(3-20-14)

  b. The provider was a managing employee, or had an ownership interest, as defined in 42 CFR Section 455.101, in any entity that was previously found by the Department to have engaged in fraudulent conduct, or abusive conduct related to the Medicaid program, or has demonstrated an inability to comply with the requirements related to the provider status for which application is made, including submitting false claims or violating provisions of any provider agreement; (3-20-14)

  c. The provider was a managing employee, or had an ownership interest, as defined in 42 CFR Section 455.101, in any entity that failed to repay the Department for any overpayments, or to repay claims previously found by the Department to have been paid improperly, whether the failure resulted from refusal, bankruptcy, or otherwise, unless prohibited by law; (3-20-14)

201. -- 204. (RESERVED)

205. AGREEMENTS WITH PROVIDERS.

01. In General. All individuals or organizations must enter into a written provider agreement accepted by the Department prior to receipt of any reimbursement for services. Agreements may contain any terms or conditions deemed appropriate by the Department. All provider agreements must be signed by the provider or by an owner or officer who has the legal authority to bind the provider in the agreement. (3-20-14)

02. Federal Disclosure Requirements. To comply with the disclosure requirements in 42 CFR 455, Subpart B, each provider, other than an individual practitioner or a group of practitioners, must disclose to the Department:

a. The full name and address of each individual who has either direct or indirect ownership interest in the disclosing entity or in any subcontractor of five percent (5%) or more prior to entering into an agreement or at the time of survey and certification; and (3-30-07)

b. Whether any person named in the disclosure is related to another person named in the disclosure as a spouse, parent, or sibling. (3-30-07)

03. Provider Agreement Enforcement Actions and Terminations. Provider agreements may be terminated with or without cause. Terminations for cause may be appealed as a contested case in accordance with the IDAPA 16.05.03, “Rules Governing Contested Case Proceedings and Declaratory Rulings.” The Department may, at its discretion, take any of the following actions for cause based on the provider’s conduct or the conduct of its employees or agents, or when the provider fails to comply with any term or provision of the provider agreement, or any applicable state or federal regulation:

a. Require corrective actions as described in IDAPA 16.05.07, “The Investigation and Enforcement of Fraud, Abuse, and Misconduct,” Section 270. (3-20-14)

e. Terminate the provider’s agreement. (3-20-14)

04. Termination of Provider Agreements. Due to the need to respond quickly to state and federal mandates, as well as the changing needs of the State Plan, the Department may terminate provider agreements without cause by giving written notice to the provider as set forth in the agreement. If an agreement does not provide a notice period, the period is twenty-eight (28) days. Terminations without cause may result from, but are not limited to, elimination or change of programs or requirements, or the provider’s inability to continue providing services due...
to the actions of another agency or board. Terminations without cause are not subject to contested case proceedings since the action will either affect a class of providers, or will result from the discretionary act of another regulatory body.

206. -- 209. (RESERVED)

210. CONDITIONS FOR PAYMENT.

01. Participant Eligibility. The Department will reimburse providers for medical care and services, regardless of the current eligibility status of the medical assistance participant in the month of payment, provided a complete and properly submitted claim for payment has been received and each of the following conditions are met:

- a. The participant was found eligible for medical assistance for the month, day, and year during which the medical care and services were rendered;
- b. The participant received such medical care and services no earlier than the third month before the month in which application was made on such participant's behalf; and
- c. The provider verified the participant's eligibility on the date the service was rendered and can provide proof of the eligibility verification.
- d. Not more than twelve (12) months have elapsed since the month of the latest participant services for which such payment is being made. Medicare cross-over claims are excluded from the twelve (12) month submittal limitation.

02. Time Limits. The time limit set forth in Subsection 210.01.d. of this rule does not apply with respect to retroactive eligibility adjustment. When participant eligibility is determined retroactively, the Department will reimburse providers for services within the period of retroactive eligibility if a claim for those services is submitted within twelve (12) months of the date of the participant's eligibility determination.

03. Acceptance of State Payment. By participating in the Medical Assistance Program, providers agree to accept, as payment in full, the amounts paid by the Department for services to Medicaid participants. Providers also agree to provide all materials and services without unlawfully discriminating on the grounds of race, age, sex, creed, color, national origin, or physical or intellectual disability.

04. Payment in Full. If a provider accepts Medicaid payment for a covered service, the Medicaid payment must be accepted as full payment for that service, and the participant cannot be billed for the difference between the billed amount and the Medicaid allowed amount.

05. Medical Care Provided Outside the State of Idaho. Out-of-state medical care is subject to the same utilization review and other Medicaid coverage requirements and restrictions as medical care received within the state of Idaho.

06. Ordering, Prescribing, and Referring Providers. Any service or supply ordered, prescribed, or referred by a physician or other professional who is not an enrolled Medicaid provider will not be reimbursed by the Department.

07. Referral From Participant's Assigned Primary Care Provider. Medicaid services may require a referral from the participant's assigned primary care provider. Services requiring a referral are listed in the Idaho Medicaid Provider Handbook. Services provided without a referral, when one is required, are not covered and are subject to sanctions, recoupment, or both. The Department may change the services that require a referral after appropriate notification of Medicaid-eligible individuals and providers as specified in Section 563 of these rules.

08. Follow-up Communication with Assigned Primary Care Provider. Medicaid services may require timely follow-up communication with the participant's assigned primary care provider. Services requiring
post-service communication with the primary care provider and time frames for that communication are listed in the Idaho Medicaid Provider Handbook. Services provided without timely communication of care outcomes, when communication is required, are not covered and are subject to sanctions, recoupment, or both. The Department may change the services that require communication of care outcomes after appropriate notification of Medicaid eligible individuals and providers as specified in section 563 of these rules. (3-25-16)

09. Services Delivered Via Telehealth. Services delivered via telehealth as defined in Title 54, Chapter 57, Idaho Code, must be identified as such in accordance with billing requirements published in the Idaho Medicaid Provider Handbook. Telehealth services billed without being identified as such are not covered. Services delivered via telehealth may be reimbursed within limitations defined by the Department in the Idaho Medicaid Provider Handbook. Fee for service reimbursement is not available for a telephone conversation, electronic mail message (e-mail), or facsimile transmission (fax) between a physician and a participant. (3-25-16)

211. -- 214. (RESERVED)

215. THIRD PARTY LIABILITY.

01. Determining Liability of Third Parties. The Department will take reasonable measures to determine any legal liability of third parties for medical care and services rendered to a participant. (3-30-07)

02. Third Party Liability as a Current Resource. The Department is to treat any third party liability as a current resource when such liability is found to exist and payment by the third party has been made or will be made within a reasonable time. (3-30-07)

03. Withholding Payment. The Department must not withhold payment on behalf of a participant because of the liability of a third party when such liability, or the amount thereof, cannot be currently established or is not currently available to pay the participant's medical expense. (3-30-07)

04. Seeking Third Party Reimbursement. The Department will seek reimbursement from a third party when the party's liability is established after reimbursement to the provider is made, and in any other case in which the liability of a third party existed, but was not treated as a current resource, with the exceptions provided in Subsection 215.05 of this rule. (3-25-16)

a. The Department will seek reimbursement from a participant when a participant's liability is established after reimbursement to the provider is made; and (3-30-07)

b. In any other situation in which the participant has received direct payment from any third party resource and has not forwarded the money to the Department for services or items received. (3-30-07)

05. Billing Third Parties First. Medicaid providers must bill all other sources of direct third party payment, with the following exceptions: (3-25-16)

a. When the resource is a court-ordered absent parent and there are no other viable resources available, the claims will be paid and the resources billed by the Department; (3-25-16)

b. Prenatal or preventive pediatric care including early and periodic screening and diagnosis. Screening and diagnosis program services include: (3-25-16)

i. Regularly scheduled examinations and evaluations of the general physical, dental, and mental health, growth, development, and nutritional status of children under age twenty-one (21), provided according to guidance for child wellness exams published in the Medicaid General Provider and Participant Handbook; (3-25-16)

ii. Immunizations recommended by the American Academy of Pediatrics immunization schedule; (3-25-16)

c. When prior authorization has been approved according to Section 883 of these rules, treatment services to control, correct, or ameliorate health problems found through diagnosis and screenings; (3-25-16)

d. If the claim is for prenatal or preventative pediatric care as described in Subsection 215.05.b of this rule, the Department will make payment for the service provided in its fee schedule and will seek reimbursement from the third party according to 42 U.S.C. 1396a(a)(25)(E). (3-25-16)

06. Accident Determination. When the participant's Medicaid card indicates private insurance and/or when the diagnosis indicates an accident for which private insurance is often carried, the claim will be suspended or denied until it can be determined that there is no other source of payment. (3-30-07)

07. Third Party Payments. The Department will pay the provider the lowest amount of the following: (3-29-12)

a. The provider’s actual charge for the service; or (3-29-12)

b. The maximum allowable charge for the service as established by the Department in its pricing file. If the service or item does not have a specific price on file, the provider must submit supporting documentation to the Department. Reimbursement will be based on the documentation; or (3-29-12)

c. The third party-allowed amount minus the third party payment, or the patient liability as indicated by the third party. (3-29-12)

08. Subrogation of Third Party Liability. In all cases where the Department will be required to pay medical expenses for a participant and that participant is entitled to recover any or all such medical expenses from any third party, the Department will be subrogated to the rights of the participant to the extent of the amount of medical assistance benefits paid by the Department as the result of the occurrence giving rise to the claim against the third party. (3-30-07)

a. If litigation or a settlement in such a claim is pursued by the medical assistance participant, the participant must notify the Department. (3-30-07)

b. If the participant recovers funds, either by settlement or judgment, from such a third party, the participant must repay the amount of benefits paid by the Department on his behalf. (3-30-07)

09. Subrogation of Legal Fees. (3-30-07)

a. If a medical assistance participant incurs the obligation to pay attorney fees and court costs for the purpose of enforcing a monetary claim to which the Department is subrogated, the amount which the Department is entitled to recover, or any lesser amount which the Department may agree to accept in compromise of its claim, will be reduced by an amount which bears the same relation to the total amount of attorney fees and court costs actually paid by the participant as the amount actually recovered by the Department, exclusive of the reduction for attorney fees and court costs, bears to the total amount paid by the third party to the participant. (3-30-07)

b. If a settlement or judgment is received by the participant which does not specify portion of the settlement or judgment which is for payment of medical expenses, it will be presumed that the settlement or judgment applies first to the medical expenses incurred by the participant in an amount equal to the expenditure for benefits paid by the Department as a result of the payment or payments to the participant. (3-30-07)

216. -- 224. (RESERVED)

225. REPORTING TO THE INTERNAL REVENUE SERVICE (IRS). In accordance with 26 U.S.C 6041, the Department must provide annual information returns to the IRS showing aggregate amounts paid to providers identified by name, address, and social security number or employer identification number. (3-30-07)
230. GENERAL PAYMENT PROCEDURES.

01. Provided Services.

a. Each participant may consult a participating physician or provider of his choice for care and receive covered services by presenting his identification card to the provider, subject to restrictions imposed by participation in Healthy Connections or enrollment in a Prepaid Ambulatory Health Plan (PAHP).

b. The provider must obtain the required information by using the Medicaid number on the identification card from the Electronic Verification System and transfer the required information onto the appropriate claim form. Where the Electronic Verification System (EVS) indicates that a participant is enrolled in Healthy Connections, the provider must comply with referral or follow-up communication requirements defined in Section 210 of these rules.

c. Upon providing the care and services to a participant, the provider or his agent must submit a properly completed claim to the Department.

d. The Department is to process each claim received and make payment directly to the provider.

e. The Department will not supply claim forms. Forms needed to comply with the Department's unique billing requirements are included in Appendix D of the Idaho Medicaid Provider Handbook.

02. Individual Provider Reimbursement. The Department will not pay the individual provider more than the lowest of:

a. The provider's actual charge for service; or

b. The maximum allowable charge for the service as established by the Department on its pricing file, if the service or item does not have a specific price on file, the provider must submit documentation to the Department and reimbursement will be based on the documentation; or

c. The Medicaid-allowed amount minus the Medicare payment or the Medicare co-insurance and deductible amounts added together when a participant has both Medicare and Medicaid.

03. Services Normally Billed Directly to the Patient. If a provider delivers services and it is customary for the provider to bill patients directly for such services, the provider must complete the appropriate claim form and submit it to the Department.

04. Reimbursement for Other Noninstitutional Services. The Department will reimburse for all noninstitutional services which are not included in other Idaho Department of Health and Welfare Rules, but allowed under Idaho's Medical Assistance Program according to the provisions of 42 CFR Section 447.325.

05. Review of Records.

a. The Department, or its duly authorized agent, the U.S. Department of Health and Human Services, and the Bureau of Audits and Investigations have the right to review pertinent records of providers receiving Medicaid reimbursement for covered services.

b. The review of participants' medical and financial records must be conducted for the purposes of determining:

i. The necessity for the care; or

ii. That treatment was rendered in accordance with accepted medical standards of practice; or

(3-30-07)
iii. That charges were not in excess of the provider’s usual and customary rates; or
iv. That fraudulent or abusive treatment and billing practices are not taking place.

c. Refusal of a provider to permit the Department to review records pertinent to medical assistance will constitute grounds for:
   i. Withholding payments to the provider until access to the requested information is granted; or
   ii. Suspending the provider's number.

06. **Lower of Cost or Charges.** Payment to providers, other than public providers furnishing such services free of charge or at nominal charges to the public, is the lesser of the reasonable cost of such services or the customary charges with respect to such services. Public providers that furnish services free of charge or at a nominal charge are reimbursed fair compensation which is the same as reasonable cost.

07. **Procedures for Medicare Cross-Over Claims.**

a. If a medical assistance participant is eligible for Medicare, the provider must first bill Medicare for the services rendered to the participant.

b. If a provider accepts a Medicare assignment, the Department will pay the provider for the services, up to the Medicaid allowable amount minus the Medicare payment, and forward the payment to the provider automatically based upon the Medicare Summary Notice (MSN) information on the computer tape which is received from the Medicare Part B Carrier on a weekly basis.

c. If a provider does not accept a Medicare assignment, a MSN must be attached to the appropriate claim form and submitted to the Department. The Department will pay the provider for the services, up to the Medicaid allowable amount minus the Medicare payment.

d. For all other services, a MSN must be attached to the appropriate claim form and submitted to the Department. The Department will pay the provider for the services up to the Medicaid allowable amount minus the Medicare payment.

08. **Services Reimbursable After the Appeals Process.** Reimbursement for services originally identified by the Department as not medically necessary will be made if such decision is reversed by the appeals process required in IDAPA 16.05.03, “Rules Governing Contested Case Proceedings and Declaratory Rulings.”

