The Department will prepare an annual trigger analysis and publish the report on its Medicaid Providers webpage, <http://healthandwelfare.idaho.gov/Providers/MedicaidProviders/tabid/214/Default.aspx>. This annual report will describe the triggers for interim rate review, a summary of the data reviewed for each trigger, and the Department's determination and rationale of whether each trigger was met. The Department will conduct an interim rate review upon the occurrence of one (1) or more of the following triggers: (3-17-22)

i. When substantiated participant complaints, critical incidents, or both, related to a lack of qualified providers indicate an emerging access issue; (3-17-22)

ii. When quality reports prepared by the Department or substantiated participant complaints and critical incidents related to the quality of services provided indicate an emerging quality issue; or (3-17-22)

The Department will retain final decision-making authority over all matters presented to or reviewed by the workgroups. (3-17-22)

ii. The Department will provide reasonable prior notice of pending cost surveys to impacted providers. (3-17-22)

iii. The Department or its cost survey consultants will train providers how to complete the cost survey, and provide technical assistance to providers during the cost survey response period. (3-17-22)

04. Reimbursement Rate Setting Methodology. Reimbursement rates will be derived using a combination of four (4) cost components - direct care staff wages or targeted service coordinator wages, employee-related expenses, program-related expenses, and general and administrative expenses. Each provider must demonstrate that the average percent of wage and benefits paid to their direct care staff (or targeted service coordinators) meets or exceeds the percent of wages and employee-related expenses utilized in establishing the reimbursement rate for the service type. The Department will utilize the reimbursement advisory workgroup established in this rule to collaboratively develop monitoring and enforcement procedures for this minimum allocation requirement. The cost components and new reimbursement rate are established in accordance with the following: (3-17-22)

a. Direct Care Staff Wages and Targeted Service Coordinator Wages. (3-17-22)

i. Direct care staff and targeted service coordinator wages are wages paid to individuals employed or contracted by an agency who perform duties described in the applicable service coverage description for at least seventy-five percent (75%) of the total annual amount of time they are compensated. (3-17-22)

ii. The wage component (Wage) used to establish the new reimbursement rate is set using the mean hourly wage of one (1) or more occupation profiles from the most current Bureau of Labor and Statistics (BLS) State Occupational Employment and Wage Estimates table for the state of Idaho found on the BLS website at www.bls.gov. The BLS occupation profile that most closely aligns with the duties, education level, and supervision requirements of the direct care staff (or targeted service coordinator) providing the service is utilized. If more than one (1) occupation profile aligns with the duties, education level, and supervision requirements of the direct care staff (or the targeted service coordinator) providing the service, then a weighted average of the mean hourly wage of multiple BLS occupation profiles is utilized. (3-17-22)

iii. When there is no comparable occupation profile or profiles for the direct care staff (or targeted service coordinator), then the wage component used to establish the new reimbursement rate is set using the weighted average hourly rate (WAHR) of the surveyed wages included in the final cost survey results. (3-17-22)

iv. The Department will make the final determination of BLS occupation profile or profiles after consideration of advice from the relevant Reimbursement Advisory Workgroup. (3-17-22)

v. The Department will evaluate an appropriate wage inflation factor based on the economic data available at the time the reimbursement rate is set. (3-17-22)

b. Employee-Related Expenses (ERE). (3-17-22)

i. ERE are the expenses incurred by the provider agency for the benefit of the direct care staff (or targeted service coordinators) of an agency in the following six (6) categories: (1) paid leave, (2) supplemental pay, (3) payroll taxes, (4) workers' compensation, (5) insurance coverage, and (6) retirement contributions. (3-17-22)

ii. The ERE component percentage (ERE%) used to establish the new reimbursement rate is set using the cumulative percentage of employer costs for employee compensation from the most current BLS Employer Costs

for Employee Compensation table for the West Region in the Mountain Division and IRS Publication 15. (3-17-22)

c. Program-Related Expenses (PRE). (3-17-22)

i. PRE are wages and other expenses that support the objectives and provision of the service but cannot be tied to any particular person receiving the service. Requirements related to the delivery of services in accordance with statute and rule are PRE. (3-17-22)

ii. Program-related staff are individuals employed by an agency who perform program-related duties as required by statute or rule for at least seventy-five percent (75%) of the total annual amount of time they are compensated. (3-17-22)

iii. Utilizing data in the final cost survey results, each agency's PRE component percentage (PRE%) is calculated by dividing the agency's total PRE by the agency's total wages. Each agency's PRE% is ranked, and the PRE% used to calculate the new reimbursement rate is set at the mean of the agency PRE%. (3-17-22)

d. General and Administrative (G&A) Expenses. (3-17-22)

i. G&A expenses are wages and other expenses related to day-to-day operations common across all businesses. (3-17-22)

ii. G&A staff are individuals employed by an agency who perform administrative duties for at least seventy-five percent (75%) of the total annual amount of time they are compensated. (3-17-22)

iii. Utilizing data in the final cost survey results, each agency's G&A component percentage (G&A%) is calculated by dividing the agency's total G&A expenses by the sum of the agency's total wages, plus the total ERE, plus the total PRE, plus the total G&A expenses. Each agency's G&A% is ranked, and the G&A% used to calculate the new reimbursement rate is set at the mean of the agency G&A%. (3-17-22)

iv. The G&A% used to calculate the new reimbursement rate will not exceed ten percent (10%) of the total reimbursement rate per staff hour. (3-17-22)

e. Total Reimbursement Rate Per Staff Hour of Service = ((Wage + (ERE% x Wage) + (PRE% x Wage)) / (1 - (G&A%)). (3-17-22)

f. The Department is not obligated to make budget requests based on the total reimbursement rate per staff hour. The Department will take into consideration the factors of efficiency, economy, quality of care, and access to care when determining rates. Reimbursement rates may be set at a percentage of the total reimbursement rate per staff hour. All reimbursement rate increases are subject to approval by the Idaho State Legislature. (3-17-22)

05. Quality Performance Incentives. (3-17-22)

a. Based on the quality of services provided to its Medicaid participants, a provider may become eligible to receive incentive payments. (3-17-22)

b. Quality measures and associated payment percentages will be established by the Department, in collaboration with the Idaho Council on Developmental Disabilities and Disability Rights Idaho (or such other organization designated by the Governor as the state's protection and advocacy system), and will be described in the Idaho Medicaid Provider Handbook available at www.idmedicaid.com. The Department will provide sixty (60) days prior notice of any substantive changes to the quality measures and associated payment percentages described in its provider handbook. (3-17-22)

c. Incentive payments will be subject to the availability of State and federal funds, and may be rescinded if the quality of services declines. (3-17-22)

039. ACCOUNTING TREATMENT.

Generally accepted accounting principles, concepts, and definitions will be used except as otherwise specified.

Where alternative treatments are available under GAAP, the acceptable treatment will be the one that most clearly attains program objectives. (3-17-22)

01. Final Payment. A final settlement will be made based on the reasonable cost of services as determined by audit, limited in accordance with other sections of this chapter. (3-17-22)

02. Overpayments. As a matter of policy, recovery of overpayments will be attempted as quickly as possible consistent with the financial integrity of the provider. (3-17-22)

03. Other Actions. Generally, overpayment will result in two (2) circumstances: (3-17-22)

a. If the cost report is not filed, the sum of the following will be due: (3-17-22)

i. All payments included in the period covered by the missing report(s). (3-17-22)

ii. All subsequent payments. (3-17-22)

b. Excessive reimbursement or non-covered services may precipitate immediate audit and settlement for the period(s) in question. Where such a determination is made, it may be necessary that the interim reimbursement rate (IRR) will be reduced. This reduction will be designated to effect at least one (1) of the following: (3-17-22)

i. Discontinuance of overpayments (on an interim basis). (3-17-22)

ii. Recovery of overpayments. (3-17-22)

040. PROVIDER'S RESPONSIBILITY TO MAINTAIN RECORDS.

SUB AREA: LONG-TERM CARE
(Sections 220-330)

220. NURSING FACILITY.

The Enhanced Plan Benefit includes nursing facilities services permitted under Section 1905(a)(4)(A) of the Social Security Act. These services include nursing facilities services (other than services in an institution for mental diseases) for individuals determined to be in need of such care. (3-17-22)

221. (RESERVED)

222. NURSING FACILITY SERVICES: ELIGIBILITY.

Entitlement to medical assistance participation in the cost of long-term care exists when the individual is eligible for medical assistance and the Department has determined that the individual meets the criteria for nursing facility services. Entitlement will be determined prior to authorization of payment for such care for an individual who is either a participant of or an applicant for medical assistance. (3-17-22)

01. Criteria for Determination. The criteria for determining a medical assistance participant's need

for nursing facility care is described in Section 223. In addition, the Inspection of Care/Utilization Control (IOC/UC) nurse must determine whether a medical assistance participant's needs could be met by alternatives other than residing in a nursing facility, such as an independent living arrangement or residing in a room and board situation.

(3-17-22)

a. The participant can select any certified facility to provide the care required. (3-17-22)

b. The final decision as to the level of care required by a medical assistance participant must be made by the IOC/UC Nurse. (3-17-22)

c. The final decision as to the need for developmental disability (DD) or mental illness (MI) active treatment will be made by the appropriate Department staff as a result of the Level II screening process. (3-17-22)

d. No payment will be made by the Department on behalf of any eligible medical assistance participant to any long-term care facility that, in the judgment of the IOC/UC Team, is admitting individuals for care or services that are beyond the facility's licensed level of care or capability. (3-17-22)

02. Authorization of Long-Term Care Payment. If it has been determined that a person eligible for medical assistance is entitled to medical assistance participation in the cost of long-term care, and that the facility selected by the participant is licensed and certified to provide the level of care the participant requires, the Field Office will forward to such facility an "Authorization for Long-Term Care Payment" form HW 0459. (3-17-22)

223. NURSING FACILITY: CRITERIA FOR DETERMINING NEED.

The participant requires nursing facility level of care when an adult meets one (1) of the Resource Utilization Group (RUG III) classifications or when a child meets one (1) or more of the criteria described in Subsections 223.02, 223.03, 223.04 or 223.05 of this rule. 03. Preventing Deterioration for Children. Skilled care is needed to prevent, to the extent possible, deterioration of the child's condition or to sustain current capacities, regardless of the restoration potential of a child, even where full recovery or medical improvement is not possible. (3-17-22)

04. Specific Needs for Children. When the plan of care, risk factors, and aggregate of health care needs is such that the assessments, interventions, or supervision of the child necessitates the skills of a licensed nurse or a licensed physical therapist or licensed occupational therapist. In such cases, the specific needs or activities must be documented by the physician's orders, progress notes, plan of care, and nursing and therapy notes. (3-17-22)

05. Nursing Facility Level of Care for Children. Using the criteria found in Subsections 223.02, 223.03, and 223.04 of these rules, plus consideration of the developmental milestones, based on the age of the child, the Department's BLTC will determine nursing facility level of care. (3-17-22)

06. Conditions of Payment. (3-17-22)

a. As a condition of payment by the Department for long-term care on behalf of medical assistance participants, each fully licensed long-term care facility is to be under the supervision of an administrator who is currently licensed under the laws of the state of Idaho and in accordance with the rules of the Bureau of Occupational Licenses. (3-17-22)

b. Payment by the Department for the cost of long-term care excludes the date of the participant's

discharge, unless the day of discharge occurs on the same day as admission; then, one (1) day of care is deemed to exist. When a Medicaid patient dies in a nursing home, the date of death is covered, regardless of the time of death. (3-17-22)

224. NURSING FACILITY: POST-ELIGIBILITY TREATMENT OF INCOME.

Where an individual is determined eligible for medical assistance participation in the cost of their long term care, the Department will reduce its payment to the long term care facility by the amount of their income considered available to meet the cost of their care. This determination is made in accordance with IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind, and Disabled (AABD)," Sections 721 through 726. The amount that the medical assistance participant receives from SSA as reimbursement for their payment of the premium for Part B of Title XVIII (Medicare) is not considered income for patient liability under IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind, and Disabled (AABD)," Section 317. (3-17-22)

225. NURSING FACILITY: COVERAGE AND LIMITATIONS.

An institution must provide, on a regular basis, health-related care and services to individuals; who because of their mental or physical condition require care and services above the level of room, board, and supervision. (3-17-22)

01. Nursing Facility Care. The minimum content of care and services for nursing facility patients must include the following: (3-17-22)

- a.** Room and board; (3-17-22)
- b.** Bed and bathroom linens; (3-17-22)
- c.** Nursing care, including special feeding if needed; (3-17-22)
- d.** Personal services; (3-17-22)
- e.** Supervision as required by the nature of the patient's illness and duration of their stay in the nursing facility; (3-17-22)
- f.** Special diets as prescribed by a patient's physician; (3-17-22)
- g.** All common medicine chest supplies that are over-the-counter including mouthwashes, analgesics, laxatives, emollients, burn ointments, first aid cream, protective creams and liquids, cough and cold preparations, and simple eye preparations; (3-17-22)
- h.** Dressings; (3-17-22)
- i.** Administration of intravenous, subcutaneous, or intramuscular injections and infusions, enemas, catheters, bladder irrigations, and oxygen; (3-17-22)
- j.** Application or administration of all drugs; (3-17-22)
- k.** All medical supplies including gauzes, bandages, tapes, compresses, cottons, sponges, hot water bags, ice bags, disposable syringes, thermometers, cellucotton, incontinent supplies, or any other type of pads used to save labor or linen, and disposable gloves; (3-17-22)
- l.** Social and recreational activities; and (3-17-22)
- m.** Each item that is utilized by individual patients and is reusable and expected to be available, such as bed rails, canes, crutches, walkers, wheel chairs, traction equipment, and other durable medical equipment. (3-17-22)

02. Skilled Services. Skilled services include services that could qualify as either skilled nursing or skilled rehabilitative services, that include: (3-17-22)

a. Overall management and evaluation of the care plan. The development, management, and evaluation of a resident's care plan, based on the physician's orders, constitute skilled services when, in terms of the patient's physical or mental condition, such development, management, and evaluation necessitate the involvement of technical or professional personnel to meet their needs, promote their recovery, and assure their medical safety. This would include the management of a plan involving only a variety of personal care services where, in light of the patient's condition, the aggregate of such services necessitates the involvement of technical or professional personnel. Where the patient's overall condition would support a finding that their recovery and safety could be assured only if the total care they require is planned, managed, and evaluated by technical or professional personnel, it would be appropriate to infer that skilled services are being provided. (3-17-22)

b. Observation and assessment of the resident's changing condition. When the resident's condition is such that the skills of a licensed nurse or other technical or professional person are required to identify and evaluate the patient's need for possible modification of treatment and the initiation of additional medical procedures until their condition is stabilized, such services constitute skilled services. (3-17-22)

03. Direct Skilled Nursing Services. Direct skilled nursing services include the following: (3-17-22)

a. Intravenous injections; intravenous feedings; intramuscular or subcutaneous injection required on more than one (1) shift; (3-17-22)

b. Nasopharyngeal feedings; (3-17-22)

c. Nasopharyngeal and tracheotomy aspiration; (3-17-22)

d. Insertion and sterile irrigation and replacement of catheters; (3-17-22)

e. Application of dressings involving prescription medications or aseptic techniques; (3-17-22)

f. Treatment of extensive decubitus ulcers or other widespread skin disorders; (3-17-22)

g. Heat treatments that have been specifically ordered by a physician as part of treatment and that require observation by nurses to adequately evaluate the resident's progress; and (3-17-22)

h. Initial phases of a regimen involving administration of oxygen. (3-17-22)

04. Direct Skilled Rehabilitative Services. Direct skilled rehabilitative services include the following: (3-17-22)

a. Ongoing assessment of rehabilitation needs and potential, services concurrent with the management of a resident's care plan, including tests and measurements of range of motion, strength, balance, coordination, endurance, functional ability, activities of daily living, perceptual deficits, speech and language or hearing disorders; (3-17-22)

b. Therapeutic exercises or activities that, because of the type of exercises employed or the condition of the resident, must be performed by or under the supervision of a qualified physical therapist or occupational therapist to ensure the safety of the resident and the effectiveness of the treatment; (3-17-22)

c. Gait evaluation and training furnished by a physical or occupational therapist to restore function in a resident whose ability to walk has been impaired by neurological, muscular, or skeletal abnormality; and (3-17-22)

d. Ultrasound, short-wave, and microwave therapy treatments by a licensed physical therapist. (3-17-22)

05. Other Treatment and Modalities. Other treatment and modalities that include hot pack, hydroculator, infrared treatments, paraffin baths, and whirlpool, in cases where the resident's condition is complicated by circulatory deficiency, areas of desensitization, open wounds, fractures, or other complications, and the skills, knowledge, and judgement of a licensed physical therapist are required. (3-17-22)

226. NURSING FACILITY: PROCEDURAL RESPONSIBILITIES.

01. Nursing Facility Responsibility. Each nursing facility administrator, or their authorized representative must report the following information to the appropriate BLTC within three (3) working days of the date the facility has knowledge of the following. (3-17-22)

- a.** Any readmission or discharge of a participant, and any temporary absence of a participant due to hospitalization or therapeutic home visit. (3-17-22)
- b.** Any changes in the amount of a participant's income. (3-17-22)
- c.** When a participant's account has exceeded the following amount; (3-17-22)
 - i.** For a single individual, one thousand eight hundred dollars (\$1,800);or (3-17-22)
 - ii.** For a married couple, two thousand eight hundred dollars (\$2,800). (3-17-22)

02. Other Financial Information for Participant. Other information about a participant's finances that may potentially affect eligibility for medical assistance must be reported if the nursing facility has any knowledge of the participant's financial information. (3-17-22)

227. PREADMISSION SCREENING AND RESIDENT REVIEW PROGRAM (PASRR).

All Medicaid certified nursing facilities must participate in, cooperate with, and meet all requirements imposed by, the Preadmission Screening and Resident Review program, (PASRR) as set forth in 42 CFR, Part 483, Subpart C. (3-17-22)

01. Background and Purpose. The purpose of these provisions is to comply with and implement the PASRR requirements imposed on the state by federal law. The purpose of those requirements is to prevent the placement of individuals with mental illness (MI) or intellectual disabilities (ID) in a nursing facility unless their medical needs clearly indicate that they require the level of care provided by a nursing facility. This is accomplished by both pre-admission screening (PAS) and resident review (RR). Individuals, for whom it appears that a diagnosis of MI or ID is likely, are identified for further screening by means of a Level I screen. The actual PASRR is accomplished through a Level II screen where it is determined whether, because of the individual's physical and mental condition, they require the level of services provided by a nursing facility. If the individual with MI or ID is determined to require a nursing facility level of care, it must also be determined whether the individual requires specialized services. PASRR applies to all individuals entering or residing in a nursing facility, regardless of payment source. (3-17-22)

02. Policy. It is the policy of the Department that the difficulty in providing specialized services in the nursing facility setting makes it generally inappropriate to place individuals needing specialized services in a nursing facility. This policy is supported by the background and development of the federal PASRR requirements, including the narrow definition of mental illness adopted by federal law. While recognizing that there are exceptions, it is envisioned that most individuals appropriate for nursing facility placement will not require services in excess of those required to be provided by nursing facilities by 42 CFR 483.45. (3-17-22)

03. Inter-Agency Agreement. The state Medicaid agency will enter into a written agreement with the state mental health and intellectual disabilities authorities as required in 42 CFR 431.621(c). This agreement will, among other things, set forth respective duties and delegation of responsibilities, and any supplemental criteria to be used in making determinations. (3-17-22)

a. The "State Mental Health Authority" (SMHA) in the Division of Behavioral Health of the Department, or its successor entity. (3-17-22)

b. The "State Intellectual Disabilities or Developmental Disabilities Authority" (SDDA) in the Division of Family and Community Services of the Department, or its successor entity. (3-17-22)

04. Coordination for PASRR. The PASRR process is a coordinated effort between the state Medicaid agency, the SMHA and SDDA, independent evaluators and the nursing facility. PASRR activities will be coordinated through the Bureau of Long Term Care (BLTC). BLTC is responsible for record retention and tracking functions. However, the nursing facility is responsible for assuring that all screens are obtained and for coordination with the BLTC, independent MI evaluators, the SMHA and SDDA, and their designees. (3-17-22)

a. All required Level I screens and reviews must be completed and submitted to the BLTC prior to admission to the facility. (3-17-22)

b. When a nursing facility identifies an individual with MI or ID through a Level I screen, or otherwise, the nursing facility is responsible for contacting the SMHA or SDDA (as appropriate), and assuring that a Level II screen is completed prior to admission to the facility, or in the case of an existing resident, completed in order to continue residing in the facility. (3-17-22)

c. Resident Reviews (RR). An individual identified with MI or ID must be reviewed and a new determination made promptly after a significant change in their physical or mental condition. The facility must notify the BLTC of any such change within two (2) working days of its occurrence. For the purpose of this section, significant change for the participant's mental condition means a change that may require the provision of specialized services or an increase in such services. A significant change in physical condition is a change that renders the participant incapable of responding to MI or D.D. program interventions. (3-17-22)

228. NURSING FACILITY: COORDINATION OF NURSING FACILITY ELIGIBILITY AND THE NEED FOR SPECIALIZED SERVICES.

Determinations as to the need for nursing facility care and determinations as to the need for specialized services should not be made independently. Such determinations will often be made on an individual basis, taking into account the condition of the resident and the capability of the facility to which admission is proposed to furnish the care needed. When an individual identified with MI and ID is admitted to a nursing facility, the nursing facility is responsible for meeting that individual's needs, except for the provision of specialized services. (3-17-22)

01. Level of Care. (3-17-22)

a. Individual determinations must be based on evaluations and data as required by these rules. (3-17-22)

b. Categorical determinations. Recognizing that individual determinations of level of care are not always necessary, those categories set forth as examples at 42 CFR 483.130(d) are hereby adopted as appropriate for categorical determinations. When nursing facility level of care is determined appropriate categorically, the individual may be conditionally admitted prior to completion of the determination for specialized services. However, conditional admissions cannot exceed seven (7) days, except for respite admissions which cannot exceed thirty (30) consecutive days in one (1) calendar year. (3-17-22)

02. Specialized Services. Specialized services for mental illness as defined in 42 CFR 483.120(a)(1), and for intellectual disabilities as defined in 42 CFR 483.120(a)(2), are those services provided by the state that due to the intensity and scope can only be delivered by personnel and programs that are not included in the specialized rehabilitation services required of nursing facilities under 42 CFR 483.45. The need for specialized services must be documented and included in both the resident assessment instrument and the plan of care. (3-17-22)

a. Individual determinations must be based on evaluations and data as required by these rules. (3-17-22)

b. Categorical determinations that specialized services are not needed may be made in those situations permitted by 42 CFR 483.130. (3-17-22)

03. Penalty for Non-Compliance. No payment will be made for any services rendered by a nursing facility prior to completion of the Level I screen and, if required, the Level II screen. Failure to comply with PASRR requirements for all individuals admitted or seeking admission may also subject a nursing facility to other penalties as part of certification action under 42 CFR 483.20. (3-17-22)

04. Appeals. Discharges, transfers, and preadmission PASRR determinations may be appealed to the extent required by 42 CFR, Part 483, Subpart E, and under Section 67-5229, Idaho Code. Appeals under this paragraph are made in accordance with the fair hearing provisions in IDAPA 16.05.03, "Contested Case Proceedings and Declaratory Rulings."
(3-17-22)

a. A Level I finding of MI or ID is not an appealable determination. It may be disputed as part of a Level II determination appeal.
(3-17-22)

b. In the event that the PASRR program is eliminated or made non-mandatory by an act of Congress, the provisions of Section 227 of these rules will cease to be operative on the effective date of any such act, without further action.
(3-17-22)

229. NURSING FACILITY: PREPAYMENT SCREEN AND DETERMINATION OF ENTITLEMENT TO MEDICAID PAYMENT FOR NURSING FACILITY CARE AND SERVICES.

