The career pathway plan shall be developed by students with the assistance of parents or guardians, and with advice and recommendation from school personnel. It shall be reviewed annually and may be revised at any time. The purpose of a parent-approved student career pathway plan is to outline a course of study and learning activities for students to become contributing members of society. A student career pathway plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the state and school district's or LEA's graduation standards in preparation for postsecondary goals. The school district or LEA will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the career pathway plan. School districts or LEA's may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA's reason for not requiring sixty (60) hours of total instruction per credit. (3-15-22)

The project must include elements of research, development of a thesis using experiential learning or integrated project based learning experiences and presentation of the project outcome. Additional requirements for a senior project are at the discretion of the local school district or LEA. Completion of a postsecondary certificate or

degree at the time of high school graduation or an approved pre-internship or internship program may be used to meet this requirement. The senior project will last apply for the class of 2027, unless an LEA opts to early implement the future readiness project. (7-1-25)

**04. Future Readiness Project.** The future readiness project is a culminating project that demonstrates a student's application of college and career competencies and exploration of potential post high school options. All students beginning with the class of 2028 must complete a future readiness project by the end of grade twelve (12). The project must include an experiential component, such as a work-based, service-based, research-based, or portfolio-based component in which a student demonstrates the acquisition of Idaho college and career competencies. Experiences including, but not limited to apprenticeships, internships, volunteer work and extracurricular activities related to real-world skills acquisition will count toward this requirement. LEAs must determine how students will demonstrate the acquisition of college and career competencies and may require additional components. The State Department of Education will provide templates for LEAs and oversee the implementation of this provision. (7-1-25)

**05. Localized Pathways.** In order to assist students in structuring their secondary course selection electives, assessment, and supplemental activities, all LEAs shall develop and post publicly two or more localized pathways. Localized pathways are designed to inform students and parents/guardians of local opportunities aligned with post-secondary goals as identified in the student's career pathway plan. The State Department of Education shall support the implementation of this provision. This provision must be implemented by all LEAs no later than June 30, 2026. (7-1-25)

Physical Education.** Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the Physical Education Content Standards in a format provided by the LEA. (7-1-25)

- a.** The student completes such course with a grade of C or higher before entering grade nine (9); (3-15-22)
- b.** The course meets the same content standards that are required in high school for the same course; (3-15-22)  
and
- c.** The course is taught by a teacher properly certified to teach high school content and who meets the federal definition of highly qualified for the course being taught. (3-15-22)
- d.** The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course will be transferred to the student's high school transcript. Notwithstanding this requirement, the student's parent or guardian shall be notified in advance when credits are going to be transcribed and may elect to not have the credits and grade transferred to the student's high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.d. through 105.01.i. except as provided in 105.01.e.i. The transcribing high school is required to verify the course meets the requirements specified in Subsections 105.08.a. through 105.08.c. of this rule. (7-1-25)

ii. The State Board of Education will set long-term goals and measurements of interim progress targets toward those goals. The baseline for determining measurable student progress will be set by the State Board of Education and shall identify the amount of growth (percentage of students reaching proficiency) required for each intermediate period. (3-15-22)

**b. Full Academic Year (continuous enrollment).** (3-15-22)

i. A student who is enrolled continuously in the same public school from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included in the calculation to determine if the school achieved progress in any statewide assessment used for determining proficiency. A student is continuously enrolled if the student has not transferred or dropped-out of the public school. Students who are serving suspensions are still considered to be enrolled students. (3-15-22)

ii. A student who is enrolled continuously in the school district from the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the school district has achieved AYP. (3-15-22)

iii. A student who is enrolled continuously in a public school within Idaho from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the state has achieved progress in any statewide assessment used for determining proficiency. (3-15-22)

**c. Participation Rate.** (3-15-22)

i. Failure to include ninety-five percent (95%) of all students and ninety-five percent (95%) of students in designated subgroups automatically identifies the school as not having achieved measurable progress in ISAT proficiency. The ninety-five percent (95%) determination is made by dividing the number of students assessed on the Spring ISAT by the number of students reported on the class roster file for the Spring ISAT. (3-15-22)

(1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most current three (3) year average of participation. (3-15-22)

(2) Students who are absent for the entire state-approved testing window because of medical reasons or are homebound are exempt from taking the ISAT if such circumstances prohibit them from participating. Students who drop out, withdraw, or are expelled prior to the beginning of the final makeup portion of the test window are considered exited from the school. (3-15-22)

ii. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination. (3-15-22)

**d. Schools.** As used in this section, schools refers to any school within a school district or charter district and public charter schools. (3-15-22)

i. An elementary school includes a grade configuration of grades Kindergarten (K) through six (6)

inclusive, or any combination thereof. (3-15-22)

ii. A middle school is a school that does not meet the definition of an elementary school and contains grade eight (8) but does not contain grade twelve (12). (3-15-22)

iii. A high school is any school that contains grade twelve (12). (3-15-22)

iv. An alternative high school is any school that contains grade twelve (12) and meets the requirements of Section 110 of these rules. (3-15-22)

v. The accountability of public schools without grades assessed by this system (i.e., K-2 schools) will be based on the third grade test scores of the students who previously attended that feeder school. (3-15-22)

vi. A “new school” for purposes of accountability is a wholly new entity receiving annual measurable progress determinations for the first time, or a school with a significant student population change as a result of schools being combined or geographic boundaries changing, or a result of successful school restructuring sanctioned by the Office of the State Board of Education. (3-15-22)

e. Subgroups. Scores on the ISAT must be disaggregated and reported by the following subgroups: (3-15-22)

i. Race/Ethnicity - Black/African American, Asian, Native Hawaiian/Pacific Islander, White, Hispanic/Latino Ethnicity, American Indian/Alaska Native. (3-15-22)

ii. Economically disadvantaged - identified through the free and reduced lunch program. (3-15-22)

iii. Students with disabilities - individuals who are eligible to receive special education services through the Individuals with Disabilities Education Act (IDEA). (3-15-22)

(1) Individuals whose native language is a language other than English; or (3-15-22)

(2) Individuals who come from environments where a language other than English is dominant; or (3-15-22)

(3) Individuals who are American Indian and Alaskan natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency, and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language to deny such individuals the opportunity to learn successfully in classrooms, where the language of instruction is English. (3-15-22)

f. Graduation Rate. The graduation rate will be based on the rate of the cohort of students entering grade nine (9) during the same academic year and attending or exiting the school within a four (4) year or five (5) year period as applicable to the measure being determined. In determining the graduation cohort the school year shall include the students who complete graduation requirements prior to the start of the school district or charter schools next fall term. School districts may only report students as having graduated if the student has met, at a minimum, the state graduation requirements, pursuant to Section 105, and will not be returning to the school in following years to complete required academic course work. The State Board of Education will establish a target for graduation. All high schools must meet the target or make sufficient progress toward the target each year, as determined by the State Board of Education. The graduation rate will be disaggregated by the subgroups listed in Subsection 112.05.g. (3-15-22)

g. Additional Academic Indicator. The State Board of Education will establish a target for all additional academic and school quality measures. All schools must maintain or make progress toward the additional academic and school quality measure target each year. The additional academic and school quality measure targets

will be disaggregated by the subpopulations listed in Subsection 112.05.g. (3-15-22)