**231. HANDLING OF OVERPAYMENTS AND UNDERPAYMENTS FOR SPECIFIED PROVIDERS.**
The provisions in Subsections 231.01 and 231.02 of this rule apply only to hospitals, FQHCs, RHCs and Home Health providers.

01. **Interest Charges on Overpayments and Underpayments.** The Medicaid program will charge interest on overpayments, and pay interest on underpayments, as follows:

a. **Interest After Sixty Days of Notice.** If full repayment from the indebted party is not received within sixty (60) days after the provider has received the Department reimbursement notice, interest will accrue from the date of receipt of the Department reimbursement notice, and will be charged on the unpaid settlement balance for each thirty (30) day period that payment is delayed. Periods of less than thirty (30) days will be treated as a full thirty (30) day period, and the thirty (30) day interest charge will be applied to any unpaid balance. Each payment will be applied first to accrued interest, then to the principal. Interest accrued on overpayments and interest on funds borrowed by a provider to repay overpayments are not an allowable interest expense.
b. Waiver of Interest Charges. When the Department determines an overpayment exists, it may waive interest charges if it determines that the administrative costs of collecting them exceed the charges. (3-30-07)

c. Rate of Interest. The interest rate on overpayments and underpayments will be the statutory rate as set forth in Section 28-22-104(1), Idaho Code, compounded monthly. (3-30-07)

d. Retroactive Adjustment. The balance and interest will be retroactively adjusted to equal the amounts that would have been due based on any changes which occur as a result of the final determination in the administrative appeal and judicial appeal process. Interest penalties will only applied to unpaid amounts and will be subordinated to final interest determinations made in the judicial review process. (3-30-07)

02. Recovery Methods for Overpayments. One (1) of the following methods will be used for recovery of overpayments:

a. Lump Sum Voluntary Repayment. Upon receipt of the notice of program reimbursement, the provider voluntarily refunds, in a lump sum, the entire overpayment to the Department. (3-30-07)

b. Periodic Voluntary Repayment. The provider must request in writing that recovery of the overpayment be made over a period of twelve (12) months or less. The provider must adequately document the request by demonstrating that the financial integrity of the provider would be irreparably compromised if repayments occurred over a shorter period of time than requested. (3-30-07)

c. Department Initiated Recovery. The Department will recover the entire unpaid balance of the overpayment of any settlement amount in which the provider does not respond to the notice of program reimbursement within thirty (30) days of receiving the notice. (3-30-07)

d. Recovery from Medicare Payments. The Department can request that Medicare payments be withheld in accordance with 42 CFR Section 405.377. (3-30-07)

232. -- 234. (RESERVED)

i. The provider must explain that the participant has the right to make decisions regarding their medical care which includes the right to accept or refuse treatment. If the participant has any questions regarding treatment, the facility or agency will notify the physician of those concerns. directive (“Living Will” and/or “Durable Power of Attorney for Health Care”), or have a copy of the Department’s approved advance directive form (“Your Rights as a Patient to Make Medical Treatment Decisions”) attached to the patient’s medical record which has been completed acknowledging whether the patient/resident has executed an advance directive (“Living Will” and/or “Durable Power of Attorney for Health Care.”) (3-30-07)

d. The provider cannot condition the provision of care or otherwise discriminate against an individual based on whether that participant has executed an “Advance Directive.” (3-30-07)

The R.N. supervisor will inform the Qualified Intellectual Disabilities Professional (QIDP) and the personal care attendant of the participants decision regarding “Advance Directives.” (3-30-07)

e. A hospice provider must give information at the time of initial receipt of hospice care by the participant. (3-30-07)

03. Information Concerning “Advance Directives” at the Time an Incapacitated Individual Is Admitted. An individual may be admitted to a facility in a comatose or otherwise incapacitated state and be unable to receive information or articulate whether he has executed an advance directive. In this case, to the extent that a facility issues materials about policies and procedures to the families or to the surrogates or other concerned persons of the incapacitated patient in accordance with state law, it must also include the information concerning advance directives. This does not relieve the facility from its obligation to provide this information to the patient once he is no longer incapacitated. (3-30-07)

04. Provider Agreement. A “Memorandum of Understanding Regarding Advance Directives” is incorporated within the provider agreement. By signing the Medicaid provider agreement, the provider is not excused from its obligation regarding advance directives to the general public per Section 1902(a) of the Social Security Act, as amended by Section 4751 of OBRA 1990. (3-30-07)

236. -- 239. (RESERVED)

240. QUALIFIED PROVIDERS OF PRESUMPTIVE ELIGIBILITY FOR PREGNANT WOMEN. The Department will enter into provider agreements allowing presumptive eligibility determination with providers who meet the qualifications of Section 1920(b)(2)(d) of the Social Security Act, and who employ individuals who have completed a course of training supplied by the Department. (3-30-07)

241. -- 244. (RESERVED)
245. PROVIDERS OF SCHOOL-BASED SERVICES.
Only school districts and charter schools can be reimbursed for the services described in Sections 850 through 856 of these rules. (7-1-13)

246. -- 249. (RESERVED)

GENERAL REIMBURSEMENT PROVISIONS FOR INSTITUTIONAL PROVIDERS
(Sections 300 - 389)

300. COST REPORTING.
The provider’s Medicaid cost report must be filed using the Department designated reporting forms, unless the Department has approved an exception. The request to use alternate forms must be sent to the Department in writing, with samples attached, a minimum of ninety (90) days prior to the due date for the cost report. The request for approval of alternate forms cannot be used as a reason for late filing. (3-30-07)

301. -- 304. (RESERVED)

305. REIMBURSEMENT SYSTEM AUDITS.

01. Scope of Reimbursement System Audits. The Department reserves the right to audit financial and other records of the provider, and, when warranted, the records of entities related to the provider. Audits consist of the following types of records:

a. Cost verification of actual costs for providing goods and services; (3-30-07)

b. Evaluation of provider’s compliance with the provider agreement, reporting form instructions, and any applicable law, rule, or regulation; (3-30-07)

c. Effectiveness of the service to achieve desired results or benefits; and (3-30-07)

d. Reimbursement rates or settlement calculated under this chapter. (3-30-07)

02. Exception to Scope for Audits and Investigations. Audits as described in these rules do not apply to the audit processes used in conducting investigations of fraud and abuse under IDAPA 16.05.07, “Investigation and Enforcement of Fraud, Abuse, and Misconduct.” (3-30-07)

306. -- 329. (RESERVED)

330. PROVIDER’S RESPONSIBILITY TO MAINTAIN RECORDS.
The provider must maintain financial and other records in sufficient detail to allow the Department to audit them as described in Section 305 of these rules. (3-30-07)

01. Expenditure Documentation. Documentation of expenditures must include the amount, date, purpose, payee, and the invoice or other verifiable evidence supporting the expenditure. (3-30-07)

02. Cost Allocation Process. Costs such as depreciation or amortization of assets and indirect expenses are allocated to activities or functions based on the original identity of the costs. Documentation to support basis for allocation must be available for verification. The assets referred to in this Section of rule are economic resources of the provider recognized and measured in conformity with generally accepted accounting principles.
Revenue Documentation. Documentation of revenues must include the amount, date, purpose, and source of the revenue.

Availability of Records. Records must be available for and subject to audit by the auditor, with or without prior notice, during any working day between the hours of 8:00 a.m. and 5:00 p.m. at the provider’s principal place of business in the state of Idaho.

The provider is given the opportunity to provide documentation before the interim final audit report is issued.

The provider is not allowed to submit additional documentation in support of cost items after the issuance of the interim final audit report.

Retention of Records. Records required in Subsections 330.01 through 330.03 of this rule must be retained by the provider for a period of five (5) years from the date of the final payment under the provider agreement. Failure to retain records for the required period can void the Department’s obligation to make payment for the goods or services.

DRAFT AUDIT REPORT.
Following completion of the audit field work and before issuing the interim final audit report to the Department, the auditor will issue a draft audit report and forward a copy to the provider for review and comment.

Review Period. The provider will have a period of sixty (60) days, beginning on the date of transmittal, to review and provide additional comments or evidence pertaining to the draft audit report. The review period may be extended when the provider:

a. Requests an extension prior to the expiration of the original review period; and

b. Clearly demonstrates the need for additional time to properly respond.

Evaluation of Provider’s Response. The auditor will evaluate the provider’s response to the draft audit report and will delete, modify, or reaffirm the original findings, as deemed appropriate, in preparing the interim final audit report.

FINAL AUDIT REPORT.
The auditor will incorporate the provider’s response and an analysis of the response into the interim final report as appendices and transmit it to the Department. The Department will issue a final audit report and a notice of program reimbursement, if applicable, that sets forth settlement amounts due to the Department or the provider. The final audit report and notice of program reimbursement, if applicable, will take into account the findings made in the interim final audit report and the response of the provider to the draft audit report.

RELATED PARTY TRANSACTIONS.

Principle. Costs applicable to services, facilities and supplies furnished to the provider by organizations or persons related to the provider by common ownership, control, etc., are allowable at the cost to the related party. Such costs are allowable to the extent that they relate to patient care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer.

Cost Allowability - Regulation. Allowability of costs is subject to the regulations prescribing the treatment of specific items as outlined in 42 CFR 413.17, et al., and the Providers Reimbursement Manual, PRM Chapter 10 and other applicable chapters of the PRM.
361. APPLICATION.

01. Determination of Common Ownership or Control in the Provider Organization and Supply Organization. In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. (3-30-07)

a. Common Ownership Rule. A determination as to whether an individual(s) possesses ownership or equity in the provider organization and the supplying organization, so that the organizations will be considered to be related by common ownership, will be made on the basis of the facts and circumstances in each case. (3-30-07)

b. Control Rule. The term “control” includes any kind of control whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control which is decisive, not its form or the mode of its exercise. (3-30-07)

02. Cost to Related Organizations. The charges to the provider from related organizations may not exceed the billing to the related organization for these services. (3-30-07)

03. Costs Not Related to Patient Care. All home office costs not related to patient care are not allowable under the Program. (3-30-07)

04. Interest Expense. Generally, interest expense on loans between related entities will not be reimbursable. See Chapters 2, 10, and 12, PRM, for specifics. (3-30-07)

362. EXCEPTION TO THE RELATED ORGANIZATION PRINCIPLE.
An exception is provided to the general rule applicable to related organizations. The exception applies if the provider demonstrates by convincing evidence to the satisfaction of the intermediary:

01. Supplying Organization. That the supplying organization is a bona fide separate organization; (3-30-07)

02. Nonexclusive Relationship. That a substantial part of the supplying organization’s business activity of the type carried on with the provider is transacted with other organizations not related to the provider and the supplier by common ownership or control and there is an open, competitive market. (3-30-07)

03. Lease or Rentals of Hospital. The exception is not applicable to sales, lease or rentals of hospitals. These transactions would not meet the requirement that there be an open, competitive market for the facilities furnished as described in Sections 1008 and 1012, PRM.

a. Rentals. Rental expense for transactions between related entities will not be recognized. Costs of ownership will be allowed. (3-30-07)

b. Purchases. When a facility is purchased from a related entity, the purchaser's depreciable basis must not exceed the seller's net book value as described in Section 1005, PRM. (3-30-07)

363. -- 389. (RESERVED)

This includes both the treatment or procedure itself, and the costs for all follow-up medical treatment directly associated with such a procedure. Treatments and procedures deemed experimental are not covered for payment by the Medical Assistance Program under the following circumstances:

a. The treatment or procedure is in Phase I clinical trials in which the study drug or treatment is given to a small group of people for the first time to evaluate its safety, determine a safe dosage range, and identify side effects;

b. There is inadequate available clinical or pre-clinical data to provide a reasonable expectation that the trial treatment or procedure will be at least as effective as non-investigational therapy; or

COVERED SERVICES
(Sections 400 - 899)

SUB AREA: HOSPITAL SERVICES
(Sections 400 - 449)

400. INPATIENT HOSPITAL SERVICES: DEFINITIONS.

01. Administratively Necessary Day (AND). An Administratively Necessary Day (AND) is intended to allow a hospital time for an orderly transfer or discharge of participant inpatients who are no longer in need of a continued acute level of care. ANDs may be authorized for inpatients who are awaiting placement for nursing facility level of care, or in-home services which are not available, or when catastrophic events prevent the scheduled discharge of an inpatient. (3-30-07)

02. Allowable Costs. The current year's Medicaid apportionment of a hospital's allowable costs determined at final or interim settlement consist of those costs permitted by the principles of reimbursement contained in the Provider Reimbursement Manual (PRM) and do not include costs already having payment limited by Medicaid rate file or any other Medicaid charge limitation. (3-30-07)

03. Apportioned Costs. Apportioned costs consist of the share of a hospital's total allowable costs attributed to Medicaid program participants and other patients so that the share borne by the program is based upon actual services received by program participants, as set forth in the applicable Title XVIII principles of cost...
reimbursement as specified in the PRM and in compliance with Medicaid reimbursement rules.

04. **Capital Costs.** For the purposes of hospital reimbursement, capital costs are those allowable costs considered in the settlement that represent the cost to each hospital for its reasonable property related and financing expense, and property taxes.

05. **Case-Mix Index.** The Case-Mix Index for a hospital is the average weight of values assigned to a range of diagnostic related groups, including but not limited to, those used in the Medicare system or adjoining states and applied to Medicaid discharges included in a hospital's fiscal year end settlement. The index will measure the relative resources required to treat Medicaid inpatients. The Case-Mix Index of the current year will be divided by the index of the principal year to assess the percent change between the years.

06. **Charity Care.** Charity care is care provided to individuals who have no source of payment, third-party or personal resources.

07. **Children’s Hospital.** A Medicare-certified hospital as set forth in 42 CFR Section 412.23(d).

08. **Critical Access Hospitals (CAH).** A rural hospital with twenty five (25) or less beds as set forth in 42 CFR Section 485.620.

09. **Current Year.** Any hospital cost reporting period for which reasonable cost is being determined will be termed the current year.

10. **Customary Hospital Charges.** Customary hospital charges reflect the regular rates for inpatient or outpatient services charged to patient(s) liable for payment for their services on a charge basis. Implicit in the use of charges as the basis for comparability (or for apportionment under certain apportionment methods) is the objective that services are related to the cost of services billed to the Department.

   a. No more than ninety-one and seven-tenths percent (91.7%) of covered charges will be reimbursed for the separate operating costs for either total inpatient services or total outpatient services at the time of final cost settlement for any fiscal year with the exception set forth in Subsection 405.03.b. of these rules.

   b. For in-state hospitals that are not specified in Section 56-1408, Idaho Code, no more than one hundred percent (100%) of covered charges will be reimbursed.

   c. No more than one hundred one percent (101%) of covered charges will be reimbursed to Critical Access Hospitals (CAH) for in-state hospitals.

   d. No more than eighty-seven and one-tenth percent (87.1%) of covered charges will be reimbursed to out-of-state hospitals.