The level of care for Title XIX and Title XXI payment purposes is determined by the Department. Necessity for payment is determined in accordance with 42 CFR 483 Subpart C and Section 1919(e) (7) of the Social Security Act. In the event a required Level II screen was not accomplished prior to admission, entitlement for Medicaid payment as established by the BLTC will not be earlier than the date the Level II screen is completed, indicating that nursing facility placement is appropriate.
(3-17-22)

01. Information Required for Medical Evaluation Determination. A current Minimum Data Set (MDS) assessment will be provided to the Department. Additional supporting information may be requested.
(3-17-22)

02. Information Required for Level I and II Screen Determination. An accurate Level I screen and when required, a Level II screen.
(3-17-22)

230. NURSING FACILITY: PROVIDER QUALIFICATIONS AND DUTIES.

01. Provider Application and Certification. A facility must apply to participate as a nursing facility.
(3-17-22)

02. Licensure and Certification.
(3-17-22)

a. Upon receipt of an application from a facility, the Licensing and Certification Agency determines the facility's compliance with certification standards for the type of care the facility proposes to provide to medical assistance participants.
(3-17-22)

b. If a facility proposes to participate as a skilled nursing facility, Medicare (Title XVIII) certification and program participation is required before the facility can be certified for Medicaid. The Licensing and Certification Agency will determine the facility's compliance with Medicare requirements and recommend certification to the Medicare Agency.
(3-17-22)

c. If the Licensing and Certification Agency determines that a facility meets Title XIX certification standards for nursing facility care. The Department will certify to the appropriate branch of government that the facility meets the standards for nursing facility level of care.
(3-17-22)

d. Upon receipt of the certification from the Licensing and Certification Agency, the Department may enter into a provider agreement with the long-term care facility.
(3-17-22)

e. After the provider agreement has been executed by the Facility Administrator and by the Department, one (1) copy will be sent by certified mail to the facility and the original is to be retained by the Department.
(3-17-22)

231. -- 234. (RESERVED)

235. NURSING FACILITY: PROVIDER REIMBURSEMENT.

01. Payment Methodology. Nursing facilities will be reimbursed in accordance with the payment methodologies as described in Sections 236 through 295 of these rules. (3-17-22)

02. Date of Discharge. Payment by the Department for the cost of long term care is to exclude the date of the participant's discharge. If a Medicaid patient dies in a nursing home, their date of death is covered regardless of the time of occurrence. If an admission and a discharge occur on the same date, then one (1) day of care will be deemed to exist. (3-17-22)

236. NURSING FACILITY: REASONABLE COST PRINCIPLES.

To be allowable, costs must be reasonable, ordinary, necessary and related to patient care. It will be expected that providers will incur costs in such a manner that economical and efficient delivery of quality health care to participants will result. (3-17-22)

01. Application of Reasonable Cost Principles. (3-17-22)

a. Reasonable costs of any services are determined in accordance with this chapter of rules found in Sections 236 through 295 of these rules, and Provider Reimbursement Manual (PRM), Sections 100 through 2600, as modified by the exceptions contained herein, is used to identify cost items to be included on Idaho's Uniform Cost Report. (3-17-22)

i. Reasonable cost takes into account both direct and indirect costs of providers of services, including normal standby costs. (3-17-22)

ii. The objectives of these methods are that: first, the costs with respect to individuals covered by the program will not be borne by others not so covered. Second, the costs with respect to individuals not covered will not be paid by the program. (3-17-22)

b. Costs may vary from one institution to another because of a variety of factors. It is the intent of the program that providers will be reimbursed the actual operating costs of providing high quality care, unless such costs exceed the applicable maximum base rate developed pursuant to provisions of Title 56, Idaho Code, or are unallowable by application of promulgated regulation. (3-17-22)

c. Implicit in the intention that actual operating costs be paid to the extent they are reasonable is the expectation that the provider seeks to minimize its costs and that its actual operating costs do not exceed what a prudent and cost-conscious buyer pays for a given item or service. (3-17-22)

d. If costs are determined to exceed the level that such buyers incur, in the absence of clear evidence that the higher costs were unavoidable, the excess costs are not reimbursable. (3-17-22)

02. Costs Related to Patient Care. These include all necessary and proper costs in developing and maintaining the operation of patient care facilities. Necessary and proper costs related to patient care are usually costs that are common and accepted occurrences in the field of the provider's activity. They include costs such as depreciation, interest expense, nursing costs, maintenance costs, administrative costs, costs of employee pension plans, normal standby costs, and others. (3-17-22)

03. Costs Not Related to Patient Care. Costs not related to patient care are costs that are not appropriate or necessary and proper in developing and maintaining the operation of patient care facilities and activities. Such costs are not allowable in computing reimbursable costs. (3-17-22)

04. Form and Substance. Substance of transactions will prevail over the form. Financial transactions will be disallowed to the extent that the substance of the transaction fails to meet reasonable cost principles or comply with rules and policy. (3-17-22)

237. NURSING FACILITY: NOTICE OF PROGRAM REIMBURSEMENT.

Following receipt of the finalized Medicare Cost Report and the timely receipt of any other information requested by

the Department to fairly cost settle with the provider, a certified letter with the return receipt requested will be sent to the provider that sets forth the amounts of underpayment or overpayment made to the provider. (3-17-22)

01. Notice. The notice of the results of the final retroactive adjustment will be sent even though the provider intends to request a hearing on the determination, or has appealed the Medicare Intermediary's determination of cost settlement. Where the determination shows that the provider is indebted to the Medicaid program because total interim and other payments exceed cost limits, the state will take the necessary action to recover overpayment, including the suspension of interim payments sixty (60) days after the provider's receipt of the notice. (3-17-22)

02. Recovery or Suspension. Such action of recovery or suspension will continue even after a request for an informal conference or hearing is filed with the state. If the hearing results in a revised determination, appropriate adjustments will be made to the settlement amount. (3-17-22)

03. Timing of Notice. The Department will make every effort to issue a notice of program reimbursement within twelve (12) months of receipt of the Cost Report from the Medicare Intermediary. (3-17-22)

04. Reopening of Completed Settlements. A Medicaid completed cost settlement may be reopened by the provider or the state within a three-year (3) period from the date of the letter of notice of program reimbursement. The issues must have been raised, appealed and resolved through the reopening of the Cost Report by the Medicare Intermediary. Issues previously addressed and resolved by the Department's appeal process are not cause for reopening of the finalized cost settlement. (3-17-22)

238. NURSING FACILITY: INTEREST CHARGES ON OVERPAYMENTS AND UNDERPAYMENTS.

The Title XIX and Title XXI programs will charge interest on overpayments, and pay interest on underpayments. (3-17-22)

01. Interest After Sixty Days of Notice. If full repayment from the indebted party is not received within sixty (60) days after the provider has received notice of program reimbursement, interest will accrue from the date of receipt of the notice of program reimbursement, and will be charged on the unpaid settlement balance for each thirty-day (30) period that payment is delayed. Periods of less than thirty (30) days will be treated as a full thirty-day (30) period, and the thirty-day (30) interest charge will be applied to any unpaid balance. Each payment will be applied first to accrued interest, then to the principal. Interest accrued on overpayments and interest on funds borrowed by a provider to repay overpayments are not an allowable interest expense. (3-17-22)

02. Waiver of Interest Charges. When the Department determines an overpayment exists, it may waive interest charges if it determines that the administrative costs of collecting them exceed the charges. (3-17-22)

03. Rate of Interest. The interest rate on overpayments and underpayments will be the statutory rate as set forth in Section 28-22-104(1), Idaho Code, compounded monthly. (3-17-22)

04. Retroactive Adjustment. The balance and interest will be retroactively adjusted to equal the amounts that would have been due based on any changes that occur as a result of the final determination in the administrative appeal and judicial appeal process. Interest penalties will only be applied to unpaid amounts and will be subordinated to final interest determinations made in the judicial review process. (3-17-22)

239. NURSING FACILITY: RECOVERY METHODS FOR OVERPAYMENTS.

One (1) of the following methods will be used for recovery of overpayments: (3-17-22)

01. Lump Sum Voluntary Repayment. Upon receipt of the notice of program reimbursement, the provider voluntarily refunds, in a lump sum, the entire overpayment to the Department. (3-17-22)

02. Periodic Voluntary Repayment. The provider must request in writing that recovery of the overpayment be made over a period of twelve (12) months or less. The provider must adequately document the request by demonstrating that the financial integrity of the provider would be irreparably compromised if repayments occurred over a shorter period of time than requested. (3-17-22)

03. Department Initiated Recovery. The Department will recover the entire unpaid balance of the

overpayment of any settlement amount in which the provider does not respond to the notice of program reimbursement within thirty (30) days of receiving the notice. (3-17-22)

04. Recovery From Medicare Payments. The Department can request that Medicare payments be withheld in accordance with 42 CFR, Section 405.377. (3-17-22)

240. – 241. (RESERVED)

242. NURSING FACILITY: HOME OFFICE COST PRINCIPLES.

The reasonable cost principles will extend to the home office costs allocated to individual providers. In addition, the home office, through the provider, will provide documentation as to the basis used to allocate its costs among the various entities it administers or otherwise directs. (3-17-22)

243. NURSING FACILITY: RELATED PARTY TRANSACTIONS.

01. Principle. Costs applicable to services, facilities and supplies furnished to the provider by organizations or persons related to the provider by common ownership, control, etc., are allowable at the cost to the related party. Such costs are allowable to the extent that they relate to patient care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer. (3-17-22)

02. Cost Allowability - Regulation. Allowability of costs is subject to the regulations prescribing the treatment of specific items as outlined in 42 CFR 413.17, et al, and the Providers Reimbursement Manual, PRM Chapter 10 and other applicable chapters of the PRM. (3-17-22)

244. NURSING FACILITY: APPLICATION OF RELATED PARTY TRANSACTIONS.

01. Determination of Common Ownership or Control in the Provider Organization and Supply Organization. In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. (3-17-22)

a. A determination as to whether an individual(s) possesses ownership or equity in the provider organization and the supplying organization, so that the organizations will be considered to be related by common ownership, will be made on the basis of the facts and circumstances in each case. (3-17-22)

b. The term “control” includes any kind of control whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control that is decisive, not its form or the mode of its exercise. (3-17-22)

02. Cost to Related Organizations. The charges to the provider from related organizations may not exceed the billing to the related organization for these services. (3-17-22)

03. Costs Not Related to Patient Care. All home office costs not related to patient care are not allowable under the program. (3-17-22)

04. Interest Expense. Generally, interest expense on loans between related entities will not be reimbursable. See the PRM, Chapters 2, 10, and 12 for specifics. (3-17-22)

245. NURSING FACILITY: COMPENSATION OF RELATED PERSONS.

Compensation paid to persons related to owners or administrators is allowable only to the extent that services are actually performed and are necessary and adequately documented and the compensation for the services is reasonable. (3-17-22)

01. Compensation Claimed. Compensation claimed for reimbursement must be included in compensation reported for tax purposes and be actually paid. (3-17-22)

a. Where such persons perform services without pay, no cost may be imputed. (3-17-22)

b. Time records documenting actual hours worked are required in order that the compensation be allowable for reimbursement. (3-17-22)

c. Compensation for undocumented hours worked will not be a reimbursable cost. (3-17-22)

02. Related Persons. A related person is defined as having one (1) of the following relationships with the provider: (3-17-22)

a. Husband or wife; (3-17-22)

b. Son or daughter or a descendant of either; (3-17-22)

c. Brother, sister, stepbrother, stepsister or descendant thereof; (3-17-22)

d. Father, mother, stepfather, stepmother, an ancestor thereof, or a brother or sister thereof; (3-17-22)

e. Son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law; (3-17-22)

f. A descendant of a brother or sister of the provider's father or mother; (3-17-22)

g. Any other person with whom the provider does not have an arms length relationship. (3-17-22)

246. NURSING FACILITY: INTEREST EXPENSE.

Generally interest on loans between related entities is not an allowable expense. The loan will usually be considered invested capital. See PRM, Chapter 2 for specifics. (3-17-22)

247. -- 249. (RESERVED)

250. NURSING FACILITY: COST LIMITS.

Sections 250 through 267 of these rules and the Idaho Medicaid Provider Agreement Additional Terms – Nursing Facility, provide procedures and specifications necessary to implement the provisions and accomplish the objectives of the nursing home reimbursement system as specified in Sections 56-101 through 56-135, Idaho Code. All audits related to fiscal years ending on or before December 31, 1999, are subject to rules in effect before July 1, 1999. (3-17-22)

251. – 254. (RESERVED)

255. NURSING FACILITY: RATE SETTING.

The objectives of the rate setting mechanism for nursing facilities are: (3-17-22)

01. Payments. To make payments to nursing facilities through a prospective price-based system, which includes facility-specific case mix adjustments, separate margin payments for indirect care costs and direct care costs, and applied BAF. (3-17-22)

02. Rate Adjustment. To set rates based on each facility's case mix index on a quarterly basis and establishing rates that reflect the case mix of that facility's Medicaid residents as of a certain date during the preceding quarter. (3-17-22)

256. NURSING FACILITY: PRINCIPLE FOR RATE SETTING.

Reimbursement rates will be set based on projected cost data from cost reports and audit reports. Reimbursement is to be set for freestanding and hospital-based facilities. In general, the methodology will be a cost-based prospective reimbursement system with an acuity adjustment for direct care costs, allowances for margin payments related to the indirect and direct care costs, and subject to the application of a BAF. (3-17-22)

257. NURSING FACILITY: DEVELOPMENT OF THE RATE.

Nursing facility rates are prospective, with new rates effective July 1st of each year, and are recalculated annually with quarterly adjustments for case mix. In no case will the rate be set higher than the charge for like services to private pay patients in effect for the period for which payment is made as computed by the lower of costs or customary charges. For the rate year of July 1, 2021, through June 30, 2022, rates will be calculated using audited cost reports ended in the calendar year 2019, including an inflation factor applied from the mid-point of the cost reporting period to the mid-point of the rate period. Inflation will be applied to all rate components, with the exception of property costs. For the rate years beginning July 1, 2022, and annually thereafter, rates will be calculated using audited cost reports for the periods ending in the calendar year two (2) years prior to each July 1 (July 1, 2022, rates will use cost reports ended in calendar year 2020 and so forth), including inflation adjustments from the mid-point of the cost report period to the mid-point of the rate period, with the exception of property costs. (3-17-22)

258. (RESERVED)

259. NURSING FACILITY: TREATMENT OF NEW BEDS.

Facilities that add beds after July 1, 1999, will have their reimbursement rate subjected to an additional limitation for the next three (3) years. This limitation will apply beginning with the first rate setting period that utilizes a cost report that includes the date when the beds were added. This provision will be the same for either behavioral care unit facilities or non-behavioral care units. (3-17-22)

260. – 261. (RESERVED)

262. NURSING FACILITY: OUT-OF-STATE NURSING HOMES.

The Idaho Medicaid Program will reimburse for out-of-state nursing home placements when services are not available in Idaho to meet the participant's medical need, or in a temporary situation for a limited period of time required to safely transport the participant to an Idaho facility. Reimbursement for out-of-state nursing homes will be at the per diem rate set by the Medicaid Program in the state where the nursing home is located. Special rates will be allowed according to Section 270 of these rules. (3-17-22)

263. NURSING FACILITY: DISTRESSED FACILITY.

01. Determination. If the Department determines that a facility is located in an under-served area, or addresses an under-served need, the Department may negotiate a reimbursement rate different than the rate then in effect for that facility. (3-17-22)

02. Discretionary Factors. The fact that a facility may be located in an under-served area or meets an under-served need does not guarantee increased reimbursement. In exercising its discretion to apply a higher rate, the Department will consider the factors as described in Subsections 263.02.a. through 263.02.e. of this rule. (3-17-22)

a. Prudent Spending Patterns. The facility has exercised prudent spending and cost allocation practices, as evidenced by a thorough and comprehensive review of the facility's accounts by the Department. (3-17-22)

b. Reasonable Attempts to Remedy Problems. The facility must persuade the Department that it has conscientiously and diligently attempted to cover its costs of care, hire qualified staff and otherwise operate effectively and efficiently, but for causes beyond the facility's reasonable control, it has not been able to do so. (3-17-22)

c. Facility Already Receives Special Rates. When a facility already receives special rates for certain difficulty-of-care patients from the Department, the same costs of care that were used to determine special rates will not be applied toward a determination of distressed facility status, because the special rate meets that need. (3-17-22)

d. Direct and Indirect Costs of Care Apportioned to Patient Care. The Department reimburses the costs of patient care, and does not pay for indirect costs not associated with patient care. The determination of distressed status will focus on whether the facility's distress stems from patient care costs, or whether the distress arises from expenses unrelated to patient care costs. (3-17-22)

e. Existing Cost Limits. Under no circumstances may a facility's reimbursement exceed the lower of

its actual costs or customary charge to private-pay patients, as required by federal law, subject to the exceptions in federal law. The Department's cost caps can be exceeded through the distressed facility process, but to an amount no greater than the federal upper payment limit. (3-17-22)

03. Annual Review. Distressed facility payments are assumed to be short-term in nature. Each distressed payment must be re-requested and re-justified for each subsequent fiscal year that the facility desires the distressed facility rate. (3-17-22)

04. Prospective Application. Distressed facility status will be applied only to facilities that are currently distressed or entering a period of distress. Distressed facility status will not be applied to retroactive rate years. (3-17-22)

05. Facility-by-Facility Basis. Each facility must independently establish distress on its own merits, whether or not other facilities with a common owner may also be experiencing distress. (3-17-22)

264. NURSING FACILITY: INTERIM ADJUSTMENTS TO RATES AS A RESULT OF NEW MANDATES.

Certain costs may be excluded from the cost limit calculations, may be subject to retrospective settlement at the discretion of the Department, and may result in changes to the prospective rates as provided in this Section to assure equitable reimbursement: (3-17-22)

01. Changes of More Than Fifty Cents Per Patient Day in Costs. Changes of more than fifty cents (\$.50) per patient day in costs otherwise subject to the cost limitations incurred by a facility as a result of changes in state or federal laws or rules will be reported separately on the cost report until such time as they can be properly reflected in the cost limits. (3-17-22)

a. The provider will report these costs on a separate schedule or by notations on the cost report so that these costs can be identified and reconciled to the provider's general ledger. These costs will be reported separately and will not be reimbursed through the rate setting process until the costs are fully represented in the cost data used to establish the cost limitations and rates. (3-17-22)

b. If more than one (1) increase occurs as a result of one (1) or more law or rule changes, the costs from each event are to be reported separately. (3-17-22)

c. The computation of the cost increase amount or amounts is to be presented in detail on a supplementary schedule or schedules unless the Department states otherwise. (3-17-22)

02. Future Treatment of Costs. After the initial deadline has passed for all providers to file cost reports for reporting periods beginning on or after the date certain cost increases were first required, the Department will, at its option, include all of the previously excluded costs related to those increases in the calculation of costs subject to the cost center limits. The intent of this provision is for costs to be exempt from the cost limits until these costs are able to be fully and equitably incorporated into the data base used to project the cost limits. When cost increases that have been excluded from the cap are incorporated in the inflation indices used to set the cost limits, the cost indices will be adjusted to exclude the influence of such changes if the amount included in the index is identified. When the cost limits are set to include previously excluded amounts, any adjustments made to the indices related to the previously excluded costs will be removed. (3-17-22)

265. NURSING FACILITY: MDS REVIEWS.

The following Minimum Data Set (MDS) reviews will be conducted: (3-17-22)

01. Facility Review. Subsequent to the picture date, each facility will be sent a copy of its resident roster (a listing of residents, their RUG classification, case mix index, and identification as Medicaid or other). It will be the facility's responsibility at that time to review the roster for accuracy. If the roster is accurate, the facility will sign and return the roster for rate setting. If any errors are detected, those errors will be communicated to the Department in writing along with any supporting documentation. If the signed resident roster is not returned and no errors are communicated to the Department, the original resident roster will be used for rate setting. Once the resident roster has been used for rate setting, it will be considered final unless modified by subsequent Departmental review.

