012. SAFETY FITNESS PROCEDURES.

01. Purpose and Scope. (7-1-21)T

- a.** This section establishes procedures to determine the safety fitness of motor carriers, assign safety ratings, take remedial action when required and prohibit motor carriers receiving a safety rating of “unsatisfactory” from operating a commercial motor vehicle: (7-1-21)T
- i.** To provide transportation of hazardous materials for which vehicle placarding is required in accordance with 49 CFR Part 172, subpart F; or (7-1-21)T
 - ii.** To transport more than fifteen (15) passengers, including the driver. (7-1-21)T
- b.** All provisions of Section 012 apply to all motor carriers subject to the requirement of this subchapter. (7-1-21)T
- 02. Definitions.** The following definitions apply to Section 012. (7-1-21)T
- a.** Applicable safety regulations or requirements. Means 49 CFR subtitle, chapter III. subchapter B- Federal Motor Carrier Safety Regulations; and 49 CFR subtitle B, chapter I. subchapter C- Hazardous Materials Regulations. Amendments to the annual volumes are published in the Federal Register, pending their incorporation in the next annual volumes. Whenever a federal regulation is adopted by reference in these rules, subsequent recompletions are also adopted by reference, but subsequent amendments are not. (7-1-21)T
- b.** Preventable accident on the part of a motor carrier. Means an accident that: (7-1-21)T
- i.** Involved a commercial motor vehicle, and (7-1-21)T
 - ii.** Could have been averted but for an act, or failure to act, by the motor carrier or the driver. (7-1-21)T

- i.** Compliance review. An onsite examination of motor carrier operations, which may be at the carrier’s place of business, including driver’s hours of service, vehicle maintenance and inspection, driver qualifications, commercial driver’s license requirements, financial responsibility, accidents, hazardous materials, and such other related safety and transportation records to determine safety fitness. (7-1-21)T
- (1) A compliance review may be conducted in response to a request to change a safety rating, to investigate potential violations of safety regulations by motor carriers, or to investigate complaints or other evidence of safety violations. (7-1-21)T
 - (2) A compliance review may result in the initiation of an enforcement action. (7-1-21)T
- ii.** Safety management controls. The systems, policies programs, practices, and procedures used by a motor carrier to ensure compliance with applicable safety and hazardous materials regulations which ensure the safe movement of products and passengers through the transportation system, and to reduce the risk of highway accidents and hazardous materials incidents resulting in fatalities, injuries, and property damage. (7-1-21)T
- d.** Safety ratings: (7-1-21)T
- i.** Satisfactory safety rating. A motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed in Subsection 012.03 of this rule. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor carrier. (7-1-21)T
 - ii.** Conditional safety rating. A motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard that could result in occurrences listed in Subsection 012.03 of this rule. (7-1-21)T
 - iii.** Unsatisfactory safety rating. A motor carrier does not have adequate safety management controls in

place to ensure compliance with the safety fitness standard which has resulted in occurrences listed in Subsection 012.03 of this rule. (7-1-21)T

- iv. Unrated carrier. A safety rating has not been assigned to the motor carrier. (7-1-21)T

03. Safety Fitness Standard. The satisfactory safety rating is based on the degree of compliance with the safety fitness standard for motor carriers. To meet the safety fitness standard, the motor carrier must demonstrate that it has adequate safety management controls in place, which function effectively to ensure acceptable compliance with applicable safety requirements to reduce the risk associated with: (7-1-21)T

- a. Commercial driver's license standards violations. (7-1-21)T
- b. Inadequate levels of financial responsibility. (7-1-21)T
- c. The use of unqualified drivers. (7-1-21)T
- d. Improper use and driving of motor vehicles. (7-1-21)T
- e. Unsafe vehicles operating on the highways. (7-1-21)T
- f. Failure to maintain accident register and copies of accident reports. (7-1-21)T
- g. The use of fatigued drivers. (7-1-21)T
- h. Inadequate inspection, repair, and maintenance of vehicles. (7-1-21)T
- i. Transportation of hazardous materials, driving and parking rule violations. (7-1-21)T
- j. Violation of hazardous materials regulations. (7-1-21)T
- k. Motor vehicle accidents and hazardous materials incidents. (7-1-21)T

04. Factors to Be Considered in Determining a Safety Rating. The factors to be considered in determining the safety fitness and assigning a safety rating include information from safety reviews, compliance reviews and any other data. The factors may include all or some of the following: (7-1-21)T

- a. Adequacy of safety management controls. The adequacy of controls may be questioned if their degree of formalization or automation is found to be substantially below the norm for similar carriers. Violations, accidents or incidents substantially above the norm for similar carriers will be strong evidence that management controls are either inadequate or not functioning properly. (7-1-21)T
- b. Frequency and severity of regulatory violations. (7-1-21)T
- c. Frequency and severity of driver/vehicle regulatory violations identified in roadside inspections. (7-1-21)T
- d. Number and frequency of out-of-service driver/vehicle violations. (7-1-21)T
- e. Increase or decrease in similar types of regulatory violations discovered during safety or compliance reviews. (7-1-21)T
- f. Frequency of accidents; hazardous materials incidents; accident rate per million miles; preventable accident rate per million miles; and other accident indicators; and whether these accident and incident indicators have improved or deteriorated over time. (7-1-21)T
- g. The number and severity of violations of state safety rules, regulations, standards, and orders applicable to commercial motor vehicles and motor carrier safety that are compatible with Federal rules, regulations,

standards and orders. (7-1-21)T

05. Determination of Safety Fitness. Following a compliance review of a motor carrier operation, the Idaho State Police Commercial Vehicle Safety Program Manager, using the factors prescribed in Subsection 012.04 of this rule, will determine whether the present operations of the motor carrier are consistent with the safety fitness standards set forth in Subsection 012.03 of this rule. (7-1-21)T

06. Notification of a Safety Fitness Rating. Following a compliance review, the Idaho State Police Commercial Vehicle Safety Program Manager will determine the safety fitness of a motor carrier and notify the motor carrier and the Department in writing. Notification will include a list of those items for which immediate corrective actions must be taken. (7-1-21)T

07. Motor Carrier Certification. Upon notification of violations cited in the compliance review and recommendations made to correct violations a motor carrier must certify to the Idaho State Police Commercial Vehicle Safety Program Manager, within thirty (30) days, whether all corrective actions identified by the safety review have been taken. Failure to certify or falsely certifying under Section 012 of this Chapter will be considered a reporting violation under Section 67-2901B(3), Idaho Code. (7-1-21)T