11. **Disproportionate Share Hospital (DSH) Allotment Amount.** The DSH allotment amount determined by CMS that is eligible for federal matching funds in any federal fiscal period for disproportionate share payments.

12. **Disproportionate Share Hospital (DSH) Survey.** The DSH survey is an annual data request from the Department to the hospitals to obtain the information necessary to compute DSH in accordance with Subsection 405.09.a. of these rules.

13. **Disproportionate Share Threshold.** The disproportionate share threshold is:

   a. The arithmetic mean plus one (1) standard deviation of the Medicaid Utilization Rates of all Idaho Hospitals; or

   b. A Low Income Revenue Rate exceeding twenty-five percent (25%).
14. Excluded Units. Excluded units are distinct units in hospitals which are certified by Medicare according to 42 CFR Sections 412.25, 412.27 and 412.29 for exclusion from the Medicare prospective payment system. (3-30-07)

15. Hospital Inflation Index. An index calculated through Department studies and used to adjust inpatient operating cost limits and interim rates for the current year. (3-30-07)

16. Low Income Revenue Rate. The Low Income Revenue Rate is the sum of the following fractions, expressed as a percentage, calculated as follows:

   a. Total Medicaid inpatient revenues paid to the hospital, plus the amount of the cash subsidies received directly from state and local governments in a cost reporting period, divided by the total amount of revenues and cash subsidies of the hospital for inpatient services in the same cost reporting period; plus (3-30-07)

   b. The total amount of the hospital's charges for inpatient hospital services attributable to charity care in the same cost reporting period, divided by the total amount of the hospital's charges for inpatient services in the hospital in the same period. The total inpatient charges attributed to charity care must not include contractual allowances and discounts and reduction in charges given to Medicare, Medicaid, other third-party payors, or cash for patient services received directly from state and local governments county assistance programs. (3-30-07)

17. Medicaid Inpatient Day. For purposes of DSH payments, an inpatient day is defined as a Medicaid inpatient day in a hospital for which there is also no Medicare inpatient day counted. (3-30-07)

18. Medicaid Utilization Rate (MUR). The MUR for each hospital will be computed using the Department's record of paid inpatient days for the fiscal year divided by the total inpatient days for the same fiscal year as reported in the DSH survey. In this paragraph, the term “inpatient days” includes administratively necessary days, newborn days, days in specialized wards, days provided at an inappropriate level of care, and Medicaid inpatient days from other states. In this paragraph, “Medicaid inpatient days” includes paid days not counted in prior DSH threshold computations. (4-7-11)

19. Obstetricians. For purposes of an adjustment for hospitals serving a disproportionate share of low income patients, and in the case of a hospital located in a rural area, as defined by the federal Executive Office of Management and Budget, the term “obstetrician” includes any physician with staff privileges at the hospital to perform nonemergency obstetric procedures. (3-30-07)

20. On-Site. A service location over which the hospital exercises financial and administrative control. “Financial and administrative control” means a location whose relation to budgeting, cost reporting, staffing, policy-making, record keeping, business licensure, goodwill and decision-making are so interrelated to those of the hospital that the hospital has ultimate financial and administrative control over the service location. The service location must be in close proximity to the hospital where it is based, and both facilities serve the same patient population (e.g. from the same area, or catchment, within Medicare's defined Metropolitan Statistical Area (MSA) for urban hospitals or thirty-five (35) miles from a rural hospital). (3-30-07)

21. Operating Costs. For the purposes of hospital reimbursement, operating costs are the allowable costs included in the cost centers established in the finalized Medicare cost report to accumulate costs applicable to providing routine and ancillary services to patients for the purposes of cost assignment and allocation in the step-down process. (3-30-07)

22. Other Allowable Costs. Other allowable costs are those reasonable costs recognized under the Medicaid reasonable cost principles for services not subject to Medicaid limitations of coverage or reimbursement limits. Costs which are not reimbursed as operating costs, but recognized by Medicare principles as allowable costs will be included in the total reasonable costs. Other allowable costs include, but are not necessarily limited to, physician's component which was combined-billed, capital costs, ambulance costs, excess costs, carry-forwards and medical education costs. (3-30-07)

23. Principal Year. The principal year is the period from which the Medicaid Inpatient Operating Cost
Limit is derived. (3-30-07)

a. For inpatient services rendered on or after November 1, 2002, the principal year is the provider's fiscal year ending in calendar year 1998 in which a finalized Medicare cost report or its equivalent is prepared for Medicaid cost settlement. (3-30-07)

b. For inpatient services rendered on or after January 1, 2007, the principal year is the provider's fiscal year ending in calendar year 2003. (4-7-11)

c. For inpatient services on or after July 1, 2010, the principal year will be the Medicare cost report period used to prepare the Medicaid cost settlement. (4-7-11)

24. **Public Hospital.** For purposes of Subsection 405.03.b. of these rules, a Public Hospital is a hospital operated by a federal, state, county, city, or other local government agency or instrumentality. (3-30-07)

25. **Reasonable Costs.** Except as otherwise provided in Section 405.03 of these rules, reasonable costs include all necessary and ordinary costs incurred in rendering the services related to patient care which a prudent and cost-conscious hospital would pay for a given item or service which do not exceed the Medicaid cost limit. (3-30-07)

26. **Reimbursement Floor Percentage.** (3-29-12)

   a. The floor calculation for out-of-state hospitals is seventy-three and five-tenths percent (73.5%) of Medicaid costs. (3-29-12)

   b. The floor calculation for in-state CAH hospitals is one hundred one percent (101%) of Medicaid costs. (3-29-12)

   c. For in-state hospitals that are not specified in Section 56-1408, Idaho Code, the floor calculation is eighty-five percent (85%) of Medicaid costs. (3-29-12)

   d. For in-state hospitals that are specified in Section 56-1408, Idaho Code, the floor calculation is seventy-seven and four-tenths percent (77.4%) of Medicaid costs. (3-29-12)

27. **TEFRA.** TEFRA is the Tax Equity and Fiscal Responsibility Act of 1982, Public Law 97-248. (3-30-07)

28. **Uninsured Patient Costs.** For the purposes of determining the additional costs beyond uncompensated Medicaid costs that may be reimbursed as a DSH payment without exceeding the state Allotment Amount, only inpatient costs of uninsured patients will be considered. (4-7-11)

29. **Upper Payment Limit.** The Upper Payment Limit for hospital services is defined in the Code of Federal Regulations. (3-30-07)

401. **RESERVED**

402. **INPATIENT HOSPITAL SERVICES: COVERAGE AND LIMITATIONS.**
The policy, rules and regulations to be followed will be those cited in 42 CFR 456.50 through 42 CFR 456.145. (3-30-07)

   01. **Exceptions and Limitations.** The following exceptions and limitations apply to in-patient hospital services: (3-30-07)

      a. Payment for accommodations is limited to the hospital's all-inclusive rate. The all-inclusive rate is a flat fee charge incurred on a daily basis that covers both room and board. (3-30-07)

      b. The Department must not authorize reimbursement above the all-inclusive rate unless the attending physician orders a room that is not an all-inclusive rate room for the patient because of medical necessity. (3-30-07)
02. Limitation of Administratively Necessary Days (ANDs). Each participant is limited to no more than three (3) ANDs per discharge. In the event that a nursing facility level of care is required, an AND may be authorized provided that the hospital documents that no nursing facility bed is available within twenty-five (25) miles of the hospital.

(3-30-07)

403. INPATIENT HOSPITAL SERVICES: PROCEDURAL REQUIREMENTS.
When Administratively Necessary Days are requested, the hospital must provide the Department with complete and timely documentation prior to the participant's anticipated discharge date in order to be considered. Authorization for reimbursement will be denied for all untimely requests and tardy submittal of requested documentation. All requests for AND must be made in writing or by telephone. Hospitals must make the documentation and related information requested by the Department available within ten (10) working days of the date of the request in order for subsequent payment to be granted. The documentation provided by the hospital will include, but is not limited to:

01. A Brief Summary. A brief summary of the participant's medical condition; and

02. Statements. Statements as to why the participant cannot receive the necessary medical services in a nonhospital setting; and

03. Documentation. Documentation that the hospital has diligently made every effort to locate, without success, a facility or organization which is able and willing to deliver the appropriate care. Such evidence must include a list of facilities and organizations, the dates of contact, the names of the persons contacted, and the result of each contact.

(3-30-07)

404. INPATIENT HOSPITAL SERVICES: PROVIDER QUALIFICATIONS AND DUTIES.
In addition to the provider enrollment agreement, each claim submitted by a hospital constitutes an agreement by which the hospital agrees to accept and abide by the Department's rules. Only a Medicare certified hospital, licensed by the state in which it operates, may enroll in the Idaho Medicaid program. Hospitals not participating as a Medicaid swing-bed provider, which are licensed for long-term care or as a specialty hospital which provides a nursing home level of care, will be reimbursed as a nursing facility. Hospitals not eligible for enrollment which render emergency care will be paid rates established in these rules.

(3-30-07)

405. INPATIENT HOSPITAL SERVICES: PROVIDER REIMBURSEMENT.
Under the Medicaid provisions of the Social Security Act, in reimbursing hospitals, the Department will pay the lesser of customary hospital charges or the reasonable cost of inpatient services in accordance with the procedures detailed under this Section of rule. The upper limits observed by the Department in reimbursing each individual hospital must not exceed the payment that would be determined as a reasonable cost under the policies, definitions and procedures observed under Medicare (Title XVIII) principles of cost reimbursement.

(3-30-07)

01. Exemption of New Hospitals. A hospital that has operated as the type of facility for which it is certified (or the equivalent thereof) under present and previous ownership for less than three (3) full years will be paid in accordance with the Title XVIII principles of reasonable cost reimbursement, including those provisions applicable to new providers for the carryover and recovery of unreimbursed costs, in accordance with 42 CFR Section 413.64.

(3-30-07)

02. Medicaid Inpatient Operating Cost Limits. The following describe the determination of inpatient operating cost limits.

a. Medicaid Cost Limits for Dates of Service Prior to a Current Year. The reimbursable reasonable costs for services rendered prior to the beginning of the principal year, but included as prior period claims in a subsequent period's cost report, will be subject to the same operating cost limits as the claims under settlement.

(3-30-07)

b. Application of the Medicaid Cost Limit. In the determination of a hospital's reasonable costs for inpatient services rendered after the effective date of a principal year, a Hospital Inflation Index, computed for each hospital's fiscal year end, will be applied to the operating costs, excluding capital costs and other allowable costs as defined for the principal year and adjusted on a per diem basis for each subsequent year under the Hospital Inflation
i. Each inpatient routine service cost center, as reported in the finalized principal year end Medicare cost report, will be segregated in the Medicaid cost limit calculation and assigned a share of total Medicaid inpatient ancillary costs. The prorated ancillary costs will be determined by the ratio of each Medicaid routine cost center's reported costs to total Medicaid inpatient routine service costs in the principal year. (3-30-07)

ii. Each routine cost center's total Medicaid routine service costs plus the assigned share of Medicaid inpatient ancillary costs of the principal year will be divided by the related Medicaid patient days to identify the total costs per diem in the principal year. (3-30-07)

(1) The related inpatient routine service cost center's per diem capital and graduate medical education costs plus the prorated share of inpatient ancillary capital costs will be subtracted from the per diem amount identified in Subsection 405.02.b.i. of this rule to identify each inpatient routine service cost center per diem cost limit in the principal year. (3-30-07)

(2) If a provider did not have any Medicaid inpatient utilization or render any Medicaid inpatient services in an individual inpatient routine service cost center in the fiscal year serving as the principal year, the principal year for only those routine cost centers without utilization in the provider's principal year will be appropriately calculated using the information available in the next subsequent year in which Medicaid utilization occurred. (3-30-07)

iii. Each routine cost center's cost per diem for the principal year will be multiplied by the Hospital Inflation Index for each subsequent fiscal year. (3-30-07)

iv. The sum of the per diem cost limits for the Medicaid inpatient routine service cost centers of a hospital during the principal year, as adjusted by the Hospital Inflation Index, will be the Medicaid cost limit for operating costs in the current year. (3-30-07)

(1) At the date of final settlement, reimbursement of the Medicaid current year inpatient routine cost centers plus the assigned ancillary costs will be limited to the total per diem operating costs as adjusted for each subsequent fiscal year after the principal year by the Hospital Inflation Cost Index. (3-30-07)

(2) Providers will be notified of the estimated inflation index periodically or Hospital Inflation Index (CMS Market Basket Index) prior to final settlement only upon written request. (3-30-07)

03. Adjustments to the Medicaid Cost Limit. A hospital's request for review by the Department concerning an adjustment to or exemption from the cost limits imposed under the provisions set forth in Section 405 of this chapter of rules, must be granted under the following circumstances: (3-30-07)

a. Adjustments. Because of Extraordinary Circumstances. Where a provider's costs exceed the Medicaid limit due to extraordinary circumstances beyond the control of the provider, the provider can request an adjustment to the cost limit to the extent the provider proves such higher costs result from the extraordinary circumstances including, but not limited to, increased costs attributable to strikes, fires, earthquake, flood, or similar, unusual occurrences with substantial cost effects. (3-30-07)

b. Reimbursement to Public Hospitals. A Public Hospital that provides services free or at a nominal charge, which is less than, or equal to fifty percent (50%) of its total allowable costs, will be reimbursed at the same rate that would be used if the hospital's charges were equal to, or greater than, its costs. (3-30-07)

c. Adjustment to Cost Limits. A hospital is entitled to a reasonable increase in its Medicaid Cost limits if the hospital shows that its per diem costs of providing services have increased due to increases in case-mix, the adoption of new or changed services, the discontinuation of services or decrease in average length of stay for Medicaid inpatients since the principal year. Any hospital making such showing is entitled to an increase commensurate with the increase in per diem costs. (3-30-07)

(1) The Medicaid operating cost limit may be adjusted by multiplying cost limit by the ratio of the
current year's Case-Mix Index divided by the principal year's Case-Mix Index. (3-30-07)

  ii. The contested case procedure set forth in IDAPA 16.05.03, “Rules Governing Contested Case Proceedings and Declaratory Rulings,” is available to larger hospitals seeking such adjustments to their Medicaid Cost Limits. (3-30-07)

d. Adjustment to the Proration of Ancillary Costs in the principal year. Where the provider asserts that the proration of ancillary costs does not adequately reflect the total Medicaid cost per diem calculated for the inpatient routine service cost centers in the principal year, the provider may submit a detailed analysis of ancillary services provided to each participant for each type of patient day during each participant's stay during the principal year. The provider will be granted this adjustment only once upon appeal for the first cost reporting year that the limits are in effect. (3-30-07)

