074. AVERAGING SELF-EMPLOYMENT INCOME.

01. Annual Self-Employment Income. When self-employment income is considered annual support by the household, the Department averages the self-employment income over a twelve-month (12) period, even if: (3-17-22)

a. The income is received over a shorter period of time than twelve (12) months; and (3-17-22)

- b. The household receives income from other sources in addition to self-employment. (3-17-22)

02. Seasonal Self-Employment Income. A seasonally self-employed individual receives income from self-employment during part of the year. When self-employment income is considered seasonal, the Department averages self-employment income for only the part of the year the income is intended to cover. (3-17-22)

075. CALCULATION OF SELF-EMPLOYMENT INCOME.

The Department calculates self-employment income by adding monthly income to capital gains and subtracting a deduction for expenses as determined in Subsection 075.03 of this rule. (3-17-22)

01. How Monthly Income is Determined. If no income fluctuations are expected, the average monthly income amount is projected for the certification period. If past income does not reflect expected future income, a proportionate adjustment is made to the expected monthly income. (3-17-22)

02. Capital Gains Income. Capital gains include profit from the sale or transfer of capital assets used in self-employment. The Department calculates capital gains using the federal income tax method. If the household expects to receive any capital gains income from self-employment assets during the certification period, this amount is added to the monthly income as determined in Subsection 075.01 of this rule to determine the gross monthly income. (3-17-22)

03. Self-Employment Expense Deduction. The Department uses the standard self-employment deduction in Subsection 075.03.a. of this rule, unless the applicant claims that their actual allowable expenses exceed the standard deduction and provides proof of the expenses described in Subsection 075.03.b. of this rule. (3-17-22)

a. The self-employment standard deduction is determined by subtracting fifty percent (50%) of the gross monthly self-employment income as determined in Subsections 075.01 and 075.02 of this rule; or (3-17-22)

b. The self-employment actual expense deduction is determined by subtracting the actual allowable expenses from the gross monthly self-employment income. The following items are not allowable expenses and may not be subtracted from the gross monthly self-employment income: (3-17-22)

- i. Net losses from previous tax years; (3-17-22)
- ii. Federal, state, and local income taxes; (3-17-22)
- iii. Money set aside for retirement; (3-17-22)
- iv. Work-related personal expenses such as transportation to and from work; and (3-17-22)
- v. Depreciation. (3-17-22)

076. PROJECTING MONTHLY INCOME.

Income is projected for each month. Past income may be used to project future income. Changes expected during the certification period will be considered. Criteria for projecting monthly income is listed below: (3-17-22)

01. Income Already Received. Count income already received by the household during the month. If the actual amount of income from any pay period is known, use the actual pay period amounts to determine the total month's income. Convert the actual income to a monthly amount if a full month's income has been received or is expected to be received. If no changes are expected, use the known actual pay period amounts for the past thirty (30) days to project future income. (3-17-22)

02. Anticipated Income. Count income the household and the Department believe the household will get during the remainder of the certification period. If the income has not changed and no changes are anticipated, use the income received in the past thirty (30) days as one indicator of anticipated income. If changes in income have occurred or are anticipated, past income cannot be used as an indicator of anticipated income. If income changes and income received in the past thirty (30) days does not reflect anticipated income, the Department can use the household income received over a longer period to anticipate income. If income changes seasonally, the Department can use the household income from the last season, comparable to the certification period, to anticipate income.

(3-17-22)

a. Full Month's Income. If income will be received for all regular pay dates in the month, it is considered a full month of income. (3-17-22)

b. If income will not be received for all regular pay dates in the month, it is not considered a full month of income and it is not converted. (3-17-22)

c. Income Paid on Salary. Income received on salary, rather than an hourly wage, is counted at the expected monthly salary rate. (3-17-22)

d. Income Paid at Hourly Rate. Compute anticipated income paid on an hourly basis by multiplying the hourly pay by the expected number of hours the client will work in the pay period. Convert the pay period amount to a monthly amount. (3-17-22)

e. Fluctuating Income. When income fluctuates each pay period and the rate of pay remains the same, average the income from the past thirty (30) days to determine the average pay period amount. Convert the average pay period amount to a monthly amount. (3-17-22)

077. CONVERTING INCOME TO A MONTHLY AMOUNT.

If a full month's income is expected, but is received on other than a monthly basis, convert the income to a monthly amount using one of the formulas below: (3-17-22)

01. Weekly Amount. Multiply weekly amounts by four point three (4.3). (3-17-22)

02. Bi-Weekly Amount. Multiply bi-weekly amounts by two point one five (2.15). (3-17-22)

03. Semi-Monthly Amount. Multiply semi-monthly amounts by two (2). (3-17-22)

04. Monthly Amount. Use the exact monthly income if it is expected for each month of the certification period. (3-17-22)

078. ASSET CAP.

A family must not be in possession of assets exceeding one million dollars (\$1,000,000). (3-17-22)

Primary custody is determined by where the child is expected to spend fifty-one percent (51%) or more of the nights during a benefit period. When only one (1) parent applies for ICCP benefits, the child may be included in that parent's household even though they do not have primary physical custody of the child. (3-17-22)

An incapacitated parent, unable to adequately care for the children in a two (2) parent family, is not required to have any qualifying activities as listed under Section 200 of these rules, as long as the other parent is participating in qualifying activities. a. The local market rates for child care are the maximum monthly amounts that ICCP will pay for any given category of child care in a geographic area designated by the Department. The local market rates for child care are established based on a comprehensive survey of child care providers. Using information gathered in the survey, including the age of child, the type of child care, and the designated area where the provider does business, a local market rate is specified for each category of child care.