(3-17-22)

02. Departmental Review. If a departmental review of the MDS data reveals errors that result in an incorrect case mix index, the provider's rate will be retroactively adjusted, for all quarters containing the incorrect assessment, and an amount due to or from the Department will be calculated. This does not include residents who received the default classification due to incomplete or inconsistent MDS data. (3-17-22)

266. NURSING FACILITY: BEHAVIORAL CARE UNIT (BCU) AND RATE STRUCTURE.

Effective October 1, 2012, the additional direct care costs associated with BCU residents will remain in direct care costs subject to the direct care cost limitation. Those qualifying BCU nursing facility providers may have a direct care cost limitation higher than non-BCU nursing facility providers. BCU nursing facility providers will not receive an increased indirect care cost limitation. (3-17-22)

267. NURSING FACILITY: TREATMENT OF NEWLY LICENSED FACILITIES WITH BEHAVIORAL CARE UNITS.

Facilities licensed on or after September 1, 2017, must meet the qualifications for a BCU described in Idaho Medicaid Provider Agreement Additional Terms – Behavioral Care Units. BCU facilities existing prior to this date that receive a new license due to a change in ownership will not be subject to the provisions of this rule. (3-17-22)

268. NURSING FACILITY: EXISTING PROVIDER ELECTS TO ADD BEHAVIORAL CARE UNIT (BCU).

An existing nursing facility provider that elects to add a BCU on or after September 1, 2017, may be deemed eligible after meeting the following requirements: (3-17-22)

01. Meet Criteria for BCU. The nursing facility provider must meet the criteria for a BCU described in Section 266 of these rules. (3-17-22)

02. BCU Eligible Days. The provider must demonstrate that BCU days from a minimum of sixty (60) calendar days, regardless of payer source, divided by total census days for that same sixty (60) day period, equals or exceeds a minimum of thirty percent (30%). (3-17-22)

269. NURSING FACILITY: NEW OWNER OF AN EXISTING NURSING FACILITY WITH A BEHAVIORAL CARE UNIT (BCU).

01. New Owner Elects to Continue BCU. An existing nursing facility that is considered a BCU will continue to be a BCU, if the new owner elects to continue to provide these services. The new owner will receive a rate calculated according to the current change of ownership rules in Section 261 of these rules. The prior owner's cost report will be used until the new owner has a qualifying cost report. They BCU will continue to qualify for the higher direct care cost limit the previous owner was allowed. (3-17-22)

02. New Owner Does Not Elect to Continue BCU. If the new owner does not elect to operate the BCU, the prior owner's cost report will be used. The direct care cost limit will be adjusted down to that of the non-BCU nursing facility. (3-17-22)

270. NURSING FACILITY: SPECIAL RATES.

A special rate consists of a facility's daily reimbursement rate for a patient plus an add-on amount. Section 56-117, Idaho Code, provides authority for the Department to pay facilities an amount in addition to the daily rate when a patient has needs that are beyond the scope of facility services and when the cost of providing for those additional needs is not adequately reflected in the rates calculated. This special rate add-on amount for such specialized care is in addition to any payments made in accordance with other provisions of this chapter and is excluded from the computation of payments or rates under other provisions in these rules. (3-17-22)

01. Determination. The Department determines to approve a special rate on a patient-by-patient basis. No rate will be allowed if reimbursement for these needs is available from a non-Medicaid source. A special rate request will be based on an identified condition that will continue for a period greater than thirty (30) days. (3-17-22)

02. Effective Date. Upon approval, a special rate is effective on the date the application was received.

(3-17-22)

03. Reporting. Costs equivalent to payments for special rate add-on amounts must be removed from the cost components subject to limits, and be reported separately by the provider. (3-17-22)

04. Limitation. A special rate cannot exceed the provider's charges to other patients for similar services. (3-17-22)

05. Prospective Rate Treatment. Prospective treatment of special rates became effective July 1, 2000. Subsections 270.06 and 270.07 of this rule provide clarification of how special rates are paid under the prospective payment system. (3-17-22)

06. Determination of Payment for Qualifying Residents. Special rate add-on amounts are calculated using one (1) of the methods described in Subsections 270.06.a. through 270.06.c. of this rule. (3-17-22)

a. One Hundred Percent (100%) Special Care Facility Existing July 1, 2000. If on July 1, 2000, an entire facility was a special care unit that included Medicaid residents, the facility's direct care cost per diem will not be subject to the direct care cost limit. However, the direct care costs are case mix adjusted based on the ratio of the facility's Medicaid CMI for the rate period to the facility-wide CMI for the cost reporting period. (3-17-22)

b. Equipment and Non-Therapy Supplies. Equipment and non-therapy supplies not addressed in Section 225 of these rules as determined by the Department, are reimbursed in accordance with IDAPA 16.03.09, "Medicaid Basic Plan Benefits," Section 755, as an add-on amount. (3-17-22)

c. Ventilator Dependent Residents and Residents Receiving Tracheostomy Care. Nursing facilities providing care to residents who are ventilator-dependent or who receive tracheostomy care are eligible to submit requests for the fixed add-on amount, in addition to the facility's rate for residents receiving this type of care. Approved requests are effective the date the type of care is needed by the participant, or no earlier than sixty (60) days prior to the date the request is received by the Department. The rate includes the cost for equipment and supplies and for additional registered nurse and certified nursing assistant hours, as appropriate for each type of care. Costs for equipment and supplies will be adjusted annually for inflation, and registered nursing and certified nursing assistant costs will be adjusted according to the annual Weighted Average Hourly Rates (WAHR) survey results. (3-17-22)

i. Approved add-on rates for ventilator-dependent residents and residents receiving tracheostomy care are subject to annual reviews by the Department to ensure that the add-on rate remains necessary for the type of care needed by the resident. (3-17-22)

ii. The provider must inform the department if an approved add-on rate is no longer needed or if the resident requires a change from one type of care to another. (3-17-22)

d. Ventilator Dependent Residents and Residents Receiving Tracheostomy Care in Out-of-State Nursing Facilities. For residents who are ventilator-dependent or receive tracheostomy care in an out-of-state facility, the add-on amount to the facility's rate is effective the date this type of care is needed by the participant or no earlier than sixty (60) days prior to the date the request is received by the Department. The add-on rate will include: (3-17-22)

i. Calculation of a staffing add-on for the cost, if any, for additional direct care staff required in meeting the exceptional needs of these residents. The hourly add-on rate is equal to the current WAHR CNA or current WAHR RN wage rate plus a benefits allowance based on annual cost report data, then weighted to remove the CNA minimum daily staffing time adjusted for the appropriate skill level of care staff; and (3-17-22)

ii. Calculation of an add-on for equipment and non-therapy supplies following the provisions in Subsection 270.06.b. of this rule. (3-17-22)

07. Treatment of the Special Rate Cost for Future Rate Setting Periods. Special rates are established on a prospective basis similar to the overall facility rate. When the cost report used to set a prospective rate contains special rate costs, an adjustment is made to "offset," or reduce costs by an amount equal to total

incremental revenues, or add-on payments received by the provider during the cost reporting period. The amount received is calculated by multiplying the special rate add-on amount paid for each qualifying resident by the number of days that were paid. No related adjustment is made to the facility's CMI's. (3-17-22)

08. Special Rate for Providers that Change Ownership or Close. When a facility changes ownership or closes, a closing cost report is not required. Special rate payments made in the closing cost reporting period may be reviewed by the Department. (3-17-22)

271. (RESERVED)

272. NURSING FACILITY: LEGAL CONSULTANT FEES AND LITIGATION COSTS.

Costs of legal consultant fees and litigation costs incurred by the provider will be handled in accordance with the following: (3-17-22)

01. In General. Legal consultant fees unrelated to the preparation for or the taking of an appeal of an audit performed by the Department of Health and Welfare, or litigation costs incurred by the provider in an action unrelated to litigation with the Department of Health and Welfare, will be allowed as a part of the total per diem costs of which the Medicaid Program will reimburse a portion according to the percentage of Medicaid patient days. (3-17-22)

02. Administrative Appeals. In the case of the provider contesting in administrative appeal the findings of an audit performed by the Department of Health and Welfare, the costs of the provider's legal counsel will be reimbursed by the Medicaid Program only to the extent that the provider prevails on the issues involved. The determination of the extent that the provider prevails will be based on the ratio of the total dollars at issue for the audit period at issue in the hearing to the total dollars ultimately awarded to the provider for that audit period by the hearing officer or subsequent adjudicator. (3-17-22)

03. Other. All other litigation costs incurred by the provider in actions against the Department of Health and Welfare will not be reimbursable either directly or indirectly by the Medicaid Program except where specifically ordered by a court of law. (3-17-22)

273. NURSING FACILITY: PATIENT FUNDS.

The safekeeping of patient funds, under the program, is the responsibility of the provider. Accordingly, the administration of these funds requires scrupulous care in recording all transactions for the patient. (3-17-22)

01. Use. Generally, funds are provided for personal needs of the patient to be used at the patient's discretion. The provider agrees to manage these funds and render an accounting but may not use them in any way. (3-17-22)

02. Provider Liability. The provider is subject to legal and financial liabilities for committing any of the following acts. This is only a partial listing of the acts contrary to federal regulations: (3-17-22)

a. Management fees may not be charged for managing patient trust funds. These charges constitute double payment as management is normally performed by an employee of the provider and their salary is included in reasonable cost reimbursement. (3-17-22)

b. Nothing is to be deducted from these funds, unless such deductions are authorized by the patient or their agent in writing. (3-17-22)

c. Interest accruing to patient funds on deposit is the property of the patients and is part of the personal funds of each patient. The interest from these funds is not available to the provider for any use, including patient benefits. (3-17-22)

03. Fund Management. Proper management of such funds would include the following as minimum: (3-17-22)

a. Savings accounts, maintained separately from facility funds. (3-17-22)

- b. An accurate system of supporting receipts and disbursements to patients. (3-17-22)
- c. Written authorization for all deductions. (3-17-22)
- d. Signature verification. (3-17-22)
- e. Deposit of all receipts of the same day as received. (3-17-22)
- f. Minimal funds kept in the facility. (3-17-22)
- g. As a minimum these funds must be kept locked at all times. (3-17-22)
- h. Statement of policy regarding patient's funds and property. (3-17-22)
- i. Periodic review of these policies with employees at training sessions and with all new employees upon employment. (3-17-22)
- j. System of periodic review and correction of policies and financial records of patient property and funds. (3-17-22)

274. NURSING FACILITY: IDAHO OWNER-ADMINISTRATIVE COMPENSATION.

Allowable compensation to owners and persons related to owners who provide any administrative services will be limited based on the schedule in this section. (3-17-22)

01. Allowable Owner Administrative Compensation. The following schedule will be used in determining the maximum amount of owner administrative compensation allowable for the calendar year ending December 31, 2002.

Licensed Bed Range	Upper limit
51 - 100	86,951
101 - 150	95,641
151 - 250	129,878
251 - up	186,435

(3-17-22)

02. The Administrative Compensation Schedule. The administrative compensation schedule in this Section will be adjusted annually based upon the change in average hourly earnings in nursing and personal care facilities as published by IHS Markit, its successor organization or, if unavailable, another nationally recognized forecasting firm. (3-17-22)

03. The Maximum Allowable Compensation. The maximum allowable compensation for an owner providing administrative services is determined from the schedule in Subsection 274.01 of these rules. Allowable compensation will be determined as follows: (3-17-22)

a. In determining the number of beds applicable on the schedule, all licensed beds for which the individual provides administrative services will be counted, regardless of whether they are in the same facility. (3-17-22)

b. For an owner providing services to more than fifty (50) beds, the amounts shown on the schedule for the applicable number of beds will determine the upper limit for allowable compensation. (3-17-22)

c. For owners providing services to less than fifty-one (51) beds, such services related to

administrative duties will be reimbursed at the hourly rate allowable if the owner was providing services to fifty-one (51) beds. Additionally, services other than administrative services may be performed by the owner and will be allowable at the reasonable market rate for such services. To be allowable, hours for each type of service will be documented. In no event will the total compensation for administrative and non-administrative duties paid to an owner or related party to an owner of a facility or facilities with fifty (50) licensed beds or less exceed the limit that would be applicable to an owner with the same number of points providing administrative services to facilities with fifty-one (51) beds as set forth in the schedule of Subsection 274.01 of these rules. (3-17-22)

04. Compensation for Persons Related to an Owner. Compensation for persons related to an owner will be evaluated in the same manner as for an owner. (3-17-22)

05. When an Owner Provides Services to More Than One Provider. When an owner provides services to more than one (1) provider compensation will be distributed on the same basis as costs are allocated for non-owners. (3-17-22)

06. More Than One Owner or Related Party May Receive Compensation for Hours Actually Worked. Services must be actually performed, documented and necessary. Total compensation must be reasonable, and not greater than the amount for which the same services could be obtained on the open market. The standard by which full time compensation is measured will be two thousand eighty (2,080) hours. Compensation of an owner or a party related to an owner is subject to other provisions of this chapter, and will not exceed the compensation determined from the Administrative Compensation Schedule, and, on an hourly basis, will not exceed the compensation determined in the Administrative Compensation Schedule divided by two thousand eighty (2,080). (3-17-22)

275. NURSING FACILITY: PROPERTY RENTAL RATE REIMBURSEMENT.

Free standing nursing facilities other than hospital based nursing facilities will be paid a property rental rate. Property taxes and property insurance will be reimbursed as costs exempt from limitations. The property rental rate includes compensation for major movable equipment but not for minor movable equipment. The property rental rate is paid in lieu of payment for amortization, depreciation, and interest for financing the cost of land and depreciable assets. Prior to final audit for free-standing nursing facilities, an interim rate for property reimbursement will be set to approximate the property rental rate as determined by Sections 56-108 and 56-109, Idaho Code. (3-17-22)

01. Property Rental Rate. The property rental rate is based upon current construction costs, the age of the facility, the type of facility, and major expenditures made to improve the facility, or a rate based upon property costs as of January 1, 1985. The amount paid for each Medicaid day of care will be phased in according to Section 275.01 of these rules, and, beginning April 1, 1985, will be: (3-17-22)

$$R = \text{"Property Base"} \times 40 - \text{"Age"} / 40 \times \text{"change in building costs"} \text{ where:}$$
 (3-17-22)

a. "R" = the property rental rate. (3-17-22)

b. "Property Base" = thirteen dollars and nineteen cents (\$13.19) beginning October 1, 1996 for all freestanding nursing facilities. (3-17-22)

c. "Change in building costs" = 1.0 from October 1, 1996, through December 31, 1996. Beginning January 1, 1997, "change in building costs" will be adjusted each calendar year to reflect the reported annual change in the building cost index for a class D building in the western region, as published by the Marshall Swift Valuation Service or the consumer price index for renter's costs whichever is greater. For freestanding nursing facilities, the index available in September of the prior year will be used. (3-17-22)

d. "Age" of facility - The effective age of the facility in years will be set by subtracting the year in which the facility, or portion thereof, was constructed from the year in which the rate is to be applied. No facility or portion thereof will be assigned an age of more than thirty (30) years, however: (3-17-22)

i. If adequate information is not submitted by the facility to document that the facility, or portion thereof, is newer than thirty (30) years, the age will be set at thirty (30) years. Adequate documentation will include, but not be limited to, such documents as copies of building permits, tax assessors' records, receipts, invoices,

building contract, and original notes of indebtedness. An age will be determined for each building. A weighted average using the age and square footage of the buildings will become the effective age of the facility. The age of each building will be based upon the date when construction on that building was completed. This age will be adjusted to reflect major building expansion or remodeling prior to April 1, 1985, if that expenditure was large enough to reduce the age of the facility by two (2) or more years according to the following formula: (3-17-22)

$$r = A \times E / S \times C$$

Where:

r	=	Reduction in the age of the facility in years.
A	=	Age of the building at the time when construction was completed.
E	=	Actual expenses for the construction provided that the total costs must have been incurred within twenty-four (24) months of the completion of the construction.
S	=	The number of square feet in the building at the end of construction.
C	=	The cost of construction for the buildings in the year when construction was completed according to the schedule in Subsection 275.01.d.ii.

If the result of this calculation, “r” is equal to or greater than 2.0, the age of the building in years will be reduced by this number, rounded to the nearest whole number for rate setting purposes. In no case will the age be less than zero (0). (3-17-22)

- ii. Historical nursing home construction cost per square foot for purposes of evaluating facility age.

Age	Year	Cost	Age	Year	Cost	Age	Year	Cost
1	2004	82.41	2	2003	80.80	3	2002	79.06
4	2001	78.43	5	2000	74.34	6	1999	71.55
7	1998	71.34	8	1997	68.20	9	1996	67.59
10	1995	66.19	11	1994	64.14	12	1993	60.56
13	1992	59.03	14	1991	56.13	15	1990	54.61
16	1989	53.17	17	1988	52.03	18	1987	51.66
19	1986	51.56	20	1985	50.55			

(3-17-22)

iii. For rates paid after June 30, 1989, the effective age of a facility will be further adjusted when the cost of major repairs, replacement, remodeling, or renovation of a building initiated after April 1, 1985, results in the change in age by at least one (1) year when applied to the formula in Subsection 275.01.d.i. of these rules. However, such change will not decrease the effective age of a facility beyond the point where the increase in the property rental rate is greater than three-fourths (3/4) of the difference between the property rental rate “r” for a new facility at the time of the proposed rate revision and the property rental rate for which the facility was eligible immediately before the adjustment. The cost used for “C” will be adjusted according to costs published by Marshall Swift Valuation Service to reflect current construction costs for average Class D convalescent hospitals. It is the provider’s responsibility to notify the Department and document costs. The Department will adjust the age after documentation of costs. (3-17-22)

iv. In the event that new requirements are imposed by state or federal agencies, the Department will reimburse the expenditures directly related to these requirements as an increase in the property rental rate if the expense is in excess of one hundred dollars (\$100) per bed. If the cost related to the requirement is less than one hundred dollars (\$100) per bed, the Department will, within twelve (12) months of verification of expenditure,

reimburse the Medicaid share of the entire cost of such new requirements, as a one (1) time payment to the facility. (3-17-22)

v. At no time will the property rental rate paid to a facility be less than the greater of the rate allowable to that facility on December 31, 1988, the rate allowable immediately following the first opening of a new facility after December 31, 1988, or the rate allowable immediately following the last, if any, age revision after December 31, 1988. However, subsequent to the application of this provision, before any property rental rate increase may be made for current or successor operators, the final settlement amount of any increase in the property rental rate will first be offset by an amount equal to the impact on final settlement of any rate decrease that would have occurred if the provisions of Subsections 275.01.d.iii. and 275.01.d.iv. of these rules had not been applied. This is intended to allow the postponement of the financial burden to providers of property rental rate decreases and to allow an equal offset of the financial burden to the state of subsequent property rate increases for a current or successor provider. (3-17-22)

vi. Effective July 1, 1991, for freestanding nursing facilities, "age of facility" will be a revised age that is the lesser of the age established under other provisions of this Section or the age that most closely yields the rate allowable to existing facilities as of June 30, 1991, under Subsection 275.01 of these rules. This revised age will not increase over time. (3-17-22)

02. Grandfathered Rate. A "grandfathered property rental rate" for existing free-standing nursing facilities will be determined by dividing the audited allowable annualized property costs, exclusive of taxes and insurance, for assets on hand as of January 1, 1985, by the total patient days in the period July 1, 1984, through June 30, 1985. (3-17-22)

a. Prior to audit settlement, the interim rate for property costs allowable as of January 1, 1985, will be used to approximate the grandfathered rate. (3-17-22)

b. The grandfathered property rental rate will be adjusted to compensate the facility for the property costs of major repairs, replacement, expansion, remodeling or renovation initiated prior to April 1, 1985, and completed during calendar year 1985. (3-17-22)

c. Beginning July 1, 1989, facilities receiving grandfathered rates may have those rates adjusted for modifications related to major repairs, replacement, expansion, remodeling, or renovation initiated after January 1, 1986, if the cost of these modifications would be sufficient to reduce the age of the facility by one (1) year or more according to Subsection 275.01.d.i. of these rules. The grandfathered rate will be revised after completion of modifications and will be the greater of: (3-17-22)

i. The grandfathered rate previously allowed; or (3-17-22)

ii. The actual per diem property costs of amortization, depreciation and interest not applicable to the modifications for the audit period in which the modifications were completed plus the per diem rate of the first year amortization of the cost of these modifications when amortized over American Hospital Association guideline useful life or lives. However, no change in the grandfathered rate will be allowed to change that rate by more than three-fourths (3/4) of the difference between the previous grandfathered rate and the property rental rate that would be paid for a new building at the time of the proposed rate revision. (3-17-22)

d. The facility will be reimbursed a rate that is the higher of the grandfathered property rental rate as determined according to provisions of Subsection 275.02 of these rules or the property rental rate determined according to Subsections 275.01, 275.03, or 275.05 of these rules. (3-17-22)

03. Leased Freestanding Nursing Facilities. Freestanding nursing facilities with leases will not be reimbursed in the same manner specified in Subsections 275.01 and 275.02 of these rules. Provisions in this section do not apply to reimbursement of home office costs. Home office costs will be paid based on reasonable cost principles. (3-17-22)

a. Facilities with leases entered into on or after March 30, 1981, are to be reimbursed in the same way as owned facilities with ownership costs being recognized instead of lease costs. (3-17-22)

b. Facilities with leases entered into prior to March 30, 1981, will not be subject to reimbursement according to the provisions of Subsections 275.01 or 275.02 of these rules. Their property rental rate per day of care will be the sum of the annualized allowed lease costs and the other annualized property costs for assets on hand as of January 1, 1985, exclusive of taxes and insurance when paid separately, divided by total patient days in the period June 30, 1983, through July 1, 1984. (3-17-22)

i. Effective July 1, 1989, the property rental rates of leased nursing facilities with leases entered into prior to March 30, 1981, may be adjusted to compensate for increased property costs resulting from facility modifications related to major repairs, replacement, expansion, remodeling, or renovation initiated after January 1, 1985, if the cost would be sufficient to reduce the age of the facility by one (1) year or more according to Subsection 275.01.d.i. of these rules. The rate will be revised after the completion of such modifications and will be the greater of the property rental rate previously allowed under Subsection 275.03, or the actual per diem property costs for the amortization, depreciation, and interest not applicable to the modifications for the reporting period in which the modifications were completed, plus the per diem of the first year amortization of the modification expenses using the American Hospital Association guideline useful life of lives. However, no such rate change will increase the allowable property rental rate by more than three-fourths (3/4) of the difference between the previous rate and the property rental rate that would be allowed for a new building at the time of the proposed rate revision. (3-17-22)

ii. Where such leases contain provisions that bind the lessee to accept an increased rate, reimbursement will be at a rate per day of care that reflects the increase in the lease rate. (3-17-22)

iii. Where such leases bind the lessee to the lease and allow the rate to be renegotiated, reimbursement will be at a rate per day of care that reflects an annual increase in the lease rate not to exceed the increase in the consumer price index for renters' costs. After April 1, 1985, if such a lease is terminated or if the lease allows the lessee the option to terminate other than by an option to purchase the facility, the property rental rate will become the amount "R" determined by the formula in Subsection 275.01 of these rules as of the date on which the lease is or could be terminated. (3-17-22)

04. Sale of a Facility. In the event of the sale of a facility, or asset of a facility, the buyer will receive the property rental rate of Subsection 275.01 of these rules, except in the event of a forced sale or except in the event of a first sale of a facility receiving a "grandfathered rate" after June 30, 1991, whereupon the property rental rate of the new owner will be computed as if no sale had taken place. (3-17-22)

05. Forced Sale of a Facility. In the event of a forced sale of a facility, or asset of a facility, where the seller has been receiving a grandfathered rate, the buyer will receive a rate based upon their incurred property costs, exclusive of taxes and insurance, for the twelve (12) months following the sale, divided by the facility's total patient days for that period, or the property rental rate, not modified by Section 275 of these rules, whichever is higher, but not exceeding the rate that would be due the seller. (3-17-22)

276. -- 277. (RESERVED)

278. NURSING FACILITY: OCCUPANCY ADJUSTMENT FACTOR.

In order to equitably allocate fixed costs to the Medicaid patients in cases where a facility is not maintaining reasonable occupancy levels, an adjustment will be made. No occupancy adjustment will be made against the costs that are used to calculate the property rental rate; however adjustment will be made against all other property costs. The adjustment will be made as follows: (3-17-22)

01. Occupancy Levels. If a facility maintains an average occupancy of less than eighty percent (80%) of a facility's capacity, the total property costs not including cost paid under the property rental rate, will be prorated based upon an eighty percent (80%) occupancy rate. Property costs and property rental rates are defined in Section 013 of these rules. The facility's average occupancy percentage will be subtracted from eighty percent (80%) and the resultant percentage will be taken times the total fixed costs to determine the nonallowable fixed costs. (3-17-22)

02. Occupancy Adjustment. For purposes of an occupancy adjustment, facility capacity will be computed based upon the greater of the largest number of beds for which the facility was licensed during the period being reported on or the largest number of beds for which the facility was licensed during calendar year 1981, except where a portion of the facility has been converted to use for nonroutine nursing home activities or the facility is newly

constructed and has entered the Medicaid Program subsequent to January 1, 1982. If the facility's designed capacity has been changed, the number of beds used to determine occupancy will be lowered by the amount of capacity being converted to nonroutine nursing home activities. Facility capacity for a new facility will be based on the number of beds approved by the certificate of need process less any capacity converted to nonroutine nursing home activities. (3-17-22)

03. Fixed Costs. For purposes of an occupancy adjustment fixed costs will be considered all allowable and reimbursable costs reported under the property cost categories. (3-17-22)

04. Change in Designed Capacity. In cases where a provider changes the designed capacity of a facility, the average occupancy for the period prior to the change and subsequent to the change will be computed and each period will be adjusted separately. If the designed capacity is increased, the increased number of beds will not be subject to this adjustment for the first six (6) months following their licensure. (3-17-22)

05. New Facility. In the case of a new facility being licensed and occupied, the first six (6) months occupancy level will not be subject to this adjustment. (3-17-22)

279. NURSING FACILITY: RECAPTURE OF DEPRECIATION.

Where depreciable assets that were reimbursed based on cost and were used in the Medicaid Program by a facility subsequent to January 1, 1982, and for which depreciation has been reimbursed by the Program, are sold for an amount in excess of their net book value, depreciation so reimbursed will be recaptured from the buyer of the facility in an amount equal to reimbursed depreciation after January 1, 1982, or gain on the sale, whichever is less. (3-17-22)

01. Amount Recaptured. Depreciation will be recaptured in full if a sale of a depreciated facility takes place within the first five (5) years of a seller's ownership. Credit will be given for the period of ownership prior to January 1, 1982. For every year the asset is held beyond the first five (5) years, the total depreciation recaptured will be reduced by ten percent (10%) per year of the total depreciation taken. (3-17-22)

02. Time Frame. Depreciation will be recaptured by the Medicaid Program from the buyer of the facility over a period of time not to exceed five (5) years from the date of sale, with not less than one-fifth (1/5) of the total amount being recaptured for each year after such date. (3-17-22)

280. – 282. (RESERVED)

01. Deadlines. Deadlines for annual cost reports will be the last day of the third month following the fiscal year end or the deadline imposed by Medicare if the provider is required to file a Medicare cost report. (3-17-22)

02. Waivers. A delay of thirty (30) days may be granted for annual cost reports in unusual circumstances. Requests for such deferrals and reasons therefore must be in writing and should be made prior to the deadline. A written decision will be rendered in writing within ten (10) days. (3-17-22)

284. NURSING FACILITY: FAILURE TO FILE.

Failure to submit timely reports may result in a reduction in the interim rate. Failure to file the required cost reports, including required supplemental information, unless a waiver is granted, may result in a reduction of ten percent (10%) in the provider's rate(s) the first day of the month following the deadline date. Continued failure to comply will result in complete payment suspension on the first day of the following month. When suspension or reduction has occurred and the provider has filed the required cost reports, amounts accruing to the provider during the period of suspension or reduction will be restored. Loss of license or certification will result in immediate termination of reimbursement, full scope audit and settlement for the cost period. (3-17-22)

285. NURSING FACILITY: ACCOUNTING SYSTEM.

This level will be assigned based on a documented diagnosis of mental illness, intellectual disability, or Alzheimer's disease. If an individual is assessed as Level III with a diagnosis of mental illness, intellectual disability, or Alzheimer's disease the provider reimbursement rate will be the higher amount as described in Subsection 307.05.c. of these rules. 312. HOME AND COMMUNITY-BASED SETTINGS.