04. Payment Procedures. The following procedures are applicable to in-patient hospitals: (3-30-07)

a. The participant's admission and length of stay is subject to preadmission, concurrent and retrospective review by a Quality Improvement Organization (QIO) designated by the Department. QIO review will be governed by provisions of the QIO Idaho Medicaid Provider Manual as amended. If such review identifies that an admission or continued stay is not medically necessary, then no Medicaid payment will be made. Failure to obtain a timely QIO review as required by Section 405 of this chapter of rules, and as outlined in the QIO Idaho Medicaid Provider Manual as amended, will result in the QIO conducting a late review. After a QIO review has determined that the hospital stay was medically necessary, Medicaid will assess a late review penalty to the hospital as outlined in Subsection 405.05 of this rule. (3-30-07)

i. All admissions are subject to QIO review to determine if continued stay in inpatient status is medically necessary. A QIO continued stay review is required when the participant's length of stay exceeds the number of days certified by the QIO. If no initial length of stay certification was issued by the QIO, a QIO continued stay review is required when the admission exceeds a number of days as specified by the Department. (3-30-07)

ii. Reimbursement for services originally identified as not medically necessary by the QIO will be made if such decision is reversed by the appeals process required in IDAPA 16.05.03, “Rules Governing Contested Case Proceedings and Declaratory Rulings.” (3-30-07)

iii. Absent the Medicaid participant's informed decision to incur services deemed unnecessary by the QIO, or not authorized by the QIO due to the negligence of the provider, no payment for denied services may be obtained from the participant. (3-30-07)

b. In reimbursing licensed hospitals, the Department will pay the lesser of customary hospital charges or the reasonable cost of semi-private rates for in-patient hospital care as set forth in this rule, unless an exception applies as stated in Section 402 of these rules. The upper limits for payment must not exceed the payment which would be determined as reasonable cost using the Title XVIII standards and principles. (3-30-07)

05. Hospital Penalty Schedule. (3-30-07)

a. A request for a preadmission and/or continued stay QIO review that is one (1) day late will result in a penalty of two hundred and sixty dollars ($260), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)

b. A request for a preadmission and/or continued stay QIO review that is two (2) days late will result in a penalty of five hundred and twenty dollars ($520), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)

c. A request for a preadmission and/or continued stay QIO review that is three (3) days late will result in a penalty of seven hundred and eighty dollars ($780), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)

d. A request for a preadmission and/or continued stay QIO review that is four (4) days late will result in a penalty of one thousand dollars ($1,000), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)
in a penalty of one thousand and forty dollars ($1,040), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)

e. A request for a preadmission and/or continued stay QIO review that is five (5) days late or greater will result in a penalty of one thousand three hundred dollars ($1,300), from the total Medicaid paid amount of the inpatient hospital stay. (3-30-07)

06. AND Reimbursement Rate. Reimbursement for an AND will be made at the weighted average Medicaid payment rate for all Idaho nursing facilities for routine services, as defined per 42 CFR 447.280(a)(1), furnished during the previous calendar year. ICF/ID rates are excluded from this calculation. (3-30-07)

a. The AND reimbursement rate will be calculated by the Department by March 15 of each calendar year and made effective retroactively for dates of service on or after January 1 of the respective calendar year. (3-30-07)

b. Hospitals with an attached nursing facility will be reimbursed the lesser of their Medicaid per diem routine rate or the established average rate for an AND; and (3-30-07)

c. The Department will pay the lesser of the established AND rate or a facility’s customary hospital charge to private pay patients for an AND. (3-30-07)

07. Reimbursement for Services. Routine services as addressed in Subsection 405.08 of this rule include all medical care, supplies, and services which are included in the calculation of nursing facility property and nonproperty costs as described in these rules. Reimbursement of ancillary services will be determined in the same manner as hospital outpatient reasonable costs in accordance with Medicare reasonable cost principles, except that reimbursement for prescription drugs will be in accord with Section 665 of these rules. (3-30-07)

08. Hospital Swing-Bed Reimbursement. The Department will pay for nursing facility care in certain rural hospitals. Following approval by the Department, such hospitals may provide service to participants in licensed hospital (“swing”) beds who require nursing facility level of care. (3-30-07)

a. Facility Requirements. The Department will approve hospitals for nursing facility care provided to eligible participants under the following conditions: (3-30-07)

i. The Department’s Licensure and Certification Section finds the hospital in conformance with the requirements of 42 CFR 482.58 “Special Requirements” for hospital providers of long-term care services (“swingbeds”); and (3-30-07)

ii. The hospital is approved by the Medicare program for the provision of “swing-bed” services; and (3-30-07)

iii. The facility does not have a twenty-four (24) hour nursing waiver granted under 42 CFR 488.54(c); and (3-30-07)

iv. The hospital must not have had a swing-bed approval terminated within the two (2) years previous to application for swing-bed participation; and (3-30-07)

v. The hospital must be licensed for less than one hundred (100) beds as defined by 42 CFR 482.58(a)(1) for swing-bed purposes; and (3-30-07)

vi. Nursing facility services in swing-beds must be rendered in beds used interchangeably to furnish hospital or nursing facility-type services. (3-30-07)

b. Participant Requirements. The Department will reimburse hospitals for participants under the following conditions: (3-30-07)

i. The participant is determined to be entitled to such services in accordance with IDAPA 16.03.05,
“Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled”; and (3-30-07)

ii. The participant is authorized for payment in accordance with IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” Subsection 222.02. (3-30-07)

c. Reimbursement for “Swing-Bed” Patient Days. The Department will reimburse swing-bed hospitals on a per diem basis utilizing a rate established as follows: (3-30-07)

i. Payment rates for routine nursing facility services will be at the weighted average Medicaid rate per patient day paid to hospital-based nursing facility/ICF facilities for routine services furnished during the previous calendar year. ICF/ID facilities’ rates are excluded from the calculations. (3-30-07)

ii. The rate will be calculated by the Department by March 15 of each calendar year. The rate will be based on the previous calendar year and effective retroactively for dates of service on or after January 1 of the respective year. (3-30-07)

iii. The weighted average rate for nursing facility swing-bed days will be calculated by dividing total payments for routine services, including patient contribution amounts but excluding miscellaneous financial transactions relating to prior years, by total patient days for each respective level of care occurring in the previous calendar year. (3-30-07)

iv. Routine services include all medical care, supplies, and services which are included in the calculation of nursing facility property and nonproperty costs as described in IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” Subsection 225.01. (3-30-07)

v. The Department will pay the lesser of the established rate, the facility’s charge, or the facility’s charge to private pay patients for “swing-bed” services. (3-30-07)

vi. Reimbursement of ancillary services not included in the nursing facility rates furnished for extended care services will be billed and determined in the same manner as hospital outpatient reasonable costs in accordance with Medicare reasonable cost principles, except that reimbursement for prescription drugs will be in accord with Section 665 of these rules. (3-30-07)

vii. The number of swing-bed days that may be reimbursed to a provider in a twelve (12) month period will be limited to the greater of one thousand ninety five (1,095) days which may be prorated over a shorter fiscal period or, fifteen percent (15%) of the product of the average number of available licensed beds in the hospital in the period and the number of days in the fiscal period. (3-30-07)

d. Computation of “Swing-Bed” Patient Contribution. The computation of the patient’s contribution of swing-bed payment will be in accordance with IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” Section 224. (3-30-07)

09. Adjustment for Disproportionate Share Hospitals (DSH). All Idaho hospitals serving a disproportionate share of low income patients must qualify either as a Mandatory DSH or as Deemed DSH to receive a DSH payment. (3-29-10)

a. DSH Survey Requirements. The Department will send each hospital a DSH survey on or before January 31 of each calendar year. The DSH survey must be returned to the Department on or before May 31 of the same calendar year. A hospital will not receive a DSH payment if the survey is not returned by the deadline, unless good cause is determined by the Department. No later than July 15 of each calendar year, the Department must notify each hospital of their calculated DSH payment and notify each hospital of its preliminary calculated distribution amount. A hospital may file an amended survey to complete, correct, or revise the original DSH survey by submitting the amended survey and supporting documentation to the Department no later than thirty (30) days after the notice of the preliminary DSH calculation is mailed to the hospital. The state's annual DSH allotment payment will be made by September 30 of the same calendar year based on the final DSH surveys and Department data. (3-30-07)

b. Mandatory Eligibility. Mandatory Eligibility for DSH status will be provided for hospitals which:
i. Meet or exceed the disproportionate share threshold as defined in Subsection 400.13 of these rules.

ii. Have at least two (2) obstetricians with staff privileges at the hospital who have agreed to provide obstetric services.

(1) Subsection 405.09.b.ii. of this rule does not apply to a hospital in which the inpatients are predominantly individuals under eighteen (18) years of age; or

(2) Does not offer nonemergency inpatient obstetric services as of December 21, 1987.

iii. The MUR will not be less than one percent (1%).

iv. If an Idaho hospital exceeds both disproportionate share thresholds, as described in Subsection 400.13 of these rules, and the criteria of Subsections 405.09.b.ii. and 405.09.b.iii. of this rule are met, the payment adjustment will be the greater of the amounts calculated using the methods identified in Subsections 405.09.b.vi. through 405.09.b.x. of this rule.

v. Hospitals qualifying for Mandatory DSH eligibility with Medicaid Inpatient Utilization Rates equal to or exceeding one (1) standard deviation and less than one and one-half (1 1/2) standard deviations above the mean of all Idaho hospitals will receive a DSH payment equal to two percent (2%) of the payments related to the Medicaid inpatient days included in the MUR computation.

vi. Hospitals qualifying for Mandatory DSH eligibility with Medicaid Inpatient Utilization Rates equal to or exceeding one and one-half (1 1/2) standard deviations and less than two (2) standard deviations of the mean of all Idaho hospitals will receive a DSH payment equal to four percent (4%) of the payments related to the Medicaid inpatient days included in the MUR computation.

vii. Hospitals qualifying for Mandatory DSH eligibility with Medicaid Inpatient Utilization Rates exceeding two (2) standard deviations of the mean of all Idaho hospitals will receive a DSH payment equal to six percent (6%) of the payments related to the Medicaid inpatient days included in the MUR computation.

viii. Hospitals qualifying for Mandatory DSH eligibility with Low Income Utilization Rates equal to or exceeding twenty-five percent (25%) will receive a DSH payment equal to four percent (4%) of the payments related to the Medicaid inpatient days included in the MUR computation.

ix. Hospitals qualifying for Mandatory DSH eligibility with Low Income Utilization Rates equal to, or exceeding, thirty percent (30%) will receive a DSH payment equal to six percent (6%) of the payments related to the Medicaid inpatient days included in the MUR computation.

c. Deemed Disproportionate Share Hospital (DSH). All hospitals in Idaho which have inpatient utilization rates of at least one percent (1%) only in Idaho inpatient days, and meet the requirements unrelated to patient day utilization specified in Subsection 405.09.b. of this rule, will be designated a Deemed Disproportionate Share Hospital. The disproportionate share payment to a Deemed DSH hospital will be the greater of:

i. Five dollars ($5) per Idaho Medicaid inpatient day included in the hospital's MUR computation; or

ii. An amount per Medicaid inpatient day used in the hospital's MUR computation that equals the DSH allotment amount, less the Mandatory DSH payment amount, divided by the number of Medicaid inpatient days used in the MUR computation for all Idaho DSH hospitals.

d. Insufficient DSH Allotment Amounts. When the DSH allotment amount is insufficient to make the aggregate amount of DSH payments to each DSH hospital, payments to each hospital will be reduced by the percentage by which the DSH allotment amount was exceeded.
e. DSH Payments Will Not Exceed Costs. A DSH payment will not exceed the costs incurred during the year of furnishing services to individuals who are either eligible for medical assistance under the State Plan or were uninsured for health care services provided during the year. (3-30-07)

i. Payments made to a hospital for services provided to indigent patients by a state or a unit of local government within a state will not be considered a source of third party payment. (3-30-07)

ii. Claims of uninsured costs which increase the maximum amount which a hospital may receive as a DSH payment must be documented. (3-30-07)

f. DSH Will be Calculated on an Annual Basis. A change in a provider's allowable costs as a result of a reopening or appeal will not result in the recomputation of the provider's annual DSH payment. (3-30-07)

g. To the extent that audit findings demonstrate that DSH payments exceed the documented hospital specific cost limits, the Department will collect overpayments and redistribute DSH payments. (4-7-11)

i. If at any time during an audit the Department discovers evidence suggesting fraud or abuse by a provider, that evidence, in addition to the Department’s final audit report regarding that provider, will be referred to the Medicaid Fraud Unit of the Idaho Attorney General’s Office. (4-7-11)

ii. The Department will submit an independent certified audit to CMS for each completed Medicaid State plan rate year, consistent with 42 CFR Part 455, Subpart D, “Independent Certified Audit of State Disproportionate Share Hospital Payment Adjustments.” (4-7-11)

iii. Beginning with FFY 2011, if based on the audit of the DSH allotment distribution, the Department determines that there was an overpayment to a provider, the Department will immediately:

(1) Recover the overpayment from the provider; and (4-7-11)

(2) Redistribute the amount in overpayment to providers that had not exceeded the hospital-specific upper payment limit during the period in which the DSH payments were determined. The payments will be subject to hospital-specific upper payment limits. (4-7-11)

iv. Disproportionate share payments must not exceed the DSH state allotment, except as otherwise required by the Social Security Act. In no event is the Department obligated to use State Medicaid funds to pay more than the State Medicaid percentage of DSH payments due a provider. (4-7-11)

10. Out-of-State Hospitals. (3-30-07)

a. Cost Settlements for Certain Out-of-State Hospitals. Hospitals not located in the state of Idaho will have a cost settlement computed with the state of Idaho if the following conditions are met: (3-30-07)

i. Total inpatient and outpatient covered charges are more than fifty thousand dollars ($50,000) in the fiscal year; or (3-30-07)

ii. When less than fifty thousand dollars ($50,000) of covered charges are billed to the state by the provider, and a probable significant underpayment or overpayment is identifiable, and the amount makes it administratively economical and efficient for cost settlement to be requested by either the provider or the state, a cost settlement will be made between the hospital and the Department. (3-30-07)

b. Payment for Hospitals Without Cost Settlement. Those out-of-state hospitals not cost settling with the state will have annually adjusted rates of payment no greater than seventy-five percent (75%) for inpatient covered charges and no greater than eighty percent (80%) of outpatient covered charges or, the Department's established fee schedule for certain outpatient services. These rates represent average inpatient and outpatient reimbursement rates paid to Idaho hospitals. (3-30-07)
11. **Institutions for Mental Disease (IMD).** Except for individuals under twenty-two (22) years of age which are contracted with the Department under the authority of the Division of Family and Community Services and certified by the Health Care Financing Administration, no services related to inpatient care will be covered when admitted to a freestanding psychiatric hospital. (3-30-07)

