**IDAPA 07
TITLE 01
CHAPTER 04**

**07.01.04 – RULES GOVERNING LIMITED ELECTRICAL
LICENSING AND REGISTRATION**

000. LEGAL AUTHORITY.

The Idaho Electrical Board is authorized under Section 54-1006(5), Idaho Code, to adopt rules concerning the issuance of electrician licenses referred to in Section 54-1001, Idaho Code. (2-26-93)

001. TITLE AND SCOPE.

These rules shall be cited as IDAPA 07.01.04, “Rules Governing Limited Electrical Licensing and Registration,” Division of Building Safety. These rules set out the limited types of electrical installations for which a limited electrical license is required; the minimum experience requirements for such license; and describe the procedure for securing such license. (4-11-19)

002. WRITTEN INTERPRETATIONS.

This agency has written interpretations of this chapter in the form of legal memoranda. (2-26-93)

003. ADMINISTRATIVE APPEALS.

IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” govern license revocation/suspension proceedings. (2-26-93)

004. INCORPORATION BY REFERENCE.

There are no documents that have been incorporated by reference into this rule. (4-11-19)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.

The principal place of business of the Division of Building Safety, Electrical Bureau, is in Meridian, Idaho. The office is located at 1090 E. Watertower Street, Meridian, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. The mailing address is: Division of Building Safety, Electrical Bureau, 1090 E. Watertower Street, Meridian, Idaho 83642. (4-11-19)

006. PUBLIC RECORDS ACT COMPLIANCE.

The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-11-19)

007. -- 010. (RESERVED)

011. QUALIFIED JOURNEYMAN ELECTRICIANS.

Qualified journeyman electricians, as defined in Section 54-1003A(2), Idaho Code, shall be permitted to make all installations as subsequently described herein without securing an additional license for said installation. (4-9-79)

012. MINIMUM EXPERIENCE REQUIREMENTS.

Experience gained by an individual while engaged in the practice of one (1) or more of the limited categories named below shall not be considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman electrician. (4-11-19)

013. LIMITED EXPERIENCE REQUIREMENT.

01. Limited Electrical Installer. An applicant for a limited electrical installer license must have at least two (2) years of experience, or more as specified for the individual category, with the type of installation for which the license is being applied for, in compliance with the requirements of the state in which the experience was received, or as a limited electrical installer trainee making electrical installations in accordance with the requirements as stated herein. (4-11-19)

02. Limited Electrical Installer Trainee. A limited electrical installer trainee shall be required to work not less than two (2) years, defined as a minimum of four thousand (4,000) hours of work experience, under the constant on-the-job supervision of a limited electrical installer of the same limited category to qualify for testing as a limited electrical installer. A person wishing to become a limited electrical installer trainee shall register with the

Division of Building Safety for a period of three (3) years and pay the applicable fee prior to going to work. Said person shall carry a current registration certificate on his person at all times and shall present it upon request to personnel of the Division of Building Safety for examination. A limited electrical installer trainee registration shall only be renewed by the Division upon receipt of sufficient evidence demonstrating that the trainee has worked at least one (1) year defined as a minimum of two thousand (2,000) hours of work experience under the constant on-the-job supervision of a limited electrical installer; provided however, that in no case shall a limited electrical installer trainee registration be renewed more than one (1) time by the Division without a recommendation from the Idaho Electrical Board to do so. A limited electrical installer trainee may only petition the Electrical Board for registration renewals subsequent to the first renewal. If application to the Division or petition to the Board is made pursuant to this subsection, the Division and the Board, as applicable, shall consider whether extenuating circumstances exist which prevent the completion of the instruction or work experience requirements for renewal. Time shall not be credited while the trainee is inactive or not registered. (4-11-19)

014. ELECTRICAL INSTALLATIONS REQUIRING A LIMITED ELECTRICAL INSTALLER LICENSE.

The following categories of electrical installations shall be considered limited electrical installations, the practice of which shall require a journeyman electrician, master electrician, or limited electrical installer license: (4-11-19)