Home and community-based settings include all locations where participants who receive HCBS live or receive their services. (3-17-22)

Home and community-based settings must support eligible participants to have the same opportunities for integration, independence, choice, and rights as individuals who do not require supports or services to remain in their home or community. If a setting requirement described in this rule presents a health or safety risk to the participant or those around the participant, goals must be identified with strategies to mitigate the risk. These goals and strategies must be documented in the person-centered plan. Providers must develop and implement policies and procedures to address the following HCBS setting requirements. (3-17-22)

01. Required Home and Community-Based Qualities. Home and community-based settings are required to have the following qualities: (3-17-22)

- e. **Choice.** The setting promotes opportunities for participant choice regarding the services and supports provided in the setting. (3-17-22)

02. Services Delivered in the Participant's Own Home. It is presumed that services delivered in the participant's own home, that is not a provider-owned or controlled residence, meet the HCBS setting requirements described in this rule. Providers may not impose restrictions on HCBS setting qualities in a participant's own home without goals and strategies to mitigate risk described in this rule that have been agreed to through the person-centered planning process. (3-17-22)

314. RESIDENTIAL PROVIDER-OWNED OR CONTROLLED SETTING QUALITIES.

Exceptions to residential setting requirements outlined in Section 314 of these rules must be made based on the needs of the participant that are identified through person-centered planning. Service plans with exceptions to residential setting requirements must be submitted to the Department or its designee for review and approval. When an exception is made, the following information must be documented in the person-centered service plan: (3-17-22)

08. Freestanding Hospice. A hospice that is not part of any other type of participating provider. (3-17-22)

09. Hospice. A public agency or private organization or a subdivision that: (3-17-22)

a. Is primarily engaged in providing care to terminally ill participants; and (3-17-22)

b. Meets the conditions specified for certification for participation in the Medicare and Medicaid programs and has a valid provider agreement. (3-17-22)

10. Independent Physician. An attending physician who is not an employee of the hospice. (3-17-22)

13. Terminally Ill. When a participant has a certified medical prognosis that life expectancy is six (6) months or less per Subsection 454.01 of these rules. (3-17-22)

452. HOSPICE: ELIGIBILITY.

Inherent in the Hospice program is that a participant understands the nature and basis for eligibility for hospice care without an inappropriate and explicit written statement about how the impending death will affect care. Though only written acknowledgment of the election periods is mandated, it is required that the participant or their representative be fully informed by a hospice before the beginning of a participant's care about the reason and nature of hospice care. The following are the eligibility requirements for Hospice: (3-17-22)

01. Certification. A certification that the participant is terminally ill must have been completed in accordance with Section 454.01 of these rules. (3-17-22)

02. Medically Necessary. Hospice services must be reasonable and necessary for the palliation and management of the terminal illness and related conditions. (3-17-22)

03. Election of Services. The participant must elect hospice care in accordance with Section 454.02 of these rules. (3-17-22)

453. HOSPICE: COVERAGE REQUIREMENTS AND LIMITATIONS.

The following services are required: (3-17-22)

01. Nursing Care. Nursing care provided by or under the supervision of a licensed registered nurse. (3-17-22)

04. Counseling Services. Counseling services provided to the terminally ill participant and the family members or other persons caring for the participant at home. Counseling, including bereavement and dietary counseling, are core hospice services provided both for the purpose of training the participant's family or other caregiver to provide care, and for the purpose of helping the participant and those caring for them to adjust to the participant's approaching death. (3-17-22)

05. Inpatient Care. Short-term inpatient care provided in a participating hospice inpatient unit, or a participating hospital, or a nursing facility that additionally meets the hospice standards regarding staff and patient areas. Services provided in an inpatient setting must conform to the written plan of care. General inpatient care may be required for procedures necessary for pain control or acute or chronic symptom management that cannot be provided in other settings. Inpatient care may also be furnished to provide respite for the participant's family or other persons caring for the participant at home. (3-17-22)

06. Medical Equipment and Supplies. Medical equipment and supplies include drugs and biologicals. Only drugs as defined in Subsection 1861(t) of the Social Security Act and that are used primarily for the relief of pain and symptom control related to the patient's terminal illness are required. Appliances include durable medical equipment as well as other self-help and personal comfort items related to the palliation or management of the patient's terminal illness. Equipment is provided by the hospice for use in the patient's home while they are under hospice care. Medical supplies include only those that are part of the written plan of care. (3-17-22)

07. Home Health Services. Home health aide and homemaker services furnished by qualified aides. Home health aides will provide personal care services and will also perform household services necessary to maintain a safe and sanitary environment in areas of the home used by the patient. Homemaker services include assistance in maintenance of a safe and healthy environment and services to enable the participant to carry out the plan of care. (3-17-22)

08. Therapies. Physical therapy, occupational therapy and speech-language pathology services provided for purposes of symptom control or to enable the participant to maintain activities of daily living and basic functional skills. (3-17-22)

09. Core Services. Nursing care, physician's services, medical social services, and counseling are core hospice services and must be routinely provided by hospice employees. Supplemental core services may be contracted for during periods of peak patient loads and to obtain physician specialty services. (3-17-22)

454. HOSPICE: PROCEDURAL REQUIREMENTS.

01. Physician Certification. The hospice must obtain the certification that a participant is terminally ill in accordance with the following procedures: (3-17-22)

a. For the first period of hospice coverage, the hospice must obtain, no later than two (2) calendar days after hospice care is initiated, written certification statements signed by the medical director of the hospice or the physician member of the hospice interdisciplinary group and the participant's attending physician (if the participant has one). The certification must include the statement that the participant's medical prognosis is that their life expectancy is six (6) months or less and the signature(s) of the physician(s). In the event the participant's medical prognosis or the appropriateness of hospice care is questionable, the Department has the right to obtain another physician's opinion to verify a participant's medical status. (3-17-22)

b. For any subsequent election period, the hospice must obtain, no later than two (2) calendar days after the beginning of that period, a written certification statement prepared by the medical director of the hospice or the physician member of the interdisciplinary group. The certification must include the statement that the

participant's medical prognosis is that their life expectancy is six (6) months or less and the signature(s) of the physician(s). (3-17-22)

c. The hospice must maintain the monthly certification statements for review. (3-17-22)

d. The hospice will submit a physician listing with their provider application and update changes in the listing of physicians that are hospice employees, including physician volunteers, to the Bureau of Facility Standards. The designated hospice must also notify the Medicaid program when the designated attending physician of a participant in their care is not a hospice employee. (3-17-22)

02. Election Procedures. If an participant elects to receive hospice care, they must file an election statement with a particular hospice. An election statement may also be filed by a legal representative or guardian per Section 15-5-312, Idaho Code. (3-17-22)

a. An election to receive hospice care will be automatically renewed after the initial election period and through any subsequent election periods without a break in care as long as the participant remains in the care of a designated hospice and does not revoke the election. (3-17-22)

b. A participant who elected less than eight (8) monthly election periods within the benefit period may request the availability of the remaining election periods. When the following conditions are met, the request will be granted. (3-17-22)

i. The hospice days available did not exceed two hundred ten (210) days in the benefit period due to the loss of financial eligibility. (3-17-22)

ii. The participant or the legal representative did not change hospices excessively per Subsection 454.05 of these rules. (3-17-22)

iii. The participant or the legal representative did not revoke hospice election periods more than eight (8) times per Subsection 454.04 of these rules. (3-17-22)

c. A participant may receive hospice services from the first day of hospice care or any subsequent day of hospice care, but a participant cannot designate an effective date that is earlier than the date that the election is made. (3-17-22)

d. A participant must waive all rights to Medicaid payments for the duration of the election period of hospice care, with the following exceptions: (3-17-22)

i. Hospice care and related services provided either directly or under arrangements by the designated hospice to the participant. (3-17-22)

ii. Any Medicaid services that are not related or equivalent to the treatment of the terminal condition or a related condition for which hospice care was elected. (3-17-22)

iii. Physician services provided by the participant's designated attending physician if that physician is not an employee of the designated hospice or receiving compensation from the hospice for those services. (3-17-22)

03. Election of Hospice. The election statement must include the following items of information: (3-17-22)

a. Identification of the particular hospice that will provide care to the participant. (3-17-22)

b. The participant's or representative's acknowledgment that they have been given a full understanding of hospice care. (3-17-22)

c. The participant's or representative's acknowledgment that they understand that all Medicaid services except those identified in Subsection 454.02.d. of these rules, are waived by the election during the hospice benefit period. (3-17-22)

d. The effective date of the election. (3-17-22)

e. The signature of the participant or the representative and the date of that signature. (3-17-22)

04. Revocation of Hospice Election. A participant or representative may revoke the election of hospice care at any time. (3-17-22)

a. To revoke the election of hospice care, the participant must file a signed statement with the hospice that includes that the participant revokes the election for Medicaid coverage of hospice care effective as of the date of the revocation. (3-17-22)

b. Upon revocation of the hospice election, other Medicaid coverage is reinstated. (3-17-22)

05. Change of Hospice. A participant may at any time change their designated hospice during election periods for which they are eligible. (3-17-22)

a. A participant may change designated hospices no more than six (6) times during the hospice benefit period. (3-17-22)

b. The change of the designated hospice is not considered a revocation of the election. To change the designation of hospice programs, the participant must file during the monthly election period, with the hospice from which they have received care and with the newly designated hospice, a dated and signed statement that includes the following information: (3-17-22)

i. The name of the hospice from which the participant has received care; (3-17-22)

ii. The name of the hospice from which they plan to receive care; and (3-17-22)

iii. The effective date of the change in hospices. (3-17-22)

c. A change in ownership of a hospice is not considered a change in the patient's designation of a hospice, and requires no action on the patient's part. (3-17-22)

06. Plan of Care. A plan of care must be established and reviewed at least monthly. To be covered, services must be consistent with the plan of care. (3-17-22)

a. In establishing the initial plan of care, the member of the basic interdisciplinary group who assesses the patient's needs must meet or call at least one (1) other group member (nurse, physician, medical social worker, or counselor) before writing the initial plan of care. (3-17-22)

b. At least one (1) of the persons involved in developing the initial plan must be a nurse or a physician. This plan must be established on the same day as the assessment if the day of assessment is to be a covered day of hospice care. (3-17-22)

c. The other two (2) members of the basic interdisciplinary group must review the initial plan of care and provide their input to the process of establishing the plan of care within two (2) calendar days following the day of assessment; input may be provided by telephone. (3-17-22)

455. HOSPICE: PROVIDER QUALIFICATIONS AND DUTIES.

All services must be performed by appropriately qualified personnel, but it is the nature of the service, rather than the qualification of the person who provides it, that determines the category of the service. (3-17-22)

456. HOSPICE: PROVIDER REIMBURSEMENT.

With the exception of payment for physician services under Section 458 of these rules, Medicaid reimbursement for hospice care will be made at one (1) of five (5) predetermined rates for each day in which a participant receives the respective type and intensity of the services furnished under the care of the hospice. The five (5) rates are prospective

rates; there will be no retroactive rate adjustments other than the application of the “cap” on overall payments, the service intensity add-on, and the limitation on payments for inpatient care, if applicable. A description of the payment for each level of care is described in Subsections 456.01 through 456.04 of these rules. (3-17-22)

01. Routine Home Care. The hospice provider will be paid one (1) of two (2) routine home care rates for each day the patient is in residence, under the care of the hospice, and not receiving continuous home care. The rate is paid without regard to the volume or intensity of routine home care services provided on any given day. The two-rate payment methodology will result in a higher based payment for days one (1) through sixty (60) of hospice care and a reduced rate for days sixty-one (61) to end-of-care. If a participant leaves hospice care and then later is placed back on hospice care, regardless of hospice provider, a minimum of a sixty (60) day gap in hospice services is required in order for the routine home care rate to be paid at the higher base payment rate. If there is not a minimum of a sixty (60) day gap in hospice services being provided, the hospice provider will be paid at the rate for which the participant is qualified. (3-17-22)

02. Continuous Home Care. Continuous home care is to be provided only during a period of crisis. A period of crisis is a period in which a patient requires continuous care that is primarily nursing care to achieve palliation and management of acute medical symptoms. Care must be provided by either a licensed registered nurse or a licensed practical nurse and a nurse must provide care for at least half the total period of care. A minimum of eight (8) hours of care must be provided during a twenty-four (24) hour day that begins and ends at midnight. This care need not be continuous and uninterrupted. If less skilled care is needed on a continuous basis to enable the person to remain at home, this is covered as routine home care. For every hour or part of an hour of continuous care furnished, the hourly rate will be reimbursed to the hospice up to twenty-four (24) hours per day. (3-17-22)

03. Inpatient Respite Care. The hospice will be paid at the inpatient respite care rate for each day that the participant is in an approved inpatient facility and is receiving respite care. Payment for respite care may be made for a maximum of five (5) days at a time including the date of admission but not counting the date of discharge in any monthly election period. Payment for the sixth and any subsequent day is to be made at the appropriate rate routine, continuous, or general inpatient rate. (3-17-22)

04. General Inpatient Care. Payment at the inpatient rate will be made when general inpatient care is provided. No other fixed payment rates will be applicable for a day on which the participant receives hospice general inpatient care except as described in Section 458 of these rules. (3-17-22)

a. Date of discharge. For the day of discharge from an inpatient unit, the appropriate home care rate is to be paid unless the patient dies as an inpatient. When the patient is discharged as deceased, the inpatient rate, either general or respite, is to be paid for the discharge date. (3-17-22)

b. Hospice payment rates. The Medicaid hospice payment rates are the same as the Medicare hospice rates, adjusted to disregard cost offsets attributable to Medicare coinsurance amounts. Under the Medicaid hospice benefit, no cost sharing may be imposed with respect to hospice services rendered to Medicaid participants. (3-17-22)

c. Obligation of continuing care. After the participant’s hospice benefit expires, the patient’s Medicaid hospice benefits do not expire. The hospice must continue to provide that participant’s care until the patient expires or until the participant revokes the election of hospice care. (3-17-22)

05. Service Intensity Add-On. For hospice services with dates of service on and after January 1, 2016, a service intensity add-on payment will be made for a visit by a licensed registered nurse (RN) or social worker when provided in the last seven (7) days of life. Payment for the service intensity add-on is in addition to the routine home care rate and is calculated by multiplying the continuous home care rate per fifteen (15) minutes by the number of units for the combined visits for the day. Payment must not exceed sixteen (16) units per day, and is adjusted for geographic differences in wages. Phone time for a provider's social worker is not eligible for a service intensity add-on payment. (3-17-22)

457. HOSPICE: LIMITATION ON PAYMENTS FOR INPATIENT CARE.

Payments to a hospice for inpatient care must be limited according to the number of days of inpatient care furnished to Medicaid patients. During the twelve (12) month period beginning November 1st of each year and ending October

31st of the next year, the aggregate number of inpatient days (both general inpatient days and inpatient respite care) may not exceed twenty percent (20%) of the total number of days of hospice care provided to all Medicaid participants during the same period by the designated hospice or its contracted agent(s). (3-17-22)

01. For Purposes of Computation. If it is determined that the inpatient rate should not be paid, any days for which the hospice receives payment at a home care rate will not be counted as inpatient days. The limitations on payment for inpatient days are as follows: (3-17-22)

a. The maximum number of allowable inpatient days will be calculated by multiplying the total number of a provider's Medicaid hospice days by twenty percent (20%). (3-17-22)

b. If the total number of days of inpatient care to Medicaid hospice patients is less than or equal to the maximum number of inpatient days computed in Subsection 457.01 of these rules then no adjustment is made. (3-17-22)

c. If the total number of days of inpatient care exceeds the maximum number of allowable inpatient days computed in Subsection 457.01 of these rules then the payment limitation will be determined by: (3-17-22)

i. Calculating the ratio of the maximum allowable inpatient days to the number of actual days of inpatient care, and multiplying this ratio by the total reimbursement for inpatient care that was made. (3-17-22)

ii. Multiplying excess inpatient care days by the routine home care rate. (3-17-22)

iii. Adding the amounts calculated in Subsections 457.01.c.i. and 457.01.c.ii. of these rules. (3-17-22)

iv. Comparing the amount in Subsection 457.01.c.iii. of these rules with interim payments made to the hospice for inpatient care during the "cap period." (3-17-22)

02. The amount by which interim payments for inpatient care exceeds the amount calculated as in Section 459 of these rules is due from the hospice. (3-17-22)

458. HOSPICE: PAYMENT FOR PHYSICIAN SERVICES.

The basic rates for hospice care represent full reimbursement to the hospice for the costs of all covered services related to the treatment of the participant's terminal illness, including the administrative and general activities performed by physicians who are employees of or working under arrangements made with the hospice. These activities would generally be performed by the physician serving as the medical director and the physician member of the hospice interdisciplinary group. Group activities include participation in the establishment of plans of care, supervision of care and services, periodic review and updating of plans of care, and establishment of governing policies. The costs for these services are included in the reimbursement rates for routine home care, continuous home care, and inpatient respite care. (3-17-22)

01. Hospice Employed Physician Direct Patient Service. Reimbursement for a hospice employed physician's direct patient services that are not rendered by a hospice volunteer is made in accordance with the usual Idaho Medicaid reimbursement methodology for physician services. These services will be billed by the hospice under the hospice provider number and, the related payments will be counted in determining whether the overall hospice cap amount per Section 459 of these rules has been exceeded. The only physician services to be billed by a hospice for such services are direct patient care services. Laboratory and X-ray services are included in the hospice daily rate. (3-17-22)

02. Volunteer Physician Services. Volunteer physician services are excluded from Medicaid reimbursement with the following exceptions: (3-17-22)

a. A hospice may be reimbursed on behalf of a volunteer physician for specific direct patient care services that are not rendered on a volunteer basis. The hospice must have a liability to reimburse the physician for those services rendered. In determining whether a service is provided on a volunteer basis, a physician must not distinguish which services are provided voluntarily on the basis of the patient's ability to pay. (3-17-22)

b. Reimbursement for an independent physician's direct patient services that are not rendered by a hospice volunteer is made in accordance with the usual Idaho Medicaid reimbursement methodology for physician services. These services will not be billed by the hospice under the hospice provider number and they will not be counted in determining whether the overall hospice cap amount per Section 459 of these rules has been exceeded. The only services to be billed by an attending physician are the physician's personal professional services. Costs for services such as laboratory or X-rays are not to be included on the attending physician's billed charges to the Medicaid program. The aforementioned charges are included in the daily rates paid and are expressly the responsibility of the hospice. (3-17-22)

459. HOSPICE: CAP ON OVERALL REIMBURSEMENT.

Aggregate payments to each hospice will be limited during a hospice cap period per Subsection 451.05 of these rules. The total payments made for services furnished to Medicaid participants during this period will be compared to the "cap amount" for this period. Any payments in excess of the cap must be refunded by the hospice. (3-17-22)

01. Overall Cap. The overall cap will be compared to reimbursement after the inpatient limitation is computed and subtracted from total reimbursement due the hospice. (3-17-22)

02. Total Payment for Services. Total payment made for services furnished to Medicaid participants during this period means all payments for services rendered during the cap year, regardless of when payment is actually made. (3-17-22)

03. Calculation of Cap Amount. The "cap amount" is calculated by multiplying the number of participants electing certified hospice care during the period by six thousand five hundred dollars (\$6,500). This amount will be adjusted for each subsequent cap year beginning November 1, 1983, to reflect the percentage increase or decrease in the medical care expenditure category of the Consumer Price Index (CPI) for all urban consumers as published by the Bureau of Labor Statistics. It will also be adjusted as per Subsection 459.07 of these rules. (3-17-22)

04. Computation and Application of Cap Amount. The computation and application of the "cap amount" is made by the Department after the end of the cap period. (3-17-22)

05. Report Number of Medicaid Participants. The hospice must report the number of Medicaid participants electing hospice care during the period to the Department. (3-17-22)

a. This must be done within thirty (30) days after the end of the cap period: and (3-17-22)

b. If the participant is transferred to a non-certified hospice no payment to the non-certified hospice will be made and the certified hospice may count a complete participant benefit period in their cap amount. (3-17-22)

06. Certified in Mid-Month. If a hospice certifies in mid-month, a weighted average cap amount based on the number of days falling within each cap period would be used. (3-17-22)

07. Adjustment of the Overall Cap. Cap amounts in each hospice's cap period will be adjusted to reflect changes in the cap periods and designated hospices during a participant's election period. The proportion of each hospice's days of service to the total number of hospice days rendered to the participant during their election period will be multiplied by the cap amount to determine each hospice's adjusted cap amount. (3-17-22)

a. After each cap period has ended, the Department will calculate the overall cap within a reasonable time for each hospice participating in the Idaho Medicaid Program. (3-17-22)

b. Each hospice's cap amount will be computed as follows: (3-17-22)

i. The share of the "cap amount" that each hospice is allowed will be based on the proportion of total covered days provided by each hospice in the "cap period." (3-17-22)

ii. The proportion determined in Section 457 of these rules for each certified hospice will be

multiplied by the “cap amount” specified for the “cap period” in which the participant first elected hospice. (3-17-22)

c. The participant must file an initial election during the period beginning September 28 of the previous year through September 27 of the current cap year in order to be counted as an electing Medicaid participant during the current cap year. (3-17-22)

08. Additional Amount for Nursing Facility Residents. An additional per diem amount will be paid for “room and board” of hospice residents in a certified nursing facility receiving routine or continuous care services. In this context, the term “room and board” includes all assistance in the activities of daily living, in socializing activities, administration of medication, maintaining the cleanliness of a resident’s room, and supervision and assisting in the use of durable medical equipment and prescribed therapies. The additional payments and the related days are not subject to the caps specified in Sections 457 and 459 of these rules. The room and board rate will be ninety-five percent (95%) of the per diem interim reimbursement rate assigned to the facility for those dates of service on which the participant was a resident of that facility. (3-17-22)

460. HOSPICE: POST-ELIGIBILITY TREATMENT OF INCOME.

Where a participant is determined eligible for medical assistance participation in the cost of long term care, the Department will reduce its payments for all costs of the hospice benefit, including the supplementary amounts for room and board, by an amount determined according to Section 227 of these rules. (3-17-22)

500. DEVELOPMENTAL DISABILITY DETERMINATION STANDARDS.

Prior to receiving developmental disability services as provided in Sections 507 through 719 of these rules, the participant must be determined to have a developmental disability. (3-17-22)

501. DEVELOPMENTAL DISABILITY DETERMINATION STANDARDS: ELIGIBILITY.

The definitions and standards in the table below must be used to determine whether a participant meets criteria as a person with a developmental disability under Section 66-402, Idaho Code.