12. **Audit Function.** Under a common audit agreement, the Medicare Intermediary may perform any audit required for both Title XVIII and Medicaid purposes. The Department may elect to perform an audit even though the Medicare Intermediary does not choose to audit the facility. (3-30-07)

13. **Adequacy of Cost Information.** Cost information as developed by the provider must be current, accurate, and in sufficient detail and in such form as needed to support payments made for services rendered to participants. This includes all ledgers, books, reports, records and original evidences of cost (purchase requisitions, purchase orders, vouchers, requisitions for materials, inventories, labor time cards, payrolls, bases for apportioning costs, etc.), which pertain to the determination of reasonable costs, leaving an audit trail capable of being audited. Financial and statistical records will be maintained in a consistent manner from one (1) settlement period to another. (3-30-07)

14. **Availability of Records of Hospital Providers.** A participating hospital provider of services must make available to the Department in the state in which the facility is licensed, the provider's fiscal and other necessary records for the purpose of determining its ongoing record keeping capability and to ascertain information pertinent to the determination of the proper amount of program payments due the provider. (3-30-07)

15. **Interim Cost Settlements.** The Department may initiate or a hospital may request an interim cost settlement based on the Medicare cost report as submitted to the Medicare Intermediary. (3-30-07)
   
   a. **Cost Report Data.** Interim settlement cost report data will be adjusted to reflect Medicaid payments and statistical summary reports sent to providers before the filing deadline. (3-30-07)
   
   b. **Hard Copy of Cost Report.** Hospitals which request to undergo interim cost settlement with Idaho Medicaid must submit a hard copy of the Medicare cost report to the Department upon filing with the Intermediary. (3-30-07)

   c. **Limit or Recovery of Payment.** The Department may limit a recovery or payment of an interim settlement amount up to twenty-five percent (25%) of the total settlement amount when the cost report information is in dispute. (3-30-07)

16. **Notice of Program Reimbursement.** Following receipt of the finalized Medicare cost report and the timely receipt of any other information requested by the Department to fairly cost settle with the provider, a certified letter with the return receipt requested will be sent to the provider which sets forth the amounts of underpayment or overpayment made to the provider. The notice of the results of the final retroactive adjustment will be sent even though the provider intends to request a hearing on the determination, or has appealed the Medicare Intermediary's determination of cost settlement. Where the determination shows that the provider is indebted to the Medicaid program because total interim and other payments exceed cost limits, the state will take the necessary action to recover overpayment, including the suspension of interim payments sixty (60) days after the provider's receipt of the notice. Such action of recovery or suspension will continue even after a request for an informal conference or hearing is filed with the state. If the hearing results in a revised determination, appropriate adjustments will be made to the settlement amount. (3-30-07)

   a. **Timing of Notice.** The Department will make every effort to issue a notice of program reimbursement within twelve (12) months of receipt of the cost report from the Medicare Intermediary. (3-30-07)

   b. **Reopening of Completed Settlements.** A Medicaid completed cost settlement may be reopened by the provider or the state within a three (3) year period from the date of the letter of notice of program reimbursement. The issues must have been raised, appealed and resolved through the reopening of the cost report by the Medicare Intermediary. Issues previously addressed and resolved by the Department's appeal process are not cause for reopening of the finalized cost settlement. (3-30-07)
17. **Nonappealable Items.** The formula for the determination of the Hospital Inflation Index, the principles of reimbursement which define allowable cost, non-Medicaid program issues, interim rates which are in compliance with state and federal rules, and the preliminary adjustments prior to final cost settlement determinations as supported by properly completed cost reports and audits must not be accepted as appealable items. (3-30-07)

18. **Interim Reimbursement Rates.** The interim reimbursement rates are reasonable and adequate to meet the necessary costs which must be incurred by economically and efficiently operated providers which provide services in conformity with applicable state and federal laws, rules, and quality and safety standards. (3-30-07)

   a. **Annual Adjustments.** Interim rates will be adjusted at least annually based on the best information available to the Department. The interim rate will reflect the Medicaid Inpatient Operating Cost Limits used to set inpatient rates and the Reimbursement Floor Percentage. (3-30-07)

   b. **Retrospective Adjustments.** Interim rates will not be adjusted retrospectively upon request for rate review by the provider. (3-30-07)

   c. **Basis for Adjustments.** The Department may make an adjustment based on the Medicare cost report as submitted and accepted by the Intermediary after the provider's reporting year to bring interim payments made during the period into agreement with the tentative reimbursable amount due the provider at final settlement. If the settlement amount is equal to or greater than ten percent (10%) of the payments received or paid and equal to or greater than one hundred thousand dollars ($100,000), the interim rate will be adjusted to account for half (½) of the difference. (3-30-07)

   d. **Unadjusted Rate.** The Medicaid interim reimbursement rate on file is synonymous with the term unadjusted rate used by other payors. (3-30-07)

19. **Audits.** All financial reports are subject to audit by Departmental representatives in accordance with Section 305 of these rules. (3-30-07)

20. **Interim Reimbursement Rates.** The interim reimbursement rates are reasonable and adequate to meet the necessary costs which must be incurred by economically and efficiently operated providers which provide services in conformity with applicable state and federal laws, rules, and quality and safety standards. (3-30-07)

   a. **Annual Adjustments.** Interim rates will be adjusted at least annually based on the best information available to the Department. The interim rate will reflect the Medicaid Inpatient Operating Cost Limits used to set inpatient rates and the Reimbursement Floor Percentage. (3-30-07)

   b. **Retrospective Adjustments.** Interim rates will not be adjusted retrospectively upon request for rate review by the provider. (3-30-07)

   c. **Basis for Adjustments.** The Department may make an adjustment based on the Medicare cost report as submitted and accepted by the Intermediary after the provider's reporting year to bring interim payments made during the period into agreement with the tentative reimbursable amount due the provider at final settlement. If the settlement amount is equal to or greater than ten percent (10%) of the payments received or paid and equal to or greater than one hundred thousand dollars ($100,000), the interim rate will be adjusted to account for half (½) of the difference. (3-30-07)

   d. **Unadjusted Rate.** The Medicaid interim reimbursement rate on file is synonymous with the term unadjusted rate used by other payors. (3-30-07)

SUB AREA: BEHAVIORAL HEALTH SERVICES
(Sections 700 - 719)

INPATIENT PSYCHIATRIC HOSPITAL SERVICES: PARTICIPANT ELIGIBILITY.

i. Is currently dangerous to self as indicated by at least one (1) of the following:

1. Has actually made an attempt to take his own life in the last seventy-two (72) hours (details of the attempt must be documented); or

2. Has demonstrated self-mutilative behavior within the past seventy-two (72) hours (details of the behavior must be documented); or

3. Has a clear plan to seriously harm himself, overt suicidal intent, and lethal means available to follow the plan (this information can be from the child or a reliable source and details of the child's plan must be documented); or

4. A mental health professional has information from the child or a reliable source that the child has a current plan, specific intent, or recurrent thoughts to seriously harm himself and is at significant risk to making an attempt to carry out the plan without immediate intervention (details must be documented); or

ii. Child is actively violent or aggressive and exhibits homicidal ideation or other symptoms which indicate he is a probable danger to others as indicated by one (1) of the following:

1. The child has actually engaged in behavior harmful or potentially harmful to others or caused serious damage to property which would pose a serious threat of injury or harm to others within the last twenty-four (24) hours (description of the behavior and extent of injury or damage must be documented, as well as the time the behavior occurred relative to the present); or

2. The child has made threats to kill or seriously injure others or to cause serious damage to property.
which would pose a threat of injury or harm to others and has effective means to carry out the threats (details of threats must be documented); or (3-30-07)

(3) A mental health professional has information from the child or a reliable source that the child has a current plan, specific intent, or recurrent thoughts to seriously harm others or property and is at significant risk of making the attempt without immediate intervention (details must be documented); or (3-30-07)

iii. Child is gravely impaired as indicated by at least one (1) of the following criteria: (3-30-07)

b. Intensity of service criteria. The child must meet all of the following criteria related to the intensity of services needed to treat his mental illness: (3-30-07)

i. It is documented by the Regional Mental Health Authority that less restrictive services in the community do not exist or do not meet the treatment or diagnostic needs of the child, or the child has been unresponsive to treatment at a less intensive level of care. The services considered, tried, and/or needed must be documented; and (3-30-07)

ii. The services provided in the hospital can reasonably be expected to improve the child's condition or prevent further regression so that inpatient services will no longer be needed; and (3-30-07)

iii. Treatment of the child's psychiatric condition requires services on an inpatient basis, including twenty-four (24) hour nursing observation, under the direction of a psychiatrist. The child requiring this treatment must not be eligible for independent passes or unit passes without observation or being accompanied by hospital personnel or a responsible other. (3-30-07)

c. Exceptions. The requirement to meet intensity of service criteria may be waived for first time admissions if severity of illness is met and the physician is unable to make a diagnosis or treatment decision while the child is in his current living situation. The waiver of the intensity of services requirement can be for no longer than forty-eight (48) hours and is not waivable for repeat hospitalizations. (3-30-07)

e. The child lacks a place to live and/or family supports and does not meet severity of illness and intensity of service criteria; or (3-30-07)

f. The child has been suspended or expelled from school and does not meet severity of illness and intensity of service criteria. (3-30-07)

702. INPATIENT PSYCHIATRIC HOSPITAL SERVICES: COVERAGE AND LIMITATIONS.

01. Emergency Admissions. An emergency for purposes of a waiver of the prior authorization requirement is defined as the sudden onset of acute psychiatric symptoms of such severity that the absence of immediate medical attention could reasonably be expected to result in serious dysfunction of any bodily organ/part or death of the individual or harm to another person. A court-ordered admission or physician's emergency certificate does not, in itself, justify characterizing the admission as an emergency admission. The severity of illness and intensity of services criteria must be met. The hospital medical record of the admission must include documentation to support that the participant's status upon admission meets the definition of an emergency, as defined in Section 702 of this chapter of rules. The information for authorization of services must be FAXED, or otherwise delivered to the Department on the next business day following the emergency admission. Requests for authorization of emergency admissions must include the same information as required for elective admissions. (3-30-07)

02. Length of Stay. An initial length of stay will be established by the Department. An initial length of stay will usually be for no longer than five (5) days. For first time admissions where intensity of services criteria is not met the initial length of stay may not exceed forty-eight (48) hours. A hospital may request a continued stay review from the Department when the appropriate care of the participant indicates the need for hospital days in excess of the originally approved number. The continued stay review request may be made no later than the date authorized by the Department. Approval of additional days will be based on the following criteria: (3-30-07)

a. Documentation sufficient to demonstrate the medical necessity criteria is still met; (3-30-07)

b. A plan of care that includes documentation sufficient to demonstrate that the child's psychiatric condition continues to require services which can only be provided on an in-patient basis, including twenty-four (24) hour nursing observation, under the direction of a psychiatrist or other physician qualified to treat mental diseases; and (3-30-07)

c. Documentation sufficient to demonstrate the need for continued hospitalization, and that additional days at in-patient level of care will improve the participant's condition. (3-30-07)

03. Services Limited. Inpatient psychiatric hospital services are limited to ten (10) days per year. (3-30-07)

703. INPATIENT PSYCHIATRIC HOSPITAL SERVICES: PROCEDURAL REQUIREMENTS.

Admissions must be authorized by the Department. (3-30-07)

01. Prior Authorization for Elective Admissions. To qualify for reimbursement, prior authorization must be obtained from the Department prior to an elective admission. An elective admission is defined as one that is planned and scheduled in advance, and is not emergency in nature, as “emergency” is defined in Subsection 702.01 of these rules. Requests for prior authorization must include:

a. Diagnosis; and (3-30-07)

b. Summary of present medical findings including symptoms, complaints and complications indicating the need for admission; and (3-30-07)

c. Medical history; and (3-30-07)

d. Mental and physical functional capacity; and (3-30-07)

e. Prognosis; and (3-30-07)
f. Recommendation by a physician for admission, preferably the primary care physician. If the child is enrolled in the Healthy Connection (HC) program, a HC referral is required. (3-30-07)

02. Individual Plan of Care. The individual plan of care is a written plan developed for the participant upon admission to an in-patient psychiatric hospital to improve his condition to the extent that acute psychiatric care is no longer necessary. The plan of care must be developed and implemented within seventy-two (72) hours of admission, reviewed at least every three (3) days, and must:

a. Be based on a diagnostic evaluation that includes examination of the medical, behavioral, and developmental aspects of the participant's situation and reflects the need (medical necessity criteria) for in-patient care; and (3-30-07)
b. Be developed by an interdisciplinary team capable of assessing the child's immediate and long range therapeutic needs, developmental priorities and personal strengths and liabilities, assessing the potential resources of the child's family, setting the treatment objectives, and prescribing therapeutic modalities to achieve the plan's objectives. The team must include at a minimum: (3-30-07)
   i. Board-certified psychiatrist (preferably with a specialty in child psychiatry); or (3-30-07)
   ii. A licensed psychologist and a physician licensed to practice medicine or osteopathy; or (3-30-07)

   v. A licensed occupational therapist who has had specialized training or one (1) year of experience in treating mentally ill individuals (preferably children); and (3-30-07)
   vi. The participant and his parents, legal guardians, or others into whose care he will be released after discharge. (3-30-07)
c. State treatment objectives (related to conditions that necessitated the admission); and (3-30-07)
d. Prescribe an integrated program of therapies, treatments (including medications), activities (including special procedures to assure the health and safety of the child), and experiences designed to meet the objectives; and (3-30-07)
e. Include a discharge and post discharge plan designed to achieve the child's discharge at the earliest possible time and include plans for coordination of community services to ensure continuity of care with the participant's family, school and community upon discharge. (3-30-07)