01. Elevator, Dumbwaiter, Escalator, or Moving-Walk Electrical. Any person qualifying for and having in his possession a current elevator electrical license may install, maintain, repair, and replace equipment, controls, and wiring beyond the disconnect switch in the machine room of the elevator and pertaining directly to the operation and control thereof when located in the elevator shaft and machine room. He shall be employed by a licensed elevator electrical contractor or electrical contractor, and his installations shall be limited to this category. The holder of such limited license may only countersign a limited electrical contractor's license application as a supervising limited electrical installer for work within this category. (4-11-19)

02. Sign Electrical. Any person qualifying for and having in his possession a current sign electrical license may install, maintain, repair, and replace equipment, controls, and wiring on the secondary side of sign disconnecting means; providing the disconnecting means is located on the sign or within sight therefrom. He shall be employed by a licensed sign electrical contractor or electrical contractor, and his installations shall be limited to this category. The holder of such limited license may only countersign a limited electrical contractor's license application as supervising limited electrical installer for work within this category. (4-11-19)

03. Manufacturing or Assembling Equipment. (4-5-00)

a. A licensed limited electrical manufacturing or assembling equipment installer must be employed by a licensed limited electrical manufacturing or assembling equipment contractor or electrical contractor, and his installation shall be limited to this category. The holder of such limited license may only countersign a limited electrical contractor's license application as a supervising limited electrical installer for work within this category. (4-11-19)

b. Any person licensed pursuant to Paragraph 014.03.a. of these rules may install, maintain, repair, and replace equipment, controls, and accessory wiring, integral to the specific equipment, on the load side of the equipment disconnecting means. Electrical service and feeder are to be installed by others. The licensee may also install circuitry in modules or fabricated enclosures for the purpose of connecting the necessary components which individually bear a label from a nationally recognized testing laboratory when such equipment is designed and manufactured for a specific job installation. All wiring completed shall meet all requirements of Title 54, Chapter 10, Idaho Code, all rules promulgated pursuant thereto, and the most current edition of the National Electrical Code. (7-1-94)

c. Subsection 014.03 of these rules does not apply to a limited electrical manufacturing or assembling equipment installer installing electrical wiring, equipment, and apparatus in modular buildings as that term is defined in Section 39-4105, Idaho Code. Only journeyman electricians and electrical apprentices, employed by an electrical contractor, may perform such installations. (4-11-19)

04. Limited Energy Electrical. (4-11-19)

a. Limited energy systems are defined as fire and security alarm systems, class 2 and class 3 signaling circuits, key card operators, nurse call systems, motor and electrical apparatus controls and other limited energy applications covered by the NEC. (7-1-99)

b. Limited energy systems do not include, and no license of any type is required for, the installation of landscape sprinkler controls or communication circuits, wires and apparatus that include telephone systems, telegraph facilities, outside wiring for fire and security alarm systems which are used for communication purposes, and central station systems of a similar nature, PBX systems, audio-visual and sound systems, public address and intercom systems, data communication systems, radio and television systems, antenna systems and other similar systems. (7-1-99)

c. Unless exempted by Section 54-1016, Idaho Code, any person who installs, maintains, replaces or repairs electrical wiring and equipment for limited energy systems in facilities other than one (1) or two (2) family dwellings shall be required to have a valid limited energy limited electrical license and must be employed by a licensed limited energy limited electrical contractor or electrical contractor. The holder of such limited license may only countersign a limited electrical contractor's application as a supervising limited electrical installer for work within this category. (4-11-19)

