Repeat violations are those observed during the last inspection. The inspection report will also score the total number of good retail practice

violations and the number of repeat good retail practice violations. These scores will be used to determine if a follow-up inspection or a written report of correction is needed to verify corrections have been made. (7-1-21)T

01. Medium-Risk Food Establishment. If the risk factor violations exceed three (3), or good retail practice violations exceed eight (8), an on-site follow-up inspection is required for verification of correction by the regulatory authority. (7-1-21)T

02. Risk Control Plan. The regulatory authority may require the development of a risk control plan as verification of correction. The risk control plan must provide documentation on how the license holder will obtain long term correction of critical violations that are repeated violations, including how control will be monitored and who will be responsible. (7-1-21)T

846. -- 849. (RESERVED)

850. ENFORCEMENT INSPECTIONS.

(7-1-21)T

04. Regulatory Action. If the violations have not been corrected by the date of the enforcement inspection, regulatory action will be initiated to revoke the license issued to the food establishment. (7-1-21)T

851. ENFORCEMENT PROCEDURES FOR ADULTERATED OR MISBRANDED FOOD.

The regulatory authority may order the license holder or other person who has custody of adulterated or misbranded food to destroy, denature or recondition adulterated or misbranded food according to Section 37-118, Idaho Code. The following procedures apply: (7-1-21)T