704. INPATIENT PSYCHIATRIC HOSPITAL SERVICES: PROVIDER QUALIFICATIONS AND DUTIES.

01. Provider Qualifications. Inpatient hospital psychiatric services for individuals under age twenty-one (21) must be provided under the direction of a physician in a facility accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and licensed by the state of Idaho or the state in which they provide services. Facilities currently providing psychiatric hospital services under the authority of Family and Community Services that are certified by the Health Care Financing Administration have until October 1, 1998 to comply with this requirement. To provide services beyond emergency medical screening and stabilization treatment, the hospital must have a separate psychiatric unit with staff qualified to provide psychiatric services to children. General hospitals licensed to provide services in Idaho which are not JCAHO certified may not bill for psychiatric services beyond emergency screening and stabilization. (3-30-07)
02. **Record Keeping.** A written report of each evaluation and the plan of care must be entered into the child's record at the time of admission or if the child is already in the facility, immediately upon completion of the evaluation or plan. (3-30-07)

03. **Utilization Review (UR).** The facility must have in effect a written utilization review plan that provides for review of each child's need for the services that the hospital furnishes him. The UR plan must meet the requirements under 42 CFR 456.201 through 456.245. (3-30-07)

705. **INPATIENT PSYCHIATRIC HOSPITAL SERVICES: PROVIDER REIMBURSEMENT.**

Failure to request a preadmission or continued stay review in a timely manner will result in a retrospective review being conducted by the Department. If the retrospective review determines the admission is medically necessary, the Department will assess a penalty to the hospital as specified in Subsection 705.02 of this rule. The primary care physician will be assessed a penalty for failure to request a preadmission review in a timely manner as specified in Subsection 705.03 of this rule. A physician who provides hospital care but has no control over the admission, continued stay, or discharge of the participant is not subject to this penalty. (3-30-07)

01. **Payment.** Reimbursement for the participant's admission and length of stay is subject to preadmission, concurrent or retrospective review by the Department. The hospital and the participant's physician are responsible for obtaining the required review. If such review identifies that an admission or continued stay is not medically necessary, then no Medicaid payment will be made. (3-30-07)

a. In reimbursing for inpatient hospital psychiatric services the Department will pay the lesser of customary charges or the reasonable cost of semi-private rates for inpatient hospital care in accordance with the rules set forth in IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits.” (3-30-07)

b. The cost of services that would be the responsibility of the Department of Education for school age children cannot be considered in the cost of inpatient psychiatric hospital services. (3-30-07)

c. The participant may be charged for services only when he or she has made an informed decision to incur expenses for services deemed not medically necessary by the Department. (3-30-07)

02. **Hospital Penalty Schedule.** Failure to request a preadmission or continued stay review from the Department in a timely manner will result in the hospital being assessed a penalty as follows. The penalty will be assessed after payment for hospital services for a medically necessary hospital admission:

a. A request for a preadmission or continued stay review that is one (1) day late will result in a penalty of two hundred sixty dollars ($260). (3-30-07)

b. A request for a preadmission or continued stay review that is two (2) days late will result in a penalty of five hundred twenty dollars ($520). (3-30-07)

03. **Physician Penalty Schedule.** Failure to request a preadmission review from the Department in a timely manner will result in the primary care physician being assessed a penalty as follows. The penalty will not be assessed against a physician who provides hospital care but has no control over the admission, continued stay, or discharge of the participant. The penalty will be assessed after payment for physician services for a medically necessary hospital admission:

a. A request for a preadmission review that is one (1) day late will result in a penalty of fifty dollars...

a. Unless specified by the Department, durable medical equipment requires prior authorization by the Department. (3-30-07)

i. Prior authorization means a written, faxed, or electronic approval from the Department that permits payment or coverage of a medical item or service that is covered only by such authorization. Medicaid payment will be denied for the medical item or service or portions thereof which were provided prior to the submission of a valid prior authorization request. The provider may not bill the Medicaid participant for services not reimbursed by Medicaid solely because the authorization was not requested or obtained in a timely manner. An exception may be
allowed on a case-by-case basis where, despite diligent efforts on the part of the provider to submit a request, or events beyond the provider’s control prevented it. An item or service will be deemed prior approved where the individual to whom the service was provided was not eligible for Medicaid at the time the service was provided, but was subsequently found eligible pursuant to IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled,” and the medical item or service provided is approved by the Department by the same guidance that applies to other prior authorization requests.

c. For codes that are manually priced, including miscellaneous codes, a copy of the manufacturer’s suggested retail pricing (MSRP) or an invoice or quote from the manufacturer is required. Reimbursement will be seventy-five percent (75%) of MSRP. If pricing documentation is the invoice, reimbursement will be at cost plus ten percent (10%), plus shipping (if that documentation is provided).

d. No reimbursement will be made for the cost of repairs (materials or labor) covered under the manufacturer’s warranty. The date of purchase and the warranty period must be kept on file by the DME vendor. The following warranty periods are required to be provided on equipment purchased by the Department:

836. FEDERALLY QUALIFIED HEALTH CENTER (FQHC) SERVICES: RATE SETTING METHODOLOGY.

01. Prospective Payment System. (4-2-08)

a. For rate periods beginning on January 1, 2001, the Department will establish separate, finalized rates for medical/mental encounters and for dental encounters. The Department will prospectively set these finalized encounter rates using the FQHC's medical/mental and dental encounter costs. (4-2-08)

b. Beginning in federal fiscal year 2002, and for each federal fiscal year thereafter, the Department will pay each FQHC an encounter rate equal to the amount paid in the previous federal fiscal year. For the period starting with federal fiscal year 2002 and thereafter, the Department will adjust the encounter rate for inflation using the Medicaid Economic Index (MEI), as published by CMS. For both medical/mental encounters and dental encounters, FQHCs are paid on a per encounter basis, with the limitations and exceptions described under Subsection 835.02 of these rules. (4-2-08)

c. If an out-of-state FQHC becomes an Idaho Medicaid provider and provides less than one hundred (100) Idaho Medicaid encounters or receives less than ten thousand dollars ($10,000) in Idaho Medicaid payments in the first year after entering the program, the Department will deem the FQHC a low utilization provider. The finalized encounter rate for low utilization providers will be the same as the interim encounter rate as defined in Subsection 836.02.a. of this rule. If there is an increase in either the number of encounters or in the amount of payments over any twelve (12) month Medicare cost report period, the Department reserves the right to audit a low utilization provider's Medicare cost report in order to set a new interim encounter rate as defined in Subsection 836.02.a. of this rule. (4-2-08)

02. FQHCs That Become Idaho Medicaid Providers. (4-2-08)

a. If the FQHC is new and encounter rate information for other FQHCs in the same or adjacent regional areas with similar caseloads is not available, the Department will set the interim encounter rate using historical cost information. If historical cost information is not available, the Department will use budgeted cost and encounter information submitted by the provider. If the FQHC is not able to provide its financial budget information, the Department will set the interim encounter rate by referring to encounter rates paid to other FQHCs in the same or adjacent regional areas with similar caseloads. Regional areas are defined by the Department. (4-2-08)

b. If the FQHC has been designated as an FQHC for at least twenty-four (24) consecutive months and provides the historical cost and encounter information for this period to the Department, the Department will use the second full twelve (12) month audited Medicare cost report to calculate a finalized encounter rate. The Department will provide the FQHCs a supplemental information worksheet to complete. This worksheet will be used by the Department to identify dental encounters and other incidental costs related to either medical/mental or dental FQHC encounters. (4-2-08)

c. For both new and existing FQHCs that become Idaho Medicaid providers, the Department will audit the Medicare cost report for the twenty-four (24) consecutive months that represent two (2) complete fiscal years after the FQHC has become a Medicaid provider. The Department will also audit the Medicare cost report for any partial year prior to the twenty-four (24) consecutive months. (4-2-08)

d. For both new and existing FQHCs that become Idaho Medicaid providers, the Department will adjust the finalized encounter rate annually for inflation in accordance with Subsection 836.01.b. of this rule.
The Department will adjust the claim payments for all FQHC claims paid at the interim encounter rate(s). These adjustments will reflect the payment at the finalized encounter rate(s). The Department will pay the FQHC for any total adjustment amount over what was reimbursed. The FQHC must pay the Department for any total adjustment amount that is under what was reimbursed. (4-2-08)

03. Change in an FQHC Encounter Rate Due to a Change in the FQHC’s Scope of Services. (4-2-08)

a. After an FQHC obtains approval for a change in scope of service from the federal Human Resources and Services Administration (HRSA), Bureau of Primary Healthcare, the FQHC must request the Department to review the encounter rate(s) for the FQHC. The review will include reviewing the addition of a new service(s), deletion of an existing service(s), or other changes in the intensity of services offered by an FQHC that could change an FQHC’s total cost per encounter. The FQHC must request the Department to review the encounter rate(s) within sixty (60) days after the FQHC has gained approval from the HRSA Bureau of Primary Health Care for a change in scope of service. The Department requires the same supporting documentation required by the HRSA Bureau of Primary Health Care. (4-2-08)

b. When an FQHC does not have to file a change in scope of service with the HRSA Bureau of Primary Health Care, but plans an increase or decrease in the intensity of services to be offered that will result in a change the FQHC’s scope of services, the FQHC must request the Department to review the request for a change in intensity and determine if there will be an increase or decrease in the encounter rate(s) for the FQHC. The Department will review the request for a change in intensity within 60 (sixty) days of the planned change in intensity of services. (4-2-08)

c. The Department reserves the right to audit the Medicare cost report and recalculate the encounter rates when the FQHC has reported a change in scope of service. (4-2-08)

d. The Department will determine the encounter rate in accordance with Subsection 836.02 of this rule when the FQHC has reported a change in scope of service. The Department will audit and cost settle the most recent twenty-four (24) consecutive months of Medicare cost reports following any change(s) in an FQHC’s scope of service. The Department will also audit the Medicare cost report for any partial year prior to the twenty-four (24) consecutive months. The finalized encounter rate(s) for both medical/mental and dental encounters will be recalculated and audited using the Medicare cost report for the second full twelve (12) month period. (4-2-08)

04. Annual Filing Requirements. Each provider is required to file a copy of its Medicare cost report on an annual basis. Department deadlines are the same as those imposed by Medicare. (4-2-08)

05. Quarterly Supplemental Payments. In the case of any FQHC that contracts with a managed care organization, the Department will make quarterly supplemental payments to the FQHC for the difference between the payment amounts paid by the managed care organization and the amount to which the FQHC is entitled under the prospective payment system for Medicaid participants. (4-2-08)
02. Payment for Prescribed Drugs. Payment for prescribed drugs will be available as described in Subsection 662.01 of these rules. (3-30-07)

03. Dispensing Fee for Prescriptions. The allowed dispensing fee used to compute maximum payment for each prescription will be the midpoint dispensing fee of the range of fees in effect at the date of service unless a higher fee is justified by a pharmacy cost of operations report on file with the Department. (3-30-07)

04. Third Party Liability Not Applicable. The provisions of Section 215 of these rules are not applicable to Indian health service clinics. (3-30-07)

04. Matching Funds. Federal funds cannot be used as the State's portion of match for Medicaid service reimbursement. School districts and charter schools must, for their own internal record keeping, calculate and document the non-federal funds (maintenance of effort assurance) that have been designated as their certified match. This documentation needs to include the source of all funds that have been submitted to the State and the original source of those dollars. The appropriate matching funds will be handled in the following manner: (3-30-07)

   g. The Department will provide the school districts a monthly statement which will show the matching amounts received, interest earned, total claims paid, the matching funds used for the paid claims, and the balance of their funds in the trust account. (3-30-07)

02. Quality Improvement. 858. -- 859. (RESERVED)

SUB AREA: MEDICAL TRANSPORTATION SERVICES
(Sections 860 - 879)

860. (RESERVED)

861. EMERGENCY TRANSPORTATION SERVICES: PARTICIPANT ELIGIBILITY.
Ambulance services are medically necessary when an emergency condition exists. For purposes of reimbursement, an emergency condition exists when a participant manifests acute symptoms and/or signs which, by reasonable medical judgement of the Department, represent a condition of sufficient severity such that the absence of immediate medical attention could reasonably be expected to result in death, serious impairment of a bodily function or major organ, and/or serious jeopardy to the overall health of the participant. If such condition exists, and treatment is required at the participant's location, or transport of the participant for treatment in another location by ambulance is the only appropriate mode of travel, the Department will review such claims and consider authorization for emergency ambulance services. (3-30-07)

862. EMERGENCY TRANSPORTATION SERVICES: COVERAGE AND LIMITATIONS.

01. Prior Authorization. Medically necessary ambulance services are reimbursable in emergency situations or when prior authorization has been obtained from the Department. (3-30-07)

02. Local Transport Only. Only local transportation by ambulance is covered. In exceptional situations where the ambulance transportation originates beyond the locality to which the participant was transported, payment may be made for such services only if the evidence clearly establishes that such institution is the nearest one with appropriate facilities and the service is authorized by the Department. (3-30-07)

03. Air Ambulance Service. In some areas, transportation by airplane or helicopter may qualify as ambulance services. Air ambulance services are covered only when:

a. The point of pickup is inaccessible by land vehicle; or (3-30-07)

b. Great distances or other obstacles are involved in getting the participant to the nearest appropriate facility and speedy admission is essential; and (3-30-07)

c. Air ambulance service will be covered where the participant's condition and other circumstances
necessitate the use of this type of transportation; however, where land ambulance service will suffice, payment will be based on the amount payable for land ambulance, or the lowest cost. (3-30-07)

04. Co-Payments. When the Department determines that the participant did not require emergency transportation, the provider can bill the participant for the co-payment amount as described in IDAPA 16.03.18, “Medicaid Cost-Sharing.” (4-2-08)

863. EMERGENCY TRANSPORTATION SERVICES: PROCEDURAL REQUIREMENTS.

01. Services Subject to Review. Ambulance services are subject to review by the Department prior to the service being rendered, and on a retrospective basis. (3-30-07)

02. Non-Emergency Transport Prior Authorization Required. If an emergency does not exist, prior written authorization to transport by ambulance must be secured from the Department. (3-30-07)

03. Air Ambulance. Air ambulance services must be approved in advance by the Department, except in emergency situations. Emergency air ambulance services will be authorized by the Department on a retrospective basis. (3-30-07)

864. EMERGENCY TRANSPORTATION SERVICES: PROVIDER QUALIFICATIONS AND DUTIES.

01. Medically Necessary. For purposes of reimbursement, in non-emergency situations, the provider must provide justification to the Department that travel by ambulance is medically necessary due to the medical condition of the participant, and that any other mode of travel would, by reasonable medical judgement of the Department, result in death, serious impairment of a bodily function or major organ, and/or serious jeopardy to the overall health of the participant. (3-30-07)

02. Licensure Required. All Emergency Medical Services (EMS) Providers that provide services to Medicaid participants in Idaho must hold a current license issued by the Emergency Medical Services Bureau of the Department, and must be governed by IDAPA 16.02.03, “Rules Governing Emergency Medical Services.” Ambulances based outside the state of Idaho must hold a current license issued by their states’ EMS licensing authority when the transport is initiated outside the state of Idaho. Payment will not be made to ambulances that do not hold a current license. (3-30-07)

03. Usual Charges. Ambulance services providers cannot charge Medicaid participants more than is charged to the general public for the same service. (3-30-07)

04. Air Ambulance. The operator of the air service must bill the air ambulance service rather than the hospital or other facility receiving the participant. (3-30-07)

865. EMERGENCY TRANSPORTATION SERVICES: PROVIDER REIMBURSEMENT.

01. Scope of Coverage and General Requirements for Ambulance Services. Ambulance service review is governed by provisions of the Transportation Policies and Procedures Manual as amended. If such review identifies that an ambulance service is not covered, then no Medicaid payment will be made for the ambulance service. Reimbursement for ambulance services originally denied by the Department will be made if such decision is reversed by the appeals process required in IDAPA 16.05.03, “Rules Governing Contested Case Proceedings and Declaratory Rulings.” Payment for ambulance services is subject to the following limitations: (3-30-07)

02. Ambulance Reimbursement.

a. The base rate for ambulance services includes customary patient care equipment and items such as stretchers, clean linens, reusable devices and equipment. The base rate also includes nonreusable items, and disposable supplies such as oxygen, triangular bandages and dressings that may be required for the care of the participant during transport. In addition to the base rate, the Department will reimburse mileage. (3-30-07)

b. Charges for extra attendants are not covered except for justified situations and must be authorized
c. If a physician is in attendance during transport, he is responsible for the billing of his services.

