modalities, and for advanced level occupational therapy assistants who apply such modalities while lacking the education and training required in Subsection 012.01 of these rules; (4-7-11)

c. Close Supervision. The occupational therapist provides daily direction in developing the plan of treatment and inspects on-site the actual implementation of the plan at least every two (2) weeks. This supervision is the minimal level of supervision required for an intermediate to advanced occupational therapy assistant. (3-29-10)

03. Supervision Ratios. An occupational therapist may supervise up to three (3) full-time occupational therapy assistants, but never more than two (2) entry level occupational therapy assistants. The Board may permit the supervision of a greater number by an occupational therapist if, in the Board's opinion, there would be adequate supervision and the public's health and safety would be served. It is the supervising occupational therapist's responsibility to notify the Board of any circumstances requiring approval of a greater number and to submit a written plan for resolution of the situation. (4-7-11)

vii. The aide knows the precautions, signs, and symptoms for the particular client that would indicate the need to seek assistance from the occupational therapist or occupational therapy assistant. (3-29-10)

c. The supervision of the aide needs to be documented for every client-related activity performed by an aide. Documentation must include information about frequency and methods of supervision used, the content of supervision, and the names and credentials of all persons participating in the supervisory process.
