010. LICENSURE HISTORY.

An applicant for any plumbing registration or certificate of competency who has been previously licensed as a journeyman or master plumber in any recognized jurisdiction is required upon application to the Division of Building Safety to disclose such licensure history and provide sufficient proof thereof. An applicant for any plumbing registration or certificate of competency who has been previously licensed as a journeyman or master plumber in any recognized jurisdiction will not be issued a plumbing apprentice registration. (3-29-12)

011. APPRENTICE REGISTRATION.

A person wishing to become a plumbing apprentice must register with the Division of Building Safety prior to going to work. All apprentices must pay the registration fee as prescribed by Section 54-2614, Idaho Code. The minimum age for any apprentice must be sixteen (16) years. No examination is required for such registration. In order to maintain registration, the apprentice must renew his registration in accordance with Sections 54-2614 and 54-2614A, Idaho Code. (3-29-12)

01. Work Requirements. A plumbing apprentice must work at the trade under the constant on-the-job supervision of a journeyman and in the employ of a contractor for a total of four (4) years, defined as a minimum of eight thousand (8,000) hours work experience in order to be eligible for a journeyman certificate of competency. (3-29-12)

02. Schooling Requirements. A plumbing apprentice must complete an Idaho Plumbing Board approved related course of instruction for four (4) years in order to be eligible for a journeyman certificate of competency. Unless prior approval has been granted by the Division of Building Safety, the apprentice must complete the required course work sequentially: year one (1) must be completed prior to beginning year two (2); year two (2) must be completed prior to beginning year three (3); and year three (3) must be completed prior to beginning year four (4). A minimum of one hundred forty-four (144) hours of classroom or other Idaho Plumbing Board-approved instruction time per school year is required. A grade average of seventy percent (70%) must be attained in these courses. Upon completion of apprenticeship schooling, the apprentice must obtain a certificate of completion, or a letter signed by the chairman of his apprenticeship committee, and attach the certificate or letter to his application for a journeyman license. (3-29-12)

03. Journeyman Examination. (3-29-12)

a. Any plumbing apprentice who desires to take the written portion of the journeyman examination

must complete an Idaho Plumbing Board approved related course of instruction for four (4) years as described in Subsection 011.02 of these rules prior to the date of the exam and provide a certificate of completion with the application for examination. There is no minimum work requirement in order to be eligible to take the written portion of the plumbing journeyman examination. (4-11-15)

b. Successful completion of the journeyman written examination does not eliminate the requirement to complete four (4) years of work experience, defined as eight thousand (8,000) hours, under the constant on-the-job supervision of a journeyman plumber or the practical portion of the examination in order to be issued a journeyman certificate of competency. Successful completion of the written plumbing journeyman examination notwithstanding, no journeyman certificate of competency will be issued until an apprentice successfully completes the practical portion for the examination and furnishes to the Division proof of satisfaction of the work requirements contained in Subsection 011.01 of these rules. Satisfaction of the work requirements contained in Subsection 011.01 of these rules is required before any individual is eligible to take the practical portion of the journeyman examination. The examination fee is as prescribed by Section 54-2614, Idaho Code, and must accompany the application. (4-11-15)

02. Examination. The journeyman examination grade is based on answers to written questions and practical work performed on plumbing installations as determined by the Division after successful completion of the written examination. Time allowed for the written examination is four (4) hours. A passing grade is required on the written examination. The practical portion of the exam may be performed on a job in-progress or in a laboratory setting and must consist of work performed in either a residential or commercial application.