(3-30-07)

d. Reimbursement for waiting time will not be considered unless documentation submitted to the Department identifies the length of the waiting time and establishes its medical necessity or indicates that it was physician ordered. Limited waiting time will be allowed for round trips.

(3-30-07)

e. Ambulance units are licensed by the EMS Bureau of the Department, or other states' EMS licensing authority according to the level of training and expertise its personnel maintain. At least this level of personnel is required to be in the patient compartment of the vehicle for every ambulance trip. The Department will reimburse a base rate according to the following:

(3-30-07)

i. The level of personnel required to be in the patient compartment of the ambulance;

(3-30-07)

ii. The level of ambulance license the unit has been issued; and

(3-30-07)

iii. The level of life support authorized by the Department.

(3-30-07)

f. Units with Emergency Medical Technician - Basic (EMT-B) or equivalent personnel in the patient compartment of the vehicle will be reimbursed up to the Basic Life Support (BLS) rate. Units with Advanced Emergency Medical Technician-Ambulance (AEMT-A) or equivalent personnel in the patient compartment of the vehicle will be reimbursed up to the Advanced Life Support, Level I (ALS-I) rate. Units with Emergency Medical Technician - Paramedic (EMT-P) or equivalent personnel in the patient compartment of the vehicle will be reimbursed up to the Advanced Life Support, Level II (ALS-II) rate. When a participant's condition requires hospital-to-hospital transport with ongoing care that must be furnished by one (1) or more health care professionals in an appropriate specialty area, including emergency or critical care nursing, emergency medicine, or a paramedic with additional training, Specialty Care Transport (SCT) may be authorized by the Department.

(3-30-07)

g. If multiple licensed EMS providers are involved in the transport of a participant, only the ambulance provider which actually transports the participant will be reimbursed for the services. In situations where personnel and equipment from a licensed ALS-II provider boards an ALS-I or BLS ambulance, the transporting ambulance may bill for ALS-II services as authorized by the Department. In situations where personnel and equipment from a licensed ALS-I provider boards an ALS-I or BLS ambulance, the transporting ambulance may bill for ALS-I services as authorized by the Department. In situations where medical personnel and equipment from a medical facility are present during the transport of the participant, the transporting ambulance may bill at the ALS-I or ALS-II level of service. The transporting provider must arrange to pay the other provider for their services. The only exception to the preceding policy is in situations where medical personnel employed by a licensed air ambulance provider boards an ALS-I, ALS-II, or BLS ground ambulance at some point, and the air ambulance medical personnel also accompany and treat the participant during the air ambulance trip. In this situation, the air ambulance provider may bill the appropriate base rate for the air ambulance trip, and may also bill the charges associated with their medical personnel and equipment as authorized by the Department. The ground ambulance provider may also bill for their part of the trip as authorized by the Department.

(3-30-07)

h. If multiple licensed EMS providers transport a participant for different legs of a trip, each provider must bill his base rate and mileage, as authorized by the Department.

(3-30-07)

i. If a licensed transporting EMS provider responds to an emergency situation and treats the participant, but does not transport the participant, the Department may reimburse for the treat and release service. The Department will reimburse the appropriate base rate. This service requires authorization from the Department, usually on a retrospective basis.

(3-30-07)

j. If an ambulance vehicle and crew have returned to a base station after having transported a participant to a facility and the participant's physician orders the participant to be transferred from this facility to another facility because of medical need, two (2) base rate charges, in addition to the mileage, will be considered for reimbursement. If an ambulance vehicle and crew do not return to a base station and the patient is transferred from...
one (1) facility to another facility, charges for only one (1) base rate, waiting time, and mileage will be considered. (3-30-07)

k. Round trip charges will be allowed only in circumstances when a facility in-patient is transported to another facility to obtain specialized services not available in the facility in which the participant is an in-patient. The transport must be to and from a facility that is the nearest one with the specialized services. (3-30-07)

l. If a licensed transporting EMS provider responds to a participant's location and upon examination and evaluation of the participant, finds that his condition is such that no treatment or transport is necessary, the Department will pay for the response and evaluation service. This service requires authorization by the Department, usually on a retrospective basis. No payment will be made if the EMS provider responds and no evaluation is done, or the participant has left the scene. No payment will be made to an EMS provider who is licensed as a non-transporting provider. (3-30-07)

m. All ambulance providers will be reimbursed at the lower of either the provider's actual charge for the service or the maximum allowable charge for the service as established by the Department in its pricing file. (3-30-07)

03. Payment Subject to Third Party Liability Requirements. Before payment is made by the Department, a Medicaid participant must utilize any available insurance benefits to pay for ambulance services. (3-30-07)

INVESTIGATIONS, AUDITS, AND ENFORCEMENT
(Sections 900 - 999)

SUB AREA: LIENS AND ESTATE RECOVERY
(Sections 900 - 909)

900. **LIENS AND ESTATE RECOVERY.**

In accordance with Sections 55-819, 56-218, 56-218A, and 56-225, Idaho Code, this Section of rule sets forth the provisions for recovery of medical assistance, the filing of liens against the property of deceased persons, the filing of liens against the property of permanently institutionalized participants, and the recording of requests for notice. (4-7-11)
01. **Medical Assistance Incorrectly Paid.** The Department may, pursuant to a judgment of a court, file a lien against the property of a living or deceased person of any age to recover the costs of medical assistance incorrectly paid. (3-30-07)

901. **LIENS AND ESTATE RECOVERY: DEFINITIONS.**
The following terms are applicable to Sections 900 through 909 of this chapter of rules: (4-7-11)

03. **Equity Interest in a Home.** Any equity interest in real property recognized under Idaho law. (3-30-07)

04. **Estate.** All real and personal property and other assets including those in which the participant had any legal or beneficial title or interest at the time of death, to the extent of such interest, including such assets conveyed to a survivor, heir, or assignee of the deceased participant through joint tenancy, tenancy in common, survivorship, life estate, living trust, or other arrangement. (3-30-07)

05. **Home.** The dwelling in which the participant has an ownership interest, and which the participant occupied as his primary dwelling prior to, or subsequent to, his admission to a medical institution. (3-30-07)

06. **Institutionalized Participant.** An inpatient in a nursing facility (NF), intermediate care facility for people with intellectual disabilities (ICF/ID), or other medical institution, who is a Medicaid participant subject to post-eligibility treatment of income in IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind and Disabled (AABD)”. (3-30-07)

07. **Lawfully Residing.** Residing in a manner not contrary to or forbidden by law, and with the participant's knowledge and consent. (3-30-07)

08. **Permanently Institutionalized.** An institutionalized participant of any age who the Department has determined cannot reasonably be expected to be discharged from the institution and return home. Discharge refers to a medical decision made by a competent medical professional that the participant is physically able to leave the institution and return to live at home. (3-30-07)

09. **Personal Property.** Any property not real property, including cash, jewelry, household goods, tools, life insurance policies, boats and wheeled vehicles. (3-30-07)

14. **Undue Hardship Waiver.** A decision made by the Department to relinquish, limit, or defer its claim to any or all estate assets of a deceased participant based on good cause. (3-30-07)

902. LIENS AND ESTATE RECOVERY - NOTIFICATION TO DEPARTMENT.
All notification regarding liens, estate claims, and requests for notice must be directed to the Department of Health and Welfare, Estate Recovery Unit, 3272 Elder, Suite B, P.O. Box 83720, Boise, Idaho, 83720-0009. (4-7-11)

903. LIENS AND ESTATE RECOVERY: LIEN DURING LIFETIME OF PARTICIPANT.

01. **Lien Imposed During Lifetime of Participant.** During the lifetime of the permanently institutionalized participant, and subject to the restrictions set forth in Subsection 903.04 of this rule, the Department may impose a lien against the real property of the participant for medical assistance correctly paid on his behalf. The lien must be filed within ninety (90) days of the Department's final determination, after notice and opportunity for a hearing, that the participant is permanently institutionalized. The lien is effective from the beginning of the most recent continuous period of the participant's institutionalization, but not before July 1, 1995. Any lien imposed will dissolve upon the participant's discharge from the medical institution and return home. (4-7-11)

02. **Determination of Permanent Institutionalization.** The Department must determine that the participant is permanently institutionalized prior to the lien being imposed. An expectation or plan that the participant will return home with the support of Home and Community Based Services does not, in and of itself, justify a decision that he is reasonably expected to be discharged to return home. The following factors must be considered when making the determination of permanent institutionalization:

   a. The participant must meet the criteria for nursing facility or ICF/ID level of care and services as set forth in IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” Sections 220 through 299, and 580 through 649; (3-30-07)

   b. The medical records must be reviewed to determine if the participant's condition is expected to improve to the extent that he will not require nursing facility or ICF/D level of care; and (3-30-07)

   c. Where the prognosis indicated in the medical records is uncertain or inconclusive, the Department may request additional medical information, or may delay the determination until the next utilization control review or annual Inspection of Care review, as appropriate. (3-30-07)

03. **Notice of Determination of Permanent Institutionalization and Hearing Rights.** The Department must notify the participant or his authorized representative, in writing, of its intention to make a determination that the participant is permanently institutionalized, and that he has the right to a fair hearing in accordance with Subsection 900.02 of these rules. This notice must inform the participant of the following information, at a minimum:

   a. The Department's decision that he cannot reasonably be expected to be discharged from the medical institution to return home is based upon a review of the medical records and plan of care, but that this does not preclude him from returning home with services necessary to support nursing facility or ICF/ID level of care; and (4-7-11)

   b. He or his authorized representative may request a fair hearing prior to the Department's final determination that he is permanently institutionalized. The notice must include information that a pre-hearing conference may be scheduled prior to a fair hearing. The notice must include the time limits and instructions for requesting a fair hearing. (4-7-11)

   c. If he or his authorized representative does not request a fair hearing within the time limits specified, his real property, including his home, may be subject to a lien, contingent upon the restrictions in Subsection 903.04 of this rule. (4-7-11)

04. **Restrictions on Imposing Lien During Lifetime of Participant.** A lien may be imposed on the participant's real property; however, no lien may be imposed on the participant's home if any of the following is
lawfully residing in such home:

- The spouse of the participant;  
- The participant's child who is under age twenty-one (21), or who is blind or disabled as defined in 42 U.S.C. 1382c as amended; or
- A sibling of the participant who has an equity interest in the participant's home and who was residing in such home for a period of at least one (1) year immediately before the date of the participant's admission to the medical institution, and who has been residing in the home on a continuous basis.

05. Restrictions on Recovery on Lien Imposed During Lifetime of Participant. Recovery will be made on the lien from the participant's estate, or at any time upon the sale of the property subject to the lien, but only after the death of the participant's surviving spouse, if any, and only at a time when:

- The participant has no surviving child who is under age twenty-one (21);
- The participant has no surviving child of any age who is blind or disabled as defined in 42 U.S.C. 1382c as amended; and
- In the case of a lien on a participant's home, when none of the following is lawfully residing in such home who has lawfully resided in the home on a continuous basis since the date of the participant's admission to the medical institution:
  - A sibling of the participant, who was residing in the participant's home for a period of at least one (1) year immediately before the date of the participant's admission to the medical institution; or
  - A son or daughter of the participant, who was residing in the participant's home for a period of at least two (2) years immediately before the date of the participant's admission to the medical institution, and who establishes by a preponderance of the evidence that he provided necessary care to the participant, and the care he provided allowed the participant to remain at home rather than in a medical institution.

06. Recovery Upon Sale of Property Subject to Lien Imposed During Lifetime of Participant. Should the property upon which a lien is imposed be sold prior to the participant's death, the Department will seek recovery of all medical assistance paid on behalf of the participant, subject to the restrictions in Subsection 903.05 of this rule. Recovery of the medical assistance paid on behalf of the participant from the proceeds from the sale of the property does not preclude the Department from recovering additional medical assistance paid from the participant's estate as described in Subsection 904.01 of these rules.

07. Filing of Lien During Lifetime of Participant. When appropriate, the Department will file, in the office of the Recorder of the county in which the real property of the participant is located, a verified statement, in writing, setting forth the following:

- The name and last known address of the participant; and
- The name and address of the official or agent of the Department filing the lien; and
- A brief description of the medical assistance received by the participant; and
- The amount paid by the Department, as of a given date, and, if applicable, a statement that the amount of the lien will increase as long as medical assistance benefits are paid on behalf of the participant.

08. Renewal of Lien Imposed During Lifetime of Participant. The lien, or any extension thereof, must be renewed every five (5) years by filing a new verified statement as required in Subsection 903.07 of this rule, or as required by Idaho law.

09. Termination of Lien Imposed During Lifetime of Participant. The lien will be released as
provided by Idaho Code, upon satisfaction of the Department's claim. The lien will dissolve in the event of the participant's discharge from the medical institution and return home. Such dissolution of the lien does not discharge the underlying debt and the estate remains subject to recovery under estate recovery provisions in Sections 904 and 905 of these rules.