(Does not include mental illness) Intellectual Disability: A full scale IQ score above 75 can in some circumstances be considered a related or similar condition to an intellectual disability when additional supporting documentation exists showing how the individual's functional limitations make their condition similar to an intellectual disability. (b) results in substantial functional limitations in three (3) or more of the following major life activities:	"Results in" means that the substantial limitation must be because of the impairment. A "substantial" limitation is one in which the total effect of the limitation results in the need for a "combination and sequence of special interdisciplinary, or generic care, treatment or other services that need to be individually planned and coordinated." Listed below are standards for substantial functional limitations in each major life area. Age 3 through Adult: A score of 2 standard deviations below the mean creates a presumption of a functional limitation. Birth to Age 3: The following criteria must be utilized to determine a substantial functional limitations for children under 3: a. The child scores 30% below age norm; or b. The child exhibits a 6 month delay; or c. The child scores 2 standard deviations below the mean.
self care;	Adult: A substantial functional limitation is manifest when the person requires physical or non-physical assistance in performing eating, hygiene, grooming, or health care skills, or when the time required for a person to perform these skills him/her self is so substantial as to impair their ability to conduct other activities of daily living or retain employment. Birth to Age 21: A functional limitation is manifest when the child's skills are limited according to age-appropriate responses such that the parent, caregiver, or school personnel is required to provide care that is substantially beyond that typically required for a child of the same age (such as excessive time lifting, diapering, supervision).

Participants may develop their own plan or designate a paid or non-paid plan developer. In developing the plan of service, the plan developer and the participant must identify services and supports available outside of Medicaid-funded services that can help the participant meet desired goals. Authorized services must be delivered by providers who are selected by the participant. (7-1-24)

05. Plan Monitoring. The participant, service coordinator, or plan monitor must monitor the plan. The plan developer is the plan monitor unless there is a service coordinator, in which case the service coordinator assumes

the roles of both service coordinator and plan monitor. The planning team must identify the frequency of monitoring, which must be at least every ninety (90) days. Plan monitoring must include the following: (3-17-22)

- a. Review of the plan of service in a face-to-face contact with the participant to identify the status of programs and changes if needed. The face-to-face encounter may occur via synchronous interaction virtual care, as defined in Title 54, Chapter 57, Idaho Code; (7-1-24)
- b. Contact with service providers to identify barriers to service provision; (3-17-22)
- c. Discuss with participant satisfaction regarding quality and quantity of services; and (3-17-22)

(7-1-24)

06. Provider Status Reviews. Service providers, with exceptions identified in Subsection 513.09 of this rule, must report the participant's progress toward goals to the plan monitor on the provider status review when the plan has been in effect for six (6) months and at the annual person-centered planning meeting. The semi-annual review is due fifteen (15) days after the end of the six (6) month period. The annual review is due thirty (30) days after plan's end. The semi-annual and annual reviews must include: (7-1-24)

- a. The status of supports and services to identify progress; (3-17-22)

- c. Delay or prevention of regression. (3-17-22)

07. Content of the Plan of Service. The plan of service must identify the type of service to be delivered, goals to be addressed within the plan year, frequency of supports and services, and identified service providers. The plan of service must include activities to promote progress, maintain functional skills, or delay or prevent regression. (3-17-22)

a. The written plan of service must meet the person-centered planning requirements described in Section 317 of these rules. (3-17-22)

b. The written plan of service must be finalized and agreed to under procedural requirements described in Section 704 of these rules. (7-1-24)

c. The Department will distribute a copy of the plan of service to adult DD service providers defined in Section 317 of these rules. Additionally, the plan developer will be responsible to distribute a copy of the plan of service, in whole or part, to any other DD service provider identified by the participant during the person-centered planning process. (7-1-24)

08. Informed Consent. Unless the participant has a guardian who retains full decision-making authority, the participant must make decisions regarding the type and amount of services required. Prior to plan development, the plan developer must document that they have provided information and support to the participant to maximize their ability to make informed choices regarding the services and supports they receive and from whom. During plan development and amendment, planning team members must each indicate whether they believe the plan meets the needs of the participant and represents the participant's choice. If there is a conflict that cannot be resolved among person-centered planning members or if a member does not believe the plan meets the participant's needs or represents the participant's choice, the plan or amendment may be referred to the Bureau of Developmental Disability Services to negotiate a resolution with members of the planning team. (3-17-22)

09. Provider Implementation Plan. Each provider of Medicaid services must develop an implementation plan that complies with home and community-based setting requirements and identifies specific

objectives that relate to goals finalized and agreed to in the participant's authorized plan of service. These objectives must demonstrate how the provider will assist the participant to meet the participant's goals, desired outcomes, and needs identified in the plan of service. (3-17-22)

- a.** Exceptions. An implementation plan is not required for waiver providers of: (3-17-22)
 - i.** Specialized medical equipment; (3-17-22)
 - ii.** Home-delivered meals; (3-17-22)
 - iii.** Environmental accessibility adaptations; (3-17-22)

 - vii.** Chore services; (7-1-24)
 - viii.** Community crisis support services; and (7-1-24)
 - ix.** Adult DD service coordination. (7-1-24)
 - b.** Time for Completion. Implementation plans must be completed within fourteen (14) days of receipt of the authorized plan of service or the service start date, whichever is later. (3-17-22)
 - i.** If the authorized plan of service is received after the service start date, service providers must support billing by documenting service provision as agreed to by the participant and consistent with Section 704 of these rules. (3-17-22)
 - ii.** Implementation plan revision must be based on changes to the needs of the participant. (3-17-22)
 - c.** Documentation of Changes. Documentation of Implementation Plan changes will be included in the participant's record, and must include the reason for the change, documentation of coordination with other service providers (where applicable), the date the change was made, and the signature of the person making the change complete with the date and title. (7-1-24)

10. HCBS Plan of Service Signature. Upon receipt of the authorized plan of service, HCBS providers responsible for the implementation of the plan under Section 317 of these rules must sign the plan indicating they will deliver services according to the finalized and authorized plan of service, and consistent with home and community-based requirements. Each HCBS provider responsible for the implementation of the plan must maintain their signed plan in the participant's record. Documentation of signature must include the signature of the professional responsible for service provision complete with their title and the date signed. Provider signature is to be completed each time an initial or annual plan of service is implemented. (7-1-24)

11. Addendum to the Plan of Service. (3-17-22)

- a.** A plan of service may be adjusted during the year with an addendum to the plan. These adjustments must be based on a change to a cost, addition or increase of a service, or a change of provider, addition of a restrictive intervention, or addition of alone time. Additional assessments or information may be clinically necessary. Adjustment of the plan of service is subject to prior authorization by the Department. (7-1-24)
- b.** When a service plan has been adjusted, the Department will distribute a copy of the addendum to HCBS providers responsible for the implementation of the plan of service under Section 317 of these rules. (7-1-24)
- c.** Upon receipt of the addendum, the HCBS provider must sign the addendum indicating they have

reviewed the plan adjustment and will deliver services accordingly. Documentation must include the signature of the professional responsible for service provision complete with their title and the date signed, and must be maintained in the participant's record. Provider signature is to be completed each time an addendum is authorized. (7-1-24)

12. Annual Reauthorization of Services. A participant's plan of service must be reauthorized annually. The Department will review and authorize the new plan of service prior to the expiration of the current plan. (3-17-22)

a. A new plan of service must be provided to the Department by the plan developer at least forty-five (45) days prior to the expiration date of the current plan unless delayed because of participant unavailability due to extenuating circumstances. If the plan is not submitted within the period, authorization for provider payments may be terminated. Prior to submission, the plan developer must: (7-1-24)

i. Notify the providers who appear on the plan of service of the annual review date. (3-17-22)

ii. Obtain a copy of the current annual provider status review from each provider for use by the person-centered planning team. Each provider status review must meet the requirements in Subsection 513.06 of this rule. (7-1-24)

iii. Convene the person-centered planning team to develop a new plan of service inviting individuals to participate that have been identified by the participant. (3-17-22)

b. The plan of service will be evaluated and prior authorized under the requirements in Sections 507 and 513 of these rules. (7-1-24)

c. The annual budget and services may be adjusted by the Department based on demonstrated outcomes, progress toward goals and objectives, and benefit of services. (7-1-24)

d. If the provider's annual status reviews are not submitted to the plan developer with the annual plan, services may not be authorized at the time of the annual reauthorization. These services may be added to the plan of service only by means of an addendum to the plan under Subsection 513.10 of this rule. (7-1-24)

e. For participants who are re-applying for service after a lapse in service, the assessor will evaluate whether assessments are current and accurately describe the status of the participant. (7-1-24)

f. An annual assessment will be completed under Section 512 of these rules. (7-1-24)

13. Participant Plan of Service Notifications. The Department will notify each participant whether their plan of service was approved in whole, in part, or denied. The notification will include an individualized explanation of the decision and how the participant may appeal the service plan decision. (7-1-24)

514. ADULT DEVELOPMENTAL DISABILITY SERVICES PRIOR AUTHORIZATION: PROVIDER REIMBURSEMENT.

Providers are reimbursed on a fee-for-service basis based on a participant budget. (3-17-22)

01. Individualized Budget Beginning on October 1, 2006. Beginning October 1, 2006, for DD waiver participants, and beginning January 1, 2007, for all other adult DD participants, the Department sets an individualized budget for each participant according to an individualized measurement of the participant's functional abilities, behavioral limitations, and medical needs related to the participant's disability. Using these specific participant factors, the budget-setting methodology will correlate a participant's characteristics with the participant's individualized budget amount, so participants with higher needs will be assigned a higher individualized budget amount. (3-17-22)

a. The Department notifies each participant of their set budget amount as part of the eligibility determination process or annual redetermination process. The notification will include how the participant may appeal the set budget amount. (3-17-22)

b. Individualized budgets will be re-evaluated annually. At the request of the participant, the Department will also re-evaluate the set budget amount when there are documented changes in the participant's condition resulting in a need for services that meet medical necessity criteria, and this is not reflected on the current inventory of individual needs. (3-17-22)

02. Residential Habilitation - Supported Living Acuity-Based Levels of Support. Reimbursement for residential habilitation - supported living is based on the participant's assessed level of support need. All plans of service that include supported living must include community integration goals that provide for maintained or enhanced independence, quality of life, and self-determination. The number of residents in a setting will be limited by an amount in the Idaho Medicaid Provider Handbook, unless otherwise authorized by the Department. As a participant's independence increases and they are less dependent on supports, they must transition to less intense supports. (7-1-24)

a. High support is for those participants who require twenty-four (24) hour per day supports and supervision as determined by a Department-approved assessment tool. High support allows for a blend of one-to-one and group staffing. Participants authorized at the high support daily rate will not be authorized to receive developmental therapy services, adult day care, or non-medical transportation. These services are included in the high support daily rate. (3-17-22)

b. Intense support is for those exceptional participants who require intense, twenty-four (24) hour per day supports and supervision. This support level typically requires one-on-one staffing, but requests for a blend of one-on-one and group staffing will be reviewed on a case-by-case basis. Participants authorized at the intense support daily rate will not be authorized to receive developmental therapy services, adult day care, or non-medical transportation. These services are included in the intense support daily rate. To qualify for this level of support, participants must be evaluated to meet one (1) or more of the following criteria: (3-17-22)

i. Recent felony convictions or charges for offenses related to the serious injury or harm of another person. These participants must have been placed in a supported living setting directly from incarceration or directly after being diverted from incarceration. (3-17-22)

ii. History of predatory sexual offenses and are at high risk to re-offend based on a sexual offender risk assessment completed by an appropriate professional. (3-17-22)

iii. Documented, sustained history of serious aggressive behavior showing a pattern of causing harm to themselves or others. The serious aggressive behavior must be such that the threat or use of force on another person makes that person reasonably fear bodily harm. The participant must also have the capability to carry out such a threat. The frequency and intensity of this type of aggressive behavior must require continuous monitoring to prevent injury to themselves or others. (3-17-22)

iv. Chronic or acute medical conditions that are so complex or unstable that one-to-one staffing is required to provide frequent interventions and constant monitoring. Without this intervention and monitoring the participant would require placement in a nursing facility, hospital, or ICF/IID with twenty-four (24) hour on-site nursing. Verification of the complex medical condition and the need for this level of service requires medical documentation. (3-17-22)

c. Hourly support is for those individuals who do not meet criteria for either high or intense supports or those individuals who qualify for a daily rate but whose needs can be met with less than twenty-four (24) hour per day support. The combination of hourly supported living, developmental therapy, community-supported employment, and adult day care will not be authorized to exceed the maximum set daily amount established by the Department, except when all of the following are met: (7-1-24)

i. The participant is eligible to receive the high support daily rate; (3-17-22)

ii. Community-supported employment is included in the plan and is causing the combination to exceed the daily limit; (3-17-22)

iii. There is documentation that the Person-Centered Planning team has explored other options

including using lower-cost services and natural supports; and (3-17-22)

iv. The participant's health and safety needs will be met using hourly services despite having been assessed to qualify for twenty-four (24) hour care. (3-17-22)

515. ADULT DEVELOPMENTAL DISABILITY SERVICES: QUALITY ASSURANCE AND IMPROVEMENT.

01. Quality Assurance. Consists of audits and reviews to assure compliance with the Department's rules and regulations. If problems are identified during the review or audit, the provider must implement a corrective action plan within forty-five (45) days after the results are received. (7-1-24)

02. Quality Improvement. The Department may gather and utilize information from providers to evaluate customer satisfaction, participant satisfaction, participant experience related to home and community-based setting qualities, outcomes monitoring, care management, quality assurance, quality improvement activities, and health and safety. These findings may lead to quality improvement activities to improve provider processes and outcomes for participants. (3-17-22)

03. Exception Review. The Department will complete an exception review of plans or addenda requesting services that exceed the assigned budget authorized by the assessor. Requests for these services will be authorized when one (1) of the following is met: (7-1-24)

a. Services are needed to assure the health or safety of participants and the services requested on the plan or addendum are needed to mitigate a documented health risk or safety risk. (7-1-24)

b. Supported employment services as defined in Section 703 of these rules are needed for the participant to obtain or maintain employment. The request must be submitted on the Department-approved Exception Review Form and is reviewed and approved based on the following: (3-17-22)

i. A supported employment service recommendation must be submitted that includes: recommended amount of service, level of support needed, employment goals, and a transition plan. When the participant is transitioned from the Idaho Division of Vocational Rehabilitation (IDVR) services, the recommendation must be completed by IDVR. When a participant is in an established job, the recommendation must be completed by the supported employment agency identified on the plan of service or addendum; (3-17-22)

ii. The participant's plan of service was developed by the participant and their person-centered planning team and includes a goal for supported employment services. Prior to the submission of an exception review with an addendum, a comprehensive review of all services on the participant's plan must occur. The participant's combination of services must support the increase or addition of supported employment services; and (3-17-22)

iii. An acknowledgment signed by the participant and their legal guardian, if one exists, that additional budget dollars approved to purchase supported employment services must not be reallocated to purchase any other Medicaid service. (3-17-22)

04. Concurrent Review. The Department will obtain the necessary information to determine that participants continue to meet eligibility criteria, participant rights are maintained, services continue to be clinically necessary, services continue to be the choice of the participant, services support participant integration, and services constitute appropriate care to warrant continued authorization or need for the service. (3-17-22)

05. Participant Complaints. Participant complaints about program operations, quality of services, or other relevant concerns may be referred to the Division of Medicaid and will be tracked and routed for follow-up as warranted. (7-1-24)

06. Abuse, Fraud, or Substandard Care. Reviewers finding suspected abuse, fraud, or substandard care must refer their findings for investigation to the Department and other regulatory or law enforcement agencies for investigation. (3-17-22)

Respite may be provided by a DDA or by an independent respite provider. An independent respite provider may be a relative of the participant. Payment for respite does not include room and board. As the number and severity of the participants with functional impairments or behavioral needs increase, the participant ratio in the group must be adjusted accordingly. (3-17-22)

This service provides an opportunity for participants to explore their interests, practice skills learned in other therapeutic environments, and learn through

interactions in typical community activities. Integration into the community enables participants to expand their skills related to activities of daily living and reinforces skills to achieve or maintain mobility, sensory-motor, communication, socialization, personal care, relationship building, and participation in leisure and community activities. Community-based supports must: (3-17-22)

- a.** Not supplant services provided in school or therapy, or supplant the role of the primary caregiver; (3-17-22)
- b.** Ensure the participant is involved in age-appropriate activities in environments typical peers access according to the ability of the participant; and (3-17-22)
- c.** Have a minimum of one (1) qualified staff providing direct services for up to six (6) participants when provided as group community-based supports. As the number and severity of the participants with functional impairments or behavioral needs increase, the staff participant ratio must be adjusted accordingly. (3-17-22)

03. Family Education. Family education is professional assistance to family members, or others, who participate in caring for the eligible participant to help them better meet the needs of the participant by providing an orientation to developmental disabilities and to educate families on generalized strategies for behavioral modification and intervention techniques specific to the participant's diagnosis. It offers education that is specific to the needs of the family and participant as identified on the plan of service. (3-17-22)

- a.** Family education providers must maintain documentation of the training in the participant's record including the provision of activities outlined in the plan of service. (3-17-22)
- b.** Family education may be provided in a group setting not to exceed five (5) participants' families. (3-17-22)

04. Family-Directed Community Supports (FDCS). Families of participants eligible for the children's DD HCBS state plan option may choose to direct their individualized budget rather than receive the traditional services described in Subsections 523.01 through 523.04 of this rule when the participant lives at home with their parent or legal guardian. All services provided under FDCS option must be delivered on a one-to-one basis, must be identified on a plan of service developed by the family-centered planning team, and must be prior authorized. Additional requirements for this option are outlined in Sections 520 through 522, Subsections 523.05-06 524.01-03, 524.07-10, and 525.01, and Section 528, of these rules, and IDAPA 16.03.13, "Consumer-Directed Services." (3-17-22)

- b.** Services offered in IDAPA 16.03.09, "Medicaid Basic Plan Benefits," may not be authorized under these rules. (3-17-22)
- c.** Duplication of services cannot be provided. Services are considered duplicate when: (3-17-22)
 - i.** An adaptive equipment and support service address the same goal; (3-17-22)
 - ii.** Multiple adaptive equipment items address the same goal; (3-17-22)
 - iii.** Goals are not separate and unique to each service provided; or (3-17-22)
 - iv.** When more than one (1) service is provided at the same time, unless otherwise authorized. (3-17-22)
- d.** For the children's DD HCBS state plan option listed in Subsections 523.01, 523.02, and 523.03 of this rule, the following are excluded for Medicaid payment: (3-17-22)

- i. Vocational services; (3-17-22)
- ii. Educational services; and (3-17-22)
- iii. Recreational services. (3-17-22)

06. HCBS Compliance. Providers of children's DD HCBS are responsible for ensuring that they meet the setting quality requirements described in Section 313 of these rules, as applicable, and must comply with associated Department quality assurance activities. The Department may take enforcement actions as described in IDAPA 16.03.09, "Medicaid Basic Plan Benefits," Section 205, if the provider fails to comply with any term or provision of the provider agreement, or any applicable state or federal regulation. (3-17-22)

524. CHILDREN'S DD HCBS STATE PLAN OPTION: PLAN OF SERVICE PROCESS.

This plan of service is developed within the individualized participant budget referred to in Section 522 of these rules and must identify all services. The plan of service must identify services and supports if available outside of Medicaid-funded services that can help the participant meet desired goals. Paid plan development must be provided by the Department, or its contractor, in accordance with Section 316 of these rules. (3-17-22)

01. History and Physical. Prior to the development of the plan of service, the plan developer must obtain a current history and physical completed by a practitioner of the healing arts. This is required at least annually or more frequently as determined by the practitioner. For participants in Healthy Connections, the Healthy Connections physician may conduct the history and physical and refer the participant for other evaluations. (3-17-22)

02. Plan of Service Development. The plan of service must be developed with the child participant, the participant's decision-making authority, and facilitated by the Department, or its designee. If the participant is unable to attend the family-centered planning meeting, the plan of service must contain documentation to justify the participant's absence. With the decision-making authority's consent, the family-centered planning team may include other family members or participants who are significant to the participant. (3-17-22)

03. Requirements for Collaboration. Providers of children's DD HCBS must coordinate with the family-centered planning team as specified on the plan of service. (3-17-22)

04. Plan Monitoring. The family-centered planning team must identify the frequency of monitoring, which must be at least every six (6) months and document the plan monitor's name along with the monitoring frequency on the plan. The plan developer is considered the plan monitor and must meet face-to-face with the participant and the participant's decision-making authority at least annually. Plan monitoring includes reviewing the plan of service with the participant and the participant's decision-making authority to identify the current status of services, any barriers to services, and any necessary changes to the plan of service. (3-17-22)

05. Provider Status Reviews. The service providers identified in Section 526 of these rules must report the participant's progress toward goals to the plan monitor. The provider must complete a six (6) month and annual provider status review. The six (6) month status review must be submitted thirty (30) days prior to the six (6) month date listed on the plan of service. The annual provider status review must be submitted to the plan monitor forty-five (45) calendar days prior to the expiration of the existing plan of service. (3-17-22)

06. Addendum to the Plan of Service. A plan of service may be adjusted during the year with an addendum to the plan and these adjustments must be based on changes in a participant's need and requested by the parent or legal guardian. Adjustment of the plan of service requires the decision-making authority's signature and prior authorization by the Department. The Department will distribute the addendum to the providers involved in the addendum's implementation. Upon receipt by the provider, the addendum must be reviewed, signed, and returned to the Department, with a copy maintained in the participant's record. (3-17-22)

07. Annual Reauthorization of Services. A participant's plan of service must be reauthorized annually. The Department must review and authorize the new plan of service prior to the expiration of the current plan. (3-17-22)

08. Annual Eligibility Determination Results. An annual determination must be completed in accordance with Section 522 of these rules. (3-17-22)

09. Adjustments to the Annual Budget and Services. The annual budget may be adjusted when there are documented changes that may support placement in a different budget category as identified in Section 522 of these rules. Services may be adjusted at any time during the plan year. (3-17-22)

10. Reapplication After a Lapse in Service. For participants who are re-applying for service, the assessor must evaluate whether assessments are current and accurately describe the status of the participant. (3-17-22)

525. CHILDREN'S DD HCBS STATE PLAN OPTION: PROCEDURAL REQUIREMENTS.

01. Requirements for Prior Authorization. Prior authorization is to ensure the provision of the right care, in the right place, at the right price, and with the right outcomes in order to enhance health and safety, and to promote participants' rights, self-determination, and independence. Prior authorization is intended to help ensure the provision of necessary and appropriate services and supports. Services are reimbursable if they are identified on the authorized plan of service and are consistent with rules for HCBS as described in Sections 310 through 313 and 316 and 317 of these rules, and for the specific services included on the plan. Delivery of each service identified on the plan of service cannot be initiated until the plan has been signed by the parent or participant's decision-making authority, the provider responsible for service provision, and has been authorized by the Department. (3-17-22)

