. Must use positive behavior interventions prior to and in conjunction with the implementation of any restrictive intervention. (7-1-11)

f. Telehealth resources may be used by a crisis interventionist to provide consultation in a crisis situation. (7-1-11)

07. Family-Directed Community Supports. Families of participants eligible for the children's DD waiver may choose to direct their individualized budget rather than receive the traditional services described in Subsections 683.01 through 683.06 of this rule when the participant lives at home with the parent or legal guardian. The requirements for selecting and participating in this option are outlined in IDAPA 16.03.13 "Consumer Directed Services." Act Early Waiver participants do not have the option to choose the family-directed services path. The Act Early Waiver is intended to be a more structured program that requires increased involvement from families, and ensures children receive an intense amount of services based on evidence-based research. (7-1-11)

08. Service limitations. Children's waiver services are subject to the following limitations: (7-1-11)

a. Place of Service Delivery. Waiver services may be provided in the participant's personal residence, community, or DDA. The following living situations are specifically excluded as a place of service for waiver services: (7-1-11)

i. Licensed skilled or intermediate care facilities, certified nursing facility (NF) or hospital; and (7-1-11)

ii. Licensed Intermediate Care Facility for persons with Intellectual Disabilities (ICF/ID); and (7-1-11)

iii. Residential Care or Assisted Living Facility; (7-1-11)

iv. Additional limitations to specific services are listed under that service definition. (7-1-11)

b. According to 42 CFR 440.180, Medicaid Waiver services cannot be used to pay for special education and related services that are included in a child's Individual Educational Plan (IEP) under the provisions of Individuals with Disabilities Education Improvement Act of 2004 (IDEA), that are otherwise available through a local educational agency. (7-1-11)

c. Children's waiver services are limited by the participant's individualized budget amount, excluding crisis intervention. (7-1-11)

d. For the children's waiver services listed in Subsections 683.01 through 683.07 of these rules, the following are excluded for Medicaid payment: (7-1-11)

i. Vocational services; (7-1-11)

ii. Educational services; and (7-1-11)

iii. Recreational services. (7-1-11)

684. CHILDREN'S WAIVER SERVICES: PROCEDURAL REQUIREMENTS.

01. Authorization of Services on a Written Plan. All children's waiver services must be identified on the plan of service and authorized by the Department. The plan of service must be reviewed by a plan developer at least every six (6) months or at a frequency determined by the family-centered planning team. (7-1-11)

02. General Requirements for Program Documentation. Children's waiver providers must maintain records for each participant the agency serves. Each participant's record must include documentation of the participant's involvement in and response to the services provided. For each participant the following program documentation is required: (7-1-11)

a. Direct service provider information which includes written documentation of each visit made or service provided to the participant, and will record at a minimum the following information: (7-1-11)

b. A copy of the above information will be maintained by the independent provider or DDA. Failure to maintain such documentation will result in the recoupment of funds paid for undocumented services. (7-1-11)

03. Program Implementation Plan Requirements. For each participant receiving intervention and family training services, the DDA must develop a program implementation plan to determine objectives to be included on the participant's required plan of service. (7-1-11)

a. All program implementation plan objectives must be related to a goal on the participant's plan of service. (7-1-11)

b. The program implementation plan must be written, implemented, and submitted to the plan developer within fourteen (14) days after the first day of ongoing programming and be revised whenever participant needs change. If the program implementation plan is not completed within this time frame, the participant's records must contain participant-based documentation justifying the delay. (7-1-11)

c. The program implementation plan must be completed by the habilitative interventionist, and must include the following requirements: (7-1-11)

These instructions must be individualized and revised as necessary to promote participant progress toward the stated objective. (7-1-11)

v. Identification of the type of environment(s) and specific location(s) where services will be provided. (7-1-11)

- x. The program implementation plan must be reviewed and approved by the DDA clinical supervisor, as indicated by signature, credential, and date on the plan. (7-1-11)

04. Reporting Requirements. The clinical supervisor must complete, at a minimum, six- (6) month and annual provider status reviews for habilitative intervention and family training services provided. These provider status reviews must be completed more frequently when so required on the plan of service. (7-1-11)

- a. Documentation of the six (6) month and annual reviews must be submitted to the plan developer. (7-1-11)
- b. The provider must use Department-approved forms for provider status reviews. (7-1-11)

05. Provider Responsibility for Notification. It is the responsibility of the service provider to notify the plan developer when any significant changes in the participant's condition, as defined by the family-centered planning team, are noted during service delivery. Such notification will be documented in the service record. (7-1-11)

06. Records Maintenance. When a participant leaves the waiver services program, the records will be retained by the Department as part of the participant's closed case record. Provider agencies will be responsible to retain their participant's records for five (5) years following the date of service. (7-1-11)

685. CHILDREN'S WAIVER SERVICES: PROVIDER QUALIFICATIONS AND DUTIES.