05. Irrigation Sprinkler Electrical. Any person qualifying for and having in his possession, an irrigation system electrical license may install, maintain, repair and replace equipment, controls and wiring beyond the disconnect switch supplying power to the electric irrigation machine. The irrigation machine is considered to include the hardware, motors and controls of the irrigation machine and underground conductors connecting the control centers on the irrigation machine to the load side of the disconnecting device. Disconnect device to be installed by others. All such installations performed by individuals under this subsection shall be done in accordance with the applicable provisions of the National Electrical Code. He shall be employed by a licensed limited electrical contractor whose license is contingent upon the granting of a limited electrical license to an employee, and his installations shall be limited to this category. The holder of such limited license may not countersign a limited electrical contractor's license application as supervising limited electrical installer except for work within this category. (4-11-19)

06. Well Driller and Water Pump Installer. All installations performed by individuals under this subsection shall be done in accordance with the applicable provisions of the approved National Electrical Code. A license holder in this category shall be employed by a licensed well driller and water pump installer limited electrical contractor or electrical contractor, and his installations shall be limited to this category. The holder of such limited license may only countersign a limited electrical contractor's license application as supervising limited electrical installer for work within this category. Any person currently licensed in this category may perform the following types of installations: (4-11-19)

a. Single or three (3) phase water pumps: install, maintain, repair and replace all electrical equipment, wires, and accessories from the pump motor up to the load side, including fuses, of the disconnecting device. Disconnecting device to be installed by others. (4-6-05)

b. Domestic water pumps, one hundred twenty/two hundred forty (120/240) volt, single phase, sixty (60) amps or less: Install, maintain, repair and replace all electrical equipment, wires, and accessories from the pump motor up to and including the disconnecting device. (7-1-98)

c. Temporarily connect into a power source to test the installations, provided that all test wiring is removed before the installer leaves the site. (1-14-87)

d. Individual residential wastewater pumping units. Install, maintain, repair and replace all electrical equipment, wires, and accessories from the pump motor up to and including the disconnecting device for systems that serve one-family, two-family, or three-family residential installations. (4-11-06)

07. Refrigeration, Heating, and Air-Conditioning Electrical Installer. All installation, maintenance, and repair performed by individuals under this subsection shall be done in accordance with applicable provisions of the National Electrical Code. A license holder in this category shall be employed by a licensed limited electrical contractor whose license shall be covered by this category or electrical contractor, and his installations shall

be limited to this category. The holder of such limited license may only countersign a limited electrical contractor's license application as a supervising limited electrical installer for work in this category. Any person currently licensed in this category may perform the following types of installations, which installations shall be limited to factory-assembled, packaged units: (4-11-19)

a. Heating Units (single phase): install, repair, and maintain all electrical equipment, wires, and accessories from the unit up to the load side, including fuses, of the disconnecting device. Disconnecting device to be installed by others. (9-17-85)

b. Refrigeration, Air-Conditioning Equipment and Heat Pumps (single phase): install, repair, and maintain all electrical equipment, wires, and accessories from the unit up to the load side, including fuses, of the disconnecting device. Disconnecting device to be installed by others. (9-17-85)

c. Refrigeration, Air-Conditioning and Heating Systems (three (3) phase): install, maintain, and repair all electrical equipment and accessories up to the load side, including fuses, of the disconnecting device. Disconnecting device to be installed by others. (9-17-85)

08. Outside Wireman. All installation, maintenance, and repair not exempt under the provisions of Section 54-1016, Idaho Code, performed by individuals under this subsection shall be done in accordance with the applicable provisions of the National Electrical Code. A license holder in this category shall be employed by a licensed limited electrical contractor whose license shall be covered by this category or electrical contractor, and his installations shall be limited to this category. The holder of such limited electrical license may only countersign a limited electrical contractor's license application as a supervising limited electrical installer for work in this category. Applicants for this license category shall provide documentation of having completed an electrical lineman apprenticeship program or similar program approved by the U.S. Department of Labor, Office of Apprenticeship. Any person currently licensed in this category may perform the following types of installations: (4-11-19)

a. Overhead distribution and transmission lines in excess of six hundred (600) volts. (4-7-11)

b. Underground distribution and transmission lines in excess of six hundred (600) volts. (4-7-11)

c. Substation and switchyard construction in excess of six hundred (600) volts. (4-7-11)