02. Requirements for Supervision. All children's DD HCBS provided by a DDA or independent provider must be supervised. The supervisor must meet the intervention specialist or professional qualifications as outlined in IDAPA 16.03.09, "Medicaid Basic Plan Benefits," Section 575, "Children's Habilitation Intervention Services." The observation and review of the direct services must be performed by all staff on at least a monthly basis, or more often as necessary, to ensure staff demonstrate the necessary skills to correctly provide the services as defined in this rule set. (3-17-22)

a. Reasonable costs of any services are determined in accordance with rules found in the Provider Reimbursement Manual (PRM), Sections 100 through 2600, as modified by the exceptions contained herein, is used to identify cost items to be included on Idaho's Uniform Cost Report. (3-17-22)

i. Reasonable cost takes into account both direct and indirect costs of providers of services, including normal standby costs. (3-17-22)

ii. The objectives of these methods are that: first, the costs with respect to individuals covered by the program will not be borne by others not so covered. Second, the costs with respect to individuals not covered will not be paid by the program. (3-17-22)

b. Costs may vary from one institution to another because of a variety of factors. It is the intent of the program that providers will be reimbursed the actual operating costs of providing high quality care, unless such costs exceed the applicable maximum base rate developed pursuant to provisions of Title 56, Chapter 1, Idaho Code, or are unallowable by application of promulgated regulation. (3-17-22)

c. Implicit in the intention that actual operating costs be paid to the extent they are reasonable is the expectation that the provider seeks to minimize its costs and that its actual operating costs do not exceed what a prudent and cost-conscious buyer pays for a given item or service. (3-17-22)

d. If costs are determined to exceed the level that such buyers incur, in the absence of clear evidence that the higher costs were unavoidable, the excess costs are not reimbursable. (3-17-22)

02. Costs Related to Patient Care. These include all necessary and proper costs in developing and maintaining the operation of patient care facilities. Necessary and proper costs related to patient care are usually costs that are common and accepted occurrences in the field of the provider's activity. They include costs such as depreciation, interest expense, nursing costs, maintenance costs, administrative costs, costs of employee pension plans, normal standby costs, and others. (3-17-22)

03. Costs Not Related to Patient Care. Costs not related to patient care are costs that are not appropriate or necessary and proper in developing and maintaining the operation of patient care facilities and activities. Such costs are not allowable in computing reimbursable costs. (3-17-22)

04. Form and Substance. Substance of transactions will prevail over the form. Financial transactions will be disallowed to the extent that the substance of the transaction fails to meet reasonable cost principles or comply with rules and policy. (3-17-22)

590. ICF/IID: ALLOWABLE COSTS.

The following definitions and explanations apply to allowable costs: (3-17-22)

01. Accounts Collection. The costs related to the collection of past due program related accounts, such as legal and bill collection fees, are allowable. (3-17-22)

02. Auto and Travel Expense. Maintenance and operating costs of a vehicle used for patient care purposes and travel expense related to patient care are reimbursable. The allowance for mileage reimbursement cannot exceed the amount determined reasonable by the Internal Revenue Service for the period being reported. Meal reimbursement is limited to the amount that would be allowed by the state for a state employee. (3-17-22)

03. Bad Debts. Payments for efforts to collect past due Title XIX and Title XXI accounts are reimbursable. This may include the fees for lawyers and collection agencies. Other allowances for bad debt and bad debt write-off are not allowable. However, Title XIX and Title XXI coinsurance amounts are one hundred percent (100%) reimbursable as provided in PRM, Section 300. (3-17-22)

04. Bank and Finance Charges. Charges for routine maintenance of accounts are allowable. Penalties for late payments, overdrafts, etc., are not allowable. (3-17-22)

05. Compensation of Owners. An owner may receive reasonable compensation for services subject to the limitations in this chapter, to the extent the services are actually performed, documented, reasonable, ordinary, necessary, and related to patient care. Allowable compensation cannot exceed the amount necessary to attract assistance from parties not related to the owner to perform the same services. The nature and extent of services must be supported by adequate documentation including hours performing the services. Where an average industry wide rate for a particular function can be determined, reported allowable owner compensation cannot exceed the average rate. Compensation to owners, or persons related to owners, providing administrative services is further limited by provisions in Section 597 of these rules. In determining the reasonableness of compensation for services paid to an owner or a person related to an owner, compensation is the total of all benefits or remuneration paid to or primarily for the benefit of the owner regardless of form or characterization. It includes, but is not limited to, the following: (3-17-22)

- a.** Salaries wages, bonuses and benefits that are paid or are accrued and paid for the reporting period within one (1) month of the close of the reporting period. (3-17-22)
- b.** Supplies and services provided for the owner's personal use. (3-17-22)
- c.** Compensation paid by the facility to employees for the sole benefit of the owner. (3-17-22)
- d.** Fees for consultants, directors, or any other fees paid regardless of the label. (3-17-22)
- e.** Keyman life insurance. (3-17-22)
- f.** Living expenses, including those paid for related persons. (3-17-22)
- 06. Contracted Service.** All services that are received under contract arrangements are reimbursable to the extent that they are related to patient care or the sound conduct and operation of the facility. (3-17-22)
- 07. Depreciation.** Depreciation on buildings and equipment is an allowable property expense subject to Section 630 of these rules. Depreciation expense is not allowable for land. Lease-hold improvements may be amortized. Generally, depreciation and amortization must be calculated on a straight line basis and prorated over the estimated useful life of the asset. (3-17-22)
- 08. Dues, Licenses and Subscriptions.** Subscriptions to periodicals related to patient care and for general patient use are allowable. Fees for professional and business licenses related to the operation of the facility are allowable. Dues, tuition, and educational fees to promote quality health care services are allowable when the provisions of PRM, Section 400, are met. (3-17-22)
- 09. Employee Benefits.** Employee benefits including health insurance, vacation, and sick pay are allowable to the extent of employer participation. See PRM, Chapter 21 for specifics. (3-17-22)
- 10. Employee Recruitment.** Costs of advertising for new employees, including applicable entertainment costs, are allowable. (3-17-22)
- 11. Entertainment Costs Related to Patient Care.** Entertainment costs related to patient care are allowable only when documentation is provided naming the individuals and stating the specific purpose of the entertainment. (3-17-22)
- 12. Food.** Costs of raw food are allowable. The provider is only reimbursed for costs of food purchased for patients. Costs for nonpatient meals are nonreimbursable. If the costs for nonpatient meals cannot be identified, the revenues from these meals are used to offset the costs of the raw food. (3-17-22)
- 13. Home Office Costs.** Reasonable costs allocated by related entities for home office services are allowable in their applicable cost centers. (3-17-22)
- 14. Insurance.** Premiums for insurance on assets or for liability purposes, including vehicles, are allowable to the extent that they are related to patient care. (3-17-22)
- 15. Interest.** Interest on working capital loans is an allowable administrative expense. When property is reimbursed based on cost, interest on related debt is allowable. However, interest payable to related entities is not normally an allowable expense. Penalties are not allowable. (3-17-22)
- 16. Lease or Rental Payments.** Payments for the property cost of the lease or rental of land, buildings, and equipment are allowable according to Medicare reasonable cost principles when property is reimbursed based on cost for leases entered into before March 30, 1981. Such leases entered into on or after March 30, 1981, will be reimbursed in the same manner as an owned asset. The cost of leases related to home offices and ICF/IID day treatment services will not be reported as property costs and will be allowable based on reasonable cost principles subject to other limitations contained herein. (3-17-22)

17. Malpractice or Public Liability Insurance. Premiums for malpractice and public liability insurance must be reported as administrative costs. (3-17-22)

18. Payroll Taxes. The employer's portion of payroll taxes is reimbursable. (3-17-22)

19. Property Costs. Property costs related to patient care are allowable subject to other provisions of this chapter. Property taxes and reasonable property insurance are allowable for all facilities. For ICFs/IID, the property rental rate is paid as described in Section 630 of these rules. (3-17-22)

a. Amortization of leasehold improvements will be included in property costs. (3-17-22)

i. Straight line depreciation on fixed assets is included in property costs. (3-17-22)

ii. Depreciation of moveable equipment is an allowable property cost. (3-17-22)

b. Interest costs related to the purchase of land, buildings, fixtures or equipment related to patient care are allowable property costs only when the interest costs are payable to unrelated entities. (3-17-22)

20. Property Insurance. Property insurance per licensed bed is limited to no more than two (2) standard deviations above the mean of the most recently reported property insurance costs, as used for rate setting purposes, per licensed bed of all facilities in the reimbursement class of the end of a facility's fiscal year. (3-17-22)

21. Repairs and Maintenance. Costs of maintenance and minor repairs are allowable when related to the provision of patient care. (3-17-22)

22. Salaries. Salaries and wages of all employees engaged in patient care activities or operation and maintenance are allowable costs. However, non-nursing home wages are not an allowable cost. (3-17-22)

23. Supplies. Cost of supplies used in patient care or providing services related to patient care is allowable. (3-17-22)

24. Taxes. The cost of property taxes on assets used in providing patient care are allowable. Other taxes are allowable costs as provided in the PRM, Chapter 21. Tax penalties are nonallowable costs. (3-17-22)

591. ICF/IID: NONALLOWABLE COSTS.
The following definitions and explanations apply to nonallowable costs: (3-17-22)

01. Accelerated Depreciation. Depreciation in excess of calculated straight line depreciation, except as otherwise provided is nonallowable. (3-17-22)

02. Acquisitions. Costs of corporate acquisitions, such as purchase of corporate stock as an investment, are nonallowable. (3-17-22)

03. Charity Allowances. Cost of free care or discounted services are nonallowable. (3-17-22)

04. Consultant Fees. Costs related to the payment of consultant fees in excess of the lowest rate available to a facility are nonallowable. It is the provider's responsibility to make efforts to obtain the lowest rate available to that facility. The efforts may include personally contacting possible consultants or advertising. The lowest rate available to a facility is the lower of the actual rate paid by the facility or the lowest rate available to the facility, as determined by departmental inquiry directly to various consultants. Costs in excess of the lowest rate available will be disallowed effective thirty (30) days after a facility is notified, unless the provider shows by clear and convincing evidence it would have been unable to comply with state and federal standards had the lowest rate consultant been retained or that it tried to but was unable to retain the lowest rate consultant. This subsection in no way limits the Department's ability to disallow excessive consultant costs under other sections of this chapter, such as Section 589 or 595 of these rules, when applicable. (3-17-22)

05. Fees. Franchise fees are nonallowable, see PRM, Section 2133.1. (3-17-22)

- 06. Fund Raising.** Certain fund raising expenses are nonallowable, see PRM, Section 2136.2. (3-17-22)
- 07. Goodwill.** Costs associated with goodwill as defined in Section 011 of these rules are nonallowable. (3-17-22)
- 08. Holding Companies.** All home office costs associated with holding companies are nonallowable see PRM, Section 2150.2A. (3-17-22)
- 09. Interest.** Interest to finance nonallowable costs are nonallowable. (3-17-22)
- 10. Medicare Costs.** All costs of Medicare Part A or Part B services incurred by Medicare certified facilities, including the overhead costs relating to these services are nonallowable. (3-17-22)
- 11. Nonpatient Care Related Activities.** All activities not related to patient care are nonallowable. (3-17-22)
- 12. Organization.** Organization costs are nonallowable, see PRM, Section 2134. (3-17-22)
- 13. Pharmacist Salaries.** Salaries and wages of pharmacists are nonallowable. (3-17-22)
- 14. Prescription Drugs.** Prescription drug costs are nonallowable. (3-17-22)
- 15. Related Party Interest.** Interest on related party loans are nonallowable, see PRM, Sections 218.1 and 218.2. (3-17-22)
- 16. Related Party Nonallowable Costs.** All costs nonallowable to providers are nonallowable to a related party, whether or not they are allocated. (3-17-22)
- 17. Related Party Refunds.** All refunds, allowances, and terms, will be deemed to be allocable to the members of related organizations, on the basis of their participation in the related purchases, costs, etc. (3-17-22)
- 18. Self-Employment Taxes.** Self-employment taxes, as defined by the Internal Revenue Service, that apply to facility owners are nonallowable. (3-17-22)

- 20. Vending Machines.** Costs of vending machines and cost of the product to stock the machine are nonallowable costs. (3-17-22)
- 592. ICF/IID: HOME OFFICE COST PRINCIPLES.**
The reasonable cost principles will extend to the home office costs allocated to individual providers. In addition, the home office, through the provider, will provide documentation as to the basis used to allocate its costs among the various entities it administers or otherwise directs. (3-17-22)
- 593. ICF/IID: RELATED PARTY TRANSACTIONS.**
- 01. Principle.** Costs applicable to services, facilities and supplies furnished to the provider by organizations or persons related to the provider by common ownership, control, etc., are allowable at the cost to the related party. Such costs are allowable to the extent that they relate to patient care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer. (3-17-22)
- 02. Cost Allowability - Regulation.** Allowability of costs is subject to the regulations prescribing the treatment of specific items as outlined in 42 CFR 413.17, et al, and the Providers Reimbursement Manual, PRM Chapter 10 and other applicable chapters of the PRM. (3-17-22)

594. ICF/IID: APPLICATION OF RELATED PARTY TRANSACTIONS.

01. Determination of Common Ownership or Control in the Provider Organization and Supply Organization. In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. (3-17-22)

a. A determination as to whether an individual(s) possesses ownership or equity in the provider organization and the supplying organization, so that the organizations will be considered to be related by common ownership, will be made on the basis of the facts and circumstances in each case. (3-17-22)

b. The term “control” includes any kind of control whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control that is decisive, not its form or the mode of its exercise. (3-17-22)

02. Cost to Related Organizations. The charges to the provider from related organizations may not exceed the billing to the related organization for these services. (3-17-22)

03. Costs Not Related to Patient Care. All home office costs not related to patient care are not allowable under the program. (3-17-22)

04. Interest Expense. Generally, interest expense on loans between related entities will not be reimbursable. See the PRM, Chapters 2, 10, and 12 for specifics. (3-17-22)

595. ICF/IID: COMPENSATION OF RELATED PERSONS.

Compensation paid to persons related to owners or administrators is allowable only to the extent that services are actually performed and are necessary and adequately documented and the compensation for the services is reasonable. (3-17-22)

01. Compensation Claimed. Compensation claimed for reimbursement must be included in compensation reported for tax purposes and be actually paid. (3-17-22)

a. Where such persons perform services without pay, no cost may be imputed. (3-17-22)

b. Time records documenting actual hours worked are required in order that the compensation be allowable for reimbursement. (3-17-22)

c. Compensation for undocumented hours worked will not be a reimbursable cost. (3-17-22)

02. Related Persons. A related person is defined as having one (1) of the following relationships with the provider: (3-17-22)

a. Husband or wife; (3-17-22)

b. Son or daughter or a descendant of either; (3-17-22)

c. Brother, sister, stepbrother, stepsister or descendant thereof; (3-17-22)

d. Father, mother, stepfather, stepmother, an ancestor thereof, or a brother or sister thereof; (3-17-22)

e. Son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law; (3-17-22)

f. A descendant of a brother or sister of the provider's father or mother; (3-17-22)

g. Any other person with whom the provider does not have an arms length relationship. (3-17-22)

596. ICF/IID: INTEREST EXPENSE.

Generally interest on loans between related entities is not an allowable expense. The loan will usually be considered invested capital. See PRM, Chapter 2 for specifics. (3-17-22)

597. ICF/IID: IDAHO OWNER-ADMINISTRATIVE COMPENSATION.

Allowable compensation to owners and persons related to owners who provide any administrative services will be limited based on the schedule in this section. (3-17-22)

01. Allowable Owner Administrative Compensation. The following schedule will be used in determining the maximum amount of owner administrative compensation allowable for the calendar year ending December 31, 2002.

Licensed Bed Range	Upper limit
51 - 100	86,951
101 - 150	95,641
151 - 250	129,878
251 - up	186,435

(3-17-22)

02. The Administrative Compensation Schedule. The administrative compensation schedule in this Section will be adjusted annually based upon the change in average hourly earnings in nursing and personal care facilities as published by Data Resources Incorporated, its successor organization or, if unavailable, another nationally recognized forecasting firm. (3-17-22)

03. The Maximum Allowable Compensation. The maximum allowable compensation for an owner providing administrative services is determined from the schedule in Subsection 597.01. of these rules. Allowable compensation will be determined as follows: (3-17-22)

a. In determining the number of beds applicable on the schedule, all licensed beds for which the individual provides administrative services will be counted, regardless of whether they are in the same facility. (3-17-22)

b. For an owner providing services to more than fifty (50) beds, the amounts shown on the schedule for the applicable number of beds will determine the upper limit for allowable compensation. (3-17-22)

c. For owners providing services to less than fifty-one (51) beds, such services related to administrative duties will be reimbursed at the hourly rate allowable if the owner was providing services to fifty-one (51) beds. Additionally, services other than administrative services may be performed by the owner and will be allowable at the reasonable market rate for such services. To be allowable, hours for each type of service will be documented. In no event will the total compensation for administrative and non-administrative duties paid to an owner or related party to an owner of a facility or facilities with fifty (50) licensed beds or less exceed the limit that would be applicable to an owner with the same number of points providing administrative services to facilities with fifty-one (51) beds as set forth in the schedule of Subsection 597.01 of these rules. (3-17-22)

04. Compensation for Persons Related to an Owner. Compensation for persons related to an owner will be evaluated in the same manner as for an owner. (3-17-22)

05. When an Owner Provides Services to More Than One Provider. When an owner provides services to more than one (1) provider compensation will be distributed on the same basis as costs are allocated for non-owners. (3-17-22)

06. More Than One Owner or Related Party May Receive Compensation for Hours Actually Worked. Services must be actually performed, documented and necessary. Total compensation must be reasonable,

and not greater than the amount for which the same services could be obtained on the open market. The standard by which full time compensation is measured will be two thousand eighty (2,080) hours. Compensation of an owner or a party related to an owner is subject to other provisions of this chapter, and will not exceed the compensation determined from the Administrative Compensation Schedule, and, on an hourly basis, will not exceed the compensation determined in the Administrative Compensation Schedule divided by two thousand eighty (2,080). (3-17-22)

598. -- 599. (RESERVED)

600. ICF/IID: OCCUPANCY ADJUSTMENT FACTOR.

In order to equitably allocate fixed costs to the Medicaid patients in cases where a facility is not maintaining reasonable occupancy levels, an adjustment will be made. No occupancy adjustment will be made against the costs that are used to calculate the property rental rate; however adjustment will be made against all other property costs. The adjustment will be made as follows: (3-17-22)

01. Occupancy Levels. If a facility maintains an average occupancy of less than eighty percent (80%) of a facility's capacity, the total property costs not including cost paid under the property rental rate, will be prorated based upon an eighty percent (80%) occupancy rate. Property costs and property rental rates are defined in Section 013 of these rules. The facility's average occupancy percentage will be subtracted from eighty percent (80%) and the resultant percentage will be taken times the total fixed costs to determine the nonallowable fixed costs. (3-17-22)

02. Occupancy Adjustment. For purposes of an occupancy adjustment, facility capacity will be computed based upon the greater of the largest number of beds for which the facility was licensed during the period being reported on or the largest number of beds for which the facility was licensed during calendar year 1981, except where a portion of the facility has been converted to use for nonroutine nursing home activities or the facility is newly constructed and has entered the Medicaid Program subsequent to January 1, 1982. If the facility's designed capacity has been changed, the number of beds used to determine occupancy will be lowered by the amount of capacity being converted to nonroutine nursing home activities. Facility capacity for a new facility will be based on the number of beds approved by the certificate of need process less any capacity converted to nonroutine nursing home activities. (3-17-22)

03. Fixed Costs. For purposes of an occupancy adjustment fixed costs will be considered all allowable and reimbursable costs reported under the property cost categories. (3-17-22)

04. Change in Designed Capacity. In cases where a provider changes the designed capacity of a facility, the average occupancy for the period prior to the change and subsequent to the change will be computed and each period will be adjusted separately. If the designed capacity is increased, the increased number of beds will not be subject to this adjustment for the first six (6) months following their licensure. (3-17-22)

05. New Facility. In the case of a new facility being licensed and occupied, the first six (6) months occupancy level will not be subject to this adjustment. (3-17-22)

601. ICF/IID: RECAPTURE OF DEPRECIATION.

Where depreciable assets that were reimbursed based on cost and were used in the Medicaid Program by a facility subsequent to January 1, 1982, and for which depreciation has been reimbursed by the Program, are sold for an amount in excess of their net book value, depreciation so reimbursed will be recaptured from the buyer of the facility in an amount equal to reimbursed depreciation after January 1, 1982, or gain on the sale, whichever is less. (3-17-22)

01. Amount Recaptured. Depreciation will be recaptured in full if a sale of a depreciated facility takes place within the first five (5) years of a seller's ownership. Credit will be given for the period of ownership prior to January 1, 1982. For every year the asset is held beyond the first five (5) years, the total depreciation recaptured will be reduced by ten percent (10%) per year of the total depreciation taken. (3-17-22)

02. Time Frame. Depreciation will be recaptured by the Medicaid Program from the buyer of the facility over a period of time not to exceed five (5) years from the date of sale, with not less than one-fifth (1/5) of the total amount being recaptured for each year after such date. (3-17-22)

602. ICF/IID: REPORTING SYSTEM.

The objective of the reporting requirements is to provide a uniform system of periodic reports that will allow:
(3-17-22)

01. Basis for Reimbursement. A basis of provider reimbursement approximating actual costs.
(3-17-22)

02. Disclosure. Adequate financial disclosure.
(3-17-22)

03. Statistical Resources. Statistical resources, as a basis for measurement of reasonable cost and comparative analysis.
(3-17-22)

04. Criteria. Criteria for evaluating policies and procedures.
(3-17-22)

603. ICF/IID: REPORTING SYSTEM PRINCIPLE AND APPLICATION.

The provider will be required to file mandatory annual cost reports.
(3-17-22)

01. Cost Report Requirements. The fiscal year end cost report filing must include:
(3-17-22)

a. Annual income statement (two (2) copies);
(3-17-22)

b. Balance sheet;
(3-17-22)

c. Statement of ownership;
(3-17-22)

d. Schedule of patient days;
(3-17-22)

e. Schedule of private patient charges;
(3-17-22)

f. Statement of additional charges to residents over and above usual monthly rate; and
(3-17-22)

g. Other schedules, statements, and documents as requested.
(3-17-22)

02. Special Reports. Special reports may be required. Specific instructions will be issued, based upon the circumstance.
(3-17-22)

03. Criteria of Reports. All reports must meet the following criteria:
(3-17-22)

a. State-approved formats are used.
(3-17-22)

b. Presented on accrual basis.
(3-17-22)

c. Prepared in accordance with generally accepted accounting principles and principles of reimbursement.
(3-17-22)

d. Appropriate detail is provided on supporting schedules or as requested.
(3-17-22)

04. Preparer. It is not required that any statement be prepared by an independent, licensed or certified public accountant.
(3-17-22)

05. Reporting by Chain Organizations or Related Party Providers. PRM, Section 2141.7, prohibits the filing of combined or consolidated cost reports as a basis for cost reimbursement. Each facility so related must file a separate set of reports. These cost reports will be required for each level of organization that allocates expenses to the provider. Consolidated financial statements will be considered supplementary information and are not acceptable as fulfilling the primary reporting requirements.
(3-17-22)

06. Change of Management or Ownership. To properly pay separate entities or individuals when a

change of management or ownership occurs, the following requirements will be met: (3-17-22)

a. Outgoing management or administration will file an adjusted-period cost report if it is necessary. This report will meet the criteria for annual cost reports, except that it will be filed not later than sixty (60) days after the change in management or ownership. (3-17-22)

b. The Department may require an appraisal at the time of a change in ownership. (3-17-22)

07. Reporting Period. When required for establishing rates, new ICF/IID providers will be required to submit cost projections for the first year of operations. Thereafter, the normal reporting period coincides with the provider's standard fiscal year. If a provider withdraws from the program and subsequently re-enters, the new provider reporting requirements will apply. (3-17-22)