904. LIENS AND ESTATE RECOVERY: REQUIREMENTS FOR ESTATE RECOVERY.

01. Estate Recovery Requirements. In accordance Sections 56-218 and 56-218A, Idaho Code, the Department is required to recover the following:

   a. The costs of all medical assistance correctly paid on or after July 1, 1995, on behalf of a participant who was permanently institutionalized;

   b. The costs of medical assistance correctly paid on behalf of a participant who received medical assistance at age fifty-five (55) or older on or after July 1, 1994; and

   c. The costs of medical assistance correctly paid on behalf of a participant who received medical assistance at age sixty-five (65) or older on or after July 1, 1988.

02. Recovery From Estate of Spouse. Recovery from the estate of the spouse of a Medicaid participant may be made as permitted in Sections 56-218 and 56-218A, Idaho Code.

03. Lien Imposed Against Estate of Deceased Participant. Liens may be imposed against the estates of deceased Medicaid participants and their spouses as permitted by Section 56-218, Idaho Code.

04. Notice of Estate Claim. The Department will notify the authorized representative of the amount of the estate claim after the death of the participant, or after the death of the surviving spouse. The notice must include instructions for applying for an undue hardship waiver.

05. Assets in Estate Subject to Claims. The authorized representative will be notified of the Department's claim against the assets of a deceased participant. Assets in the estate from which the claim can be satisfied must include all real or personal property that the deceased participant owned or in which he had an ownership interest, including the following:

   a. Payments to the participant under an installment contract will be included among the assets of the deceased participant. This includes an installment contract on any real or personal property to which the deceased participant had a property right. The value of a promissory note, loan or property agreement is its outstanding principal balance at the date of death of the participant. When a promissory note, loan, or property agreement is secured by a Deed of Trust, the Department may request evidence of a reasonable and just underlying debt.

   b. The deceased participant's ownership interest in an estate, probated or not probated, is an asset of his estate when:

      i. Documents show the deceased participant is an eligible devisee or donee of property of another deceased person; or

      ii. The deceased participant received income from property of another person; or

      iii. State intestacy laws award the deceased participant a share in the distribution of the property of another estate.

   c. Any trust instrument which is designed to hold or to distribute funds or property, real or personal, in which the deceased participant had a beneficial interest is an asset of the estate.

   d. Life insurance is considered an asset when it has reverted to the estate.

   e. Burial insurance is considered an asset when a funeral home is the primary beneficiary or when
f. Checking and savings accounts which hold and accumulate funds designated for the deceased participant, are assets of the estate, including joint accounts which accumulate funds for the benefit of the participant. (3-30-07)

g. In a conservatorship situation, if a court order under state law specifically requires funds be made available for the care and maintenance of a participant prior to his death, absent evidence to the contrary, such funds are an asset of the deceased participant's estate, even if a court has to approve release of the funds. (3-30-07)

h. Shares of stocks, bonds and mutual funds to the benefit of the deceased participant are assets of the estate. The current market value of all stocks, bonds and mutual funds must be proved as of the month preceding settlement of the estate claim. (3-30-07)

06. Value of Estate Assets. The Department will use fair market value as the value of the estate assets. (3-30-07)

905. LIENS AND ESTATE RECOVERY: LIMITATIONS AND EXCLUSIONS.

01. Limitations on Estate Claims. Limits on the Department's claim against the assets of a deceased participant or spouse are subject to Sections 56-218 and 56-218A, Idaho Code. A claim against the estate of a spouse of a participant is limited to the value of the assets of the estate that had been, at any time after October 1, 1993, community property, or the deceased participant's share of the separate property, and jointly owned property. Recovery will not be made until the deceased participant no longer is survived by a spouse, a child who is under age twenty-one (21), or a blind or disabled child, as defined in 42 U.S.C. 1382c as amended and, when applicable, as provided in Subsection 903.05 of these rules. No recovery will be made if the participant received medical assistance as the result of a crime committed against the participant. (4-7-11)

02. Expenses Deducted From Estate. The following expenses may be deducted from the available assets to determine the amount available to satisfy the Department's claim: (3-30-07)

a. Burial expenses, which include only those reasonably necessary for embalming, transportation of the body, cremation, flowers, clothing, and services of the funeral director and staff may be deducted. (3-30-07)

b. Other legally enforceable and necessary debts with priority may be deducted. The Department's claim is classified and paid as a debt with preference as defined in Section 15-03-805, Idaho Code. Debts of the deceased participant that may be deducted from the estate prior to satisfaction of the Department's claim must be legally enforceable debts given preference over the Department's claim under Section 15-03-805, Idaho Code. (3-30-07)

03. Interest on Claim. The Department's claim does not bear interest except as otherwise provided by statute or agreement. (3-30-07)

04. Excluded Land. Restricted allotted land, owned by a deceased participant who was an enrolled member of a federally recognized American Indian tribe, or eligible for tribal membership, which cannot be sold or transferred without permission from the Indian tribe or an agency of the Federal Government, will not be subject to estate recovery. (3-30-07)

05. Certain Life Estates. The value of a life estate owned by a Medicaid participant or his or her spouse will not be subject to estate recovery if:

a. Neither the Medicaid participant or his or her spouse ever owned the remainder interest; or (4-4-13)

b. The life estate was created prior to July 1, 1995. (4-4-13)
06. **Marriage Settlement Agreement or Other Such Agreement.** A marriage settlement agreement or other such agreement which separates assets for a married couple does not eliminate the debt against the estate of the deceased participant or the spouse. Transfers under a marriage settlement agreement or other such agreement may be voided if not for adequate consideration. (3-30-07)

07. **Release of Estate Claims.** The Department will release a claim when the Department's claim has been fully satisfied and may release its claim under the following conditions:

a. When an undue hardship waiver as defined in Subsection 905.07 of this rule has been granted; or (4-7-11)

b. When a written agreement with the authorized representative to pay the Department's claim in thirty-six (36) monthly payments or less has been achieved. (3-30-07)

08. **Purpose of the Undue Hardship Exception.** The undue hardship exception is intended to avoid the impoverishment of the deceased participant's family due to the Department exercising its estate recovery right. The fact that family members anticipate or expect an inheritance, or will be inconvenienced economically by the lack of an inheritance, is not cause for the Department to declare an undue hardship. (3-30-07)

09. **Application for Undue Hardship Waiver.** An applicant for an undue hardship waiver must have a beneficial interest in the estate and must apply for the waiver within ninety (90) days of the death of the participant or within thirty (30) days of receiving notice of the Department's claim, whichever is later. The filing of a claim by the Department in a probate proceeding constitutes notice to all heirs. (3-30-07)

10. **Basis for Undue Hardship Waiver.** Undue hardship waivers will be considered in the following circumstances:

a. The estate subject to recovery is income-producing property that provides the primary source of support for other family members; or (3-30-07)

b. Payment of the Department's claim would cause heirs of the deceased participant to be eligible for public assistance; or (3-30-07)

c. The Department's claim is less than five hundred dollars ($500) or the total assets of the entire estate are less than five hundred dollars ($500), excluding trust accounts or other bank accounts. (3-30-07)

d. The participant received medical assistance as the result of a crime committed against the participant. (3-30-07)

11. **Limitations on Undue Hardship Waiver.** Any beneficiary of the estate of a deceased participant may apply for waiver of the estate recovery claim based on undue hardship. Any claim may be waived by the Department, partially or fully, because of undue hardship. An undue hardship does not exist if action taken by the participant prior to his death, or by his legal representative, divested or diverted assets from the estate. The Department grants undue hardship waivers on a case by case basis upon review of all facts and circumstances, including any action taken to diminish assets available for estate recovery or to circumvent estate recovery. (3-30-07)

12. **Set Aside of Transfers.** Transfers of real or personal property of the participant without adequate consideration are voidable and may be set aside by the district court whether or not the asset transfer resulted, or could have resulted, in a period of ineligibility. (3-30-07)

906. **LIENS AND ESTATE RECOVERY: REQUEST FOR NOTICE.**

01. **Request for Notice - Notice - Hearing.** The Department must notify the participant or his authorized representative, in writing, of its intention to record a request for notice, and that he has the right to a fair hearing in accordance with Subsection 900.02 of these rules. The notice must inform the participant of the following information, at a minimum: (4-7-11)
a. The Department's determination that he is the record titleholder or purchaser under a land sale contract of real property subject to a request for notice; (4-7-11)

b. He or his authorized representative may request a fair hearing prior to the Department's recording a request for notice. The notice must include the time limits and instructions for requesting a fair hearing; and (4-7-11)

c. If he or his authorized representative does not request a fair hearing within the time limits specified, a request for notice applying to his real property, including his home, may be recorded. (4-7-11)

02. Request for Notice - Forms - Content. The notices must include, at a minimum, the following information:

a. The name of the public assistance recipient and the spouse of such public assistance recipient, if any; (4-7-11)

b. The Medicaid number for the public assistance recipient and spouse, if any; (4-7-11)

(Sections 910 - 918)

910. PARTICIPANT UTILIZATION CONTROL PROGRAM.
This Program is designed to promote improved and cost-efficient medical management of essential health care by monitoring participant activities and taking action to correct abuses. Participants demonstrating unreasonable patterns of utilization and/or exceeding reasonable levels of utilization will be reviewed for restriction. The Department may require a participant to designate a primary physician or a single pharmacy or both for exclusive provider services in an effort to protect the individual's health and safety, provide continuity of medical care, avoid duplication of services by providers, avoid inappropriate or unnecessary utilization of medical assistance, and avoid excessive utilization of prescription medications. (3-30-07)

911. LOCK-IN DEFINED.
Lock-in is the process of restricting the access of a participant to a specific provider or providers. (3-30-07)

912. DEPARTMENT EVALUATION FOR LOCK-IN.
The Department will review participants to determine if services are being utilized at a frequency or amount that results in a level of utilization or a pattern of services which is not medically necessary. Evaluation of utilization
patterns can include, but is not limited to, review by the Department staff of medical records and/or computerized reports generated by the Department reflecting claims submitted for physician visits, drugs/prescriptions, outpatient and emergency room visits, lab and/or diagnostic procedures, hospital admissions, and referrals. (3-30-07)

913. CRITERIA FOR LOCK-IN.
Since it is impossible to identify all possible patterns of over utilization, and since a particular pattern may be justified based on individual conditions, no specific criteria for lock-in will be developed. However, the Department may develop guidelines for purposes of uniformity. The guidelines will not be binding on the Department and will not limit or restrict the ability of the Department to impose lock-in when any pattern of over utilization is identified. The following utilization patterns may be considered abusive, not medically necessary, potentially endangering the participant's health and safety, or over utilization of Medicaid services, and may result in the restriction of Medicaid reimbursement for a participant to a single provider or providers:

01. Unnecessary Use of Providers or Services. Unnecessary use of providers or Medicaid services, including excessive provider visits. (3-30-07)

02. Demonstrated Abusive Patterns. Recommendation from a medical professional or the participant's primary care physician that the participant has demonstrated abusive patterns and would benefit from the lock-in program. (3-30-07)

03. Use of Emergency Room Facilities. Frequent use of emergency room facilities for non-emergent conditions. (3-30-07)

04. Multiple Providers. Use of multiple providers. (3-30-07)

05. Controlled Substances. Use of multiple controlled substances. (3-30-07)

06. Prescribing Physicians or Pharmacies. Use of multiple prescribing physicians and/or pharmacies. (3-30-07)

07. Prescription Drugs and Therapeutic Classes. Overlapping prescription drugs with the same therapeutic class. (3-30-07)

08. Drug Abuse. Diagnosis of drug abuse or drug withdrawal, or both. (3-30-07)

09. Drug Behavior. Drug-seeking behavior as identified by a medical professional. (3-30-07)

10. Other Abusive Utilization. Use of drugs or other Medicaid services determined to be abusive by the Department's medical or pharmacy consultant. (3-30-07)

914. LOCK-IN PARTICIPANT NOTIFICATION.
A participant who has been designated by the Department for the Participant Utilization Control Program will be notified in writing by the Department of the action and the participant's right of appeal by means of a fair hearing. (3-30-07)

915. LOCK-IN PROCEDURES.

01. Participant Responsibilities. The participant will be given thirty-five (35) days to contact the Regional Program Manager or designee and complete and sign the lock-in agreement form and select designated provider(s) in each area of misuse. (3-30-07)

02. Appeal Stays Restriction. The Department will not implement the participant restriction if a valid appeal is noted in accordance with Section 917 of these rules. (3-30-07)

03. Lock-In Duration. The Department will restrict participants to their designated providers for a time period determined by the Department. Upon review at the end of that period, lock-in may be extended for an additional period determined by the Department. (3-30-07)
04. **Payment to Providers.** Payment to provider(s) other than the designated lock-in physician or pharmacy is limited to documented emergencies or written referrals from the primary physician. (3-30-07)

05. **Regional Programs Manager.** The Regional Programs Manager, or designee will: (3-30-07)

   a. Clearly describe the participant's appeal rights in accordance with the provisions in IDAPA 16.05.03, "Rules Governing Contested Case Proceedings and Declaratory Rulings"; (3-30-07)

   b. Specify the effective date and length of the restriction; (3-30-07)

   c. Have the participant choose a designated provider or providers; and (3-30-07)

   d. Mail the completed lock-in agreement to the Surveillance and Utilization Unit. Upon receipt of the lock-in agreement, the participant's Medicaid services will be immediately restricted to the designated provider(s). (3-30-07)

916. **PENALTIES FOR LOCK-IN NONCOMPLIANCE.**
If a participant fails to respond to the notification of medical restriction(s), fails to sign the lock-in agreement, or fails to select a primary physician within the specified time period, the Medicaid benefits will be restricted to documented emergencies only. If a participant continues to abuse and/or over-utilize items or services after being identified for lock-in, the Department may terminate medical assistance benefits for a specified period of time as determined by the Department. (3-30-07)

917. **APPEAL OF LOCK-IN.**
Department determinations to lock-in a participant may be appealed in accordance with the fair hearings provisions of IDAPA 16.05.03, "Rules Governing Contested Case Proceedings and Declaratory Rulings," of the Department. (3-30-07)

918. **RECIPIENT EXPLANATION OF MEDICAID BENEFITS (REOMBS).**

   01. **Monthly Surveys.** The Department will conduct monthly surveys of services rendered to medical assistance participants using REOMBs. (3-30-07)

   02. **Participant Response.** A medical assistance participant is required to respond to the Department's explanation of medical benefits survey whenever he is aware of discrepancies. (3-30-07)

   03. **Participant Unable to Respond.** If the participant is unable, because of medical or physical limitations, to respond to the survey personally, then a responsible family member or friend can respond on his behalf. (3-30-07)

   04. **Medicare-to-Medicaid Cross-Over Claims.** All claims processed through the cross-over system will be subject to these rules. All providers submitting cross-over claims must comply with the terms of their provider agreements. (3-30-07)