09. Solar Photovoltaic. All installation, maintenance, and repair not exempt under the provisions of Section 54-1016, Idaho Code, performed by individuals under this Subsection shall be done in accordance with the applicable provisions of the National Electrical Code. A license holder in this category shall be employed by a licensed limited electrical contractor whose license shall be covered by this category or electrical contractor, and his installations shall be limited to this category. The holder of such limited electrical license may only countersign a limited electrical contractor's application as a supervising limited electrical installer for work in this category. Applicants for this license category shall provide proof of photovoltaic installer certification by the North American Board of Certified Energy Practitioners (NABCEP) or equivalent. Any person licensed in this category may perform the following types of installations: (4-11-19)

a. Solar Photovoltaic DC Systems: Install, maintain, repair, and replace all electrical equipment, wires, and accessories up to and including the inverter. (3-29-12)

b. Solar Photovoltaic micro-inverter/AC Systems: Install, maintain, repair, and replace all electrical equipment, wires, and accessories up to and including the AC combiner box. (3-29-12)

015. APPLICATIONS FOR LIMITED ELECTRICAL INSTALLER LICENSE.

An application for a limited electrical installer license may be obtained from the Division of Building Safety. The forms shall be returned with the application fee, as provided by Section 54-1014, Idaho Code, with proof of the required two (2) years of experience in the field of limited electrical category, and the application shall be signed and notarized. Upon receiving a passing grade, the applicant may remit the license fee for issuance of the license. (4-11-19)

016. LICENSURE PERIOD AND FEES.

All original limited electrical licenses and registrations shall be issued by the Division immediately upon receipt of the licensure fee and other necessary documentation from the applicant which date shall be designated as the original license anniversary date and signify the commencement of the licensing period. All specialty license and registration renewals shall be effective in the year renewed as of the original license anniversary date. All license and registration periods shall end at midnight on the last day of the final month of the licensing or registration period. Limited electrical licenses and registrations not renewed by this date shall have expired. Any expired license revived within the twelve-month period following the expiration date will continue to have the original license anniversary date for the purposes of subsequent renewal. The license fee and renewal fee for each type of limited electrical license shall be as provided for by Section 54-1014, Idaho Code, for other journeyman licenses. (4-11-19)

017. LIMITED ELECTRICAL CONTRACTOR LICENSE.

01. Qualifications for Specialty Electrical Contractor. Except as herein provided, any person, partnership, company, firm, association, or corporation shall be eligible to apply for a limited electrical contractor license upon the condition that such applicant will be responsible for supervision of electrical installations made by said company, firm, association, or corporation as provided by Section 54-1010, Idaho Code. The supervising limited electrical installer shall be available during working hours to carry out the duties of supervising limited electrical installer, as set forth herein. In addition, the applicant shall meet or have at least one (1) full-time employee who meets one (1) of the following criteria: (4-11-19)

a. Holds a valid limited electrical installer license issued by the Division of Building Safety, in the same category as the limited electrical contractor, and has held a valid limited electrical installer license for a period of not less than two (2) years, during which time he was employed as a limited electrical installer for a minimum of four thousand (4,000) hours; (4-11-19)

b. Holds a valid limited electrical installer license issued by the Division of Building Safety, in the same category as the limited electrical contractor, and has at least four (4) years of experience in the limited electrical category with a minimum of two (2) years practical experience in planning, laying out, and supervising electrical installations in the category. (4-11-19)

02. Modification to Qualifications. Applicants for limited electrical contractor licenses, or individuals countersigning such applications, shall be subject to the same requirements, restrictions, and fees applicable to other electrical contractors and countersigning master, as set forth in the current electrical statutes and rules with the exception that an electrical contractor requires a master electrician to countersign as a supervising master whereas a supervising limited electrical installer for a limited electrical contractor must meet the requirements of Subsection 017.01 of these rules. (4-11-19)