604. (RESERVED)

605. ICF/IID: FILING DATES.

01. Deadlines. Deadlines for annual cost reports will be the last day of the third month following the fiscal year end or the deadline imposed by Medicare if the provider is required to file a Medicare cost report. (3-17-22)

02. Waivers. A delay of thirty (30) days may be granted for annual cost reports in unusual circumstances. Requests for such deferrals and reasons therefore must be in writing and should be made prior to the deadline. A written decision will be rendered in writing within ten (10) days. (3-17-22)

606. ICF/IID: FAILURE TO FILE.

Failure to submit timely reports may result in a reduction in the interim rate. Failure to file the required cost reports, including required supplemental information, unless a waiver is granted, may result in a reduction of ten percent (10%) in the provider's interim rate(s) the first day of the month following the deadline date. Continued failure to comply will result in complete payment suspension on the first day of the following month. When suspension or reduction has occurred and the provider has filed the required cost reports, amounts accruing to the provider during the period of suspension or reduction will be restored. Loss of license or certification will result in immediate termination of reimbursement, full scope audit and settlement for the cost period. (3-17-22)

607. ICF/IID: ACCOUNTING SYSTEM.

Reports must be filed using the accrual basis and conform with generally accepted accounting principles or within provisions of the guidelines as specified. In any case, the recorded transaction must be capable of verification by Departmental audit. (3-17-22)

608. -- 609. (RESERVED)

610. ICF/IID: AUDITS.

All financial reports are subject to audit by Departmental representatives. (3-17-22)

01. Accuracy of Recording. To determine whether the transactions recorded in the books of record are substantially accurate and reliable as a basis for determining reasonable costs. (3-17-22)

02. Reliability of Internal Control. To determine that the facilities internal control is sufficiently reliable to disclose the results of the to the provider's operations. (3-17-22)

03. Economy and Efficiency. To determine if Title XIX and Title XXI participants have received the required care on the a basis of economy and efficiency. (3-17-22)

04. Application of GAAP. To determine if GAAP is applied on a consistent basis in conformance with applicable federal and state regulations. (3-17-22)

05. Patient Trust Fund Evaluation. To evaluate the provider's policy and practice regarding their

fiduciary responsibilities for patients, funds and property. (3-17-22)

06. Enhancing Financial Practices. To provide findings and recommendations aimed at better financial practices to allow the most economical delivery of patient care. (3-17-22)

07. Compliance. To provide recommendations that will enable the provider to conform more closely with state and federal regulations in the delivery of health care to program participants. (3-17-22)

614. (RESERVED)

615. ICF/IID: POST-ELIGIBILITY TREATMENT OF INCOME.

01. Treatment of Income. Where an individual is determined eligible for medical assistance participation in the cost of their long term care, the Department will reduce its payment to the long term care facility by the amount of their income considered available to meet the cost of his care. This determination is made in accordance IDAPA 16.03.05, "Eligibility for Aid for the Aged, Blind, and Disabled (AABD)," Sections 721 through 725. (3-17-22)

02. SSA Income. The amount that the Participant receives from SSA as reimbursement for their payment of the premium for Part B of Title XVIII (Medicare) is not considered income for participant liability in accordance with IDAPA 16.03.05, "Eligibility for Aid for the Aged, Blind, and Disabled (AABD)." (3-17-22)

616. -- 619. (RESERVED)

620. ICF/IID: PAYMENTS FOR PERIODS OF TEMPORARY ABSENCE.

Payments may be made for reserving beds in ICFs/IID for participants during their temporary absence if the facility charges private paying participants for reserve bed days, subject to the following limitations: (3-17-22)

01. Prior Approval for Absence. Therapeutic home visits for ICF/IID residents of up to thirty-six (36) days per calendar year so long as the days are part of a written treatment plan ordered by the attending physician. Prior approval from the BLTC must be obtained for any home visits exceeding fourteen (14) consecutive days. (3-17-22)

02. Limits on Amount of Payments. Payment for reserve bed days will be lesser of the following: (3-17-22)

- a.** One hundred percent (100%) of the audited allowable costs of the facility; or (3-17-22)
- b.** The rate charged to private paying participants for reserve bed days. (3-17-22)

621. ICF/IID: PAYMENT PROCEDURES.

Each ICF/IID must submit its claims to the Department in accordance with the procedures established by the Department. The Department will not pay for a claim in behalf of a Participant unless the information on the claim is consistent with the information in the Department's computer eligibility file. (3-17-22)

622. ICF/IID: PRINCIPLE PROSPECTIVE RATES.

Providers of ICF/IID facilities will be paid a per diem rate that, with certain exceptions, is not subject to an audit settlement. The per diem rate for a fiscal period will be based on audited historical costs adjusted for inflation. The provider must report these cost items in accordance with other provisions of this chapter or the applicable provisions of PRM consistent with this chapter. Sections 622 through 628 of these rules provide procedures and specifications necessary to implement the provisions and accomplish the objectives of the payment system for ICF/IID providers. Total payment will include the following components: Property reimbursement, capped costs, exempt costs, and excluded costs. Except as otherwise provided in this section, rates calculated for state fiscal year 2012 (July 1, 2011 through June 30, 2012) will be calculated by using finalized cost reports ended in calendar year 2009 with no cost or cost limit adjustments for inflation to the rate period of July 1, 2011, through June 30, 2012. Rates effective July 1, 2012, and every July 1 thereafter, will be calculated by using audited cost reports ended in the calendar year two (2) years prior to each July 1 (July 1, 2012, rates will use cost reports ended in calendar year 2010 and so forth), with no cost or cost limit adjustments for inflation. (3-17-22)

623. ICF/IID: PROPERTY REIMBURSEMENT.

Beginning October 1, 1996, ICF/IID property costs are reimbursed by a rental rate or based on cost. The following will be reimbursed based on cost as determined by the provisions of this chapter and applicable provisions of PRM to the extent not inconsistent with this chapter: ICF/IID living unit property taxes, ICF/IID living unit property insurance, and major movable equipment not related to home office or day treatment services. Reimbursement of other property costs is included in the property rental rate. Any property cost related to home offices and day treatment services are not considered property costs and will not be reported in the property cost portion of the cost

report. These costs will be reported in the home office and day treatment section of the cost report. Property costs, including costs that are reimbursed based on a rental rate, will be reported in the property cost portion of the cost report. The Department may require and utilize an appraisal to establish those components of property costs that are identified as an integral part of an appraisal. Property costs include the following components: (3-17-22)

- 01. Depreciation.** Allowable depreciation based on straight line depreciation. (3-17-22)
- 02. Interest.** All allowable interest expense that relates to financing depreciable assets. Interest on working capital loans is not a property cost and is subject to the cap. (3-17-22)
- 03. Property Insurance.** All allowable property insurance. Malpractice insurance, workmen's compensation and other employee-related insurances are not property costs. (3-17-22)
- 04. Lease Payments.** All allowable lease or rental payments. (3-17-22)
- 05. Property Taxes.** All allowable property taxes. (3-17-22)
- 06. Costs of Related Party Leases.** Costs of related party leases are to be reported in the property cost categories based on the owner's costs. (3-17-22)

624. ICF/IID: CAPPED COST.

Beginning October 1, 1996, this cost area includes all allowable costs except those specifically identified as property costs in Section 623 of these rules and exempt costs or excluded costs in Section 627 or 628 of these rules. This Section defines items and procedures to be followed in determining allowable and exempt costs and provides the procedures for extracting cost data from historical cost reports, applying a cost forecasting market basket to project cost forward, procedures to be followed to project costs forward, and procedures for computing the median of the range of costs and the ICF/IID cap. (3-17-22)

01. Costs Subject to the Cap. Items subject to the cap include all allowable costs except property costs identified in Section 623 of these rules and exempt costs or excluded costs identified in Section 627 or 628 of these rules. Property costs related to a home office are administrative costs, will not be reported as property costs, and are subject to the cap. (3-17-22)

02. Per Diem Costs. Costs to be included in this category will be divided by the total participant days for the facility for the cost reporting period to arrive at allowable per diem costs. If costs for services provided some or all non-Medicaid residents are not included in the total costs submitted, the provider must determine the costs and combine them with the submitted costs in order that a total per diem cost for that facility can be determined both for both the purposes of determining the ICF/IID cap and of computing final reimbursement. (3-17-22)

03. Cost Data to Determine the Cap. Cost data to be used to determine the cap for ICF/IID facilities will be taken from each provider's most recent final cost report available sixty (60) days before the beginning of the period for which the cap is being set. Cost reports are final when the final audit report is issued, or earlier if the Department informs the facility the report is final for rate setting purposes. The selected final cost report will be used to establish the facility's prospective reimbursement rate. However, the final cost reports covering a period of less than twelve (12) months will be included in the data for determining the cap at the option of the Department. (3-17-22)

04. Projection. Per diem allowable costs will be inflated forward using a cost forecasting market basket and forecasting indices according to the same table as used for free standing facilities. (3-17-22)

a. The projection method used in Section 624 of these rules to set the cap will also be used to set non property portions of the prospective rate that are not subject to the cap. (3-17-22)

b. Forecasting indices as developed by Data Resources, Incorporated, will be used unless they are unavailable. In such case, indices supplied by some other nationally recognized forecaster will be used. (3-17-22)

05. Costs That Can be Paid Directly by the Department to Non ICF/IID Providers. Costs that can

be paid directly by the Department to non ICF/IID providers are excluded from the ICF/IID prospective rates and ICF/IID cap: (3-17-22)

a. Direct physician care costs. Physicians who provide these services must bill the Medicaid program directly using their own provider numbers. (3-17-22)

b. Costs of services covered under the Early and Periodic Screening Diagnosis and Treatment (EPSDT) portion of the Medicaid Program. Items such as eyeglasses and hearing aids are covered under IDAPA 16.03.09, "Medicaid Basic Plan Benefits." The cost of these services is not included as a part of ICF/IID costs. Reimbursement can be made to a professional providing these services through their billing the Medicaid Program on their own provider number. (3-17-22)

c. Costs of services covered by other parts of the Medicaid Program. Examples of these items include legend drugs and ambulance transportation. These items must be billed to the Medicaid Program directly by the provider using their own provider number. (3-17-22)

06. Cost Projection. Allowable per diem costs will be projected forward from the midpoint of the Base Period to the midpoint of the Target Period. "Base Period" is defined as the last available final cost report period. "Target Period" is defined as the effective period of the prospective rate. Procedures for inflating these costs are as follows: (3-17-22)

a. The percentage change for each cost category in the market basket will be computed from the beginning to the end of the Base Period. These percentages will then be divided by two (2) and the resultant percentages will be used to project forward allowable per diem costs for each cost category from the midpoint to the end of the Base Period. (3-17-22)

b. The percentage change for each cost category in the market basket will be computed for the period from the end of the Base Period to the beginning of the Target Period. These percentages will then be used to project forward the allowable per diem costs for each cost category, as determined in Subsection 624.06.a. of these rules, from the end of the Base Period to the beginning of the Target Period. (3-17-22)

c. The percentage change for each cost category in the market basket will be computed for the beginning to the end of the Target Period. These percentages will then be divided by two (2) and the resultant percentages will be used to project forward the allowable per diem costs as determined in Subsection 624.06.b. of these rules from the beginning to the midpoint of the Target Period. (3-17-22)

07. Cost Ranking. Prior to October 1st of each year the Director will determine the that percent above the median that will assure aggregate payments to ICF/IID providers will approximate but not exceed amounts that would be incurred using Medicare cost principles of reimbursement. That percentage will apply to caps and rates set after September 30th of each year. Projected per diem costs as determined in this section and subject to the cap will be ranked from the highest to the lowest. The cap will be set at a percent of the bed-weighted median for each rate period. The initial cap will be set as of October 1, 1996. (3-17-22)

a. The median of the range will be computed based on the available data points being considered as the total population of data points. (3-17-22)

b. The cap for each ICF/IID facility with a fiscal year beginning October 1, 1996, will be computed prior to the beginning of that year. For those facilities with a fiscal year ending on a date other than September 30th, the first cap will be computed for the period beginning October 1, 1996, and ending on the fiscal year end date. (3-17-22)

c. Facilities with cost reports that transcend the period from October 1, 1996, through September 30, 1997, will be retrospectively settled using the previous reimbursement system for the period of the report up to September 30, 1996. There will not be a retrospective settlement on the portion of these cost reports attributed to October 1, 1996 through the end of the cost report period unless provisions of Section 626 of these rules apply. (3-17-22)

d. Cost reports for periods beginning on or after October 1, 1996, will not be subject to retrospective settlement except as required by other provisions of this chapter. (3-17-22)

e. A new cap and rate will be set on an annual basis for each facility the first of July every year. (3-17-22)

f. The cap and prospective rate will be determined and set on an annual basis for each facility July first of every year and will not be changed by any subsequent events or information with the exception that if the computations were found to contain mathematical or clerical errors, these errors will be corrected and the cap will be adjusted using the corrected figures. (3-17-22)

g. Payment of costs subject to the cap will be limited to the cap unless the Department determines the exclusions found in Section 628 of these rules apply. (3-17-22)

h. A facility that commences to offer participant care services as an ICF/IID on or after October 1, 1996, will be subject to retrospective settlement until the first prospective rate is set. Such facility will be subject to the ICF/IID cap as determined in this chapter. The first prospective rate for this provider will be set by the Department based on quarterly cost statements and final cost reports submitted for periods following the first three (3) months of operation. This first prospective rate may be set after the beginning of the second fiscal year of the provider. For the second year the provider will be paid a rate to be settled retrospectively unless both the Department and the provider agree to a prospective rate or rates covering that fiscal period. (3-17-22)

625. (RESERVED)

626. ICF/IID: RETROSPECTIVE SETTLEMENT.

When retrospective settlement is applicable, it is based on allowable reimbursement in accordance with this chapter and based on an audit report. Retrospective settlement will be subject to the same caps and limits determined for prospective payments. (3-17-22)

01. A Provider's Failure to Meet Any of the Conditions. A provider's failure to meet any of the conditions of participation set forth in 42 CFR 483, Subpart I, may subject that provider to retrospective reimbursement for the fiscal year, or any portion thereof, during which the condition is not met. The provider's projected per diem rate may be adjusted to reflect actual reimbursable costs subject to cost limits. (3-17-22)

02. A First Time Provider. A first time provider operating a new ICF/IID living unit will be subject to a retrospective settlement for the first fiscal year and until the first subsequent period wherein a prospective rate is set in accordance with Sections 603, 605, and 606 of these rules and this chapter. A budget based on the best available information is required prior to opening for participant care so an interim rate can be set. (3-17-22)

03. New ICF/IID Living Unit. A new ICF/IID living unit for an existing operator is subject to first time facility requirements if the new living unit reflects a net increase in licensed beds, otherwise the Department may set a prospective rate with the non-property rate components based on similar components of rates most recently paid for the participants moving into the facility. The property rental rate will be set according to applicable provisions of this chapter. (3-17-22)

04. Change of Ownership of Existing ICF/IID Living Unit. Where there is a change of ownership of an existing ICF/IID living unit, the provider operating the ICF/IID living unit will not receive an adjustment of the provider's prospective rate except that the property rental portion of the rate will be adjusted subject to property rental provisions of this chapter. However, new facility reporting requirements and the cap will apply. (3-17-22)

05. Fraudulent or False Claims. Providers who have made fraudulent or false claims are subject to retrospective settlement as determined by the Department. (3-17-22)

06. Excluded Costs. Excluded costs may be retrospectively settled according to the provisions of Section 247 of these rules. (3-17-22)

627. ICF/IID: EXEMPT COSTS.

Exempt costs are not subject to the ICF/IID cap. (3-17-22)

01. Day Treatment Services. As specified in this Section, the cost of day treatment services may be reimbursed in this category and may not be subject to the ICF/IID cap. (3-17-22)

a. This category includes the direct costs of labor, benefits, contracted services, property, utilities and supplies for such services up to the limitations provided in this Subsection. (3-17-22)

b. When a school or another agency or entity is responsible for or pays for services provided to a participant regularly during normal working hours on weekdays, no costs will be assigned to this category for such services. The Department will not reimburse for the cost of services that are paid for or should be paid for by another agency. (3-17-22)

c. When ICF/IID day treatment services are performed for participants in a licensed Developmental Disability Center, the allowable cost of such services will be included in this category, but not more than the amount that would be paid according to the Department's fee schedule for individual or group therapy for similar services. Amounts incurred or paid by the ICF/IID in excess of what would be paid according to the Department's fee schedule for like services are not allowable costs and will be reported as non-reimbursable. (3-17-22)

d. For day treatment services provided in a location other than a certified developmental disability center, the maximum amount reportable in this category will also be limited. Total costs for such services reported by each provider in this category will be limited to the number of hours, up to thirty (30) hours per week per participant, of individual or group developmental therapy times the hourly rate that would be paid according to the most recent Department fee schedule for the same services if provided in a developmental disability center. Costs in excess of the limits determined in this Subsection will be classified and reported as subject to the ICF/IID cap. Initial rates established under the prospective system effective October 1, 1996, and not later than October 1, 1997, will not include a limitation of day treatment costs based on the hourly rate, when the hours of individual or group therapy were not obtained or audited by the Department at the time the rate was published. However, if a provider believes that the day treatment cost used to establish the day treatment portion of its prospective rate was misstated for rates set for periods beginning October 1, 1996, through rates beginning October 1, 1997, revisions to the prospective rate may be made to the extent the provider demonstrates, to the satisfaction of the Department, that the cost used was misstated. Such a revision will be considered only if the provider requests a revision and provides adequate documentation within sixty (60) days of the date the rate was set. At the option of the Department it may negotiate fixed rates for these day treatment services. Such rates will be set so the aggregate related payments are lower than would be paid with a limitation based on schedules used for licensed Developmental Disability Centers. (3-17-22)

e. Financial data including expenses and labor hours incurred by or on behalf of the provider in providing day treatment services, must be identifiable and separate from the costs of other facility operations. Reasonable property costs related to day treatment services and not included in the property rental rate, will be separately identified, will be reported as day treatment services costs, and will not include property costs otherwise reimbursed. Property costs related to day treatment services will be separately identified as not related to living unit costs by a final audit determination issued prior to October 1, 1996, or will be separate and distinct from any property used for ICF/IID services that are or were day treatment services. (3-17-22)

f. In the event a provider has a change in the number of participants requiring day treatment services, the prospective rate may be adjusted by the Department to reflect a change in costs related to such a change. Providers receiving such changes may be required to provide added documentation to the Department to assure that further changes can be identified and the prospective rate adjusted accordingly. (3-17-22)

02. Major Movable Equipment. Costs related to major movable equipment, as defined in this chapter will be exempt from the ICF/IID cap and will be reimbursed prospectively based on Medicare principles of cost reimbursement. (3-17-22)

628. ICF/IID: COSTS EXCLUDED FROM THE CAP.

Certain costs may be excluded from the ICF/IID cap, may be subject to retrospective settlement at the discretion of the Department, and may result in changes to the prospective rate as provided in this Section to assure equitable reimbursement: (3-17-22)

01. Increases of More Than One Dollar Per Participant Day in Costs. Increases of more than one dollar (\$1) per participant day in costs otherwise subject to the cap incurred by a facility as a result of changes in State or Federal laws or rules will be reported separately on the cost report for reports filed less than thirty (30) months, or a greater length of time if so directed by the Department, from the date such increases were first required. Such costs will be subdivided into the component parts of wages, benefits, contracted services and other costs in the amounts equal to costs removed from the respective cost categories subject to the cap. The Department may adjust the forecasted rate to include the projected per diem related to such costs. (3-17-22)

a. The provider will report these costs on a separate schedule or by notations on the cost report so that these costs can be identified and reconciled to the provider's general ledger. (3-17-22)

b. If more than one (1) increase occurs as a result of one (1) or more law or rule change, the costs from each event are to be reported separately. (3-17-22)

c. The computation of the cost increase amount or amounts is to be presented in detail on a supplementary schedule or schedules unless the Department states otherwise. (3-17-22)

d. For interim rate purposes the provider's prospective rate may be granted an increase to cover such cost increases. A cost statement covering a recent period may be required with the justification for the increased costs. The actual amount related to such increases will be determined at audit and may be retrospectively settled. (3-17-22)

e. After the initial deadline has passed for all providers to file cost reports for reporting periods beginning on or after the date certain cost increases were first required, the Department will, at its option, include all of the previously excluded costs related to those increases with costs subject to the cap when setting rates or increase the cap and individual facility prospective rates following such cost increases. If a cap is set with these particular costs included in the cap category, providers subject to that cap will not have these costs excluded from the cap for prospective rate purposes. The intent of this provision is for costs to be exempt from the cap until these costs are able to be fully and equitably incorporated in the data base used to project the cap and for these costs to be exempt only when they are not included in the data base. In those cases, when costs are not incurred immediately after a change in rule or law, delays in incorporating the new costs in the cap are warranted. (3-17-22)

f. When cost increases that have been excluded from the cap are incorporated in the inflation indices used to set the cap, the cost indices will be adjusted to exclude the influence of such changes if the amount is included in the index is identified. When the cap is set to include previously excluded amounts, any adjustments previously made to the indexes related to the previously excluded costs will be removed. (3-17-22)

02. Excess Inflation. Reimbursement of costs subject to the cap will be limited to the cap unless the Department determines the inflation indices used to set the prospective rates for a reporting period understated actual inflation by more than seven (7%) percentage points. In such case, prospective rates and the cap will be increased by the amount that actual inflation indices exceeded projected inflation indices and may be retrospectively adjusted by the department. (3-17-22)

03. Cost Increases Greater Than Three Percent. When cost increases of greater than three percent (3%) of the projected interim rate that result from disasters such as fire, flood, or earthquake, epidemic or similar unusual and unpredictable circumstances over which a provider has no control. Prospective rates will be increased and they will not be subject to the cap. However, they may be retrospectively adjusted by the Department. For the purposes of this Subsection, disaster does not include personal or financial problems. (3-17-22)

04. Decreases. In the event of state or federal law, rule, or policy changes that result in clearly identifiable reductions in required services, the Department may reduce the prospective rate to reflect the identified per diem amount related to such reductions. (3-17-22)

05. Prospective Negotiated Rates. Notwithstanding the provisions of Section 622 of these rules, the Director will have the authority to negotiate prospective rates for providers who would otherwise be subject to accept retrospective settlement. Such rates will not exceed the projected allowable rate that would otherwise be reimbursed

based on provisions of this chapter.

(3-17-22)

629. ICF/IID: LEGAL CONSULTANT FEES AND LITIGATION COSTS.

Costs of legal consultant fees and litigation costs incurred by the provider will be handled in accordance with the following:

(3-17-22)

01. In General. Legal consultant fees unrelated to the preparation for or the taking of an appeal of an audit performed by the Department of Health and Welfare, or litigation costs incurred by the provider in an action unrelated to litigation with the Department of Health and Welfare, will be allowed as a part of the total per diem costs of which the Medicaid Program will reimburse a portion according to the percentage of Medicaid patient days.

(3-17-22)

02. Administrative Appeals. In the case of the provider contesting in administrative appeal the findings of an audit performed by the Department of Health and Welfare, the costs of the provider's legal counsel will be reimbursed by the Medicaid Program only to the extent that the provider prevails on the issues involved. The determination of the extent that the provider prevails will be based on the ratio of the total dollars at issue for the audit period at issue in the hearing to the total dollars ultimately awarded to the provider for that audit period by the hearing officer or subsequent adjudicator.

(3-17-22)

03. Other. All other litigation costs incurred by the provider in actions against the Department of Health and Welfare will not be reimbursable either directly or indirectly by the Medicaid Program except where specifically ordered by a court of law.

