The contractor will use a screening instrument approved by the Department as a valid and reliable indicator of possible substance abuse. The contractor must have adequate training in the recognition of substance abuse, use of the screening instrument, and interpretation of results. When found necessary by the contractor, the assessment process will include substance abuse testing. The contractor will interpret the results.

(7-1-21)T

119. REFERRAL FOR SUBSTANCE ABUSE ASSESSMENT.

The Department will refer the participant for assessment when screening results indicate a reasonable suspicion the participant is engaged in, or at high risk of, substance abuse. A Department approved substance abuse contractor will conduct the assessment.

(7-1-21)T

120. SUBSTANCE ABUSE TESTING.

Idaho law requires substance abuse testing of any TAFI applicant or recipient, if the Department has a reasonable suspicion they are engaged in, or at high risk of, substance abuse. Testing will be conducted if screening and assessment give a reasonable suspicion the participant is engaged in substance abuse. TAFI participants must comply with substance abuse testing as a condition of eligibility.

(7-1-21)T

121. CONSENT AND ACKNOWLEDGMENT REQUIRED BEFORE SUBSTANCE ABUSE TESTING.

Before taking a substance abuse test, the participant must sign a consent for testing. The participant will be asked, but not required, to advise the person administering the test of the use of any over-the-counter or prescription drugs. This information will be considered in the results of the drug test. The participant must acknowledge, in writing, they received and understands the notice elements listed this Section and Section 111 of these rules.

(7-1-21)T

122. ADMINISTRATION OF SUBSTANCE ABUSE TEST.

A Department approved contractor will administer the substance abuse test. The contractor must have training, through a licensed laboratory, in correct procedures for specimen collection and chain of custody. Specimen collection will be documented including labeling containers to prevent erroneous drug test results. The contractor must perform specimen collection, storage, and transportation to the laboratory site in a manner preventing specimen contamination or adulteration. A licensed laboratory will evaluate specimens. The laboratory will analyze specimens for controlled substances and alcohol.

(7-1-21)T

01. Specimen Collection Procedures. The contractor must collect the specimen for substance abuse testing with due regard for the privacy of the participant providing the specimen and in a manner preventing substitution or contamination of the specimen.

(7-1-21)T

02. Test Results. The Department will evaluate the results of the substance abuse test, before notifying the participant of them. The Department will evaluate all positive test results to verify the specimen was collected, transported, and analyzed under proper procedures. The Department will determine if other circumstances caused the positive test result. The Department will review and confirm medical information provided by the applicant. After this evaluation is complete, the Department will notify the participant of the test results. If the test result is positive, the Department will inform the participant of available substance abuse treatment programs, and of the requirement for treatment to be TAFI eligible.

(7-1-21)T

03. Request for New Test. Within ten (10) calendar days of notice of a positive test result, the participant can request a new test. The participant must notify the Department in writing of the intent to challenge the test results. For those participants approved for TAFI, benefits will continue during the re-test process.

(7-1-21)T

123. TAFI APPROVAL BEFORE SUBSTANCE ABUSE SCREENING AND TESTING RESULTS KNOWN.

Applicants may be approved for TAFI, if otherwise eligible, when they agree to substance abuse screening. They must complete the screening instrument and if required, participate in a substance abuse assessment. This includes providing a specimen for testing, if needed as part of the assessment process. The applicant should complete these steps within fifteen (15) calendar days of approval. If the process takes longer than fifteen (15) calendar days, through no fault of the applicant, TAFI may be approved if the participant is cooperative in satisfying their substance abuse screening requirements. (7-1-21)T

124. SUBSTANCE ABUSE TREATMENT.

If substance abuse screening, assessment or testing shows the participant needs substance abuse treatment, the Department will require the participant to enter a substance abuse treatment program and cooperate with treatment. Treatment will be provided at no cost to TAFI participants. Treatment will be community based and gender specific. The Department will provide for the participant's transportation and child care needs if necessary. (7-1-21)T