(3-17-22)

630. ICF/IID: PROPERTY RENTAL RATE REIMBURSEMENT.

ICFs/IID will be paid a property rental rate. Property taxes, property insurance, and depreciation expense or major moveable equipment will be reimbursed as costs exempt from limitations. The property rental rate does not include compensation for minor movable equipment. The property rental rate is paid in lieu of payment for amortization, depreciation, and interest for financing the cost of land and depreciable assets. See Sections 56-108 and 56-109, Idaho Code, for further clarification.

(3-17-22)

01. Property Rental Rate. The property rental rate is based upon current construction costs, the age of the facility, the type of facility, and major expenditures made to improve the facility, or a rate based upon property costs as of January 1, 1985. The amount paid for each Medicaid day of care will be phased in according to the following:

(3-17-22)

a. $R = \text{"Property Base"} \times 40 - \text{"Age"} / 40 \times \text{"change in building costs"}$ where:

(3-17-22)

b. "R" = the property rental rate.

(3-17-22)

c. "Property Base" = eleven dollars and twenty-two cents (\$11.22) except for ICF/IID living units not able to accommodate residents requiring wheelchairs beginning October 1, 1996. Property base = seven dollars and twenty-two cents (\$7.22) for ICF/IID living units not able to accommodate residents requiring wheelchairs.

(3-17-22)

d. "Change in building costs" = 1.0 from October 1, 1996, through December 31, 1996. For ICF/IID facilities, the most recent index available when it is first necessary to set a prospective rate for a period that includes all or part of the calendar year, will be used.

(3-17-22)

e. "Age" of facility - The effective age of the facility in years will be set by subtracting the year in which the facility, or portion thereof, was constructed from the year in which the rate is to be applied. No facility or portion thereof will be assigned an age of more than thirty (30) years, however:

(3-17-22)

i. If adequate information is not submitted by the facility to document that the facility, or portion thereof, is newer than thirty (30) years, the age will be set at thirty (30) years. Adequate documentation will include, but not be limited to, such documents as copies of building permits, tax assessors' records, receipts, invoices, building contract, and original notes of indebtedness. An age will be determined for each building. A weighted average using the age and square footage of the buildings will become the effective age of the facility. The age of each building will be based upon the date when construction on that building was completed. This age will be adjusted to reflect major

building expansion or remodeling prior to April 1, 1985, if that expenditure was large enough to reduce the age of the facility by two (2) or more years according to the following formula:

$$r = A \times E / S \times C$$

Where:

r	=	Reduction in the age of the facility in years.
A	=	Age of the building at the time when construction was completed.
E	=	Actual expenses for the construction provided that the total costs must have been incurred within twenty-four (24) months of the completion of the construction.
S	=	The number of square feet in the building at the end of construction.
C	=	The cost of construction for the buildings in the year when construction was completed according to the schedule in Subsection 630.01.d.ii.

If the result of this calculation, “r” is equal to or greater than two point zero (2.0), the age of the building in years will be reduced by this number, rounded to the nearest whole number for rate setting purposes. In no case will the age be less than zero (0). (3-17-22)

ii. For rates paid after June 30, 1989, the effective age of a facility will be further adjusted when the cost of major repairs, replacement, remodeling, or renovation of a building initiated after April 1, 1985, results in the change in age by at least one (1) year when applied to the formula in Subsection 630.01.d.i. However, such change will not decrease the effective age of a facility beyond the point where the increase in the property rental rate is greater than three-fourths (3/4) of the difference between the property rental rate “r” for a new facility at the time of the proposed rate revision and the property rental rate for which the facility was eligible immediately before the adjustment. The cost used for “C” will be adjusted according to costs published by Marshall Swift Valuation Service to reflect current construction costs for average Class D convalescent hospitals. It is the provider's responsibility to notify the Department and document costs. The Department will adjust the age after documentation of costs. (3-17-22)

iii. In the event that new requirements are imposed by state or federal agencies, the Department will reimburse the expenditures directly related to these requirements as an increase in the property rental rate if the expense is in excess of one hundred dollars (\$100) per bed. If the cost related to the requirement is less than one hundred dollars (\$100) per bed, the Department will, within twelve (12) months of verification of expenditure, reimburse the Medicaid share of the entire cost of such new requirements, as a one (1) time payment to the facility. (3-17-22)

iv. At no time will the property rental rate paid to a facility be less than the greater of the rate allowable to that facility on December 31, 1988, the rate allowable immediately following the first opening of a new facility after December 31, 1988, or the rate allowable immediately following the last, if any, age revision after December 31, 1988. However, subsequent to the application of this provision, before any property rental rate increase may be made for current or successor operators, the final settlement amount of any increase in the property rental rate will first be offset by an amount equal to the impact on final settlement of any rate decrease that would have occurred if the provisions of Subsections 630.01.d.iii. and 630.01.d.iv. of these rules had not been applied. This is intended to allow the postponement of the financial burden to providers of property rental rate decreases and to allow an equal offset of the financial burden to the state of subsequent property rate increases for a current or successor provider. (3-17-22)

v. Effective October 1, 1996, for ICF/IID facilities, “age of facility” will be a revised age that is the lesser of the age established under other provisions of this Section or the age that most closely yields the rate allowable to existing facilities as of September 30, 1996, under Subsection 630.01 of these rules. This revised age will not increase over time. (3-17-22)

02. Sale of a Facility. In the event of the sale of a facility, or asset of a facility, the buyer will receive the property rental rate of Subsection 630.01 of these rules. (3-17-22)

631. ICF/IID: PROPERTY REIMBURSEMENT LIMITATIONS.

Beginning October 1, 1996, property costs of an ICF/IID will be reimbursed in accordance with Section 630 of these rules except as follows: (3-17-22)

01. Restrictions. No grandfathered rates or lease provisions other than lease provisions in Section 630 of these rules will apply to ICF/IID facilities. (3-17-22)

02. Home Office and Day Treatment Property Costs. Distinct parts of buildings containing ICF/IID living units may be used for home office or day treatment purposes. Reimbursement for the property costs of such distinct parts may be allowed if these areas are used exclusively for home office or day treatment services. The portion of property cost attributed to these areas may be reimbursed as part of home office or day treatment costs without a reduction in the property rental rate. Reimbursement for home office and day treatment property costs will not include costs reimbursed by, or covered by the property rental rate. Such costs will only be reimbursed as property cost if the facility clearly included space in excess of space normally used in such facilities. At a minimum to qualify for such reimbursement, a structure would have square feet per licensed bed in excess of the average square feet per licensed bed for other ICF/IID living units within four (4) licensable beds. (3-17-22)

03. Leases for Property. Beginning October 1, 1996, ICF/IID facilities with leases will be reimbursed as follows: (3-17-22)

a. The property costs related to ICF/IID living units other than costs for major movable equipment will be paid by a property rental rate in accordance with Section 630 of these rules. (3-17-22)

b. Leases for property other than ICF/IID living units will be allowable based on lease cost to the facility not to exceed a reasonable market rate, subject to other provisions of this chapter, and PRM principles including principles associated with related party leases. (3-17-22)

632. ICF/IID: SPECIAL RATES.

Section 56-117, Idaho Code, provides that the Department may pay facilities a special rate for care given to consumers who have medical or behavior long-term care needs beyond the normal scope of facility services. These individuals must have one (1) or more of the following behavior needs; additional personnel for supervision, additional behavior management, or additional psychiatric or pharmacology services. A special rate may also be given to consumers having medical needs that may include individuals needing ventilator assistance, certain medical pediatric needs, or individuals requiring nasogastric or intravenous feeding devices. These medical and behavior needs are not adequately reflected in the rates calculated pursuant to the principles set in Section 56-265, Idaho Code. The payment for such specialized care will be in addition to any payments made in accordance with other provisions of this chapter and will be based on a per diem rate applicable to the incremental additional costs incurred by the facility. Payment for special rates will start with approval by the Department and be reviewed at least yearly for continued need. The incremental cost to a facility that exceeds the rate for services provided pursuant to the provisions of Section 632 of these rules, will be excluded from the computation of payments or rates under other provisions of Section 56-265, Idaho Code, IDAPA 16.03.09, "Medicaid Basic Plan Benefits," and IDAPA 16.03.10, "Medicaid Enhanced Plan Benefits." (3-17-22)

01. Determinations. A determination to approve or not approve a special rate will be made on a consumer-by-consumer basis. No rate will be allowed if reimbursement for these needs is available from a non-Medicaid source. (3-17-22)

02. Approval. Special rates will not be paid unless prior authorized by the Department. A special rate may be used in the following circumstances: (3-17-22)

a. New admissions to a community ICF/IID; (3-17-22)

b. For individuals currently living in a community ICF/IID when there has been a significant change in condition not reflected in the current rate; or (3-17-22)

c. The facility has altered services to achieve and maintain compliance with state licensing or federal certification requirements that have resulted in additional cost to the facility not reflected in their current rate.

(3-17-22)

d. For the purpose of this rule, an emergency exists when the facility must incur additional behavioral or medical costs to prevent a more restrictive placement. (3-17-22)

03. Reporting. Costs equivalent to payments at the special rate will be removed from the cost components subject to limits, and will be reported separately. (3-17-22)

04. Limitations. The reimbursement rate paid will not exceed the provider's charges to other participants for similar services. (3-17-22)

633. REIMBURSEMENT PROVISIONS FOR STATE OWNED OR OPERATED ICF/IID FACILITIES. Provisions of these rules do not apply to ICF/IID facilities owned or operated by the state of Idaho. Reimbursement of such facilities will be governed by the principles set forth in the PRM, with the exception of depreciation. Assets of such facilities need not be depreciated if they have an acquisition or historical cost of less than five thousand dollars (\$5,000). (3-17-22)

b. Contacts, as necessary, with significant individuals such as family and teachers; and (3-17-22)

c. A review of information regarding the child's clinical, educational, social, and behavioral health, and juvenile/criminal justice history. (3-17-22)

03. Person-centered Service Plan. The person-centered service plan identifies the participant's physical and behavioral health services and supports needs. The person-centered service plan will be reviewed and updated by the Department or its designated representative at least every twelve (12) months, upon the participant's request, when new services are needed, or when there is a significant change in the participant's condition. (3-17-22)

04. Serious Emotional Disturbance (SED). The term "serious emotional disturbance" is defined in Section 16-2403, Idaho Code. (3-17-22)

05. YES Program Participant. A YES program participant is an Idaho resident under eighteen (18) years of age with a serious emotional disturbance as determined by an independent assessment. (3-17-22)

637. YOUTH EMPOWERMENT SERVICES (YES) HCBS STATE PLAN OPTION: ELIGIBILITY REDETERMINATION.

YES program participant eligibility will be redetermined by an independent assessment every twelve (12) months. The Department may extend participant eligibility to allow for redetermination if the independent assessment is unavoidably delayed. (3-17-22)

638. YOUTH EMPOWERMENT SERVICES (YES) HCBS STATE PLAN OPTION: COVERAGE AND LIMITATIONS.

The following services are covered for YES participants: (3-17-22)

01. Respite Care. Respite care provides supervision to the participant on an intermittent or short-term basis because of the need for relief of the primary unpaid caregiver of a YES program participant. Respite care is available in response to a family emergency or crisis, or may be used on a regular basis to provide relief to the caregiver. Payment and administration of respite care services will be done through the IBHP and will be established by the Department in the IBHP contract. (3-17-22)

02. Person-Centered Planning. A person-centered planning team, comprised of the participant, family members, and other support persons significant to the participant, will direct the development of the person-centered service plan through a process approved by the Department. The process will include support necessary to enable the participant and their family to make informed choices and decisions concerning the person-centered service plan. (3-17-22)

639. -- 644. (RESERVED)

**ADULT DEVELOPMENTAL DISABILITIES HOME AND COMMUNITY
BASED SERVICES (HCBS) STATE PLAN OPTION
(Sections 645-659)**

645. HOME AND COMMUNITY-BASED SERVICES (HCBS) STATE PLAN OPTION.

HCBS are provided through the HCBS State Plan option as allowed in Section 1915(i) of the Social Security Act for adults with DD who do not meet the ICF/IID level of care. HCBS State Plan option services must comply with Sections 310 through 319, and Sections 645 through 657 of these rules. (3-1-24)

646. COMMUNITY CRISIS SUPPORTS.

Community crisis supports are interventions for participants who have been determined eligible for developmental disability services and who are at risk of losing housing, employment, or income, or are at risk of incarceration, physical harm, family altercation, or other emergencies. (3-17-22)

647. COMMUNITY CRISIS SUPPORTS: ELIGIBILITY.

Prior to receiving community crisis supports, an individual must be determined by the Department or its contractor to have a developmental disability under Sections 500 through 506 of these rules and Section 66-402, Idaho Code, be eighteen (18) years of age or older, and live in the community. (3-17-22)

648. COMMUNITY CRISIS SUPPORTS COVERAGE AND LIMITATIONS.

Community crisis support may be authorized the following business day after the intervention if there is a documented need for immediate intervention, no other means of support are available, and the services are appropriate to rectify the crisis. Community crisis support is limited to a maximum of twenty (20) hours during any consecutive five (5) day period. (3-17-22)

01. Emergency Room. Crisis services may be provided in an emergency room during the ER evaluation process if the goal is to prevent hospitalization and return the participant to the community. (3-17-22)

02. Before Plan Development. Community crisis support may be provided before or after the completion of the assessment and plan of service. If community crisis support is provided before the completion of

the assessment and plan of service, the plan of service must include an identification of the factors contributing to the crisis and a strategy for addressing those factors in the future. (3-17-22)

03. Crisis Resolution Plan. After community crisis support has been provided, the provider of the community crisis support service must complete a crisis resolution plan and submit it to the Department for approval within five (5) business days of providing the service. (7-1-24)

649. DEVELOPMENTAL THERAPY.

The Department will pay for developmental therapy provided by facilities that have entered into a provider agreement with the Department and are certified as developmental disabilities agencies by the Department. (3-17-22)

650. DEVELOPMENTAL THERAPY: ELIGIBILITY.

Prior to receiving developmental therapy in a DDA an individual must be determined by the Department or its contractor to have a developmental disability under Sections 500 through 506 of these rules and Section 66-402, Idaho Code be eighteen (18) years of age or older, and live in the community. (3-17-22)

651. DEVELOPMENTAL THERAPY: COVERAGE REQUIREMENTS AND LIMITATIONS.

Developmental therapy must be recommended by a physician or other practitioner of the healing arts. (3-17-22)

01. Requirements to Deliver Developmental Therapy. Developmental therapy may be delivered in a DDA center-based program, the community, or the home of the participant. Developmental therapy includes individual developmental therapy and group developmental therapy. Developmental therapy must be delivered by Developmental Specialists or paraprofessionals qualified under these rules, based on an assessment completed prior to the delivery of developmental therapy. (7-1-24)

a. These services must be directed toward the rehabilitation or habilitation of physical or developmental disabilities in the areas of self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, or economic self-sufficiency. (7-1-24)

b. Developmental therapy includes instruction in daily living skills the participant has not gained at the normal developmental stages in their life or is not likely to develop without training or therapy. Developmental therapy must be age-appropriate. (7-1-24)

c. Developmental therapy does not include tutorial activities or assistance with educational tasks associated with educational needs that result from the participant's disability. (7-1-24)

d. Developmental Therapy may be provided in home and community-based settings as described in Section 312 of these rules. Developmental therapy, in both individual and group formats, must be available in both community-based and home-based settings, and be based on participant needs, interests, or choices. (7-1-24)

e. When group developmental therapy is center-based, there must be a minimum of one (1) qualified staff who may be a paraprofessional or a Developmental Specialist providing direct services for every twelve (12) participants. The community-based services must occur in integrated, inclusive settings and with no more than three (3) participants per qualified staff at each session. Additional staff must be added, as necessary, to meet the needs of each individual served. (7-1-24)

02. Excluded Services. The following services are excluded for Medicaid payments: (3-17-22)

a. Vocational services; (3-17-22)

b. Educational services; and (3-17-22)

c. Recreational services. (3-17-22)

- a. Developmental therapy must not exceed twenty-two (22) hours per week. (7-1-24)
- b. Developmental therapy provided in combination with supported employment services under these rules must not exceed forty (40) hours per week. (7-1-24)
- c. When a participant receives adult day health as provided in these rules, the combination of adult day health and developmental therapy must not exceed thirty (30) hours per week. (7-1-24)
- d. Only one (1) type of therapy will be reimbursed during a single period by the Medicaid program. Developmental therapy will not be reimbursed during periods when the participant is being transported to and from the agency. (7-1-24)

652. DEVELOPMENTAL THERAPY: PROCEDURAL REQUIREMENTS FOR INDIVIDUALS WITH AN ISP.

- 01. Eligibility Determination.** Prior to the delivery of developmental therapy, the person must be determined by the Department or its contractor to be eligible as defined under Section 66-402, Idaho Code, be eighteen (18) years of age or older, and live in the community. (3-17-22)
- 02. Intake.** Prior to the delivery of developmental therapy: (3-17-22)
 - a. A DDA will obtain a participant's current medical, social, and developmental information from the Department or its designee. (3-17-22)
 - b. The participant must have an ISP that is authorized in accordance with IDAPA 16.03.10, "Medicaid Enhanced Plan Benefits," Sections 507 through 515. Developmental therapy provided by the DDA must be included on the plan of service and be prior authorized by the Department or its designee before a participant can receive the service from the agency. (3-17-22)
- 03. Documentation of Plan Changes.** Documentation of changes in the required plan of service or Program Implementation Plan must be included in the participant's record. This documentation must include, at a minimum, the reason for the change, the date the change was made, and the signature of the professional making the change complete with date, credential, and title. If there are changes to a Program Implementation Plan that affect the type or amount of service on the plan of service, an addendum to the plan of service must be completed. (3-17-22)

653. DEVELOPMENTAL THERAPY: PROCEDURAL REQUIREMENTS FOR INDIVIDUALS WITH AN IPP.

- 01. Eligibility Determination.** Prior to the delivery of developmental therapy, the person must be determined by the Department or its contractor to be eligible as defined under Section 66-402, Idaho Code, be eighteen (18) years of age or older, and live in the community. (3-17-22)
- 02. Intake.** Individuals using the Home and Community-Based Services (HCBS) waiver for the Aged and Disabled (A&D) or State Plan Personal Care Services and only requesting DDA services, have the option to access services through an Individual Program Plan. Individuals who select this option are not required to have a developmental disability plan developer. Services delivered through an Individual Program Plan must be authorized by the Department or its contractor and be based on the Aged and Disabled written Individual Service Plan as defined in Section 328 of these rules. Prior to the delivery of developmental therapy, a DDA must complete an Individual Program Plan (IPP) that meets the standards described below. (3-17-22)

- 04. Individual Program Plan (IPP).** (3-17-22)
 - a. The IPP must be developed following obtainment or completion of all applicable assessments consistent with the requirements of this chapter. (3-17-22)
 - b. The planning process must include the participant, their legal guardian if one exists, and others the participant or their legal guardian chooses. The participant and their legal guardian if one exists must sign the IPP indicating they directed the person-centered planning process. The participant and their legal guardian if one exists must be provided a copy of the completed IPP by the DDA. A physician or other practitioner of the healing arts, the participant, and their legal guardian if one exists, must sign the IPP prior to initiation of any services identified within the plan. (3-17-22)
 - c. The planning process must occur at least annually, or more often if necessary, to review and update the plan to reflect any changes in the needs or status of the participant. Revisions to the IPP requiring a change in type, amount, or duration of the service provided must be recommended by the physician or other practitioner of the healing arts prior to implementation of the change. Such recommendations require written authorization by the participant, their legal guardian if one exists, and must be maintained in the participant's file. (3-17-22)
 - d. The IPP must be supported by the documentation required in the participant's record in accordance with IDAPA 16.03.21, "Developmental Disabilities Agencies (DDA)" record requirements. (3-17-22)

ADULTS WITH DEVELOPMENTAL DISABILITIES WAIVER SERVICES
(Sections 700-719)

700. ADULTS WITH DD WAIVER SERVICES.

Under 42 CFR Section 440.180, it is the intention of the Department to provide waiver services to eligible adult participants to prevent unnecessary institutional placement, provide for the greatest degree of independence possible, enhance the quality of life, encourage individual choice, and achieve and maintain community integration. For an adult participant to be eligible, the Department must find that the participant requires services due to a developmental disability that impairs their mental or physical function or independence, is capable of being maintained safely and effectively in a non-institutional setting, and would, in the absence of such services, need to reside in an ICF/IID. (7-1-24)

701. (RESERVED)

702. ADULT DD WAIVER SERVICES: ELIGIBILITY.

Waiver eligibility will be determined by the Department as described in Section 509 of these rules. The participant must be financially eligible for Medical Assistance under IDAPA 16.03.05, "Eligibility for Aid for the Aged, Blind, and Disabled (AABD)," Section 787. The cited chapter implements the Financial Eligibility Section of the Idaho State Plan. In addition, waiver participants must meet the following: (7-1-24)

01. Age of Participants. DD waiver participants must be eighteen (18) years old or older. (7-1-24)

02. Eligibility Determinations. The Department must determine that: (3-17-22)

a. The participant would qualify for ICF/IID level of care under Section 584 of these rules, if the waiver services listed in Section 703 of these rules were not made available; and (7-1-24)

b. The participant could be safely and effectively maintained in the requested or chosen community residence with appropriate waiver services. This determination must: (1) be made by a team of individuals with input from the person-centered planning team, and (2) prior to any denial of services on this basis, be determined by the plan developer that services to correct the concerns of the team are not available. (7-1-24)

c. The average annual cost of waiver services and other medical services to the participant would not exceed the average annual cost to Medicaid for ICF/IID care and other medical costs. (7-1-24)

03. HCBS Waiver-Eligible Participants. A participant who is determined by the Department to be eligible for services under the HCBS waivers for DD may elect not to utilize waiver services but may choose

admission to an ICF/IID. (7-1-24)

04. Processing Applications. The participant's self-reliance staff will process the application under IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind, and Disabled (AABD)," as if the application was for admission to an ICF/IID, except that the self-reliance staff will forward potentially eligible applications immediately to the Department for review. The Medicaid application process cited above conforms to all statutory and regulatory requirements relating to the Medicaid application process. (7-1-24)

05. Transmitted Decisions to Self-Reliance Staff. The decisions of the Department regarding the acceptance of the participants into the waiver program will be transmitted to the self-reliance staff. (3-17-22)

06. Case Redetermination. (3-17-22)

a. Financial redetermination will be conducted under IDAPA 16.03.01, "Eligibility for Health Care Assistance for Families and Children," and IDAPA 16.03.05, "Eligibility for Aid to the Aged, Blind, and Disabled (AABD)." Medical redetermination will be made at least annually or sooner by the Department at the request of the participant, the self-reliance staff, provider agency, or physician. The chapters cited implement Idaho's approved State Plan except for deeming of income provisions. (7-1-24)

b. The redetermination process will assess the following factors: (3-17-22)

i. The participant's continued need and eligibility for waiver services; and (3-17-22)

ii. Discharge from the waiver services program. (3-17-22)

07. Participant Eligibility Notifications. The Department will notify each participant of their eligibility decision as part of the initial eligibility determination, annual redetermination, or other reassessment process. The notification includes an individualized explanation of the decision and how the participant may appeal the eligibility decision. (7-1-24)

07. HCBS Waiver Participant Limitations. The number of Medicaid participants to receive waiver services under the HCBS waiver for DD participants will be limited to the projected number of users contained in the Department's approved waiver. Individuals who apply for waiver services after the waiver maximum has been reached will be placed on a waiting list and will have their applications processed after September 30th for the DD waiver of each new waiver year. (7-1-24)
